

MS-DS Residential Course Assistant Position (graduate hourly)

Salary \$20/hr

The Data Science Program seeks diligent and hardworking graduate students to support faculty in four areas: Statistics, Vital Skills in Data Science, Data Mining, and Data Structures & Algorithms. These courses cover topics across data science, computer science, statistics, and others.

Hours range from 10-15 hr/wk. Position begins September 2023 and continues through the end of the semester. Optional continuation based on job performance.

Responsibilities for this position will include...

General

- Communicate regularly with their faculty supervisor
- Hold regular office hours
- Assist with grading

Skills and competencies

Required

- Subject matter expertise around assigned courses
- Strong time management and organization skills and the ability to work independently
- Strong English written and verbal skills, especially over email
- An enthusiasm for helping others learn
- Ability to solve problems independently and creatively
- Ability to work well with faculty, staff, and students from around the world
- A strong academic background in statistics, computer science, and/or data science
- Familiarity with Canvas
- Fluent in either Python or R

To apply, please fill out the questionnaire on the [DS website](#), and upload a one-page résumé, and a cover letter detailing relevant experience, and an unofficial academic transcript. Applications will be considered on a rolling basis until the position is filled.
