

UNDERGRADUATE AWARDS

1. **Imogene Jacobs Award** - Imogene Jacobs Award is given to an outstanding Junior Psychology major (note that this fund is designated for recognition of Psychology majors), as indicated by academic accomplishments (e.g., GPA, research or teaching contributions, or the quality of academic work as evaluated by faculty). Eligible students must be a psychology major, current junior-class standing, obtain a written letter of nomination by a full-time faculty member of the Department of Psychology & Neuroscience, and a letter of support from another professor.
2. The **Imogene Jacobs Psychology Thesis Award** – This award is given to a Psychology major who has completed the best honors thesis in psychology. As winners will be chosen by the Honors Committee, no student application is required for this award.
3. The **Neuroscience Thesis Award**. This award is given to a Neuroscience major who has completed the best honors thesis in Neuroscience. As winners will be chosen by the Honors Committee, no student application is required for this award.
4. The **Psychology/Neuroscience Leadership Award** will be given to the student who has contributed the most to the leadership and functioning of the Department of Psychology and Neuroscience. Leadership may be demonstrated in service to student organizations that are connected to the department (e.g. Psi Chi or the Neuroscience Club) or other activities/roles. Students will need to submit a letter describing their leadership activities and have at least one faculty nominating letter.
5. The **David E. Drutz Scholarship**. These funds are available for sophomores and juniors in the Department of Psychology and Neuroscience who are actively enrolled and will be continuing to attend CU during the scholastic year following receipt of the award.

We will award 4 of these per year, at \$2000 each. Both Psychology and Neuroscience majors will be considered.

Students should have a minimum overall GPA of 3.3, and have demonstrated financial need. Beyond these qualifications, awards will be made on the basis of academic achievement (e.g., GPA, research or teaching contributions, or the quality of academic work as evaluated by faculty). Students may also apply for this scholarship if they have been recommended by faculty to travel to conferences to present a poster or talk, and would not otherwise have the funds to do so.

The applications will consist of a letter written by the student describing their reasons for applying for the scholarship, an unofficial transcript, and a faculty nomination letter.
