UNIVERSITY OF COLORADO **BOULDER**

Congratulations from faculty!

Dear Graduates. I couldn't be prouder of your accomplishments, especially over the past few months. You faced the challenges head-on and prevailed. You showed the world what you could do, with grace and grit and good humor. A special shout-out to Caity Roe. It was a supreme pleasure to work with you. I can't wait to see what you'll do next!

With best wishes,

-Dr. Irene Blair, Professor and Department Chair

Congratulations Class of 2020! We are so proud of you. We celebrate your amazing accomplishments here at CU Boulder and look forward to the ways you will bring your knowledge and vision to the future. Our world needs you!

-Dr. Sona Dimidjian

Congratulation to the graduates!

-Dr. Alison Vigers (NRSC 4072 Clinical Neuroscience)

Congratulations graduates! I wanted to say congratulations in a slightly more personable way. <https://www.youtube.com/watch?v=37ITczALQjU>

"Congratulations to ALL graduates this year. I would like to thank you, your family, your friends, and everyone who's supported you along this journey to where you are now. You've done it! I hope that you can take all the skills that you've learned, and all of the methods that you have learned, and apply them to whatever life's problems have in store for you, your community, and the world. We have faith in you and want to sincerely say 'congratulations.'"

-Dr. Ryan Curtis

Congratulations to all our psychology and neuroscience graduates! A special shout out to all the graduating learning assistants (LAs) who have contributed so much to everybody's experience in our department. An extra special shout out to Koy Ecton, who has been the most amazing LA for NRSC 2200 the past 2 semesters. Congratulations Koy and the class of 2020!!

-Best wishes, Heidi/Dr. Day

Hello graduates!

I recently found this quote by Arthur Ash, a tennis great and a promotor of human rights, education and public health. Words to help guide us all as we navigate the future. It was such a pleasure to have many of you in class. I wish you the best of luck!

"Start where you are. Use what you have. Do what you can."

- Cheers, Dr. Natalie Smutzler

As if graduating from college wasn't already challenging, you took on the additional burden of doing so during a global pandemic (show off 😊). I am so incredibly proud of what each of you has accomplished, and I can't wait to see all of the AMAZING things you will do with your lives. The best is yet to come!

-Dr. Jenn Stratford

A huge congratulations to all students for a job well done! We wish we could celebrate with you in person and wish you the best in the years ahead!

- Dr. Joanna Arch

Congratulations to this year's graduates! It is a great accomplishment to complete your degree, and doing so during a pandemic is even more laudable. Keep learning and growing, and best wishes for your future adventures!
