

Outstanding Graduate for Academic Achievement

Mckenna Partridge

Physics

UNIVERSITY OF COLORADO BOULDER

Outstanding Graduate in Engineering Physics

Andrés Villani Davila

Andrés was also named Outstanding Graduate for Research in the College of Engineering and Applied Science!

Physics

UNIVERSITY OF COLORADO BOULDER

Outstanding Graduate in Physics and Stephen Halley White Undergraduate Research Award

Antonio Vigil

Stephen Halley White Undergraduate Research Award

The Stephen Halley White Undergraduate Research Award was created in 2014 to recognize and reward outstanding undergraduate research projects in physics. Dr. White earned a B.A. degree in physics at the University of Colorado Boulder (1963). He worked during his undergraduate years at CU in the laboratories of Prof. Walter Tantilla as an NMR electronics technician; Prof. Donald Burckhardt helping with the development of a speech-synthesizing system; and Prof. Seth Mizushima doing original research on the development of a liquid-state laser.

Antonio was also named
the Outstanding Graduate
in the College of Arts &
Sciences!
