

# AGeS-DiG Award Application

Please be sure to read the [How to Apply](#) page before you begin, and review them again before submitting.

Proposals must include all of the following and fit within the stated character limits. Incomplete proposals will not be considered.

\* = Required

## PERSONAL INFORMATION

\* **First Name:**

\* **Last Name:**

\* **Email:**

researchgrants@geosociety.org

\* **Street Address:**

**Address 2:**

**Address 3:**

\* **City:**

**\* State:**

**Birth Date:**

mm/dd/yyyy

**GSA Member ID:**

**Gender to which gender identity do you most identify?:**

SELECT

#### ACADEMIC INFORMATION

**\* University. Please use the full official name of your university:**

Co-PI (cooperative Primary Investigator)

Co-PI Institution:

Co-PI Email:

PROPOSAL INFORMATION

**\* Project Title:**

**\* Identify the minoritized group to be targeted with the project. Explain why this group is underrepresented in geochronology and thus why it is appropriate to target students of this group with an AGeS-DiG project (1,000 character limit):**

**\* Do you or any other persons on this proposal identify as an underrepresented group? This is not a requirement for funding. (500 character limit):**

the project will be a successful and positive experience for the students. Explain the science project or science questions to be addressed, which may include geoscience education research. Priority will be given to projects that emphasize authentic research experiences for the student group. The scope of the science should be feasible within the proposed time frame (up to 18 months for the expenditure of the DiG funds). Details of student recruitment, selection, mentorship, and retention are requested in response to the next two questions. (500 character limit):

**\* State how many students will be involved in the project, and explain how the target group will be recruited and selected. Resources on [recruitment and participant selection](#) are on the AGeS website. Stipends for the participating students should be included in the budget (1,200 character limit):**

**\* Explain how the student participants will be mentored and retained in the project, how you will create a safe and welcoming space for the recruited group, and how you will enhance the overall professional development of the students. Please describe any experience that you or other project partners have in promoting diversity, equity and inclusion and in developing welcoming environments for underrepresented individuals. Resources on [inclusive practices for labs and mentors](#), and [additional resources](#), are on the AGeS website (1,200 character limit):**

**\* Brief timeline. Proposed projects should be implemented and funds fully expended during the January 1, 2024 to June 30, 2025 time frame (500 character limit):**

**\* References cited in proposal (2,500 character limit):**

**\* Available funds. Please explain if you currently have any funds available for the proposed project. Is the project that you propose likely to occur without AGeS-DiG support? Although not a requirement, AGeS-DiG encourages PIs to leverage opportunities to obtain some amount of matching funds (e.g., a match of 10%, 25%, 50% from the University or other source) if an AGeS-DiG award is obtained in order to magnify their project impacts. (500 character limit):**

List in order of priority and be sure to total up each column of budgeted item costs. Only enter numbers (no decimals, commas, or alphanumeric characters).

#	Budget Item	Total Amount Budgeted	Amount Requested from AGeS Program (\$15,000 max)
* 1	<input type="text"/>	<input type="text"/>	<input type="text"/>
2	<input type="text"/>	<input type="text"/>	<input type="text"/>
3	<input type="text"/>	<input type="text"/>	<input type="text"/>
4	<input type="text"/>	<input type="text"/>	<input type="text"/>
5	<input type="text"/>	<input type="text"/>	<input type="text"/>
6	<input type="text"/>	<input type="text"/>	<input type="text"/>
7	<input type="text"/>	<input type="text"/>	<input type="text"/>
8	<input type="text"/>	<input type="text"/>	<input type="text"/>
* Grand Total:		<input type="text"/>	<input type="text"/>

\* **Budget justification for funds requested from the AGeS program.** (500 character limit).

The funding is not a grant to an institution but is paid directly to individuals, labs, or other vendors from AGeS award funds managed by Arizona State University. As such, institutional indirect costs (e.g., overhead) should not be included in proposal budgets. The duration of DiG proposals funded in fall 2023 will be January 1, 2024 to June 30, 2025, during which all DiG funds should be expended. Requested funds from AGeS may not exceed \$18,000 per proposal

- Funds for travel, food, lodging, and meetings
- Analytical and training fees, costs of equipment or consumables required for the project, and sample preparation fees
- Stipends for student participants should be included in the budget. For reference, typical stipend amounts of NSF REU (Research Experiences for Undergraduates) programs are \$600-\$650/week, or \$15-\$16.25/hour.
- Postdoc and graduate students engaged in project mentorship may also request a stipend for their time.

## LABS

**Although it is not a requirement that a lab be involved in an AGeS-DiG project, if a lab is engaged, provide the full URL ("http://...") to the lab profile provided of the collaborating AGeS lab. Lab profiles may be viewed at**

**<https://www.colorado.edu/program/agesgeochronology/lab-partners/lab-partner-list> (250 character limit):**

**If you intend to work with two AGeS labs, provide the full URL to the lab profile of the second collaborating AGeS lab (250 character limit):**

**By submitting this application, I certify that I have read the [How to Apply](#) page. All text entered is original; I have not copied text from other proposals or have had anyone else write the text for me.**
