

Gala Orba for Boulder City Council

Student interns/volunteers needed

My name is Gala and I am running for City Council here in Boulder. I am in need of some students to round out my kitchen cabinet. I am looking for about 5 people to work with on this campaign. Tasks include everything from social media to website help, yard sign distribution to accompanying me on knocking on doors. I will even be happy to hear student ideas on campaign strategy.

I am running a grassroots organization. I am a recent teacher. Student volunteers and interns do not need experience in campaigning, as I can easily teach them and train them. I could use 5-8 hours of assistance per week starting as soon as possible.

The vote is Nov 5th, so the commitment is through November 8th, after the election, as we have to collect all the signs and other materials distributed around town.
