## Survey Highlights

### Survey Background

In March of 1998, the Regional Transportation District (RTD) conducted its first survey of Colorado University (CU) employees who are eligible for an Eco-Pass. Follow-up surveys were conducted in October 1998, May 1999, May 2000, May 2001 and winter 2002.

A similar effort for all Boulder County or Boulder Valley employees had been conducted every two years from 1991 to 2001, commissioned by the City of Boulder. In addition, the Downtown Management Commission also conducted a periodic survey of downtown Boulder employees every few years, beginning in 1993. In 2005, it was decided that these efforts could be combined to achieve some cost savings for all the involved agencies. In addition, the University also elected to survey the Boulder campus students. In 2011, 2014 and 2017, these efforts were again undertaken together, although the CU students have not been included in all of those iterations.

The purpose of the Boulder Valley Employee Survey is to understand the work commute of Boulder's "daytime" population; that is, those who are employed within the Boulder Valley, but may not live in the city of Boulder. Although all participating agencies had previously implemented some kinds of transportation surveys, in 2005, as much as possible, the same set of questions were used across all the study groups, to allow comparisons, and to realize the cost-efficiency savings. A similar survey was used in 2011, 2014, 2017 and 2022 with minor modifications.

Invitations were emailed to the 8,819 CU employees starting on October 19, 2022. Reminder emails were sent on October 27 and November 2, 2022. A total of 1,753 completed surveys were obtained. Overall, the response rate was 20%.

It is customary to describe the precision of estimates made from surveys by a "level of confidence" (or margin of error). The 95 percent confidence level for the survey is generally no greater than plus or minus two percentage points around any given percent reported for the entire sample.

Where comparisons could be made with results from previous surveys, they are included. For 1998, only the October 1998 results were used.

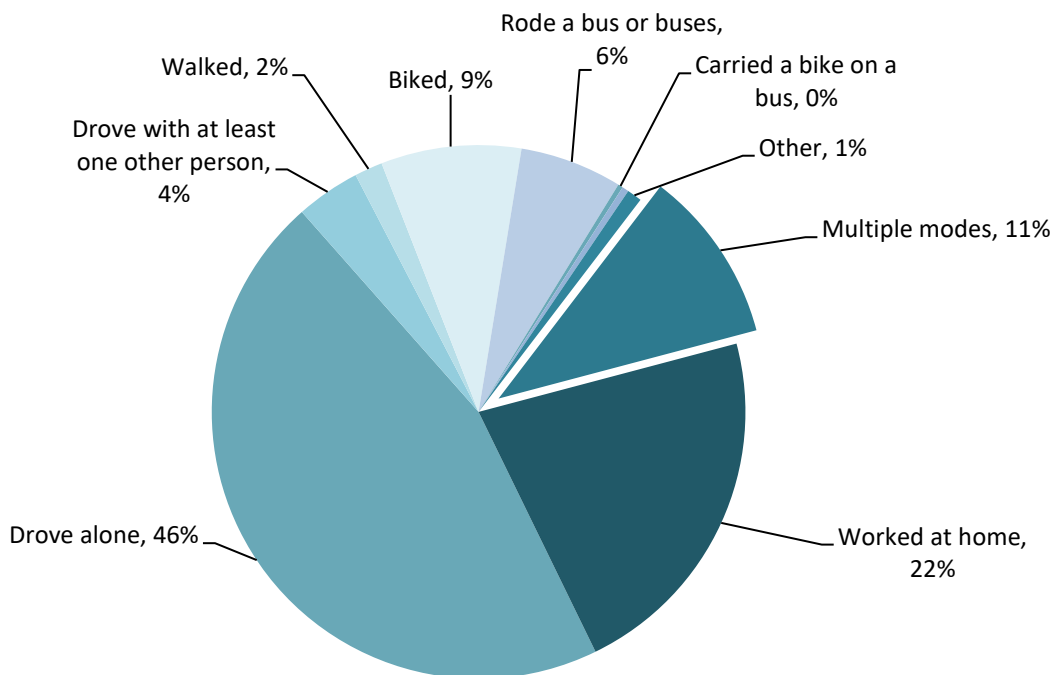

## Modal Share of the Work Commute

One of the main purposes of the CU Faculty and Staff Transportation Survey was to determine the “modal share” of trips made to and from the Boulder Campus by University employees; that is, the proportion of work commute trips made via each method of transportation.

The first item on the questionnaire asked how the respondent got to work on the day they completed the survey. They could mark more than one mode if they had used multiple modes to complete their commute: for example, riding a bike to a bus, and then riding a bus. The percentages in Figure 1 add to 100% as respondents who checked more than one mode on the survey were categorized into a “multiple modes” category. Eleven percent of respondents had used more than one mode for their work commute.

The most common mode used for the work commute on the survey day was a single-occupancy vehicle (SOV); 46% of those participating in the survey drove alone to work without using any other mode. The next most frequently used modes of travel were bicycling and transit. About 9% and 6% of respondents, respectively, had used each of these modes as their only mode for the work commute. Four percent of respondents had carpooled or vanpooled to work, while 2% had walked. Finally, 22% of respondents reported having worked from home, and another 1% had used some other type of mode of transportation.

Figure 1: Modal Share of the Work Commute  
(Multiple responses recoded as *multiple modes*)

On the 11% that used more than one mode for their work commute, driving alone and riding a bus were the most common modes used, followed by walking, biking and using Park-n-Ride. Among the most common combinations were riding a bus and walking; driving and riding a bus; using park-n-ride and riding a bus; driving and walking; driving and riding a bus (see Table 7 on Appendix A: Responses to Survey Questions).

Those who commuted with a vehicle were asked what type of vehicle was used: a private vehicle, a company or fleet vehicle, a care share a vanpool, or a taxi or ride share. Nearly all respondents who had used a vehicle had used a private vehicle; one respondent had used a fleet vehicle and another had used a car share. Those who had biked were likewise asked what type of bike they had used; 85% used a private bicycle. 12% a private E-bike and 3% used a BCycle (see *Table 3: Question #1 Type of Vehicle* and *Table 5: Question #1 Type of Bike in Appendix A: Responses to Survey Questions*).

From 2005 to 2017, there had been an increase in the proportion of work commute trips (for either the entire commute or a part of the commute) made by driving alone. In 2022 this proportion went down for first time, decreasing to 52% from 58% in 2017. Transit and commuting by bicycle also declined from 2017 (see Figure 2 and Figure 3). Replacing those trips there was a large increase of teleworking from 1% in 2017 to 26% in 2022.

Figure 2: Modal Share of Work Commute, 2005-2022  
(Without recoding multiple responses)

Figure 3: Modal Share of the Work Commute, 2005-2022  
(Without recoding multiple responses)

\*Percentages may add to more than 100% as respondents could give more than one answer

## Characteristics of the Work Commute

CU faculty and staff participating in the survey reported on several other characteristics of their work commute, beyond the mode. The average distance of a University employee’s work commute was 15.2 miles (see Figure 4 below), while the average duration was 33 minutes (see Figure 6 on the next page). Work commute distances have increased for University employees over time; from 9.7 miles on average in 1998 to 15.2 miles in 2022. Covid and teleworking may have helped to increase the average distance since 2017.

Figure 4: Average Distance of the Work Commute, 1998-2022

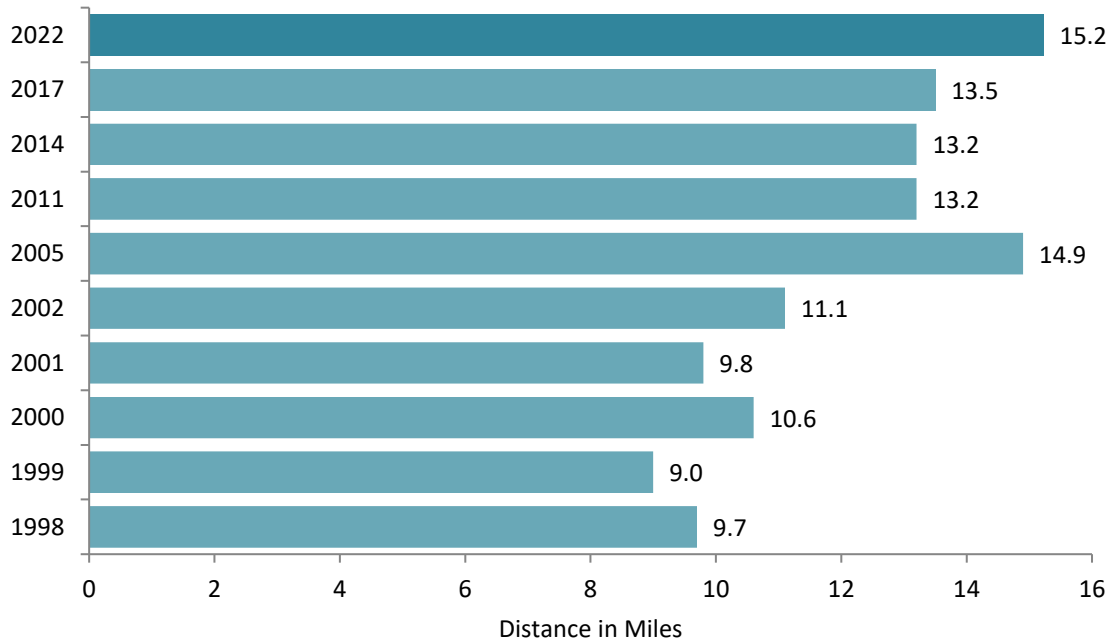

Figure 5: Distance of Work Commute in Miles, 2005-2022

About how far is your home from work?	Percent of Respondents

<b>Average duration of the work commute</b>	<b>33 minutes</b>	<b>32 minutes</b>	<b>33 minutes</b>	<b>32 minutes</b>	<b>28 minutes</b>
<b>Median duration of the work commute</b>	<b>30 minutes</b>	<b>30 minutes</b>	<b>28 minutes</b>	<b>30 minutes</b>	<b>25 minutes</b>

When asked where they lived, about one-quarter of respondents said they lived within the city limits of Boulder, while three-quarters lived outside Boulder. The proportion of University employees living outside the city increased from 2017 to 2022.

Figure 7: Place of Residence, 2005-2022

Do you live in Boulder city limits?	Percent of Respondents				
	2022	2017	2014	2011	2005
Yes	25%	32%	32%	35%	36%
No	75%	68%	68%	65%	64%
Total	1005	100%	100%	100%	100%

As would be expected, the distance from work and place of residence was associated with mode choice for the work commute. About 20% of respondents who lived 2 miles or less from their workplace commuted to work by driving alone, while about 60% of those who lived 6 miles or more from their workplace did so (see Figure 8: Modal Share by Distance of Work from Home 2022). Respondents who lived within 2 miles of their workplace were more likely to walk (18%) for at least part of their work commute than were those who lived more than 2 miles away (~4%). Biking was much more common among those who lived 5 miles or less from work, than among those who lived further away.

Those who lived in Boulder were more likely to use alternative modes of transportation than to commute alone in a private vehicle. About 6 in 10 of those living outside Boulder commuted alone in a private vehicle for at least part of the work commute, compared to about a quarter of those who lived in Boulder. Both those who resided in or outside of Boulder were about equally likely to use a bus (see Figure 9).

Figure 8: Modal Share by Distance of Work from Home 2022

The 7:00, 8:00 and 9:00 am hours were the most popular work arrival times reported by CU faculty and staff participating in the study, with four-fifths of respondents indicating that was when they arrived at work. About 5% arrived before 7:00 am, while 8% arrived between 10:00 am and 12:00 noon (see Figure 10 below, and Figure 12 on the following page). Employee departure times were equally peaked: 32% said they leave during the 4:00 pm hour and also 32% leaves during the 5:00 pm hour. Another 10% leaves work during the 3:00 pm hour and 9% do it at 6:00 pm (see Figure 11 below and Figure 12 on the following page).

About 9 in 10 respondents had gone straight from home to work on the last day they commuted and of those who had made a stop, 8 in 10 made only one stop (see Table 12: Question #4b in Appendix A: Responses to Survey Questions).

Respondents were more likely to have made stops on the way home from work, although a majority (64%) made no stops (see Figure 13). Of those who did make stops, the average number of stops was 1.7 (see Figure 14). Stops in the way home have decreased since 2017.

Figure 13: Number of Stops Made on Commute from Work to Home on the Previous Work Day

Figure 14: Number of Stops on the Way Commute from Work to Home, 2005-2022

Yesterday, or on the last day you worked, how many stops did you make on your way home?	Percent of Respondents				
	2022	2017	2014	2011	2005
0 (straight home from work)	64%	56%	54%	53%	50%
1 stop	25%	30%	31%	29%	31%
2 stops	8%	10%	10%	12%	12%

Total	100%	100%	100%	100%	100%
Average Number of Stops Made by Those Making Any Stops	1.7 stops	1.6 stops	1.5 stops	1.7 stops	1.8 stops

Most (78%) of the vehicles that were privately operated for the work commute were occupied by only the driver. The average vehicle occupancy was 1.1 persons per vehicle. The average vehicle occupancy of vehicles with more than one person was 2.5 persons per vehicle, with an average of about 0.24 child per vehicle with any passengers.

Figure 15: Vehicle Occupancy, 2005-2022

Number of People in Automobiles for the Work Commute	Percent of Respondents				
	2022	2017	2014	2011	2005
One (self)	91%	86%	84%	81%	80%
Two (self plus one)	7%	9%	11%	14%	14%
Three or more (self plus two or more)	2%	5%	5%	5%	6%

Average Vehicle Occupancy, All Vehicles	1.1 persons per vehicle	1.2 persons per vehicle	1.2 persons per vehicle	1.3 persons per vehicle	1.3 persons per vehicle
Average Vehicle Occupancy, Multiple-Occupancy Vehicles	2.5 persons per vehicle	2.5 persons per vehicle	2.4 persons per vehicle	2.3 persons per vehicle	2.4 persons per vehicle
Average Number of Children in Vehicles with Any Passengers	0.24 children per vehicle	0.29 children per vehicle	-	-	-

## Trips Made During the Work Day

Survey participants were asked how often their job required them to run errands or attend meetings away from their primary work site. Twenty five percent of respondents reported they never have to go off-site, while a similar proportion said they do so less than a once a month (see Figure 16). On the other hand, about 1 in 10 made several trips per week. This was fewer trips away from worksite to what had been observed in 2017 (see Figure 17).

Figure 16: Frequency of Trips Away from Worksite

Figure 17: Frequency of Trips Away from Worksite, 2014-2022

About how often do you run work-related errands or attend meetings away from your primary work site?	2022	2017	2014
Daily	2%	7%	7%
Several times a week	11%	16%	17%
About once a week	12%	14%	17%
About once every two weeks	10%	11%	13%
About once a month	14%	16%	14%
Less than once a month	24%	20%	18%
Never	25%	13%	13%
Other	1%	1%	---
Total	100%	100%	100%

Those who reported they did have to go off-site were asked whether their employer provided transportation, or whether they must provide their own. Most respondents who traveled off-site (86%, see Figure 18) provided their own transportation. The proportion using their own transportation showed a slight increase from previous years (see Figure 19).

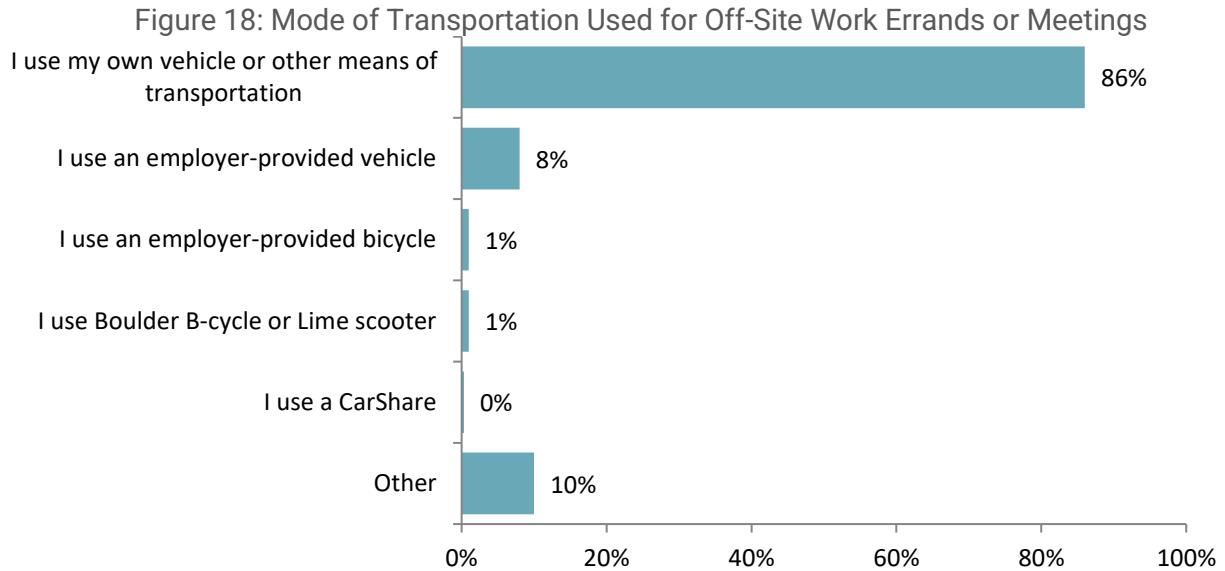

Figure 19: Mode of Transportation Used for Off-Site Work Errands or Meetings, 2014-2022

<b>If you run errands or attend meetings for your job, is there a work vehicle available to you or do you provide your own transportation? (Please check all that apply.) *</b>	<b>2022</b>	<b>2017</b>	<b>2014</b>
I use my own vehicle or other means of transportation	86%	78%	78%
I use an employer-provided vehicle	8%	10%	6%
I use an employer-provided bicycle	1%	2%	1%
I use a Carshare	0%	1%	0%
I use Boulder B-cycle or Lime scooter	1%	2%	0%
Not sure	–	3%	–
Other	10%	18%	15%

\* Percentages add to more than 100% as respondents could give more than one answer.

\*\* In 2022 “Lime scooter” was added to the “Boulder B-cycle” category.

Respondents were asked how many trips they made during their previous workday, not including the work commute trips. About three-quarters (75%) had made no workday trips (see Figure 20). Of those who made at least one workday trip, the average number of trips made was 2.1, almost one trip lower than what had had been observed in 2017 and 2014 (see Figure 21).

Figure 20: Non-Commute Workday Trips

Figure 21: Average Number of One-Way Workday Trips, 2005-2022

<b>How many one-way trips did you make during your workday yesterday (or on the last day you worked), not including your work commute. Please include trips made for lunch, meetings, or errands – personal or work-related. A round trip counts as 2 one-way trips. For example, a round trip to and from lunch is 2 one-way trips. Each time you went to a different location is one trip. Record zero if no workday trips were taken besides your work commute.)</b>	<b>2022</b>	<b>2017</b>	<b>2014</b>	<b>2011</b>	<b>2005</b>
Percent of employees who made workday trips	25%	51%	56%	---	---
Average number of one-way trips by ALL respondents	0.5	1.4	1.3	0.8	1.0
Average number of one-way trips by those reporting making at least one trip	2.1	2.9	2.9	2.4	2.1

The most frequent mode of transportation used for these daytime non-commute trips was a motor vehicle (60%), followed by walking (17%), bicycling or riding scooter (16%) and riding the bus (4%, see Figure 22 and Figure 23). Motor vehicles (private vehicles, company vehicles, car share and drive share) also accounted for the highest percentage of miles traveled: 71%.

Figure 22: Mode of Non-Commute Workday Trips

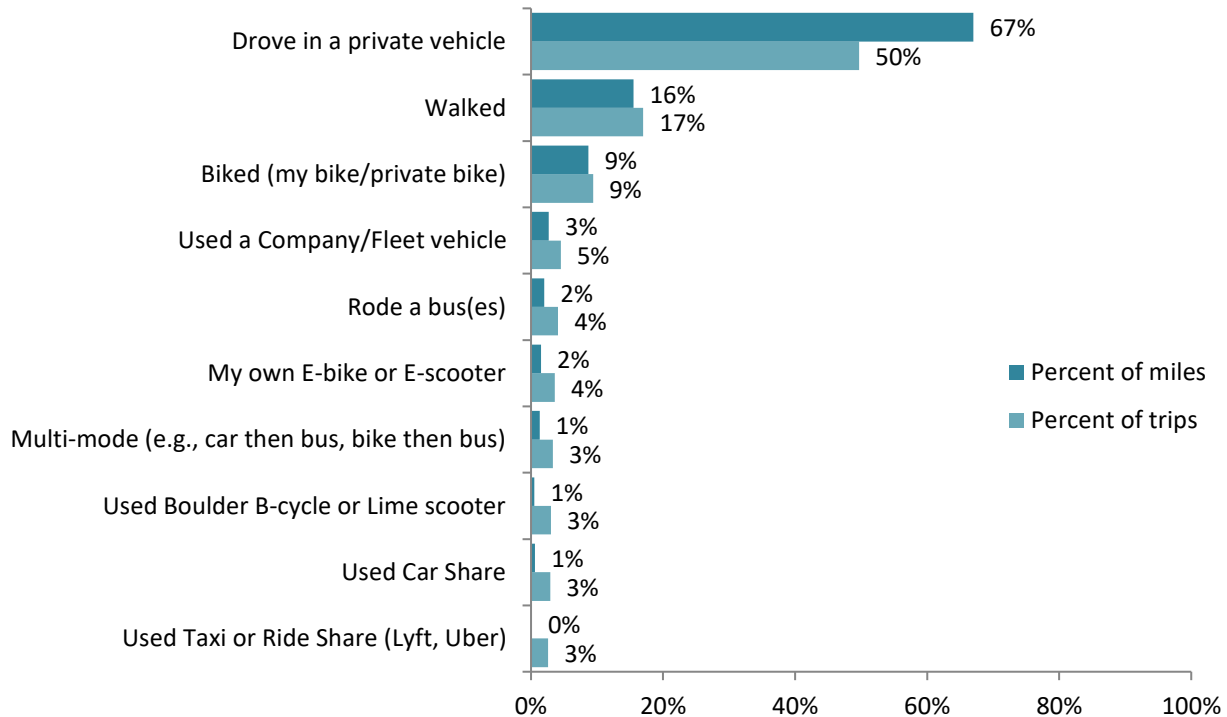

Figure 23: Mode of Non-Commute Workday Trips, 2005-2022

What method(s) of travel was used for these non-commute workday trips during your workday yesterday? Please indicate how many times you used each of the following modes.	Average Percent of Non-Commute Trips				
	2022	2017	2014	2011	2005
Drove in a private vehicle	50%	53%	47%	50%	38%
Used Car Share	3%	0%			
Used Taxi or Ride Share (Lyft, Uber)	3%	0%

Total	100%	100%	100%	100%	100%

## Employee Parking

CU faculty and staff were asked whether or not they had a Boulder campus parking permit. Just below half, 46%, reported they had such a permit (see Figure 24), a proportion lower than the 53% observed in 2017 (see Figure 25).

Figure 24: Boulder Campus Parking Permit

Figure 25: Boulder Campus Parking Permit, 2014-2022

Do you currently have a Boulder Campus parking permit?	2022	2017	2014
Yes	46%	53%	44%
No	54%	47%	56%
Total	100%	100%	100%

About 4 in 10 University employees have an excellent or good impression of the Boulder Campus Parking Services, while 3 in 10 hold a poor or unacceptable opinion (see Figure 26). Compared to 2017, favorable opinions have decreased slightly (see Figure 27).

Figure 26: Satisfaction with Boulder Campus Parking Services

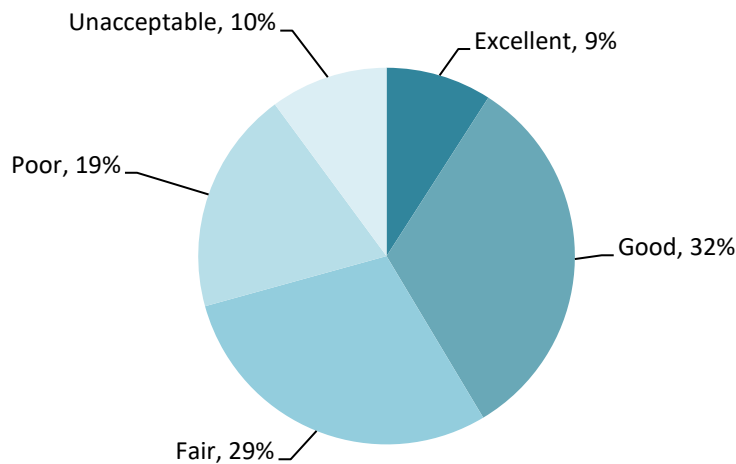

Figure 27: Satisfaction with Boulder Campus Parking Services, 2014-2022

How would you rate your overall satisfaction with Parking Services on campus?	2022	2017	2014
Excellent	9%	10%	9%
Good	32%	44%	36%
Fair	29%	28%	30%
Poor	19%	12%	17%
Unacceptable	10%	5%	8%
Total	100%	100%	100%

Respondents who said they have a vehicle available for the work commute were asked where they usually parked. About 1 in 10 reported not ever driving to work. When those respondents are removed, it was found that nearly two-fifths (58%) of CU employees who drive to work park in a CU lot with a permit, which was similar to 2017 (see Figure 28). Nearly 2 in 10 parked on a residential street without a meter.

Figure 28: Usual Parking Place 2011-2022

If you drive a vehicle to work, what type of parking space do you usually park in?		Including those who reported never driving				Excluding those who reported never driving			
2017-2022	2011-2014	2022	2017	2014	2011	2022	2017	2014	2011

I never drive a vehicle to work	Didn't drive to work	12%	16%	37%	35%	-	-	-	-
Total		100%	100%	100%	100%	100%	100%	100%	100%

The average number of days parking on campus decreased from 2017 to 2022. The current average number of days parked on campus was 1.9 days, down from 3.5 in 2017 and 3.2 in 2014 (see Figure 29 and Figure 30).

Figure 29: Average Number of Days Parked on Campus, 2005-2022

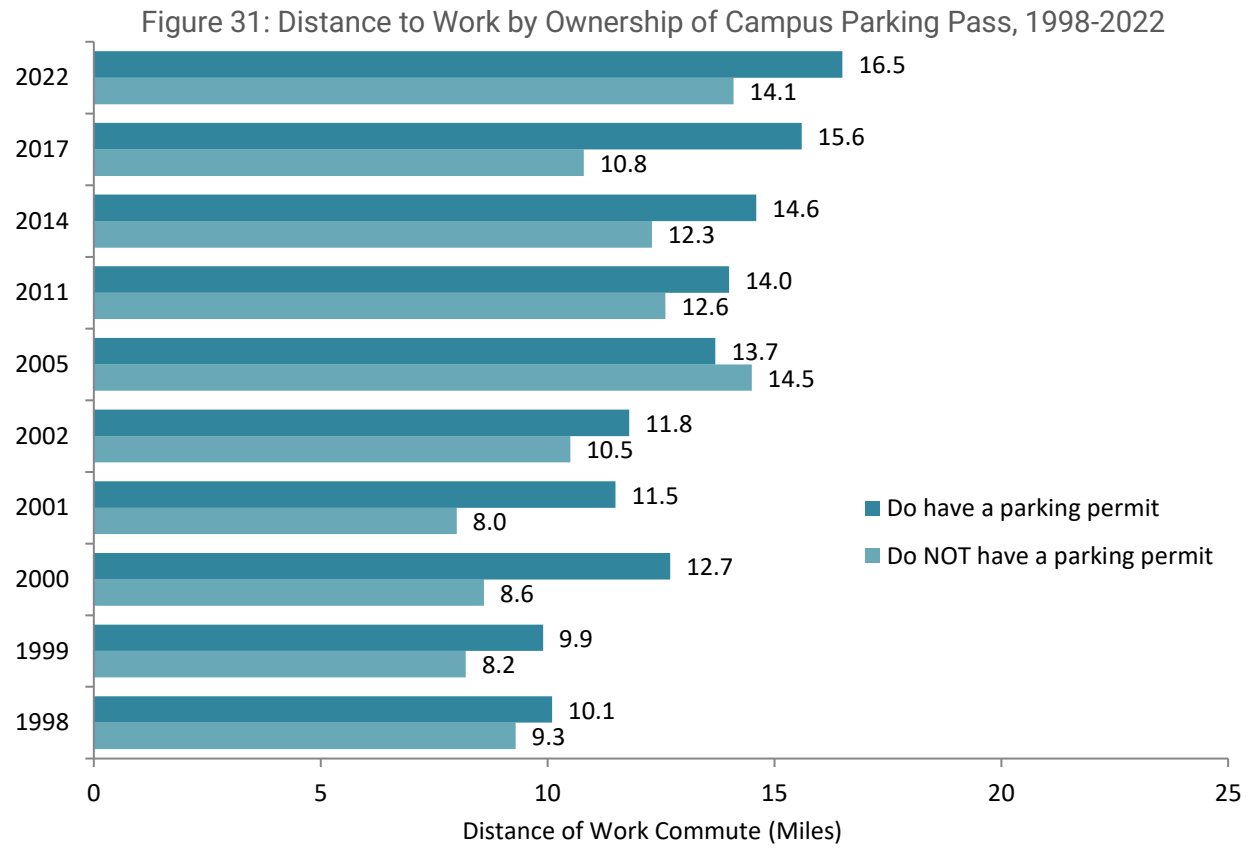

Figure 30: Parking Frequency, 2005-2022

During a typical week, how many days per week do you currently park a motor vehicle on campus?	Percent of Respondents				
	2022	2017	2014	2011	2005
None	38%	42%	46%	49%	61%
1 Day	10%	4%	6%	6%	4%
2 Days	13%	2%	4%	3%	4%
3 Days	16%	4%	5%	4%	4%
4 Days	8%	8%	7%	7%	5%
5 Days or More	14%	38%	33%	30%	22%
Total	100%	100%	100%	100%	100%
Average number of days park on campus	1.9 days	3.5 days	3.2 days	2.1 days	1.9 days

As in the last three survey iterations, University of Colorado’s faculty and staff who had a parking permit tended to have a longer commute distance (16.5 miles) than those who did not have a permit (14.1 miles).

## Transit Use

### Use of Transit for the Commute

About 4 in 10 of those surveyed claimed to at least occasionally use a bus for their work commute (see Figure 32). The proportion ever using a bus for the work commute has been decreasing since 2011.

Figure 32: Use of Transit for the Commute, 2011-2022

Those who do not use the bus were asked why they did not. The most frequent reasons given were the extra time needed to take the bus, a need for a vehicle to run errands during the workday or to transport children, or a lack of bus service (see Figure 33). The proportion giving these reasons is similar to what was observed in 2017 and 2014.

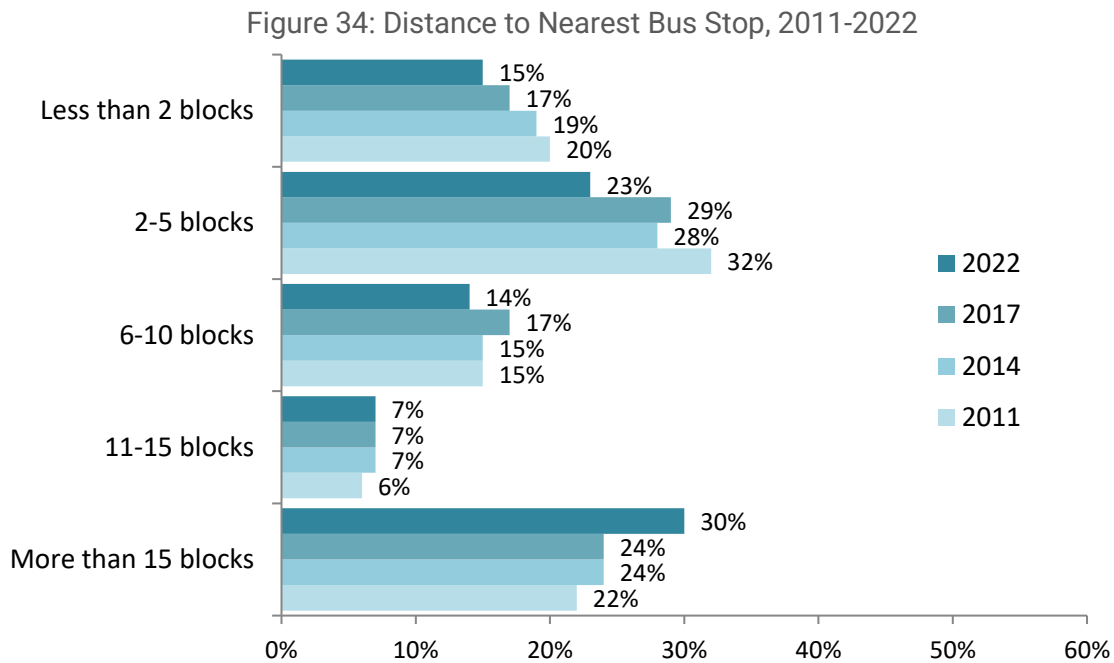

Figure 33: Reasons for Not Riding the Bus, 2014-2022

<b>(If don't ever ride a bus to work) Why don't you ride the bus to and from work? (Choose all that apply.) *</b>	<b>2022</b>	<b>2017</b>	<b>2014</b>
I have not picked up my Eco-Pass or am not eligible for one	1%	2%	1%
There is no bus service to my employer's location	9%	6%	5%
There is no bus service to my home	32%	25%	26%
The bus takes too much time	58%	61%	56%
I need my vehicle for errands during the workday	13%	22%	23%
I need my vehicle before and/or after the workday to transport children or do errands	30%	35%	34%
I am afraid of getting stranded or missing my bus	19%	12%	16%
I prefer not to ride the bus		13%	---
Other	23%	27%	29%

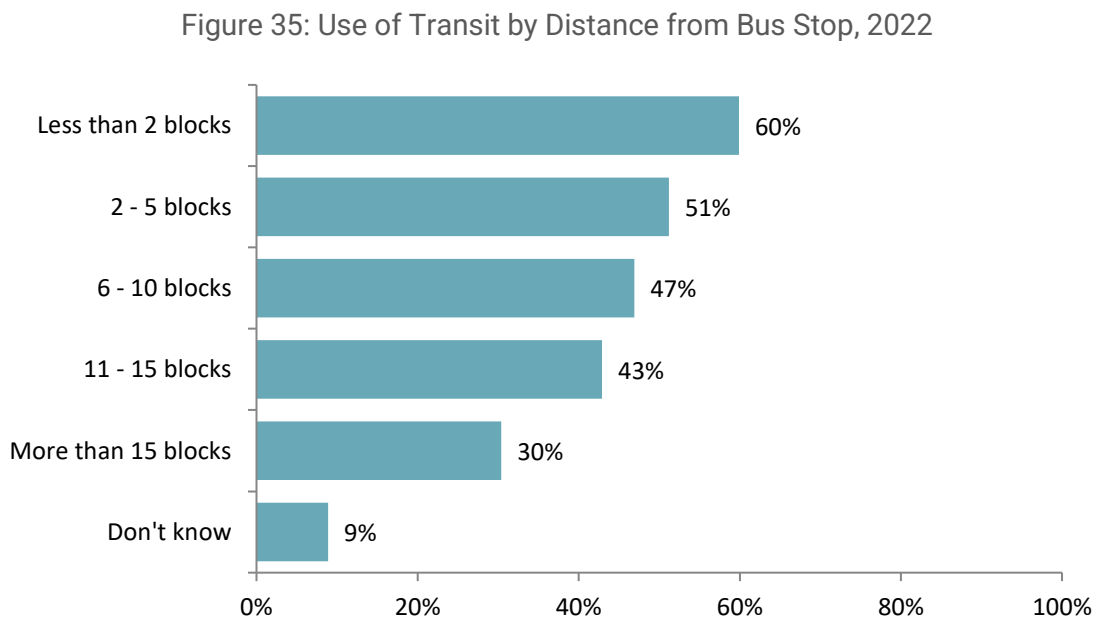

\* Percentages add to more than 100% as respondents could give more than one answer.

### Distance from Home to Bus Stop

About 15% of the respondents reported there was a bus stop less than two blocks from their home where they could catch a bus to work, and another 23% had a bus stop between 2 and 5 blocks of their home (see Figure 34). Fourteen percent had a bus stop between 6 and 10 blocks, and for 37% the nearest bus stop at which they could catch a bus to work was more than 10 blocks away. Distances of CU faculty-staff from a bus stop have been steadily increasing since 2011.

Those who lived closer to a bus stop were more likely to have used a bus for a work trip than those who lived further away (see Figure 35).

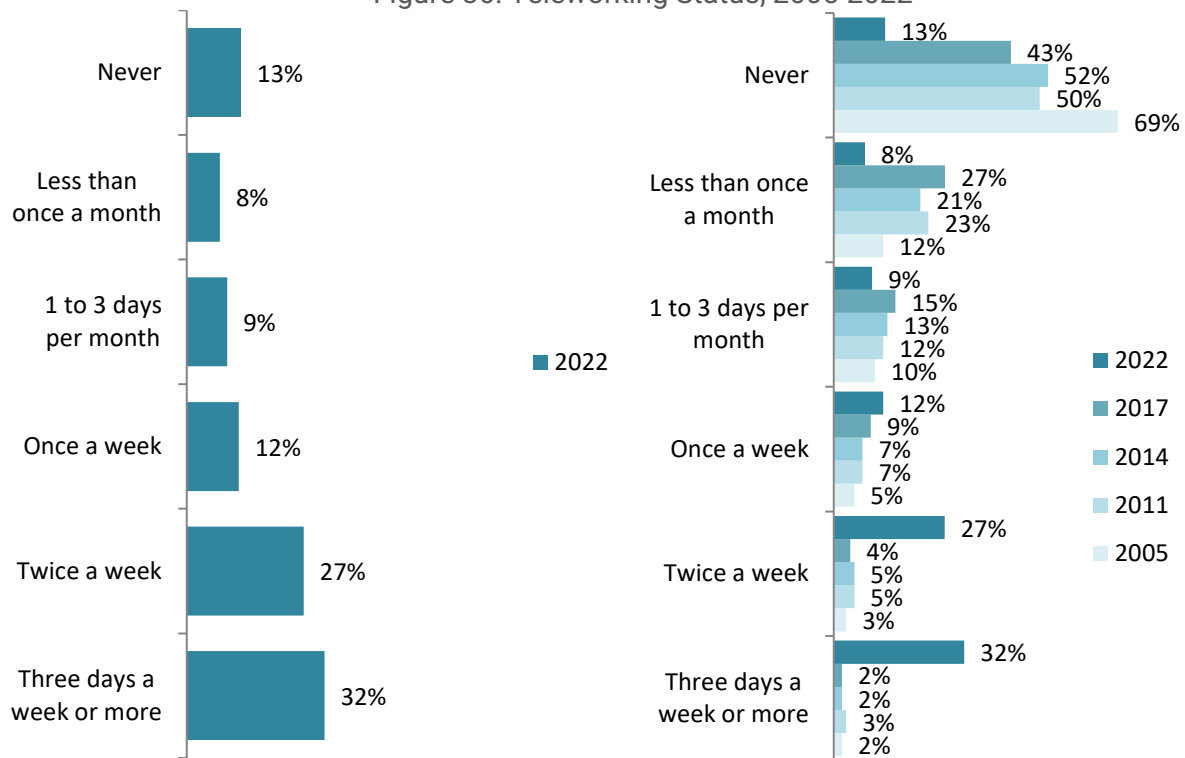

## Teleworking and Compressed Work Week

Those completing the survey were asked whether they ever telework. In 2022, most of the respondents (87%) reported they had telecommuted at least once, a much greater proportion than in previous years: 57% in 2017, 48% in 2014, 50% in 2011 and 31% in 2005 see (Figure 36).

The greatest shift came for those who telework three or more days per week: which rose from 2% in 2017 to 32% in 2022.

Figure 36: Teleworking Status, 2005-2022

Respondents were asked if they worked a compressed work week, with examples of four 10-hour days per week or nine 9-hour days every two weeks. The vast majority of respondents (94%, see Figure 37) reported not working a compressed schedule.

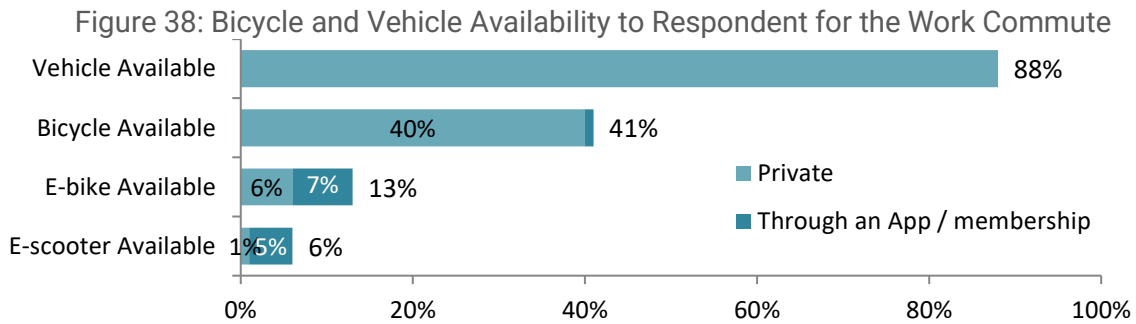

Figure 37: Work a Compressed Work Week

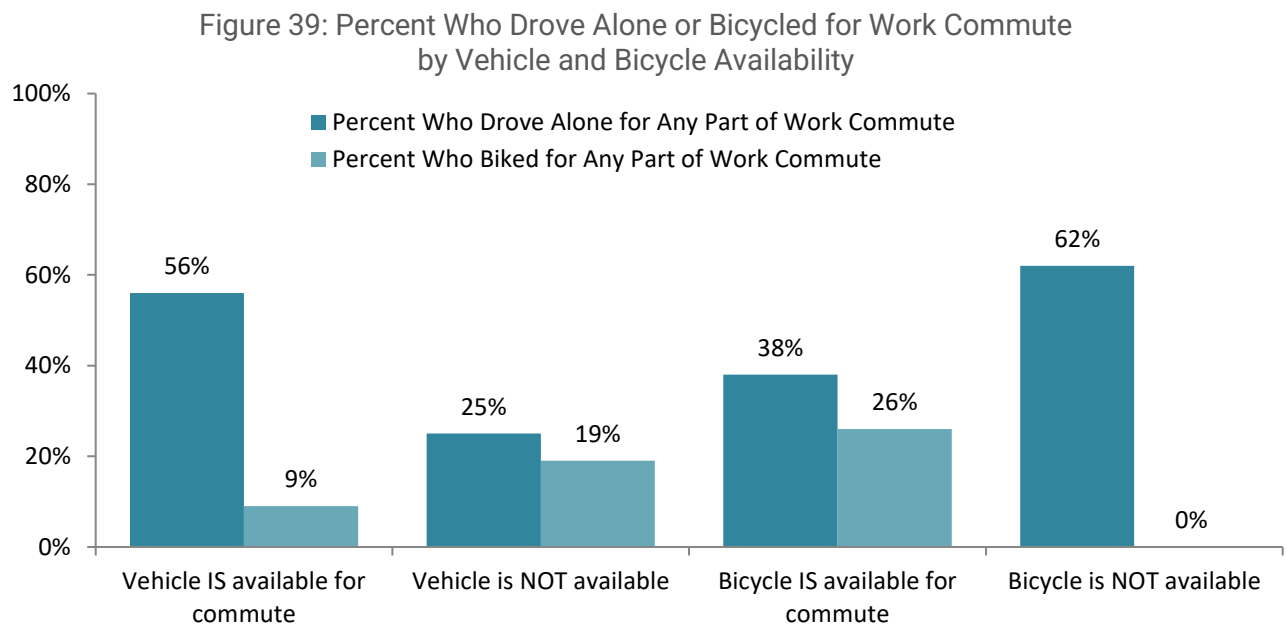

## Bicycle and Vehicle Availability

About 40% of CU faculty and staff employees reported having a bicycle (mostly private) available for their work commute, and 88% reported having a vehicle available. Also, 13% reported having available an E-bike (6% private and 7% through an app) while 7% had a E-scooter (1% private and 5% through an app, see Figure 38). One in ten respondents said they have the app for Boulder BCycle, the same proportion as for Lime E-scooters (see *Table 44* in *Appendix A: Responses to Survey Questions*).

Those who had a vehicle they could use for the work commute were much more likely to have driven alone for at least part of the work commute (56%) compared to those without a vehicle (25%), while those who had an available bicycle were much more likely to have bicycled for at least part of their work commute (26%) than those who did not have a bicycle (0%, see Figure 39 below).

### Hybrid or Electric Vehicle Usage for the Work Commute

Respondents who did have a vehicle available for the work commute were asked whether the vehicle was a hybrid or an electric vehicle. About 8% reported having a hybrid vehicle, while 6% had an electric vehicle, showing an upward trend since 2017.

Figure 40: Percent of Respondents with a Hybrid or Electric Vehicle

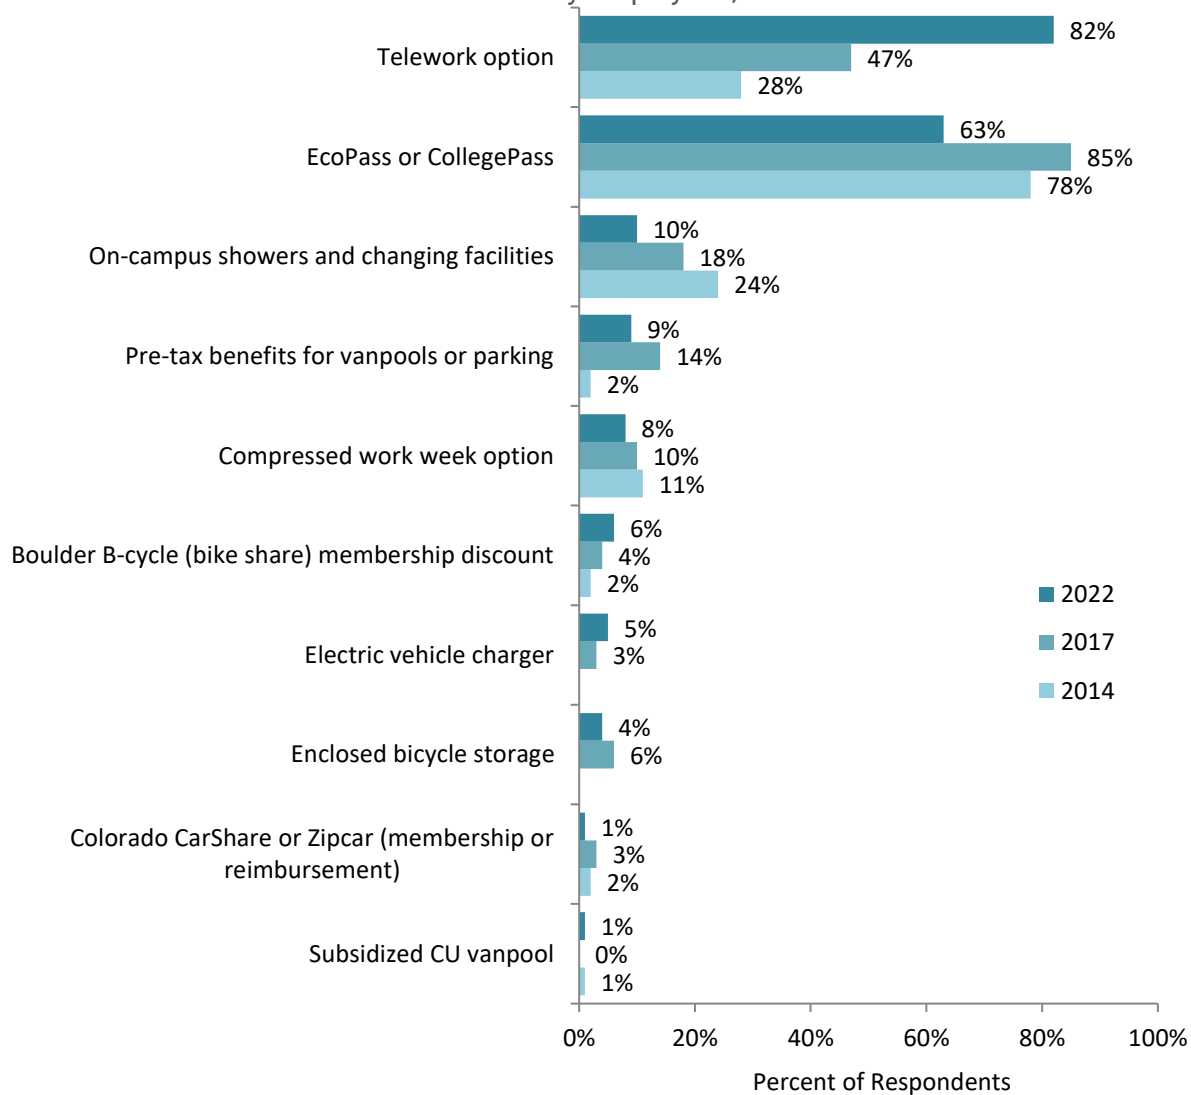

## Availability and Use of Alternative Transportation Options

Those completing the survey were presented with a list of options that employers can provide which can make it easier to choose alternatives to driving alone for the work commute. The list was constrained to those that CU makes available for at least some employees. For each, respondents were asked to indicate which they had used in the last six months. A very large majority of respondents (82%) had used the telework option in the last 6 months. The Eco-Pass was also used by a substantial majority (63%) of the employees in the last 6 months (see Figure 41).

The other options used most often included on-campus showers and changing facilities and pre-tax benefits for vanpools or parking. The proportion of employees saying they had used the EcoPass, a telework option or a pre-tax benefit for vanpools or parking was lower in 2022 than it had been in 2017.

Figure 41: Alternative Transportation Options Made Available by Employer and Used by Employees, 2014-2022

## Appendix A: Responses to Survey Questions

The following pages contain a complete set of responses to each question on the survey.

Table 1: Question #1

How did you get to work today? (Please check all that apply) *	Percent	Number
Drove alone	52%	N=912
Drove with at least one other person	5%	N=90
Walked	5%	N=86
Biked	11%	N=184
Used E-scooter or another lightweight EV	0%	N=8
Rode a bus or buses	11%	N=199
Carried a bike on a bus or buses	1%	N=14
Used a Park-n-Ride	2%	N=36
Taxi / Ride share (Uber / Lyft)	0%	N=2
Worked at home	26%	N=454
Other	1%	N=18

\* Percentages add to more than 100% as respondents could give more than one answer.

Table 2: Question #1 (multiple responses coded as multiple modes)

How did you get to work today? (Please check all that apply) *	Percent	Number
Drove alone	46%	N=799
Drove with at least one other person	4%	N=68

Table 17: Question #8

<b>On average, how often do you telework (work at home instead of going into the office) a month? (Include only full days at home when you did not travel to your work place.)</b>	<b>Percent</b>	<b>Number</b>
Never	13%	N=219
Less than once a month	8%	N=132
1 to 3 days per month	9%	N=163
Once a week	12%	N=209
Twice a week	27%	N=471
Three or four days a week	25%	N=445
Every day (I always work at home)	6%	N=109
Total	100%	N=1748

Table 18: Question #9

<b>Do you work a compressed week, for example, four 10-hour days per week, or nine 9-hour days every two weeks?</b>	<b>Percent</b>	<b>Number</b>
No	94%	N=1647
Yes	6%	N=97
Total	100%	N=1744

Table 19: Question #9a

<b>What type of schedule?</b>	<b>Percent</b>	<b>Number</b>
Four 10-hour days in a week	44%	N=43
Nine 9-hour days in two weeks	25%	N=24
Other	31%	N=30
Total	100%	N=97

Table 20: Question #10

<b>About how often do you run work-related errands or attend meetings away from your primary work site?</b>	<b>Percent</b>	<b>Number</b>
Daily	2%	N=40
Several times a week	11%	N=194
About once a week	12%	N=204
About once every two weeks	10%	N=179
About once a month	14%	N=239
Less than once a month	24%	N=421
Never	25%	N=445
Other	1%	N=24
Total	100%	N=1746

Table 21: Question #11

<b>If you run errands or attend meetings for your job, is there a work vehicle available to you or do you provide your own transportation? (Please check all that apply.) *</b>	<b>Percent</b>	<b>Number</b>
I use my own vehicle or other means of transportation (bike, scooter, etc.)	86%	N=1102
I use an employer-provided vehicle	8%	N=101
I use an employer-provided bicycle	1%	N=8
I use a CarShare	0%	N=2
I use Boulder B-cycle or Lime scooter	1%	N=16
Other	10%	N=128

\* Percentages add to more than 100% as respondents could give more than one answer.

Table 22: Question #12

<b>How many one-way trips did you make during the workday the last day you commuted to work, not including your work commute. (Please include trips made for lunch, meetings, or errands – personal or work-related. A round trip counts as 2 one-way trips. For example, a round trip to and from lunch is 2 one-way trips. Each time you went to a different location is one trip. Record zero if no workday trips were taken besides your work commute.)</b>	<b>Percent</b>	<b>Number</b>
No trips	76%	N=1296
1 trip	7%	N=113
2 trips	13%	N=213
3 trips	2%	N=26
4 trips	3%	N=44
5 trips	0%	N=4
6 trips	0%	N=6
Total	100%	N=1702
Average number of trips		0.50

Table 23: Question #12

<b>How many one-way trips did you make during the workday the last day you commuted to work, not including your work commute. (Please include trips made for lunch, meetings, or errands – personal or work-related. A round trip counts as 2 one-way trips. For example, a round trip to and from lunch is 2 one-way trips. Each time you went to a different location is one trip. Record zero if no workday trips were taken besides your work commute.) Among those who took one or more trips.</b>	<b>Percent</b>	<b>Number</b>
1 trip	28%	N=113
2 trips	52%	N=213
3 trips	6%	N=26
4 trips	11%	N=44
5 trips	1%	N=4

Table 24: Question 13 Percent of Trips

<b>What method(s) of travel was used for these non-commute workday trips during your workday yesterday? Please indicate how many trips you used each of the following modes.</b>	<b>Average Percent of Non-Commute Trips</b>
Drove alone in a private vehicle	49.7%
Used Car Share	2.9%
Used Taxi or Ride Share (Lyft, Uber)	2.6%
Used a Company/Fleet vehicle	4.5%
Multi-mode (e.g., car/bike then bus, etc.)	3.3%
Biked (my bike/private bike)	9.4%
Used Boulder B-cycle or Lime scooter	3.0%
My own E-bike or E-scooter	3.6%
Walked	17.0%
Rode a bus(es)	4.1%

Table 25: Question 13 Number of Trips

<b>What method(s) of travel was used for these non-commute workday trips during your workday yesterday? Please indicate how many trips you used each of the following modes.</b>	<b>Average Number of Non-Commute Trips</b>
Drove alone in a private vehicle	2.47
Used Car Share	0.33
Used Taxi or Ride Share (Lyft, Uber)	0.32
Used a Company/Fleet vehicle	0.43
Multi-mode (e.g., car/bike then bus, etc.)	0.39
Biked (my bike/private bike)	0.61
Used Boulder B-cycle or Lime scooter	0.33
My own E-bike or E-scooter	0.37
Walked	1.07
Rode a bus(es)	0.48

Table 26: Question 13 Percent of Miles

<b>What method(s) of travel was used for these non-commute workday trips during your workday yesterday? Please indicate how many miles you used each of the following modes.</b>	<b>Average Percent of Non-Commute</b>
Drove alone in a private vehicle	67.0%
Used Car Share	0.6%
Used Taxi or Ride Share (Lyft, Uber)	0.1%
Used a Company/Fleet vehicle	2.7%
Multi-mode (e.g., car/bike then bus, etc.)	1.3%
Biked (my bike/private bike)	8.7%
Used Boulder B-cycle or Lime scooter	0.5%
My own E-bike or E-scooter	1.5%
Walked	15.5%
Rode a bus(es)	2.0%

Table 27: Question 13 Number of Miles

<b>What method(s) of travel was used for these non-commute workday trips during your workday yesterday? Please indicate how many miles you used each of the following modes.</b>	<b>Average Number of Non-Commute</b>
Drove alone in a private vehicle	9.88
Used Car Share	0.12
Used Taxi or Ride Share (Lyft, Uber)	0.03
Used a Company/Fleet vehicle	0.20
Multi-mode (e.g., car/bike then bus, etc.)	0.28
Biked (my bike/private bike)	0.63
Used Boulder B-cycle or Lime scooter	0.06
My own E-bike or E-scooter	0.14
Walked	0.50
Rode a bus(es)	0.74

Table 28: Question #14

<b>Do you currently have a CU Boulder Campus parking permit?</b>	<b>Percent</b>	<b>Number</b>
No	54%	N=937
Yes	46%	N=808
Total	100%	N=1745

## Appendix C: Survey Instrument

The following pages contain the survey instrument. The attached instrument is formatted as a paper survey, although the 2022 University of Colorado Boulder Campus Faculty and Staff Transportation Survey was entirely conducted on the web on the Polco platform.

# CU-Boulder Faculty/Staff Employee Transportation Survey 2022

The University of Colorado Boulder and the City of Boulder are conducting a survey of a select number of CU faculty and staff regarding their transportation needs and behavior. The results will be used to help improve all modes of transportation for the campus and community at large. Your cooperation is strictly voluntary. Your individual responses to the questions will be held in complete confidence. Results will be aggregated and analyzed by National Research Center, Inc., an independent research firm, and the responses will be reported in group form only.

Today's -Date: \_\_\_\_\_ / \_\_\_\_\_ / 2022

## Work Commute

### 1. How did you get to work today?

(Please check all that apply)

What type of vehicle?

- |  |  |
|--|--|
| <input type="checkbox"/> Drove alone<br><input type="checkbox"/> Drove with at least one other person →<br><i>how many others total?.....</i> _____<br><i>how many under 16 years old?....</i> _____<br><input type="checkbox"/> Walked<br><input type="checkbox"/> Biked<br>→ <input type="checkbox"/> Private bike <input type="checkbox"/> Company bike <input type="checkbox"/> Private E-bike <input type="checkbox"/> BCycle<br><input type="checkbox"/> Used E-scooter or another lightweight EV<br>→ <input type="checkbox"/> Private <input type="checkbox"/> Shared<br><input type="checkbox"/> Rode a bus or buses<br><input type="checkbox"/> Carried a bike on a bus or buses<br><input type="checkbox"/> Used a Park-n-Ride<br><input type="checkbox"/> Taxi / Ride share (Uber / Lyft)<br><input type="checkbox"/> Worked at home<br><input type="checkbox"/> Other _____ | <input type="checkbox"/> Private vehicle<br><input type="checkbox"/> Company/fleet vehicle<br><input type="checkbox"/> Car share<br><input type="checkbox"/> Vanpool<br><input type="checkbox"/> Taxi / Ride share (Uber / Lyft) |
|--|--|

### 2. About how far is your

home from work?..... \_\_\_\_\_ miles

### 3. About what time did you leave

home for work today (or the last day you commuted to work?.....) \_\_\_\_\_ AM/PM

### 4. Did you come straight to work from home today (or the last day you commuted to work)?

- Yes → About how many minutes did it take?..... \_\_\_\_\_ min
- No → How many stops did you make on your way to work?..... \_\_\_\_\_ stops

### 5. Yesterday, or on the last day you commuted to work, how many stops did you make on your way home? \_\_\_\_\_ stops

### 6. About what time do you *usually arrive* at work when you commute to work? \_\_\_\_\_ AM/PM

### 7. About what time do you *usually leave* work when you commute to work? \_\_\_\_\_ AM/PM

## Teleworking and Compressed Work Week

### 8. On average, how often do you telework (work at home instead of going into the office)? (Include only full days at home when you did not travel to your work place.)

- Never  
 Less than once a month  
 1 to 3 days per month  
 Once a week  
 Twice a week  
 Three or four -days a week  
 Every day (I always work at home)

### 9. Do you work a compressed week, for example, four 10-hour days per week, or nine 9-hour days every two weeks?

- No  Yes → What type of schedule?
- Four 10-hour days in a week  
 Nine 9-hour days in two weeks  
 Other: \_\_\_\_\_

## Work Day Trips

### 10. About how often do you run work-related errands or attend meetings away from your primary work site?

- Daily  
 Several times a week  
 About once a week  
 About once every two weeks  
 About once a month  
 Less than once a month  
 Never → go to question #0  
 Other \_\_\_\_\_

**11. If you run errands or attend meetings for your job, is there a work vehicle available to you or do you provide your own transportation?**

**(Please check all that apply.)**

- I use my own vehicle or other means of transportation (bike, scooter, etc.)
- I use an employer-provided vehicle
- I use an employer-provided bicycle
- I use a CarShare
- I use Boulder B-cycle or Lime scooter
- Not sure
- Other \_\_\_\_\_

**12. Not including your work commute, how many one-way trips did you make during your workday yesterday (or on the last day you worked).**

(Please include trips made for lunch, meetings, or errands – personal or work-related. A round trip counts as 2 one-way trips. For example, a round trip to and from lunch is 2 one-way trips. Each time you went to a different location is one trip. Record zero if no workday trips were taken besides your work commute.)

\_\_\_\_\_ **workday one-way trips**

***If you made no trips the last time you commuted to work, please go to question #14***

**13. What method(s) of travel was used for these non-commute workday trips? Please indicate how many times you used each of the following modes, and then how many miles you drove each mode.**

	<u># of trips</u>	<u># of miles</u>
Drove in a private vehicle _____	_____	_____
Used Car Share _____	_____	_____
Used Taxi or Ride Share (Lyft, Uber) _____	_____	_____
Used a Company/Fleet vehicle _____	_____	_____
Multi-mode (e.g., car/bike then bus, etc.) _____	_____	_____
Biked (my bike/private bike) _____	_____	_____
Used Boulder B-cycle or Lime scooter _____	_____	_____
My own E-bike or E-scooter _____	_____	_____
Walked _____	_____	_____
Rode a bus(es) _____	_____	_____
Other _____	_____	_____

**Parking**

**14. Do you currently have a CU Boulder Campus parking permit?**

- No
- Yes

**15. If you drive a vehicle to work, what type of parking space do you usually park in?**

- CU lot with a permit
- CU lot/meter with cash/credit payment
- Residential street without a meter
- Residential street with a meter
- Private parking space, no charge
- Private parking space, with a daily charge
- Private parking space, with a permit
- Other \_\_\_\_\_
- I never drive a vehicle to work

**16. During a typical week, how many days per week do you currently park a motor vehicle on campus?**

- |                                 |                                 |
|---------------------------------|---------------------------------|
| <input type="checkbox"/> None   | <input type="checkbox"/> 4 days |
| <input type="checkbox"/> 1 day  | <input type="checkbox"/> 5 days |
| <input type="checkbox"/> 2 days | <input type="checkbox"/> 6 days |
| <input type="checkbox"/> 3 days | <input type="checkbox"/> 7 days |

**17. How would you rate your overall satisfaction with Parking Services on campus?**

- Excellent
- Good
- Fair
- Poor
- Unacceptable
- Don't know

**18. Any comments about your satisfaction with Parking Services on campus?**

\_\_\_\_\_

\_\_\_\_\_

**Transit**

**19. How far from your home is the nearest bus stop that you would use to ride to work?**

- Less than 2 blocks
- 2 - 5 blocks
- 6 - 10 blocks
- 11 - 15 blocks
- More than 15 blocks
- Don't know

**20. Do you ever ride a bus to work?**

- Yes
- No → **Why don't you ride the bus to and from work? (Choose all that apply.)**
- I have not picked up my Eco-Pass or am not eligible for one
- There is no bus service to my employer's location
- There is no bus service to my home
- The bus takes too much time
- I need my vehicle for errands during the workday
- I need my vehicle before and/or after the workday to transport children or do errands
- I am afraid of getting stranded or missing my bus / I prefer not to ride the bus
- Other (please specify) \_\_\_\_\_

About Your Job

**21. How is your job categorized by the University?**

- Classified staff
- Professional Exempt/OEP/University Staff
- Administrative
- Faculty
- Research

**22. Where is your primary work location?**

- Main Campus
- East Campus along Marine Street
- East Campus/Research Park (Aerospace, JSCBB, LASP, SEEC, Etc.).
- Other (please specify) \_\_\_\_\_

**23. What is your job status?**

**Are you a full or part-time employee?**

- Regular Full-time
- Regular Part-time
- Temporary

**24. What category best describes your typical work schedule?**

- Monday through Friday, daytime
- Monday through Friday, evenings
- Weekends
- Rotating/variable schedule
- Other \_\_\_\_\_

**25. What category best describes your job?**

- Office (research, professional, business, administrative, support, customer support)
- Professor/teaching (faculty, instructor)
- Retail/sales
- Service/restaurant/delivery
- Medical/dental
- Manufacturing/production/" high-tech"
- Construction/trades/laborer
- Other (please specify) \_\_\_\_\_

**26. What is your hourly pay rate at this job?**

(Please include the value of any tips or commissions you receive. If you are paid an annual salary, estimate your hourly rate by dividing by 2,080 work hours per year.)

- \$7.00 per hour or less
- \$7.01 to \$10.00 per hour
- \$10.01 to \$12.00 per hour
- \$12.01 to \$15.00 per hour
- \$15.01 to \$20.00 per hour
- \$20.01 to \$25.00 per hour
- \$25.01 to \$50.00 per hour
- \$50.01 or more per hour

**27. Are you employed at another job?**

- Yes, an additional full-time job
- Yes, one or more additional part-time jobs
- No, I am not employed at any other jobs

**28. For each of the following, please indicate which you have used in the past 6 months.**

	<u>Yes</u>	<u>No</u>
EcoPass or CollegePass .....	<input type="checkbox"/>	<input type="checkbox"/>
Subsidized CU vanpool .....	<input type="checkbox"/>	<input type="checkbox"/>
Pre-tax benefits for vanpools or parking .....	<input type="checkbox"/>	<input type="checkbox"/>
Enclosed bicycle storage .....	<input type="checkbox"/>	<input type="checkbox"/>
On campus showers and changing facilities .	<input type="checkbox"/>	<input type="checkbox"/>
Telework option .....	<input type="checkbox"/>	<input type="checkbox"/>
Compressed work week option .....	<input type="checkbox"/>	<input type="checkbox"/>
Electric vehicle charger .....	<input type="checkbox"/>	<input type="checkbox"/>
Boulder B-cycle (bike share) membership discount .....	<input type="checkbox"/>	<input type="checkbox"/>
Colorado CarShare or Zipcar membership discount .....	<input type="checkbox"/>	<input type="checkbox"/>
Guaranteed Ride Home .....	<input type="checkbox"/>	<input type="checkbox"/>

About You and Your Household

**29. Which, if any, of the following are usually available to you for commuting to work?**

	Private	App/membership	Neither
Bike	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
E-bike	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
E-scooter	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**30. Are you a member or do you have an app for?**

	Yes	No
Boulder BCycle	<input type="checkbox"/>	<input type="checkbox"/>
Lime E-scooters	<input type="checkbox"/>	<input type="checkbox"/>

**31. Is a car or other motor vehicle usually available to you for commuting to work?**

- Yes
- No → go to question #35

Please tell us more about the primary vehicle you use if you drive to work.

32. What year was the vehicle made? \_\_\_\_\_

33. What kind of vehicle is it?

- Car                       SUV/van/minivan
- Pickup truck     Motorcycle/motor scooter

34. What kind of fuel does the vehicle use?

- Diesel
- Gas
- Hybrid or plug-in hybrid
- Plug-in Electric
- Not sure

35. Do you live in Boulder (within the city limits)?

- Yes                       No

36. What is your home zip code? \_\_\_\_\_

37. What is the intersection nearest to your home?

\_\_\_\_\_

& \_\_\_\_\_

38. Are you a student at CU Boulder?

- Yes, an undergraduate student
- Yes, a graduate student
- Yes, a Continuing Education student
- No

39. How much do you anticipate your household's total income before taxes will be for 2022?

(Please include income from all sources for all persons living in your household.)

- Less than \$10,000
- \$10,000 to \$19,999
- \$20,000 to \$29,999
- \$30,000 to \$39,999
- \$40,000 to \$49,999
- \$50,000 to \$74,999
- \$75,000 to \$99,999
- \$100,000 to \$149,999
- \$150,000 or more
- Prefer not to answer

40. What is the highest level of education you have completed?

- 1-11 years, no diploma
- High school graduate or GED
- Some college, no degree
- Associate's degree
- Bachelor's degree
- Graduate

41. In which category is your age?

- Under 18
- 18-24 years
- 25-34 years
- 35-44 years
- 45-54 years

- 55-64 years
- 65 years or older

42. You may have multiple gender identities. What is your primary gender identity?

- Woman
- Man
- Identify another way
- Prefer not to say

43. Do you have any comments or suggestions about Parking, RTD, or other CU transportation programs?
