

You will be using books from our reference collections to complete this project. They include various coin catalogues and also:

B. V. Head, *Historia Numorum*. 1963.
G. F. Hill, *Historical Greek Coins*. 1966.
C. M. Kraay, *Greek Coins*. 1966.
N. Davis, *Greek Coins & Cities*. 1967.
C. M. Kraay, *Archaic and Classical Greek Coins*. 1976.
G. K. Jenkins, *Ancient Greek Coins*. 1990.
P. Jones, *Greek Coin Art*. 2025.

M. Thompson et al., *Inventory of Grek Coin Hoards*, 1973.

L. Anson. *Numismata Graeca: Greek Coin-Types Classified for Immediate Identification*. 1967.

*

With a partner, pick two coins and note their city-states.

- Write down one interesting thing about the coinage or the history of the city-state itself
- Find at least two hoards that have at least one of your coins in them
 - Where were the hoards found/what is their date?
 - How many coins were in each hoard?
 - What were the other coins in each one?
 - Is there overlap between the coins found in each hoard?
- Plot the hoard findspots and the original city-states of the coins found in at least one of your hoards on the map (if they are not on this map, make a note in the margin)
