

Komal Preet Kaur – Methods Lab Coordinator (Fall 2022)

Komal.kaur@colorado.edu

Hi there!

As a methods lab coordinator, I am here to help you learn statistical analysis in R and STATA. Please feel free to reach out to me if you are facing any issues regarding data cleaning, data visualization, data analysis, and interpreting outputs. I will be glad to help you advance your working knowledge of statistical programming.

Virtual office hours

I am available on Wednesdays and Thursdays from 8:00 am to 6:00 pm over Zoom via appointment. You can book an appointment with me using my Calendly page using the following link: <https://calendly.com/komalk-/>.

You will receive Zoom conferencing details upon confirmation.

Expectations and considerations

- For effective time management, you need to sign up at least 12 hours in advance.
- I am happy to extend the meeting beyond the scheduled time slot if the next slot is available.
- I want to be considerate of your time. Therefore, at the time of booking an appointment, please share in detail what you wish to discuss during our meeting.
- I expect you to be considerate of your peers' time. So, if you booked an appointment with me that you no longer wish to attend, please cancel the meeting using the Calendly confirmation email that you received at the time of the appointment. This way, you do not have to email me about cancellation and the slot will be available for your peers.
