Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MBA: Core Courses

MBAC 6020 (3) Financial Accounting
Introduces the financial reporting system used by business organizations to convey information about their economic affairs. Develops an understanding of financial reports and what they tell about a business enterprise. Focuses on how alternative accounting measurement rules represent different economic events in financial reports.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA) or Professional MBA Program (PMBA) majors only.
Additional Information: Departmental Category: MBA: Core Courses

MBAC 6031 (1.5) Quantitative Methods 1
Covers foundations for statistical reasoning and statistical applications in business. Topics include data collection, descriptive stats and data visualization, probability, discrete probability distributions, continuous probability distributions, sampling distributions and estimation.
Requisites: Restricted to MBA (MBAD) and Professional MBA Program (PMBA) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MBA: Core Courses

MBAC 6032 (1.5) Quantitative Methods 2
Second in a series of two courses covering foundations for statistical reasoning and statistical applications in business. Topics include hypothesis testing, one and two sample hypothesis tests, single regression analysis, multiple regression analysis.
Requisites: Restricted to Professional MBA Program (PMBA) majors only.
Grading Basis: Letter Grade

MBAC 6050 (3) Strategy
Analyzes how firms can attain and sustain competitive advantage in today's competitive environment. Focuses on industry dynamics, competitive positioning, firm capabilities, and corporate innovation. Introduces a set of tools for assisting managers in solving complex, real-world business problems in strategy development. Integrates MBA learning in functional areas, and emphasizes the fit between competitive analysis and the role of management and organization.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA Program (PMBA), Supply Chain Management (SCMN) or Business Analytics (BUAN) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MBA: Core Courses

MBAC 6051 (3) Operations Management
Develops an understanding of processes and the alignment of a process with the organization¿s operating priorities. Examines how interconnected processes relate to managing supply and demand and stakeholder incentives. Explores services, highlighting the differences and similarities between product and service businesses and considers ¿c-suite¿-level challenges such as managing firm growth, alignment of the operating system with strategic priorities, and mitigating uncertainty through optionality.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA) or Professional MBA Program (PMBA) majors only.
Grading Basis: Letter Grade

MBAC 6052 (3) Capstone Projects
Provides students with an opportunity to focus on a specific project which would have a positive strategic impact on the company for which they work. For those who have entrepreneurial aspirations, this project could result in a business plan for a new venture. Final deliverable should address marketing, financial, operational, and management implications and strategic impact.
Requisites: Restricted to Professional MBA Program (PMBA) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MBA: Core Courses

MBAC 6060 (3) Corporate Finance
Analyzes the implications of modern finance theory for the major decisions faced by corporate financial managers. Develops the basic skills necessary to apply financial concepts to the various problems faced by a firm. Includes capital budgeting, capital structure, long term financing, short term financial management, and financial planning topics.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA) or Professional MBA Program (PMBA) majors only.
Additional Information: Departmental Category: MBA: Core Courses

MBAC 6081 (3) Data and Decisions
Employers need managers who can integrate business knowledge and insight with the vast amount of data available using modern analytical tools. Students will access data from multiple sources, manipulate the data so it is ready for analysis, perform multiple regression analyses, validate the models they develop, and use the results to inform decisions. Goes beyond Excel spreadsheets to expose students to tools such as R and Tableau.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA) or Professional MBA Program (PMBA) majors only.
Grading Basis: Letter Grade

MBAC 6090 (3) Marketing Management
Provides a solid foundation of marketing knowledge by focusing on principles of marketing. Introduces the role that marketing cases play in advancing understanding and skill development in the field of marketing. Case discussions illustrate concepts discussed, and case studies are used to introduce the marketing decision making process. Emphasizes the international nature of marketing, as well as the importance of analysis and the understanding of the economic, demographic, political-legal-regulatory, sociocultural, technological, and natural environments.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA) or Professional MBA Program (PMBA) majors only.
Additional Information: Departmental Category: MBA: Core Courses

MBAC 6096 (1.5) Managerial Communications
Tailored instruction, grounded in communication and business theory, that leads to improved business writing, public speaking, team presentations, team dynamics, interpersonal communication, and emotional intelligence with a focus on persuasion, audience analysis, and risk management.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA) or Professional MBA Program (PMBA) majors only.
Grading Basis: Letter Grade

MBAC 6098 (1) Professional Development I
Professional Development I and II will introduce students to a range of skills to help them be successful in the professional work environment, including presentation development, constructive feedback loops, and personal presentation in team-based sessions. It will also offer a survey of the career management process and provide students with the tools and life-long skills to execute a strategic career management plan.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA Program (PMBA), Supply Chain Management (SCMN) or Business Analytics (BUAN) majors only.
Additional Information: Departmental Category: MBA: Core Courses

Mechanical Engineering (MCEN)

Courses

MCEN 1024 (3) Chemistry for Energy and Materials Science
Covers the basic physical and chemical fundamentals underlying the disciplines of energy and materials, with a focus on topics relevant to your mechanical engineering education. These fundamentals include atomic structure, stoichiometry, the periodic table, chemical bonding, states of matter, thermochemistry and chemical reactions.
Equivalent - Duplicate Degree Credit Not Granted: CHEM 1113, CHEM 1400, CHEN 1201, and CHEN 1211
Requisites: Restricted to Mechanical Engineering (MCEN), Aerospace (ASEN), or Integrated Design Engineering (IDEN-BSIDE) students with a sub-plan of Mechanical (MEC) or Aerospace (AER).
Recommended: Prerequisite one year of high school chemistry.
Additional Information: Departmental Category: Materials

MCEN 1025 (4) Computer-Aided Design and Fabrication
Introduces CAD software and relevant concepts, including orthographic projection, sections, engineering drawing, geometric dimensioning and tolerancing, and an introduction to manufacturing methods. Lab work includes an introduction to fabrication techniques. Final design project involves reverse engineering of a physical product.
Requisites: Restricted to Mechanical Engineering (MCEN) or Engineering Physics (EPEN) majors only.
Additional Information: Departmental Category: Design

MCEN 1030 (4) Introduction to Engineering Computing
Introduces concepts and methods of computer programming with emphasis on applications to mechanical engineering. Includes vector/array manipulation, for/if/else/while loops, function definition, problem solving with programming. Covers MATLAB/Python with no previous experience expected.
Requisites: Requires a prerequisite or corequisite course of APPM 1235 or APPM 1340 or APPM 1345 or APPM 1350 or MATH 1150 or MATH 1300 or MATH 1310 (all minimum grade C-). Restricted to MCEN majors.

MCEN 1208 (1-4) Special Topics in Mechanical Engineering
Subject matter to be selected from topics of current interest. Credit to be arranged.
Requisites: Restricted to students with 0-26 units (Freshmen) Mechanical Engineering (MCEN) majors only.
Additional Information: Departmental Category: Special Topics

MCEN 2000 (1) Mechanical Engineering as a Profession
Provides an introduction to the profession of mechanical engineering. Specific topics addressed include career fields and roles relevant to mechanical engineering, internship search skills, professional communication, workplace culture, and current events/ethics topics relevant to the field. Course format may include additional evening/weekend activities.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Mechanical Engineering (MCEN) majors, and IUT On Track applicants only.
Additional Information: Departmental Category: Miscellaneous

MCEN 2023 (3) Statics and Structures
Covers statics of particles, equivalent force systems, rigid bodies, equilibrium of rigid bodies in two and three dimensions, analysis of truss and frame structures, uniaxially-loaded members, distributed force systems and friction.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 2121 or GEEN 2851
Requisites: Requires prereq courses of (APPM 1360 or MATH 2300) PHYS 1110 (all min grade C-).Restricted to Mech (MCEN) or Enviro (EVEN) or Biomedical (BMEN) or Integrated Design Eng (IDEN-BSIDE) students w a sub-plan of Mechanical (MEC) or IUT On Track applicants
Additional Information: Departmental Category: Solids

MCEN 2024 (3) Materials Science
Provides an overview of the structure, properties and processing of metallic, polymeric and ceramic materials. Specific topics include perfect and imperfect solids, phase equilibria, transformation kinetics, mechanical behavior and material degradation. Approach incorporates both materials science and materials engineering components.
Equivalent - Duplicate Degree Credit Not Granted: GEEN 3024
Requisites: Requires prereqs (MCEN 1024 or CHEN 1211 or CHEM 1113 or CHEN 1201) PHYS 1110 (min grade C-). Restricted to Mechanical (MCEN) or Integrated Design (IDEN-BSIDE) students w/ sub-plan of MEC or Materials Sci minors (MTEN-MIN) or IUT On Track applicants.
Additional Information: Departmental Category: Materials

MCEN 2043 (3) Dynamics
Covers dynamic behavior of particle systems and rigid bodies. Topics include 2-D and 3-D kinematics and kinetics, impulse, momentum, potential and kinetic energy, and work and collision.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 3111
Requisites: Requires prerequisite courses of (MCEN 2023 or CVEN 2121 or GEEN 2851or ASEN 2701) and (APPM 1360 or MATH 2300) (all minimum grade C-). Restricted to MCEN or Integrated Design Engineering (IDEN-BSIDE) students with a sub-plan of Mechanical (MEC).
Additional Information: Departmental Category: Solids

MCEN 2063 (3) Mechanics of Solids
Covers axial forces, transverse forces, bending moments and torque on beams, shafts, columns and tensile members. Calculations of stresses from each of these loads, stresses in pressure vessels, stress concentrations. Stress transformation, principal stresses and maximum shear stress using Mohr¿s circle, combined load, failure criteria. Hooke¿s law, deflection and statically indeterminate structures, thermoelasticity.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 3161
Requisites: Requires prereq of (MCEN 2023 or CVEN 2121 or GEEN 2851 or ASEN 2001 or ASEN 2701) and (APPM 1360 or MATH 2300) (all minimum grade C-). Restricted to Mechanical (MCEN) or Biomed (BMEN) or Integrated Design Engr (IDEN-BSIDE) students w/ sub-plan of MEC.
Additional Information: Departmental Category: Solids

MCEN 3012 (3) Thermodynamics
Explores fundamental concepts and basic theory, including first and second laws of thermodynamics, properties, states, thermodynamic functions and cycles.
Equivalent - Duplicate Degree Credit Not Granted: GEEN 3852 or AREN 2110
Requisites: Requires prereq course of APPM 1360 or MATH 2300 (min grade C-). Restricted to Mechanical (MCEN) or Environmental (EVEN) or Integrated Design (IDEN-BSID) students w/ sub-plan Mechanical (MEC) or Civil (CVEN) students w/ sub-plan of CMU partnership `1MSC
Additional Information: Departmental Category: Thermal

MCEN 3017 (3) Circuits and Electronics for Mechanical Engineers
Covers analysis of electrical circuits by use of Ohm's law, network reduction, node and loop analysis, Thevenin's and Norton's theorems, DC and AC signals, transient response of simple circuits, transfer functions, basic diode and transistor circuits, and operational amplifiers. Includes introductory digital electronics and microprocessors/microcontrollers.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 3010
Requisites: Requires prereq course of PHYS 1120 and a prereq or coreq course of APPM 2360 or APPM 3310 or MATH 3430 (all min grade C-). Restricted to MCEN or EVEN or Integrated Design Engr (IDEN-BSIDE) students.
Additional Information: Departmental Category: Miscellaneous

MCEN 3021 (3) Fluid Mechanics
Examines fundamentals of fluid flow with application to engineering problems. Topics covered include fluid statics and kinematics, Bernoulli equations, laminar and turbulent viscous boundary layers, laminar and turbulent pipe flow, and conservation equations for mass, momentum and energy.
Equivalent - Duplicate Degree Credit Not Granted: CHEN 3200 and CVEN 3313
Requisites: Requires prereqs (MCEN 2023 or CVEN 2121 or GEEN 2851 or ASEN 2001 or ASEN 2701 or CHEN 2120) (APPM 2350 or MATH 2400) (all min grade C-). Restricted to MCEN, EVEN, and IDEN-BSIDE students w/ sub-plan of MEC.
Additional Information: Departmental Category: Fluids

MCEN 3022 (3) Heat Transfer
Studies fundamentals of heat transfer by conduction, convection, and radiation. Emphasizes problem formulation and selection of appropriate solution techniques. Provides applications to modern engineering systems, which may include energy, biological, environmental, and materials engineering problems.
Requisites: Requires prereq (MCEN 3021 or CVEN 3313), (MCEN 3012 or AREN 2110 or GEEN 3852 or EVEN 3012), (APPM 2360 or APPM 3310 or MATH 3430) (min grade C-). Restricted to Mech Engineering or Enviro Engineering or Integrated Design Engr w/sub-plan of MEC
Additional Information: Departmental Category: Thermal

MCEN 3025 (3) Component Design
Application of mechanics and materials science to the detailed design of various machine elements including shafts, bearings, gears, brakes, springs, and fasteners. Emphasizes application and open-ended design problems.
Requisites: Requires prerequisite courses of MCEN 1025 and (MCEN 2024 or GEEN 3024 or ASEN 1022), and (MCEN 2063 or CVEN 3161) (all minimum grade C-). Restricted to Mechanical (MCEN) or Integrated Design Eng (IDEN-BSIDE) students with a sub-plan of Mechanical (MEC)
Additional Information: Departmental Category: Design

MCEN 3030 (3) Computational Methods
Studies fundamental numerical techniques for the solution of commonly encountered engineering problems. Includes methods for linear and nonlinear algebraic equations, data analysis, numerical differentiation and integration, ordinary and partial differential equations.
Requisites: Requires prerequisite courses of (APPM 2360 or MATH 3430 or APPM 3310) and (MCEN 1030 or CSCI 1300 or CSCI 1310 or CSCI 1320 or ECEN 1310 or ASEN 1320) (all min grade C-). Restricted to Mechanical Engineering (MCEN) majors only.
Additional Information: Departmental Category: Math

MCEN 3032 (3) Thermodynamics 2
Offers advanced topics and applications for thermal system design and analysis. Topics include thermodynamics of state, entropy, thermodynamic cycles and reacting and nonreacting mixtures. Provides application to power generation, refrigeration and HVAC with conventional and advanced technologies. Most assignments are design oriented.
Requisites: Requires prereq of (MCEN 3021 or CHEN 3200 or CVEN 3313) (MCEN 3012 or GEEN 3852 or AREN 2110 or EVEN 3012 or CHEN 2120) (APPM 2360 or MATH 3430 or APPM 3310) (all min grade C-). Restricted to Mech Engineering or Enviro Engineering majors.
Additional Information: Departmental Category: Thermal

MCEN 3047 (4) Data Analysis and Experimental Methods
Learn to plan and carry out experiments and analyze the results. Topics covered include measurement fundamentals, design of experiments, elementary statistics and uncertainty analysis. Topics in statistics include probability, error propagation, confidence intervals, hypothesis testing, linear regression, one- and two-factor ANOVA and time series analysis. Formerly MCEN 3037.
Equivalent - Duplicate Degree Credit Not Granted: GEEN 3853
Requisites: Prereq PHYS 1140 (min grade C-). Coreqs 1 of:(WRTG 3030,3035,ENES 1010,3100,PHYS 3050,COEN 3050,ENLP 3100), 1 of:(ECEN 3010,2270,GEEN 3010,MCEN 3017), 1of:(MCEN 3030,APPM 4650,APPM 4600,CSCI 3656).Restricted to MCEN or IDEN w/MEC, 57+ credits only
Additional Information: Departmental Category: Miscellaneous

MCEN 3208 (1-4) Special Topics in Mechanical Engineering
Subject matter to be selected from topics of current interest.
Repeatable: Repeatable for up to 15.00 total credit hours.
Requisites: Requires prereq courses of APPM 2360 PHYS 1140 and prereq or coreq courses of ECEN 3010 and WRTG 3030 or WRTG 3035 or HUEN 1010 or 3100 (all min grade C). Restricted to students with 57-180 credits (Jrs/Srs) Mechanical Engineering (MCEN) majors only.
Additional Information: Departmental Category: Special Topics

MCEN 3930 (6) Mechanical Engineering Cooperative Education
Students enrolled in this course participate in a previously arranged, department-sponsored education program with a university, government agency, or industry. This course is offered only through Continuing Education.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: At least a 2.75 cumulative GPA is required. Restricted to Mechanical Engineering or students with a plan of Mechanical Engineering Concurrent Degree or Integrated Design Engineering students with a MCEN subplan.
Recommended: Prerequisite 3.00 GPA or higher.
Additional Information: Departmental Category: Math

MCEN 4010 (3) Microsystems Integration
A microsystem consists of microelectronic, optoelectronic, microwave, microelectromechanical and energy components interconnected. Thermal, electrical, fabrication and assembly issues for microsystems represented by iPhone series will be studied. The packaging and interconnection technologies used to establish the design and manufacturing infrastructure of microsystems will be reviewed. Other optoelectronic, MEMS and batter components for microsystems will also be studied.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5010
Requisites: Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Mechanical Engineering (MCEN) majors only.

MCEN 4012 (3) Renewable Fuels, Fuel Cells and Internal Combustion Engines
With the accelerated availability of carbon-free and renewable fuels, we will explore high-efficiency, low-emissions fuel cell and internal combustion engine energy conversion technologies, preparing students to enter the rapidly changing fields of power and propulsion on the path to net-zero greenhouse gas emissions. Through thermodynamic modeling, systems engineering, and requirements flow-down, students will apply the fundamentals of thermodynamics, fluids and heat transfer, combustion and electrochemistry for fuel cells and IC engines.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5012
Requisites: Requires corequisite course of MCEN 3032. Restricted to College of Engineering and Applied Sciences students.
Recommended: Prerequisites MCEN 4152/5152 or MCEN 4194/5194.

MCEN 4026 (3) Manufacturing Processes and Systems
Examines manufacturing processes for metals and polymers, as well as manufacturing systems that integrate these processes. Lecture topics include shape forming, machining, joining, assembling, casting, process integration, statistical process control, total quality management, geometric dimensioning and tolerancing, and electronic packaging. Examines real-world manufacturing operations and applications through guest speakers and examples.
Requisites: Requires prerequisite course of MCEN 2024 or GEEN 3024 or ASEN 1022 (minimum grade C-). Restricted to Mechanical Engineering (MCEN) majors only.
Additional Information: Departmental Category: Manufacturing and Systems

MCEN 4032 (3) Sustainable Energy
Examines sustainability of our current energy systems, including transportation, using environmental and economic indicators. Uses systems analysis that addresses energy supply and demand. Explores the science and technology as well as environmental and economic feasibility of efficiency measures and renewable energy technologies. Additional emphasis is given to the global nature of the challenges and the potential for locally optimal solutions.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5032
Requisites: Requires prerequisite or corequisite course of (MCEN 3022 or CHEN 3210 or AREN 2120 or ASEN 3402 or MCEN 3032) (minimum grade C-).
Additional Information: Departmental Category: Thermal

MCEN 4036 (3) Lean Six-Sigma in Manufacturing
Focuses on Lean Principles and Six-Sigma methodologies for defining, measuring, analyzing, improving, and controlling (DMAIC) manufacturing processes to establish more efficient processes. Incorporates statistical process control methodologies. Teaches students to streamline industry and manufacturing processes and use data to make better informed decisions. Includes lectures, in-class activities, Minitab workshops, industry focused projects, and three exams based on the DMAIC process along with three projects focused on industry tours.
Requisites: Restricted to students with 57-180 credits (Jrs/Srs) Mechanical Engineering (MCEN) majors only.

MCEN 4043 (3) System Dynamics
Covers linear dynamic systems and mathematical tools for understanding them. Topics include Laplace transform, multi-domain system modeling, input-output relationships, time-domain response, Fourier series, frequency-domain response, and introduction to feedback control.
Requisites: Requires prereqs (MCEN 2043 or CVEN 3111), (ECEN 3010 or 2270 or GEEN 3010 or MCEN 3017), coreq (MCEN 3030 or APPM 4650 or APPM 4600 or CSCI 3656) all min grade C-. Restricted to MCEN or IDEN-BSIDE students w/ sub-plan of MEC.
Additional Information: Departmental Category: Solids

MCEN 4045 (3) Mechanical Engineering Design Project 1
First part of a two-course capstone design experience in mechanical engineering. Covers problem definition, determining design requirements, alternative design concepts, engineering analysis, proof-of-concept prototype and CAD drawings. Students make several oral design reviews, a final design presentation, and prepare a written report. IDEN-BSIDE students are not required to complete MCEN 2000, MCEN 3022, MCEN 3030 or MCEN 4026 but have additional prerequisites of GEEN 1400, 2400 and 3400.
Requisites: Restricted to MCEN or IDEN mjrs w/ prereqs (GEEN 1400, 2400, OR 3400) and MCEN 2000, 3012, 3021, 3025, 3030, AND (3022 or 4043 or 3047). Coreqs MCEN 4026, 3022, 4043, 3047, AND (WRTG 3030 or 3035 or ENES 1010 or 3100) (all min grade C-).
Additional Information: Departmental Category: Design

MCEN 4057 (3) Environmental Modeling
Enables students to develop and evaluate pollutant transport, fate, exposure, and risk models for air, water, and multi-media systems, with a special emphasis on air. Emphasizes the fundamental physics and chemistry that govern contaminant fate and transport and the basic mathematical equations and numerical approaches for describing these processes.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5057
Requisites: Requires prerequisite courses of CHEN 1211 or CHEM 1113 or MCEN 1024 and CSCI 1300 or CSCI 1320 (all minimum grade C).
Additional Information: Departmental Category: Miscellaneous

MCEN 4064 (3) Soft Machines
Introduces soft machines as a new paradigm of engineering that starts to impact healthcare, consumer electronics, renewable energy and collaborative robotics. Prepares students to participate in research on soft machines by starting with fundamentals of soft materials and by covering soft robotics, stretchable electronics, energy harvesting and functional polymers. Includes guest lectures, a literature review and a hands-on lab project.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5046 and MSEN 5046
Requisites: Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Mechanical Engineering (MCEN) majors only.

MCEN 4085 (3) Mechanical Engineering Senior Design Project 2
Second part of a two-course capstone design experience in mechanical engineering. Includes refinement of prototype, design optimization, fabrication, testing, and evaluation. Students orally present the final design and prepare a written report and operation manual for the product. GEEN-BS and GEEN-BSEPL students are not required to complete MCEN 4026.
Requisites: Requires prerequisite course of MCEN 4045 (minimum grade C-).
Additional Information: Departmental Category: Design

MCEN 4086 (1) Writing for Design Projects
Communicate professionally in writing to the technical and nontechnical audience. Develop skills to analyze rhetorical situations and compose documents, such as reports, technical manuals and user guides, that achieve a specific purpose and meet the needs of a particular audience. Writing with clarity, conciseness and correctness will be emphasized.
Requisites: Requires prerequisite or corequisite course of MCEN 4045 (minimum grade C-).
Additional Information: Departmental Category: Manufacturing and Systems

MCEN 4110 (3) Regenerative Biology and Tissue Repair
Presents the regenerative biology behind tissue systems, along with the regenerative medicine of that tissue with an emphasis on engineering principles, using the assigned reading as a guideline. Follows lectures with class discussions of current papers on the regenerative biology of the same tissue system. In the final 1 ¿ 2 classes assigned to this topic, individual graduate students give 20 min presentations on a relevant regenerative medicine/engineering-focused paper.
Equivalent - Duplicate Degree Credit Not Granted: BMEN 4110, BMEN 5110, and MCEN 5110
Requisites: Restricted to Mechanical Engineering (MCEN), Biomedical Engineering (BMEN), and Chemical Engineering (CHEN or BIEN) majors with 57+ credits only.

MCEN 4111 (3) Introduction to Microfluidics
Microfluidics deals with the behavior of fluids in small scale. It is a highly multidisciplinary field at the intersection of engineering, physics, chemistry, biology, medicine, nanotechnology, and biotechnology. This course covers the fundamentals and fabrication of microfluidic devices and their applications, particularly in lab-on-a-chip. Includes lectures, literature discussion, team presentations, and possibly one lab on microfluidic devices. Enhances your understanding of microfluidic technologies and their broad applications.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5111 and BMEN 4111 and BMEN 5111
Requisites: Requires prerequisite course of MCEN 3021 or CHEN 3200 or CVEN 3313 (all minimum grade C-). Restricted to Mechanical Engineering majors only.

MCEN 4112 (3) Introduction to Nanoscale Transport
Introduces the basic concepts, theoretical methods, and experimental techniques related to nanoscience and nanoengineering that are ubiquitous in microelectronics, renewable energy technology, heat transfer, nano-optics, MEMS/NEMS, and emerging quantum technologies. Discusses microscopic pictures and theories of various energy transport and conversion phenomena and real-world examples and demonstrations.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5112
Requisites: Requires prerequisite courses of PHYS 1110 and (APPM 2360 or MATH 3430) (all minimum C-). Restricted to Mechanical Engineering (MCEN) majors with 57+ credits only.

MCEN 4113 (3) Mechanics of Cancer
Cancer is considered to be an organ or an ecosystem, in which a critical component of the tumor microenvironment is mechanical forces. This course will cover the role of mechanics in cancer and cancer-related processes, with a focus on solid mechanics and fluid mechanics. In this course, you will apply engineering principles to come away with an appreciation of how mechanics influence cancer and its etiology as well as the development of future treatments.
Equivalent - Duplicate Degree Credit Not Granted: BMEN 4113 and MCEN 5113 and BMEN 5113
Requisites: Requires prerequisite course of MCEN 3021 or CHEN 3200 or CVEN 3313 or MCEN 2063 or CVEN 3161 (all minimum grade C-). Restricted to Mechanical and Biomedical Engineering majors with 57+ credits only.

MCEN 4114 (3) Automation of Industrial Processes
Introduces students to Programmable Logic Controller (PLC) architecture, ladder logic programming, and programming Human Machine Interfaces (HMI). Students learn how to automate manufacturing processes and applications of PID control.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 4114
Requisites: Prerequisite MCEN 3017 Circuits and Electronics for Mechanical Engineers.

MCEN 4115 (3-4) Mechatronics and Robotics I
Focuses on design and construction of microprocessor-controlled electro-mechanical systems. Lectures review critical circuit topics, introduce microprocessor architecture and programming, discuss sensor and actuator component selection, robotic systems and design strategies for complex, multi-system devices. Lab work reinforces lectures and allows hands-on experience with robotic design. Students must design and build an autonomous robotic device. Project expenses may be incurred ($50 maximum).
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5115
Requisites: Requires prerequisite courses of (MCEN 3017 or ECEN 3010 or 2250 or GEEN 3010) and (MCEN 1030 or ECEN 1310 or CSCI 1300 or CSCI 1320 or ASEN 1320) (all min grade C-). Restricted to Mechanical Engineering majors only.
Additional Information: Departmental Category: Design

MCEN 4116 (3) Heating, Ventilation, and Air Conditioning Design
Analysis and design of buildings and their systems to satisfy the requirements for a comfortable and healthy indoor environment. Covers psychometrics, thermal comfort, building heating and cooling loads, fluid flow basics, and HVAC components and systems.
Requisites: Prerequisite: MCEN 3012 Thermodynamics.

MCEN 4117 (3) Anatomy and Physiology for Engineers
Explores human physiological function from an engineering, specifically mechanical engineering, viewpoint. Provides an introduction to human anatomy and physiology with a focus on learning fundamental concepts and applying engineering (mass transfer, fluid dynamics, mechanics, modeling) analysis.
Equivalent - Duplicate Degree Credit Not Granted: BMEN 4117 and BMEN 5117 MCEN 5117
Requisites: Restricted to Mechanical or Biomedical Engineering majors with 57+ credits only.
Additional Information: Departmental Category: Miscellaneous

MCEN 4118 (3) Mechanics of Snow
This course covers the composition, structure and mechanics of ice and snow, from plasticity of ice at the atomic scale, to snowflakes and snow metamorphism, to fracture mechanics and avalanches in large snow slabs. Experiments and models (micromechanics, fracture mechanics) applied to ice and snow are reviewed. Fundamental knowledge is applied to predicting the mechanical strength and reliability of different types of snow. Assessment is largely based on in-class activities, and on a final project.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5118
Requisites: Requires prerequisite course of MCEN 2063 Mechanics of Solids, minimum grad C-. Restricted to Mechanical Engineering majors with 57+ credits only.

MCEN 4123 (3) Vibration Analysis
Highlights free and forced vibration of discrete and continuous systems. Examines Lagrange's equation, Fourier series, Laplace transforms, and matrix and computational methods. Applies knowledge to practical engineering problems.
Equivalent - Duplicate Degree Credit Not Granted: ASEN 4123
Requisites: Requires prerequisite course of (MCEN 3030 or APPM 4650 or APPM 4600 or CSCI 3656 or ASEN 3112) (minimum grade C). Restricted to Mechanical Engineering majors with 57+ credits only.
Additional Information: Departmental Category: Solids

MCEN 4124 (3) Mechanical Behavior of Materials
Addresses the relationship between material structure and the fundamental processes of deformation, yield, and fracture. Examines elements of elasticity theory, introduction to plasticity, and formulation of failure criteria. Studies basic deformation processes in terms of dislocation mechanics and macroscopic mechanical behavior. Takes into consideration the influence of compositional and processing strengthening mechanisms on mechanical properties.
Requisites: Requires prerequisite courses of (MCEN 2024 or GEEN 3024 or ASEN 1022) and (MCEN 2063 or CVEN 3161) (all minimum grade C). Restricted to Mechanical Engineering majors with 57+ credits only.
Additional Information: Departmental Category: Materials

MCEN 4125 (3) Optimal Design
Focuses on linear optimization and will introduce non-linear optimization. Formulating Engineering applications as optimization problems that can be solved using industry known solvers will be learned. Some of these applications will include minimum cost mechanical design, wind farm power maximization, minimum energy control, production control, and more. Previous programming experience required.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5125
Requisites: Requires prerequisite course of (MCEN 3030 or APPM 4650 or APPM 4600 or CSCI 3656) (minimum grade C-). Restricted to Mechanical Engineering majors with 57+ credits only.
Additional Information: Departmental Category: Design

MCEN 4127 (3) Biomedical Ultrasound
Covers the design of ultrasound systems for medical imaging and therapy, including the physics of wave propagation, transducers, pulse-echo imaging, flow, tissue characterization, and microbubble contrast, with an emphasis on current topics in biomedical ultrasound. Includes lectures on theory, practice and special topics; a laboratory on wave propagation; oral presentations on current literature; signal processing exercises; and a team project. Some experience with MATLAB is strongly encouraged for exercises throughout the course.
Equivalent - Duplicate Degree Credit Not Granted: BMEN 4127 and BMEN 5127 and MCEN 5127
Requisites: Requires prerequisite course of ECEN 3300 or ECEN 3301 or MCEN 4043. Restricted to Mechanical Engineering (MCEN), Biomedical Engineering (BMEN), and Environmental Engineering (ECEN) majors with 57+ credits only.
Additional Information: Departmental Category: Miscellaneous

MCEN 4131 (3) Air Pollution Control Engineering
Introduces air quality regulations, meteorology and modeling. Examines methods for controlling major classes of air pollutants, including particulate matter and oxides of sulfur and nitrogen, as well as control technology for industrial sources and motor vehicles. Requires interdisciplinary design projects.
Equivalent - Duplicate Degree Credit Not Granted: EVEN 4131 and MCEN 5131 and EVEN 5131
Requisites: Requires prerequisite courses of (MCEN 3021 or CHEN 3200 or CVEN 3313) and (MCEN 3012 or GEEN 3852 or AREN 2110 or EVEN 3012) (all minimum grade C-). Restricted to Mechanical Engineering or Environmental Engineering majors with 57+ credits only.
Additional Information: Departmental Category: Fluids

MCEN 4133 (3) Intro to Tissue Biomechanics
Focuses on developing an understanding of the fundamental mechanical principles that govern the response of hard and soft biological tissue to mechanical loading. Specifically, covers mechanical behavior of biological materials/tissues, classical biomechanics problems in various tissues, the relationship between molecular, cellular and physiological processes and tissue biomechanics and critical analysis of related journal articles.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5133 and BMEN 5133
Requisites: Requires prerequisite courses of (MCEN 2024 or GEEN 3024 or ASEN 1022 or BMEN 2010) and MCEN 2063 (both minimum grade C-). Restricted to MCEN and BMEN majors with 57+ credits.
Additional Information: Departmental Category: Materials

MCEN 4135 (3) Wind Energy and Wind Turbine Design
Focuses on understanding and applying principles related to current wind energy technologies. Students will apply technical coursework from throughout the engineering curriculum (environmental, fluids, statics, dynamics, power, economics, etc.) to the process of designing wind turbines and wind farms. Practical, real world examples will be integrated into the lessons and problems.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5135
Requisites: Requires prerequisite courses of (MCEN 3021 or CHEN 3200 or CVEN 3313 or AREN 2120) and (MCEN 3017 or ECEN 3010 or GEEN 3010 or ECEN 2270 or AREN 3040) (all minimum grade C-). Restricted to Mech or Environmental Engineering majors with 57+ credits only.
Additional Information: Departmental Category: Design

MCEN 4137 (3) Anatomy and Physiology 2
Provides in-depth understandings of anatomy and physiology as well as introductions to transport phenomena, flow mechanics and solid mechanics in several organ systems: the cardiovascular, pulmonary, kidney, endocrine and digestive systems. Introduces artificial physiological systems to replace or assist physiological functions and introduce the concepts of physiological barriers that prevent diagnosis or effective therapeutics.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5137
Requisites: Requires prerequisite course of MCEN 4117 (minimum grade C). Restricted to students with 57-180 credits (juniors/seniors).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

MCEN 4138 (3) Control Systems Analysis
Analysis and design of continuous time control systems using classical and state space methods. Laplace transforms, transfer functions and block diagrams. Stability, dynamic response, and steady-state analysis. Analysis and design of control systems using root locus and frequency response methods. Computer aided design and analysis. Department enforced prerequisite: background in Laplace transforms, linear algebra,and ordinary differential equations.
Equivalent - Duplicate Degree Credit Not Granted: ASEN 4114 and ASEN 5114 ECEN 5138 and ECEN 4138 and MCEN 5138
Requisites: Requires prerequisite of MCEN 4043 or ECEN 3300 (minimum grade C-). Restricted to students with 57+ credits (Senior, Fifth Year Senior) Mechanical Engineering majors only.

MCEN 4141 (3) Indoor Air Pollution
Describes the impact of indoor air pollutants on human health, including an introduction to key pollutants and their sources. Students will estimate emission factors, calculate generation/ventilation rates, quantify the impact of deposition and chemical reactions and explore relevant control technology. Current issues will also be addressed, including climate change, green building design, economic concerns and relevance to the developing world.
Equivalent - Duplicate Degree Credit Not Granted: EVEN 4141, MCEN 5141, and EVEN 5141
Requisites: Requires prerequisite courses of (MCEN 3022 or CHEN 3210) (minimum grade C-). Restricted to Mechanical and Environmental Engineering majors with 57+ credits only.
Additional Information: Departmental Category: Fluids

MCEN 4151 (3) Flow Visualization
Explores techniques for the visualization of the physics of fluid flows including seeding with dyes, particles and bubbles, and shadowgraphy and schlieren. Reviews optics and fluid physics, especially atmospheric clouds. Assignments are student-driven, to individuals and mixed teams of graduates, undergraduates, engineering majors and photography/video majors.
Equivalent - Duplicate Degree Credit Not Granted: ARTF 5200, MCEN 5151, ATLS 4151 and ATLS 5151
Requisites: Restricted to College of Engineering and Applied Science students with 57+ credits only.
Recommended: Prerequisite MCEN 3021.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Fluids

MCEN 4152 (3) Introduction to Combustion
Focuses on the mechanisms by which fuel and oxidizers are converted into combustion products. Application to practical combustion devices such as Otto, Diesel, gas turbine and power plant combustion systems. Consideration of combustion-generated air pollution, fire safety and combustion efficiency.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5152
Requisites: Requires prerequisite course of MCEN 3012 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Mechanical Engineering majors only.
Recommended: Prerequisites MCEN 3021 and MCEN 3022.
Additional Information: Departmental Category: Thermal

MCEN 4154 (3) Biocolloids and Biomembranes
Covers the thermodynamics and mechanics of biological membranes and biomedical colloids. Considers intermolecular and surface forces, self-assembly and colloidal stability. Addresses structure-property relationships and design principles for biomedical applications. Focuses on monolayers, bilayers, micelles, filomicelles, liposomes, polymersomes, emulsions, microbubbles, polyplexes and polyelectrolyte multilayer capsules.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5154
Requisites: Requires prerequisite courses of (APPM 2360 or MATH 3130 or MATH 3135 or APPM 3310) and (PHYS 1120 or PHYS 1125) (all minimum grade C). Restricted to Mechanical Engineering students with 57+ credits only
Additional Information: Departmental Category: Materials

MCEN 4155 (3) Automated Mechanical Design Synthesis
Introduces computational approaches to automatically generate complex multimaterial mechanical designs that satisfy predefined high-level specifications, discusses algorithms to solve design as a constrained non-convex multi-objective optimization problem. Topics: expert-driven design process; computational analysis tools based on mechanical simulation (finite element methods, mesh-free methods); topological optimization; compositional design; multi-objective optimization; evolutionary design; design for manufacturing with additives (FDM, SLA, Inkjet). Students design a part to specifications, fabricate using advanced (3D printing, laser cutting, CNC, etc) tools.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5155
Requisites: Requires prerequisite course of MCEN 3030 or APPM 4650 or APPM 4600 or CSCI 3656 (all minimum grade C-). Restricted to Mechanical Engineering majors with 87+ credits only.
Recommended: Prerequisite students should be comfortable with MATLAB, PDEs, linear algebra, free body diagrams, mechanical modeling/design; exposure to finite-element modeling and state-space representations.

MCEN 4157 (3) Modeling of Human Movement
Human movement analysis is used in physical rehabilitation, sport training, human-robot interaction, animation, and more. Course provides a systematic overview of human movement on multiple levels of analysis, with an emphasis on the phenomenology amenable to computational modeling. Covers muscle physiology, movement-related brain areas, musculoskeletal mechanics, forward and inverse dynamics, optimal control and Bayesian inference, learning and adaptation. Inspires students to see and appreciate the complexities of movement control in all aspects of daily life.
Equivalent - Duplicate Degree Credit Not Granted: BMEN 4157 and MCEN 5157 and BMEN 5157
Requisites: Requires prerequisite of (MCEN2043 or GEEN 3024 or ASEN 1022) and (APPM2360 or MATH2130 or MATH3130) all minimum grade C-. Restricted to students with 57-180 credits (Jrs/Srs) Mechanical Engineering (MCEN) and Biomedical Engineering (BMEN) majors only.

MCEN 4162 (3) Energy Conversion
Examines common energy-conversion methods and devices. Topics include power-cycle thermodynamics, turbocompressor and expander processes, combustion systems, and applications and limitations of direct energy-conversion systems.
Requisites: Requires prerequisite course of (MCEN 3012 or GEEN 3852 or AREN 2110 or EVEN 3012 or CHEN 3320) (minimum grade C). Restricted to Mechanical Engineering majors with 57+ credits only.
Additional Information: Departmental Category: Thermal

MCEN 4171 (3) Biofluids on the Micro Scale
Introduces fundamental physical concepts and basic mechanisms of biological fluids in microscale. Elaborates on the application of fluid mechanics principles to major biological systems, including human organ systems and animal locomotion in microscale. Covers physiologically relevant fluid flow phenomena on the cellular level and the underlying physical mechanisms from an engineering perspective. Related state-of-art technologies such as organ-on-a-chip and micro/nano fabrication will be emphasized. Will enhance your understanding of organ-on-a-chip technologies and their broad applications.
Equivalent - Duplicate Degree Credit Not Granted: BMEN 4171 and MCEN 5171 and BMEN 5171
Requisites: Restricted to Mechanical Engineering and Biomedical Engineering majors with 57+ credits.
Recommended: Prerequisites MCEN 3021 or CHEN 3200 or CVEN 3313 or BMEN 3010.

MCEN 4173 (3) Finite Element Analysis
Introduces the theory behind and applications of the finite element method as a general and powerful tool to model a variety of phenomena in mechanical engineering. Applications include structural mechanics, mechanics of elastic continua and heat conduction.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5173
Requisites: Requires prerequisite course of (MCEN 2063 or CVEN 3161) (minimum grade C-). Restricted to Mechanical Engineering majors with 57+ credits only.
Additional Information: Departmental Category: Solids

MCEN 4174 (3) Failure of Engineering Materials
Examines the fundamental concepts regarding the failure of engineering materials. Case studies are used to integrate a basic understanding of material failure mechanisms with analysis techniques and tools. Topics include the elastic properties (isotropic and anisotropic materials) and the origin of elastic behavior, viscoelasticity, plasticity (dislocation mechanisms, yielding criteria, strengthening mechanisms), creep, fracture and fatigue.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5174
Requisites: Requires prerequisite courses of (MCEN 2024 or GEEN 3024 or ASEN 1022) and (MCEN 2063 or CVEN 3161) (all minimum grade C-). Restricted to Mechanical Engineering majors with 57+ credits only.
Additional Information: Departmental Category: Materials

MCEN 4183 (3) Mechanics of Composite Materials
Introduces various kinds of composite materials, composite fabrication techniques, the physical and mechanical behavior of composites, and analytical and experimental methodologies.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5183
Requisites: Requires prerequisite courses of (MCEN 2024 or GEEN 3024 or ASEN 1022) and (MCEN 2063 or CVEN 3161) (all minimum grade C-). Restricted to Mechanical Engineering majors with 57+ credits only.
Additional Information: Departmental Category: Solids

MCEN 4193 (3) Design of Coffee
Serves as an introduction to how engineers use their disciplinary training to approach and solve problems outside of the traditional confines of their discipline, as illustrated by the roasting and brewing of coffee. In addition to focusing on the science, engineering and craftsmanship of making a cup of coffee from bean to cup, we will also study the global sourcing and sustainability aspects of coffee.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5193
Requisites: Requires prerequisite course of MCEN 3022 and (MCEN 3021 or CHEN 3200 or CVEN 3313) (minimum grade C-). Restricted to Mechanical Engineering majors with 57+ credits only.
Recommended: Prerequisite MCEN 3047.

MCEN 4194 (3) Electrochemical Energy Conversion and Storage
Presents the fundamentals, principles and experimental techniques of electrochemistry, the background of ionic or electronic conduction of metal, semiconductor, inorganic and polymer materials and applications in the areas of batteries, fuel cells, electrochemical double layer capacitors, electrochemical photonics, sensors and semiconductor electrochemistry.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5194
Requisites: Requires prereq course of (MCEN 2024 or GEEN 3024 or ASEN 1022) and coreq course of MCEN 3032 (all min grade C-). Restricted to Mechanical Engineering majors only.
Additional Information: Departmental Category: Materials

MCEN 4195 (3) Bioinspired Robotics
Bioinspired design views the process of how we learn from nature as an innovation strategy translating principles of function, performance, and aesthetics, from biology to human technology. The creative design process is driven by interdisciplinary exchange among engineering, biology, medicine, art, architecture and business. Diverse teams of students will collaborate on, create, and present original bioinspired design projects in the ITLL.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5195, BMEN 5195 and BMEN 4195
Requisites: Requires prerequisite courses of MCEN 3017 and MCEN 3025 (minimum grade C-). Restricted to students with 57+ credits (Jrs/Srs) Mechanical Engineering (MCEN) majors only.

MCEN 4215 (3) Design for Inclusion
Examines the ways technologies like apps, products, public infrastructures and educational systems have excluded the needs of certain user groups while optimizing for others. Explores design approaches including universal design, humanitarian engineering, and culturally responsive design through multiple hands-on projects with the goal of equipping all to become more capable designers for inclusion rather than exclusion.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5215
Requisites: Restricted to Mechanical Engineering majors with 87+ credits only.

MCEN 4225 (3) Product Development and Definition
Student teams work with project clients to provide a thorough solution to an overarching problem the client or market wants answered. Development focuses on advancing product development through an iterative prototyping and testing cycle. Includes design and development of rigorous product tests to collect critical data on performance criteria. Definition focuses on advancing CAD skills along with print production and definition using advanced GD&T. Skills are applied to the students¿ designed product and testing experiments.
Requisites: Corequisite of MCEN 3025.
Recommended: Prerequisites ENGR 161 and 162.

MCEN 4228 (1-4) Special Topics in Mechanical Engineering
Subject matter to be selected from topics of current interest.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5228
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57+ credits (Jrs/Srs) Mechanical Engineering (MCEN) majors only.
Additional Information: Departmental Category: Miscellaneous

MCEN 4231 (3) Computational Fluid Dynamics
This course is an in-depth introduction to the basic principles and applications of computational fluid dynamics (CFD). Students learn about fundamental CFD concepts such as discretization, meshing, error and accuracy; and focus on computational solutions of flow and transport problems using the finite element method. Students conduct multiple hands-on simulation-based activities and exercises on canonical and realistic engineering flow/transport problems. Final project for the course culminates in a mini-conference/symposium where students present their work.
Equivalent - Duplicate Degree Credit Not Granted: BMEN 4231 and MCEN 5231 and BMEN 5231
Requisites: Requires prerequisite courses of MCEN 3021 or CHEN 3200 or CVEN 3313 and MCEN 3030 or APPM 4650 or CSCI 3656 (all minimum grade C-). Restricted to Mechanical Engineering majors only.

MCEN 4238 (3) Design for Community
Design for Community (D4C) will provide engineering students with practical experience in consulting while offering valuable engineering services to University and industry clients. Focuses on preparing students for the practice of engineering by acting as a consultancy for clients' engineering-related design and fabrication needs. Students may be expected to work in teams or individually under the supervision of project directors, depending on project scope. Each student or team will assist several clients during the semester. The D4C will pursue the following goals for its students: provide a practical just-in-time learning experience for students interested in engineering consulting; prepare students for the practice of engineering design with underspecified real-world problem sets; prepare students for the professionalism needed to interact with clients; provide outreach that connects communities outside the Department of Mechanical Engineering and serves clients that would not have access to engineering
Requisites: Restricted to students with 57-180 credits (Jrs/Srs) Mechanical Engineering (MCEN) majors only.

MCEN 4279 (3) Aesthetics in Design
Focuses on aesthetic aspects of design via hands-on design-build experiences. Students individually create dynamic artifacts of their own choice with the assistance of teammates. Content includes major design movements since 1900, constructive critique practice, hand sketching techniques and other selected industrial design topics. Students publish their design work on an archival public blog which provides a professional portfolio element.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 4279 and MCEN 5279 and ATLS 5279
Requisites: Restricted to students with 57-180 credits (Jrs/Srs) Mechanical Engineering (MCEN) majors only.

MCEN 4291 (1-2) Project Based Learning in Rural Schools
Focuses on the use of low cost air quality monitoring tools, dubbed Pods, to implement PBL curriculum in high school environmental science classes in rural communities in Colorado. Each student will be paired with a high school class and will serve as curriculum and technology advisors as well as science experts. During the fall semester, students will be trained to effectively work in those roles and will also travel to their schools to be introduced. During the spring semester, students will support high school teachers in implementing an existing PBL air quality curriculum with the Pods. This will include monthly visits to schools in the spring and reporting back to the class. Enrollment during Fall is required for enrollment during Spring. Previously offered as a special topics course.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5291
Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57+ credits (juniors and above) only.

MCEN 4292 (3) Materials and Devices in Medicine
The main objective of this multidisciplinary course is to provide students with a broad survey of biomaterials and their use in medical devices for restoring or replacing the functions of injured, diseased, or aged human tissues and organs. The topics to be covered include: evolution in the medical device industry, a broad introduction to the materials used in medicine and their chemical, physical, and biological properties, discovery of medical problems, potential impacts of treatment innovations, existing devices and design considerations for several major physiological systems (cardiovascular, neuromuscular, skeletal, pulmonary, renal, dermal), materials interaction with the human body, basic mechanisms of wound healing, biocompatibility issues, testing methods and techniques in accordance with standards and relevant regulations, biofunctionalities required for specific applications, as well as state-of-the-art approaches for the development of new regenerative materials targeting cellular mechanisms. Sam
Requisites: Requires prerequisite courses of MCEN 2024 and MCEN 4117 or MCEN 5117 (all minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Mechanical Engineering majors only.

MCEN 4293 (3) Mechanics of Soft Matter
Provides a general overview of fundamental concepts behind the mechanical behavior of soft matter. The term soft matter (which includes polymers, colloids, liquid crystals and surfactants, to name a few) is typically used to describe classes of materials whose structural unit is much larger than atoms, making their response more complex and often richer that of traditional solids. The objective of this class is to understand how chemical and mechanical forces between these small units yield macroscopic behaviors that one can observe in everyday life. Key engineering applications will also be discussed.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5293
Requisites: Requires prerequisite course of MCEN 2063 or CVEN 3161 (minimum grade C). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Mechanical Engineering majors only.

MCEN 4298 (3) Introduction to Polymers
Polymers represent a major class of engineering materials that are used by mechanical engineers. In this class, we will discuss the most fundamental concepts regarding polymeric materials. Topics include synthesis/manufacturing and chemical properties of polymers, statistical properties of polymer chains, multiphase polymers including polymer solutions and polymer blends, crystallization and glass transition of polymers, and viscoelastic properties of polymers.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5298
Requisites: Requires prerequisite course of MCEN 2024 (minimum grade C). Restricted to students with 57+ credits (Junior, Senior) Mechanical Engineering majors only.

MCEN 4299 (3) Household Energy Systems
Cooking, heating and lighting in the developing world often involves inefficient and incomplete combustion of solid or liquid fuels. The Global Burden of Disease Study in 2010, ranked this combustion as the 4th largest risk factor, causing 4 million premature deaths per year. There is a strong societal need to tackle this problem. Students leaving this course will be able to meet this need as they will have the skills to assess existing and new technology used in the developing world for cooking, heating and lighting. The course will cover (1) food conversion chemistry with the focus on increasing useable calories, (2) combustion and heat transfer as related to cooking, heating and lighting, and (3) combustion emissions and stove use assessment. There will be case studies interlaced throughout the content and the bulk of the workload will be homeworks and projects.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 5299
Requisites: Requires prerequisite or corequisite course of MCEN 3022 (minimum grade C). Restricted to students with 57+ credits (Junior, Senior) Mechanical Engineering or Environmental Engineering majors only.

MCEN 4638 (3) Control Systems Laboratory
Provides experience in control system design and analysis, using both real hardware and computer simulation. Covers the entire control system design cycle: modeling the system, synthesizing a controller, conducting simulations, analyzing the design to suggest modifications and improvements, and implementing the design for actual testing.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5638, ECEN 4638, and MCEN 5638
Requisites: Requires prerequisite course of MCEN 4138 (minimum grade C-). Restricted to College of Engineering majors only.

MCEN 4700 (3) Quantum Forge I
Provides junior- and senior-level engineering and physical science students an opportunity to gain professional and technical quantum science skills and experience through participation in real-world projects in collaboration with industry leaders and academic investigators. Alongside project activity, students will engage in skill- and concept-focused modules to ensure proficiency in the skills necessary to participate in the quantum workforce. This capstone experience is intended for students who do not intend to continue on to graduate study in physics or engineering, but rather to enter the workforce directly.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 4700
Requisites: Requires prerequisite course of PHYS 3330 (minimum grade C-).
Recommended: Prerequisite or corequisite PHYS 4410.

MCEN 4710 (3) Quantum Forge II
Continuation of PHYS 4700, Quantum Forge I. The Quantum Forge provides junior- and senior-level engineering and physical science students an opportunity to gain professional and technical quantum science skills and experience through participation in real-world projects in collaboration with industry leaders and academic investigators. In the second semester, students will expand upon the knowledge and skills gained through the first-semester to bring projects to a point of completion and readiness for deployment in the industry context. As with Quantum Forge I, this capstone experience is intended for students who do not intend to continue on to graduate study in physics or engineering, but rather to enter the workforce directly.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 4710
Requisites: Requires prerequisite course of PHYS 4700 or MCEN 4700 (minimum grade C-).

MCEN 4848 (1-6) Independent Study
Subjects arranged in consultation with instructor and undergraduate advisor. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Mechanical Engineering majors only.
Additional Information: Departmental Category: Miscellaneous

MCEN 5000 (3) Sociotechnical Industry Skills
Provides an introduction to sociotechnical skills as they relate to the practice of engineering. Themes include career exploration, communication, ethics, leadership, and teamwork. Students conduct several self-assessments to build awareness of their working styles and strengths. Students work on teams to be more effective as leaders and working on teams. Alumni and industry professionals regularly participate in the course to provide expertise and networking opportunities.
Requisites: Restricted to graduate students in the College of Engineering and Applied Science or undergraduate Mechanical Engineering (MCEN) majors with 57+ credits (Junior or Senior).

MCEN 5010 (3) Microsystems Integration
A microsystem consists of microelectronic, optoelectronic, microwave, microelectromechanical and energy components interconnected. Thermal, electrical, fabrication and assembly issues for microsystems represented by iPhone series will be studied. The packaging and interconnection technologies used to establish the design and manufacturing infrastructure of microsystems will be reviewed. Other optoelectronic, MEMS and batter components for microsystems will also be studied.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4010
Requisites: Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Mechancial (MCEN) majors or College of Engineering graduate students only.
Grading Basis: Letter Grade

MCEN 5012 (3) Renewable Fuels, Fuel Cells and Internal Combustion Engines
With the accelerated availability of carbon-free and renewable fuels, we will explore high-efficiency, low-emissions fuel cell and internal combustion engine energy conversion technologies, preparing students to enter the rapidly changing fields of power and propulsion on the path to net-zero greenhouse gas emissions. Through thermodynamic modeling, systems engineering, and requirements flow-down, students will apply the fundamentals of thermodynamics, fluids and heat transfer, combustion and electrochemistry for fuel cells and IC Engines.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4012
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.

MCEN 5014 (3) Energy Materials Characterization
Introduces theoretical framework for characterization techniques including X-ray diffraction, X-ray photoelectron spectroscopy and imaging methods used in the structural and morphological characterization of energy materials. Helps students determine characterization techniques suitable for their study and understand their data. Uses energy storage case studies to provide the methodologies for determining the nature and composition of materials. Helps students learn new characterization techniques from the literature and seek the characterization resources from DOE funded user facilities.
Requisites: Restricted to graduate students in the College of Engineering and Applied Science or undergraduate Mechanical Engineering (MCEN) majors with 57+ credits (Junior or Senior).
Recommended: Prerequisite MCEN 1024 Chemistry or equivalent, and MCEN 2024 Materials Science or equivalent.

MCEN 5020 (3) Methods of Engineering Analysis 1
Studies selected topics from linear algebra, multi-variable calculus, differential equations, and Fourier series. Assigns computer exercises. Correlates with analysis topics in other mechanical engineering graduate courses, and emphasizes applications. Prior courses in Calculus I, II, II, differential equations, and linear algebra strongly recommend.
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Math

MCEN 5021 (3) Introduction to Fluid Dynamics
Focuses on physical properties of gases and liquids, and kinematics of flow fields. Analyzes stress; viscous, heat-conducting Newtonian fluids; and capillary effects and surface-tension-driven flow. Other topics include vorticity and circulation, ideal fluid flow theory in two and three dimensions, Schwartz-Christoffel transformations, free streamline theory, and internal and free-surface waves.
Requisites: Requires corequisite course of MCEN 5020. Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Fluids

MCEN 5022 (3) Classical Thermodynamics
First and second laws of thermodynamics. Entropy and availability. Cycle analysis. Thermodynamic properties of pure substances and mixtures. Property relations. Chemical reactions and chemical availability. Energy systems analysis.
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Thermal

MCEN 5023 (3) Solid Mechanics 1
Introduces stress, strain and motion of a continuous system. Discusses material derivative; fundamental laws of mass, momentum, energy and entropy; constitutive equations and applications to elasticand plastic materials.
Equivalent - Duplicate Degree Credit Not Granted: ASEN 5012
Requisites: Requires coreq course of MCEN 5020. Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering (MCEN) majors only.
Additional Information: Departmental Category: Solids

MCEN 5024 (3) Materials Chemistry and Structures
Provides graduate level students with a comprehensive overview of the chemistry and structure of material systems, with a focus on chemical bonding., the resulting material structures and their properties. This course is intended to become one of the four core courses offered in the new Materials Science curriculum. Course topics include: bonding in solids, crystalline and amorphous states, basic group theory, diffraction, metals and alloys, ceramics, and an intro to mat. characterization.
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Materials

MCEN 5027 (1) Graduate Seminar
Offers weekly presentations by visiting speakers, faculty, and students.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Miscellaneous

MCEN 5030 (3) Introduction to Research
Provides students with fundamental skills important for success in research. Covers approaches to generating project and program ideas, securing funding, performing a literature search to understand the state of a field, communicating results through presentations and papers, understanding scientific ethics, developing a network of trusted peers, establishing and negotiating collaborations, fostering diversity, ensuring equity and inclusivity, and establishing a professional profile and becoming a leader in your field.
Requisites: Restricted to undergraduate or graduate Mechanical Engineering students only.

MCEN 5032 (3) Sustainable Energy
Examines sustainability of our current energy systems, including transportation, using environmental and economic indicators. Uses systems analysis that addresses energy supply and demand. Explores the science and technology as well as environmental and economic feasibility of efficiency measures and renewable energy technologies. Additional emphasis is given to the global nature of the challenges and the potential for locally optimal solutions.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4032
Requisites: Restricted to graduate students in the College of Engineering and Applied Science or undergraduate Mechanical Engineering (MCEN) majors with 57+ credits (Junior or Senior).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Thermal

MCEN 5034 (3) Thermodynamics of Materials
Provides a unified presentation of fundamental concepts applicable to the thermodynamics of engineering materials. Develops quantitative tools for understanding the physical principles that govern phase equilibrium and transformation. Generates binary and ternary phase diagrams and determine the resulting materials structures and corresponding physical and mechanical properties.
Recommended: Prerequisites MCEN 2024 and MCEN 3012.
Additional Information: Departmental Category: Materials

MCEN 5040 (3) Methods of Engineering Analysis 2
Studies selected topics from the theory of complex variables, integral transform methods, partial differential equations, and variational methods. Assigns computer exercises. Correlates with analysis topics in other mechanical engineering graduate courses, and emphasizes applications.
Requisites: Requires prerequisite course of MCEN 5020 (minimum grade D-). Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Math

MCEN 5041 (3) Advanced Fluid Mechanics 1
Highlights exact solution of Navier-Stokes equations and fundamentals of rotating fluids. Considers Low Reynolds number flow; similarity solutions; viscous boundary layers, jets, and wakes; and unsteady viscous flow.
Requisites: Requires corequisite course of MCEN 5020. Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Fluids

MCEN 5042 (3) Heat Transfer
Studies development of equations governing transport of heat by conduction, convection, and radiation, and their solution. Includes analytical and numerical solution of initial and boundary value problems representative of heat conduction in solids. Describes heat transfer in free and forced convection, including laminar and turbulent flow. Also involves radiation properties of solids, liquids, and gases and transport of heat by radiation.
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Thermal

MCEN 5044 (3) Mechanical Behavior of Materials
This introductory-level graduate course incorporates relevant aspects of materials science, solid mechanics, thermodynamics and mathematics, and applies them to achieve a fundamental understanding of the mechanical behavior of crystalline and non-crystalline engineering materials.
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering (MCEN) majors only.
Additional Information: Departmental Category: Materials

MCEN 5045 (3) Design for Manufacturability
Topics include general design guidelines for manufacturability; aspects of manufacturing processes that affect design decisions; design rules to maximize manufacturability; economic considerations; value engineering and design for assembly. Presents case studies of successful products exhibiting DFMA principles. Prerequisite of MCEN 4026 required for undergraduate students.
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering (MCEN) majors only.
Additional Information: Departmental Category: Materials

MCEN 5055 (3) Advanced Product Design
Introduces engineering design and development of consumer products. Includes learning sketching, brainstorming, idea generation, design thinking, user-centered design, product requirements and specifications, product constraints, human factors, aesthetics, industrial design, intellectual property, concept prototyping, idea selection, tolerancing, cost estimating, design for assembly, and materials selection. Entails a semester-long team re-design of a consumer product.
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Design

MCEN 5057 (3) Environmental Modeling
Enables students to develop and evaluate pollutant transport, fate, exposure, and risk models for air, water, and multi-media systems, with a special emphasis on air. Emphasizes the fundamental physics and chemistry that govern contaminant fate and transport and the basic mathematical equations and numerical approaches for describing these processes.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4057
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

MCEN 5064 (3) Soft Machines
Introduces soft machines as a new paradigm of engineering that starts to impact healthcare, consumer electronics, renewable energy and collaborative robotics. Prepares students to participate in research on soft machines by starting with fundamentals of soft materials and by covering soft robotics, stretchable electronics, energy harvesting and functional polymers. Includes guest lectures, a literature review and a hands-on lab project.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4046 and MSEN 5046
Requisites: Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Mechancial (MCEN) majors or College of Engineering graduate students only.
Grading Basis: Letter Grade

MCEN 5065 (3) Graduate Design I
First part of a two-course graduate product design experience in mechanical engineering. Covers problem definition and specifications, determining design requirements, user feedback, alternative design concepts, engineering analysis, concept prototypes and CAD drawings. Students make several oral design reviews, a final design presentation and prepare a written report. Entails a team product design, fabrication and testing cycle of sponsored project. Students who complete this course are encouraged to take MCEN 5075 Graduate Design II.
Requisites: Requires prerequisite course of MCEN 5055 (minimum grade C).
Additional Information: Departmental Category: Design

MCEN 5075 (3) Graduate Design II
Second part of two-course graduate product design experience in mechanical engineering. Includes refinement of prototype, design optimization, fabrication, testing, and evaluation. Students orally present the final design and prepare a written report and operation manual for the product. Entails a team product design, fabrication, and testing cycle of a sponsored project, leading to a fully-functional product.
Requisites: Requires prerequisite course of MCEN 5065 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Design

MCEN 5110 (3) Regenerative Biology and Tissue Repair
Presents the regenerative biology behind tissue systems, along with the regenerative medicine of that tissue with an emphasis on engineering principles, using the assigned reading as a guideline. Follows lectures with class discussions of current papers on the regenerative biology of the same tissue system. In the final 1 ¿ 2 classes assigned to this topic, individual graduate students give 20 min presentations on a relevant regenerative medicine/engineering-focused paper.
Equivalent - Duplicate Degree Credit Not Granted: BMEN 5110, BMEN 4110, and MCEN 4110
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.

MCEN 5111 (3) Introduction to Microfluidics
Microfluidics deals with the behavior of fluids in small scale. It is a highly multidisciplinary field at the intersection of engineering, physics, chemistry, biology, medicine, nanotechnology, and biotechnology. This course covers the fundamentals and fabrication of microfluidic devices and their applications, particularly in lab-on-a-chip. Includes lectures, literature discussion, team presentations, and possibly one lab on microfluidic devices. Enhances your understanding of microfluidic technologies and their broad applications.
Equivalent - Duplicate Degree Credit Not Granted: BMEN 5111 and MCEN 4111 and BMEN 4111
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Recommended: Prerequisite MCEN 3021 or CHEN 3200 or CVEN 3313.

MCEN 5112 (3) Introduction to Nanoscale Transport
Introduces the basic concepts, theoretical methods, and experimental techniques related to nanoscience and nanoengineering that are ubiquitous in microelectronics, renewable energy technology, heat transfer, nano-optics, MEMS/NEMS, and emerging quantum technologies. Discusses microscopic pictures and theories of various energy transport and conversion phenomena and real-world examples and demonstrations.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4112
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors with 57+ credits only.

MCEN 5113 (3) Mechanics of Cancer
Cancer is considered to be an organ or an ecosystem, in which a critical component of the tumor microenvironment is mechanical forces. This course will cover the role of mechanics in cancer and cancer-related processes, with a focus on solid mechanics and fluid mechanics. In this course, you will apply engineering principles to come away with an appreciation of how mechanics influences cancer and its etiology as well as the development of future treatments.
Equivalent - Duplicate Degree Credit Not Granted: BMEN 5113 and BMEN 4113 and MCEN 4113
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical and Biomedical Engineering undergraduate majors only.

MCEN 5115 (3) Mechatronics and Robotics I
Focuses on design and construction of microprocessor-controlled electro-mechanical systems. Lectures review critical circuit topics, introduce microprocessor architecture and programming, discuss sensor and actuator component selection, robotic systems and design strategies for complex, multi-system devices. Lab work reinforces lectures and allows hands-on experience with robotic design. Students must design and build an autonomous robotic device. Project expenses may be incurred ($50 maximum).
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4115
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Design

MCEN 5117 (3) Anatomy and Physiology for Engineers
Explores human physiological function from an engineering, specifically mechanical engineering, viewpoint. Provides an introduction to human anatomy and physiology with a focus on learning fundamental concepts and applying engineering (mass transfer, fluid dynamics, mechanics, modeling) analysis.
Equivalent - Duplicate Degree Credit Not Granted: BMEN 4117 and BMEN 5117 MCEN 4117
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Miscellaneous

MCEN 5118 (3) Mechanics of Snow
This course covers the composition, structure and mechanics of ice and snow, from plasticity of ice at the atomic scale, to snowflakes and snow metamorphism, to fracture mechanics and avalanches in large snow slabs. Experiments and models (micromechanics, fracture mechanics) applied to ice and snow are reviewed. Fundamental knowledge is applied to predicting the mechanical strength and reliability of different types of snow. Assessment is largely based on in-class activities, and on a final project.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4118
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors with 57+ credits only.
Recommended: Prerequisite 2063 Mechanics of Solids or equivalent.

MCEN 5121 (3) Compressible Flow
Applies energy, continuity, and momentum principles to compressible flow. Topics include normal and oblique shocks; Prandtl-Meyer expansion; methods of characteristics; and one-, two-, and three-dimensional subsonic, supersonic, and hypersonic flows.
Requisites: Requires prerequisite course of MCEN 5021 (minimum grade D-). Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Fluids

MCEN 5122 (3) Statistical Thermodynamics
Axiomatic formulation of macroscopic thermodynamics. Quantum mechanical description of atomic and molecular structure. Statistical mechanics description of thermodynamic properties of gases, liquids and solids. Elementary kinetic theory of gases and evaluation of transport properties. Department enforced requisite: undergraduate thermodynamics.
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Thermal

MCEN 5125 (3) Optimal Design
Focuses on linear optimization and will introduce non-linear optimization. Formulating engineering applications as optimization problems that can be solved using industry known solvers will be learned. Some of these applications will include minimum cost mechanical design, wind farm power maximization, minimum energy control, production control, and more. Previous programming experience required.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4125
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Design

MCEN 5127 (3) Biomedical Ultrasound
Covers the design of ultrasound systems for medical imaging and therapy, including the physics of wave propagation, transducers, pulse-echo imaging, flow, tissue characterization, and microbubble contrast, with an emphasis on current topics in biomedical ultrasound. Includes lectures on theory, practice and special topics; a laboratory on wave propagation; oral presentations on current literature; signal processing exercises; and a team project. Some experience with MATLAB is strongly encouraged for exercises throughout the course.
Equivalent - Duplicate Degree Credit Not Granted: BMEN 5127 and MCEN 4127 and BMEN 4127
Requisites: Restricted to graduate students in the College of Engineering and Applied Science or undergraduate Mechanical Engineering (MCEN), Biomedical Engineering (BMEN), and Environmental Engineering (ECEN) majors with 57+ credits (Junior or Senior).
Recommended: Prerequisite MCEN 4043 System Dynamics or equivalent.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

MCEN 5131 (3) Air Pollution Control Engineering
Introduces air quality regulations, meteorology and modeling. Examines methods for controlling major classes of air pollutants, including particulate matter and oxides of sulfur and nitrogen, as well as control technology for industrial sources and motor vehicles. Requires interdisciplinary design projects.
Equivalent - Duplicate Degree Credit Not Granted: EVEN 5131 and MCEN 4131 and EVEN 4131
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering or Environmental Engineering undergraduate majors only.
Additional Information: Departmental Category: Fluids

MCEN 5133 (3) Intro to Tissue Biomechanics
Focuses on developing an understanding of the fundamental mechanical principles that govern the response of hard and soft biological tissue to mechanical loading. Specifically, covers mechanical behavior of biological materials/tissues, classical biomechanics problems in various tissues, the relationship between molecular, cellular and physiological processes and tissue biomechanics and critical analysis of related journal articles.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4133 and BMEN 5133
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical and Biomedical Engineering undergraduate majors only.
Additional Information: Departmental Category: Materials

MCEN 5135 (3) Wind Energy and Wind Turbine Design
Focuses on understanding and applying principles related to current wind energy technologies. Students will apply technical coursework from throughout the engineering curriculum (environmental, fluids, statics, dynamics, power, economics, etc.) to the process of designing wind turbines and wind farms. Practical, real world examples will be integrated into the lessons and problems.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4135
Requisites: Restricted to Mechanical (MCEN), Civil (CVEN) or Aerospace (ASEN) Engineering graduate students only or Mechanical (MCEN) undergraduates with 57+ credits (juniors and seniors).
Additional Information: Departmental Category: Design

MCEN 5137 (3) Anatomy and Physiology 2
Provides in-depth understandings of anatomy and physiology as well as introductions to transport phenomena, flow mechanics and solid mechanics in several organ systems: the cardiovascular, pulmonary, kidney, endocrine and digestive systems. Introduces artificial physiological systems to replace or assist physiological functions and introduce the concepts of physiological barriers that prevent diagnosis or effective therapeutics.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4137
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

MCEN 5138 (3) Control Systems Analysis
Introduction to fundamental principles and techniques for analysis and synthesis of feedback control systems in the time and frequency domains. Laplace transforms, transfer functions and block diagrams. Stability, dynamic response, and steady-state analysis. Analysis and design of control systems using root locus and frequency response methods. Computer aided design and analysis. Introduction to state space representations and state feedback control.
Equivalent - Duplicate Degree Credit Not Granted: ASEN 4114 and ASEN 5114 MCEN 4138 and ECEN 4138 and ECEN 5138
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Recommended: Prerequisite MCEN 4043 or comparable knowledge gained through outside coursework.

MCEN 5141 (3) Indoor Air Pollution
Describes the impact of indoor air pollutants on human health, including an introduction to key pollutants and their sources. Students will estimate emission factors, calculate generation/ventilation rates, quantify the impact of deposition and chemical reactions and explore relevant control technology. Current issues will also be addressed, including climate change, green building design, economic concerns and relevance to the developing world.
Equivalent - Duplicate Degree Credit Not Granted: EVEN 5141, MCEN 4141, and EVEN 4141
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering or Environmental Engineering undergraduate majors only.
Additional Information: Departmental Category: Fluids

MCEN 5147 (3) Mechanobiology
Studies how mechanical forces modulate the morphological and structural fitness of biological tissues. Current molecular mechanisms by which cells convert mechanical stimulus into chemical activity and the literature supporting them will be discussed. Students will acquire an understanding and expertise from the analysis of primary literature and completion of a synthesis project.
Requisites: Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Mechancial (MCEN) majors or College of Engineering graduate students only.
Grading Basis: Letter Grade

MCEN 5151 (3) Flow Visualization
Explores techniques for the visualization of the physics of fluid flows including seeding with dyes, particles and bubbles, and shadowgraphy and schlieren. Reviews optics and fluid physics, especially atmospheric clouds. Assignments are student-driven, to individuals and mixed teams of graduates, undergraduates, engineering majors and photography/video majors.
Equivalent - Duplicate Degree Credit Not Granted: CINE 4200 MCEN 4151, ARTF 5200, ATLS 4151 and ATLS 5151
Additional Information: Departmental Category: Fluids

MCEN 5152 (3) Introduction to Combustion
Focuses on the mechanisms by which fuel and oxidizers are converted into combustion products. Application to practical combustion devices such as Otto, Diesel, gas turbine and power plant combustion systems. Consideration of combustion-generated air pollution, fire safety and combustion efficiency.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4152
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Thermal

MCEN 5153 (3) Introduction to Fracture Mechanics
This course will introduce fundamental concepts, analytical approaches, and experimental methods to characterize the fracture of solid materials. Topics to be discussed include: linear elastic analysis of 2D cracks, energy flows and criteria for elastic fracture, experimental methods for elastic fracture, application of fracture mechanics in adhesion, introduction to elastic plastic fracture, and nonlinear fracture mechanics of soft materials.
Requisites: Requires prerequisite course of MCEN 2063 or CVEN 3161 or MCEN 5023 or ASEN 5012 (all minimum grade C).

MCEN 5154 (3) Biocolloids and Biomembranes
Covers the thermodynamics and mechanics of biological membranes and biomedical colloids. Considers intermolecular and surface forces, self-assembly and colloidal stability. Addresses structure-property relationships and design principles for biomedical applications. Focuses on monolayers, bilayers, micelles, filomicelles, liposomes, polymersomes, emulsions, microbubbles, polyplexes and polyelectrolyte multilayer capsules.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4154
Recommended: Prerequisites APPM 2360 and PHYS 1120.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Materials

MCEN 5155 (3) Automated Mechanical Design Synthesis
Introduces computational approaches to automatically generate complex multimaterial mechanical designs that satisfy predefined high-level specifications, discusses algorithms to solve design as a constrained non-convex multi-objective optimization problem. Topics: expert-driven design process; computational analysis tools based on mechanical simulation (finite element methods, mesh-free methods); topological optimization; compositional design; multi-objective optimization; evolutionary design; design for manufacturing with additives (FDM, SLA, Inkjet). Students design a part to specifications, fabricate using advanced (3D printing, laser cutting, CNC, etc) tools.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4155
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Recommended: Prerequisite students should be comfortable with MATLAB, PDEs, linear algebra, free body diagrams, mechanical modeling/design; exposure to finite-element modeling and state-space representations.

MCEN 5157 (3) Modeling of Human Movement
Human movement analysis is used in physical rehabilitation, sport training, human-robot interaction, animation, and more. Course provides a systematic overview of human movement on multiple levels of analysis, with an emphasis on the phenomenology amenable to computational modeling. Covers muscle physiology, movement-related brain areas, musculoskeletal mechanics, forward and inverse dynamics, optimal control and Bayesian inference, learning and adaptation. Inspires students to see and appreciate the complexities of movement control in all aspects of daily life.
Equivalent - Duplicate Degree Credit Not Granted: BMEN 5157 and MCEN 4157 and BMEN 4157
Requisites: Restricted to graduate students in the College of Engineering and Applied Science or undergraduate Mechanical Engineering (MCEN) and Biomedical Engineering (BMEN) majors with 57+ credits (Junior or Senior).

MCEN 5161 (3) Aerosols
Introduces atmospheric aerosols and properties of their distributions, followed by fundamental descriptions of single particle dynamics, thermodynamics, nucleation, coagulation, mass transfer and populations dynamics. During the second half of the course, the focus will shift to sources and sinks of atmospheric aerosols, their impacts on atmospheric chemistry and radiation, and the impacts of these processes on air quality and climate.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Fluids

MCEN 5171 (3) Biofluids on the Micro Scale
Introduces fundamental physical concepts and basic mechanisms of biological fluids in microscale. Elaborates on the application of fluid mechanics principles to major biological systems, including human organ systems and animal locomotion in microscale. Covers physiologically relevant fluid flow phenomena on the cellular level and the underlying physical mechanisms from an engineering perspective. Related state-of-art technologies such as organ-on-a-chip and micro/nano fabrication will be emphasized. Will enhance your understanding of organ-on-a-chip technologies and their broad applications.
Equivalent - Duplicate Degree Credit Not Granted: BMEN 5171 and MCEN 4171 and BMEN 4171
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering or Biomedical Engineering undergraduate majors with 57+ credits.

MCEN 5173 (3) Finite Element Analysis
Introduces the theory behind and applications of the finite element method as a general and powerful tool to model a variety of phenomena in mechanical engineering. Applications include structural mechanics, mechanics of elastic continua and heat conduction.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4173
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Solids

MCEN 5174 (3) Failure of Engineering Materials
Examines the fundamental concepts regarding the failure of engineering materials. Case studies are used to integrate a basic understanding of material failure mechanisms with analysis techniques and tools. Topics include the elastic properties (isotropic and anisotropic materials) and the origin of elastic behavior, viscoelasticity, plasticity (dislocation mechanisms, yielding criteria, strengthening mechanisms), creep, fracture and fatigue.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4174
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Materials

MCEN 5183 (3) Mechanics of Composite Materials
Introduces various kinds of composite materials, composite fabrication techniques, the physical and mechanical behavior of composites, and analytical and experimental methodologies.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4183
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Solids

MCEN 5193 (3) Design of Coffee
Serves as an introduction to how engineers use their disciplinary training to approach and solve problems outside of the traditional confines of their discipline, as illustrated by the roasting and brewing of coffee. In addition to focusing on the science, engineering and craftsmanship of making a cup of coffee from bean to cup, we will also study the global sourcing and sustainability aspects of coffee.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4193
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.

MCEN 5194 (3) Electrochemical Energy Conversion and Storage
Presents the fundamentals, principles and experimental techniques of electrochemistry, the background of ionic or electronic conduction of metal, semiconductor, inorganic and polymer materials and applications in the areas of batteries, fuel cells, electrochemical double layer capacitors, electrochemical photonics, sensors and semiconductor electrochemistry.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4194
Recommended: Prerequisites MCEN 2024 and MCEN 3032.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Materials

MCEN 5195 (3) Bioinspired Robotics
Bioinspired design views the process of how we learn from nature as an innovation strategy translating principles of function, performance, and aesthetics, from biology to human technology. The creative design process is driven by interdisciplinary exchange among engineering, biology, medicine, art, architecture and business. Diverse teams of students will collaborate on, create, and present original bioinspired design projects in the ITLL.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4195, BMEN 4195, and BMEN 5195
Requisites: Restricted to graduate students in the College of Engineering and Applied Science or undergraduate Mechanical Engineering (MCEN) majors with 57+ credits (Junior or Senior).
Recommended: Prerequisite MCEN 3017 and MCEN 3025 or comparable electronics and design knowledge.

MCEN 5208 (1-4) Special Topics
Credit hours and subject matter to be arranged.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to undergraduate or graduate Mechanical Engineering students only.
Additional Information: Departmental Category: Miscellaneous

MCEN 5215 (3) Design for Inclusion
Examines the ways technologies like apps, products, public infrastructures and educational systems have excluded the needs of certain user groups while optimizing for others. Explores design approaches including universal design, humanitarian engineering, and culturally responsive design through multiple hands-on projects with the goal of equipping all to become more capable designers for inclusion rather than exclusion.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4215
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors with 87+ credits only.

MCEN 5228 (1-4) Special Topics in Mechanical Engineering
Subject matter to be selected from topics of current interest.
Repeatable: Repeatable for up to 30.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students in the College of Engineering and Applied Science or undergraduate Mechanical Engineering (MCEN) majors with 57+ credits (Junior or Senior).
Additional Information: Departmental Category: Miscellaneous

MCEN 5231 (3) Computational Fluid Dynamics
This course is an in-depth introduction to the basic principles and applications of computational fluid dynamics (CFD). Students learn about fundamental CFD concepts such as discretization, meshing, error and accuracy; and focus on computational solutions of flow and transport problems using the finite element method. Students conduct multiple hands-on simulation-based activities and exercises on canonical and realistic engineering flow/transport problems. Final project for the course culminates in a mini-conference/symposium where students present their work.
Equivalent - Duplicate Degree Credit Not Granted: BMEN 5231 and MCEN 4231 and BMEN 4231
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.

MCEN 5255 (3) Design for Mfg
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Design

MCEN 5258 (1-3) Sp Tpcs-Combustion Seminar
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Special Topics

MCEN 5279 (3) Aesthetics in Design
Focuses on aesthetic aspects of design via hands-on design-build experiences. Students individually create dynamic artifacts of their own choice with the assistance of teammates. Content includes major design movements since 1900, constructive critique practice, hand sketching techniques and other selected industrial design topics. Students publish their design work on an archival public blog which provides a professional portfolio element.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 5279 and MCEN 4279 and ATLS 4279
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.

MCEN 5291 (1-2) Project Based Learning in Rural Schools
Focuses on the use of low cost air quality monitoring tools, dubbed Pods, to implement PBL curriculum in high school environmental science classes in rural communities in Colorado. Each student will be paired with a high school class and will serve as curriculum and technology advisors as well as science experts. During the fall semester, students will be trained to effectively work in those roles and will also travel to their schools to be introduced. During the spring semester, students will support high school teachers in implementing an existing PBL air quality curriculum with the Pods. This will include monthly visits to schools in the spring and reporting back to the class. Enrollment during Fall is required for enrollment during Spring. Previously offered as a special topics course.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4291
Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students and undergraduates with 57+ credits (juniors and seniors).

MCEN 5292 (3) Materials and Devices in Medicine
The main objective of this multidisciplinary course is to provide students with a broad survey of biomaterials and their use in medical devices for restoring or replacing the functions of injured, diseased, or aged human tissues and organs. The topics to be covered include: evolution in the medical device industry, a broad introduction to the materials used in medicine and their chemical, physical, and biological properties, discovery of medical problems, potential impacts of treatment innovations, existing devices and design considerations for several major physiological systems (cardiovascular, neuromuscular, skeletal, pulmonary, renal, dermal), materials interaction with the human body, basic mechanisms of wound healing, biocompatibility issues, testing methods and techniques in accordance with standards and relevant regulations, biofunctionalities required for specific applications, as well as state-of-the-art approaches for the development of new regenerative materials targeting cellular mechanisms. Rec
Requisites: Requires prerequisite course of MCEN 4117 or MCEN 5117 (minimum grade C). Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.

MCEN 5293 (3) Mechanics of Soft Matter
Provides a general overview of fundamental concepts behind the mechanical behavior of soft matter. The term soft matter (which includes polymers, colloids, liquid crystals and surfactants, to name a few) is typically used to describe classes of materials whose structural unit is much larger than atoms, making their response more complex and often richer that of traditional solids. The objective of this class is to understand how chemical and mechanical forces between these small units yield macroscopic behaviors that one can observe in everyday life. Key engineering applications will also be discussed.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4293
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Recommended: Prerequisite knowledge comparable to that gained through MCEN 2063.

MCEN 5298 (3) Introduction to Polymers
Polymers represent a major class of engineering materials that are used by mechanical engineers. In this class, we will discuss the most fundamental concepts regarding polymeric materials. Topics include synthesis/manufacturing and chemical properties of polymers, statistical properties of polymer chains, multiphase polymers including polymer solutions and polymer blends, crystallization and glass transition of polymers, and viscoelastic properties of polymers.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4298
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Recommended: Prerequisite knowledge comparable to that gained through MCEN 2024.

MCEN 5299 (3) Household Energy Systems
Cooking, heating and lighting in the developing world often involves inefficient and incomplete combustion of solid or liquid fuels. The Global Burden of Disease Study in 2010, ranked this combustion as the 4th largest risk factor, causing 4 million premature deaths per year. There is a strong societal need to tackle this problem. Students leaving this course will be able to meet this need as they will have the skills to assess existing and new technology used in the developing world for cooking, heating and lighting. The course will cover (1) food conversion chemistry with the focus on increasing useable calories, (2) combustion and heat transfer as related to cooking, heating and lighting, and (3) combustion emissions and stove use assessment. There will be case studies interlaced throughout the content and the bulk of the workload will be homeworks and projects. Recommended prerequisite: knowledge comparable to that gained through MCEN 3022 or concurrent enrollment in MC
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering or Environmental Engineering undergraduate majors only.

MCEN 5448 (3) Linear Control Systems
Introduces the theory of linear systems, including state space descriptions of dynamic systems, linear spaces, linear mappings, structure of linear operators, stability, controllability, observability, state variable estimation and feedback control methods.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5448 and ASEN 5014
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Recommended: Prerequisite MCEN 4138 or MCEN 5138 and strong foundational knowledge of linear algebra and differential equations.

MCEN 5488 (3) Geometric Control Theory
Introduce geometric approaches to study dynamical control systems over manifolds. Cover fundamental control-theoretical results, such as controllability, observability, feedback stabilizability, symmetries and group actions, that are beyond linear control systems. Establish connections between control theory and mathematics, especially topology, differential geometry, Lie groups and Lie algebras. Final project focuses on engineering applications related to students¿ own research interests.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5488

MCEN 5498 (3) Stochastic Control Theory
Introduce a toolbox for dealing with stochastic control systems. Cover topics such as stochastic calculus, linear and nonlinear filtering, and dynamic programming. Discuss system theoretic issues and derive optimal control laws for a variety of stochastic control problems, including, e.g., the separation principle for Linear-quadratic-Gaussian problems. Final project focuses on engineering applications related to students¿ own research interests.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5498

MCEN 5636 (3) Micro-Electro-Mechanical Systems 1
Addresses issues of micro-electro-mechanical systems (MEMS) modeling, design, and fabrication. Emphasizes the design and fabrication of sensors and actuators due to significance of these devices in optics, medical instruments, navigation components, communications, and robotics. Department consent required.
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Manufacturing and Systems

MCEN 5638 (3) Control Systems Laboratory
Provides experience in control system design and analysis, using both real hardware and computer simulation. Covers the entire control system design cycle: modeling the system, synthesizing a controller, conducting simulations, analyzing the design to suggest modifications and improvements, and implementing the design for actual testing.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 4638, MCEN 4638, and ECEN 5638
Requisites: Requires prerequisite course of ECEN/MCEN 4138/5138 (minimum grade D-). Restricted to graduate students only.

MCEN 5738 (3) Nonlinear Control Systems
Nonlinear systems and control. Introduction to nonlinear phenomena: multiple equilibria, limit cycles, bifurcations, complex dynamical behavior. Planar dynamical systems, analysis using phase plane techniques. Input-output analysis and stability. Passivity. Lyapunov stability theory. Feedback linearization. Exploration of examples and applications. Formerly ECEN 7438.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5738 ASEN 6024
Requisites: Requires prerequisite course of ECEN 5448 (minimum grade C-). Restricted to graduate students only.
Recommended: Prerequisite knowledge in differential equations.

MCEN 5832 (3) Special Topics
Additional Information: Departmental Category: Special Topics

MCEN 5848 (1-6) Independent Study
Available only through approval of graduate advisor. Subjects arranged to fit the needs of the particular student. May be repeated for up to 6 total credits.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Engineering graduate students only.
Additional Information: Departmental Category: Miscellaneous

MCEN 5858 (1-6) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Miscellaneous

MCEN 5868 (1-3) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Miscellaneous

MCEN 5878 (1-3) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Miscellaneous

MCEN 5888 (1-3) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Miscellaneous

MCEN 5930 (1-3) Professional Internship
This class provides a structure for Mechanical Engineering graduate students to receive academic credit for internships with industry partners that have an academic component to them suitable for graduate-level work. Participation in the program will consist of an internship agreement between a student and an industry partner who will employ the student in a role that supports the academic goals of the internship. Instructor participation will include facilitation of mid-term and final assessments of student performance as well as support for any academic-related issues that may arise during the internship period. May be taken during any term following initial enrollment and participation in ME graduate programs. Department permission required to enroll.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Mechanical Engineering graduate students only.

MCEN 6001 (3) Reacting Flows
Provides an introduction to reacting flows and combustion. Covers chemical kinetics, including global and detailed mechanisms and the variable density flow equations are derived. Relevant non-dimensional parameters and limiting behaviors are discussed. The Rankine-Hugoniot relations are presented and various aspects of diffusion, kinetically dominated and balanced combustion are outlined. Flame structures are discussed, including laminar and turbulent flames, and the Burke-Schumann solution is outlined. The turbulent forms of the motion equations are derived, and the reactive scalar transport equation and mixture fraction variable are presented. The flamelet progress variable approach is outlined, including a comparison of steady and unsteady flamelet models. Specific topics in spray combustion, triple flames, solid-gas reactors and detonations are discussed.
Equivalent - Duplicate Degree Credit Not Granted: ASEN 6001
Requisites: Requires prerequisite course of MCEN 5021 (minimum grade C-). Restricted to College of Engineering and Applied Science graduate students or BS/MS Concurrent Degree Students only.
Additional Information: Departmental Category: Fluids

MCEN 6184 (3) Structure and Properties of Polymers
Emphasizes the relationships between molecular structures and macroscopic properties of polymers. Structural aspects include chain conformation, configuration, and the crystalline and amorphous states. Discusses physical, mechanical and dynamic properties with a focus on solution and phase behavior, transitions of bulk polymers, and rubber and viscoelastic behavior.
Requisites: Restricted to College of Engineering graduate students only.
Recommended: Prerequisite an intro-level polymer course.
Additional Information: Departmental Category: Materials

MCEN 6228 (1-4) Special Topics in Mechanical Engineering
Subject matter to be selected from topics of current interest.
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Engineering graduate students only.
Additional Information: Departmental Category: Special Topics

MCEN 6848 (1-6) Independent Study
Available only through approval of graduate advisor. Subjects arranged to fit the needs of the particular student.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Miscellaneous

MCEN 6858 (1-6) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Miscellaneous

MCEN 6868 (1-6) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Miscellaneous

MCEN 6878 (1-6) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Miscellaneous

MCEN 6888 (1-6) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Miscellaneous

MCEN 6949 (1) Master's Candidate for Degree
Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree.
Additional Information: Departmental Category: Thesis

MCEN 6959 (1-6) Master's Thesis
Additional Information: Departmental Category: Thesis

MCEN 7221 (3) Turbulence
Hydrodynamic stability theory, equations for turbulent flows, free shear flows and boundary layers, homogeneous and isotropic turbulence, overview of turbulent combustion, reaction kinetics, energy equation, Favre averaging, Pdfs, premixed and nonpremixed flame modeling, and recent developments.
Requisites: Restricted to any College of Engineering and Applied Science graduate students or to Mechanical Engineering undergraduate majors only.
Additional Information: Departmental Category: Fluids

MCEN 7228 (3) Special Topics
Additional Information: Departmental Category: Special Topics

MCEN 8999 (1-10) Doctoral Dissertation
Additional Information: Departmental Category: Thesis

Media Research and Practice (MDRP)

Courses

MDRP 7871 (3) Special Topics
Special topics.
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

Media Studies (MDST)

Courses

MDST 1001 (3) Foundations of Media Studies
Introduces students to key issues and debates and contemporary applications of critical media studies focusing on economic, social, political and cultural implications. Provides an understanding of the relationship between theory and practice and equips students with the tools to critically analyze various forms of textual transmission.
Grading Basis: Letter Grade

MDST 1002 (3) Introduction to Social Media
Introduces students to network structures and principles, the technology and infrastructures that allow them to flourish, and the cultures that grow up through and around them. Explores how social media enables community, how it assembles and empowers agents of change and how design informs individual and group behavior.
Grading Basis: Letter Grade

MDST 1003 (3) Critical Media Literacies
Learn to strategically access, analyze, evaluate, and produce communication in a variety of forms. This course explores the expanding nature of literacy in a digital world. Students will use applied research practices and communication tools to expand their existing media literacy skills and to design innovative presentations and projects that take advantage of new media. Meets Practice Course Requirement.
Grading Basis: Letter Grade

MDST 1009 (3) Truth, Beauty, and Conspiracy
With conspiracy at the forefront of social and political discourse, this course illuminates these problems of knowledge and representation by approaching conspiracy culture from the perspective of media theory. Explores conspiracy theories as narratives, analyzing their specific narrative features and the ways that different media platforms represent conspiracy. Students also consider how conspiracy narratives complicate the relationship between knowledge and aesthetic form. Offered in Fall or Spring.

MDST 2001 (3) Introduction to Global Media
Explores a world in which new media have enabled humans to be joined in a global system of socio-cultural and economic relations. Underscores the political dimensions of global media, the convergence of global culture, and the ways in which values are produced. Prepares students to become critical of media practices and empowered as active civic participants.

MDST 2002 (3) Media and Communication History
Examines the historical development of communication forms, tools, technologies and institutions (orality, writing, printing, photography, film, radio, television, computers, internet); their influence on culture (forms of expression and social relationships); and their impact on social and individual experience. Applies knowledge of communication history to contemporary social issues and problems in media and society, domestically and internationally.

MDST 2010 (3) Media and Social Movements
Surveys the history and contemporary efforts of social activists to bring about democratic media reform and examines how media are used as tools for connecting and advancing social movements. Emphasis is given to media activism and social movements in the United States, as well as to similar and related transnational activism and movements. Meets Practice Course Requirement.
Requisites: Requires a prerequisite course of MDST 1001 (minimum grade C-).
Grading Basis: Letter Grade

MDST 2011 (3) Disruptive Entrepreneurship in the Internet's New Economies
Grapples with the disruptive business models that drive the online economy: both the dominant ones and the alternatives vying to transform it. In addition to the Silicon Valley model, this course explores lesser known internet economies around the world and proposals for a more equitable online future. Meets Practice Course Requirement.
Grading Basis: Letter Grade

MDST 2012 (3) Hacker Culture
Chronicles the evolution of hacker culture from its origins as a geeky subculture to a criminal underground to its adaptation by CEOs. Considers how hacker formations sometimes represent a new kind of politics, sometimes a rejection of politics. Explores the contested figure of the hacker in the past, present and science-fiction of the internet. Meets Practice Course Requirement.
Grading Basis: Letter Grade

MDST 2031 (3) Documentary and Social Change
Explores how local, national and international filmmakers use documentaries to provide cultural observation, education, entertainment and memories to making sense of and transform the realities of contemporary societies. Emphasizes contemporary issues and practices in the production of documentaries, including the participatory means such as the crowdsourcing of documentary footage and the use of newer, non-theatrical means of distribution. Meets Practice Course Requirement.
Grading Basis: Letter Grade

MDST 2032 (3) Visual Literacies & Design
Examines cultural visual experiences from critical perspectives and social effects. The course acquaints students with visual design in ways that include image-making as a cognitive and perceptual practice, the production of visual significance and meaning, and the role of technology in creating and understanding mediated images. Students will use a variety of means to produce visual narratives. Meets Practice Course Requirement.
Grading Basis: Letter Grade

MDST 2046 (3) Future Histories of Technology
This class explores both literature about future technologies and literary technologies that move across periods, regions, and disciplines. Our cultural and historical approach to future histories of technology will illuminate how race, gender and sexuality, class, and nationality structure seemingly neutral research and development, usage, and innovation. Ultimately, our goal is to see how we¿re not passive consumers but active participants in reimagining the present and future of technology.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 2046

MDST 3001 (3) Media Research
Introduces theoretical approaches and practices used to analyze the content, structure, influence and contexts of media. Explores factors shaping media, including: politics, economics, technology, cultural traditions. Studies concepts, theoretical approaches and research methods of media criticism, and adopts and adapts these frameworks in analyses of mediated communication.

MDST 3002 (3) Digital Culture and Politics
Examines issues at the intersection of digital media, culture and politics, such as regulation and network architecture, piracy and hacking, and grassroots activism. Engage with a range of theories about cultural politics, democracy, liberalism and neo-liberalism in relation to digital information and communication technologies.

MDST 3021 (3) Comic Books: Culture and Industry
Explores practices of comic culture across a broad range of graphic stories. Using culture studies approaches to industry analysis and fan community discourses, students examine culture created through and around graphic texts, particularly representations of race, gender, sexuality, institutions and ideology. Considers the political economy of the comic industry, the struggles of independent producers and active fan practices.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

MDST 3022 (3) Social Media Cultures
Expands students' understanding of network cultures, including how social media tools influence conversation strategies, how interfaces interact with perceived communication values, and how network boundaries reinforce distinct cultural identities. Students engage in projects to measure network behavior, create strategic messages to achieve communication and information goals, and to engage in social listening.
Requisites: Restricted to students with 55 or more hours.
Grading Basis: Letter Grade

MDST 3101 (3) History of Computing and Information
Focusing on two topics: the changing role of information in everyday life over time and the increasing role of information in disciplinary studies such as social science, engineering, computer science, mathematics, digital humanities. Examines information related academic disciplines, businesses, industries and technologies from multiple perspectives from the 17th century to the present.
Equivalent - Duplicate Degree Credit Not Granted: INFO 3101

MDST 3201 (3) Media, Culture and Globalization
Surveys the political and economic structures of media system in developed and developing countries and discusses the impact of privatization, ownership consolidation, and globalization on the flow of information across national borders. Also looks at how global media flows and counter-flows affect conceptions of nationhood and cultural identity.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) College of Communication, Media, Design and Information (CMDI) or International Affairs (IAFS) majors only.

MDST 3321 (3) Media Industries and Economics
Focuses on the institutions and practices of the media industries. Surveys the histories, structures, and activities of these organizations and the contemporary issues surrounding them.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) in College of Communication, Media, Design and Information (CMCIU).
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 3331 (3) Sports-Media Complex
Explores the rich connections between the sports industry, spectating, the media complex and social life. Using theories of cultural studies and drawing on specific examples from the sports world, students focus on how sport shapes and reinforces understandings of gender, race, class and sexuality. Addresses major questions about the political economy, commodification, mediation and reception of the spectacle of the sports complex, as well as politics and cultural consequences of its transnational reach.
Requisites: Restricted to College of Communication, Media, Design and Information (CMDI) students with a minimum of 45 credit hours completed, or non-CMDI students who have completed CMDI 2001 (minimum grade D-).
Grading Basis: Letter Grade

MDST 3341 (3) Designing Alternative Media Platforms
Explores alternative forms of media to exhibit student research and build connections with community leaders. Surveys alternative exhibition traditions such as Social Practice, Relational Aesthetics and Craftvism to expand the impact of student work, culminating in the design of a unique cultural event focusing on each individual's research. Software/digital presentation skills. Meets Practice Course Requirement.

MDST 3401 (3) Media, Food and Culture
Explores the topic of food as a subject of popular culture: essential to life and the enter of local, national and transnational conflict and social movements. Students will examine media representations of food, what our food choices say about us and what the mediated politics of food mean for our collective future.
Requisites: Requires a prerequisite course of MDST 2002 (minimum grade C-).
Grading Basis: Letter Grade

MDST 3711 (3) Media and Popular Culture
Examines culture in the form of discourse, symbols, and texts transmitted through the media. Explores the relationship between such mediated culture and social myth and ideology.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 3791 (3) Media and the Public
Provides an overview of how publishing in print and electronic forms has been tied closely to democratic ideals for centuries. Explores how the idea of the public is central to the theory and practice of media politics, and how the contested concepts of "the public sphere" and "public opinion" have long been linked to debates about the proper relationship between media and democratic citizenship.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) in College of Communication, Media, Design and Information (CMCIU), and MDST minors.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 4000 (3) Media Genre Studies
Introduces students to the critical study of genres in media cultures. Genre exists as a form of organizing and packaging mediated content, but also as formulaic patterns for analysis that work for and against audience expectations to produce culture. Topics will vary by genre, medium, and transmedia strategies.
Equivalent - Duplicate Degree Credit Not Granted: MDST 5000
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

MDST 4003 (3) Digital Media Production and Design
Introduces techniques, technologies of online development and online media presentation. Contextualizes the technical and social implications of the Internet through historical and critical perspectives. Students engage in online media projects designed to emphasize the affordances, conventions and usability considerations of effective online communication. Meets Practice Course Requirement.
Equivalent - Duplicate Degree Credit Not Granted: MDST 5003
Requisites: Restricted to students with 55 or more hours.
Grading Basis: Letter Grade

MDST 4071 (3) Screenwriting
Students will be taught the fundamentals of screenwriting, but will also learn from peers. Students will workshop scenes, share, and discuss. Students will work scenes through description, dialogue, and action, combine those scenes into sequences, and those sequences into scripts. Students will learn how to create dramatic tension, how to write compelling dialogue, how to deal with character development.
Equivalent - Duplicate Degree Credit Not Granted: MDST 5071
Requisites: Requires prerequisite course of MDST 2002 or MDST 3021 (minimum grade B).

MDST 4111 (3) Crime, Media and Contemporary Culture
Addressed in the course are a range of issues from within a variety of literatures that consider the ways in which the media cover crime. Those literatures are particularly drawn from sociology and the emergent, and increasingly dominant, field of cultural criminology. The focus of the class is to get students to think of "crime" as a constructed and mediated concept and set of narratives that often create problematic public "understandings".
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

MDST 4121 (3) Deconstructing Disney: Mediated American Mythology
Explores various Disney cultural products ¿ some with which students will be very familiar, some students may have never seen ¿ in order to discuss the cultural messaging The Walt Disney Company has presented over its long and illustrious history. Students will conduct analysis research in popular culture studies.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

MDST 4211 (3) Asian Media and Culture
Offers an understanding of the various people, cultures and nations of East Asia through their media systems. Provides a critical overview of the historical, cultural, social, political and economic dimensions of East Asian communication systems in today's digitally connected/ disconnected world.
Equivalent - Duplicate Degree Credit Not Granted: MDST 5211
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: Asia Content

MDST 4220 (3) Viral Video & Media
Students will examine how viral videos are produced and shared on social media platforms by developing an understanding of the components that make a viral video as well as by engaging in a critical analysis of those viral videos. Students will engage in critical analysis, consider strategies for virality, and learn about production and publishing. Students will analyze their own and their peers¿ work in terms of genre, convention, format, structure, and audience.
Equivalent - Duplicate Degree Credit Not Granted: MDST 5220
Requisites: Requires prerequisite course of MDST 2002 OR MDST 3021 (minimum grade B).

MDST 4221 (3) Media Technology and Cultural Change
Explores how media technologies affect social orders and shape cultural practices across the globe. Compares and critically evaluates different theories of technology, emphasizes the social construction of technology, asks how media technologies inform conceptions of social reality and individual identity and considers how media technologies can be understood across a range of academic disciplines.
Requisites: Requires prerequisite courses of MDST 2002 and MDST 3001 and MDST 3002 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior).
Grading Basis: Letter Grade

MDST 4231 (3) Youth Media: Culture and Politics
Emphasizes the sociological understandings of youth cultures, identities and practices in relation to media and politics. Topics include the influences of consumer branding, participatory culture, youth media production and representation, use of social media, mobile phones, gaming, and other digital media, and integrating them around themes of youth styles, gender, ethic, political identities, consumer culture, social behavior and other trends.
Requisites: Requires prerequisite course of MDST 3711 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

MDST 4241 (3) Visual Culture and Human Rights
Provides the critical tools needed to understand images and their impact on the recognition and restitution of human rights claims. The course examines both visual practices (e.g. documentation, archiving, witnessing, advocacy and surveillance) and visual media (e.g. photography, film, video, drone and satellite images), unpacking the growing entanglement between visual culture and human rights.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

MDST 4311 (3) Mass Communication Criticism
Introduces the critical perspectives most often employed in qualitative media analysis: semiology, structuralism, Marxism, psychoanalytical criticism, sociological criticism. Texts from contemporary print and broadcast media. Meets Practice Course Requirement.
Equivalent - Duplicate Degree Credit Not Granted: MDST 5311

MDST 4331 (3) Gender, Race, Class, and Sexuality in Popular Culture
Studies the construction, interconnections, and replications of gender, race, class, and sexuality in popular culture and how these constructs become cultural norms and mores. Uses critical methods with a focus on producing responsible viewers and readers.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

MDST 4341 (3) International Media and Global Crises
Examines strengths and limits on media¿s role in globalized crises (e.g. financial, climate change, health) in light of changing distribution of global power. Introduction to current crises; context-analytical approach to media technologies, financing and uses; application to national cases.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Media Studies (MDST) majors and minors, Journalism (JRNL) majors or International Affairs (IAFS) majors only.
Additional Information: Departmental Category: Asia Content

MDST 4361 (3) TV and the Family in American Culture and Society
Examines the history and character of two central institutions in American society--the family and television--to gain deeper understanding of their formative and enduring roles. Topics include: intersecting histories of the family and television; economic logic of the TV industry and programming; representations of the family in television programming; how families use and interact with television.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

MDST 4371 (3) Media and Religion
Examines the way religion uses media as a social and political force. Introduces the major themes and trends in the mediation of religion and the religious inflection of the media in professional, popular, and emerging media contexts.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

MDST 4372 (3) Islam, Pop Culture and Media
Explores the shifting boundaries of cultural and religious Muslim identities through media representation and production in Muslim-majority countries and in the West. Using popular culture as a complex site of struggle, this course examines how Muslims address questions of gender, ethnicity, class, democracy, sexuality, religion, and modernity in a variety of media forms and practices.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

MDST 4401 (3) Fan and Audience Studies
Considers how audiences and fans are conceptualized, how they are constructed by media enterprises and how they operate within their cultural ecosystems. While media shape the sociocultural, political and economic dimensions of the social world, fan studies suggest a more active set of practices form sites of resistance and enable a greater degree of influence over cultural production.
Requisites: Requires prerequisite courses of MDST 2002 and MDST 3001 and MDST 3002 (all minimum grade C-).
Grading Basis: Letter Grade

MDST 4402 (3) Transmedia Worldbuilding
Guides students to develop entertainment concepts for transmedia delivery. Students will develop concepts and characters built around storytelling themes capable of producing serial and multimedia storylines. This course considers essential elements of storytelling; how to design and actively participate across media platforms; essential elements of meta-narratives; and how to create an immersive and interactive experience for audiences.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

MDST 4405 (3) Queer and Trans Identities in Popular Culture
Gives students the theory, media history, and cultural frameworks to advocate for better queer & trans presentation in popular media. Uses queer studies, critical theory, media surveys, and trans theory as a tool for discussing and addressing gaps in media representation. Explores the emergence, codification, and rejection of queer and trans identities to deconstruct the documentaries, televisions shows, advertisements, print media, music, and digital media that contributed to the formation of these identities.
Equivalent - Duplicate Degree Credit Not Granted: MDST 5405
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

MDST 4601 (3) Media Law, Policy and Ethics
Explores ethical and legal complexities of information and communication technology. Combines real-world inquiry with creative speculation to probe everyday ethical dilemmas faced by digital consumers, creators and coders, as well as policy-makers. Explore themes such as privacy, intellectual property, social justice, free speech, artificial intelligence, social media and ethical lessons from science fiction.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

MDST 4841 (1-6) Undergraduate Independent Study
Involves in-depth independent research and/or project work completed under the direction of a faculty member that demonstrates learning at the upper-division level within the discipline. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 4871 (1-3) Special Topics
Special Topics.
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with a minimum of 27 hours taken.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 4931 (1-6) Internship
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Prerequisite of MDST 2002 and MDST 3001 and MDST 3002. (All require minimum grade of C-). Restricted to MDST majors
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 5000 (3) Media Genre Studies
Introduces students to the critical study of genres in media cultures. Genre exists as a form of organizing and packaging mediated content, but also as formulaic patterns for analysis that work for and against audience expectations to produce culture. Topics will vary by genre, medium, and transmedia strategies.
Equivalent - Duplicate Degree Credit Not Granted: MDST 4000
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

MDST 5001 (3) Connected Media Practices
Provides a crucial frame through which students understand the evolution of film, television and gaming in the digital era. Explores an impending revolution in how screen media are created, circulated and consumed. Relates to a larger trend across the media industries to integrate digital technology and socially networked communication with traditional screen media practices.
Requisites: Restricted to graduate students only.

MDST 5002 (3) Media Activism and Public Engagement
Explores politics of media activism. Relies on survey of existing theory and scholarship on media activism and close analyses of activist practices within both old and new media and on local, national and global scale. Special attention paid to questions of relativity and efficacy and value of media activism as both aesthetic and political activity.
Requisites: Requires a prerequisite course of MDST 5001 (minimum grade C-). Restricted to graduate students only.

MDST 5003 (3) Digital Media Production and Design
Introduces techniques, technologies of online development and online media presentation. Contextualizes the technical and social implications of the Internet through historical and critical perspectives. Students engage in online media projects designed to emphasize the affordances, conventions and usability considerations of effective online communication.
Equivalent - Duplicate Degree Credit Not Granted: MDST 4003
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

MDST 5005 (1) MAPE Workshop
Connects classroom work to community practice. Students will discuss applied projects and collaborate on public initiatives.
Repeatable: Repeatable for up to 4.00 total credit hours.

MDST 5071 (3) Screenwriting
Students will learn the fundamentals of screenwriting, but will also learn from peers. Students will workshop scenes, share, and discuss. Students will work scenes through description, dialogue, and action, combine those scenes into sequences, and those sequences into scripts. Students will learn how to create dramatic tension, how to write compelling dialogue, how to deal with character development.
Equivalent - Duplicate Degree Credit Not Granted: MDST 4071
Recommended: restricted to graduate students only.

MDST 5121 (3) Deconstructing Disney: Mediated American Mythology
Explores various Disney cultural products ¿ some with which students will be very familiar, some students may have never seen ¿ in order to discuss the cultural messaging The Walt Disney Company has presented over its long and illustrious history. Students will conduct analysis research in popular culture studies.
Requisites: Restricted to graduate students only.

MDST 5211 (3) Asian Media and Culture
Offers an understanding of the various people, cultures and nations of East Asia through their media systems. Provides a critical overview of the historical, cultural, social, political and economic dimensions of East Asian communication systems in today's digitally connected/disconnected world.
Equivalent - Duplicate Degree Credit Not Granted: MDST 4211
Requisites: Restricted to graduate students only.

MDST 5220 (3) Viral Video & Media
Students will examine how viral videos are produced and shared on social media platforms by developing an understanding of the components that make a viral video as well as by engaging in a critical analysis of those viral videos. Students will engage in critical analysis, consider strategies for virality, and learn about production and publishing. Students will analyze their own and their peers¿ work in terms of genre, convention, format, structure, and audience.
Equivalent - Duplicate Degree Credit Not Granted: MDST 4220
Recommended: graduate students only.

MDST 5311 (3) Mass Communication Criticism
Introduces the critical perspectives most often employed in qualitative media analysis: semiology, structuralism, Marxism, psychoanalytical criticism, sociological criticism. Texts from contemporary print and broadcast media.
Equivalent - Duplicate Degree Credit Not Granted: MDST 4311

MDST 5331 (3) Gender, Race, Class, and Sexuality in Popular Culture
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 5341 (3) Designing Alternative Media Platforms
This course helps students construct alternative form of media to exhibit their research and build connections with relevant community leaders. Through the practice and examination alternative exhibition traditions of such as Social Practice and Relational Aesthetics students connect with community members to design alternative platforms for media projects that respond to the needs of external communities.
Requisites: Restricted to graduate students only.

MDST 5401 (3) Fan and Audience Studies
Drawing upon a variety of theoretical perspectives and tools of measurement, students will explore the structures, forces and environments that produce culture. Students will also interpret popular culture as a site of cultural meaning, and to understand the historical approaches scholars have used to analyze meaning in media messages, fan practices, and institutional responses.
Requisites: Restricted to graduate students only.

MDST 5402 (3) Transmedia Worldbuilding
Guides students to develop entertainment concepts for transmedia delivery. Students will develop concepts and characters built around storytelling themes capable of producing serial and multimedia storylines. This course considers essential elements of storytelling; how to design and actively participate across media platforms; essential elements of meta-narratives; and how to create an immersive and interactive experience for audiences using digital communication tools.
Requisites: Restricted to graduate students only.

MDST 5405 (3) Queer and Trans Identities in Popular Culture
Give students the theory, media history, and cultural frameworks to advocate for better queer & trans presentation in popular media. Uses queer studies, critical theory, media surveys, and trans theory as a tool for discussing and addressing gaps in media representation. Explores the emergence, codification, and rejection of queer and trans identities and deconstructs the popular media that contributed to the formation of these identities.
Equivalent - Duplicate Degree Credit Not Granted: MDST 4405
Requisites: Restricted to graduate students only.

MDST 5841 (1-3) Graduate Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

MDST 5851 (1-6) Graduate Professional Project
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

MDST 5871 (1-3) Special Topics
Special topics in Media Studies.
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

MDST 5931 (1-3) Internship
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to graduate students only.

MDST 6031 (3) Documentary and Social Change
Explores how local, national and international filmmakers use documentaries to provide cultural observation, education, entertainment and memories with the hope of making sense of, and transforming, the realities of contemporary societies. The course emphasizes contemporary issues and practices in the production of documentaries, including the participatory means such as the crowd-sourcing of documentary footage, and the use of newer, non-theatrical means of distribution, including YouTube, Vimeo and other digital outlets.
Requisites: Restricted to graduate students only.

MDST 6051 (3) Media Theories
Studies theories and perspectives of mass and networked communication and explores the role of media in society.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 6061 (3) Media Research
Introduces concepts, theoretical approaches and research methods of media research. Students apply these frameworks in research on mediated communication. Covers qualitative and quantitative methods of gathering and analyzing data.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 6071 (3) Critical Theories of Media and Culture
Introduces students to critical theories and analysis of media and popular culture. Examines major theoretical traditions and/or theorists that significantly inform media studies (e.g., culturalism, structuralism, Marxism, critical theory, feminism, psychoanalysis, post-structuralism) and applies these to media analysis and criticism.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 6100 (3) Theory and Practice of Doing: From the Sciences to the Arts and Humanities
Introduces students to the theory of doing and making. Guiding questions include: what does it mean to place "doing" at the center of one's research agenda? What does it mean to do hands-on work in an art/design studio, a digital humanities lab, a media lab, a media archaeology lab, a makerspace or a hackerspace?
Equivalent - Duplicate Degree Credit Not Granted: IAWP 6100

MDST 6201 (3) Global Media and Culture
Explores the historical, cultural, social, political and economic dimensions of media systems in various parts of the world and their relationship with technological and cultural processes. Aims to provide a critical overview of the profound changes in media and culture in today's digitally connected/disconnected world. Formerly MDST 6201.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 6211 (3) Communication and International Development
Studies and analyzes communications technologies and techniques used in addressing social problems in developing countries.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 6241 (3) Visual Epistemologies: Theory and Practice
Examines visuals as a form of knowledge on its own terms with an emphasis on both theory and practice. It first considers how social, cultural and cognitive mechanisms shape visual ways of knowing, and it discusses methodological approaches for working with and in images. Then it traces the complicated status of visual knowledge over time and across institutional contexts¿religion, art, science, the law, journalism and politics.

MDST 6250 (3) Algorithms, Culture, and Power
Explores how automated computational processes (algorithms) affect the production, distribution, exchange, and consumption of media and other cultural goods. Also examines the history and politics of algorithms with respect to their growing prevalence in daily life. Foregrounds themes of power, identity, bias, aesthetics, infrastructure, epistemology, and political economy. Employs theories and methods from media studies, science and technology studies, digital humanities, and/or cultural studies.
Requisites: Restricted to graduate students only.

MDST 6301 (3) Communication, Media, and Concepts of the Public
Introduces students to historical and contemporary uses of fundamental concepts in research and theory about media institutions, particularly public, community, mass, publicity, public space, public opinion, public interest, and the public sphere.
Equivalent - Duplicate Degree Credit Not Granted: CMDI 6301
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 6311 (3) Power, Politics and Mediated Culture
Examines various literatures that consider the role of power in shaping social orders and the social beings that constitute that order and the place of media in both processes.
Requisites: Restricted to graduate students only.

MDST 6341 (3) Children, Youth and the Media
Examines the concepts of children and childhood from the historical, social, cultural, economic and political perspectives, this course explores the interaction between mass media and the socialization and cultivation process of children and youth. Multiple theoretical traditions are used as a framework to study a variety of issues related to children and the media.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 6350 (3) Media & Cultural Policy
Survey the research literature and practical significance of cultural policy as it relates to culture as a basis of social definition, inclusion, exclusion and conflict. The study of cultural policy does not focus exclusively on the role of government, but rather on a broader range of institutions that play central roles in governing contemporary culture, including museums, libraries, and media industries.
Requisites: Restricted to graduate students only.

MDST 6351 (3) Media, Culture & Food Politics
Stresses intersections among media industries, food industries, and politics, with an emphasis on how public knowledge and activism about food relate to questions of a sustainable environment, human health and safety, and social justice for food producers and consumers. Examines a wide range of political discourses about food, the politics of food labeling, the globalization and hybridization of food, public policies governing food, food activism, the biopolitics of food, and food-related manifestations of cultural capital. Previously offered as a special topics course.
Requisites: Restricted to graduate students only.

MDST 6551 (3) Media and Communication Policy
Surveys historical and contemporary developments in media and communications policy, emphasizing social and cultural dimensions.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 6552 (3) Media and Public Scholarship
Historicizes the role of the public intellectual through readings and discussions of biographies of selected scholars and accounts of historical changes in the habitats ¿ the spaces of politics ¿ in which particular types of public engagement by intellectuals occurred in the past. The course will include a ¿media practicum¿ to enable students to understand what it means to become a scholar who has a public voice through direct and indirect engagement in a media-saturated age. Previously offered as a special topics course.
Requisites: Restricted to graduate students only.

MDST 6671 (3) Media, Myth, and Ritual
Explores cultural practices of media audiences. Addresses theoretical and methodological implications of studying audiences from a culturalist perspective, with particular focus on media audience practices. Students engage in field research projects related to course content. Formerly MDST 6671.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 6711 (3) Media and Popular Culture
Introduces fundamental methods for understanding the construction of meaning in film, television, popular music and advertising. Traces the study of popular culture through film theory, mass media analysis and cultural studies. Surveys various strands of research that seek to understand popular culture and its effects.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 6721 (3) Feminist Media Studies
Explores the complex relation between feminism and global media consumption and production. Students will be introduced to key theoretical approaches to engage critically with film, print and broadcast media, digital media, and art. Students will engage with themes that frame feminist media studies today: intersectionality, gaze, (in)visibility, consumerism, resistance, bodies, representational narratives, queer identities, decolonial feminism as a theoretical tool of relationality, and explorations of decolonizing feminist practices originating in the global South.
Requisites: Restricted to graduate students only.

MDST 6771 (3) History of Media and Communication: Selected Topics
Examines history of communication, including the means (technologies) of communication, social practices (institutional, collective, individual) that intersect with the study of communication and media, and cultural forms (texts, products). Situates the study of media, technology, and culture within historical contexts, comparative historical research, media archaeology, genealogy and media history.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 6781 (3) Political Economy of Media
Examines economic problems and political issues relevant to media institutions and industries.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 6871 (1-3) Special Topics
Special topics. May be repeated up to 15 total credit hours hours
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 6940 (1) Master's Candidate for Degree
Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree.
Requisites: Restricted to graduate students only.

MDST 6951 (1-6) Master's Thesis
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 7001 (1) PhD Colloquium Series
Introduce the new doctoral students to the Media Research and Practice program and its faculty members and their research. The colloquium series will also include workshops on program planning, publishing, attending conferences, writing a dissertation, preparing and presenting a job talk, etc.
Repeatable: Repeatable for up to 2.00 total credit hours. Allows multiple enrollment in term.

MDST 7011 (3) Proseminar in Media Communication Theory 1
Introduces the principal concepts, literature, and theoretical and paradigmatic perspectives of media studies and mass communication and their ties and contributions to parallel domains in the social sciences and humanities. Formerly MDST 7011.
Requisites: Restricted to doctoral students in Media Studies (MDST), Journalism (JRNL) or Advertising, PR and Media Design (APRD) only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 7021 (3) Proseminar in Media and Communication Theory 2
Continues the introduction of principle concepts, literature, and theoretical and paradigmatic perspectives of media studies and mass communication and their ties and contributions to parallel domains in the social sciences and humanities. Formerly MDST 7021.
Requisites: Requires prerequisite course of MDRP 7011 (minimum grade C-). Restricted to doctoral students in Media Studies (MDST), Journalism (JRNL) or Advertising, PR and Media Design (APRD).
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 7051 (3) Qualitative Research Methods in Media
Provides a survey of various qualitative modes of inquiry, attending to the philosophical, conceptual, and practical foundations of qualitative research in media, communication, and information. The course is designed to support students in developing a critical understanding of the different considerations in and stages of qualitative research, including the development of research questions, theoretical and conceptual frameworks, methodological approaches, data collection, data analysis, and assessment of reliability and validity of qualitative data.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 7061 (3) Quantitative Research Methods in Media
Examines various methods of quantitative data gathering methods and analysis in mass media and social media contexts.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 7841 (1-6) Independent Study
Independent study.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 7871 (3) Special Topics
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

MDST 8991 (1-10) Doctoral Dissertation
Repeatable: Repeatable for up to 40.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Core Curriculum and General Electives

Medieval and Early Modern Studies (MEMS)

Courses

MEMS 2020 (3) Introduction to Medieval and Renaissance Studies
Introduces students to the literature, history, culture and art of Europe and the Mediterranean basin from late antiquity through the renaissance. The course is interdisciplinary and focuces on topics which reveal the dynamism and diversity of pre-modern culture.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

MEMS 4020 (3) Medieval and Early Modern Studies: Texts and Contexts
Focuses on communities in the Mediterranean basin and Europe (i.e., cloister, court and city), discussing major literary texts and visual monuments associated with them and their historical context. Emphasizes tensions between tradition and innovation, Latin and vernacular, East and West, Christian and non-Christian (Jewish and Islam), sacred and secular, authority and freedom and male and female.
Equivalent - Duplicate Degree Credit Not Granted: MEMS 5020
Requisites: Requires a prerequisite course of CLAS 1110 and CLAS 1120 and ENGL 2503 or HIST 1011 and HIST 1012 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

MEMS 4030 (3) Medieval and Early Modern Studies: Special Topics
Different topics offered by the faculty of the Medieval and Early Modern Studies Program in alternate semesters. Topics may include the literature of pilgrimage and travel, women and minorities, theatre, music, epic, medieval and early modern views of the classics, the Bible, and medieval and early modern theories of education.
Equivalent - Duplicate Degree Credit Not Granted: MEMS 5030
Requisites: Requires a prerequisite course of CLAS 1110 and CLAS 1120 and ENGL 2503 or HIST 1011 and HIST 1012 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

MEMS 5020 (3) Medieval and Early Modern Studies: Texts and Contexts
Focuses on communities in the Mediterranean basin and Europe (i.e., cloister, court and city), discussing major literary texts and visual monuments associated with them and their historical context. Emphasizes tensions between tradition and innovation, Latin and vernacular, East and West, Christian and non-Christian (Jewish and Islam), sacred and secular, authority and freedom and male and female.
Equivalent - Duplicate Degree Credit Not Granted: MEMS 4020
Requisites: Restricted to Comparative Literature (CMLT) or Theatre (THTR) or Classics (CLAS) majors only.
Recommended: Prerequisite ability to use literary texts in their original language.

MEMS 5030 (3) Medieval and Early Modern Studies: Special Topics
Different topics offered by the faculty of the Medieval and Early Modern Studies Program in alternate semesters. Topics may include the literature of pilgrimage and travel, women and minorities, theatre, music, epic, medieval and early modern views of the classics, the Bible, and medieval and early modern theories of education.
Equivalent - Duplicate Degree Credit Not Granted: MEMS 4030
Requisites: Restricted to Comparative Literature (CMLT) or Theatre (THTR) or Classics (CLAS) majors only.
Recommended: Prerequisite ability to use literary texts in their original language.

Military Science - Army ROTC (MILR)

Courses

MILR 1011 (2) Adventures in Leadership 1
Introduces fundamentals of leadership and the United States Army. Examines its organization, customs, and history as well as its current relevance and purpose. Students also investigate basic leadership and management skills necessary to be successful in both military and civilian settings. Includes fundamentals of Army leadership doctrine, team-building concepts, time and stress management, an introduction to cartography and land navigation, marksmanship, briefing techniques, and some basic military tactics.
Additional Information: Departmental Category: Military Science (U.S. Army)

MILR 1021 (2) Adventures in Leadership 2
Continues the investigation of leadership in small organizations. Covers selected topics such as basic troop leading procedures, military first aid and casualty evacuation concepts, creating ethical work climates, an introduction to Army organizations and installations, and a further examination of basic military tactics. Introduces students to effective military writing styles.
Additional Information: Departmental Category: Military Science (U.S. Army)

MILR 2031 (3) Methods of Leadership and Management 1
Comprehensively reviews advanced leadership and management concepts including motivation, attitudes, communication skills, problem solving, human needs and behavior, and leadership self development. Students continue to refine effective written and oral communications skills and to explore topics such as the basic branches of the Army, and officer and NCO duties. Students conduct classroom and practical exercises in small unit light infantry tactics and are prepared to perform as midlevel leaders in the cadet organization.
Additional Information: Departmental Category: Military Science (U.S. Army)

MILR 2041 (3) Methods of Leadership and Management 2
Focuses on leadership and management functions in military and corporate environments. Studies various components of Army leadership doctrine to include the four elements of leadership, leadership principles, risk management and planning theory, the be-know-do framework, and the Army leadership evaluation program. Continue to refine communication skills.
Additional Information: Departmental Category: Military Science (U.S. Army)

MILR 3052 (3) Military Operations and Training 1
Further explores the theory of managing and leading small military units with an emphasis on practical applications at the squad and platoon levels. Students examine various leadership styles and techniques as they relate to advanced small unit tactics. Familiarizes students with a variety of topics such as cartography, land navigation, field craft and weapons systems. Involves multiple, evaluated leadership opportunities in field settings and hands-on experience with actual military equipment. Students are given maximum leadership opportunities in weekly labs.
Recommended: Prerequisite instructor consent.
Additional Information: Departmental Category: Military Science (U.S. Army)

MILR 3062 (3) Military Operations and Training 2
Studies theoretical and practical applications of small unit leadership principles. Focuses on managing personnel and resources, the military decision making process, the operations order and oral communications. Exposes the student to tactical unit leadership in a variety of environments with a focus on preparation for the summer advance camp experience.
Recommended: Prerequisite instructor consent.
Additional Information: Departmental Category: Military Science (U.S. Army)

MILR 3090 (1) Military Theory and Tactical Leadership
Application of military domain knowledge, small until leadership skills and education on various subjects germane to military operations. Examination of military tactics, techniques and procedures to better understand how to successfully accomplish multiple military requirements. Instructor consent required. MSV students do not need to be enrolled in a MILR corequisite.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a corequisite course of MILR 1011 or 1021 or 2031 or 2041 or 3052 or 3062 or 4072 or 4082.
Additional Information: Departmental Category: Military Science (U.S. Army)

MILR 4072 (3) Leadership 1: Adaptive Leadership
Develops leaders of character that will excel in a complex, ambiguous and dynamic future operating environment: discusses personal growth, effective communication, critical thinking, problem solving and ethical leadership.
Recommended: Prerequisite instructor consent.
Additional Information: Departmental Category: Military Science (U.S. Army)

MILR 4082 (3) Leadership 2: Leadership in a Complex World
Develops leaders of character that will excel in a complex, ambiguous and dynamic future operating environment: develops universal leadership attributes such as critical thinking and problem solving, understanding the contemporary operating environment and improved inter-personal dynamics/team building skills.
Recommended: Prerequisite instructor consent.
Additional Information: Departmental Category: Military Science (U.S. Army)

MILR 4840 (1-3) Independent Study
Additional Information: Departmental Category: Military Science (U.S. Army)

Molecular, Cellular and Developmental Biology (MCDB)

Courses

MCDB 1020 (1) Introduction to Molecular, Cellular and Developmental Biology Major
Introduces students to the Molecular and Cellular Biology major. Provides an overview of the major and how it differs from other CU biology programs; how to get involved in clubs, research, and/or internship opportunities; strategies for succeeding in MCDB courses; and career options. This is a first-year colloquium course specifically designed for freshman and other students exploring their educational and career opportunities in our department.
Recommended: New MCDB majors.

MCDB 1043 (1) Exploring Genetics Laboratory
Provides hands-on experience with fundamental genetic principles. Topics include scientific method, experimental design, mitosis, meiosis, classical genetics, molecular genetics, mutagenesis, DNA analysis, and transgenic organisms. Wherever possible, the focus of the lab will be on integrating science process skills with human-relevant experiments to encourage students to learn and apply science skills while seeing the application to humans.
Requisites: Restricted to Biological Sciences (MCDB) non-majors only.
Recommended: Corequisite MCDB 1041.
Additional Information: Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science Lab or Lab/Lec

MCDB 1150 (3) Introduction to Cellular and Molecular Biology
Covers biologically important macromolecules and biological processes, together with an introduction to cell structure, function, and physiology. Provides the foundation for advanced MCDB courses to majors, and a rigorous overview of modern biology to non-majors.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 1111
Recommended: Prerequisite high school chemistry and algebra, and recommended corequisite of MCDB 1152.
Additional Information: GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science Lab or Lab/Lec

MCDB 1152 (1) Problem Solving Co-Seminar for Introduction to Molecular and Cellular Biology
Uses problem solving and other interactive group work to aid student learning in a corequisite course, MCDB 1150. Students will work in small groups on learning and practicing how to solve difficult conceptual problems, as well as using hands-on activities and concept mapping to help learn content.
Recommended: Corequisite MCDB 1150.

MCDB 1161 (2) From Dirt to DNA: Phage Genomics Laboratory I
Provides laboratory experience working on a bacteriophage genomics research project. Students will study novel bacteriophage they isolate from the environment. Topics covered include phage biology, bacteria and phage culturing and amplification, DNA isolation, restriction digest analysis, agarose gel electrophoresis, and electron microscopy.
Recommended: Prerequisites or corequisites: MCDB 1150 or EBIO 1210.
Additional Information: Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science Lab or Lab/Lec

MCDB 1171 (2) Antibiotics Discovery Through Hands-on Screens I
Provides introductory research and laboratory experience. Students will work in teams to screen small molecule libraries for novel antibiotics using the bacterium Salmonella as a model system. Topics covered include the basic biology of the model system, genetics, approaches to screening for new therapeutics, statistical analysis of the data, compound verification and lead compound development.
Recommended: Prerequisite or corequisite MCBD 1150 or EBIO 1210.
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science Lab or Lab/Lec

MCDB 1181 (2) Biological Probiotic/Drug Discovery Through Hands-on Screens
Provides introduction to research and laboratory experience. Students will work in teams to screen novel mycobacterial strains for use as probiotics or immunoregulatory/anti-inflammatory drugs using THP-1 cells, a human monocytic cell line. Topics covered include the hygiene or "Old Friends" hypothesis, the human microbiome, approaches to screening for new probiotics of therapeutics and statistical analysis of the data.
Equivalent - Duplicate Degree Credit Not Granted: IPHY 1181
Grading Basis: Letter Grade

MCDB 1234 (1-9) Skills Center: Modular Laboratory of Modern Molecular Biology Skills
Dedicated to teaching students fundamental laboratory skills in modern molecular biology. The skills are updated on a rolling basis in consultation with MCDB faculty and local Pharma/Biotech companies in an effort to provide students with real world skills that can help them transition from a traditional lab course environment to a more independent research environment. Students can mix and match various skills to receive one or more university credit hours and students who successfully complete a module are given a certificate recognizing their competency. Available skills modules and in more course information can be found at https://skillscenter.colorado.edu/
Repeatable: Repeatable for up to 15.00 total credit hours.
Grading Basis: Letter Grade

MCDB 2150 (3) Principles of Genetics
Introduces the behavior of genes and chromosomes in eukaryotic and prokaryotic organisms. Covers three areas: transmission genetics, molecular genetics, and population genetics. Attention is given to genetic mapping, recombinant DNA procedures, and gene expression.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 2222
Recommended: Prerequisite MCDB 1150 or EBIO 1210 or CHEN 2810 (minimum grade C-) and recommended corequisite of MCDB 2152.
Additional Information: GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 2152 (1) Problem Solving Co-Seminars for Genetics
Uses problem solving and other interactive group work to aid student learning in MCDB 2150. Students will work in small groups on learning and practicing how to solve difficult conceptual problems, as well as using hands-on activities and concept mapping to help learn content.
Recommended: Corequisite MCDB 2150.

MCDB 2161 (2) From DNA to Genes, Phage Genomics Laboratory II
Provides laboratory experience working on a bacteriophage isolated during the previous semester. Topics include bioinformatics, genome annotation, open reading frame and RNA identification, BLAST analysis, phylogenetics and submission to a genomic database.
Requisites: Requires prerequisite course of MCDB 1161 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 2171 (2) Chemotherapeutic Discovery Through Hands-On Screens 2
Provides introductory research and laboratory experience. Students will work in teams to screen molecule libraries using fruit flies as a model system. Topics covered include the basic biology of the model system, genetics, approaches to screening for new therapeutics, statistical analysis of the data, compound verification and lead compound development.
Recommended: Prerequisite or corequisite MCBD 1150 or EBIO 1210.
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 2350 (3) Understanding Cancer: Introduction to the disease¿s biology, medicine, and societal implications
A course for students who want to learn about cancer but have little or no background in biology. It is based on a text that presents relevant science and medicine in a readable and comprehensible way. Classes will be discussion of material from the text with weekly quizzes for feedback. The ethics and economics of cancer treatments will be discussed, along with ways to minimize one¿s own cancer risk and live with cancer if necessary.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 2840 (1-3) Lower-Division Independent Study
Students with adequate prerequisites should take MCDB 4840.
Repeatable: Repeatable for up to 8.00 total credit hours.

MCDB 3000 (3) Synthetic Biology: Engineering Biomolecular Systems in the Laboratory
Hands-on research experience in engineering biological systems. Students will design biological systems to address relevant medical and environmental problems facing our society. They will learn how to build their molecular designs in the lab using current synthetic biology techniques. Students will also learn how to critically evaluate current research in the field and effectively communicate their own research. Formerly offered as a special topics course. Students can take MCDB 3001 as a continuing course for advanced research.
Requisites: Requires prerequisite courses of (MCDB 1150 and MCDB 2150) or CHEN 2810 (all minimum grade C).
Recommended: BCHM, ENGR and BCHM majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab

MCDB 3001 (3) Advanced Synthetic Biology: Engineering Biomolecular Systems in the Laboratory
This course in engineering biological systems is an extension of the hands-on research experience gained from MCDB 3000 and meant to take following completion of MCDB 3000. Students designed biological systems to address relevant medical and environmental problems facing our society in MCDB 3000. Engineering biological system in the lab often takes longer than one semester. MCDB 3001 teaches students new laboratory techniques that will allow them to take more involved projects to the next step and gain more confidence in the laboratory.
Requisites: Requires prerequisite course of MCDB 3000 (minimum grade C-).
Recommended: BCHM, ENGR and BCHM majors only.

MCDB 3010 (2) Undergraduate Teaching in Course-Based Undergraduate Research Experiences
To address the need for more advanced and continued participation in course-based research, MCDB 3010 is designed to train students who have taken MCDB 1171 or MCDB 2171 or MCDB 4202 as teaching assistants. The aim is to enhance the students' experience and responsibilities in course-based research and to prepare them for research and mentorship in a departmental or graduate laboratory.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Requires prerequisite course of MCDB 1171 or MCDB 2171 or MCDB 1161 or MCDB 4202 (minimum grade B).
Grading Basis: Letter Grade

MCDB 3020 (1) Next Steps: Preparing for Life After Graduation
Helps upper-division students prepare for what comes after graduation. Topics include exploring careers; how to write a resume or CV; interviewing tips; how to build your portfolio; asking for letters of recommendations. This course is specifically designed for juniors starting to prepare for the next stage post-graduation.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 3020 and IPHY 3020
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Pass/Fail

MCDB 3030 (3) Artificial Intelligence in Biology
Delves into the intersection of Artificial Intelligence and Biology by exploring the rich history of human and machine intelligence. We will uncover the significant implications of advances in AI within the biological sciences, including brain-machine interfaces, molecular structure predictions, biomedical diagnostics, drug discovery, and therapeutics. This course is designed to equip you with a comprehensive understanding of AI's role in advancing biological research and applications, preparing you for the rapidly evolving career opportunities in the field. Enhanced by guest lectures, this course offers both theoretical knowledge and a real-world perspective. Join us to navigate and contribute to the ethical and innovative applications of AI in biology, shaping the future of healthcare and environmental solutions.
Requisites: Prerequisites of MCDB 2150 or EBIO 2070 with a minimum of a C- or instructor consent.
Grading Basis: Letter Grade

MCDB 3105 (3) Antibiotics: Functions and Failures
Learn about treatments for infectious diseases, how the first antibiotics were discovered, where they come from, how and why they work, and how resistance develops. Understand how antibiotics make modern medicine possible. Explore ways clinicians minimize the spread of resistance to antibiotics. Examine how new antibiotics and other approaches to treating infection are being developed.
Requisites: Requires prerequisite course of MCDB 2150 (minimum grade C).
Grading Basis: Letter Grade

MCDB 3135 (3) Molecular Biology
Examines the central dogma of biology by discussing the most important molecules in cells (DNA, RNA and protein) and how their synthesis (DNA replication, transcription, RNA processing and translation) is regulated. Incorporated into the discussion is how recombinant DNA techniques are used to discover and dissect cellular processes, how to design and interpret experiments, and understanding the limits of experiments to draw conclusions.
Requisites: Requires prerequisite courses of MCDB 2150 or EBIO 2070 and CHEM 1113 or CHEM 1400 or CHEN 1201 or CHEN 1211 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3140 (2) Cell Biology Laboratory
Provides laboratory experience using microscopy, bioinformatics, DNA isolation, PCR and gel electrophoresis to study cell biology and gene expression in a model organism. Students will learn research skills such as interpreting data and planning experiments.
Recommended: Corequisite MCDB 3135 or MCDB 3145.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3145 (3) Cell Biology
Examines intracellular mechanisms, including transport of ions and small molecules across membranes; protein targeting to organelles; membrane trafficking between organelles; signal transduction; the cytoskeleton; and the cell cycle.
Requisites: Requires prerequisite courses of (MCDB 2150 or EBIO 2070) and (CHEM 1113 or CHEM 1400 or CHEN 1211) (all minimum grade C-).
Recommended: Prerequisite or corequisite MCDB 3140 concurrent with either this class or MCDB 3135.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3150 (3) Biology of the Cancer Cell
Highlights dimensions of the cancer problem; cancer as a genetic/cellular disease; chemicals, viruses, and radiation as causes of cancer; cancer and diet; cancer epidemiology; cancer risk factors; proto-oncogenes, oncogenes, and cancer suppressor genes; and prevention of cancer.
Recommended: Prerequisite MCDB 2150 or EBIO 2070 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3160 (3) Infectious Disease
Illustrate how cutting edge tools in genomics can be used to study, monitor and cure disease caused by new and re-emerging human pathogens such as SARS/MERS, Ebola virus, Neisseria meningitides, influenza virus and malaria parasites. Technologies covered will include genome sequencing, annotation, transcriptomics, phylogenetics and genotyping of microbial populations. An integrated approach to this topic will be presented, with these concepts threaded throughout: natural history and evolution of pathogens, molecular biology, immunology, epidemiology, public health and clinical diagnosis. There may be some overlap with material covered in MCDB 1030 and MCDB 4750.
Requisites: Requires prerequisite course of MCDB 2150 or EBIO 2070 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3161 (2) From DNA to Genes, Phage Genomics Laboratory II
Provides in-silico laboratory experience annotating bacteriophage genomes from bacteriophages that were isolated in MCDB 1161. Topics include genome annotation, predicting gene functions using BLAST and HHPred, independent research, scientific writing, and preparation of an annotation file that will be submitted to a public genome database.
Requisites: Requires prerequisite course of MCDB 1161 (minimum grade C-).

MCDB 3171 (2) Advanced Discovery Based Lab - Antibiotics
Provides students an opportunity to expand upon the research they performed in the introductory level course, Drug Discovery Through Hands on Screens I (MCDB 1171). Students will work in teams to validate potential antibiotics against human pathogens. Topics include hit validation, dose response, mechanism of action, applied statistical analysis, and an introduction to the primary literature.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Requires prerequisite course of MCDB 1171 (minimum grade C-).
Grading Basis: Letter Grade

MCDB 3181 (4) Microbial Planet Laboratory
Provides beginner friendly lab & research experience working on a microbiology project. The course teaches how to conduct original scientific research from hypothesis to experimentation, evaluation and reporting. Students study non-pathogenic microorganisms they isolate themselves from nature as part of the course. Hands-on topics covered in class include how to isolate & culture new microbes; how to observe, describe and classify them; and how to examine their metabolic capabilities such as the production of antibiotics.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 3181
Requisites: Requires prerequisite courses of CHEM 1113 and CHEM 1114 or CHEM 1400 and CHEM 1401 (all minimum grade C-).
Recommended: Prerequisite GEOL 1180 or MCDB 1150 or EBIO 1210.

MCDB 3300 (3) Personalized Medicine - Recent Advances in Diagnostics and Therapeutics
Time for personalized medicine is now. Attempts to learn from and put the patient/person back into the equation because personalized medicine, at its worst, does nothing personal at all. Discusses historical perspective, recent advances in molecular biology and medicine (including OMICS) in regards to diagnostics and therapeutics for selected human diseases, and what the future holds for personalized medicine. Guest lectures (medical experts, patients, family members) will further enrich the course.
Recommended: Prerequisites MCDB 2150 or EBIO 2070.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3330 (3) Evolution and Creationism
Intensive lecture/discussion course on the interrelationships among science, religion, and social policy. Includes historical and scientific development of evolution theory, social Darwinism/sociobiology, and the public perception of science.
Recommended: Prerequisite MCDB 1150 or EBIO 1210 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3333 (3) Biomedical Innovations and Discoveries
Discusses how biological inventions and discoveries fuel biomedical innovations, how important techniques in molecular biology have advanced our understanding of cellular processes and contributed to biotechnology revolution and biomedical sciences to benefit our society. Guest lectures from experts in industry and site visits will enhance the course by providing a non-academic perspective, networking opportunities, and unexpected avenues for career paths for our graduates. Department enforced prerequisite: MCDB 2150 or EBIO 2070 or instructor consent.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3350 (3) Fertility, Sterility, and Early Mammalian Development
Describes the production of germ cells, ovulation, fertilization, reproductive cycles, controls of reproduction, early development of the embryo, methods of contraception, and causes and treatments of sterility. Recommended for students planning careers in the health sciences.
Recommended: Prerequisite MCDB 1150 or EBIO 1210 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3450 (3) Biological Data Science
The central function of data science is to extract information from complex datasets. Biology is an increasingly large-data endeavor with health care records, genomics datasets, and extensive imaging. This course will develop core data science skills, including statistical analysis, visualization, data management, machine learning, and modeling.
Recommended: Prerequisite MCDB 2150 or EBIO 2070 (minimum grade C-), or exposure to probability theory.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3456 (1-9) Skills Center: Modular Laboratory of Advanced Modern Molecular Biology Skills
Dedicated to teaching students fundamental laboratory skills in modern molecular biology. The skills are updated on a rolling basis in consultation with MCDB faculty and local Pharma/Biotech companies in an effort to provide students with real world skills that can help them transition from a traditional lab course environment to a more independent research environment. Students can mix and match various skills to receive one or more university credit hours and students who successfully complete a module are given a certificate recognizing their competency. Available skills modules can be viewed at https://skillscenter.colorado.edu/
Repeatable: Repeatable for up to 15.00 total credit hours.
Recommended: Prerequisite MCDB 1234, MCDB 1150, MCDB 1111 or EBIO 1220.
Grading Basis: Letter Grade

MCDB 3501 (3) Structural Methods for Biological Macromolecules
Newest developments in cryo-electron microscopy opened new avenues to study cellular and molecular processes with high structural detail. The class will explore the most recent strategies in Structural Biology to study protein structure and function with a special focus on viral host-pathogen interactions and cell infection and its implications to cell function and architecture. The class will be composed of lectures, scientific paper discussions and hands-on problem solving and demonstrations on microscopes and software.
Recommended: Prerequisite MCDB 2150 or EBIO 2070 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3650 (3) The Brain - From Molecules to Behavior
Examines the molecular basis of the brain's role in thought, action, and consciousness by exploring issues such as relationship of cognition and localized brain function, sensory systems and their role in cognition, learning and memory, and behavioral neurochemistry.
Recommended: Prerequisite MCDB 2150 or EBIO 2070 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3651 (3) The Brain: Dysfunction to Disease
Misregulation of synaptic function results in abnormal brain function and behavior that is manifested in numerous neurological and psychiatric diseases. Explores the molecular mechanisms responsible for altered synaptic plasticity in neurological diseases such as frontotemporal dementia (FTD), Parkinson's disease, Huntington's disease, Creutzfeldt-Jakob disease, Down syndrome, epilepsy, autism, and Alzheimer's disease.
Recommended: Prerequisites MCDB 3650 or NRSC 2100 (minimum grade C-) or instructor consent required.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3700 (3) Poisons in Cell Biology and Society
Investigate the inner workings of our cells by studying how poisons disrupt these processes. We will learn how selected poisons affect critical processes inside the cell to cause death or destruction. The scientific aspects of the poison will be discussed in the context of its historical significance or impact on society and popular culture.
Requisites: Requires prerequisite course of MCDB 2150 or EBIO 2070 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3990 (3) Introduction to Systems Biololgy for Biologists
Introduces majors with relatively little mathematical experience to the major concepts in systems biology, in the context of key processes (cell growth, division, adaptation, development, and disease). Designed to help students master the necessary mathematical tools involved.
Recommended: Prerequisites MCDB 3135 and MCDB 3145 and MATH 1310 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4001 (3) The What, The Why, and The How of Neural Tube Defects
Neural tube defects (NTDs) involve incomplete neural tube closure in embryos, resulting in embryonic death or lifelong health complications. Students will select a gene from a list of candidate human NTD genes and investigate whether its loss leads to an NTD in chick embryos. This course will train students in CRISPR, cloning, embryology, and "softer" research skills such as publication formatting, with the ultimate goal of supporting students' development as researchers.
Requisites: Requires prerequisite course of MCDB 3140 (minimum grade C-).
Recommended: Junior or Senior standing.

MCDB 4100 (1-6) Special Topics
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4105 (3) Function of Cellular and Nuclear, Assemblies, and Machines
Maintaining cellular functions requires a coordinated interaction of all kinds of organelles, assemblies and machines. This course will explore the structure, function, regulation and interactions of cellular organelles, supramolecular assemblies, and molecular machines (motors, ribosomes, polymerases, channels, etc.). Students will be exposed to a set of lectures and prepare specific papers that will be discussed in the group.
Grading Basis: Letter Grade

MCDB 4150 (3) Biology of Aging and Longevity
Through lectures and reading assignments, this capstone course will introduce fascinating cellular and molecular mechanisms underlying aging and longevity based on historical and recent research achievements. We will discuss major aging theories and multiple cellular regulatory systems that prominently affect lifespan. The course will integrate basic concepts from multiple other courses by addressing specific physiological problems in the aging field and present students with the opportunity to learn the reasoning process in cutting-edge biomedical research.
Requisites: Requires prerequisite courses of (MCDB 1150 or EBIO 1210) AND (MCDB 2150 or EBIO 2070) (minimum grade of C-).
Recommended: Prerequisite MCDB 3135 or MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4185 (3) Geomicrobiology
Examines how microbial and chemical processes interact on the Earth¿s surface today and have shaped the planet throughout its history. Emphasis will be placed on how the life styles and chemical ingenuity of microorganisms drive key biogeochemical processes including weathering and transformations of carbon, oxygen, sulfur, iron and nitrogen. Towards this goal, major geologic and evolutionary events will be examined through the lens of microbial diversity, metabolic energetics, microbe-mineral interactions, and molecular biomarkers.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 5185, ENVS 4185, and GEOL 4185
Requisites: Requires prerequisite courses of CHEM 1113 and CHEM 1114 or CHEM 1400 and CHEM 1401 (minimum grade C-).
Recommended: Prerequisites GEOL 1180 or MCDB 1150 or GEOL 3320 or EBIO 3400 or ENVS 4160 or EVEN 4484.
Grading Basis: Letter Grade

MCDB 4201 (3) From Bench to Bedside: The Role of Science in Medicine
Demonstrates the breadth of research in the life sciences and how such research (not just in medical schools) can lead to medical applications. Lecturers from life sciences, the medical school and biotechnology, discuss drug development and the transfer of research into the clinical arena. Students also prepare a paper and presentation on the development of a commercial drug.
Recommended: Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4202 (3) The Python Project
Studies how python hearts grow after they consume a meal. Understanding the molecular processes of growth and regression in the python heart could lead to development of therapeutics for heart disease. Students work in groups in the laboratory and generate novel data by using modern molecular biology and bioinformatic techniques to clone and sequence candidate molecules of the python genome. May be repeated once.
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4234 (3) Research Methods
Presents a rigorous and pedagogically coherent introduction into the experimental process used to collect data, formulate hypotheses, and answer scientific questions in general, and biological questions in particular. Includes a detailed consideration of the elements of experimental design, data collection and analysis, and the interpretation of results in the context of effective science teaching. Part of the CU Teach course sequence for teacher certification in science and mathematics.
Requisites: Restricted to Biological Sciences (MCDB) majors or School of Education (EDUC) undergraduate students only.
Recommended: Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4300 (3-4) Immunology
Emphasizes cellular and molecular mechanisms by which organisms protect themselves from pathogens and the experimental basis for our understanding of these processes. Discusses development, function, and misfunction of t-cells, b-cells and other components of the immune system, focusing on the human immune system.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5301
Requisites: Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4310 (3) Microbial Genetics and Physiology
Examines the physiology and genetics of bacteria, Archaea and viruses. Particular emphasis will be on metabolism, regulation of gene expression and protein function, mechanisms of interactions with and manipulation of the environment, and evolution in response to environmental pressures.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5310
Recommended: Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-) and recommended corequisite of CHEM 4611.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4312 (3) Quantitative Optical Imaging
Explores the fundamentals of optical imaging in biology, especially molecular and cellular biology. Covered topics include an introduction to optics and microscopes, fluorescence microscopy and image analysis, and biological applications. MATLAB will be taught at the beginning of the course and used throughout for image processing. Prior experience with MATLAB (or Python) is highly recommended but not required.
Equivalent - Duplicate Degree Credit Not Granted: BCHM 4312, MCDB 5312 and BCHM 5312
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4350 (3) Microbial Diversity and the Biosphere
Provides a molecular phylogeny-based perspective on microbial diversity and the interactions between organisms that result in the biosphere. Provides overview of recent methods and findings in microbial ecology, as well as computer-based workshop in molecular phylogeny. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5350
Recommended: Prerequisites MCDB 1150 or EBIO 1210 and CHEM 1133 and EBIO 3400 and/or CHEM 3311 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4410 (3) Human Molecular Genetics
Studies the human organism as a genetic system, including effect of mutation on protein structure and function, biochemical basis of human genetic disease, polymorphic gene loci, gene mapping and identification, gene cloning and characterization, and impact of human genetics on medicine and society. Fulfills MCDB scientific reasoning requirement.
Recommended: Prerequisite MCDB 3135 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4420 (3) Genetics of Brain and Behavior
Examines the genetic underpinnings of animal behavior, including an examination of behavioral evolution and the use of genes as tools to examine neural architecture. We will cover topics including foraging, social behavior, personality, parental care and fear. We will explore these behaviors at multiple levels, including genomics, population genetics, molecular genetics, epigenetics, endocrinology and neurobiology. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 4420
Requisites: Requires NRSC 2100 or (NRSC 2125 and NRSC 2150) and (EBIO 2070 or MCDB 2150). All minimum grade C-.
Grading Basis: Letter Grade

MCDB 4422 (3) Molecular Biology of Free Radicals: Role(s) in Oxidative Stress, Signaling, Disease, Aging
Examines how free radicals are formed in biological systems and their roles in oxidative stress, cell signalling, aging, and disease. Emphasis will be placed on the recent literature. Fulfills MCDB scientific reasoning requirement.
Recommended: Prerequisites MCDB 3135 and MCDB 3145 and CHEM 3311 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4425 (3) Topics in Membrane Biology: Cell Biology, Physiology and Disease
Students will apply their knowledge of basic biology to exploring several of the most exciting topics in biomedicine including protein folding and stress responses, nutrient sensing and balance and signal transduction across membranes. Emphasis will be placed upon human physiology and associated human diseases including Alzheimer's disease, diabetes and cardiovascular disease. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5425
Recommended: Prerequisites MCDB 3135 and MCDB 3145 or instructor consent.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4426 (3) Cell Signaling and Developmental Regulation
Introduces several cell signaling processes and their biological functions. Students read and analyze original research articles to learn the thinking processes of scientific research. Writing assignments and oral presentations are required. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5426
Recommended: Prerequisites MCDB 3135 and MCDB 3145 and CHEM 4700 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4428 (3) Regulation of Lifespan
Lectures and literature reading/discussion will introduce students to historical, fascinating and cutting-edge research achievements, as well as the basic genetic/biochemical approaches, towards understanding cellular signaling systems and mechanisms that regulate the aging process and lifespan of animals and humans. Through the combination of presentation, discussion, homework and two exams, students will learn the reasoning process of scientific research in the aging field, become familiar with typical experimental approaches and improve their communication ability.
Requisites: Requires prerequisite course of MCDB 3135 (minimum grade C-).
Grading Basis: Letter Grade

MCDB 4441 (4) Animal Developmental Diversity
Surveys development in a range of vertebrate and invertebrate systems to reconstruct the common bilatorian ancestor, and elucidate the developmental genetic changes underlying animal diversification. Lab focuses on vertebrate embryos and explores key methods in evolutionary developmental biology including in situ hybridization, embryo microinjection, and transgenesis.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5441 and EBIO 4440 and EBIO 5440
Recommended: Prerequisites MCDB 1150 or EBIO 1210 and MCDB 2150 or EBIO 2070 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4444 (3) Cellular Basis of Disease
Explores the cellular basis of disease. Discusses diseases arising from defects in intracellular targeting, cytoskeletal function, intracellular signaling, genomic instability, gene regulation, cell proliferation, and cell death. Involves student-organized presentations and classroom discussion. Fulfills MCDB scientific reasoning requirement.
Recommended: Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4471 (3) Mechanisms of Gene Regulation in Eukaryotes
Focuses on manifestations of regulated gene expression. Studies gene regulation at multiple steps, including transcription, RNA processing and translation. Is based on critical analysis of primary research papers. Written assignments and oral presentations are required. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5471
Recommended: Prerequisite MCDB 3135 (minimum grade C-) or instructor consent required.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4520 (3) Bioinformatics and Genomics
Computational and experimental methods in bioinformatics and genomics, and how these methods provide insights into protein structure and function, molecular evolution, biological diversity, cell biology and human disease. Topics include database searching, multiple sequence alignment, molecular phylogeny, microarrays, proteomics and pharmacogenomics.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5520
Recommended: Prerequisites MCDB 3135 or CHEM 4700 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4521 (1) Bioinformatics and Genomics Laboratory
Provides experience with, and exposure to, computational and experimental methods in bioinformatics and genomics. Meets once a week. Students are expected to read original research papers, discuss findings, plan and execute data analysis in selected areas.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5521
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4550 (3) Cells, Molecules and Tissues: A Biophysical Approach
Focuses on the biophysics governing the structure/function of enzymes, cells, extracellular matrix and tissue. Synthesizes ideas from molecular biology, physics, and biochemistry, emphasizing how low Reynolds number physics, not Newtonian physics, is relevant to life inside a cell. Fulfills MCDB scientific reasoning requirement. Recommended restrictions: Cannot be repeated if taken as a special topics course.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5550 and PHYS 4550 and PHYS 5550
Recommended: Prerequisites MCDB 3135 and MCDB 3145 and PHYS 2010 and PHYS 2020 and CHEM 1133 and MATH 1300 and/or CHEM 3311 (minimum grade C-) or instructor consent required.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4560 (3) Introduction to Biophysics
Covers an introduction to the physics of living systems. Focuses on how living systems are able to generate order, with both physical principles and biological examples. Covers the development of quantitative models for biological systems, including estimates. Taught from a physics perspective, with biology background introduced as needed.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5560 and PHYS 4560 and PHYS 5560
Requisites: Requires a prerequisites course of PHYS 2210 (minimum grade C-).
Recommended: Prerequisite PHYS 4230.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4567 (3) Skills Center Linked Lab Research Project
This course is a Skills Center Linked Lab independent project. Students who have sucessfully completed linked lab (https://skillscenter.colorado.edu/labs.html) skills through MCDB 1234/3456 are eligible to take MCDB 4567. Student work with a linked lab advisor and the Skills Center proctors to develop a research project and the student completes the project in the Skills Center or in the Linked Lab and learn research skills such as interpreting data and planning and executing experiments, data interpretation, statistical analysis and presentation.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course of MCDB 3456 (minimum grade C-).
Grading Basis: Letter Grade

MCDB 4615 (3) Biology of Stem Cells
Stem cells have received considerable notice in both the scientific and social arena. Examines the stem cell concept by a critical examination of the primary scientific literature. Topics will include pluripotency and plasticity, environment, technology, self-renewal, transdifferentiation, molecular signature, epigenetic programming and stem cell versus cancer cell. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5615
Recommended: Prerequisite MCDB 3135 or MCDB 3145 or instructor consent required.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4650 (3) Developmental Biology
Explores the development of invertebrate and vertebrate organisms, emphasizing cellular, molecular and genetic mechanisms. Focuses on conceptual understanding and experimental approaches to topics such as embryology, developmental control of gene expression in eukaryotic cells, mechanisms of differentiation and morphogenesis and developmental genetics.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5651
Requisites: Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4680 (3) Mechanisms of Aging
Studies aging as a developmental process emphasizing genetic, cellular and molecular mechanisms. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5680
Recommended: Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4750 (3) Animal Virology
Encompasses the structure and replication of both lytic and transforming animal viruses. Emphasizes diversity of naturally occurring genomic structures and the resulting strategies of infection as well as the impact of viral epidemics on society. Includes critical analysis of primary research papers. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5750
Recommended: Prerequisite MCDB 3135 (minimum grade C-) or instructor consent required.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4777 (3) Molecular Neurobiology
Introduces the functional anatomy of the nervous system and explores current knowledge regarding the molecular and genetic basis of the development and function of the nervous system. Studies recent insights into the molecular basis of neurodegenerative diseases, in the last portion of the course.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5777
Requisites: Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4790 (3) Oocytes, Stem Cells, Organisms: Experiments to Discoveries
Develop critical thinking, scientific reasoning and communication skills by reading and presenting primary research articles and Nobel Prize winning research on patterning, stem cells, cell death, genetic and epigenetic mechanisms that regulate embryonic development. Learn about experimental approaches from a historical and present view, while discussing their ethical implications.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4800 (3) Molecular Evolution: How Natural Selection has Shaped the Molecules of Life
This course explores how Darwin¿s idea has shaped the structures of DNA, RNA and proteins across the long history of life on earth. Natural selection driving the evolution these macromolecules and subsequent developmental pathways will be fully appreciated as the process that ultimately produced the amazing variety of species on this planet. Looking ahead, our recent efforts to harness the power of evolution in the test tube to develop new therapies will be covered.
Requisites: Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).

MCDB 4810 (3) Insane in the Membrane: The Biology and Biophysics of the Membrane
Studies the biology and physics of the biomembrane. Topics include structure and mechanism of membrane proteins; membrane biogenesis; membrane protein folding and stability; membrane homeostasis; mechanisms of membrane fusion and fission; lipid trafficking. Fulfills MCDB scientific reasoning requirement.
Recommended: Prerequisite CHEM 4700 (minimum grade C-) or instructor consent required.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4811 (3) Teaching and Learning Biology
Provides an introduction to recent research into student learning on the conceptual foundations of modern biology, together with pedagogical methods associated with effective instruction and its evaluation. Students will be involved in active research into conceptual and practical issues involved in biology education, methods to discover student preconceptions, and the design, testing and evaluation of various instructional interventions.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 6811 and EDUC 4811 and MCDB 5811 and EBIO 4811
Recommended: Prerequisites MCDB 1150 or EBIO 1210 and MCDB 2150 and MCDB 3145.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4840 (1-6) Upper-Division Independent Study
An independent study contract is required.
Repeatable: Repeatable for up to 8.00 total credit hours.
Recommended: Prerequisite MCDB 2150.

MCDB 4900 (1-6) Public Health Practicum
Offers practical experience in Public Health with direct supervision.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4900 and IPHY 4900
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

MCDB 4960 (1) Research Communication: Analyzing Data and Effectively Communicating Science for Honors Students
This course is intended for MCDB honors students and to be taken the same semester as their undergraduate thesis defense. The course will teach honors students how to analyze their research data with proper statistics and effectively write their undergraduate honors thesis. Students will also gain experience in presenting their research to an audience with constructive feedback given.
Requisites: Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).

MCDB 4980 (3) Honors Research
Provides faculty-supervised research for students who have been approved by the departmental honors committee. Normally taken during the semester before completion of the honors thesis.
Recommended: Prerequisite MCDB 4840 or comparable research experience, and minimum GPA of 3.20.
Additional Information: Arts Sciences Honors Course

MCDB 4990 (3) Honors Thesis
Involves the preparation and defense of an honors thesis, based on faculty-supervised original research, including final phases of the research project.
Recommended: Prerequisites MCDB 4840 or MCDB 4980 or comparable research experience, and minimum GPA of 3.3 and approval by the MCDB Honors Committee.
Additional Information: Arts Sciences Honors Course

MCDB 5201 (1) Graduate Lab in Molecular Evolution
Ever wonder what functional clues might reside in the DNA sequence of your favorite gene? In this course, graduate students will learn the fundamentals of phylogenetics with an emphasis on evolutionary models that infer selective pressures in protein-coding DNA sequences (genes). During the course, students will be working on their favorite gene and using it as a case study for applying all of the concepts that we will cover. By the end of the course they will have generated a publication-quality summary figure, along with appropriate supplemental figures, of the selective pressures shaping their favorite gene. Additionally, they will learn how to design and execute an experimental approach based off of findings from the evolutionary analysis.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

MCDB 5210 (3) Cell Structure and Function (Lecture and Discussion)

MCDB 5220 (3) Graduate Core 2
Requisites: Restricted to graduate students only.

MCDB 5230 (3) Graduate Core 1
Requisites: Restricted to graduate students only.

MCDB 5250 (3) Topics in Developmental Genetics (Methods and Logic)
Repeatable: Repeatable for up to 6.00 total credit hours.

MCDB 5301 (3) Immunology
Emphasizes cellular and molecular mechanisms by which organisms protect themselves from pathogens and the experimental basis for our understanding of these processes. Discusses development, function, and misfunction of t-cells, b-cells and other components of the immune system, focusing on the human immune system.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4300
Requisites: Restricted to Biological Sciences (MCDB) graduate students only.

MCDB 5310 (3) Microbial Genetics and Physiology
Examines the physiology and genetics of bacteria, Archaea and viruses. Particular emphasis will be on metabolism, regulation of gene expression and protein function, mechanisms of interactions with and manipulation of the environment, and evolution in response to environmental pressures.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4310

MCDB 5312 (3) Quantitative Optical Imaging
Explores the fundamentals of optical imaging in biology, especially molecular and cellular biology. Covered topics include an introduction to optics and microscopes, fluorescence microscopy and image analysis, and biological applications. MATLAB will be taught at the beginning of the course and used throughout for image processing. Prior experience with MATLAB (or Python) is highly recommended but not required.
Equivalent - Duplicate Degree Credit Not Granted: BCHM 5312, MCDB 4312 and BCHM 4312
Grading Basis: Letter Grade

MCDB 5350 (3) Microbial Diversity and the Biosphere
Provides a molecular phylogeny-based perspective on microbial diversity and the interactions between organisms that result in the biosphere. Provides overview of recent methods and findings in microbial ecology, as well as computer-based workshop in molecular phylogeny.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4350
Requisites: Restricted to graduate students only.

MCDB 5361 (3) Evolution and Development
Relates how recent discoveries in the molecular mechanisms of development are shaping our understanding of animal evolution. Reviews basic principles of molecular developmental biology and applies these concepts to critically discuss current research in the field of Evo-Devo (evolution and development).
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4361

MCDB 5425 (3) Topics in Membrane Biology: Cell Biology, Physiology and Disease
Students will apply their knowledge of basic biology to exploring several of the most exciting topics in biomedicine including protein folding and stress responses, nutrient sensing and balance and signal transduction across membranes. Emphasis will be placed upon human physiology and associated human diseases including Alzheimer's disease, diabetes and cardiovascular disease.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4425
Requisites: Restricted to graduate students only.

MCDB 5426 (3) Cell Signaling and Developmental Regulation
Introduces several cell signaling processes and their biological functions. Students read and analyze original research articles to learn the thinking processes of scientific research. Writing assignments and oral presentations are required.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4426

MCDB 5441 (4) Animal Developmental Diversity
Surveys development in a range of vertebrate and invertebrate systems to reconstruct the common bilatorian ancestor, and elucidate the developmental genetic changes underlying animal diversification. Lab focuses on vertebrate embryos and explores key methods in evolutionary developmental biology including in situ hybridization, embryo microinjection, and transgenesis.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4441 and EBIO 4440 and EBIO 5440
Requisites: Restricted to graduate students only.

MCDB 5471 (3) Mechanisms of Gene Regulation in Eukaryotes
Focuses on manifestations of regulated gene expression. Studies gene regulation at multiple steps, including transcription, RNA processing and translation. Is based on critical analysis of primary research papers. Written assignments and oral presentations are required.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4471

MCDB 5520 (3) Bioinformatics and Genomics
Computational and experimental methods in bioinformatics and genomics, and how these methods provide insights into protein structure and function, molecular evolution, biological diversity, cell biology and human disease. Topics include database searching, multiple sequence alignment, molecular phylogeny, microarrays, proteomics and pharmacogenomics.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4520
Requisites: Restricted to graduate students only.

MCDB 5521 (1) Bioinformatics and Genomics Laboratory
Provides experience with, and exposure to, computational and experimental methods in bioinformatics and genomics. Meets once a week. Students are expected to read original research papers, discuss findings, plan and execute data analysis in selected areas.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4521
Grading Basis: Letter Grade

MCDB 5550 (3) Cells, Molecules and Tissues: A Biophysical Approach
Focuses on the biophysics governing the structure/function of enzymes, cells, extracellular matrix and tissue. Synthesizes ideas from molecular biology, physics, and biochemistry, emphasizing how low Reynolds number physics, not Newtonian physics, is relevant to life inside a cell.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4550 and PHYS 4550 and PHYS 5550

MCDB 5560 (3) Introduction to Biophysics
Covers an introduction to the physics of living systems. Focuses on how living systems are able to generate order, with both physical principles and biological examples. Covers the development of quantitative models for biological systems, including estimates. Taught from a physics perspective, with biology background introduced as needed.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4560 and PHYS 4560 and PHYS 5560
Grading Basis: Letter Grade

MCDB 5615 (3) Biology of Stem Cells
Stem cells have received considerable notice in both the scientific and social arena. Examines the stem cell concept by a critical examination of the primary scientific literature. Topics will include pluripotency and plasticity, environment, technology, self-renewal, transdifferentiation, molecular signature, epigenetic programming and stem cell versus cancer cell. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4615
Requisites: Restricted to graduate students only.

MCDB 5650 (2) Teaching and Learning in Undergraduate Science Courses
Discusses recent research on how students learn and applications to the teaching of undergraduate science courses. Conducted as an interactive workshop, in which active-engagement in learning approaches are modeled and experienced by participants. Open to undergraduate and graduate students. May be used to fulfill the pedagogical training requirement for undergraduate Learning Assistants in upper division science courses. Post-doctoral and faculty auditors are welcome to participate as regular auditors.

MCDB 5651 (3) Developmental Biology
Explores the development of invertebrate and vertebrate organisms, emphasizing cellular, molecular and genetic mechanisms. Focuses on conceptual understanding and experimental approaches to topics such as embryology, developmental control of gene expression in eukaryotic cells, mechanisms of differentiation and morphogenesis and developmental genetics.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4650
Requisites: Restricted to graduate students only.

MCDB 5680 (3) Mechanisms of Aging
Studies aging as a developmental process emphasizing genetic, cellular and molecular mechanisms.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4680
Requisites: Restricted to graduate students only.

MCDB 5750 (3) Animal Virology
Encompasses the structure and replication of both lytic and transforming animal viruses. Emphasizes diversity of naturally occurring genomic structures and the resulting strategies of infection as well as the impact of viral epidemics on society. Includes critical analysis of primary research papers. Fulfills MCDB scientific reasoning requirement. Course has additional graduate student level requirements.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4750
Requisites: Restricted to graduate students only.

MCDB 5776 (1) Scientific Ethics and Responsible Conduct in Research
Lect. Advanced discussion of topics in scientific ethics, including requirements for responsible conduct of research, case histories of fraud, research misconduct, ethical misconduct and development of professional values and ethical standards.
Equivalent - Duplicate Degree Credit Not Granted: BCHM 5776
Requisites: Requires a corequisite course of MCDB 5230 or BCHM 5771.

MCDB 5777 (3) Molecular Neurobiology
Introduces the functional anatomy of the nervous system and explores current knowledge regarding the molecular and genetic basis of the development and function of the nervous system. Studies recent insights into the molecular basis of neurodegenerative diseases, in the last portion of the course.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4777

MCDB 5811 (3) Teaching and Learning Biology
Provides an introduction to recent research into student learning on the conceptual foundations of modern biology, together with pedagogical methods associated with effective instruction and its valuation. Students will be involved in active research into conceptual and practical issues involved in biology education, methods to discover student preconceptions, and the design, testing and evaluation of various instructional interventions.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4811 and EDUC 4811 and EDUC 6811
Requisites: Restricted to graduate students only.

MCDB 6000 (3) Introduction to Laboratory Methods
Introduces methodology and techniques used in biological research. Designed as a tutorial between a few students and one faculty member. Students are expected to read original research papers, discuss findings, and to plan and execute experiments in selected areas.
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Biological Sciences (MCDB) graduate students only.

MCDB 6440 (1-3) Special Topics in MCD Biology
Acquaints students with various topics not normally covered in the curriculum. Offered intermittently or upon student demand, and often presented by visiting professors.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

MCDB 6441 (1) Faculty Res Seminar
Acquaints students with various topics not normally covered in the curriculum. Offered intermittently or upon student demand, and often presented by visiting professors.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

MCDB 6442 (2) Scientific Communication
Acquaints students with various topics not normally covered in the curriculum. Offered intermittently or upon student demand, and often presented by visiting professors.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

MCDB 6940 (1) Master's Candidate for Degree
Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree.

MCDB 6950 (1-6) Master's Thesis
Students seeking a master's degree should consult a departmental advisor. Plan I or Plan II is offered.

MCDB 7840 (1-6) Graduate Independent Study
An independent study contract is required.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

MCDB 7910 (2) Seminar Practicum
Designed for graduate students to give oral presentations on their thesis research, field questions, respond to critiques, and present background information. Students attend weekly seminar speaker presentations to gain knowledge on specialized research.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

MCDB 8990 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 30.00 total credit hours.
Requisites: Restricted to graduate students only.

MS Business Core (MSBC)

Courses

MSBC 5015 (1.5) Managerial Economics
Studies the elements of the business firm's fundamental problem: how to maximize profits. Develops for each element managerial theory based upon introductory and intermediate level microeconomics. Analyzes various applications and misapplications of relevant concept, primarily through case studies. Differential calculus and statistics are used throughout the course.
Requisites: Restricted to Finance (FNCE-MS) or Real Estate (REAL-MS) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Core

MSBC 5020 (1.5) Financial Accounting
Introduces the financial reporting system used by business organizations to convey information about their economic affairs. Develops an understanding of financial reports and what they tell about a business enterprise. Focuses on how alternative accounting measurement rules represent different economic events in financial reports.
Requisites: Restricted to Finance (FNCE-MS) or Real Estate (REAL-MS) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Core

MSBC 5031 (3) Quantitative Methods in Finance
Covers foundations for statistical reasoning and statistical applications in business. Topics include graduate level treatment of descriptive statistics, probability, probability distributions, sampling theory and sampling distributions and statistical inference (estimation and hypothesis testing) applied to the field of finance. Provides an introduction to topics such as regression analysis, analysis of variance, time series forecasting, decision analysis, index numbers, and nonparametric methods.
Grading Basis: Letter Grade

MSBC 5032 (3) Real Estate Data Analysis
Covers foundations for statistical reasoning and statistical applications in business. Topics include graduate level treatment of descriptive statistics, probability, probability distributions, sampling theory and sampling distributions and statistical inference (estimation and hypothesis testing) applied to real estate. Provides an introduction to topics such as regression analysis, analysis of variance, time series forecasting, decision analysis, index numbers, and nonparametric methods.
Requisites: Restricted to REAL-MS students only.
Grading Basis: Letter Grade

MSBC 5060 (3) Corporate Finance
Analyzes the implications of modern finance theory for the major decisions faced by corporate financial managers. Develops the basic skills necessary to apply financial concepts to the various problems faced by a firm. Includes capital budgeting, capital structure, long term financing, short term financial management and financial planning topics.
Requisites: Restricted to Finance (FNCE-MS) or Real Estate (REAL-MS) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Core

MSBC 5070 (3) Survey of Business Analytics
Designed as an introduction to Business Analytics, which considers the extensive use of data, methods and fact-based management to support and improve decision making. Business intelligence focuses on data handling, queries and reports to generate information associated with products, services and customers, business analytics uses data and models to explain business performance and how it can be improved. The class will be built on heavy hands-on coding; it will introduce and subsequently involve extensive use of Python.
Requisites: Restricted to MS Business Analytics (BUAN-MS) majors or MKAG-CERG students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Core

MSBC 5180 (3) Machine Learning in Python
This course exposes the students to commonly used platforms for statistical and predictive analytics. The class will go into depth of analytics using Python. Students will learn to analyze large datasets, including textual analytics such as twitter-stream analysis. The class will focus on predictive analytics.
Requisites: Restricted to Business Analytics (BUAN-MS) majors only.
Grading Basis: Letter Grade

MSBC 5220 (3) Investment Management & Analysis
Covers managing investment portfolios by blending academic theories and evidence with practitioner experience. Topics include risk and return relationships, securities, value theory (capital asset, arbitrage, and option pricing), portfolios, and performance evaluations.
Requisites: Restricted to Finance (FNCE-MS) or Real Estate (REAL-MS) majors only.
Grading Basis: Letter Grade

MSBC 5235 (1.5) Finance Industry Academy
This course provides finance industry perspectives, professional development, and information about finance industry careers for students in the MS finance program. The course complements the foundational material found in the rest of the MS finance curriculum with perspectives on how the MS finance skillset translates into varied careers in the finance industry. The course will draw heavily upon the finance industry perspective, the Burridge Center for Finance, and career resources at the Leeds school.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to Finance (FNCE-MS) majors only.
Grading Basis: Letter Grade

MSBC 5460 (3) Supply Chain Strategy
Introduces students to the fundamental principles underlying supply chains, and focuses on the integration with both operations and logistics.
Equivalent - Duplicate Degree Credit Not Granted: MBAX 6460
Requisites: Restricted to Supply Chain Management (SCMN) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Core

MSBC 5480 (3) SCMN Experiential Projects
Provides an opportunity to execute a project for a company, integrating course work knowledge in an applied capstone experience. Allows first hand exposure to the business analytics as both an observer and creator of the business analytics process. Students work closely with an area client company to solve an important business analytics problem under the close supervision of the instructor.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Supply Chain Management (SCMN) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Core

MSBC 5490 (3) BUAN Experiential Projects
Provides an opportunity to execute a project for a company, integrating course work knowledge in an applied capstone experience. Allows first hand exposure to the business analytics as both an observer and creator of the business analytics process. Students work closely with an area client company to solve an important business analytics problem under the close supervision of the instructor.
Requisites: Restricted to Business Analytics (BUAN-MS) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Core

MSBC 5600 (1.5) Real Estate Principles
The course provides students with an introduction to the foundational terms, concepts, principles, and formulas fundamental to the business of real estate. It establishes the foundation for other real estate courses. Course content includes legal concepts including property rights and title, mortgage loan types, calculations and decisions, an introduction to time value of money and income capitalization, and real estate investment valuation and decision making utilizing the most common income valuation methods. Instruction and course format are traditional lecture and conversational.
Requisites: Restricted to REAL-MS students only.
Grading Basis: Letter Grade

MSBC 5610 (3) Real Estate Finance and Investment
The primary objectives of this course are to: (1) describe, analyze, and compare the features of residential mortgage loans, commercial mortgage loans, and commercial leases; (2) conduct income property investment analyses and develop the technical competence necessary to structure basic real estate transactions; (3) understand the operations and valuations of private equity funds and real estate investment trusts (REITs), and how real estate is securitized and sold to everyday investors.
Requisites: Restricted to REAL-MS students only.
Grading Basis: Letter Grade

MSBC 5635 (1.5) Real Estate Industry Academy
Provides real estate industry perspectives about substantive topics and current events and trends, professional skills development, information and advice regarding real estate industry jobs and careers. By equipping students with the skills, knowledge, and networks necessary to pursue a career in real estate, the course complements the foundational material found in the rest of the MSRE curriculum. The course will draw heavily upon the expertise of our industry partners, CUREC, and career resources at Leeds.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to REAL-MS students only.
Grading Basis: Letter Grade

MSBC 5680 (3) Optimization Modeling
Focuses on formulating decision problems as mathematical models and employing computational tools to solve them. Microsoft Excel is used as the main modeling platform but the course will also cover advanced tools, such as modeling languages. Optimization modeling will be illustrated in problems associated with operations, marketing, management, and finance. Integrates topics from decision analysis and operations management as they relate to modeling management decisions.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA Program (PMBA), MS Supply Chain Management (SCMN-MS) or MS Business Analytics (BUAN-MS) majors only.
Grading Basis: Letter Grade

MS Business Electives (MSBX)

Courses

MSBX 5080 (3) Decision Modeling and Applications
Integrates topics from decision analysis and operations management as they relate to modeling management decisions. Field projects involve the university, local companies, and/or government agencies.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA Program (PMBA), MS Supply Chain Management (SCMN-MS) or MS Business Analytics (BUAN-MS) majors only.

MSBX 5205 (3) Financial Strategy and Decision Modeling
Develops functional frameworks for analyzing and assessing uncertainty in real and financial assets and evaluating financial decisions under diverse scenarios. This course covers various methods of mapping uncertainty including binomial decision tree models, linear programming models and Monte-Carlo simulations. Further topics include tax consequences of these decisions.
Requisites: Restricted to Masters of Finance (FNCE-MS) and Masters of Real Estate (REAL-MS) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Electives

MSBX 5225 (3) Advanced Portfolio Management
Covers the management and construction of investment portfolios. Topics include performance and risk measures, identification of risk factors and the use of traditional and alternative assets classes including real estate, mutual funds, ETFs, venture capital funds, private equity funds and hedge funds. Additional topics include tax consequences of investment decisions and cash management.
Equivalent - Duplicate Degree Credit Not Granted: FNCE 4831
Requisites: Restricted to Master of Finance (FNCE-MS), Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA) or Professional MBA Program (PMBA) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Electives

MSBX 5260 (3) Fixed Income Investing
Fixed income securities are those that nominally promise a fixed stream of payments. They include government and corporate long and short term debt issues that far exceed the amount of corporate stock issues, as well as long term personal debt (i.e.,home mortgages). Develops practical analytical tools for describing risk and return in fixed income securities, the markets where they are traded, and their purchase and management by financial intermediaries. This course will utilize the Bloomberg Lab to provide students with real world fixed income security analysis.
Requisites: Requires prereqs MBAC 6060, MSBC 5060, or MSBC 5610 (min grade D-).Restricted to Master of Business Admin (MBAD), MBA w Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Profl MBA Program (PMBA), MS Finance (FNCE-MS) MS Real Estate (REAL-MS) mjrs onl
Grading Basis: Letter Grade

MSBX 5270 (3) Applied Derivatives
Covers applications of financial derivatives and a range of topics, from market risk management to liquidity and counter party risk management in contemporary finance. Specifically, the course examines the pricing and use of financial derivatives, including options, forwards, futures, swaps and credit derivatives in risk management.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA Program (PMBA) or MS Finance (FNCE-MS) majors only.
Grading Basis: Letter Grade

MSBX 5280 (3) Sustainable Finance
Course materials draw from finance, economics, and law studies that analyze the theoretical and actual impact of ESG forces on firm outcomes. The course will be divided into two primary topics, namely (1) sustainable capital allocation (i.e. how firms manage their capital budgeting choices given ESG goals & the influence/role of activist investors in those decisions); (2) sustainable financing (i.e., how firms raise capital given ESG goals & the influence/role of passive socially responsible investing).
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA Program (PMBA) or MS Finance (FNCE-MS) majors only.
Grading Basis: Letter Grade

MSBX 5310 (3) Customer Analytics
Provides a deep understanding of how to use data on customer behavior and preferences to inform managerial decision making. Introduces methods for causal inference, modeling consumer demand, and modeling firm decisions. Applications include long-run customer management decisions (customer acquisition and retention) and short-run marketing mix (product, price, promotion and distribution) decisions. The R programming language is used for course examples and assignments. Students are assumed to have a working knowledge of R and linear regression techniques.
Requisites: Restricted to Supply Chain Management (SCMN-MS) or Business Analytics (BUAN-MS) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Electives

MSBX 5311 (2) Customer Analytics
Provides a deep understanding of customer centricity and its implications for the firm; state-of-the art methods for calculating customer lifetime value and customer equity; analytical and empirical skills that are needed to judge the appropriateness, performance, and value of different statistical techniques that can be used to address a issue around customer acquisition, development, and retention. Students will use their knowledge of R programming in this course.
Requisites: Restricted to Professional MBA Program (PMBA) majors only.
Grading Basis: Letter Grade

MSBX 5320 (3) Digital Advertising
Covers both traditional and emerging digital advertising methods, the popular platforms used to execute ads, and the leading analytic tools that can be used to assess advertising performance. Core advertising platforms covered include search, display, social media, native advertising, sponsored content and mobile. This class focuses on best practices and Key Performance Indicators that go with each advertising platform. Department consent required.
Requisites: Restricted to MS Business Analytics (BUAN-MS) majors or MKAG-CERG students only.
Grading Basis: Letter Grade

MSBX 5405 (3) Structured Data Modeling and Analysis
Explores both the functional and technical environment for the creation, storage and use of the most prevalent source and type of data for business analysis, ERP and related structured data. Students will learn how to access and leverage information via SQL for analysis, aggregation to visualization, create dashboards, and be source for business intelligence.
Requisites: Restricted to Master of Business Admin (MBAD), MBA w/ Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA Program (PMBA), MS Supply Chain Management (SCMN-MS) or MS Business Analytics (BUAN-MS) majors BAMG-CERG, SCAG-CERG students only
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Electives

MSBX 5410 (3) Fundamentals of Data Analytics
Exposes the students to commonly used platforms for statistical and predictive analytics. The class will go into depth of analytics using R before demonstrating the same concepts using SPSS and SAS. Students will learn to analyze large datasets, including textual analytics such as twitter-stream analysis using R.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA (PMBA), MS Supply Chain Management (SCMN-MS), MS Business Analytics (BUAN-MS) or (SCAG-CERG) or (BAMG-CERG) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Electives

MSBX 5415 (3) Advanced Data Analytics
Explores the capabilities and challenges of data-driven business decision making and prepares students to lead in analytics-driven organizations. Introduces a set of common predictive and prescriptive analytics tools. Students apply the analytics tools to important decisions based on practical data sets from various companies. Analytics software packages are used extensively in the course.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA (PMBA), MS Supply Chain Management (SCMN-MS), MS Business Analytics (BUAN-MS) or (SCAG-CERG) or (BAMG-CERG) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Electives

MSBX 5420 (3) Unstructured and Distributed Data Modeling and Analysis
Moves the student beyond structured data and sources into business scenarios where data is semi-structured to unstructured such as those from social and web applications. Specific topics include introduction to SQL-on-Hadoop, NoSQL and related distributed processing technologies. Students will learn practical application and mechanisms for getting this sort of data ready for analytics.
Requisites: Requires prereq course MSBX 5405 (min grade D-). Restricted to Master of Business Admn (MBAD), MBA w/ Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Profl MBA Program (PMBA) Supply Chain Mgmnt (SCMN) or Business Analytcs (BUAN) or BAMG-CERG mjrs onl
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Electives

MSBX 5425 (3) Natural Language Processing for Healthcare Analytics
Practitioners of natural language processing (NLP) use methods from math, science, engineering and linguistics to teach computers to understand human language. Because much biomedical information is stored as text, there are many possible applications of NLP in health sciences. This course offers an introduction to NLP for the health sciences. Students will gain a conceptual and hands-on introduction to fundamental tools, concepts and problems from NLP by exploring applications in healthcare, population health and biomedicine.
Requisites: Requires prerequisite courses of MSBC 5070 and MSBC 5180 (minimum grade D-).
Recommended: Prerequisite Python 3.
Grading Basis: Letter Grade

MSBX 5430 (3) Advanced Statistical Analysis
Introduces advanced multivariate regression analysis and residual diagnostics, logistic regression, analysis of variance (ANOVA and MANOVA), time series models, and analysis of categorical variables. R, an open source programming language for statistical computing and graphics, will be used. It is assumed students have mastery of introductory statistics topics including descriptive tools, inference, and ordinary least squares regression.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA Program (PMBA) or MS Business Analytics (BUAN-MS) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Electives

MSBX 5435 (1.5-3) Planning and Production
At the core of GDP and productivity is the science of planning new products of services in design, bringing them to market then producing and replicating it in reliable, dependable, scalable fashion. The course takes an in-depth look at the mechanisms for supporting new product/process design in a scaled, often world-wide supply chain. (MRP, Six Sigma, Modeling Software, Heuristic Model use).
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA Program (PMBA) or MS Supply Chain Management (SCMN-MS) majors or SCFG-CERG students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Electives

MSBX 5440 (3) Decision Analysis
Covers both behavioral/psychological aspects and analytical approaches to making decisions with multiple objectives. The focus for the course is learning to frame decisions that involve multiple stakeholders with multiple objectives and then learning the various techniques used to evaluate the choices. Influence diagrams, decision heuristics using spreadsheets, and decision trees will all be explored with user-friendly decision tree software.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA Program (PMBA), MS Supply Chain Management (SCMN-MS) or MS Business Analytics (BUAN-MS) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Electives

MSBX 5450 (3) Transportation and Logistics
Examines critical elements of distribution and logistics management, including physical distribution, supply chain echelon planning, warehouse (transportation note) selection and location, material handling, inventory quantity and location and other topics.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA Program (PMBA) or MS Supply Chain Management (SCMN-MS) majors or SCFG-CERG students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Electives

MSBX 5470 (1.5-3) Procurement and Contracting
Examines principles and concepts of the acquisition process from commercial and governmental perspectives, focusing on the procurement process, including planning, source selection, solicitation writing, negotiations and oral discussions, contract preparation and administration.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA Program (PMBA) or MS Supply Chain Management (SCMN-MS) majors or SCFG-CERG students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Electives

MSBX 5605 (3) Real Estate Investment and Risk Management
This course empowers students with the knowledge and tools needed to understand, evaluate, and manage real estate investment risk and to recognize and capitalize upon potential real estate investment opportunities. We begin by exploring the types of risk investors face in residential real estate, mortgages, and investment properties and how to quantify those risks. With that foundation, we then delve into the history of such risks (e.g., the Great Depression, Great Recession, etc.) and regulations intended to address them. Finally, we explore current topics which are increasingly important in real estate (e.g., climate change, technology, ¿) including the risks and/or opportunities these challenges may present.
Requisites: Requires prerequisite course MBAX 6610 or MSBC 5610 (min grade D-). Restricted to Master's students in Real Estate (REAL), Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA) or Profl MBA Program (PMBA) majors onl
Grading Basis: Letter Grade
Additional Information: Departmental Category: MS: Business Electives

MSBX 5615 (1.5-3) Real Estate Modeling
Real Estate Modeling and Analysis is a graduate level course which will teach students skills necessary to model Real Estate proformas to aid in valuation of acquisition and development of commercial real estate assets. The course will engage three software programs: Excel, Argus [¿Commercial Real Estate Software¿] and CoStar [¿largest commercial real estate information and analytics provider¿].
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA Program (PMBA), or MS Real Estate (REAL-MS) majors only.
Grading Basis: Letter Grade

MSBX 5680 (3) Real Estate Technology
Course objectives are: (1) to understand economic forces that bridge technology, entrepreneurship and real estate; (2) to investigate short-, medium-, and lung-run effects of technology on residential and commercial real estate; (3) to communicate this information to Leeds School of Business students; and (4) to give current students the technology skills necessary to immediately add value for their potential employers.
Requisites: Restricted to Master's students in Real Estate (REAL), Master of Business Admin (MBAD), MBA with DUAL Degree (DMA), Joint Juris Doctor/MBA (JMBA) or Professional MBA Program (PMBA) majors only, or business majors with 80 completed units.

MSBX 5820 (1-3) Special Topics in Accounting
Provides a vehicle for the development and presentation of new topics with the potential of being incorporated into the standard graduate business curriculum.
Equivalent - Duplicate Degree Credit Not Granted: ACCT 5820
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA Program (PMBA) or MS Finance (FNCE-MS) majors only.
Grading Basis: Letter Grade

MSBX 6290 (3) Textual Analysis in Business
This course will discuss basic ideas around natural language processing (NLP) in research in different "dismal science" disciplines, from Economics to Psychology and Political Science, with a bent/focus on financial markets and accounting statements. The course is meant for graduate students as an introductory course on textual analysis, with an emphasis on methods and applications in Finance and Accounting. The language of choice for the course will be R. The course will be multilingual in that both the faculty and students can use other languages than R (python/perl/C).
Equivalent - Duplicate Degree Credit Not Granted: ACCT 6290
Requisites: Restricted to Master of Business Admin (MBAD), MBA with Dual Degree (DMBA), Joint Juris Doctor/MBA (JMBA), Professional MBA Program (PMBA) or MS Finance (FNCE-MS) majors only.
Recommended: Prerequisite MBAC 6060 or MSBC 5060 (minimum grade D-).
Grading Basis: Letter Grade

Museum (MUSM)

Courses

MUSM 4010 (3) Museums and Society
Investigates the museum as an institution in society; history of museums and changing roles and methods in society; administrative structure; museum profession; methodology of museum collections, exhibitions, and education. Designed for students interested in museums or museum careers.
Additional Information: Departmental Category: Museum Studies

MUSM 4021 (2-4) Selected Museum Topics
Provides framework for student projects on varied museum topics (e.g., ethics of collecting, data management, the museum's role in the community). Student projects include case study analysis, interviewing, and original presentations. Topics vary each semester. Prereq., instructor consent.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

MUSM 4473 (3) Museum Field Methods in Botany
Emphasizes field techniques for observation, analysis, and identification of vascular plants, collection, preservation, and date recording for museum specimens.
Additional Information: Departmental Category: Botany

MUSM 4484 (3) Museum Field Methods in Geology
Paleontological and paleoecological field techniques including collecting; recording of geographic, stratigraphic and quarry information; preservation; interpretation, including applicable readings. Designed for individuals who have some background in geology but little or no prior field experience. Offered summer only.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 5484
Additional Information: Departmental Category: Geology

MUSM 4795 (3) Field Methods in Zoology and Botany
Class covers research and field methods for biological disciplines associated with natural history museums: vertebrates, invertebrates and plants. Emphasis is on field research techniques: observations, sampling, collection and preservation methods and comparisons among elevation zones. Includes 5 field labs, 2 weekend trips, 5 lab practica, experience with several taxonomic experts and individual research projects.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 5795 and ENVS 4795
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
Departmental Category: Zoology

MUSM 4900 (1-6) Independent Study
Equivalent - Duplicate Degree Credit Not Granted: MUSM 5900
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Independent Study

MUSM 4912 (3) Collections Research Practicum in Cultural Anthropology
Designed as a practicum, introduces students to research and practice in museum anthropology, utilizing the extensive anthropology collections at CU-Boulder Museum. Students will gain skills in primary and secondary research, collections and object research and narrative story development for the exhibition of anthropological material culture.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 5912 and ANTH 4470 and ANTH 5470
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Anthropology

MUSM 4913 (3) Museum Practicum in Botany
Students take part in curatorial procedures of the botany section of the museum: specimen preparation, labeling, identification, cataloguing, conservation and collection management. Enrollment is limited therefore students should make arrangements during the previous semester.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 5913
Recommended: Prerequisite MUSM 5011.
Additional Information: Departmental Category: Botany

MUSM 4914 (3) Museum Practicum in Geology
Students take part in curatorial procedures of the geology section of the museum: field collection, specimen preparation, cataloguing, collection management and a survey of current laws as they apply to specimens. Enrollment is limited therefore students should make arrangements during the previous semester.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 5914
Recommended: Prerequisite MUSM 5011.
Additional Information: Departmental Category: Geology

MUSM 4915 (1-3) Museum Practicum in Zoology
Students take part in basic curatorial procedures of the zoology section of the museum: relaxing, fixing, positioning, preserving, cataloguing, storing and shipping. Also introduces students to the animal kingdom.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 5915
Additional Information: Departmental Category: Zoology

MUSM 4916 (1-3) Museum Practicum in Entomology
Students take part in curatorial procedures of the entomology section of the museum: field collection, specimen preparation, labeling, identification, rearing techniques and exhibit preparation. Department recommended prerequisite: MUSM 5011. Enrollment is limited, students should make arrangements during previous semester.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 5916
Additional Information: Departmental Category: Entomology

MUSM 4917 (1-3) Museum Practicum in Techniques
Students participate in museum public education functions that may include researching, planning, developing, and producing exhibits, traveling trunks, booklets, and other materials. May involve writing labels, molding and casting, conservation, and restoration.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 5917
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Museology

MUSM 5011 (4) Introduction to Museum Studies
Provides background in history and literature of museums, their objectives and methods, laboratory exercises in curatorship, exhibition theory, and administration.
Additional Information: Departmental Category: Museum Studies

MUSM 5021 (2-4) Selected Museum Topics
Provides framework for student projects on varied museum topics (e.g., ethics of collecting, data management, the museum's role in the community). Student projects include case study analysis, interviewing, and original presentations. Topics vary each semester. Department consent required.
Repeatable: Repeatable for up to 8.00 total credit hours.
Additional Information: Departmental Category: Museum Studies

MUSM 5030 (3) Museum Education
Survey of the theory and practice of education in museums and informal learning centers. Topics include current trends in the field, learning theories, teaching methodologies, program development, museum/school relationships, the role of education in exhibit development, and being a critically reflective practitioner.
Additional Information: Departmental Category: Museum Studies

MUSM 5031 (3) Museums and the Public: Exhibit Development
Covers elements of exhibition development and design, up to production and evaluation of exhibit prototypes. The team approach is emphasized. Department enforced prerequisite: restricted to graduate students.
Additional Information: Departmental Category: Museum Studies

MUSM 5041 (3) Museum Administration
Covers theory of organizations and how it applies to museums. Application of small business management and nonprofit organizations. Review museum organizational charts and staffing. Evolution of marketing and development in a museum context are reviewed. Budget process and annual financial reporting are discussed, and there is an emphasis on evaluating financial statements. Department enforced prerequisite: restricted to graduate students.
Additional Information: Departmental Category: Museum Studies

MUSM 5045 (3) Introduction to Museum Anthropology
Traces the development of Anthropology and museums in America from late 19th century to present day. Students are encouraged to: explore museum theory and practice; think critically about the history of relations among Native Americans, Anthropology, and museums; consider the legacy of collecting and challenges of representing others; and, examine the interplay of Anthropology, material culture, and colonialism.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4045 and ANTH 5045
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Anthropology

MUSM 5051 (3) Museum Collections Management
Deals specifically with curation and data management. Topics include acquisition practices and problems; organization, management, use and preventive conservation of collections; computer data management of collections.
Additional Information: Departmental Category: Museum Studies

MUSM 5061 (3) Introduction to Scientific Illustration
Intended for students with little to no art background. Focus is on the accurate rendering of scientific subjects for publication and for public display. Course begins with basic drawing skills and sharpening of visual perception. Students progress to be able to produce realistic renderings of subjects. Students are exposed to a variety of black and white and color techniques and the standards for presenting illustrations for a variety of audiences. Course concludes with computer illustration tools and techniques.
Additional Information: Departmental Category: Museum Studies

MUSM 5474 (4) Vertebrate Paleontology
Discusses the history and evolution of the vertebrates, including the phylogenetic relationships and evolutionary patterns of the major groups. Lab focuses on comparative vertebrate osteology and fossil representation of major groups.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 4474 and GEOL 5474
Additional Information: Departmental Category: Geology

MUSM 5484 (3) Museum Field Methods in Geology
Paleontological and paleoecological field techniques including collecting; recording of geographic, stratigraphic and quarry information; preservation; interpretation, including applicable readings. Designed for individuals who have some background in geology but little or no prior field experience. Offered summer only.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 4484
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Geology

MUSM 5520 (4) Flowering Plant Diversity
Emphasizes the morphology, evolution, classification, phylogeny, natural history, identification, and economic importance of plants, with a focus on flowering plants (angiosperms). Because flowering plants are dominant and keystone features of both our natural and developed world, capacity to understand them from an evolutionary and ecological perspective is an important skill for anyone interested in field biology, ecology, evolution, environmental resource management, or simply in being a good steward to the land and to your society.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4520 and EBIO 5520
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

MUSM 5760 (4) Mammalogy
Lect., lab, and field studies. Discusses origin, evolution and adaptation, geographic distribution, ecology and taxonomy of mammals; field and laboratory study of Coloradan species. Uses animals and/or animal tissues.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4760 and EBIO 5760
Additional Information: Departmental Category: Zoology

MUSM 5795 (3) Field Methods in Zoology and Botany
Class covers research and field methods for biological disciplines associated with natural history museums: vertebrates, invertebrates and plants. Emphasis is on field research techniques: observations, sampling, collection and preservation methods and comparisons among elevation zones. Includes 5 field labs, 2 weekend trips, 5 lab practica, experience with several taxonomic experts and individual research projects.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 4795 and ENVS 4795
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Zoology

MUSM 5900 (1-6) Independent Study
Equivalent - Duplicate Degree Credit Not Granted: MUSM 4900
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Independent Study

MUSM 5912 (3) Collections Research Practicum in Cultural Anthropology
Designed as a practicum, introduces students to research and practice in museum anthropology, utilizing the extensive anthropology collections at CU-Boulder Museum. Students will gain skills in primary and secondary research, collections and object research and narrative story development for the exhibition of anthropological material culture.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 4912 and ANTH 4470 and ANTH 5470
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Anthropology

MUSM 5913 (3) Museum Practicum in Botany
Students take part in curatorial procedures of the botany section of the museum: specimen preparation, labeling, identification, cataloguing, conservation and collection management. Enrollment is limited therefore students should make arrangements during the previous semester.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 4913
Recommended: Prerequisite MUSM 5011.
Additional Information: Departmental Category: Botany

MUSM 5914 (3) Museum Practicum in Geology
Students take part in curatorial procedures of the geology section of the museum: field collection, specimen preparation, cataloguing, collection management and a survey of current laws as they apply to specimens. Enrollment is limited therefore students should make arrangements during the previous semester.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 4914
Recommended: Prerequisite MUSM 5011.
Additional Information: Departmental Category: Geology

MUSM 5915 (1-3) Museum Practicum in Zoology
Students take part in basic curatorial procedures of the zoology section of the museum: relaxing, fixing, positioning, preserving, cataloguing, storing and shipping. Also introduces students to the animal kingdom.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 4915
Additional Information: Departmental Category: Zoology

MUSM 5916 (1-3) Museum Practicum in Entomology
Students take part in curatorial procedures of the entomology section of the museum: field collection, specimen preparation, labeling, identification, rearing techniques and exhibit preparation. Enrollment is limited, students should make arrangements during previous semester.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 4916
Recommended: Prerequisite MUSM 5011.
Additional Information: Departmental Category: Entomology

MUSM 5917 (1-3) Museum Practicum in Techniques
Students participate in museum public education functions that may include researching, planning, developing, and producing exhibits, traveling trunks, booklets, and other materials. May involve writing labels, molding and casting, conservation, and restoration.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 4917
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Museology

MUSM 5918 (3) Museum Practicum in Advanced Collections Management
Provides a hands-on environment for exploring issues in museum collections management. Through lecture, resource procurement, in-class activities and out-of-class projects, students will gain practical and professional experience in areas of policy, procedure, best practices, museum storage planning and legal issues.
Recommended: Prerequisite MUSM 5051.
Additional Information: Departmental Category: Museum Studies

MUSM 5919 (3) Collections Research Practicum: Archaeology
Focuses on Museum collections management from archaeological sites mainly in the American Southwest and Mongolia. The course involves readings, discussion, and collections analysis and archival documentation. Extra time outside of class is required for the practicum aspect of this course. Each student will need to schedule with the professor an additional 3 hours each week when they will focus on an aspect of their project, to be discussed below under grading criteria. Formerly offered as a special topics course.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4919 and ANTH 5919
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

MUSM 6110 (1-3) Advanced Seminar in Museum Issues
Offers a weekly seminar for museum and field study students that addresses one new topic each semester relevant to museum operations such as archival administration, museums, multiculturalism, repatriation and others. Department enforced prerequisite: MUSM 5011.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Museum Studies

MUSM 6930 (2-4) Museum Internship
Provides experience in museums of different sizes, audiences, and subjects, including history, natural history, art, and children's museums. Each student is supervised individually by a faculty member as well as the appropriate person in the cooperating museum.
Additional Information: Departmental Category: Museum Studies

MUSM 6940 (1-4) Master's Candidate for Degree
Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree.
Additional Information: Departmental Category: Museum Studies

MUSM 6950 (1-6) Master's Thesis
A thesis, which may be of a research, expository, critical or creative type, is required of every master's degree candidate under the thesis option. Department enforced prerequisites: MUSM 5011 and MUSM 5051 and one of the following: MUSM 5030 or MUSM 5031 or MUSM 5041.
Additional Information: Departmental Category: Museum Studies

MUSM 6960 (1-4) Master's Project or Paper
A project or paper in the student's discipline and related to some aspect of museum studies is required of every master's degree candidate under the non-thesis-option plan. Department enforced prerequisites: MUSM 5011 and MUSM 5051. Students in collections/field track also need MUSM 5030 or MUSM 5031 or MUSM 5041.
Additional Information: Departmental Category: Museum Studies

Music (MUSC)

Courses

MUSC 1051 (2) Basics of Songwriting
Introduces students to the art and craft of songwriting. Activities center on creative self-expression through song, developing the fundamental tools and components of songwriting, both conventional and unconventional song forms, developing a personal musical style, developing critical listening/writing/thinking skills, performance, and the study of songs past and present. Examination of melody, harmony, rhythm, lyric writing, style and ensemble presentation.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

MUSC 1081 (3) Intensive Music Theory
Introduces diatonic harmony and voice leading with intensive work on fundamentals (keys, intervals, triads, seventh chords and four-voice writing). The study of theoretical concepts is closely coordinated with aural skills. Feeds into the intensive section of MUSC 1111. Offered fall only.
Requisites: Requires corequisite course of MUSC 1121. Restricted to College of Music (MUSCU) majors or graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 1101 (2) Semester 1 Theory
Introduces the fundamentals of diatonic harmony and voice leading, focusing on model composition (including one-, two- and four-voice writing) and analysis of excerpts from music literature. Offered fall only.
Requisites: Restricted to College of Music (MUSC) majors or graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 1103 (1) Becoming a Music Teacher
Provides an introduction to basic principles and practices of the music education profession. Explores contexts and methods of public school music teaching through class discussions, practice teaching and directed observations. Offered fall only.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Grading Basis: Letter Grade

MUSC 1111 (2) Semester 2 Theory
Continuation of MUSC 1101. Explores principles of harmony, voice leading and form. Continues emphasis on both model composition and analysis. Introduces chromatic elements (such as applied dominants and modulation), harmonic syntax and structural analysis of excerpts from music literature. Offered spring only.
Requisites: Requires prerequisite course of MUSC 1101 or MUSC 1081 (minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 1121 (1) Aural Skills Lab, Semester 1
Focuses on sight singing, rhythm and dictation of diatonic melodies in major and minor keys (treble, alto and bass clefs). Covers identification of scale types, intervals, triads and dominant seventh chords. Includes individual and group improvisation. Offered fall only.
Requisites: Restricted to College of Music (MUSC) majors or graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 1131 (1) Aural Skills Lab, Semester 2
Continuation of MUSC 1121. Focuses on sight singing, rhythm and dictation of diatonic melodies; adds chromatic elements, more complex rhythms and two-part dictation. Includes harmonic dictation using vocabulary from MUSC 1111. Includes individual and group improvisation within harmonic contexts. Offered spring only.
Requisites: Requires prerequisite course of MUSC 1121 (minimum grade D-). Restricted to College of Music undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 1325 (1) Piano Sight Reading
Studies techniques for improving sight-reading skills at the keyboard, with practical work in solo, ensemble and choral literature. Also covers score reading and transposition. Restricted to piano majors or instructor consent required. Offered fall only.
Requisites: Restricted to College of Music (MUSC) majors or graduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 1326 (2) Guitar Musicianship and Accompanying
Survey of accompanying repertoire for guitar with solo instruments (flute, violin, voice, etc.), including introductory work in basso continuo. Activities in sight-reading, fretboard harmony and comprehension of harmony and texture. Some work will be tied to the repertoire being studied in studio lessons. Open only to guitar performance majors.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Choral and Instrumental Music

MUSC 1544 (1) Italian Diction
Designed for the understanding of lyric Italian diction, the international phonetic alphabet, and its application to classical singing. Required for freshmen BM voice majors. Offered fall only.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Voice

MUSC 1554 (1) English Diction
Designed for the understanding of lyric English diction, the international phonetic alphabet, and its application to classical singing as well as various musical styles of English classical voice literature. Required for Freshmen BM voice majors.
Requisites: Requires prerequisite course of MUSC 1544 (minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Voice

MUSC 1802 (3) Introduction to Musical Styles and Ideas
Introduces the study of musical traditions of the world; equips students with requisite skills for understanding and analyzing music as an art in historical and cultural contexts using an integrative approach that includes selected styles and genres, critical reading and writing skills and mastery of conceptual issues related to the discipline of music. Satisfies the World Music requirement for undergraduate students in the College of Music.
Requisites: Restricted to College of Music (MUSC) majors or graduate students only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Musicology

MUSC 2041 (1) Applications of Music Technology (5-week segment)
Explores the use of technology, software, applications, and tools in a variety of creative, performance, pedagogical, and entrepreneurial contexts. Addresses the opportunities and challenges posed by evolving technologies. Emphasizes project-oriented learning.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Grading Basis: Letter Grade

MUSC 2061 (3) Introduction to Music Technology
Surveys the various tools and techniques in the field of music technology. Topics include an introduction to basic synthesis, digital signal processing, MIDI and audio sequencing, music notation and a historical perspective on electronic music.
Equivalent - Duplicate Degree Credit Not Granted: MUEL 2061
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 2081 (2) Prepared for the Soundcheck
Provides an overview of the recording process from the performer's perspective from soundcheck through final mastering. Uses recorded material from in-class sessions. Examines differing approaches to recording as well as current technologies.
Equivalent - Duplicate Degree Credit Not Granted: CMDP 2860
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 2091 (2) Recording Techniques
Provides hands-on training in various audio recording techniques, acoustics and sound reinforcement, studio maintenance and troubleshooting. Real-world experience is gained through individual recording projects and College of Music events.
Requisites: Requires prerequisite course of MUSC 2081 or MUEL 2071 (minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 2101 (2) Semester 3 Theory
Continuation of MUSC 1111. Reviews harmonic and formal concepts from MUSC 1111. Introduces advanced chromatic concepts such as modal mixture, seventh chords with added dissonance, Neapolitan sixth chord and augmented-sixth chords. Explores in-depth structural analysis of musical works. Offered fall only.
Requisites: Requires prerequisite course of MUSC 1111 (minimum grade D-). Restricted to College of Music (MUSC) majors or graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 2103 (2) Introduction to Music Education
Introduces students to the broad range of skills and responsibilities inherent to the music education profession. Explores current topics in public school music teaching while developing teaching skills through supervised field experience. Offered fall only.
Requisites: Requires a prerequisite course of MUSC 1103 (minimum grade C-). Restricted to College of Music (MUSC) undergraduate students only.
Additional Information: Departmental Category: Music Education

MUSC 2111 (2) Semester 4 Theory
Continuation of MUSC 2101. Builds on and synthesizes harmonic, melodic and formal concepts from semesters 1-3. Includes writing about musical structure and analyzing relationships of musical structure to extramusical elements (such as text, performance technique, dance, staging, etc.). Introduces 20th century compositional techniques. Offered spring only.
Requisites: Requires prerequisite course of MUSC 2101 (minimum grade D-). Restricted to College of Music (MUSC) majors only.
Additional Information: Departmental Category: Theory and Composition

MUSC 2121 (1) Aural Skills Lab, Semester 3
Continuation of MUSC 1131. Applies concepts from MUSC 2101 in performance (prepared, from sight and improvised) and analytical listening (transcription, diction and aural analysis). Offered fall only.
Requisites: Requires prerequisite course of MUSC 1131 (minimum grade D-). Restricted to College of Music (MUSC) majors or graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 2131 (1) Aural Skills Lab, Semester 4
Continuation of MUSC 2121. Applies concepts from MUSC 2111 in performance (prepared, from sight and improvised) and analytical listening (transcription, dictation and aural analysis. Offered spring only.
Requisites: Requires prerequisite course of MUSC 2121 (minimum grade D-). Restricted to College of Music (MUSC) majors only.
Additional Information: Departmental Category: Theory and Composition

MUSC 2325 (2) Applied Harmony for the Keyboard
Provides an intensive study and application of the harmonic structure of music in a variety of keyboard skills: figured bass realization, chord progressions, harmonization, improvisation, transposition, on-sight harmonic analysis and playing by ear. Offered spring only.
Requisites: Requires prerequisite courses of MUSC 1111 and MUSC 1131 and MUSC 1325 (all minimum grade D-). Restricted to College of Music (MUSC) majors or graduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 2365 (2) Introduction to Accompanying
An overall study in the art of working with instrumentalists and singers including repertoire and orchestral reductions. Requires performance with a student instrumentalist or singer to be critiqued and coached by class and instructor. Offered spring only.
Requisites: Requires prerequisite course of MUSC 1325 (minimum grade D-). Restricted to College of Music (MUSC) undergraduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 2608 (1) Wellness for Musicians 1
Explores strategies that help musicians maintain health while achieving peak performance. Investigate and employ powerful somatic methodologies including Alexander Technique and Body Mapping that improve physical functioning and prevent injury. Incorporates a variety of wellness aspects such as performance psychology, mental health, effective exercise, nutrition, breathing, hearing and vocal health.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Interdepartmental Courses

MUSC 2772 (3) World Musics: Asia and Oceania
Highlights music in Asia and Oceania using current ethnomusicological materials.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Musicology

MUSC 2782 (3) World Musics: Africa, Europe, and the Americas
Use current ethnomusicological materials and methods in the study of music outside the Western art tradition. Usually taught in the spring, focuses on music cultures of Africa, Europe and the Americas.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Musicology

MUSC 2918 (2) Building Your Music Career
Develop a broad range of tools needed for a professional career in music. Topics include networking, development and use of promotional materials, funding, social media and the internet and financial management, among others - all taught through an entrepreneurial lens. A range of career opportunities is explored, using the entrepreneurial process to assess and explore a variety of paths and opportunities.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Music Entrepreneurship

MUSC 2988 (1) Introduction to Music Research
Introduces music research tools and basic writing skills to provide information fluency and skills necessary for successful composition of formal music research papers. Applies curricular goals to specific topics of students' choice.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Interdepartmental Courses

MUSC 2997 (1) Sophomore Proficiency
To be completed by the second semester of the sophomore year.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theses and Recitals

MUSC 3013 (1) String Class
For music education majors with choral/general emphasis. Develops basic performance skills on two or more string instruments. Addresses teaching strategies and other specialized topics related to string instruction. Offered fall only.
Requisites: Restricted to College of Music (MUSC) majors or graduate students only.
Additional Information: Departmental Category: Music Education

MUSC 3023 (1) Woodwind Class
For music education majors with choral or choral/general emphasis. Develops basic performance skills on two or more woodwind instruments. Addresses teaching strategies and other specialized topics related to beginning and intermediate woodwind instruction. Offered spring only.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Music Education

MUSC 3033 (1) Brass Class
For music education majors with choral or choral/general emphasis. Develops basic performance skills on two or more brass instruments. Addresses teaching strategies and other specialized topics related to beginning and intermediate brass instruction. Offered spring only.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Music Education

MUSC 3041 (2) Instrumentation and Arranging
Learn to create professional arrangements for a diverse combination of instruments and/or voices. The course will work through instrumentation, score and part preparation, and issues of orchestration to prepare music student to create successful arrangements for a wide range of concert music settings. Final arranging projects will be geared towards individual interests.
Requisites: Requires prerequisite course of MUSC 2101 and MUSC 2121 (all minimum grade C). Restricted to College of Music (MUSC) students only.

MUSC 3043 (1) Percussion Class
Provides an introduction to playing techniques and pedagogical principles necessary for music educators to teach young students, including general understanding of the techniques used in playing and teaching percussion instruments in the school music program. Required of all string, voice, choral and instrumental general track music education students. Offered fall only.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Grading Basis: Letter Grade

MUSC 3051 (2) Beginning Composition
Covers issues relating to the craft of musical composition with analysis and writing in various styles. This introductory course is designed for music majors who are not composition majors. Some of the assignments will be read in class. Offered spring term of even-numbered years.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 3061 (2) Jazz Improvisation I
Develops skills in jazz improvisation through practical application of harmonic concepts, melodic construction, rhythmic awareness, transcription, repertoire and analysis. Open to all instruments. Offered fall only.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Recommended: Prerequisite for non-jazz majors MUSC 2111.
Additional Information: Departmental Category: Theory and Composition

MUSC 3071 (2) Jazz Improvisation II
Continues and expands upon the material presented in MUSC 3061. Reinforcement of ability to create an improvised melody in a range of harmonic contexts including blues, bebop, modal jazz, free jazz, and other styles. Offered spring only.
Requisites: Requires prerequisite course of MUSC 3061 (minimum grade D-). Restricted to College of Music (MUSC) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 3081 (3) Jazz Theory and Aural Foundations 1
Presents the grammar and syntax of jazz. Helps to gain a greater understanding of the inner workings and application of chord progressions as they relate to the jazz idiom including major key harmony, secondary dominants, modal interchange and modulation. Students will demonstrate their understanding of these components through written assignments, singing, aural recognition, transcription and keyboard demonstration.
Requisites: Requires prerequisite courses of MUSC 1111 and MUSC 1131 and MUSC 3071 (all minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 3091 (3) Jazz Theory and Aural Foundations 2
Presents the grammar and syntax of jazz and is the second course of the sequence. Units of study include elements of form, harmonic substitution, reharmonization, non-standard forms and harmonic progressions. Post-tonal concepts as they relate to jazz are introduced as well as foundational studies in jazz rhythm. Aural studies of all theoretical material is integrated throughout the semester.
Requisites: Requires prerequisite course of MUSC 3081 (minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.

MUSC 3133 (2) Teaching General Music I
Provides an overview of general music teaching with emphasis on developmentally appropriate strategies and materials. Required for all music education majors as partial fulfillment of course work leading to K-12 music licensure. Offered spring only.
Requisites: Requires prerequisite course of MUSC 2103 (minimum grade C-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Music Education

MUSC 3153 (2) Teaching Woodwind Instruments
For music education majors with instrumental or instrumental/general emphasis. Develops basic performance skills on three or more woodwind instruments. Addresses teaching strategies and other specialized topics related to beginning and intermediate woodwind instruction. Offered spring only.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Music Education

MUSC 3163 (2) Teaching String Instruments
For music education majors with instrumental or instrumental/general emphasis. Develops basic performance skills on three or more string instruments. Addresses teaching strategies and other specialized topics related to beginning and intermediate string instruction. Offered fall only.
Requisites: Restricted to College of Music (MUSC) majors or graduate students only.
Additional Information: Departmental Category: Music Education

MUSC 3176 (2) Conducting 1
Introduces conducting and rehearsal techniques. Offered fall only.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Choral and Instrumental Music

MUSC 3186 (2) Conducting II
Introduces conducting and rehearsal techniques. Offered spring only.
Requisites: Requires prerequisite course of MUSC 3176 (minimum grade D-). Restricted to College of Music (MUSC) undergraduate students only.
Additional Information: Departmental Category: Choral and Instrumental Music

MUSC 3191 (2) Studio Recording Techniques
Introduces various aspects of studio recording techniques and explores the technical side of audio recording in the studio setting. Expands upon knowledge and skills learned in Recording Techniques (MUSC 2091).
Requisites: Prerequisite of Recording Techniques MUSC 2091. Restricted to College of Music (MUSCU) undergraduate students only.
Grading Basis: Letter Grade

MUSC 3193 (2) Vocal Pedagogy and Literature for Young Voices
Provides an overview of vocal anatomy/function, care of the voice, vocal repertoire, teaching strategies,and other specialized topics related to singing instruction in both private studio and public school choral settings. Fall section for instrumentalists; spring section for vocalists.
Requisites: Restricted to College of Music (MUSC) majors or graduate students only.
Additional Information: Departmental Category: Music Education

MUSC 3223 (2) Teaching Brass Instruments
For music education majors with instrumental or instrumental/general emphasis. Develops basic performance skills on three or more brass instruments. Addresses teaching strategies and other specialized topics related to beginning and intermediate brass instruction. Offered spring only.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Music Education

MUSC 3226 (1) Percussion Literature and Pedagogy for Undergraduate Percussion Majors
Explores, examines and analyzes percussion music, performance techniques and how to teach them through readings, discussion, analysis, extensive listening, and score study. The course is designed to meet the specific needs and requirements of the individual student.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Requires prerequisite course of MUSC 2997 (minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Grading Basis: Letter Grade

MUSC 3243 (2) Teaching Percussion Instruments
Provides an introduction to playing techniques and pedagogical principles necessary for music educators to teach young students, including general understanding of the techniques used in playing and teaching percussion instruments in the school music program. Required of all instrumental band and instrumental band-jazz track music education students. Offered fall only.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Grading Basis: Letter Grade

MUSC 3253 (2) Jazz Techniques for the Music Educator
Prepares the music educator for successful experiences teaching jazz at the secondary level. Students gain insights into performance and rehearsal techniques for the instrumental jazz ensemble. Explores approaches for teaching jazz theory, improvisation, and selecting literature for young students. Own instrument required for certain classes. Offered spring only.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Recommended: Prerequisites MUSC 1111 and MUSC 2103.
Additional Information: Departmental Category: Music Education

MUSC 3256 (2) Guitar Pedagogy
Survey and develop appropriate teaching materials and techniques; learn how to identify and address the most common technical problems experienced by guitar students; create strategies for how to avoid the development of problems in guitar beginners.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Grading Basis: Letter Grade

MUSC 3273 (2) String Pedagogy and Literature
Examines instructional methods/materials and pedagogical approaches appropriate for beginning to advanced string students in private studio, small ensemble, or large ensemble contexts. Topics may include group teaching strategies, as well as contemporary approaches including Rolland and Suzuki. Offered spring only.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Recommended: Prerequisites MUSC 2103 and MUSC 3163.
Additional Information: Departmental Category: Music Education

MUSC 3345 (2) Piano Pedagogy 1
Discusses teaching philosophies, objectives, and procedures. Examines and evaluates methods and materials. Studies practical aspects with which the private teacher is concerned. Offered fall of even-numbered years.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 3355 (2) Piano Pedagogy 2
Materials and techniques for teaching piano with a focus on the intermediate level student. Offered only in spring of odd-numbered years.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 3363 (2) Marching Band Techniques
Helps develop the skills needed to administer and teach all aspects of a contemporary high school marching band. Includes drill conception and design, instruction, organization, and administration. Offered fall only.
Requisites: Requires prerequisite course of MUSC 2103 and EMUS 1287 or EMUS 3287 (all minimum grade D-). Restricted to College of Music (MUSCU) majors or graduate students only.
Additional Information: Departmental Category: Music Education

MUSC 3444 (1) French Diction
Designed for the understanding of lyric French diction, the international phonetic alphabet, and its application to classical singing, as well as various musical styles of French classical vocal literature. Required of Junior BM voice majors.
Requisites: Requires prerequisite course of MUSC 1554 (minimum grade D-). Restricted to College of Music (MUSCU) majors or graduate students only.
Recommended: Prerequisite MUSC 3464.
Additional Information: Departmental Category: Voice

MUSC 3464 (1) German Diction
Designed for the understanding of lyric German diction, the international phonetic alphabet, and its application to classical singing, as well as various musical styles of German classical vocal literature. Required of sophomore BM voice majors.
Requisites: Requires prerequisite course of MUSC 1554 (minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Voice

MUSC 3642 (3) History of Jazz 1
Utilizing musical examples and analysis, this course studies the distinctly American art form of jazz music from its origins up to the 1950's, including the various traditions, practices, historical events and people most important to its evolution. Offered fall only.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Musicology

MUSC 3652 (3) History of Jazz 2
Utilizing musical examples and analysis, this course studies the distinctly American art form of jazz music from the 1950's to the present, including the various traditions, practices, historical events and people most important to its evolution. Offered spring only.
Requisites: Requires a prerequisite course of MUSC 3642 (minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Grading Basis: Letter Grade

MUSC 3772 (3) West African Music and Culture in Ghana
Provides hands-on and experiential enrichment for students to interact at several levels with a local community in Ghana. Classroom lectures will be combined with direct participation in drumming and dancing, field trips to participate in festivals and court ceremonies, field trips to kente weaving village, adinkra cloth making, wood carving villages, and museums.
Equivalent - Duplicate Degree Credit Not Granted: MUEL 3772
Requisites: Requires prerequisite courses of MUSC 2782 and MUEL 2772 (all minimum grade D-). Restricted to students with 27-56 credits (Sophomore) non-College of Music majors only.
Additional Information: Departmental Category: Musicology

MUSC 3802 (3) History of Western Music 1
Surveys Western art music with stylistic analysis of representative works from all major periods through the Baroque. See also MUSC 3812.
Requisites: Requires prerequisite course of MUSC 1111 or MUSC 3091 (minimum grade D-). Restricted to College of Music (MUSC) undergraduate students only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Musicology

MUSC 3812 (3) History of Western Music 2
Surveys Western art music with stylistic analysis of representative works from all major periods after the Baroque. See also MUSC 3802.
Requisites: Requires prerequisite course of MUSC 1111 (minimum grade D-). Restricted to College of Music (MUSC) undergraduate students only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Musicology

MUSC 3997 (1) Junior Recital
To be completed by the second semester of the junior year.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Requires prerequisite course of MUSC 2997. Restricted to College of Music (MUSC) undergraduate students only.
Additional Information: Departmental Category: Theses and Recitals

MUSC 4001 (2) New Musical Styles and Practices
Explores a variety of music from the 20th and 21st centuries beginning with Stravinsky and moving through current trends. Involves a mix an analysis/exploration of this music with short composition assignments imitating the different styles. Offered spring of odd-numbered years.
Requisites: Requires prerequisite courses of MUSC 2111 and MUSC 2131 (all minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 4011 (2) 16th Century Counterpoint
Provides a stylistic study of the main contrapuntal genres of the period including free, two- and three-part imitative counterpoint in the style of Palestrina. Provides a foundation in species counterpoint, working towards free counterpoint; stresses composing in 16th century styles. Offered fall of even-numbered years.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5011
Requisites: Requires prerequisite courses of MUSC 2111 and MUSC 2131 (all minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 4012 (3) African Music
Studies music cultures of Africa and the Black Diaspora, including folk and art music traditions, religious and popular music genres. Specific course topics could cover any or all of these styles, including exploring interconnections of musical stylistics of Africa and the Black Diaspora.
Equivalent - Duplicate Degree Credit Not Granted: MUEL 4012 and MUSC 5012
Requisites: Requires prerequisite course of MUSC 1802 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.
Additional Information: Departmental Category: Musicology

MUSC 4021 (2) 18th Century Counterpoint
Provides a stylistic study of main contrapuntal genres of the period including inventions, suite movements and fugues. Provides a foundation in species counterpoint; stresses analysis and composing in the style. Offered fall only.
Requisites: Requires prerequisite courses of MUSC 2111 and MUSC 2131 (all minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 4031 (2) Jazz Arranging 1
Study of notation, score layout, transpositions, basic harmonic and melodic analysis, basic chord voicings, and composition for a small and large jazz ensemble. Use of notation software such as Finale or Sibelius. Offered fall semester only.
Requisites: Requires prerequisite course of MUSC 3091 (minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 4034 (3) Musical Theatre History 1 - Antecedents through Musical Comedy
Introduces musical theatre using historical and cultural contexts. Topics cover the social and historical elements inherent in the development of the Broadway Musical Theatre. Students will evaluate and compare a variety of musicals and their antecedents from the 19th Century to the era of Musical Comedy, including minstrel shows, vaudeville, operetta, burlesque, variety shows and musical revues.
Requisites: Restricted to BFA Musical Theatre and BM Musical Theatre students only.
Grading Basis: Letter Grade

MUSC 4041 (2) Orchestration
Studies advanced orchestration techniques through score analysis and student projects. Offered fall of odd-numbered years.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 4044 (3) American Musical Theatre History 2 - Golden Age to Contemporary
Continues to investigate Musical Theatre within its historical and cultural contexts, analyzing the cultural influence it has had on society. Students will evaluate and compare musicals from the start of the Golden Age to the modern era including Rock, Popsical, Jukebox, and Contemporary styles. This course is a continuation of Musical Theatre History 1.
Requisites: Restricted to Musical Theatre (MMTH-BMUS) students only.
Grading Basis: Letter Grade

MUSC 4061 (2) Tonal Analysis
Surveys tonal analytical techniques and forms of tonal music, including binary forms, ternary forms, rondo (and others) through study of selected works. Offered spring only.
Requisites: Requires prerequisite courses of MUSC 2111 and MUSC 2131 (all minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 4071 (2) Post-Tonal Theory and Analysis
Focuses on theory and analysis of post-tonal literature pre-1945. Offered fall of odd-numbered years.
Requisites: Requires prerequisite courses of MUSC 2111 and MUSC 2131 (all minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 4078 (1) Piano Technician for Pianists
Familiarizes pianists with the development of the modern grand piano, its construction and the proper terminology of parts and specifications. Trains pianists in minor repairs and adjustments of the grand piano action and in minor tuning tasks.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5078
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Recommended: Prerequisite piano majors.
Additional Information: Departmental Category: Interdepartmental Courses

MUSC 4091 (2) Jazz Arranging 2
Continuation and expansion of studies in MUSC 4031. Survey and analysis of major composers and arrangers of the idiom. Course focuses on creating several arranging projects for a jazz ensembles. Offered spring of odd-numbered years.
Requisites: Requires prerequisite course of MUSC 4031 (minimum grade D-). Restricted to College of Music undergraduate students only.
Recommended: Prerequisite MUSC 3081.
Additional Information: Departmental Category: Theory and Composition

MUSC 4101 (1-3) Theory and Aural Skills Review
Reviews tonal harmony, voice leading, and essential aural skills. Prepares graduate students for more advanced work in music theory. Students may register for aural skills only (1 credit), theory only (2 credits) or both theory and aural skills (3 credits). May not be taken pass/fail. Aural skills section offered fall and spring. Theory section offered spring.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 4103 (1) Introduction to Student Teaching
Represents the first half of the professional internship year. Familiarizes students with the schools and music programs in which they plan to student teach. Music placements may consist of elementary and high school, elementary and middle school, or middle school and high school.
Requisites: Requires a prerequisite course of MUSC 4113 or MUSC 4313 or MUSC 4443 (minimum grade C-). Restricted to College of Music undergraduate students only.
Additional Information: Departmental Category: Music Education

MUSC 4106 (2) Guitar Literature
An analytical and historical survey of the repertory of the guitar and its antecedents from the renaissance to the present day.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5106
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Choral and Instrumental Music

MUSC 4111 (2) Composing at the Computer
Discover strategies and techniques for generating and manipulating sound at the computer. Student projects will include compositions, soundscapes, ambient environments and soundtracks for multimedia. Available to students without prior experience with computer music or composition. Offered fall of odd-numbered years.
Requisites: Requires prerequisite course of MUSC 2061 (minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 4112 (3) Ethnomusicology
Examines the definition, scope, and methods of ethnomusicology, the discipline that focuses on approaches to the study of music theory, history, and performance practices of world cultures.
Requisites: Requires prerequisite course of MUSC 1802 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.
Additional Information: Departmental Category: Musicology

MUSC 4113 (3) Teaching General Music 2
Provides an in-depth examination of teaching and learning processes in the elementary general music classroom, based on the integration of child development and musical development theories with content and delivery skills appropriate for K-5 general music classrooms. Students implement and evaluate music instruction, design curricular projects, and build a repertoire of vocal, instrumental and speech-based arrangements. Offered fall of odd-numbered years.
Requisites: Requires prerequisite course of MUSC 2103 (minimum grade C-). Restricted to College of Music (MUSC) undergraduate students only.
Additional Information: Departmental Category: Music Education

MUSC 4121 (3) Topics in Music Technology
Exploration of issues, techniques, and tools of music technology. Topics vary from term to term and may include: interactive systems for performance; teaching and learning; computer music instrument design; digital synthesis and signal processing; music in intermedia, sound design and analysis. Lectures on work sessions will support student projects.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course of MUSC 2061 (minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 4122 (3) Music in Jewish Culture
Introduces students to a wide range of musical styles, traditions, genres, performers, composers, events and works that are part of Jewish culture, focusing on the twentieth and twenty-first centuries. Provides tools for understanding music on its own and in connection with issues of identity, diaspora, memory and liturgy. Includes opportunities for creative and critical engagement with Jewish music.
Equivalent - Duplicate Degree Credit Not Granted: JWST 4122
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Musicology

MUSC 4133 (3) Student Teaching Practicum
Offers practice teaching under the guidance of a master music teacher.
Requisites: Requires prerequisite course of MUSC 4103 (minimum grade C-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Music Education

MUSC 4141 (2) Instrument Design Lab: Sound, Perception & Creativity
Explores fundamental physical concepts of sound and music in a hands-on laboratory environment. Surveys a number of topics such as tuning, temperament, harmony and timbre through the construction of PVC overtone flutes, an investigation in the timbral intention of Dolly Parton's vocal technique, physical modeling through the testing of 3D-printed vowel flutes, the construction of a "Long String Instrument," and more. The course culminates in each student inventing, designing, and demonstrating their own new instrument.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5141
Requisites: Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.
Grading Basis: Letter Grade

MUSC 4142 (3) American Indian Music
Examines Native North American musical cultures, emphasizing music as an integral part of religious expression and community life.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5142
Requisites: Requires prerequisite course of MUSC 1802 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.
Additional Information: Departmental Category: Musicology

MUSC 4143 (2) Topics in Choral Music Education
Prepares students to teach, conduct and facilitate music making in various choral ensembles. Examines skills, teaching techniques and administrative procedures necessary for developing and maintaining various choirs at the elementary through high school levels. Includes discussion of current topics in choral music education and community choral field experiences. Offered fall terms, every two years.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5143
Requisites: Requires prerequisite course of MUSC 2103 (minimum grade C-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Music Education

MUSC 4151 (2) Topics in Music Analysis
Examines critically a specific topic or repertory, such as Song Analysis or Music of Brahms. Uses readings and analyses, with grades to be determined from reading responses, analytical assignments and writing. Offered fall of even-numbered years.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite courses of MUSC 2111 and MUSC 2131
Grading Basis: Letter Grade
Additional Information: Departmental Category: Theory and Composition

MUSC 4152 (3) East Asian Music
Surveys the development of music in Japan, China and Korea through the in-depth study of particular styles of traditional music. The course emphasizes the study of music and culture, particularly music's relationship to religion, politics, language, literature, dance and theatre.
Requisites: Requires prerequisite course of MUSC 1802 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.
Additional Information: Departmental Category: Musicology
Departmental Category: Asia Content

MUSC 4153 (1) Percussion Class and Pedagogy
Required of all music education majors. Presents knowledge and skills necessary for music educators to teach young students, including a general understanding of the techniques used in playing and teaching percussion instruments in the school music program. Offered fall only.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Music Education

MUSC 4161 (2) Advanced Jazz Composition and Analysis
Provides in depth listening, score study, and analysis, exploring major composers in jazz and their innovations in composition. "Foundational" topics concerning melody, form, and orchestration are studied to provide a framework for further analysis. Influences of western art music, American folk and popular music considered. Final projects to be performed and recorded by a CU jazz ensemble.
Requisites: Requires prerequisite of MUSC 3091 and MUSC 3081 (all minimum grade D-). Restricted to College of Music (MUSC) undergraduate students only.
Grading Basis: Letter Grade

MUSC 4163 (2) Choral Literature for School Ensembles
Examination of literature, materials, and methods appropriate for teaching choral music in secondary schools. Offered fall of odd-numbered years.
Requisites: Requires prerequisite course of MUSC 2103 (minimum grade C-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Music Education

MUSC 4168 (3) World Music Theories
Examines music rules, concepts or music theories and sociocultural elements that musicians use in creating musical sound, with emphasis on music practices from a variety of world traditions; observing shared and diverging principles, making cross-cultural comparisons and developing a new pedagogy that supports the substantive study of global musics.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5168
Requisites: Requires prerequisite course of MUSC 1802 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.
Recommended: Prerequisite MUSC 1802 or MUSC 2772 or MUSC 2782 or MUSC 4112.
Additional Information: Departmental Category: Theory and Composition

MUSC 4171 (2) Advanced Jazz Improvisation and Analysis
Surveys important jazz improvisers and their historical context. Students engage in multiple methods of transcription and analysis. Listening plays a central role throughout the course and class discussions will foster the ability to engage in critical analysis of performances. The final project is an in-depth transcription of analysis of an improvisation.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Requires prerequisite of MUSC 3081 and MUSC 3091 (all minimum grade D-). Restricted to College of Music (MUSC) undergraduate students only.
Grading Basis: Letter Grade

MUSC 4176 (2) Conducting 3
This is a study in advanced conducting techniques. Demonstration of advanced score study techniques as well as the application to gesture and rehearsal techniques linked with conducting will be explored. Participation fully in discussion readings and contribute to the learning of all is expected.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5176
Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of MUSC 3186 (minimum grade B-). Restricted to College of Music undergraduates majoring in Music Education (MUSE) only.
Grading Basis: Letter Grade

MUSC 4191 (2) Advanced Recording
Study of advanced recording techniques and concepts beyond those covered in MUSC 2091 involving multiplemicrophones for ensemble concerts and recording sessions within and outside of the College of Music. Offered spring of even-numbered years.
Requisites: Requires prerequisite course of MUSC 2091 (minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 4193 (1) Student Teaching Seminar
Required for all music student teachers. Addresses topics of concern to beginning teachers including classroom management, interpersonal skills, legal issues, job search strategies and capstone project development.
Requisites: Requires prerequisite course of MUSC 4103 (minimum grade C-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Music Education

MUSC 4202 (3) Special Topic in Musicology: Current and Critical Issues
Examination of a specific topic of current or critical interest within areas of music history, ethnomusicology, critical theoryand practice across the spectrum of Western, Popular and World Music traditions. Designed as a capstone course for music majors who have completed a full complement of musicology courses. Topics vary from term to term. Instructor consent is required for non-music majors.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course of MUSC 1802 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Musicology

MUSC 4203 (1) Music Methods Practicum
Provides students with opportunities to observe and practice the use of various teaching techniques and relate them to concepts presented in the methods course. Students consult with the instructor to determine appropriate placements in schools.
Requisites: Requires prerequisite course of MUSC 2103 (minimum grade C-). Requires corequisite course of MUSC 4313 or MUSC 4443. Restricted to College of Music (MUSC) undergraduate students only.
Additional Information: Departmental Category: Music Education

MUSC 4223 (2) Secondary Music Teaching Approaches
Prepares students to teach and facilitate musical learning in non-performance secondary music classes. Includes units on music technology, music theory, music appreciation and class guitar. Connects experiential components to strategies for teaching and project design for middle and high school classrooms. Offered fall only.
Requisites: Requires a prerequisite course of MUSC 2103 (minimum grade D-).
Grading Basis: Letter Grade

MUSC 4313 (3) Teaching Choral Music
Examines choral music curricula, instructional materials and teaching techniques appropriate for secondary choral settings. Also addresses administrative strategies for choral music programs. Offered spring only.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5313
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Recommended: Prerequisite MUSC 2103.
Additional Information: Departmental Category: Music Education

MUSC 4323 (3) Differentiating Instruction in K-8 Music Classrooms
Designed to focus on differentiating and individualizing instruction for K-8 music students representing diverse cultural, linguistic, and ability backgrounds. Includes developmental and practical orientations to pedagogical issues including planning, instruction and assessment. Emphasizes evidence-based teaching practices and programmatic interventions that support student learning and engagement in music instruction.
Requisites: Requires a prerequisite course of MUSC 2103 (minimum grade D-). Restricted to College of Music (MUSC) majors or graduate students only.
Grading Basis: Letter Grade

MUSC 4325 (2) Keyboard Literature 1
Surveys keyboard music from 1600 to 1830. Offered fall semester of even-numbered years.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 4335 (2) Keyboard Literature 2
Surveys keyboard music from 1830 to the present. Offered spring semester of even-numbered years.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 4336 (2) Brass Pedagogy
Analyzes pedagogical techniques and philosophies of teaching brass instruments, and examines materials. Offered every other spring terms.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5336
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Grading Basis: Letter Grade

MUSC 4346 (2) Woodwind Pedagogy
Analyzes pedagogical techniques and philosophies of teaching wind instruments, and examines materials. Offered every other spring term.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5346
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Grading Basis: Letter Grade

MUSC 4405 (2) Basso-Continuo Accompaniment
Studies the history, theory and practice of Basso-continuo accompaniment. Provides practical instruction in realizing harmony from a given bass line (figured or unfigured), projecting affect and creating dynamics at the harpsichord. Emphasizes individual cognition and creativity.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5405
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 4415 (2) Advanced Basso Continuo
Explores advanced basso continuo, serving as more in depth study for those who have completed or tested out of Basso-Continuo Accompaniment (MUSC 4405).
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5415
Requisites: Prerequisite of MUSC 4405. Restricted to College of Music (MUSCU) undergraduate students.

MUSC 4443 (3) Teaching Instrumental Music
Examines instrumental music curricula, instructional materials and teaching techniques appropriate for rehearsal, class, and lesson settings. Also addresses administration strategies for instrumental music programs. Offered spring only.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5443
Requisites: Requires prerequisite course of MUSC 2103 (minimum grade C-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Music Education

MUSC 4608 (1) Wellness for Musicians 2
Develops and further integrates material covered in Wellness for Musicians 1. Deeper exploration of somatic and wide-ranging wellness strategies, including FM Alexander¿s conception of Inhibition and other approaches for proactive self-care and improvement. Consideration of how to integrate methodologies in teaching, pedagogy, and practice. Students will complete several projects related to their specific musical pursuits and interests.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5808
Repeatable: Repeatable for up to 2.00 total credit hours.
Requisites: Requires prerequisite course of MUSC 2608 (minimum grade C-). Restricted to College of Music undergraduate students only.
Additional Information: Departmental Category: Interdepartmental Courses

MUSC 4666 (3) Chamber Music Lit WW/Prc
Repeatable: Repeatable for up to 12.00 total credit hours.
Additional Information: Departmental Category: Choral and Instrumental Music

MUSC 4712 (3) Renaissance Music
Provides a repertory and analysis of polyphonic music, 1400-1600.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5712
Requisites: Requires prerequisite courses of MUSC 1802 and MUSC 3802 (all minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.
Additional Information: Departmental Category: Musicology

MUSC 4752 (3) Women in Music
Examines the role of women as creators and performers of Western Music. Explores related issues in musicology, including canon formation, reception history and feminist aesthetics.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5752
Requisites: Requires prerequisite course of MUSC 1802 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.
Additional Information: Departmental Category: Musicology

MUSC 4772 (3) History of Opera
Examines representative operas from the 17th through the 21st centuries. Emphasizes both cultural and analytical aspects and surveys related musicological literature.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5772
Requisites: Requires prerequisite courses of MUSC 1802 and MUSC 3802 or MUSC 3812 (all minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.
Additional Information: Departmental Category: Musicology

MUSC 4802 (3) Studies in 20th Century Music
Offers intensified work in history of music in the 20th century. Topics vary from year to year.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5802
Requisites: Requires prerequisite courses of MUSC 1802 and MUSC 3812 (all minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.
Additional Information: Departmental Category: Musicology

MUSC 4808 (1-3) Internship in Music Industry
Provides an opportunity for music majors to gain real world experience in a professional music organization outside of the CU Boulder academic environment and to engage with music industry organizations in the community (for profit or non-profit) while pursuing specific tasks or projects relevant to the student's career goals.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

MUSC 4852 (3) 17th and Early 18th Century Music
Examines music and writings about music from the Baroque era. Emphasizes cultural and musical analysis and surveys current musicological literature.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5852
Requisites: Requires prerequisite courses of MUSC 1802 and MUSC 3802 (all minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.
Additional Information: Departmental Category: Musicology

MUSC 4862 (3) African American Music
Examines the sacred and secular genres of Black American music from folk spirituals to contemporary gospel and hip-hop in their cultural and historical contexts. Examines individual composers and performers in specific historical contexts in order to understand the meanings behind certain Black musical stylistics, sound ideals and aesthetic preferences. Formerly MUSC 2802.
Requisites: Requires prerequisite course of MUSC 1802 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.
Additional Information: Departmental Category: Musicology

MUSC 4872 (3) Late 18th and 19th Century Music
Studies European and American music from the last developments of the styles through romanticism and its later 19th century reverberations.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5872
Requisites: Requires prerequisite courses of MUSC 1802 and MUSC 3812 (all minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.
Additional Information: Departmental Category: Musicology

MUSC 4892 (3) Latin American Music
Explores music of cultures of the Americas south of the United States and in the diaspora, emphasizing the relationships of music and culture in folk, popular and arts styles.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5892
Requisites: Requires prerequisite course of MUSC 1802 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.
Additional Information: Departmental Category: Musicology

MUSC 4908 (1-3) Arts Administration Internship
Engage with music/music business organizations in the community (for profit or non-profit) to pursue specific tasks or projects relevant to the student's career goals. A minimum of 48 hours is required per semester for one credit.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5908
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Music Entrepreneurship

MUSC 4957 (1-4) Senior Thesis
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Theses and Recitals

MUSC 4958 (2) Community Performances
Explore the real-world issues of planning and presenting concerts. Learn to program music for all types of audiences, gain confidence speaking about your music and handle the logistics of concert production. Discuss the role of concerts in the 21st century and examine new styles of presentation, audience engagement and outreach. Course culminates in a concert presented in a local venue.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5958
Requisites: Requires prerequisite course of MUSC 2918 (minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Music Entrepreneurship

MUSC 4968 (3) Management and Leadership in the Arts
Focus on management, leadership, and communication strategies and their application to arts organizations. Concepts and approaches for leaders of small, medium, and large arts organizations in both the for-profit and nonprofit sectors, including human resource management, problem solving, and effective communication will be examined. Students will practice and refine their written communication skills by writing clearly and concisely throughout the course.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5938
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Grading Basis: Letter Grade

MUSC 4978 (3) Introduction to Arts Administration
Introduce students to current trends in arts administration, explore the fundamentals of managing arts organizations and develop concrete tools for managing boards, volunteers and staff, effective fund raising, strategic planning and program development. Current issues, the role of the arts and arts advocacy will be discussed.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5978
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Music Entrepreneurship

MUSC 4988 (3) The Entrepreneurial Artist
Learn the core principles of entrepreneurship, such as idea formation, venture models, opportunity assessment, market analysis and strategies for launching a venture and apply them to entrepreneurial ideas. Lectures, projects, entrepreneur interviews and case studies will culminate in a feasibility study for an original entrepreneurial concept.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 5988
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Recommended: Prerequisite MUSC 2918.
Additional Information: Departmental Category: Music Entrepreneurship

MUSC 4997 (1) Senior Recital
To be completed by the second semester of the senior year.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Requires prerequisite class of MUSC 3997 (minimum grade D-). Restricted to College of Music undergraduate students only.
Additional Information: Departmental Category: Theses and Recitals

MUSC 4998 (1) Music Entrepreneurship Certificate Capstone
Completes the Certificate in Music Entrepreneurship. Students will develop an art-based entrepreneurial concept, engage in customer discovery, refine their business model, create a marketing plan, research relevant intellectual property issues, and complete a business model canvas for their venture.
Requisites: Requires prerequisite courses of MUSC 2918, 4988, BUSM 2001 and BUSM 4001 (min. grade D-). Restricted to senior (90-180 credits) College of Music (MUSCU) majors.
Grading Basis: Letter Grade

MUSC 5002 (3) Proseminar in Historical Musicology
Prepares students to pursue independent research in the history of music. Meeting as a seminar, the course focuses on the nature of evidence, methods and tools of research, and theoretical or historiographic issues.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5011 (2) 16th Century Counterpoint
Provides a stylistic study of the main contrapuntal genres of the period including free, two- and three-part imitative counterpoint in the style of Palestrina. Provides a foundation in species counterpoint, working towards free counterpoint; stresses composing in 16th century styles. Offered fall of even-numbered years.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4011
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 5012 (3) African Music
Studies music cultures of Africa and the Black Diaspora, including folk and art music traditions, religious and popular music genres. Specific course topics could cover any or all of these styles, including exploring interconnections of musical stylistics of Africa and the Black Diaspora.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4012 and MUEL 4012
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5021 (2) 18th Century Counterpoint
Provides a stylistic study of main contrapuntal genres of the period including inventions, suite movements and fugues. Provides a foundation in species counterpoint; stresses analysis and composing in the styles. Offered fall terms only.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 5026 (2) Percussion Literature
In-depth investigation of major original solo works for percussion, significant ensemble literature including chamber and large ensembles, and selected transcriptions. Offered fall semester of even numbered years.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Choral and Instrumental Music

MUSC 5036 (2) Brass Literature
Investigates major original solo works for trumpet, horn, trombone, euphonium, and tuba, and ensemble literature including chamber and large settings. Offered every other spring term.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Choral and Instrumental Music

MUSC 5041 (3) Advanced Orchestration
Provides an advanced study of orchestration techniques through score analysis and student projects. Offered spring of even-numbered years.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 5061 (3) Advanced Tonal Analysis
Surveys tonal repertory and analytical techniques. Student must have passed general written theory and aural skills preliminary exam or completed remediation before enrolling in course.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 5071 (3) Post-tonal Theory and Analysis I
Focuses on theory and analysis of post-tonal literature pre-1945. Student must have passed general written theory and aural skills preliminary exam or completed remediation before enrolling in course.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 5078 (1) Piano Technician for Pianists
Familiarizes pianists with the development of the modern grand piano, its construction and the proper terminology of parts and specifications. Trains pianists in minor repairs and adjustments of the grand piano action and in minor tuning tasks.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4078
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Recommended: Prerequisite piano majors.
Additional Information: Departmental Category: Interdepartmental Courses

MUSC 5081 (3) Applications in Music Technology
Presents advanced strategies for applying computer technology in music creation. Synthesis, DSP, MIDI and audio sequencing, as well as advanced music engraving, will be explored through the use of various software platforms including Logic, Reason, MAX and Finale. Offered fall term only.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 5091 (3) Contemporary Theory - Jazz and Modal Music
Studies the composition and improvisation of Herbie Hancock, Wayne Shorter, Chick Corea and their contemporaries. Broadly examines modality in jazz and its similarities to music of Ravel and Debussy, as well as systems of organization in Messiaen and others. Strategies for analysis and integration of the material into a personal vocabulary as a composer and improviser are explored. Offered spring of even-numbered years.
Requisites: Requires prerequisite course of MUSC 3081 (minimum grade D-). Restricted to College of Music (MUSC) graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 5103 (3) Teaching General Music
Provides an in-depth examination of teaching and learning processes in the elementary general music classroom, based on the integration of child development and musical development theories with content and delivery skills appropriate for K-5 general music classrooms. Students implement and evaluate music instruction, design curricular projects, and build a repertoire of vocal, instrumental, and speech-based arrangements. Offered fall of odd-numbered years.
Requisites: Restricted to Music (MUSD) or Music Education (MMED or MUED) graduate students only.
Additional Information: Departmental Category: Music Education

MUSC 5112 (3) Proseminar in Ethnomusicology
Examines the definition, scope, and methods of ethnomusicology, the discipline that focuses on approaches to the study of music theory, history, and performance practices of world cultures.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5121 (3) Advanced Topics in Music Technology
Conducts advanced research in techniques and tools of music technology. Topics vary from term to term and may include: user interfaces for computer music; advanced sound design; digital modeling of acoustic sounds; computer-aided analysis of sound; modeling music intelligence in real time. Lectures and work sessions will support student projects.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course of MUSC 5081 (minimum grade D-). Restricted to College of Music (MUSC) graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 5136 (2) Advanced Conducting
Offers advanced work in conducting.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Choral and Instrumental Music

MUSC 5141 (2) Instrument Design Lab: Sound, Perception & Creativity
Explore fundamental physical concepts of sound and music in a hands-on laboratory environment. Survey a number of topics through the construction of PVC overtone flutes, an investigation in the timbral intention of Dolly Parton's vocal technique, physical modeling through the testing of 3D-printed vowel flutes, the construction of a "Long String Instrument," and more. Specific topics include: tuning and temperament, harmony and timbre, and preparing the piano (digital and analog).
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4141
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Grading Basis: Letter Grade

MUSC 5142 (3) American Indian Music
Examines Native North American musical cultures, emphasizing music as an integral part of religious expression and community life.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4142
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5143 (2) Topics in Choral Music Education
Prepares students to teach, conduct and facilitate music making in various choral ensembles. Examines skills, teaching techniques and administrative procedures necessary for developing and maintaining various choirs at the elementary through high school levels. Includes discussion of current topics in choral music education and community choral field experiences. Offered fall terms, every two years.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4143
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Music Education

MUSC 5151 (3) Topics in Music Analysis
Analytical study of a specific topic to be determined by the instructor (e.g., German Lieder, Bartok quartets, tonal rhythm, Schenker, etc). Study published analyses representing a variety of methodologies and produce original analyses. Student must have passed graduate preliminary exams or completed remediation before enrolling in this course.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Recommended: Prerequisite MUSC 5061 or MUSC 5071 as appropriate to the topic, or instructor consent required.
Additional Information: Departmental Category: Theory and Composition

MUSC 5153 (1) Advanced Topics in K-12 Music Pedagogy
Examines the literature, skills, and pedagogical applications of selected topics applicable to all K-12 Music Educators such as curriculum, music listening, and composition.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to Music Education (MMED-MMUE) students only.
Grading Basis: Letter Grade

MUSC 5156 (2) Symposium in Choral Music
Provides an advanced study of choral repertoire by style period. Required of all choral graduate students for a minimum of two semesters.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Choral and Instrumental Music

MUSC 5163 (1) Advanced Topics in Secondary Choral Music Education Pedagogy
Examines the literature, skills, and pedagogical applications of selected topics in choral music classrooms, such as adolescent vocal development, vocal jazz ensemble directing, and development of piano skills.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Grading Basis: Letter Grade

MUSC 5168 (3) World Music Theories
Examines music rules, concepts or music theories and sociocultural elements that musicians use in creating musical sound, with emphasis on music practices from a variety of world traditions; observing shared and diverging principles, making cross-cultural comparisons and developing a new pedagogy that supports the substantive study of global musics.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4168
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 5173 (1) Advanced Instrumental Techniques and Pedagogy
Reviews and expands knowledge of brass, woodwind, percussion, or string instrumental techniques and pedagogical tools, extending upon skills gained in a typical introductory class teachers complete prior to licensure. Students complete a project based on synthesizing new pedagogical resources and materials. Intended for music educators who teach in K-12 school settings.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to Music Education (MMED-MMUE) students only.
Grading Basis: Letter Grade

MUSC 5176 (2) Conducting 3
This is a study in advanced conducting techniques. Demonstration of advanced score study techniques as well as the application to gesture and rehearsal techniques linked with conducting will be explored. Participation fully in discussion readings and contribute to the learning of all is expected.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4176
Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Music Education (MMED) graduate students only.
Grading Basis: Letter Grade

MUSC 5183 (2) Research in Music Teaching
Introduces basic descriptive, experimental, and qualitative research methods, including sampling, design, data collection, and analysis. Students review published music research and conduct one original research study. Offered fall of odd-numbered years.
Requisites: Restricted to Music (MUSD) or Music Education (MMED or MUED) graduate students only.
Additional Information: Departmental Category: Music Education

MUSC 5203 (2) Topics in Music Education
Provides an in-depth examination of contemporary topics in music education. Students implement and design relevant projects.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Music Education

MUSC 5215 (1-2) Studies in Piano Teaching
Studies the practical aspects and techniques for teaching piano at the intermediate and advanced levels in pre-college and college settings, as well as teaching group piano at the college level.
Repeatable: Repeatable for up to 2.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Recommended: Prereqsuisites: MUSC 5305 and MUSC 5315.
Additional Information: Departmental Category: Keyboard

MUSC 5246 (3) Jazz Improvisation and Analysis
Application of performance skills for the advanced improviser through specific harmonic, melodic and rhythmic techniques. Also includes analysis of transcriptions and varied harmonic contexts as well as a focus on the development of repertoire. Offered fall semester of odd-numbered years. Requires prerequisite course or instructor consent.
Requisites: Requires prerequisite course of MUSC 3071 (minimum grade D-). Restricted to Music (MUSC) graduate students only.
Additional Information: Departmental Category: Choral and Instrumental Music

MUSC 5256 (3) Jazz Studies Administration and Pedagogy
Surveys approaches, techniques, philosophies and materials available for teaching jazz at both pre-college and collegiate level. Subject areas covered include improvisation, composition and arranging, studio teaching and directing ensembles. Studies the organization and administration of collegiate jazz programs. Topic include curriculum, program philosophy, teaching techniques, funding, teacher training and evaluation. Offered fall terms of even-numbered years.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Recommended: Prerequisite MUSC 3253.
Additional Information: Departmental Category: Choral and Instrumental Music

MUSC 5273 (2) Comprehensive String Pedagogy
Comparative study and application of the principles of string teaching. In-depth analysis of individual instrument pedagogy and application to advanced studio and class teaching. Historical survey of major violin, viola, cello, and double bass pedagogues. Includes apprenticeship teaching. Offered fall of odd-numbered years.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Music Education

MUSC 5285 (3) Organ Survey
Survey of organ repertoire and the history of organ building from the 16th century to the present.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4285
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 5305 (2) Piano Pedagogy Group Techniques
Discusses materials and techniques for teaching beginning piano students of various ages in studio and class settings. Special attention given to adult classes. Includes an introduction to educational technology used in group instruction. Offered fall of odd-numbered years.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 5313 (3) Teaching Choral Music
Examines choral music curricula, instructional materials and teaching techniques appropriate for secondary choral settings. Also addresses administrative strategies for choral music programs. Offered spring only.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4313
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Music Education

MUSC 5315 (2) Piano Pedagogy: Intermediate Literature
Surveys repertoire at the intermediate level and discusses teaching techniques. Explores issues related to intermediate and advanced piano performance, such as performance anxiety, physical and psychological well-being of the performer, and the development of technique. Introduces educational technology relevant to intermediate teaching. Offered spring of even-numbered years.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 5325 (2) Keyboard Literature 1
Examines areas of style, genre, and performance practice in selected keyboard music from 1600 to 1830. Emphasizes student presentation of specific topic areas. Offered fall terms of even-numbered years.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 5335 (2) Keyboard Literature 2
Examines areas of style, genre, and performance practice in selected areas of keyboard music from 1830 to the present. Emphasizes student presentation of specific topic areas. Offered spring terms of odd-numbered years.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 5336 (2) Brass Pedagogy
Analyzes pedagogical techniques and philosophies of teaching brass instruments, and examines materials. Offered every other spring terms.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4336
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Choral and Instrumental Music

MUSC 5345 (2) Research: Piano Literature and Pedagogy
Looks at individual or group research related to piano pedagogy or literature for piano.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 5346 (2) Woodwind Pedagogy
Provides the knowledge and skills to teach woodwind instruments in both individual studio and collegiate class settings. Considers pedagogical techniques for all levels of instruction. Offered fall terms of odd-numbered years.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4346
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Choral and Instrumental Music

MUSC 5356 (2) Jazz Studies Practicum
Implements independent, project-based studies for further developing knowledge and experience in jazz pedagogy, performance and composition. Student is assessed and guided by faculty to develop specific skills needed toward becoming a more effective jazz educator. Offered spring of odd-numbered years.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Recommended: Prerequisite MUSC 5256.
Additional Information: Departmental Category: Choral and Instrumental Music

MUSC 5365 (2) Advanced Accompanying
An in-depth study of collaborative repertoire in individually assigned projects, coached by collaborative piano faculty and others.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 5375 (2) Opera Coaching for Pianists
Teaches skills for opera coaches and rehearsal pianists.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 5405 (2) Basso-Continuo Accompaniment
Studies the history, theory and practice of Basso-continuo accompaniment. Provides practical instruction in realizing harmony from a given bass line (figured or unfigured), projecting affect and creating dynamics at the harpsichord. Emphasizes individual cognition and creativity.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4405
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 5415 (2) Advanced Basso Continuo
Explores advanced basso continuo, serving as more in depth study for those who have completed or tested out of Basso-Continuo Accompaniment (MUSC 5405).
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4415
Requisites: Prerequisite: MUSC 5405 - Basso-Continuo Accompaniment and restricted to graduate students only.

MUSC 5425 (2) Collaborative Literature for Piano with Winds, Brass, and Percussion
Study of all forms of wind, brass and percussion repertoire involving collaboration with piano including sonatas, duos, short pieces and concerti. Collaborative piano major or instructor consent required. Offered fall terms of odd-numbered years.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 5435 (2) Collaborative Literature for Piano with Strings
Study of all forms string repertoire involving collaboration with piano including sonatas, duos, short pieces and concerti. Collaborative piano major or instructor consent required. Offered spring terms of even-numbered years.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 5443 (3) Teaching Instrumental Music
Examines instrumental music curricula, instructional materials and teaching techniques appropriate for rehearsal, class, and lesson settings. Also addresses administration strategies for instrumental music programs. Offered spring only.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4443
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Music Education

MUSC 5444 (2) Vocal Pedagogy
In depth study of the physiology, acoustics, and health aspects of the singing voice. Recommended for all graduate students in voice.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Voice

MUSC 5446 (1) Supervised Teaching Practicum
Designed to provide supervised teaching experience that includes feedback on weekly teaching; weekly and longer-term planning; and reflection on the impact of teacher characteristics and actions on student development.
Repeatable: Repeatable for up to 5.00 total credit hours.
Requisites: Requires prerequisite course of MUSC 5273 (minimum grade D-). Restricted to College of Music (MUSC) graduate students only.
Grading Basis: Letter Grade

MUSC 5454 (2) Repertory for Young Voices
Survey of the solo repertoire for young voices, the physiological aspects of mutational voices, techniques of vocalizing young voices, and class voice procedure.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Voice

MUSC 5464 (2) Voice Literature I: French Song Literature and Oratorio/ Concert Solo Literature
Explores the vocal literature of French Art Song and Oratorio/Concert Solo Literature in a graduate-level survey course taught in two modules.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Voice

MUSC 5484 (2) Graduate Seminar in Vocal Pedagogy
A thorough investigation of the challenges of studio voice pedagogy, including corrective techniques, psychological philosophies, and video analysis of student teaching. Examination and evaluation of comparative methodologies of vocal technique.
Requisites: Requires prerequisite course of MUSC 5444 (minimum grade D-). Restricted to College of Music (MUSC) graduate students only.
Additional Information: Departmental Category: Voice

MUSC 5564 (2) Voice Literature II: German, British & American Song Literature
Explores the rich variety of German, British and American Song Literature from the late Middle Ages to the present in a graduate-level survey course taught in two modules.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Voice

MUSC 5583 (2) Inclusive Music Classroom
Surveys strategies necessary for teaching music to all students, including those with special needs. Offered fall of even-numbered years.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4583
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Music Education

MUSC 5608 (1) Wellness for Musicians 1
Explores strategies that help musicians maintain health while achieving peak performance. Investigate and employ powerful somatic methodologies including Alexander Technique and Body Mapping that improve physical functioning and prevent injury. Incorporates a variety of wellness aspects such as performance psychology, mental health, effective exercise, nutrition, breathing, hearing and vocal health.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Interdepartmental Courses

MUSC 5642 (3) Jazz History and Literature
Studies musical trends and cultural forces influencing jazz, with analysis of improvisational styles, melodic and motivic variations, transcriptions and orchestrations from significant periods in its history. Offered spring terms only.
Requisites: Requires prerequisite course of MUSC 3642 (minimum grade D-). Restricted to College of Music (MUSC) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5666 (2) Chamber Music Literature: Woodwinds
Provides a stylistic-historical survey in various genres from Baroque era to present. Offered fall terms of even numbered years.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Choral and Instrumental Music

MUSC 5708 (2) Introduction to Music Bibliography and Research
Explores basic informational sources about music and musicians; a study of citation formats, research methodologies and writing techniques employed in music research papers, theses and dissertations. Intended to increase students' information fluency. Required in all master's degree programs.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Interdepartmental Courses

MUSC 5712 (3) Renaissance Music
Provides a repertory and analysis of polyphonic music, 1400-1600.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4712
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5742 (3) Performance Practice of Early Music
Examines instrumental and vocal performance practices through the 18th century. Topics may vary from year to year.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5752 (3) Women in Music
Examines the role of women as creators and performers of Western Music. Explores related issues in musicology, including canon formation, reception history and feminist aesthetics.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4752
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5762 (3-4) History of Choral Literature
Provides a seminar in analysis of musical style and history of choral repertory . Those wishing review of literature and repertory may enroll for 4 credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5772 (3) History of Opera
Examines representative operas from the 17th through the 21st centuries. Emphasizes both cultural and analytical aspects and surveys related musicological literature.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4772
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5802 (3) Studies in 20th Century Music
Offers intensified work in history of music in the 20th century. Topics vary from year to year.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4802
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5808 (1) Wellness for Musicians 2
Develops and further integrates material covered in Wellness for Musicians 1. Deeper exploration of somatic and wide-ranging wellness strategies, including FM Alexander¿s conception of Inhibition and other approaches for proactive self-care and improvement. Consideration of how to integrate methodologies in teaching, pedagogy, and practice. Students will complete several projects related to their specific musical pursuits and interests.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4608
Repeatable: Repeatable for up to 2.00 total credit hours.
Requisites: Requires prerequisite course of MUSC 5608 (minimum grade C-). Restricted to College of Music (MUSC) graduate students only.
Additional Information: Departmental Category: Interdepartmental Courses

MUSC 5822 (3) Ancient and Medieval Music
Surveys sources from the ancient Greeks to the early Christian era and music from the 8th to the 14th century.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5832 (3) Studies in American Music
Offers intensified work in folk, popular, and art music of the United States.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5842 (3) Aesthetics of Music
Surveys various philosophies of music in writings of philosophers, psychologists, sociologists, composers, critics and historians.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5852 (3) 17th and Early 18th Century Music
Examines music and writings about music from the Baroque era. Emphasizes cultural and musical analysis and surveys current musicological literature.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4852
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5872 (3) Late 18th and 19th Century Music
Studies European and American music from the last developments of the styles through romanticism and its later 19th century reverberations.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4872
Repeatable: Repeatable for up to 12.00 total credit hours.
Recommended: Prerequisite or corequisite MUSC 3812.
Additional Information: Departmental Category: Musicology

MUSC 5882 (3) Studies in 18th and 19th Century Music
Meets as a seminar and examines selected topics in Classic and Romantic music, 1750-1900. Topics vary from year to year.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5892 (3) Latin American Music
Explores music of cultures of the Americas south of the United States and in the diaspora, emphasizing the relationships of music and culture in folk, popular and arts styles.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4892
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 5908 (1-3) Arts Administration Internship
Engage with music/music business organizations in the community (for profit or non-profit) to pursue specific tasks or projects relevant to the student's career goals. A minimum of 48 hours is required per semester for one credit.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4908
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Music Entrepreneurship

MUSC 5918 (2) Graduate Career Seminar
Equips graduate music students with the tools and skills required to pursue a professional career in music. Topics include (but are not limited to) professional materials (resumes, CVs, websites), networking/social media, grant writing/fundraising, exploring career options, and copyrights/other legal issues.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Music Entrepreneurship

MUSC 5938 (3) Management and Leadership in the Arts
Focus on management, leadership, and communication strategies and their application to arts organizations. Concepts and approaches for leaders of small, medium, and large arts organizations in both the for-profit and nonprofit sectors, including human resource management, problem solving, and effective communication will be examined. Students will practice and refine their written communication skills by writing clearly and concisely throughout the course.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4968
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Grading Basis: Letter Grade

MUSC 5948 (3) Sustainable Arts Organizations: Forecasting and Fundraising
Equips students to create comprehensive fundraising plans rooted in strategic business planning for arts organizations, which depend on contributed income for sustainability. Students will learn the basics of planning, budgeting and forecasting, along with proven, effective fundraising strategies and techniques. Includes cased studies and guest speakers with extensive professional expertise in the field.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Grading Basis: Letter Grade

MUSC 5958 (2) Community Performances
Explore the real-world issues of planning and presenting concerts. Learn to program music for all types of audiences, gain confidence speaking about your music and handle the logistics of concert production. Discuss the role of concerts in the 21st century and examine new styles of presentation, audience engagement and outreach. Course culminates in a concert presented in a local venue.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4958
Requisites: Requires prerequisite course of MUSC 5918 (minimum grade D-). Restricted to College of Music (MUSC) graduate students only.
Additional Information: Departmental Category: Music Entrepreneurship

MUSC 5978 (3) Introduction to Arts Administration
Introduce students to current trends in arts administration, explore the fundamentals of managing arts organizations and develop concrete tools for managing boards, volunteers and staff, effective fund raising, strategic planning and program development. Current issues, the role of the arts and arts advocacy will be discussed.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4978
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Music Entrepreneurship

MUSC 5988 (3) The Entrepreneurial Artist
Learn the core principles of entrepreneurship, such as idea formation, venture models, opportunity assessment, market analysis and strategies for launching a venture and apply them to entrepreneurial ideas. Lectures, projects, entrepreneur interviews and case studies will culminate in a feasibility study for an original entrepreneurial concept.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4988
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Recommended: Prerequisite MUSC 5918.
Additional Information: Departmental Category: Music Entrepreneurship

MUSC 6041 (3) Advanced Orchestration
Provides an advanced study of orchestration techniques through score analysis and student projects. Offered spring of even-numbered years.
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 6051 (3) Pedagogy of Music Theory
Explores methods, materials, practical techniques for teaching undergraduate music theory, aural skills and analysis. Student must have passed general written theory and aural skills preliminary exam or completed remediation before enrolling in course. Offered spring of odd-numbered years.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 6113 (2) Foundations of Music Education
Surveys historical and philosophical bases of contemporary music education. Offered fall of even-numbered years.
Requisites: Restricted to Music (MUSD) or Music Education (MMED or MUED) graduate students only.
Additional Information: Departmental Category: Music Education

MUSC 6133 (2) Comprehensive Musicianship through Performance
Explores curricular models for music education. Emphasizes comprehensive musicianship and standards-based frameworks for curriculum and development. Offered spring terms of even-numbered years.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Music Education

MUSC 6193 (1-3) Selected Studies in Music Education
Instructor consent required.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to Music (MUSD) or Music Education (MMED-MMUE) students only.
Additional Information: Departmental Category: Music Education

MUSC 6203 (2) Psychology of Music Learning
Provides an overview of psychological concepts relevant to music teaching and learning. Topics include learning theories, selected individual difference variables (motivation, anxiety, creativity, and personality), physiological structures related to hearing, psychoacoustics, and approaches to examining musical ability (e.g. brain research, music aptitude, and skill acquisition). Offered spring terms only.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Music Education

MUSC 6213 (2) Assessment of Music Learning
Provides an overview of traditional and contemporary approaches to music assessment. Topics include psychometrics, standardized tests, test construction, grade reports, and student portfolios. Offered on a rotating basis during summer session.
Requisites: Restricted to Music Education (MMED-MMUE) graduate students only.
Additional Information: Departmental Category: Music Education

MUSC 6223 (2) Sociology of Music Education
Studies sociological perspectives related to music education. Topics include functions and uses of music; teacher and student role/identity development; social aspects of music performance, and cultural perspectives on music learning. Offered fall of even-numbered years.
Requisites: Restricted to Music (MUSD) or Music Education (MMED or MUED) graduate students only.
Recommended: Prerequisite MUSC 6113.
Additional Information: Departmental Category: Music Education

MUSC 6233 (2) Pedagogy of Music Teaching and Learning
Explores four topics (reflective/critical thinking, teacher effectiveness, cultural/program contexts, teachers' lives/career development) relevant to long-term teacher development. Includes individualized feedback on teaching. Open to graduate students in music education and performance-pedagogy. Offered spring terms of odd numbered years.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Recommended: Prerequisite MUSC 6113 and/or significant teaching experience.
Additional Information: Departmental Category: Music Education

MUSC 6243 (1) Applications of Music Pedagogy
Provides a structured, collaborative environment for graduate students with K-12 teaching duties to apply the content from music education courses to their current pedagogical environments. Students will apply inquiry strategies as they design and implement an applied project that synthesizes specific theoretical or conceptual areas. Offered fall term only.
Repeatable: Repeatable for up to 2.00 total credit hours.
Requisites: Restricted to Music Education (MMED-MMUE) graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Music Education

MUSC 6325 (2) Seminar in Piano Literature
Provides an intensive study of a selected area of repertoire or history. Offered fall terms only.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Keyboard

MUSC 6343 (1) Capstone Portfolio Project
Designed as the capstone course for students enrolled in the Summer MME degree program. Students are guided in their composition of three summative essays involving reflection on connections between two or more courses, comparisons between their entrance essays and current thinking, and identification of pedagogical impacts on their K-12 teaching.
Requisites: Restricted to Music Education (MMED-MMUE) graduate students only.
Grading Basis: Letter Grade

MUSC 6801 (3) Advanced Topics in Music Theory
Intensive study of a specialized topics in theory and analysis through critical reading and analysis, class presentations and independent research. Student must have passed graduate preliminary exams and completed 6 credits hours of graduate-level theory before enrolling in course. Instructor determined prerequisite will be enforced as appropriate to the topic.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of MUSC 5708 (minimum grade D-). Restricted to Music (MUAD, MUED or MUSD) graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 6822 (3) Advanced Studies in Musicology
Intensive study of a specialized topic in musicology. Students will be guided in critical reading, historical or ethnographic issues, analysis, oral presentations, and independent research.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of MUSC 5708 (minimum grade D-). Restricted to Music (MUAD, MUED or MUSD) graduate students only.
Additional Information: Departmental Category: Musicology

MUSC 7046 (3) Seminar in Jazz Literature
Provides advanced study in jazz literature and styles. Students present results of research on individually chosen topics or aspects of a topic central to the class. Requires class presentations and a major paper or project. Offered spring semester only.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.
Recommended: Prerequisites MUSC 5091 and MUSC 5642.
Additional Information: Departmental Category: Choral and Instrumental Music

MUSC 7103 (3) Historical Research in Music Education
Topics include oral history, archival collections, data verification, and critiquing/publishing research. Students conduct one original research study. Offered spring of even-numbered years.
Requisites: Restricted to Music Education (MMED-MMUE) doctoral students only.
Additional Information: Departmental Category: Music Education

MUSC 7113 (3) Quantitative Research in Music Education
Topics include sampling, questionnaire development, research design, intermediate and advanced statistics, presenting/publishing research, and research ethics. Students conduct an original research study. Offered fall of even-numbered years.
Requisites: Restricted to Music Education (MMED-MMUE) students only.
Additional Information: Departmental Category: Music Education

MUSC 7138 (3) Contemporary Issues in College Teaching
Examines music teaching within colleges and universities, including the evolution of university music programs, undergraduate and graduate music curricula, music professors and their work, and sociopolitical issues. Offered spring of odd-numbered terms.
Requisites: Restricted to College of Music (MUED or MUSD) graduate students only.
Additional Information: Departmental Category: Interdepartmental Courses

MUSC 7143 (3) Qualitative Research in Music Education
Topics include qualitative research traditions, site and participant selection, data collection and analysis methods, quality standards, and research ethics. Students conduct an original research study. Offered fall of odd-numbered years.
Requisites: Restricted to MUED students only.
Additional Information: Departmental Category: Music Education

MUSC 7203 (3) Doctoral Seminar in Music Education
Provides an advanced study of topics central to the music education profession. Requires class presentations and a major paper or project. Offered fall of even-numbered years.
Requisites: Restricted to MUED students only.
Additional Information: Departmental Category: Music Education

MUSC 7801 (3) Doctoral Seminar in Music Theory
Provides advanced study in theory. Students present results of research on individually chosen topics or aspects of a topic central to the class. Requires a major paper or project. Student must have passed graduate preliminary exams and completed 6 credits hours of graduate-level theory before enrolling in course. Instructor determined prerequisite will be enforced as appropriate to the topic.
Requisites: Requires a prerequisite course of MUSC 5708 (minimum grade D-). Restricted to College of Music (MUED or MUSD) graduate students only.
Additional Information: Departmental Category: Theory and Composition

MUSC 7822 (3) Seminar in Musicology
Required of all musicology majors before completion of comprehensive examinations. A different research area is designated each semester. Offered fall only.
Repeatable: Repeatable for up to 30.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Music (MUAD or MUSD) graduate students only.
Additional Information: Departmental Category: Musicology

Music Electives (MUEL)

Courses

MUEL 1081 (3) Basic Music Theory
Introduction to music notation, meter and rhythm, scales, intervals, triads, seventh chords, fundamentals of harmonic progression, voice leading, aural skills and composition. For nonmusic majors who have little or no previous background in the subject.
Requisites: College of Music (MUSC) majors are excluded from this course.

MUEL 1115 (1) Piano Class 1
Introduces the keyboard and music reading for nonmusic majors with no prior keyboard experience. Studies very easy classical and pop repertoire. No prior keyboard experience or instructor consent required.
Requisites: College of Music (MUSC) majors are excluded from this course.

MUEL 1125 (1) Piano Class II
Continuation of MUEL 1115. Focuses on development of music reading. Studies technical patterns, easy classical and pop repertoire, and improvisation.
Requisites: Requires prerequisite course of MUEL 1115 (minimum grade D-). College of Music (MUSCU) majors are excluded from this course.

MUEL 1145 (2) Guitar Class
A systematic study of the beginning literature and technique of the classical guitar with an emphasis on reading music. Designed for nonmusic majors with no prior musical experience.
Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.
Requisites: College of Music (MUSC) majors are excluded from this course.

MUEL 1155 (2) Intermediate Guitar
Studies the intermediate literature and technique of the classical and popular guitar. Emphasis on reading standard notation and chord charts. Designed for non- music majors.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of MUEL 1145 (minimum grade D-). College of Music (MUSCU) majors are excluded from this course.

MUEL 1184 (1) Voice Class
Involves basic vocal technique and easy solo repertoire taught through a group medium, for beginner and intermediate level students. May be repeated upto 6 total credit hours.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: College of Music (MUSC) majors are excluded from this course.
Recommended: Requisite ability to read music.

MUEL 1416 (2) Introduction to Hand Percussion
Studies the literature and technique of hand percussion. Emphasizes African and Latin percussion techniques. Designed for non-music majors.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: College of Music (MUSC) majors are excluded from this course.

MUEL 1832 (3) Appreciation of Music
Introduces music, including the fundamental elements of music, the history of the Western tradition and its composers, the development of American popular music and aspects of World Music.
Requisites: College of Music (MUSC) majors are excluded from this course.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

MUEL 2031 (3) Making Electronic Music
Explores the history, scope, and creation of electronic music. Combining scholarly and creative assignments, students will analyze art and popular electronic music genres as well as compose their own works. In the process, they will gain an analytical vocabulary, knowledge of key historical figures, competency with production techniques and tools, and experience thinking and writing critically about music more generally. No previous music experience is assumed or required.
Requisites: College of Music (MUSC) majors are excluded from this course.
Grading Basis: Letter Grade

MUEL 2051 (3) Introduction to Songwriting Techniques
Introduce students to the art and craft of songwriting through (1) the analysis of great songs past and present (2) creative work (3) experimentation (4) collaboration (5) performance and possibly recording. We will examine form, melody, harmony, rhythm, lyric writing (i.e. points of view, logic, use of literary device, etc.), solo and collaborative ensemble performance, style and poise.
Requisites: College of Music (MUSC) majors are excluded from this course.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

MUEL 2061 (3) Introduction to Music Technology
Surveys the various tools and techniques in the field of music technology. Topics include an introduction to basic synthesis, digital signal processing, MIDI and audio sequencing, music notation and a historical perspective on electronic music.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 2061
Requisites: College of Music (MUSC) majors are excluded from this course.

MUEL 2071 (2) Intro to Audio Recording
Introduces and explores basic concepts in audio recording from microphones to digital audio workstations. Also focuses on development of critical listening skills.
Requisites: College of Music (MUSC) majors are excluded from taking this course.

MUEL 2081 (2) Prepared for the Soundcheck
Provides an overview of the recording process from the performer's perspective from soundcheck through final mastering. Uses recorded material from in-class sessions. Examines differing approaches to recording as well as current technologies. Specifically designed for non-music majors.
Requisites: College of Music (MUSC) majors are excluded from taking this course.

MUEL 2091 (2) Intro to Audio Recording
Introduces and explores basic concepts in audio recording from microphones to digital audio workstations. Also focuses on development of critical listening skills.
Requisites: College of Music (MUSC) majors are excluded from this course.

MUEL 2184 (1) Voice Class
Continuation of MUEL 1184, with more advanced repertoire and vocal techniques.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of MUEL 1184 (minimum grade D-). College of Music (MUSCU) majors are excluded from this course.

MUEL 2742 (3) Wild West Soundscapes
Explores major historical theories of the American West in relationship to music from 1800 to the present. The musical traditions of marginalized groups are used as a variegated lens to explore Western U.S. history. The class may explore a wide range of musical genres and styles from chant to hymns to folk to rock to opera to the Hollywood soundtrack.
Requisites: College of Music (MUSC) majors are excluded from taking this course.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

MUEL 2752 (3) Music in American Culture
Explores the role of music as a powerful cultural agent from the Colonial Period to the present. Focuses on influences from normative and marginalized musicians throughout American history. A wide range of musical styles and genres are studied to demonstrate themes of appropriation, appreciation, and syncretism. Teaches students to think critically about the relationships between culture, power, and identity.
Requisites: College of Music (MUSC) majors are excluded from this course.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Arts Humanities

MUEL 2762 (3) Topics in Music and Drama
Explores techniques used in combining music and dramatic arts, exploring a range of examples from musical and dramatic literature of the West or other world regions from circa 1000 to present. Specific course topics could cover any or all of these styles. Offered spring only.
Requisites: College of Music (MUSC) majors are excluded from this course.
Additional Information: Arts Sci Core Curr: Literature and the Arts

MUEL 2772 (3) World Musics: Asia and Oceania
Highlight music in Asia and Oceania using current ethnomusicological materials.
Requisites: College of Music (MUSC) majors are excluded from this course.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences

MUEL 2782 (3) World Music: Africa, Europe, and the Americas
Highlights music in Africa, Europe and the Americas using current ethnomusicological materials.
Requisites: College of Music (MUSC) majors are excluded from this course.
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences

MUEL 2832 (3) Musical Mavericks: Misfits and Geniuses
Discover a range of avant-garde composers from the 20th and 21st centuries that challenged the essence of how music is made, the way music is heard, and the way art defines our current culture. Investigate a great body of music that pushes boundaries, redefines genres, and pioneers new directions in music. Explore ten composers who changed the musical landscape.
Requisites: College of Music (MUSC) majors are excluded from this course.
Grading Basis: Letter Grade

MUEL 2842 (3) American Musical Theatre
Provides an overview of the role of musical theatre in U.S. culture, emphasizing the 20th century Broadway musical.
Requisites: College of Music (MUSC) majors are excluded from this course.

MUEL 2852 (3) Music in the Rock Era
Examines Rock music and its subgenres, primarily as a fusion of African-American and European-American musical styles. Considers precursors to Rock style (e.g. Blues, Folk) and their contributions. Traces the development of Rock as an art form as well as its cultural significance and saturation from the 1960s to the end of the 20th century. Offered fall and spring semesters.
Requisites: College of Music (MUSC) majors are excluded from this course.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

MUEL 2862 (3) American Film Musical
Examines the development of filmed musicals from the beginning of sound movies through the Golden Age of Musicals. Emphasizes analysis and relationships of characters, songs, and incidental music.
Requisites: College of Music (MUSC) majors are excluded from this course.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

MUEL 2872 (3) Heavy Metal
Explores, discuss, debate and develop deeper understanding of Heavy Metal. Included are study of musical style characteristics and lyrical content, innovative performers, unifying elements of Heavy Metal culture and the diversity within it, and its role in the larger Rock and societal contexts. Issues of gender, religion, and sexuality in the Heavy Metal construct are also discussed.
Requisites: College of Music (MUSC) majors are excluded from this course.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

MUEL 3051 (2) Basic Composition
Introduces the processes, materials, and forms of composition through the writing and performance of short musical works. Open to any student who already has rudimentary musical knowledge.
Requisites: College of Music (MUSC) majors are excluded from this course.

MUEL 3642 (3) History of Jazz
Surveys the distinctly American art form of jazz music from its origins to the present, including the various traditions, practices, historical events and people most important to its evolution. Offered fall and spring.
Requisites: College of Music (MUSC) majors are excluded from this course.

MUEL 3772 (3) West African Music and Culture in Ghana
Provides hands-on and experiential enrichment for students to interact at several levels with a local community in Ghana. Classroom lectures will be combined with direct participation in drumming and dancing, field trips to participate in festivals and court ceremonies, field trips to kente weaving village, adinkra cloth making, wood carving villages, and museums.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 3772
Requisites: Requires prerequisite courses of MUSC 2782 and MUEL 2772 (all minimum grade D-). Restricted to students with 27-56 credits (Sophomore) non-College of Music majors only.

MUEL 3822 (3) Words and Music
Explores the interaction between words and music in song. Students will consider how such features as rhyme, rhythm, tone, and the connotations of particular words contribute to meaning in poetry; how rhythm, tempo, dynamics, mood, and instrumentation contribute to meaning in music; and how words and music coalesce in song to make a new meaning.
Requisites: College of Music (MUSC) majors are excluded from this course.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

MUEL 3832 (3) Music in Literature
Addresses literature that seeks either to explore the meaning of music or to make music out of words. Students will consider how musical concepts and techniques can be incorporated into poetry and prose, and will analyze the roles that writers have attributed to music in society, politics, and the life of the individual.
Requisites: College of Music (MUSC) majors are excluded from this course.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

MUEL 3862 (3) Music and Global Health
Explores the ways in which music relates to health in different cultures including: Western art and popular music; ritual healings in Africa, Asia and Native and South America peoples; in relation to contemporary global health challenges.
Requisites: College of Music (MUSC) majors are excluded from this course.

MUEL 3872 (3) Music in the Rock Era: Special Topics in Heavy Metal
Explore, discuss, debate and develop deeper understanding of Heavy metal. Included are study of musical style characteristics and lyrical content, innovative performers, unifying elements of Heavy Metal culture and the diversity within it, and its role in the larger Rock and societal contexts. Issues of gender, religion, and sexuality in the Heavy Metal construct area also discussed.
Requisites: College of Music (MUSC) majors are excluded from this course.

MUEL 3882 (3) Music and Violence
Explores the role of music in generating, sustaining and contesting acts of violence. Focuses on conflicts occurring throughout the globe during the late 20th and early 21st centuries, with case studies that treat terrorism, warfare, revolution, street violence, domestic abuse, reconciliation and peace. Helps students to build an understanding of music's motivational powers and the nature of violence, as well as the role of expressive culture in mediating social conflict more generally.
Requisites: College of Music (MUSC) majors are excluded from this course.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences

MUEL 3892 (3) Music and Space
Explores the ways that outer space inspires and is portrayed in musical sound. Introduces literature and media from historical musicology, ethnomusicology, music theory, anthropology, physics, geography and planetary science, with case studies ranging from Ancient Greece, to classic and modern Western art music, to contemporary popular music.
Requisites: College of Music (MUSC) majors are excluded from this course.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

MUEL 4012 (3) African Music
Studies music cultures of Africa and the Black Diaspora, including folk and art music traditions, religious and popular music genres. Specific course topics could cover any or all of these styles, including exploring interconnections of musical stylistics of Africa and the Black Diaspora.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4012 and MUSC 5012
Requisites: College of Music (MUSC) majors are excluded from this course.

MUEL 4111 (2) Composing at the Computer
Discover strategies and techniques for generating and manipulating sound at the computer. Student projects will include compositions, soundscapes, ambient environments and soundtracks for multimedia. Available to students without prior experience with computer music or composition.
Requisites: Requires prerequisite course of MUEL 2061 (minimum grade D-). College of Music (MUSC) majors are excluded from taking this course.
Grading Basis: Letter Grade

MUEL 4121 (3) Topics in Music Technology
Exploration of issues, techniques and tools of music technology. Topics vary from term to term and may include: interactive system for performance, teaching and learning; computer music instrument design; digital synthesis and signal processing; music in intermedia; sound design and analysis. Lectures and work sessions will support student projects.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of MUEL 2061 (minimum grade D-). College of Music (MUSC) majors are excluded from this course.

Music Ensemble (EMUS)

Courses

EMUS 1017 (1) Campus Band
Provides high-level performance opportunities to CU students (both music majors and non-majors) through the study of quality band repertoire while improving large ensemble and individual musical skills. The art of music-making requires continuous critical analysis of one¿s sound and how that sound is interacting with the whole of the ensemble. The study of historical and cultural context will be provided resulting in a vivid re-creation of each piece positively affecting an audience.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.
Grading Basis: Letter Grade

EMUS 1207 (1) Festival Chorus
Prepares a roughly 100-member, auditioned mixed voice choir of music majors, non-majors, and community members to perform choral repertory of the highest standards in public settings. Designed to perform with the CU Symphony Orchestra, CU Wind Symphony, Boulder Philharmonic, and CU Holiday Festival. Music is selected from all historical style periods with the focus on choral masterworks with instrumental forces.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 3207
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomores).
Grading Basis: Letter Grade

EMUS 1217 (1) Chamber Singers
CU's premiere choral ensemble, The CU Chamber Singers, is comprised of auditioned graduate and undergraduate singers. Chamber Singers has been cited with critical acclaim for its performances and sings classically based literature from all cultures and style periods. Members are selected by audition at the beginning of each academic year.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 3127 or 5217
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

EMUS 1227 (1) University Choir
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

EMUS 1237 (1) Treble Chorus
This collaborative ensemble is devoted to the study and performance of wide-ranging voice-specific repertoire. This choir performs on campus and in the Boulder-area two to four times per semester. Audition required.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

EMUS 1247 (1) Men's Chorus
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

EMUS 1257 (1) Collegiate Chorale
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

EMUS 1277 (1) Court Players
Repeatable: Repeatable for up to 12.00 total credit hours.

EMUS 1287 (1) Marching Band
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

EMUS 1297 (1) Wind Symphony
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

EMUS 1307 (1) Symphonic Band
Equivalent - Duplicate Degree Credit Not Granted: EMUS 3307
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

EMUS 1317 (1) Concert Band
Equivalent - Duplicate Degree Credit Not Granted: EMUS 3317
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

EMUS 1327 (1) Symphony Orchestra
2.0 hours offered CE Aspen Music School only.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

EMUS 1337 (1) Chamber Orchestra
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

EMUS 1347 (1) Bell Ensemble
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

EMUS 1367 (1) Early Music Ensemble
CU¿S Early Music Ensemble is comprised of auditioned graduate and undergraduate instrumentalists and singers interested in exploring Baroque repertoire with an emphasis on historically informed performance practice. Repertoire ranges from small groups (duos and trios) to larger scale orchestral and vocal works, as well as concertos. Members are selected during two audition cycles: one at the beginning of the Fall semester, and the other mid-way through the Fall semester for the Spring semester. Auditions will also be held mid-way through the Spring semester for returning students. Using a Baroque bow or available Baroque instrument is possible by permission. Contact the instructor early if you are interested in borrowing one of these items.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) College of Music (MUSC) majors only.

EMUS 1377 (1) Chamber Music-Brass
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) College of Music (MUSC) majors only.

EMUS 1387 (1) Chamber Music-Strings
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) College of Music (MUSC) majors only.

EMUS 1397 (1) Chamber Music Piano Duo
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) College of Music (MUSC) majors only.

EMUS 1407 (1) Chamber Music-Woodwinds
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) College of Music (MUSC) majors only.

EMUS 1417 (1) Percussion Ensemble
Percussion Ensemble is devoted to the study and performance of wide-ranging percussion-specific repertoire. Audition required.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) College of Music (MUSC) majors only.

EMUS 1427 (1) Jazz Ensemble
Students perform in a principal format for jazz expression. The large ensemble setting affords the opportunity to expand knowledge of jazz styles and repertoire as well as refine reading skills and improve spontaneous interaction with other musicians. Placed through auditions held at the beginning of search semester.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 3427 and EMUS 5427
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

EMUS 1437 (1) Jazz Combo
Allows students the opportunity to perform in the principal format for jazz expression. The small group setting affords performers the opportunity to refine improvisation skills, improve spontaneous interaction with musicians and expand knowledge of jazz styles and repertoire. Placed through auditions held at the beginning of each semester.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 3427 and EMUS 5437
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

EMUS 1447 (1) Guitar Ensemble
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) College of Music (MUSC) majors only.

EMUS 1457 (1) Electronic Music Ensemble
Explores performance, composition and the history of electronic music, including 20th century art music on through to electronic music in contemporary popular culture.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 3457 and EMUS 5457
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) College of Music (MUSC) majors only.

EMUS 1467 (1) World Music Ensemble
Study and performance of musics of diverse cultures in the United States, including Native American, Latin American, African American and Asian American, as well as music from the mother cultures of these groups.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 3467 and EMUS 5467
Repeatable: Repeatable for up to 99.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

EMUS 1477 (1) Chamber Choir
Study and performance of various vocal styles, including madrigals and vocal jazz, investigation of the challenges of music making in a small group choral setting.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 3477 and EMUS 5477
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.
Grading Basis: Letter Grade

EMUS 1507 (1) Chamber Music
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) College of Music (MUSC) majors only.

EMUS 1517 (1) Campus Orchestra
Offers University string, wind and percussion performers not majoring in music an opportunity to play in a conducted orchestra. Rehearsals are one night per week and has limited performance demands. Auditions are not required for strings. Instruments are available if needed.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 3517
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

EMUS 3017 (1) Campus Band
Provides high-level performance opportunities to CU students (both music majors and non-majors) through the study of quality band repertoire while improving large ensemble and individual musical skills. The art of music-making requires continuous critical analysis of one¿s sound and how that sound is interacting with the whole of the ensemble. The study of historical and cultural context will be provided resulting in a vivid re-creation of each piece positively affecting an audience.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

EMUS 3207 (1) Festival Chorus
Prepares a roughly 100-member, auditioned mixed voice choir of music majors, non-majors, and community members to perform choral repertory of the highest standards in public settings. Designed to perform with the CU Symphony Orchestra, CU Wind Symphony, Boulder Philharmonic, and CU Holiday Festival. Music is selected from all historical style periods with the focus on choral masterworks with instrumental forces.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 1207
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

EMUS 3217 (1) Chamber Singers
CU's premiere choral ensemble, The CU Chamber Singers, is comprised of auditioned graduate and undergraduate singers. Chamber Singers has been cited with critical acclaim for its performances and sings classically based literature from all cultures and style periods. Members are selected by audition at the beginning of each academic year.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 1217 or 5217
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

EMUS 3227 (1) University Choir
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

EMUS 3237 (1) Treble Chorus
This collaborative ensemble is devoted to the study and performance of wide-ranging voice-specific repertoire. This choir performs on campus and in the Boulder-area two to four times per semester. Audition required.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

EMUS 3247 (1) Men's Chorus
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

EMUS 3257 (1) Collegiate Chorale
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

EMUS 3287 (1) Marching Band
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

EMUS 3297 (1) Wind Symphony
2.0 credit hours offered CE Aspen Music School only.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

EMUS 3307 (1) Symphonic Band
Equivalent - Duplicate Degree Credit Not Granted: EMUS 1307
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

EMUS 3317 (1) Concert Band
Equivalent - Duplicate Degree Credit Not Granted: EMUS 1317
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

EMUS 3327 (1) Symphony Orchestra
2.0 hours offered CE Aspen Music School only.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

EMUS 3337 (1) Chamber Orchestra
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

EMUS 3347 (1) Bell Ensemble
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

EMUS 3357 (1) Harp Ensemble
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

EMUS 3367 (1) Early Music Ensemble
CU¿S Early Music Ensemble is comprised of auditioned graduate and undergraduate instrumentalists and singers interested in exploring Baroque repertoire with an emphasis on historically informed performance practice. Repertoire ranges from small groups (duos and trios) to larger scale orchestral and vocal works, as well as concertos. Members are selected during two audition cycles: one at the beginning of the Fall semester, and the other mid-way through the Fall semester for the Spring semester. Auditions will also be held mid-way through the Spring semester for returning students. Using a Baroque bow or available Baroque instrument is possible by permission. Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.

EMUS 3377 (1) Chamber Music-Brass
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.

EMUS 3387 (1) Chamber Music-Strings
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.

EMUS 3397 (1) Chamber Music Piano Duo
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.

EMUS 3407 (1) Chamber Music-Woodwinds
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.

EMUS 3417 (1) Percussion Ensemble
Percussion Ensemble is devoted to the study and performance of wide-ranging percussion-specific repertoire. Audition required.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.

EMUS 3427 (1) Jazz Ensemble
Students perform in a principal format for jazz expression. The large ensemble setting affords the opportunity to expand knowledge of jazz styles and repertoire as well as refine reading skills and improve spontaneous interaction with other musicians. Placed through auditions held at the beginning of each semester.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 1427 and EMUS 5427
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite EMUS 1427 or previous experience in large jazz ensembles.

EMUS 3437 (1) Jazz Combo
Allows students the opportunity to perform in the principal format for jazz expression. The small group setting affords performers the opportunity to refine improvisation skills, improve spontaneous interaction with musicians and expand knowledge of jazz styles and repertoire. Placed through auditions held at the beginning of each semester.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 1437 and EMUS 5437
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite EMUS 1437 or previous performance experience in small jazz combos.

EMUS 3447 (1) Guitar Ensemble
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.

EMUS 3457 (1) Electronic Music Ensemble
Explores performance, composition and the history of electronic music, including 20th century art music on through to electronic music in contemporary popular culture.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 1457 and EMUS 5457
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.

EMUS 3467 (1) World Music Ensemble
Study and performance of musics of diverse cultures in the United States, including Native American, Latin American, African American and Asian American, as well as music from the mother cultures of these groups.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 1467 and EMUS 5467
Repeatable: Repeatable for up to 99.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

EMUS 3477 (1) Chamber Choir
Study and performance of various vocal styles, including madrigals and vocal jazz, investigation of the challenges of music making in a small group choral setting.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 1477 and EMUS 5477
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

EMUS 3507 (1) Chamber Music
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) College of Music (MUSC) majors only.

EMUS 3517 (1) Campus Orchestra
Offers University string, wind and percussion performers not majoring in music an opportunity to play in a conducted orchestra. Rehearsals are one night per week and has limited performance demands. Auditions are not required for strings. Instruments are available if needed.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 1517
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

EMUS 5217 (1) Chamber Singers
CU's premiere choral ensemble, The CU Chamber Singers, is comprised of auditioned graduate and undergraduate singers. Chamber Singers has been cited with critical acclaim for its performances and sings classically based literature from all cultures and style periods. Members are selected by audition at the beginning of each academic year.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 1217 or 3217
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

EMUS 5227 (1) University Choir
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

EMUS 5297 (1) Wind Symphony
2.0 credit hours offered CE Aspen Music School only.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

EMUS 5307 (1) Symphonic Band
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

EMUS 5327 (1) Symphony Orchestra
2.0 hours offered CE Aspen Music School only.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

EMUS 5337 (1) Chamber Orchestra
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

EMUS 5367 (1) Early Music Ensemble
CU¿S Early Music Ensemble is comprised of auditioned graduate and undergraduate instrumentalists and singers interested in exploring Baroque repertoire with an emphasis on historically informed performance practice. Repertoire ranges from small groups (duos and trios) to larger scale orchestral and vocal works, as well as concertos. Members are selected during two audition cycles: one at the beginning of the Fall semester, and the other mid-way through the Fall semester for the Spring semester. Auditions will also be held mid-way through the Spring semester for returning students. Using a Baroque bow or available Baroque instrument is possible by permission. Contact the instructor early if you are interested in borrowing one of these items.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

EMUS 5377 (1) Chamber Music-Brass
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

EMUS 5387 (1) Chamber Music-Strings
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

EMUS 5407 (1) Chamber Music-Woodwinds
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

EMUS 5417 (1) Percussion Ensemble
Percussion Ensemble is devoted to the study and performance of wide-ranging percussion-specific repertoire. Audition required.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

EMUS 5427 (1) Jazz Ensemble
Students perform in a principal format for jazz expression. The large ensemble setting affords the opportunity to expand knowledge of jazz styles and repertoire as well as refine reading skills and improve spontaneous interaction with other musicians. Placed through auditions held at the beginning of each semester.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 1427 and EMUS 3427
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite EMUS 3427 or previous experience in large jazz ensembles.

EMUS 5437 (1) Jazz Combo
Allows students the opportunity to perform in the principal format for jazz expression. The small group setting affords performers the opportunity to refine improvisation skills, improve spontaneous interaction with musicians and expand knowledge of jazz styles and repertoire. Placed through auditions held at the beginning of each semester.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 1437 and EMUS 3437
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite EMUS 3437 or previous performance experience in small jazz combos.

EMUS 5447 (1) Guitar Ensemble
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

EMUS 5457 (1) Electronic Music Ensemble
Explores performance, composition and the history of electronic music, including 20th century art music on through to electronic music in contemporary popular culture.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 1457 and EMUS 3457
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

EMUS 5467 (1) World Music Ensemble
Study and performance of musics of diverse cultures in the United States, including Native American, Latin American, African American and Asian American, as well as music from the mother cultures of these groups.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 1467 and EMUS 3467
Repeatable: Repeatable for up to 99.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

EMUS 5477 (1) Chamber Choir
Study and performance of various vocal styles, including madrigals and vocal jazz, investigation of the challenges of music making in a small group choral setting.
Equivalent - Duplicate Degree Credit Not Granted: EMUS 1477 and EMUS 3477
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

EMUS 5507 (1) Chamber Music
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

Natural Sciences (NASC)

Courses

Naval Science - ROTC (NAVR)

Courses

NAVR 1010 (2) Introduction to Naval Science
Introduction to the naval profession. Instruction emphasizes the mission, organization and warfare components of the Navy and Marine Corps. Included is an overview of officer and enlisted ranks and rates, training, education, Naval customs and courtesies, military justice, leadership and nomenclature. Exposes the student to the professional competencies required to become a Naval/Marine Corps officer.
Additional Information: Departmental Category: Naval Science

NAVR 1020 (3) Naval Ship Systems
Naval Ship Systems
Requisites: Requires prerequisite course of NAVR 1010 (minimum grade D-).

NAVR 2020 (3) Seapower and Maritime Affairs
Surveys international maritime history and provides a review of American maritime history and policy. Examines American naval involvement in regional and global conflicts, evolution in technology and management, the role of the navies in foreign policy, and the influence of seapower on history.
Requisites: Requires prerequisite course of NAVR 1010 (minimum grade D-).
Additional Information: Departmental Category: Naval Science

NAVR 3020 (3) Naval Operations and Seamanship
Examines the Inland and International Rules of the Nautical Road, including court interpretations, principles of relative motion and vector analysis with the maneuvering board, ship handling procedures, weather, communications, tactical operations, and maritime law.
Requisites: Requires prerequisite course of NAVR 1010 (minimum grade D-).
Additional Information: Departmental Category: Naval Science

NAVR 3030 (3) Naval Engineering Systems
Studies in detail ship propulsion and related auxiliary systems. Emphasizes fossil fuel and nuclear steam and gas turbine systems. Stresses design constraints imposed by unique marine environment.
Requisites: Requires prerequisite course of NAVR 1010 (minimum grade D-).
Additional Information: Departmental Category: Naval Science

NAVR 3040 (3) Weapons and Systems Analysis
Introduces theoretical concepts upon which modern naval weapons systems are designed and constructed. Specific areas of study include physics of underwater sound propagation, pulse radar theory, automatic tracking principles, and fundamentals of missile guidance.
Requisites: Requires prerequisite course of NAVR 1010 (minimum grade D-).
Additional Information: Departmental Category: Naval Science

NAVR 3101 (3) Evolution of Warfare
Traces the development of warfare, focusing on the impact of military theorists and technical developments. Assists students to acquire a sense of strategy, develop an understanding of military alternatives, and see the impact of historical precedent on military actions.
Requisites: Requires prerequisite course of NAVR 1010 (minimum grade D-).
Additional Information: Departmental Category: Naval Science

NAVR 3201 (3) Fundamentals of Maneuver Warfare
Prepares future military officers and other leaders for service by studying modern tactical principles, current military developments and other aspects of warfare and their interactions with and influences on maneuver warfare doctrine.
Requisites: Requires prerequisite course of NAVR 1010 (minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Naval Science

NAVR 4010 (3) Leadership and Management
Comprehensively studies organizational leadership. Emphasizes motivation, communication, empowerment, and needs of subordinates. Studies the role of professional and personal ethics in organizational leadership.
Additional Information: Departmental Category: Naval Science

NAVR 4020 (3) Leadership and Ethics
Studies the ethics and laws of armed conflict analyzing the leadership responsibilities of officers both in peace and in war. The curriculum focuses first on various moral, ethical and leadership philosophies followed by extensive use of case studies to reinforce the use of ethical decision-making tools. Defines the responsibilities of junior officers within the context of ethical leadership and decision making.
Additional Information: Departmental Category: Naval Science

NAVR 4021 (3) Leadership and Ethics Online
Studies the ethics and laws of armed conflict analyzing the leadership responsibilities of officers both in peace and in war. The curriculum focuses first on various moral, ethical and leadership philosophies followed by extensive use of case studies to reinforce the use of ethical decision-making tools. Defines the responsibilities of junior officers within the context of ethical leadership and decision making.

NAVR 4030 (3) Navigation
Offers theory and practical application in the art of navigation: charts, publications, piloting, dead reckoning, navigation aids and instruments, time, electronic fixing, global positioning system, and voyage planning.
Requisites: Requires prerequisite course of NAVR 1010 (minimum grade D-).
Additional Information: Departmental Category: Naval Science

Neuroscience (NRSC)

Courses

NRSC 1020 (1) Exploring the Neuroscience Major
This course familiarizes students to the neuroscience major at CU Boulder, and helps students develop key skills needed for academic success. Students will learn about department and campus resources, and how to get involved in the wider neuroscience community, including clubs and research. An overview of select neuroscience-related topics, and possible career paths, helps students determine goodness of fit. This elective course is designed for first-year and other students exploring educational and career opportunities in this exciting field.

NRSC 2100 (4) Introduction to Neuroscience
Provides an introduction to fundamental concepts in neuroscience. The goal of this first course is to provide a strong foundation in neurobiology-cell biology, physiology of the neuronal membrane, interneuronal communication, neurotransmission, gross anatomy, and how the brain develops. Students will also learn principles of sensory systems functions. Recitation will reinforce lecture concepts through discussion of current research.
Requisites: Requires prerequisite courses of MCDB 1111 or MCDB 1150 or EBIO 1210 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 2101 (1-4) Topics in Neuroscience
Provides students with the opportunity to focus on a specific area of Neuroscience in depth.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 2125 (4) Introduction to Neuroscience I: Foundations
Provides an introduction to fundamental knowledge and principles in neuroscience. The goal of this first semester of an Introduction to Neuroscience two semester sequence is to provide a strong foundation in neurobiology-cell biology, physiology of the neuronal membrane, synaptic neurotransmission, neurochemistry, gross anatomy and introduction to sensory perception. Recitation will reinforce lecture concepts.
Requisites: Requires prerequisite course of MCDB 1150 or EBIO 1210 (minimum grade C-).

NRSC 2150 (4) Introduction to Neuroscience II: Systems
Extends understanding of fundamental knowledge in neuroscience with a focus on systems function. The goal of this second semester of an Introduction to Neuroscience two semester sequence is to develop deeper understanding of neurobiological systems function. Featured is the neurophysiology, neuroanatomy and function of human sensory systems, motor systems, sensorimotor integration and higher level neurosystem function.
Requisites: Requires prerequisite course of NRSC 2100 or NRSC 2125 (minimum grade C-).

NRSC 2200 (2) Laboratory Techniques in Neuroscience
Introduces students to many basic and essential laboratory skills in neuroscience research. Students will learn experimental methods and perform experiments depicting principles in neurophysiology, neuroanatomy, neurochemistry, and the fundamentals of neuroimaging techniques.
Requisites: Requires a prerequisite course of NRSC 2100 or NRSC 2125 (minimum grade C-). Restricted to Neuroscience (NRSC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4011 (1-3) Senior Thesis
Senior Thesis credits are available for students during the semester that they write and defend a departmental Honors Thesis. A neuroscience honors thesis must be based on an empirical research project that the student directs/participates in under guidance from a faculty member. Contact the neuroscience director for further information.

NRSC 4015 (3) Affective Neuroscience
Experiencing and learning from affect--emotional value--is a fundamental part of the human experience. When people started thinking of brains as computers, research on emotion fell by the wayside. Recently however, this has changed, and there is an explosion of work on the brain mechanisms of affective value. Covers recent advances in understanding the emotional brain.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 5015
Requisites: Requires a prerequisite course of PSYC 2012 or (NRSC 2100 or (NRSC 2125 and NRSC 2150)) (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4032 (3) Neurobiology of Learning and Memory
Provides a comprehensive treatment of how the brain acquires, stores, and retrieves memories. To do this we will consider (a) the methods used to address these issues, (b) what we know about how brain systems are organized to support memories of different types,and (c) the synaptic mechanisms that are involved.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 5032
Requisites: Requires a prerequisite course of NRSC 2100 or (NRSC 2125 and NRSC 2150), (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4042 (3) Systems Neuroscience
Explores the neurophysiology, neuroanatomy and function of human sensory systems, motor systems, sensorimotor integration and higher level neurosystem function.
Requisites: Requires prerequisite of (PSYC 2012 or NRSC 2100 or (NRSC 2125 and 2150)) and one of the following (EBIO 1210 or MCDB 1111 or MCDB 1150) all require minimum grade of C-.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4062 (3) The Neurobiology of Stress
Provides an introduction to the concept of stress and the physiological systems involved. Factors modulating stress vulnerability versus resilience, and stress interactions with other systems with health relevance will be explored. Emphasis will be placed on current research on brain mechanisms. Formerly PSYC 4062.
Requisites: Requires a prerequisite course of NRSC 2100 or (NRSC 2125 and NRSC 2150), (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4072 (3) Clinical Neuroscience: A Clinical and Pathological Perspective
Provides a review of the anatomy and physiology of the nervous system and then explores how alterations in these systems can result in neurologic or psychiatric disorders. Emphasizes pathological neuroanatomy, neurophysiology and neuropharmacology, which is essential for understanding problems related to health and disease.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 5072
Requisites: Requires a prerequisite course of (NRSC 2100 or (NRSC 2125 and NRSC 2150)) and (EBIO 2070 or MCDB 2150), (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4082 (3) Neural Circuits of Learning and Decision Making
Provides an in-depth survey of the neural mechanisms of learning, motivated behavior and decision making. Analysis will focus on the interaction of neural circuits underlying these processes with particular attention to the cellular, molecular and information-processing aspects of identified pathways and considered into the context learning-based and neuroeconomic models of choice.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 5082
Requisites: Requires a prerequisite course of NRSC 2100 or (NRSC 2125 and NRSC 2150), (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4092 (3) Behavioral Neuroendocrinology
Provides an introduction to neuroendocrinology with a focus on the interaction between hormones on brain development and behaviorally relevant brain function, including reproductive behaviors, stress, biological rhythms and mood.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 5092
Requisites: Requires a prerequisite course of NRSC 2100 or (NRSC 2125 and NRSC 2150), (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4132 (3) Neuropharmacology
Study of drug action within the central nervous system. This course is designed to provide a fundamental understanding of the neurobiological and neurochemical mechanisms of drug action. Topics covered include the following: 1) principles of pharmacology; 2) brain neurotransmitter systems; 3) biochemical basis of psychiatric disorders and their pharmacological treatment.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 5132
Requisites: Requires a prerequisite course of NRSC 2100 or (NRSC 2125 and NRSC 2150), (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4155 (4) Cognitive Neuroscience/Neuropsychology
Introduction to cognitive neuroscience and neuropsychology. Provides a survey of the neuropsychological underpinnings for a wide range of cognitive functions: vision, object recognition, attention, language, memory and executive function. One lab per week.
Equivalent - Duplicate Degree Credit Not Granted: PSYC 4155
Requisites: Requires a prerequisite course of PSYC 2111 and PSYC 3111 and (PSYC 2012 or NRSC 2100 or (NRSC 2125 and NRSC 2150)) (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4420 (3) Genetics of Brain and Behavior
Examines the genetic underpinnings of animal behavior, including an examination of behavioral evolution and the use of genes as tools to examine neural architecture. We will cover topics including foraging, social behavior, personality, parental care and fear. We will explore these behaviors at multiple levels, including genomics, population genetics, molecular genetics, epigenetics, endocrinology and neurobiology. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4420
Requisites: Requires NRSC 2100 or (NRSC 2125 and NRSC 2150) and (EBIO 2070 or MCDB 2150). All minimum grade C-.
Grading Basis: Letter Grade

NRSC 4542 (3) The Neurobiology of Mental Illness
Provides in depth study of what is known concerning the neurobiology of mental illnesses, with a focus on depression and anxiety. Consideration will be given to both animal models and human work, with neurochemical, circuitry level, and neuroinflammatory processes to be highlighted. There will be discussion of the intricacies of determining the effectiveness of pharmacological treatments, and what the implications of such treatments might be.
Requisites: Requires a prerequisite course of NRSC 2100 or (NRSC 2125 and NRSC 2150), (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4545 (3) Neurobiology of Addiction
Covers an intensive survey and synthesis of recent findings contributing to our understanding of the neurobiological basis of addiction. Analysis of both drug and behavioral addictions will be made at the molecular, cellular and neurocircuitry levels and synthesized into models utilizing common themes between various addictions and contributing pathologies.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 5545
Requisites: Requires prerequisite courses of (NRSC 2100 or (NRSC 2125 and NRSC 2150)) and NRSC 4132 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4561 (1-3) Special Topics in Neuroscience
Presents and analyzes special interest topics from the broad and interdisciplinary field of neuroscience. The instructor determines the content of a particular section. Repeatable for up to 6 total credit hours.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of NRSC 2100 or (NRSC 2125 and NRSC 2150), (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4572 (3) Developmental Neurobiology
Examines the molecular and cellular processes that generate a functional nervous system. Topics covered include cell fate determination, neurogenesis and gliogenesis, cell migration, axon pathfinding, synapse formation and synapse refinement. Also explores how alterations in development can result in neurologic or psychiatric disorders. Formerly offered as a special topics course.
Requisites: Requires a prerequisite course of NRSC 2100 or (NRSC 2125 and NRSC 2150), (all minimum grade C-).
Recommended: Prerequisite or corequisite MCDB 3135.

NRSC 4841 (1-3) Independent Study in Neuroscience
Repeatable: Repeatable for up to 8.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Neuroscience (NRSC) majors only.

NRSC 5015 (3) Affective Neuroscience
Experiencing and learning from affect--emotional value--is a fundamental part of the human experience. When people started thinking of brains as computers, research on emotion fell by the wayside. Recently however, this has changed, and there is an explosion of work on the brain mechanisms of affective value. Covers recent advances in understanding the emotional brain.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 4015
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.

NRSC 5032 (3) Neurobiology of Learning and Memory
Provides a comprehensive treatment of how the brain acquires, stores, and retrieves memories. To do this we will consider (a) the methods used to address these issues, (b) what we know about how brain systems are organized to support memories of different types,and (c) the synaptic mechanisms that are involved.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 4032
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Biological

NRSC 5072 (3) Clinical Neuroscience: A Clinical and Pathological Perspective
Provides a review of the anatomy and physiology of the nervous system and then explores how alterations in these systems can result in neurologic or psychiatric disorders. Emphasizes pathological neuroanatomy, neurophysiology and neuropharmacology, which is essential for understanding problems related to health and disease.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 4072
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Biological

NRSC 5082 (3) Neural Circuits of Learning and Decision Making
Provides an in-depth survey of the neural mechanisms of learning, motivated behavior and decision making. Analysis will focus on the interaction of neural circuits underlying these processes with particular attention to the cellular, molecular and information-processing aspects of identified pathways and considered into the context learning-based and neuroeconomic models of choice.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 4082
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Grading Basis: Letter Grade

NRSC 5092 (3-4) Behavioral Neuroendocrinology
Provides an introduction to neuroendocrinology with a focus on the interaction between hormones and brain function. In addition to attending and meeting all the requirements for the lecture portion of the course, graduate students meet for an additional hour each week to discuss in depth behavioral neuroendocrinology relevant research articles.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 4092
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Biological

NRSC 5100 (3-4) Introduction to Neuroscience I
This first course in the year-long sequence of introduction to neuroscience provides an intensive introduction to the principles of neuroscience, covering detailed neuroanatomy, physiology, neurophysiology, neurochemical and developmental characteristics of the central nervous system. Structure-function relationships in sensory and motor systems are then explored with neuroanatomical and electrophysiological perspectives. Students enrolled in the Behavioral Neuroscience Program should enroll in this course for 4 credits. All other students should enroll in this course for 3 credits.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students and students in the interdepartmental neuroscience program.

NRSC 5110 (3-4) Introduction to Neuroscience II
Provides an intensive interdisciplinary introduction to the principles of neuroscience. It is a sequel to NRSC 5100. Provides a detailed overview of neurochemistry, neurodevelopment, neuromotor control, neurogenetics, and cognitive neuroscience. Open to undergraduates with instructor permission. Students enrolled in the Behavioral Neuroscience Program should enroll in this course for 4 credits. All other students should enroll in this course for 3 credits.
Requisites: Requires a prerequisite course of NRSC 5100 or NRSC 4052 or PSYC 4052 (minimum grade C-). Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students and students in the interdepartmental neuroscience program.

NRSC 5132 (3) Neuropharmacology
Study of drug action within the central nervous system. This course is designed to provide a fundamental understanding of the neurobiological and neurochemical mechanisms of drug action. Topics covered include the following: 1) principles of pharmacology; 2) brain neurotransmitter systems; 3) biochemical basis of psychiatric disorders and their pharmacological treatment.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 4132
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Biological

NRSC 5262 (3) Mammalian Neuroanatomy
Provides a detailed overview of peripheral and central nervous system connectional neuroanatomy targeted at delineating functional sensory, motor and motivational systems and the control of behavior and cognition. Emphasizes histological, anatomical and functional techniques employed in investigations of the nervous system. Formerly PSYC 5262.
Requisites: Requires a prerequisite course of NRSC 2100 or NRSC 5100 or NRSC 4052 or PSYC 4052 (minimum grade C-). Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Biological

NRSC 5545 (3) Neurobiology of Addiction
Covers an intensive survey and synthesis of recent findings contributing to our understanding of the neurobiological basis of addiction. Analysis of both drug and behavioral addictions will be made at the molecular, cellular and neurocircuitry levels and synthesized into models utilizing common themes between various addictions and contributing pathologies.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 4545
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.

NRSC 5911 (3) Teaching of Neuroscience
Offers a rich experience for students to develop and organize curriculum to complement the Neuroscience core courses. Offers a valuable teaching experience utilizing computational modeling to simulate experimental results. Any Neuroscience curriculum course, such as Intro to Neuroscience I or II, Neuropharmacology, Neurobiology of Learning and Memory or Behavioral Neuroscience may be appropriate.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.

NRSC 6000 (1-3) Introduction to Laboratory Methods
Introduces methodology and techniques used in biological research. Designed as a tutorial between a few students and one faculty member. Students are expected to read original research papers, discuss findings, and to gain training in techniques necessary to plan and execute experiments in selected areas. These include but are not limited to, for example, surgical approaches, behavioral techniques, molecular biology approaches, and imaging.
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Behavioral Neuroscience program graduate students.
Grading Basis: Letter Grade

NRSC 6100 (2) Advances in Neuroscience Seminar
Designed for beginning graduate students interested in neuroscience. Students read, discuss, and evaluate the primary literature on a number of current topics in neuroscience as well as attend the seminar program in neuroscience.
Repeatable: Repeatable for up to 8.00 total credit hours.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.

NRSC 6602 (1-3) Behavioral Neuroscience Professional Skills Development
Enrolled graduate students in the behavioral neuroscience program will be asked to prepare, present and receive feedback on scientific presentations of their own research or from review of a current research project.
Repeatable: Repeatable for up to 14.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Grading Basis: Letter Grade

NRSC 7102 (1-3) Topics in Neuroscience
Advanced seminar dealing with different specialized topics in neuroscience. Instructor consent required for students outside of the department.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of NRSC 5110 (minimum grade D-). Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.

NRSC 7152 (3) Special Topics in Neuroscience V
Advanced seminar dealing with several different specialized topics in Neuroscience.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.

Norlin Scholars (NRLN)

Courses

NRLN 2000 (3) Ways of Knowing: Constructions of Knowledge in the Academy and Beyond
This course asks students to interrogate natural learning tendencies, how they know what they know, and how to cultivate other ways of knowing beyond intellectual. They analyze how knowledge is created, discovered, and interpreted. They¿ll explore what faculties are involved in learning, seeing, understanding and knowing; how revolutions in knowledge arise; the relationship between knowledge and power; and what wisdom is. Students draw on different ways of expressing knowledge, including the intellect, intuition, and more. Department consent required.
Equivalent - Duplicate Degree Credit Not Granted: ARSC 2000
Requisites: Restricted to Norlin Scholars students only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

NRLN 3500 (3) Constructions of Knowledge in the Fields
This course invites students to investigate how their fields construct knowledge and are constructed. Its interdisciplinarity encourages them to think critically about all dimensions of the field, from its ancient history to breaking news, its working theories to working conditions, its major controversies to the politics and passions that fuel them. Through theory, case study, film, and more, students come to see their fields as ways of knowing, living, working, and engaging in the world. Department consent required.
Requisites: Restricted to Norlin Scholars students only.
Grading Basis: Letter Grade

Operations and Information Management (OPIM)

Courses

OPIM 6080 (3) Operations Management
Covers demand forecasting, capacity management, scheduling, inventory planning and management, production planning and control, materials requirements planning, just-in-time production systems, product design and process selection, elements of statistical process control, service operations and quantitative techniques for operations decision making.
Equivalent - Duplicate Degree Credit Not Granted: EMEN 5500

OPIM 6820 (3) Special Topics in Systems
Offered irregularly to provide opportunity for investigation into new frontiers in systems.
Repeatable: Repeatable for up to 6.00 total credit hours.

OPIM 6900 (1-3) Independent Study
Requires prior consent of dean and instructor under whose direction study is taken. Intended only for exceptionally well-qualified business seniors who desire to study an advanced topic. Departmental form required.

OPIM 6950 (1-6) Master's Thesis

OPIM 7110 (3) Simulation Modeling and Analysis
Introduces the concepts of simulation modeling. Provides practical experience with real examples using popular commercial simulation packages such as Arena or Extend. Emphasizes discrete event simulation, but also covers topics in Monte Carlo simulation and system dynamics. Practical examples from operations management, manufacturing and services are used to give students an appreciation for the wide scope of application and the robust nature of simulation modeling in the context of decision making.

OPIM 7120 (3) Discrete Optimization
Covers the modeling and solution of discrete problems that arise in business and engineering. Classical techniques such as cutting planes and branch and bound are covered. Emphasizes the application of metaheuristic procedures, such as tabu search and evolutionary approaches, to the solution of practical combinatorial optimization problems.

OPIM 7210 (1-3) Doctoral Seminar: Special Topics in Operations Research
Introduces the fundamental tools and techniques in the field of operations research. Practical examples from operations management, manufacturing, and services are used to give students an appreciation for the wide scope of applications.

OPIM 7220 (1-3) Doctoral Seminar: Special Topics in Optimization
Covers the modeling and solution of discrete problems that arise in business and engineering. Classical techniques such as cutting planes and branch and bound are covered. Emphasizes the application of metaheuristic procedures, such as tabu search and evolutionary approaches, to the solution of practical combinatorial optimization problems.

OPIM 7230 (1-3) Doctoral Seminar: Special Topics in Operations Management
Covers concepts, models, and solution techniques relevant to the management of the processes required to provide goods or services to consumers. Emphasizes supply chain systems topics such as production, inventory, distribution, and scheduling. Management science and operations research methodology is also applied to problems such as facility capacity planning, facility design, and location analysis.

OPIM 7240 (1-3) Doctoral Seminar: Special Topics in Stochastic Optimization
Covers the basic models and solution techniques for stochastic dynamic programs with a finite or infinite number of stages. Application domains include, among others, revenue management and pricing, manufacturing, supply chains, service systems, and economics. Approximate solution techniques for problems involving large state/decision spaces and/or complex dynamics over time will also be discussed.

OPIM 7250 (1-3) Doctoral Seminar: Special Topics in Empirical Methods
Covers empirical research methods for operations management. Topics include statistical and econometric analysis with a wide range of applications, including sustainable operations, supply chain management, and revenue management and pricing.

OPIM 7330 (3) Advanced Operations Management Modeling
Covers concepts, models and solution techniques relevant to the management of the processes required to provide goods or services to consumers. Emphasizes supply chain systems topics such as production, inventory, distribution and scheduling. Management science and operations research methodology is also applied to problems such as facility capacity planning, facility design and location analysis.

OPIM 7400 (3) Stochastic Dynamic Programming with Applications
Covers the basic models and solution techniques for stochastic dynamic programs with finite or infinite number of stages. Application domains include, among other, revenue management and pricing, manufacturing, supply chains, service systems, and economics. Approximate solution techniques for problems involving large state/decision spaces and/or complex dynamics over time will also be discussed.
Requisites: Restricted to graduate students only.
Recommended: Requisite an introductory course in optimization and probability.

OPIM 7800 (3) Doctoral Proseminar in Systems
Provides systems doctoral students with an orientation to current research and the academic discipline in operations and information systems. Familiarizes students with key schools of thought in the field, provides background on reference disciplines, examines significant research streams and helps students begin developing their own area of interest.

OPIM 7805 (3) Foundations of Research in Information Systems
Examines foundations of information systems research, including classic readings in information systems and its reference disciplines, different research approaches, processes of research, and classic and contemporary readings in major topics in information systems.
Requisites: Restricted to graduate students only.

OPIM 7810 (3) Technical Topics in Information Systems Research
Examines in depth a selection of topics in technical areas of information systems. Includes theoretical perspectives for technical topics, critical perspectives on past and current research, appropriate methods for examining technical topics, and development of students' ability to identify and develop research topics in technical areas.
Requisites: Restricted to graduate students only.

OPIM 7815 (3) Behavioral Topics in Information Systems Research
Covers both basic and advanced topics. Develops skill in designing, evaluating, and understanding both quantitative and qualitative research methods. Includes the development of research proposals, making and justifying methodological choices, writing research reports, and understanding how to publish in information systems.
Requisites: Restricted to graduate students only.

OPIM 7820 (3) Advanced Research in Information Systems
Examines advanced topics in information systems research, focusing on the electronic era and ebusiness. Examines foundations of ebusiness, including basic technical, organizational, and behavioral foundations. Covers leading edge research from both topical and methodological perspectives. Focuses on methods appropriate for studying ebusiness and examines future research directions.
Requisites: Restricted to graduate students only.

OPIM 8820 (3) Large-Scale Optimization
Covers computational techniques for solving optimization problems with a large number of variables and/or constraints. The techniques will have many business and engineering applications. With the emphasis on integer programming, we will study Branch-and-Cut, Lagrangian relaxation, column generation and Bender's decomposition, from both a theoretical and practical perspective. Students will learn to formulate and solve large-scale problems and learn how to apply these techniques for their research.

OPIM 8900 (1-3) Independent Study

OPIM 8990 (1-10) Doctoral Dissertation

Operations Management (OPMG)

Courses

OPMG 6900 (1-3) Independent Study
Repeatable: Repeatable for up to 3.00 total credit hours.
Additional Information: Departmental Category: MBA: Operations and Production Management

OPMG 6940 (1) Master's Candidate for Degree
Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree.
Additional Information: Departmental Category: MBA: Operations and Production Management

OPMG 6950 (1-6) Master's Thesis
Additional Information: Departmental Category: MBA: Operations and Production Management

OPMG 8990 (1-10) Doctoral Dissertation
Repeatable: Repeatable for up to 10.00 total credit hours.
Additional Information: Departmental Category: MBA: Operations and Production Management

Organization Management (ORMG)

Courses

ORMG 7310 (3) Seminar on Organizational Behavior
Doctoral level seminar covering such issues as leadership, job attitudes, motivation, absenteeism, turnover, goal setting, and group dynamics. Instructor consent required.
Requisites: Restricted to graduate students only.

ORMG 7320 (3) Doctoral Seminar: Organization Theory
Critically investigates major issues in organization theory and provides students with experience in comprehensively surveying literature in subject areas such as organization design, power, culture, innovation, technology, environment, size, and strategy. Instructor consent required.
Requisites: Restricted to Business Administration (BUAD) graduate students only.

ORMG 7330 (3) Seminar and Practicum in Organization Development
Provides a doctoral level seminar emphasizing intervention theory and method in effectuating organizational change in a client system. Deals with group development, educational processes, conflict resolution, organizational interventions, change strategies, and ethical and skill requirements of the consultative role.

ORMG 7800 (3) Doctoral Proseminar: Management
Provides an orientation to doctoral level study for all students in management. Through critical analysis of articles and student and faculty presentations, students learn about reading and writing research articles and gain an overview of the management discipline.
Requisites: Restricted to graduate students only.

ORMG 7830 (3) Research Design and Methods in Management
Introduction to research design and commonly used methods in management and organizational research. Covers the fundamental building blocks of research, provides the basics of a number of analytical techniques, and presents considerations important in analyzing multivariate data in organizational research.
Requisites: Restricted to Business (BUSN) graduate students only.

ORMG 8900 (1-3) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

ORMG 8990 (1-10) Doctoral Dissertation

Organizational Leadership (ORGL)

Courses

ORGL 5005 (3) Leadership and Organizations
Focuses on leadership theory and practice in contemporary organizations, discussing, comparing and contrasting theories of leadership, as well as factors that impact leadership in an organization. Students assess their own leadership style in the context of existing leadership models and potential organizational settings. Current topics and case studies in leadership are also discussed.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5010 (3) Leading Change and Innovation
Addresses theories, methods and challenges associated with organizational change. The course exposes students to forces that drive organizations to change, why organizations change or fail to change, impediments and barriers associated with change and how change helps organizations become more competitive and profitable. The course also examines a variety of approaches, tools and techniques for effective personal and organizational change.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5015 (3) Analytics and Data-Driven Decision Making
Focuses on analyzing data for making high quality predictions and decisions. The course covers use of statistical packages to make sense of large sets of data and turn them into actionable information for various audiences. The problems faced by decision makers in today's competitive business environment are often extremely complex and can be addressed by numerous possible courses of action. Evaluating these alternatives and choosing the best course of action represents the essence of this course.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5020 (3) Strategic Communication
Communicating competently in the workplace requires the ability to express thoughts and ideas across all domains and barriers of an organization. From one-on-one interactions, conflict management situations, and large scale presentations, Strategic Communication is the backbone of a successful business model and it represents one of the most important foundations of career success.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5025 (3) Performance Management
Focuses on organizational performance management systems and individual performance appraisals, explored in relationship to other human resource activities and processes designed to achieve organizational success. The course builds requisite management and leadership competencies of assessing performance, providing feedback, coaching, motivating, engaging, and increasing employees' achievement. Course utilizes lecture, readings, discussion, case studies, role plays, research, and/or personal peer feedback.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5105 (3) Negotiation and Conflict Resolution
Introduces students to theory and research behind negotiation and conflict resolution as they relate to professional experiences in the workplace. Students will learn necessary information for understanding how negotiation can be used to resolve conflict. Students will also apply knowledge about negotiation and conflict resolution through addressing negotiation problems that are commonly faced by managers and professionals.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5110 (3) Human Resources Law
Provides an overview of employment and labor law, regulations and emerging issues. Topics covered include: proper classification of workers and pay under the Fair Labor Standards Act; civil rights (race, color, gender, religious, disability, age and national origin discrimination); family and medical leave; workplace torts and contracts; privacy rights; OSHA; workers' compensation; and the National Labor Relations Act.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5115 (3) Total Rewards Strategies
Studies the total rewards provided to employees in return for their contributions to an organization. The principles of modern compensation and benefits are considered from legal, practical and theoretical perspectives. Students will examine how compensation and benefits can add strategic value by aligning total compensation with organizational goals.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5120 (3) Training and Development
Provides an understanding of the knowledge and skills required to assess employee training needs, design and administer employee training and development programs and evaluate both the efficiency and effectiveness of such programs. Training and development is based on the premise that people are the most valuable asset of an organization. Department consent required.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5205 (3) Strategic Planning in Organizations
Addresses theories, techniques and challenges associated with strategic planning. This course exposes students to the processes and tools that drive organizations to create a framework for developing, adapting and aligning organizational vision, mission, values and goals to achieve and sustain a strategic advantage. Students will gain the knowledge needed to facilitate, formulate, execute and monitor strategic planning for any organization.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5210 (3) Competitive Analysis and Positioning
Discusses how to perform a formal competitive analysis to understand better a company¿s brand, the brand's position in the marketplace, and the role the brand¿s competitors play in shaping the marketplace. The course addresses product positioning, Integrated Marketing Communications, markets (realized and potential), and company/brand strengths and weaknesses and how those may become threats. Students learn how to create Buyer Personas, conduct SWOT analyses, and establish Communication Objectives.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5215 (3) Organizations and the Law
Provides an overview on business law and the legal environment. Examines contracts, torts, sales, employment law, property, forms of business organization and government regulation, and how they impact managerial decision making.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5220 (3) Operations and Designs of Organizations
Addresses theories, techniques and challenges associated with effective designs of organizations. Students learn to use processes and tools that contribute to the competitiveness and survival of an organization, develop an understanding of how organizations affect and are affected by their environments and learn principles of organizational operations and design that can be used to improve the match between an organization and its environment.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5305 (3) Leadership and Intrapreneurship
Intrapreneurship involves the practice of behaving entrepreneurially within a large organization. This course teaches students how to employ concepts from organizational behavior, strategic management, leadership, and entrepreneurship to develop and lead an intrapreneurial organization. Specifically, the course addresses topics such as how to develop highly-functioning teams; effect organizational change; create a learning organization that values innovation, idea generation, and mobilization; and align the organization with its external environment to create a sustained competitive advantage.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5310 (3) Design Thinking
Explores the process of 'design thinking,' a systematic methodology that enables companies to identify a business model that truly addresses customer needs while providing greater returns for the company. The course looks at several real-world examples from different organizations that used design thinking to uncover compelling solutions. Topics addressed include customer journey mapping, value chain analysis, and ideation.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5315 (3) Strategy and Innovation
Addresses the issues and challenges of running a firm in a competitive environment. It is an integrative course emphasizing a total organizational perspective as opposed to a functional viewpoint (accounting, finance, marketing, information technology, etc.). The emphasis is on the use innovation as an integral part of business strategy. Furthermore, it gets deeper in studying sustaining innovation enhancements for traditional business models, as well as disruptive innovations for radical new technological models.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5320 (3) Building and Leading Innovative Work Teams
Learn how to build innovative work teams, with a special focus on promoting cohesion among groups that are inclusive and diverse. Students will learn how to diagnosis low-performing groups before they reach the point of failure. The course will also address the use of ¿tight-loose¿ leadership, which controls the process while giving free rein to diverse thinking. Special attention is paid to specific managerial tools, such as brainstorming, the nominal groups technique, devil¿s advocacy, and dialectical inquiry.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5405 (3) Diversity and Organizational Communication
This course examines how we construct our social identities through everyday communication and how these identities intersect in complex ways to shape and influence organizational life. In other words, this course reframes social identities like gender, race, sexuality, and so forth as something that we do through ongoing communication at work, rather than as something we are or have and merely bring to work. Importantly, this shift in perspective underscores how systems of inclusion and exclusion that seem to be ¿just the way things are¿ are actually made by us as we all participate in seemingly mundane, everyday dynamics of identity and power. In shifting attention from people to everyday practice ¿ it points toward innovative ways we can intervene in the current state of affairs and cultivate organizations that better understand and value difference and diversity. Accordingly, students will learn to reflect on their own contributions to routine practices of identity and power and will learn to expand thei
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5410 (3) Dynamics of Group Communication
Focuses on aspects of group communication leaders need for success in a variety of organizational contexts. Topics include decision making, creativity and innovation, conflict management, technology and virtual environments, difference and diversity, systems and institutions, group development and socialization, negotiation, identity, and interaction design. Organizational work often occurs in groups, and communication is essential to effective group work. Therefore, organizational leaders need to understand the dynamics of group communication and improve their group communication skills.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5415 (3) Organizational Culture
Focuses on theory and practice associated with the successful development of organizational culture. Topics covered include symbolic artifacts, beliefs, and assumptions that distinguish organizational, corporate, and occupational/professional identities. Related coverage of the communication practices (e.g., performance, ritual, etc.) through which the cultural elements of organizing are created, maintained and transformed. Special emphasis placed on issues of cultural leadership, cultural control, and cultural change in the contexts of contemporary globalization and technological innovation.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5420 (3) Knowledge Management
Knowledge Management (KM) initiatives typically define knowledge as a commodity that is easily stored and transferred; explores how technological advancements and claims to knowledge ownership constitute management in KM. The course then presents alternative models of knowledge and management in which knowledge is understood as a component of communicative action, and management is portrayed as the construction of communities of practice that share responsibility for innovation.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5505 (3) Sports and Coaching Leadership
Provides an understanding of the unique dynamics and structure of leadership in sports teams and organizations, as well as within the sports industry as a whole. It delves into the types of ethics-based leadership that create success in community, collegiate, professional, and Olympic teams and organizations. Topics include: coaching and player development, media relations, marketing, winning negotiations, sports and contract law, and venue management. Students will have the opportunity to view theory in practice at various sporting events, venues, and organizations, including the University of Colorado sports programs.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Recommended: Prerequisite completion of MSOL core courses.
Grading Basis: Letter Grade

ORGL 5506 (3) Leading Diversity, Equity, and Inclusion in Organizations
This course critically interrogates leadership theory and practice to identify the most promising approaches to advancing diversity, equity, and inclusion within contemporary organizations. The course offers an increased understanding of organizations as social systems and how they function as powerful tools for either social stativity or transformation. Explore topics such as critical consciousness, systems thinking, intersectionality, racial capitalism, and social dominance. Students will be challenged to identify, analyze, and navigate socio-political structures in order to build an organizational culture that centers effectiveness, belonging, anti-racism, and social responsibility.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Recommended: Prerequisite completion of MSOL core courses.
Grading Basis: Letter Grade

ORGL 5605 (3) Leading Diversity, Equity, and Inclusion in Organizations
This course critically interrogates leadership theory and practice to identify the most promising approaches to advancing diversity, equity, and inclusion within contemporary organizations. The course offers an increased understanding of organizations as social systems and how they function as powerful tools for either social stativity or transformation. Explore topics such as critical consciousness, systems thinking, intersectionality, racial capitalism, and social dominance. Students will be challenged to identify, analyze, and navigate socio-political structures in order to build an organizational culture that centers effectiveness, belonging, anti-racism, and social responsibility.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Recommended: Prerequisite completion of MSOL core courses.
Grading Basis: Letter Grade

ORGL 5900 (3) Special Topics in Organizational Leadership
Variable topics of current interest in Organizational Leadership.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 5905 (3) Independent Study
Independent study in the field of Organizational Leadership.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

ORGL 6830 (3) Master's Capstone (MSOL)
Taken at/near the end of the MSOL program, this course allows students to synthesize the theoretical knowledge acquired during the program to complete a basic business research project involving actual data in a realistic setting. Students will recognize/identify a problem; form a methodology for possible solution of an hypothesis; gather data; verify/test the hypothesis; and form implementable recommendations. Department consent required.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

Outdoor Recreation (OREC)

Courses

OREC 5000 (2) Introduction to the Outdoor Recreation Economy
In this course, the outdoor recreation economy is viewed holistically. Content in this course provides an introduction to public lands and natural resources policy, challenges and opportunities for community economic development, and the outdoor recreation industry. Discuss and critically examine Outdoor Recreation Economy definitions, theories, and frameworks and explore the diverse career opportunities that exist within the outdoor recreation industry. Key stakeholders are identified, along with current and future trends, opportunities, and challenges. The need for sustainable practices and cross-cultural understanding and communication within the outdoor recreation economy is also emphasized. Finally, we will explore the diverse career opportunities that exist within the outdoor recreation industry.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5001 (2) Sustainability Practices within the Outdoor Recreation Economy
Explore sustainability practices that create a diverse, resilient, equitable, and just outdoor recreation industry. Focus on sustainability practices for outdoor products and businesses, tourism and guiding services, as well as communities and destinations. Various certi¿cation programs and processes for outdoor brands, companies and destinations that are relevant to the Outdoor Recreation Economy are examined, alongside broader social, environmental, and economic movements and factors in¿uencing the future trajectory of the Outdoor Recreation Economy. Examine best practices surrounding the implementation and communication of sustainability efforts.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5002 (2) Leading Sustainable Change in the Outdoor Recreation Economy
Explore the relationship between self-awareness, personal purpose, and leadership. Focus on the building blocks of collaborative leadership and organizational ethics. Examine different philosophies of leadership and explore how to engage with diverse constituencies. Learn how to participate in ethical decision-making. Compare training, tools, and techniques to promote and endorse ethical professional behavior within organizations.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5003 (2) Outdoor Recreation Project Tools and Skills
Project management skills are critical for anyone wanting to lead sustainable change. In this course, students will learn to assume responsibility for ensuring overall success of a project given an array of challenges with a focus on projects related to the outdoor industry. They will learn to apply their skill and knowledge, both of project management best practices as well as of team leadership, to ensure the successful progression and completion of the undertaking at hand. This remote, synchronous course will integrate project management concepts, knowledge, and skills to provide the foundational knowledge and a working understanding of project management processes, systems, tools, and leadership.
Requisites: Restricted to graduate students only.
Recommended: restricted to Outdoor Recreation Economy students.
Grading Basis: Letter Grade

OREC 5004 (2) Environmental Justice and Stewardship
Explore an interdisciplinary approach to environmental justice and stewardship. Learn how law, policy, and outdoor recreation practices are connected to class, gender, racial, and religious disparities. Learn how law and outdoor recreation practices can contribute to both environmental integrity and social equity. Issues of water justice, public lands, sacred sites, biodiversity, wildlife management, public health, and access to nature through broader outdoor recreation are also addressed.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5005 (2) Issues in Public Lands
Explore the historical legacy, present controversies, and the projected future of public lands. Review the role that federal, tribal, state, and local governments play in the management of public lands and develop an understanding of the statutes governing public lands management and agency actions. Apply analytical lenses to understanding the drivers of conflict over public lands management using examples of place-based case studies, such as Bears Ears National Monument and the roadless rule in the Tongass National Forest. Learn from guest lectures with practitioners on current issues in public lands management, including the balance between outdoor recreation and conservation, inclusive access for all, and tribal consultation.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5006 (2) Issues in Natural Resources Management
Address the challenge of managing natural resources within the increasingly complex context of climate change and development, while balancing diverse and competing values. Explore case studies across topics and geographies and apply theoretical and practical policy tools to address problems of natural resource policy and management for just and durable outcomes.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5007 (2) Public Lands and Natural Resources Policy Project
The project course represents a culmination of the certificate where students apply the skills and knowledge gained from certificate subject courses to address current policy, business, or community development challenges in the outdoor recreation economy. Students have the opportunity to analyze, research, develop, and implement innovative strategies, processes and solutions on an experiential project related to public lands and natural resources policy in the outdoor recreation economy. Students work collaboratively with colleagues and may engage stakeholders.
Requisites: Requires prerequisite courses of OREC 5004, 5005, 5006 and 5017 (all minimum grade C). Restricted to graduate students only.
Recommended: restricted to Outdoor Recreation Economy students.

OREC 5008 (2) Strategies for Resilient Outdoor Recreation Economy Communities
Focuses on the various strategies that can be adopted to develop and grow a resilient outdoor recreation economy within a given place. Through critically examining these strategies and how they have been applied, the many and different ways in which the ORE can contribute to community economic development and building resilient communities is analyzed.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5009 (2) Resilient Communities and Business Development
Communities and businesses are often on the front lines when it comes to climate change impacts and natural disasters. Resilient systems can enhance communities and ultimately lower costs for businesses. This course addresses public and private sector actions that can be taken to enhance resiliency for communities and businesses.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5010 (2) Tools for Resilient Outdoor Recreation Economy Communities
Focuses on the practical community economic development tools that support the outdoor recreation economy and help build resilient communities. By studying these tools and how they¿re commonly used, their importance to a community¿s outdoor recreation economy and its resiliency will be more readily understood and appreciated.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5011 (2) Outdoor Recreation Economy Community Economic Development Project
The project course represents a culmination of the certificate where students apply the skills and knowledge gained from certificate subject courses to address current policy, business, or community development challenges in the outdoor recreation economy. Students have the opportunity to analyze, research, develop, and implement innovative strategies, processes and solutions on an experiential project that addresses current community economic development challenges and/or opportunities resulting from the outdoor recreation economy. Students work collaboratively with colleagues and may engage stakeholders.
Requisites: Requires prerequisite courses of OREC 5018, 5008, 5010, and 5019 (all minimum grade C). Restricted to graduate students only.
Recommended: restricted to Outdoor Recreation Economy students.

OREC 5012 (2) Strategic Leadership in the Outdoor Recreation Economy
Develop the skills and tools to confront the unique opportunities and complex situations Outdoor Recreation Economy leaders inevitably face when making decisions that can affect the lives of investors, employees, community members, and other stakeholders. Analyze business decisions in a broad range of contexts utilizing considerations of ¿nancial performance, personal values, and the values of key stakeholders to develop individual decision-making frameworks for use in your career as you earn increasing levels of responsibility and decision-making authority. This course aims to help develop purpose-driven leaders who go out into the world and build lives and organizations that do both well and good.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5013 (2) Circular Economy and Integration of Sustainable Business Practices
Explore the fundamentals of a circular economy, the business value in a circular economy, how business models are presently shifting, and most importantly, why businesses should become part of this transformational shift. Examine the tools and practices needed to set, implement, track, and communicate progress towards sustainability goals. Develop an understanding of sustainability measurement and the skills needed to critique and improve sustainability outcomes for businesses and their stakeholders. Knowledge and skills from this course can be used to build sustainability strategies with clear and measurable outcomes, and to develop actionable sustainability plans.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5014 (2) Outdoor Recreation Business Project
The project course represents a culmination of the certificate where students apply the skills and knowledge gained from certificate subject courses to address current policy, business, or community development challenges in the outdoor recreation economy. Students have the opportunity to analyze, research, develop, and implement innovative strategies, processes and solutions on an experiential project related to current leadership and/or sustainability challenges resulting from the outdoor recreation economy within specific businesses. Students work collaboratively with colleagues and may engage stakeholders.
Requisites: Requires prerequisites courses of OREC 5012, 5013, 5015 and 5020 (all minimum grade C). Restricted to graduate students only.
Recommended: restricted to Outdoor Recreation Economy students.

OREC 5015 (2) Building an Outdoor Recreation Enterprise
Explore entrepreneurial skills and learn how to successfully build an outdoor recreation enterprise. Students examine the fundamentals of how to develop outdoor recreation business concepts in order to turn them into a successful enterprise.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5016 (2) Foundations of Environmental Law and Culture
Explores the historical framework of environmental law and policy as it relates to federal, state, and tribal governments. Examine how cultural ideologies shape environmental law and how environmental law shapes cultural ideologies. Learn how environmental decision-making through law and policy is connected both directly and indirectly to outdoor recreation.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5017 (2) Environmental Movements, Alliances, and Legal Change
Examine the nuances of past and ongoing environmental movements and trends with a focus on public land management, outdoor recreation, water allocation, tribal self-determination, access to nature, and environmental justice. Study how law and policies have changed over the years and explore legal strategies to ensure a more sustainable, inclusive, and principled relationship with nature and fellow citizens. Learn to anticipate where environmental disputes are likely to arise in relation to outdoor recreation, and explore potential opportunities for collaboration and resolution.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5018 (2) Community and Place Matters
Explore the towns and communities that nurture and develop outdoor recreation businesses and amenities. Compare how communities provide a place for people to live, as well as the necessary infrastructure, resources and supporting facilities and services that make communities great places to live, work, visit and recreate. Examine the structure and organization of communities and the role of government and governance. Learn how the engagement and participation of community members in decision-making through democratic processes can influence the development of the outdoor recreation economy and community economic development outcomes.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5019 (2) Building Community Capacity and Readiness for the Outdoor Recreation Economy
How can communities ensure that development is not something that just happens to them, but rather is something that is instigated from within? How can communities ensure that development builds upon community strengths and assets and re¿ects the needs and wants of its members? What skills, knowledge, and tools do communities need to have at their disposal in order to inspire action and take charge of their future and become more livable, resilient and sustainable? This course seeks to answer these questions by examining how communities can build their capacity for change through the outdoor recreation economy and take proactive steps to improve their economic prospects and quality of life. Focus on how to build community capacity and readiness for the successful development of the Outdoor Recreation Economy. Emphasis is given to the different methods of building community capacity to ensure communities are in the best position to address challenges. Although every community is unique and the process of comm
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5020 (2) The Business of Outdoor Recreation
Examine the outdoor recreation industry and the operational life-cycle of outdoor recreation businesses. Focus on identifying and understanding industry-critical functions and interdependencies such as manufacturing, product development, branding, selling and distributing outdoor recreation products, and current and future trends.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5021 (2) Foundations of Inclusivity in the Outdoor Recreation Economy
We start by creating a safe space for deep learning, honest exploration, and open dialogue. This course will expand your knowledge and understanding of Diversity, Equity, and Inclusion (DEI). Everyone has the right to be treated fairly with dignity and respect. These are our human rights. Building a community, work environment, and society that is diverse, inclusive, equitable, and just requires a foundation from which to develop. DEI is an ongoing learning process and requires commitment, personal leadership, and accountability. This course will enable students to be a part of developing an inclusive foundation for their respective organizations and communities with knowledge, tools, and best practices from global leaders within the outdoor recreation economy and beyond. The course sets the intention to be a stepping stone to help break down the barriers to entry and participation while creating a more inclusive natural environment where all people can not only feel welcome but encouraged to become active p
Requisites: Restricted to graduate students only.

OREC 5022 (2) Cultivating Belonging and Accountability in the Outdoor Recreation Economy
Research shows that promoting diversity alone does not ensure a culture of inclusion and belonging. In this course, we work to create a secure and supportive environment for deep learning, honest exploration, and open dialogue. Belonging is a fundamental aspect of human existence and plays a crucial role in creating inclusive environments. This course aims to enhance your understanding and knowledge of how to center belonging as a part of Diversity, Equity, and Inclusion efforts in organizations (the workplace), communities, and within. Finally, this course explores the importance of accountability by focusing on 3 of the 5 success factors for DEIB (Diversity, Equity, Inclusion, and Belonging) integrated work: Having a meaningful definition of success, accountable and invested business leaders, and rigorous tracking and course correction.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5023 (2) Inclusive Leadership and Conscious Change in the Outdoor Recreation Economy
Through the practice of inclusive and conscious leadership, we shift our focus from "I" to "We," igniting interconnectedness across all aspects of life and work. The journey begins with the self-awareness to drive meaningful change. This course provides a framework for transitioning from inclusive leadership to intentional and transformative change within organizations, communities, and personal growth journeys. It examines how leadership contributes to the five fundamental success factors of DEIB integration.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5024 (2) Social Justice and Equity in the Outdoor Recreation Economy
Designed to provide students with a comprehensive understanding of the multifaceted forces that have shaped diverse communities, both historically and in the contemporary context. By the end of this course, students will possess the knowledge and analytical skills necessary to contribute meaningfully to discussions and actions aimed at advancing social justice and equity in the ORE and beyond.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5025 (2) Inclusivity and Belonging in the Outdoor Recreation Economy Project Course
In this course, students apply the concepts, knowledge, and skills gained in the other courses within this certificate to complete a real-world project. Students analyze, research, develop and implement innovative strategies, processes and designs, and solutions as relevant to the outdoor recreation economy. This course has an experiential foundation and requires collaboration with colleagues, stakeholders, and partner organizations.
Requisites: Requires prerequisite courses of OREC 5021, 5022, 5023 and 5024 (all minimum grade C). Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 5030 (4) Concepts and Practice in the Outdoor Recreation Economy: Project Course
In this course, which is experiential and workshop-driven, students will apply the concepts, knowledge, and skills gained in the other courses through their degree to complete an applied project with an external project partner. Students will analyze, research, develop, and implement innovative strategies, processes, and/or solutions to a defined problem related to the Outdoor Recreation Economy. This course will require collaboration with an external organization, a teammate(s), and ORE instructors.
Repeatable: Repeatable for up to 8.00 total credit hours.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

OREC 6100 (1-4) Special Topics for Outdoor Recreation Economy
A variety of topics not currently offered in curriculum; offered depending on instructor availability and student demand.
Repeatable: Repeatable for up to 18.00 total credit hours.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

Peace and Conflict Studies (PACS)

Courses

PACS 2500 (3) Introduction to Peace, Conflict and Security Studies
Introduces the related fields of peace, conflict and security studies. Examines causes and dynamics of conflict and violence (interpersonal to global). Examines theory and research concerning peace movements, conflict resolution and security institutions. Explores career options in related fields.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective Arts Sci Gen Ed: Distribution-Social Sciences

PACS 3540 (3) Migration, Human Rights, and Conflict in the Mediterranean
Faculty-led Global Seminar, based in Malta, provides the opportunity to study social, political, and economic issues surrounding international migration, Focuses on causes and consequences of recent migration flows from nations in the Middle East and Sub-Saharan Africa to European nations located in the Eastern Mediterranean. Students will interact with representatives of state governments, NGOs, and activist groups, and learn about the rich culture and history of Malta as a pivotal state promoting international diplomacy and regional security.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3540
Requisites: Requires prerequisite course of PACS 2500 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective

PACS 3700 (3) Communication and Conflict Management
Examines interdisciplinary concepts and theories enabling students to better understand different types of conflict, sources of conflict, and communication patterns that serve to create, maintain and transform conflict. Teaches practical skills in conflict management areas such as bargaining, facilitation, mediation and negotiation.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PACS 2500.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PACS 3800 (3) Security Studies
Provides an introduction to the academic field of "Security Studies". Focuses on motives, institutions and processes associated with societal defense against threats posed to cherished possessions and the pursuit of stable, autonomous and prosperous existence. Reviews related theoretical traditions associated with militarism, war and conflict. Covers key concerns of (in-)security in post 9/11 global society, including surveillance, terrorism, genocide and insurgency.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PACS 3850 (3) International Conflict Resolution and Peacebuilding
Provides an introduction to the interdisciplinary field of international conflict resolution and peacebuilding. Provides tools for analyzing and intervening in contemporary manifestations of violent social conflict. Argues for an approach to international affairs rooted in more nuanced understandings of the nature of violent conflict and its dynamics. Bases the quest to build sustainable peace not on military supremacy or coercive diplomacy, but rather the ability of states and peoples to work collaboratively to develop mutually beneficial solutions aimed at the satisfaction of basic needs, collective security, political representation, and respect for human dignity. Explores how international conflicts are mitigated, contained, and resolved through processes such as DDR (disarmament, demobilization, and reintegration), citizen diplomacy, and reconciliation.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3850
Recommended: Prerequisite PACS 2500.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective

PACS 3860 (3) Environmental Conflict and Conflict Resolution
This course focuses on the environment as a source of conflict in international and intranational contexts. Considers natural resource scarcity and extraction as causes of conflict and violence, the growing phenomenon of climate-change-induced migration, as well as the effects of war on the environment. Prospects for conflict intervention involving multiparty stakeholders, international cooperation, and environmentally sustainable development practices are explored as methods for resolving these situations.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PACS 3870 (3) Nonviolent Civil Resistance: Movements and Strategies
Explores the development of nonviolent practices for creating social change. Examines cases from around the globe, both historical and contemporary, to understand the reasons actors form social movements, as well choices in tactics and strategies associated with nonviolent civil resistance to achieve their aims. Special attention is paid to the relationship between community organizing, social movement activism, and nonviolent revolution.
Recommended: Prerequisite PACS 2500.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PACS 4000 (3) Special Topics in Peace, Conflict and Security Studies
Upper division umbrella seminar spanning a variety of topics relevant to the study of peace, conflict and security related issues. Subjects addressed under this heading vary according to student interest and faculty availability.
Repeatable: Repeatable for up to 9.00 total credit hours.
Recommended: Prerequisite PACS 2500, PACS 3700 or PACS 3850.
Grading Basis: Letter Grade

PACS 4100 (3) Managing Organizational Conflict
This course introduces students to organizational conflict from a leadership perspective, the facilitative role leaders play in conflict intervention, and how leadership styles can affect organizational dynamics. Engaging with conflict productively requires leaders to recognize relational and structural factors that generate conflict. Leaders must guide difficult conversations and manage a range of situations. This includes challenges such as working in teams, remote/hybrid formats, cultural dimensions, and those related to gender discrimination and racial harassment.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PACS 3700 or PACS 3860.
Grading Basis: Letter Grade

PACS 4150 (3) Mediation Skills
This 3-credit seminar trains students in facilitative mediation. The essential skills learned in this course are for anyone interested in helping people navigate, manage, and resolve conflicts in personal and professional settings. Students will engage in hands-on, experiential learning, participating in role plays and other exercises designed to teach them the basics of mediation as well as how to strengthen their communication and listening skills while working with those experiencing conflict. Formerly offered as a special topics course.
Recommended: Prerequisite PACS 3700.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PACS 4500 (3) Senior Seminar: Research in Conflict Contexts
Course prepares students interested in working in the field of peace, conflict, and security studies with necessary research skills to navigate conflict contexts and collaborate with conflict-affected populations. Students conduct in-depth research projects, and develop data collection and analysis skills, specifically focusing on interviews, surveys, and secondary sources. Emphasizes use of critical thinking skills in writing, presentations, and class discussion, as well as explores ethical considerations faced in conflict zones.
Recommended: Prerequisite course of PACS 2500, PACS 3700, PACS 3850, or PACS 3860 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PACS 4900 (3) Undergraduate Independent Study
Provides opportunities for independent study at the upper-division undergraduate level. Students work on research or a creative project guided by PACS faculty. May only be taken once for 3 credit hours. Department consent required prior to registration.
Requisites: Requires prerequisite courses of PACS 2500 and PACS 3700 or PACS 3850 (minimum grade C). Restricted to students with 57-180 credits (Junior or Seniors).
Recommended: Prerequisite C average or higher in all PACS coursework and enrollment in the PACS Certificate Program.
Grading Basis: Letter Grade

Performance Music (PMUS)

Courses

PMUS 1105 (1) Keyboard Musicianship 1
Introduces the keyboard, music reading in the treble and bass clefs, basic theory and keyboard harmony, technical patterns, and improvisation. Studies easy classical and pop repertoire.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Keyboard Musicianship

PMUS 1117 (2) Musical Theatre Studio I
Explores creativity, collaboration, and communication in the craft of acting both in musical theatre and stage acting, specifically directed to the Musical Theatre degree student. Focuses on terms and concepts of psychological realism fundamental to the actors' process through solo work and ensemble exercises. Emphasis on developing a character through analysis and scene study. Various acting modalities will be introduced.
Equivalent - Duplicate Degree Credit Not Granted: THTR 1117
Requisites: Restricted to BFA Musical Theatre and BM Musical Theatre students only.
Grading Basis: Letter Grade

PMUS 1184 (1) Voice Class
Involves basic vocal technique and easy solo repertoire taught through a group medium, for beginner and intermediate level students.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Voice

PMUS 1205 (1) Keyboard-Musicianship 2
Continuation of PMUS 1105.
Requisites: Requires prerequisite course of PMUS 1105 (minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Keyboard Musicianship

PMUS 1217 (2) Musical Theatre Studio II
Explores creativity, collaboration, and communication in the craft of acting both in musical theatre specifically directed to the Musical Theatre degree student. Focuses on terms and concepts of psychological realism fundamental to the actors' process through solo work and ensemble exercises. Emphasis on developing a character through analysis and scene study. This course is a continuation of PMUS 1117.
Requisites: Requires prerequisite course of PMUS 1117 (minimum grade D-). Restricted to College of Music BM/MT majors and BFA Musical Theatre (TBFA-BFA) students only.
Grading Basis: Letter Grade

PMUS 1305 (3) International Chamber Music Seminar
Study, learn, and perform works of chamber music literature particularly from the U.S. and the destination country, and be immersed in the culture of that country.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Recommended: admission by audition.

PMUS 1406 (2) Applied Songwriting
Fosters the songwriting student's creative work and develops the individual artistic voice/vision through one-on-one interaction. Assesses the songwriting student's progress and prepares the songwriting student for recording and/or performance of his/her music.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Prerequisite of Basics of Songwriting MUSC 1051. Restricted to College of Music (MUSCU) undergraduate students only.

PMUS 1515 (2) Jazz Piano Class
Offers small group instruction in the concepts and skills required to learn jazz piano. Students not only learn basic techniques required to play jazz but also become familiar with the theory, grammar, and lexicon of the jazz language. Offered fall only.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Requires prerequisite course of PMUS 1205 (minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Keyboard Musicianship

PMUS 1726 (2-4) Voice
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSC) majors or graduate students only.

PMUS 1886 (2-4) Jazz Voice
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

PMUS 2044 (3) Foundational Musical Theatre Styles
Investigates foundational styles and performative and physical tags. Students will identify and perform a variety of Musical Theatre repertoire, including European Operetta, Gilbert and Sullivan, Musical Comedy, Rock, Popsical, and Contemporary styles. Focuses on the connection between voice, breath and body and its importance to these styles.
Requisites: Restricted to BFA Musical Theatre and BM Musical Theatre students only.
Grading Basis: Letter Grade

PMUS 2105 (1) Keyboard-Musicianship 3
Continuation of PMUS 1205.
Requisites: Requires prerequisite course of PMUS 1205 (minimum grade D-). Restricted to College of Music (MUSCU) majors only.
Additional Information: Departmental Category: Keyboard Musicianship

PMUS 2117 (2) Musical Theatre Studio Class III
Explores the creation of extended musical theatre performance using acting, movement and vocal techniques, with an emphasis on the ensemble. Topics: finding the arc of a role, staging techniques for small and large ensembles, rehearsal and performance skills for a range of contexts from summer stock to Broadway.
Equivalent - Duplicate Degree Credit Not Granted: THTR 2117
Requisites: Requires prerequisite course of PMUS 1217 (minimum grade D-). Restricted to College of Music Undergraduates (MUSCU) and BFA Musical Theatre (TBFA-BFA) students only.
Grading Basis: Letter Grade

PMUS 2184 (1) Voice Class
Continuation of PMUS 1184, with more advanced repertoire and vocal techniques.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of PMUS 1184 (minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Voice

PMUS 2205 (1) Keyboard-Musicianship 4
Continuation of PMUS 2105.
Requisites: Requires prerequisite course of PMUS 2105 (minimum grade D-). Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Keyboard Musicianship

PMUS 2406 (2) Applied Songwriting
Fosters the songwriting student's creative work and develops the individual artistic voice/vision through one-on-one interaction. Assesses the songwriting student's progress and prepares the songwriting student for recording and/or performance of his/her music.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Prerequisite of Basics of Songwriting MUSC 1051. Restricted to College of Music (MUSCU) undergraduate students only.

PMUS 2726 (2-4) Voice
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

PMUS 2886 (2-4) Jazz Voice
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

PMUS 3117 (2) Musical Theatre Studio Class IV
Explores the development of solo performance sets of songs in cabaret and small theatre venues incorporating a range of musical styles. Topics include: How to create an audition video, Commercial auditions, Conceive, construct and perform a cabaret and/or small theatrical event, and how to collaborate with a musical production team.
Equivalent - Duplicate Degree Credit Not Granted: THTR 3117
Requisites: Requires prerequisite course of PMUS 2117 (minimum grade D-). Restricted to College of Music Undergraduates (MUSCU) and BFA Musical Theatre (TBFA-BFA) students.
Grading Basis: Letter Grade

PMUS 3167 (3) Opera Theatre Stagecraft
Introduction to the processes, materials, and equipment used in theatrical production. Lecture and lab requirements. Lab experiences include introductory work in the opera scenery, property, costume, and electrical shops.
Requisites: Restricted to College of Music (MUSC) majors or graduate students only.
Additional Information: Departmental Category: Voice

PMUS 3305 (3) International Chamber Music Seminar
Study, learn, and perform works of chamber music literature particularly from the U.S. and the destination country, and be immersed in the culture of that country.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Recommended: Admission by audition.

PMUS 3406 (2) Applied Songwriting
Fosters the songwriting student's creative work and develops the individual artistic voice/vision through one-on-one interaction. Assesses the songwriting student's progress and prepares the songwriting student for recording and/or performance of his/her music.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Prerequisite of Basics of Songwriting MUSC 1051. Restricted to College of Music (MUSCU) undergraduate students only.

PMUS 3886 (2-4) Jazz Voice
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

PMUS 4105 (1) Supervised Accompanying
Assigned projects, both vocal and instrumental, are coached by collaborative piano faculty and others. May involve recital, jury, or master class performances.
Repeatable: Repeatable for up to 10.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of MUSC 1325 and MUSC 2365 (all minimum grade D-). Restricted to College of Music students only.
Additional Information: Departmental Category: Keyboard Musicianship

PMUS 4117 (2) Musical Theatre Studio V
Equivalent - Duplicate Degree Credit Not Granted: THTR 4193
Requisites: Restricted to College of Music undergraduates (MUSCU) and BFA Musical Theatre (TBFA-BFA) students only.
Grading Basis: Letter Grade

PMUS 4137 (1) Opera Theatre 1
Addresses issues related to young artist development. Areas of concentration include (but are not limited to) acting technique, resume preparation, audition technique, scene analysis, and role preparation. The acting technique is addressed in this course through textbook reading and exercise.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSC) majors or graduate students only.
Additional Information: Departmental Category: Voice

PMUS 4147 (1) Opera Theatre 2
Continuation of PMUS 4137. Further scene analysis andmovement exercises are addressed in this class.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Voice

PMUS 4157 (1-3) Opera Practicum
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSC) majors or graduate students only.
Additional Information: Departmental Category: Voice

PMUS 4167 (1-3) Opera Theatre Lab
Advanced work in the scenery, property, costume, and electrical shops in opera performance. Additional experiences may include positions with opera run crews, the box office, or other supporting areas.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Voice

PMUS 4257 (1) Musical Theatre Performance/Ensemble Practicum
Enables students to perform in musical theatre productions produced by the BM/MT degree program in varied roles. Students will perform in a variety of musical styles ranging from Operetta to Broadway musicals. They will work with a broad range of theatre professionals each semester and learn multiple stage techniques. A 'working theatre ensemble' model will be emphasized throughout the course.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Grading Basis: Letter Grade

PMUS 4271 (2) Improvisation Basics
Designed to introduce students to the basics of improvisation through 4 different modules of study: Jazz, Classical/Baroque, Free Improv and The Americas. Students will gain experience and confidence in areas of improvisation through study, listening and performance of the 4 areas of improvisation covered in the course.
Equivalent - Duplicate Degree Credit Not Granted: PMUS 5271
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.
Additional Information: Departmental Category: Choral and Instrumental Music

PMUS 4406 (2) Applied Songwriting
Fosters the songwriting student's creative work and develops the individual artistic voice/vision through one-on-one interaction. Assesses the songwriting student's progress and prepares the songwriting student for recording and/or performance of his/her music.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Prerequisite of Basics of Songwriting MUSC 1051. Restricted to College of Music (MUSCU) undergraduate students only.

PMUS 4425 (1) Tuning and Temperaments
Teaches harpsichordists how to tune by ear (unisons and octaves), how to select historical temperaments, and how to create an appropriate tuning for selected repertoire.
Equivalent - Duplicate Degree Credit Not Granted: PMUS 5425
Repeatable: Repeatable for up to 2.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

PMUS 4497 (1-2) Vocal Repertoire Coaching
Group coaching class to prepare for voice recitals as well as to learn vocal repertoire including historical background, composers, styles, and poetic interpretation.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSC) majors or graduate students only.
Additional Information: Departmental Category: Voice

PMUS 4517 (2) Orchestral Repertoire
Prepares students for pre-professional and professional auditions commonly encountered after completing undergraduate studies in music. Through score study, listening sessions, individual string group coaching, and mock auditions, students will gain familiarity with standard orchestral repertoire, strokes, styles, and performance practices. Emphasis will be placed on ensemble playing, section responsibilities, audition preparation techniques, and general orchestral citizenship concepts.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSC) majors or graduate students only.
Additional Information: Departmental Category: Choral and Instrumental Music

PMUS 4886 (2-4) Jazz Voice
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

PMUS 5137 (2) Opera Theatre 1
Addresses issues related to young artist development at the graduate level. Areas of concentration will include (but are not limited to) acting technique for singers, resume preparation and scene and character analysis. Students will participate in acting and improvisation exercises. Substantial classical voice study is required.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Recommended: Prerequisite Voice Majors only.
Additional Information: Departmental Category: Voice

PMUS 5147 (2) Opera Theatre 2
Continuation of PMUS 5137.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Voice

PMUS 5184 (1) Graduate Voice Class
Teaches solo and choral singing and vocal modeling. Designed for choral and music education graduate students. Instructor consent required.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Voice

PMUS 5271 (2) Improvisation Basics
Designed to introduce students to the basics of improvisation through 4 different modules of study: Jazz, Classical/Baroque, Free Improv and The Americas. Students will gain experience and confidence in areas of improvisation through study, listening and performance of the 4 areas of improvisation covered in the course.
Equivalent - Duplicate Degree Credit Not Granted: PMUS 4271
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 5305 (3) International Chamber Music Seminar
Study, learn, and perform works of chamber music literature particularly from the U.S. and the destination country, and be immersed in the culture of that country.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Recommended: Admission by audition.

PMUS 5425 (1) Tuning and Temperaments
Teaches harpsichordists how to tune by ear (unisons and octaves), how to select historical temperaments, and how to create an appropriate tuning for selected repertoire.
Equivalent - Duplicate Degree Credit Not Granted: PMUS 4425
Repeatable: Repeatable for up to 2.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 5497 (1-2) Vocal Repertoire Coaching
Group coaching class to prepare for voice recitals as well as to learn vocal repertoire including historical background, composers, styles, and poetic interpretation. Class may fulfill voice literature requirements when appropriate classes are not offered. Also available: weekly individual coaching to prepare for voice recitals and other projects. Diction, musical styles, and interpretation (music and text) are the main focus of this course. For graduate voice students and collaborative pianists.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Additional Information: Departmental Category: Voice

PMUS 5526 (2-3) Composition
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 5536 (2-4) Intermed Conducting
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 5566 (2-3) Guitar
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 5576 (2-3) Harp
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 5586 (2-3) Harpsichord
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 5626 (2-3) Percussion
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 5726 (2-3) Voice
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 5886 (1-3) Jazz Voice
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

PMUS 6305 (3) International Chamber Music Seminar
Study, learn, and perform works of chamber music literature particularly from the U.S. and the destination country, and be immersed in the culture of that country.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.
Recommended: Admission by audition.

PMUS 6506 (2-3) Bassoon
Repeatable: Repeatable for up to 12.00 total credit hours.

PMUS 6516 (2-3) Clarinet
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 6556 (2-3) Flute
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 6596 (2-3) Horn
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 6606 (2-3) Oboe
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 6696 (2-3) Viola
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 6706 (2-3) Violin
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 6716 (2-3) Violoncello
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 6726 (1-3) Voice
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

PMUS 6886 (1-3) Jazz Voice
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

Philosophy (PHIL)

Courses

PHIL 1000 (3) Introduction to Philosophy
Discusses fundamental questions concerning human existence and the nature of reality. Questions may include: Does God exist? Am I the same person I was when I was born? Will I survive the death of my body? Do I have free will? How do I know whether the world around me really exists? What is knowledge? What is truth? What is morality, and how do I know what¿s right to do?
Additional Information: GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1010 (3) Introduction to Western Philosophy: Ancient
Introduces major philosophical ideas originating in ancient Greece, including the concepts of eudaimonia (happiness), sophia (knowledge), philosophia, psychê (soul), aretê (virtue), erôs (love), and democracy, placing these in historical context and relating them to subsequent philosophical developments. Topics may include the nature of happiness; why philosophy and democracy flourished in ancient Greece; the ancient Greek origins of science; whether being a virtuous person makes you happier; and ancient Greek thinking about life, love, and death.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 1030
Additional Information: GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking
Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1020 (3) Introduction to Western Philosophy: Modern
Introduces philosophy through core ideas of the seventeenth and eighteenth centuries, examining Enlightenment-era controversies such as: What are the foundations of scientific thinking? How does sense perception contribute to knowledge? How do we explain the movement of bodies in the natural world? What, if anything, is God¿s role in nature? How do societies form, and how should they be governed? Are human beings free? If so, how is human freedom compatible with political authority?
Additional Information: GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking
Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1030 (3) Introduction to Global Philosophy
Examines and compares different approaches to philosophy from across the globe, including Indian, Chinese, African, Islamic, Judaic, and European traditions. Topics may include: the nature of the self and reality, the foundations and limits of human knowledge, the role of the individual in the political community, the basic principles of ethics, and the meaning of life as a whole.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1040 (3) Introduction to African Philosophy
Introduces the philosophical ideas of several African ethnic groups and contemporary African philosophers, also exploring cross-cultural comparisons between African philosophy and the Western tradition, with special attention to historical context and the post-colonial condition. Topics may include both methodological differences between African and Western philosophy and fundamental philosophical questions concerning human existence, such as the nature and value of persons, knowledge, custom and morality, human rights, and meaning.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1100 (3) Ethics
Introduces students to moral philosophy by having them study and evaluate prominent moral theories and their application to a selection of real-world moral problems. Theories studied may include utilitarianism, rights theory, virtue ethics, social contract theory, divine command theory, cultural relativism, and natural law theory. Social problems covered may include abortion, world poverty, animal rights, reparations for slavery, gun rights, or similar such controversies.
Additional Information: GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1160 (3) Introduction to Medical Ethics
Introduces students to moral dilemmas in medical practice, biomedical research, and health policy, placing them in the context of comprehensive ethical theories and core principles of bioethics. Topics may include: euthanasia; abortion; organ procurement; moral status; research on nonhuman animals; navigating cultural differences between patients and health professionals; and the fair distribution of healthcare resources; as well as the bioethical issues arising from technological advances in medicine, including genetic engineering, cloning, and assistive reproductive technologies.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1200 (3) Contemporary Social Problems
Examines competing positions in debates over a wide variety of controversial moral, social and political issues. Topics may include: abortion, world poverty, animal rights, immigration, physician-assisted suicide, freedom of religion, hate speech, cloning, income inequality, pornography, gun rights, racial profiling, capital punishment, overpopulation, prostitution, drug legalization, torture. Formerly titled 'Philosophy and Society.'
Additional Information: GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking
Arts Sci Core Curr: Ideals and Values
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Arts Humanities
MAPS Course: Social Science

PHIL 1250 (3) Poverty, Power, and Patriotism: Issues of Global Justice
Explores justice (and injustice) in global and local contexts, introducing students to major traditions in political philosophy and core concepts like equality, liberty, reciprocity, and distributive justice. Specific topics may include: racism; sexism; reparations; colonialism; famine; immigration; patriotism; exploitation; labor justice; climate change; terrorism; and war. Relates political topics in U.S. society to their global context, challenging students to consider marginalization along axes of race, gender, and class across cultural boundaries.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

PHIL 1350 (3) Knowledge, Mind, and Reality
Introduces philosophy by exploring fundamental questions concerning the nature of reality and our knowledge. Possible questions include: Does God exist? Are you the same person you were when you were born? Does the past exist? Are we free to choose our actions? Is the mind something distinct from the body? Can a computer think? How can we know anything at all?
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1400 (3) Philosophy and the Sciences
Considers philosophical topics and concepts related to the natural sciences, such as the following: science and pseudo-science; scientific method; the nature of explanation, theory, confirmation, and falsification; the effect of science on basic concepts like mind, freedom, time, and causality; ethics of experimentation; and the relation of science to society.
Additional Information: GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Natural Sciences

PHIL 1440 (3) Critical Thinking
Develops students' skills in evaluating arguments and other aspects of critical thinking, focusing on the ways people reason and attempt to justify their beliefs. Activities may include modeling arguments, detecting common fallacies, examining the use (and misuse) of scientific evidence, and learning the basics of symbolic logic. Formerly titled "Introductory Logic.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1500 (3) Reading, Writing and Reasoning
Teaches students how to write argumentative papers. Each seminar will focus narrowly on some controversial topic. For example, one seminar might focus on the existence of God, whereas another might question whether we have free will. In all cases, a significant portion of the course will be devoted to learning how to write cogent argumentative papers about controversial topics.
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Written Communication-Lower

PHIL 1600 (3) Philosophy and Religion
Philosophical introduction to some of the central concepts and beliefs of religious traditions, focusing particularly on the question of the existence of God and on the relation between religious beliefs and moral beliefs.
Additional Information: GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

PHIL 1700 (3) Philosophy and the Arts
Explores controversial questions in aesthetics (philosophy of art), such as: What counts as art? What makes art, music, or even the natural world beautiful? What¿s the proper way to appreciate beauty? Do some people have better taste in music or art than others? If so, what does ¿good taste¿ mean? Is pop music bad? What about cultural appropriation? Is it wrong when, e.g., white people perform music traditionally associated with black culture?
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1750 (3) Philosophy through Literature
Introduces philosophy through literature. Selected novels, plays, and short stories that exemplify traditional problems in philosophy are read and discussed.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1800 (3) Open Topics/Philosophy
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2140 (3) Environmental Justice
Studies the intersection of environmental health and social justice, examining how political and economic institutions affect our planet and considering environmental problems in light of social problems that produce them. Topics may include sustainable development, climate justice, responsibility to future generations, global poverty, environmental racism, and the relation between economic systems (e.g., capitalism) and environmental concerns. Part philosophy, part policy, this class weaves together moral and factual issues, addressing fairness, rights, equality, and responsibility.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2150 (3) Ethics and Sex
Explores a variety of moral questions relating to sex and procreation. Topics may include arguments for and against the wrongness of masturbation, incest, pedophilia, bestiality, necrophilia, voyeurism, pornography, sadomasochism, prostitution, abortion, commercial surrogacy and cloning, as well as arguments addressing such additional subjects as what constitutes rape and whether procreation is morally obligatory, optional, or forbidden.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2160 (3) Ethics and Information Technology
Examines contemporary ethical issues concerning the use, misuse, and development of information technologies, with particular focus on the consequences such changes may have on the lives of individuals and on the shape of societies. Topics may include hacking and cyber crime; artificial intelligence; robotics and automation technologies, such as drones and self-driving cars; mass surveillance; use of personal information by corporate, law enforcement, and media interests; as well as gaming and virtual reality.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences

PHIL 2170 (3) Ethics and Economics
Examines a variety of perspectives on problems at the intersection of ethics and economics, using both empirical data and moral reasoning to evaluate arguments concerning topics such as: government regulation of private industry, protectionist economic policies, fair work compensation, retirement benefits, and access to health care.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2200 (3) Major Social and Political Theories
Explores fundamental questions concerning the nature and legitimacy of major social and political institutions. Topics may include the nature of freedom; the meaning and value of democracy; competing conceptions of justice; the basis of political authority; civil disobedience; human dignity and individual rights; social conflict, tyranny, and war; just and unjust distributions of wealth; the relation between ethics and politics; the nature of political belief; and arguments for and against socialism, communism, libertarianism, and anarchism.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2220 (3) Philosophy and Law
Considers controversies about the law in general and the U.S. system in particular. Questions may include: What is law? What should the law prohibit (e.g., abortion, drug use, prostitution, cloning)? Is there a moral obligation to obey the law? Can civil disobedience be justified? How do we justify punishing those who break the law? Is capital punishment morally justifiable?
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2240 (3) Philosophy and Sports
Introduces students to philosophical issues surrounding sport. Topics may include: paying college athletes, sex testing in sports, the use of performance enhancing drugs, sports and gambling, the nature and value of sports and sportsmanship, gender equity and sports, the ethics of strategic fouling, sports fandom, the coach-athlete relationship, athletes as role models, and the risk of extreme bodily harm.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences

PHIL 2250 (3) Philosophy and Video Games
Introduces philosophical issues raised in and by video games. Students will discuss ethical, aesthetic, and/or metaphysical questions such as: Is it okay to engage in otherwise immoral behavior (like violence or murder) in video games? What do in-game choices say about you? What is the relationship between you and your avatar? Is gaming culture misogynistic? Are video games art? Is virtual reality ¿real¿? Is social media a kind of video game?
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2260 (3) Philosophy and Food
Introduces students to topics and issues connected to the nature of food. Helps students investigate questions about our food choices, production and distribution, as well as connection food bears to culture and identity. No previous experience in philosophy required or presupposed.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2270 (3) Philosophy and Race
Explores the historical relationship between western philosophy and race and investigates the ways in which philosophy can be used to address contemporary racial issues.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Diversity-U.S. Perspective

PHIL 2290 (3) Philosophy and Gender
Analyzes critically the concepts of sex, gender, and their intersection with other aspects of identity, exploring how these impact the extent to which people face injustice because of their gender.
Equivalent - Duplicate Degree Credit Not Granted: WGST 2290
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Diversity-U.S. Perspective

PHIL 2380 (3) Philosophy and Psychiatry
Introduces problems at the intersection of psychiatry and philosophy, combining philosophy¿s critical thinking tools with psychiatry¿s empirical grounding. Considers theoretical problems (What is mental disorder? Is there a boundary between normality and psychopathology at all? Is autism, e.g., a disorder?), as well as ethical problems (Is it permissible to administer psychiatric treatment against a patient¿s will? Is it permissible to amputate the limb of a patient with Body Integrity Dysphoria who strongly desires the amputation?).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2390 (3) Philosophy and Psychology
Interdisciplinary course on issues where philosophy and psychology meet. For example, topics such as selfhood, motivation, psychotherapy, freedom, and human behavior are examined. Selected readings in philosophy and psychology are required.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2440 (3) Symbolic Logic
Introduces students to sentential logic, the logic of quantification and some of the basic concepts and results of metalogic (interpretations, validity and soundness).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2490 (3) The Power of Words
Discusses philosophical problems about language and how our using it shapes the world. Topics may include: what language is, what we can do with words, how social norms affect meaning and communication, the relationship of language to features of the social world like race, gender, and ideology, the nature of speech acts, hate speech, propaganda, pejoratives, slurs, freedom of speech, humor, deception, translation, how language conveys thoughts, and how language shapes thought.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2710 (3) Philosophy and Film
Introduces students to issues in philosophy through film, including consideration of film itself as an artistic medium. Students will watch films and wrestle with the philosophical problems they present. Topics will vary according to film selection and may include: the distinction (if any) between high and low art; aspects of film production that support or create aesthetic value; and how (if at all) film can and should be used to foment socio-political change.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2750 (3) Philosophy and Science Fiction
Explores philosophical issues in science fiction literature and film. Topics may include time travel, artificial intelligence, free will, personal identity, and how scientific advances will change human life and society. Students may read science fiction stories and philosophical articles, and watch several movies.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2800 (3) Open Topics/Philosophy
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2840 (1-3) Independent Study
Department-enforced prerequisite: 6 hours of philosophy course work (minimum grade D-).
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Philosophy (PHIL) majors or minors with 27-180 credits (Sophomores, Juniors, Seniors) only.

PHIL 3000 (3) History of Ancient Philosophy
Surveys developments in metaphysics, ethics, logic, and philosophy of mind from the Pre-Socratics through Hellenistic philosophy, focusing primarily on the arguments of the philosophers. Topics may include: Zeno¿s paradoxes of time and motion; Democritean atomism; Plato on knowledge, reality, ethics, and politics; Aristotle on logic and natural philosophy; Epicurus on pleasure and friendship; Epicurean atomism; the Stoics on materialism, determinism, and vagueness; and the coherence and practicality of global skepticism.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3010 (3) History of Modern Philosophy
Introduces modern philosophy, focusing on the period from Descartes through Kant. In addition to careful analysis of philosophical arguments, attention is paid to the ways in which philosophers responded to and participated in major developments in the 17th and 18th century, such as the scientific revolution.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3030 (3) Asian Philosophies
Explores various topics in Asian philosophy. Students will be exposed to and critically engage with a range of ethical, metaphysical, epistemological, and other philosophical issues in Chinese, Indian, and other Asian traditions, including discussion of how major Asian traditions relate to other approaches to philosophy. Specific topics and themes vary from term to term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3040 (3) African Philosophy: Personhood and Morality
Examines conceptions of personhood, humanity, and morality among several African ethnic groups (including the Akan and Nso), employing a comparative approach that challenges traditional Western philosophical presuppositions and builds sensitivity to unfamiliar conceptions of morality and politics. Gives special attention to the effects of history, geography, and the environment on different societies¿ ways of conceptualizing ethical questions. Topics include human rights; free will and responsibility; custom and morality; and methodological questions concerning cross-cultural comparisons.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of Philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

PHIL 3050 (3) Continental Philosophy
Considers texts, figures, and/or movements in Continental philosophy from the nineteenth century onwards. While diverse, Continental thought tends to involve radical reflection on the methodology of philosophy, challenging traditional conceptions of subjectivity and objectivity while contextualizing knowledge and rationality within the structures of human existence, history, and culture. Topics may be drawn from German idealism, phenomenology, psychoanalysis, existentialism, hermeneutics, poststructuralism, postmodernism, critical theory, Continental feminism, gender theory, queer theory, new materialism, and contemporary Marxist thought.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.

PHIL 3100 (3) Ethical Theory
Examines important doctrines and arguments in various areas of theoretical ethics, such as the normative ethics of behavior, axiology, virtue theory, and metaethics.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 6 hours of philosophy course work.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3110 (3) Feminist Practical Ethics
Examines issues of public policy and personal ethics in light of the feminist commitment to gender justice. Readings for the course will present competing feminist points of view on topics such as: the environment, sex trafficking, immigration, abortion rights, the fashion and beauty industries, cosmetic surgery, food, and militarism. Contributes to an understanding of gender diversity from a U.S. perspective, fostering further insight into social, political, economic, and cross-cultural relations in America.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3110
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PHIL 2290 or WGST 2000 or WGST 2290.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

PHIL 3120 (3) Applied Ethics
Examines arguments about controversial social issues drawn from various areas of applied ethics including biomedical ethics, AI ethics, sexual ethics, criminal justice ethics, and environmental ethics. Multiple topics will be covered and may include abortion, physician-assisted suicide, obligations to the global poor, cloning, genetic engineering, algorithmic fairness, deepfake pornography, prostitution, animal rights, climate change, obligations to future generations, affirmative action, slave reparations, mass public surveillance, predictive policing, and criminal punishment.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3140 (3) Environmental Ethics
Examines major traditions in moral philosophy to see what light they shed on value issues in environmental policy and the value presuppositions of the economic, ecological, and juridical approaches to the environment.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 3140
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PHIL 1100 or PHIL 1200 or PHIL 2200 or PHIL 3100 or PHIL 3200.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3160 (3) Bioethics
Analysis of ethical problems involved in such issues as abortion, euthanasia, organ transplants, eugenics, treatment of the patient as a person and the institutional nature of the health care delivery system.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3170 (3) Philosophy and Ethics of Artificial Intelligence
Examines the philosophy and ethics of artificial intelligence (AI), exploring existing machine learning algorithms, autonomous AI systems of the near future (e.g., self-driving cars, autonomous weapons), and advanced AI of the distant future (e.g., superintelligence, robot rights), with applications to medicine, criminal justice, social media, and warfare. Questions may include: Are machine learning systems biased? Who deserves blame when autonomous systems make mistakes? Will AI systems ever be conscious or deserve rights?
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3190 (3) War and Morality
Focuses on moral issues raised by war. When, if ever, can war be morally justified? Are rules of war globally applicable, or are they affected by local religious and cultural frameworks? Are colonized nations bound by the same rules of war as their colonizer states? Are states ever obligated to intervene to stop massacres or genocides in other states?
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of PHIL coursework.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3200 (3) Social and Political Philosophy
Introduces students to an in-depth examination and analysis of central operational ideas in social and political philosophy, such as power, freedom, equality, democracy, justice, rights, community, individuality, civil disobedience, and law. A thorough treatment of any of these ideas may call for some cross-cultural and/or comparative political and social analysis.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy course work.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3260 (3) Philosophy and the International Order
Considers philosophical topics concerning the international economic, political and legal systems. Topics that may be considered include the nature of international law, war and peace, humanitarian intervention, international justice, world hunger and human rights.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

PHIL 3290 (3) War and Morality and the Enduring Struggle for Freedom
Explores normative theories of just war, political obligation, and collective self-determination, and select empirical studies of the causes and effects of violent revolutions. Designed primarily for PHIL, PSCI, IAFS, and PACS students, this interdisciplinary course involves an intensive two-week abroad study in Budapest, Hungary, where students will visit diverse historical sites that bear out normative and empirical lessons learned in the classroom about collective armed conflict and the enduring struggle for freedom.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite Three hours of PHIL coursework.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3310 (3) Cognitive Science
Introduces cognitive science, drawing from psychology, philosophy, artificial intelligence, neuroscience, and linguistics. Studies the linguistic relativity hypothesis, consciousness, categorization, linguistic rules, the mind-body problem, nature versus nurture, conceptual structure and metaphor, logic/problem solving and judgment. Emphasizes the nature, implications and limitations of the computational model of mind.
Equivalent - Duplicate Degree Credit Not Granted: INFO 3702 and LING 3005 and CSCI 3702 and PSYC 3005 and SLHS 3003 and CSPB 3702
Recommended: Prerequisites two of the following CSCI 1300 or LING 2000 or PHIL 2440 or PSYC 2145.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Social Sciences

PHIL 3410 (3) History of Science: Ancients to Newton
Surveys the history of science up to Newton, tracing the emergence of scientific thinking from religious and philosophical roots in the Near East and Greece to its development in the Middle Ages and Renaissance, culminating with Newton and the seventeenth-century Scientific Revolution. Additional topics may include early discoveries concerning mathematics; technological advancement and its relation to the evolution of scientific theory; and cross-cultural comparisons of scientific and technological traditions (e.g., Chinese traditions).
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Natural Sciences

PHIL 3430 (3) History of Science: Newton to Einstein
Surveys the development of modern scientific thought, with an emphasis on the natural sciences, beginning with Newton and ending with the radical and controversial implications of relativity theory and quantum mechanics. Topics may include the rise of modern chemistry, Darwin¿s earth-shattering achievements in biology, the beginnings of the social sciences (and their relationship with the natural sciences), the rise of ecology and holistic science, and the philosophical interpretation of scientific method and explanation.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Natural Sciences

PHIL 3480 (3) Critical Thinking/Writing in Philosophy
Focuses upon the fundamental skills, methods, concepts and distinctions that are essential for the study of philosophy. Basic skills covered include the writing of philosophy papers, the reading of articles and the extraction and evaluation of arguments.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Philosophy (PHIL) majors only (excluding minors).
Recommended: Prerequisites 6 hours of philosophy course work.
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Written Communication-Upper

PHIL 3600 (3) Philosophy of Religion
Explores fundamental questions concerning major world religions, especially the Abrahamic religions. Possible topics include: the divine attributes (Is perfect goodness compatible with the existence of hell? Can God be truly omnipotent?), the problem of evil, divine hiddenness and evidence of the existence of God, religious experience, the legitimacy of faith, the dilemma of freedom and divine foreknowledge, God and morality, tensions between religion and science, conceptions of the self in Abrahamic religions and in Buddhism.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3700 (3) Aesthetic Theory
Introduces major theories of aesthetics and contemporary discussions of problems, such as the nature of art and the problem of evaluations in art.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3800 (3) Open Topics in Philosophy
See current departmental announcements for specific content.
Department enforced prerequisite: 6 hours of philosophy course work.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3840 (1-3) Independent Study
Department enforced prerequisite: Minimum of 6 completed hours of philosophy course work (minimum grade D-).
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Philosophy (PHIL) majors only.

PHIL 3930 (1-6) Internship in Applied Philosophy
Provides an academically supervised opportunity for junior and senior Philosophy students to work in public or private organizations to gain practical knowledge and experience, allowing students to apply philosophical theory to real-world problems while enriching their understanding of philosophy itself through its application. Requires the student to pursue an academic research project and compose an original research paper. Department consent required, as well as a minimum 3.0 cumulative GPA.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 9 hours philosophy course work.

PHIL 4010 (3) Single Philosopher
Discusses the work of a single historical figure in philosophy with the aim of reaching a broad and deep understanding of the philosopher's thought.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5010
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4020 (3) Topics in the History of Philosophy
Examines a specific philosophical problem over an extended historical period.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5020
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites 12 hours of philosophy course work including PHIL 3000 and PHIL 3010.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4030 (3) Medieval Philosophy
Introduces philosophy from the late Roman era to the 14th century. Philosophers studied may include Augustine, Boethius, Aquinas, and Ockham. Topics range over religion, ethics, mind, and metaphysics.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4040 (3) Studies in 20th Century Philosophy
Studies two or three major philosophies prominent during the last century.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4070 (3) Existentialist Philosophy
Examines central figures and texts in the existential tradition, from Kierkegaard and Nietzsche to Heidegger and Sartre.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4110 (3) Contemporary Moral Theory
Provides an in-depth look at some recent work in moral theory, usually organized around a single topic. Topics vary from year to year. Previous topics include: consequentialism and its critics, virtue theory, deontological ethics, moral psychology, well-being, and metaethics.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5110
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite or corequisite of PHIL 3100 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors). Restricted to PHIL majors or PHIL minors.
Recommended: Prerequisite 12 hours of PHIL coursework (all minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4120 (3) Philosophy and Animals
Examines the moral status of nonhuman animals, and its implications for the common use of animals as food and experimental subjects for humans.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5120
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites PHIL 1100 or PHIL 1200 or PHIL 3100.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4150 (3) Topics in Applied Ethics
Discusses advanced work in applied normative philosophy. Topics vary from semester to semester and may focus on one or two specific areas (e.g., race, procreative ethics, military ethics, sports ethics) or take a broader approach that includes issues from across a wider range of subjects.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5150
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours of PHIL coursework.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4200 (3) Contemporary Political Philosophy
Provides a survey of recent approaches to political philosophy: liberalism (Rawls, Dworkin); libertarianism (Nozick); communitarianism (Sandel, Macintyre); feminism (Jaggar). Topics and readings vary with the instructor.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5200
Requisites: Requires prerequisite courses of PHIL 2200 or PHIL 3200 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours of philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4210 (3) Classical Greek Political Thought
Studies main representatives of political philosophy in antiquity (Plato, Aristotle, Cicero) and of the most important concepts and values of ancient political thought. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4041 and CLAS 5041 and HIST 4041
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4250 (3) Marxism
Examines the economic, political, and philosophical thought of Karl Marx, placing it in the context of his predecessors in the classical German tradition and his successors (and critics) in the twentieth century. Themes may include the development of historical materialism; Marx¿s analysis of estranged labor; the critique of utopian socialism; the categories of Marxist economic analysis; the relation between politics, philosophy, and economics; theories of labor, surplus value, and exploitation; and the fate of communism.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 4251
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours of GRMN or PHIL course work or instructor consent.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Arts Sci Gen Ed: Distribution-Social Sciences

PHIL 4260 (3) Philosophy of Law
Considers philosophical topics concerning law and the U.S. legal system. Topics that may be considered include the nature of law, relations between law and morality, justifications of punishment, the moral duty to obey the law, and law and liberty.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5260
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4300 (3) Philosophy of Mind
Discusses topics in the philosophy of mind, including the mind-body problem, consciousness, intentionality, rationality, mental causation and the nature of mental states.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5300
Requisites: Requires prerequisite courses PHIL 2440 and PHIL 3010 and PHIL 3480 and PHIL 4340 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4340 (3) Epistemology
Studies some of the main topics of theory of knowledge, such as evidence, justification, prediction, explanation, skepticism, and concept acquisition.
Equivalent - Duplicate Degree Credit Not Granted: 5340
Repeatable: Repeatable for up to 15.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Philosophy (PHIL) majors only.
Recommended: Prerequisites PHIL 3480 and 12 credit hours of philosophy including PHIL 2440 and PHIL 3010.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4360 (3) Metaphysics
Examines philosophical questions and debates about the general nature of reality. Specific topics may include: existence; identity; change; particulars and universals; parts and wholes; space and time; possibility and necessity; freedom and determinism; laws of nature; causation; and the posits of mathematical and physical theories.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5360
Requisites: Requires prerequisite courses PHIL 2440 and PHIL 3010 and PHIL 3480 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4370 (3) Free Will and Determinism
Explores the full range of questions relating to the problem of free will and determinism. Topics may include; the scientific evidence for determinism, hard versus soft determinism, arguments for and against the compatibility of free will and determinism, moral responsibility and the principle of alternate possibilities, hierarchical motivation, the deep self, reactive attitudes, the intelligibility question for libertarianism, divine foreknowledge.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5370
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4400 (3) Philosophy of Science
Advances students' knowledge of topics in philosophy of science and develops students' ability to think and write clearly about science. Topics may include scientific methodology; distinguishing science from pseudoscience; characterizing experimental and historical sciences; interpretations of special and general relativity; interpretations of quantum mechanics; the nature of biological species; approaches to defining life; criteria for identifying alien life; artificial intelligence; neuroscience and consciousness; fundamental physical properties and laws of nature; chance and probability; and causation.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5400
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work including PHIL 2440.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4440 (3) Topics in Logic
Provides for offering courses in a variety of topics in logic, including, but not limited to, mathematical logic, philosophical issues in logic, probability theory, decision theory, and inductive logic.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5440
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours PHIL coursework, including PHIL 2440.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4450 (3) History and Philosophy of Physics
Discusses the epistemic question of what characterizes good physics research as well as the metaphysical question of what our best physics research tells us about the world. Topics may include case studies of physics experiments, theory choice, and scientific methodology in physics, as well as foundational metaphysical questions in statistical mechanics, quantum mechanics, special and general relativity, chance and probability, and the laws of nature.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5450 and PHYS 4450 and PHYS 5450
Requisites: Requires prerequisite course PHYS 1020 or PHYS 1120 or PHYS 2020 or PHIL 1400 or PHIL 2440 or PHIL 3410 or PHIL 3430 or PHIL 4400 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Arts Sci Gen Ed: Distribution-Natural Sciences

PHIL 4460 (3) Modal Logic
Introduces the most philosophically relevant kind of logic that builds on PHIL 2440. Modal logic is the logic of the concepts of necessity, possibility and contingency. A variety of systems of sentential modal logic will be covered, along with the standard system of first-order modal logic.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5460
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PHIL 2440.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4470 (3) Probability and Rational Choice
Examines issues in four related areas: probability theory (e.g. the interpretation of probability, the raven paradox, and the principle of indifference), decision theory (e.g., the Newcomb problem, the toxin puzzle, and Pascal's wager), game theory (e.g., Prisoner's dilemma, tragedy of the commons, and Schelling points), and social choice theory (e.g., Arrow's theorem). Familiarity with symbolic logic is strongly recommended.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5470
Recommended: Prerequisite PHIL 2440 and 12 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4480 (3) Formal Methods in Philosophy
Introduces formal methods used in contemporary philosophy beyond classical first-order logic. Specific topics may vary. Examples: extensions of and alternatives to first-order logic (including propositional and quantified modal logic and higher-order and plural logic), alternatives to classical logic (including many-valued and intuitionistic systems), generalized and substitutional quantifiers, the lambda calculus, indicative and subjunctive conditionals, probability theory, inductive logic, and decision theory.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5480
Requisites: Requires prerequisite course of PHIL 2440 (minimum grade B). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4490 (3) Philosophy of Language
Examines the nature of language through topics such as truth, reference, meaning, and use, as well as the general relationships between language and action, cognition, logic, and reality.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5490
Requisites: Requires prerequisite course PHIL 2440 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4800 (3) Open Topics in Philosophy
See current departmental announcements for specific content.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4830 (3) Senior Seminar in Philosophy
Critical in-depth examination of a selected philosophical topic.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Philosophy (PHIL) majors only.
Recommended: Prerequisite 15 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4840 (1-3) Independent Study
Department enforced prerequisite: Minimum of 6 completed hours of philosophy course work (minimum grade D-).
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Philosophy (PHIL) majors or minors with 87-180 credits (Seniors, Fifth Year Senior) only.

PHIL 4950 (3) Honors Thesis
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work.
Additional Information: Arts Sciences Honors Course

PHIL 5010 (3) Single Philosopher
Discusses the work of a single historical figure in philosophy with the aim of reaching a broad and deep understanding of the philosopher's thought.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4010
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 5020 (3) Topics in the History of Philosophy
Examines a specific philosophical problem over an extended historical period.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 5030 (1) Greek Philosophical Texts
Selected readings in classical philosophy, in the original language, with a focus on achieving fluency in reading philosophical Greek.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite of GREK 1013 and GREK 1023 or the equivalent.

PHIL 5040 (1) Latin Philosophical Texts
Selected readings in classical and medieval philosophy, in the original language, with a focus on achieving fluency in reading philosophical Latin.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

PHIL 5100 (3) Values Proseminar
Covers seminal classic texts and/or fundamental topics in analytic ethics and social/political philosophy, including its history.
Requisites: Restricted to Philosophy graduate students only.

PHIL 5110 (3) Contemporary Moral Theory
Provides an in-depth look at some recent work in moral theory, usually organized around a single topic. Topics vary from year to year. Previous topics include: consequentialism and its critics, virtue theory, deontological ethics, moral psychology, well-being, and metaethics.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4110
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 5120 (3) Philosophy and Animals
Examines the moral status of nonhuman animals, and its implications for the common use of animals as food and experimental subjects for humans.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5120
Requisites: Restricted to graduate students only.

PHIL 5150 (3) Topics in Applied Ethics
Discusses advanced work in applied normative philosophy. Topics vary from semester to semester and may focus on one or two specific areas (e.g., race, procreative ethics, military ethics, sports ethics) or take a broader approach that includes issues from across a wider range of subjects.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4150
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 5200 (3) Contemporary Political Philosophy
Provides a survey of recent approaches to political philosophy: liberalism (Rawls, Dworkin); libertarianism (Nozick); communitarianism (Sandel, Macintyre); feminism (Jaggar). Topics and readings vary with the instructor.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4200
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 5230 (3) Bioethics and Public Policy
Examines public policy implications of contemporary biological, genetic, biomedical, and behavioral science in light of ethics and human values. Considers theoretical and practical grounds for moral assessment of scientific research and possible applications of technology.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

PHIL 5240 (3) Seminar in Environmental Philosophy
Philosophical examination of several different approaches to environmental problems: economic, juridical, political and ecological. Discusses specific environmental problems, focusing on their moral dimensions, e.g., wilderness preservation, animal rights and land use and urban planning.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 5240
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

PHIL 5260 (3) Philosophy of Law
Considers philosophical topics concerning law and the U.S. legal system. Topics that may be considered include the nature of law, relations between law and morality, justifications of punishment, the moral duty to obey the law, and law and liberty.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4260
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.

PHIL 5290 (1-3) Topics in Values and Social Policy
Deals with topics in the area of philosophy and public policy and is often interdisciplinary in focus. Topics vary from one semester to another.
Repeatable: Repeatable for up to 7.00 total credit hours.
Requisites: Restricted to graduate students only.

PHIL 5300 (3) Philosophy of Mind
Discusses topics in the philosophy of mind, including the mind-body problem, consciousness, intentionality, rationality, mental causation, and the nature of mental states.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4300
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 5340 (3) Epistemology
Studies some of the main topics of theory of knowledge, such as evidence, justification, prediction, explanation, skepticism, and concept acquisition.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4340

PHIL 5360 (3) Metaphysics
Traditional and contemporary theories of the basic categories of reality and the human relationship to it, including universals, substance, identity, change, mind and body, free will, and modality.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4360
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.

PHIL 5370 (3) Free Will and Determinism
Explores the full range of questions relating to the problem of free will and determinism. Topics may include; the scientific evidence for determinism, hard versus soft determinism, arguments for and against the compatibility of free will and determinism, moral responsibility and the principle of alternate possibilities, hierarchical motivation, the deep self, reactive attitudes, the intelligibility question for libertarianism, divine foreknowledge.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4370

PHIL 5400 (3) Philosophy of Science
Advances students' knowledge of topics in philosophy of science and develops students' ability to think and write clearly about science. Topics may include scientific methodology; distinguishing science from pseudoscience; characterizing experimental and historical sciences; interpretations of special and general relativity; interpretations of quantum mechanics; the nature of biological species; approaches to defining life; criteria for identifying alien life; artificial intelligence; neuroscience and consciousness; fundamental physical properties and laws of nature; chance and probability; and causation.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4400
Requisites: Restricted to graduate students only.

PHIL 5440 (3) Topics in Logic
Provides for offering courses in a variety of topics in logic, including, but not limited to, mathematical logic, philosophical issues in logic, probability theory, decision theory, and inductive logic.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4440
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 5450 (3) History and Philosophy of Physics
Discusses the epistemic question of what characterizes good physics research as well as the metaphysical question of what our best physics research tells us about the world. Topics may include case studies of physics experiments, theory choice, and scientific methodology in physics, as well as foundational metaphysical questions in statistical mechanics, quantum mechanics, special and general relativity, chance and probability, and the laws of nature.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4450 and PHYS 5450 and PHYS 5450
Requisites: Restricted to graduate students only.

PHIL 5460 (3) Modal Logic
Introduces the most philosophically relevant kind of logic that builds on PHIL 2440. Modal logic is the logic of the concepts of necessity, possibility and contingency. A variety of systems of sentential modal logic will be covered, along with the standard system of first-order modal logic.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4460
Requisites: Restricted to graduate students only.

PHIL 5470 (3) Probability and Rational Choice
Examines issues in four related areas: probability theory (e.g. the interpretation of probability, the raven paradox and the principle of indifference), decision theory (e.g., the Newcomb problem, the toxin puzzle and Pascal's wager), game theory (e.g., Prisoner's dilemma, tragedy of the commons and Schelling points) and social choice theory (e.g., Arrow's theorem). Familiarity with symbolic logic is strongly recommended.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4470
Requisites: Restricted to graduate students only.

PHIL 5480 (3) Formal Methods in Philosophy
Introduces formal methods used in contemporary philosophy beyond classical first-order logic. Specific topics may vary. Examples: extensions of and alternatives to first-order logic (including propositional and quantified modal logic and higher-order and plural logic), alternatives to classical logic (including many-valued and intuitionistic systems), generalized and substitutional quantifiers, the lambda calculus, indicative and subjunctive conditionals, probability theory, inductive logic, and decision theory.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4480
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.

PHIL 5490 (3) Philosophy of Language
Examines theories and problems regarding the nature of language and its relation to reality. Concepts discussed include sense, reference, conventions, intentions, and their relation to science and social life. Relevant literature includes readings in Frege, Russell, Quine, Putnam, Kripke, and Chomsky.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4490
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.

PHIL 5550 (3) Metaphysics and Epistemology Proseminar
Covers seminal classic texts and/or fundamental topics in analytic metaphysics and epistemology.
Requisites: Restricted to Philosophy graduate students only.

PHIL 5600 (3) Philosophy of Religion
Studies topics falling under philosophy of religion, such as proofs for God's existence, religious language, mysticism, psychology of religion, modern theological movements, miracles, and study of individual theologians.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

PHIL 5700 (3) Aesthetics
Analyzes the principal topics of aesthetics, including such issues as formal structure of aesthetics, the nature of critical judgments, and the status of the work of art.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

PHIL 5800 (3) Open Topics in Philosophy
Variety of new courses at the 5000 level. See current departmental announcements for specific content.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 5810 (1-3) Special Topics in Philosophy
Instructor meets regularly with three or more students to discuss special topics in philosophy.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 5840 (1-3) Graduate Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 6000 (3-4) Seminar in the History of Philosophy
Studies advanced topics in the history of philosophy. Content varies by semester, but may extend to any period in the history of philosophy, from the Presocratics into the modern era.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 6100 (3) Seminar in Ethics
Intensive study of selected topics in ethical theory.
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 6200 (3) Seminar in Social and Political Philosophy
Provides an in-depth look at some particular topic in social and political philosophy, such as rights, political freedom, political obligation, or democracy.
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 6300 (3) Seminar in Philosophy of Mind
Intensive study of selected topics in philosophy of mind.
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 6310 (3) Issues and Methods in Cognitive Science
Interdisciplinary introduction to cognitive science, examining ideas from cognitive psychology, philosophy, education, and linguistics via computational modeling and psychological experimentation. Includes philosophy of mind; learning; categorization; vision and mental imagery; consciousness; problem solving; decision making, and game-theory; language processing; connectionism. No background in computer science will be presumed.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 6402 and EDUC 6504 and LING 6200 and PSYC 6200 and SLHS 6402
Requisites: Restricted to graduate students only.
Recommended: Prerequisite at least one course at the 3000-level or higher in CSCI, LING, PHIL, or PSYC.

PHIL 6340 (3) Seminar in Epistemology
Intensive study of selected topics in epistemology.
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 6380 (3) Seminar in Metaphysics
Intensive study of selected topics in metaphysics.
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 6400 (3) Seminar in Philosophy of Science
Topics connected with development of nature of science: the structure of scientific theories, the testing of hypotheses, the theory of decisions in science and the basic conceptions and models of abstraction in the history of science.
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHIL 6490 (3) Seminar in Philosophy of Language
Studies some of the main topics in the philosophy of language, such as meaning and theories of meaning, translation, speech acts, rules of language, reference, relevance of psycholinguistics, language and thought, and language and ontology.
Repeatable: Repeatable for up to 15.00 total credit hours.
Requisites: Restricted to graduate students only.

PHIL 6940 (1) Master's Candidate for Degree
Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree.
Repeatable: Repeatable for up to 7.00 total credit hours.
Requisites: Restricted to Philosophy graduate students only.

PHIL 6950 (1-6) Master's Thesis
Repeatable: Repeatable for up to 7.00 total credit hours.
Requisites: Restricted to Philosophy graduate students only.

PHIL 7415 (2) Cognitive Science Research Applications Seminar 1
Independent, interdisciplinary research project in cognitive science for advanced graduate students pursuing a joint PhD in an approved core discipline and cognitive science. Research projects integrate at least two areas within the cognitive sciences: psychology, computer science, linguistics, education, philosophy. Students need commitments from two mentors for their project.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 7412 and EDUC 6506 and LING 7415 and PSYC 7415 and SLHS 7418
Requisites: Requires prerequisite course CSCI 6402 or EDUC 6504 or LING 6200 or PHIL 6310 or PSYC 6200 (minimum grade D-).

PHIL 7425 (2) Cognitive Science Research Applications Seminar 2
Independent, interdisciplinary research project in cognitive science for advanced graduate students pursuing a joint PhD in an approved core discipline and cognitive science. Research projects integrate at least two areas within the cognitive sciences: psychology, computer science, linguistics, education, philosophy. Students need commitments from two mentors for their project.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 7422 and EDUC 6516 and LING 7425 and PSYC 7425 and SLHS 7428
Requisites: Requires prerequisite course CSCI 6402 or EDUC 6504 or LING 6200 or PHIL 6310 or PSYC 6200 (minimum grade D-).
Recommended: Prerequisite EDUC 6505 or PHIL 6310.

PHIL 7810 (1) Topics in Cognitive Science
Reading of interdisciplinary innovative theories and methodologies of cognitive science. Students participate in the ICS Distinguished Speakers series that hosts internationally recognized cognitive scientists who share and discuss their current research. Session discussions include analysis of leading edge and controversial new approaches in cognitive science.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 7772 and EDUC 7775 and LING 7775 and PSYC 7775 and SLHS 7775
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to graduate students only.

PHIL 8990 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 30.00 total credit hours.
Requisites: Restricted to Philosophy graduate students only.

Physics (PHYS)

Courses

PHYS 1000 (3) Preparatory Physics
Introduces basic physics, emphasizing an analytical approach to prepare for PHYS 1110 and PHYS 1120, the engineering majors sequence. Does not satisfy any MAPS deficiency in either the sciences or math. Department enforced prerequisite: 1 year high school algebra.
Additional Information: Arts Sci Core Curr: MAPS Course

PHYS 1010 (3) Physics of Everyday Life 1
Intended primarily for nonscientists, this course covers physics encountered in everyday life. Topics include balls, scales, balloons, stoves, insulation, light bulbs, clocks, nuclear weapons, basics of flashlights, and microwave ovens. Department enforced prereq., high school algebra or equivalent. This course should not be taken if the student has a MAPS deficiency in math.
Additional Information: GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab
Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Quantitative Reasoning Math
MAPS Course: Chemistry
MAPS Course: Physics

PHYS 1110 (4) General Physics 1
First semester of three-semester sequence for science and engineering students. Covers kinematics, dynamics, momentum of particles and rigid bodies, work and energy, gravitation, and simple harmonic motion.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 1115
Requisites: Requires prerequisite course of GEEN 3830 (minimum grade C-) or prerequisite or corequisite course of APPM 1345 or APPM 1350 or MATH 1300 or MATH 1310 (minimum grade C-).
Additional Information: GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 1115 (4) General Physics 1 for Majors
First semester of three semester sequence for physics, engineering physics and astronomy majors. Covers kinematics, dynamics momentum of particles and rigid bodies, work and energy, gravitation, and simple harmonic motion.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 1110
Requisites: Requires prerequisite course of GEEN 3830 or prerequisite or corequisite course of APPM 1345 or APPM 1350 or MATH 1300 or MATH 1310 (minimum grade C-). Restricted to Physics (PHYS-BA) or Engineering Physics (EPEN-BS) or Astronomy (ASTR-BA) majors only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 1120 (4) General Physics 2
Three lect., one rec. per week, plus three evening exams in the fall and spring semesters. Second semester of three-semester introductory sequence for science and engineering students. Covers electricity and magnetism, wave motion and optics. Normally is taken concurrently with PHYS 1140.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 1125
Requisites: Requires prerequsite courses of PHYS 1110 or PHYS 1115 and a prerequisite or corequisite course of APPM 1360 or MATH 2300 (all minimum grade of C-).
Additional Information: GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 1125 (4) General Physics 2 for Majors
Three lect., one rec per week, plus three evening exams in the fall and spring semesters. Second semester of three semester introductory sequence for physics, engineering and astronomy majors. Covers electricity and magnetism, wave motion and optics. Normally is taken concurrently with PHYS 1140.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 1120
Requisites: Requires a prerequisite course of PHYS 1110 or PHYS 1115. Requires a prerequisite or corequisite course of APPM 1360 or MATH 2300 (all minimum grade C-). Restricted to Physics (BA), Engineering Physics (BS) and Astronomy (BA) students only.
Additional Information: Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 1140 (1) Experimental Physics 1
Introduces experimental physics through laboratory observation of a wide range of phenomena. Covers experiments on physical measurements, including mechanics, electricity & magnetism, and optics, with the mathematical analysis of physical errors associated with the experimental process.
Requisites: Requires a prerequisite or corequisite course of PHYS 1120 or PHYS 1125 (minimum grade C-).
Additional Information: GT Pathways: GT-SC1 - Natural Physcal Sci:Lec Crse w/ Req Lab
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 1230 (3) Light and Color for Nonscientists
Discusses light, color, vision, and perception. Covers reflection, refraction, lenses, and applications to photography and other methods of light sensing. Other topics include lasers and holography. Course is geared toward nonscience majors. Department enforced prereq., high school algebra or equivalent. Should not be taken by students with a math MAPS deficiency.
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Chemistry
MAPS Course: Natural Science
MAPS Course: Physics

PHYS 1240 (3) Sound and Music
Explores the physical processes that underlie the diversity of sound and musical phenomena. Topics covered include the physical nature of sound, the perception of sound, the perception of pitch and harmony, musical instruments, synthesizers and samplers, and room acoustics. Geared toward nonscience majors. Department enforced prereq., high school algebra or equivalent. Should not be taken by students with a math MAPS deficiency.
Additional Information: GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Chemistry
MAPS Course: Natural Science
MAPS Course: Physics

PHYS 1400 (1) Fundamentals of Scientific Inquiry
Engages students in discussions and experimentation to uncover the aspects of physics that won't be found in a textbook, centered around how to do scientific research and be a part of the greater scientific community. Topics include model-building, metacognition, failure in science, and presentation skills. Students will have the opportunity to interact with real scientists through panels, lab tours, and direct mentorship as they engage in a hands-on group research project culminating in a poster presentation session. Geared toward first-year and transfer physics and engineering physics students. Does not count toward the PHYS-BA major requirements. For more information, please visit: http://www.cuprime.org/class.

PHYS 1580 (3) Energy and Interactions
Engages non-physics majors in hands-on, minds-on activities and labs to investigate the physical world, the nature of science, and how science knowledge is constructed. This introductory course is especially relevant for future elementary and middle school teachers although it will meet the needs of most non-physics and non-science majors. Physical content focuses on interactions and energy.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 1580
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Chemistry
MAPS Course: Natural Science
MAPS Course: Physics

PHYS 2010 (5) General Physics 1
Includes three lectures, one two-hour laboratory/recitation per week, plus three evening exams in the fall and spring semesters. Covers mechanics, heat and sound. Thorough presentation of fundamental facts and principles of physics using algebra and trigonometry. Designed for life science majors, including premed students. Natural science majors with a knowledge of calculus and others taking calculus are urged to take the calculus-based courses PHYS 1110, PHYS 1120, PHYS 1140 and PHYS 2130, rather than PHYS 2010 and PHYS 2020. Department enforced prerequisites: ability to use high school algebra and trigonometry.
Additional Information: GT Pathways: GT-SC1 - Natural Physcal Sci:Lec Crse w/ Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science

PHYS 2020 (5) General Physics 2
Includes three lectures, one two-hour laboratory/recitation per week, plus three evening exams in the fall and spring semesters. Covers electricity and magnetism, light and modern physics. Designed for life science majors, including premed students. Natural science majors with a knowledge of calculus and others taking calculus are urged to take the calculus-based courses PHYS 1110, PHYS 1120, PHYS 1140 and PHYS 2130, rather than PHYS 2010 and PHYS 2020.
Requisites: Requires a prerequisite course of PHYS 1110 or PHYS 2010 (minimum grade C-).
Additional Information: GT Pathways: GT-SC1 - Natural Physcal Sci:Lec Crse w/ Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 2130 (3) Introduction to Quantum Mechanics and Its Applications
Learn about a leading edge of physics and engineering along with its applications to much of modern technology. Topics include quantum theory, atomic physics, solid state and nuclear physics. Applications discussed may include special relatively, lasers, diodes/transistors, nuclear energy, quantum computing and encryption. Third semester of introductory sequence for science and engineering students. Physics majors should take PHYS 2170 instead of this course. May be taken concurrently with PHYS 2150.
Requisites: Requires a prerequisite course of PHYS 1120 or PHYS 1125, and a prerequisite or corequisite course of MATH 2400 or APPM 2350 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 2150 (1) Experimental Physics 2
One lect., one 2-hour lab per week. Includes many experiments of modern physics, including atomic physics, solid state physics, electron diffraction, radioactivity and quantum effects. Normally taken concurrently with PHYS 2130 or PHYS 2170, this course may be taken after PHYS 2130 or PHYS 2170.
Requisites: Requires a prerequisite course of PHYS 1140 and a prerequisite or corequisite course of PHYS 2130 or PHYS 2170 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 2170 (3) Foundations of Modern Physics
Covers special relativity, quantum mechanics and atomic structure. Completes the three-semester sequence of general physics for physics and engineering physics majors. Normally taken with the laboratory PHYS 2150.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 2130
Requisites: Requires a prerequisite course of PHYS 1120 or PHYS 1125, and a prerequisite or corequisite course of MATH 2400 or APPM 2350 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 2210 (3) Classical Mechanics and Mathematical Methods 1
Theoretical Newtonian mechanics, including position and velocity dependent forces, oscillation, stability, non-inertial frames and gravitation from extended bodies. Ordinary differential equations, vector algebra, curvilinear coordinates, complex numbers, and Fourier series will be introduced in the context of the mechanics.
Requisites: Requires a prerequisite course of PHYS 2130 or PHYS 2170 and a prerequisite or corequisite course of APPM 2350 or MATH 2400 and a prerequisite or corequisite course of APPM 2360 or MATH 3430 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 2600 (3) Introduction to Programming and Scientific Computing
Covers basic concepts in programming and scientific computing, including numerical integration and simulation of physical systems. Students will learn the programming language Python and associated graphics libraries. Programming examples will be drawn from classical physical systems that can only be solved numerically, such as projectile motion with drag and N-body problems.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 2600
Requisites: Requires prerequisite course of PHYS 1120 (minimum grade C-). Requires prerequisite or corequisite course of PHYS 2170 or PHYS 2130 (minimum grade C-).

PHYS 2840 (1-3) Independent Study
Selected topics for undergraduate independent study. Subject matter to be arranged.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

PHYS 3000 (3) Science and Public Policy
For nonscience majors. Reading, discussions, debates and lectures are used to study how science affects society economically, intellectually, and in terms of health and national security. Another focus is how government fosters and funds scientific activities. Department enforced prerequisite: completion of core science requirement.
Equivalent - Duplicate Degree Credit Not Granted: ARSC 3200

PHYS 3050 (3) Writing in Physics: Problem-Solving and Rhetoric
Teaches strategies used in scientific writing with an emphasis on argument, reviews and reinforces essential writing skills, provides experience in writing both academic and professional communications in a style appropriate to the literature of physics. Department enforced prerequisite: lower-division core writing requirement. Does not count toward the PHYS-BA major requirements or major GPA.
Requisites: Requires a prerequisite course of PHYS 2130 or PHYS 2170 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Upper

PHYS 3070 (3) Energy and the Environment
Contemporary issues in energy consumption and its environmental impact, including fossil fuel use and depletion; nuclear energy and waste disposal; solar, wind, hydroelectric, and other renewable sources; home heating; energy storage; fuel cells; and alternative transportation vehicles. Included are some basic physical concepts and principles that often constrain choices. No background in physics is required.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 3070
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 3090 (3) Introduction to Quantum Computing
Covers the basics of quantum computation, including the basics of quantum information; axioms of quantum mechanics; quantum circuits and universality; the relationship between quantum and classical complexity classes; simple quantum algorithms such as the quantum Fourier transform; Shor factoring algorithm; Grover search algorithm; physical implementation of quantum computation; error correction and fault tolerance.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 3090 and ECEN 3090
Requisites: Requires prerequisite course of APPM 2360 or APPM 3310 or CSCI 2820 or MATH 2130 or MATH 2135 (minimum grade C-).

PHYS 3210 (3) Classical Mechanics and Mathematical Methods 2
Lagrangian and Hamiltonian treatment of theoretical mechanics, including coupled oscillations, waves in continuous media, central force motion, rigid body motion and fluid dynamics. The calculus of variations, linear algebra, tensor algebra, vector calculus, and partial differential equations will be introduced in the context of the mechanics.
Requisites: Requires a prerequisite course of PHYS 2210 and a prerequisite course of APPM 2350 or MATH 2400 and a prerequisite course of MATH 3430 or APPM 2360 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 3220 (3) Quantum Mechanics 1
Introduces quantum mechanics with wave, operator and matrix computational techniques. Investigates solutions for harmonic oscillator, potential well and systems with angular momentum. Develops a quantitative description of one-electron atoms in lowest order.
Requisites: Requires a prerequisite course of PHYS 3210 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 3221 (1) Tutorial Practicum for Quantum Mechanics 1
Uses interactive group work to aid student learning in corequisite course PHYS 3220. In this tutorial, students will work in small groups to practice how to solve challenging problems and their underlying conceptual basis, as well as using hands-on activities, demonstrations, and other techniques to help learn content.
Requisites: Requires a corequisite course of PHYS 3220.

PHYS 3310 (3) Principles of Electricity and Magnetism 1
Covers mathematical theory of electricity and magnetism, including electrostatics, magnetostatics, and polarized media, and provides an introduction to electromagnetic fields, waves, and special relativity.
Requisites: Requires a prerequisite course of PHYS 2210 and a prerequisite course of APPM 2350 or MATH 2400 and a prerequisite course of MATH 3430 or APPM 2360 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 3311 (1) Tutorial Practicum for Electricity & Magnetism 1
Uses interactive group work to aid student learning in corequisite course PHYS 3310. In this tutorial, students will work in small groups to practice how to solve challenging problems and their underlying conceptual basis, as well as using hands-on activities, demonstrations, and other techniques to help learn content.
Requisites: Requires a corequisite course of PHYS 3310.

PHYS 3320 (3) Principles of Electricity and Magnetism 2
Continuation of PHYS 3310. Electromagnetic induction; magnetic energy; microscopic theory of magnetic properties; Ac circuits; Maxwell's Equations; planewaves; waveguides and transmission lines; radiation from electric and magnetic dipoles and from an accelerated charge.
Requisites: Requires a prerequisite course of PHYS 3310 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 3330 (2) Electronics for the Physical Sciences
Introduces laboratory electronics for physical science students. Includes basic electronic instruments, dc bridge circuits, operational amplifiers, bipolar transistors, field-effect transistors, photodiodes, noise in electronic circuits, digital logic and microcontrollers. Students gain hands-on experience in designing, building and debugging circuits. Two lectures and one three hour laboratory per week. Concludes with a three-week project in which students design and build an experiment of their choice and present a seminar on the results.
Requisites: Requires prerequisite courses of PHYS 2150 and PHYS 2130 or PHYS 2170 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4130 (3) Biological Electron Microscopy: Principles and Recent Advances
Covers basic mechanisms for imaging and recent advances used in current biological research, elements of electron optics, image optimization, resolution, radiation damage, various imaging modes (TEM, HVEM, Sem, Stem, Stm), specimen quantitation and reconstruction (stereo and 3-D), microanalysis and electron diffraction. Specimen preparation treated only incidentally.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 5130
Requisites: Requires a prerequisite course of EBIO 1220 or MCDB 1150 or MCDB 4550 or MCDB 5550 or PHYS 1120 or PHYS 2020 (minimum grade D-).

PHYS 4150 (3) Plasma Physics
Discusses the fundamentals of plasma physics, including particle motion in electromagnetic fields, wave propagation, collisions, diffusion, and resistivity. Presents examples from space plasmas, astrophysical plasmas, laboratory fusion plasmas, and plasmas in accelerators.
Requisites: Requires a prerequsite course of PHYS 3310 and a prerequisite or corequisite course of PHYS 3320 (all minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4230 (3) Thermodynamics and Statistical Mechanics
Statistical mechanics applied to macroscopic physical systems; statistical thermodynamics, classical thermodynamics systems; applications to simple systems. Examines relationship of statistical to thermodynamic points of view.
Requisites: Requires a prerequisite course of PHYS 2210 and a prerequisite or corequisite course of PHYS 3220 (all minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4340 (3) Introduction to Solid State Physics
Discusses crystal structure, lattice dynamics, band theory, semiconductors and ferromagnetism.
Requisites: Requires a prerequsite course of PHYS 3220 (minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4410 (3) Quantum Mechanics 2
Extends quantum mechanics to include perturbation theory and its applications to atomic fine structure, multi-particle systems, interactions with external forces, the periodic table and dynamical processes including electromagnetic transition rates.
Requisites: Requires prerequisite courses of PHYS 3220 and PHYS 3310 (all minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4420 (3) Nuclear and Particle Physics
Introduces structure of the atomic nucleus, spectroscopy of subnuclear particles, scattering, reactions, radioactive decay, fundamental interactions of quarks and leptons.
Requisites: Requires prerequsite courses of PHYS 3320 and PHYS 4410 (all minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4430 (3) Advanced Laboratory
Two lectures, one lab per week. Experiments introduce students to realities of the experimental physics so they gain a better understanding of theory and an appreciation of the vast amount of experimental work done in the physical sciences today.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 5430
Requisites: Requires a prerequsite course of PHYS 3330 (minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4450 (3) History and Philosophy of Physics
Discusses the epistemic question of what characterizes good physics research as well as the metaphysical question of what our best physics research tells us about the world. Topics may include case studies of physics experiments, theory choice, and scientific methodology in physics, as well as foundational metaphysical questions in statistical mechanics, quantum mechanics, special and general relativity, chance and probability, and the laws of nature.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5450 and PHIL 4450 and PHYS 5450
Requisites: Requires a prerequisite course of PHYS 1020 or PHYS 1120 or PHYS 1125 or PHYS 2020 (minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4460 (3) Teaching and Learning Physics
Learn how people understand key concepts in physics. Through examination of physics content, pedagogy and problems, through teaching, and through research in physics education, students will explore the meaning and means of teaching physics. Students will gain a deeper understanding of how education research is done and how people learn. Useful for all students, especially for those in interested in physics, teaching and education research.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 5460 and EDUC 4460 and EDUC 5460
Requisites: Requires prerequisite courses of PHYS 3210 and PHYS 3310 (all minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4510 (3) Optics
Basic electromagnetic theory of light, using Maxwell's equations. Examples in geometrical optics; extensive applications in physical optics including diffraction and polarization. Spectra, including Zeeman effect and fluorescence. Recent advances in experimental techniques: microwaves, lasers, image converters.
Requisites: Requires a prerequisite course of PHYS 3320 (minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4550 (3) Cells, Molecules and Tissues: A Biophysical Approach
Focuses on the biophysics governing the structure/function of enzymes, cells, extracellular matrix and tissue. Synthesizes ideas from molecular biology, physics, and biochemistry, emphasizing how low Reynolds number physics, not Newtonian physics, is relevant to life inside a cell. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5550 and MCDB 4550 and PHYS 5550
Recommended: Prerequisites MCDB 3135 and MCDB 3145 and PHYS 2010 and PHYS 2020 and CHEM 1133 or MATH 1300 and/or CHEM 3311 (minimum grade C-) or instructor consent required.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4560 (3) Introduction to Biophysics
Covers an introduction to the physics of living systems. Focuses on how living systems are able to generate order, with both physical principles and biological examples. Covers the development of quantitative models for biological systems, including estimates. Taught from a physics perspective, with biology background introduced as needed.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 5560 and MCDB 4560 and MCDB 5560
Requisites: Requires a prerequisites course of PHYS 2210 (minimum grade C-).
Recommended: Prerequisite PHYS 4230.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4610 (2) Physics Honors
Students are matched with a faculty member and work independently on a research topic. Typically, the honors program lasts three semesters. A senior thesis and an oral presentation of the work are required. See also PHYS 4620 and PHYS 4630. Department enforced prerequisite: mininimum 3.00 GPA. Registration by special arrangement with the Department of Physics.
Additional Information: Arts Sciences Honors Course

PHYS 4620 (2) Physics Honors
Students are matched with a faculty member and work independently on a research topic. Typically, the honors program lasts three semesters. A senior thesis and an oral presentation of the work are required. See also PHYS 4610 and PHYS 4630. Department enforced prerequisite: mininimum 3.00 GPA. Registration by special arrangement with the Department of Physics.
Additional Information: Arts Sciences Honors Course

PHYS 4630 (2) Physics Honors
Students are matched with a faculty member and work independently on a research topic. Typically, the honors program lasts three semesters. A senior thesis and an oral presentation of the work are required. See also PHYS 4610 and PHYS 4620. Department enforced prerequisite: mininimum 3.00 GPA. Registration by special arrangement with the Department of Physics.
Additional Information: Arts Sciences Honors Course

PHYS 4700 (3) Quantum Forge I
Provides junior- and senior-level engineering and physical science students an opportunity to gain professional and technical quantum science skills and experience through participation in real-world projects in collaboration with industry leaders and academic investigators. Alongside project activity, students will engage in skill- and concept-focused modules to ensure proficiency in the skills necessary to participate in the quantum workforce. This capstone experience is intended for students who do not intend to continue on to graduate study in physics or engineering, but rather to enter the workforce directly.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4700
Requisites: Requires prerequisite course of PHYS 3330 (minimum grade C-).
Recommended: Prerequisite or corequisite PHYS 4410.

PHYS 4710 (3) Quantum Forge II
Continuation of PHYS 4700, Quantum Forge I. The Quantum Forge provides junior- and senior-level engineering and physical science students an opportunity to gain professional and technical quantum science skills and experience through participation in real-world projects in collaboration with industry leaders and academic investigators. In the second semester, students will expand upon the knowledge and skills gained through the first-semester to bring projects to a point of completion and readiness for deployment in the industry context. As with Quantum Forge I, this capstone experience is intended for students who do not intend to continue on to graduate study in physics or engineering, but rather to enter the workforce directly.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4710
Requisites: Requires prerequisite course of PHYS 4700 or MCEN 4700 (minimum grade C-).

PHYS 4810 (1-3) Special Topics in Physics
Various topics not normally covered in the curriculum. Offered intermittently depending on student demand and availability of instructors.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4840 (1-3) Independent Study
Selected topics for undergraduate independent study. Subject matter to be arranged. See also PHYS 4850.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

PHYS 4850 (1-3) Independent Study
Selected topics for undergraduate independent study. Subject matter to be arranged. See also PHYS 4840.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

PHYS 4970 (3) Seminar on Physical Methods in Biology
Covers basic mechanisms and applications of physical methods used in current biological research, microprobe analysis, Eels, elementary electron and x-ray crystallography, biomedical imaging (NMR, MRI, Pet, Cat), Fourier analysis, synchrotron radiation, Exafs, neutron scattering and novel ultramicroscopy techniques. Includes lectures, student presentations, occasional demonstrations. Emphasis depends on student interest.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 5970
Requisites: Requires a prerequisite course of PHYS 1120 or PHYS 2020 and MCDB 1150 or EBIO 1220 (all minimum grade D-).

PHYS 5030 (3) Intermediate Mathematical Physics 1
This course and its continuation, PHYS 5040, form a survey of classical mathematical physics. Studies complex variable theory and finite vector spaces, and includes topics in ordinary and partial differential equations, boundary value problems, potential theory, and Fourier analysis.
Equivalent - Duplicate Degree Credit Not Granted: MATH 5030
Requisites: Restricted to graduate students only.

PHYS 5040 (3) Intermediate Mathematical Physics 2
Continuation of PHYS 5030. Includes group theory, special functions, integral transforms, integral equations and calculus of variations.
Equivalent - Duplicate Degree Credit Not Granted: MATH 5040
Requisites: Restricted to graduate students only.
Recommended: Prerequisite PHYS 5030.

PHYS 5070 (3) Introduction to Computational Physics
Surveys methods and practices in programming and scientific computing for the study of physics, using the Python programming language. Core material will include data analysis and visualization, numerical solution of differential equations, working with large-scale remote computers, and general software skills such as debugging, version control, and collaborative tools. Previously offered as a special topics course.
Requisites: Restricted to graduate students only.

PHYS 5130 (3) Biological Electron Microscopy: Principles and Recent Advances
Covers basic mechanisms for imaging and recent advances used in current biological research, elements of electron optics, image optimization, resolution, radiation damage, various imaging modes (TEM, HVEM, Sem, Stem, Stm), specimen quantitation and reconstruction (stereo and 3-D), microanalysis and electron diffraction. Specimen preparation treated only incidentally.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 4130

PHYS 5141 (3) Astrophysical and Space Plasmas
Covers magnetohydrodynamics and a few related areas of plasma physics applied to space and astrophysical systems, including planetary magnetospheres and ionospheres, stars, and interstellar gas in galaxies.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 5140
Requisites: Restricted to Physics (PHYS) or Astronomy (ASTR) graduate students only.

PHYS 5150 (3) Introductory Plasma Physics
Includes basic phenomena of ionized gases, static and dynamic shielding, linear waves, instabilities, particles in fields, collisional phenomena, fluid equations, collisionless Boltzman equations, Landau damping, scattering and absorption of radiation in plasmas, elementary nonlinear processes, WKB wave theory, controlled thermonuclear fusion concepts, astrophysical applications and experimental plasma physics (laboratory). Department enforced prerequisite: PHYS 3310. Instructor consent required for undergraduates.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 5150
Requisites: Restricted to graduate students only.

PHYS 5160 (3) Fundamentals of Optics and Lasers
Covers the basic physic of lasers. Topics include basics of optical resonators and gaussian beam propagation, stimulated emission, laser threshold conditions, laser linewidth, q-switching and mode locking of lasers, tuning of Cw lasers, and specifics of various common lasers.
Requisites: Restricted to graduate students only.

PHYS 5210 (3) Theoretical Mechanics
Variational principles, Lagrange's equations, Hamilton's equations, motion of rigid body, relativistic mechanics, transformation theory, continuum mechanics, small oscillations, Hamilton-Jacobi theory.
Requisites: Restricted to graduate students only.

PHYS 5250 (3) Introduction to Quantum Mechanics 1
Quantum phenomena, Ehrenfest theorem and relation to classical physics, applications to one-dimensional problems, operator techniques, angular momentum and its representations, bound states and hydrogen atom, and Stern-Gerlack experiment and spin and spinor wave function. Department enforced prerequisite: advanced undergraduate quantum mechanics course.
Requisites: Restricted to graduate students only.

PHYS 5260 (3) Introduction to Quantum Mechanics 2
Symmetries and conservation laws, identical particle systems, approximation techniques (including time-dependent and time-independent perturbation theories and variational techniques) and their applications, scattering theory, radiative transitions, and helium atom.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite PHYS 5250.

PHYS 5400 (3) Introduction to Fluid Dynamics
Covers equations of fluid motion relevant to planetary atmospheres and oceans and stellar atmospheres; effects of rotation and viscosity; and vorticity dynamics, boundary layers and wave motions. Introduces instability theory, nonlinear equilibration and computational methods in fluid dynamics. Department enforced prerequisite: partial differential equations or equivalent.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 5400 and ASTR 5400
Requisites: Restricted to graduate students only.

PHYS 5430 (3) Advanced Laboratory
Two lectures, one lab per week. Experiments introduce students to realities of the experimental physics so they gain a better understanding of theory and an appreciation of the vast amount of experimental work done in the physical sciences today. Department enforced prerequisites: PHYS 3330 and PHYS 3220 and PHYS 3320. Department enforced corequisites: PHYS 4410.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 4430
Requisites: Restricted to graduate students only.

PHYS 5450 (3) History and Philosophy of Physics
Discusses the epistemic question of what characterizes good physics research as well as the metaphysical question of what our best physics research tells us about the world. Topics may include case studies of physics experiments, theory choice, and scientific methodology in physics, as well as foundational metaphysical questions in statistical mechanics, quantum mechanics, special and general relativity, chance and probability, and the laws of nature.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 4450 and PHIL 5450 and PHIL 5450
Requisites: Restricted to graduate students only.

PHYS 5460 (3) Teaching and Learning Physics
Learn how people understand key concepts in physics. Through examination of physics content, pedagogy and problems, through teaching, and through research in physics education, students will explore the meaning and means of teaching physics. Students will gain a deeper understanding of how education research is done and how people learn. Useful for all students, especially for those interested in physics, teaching, and education research.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 4460 and EDUC 4460 and EDUC 5460
Requisites: Restricted to graduate students only.

PHYS 5550 (3) Cells, Molecules and Tissues: A Biophysical Approach
Focuses on the biophysics governing the structure/function of enzymes, cells, extracellular matrix and tissue. Synthesizes ideas from molecular biology, physics, and biochemistry, emphasizing how low Reynolds number physics, not Newtonian physics, is relevant to life inside a cell.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 4550 and MCDB 4550 and MCDB 5500

PHYS 5560 (3) Introduction to Biophysics
Covers an introduction to the physics of living systems. Focuses on how living systems are able to generate order, with both physical principles and biological examples. Covers the development of quantitative models for biological systems, including estimates. Taught from a physics perspective, with biology background introduced as needed.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 4560 and MCDB 4560 and MCDB 5560
Grading Basis: Letter Grade

PHYS 5606 (3) Optics Laboratory
Consists of 13 optics experiments that introduce the techniques and devices essential to modern optics, including characterization of sources, photodetectors, modulators, use of interferometers, spectrometers and holograms, and experimentation of fiber optics and Fourier optics.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5606
Recommended: Prerequisite undergraduate optics course such as PHYS 4510.

PHYS 5730 (3) Particle Physics
Introduces the properties of elementary particles, phenomenology of particle interactions, particle detector, particle accelerators, scattering cross sections, decay rates, electron-positron annihilation, lepton scattering and hadron structure, quantum chromodynamics, electroweak interactions, symmetries and symmetry breaking.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites undergraduate courses in quantum mechanics and electricity and magnetism.

PHYS 5770 (3) Gravitational Theory (Theory of General Relativity)
Presents Einstein's relativistic theory of gravitation from geometric viewpoint; gives applications to astrophysical problems (gravitational waves, stellar collapse, etc.). Instructor consent required for undergraduates.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites PHYS 3220 and PHYS 3320.

PHYS 5840 (1-3) Selected Topics for Graduate Independent Study
Subject matter to be arranged.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

PHYS 5970 (3) Seminar on Physical Methods in Biology
Covers basic mechanisms and applications of physical methods used in current biological research, microprobe analysis, Eels, elementary electron and x-ray crystallography, biomedical imaging (NMR, MRI, Pet, Cat), Fourier analysis, synchrotron radiation, Exafs, neutron scattering and novel ultramicroscopy techniques. Includes lectures, student presentations, occasional demonstrations. Emphasis depends on student interest.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 4970
Requisites: Restricted to graduate students only.

PHYS 6260 (3) Geometry of Quantum Fields and Strings
Focuses on differential geometric techniques in quantum field and string theories. Topics include: spinors, Dirac operators, index theorem, anomalies, geometry of superspace, supersymmetric quantum mechanics and field theory and nonperturbative aspects in field and string theories.
Equivalent - Duplicate Degree Credit Not Granted: MATH 6260
Recommended: Prerequisites MATH 6230 and PHYS 5250 and MATH 6240 and PHYS 7280.

PHYS 6610 (3) Earth and Planetary Physics 1
Examines mechanics of deformable materials, with applications to earthquake processes. Introduces seismic wave theory. Other topics include inversion of seismic data for the structure, composition and state of the interior of the Earth.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 6610 and ASTR 6610
Requisites: Restricted to graduate students only.

PHYS 6620 (3) Earth and Planetary Physics 2
Covers space and surface geodetic techniques as well as potential theory. Other topics are the definition and geophysical interpretation of the geoid and of surface gravity anomalies; isostasy; post-glacial rebound; and tides and the rotation of the Earth.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 6620 and ASTR 6620
Requisites: Restricted to graduate students only.

PHYS 6630 (3) Earth and Planetary Physics 3
Examines the solar system, emphasizing theories of its origin and meteorites. Highlights distribution of radioactive materials, age dating, heat flow through continents and the ocean floor, internal temperature distribution in the Earth, and mantle convection. Also covers the origin of the oceans and atmosphere.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 6630 and ASTR 6630
Requisites: Restricted to graduate students only.

PHYS 6650 (1-3) Seminar in Geophysics
Advanced seminar studies in geophysical subjects for graduate students.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 6650 and GEOL 6650
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHYS 6655 (3) InSAR Processing and Interpretation
Understand the concepts and applications of interferometric synthetic aperture radar (InSAR) and differential InSAR, to include an introduction to physical geodesy and satellite techniques.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 6655
Grading Basis: Letter Grade

PHYS 6670 (2) Geophysical Inverse Theory
Principles of geophysical inverse theory as applied to problems in the Earth sciences, including topography, Earth structure and earthquake locations.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 6670
Requisites: Restricted to graduate students only.
Recommended: Prerequisites a course in calculus and a course in computer programming (any language).

PHYS 6940 (1) Master's Candidate for Degree
Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree.

PHYS 6950 (1-6) Master's Thesis
Approved problem in theoretical or experimental physics under the direction of staff members. Intended to introduce the student to procedures in research and development work. Work of an original nature expected.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

PHYS 7160 (3) Intermediate Plasma Physics
Continuation of PHYS 5150. Topics vary yearly but include nonlinear effects such as wave coupling, quasilinear relaxation, particle trapping, nonlinear Landau damping, collisionless shocks, solutions; nonneutral plasmas; kinetic theory of waves in a magnetized plasma; anisotropy; inhomogeneity; radiation- ponderomotive force, parametric instabilities, stimulated scattering; plasma optics; kinetic theory and fluctuation phenomena.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 7160
Requisites: Restricted to graduate students only.
Recommended: Prerequisite PHYS 5150.

PHYS 7230 (3) Statistical Mechanics
Classical and quantum statistical theory, including study of both equilibrium and nonequilibrium systems. Topics covered include kinetic theory, degenerate gases, macrocanonical and grand canonical ensembles, and irreversible processes. Department enforced prerequisite: advanced undergraduate quantum mechanics course.
Requisites: Restricted to graduate students only.

PHYS 7240 (3) Advanced Statistical Mechanics
Introduces current research topics in statistical mechanics. Topics vary from year to year and may include phase transitions, critical phenomena, nonequilibrium phenomena, dense fluids, dynamical systems, plasma physics, or quantum statistical mechanics.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite PHYS 7230.

PHYS 7250 (3) Quantum Many Body Theory
Theory of quantum many body systems, including methods based on Green's functions, Feynman diagrams, and coherent state path integral with applications to interacting quantum gases, superconductivity and superfluidity, quantum phase transitions, quantum magnetism, quantum motion in the presence of disorder, and topological states of matter.
Requisites: Restricted to graduate students only.

PHYS 7270 (3) Introduction to Quantum Mechanics 3
Radiation theory; relativistic wave equations with simple applications; introduction to field theory and second quantization.
Requisites: Restricted to graduate students only.

PHYS 7280 (3) Advanced Quantum Theory
Quantum theory of fields, elementary particles, symmetry laws, and topics of special interest.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite PHYS 7270 or instructor consent required.

PHYS 7310 (3) Electromagnetic Theory 1
Sophisticated approach to electrostatics, boundary value problems, magnetostatics, applications of Maxwell's equations to electromagnetic wave propagation, wave guides, and resonant cavities and magnetohydrodynamics.
Requisites: Restricted to graduate students only.

PHYS 7320 (3) Electromagnetic Theory 2
Continuation of PHYS 7310. Topics include relativistic particle dynamics; radiation by moving charges; multiple fields; radiation damping and self-fields of a particle; collisions between charged particles and energy loss; radiative processes; and classical field theory.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite PHYS 7310.

PHYS 7430 (3) Soften Condensed Matter Physics
Introduces the science of liquid crystals, polymers, biological membranes, biopolymers, block copolymers, molecular monolayers, colloids, nanoparicle suspensions, emulsions, foals, gels, elastomers and other soft materials. Topics vary from semester to semester and is geared toward graduate students with diverse preparation backgrounds, including students from the Department of Physics, as well as other science and engineering departments.
Requisites: Restricted to graduate students only.

PHYS 7440 (3) Theory of the Solid State
Stresses application to the solid state of physical concepts basic to much of modern physics, single-particle approximation, and the energy-band description of electron states in solids, pseudopotential theory applied to ordered and disordered systems, dynamical behavior of electrons in solids, lattice dynamics, Hartree-Fock and random-phase approximation in solids, many-body aspects of magnetism, and superconductivity.
Requisites: Restricted to graduate students only.

PHYS 7450 (3) Theory of Solid State 2
Second semester of condensed matter physics, covers topics in soft condensed matter physics, liquid crystals, semiconductors, Quantum Hall effect, Fractional Quantum Hall effect, superconductivity and other topics at the discretion of the instructor.
Requisites: Restricted to graduate students only.

PHYS 7550 (3) Atomic and Molecular Spectra
Covers theory of atomic structure and spectra, including coupling of angular momenta, tensor operators, energy levels, fine and hyperfine structure, transition probabilities, Zeeman and Stark effects. Molecular spectra: electronic, vibrational, and rotational states. Rotation matrices, symmetric top.
Requisites: Restricted to graduate students only.

PHYS 7560 (3) Quantum Optics
Covers quantum optical and atomic systems including topics such as: coherent and squeezed states, theory of optical coherence, atom-radiation interaction, optical Bloch equations, open quantum systems, dynamics on the Bloch sphere, resonance fluorescence, beam-splitters and interferometry, entanglement and quantum information.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites PHYS 3220 and PHYS 4410.

PHYS 7570 (3) Quantum Information and Computing
Covers the foundations of quantum information and computing. Includes bits and qubits, entanglement, quantum algorithms, and quantum error correction. More advanced topics selected from: Quantum Shannon theory, quantum communication and networks, quantum-enhanced measurements, and quantum simulation. Department enforced prerequisite: PHYS 5250.
Requisites: Restricted to graduate students only.

PHYS 7650 (3) Nonlinear and Nano-Optics
Covers the field of ultrafast optics including both experimental and theoretical aspects. Topics include: description of ultrashort optical pulses, propagation of pulses including dispersion and nonlinearity, their integration, measurement and manipulation and their use in applications including spectroscopy.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites PHYS 4510 or PHYS 5160.

PHYS 7660 (3) Ultrafast Optics
Covers the field of ultrafast optics including both experimental and theoretical aspects. Topics include description of ultrashort optical pulses, propagation of pulses including dispersion and nonlinearity, their generation, measurement and manipulation and their use in applications including spectroscopy. Department enforced prerequisite: PHYS 5160, or PHYS 4510, or ECEN 5645.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

PHYS 7730 (3) Theory of Elementary Particles
Systematics of elementary particles, leptons, quarks,gauge bosons, symmetries and symmetry breaking, scattering cross sections, decay rates, electron-positron annihilation, lepton scattering and hadron structure, quantum chromodynamics, electroweak interactions, gauge theories.
Requisites: Restricted to graduate students only.

PHYS 7810 (1-3) Special Topics in Physics
Various topics not normally covered in the curriculum; offered intermittently depending on student demand and availability of instructors.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

PHYS 7820 (3) Topics in Scientific Writing
Teaches strategies used in scientific writing with emphasis on problem statement, audience analysis and principles of sound argument; reviews and reinforces essential writing skills, stressing the need for careful and strategic revision; provides experience in writing academic and professional communications; presentation skills and proposal writing. Most appropriate for students beginning to write journal articles, Comps II paper, or dissertation chapter.
Requisites: Restricted to graduate students only.

PHYS 7830 (1) Plasma Seminar
One credit 'journal club' style course covering current and significant historical advances in plasma physics research. Each week the class is assigned a journal article to read in advance of the meeting and one student is selected (on a rotating basis) to present a synopsis and lead a round-table discussion. Cannot be used for minimum credit hour requirements of graduate program. See also PHYS 7810 and PHYS 7820. May be repeated for a total of 7 credit hours.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade

PHYS 7840 (1-3) Selected Topics for Graduate Independent Study
Subject matter to be arranged.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

PHYS 7850 (1-3) Selected Topics for Graduate Independent Study
Subject matter to be arranged. May be repeated for a total of 7 credit hours.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

PHYS 8990 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 30.00 total credit hours.

Planning and Urban Design (PLAN)

Courses

PLAN 2004 (3) History and Theory of Sustainable Planning and Urban Design
Surveys the key urban theories that shape sustainable planning and urban design. Covers the evolution of city form, policy approaches, history of planning, and evolution of sustainability and its approaches globally.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD), and Environmental Planning Minor students only.
Recommended: Corequisite PLAN 2100.
Grading Basis: Letter Grade

PLAN 2100 (6) Studio 1: Foundations of Sustainable Planning and Urban Design
Expands on introductory sustainable planning and urban design concepts and methods to address social and ecological challenges in communities. Exploration skills include spatial analysis, basic community engagement techniques, legal and regulatory framework, and policy alternatives. The resultant project addresses challenges at the intersection of social and environmental systems.
Requisites: Requires prerequisite course of ENVD 1120 (minimum grade C-). Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD), students with 40+ credits.
Recommended: Corequisite PLAN 2004.
Grading Basis: Letter Grade

PLAN 3005 (3) Process and Practice
Introduces the regulatory and legal structures surrounding sustainable planning, design, and development. Covers issues of environmental policy, property rights, zoning, and building codes and laws. Includes work on professional development in the field of planning and design.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

PLAN 3100 (6) Studio 2: Intermediate Sustainable Planning and Urban Design
Utilizes intermediate-level planning concepts and practices to create solutions to specific challenges in a collaborative process. Through a sequence of planning, policy, and design investigations students explore issues such as equity, housing, transportation, community engagement and land use.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Requires prerequisite course of PLAN 2100 (minimum grade C-). Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

PLAN 3102 (3) Strategies and Techniques for Sustainable Planning and Urban Design
Explores analytical strategies and techniques in applied research and professional skills needed in sustainable planning and design. Includes quantitative and qualitative methods used by planners and designers to make informed decisions.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

PLAN 4100 (6) Capstone in Sustainable Planning and Urban Design
Applies advanced concepts in comprehensive planning, plan-making, and plan implementation for communities. Capstone experience provides an opportunity for students to engage with real-world challenges, working closely with communities to address complex issues. The project integrates both qualitative and quantitative skills, focusing on solving social, environmental, and ecological problems while emphasizing sustainable, impactful planning solutions for community development and resilience.
Requisites: Requires prerequisite course of PLAN 3100 (minimum grade C-). Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN), open option (ENVD), and Environmental Planning Minor students.
Grading Basis: Letter Grade

PLAN 4101 (3) Sustainable Futures Planning
Surveys innovative ways that planners and designers are addressing the great social and ecological challenges of the present and future. Includes issues such as population growth and climate change.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

Political Science (PSCI)

Courses

PSCI 1101 (3) Introduction to American Politics
Emphasizes interrelations among levels and branches of government, formal and informal institutions, processes, and behavior.
Additional Information: GT Pathways: GT-SS1 - Soc Behav Sci: Econ or Pol Systems
Arts Sci Core Curr: Contemporary Societies
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American
MAPS Course: Social Science
MAPS Course: Social Science US Context

PSCI 2004 (3) Survey of Western Political Thought
Studies main political philosophies and political issues of Western culture, from antiquity to 20th century.
Additional Information: GT Pathways: GT-SS1 - Soc Behav Sci: Econ or Pol Systems
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 2012 (3) Introduction to Comparative Politics
Most countries confront a variety of common political problems, including how to gain popular support, what kinds of political institutions are most appropriate, and how to distribute burdens and benefits to different segments of the population. Concentrates on learning how to compare different political systems and provides illustrative examples from several countries in both the industrialized and nonindustrialized world.
Additional Information: GT Pathways: GT-SS1 - Soc Behav Sci: Econ or Pol Systems
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 2028 (3) Special Topics
Offers subjects not covered by existing courses. Offered when department approves a special topic.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General

PSCI 2075 (3) Quantitative Research Methods
Introduces quantitative research methods used in political science. Focuses on basic tools of analysis: data collection, processing, and evaluation, with special attention to survey techniques. Includes elite and case study analysis; aggregate, cluster, and content analysis; and the use of computers in political research.
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Empirical Theory and Research Methdology
MAPS Course: Mathematics

PSCI 2106 (3) Introduction to Public Policy Analysis
Studies policymaking processes in American government, factors shaping public decision, and issues and questions relevant to political inquiry.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Public Policy

PSCI 2116 (3) Introduction to Environmental Policy and Policy Analysis
Teaches a systematic general framework for the analysis of environmental policy issues. Analyzes the interaction of environmental sciences, ethics, and policy across a range of environmental policy problems. Stresses critical thinking and practical applications.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Public Policy

PSCI 2223 (3) Introduction to International Relations
Introduces the field of international relations, with general survey of the theories, histories, and problems of historical and contemporary relations among state and nonstate actors.
Additional Information: GT Pathways: GT-SS1 - Soc Behav Sci: Econ or Pol Systems
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 2481 (3) Introduction to the Legal Process
Covers basic legal concepts and processes emphasizing the American system. Gives special attention to political functions of law. Recommended as preparation for PSCI 4241.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3011 (3) The American Presidency and the Executive Branch
Examines the constitutional, institutional and historical development of the presidency and the federal bureaucracy. Explores the changing role of the executive branch in the U.S. political system over time and competing views of executive power.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3021 (3) U.S. Campaigns and Elections
Introduces students to the subjects, techniques, and findings of Political Science research on campaigns and elections. Particular emphasis is placed on the study of voting, campaign effects, partisan coalitions, electoral rules, campaign finance, and the policy impact of elections.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3022 (3) Russian Politics
Covers the important and pressing issues in modern Russia politics since 1990. How and why did Communism end? How did Putin come to power, what are his goals, and how long will he stay in power? What is going on with the Russian-Ukrainian conflict? Does the Russian government interfere in the politics of other countries? Come learn about the politics of this major world power.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 3031 (3) Political Parties and Interest Groups
Highlights the practice of party politics in the United States, including the nature, structure, organization, and functions of political parties and interest groups. Analyzes interest group politics and political behavior.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3032 (3) Democracy, Inequality and Violence in Latin America
Stresses different perspectives on Latin American politics and understanding key political actors and processes. Country focus varies.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 3035 (3) Introduction to Qualitative Research Methods
Enables students to create and critique qualitative research designs including comparative case studies, process tracing, interviews, archival research, and mixed methods. Includes lectures and in- or out-of-class exercises in which students use ideas discussed in the course to develop their own applied knowledge of these methods. Previously offered as a special topics course.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSCI 3041 (3) The American Congress
Provides intensive examination of the role of Congress in American government, including congressional elections, representation, the organization of Congress, and congressional policy making. Examines larger context of congressional politics, including political parties, the president, and interest groups.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3051 (3) Public Opinion and Political Behavior
Examines measurement of public opinion and evaluation of its impact on governmental policy formation, including survey research techniques.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3052 (3) Gender and Politics in Latin America
Examines Latin American politics with particular focus on women's participation in social movements, war, revolution, and elections. Compares women's and men's politics and activism and examines changing gender and sexuality policies, gender relations, and the differential impact of political, economic, and social changes on men and women.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3650
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2600 or PSCI 3032.
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 3054 (3) American Political Thought
Highlights the development of American political theories and ideas from colonial period to present. Can also be taken for American field credit.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2004.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 3061 (3) State Government and Politics
Examines politics in the American states from a comparative and historical perspective. Considers major political actors---interest groups, citizens (direct democracy), and political parties, as well as central institutions, in the state political arena. Also focuses on major state public policy concerns.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3062 (3) Revolution and Political Violence
Studies and evaluates alternative theoretical frameworks for the analysis of revolution and political violence. Theoretical material is firmly couched in case situations, such as ethnic, class, colonial, urban, racial, and religious conflicts.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101 or PSCI 2012 or IAFS 1000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 3064 (3) Environmental Political Theory
Examines environmental discourses as conceptual means for theorizing environmental politics, and applies normative political theories to contemporary environmental policy issues. Considers the roles of political actors (individuals, groups, the state) in defining and addressing environmental problems on local, national, and global levels.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 3064
Recommended: Prerequisite PSCI 2004.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 3071 (3) Urban Politics
Examines the structure of political, social, and economic influence in urban areas. Focuses on the relationship of the political system to governmental, social, and economic institutions and the contemporary policy processes in American cities.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3072 (3) Government and Politics in Southeast Asia
Surveys historical and contemporary forces shaping politics in Southeast Asia. Gives special attention to comparative political economy, including development strategies and transitions to democracy.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2012 or IAFS 1000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative
Departmental Category: Asia Content

PSCI 3075 (3) Applied Political Science Research
Introduces the types of research design and quantitative methodology used in applied political science research. Directly builds on the data analysis performed in Quantitative Research Methods (PSCI 2075).
Requisites: Requires prerequisite course of PSCI 2075 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Empirical Theory and Research Methdology

PSCI 3082 (3) Political Systems of Sub-Saharan Africa
Analyzes post-independence and post-Cold War change in sub-Saharan Africa and provides intensive case studies of selected countries exemplifying each type with South Africa seen as a special case.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2012 or IAFS 1000.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 3084 (3) Diversity, Disagreement, and Democracy: an Introduction to the Theory and Practice of Democracy
Examines the justification and limits for moral, political and religious pluralism. Students will be trained in the practice of dialogue and research the historical context of a subject that would be appropriate for a dialogue, and then interview members of the community who have different perspectives on the subject.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 3091 (3) Politics of Social Movements
Examines theoretical and empirical research on social movements from a U.S. perspective. Considers why social movements arise, who participates in them, the tactics they employ, obstacles they face, and their political impact.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3092 (3) Comparative Political Economy
Presents theories on the interaction between policies and economics, economic models of politics, and familiarizes students with an approach that will prove useful in understanding current developments in both economics and politics. Explores relationships between financial markets, currency regimes and politics with some special consideration of the behavioral foundations of political and economic developments. Recommeded prerequisite: PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 3101 (3) Black Politics
Examines structure of political, social, and economic influence in urban areas. Focuses on the relationship of political processes to governmental, social, and economic institutions and contemporary policy processes in American cities.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: American

PSCI 3102 (3) South Asian Politics
Examine the diverse political trajectories of four South Asian countries: India, Pakistan, Nepal, and Sri Lanka. Using a comparative lens, we will take into account historical, cultural, and economic, in addition to political, factors in deciphering this diversity of political paths.
Recommended: Prerequisite PSCI 2012 or IAFS 1000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative
Departmental Category: Asia Content

PSCI 3105 (3) Designing Social Inquiry: An Introduction to Analyzing Political Phenomena
Tackles conceptualization and measurement with a focus on reliability and validity of measures at the individual level. Explores how improper measurement and conceptualization can affect our inferences. Investigates how to use the tools of causal logic with statistical tools to differentiate linear, spurious, intervening and conditional relationships with a particular focus on what it means to "control for other factors".
Requisites: Requires prerequisite course of PSCI 2075 (minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Empirical Theory and Research Methdology

PSCI 3122 (3) Authoritarianism in the Digital Age
Introduces students to cutting edge research on how changes in information communication technologies (ICTs) have shaped politics in authoritarian regimes. Drawing on longstanding theories in the comparative politics literature, students will learn how governments, citizens, and non state actors use digital technologies to achieve their goals.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSCI 3123 (3) War, Peace, and Strategic Defense
Analyzes employment, or the threat of employing force, in securing American interests in the post-Cold War world. Gives special attention to utilities claimed for nuclear weapons, and alternatively, to weapons control and disarmament.
Equivalent - Duplicate Degree Credit Not Granted: PACS 3800
Recommended: Prerequisite PSCI 2223.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 3142 (3) Politics, History and Society of Cuba
Provide students with general knowledge about Cuba, its history, government, and economy, with a particular emphasis on the Cuban Revolution and more current events such as changes to travel restrictions and US policy toward Cuba under Obama, Trump and Biden. As a global intensive, it also involves a 10-day travel/educational program in Cuba that will occur after the semester.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSCI 3143 (3) Current Affairs in International Relations
Analyzes the various theoretical and policy challenges facing the post-Cold War world, with an emphasis on examining alternative conceptions of and approaches to such challenges.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2223.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 3155 (3) Survey Design and Analysis
Provides the unique experience of involvement in ongoing survey research. Designed for students from different disciplines who will learn about what makes a good versus bad survey, how to write effective questions and how to put survey questions together into a cohesive questionnaire. Gain insight into the pitfalls of survey research and how to overcome them. Provides hands-on, real world experience on the design, implementation and analysis of the annual Colorado Political Climate survey.
Requisites: Requires prerequisite course ANTH 4000 or APPM 4570 or BCOR 1020 or ECON 3818 or GEOG 3023 or GEOL 3023 or MATH 2510 or PSCI 2075 or PSYC 2111 or SOCY 2061(minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Empirical Theory and Research Methdology

PSCI 3163 (3) American Foreign Policy
Examines foundations, assumptions, objectives, dynamics, and methods of U.S. foreign policy since WWII. Gives special attention to domestic and external problems of adapting U.S. policy to the changing world environment.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2223.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 3172 (3) Democracy and Its Citizens in the US and EU
Explores the political institutions of the US and the EU and asks questions pertaining to the very citizenship experience in these two places; including policy, rights and liberties, quality of life, national identity, and immigration.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 3174 (3) Sex, Power, and Politics: U.S. Perspectives
Explores how norms of sex, gender, race and sexuality find expression in institutions and policies in ways that legitimize only certain individuals as political actors, certain identities as politically relevant, and certain relationships as important. Critically examines how norms may be exposed, resisted, and changed by studying the politics of the women's, gay liberation, and men's movements in the U.S.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3174
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2004 or WGST 2000 or LGBT 2000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 3183 (3) International Law
Investigates the legal principles and landmark judicial cases that govern relations between countries and other international actors. Explores the development and effectiveness of law on issues such as human rights, war crimes, and the use of military force.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2223.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 3184 (3) Race, Power, and Politics
Examines the fraught relationship between democracy and racial inequality in the US expressed in the founding contradiction between the Declaration of Independence and the recognition of slavery in the US Constitution. Explores these issues through study of the abolition movement, the Jim Crow era, Civil Rights and Black Power movements, immigrant activism, the American Indian movement, and Black Lives Matter.
Recommended: Prerequisite PSCI 2004.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

PSCI 3191 (3) National Security Organization and Policy Making
Analyzes how the American governmental and political system is structured to define, select, and implement national security policies. Examines roles of the president, Congress, bureaucracy, interest groups,and other actors.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3193 (3) International Behavior
Presents alternate theoretical frameworks for the explanation of international processes. Applies theories of conflict behavior and social organization to problems of war and peace.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2223.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 3205 (3) Undergraduate Research Experience
Broadens and strengthens social science methodological skills and training by providing research collaboration between undergraduates and advanced graduate students and faculty. Promotes hands-on learning, immersion in the research process, and professional relationships. Students will collectively design and execute an original research project on a topic chosen with guidance by the instructor.
Requisites: Requires prerequisite course of PSCI 2075 (minimum grade C-). Restricted to students with 27-180 credits (Sophomore, Junior or Senior) Political Science (PSCI) majors or minors only. Restricted to students with a cumulative GPA of 3.0 or higher.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Empirical Theory and Research Methdology

PSCI 3206 (3) The Environment and Public Policy
Considers constitutional, political, and geographic factors in development of public policy affecting the use of natural resources and management of the environment; organization, procedures, and programs for use of natural resources; and administration of environmental policies.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101 or PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Public Policy

PSCI 3211 (3) The Politics of Economic Inequality in the United States
Explores empirical and normative origins and current state of economic inequality in the United States from a political science perspective. Evaluates how ideas about democracy and public policy address economic inequality, including the roles of gender, race and class in inequality. Examines the relationship between economic inequality and political inequality in both political behavior and political institutions.
Requisites: Requires a prerequisite course of PSCI 1101 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: American

PSCI 3213 (3) International Political Economy
Analyzes issues at the intersection of international politics and international economics. Utilizes theories and concepts from both economics and political science to understand issues in trade, finance, development and migration. Formerly PSCI 4193.
Recommended: Prerequisite PSCI 2223.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 3216 (3) Politics of Social Policy
Examines theoretical assumptions, political processes, program content, and analytical methods used in development of US social policy. Current social policy issues are put in historic context and include assessment of social, economic, and political influences on policy choices and outcomes. Students have opportunity to compare policy approaches and gain practice in evaluating the politics and content of public policy alternatives.
Recommended: Prerequisite PSCI 1101, PSCI 2106 or PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSCI 3223 (3) International Human Rights
Introduces the basic concepts behind international human rights. We define human rights and learn how human rights norms have developed. We explore why countries regularly violate the human rights of their own citizens. We learn how politics complicates the interactions between countries and other actors to protect human rights. Finally, we analyze the promise and limits of international cooperation and law in promoting human rights.
Recommended: Prerequisite PSCI 2223.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSCI 3225 (3) Strategy and Politics
Focuses on the rational choice approach to understanding political decision making. Introduces students to the tools and methods of game-theoretic reasoning, and examines the strategic logic of many forms of political decision-making, including voting, lawmaking, and international conflict.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101 or PSCI 2012 or PSCI 2223.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Empirical Theory and Research Methdology

PSCI 3271 (3) Law and Society: Legal Institutions and Human Behavior
Examines relationship between human behavior and legal system, looking closely at the voluntary relationship between the citizen and the state, the use of law to balance economic liberty and equality, support for civil liberties, and procedural, distributive, and retributive justice.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3274 (3) Capitalism and its Critics
Examines competing theoretical approaches to questions related to origins, development, and purposes of modern government in the United States; particular attention paid to impact of transformations in the underlying structure of the capitalist economy. Formerly PSCI 3171.
Recommended: Prerequisite PSCI 1101 or PSCI 2004.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 3281 (3) Development of American Political Institutions
Learn about the evolution of major American political institutions including the presidency, Congress, the judiciary, the party system and the right to vote.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3294 (3) Theories of Identity
What is identity? How does it shape politics, and vice-versa? What are identity politics, and how do they shape the current political landscape? This course uses political theory, law, and case studies to give a three-part introduction to related core concepts: modern and contemporary theories of identity; the legal construction of identity in the United States; and the relationship between identity, policy, and activism in U.S. history and contemporary politics.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

PSCI 3301 (3) Gender, Sexuality and U.S. Law
Contemporary and historic overview of U.S. courts' treatment of sex and gender. Using the case method, examines policy issues including, but not limited to: same sex marriage and civil unions; privacy; affirmative action; abortion; reproductive technologies; and discrimination based on sex and sexual orientation in education and in the workplace.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3300
Recommended: Prerequisite PSCI 1101 or WGST 2000.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: American

PSCI 3311 (3) Gender and U.S. Politics: Protest, Polls and Policy
Provides an overview and critical examination of women as political actors within the United States. Students will examine the gendered components of citizenship, election, political office and public policy. Furthermore, students will explore the ways in which gender intersects with class, race, ethnicity, sexual orientation and other identities in U.S. politics.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3311
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3774 (3) Free Speech and Dangerous Ideas
Examines in depth various philosophical and legal justifications of First Amendment rights of speech, press, association and religion. Assesses these justifications in relation to broader normative theories of liberal democracy. Can also be taken for American field credit. Formerly PSCI 4774.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisites PSCI 2004 and PSCI 2481.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 4002 (3) Western European Politics
Comparatively analyzes development of the political systems and processes of European democracies. Emphasizes contemporary institutions, decision making patterns, and policy issues. Special attention to challenges of welfare systems.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 4012 (3) Global Development
Analyzes development theory, case studies in development strategies, and the problems and promises of development: specifically issues of gender, environment, labor, corruption and poverty. The primary focus is on explanations for variation in level of development over time and across countries.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 4015 (3) Social Media & Politics Research Methods
Introduces students to state-of-the-art methods for using data from Twitter, Facebook, Instagram, Youtube, and TikTok in quantitative political science research. In this hands-on course, students will conduct original research projects using social media data, while learning text analysis and machine learning techniques that can be applied to diverse types of data.
Requisites: Requires prerequisite course of PSCI 2075 (minimum grade B).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSCI 4016 (3) Inequality and Public Policy in the U.S. and Europe
Provides an in-depth understanding of factors that change the level of inequality in the U.S. and in Europe and its economic, political, and social consequences across these states over time.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101 or PSCI 2012 or PSCI 2106.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Public Policy

PSCI 4022 (3) Chinese Foreign Policy
History of China's external relations and theories of foreign policy decision making. Explores two vital bilateral relations (Sino-U.S. and Sino-Japanese) and several key issues (like Taiwan) in China's 21st century foreign policy.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative
Departmental Category: Asia Content

PSCI 4024 (3) Senior Seminar in Political Theory
Intensively analyzes and discusses major theories and issues of both contemporary political thought and the history of political philosophy. The topic is announced by the instructor, but might include analysis of concepts (justice, human rights, democracy, etc.) or major theories. Emphasizes advanced discussion plus individual research.
Recommended: Prerequisite PSCI 2004.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 4028 (3) Special Topics
Offers subjects not covered by existing courses. Offered when the department approves a special topic.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General

PSCI 4052 (3) Chinese Politics
Explores the politics of 20th century China to speculate on China's future in the 21st century. Begins with an extensive look at the political history of the People's Republic, before turning to social, cultural, economic, and political issues today. Concludes with an examination of Chinese foreign policy, with a focus on Sino-American relations.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative
Departmental Category: Asia Content

PSCI 4062 (3) East European Politics
Studies developments in the former Soviet satellites and Yugoslavia, their governmental organizations, and their relation to the former Soviet Union and the West.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 4106 (3) Issues and Challenges in American Green Energy Policy
Explores growth of contemporary American green energy industry. Explores different types of green energy policies and how government institutions and regularly arrangements affect the development of green energy policy.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Public Policy

PSCI 4131 (3) Latinos and the U.S. Political System
Examines the political status and activities of Mexican Americans and other Latino groups (Cuban Americans and Puerto Ricans) in the U.S. Also covers Latino political attitudes and behaviors; Latino efforts to influence the major national, state, and local institutions of the American government; and public policy concerns of Latinos.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: American

PSCI 4173 (3) International Organizations
Explores if and how countries cooperate under anarchy. Investigates cooperation over a number of international issues, including peace and security, trade and development, human rights, and justice for victims of war crimes. Gives special attention to organizations including the United Nations, European Union, International Monetary Fund, and World Trade Organization.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 4213 (3) Europe and the International System
Covers the past, present and future of Europe's global role.
Recommended: Prerequisite PSCI 2223.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 4221 (3) Political Psychology
Examines the psychological foundations of political decision-making among citizens and elites. Considers the role of political psychology in explaining political behavior and outcomes at the individual and collective level.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 4241 (3) Constitutional Law
Focuses on the nature and scope of American constitutional principles as developed by the U.S. Supreme Court, including federalism, separation of powers, commerce, due process and equal protection.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 4242 (3) Middle Eastern Politics
Explores the domestic politics of various Middle Eastern countries as well as the development and globalization of the region. Includes topics such as the ongoing prevalence of dictatorships, political Islamism, oil politics, economic growth and stagnation, and relations with the U.S.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative
Departmental Category: Asia Content

PSCI 4243 (3) Modern Warfare: Terrorism, Ideology, Identity
Explores the evolution of warfare and origins of terrorism. Ideological and identity differences have come to the forefront of violent political conflicts while the emerging doctrine of warfare has placed civilians in the middle of modern conflicts. Tracks potential changes in the means of and reasons for fighting, roles of civilians and media, and rules of war.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisites PSCI 2223 and PSCI 3193.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 4252 (3) Politics of Ethnicity and Nationalism
Analyzes ethnic identity as a factor in contemporary politics. Deals extensively with the role of ethnic groups in political mobilization, the development of national collective consciousness, nation building, and international relations. Explores the influence of religion, language, history, culture and class on ethnic group formation and behavior.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 4253 (3) Politics of Identity and Inter-Ethnic Violence
Discusses politics of identity and why identity is such a potent source of violence. Is inter-ethnic conflict an end in itself, or are ethnic groups trying to achieve other goals through violence? What can be done to prevent or ameliorate inter-ethnic strife? Examines theoretical aspects of identity, inter-ethnic conflict, as well as specific examples of ethnic crises.
Recommended: Prerequisite PSCI 2223 or PSCI 2012.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 4283 (3) International Migration and Policy
Explores the politics of international migration, including public attitudes toward immigration, special interests politics of immigration policy making and the dynamics between political institutions and international migrations. Students will learn about the politics of international migration across different receiving and sending states over the past two centuries with an emphasis on the current debates over immigration in the U.S. and Western Europe.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 4302 (3) European Union Politics
Explores the development, functioning, focus and future of the European Union. Examines history, institutions, policies and politics as well as governance theories that have been developed to explain origins and evolution of the EU.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 4322 (3) Indigenous People's Politics
Explore critical concepts, conversations, and issues surrounding Indigenous peoples' politics and politics around the globe. Analyze the ways in which Indigenous peoples have been impacted by colonization and look at how Indigenous peoples continue to respond to forces such as colonialism and capitalism in different geographical regions with a focus on the Americas. We will also draw on the experiences of indigenous peoples in Australia and New Zealand.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSCI 4341 (3) Media and Politics
Examines aspects of political communication as it applies to citizens, political decision makers, and specific public policies.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 4374 (3) Global Seminar: Revolutions in Paris
Study the French Revolution (1789-1799) and the Paris Commune (1871) through immersive role-playing games, while learning about the ideas, history, and impact of these events through visits to important sites in and around the city of Paris. Learn about conservatism, republicanism, proto-socialism, slavery abolition, and anti-colonialism in the French Revolution; and socialism, Marxism, anarchism, and feminism in the Paris Commune.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSCI 4391 (3) Gender Politics and Global Activism
Addresses the problems and challenges women face around the world and the ways in which women have mobilized to address them. Explores political activism at the local, national, regional and global levels. Focuses on different forms of activism, including strategies aimed at working with and within governmental institutions, as well as outside and against them.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4500
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 4701 (3) Symbolic Politics
Introduces uses and abuses of symbols as instruments and indicators of political change.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 4703 (3) Technology, Society and the Future
Explores some of the remarkable technological advances made in recent years such as Artificial Intelligence, Robotics, Social Media, "Big Data," Internet-Interconnectivity, etc. in order to better understand how they are reshaping the world around us. Looks at the implications of these technological advances for a variety of social and political issues including education, communication, medicine, international development, international relations, work, social life, politics, elections and democracy. Recommended Prerequistes: PSCI 2012 and/or IAFS 1000.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 4714 (3) Liberalism and Its Critics
Examines contemporary arguments for and against liberalism. Focuses on the analysis, evaluation, and understanding of the philosophical contributions to this debate. Gives special attention to the concepts of justice, freedom, equality, and individualism.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2004.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 4715 (3) Honors Political Science Seminar
Involves writing and discussion of selected topics in political science. Critically reviews the major methodological and conceptual features of the discipline. Students begin their honors papers in the seminar. Department enforced prerequisite: minimum 3.3 GPA. Generally offered in fall term only.
Additional Information: Arts Sciences Honors Course
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Empirical Theory and Research Methdology

PSCI 4716 (3) Selected Policy Problems
Integrates general principles of policy inquiry with documents and other literature on specific problems in public policy, in order to evaluate courses of action.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Public Policy

PSCI 4725 (3) Political Science Honors Thesis
Involves writing an honors thesis. Formerly PSCI 4008.
Requisites: Requires prerequisite course of PSCI 4715 (minimum grade B-).
Additional Information: Arts Sciences Honors Course
Departmental Category: Empirical Theory and Research Methdology

PSCI 4731 (3) Civic Engagement in America
Closely examines the various understandings of democracy, the arguments for and against democracy, and the progress of and prospects for democratic politics in the United States. Particular attention is paid to economic, social, and political developments in the United States that affect popular sovereignty, political equality, and liberty.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 4732 (3) Critical Thinking in Development
Exposes students to current issues in the political economy of development. Subjects range from globalization, democratization and economic development. Specifically explores the international and domestic determinants of economic development with special reference to currency markets, foreign direct investment, trade and democratization.
Equivalent - Duplicate Degree Credit Not Granted: INVS 4302
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 4734 (3) Politics and Literature
Broadly examines political topics as they are presented in important literary works and analyzes the possibilities involved in using the literary mode to present political teachings.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2004.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 4751 (3) The Politics of Ideas
Examines theoretical arguments and case studies of interactions of ideas, interests, and institutions in policymaking. Analyzes processes through which ideas come to the public agenda, how institutional settings shape those ideas, and why some ideas and interests are more successful.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 4771 (3) Civil Rights and Liberties in America
Implementation of rights and liberties in America. Examines fundamental issues of free speech, press, association, and religion along with rights to due process and equal protection under the law.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 4783 (3) Global Issues
Studies the principal issues confronting humanity that affect stability and survivability and their economic, social, and political implications.
Requisites: Restricted to Political Science (PSCI), International Affairs (IAFS) or Environmental Studies (ENVS) majors only.
Recommended: Prerequisite PSCI 2012 or PSCI 2223.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 4792 (3) Issues in Latin American Politics
Studies several Latin American countries in some depth including history and contemporary politics. Teaches students to listen to and evaluate different sides of political controversies, and critically evaluate arguments.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 4841 (1-3) Independent Study in American Politics
Subjects are chosen and arrangements are made to suit the needs of each student. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall GPA of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. A special independent study approval agreement form must be obtained from the department.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite PSCI 1101.
Additional Information: Departmental Category: American

PSCI 4842 (1-3) Independent Study in Comparative Politics
Subjects chosen and arrangements made to suit needs of each student. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall GPA of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. Special independent study approval agreement form must be obtained from the department.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite PSCI 2012 or IAFS 1000.
Additional Information: Departmental Category: Comparative

PSCI 4843 (1-3) Independent Study in International Relations
Subjects chosen and arrangements made to suit needs of each student. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall average of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. Special independent study approval agreement form must be obtained from the department.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite PSCI 2223.
Additional Information: Departmental Category: International Relations

PSCI 4844 (1-3) Independent Study in Political Theory
Subjects and arrangements suit individual student needs. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall GPA of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. Special independent study approval agreement form must be obtained from the department.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite PSCI 2004.
Additional Information: Departmental Category: Political Theory

PSCI 4846 (1-3) Independent Study in Public Policy
Subjects chosen and arrangements made to suit needs of each student. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall average GPA of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. Special independent study approval agreement form must be obtained from the department.
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Public Policy

PSCI 4848 (1-3) Independent Study
Subjects chosen and arrangements made to suit needs of each student. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall average of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. Special independent study approval agreement form must be obtained from the department.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: General

PSCI 4938 (3-6) Internship in Government
With instructor's assistance, students secure an internship with a political or governmental organization. In addition to the internship, the class consists of regular seminars, course readings and assignments, and individual conferences with the instructor. Student pursues an academic research project and writes an original research paper. Instructor approval required in semester preceding internship. Contact instructor prior to early registration.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite PSCI 1101.
Additional Information: Departmental Category: General

PSCI 6851 (2) Interdisciplinary Social Science Professional Socialization
Trains graduate students and provides professional socialization in interdisciplinary social science research. Open to all interested students, with programming provided by the Institute of Behavioral Science. Sessions include IBS-housed colloquia and workshops in professional socialization, technological tools, interdisciplinary research, ethics, grant writing, etc. Students workshop and submit a research paper.
Equivalent - Duplicate Degree Credit Not Granted: PSYC 6831 and SOCY 6851
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to graduate students only.

PSCI 6948 (1) Master's Candidate for Degree
Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: General

PSCI 7002 (3) Seminar in West European Politics
Examines West European politics in terms of general theories of comparative politics, including institutional, behavioral and political economy approaches.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Comparative

PSCI 7004 (3) Seminar: Political Theory
Allows for intensive research in and presentation of selected topics. Introduces students to the broad context within which political ideas arise. Deals with classical and modern thought.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Political Theory

PSCI 7008 (1) Teaching Political Science
Designed to prepare graduate student teachers in the essentials of political science teaching and provide a background in theories of political science teaching and practical skills development in discipline-specific education.
Requisites: Restricted to Political Science (PSCI) graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: General

PSCI 7011 (3) Seminar: American Politics
Core field seminar for students of American politics. Course work emphasizes the diversity of contemporary research on American political history, political institutions, and political behavior.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: American

PSCI 7012 (3) Seminar: Comparative Political Systems
Discusses current literature on comparative politics including theoretical and methodological issues.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Comparative

PSCI 7013 (3) Seminar: International Relations
Reviews salient literature on international relations, and subsequent presentation and critical discussion of analytical studies. Allows students wide latitude in substantive and methodological approaches. Emphasizes changing trends and efforts to understand the bases for cooperation and conflict.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International Relations

PSCI 7021 (3) Latinos and U.S. Politics
Examines in depth the theoretical and empirical literature assessing the political situation and activities of Latinos (Mexican Americans, Puerto Ricans, Cuban Americans, and others) in the U.S. Stresses original research.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: American

PSCI 7022 (3) Seminar in Political and Economic Development
Covers domestic political and economic development in Latin America, Africa, and Asia, as well as interactions with the global economy. Includes defining, explaining, and prescribing policies for successful development, and comparing the experiences of developing and industrialized countries.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Comparative

PSCI 7024 (3) Seminar: Selected Political Theories
Familiarizes students with selected political philosophies or theories in classical or modern political thought.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Political Theory

PSCI 7028 (1) Teaching Political Science 2
Second course designed to train graduate teachers in the essentials of political science teaching and provide a background in theories of political science teaching and practical skills development in discipline specific education.
Requisites: Requires prerequisite course of PSCI 7008 (minimum grade D-). Restricted to Political Science (PSCI) graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: General

PSCI 7031 (3) Seminar: Political Attitudes and Behavior
Provides an intensive examination of topics in political attitudes and behavior such as political participation, ideology, voting, and elite behavior. Reviews methodology of behavioral research and introduces ICPSR data archive and computer-based research.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: American

PSCI 7032 (3) Seminar: Latin American Politics
Stresses intensive study of the political process in Latin America with special emphasis on democratization.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Comparative

PSCI 7043 (3) Seminar: Problems of International Institutions
Investigates the choices that political actors make in forming international institutions, the power of institutions, the limits of institutional power, and the dysfunction of institutions. Explores the challenges that institutions face in addressing global problems such as human rights and international violence. Also analyzes the methods used to understand the influence of institutions.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International Relations

PSCI 7046 (3) Seminar: Urban Public Policy
Focuses on formulation, revision, and outcomes of public policy in American urban communities. Also uses some comparative Canadian and European literature.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Public Policy

PSCI 7051 (3) Seminar: The United States Congress
Comprehensively examines literature and selected research topics concerning the United States Congress.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: American

PSCI 7052 (3) Democracy & Authoritarianism
Examine differences between democracies and authoritarian regimes; the choices and the consequences of democratic institutions in authoritarian regimes; and the causes of authoritarian survival and demise and the subsequent political choice.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite PSCI 7012.
Additional Information: Departmental Category: Comparative

PSCI 7053 (3) War and Peace
Explores the conditions that promote conflict between countries, focusing on broad and systemic explanations of war and peace. Investigates classical as well as current behavioral approaches to understanding why countries fight.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International Relations

PSCI 7055 (3) Introductory Game Theory
Develops competence in engaging formal theories of politics and in constructing and solving basic game-theoretic models of political behavior.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Empirical Theory and Research Methdology

PSCI 7056 (3) Readings in Public Policy
Explores diverse approaches to policy choice, change, and learning processes. Overviews literature on policy determinants and typologies, policy subsystems, innovation and diffusion, agenda setting, implementation, problem definition and social construction, policy design, institutional analysis, and policy and democratic values.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Public Policy

PSCI 7062 (3) The Politics of Ethnicity
Explores the political aspects of pluralism, ethnonationalism, separatism, and related phenomena. Examines theories of ethnic mobilization, conflict,and accommodation in the context of political development and nation building. Includes cross-polity comparisons and case studies of multiethnic societies in the developed and developing world.
Requisites: Restricted to graduate students only.
Recommended: Requisite at least one course in comparative politics.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Comparative

PSCI 7071 (3) Seminar: An Introduction to the Rule of Law
Introduces students to debates about the role of institutions, particularly but not exclusively legal institutions, in placing limits on the state and fostering the rule of law. What is law? Why do courts exist and what is their role in the state? What institutions are necessary to establish the rule of law? Why are institutions successful in some contexts and not others? Considers these questions by surveying classic and current research from American and comparative politics literatures on topics such as judicial independence, credible commitments, separation of powers and constitutional design.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: American

PSCI 7073 (3) Seminar: Global Political Economy
Introduces graduate students to concepts, theories, and data used to study the global system from a political-economic framework. Examines world systems analysis, regime change theory, and dependency theory with respect to operation of the exchange and power relationship within the contemporary world system.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International Relations

PSCI 7075 (3) Scope and Methods of Political Science
Introduces students to research design, with a subsequent focus on professional development. Students learn about different styles of research, central methodological points surrounding (and differentiating) these styles, and standards for evaluating research, regardless of approach or content.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Empirical Theory and Research Methdology

PSCI 7085 (4) Introduction to Political Science Data Analysis
Provides intensive experience with quantitative techniques commonly employed in political science research, covering basic inferential and descriptive statistics through multiple regression. Students undertake substantive research projects, requiring lab instruction in the use of the computer in quantitative applications of political science research.
Requisites: Restricted to Political Science (PSCI) graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Empirical Theory and Research Methdology

PSCI 7091 (3) Politics of Social Movements
Examines theoretical and empirical research on American social movements. Emphasizes the role of movements as political actors and their ability to bring about changes in public policy and national political institutions.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: American

PSCI 7095 (3) Advanced Political Data Analysis
Provides advanced training in the statistical modeling of political relationships. Focuses on the properties and assumptions of the ordinary least squares regression model, building on material covered in PSCI 7085: Introduction to Political Science Data Analysis.
Requisites: Requires prerequisite course of PSCI 7085 (minimum grade B-). Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Empirical Theory and Research Methdology

PSCI 7108 (3) Special Topics
Various topics not normally offered in the curriculum. Topics vary each semester.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: General

PSCI 7111 (3) Seminar: American Political Institutions
Intensive examination of the structure and rules of different political institutions in the United States. Explores both the changing approaches to the study of American political institutions as well as many ofthe major research topics on the presidency, Congress, the judiciary, and the bureaucracy.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: American

PSCI 7114 (3) Survey of Historical and Contemporary Political Theory
Examines major texts of Western political thought from the ancients through the 21st century. Introduces students to major schools of contemporary political theory, while situating these in their larger political context. Professionalizes students through presentations and research projects. Texts vary each semester.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Recommended: Requisite some previous coursework in political theory or philosophy.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Political Theory

PSCI 7115 (3) Qualitative Methods
Develop proficiency in constructing research designs with qualitative methods. The goal is to understand and be able to justify research designs involving relatively small numbers of observations as good political science given the fact that such designs may limit our ability to generalize.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Empirical Theory and Research Methdology

PSCI 7116 (3) Context-Sensitive Research Methods
Prepares students to conduct research on topics where data is not obvious or not easily available. Encompasses variations in context and setting as part of data observations. Methods include interviewing protocols, interpretive methods, cluster analyses, case study methodologies and textual analyses.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 5740
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Public Policy

PSCI 7118 (3) Foundations of Environmental Justice
Examines environmental justice movements, policies, institutions, objectives, and scholarship. Identifies factors that contribute to environmental inequality, and efforts to reduce it. Formerly offered as a special topics course.
Equivalent - Duplicate Degree Credit Not Granted: COMM 7118, ENVS 7118 and GEOG 7118
Requisites: Restricted to graduate students only.

PSCI 7123 (3) Civil Conflict
Surveys historical, theoretical, and empirical analyses of violent conflict behavior, including the causes and consequences of civil war, protests, insurgency, terrorism, revolution, and intervention.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International Relations

PSCI 7124 (3) Contemporary Democratic Theory
Surveys major schools of contemporary democratic theory and introduces students to current scholarly debates about democracy and democratic politics. Professionalizes students through class presentations and research projects. Specific controversies and texts vary each semester.
Requisites: Restricted to graduate students only.
Recommended: Requisite some previous coursework in political theory or philosophy.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Political Theory

PSCI 7126 (3) Introduction to Public Policy
Designed for graduate students specializing in the field of public policy in the political science program. Surveys a wide variety of approaches to the analysis and understanding of public policy. The course is not a survey of any particular set of substantiative policy areas but instead is intended as an examination of the enduring puzzles that analysts of public policy commonly confront, the kinds of research methodologies that they employ, and a selection of the techniques that they bring to bear on their research questions.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Public Policy

PSCI 7131 (3) Political Psychology
Focuses on the psychological roots of political behavior, including the origins of political beliefs, political decision-making processes, and the psychology of group interactions.
Requisites: Restricted to Political Science (PSCI) graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: American

PSCI 7132 (3) Comparative Political Economy
Explores the relationship between economics and politics in developed and developing countries. Gives students an historical overview of 20th century economic trends and covers scholarly approaches totopics such as political and economic institutions, economic ideas and interests, the political causes of growth and equality, globalization and the welfare state, and varieties of capitalism.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite PSCI 7012.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Comparative

PSCI 7136 (3) Public Policy and Behavioral Science
Public policy is usually designed with the assumption that we make optimal choices based on our own best interests. Findings from the behavioral sciences, however, challenge this traditional view and reveal that a wide array of factors influence our decisions. In this course, we will explore the gaps between how we assume individuals to behave and how people actually behave. With better knowledge of what motivates human behavior, we will examine and discuss how policy might be better designed and executed to improve outcomes in society.
Requisites: Restricted to graduate students only.

PSCI 7143 (3) Strategic Choice of Political Conflict
Explores the conditions under which political actors go to war, and the conditions under which they broker peace. Approaches political conflict from the perspective of strategic choice. Conflict is not an accident, but is the deliberate result of decisions by actors. Actors choose conflict when bargaining obstacles prevent them from reaching a peaceful agreement.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

PSCI 7145 (3) Advanced Game Theory
Covers more advanced applications of game theory in political science. Equips students with the skills to design and solve models at a reasonably high level of complexity and generality, and to understand how to effectively make use of such models in their research.
Requisites: Requires prerequisite course of PSCI 7055 (minimum grade B-). Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Empirical Theory and Research Methdology

PSCI 7151 (3) American Subnational Politics and Government
Provides a comprehensive overview of the issues and literature concerning American "Subnational" politics. Considers three bodies of literature: American federalism and intergovernmental relations, state politics, and urban/local politics. Also examines a number of policy issues.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: American

PSCI 7155 (3) Maximum Likelihood Estimation and Generalized Linear Models
Introduces maximum likelihood estimation and extends the linear model to several "generalized linear models." Provides students with the skills to analyze and understand a broad class of outcome variables and data structures such as dichotomous outcomes, counts, ordered and unordered categorical outcomes and bounded variables. Also examines several special topics such as multilevel models, causal inference and missing data.
Requisites: Requires prerequisite courses of PSCI 7075 and PSCI 7085 and PSCI 7095 (all minimum grade B-). Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Empirical Theory and Research Methdology

PSCI 7165 (3) Experimental Methods
Focuses on the design, implementation, and analysis of experiments in political science, including lab experiments, survey experiments, and field experiments.
Requisites: Restricted to Political Science (PSCI) graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Empirical Theory and Research Methdology

PSCI 7171 (3) Seminar: Law and Democratic Governance
Explores cutting-edge debates in election law. Studies different perspectives on the current controversies in the field, in addition to select opportunities to engage scholars directly about their work. Develops students' understanding of the law of democracy, exposing students to some of the best scholarship, and improving students' ability to evaluate and critique legal scholarship.
Equivalent - Duplicate Degree Credit Not Granted: LAWS 8205
Recommended: Prerequisite PSCI 7011.
Grading Basis: Letter Grade
Additional Information: Departmental Category: American

PSCI 7172 (3) Comparative Political Institutions
Institutional theory has burgeoned across the social sciences in the last three decades. This course aims to raise awareness and understanding of institutional theory in comparative politics, as compared to alternative approaches such as political economy, political behavior, etc., and to help students develop skills to communicate this awareness and understanding to other professional political scientists.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Comparative

PSCI 7173 (3) The Politics of International Factor Flows
Focuses on the second dimension of international trade: the politics of international factor flows. Economic globalization can be defined as the freer flow of (1) goods and services (i.e., international trade) and (2) factors of production (e.g., capital and labor) across national borders. Links these topics in International Political Economy to broader theories of International Relations, namely Institutionalism and Liberalism.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International Relations

PSCI 7175 (3) Dissertation Seminar
Help students make progress towards (1) in the short term: focusing in on a dissertation topic, crafting a dissertation prospectus, and identifying potential funding sources; and (2) in the long term: sending papers out for review, developing a package for the job market, and understanding the academic job market and the tenure process.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Empirical Theory and Research Methdology

PSCI 7181 (3) Immigration Law and Immigrants' Rights
Addresses four broad questions: Who is a citizen of the United States? Who else can come to this country? When and why can noncitizens be forced to leave? Who has the authority to answer these questions? These questions prompt us to examine the history of U.S. immigration, the constitutional-statutory-regulatory framework that governs immigration and citizenship law and the federal agencies that administer it. Also addresses contemporary challenges to, and assertions of, immigrants' rights.
Equivalent - Duplicate Degree Credit Not Granted: LAWS 7615
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: American

PSCI 7183 (3) International Cooperation
Investigates the origins, forms and consequences of international cooperation. The course covers both theoretical material related to international cooperation and various related global issue areas; security, economy, environment and social welfare. For each issue area, the key theoretical debates, empirical findings, as well as central challenges and parameters that constrain international cooperation will be investigated.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International Relations

PSCI 7185 (3) Political Network Analysis
Explores all aspects of political network analysis including disciplinary background, theories and concepts, approaches and applications, data basics and measurement, and techniques of analysis. Data assignments use software such as UCINET and R. Introduces visualization software including NetDraw, NetworkX and Cytoscape.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Empirical Theory and Research Methdology

PSCI 7191 (3) Law and Politics Colloquium: Race in America
A co-taught colloquium that exposes students to highly prominent scholars conducting research on current topics at the intersection of race, social science and the law, including racial profiling, hate crime and affirmative action. Students will complete a final paper satisfying the CU Law seminar requirement.
Equivalent - Duplicate Degree Credit Not Granted: LAWS 8645
Grading Basis: Letter Grade
Additional Information: Departmental Category: American

PSCI 7203 (3) Political Economy of International Migration and Policy
Provides an overview of the seminal and cutting edge research on the political economy of international migration including both immigration and emigration. Covers a diverse set of international migration issues, including public attitudes toward immigration, special interest politics of immigration policy making and the dynamics between political institutions and international migration.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International Relations

PSCI 7206 (3) Public Policy and the Governance of Natural Resources
Addresses a basic empirical puzzle in comparative environmental policy: why are some governmental organizations able to create relatively functional governance arrangements for natural resources management, while many others fail to do so? More specifically, we will seek to understand the particular contextual conditions that make successful governance transformations more likely.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Public Policy

PSCI 7222 (3) Comparative Political Behavior
Provides an introduction to research on behavioral processes and outcomes using readings mainly from the sub-fields of American Politics and Comparative Politics. Geographic emphasis leans toward advanced democracies because this is how behavioral research has generally developed but will also explore works by developing country experts. The main goals are to help students become familiar with the existing literature and to help them explore several key debates in the field.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Comparative

PSCI 7255 (3) Time Series and Pooled Time Series
Time series models¿models which take advantage of variation over time in a single unit¿and pooled time series (sometimes called cross-sectional time series or time series cross-sectional) models¿which utilize variation across both time and spatial units¿are very common in political science. While these models offer substantial leverage over important social science problems that use purely cross-sectional data, there are a number of pitfalls that are necessary to avoid during estimation.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite students should have a background in advanced regression statistics (such as PSCI 7085, PSCI 7095 and PSCI 7155).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Empirical Theory and Research Methdology

PSCI 7306 (3) Program Evaluation
Focuses on applying the tools of causal inference and program evaluation to various policy issues. The course materials explore whether programs meet their desired goals. There are a number of ways in which the ¿effectiveness¿ of a program can be defined and measured. Empirical applications based on real-world data will be drawn from a wide range of policy areas, including education, welfare, unemployment, discrimination, health, immigration, the environment, and economic development. Previously offered as a special topics course.
Grading Basis: Letter Grade

PSCI 7901 (1-3) Independent Study
Not a free option; must be approved by the student's advisor and program chair. Does not count as seminar. Not more than 6 hours of independent study may be credited toward PhD degree in political science. Special independent study approval agreement form must be completed by student and signed by faculty advisor.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade
Additional Information: Departmental Category: American

PSCI 7902 (1-3) Independent Study
Not a free option; must be approved by the student's advisor and program chair. Does not count as seminar. Not more than 6 hours of independent study may be credited toward PhD degree in political science. Special independent study approval agreement form must be completed by student and signed by faculty advisor.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Comparative

PSCI 7903 (1-3) Independent Study
Not a free option; must be approved by the student's advisor and program chair. Does not count as seminar. Not more than 6 hours of independent study may be credited toward PhD degree in political science. Special independent study approval agreement form must be completed by student and signed by faculty advisor.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International Relations

PSCI 7904 (1-3) Independent Study
Not a free option; must be approved by the student's advisor and program chair. Does not count as seminar. Not more than 6 hours of independent study may be credited toward PhD degree in political science. Special independent study approval agreement form must be completed by student and signed by faculty advisor.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Political Theory

PSCI 7905 (1-3) Independent Study
Not a free option; must be approved by the student's advisor and program chair. Does not count as seminar. Not more than 6 hours of independent study may be credited toward PhD degree in political science. Special independent study approval agreement form must be completed by student and signed by faculty advisor.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Empirical Theory and Research Methdology

PSCI 7906 (1-3) Independent Study
Not a free option; must be approved by the student's advisor and program chair. Does not count as seminar. Not more than 6 hours of independent study may be credited toward PhD degree in political science. Special independent study approval agreement form must be completed by student and signed by faculty advisor.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Public Policy

PSCI 7908 (1-3) Independent Study
Not a free option; must be approved by the student's advisor and program chair. Does not count as seminar. Not more than 6 hours of independent study may be credited toward PhD degree in political science. Special independent study approval agreement form must be completed by student and signed by faculty advisor.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: General

PSCI 8901 (1-3) Graduate Research Topic
Provides an opportunity for independent research in a topic of special interest. Arrangements are made to suit the needs of each particular student. Not a free option; must be approved by student's advisor and department chair. Does not count as a seminar.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: American

PSCI 8902 (1-3) Graduate Research Topic
Provides an opportunity for independent research in a topic of special interest. Arrangements are made to suit the needs of each particular student. Not a free option; must be approved by student's advisor and department chair. Does not count as a seminar.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Comparative

PSCI 8903 (1-3) Graduate Research Topic
Provides an opportunity for independent research in a topic of special interest. Arrangements are made to suit the needs of each particular student. Not a free option; must be approved by student's advisor and department chair. Does not count as a seminar.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International Relations

PSCI 8904 (1-3) Graduate Research Topic
Provides an opportunity for independent research in a topic of special interest. Arrangements are made to suit the needs of each particular student. Not a free option; must be approved by student's advisor and department chair. Does not count as a seminar.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Political Theory

PSCI 8905 (1-3) Graduate Research Topic
Provides an opportunity for independent research in a topic of special interest. Arrangements are made to suit the needs of each particular student. Not a free option; must be approved by student's advisor and department chair. Does not count as a seminar.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Empirical Theory and Research Methdology

PSCI 8906 (1-3) Graduate Research Topic
Provides an opportunity for independent research in a topic of special interest. Arrangements are made to suit the needs of each particular student. Not a free option; must be approved by student's advisor and department chair. Does not count as a seminar.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Public Policy

PSCI 8908 (1-3) Graduate Research Topic
Provides an opportunity for independent research in a topic of special interest. Arrangements are made to suit the needs of each particular student. Not a free option; must be approved by student's advisor and department chair. Does not count as a seminar.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade
Additional Information: Departmental Category: General

PSCI 8991 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 99.00 total credit hours.
Additional Information: Departmental Category: American

PSCI 8992 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 99.00 total credit hours.
Additional Information: Departmental Category: Comparative

PSCI 8993 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 99.00 total credit hours.
Additional Information: Departmental Category: International Relations

PSCI 8994 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 99.00 total credit hours.
Additional Information: Departmental Category: Political Theory

PSCI 8995 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 99.00 total credit hours.
Additional Information: Departmental Category: Empirical Theory and Research Methdology

PSCI 8996 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 99.00 total credit hours.
Additional Information: Departmental Category: Public Policy

Portuguese (PORT)

Courses

PORT 1010 (5) Beginning Portuguese 1
Provides students with basic vocabulary and fundamentals of grammar through practice in speaking, listening comprehension, reading and writing, based on the Communicative Approach. Introduces the cultures of the Portuguese speaking world, with a focus on Brazil.
Additional Information: Departmental Category: Portuguese

PORT 1020 (5) Beginning Portuguese 2
Provides students with basic vocabulary and fundamentals of grammar through practice in speaking, listening comprehension, reading and writing, based on the Communicative Approach. Introduces the cultures of the Portuguese speaking work, with a focus on Brazil. Continuation of PORT 1010. Department enforced prerequisite: PORT 1010 (minimum grade C-).
Additional Information: Departmental Category: Portuguese

PORT 2110 (3) Second-Year Portuguese 1
Involves practice in speaking, listening comprehension, reading and writing at an intermediate level. Explores relevant topics of the Brazilian culture through different media. Besides introducing grammar topics corresponding to the intermediate level of the Portuguese languages, it includes grammar review (PORT 1010 and PORT 1020) and extra work on vocabulary acquisition. Department enforced prerequisite: PORT 1020 (minimum grade C-).
Additional Information: GT Pathways: GT-AH4 - Arts Hum: Foreign Languages
Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: Portuguese

PORT 2120 (3) Second-Year Portuguese 2
Includes practice in speaking, listening comprehension, reading and writing at intermediate level, based on the Communicative Approach. Includes grammar and extra work on vocabulary acquisition, both explored through literary texts by renowned authors of the Portuguese speaking world, with a focus on Brazilian literature.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 2350 (3) Portuguese for Romance Language Speakers
Focusing on Brazilian Portuguese, this course constitutes an intensive introduction to Portuguese language for those who speak a Romance language. Comprehends basic vocabulary and fundamentals of grammar through practice in speaking, listening comprehension, reading and writing, based on the Communicative Approach. Uses different media to explore cultural aspects of the Portuguese speaking world.
Recommended: Requisite three semesters of college equivalent in any Romance language.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 2800 (3) Brazil: Past and Present
Discusses contemporary Brazil through the lenses of its literary, as well as socio-political movements. Students acquire a broader perspective of the country's current dynamics based on the formation of its national identity from 1500 to today. History serves as background to analyze literature and arts and critically understand Brazilian culture. Taught in English. Does not count toward Portuguese minor or Spanish and Portuguese major.
Equivalent - Duplicate Degree Credit Not Granted: AHUM 2800
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 3003 (3) Advanced Portuguese Language Skills
Consists of an advanced language course focused on current socio-environmental issues in Brazil. Involves reading academic texts in different areas of study, writing essays, watching documentaries, conducting class presentations and discussions, and studying grammar and vocabulary in the context of a more sophisticated written Portuguese.
Requisites: Requires prerequisite course of PORT 2120 or PORT 2350 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 3170 (3) Lisbon as a Global City: Cosmopolitanism, Diversity, and Innovation
Experience the city of Lisbon, Portugal, one of the oldest cities in the world. Known for its cosmopolitanism and cultural diversity since the Age of Discovery, Lisbon will be the center of our exploration of how multicultural heritage has created new social, economic and cultural dynamics that have molded the city as a singular destination to visit and to invest.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

PORT 3220 (3) Latin American Culture: Spanish America and Brazil
Examines literary, artistic, and philosophical currents in Spanish America and Portuguese America (Brazil), from pre-Columbian times to the present. Taught in Spanish.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 3220
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Recommended: Prerequisites PORT 2110 and PORT 2120.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 3230 (3) Transatlantic Relations in the Portuguese Speaking World
Examines cultural movements in Brazil, Portugal and Portuguese-speaking Africa, from the 15th century period of Portuguese expansion to the postcolonial present. Includes articles on culture as seen through literary, artistic, historical and sociological lenses. Taught in Portuguese.
Requisites: Requires prerequisite courses of PORT 2110 and PORT 2120 and PORT 2350 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 3270 (3) Socio-Environmental Dynamics in Brazil
Gives students the opportunity to immerse themselves in the language, culture and contemporary realities of rural Maranhao, Brazil. Explores some of the most pressing issues in Brazil today with a focus on sustainable development, environmental governance and social entrepreneurship.
Requisites: Requires a prerequisite course of PORT 2110 or PORT 2350 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 3800 (3) Indigenous Thought: Art, Literature and Political Engagement in Brazil
Discusses art, literature, and political engagement of Indigenous populations in contemporary Brazil. With a Decolonial viewpoint, this course analyses a series of works by Indigenous authors that underscores their culture, identity, and political expression. By focusing on the significance of the first-person testimonies, students will become more familiar with the diversity of languages and traditions that are otherwise homogenized by the ideological frameworks of those (non-indigenous) occupying a place and space of power. Taught in English.

PORT 4110 (3) Brazilian Literature
Focuses on Brazilian literature through the lenses of literary and cultural studies. May address fiction, poetry and/or the relationship between literature and film. In addition to reading literary texts, students read academic essays.
Equivalent - Duplicate Degree Credit Not Granted: PORT 5110
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires a prerequisite course of PORT 2120 or PORT 2350 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 4150 (3) Literature of the Portuguese Speaking World
Examines major works of Portuguese literature and/or Portuguese-speaking African literature through the lenses of cultural and literary studies. May address fiction, poetry, and/or the relationship between literature and cinema.
Equivalent - Duplicate Degree Credit Not Granted: PORT 5150
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of PORT 2120 or PORT 2350 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 4230 (3) Special Topics in Luso-Brazilian and/or African Literature
Designed to examine intensively particular topics or issues concerning the literatures of Portugal, Brazil and/or the African countries of Portuguese colonization. Taught in Spanish.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 4230
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of PORT 3230 and SPAN 3100 (all minimum grade C-).
Recommended: Prerequisites SPAN 3120 and an additional course above SPAN 3000.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 4840 (1-3) Independent Study
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Portuguese

PORT 5110 (3) Brazilian Literature
Focuses on Brazilian literature through the lenses of literary and cultural studies. May address fiction, poetry and/or the relationship between literature and film. In addition to reading literary texts, students read academic essays.
Equivalent - Duplicate Degree Credit Not Granted: PORT 4110
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Portuguese

PORT 5150 (3) Literature of the Portuguese Speaking World
Examines major works of Portuguese literature and/or Portuguese-speaking African literature through the lenses of cultural and literary studies. May address fiction, poetry, and/or the relationship between literature and cinema.
Equivalent - Duplicate Degree Credit Not Granted: PORT 4150
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Portuguese

Presidents Leadership Class (PRLC)

Courses

PRLC 1810 (3) Leadership Foundations and Applications I
Introduces fundamental principles of leadership and ethics. Emphasizes application of the principles for self-development and organizational effectiveness.
Requisites: Restricted to students in the Presidents Leadership Class (PPLC) only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences

PRLC 1820 (3) Leadership Foundations & Applications II
Explores challenges to leadership at the community level such as drug abuse, poverty, decline of infrastructure, care of the aged, etc. Gives particular attention to the development of effective leadership responses to community difficulties at university, city, state, and national levels.
Requisites: Restricted to students in the Presidents Leadership Class (PPLC) only.
Grading Basis: Letter Grade
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences

PRLC 2820 (3) Multilevel Issues in Leadership
Studies multilevel issues that originate in organizational settings but carry community and global implications. Encourages students to fully explore the complexity and interrelatedness of issues with a special emphasis on leadership and ethical implications.
Requisites: Restricted to students in the Presidents Leadership Class (PPLC) only.

PRLC 2930 (1-3) Leadership Internship
Students analyze the leadership styles within a host organization, examine how successfully an organization fulfills its mission and further refine their own theories of what constitutes effective leadership. Students also complete a meaningful project over the course of the internship. Department enforced prerequisites: PRLC 1810 and PRLC 1820 and PRLC 2820.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

PRLC 3800 (3-4) Global Inquiry for 21st Century Leadership
Introduces students to the ways in which leadership and sustainable development theory converge, challenges students to examine these issues in specific contexts around the world, and provides them with practical training in cross-cultural competency and leadership skills.
Requisites: Requires prerequisites PRLC 1810 (minimum grade C). Restricted to Presidents Leadership Class members.
Recommended: Prerequisites PRLC 1820, PRLC 2820 or ENLP 3100.
Grading Basis: Letter Grade

PRLC 3810 (3) Global Issues in Leadership
Examines the challenges to leadership posed by major global issues. Problems in the areas of human rights, hunger, disease, large-scale collective violence and environmental deterioration are explored with a special emphasis on the development of effective, long-term leadership strategies. Department enforced prerequisites: PRLC 1810 and PRLC 1820 and PRLC 2820.

PRLC 4010 (3-4) 21st Century Leadership
An advanced course that focuses on critical analysis of leadership principles and techniques. Designed to provide theoretical and hands-on experience for individuals who wish to function in leadership roles at high levels of competence in the workplace and in the civic arena.
Requisites: Requires prerequisite courses of PRLC 1810 and PRLC 1820 (all minimum grade C). Restricted to students in the Presidents Leadership Class (PPLC) only.

PRLC 4081 (3) Icons of the American Republic
Examines the founding period of the United States through the events, political concepts and individuals depicted in the art exhibited in the U.S. Capitol Building in Washington, D.C. The course includes a visit to the U.S. Capitol Building, the floor of the U.S. House of Representatives, the floor of the U.S. Senate, and an exploration of the legislative process.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PSCI 1101 or PSCI 2012 or PSCI 2223 or PSCI 2004.
Additional Information: Departmental Category: American

Psychology (PSYC)

Courses

PSYC 1001 (3) General Psychology
Provides a foundation for engaging with scientific research on human behavior, and surveys the basic principles and theories of psychology. Topics include biological and hereditary influences on behavior; human perception, attention, learning, and memory; social influences; personality; psychiatric disorders and treatments.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Social Science

PSYC 2012 (3) Biological Psychology
Surveys biological bases of learning, motivation, emotion, sensory processes and perception, movement,comparative animal behavior, sexual and reproductive activity, instinctual behavior, neurobiology of language and thought, and neurophysiology and neuroanatomy in relation to behavior.
Requisites: Requires prerequisite PSYC 1001 (minimum grade C-).
Additional Information: GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 2111 (4) Psychological Science I: Statistics
Three hours of lecture and one two-hour lab per week. Introduces descriptive and inferential statistics and their roles in psychological research. Topics include correlation, regression, T-test, analysis of variance and selected nonparametric statistics.
Requisites: Requires prerequisite course of MATH 1011 or MATH 1150 or MATH 1212 or MATH 1300 or ECON 1078 or ECON 1088 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 2145 (3) Introductory Cognitive Psychology
Introduces the study of human cognitive processes and covers perception, attention, memory, language, problem solving, reasoning, and decision making. Focuses on basic research and theory in cognitive psychology but also considers their implications for everyday applications such as effective learning and retention, multitasking, and eyewitness testimony.
Requisites: Requires a prerequisite course of PSYC 1001 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 2606 (3) Social Psychology
Covers general psychological principles underlying social behavior. Analyzes major social psychological theories, methods, and topics, including attitudes, conformity, aggression, attraction, social perception, helping behavior, and group relations.
Requisites: Requires a prerequisite course of PSYC 1001 (minimum grade C-).
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 2700 (3) Psychology of Gender and Sexuality
Examines psychological research on gender and sexuality as they intersect with race, class and other social categories. Points of emphasis include differences in cognition, attitudes, personality and social behavior. Conceptual themes include research methodologies, implicit and explicit attitudes, stigma and stereotypes. These elucidate such areas as close relationships, leadership, career success and mental health and happiness.
Requisites: Requires a prerequisite course of PSYC 1001 or WGST 2000 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

PSYC 3001 (4) Honors Research Methods Seminar
Focuses on research design. Each student prepares an original, detailed research proposal, which can become the honors thesis. Open only to students who have been accepted into the psychology departmental honors program. Instructor consent required.
Additional Information: Arts Sciences Honors Course

PSYC 3005 (3) Cognitive Science
Introduces cognitive science, drawing from psychology, philosophy, artificial intelligence, neuroscience, and linguistics. Studies the linguistic relativity hypothesis, consciousness, categorization, linguistic rules, the mind-body problem, nature versus nurture, conceptual structure and metaphor, logic/problem solving and judgment. Emphasizes the nature, implications and limitations of the computational model of mind.
Equivalent - Duplicate Degree Credit Not Granted: INFO 3702 and LING 3005 and PHIL 3310 and CSCI 3702 and SLHS 3003 and CSPB 3702
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 3102 (3) Behavioral Genetics
This course introduces the basic principles of behavior genetics, the field of study that is interested in evaluating the different forces that shape individual differences. More specifically, the course will survey the evidence for genetic and environmental influences on a broad range of human behaviors, including psychopathology, personality, cognition, and substance use. This course also covers the different methods for evaluating these genetic and environmental contributions, including family-based designs that compare similarities across siblings, twins, and parents and their children, animal models of human behavior, and more recent genomic methods that measure our DNA. Lectures are largely about conceptually understanding findings from this field and the corresponding methods used to produce these findings. This course does not require a strong statistical or biological background to be successful or understand the material.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 3111 (4) Psychological Science 2: Research Methods in Psychology
Provides a foundation in research methodology to give students the ability to design, conduct, analyze, and present (both verbally and in writing) an empirical study in psychology. Allows students to be effective producers and consumers of research.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2111 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 3131 (3) Human Emotion
Introduces students to a diverse array of theoretical and empirical issues related to the study of human emotion. Evolutionary theories of anger, love and disgust; emotion and morality; cultural and gender differences; emotion and the brain; relation between emotion and thinking; development of emotion; and abnormal emotions in mental illness.
Requisites: Requires a prerequisite course of PSYC 1001 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 3303 (3) Clinical Psychology: Psychological Disorders
Examines etiological, theoretical, clinical,diagnostic, and experimental perspectives of major mental health disorders, with an emphasis on the main symptoms and diagnostic criteria associated with these disorders.
Requisites: Requires a prerequisite course of PSYC 1001 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 3456 (3) Psychology of Personality
Offers a psychological study of structure, organization and development of the person as a whole. Analysis of major theories, methods and research, including topics such as emotion, motivation, temperament, inner experience, identity and the self, personality change and the influence of sociocultural context.
Requisites: Requires a prerequisite course of PSYC 1001 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 3511 (3) History of Psychology
Includes outline of development of psychological theories since the Greek philosophers, the story of experimental psychology and its problems, and schools of psychological thinking. Students read original sources in English and English translations. Formerly PSYC 4511.
Requisites: Requires a prerequisite course of PSYC 1001 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PSYC 3684 (3) Developmental Psychology
In-depth consideration of human developmental processes across the life span. Includes coverage of the major topics in human development, such as physical, cognitive, social, emotional, and moral development.
Requisites: Requires prerequisite of PSYC 1001 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites PSYC 2111 and PSYC 3111 (Both require minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Developmental

PSYC 4001 (3) Honors Seminar 2
Surveys contemporary issues, explores current controversies, and examines in detail selected topics in psychology. Open to juniors and seniors pursuing departmental honors.
Additional Information: Arts Sciences Honors Course

PSYC 4011 (1-3) Senior Thesis
Critically reviews some aspect of psychological literature, scholarly analysis of a major psychological issue, and/or empirical research project. See the psychology honors director for further information.
Additional Information: Departmental Category: General

PSYC 4021 (3) Psychology and Neuroscience of Exercise
Explores social, cognitive, psychobiological and behavioral aspects of exercise and other forms of physical activity. Examines how psychological and neuroscience research have been used to study how participation in regular physical activity affects mental health and how psychological and other variables influence participation in, adherence to, enjoyment of, and consequences of exercise and physical activity.
Requisites: Requires a prerequisite course of PSYC 2012 or NRSC 2100 or NRSC 2125 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4031 (3) Sport Psychology
Explores the role psychological factors play in the participation in, performance in, and enjoyment of sport. Topics include the role of motivation, attention, arousal, psychological skills training, leadership, and teamwork in sport performance; the psychological variables influencing exercise addiction, overtraining, burnout, body image, and susceptibility to, and recovery from, athletic injuries; and competition, cooperation aggression, and moral behavior in sport.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: General

PSYC 4101 (3) Honors Thesis 1
Completing an Honors Thesis under the direction of the course instructor will be the focus of this course. Students will each conduct an original, empirical research project, including developing the research idea, collecting and analyzing data, and writing their thesis, as well as practice their oral defense. Students will additionally acquire applied experience in research methods, statistics, and data analysis.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of PSYC 2111 and PSYC 3111 (minimum grade C-). Restricted to students with 3.3 GPA or higher.
Grading Basis: Letter Grade

PSYC 4114 (3) Adolescent Development and Learning for Teachers
Examines current theory and research about adolescent learning and development and explore implications for secondary teaching. Topics include human diversity as a resource for learning, adversity and agency, connecting instruction to students' everyday lives, and the role of belonging and relationships in positive youth development. This course is appropriate for masters degree students.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4136 (4) Judgment and Decision Making
Introduces the study of judgment and decision making processes (estimation, prediction and diagnosis, choice under certainty, and risky decision making) and the methods that have been developed to improve these processes (statistical modeling, decision analysis, and expert systems).
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2606 and PSYC 2111 and PSYC 3111 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4142 (3) Brain Injury, Plasticity and Recovery: From Neuron to Behavior
Traumatic brain injury is prevalent in all aspects of society, with incidence rates varying according to age, gender, military affiliation and participation in certain sports. Delves into the full spectrum of consequences following injury, beginning with the individual neural cells in the brain through to the behaving individual. Covers strategies to improve functional recovery.
Requisites: Requires a prerequisite course of PSYC 2012 or NRSC 2100 or NRSC 2125 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) majors only.
Recommended: Prerequisite NRSC 4132.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4145 (4) Advanced Cognitive Psychology
Advanced course in human cognitive processes. Covers key aspects of cognition, such as perception, attention, learning, memory, language and thinking. Discusses major theories and ideas in terms of the research they have inspired. Emphasis varies with instructor. One lab per week and a research project is required.
Equivalent - Duplicate Degree Credit Not Granted: PSYC 5145
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2145 and PSYC 2111 and PSYC 3111 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4152 (4) Research Methods in Behavioral Genetics
Analyze your own genome in this advanced course in behavioral genetics! Students will learn modern genomic analytic techniques by analyzing millions of single nucleotide polymorphisms across their own or a test genome (students' choice) and interpret results as they apply to complex traits, health conditions, ancestry, and relatedness. Students will also review primary-source research and reviews. Students learn and apply their analytic skills in laboratory practicals and demonstrate applied and theoretical knowledge in a cumulative paper.
Requisites: Requires prerequisite courses of PSYC 3111 and (EBIO 2070 or MCDB 2150 or PSYC 3102) (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4155 (4) Cognitive Neuroscience/Neuropsychology
Introduction to cognitive neuroscience and neuropsychology. Provides a survey of the neuropsychological underpinnings for a wide range of cognitive functions: vision, object recognition, attention, language, memory and executive function. One lab per week.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 4155
Requisites: Requires a prerequisite course of PSYC 2111 and PSYC 3111 and (PSYC 2012 or NRSC 2100 or (NRSC 2125 and NRSC 2150)) (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4165 (4) Psychology of Perception
One lab, three lect. per week. Analyzes peripheral and central mechanisms involved in the transduction and interpretation of experience. Gives special attention to vision and audition; major theories in these areas are discussed in terms of research they have inspired.
Requisites: Requires a prerequisite course of PSYC 1001 and PSYC 2111 and PSYC 3111 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4175 (4) Computational Cognitive Neuroscience
Introduction to cognitive neuroscience (how the brain gives rise to thought) using computer simulations based on the neural networks of the brain. Covers a full range of cognitive phenomena including perception and attention, learning and memory, language, and higher-level cognition based on both large-scale cortical neuroanatomy and detailed properties of cortical neural networks. One lab per week.
Equivalent - Duplicate Degree Credit Not Granted: PSYC 5175
Requisites: Requires prereq of PSYC 1001 and (PSYC 2012 or NRSC 2100 or NRSC 2125) and PSYC 2111 and PSYC 3111 (minimum grade of C-). Restricted to PSYC or NRSC majors.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4201 (3) Honors Thesis 2
Completing an Honors Thesis under the direction of the instructor will be the focus of this course. Students will each conduct an original, empirical research project, including developing the research idea, collecting and analyzing data, and writing their thesis, as well as practice their oral defense. Students will additionally acquire applied experience in research methods, statistics and data analysis.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of PSYC 2111 and PSYC 3111 (minimum grade C-). Restricted to students with GPA of 3.3 or higher.
Grading Basis: Letter Grade

PSYC 4220 (3) Language and Mind
Studies topics such a speech perception, word recognition, sentence comprehension, language acquisition, bilingualism, reading and writing. Examines the role of language as a product and producer of the mind, studying interactions between language and cognition from an interdisciplinary perspective. Students will become familiar with the methods of psycholinguistics and design and conduct a psycholinguistic experiment on their own.
Equivalent - Duplicate Degree Credit Not Granted: LING 4220
Recommended: Prerequisites PSYC 1001 and LING 2000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4225 (4) Interdisciplinary Research Methods in Child Language Acquisition
Explores fundamental issues in language acquisition cross-culturally, combining methods from Linguistics, Anthropology, Psychology and Computer Science. Students will explore theoretical issue using a hands-on approach that involves acquiring skills such as designing and conducting experiments, investigating corpus data, and computational modeling.
Equivalent - Duplicate Degree Credit Not Granted: LING 4225
Requisites: Requires a prerequisite course of PSYC 1001 or LING 2000 (minimum grade C).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4263 (3) Psychological Treatment: An Evidence-Based Approach
Provides an intensive introduction to behavioral interventions for common mental health problems and the framework of evidence-based practice in psychology, including helping students to acquire, critically evaluate and communicate about clinical psychological science intervention research and become familiar with applied skills that are relevant to a broad range of clinical settings.
Requisites: Requires prerequisite courses of PSYC 2111 and PSYC 3111 and PSYC 3303 (all minimum grade C-)
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4332 (1) Found in Translation: TBI From Bench to Bedside to Community
Traumatic Brain Injury (TBI) is prevalent in all aspects of society. Delves into all aspects of TBI, with particular emphasis on translational clinical neuroscience. That is, the movement of knowledge from bench, to bedside, to community. All of this knowledge resulting in better treatment of and outcome for those with TBI.
Requisites: Requires prerequisite courses of PSYC 2012 or NRSC 2100 or NRSC 2125 (minimum grade C-). Restricted to students with 57-180 units (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4376 (4) Research Methods in Social Psychology
Introduces the study of social psychological processes, emphasizing the social cognition perspective (e.g., stereotyping, person perception, theory of planned behavior) and the methods utilized in studying these processes. Students will complete research projects as part of the course.
Requisites: Requires prerequisite courses of PSYC 2606 and PSYC 2111 and PSYC 3111 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4377 (4) Research Methods in Positive Psychology
This research methods course will examine the science of human flourishing from the viewpoint of experimental positive psychology. Empirical research methods will be examined in the context of nine factors related to human flourishing: signature strengths, savoring, gratitude, kindness, social connection, exercise, sleep, mindfulness, and nature. Students will apply course material in a class experiment with individual research reports and presentations as a cumulative course experience.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2111 and PSYC 3111 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4378 (4) Research Methods in Conservation Psychology
This course will examine the science behind how psychological processes influence behaviors that help or hurt the environment and how psychology can help encourage environmental conservation. Empirical research methods will be examined in the context of nine factors related to the human-nature connection: Environmental Attitudes & Values, Pro-environmental Behaviors, Social Influence & Environmental Action, Environmental Education & Communication, Human-Nature Relationships, Environmental Justice & Ethics, Psychological Impacts, Policy & Governance.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2111 and PSYC 3111 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4399 (4) Qualitative Research Methods in Psychology
In this Lab and Methods course, we will take a deeper dive into different types of qualitative research approaches, such as observation, interviewing, and multimodal (e.g., text, media) analysis, to learn how each method can help us investigate elements of the human experience that we might otherwise not be able to study. We will cover basic theoretical principles of qualitative inquiry and acquire a general understanding of how different qualitative methods work. Through discussions, critique, a student-created ¿mini study,¿ and lots of hands-on practice, you will explore different ways of investigating our world in a scientific, but non-statistical, way that accurately and ethically uplifts the voices of your study participants. The goal of this course is to help you develop skills in qualitative research that will serve you well as a researcher or practitioner in psychology.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2111 and PSYC 3111 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4443 (4) Research Methods in Clinical Psychology
Learn to evaluate research methods as they relate to etiology, assessment, and intervention of psychological disorders. Emphasizes the importance of using sound methodological strategies in both research and clinical settings.
Requisites: Requires prerequisite courses of PSYC 2111 and PSYC 3111 and PSYC 3303 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4526 (3) Social Neuroscience
Develops greater knowledge of the general psychological principles underlying social behavior by using methods and theories from neuroscience. Students learn about common methods in human neuroscience and how they can be applied to better understand social behavior.
Requisites: Requires prerequisite courses of (PSYC 2012 or NRSC 2100 or NRSC 2125) and PSYC 2111 and PSYC 2606 and PSYC 3111 (all minimum grade C-). Restricted to students with 57-180 credits (junior or senior) Psychology (PSYC) or Neuroscience (NRSC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4541 (3) Special Topics in Psychology - Social Science
Examines individual or social dimensions of human behavior. Students will develop expertise in basic theories, as well as in measurement techniques and data interpretation regarding issues of societal significance. Students will consider applications of that knowledge, ranging from the development of new theory to solving problems. Particular section content is determined by instructor. PSYC 4541 and/or PSYC 4551 may be taken 3 times with different topics, for a total of 9 credits
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2111 and PSYC 3111 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.

PSYC 4542 (3) Public Health Capstone Research Methods: Environmental Interventions to the Mental Health Epidemic
This course will introduce students to interdisciplinary research methods in public health, with a focus on environmental interventions to address mental health. Robust data shows that spending time in nature can positively impact mental health. This course will teach students about the many phases of the scientific research process through doing; students will work in small groups to do their own research project throughout the semester on a pre-picked topic that can change from year to year.
Equivalent - Duplicate Degree Credit Not Granted: GEOG 4542 and PBHL 4542
Requisites: Prerequisites: Restricted to Public Health majors or those pursuing the Public Health certificate. Also, must have taken one of the following: ANTH 4000, ECON 3818, GEOG 3023, IPHY 3280, MATH 2510, PSCI 2075, PSYC 2111, SOCY 2061, STAT 2600.
Recommended: Prerequisite Students who are interested in taking this course but do not meet these requirements must have instructor approval.

PSYC 4543 (3) Clinical Neuropsychological Disorders
Neuropsychological disorders are behavioral and cognitive expressions of underlying brain diseases or injury. The course will provide in-depth coverage from clinical perspectives of wide range of disorders caused by stroke, traumatic brain injury, degenerative diseases, and inflammatory diseases. Students will learn the various neurologic, neuroimaging and neuropsychological methods for assessing and diagnosing these disorders and will review specific illustrative cases.
Requisites: Requires prerequisite PSYC 1001 and (PSYC 2012 or NRSC 2100 or NRSC 2125) (all minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4553 (3) Women's Mental Health: A Biopsychosocial Approach
Provides a broad overview of current research and theory related to women's mental health, emphasizing topics and problems that are prevalent among or particularly relevant to women. Teaches students to develop a critical and integrative understanding women's mental health, including historical, social, cultural, biolotgical, behavioral, cognitive and emotional factors.
Requisites: Requires a prerequisite course of PSYC 3303 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4560 (3) Language Development
Covers the development of language in childhood and into adult life, emphasizing the role of environment and biological endowment in learning to communicate with words, sentences, and narratives.
Equivalent - Duplicate Degree Credit Not Granted: LING 4560 and SLHS 4560
Requisites: Restricted to Psychology (PSYC) or Neuroscience (NRSC) majors only.
Recommended: Prerequisite PSYC 1001 and LING 2000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4606 (3) Advanced Topics in Social Psychology
In-depth study of selected topics in social psychology. Particular section content each semester is determined by the instructor. May be repeated for a maximum of 6 credit hours, provided the topics vary.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2606 and PSYC 2111 and PSYC 3111 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4655 (4) Community-based Research and Design
There is a growing recognition that in designing products, interventions, and systems, it is critical to involve the people who will be using those products, experiencing those interventions, and participating in those systems. The field of developmental psychology studies how people grow, change, and adapt over time. The fields of participatory and design research combine methods from different disciplines to guide design and implementation. In this course, you will collaborate with local community partners to design, prototype, implement, and refine a learning experience for young children. By the end of this class you will be able to combine theory- and evidence-based principles from cognitive development with methods and tools from community-based and participatory research to create and evaluate a design product.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2111 and PSYC 2145 and PSYC 3111 (all minimum grade C-).
Recommended: Prerequisite PSYC 3684.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4713 (3) Survey of Clinical Psychology
Covers theories and practices relating to problems of ability and maladjustment. Diagnostic procedures and treatment methods with children and adults.
Requisites: Requires a prerequisite course of PSYC 3303 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4733 (4) Psychological Testing and Assessment
Provides an overview of issues central to testing and assessment of psychological constructs, including types of evaluation instruments currently in use inthe field, their applications and design.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2111 and 3111 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4744 (4) Methods in Developmental Psychology
Learn to critically read and form hypotheses from studies in the developmental literature, gain hands-on experience in testing children and in the design of methods to test children, evaluate experimental data and relate them to hypotheses, previous results and theory, and write so others can understand.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2111 and PSYC 3111 and PSYC 3684 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4841 (1-6) Independent Study (Upper Division)
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.

PSYC 4911 (3) Teaching of Psychology
Students receive concrete experience in teaching general psychology under supervision of a psychology faculty member. Alternative pedagogical strategies are discussed. Students must submit an application to the undergraduate advising center.
Additional Information: Departmental Category: General

PSYC 4931 (1-6) Field Placement Internship
Offers valuable volunteer experience through a supervised field placement. Provides hands-on insight into the decisions and issues that confront professionals in psychology and related fields.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Psychology (PSYC) majors only.
Recommended: Prerequisite completion of 15 or more hours of psychology course work.
Additional Information: Departmental Category: General

PSYC 5052 (4) Behavioral Neuroscience
This advanced course the anatomy and physiology of the central nervous system in detail, and applies that understanding to the visual, auditory, and sensorimotor systems, demonstrating how the anatomy and physiology of the nervous system can be used to explain behavior. The laboratory uses live animals and computer simulations.
Equivalent - Duplicate Degree Credit Not Granted: PSYC 4052 and NRSC 4052 and NRSC 5052
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Biological

PSYC 5082 (2-3) Seminar: Biological Psychology
Special topics concerning biological bases of behavior.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Requires a prerequisite course of PSYC 4052 (minimum grade D-). Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Biological

PSYC 5102 (3) Introduction to Behavioral Genetics
Provides introduction to basic principles of genetics in the study of behavior, methods used to examine the influences of genes and environment on behavior and interpretation of studies using these methods.
Requisites: Restricted to Behavioral, Psychiatric and Statistical Genetics PhD students.
Additional Information: Departmental Category: Biological

PSYC 5112 (2-3) Concepts in Behavioral Genetics
Examines selected topics in greater detail than is possible in the graduate introductory course in behavioral genetics (PSYC 5102). Topics covered may include inheritance of behavioral characteristics from perspectives of pharmacogenetics, transmission genetics, biochemical genetics, and evolutionary genetics, as well as scientific integrity and the responsible conduct of behavioral genetic research.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Behavioral, Psychiatric and Statistical Genetics PhD students.
Additional Information: Departmental Category: Biological

PSYC 5122 (3) Quantitative Genetics
Surveys principles of genetics of quantitative characteristics. Topics include gene frequencies, effects of mutation, migration, and selection. Also looks at correlations among relatives, heritability, inbreeding, crossbreeding, and selective breeding.
Requisites: Restricted to Behavioral, Psychiatric and Statistical Genetics PhD students.
Additional Information: Departmental Category: Biological

PSYC 5131 (3) Affective Science
Core graduate course on affective science and fulfills APA Cognitive and Affective Aspects of Behavior Requirement. Introduces students to a diverse array of theoretical and empirical issues related to the study of human emotion. Evolutionary theories of emotions; cognitive and behavioral aspects of emotion; neurobiological mechanisms; development of emotion; and psychopathology and emotion.
Requisites: Restricted to Clinical Psychology PhD students.
Additional Information: Departmental Category: General

PSYC 5145 (4) Advanced Cognitive Psychology
Advanced course in human cognitive processes. Covers key aspects of cognition, such as perception, attention, learning, memory, language and thinking. Discusses major theories and ideas in terms of the research they have inspired. Emphasis varies with instructor. One lab per week and a research project is required.
Equivalent - Duplicate Degree Credit Not Granted: PSYC 4145
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Experimental

PSYC 5175 (4) Computational Cognitive Neuroscience
Introduction to cognitive neuroscience (how the brain gives rise to thought) using computer simulations based on the neural networks of the brain. Covers a full range of cognitive phenomena including perception and attention, learning and memory, language, and higher-level cognition based on both large-scale cortical neuroanatomy and detailed properties of cortical neural networks. One lab per week.
Equivalent - Duplicate Degree Credit Not Granted: PSYC 4175
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Experimental

PSYC 5200 (3) Physiological Genetics and Genomics
Covers fundamental concepts in molecular genetics/genomics with physiological applications. Topics include structure and function of nucleic acids, genome structure, genetic and genomic research tools, methods for identifying disease-causing mutations, regulation of gene expression, pharmacogenetics, gene therapy and ethical issues in modern genomics. First course of a 3-course series recommended for IBG students. Includes a recitation section.
Equivalent - Duplicate Degree Credit Not Granted: IPHY 4200 and IPHY 5200
Requisites: Restricted to Integrative Physiology (IPHY or C-IPHY) or Psychology (PSYC) graduate students only.
Additional Information: Departmental Category: General

PSYC 5232 (2) Molecular Genetics and Physiology
Covers fundamental mechanisms of gene action, including genome structure and regulation of gene expression. Discusses molecular techniques used to examine human genetic diseases. Emphasizes genetic diseases with behavioral, neurologic, and physiologic abnormalities.
Requisites: Requires a prerequisite course of PSYC 5200 or IPHY 5200 (minimum grade D-). Restricted to Behavioral, Psychiatric and Statistical Genetics PhD students. Restricted to graduate students only.
Additional Information: Departmental Category: Biological

PSYC 5242 (3) Biometrical Methods in Behavioral Genetics
Studies development of structural models appropriate to behavioral genetics and the estimation procedures necessary for their application.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Biological

PSYC 5423 (3) Research Problems in Clinical Psychology
Provides an overview of fundamental research methods relevant to clinical psychology, including literature synthesis, hypothesis formulation and study design, measure selection, and data analysis. Students will gain specific experience writing scientific papers and funding proposals.
Requisites: Restricted to Clinical Psychology PhD students.
Additional Information: Departmental Category: Clinical

PSYC 5433 (3) Adult Psychopathology
Intensively surveys major theories, research findings, and behavioral characteristics associated with deviant reaction patterns.
Requisites: Restricted to Clinical Psychology PhD students.
Additional Information: Departmental Category: Clinical

PSYC 5453 (3) Developmental Psychopathology
Examines the development of psychopathology across the lifespan, including etiological influences, neurobiological correlates, symptom presentation, and clinical diagnosis and intervention.
Requisites: Restricted to Clinical Psychology PhD students.
Additional Information: Departmental Category: Clinical

PSYC 5541 (1-6) Special Topics in Psychology
Studies and analyzes special interest topics from the broad and diversified field of psychology. Particular section content is determined by instructor. Instructor consent required for students outside of the department.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: General

PSYC 5606 (3) Proseminar: Social-Personality Psychology
Provides a thorough introduction to methods and theories in social psychology concerned with topics such as the self, social cognition, judgment and decision making, attitude formation and change, small group processes, inter-group relations, health and social psychology, and others.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Social Psychology PhD students.
Additional Information: Departmental Category: Social

PSYC 5656 (3) Advanced Graduate Research Methods
Provides training in the philosophical roots of empirical research, inference of causality, internal and external validity and reliability. These topics will be covered as they relate to a range of research designs including passive observational, experimental, quasi-experimental, meta-analytic and longitudinal. Additional topics include statistical inference and research ethics.
Requisites: Restricted to Social Psychology PhD students.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Social

PSYC 5665 (2) Perception and Attention Proseminar
Required proseminar for students in the Cognitive Psychology Ph.D. program. Provides an introduction to current thinking about sensory and perceptual processing, object recognition and attention. Students will read peer-reviewed journal articles and make class presentations on appropriate topics, including methods of data collection and analysis.
Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Experimental

PSYC 5685 (2-3) Research Methods Proseminar
Main topic is research methods in cognitive psychology, with an emphasis on experimental methods. Skills and knowledge will be gained that are necessary to A) critically evaluate existing research and B) design, conduct, analyze and write up experimental studies. Required for graduate students in Cognitive Psychology.
Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Experimental

PSYC 5695 (2) Memory Proseminar
Provides beginning Ph.D. students with a basic introduction to (primarily human) memory research. One of the six required proseminar for students in the Cognitive Psychology Ph.D. program. Includes consideration of experimental, theoretical, behavioral and cognitive neuroscience perspectives on memory. Instructor consent required for students outside of the department.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Experimental

PSYC 5741 (4) General Statistics 1
is part 1 of the 2-semester course sequence, PSYC 5741 and PSYC 5751. This course surveys probability and statistics in psychology, using the general linear model as a basic "recipe" for data analysis. After introducing a few powerful concepts that enable a range of questions to be asked, the course focuses on building and interpreting models using standard regression software. Restricted to Psychology and Neuroscience (PSYC & NRSC) graduate students. Instructor consent required for students outside of the department.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: General

PSYC 5751 (4) General Statistics 2
is part 2 of the 2-semester course sequence, PSYC 5741 and PSYC 5751. This course surveys probability and statistics in psychology, using the general linear model as a basic "recipe" for data analysis. After introducing a few powerful concepts that enable a range of questions to be asked, the course focuses on building and interpreting models using standard regression software.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: General

PSYC 5761 (3) Structural Equation Modeling
Provides training in the use of structural equation modeling, a class of analytic techniques that include the estimation of unobserved, or latent, constructs and an estimation of relationships among latent constructs.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Recommended: Prerequisite successful completion of graduate level statistics.
Additional Information: Departmental Category: General

PSYC 5771 (3) Bayesian Data Analysis
This course is a practical introduction to using Bayesian methods to analyze data in R. After we develop our general Bayesian approach, with an emphasis on simulation rather than calculus, we will focus on applications from regression basics to advanced multilevel models. Students outside of the department may contact the instructor for permission to enroll.
Requisites: Requires prerequisite courses of PSYC 5741 and PSYC 5751 (min grade C-). Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.

PSYC 5815 (2) Language Proseminar
Introduction to research on human language. A required proseminar for Cognitive Psychology Ph.D. students. Covers research at the cognitive, neural, and computational levels. Addresses phenomena at the levels of phonology, grammar, and meaning. Emphasizes interrelationships between language and other domains of cognition (perception, memory, executive function).
Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Experimental

PSYC 5825 (2) Executive Function Proseminar
Provides beginning Ph.D. students with an introduction to the study of executive functions. Required proseminar for students in the Cognitive Psychology Ph.D. program. Includes consideration of working memory, inhibition, multi-tasking, monitoring, selection, lifespan changes and social/clinical applications at the cognitive, neural and computational levels.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Experimental

PSYC 5835 (2) Thinking Proseminar
Provides beginning Ph.D. students with a basic introduction to research on complex human cognition, including reasoning, problem solving, decision making, analogy, concept learning and knowledge representation. Includes consideration of theoretical, behavioral and cognitive neuroscience perspectives. One of six proseminar modules required of students in the Cognitive Psychology Ph.D. program.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Experimental

PSYC 6200 (3) Issues and Methods in Cognitive Science
Interdisciplinary introduction to cognitive science, examining ideas from cognitive psychology, philosophy, education, and linguistics via computational modeling and psychological experimentation. Includes philosophy of mind; learning; categorization; vision and mental imagery; consciousness; problem solving; decision making, and game-theory; language processing; connectionism. No background in computer science will be presumed.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 6402 and EDUC 6504 and LING 6200 and PHIL 6310 and SLHS 6402
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: General

PSYC 6603 (1) Professional Issues in Clinical Psychology
Covers a range of topics important for professional development in clinical psychology, including preparation and delivery of research presentations, preparation of grant proposals/manuscripts and practicum experience (i.e., interviewing and assessment, treatment planning, intervention and documentation). Intended to prepare students for careers as research scientists and clinicians. Instructor consent required.
Repeatable: Repeatable for up to 10.00 total credit hours.
Requisites: Restricted to Clinical Psychology PhD students.
Additional Information: Departmental Category: Clinical

PSYC 6605 (1) Cognitive Psychology Research Update
Provides summaries of current research by graduate students and faculty members in the Cognitive Psychology program in the Department of Psychology and Neuroscience. Professional Development issues relevant to cognitive psychologists will also be discussed. Graduate students in all programs and advanced undergraduates welcome with instructor consent.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Psychology (PSYC) and Neuroscience (NRSC) PhD Students only.

PSYC 6606 (1) Professional Issues in Social Psychology
Covers a range of topics important for professional development in social psychology, including preparation and delivery of research presentations, preparation of grant proposals and manuscripts, and peer review of manuscripts. Intended to prepare students for careers as research scientists.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Social Psychology PhD students.
Additional Information: Departmental Category: Social

PSYC 6761 (3) Topics in Advanced Structural Equations Modeling
Covers topics in advanced structural equation modeling, including modeling with nonlinear observed variables, latent variable interactions, longitudinal models, mixture models and transition analysis. Other topics will be covered by request.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Recommended: Prerequisite PSYC 5761.
Additional Information: Departmental Category: General

PSYC 6831 (2) Interdisciplinary Social Science Professional Socialization
Trains graduate students and provides professional socialization in interdisciplinary social science research. Open to all interested students, with programming provided by the Institute of Behavioral Science. Sessions include IBS-housed colloquia and workshops in professional socialization, technological tools, interdisciplinary research, ethics, grant writing, etc. Students workshop and submit a research paper.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 6851 and PSCI 6851
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to graduate students only.

PSYC 6841 (1-3) Independent Study
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: General

PSYC 6911 (1-3) Research Practicum
Department consent required to enroll.
Repeatable: Repeatable for up to 18.00 total credit hours.
Additional Information: Departmental Category: General

PSYC 6941 (1-3) Master's Candidate for Degree
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Pass/Fail

PSYC 6951 (1-6) Master's Thesis
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: General

PSYC 7012 (1-3) Research in Behavioral Genetics
Individual research projects.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Behavioral, Psychiatric and Statistical Genetics PhD students.
Additional Information: Departmental Category: Biological

PSYC 7102 (2-3) Seminar: Behavioral Genetics
Intensive study of selected topics in behavioral genetics. Emphasizes recent research. Attention to both human and animal studies. Instructor consent required for students outside of the Behavioral, Psychiatric, and Statistical Genetics program.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Behavioral, Psychiatric and Statistical Genetics PhD students.
Additional Information: Departmental Category: Biological

PSYC 7215 (3) Seminar: Experimental Psychology
Advanced seminar dealing with different specialized topics, at the discretion of the instructor, in different years. Topics chosen are within the broad range of experimental psychology.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Experimental

PSYC 7291 (3) Multivariate Analysis
Familiarizes students with scientific concepts, matrix theory, and computer techniques of multivariate analyses for psychological research. Topics include cluster and factor analysis, multiple regression, and discriminant functions. Emphasizes research technology rather than mathematical theory.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: General

PSYC 7315 (2) Advanced Research Seminar on Human Memory
Addresses topics in the experimental psychology of human memory. Specific content varies from semester to semester. Both theoretical issues and contemporary empirical work will be reviewed. Each student will be required to engage in laboratory work outside of class, which will include an original experiment.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: Experimental

PSYC 7415 (2) Cognitive Science Research Applications Seminar 1
Independent, interdisciplinary research project in cognitive science for advanced graduate students pursuing a joint PhD in an approved core discipline and cognitive science. Research projects integrate at least two areas within the cognitive sciences: psychology, computer science, linguistics, education, philosophy. Students need commitments from two mentors for their project.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 7412 and EDUC 6506 and LING 7415 and PHIL 7415 and SLHS 7418
Requisites: Requires a prerequisite course of CSCI 6402 or EDUC 6504 or LING 6200 or PHIL 6310 or PSYC 6200 (minimum grade B). Restricted to graduate students only.
Recommended: Prerequisite EDUC 6505.
Additional Information: Departmental Category: Experimental

PSYC 7425 (2) Cognitive Science Research Applications Seminar 2
Independent, interdisciplinary research project in cognitive science for advanced graduate students pursuing a joint PhD in an approved core discipline and cognitive science. Research projects integrate at least two areas within the cognitive sciences: psychology, computer science, linguistics, education, philosophy. Students need commitments from two mentors for their project.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 7422 and EDUC 6516 and LING 7425 and PHIL 7425 and SLHS 7428
Requisites: Requires a prerequisite course of LING 7415 or PSYC 7415 or CSCI 7412 or EDUC 6506 (minimum grade B). Restricted to graduate students only.
Additional Information: Departmental Category: Experimental

PSYC 7536 (1-3) Personality and Social Psychology
Selected topics in the area of social-personality psychology. Students may register for more than one section of this course within the term and/or within their graduate career. These seminars may be on one of the following topics: stereotyping and prejudice, social neuroscience, person perception, social psychology and the self, health and social psychology, race and ethnic identity, or social cognition.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Social Psychology PhD students.
Additional Information: Departmental Category: Social

PSYC 7663 (1) Intellectual Assessment Laboratory
Practice administration of common intellectual and neuropsychological tests.
Requisites: Requires corequisite courses of PSYC 7683.
Additional Information: Departmental Category: Clinical

PSYC 7673 (3) Adult Psychotherapy
Provides an intensive introduction to the science and practice of psychological treatments for adult psychopathology. Will focus on selected treatments and address the relevant theoretical and empirical base for each approach and the specific principles and procedures utilized. Aim of course is for students to acquire both a scientific and applied knowledge of evidence-based practice in clinical psychology, with a focus on intervention for adult mental disorders. Instructor consent required for students outside of the Clinical Psychology program.
Requisites: Restricted to Clinical Psychology PhD students.
Additional Information: Departmental Category: Clinical

PSYC 7683 (1-3) Intellectual Assessment, with Practicum, in Clinical Psychology
Focuses on administering and interpreting objective test commonly used in clinical psychology practice. Includes case study approach and direct clinical experience.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Clinical

PSYC 7693 (3) Personality and Psychopathology Measurement
Covers theory and basic applications of psychological assessment, with an emphasis on measurement theory and the assessment of psychopathology and personality.
Requisites: Restricted to Clinical Psychology PhD students.
Additional Information: Departmental Category: Clinical

PSYC 7703 (1-3) Seminar: Clinical Psychology
Selected topics in the area of clinical psychology. Instructor consent required for students outside of the Clinical Psychology program.
Repeatable: Repeatable for up to 21.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Clinical Psychology PhD students.
Additional Information: Departmental Category: Clinical

PSYC 7713 (1-3) Practicum in Clinical Psychology
Provides direct clinical experience for clinical graduate students only.
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Clinical Psychology PhD students.
Additional Information: Departmental Category: Clinical

PSYC 7723 (1) Clinical Psychology Internship
Students will enroll in this clinical psychology internship course while they are completing the required 1-year internship.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to Clinical Psychology PhD students.

PSYC 7775 (1) Topics in Cognitive Science
Reading of interdisciplinary innovative theories and methodologies of cognitive science. Students participate in the LCS Distinguished Speakers series that hosts internationally recognized cognitive scientists who share and discuss their current research. Session discussions include analysis of leading edge and controversial new approaches in cognitive science. Restricted to students enrolled in LCS Cognitive Science Academic Programs.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 7772 and EDUC 7775 and LING 7775 and PHIL 7810 and SLHS 7775
Repeatable: Repeatable for up to 4.00 total credit hours.
Additional Information: Departmental Category: Experimental

PSYC 7793 (1-3) Child Assessment Practicum
Allows students who have already learned adult assessment measures to broaden their knowledge and skills in order to complete psychoeducational evaluations with children. The course covers the background of common childhood disorders, general testing strategies with children, and specific test administration.
Repeatable: Repeatable for up to 8.00 total credit hours.
Requisites: Restricted to Clinical Psychology PhD students.
Recommended: Prerequisite PSYC 7683.
Additional Information: Departmental Category: Developmental

PSYC 8991 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 30.00 total credit hours.
Requisites: Restricted to Psychology and Neuroscience (PSYC NRSC) graduate students.
Additional Information: Departmental Category: General

Quechua (QUEC)

Courses

QUEC 1010 (4) Beginning Quechua 1
The course focuses on the development of written and oral communicative abilities in the Southern variety of Quechua through an interactive activity-based approach. Course includes an introduction to Andean Culture, and foundations on the sociocultural history of Quechua. Quechua is the most widely spoken indigenous language in South America, with an estimated 8-10 million speakers in Peru, Bolivia and Ecuador, Chile, Colombia, and Argentina. But decades of migration have brought Quechua to coastal cities and abroad, like New York, New Jersey and Chicago. Formerly LAMS 1010.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

QUEC 1020 (4) Beginning Quechua 2
This course continues the study of the Southern variety of Quechua in Beginning Quechua 1. Quechua is the most widely spoken indigenous language in South America, with an estimated 8-10 million speakers in Peru, Bolivia and Ecuador, Chile, Colombia, and Argentina. Quechua is associated with people living in the Andes. But decades of migration have brought Quechua to coastal cities and abroad, like New York, New Jersey and Chicago. Quechua is more than a spoken language. Studying Quechua also provides a window into a rich indigenous culture, and alternative perspectives about space and time, family, relationships, society, and the natural world. Formerly LAMS 1020.
Recommended: Prerequisite QUEC 1010 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

QUEC 2010 (4) Intermediate Quechua 1
This course continues the study of the Southern variety of Quechua in Beginning Quechua 2. Quechua is the most widely spoken indigenous language in South America, with an estimated 8-10 million speakers in Peru, Bolivia and Ecuador, Chile, Colombia, and Argentina. Quechua is associated with people living in the Andes. But decades of migration have brought Quechua to coastal cities and abroad, like New York, New Jersey and Chicago. Quechua is more than a spoken language. Studying Quechua also provides a window into a rich indigenous culture, and alternative perspectives about space and time, family, relationships, society, and the natural world.
Recommended: Prerequisite QUEC 1020 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Real Estate (REAL)

Courses

REAL 2010 (3) Introduction to Real Estate
Surveys various real estate topic including acquiring and financing your home, real estate investments, managing real estate assets, development and construction and real estate sustainability. Covers techniques for estimating market values and presents metrics for evaluating real estate investment performance. Suited for anyone interested in buying, investing, managing or developing real estate. Counts as a business elective for Business students.
Equivalent - Duplicate Degree Credit Not Granted: BUSM 3050 or REAL 3000

REAL 3000 (3) Principles of Real Estate
An introduction to the vast business of real estate including foundational legal concepts, government regulation and land use, appraisal, brokerage, contracts and closings, mortgage loans and financing methods/ decisions, and investment analysis. Establishes the foundation for all other real estate courses and is a popular elective for all Leeds students. Instruction and course format are traditional lecture and conversational.
Equivalent - Duplicate Degree Credit Not Granted: BUSM 3050 or REAL 2010
Requisites: Requires prerequisite or corequisite course of BASE 2104 (minimum grade D-). Restricted to Business majors with 52-180 units completed.

REAL 4000 (3) Real Estate Law
Building upon the legal concepts and issues introduced in REAL 3000, this course involves a deeper study of the laws and legal issues impacting and governing real property rights and interests including the acquisition, ownership, possession, use and transfer of real property.
Requisites: Requires prerequisite course of REAL 3000 (minimum grade D-). Restricted to Business (BUSN) majors with 52-180 units completed.

REAL 4100 (3) Real Estate Finance and Investment Analysis
Covers: 1) traditional and alternative financing of residential and commercial real estate; 2) pro forma cash flows and valuation of income generating properties; 3) real estate decisions of non-real estate corporations; and 4) mortgage backed securities and real estate investment trusts (REITs).
Requisites: Requires prerequisite courses of REAL 3000 and FNCE 3010 (minimum grade D-). Restricted to Business (BUSN) majors with 52-180 units completed.

REAL 4200 (3) Real Estate Technology
This course has four objectives: 1) to understand the economic forces that bridge technology, entrepreneurship and real estate; 2) to investigate the short-, medium-, and long-run effects of technology on residential and commercial real estate; 3) to communicate this information to students in the Leeds School of Business; and 4) to give current students the technology skills necessary to immediately add value for their potential employers. Fall only.
Requisites: Requires prerequisite of REAL 3000 (minimum grade D-). Restricted to business majors with 52-180 units completed.

REAL 4400 (3) Real Estate Economics
The first half of the course is about urban economics. It covers the fundamental principles of market analysis, urban economics, and the reasons why households and firms chose to locate in cities. The second half of the course is about real estate markets. We extend our analysis of cities to the built environment itself, and to the operation residential and commercial real estate markets. The course also examines alternative techniques for estimating real property value.
Requisites: Requires prerequisite course of REAL 3000 and prerequisite or corequisite of REAL 4100 (minimum grade D-). Restricted to Business (BUSN) majors with 52-180 units completed.

REAL 4810 (3) Real Estate Applied Practice
Real Estate Applied Practice provides students the opportunity to take what they¿re learning in other real estate courses and see it applied in the context of the lifecycle of a real estate investment. Utilizing faculty and industry expert instruction together with hands-on exercises, students work through the major aspects of real estate practice including: (1) valuation and acquisition; (2) equity and debt financing sources and structure; (3) development and improvement strategies; (4) leasing, management and operation; and (5) marketing and disposition. The course is designed as an alternative or supplement to a real estate internship or practicum.
Requisites: Requires prerequisite course of REAL 3000 (minimum grade D-). Restricted to Business (BUSN) majors with 52-180 units completed.
Grading Basis: Letter Grade

REAL 4820 (3) Topics: Real Estate Development
Broadly looks at real estate development including: 1) what is real estate development, its nature and process; 2) the nature and role of the real estate developer; 3) the many aspects and components of real estate development; 4) the basic feasibility and analysis of a real estate development project. The course delivery utilizes a combination of lecture and discussion, guest speakers, real estate case analysis and small group presentations. Fall only.
Requisites: Requires prerequisite course of REAL 3000 (minimum grade D-). Restricted to Business (BUSN) majors with 52-180 units completed.

REAL 4825 (3) Experimental Seminar
Offered irregularly to provide opportunity for investigation of new frontiers in Real Estate.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

REAL 4850 (3) Senior Seminar in Real Estate
As the capstone course for the Real Estate Emphasis, the course utilizes, integrates and builds upon the knowledge and skills students have learned and developed in other real estate courses. The objectives and methods of the course include: (1) an application and integration of the students¿ real estate knowledge and skills through real estate case analysis; (2) improved teamwork, public speaking and presentation skills through team analysis and presentation of real estate cases; and (3) study of current issues, including ethical issues, and any implications for the business of real estate. Instruction and course format include traditional lecture and conversational, small group work and instruction, team real estate case analysis and presentation, and industry guests.
Requisites: Requires prerequisite courses of REAL 3000, REAL 4100 or MSBC 5610 and REAL 4400 or MBAX 6630 (all minimum grade D-). Restricted to Business (BUSN) REAL majors with 90-180 units completed.

REAL 4900 (1-3) Independent Study
Intended for exceptionally well-qualified business seniors who desire to study an advanced topic. Must be in Real Estate Certificate Program. Instructor consent required.

REAL 6820 (3-6) Graduate Seminar
Experimental seminar offered irregularly to provide opportunity for investigation of new frontiers in real estate.

REAL 6900 (1-3) Independent Study
Requires consent of instructor under whose direction study is taken. Departmental form required.

Religious Studies (RLST)

Courses

RLST 1620 (3) Religious Dimensions of Human Experience
Surveys different approaches to the study of religion. Students will grow familiar with key thinkers, texts, and movements that shape how we understand religious phenomena. Students will also examine critiques of how religion is studied. In the end, students will have gained insight into significant aspects of religious life, belief, and practice that will empower them to navigate a world in which religion is increasingly relevant.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 1818 (3) Jewish History to 1492
Focus on Jewish history from the Biblical period to the Spanish Expulsion in 1492. Study the origins of a group of people who call themselves, and whom others call, Jews. Focus on place, movement, power/powerlessness, gender, and the question of how to define Jews over time and place. Introduces Jews as a group of people bound together by a particular set of laws; looks at their dispersion and diversity; explores Jews' interactions with surrounding cultures and societies; introduces the basic library of Jews; sees how Jews relate to political power.
Equivalent - Duplicate Degree Credit Not Granted: HIST 1818 and JWST 1818
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

RLST 1820 (3) Religion and Politics in Ancient Egypt
Studies the literature, politics, religions and other traditions of Ancient Egypt.
Repeatable: Repeatable for up to 3.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 1828 (3) Jewish History Since 1492
Surveys the major historical developments encountered by Jewish communities beginning with the Spanish Expulsion in 1492 up until the present day. Studies the various ways in which Jews across the modern world engaged with the emerging notions of nationality, equality and citizenship, as well as with new ideologies such as liberalism, socialism, nationalism, imperialism and antisemitism.
Equivalent - Duplicate Degree Credit Not Granted: HIST 1828 and JWST 1828
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

RLST 1830 (3) Global History of Holocaust and Genocide
Examines the interplay of politics, culture, psychology and sociology to try to understand why the great philosopher Isaiah Berlin called the 20th century, "The most terrible century in Western history." Our focus will be on the Holocaust as the event that defined the concept of genocide, but we will locate this event that has come to define the 20th century within ideas such as racism, imperialism, violence, and most important, the dehumanization of individuals in the modern world.
Equivalent - Duplicate Degree Credit Not Granted: HIST 1830 and JWST 1830
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

RLST 1850 (3) Ritual and Media
Ritual continues to play an important role in contemporary societies in both religious and secular contexts. This course examines the elements and genres of ritual activity from African rites of passage to the Beijing Olympics, paying close attention to how the media documents, appropriates and transforms aspects of ritual.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 1900 (3) Introduction to the Hebrew Bible/Old Testament
Examine the content of the Hebrew Bible and critical theories regarding its development. Explore the development of these texts, as well as their foundational role for rabbinic literature and the New Testament. Assess the enduring influence of the Hebrew Bible/Old Testament in world literature and culture (such as in art and music).
Equivalent - Duplicate Degree Credit Not Granted: JWST 1900
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

RLST 1910 (3) Introduction to the New Testament
Examine the background, content and influence of the New Testament books. Studies the diverse perspectives contained in the various books, as well as the process of canonization. Assess the influence of the New Testament on the development of Christianity as well as world (eastern and western) culture.
Equivalent - Duplicate Degree Credit Not Granted: JWST 1910
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 2100 (3) American Beliefs and Values
An in-depth analysis of beliefs and values that have dominated American life in modern and postmodern eras, and of diverse belief and value systems that offer alternatives for the future. The analysis will be based on influential theories from the academic study of religion, and the course will give special attention to the influence of religious factors on secular American life.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 2200 (3) Religion and Dance
Connecting dancing to religions across the globe demonstrates the near synonymy of the two in most cultures, the remarkable potential for dancing to articulate cultural identity, and finally that dancing is strongly connected to what distinguishes being human. Provides an enriched appreciation of dancing and the introduction to dancing in many cultures.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 2202 (3) Islam
Introduces students to foundational Islamic concepts, texts, core practices, historical narratives and intellectual, spiritual and literary traditions. Topics covered include: the figure of Muhammad; the Quran; the emergence of distinct Muslim identities; Hadith; Sharia; Islamic theology; Islamic philosophy; science in Islamic civilization; Islamic mysticism; the impact of colonialism and modernity on the Muslim world; gender and sexuality; political Islam.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Diversity-U.S. Perspective

RLST 2320 (3) The Muslim World, 600-1250
Focusing on the history of the Muslim World in the age of the caliphates, this course takes an interdisciplinary, comparative approach to the development of Islamicate society, focusing on social structure, politics, economics and religion. Students will use primary and secondary sources to write a research paper, and make in-class presentations to cultivate critical thinking, research and writing skills.
Equivalent - Duplicate Degree Credit Not Granted: ARAB 2320
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Asia Content

RLST 2400 (3) Religion, Ethics and Politics
Explores the role of religion in today's world, focusing on debates around religion, ethics and politics. Examining diverse voices from Christianity, Judaism and other traditions, this course considers religion's role in debates about issues such as same-sex marriage, race, climate change, war, criminal justice, torture, sexual ethics, abortion and economic justice.
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 2500 (3) Religions in the United States
Explores the development of various religions within the shaping influences of American culture, including separation of church and state, the frontier experience, civil religion, and the interaction of religions of indigenous peoples, immigrants, and African Americans.
Additional Information: GT Pathways: GT-AH2 - Arts Hum: Lit Humanities
Arts Sci Core Curr: Ideals and Values
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

RLST 2600 (3) Judaism, Christianity, and Islam: Abrahamic Religions
In Judaism, Christianity, and Islam, Abraham is described as a founding figure. In recent times, the label ¿Abrahamic Religions¿ has become increasingly important both as a way to describe the origins and beliefs of Judaism, Christianity, and Islam and as a means for finding common ground in political and religious discourse. Yet in each religion Abraham is also used in strikingly different ways and for distinct purposes. In this course, we will look at these three religious traditions and how each one imagines Abraham. In particular, the focus will be on how each religion uses Abraham to construct foundational stories of a special relationship to God, stories that ultimately serve to promote religious identity over time.
Equivalent - Duplicate Degree Credit Not Granted: JWST 2600
Additional Information: GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 2610 (3) Happiness and Nirvana: Enlightenment in Indian Religions
Addresses religious and spiritual practices geared towards ideals of enlightenment across various religious traditions in India, including Buddhism, Hinduism, Jainism and Sikhism, in relation to different social groups historically. Examines the concept of happiness (sukh¿) and its connections to spiritual enlightenment.
Additional Information: GT Pathways: GT-AH2 - Arts Hum: Lit Humanities
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 2612 (3) Yoga: Ancient and Modern
Addresses the history and philosophy of yoga, beginning from its earliest articulations in Vedic India 1200 BCE up to contemporary understandings of yoga. Examines yoga's historical evolution from a primarily mental practice to a bodily centered practice. Looks at the shifts yoga undergoes as it becomes popular in the modern West.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

RLST 2614 (3) Paganism to Christianity
Offers a cultural history of Greek and Roman religion. Students read ancient texts in translation and use evidence from archaeology to reconstruct the shift from paganism to Christianity in antiquity. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 2610
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 2619 (3) Religion, Psychedelics, and Shamanism
From ancient India¿s tradition of using the hallucinogenic plant Soma to Patañjali¿s early yoga tradition proposing herbs (o¿adhi) as a means to enlightenment to 21st century mestizo shamans in Peru offering ayahuasca medicine retreats¿the use of mind-altering hallucinogenic substances has played an expansive role in the generation of religious and mystical experience and the subsequent structure of religious praxis. This class focuses on tracing out the religious elements of this history.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 2620 (3) Religions of East Asia
Introduces literature, beliefs, practices, and institutions of Taoism, Confucianism, Buddhism, and Shintoism in historical perspective.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 2650 (3) Meditation: Ancient and Modern
Explores the roots of today's mindfulness movement in ancient forms of Buddhist meditation. Topics covered include the array of meditation techniques in Buddhism, colonial-period origins of lay meditation in Asia, Buddhism's transmission to North America and Europe in the 20th century, the emergence of secular forms of mindfulness, and scientific studies on mindfulness and compassion.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 2700 (3) Native American and Indigenous Religious Traditions
Studies the religious lifeways of diverse Indigenous peoples in North America. The course considers how these religious lifeways facilitate healing, movements of social protest, and efforts for self-determination in response to ongoing forms of colonialism. Students will critically explore the impact of colonial structures on Native American religious traditions, such as missionization, and evaluate the meaning of decolonization as both a pathway and goal supporting Native liberation.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 2703
Additional Information: GT Pathways: GT-AH2 - Arts Hum: Lit Humanities
Arts Sci Core Curr: Human Diversity
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

RLST 2800 (3) Women and Religion
Examines roles of women in a variety of religious traditions including Judaism, Christianity, Hinduism, Buddhism, and goddess traditions.
Equivalent - Duplicate Degree Credit Not Granted: WGST 2800
Additional Information: GT Pathways: GT-AH2 - Arts Hum: Lit Humanities
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

RLST 2840 (1-3) Independent Study
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

RLST 3000 (3) Christian Traditions
Serves as an introduction to the academic study of Christianity, understood in its historical context, beginning with its most remote Mesopotamian origins and through to beginnings of the Protestant Reformation. Coverage is global, but "Western" Christian tradition are emphasized, as is the evolution of doctrine, ritual and institutions in relation to social, cultural and political factors.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3001 (3) Modern Christianity: Culture, Politics, Religion
Studies development of various aspects of global Christian traditions from the Reformation to the present day, as expressed through scripture, theology, ritual, media, politics, ethics, popular culture, and the arts. Includes topics such as colonialism, modernism and liberalism, secularism, pluralism, ecumensim, globalization, and the impact of new technologies. Recommended perquisite: RLST 3000
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3010 (3) Religion and the Senses
Expanding the five common senses so they are grounded on a more fundamental kinesthetic sense, that is, sense of movement, this course focuses on the study of religion and culture on all those marvelous richly and sensuously textured aspects of religious behavior: movement, experience, feeling, action, sensation, gesture, art, music, dancing, architecture, costume, food, and ritual.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3020 (3) Advanced Writing in Religious Studies
Seminar for religious studies majors that emphasizes the development of writing skills for use inside as well as outside the academy. Writing assignments are focused on one or more core topics in religious studies.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Religious Studies (RLST) majors only.
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Written Communication-Upper

RLST 3040 (3) The Quran
Examines how Christian constructions of religion and scripture have shaped Muslim understandings of the Quran and marginalized other views with a much longer history. Helps students appreciate how this process of marginalization is negotiated and explores the Quran from other perspectives including sound, performance, embodiment, and occultism. By highlighting marginalized approaches to the Quran, it promotes a better understanding of how social and religious differences are shaped by different political legacies. Previously offered as a special topics course.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Asia Content

RLST 3050 (3) Religion and Literature in America
Studies religious dimensions of American culture through representative literature, beginning with the Puritans and focusing on diversity in the 19th and 20th centuries.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3060 (3) Fundamentalism and Islam
Explores the global rise of fundamentalism, particularly Islamic fundamentalism. Students will analyze fundamentalism as a function of modernity, and in metaphysical rather than geostrategic or cultural terms. Students will examine the arguments of Muslim fundamentalists, and the counterarguments of their critics.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 3070 (3) Islamic Mysticism: Ibn Arabi, Rumi, and the Sufi Tradition
Introduces students to the philosophical, literary, and musical traditions of Islamic Mysticism or Sufism. Figures covered include: Rumi, Hallaj, Ibn Arabi, Mulla Sadra, Ghazali, Hafez, Ibn al-Farid, Ghalib, and Nusrat Fateh Ali Khan. Students will learn how Islamic Mysticism differs across cultural contexts and how it compares to other mystical traditions.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3100 (3) Judaism
Explores Jewish religious experience and its expression in thought, ritual, ethics, and social institutions.
Equivalent - Duplicate Degree Credit Not Granted: JWST 3100
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 3110 (3) Of Jewish Legends, Folktales and the Supernatural
Explores Jewish traditional legends, folktales and stories of the supernatural. Starts with Aggadic Talmud tales and Midrashic texts and focuses on later rabbinic and mystical texts and folktales ca 500-1900 C.E. from around the Jewish world with subjects ranging from didactic narratives extolling the virtues of the simple pure soul, to the horrors of a blood sucking vampiric outside world.
Equivalent - Duplicate Degree Credit Not Granted: JWST 3110
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3120 (3) Radical Jews
Explores major Jewish figures, and their cultural productions, who were radical in the challenges they posed and transformative in the effects they had on society. The figures we examine range from the Rabbis of the Talmud who revolutionized a sacrificial cult religion, to Western secularist Baruch Spinoza and American icons such as Allen Ginsberg, Gloria Steinem and Bob Dylan.
Equivalent - Duplicate Degree Credit Not Granted: JWST 3120
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3150 (3) Jerusalem: The Holy City in History, Legend, and Religious Thought
The history of Jerusalem and the stories that have given it prominence in the religious imagination continue to shape much of the world in which we live. In this class, we will survey approximately three millennia of the history of the city. We will ask methodological question, such as: What does it mean for a place to be conceived of as holy? How does this perceived holiness come about? What happens when holy places are destroyed and rebuilt? We will examine the biblical stories about Jerusalem not only as important sources themselves, but also for how they shape later religious traditions, specifically Judaism, Christianity, and Islam. As such, we will address what it means for the same place to be perceived as ¿holy¿ by differing, and often competing, groups. These contestations regarding Jerusalem will, then, allow us to engage issues of religious diversity and conflict both historically and in the present.
Equivalent - Duplicate Degree Credit Not Granted: JWST 3150
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3200 (3) Yoga, Castes and Magic: Hindu Society and Spirituality
Addresses yoga, religious asceticism and practices of magic in Hinduism from ancient India up to the modern period. Gives an overview of the variety of traditions in Hinduism, focusing on how spiritual practices affect social roles. Looks at how spritual practices approach happiness and social change, from ancient India¿s secret Upanisads through medieval mystic poets like Mirabai, through Gandhi in the 20th century, focusing on figures using mystical experience to overturn social and political powers.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 3202 (3) Women, Gender & Sexuality in Jewish Texts & Traditions
Reads some of the ways Jewish texts and traditions look at women, gender and sexuality from biblical times to the present. Starts with an analysis of the positioning of the body, matter and gender in creation stories, moves on to the gendered aspects of tales of rescue and sacrifice, biblical tales of sexual subversion and power, taboo-breaking and ethnos building, to rabbinic attitudes towards women, sexuality and gender and contemporary renderings and rereadings of the earlier texts and traditions.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3201 and JWST 3202 and HEBR 3202
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

RLST 3300 (3) Foundations of Buddhism
Introduction to Buddhist thought and practice in the variety of its historical and cultural contexts. The course begins with an exploration of narrative, cosmology, doctrine and ritual in early Buddhism and the Theravada of South and Southeast Asia. Through case studies, we then trace diverse conceptions of the Buddhist path in Tibet and East Asia where the Mahayana spread.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 3530 (3) Global Seminar: Jews and Muslims - The Multiethnic History of Istanbul
Spend two weeks in Istanbul and examine Jewish-Muslim relations in a place that was for 500 years the crossroads of civilization. The only Muslim city in the 21st century with a large, thriving Jewish community, Istanbul models how people from different social classes, ethnicities and religious backgrounds can coexist.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3530 and JWST 3530
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

RLST 3550 (3) Tibetan Buddhism
Explores Tibetan Buddhism through literature and film, including sacred biographies, treatises on the Buddhist path and films providing a visual window into Tibetan life worlds. We examine different kinds of Tibetan journeys: moving through the life cycle, treading the path of self-cultivation, embarking on solitary retreat, traversing from death to rebirth and traveling on pilgrimage and into exile.
Equivalent - Duplicate Degree Credit Not Granted: ASIA 3550
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3750 (3) Women in Buddhism
Explores diverse representations of the female in Buddhist literature and the social realities of actual women in Asian historical contexts. Through case studies that traverse Buddhist Asia, we delve into monastic views of the female body, philosophical analyses of the emptiness of gender, idealized images of the feminine in Buddhist tantra, and contemporary issues such as the nun's revival moment.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3750
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 3800 (3) Chinese Religions
Studies classical Confucianism, Taoism, Buddhism, and Neo-Confucianism within the historical context of Chinese culture.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 3801 (3) Muslims, Christians, Jews and the Mediterranean Origins of the West
Provides a historical foundation for the study of western Modernity, including the Anglo-European and Islamic worlds. It focuses on the Mediterranean region in the long Middle Ages (650-1650), emphasizing the role of Christian, Muslim and Jewish peoples and cultures, in Europe, Africa and West Asia. The approach is interdisciplinary incorporating social, economic, cultural, literary and art history, combining lectures with discussions based around readings of contemporary documents and the analysis of contemporary artifacts.
Equivalent - Duplicate Degree Credit Not Granted: HUMN 3801
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3820 (3) Topics in Religious Studies
Intensive study of a selected area or problem in religious studies.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3850 (3) The Mediterranean: Religion Before Modernity
Offers an innovative approach to the multifaceted history of Christian-Muslim-Jewish interaction in the Mediterranean. It eschews established paradigms (e.g., Europe, Islamic world) that distort our understanding of these and pushes students to reconsider the accepted paradigms of Western history. Students will reappraise assumptions regarding the nature of ethnic, religious, national and cultural identity, and their role in human history.
Equivalent - Duplicate Degree Credit Not Granted: HUMN 3850
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

RLST 4030 (3) Religions in America
Studies various religious movements in the U.S. and other parts of the Americas. Includes American religion and religions, religion and nationalism, revitalization and religion and Asian religions in America.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5030
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4050 (3) Topics in Christian Studies
Studies a particular topic in Christian theology and culture such as early Christianity, medieval Christianity, Christianity in the United States, women and Christianity, liberation theologies, Christianity and literature, and modern Christian thought.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5050
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite 6 hours of RLST courses at any level or instructor consent.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4170 (3) God and Politics
Explores the relationship between religion and politics. Examining traditions such as Judaism and Christianity, this course considers diverse ways in which ancient, medieval and modern sources have imagined the role of religion in civic life. Some topics include the status of religious minorities, the nature of religious freedom and contemporary debates surrounding issues such as torture, sexuality and climate change.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5170 and JWST 4170
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4180 (3) Is God Dead?
Explores debates about the following questions: does it make sense to believe in God? Should believing or not believing in God make a difference for how individuals behave? Examining ancient and modern views on the existence and nature of a higher power, this course considers topics including evil and suffering, religion and science and religion's role in politics.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5180 and JWST 4180
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4190 (3) Love and Desire
Explores debates about the following questions: what and whom should humans and gods love, and what role should passions play in religion? Examining traditions such as Judaism and Christianity, this course considers diverse views on topics including religion and sexuality, the promise and perils of loving gods and humans, and the relationship between love, politics, and violence.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5190 and JWST 4190
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4200 (3) Topics in Hinduism
Examines in depth central themes, schools of thought and movements in Hinduism, such as myth and ritual, renunciation, Vedanta, Tantra and Yoga.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5200
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of RLST courses at any level or instructor consent.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 4250 (3) Topics in Buddhism
Examines in depth central themes, schools of thought and movements in Buddhism, such as Theravada in Southeast Asia, Mahayana and Tantrayana thought, Zen and Buddhism in America. Department enforced prerequisite: RLST 2610 or RLST 2620 or RLST 3300 or instructor consent.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5250
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 4260 (3) Topics in Judaism
Examines in depth central themes, schools of thought, and movements in Judaism, along with other traditions, across a range of historical periods.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5260 and JWST 4260
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4280 (3) Body and Magic in India
Addresses ideas of the body and its use and functions within magic, particularly in Tantric traditions. Uses classical Hinduism and Tantra as a point of departure, focusing on subtle bodies and Tantric bodies and will also supplement this with writing about the body and its connection to mind in contemporary Western thought addressing the mind-body problem.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5280
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4300 (3) Topics in Native American Religions
Examines a topic (varies at different offerings) focusing on religions of peoples indigenous to the Americas. May consider mythology; shamanism and medicine; trickster, clown and fool; crisis cult movements.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5300
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of RLST 2700 (minimum grade C-).
Recommended: Prerequisite 3 additional credit hours of RLST course work or instructor consent.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4353 (3) Indigenous Traditions and Law: A Global Perspective
Explores intersections of indigenous religions and law through historical and contemporary case studies. American Indian and Hawaiian contexts will be featured, as well as the study of the United Nations Declaration on the Rights of Indigenous Peoples and its recent implementation in places as diverse as Bolivia, Norway and Nagaland. Theoretical issues in the academic study of religion and ethnic studies will be emphasized.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5353 and ETHN 4353 and ETHN 5353
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

RLST 4450 (3) Religion and Nonviolence
Studies theories of nonviolence developed by major thinkers and movements, especially in the U.S., in the context of their religious commitments and beliefs and their historical circumstances.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4610 (3) Topics in Islam
A detailed exploration of diverse intellectual approaches to central questions in Islamic traditions. Department consent required.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5610
Repeatable: Repeatable for up to 9.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4650 (3) Islam in the Modern World
Globally surveys Islam, covering religion and politics; Islam and the West; the Islamic revival and its varied forms in Iran, Indonesia, Libya and Pakistan; development and change; the status of women; media and academic stereotyping.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5650
Recommended: Prerequisite 6 credit hours of religious studies at any level or instructor consent.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Asia Content

RLST 4780 (3) New Religions of East Asia
Explores the new religious movements of modern China, Japan and Korea, which have arisen over the last century due to the influence of the West and in response to the pressures of modernization. Previous coursework in religious studies or Asian languages and civilizations is recommended.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5780
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4800 (3) Critical Studies in Religion
Focuses on a current issue or area of research in the study of religion. Students analyze the way theories develop and learn to develop their own critical analysis. Topics vary, e.g., comparative kingship, colonialism, ritual theories, feminist analysis.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Religious Studies (RLST) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4810 (3) Honors Thesis
Students write an honors thesis based on independent research under the direction of a faculty member. Required for students who elect departmental honors.
Additional Information: Arts Sciences Honors Course

RLST 4820 (3) Interdisciplinary Seminar on Religion
Variable topics in religion, drawing from a variety of disciplines and methodologies as they shed light on specific traditions and issues.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5820
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Recommended: Requisite 6 credit hours of religious studies at any level or instructor consent.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4830 (3) Senior Majors Seminar
Topics and instructors vary. Brings advanced majors together in order to focus their major experience onsignificant topics and issues of common interest.
Requisites: Restricted to students with 87-180 credits (Senior, Fifth Year Senior).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4840 (1-6) Senior Independent Study
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

RLST 4850 (3) Gender in Hagiography
Explores gendered ideals of sainthood in medieval hagiographic literature. We draw primarily from the lives of female mystics in Buddhist and Christian sources and also examine the construction of mendicant masculinities. Reading from an array of primary sources, we query the category of mysticism and ask why visionary experience has so often been gendered female.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5850 and WGST 4850
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 5030 (3) Religions in America
Studies various religious movements in the U.S. and other parts of the Americas. Includes American religion and religions, religion and nationalism, revitalization and religion and Asian religions in America.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4030
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

RLST 5050 (3) Topics in Christian Studies
Studies a particular topic in Christian theology and culture such as early Christianity, medieval Christianity, Christianity in the United States, women and Christianity, liberation theologies, Christianity and literature, and modern Christian thought.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4050
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite 6 hours of RLST courses at any level or instructor consent.

RLST 5170 (3) God and Politics
Explores the relationship between religion and politics. Examining traditions such as Judaism and Christianity, this course considers diverse ways in which ancient, medieval and modern sources have imagined the role of religion in civic life. Some topics include the status of religious minorities, the nature of religious freedom and contemporary debates surrounding issues such as torture, sexuality and climate change.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4170 and JWST 4170
Requisites: Restricted to graduate students only.

RLST 5180 (3) Is God Dead?
Explores debates about the following questions: does it make sense to believe in God? Should believing or not believing in God make a difference for how individuals behave? Examining ancient and modern views on the existence and nature of a higher power, this course considers topics including evil and suffering, religion and science and religion's role in politics.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4180 and JWST 4180
Requisites: Restricted to graduate students only.

RLST 5190 (3) Love and Desire
Explores debates about the following questions: what and whom should humans and gods love, and what role should passions play in religion? Examining traditions such as Judaism and Christianity, this course considers diverse views on topics including religion and sexuality, the promise and perils of loving gods and humans, and the relationship between love, politics, and violence.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4190 and JWST 4190
Requisites: Restricted to graduate students only.

RLST 5200 (3) Topics in Hinduism
Examines in depth central themes, schools of thought and movements in Hinduism, such as myth and ritual, renunciation, Vedanta, Tantra and Yoga.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4200
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite 6 hours of RLST courses at any level or instructor consent.
Additional Information: Departmental Category: Asia Content

RLST 5210 (3) Advanced Readings in Sanskrit
Requires at least two years of prior Sanskrit training. Students will read texts in the original. Class time is devoted to parsing out difficult grammatical structures, discussing the philosophical import of the readings and addressing the historical contexts that assist in interpreting the texts. The topic varies according to student interest.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course of SNSK 2120 (minimum grade C-). Restricted to graduate students only.
Additional Information: Departmental Category: Asia Content

RLST 5250 (3) Topics in Buddhism
Examines in depth central themes, schools of thought and movements in Buddhism, such as Theravada in Southeast Asia, Mahayana and Tantrayana thought, Zen and Buddhism in America.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4250
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Asia Content

RLST 5260 (3) Topics in Judaism
Examines in depth central themes, schools of thought, and movements in Judaism, along with other traditions, across a range of historical periods.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4260 and JWST 4260
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.

RLST 5280 (3) Body and Magic in India
Addresses ideas of the body and its use and functions within magic, particularly in Tantric traditions. Uses classical Hinduism and Tantra as a point of departure, focusing on subtle bodies and Tantric bodies and will also supplement this with writing about the body and its connection to mind in contemporary Western thought addressing the mind-body problem.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4280
Requisites: Restricted to graduate students only.

RLST 5300 (3) Topics in Native American Religions
Examines a topic (varies at different offerings) focusing on religions of peoples indigenous to the Americas. May consider mythology; shamanism and medicine; trickster, clown and fool; crisis cult movements.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4300
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite 3 additional credit hours of RLST course work or instructor consent.

RLST 5350 (3) Native American Religions: Regional Studies
Studies religion(s) of a single native North American tribe or geographic region within context of history and culture of the tribe.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite 6 additional credit hours of RLST course work or instructor consent.

RLST 5353 (3) Indigenous Traditions and Law: A Global Perspective
Explores intersections of indigenous religions and law through historical and contemporary case studies. American Indian and Hawaiian contexts will be featured, as well as the study of the United Nations Declaration on the Rights of Indigenous Peoples and its recent implementation in places as diverse as Bolivia, Norway and Nagaland. Theoretical issues in the academic study of religion and ethnic studies will be emphasized.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4353 and ETHN 4353 and ETHN 5353
Requisites: Restricted to graduate students only.

RLST 5610 (3) Topics in Islam
A detailed exploration of diverse intellectual approaches to central questions in Islamic traditions. Department consent required.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4610
Repeatable: Repeatable for up to 9.00 total credit hours.
Grading Basis: Letter Grade

RLST 5650 (3) Islam in the Modern World
Globally surveys Islam, covering religion and politics; Islam and the West; the Islamic revival and its varied forms in Iran, Indonesia, Libya and Pakistan; development and change; the status of women; media and academic stereotyping.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4650
Requisites: Restricted to graduate students only.
Recommended: Prerequisite 6 credit hours of religious studies at any level or instructor consent.
Additional Information: Departmental Category: Asia Content

RLST 5780 (3) New Religions of East Asia
Explores the new religious movements of modern China, Japan, and Korea, which have arisen over the last century due to the influence of the West and in response to the pressures of modernization. Previous coursework in religious studies or Asian languages and civilizations is recommended.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4780
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

RLST 5820 (3) Interdisciplinary Seminar on Religion
Variable topics in religion, drawing from a variety of disciplines and methodologies as they shed light on specific traditions and issues.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4820
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

RLST 5840 (1-6) Independent Study
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

RLST 5850 (3) Gender in Hagiography
Explores gendered ideals of sainthood in medieval hagiographic literature. We draw primarily from the lives of female mystics in Buddhist and Christian sources and also examine the construction of mendicant masculinities. Reading from an array of primary sources, we query the category of mysticism and ask why visionary experience has so often been gendered female.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4850 and WGST 4850
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

RLST 6110 (3) Adv Tpcs: Chicana/o Studies: US/Mexico Borderlands
Examines complex histories, cultural practices and liminal, 3rd spaces of the US and Mexico borderlands; racial and gender identities; community formations. Considers a range of autobiographic testimony narratives, films, social and legal studies, and theories of subjectivity that engage with the politics of representation vis a vis the criminalization of Chicana/o and ethnic youth, immigrants and those perceived to be immigrants.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 6110
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

RLST 6830 (3) Introduction to the Academic Study of Religion
Introduction to the graduate academic study of religion through the exploration of contemporary models and issues that demonstrate the nature and future of the field. Students prepares a profile of intended area of research.
Requisites: Restricted to graduate students only.

RLST 6840 (1-6) Independent Study
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

RLST 6940 (1) Master's Candidate for Degree
Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree.
Requisites: Restricted to graduate students only.

RLST 6945 (1-4) Portfolio: Non-Thesis Option
Course work finished or in the last semester.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to graduate students only.

RLST 6950 (1-4) Master's Thesis
Requisites: Restricted to graduate students only.

Robotics (ROBO)

Courses

ROBO 5000 (3) Introduction to Robotics
Introduction to Robotics prepares graduate students in the Robotics graduate program to be equipped with fundamental methods and tools in the field. This involves both a theoretical and a practical component, which are offered in a lecture and laboratory format.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5202
Requisites: Restricted to graduate students in the College of Engineering.

ROBO 5008 (1) Introduction to Research
This course is an introductory course that helps new graduate students become research productive early in their graduate careers. Important topics related to scientific research that are often not covered in other courses are formally covered here, including: literature organization and review, technical writing, oral/poster presentations, data handling, visualization and analysis, scientific ethics, program requirements and student resources.
Requisites: Restricted to ROBO-MS and ROBO-PHD students only.

ROBO 5009 (1) Robotics Seminar
Covers new and innovative topics in the robotics field through presentations by leading researchers, faculty, and current graduate students. Students will practice professional presentation skills and learn proper etiquette for participation in scientific research talks.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to graduate students only.

ROBO 5302 (3) Advanced Robotics
Exposes students to current research topics in the field of robotics and provides hands-on experience in solving a grand challenge program.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4302 and CSCI 5302
Requisites: Restricted to graduate students only. Prerequisite of CSCI 5202 or ROBO 5000.
Recommended: Prerequisite CSCI 3302 or instructor consent required.

ROBO 6900 (1-6) Robotics Independent Study
Provides credit for independent study for ROBO-MS and ROBO-PHD students.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to ROBO-MS and ROBO-PHD students only.

ROBO 6930 (1-3) Robotics Internship
Allows graduate students to receive academic credit for an internship experience in the field of robotics and adjacent disciplines. Students extensively document their internship and will be assessed over and above their basic internship responsibilities as appropriate for the learning outcomes of this course. Prior approval from the Robotics Program is required before students may enroll in this course.
Requisites: Restricted to ROBO-MS and ROBO-PHD students only.

ROBO 6950 (1-6) Master's Thesis
Research conducted on a specialized topic in robotics and overseen by robotics faculty.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to ROBO-MS students only.

ROBO 7000 (1-4) Special Topics in Robotics
Course material will cover current topics of interest in robotics.
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students in the College of Engineering.

ROBO 8990 (1-10) Doctoral Dissertation
Doctoral-level research conducted on a specialized topic in robotics and overseen by robotics faculty.
Repeatable: Repeatable for up to 60.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to ROBO-PHD students only.

Russian (RUSS)

Courses

RUSS 1010 (4) Beginning Russian 1
For students with no previous training in Russian.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 1050
Additional Information: Departmental Category: Russian

RUSS 1020 (4) Beginning Russian 2
A continuation of RUSS 1010. Provides a basic introduction to Russian language and life. Covers the basics of Russian grammar; classroom activities develop speaking, reading and comprehension skills. Course will have midterm and final.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 1050
Recommended: Prerequisite RUSS 1010 (minimum grade C-).
Additional Information: Departmental Category: Russian

RUSS 1050 (5) Intensive Beginning Russian
Covers same material as RUSS 1010 and RUSS 1020 combined in one course. Focuses on acquiring basic grammar (all cases for nouns, adjectives and possessives, verb conjugations, in all three tenses), and ability to understand and speak basic everyday Russian. Develops basic reading and writing skills and provides exposure to the fundamentals of the Russian culture.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 1010 or RUSS 1020
Additional Information: Departmental Category: Russian

RUSS 2010 (4) Second-Year Russian 1
Review and continuation of basic skills learned in the first year: reading, writing, speaking, and oral comprehension. Department enforced prerequisite: RUSS 1020 or RUSS 1050 (minimum grade C-).
Additional Information: GT Pathways: GT-AH4 - Arts Hum: Foreign Languages
Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: Russian

RUSS 2020 (4) Second-Year Russian 2
Continuation of RUSS 2010. Department enforced prerequisite: RUSS 2010 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian

RUSS 3000 (3) Advanced Conversation
Enables students to speak and understand contemporary Russian. Discussion topics and source materials vary. Department enforced prerequisite: RUSS 2010 (minimum grade C-).
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian

RUSS 3010 (4) Third-Year Russian 1
Review of Russian grammar coordinated with reading, speaking, writing and understanding modern Russian. Uses some texts from modern Russian literature. Department enforced prerequisite: RUSS 2020 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian

RUSS 3020 (4) Third-Year Russian 2
Continuation of RUSS 3010. Department enforced prerequisite: RUSS 3010 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian

RUSS 3060 (4) Advanced Russian for Heritage Speakers (Part 1)
Enhances heritage student competence and performance in Russian language. Offers intensive review of Russian grammar and focuses on developing advanced reading, writing and translation skills. Readings are selected from a wide range of contemporary writings that reflect current issues in Russia.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 4010 or RUSS 5010
Repeatable: Repeatable for up to 8.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian

RUSS 4010 (4) Advanced Conversation and Composition 1
Review of all aspects of Russian grammar, with a focus on difficulties, vocabulary for communication at an advanced level and contextual usage. Includes intensive writing and editing of compositions on a variety of topics, reading of authentic Russian texts, interactive work with Russian media and fluent conversation in Russian that moves beyond functional proficiency. Department enforced prerequisite: RUSS 3020 (minimum grade C-).
Equivalent - Duplicate Degree Credit Not Granted: RUSS 3060 RUSS 5010
Repeatable: Repeatable for up to 8.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Russian

RUSS 4020 (4) Advanced Conversation and Composition 2
Review of all aspects of Russian grammar, with a focus on difficulties, vocabulary for communication at an advanced level and contextual usage. Includes intensive writing and editing of compositions on a variety of topics, reading of authentic Russian texts, interactive work with Russian media and fluent conversation in Russian that moves beyond functional proficiency. Department enforced prerequisite: RUSS 4010 (minimum grade C-).
Equivalent - Duplicate Degree Credit Not Granted: RUSS 4060 RUSS 5020
Repeatable: Repeatable for up to 8.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Russian

RUSS 4050 (4) Professional Russian
Introduces stylistic and idiomatic forms of Russian used in business, politics, media and the Internet. Develops new vocabulary with a special focus on fluency of speech and written communication skills. Offers immersion into the world of contemporary Russian media, politics and culture. Formerly RUSS 3050.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 5050
Repeatable: Repeatable for up to 8.00 total credit hours.
Recommended: Prerequisite RUSS 3020.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Russian

RUSS 4060 (4) Advanced Russian for Heritage Speakers (Part 2)
Enhances heritage student competence and performance in Russian language. Offers intensive review of Russian grammar and focuses on developing advanced reading, writing and translation skills. Readings are selected from a wide range of contemporary writings that reflect current issues in Russia. Department enforced prerequisite: RUSS 3060 or RUSS 4010 (minimum grade C-).
Equivalent - Duplicate Degree Credit Not Granted: RUSS 4020 or RUSS 5020
Repeatable: Repeatable for up to 8.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Russian

RUSS 4220 (3) Topics in Russian, East European and Eurasian Culture (in Russian)
Selected topics in Russian, East European and Eurasian culture and society. Taught all or partly in Russian. Formerly RUSS 4220.
Equivalent - Duplicate Degree Credit Not Granted: REES 5220
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RUSS 4230 (3) Russian Cultural Idioms
Focuses on the critical analysis of the Russian cultural discourse through Russian idioms. Taught in Russian. Department enforced prerequisite: RUSS 2020 (minimum grade C-).
Equivalent - Duplicate Degree Credit Not Granted: RUSS 5230
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Russian

RUSS 4850 (4) Russian Film and Society
Examines topics in Russian film and TV series from sociohistorial and cultural perspectives, while simultaneously developing students' auditing, comprehension, and speaking skills in Russian language. Critical thinking and analytical approaches will be key to working through the course's material. Screenings, discussions, and written assignments are in Russian.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 5850
Repeatable: Repeatable for up to 8.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite RUSS 2020.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Russian

RUSS 5010 (4) Advanced Russian Seminar
Review of all aspects of Russian grammar, with a focus on difficulties, vocabulary for communication at an advanced level and contextual usage. Includes intensive writing and editing of compositions on a variety of topics, reading of authentic Russian texts, interactive work with Russian media and fluent conversation in Russian that moves beyond functional proficiency.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 4010
Repeatable: Repeatable for up to 8.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Russian

RUSS 5020 (4) Advanced Russian Seminar 2
Review of all aspects of Russian grammar, with a focus on difficulties, vocabulary for communication at an advanced level and contextual usage. Includes intensive writing and editing of compositions on a variety of topics, reading of authentic Russian texts, interactive work with Russian media and fluent conversation in Russian that moves beyond functional proficiency.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 4020
Repeatable: Repeatable for up to 8.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Russian

RUSS 5050 (4) Professional Russian
Introduces graduate and advanced undergraduate students to various stylistic registers of Russian (business, politics, the Internet, TV, etc.). Develops new vocabulary and idiomatics, with a special focus on fluency of speech and written communication skills. Along with language training, the course offers an immersion into the world of contemporary Russian media, politics and culture. Taught in Russian.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 4050
Repeatable: Repeatable for up to 8.00 total credit hours.
Additional Information: Departmental Category: Russian

RUSS 5220 (3) Topics in Russian, East European and Eurasian Culture (in Russian)
Selected topics in Russian culture and society. Taught all or partly in Russian. Formerly RUSS 5220.
Equivalent - Duplicate Degree Credit Not Granted: REES 4220
Repeatable: Repeatable for up to 6.00 total credit hours.

RUSS 5230 (3) Russian Cultural Idioms
Analyzes Russian cultural discourse through Russian idioms. Taught in Russian. Formerly GSLL 5230.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 4230
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Russian

RUSS 5841 (3) History of Modern Russian Drama
Examines Russian plays of the 20th and 21st centuries (from Chekhov to contemporary authors) in the context of the Western dramatic theory. Surveys most influential directorial styles from Stanislavsky's "method" to contemporary verbatim theatre. All readings are in English. Taught in English. Formerly GSLL 5841.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 4841
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Russian Courses Taught in English

RUSS 5850 (4) Russian Film and Society
Examines topics in Russian film and TV series from sociohistorial and cultural perspectives, while simultaneously developing students' auditing, comprehension, and speaking skills in Russian language. Critical thinking and analytical approaches will be key to working through the course's material. Screenings, discussions, and written assignments are in Russian.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 4850
Repeatable: Repeatable for up to 8.00 total credit hours.
Recommended: Prerequisites RUSS 2020 or equivalent.
Additional Information: Departmental Category: Russian

Russian, East European and Eurasian Studies (REES)

Courses

REES 1112 (3) Astronauts and Astropolitics: Space Exploration from the Cold War to the Future of Innovation
Surveys the history of space exploration to equip students with critical learning skills to understand current trends and future innovations in space tourism, medicine, commerce and law. This course examines the relationships between history, science, and politics of the Space Age, beginning with the early space flight pioneers and the Cold War¿s Space Race, and concluding with the current advances in humanity¿s interstellar aspirations. Taught in English. Formerly offered as a special topics course.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

REES 2121 (3) Topics in Russian, East European and Eurasian Culture
Selected topics in Russian, East European and Eurasian culture. No knowledge of Russian required. Taught in English.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

REES 2211 (3) Russian Culture and Art Under Tsars Great and Terrible
Explores the cultural history of Russia from the 9th century through 1917. Using visual presentations and reading of primary sources, we will examine closely those rulers whose actions had a significant impact on the development of Russian life, art, and architecture, such as Ivan the Terrible, and Peter I and Catherine II, the ¿Greats.¿ No knowledge of Russian required. Taught in English.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 2221 (3) Introduction to Modern Russian and Soviet Culture
Introduces students to major trends in Russian and Soviet culture from the 1890's to the present, through the study of literature, art, architecture, music and film in an historical context. Addresses such questions as: how have past events affected Russian and post-Soviet society? How can we use knowledge about the past to understand social and cultural forces today? Taught in English. Formerly RUSS 2221.
Equivalent - Duplicate Degree Credit Not Granted: LIBB 2100
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 2222 (3) Sports and the Cold War
Explores the multiple connections between sports and international politics during the Cold War in the Post-War period. Examines how the issues of class, nation, ethnicity, and gender intersect with sports and international politics by studying cases from various sport events since 1945. Taught in English.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Russian Courses Taught in English

REES 2231 (3) Fairy Tales of Russia and Ukraine
Provides a general introduction to fairy tales including various theoretical approaches to classifying and interpreting them; introduces students to a wide selection of Russian and Ukrainian folk and fairy tales. Examines the cultural, social and political values they reflect, as well as the continuing influence of fairy tales and folk beliefs in Russian and Ukrainian literature, music, folk art, and film, and in the political propaganda of the 20th century. Taught in English.
Additional Information: GT Pathways: GT-AH2 - Arts Hum: Lit Humanities
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 2241 (3) Death and the Undead in Slavic and Nordic Cultures
Focuses on the study of beliefs and practices related to the dead as represented in popular culture. This interdisciplinary course will introduce students to representations of the vampire/revenant and other denizens of the undead in Icelandic sagas, Russian epic song, folktales, folklore, literature, and film from the medieval period through contemporary popular culture. Through close analysis of these various sources, this course will focus on the metaphoric usefulness of the ¿restless undead¿ in explaining its relentless appearance in cultural artifacts, and pursue the question of why the vampire will not ¿die,¿ but instead continues to appeal to modern and post-modern imaginations. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: SCAN 2241
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 2261 (3) Madness and Gambling: Russian Short Stories of Life on the Edge
Traces themes of love, death, madness, gambling addiction, and other extreme emotional experiences within Russian short story form. Students will learn to make large-scale observations about cultural patterns and major artistic movements of Russia in the nineteenth to twenty-first centuries by reading classic short works by Pushkin, Gogol, Dostoyevsky, Tolstoy, Turgenev, Chekhov, Platonov, Shalamov, Ulitskaya, Petrushevskaya, among others. All readings will be in English. No knowledge of Russian required. Taught in English.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 2271 (3) Space, Invention, and Wonder in Fairy Tales, Literature and Film
Explores the themes of space, invention, technology and wonder in fairy tales from Italian, Russian, French, German, and Spanish traditions in order to compare their transformation in different national and historical settings. Students analyze the intersection of fairy tales and science in literature and film. Counts for the Space Minor. Taught in English.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

REES 2311 (3) Energy Cultures: Oil, Coal, and Atoms in Modern Literature and Film
Explores the concept of energy and its influence in world culture from the 19th century to the present, paying particular attention to how writers and filmmakers from the United States, Russia, and elsewhere have responded to the accelerating production and consumption of fossil fuels and nuclear power. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: AHUM 2311 and HUMN 2311
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

REES 2471 (3) Women in Russian Culture: From Folklore to the Nineteenth Century
Explores the changing role and cultural images of women as reflected in Russian folklore, historical documents, costumes, icons, paintings and literature from medieval times to 19th century. Focuses on the way Russian women have transgressed boundaries of patriarchy and secured powerful positions in society and culture. Taught in English. Formerly RUSS 2471.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 2501 (3) Russia Beyond the Headlines: Media, Politics, Culture, and Environment
Explores Russia¿s role in global politics and culture through the analysis of Russia¿s diverse media spheres. Focusing on the key players who shape and transform our understanding of contemporary Russian society, we will examine such topics as protest, diversity, environmental activism, Internet, mass- and counter-culture, and fashion, among many others. Formerly RUSS 2501.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Russian Courses Taught in English

REES 3121 (3) Topics in Russian, East European and Eurasian Culture
Selected topics in Russian, East Europeanand Eurasian culture. No knowledge of Russian required. Taught in English.
Repeatable: Repeatable for up to 6.00 total credit hours.

REES 3221 (3) Space Race in Russian and American Culture
Explores facts and fantasies of American and Soviet cultural narratives accompanying the Space Race, focusing on the production of recorded history as a process of mythmaking during the Cold War. Ponders the significance of presenting astronauts as national heroes and constructing national identities around the triumphs and failures of the competing space programs in science, art, music, film, and journalism. Formerly RUSS 3221.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 3231 (3) Laughter in Slavic Cultures
Examines forms, genres and social functions of laughter in Slavic cultures (Russian, Polish, Czech, Serbian and others) and provides an introduction to literature and film of Eastern Europe. All readings are in English. Taught in English. Formerly RUSS 3231.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 3241 (3) Red Star Trek: Russian Science Fiction Between Utopia and Dystopia
Examines Russo-Soviet science fiction in literature and film. Within this popular genre, writers conceive and criticize social utopias, thus creating works situated between the poles of utopia and dystopia. Through discussions of Soviet and post-Soviet science fiction the course introduces a Russo-Soviet "alternative modernity" and studies its historical development. All readings are in English. Taught in English. Formerly RUSS 3241.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 3251 (3) Arctic Thrillers: Environment, Landscape and Literature of the Far North
Explores 19th- and 20th-century Russian and Nordic literature, film and television with a special emphasis on the role of extremes of geography and climate and physical space on the development of plot and character. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: SCAN 3251
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

REES 3301 (3) Russia, Eastern Europe and Eurasia Today through Film and TV
Introduces post-Soviet culture through films and TV shows. The course will expose students to the diversity of contemporary Russian, East European and Eurasian life and cinematic production. Among the themes and materials discussed will be gender and sexuality, regional cinema, the documentary turn, ecology, migrants on screen, changing visions of Russia¿s historical role and position, and others. No knowledge of Russian is required. Taught in English. Formerly RUSS 3301.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 3333 (3) Spies Like Us: Espionage in the Culture of the Cold War and Beyond
Explores the figure of the spy in Western and Soviet/post-Soviet imagination of the Cold War period and after. Focuses on the constructions and transformations of the "enemy" concept in modern and post-modern societies. Taught in English. Formerly RUSS 3333.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 3601 (3) Russian Culture Past and Present
Russian culture from the ninth century to the present. Focuses on interdisciplinary exploration of literature, folklore, art, architecture and music through study abroad in St. Petersburg. Taught in English. Offered abroad only. Formerly RUSS 3601.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 3701 (3) Slavic Folk Culture: Ideals and Values in the Contemporary World
Explores contemporary Slavic and American folk practices and investigates the possible origins and consequences of such practices. Focuses upon the value systems these practices represent, and ways that core values help to define identities and cultures. Topics include folk religion, magic, healing, life cycle and calendar rituals and folk music. Taught in English. Formerly RUSS 3701.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 3705 (3) Crimes of Passion: Gender and Sexual Politics in Tolstoy's Russia
Examines the historical evolution of gender and sexual politics and the status of women in the late Imperial Russian culture, with particular attention to the writings of Leo Tolstoy and his masterpiece Anna Karenina. Topics-based survey considers debates around marriage, sexuality and gender equality through analysis of primary text by Tolstoy and his contemporaries, as well as secondary materials in gender studies, literary criticism and intellectual history. Taught in English. Formerly RUSS 3705.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Russian Courses Taught in English

REES 3900 (1-6) Independent Study
Formerly RUSS 3900.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Russian

REES 3930 (1-6) Russian, East European and Eurasian Studies Internship
Provides an academically supervised opportunity for upper-division students to earn credit while working for public or private organizations. Students apply skills and knowledge earned in the major, and supplement their work experience through directed readings and assignments. Formerly RUSS 3930.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Russian, East European and Eurasian Studies (REES) majors only.
Additional Information: Departmental Category: Russian

REES 4120 (3) Russia after Communism: Post-Soviet Politics and Culture
Explores the process of the re-invention and re-shaping of the Russian national identity after the collapse of the communist society. Topics will include the formation of neoconservative and neo-imperialist agenda (Ukraine crisis), growth of the anti-western attitudes and the protest movement against Putin's politics. Taught in English. Formerly RUSS 4120.
Equivalent - Duplicate Degree Credit Not Granted: REES 5120
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Russian Courses Taught in English

REES 4210 (3) Topics in Russian, East European and Eurasian Culture
Selected topics in Russian, East European and Eurasian Cultures. No knowledge of Russian required. Taught in English. Formerly RUSS 4210.
Equivalent - Duplicate Degree Credit Not Granted: REES 5210
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 4211 (3) History of Russian and Soviet Cinema
Explores groundbreaking works of Russian and Soviet cinema in historical context and with an emphasis on the connections between politics and cinematic form. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: CINE 4211 and REES 5211 and ARTF 5211
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 4221 (3) Stalinism: Culture and Society
Examines Soviet society and culture of Stalin period (1929-1953). The Great Terror, communist ideology, shady, commercial practice, political intrigues and show trials, as well as many other aspects of Stalinism will be discussed. Course materials include historical studies, documents, memoirs, diaries, novels and films of or about the period. Taught in English. Formerly RUSS 4221.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 5221
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 4251 (3) Russian and Soviet Queer Culture
Explores the contributions to Russian/Soviet literature, film, and the performing arts by such LGBTQ cultural icons as Nikolai Gogol, Marina Tsvetaeva, Sergei Eisenstein, and Pyotr Tchaikovsky. The course also surveys the history of social and legal restrictions on non-heteronormative behaviors in Russia from the medieval period to the present, with an emphasis on the emergence of LGBT rights activism and the reactionary rise of homophobia as a tool of nationalist politics in Putin¿s Russia. Taught in English. Formerly RUSS 4251.
Equivalent - Duplicate Degree Credit Not Granted: REES 5251
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

REES 4301 (3) American-Russian Cultural Relations
Surveys the development of American-Russian cultural relations from the second half of the 18th century to the present. Examines the character and significance of Russian-American relations in social, intellectual, artistic, and other spheres from a comparative perspective. Taught in English. Formerly RUSS 4301.
Equivalent - Duplicate Degree Credit Not Granted: REES 5301

Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Russian Courses Taught in English

REES 4321 (3) Mythological Russia and Ukraine
Examines folklore, popular culture, and everyday life in contemporary Russia and Ukraine to reveal beliefs, ideals, and ideologies. Subjects include witchcraft, shamanism, healing, death, remembrance, nostalgia, collective memory, obscenity. Students will learn to analyze artifacts, photographs, interviews, memoirs, songs, stories, and rituals. Taught in English. Formerly RUSS 4321.
Equivalent - Duplicate Degree Credit Not Granted: REES 5321
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

REES 4431 (3) Dostoevsky
Focuses on close reading of major novels and other works by Dostoevsky, one of the most important psychological novelists in modern literature, a profound religious thinker and the greatest crime novelist in the world. Taught in English. Formerly RUSS 4431.
Equivalent - Duplicate Degree Credit Not Granted: REES 5431
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 4441 (3) Tolstoy
Examines the development of Tolstoy's thought and literary style through study of one of his novels and short works from different periods of Tolstoy's writing. Taught in English. Formerly RUSS 4441.
Equivalent - Duplicate Degree Credit Not Granted: REES 5441
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 4451 (3) Chekhov
Analyzes the life and creative works of the author of some of the funniest and some of the gloomiest stories in Russian literature. Examines Chekhov's major plays that laid the foundation for modernist theatre. Taught in English. Formerly RUSS 4451.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 5451
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 4471 (3) Women in 20th-21st Century Russian, East European and Eurasian Cultures
Examines issues facing women in 20th-21st century Russia, East Europe, Caucasus and Central Asia, based on study of current events, history, literature, posters and film. Studies images of women as Amazons and rebels, salon hostesses and poets, New Soviet Women and women in combat, prostitutes and mothers. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4471 and REES 5471
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Russian Courses Taught in English

REES 4481 (3) Rogues to Revolutionaries: Russian Rebels, Past and Present
Explores the tradition of dissent and opposition in Russian culture, from the medieval period to present, approaching forms of rebellion (religious, political, social, aesthetic) in historical context. This survey in intellectual history will trace this phenomenon across historical documents, literary texts, film, and the fine and performing arts, pairing these primary materials with readings in Russian history. Taught in English. Formerly RUSS 4481.
Equivalent - Duplicate Degree Credit Not Granted: REES 5481 IAFS 3621
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 4811 (3) Seeds of Revolt: 19th-Century Russian Literature
Explores Russian literature of the 1800s, a remarkable period in literary and political history that witnessed the emergence of nationalism, socialism, and feminism. Reading classic texts by Dostoevsky, Tolstoy and Chekhov alongside lesser-known works that speak to urgent social issues of our own time (identity, class disparity, environmental degradation, and the struggle for civil rights), students will learn interpretive skills that are relevant to a wide range of disciplines today. No knowledge of Russian culture required. Taught in English. Formerly RUSS 4811.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 4821 (3) 20th-Century Russian Literature and Art
Interdisciplinary course emphasizing the influence of literature and art in 20th century Russian literature. Follows the changing cultural landscape from the time when Russia was in the vanguard of modern European literature to the period of Stalinism. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: HUMN 4821 and REES 5821
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 4831 (3) Contemporary Russian Literature
Acquaints students with the most representative works of Russian writers after the collapse of the Soviet regime. Examines the relationships between ideological concepts and aesthetics, and the treatment of moral and social issues in recent literary works. All readings are in English. Taught in English. Formerly RUSS 4831.
Equivalent - Duplicate Degree Credit Not Granted: REES 5831
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 4851 (3) Critical Thinking: Russian Film and Society
Through structured discussions, selected readings and written assignments, examines topics in Russian film from socio-historical and cultural studies perspectives. Taught in English. Formerly RUSS 4851.
Equivalent - Duplicate Degree Credit Not Granted: REES 5851
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 4861 (3) Absurd and Supernatural in Russian Literature
Studies themes of grotesque, bizarre, surreal, absurd, supernatural and fantastic in Russian short stories and novels of the 19th and 20th centuries. Discusses works by Pushkin, Gogol, Dostoevsky, Kharms, Bulgakov, Sinyavsky, Petrushevskaya and Pelevin within the contexts of Russian folklore, Freud and Jung's interpretations of jokes and dreams, and Romanticism. Taught in English. Formerly RUSS 4861.
Equivalent - Duplicate Degree Credit Not Granted: REES 5861
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Russian Courses Taught in English

REES 4871 (3) Understanding Ukraine: Culture, Diversity, Conflict
Introduces students to Ukraine¿s cultural diversity and orients them in the history of the country at the heart of contemporary world politics. This course will provide students with a necessary historical frame for understanding current and war-time cultural debates about Ukraine¿s contested heritage and future. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3622 RUSS 5871

REES 4900 (1-6) Independent Study
Formerly RUSS 4900.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Russian

REES 5110 (3) Slavic Culture and Society
Examines important ideologies and myths in Slavic societies, with emphasis on contemporary movements and their reinterpretation of history. Acquaints students with major tools for study of cultures of Eastern Europe and the post-Soviet states: research methods, bibliography, transliteration, critical thinking and writing skills. Required for Russian MA. Taught in English. Formerly RUSS 5110.
Additional Information: Departmental Category: Russian Courses Taught in English

REES 5120 (3) Russia after Communism: Post-Soviet Politics and Culture
Explores the process of the re-invention and re-shaping of Russian national identity after the collapse of Communism. Topics will include the formation of a neoconservative and neo-imperialist agenda (as demonstrated by the Ukraine crisis), the growth of anti-Western attitudes, and the anti-Putin protest movement. Taught in English. Formerly RUSS 5120.
Equivalent - Duplicate Degree Credit Not Granted: REES 4120
Additional Information: Departmental Category: Russian Courses Taught in English

REES 5210 (3) Topics in Russian, East European and Eurasian Culture
Selected topics in Russian, East European and Eurasian culture. No knowledge of Russian required. Taught in English. Formerly RUSS 5210.
Equivalent - Duplicate Degree Credit Not Granted: REES 4210
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Departmental Category: Russian Courses Taught in English

REES 5211 (3) History of Russian and Soviet Cinema
Surveys Russian cinema in historical and cultural context from early 20th century to the present. Taught in English. Formerly RUSS 5211.
Equivalent - Duplicate Degree Credit Not Granted: ARTF 5211 and REES 4211 and CINE 4211
Requisites: Restricted to graduate students only.

REES 5221 (3) Stalinism: Culture and Society
Examines Soviet society and culture of the Stalin period (1929-1953). The Great Terror, Communist ideology, commercial practices, political intrigues and show trials, as well as many other aspects of Stalinism will be discussed. Course materials include historical studies, documents, memoirs, diaries, novels and films of or about the period. Taught in English. Formerly RUSS 5221.
Equivalent - Duplicate Degree Credit Not Granted: REES 4221

REES 5251 (3) Russian and Soviet Queer Culture
Explores the contributions to Russian/Soviet literature, film, and the performing arts by such LGBTQ cultural icons as Nikolai Gogol, Marina Tsvetaeva, Sergei Eisenstein, and Pyotr Tchaikovsky. The course also surveys the history of social and legal restrictions on non-heteronormative behaviors in Russia from the medieval period to the present, with an emphasis on the emergence of LGBT rights activism and the reactionary rise of homophobia as a tool of nationalist politics in Putin¿s Russia. Taught in English. Formerly RUSS 5251.
Equivalent - Duplicate Degree Credit Not Granted: REES 4251

REES 5301 (3) American-Russian Cultural Relations
Surveys the development of American-Russian cultural relations from the second half of the 18th century to the present. Examines the character and significance of Russian-American relations in social, intellectual, artistic, and other spheres from a comparative perspective. Taught in English. Formerly RUSS 5301.
Equivalent - Duplicate Degree Credit Not Granted: REES 4301
Additional Information: Departmental Category: Russian Courses Taught in English

REES 5321 (3) Mythological Russia and Ukraine
Examines folklore, popular culture, and everyday life in contemporary Russia and Ukraine to reveal beliefs, ideals, and ideologies. Subjects include witchcraft, shamanism, healing, death, remembrance, nostalgia, collective memory, obscenity. Students will learn to analyze artifacts, photographs, interviews, memoirs, songs, stories, and rituals. Taught in English. Formerly RUSS 5321.
Equivalent - Duplicate Degree Credit Not Granted: REES 4321
Recommended: Prerequisite prior experience with folklore or Russian studies.

REES 5352 (3) Russian Novel: Theory and Practice
Examines the Russian novel and its evolution as well as Western and Russian theories of the novel as they engage and reflect upon the claims of modernity. Taught in English. Formerly RUSS 5352.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Russian Courses Taught in English

REES 5431 (3) Dostoevsky
Focuses on close reading of major novels and other works by Dostoevsky, one of the most important psychological novelists in modern literature, a profound religious thinker and the greatest crime novelist in the world. Taught in English. Formerly RUSS 5431.
Equivalent - Duplicate Degree Credit Not Granted: REES 4431
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Russian Courses Taught in English

REES 5441 (3) Tolstoy
Examines the development of Tolstoy's thought and literary style through study of one of his novels and short works from different periods of Tolstoy's writing. Taught in English. Formerly RUSS 5441.
Equivalent - Duplicate Degree Credit Not Granted: REES 4441
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Russian Courses Taught in English

REES 5451 (3) Chekhov
Analyzes the life and creative works of the author of some of the funniest and some of the gloomiest stories in Russian literature. Examines Chekhov's major plays that laid the foundation for modernist theatre. Taught in English. Formerly RUSS 5451.
Equivalent - Duplicate Degree Credit Not Granted: REES 4451
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Russian Courses Taught in English

REES 5471 (3) Women in 20th-21st Century Russian, East European and Eurasian Cultures
Examines issues facing women in 20th-21st century Russia, based on study of current events, history, literature, posters and film. Studies images of women as Amazons and rebels, salon hostesses and poets, New Soviet Women and women in combat, prostitutes and mothers. Taught in English. Formerly RUSS 5471.
Equivalent - Duplicate Degree Credit Not Granted: REES 4471 and WGST 4471
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Russian Courses Taught in English

REES 5481 (3) Rogues to Revolutionaries: Russian Rebels, Past and Present
Explores the tradition of dissent and opposition in Russian culture, from the medieval period to present, approaching forms of rebellion (religious, political, social, aesthetic) in historical context. This survey in intellectual history will trace this phenomenon across historical documents, literary texts, film, and the fine and performing arts, pairing these primary materials with readings in Russian history. Taught in English. Formerly RUSS 5481.
Equivalent - Duplicate Degree Credit Not Granted: REES 4481 IAFS 3621
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Russian Courses Taught in English

REES 5821 (3) 20th Century Russian Literature and Art
Interdisciplinary course emphasizing the influence of literature and art in 20th century Russian literature. Follows the changing cultural landscape from the time when Russia was in the vanguard of modern European literature to the period of Stalinism. Taught in English. Formerly RUSS 5821.
Equivalent - Duplicate Degree Credit Not Granted: REES 4821 AND HUMN 4821
Additional Information: Departmental Category: Russian Courses Taught in English

REES 5830 (3) Topics in Literature and History
Taught in English. Formerly RUSS 5830.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Russian Courses Taught in English

REES 5831 (3) Contemporary Russian Literature
Acquaints students with the most representative works of Russian writers after the collapse of the Soviet regime. Examines the relationships between ideological concepts and aesthetics, and the treatment of moral and social issues in recent literary works. All readings are in English. Taught in English. Formerly RUSS 5831.
Equivalent - Duplicate Degree Credit Not Granted: REES 4831
Additional Information: Departmental Category: Russian Courses Taught in English

REES 5851 (3) Critical Thinking: Russian Film and Society
Through structured discussions, selected readings and written assignments, examines topics in Russian film from socio-historical and cultural studies perspectives. Taught in English. Formerly RUSS 5851.
Equivalent - Duplicate Degree Credit Not Granted: REES 4851
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Russian Courses Taught in English

REES 5861 (3) Absurd and Supernatural in Russian Literature
Studies themes of grotesque, bizarre, surreal, absurd, supernatural and fantastic in Russian short stories and novels of the 19th and 20th centuries. Discusses works by Pushkin, Gogol, Dostoevsky, Kharms, Bulgakov, Sinyavsky, Petrushevskaya and Pelevin within the contexts of Russian folklore, Freud and Jung's interpretations of jokes and dreams, and Romanticism. Taught in English. Formerly RUSS 5861.
Equivalent - Duplicate Degree Credit Not Granted: REES 4861
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Russian Courses Taught in English

REES 5871 (3) Understanding Ukraine: Culture, Diversity, Conflict
Introduces students to Ukraine¿s cultural diversity and orients them in the history of the country at the heart of contemporary world politics. This course will provide students with a necessary historical frame for understanding current and war-time cultural debates about Ukraine¿s contested heritage and future. Taught in English. Degree credit not granted for IAFS 3622.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 4871
Requisites: Restricted to graduate students only.

REES 5900 (1-6) Independent Study
See department for registration information. Department enforced requisite: graduate standing. Formerly RUSS 5900.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Russian

REES 6940 (1-3) Master's Candidate for Degree
Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree. Formerly RUSS 6940.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Russian

REES 6950 (1-6) Master's Thesis
Formerly RUSS 6950.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Russian

Sanskrit (SNSK)

Courses

SNSK 1010 (3-4) Introductory Sanskrit 1
Repeatable: Repeatable for up to 4.00 total credit hours.
Additional Information: Departmental Category: Sanskrit

SNSK 1020 (3-4) Introductory Sanskrit 2
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Requires prerequisite course of SNSK 1020 (minimum grade C-).
Additional Information: Departmental Category: Sanskrit

SNSK 2110 (3-4) Intermediate Sanskrit 1
Continued study of the grammar of classical Sanskrit and translation of selected readings from the literature.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Requires prerequisite course of SNSK 1020 (minimum grade C-).
Additional Information: Departmental Category: Sanskrit

SNSK 2120 (3-4) Intermediate Sanskrit 2
Continuation of SNSK 2110.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Requires prerequisite course of SNSK 2110 (minimum grade C-).
Additional Information: Departmental Category: Sanskrit

Scandinavian (SCAN)

Courses

SCAN 1202 (3) Tolkien's Nordic Sources and the Lord of the Rings
Examines the Nordic aspect of J.R.R. Tolkien's work, especially The Lord of the Rings. Concentrates on the Nordic saga tradition, mythology, folklore and fairy tales Tolkien used as his sources. Students will explore the transformations of these sources from prehistoric times to contemporary cinematic adaptations, while paying special attention to cultural appropriations, national revisions and political alterations. Taught in English.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nordic Studies Courses Taught in English

SCAN 1900 (1-6) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Nordic Studies Courses Taught in English

SCAN 2201 (3) Introduction to Modern Nordic Culture and Society
Provides a comprehensive introduction to modern Nordic culture and society. Surveys the history of Nordic countries and examines their culture using art, architecture, literature, and film. Studies social issues, environmental concerns, and political patterns. In profiling aspects of culture and society unique to Nordic countries, students arrive at a conception of a collective Nordic identity. Taught in English.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Nordic Studies Courses Taught in English

SCAN 2202 (3) The Viking Age
Examines the social, political, technological, spiritual, and artistic background to the Viking Age, asking how Scandinavian society functioned in the Viking Age, why the Scandinavian expansion occurred, and what its lasting effects have been on the global stage. Taught in English.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nordic Studies Courses Taught in English

SCAN 2241 (3) Death and the Undead in Slavic and Nordic Cultures
Focuses on the study of beliefs and practices related to the dead as represented in popular culture. This interdisciplinary course will introduce students to representations of the vampire/revenant and other denizens of the undead in Icelandic sagas, Russian epic song, folktales, folklore, literature, and film from the medieval period through contemporary popular culture. Through close analysis of these various sources, this course will focus on the metaphoric usefulness of the ¿restless undead¿ in explaining its relentless appearance in cultural artifacts, and pursue the question of why the vampire will not ¿die,¿ but instead continues to appeal to modern and post-modern imaginations. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: REES 2241
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

SCAN 2900 (1-6) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Nordic Studies Courses Taught in English

SCAN 3020 (3) Advanced Readings in Scandinavian
Develops the type of advanced reading knowledge of the four closely related Scandinavian languages (Swedish, Danish and the two Norwegian standards) that will prepare students for their senior thesis and for possible graduate work. Readings will help students see relationships and connections operating across national and linguistic borders within the Nordic region. Department enforced prerequisites: NORW 2120 and NORW 3900 or SWED 3900 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Norwegian
Departmental Category: Swedish

SCAN 3101 (3) Global Seminar: Identity, Arts & Ethics in Contemporary Norway
Explores contemporary Norwegian society from an interdisciplinary, global perspective. Norway is recognized throughout the world for a high standard of living, ethical business culture, and rich art, literature, and cinema. We will examine how Norwegian society has adapted to its recent transformation from being one of the poorest countries in Europe to being one of the richest in the world. Offered through Education Abroad. Taught abroad only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

SCAN 3102 (3) Global Seminar: Scandinavian Witchcraft and Magic in Iceland
Examines witchcraft and magic in the broad perspective of Scandinavian cultural history. Explores folk culture and customs of Scandinavia's Viking Age and medieval past including visits to historical sites in Iceland. Offered through Education Abroad. Taught abroad only.

SCAN 3110 (3) Topics in Contemporary Nordic Society and Culture
Provides insight into cultural adaptations, political struggles and social transformations taking place in the contemporary Nordic world. Subjects treated vary according to current developments in the region, student interest and faculty availability.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nordic Studies Courses Taught in English

SCAN 3201 (3) Contemporary Nordic Society and Culture
Explores contemporary Nordic culture and society with special focus on Iceland. Emphasis is on the relationship between historical, geographic, artistic, and political forces in Iceland and their effects on culture and society. Provides insight into the life and attitudes of contemporary Icelanders and stresses their place in the global culture of today. Taught in English.
Recommended: Prerequisite SCAN 2201.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nordic Studies Courses Taught in English

SCAN 3202 (3) Old Norse Mythology
Presents Old Norse mythology as it is represented in medieval Nordic literature. Discusses strategies for analyzing Old Norse mythology as medieval literature that reflects social narratives in Scandinavia in the period 500-1300 AD. Interprets and contextualizes Old Norse mythology in relation to its codification in literature. Students will gain insight into the historical development and the complexity of transmission of Old Norse mythology in medieval literature and its subsequent reception in the global public. Taught in English.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nordic Studies Courses Taught in English

SCAN 3203 (3) 19th & 20th Century Nordic Literature
Examines the Nordic region's influence on social realism, expressionism, and postwar literature, including such themes as women in society, nature and industrialization, and identity and angst. May include works by Ibsen, Strindberg, Dinesen, and Nobel Prize winners Lagerlof, Hamsun, Undset, and Lagerkvist. Taught in English.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nordic Studies Courses Taught in English

SCAN 3204 (3) Medieval Icelandic Sagas
Advanced introduction to medieval Icelandic saga with readings in the family, outlaw, skald, and legendary sagas as well as the main scholarly approaches to this unique literature. Topics include honor, blood feud, fate, sexuality/gender, oral composition, and legend. Taught in English.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nordic Studies Courses Taught in English

SCAN 3205 (3) Scandinavian Folk Narrative
Introduces the rich tradition of Scandinavian oral narrative. Looks at relationships between the various genres of oral narrative and their historical, social, and cultural contexts. Genres studied may include ballad, fairy tale, rural legend, and urban legend. Explores various interpretive methodologies. Taught in English.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nordic Studies Courses Taught in English

SCAN 3206 (3) Nordic Colonial History and Legacy
Examines Nordic colonial enterprise and the relationship between the Scandinavian center and colonial peripheries from the Arctic to the Caribbean, Africa, and India. Studies colonial and postcolonial cultures, and postcolonial criticism and theory. Taught in English.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Nordic Studies Courses Taught in English

SCAN 3207 (3) Beyond Middle Earth: Tolkien¿s Nordic Sources II
Explores beyond The Lord of the Rings and reads Tolkien¿s sources for material in the Silmarillion as well as his re-imaginings of Nordic literature such as The Legend of Sigurd and Gudrun, The Story of Kullervo, and Old English elegiac and battle poems. Students will apply source criticism to Tolkien¿s inspirations, to his academic work and works of fiction. Students will gain insight into Tolkien¿s goals in his re-working of sources, and consider how Tolkien¿s work re-contextualizes the original texts for his contemporaries and for modern society. Taught in English.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

SCAN 3208 (3) Women in Nordic Society: Modern States of Welfare
Examines the role and status of women and marginalized social classes in the Nordic countries, whose societies have been heralded as egalitarian models since the twentieth century. Texts include a variety of media, from literature to sociological works to artifacts of political and popular culture. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3208
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Nordic Studies Courses Taught in English

SCAN 3209 (3) Contemporary Nordic Literature and Film
Advanced introduction to contemporary Nordic literature and film. Readings/screenings of recent translated Nordic texts and films, presenting a broad spectrum of contemporary issues, along with current critique and theoretical approaches. Topics: history, culture, translation, gender/sexuality, nationalidentity, minority issues, etc. Taught in English.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nordic Studies Courses Taught in English

SCAN 3251 (3) Arctic Thrillers: Environment, Landscape and Literature of the Far North
Explores 19th- and 20th-century Russian and Nordic literature, film and television with a special emphasis on the role of extremes of geography and climate and physical space on the development of plot and character. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: REES 3251
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

SCAN 3301 (3) Radical Nationalism in Contemporary Northern Europe
Examines the current rise of National Socialists, white supremacists, ethnic separatists, anti-Islam activists and social and cultural ultraconservatives in northern Europe. Treats extremist nationalism as a social, cultural, aesthetic, intellectual and political movement. Consults scholarship from sociology, criminology and political science, as well as music, literature, art and film. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3630
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Nordic Studies Courses Taught in English

SCAN 3302 (3) Witchcraft and Magic in Scandinavia
Investigates witchcraft and magic in Scandinavian cultures from the Viking Age to the Burning Age. The class examines witchcraft and magic in the broad perspective of Scandinavian cultural history, tracing traditions of magic from the earliest sources in runes to film and literature in the modern era. We will investigate the styles of magic and cultural attitudes to it in Iceland, Norway, Denmark, and Sweden.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

SCAN 3303 (3) Contemporary Norse Paganism
This course introduces to the contemporary neopagan movement in North America known as Norse paganism or Ásatrú. It surveys the historical development of the movement, its attachment to Scandinavian pre-history, and the major socio-cultural components of its identity constructions. We will investigate the movement's attitudes and conceptualizations of modern Nordic-based spirituality in light of gender, race, ethnicity, and its ecosocial ethoses.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

SCAN 3506 (3) Scandinavian Drama
Examines the many contributions of Scandinavian dramatists to world theater from the 18th century to the present. With emphasis on Holberg, Bjornson, Ibsen, Strindberg, and Bjorneboe, surveys Enlightenment comedy, national romanticism, realism, naturalism, symbolism, expressionism, and Brechtian epic theater. Taught in English.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nordic Studies Courses Taught in English

SCAN 3631 (3) Arctic Society and Culture
Investigates representations of the Arctic in literature, art, cinema, media and scientific, and geographical writing over the past century and a half, spanning material from North America, Britain, continental Europe and the Nordic region. Interpretive approaches include ecocriticism; post-colonialism; literary studies; indigenous studies; visual, film and media theory; Cold War studies.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3631
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Nordic Studies Courses Taught in English

SCAN 3632 (3) Scandinavia and the European Union
Examining the role that the EU plays in the Nordic region, this course is an introduction to the complex relationship between the Nordic nation states and the European project. We explore how the EU is perceived in the Nordic countries and investigate why the Nordic region is reluctant in its relation to the European Union.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3632

SCAN 3900 (1-6) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Nordic Studies Courses Taught in English

Sewall Residential Academic Program (SEWL)

Courses

SEWL 1020 (1-3) Topics-Social Sciences 1
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

SEWL 2000 (3) America, the Environment, and the Global Economy
Examines the debate over globalization and the global environmental crisis. Does increasing global economic development threaten to undermine the environment? What role should America play in the development of a sustainable economy?
Equivalent - Duplicate Degree Credit Not Granted: SOCY 1002
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences

SEWL 2020 (1) Civic Engagement
Explores the concept of citizenship through readings, discussion, and service-learning. Working with Sewall faculty mentors, students discuss citizenship and related topics and learn concretely about aspects of the larger community by choosing a local community organization, becoming actively involved in its programs, and presenting their work at a culminating symposium.
Repeatable: Repeatable for up to 4.00 total credit hours.

Social Sciences (SSCI)

Courses

Sociology (SOCY)

Courses

SOCY 1001 (3) Introduction to Sociology
Examines basic sociological ideas including social relations, social interaction, social structure, and social change. Examples are drawn from societies around the world.
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology
MAPS Course: Social Science

SOCY 1004 (3) Deviance in U.S. Society
Examines the social construction of deviance in the U.S., the process of acquiring a deviant identity and managing deviant stigma, and the social organization of deviant act, lifestyles, relationships and careers.
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 1006 (3) The Social Construction of Sexuality
Discusses the social determinants of sexuality. Analyzes the economic, psychological, and cultural influences on human sexuality. Interactional perspective of human sexuality is presented.
Equivalent - Duplicate Degree Credit Not Granted: WGST 1006
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Sex and Gender

SOCY 1016 (3) Sex, Gender, and Society 1
Examines status and power differences between the sexes at individual and societal levels. Emphasizes historical context of gender roles and status, reviews major theories of gender stratification.
Equivalent - Duplicate Degree Credit Not Granted: WGST 1016
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Sex and Gender

SOCY 1021 (3) United States Race and Ethnic Relations I
Examines how concepts of race and ethnicity have manifested historically and manifest currently in U.S. society. Covers foundational concepts such as prejudice, discrimination, and privilege. Also addresses the structural causes and consequences of race and ethnicity in various aspects of U.S. society, such as the housing market, the criminal justice system, and education.
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: General Sociology

SOCY 1022 (3) Ethics and Social Issues in U.S. Health and Medicine
Explores current ethical and policy issues in U.S. health and medical practices. Includes such issues as alcohol and drug abuse, organ transplants and substitutes, genetic engineering, contraception, abortion, occupational safety and health, and euthanasia.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue

SOCY 1841 (1-6) Independent Study in Sociology
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Departmental Category: General Sociology

SOCY 2011 (3) Contemporary Social Issues and Human Values
Explores contemporary societies on a global scale. Focuses on such issues as capitalism, socialism, race and ethnic problems, sex discrimination, poverty and the concentration of wealth, crime and deviance, human rights and human values, peace and war.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 2022 (3) Happiness in Society
Examines the measurement, meaning, and causes of happiness and its relationship to social life in the contemporary United States as well as in other countries. Students will also learn about and critically evaluate existing strategies for enhancing happiness in their lives. Formerly offered as a special topics course.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

SOCY 2031 (3) Social Problems
Examines various social problems in the U.S. through a traditional sociological framework focused on race, class, and gender. Considers such problems as economic, racial, and gender inequality as manifestations of broader structural dynamics rooted in unequal relations of power. Addresses topics such as mass incarceration, poverty, segregation, drug use, immigration, and war and terrorism.
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 2034 (3) Drugs in United States Society
Examines the relationship between drugs and social contexts. Lends insight into why people find consciousness alteration meaningful, what kinds of experiences and problems arise, and what types of social policies emerge to control drug use.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 2044 (3) Crime and Society
Explores issues related to crime, the criminal justice system, and crime-related public policy. It addresses what we know about crime and how we know it, how our society responds to crime, how the institutions designed to address crime (police, courts, corrections) function, and diversity in experiences with the criminal justice system.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 2044
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 2061 (3) Introduction to Social Statistics
Introduces students to quantitative analysis of social phenomena. Emphasizes understanding and proper interpretation of graphs; measures of central tendency, dispersion, and association; and the concept of statistical significance. Assumes students have only limited mathematical background.
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology
MAPS Course: Mathematics

SOCY 2077 (3) Environment and Society
Examines interactions between societies and their natural and built environments through the lens of inequality. Describes how environmental problems vary along, are shaped by, and exacerbate disparities along lines of race, socioeconomic status, and other forms of social status. Also examines collective efforts to address social and environmental problems.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Environment and Society

SOCY 2080 (3) Sociology of the Helping Professions
Investigates how today's helping professionals are trained and socialized to care for clients, the challenges they face in working within modern bureaucracies and with advanced technologies and the importance of inter-professional care.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 2091 (3) Topics in Sociology
Variety of courses taught by visiting and regular faculty. See current departmental announcements for specific content. Students may receive credit for this course up to three times for different topics.
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 2092 (3) Sex, Power and Reproduction
Examines fertility, contraception and abortion with an emphasis on demographic trends, social stratification and policy impacts. Sociological, demographic and public health perspectives will be presented.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

SOCY 2150 (3) Gender, Race, and Chainsaws
Practice fundamental skills of visual literacy with an emphasis on understanding the sociological importance of popular media¿s representation of different groups of people and the implications of these representations for social justice. We will analyze how historical and current social conditions influence the creation, distribution, and interpretation of visual media in our culture, focusing on films in the horror genre. Formerly offered as a special topics course.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

SOCY 3001 (3) Classical Theory
In-depth study of classical sociological theorists, particularly Marx, Durkheim, and Weber. Examines their roles in defining the discipline of sociology.
Requisites: Requires a prerequisite course of SOCY 1001 (minimum grade C-). Restricted to students with 27-180 credits (Sophomore, Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 3002 (3) Population and Society
Examines population, its structure and processes, and its relationships to selected areas of the social structure. Examines Malthusian, neo-Malthusian, and Marxist perspectives.
Requisites: Restricted to Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue

SOCY 3011 (3) Contemporary Theory
Continuation of SOCY 3001. In-depth study of modern and post-modern theories of the 20th century, including structural-functionalist, conflict, symbolic interactionist, feminist, and world system theories.
Requisites: Requires a prerequisite course of SOCY 3001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 3012 (3) Gender and Development
Provides a sociological perspective on gender, globalization, and economic development in the Global South. Examines a variety of topics, including feminist theories of development; poverty and inequality; women¿s work in the context of globalization; and women¿s activism and feminism(s).
Equivalent - Duplicate Degree Credit Not Granted: WGST 3012
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 3001.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue
Departmental Category: Asia Content

SOCY 3016 (3) Marriage and the Family in the United States
Comparative and historical examination of marriage and the family within the U.S. Emphasizes changing family roles and family structures. Also considers alternatives to the nuclear family and traditional marriage exploring new definitions of family.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3016
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sex and Gender

SOCY 3032 (3) Social Epidemiology
Introduces students to social epidemiology. Identifies how social structures, institutions, norms, relationships, and neighborhood context affect health. Particular attention is paid to ways in which economic inequality, racism, and gender discrimination increase groups¿ risk of exposure to factors that undermine health.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 3041 (3) Self and Consciousness
Explores human development from a psychosocial perspective, focusing on the interplay between psychological patterns and social forms. Issues such as self-image and social consciousness are studied within the larger context of individual and collective forces leading to transformation.
Equivalent - Duplicate Degree Credit Not Granted: INVS 3041
Requisites: Requires a prerequisite course of SOCY 3001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 3042 (3) Topics in Population and Health
A variety of courses in population and/or health will be taught, usually by visiting lecturers. See current departmental announcements for specific content.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of SOCY 1001 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue

SOCY 3044 (3) Race, Class, Gender, and Crime
Overview of race, class, gender and ethnicity issues in offending, victimization and processing by the justice system. Examines women and people of color employed in the justice system.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 3044 and WGST 3044
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 1001 or SOCY 1004 or SOCY 1021 or SOCY 2044.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 3045 (3) Sociology of Death and Dying
Addresses sociological aspects of thanatology (the study of death and dying). Includes study of the social meaning of death and its normative treatment in western civilization, with a focus on the contemporary United States.
Requisites: Requires a prerequisite course of SOCY 1001 or SOCY 3001 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue

SOCY 3046 (3) Topics in Sex and Gender
Faculty present courses based on their area of expertise and specialization in the field of sex and gender. Students should check current sociology department notices of course offerings for specific topics.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3046
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sex and Gender

SOCY 3052 (3) Medical Sociology
Explores the role of medicine and medical systems in society. How does society shape health, how does health shape social position, and how do societies make sense of health and illness? Topics may include epidemiology, social demography of health, social stress, health behavior, experiences of illness and recovery, health care provision, and health care delivery systems.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue

SOCY 3141 (3) Social Movements and the Politics of Protest
Considers theory and research about social movements and other forms of protest within and beyond the United States. Examines their impacts as well as factors shaping their success and failure, including leadership, ideology, recruitment, strategy, organizational dynamics, and broader social context.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 3151 (3) Self in Modern Society
Explores how modern social institutions and culture shape our personal experiences, how personal experiences can affect the nature of those, institutions and culture, and how strategies can be developed for achieving balance between the individual and society.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 3001.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 3161 (3) Global Perspectives on Race and Ethnicity
Explores various manifestations of race and ethnicity in different parts of the world. Includes in-depth coverage of various subtopics, such as racial and ethnic stratification, identity formation, social movements, politics, citizenship, and migration.
Recommended: Prerequisite SOCY 1021.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: General Sociology

SOCY 3171 (3) Whiteness Studies
Uses the conceptual framework of the sociology of race and ethnic relations to explore whiteness as a racial category that is centered and privileged in American society. Investigates the development of whiteness from past white supremacy, current colorblindness, to possible future multiculturalism. Analyzes the consequences of whiteness as a racial identity and a social structure.
Requisites: Requires a prerequisite course of SOCY 1001 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 3201 (3) Sociological Research Methods
Introduces students to the logics and methods of sociological research. This requirement for majors teaches ways to answer sociological questions by collecting and analyzing different types of data. Students are trained in research ethics and learn how to collect their own data and conduct original sociological research. Collection and analysis of both qualitative and quantitative data are included.
Requisites: Requires prerequisite course of SOCY 2061 or ANTH 4000 or EBIO 4410 or ECON 3818 or GEOG 3023 or IPHY 2800 or IPHY 3280 or MATH 2510 or PSCI 2075 or PSYC 2111 or EDUC 4716 (minimum grade C-). Restricted to Sociology (SOCY) majors only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: General Sociology

SOCY 3301 (3) Survey Methods
Teaches quantitative research methods and, particularly, methods of survey research. Topics include sampling, interviewing, schedule construction, data analysis, computer methods, index construction, and statistical analysis. Students participate in a survey project, design, collect data, and prepare a research paper on the basis of collected data.
Requisites: Requires prerequisite courses of SOCY 2061 and SOCY 3001 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: General Sociology

SOCY 3314 (3) Violence Against Women and Girls
Focuses on aspects of the victimization of women and girls that are "Gendered" - namely, sexual abuse and intimate partner abuse. Also explores the importance of race, class, and sexuality in gendered violence.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 3314 and WGST 3314
Recommended: Prerequisite SOCY 1016 or WGST 1016.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Deviance and Criminology

SOCY 3401 (3) Field Methods
Skill development prepares students to conduct qualitative sociological research. Emphasizes ethnographic techniques, including intensive interviewing, direct observation, coding, participant observation, and report writing. Students conceive and execute a field research project with data collection, analysis, and a report.
Requisites: Requires a prerequisite course of SOCY 3001 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: General Sociology

SOCY 4000 (3) Gender, Genocide and Mass Trauma
Studies the persistence of genocide and the effects of mass trauma on women and girls. Within the framework of political and social catastrophe, examines cataclysmic world events and the traumatic consequences for women of religious persecution, colonialism, slavery and the genocides of the 20th and 21st centuries.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4010
Recommended: Prerequisite SOCY 1016 or WGST 1016 or WGST 2000 or SOCY 3314 or WGST 3314.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Sex and Gender

SOCY 4002 (3) Sociology of Aging
Studies present and future roles of the aged in the family, the community, and the larger society. Considers economic, political, and health consequences of various retirement systems.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Recommended: Prerequisite SOCY 3001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Population and Health Issue

SOCY 4004 (3) Advanced Topics in Criminology
Variety of courses in criminology. See current departmental announcements for specific content.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 1001 or SOCY 1004 or SOCY 2044.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Deviance and Criminology

SOCY 4007 (3) Global Human Ecology
Examines global environmental issues using sociological perspectives. A variety of critical contemporary challenges are explored that link social and ecological processes. These include the social dimensions of climate change, inequitable distribution of pollution, the environmental aspects of population growth, and resource shortages. Policies and strategies for change are explored.
Equivalent - Duplicate Degree Credit Not Granted: SEWL 2000
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Environment and Society

SOCY 4014 (3) Criminology
Examines the scientific study of types of criminal behavior and explanations for criminal behavior, with special attention to social factors affecting criminal behavior.
Requisites: Requires a prerequisite course of SOCY 1001 or SOCY 1004 or SOCY 2044 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Deviance and Criminology

SOCY 4016 (3) Sex, Gender and Society 2
Studies status and power differences between the sexes at individual, group, and societal levels. Examines empirically established sex differences, and reviews biological, psychological, and sociological explanations for gender differences.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4016
Requisites: Requires a prerequisite course of SOCY 1016 or WGST 1016 or WGST 2000 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Sex and Gender

SOCY 4017 (3) Animals and Society
Examines the role of non-human animals in human society. Investigates the social construction of the human/animal boundary. Challenges ideas that animals are neither thinking nor feeling. Examines the many ways humans rely on animals. Considers the link between animal cruelty and other violence. Explores the moral status of animals.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Environment and Society

SOCY 4018 (3) Sport in Society
Investigates the world of sport via the social structures and processes that underlie this ubiquitous and much-pursued area of social life. Elucidates social dimensions of sport by highlighting and debating different theoretical and methodological dimensions of sociology of sport research. Examines demographics of sport, including gender, race, and sexual orientation, as well as inequalities within sport, along with the politics, economics, globalization, and commodification of sport.
Recommended: Prerequisites SOCY 1001 and SOCY 3001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

SOCY 4024 (3) Juvenile Justice and Delinquency
Examines the history, incidence and prevalence of delinquent behavior among youth.
Requisites: Requires a prerequisite course of SOCY 1001 or SOCY 1004 or SOCY 2044 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 4027 (3) Inequality, Democracy, and the Environment
Focuses on the structural forces affecting environmental degradation and environmental behavior by examining the relationships between (a) inequality and democratic decision making and (b) undemocratic decision making; U.S. and corporate food and energy policy; and global environmental degradation. Focuses on the role that global inequality plays in fostering environmental degradation.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 4027
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Environment and Society

SOCY 4030 (3) Sociology of Climate Change
Examines the human drivers and causes of climate change, the health and security risks it creates and the efforts of societies to mitigate and adapt to its effects.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 4030
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Environment and Society

SOCY 4031 (3) Social Psychology
Studies individuals in social context. Reviews philosophical and sociological treatments of the relation between the individual and society. More specific topics include the socialization process,theories of human development and personality formation, language acquisition, conformity, aggression, sex differences in personality and gender identity, and the relation between attitudes and overt behavior.
Requisites: Requires a prerequisite course of SOCY 3001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 4037 (3) Hazards, Disasters and Society
Explores the societal dimensions of hazards and disasters, emphasizing disaster theory and research, and key issues in the sociological study of disasters, social vulnerability, and the impacts of disasters in the U.S. and worldwide.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 5037
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Environment and Society

SOCY 4042 (3) Economic Sociology
Defines relationship between economy and society; sociological approach to study of economic activity and organization; difference from the theoretical and methodological assumptions orienting the discipline of economics; tackles these questions in two ways: studies foundations as established in works of Smith, Marx, Weber, Polanyi, and Schumpeter, and considers current research in economic sociology, focusing on concepts of markets, networks, and embeddedness.
Requisites: Requires a prerequisite course of SOCY 1001 (minimum grade D-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue

SOCY 4047 (3) Topics in Environment and Society
Variety of courses taught by visiting and regular faculty. See current departmental announcements for specific content.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Environment and Society

SOCY 4052 (3) Social Inequalities in Health
Focuses on social inequalities in health in both U.S. and international contexts. Reviews the link between health status and various types of social statuses, including but not limited to socioeconomic status, gender, race and ethnicity. Explanations for the relationships between these factors and various health outcomes are discussed. Focuses on multiple levels of analysis, from the physician-patient interactions to health care systems and social policies. Students have the opportunity to develop their own specific research interests in this field.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Population and Health Issue

SOCY 4060 (2) Caring for Others
Enables teachers to earn credit for the MOOC Caring for Society. This 2 credit course is an abbreviated version of the 3 credit course SOCY 4062 Suffering and Care in Society.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 4062
Grading Basis: Letter Grade

SOCY 4062 (3) Suffering and Care in Society
Examines how modern societies understand and respond to the reality of human suffering, how care systems are organized, and the experiences of professional caregivers.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 4060
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue

SOCY 4063 (3) Risk and Resilience in Society
Explores the growing dangers of modern life and the ability of society and its members to recover from epidemics, terrorism, financial disasters, natural catastrophes and other harmful events. Special attention is given to the social (as opposed to the individual) sources of risk and resilience and their implications for the helping professions.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 4071 (3) Social Inequalities and Social Change
Provides a sociological perspective on social inequalities in the United States, such as those pertaining to social class, race, ethnicity, sex, gender, sexuality, and age. Examines current data of patterns and trends of such inequalities, reviews scholarship on their roots, and critically evaluates social change efforts to redress them.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 5071
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 4081 (1-3) Sociology of Education
Analyzes the school as a social organization. Among topics considered are power and control in the school; classroom interaction and its relation to learning and personality development in students; roles of educators; and reciprocal relations of school and community.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 4084 (3) Punishment, Law and Society
Places the current state of punishment in the U.S. in historical and cross national context. Examines key features of penal systems and key sociological theories about the relationship between punishment and society.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4084
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 1001 or SOCY 1004 or SOCY 2044.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 4086 (3) Family and Society
Studies the changing relationship between family and social structure. Examines variations in family organization and considers political, social, ideological, demographic, and economic determinants of family formation.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4086
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 3001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sex and Gender

SOCY 4104 (3) The Death Penalty in America
Examines the historical and international use of capital punishment, and then focuses on its use and status in the United States in this century, with a special look at Colorado. Critically examines the arguments for and against capital punishment. The inmates on death row and their families will be examined, as well as the needs of families of homicide victims.
Requisites: Requires a prerequisite course of SOCY 4014 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 4117 (3) Food and Society
Examines the food system along the lines of social justice and environmental sustainability. Investigates the institutional and cultural supports of major food system problems and contemporary efforts to address those problems, including the realms of food production, processing, distribution, marketing, policy, regulation, consumption, and activism.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Environment and Society

SOCY 4121 (3) Sociology of Religion
Examines complex interactions between religious and other social structures, such as the economy, government, and the family, and how globalization is affecting religious traditions across the globe. Includes discussion of how various religions are used or misused to justify terrorism and other acts of violence.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 3001.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 4131 (1-3) Advanced Topics in Sociology
Variety of advanced specialty courses taught by visiting and regular faculty designed for upper division sociology majors. See current departmental announcement for specific content.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of SOCY 1001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 4132 (3) Gender, Islam and Modernity
Examines gender in contemporary Muslim societies, with emphasis on Asia and the Middle East. Explores issues such as veiling, feminism, sexuality, family, women's participation in politics and social movements.
Requisites: Requires prerequisite course of SOCY 1001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

SOCY 4141 (3) The Social Psychology of Friendships
Studies friendships between individuals and groups, applying social psychological theories of interaction and group processes. Examines the effects of hierarchies of status and power and of norms and social pressure on friendships. Attempts to answer questions like how social categories like gender, race, and class affect friendships, what are the unwritten rules of behavior among friends in different situations, and what happens when we violate them.
Requisites: Requires a prerequisite course of SOCY 1001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: General Sociology

SOCY 4160 (3) Designing Social Innovations
One of the goals of higher education is to nurture innovative thinking and prepare professionals to solve society¿s most complex and pressing problems. Towards that end, this course reviews academic and practitioner literatures on the processes involved in designing social innovations.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 5160
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

SOCY 4161 (3) Executing Social Innovations
Introduces students to the skills and strategies involved in developing a business plan for a social business or an organization wanting to increase its social impact.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

SOCY 4441 (3) Senior Honors Seminar 1
Helps students design and initiate an honors thesis based on original sociological research.
Requisites: Requires prerequisite courses of SOCY 3001 and SOCY 3301 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sciences Honors Course Departmental Category: General Sociology

SOCY 4451 (3) Senior Honors Seminar 2
Helps students complete an honors thesis based on original sociological research. Emphasizes analyzing data, writing research reports, and presenting results.
Requisites: Requires prerequisite courses of SOCY 3001 and SOCY 3201 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sciences Honors Course Departmental Category: General Sociology

SOCY 4841 (1-8) Independent Study in Sociology
Upper-division variable credit. Instructor consent required.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of SOCY 3001 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Departmental Category: General Sociology

SOCY 4911 (1-3) Teaching Sociology
Students participate in a teaching seminar under the supervision of a faculty member. Includes pedagogical strategies for implementing concrete educational goals and encouraging higher levels of creativity and analysis in a large, lower-division class. Emphasizes mentorship and personal development. Instructor consent required.
Requisites: Requires a prerequisite course of SOCY 1001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Departmental Category: General Sociology

SOCY 4923 (3-6) Animals and Society Certificate Internship
Offers students applied learning opportunities to explore interests and clarify career goals associated with animal welfare. Students apply theory, acquire new skills, gain experience, and network with professionals. Internships integrate theory, knowledge, and practice through planned, supervised work experience.
Recommended: Prerequisite SOCY 4017 Animals and Society.
Grading Basis: Letter Grade

SOCY 4931 (1-6) Internship in Sociology
Provides an academically supervised opportunity for junior and senior sociology majors to work in public or private organizations to gain practical knowledge and experience, and allows students to make a connection between sociological theory and the "real world". Instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires a prerequisite course of SOCY 3001 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Departmental Category: General Sociology

SOCY 4932 (3) Internship in Care, Health and Resilience
Provides an academically supervised opportunity for juniors and seniors interested in the helping professions to work in a job that provides them valuable hands-on experience, allows them to apply insights learned in their formal coursework and helps them make informed career choices upon graduation. This course cannot be applied to the SOCY major or minor requirements.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: Population and Health Issue

SOCY 4935 (3) Internship in Social Innovation
Provides an academically supervised opportunity for juniors and seniors interested in social innovation to work in a job that provides them valuable hands-on experience, allows them to apply insights learned in their formal coursework and helps them make informed career choices upon graduation. This course cannot be applied to the SOCY major or minor requirements.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors) with a minimum GPA of 2.0.

SOCY 5031 (3) Research Design
Principles and practice of quantitative sociological research, including the nature of scientific explanation, the relationship between theory and research, research design, measurement issues, sampling, questionnaire construction, and statistical analyses. A key aspect of the course will be developing a quantitative research proposal that addresses a key empirical sociological question.
Additional Information: Departmental Category: General Sociology

SOCY 5037 (3) Hazards, Disasters and Society
Explores the societal dimensions of hazards and disasters, emphasizing disaster theory and research, and key issues in the sociological study of disasters, social vulnerability, and the impacts of disasters in the U.S. and worldwide.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 4037
Additional Information: Departmental Category: Environment and Society

SOCY 5071 (3) Social Inequalities and Social Change
Provides a sociological perspective on social inequalities in the United States, such as those pertaining to social class, race, ethnicity, sex, gender, sexuality, and age. Examines current data of patterns and trends of such inequalities, reviews scholarship on their roots, and critically evaluates social change efforts to redress them.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 4071
Additional Information: Departmental Category: General Sociology

SOCY 5111 (3) Statistics 1: Introduction to Social Statistics
Introduces statistical analysis in the social sciences. Introduces basic techniques of inferential statistics and several bivariate statistical techniques including t-test for the difference in means, chi-square independence, analysis of variance (ANOVA), correlation, and simple regression (OLS). Prepares students for the required course on multivariate regression techniques (Data 2).
Requisites: Restricted to Sociology (SOCY) graduate students only.
Additional Information: Departmental Category: General Sociology

SOCY 5160 (3) Designing Social Innovations
One of the goals of higher education is to nurture innovative thinking and prepare professionals to solve society¿s most complex and pressing problems. Towards that end, this course reviews academic and practitioner literatures on the processes involved in designing social innovations.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 4160
Requisites: Restricted to graduate students only.

SOCY 5181 (3) Logics of Qualitative Inquiry
A required first-year seminar that introduces the logics of qualitative inquiry in sociology. Introduces the history of qualitative epistemology. Considers the logic of common qualitative methodologies and qualitative research representations. Engages with the logics of inquiry in classic and more recent well regarded qualitative sociological works.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: General Sociology

SOCY 5201 (3) Graduate Seminar in Sociological Theory
Examines theoretical approaches to core issues and problems in sociology, including the nature of society, the relationship between society and the individual, the role of culture and social structure, the sources of social power, and the conceptual structure of sociological knowledge itself.
Requisites: Restricted to Sociology (SOCY) graduate students only.
Additional Information: Departmental Category: General Sociology

SOCY 5202 (3) Graduate Seminar in Contemporary Theory
Examines selected sociological theories considered contemporary, including but not limited to cultural sociology, feminist theory, postcolonial thought, actor-network theory, microsociology, field theory, and poststructuralism. Discusses the formation of a sociological canon and the challenge of categorizing theory. Considers the process of theorizing as an acquired skill. Previously offered as a special topics course.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

SOCY 5350 (3) Comparison, Narrative, Meaning, and Method in Historical Sociology
Examines the comparative, narrative, and interpretive methods historical sociologists use when investigating temporally unfolding social processes occurring in the recent or distant past. Through an introduction to the methodological literature and a close reading of exemplary historical research, students will learn to (a) critically evaluate historical sociological research and (b) design methodologically sophisticated historical research projects that address questions that most interest them, potentially incorporating ethnographic and/or quantitative methods into their research designs. Previously offered as a special topics course.
Requisites: Restricted to graduate students only.

SOCY 5611 (3) Teaching in Sociology
Learn how to teach sociology more effectively while developing a new content area and a clearer sense of the field. Choose a content area within sociology as the basis for planning a course and developing and practicing different teaching techniques. Department enforced prerequisite: enrollment in the Sociology graduate program.
Additional Information: Departmental Category: General Sociology

SOCY 5750 (3) Climate Politics and Science-Policy
Explores, understands and critically analyzes influences and trends in climate politics and science-policy. Course participants will gain an improved understanding of the myriad factors, pressures and processes that are involved in contemporary climate politics under-girding explicit policy proposals. Course participants will more capably identify consequential spaces of decision-making, recognize tractable places for change and fashion constructive strategies for their own research by way of best available evidence from work done in these areas. Overall, our attention to these course themes, concepts and case studies will help us to more capably understand, analyze and engage in the high-stakes 21st century arena of climate politics and science-policy. Previously offered as a special topics course.
Equivalent - Duplicate Degree Credit Not Granted: ENVM 5750, GEOG 5750 and ENVS 5750
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

SOCY 5839 (3) Logics of Social Inquiry
How do we make knowledge about the social world? This question encompasses at least two other sets of questions: epistemological questions about how we come to know things, and practical questions about how we go about answering questions once formulated. To develop a sociological imagination around these inquiries, this course exposes first-year sociology graduate students to different types of inquiries sociologists make and discusses the underlying logics of those inquiries. This course is not a survey of research methods, nor is it designed to train students in particular methods ¿ although students will learn about a range of approaches ¿ from ethnographic to survey to experimental. Instead, the course will expose students to different logics of discovery, the menu of sociological techniques, and how to assess the fit between question and method.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

SOCY 5841 (1-6) Independent Study in Sociology
Graduate variable credit. Instructor consent required.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: General Sociology

SOCY 5937 (1-6) Graduate Research Internship in Environmental Sociology
Offers the opportunity for sociology graduate students specializing in environmental sociology to work with local governmental or non-profit organizations on research assignments. The research topic, academic reading list, and expectations for the final project will be developed collaboratively with a faculty sponsor and organizational representative.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Environment and Society

SOCY 6004 (3) Topics in Criminology
Variety of courses in criminology to be taught by visiting lecturers. See current departmental announcements for specific content.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Deviance and Criminology

SOCY 6007 (3) Foundations of Environmental Sociology
Provides overview of environmental sociological theory and research including topics such as: public environmental perception, concern, and knowledge; environmentalism as a social movement; environmental justice; energy, technology, and risk; human dimensions of environmental change; and natural hazards and disasters.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 6007
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Environment and Society

SOCY 6012 (3) Population Issues, Problems, and Policies
Presents contemporary perspectives on relations between population and society. Focuses on mortality, fertility, and migration, the major demographic areas, with reviews of specific demographic phenomena and controversies.
Additional Information: Departmental Category: Population and Health Issue

SOCY 6016 (3) Topics in Sex and Gender
Covers diverse specializations of faculty in the area of sex and gender. See current departmental announcements or online Schedule Planner for specific content.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Sex and Gender

SOCY 6017 (3) Inequality, Democracy, and the Environment
Focuses on the structural forces affecting environmental degradation and environmental behavior by examining the relationships between a) inequality and democratic decision making and b) undemocratic economic and political decision making, U.S. and corporate food and energy policy; and global environmental degradation. Focus will also be placed on the role that global inequality plays in fostering environmental degradation.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Environment and Society

SOCY 6041 (3) Cultural Sociology
Explores "the cultural turn" in sociology and related disciplines. Reviews basic themes in cultural studies: distinguishing "cultural" and "social"; narrative as catalyst between symbols and practices; cultural production processes; self as embodied; culture and power; methods and epistemological issues. Students present their own projects in class and as research papers.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: General Sociology

SOCY 6111 (3) Stats 2: Statistic Analysis
Introduces students to mainstream multivariate regression techniques used in the social sciences. The majority of the course focuses on the Ordinary Least Square model and on the extension of this model to nominal, ordinal and count dependent variables. Students analyze data of their choosing with statistical software packages including SPSS, SAS, and STATA. Department prerequisite: SOCY 5111 or equivalent.
Requisites: Restricted to Sociology (SOCY) graduate students only.
Additional Information: Departmental Category: General Sociology

SOCY 6121 (3) Qualitative Methods
Training in the systematic observation of people in situations, finding them where they are, staying with them in a role acceptable to them that allows intimate observations of behavior. Students report their findings in ways useful to social science but not harmful to those observed.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: General Sociology

SOCY 6821 (1-2) Graduate Sociology Forum 1
Introduces first-year graduate students to the full range of substantive topics, research programs, and other projects in which graduate sociology faculty are engaged. Provides a forum in which issues of the discipline are presented and discussed. Features weekly presentations by graduate sociology faculty.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: General Sociology

SOCY 6831 (1) Graduate Professional Seminar
Offers guidance and instruction on topics related to advanced graduate study and academic life beyond graduation. Discussions will include writing journal articles; creating a vitae; writing dissertations; applying for grants and other sources of funding; the academic job search; and what to expect as a junior faculty member.
Repeatable: Repeatable for up to 2.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: General Sociology

SOCY 6841 (1-6) Guided Research in Sociology
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: General Sociology

SOCY 6851 (2) Interdisciplinary Social Science Professional Socialization
Trains graduate students and provides professional socialization in interdisciplinary social science research. Open to all interested students, with programming provided by the Institute of Behavioral Science. Sessions include IBS-housed colloquia and workshops in professional socialization, technological tools, interdisciplinary research, ethics, grant writing, etc. Students workshop and submit a research paper.
Equivalent - Duplicate Degree Credit Not Granted: PSYC 6831 and PSCI 6851
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: General Sociology

SOCY 6861 (1-2) Interdisciplinary Training in the Social Sciences Methods Course
This is a new course number for a series of interdisciplinary graduate methods seminars created as part of the new Interdisciplinary Training in the Social Sciences program, which is co-funded by the Graduate School and the College of Arts and Sciences. These courses, which have rotating topics, train graduate students in qualitative and quantitative methods. CARTSS/IBS will arrange three one-credit advanced methods mini-courses each Spring semester. The mini-courses will be taught weekly (two hours per week) for five weeks. The courses will change each spring; topics include a wide variety of advanced statistical analysis methods, machine learning for social sciences, text analysis, experimental techniques, network analysis, survey design, interview protocols, etc. Open to all interested graduate students, with programming provided jointly by the Institute of Behavioral Science (IBS) and the Center to Advance Research and Teaching in the Social Sciences (CARTSS).
Equivalent - Duplicate Degree Credit Not Granted: LING 6861
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade

SOCY 6941 (1) Master's Candidate for Degree
Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: General Sociology

SOCY 6951 (1-6) Master's Thesis
Additional Information: Departmental Category: General Sociology

SOCY 7002 (3) Social Disparities in Health
Presents social disparities in health in their social context. Includes the sociology of health behavior; links between health status and social statuses including gender, race, ethnicity, and socioeconomic status; fundamental causes and other explanations for social disparities in health; environment and health; health insurance disparities; the physician-patient interaction and its consequences.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Population and Health Issue

SOCY 7004 (3) Criminological Theory
Examines the major criminological theories of the 18th through 21st centuries in Europe, Australia, and the U.S. Emphasizes the historical contexts and paradigms of knowledge influencing these theories.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Deviance and Criminology

SOCY 7006 (3) Sociology of Sex and Gender
Theoretical and empirical examination of sex stratification, sex role differentiation, and sex differences in socialization, personality, institutions, and culture.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Sex and Gender

SOCY 7007 (3) Political Sociology
This course is a graduate-level introduction to the field of political sociology, with a particular concentration on the Weberian, Marxist, and other critical traditions. The course deals with the relationship between state and society, the nature of power, the role of ideology, and the mechanisms of social transformation.

SOCY 7008 (3) Race and Ethnicity
The study of race and ethnicity is a core component of sociology. The field has two central concerns that are understanding the nature and persistence of racial/ethnic categories and documenting how these categories relate to systems of social stratification as well as political and economic dynamics. This graduate-level seminar will examine the major theoretical, substantive, and methodological issues surrounding these core concerns from a sociological perspective.

SOCY 7012 (3) The Social Demography of Race
Introduction to relevant, timely research within sociological and social demographic research on race and ethnicity. Specific areas will include conceptual/measurement issues; population size, growth, and migration; health and mortality; marriage, family, and fertility; socioeconomic context; and policy considerations. Course content will be structured around current empirical pieces in sociology literature with emphasis on methodological approach in analyses.
Additional Information: Departmental Category: Population and Health Issue

SOCY 7014 (3) Gender, Race, Class, and Crime
Examines crime and the criminal legal system practices through the lens of intersecting oppressions, particularly racism, sexism, heterosexism and classism.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 6014
Additional Information: Departmental Category: Deviance and Criminology

SOCY 7017 (3) Population and Environment
Reviews research on human-environment interactions, with a focus on ways in which demographic processes influence, and are influenced by, the environmental context. Specific topics include conceptual and analytical frameworks; methodologies; intervening factors shaping human dimensions of environmental change; and regionally-focused research.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Environment and Society

SOCY 7024 (3) Punishment and Social Control
Exploration of sociological perspectives on the criminal justice process. Considers organization of criminal law responses, including enforcing and sentencing. Race, class, gender, and age differences in treatment and sentencing are analyzed.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Deviance and Criminology

SOCY 7026 (3) Feminist Research Methods
Epistemological and methodological issues generated by feminist research and students' own projects.
Additional Information: Departmental Category: Sex and Gender

SOCY 7034 (3) Capital Punishment in the United States
Surveys the history and current status of capital punishment in the United States, with a critical examination of arguments both for and against the death penalty.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Deviance and Criminology

SOCY 7036 (3) Feminist Theory
Examines the main schools of feminist thought and their impact upon sociological theories. Also examines current feminist theoretical debates and their relevance to feminist sociology.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Sex and Gender

SOCY 7111 (3) Data III--Advanced Data Analysis
Denotes third graduate course in sequence of quantitative methods. Following basic inferential statistics (SOCY 5111) and multivariate regression analysis (SOCY 6111), students study advanced statistical techniques such as event history analysis, multilevel modeling, structural equation modeling, and latent class analysis.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires a prerequisite course of SOCY 6111 (minimum grade D-). Restricted to graduate students only.
Additional Information: Departmental Category: General Sociology

SOCY 7121 (3) Qualitative Analysis
Drawing on data gathered through participation, observation and in-depth interviewing, students focus on developing theoretical analyses and exploring classical and post-modern ethnographic writing formats. Students present and revise their papers as well as review journal articles. Department enforced prerequisite: SOCY 6121.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: General Sociology

SOCY 7131 (3) Seminar in Social Psychology
Studies the individual in social context. Focuses on theoretical perspectives and substantive issues specific to sociological and social psychology, including socialization, the self, social roles, language, deviance, gender, collective behavior, group processes, attitudes and behavior, social norms,and conformity.
Additional Information: Departmental Category: General Sociology

SOCY 7141 (3) Third-year Paper Seminar
Guides graduate students through the creation of the required third-year paper and helps establish productive writing habits. Includes assigned readings, discussion, peer review, and specific tasks related to scholarly writing. Students will revise and defend the paper during the semester following the seminar. Department enforced prereqs., SOCY 5111 and SOCY 5201.
Requisites: Restricted to Sociology (SOCY) graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: General Sociology

SOCY 7171 (3) Special Topics
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: General Sociology

SOCY 8991 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 30.00 total credit hours.
Additional Information: Departmental Category: General Sociology

Spanish (SPAN)

Courses

SPAN 1000 (3) Cultural Difference through Hispanic Literature
For freshmen only. Organized around the general topic of cultural differences. Focuses on a related issue such as gender or history articulated in the literature of Spain, Latin America, and the Hispanic United States. Taught in English; students read selected literary texts in English from the various traditions. Does not count towards the Spanish major.
Requisites: Restricted to students with 0-26 credits (Freshmen) only.
Additional Information: GT Pathways: GT-AH2 - Arts Hum: Lit Humanities
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 1010 (5) Beginning Spanish 1
A beginning course that assumes no prior knowledge or experience with Spanish. A variety of language-teaching approaches are used to help students develop all four basic language skills: listening, speaking, reading and writing.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 1150
Additional Information: Departmental Category: Spanish

SPAN 1020 (5) Beginning Spanish 2
Continuation of SPAN 1010. Department enforced prerequisite: SPAN 1010 (min. grade C-).
Equivalent - Duplicate Degree Credit Not Granted: SPAN 1150
Additional Information: Departmental Category: Spanish

SPAN 1150 (5) Intensive First Year Spanish
An intensive beginning course covering the same material as SPAN 1010 and 1020.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 1010 or SPAN 1020
Additional Information: Departmental Category: Spanish

SPAN 2110 (3) Second-Year Spanish 1
Grammar review. Emphasizes reading, writing, and speaking skills.
Department enforced prerequisite: SPAN 1020 (min. grade C-).
Equivalent - Duplicate Degree Credit Not Granted: SPAN 2150
Additional Information: GT Pathways: GT-AH4 - Arts Hum: Foreign Languages
Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Foreign Language
Departmental Category: Spanish

SPAN 2120 (3) Second-Year Spanish 2
Grammar review. Emphasizes reading, writing and speaking skills.
Department enforced prerequisite: SPAN 2110 (min. grade C-).
Equivalent - Duplicate Degree Credit Not Granted: SPAN 2150
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 2130 (3) Spanish for Heritage Speakers in the United States I
Designed to further the linguistic skills and repertoires of students who grew up hearing and/or speaking Spanish at home and/or in their communities. This course aims to support students¿ bilingual and biliteracy development, build students¿ confidence in using their language skills across personal and professional Spanish-speaking settings in the United States and beyond, and recognize the value of their linguistic and cultural backgrounds. This is the first of a two-course sequence.
Requisites: Requires prerequisite of SPAN 1020.
Recommended: Prerequisites Students must have experience in a Spanish-speaking or bilingual household, community, or environment (Spanish-speaking family members, dual immersion, extended stay in a Spanish-speaking country); and Students must score between 23-27 on the Placement Exam in Canvas.

SPAN 2140 (3) Spanish for Heritage Speakers in the United States II
Designed to further the linguistic skills and repertoires of students who grew up hearing and/or speaking Spanish at home and/or in their communities. This course aims to further students¿ bilingual and biliteracy skills developed in SPAN 2130 so that they may meet the demands of personal and professional Spanish-speaking settings locally and beyond, and recognize the value of their linguistic and cultural backgrounds. This is the second of a two-course sequence.
Requisites: Requires prerequisite of SPAN 1020.
Recommended: Prerequisites Students must have experience in a Spanish-speaking or bilingual household, community, or environment (Spanish-speaking family members, dual immersion, extended stay in a Spanish-speaking country); and Students must score at least a 28 on the Placement Exam in Canvas.

SPAN 2150 (5) Intensive Second-Year Spanish
Intensive review of grammar and other subjects covered in SPAN 2110 and SPAN 2120.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 2110 or SPAN 2120
Requisites: Requires prerequisite course of SPAN 1020 (minimum grade C-).
Additional Information: GT Pathways: GT-AH4 - Arts Hum: Foreign Languages
Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: Spanish

SPAN 2450 (3) Catalan for Spanish Speakers
Offers an intensive introduction to the Catalan language for those able to speak Spanish. By the end of the course students should be able to communicate well in all language-skills areas: listening comprehension, speaking, reading and writing. Students will also have gained a better understanding and appreciation of the singularity of Catalan.
Recommended: Prerequisite SPAN 3000 or placement or five semesters of college Spanish or department consent required.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3000 (5) Advanced Spanish Language Skills
Moves students beyond the intermediate level toward an advanced command of Spanish with a focus on communication appropriate for academic research and professional interactions. Course activities focus on solidifying and deepening interpretive, interpersonal and presentational communication skills through close exploration of authentic texts and media and creation of both formal and informal writing and oral presentations. The course prepares students for continued study of literature, art, history, linguistics, culture, business, medical and other professional topics in Spanish. SPAN 3000 is one of the prerequisites for all upper-division Spanish courses except SPAN 3001.
Requisites: Requires prerequisite course of SPAN 2120 or SPAN 2150 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3001 (3) Spanish Conversation
Emphasizes vocabulary acquisition and speaking fluency. This is an intermediate-level course intended for those who are learning Spanish as a second-language. Native speakers of Spanish who have pursued formal education in a Spanish speaking country will not be admitted to the course. Heritage speakers of Spanish (native speakers who have pursued formal education in a non-Spanish speaking setting) as well as students from bi-lingual K-12 programs must meet with the coordinator to determine appropriate class level. This is a 5th semester course offered at the same level as SPAN 3000. It is not part of a sequence and it does not serve as a prerequisite for any other course. This course does not count toward the Spanish major or minor.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 3002
Requisites: Requires prerequisite course of SPAN 2120 or SPAN 2150 (minimum grade C-).
Additional Information: Departmental Category: Spanish

SPAN 3002 (3) Advanced Spanish Conversation
Focuses on refining fluency in both informal and formal discourse through group discussions, class work and individual and group presentations in order to prepare students for communication in professional settings. To that end, the materials used in the course will emphasize themes and problems relevant to the contemporary Hispanic world. This course is designed for Spanish majors, minors and students seeking state certification as instructors of Spanish.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 3001
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3010 (3) Advanced Rhetoric and Composition
Designed to refine expository and argumentative writing in Spanish, this course will center around four main areas of study: culture, linguistics, sociopolitical and economic reality, and literature and criticism. A multi-draft process-based approach will guide the writing and revision of essays. Additionally, there will be a focus on grammar and lexical issues that are the most challenging for students at the third-year level.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Written Communication-Upper
Departmental Category: Spanish

SPAN 3030 (3) Professional Spanish for Business 1
Develops advanced Spanish-language skills, trans-cultural knowledge, and regional, historical, and sociocultural understanding in order to expand the critical apparatus necessary for pursuing business-related professions in the Spanish-speaking world. Includes the study of essential business terminology and documents.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3040 (3) Professional Spanish for Business 2
Complements SPAN 3030 with a focus on different business topics and countries. Emphasizes interpreting and elementary translation. Attention is given to the writing of resumes and application letters, as well s the entire job search process.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3050 (3) Spanish Phonology and Phonetics
Designed to teach some of the methods, techniques, and tools of descriptive linguistics as they apply to articulatory phonetics. Students analyze important contrasts between sounds of Spanish and English bymeans of phonetic transcription.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Spanish

SPAN 3060 (3) Spanish for Careers in Environmental Studies and Sustainable Development
Provides advanced Spanish language competency and transcultural knowledge of issues pertaining to the environment, energy and sustainable development in the Spanish-speaking world. Students will develop a critical apparatus for analyzing, reading, listening, speaking and writing about the social, cultural and economic parameters of these countries and the U.S.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3070 (3) Spanish 21st Century Media Professions
Develops advanced Spanish language skills, trans-cultural knowledge and regional and historical understanding necessary for using Spanish in media related professions. Examines the production, representations and cultural meaning of Hispanic and Latino media within the United States and globally, drawing on films, videos and readings in political economy, cultural studies, history and sociology. Students create five media products in Spanish.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3080 (3) Spanish Health Professions
Develops advanced Spanish language competency and trans-cultural knowledge and skills for health related contexts both in the United States and abroad in order to develop a critical apparatus for analyzing, reading, listening, speaking and writing about health and understanding health fields in historical and sociocultural contexts of the Spanish speaking world.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3100 (3) Literary and Cultural Analysis in Spanish
Fosters critical thinking and the ability to discuss texts from a historical, sociological, ideological and formalistic viewpoint. Analyzes literary and cultural expressions from Latin America, Spain and the US Latino traditions in different genres, ranging from fiction to poetry, and media from the written word to cinema and other visual arts.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3120 (3) Advanced Spanish Grammar
Develops a deeper understanding of grammatical features of Spanish. Advancement of Spanish language skills and development of metalinguistic awareness is achieved through examination of grammar usage in both texts and spontaneous speech productions within communities.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3150 (3) Linguistic Analysis of Spanish
Introduces students to fundamental areas of linguistic analysis with special attention paid to Spanish (and Portuguese). The structural systems of language will be introduced (principles of sound patterns, word formation, meaning, and sentence structure). Different types of language variation will be discussed (historical, social, regional).
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Spanish

SPAN 3200 (3) Spanish Culture
Examines historical bases of modern Spain's cultural and political currents. Department enforced prerequisite: SPAN 3000.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3215 (3) Urban History and Culture in the Spanish-Speaking World
Understanding the complex history, social fabric, material life and cultural diversity of Latin American and Iberian cities is the goal of this course, which in its iterations will be devoted to analyzing and discussing different urban centers on either side of the Atlantic Ocean. Materials from a wide variety of media and genres such as literature, visual arts, historiography, and film, will be used. Taught in Spanish.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3220 (3) Latin American Culture: Spanish America and Brazil
Examines literary, artistic, and philosophical currents in Spanish America and Portuguese America (Brazil), from pre-Columbian times to the present.
Equivalent - Duplicate Degree Credit Not Granted: PORT 3220
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3230 (3) Discovering Barcelona: Culture and Heritage
Presents more than 2,000 years of Barcelona's cultural heritage in the city of Barcelona from the Romans to the present. Students read works by locals and foreign authors to understand how the city has been a hub of the European and Mediterranean cultures for centuries. A faculty sponsored Global Seminar to Barcelona, Spain, offered through the Study Abroad Program.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3240 (3) Catalan Culture 1: Nation and Art
Introduces students to the literary, artistic and historical currents of Catalonia, an economically vibrant area of the Iberian Peninsula with 10 million people, its capital Barcelona, and a distinct culture and language. Examines national identity and major works from renowned Catalan artists, spanning architecture, painting and literature, like Dali, Gaudi, or Miro. Department enforced prerequisite: SPAN 3000.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3250 (3) Catalan Culture 2: Contemporary Trends and Barcelona
Introduces students to the contemporary social and cultural trends of Catalonia, primarily in its capital of Barcelona. Examines current developments in fields such as theatre, art, fashion, cooking, urban design and/or architecture.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3260 (3) Late 19th and 20th Century Argentine Narrative
Considers a series of late 19th and 20th century canonical works from several genres (poetry, short story, essay, and the novel). Students will acquire a specific knowledge of late 19th and 20th century Argentine literature, and its relationship to specific social actors and specific historical processes. A faculty-sponsored Global Seminar to Rosario, Argentina, offered through the Study Abroad Program.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3270 (3) Barcelona: Understanding Local and Immigrant Cultures
Explores the history of Barcelona from an interdisciplinary, European perspective that emphasizes the city's cultural diversity and pluralism. A range of historical, literary, artistic, and sociological texts will be examined. Taught in Spanish. Offered through the Study Abroad Program.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Spanish

SPAN 3280 (3) Introduction to Catalan Literature & Film
Introduces students to the rich and diverse literary and film traditions of Catalonia, an economically vibrant area of the Iberian Peninsula with 10 million people and a distinct culture and language. Taught in Spanish.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3290 (3) Argentine Culture and History in a Latin American Context
This course examines the historical trends in Latin America from 1880 to the present and compares and contrasts Argentina's unique cultural identity to the larger Latin American context. The course then considers how said history plays a role in the literary, artistic, philosophical and social currents (including identity issues related to race, ethnicity and gender) that shape contemporary Argentine culture.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

SPAN 3310 (3) 20th Century Spanish Literature
Surveys leading writers of Spain from 1898 until the present.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3340 (3) 20th Century Spanish American Literature
Introduces contemporary Spanish American literature.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3700 (3) Selected Readings: Spanish Literature in Translation
Introduces selected Spanish literature masterpieces. Taught in English. Does not count toward requirements for Spanish major or minor.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3800 (3) Selected Readings: Latin American Literature in Translation
Introduces selected Latin American (Spanish and Portuguese) literature masterpieces. Taught in English. Does not count toward requirements for the Spanish major or minor.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3900 (3) Cosmos Latinos: Hispanic Science Fiction and New Worlds
Examines how Hispanic science fiction (from both Spain and Latin America) in literature and film portrays and addresses topics such as technological development, the exploration (and exploitation) of space, life in on other planets, alternative paradigms of modernity, and the cultural and social landscape of technologically saturated societies. Course taught in English. Does not count towards the requirements for the Spanish major or minor.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

SPAN 4060 (3) Problems of Translation for Professions in Spanish 1
Develops skills in English-Spanish and Spanish-English translation and interpretation.
Requisites: Requires a prerequisite course of SPAN 3000 and SPAN 3010 or SPAN 3030 or SPAN 3040 or SPAN 3060 or SPAN 3070 or SPAN 3080 or SPAN 3120 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4070 (3) Problems of Translation for Professions in Spanish 2
Presents documents from different professional areas (business, health, media and environmental studies and sustainable development) which are studied, prepared, translated and discussed in context in order to enable students to perform successfully in real translation situations.
Requisites: Requires a prerequisite course of SPAN 3000 and SPAN 3010 or SPAN 3030 or SPAN 3040 or SPAN 3060 or SPAN 3070 or SPAN 3080 or SPAN 3120 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4110 (3) Hispanic Women Writers
Discusses the image of women in Spanish literature through the centuries using works by representative female writers.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4120 (3) Literature and Cinema in Spain and Latin America
Studies film and fiction in different periods and about main topics of the Hispanic world. It will provide a historical and cultural overview, introduce students to film theory, narrative theory and the vocabulary associated with both, and integrate critical texts about all the material studied. Topics may vary each semester. This course will be taught entirely in Spanish.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4130 (3) The Power of Storytelling: Oral, Textual and Digital Narratives
Examines the ways in which oral, textual and digital narratives have shaped, and continue to shape, our lives and the different communities we inhabit. Students consider stories from the Hispanic tradition produced in a variety of historical settings and across different media.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4150 (3) Major Works and Trends in Literature and Culture in Spain Up to 1700
Examines major works and trends in literature, visual arts and/or other cultural expressions of Spain from its origins to the end of the Baroque period,
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4160 (3) Major Works and Trends in Literature and Culture in Spain: 1700-Present
Examines major works and trends in literature, visual arts and/or other cultural expressions of Spain from 1700 to the present day.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4170 (3) Major Works/Trends in Literature and Culture in Latin America Up to the 19th Century
Examines major works and trends in literature, visual arts and/or other cultural expressions of Latin America from the colonial period to the end of the 19th century.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4180 (3) Major Works and Trends in Literature and Culture in Latin America: 1900-Present
Examines major works of literature, visual arts and/or other cultural expressions of Latin America from the beginning of the 20th century to the present day.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4215 (3) Spanish in the United States
Describes the linguistic characteristics of U.S. Spanish, Spanish-English bilingualism and direct contact, including the study of borrowing, code switching, phonological and grammatical convergence, leveling, accommodation and attrition, among other linguistic phenomena. Discusses the relationships between language and identity, as well as the role of Spanish in U.S. education, media and social institutions.
Requisites: Requires a prerequisite course of SPAN 3000 or SPAN 3010 or SPAN 3050 or SPAN 3120 or SPAN 3150 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4220 (3) Special Topics in Spanish and/or Spanish American Literature
Examines intensively particular topics or issues concerning Spanish and/or Spanish American literature selected by the instructor.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4230 (3) Special Topics in Luso-Brazilian and/or African Literature
Designed to examine intensively particular topics or issues concerning the literatures of Portugal, Brazil and/or the African countries of Portuguese colonization. Taught in Spanish.
Equivalent - Duplicate Degree Credit Not Granted: PORT 4230
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of PORT 3230 and SPAN 3100 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4430 (3) Special Topics in Hispanic Linguistics
Examines intensively particular topics or issues concerning Hispanic linguistics selected by the instructor.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires a prerequisite course of SPAN 3000 or SPAN 3010 or SPAN 3050 or SPAN 3120 or SPAN 3150 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Spanish

SPAN 4450 (3) Introduction to Hispanic Linguistics
Introduces students to the main areas of inquiry within the field of Hispanic linguistics. Topics to be covered include speech and language, phonetics and phonology, morphology and syntax, semantics, linguistic change and variation and Spanish spoken in the United States.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 5450
Requisites: Requires a prerequisite course of SPAN 3000 or SPAN 3010 or SPAN 3050 or SPAN 3120 or SPAN 3150 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Spanish

SPAN 4620 (3) Cervantes
Works of Cervantes.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4650 (3) Methods of Teaching Spanish
Familiarizes students with second-language acquisition theories and current methodology and techniques in foreign-language teaching. The opportunities to observe Spanish classes, teach mini-lessons and perform volunteer work 2 hours a week in a local school or language program provide students with real-world teaching experience.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 5650
Requisites: Requires a prerequisite course of SPAN 3000 and SPAN 3010 and SPAN 3002 or SPAN 3030 or SPAN 3040 or SPAN 3050 or SPAN 3150 or SPAN 3200 or SPAN 3220 or SPAN 3240 or SPAN 3250 or SPAN 3280 or SPAN 3310 or SPAN 3340 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4660 (6) High School Spanish Teaching
Part of supervised secondary school teaching required for state certification to teach Spanish. These hours do not count toward student hours in the major nor in the total departmental hours allowed.
Requisites: Requires prerequisite course of SPAN 4650 or SPAN 5650 (minimum grade D-).
Additional Information: Departmental Category: Spanish

SPAN 4840 (1-3) Independent Study
Departmental approval required.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Spanish

SPAN 4930 (1-4) Languages Internship for Professions
Participants interested in public service or management-oriented careers in government or business are able to work as interns in public sector agencies or in private industry, on campus, or abroad.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Recommended: Prerequisites SPAN 3200 and an additional course above SPAN 3000.
Additional Information: Departmental Category: Spanish

SPAN 4980 (1) Methods Language Learn/Pedagogy
Required, intensive mini-course for Teaching Assistants in Spanish and Portuguese. Provides teachers with the opportunity to learn about language-learning theory and pedagogy.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 4990 (3) Spanish Honors Thesis
Recommended restriction: 18 hours of upper-division Spanish, 3.00 GPA overall, and 3.50 GPA in Spanish.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite 18 hours of upper-division Spanish, 3.00 GPA overall, and 3.50 GPA in Spanish.
Additional Information: Arts Sciences Honors Course
Departmental Category: Spanish

SPAN 5120 (3) Seminar: Spanish Literature and/or Spanish American Literature
Selected topics in Spanish and/or Spanish American literature.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 7120
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 5130 (3) Seminar: Critical Approaches to Iberian & Latin American Literatures and Cultures
An introductory study of theoretical approaches and critical analyses related to Iberian and Latin American literatures and cultures, with an emphasis on contemporary trends.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 7130
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 5140 (3) Seminar: Spanish Literature, Medieval Period
Studies medieval works, authors and themes, with consideration of principal influences from other literatures. Reading in Old Spanish.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 7140
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Spanish

SPAN 5200 (3) Seminar: Spanish Literature, Renaissance and Baroque
Treats various topics, as needs and resources dictate. Special attention to developing historical and current theoretical and critical background of each topic. Representative topics might include Renaissance poetry in Spain, Cervantes, Don Quixote and Novelas ejemplares, picaresque novel and the Spanish comedia of the 17th century.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 7200
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 5210 (3) Seminar: Spanish Literature, 18th and/or 19th Centuries
Treats various topics as needs and resources dictate. Gives special attention to developing historical and current theoretical and critical background of each topic. Representative topics might include romantic prose, poetry and theatre, realism and naturalism (prose narrative), 19th century poetry and 19th century theatre.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 7210
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 5220 (3) Seminar: Spanish Literature, 20th and/or 21st Centuries
Treats various topics, as needs and resources dictate. Gives special attention to developing historical and current theoretical and critical background of each topic. Representative topics might include the generation of 1898, poetry of the 20th century, theatre of the 20th century, pre-Civil War novel, and post-Civil War novel.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 7220
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 5300 (3) Seminar: Spanish American Literature, Colonial Period and/or 19th Century
Treats various topics, as needs and resources dictate. Gives special attention to developing historical and current theoretical and critical background of each topic. Representative topics might include pre-Columbian literature, colonial prose and narrative, colonial poetry, romantic novel, the realist and naturalist novel and short story, 19th-century poetry, and gaucho literature.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 7300
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 5320 (3) Seminar: Spanish American Literature, 20th and/or 21st Centuries
Treats various topics, as needs and resources dictate. Gives special attention to developing historical and current theoretical and critical background of each topic. Representative topics might include modernism, theatre, the essay, the regional novel, the novel of the Mexican Revolution, the modern novel, contemporary theatre, and contemporary poetry.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 7320
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 5400 (3) Seminar: Spanish Phonology
Topics within Spanish phonology are treated as needs and resources dictate. Gives special attention to different schools and contemporary theoretical developments. Representative topics might include generative phonology applied to Spanish, Spanish phonology for college teaching and different schools of Spanish phonology.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 7400
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 5410 (3) Seminar: Spanish Syntax
Treats topics within Spanish syntax, each requiring a semester's study, as needs and resources dictate. Gives special attention to different schools and contemporary theoretical developments. Representative topics may include generative/transformational grammar applied to Spanish, fundamental problems in Spanish syntax and different schools of Spanish syntax.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 7410
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 5430 (3) Seminar: Hispanic Linguistics
Studies a major topic from an area such as phonology, syntax, history of the Spanish language, Hispanic linguistics and literature, or applied Hispanic linguistics.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 7430
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 5440 (3) Seminar: Trends in Hispanic Linguistics
Provides an overview of major trends and issues in Hispanic linguistics, including phonology, syntax, dialectology, sociolinguistics, discourse analysis, text linguistics, semiotics, history of the Spanish language, language acquisition and applied linguistics.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 7440
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 5450 (3) Introduction to Hispanic Linguistics
Introduces students to the main areas of inquiry within the field of Hispanic linguistics. Topics to be covered include speech and language, phonetics and phonology, morphology and syntax, semantics, linguistic change and variation and Spanish spoken in the United States.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 4450
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 5650 (3) Methods of Teaching Spanish
Familiarizes students with current methodology and techniques in foreign language teaching. Peer-teaching coupled with opportunity to teach mini-lessons provide students with actual teaching experience in the foreign language classroom.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 4650
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 6840 (3) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Spanish (SPAN) graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 6940 (1) Master's Candidate for Degree
Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree.
Requisites: Restricted to Spanish (SPAN) graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 6950 (1-6) Master's Thesis
Requisites: Restricted to Spanish (SPAN) graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 7120 (3) Seminar: Spanish Literature and/or Spanish American Literature
Selected topics in Spanish and/or Spanish American literature.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 5120
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 7130 (3) Seminar: Critical Approaches to Iberian and Latin American Literatures and Cultures
An introductory study of theoretical approaches and critical analyses related to Iberian and Latin American literatures and cultures, with an emphasis on contemporary trends.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 5130
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 7140 (3) Seminar: Spanish Literature, Medieval Period
Studies medieval works, authors and themes, with consideration of principal influences from other literatures. Reading in Old Spanish.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 5140
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Spanish

SPAN 7200 (3) Seminar: Spanish Literature, Renaissance and Baroque
Treats various topics, as needs and resources dictate. Special attention to developing historical and current theoretical and critical background of each topic. Representative topics might include Renaissance poetry in Spain, Cervantes, Don Quixote and Novelas ejemplares, picaresque novel and the Spanish comedia of the 17th century.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 5200
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 7210 (3) Seminar: Spanish Literature, 18th and/or 19th Centuries
Treats various topics as needs and resources dictate. Gives special attention to developing historical and current theoretical and critical background of each topic. Representative topics might include romantic prose, poetry and theatre, realism and naturalism (prose narrative), 19th century poetry and 19th century theatre.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 5210
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 7220 (3) Seminar: Spanish Literature, 20th and/or 21st Centuries
Treats various topics, as needs and resources dictate. Gives special attention to developing historical and current theoretical and critical background of each topic. Representative topics might include the generation of 1898, poetry of the 20th century, theatre of the 20th century, pre-Civil War novel, and post-Civil War novel.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 5220
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 7300 (3) Seminar: Spanish American Literature, Colonial Period and/or 19th Century
Treats various topics, as needs and resources dictate. Gives special attention to developing historical and current theoretical and critical background of each topic. Representative topics might include pre-Columbian literature, colonial prose and narrative, colonial poetry, romantic novel, the realist and naturalist novel and short story, 19th-century poetry, and gaucho literature.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 5300
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 7320 (3) Seminar: Spanish American Literature, 20th and/or 21st Centuries
Treats various topics, as needs and resources dictate. Gives special attention to developing historical and current theoretical and critical background of each topic. Representative topics might include modernism, theatre, the essay, the regional novel, the novel of the Mexican Revolution, the modern novel, contemporary theatre, and contemporary poetry.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 5320
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 7400 (3) Seminar: Spanish Phonology
Topics within Spanish phonology are treated as needs and resources dictate. Gives special attention to different schools and contemporary theoretical developments. Representative topics might include generative phonology applied to Spanish, Spanish phonology for college teaching and different schools of Spanish phonology.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 5400
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 7410 (3) Seminar: Spanish Syntax
Treats topics within Spanish syntax, each requiring a semester's study, as needs and resources dictate. Gives special attention to different schools and contemporary theoretical developments. Representative topics may include generative/transformational grammar applied to Spanish, fundamental problems in Spanish syntax and different schools of Spanish syntax.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 5410
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 7430 (3) Seminar: Hispanic Linguistics
Studies a major topic from an area such as phonology, syntax, history of the Spanish language, Hispanic linguistics and literature, or applied Hispanic linguistics.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 5430
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 7440 (3) Seminar: Trends in Hispanic Linguistics
Provides an overview of major trends and issues in Hispanic linguistics, including phonology, syntax, dialectology, sociolinguistics, discourse analysis, text linguistics, semiotics, history of the Spanish language, language acquisition and applied linguistics.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 5440
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 8840 (3) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Spanish (SPAN) graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 8990 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 30.00 total credit hours.
Requisites: Restricted to Spanish (SPAN) graduate students only.
Additional Information: Departmental Category: Spanish

Speech, Language and Hearing Sciences (SLHS)

Courses

SLHS 1010 (3) Disabilities in Contemporary American Society
Addresses the issue that 50 percent of all individuals experience disability in their lifetime. Introduces students to the social, cultural, psychological, economic, political, legal, and health-care issues related to society and individuals with disabilities.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Didactic: All-Department

SLHS 2000 (3) Introduction to Communication Disorders
Surveys communication disorders, including hearing impairments, learning disabilities, and speech-language disorders, as well as an introduction to basic speech and hearing science.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Didactic: All-Department

SLHS 2010 (3) Science of Human Communication
Discusses how human communication (the process by which a thought is transmitted from the brain of a speaker to the brain of a listener) involves a complex interaction of acoustics, anatomy, physiology, neurobiology, and psychology.
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
Departmental Category: Didactic: All-Department

SLHS 2305 (4) American Sign Language 1
Introduces basic sign vocabulary, grammatical structures of ASL, and the culture of deaf people. Classes are taught using ASL without the use of spoken English.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: American Sign Language

SLHS 2315 (4) American Sign Language 2
Develops more complex vocabulary and grammatical structures, and an understanding of deaf culture. Classes are taught using ASL without the use of spoken English.
Requisites: Requires a prerequisite course of SLHS 2305 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: American Sign Language

SLHS 2325 (4) American Sign Language 3
Continuation of SLHS 2315. Covers ASL literature, advanced grammatical structures, idiomatic expressions, and deaf culture.
Requisites: Requires a prerequisite course of SLHS 2315 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: American Sign Language

SLHS 2335 (4) American Sign Language 4
Builds intermediate-level production and comprehension skills in American Sign Language (ASL). Students will expand ASL vocabulary and will learn complex grammatical structures through conversation, narration, and ASL literature. Instruction will include the history and culture of Deaf communities as well as culturally appropriate behaviors.
Requisites: Requires a prerequisite course of SLHS 2325 (minimum grade C-).

SLHS 3000 (3) Deaf Studies
This course explores perspectives on human rights and social justice of Deaf people as a cultural and linguistic minority. It examines the humanity, cultural identity and historical factors that have impacted Deaf people¿s lives, both positively and negatively. Topics include the history of American Sign Language, multi-identities, technology, educational institutions, medical perspectives, art, media, and literature created by and/or related to Deaf individuals.

SLHS 3003 (3) Cognitive Science
Introduces cognitive science, drawing from psychology, philosophy, artificial intelligence, neuroscience, and linguistics. Studies the linguistic relativity hypothesis, consciousness, categorization, linguistic rules, the mind-body problem, nature versus nurture, conceptual structure and metaphor, logic/problem solving and judgment. Emphasizes the nature, implications and limitations of the computational model of mind.
Equivalent - Duplicate Degree Credit Not Granted: INFO 3702 and LING 3005 and PHIL 3310 and PSYC 3005 and CSCI 3702 and CSPB 3702
Recommended: Prerequisites two of the following CSCI 1300 or LING 2000 or PHIL 2440 or PSYC 2145.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Social Sciences

SLHS 3006 (3) Phonetics
Focuses on production of speech sounds, transcribing speech using the International Phonetic Alphabet, analyzing the acoustic properties of speech sounds, understanding how speech sounds vary depending on the context. Provides a foundation for understanding normal and atypical speech development, atypical speech problems and patterns, regional and foreign accents, and speech recognition by computers.
Requisites: Requires a prerequisite course of LING 2000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Didactic: Speech-Hearing Science

SLHS 3014 (3) Hearing Loss Epidemiology
Introduces students to basic epidemiological concepts related to hearing loss. Provides an overview of the hearing mechanism, assessment and identification of hearing loss, prevalence of hearing disorders, treatment and intervention. Noise pollution, aging and toxic agents are discussed. Focuses on risk factors for hearing impairment and comorbidities.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Didactic: Audiology

SLHS 3106 (3) Hearing Science
Focuses on the three main aspects of the hearing process: sounds in the environment (physical acoustics), sounds encoded within the auditory system (physiological acoustics) and perception of sound (psychological acoustics).
Requisites: Requires a prerequisite course of SLHS 2010 (minimum grade C-). Restricted to Speech, Language and Hearing Sciences (SLHS) undergraduate majors minors with a minimum of 27 credits (Sophomore), or SLHS master's students, or Audiology (AUDD) majors only
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Departmental Category: Didactic: Speech-Hearing Science

SLHS 3116 (3) Anatomy, Physiology, and Science of Speech
Provides a basic understanding of the structural organization (anatomy), function (physiology), and neural controls of the structures used to produce speech, swallowing, respiration, and related behaviors in humans.
Requisites: Requires a prerequisite course of SLHS 2010 (minimum grade C-).
Recommended: Prerequisite SLHS 3106.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Departmental Category: Didactic: Speech-Hearing Science

SLHS 4000 (3) Multicultural Aspects of Communication Differences and Disorders
Examines perceptions and attitudes regarding differences in communication as a function of cultural-linguistic diversity. Discusses implications of differing verbal and nonverbal communication styles of various cultural groups in terms of professional responsibilities.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: Didactic: All-Department

SLHS 4100 (1-3) Special Topics in Speech, Language, and Hearing Sciences
Studies selected topics in speech, language, hearing sciences, communication disorders, and other professional issues.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Didactic: All-Department

SLHS 4502 (3) Language Disorders Across the Lifespan
Provides students with an introductory understanding of the causes, characteristics, assessment and treatment of developmental and acquired language disorders in children and adults. Examines a variety of disorders including specific language impairment, learning disabilities, and language and cognitive disorders due to brain damage. Considers the challenge of identifying language disorders in children and adults from culturally and linguistically diverse backgrounds.
Requisites: Requires a prerequisite or corequisite course of SLHS 4560 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Didactic: Speech-Language Pathology

SLHS 4512 (3) Speech Disorders Across the Lifespan
Provides students with an introductory understanding of the causes, characteristics, assessment and treatment of speech disorders including those involving articulation, voice, resonance, and fluency. Examines a variety of disorders including stuttering, speech sound disorders, cleft lip and palate, vocal pathology, as well as dysarthria and apraxia due to stroke, trauma, and progressive neurological diseases.
Requisites: Requires a prerequisite course of SLHS 2010 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Didactic: Speech-Language Pathology

SLHS 4560 (3) Language Development
Covers the development of language in childhood and into adult life, emphasizing the role of environment and biological endowment in learning to communicate with words, sentences, and narratives.
Equivalent - Duplicate Degree Credit Not Granted: LING 4560 and PSYC 4560
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) undergraduate majors and minors, or SLHS master's students, or Audiology (AUDD) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Didactic: All-Department

SLHS 4576 (3) Communication Neuroscience
Provides an introduction to neuroscience with an emphasis on the systems that support human communication including speech perception and production, language, memory and cognition. Topic areas will include auditory processing, language, memory and motor systems. Development of brain systems and structures will be explored, as well as neurologically based disorders. Neuroscientific methods surveyed will include MRI, fMRI, EEG, MEG, NIRS, lesion studies and electrophysiology.
Requisites: Requires a prerequisite course of SLHS 2010 or NRSC 2100 (both minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

SLHS 4704 (3) Audiological Evaluation
Studies basic principles and techniques of hearing evaluation, including pure-tone, speech, immittance, and advanced audiometry; hearing conservation in hospital, school, and industrial settings; and identification and evaluation of auditory pathologies. Required projects in screening and pure-tone audiometry.
Requisites: Requires a prerequisite course of SLHS 3106 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences Departmental Category: Didactic: Audiology

SLHS 4714 (3) Audiological Rehabilitation
Covers basic principles and techniques related to the habilitation and rehabilitation of individuals who are deaf or hard of hearing: amplification, speech, language, auditory, speech reading, and educational issues.
Requisites: Requires prerequisite courses of LING 3100 or SLHS 3006. Requires a prerequisite or corequisite course of SLHS 4704 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Didactic: Audiology

SLHS 4849 (1-6) Independent Study for Undergraduates
Instructor consent required.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Independent Study

SLHS 4918 (2) Introduction to Clinical Practice
Introduces students to the clinical processes and key components of assessment and interventions. Explores the applications of theoretical and scientific information to clinical settings. Students complete supervised observation of assessment and intervention with individuals with communication challenges.
Requisites: Requires a prerequisite course of SLHS 2000 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Speech, Language and Hearing Sciences (SLHS) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Practica

SLHS 4938 (1-6) Internship: Speech-Language Intervention
Provides a supervised clinical experience with children or adults who have communication challenges. Instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Practica

SLHS 5012 (3) Evidence-based Practice and Research Methods
Focuses on the knowledge of research methods and the application of research principles into clinical practice. In particular, covers quantitative research methods that are in speech-language pathology clinical settings. Will cover (1) clinical practice and research methods in speech, language and hearing sciences; (2) single-subject designs in clinical settings; (3) introduction to data collection, data organization and data analysis; (4) interpretation and presentation of clinical data. Formerly SLHS 5000.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5032 (3) Competencies and Strategies for the SLPA
This course includes content regarding roles and responsibilities of the SLPA, Codes of Ethics and ethical issues, standard health precautions and infection control, health and safety policy and procedures, confidentiality (FERPA & HIPAA), culture of public schools, service delivery models, screening protocols, intervention processes and procedures, data collection and documentation, assistive technology, special populations and cultural-linguistic diversity, reflective practice and continuing professional growth. Students must be accepted in the SLPA certification program to enroll in this course.
Requisites: Requires a prerequisite course of SLHS 4918 (minimum grade D-).
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5112 (2) Clinical Practice I
Provides entering graduate students a framework for beginning their clinical education and building the relationship of theory and research to current clinical practice in speech-language pathology. Key topics for exploration include contemporary professional issues, licensure, professionalism, ethics and ethical conduct, scope of practice, competency development, teaming and collaboration, accountability and multicultural issues. Formerly SLHS 5110.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5122 (1) Clinical Practice II: Assessment and Treatment Planning
Explores critical elements associated with assessment and treatment planning in speech-language pathology. Topic areas include assessment style, interviewing, test selection and techniques of test administration. Diagnosis and treatment planning section includes differential diagnoses, ethics of diagnoses, goal writing and treatment rationale.
Requisites: Requires a prerequisite course of SLHS 5112 (minimum grade B). Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5132 (3) Clinical Practice II: Clinical Practice in Varied Work Settings
Explores knowledge and skills specific to working in public school, medical, and private practice settings. Coursework will address required data collection, reporting, and accountability for specific work settings; aspects of billing, coding, and reimbursement where applicable; working effectively on interdisciplinary teams; supervision of support personnel; aspects of diversity, equity, and inclusion including cultural humility, responsiveness, and competence; overview of education and healthcare landscapes with implications for service delivery; service delivery models; and implementation of federal and state regulations and rules in different clinical settings.

SLHS 5242 (3) Language Disorders in School Age Children
Addresses the nature, assessment, and treatment of developmental language disorders in school age children.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite undergraduate background in SLHS.
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5252 (3) Acquired Language Disorders in Adults
Introduces the neural bases and medical etiologies of acquired language disorders in adults, explores the ways in which normal language processing may become disordered, and studies current methods of evaluation and treatment design.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Recommended: Prerequisite undergraduate background in SLHS.
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5262 (3) Dysphagia
Provides students with background in the anatomical, physiological, and neurological bases of swallowing function and disorders across the lifespan. Etiological factors are presented, as well as various assessment tools and principles of treatment of swallowing disorders in children and adults.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5272 (1) Augmentative Alternative Communication: Theory and Use
Provides an overview of the application of current technology to alternative/augmentative communication. Emphasizes assessment and intervention with nonverbal children and adults with need for alternative/augmentative communication systems. Presents various technological devices and systems. Addresses system selection, programming, development and integration of use in environmental contexts.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5282 (3) Acquired Cognitive Disorders
Explores the theoretical and clinical management of acquired cognitive disorders that impact communication. Includes basic functional neuroanatomy.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5292 (3) Neurogenic Speech Disorders in Adults
Presents the neural bases of normal and disordered speech motor control, teaches assessment and treatment of motor speech disorders in adults, and applies motor control research to clinical problems.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5302 (3) Speech Sound Disorders in Children
Provides overview of phonological development, perception, and production. Presents factors related to articulation and focuses on critical evaluation of traditional and phonological based assessment and intervention procedures. Includes coverage of phonological awareness, metaphonological skills as related to literacy, as well as treatments and principles specific to children with motor speech disorders.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5312 (2) Aging and Communication
Examines normal age-related changes to communication systems. Anatomic and physiological changes to the mechanisms of speech production, audition and the brain will be included, with a focus on the functional impacts of such changes for speech production and perception, cognition, language and social communication.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Grading Basis: Letter Grade

SLHS 5322 (2) Complex Medical Speech-Language Pathology Cases
Expands upon the basic knowledge learned in SLHS 5252 (acquired language disorders), 5332 (voice disorders), 5282 (acquired cognitive disorders), 5262 (dysphagia), 5292 (neurogenic speech disorders) and 5362 (fluency disorders). Students will explore clinical management options for complex medical cases created by factors such as multiple and/or rare diagnoses, medical complications, socioeconomic factors and behavioral or personality issues.
Requisites: Requires prerequisite courses SLHS 5252 and SLHS 5332 and SLHS 5282 (all minimum grade B). Requires corequisite course SLHS 5292. Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5332 (3) Voice and Resonance Disorders
Examines the anatomical and physiological bases for normal and disordered laryngeal and velopharyngeal function including functional, organic, and neurogenic voice disorders, and velopharyngeal insufficiency and incompetence. Emphasis on evidence-based assessment and treatment of individuals with voice and resonance disorders, including special populations.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5342 (2) Counseling in Speech-Language Pathology
Designed to demonstrate the principles of counseling for individuals with communication disorders and their families throughout the client's lifespan. Counseling systems and techniques for specific communication disorders will be included. The course will focus on the basic theory of counseling and how counseling sills can be used in the treatment of various communication disorders. Provides an introduction to the basic counseling skills necessary to help speech-language pathologists achieve the greatest success possible when working with individuals exhibiting communication disorders.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5352 (3) Bilinguals with Communication Disorders
Covers current empirical research regarding the linguistic and cognitive system of bilinguals with and without communication disorders. Address cross-cultural and cross-linguistic issues in selection and implementation of assessment and intervention procedures. Discuss various intervention strategies for working with bilinguals and their families.
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5362 (3) Fluency Disorders
Exploration of the nature, differential diagnosis and treatment of fluency disorders across the life-span. Students will develop the requisite skills and knowledge base to provide prevention, consultation, assessment and intervention for fluency disorders. Research bearing on affective, behavioral and cognitive components of stuttering will be reviewed, along with recent data on the neural bases of the disorder. A broad range of treatment approaches will be discussed and demonstrated.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5372 (1) Cleft and Resonance: Fundamentals for Evaluation and Treatment
Provides an overview of fundamental awareness and knowledge of the etiology, development and treatment of children with cleft lip and palate and other disorders of resonance. It covers general parameters of care for speech language pathologists across various age groups (birth, toddler, preschool, and school age) with this population. Students will learn the methods for identifying and treating compensatory mis-articulation patterns and abnormal resonance patterns and the aspects of multidisciplinary team care for families and individuals with cleft lip and palate.
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5555 (3) Advanced Topics in Social Communication: Autism Spectrum Disorders
Students will acquire knowledge and skills in the appropriate selection, application and evaluation of interventions for children, adolescents and adults with autism spectrum disorders (ASD) and their families. Evaluation and diagnosis, including development of the IFSP and IEP, will be addressed.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5576 (3) Neuroanatomy and Neurophysiology of Communication
Provides an introduction to the neuroanatomy and neurophysiology that collectively give rise to human communication including speech perception and production. We will consider how speech, language and hearing are represented in and controlled by the central nervous system and how neuropathologies affect processes of communication.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: All-Department

SLHS 5602 (3) Communication Challenges in Children: Birth to Six
Emphasizes nature and profile of language and communication disorders affecting infants and young children. Facilitates integration of clinical and theoretical perspectives with specific approaches for family-centered assessment and intervention principles, models and techniques.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5612 (3) Language Learning Disabilities
Expands upon the nature of Language Disorders in SLHS 5242 (School Age Language Disorders) including language-based difficulties in reading, written language and mathematical achievement, as well as deficits in executive functioning. Students will explore clinical management options through studies of intervention methods as well as through clinical case examples. Specifically, we will examine adaptive instruction and evidence-based intervention.
Requisites: Requires a prerequisite course of SLHS 5242 (minimum grade B).
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5622 (2) Advanced Topics in Learning Disabilities
Expands upon the nature of Language Learning Disabilities learned in SLHS 5612 (Learning Disabilities) and SLHS 5242 (School Age Language Disorders) including language-based difficulties in reading, written language and mathematical achievement, as well as deficits in executive functioning. Students will explore clinical management options through studies of intervention methods as well as through clinical case examples. Specifically, we will examine adaptive instruction and evidence-based intervention.
Requisites: Requires prerequisite courses of SLHS 5242 and SLHS 5612 (all minimum grade B).
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5674 (2) Signals, Systems, and Calibration in Audiology
Provides in-depth study of instrumentation used by audiologists for hearing aid evaluation and fitting, signal generation and modification, and signal measurement and calibration.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Audiology

SLHS 5848 (1-4) Independent Study
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Practica

SLHS 5849 (1-4) Independent Study 1, M.A.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Independent Study

SLHS 5859 (1-4) Independent Study 2, M.A.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Independent Study

SLHS 5898 (1-4) Practicum 1: Speech-Language-Learning Diagnosis, Assessment, and Intervention
Offers on-campus and off-campus supervised clinical practice in diagnosis, assessment, and intervention of speech-language-hearing disorders in children and adults.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practica

SLHS 5918 (1-3) Audiology Clinical Practicum: Lab
Provides clinical training in the on site Speech, Language and Hearing Center in skills including audiology identification, evaluation and management for adults and children with hearing loss.
Repeatable: Repeatable for up to 16.00 total credit hours.
Requisites: Restricted to Speech, Language, and Hearing Sciences (SLHS) OR Audiology (AUDD) graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practica

SLHS 5928 (1-4) Audiology Clinical Practicum: Level 1
Provides clinical training in an off-campus educational audiology facility in identification, evaluation and management for adults and children with hearing loss. Schedule is variable with a minimum requirement of 16 hours on rotation per week.
Repeatable: Repeatable for up to 15.00 total credit hours.
Requisites: Requires a prerequisite course of SLHS 5918 (minimum grade B). Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.

SLHS 5930 (4) Speech Language Pathology Assistant Internship
Placement for 15-18 hours per week for a total of 180 clock hours including a minimum of 50% supervised provision of 80 hours of direct intervention (in-person/virtual) with students on caseload. SLPA interns will complete tasks for mentor/supervisor including file reviews, scheduling, research of evidence-based practices, materials preparation, observation of intervention and IEP meetings, and provide other assistance as specified by mentor and within the scope of practice of an SLPA (Asha, 2013). Competency development and professional growth will be documented through midterm formal conferences and final semester ratings of specific competencies and completion of internship assignments. Students must be accepted into the SLPA certificate program to enroll in this course.
Requisites: Requires a prerequisite course of SLHS 4918 (minimum grade D-).
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 5938 (1-4) Audiology Clinic Practicum: Level 2 Educational
Provides clinical training in an off campus educational audiology facility in identification, evaluation and management for adults and children with hearing loss. Schedule is variable with a minimum requirement of 16 hours on rotation per week.
Repeatable: Repeatable for up to 15.00 total credit hours.
Requisites: Requires prerequisite courses of SLHS 5918 and SLHS 6544 and SLHS 6614 (all minimum grade B). Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practica

SLHS 5948 (1-4) Audiology Clinic Practicum: Level 2 Medical
Provides clinical training in an off campus medical audiology facility in identification, evaluation and management for adults and children with hearing loss. Schedule is variable with a minimum requirement of 16 hours on rotation per week.
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite courses of SLHS 5918 and SLHS 6544 and SLHS 6614 (all minimum grade B). Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Didactic: Audiology

SLHS 6000 (1-4) Advanced Topics in Speech, Language and Hearing Sciences
Studies selected topics related to the theory and management of communication disorders, and theoretical/scientific information related to speech, language, and hearing.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: All-Department

SLHS 6006 (3) Advanced Hearing Science
Provides advanced study in hearing science, including physical, physiological, and psychological acoustics of both normal and impaired auditory systems. Department enforced prerequisite: graduate standing in SLHS; undergraduate course work in biology or anatomy.
Additional Information: Departmental Category: Didactic: Speech-Hearing Science

SLHS 6100 (3) Research Methods Proseminar in Communication Sciences and Disorders
This proseminar introduces foundational research principles and methods in speech, language, and hearing sciences, covering quantitative and qualitative designs, data collection, analysis, and ethics. Students will learn to critically evaluate research and apply methods to human communication science areas, including speech-language development, linguistics, communication behaviors, disabilities, multilingualism, and hearing loss. The course prepares students for advanced research and dissertation work in communication sciences.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

SLHS 6150 (3) Scientific Writing in Speech, Language, and Hearing Science
This doctoral-level pro-seminar is designed to develop and refine scientific writing skills specific to the field of Speech, Language, and Hearing Science (SLHS). The course emphasizes the process of writing clear, concise, and well-structured scientific manuscripts, including research articles, grant proposals, and reviews. Students will practice writing and revising various sections of research papers and receive feedback through peer review and instructor guidance. Special attention is given to writing for specialized audiences in SLHS and addressing the challenges of communicating complex scientific information effectively.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

SLHS 6402 (3) Issues and Methods in Cognitive Science
Interdisciplinary introduction to cognitive science, examining ideas from cognitive psychology, philosophy, education, and linguistics via computational modeling and psychological experimentation. Includes philosophy of mind; learning; categorization; vision and mental imagery; consciousness; problem solving; decision making, and game-theory; language processing; connectionism. No background in Computer Science will be presumed.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 6402 and EDUC 6504 and LING 6200 and PHIL 6310 and PSYC 6200
Requisites: Restricted to graduate students only.

SLHS 6504 (1) Professional Ethics in Audiology
Overview of ethics and ethical issues in the profession of audiology. Topics to be discussed include code of ethics by professions, approaches to analyzing ethical dilemmas, ethics in relationships with manufacturers, and ethical considerations inteaching, clinical practice and research.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite undergraduate background in SLHS.
Additional Information: Departmental Category: Didactic: Audiology

SLHS 6514 (1) Professional Issues in Audiology
Overview of professional issues related to the profession of audiology. Topics to be discussed include certification, licensure, professional associations, infection control, practice management, federal regulations related to audiology, professional communications and professional relationships.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Recommended: Prerequisite undergraduate background in SLHS.
Additional Information: Departmental Category: Didactic: Audiology

SLHS 6544 (3) Auditory Processes: Adult Assessment
Advanced study on the current science surrounding hearing assessment of adults across the age span. Includes theoretical foundations and clinical applications.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Audiology

SLHS 6554 (3) Auditory Processes: Child Assessment
Provides advanced study in hearing assessment and management of children across the age span. Topics include epidemiological, medical, audiological, developmental, and habilitative aspects of normal and impaired hearing in children.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Recommended: Prerequisite undergraduate background in SLHS.
Additional Information: Departmental Category: Didactic: Audiology

SLHS 6564 (3) Auditory Processes: Neurodiagnostics
Provides advanced study in the neural bases of hearing. Includes theoretical foundations and clinical assessment of neurological functioning in auditory systems with both normal and impaired function.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Audiology

SLHS 6614 (3) Fundamentals of Amplification
Discusses theoretical and clinical issues regarding the design, fitting, and evaluation of amplification technology for individuals with hearing loss. Includes the use of behavioral, psychological, electroacoustic, and physiological (real ear) measures in the selection and evaluation of digital and analog hearing aid technology.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Audiology

SLHS 6642 (3) Development and Intervention in Childhood Hearing Loss
Reviews development and intervention with children who are deaf and hard-of-hearing, birth through school age. Focuses on speech, auditory training, language, literacy and cognitive development. Formerly SLHS 6640.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Didactic: Speech-Language Pathology

SLHS 6650 (3) Counseling and Multicultural Issues in SLHS
Explores counseling theories and techniques following the diagnosis of a communication disorder across the life span. Considers issues related to grieving and mourning, parenting, disability, cultural customs, attachment, and relationships. Covers professional ethics and ethical responsibilities.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: All-Department

SLHS 6670 (3) Aging and Hearing Loss
The course will address research and evidence-based practice regarding hearing loss in adults across the age span. Topics will include aural rehabilitation, co-morbidities associated with hearing loss (e.g., cognition and dementia; mental health; sensory-perceptual-motor skills; other health/medical conditions), and impacts of hearing loss on functioning, disability, health, and health services.
Requisites: Requires a prerequisite course of SLHS 6544 (minimum grade B). Restricted to graduate students only.
Recommended: Prerequisites SLHS 7418 and SLHS 7540.
Additional Information: Departmental Category: Didactic: All-Department

SLHS 6918 (7) Practicum 2: Medical-Clinical Internship
Gives an off-campus experience in a clinical or medical setting that provides in-depth practice in management of communication disorders of children and adults.
Repeatable: Repeatable for up to 14.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Practica

SLHS 6928 (7) Practicum 2: Public School Internship
Provides an off-campus supervised experience providing extended and in-depth practice involving school-age children in a school classroom.
Repeatable: Repeatable for up to 14.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Practica

SLHS 6938 (1-10) Audiology Clinic Externship Educational
Provides students with full time off campus experience in an educational audiology facility offering in-depth and advanced procedures for identification, evaluation and management of hearing loss in adults and children.
Repeatable: Repeatable for up to 21.00 total credit hours.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Practica

SLHS 6940 (1) Master's Candidate for Degree
Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: All-Department

SLHS 6948 (1-10) Audiology Clinic Externship: Medical
Provides students with full time off campus experience in a medical audiology facility offering in-depth and advanced procedures for identification, evaluation and management of hearing loss in adults and children.
Repeatable: Repeatable for up to 21.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Audiology

SLHS 6950 (1-7) Master's Thesis
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: All-Department

SLHS 7000 (3) Research Designs in Human Communication Sciences and Disorders
Offers an advanced seminar in research designs for human behavior: efficacy, ethnographic, single-subject, quasi-experimental, and experimental designs. Designed to familiarize students with terminologies and research designs frequently used in speech-language-hearing areas.
Recommended: Prerequisite basic statistics.
Additional Information: Departmental Category: Didactic: All-Department

SLHS 7200 (3) Business, Management and Ethics in Audiology
Focuses on the business aspects of managing an audiology practice. Addresses developing a business plan, contracting for services, legal issues, financial reporting, budgeting, pricing, billing and reimbursement, regulatory issues, marketing, personnel management, risk abatement, and business ethics.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Recommended: Prerequisite good standing in the SLHS graduate program or instructor consent will be required.
Additional Information: Departmental Category: Didactic: All-Department

SLHS 7418 (2) Cognitive Science Research Applications Seminar 1
Independent, interdisciplinary research project in cognitive science for advanced graduate students pursuing a joint PhD in an approved core discipline and cognitive science. Research projects integrate at least two areas within the cognitive sciences: psychology, computer science, linguistics, education, philosophy. Students need commitments from two mentors for their project.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 7412 and EDUC 6506 and LING 7415 and PHIL 7415 and PSYC 7415
Requisites: Restricted to graduate students only.
Recommended: Prerequisite EDUC 6505.

SLHS 7428 (2) Cognitive Science Research Applications Seminar 2
Independent, interdisciplinary research project in cognitive science for advanced graduate students pursuing a joint PhD in an approved core discipline and cognitive science. Research projects integrate at least two areas within the cognitive sciences: psychology, computer science, linguistics, education, philosophy. Students need commitments from two mentors for their project.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 7422 and EDUC 6516 and LING 7425 and PHIL 7425 and PSYC 7425
Requisites: Restricted to graduate students only.

SLHS 7450 (3) Audiology Capstone Project
Provides an individualized project for AUD, completed prior to initiation of final clinical year. May be in the form of research-based investigation, an evidence-based position paper, a clinical protocol based on peer-reviewed literature, a grant proposal, or another format approved by AUD committee. Project requires approved proposal by AUD committee andfocused study supervised by capstone advisor.
Requisites: Restricted to Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: All-Department

SLHS 7520 (3) Auditory Processes: Medical and Genetic Bases
Discusses current developments in epidemiology, pathogenesis, and symptomatology of hearing loss. Investigates the genetic bases of hearing loss and deafness. Incorporates clinical decision theory in assessment and intervention. Explores cross-disciplinary topics from genetics, radiology, pharmacology, pathology, and otology.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Audiology

SLHS 7530 (3) Auditory Processes: Theory and Application in the School Environment
Focuses on application of routine audiological practices such as screening, assessment, rehabilitation, and instrumentation to children in educational settings. Emphasizes federal education regulations and pertinent case law.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Audiology

SLHS 7540 (3) Auditory Processes: Physiology, Assessment, and Management of the Vestibular System
Emphasizes current research on physiology of the vestibular system, including both structure and function. Considers the etiology of both peripheraland central pathologies of the vestibular system. Discusses ways to assess function of the vestibular system as well as theoretical and practical considerations of vestibular rehabilitation.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Audiology

SLHS 7550 (3) Prevention of Hearing Loss from a Public Health Perspective
Discusses the prevention of hearing loss from public health perspectives. Includes the effects of noise and other damaging agents on the auditory physiology. Discusses prevention, screening, identification, and management of occupational and recreational hearing loss. Considers noise measurement and monitoring. Addresses local, national and global initiatives and legislation regarding hearing health.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Audiology

SLHS 7614 (3) Implantable Devices: Technology and Clinical Application
Examines technological aspects and clinical applications of implantable prostheses such as cochlear implants, brainstem implants, hybrid cochlear implants, Baha devices and middle ear implants. Topics will include: history of implantable devices, anatomy and histopathology of the inner ear, speech processing in implants, mapping devices, candidacy criteria, behavioral and electrophysiologic techniques for assessment and outcomes in implanted children and adults.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Recommended: Prerequisite good standing in the SLHS graduate program or instructor consent will be required.
Additional Information: Departmental Category: Didactic: Audiology

SLHS 7640 (3) Communication Processes and Hearing Loss: Birth through Six
Provides in-depth study of current research literature and its implications for clinical practice regardingdevelopment of communication processes in the firstsix years of life and impact of hearing loss. Investigates development of language, auditory perception, speech production, social-emotional abilities, and cognition.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: Audiology

SLHS 7714 (3) Advanced Topics in Amplification
Discusses advanced issues in the design and fitting of hearing aid technology, including advanced signal processing, outcomes assessment, evidence-based practice and specialized fitting protocols for pediatric and geriatric populations. Current research is integrated with clinical cased studies to guide the development of evidence-based practice in hearing aid fittings.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Didactic: Audiology

SLHS 7775 (1) Topics in Cognitive Science
Reading of interdisciplinary innovative theories and methodologies of cognitive science. Students participate in the ICS Distinguished Speakers series that hosts internationally recognized cognitive scientists who share and discuss their current research. Session discussions include analysis of leading edge and controversial new approaches in cognitive science.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 7772 and EDUC 7775 and LING 7775 and PHIL 7810 and PSYC 7775
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Didactic: All-Department

SLHS 7800 (1) Seminars in Audiology: Advanced Topics
Graduate seminar exploring advanced topics in the field of audiology as they relate to diagnosis and (re)habilitation. Topics will include novel clinical issues and topics including tinnitus, intraoperative monitoring, pharmacology, hyperacusis/misophonia, auditory processing. Discussion of the evidence-based literature surrounding these advanced topics will be central to this seminar.
Requisites: Requires prerequisite course of SLHS 6544 (minimum grade B). Restricted to graduate students only.
Grading Basis: Letter Grade

SLHS 7849 (1-4) Independent Study 1, PhD
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Independent Study

SLHS 7859 (1-4) Independent Study 2, PhD
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Independent Study

SLHS 7918 (3) Practicum 3: Clinical Supervision
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Practica

SLHS 8918 (3) Practicum 3: Classroom Instruction
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Practica

SLHS 8928 (3) Practicum 3: Research Coordination
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Practica

SLHS 8990 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 30.00 total credit hours.
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) or Audiology (AUDD) graduate students only.
Additional Information: Departmental Category: Didactic: All-Department

Statistics (STAT)

Courses

STAT 2600 (4) Introduction to Data Science
Introduces students to importing, tidying, exploring, visualizing, summarizing, and modeling data and then communicating the results of these analyses to answer relevant questions and make decisions. Students will learn how to program in R using reproducible workflows. During weekly lab sessions students will collaborate with their teammates to pose and answer questions using real-world datasets.
Requisites: Requires prerequisite or corequisite of APPM 1350 or APPM 1345 or MATH 1300 (minimum grade C-).
Grading Basis: Letter Grade

STAT 3100 (3) Applied Probability
Studies axioms, counting formulas, conditional probability, independence, random variables, continuous and discrete distribution, expectation, joint distributions, moment generating functions, law of large numbers and the central limit theorem.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 3810 or MATH 4510 APPM 3570
Requisites: Requires a prerequisite or corequisite course of APPM 2350 or APPM 2340 or MATH 2400 (prereq minimum grade C-).

STAT 3101 (1) Probability Workgroup
Provides problem-solving assistance to students enrolled in STAT 3100 and APPM 3570. Student groups work in collaborative learning environment. Student participation is essential.
Requisites: Requires enrollment in corequisite course of STAT 3100 or APPM 3570.

STAT 3400 (3) Applied Regression
Introduces methods, theory, and applications of linear statistical models, covering topics such as estimation, residual diagnostics, goodness of fit, transformations, and various strategies for variable selection and model comparison. Examples will be demonstrated using statistical programming language R.
Requisites: Requires prerequisite STAT 2600 and STAT 3100 or MATH 4510 (all minimum grade C-). Requires corequisite APPM 3310.
Grading Basis: Letter Grade

STAT 4000 (3) Statistical Methods and Application I
Introduces exploratory data analysis, probability theory, statistical inference, and data modeling. Topics include discrete and continuous probability distributions, expectation, laws of large numbers, central limit theorem, statistical parameter estimation, hypothesis testing, and regression analysis. Considerable emphasis on applications in the R programming language.
Equivalent - Duplicate Degree Credit Not Granted: STAT 5000
Requisites: Requires prerequisite APPM 1360 or MATH 2300 (both minimum grade C-).
Grading Basis: Letter Grade

STAT 4010 (3) Statistical Methods and Applications II
Expands upon statistical techniques introduced in STAT 4000. Topics include modern regression analysis, analysis of variance (ANOVA), experimental design, nonparametric methods, and an introduction to Bayesian data analysis. Considerable emphasis on application in the R programming language.
Equivalent - Duplicate Degree Credit Not Granted: STAT 5010
Requisites: Requires prerequisite STAT 4000 (minimum grade C-).
Grading Basis: Letter Grade

STAT 4100 (3) Markov Processes, Queues, and Monte Carlo Simulations
Brief review of conditional probability and expectation followed by a study of Markov chains, both discrete and continuous time, including Poisson point processes. Queuing theory, terminology and single queue systems are studied with some introduction to networks of queues. Uses Monte Carlo simulation of random variables throughout the semester to gain insight into the processes under study.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4560 and APPM 5560
Requisites: Requires prerequisite courses of APPM 3570 or STAT 3100 or MATH 4510 (all minimum grade C-).

STAT 4230 (3) Stochastic Analysis for Finance
Studies mathematical theories and techniques for modeling financial markets. Specific topics include the binomial model, risk neutral pricing, stochastic calculus, connection to partial differential equations and stochastic control theory.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4530, APPM 5530 and STAT 5230
Requisites: Requires prerequisite courses of APPM 3310 and APPM 3570, or STAT 3100, or MATH 4510 (all minimum grade C-).

STAT 4250 (3) Data Assimilation in High Dimensional Dynamical Systems
Develops and analyzes approximate methods of solving the Bayesian inverse problem for high-dimensional dynamical systems. After briefly reviewing mathematical foundations in probability and statistics, the course covers the Kalman filter, particle filters, variational methods and ensemble Kalman filters. The emphasis is on mathematical formulation and analysis of methods.
Equivalent - Duplicate Degree Credit Not Granted: APPM 5510, APPM 4510 and STAT 5250
Requisites: Requires prerequisite courses of APPM 3310 and (STAT 4520 or MATH 4520). All minimum grade C-.

STAT 4350 (3) Applied Deep Learning 1
Introduces students to state-of-the-art deep learning techniques employed in the industry. This course will focus on training neural networks and computer vision, including image classification and transformation, object detection, and facial recognition. Advanced topics will include domain adaptation and learning techniques. There will be an emphasis on reading current literature.
Equivalent - Duplicate Degree Credit Not Granted: STAT 5350
Requisites: Requires prerequisite courses of APPM 3570 or STAT 3100 and STAT 3400 or STAT 4520 and APPM 4650 or APPM 4600 (all minimum grade C-).
Recommended: Prerequisite knowledge of Python is required, and familiarity with TensorFlow and PyTorch is a plus but is not a requirement.

STAT 4360 (3) Applied Deep Learning 2
Introduces students to state-of-the-art deep learning techniques employed in the industry. This course will focus on natural language processing, multimodal learning, generative and graph neural networks, speech and music recognition, and reinforcement learning. Students will learn software engineering techniques using Python. There will be an emphasis on reading current literature.
Equivalent - Duplicate Degree Credit Not Granted: STAT 5360
Requisites: Requires prerequisite course of STAT 4350 (minimum grade C-).

STAT 4400 (3) Advanced Statistical Modeling
Introduces methods, theory and applications of modern statistical models, from linear to hierarchical linear models, to generalized hierarchical linear models, including hierarchical logistic and hierarchical count regression models. Topics such as estimation, residual diagnostics, goodness of fit, transformations, and various strategies for variable selection and model comparison will be discussed in depth. Examples will be demonstrated using statistical programming language R.
Equivalent - Duplicate Degree Credit Not Granted: STAT 5400
Requisites: Requires prerequisite STAT 3400 and (STAT 4520 or STAT 5010) (all minimum grade C-).
Grading Basis: Letter Grade

STAT 4430 (3) Spatial Statistics
Introduces the theory of spatial statistics with applications. Topics include basic theory for continuous stochastic processes, spatial prediction and kriging, simulation, geostatistical methods, likelihood and Bayesian approaches, spectral methods and an overview of modern topics such as nonstationary models, hierarchical modeling, multivariate processes, methods for large datasets and connections to splines.
Equivalent - Duplicate Degree Credit Not Granted: STAT 5430
Requisites: Requires prerequisite courses of STAT 3400 AND APPM 3310 (all minimum grade C-).
Recommended: Prerequisites STAT 4520 OR STAT 5520 OR MATH 4520 OR MATH 5520.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

STAT 4520 (3) Introduction to Mathematical Statistics
Examines point and confidence interval estimation. Principles of maximum likelihood, sufficiency, and completeness: tests of simple and composite hypotheses, linear models, and multiple regression analysis if time permits. Analyzes various distribution-free methods.
Equivalent - Duplicate Degree Credit Not Granted: STAT 5520 and MATH 4520 and MATH 5520
Requisites: Requires prerequisites APPM 3570 or STAT 3100 or MATH 4510 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

STAT 4540 (3) Introduction to Time Series
Studies basic properties, trend-based models, seasonal models modeling and forecasting with ARIMA models, spectral analysis and frequency filtration.
Equivalent - Duplicate Degree Credit Not Granted: STAT 5540 and MATH 4540 and MATH 5540
Requisites: Requires prerequisite course of APPM 4520 or STAT 4520 or MATH 4520 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

STAT 4610 (3) Statistical Learning
Consists of applications and methods of statistical learning. Reviews multiple linear regression and then covers classification, regularization, splines, tree-based methods, support vector machines, unsupervised learning and Gaussian process regression.
Equivalent - Duplicate Degree Credit Not Granted: STAT 5610
Requisites: Requires prerequisite course of STAT 3400 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

STAT 4630 (3) Computational Bayesian Statistics
Introduces Bayesian statistics, normal and non-normal approximation to likelihood and posteriors, the EM algorithm, data augmentation, and Markov Chain Monte Carlo (MCMC) methods. Additionally, introduces more advanced MCMC algorithms and requires significant statistical computing. Examples from a variety of areas, including biostatistics, environmental sciences, and engineering, will be given throughout the course.
Equivalent - Duplicate Degree Credit Not Granted: STAT 5630
Requisites: Requires prerequisite courses of (APPM 4560 or STAT 4100) and STAT 3400 and (STAT 4520 or MATH 4520) (minimum grade C-).
Recommended: Prerequisite prior programming experience.

STAT 4640 (3) Capstone in Statistics and Data Science
Course provides senior-level and graduate students the opportunity to apply the knowledge, skills, and abilities developed throughout the Statistics and Data Science major. Working in teams, students undertake a data-driven problem presented by domain experts from government, industry, or academia. The course provides valuable real-world experience for students intending to pursue graduate education or technical careers. Topics include team building, problem solving, research methods, project management, data ethics, and clear communication (oral, written, and visual).
Equivalent - Duplicate Degree Credit Not Granted: STAT 5640
Requisites: Requires prerequisite course of STAT 4400 or STAT 4610 (minimum grade C-)
Grading Basis: Letter Grade

STAT 4680 (3) Statistics and Data Science Collaboration
Educates and trains students to become effective interdisciplinary collaborators by developing the communication and collaboration skills necessary to apply technical statistics and data science skills to help domain experts answer research or policy questions. Topics include structuring effective meetings and projects; communicating statistics to non-statisticians; using peer feedback, self-reflection and video analysis to improve collaboration skills; creating reproducible statistical workflows; working ethically.
Equivalent - Duplicate Degree Credit Not Granted: STAT 5680
Requisites: Requires a prerequisite course of STAT 4400 or STAT 4010 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

STAT 4690 (2) Advanced Statistical Collaboration
Educates and trains students to become advanced interdisciplinary collaborators by developing and refining the communication, collaboration and technical statistics and data science skills necessary to collaborate with domain experts to answer research questions. Students work on multiple projects. Discussions center on technical skills necessary to solve research problems and video analysis to improve communication and collaboration skills.
Equivalent - Duplicate Degree Credit Not Granted: STAT 5690
Requisites: Requires prerequisite course of STAT 4680 or STAT 5680 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

STAT 4700 (3) Philosophical and Ethical Issues in Statistics
Introduces students to philosophical issues that arise in statistical theory and practice. Topics include interpretations of probability, philosophical paradigms in statistics, inductive inference, causality, reproducible, and ethical issues arising in statistics and data analysis.
Equivalent - Duplicate Degree Credit Not Granted: STAT 5700
Requisites: Requires prerequisites STAT 4520 or STAT 3400 or STAT 4000 (all minimum grade C-).
Grading Basis: Letter Grade

STAT 4720 (1-3) Open Topics in Statistics and Data Science
Provides a vehicle for the development and presentation of new topics that may be incorporated into the core courses in statistics and data science. Department enforced prerequisite: variable, depending on the topic, see instructor.
Equivalent - Duplicate Degree Credit Not Granted: STAT 5720
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.

STAT 4840 (1-3) Reading and Research in Statistics
Introduces undergraduate students to research in statistics and data science. Department enforced prerequisite: variable depending on the topic.
Repeatable: Repeatable for up to 9.00 total credit hours.

STAT 5000 (3) Statistical Methods and Application I
Introduces exploratory data analysis, probability theory, statistical inference, and data modeling. Topics include discrete and continuous probability distributions, expectation, laws of large numbers, central limit theorem, statistical parameter estimation, hypothesis testing, and regression analysis. Considerable emphasis on applications in the R programming language.
Equivalent - Duplicate Degree Credit Not Granted: STAT 4000
Requisites: Restricted to graduate students only.
Recommended: Prerequisites of APPM 1360 or MATH 2300 or equivalent.
Grading Basis: Letter Grade

STAT 5010 (3) Statistical Methods and Applications II
Expands upon statistical techniques introduced in STAT 4000. Topics include modern regression analysis, analysis of variance (ANOVA), experimental design, nonparametric methods, and an introduction to Bayesian data analysis. Considerable emphasis on application in the R programming language.
Equivalent - Duplicate Degree Credit Not Granted: STAT 4010
Requisites: Requires prerequisite STAT 5000 (minimum grade C-)
Grading Basis: Letter Grade

STAT 5100 (3) Markov Processes, Queues, and Monte Carlo Simulations
Brief review of conditional probability and expectation followed by a study of Markov chains, both discrete and continuous time, including Poisson point processes. Queuing theory, terminology and single queue systems are studied with some introduction to networks of queues. Uses Monte Carlo simulation of random variables throughout the semester to gain insight into the processes under study.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4560, STAT 4100 and APPM 5560
Requisites: Restricted to graduate students only.
Recommended: Prerequisite previous coursework equivalent to that of APPM 3570 or STAT 3100 or MATH 4510, with a minimum grade of C-.

STAT 5230 (3) Stochastic Analysis for Finance
Studies mathematical theories and techniques for modeling financial markets. Specific topics include the binomial model, risk neutral pricing, stochastic calculus, connection to partial differential equations and stochastic control theory.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4530, APPM 5530 and STAT 4230
Requisites: Restricted to graduate students only.
Recommended: Prerequisite previous coursework equivalent to that of APPM 3310 and one of APPM 3570, STAT 3100 or MATH 4510; all with minimum grade of C-.

STAT 5250 (3) Data Assimilation in High Dimensional Dynamical Systems
Develops and analyzes approximate methods of solving the Bayesian inverse problem for high-dimensional dynamical systems. After briefly reviewing mathematical foundations in probability and statistics, the course covers the Kalman filter, particle filters, variational methods and ensemble Kalman filters. The emphasis is on mathematical formulation and analysis of methods.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4510, STAT 4250 and APPM 5510
Requisites: Restricted to Graduate, Graduate Nondegree and non sponsored students only.

STAT 5310 (3) Statistical Modeling for Data Science
Introduces students to foundational concepts and techniques for statistical modeling in data science, including modern regression analysis, analysis of variance (ANOVA), experimental design, nonparametric methods, and generalized additive models. Considerable emphasis is placed on both theoretical results and applied data analysis.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites coursework equivalent to (STAT 3100 or MATH 4510 or MATH 5510) and (STAT 4000 or STAT 5000 or STAT 4520 or STAT 5520), and previous programming experience in Python or R.

STAT 5350 (3) Applied Deep Learning 1
Introduces students to state-of-the-art deep learning techniques employed in the industry. This course will focus on training neural networks and computer vision, including image classification and transformation, object detection, and facial recognition. Advanced topics will include domain adaptation and learning techniques. There will be an emphasis on reading current literature.
Equivalent - Duplicate Degree Credit Not Granted: STAT 4350
Requisites: Restricted to graduate students only.
Recommended: Prerequisiteprobability (equivalent to APPM 3570), statistics (equivalent to STAT 3400), some familiarity with numerical analysis, solid knowledge of Python, and familiarity with TensorFlow and PyTorch is a plus but is not a requirement.

STAT 5360 (3) Applied Deep Learning 2
Introduces students to state-of-the-art deep learning techniques employed in the industry. This course will focus on natural language processing, multimodal learning, generative and graph neural networks, speech and music recognition, and reinforcement learning. Students will learn software engineering techniques using Python. There will be an emphasis on reading current literature.
Equivalent - Duplicate Degree Credit Not Granted: STAT 4360
Requisites: Requires prerequisite course of STAT 5350 (minimum grade C-). Restricted to graduate students only

STAT 5400 (3) Advanced Statistical Modeling
Introduces methods, theory and applications of modern statistical models, from linear to hierarchical linear models, to generalized hierarchical linear models, including hierarchical logistic and hierarchical count regression models. Topics such as estimation, residual diagnostics, goodness of fit, transformations, and various strategies for variable selection and model comparison will be discussed in depth. Examples will be demonstrated using statistical programming language R.
Equivalent - Duplicate Degree Credit Not Granted: STAT 4400
Requisites: Restricted to graduate students only.
Recommended: Prerequisite previous coursework equivalent to one of STAT 3400 or STAT 4010 or STAT 5010 and one of STAT 4520 or STAT 5520 or STAT 5530; all with a minimum grade of C-.
Grading Basis: Letter Grade

STAT 5430 (3) Spatial Statistics
Introduces the theory of spatial statistics with applications. Topics include basic theory for continuous stochastic processes, spatial prediction and kriging, simulation, geostatistical methods, likelihood and Bayesian approaches, spectral methods and an overview of modern topics such as nonstationary models, hierarchical modeling, multivariate processes, methods for large datasets and connections to splines.
Equivalent - Duplicate Degree Credit Not Granted: STAT 4430
Requisites: Restricted to graduate students only.
Recommended: Prerequisite previous coursework equivalent to one of STAT 3400 or STAT 4010 or STAT 5010 and one of STAT 4520 or STAT 5520 or STAT 5530; all with a minimum grade of C-.

STAT 5520 (3) Introduction to Mathematical Statistics
Examines point and confidence interval estimation. Principles of maximum likelihood, sufficiency, and completeness: tests of simple and composite hypotheses, linear models, and multiple regression analysis if time permits. Analyzes various distribution-free methods. Department enforced prerequisite: one semester calculus-based probability course, such as MATH 4510 or APPM 3570.
Equivalent - Duplicate Degree Credit Not Granted: STAT 4520 and MATH 4520 and MATH 5520
Requisites: Restricted to graduate students only.
Recommended: Prerequisite previous coursework equivalent to APPM 3570 or STAT 3100 or MATH 4510; minimum grade of C- for all.

STAT 5530 (3) Mathematical Statistics
Covers the theory of estimation, confidence intervals, hypothesis testing, and decision theory. In particular, it covers the material of APPM 5520 in greater depth, especially the topics of optimality and asymptotic approximation. Additional topics include M-estimation, minimax tests, the EM algorithm, and an introduction to Bayesian estimation and empirical likelihood techniques. Recommended Prerequisite is a one-semester calculus-based probability course such as MATH 4510 or APPM 3570.
Equivalent - Duplicate Degree Credit Not Granted: STAT 5520 or MATH 5520 or STAT 4520 or MATH 4520
Requisites: Restricted to graduate students only.

STAT 5540 (3) Introduction to Time Series
Studies basic properties, trend-based models, seasonal models modeling and forecasting with ARIMA models, spectral analysis and frequency filtration. Department enforced prerequisite: APPM 5520 or MATH 5520.
Equivalent - Duplicate Degree Credit Not Granted: STAT 4540 and MATH 4540 and MATH 5540
Requisites: Restricted to graduate students only.
Recommended: Prerequisite previous coursework equivalent to STAT 4520 or MATH 4520 or STAT 5520 or MATH 5520; minimum grade of C- for all.

STAT 5600 (3) Methods in Statistical Learning
Provides an introduction to methods in the field of statistical learning. Topics include a review of multiple regression, assessing model accuracy, classification, resampling methods, model selection and regularization, nonlinear regression, tree-based methods, support vector machines and unsupervised learning. Involves hands-on data analysis using the R programming language.
Requisites: Requires prerequisite course of STAT 5010 (minimum grade C-). Restricted to MS-DS students.

STAT 5610 (3) Statistical Learning
Consists of applications and methods of statistical learning. Reviews multiple linear regression and then covers classification, regularization, splines, tree-based methods, support vector machines, unsupervised learning and Gaussian process regression.
Equivalent - Duplicate Degree Credit Not Granted: STAT 4610
Requisites: Restricted to graduate students only.
Recommended: Prerequisite previous coursework equivalent to that of STAT 3400 or STAT 4010 or STAT 5010; minimum C- grade for all.

STAT 5630 (3) Computational Bayesian Statistics
Introduces Bayesian statistics, normal and non-normal approximation to likelihood and posteriors, the EM algorithm, data augmentation, and Markov Chain Monte Carlo (MCMC) methods. Additionally, introduces more advanced MCMC algorithms and requires significant statistical computing. Examples from a variety of areas, including biostatistics, environmental sciences, and engineering, will be given throughout the course.
Equivalent - Duplicate Degree Credit Not Granted: STAT 4630
Requisites: Requires prerequisite courses of (STAT 5520 or MATH 5520 or STAT 5530) and (APPM 5560 or STAT 5100 or APPM 6550 or MATH 6550) (all minimum grade C-).
Recommended: Prerequisite prior programming and basic statistical modeling experience is required.

STAT 5640 (3) Capstone in Statistics and Data Science
Course provides senior-level and graduate students the opportunity to apply the knowledge, skills, and abilities developed throughout the Statistics and Data Science major. Working in teams, students undertake a data-driven problem presented by domain experts from government, industry, or academia. The course provides valuable real-world experience for students intending to pursue graduate education or technical careers. Topics include team building, problem solving, research methods, project management, data ethics, and clear communication (oral, written, and visual).
Equivalent - Duplicate Degree Credit Not Granted: STAT 4640
Requisites: Restricted to graduate students only.
Recommended: Prerequisite STAT 4400 or STAT 4610.
Grading Basis: Letter Grade

STAT 5650 (3) Randomized Algorithms
Investigates modern randomized methods that are used in scientific and numerical computing, in particular randomized matrix approximation methods. Other topics may include stochastic gradient methods and variance reduced versions, compressed sensing, and locality sensitive hashing.
Equivalent - Duplicate Degree Credit Not Granted: APPM 5650
Requisites: Restricted to graduate students only.
Recommended: Prerequisite APPM 4440 or equivalent.

STAT 5680 (3) Statistical Collaboration
Educates and trains students to become effective interdisciplinary collaborators by developing the communication and collaboration skills necessary to apply technical statistics and data science skills to help domain experts answer research questions. Topics include structuring effective meetings and projects; communicating statistics to non-statisticians; using peer feedback, self-reflection and video analysis to improve collaboration skills; creating reproducible statistical workflows; working ethically.
Equivalent - Duplicate Degree Credit Not Granted: STAT 4680
Requisites: Restricted to graduate students only.
Recommended: Prerequisite undergraduate statistics courses equivalent to STAT 4400 (minimum grade C-) or STAT 4010 (minimum grade C-) or Instructor's approval.
Grading Basis: Letter Grade

STAT 5690 (2) Advanced Statistical Collaboration
Educates and trains students to become advanced interdisciplinary collaborators by developing and refining the communication, collaboration and technical statistics and data science skills necessary to collaborate with domain experts to answer research questions. Students work on multiple projects. Discussions center on technical skills necessary to solve research problems and video analysis to improve communication and collaboration skills.
Equivalent - Duplicate Degree Credit Not Granted: STAT 4690
Requisites: Requires prerequisite course of STAT 4680 or STAT 5680 (minimum grade C-). Restricted to graduate students only.
Grading Basis: Letter Grade

STAT 5700 (3) Philosophical and Ethical Issues in Statistics
Introduces students to philosophical issues that arise in statistical theory and practice. Topics include interpretations of probability, philosophical paradigms in statistics, inductive inference, causality, reproducible, and ethical issues arising in statistics and data analysis.
Equivalent - Duplicate Degree Credit Not Granted: STAT 4700
Requisites: Restricted to graduate students only.
Recommended: Prerequisite previous coursework equivalent to STAT 3400 or STAT 4000 or STAT 4520 or STAT 5000 or STAT 5520 or STAT 5530; minimum grade C- for all.
Grading Basis: Letter Grade

STAT 5720 (1-3) Open Topics in Statistics and Data Science
Provides a vehicle for the development and presentation of new topics that may be incorporated into the core courses in applied mathematics. Department enforced prerequisite: variable, depending on the topic, see instructor.
Equivalent - Duplicate Degree Credit Not Granted: STAT 4720
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Sustainability and Social Innovation Residential Academic Program (SSIR)

Courses

SSIR 1010 (3) Social Entrepreneurship & Sustainability
Engages students in understanding, through critical thinking, problem solving, and collaborative projects, how different change models, including social entrepreneurship, can lead to sustainable outcomes. Based on a combination of lectures, exams, group work, exercises, readings, in-class discussion and analysis, and speakers, students develop skills to work collaboratively on a problem-oriented topic and present project to public audience at semester end.
Requisites: Restricted to Sustainability by Design Residential Academic Program (PSBD) or Sustainability and Social Innovation Residential Academic Program (PSEE) students only.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences

Swedish (SWED)

Courses

SWED 1010 (4) Beginning Swedish 1
Additional Information: Departmental Category: Swedish

SWED 1020 (4) Beginning Swedish 2
Department enforced prerequisite: SWED 1010 (minimum grade C-).
Equivalent - Duplicate Degree Credit Not Granted: SWED 1120
Additional Information: Departmental Category: Swedish

SWED 1110 (4) Beginning Swedish 1 - Directed Independent Language Study
Provides practical, communicative language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Introduces students to Swedish history and contemporary culture and society.
Additional Information: Departmental Category: Swedish

SWED 1120 (4) Beginning Swedish 2 - DILS
Continuation of SWED 1110 DILS. Provides practical, communicative language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Introduces students to Swedish history and contemporary culture and society. Department enforced prerequisite: SWED 1110 (minimum grade C-).
Equivalent - Duplicate Degree Credit Not Granted: SWED 1020
Additional Information: Departmental Category: Swedish

SWED 1900 (1-6) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Swedish

SWED 2010 (4) Intermediate Swedish 1 -DILS
Continuation of SWED 1120 DILS. Provides practical, communicative language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Introduces students to Swedish history and contemporary culture and society. Department enforced prerequisite: SWED 1120 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: Swedish

SWED 2020 (4) Intermediate Swedish 2 - DILS
Develops intermediate reading, writing, speaking and verbal comprehension skills. Uses the Directed Independent Language Study (DILS) model that combines in-class exercises and lectures with independent study. Reviews and continues content of SWED 2010. Directed independent language study course requires work outside of class. Department enforced prerequisite: SWED 2010 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Swedish

SWED 2110 (4) Second-Year Swedish Reading and Conversation 1
Provides practical, communicative language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Introduces students to Swedish history and contemporary culture and society. Department enforced prerequisite: SWED 1010 or SWED 1110 (minimum grade C-).
Additional Information: GT Pathways: GT-AH4 - Arts Hum: Foreign Languages
Arts Sci Gen Ed: Foreign Language
Departmental Category: Swedish

SWED 2120 (4) Second-Year Swedish Reading and Conversation 2
Provides practical, communicative language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Introduces students to Swedish history and contemporary culture and society. Department enforced prerequisite: SWED 1020 or SWED 1120 (minimum grade C-).
Additional Information: Departmental Category: Swedish

SWED 3010 (3) Advanced Swedish 1-DILS
Continuation of Intermediate Swedish 2. Provides advanced language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Exposes students to historical and modern Swedish culture and society. Directed independent language study course, requires work outside of class. Department enforced prerequisite: SWED 2020 - DILS (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Swedish

SWED 3020 (3) Advanced Swedish 2 - DILS
Continuation of Advanced Swedish 1. Provides advanced language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Exposes students to historical and modern Swedish culture and society. Directed independent language study course, requires work outside of class. Department enforced prerequisite: SWED 3010 - DILS (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Swedish

SWED 3900 (1-6) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Swedish

Technology, Cybersecurity & Policy (CYBR)

Courses

CYBR 4320 (3) Cybersecurity Network Analytics
This Cybersecurity Network Analytics course takes a hands-on approach to detecting malicious activity within network traffic. The course will first introduce methodologies for analyzing cyber data. This knowledge will then be used practically, as the students will be given the chance to test out approaches on real traffic. At the conclusion, students will have both a theoretical understanding of cyber algorithms and their use in a real-world setting.
Equivalent - Duplicate Degree Credit Not Granted: CYBR 5320
Requisites: Requires prerequisite course of CYBR 3300 or CSCI 3403 (minimum grade C-).
Recommended: Prerequisite C++ and Linux/Unix experience and knowledge of computer networking.

CYBR 5000 (3) Seminar in Technology, Cybersecurity and Policy
Introduces students to major topics and research at the interface of technology, cybersecurity, and policy by providing a weekly series of guest lectures with questions and discussion. These lectures will be followed by related readings, class discussions, and group work, which show the relationship of cybersecurity and new technology to policy.

CYBR 5010 (3) Fundamentals of Data Communication
Combining conceptual knowledge about data communications and core Internet technologies with hands-on labs that reinforce the conceptual knowledge, this course provides students with the ability to create innovative technology solutions in their discipline. Learning how the Internet works and being able to evaluate and operate an Internet network is a valuable skill; students in this course will have a competitive advantage in this foundational field.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5010
Requisites: Restricted to Technology, Cybersecurity and Policy MS Majors and Business Analytics MS Majors.

CYBR 5020 (3) Fundamentals of Network Programming
This course provides an immersion into the foundation theories of network programming and software development for emerging technologies. Students will gain direct experience with real-world programming lab experiments and demonstrations that will relate to the prolific increase of cross-discipline programming.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5020
Requisites: Restricted to Technology, Cybersecurity and Policy MS Majors.

CYBR 5030 (3) Fundamentals of System Administration and Virtualization
Introduces the basic use and administration of Unix and Linux systems. Topics include booting and system management, scripting, storage and logical volume management, filesystem configuration, account management and password security, process control, software installation, event logging and system auditing. Students will also develop familiarity with virtualization platforms such as VirtualBox and VMware to implement and test their system configurations.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5030 CSCI 5113 and CYBR 5113 and CSCI 4113
Requisites: Restricted to Technology, Cybersecurity and Policy MS Majors.

CYBR 5113 (3) Linux System Administration
Introduces Linux system administration and related topics. Includes hardware and software installation, storage management, configuration of user accounts and system services, development of automation and monitoring tools, and the provisioning of common network services. This laboratory focused course will provide significant exposure to the network security concerns of Internet connected hosts. Students will build a network of Linux servers from the ground up, using provided computing resources, and must maintain and secure these servers themselves. Previously offered as a special topics course.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5113 and CSCI 4113 CYBR 5030 and CSCI 5030
Requisites: Restricted to Technology, Cybersecurity and Policy (CYBR) graduate students only.
Recommended: Prerequisite CSCI 3753 (minimum grade B).

CYBR 5200 (3) Introduction to Wireless Systems
Overviews the distinctive characteristics of the wireless communications medium. Topics covered include: Analog signals, Antennas and Propagation, Digital Signals, Sampling, Quadrature Signals, Digital Modulation, SNR and SINR Concepts, Channel Models, Channel Statistics, and Link Budgets. The course includes an introduction to MIMO and beam-forming as implemented in modern communication systems. Software Defined Radio (SDR) is introduced to facilitate student hands-on learning of radio operation. Previously offered as a special topics course.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5200 and CSCI 4200
Recommended: Prerequisites CYBR 5010 and CYBR 5012.

CYBR 5220 (3) Wireless Local Area Networks
Emphasis on the IEEE P802.11 family of WLAN standards. Students learn the legacy versions of the standard (802.11DS/b), the current generation of WLAN systems (802.11a/g/n/ac), and will to analyze and critique upcoming versions (802.11ax/ba), and gain insight into proposals for new research in WLAN. Exposure to the interoperability and certification process for WLAN by the Wi-Fi Alliance, study the newest Wi-Fi Certified¿ programs, and will learn how to model and analyze WLAN traffic using industry standard tools.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5220 and ECEN 5122
Requisites: Requires prerequisite course of CYBR 5010 or CSCI 5010 or CSCI 5273 (minimum grade B).
Recommended: Prerequisite CYBR 5200 or CSCI 5220.

CYBR 5230 (3) Wireless Systems Lab
This Wireless Solutions Architecture course is designed to examine the core concepts of wireless architecture, design and implementation. The course will focus on architecting solutions unlicensed technology, specifically enterprise Wi-Fi networks. Students will learn how to design, implement, troubleshoot and operate enterprise wireless networks.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5230
Requisites: Requires prerequisite course of CYBR 5200 (minimum grade B).
Recommended: Prerequisite CYBR 5010.

CYBR 5240 (3) Introduction to Blockchain
Examines an emerging technology known as blockchain. Blockchain refers to the distributed and decentralized database technology behind popular cryptocurrencies such as Bitcoin and Ethereum. However, it can be used to record and transfer any digital asset, not just currency. This course explores the fundamentals of blockchain technology and its application from three key perspectives: policy and governance, technology, and application. Students gain an understanding of key concepts and how to apply them in the industry. Previously offered as a special topics course.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5240 and CSCI 4240
Requisites: Restricted to graduate students only.

CYBR 5250 (2-4) Technology Law and Policy Clinic
Features technology law advocacy before administrative, legislative and judicial bodies in the public interest. Formerly TLEN 5250. Instructor consent required.
Equivalent - Duplicate Degree Credit Not Granted: LAWS 7809
Requisites: Restricted to CYBR/TLEN graduate students.
Grading Basis: Letter Grade

CYBR 5260 (3) Seminar: Law and Economics of the Information Age
Examines basic regulatory and legal challenges of our information economy and digital age. Emphasizes the "networked" information industries, the proper role of "unbundling" policies to advance competition and how intellectual property and antitrust rules should be developed. Formerly TLEN 5260.
Equivalent - Duplicate Degree Credit Not Granted: LAWS 8341
Requisites: Restricted to CYBR/TLEN graduate students.

CYBR 5300 (3) Cybersecurity
Introduces core concepts in cybersecurity including confidentiality, integrity, authentication, risk management, and adversarial thinking. The concepts will be applied to both traditional information technology (IT) systems and cyber physical systems (CPS). The course provides a cyber security foundation that will allow practitioners in other fields apply to understand cyber security trade-offs and will also provide interested students with a basis further study in cyber security. At the conclusion of the course, students should have a solid foundation in cybersecurity and hands-on experience.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5403
Requisites: Restricted to graduate students only.

CYBR 5303 (1) Cybersecurity Club Companion Course
Gives students hands-on experience applying practical security skills and adversarial thinking to real-world problems. Students will work in small teams on internal challenges, lab development, open source contributions, and will represent the university in larger teams for external challenges at the national and global level, such as those hosted by Collegiate Cyber Defense Competition (CCDC), Wicked6, DOE CyberForce, etc. Students will be expected to participate in both internal and external challenges, attend meetings, and present short presentations to the group when appropriate. Previously offered as a special topics course.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5303 and CSCI 4303
Repeatable: Repeatable for up to 3.00 total credit hours.
Recommended: Prerequisites CYBR 5300 or CSCI 5403 or CSCI 3403.

CYBR 5320 (3) Cybersecurity Network Analytics
This Cybersecurity Network Analytics course takes a hands-on approach to detecting malicious activity within network traffic. The course will first introduce methodologies for analyzing cyber data. This knowledge will then be used practically, as the students will be given the chance to test out approaches on real traffic. At the conclusion, students will have both a theoretical understanding of cyber algorithms and their use in a real-world setting.
Equivalent - Duplicate Degree Credit Not Granted: CYBR 4320
Requisites: Requires prerequisite courses CYBR 5300 or CSCI 3403 or CSCI 5403 or MSBX 5480 (minimum grade B).
Recommended: Requisite C++ and Linux/Unix experience and knowledge of computer networking.

CYBR 5330 (3) Digital Forensics
Learn how to identify, collect, examine, analyze, and present digital evidence and the legal challenges associated with conducting digital forensics investigations. Explore various file system types and structures. Learn how to recovery and extract potential evidence from deleted files and directories. Learn how to capture and profile data residing in live memory. Analyze running processes and recover memory artifacts. Learn about various methods data can be hidden on a computing devices, storage media, and within covert communications channels.
Recommended: Prerequisites CYBR 5300 or CSCI 3403 or CSCI 5403.

CYBR 5340 (3) VOIP Network Design
Focuses on VoIP network design and optimization. The emphasis is on the convergence of VoIP, PSTN and cell phone networks and signaling. Topics include voice processing as well as IP and SS7 signaling. In addition there will be a review of ISDN, DSL, Sonet, ATM, SIP and MPLS. There will be a case problem for sizing a VoIP network using silence suppression. Formerly TLEN 5340.
Requisites: Requires corequisite of CYBR 5001. Restricted to CYBR or BUSN graduate students.

CYBR 5350 (3) Security Auditing and Penetration Testing
This course is an introduction to the principles and techniques associated with security auditing and penetration testing. Topics covered include; planning, reconnaissance, scanning, enumeration, exploitation, post-exploitation, and reporting. Students discover how system vulnerabilities can be exploited. Students will develop an understanding of current cybersecurity issues and how user, administrator, and programmer errors can result in security breaches.
Recommended: Prerequisites CYBR 5300 or CSCI 3403 or CSCI 5403.

CYBR 5400 (3) Principles of Internet Policy
Engages in the critical strategic analysis and debate of controversial public policy issues raised by the Internet. Learn how to develop well-reasoned positions on the regulations applied to new Internet-based technologies and business models based on interdisciplinary frameworks that characterize the significant intersection of technology, economics, business, and public policy. Policy topics covered include Broadband as a Universal Service, Net Neutrality, Spectrum Management, Online Privacy, and Cybersecurity.

CYBR 5410 (3) Telecommunications Law and Policy
Examines laws governing telecommunications industries, including federal and state regulation and international aspects. Includes telephone, cable, satellite, cellular and other wireless systems and the Internet. Formerly TLEN 5240.
Equivalent - Duplicate Degree Credit Not Granted: LAWS 7241
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to CYBR or BUSN graduate Students

CYBR 5420 (3) Spectrum Management and Policy
Studies how spectrum policy is developed and implemented. A general framework is developed for understanding telecommunications law and regulatory objectives. Specifically analyzes international and domestic dimensions of spectrum policy. Considers how economics, administrative processes and innovative technologies affects management of the spectrum. Formerly TLEN 5230.
Requisites: Restricted to graduate students only.

CYBR 5505 (3) Leading Oneself
Provides working engineers a background in leadership concepts and methods and enables students to develop practical leadership skills through numerous in-class exercises and experimentation based assignments. Topics include authentic leadership, motivating self and others, cultivating emotional intelligence, personal mastery, creating accountability, conflict resolution, leading change and organizational culture. Required for all Engineering Management degree students.
Requisites: Restricted to Leeds School of Business or College of Engineering graduate students only.

CYBR 5510 (3) Technology: Commercial Strategy and Operations
Working in groups of 2 to 4, students will leverage their technical skills to learn and apply commercial/business skills via the consideration of a hypothetical competitive technically-oriented business, including its strategy, long-term financial outlook, and operating platform. Upon successful course completion, students should expect to feel confident when speaking with (and ultimately moving into roles of) management and leadership, regarding all critical aspects of business, especially the creation of equity value through scale at pace, aligning interests of all key stakeholders. Open to undergraduates with instructor consent.
Requisites: Restricted to graduate students only.

CYBR 5550 (3) Designing for Defense 1
Designing for Defense/Hacking for Defense is a national service program running at leading research universities across the country. Interdisciplinary teams¿chosen by competitive selection¿work on real-world national security challenges, in close contact with national security agencies. Teams employ the Lean Launchpad entrepreneurship methodology to develop engineering and business concepts to solve real-world challenges for special operations forces, the intelligence community, and other government agencies. Winning teams are eligible for real-world capital investment. The first semester of a two-course sequence. Students take this course, ASEN/CSCI/CYBR 5550, and ASEN/CSCI/CYBR 5580 contiguously as the sequence spans the academic year.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4550 and ASEN 5550 and CSCI 5550
Grading Basis: Letter Grade

CYBR 5580 (3) Designing for Defense 2
This course allows teams to continue their D4D journey from semester 1 guiding students in launching a business entity that will deploy agile development tools to refine and enhance their first semester MVP, seek funding for that development work, deliver a functioning solution to their sponsor, and extract real value for the members of the business unit.
Equivalent - Duplicate Degree Credit Not Granted: ASEN 5580 and CSCI 5580 and CSCI 4580
Requisites: Requires prerequisite course of ASEN 5550 or CSCI 5550 or CYBR 5550 (minimum grade B). Restricted to graduate students only.
Grading Basis: Letter Grade

CYBR 5620 (3) Advanced Wireless Lab
Provides a comprehensive, hands-on set of laboratory exercises for the teaching and demonstration of key technical skills required to understand, build, test, and analyze both analog and digital wireless communications concepts. In conjunction with lecture-based content to provide a solid foundation in digital communication theory, SDR-based laboratory exercises enable the synthesis of several fundamental concepts utilizing the latest, modern communications systems technologies.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5620
Requisites: Requires prerequisite course of CSCI 5200 or CYBR 5200 (minimum grade B).
Recommended: Prerequisites CYBR 5630 or CSCI 5630 and CYBR 5220 or CSCI 5220.

CYBR 5630 (3) Wireless and Cellular Systems
Studies technologies and architectures employed in modern cellular wireless systems. Major topics include radio propagation, multiple access techniques, analog and digital cellular telephony, and personal communications systems. Presents the necessary tools to understand the wireless industry, its technical details, and its business drivers. Topics include modeling, spectrum, weather, multipath, Doppler effect, and shadowing and covers important aspects of multiple access technologies such as CDMA and OFDMA. introduces modern radio standards including LTE.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5630
Requisites: Requires prerequisite course of CSCI 5200 or CYBR 5200 (minimum grade B).

CYBR 5830 (1-6) Special Topics
Current topics in technology, cybersecurity and policy.
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

CYBR 5910 (1-6) Independent Study
Special projects agreed upon by student and instructor. Department consent required. Formerly TLEN 5920.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to CYBR/TLEN graduate students.

CYBR 6940 (1) Master's Candidate for Degree
This course is for TCP Master's students who are approved candidates to receive their degree.
Requisites: Restricted to CYBR/TLEN graduate students.

CYBR 6950 (1-6) Master's Thesis
Original and independent research conducted by a graduate student under the supervision of a faculty advisor. Formerly TLEN 6950.
Requisites: Restricted to CYBR/TLEN graduate students.

CYBR 8990 (1-10) Doctoral Dissertation
Investigates specialized topic or field in the area of telecommunications. Approved and supervised by faculty members. Formerly TLEN 8990.
Requisites: Restricted to CYBR/TLEN PhD students.

Telecommunications (TLEN)

Courses

TLEN 5000 (3) Fundamentals of CyberSecurity for Leaders and Innovators
Designed for students without a computer science background, this course introduces core concepts in cybersecurity including, confidentiality, authentication, risk management, and adversarial thinking. The concepts will be applied to both traditional information technology (IT) systems and cyber physical systems (CPS). At the conclusion of the course, students should have a solid foundation in cycbersecurity and hands-on experience.
Requisites: Not open to Computer Science (CSCI) majors.
Grading Basis: Letter Grade

TLEN 5106 (3) International Deployment of Broadband Networks
Evaluates the business potential for deploying fixed or mobile broadcast networks in an international context. Guides students to develop financial statements to evaluate the investment potential of the venture. Covers: strategy, market potential, sales channels, costs, regulatory and financial issues all in an international context. Project teams mimic the matrix structure of working teams in business context and present to an investor their recommendations.
Requisites: Restricted to students with 87-180 credits (Senior) or graduate students in the College of Engineering or Leeds School of Business only.

TLEN 5150 (1) Managing Effectively in a Changing Telecommunications Environment
Provides students with an opportunity to join international managers and policy makers from around the world in an intensive seminar focused on the challenges of managing in a telecommunications environment in an era of technological change. Guest lecturers provide an effective overview of the cutting-edge issues managers face in telecom and technology companies around the world.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 5150

TLEN 5190 (3) Standardization and Standards Wars
Examines current issues and strategy in the standardization of telecommunications and information technologies. Covers topics on the importance of standards, government and private sector perspectives, and impact of information age technologies on standards development. Introduces students to relevance of antitrust and intellectual property law to the topic.

TLEN 5245 (3) Introduction to Intellectual Property Law
Provides an overview of our nation's intellectual property laws, including patent, copyright, trademark, trade secret and also discusses other assorted matters related to intellectual property, including licensing, competition policy issues and remedies.
Equivalent - Duplicate Degree Credit Not Granted: LAWS 6301
Requisites: Restricted to CYBR/TLEN graduate students.

TLEN 5265 (3) Copyright
Examines state and federal laws relating to the protection of works of authorship ranging from traditional works to computer programs. Studies the 1976 Copyright Act as well as relevant earlier acts. Gives attention to state laws, such as interference with contractual relations, the right of publicity, moral right, protection of ideas and misappropriation of trade values, that supplement federal copyright.
Requisites: Restricted to CYBR/TLEN graduate students.

TLEN 5300 (1-3) Telecommunications Theory and Applications
Examines the mathematical and physical theory of telecommunications. Deals with the fundamental concepts related to a wide range of topics including physical units, numbering systems, trigonometric functions, logarithms, indices, decibels, complexnumbers, calculus, elementary probability, and power circuit analysis.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.

TLEN 5350 (3) Commercial Spaceflight Operations and Communications
Aimed at a high level fundamental understanding of broadcasting, communication and navigation satellite systems. Topics include orbital mechanics, orbit selection, spacecraft subsystems, spacecraft and earth station configurations, propagation issues, link budgets, modulation and multiplexing techniques, multiple access schemes (FDMA, TDMA, CDMA), error control coding, satellite network architecture, and economic, regulatory and business issues in Geo, Meo, and Leo systems.
Requisites: Requires corequisite of TLEN 5330. Restricted to graduate students in TLEN or BUSN.

TLEN 5430 (3) Data Communications 2
Provides a detailed technical study of Internet and Internet-related protocols following a top-down approach through the protocol stack. Bit-level analysis of a large number of Internet and Internet-related protocols, including the study of classic protocol suite principles. Covers real time and near real-time data streaming, IP mobility, IPV6, and an introduction to Internet security.
Requisites: Requires prerequisite course of TLEN 5330 or CSCI 4273 or CSCI 5273 (minimum grade D-). Restricted to TLEN or CSCI or BUSN grad students, or TLEN BS/MS students (C-AMENTLEN; C-CSCITLEN; C-CSENTLEN; C-ECENTLEN).

TLEN 5438 (3) Internet Lab
Have you ever wondered how the Internet actually works? This course teaches students simple, hands-on understanding of the technical components and challenges of providing Internet Services to everyday users. This is the ideal course for technical or non-technical students who have a passion for the Internet or need to have a more detailed understanding of the Internet within their career.
Grading Basis: Letter Grade

TLEN 5530 (3) Applied Network Security
Examines the critical aspects of network security. a technical discussion of threats, vulnerabilities, detection, and prevention is presented. Issues addressed are cryptography, firewalls, network protocols, intrusion detection, security architecture, security policy, forensic investigation, privacy, and the law.
Requisites: Restricted to CSCI juniors and seniors, or TLEN or CSEN graduate students, or TLEN BS/MS students (C-AMENTLEN; C-CSCITLEN; C-CSENTLEN; C-ECENTLEN).

TLEN 5540 (3) Network Security Laboratory
Applies what students have learned in computer and network security foundations in a simulated network environment. Topics to be covered include: system hardening, firewalls, intrusion detection, vulnerability assessment, and investigation.
Requisites: Restricted to CSCI juniors and seniors, or TLEN or CSEN graduate students, or TLEN BS/MS students (C-AMENTLEN; C-CSCITLEN; C-CSENTLEN; C-ECENTLEN).
Recommended: Prerequisite TLEN 5530 and operating system experience.

TLEN 5550 (3) Computer and Network Security
Studies methods to protect information, and the ability to process and move information, from theft, misuse, tampering, destruction and unauthorized access. Introduces foundational topics of computerand network security, including security models, cryptography and authentication protocols.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 6268
Requisites: Restricted to Engineering Graduate Students and TLEN BS/MS students (C-AMENTLEN; C-CSCITLEN; C-CSENTLEN; C-ECENTLEN).
Recommended: Prerequisites CSCI 5273 and significant experience in coding (C or C++) and some experience in networks and familiarity with TCP/IP, UDP and ICMP.

TLEN 5700 (2) Research Methods
Develop basic concepts and methods for pursuing quantitative and qualitative research. Students will develop a research proposal that will be completed in TLEN 5710 or as a Master's Thesis. Writing skills test required.
Requisites: Restricted to CYBR or BUSN graduate Students

TLEN 5710 (1-3) Capstone
Complete Capstone research project initiated in TLEN 5700.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Requires prerequisite course of TLEN 5700. Restricted to TLEN or BUSN graduate students only.

TLEN 5841 (3) Secure Web Application Development
Learn to develop and protect secure applications for web and mobile. Students will develop in a production cloud environment mirroring industry trends. Techniques to resist attackers and increase situational awareness will be covered. The class culminates with an end of semester project applying secure coding techniques to build a secure web application from start to finish.
Requisites: Restricted to CSCI juniors and seniors, or TLEN or CSEN graduate students, or TLEN BS/MS students (C-AMENTLEN; C-CSCITLEN; C-CSENTLEN; C-ECENTLEN).
Grading Basis: Letter Grade

TLEN 6438 (3) Internet Lab 2
Builds on TLEN 5438 Internet Lab, and teaches students simple, hands-on understanding of the technical components and challenges of providing Internet Services to everyday users. This is the ideal course for students with a basic foundation of technology who have a passion for the Internet or need to have a more detailed understanding of network security and wireless networks within their career.
Requisites: Requires prerequisite TLEN 5438 (minimum grade B-).
Grading Basis: Letter Grade

TLEN 7000 (1-6) Current Topics in Telecommunications
Studies research topics of current interest in telecommunication and networking.
Repeatable: Repeatable for up to 8.00 total credit hours.
Requisites: Restricted to CYBR/TLEN graduate students.

TLEN 7001 (3) Interdisciplinary Telecom Analysis
Examines a set of problems, research methodologies and analytical techniques that are common to the research, problem solving and analysis of information and communications technology development and deployment issues. Looks critically at the strengths, limitations and underlying assumptions of key research and analysis approaches that relate business, economic and policy objectives to current and future telecommunications development and deployment efforts.
Requisites: Restricted to CYBR/TLEN graduate students.
Grading Basis: Letter Grade

Theatre (THTR)

Courses

THTR 1003 (3) Acting 1
Introductory course designed to explore creativity, collaboration and communication in the craft of acting. Focuses on basic terms and concepts of psychological realism fundamental to the actors' process through solo work and ensemble exercises. Open to majors and non-majors.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 1009 (3) Theatre and Society
Explores the importance of telling (and listening) to stories from the stages of the world; in theatre we learn what people value in their time and place. Investigates the range of genres of theatre in today's society and how theatrical artwork is devised and presented. Ideal for non-majors.
Additional Information: GT Pathways: GT-AH1 - Arts Hum: Arts Expression
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Special Courses in Theatre

THTR 1011 (3) Global Theatre 1: Live Performance to Shakespeare
Travels across four continents exploring live performance from the beginning of recorded history to Shakespeare through various forms of theatrical storytelling including masked dramas, shadow puppets, kabuki, passion plays and commedia.
Additional Information: GT Pathways: GT-AH1 - Arts Hum: Arts Expression
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: History/Dramaturgy/Directing

THTR 1019 (3) Script Laboratory: Text Analysis and Practice for the Theatre
Introduces fundamental methods of text analysis for performance. Equips theatre makers with common vocabulary and concepts to more effectively communicate when collaborating with other artists. Provides tools for analyzing any narrative art form.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) Theatre (THTR or TBFA) majors only (excluding minors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Special Courses in Theatre

THTR 1050 (3) Introduction to Stagecraft and Design
Hands on project-based learning introducing the craft, principles, and practices of stagecraft and design. Students execute varied projects in topics including scenic, lighting, sound, and costume design as well as stage management, scenic construction, painting, props, sewing, hair and wigs, dyeing, and makeup. This course is ideal for those interested in theatre, film, dance, fine art, architecture, cosplay, fashion, engineering, and game design.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

THTR 1105 (3) Stage Technologies
Introduces technical production elements and procedures, including materials, organizations, methods and equipment to realize theatrical scenery, properties, lighting and sound.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 1115 (3) Costume Technologies
Introduces technical production elements and procedures including materials, organizations, methods and equipment to realize theatrical costuming and make-up.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 1117 (2) Musical Theatre Studio I
Explores creativity, collaboration, and communication in the craft of acting both in musical theatre and stage acting, specifically directed to the Musical Theatre degree student. Focuses on terms and concepts of psychological realism fundamental to the actors' process through solo work and ensemble exercises. Emphasis on developing a character through analysis and scene study. Various acting modalities will be introduced.
Equivalent - Duplicate Degree Credit Not Granted: PMUS 1117
Grading Basis: Letter Grade

THTR 1217 (2) Musical Theatre Lab 2
Focus on building terms and concepts introduced in THTR 1117. A more thorough emphasis is placed on developing character, utilizing analysis tools, and scene study of musical theatre works. Both lecture and performance-based class. Includes advanced repertoire and further song/monologue study in terms of crafting a character and building an arc for the character in a song and/or an identified specific moment.
Requisites: Restricted to BFA Musical Theatre and BM Musical Theatre students only.
Grading Basis: Letter Grade

THTR 2021 (3) Global Theatre 2: Contemp Relevance and Resonance Forms of Pre-Colonial Modern Theatre and Performan
This course explores world performance and theatre before and after European imperialism and settler colonialism, until 1850. By studying examples from Africa, Greece, Asia, India, Europe, and the Americas we will better understand the roots of theatre and performance today, and gain insight into epistemologies that might spur how to imagine into being a more equitable and sustainable world.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: History/Dramaturgy/Directing

THTR 2035 (3) Design Fundamentals
Introduces principles and techniques relevant to the expression of dramatic mood and idea through visual elements of the theatre, giving practice in conceptdevelopment, style selection, and rendering techniques in scenery and costume design.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 2043 (3) Voice and Movement for the Stage
Natural resources of the human voice and body are studied as artistic resources for the performing artist. Designed to examine both the process and products of vocal and physical craft work. Please consult professor if you are interested in taking this class but do not fill the prerequisites.
Requisites: Restricted to Theatre (THTR, TBFA) or Dance (DNCE or DBFA) majors only (excluding minors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 2050 (2) Technical Theatre for Performance
Hands on learning in an immersive environment, students are embedded into the Theatre and Dance department workshops and crews. Students gain direct experience in scenic construction, painting, props, costumes, stage lighting, media and projections, sound, and performance design as determined by the production season. This course is ideal for students interested in theatre, film, dance, performance art, design, and technical theater.

THTR 2059 (3) Open Topics in Theatre and Drama
Covers topics not otherwise listed in the curriculum. Topics for each semester are specified in the online schedule planner.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Special Courses in Theatre

THTR 2105 (3) Introduction to Performance Design
Introduces the creative/collaborative process of design for theatre and dance, including scenery, costume, lighting, and sound. Students create design projects and evaluate them with regard to artistic and practical concerns. Much of the course work is hands-on, experiential, and team-oriented.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 2117 (2) Musical Theatre Studio Class III
Explores the creation of extended musical theatre performance using acting, movement and vocal techniques, with an emphasis on the ensemble. Topics: finding the arc of a role, staging techniques for small and large ensembles, rehearsal and performance skills for a range of contexts from summer stock to Broadway.
Equivalent - Duplicate Degree Credit Not Granted: PMUS 2117
Requisites: Restricted to College of Music undergraduates (MUSCU) and BFA Musical Theatre (TBFA-BFA) students only.
Grading Basis: Letter Grade

THTR 2849 (1-3) Independent Study
Repeatable: Repeatable for up to 3.00 total credit hours.
Additional Information: Departmental Category: Special Courses in Theatre

THTR 3005 (3) Costume Design 1
Hands on studio course for students interested in theatre, dance, film, media studies, clothing, design, watercolor painting, psychology, sociology, history, art, art history, period styles, literature and cosplay. Students will learn, explore and practice literary analysis, character profiling, figure drawing, painting, fashion and clothing history and fabric selection to research, conceive, design and paint costume plates for several performance pieces over the course of the semester.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 3011 (3) American Musical Theatre History
This course investigates diversity in American musical theatre through the disciplinary frameworks of critical race theory, intersectional feminism, the American Myth, Jewish and LGBTQIA+ theories, and music and performance theory. In addition to increasing students¿ knowledge, understanding, and appreciation of this uniquely American art form, this course encourages students to examine larger historical and/or political events and movements through the lens of the reception and development of musicals in a given time period.
Recommended: Prerequisite 3 credits in THTR, DNCE or MUSC.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: History/Dramaturgy/Directing

THTR 3013 (3) Studio 1: Building a Character
Students learn to deepen and develop their proficiency with specific acting techniques. Explores the craft elements of acting, as well as text analysis.
Requisites: Requires prerequisite course of THTR 1003 (minimum grad C-). Restricted to Theatre (TBFA) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 3015 (3) Scene Design 1
Engages students in the creative process of creating spatial worlds for dramatic texts. Students learn to read and analyze scripts and scores, conceptualize and envision environments, express design ideas, draw, draft and build scale 3D models of stage sets.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 3020 (3) Filmmaking Abroad: Acting & Directing Internationally
Offers an intensive three-week production seminar to realize a short narrative film. Students immerse themselves in a city abroad, in collaboration with fellow CU students and the host population, as they scout locations and film their projects. Requires production responsibilities on both sides of the camera. A Global Seminar offered during Maymester through CU International Education.
Equivalent - Duplicate Degree Credit Not Granted: CINE 3020
Requisites: Requires prerequisite course of CINE 3400 or THTR 1003 (minimum grade C-).

THTR 3023 (3) Studio 2: Creating a Role
Continued development of acting technique and tools for play analysis, with particular emphasis on scene study. Special attention will be given to the Master Teachers of Acting and their pedagogies.
Requisites: Requires prerequisite course of (THTR 1003 or PMUS 1117 or PMUS 1217) and THTR 3053 (all minimum grade C-) or Theatre (TBFA) majors.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 3031 (3) Development of Theatre 3: 20th Century International Drama
Introduces 20th century international drama. Discusses selected plays by major African, Asian, and European authors and explores different dramatic traditions and their increasing interactions throughout the 20th century.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: History/Dramaturgy/Directing

THTR 3033 (1-3) Production Research and Practicum: Acting
Allows students to undertake an acting project, either within the major season or approved departmental production. Requires detailed preparational research, rehearsal commitments, and public presentation of theories and concepts in practice. Following the performance, students present written reports and evaluations.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Performance

THTR 3035 (1-2) Production Practicum
Practical production projects within a designated area of technical theatre, design, stage management, normally related to the department's season.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Theatre Design and Technology

THTR 3037 (2-3) Shakespeare Practicum
Students are assigned to work with production artisans of the Colorado Shakespeare Festival. While there are many possible areas, production designs for each season determine the number of available positions. May substitute for two credits of THTR 3035.
Requisites: Requires prerequisite courses of THTR 1105 and THTR 1115 (all minimum grade C-).
Additional Information: Departmental Category: Shakespearean Production

THTR 3043 (3) Advanced Voice for the Stage
Continues the work begun in THTR 2043. Studies advanced vocal techniques with the goal of integrating these skills into the working process of the performing artist.
Requisites: Requires prerequisite course of THTR 1003 or PMUS 1117 or PMUS 1217 and THTR 2043 (all minimum grade C-). Restricted to Theatre (THTR or TBFA) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 3045 (3) Stage Management
Covers stage management from the inception of a production concept through the process of mounting aproduction, focusing on the interrelationships of the various artists involved, management and scheduling of time, and the psychology of handling a wide range of personalities.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

THTR 3053 (3) Acting 2
Continuation of the techniques introduced in Acting 1 (THTR 1003). Emphasis is placed on monologues and scene study of contemporary plays. Basic technique in developing a character are explored.
Requisites: Requires prerequisite course of THTR 1003 or PMUS 1117 or PMUS 1217 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

THTR 3055 (3) Stage Lighting Design 1
Hands on learning in a creative lab-based environment exploring introductory practices of performance lighting design. Ideal for students excited by storytelling, technology, creating moods, the science of the human eye, human perception, and for students studying theatre, film, dance, art, design, architecture, architectural lighting, and game design.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

THTR 3075 (3) Sound Design
Hands on practical and creative exploration of the theatrical sound design process. Students will expand their understanding of sound design in the theatre through explorations in audio tools and technologies, sound system design and application, live mixing and troubleshooting skills, and enhancing theatrical performances using sound as an artistic medium.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

THTR 3085 (3) Fashion, Society and Decor
Hands on survey course for students interested in history, art history, decorative arts, sociology, psychology, politics, fashion, costume design, theatre, film, dance, media studies and cosplay. Students will create research projects based in numerous historical eras stanning from Ancient Egypt, Roman and Greek civilizations to the palaces and opulence of the Baroque and Rococo eras. Students will explore the social and technological advances in fashion creation and manufacture during the Industrial Revolution and Victorian era to the technological advances of modern Haute Couture fashion and important fashion designers.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

THTR 3117 (2) Musical Theatre Studio Class IV
Explores the development of solo performance sets of songs in cabaret and small theatre venues incorporating a range of musical styles. Topics include: How to create an audition video, Commercial auditions, Conceive, construct and perform a cabaret and/or small theatrical event, and how to collaborate with a musical production team.
Equivalent - Duplicate Degree Credit Not Granted: PMUS 3117
Requisites: Restricted to College of Music undergraduates (MUSCU) and BFA Musical Theatre (TBFA-BFA) students only.
Grading Basis: Letter Grade

THTR 3149 (1) Professional Orientation: Exploring Professional Potentials for THTR and DNCE Majors
Explores and identifies a wide range of professional opportunities connected to personal strengths and interests in theatre and dance by studying current professional practices, trends and cross-disciplinary connections. Instructor will: provide information/learning needed from representative professionals; open avenues to find/create employment opportunities towards internship consideration/post-graduation; and mentor structured self-assessment/professional development.
Requisites: Restricted to Theatre (THTR or TBFA) or Dance (DNCE or DBFA) majors (excluding minors).
Additional Information: Departmental Category: Special Courses in Theatre

THTR 3213 (3) Improvisation I: Thinking On Your Feet
Provides students with an introduction to several forms of improvisation, including short form, long-form, playback theatre and clown. A useful course for anyone interested in improving confidence with public speaking, communication and/or performance. Attendance and participation are mandatory.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

THTR 3849 (1-3) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Special Courses in Theatre

THTR 4003 (3) Acting 3
Continuation of the techniques explored in Acting 1 (THTR 1003) and Acting 2 (THTR 3053). Emphasis is placed on monologues and scene study of Shakespeare and other classical plays.
Requisites: Requires prerequisite course of THTR 1003 or PMUS 1117 or PMUS 1217 (minimum grade C-).

THTR 4005 (3) Costume Design 2
Advanced studio course building on experiences and techniques studied in THTR 3005, with additional emphases on portfolio quality painting/ rendering techniques, fabrics/ fabric manipulation and costume production technology as it affects and is affected by the designer and the creative impulse.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of THTR 3005 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

THTR 4013 (3) Studio 3: Acting Shakespeare
In-depth study of Shakespearean texts from the perspective of their demands on the actor, including the conventions and performance styles of Elizabethan theatre.
Requisites: Requires prerequisite courses of (THTR 1003 or PMUS 1117 or PMUS 1217) or Theater BFA (TBFA) majors.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

THTR 4015 (3) Scene Design 2
Advanced projects in theatrical scene design. Provides intensive practice in sketching, rendering, drafting and model-building. Emphasizes portfolio development and preparing the student designer for graduate training or professional work.
Requisites: Requires prerequisite course of THTR 3015 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

THTR 4021 (3) Global Theatre and Performance 2: Contesting the Status Quo
This course views theater and performance as social, political, or artistic critique, with emphasis on examples from the Americas after 1850. Students will learn how theater and performance has either challenged or reinscribed social, political, or artistic conventions by studying works of dramatists, the historical avant-garde, theorist-practitioners, and contemporary performance artists with marginalized identities from around the world.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: History/Dramaturgy/Directing

THTR 4023 (3) Studio 4: Playing with Styles
Studies selected styles of theatre performance such as Greek Drama, Comedy of Manners, Commedia dell'arte, Modern Realism, Theatre of the Absurd, and Non-Western Theatre, including vocal and physical style elements.
Requisites: Requires prerequisite courses of THTR 3013, THTR 3023 and THTR 4013 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 4025 (3) Costume Patterning and Construction
Learn to pattern and make your own clothing and costumes. The course focuses on basic hand and machine sewing skills, flat patterning and draping techniques, all culminating in the production of a final project. This course is ideal for those interested in theatre, film, dance, fine art, architecture, cosplay, fashion, engineering, and game design.
Equivalent - Duplicate Degree Credit Not Granted: THTR 5025
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite THTR 1050.

THTR 4029 (3) Performance and Community Engagement
Engages students in the power of performance for effecting positive social change. Students research collaboratively to create performances and workshop experiences to intentionally author the future they want. Readings provide theoretical foundations that serve as the basis for creative work. Students engage in creative explorations. Open to all forms of performance.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Special Courses in Theatre

THTR 4033 (3) Advanced Movement for the Stage
Continues the work begun in THTR 2043 and explores a wide range of physical actor training methods and practices that support the fundamentals of mask training and mask performance for the actor. Students will experience each mask by gaining an understanding of its historical and performative relevance and directly bring into play the authentic life required of the specific mask. Department consent required.
Equivalent - Duplicate Degree Credit Not Granted: THTR 5033
Requisites: Requires prerequisite course of THTR 2043 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 4035 (3) Scene Painting
Exposes students to the crafts involved in painting large and colorful backgrounds for stage productions through hands-on projects. Introduces students to scenic art techniques such as layout, representational painting, trompe l¿oeil, faux finishing and related skills. Students are taught about proper tool use and care, paint products, and the profession.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 4039 (3) Musical Theatre Repertory
Developed around the learning of complete scenes, songs and dances that are representative of the major periods and styles within musical comedy from the 1920s to the present. Emphasizes in-class performance. Admission by audition.
Equivalent - Duplicate Degree Credit Not Granted: THTR 5039
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Theatre (THTR, TBFA) or Dance (DNCE or DBFA) or Music (MUSA-BAMUS, MUSC-BMUS or MUSE-BMUE) majors only (excluding minors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Special Courses in Theatre

THTR 4040 (3) Theatrical Tailoring -- Menswear
Learn to pattern and make your own clothing and costumes. The course focuses on tailoring of menswear (trousers, vest/waistcoats and coats) using hand and machine sewing skills, flat patterning and draping techniques, all culminating in the production of a final project. Period of exploration will vary by semester. This course is ideal for those interested in theatre, film, dance, fine art, architecture, cosplay, fashion, engineering, and game design.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite THTR 1050.
Grading Basis: Letter Grade

THTR 4046 (3) Costume Crafts
Covers basic and advanced techniques in casting/molding, mask making, dyeing, painting, jewelry making, ventilating and wig style and millinery via a series of projects. Culminates in a final project encompassing all techniques. Instruction consent required. This course is ideal for those interested in theatre, film, dance, fine art, architecture, cosplay, fashion, engineering, and game design.
Equivalent - Duplicate Degree Credit Not Granted: THTR 5046
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite THTR 1050.

THTR 4049 (1-4) Special Topics in Theatre
Opportunity for students to explore, upon consultation with the instructor, areas in theatre that the normal sequence of offerings may not allow.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Special Courses in Theatre

THTR 4051 (3) Playwriting
Introductory course in craft of playwriting; primary focus on technique of developing short plays.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: History/Dramaturgy/Directing

THTR 4055 (3) Stage Lighting Design 2
Hands on learning in a creative lab-based environment exploring advanced practices of performance lighting design. Ideal for students excited by technology, working with computers, and complex systems. This course is excellent for students interested in design, lighting design, concert, festival, dance, and nightclub lighting design, all styles of kinetic art, music, storytelling, themed environments, and architecture.
Requisites: Requires prerequisite course of THTR 3055 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 4059 (3) Open Topics in Theatre and Drama
Covers topics not otherwise listed in the curriculum. Topics for each semester are specified in the online Schedule Planner.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Special Courses in Theatre

THTR 4061 (3) Directing
Theory and practice of directing for the stage.
Requisites: Requires prerequisite courses of THTR 1003 or PMUS 1117 or PMUS 1217 or THTR 3053 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: History/Dramaturgy/Directing

THTR 4063 (3) Audition Techniques
Prepares students for the demands of the acting profession. Trains students in various audition techniques including general auditions, prepared auditions, cold readings, on-camera auditions, andcommercial auditions. Shows how to prepare and perfect audition material in a professional and exemplary way. Discusses agents, casting directors, and the process of becoming a professional actor.
Requisites: Requires prerequisite course of THTR 1003 or PMUS 1117 or PMUS 1217 (minimum grade C-). Restricted to students with 27-180 credits (Sophomore, Junior or Senior) Theatre (THTR or TBFA) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 4065 (1-3) Advanced Design Projects.
Practical course in the application of design theory.Students design major costume, lighting, or scenic elements in a season production. Design concept and process must be explained and defended.
Repeatable: Repeatable for up to 6.00 total credit hours.

THTR 4073 (3) Performing Voices of Women
Explores theories underlying the "feminine voice," varied perspectives in prose and poetry, ways of embodying these voices and perspectives in performance forms and ultimately the students' own voices through creation of autobiographical performance pieces (some to be presented for student audiences). Open to both men and women.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4073
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 4075 (1-3) Advanced Technical Projects
Students assume responsibility, under faculty supervision, for planning and executing specific technical responses to a design concept in the department's season productions.
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade

THTR 4081 (3) Senior Seminar
Intellectual and conceptual capstone course for departmental majors with separate sections for theatre and dance students. Course promotes integration of ideas regarding history, criticism, and theory in performance and production. All inquiry throughout the semester relates to the theme of creative process.
Requisites: Restricted to Theatre (THTR, TBFA) or Dance (DNCE or DBFA) majors only (excluding minors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: History/Dramaturgy/Directing

THTR 4085 (3) Theatre Management
Students will learn how arts companies are run and managed, how non profit boards function and more. We will discuss budgeting, season planning, grant writing, unions, marketing and development. The class will include a wide range of guest speaker experts in the industry.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 4095 (1-3) Special Topics in Theatre Design and Technology
Intensive study of specialized topics in theatre technology and design. Topics and credits specified in the online Schedule Planner.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 4103 (3) Acting and Directing for the Camera
Offers an intensive production workshop to prepare actors and directors to work collaboratively and effectively for the medium of the camera. Directing vocabulary, script interpretation, film terminology and acting techniques are applied. Explores situations in which actors and directors interact, from auditions to rehearsals to filming. Requires attendance, textbook readings, research and production responsibilities on both sides of the camera.
Requisites: Requires prerequisite course of THTR 1003 or PMUS 1117 or PMUS 1217 (minimum grade C-). Restricted to students with 27-180 credits (Sophomore, Junior or Senior) Theatre (THTR or TBFA) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 4105 (3) Theatre Make-Up Design
Hands on studio course for students interested in theatre, film, television, entertainment, cosplay and fashion make-up styles and applications. Students will research and create various make-up designs and learn various make-up application techniques and products to conceive and create characters ranging from clowns to 17th, 18th and 19th period and historical styles and stages of old age and special effect make-up. Techniques include ombre blending, removing eyebrows, changes facial features, 3D prosthetics and latex, silicone and foam appliances in the creation of wounds, stages of healing and zombies.
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Special Courses in Theatre

THTR 4113 (3) Comedy Matters
Examines the role of comedy in performance within various cultures through readings, viewings and a participatory exploration. We will analyze comedy within various societies to understand the underlying ideals and values. Throughout this investigation we will seek to understand what makes something comedic, why, for whom, for what purpose, when and under what circumstances.
Equivalent - Duplicate Degree Credit Not Granted: THTR 5113
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 4117 (1-3) Musical Theatre Lab 5: Senior Showcase Experience
Research and identify material from a variety of mediums (theatre, film, television, web-based work, commercial) that best fit preferred performance type and style. Emphasis placed on topically/timely relevant material so that the student becomes most knowledgeable of current trends and practices. Prepared work will be presented at an organized showcase featuring agents, casting professionals and directors providing feedback for continued growth, learning and a new network of industry colleagues.
Repeatable: Repeatable for up to 4.00 total credit hours.
Recommended: Prerequisites TBFA Acting students ¿ completion of Studios 1-4, for PMUS, BMMT and TBFA Musical Theatre students, completion of Labs 1-4, PMUS 1117, 1217, 2117, 3117.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

THTR 4125 (3) Watercolor Illustration and Rendering Techniques
Hands on studio course for the student interested in theatre, film, art and art history, scenic art, illustration, drawing, and painting. This course explores watercolor, gouache, pen and ink, chalk pastels, color pencils and multi-media painting techniques and approaches. Students will gain fluency in exploring, analyzing, and copying various paintings and illustration styles and approaches by famous Illustrators and artists to expand their skillset and painting techniques. Painting supplies must be supplied by the student.
Equivalent - Duplicate Degree Credit Not Granted: THTR 5125
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 4135 (3) Technical Production
Examines the process of and technology for producing theatrical scenery on a limited production timeline.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Theatre Design and Technology

THTR 4143 (3) Shakespeare in Community
Surveys a growing field of arts practitioners who are intersecting Applied Theatre, Shakespeare and community in meaningful ways, including Shakespeare in Prisons, Shakespeare with Veterans and Shakespeare for Inclusive Audiences. Students will explore a variety of methodologies for teaching and practicing Shakespeare and create original work using Shakespeare as a lens for examining a particular theme, topic or social issue.
Equivalent - Duplicate Degree Credit Not Granted: THTR 5143

THTR 4149 (1-3) Theatre Internship
Provides opportunities for theatre majors to explore career opportunities in theatre fields other than, or in addition to, those with performance emphasis. Students apply knowledge and skills developed in their major studies to a practical work experience.
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: Requisite 30 credit hours in THTR.
Additional Information: Departmental Category: Special Courses in Theatre

THTR 4173 (3) Creative Climate Communication
We generate multimodal compositions on the subject of climate change and engage with various dimensions of issues associated with sustainability. We work to deepen our understanding of how issues associated with climate change are or can be communicated, by analyzing previously created expressions from a variety of media (interactive theatre, film, fine art, television programming, blogs, performance art, for example) and then be creating our own work.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 3173 and ATLS 3173
Recommended: Prerequisite ENVS 1000.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Performance

THTR 4175 (3) Conceptualization
Fosters creativity and collaboration through a variety of diverse projects where students conceive of live, performative productions, events and experiences. Offers both individual and team exercises that stimulate visualization, expression, documentation and communication of creative ideas, including their overall scope, aesthetic, style, audience relationship and mode of presentation.
Equivalent - Duplicate Degree Credit Not Granted: THTR 5175
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Special Courses in Theatre

THTR 4193 (1-3) Studio 5: Senior Project
Students engage in a project or projects of their own undertaking that takes a broader experience to apply the craft utilizing self-initiative, collaborative approaches and public exhibition. Instructor consent required for non-BFA THTR performance majors.
Equivalent - Duplicate Degree Credit Not Granted: PMUS 4117
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of THTR 3013 and THTR 3023 and THTR 4013 and THTR 4023 (all minimum grade C-).
Additional Information: Departmental Category: Performance

THTR 4213 (3) Improvisation II: Advanced Improvisation
Continues the student's study of improvisation as a collaborative art form. Whereas Improvisation I introduces students to a variety of techniques, forms and applications of improvisation, this course focuses specifically on long-form improvisation in performance. Previous experience with long-form improvisation is necessary to enroll in this course.
Recommended: Prerequisite course of THTR 3213 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 4555 (1-2) Production Studio
Requires participation in a Theatre Department production assignment in the areas of design, technology, or management, as well as participation in a semester portfolio review. May be repeated upto 6 total credit hours.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Theatre (TBFA) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

THTR 4849 (1-3) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Special Courses in Theatre

THTR 5011 (3) Seminar: Theory and Criticism
Studies theories and criticisms of drama and theatrical performances from Plato to post-modernism.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: History/Dramaturgy/Directing

THTR 5025 (3) Costume Patterning and Construction
Includes techniques for the patterning and construction of contemporary and period costumes. Hands-on format covers techniques, materials and equipment particular to theatrical production. Grad section grading will include additional documentation components, beyond those in the undergrad section of the course.
Equivalent - Duplicate Degree Credit Not Granted: THTR 4025
Requisites: Requires prerequisite courses of THTR 1105 and THTR 1115 (all minimum grade C-). Restricted to graduate students.
Additional Information: Departmental Category: Theatre Design and Technology

THTR 5033 (3) Advanced Movement for the Stage
Explores a wide range of physical actor training methods and practices that support the fundamentals of mask training and mask performance for the actor. Students will experience each mask by gaining an understanding of its historical and performative relevance and directly bring into play the authentic life required of the specific mask. Department consent required.
Equivalent - Duplicate Degree Credit Not Granted: THTR 4033
Requisites: Restricted to graduate students only.

THTR 5039 (3) Musical Theatre Repertory
Developed around the learning of complete scenes, songs and dances that are representative of the major periods and styles within musical comedy from the 1920s to the present. Emphasizes in-class performance. Admission by audition.
Equivalent - Duplicate Degree Credit Not Granted: THTR 4039
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Special Courses in Theatre

THTR 5046 (3) Costume Crafts
Covers basic and advanced techniques in casting/molding, mask making, dyeing, painting, jewelry making, ventilating and wig style and millinery via a series of projects. Culminates in a final project encompassing all techniques. Instruction consent required. Formerly THTR 5045.
Equivalent - Duplicate Degree Credit Not Granted: THTR 4046
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite THTR 1115 (minimum grade C-).

THTR 5049 (3) Topics in Theatre Studies
Provides an opportunity for an in-depth study of a particular topic in theatre (e.g., a historical period, a region, a group or artist, a theorist, a concept). Topic specified in the Online Schedule Planner.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Special Courses in Theatre

THTR 5065 (3) Theatrical Tailoring
Explores classic and theatrical tailoring techniques and theories through the construction of classical men's wear: trousers, vest/waistcoats and coats. Student work with hand and machine sewing techniques, patterning skills and appropriate tailoring materials. Period of exploration will vary by semester. Grad section grading will include additional documentation components, beyond those in the undergrad section of the course.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite THTR 1115.

THTR 5067 (3) Teaching Shakespeare
Provides students with pedagogies, lesson plans and exercises for making Shakespeare accessible for students of all ages and across multiple content. This online course may be taken as a standalone, 3-credit course or as part of the Graduate Certificate in Applied Shakespeare.

THTR 5071 (3) Advanced Directing
Advanced study of theory and practice of stage directing through examination of the work of leading directors, analysis of texts and classroom exercises. Instructor consent required.
Additional Information: Departmental Category: History/Dramaturgy/Directing

THTR 5085 (3) Theatre Management
Concentrates on theory and practice of management aspects of the performing arts, emphasizing theatre and dance. Includes marketing, budgeting, house and stage management, audience development, grant writing, unions and season development. Includes practical experience.
Equivalent - Duplicate Degree Credit Not Granted: THTR 4085
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Theatre Design and Technology

THTR 5105 (3) Theatre Make-Up Design
Explores theatrical make-up styles and techniques from initial research through paper design to final make-up. Ranging from period styles to Byzantine mosaic, to clowns, to special effects (old age, wounds, stages of healing, zombies, etc.) Techniques include ombre blending, removing eyebrows, shrinking and enlarging features, creating 3D appliances and applying silicone and foam prosthetics.
Equivalent - Duplicate Degree Credit Not Granted: THTR 4105
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Special Courses in Theatre

THTR 5113 (3) Comedy Matters
Examines the role of comedy in performance within various cultures through readings, viewings and a participatory exploration. We will analyze comedy within various societies to understand the underlying ideals and values. Throughout this investigation we will seek to understand what makes something comedic, why, for whom, for what purpose, when and under what circumstances.
Equivalent - Duplicate Degree Credit Not Granted: THTR 4113
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Performance

THTR 5125 (3) Watercolor Illustration and Rendering Techniques
Gain fluency in established techniques and styles of master illustrators and painters. Famous illustrations are technically analyzed and copied in this exploration of intent, process, technique and style. Other mediums incorporated include pastels, color pencils, pen and ink and gouache. Painting supplies must be supplied by the student.
Equivalent - Duplicate Degree Credit Not Granted: THTR 4125
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Theatre Design and Technology

THTR 5143 (3) Shakespeare in Community
Surveys a growing field of arts practitioners who are intersecting Applied Theatre, Shakespeare and community in meaningful ways, including Shakespeare in Prisons, Shakespeare with Veterans and Shakespeare for Inclusive Audiences. Students will explore a variety of methodologies for teaching and practicing Shakespeare and create original work using Shakespeare as a lens for examining a particular theme, topic or social issue.
Equivalent - Duplicate Degree Credit Not Granted: THTR 4143
Requisites: Restricted to graduate students only.

THTR 5175 (3) Conceptualization
Fosters the student's creative and collaborative skills by introducing a variety of strategies and scenarios for conceiving live, theatrical productions, events and experiences. A project based curriculum offers several individual and team exercises in visualizing, documenting and communicating ideas for live performances, including their overall scope, aesthetic, style, audience relationship and mode of presentation.
Equivalent - Duplicate Degree Credit Not Granted: THTR 4175
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Special Courses in Theatre

THTR 5213 (3) Improvisation I: Thinking On Your Feet
Provides students with an introduction to several forms of improvisation, including short form, long-form, playback theatre and clown. A useful course for anyone interested in improving confidence with public speaking, communication and/or performance. Attendance and participation are mandatory.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Performance

THTR 5849 (1-3) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Special Courses in Theatre

THTR 6003 (1-3) Production Research and Practicum: Acting
Allows students to undertake an acting project, normally within the major theatre season, that requires detailed preparatory research, testing of ideas, and public presentation. Students work under faculty supervision and prepare a written report and evaluation of the research, rehearsal, and performance process.
Requisites: Restricted to graduate students only.
Recommended: advanced studies in acting and advisor approval.
Additional Information: Departmental Category: Performance

THTR 6005 (1-3) Production Research and Practicum: Designing
Allows students to undertake a design project, normally within the theatre season, that requires detailed preparatory research, testing of ideas, and public presentation of theories and concepts in practice. Students work under faculty supervision, and prepare a documented written report and evaluation of the research, design, and realization process, as well as fully rendered designs and/or plots. Projects may be in costumes, lights, or scenery.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Theatre Design and Technology

THTR 6011 (3) Theatre and Performance Histories 1
Studies the various histories of theatre and performance globally before colonialism, in context of contemporary work and the implications of this work through critical and scholarly responses to these performances.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: History/Dramaturgy/Directing
Departmental Category: Asia Content

THTR 6041 (3) Theatre and Performance Histories 2
Studies global histories of theatre and performance from colonization to the present, with particular attention paid to critical and theoretical responses to work from the period.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: History/Dramaturgy/Directing

THTR 6051 (1-3) Production Research and Practicum: Directing
Advanced study of theory and practice of stage directing through examination of the work of leading directors, analysis of texts and classroom exercise. Instructor consent required.
Additional Information: Departmental Category: History/Dramaturgy/Directing

THTR 6091 (1-3) Production Research and Practicum: Dramaturgy
Students undertake a dramaturgical project, normally within the major season, requiring detailed preparatory research, testing of ideas, and public presentation of theories and concepts in practice. Students work under faculty supervision and prepare a documented written report of their project.
Requisites: Restricted to graduate students only.
Recommended: advanced course work in dramatic literature and advisor approval.
Additional Information: Departmental Category: History/Dramaturgy/Directing

THTR 6849 (1-3) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Special Courses in Theatre

THTR 6949 (1) Master's Candidate for Degree
Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree.
Additional Information: Departmental Category: Special Courses in Theatre

THTR 6959 (1-6) Master's Thesis
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Special Courses in Theatre

THTR 7004 (3-6) Colorado Shakespeare Festival Summer Immersion
Immersive summer intensive designed to provide an in-depth study of Shakespeare with the Colorado Shakespeare Festival (CSF). Students learn from and engage with CSF company members and faculty from English and Theatre & Dance departments in a small group, experiential setting. Students attend plays, rehearsals and lectures, and explore acting, directing and pedagogy.
Additional Information: Departmental Category: Shakespearean Production

THTR 8999 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 30.00 total credit hours.
Additional Information: Departmental Category: Special Courses in Theatre

TDXD 5005 (3) Design Theory
Interrogates the principals, theories and philosophies that scaffold successful and innovative design with specific application to the design of immersive and interactive experiences and across a range of commercial, performative and cultural contexts. Activities will clarify how the philosophies of design support the core story-telling and interactive elements of experience designs.
Requisites: Restricted to Experience Design (TDXD MFA) students only.
Additional Information: Departmental Category: Experience Design: Technique

TDXD 5105 (3) Collaboratory in Experience Design 1
Addresses philosophies of storytelling through experience and the general concepts and aesthetics of Experience Design. The first in a two-part series, this course lays foundational principles focusing on the components of a live experience and how space, narrative and interaction affect the design from early conceptualization through implementation.
Requisites: Restricted to Experience Design (TDXD MFA) students only.
Additional Information: Departmental Category: Experience Design: Process

TDXD 5500 (3) Experience Design Atelier 1: Design Evolution and Expression
Introduces students to various techniques for graphically representing design ideas using drawing and illustration techniques in order to augment and deepen the diverse skill sets of students in the class. The first in three-part sequence on graphic representation and expressive practices, students will learn how to work out design ideas through sketching, drawing, creating storyboards and collages.
Requisites: Restricted to Experience Design (TDXD MFA) students only.
Additional Information: Departmental Category: Experience Design: Technique

TDXD 5700 (3) Experience Design Atelier 2: Introduction to Design Graphics
Introduces students to advanced techniques for representing design ideas in graphic form including commonly used software applications (Sketchup, Vectorworks, AutoCAD), scale modeling, mechanical drawing and rendering. The second in a three-part class sequence on graphic representation and expressive practices, this atelier will offer a range of exercises tailored to the skill level of individual students.
Requisites: Requires a prerequisite course of TDXD 5500 (minimum grade B-). Restricted to Experience Design (TDXD MFA) students only.
Additional Information: Departmental Category: Experience Design: Technique

TDXD 5805 (3) Professional Portfolio 1
Focuses on selecting, organizing and developing a plan for presenting material that will eventually culminate in the completion of a competitive professional portfolio, a vital tool for gaining employment in the Experience Design industry. The first of a two-part credited final project, students begin the process to prepare their professional portfolio under the guidance of faculty and industry professionals.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Experience Design (TDXD MFA) students only.
Additional Information: Departmental Category: Experience Dsgn: Documentation

TDXD 6105 (3) Collaboratory in Experience Design 2
Introduces students to professional models of working in the Experience Design industry. The second in a two-part class sequence, students work collaboratively on industry case studies focusing on entertainment, education and cultural destination genres with input from outside professionals in the field.
Requisites: Requires a prerequisite course of TDXD 5105 (minimum grade B-). Restricted to Experience Design (TDXD MFA) students only.
Additional Information: Departmental Category: Experience Design: Process

TDXD 6210 (3) Storytelling for XD
Explores multi-modal, expressive strategies for experimental storytelling and investigates the diverse languages of live experience. Students complete projects using varying modes of conveyance including physical and spatial action, filmic approaches, digital media and alternative methods. Students will discuss current trends in expressive methods and the nature of story.
Requisites: Restricted to Experience Design (TDXD) MFA students only.

TDXD 6500 (3) Experience Design Atelier 3: Packaging the Design Presentation
Investigates strategies for visually communication and "selling" design ideas in a compelling and well composed visual/aural presentation. The third in a three-part sequence on graphic representation and expressive practices, this class culminates I a final, comprehensive design project portfolio that follows current professional standards.
Requisites: Requires a prerequisite course of TDXD 5700 (minimum grade B-). Restricted to Experience Design (TDXD MFA) students only.
Additional Information: Departmental Category: Experience Design: Technique

TDXD 6555 (3) Experience Design Technology
Explores established and cutting-edge technologies employed in visual, auditory, and interactive elements of designed environments and experiences. Develops an understanding of the function of these areas, the ways in which they facilitate a complete experience and examines new directions of experimentation in these fields. Elicits research, analysis, and development of new concepts in response to current practices and design problems.
Requisites: Restricted to Experience Design (TDXD) MFA students only.

TDXD 6805 (3) Professional Portfolio 2
Through editing materials collected in TDXD 5805, students will complete adaptable versions (hard copy, digital, web-based and presentations) of their professional portfolios. In this second of a two-part credited project, a committee comprised of faculty and industry professionals guide the completion of XD portfolios.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires a prerequisite course of TDXD 5805 (minimum grade B-). Restricted to Experience Design (TDXD MFA) students only.
Additional Information: Departmental Category: Experience Dsgn: Documentation

TDXD 6849 (3-6) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

TDXD 6901 (3) XD Implementation and Engineering
Explores the realities and challenges of implementing themed entertainment design. Within the framework of project based case studies and a real work project, this course analyzes aspects of construction management, client management and approvals, scheduling, budgeting, value engineering, architecture and design.
Requisites: Restricted to Experience Design (TDXD MFA) students only.

TDXD 6910 (3-6) The Experience Design Center
Offers Experience Design students an opportunity to engage in and complete projects posed by industry professionals or non-profit partners seeking assistance with experiential projects in a professional, practicing lab/studio setting. The XD Center, house in a campus "maker-space," accepts design challenges and assignments that provide a realistic field experience for students.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Experience Design (TDXD) MFA students only.

Theatre and Dance (THDN)

Courses

THDN 5010 (3) Introduction to Performance Studies
Introduces students to performance studies by surveying foundational concepts and recent scholarship in the field and by examining theoretical and methodological questions raised by performance practices. This interdisciplinary course provides students with the necessary vocabulary and research skills to continue to navigate the field of performance studies and the many academic fields it intersects with. Formerly THTR 5010.
Requisites: Restricted to graduate students only.

THDN 5051 (3) Topics in Performance Studies
Provides an opportunity for an in-depth study of a particular topic in performance studies (e.g., a historical period, a region, a practitioner, a theorist, a concept). Topic specified in the Online Schedule Planner.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: History/Dramaturgy/Directing

THDN 5099 (3) Live Performance: Critical Curation
Examines live arts curation and engages in both practical and theoretical investigations. Course observes how approach to curation requires changes in production practices as well as models of spectatorship. The course culminates in a student-directed creation of an original, team-based curatorial project. This course counts toward the Dance Seminar requirement.
Recommended: Prerequisite THTR 5010.
Grading Basis: Letter Grade

THDN 6001 (1-3) Applied Performance Practicum
Allows students to undertake an applied performance project with faculty guidance. This project may use performance as a tool towards achieving a community objective, to advance a social justice issue, or to contribute to the well-being or empowerment of community members. This practicum may include: needs assessment, preparatory research, design of project, workshop or public implementation/performance/installation/action, and assessment. Recommended: advisor approval. Additional Information: Departmental Category: Graduate Theatre and Performance Studies and Graduate Dance, as well as undergraduate Theatre & Dance.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.

THDN 6009 (2) Research and Teaching in Theatre, Dance and Performance Studies
Provides an overview of resources, methodologies, and strategies for graduate teaching in the fields of theatre, dance, and performance studies. Students will be exposed to library and other resources available to them in the department and in the university, and will develop a research proposal for a project they plan to develop during their graduate studies.
Requisites: Restricted to THTR MA, THTR PhD or DNCE MFA students

Thesis Music (TMUS)

Courses

TMUS 4403 (1-3) Special Studies Music History
Offers advanced studies for special projects in selected areas. For undergraduate majors only.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

TMUS 4413 (1-3) Special Study Music Education
Offers advanced studies for special projects in selected areas. For undergraduate majors only.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

TMUS 4423 (1-3) Special Study Music Theory
Offers advanced studies for special projects in selected areas. For undergraduate majors only.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

TMUS 4433 (1-3) Special Study Choral
Offers advanced studies for special projects in selected areas. For undergraduate majors only. See current online Schedule Planner for specific course number.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

TMUS 4443 (1-3) Special Study Keyboard
Offers advanced studies for special projects in selected areas. For undergraduate majors only.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

TMUS 4453 (1-3) Special Study Conducting
Offers advanced studies for special projects in selected areas. For undergraduate majors only.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

TMUS 4463 (1-3) Special Study Strings
Offers advanced studies for special projects in selected areas. For undergraduate majors only.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

TMUS 4473 (1-3) Special Study Voice
Offers advanced studies for special projects in selected areas. For undergraduate majors only.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

TMUS 4483 (1-3) Special Study Wind, Brass, Percussion
Offers advanced studies for special projects in selected areas. For undergraduate majors only.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

TMUS 4493 (1-3) Special Studies Omnibus
Offers advanced studies for special projects in selected areas. For undergraduate majors only.
Repeatable: Repeatable for up to 99.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Music (MUSCU) undergraduate students only.

TMUS 5504 (1-3) Special Study-Musicology
Offers graduate studies for special projects in selected areas. For master's degree students only.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

TMUS 5514 (1-3) Special Study-Music Education
Offers graduate studies for special projects in selected areas. For master's degree students only.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

TMUS 5524 (1-3) Special Study-Music Theory
Offers graduate studies for special projects in selected areas. For master's degree students only.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

TMUS 5534 (1-3) Special Study-Choral
Offers graduate studies for special projects in selected areas. For master's degree students only.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

TMUS 5544 (1-3) Special Study-Keyboard
Offers graduate studies for special projects in selected areas. For master's degree students only.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

TMUS 5554 (1-3) Special Study-Conducting
Offers graduate studies for special projects in selected areas. For master's degree students only.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

TMUS 5564 (1-3) Special Study-Strings
Offers graduate studies for special projects in selected areas. For master's degree students only.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

TMUS 5574 (1-3) Special Study-Voice
Offers graduate studies for special projects in selected areas. For master's degree students only.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

TMUS 5584 (1-3) Special Study-Wind/Percussion
Offers graduate studies for special projects in selected areas. For master's degree students only.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

TMUS 5594 (1-3) Special Study-Omnibus
Offers graduate studies for special projects in selected areas. For master's degree students only.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSCG) graduate students only.

TMUS 6947 (1) Master's Candidate for Degree
Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to College of Music (MUSM or MUPC) graduate students only.

TMUS 6956 (1-2) Master's Thesis
Requisites: Restricted to College of Music (MUSM or MUPC) graduate students only.

TMUS 6957 (1-2) Master's Thesis 2
Requisites: Restricted to College of Music (MUSM or MUPC) graduate students only.

TMUS 6958 (1-2) Master's Thesis 3
Masters Thesis
Requisites: Restricted to College of Music (MUSM or MUPC) graduate students only.

TMUS 6959 (1-3) Master's Thesis 4
Master's Thesis
Requisites: Restricted to College of Music (MUSM or MUPC) graduate students only.

TMUS 8019 (1) Precandidate for Doctor of Musical Arts
Registration intended for students preparing for a recital, thesis/dissertation project, examination, or completion of degree.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8029 (1) Candidate for Doctor of Musical Arts
Registration intended for students preparing for a recital, thesis/dissertation project, examination, or completion of degree.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8119 (1-4) Composition Project 1
Students compose works in a variety of genres, totaling at least 30 minutes of music. Students meet weekly with a composition teacher to discuss and develop their works.
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8129 (1-4) Composition Project 2
Students compose works in a variety of genres, totaling at least 30 minutes of music. Students meet weekly with a composition teacher to discuss and develop their works.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Requires prerequisite course of TMUS 8119 (minimum grade D-). Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8219 (1-3) Dissertation Project 1 (Solo Recital, Choral Concert, Composition)
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8229 (1-3) Dissertation Project 2 (Solo Recital, Choral Concert, Composition, Vocal Pedagogy)
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8239 (1-3) Diss Proj 3 (Chamber Music Recital, Vocal Pedagogy Project, Choral Project, Composition Recital)
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8249 (1-3) Diss Proj 4 (Chamber Music Recital, Choral Project, Composition Recital, Wind/Percussion Practicum)
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8259 (1-3) Dissertation Project 5 (Research Lecture)
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8269 (1-3) Dissertation Project 6 (Research Lecture)
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8279 (3) Performance Research Document 1
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8289 (1) Performance Research Document 2
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8299 (1) Performance Research Document 3
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8309 (1) Performance Research Document 4
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8319 (1-3) Repertoire Project
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8329 (1-6) Document/Pedagogy Project
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8339 (1-6) Major Composition
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Music (MUAD, MUED or MUSD) graduate students only.

TMUS 8998 (1-10) PhD Thesis
Repeatable: Repeatable for up to 10.00 total credit hours.
Requisites: Restricted to College of Music (MUED or MUSD) graduate students only.

Tibetan (TBTN)

Courses

TBTN 1010 (4) Beginning Colloquial Tibetan 1
Provides a thorough introduction to colloquial forms of Tibetan. Focuses on conversation practice, the acquisition of basic vocabulary and grammar in colloquial usage, learning the alphabet, and training in the skills of pronunciation, spelling and handwriting.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Tibetan

TBTN 1020 (4) Beginning Colloquial Tibetan 2
Provides a thorough introduction to colloquial forms of Tibetan. Continues the development of vocabulary and grammar begun in Tibetan I and expands the range of conversation topics. While students focus on oral and aural skills, they begin to learn to read and write modern Tibetan to produce an overall knowledge of the language.
Requisites: Requires prerequisite course of TBTN 1010 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Tibetan

TBTN 1110 (3) Beginning Tibetan I - DILS
Provides a thorough introduction to the colloquial Tibetan language, emphasizing speaking and listening in the Lhasa dialect. Trains students in basic conversations and the idiomatic and syntactical features of Tibetan through drills and dialogues.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

TBTN 1120 (3) Beginning Tibetan II - DILS
Continuation of TBTN 1110; provides a thorough introduction to the colloquial and literary Tibetan language, emphasizing speaking and listening in the Lhasa dialect. Trains students in basic conversations and the idiomatic and syntactical features of Tibetan through drills and dialogues.
Requisites: Requires prerequisite course of TBTN 1110 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

TBTN 1210 (2) Modern Literary Tibetan I - DILS
Provides a thorough introduction to the modern literary Tibetan, emphasizing reading and writing. Trains students in the Tibetan script, elementary grammar, and reading authentic materials, including Tibetan maxims, pop song lyrics, and children¿s stories.

TBTN 1220 (2) Modern Literary Tibetan II - DILS
Continuation of TBTN 1210; provides a thorough introduction to the modern literary Tibetan, emphasizing reading and writing. Trains students in the Tibetan script, elementary grammar, and reading authentic materials, including Tibetan maxims, pop song lyrics, and children¿s stories.
Requisites: Requires prerequisite course of TBTN 1210 (minimum grade C).

TBTN 2010 (4) Intermediate Colloquial Tibetan 1
Aims at increasing students' proficiency in colloquial forms of Tibetan. Expands knowledge of the vocabulary and grammar of spoken Tibetan and engages in more advanced conversation topics while also continuing to develop reading knowledge of modern Tibetan.
Requisites: Requires prerequisite courses of TBTN 1010 and 1020 (all minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Tibetan

TBTN 2020 (4) Intermediate Colloquial Tibetan 2
Aims at increasing students' proficiency in colloquial forms of Tibetan. Expands knowledge of the vocabulary and grammar of colloquial Tibetan and also continues to develop knowledge of reading and writing modern Tibetan.
Requisites: Requires prerequisite course of TBTN 2010 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Tibetan

TBTN 2110 (3) Intermediate Tibetan I - DILS
This DILS (Directed Independent Language Study) course on Intermediate Tibetan will introduce students to intermediate grammar, sentence construction, conversation topics, and readings in modern Tibetan. This will include introduction to Tibetan grammatical markers and particles, morphology, syntax, and vocabularies using a range of authentic materials.
Requisites: Requires prerequisite course of TBTN 1120 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

TBTN 2220 (3) Intermediate Tibetan II DILS
This DILS (Directed Independent Language Stud) course on Intermediate Tibetan will introduce students to intermediate grammar, sentence construction, conversation topics, and readings in modern Tibetan. This will include introduction to Tibetan grammatical markers and particles, morphology, syntax, and vocabularies using a range of authentic materials.
Requisites: Requires prerequisite course of TBTN 2120 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

TBTN 3210 (4) Beginning Literary Tibetan 1
Provides a thorough introduction to literary and colloquial forms of Tibetan. Focuses on the grammatical foundation of the language, the acquisition of basic vocabulary, and training in the skills of pronunciation, conversation, handwriting and spelling.
Requisites: Requires prerequisite course of TBTN 2020 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Tibetan

TBTN 3220 (4) Beginning Literary Tibetan 2
Continuation of TBTN 3210. Provides a thorough introduction to literary and colloquial forms of Tibetan. Continues the grammar and vocabulary work begun in Tibetan 1 by studying actual Tibetan text and moving to more advanced conversation topics. Students develop oral, aural and written skills to produce an overall knowledge of the language.
Requisites: Requires prerequisite course of TBTN 3210 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Tibetan

TBTN 4210 (4) Intermediate Literary Tibetan 1
Aims at increasing students' proficiency in literary and colloquial forms of Tibetan. Expands knowledge of the grammar and vocabulary of literary Tibetan through translating texts in a variety of genres and also continues to develop knowledge of spoken modern Tibetan.
Requisites: Requires prerequisite courses of TBTN 3210 and 3220 (all minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Tibetan

Women and Gender Studies (WGST)

Courses

WGST 1006 (3) The Social Construction of Sexuality
Discusses the social determinants of sexuality. Analyzes the economic, psychological and cultural influences on human sexuality. Interactional perspective of human sexuality is presented.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 1006
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Sociology

WGST 1016 (3) Sex, Gender, and Society 1
Examines status and power differences between the sexes at individual and societal levels. Emphasizes historical context of gender roles and status, reviews major theories of gender stratification.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 1016
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Sociology

WGST 1250 (3) Introduction to World Literature by Women
This course considers how literature represents gendered experiences across multiple countries and continents. Students will read fiction and poetry by women from South Asia, East Asia, Africa, Europe, and the Americas, that address questions of sexuality, marriage, and family, politics, labor, and justice at the intersections of gender, race, and nation.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 1250
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: English

WGST 1270 (3) Introduction to American Literature by Women
This course investigates how literature by women has shaped the United States over time, from Indigenous authors, to abolitionists, to suffragists, to feminists of various waves. With attention to intersections between class, race, and sexual orientation, students will consider what it has meant and still means to be a woman writer in the United States and will explore how women have engaged, subverted, and resisted ideas about gender.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 1270
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: English

WGST 2000 (3) Introduction to US Gender, Race and Sexuality Studies
Introduces students to the field of Women and Gender Studies. Examines gender issues in the United States from interdisciplinary, intersectional and transnational feminist perspectives across a range of US cultural contexts. Covers such topics as gender identity and performance, sexuality, reproductive justice, gendered violence, work and labor, imperialism and war, and the environment.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
MAPS Course: Social Science

WGST 2020 (3) Femininities, Masculinities, Alternatives
Examines the construction of gender and sexual identities in the modern world. Focuses on the role of social attitudes and material circumstances in shaping how individuals understand themselves and are understood by others, as well as the actions they take to accept, negotiate and resist these pressures.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

WGST 2030 (3) Introduction to Lesbian, Gay, Bisexual, and Transgender Studies
Investigates the social and historical meanings of racial, gender, and sexual identities and their relationship to contemporary lesbian, bisexual, gay and transgender communities.
Equivalent - Duplicate Degree Credit Not Granted: LGBT 2000
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: LGBT Studies

WGST 2050 (3) Gender, Sexuality, and Popular Culture
Explores diverse cultural forms such as film, popular fiction and non-fiction, music videos, public art, websites, blogs and zines which are shaped by, and in turn shape, popular understandings of gender at the intersections of race, class, ability, religion, nation and imperialism.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

WGST 2100 (3) Gender and Sexuality in Ancient Greece
Examines evidence of art, archaeology and literature of Greek antiquity from a contemporary feminist point of view. Focuses on women's roles in art, literature and daily life. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 2100
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Classics

WGST 2110 (3) Gender and Sexuality in Ancient Rome
Uses art, archaeology, and literature to study, from a contemporary feminist point of view, the status of women in works of Roman art and literature, the development of attitudes expressed toward them, and their daily life. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 2110
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Classics

WGST 2200 (3) Women, Gender, Literature, and the Arts
Introduces the contributions of women to literature and the performing arts from a historical and cross-cultural perspective. Emphasizes representations of gender and sexuality, as well as the cultural contexts in which artworks are created. Stresses issues of structure, content, and style, along with the acquisition of basic techniques of literary and arts criticism.
Recommended: Prerequisite WGST 2000.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

WGST 2290 (3) Philosophy and Gender
Analyzes critically the concepts of sex, gender, and their intersection with other aspects of identity, exploring how these impact the extent to which people face injustice because of their gender.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 2290
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Philosophy

WGST 2500 (3) Gender, Race, Sex and the Body
Studies the body as a site for the production of social difference, meaning and inequality. Focuses on the body as a conduit for political, social, and ethical dilemmas and conflicts. Examines a selection of these issues to help students understand what a body is, how bodily difference is constructed, and what this constructed difference signifies.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 2600 (3) Introduction to Global Gender, Race and Sexuality Studies
Introduces students to the field of Women and Gender Studies. Examines gender issues globally from interdisciplinary, intersectional and transnational feminist perspectives across a range of global cultural contexts. Covers such topics as transnational feminism, colonialism and imperialism, indigenous feminisms, religion and politics, immigration and asylum, and climate change.
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Asia Content

WGST 2700 (3) Psychology of Gender and Sexuality
Examines psychological research on gender and sexuality as they intersect with race, class and other social categories. Points of emphasis include differences in cognition, attitudes, personality and social behavior. Conceptual themes include research methodologies, implicit and explicit attitudes, stigma and stereotypes. These elucidate such areas as close relationships, leadership, career success and mental health and happiness.
Recommended: Prerequisite WGST 2000 or PSYC 1001.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

WGST 2800 (3) Women and Religion
Examines roles of women in a variety of religious traditions including Judaism, Christianity, Hinduism, Buddhism and goddess traditions.
Equivalent - Duplicate Degree Credit Not Granted: RLST 2800
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Religioius Studies

WGST 2850 (3) Sex, Religion, and Politics in US Healthcare
Examines the roles of religion, gender, and sexuality in the politics of healthcare in the United States. Topics may include sexual health and education; debates over health and sexuality during the HIV/AIDS crisis; the expansion and contraction of access to birth control; public debates over abortion; debates over religion, politics, and healthcare for transgender people; and histories of religion, health, and race.
Equivalent - Duplicate Degree Credit Not Granted: JWST 2850
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 3012 (3) Gender and Development
Provides a sociological perspective on gender, globalization, and economic development in the Global South. Examines a variety of topics, including feminist theories of development; poverty and inequality; women¿s work in the context of globalization; and women¿s activism and feminism(s).
Equivalent - Duplicate Degree Credit Not Granted: SOCY 3012
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 3001.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sociology
Departmental Category: Asia Content

WGST 3016 (3) Marriage and the Family in the United States
Comparative and historical examination of marriage and the family within the U.S. Emphasizes changing family roles and family structures. Also considers alternatives to the nuclear family and traditional marriage exploring new definitions of family.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 3016
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 3001.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sociology

WGST 3020 (3) Feminist Methods of Inquiry and Praxis
Examines various research methods and approaches in the field of feminist studies. Students will gain practical experience to be able to write a proposal for a significant research project, informed by course readings and discussions.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3044 (3) Race, Class, Gender, and Crime
Overview of race, class, gender and ethnicity issues in offending, victimization and processing by the justice system. Examines women and people of color employed in the justice system.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 3044 and SOCY 3044
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 1001 or SOCY 1004 or SOCY 1021 or SOCY 2044.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sociology

WGST 3046 (3) Topics in Sex and Gender
Faculty present courses based on their area of expertise and specialization in the field of sex and gender. Students should check current sociology department notices of course offerings for specific topics.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 3046
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sociology

WGST 3100 (3) Feminist Theories
Explores a variety of alternative systematic accounts of, and explanations for, gender inequities. Social norms of both masculinity and femininity are analyzed in relation to other axes of inequality such as class, sexuality, race/ethnicity, neocolonialism and the domination of nonhuman nature.
Requisites: Requires a prerequisite course of WGST 2000 or WGST 2020 or WGST 2050 or WGST 2600 (minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3110 (3) Feminist Practical Ethics
Examines issues of public policy and personal ethics in light of the feminist commitment to gender justice. Readings for the course will present competing feminist points of view on topics such as: the environment, sex trafficking, immigration, abortion rights, the fashion and beauty industries, cosmetic surgery, food, and militarism. Contributes to an understanding of gender diversity from a U.S. perspective, fostering further insight into social, political, economic, and cross-cultural relations in America.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 3110
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2290 or PHIL 2290.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

WGST 3135 (3) Chicana Feminisms and Knowledges
Provides insight into the present socioeconomic condition of Chicanas and the concept of feminismo through interdisciplinary study of history, sociology, literary images and film portrayals.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 3136
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite ETHN 2001 or ETHN 2536.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Chicano Studies

WGST 3174 (3) Sex, Power, and Politics: U.S. Perspectives
Explores how norms of sex, gender, race and sexuality find expression in institutions and policies in ways that legitimize only certain individuals as political actors, certain identities as politically relevant, and certain relationships as important. Critically examines how norms may be exposed, resisted and changed by studying the politics of the women's, gay liberation and men's movements in the U.S.
Equivalent - Duplicate Degree Credit Not Granted: PSCI 3174
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2004 or WGST 2000 or LGBT 2000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Science

WGST 3200 (3) Religion and Feminist Thought
Examines the origin of patriarchal culture in the theology and practices of Judaism and Christianity. Explores attitudes and beliefs concerning women as Judeo-Christian culture impacts gender roles and gender stratification through reading and discussion. Women's religious experience is studied from the perspective of feminist interpretations of religiosity.
Equivalent - Duplicate Degree Credit Not Granted: JWST 3200
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 3201 (3) Women, Gender & Sexuality in Jewish Texts & Traditions
Reads some of the ways Jewish texts and traditions look at women, gender and sexuality from biblical times to the present. Starts with an analysis of the positioning of the body, matter and gender in creation stories, moves on to the gendered aspects of tales of rescue and sacrifice, biblical tales of sexual subversion and power, taboo-breaking and ethnos building, to rabbinic attitudes towards women, sexuality and gender and contemporary renderings and rereadings of the earlier texts and traditions.
Equivalent - Duplicate Degree Credit Not Granted: JWST 3202 and HEBR 3202 and RLST 3202
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

WGST 3208 (3) Women in Nordic Society: Modern States of Welfare
Examines the role and status of women and marginalized social classes in the Nordic countries, whose societies have been heralded as egalitarian models since the twentieth century. Texts include a variety of media, from literature to sociological works to artifacts of political and popular culture.
Equivalent - Duplicate Degree Credit Not Granted: SCAN 3208
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Nordic (Formerly Scandinavian)

WGST 3210 (3) American Indian Women
Explores the experiences, perspectives and status of American Indian women in historical and contemporary contexts. Examines representations of Indigenous women in mainstream culture. Emphasizes the agency of American Indian women-their persistence, creativity and activism, especially in maintaining Indigenous traditions.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 3213
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2600 or ETHN 2001 or ETHN 1023.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

WGST 3220 (3) Women in Islam
Examines the historical and contemporary relation between women, gender and Islamic cultures in different parts of the world. We will consider the role and rights of women in Islam, historical and literary representations of Muslim women, and the historically changing constructions of gender and sexuality in Muslim societies. In addition, we will critically explore the construction of Muslim women in western discourses, including liberal feminist discourse, and ask whether the representation of Muslim women in these discourses achieves or undermines ends that we might consider "Feminist". In attending to the wide range of Muslim women's lived experiences in Islamic communities and cultures, as well as the self-representations of Muslim women themselves, our readings will urge us to reexamine our presumptions about piety, secularism, modernity and feminism.
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

WGST 3250 (3) Disney's Women and Girls
Examines the construction of gender, race, class, sexual orientation and disability in a selection of Disney's animated films. Cultivates skills of media literacy, exploring how mass media acts to enforce and maintain conventional gendered understandings of power, privilege and difference. Analyzes the political economy of the Disney phenomenon through a feminist lens.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3267 (3) Women Writers
This course explores how women write about a range of issues, some explicitly gendered, such as desire, sexuality, marriage, and family, and others perhaps less so, such as politics, justice, race, and class. We¿ll consider how women think about their craft, how they approach questions of art and beauty, and whether we should consider writing by women a separate category. Students will examine a range of literature by women, aiming to be inclusive and intersectional.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 3267
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: English

WGST 3300 (3) Gender, Sexuality and U.S. Law
Contemporary and historic overview of U.S. courts' treatment of sex and gender. Using the case method, examines policy issues including, but not limited to: same sex marriage and civil unions; privacy; affirmative action; abortion; reproductive technologies; discrimination based on sex and sexual orientation in education and in the workplace.
Equivalent - Duplicate Degree Credit Not Granted: PSCI 3301
Recommended: Prerequisite WGST 2000 or PSCI 1101.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Political Science

WGST 3302 (3) Facilitating Peaceful Community Change
Students gain knowledge and skills that enable them to become effective agents of community change. Focuses on understanding the processes of community building with a multicultural emphasis. Students are encouraged to apply their own life experiences and to examine themselves as potential change agents.
Equivalent - Duplicate Degree Credit Not Granted: INVS 3302
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3311 (3) Gender and U.S. Politics: Protest, Polls and Policy
Provides an overview and critical examination of women as political actors within the United States. Students will examine the gendered components of citizenship, election, political office and public policy. Furthermore, students will explore the ways in which gender intersects with class, race, ethnicity, sexual orientation and other identities in U.S. politics.
Equivalent - Duplicate Degree Credit Not Granted: PSCI 3311
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3314 (3) Violence Against Women and Girls
Focuses on aspects of the victimization of women and girls that are "Gendered" - namely, sexual abuse and intimate partner abuse. Also explores the importance of race, class and sexuality in gendered violence.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 3314 and SOCY 3314
Recommended: Prerequisite SOCY 1016 or WGST 1016.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3400 (3) Gender, Personality, and Culture
Explores the relationship among gender, culture and personality. Brings together the disciplines of psychology and sociology in the study of gender and personality formation through investigation of psychoanalytic theory and the social environment.
Recommended: Prerequisite WGST 2000 or WGST 2700.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3410 (3) Gender, Sexuality and Culture in the Modern Middle East
Examines the issues of gender and sexuality in the modern Middle East and North Africa from the colonial period to the present, focusing on how feminist movements, Arab women's writing, and constructions of gender and sexuality have been shaped by local, national and international factors. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: ARAB 3410
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Arabic

WGST 3500 (3) Global Gender Issues
Introduces global gender issues, such as the gendered division of labor in the global economy, migration, women's human rights, environmental issues, gender violence in war, women in the military, nationalism and feminism and the representation of the Third World in the United States. Offers students the opportunity to broaden their perspectives beyond the borders of the United States.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2050 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Asia Content

WGST 3505 (3) Historical and Contemporary Issues of African American Women
Explores the social, economic, political, historical and cultural role of African American women from an interdisciplinary perspective. Special emphasis is placed on African American women's rich oral and literary tradition.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or ETHN 1022 or ETHN 2001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3510 (3) Gender, Sexuality and Global Health
Examines the intersections of gender, sexuality and health in global perspective. Explores how men's and women's health are shaped by gender and sexual relations in a wide range of social contexts, including South and Southeast Asia, Latin America, sub-Saharan Africa and the United States.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sociology

WGST 3520 (3) Gender and Sexuality in Africa
Examines the dramatic changes occurring across the continent of Africa that are currently reworking gender and sexuality. Foregrounds African conceptions of feminism, and explores a range contemporary issues, including gender & health, modern womanhood, new African masculinities, LGBTQ rights, and the gendered implications of environmental change.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Requisites WGST or WGST 2600.
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3600 (3) Latina/x Studies
Drawing from work produced by and about Latinas/xs, discusses the social and cultural construction of race and ethnicity alongside gender and sexuality, the function of nationalism, the politics of migration and citizenship, Latina/x literary production and theory, historiographical trends, Latina feminist theory, activism and the academy, and Latina/x political organizing.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2050 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3601 (3) German Women Writers
Explores writing by German/Austrian women from 1945 to the present, with special attention to the representation of the Holocaust, the continuation of avant-garde traditions, innovations in literary form and feminism. Visual arts, film and feminist theory will also be considered in their relation to literature. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 3601
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: German

WGST 3610 (3) Gender, Race, Science and Technology
Examines the role of science and technology in forming conceptions of race, gender and class, and vice-versa. Considers how some populations benefit from scientific knowledge-production while others are excluded or come to be its subjects. Students will explore this knowledge production through historical, anthropological, literary, and philosophical investigations of technology and scientific inquiry.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Requisites WGST 2000 or WGST 2050 or WGST 2500 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

WGST 3620 (3) Women of Color and Activism
Surveys the history of social activism in the United States by Women of Color with an emphasis on modes of social activism, issues that have organized specific communities of color, and issues that have crossed ethnic/racial boundaries. In order to offer students a historical understanding of how Women of Color have been marginalized, as well as how they have fought back against this marginalization, this course relies upon historical, sociological, and theoretical readings.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2020 or WGST 2050 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3640 (3) Black Feminist and Womanist Theories
Examines theoretical and activist approaches concerning the oppression, agency, and liberation of Black girls, women, and femmes. Traces the development of Black feminisms and womanisms created, co-constructed, and advanced by Black women and femmes, including Black feminist thought, Africana womanism, intersectionality, Black trans feminism, hip hop feminism, pan-African feminism, and transnational Black feminism. Explores themes, assumptions, interventions, and variants of Black feminist and womanist theories and praxes.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2020 or WGST 2050 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3650 (3) Gender and Politics in Latin America
Examines Latin American politics with particular focus on women's participation in social movements, war, revolution and elections. Compares women's and men's politics and activism and examines changing gender and sexuality policies, gender relations and the differential impact of political, economic, and social changes on men and women.
Equivalent - Duplicate Degree Credit Not Granted: PSCI 3052
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite WGST 2600 or PSCI 2012 or PSCI 3032.
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Science

WGST 3670 (3) Gender, Race, Sexuality and Global Migration
Engages in an interdisciplinary study of the intersections of gender, race and sexuality that have created a multicultural, multiethnic and multiracial world. Focuses on the effects of political, economic, social and cultural forces on gender, race and sexuality in migrant communities.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Ethnic Studies

WGST 3672 (3) Who Runs the World? Sex, Power, and Gender in Geography
This course will examine how gender and sexuality is constructed locally, nationally, and globally, drawing on conversations about feminist pasts, presents, and futures. We will focus on how gender intersects with race, class, sexuality, ability, religion, ethnicity, and geopolitical location to structure the lived experiences of women across the globe. We will apply critical geographic perspectives to gender inequality, exploring the overlaps and differences in women¿s and LGBTQ+ struggles as they are shaped by ongoing socio-cultural, political, and economic conditions globally.
Equivalent - Duplicate Degree Credit Not Granted: GEOG 3672
Recommended: Prerequisite GEOG 1982 or GEOG 1992 or GEOG 2002 or GEOG 2412 or WGST 2000 or WGST 2600.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Geography

WGST 3701 (3) Topics in U.S. Gender and Sexuality Studies (AH)
Examines selected topics in women, gender and sexuality in the arts and humanities, from a U.S. perspective.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 3702 (3) Topics in U.S. Gender and Sexuality Studies (SS)
Examines selected topics in women, gender and sexuality in the social sciences, from a U.S. perspective.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3711 (3) Topics in Global Gender and Sexuality Studies (AH)
Examines selected topics in women, gender and sexuality in the arts and humanities, from a global perspective.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 3712 (3) Topics in Global Gender and Sexuality Studies (SS)
Examines selected topics in women, gender and sexuality in the social sciences, from a global perspective.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3750 (3) Women in Buddhism
Explores diverse representations of the female in Buddhist literature and the social realities of actual women in Asian historical contexts. Through case studies that traverse Buddhist Asia, we delve into monastic views of the female body, philosophical analyses of the emptiness of gender, idealized images of the feminine in Buddhist tantra and contemporary issues such as the nun's revival moment.
Equivalent - Duplicate Degree Credit Not Granted: RLST 3750
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Religioius Studies
Departmental Category: Asia Content

WGST 3767 (3) Feminist Fictions
Examines a series of literary texts to consider how writers across the world have used fiction to creatively stage and reimagine gender and sexuality. Attends to the formal and narrative techniques by which these texts call attention to the fictionality, and thereby the creative malleability, of gender itself. Some cinematic and performance texts will also be included.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 3767
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: English

WGST 3800 (3) Advanced Writing in Feminist Studies
Offers expository writing and training in analytical and descriptive skills, structures or argument, critical thinking, the rhetoric of persuasion, and the development of a personal voice. Readings and papers focus on basic issues in gender studies.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Written Communication-Upper

WGST 3930 (1-6) Women and Gender Studies Internship
Provides field experience in local and national government and non-governmental agencies focusing on women and gender-related issues. Supervision by approved field instructors. Students must relate their academic experience to their field work experience though a portfolio and a final paper. Department enforced prerequisite: 6 hours of course work in Women and Gender Studies and 30 cumulative credit hours.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

WGST 3940 (1) Practicum in Women and Gender Studies
Enriches the academic experience of majors and minors within Women and Gender Studies. Usually will combine readings from books with lectures and discussions, community outreach and in-house publications spanning the interdisciplinary focus of the department.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to Womens Studies (WGST) majors or minors only.

WGST 4001 (3) Advanced Topics in Gender and Sexuality Studies (AH)
Provides an advanced interdisciplinary course organized around a specific issue in the arts and humanities relating to gender and sexuality.
Equivalent - Duplicate Degree Credit Not Granted: WGST 5001
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 4002 (3) Advanced Topics in Gender and Sexuality Studies (SS)
Provides an advanced interdisciplinary course organized around a specific issue in the social sciences relating to gender and sexuality.
Equivalent - Duplicate Degree Credit Not Granted: WGST 5002
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 4010 (3) Gender, Genocide and Mass Trauma
Studies the persistence of genocide and the effects of mass trauma on women and girls. Within the framework of political and social catastrophe, examines cataclysmic world events and the traumatic consequences for women of religious persecution, colonialism, slavery and the genocides of the 20th and 21st centuries.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 4000
Recommended: Prerequisite SOCY 1016 or WGST 1016 or WGST 2000 or SOCY 3314 or WGST 3314.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sociology

WGST 4016 (3) Sex, Gender and Society 2
Studies status and power differences between the sexes at individual, group and societal levels. Examines empirically established sex differences and reviews biological, psychological and sociological explanations for gender differences.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 4016
Requisites: Requires a prerequisite course of SOCY 1016 or WGST 1016 or WGST 2000 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sociology

WGST 4073 (3) Performing Voices of Women
Explores theories underlying the "feminine voice," varied perspectives in prose and poetry, ways of embodying these voices and perspectives in performance forms and ultimately the students' own voices through creation of autobiographical performance pieces (some to be presented for student audiences). Open to both men and women.
Equivalent - Duplicate Degree Credit Not Granted: THTR 4073
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre

WGST 4086 (3) Family and Society
Studies the changing relationship between family and social structure. Examines variations in family organization and considers political, social, ideological, demographic and economic determinants of family formation.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 4086
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 3001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sociology

WGST 4100 (3) Indigenizing Feminism: Literature, Art, Film
Through analysis of literature and films by Indigenous and non-Indigenous writers and filmmakers, this course explores issues of gender in Indigenous communities in the Americas, gender and power distribution within Indigenous communities, related national and global politics, legal and economic systems, migration, and environmental issues, among other topics. This course also studies how colonization and the imposition of patriarchy has transformed Indigenous societies by diminishing the power, status, and material circumstances of Indigenous women.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 4200 (3) Religion and Reproductive Politics in the United States
Focuses primarily on how Protestant, Catholic, and Jewish conversations about sexuality and reproduction have shaped access and attitudes towards reproductive health in the US over the course of the twentieth and twenty-first centuries.
Equivalent - Duplicate Degree Credit Not Granted: JWST 4200, WGST 5200 and JWST 5200
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

WGST 4277 (3) Special Topics in Women Writers
This course focuses on a special topic or issue in works written by women. Topics vary by semester, and may focus on a particular historical period or literary genre. Students may consider writing by women as itself a genre, asking what unites these works in terms of both subject and style. Check department description for details.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 4277
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 4287 (3) Special Topics in Queer Literature
This course will focus on a special topic in queer literature and non-normative genders and sexualities. Students will consider how literature reflects and represents understandings of sexuality, gender, desire, and more; the course may engage a variety of genres. Topics vary by semester. Check department description for details.
Equivalent - Duplicate Degree Credit Not Granted: LGBT 4287 and ENGL 4287
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 4300 (3) Sex, Power, Politics: International Perspectives
Studies the commercial trade of sexual labor in the global economy, examining theories and assumptions about sexual-economic exchanges and gendered and racialized relations of power in the sex trade. Emphasizes prostitution.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite WGST 2600 or WGST 3100.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 4301 (3) Gender, Race and Immigration in Germany and Europe
Introduces students to debates surrounding migration and race in contemporary Germany with comparisons to other European contexts. Emphasis on reading texts in context using tools of cultural studies, integrating analyses of gender, race, nation, and sexuality. Texts may include film, literature, television, social media, news media, political posters, etc. Topics include: race and racisms, Black and women of color feminisms, Roma feminisms, Muslim feminisms, notions of integration and citizenship, and more. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 4301 and AHUM 4301 and GRMN 5301
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: German

WGST 4331 (3) Gender, Race, Class, and Sexuality in Popular Culture
Studies the construction, interconnections, and replications of gender, race, class and sexuality in popular culture and how these constructs become cultural norms and mores. Uses critical methods with a focus on producing responsible viewers and readers.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 4400 (3) Critical Inquiries in Transgender Studies
Examines theories, methods and debates in the emerging field of transgender studies. Drawing on interdisciplinary perspectives, this course examines transgender identities, communities and political movements in different historical and cultural contexts. Focuses on crosscutting issues that shape transgender subjectivities, with special attention given to how transgender movements negotiate race, class, sexuality, labor, culture and nation.
Equivalent - Duplicate Degree Credit Not Granted: LGBT 5400 and LGBT 4400 and WGST 5400
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: LGBT Studies

WGST 4471 (3) Women in 20th-21st Century Russian, East European and Eurasian Cultures
Examines issues facing women in 20th-21st century Russia, East Europe, Caucasus and Central Asia, based on study of current events, history, literature, posters and film. Studies images of women as Amazons and rebels, salon hostesses and poets, New Soviet Women and women in combat, prostitutes and mothers. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: REES 4471 and REES 5471
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite lower level literature or culture course.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Russian

WGST 4500 (3) Gender Politics and Global Activism
Addresses the problems and challenges women face around the world and the ways in which women have mobilized to address them. Explores political activism at the local, national, regional and global levels. Focuses on different forms of activism, including strategies aimed at working with and within governmental institutions, as well as outside and against them.
Equivalent - Duplicate Degree Credit Not Granted: PSCI 4391
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 4619 (3) Women in East Asian History
Considers major issues in the history of women in East Asia (China, Korea, Japan) in the 17th through 20th centuries. Focuses on gender roles in Asian family, state and cultural systems. Topic varies in any given semester.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4619 and HIST 5619
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: History
Departmental Category: Asia Content

WGST 4636 (3) Lesbian and Gay History: Culture, Politics, and Social Change in the U.S.
Considers current theoretical approaches to the history of sexuality and traces the changing meaning of same-sex sexuality in the U.S. through investigation of lesbian and gay identity formation, community development, politics, and queer cultural resistance.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4636 and HIST 5636
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite HIST 1015 or HIST 1025 or LGBT 2000 or WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 4640 (3) Women, Gender and War
Study of how women experience war, how the structure, practice and memory of war, and the rights and obligations of military service (masculinity and femininity) are structured by the gender system.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4640
Recommended: Prerequisite HIST 1015 or HIST 1020 or HIST 1025 or HIST 1123 or HIST 1628 or HIST 1708.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: History

WGST 4800 (3) Senior Colloquium in Feminist Studies
Provides students with the opportunity to actively reflect on their education and to complete a research project that incorporates an interdisciplinary and feminist approach to the study of gender, class, race, ethnicity and sexuality. Offered each spring.
Requisites: Requires prerequisite courses of (WGST 2000 or WGST 2600) and (WGST 3020 or WGST 3100) (all minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Womens Studies (WGST) majors or minors only.

WGST 4840 (1-6) Independent Study
Department enforced prerequisite: over minimum GPA of 3.3.
Repeatable: Repeatable for up to 7.00 total credit hours.

WGST 4850 (3) Gender in Hagiography
Explores gendered ideals of sainthood in medieval hagiographic literature. We draw primarily from the lives of female mystics in Buddhist and Christian sources and also examine the construction of mendicant masculinities. Reading from an array of primary sources, we query the category of mysticism and ask why visionary experience has so often been gendered female.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4850 and RLST 5850
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Religioius Studies

WGST 4950 (3) Honors Research
For qualified Women and Gender Studies majors working on the research phase of departmental honors. Department enforced prerequisite: overall GPA of 3.3.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sciences Honors Course

WGST 4999 (1-3) Senior Honors Thesis
Qualified Women and Gender Studies majors may write an honors thesis, an in-depth research paper, on a topic of choice. Thesis hours available to majors only after successfully completing the research phase.
Requisites: Restricted to Womens Studies (WGST) majors only.
Additional Information: Arts Sciences Honors Course

WGST 5001 (3) Advanced Topics in Gender ad Sexuality Studies (AH)
Provides and advanced interdisciplinary course organized around a specific issue in the social sciences relating to gender and sexuality.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4001
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite WGST 2000 or WGST 2600.

WGST 5002 (3) Advanced Topics in Gender and Sexuality Studies (SS)
Provides an advanced interdisciplinary course organized around a specific issue in the arts and humanities relating to gender and sexuality.
Equivalent - Duplicate Degree Credit Not Granted: WGST 5002
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite WGST 2000 or WGST 2600.

WGST 5200 (3) Religion and Reproductive Politics in the United States
Focuses primarily on how Protestant, Catholic, and Jewish conversations about sexuality and reproduction have shaped access and attitudes towards reproductive health in the US over the course of the twentieth and twenty-first centuries.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4200, JWST 4200, JWST 5200

WGST 5400 (3) Critical Inquiries in Transgender Studies
Examines theories, methods and debates in the emerging field of transgender studies. Drawing on interdisciplinary perspectives, examines transgender identities, communities and political movements in different historical and cultural contexts. Focuses on crosscutting issues that shape transgender subjectivities, with special attention given to how transgender movements negotiate race, class, sexuality, labor, culture and nation.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4400 and LGBT 4400 and LGBT 5400
Grading Basis: Letter Grade
Additional Information: Departmental Category: LGBT Studies

WGST 6090 (3) Feminist Theories
Explores how feminist theorists have understood gender and how it interrelates to our understandings of race, ethnicity, sexuality, embodiment and knowledge. Meets the requirements for the WGST certificate.
Requisites: Restricted to graduate students only.

WGST 6190 (3) Feminist Methodology
Explores feminist methodology across a range of disciplines. Themes include experience and interpretation, the social position of the researcher, language and argument structure, knowledge and power, bias and objectivity, and the ethics and politics of research. Meets the requirements for the WGST certificate.
Requisites: Restricted to graduate students only.

WGST 6290 (3) Special Topics in Gender and Sexuality Studies
Offers interdisciplinary feminist perspectives on different special topics such as gender and war, gender and globalization, women's social movements, gender and citizenship, gender and collective memory, and cultural representations of gender and sexuality. Meets the requirements for the WGST certificate.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

WGST 6796 (3) Queer Theories
Explores key concepts and debates in the field of queer theory with an interdisciplinary focus on crosscutting issues (aesthetic, cultural, legal, medical, political and social) that shape queer subjectivities, practices and relations.
Requisites: Restricted to graduate students only.

WGST 6840 (1-3) Independent Study in Gender and Sexuality Studies
Provides course credit for an independent directed research project or advanced reading program on an area of concentration within gender and sexuality studies. Requires an independent study agreement form completed by the student in collaboration with a WGST faculty advisor and signed by the faculty advisor. Requires approval by WGST graduate studies director.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

WGST 6949 (1) Master's Candidate for Degree
Registration intended for students preparing for a thesis defense, final examination, culminating activity, or completion of degree.
Requisites: Restricted to Master of Arts in Gender and Sexuality Studies graduate students only. (GSXS-MA)

WGST 6959 (1-6) Master's Thesis in Gender and Sexuality Studies
Registration intended for students conducting a project of original research that culminates in a master¿s level thesis and oral defense. Required of every master¿s degree candidate under the thesis plan of study option.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Master of Arts in Gender and Sexuality Studies graduate students only. (GSXS-MA)

WGST 6969 (1-6) Master¿s Practicum in Gender and Sexuality Studies
Registration intended for students conducting paid or unpaid work at an agency, organization, or project relevant to gender and sexuality studies that culminates in a paper detailing and analyzing the work achieved and an oral defense. Required of every master¿s degree candidate under the practicum plan of study option.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Master of Arts in Gender and Sexuality Studies graduate students only. (GSXS-MA)

Writing and Rhetoric (WRTG)

Courses

WRTG 1100 (4) Extended First-Year Writing and Rhetoric
Extended version of WRTG 1150 intended for students desiring more preparation and practice in college writing. Meets the same goals and fulfills the same requirements as WRTG 1150. Includes one-hour recitation for small group work. Focuses on rhetorical analysis, argument, inquiry and information literacy. Taught as a writing workshop, the course emphasizes practicing strategies for all phases of the writing process. For placement criteria, see the arts and sciences advising office.
Repeatable: Repeatable for up to 8.00 total credit hours.
Additional Information: GT Pathways: GT-CO2 - Communication
Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Lower
MAPS Course: English

WRTG 1150 (3) First-Year Writing and Rhetoric
Rhetorically informed introduction to college writing. Focuses on rhetorical analysis, argument, inquiry and information literacy. Taught as a writing workshop, the course emphasizes practicing writing strategies for all phases of the writing process. For placement criteria, see the arts and sciences advising office.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: GT Pathways: GT-CO2 - Communication
Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Lower
MAPS Course: English

WRTG 1160 (3) CMCI First-Year Writing and Rhetoric
Rhetorically informed introduction to college writing for CMCI students enrolled in CMCI 1040. Focuses on rhetorical analysis, argument, inquiry, and information literacy. Taught as a writing workshop, the course emphasizes practicing writing strategies for all phases of the writing process.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to College of Communication, Media, Design and Information (CMDI) undergraduate students only.
Additional Information: GT Pathways: GT-CO2 - Communication
Arts Sci Gen Ed: Written Communication-Lower

WRTG 1250 (3) Advanced First-Year Writing and Rhetoric
Advanced version of WRTG 1150 intended for more experienced writers, this course meets the same goals and fulflls the same requirements as WRTG 1150 but at a more challenging level. Focuses on rhetorical analysis, argument, inquiry, and information literacy. Taught as a writing workshop, the course emphasizes practicing writing strategies for all phases of the writing process. For placement criteria, see the arts and sciences advising office.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: GT Pathways: GT-CO2 - Communication
Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Lower
MAPS Course: English

WRTG 1840 (1-3) Independent Study in Writing
Repeatable: Repeatable for up to 8.00 total credit hours.

WRTG 2000 (3) Information and Society
In an information economy, few skill sets are as fundamental to our civic, economic, and environmental well-being as information literacy. This writing course will train students to produce, categorize, and analyze information in academic and real-world contexts. In addition to information literary, we will examine the writing thresholds and habits of mind conducive to the effective uses of information. Through extensive use of digital technologies, students will equally cultivate the skills of digital literacy.
Recommended: Prerequisite WRTG 1150 or equivalent.

WRTG 2020 (3) Introduction to Creative Nonfiction
Explores from both the reader's and writer's perspectives the forms of creative nonfiction, including personal essay and memoir. Students will read and write extensively within this genre, develop skill in revision and peer critique and learn how to submit work for publication. Does not fulfill core requirements. Department enforced prerequisite: WRTG 1150 or equivalent (completion of lower-division writing requirement).

WRTG 2090 (3) Electives in Writing
Explores a variety of academic and professional writing genres, ranging from research to technical writing, in intensive workshops. Students read and write extensively across genres. Check with program for semester offerings. Designed for self-motivated students in all majors. Does not fulfill core requirements. Department enforced prereq., WRTG 1150 or equivalent (completion of lower-division writing requirement)
Repeatable: Repeatable for up to 6.00 total credit hours.

WRTG 2095 (3) Ideas for Social Change
Introduces key concepts and practices central to understanding historical and contemporary social movements in the U.S. Grounded in theories about discourse, bodies, culture, and power, the course is taught through various frameworks such as intersectionality, rhetoric, critical race theory, feminism, queer studies, decolonial studies, and/or LGTBQ+ studies. Students will discover, identify, and analyze social issues of significance to them; practice developing their own visions for social change; and present their visions in public-facing multi-modal genres. Formerly offered as a special topics course.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WRTG 2930 (1-6) Internship in Writing and Rhetoric
Provides academically supervised opportunity for undergraduate students to engage in writing and rhetoric as a practical and productive art. Students may work in a variety of organizations (public/government/civic/private) on writing-intensive projects related to their career goals, and thereby connect classroom theory to real-world practice. Prior approval of PWR internship coordinator required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: This course is restricted to students with 30 credits (Sophomores) with a 3.0 cumulative GPA.

WRTG 3007 (3) Writing in the Visual Arts
Enables students in the arts to improve their writing skills through organization, presentation, critique and revision. Writing assignments include formal writing (analysis and argument), informal writing and grant proposals. Department enforced prerequisite: WRTG 1150 or equivalent (completion of lower-division writing requirement).
Requisites: Restricted to students with 57-180 credits (Junior or Senior) AAAH or FILM/FMST or AASA or AASF or THTR or TBFA or DNCE or DBFA or AMST or ARCH or ATLS or BASA or CLAS or DSGN or ETHN or JADV or MDST or RLST or TMEN or EDUC majors only.
Additional Information: GT Pathways: GT-CO3 - Communication: Advanced Writing Course
Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Upper

WRTG 3010 (3) Technology, Rhetoric and the Self in Contemporary Life
Weaves theories of rhetoric with theories of information, data, and technology to investigate how digital information systems mediate contemporary ways of knowing and being in everyday life. Through seminar discussions and a suite of public facing assignments, students will have opportunities to question their own roles in information networks, critique systems of power, and enter into contemporary debates about the overlaps of data, media, and ethics.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WRTG 3020 (3) Topics in Writing
Through sustained inquiry into a selected topic or issue, students will practice advanced forms of academic writing. Emphasizes analysis, criticism and argument. Taught as a writing seminar, places a premium on substantive, thoughtful revision. Department enforced prerequisite: WRTG 1150 or equivalent (completion of lower-division writing requirement).
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students w/ 57-180 credits (Jr or Sr) in AS (ARSCU), College of Media, Comm Info (CMCIU) or School of Ed (EDUCU) or Business (BUSNU) or Comp Sci Bachelor of Arts (CSEN-BA) or Prog in Env Design (ARPLU) or College of Music (MUSC) only.
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Upper

WRTG 3030 (3) Writing on Science and Society
Through selected reading and writing assignments, students consider ethical and social ramifications of science policy and practice. Focuses on critical thinking, revision, analytical writing, and oral presentation. Taught as a writing seminar, the course addresses communication with professional and non-technical audiences.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits in Engineering, MCDB, EBIO, GEOL, ASTR, IPHY, PHYS, MATH, ECON, BCHM, CHEM, PSYC, NRSC, EDUC, ATOC, GEOG, CSCI or Program in Env Des (ARPLU) majors only.
Additional Information: GT Pathways: GT-CO3 - Communication: Advanced Writing Course
Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Upper

WRTG 3035 (3) Technical Communication and Design
Rhetorically informed introduction to technical writing that hones communication skills in the context of technical design activities. Treats design as a collaborative, user-oriented, problem-based activity, and technical communication as a rhetorically informed and persuasive design art. Taught as a writing seminar emphasizing critical thinking, revision, and oral presentation skills. Focuses on client-driven design projects and effective communication with multiple stakeholders.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: GT Pathways: GT-CO3 - Communication: Advanced Writing Course
Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Upper

WRTG 3040 (3) Writing on Business and Society
Through selected reading and writing assignments, students examine ethical and social issues in the context of business decision-making processes. Focuses on critical thinking, revision, analytical writing and oral presentation. Taught as a writing seminar, the course emphasizes effective communication with professional and non-technical audiences. Department enforced prerequisite: WRTG 1150 or equivalent (completion of lower-division writing requirement).
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Upper

WRTG 3045 (3) Writing for Emerging Workplaces
A rhetorically-informed professional writing course addressing key competencies needed in emerging workplaces. Intended for juniors and seniors from a wide range of majors who anticipate working in communication-intensive capacities. Taught as a writing seminar inspired by design thinking, with a focus on prototyping, revision, critical thinking, and collaborative engagement. Key topics: the future of work, rapid prototyping of career options, proposal writing, writing for policy debates, data analysis and visualization, report writing, and advanced oral presentation and multimedia skills. Satisfies A&S Upper-Division Written Communication requirement.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Written Communication-Upper

WRTG 3070 (3) Advocating with Data
Teaches how to use data and data-driven arguments to advocate for change on issues of concern. Via rhetorical and other critical frameworks, explores definitions of data and its relations to power, publics, and justice. Students will produce persuasive texts, including multimodal texts and data visualizations, intended for real-world advocacy and publication in a variety of media and genres. Taught as a writing workshop, with a focus on revision, critical thinking, and collaborative engagement.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Written Communication-Upper
Arts Sci Gen Ed: Distribution-Arts Humanities

WRTG 3090 (1-3) Open Topics in Writing: Advanced
Advanced topics course providing intensive, specialized writing instruction in selected topics. Check with the program for semester offerings. Does not fulfill core requirements. Department enforced prerequisite: WRTG 3007 or WRTG 3020 WRTG 3030 or WRTG 3035 or WRTG 3040 or instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

WRTG 3095 (3) Journal Publishing
Offers hands-on publishing experience that enable students to hone multiple skills related to but not limited to writing, editing, and production. Students work on staff of two annual journals of creative nonfiction sponsored by the Program for Writing and Rhetoric, currently Hindsight and Changing Skies. Students collaborate with other staff members to bring a print issue from acquisitions through editing, into digital compositing and final proofreading, to print production and ¿launch¿ with public readings from both students and global writers. Students also gain experience publishing online-only features for both journals, videos, podcasts, and creative nonfiction in all its forms. This course may be repeated up to 6 total credit hours.
Repeatable: Repeatable for up to 6.00 total credit hours.

WRTG 3400 (3) Race and Epistemic Justice
This course will study the visual construction of race in the United States from the slavery era to the digital age. Through analyses of diverse media (photography, cinema, television, and digital platforms), we will interrogate testimony, witnessing, and visual self-creation as long-standing forms of political agency in the United States. Finally, we will test the hypothesis that epistemic justice ¿ equal treatment of one another as knowers and documenters ¿ is an inseparable component of racial justice.
Equivalent - Duplicate Degree Credit Not Granted: AHUM 3400

WRTG 3840 (1-3) Independent Study
Department enforced prerequisite: WRTG 3007 or WRTG 3020 or WRTG 3030 or WRTG 3035 or WRTG 3040 or instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

WRTG 3930 (1-6) Internship in Writing and Rhetoric
Provides academically supervised opportunity for undergraduate students to engage in writing and rhetoric as a practical and productive art. Students may work in a variety of organizations (public/government/civic/private) on writing-intensive projects related to their career goals, and thereby connect classroom theory to real-world practice. Prior approval of PWR internship coordinator required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: This course is restricted to students with 57 credits (Juniorss) with a 3.0 cumulative GPA.

WRTG 4910 (1-3) Portfolio Curation in Writing and Rhetoric
Provides academically supervised opportunity for undergraduate students to curate, reflect on and synthesize their learning over a range of courses through the production of an electronic portfolio. One credit hour required of students seeking the Interdisciplinary Writing Certificate. Approval of PWR Certificate coordinator required prior to registration.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors). Requires cumulative GPA of 3.0 or higher.

WRTG 5050 (3) Graduate Studies in Writing and Rhetoric
Special topics and methods course in composition theory, research and pedagogy. Topics vary by semester.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

WRTG 5840 (1-3) Independent Study-Writing & Rhetoric
Independent study.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

Yiddish (YIDD)

Courses

YIDD 1010 (4) Beginning Yiddish 1
Introduces students to speaking, listening, reading, and writing skills in the historic language of Ashkenazic Jewry. Uses grammar as point of departure for development of oral skills.
Additional Information: Departmental Category: Yiddish

YIDD 1020 (4) Beginning Yiddish 2
Continuation of YIDD 1010. Department enforced prerequisite: YIDD 1010 (minimum grade C-).
Additional Information: Departmental Category: Yiddish

YIDD 2010 (4) Intermediate Yiddish 1
Review and continuation of skills begun in the first year: reading, writing, speaking and oral comprehension. Provides an intensive introduction to cultural and literary texts of central and eastern European Jewish culture. Department enforced prerequisite: YIDD 1020 (minimum grade C-).
Additional Information: Departmental Category: Yiddish

A

Aaholm, Philip
Professor Emeritus: Music

Aaronson, Norman F. (https://experts.colorado.edu/display/fisid_100377/)
Professor Emeritus: School of Law
JD, Boston University

Abbott, Lois A.
Senior Instructor Emerita: Molecular, Cellular & Developmental Biology (MCDB)

Abbott, Lon D. (https://experts.colorado.edu/display/fisid_145044/)
Teaching Professor of Distinction: Geological Sciences; Faculty Director: International Education
PhD, University of California, Santa Cruz

Abdala-Mesa, Yohainna
Assistant Teaching Professor: Spanish and Portuguese
PhD, Université de Toulouse II Le Mirail (France)

Abdalati, Waleed (https://experts.colorado.edu/display/fisid_145800/)
Professor: Geography
PhD, University of Colorado Boulder

Abiragi, Anthony A. (https://experts.colorado.edu/display/fisid_147611/)
Assistant Teaching Professor: Program for Writing and Rhetoric
PhD, New York University

Ablowitz, Mark J. (https://experts.colorado.edu/display/fisid_100691/)
Distinguished Professor: Applied Mathematics
PhD, Massachusetts Institute of Technology

Acevedo-Muñoz, Ernesto R. (https://experts.colorado.edu/display/fisid_113061/)
Professor: Cinema Studies & Moving Image Arts
PhD, University of Iowa

Ackerman, John Martin (https://experts.colorado.edu/display/fisid_144951/)
Associate Professor: Program for Writing and Rhetoric; Professor: Communication
PhD, Carnegie Mellon University

Ackland, Len (https://experts.colorado.edu/display/fisid_103930/)
Professor Emeritus: Journalism
MA, Johns Hopkins University

Acuna, Daniel (https://experts.colorado.edu/display/fisid_172426/)
Associate Professor: Computer Science
PhD, University of Minnesota Twin Cities

Adams, Heather L. (https://experts.colorado.edu/display/fisid_143714/)
Associate Chair, Faculty Director, Senior Instructor: Leeds School of Business; Senior Instructor: Continuing Education & Professional Studies
PhD, University of Maryland, College Park

Adams, Sharon Mar (https://experts.colorado.edu/display/fisid_139709/)
Instructor: Farrand RAP

Adams, William (https://experts.colorado.edu/display/fisid_103612/)
Professor: Ecology and Evolutionary Biology
PhD, Australian National University

Adler, Edward Scott (https://experts.colorado.edu/display/fisid_108903/)
Dean: Graduate School; Professor: Political Science
PhD, Columbia University

Adler, Patricia A.
Professor Emerita: Sociology

Affrunti, Andrew J. (https://experts.colorado.edu/display/fisid_149937/)
Instructor: Mechanical Engineering
MSEE, University of Illinois at Urbana–Champaign

Agocs, Fruzsina
Assistant Professor: Computer Science
PhD, University of Cambridge

Aguliera, Arthur (https://experts.colorado.edu/display/fisid_164519/)
Assistant Professor: University Libraries
MLS, University of Washington

Ahmed, Alaa A. (https://experts.colorado.edu/display/fisid_144736/)
Professor: Mechanical Engineering; Assistant Professor: Biomedical Engineering
PhD, University of Michigan

Ahmed, Nisar R. (https://experts.colorado.edu/display/fisid_153237/)
Associate Professor, Associate Professor: Computer Science; Director: Aerospace Engineering Sciences
PhD, Cornell University

Ahn, Natalie (https://experts.colorado.edu/display/fisid_106044/)
Distinguished Professor: Biochemistry
PhD, University of California, Berkeley

Akos, Dennis M. (https://experts.colorado.edu/display/fisid_131119/)
Professor: Aerospace Engineering Sciences; Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, Ohio University

Albert, Michelle A. (https://experts.colorado.edu/display/fisid_134708/)
Associate Teaching Professor: Program for Writing and Rhetoric; Senior Instructor: Continuing Education & Professional Studies
MFA, Naropa Institute

Aldama, Arturo James (https://experts.colorado.edu/display/fisid_130739/)
Associate Professor, Chair: Ethnic Studies
PhD, University of California, Berkeley

Aldama, Dulce
Assistant Professor: University Libraries
PhD, University of Colorado

Alexander, Katherine Laura Bos (https://experts.colorado.edu/display/fisid_157674/)
Assistant Professor: Asian Languages and Civilizations
PhD, University of Chicago

Alhadeff, Albert (https://experts.colorado.edu/display/fisid_100711/)
Associate Professor: Art and Art History
PhD, New York University

Ali, Aun Hasan (https://experts.colorado.edu/display/fisid_155948/)
Assistant Professor: Religious Studies
PhD, McGill University

Ali, Hisham (https://experts.colorado.edu/display/fisid_168718/)
Assistant Professor: Aerospace Engineering Sciences
PhD, Georgia Institute of Technology

Alistar, Mirela (https://experts.colorado.edu/display/fisid_164177/)
Assistant Professor: ATLAS Institute; Assistant Professor: Computer Science; Assistant Professor: Biomedical Engineering; Assistant Professor: Creative Technology & Design
PhD, Technical University of Denmark

Allen, David (https://experts.colorado.edu/display/fisid_114466/)
Teaching Associate Professor: Psychology and Neuroscience; Lecturer: Continuing Education & Professional Studies
PhD, University of California, Los Angeles

Allen, Mary Ann (https://experts.colorado.edu/display/fisid_149077/)
Research Associate Professor: Biomedical Engineering
PhD, University of Colorado Boulder

Allmendinger, Katerina (https://experts.colorado.edu/display/fisid_165581/)
Teaching Assistant Professor: University Libraries
MLS, University of Denver

Alpern, Herbert P.
Professor Emeritus: Psychology and Neuroscience

Alpern, Tyler J. (https://experts.colorado.edu/display/fisid_115381/)
Senior Instructor: Libby Arts RAP
MFA, University of Colorado Boulder

Alston, Eric Christopher (https://experts.colorado.edu/display/fisid_158159/)
Scholar in Residence: Leeds School of Business
JD, University of Chicago

Amadei, Bernard (https://experts.colorado.edu/display/fisid_105978/)
Professor Emeritus: Civil, Environmental and Architectural Engineering
PhD, University of California, Berkeley

Ambler, Catherine
Assistant Teaching Professor: Engineering, Ethics & Society
PhD, Columbia University

Ambler, Wayne (https://experts.colorado.edu/display/fisid_127519/)
Associate Professor Emeritus: Engineering, Ethics & Society
PhD, Boston College

Ambrose, Kirk T. (https://experts.colorado.edu/display/fisid_115914/)
Professor: Art and Art History; Professor: Critical Media Practices; Professor: Classics; Faculty Director: Academic Affairs
PhD, University of Michigan Ann Arbor

Amerika, Mark (https://experts.colorado.edu/display/fisid_116523/)
Professor: Art and Art History; Faculty Director: College of Media, Communication & Information; Professor: Intermedia Art, Writing and Performance
MFA, Brown University

Amram, Tess
Teaching Assistant Professor: University Libraries
MLIS, Drexel University

Amy, Gary L.
Professor Emeritus: Civil, Environmental and Architectural Engineering

Anaya, S. James (https://experts.colorado.edu/display/fisid_157985/)
Distinguished Professor, Endowed/Named Professor: School of Law
JD, Harvard Law

Anderman, Elizabeth (https://experts.colorado.edu/display/fisid_144257/)
Senior Instructor, Associate Faculty Director: Farrand RAP
PhD, University of Colorado Boulder

Anderson, Brandon (https://experts.colorado.edu/individual/fisid_148082/)
Teaching Assistant Professor: Environmental Design
MArch, Texas Tech University

Anderson, Dana Z. (https://experts.colorado.edu/display/fisid_102371/)
Professor: Physics; Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of Arizona

Anderson, Fred W. (https://experts.colorado.edu/display/fisid_104273/)
Professor Emeritus: History
PhD, Harvard University

Anderson, Kenneth M. (https://experts.colorado.edu/display/fisid_113566/)
Chair, Professor: Computer Science; Faculty Director: College of Engineering and Applied Science
PhD, University of California, Irvine

Anderson, Robert S. (https://experts.colorado.edu/display/fisid_130117/)
Distinguished Professor: Geological Sciences
PhD, University of Washington

Anderson, Suzanne Prestrud (https://experts.colorado.edu/display/fisid_131099/)
Professor: Institute of Arctic & Alpine Research (INSTAAR); Professor: Geological Sciences
PhD, University of California, Berkeley

Anderson, Virginia D. (https://experts.colorado.edu/display/fisid_100365/)
Professor Emerita: History
PhD, Harvard University

Andersson, Krister Par (https://experts.colorado.edu/display/fisid_140076/)
Faculty Director, Professor: Institute of Behavioral Science (IBS)
PhD, Indiana University Bloomington

André, Quentin (https://experts.colorado.edu/display/fisid_166737/)
Assistant Professor: Leeds School of Business
PhD, INSEAD (France)

Andrews, Thomas G. (https://experts.colorado.edu/display/fisid_149881/)
Professor: History
PhD, University of Wisconsin–Madison

Angel, George
Lecturer: Engineering Management Program
BS, University of Albuquerque

Angiolillo, Albert
Assistant Teaching Professor: Integrative Physiology
MS, University of Colorado Boulder

Anseth, Kristi S. (https://experts.colorado.edu/display/fisid_103471/)
Distinguished Professor: Chemical and Biological Engineering; Distinguished Professor: Molecular, Cellular & Developmental Biology (MCDB); Associate Faculty Director: Biofrontiers Institute
PhD, University of Colorado Boulder

Antman, Francisca Marie (https://experts.colorado.edu/display/fisid_144606/)
Professor: Economics
PhD, Stanford University

Antoniak, Maria
Visiting Assistant Professor: Computer Science
Ph.D., Cornell University

Appelö, Daniel E. (https://experts.colorado.edu/display/fisid_159438/)
Assistant Professor Adjunct: Applied Mathematics
PhD, KTH Royal Institute of Technology (Sweden)

Appenzeller, William
Professor Emeritus: Leeds School of Business

Aragon, Manuel
Lecturer: Cinema Studies & Moving Image Arts
BFA, New York University

Arch, Joanna (https://experts.colorado.edu/display/fisid_147415/)
Professor: Psychology and Neuroscience
PhD, University of California, Los Angeles

Ardizzoni, Michela (https://experts.colorado.edu/display/fisid_145152/)
Associate Professor, Associate Chair: French & Italian; Associate Professor: College of Media, Communication & Information; Assistant Professor, Director: Media Studies
PhD, Indiana University Bloomington

Arehart, Joseph Hoberg (https://experts.colorado.edu/display/fisid_164349/)
Assistant Teaching Professor: Civil, Environmental and Architectural Engineering
BS, University of Colorado Boulder

Arehart, Kathryn H. (https://experts.colorado.edu/display/fisid_105561/)
Professor: Speech, Language and Hearing Sciences (SLHS)
PhD, University of Washington

Argrow, Brian M. (https://experts.colorado.edu/display/fisid_102860/)
Distinguished Professor, Director, Professor: Research & Engineering Ctr for Unmanned Vehicles (RECUV); Faculty Director: College of Engineering and Applied Science; Endowed/Named Professor: Aerospace Engineering Sciences
PhD, University of Oklahoma

Arias, Ernesto G.
Professor Emeritus: Environmental Design

Armstrong, David M.
Professor Emeritus: Ecology and Evolutionary Biology

Arnoult, Nausica Christine (https://experts.colorado.edu/display/fisid_164094/)
Assistant Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Pierre and Marie Curie University (France)

Arp, Jared (https://experts.colorado.edu/display/fisid_168314/)
Teaching Assistant Professor: Environmental Design
BS, Metropolitan State University

Arquilla, Katya (https://experts.colorado.edu/display/fisid_173943/)
Assistant Professor: Aerospace Engineering Sciences
PhD, University of Colorado

Arthurs, Leilani A. (https://experts.colorado.edu/display/fisid_145087/)
Associate Professor: Geological Sciences
PhD, University of Notre Dame

Arya, Nidhi (https://experts.colorado.edu/display/fisid_150006/)
Teaching Assistant Professor: Asian Languages and Civilizations

Arya, Vischala (https://experts.colorado.edu/display/fisid_176850/)
Assistant Professor: Aerospace Engineering Sciences
PhD, Texas AM University

Asano, Yukiko (https://experts.colorado.edu/display/fisid_168457/)
Teaching Assistant Professor: Asian Languages and Civilizations
PhD, SUNY at Stony Brook

Ashby, Neil
Professor Emeritus: Physics
PhD, Harvard University

Ashcraft, Karen Lee (https://experts.colorado.edu/display/fisid_147453/)
Professor: Communication; Professor: Communication & Society RAP
PhD, University of Colorado Boulder

Ashraf, Asa
Associate Teaching Professor: Computer Science
MS, South Dakota State University

Asirvatham, Margaret (https://experts.colorado.edu/display/fisid_103670/)
Senior Instructor Emerita: Chemistry
PhD, Kansas State University

Atnally, Diane L. (https://experts.colorado.edu/display/fisid_113062/)
Associate Professor Emerita: Classics
PhD, University of Michigan Ann Arbor

Attwa, Mona Farrag (https://experts.colorado.edu/display/fisid_155976/)
Teaching Associate Professor: Asian Languages and Civilizations
MA, American University in Cairo (Egypt)

Auguiste, Reece Luke (https://experts.colorado.edu/display/fisid_149596/)
Chair, Associate Professor, Faculty Director: Critical Media Practices
PhD, University of Nottingham (England)

Aumentado, Jose
Lecturer: Physics
PhD, Northwestern University

Auslander, Bonnie (https://experts.colorado.edu/display/fisid_158273/)
Instructor: Leeds School of Business
MFA, University of Massachusetts

Austin, James R. (https://experts.colorado.edu/display/fisid_103455/)
Professor: Music Education; Professor: Music
PhD, University of Iowa

Auvinen, Karen Marie (https://experts.colorado.edu/display/fisid_106065/)
Lecturer: Continuing Education & Professional Studies; Instructor, Associate Faculty Director: Libby Arts RAP; Lecturer: Sewall RAP
PhD, University of Wisconsin–Milwaukee

Avila, Sara (https://experts.colorado.edu/display/fisid_165935/)
Instructor: Continuing Education & Professional Studies; Instructor: Economics
PhD, National University of Mexico

Axelrad, Penina (https://experts.colorado.edu/display/fisid_100792/)
Distinguished Professor, Endowed/Named Professor: Aerospace Engineering Sciences
PhD, Stanford University

Ayanzadeh, Ramen
Assistant Professor: Computer Science
PhD, University of Maryland

Aydin, Aysegul (https://experts.colorado.edu/display/fisid_143789/)
Associate Professor: Political Science
PhD, SUNY at Binghamton

Aydin, Halil (https://experts.colorado.edu/display/fisid_167398/)
Assistant Professor: Biochemistry
PhD, University of Toronto

Ayer, Steven
Associate Professor: Civil, Environmental and Architectural Engineering
PhD, Pennsylvania State University

B

Babicz, Martin Charles (https://experts.colorado.edu/display/fisid_147676/)
Teaching Associate Professor: History; Instructor: Libby Arts RAP; Instructor: Communication & Society RAP; Senior Instructor: Sewall RAP
PhD, University of Colorado Boulder

Bacalzo, Dean (https://experts.colorado.edu/display/fisid_172805/)
Teaching Associate Professor: Environmental Design
MSD, Arizona State University

Bachtell, Ryan (https://experts.colorado.edu/display/fisid_146084/)
Associate Professor: Psychology and Neuroscience
PhD, Oregon Health Science University

Baggett, Lawrence W.
Professor Emeritus: Mathematics
PhD, University of Washington Seattle

Baiduc, Rachael (https://experts.colorado.edu/display/fisid_157676/)
Associate Professor: Speech, Language and Hearing Sciences (SLHS)
PhD, University of Washington

Bailey, Dominic (https://experts.colorado.edu/display/fisid_145110/)
Associate Professor: Philosophy; Associate Professor: Classics
PhD, University of Cambridge

Bailey, Karen (https://experts.colorado.edu/display/fisid_164881/)
Assistant Professor: Environmental Studies Program
PhD, University of Florida

Bailey Mollborn, Stefanie Faun (https://experts.colorado.edu/display/fisid_142921/)
Professor: Institute of Behavioral Science (IBS); Professor: Sociology
PhD, Stanford University

Baird, Vanessa Anne (https://experts.colorado.edu/display/fisid_115297/)
Associate Professor: Political Science
PhD, University of Houston-University Park

Baker, Daniel N. (https://experts.colorado.edu/display/fisid_103264/)
Director, Endowed/Named Professor: Research & Innovation Office; Distinguished Professor: Laboratory for Atmospheric and Space Physics (LASP); Distinguished Professor: Astrophysical and Planetary Sciences (APS); Distinguished Professor: Physics
PhD, University of Iowa

Baker, Kyri A. (https://experts.colorado.edu/display/fisid_159754/)
Associate Professor: Civil, Environmental and Architectural Engineering; Assistant Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, Carnegie Mellon University

Balaji, Rajagopalan (https://experts.colorado.edu/display/fisid_118480/)
Professor, Associate Chair: Civil, Environmental and Architectural Engineering; Professor, Chair: Environmental Engineering Program (EVEN)
PhD, Utah State University

Balch, Jennifer Kakareka (https://experts.colorado.edu/display/fisid_154464/)
Associate Professor: Geography; Faculty Director, Associate Professor: Cooperative Institute for Research in Environmental Sciences (CIRES)
PhD, Yale University

Balkin, David B. (https://experts.colorado.edu/display/fisid_105481/)
Professor: Leeds School of Business
PhD, University of Minnesota Twin Cities

Ballantine, John T. Jr. (https://experts.colorado.edu/display/fisid_102703/)
Senior Instructor: Leeds School of Business
JD, University of Colorado Boulder

Bally, John (https://experts.colorado.edu/display/fisid_105710/)
Professor Emeritus: Astrophysical and Planetary Sciences (APS); Professor: Center for Astrophysics & Space Astronomy (CASA)
PhD, University of Massachusetts at Amherst

Bamforth, Douglas (https://experts.colorado.edu/display/fisid_101027/)
Professor: Anthropology
PhD, University of California, Santa Barbara

Ban, Chunmei (https://experts.colorado.edu/display/fisid_165780/)
Associate Professor: Mechanical Engineering
PhD, SUNY at Binghamton

Bangs, F. Kendrick
Professor Emeritus: Leeds School of Business

Banic, Amy
Visiting Associate Professor: Computer Science

Banich, Marie (https://experts.colorado.edu/display/fisid_120646/)
Professor: Psychology and Neuroscience; Professor: Institute of Cognitive Science (ICS)
PhD, University of Chicago

Banks, Cynthia (https://experts.colorado.edu/display/fisid_158245/)
Instructor, Faculty Director: Leeds School of Business
MS, University of Colorado Denver

Baratta, Michael V. (https://experts.colorado.edu/display/fisid_149599/)
Assistant Professor: Psychology and Neuroscience
PhD, University of Colorado Boulder

Barger, Nichole Nannette (https://experts.colorado.edu/display/fisid_131398/)
Associate Professor, Associate Chair: Ecology and Evolutionary Biology
PhD, Colorado State University

Barham, Tania C.J. (https://experts.colorado.edu/display/fisid_140077/)
Associate Professor, Associate Professor: Economics; Faculty Director: Institute of Behavioral Science (IBS)
PhD, University of California, Berkeley

Barker, Lecia Jane (https://experts.colorado.edu/display/fisid_101367/)
Associate Professor: Information Science; Associate Professor: College of Media, Communication & Information
PhD, University of Colorado Boulder

Barkin, Sarah (https://experts.colorado.edu/display/fisid_156490/)
Assistant Teaching Professor: Program for Writing and Rhetoric
PhD, Syracuse University

Barlow, Lisa K. (https://experts.colorado.edu/display/fisid_100137/)
Senior Instructor: Baker RAP
PhD, University of Colorado Boulder

Barlow, Melinda B. (https://experts.colorado.edu/display/fisid_109696/)
Associate Professor: Cinema Studies & Moving Image Arts
PhD, New York University

Barnard, Holly Rene (https://experts.colorado.edu/display/fisid_147417/)
Associate Professor, Associate Professor: Institute of Arctic & Alpine Research (INSTAAR); Associate Chair: Geography
PhD, Oregon State University

Barnes, Frank S. (https://experts.colorado.edu/display/fisid_104148/)
Distinguished Professor Emeritus: Electrical, Computer and Energy Engineering (ECEE)
PhD, Stanford University

Barnett, Michael T. (https://experts.colorado.edu/display/fisid_116467/)
Instructor: Music; Instructor: Sewall RAP
DMA, University of Colorado Boulder

Barrett, Bridget (https://experts.colorado.edu/display/fisid_173429/)
Assistant Professor: Advertising, Public Relations and Media Design
PhD, University of North Carolina at Chapel Hill

Bartels, Justin P. (https://experts.colorado.edu/display/fisid_152074/)
Lecturer: Music

Barth, Daniel
Professor Emeritus: Psychology and Neuroscience

Barthelat, Francois (https://experts.colorado.edu/display/fisid_164866/)
Professor: Mechanical Engineering
PhD, Northwestern University

Bartlett, David
Professor Emeritus: Physics
PhD, Columbia University

Bartlett, Jamie Lynn
Lecturer: Farrand RAP; Lecturer: Honors RAP
PhD, University of Colorado Boulder

Barton, Taylor Wallis (https://experts.colorado.edu/display/fisid_157939/)
Associate Professor: Electrical, Computer and Energy Engineering (ECEE)
DSc, Massachusetts Institute of Technology

Bartos, Otomar J.
Professor Emeritus: Sociology

Basey, John M. (https://experts.colorado.edu/display/fisid_105539/)
Senior Instructor: Ecology and Evolutionary Biology
PhD, University of Nevada, Reno

Bashore, Kate (https://experts.colorado.edu/display/fisid_168644/)
Assistant Teaching Professor: Theatre and Dance
MFA, University of Tennessee - Knoxville

Bastias, Alfonso (https://experts.colorado.edu/display/fisid_143688/)
Assistant Teaching Professor: Computer Science
PhD, University of Colorado Boulder

Bates, Kelvin (https://experts.colorado.edu/display/fisid_173937/)
Assistant Professor: Mechanical Engineering
PhD, California Institute of Technology

Bateson, Regina
Assistant Professor: Political Science
PhD, Yale University

Batey, Robert T. (https://experts.colorado.edu/display/fisid_122668/)
Professor: Biochemistry
PhD, Massachusetts Institute of Technology

Bauer, Amy (https://experts.colorado.edu/display/fisid_148723/)
Senior Instructor, Faculty Director, Assistant Dean: School of Law
JD, College of William and Mary

Bay, R. Kōnane (https://experts.colorado.edu/display/fisid_172688/)
Assistant Professor: Chemical and Biological Engineering
PhD, University of Massachusetts at Amherst

Bayard de Volo, Lorraine M. (https://experts.colorado.edu/display/fisid_143611/)
Professor: Women and Gender Studies; Professor: Political Science
PhD, University of Michigan Ann Arbor

Beale, Paul D. (https://experts.colorado.edu/display/fisid_101602/)
Professor: Physics; Faculty Director: College of Arts and Sciences
PhD, Cornell University

Beard, Steven (https://experts.colorado.edu/display/fisid_168279/)
Teaching Assistant Professor: Political Science; Teaching Assistant Professor: International Affairs Program

Beaudry, Agnès (https://experts.colorado.edu/display/fisid_157677/)
Associate Professor: Mathematics
PhD, Northwestern University

Becher, Anne Helen (https://experts.colorado.edu/display/fisid_110035/)
Associate Teaching Professor: Spanish and Portuguese; Senior Instructor: Continuing Education & Professional Studies
MA, University of Colorado Boulder

Beck, Erik Richard
Instructor: Law Library
MS, University of Texas at Austin

Becker, Andreas (https://experts.colorado.edu/display/fisid_146675/)
Distinguished Professor: Physics; Faculty Director, Professor: JILA
Dr habil, Universite Laval (Canada)

Becker, Stephen R. (https://experts.colorado.edu/display/fisid_154263/)
Associate Professor: Applied Mathematics; Associate Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, California Institute of Technology

Becker, William
Scholar in Residence: Civil, Environmental and Architectural Engineering
PhD, The Johns Hopkins University

Bedard, Alfred J. Jr.
Associate Professor Adjunct: Integrated Teaching & Learning (ITL) Program

Beechy, Tiffany R. (https://experts.colorado.edu/display/fisid_149775/)
Professor: English; Faculty Director: Office of the Chancellor; Associate Faculty Director: Center for Humanities and the Arts
PhD, University of Oregon

Beer, Francis A. (https://experts.colorado.edu/display/fisid_100703/)
Professor Emeritus: Political Science
PhD, University of California Berkeley

Begelman, Mitchell C. (https://experts.colorado.edu/display/fisid_100446/)
Distinguished Professor: Astrophysical and Planetary Sciences (APS); Distinguished Professor: JILA
PhD, University of Cambridge (England)

Behzadan, Amir
Professor: Civil, Environmental and Architectural Engineering
PhD, University of Michigan Ann Arbor

Bei, Xiaoshu (https://experts.colorado.edu/display/fisid_165170/)
Assistant Professor: Leeds School of Business
PhD, Duke University

Bekoff, Anne (https://experts.colorado.edu/display/fisid_100613/)
Professor Emeritus: Integrative Physiology
PhD, Washington University

Bekoff, Marc
Professor Emeritus: Ecology and Evolutionary Biology

Belknap, Joanne Elizabeth (https://experts.colorado.edu/display/fisid_113617/)
Professor Emerita: Ethnic Studies
PhD, Michigan State University

Bell, Alan
Professor Emeritus: Linguistics

Benhalim, Rabea (https://experts.colorado.edu/individual/fisid_165324/)
Associate Professor, Faculty Director: School of Law
JD, University of Texas at Austin

Benim, W. Robert (https://experts.colorado.edu/display/fisid_167716/)
Assistant Teaching Professor: Applied Mathematics

Bennett, Douglas P. (https://experts.colorado.edu/display/fisid_149983/)
Instructor: Leeds School of Business
JD, George Washington University

Bennett, Huck (https://experts.colorado.edu/display/fisid_174352/)
Assistant Professor: Computer Science
PhD, New York University

Benoit, Roland
Associate Professor: Psychology and Neuroscience
PhD, University College London

Bentley, Francoise Judith Benay (https://experts.colorado.edu/display/fisid_143307/)
Lecturer: Continuing Education & Professional Studies

Bercovitz, Janet (https://experts.colorado.edu/display/fisid_159339/)
Professor: Leeds School of Business
PhD, University of California, Berkeley

Berg, Margaret H. (https://experts.colorado.edu/display/fisid_118371/)
Professor, Associate Dean: Music
PhD, Northwestern University

Bergen, Lori Ann (https://experts.colorado.edu/display/fisid_155986/)
Dean: College of Media, Communication & Information; Professor: Journalism
PhD, Indiana University Bloomington

Berggreen, Shu-Ling Chen (https://experts.colorado.edu/display/fisid_101636/)
Associate Professor: Media Studies; Lecturer: Continuing Education & Professional Studies
PhD, University of Tennessee-Knoxville

Bergner, Bruce Alan (https://experts.colorado.edu/display/fisid_113315/)
Associate Professor: Theatre and Dance
MFA, University of Illinois at Chicago

Bernardini, Giulia
Instructor: Libby Arts RAP
MA, University of Colorado Boulder

Bernstein, Asaf (https://experts.colorado.edu/display/fisid_157738/)
Assistant Professor: Leeds School of Business
BS, Harvey Mudd College

Bernstein, Giora
Professor Emeritus: Music

Bernstein, Robin Miriam (https://experts.colorado.edu/display/fisid_152968/)
Associate Professor: Institute of Behavioral Science (IBS); Associate Professor: Anthropology
PhD, University of Illinois at Urbana–Champaign

Bernthal, John Bradley (https://experts.colorado.edu/display/fisid_142379/)
Associate Professor, Faculty Director: School of Law; Faculty Director: Research & Innovation Office
JD, University of Colorado Boulder

Bernthal, Wilmar F.
Professor Emeritus: Leeds School of Business

Berry, Joseph (https://experts.colorado.edu/display/fisid_131839/)
Associate Professor: Physics
PhD, Pennsylvania State University

Berta-Thompson, Zachory (https://www.colorado.edu/aps/zachory-berta-thompson/)
Assistant Professor: Astrophysical and Planetary Sciences (APS); Assistant Professor: Center for Astrophysics & Space Astronomy (CASA)
PhD, Harvard University

Betterton, Meredith D. (https://experts.colorado.edu/display/fisid_125396/)
Professor: Physics; Professor: Molecular, Cellular & Developmental Biology (MCDB); Associate Professor: Materials Science & Engineering
PhD, Harvard University

Beylkin, Gregory (https://experts.colorado.edu/display/fisid_100437/)
Professor: Applied Mathematics
PhD, New York University

Bhagat, Sanjai (https://experts.colorado.edu/display/fisid_100789/)
Professor: Leeds School of Business
PhD, University of Washington

Bhaskar, Aditi
Associate Professor: Civil, Environmental and Architectural Engineering
Ph.D, University of Maryland, Baltimore County

Bhat, Yermal Sujeet (https://experts.colorado.edu/display/fisid_146506/)
Associate Teaching Professor: Applied Mathematics; Instructor: Miramontes Arts & Sciences Program (MASP)
PhD, University of Florida

Bhatia, Alpna (https://experts.colorado.edu/display/fisid_143993/)
Instructor: Continuing Education & Professional Studies; Instructor: Economics
PhD, University of Colorado Boulder

Bickers, Kenneth Norman (https://experts.colorado.edu/display/fisid_130482/)
Chair, Professor: Political Science
PhD, University of Wisconsin–Madison

Bickman, Martin (https://experts.colorado.edu/display/fisid_100230/)
Professor: English
PhD, University of Pennsylvania

Bidwell, Cinnamon (https://experts.colorado.edu/display/fisid_155117/)
Assistant Professor: Institute of Cognitive Science (ICS); Associate Professor: Psychology and Neuroscience
PhD, University of Colorado Boulder

Biegelsen, Casey (https://experts.colorado.edu/display/fisid_166072/)
Instructor: Leeds School of Business
MBA, University of Colorado Boulder

Bielefeldt, Angela R. (https://experts.colorado.edu/display/fisid_110322/)
Affiliate Professor: Integrated Design Engineering; Faculty Director: College of Engineering and Applied Science; Professor: Civil, Environmental and Architectural Engineering
PhD, University of Washington; P.E.

Bierbaum, Veronica (https://experts.colorado.edu/display/fisid_101124/)
Professor Emerita: Chemistry
PhD, University of Pittsburgh

Biernacki, Loriliai (https://experts.colorado.edu/display/fisid_115294/)
Professor: Religious Studies
PhD, University of Pennsylvania

Biggs, Betsey (https://experts.colorado.edu/display/fisid_158344/)
Assistant Professor: Critical Media Practices
PhD, Princeton University

Bilinski, Teresa (https://experts.colorado.edu/display/fisid_166076/)
Instructor: Ecology and Evolutionary Biology
PhD, University of Colorado Boulder

Billica, Nancy (https://experts.colorado.edu/display/fisid_114455/)
Instructor: Political Science
PhD, Harvard University

Billings, Stephen B. (https://experts.colorado.edu/display/fisid_157918/)
Associate Professor, Faculty Director: Leeds School of Business
PhD, University of Colorado Boulder

Bird-Arvidsson, Jennifer (https://experts.colorado.edu/display/fisid_147651/)
Associate Professor: Music
MM, University of Michigan Ann Arbor

Birks, John
Professor Emeritus: Chemistry

Bjerke, Maureen Ann (https://experts.colorado.edu/display/fisid_154820/)
Lecturer: Baker RAP

Black, John (https://experts.colorado.edu/display/fisid_126540/)
Associate Professor: Computer Science; Associate Professor: Mathematics
PhD, University of California, Davis

Blacklock, Jenifer L. (https://experts.colorado.edu/individual/fisid_159680/)
Faculty Director, Senior Instructor, Visiting Instructor: Mechanical Engineering
PhD, Wayne State University

Blair, Irene (https://experts.colorado.edu/display/fisid_107261/)
Professor: Psychology and Neuroscience
PhD, Yale University

Blanken, Peter David (https://experts.colorado.edu/display/fisid_114026/)
Professor: Geography
PhD, University of British Columbia (Canada)

Blechman, Elaine A.
Professor Emerita: Psychology and Neuroscience

Bliss, Anne
Senior Instructor Emerita: Program for Writing and Rhetoric
PhD, University of Colorado Boulder

Bloom, Frederic M. (https://experts.colorado.edu/display/fisid_151709/)
Professor, Endowed/Named Professor, Associate Dean: School of Law
JD, Stanford University

Bloomfield, Elisabeth Marie Arnould (https://experts.colorado.edu/display/fisid_125576/)
Associate Professor: French & Italian
PhD, University of California, San Diego

Blum, Arielle Melissa (https://experts.colorado.edu/display/fisid_154695/)
Lecturer: College of Engineering and Applied Science; Instructor: Electrical, Computer and Energy Engineering (ECEE)
MS, University of Colorado Boulder

Blum, Lauren W. (https://experts.colorado.edu/display/fisid_167200/)
Assistant Professor: Astrophysical and Planetary Sciences (APS); Assistant Professor: Laboratory for Atmospheric and Space Physics (LASP)
PhD, University of Colorado Boulder

Blumenthal, Thomas (https://experts.colorado.edu/display/fisid_143346/)
Professor, Visiting Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Johns Hopkins University

Boardman, Alison Gould (https://experts.colorado.edu/display/fisid_141887/)
Associate Professor: School of Education
PhD, University of Texas at Austin

Boardman, Jason D. (https://experts.colorado.edu/display/fisid_125577/)
Professor: Sociology; Professor, Faculty Director: Institute of Behavioral Science (IBS)
PhD, University of Texas at Austin

Bock, Carl L.E. (https://experts.colorado.edu/display/fisid_105580/)
Professor Emeritus: Ecology and Evolutionary Biology
PhD, University of California-Berkeley

Bock, Jane H. (https://experts.colorado.edu/display/fisid_101979/)
Professor Emerita: Ecology and Evolutionary Biology
PhD, University of California-Berkeley

Bodisch, J. Robert
Colonel, Professor: Navy ROTC
M.A., Webster University; M.A., Naval War College

Bogatin, Eric (https://experts.colorado.edu/display/fisid_151431/)
Lecturer: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of Arizona

Bohn, John (https://experts.colorado.edu/display/fisid_111716/)
Research Professor: JILA; Research Professor: Physics
PhD, University of Chicago

Boileau, Martin (https://experts.colorado.edu/display/fisid_113872/)
Professor, Chair: Economics
PhD, Queen's University (Canada)

Bolhari, Azadeh (https://experts.colorado.edu/display/fisid_167399/)
Associate Teaching Professor: Civil, Environmental and Architectural Engineering
PhD, Colorado State University

Bolton, Daniel Ryan (https://experts.colorado.edu/display/fisid_155168/)
Associate Teaching Professor: Physics
PhD, University of Washington

Bonde, Erik K.
Professor Emeritus: Ecology and Evolutionary Biology

Bone, Jennifer Emerling (https://experts.colorado.edu/display/fisid_158206/)
Instructor, Associate Chair: Leeds School of Business
PhD, University of Colorado Boulder

Boninger, Faith Gleicher (https://experts.colorado.edu/display/fisid_150087/)
Assistant Research Professor: School of Education
PhD, Ohio State University

Bonjack, Stephanie Marie (https://experts.colorado.edu/display/fisid_156290/)
Assistant Professor: University Libraries
MM, Northwestern University

Boonin, David (https://experts.colorado.edu/display/fisid_113100/)
Professor: Philosophy
PhD, University of Pittsburgh

Boord, Daniel Olin (https://experts.colorado.edu/display/fisid_134649/)
Professor Emeritus: Critical Media Practices
MFA, University of California, San Diego

Borden, Mark A. (https://experts.colorado.edu/display/fisid_148514/)
Professor: Mechanical Engineering; Associate Professor: Materials Science & Engineering; Associate Professor: Biomedical Engineering; Faculty Director: College of Engineering and Applied Science
PhD, University of California, Davis

Boromisza-Habashi, David (https://experts.colorado.edu/display/fisid_145833/)
Associate Professor: Communication
PhD, University of Massachusetts at Amherst

Bortz, David Matthew (https://experts.colorado.edu/display/fisid_143348/)
Professor: Applied Mathematics; Associate Professor: Computer Science
PhD, North Carolina State University

Bosanac, Natasha (https://experts.colorado.edu/display/fisid_158199/)
Assistant Professor: Aerospace Engineering Sciences; Assistant Professor: Colorado Center for Astrodynamics Research (CCAR)
PhD, Purdue University

Boss, Russel Wayne (https://experts.colorado.edu/display/fisid_105260/)
Professor, Chair: Leeds School of Business
PhD, University of Georgia

Boswell, Robert E. (https://experts.colorado.edu/display/fisid_100196/)
Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of Colorado Boulder

Bottan, Daria (https://experts.colorado.edu/display/fisid_168423/)
Senior Instructor: Economics
PhD, LUISS Guido Carli (Italy)

Bottenus, Nick (https://experts.colorado.edu/individual/fisid_165371/)
Assistant Professor: Biomedical Engineering; Assistant Professor: Mechanical Engineering
PhD, Duke University

Boulding, Carew Elizabeth (https://experts.colorado.edu/display/fisid_144417/)
Professor: Political Science; Faculty Director: Institute of Behavioral Science (IBS)
PhD, University of California, San Diego

Bourne, Lyle E. Jr.
Professor Emeritus: Psychology and Neuroscience

Bouvier, Claudia
Lecturer: Engineering Management Program
ME, University of Colorado Boulder

Bouwman, Jordy (https://experts.colorado.edu/display/fisid_167913/)
Assistant Professor: Chemistry
PhD, Leiden University (Netherlands)

Bowers, M. Deane
Professor: Museum and Field Studies; Professor, Chair: Ecology and Evolutionary Biology
PhD, University of Massachusetts Amherst

Bowman, Christopher N. (https://experts.colorado.edu/display/fisid_102043/)
Distinguished Professor: Chemical and Biological Engineering; Associate Faculty Director: College of Engineering and Applied Science; Distinguished Professor: Materials Science & Engineering
PhD, Purdue University

Bowman, William D. (https://experts.colorado.edu/display/fisid_105191/)
Professor, Associate Chair, Faculty Director: Institute of Arctic & Alpine Research (INSTAAR); Professor: Ecology and Evolutionary Biology
PhD, Duke University

Boyd, Iain (https://experts.colorado.edu/display/fisid_165828/)
Professor, Faculty Director: Research & Innovation Office; Endowed/Named Professor, Faculty Director: College of Engineering and Applied Science; Director, Endowed/Named Professor: Aerospace Engineering Sciences
PhD, University of Southampton (England)

Boyd, Samuel L. (https://experts.colorado.edu/display/fisid_155484/)
Associate Professor, Associate Chair: Religious Studies; Associate Professor: Jewish Studies
PhD, University of Chicago

Boyko, Marie (https://experts.colorado.edu/display/fisid_100073/)
Senior Instructor Emeritus: Integrative Physiology
MA, University of Colorado Boulder

Boykoff, Maxwell Thomas (https://experts.colorado.edu/display/fisid_147562/)
Associate Professor: Cooperative Institute for Research in Environmental Sciences (CIRES); Professor, Faculty Director: Environmental Studies Program; Associate Professor Adjunct: Geography
PhD, University of California, Santa Cruz

Bozic, Christy L. (https://experts.colorado.edu/display/fisid_155482/)
Instructor Adjunct: Engineering Management Program; Scholar in Residence: Undergraduate Education
PhD, Purdue University

Braaten, Melissa (https://experts.colorado.edu/individual/fisid_157744/)
Associate Professor, Associate Dean: School of Education
PhD, University of Washington

Bradley, Elizabeth (https://experts.colorado.edu/display/fisid_100546/)
Professor: Computer Science
PhD, Massachusetts Institute of Technology

Braider, Christopher (https://experts.colorado.edu/display/fisid_100300/)
Professor of Distinction Emeritus: French & Italian
PhD, Trinity College, Dublin

Brain, David A. (https://experts.colorado.edu/display/fisid_149098/)
Assistant Professor: Laboratory for Atmospheric and Space Physics (LASP); Associate Professor, Chair: Astrophysical and Planetary Sciences (APS)
PhD, University of Colorado Boulder

Branch, Melvyn C.
Professor Emeritus: Mechanical Engineering

Brancucci, Carlo
Lecturer: Electrical, Computer and Energy Engineering (ECEE)
PhD, Technische Universiteit Delft (Netherlands)

Brandemuehl, Michael J. (https://experts.colorado.edu/display/fisid_102573/)
Professor Emeritus: Civil, Environmental and Architectural Engineering
PhD, University of Wisconsin-Madison

Brasseur, James G. (https://experts.colorado.edu/display/fisid_156801/)
Research Professor: Aerospace Engineering Sciences
PhD, Stanford University

Braun, Joel D.
Captain, Assistant Professor: Army ROTC
MBA, Western International University

Bredeson, Garrett (https://experts.colorado.edu/display/fisid_154933/)
Assistant Teaching Professor, Associate Chair: Philosophy
PhD, Vanderbilt University

Breed, Michael D. (https://experts.colorado.edu/display/fisid_103631/)
Professor: Ecology and Evolutionary Biology; Faculty Director: College of Arts and Sciences; Faculty Director: Baker RAP
PhD, University of Kansas

Brennan, Christine (https://experts.colorado.edu/display/fisid_155861/)
Assistant Professor: Speech, Language and Hearing Sciences (SLHS)
PhD, Northwestern University

Briggs, Derek Christian Mauthner (https://experts.colorado.edu/display/fisid_129597/)
Professor: School of Education
PhD, University of California, Berkeley

Bright, Victor Mark (https://experts.colorado.edu/display/fisid_112696/)
Professor: Mechanical Engineering; Professor: Electrical, Computer and Energy Engineering (ECEE); Faculty Director: Research & Innovation Office
PhD, Georgia Institute of Technology

Brinkman, P. Delbert
Professor Emeritus: Journalism

Briscoe, Georgia K. (https://experts.colorado.edu/display/fisid_105331/)
Senior Instructor Emerita: School of Law
MA, University of San Diego

Brody, James M. (https://experts.colorado.edu/display/fisid_101948/)
Associate Professor: Music
MM, Indiana University Bloomington

Broering, Ellen (https://experts.colorado.edu/individual/fisid_167610/)
Instructor: Chemistry
PhD, University of Georgia

Broersma, Leslee (https://experts.colorado.edu/display/fisid_112749/)
Senior Instructor: Libby Arts RAP
MFA, University of Colorado Boulder

Bronstein, Albert (https://experts.colorado.edu/display/fisid_154916/)
Teaching Assistant Professor: Mathematics
PhD, University of Kentucky

Brooks, Cassandra (https://experts.colorado.edu/display/fisid_159275/)
Assistant Professor: Environmental Studies Program
PhD, Stanford University

Brooks, Shilo
Senior Instructor, Faculty Director: Engineering Leadership Program; Associate Faculty Director: College of Engineering and Applied Science
PhD, Boston College

Broussard, Josiane
Associate Professor Adjunct: Integrative Physiology

Brower, Timothy L.
Faculty Director: College of Engineering and Applied Science
PhD, Colorado State University

Brown, Benjamin P. (https://experts.colorado.edu/display/fisid_153758/)
Associate Professor: Astrophysical and Planetary Sciences (APS); Assistant Professor: Laboratory for Atmospheric and Space Physics (LASP)
PhD, University of Colorado Boulder

Brown, Daniel (https://experts.colorado.edu/display/fisid_152029/)
Senior Instructor: Leeds School of Business
D.Phil, Oxford University

Brown, Derek Philip (https://experts.colorado.edu/display/fisid_150027/)
Director: Undergraduate Education; Associate Teaching Professor: Atmospheric and Oceanic Sciences (ATOC)
PhD, University of Colorado Boulder

Brown, Esther Lynn (https://experts.colorado.edu/display/fisid_129298/)
Professor, Chair: Spanish and Portuguese
PhD, University of New Mexico

Brown, Ethan
Captain, Assistant Professor: Air Force ROTC
MS, Eastern Michigan University

Brown, Gordon E.
Professor Emeritus: Mathematics

Brown, Hank
Professor Emeritus: Political Science

Brown, Janice Carole (https://experts.colorado.edu/display/fisid_143612/)
Professor: Asian Languages and Civilizations
PhD, University of British Columbia (Canada)

Brown, Jed (https://experts.colorado.edu/display/fisid_153965/)
Associate Professor: Computer Science
DSc, ETH Zürich (Switzerland)

Brown, Marilyn Ruth (https://experts.colorado.edu/display/fisid_143782/)
Professor Emerita: Art and Art History
PhD, Yale University

Brown, Matthew C.
Instructor: Sociology; Instructor: Health Professions RAP
PhD, University of Colorado Boulder

Brown, Steven S. (https://experts.colorado.edu/display/fisid_119987/)
Professor Adjoint: Chemistry
PhD, University of Wisconsin–Madison

Brown, Susan Windisch
Assistant Professor Adjunct: Linguistics
PhD, University of Colorado Boulder

Browne, Eleanor Carol (https://experts.colorado.edu/display/fisid_156464/)
Associate Professor: Chemistry
PhD, University of California, Berkeley

Browsh, Jared Bahir (https://experts.colorado.edu/display/fisid_163451/)
Assistant Teaching Professor: Ethnic Studies
PhD, University of Colorado Boulder

Brubaker, Jed Richards (https://experts.colorado.edu/display/fisid_156193/)
Assistant Professor: Computer Science; Assistant Professor: Information Science
PhD, University of California, Irvine

Bruff, Harold (https://experts.colorado.edu/display/fisid_109137/)
Professor, Dean Emeritus: School of Law
JD, Harvard University

Brumbaugh, Justin J. (https://experts.colorado.edu/display/fisid_164025/)
Assistant Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of Wisconsin-Madison

Brunner, Ronald D.
Professor Emeritus: Political Science

Bruns, Carson J. (https://experts.colorado.edu/display/fisid_159851/)
Assistant Professor: ATLAS Institute; Assistant Professor: Mechanical Engineering; Assistant Professor: Creative Technology & Design; Assistant Professor: Biomedical Engineering
PhD, Northwestern University

Bruns, Steven M. (https://experts.colorado.edu/display/fisid_103483/)
Associate Professor: Music
PhD, University of Wisconsin–Madison

Brunt, Vienna E (https://experts.colorado.edu/display/fisid_158297/)
Assistant Professor Adjunct: Integrative Physiology
PhD, University of Oregon

Bryan, Angela (https://experts.colorado.edu/display/fisid_115216/)
Professor: Psychology and Neuroscience; Professor: Continuing Education & Professional Studies
PhD, Arizona State University

Bryan, Joseph Henry (https://experts.colorado.edu/display/fisid_145802/)
Associate Chair, Associate Professor: Geography
PhD, University of California, Berkeley

Bryant, Stephanie J. (https://experts.colorado.edu/display/fisid_111810/)
Professor: Chemical and Biological Engineering; Faculty Director: College of Engineering and Applied Science; Professor: Materials Science & Engineering
PhD, University of Colorado Boulder

Brylowe, Thora (https://experts.colorado.edu/display/fisid_156063/)
Associate Professor: English
PhD, Carnegie Mellon University

Buchanan, Angela S. (https://experts.colorado.edu/display/fisid_122671/)
Senior Instructor: Student Academic Services Center; Senior Instructor: Continuing Education & Professional Studies
MA, Ball State University

Buchman, Thomas A. (https://experts.colorado.edu/display/fisid_101677/)
Professor Emeritus: Leeds School of Business
PhD, University of Illinois at Urbana-Champaign

Buchwald, Robert (https://experts.colorado.edu/display/fisid_148439/)
Associate Faculty Director, Instructor: Honors RAP; Instructor: Ecology and Evolutionary Biology
PhD, University of Colorado Boulder

Buckner Inniss, Lolita
Dean, Distinguished Professor: School of Law
PhD, York University (Canada)

Buffa, Andrea (https://experts.colorado.edu/display/fisid_167152/)
Assistant Professor: Leeds School of Business
PhD, London Business School

Buffington, Robert Marshall (https://experts.colorado.edu/display/fisid_144975/)
Professor Emeritus: Women and Gender Studies; Professor Emeritus: History
PhD, University of Arizona

Bumbaca, Frederico (https://experts.colorado.edu/display/fisid_163475/)
Assistant Professor: Leeds School of Business
PhD, University of California, Irvine

Burba, Audrey (https://experts.colorado.edu/display/fisid_158272/)
Teaching Assistant Professor: Humanities; Assistant Teaching Professor: French & Italian
PhD, Emory University

Burdick, A. Jason (https://experts.colorado.edu/display/fisid_168868/)
Professor: Chemical and Biological Engineering
PhD, University of Colorado Boulder

Burge, Marjorie (https://experts.colorado.edu/display/fisid_166114/)
Assistant Professor: Asian Languages and Civilizations
PhD, University of California, Berkeley

Burger, Eric B. (https://experts.colorado.edu/display/fisid_143577/)
Associate Teaching Professor: Program for Writing and Rhetoric
PhD, University of Utah

Burgess, Matthew (https://experts.colorado.edu/display/fisid_164178/)
Assistant Professor: Environmental Studies Program
PhD, University of Minnesota

Burke, Robin D. (https://experts.colorado.edu/display/fisid_165005/)
Chair, Professor: Information Science; Professor: Computer Science
PhD, Northwestern University

Burleson, Grace
Visiting Assistant Professor: Mechanical Engineering
PhD, University of Michigan

Burns, Jack O.
Professor Emeritus: Astrophysical and Planetary Sciences (APS); Professor: Center for Astrophysics & Space Astronomy (CASA)
PhD, Indiana University Bloomington

Burns, Michael
Assistant Teaching Professor: Communication
PhD, North Dakota State University

Bustamante, Heidi Margarita (https://experts.colorado.edu/display/fisid_146491/)
Associate Teaching Professor: Integrative Physiology
MS, University of Colorado Boulder

Buttenfield, Barbara P. (https://experts.colorado.edu/display/fisid_107860/)
Professor Emerita: Geography
PhD, University of Washington

Byrd, Sigman M. (https://experts.colorado.edu/display/fisid_127494/)
Associate Teaching Professor: Program for Writing and Rhetoric
PhD, University of Utah

Byrne, James
Teaching Assistant Professor: Engineering, Ethics & Society
PhD, Princeton University

Byrnes, William (https://experts.colorado.edu/display/fisid_100643/)
Associate Professor Emeritus: Integrative Physiology
PhD, University of Wisconsin–Madison

C

Caballero, Carlo (https://experts.colorado.edu/display/fisid_111681/)
Associate Professor: Music
PhD, University of Pennsylvania

Cacic, John D.
Captain, Assistant Professor: Army ROTC
MBA, Central Michigan University

Cadena, Brian C. (https://experts.colorado.edu/display/fisid_145740/)
Associate Professor: Economics; Assistant Professor: Institute of Behavioral Science (IBS)
PhD, University of Michigan Ann Arbor

Cai, Xiao-Chuan (https://experts.colorado.edu/display/fisid_100636/)
Professor Emeritus: Computer Science
PhD, New York University

Cain, Andrew J. (https://experts.colorado.edu/display/fisid_129296/)
Professor, Lecturer: Continuing Education & Professional Studies; Chair: Classics
PhD, Cornell University

Caine, T. Nelson (https://experts.colorado.edu/display/fisid_104285/)
Professor Emeritus: Geography
PhD, Australian National University

Cairney, John T.
Colonel, Chair, Professor: Army ROTC
MS, Air Force Institute of Technology

Calabrese, Andrew (https://experts.colorado.edu/display/fisid_101073/)
Professor: Media Studies; Associate Dean: College of Media, Communication & Information
PhD, Ohio State University

Calder, Jeremy (https://experts.colorado.edu/display/fisid_159936/)
Assistant Professor: Linguistics
PhD, Stanford University

Calkins, Michael Andrew (https://experts.colorado.edu/display/fisid_149720/)
Associate Professor: Physics
PhD, University of California, Los Angeles

Callier, Reina (https://experts.colorado.edu/display/fisid_156049/)
Instructor: Classics
PhD, University of Colorado

Calve, Sarah (https://experts.colorado.edu/individual/fisid_165779/)
Associate Professor: Biomedical Engineering; Assistant Professor: Mechanical Engineering
PhD, University of Michigan

Calvin, Inga E.
Lecturer: Baker RAP
PhD, University of Colorado Boulder

Cameron, Catherine M.
Professor Emerita: Anthropology

Cameron, Jeffrey C. (https://experts.colorado.edu/display/fisid_156473/)
Assistant Professor: Renewable & Sustainable Energy Institute (RASEI); Assistant Professor: Biochemistry
PhD, Washington University

Campbell, Kimberly D. (https://experts.colorado.edu/display/fisid_158160/)
Instructor: Leeds School of Business
PhD, Howard University

Campbell, Margaret Catherine
Professor Emerita: Leeds School of Business
PhD, Stanford University

Campeau, Serge (https://experts.colorado.edu/display/fisid_115395/)
Professor: Psychology and Neuroscience
PhD, Yale University

Campos, Paul F. (https://experts.colorado.edu/display/fisid_102518/)
Professor: School of Law
JD, University of Michigan Ann Arbor

Cantrell, Deborah Jane (https://experts.colorado.edu/display/fisid_144607/)
Professor, Faculty Director: School of Law
JD, University of Southern California

Cantrell, Melissa (https://experts.colorado.edu/display/fisid_159556/)
Assistant Professor: University Libraries
MA, University of Denver

Cao, Gang (https://experts.colorado.edu/display/fisid_157991/)
Professor: Physics; Professor: Materials Science & Engineering
PhD, Temple University

Cao, Guofeng (https://experts.colorado.edu/display/fisid_167522/)
Assistant Professor: Geography
PhD, University of California Santa Barbara

Carballo, Jeronimo Rafael (https://experts.colorado.edu/display/fisid_155949/)
Associate Professor: Economics; Assistant Professor: Institute of Behavioral Science (IBS)
PhD, University of Maryland, College Park

Carbone, Christopher (https://experts.colorado.edu/display/fisid_158166/)
Instructor: Leeds School of Business
MFA, University of Baltimore

Carey, Cynthia
Professor Emerita: Integrative Physiology

Carey, Frederick (https://experts.colorado.edu/display/fisid_159512/)
Assistant Professor: University Libraries
MLIS, University of Denver

Carlon, Nabilah
PhD,

Carlos, Ann M. (https://experts.colorado.edu/display/fisid_105534/)
Dean Emeritus: College of Arts and Sciences; Professor Emerita: Economics; Professor Emerita: History

Carlson, Lawrence E.
Professor Emeritus: Mechanical Engineering
D.Eng, University of California Berkeley

Carpenter, J. Harrison (https://experts.colorado.edu/display/fisid_115915/)
Senior Instructor: Ecology and Evolutionary Biology; Senior Instructor: Continuing Education & Professional Studies
MS, Michigan Technological University

Carpenter, Kristen Ann (https://experts.colorado.edu/display/fisid_147188/)
Professor, Endowed/Named Professor, Faculty Director: School of Law
JD, Harvard University

Carr, Julia Alice (https://experts.colorado.edu/display/fisid_143349/)
Professor: English; Professor: Intermedia Art, Writing and Performance
PhD, University of California, Berkeley

Carrico, Amanda R. (https://experts.colorado.edu/display/fisid_153054/)
Associate Professor: Environmental Studies Program
PhD, Vanderbilt University

Carroll, Clinton R. (https://experts.colorado.edu/display/fisid_154726/)
Associate Professor, Associate Chair: Ethnic Studies; Assistant Professor Adjunct: Geography
PhD, University of California, Berkeley

Carruth, Christopher (https://experts.colorado.edu/display/fisid_153706/)
Instructor: Information Science
MS, University of Colorado Boulder

Carson, Visda (https://experts.colorado.edu/display/fisid_158296/)
Instructor: Leeds School of Business; Faculty Director: International Education
MBA, University of Colorado, Leeds School of Business

Carter Carston, Ronald McKell (https://experts.colorado.edu/display/fisid_154921/)
Assistant Professor: Institute of Cognitive Science (ICS); Assistant Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, California Institute of Technology

Carthy, Nicholas R. (https://experts.colorado.edu/display/fisid_135356/)
Associate Professor: Music
BA, Guildhall School of Music, London (England)

Cartun, Ashley (https://experts.colorado.edu/display/fisid_157851/)
Associate Teaching Professor: School of Education
PhD, University of Colorado Boulder

Cartwright, Desmond S.
Professor Emeritus: Psychology and Neuroscience

Caruthers, Marvin H. (https://experts.colorado.edu/display/fisid_103328/)
Distinguished Professor: Biochemistry
PhD, Northwestern University

Cary, John R. (https://experts.colorado.edu/display/fisid_105901/)
Professor: Physics
PhD, University of California, Berkeley

Casagrand, Janet L. (https://experts.colorado.edu/display/fisid_100934/)
Associate Teaching Professor: Integrative Physiology
PhD, Case Western Reserve University

Casalaina-Martin, Sebastian Ben (https://experts.colorado.edu/display/fisid_145845/)
Professor, Chair: Mathematics
PhD, Columbia University

Casey, Emett
Lecturer: Cinema Studies & Moving Image Arts
BA, Chapman University

Cash, Webster C. Jr. (https://experts.colorado.edu/display/fisid_101759/)
Professor: Astrophysical and Planetary Sciences (APS); Professor: Center for Astrophysics & Space Astronomy (CASA)
PhD, University of California, Berkeley

Cassano, John J. (https://experts.colorado.edu/display/fisid_121781/)
Professor: Cooperative Institute for Research in Environmental Sciences (CIRES); Professor: Atmospheric and Oceanic Sciences (ATOC)
PhD, University of Wyoming

Castro, Francisco (https://experts.colorado.edu/display/fisid_147992/)
Senior Instructor: Mechanical Engineering
PhD, University of Colorado Boulder

Catabay, Keno
Assistant Professor: University Libraries
MLIS, Florida State University

Cateora, Phillip R.
Professor Emeritus: Leeds School of Business

Catlos, Brian Aivars (https://experts.colorado.edu/display/fisid_147829/)
Professor: Religious Studies; Professor: Humanities; Professor: History
PhD, University of Toronto

Cech, Thomas R. (https://experts.colorado.edu/display/fisid_103252/)
Distinguished Professor: Molecular, Cellular & Developmental Biology (MCDB); Distinguished Professor: Biochemistry
PhD, University of California, Berkeley

Celoza, Amelia (https://experts.colorado.edu/display/fisid_172038/)
Assistant Professor: Civil, Environmental and Architectural Engineering
Ph.D., University of Texas at Austin

Cha, Jennifer N. (https://experts.colorado.edu/display/fisid_151746/)
Professor: Biomedical Engineering; Professor: Chemical and Biological Engineering; Professor: Materials Science & Engineering; Endowed/Named Professor: College of Engineering and Applied Science
PhD, University of California, Santa Barbara

Chadwick, Jeffrey
Instructor: Honors Program
PhD, Purdue University

Chamberlin, H. Scott (https://experts.colorado.edu/display/fisid_105456/)
Professor: Art and Art History
MFA, New York State College of Ceramics at Alfred University

Chambers, Lee Virginia (https://experts.colorado.edu/display/fisid_106130/)
Professor Emerita: History
PhD, University of Michigan Ann Arbor

Chang, Bor-Yuh Evan (https://experts.colorado.edu/display/fisid_146087/)
Associate Chair, Associate Professor: Electrical, Computer and Energy Engineering (ECEE); Associate Professor: Computer Science
PhD, University of California, Berkeley

Chang, Philip C. (https://experts.colorado.edu/display/fisid_143541/)
Senior Instructor: Music
PhD, University of Rochester

Chang, Silva (https://experts.colorado.edu/display/fisid_145582/)
Teaching Professor: Applied Mathematics
MS, Yale University

Chapin, Violeta Raquel (https://experts.colorado.edu/display/fisid_147683/)
Associate Dean, Faculty Director: School of Law
JD, New York University

Chapman, Andrew David
Instructor: Libby Arts RAP; Instructor: Baker RAP; Lecturer: Communication & Society RAP

Chari, Mukund (https://experts.colorado.edu/display/fisid_159141/)
Assistant Professor: Leeds School of Business
PhD, University of Washington

Charlet, Caitlin (https://experts.colorado.edu/display/fisid_174564/)
Teaching Associate Professor: Environmental Design
MArch, Parson's School of Constructed Environments

Chaspari, Theodora (https://experts.colorado.edu/display/fisid_173681/)
Associate Professor: Computer Science
PhD, University of Southern California

Chaudhary, Sumeet (https://experts.colorado.edu/display/fisid_167980/)
Instructor: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of Cincinnati

Chawla, Louise (https://experts.colorado.edu/display/fisid_143894/)
Professor Emerita: Environmental Design
PhD, CUNY System Office

Chellis, Matthew Wren (https://experts.colorado.edu/display/fisid_154415/)
Associate Professor: Music
MM, Manhattan School of Music

Chen, Lijun (https://experts.colorado.edu/display/fisid_149472/)
Associate Professor: Computer Science; Assistant Professor: Interdisciplinary Telecommunications
PhD, California Institute of Technology

Chen, Xudong (https://experts.colorado.edu/display/fisid_158323/)
Assistant Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, Harvard University, Cambridge, MA

Chen, Yongmin (https://experts.colorado.edu/display/fisid_108989/)
Professor: Economics
PhD, Boston University

Chen, Yueqi (https://experts.colorado.edu/display/fisid_171984/)
Assistant Professor: Computer Science
PhD, Pennsylvania State University

Chen, Zhe
Assistant Research Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of Colorado Boulder

Chernus, Ira R. (https://experts.colorado.edu/display/fisid_101043/)
Professor Emeritus: Religious Studies
Ph.D, Temple University

Chester, Lucy P. (https://experts.colorado.edu/display/fisid_126541/)
Associate Professor: International Affairs Program; Associate Professor: History
PhD, Yale University

Cheval, Melinda Kiger
Faculty Director: Communication & Society RAP; Associate Teaching Professor Emerita: Advertising, Public Relations and Media Design

Chi, Jocelyn T.
Assistant Professor: Applied Mathematics
PhD, North Carolina State University

Chin, Karen (https://experts.colorado.edu/display/fisid_122666/)
Professor: Museum and Field Studies; Professor: Geological Sciences
PhD, University of California, Santa Barbara

Chonchol, Michel
Professor Adjunct: Integrative Physiology
MD, Universidad Central de Venezuela, Caracas

Chong, Albert (https://experts.colorado.edu/display/fisid_100586/)
Professor: Art and Art History
MFA, University of California, San Diego

Chopra, Aidan
Lecturer: ATLAS Institute; Lecturer: Creative Technology & Design
MArch, Rice University

Chou, Chin-Wen
Lecturer: Physics
PhD, California Insitutute of Technology

Christie, Matt
Instructor: Art and Art History
MFA, Virginia Commonwealth University

Christoff, Lorna Colleen (https://experts.colorado.edu/display/fisid_146614/)
Instructor: Leeds School of Business
JD, University of Denver

Chu, Xinzhao (https://experts.colorado.edu/display/fisid_141893/)
Professor: Cooperative Institute for Research in Environmental Sciences (CIRES); Professor: Aerospace Engineering Sciences
PhD, Peking University (China)

Chuang, Angie (https://experts.colorado.edu/display/fisid_159485/)
Associate Chair, Associate Professor: Journalism
MA, Stanford University

Ciarlo, David Michael (https://experts.colorado.edu/display/fisid_149618/)
Associate Professor: History
PhD, University of Wisconsin–Madison

Ciota, Rebecca (https://experts.colorado.edu/display/fisid_167609/)
Librarian: School of Law
MLIS, University of Illinois at Urbana-Champaign

Ciplet, David (https://experts.colorado.edu/display/fisid_156064/)
Assistant Professor: Environmental Studies Program
PhD, Brown University

Clark, Alisha (https://experts.colorado.edu/display/fisid_164457/)
Assistant Professor: Geological Sciences
PhD, University of California-Davis

Clark, Noel A. (https://experts.colorado.edu/display/fisid_101947/)
Professor: Physics; Professor: Materials Science & Engineering
PhD, Massachusetts Institute of Technology

Clark, Patrick Ryan (https://experts.colorado.edu/display/fisid_156499/)
Assistant Professor, Instructor: College of Media, Communication & Information; Associate Chair: Critical Media Practices
MFA, San Diego State University

Clark, Torin K. (https://experts.colorado.edu/display/fisid_155959/)
Associate Professor, Assistant Professor: Biomedical Engineering; Associate Chair: Aerospace Engineering Sciences
PhD, Massachusetts Institute of Technology

Clauset, Aaron (https://experts.colorado.edu/display/fisid_147554/)
Professor: Computer Science; Associate Professor: Ecology and Evolutionary Biology; Associate Professor: Biofrontiers Institute; Associate Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of New Mexico

Clayton, S. Zachary
Assistant Professor Adjunct: Integrative Physiology

Cleland, Carol (https://experts.colorado.edu/display/fisid_105674/)
Professor: Philosophy
PhD, Brown University

Clelland, Jeanne Nielsen (https://experts.colorado.edu/display/fisid_113103/)
Professor: Mathematics
PhD, Duke University

Cline, Clinton C.
Professor Emeritus: Art and Art History

Cloud, Anya (https://experts.colorado.edu/individual/fisid_167400/)
Assistant Professor: Theatre and Dance
MFA, University of California San Diego

Clough, David Edwards (https://experts.colorado.edu/display/fisid_102332/)
Professor Emeritus: Chemical and Biological Engineering
PhD, University of Colorado Boulder

Cobin, Martin T.
Professor Emeritus: Theatre and Dance

Coddington, Jan
Lecturer: Physics
PhD, University of Colorado Boulder

Cogswell, Carol (https://experts.colorado.edu/display/fisid_141919/)
Research Professor: Electrical, Computer and Energy Engineering (ECEE)
MArch, University of Oregon

Cohen, Brianne Caitlin (https://experts.colorado.edu/display/fisid_159724/)
Assistant Professor: Art and Art History
PhD, University of Pittsburgh

Cohen, Grant
Lecturer: Political Science
PhD, University of Miami

Cohen, Ruscha (https://experts.colorado.edu/display/fisid_149781/)
Scholar in Residence, Director: ATLAS Institute; Scholar in Residence, Director: Creative Technology & Design
MS, University of Colorado Denver

Colley, Dawn (https://experts.colorado.edu/individual/fisid_149567/)
Assistant Teaching Professor: Program for Writing and Rhetoric; Instructor: Continuing Education & Professional Studies
PhD, University of Colorado Boulder

Collins, Allan C.
Professor Emeritus: Psychology and Neuroscience

Collins, Lauren (https://experts.colorado.edu/display/fisid_147078/)
Assistant Teaching Professor, Program Director: Center for Asian Studies
PhD, University of Denver

Collins, Richard B. (https://experts.colorado.edu/display/fisid_101884/)
Professor Emeritus: School of Law
LLB, Harvard University

Colunga, Eliana (https://experts.colorado.edu/display/fisid_129477/)
Associate Professor: Psychology and Neuroscience; Associate Professor: Computer Science
PhD, Indiana University Bloomington

Combes, Josh (https://experts.colorado.edu/display/fisid_166284/)
Assistant Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, Griffith University

Comerford, Julia M. (https://experts.colorado.edu/display/fisid_151471/)
Assistant Professor: Center for Astrophysics & Space Astronomy (CASA); Professor: Astrophysical and Planetary Sciences (APS)
PhD, University of California, Berkeley

Conlon, Joan Catoni
Professor Emerita: Music

Contreras, Ana (https://experts.colorado.edu/display/fisid_168932/)
Assistant Teaching Professor: School of Education
PhD, University of Colorado Boulder

Conway, Laura (https://experts.colorado.edu/display/fisid_167653/)
Teaching Assistant Professor: Cinema Studies & Moving Image Arts
M.F.A, University of Colorado Boulder

Conzelman, Caroline S. (https://experts.colorado.edu/display/fisid_145356/)
Instructor: Global RAP
PhD, University of Colorado Boulder

Cook, Lance
Lieutenant, Assistant Professor: Navy ROTC

Cook, Sherri M. (https://experts.colorado.edu/display/fisid_154773/)
Associate Professor: Civil, Environmental and Architectural Engineering; Assistant Professor: Environmental Engineering Program (EVEN)
PhD, University of Michigan Ann Arbor

Cook-Martin, David (https://experts.colorado.edu/display/fisid_165342/)
Professor: Sociology
PhD, University of California-Los Angeles

Cookson, John Anthony (https://experts.colorado.edu/display/fisid_152874/)
Associate Professor, Faculty Director: Leeds School of Business
PhD, University of Chicago

Cool, Alison Collier (https://experts.colorado.edu/display/fisid_154599/)
Assistant Professor: Anthropology
PhD, New York University

Coombs Esmail, Eric (https://experts.colorado.edu/display/fisid_158305/)
Assistant Professor, Faculty Director: Critical Media Practices
MFA, State University of New York at Buffalo

Cooper, John
Professor Emeritus: Physics
PhD, University of London

Cooper, Peter W. (https://experts.colorado.edu/display/fisid_134522/)
Senior Instructor: Music
BM, Northwestern University

Cooperstock, Andrew B. (https://experts.colorado.edu/display/fisid_115393/)
Professor: Music
DMA, Peabody Institute of Johns Hopkins University

Copley, Shelley (https://experts.colorado.edu/display/fisid_104067/)
Professor: Cooperative Institute for Research in Environmental Sciences (CIRES); Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Harvard University

Corcoran, Jem (https://experts.colorado.edu/display/fisid_118142/)
Associate Professor Emeritus: Applied Mathematics
PhD, Colorado State University

Cordes, Dietmar (https://experts.colorado.edu/display/fisid_155229/)
Associate Professor Adjunct: Institute of Cognitive Science (ICS)

Cordova, James M. (https://experts.colorado.edu/display/fisid_146415/)
Associate Professor, Associate Chair: Art and Art History
PhD, Tulane University

Cornell, Eric (https://experts.colorado.edu/display/fisid_100112/)
Professor Adjoint: Physics
PhD, Massachusetts Institute of Technology

Corotis, Ross B. (https://experts.colorado.edu/display/fisid_100942/)
Professor Emeritus: Civil, Environmental and Architectural Engineering
PhD, Massachusetts Institute of Technology

Corradini, Luca (https://experts.colorado.edu/display/fisid_146380/)
Associate Professor, Visiting Associate Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of Padova (Italy)

Correll, Joshua (https://experts.colorado.edu/display/fisid_151728/)
Professor: Psychology and Neuroscience
PhD, University of Colorado Boulder

Correll, Mark R.
Professor Emeritus: Leeds School of Business

Correll, Nikolaus J. (https://experts.colorado.edu/display/fisid_147555/)
Associate Professor: Computer Science; Associate Professor: Electrical, Computer and Energy Engineering (ECEE); Faculty Director: College of Engineering and Applied Science
PhD, Ecole Polytech Federale de Lausanne (Switzerland)

Corwin, Lisa A. (https://experts.colorado.edu/display/fisid_157940/)
Assistant Professor: Ecology and Evolutionary Biology
PhD, University of California, Davis

Costain, Anne N. (https://experts.colorado.edu/display/fisid_101427/)
Professor Emerita: Political Science

Costain, Douglas
Senior Instructor Emeritus: Political Science

Couey, Stephanie
Assistant Teaching Professor: Program for Writing and Rhetoric
PhD, University of Colorado Boulder

Couture, Juliann Elizabeth (https://experts.colorado.edu/display/fisid_153757/)
Associate Professor: University Libraries
MA, University of Arizona

Covert, Herbert
Professor Emeritus: Anthropology; Faculty Director: Baker RAP
PhD, Duke University

Cowell, James Andrew (https://experts.colorado.edu/display/fisid_107090/)
Professor: Linguistics; Faculty Director: Native American and Indigenous Studies
PhD, University of California, Berkeley

Cowell, Rosie
Associate Professor: Psychology and Neuroscience
PhD, University of Oxford

Cox, Jeffrey N. (https://experts.colorado.edu/display/fisid_113253/)
Distinguished Professor: Humanities; Distinguished Professor: English
PhD, University of Virginia

Cox, Murray William (https://experts.colorado.edu/display/fisid_153192/)
Associate Teaching Professor: Computer Science; Senior Instructor: Engineering-Bold Center
PhD, Texas A&M University

Cox, Rachel (https://experts.colorado.edu/display/fisid_158450/)
Assistant Teaching Professor: Applied Mathematics
MS, University of Colorado Boulder

Cranmer, Steven (https://experts.colorado.edu/display/fisid_155051/)
Associate Professor: Laboratory for Atmospheric and Space Physics (LASP); Associate Professor: Astrophysical and Planetary Sciences (APS)
PhD, University of Delaware

Craven, Priscilla (https://experts.colorado.edu/display/fisid_108033/)
Teaching Professor of Distinction, Faculty Director: International Education; Senior Instructor: French & Italian
MA, University of Colorado Boulder

Crawley, Adam (https://experts.colorado.edu/display/fisid_172505/)
Associate Teaching Professor: School of Education
PhD, University of Georgia

Cremaschi, Alejandro M. (https://experts.colorado.edu/display/fisid_134168/)
Professor: Music
DMA, University of Minnesota Twin Cities

Crichlow, Gregory (https://experts.colorado.edu/display/fisid_142184/)
Teaching Professor: Environmental Design
M. Arch., University of Illinois at Chicago

Crimaldi, John P. (https://experts.colorado.edu/display/fisid_115733/)
Professor: Civil, Environmental and Architectural Engineering; Professor: Environmental Engineering Program (EVEN)
PhD, Stanford University

Crofton, Karen (https://experts.colorado.edu/display/fisid_164479/)
Scholar in Residence: Engineering Management Program
MBA, Rice University

Cropanzano, Russell Salvador (https://experts.colorado.edu/display/fisid_151710/)
Professor, Chair, Endowed/Named Professor: Leeds School of Business
PhD, Purdue University

Crow, Carolyn Alicia (https://experts.colorado.edu/display/fisid_163334/)
Assistant Professor: Geological Sciences
PhD, University of California-Los Angeles

Crumpacker, David W.
Professor Emeritus: Ecology and Evolutionary Biology

Cruz, Joelle (https://experts.colorado.edu/display/fisid_157594/)
Associate Professor: Communication
PhD, Texas A&M University

Cui, Longji (https://experts.colorado.edu/display/fisid_164283/)
Assistant Professor: Mechanical Engineering
ME, Beihang University (China)

Cuk, Tanja (https://experts.colorado.edu/display/fisid_159751/)
Associate Professor: Chemistry; Associate Professor: Renewable & Sustainable Energy Institute (RASEI)
PhD, Stanford University

Culp, Robert D.
Professor Emeritus: Aerospace Engineering Sciences
PhD, University of Colorado Boulder

Cumalat, John P. (https://experts.colorado.edu/display/fisid_105582/)
Professor: Physics
PhD, University of California, Santa Barbara

Cummings, Andrew (https://experts.colorado.edu/display/fisid_174362/)
Teaching Assistant Professor: Psychology and Neuroscience
PhD, University of Nevada Las Vegas

Cundiff, Milford F. (https://experts.colorado.edu/display/fisid_105396/)
Associate Professor Emeritus: Ecology and Evolutionary Biology
PhD, University of Colorado Boulder

Cunningham, Cory (https://experts.colorado.edu/individual/fisid_158270/)
Instructor: Leeds School of Business
PhD, University of Oklahoma

Curran, Timothy (https://experts.colorado.edu/display/fisid_118454/)
Professor Emeritus: Psychology and Neuroscience
PhD, University of Oregon

Curry, James H. (https://experts.colorado.edu/display/fisid_105730/)
Professor: Applied Mathematics; Associate Faculty Director: Interdisciplinary Telecommunications
PhD, University of California, Berkeley

Curry, Shannon (https://experts.colorado.edu/display/fisid_169552/)
Associate Professor: Astrophysical and Planetary Sciences (APS)
PhD, University of Michigan

Curtis, Ryan (https://experts.colorado.edu/display/fisid_164483/)
Teaching Associate Professor: Psychology and Neuroscience
PhD, University of Maryland College Park Campus

Cushing, Matthew
Director: School of Law
JD, University of Pennsylvania

Czubak, Magdalena (https://experts.colorado.edu/display/fisid_157955/)
Associate Professor: Mathematics
PhD, University of Texas at Austin

D

D'Mello, Sidney (https://experts.colorado.edu/display/fisid_159117/)
Professor: Institute of Cognitive Science (ICS); Professor: Computer Science
PhD, University of Memphis

Dabove, Juan Pablo (https://experts.colorado.edu/display/fisid_125397/)
Professor: Spanish and Portuguese; Faculty Director: International Education
PhD, University of Pittsburgh

Daily, John W. (https://experts.colorado.edu/display/fisid_100131/)
Research Professor: Mechanical Engineering
PhD, Stanford University

Dall'Anese, Emiliano (https://experts.colorado.edu/display/fisid_158949/)
Assistant Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of Padova (Italy)

Dalton, Shamika (https://experts.colorado.edu/display/fisid_173969/)
Associate Professor: School of Law; Faculty Director: Law Library
JD, North Carolina Central University

Damrauer, Niels Harley (https://experts.colorado.edu/display/fisid_129797/)
Professor: Chemistry
PhD, University of California, Berkeley

Darling, Jeremiah K. (https://experts.colorado.edu/display/fisid_141767/)
Professor: Astrophysical and Planetary Sciences (APS); Professor, Faculty Director: Center for Astrophysics & Space Astronomy (CASA)
PhD, Cornell University

Darnell, Jerome C.
Professor Emeritus: Leeds School of Business

Dashti, Shideh (https://experts.colorado.edu/display/fisid_148493/)
Associate Professor: Civil, Environmental and Architectural Engineering; Faculty Director: College of Engineering and Applied Science
PhD, University of California, Berkeley

Datta, Subhendu K.
Professor Emeritus: Mechanical Engineering

Daugherty, Paul J. (https://experts.colorado.edu/display/fisid_128801/)
Senior Instructor: Journalism; Lecturer: Continuing Education & Professional Studies
MA, University of Colorado Boulder

Dauverd, Celine (https://experts.colorado.edu/display/fisid_145804/)
Associate Professor: History
PhD, University of California, Los Angeles

David, Emmanuel A. (https://experts.colorado.edu/display/fisid_146542/)
Associate Professor, Associate Chair: Women and Gender Studies
PhD, University of Colorado Boulder

Davies, Kendi F. (https://experts.colorado.edu/display/fisid_142304/)
Associate Professor: Ecology and Evolutionary Biology
PhD, Australian National Univ (Australia)

Davies, Shaun William (https://experts.colorado.edu/display/fisid_152995/)
Assistant Professor: Leeds School of Business
PhD, University of California, Los Angeles

Davis, John S. (https://experts.colorado.edu/display/fisid_115443/)
Professor, Dean: Music
DMA, University of Northern Colorado

Davis, Robert
Scholar in Residence: Civil, Environmental and Architectural Engineering
PhD, University of Colorado Boulder

Davis, Robert H. (https://experts.colorado.edu/individual/fisid_113653/)
Dean Emeritus: College of Engineering and Applied Science; Distinguished Professor: Chemical and Biological Engineering; Associate Faculty Director: Biomedical Engineering
PhD, Stanford University

Dawson, Edward E.
Lieutenant, Assistant Professor: Army ROTC
BS, The Citadel

Day, Heidi E.W. (https://experts.colorado.edu/display/fisid_116632/)
Teaching Professor of Distinction: Psychology and Neuroscience
PhD, University of Cambridge

Day, Robert E.
Professor Emeritus: Art and Art History

de Alwis, Lisa (https://experts.colorado.edu/display/fisid_152569/)
Teaching Assistant Professor: Engineering, Ethics & Society
PhD, University of Southern California

De Alwis, Senarath P. (https://experts.colorado.edu/display/fisid_103029/)
Professor Emeritus: Physics
PhD, University of Cambridge (England)

De Bartolome, Charles A.M. (https://experts.colorado.edu/display/fisid_101302/)
Professor Emeritus: Economics
PhD, University of Pennsylvania

de Gouw, Joost (https://experts.colorado.edu/display/fisid_105125/)
Professor, Associate Chair: Chemistry; Professor: Cooperative Institute for Research in Environmental Sciences (CIRES)
PhD, University of Utrecht (Netherlands)

de Lange, Marcel (https://experts.colorado.edu/display/fisid_140404/)
Teaching Professor: Environmental Design
MS, Delft University of Technology (Netherlands)

de Stecher, Annette W. (https://experts.colorado.edu/display/fisid_155095/)
Assistant Professor, Associate Chair: Art and Art History
PhD, Carleton University

Deagman Simonetta, Rachael Nicole (https://experts.colorado.edu/display/fisid_154125/)
Associate Teaching Professor: English
PhD, Duke University

Deca, Jan (https://experts.colorado.edu/display/fisid_155664/)
Lecturer: Physics
PhD, KU Leuven (Belgium)

DeDecker, Brian S. (https://experts.colorado.edu/display/fisid_143934/)
Senior Instructor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Yale University

Dee, Laura (https://experts.colorado.edu/display/fisid_166130/)
Assistant Professor: Ecology and Evolutionary Biology
PhD, University of California, Santa Barbara

Deeley, Robin J. (https://www.colorado.edu/math/robin-deeley/)
Associate Professor: Mathematics
PhD, University of Victoria (Canada)

DeForest, Denise (https://experts.colorado.edu/display/fisid_158832/)
Instructor, Director for Academic Support: School of Law
JD, Georgetown University

Degrand, Thomas A. (https://experts.colorado.edu/display/fisid_102740/)
Professor: Physics
PhD, Massachusetts Institute of Technology

deGrazia, Janet (https://experts.colorado.edu/display/fisid_107661/)
Teaching Professor Emerita: Chemical and Biological Engineering
PhD, University of Colorado Boulder

Del Rio Flores, Antonio
Assistant Professor: Biomedical Engineering
PhD, University of California, Berkeley

DeLuca, Laura M. (https://experts.colorado.edu/display/fisid_101414/)
Instructor: Residential Acad Program-SSI; Instructor: Sewall RAP; Faculty Director: International Education
PhD, University of Colorado Boulder

Demaree, John D.
Professor Emeritus: Leeds School of Business

Demarest, Heather (https://experts.colorado.edu/display/fisid_159052/)
Assistant Professor: Philosophy
PhD, Rutgers University

Demmig-Adams, Barbara (https://experts.colorado.edu/display/fisid_105649/)
Professor: Ecology and Evolutionary Biology
Dr habil, University of Wurzburg (Germany)

Dennis, Tasshi
Lecturer: Physics
PhD, Rice University

Denny, Frederick M.
Professor Emeritus: Religious Studies

Depner, Christopher
Assistant Professor Adjunct: Integrative Physiology
PhD, Oregon State University

Derderyan, Svet (https://experts.colorado.edu/display/fisid_158226/)
Instructor: Political Science
PhD, University of North Carolina

Derricks, Veronica
Assistant Professor: Psychology and Neuroscience
PhD, University of Michigan

Desan, Mathieu (https://experts.colorado.edu/display/fisid_157678/)
Assistant Professor: Sociology
PhD, University of Michigan

Desautels-Stein, Justin Jacob (https://experts.colorado.edu/display/fisid_147370/)
Associate Professor: School of Law; Associate Professor: History
LLM, Harvard University; JD, University of North Carolina, Chapel Hill

DeShell, Jeffrey (https://experts.colorado.edu/display/fisid_118482/)
Professor: English
PhD, SUNY at Buffalo

DeSouza, Christopher A. (https://experts.colorado.edu/display/fisid_107460/)
Distinguished Professor: Integrative Physiology
PhD, University of Maryland, College Park

Dessau, Daniel S. (https://experts.colorado.edu/display/fisid_107532/)
Professor: Physics; Professor: Materials Science & Engineering
PhD, Stanford University

Detweiler, Corrella Scott (https://experts.colorado.edu/display/fisid_128240/)
Professor: Molecular, Cellular & Developmental Biology (MCDB); Faculty Director: Research & Innovation Office
PhD, University of California, San Francisco

Devendorf, Laura (https://experts.colorado.edu/display/fisid_158564/)
Assistant Professor: ATLAS Institute; Assistant Professor: Information Science; Assistant Professor: Creative Technology & Design; Assistant Professor: Intermedia Art, Writing and Performance; Assistant Professor: Computer Science
PhD, University of California, Berkeley

Devin, Richard
Professor Emeritus: Theatre and Dance

DeWitte, Sharon
Professor: Anthropology
PhD, Pennsylvania State University

DeWolfe, Oliver M. (https://experts.colorado.edu/display/fisid_142992/)
Professor: Physics
PhD, Massachusetts Institute of Technology

Dexter, Jason (https://experts.colorado.edu/display/fisid_164095/)
Assistant Professor: Astrophysical and Planetary Sciences (APS)
PhD, University of Washington Seattle

Dickey, Kimberly (https://experts.colorado.edu/display/fisid_115735/)
Professor: Art and Art History
MFA, New York State College of Ceramics at Alfred University

Dickson, Rebecca (https://experts.colorado.edu/display/fisid_105043/)
Associate Teaching Professor: Program for Writing and Rhetoric
PhD, University of Colorado Boulder

Diddams, Scott A. (https://experts.colorado.edu/display/fisid_148274/)
Professor: Physics; Visiting Professor, Professor Adjoint: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of New Mexico

Diduch, Paul Jordan (https://experts.colorado.edu/display/fisid_154510/)
Teaching Associate Professor: Engineering, Ethics & Society
PhD, University of Dallas

Dietrich, Alex
Lecturer: Engineering Management Program
MBA, George Washington University

Dike, Steven (https://experts.colorado.edu/display/fisid_149880/)
Instructor, Instructor: History; Associate Faculty Director: Honors RAP
PhD, University of Colorado Boulder

DiLaura, David L.
Professor Emeritus: Civil, Environmental and Architectural Engineering

Dilling, Lisa
Professor, Professor: Cooperative Institute for Research in Environmental Sciences (CIRES); Associate Faculty Director: Environmental Studies Program
PhD, University of California, Santa Barbara

Dimidjian, Sona (https://experts.colorado.edu/display/fisid_140084/)
Professor: Psychology and Neuroscience
PhD, University of Washington

Dincao, Jose Paulo (https://experts.colorado.edu/display/fisid_143731/)
Assistant Research Professor: Physics
PhD, Univ of Sao Paulo (Brazil)

Ding, Xiaoyun (https://experts.colorado.edu/display/fisid_158563/)
Professor: Mechanical Engineering; Assistant Professor: Biomedical Engineering
PhD, Pennsylvania State University

Ding, Yifu (https://experts.colorado.edu/display/fisid_146088/)
Professor: Mechanical Engineering; Faculty Director: College of Engineering and Applied Science; Associate Professor: Materials Science & Engineering
PhD, University of Akron

DiStefano, Philip (https://experts.colorado.edu/display/fisid_101934/)
Dean Emeritus, Professor: School of Education
PhD, Ohio State University

Dmukhovskaya, Marina (https://experts.colorado.edu/display/fisid_166268/)
Instructor, Faculty Director: Journalism
MA, Indiana University Bloomington

Do, Ellen Yi-Luen (https://experts.colorado.edu/display/fisid_159925/)
Professor: ATLAS Institute; Professor: Computer Science; Professor: Creative Technology & Design
PhD, Georgia Institute of Technology

Doak, Daniel Forest (https://experts.colorado.edu/display/fisid_151963/)
Associate Faculty Director, Professor: Environmental Studies Program
PhD, University of Washington

Dockendorf, Matthew Paul (https://experts.colorado.edu/display/fisid_154511/)
Assistant Professor, Instructor: Music Education; Faculty Director: Music
DMA, Michigan State University

Dolan, Natalia Sue (https://experts.colorado.edu/display/fisid_147736/)
Associate Professor: University Libraries
MLS, University of Denver

Dommermuth, Emily (https://experts.colorado.edu/display/fisid_158089/)
Assistant Professor: University Libraries
MLIS, University of Denver

Donaldson, Zoe (https://experts.colorado.edu/display/fisid_157087/)
Assistant Professor: Molecular, Cellular & Developmental Biology (MCDB); Associate Professor: Psychology and Neuroscience
PhD, Emory University

Donato, Ruben (https://experts.colorado.edu/display/fisid_105537/)
Professor Emeritus: School of Education
PhD, Stanford University

Donavan, Janet Lynn (https://experts.colorado.edu/display/fisid_145270/)
Teaching Professor, Associate Chair: Political Science
PhD, University of Wisconsin–Madison

Donchez, Robert M. (https://experts.colorado.edu/display/fisid_101267/)
Senior Instructor, Faculty Director: Leeds School of Business
MBA, Fordham University

Donley, Elizabeth
Lecturer: Physics
PhD, Swiss Federal Institute of Technology

Donohew, Zachary (https://experts.colorado.edu/display/fisid_164033/)
Scholar in Residence: Leeds School of Business

Doostan, Alireza (https://experts.colorado.edu/display/fisid_147382/)
Professor: Aerospace Engineering Sciences; Assistant Professor: Center for Aerospace Structures (CAS); Endowed/Named Professor: College of Engineering and Applied Science
PhD, Johns Hopkins University

Doran, Kevin (https://experts.colorado.edu/display/fisid_133349/)
Assistant Research Professor: Renewable & Sustainable Energy Institute (RASEI)
JD, University of Colorado Boulder

Doty, Dawn (https://experts.colorado.edu/display/fisid_158312/)
Associate Teaching Professor: Advertising, Public Relations and Media Design; Lecturer: Continuing Education & Professional Studies
MA, Johns Hopkins University

Dougherty, Anne Margaret (https://experts.colorado.edu/display/fisid_101349/)
Associate Chair, Teaching Professor: Applied Mathematics; Endowed/Named Professor: College of Engineering and Applied Science
PhD, University of Wisconsin–Madison

Douglas, Marcia B. (https://experts.colorado.edu/display/fisid_122696/)
Professor, Professor: Continuing Education & Professional Studies; Associate Chair: English
PhD, SUNY at Binghamton

Douglass, Scot Ray (https://experts.colorado.edu/display/fisid_102347/)
Professor: Engineering, Ethics & Society; Faculty Director: Engineering Honors Program
PhD, University of Colorado Boulder

Dow, John O.
Associate Professor Emeritus: Civil, Environmental and Architectural Engineering

Dowell, Robin D. (https://experts.colorado.edu/display/fisid_147779/)
Associate Professor: Molecular, Cellular & Developmental Biology (MCDB); Associate Professor: Computer Science; Professor: Biomedical Engineering
DSc, Washington University

Downey, Liam C. (https://experts.colorado.edu/display/fisid_129297/)
Assistant Professor: Sociology
PhD, University of Arizona

Downton, James V.
Professor Emeritus: Sociology

Doyle, Damian P. (https://experts.colorado.edu/display/fisid_100290/)
Associate Teaching Professor: Program for Writing and Rhetoric
PhD, University of Colorado Boulder

Drake, David Francis (https://experts.colorado.edu/display/fisid_163641/)
Assistant Professor: Leeds School of Business
PhD, INSEAD (France)

Dreitlein, Joseph
Professor Emeritus: Physics
PhD, Washington University

Drumheller, John E. (https://experts.colorado.edu/display/fisid_103707/)
Senior Instructor: Music
DMA, University of Colorado Boulder

Drybread, Kristen (https://experts.colorado.edu/display/fisid_156523/)
Lecturer: Undergraduate Education; Lecturer: Continuing Education & Professional Studies; Lecturer: Libby Arts RAP; Lecturer: Anthropology

Dubin, Mark W.
Professor Emeritus: Molecular, Cellular & Developmental Biology (MCDB)

Dubson, Michael A. (https://experts.colorado.edu/display/fisid_102266/)
Teaching Professor of Distinction, Associate Chair: Physics
PhD, Cornell University

Dufour, Darna L. (https://experts.colorado.edu/display/fisid_100213/)
Professor Emerita: Anthropology
PhD, SUNY at Binghamton

Dukic, Vanja (https://experts.colorado.edu/display/fisid_148718/)
Professor: Applied Mathematics
PhD, Brown University

Dukovic, Gordana (https://experts.colorado.edu/display/fisid_147414/)
Professor: Chemistry; Associate Professor: Materials Science & Engineering
PhD, Columbia University

Dulock, Michael J. (https://experts.colorado.edu/display/fisid_144338/)
Associate Professor: University Libraries
MLIS, Drexel University

Duncan, Thomas R.
Professor Emeritus: Advertising, Public Relations and Media Design

Dunn, James M. (https://experts.colorado.edu/display/fisid_140593/)
Associate Professor: Music
MM, Arizona State University

Dupris, Joseph
Visiting Assistant Professor: Ethnic Studies
Ph.D., University of Arizona

Duren, Ron G. Jr. (https://experts.colorado.edu/display/fisid_157263/)
Teaching Associate Professor: Engineering Management Program
ME, University of Colorado Boulder

Duresse-Stimilli, Francoise
Associate Professor: Art and Art History
MFA, Temple University

Dusinberre, Edward (https://experts.colorado.edu/display/fisid_101358/)
Artist in Residence: Music
Diploma, The Juilliard School

Dusinberre, Elspeth Rogers Mcin (https://experts.colorado.edu/display/fisid_111649/)
Professor: Classics
PhD, University of Michigan Ann Arbor

Dutro, Elizabeth (https://experts.colorado.edu/display/fisid_141157/)
Professor, Associate Dean: School of Education
PhD, University of Michigan Ann Arbor

Dykes Jim (https://experts.colorado.edu/display/fisid_156791/)
Assistant Teaching Professor: Computer Science
MS, University of Colorado Boulder

Dyrness, Andrea E. (https://experts.colorado.edu/display/fisid_159487/)
Associate Professor: School of Education
PhD, University of California-Berkeley

E

Eakin, Charles
Professor Emeritus: Music

Eargle, David (https://experts.colorado.edu/display/fisid_159053/)
Assistant Professor: Leeds School of Business
PhD, University of Pittsburgh

Eaton, Robert
Professor Emeritus: Integrative Physiology

Eaves, Joel David (https://experts.colorado.edu/display/fisid_147419/)
Professor: Chemistry
PhD, Massachusetts Institute of Technology

Eberle, Jaelyn J. (https://experts.colorado.edu/display/fisid_126544/)
Professor, Professor: Geological Sciences; Faculty Director: Museum and Field Studies
PhD, University of Wyoming

Echchaibi, Nabil (https://experts.colorado.edu/display/fisid_145054/)
Associate Chair: Media Studies; Lecturer: Continuing Education & Professional Studies
PhD, Indiana University Bloomington

Eckart, Dennis R.
Professor Emeritus: Political Science

Ecker, Robert R.
Professor Emeritus: Art and Art History

Eckert, Erika L. (https://experts.colorado.edu/display/fisid_101844/)
Associate Professor: Music
BM, University of Rochester

Edwards, Emily (https://experts.colorado.edu/display/fisid_153378/)
Senior Instructor, Associate Chair: Leeds School of Business
MBA, University of Colorado Denver

Egan, Kristen
Lecturer: Engineering Management Program
ME, University of Colorado Boulder

Eggert, Katherine (https://experts.colorado.edu/display/fisid_103618/)
Professor: English; Faculty Director: British and Irish Studies; Professor: Critical Media Practices
PhD, University of California, Berkeley

Ehly, Jeremy G. (https://experts.colorado.edu/display/fisid_149190/)
Teaching Associate Professor: Environmental Design
MArch, Illinois Institute of Technology

Ehringer, Marissa A. (https://experts.colorado.edu/display/fisid_126595/)
Associate Professor: Institute for Behavioral Genetics (IBG); Professor, Chair: Integrative Physiology
PhD, University of Colorado Denver

Eichen, Elliot
Research Professor: Computer Science
PhD, University of Arizona

Eichmann-Kalwara, Nickoal (https://experts.colorado.edu/display/fisid_158705/)
Associate Professor: University Libraries
MLS, Indiana University

El Helbawy, Mona
Associate Faculty Director, Associate Teaching Professor: Computer Science
PhD, University of Colorado Boulder

Ellingson, Erica (https://experts.colorado.edu/display/fisid_100118/)
Professor Emeritus: Astrophysical and Planetary Sciences (APS)
PhD, University of Arizona

Elliott, Delbert S.
Professor Emeritus: Sociology

Elliott, Jacqueline Michelle (https://experts.colorado.edu/display/fisid_140085/)
Associate Professor: Classics
PhD, Columbia University

Elliott, Peter D. (https://experts.colorado.edu/display/fisid_105048/)
Professor Emeritus: Mathematics
PhD, University of Cambridge (England)

Ellis, Jay (https://experts.colorado.edu/display/fisid_122674/)
Associate Teaching Professor: Program for Writing and Rhetoric
PhD, New York University

Elliston, Diane
Assistant Teaching Professor: Advertising, Public Relations and Media Design
MFA, Claremont Graduate University

Ellsworth, Michelle (https://experts.colorado.edu/display/fisid_112060/)
Distinguished Professor, Professor: Intermedia Art, Writing and Performance; Chair: Theatre and Dance; Distinguished Professor: Critical Media Practices
MFA, University of Colorado Boulder

Ellsworth, Oliver
Professor Emeritus: Music

Elmore, Peter Michael (https://experts.colorado.edu/display/fisid_103089/)
Professor: Spanish and Portuguese
PhD, University of Texas at Austin

Elmore, Vivian
Assistant Teaching Professor: Spanish and Portuguese
BA, Pontificia Universidad Católica (Perú)

Emerson, Cherriethel K.
Lecturer: Continuing Education & Professional Studies

Emerson, Lori Ann (https://experts.colorado.edu/display/fisid_145834/)
Associate Professor, Faculty Director: Intermedia Art, Writing and Performance
PhD, SUNY at Buffalo

Emery, Nancy Christine (https://experts.colorado.edu/display/fisid_156291/)
Assistant Professor: Ecology and Evolutionary Biology
PhD, University of California, Davis

Emery, William J. (https://experts.colorado.edu/display/fisid_106038/)
Professor Emeritus: Aerospace Engineering Sciences; Professor Emeritus: Environmental Engineering Program (EVEN)
PhD, University of Hawaii

Engel, Barbara A. (https://experts.colorado.edu/display/fisid_100574/)
Distinguished Professor Emerita: History

Engel, Mimi (https://experts.colorado.edu/display/fisid_159488/)
Associate Professor: School of Education
PhD, Northwestern University

Engel, Steven
Professor Emeritus: Leeds School of Business

England, Margaret Ann (https://experts.colorado.edu/display/fisid_142239/)
Clinical Professor: School of Law
JD, University of Denver

Englander, Janos (https://experts.colorado.edu/display/fisid_147333/)
Professor: Mathematics
PhD, Technion – Israel Institute of Technology

English, Michael D. (https://experts.colorado.edu/display/fisid_164260/)
Instructor, Associate Faculty Director: Peace and Conflict Studies
PhD, George Mason University

Enoka, Roger M. (https://experts.colorado.edu/display/fisid_110122/)
Professor: Integrative Physiology; Professor: Biomedical Engineering
PhD, University of Washington

Ergun, Robert E. (https://experts.colorado.edu/display/fisid_115912/)
Professor: Laboratory for Atmospheric and Space Physics (LASP); Professor: Astrophysical and Planetary Sciences (APS)
PhD, University of California, Berkeley

Erhard, Paul M. (https://experts.colorado.edu/display/fisid_100493/)
Professor: Music
DMA, The Juilliard School

Erickson, Robert W. (https://experts.colorado.edu/display/fisid_105514/)
Professor: Electrical, Computer and Energy Engineering (ECEE); Faculty Director: College of Engineering and Applied Science
PhD, California Institute of Technology

Ertimur, Yonca (https://experts.colorado.edu/display/fisid_151585/)
Professor, Associate Dean: Leeds School of Business
PhD, New York University

Escamilla, Kathy M. (https://experts.colorado.edu/display/fisid_109224/)
Professor Emerita: School of Education
PhD, University of California, Los Angeles

Espelie, Erin Marie (https://experts.colorado.edu/display/fisid_148671/)
Associate Professor, Associate Faculty Director: Center for Environmental Journalism; Associate Professor: Critical Media Practices; Assistant Professor: Intermedia Art, Writing and Performance; Chair: Cinema Studies & Moving Image Arts
MFA, Duke University

Espinosa, Joaquin Maximiliano (https://experts.colorado.edu/display/fisid_134378/)
Visiting Associate Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Univ of Buenos Aires (Argentina)

Esposito, Larry Wayne (https://experts.colorado.edu/display/fisid_100502/)
Professor: Laboratory for Atmospheric and Space Physics (LASP); Professor: Astrophysical and Planetary Sciences (APS)
PhD, University of Massachusetts at Amherst

Evans, John A. (https://experts.colorado.edu/display/fisid_152970/)
Associate Professor, Associate Chair: Aerospace Engineering Sciences
PhD, University of Texas at Austin

Evans, Luke M. (https://experts.colorado.edu/display/fisid_156753/)
Assistant Professor: Ecology and Evolutionary Biology; Assistant Professor: Institute for Behavioral Genetics (IBG)
PhD, Northern Arizona University

Evans, Thomas
Assistant Professor: Environmental Engineering Program (EVEN)
PhD, University of Colorado Boulder

Evers, Neal (https://experts.colorado.edu/display/fisid_157360/)
Associate Director, Teaching Associate Professor: Environmental Design
MBA, University of Colorado Boulder

F

Falconer, John L. (https://experts.colorado.edu/display/fisid_101426/)
Professor Emeritus: Chemical and Biological Engineering
PhD, Stanford University

Falke, Joseph J. (https://experts.colorado.edu/display/fisid_101970/)
Professor: Biochemistry
PhD, California Institute of Technology

Fantalis, Maryanne (https://experts.colorado.edu/display/fisid_156467/)
Teaching Associate Professor: Environmental Design
JD, Rutgers University

Farago, Claire Joan (https://experts.colorado.edu/display/fisid_101552/)
Professor Emerita: Art and Art History
PhD, University of Virginia

Farkas Roszell, Agnes (https://experts.colorado.edu/display/fisid_147915/)
Instructor: International Education
MA, Kossuth L. University (Hungary)

Farmer, G. Lang (https://experts.colorado.edu/display/fisid_100498/)
Professor: Geological Sciences; Faculty Director: International Education; Associate Dean, Professor: College of Arts and Sciences
PhD, University of California, Los Angeles

Farmer, James Clark (https://experts.colorado.edu/display/fisid_130603/)
Assistant Teaching Professor: Cinema Studies & Moving Image Arts
PhD, University of Iowa

Farnsworth, John A. (https://experts.colorado.edu/display/fisid_153255/)
Associate Professor: Aerospace Engineering Sciences
PhD, Rensselaer Polytechnic Institute

Farr, Elizabeth G. (https://experts.colorado.edu/display/fisid_101732/)
Professor Emerita: Music
DMA, University of Michigan Ann Arbor

Farrell, Caitlin (https://experts.colorado.edu/display/fisid_155193/)
Associate Research Professor: School of Education
PhD, University of Southern California

Farrelly, Raichle (https://experts.colorado.edu/display/fisid_166033/)
Senior Instructor, Lecturer: Linguistics
PhD, University of Utah

Farsi, Carla Emilia (https://experts.colorado.edu/display/fisid_101437/)
Professor: Mathematics
PhD, University of Maryland, College Park

Feeler, Jordan (https://experts.colorado.edu/display/fisid_166032/)
Instructor: Theatre and Dance
BFA, Webster University

Fejer, Andras (https://experts.colorado.edu/display/fisid_103923/)
Artist in Residence: Music
Diploma, Franz Liszt Academy of Music

Felderman, Melissa (https://experts.colorado.edu/individual/fisid_163478/)
Teaching Associate Professor: Environmental Design
MPS, New York University

Feldman, Andrea (https://experts.colorado.edu/display/fisid_101230/)
Teaching Professor of Distinction Emerita: Program for Writing and Rhetoric; Senior Instructor: Honors Program
PhD, University of Colorado Boulder

Felippa, Carlos A. (https://experts.colorado.edu/display/fisid_105701/)
Professor Emeritus: Aerospace Engineering Sciences
PhD, University of California, Berkeley

Fell, James E. Jr.
Lecturer: Continuing Education & Professional Studies
PhD, University of Colorado Boulder

Femrite, Andrew
Senior Instructor, Faculty Director: Electrical, Computer and Energy Engineering (ECEE)
BS, University of Colorado Boulder

Fenn, Elizabeth Anne (https://experts.colorado.edu/display/fisid_149896/)
Distinguished Professor Emerita: History
PhD, Yale University

Ferguson, Michaele L. (https://experts.colorado.edu/display/fisid_129299/)
Associate Professor: Political Science
PhD, Harvard University

Ferguson, Virginia L. (https://experts.colorado.edu/display/fisid_110131/)
Professor: Mechanical Engineering; Endowed/Named Professor: College of Engineering and Applied Science; Associate Professor: Materials Science & Engineering; Associate Professor: Biomedical Engineering
PhD, University of Colorado Boulder

Fernbach, Philip M. (https://experts.colorado.edu/display/fisid_149786/)
Associate Professor, Faculty Director: Leeds School of Business
PhD, Brown University

Ferrell, Tracy L. (https://experts.colorado.edu/display/fisid_101540/)
Associate Teaching Professor: Program for Writing and Rhetoric
PhD, University of Colorado Boulder

Ferris, Anna M. (https://experts.colorado.edu/display/fisid_116252/)
Associate Professor: University Libraries
MLS, Southern Connecticut State University

Ferris, David S. (https://experts.colorado.edu/display/fisid_116817/)
Professor: Humanities
PhD, SUNY at Buffalo

Ferry, Robert J. (https://experts.colorado.edu/display/fisid_104214/)
Associate Professor Emeritus: History
PhD, University of Minnesota Twin Cities

Fierer, Noah (https://experts.colorado.edu/display/fisid_142240/)
Professor: Cooperative Institute for Research in Environmental Sciences (CIRES); Professor: Ecology and Evolutionary Biology
PhD, University of California, Santa Barbara

Fiesler, Casey Lynn (https://experts.colorado.edu/display/fisid_155950/)
Assistant Professor, Associate Chair: Information Science; Associate Professor: Computer Science
PhD, Georgia Institute of Technology

Fiez, Terri S. (https://experts.colorado.edu/display/fisid_156578/)
Professor: Electrical, Computer and Energy Engineering (ECEE); Dean: Research & Innovation Office
PhD, Oregon State University

Figueroa, Nuris (https://experts.colorado.edu/display/fisid_167396/)
Assistant Professor: Physics
PhD, Sorbonne University (France)

Fileva, Iskra (https://experts.colorado.edu/display/fisid_154600/)
Associate Professor, Associate Chair: Philosophy
PhD, Boston University

Filipovic, Dejan S. (https://experts.colorado.edu/display/fisid_126278/)
Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of Michigan Ann Arbor

Fillman, Christy L. (https://experts.colorado.edu/display/fisid_145115/)
Senior Instructor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of Colorado Boulder

Fink, Robert
Professor Emeritus: Music

Finkelstein, Noah D. (https://experts.colorado.edu/display/fisid_129919/)
Professor: Physics; Faculty Director: OIT-Administration
PhD, Princeton University

Finlay, Jessica
Assistant Professor: Geography
PhD, University of Minnesota, Minneapolis

Fischer, Kate (https://experts.colorado.edu/display/fisid_155474/)
Instructor: Honors Program; Lecturer: Farrand RAP; Lecturer: Libby Arts RAP; Instructor: Honors RAP; Instructor: Miramontes Arts & Sciences Program (MASP); Lecturer: Academic Advising Center; Lecturer: Anthropology
PhD, University of Colorado Boulder

Fisher, Christina Marie (https://experts.colorado.edu/display/fisid_158798/)
Instructor: Leeds School of Business; Lecturer: Continuing Education & Professional Studies
MS, University of Delaware

Fisher, Jolene (https://experts.colorado.edu/display/fisid_158335/)
Associate Chair, Assistant Professor: Media Studies; Lecturer: Continuing Education & Professional Studies; Associate Professor: Advertising, Public Relations and Media Design
PhD, University of Oregon

Fitzgerald, Jennifer L. (https://experts.colorado.edu/display/fisid_140086/)
Professor, Chair: Political Science
PhD, Brown University

Fladd, Samantha G. (https://experts.colorado.edu/display/fisid_165651/)
Assistant Professor: Museum and Field Studies
PhD, University of Arizona

Flaxman, Samuel M. (https://experts.colorado.edu/display/fisid_145698/)
Associate Professor: Ecology and Evolutionary Biology
PhD, Cornell University

Fleming, Brian (https://experts.colorado.edu/display/fisid_154011/)
Assistant Research Professor: Astrophysical and Planetary Sciences (APS)
PhD, Johns Hopkins University

Fleshner, Monika R. (https://experts.colorado.edu/display/fisid_103304/)
Professor: Integrative Physiology
PhD, University of Colorado Boulder

Flores, Lisa A.
Associate Dean: College of Media, Communication & Information
PhD, University of Georgia

Flores, Nicholas E. (https://experts.colorado.edu/display/fisid_107603/)
Professor: Economics
PhD, University of California, San Diego

Floriano, Maureen (https://experts.colorado.edu/display/fisid_169506/)
Assistant Teaching Professor: Integrative Physiology
PhD, Case Western Reserve University

Flowers, Rebecca M. (https://experts.colorado.edu/display/fisid_144054/)
Professor: Geological Sciences
PhD, Massachusetts Institute of Technology

Fluri, Jennifer L. (https://experts.colorado.edu/display/fisid_154033/)
Chair, Professor: Geography; Professor: International Affairs Program
PhD, Pennsylvania State University

Fobes, Alexander S. (https://experts.colorado.edu/display/fisid_152512/)
Associate Teaching Professor: Program for Writing and Rhetoric
PhD, University of Colorado Boulder

Foley, Teresa E. (https://experts.colorado.edu/display/fisid_147351/)
Teaching Professor of Distinction: Integrative Physiology
PhD, University of Colorado Boulder

Fong, Judith Yem Siu (https://experts.colorado.edu/display/fisid_101120/)
Professor Emeritus: University Libraries
MA, University of California, Berkeley

Forbes, Jeffrey M. (https://experts.colorado.edu/display/fisid_100264/)
Professor Emeritus: Aerospace Engineering Sciences
PhD, Harvard University

Ford, William T. (https://experts.colorado.edu/display/fisid_102175/)
Professor Emeritus: Physics
PhD, Princeton University

Fornberg, Bengt (https://experts.colorado.edu/display/fisid_108048/)
Professor Emeritus: Applied Mathematics
PhD, University of Uppsala (Sweden)

Forsman, Charles S.
Professor Emeritus: Art and Art History

Foster, Suzanne R.
Professor Emeritus: Art and Art History

Fowler, John S.
Professor Emeritus: Integrative Physiology

Fox, Barbara (https://experts.colorado.edu/display/fisid_106066/)
Professor: Linguistics
PhD, University of California, Los Angeles

Fox, Jeffrey S. (https://experts.colorado.edu/display/fisid_105586/)
Professor: Mathematics
PhD, University of California, Berkeley

Fox, Jerome Michael (https://experts.colorado.edu/display/fisid_156682/)
Assistant Professor: Chemical and Biological Engineering; Assistant Professor: Biomedical Engineering
PhD, University of California, Berkeley

Frajzyngier, Zygmunt (https://experts.colorado.edu/display/fisid_104000/)
Professor: Linguistics
PhD, University of Warsaw (Poland)

France, Kevin Christopher (https://experts.colorado.edu/display/fisid_145201/)
Assistant Professor: Laboratory for Atmospheric and Space Physics (LASP); Associate Professor, Associate Chair: Astrophysical and Planetary Sciences (APS)
PhD, Johns Hopkins University

Francis, John A.
Instructor: School of Law
JD, University of Michigan Ann Arbor

Frangopol, Dan M.
Professor Emeritus: Civil, Environmental and Architectural Engineering

Franklin, Allan D. (https://experts.colorado.edu/display/fisid_100660/)
Professor Emeritus: Physics
PhD, Cornell University

Franklin, Trevor (https://experts.colorado.edu/display/fisid_175743/)
Teaching Assistant Professor: Chemical and Biological Engineering
PhD, Cornell University

Frederick, David M.
Professor Emeritus: Leeds School of Business: Leeds School of Business

Fredricksmeyer, Hardy (https://experts.colorado.edu/display/fisid_115446/)
Teaching Professor: Engineering, Ethics & Society; Senior Instructor: Farrand RAP
PhD, University of Texas at Austin

Fredrickson, Tammy L. (https://experts.colorado.edu/display/fisid_148888/)
Clinical Associate Professor: Speech, Language and Hearing Sciences (SLHS)
PhD, University of Colorado Boulder

Freund, Karl
Sergeant, Military Science Instructor: Army ROTC

Frew, Eric W. (https://experts.colorado.edu/display/fisid_134685/)
Professor: Aerospace Engineering Sciences; Professor: Computer Science; Faculty Director, Associate Chair: College of Engineering and Applied Science
PhD, Stanford University

Frey, Julia B.
Professor Emerita: French & Italian

Frey, Lawrence R. (https://experts.colorado.edu/display/fisid_125937/)
Professor Emeritus: Communication
PhD, University of Kansas

Friedel, Megan (https://experts.colorado.edu/display/fisid_163706/)
Assistant Professor: University Libraries
MS, Simmons College

Friedman, Naomi P. (https://experts.colorado.edu/display/fisid_109519/)
Associate Professor: Institute for Behavioral Genetics (IBG); Associate Professor: Psychology and Neuroscience
PhD, University of Colorado Boulder

Friedrich, Katja (https://experts.colorado.edu/display/fisid_133607/)
Professor: Atmospheric and Oceanic Sciences (ATOC)
PhD, Ludwig-Maximilians-Universität München (Germany)

Frongillo, Rafael M. (https://experts.colorado.edu/display/fisid_156416/)
Associate Professor: Computer Science
PhD, University of California, Berkeley

Frost, Steven (https://experts.colorado.edu/display/fisid_156502/)
Instructor: College of Media, Communication & Information; Instructor: Art and Art History; Instructor, Associate Chair: Media Studies
MFA, School of Art Institute of Chicago

Funk, Samantha
Assistant Professor: School of Law
JD, University of Michigan

Furman, H. Patrick
Professor Emeritus: School of Law
JD, University of Colorado Boulder

Furtak, Erin M. (https://experts.colorado.edu/display/fisid_144504/)
Professor: School of Education
PhD, Stanford University

Fydenlund, Shae
Teaching Assistant Professor: Center for Asian Studies
PhD, University of Colorado Boulder

G

Gale, Kendra L. (https://experts.colorado.edu/display/fisid_125578/)
Instructor: Communication & Society RAP
PhD, University of Minnesota Twin Cities

Gallagher, Emily Anne (https://experts.colorado.edu/display/fisid_163544/)
Assistant Professor: Leeds School of Business
PhD, Paris School of Economics

Gallagher, Michael (https://experts.colorado.edu/display/fisid_151214/)
Lecturer: Physics
PhD, University of Colorado

Galm, John
Professor Emeritus: Music

Gangadharbatla, Harsha (https://experts.colorado.edu/display/fisid_153279/)
Professor: Advertising, Public Relations and Media Design; Faculty Director: Faculty Council, A&S
PhD, University of Texas at Austin

Ganguly, Suranjan (https://experts.colorado.edu/display/fisid_102045/)
Professor Emeritus: Cinema Studies & Moving Image Arts
PhD, Purdue University

Gao, Xun (https://experts.colorado.edu/display/fisid_174294/)
Assistant Professor: Physics
PhD, Tsinghua University (China)

Garbers, Patrick
Assistant Professor: Army ROTC
Contractor, U.S. Army; BS, Chapman University

Garcea, Robert L. (https://experts.colorado.edu/display/fisid_146103/)
Professor: Molecular, Cellular & Developmental Biology (MCDB)
MD, University of California, San Francisco

Garcia, Diego (https://experts.colorado.edu/display/fisid_156036/)
Professor: Leeds School of Business
PhD, University of California, Berkeley

Gardner, Ryan (https://experts.colorado.edu/individual/fisid_165331/)
Associate Professor: Music
DMA, Manhattan School of Music

Garland, Andrew B (https://experts.colorado.edu/display/fisid_159725/)
Assistant Professor: Music
MM, University of Cincinnati

Garnand, John J.
Professor Emeritus: Leeds School of Business

Garrity, Jane Marie (https://experts.colorado.edu/display/fisid_105467/)
Associate Professor: English
PhD, University of California, Berkeley

Gasiewski, Albin J. (https://experts.colorado.edu/display/fisid_142882/)
Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, Massachusetts Institute of Technology

Gasta, Mark (https://experts.colorado.edu/display/fisid_165314/)
Instructor: Leeds School of Business
PhD, Pepperdine University

Gautam, Sanjay Kumar (https://experts.colorado.edu/display/fisid_140614/)
Associate Professor: History
PhD, University of Chicago

Gayley, Antonia Hollis (https://experts.colorado.edu/display/fisid_144505/)
Associate Professor, Associate Chair: Religious Studies
PhD, Harvard University

Gazarik, Michael
Scholar in Residence, Director: Engineering Management Program
PhD, Georgia Institute of Technology

Ge, Shemin (https://experts.colorado.edu/display/fisid_101387/)
Distinguished Professor, Chair: Geological Sciences
PhD, Johns Hopkins University

Gebhardt, Karen (https://experts.colorado.edu/display/fisid_159742/)
Senior Instructor: Economics; Senior Instructor: Continuing Education & Professional Studies
PhD, Colorado State University

Geck, Francis J.
Professor Emeritus: Art and Art History

Geers, Thomas L.
Professor Emeritus: Mechanical Engineering

Gentry, Gregory R.
Associate Professor, Faculty Director: Music
DMA, University of Missouri–Kansas City

George, Steven (https://experts.colorado.edu/display/fisid_103289/)
Professor: Chemistry; Professor: Materials Science & Engineering
PhD, University of California, Berkeley

Gerber, Matthew Dean (https://experts.colorado.edu/display/fisid_129799/)
Associate Professor: History
PhD, University of California, Berkeley

Gerding, Erik F. (https://experts.colorado.edu/display/fisid_149723/)
Professor, Endowed/Named Professor: School of Law
JD, Harvard University

Gerke, Jennifer D. (https://experts.colorado.edu/display/fisid_135135/)
Associate Dean, Associate Professor: University Libraries
MLS, Indiana University at South Bend

Gerland, Oliver W. (https://experts.colorado.edu/display/fisid_101092/)
Associate Professor: Theatre and Dance; Associate Professor: Humanities
PhD, Stanford University

Gerren, Donna S. (https://experts.colorado.edu/display/fisid_108563/)
Teaching Professor Emerita: Aerospace Engineering Sciences
PhD, University of Kansas

Gerwig, Inger-Johanne
Senior Instructor Emerita: Germanic and Slavic Languages and Literatures

Ghobadi-Far, Khosro (https://experts.colorado.edu/display/fisid_174031/)
Assistant Professor: Aerospace Engineering Sciences
PhD, University of Newcastle

Gibert, John C. (https://experts.colorado.edu/display/fisid_101680/)
Professor: Classics
PhD, Harvard University

Gifford, Kevin K. (https://experts.colorado.edu/display/fisid_104361/)
Faculty Director, Research Professor: Computer Science
PhD, University of Colorado Boulder

Gilbert, Andrew
Teaching Assistant Professor: Humanities; Lecturer: Cinema Studies & Moving Image Arts
PhD, University of Colorado

Gilbert, Stacy (https://experts.colorado.edu/display/fisid_158706/)
Associate Professor: University Libraries
MLIS, University of North Carolina

Gill, Sam D. (https://experts.colorado.edu/display/fisid_103595/)
Professor Emeritus: Religious Studies
PhD, University of Chicago

Gillett, Bernard
Senior Instructor: Farrand RAP
MA, University of Colorado Boulder

Gillette, Jeff
Assistant Teaching Professor: Advertising, Public Relations and Media Design
MS, Virginia Commonwealth University

Gillman, Adrianna (https://experts.colorado.edu/display/fisid_165224/)
Associate Professor: Applied Mathematics
PhD, University of Colorado Boulder

Gimenez, Martha E.
Professor Emerita: Sociology

Giovannelli, Leland (https://experts.colorado.edu/display/fisid_100755/)
Teaching Professor Emerita: Engineering, Ethics & Society
PhD, University of Chicago

Gladstone, Jason Daniel (https://experts.colorado.edu/display/fisid_154914/)
Assistant Professor: English
PhD, Johns Hopkins University

Gladstone, Joe (https://experts.colorado.edu/display/fisid_166596/)
Assistant Professor: Leeds School of Business
PhD, University of Cambridge (England)

Glancy, Scott
Lecturer: Physics
PhD, University of Notre Dame

Glaser, Matthew A.
Professor Attendant Rank: Physics
PhD, University of Colorado Boulder

Gleason, Emily (https://experts.colorado.edu/display/fisid_164268/)
Teaching Professor, Faculty Director: School of Education
PhD, University of California, Berkeley

Gleeson, Todd T. (https://experts.colorado.edu/display/fisid_105480/)
Professor, Faculty Director: Health Professions RAP; Professor Emeritus: Integrative Physiology
PhD, University of California, Irvine

Glenn, Jason
Professor: Center for Astrophysics & Space Astronomy (CASA)
PhD, University of Arizona

Glenn, Wendy J. (https://experts.colorado.edu/display/fisid_159489/)
Professor: School of Education
PhD, Arizona State University

Glimp, David R. (https://experts.colorado.edu/display/fisid_143616/)
Associate Professor: English
PhD, Johns Hopkins University

Glover, Fred W.
Professor Emeritus: Leeds School of Business

Gluckstern, J.
Lecturer: Cinema Studies & Moving Image Arts
MFA, University of Colorado Boulder

Glusman, F. Jeff (https://experts.colorado.edu/display/fisid_172040/)
Assistant Teaching Professor: Aerospace Engineering Sciences
PhD, University of Colorado Boulder

Godley Christopher (https://experts.colorado.edu/display/fisid_172491/)
Assistant Teaching Professor: Computer Science
MS, University of Colorado Boulder

Godrick, Daniel (https://experts.colorado.edu/display/fisid_154955/)
Assistant Teaching Professor: Integrated Design Engineering
MS, University of Colorado Boulder; P.E.

Goeldner, Charles R.
Professor Emeritus: Leeds School of Business

Gold, Lawrence (https://experts.colorado.edu/display/fisid_100581/)
Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of Connecticut

Goldfarb, Kathryn Elissa (https://experts.colorado.edu/display/fisid_156471/)
Associate Professor: Anthropology
PhD, University of Chicago

Goldman, Mara Jill (https://experts.colorado.edu/display/fisid_143542/)
Associate Professor: Geography
PhD, University of Wisconsin–Madison

Goldman, Martin V. (https://experts.colorado.edu/display/fisid_100567/)
Professor Emeritus: Physics
PhD, Harvard University

Goldstein, Bruce (https://experts.colorado.edu/display/fisid_147755/)
Professor Emeritus: Environmental Design; Associate Professor: Institute of Behavioral Science (IBS)
PhD, University of California, Berkeley

Goldstein, Donna M. (https://experts.colorado.edu/display/fisid_100448/)
Faculty Director: Latin American Studies; Professor: Media Studies; Professor: Anthropology
PhD, University of California, Berkeley

Gómez, Leila Gabriela (https://experts.colorado.edu/display/fisid_133563/)
Professor: Women and Gender Studies
PhD, Johns Hopkins University

Goode, Bradley M. (https://experts.colorado.edu/display/fisid_134686/)
Associate Professor: Music
MM, DePaul University

Goodman, Nan (https://experts.colorado.edu/display/fisid_100633/)
Professor of Distinction: English; Professor: Jewish Studies
PhD, Harvard University

Goodrich, James (https://experts.colorado.edu/display/fisid_109239/)
Professor, Chair: Biochemistry
PhD, Carnegie Mellon University

Goodrich, Robert K.
Professor Emeritus: Mathematics

Goodrum, Paul M. (https://experts.colorado.edu/display/fisid_151965/)
Endowed/Named Professor: College of Engineering and Applied Science
PhD, University of Texas at Austin

Goodwin, Andrew Pratt (https://experts.colorado.edu/display/fisid_151595/)
Associate Professor: Chemical and Biological Engineering; Associate Professor: Materials Science & Engineering
PhD, University of California, Berkeley

Gooseff, Michael N. (https://experts.colorado.edu/display/fisid_155922/)
Faculty Director, Professor: Civil, Environmental and Architectural Engineering; Professor: Institute of Arctic & Alpine Research (INSTAAR); Professor: Environmental Engineering Program (EVEN)
PhD, University of Colorado Boulder

Gopinath, Juliet T. (https://experts.colorado.edu/display/fisid_147075/)
Professor: Electrical, Computer and Energy Engineering (ECEE); Professor: Physics; Faculty Director, Associate Professor: Materials Science & Engineering; Associate Professor: Biomedical Engineering; Endowed/Named Professor: College of Engineering and Applied Science
PhD, Massachusetts Institute of Technology

Gordon, Kenneth R.
Professor Emeritus: Leeds School of Business

Gorokhovsky, Alexander (https://experts.colorado.edu/display/fisid_126279/)
Professor: Mathematics
PhD, The Ohio State University

Gorokhovsky, Vladimir
Lecturer: Physics
PhD, Russian Academy of Sciences

Gorski, Jessica A. (https://experts.colorado.edu/display/fisid_144240/)
Instructor, Associate Faculty Director: Health Professions RAP
PhD, University of Colorado Boulder

Gort, Mileidis (https://experts.colorado.edu/display/fisid_157992/)
Professor, Associate Dean: School of Education
EdD, Boston University

Gough, Michael J.
Colonel, Chair, Professor: Army ROTC
MS, Naval Postgraduate School

Gough, Raina V. (https://experts.colorado.edu/display/fisid_149207/)
Instructor: Chemistry
PhD, University of Colorado

Grabowski, Alena Marie (https://experts.colorado.edu/display/fisid_149727/)
Associate Professor: Integrative Physiology; Associate Professor: Biomedical Engineering
PhD, University of Colorado Boulder

Graham, Larry
Professor Emeritus: Music

Grant, David R. (https://experts.colorado.edu/display/fisid_100868/)
Professor: Mathematics
PhD, Massachusetts Institute of Technology

Grant, Don Sherman II (https://experts.colorado.edu/display/fisid_154039/)
Professor: Sociology
PhD, Ohio State University

Graves, Philip E. (https://experts.colorado.edu/display/fisid_102050/)
Professor Emeritus: Economics
PhD, Northwestern University

Greaney, Patrick F. (https://experts.colorado.edu/display/fisid_122807/)
Professor: Germanic and Slavic Languages and Literatures; Professor: Humanities
PhD, Johns Hopkins University

Green, James C. (https://experts.colorado.edu/display/fisid_102344/)
Professor Emeritus: Astrophysical and Planetary Sciences (APS); Professor: Center for Astrophysics & Space Astronomy (CASA)
PhD, University of California, Berkeley

Green, Jeremy F. (https://experts.colorado.edu/display/fisid_113077/)
Associate Professor: English
PhD, University of Cambridge (England)

Green, Richard Mutegeki (https://experts.colorado.edu/display/fisid_129800/)
Professor: Mathematics
MA, Oxford University (England)

Green, Sally Edith (https://experts.colorado.edu/display/fisid_122076/)
Associate Teaching Professor Emerita: Program for Writing and Rhetoric
MA, University of Colorado Boulder

Greenan, LoriBeth
Assistant Teaching Professor: Advertising, Public Relations and Media Design
MS, New York University

Greenberg, Alan R.
Professor Emeritus: Mechanical Engineering

Greenberg, Edward S. (https://experts.colorado.edu/display/fisid_106090/)
Professor Emeritus: Political Science
Ph.D., University of Wisconsin- Madison

Greene, David Lee
Professor Emeritus: Anthropology

Greenwood, Emily (https://experts.colorado.edu/display/fisid_157375/)
Teaching Associate Professor: Environmental Design
MLA, University of Colorado Denver

Greenwood, Michael J. (https://experts.colorado.edu/display/fisid_102361/)
Professor Emeritus: Economics
Ph.D., Northwestern University

Gregorio, Alvin P. (https://experts.colorado.edu/display/fisid_143596/)
Associate Professor: Art and Art History
MFA, Claremont Graduate School

Gremban, Keith (https://experts.colorado.edu/display/fisid_166519/)
Research Professor: Aerospace Engineering Sciences
PhD, Carnegie Mellon University

Gries, Laurie Ellen (https://experts.colorado.edu/display/fisid_155951/)
Associate Professor, Faculty Director: Program for Writing and Rhetoric; Associate Professor: English
PhD, Syracuse University

Griffin, John David
Faculty Director: Conference on World Affairs
PhD, Duke University

Grisales, Juan
Teaching Assistant Professor: Environmental Design
MLA, Harvard University

Grochow, Joshua A. (https://experts.colorado.edu/display/fisid_158240/)
Associate Professor: Computer Science; Assistant Professor: Mathematics
PhD, University of Chicago

Grooms, Ian G. (https://experts.colorado.edu/display/fisid_155588/)
Associate Professor: Applied Mathematics
PhD, University of Colorado Boulder

Gross, David L. (https://experts.colorado.edu/display/fisid_103329/)
Professor Emeritus: History
Ph.D., University of Wisconsin-Madison

Gross, David Michael (https://experts.colorado.edu/display/fisid_109026/)
Senior Instructor, Faculty Director, Associate Chair: Leeds School of Business
PhD, University of Colorado Boulder

Gross, Mark D. (https://experts.colorado.edu/display/fisid_100095/)
Professor: ATLAS Institute; Director, Professor: Creative Technology & Design; Professor: Computer Science
PhD, Massachusetts Institute of Technology

Grotzinger, Andrew (https://experts.colorado.edu/display/fisid_167222/)
Assistant Professor: Psychology and Neuroscience
PhD, University of Texas at Austin

Grove, Vicki Jean (https://experts.colorado.edu/display/fisid_103689/)
Teaching Professor of Distinction: Germanic and Slavic Languages and Literatures
PhD, University of Colorado Boulder

Gruber, June L. (https://experts.colorado.edu/display/fisid_153634/)
Professor: Psychology and Neuroscience
PhD, University of California, Berkeley

Grulke, Boo (https://experts.colorado.edu/display/fisid_144824/)
Teaching Assistant Professor: Mathematics
DEd, University of Florida

Grunwald, Dirk C. (https://experts.colorado.edu/display/fisid_102261/)
Associate Chair, Professor: Computer Science; Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of Illinois at Urbana–Champaign

Guild, Nancy Ann (https://experts.colorado.edu/individual/fisid_111361/)
Professor Attendant Rank: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of Colorado

Guinn, Curry
Associate Teaching Professor: Computer Science
Ph.D, Duke University

Gulasekaram, Pratheepan (https://experts.colorado.edu/display/fisid_173498/)
Professor: School of Law
JD, Stanford University

Gumina, Deena (https://experts.colorado.edu/display/fisid_168202/)
Assistant Teaching Professor: School of Education
PhD, University of Colorado Boulder

Gunther, John G. (https://experts.colorado.edu/display/fisid_141165/)
Professor, Faculty Director: Music
PhD, New York University

Gupta, Ankur (https://experts.colorado.edu/display/fisid_165822/)
Assistant Professor: Chemical and Biological Engineering
PhD, Massachusetts Institute of Technology

Gupta, Mohit
Instructor Adjunct: Mechanical Engineering

Gupta, Vijay
Professor Emeritus: Civil, Environmental and Architectural Engineering

Gurantz, Oded (https://experts.colorado.edu/display/fisid_171734/)
Associate Professor: School of Education
PhD, Stanford University

Gurari Danna (https://experts.colorado.edu/display/fisid_104361/)
Assistant Professor: Computer Science
PhD, Boston University

Gurarie, Victor Vladimir (https://experts.colorado.edu/display/fisid_129918/)
Professor: Physics
PhD, Princeton University

Guruswamy, Lakshman (https://experts.colorado.edu/display/fisid_120000/)
Professor Emeritus, Professor: School of Law
PhD, University of Durham (England)

Gustafson, Karl E. (https://experts.colorado.edu/display/fisid_104877/)
Professor Emeritus: Mathematics
PhD, University of Maryland, College Park

Gutierrez, Gerardo (https://experts.colorado.edu/display/fisid_146867/)
Professor: Anthropology
PhD, Pennsylvania State University

Gutiérrez Lorenzo, Ambrocio (https://experts.colorado.edu/display/fisid_168627/)
Assistant Professor: Linguistics
PhD, University of Texas, Austin

Gutmann, Myron (https://experts.colorado.edu/display/fisid_154905/)
Professor Emeritus: Institute of Behavioral Science (IBS); Professor Emeritus: History
PhD, Princeton University

Gwozdz, Ronald Scott (https://experts.colorado.edu/display/fisid_144830/)
Instructor: Leeds School of Business
MBA, University of Colorado Boulder

Gyenis, Andras (https://experts.colorado.edu/display/fisid_167223/)
Assistant Professor: Physics
PhD, Princeton University

H

Ha, Sangtae (https://experts.colorado.edu/display/fisid_153246/)
Associate Professor: Computer Science; Assistant Professor: Interdisciplinary Telecommunications
PhD, North Carolina State University

Hackett, Chelsea (https://experts.colorado.edu/display/fisid_148516/)
Assistant Teaching Professor: School of Education
PhD, New York University

Haig, Robin
Senior Instructor Emerita: Theatre and Dance

Hale, Benjamin Slater (https://experts.colorado.edu/display/fisid_141456/)
Associate Professor: Environmental Studies Program
PhD, SUNY at Stony Brook

Hale, Bobby L.
Captain, Assistant Professor: Army ROTC
MBA, Columbia Station University

Halek, Milan F.
Senior Instructor Emeritus: Civil, Environmental and Architectural Engineering

Hall, John L. (https://experts.colorado.edu/display/fisid_103891/)
Professor Adjoint: Physics
PhD, Carnegie Institute of Technology

Hall, Kira (https://experts.colorado.edu/display/fisid_123111/)
Professor, Associate Chair: Linguistics; Professor: Media Studies
PhD, University of California, Berkeley

Hall, Megan
Legal Writing Professor: School of Law
JD, University of Colorado Boulder

Hallowell, Matthew Ryan (https://experts.colorado.edu/display/fisid_146163/)
Professor: Civil, Environmental and Architectural Engineering; Faculty Director, Endowed/Named Professor: College of Engineering and Applied Science
PhD, Oregon State University

Hallstead, Susan Rita (https://experts.colorado.edu/display/fisid_125579/)
Associate Teaching Professor: Spanish and Portuguese
PhD, University of Pittsburgh

Halverson, Nils W. (https://experts.colorado.edu/display/fisid_134252/)
Professor: Astrophysical and Planetary Sciences (APS); Professor: Physics; Professor, Faculty Director: Center for Astrophysics & Space Astronomy (CASA)
PhD, California Institute of Technology

Hamilton, Andrew J.S. (https://experts.colorado.edu/display/fisid_101517/)
Professor, Chair: Astrophysical and Planetary Sciences (APS); Professor: Physics
PhD, University of Virginia

Hamilton, Fred A. Jr. (https://experts.colorado.edu/display/fisid_105243/)
Senior Instructor Emeritus: University Libraries
MS, University of Tennessee-Knoxville

Hamlington, Peter Edward (https://experts.colorado.edu/display/fisid_149800/)
Associate Professor, Chair: Mechanical Engineering
PhD, University of Michigan Ann Arbor

Hammer, Paul E.J. (https://experts.colorado.edu/display/fisid_146581/)
Professor: History; Faculty Director: College of Arts and Sciences
PhD, University of Cambridge (England)

Hammons, Christian Stanford (https://experts.colorado.edu/display/fisid_152915/)
Teaching Professor: Anthropology; Teaching Associate Professor, Associate Chair, Associate Faculty Director: Critical Media Practices
PhD, University of Southern California

Hampson, Gregory (https://experts.colorado.edu/display/fisid_166888/)
Scholar in Residence: Mechanical Engineering
PhD, University of Wisconsin–Madison

Hamza, Ahmed
Associate Teaching Professor: Computer Science
PhD, University of Portsmouth (England)

Han, Min (https://experts.colorado.edu/display/fisid_105512/)
Distinguished Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of California, Los Angeles

Han, Weiqing (https://experts.colorado.edu/display/fisid_115493/)
Professor: Atmospheric and Oceanic Sciences (ATOC)
PhD, Nova University

Hanna, Martha (https://experts.colorado.edu/display/fisid_104557/)
Professor Emerita: History; Faculty Director: Academic Affairs
PhD, Georgetown University

Hannigan, Michael P. (https://experts.colorado.edu/display/fisid_122655/)
Professor: Mechanical Engineering; Professor: Environmental Engineering Program (EVEN)
PhD, California Institute of Technology

Harrell, Nickholas Francis
Instructor: Law Library
JD, Lewis and Clark College

Harrington, Emily Marie (https://experts.colorado.edu/display/fisid_154601/)
Associate Professor, Associate Chair: English
PhD, University of Michigan Ann Arbor

Harris, Lorenzo R. (https://experts.colorado.edu/display/fisid_147634/)
Artist in Residence: Theatre and Dance

Harris, Michael William
Lecturer: Continuing Education & Professional Studies

Harrison, Jill Lindsey (https://experts.colorado.edu/display/fisid_149614/)
Associate Professor: Geography
PhD, University of California, Santa Cruz

Harsh, John R. (https://experts.colorado.edu/display/fisid_155406/)
Professor Adjunct: Integrative Physiology

Hartter, Joel N. (https://experts.colorado.edu/display/fisid_154043/)
Faculty Director, Professor: Environmental Studies Program; Associate Professor: Graduate School
PhD, University of Florida

Harvey, Lewis Orvis (https://experts.colorado.edu/display/fisid_101173/)
Professor Emeritus: Psychology and Neuroscience

Harvey, Pamela Ann (https://experts.colorado.edu/display/fisid_148012/)
Senior Instructor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Tufts University

Hasan, Raza Ali (https://experts.colorado.edu/display/fisid_146167/)
Associate Teaching Professor: English
MFA, Syracuse University

Hasenfratz, Anna (https://experts.colorado.edu/display/fisid_102393/)
Professor: Physics
PhD, Lorand Eotvos University, Budapest (Hungary)

Hata, Kuniaki
Professor Emeritus: Music

Hauser, John (https://experts.colorado.edu/display/fisid_102555/)
Associate Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of California, Berkeley

Hauser, Thomas (https://experts.colorado.edu/individual/fisid_148662/)
Associate Professor Adjunct: Computer Science; Associate Professor Adjoint: University Libraries
PhD, Technische Universität München (Germany)

Hawk, Ashton Lewis (https://experts.colorado.edu/display/fisid_157915/)
Assistant Professor: Leeds School of Business
PhD, New York University

Hawkins, Paige
Assistant Teaching Professor: Speech, Language and Hearing Sciences (SLHS)
MA, Gallaudet University

Hayes, Bradley H. (https://experts.colorado.edu/display/fisid_159810/)
Associate Professor: Computer Science
PhD, Yale University

Hayes, Deborah
Professor Emerita: Music

Hayghe, Jennifer C. (https://experts.colorado.edu/display/fisid_155969/)
Associate Professor: Music
DMA, The Juilliard School

Hayman, Allison P. (https://experts.colorado.edu/display/fisid_156275/)
Associate Professor: Aerospace Engineering Sciences; Assistant Professor: Biomedical Engineering
PhD, Massachusetts Institute of Technology

Hayne, Paul (https://experts.colorado.edu/display/fisid_163352/)
Associate Professor: Astrophysical and Planetary Sciences (APS); Associate Professor: Laboratory for Atmospheric and Space Physics (LASP)
PhD, University of California, Los Angeles

Haynie, Hannah (https://experts.colorado.edu/display/fisid_166099/)
Assistant Professor: Linguistics
PhD, University of California, Berkeley

Hayward, Ryan (https://experts.colorado.edu/individual/fisid_166416/)
Endowed/Named Professor: Chemical and Biological Engineering
PhD, University of California Santa Barbara

Hayworth, Eugene H. (https://experts.colorado.edu/display/fisid_126313/)
Associate Professor Emeritus: University Libraries
MLS, Syracuse University

He, Chuan (https://experts.colorado.edu/display/fisid_124857/)
Associate Professor: Leeds School of Business
PhD, Washington University

Healy, Alice F. (https://experts.colorado.edu/display/fisid_100418/)
Distinguished Professor Emeritus: Psychology and Neuroscience
PhD, The Rockefeller University

Hearn, George (https://experts.colorado.edu/display/fisid_101059/)
Associate Professor: Civil, Environmental and Architectural Engineering
PhD, Columbia University

Heathwood, Chris (https://experts.colorado.edu/display/fisid_141144/)
Professor: Philosophy
PhD, University of Massachusetts at Amherst

Heckman, Christoffer (https://experts.colorado.edu/display/fisid_155294/)
Associate Professor: Computer Science; Assistant Professor: Electrical, Computer and Energy Engineering (ECEE); Faculty Director: College of Engineering and Applied Science
PhD, Cornell University

Heil, Leila (https://experts.colorado.edu/display/fisid_149780/)
Associate Professor: Music Education; Associate Professor: Music
PhD, University of Colorado Boulder

Heinz, Hendrik (https://experts.colorado.edu/display/fisid_156488/)
Professor: Chemical and Biological Engineering; Associate Professor: Materials Science & Engineering
PhD, ETH Zurich (Switzerland)

Heisler, Ruth E. (https://experts.colorado.edu/display/fisid_103195/)
Teaching Professor of Distinction: Integrative Physiology
MA, University of Colorado Boulder

Hekman, David R. (https://experts.colorado.edu/display/fisid_151359/)
Associate Professor: Leeds School of Business
PhD, University of Washington

Henao Cano, Valeria (https://experts.colorado.edu/display/fisid_173407/)
Teaching Assistant Professor: Environmental Design
MURP, University of Colorado Denver

Hendricks, Jennifer Susan (https://experts.colorado.edu/display/fisid_151111/)
Professor: School of Law
JD, Harvard University

Hendrickson, Susan Marie (https://experts.colorado.edu/display/fisid_145101/)
Senior Instructor: Chemistry
PhD, Colorado State University

Henningsen, Matthew Scott (https://experts.colorado.edu/display/fisid_156802/)
Assistant Teaching Professor: Program for Writing and Rhetoric; Lecturer: Farrand RAP
PhD, Marquette University

Henry, Markas (https://experts.colorado.edu/display/fisid_134379/)
Associate Professor: Theatre and Dance
MFA, University of Connecticut

Henze, Daven K. (https://experts.colorado.edu/display/fisid_144858/)
Professor, Associate Professor: Environmental Engineering Program (EVEN); Associate Chair: Mechanical Engineering
PhD, California Institute of Technology

Henze, Gregor P. (https://experts.colorado.edu/display/fisid_146496/)
Professor: Civil, Environmental and Architectural Engineering
PhD, University of Colorado Boulder

Her Many Horses, Ian (https://experts.colorado.edu/display/fisid_144780/)
Assistant Teaching Professor: School of Education
PhD, University of Colorado Boulder

Herland, Emmy (https://experts.colorado.edu/display/fisid_168686/)
Assistant Teaching Professor: Spanish and Portuguese
PhD, University of Washington

Herman, C.J. (https://experts.colorado.edu/individual/fisid_152265/)
Faculty Director, Associate Teaching Professor: Computer Science
BS, Stony Brook University

Hermann, Allen M.
Professor Emeritus: Physics
PhD, Texas AM University

Hermele, Michael Aaron (https://experts.colorado.edu/display/fisid_143370/)
Professor: Physics
PhD, University of California, Santa Barbara

Hernandez, Mark T. (https://experts.colorado.edu/display/fisid_107635/)
Professor, Professor: Environmental Engineering Program (EVEN); Lecturer: Civil, Environmental and Architectural Engineering; Faculty Director, Endowed/Named Professor: College of Engineering and Applied Science
PhD, University of California, Berkeley

Hernandez, Theresa D. (https://experts.colorado.edu/display/fisid_102953/)
Professor: Psychology and Neuroscience; Associate Dean, Professor: College of Arts and Sciences
PhD, University of Texas at Austin

Hernstrom, Ben
Lecturer: Cinema Studies & Moving Image Arts
MFA, University of Colorado Boulder

Herrero-Senés, Juan (https://experts.colorado.edu/display/fisid_147159/)
Associate Professor, Faculty Director: International Education; Associate Chair: Spanish and Portuguese
PhD, Universitat Pompeu Fabra (Spain)

Hersey, John K. (https://experts.colorado.edu/display/fisid_170139/)
Teaching Assistant Professor: Environmental Design
M.A., University of Massachusetts–Amherst; M.A., University of Maryland College Park Campus

Hersh, Orly M. (https://experts.colorado.edu/display/fisid_143580/)
Associate Teaching Professor: Program for Writing and Rhetoric; Associate Faculty Director: College of Media, Communication & Information
MA, Northern Arizona University

Hertzberg, Jean R. (https://experts.colorado.edu/display/fisid_105315/)
Professor: Mechanical Engineering; Associate Professor: Environmental Engineering Program (EVEN)
PhD, University of California, Berkeley

Herz, Zachary (https://experts.colorado.edu/display/fisid_165410/)
Assistant Professor: Classics
PhD, Columbia University; JD, Yale University

Herzfeld, Ute C. (https://experts.colorado.edu/display/fisid_106575/)
Research Professor: Electrical, Computer and Energy Engineering (ECEE); Research Professor: Computer Science
PhD, Johannes Gutenberg-Universität Mainz (Germany)

Hessel, Kurtis (https://experts.colorado.edu/individual/fisid_159325/)
Assistant Teaching Professor: Program for Writing and Rhetoric
PhD, University of Colorado Boulder

Hewitt, John K. (https://experts.colorado.edu/display/fisid_101035/)
Professor: Psychology and Neuroscience; Professor: Institute for Behavioral Genetics (IBG)
PhD, University of London

Heydt-Stevenson, Jillian (https://experts.colorado.edu/display/fisid_111683/)
Professor: English
PhD, University of Colorado Boulder

Hickcox, Abby Lynn (https://experts.colorado.edu/display/fisid_151860/)
Senior Instructor, Associate Faculty Director: Honors Program
PhD, University of Colorado Boulder

Hickerson Dominiski, Ruth (https://experts.colorado.edu/display/fisid_151159/)
Teaching Professor: Communication
PhD, University of Denver

Higashida, Cheryl A. (https://experts.colorado.edu/display/fisid_126280/)
Associate Professor: English
PhD, Cornell University

Higgins, Brian Edmund (https://experts.colorado.edu/display/fisid_156515/)
Instructor: Leeds School of Business
JD, University of Denver

Hildreth, Roudy (https://experts.colorado.edu/display/fisid_155457/)
Assistant Teaching Professor: School of Education
PhD, University of Minnesota

Hilger, Allison (https://experts.colorado.edu/individual/fisid_167224/)
Assistant Professor: Speech, Language and Hearing Sciences (SLHS)
PhD, Northwestern University

Hill, David
Professor Emeritus: School of Law
JD, University of Nebraska-Lincoln

Hill, Karl G. (https://experts.colorado.edu/individual/fisid_159803/)
Professor: Psychology and Neuroscience
PhD, Brandeis University

Hill, Robert Stephen (https://experts.colorado.edu/display/fisid_163943/)
Professor: Music
PhD, Harvard University

Hill, Scott Andrew
Lecturer: Continuing Education & Professional Studies
PhD, University of Massachusetts at Amherst

Hinckley, Eve-Lyn (https://experts.colorado.edu/display/fisid_147806/)
Associate Professor: Institute of Arctic & Alpine Research (INSTAAR)
PhD, Stanford University

Hind, Laurel (https://experts.colorado.edu/individual/fisid_165642/)
Assistant Professor: Biomedical Engineering; Assistant Professor: Chemical and Biological Engineering
PhD, University of Pennsylvania

Hindman, Bradley W. (https://experts.colorado.edu/display/fisid_103726/)
Assistant Research Professor, Lecturer: Astrophysical and Planetary Sciences (APS)
PhD, University of Colorado Boulder

Hinton, J. Kai
Lieutenant, Assistant Professor: Navy ROTC

Hintz, Saskia Barbara (https://experts.colorado.edu/display/fisid_144506/)
Teaching Professor of Distinction: Germanic and Slavic Languages and Literatures
PhD, New York University

Hirschberg, Dan (https://experts.colorado.edu/display/fisid_172774/)
Associate Teaching Professor: Center for Asian Studies
PhD, Harvard University

Hiura, Lisa (https://experts.colorado.edu/display/fisid_167644/)
Assistant Professor: Psychology and Neuroscience
PhD, Cornell University

Ho, Jennifer (https://experts.colorado.edu/display/fisid_165744/)
Professor: Ethnic Studies; Professor: Humanities; Faculty Director: Center for Humanities and the Arts
PhD, Boston University

Hobbs, Steven L. (https://experts.colorado.edu/display/fisid_143724/)
Associate Teaching Professor: Integrative Physiology
PhD, University of Colorado Boulder

Hodby, Eleanor R. (https://experts.colorado.edu/display/fisid_128058/)
Senior Instructor, Associate Teaching Professor: Physics
PhD, Oxford University

Hodge, Bri-Mathias (https://experts.colorado.edu/display/fisid_158358/)
Associate Professor: Electrical, Computer and Energy Engineering (ECEE); Associate Professor: Renewable & Sustainable Energy Institute (RASEI)
PhD, Purdue University

Hodge, Danielle (https://experts.colorado.edu/display/fisid_167427/)
Assistant Professor: Communication
PhD, University of Colorado Boulder

Hodges, Adam
Assistant Professor Adjunct: Linguistics
PhD, University of Colorado

Hodgkinson, Robert F. (https://experts.colorado.edu/display/fisid_153274/)
Associate Teaching Professor: Aerospace Engineering Sciences
MS, University of Colorado Boulder

Hoecker, Arne (https://experts.colorado.edu/display/fisid_152973/)
Associate Professor: Germanic and Slavic Languages and Literatures
PhD, Johns Hopkins University

Hoefer, Mark (https://experts.colorado.edu/display/fisid_154264/)
Professor: Applied Mathematics
PhD, University of Colorado Boulder

Hoeffer, Charles Albert (https://experts.colorado.edu/display/fisid_153384/)
Assistant Professor: Institute for Behavioral Genetics (IBG); Associate Professor: Integrative Physiology
PhD, University of Arizona

Hoehn, Alexander (https://experts.colorado.edu/display/fisid_104942/)
Associate Professor Adjunct: BioServe Space Technologies

Hoenger, Andreas (https://experts.colorado.edu/display/fisid_142883/)
Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Universität Basel (Switzerland)

Hoenigman, Rhonda (https://experts.colorado.edu/display/fisid_152997/)
Associate Teaching Professor: Computer Science; Associate Dean: College of Engineering and Applied Science
PhD, University of Colorado Boulder

Hohlfelder, Robert
Professor Emeritus: History

Hoke, Charles (https://experts.colorado.edu/display/fisid_175280/)
Associate Teaching Professor: Aerospace Engineering Sciences
PhD, University of New South Whales

Holbert, Marianne Bellino (https://experts.colorado.edu/display/fisid_146986/)
Faculty Director: International Education; Teaching Professor: Environmental Design
MArch, Washington University

Holewinski, Adam P. (https://experts.colorado.edu/display/fisid_155859/)
Assistant Professor: Renewable & Sustainable Energy Institute (RASEI); Assistant Professor: Chemical and Biological Engineering; Assistant Professor: Materials Science & Engineering
PhD, University of Michigan Ann Arbor

Holland, Murray John (https://experts.colorado.edu/display/fisid_105126/)
Professor: Physics; Professor: JILA
PhD, Oxford University (England)

Holley, Richard A.
Professor Emeritus: Mathematics

Hollis, Deborah R. (https://experts.colorado.edu/display/fisid_100664/)
Professor: University Libraries
MLS, University of Arizona

Holman-Johnson, Leigh (https://experts.colorado.edu/display/fisid_141980/)
Associate Professor: Music
DMA, University of Colorado Boulder

Holzinger, Marcus J. (https://experts.colorado.edu/display/fisid_164054/)
Professor, Endowed/Named Professor: Aerospace Engineering Sciences
PhD, University of Colorado Boulder

Hoover, Stewart (https://experts.colorado.edu/display/fisid_104549/)
Professor: Media Studies; Faculty Director: Center for Media, Religion and Culture
PhD, University of Pennsylvania

Hopp, Toby (https://experts.colorado.edu/display/fisid_157745/)
Associate Professor: Advertising, Public Relations and Media Design
PhD, University of Oregon

Horanyi, Mihaly (https://experts.colorado.edu/display/fisid_102420/)
Professor: Laboratory for Atmospheric and Space Physics (LASP); Professor: Physics
PhD, Eötvös Loránd University (Hungary)

Hornstein, Seth D. (https://experts.colorado.edu/display/fisid_144237/)
Senior Instructor: Astrophysical and Planetary Sciences (APS)
PhD, University of California, Los Angeles

Hosek, Lauren (https://experts.colorado.edu/display/fisid_167102/)
Assistant Professor: Anthropology
PhD, Syracuse University

Hough, Loren Evan (https://experts.colorado.edu/display/fisid_144904/)
Associate Professor: Physics
PhD, University of Colorado Boulder

Howe, Charles W.
Professor Emeritus: Economics

Hrenya, Christine M.
Professor Emerita: Chemical and Biological Engineering
PhD, Carnegie Mellon University

Hsiao, Frank S.T.
Professor Emeritus: Economics

Hsu, Chun-ling
Instructor Emeritus: Asian Languages and Civilizations
MEd, University of Wisconsin–River Falls

Huang, Shu-Wei (https://experts.colorado.edu/display/fisid_159847/)
Assistant Professor: Electrical, Computer and Energy Engineering (ECEE); Assistant Professor: Materials Science & Engineering; Assistant Professor: Biomedical Engineering
PhD, MIT, Cambridge

Huang, Yu-Jui (https://experts.colorado.edu/display/fisid_157746/)
Assistant Professor: Applied Mathematics
PhD, University of Michigan Ann Arbor

Hubbard, Eleanor
Professor Emerita: Sociology

Huber, David
Professor: Psychology and Neuroscience
PhD, University of Indiana

Hubler, Mija H. (https://experts.colorado.edu/display/fisid_155134/)
Associate Professor: Civil, Environmental and Architectural Engineering
PhD, Northwestern University

Huemer, Michael (https://experts.colorado.edu/display/fisid_113081/)
Professor: Philosophy
PhD, Rutgers University–Newark

Hughes, Jonathan Edward (https://experts.colorado.edu/display/fisid_147335/)
Associate Professor, Associate Chair: Economics
PhD, University of California, Davis

Huibregtse Ketels, Brooke (https://experts.colorado.edu/display/fisid_159929/)
Teaching Assistant Professor: Psychology and Neuroscience; Lecturer: Continuing Education & Professional Studies
PhD, University of Colorado Boulder

Hulden, Mans (https://experts.colorado.edu/display/fisid_154602/)
Associate Professor: Linguistics
PhD, University of Arizona

Hulden, Vilja Paivikki (https://experts.colorado.edu/display/fisid_154910/)
Assistant Teaching Professor: History
PhD, University of Arizona

Humbert, J. Sean (https://experts.colorado.edu/display/fisid_156202/)
Endowed/Named Professor: College of Engineering and Applied Science; Professor, Associate Chair: Mechanical Engineering
PhD, California Institute of Technology

Hume, David
Lecturer: Physics
PhD, University of Colorado Boulder

Hunt, Peter (https://experts.colorado.edu/display/fisid_115394/)
Professor: Classics; Professor: History
PhD, Stanford University

Hunter, Lawrence (https://experts.colorado.edu/display/fisid_143568/)
Professor: Computer Science
PhD, Yale University

Hunter, Lori Mae (https://experts.colorado.edu/display/fisid_118372/)
Professor, Professor: Sociology; Faculty Director: Institute of Behavioral Science (IBS)
PhD, Brown University

Hurley, Kelly K. (https://experts.colorado.edu/display/fisid_105553/)
Associate Professor: English
PhD, Stanford University

Hussein, Mahmoud I. (https://experts.colorado.edu/display/fisid_144300/)
Professor, Professor: Physics; Faculty Director, Endowed/Named Professor: College of Engineering and Applied Science; Professor: Center for Aerospace Structures (CAS); Endowed/Named Professor: Aerospace Engineering Sciences
PhD, University of Michigan Ann Arbor

Hutchinson, Erin M (https://experts.colorado.edu/individual/fisid_167154/)
Assistant Professor: History
PhD, Harvard University

Hynek, Brian Michael (https://experts.colorado.edu/display/fisid_130622/)
Professor: Laboratory for Atmospheric and Space Physics (LASP); Professor: Geological Sciences
PhD, Washington University

Hynes, Dennis
Professor Emeritus: School of Law
LLB, University of Colorado Boulder

Hynes, James T.
Distinguished Professor Emeritus: Chemistry
PhD, Princeton University

I

Ibacache, Kathia (https://experts.colorado.edu/display/fisid_164601/)
Assistant Professor: University Libraries
MLIS, San Jose State University

Ih, Su-Ion (https://experts.colorado.edu/display/fisid_141091/)
Associate Professor: Mathematics
PhD, Brown University

Ikenberry, David L. (https://experts.colorado.edu/display/fisid_149340/)
Professor: Leeds School of Business
PhD, University of Illinois at Urbana-Champaign

Irey, Charlotte York
Professor Emerita: Theatre and Dance

Irvine, Leslie Jane (https://experts.colorado.edu/display/fisid_113150/)
Professor: Sociology
PhD, SUNY at Stony Brook

Isaacs, Rachel (https://experts.colorado.edu/display/fisid_164240/)
Teaching Assistant Professor: Geography
PhD, Pennsylvania State University

Ishikawa, Yoshiyuki (https://experts.colorado.edu/display/fisid_102125/)
Professor: Music
DMA, University of Michigan Ann Arbor

Ito, Tiffany (https://experts.colorado.edu/display/fisid_113066/)
Professor: Psychology and Neuroscience
PhD, University of Southern California

Iwamasa, Ken
Professor Emeritus: Art and Art History

Iyasele, Abel
Teaching Assistant Professor: Information Science
MBA, University of Dundee (UK)

Iyer, Pooja
Assistant Professor: Advertising, Public Relations and Media Design
PhD, University of Texas at Austin

Iyigun, Fevzi Murat (https://experts.colorado.edu/display/fisid_118373/)
Professor: Economics
PhD, Brown University

Izraelevitz, Joe (https://experts.colorado.edu/display/fisid_166042/)
Assistant Professor: Electrical, Computer and Energy Engineering (ECEE); Assistant Professor: Computer Science
PhD, University of Rochester

Izaguirre, José G.
Assistant Professor: Communication
PhD, University of Illinois Urbana-Champaign

J

Jacka, Jerry Keith (https://experts.colorado.edu/display/fisid_156067/)
Associate Professor: Anthropology
PhD, University of Oregon

Jackson, Betty R.
Professor Emerita: Leeds School of Business

Jackson, Dennis
Professor Emeritus: Music

Jacobs, Janet L. (https://experts.colorado.edu/display/fisid_100744/)
Professor: Women and Gender Studies; Director: Honors Program; Professor: Sociology
PhD, University of Colorado Boulder

Jacobs, Karen S. (https://experts.colorado.edu/display/fisid_100280/)
Associate Professor: English
PhD, University of California, Berkeley

Jacobson, Daniel (https://experts.colorado.edu/individual/fisid_167068/)
Professor: Philosophy
PhD, University of Michigan

Jahn Hall, Alexandra (https://experts.colorado.edu/display/fisid_155096/)
Assistant Professor: Institute of Arctic & Alpine Research (INSTAAR); Assistant Professor: Atmospheric and Oceanic Sciences (ATOC)
PhD, McGill University

Jahn, Jody L. (https://experts.colorado.edu/display/fisid_153426/)
Associate Professor: Communication
PhD, University of California, Santa Barbara

Jakosky, Bruce M.
Professor, Faculty Director: Laboratory for Atmospheric and Space Physics (LASP)
PhD, California Institute of Technology

James, Sarah Anne (https://experts.colorado.edu/display/fisid_151713/)
Associate Professor: Classics; Faculty Director: International Education
PhD, University of Texas at Austin

Jamieson, Sara Reed (https://experts.colorado.edu/display/fisid_147773/)
Senior Instructor: Communication & Society RAP; Faculty Director: College of Media, Communication & Information
PhD, University of New Mexico

Jamshidi, Maryam (https://experts.colorado.edu/display/fisid_173668/)
Associate Professor: School of Law
JD, University of Pennsylvania

Jankowski, James P.
Professor Emeritus: History

Jansen, Kenneth E. (https://experts.colorado.edu/display/fisid_147360/)
Professor, Professor: Computer Science; Endowed/Named Professor, Faculty Director: College of Engineering and Applied Science; Endowed/Named Professor: Aerospace Engineering Sciences
PhD, Stanford University

Jany, Berit (https://experts.colorado.edu/display/fisid_154411/)
Teaching Professor: Germanic and Slavic Languages and Literatures
PhD, The Ohio State University

Javernick-Will, Amy N. (https://experts.colorado.edu/display/fisid_146430/)
Professor: Civil, Environmental and Architectural Engineering; Endowed/Named Professor: College of Engineering and Applied Science; Associate Professor: Environmental Engineering Program (EVEN)
PhD, Stanford University

Jaworski, Taylor Allen (https://experts.colorado.edu/display/fisid_159798/)
Associate Professor: Economics; Associate Professor: History; Assistant Professor: Institute of Behavioral Science (IBS)
PhD, University of Arizona

Jayaram, Kaushik (https://experts.colorado.edu/display/fisid_165370/)
Assistant Professor: Mechanical Engineering; Assistant Professor: Biomedical Engineering
PhD, University of California-Berkeley

Jedamus, Paul E.
Professor Emeritus: Leeds School of Business

Jenkins, Jeff (https://experts.colorado.edu/individual/fisid_146511/)
Instructor: Music
Studied, Univeristy of North Texas

Jennings, Christina A. (https://experts.colorado.edu/display/fisid_143545/)
Professor: Music
MM, The Juilliard School

Jennings, Tracy M. (https://experts.colorado.edu/display/fisid_128765/)
Senior Instructor, Faculty Director: Leeds School of Business
PhD, University of Denver

Jensen, Howard G.
Professor Emeritus: Leeds School of Business

Jessor, Richard
Professor Emeritus: Psychology and Neuroscience

Jessup, Elizabeth R. (https://experts.colorado.edu/display/fisid_102065/)
Professor Emeritus: Computer Science
PhD, Yale University

Jesudason, Judith Packer (https://experts.colorado.edu/display/fisid_100338/)
Professor: Mathematics
PhD, Harvard University

Jimenez, Ralph (https://experts.colorado.edu/display/fisid_132670/)
Professor Adjoint: Chemistry
PhD, University of Chicago

Jimenez-Palacios, Jose Luis (https://experts.colorado.edu/display/fisid_125580/)
Professor: Cooperative Institute for Research in Environmental Sciences (CIRES); Distinguished Professor: Chemistry
PhD, Massachusetts Institute of Technology

Jobin, Nicole V. (https://experts.colorado.edu/display/fisid_103920/)
Senior Instructor: Sewall RAP
PhD, University of Colorado Boulder

Johanson, Luke
Captain, Assistant Professor: Army ROTC
MA, Northern Arizona University

Johnson, Andrew M. (https://experts.colorado.edu/display/fisid_149821/)
Associate Professor: University Libraries
MA, University of Wisconsin–Madison

Johnson, Gabriel
Lecturer: ATLAS Institute; Lecturer: Creative Technology & Design
PhD, Carnegie Mellon University

Johnson, Pieter T.J. (https://experts.colorado.edu/display/fisid_143590/)
Professor: Ecology and Evolutionary Biology
PhD, University of Wisconsin–Madison

Johnson, Stefanie Kathleen (https://experts.colorado.edu/display/fisid_153813/)
Associate Professor: Leeds School of Business
PhD, Rice University

Johnson, Thomas E. (https://experts.colorado.edu/display/fisid_104242/)
Professor: Institute for Behavioral Genetics (IBG); Professor Emeritus: Integrative Physiology
PhD, University of Washington

Jonas, David (https://experts.colorado.edu/display/fisid_107145/)
Professor: Chemistry
PhD, Massachusetts Institute of Technology

Jones, Carla Mae (https://experts.colorado.edu/display/fisid_134172/)
Professor: Anthropology
PhD, University of North Carolina, Chapel Hill

Jones, Craig H. (https://experts.colorado.edu/display/fisid_105590/)
Professor: Geological Sciences
PhD, Massachusetts Institute of Technology

Jones, Eric
Associate Professor: Anthropology
PhD, Pennsylvnia State University

Jones, Kevin Robert (https://experts.colorado.edu/display/fisid_102094/)
Associate Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of California, Berkeley

Jones, Matthew (https://experts.colorado.edu/display/fisid_144611/)
Professor: Psychology and Neuroscience
PhD, University of Michigan Ann Arbor

Jones, Stephen B. (https://experts.colorado.edu/display/fisid_101578/)
Assistant Dean: College of Media, Communication & Information; Assistant Dean, Senior Instructor Emeritus: Journalism
PhD, University of Utah

Jones, Stephen Graham (https://experts.colorado.edu/display/fisid_146498/)
Distinguished Professor: English
PhD, Florida State University

Jorde, Christopher
Teaching Assistant Professor: Political Science
PhD, University of Colorado Boulder

Joyce, Arthur A. (https://experts.colorado.edu/display/fisid_115421/)
Professor: Anthropology
PhD, Rutgers University–New Brunswick

Judd, Charles M.
Distinguished Professor Emeritus: Psychology and Neuroscience

Juhasz, Joseph
Professor Emeritus: Environmental Design

Junge, Harald Jobst
Assistant Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Philipps-Universität Marburg (Germany)

Jupille, Joseph H. (https://experts.colorado.edu/display/fisid_140088/)
Professor: Political Science; Faculty Director: Academic Affairs; Faculty Director: Graduate School
PhD, University of Washington

Jurow, Aachey Susan (https://experts.colorado.edu/display/fisid_129478/)
Professor, Associate Dean: School of Education
PhD, University of California, Berkeley

K

Kadia, Miriam L. Kingsberg (https://experts.colorado.edu/display/fisid_147112/)
Professor: History
PhD, University of California, Berkeley

Kaempher, William H.
Professor Emeritus: Economics

Kaffine, Daniel Thomas (https://experts.colorado.edu/display/fisid_153280/)
Professor: Economics
PhD, University of California, Santa Barbara

Kaiser, Roselinde H. (https://experts.colorado.edu/display/fisid_164070/)
Associate Professor: Psychology and Neuroscience
PhD, University of Colorado Boulder

Kaki, Gowtham (https://experts.colorado.edu/individual/fisid_167225/)
Assistant Professor: Computer Science
PhD, Purdue University

Kalisman, Hilary Falb (https://experts.colorado.edu/display/fisid_164096/)
Endowed/Named Professor: Jewish Studies; Assistant Professor: History
PhD, University of California, Berkeley

Kalwara, James (https://experts.colorado.edu/display/fisid_158919/)
Librarian: School of Law
MLS, Indiana University Bloomington

Kamal, Azza (https://experts.colorado.edu/display/fisid_174957/)
Teaching Associate Professor: Environmental Design
PhD, Cairo University (Egypt)

Kaminski, Margot E. (https://experts.colorado.edu/display/fisid_159595/)
Associate Professor, Faculty Director: School of Law
JD, Yale University

Kan, Pui Fong (https://experts.colorado.edu/display/fisid_145806/)
Professor: Speech, Language and Hearing Sciences (SLHS)
PhD, University of Minnesota Twin Cities

Kandra Hughes, Kelly
Teaching Assistant Professor: Psychology and Neuroscience
PhD, University of North Carolina at Chapel Hill

Kane, Nolan Coburn (https://experts.colorado.edu/display/fisid_151238/)
Associate Professor: Ecology and Evolutionary Biology
PhD, Indiana University Bloomington

Kanner, Michael David
Lecturer: Global RAP
PhD, University of Colorado Boulder

Kantha, Lakshmi H. (https://experts.colorado.edu/display/fisid_100231/)
Professor Emeritus: Aerospace Engineering Sciences
PhD, Massachusetts Institute of Technology

Kaplan, Frank L.
Professor Emeritus: Journalism

Kapteyn, Henry C. (https://experts.colorado.edu/display/fisid_115334/)
Professor: Physics; Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of California, Berkeley

Karimzadeh, Morteza (https://experts.colorado.edu/display/fisid_166081/)
Assistant Professor: Geography; Assistant Professor: Computer Science
PhD, Pennsylvania State University

Karnauskas, Kristopher Benson (https://experts.colorado.edu/display/fisid_155094/)
Associate Professor, Associate Professor: Cooperative Institute for Research in Environmental Sciences (CIRES); Associate Chair: Atmospheric and Oceanic Sciences (ATOC)
PhD, University of Maryland, College Park

Kaschube, Dorothea V.
Professor Emerita: Anthropology

Kasprzyk, Joseph R. (https://experts.colorado.edu/display/fisid_151506/)
Associate Professor, Associate Chair: Civil, Environmental and Architectural Engineering; Assistant Professor: Environmental Engineering Program (EVEN)
PhD, Pennsylvania State University

Kassianidou, Marina (https://experts.colorado.edu/display/fisid_157948/)
Assistant Professor: Art and Art History
PhD, Chelsea College of Arts (UK)

Kassoy, David R.
Professor Emeritus: Mechanical Engineering

Katz, Tami
Lecturer: Engineering Management Program
PhD, Colorado State University

Kaufman, Adam Micah (https://experts.colorado.edu/display/fisid_159513/)
Associate Professor Adjoint: Physics
PhD, University of Colorado Boulder

Kaufman, Dan (https://experts.colorado.edu/display/fisid_134174/)
Associate Professor: Philosophy
PhD, University of Massachusetts at Amherst

Kaufmann, Vyga G. (https://experts.colorado.edu/display/fisid_151089/)
Teaching Assistant Professor: Psychology and Neuroscience
PhD, University of Colorado Boulder

Kawakami, Kiyomi (https://experts.colorado.edu/display/fisid_163648/)
Teaching Assistant Professor: Asian Languages and Civilizations
MA, University of Wisconsin–Madison

Kay, Jennifer E. (https://experts.colorado.edu/display/fisid_153815/)
Associate Professor: Atmospheric and Oceanic Sciences (ATOC); Associate Professor: Cooperative Institute for Research in Environmental Sciences (CIRES)
PhD, University of Washington

Kay, Melanie
Instructor, Director for Daniels Fund Ethics Initiative: School of Law
JD, University of California, Berkeley

Kazachenko, Maria (https://experts.colorado.edu/display/fisid_160195/)
Associate Professor: Astrophysical and Planetary Sciences (APS); Assistant Professor: Laboratory for Atmospheric and Space Physics (LASP)
PhD, Montana State University

Kazmerski, Lawrence L. (https://experts.colorado.edu/display/fisid_156759/)
Professor Adjoint: Renewable & Sustainable Energy Institute (RASEI)

Kearnes, Keith (https://experts.colorado.edu/display/fisid_118457/)
Professor: Mathematics
PhD, University of California, Berkeley

Kearns, William
Professor Emeritus: Music

Keegan, Brian (https://experts.colorado.edu/display/fisid_158122/)
Assistant Professor: Information Science; Assistant Professor: Computer Science
PhD, Northwestern University

Keen, Richard A.
Instructor Emeritus: Atmospheric and Oceanic Sciences (ATOC)

Keister, Jay (https://experts.colorado.edu/display/fisid_115734/)
Associate Professor: Music
PhD, University of California, Los Angeles

Keller, Cynthia (https://experts.colorado.edu/display/fisid_159112/)
Teaching Associate Professor: University Libraries
MLS, Indiana University

Keller, Eric Robert (https://experts.colorado.edu/display/fisid_151647/)
Associate Professor: Electrical, Computer and Energy Engineering (ECEE); Associate Professor: Computer Science
PhD, Princeton University

Keller, John M. (https://experts.colorado.edu/display/fisid_163223/)
Senior Instructor: Astrophysical and Planetary Sciences (APS)
PhD, University of Arizona

Keller, Matthew C. (https://experts.colorado.edu/display/fisid_144507/)
Professor: Psychology and Neuroscience; Professor: Institute for Behavioral Genetics (IBG)
PhD, University of Michigan Ann Arbor

Keller, Wolfgang (https://experts.colorado.edu/display/fisid_141891/)
Professor: Economics
PhD, Yale University

Kelley, Rebecca
Captain, Assistant Professor: Army ROTC
MA, Purdue University

Kelly, Caitlin (https://experts.colorado.edu/display/fisid_155528/)
Instructor: Ecology and Evolutionary Biology; Instructor: Continuing Education & Professional Studies
PhD, University of Colorado Boulder

Kelly, Christine
Instructor Emeritus: Chemistry

Kelsey, Penelope M. (https://experts.colorado.edu/display/fisid_147607/)
Faculty Director: Native American and Indigenous Studies
PhD, University of Minnesota Twin Cities

Kelsie, Amber (https://experts.colorado.edu/display/fisid_171455/)
Assistant Professor: Communication
PhD, University of Pittsburgh

Kempf, Sascha (https://experts.colorado.edu/display/fisid_149628/)
Associate Professor: Laboratory for Atmospheric and Space Physics (LASP); Associate Professor: Physics
Dr habil, Technische Universität Braunschweig (Germany)

Kennedy, Heather (https://experts.colorado.edu/display/fisid_157932/)
Instructor, Scholar in Residence: Leeds School of Business
MA, University of Texas at Austin

Kennedy, John
Assistant Professor: Spanish and Portuguese
PhD, Cornell University

Kent, Susan K. (https://experts.colorado.edu/display/fisid_100080/)
Professor Emerita: History
PhD, Brandeis University

Keplinger, Christoph M.
Assistant Professor: Materials Science & Engineering
PhD, Johannes Kepler Universität Linz (Austria)

Ketels, Shaw L. (https://experts.colorado.edu/display/fisid_153682/)
Lecturer: Continuing Education & Professional Studies

Keyvani, Ehsan
Teaching Assistant Professor: Chemical and Biological Engineering
PhD, Northeastern University

Keziah, Brandon W.
Gunnery Sergeant, Assistant Instructor: Navy ROTC

Khan, Alia (https://experts.colorado.edu/display/fisid_158495/)
Associate Professor: Aerospace Engineering Sciences
PhD, University of Colorado Boulder

Khanal, Akhil
Instructor: Biochemistry
PhD, University of Delaware

Khedekar, Deepti (https://experts.colorado.edu/display/fisid_174027/)
Assistant Teaching Professor: Advertising, Public Relations and Media Design
PhD, University of Colorado Boulder

Khoshsokhan, Sina (https://experts.colorado.edu/display/fisid_167155/)
Assistant Professor: Leeds School of Business
PhD, Boston University

Khosla, Pooja (https://experts.colorado.edu/display/fisid_158916/)
Instructor: Sewall RAP
PhD, University of Colorado Boulder

Kiernan-Johnson, Derek Huntley (https://experts.colorado.edu/display/fisid_145008/)
Legal Writing Professor, Senior Instructor: School of Law
JD, University of Michigan Ann Arbor

Kilbane, Aimee (https://experts.colorado.edu/display/fisid_153823/)
Assistant Teaching Professor: French & Italian
PhD, University of California, Santa Barbara

Kilimnik, Chelsea (https://experts.colorado.edu/display/fisid_169111/)
Assistant Professor: Psychology and Neuroscience
PhD, University of Texas at Austin

Kilpatrick, Zachary Peter (https://experts.colorado.edu/display/fisid_155782/)
Associate Professor: Applied Mathematics
PhD, University of Utah

Kim, Albert E. (https://experts.colorado.edu/display/fisid_143740/)
Associate Professor: Institute of Cognitive Science (ICS); Associate Professor: Psychology and Neuroscience
PhD, University of Pennsylvania

Kim, Hun Shik (https://experts.colorado.edu/display/fisid_141126/)
Associate Professor: Journalism
PhD, University of Missouri–Columbia

Kim, Jin-Hyuk (https://experts.colorado.edu/display/fisid_149615/)
Associate Professor: Economics
PhD, Cornell University

Kim, Kwangmin (https://experts.colorado.edu/display/fisid_147160/)
Associate Professor: History
PhD, University of California, Berkeley

Kim, Sangbok (https://experts.colorado.edu/display/fisid_149220/)
Teaching Professor: Asian Languages and Civilizations
PhD, University of California, Los Angeles

Kim, Sewan (https://experts.colorado.edu/display/fisid_174402/)
Assistant Teaching Professor: Integrative Physiology
PhD, University of Colorado Boulder

Kim, Suyeon (https://experts.colorado.edu/display/fisid_153470/)
Instructor: Music
DMA, University of Texas at Austin

Kim, WooJim
Assistant Professor: Advertising, Public Relations and Media Design
PhD, University of Illinois at Urbana-Champaign

Kimball, Miles (https://experts.colorado.edu/display/fisid_157993/)
Professor: Economics
PhD, Harvard University

Kimbrough, Randle Keller (https://experts.colorado.edu/display/fisid_141167/)
Professor, Chair: Asian Languages and Civilizations
PhD, Yale University

King, D. Brett (https://experts.colorado.edu/display/fisid_103815/)
Teaching Professor of Distinction: Psychology and Neuroscience; Lecturer: Continuing Education & Professional Studies; Lecturer: Farrand RAP
PhD, Colorado State University

King, Joy K.
Associate Professor Emerita: Classics

King, Roger A.
Professor Emeritus: Computer Science

King, William M.
Professor Emeritus: Ethnic Studies

Kinney, Edward R. (https://experts.colorado.edu/display/fisid_101717/)
Professor: Physics
PhD, Massachusetts Institute of Technology

Kintsch, Walter
Professor Emeritus: Psychology and Neuroscience

Kirschling, Wayne (https://experts.colorado.edu/display/fisid_123149/)
Professor Emeritus: Engineering Management Program
DBA, University of Colorado Boulder

Kirshner, Benjamin R. (https://experts.colorado.edu/display/fisid_134707/)
Professor: School of Education
PhD, Stanford University

Kish, Jonathan (https://experts.colorado.edu/individual/fisid_153629/)
Assistant Teaching Professor: Applied Mathematics
PhD, University of Colorado Boulder

Kissler, Stephen
Assistant Professor: Computer Science
PhD, University of Cambridge

Kitching, John
Lecturer: Physics
PhD, California Institute of Techology

Kittel, Timothy (https://experts.colorado.edu/display/fisid_139473/)
Faculty Director: International Education

Kjolseth, J. Rolf
Professor Emeritus: Sociology

Klages, Mary K. (https://experts.colorado.edu/display/fisid_101897/)
Associate Professor: English
PhD, Stanford University

Klaus, David M. (https://experts.colorado.edu/display/fisid_107103/)
Professor Emeritus: Aerospace Engineering Sciences
PhD, University of Colorado Boulder

Kleeman, Faye Yuan (https://experts.colorado.edu/display/fisid_113313/)
Professor Emeritus: Asian Languages and Civilizations
PhD, University of California, Berkeley

Kleeman, Terry F. (https://experts.colorado.edu/display/fisid_114181/)
Professor Emeritus: Asian Languages and Civilizations; Professor: Religious Studies
PhD, University of California, Berkeley

Klees, Rita C. (https://experts.colorado.edu/display/fisid_145391/)
Associate Faculty Director, Scholar in Residence: Civil, Environmental and Architectural Engineering; Scholar in Residence: Environmental Engineering Program (EVEN)
PhD, University of Colorado

Kleiber, Holly (https://experts.colorado.edu/display/fisid_164035/)
Clinical Assistant Professor: Speech, Language and Hearing Sciences (SLHS)
MS, University of Washington

Kleiber, William Paul (https://experts.colorado.edu/display/fisid_151943/)
Associate Professor: Applied Mathematics
PhD, University of Washington

Klein, Jennifer Lynn (https://experts.colorado.edu/display/fisid_158332/)
Instructor: Economics; Instructor: Global RAP
PhD, University of California, Santa Barbara

Kline, Bruce Richard
Faculty Director: International Education
MA, Northwestern University

Klinger, Eric O. (https://experts.colorado.edu/display/fisid_139359/)
Faculty Director, Senior Instructor: Undergraduate Education
MA, New Mexico State University

Klymkowsky, Michael W. (https://experts.colorado.edu/display/fisid_101226/)
Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, California Institute of Technology

Knappe, Svenja A. (https://experts.colorado.edu/display/fisid_139588/)
Associate Research Professor: Mechanical Engineering
PhD, Rheinische Friedrich-Wilhelms-Universität (Germany)

Knight, Daniel
Associate Research Professor: Mechanical Engineering
PhD, University of Tennessee

Knight, Erik (https://experts.colorado.edu/individual/fisid_167412/)
Assistant Professor: Psychology and Neuroscience
PhD, University of Oregon

Knight, Jennifer Kirsten (https://experts.colorado.edu/display/fisid_101933/)
Associate Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of Michigan Ann Arbor

Knight, Tara (https://experts.colorado.edu/display/fisid_158318/)
Associate Professor: Critical Media Practices
MFA, University of California, San Diego

Knill, Emanuel
Lecturer: Physics
PhD, University of Colorado Boulder

Knipp, Delores Jane (https://experts.colorado.edu/display/fisid_147655/)
Research Professor: Aerospace Engineering Sciences
PhD, University of California, Los Angeles

Knowlton, Ginger (https://experts.colorado.edu/display/fisid_112458/)
Associate Teaching Professor: Program for Writing and Rhetoric
PhD, University of Denver

Knox, David Allen (https://experts.colorado.edu/display/fisid_158054/)
Assistant Teaching Professor: Computer Science
PhD, University of Colorado Health Sciences Center

Knudsen, Erik (https://experts.colorado.edu/display/fisid_172046/)
Associate Teaching Professor: Aerospace Engineering Sciences
PhD, University of Florida

Knuth, Shelley (https://experts.colorado.edu/display/fisid_147168/)
Assistant Professor Adjoint: University Libraries

Knutsen, Jeffrey S. (https://experts.colorado.edu/display/fisid_145534/)
Associate Teaching Professor: Mechanical Engineering
PhD, University of Colorado Boulder

Knutson, Joel P.
Major, Assistant Professor: Army ROTC
BA, Pacific Lutheran University

Ko, Hon-Yim
Professor Emeritus: Civil, Environmental and Architectural Engineering

Koberg, Christine S.
Associate Professor Emerita: Leeds School of Business

Koc, Ozlem (https://experts.colorado.edu/display/fisid_158324/)
Instructor: Leeds School of Business
PhD, Georgia State University

Koch, Jeremy (https://experts.colorado.edu/display/fisid_166589/)
Assistant Teaching Professor: Mechanical Engineering
PhD, University of Illinois

Koch, Tad H.
Professor Emeritus: Chemistry
PhD, Iowa State University

Kocher, Ruth Ellen (https://experts.colorado.edu/display/fisid_143618/)
Distinguished Professor: English; Professor: College of Arts and Sciences
PhD, Arizona State University

Kociolek, John Patrick (https://experts.colorado.edu/display/fisid_145728/)
Faculty Director, Professor: Museum and Field Studies; Professor: Ecology and Evolutionary Biology
PhD, University of Michigan

Kodish, Tamar
Assistant Professor: Psychology and Neuroscience
PhD, University of California Los Angeles

Kohlmeier, Carolyn (https://experts.colorado.edu/individual/fisid_158386/)
Teaching Associate Professor: Chemical and Biological Engineering
PhD, University of Colorado Boulder

Kolb, Burton A.
Professor Emeritus: Leeds School of Business

Kopeikin, Zak (https://experts.colorado.edu/display/fisid_167727/)
Assistant Teaching Professor: Philosophy
PhD, University of Colorado Boulder

Kopf, Sebastian H. (https://experts.colorado.edu/display/fisid_155295/)
Assistant Professor: Geological Sciences
PhD, California Institute of Technology

Korak, Julie A. (https://experts.colorado.edu/display/fisid_155070/)
Assistant Professor: Civil, Environmental and Architectural Engineering; Assistant Professor: Environmental Engineering Program (EVEN)
PhD, University of Colorado Boulder

Korbelik, Jennifer (https://experts.colorado.edu/display/fisid_165078/)
Assistant Teaching Professor: School of Education
MA, University of Denver

Korevaar, David J. (https://experts.colorado.edu/display/fisid_118374/)
Distinguished Professor: Music
DMA, The Juilliard School

Kornish, Laura Joyce (https://experts.colorado.edu/display/fisid_139966/)
Professor, Associate Dean: Leeds School of Business
PhD, Stanford University

Koschmann, Matthew A. (https://experts.colorado.edu/display/fisid_145807/)
Associate Professor: Communication; Associate Professor: Continuing Education & Professional Studies
PhD, University of Texas at Austin

Kosmenko, Kimberly
Instructor: Graduate School
MBA, University of Denver

Köster, Isabel (https://experts.colorado.edu/display/fisid_157946/)
Assistant Professor: Classics
PhD, Harvard University

Koster, Jean N.
Professor Emeritus: Aerospace Engineering Sciences
PhD, Karlsruher Institut für Technologie (Germany)

Kostoglodova, Elena Yurievna (https://experts.colorado.edu/display/fisid_100976/)
Teaching Associate Professor Emerita : Germanic and Slavic Languages and Literatures
PhD, University of Colorado Boulder

Kotys-Schwartz, Daria (https://experts.colorado.edu/display/fisid_144738/)
Teaching Professor: Mechanical Engineering; Faculty Director: College of Engineering and Applied Science
PhD, University of Colorado Boulder

Koval, Carl A.
Professor Emeritus: Chemistry
PhD, California Institute of Technology

Kowalchuk, Andrea (https://experts.colorado.edu/display/fisid_154509/)
Teaching Associate Professor: Engineering, Ethics & Society
PhD, University of Dallas

Kowalski, Adam (https://www.colorado.edu/aps/adam-kowalski/)
Associate Professor: Astrophysical and Planetary Sciences (APS); Assistant Professor: Laboratory for Atmospheric and Space Physics (LASP)
PhD, University of Washington

Kozar, Kenneth A.
Professor Emeritus: Leeds School of Business

Krakoff, Sarah A. (https://experts.colorado.edu/display/fisid_109697/)
Professor, Endowed/Named Professor: School of Law
JD, University of California, Berkeley

Kralj, Joel M.
Assistant Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Boston University

Kram, Rodger (https://experts.colorado.edu/display/fisid_118476/)
Associate Professor Emeritus: Integrative Physiology
Ph.D. , Harvard University

Kramer, Amy
Lecturer: Engineering Management Program
JD, University of Colorado Boulder

Krantz, William
Professor Emeritus: Chemical and Biological Engineering

Krarti, Moncef (https://experts.colorado.edu/display/fisid_104154/)
Professor: Civil, Environmental and Architectural Engineering
PhD, University of Colorado Boulder

Kratzke, Peter J. (https://experts.colorado.edu/display/fisid_126546/)
Associate Teaching Professor Emeritus: Program for Writing and Rhetoric; Senior Instructor: Continuing Education & Professional Studies
PhD, University of Kentucky

Krauel, Javier (https://experts.colorado.edu/display/fisid_143248/)
Associate Professor: Spanish and Portuguese; Associate Professor: Humanities; Faculty Director: International Education
PhD, Duke University

Krauter, Kenneth S. (https://experts.colorado.edu/display/fisid_107978/)
Professor, Associate Chair: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Yeshiva University

Krishnamurthy, Vivek (https://experts.colorado.edu/display/fisid_174200/)
Associate Professor: School of Law
JD, Yale University

Krizek, Kevin J. (https://experts.colorado.edu/display/fisid_145292/)
Professor: Environmental Design
PhD, University of Washington

Kroll, Paul W.
Professor Emeritus: Asian Languages and Civilizations

Krutz, Glen
Dean: College of Arts and Sciences; Professor: Political Science
, Texas AM University

Krywicki, Jarad (https://experts.colorado.edu/display/fisid_164243/)
Assistant Teaching Professor: Program for Writing and Rhetoric
PhD, University of Colorado Boulder

Kubitschek, Daniel (https://experts.colorado.edu/display/fisid_144283/)
Professional Research Assistant: Laboratory for Atmospheric and Space Physics (LASP)
PhD, University of Colorado Boulder

Kuchenrither, Richard D.
Scholar in Residence: Environmental Engineering Program (EVEN); Faculty Director: College of Engineering and Applied Science
PhD, University of Colorado Boulder

Kuchta, Robert (https://experts.colorado.edu/display/fisid_100844/)
Professor: Biochemistry
PhD, Brandeis University

Kuempel, Peter L.
Professor Emeritus: Molecular, Cellular & Developmental Biology (MCDB)

Kuester, Edward F.
Professor Emeritus: Electrical, Computer and Energy Engineering (ECEE)

Kugel, Jennifer F. (https://experts.colorado.edu/display/fisid_109472/)
Research Professor: Biochemistry
PhD, University of Colorado Boulder

Kuglitsch, Rebecca Zuege (https://experts.colorado.edu/display/fisid_152452/)
Associate Professor: University Libraries
MLS, University of Washington

Kuhn, Tim (https://experts.colorado.edu/display/fisid_118144/)
Professor: Communication
PhD, Arizona State University

Kunce, Catherine (https://experts.colorado.edu/display/fisid_120631/)
Associate Teaching Professor: Program for Writing and Rhetoric; Senior Instructor: Farrand RAP
PhD, University of Denver

Kunkel, Jerry W.
Professor Emeritus: Art and Art History

Kunz, P. Dale
Professor Emeritus: Physics
PhD, University of Washington

Kurnick, Sarah (https://experts.colorado.edu/display/fisid_155915/)
Associate Professor: Anthropology
PhD, University of Pennsylvania

Kuskin, William (https://experts.colorado.edu/display/fisid_143742/)
Chair, Professor: English; Associate Dean: College of Engineering and Applied Science
PhD, University of Wisconsin–Madison

Kuznetsov, Sergei Eugenievitch (https://experts.colorado.edu/display/fisid_113246/)
Associate Professor, Associate Chair: Mathematics
DSc, Vilnius State University (Lithuania)

Kwaramba, Marcia (https://experts.colorado.edu/display/fisid_164299/)
Scholar in Residence: Leeds School of Business
PhD, Monash University (Australia)

L

Labbe, Nicole J. (https://experts.colorado.edu/display/fisid_157742/)
Assistant Professor: Mechanical Engineering
PhD, University of Massachusetts, Amherst

Labio, Catherine (https://experts.colorado.edu/display/fisid_147608/)
Associate Professor: English
PhD, New York University

Labrecque, Joseph (https://experts.colorado.edu/display/fisid_165806/)
Assistant Teaching Professor: Advertising, Public Relations and Media Design
MA, University of Denver

Lacerenza, Christina Noelle (https://experts.colorado.edu/display/fisid_159797/)
Assistant Professor: Leeds School of Business
PhD, Rice University

Lack, Jonathan
Scholar in Residence: Cinema Studies & Moving Image Arts
PhD, University of Iowa

Laguna, Manuel (https://experts.colorado.edu/display/fisid_102975/)
Professor, Faculty Director, Endowed/Named Professor: Leeds School of Business; Faculty Director: Office of the Chancellor
PhD, University of Texas at Austin

Lahijanian, Morteza Mehdi (https://experts.colorado.edu/display/fisid_164179/)
Assistant Professor: Aerospace Engineering Sciences; Assistant Professor: Computer Science
PhD, Boston University

Lambert, Joanna E. (https://experts.colorado.edu/display/fisid_156206/)
Professor: Environmental Studies Program
PhD, University of Illinois at Urbana–Champaign

Lamos, Steven Joseph (https://experts.colorado.edu/display/fisid_141169/)
Associate Professor, Faculty Director: Program for Writing and Rhetoric; Associate Professor: English
PhD, University of Illinois at Urbana–Champaign

Landgrave, Michelangelo
Assistant Professor: Political Science

Lange, Anja K. (https://experts.colorado.edu/display/fisid_104576/)
Faculty Director: International Education; Teaching Professor, Faculty Director: Engineering, Ethics & Society
PhD, University of Colorado Boulder

Lange, Rebecca
Colonel, Chair, Professor: Air Force ROTC
MPA, University of Oklahoma

Lansford, Edwin Tyler (https://experts.colorado.edu/display/fisid_147620/)
Senior Instructor: Classics
PhD, University of Washington

Larremore, Daniel B. (https://experts.colorado.edu/display/fisid_159893/)
Assistant Professor: Computer Science
PhD, University of Colorado Boulder

Larsen, Kai Rune (https://experts.colorado.edu/display/fisid_118160/)
Associate Professor, Faculty Director: Leeds School of Business
PhD, SUNY at Albany

Larson, Christine M. (https://experts.colorado.edu/display/fisid_159789/)
Assistant Professor: Journalism
PhD, Stanford University

Larson, Kristine M.
Professor Emerita: Aerospace Engineering Sciences
PhD, Scripps Institution of Oceanography

Lasser, Gregor (https://experts.colorado.edu/display/fisid_156178/)
Assistant Research Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, Technische Universität Wien (Austria)

Laurenzo, Tomas (https://experts.colorado.edu/display/fisid_168230/)
Associate Professor: Critical Media Practices
PhD, Universidad De La Republica (Uruguay)

Laurion, Henry R. (https://experts.colorado.edu/display/fisid_163642/)
Assistant Professor: Leeds School of Business
PhD, University of California, Berkeley

Law, Judith (https://experts.colorado.edu/individual/fisid_167501/)
Assistant Teaching Professor: Applied Mathematics
PhD, The University of Maryland, College Park

Lawrence, Dale A. (https://experts.colorado.edu/display/fisid_104057/)
Professor Emeritus: Aerospace Engineering Sciences; Faculty Director: Research & Engineering Ctr for Unmanned Vehicles (RECUV)
PhD, Cornell University

Lawrence, Stephen R. (https://experts.colorado.edu/display/fisid_102032/)
Associate Professor: Leeds School of Business
PhD, Carnegie Mellon University

Lawrence-Sanders, Ashleigh (https://experts.colorado.edu/display/fisid_169099/)
Assistant Professor: History
PhD, Rutgers University

Lawson, Angelica Marie (https://experts.colorado.edu/display/fisid_154727/)
Assistant Professor: Ethnic Studies; Assistant Professor: Cinema Studies & Moving Image Arts; Faculty Director: Native American and Indigenous Studies
PhD, University of Arizona

Lawson, Duane W.
Lieutenant, Assistant Professor: Army ROTC
BS, University of Florida

Layer, Ryan M. (https://experts.colorado.edu/display/fisid_163567/)
Assistant Professor: Biomedical Engineering; Assistant Professor: Computer Science
PhD, University of Virginia

Le, Hanh-Phuc
Assistant Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of California, Berkeley

Le Moine, Alexandra (https://experts.colorado.edu/display/fisid_168419/)
Assistant Teaching Professor: Aerospace Engineering Sciences
MS, University of Wisconsin

Leach, Chris (https://experts.colorado.edu/display/fisid_105152/)
Professor, Endowed/Named Professor: Leeds School of Business
PhD, Cornell University

League, Dustin R.
Lieutenant, Assistant Professor: Army ROTC
BS, University of Kansas

Leben, Robert R.
Research Professor Emeritus: Aerospace Engineering Sciences
PhD, University of Colorado Boulder

Lee, Jintae (https://experts.colorado.edu/display/fisid_115390/)
Associate Professor Emeritus: Leeds School of Business
PhD, Massachusetts Institute of Technology

Lee, Mi-Kyoung (https://experts.colorado.edu/display/fisid_141821/)
Associate Professor: Philosophy; Associate Professor: Classics
PhD, Harvard University

Lee, Minhyea (https://experts.colorado.edu/display/fisid_145209/)
Associate Professor: Physics; Assistant Professor: Materials Science & Engineering
PhD, University of Chicago

Lee, Rachel (https://experts.colorado.edu/display/fisid_142183/)
Teaching Associate Professor: Environmental Design
MArch, Tulane University

Lee, Sangwook
Assistant Professor: Advertising, Public Relations and Media Design
PhD, Pennsylvania State University

Lee, Sehee (https://experts.colorado.edu/display/fisid_144739/)
Professor: Mechanical Engineering; Professor: Materials Science & Engineering
PhD, Seoul National University (South Korea)

Lee, Seow Ting (https://experts.colorado.edu/display/fisid_157994/)
Professor: Advertising, Public Relations and Media Design
PhD, University of Missouri–Columbia

Lee, Yung-Cheng (https://experts.colorado.edu/display/fisid_103170/)
Professor Emeritus: Mechanical Engineering; Endowed/Named Professor: College of Engineering and Applied Science

Leeker, Eric
Lecturer: Engineering Management Program
MBA, Purdue University

Leeker, Jessica Rush (https://experts.colorado.edu/display/fisid_167166/)
Instructor Adjunct: Engineering Management Program
PhD, Purdue University

Lehman, Tamara (https://experts.colorado.edu/display/fisid_165649/)
Assistant Professor: Electrical, Computer and Energy Engineering (ECEE); Assistant Professor: Computer Science
PhD, Duke University

Lehnert, Doris Pridonoff
Professor Emerita: Music

Lehnert, Konrad W. (https://experts.colorado.edu/display/fisid_139785/)
Professor Adjoint: Physics
PhD, University of California at Santa Barbara

Lehnert, Oswald
Professor Emeritus: Music

Leibfried, Dietrich
Lecturer: Physics
PhD, Max-Planck Institute for Quantum Optics (Germany)

Leigh, Steven Robert (https://experts.colorado.edu/display/fisid_151706/)
Dean: College of Arts and Sciences; Professor: Anthropology
PhD, Northwestern University

Leinwand, Leslie Anne (https://experts.colorado.edu/display/fisid_107104/)
Distinguished Professor, Faculty Director: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Yale University

Lekson, Steve
Professor Emeritus: Anthropology

Lemone, Margaret Anne
Professor Adjoint: Atmospheric and Oceanic Sciences (ATOC)

Leonardi, Bethy (https://experts.colorado.edu/display/fisid_151475/)
Associate Professor: School of Education
PhD, University of Colorado Boulder

Leong, Daphne (https://experts.colorado.edu/display/fisid_115747/)
Professor: Music
PhD, University of Rochester

Leslie, Grace (https://experts.colorado.edu/display/fisid_172297/)
Assistant Professor: ATLAS Institute; Assistant Professor: Creative Technology & Design
PhD, University of California San Diego

Lessley, Merrill J.
Professor Emeritus: Theatre and Dance

Lester, Alan P. (https://experts.colorado.edu/display/fisid_105385/)
Associate Professor, Lecturer: Continuing Education & Professional Studies
PhD, University of Colorado Boulder

Levine, Judah (https://experts.colorado.edu/display/fisid_100654/)
Professor Adjoint: Physics
PhD, New York University

Lewandowski, Heather Jean (https://experts.colorado.edu/display/fisid_111815/)
Professor, Associate Chair: Physics; Professor: JILA
PhD, University of Colorado Boulder

Lewis, Abbey (https://experts.colorado.edu/display/fisid_159174/)
Teaching Associate Professor: University Libraries
MLIS, Catholic University of America

Lewis, Barry L.
Professor Emeritus: Leeds School of Business

Lewis, Clayton H. (https://experts.colorado.edu/display/fisid_100307/)
Professor Emeritus: Computer Science
PhD, University of Michigan Ann Arbor

Lewis, Gary J. (https://experts.colorado.edu/display/fisid_145854/)
Professor: Music
MM, Texas Tech University

Lewis, Mary Beth (https://experts.colorado.edu/display/fisid_153829/)
Senior Instructor Emerita: Leeds School of Business
MBA, University of Pittsburgh

Lewis, Ryan C. (https://experts.colorado.edu/display/fisid_157865/)
Assistant Professor: Leeds School of Business
PhD, London Business School (England)

Lewis, William M. Jr. (https://experts.colorado.edu/display/fisid_102314/)
Professor: Cooperative Institute for Research in Environmental Sciences (CIRES); Professor: Ecology and Evolutionary Biology; Professor: Center for Limnology
PhD, Indiana University Bloomington

Lewon, Jennifer (https://experts.colorado.edu/display/fisid_147362/)
Clinical Associate Professor: Speech, Language and Hearing Sciences (SLHS)
MA, Northern Arizona University

Leyk, Stefan (https://experts.colorado.edu/display/fisid_145192/)
Professor, Associate Chair: Geography; Faculty Director: Institute for Behavioral Genetics (IBG)
PhD, University of Zurich (Switzerland)

Li, Baowen
Faculty Director: College of Engineering and Applied Science
PhD, Carl von Ossietzky Universität Oldenburg (Germany)

Li, Congming
Professor Emeritus: Applied Mathematics

Li, Jianghanyang (https://experts.colorado.edu/display/fisid_169049/)
Assistant Professor: Atmospheric and Oceanic Sciences (ATOC)
PhD, Purdue University

Li, Jingchun (https://experts.colorado.edu/display/fisid_157561/)
Assistant Professor: Museum and Field Studies; Assistant Professor: Ecology and Evolutionary Biology
PhD, University of Michigan

Li, Xiang (https://experts.colorado.edu/display/fisid_145009/)
Associate Professor: University Libraries
MS, University of Michigan Ann Arbor

Li, Xinlin (https://experts.colorado.edu/display/fisid_100016/)
Professor: Laboratory for Atmospheric and Space Physics (LASP); Professor: Aerospace Engineering Sciences
PhD, Dartmouth College

Li, Yingjie (https://experts.colorado.edu/display/fisid_164322/)
Teaching Associate Professor: Asian Languages and Civilizations
PhD, University of Kansas

Lichtenstein, Donald (https://experts.colorado.edu/display/fisid_101701/)
Professor, Chair: Leeds School of Business
PhD, University of South Carolina

Liel, Abbie B. (https://experts.colorado.edu/display/fisid_146431/)
Professor: Civil, Environmental and Architectural Engineering
PhD, Stanford University

Lightner, Michael R. (https://experts.colorado.edu/display/fisid_101723/)
Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, Carnegie Mellon University

Ligon, Dan (https://experts.colorado.edu/display/fisid_158313/)
Associate Teaching Professor: Advertising, Public Relations and Media Design
MFA, Brown University

Lillydahl, Jane
Professor Emerita: Economics

Lim, Sungyun A. (https://experts.colorado.edu/display/fisid_148726/)
Associate Professor, Associate Chair: History
PhD, University of California, Berkeley

Limerick, Patricia N. (https://experts.colorado.edu/display/fisid_105459/)
Professor, Faculty Director: Center of the American West; Professor: History; Professor: Critical Media Practices
PhD, Yale University

Lin, Hsiao-Ling (https://experts.colorado.edu/display/fisid_149958/)
Instructor: Music
DMA, Northwestern University

Lindberg, Case (https://experts.colorado.edu/display/fisid_154137/)
Teaching Professor: Environmental Design
PhD, Stanford University

Linden, Karl G. (https://experts.colorado.edu/display/fisid_143747/)
Professor, Chair: Civil, Environmental and Architectural Engineering; Endowed/Named Professor, Faculty Director: College of Engineering and Applied Science; Professor: Environmental Engineering Program (EVEN)
PhD, University of California, Davis

Lindquist, Thea L. (https://experts.colorado.edu/display/fisid_122803/)
Professor, Professor: History; Faculty Director: University Libraries
PhD, University of Wisconsin–Madison

Lindsay, William (https://experts.colorado.edu/display/fisid_168224/)
Assistant Teaching Professor: School of Education
PhD, University of Colorado Boulder

Lindsey, Daniel Seneca (https://experts.colorado.edu/display/fisid_156477/)
Assistant Teaching Professor: Applied Mathematics

Lineberger, William Carl
Distinguished Professor Emeritus: Chemistry
PhD, Georgia Institute of Technology

Linhart, Yan B.
Professor Emeritus: Ecology and Evolutionary Biology

Lininger, Katherine (https://experts.colorado.edu/display/fisid_163643/)
Assistant Professor: Geography
PhD, Colorado State University

Link, Christopher D. (https://experts.colorado.edu/display/fisid_109073/)
Associate Professor: Integrative Physiology
PhD, University of Massachusetts at Amherst

Linsky, Jeffrey
Professor Emeritus: Astrophysical and Planetary Sciences (APS)

Lionberger, Erin Leigh (https://experts.colorado.edu/display/fisid_167647/)
Instructor: Leeds School of Business
MS, South Dakota State University

Liotta, Jeanne M. (https://experts.colorado.edu/display/fisid_145808/)
Associate Professor, Associate Faculty Director: Cinema Studies & Moving Image Arts; Associate Professor: Art and Art History
BFA, New York University

Lisbon, Adam Harry (https://experts.colorado.edu/display/fisid_152869/)
Associate Professor: University Libraries
MS, SUNY at Albany

Litos, Michael (https://experts.colorado.edu/display/fisid_158137/)
Assistant Professor: Physics
PhD, Boston University

Litt, Jill S. (https://experts.colorado.edu/display/fisid_140636/)
Professor: Environmental Studies Program
PhD, Johns Hopkins University

Little, Katherine C. (https://experts.colorado.edu/display/fisid_149872/)
Professor: English; Professor: History; Professor: College of Arts and Sciences
PhD, Duke University

Littlejohn, Ray Lynn
Endowed/Named Professor: College of Engineering and Applied Science
PhD, University of Oklahoma

Liu, Liu (https://experts.colorado.edu/display/fisid_163568/)
Assistant Professor: Leeds School of Business
PhD, New York University

Liu, Xiaodong (https://experts.colorado.edu/display/fisid_144508/)
Professor: Economics
PhD, The Ohio State University

Liu, Xuedong (https://experts.colorado.edu/display/fisid_118458/)
Professor: Biochemistry
PhD, University of Wisconsin–Madison

Liu, Youjian (https://experts.colorado.edu/display/fisid_126283/)
Associate Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, Ohio State University

Livneh, Ben (https://experts.colorado.edu/display/fisid_151999/)
Assistant Professor: Cooperative Institute for Research in Environmental Sciences (CIRES); Associate Professor: Civil, Environmental and Architectural Engineering; Assistant Professor: Environmental Engineering Program (EVEN)
PhD, University of Washington

Lladser, Manuel E. (https://experts.colorado.edu/display/fisid_134170/)
Associate Professor: Applied Mathematics; Associate Professor: Computer Science
PhD, The Ohio State University

Loewenstein, Mark J. (https://experts.colorado.edu/display/fisid_102088/)
Professor, Endowed/Named Professor: School of Law
JD, University of Illinois at Urbana–Champaign

Lofquist, Mark
Assistant Research Professor: Computer Science
PhD, University of Colorado Boulder

Logan, Kelty Irene (https://experts.colorado.edu/display/fisid_147340/)
Associate Professor Emerita: Advertising, Public Relations and Media Design

Lojka, Jason
Lieutenant Colonel, Chair, Professor: Army ROTC
MS, Naval Postgrad School

Long, Chris Evin (https://experts.colorado.edu/display/fisid_155455/)
Professor: University Libraries
MA, Indiana University Bloomington

Long, Daniel R. (https://experts.colorado.edu/display/fisid_149910/)
Associate Teaching Professor: Program for Writing and Rhetoric
MA, University of Colorado Boulder

Long, Mary K. (https://experts.colorado.edu/display/fisid_109994/)
Teaching Professor: Spanish and Portuguese
PhD, Princeton University

Long, Rong (https://experts.colorado.edu/display/fisid_151301/)
Associate Professor: Mechanical Engineering
PhD, Cornell University

Lopez, Enrique J. (https://experts.colorado.edu/display/fisid_151426/)
Associate Professor, Faculty Director: School of Education
PhD, Stanford University

Lopez Jimenez, Francisco (https://experts.colorado.edu/display/fisid_157867/)
Assistant Professor: Aerospace Engineering Sciences
PhD, California Institute of Technology

Lord, Kimberly E.
Lecturer: Leeds School of Business

Losoff, Barbara Ann (https://experts.colorado.edu/display/fisid_106944/)
Associate Professor Emeritus: University Libraries
MLS, Emporia State University

Louie, Donna F. (https://experts.colorado.edu/display/fisid_110827/)
Instructor: Baker RAP; Instructor: Libby Arts RAP
PhD, University of Texas Health Science Center at San Antonio

Lovejoy, Henry Barrett (https://experts.colorado.edu/display/fisid_157679/)
Associate Professor: History
PhD, University of California-Los Angeles

Lovenduski, Nicole Suzanne (https://experts.colorado.edu/display/fisid_147557/)
Associate Professor: Atmospheric and Oceanic Sciences (ATOC); Associate Professor: Institute of Arctic & Alpine Research (INSTAAR)
PhD, University of California, Los Angeles

Lowry, Christopher (https://experts.colorado.edu/display/fisid_143371/)
Professor: Integrative Physiology; Faculty Director: Research & Innovation Office
PhD, Oregon State University

Luca, Oana (https://experts.colorado.edu/display/fisid_157952/)
Assistant Professor: Chemistry
PhD, Yale University

Lucas, Andrew James (https://experts.colorado.edu/display/fisid_164180/)
Assistant Professor: Physics
PhD, Harvard University

Ludlow, Andrew
Lecturer: Physics
PhD, University of Colorado Boulder

Luh, Kyle (https://experts.colorado.edu/display/fisid_166949/)
Assistant Professor: Mathematics
PhD, Yale University

Lundell, Albert T.
Professor Emeritus: Mathematics

Lundy, Tiel Louise (https://experts.colorado.edu/display/fisid_151085/)
Senior Instructor: Libby Arts RAP
PhD, University of Denver

Lv, Qin (https://experts.colorado.edu/display/fisid_145832/)
Professor, Associate Chair: Computer Science
PhD, Princeton University

Lynch, Carol B.
Professor Emeritus: Ecology and Evolutionary Biology

Lynch, G. Robert
Professor Emeritus: Integrative Physiology

Lynch, John G. (https://experts.colorado.edu/display/fisid_147448/)
Faculty Director, Professor, Associate Dean, Endowed/Named Professor, Distinguished Professor: Leeds School of Business
PhD, University of Illinois at Chicago

Lynch, Maureen Ellen (https://experts.colorado.edu/display/fisid_163404/)
Assistant Professor: Mechanical Engineering; Assistant Professor: Biomedical Engineering
PhD, Cornell University

Lyons, Colleen Scanlan (https://experts.colorado.edu/display/fisid_148419/)
Assistant Professor Adjunct: Anthropology
PhD, University of Colorado Boulder

M

Macaluso, Gregg Richard (https://experts.colorado.edu/display/fisid_123302/)
Instructor Emeritus: Leeds School of Business
MS, University of California, Irvine

MacCurdy, Robert B. (https://experts.colorado.edu/display/fisid_163307/)
Assistant Professor: Mechanical Engineering; Assistant Professor: Computer Science; Assistant Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, Cornell University

Macdonald, Christine (https://experts.colorado.edu/display/fisid_105513/)
Associate Teaching Professor: Program for Writing and Rhetoric
PhD, University of Colorado Boulder

Macdonald, Robyn (https://experts.colorado.edu/display/fisid_165823/)
Assistant Professor: Aerospace Engineering Sciences
PhD, University of Illinois at Urbana-Champaign

Macfee, Raymond D. Jr.
Professor Emeritus: Leeds School of Business

Macias, Pamela
Assistant Teaching Professor: Speech, Language and Hearing Sciences (SLHS)
MA,

Maciszewski, Michael (https://experts.colorado.edu/display/fisid_153223/)
Instructor: Leeds School of Business
JD, University of Denver

MacLennan, Joseph E. (https://experts.colorado.edu/display/fisid_104854/)
Professor Attendant Rank, Professor: Materials Science & Engineering; Lecturer: Physics
PhD, University of Colorado Boulder

Macrae, Robert Eugene
Professor Emeritus: Mathematics

MacVarish, Brendan F.
Captain, Instructor: Navy ROTC

Madabhushi, Srikanth (https://experts.colorado.edu/individual/fisid_165826/)
Assistant Professor: Civil, Environmental and Architectural Engineering
PhD, University of Cambridge (England)

Madigan, Ann-Marie (https://experts.colorado.edu/display/fisid_158298/)
Associate Professor: Astrophysical and Planetary Sciences (APS)
PhD, Leiden University (Netherlands)

Maeda, Daryl Joji (https://experts.colorado.edu/display/fisid_141460/)
Professor: Ethnic Studies; Faculty Director: Academic Affairs; Professor: History; Dean: Undergraduate Education
PhD, University of Michigan Ann Arbor

Magnanini, Suzanne M. (https://experts.colorado.edu/display/fisid_118145/)
Associate Professor, Faculty Director: International Education; Chair: French & Italian
PhD, University of Chicago

Mah, John K. (https://experts.colorado.edu/display/fisid_164214/)
Associate Teaching Professor: Aerospace Engineering Sciences
MS, Stanford University

Mahan, Kevin H. (https://experts.colorado.edu/display/fisid_143975/)
Professor: Geological Sciences
PhD, University of Massachusetts at Amherst

Mahoney, Melissa J.
Teaching Professor: Chemical and Biological Engineering
PhD, Cornell University

Maier, Steven F.
Distinguished Professor: Psychology and Neuroscience
PhD, University of Pennsylvania

Main, Gloria L.
Professor Emerita: History

Majerfeld, Arnoldo
Professor Emeritus: Electrical, Computer and Energy Engineering (ECEE)

Maksimovic, Dragan (https://experts.colorado.edu/display/fisid_105609/)
Professor: Electrical, Computer and Energy Engineering (ECEE); Faculty Director, Endowed/Named Professor: College of Engineering and Applied Science
PhD, California Institute of Technology

Malaspina, David M. (https://experts.colorado.edu/display/fisid_148393/)
Assistant Professor: Astrophysical and Planetary Sciences (APS); Assistant Professor: Laboratory for Atmospheric and Space Physics (LASP)
PhD, University of Colorado Boulder

Malcolm, Karen L. (https://experts.colorado.edu/display/fisid_108575/)
Assistant Teaching Professor: Spanish and Portuguese
MA, University of Nebraska-Lincoln

Maldonado, Tammy A. (https://experts.colorado.edu/individual/fisid_104105/)
Assistant Teaching Professor: Integrative Physiology
PhD, University of Colorado Boulder

Malin, Jonathan (https://experts.colorado.edu/display/fisid_151714/)
Associate Professor: Music; Associate Professor: Jewish Studies
PhD, University of Chicago

Malitz, Jerome I.
Professor Emeritus: Mathematics

Maloy, Rebecca (https://experts.colorado.edu/display/fisid_125582/)
Professor, Endowed/Named Professor: Music; Faculty Director: Center for Medieval and Early Modern Studies
PhD, University of Cincinnati

Malville, J. McKim
Professor Emeritus: Astrophysical and Planetary Sciences (APS)

Manley, Kevin W. (https://experts.colorado.edu/display/fisid_142342/)
Teaching Associate Professor: Mathematics
PhD, University of Colorado Boulder

Mann, Ralph
Professor Emeritus: History

Manno, Jesse J. (https://experts.colorado.edu/display/fisid_120813/)
Senior Instructor: Theatre and Dance
BA, University of Colorado Boulder

Mansfeldt, Cresten (https://experts.colorado.edu/display/fisid_165411/)
Assistant Professor: Civil, Environmental and Architectural Engineering; Assistant Professor: Environmental Engineering Program (EVEN)
PhD, Cornell University

Mansfield, Richard (https://experts.colorado.edu/display/fisid_157743/)
Assistant Professor: Economics; Assistant Professor: Institute of Behavioral Science (IBS)
PhD, Yale University

Mansour, Nesrine
Assistant Professor: Environmental Design
PhD, Texas AM University

Manteuffel, Thomas A.
Professor Emeritus: Applied Mathematics

Mapel, David Reed
Professor Emeritus: Political Science

Marchitto, Thomas (https://experts.colorado.edu/display/fisid_128241/)
Professor: Institute of Arctic & Alpine Research (INSTAAR); Professor, Associate Chair: Geological Sciences
PhD, Massachusetts Institute of Technology

Marder Seth (https://experts.colorado.edu/display/fisid_167617/)
Professor: Chemistry; Professor: Chemical and Biological Engineering
PhD, University of Wisconsin-Madison

Margaret, Annie (https://experts.colorado.edu/display/fisid_159961/)
Associate Teaching Professor: Creative Technology & Design; Associate Teaching Professor: ATLAS Institute
PhD, Northwestern University

Marino, Alysia Diane (https://experts.colorado.edu/display/fisid_146427/)
Professor: Physics
PhD, University of California, Berkeley

Markle, Bradley R. (https://experts.colorado.edu/individual/fisid_167413/)
Assistant Professor: Geological Sciences
PhD, University of Washington

Marks, Alexia Brunet (https://experts.colorado.edu/display/fisid_147610/)
Associate Professor, Associate Dean: School of Law
PhD, Purdue University

Markusen, James R. (https://experts.colorado.edu/display/fisid_103187/)
Professor Emeritus, Distinguished Professor: Economics
PhD, Boston College

Marshak, Michael Pesek (https://experts.colorado.edu/display/fisid_156422/)
Assistant Professor: Renewable & Sustainable Energy Institute (RASEI)
PhD, Massachusetts Institute of Technology

Marshall, David B. (https://experts.colorado.edu/display/fisid_158629/)
Research Professor: Aerospace Engineering Sciences
PhD, Monash University (Australia)

Marshall, Nathan Thomas (https://experts.colorado.edu/display/fisid_156034/)
Assistant Professor: Leeds School of Business
PhD, Indiana University Bloomington

Marshall, Robert A. (https://experts.colorado.edu/display/fisid_155957/)
Associate Professor, Associate Chair: Aerospace Engineering Sciences
PhD, Stanford University

Marslett, Geoffrey C. (https://experts.colorado.edu/display/fisid_155970/)
Assistant Professor, Associate Chair: Cinema Studies & Moving Image Arts
MFA, University of Texas at Austin

Martin, Andrew (https://experts.colorado.edu/display/fisid_113238/)
Professor, Faculty Director: International Education; Faculty Director: A&S ASSETT; Chair: Ecology and Evolutionary Biology
PhD, University of Hawaii at Manoa

Martin, James H. (https://experts.colorado.edu/display/fisid_100495/)
Professor: Institute of Cognitive Science (ICS); Professor: Computer Science
PhD, University of California, Berkeley

Martin, Jennifer Mary (https://experts.colorado.edu/display/fisid_110125/)
Senior Instructor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of Washington

Paddack, Martin
Teaching Associate Professor: Environmental Design
MArch, The Catholic University of America

Martin, Wendy Lynn (https://experts.colorado.edu/display/fisid_154942/)
Teaching Associate Professor: Engineering Management Program; Endowed/Named Professor: College of Engineering and Applied Science
ME, University of Colorado Boulder

Martinez, Marayna
Assistant Professor: Political Science
PhD, Duke University

Martins-Filho, Carlos B. (https://experts.colorado.edu/display/fisid_147510/)
Professor: Economics
PhD, University of Tennessee, Knoxville

Martinsson, Per-Gunnar
Visiting Professor: Applied Mathematics

Martuscelli, Tania A. (https://experts.colorado.edu/display/fisid_148379/)
Associate Professor: Spanish and Portuguese
PhD, University of Massachusetts at Amherst

Mascarenhas, Angelo
Lecturer: Physics
PhD, University of Pittsburgh

Maskus, Keith E. (https://experts.colorado.edu/display/fisid_103414/)
Professor Emeritus, Distinguished Professor: Economics
PhD, University of Michigan Ann Arbor

Maslanik, James
Research Professor Emeritus: Aerospace Engineering Sciences

Mason, Patrick C. (https://experts.colorado.edu/display/fisid_101840/)
Professor Emeritus: Music
MM, University of Nebraska-Lincoln

Massey, Daniel
Endowed/Named Professor: College of Engineering and Applied Science; Faculty Director, Professor: Interdisciplinary Telecommunications
PhD, University of California, Los Angeles

Massey, Susan
Teaching Associate Professor: Environmental Design
MA, University of Michigan

Massey-Warren, Sarah (https://experts.colorado.edu/display/fisid_145057/)
Assistant Teaching Professor Emerita: Program for Writing and Rhetoric
PhD, University of Colorado Boulder

Masters, Ryan Kelly (https://experts.colorado.edu/display/fisid_152730/)
Associate Professor: Sociology; Associate Professor: Institute of Behavioral Science (IBS)
PhD, University of Texas at Austin

Masters, Sheldon (https://experts.colorado.edu/display/fisid_168570/)
Assistant Professor: Civil, Environmental and Architectural Engineering
PhD, Virginia Polytechnic Institute and State University

Mastronarde, David N.
Professor Attendant Rank: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of Colorado

Mathys, Peter (https://experts.colorado.edu/display/fisid_100084/)
Associate Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, ETH Zürich (Switzerland)

Matson, Zannah (https://experts.colorado.edu/display/fisid_173968/)
Assistant Professor: Environmental Design
MLA, Harvard Graduate School of Design

Matsumoto, Sarah (https://experts.colorado.edu/display/fisid_173769/)
Clinical Associate Professor: School of Law
JD, Seattle University

Matsunaga, Yumiko (https://experts.colorado.edu/display/fisid_149899/)
Teaching Professor of Distinction: Asian Languages and Civilizations
PhD, University of Wisconsin–Madison

Matsuo, Tomoko (https://experts.colorado.edu/display/fisid_145041/)
Associate Professor: Aerospace Engineering Sciences
PhD, SUNY at Stony Brook

Mattar, Karim (https://experts.colorado.edu/display/fisid_153056/)
Associate Professor: English
DPhil, Oxford Univ (England)

Matusik, Sharon Marie Frances (https://experts.colorado.edu/display/fisid_133564/)
Professor, Dean: Leeds School of Business
PhD, University of Washington

Maude, Daryl (https://experts.colorado.edu/display/fisid_175537/)
Assistant Professor: Asian Languages and Civilizations
PhD, University of California, Berkeley

Maurer, Christy (https://experts.colorado.edu/display/fisid_148831/)
Teaching Associate Professor: Communication
PhD, University of Colorado Boulder

Maute, Kurt (https://experts.colorado.edu/display/fisid_113875/)
Professor, Associate Dean, Professor: Materials Science & Engineering; Faculty Director: College of Engineering and Applied Science; Endowed/Named Professor: Aerospace Engineering Sciences
PhD, University of Stuttgart (Germany)

Maxwell, Christopher (https://experts.colorado.edu/display/fisid_164956/)
Instructor: Leeds School of Business
BS, Colorado State University

Mayer, Stephanie Susan (https://experts.colorado.edu/display/fisid_114948/)
Senior Instructor: Ecology and Evolutionary Biology
PhD, University of California, Berkeley

Mayer, Thomas
Professor Emeritus: Sociology

Mayr, Peter (https://experts.colorado.edu/display/fisid_155858/)
Associate Professor: Mathematics
PhD, Johannes Kepler Universität Linz (Austria)

Mazzeo, Robert (https://experts.colorado.edu/display/fisid_101031/)
Associate Professor Emeritus: Integrative Physiology
PhD, University of California, Berkeley

McAdam, Andrew Graham (https://experts.colorado.edu/display/fisid_166624/)
Associate Professor: Ecology and Evolutionary Biology
PhD, University of Alberta (Canada)

McAuliffe, Rik
Lecturer: Electrical, Computer and Energy Engineering (ECEE)

McCabe, J Terrence
Professor: Anthropology; Professor: Institute of Behavioral Science (IBS)
PhD, SUNY at Binghamton

McCain, Christy (https://experts.colorado.edu/display/fisid_145010/)
Associate Professor: Museum and Field Studies; Associate Professor: Ecology and Evolutionary Biology
PhD, University of Kansas

McCall, Raymond Jr.
Professor Emeritus: Environmental Design

McCarthy, Kevin
Professor Emeritus: Music

McClelland, Gary H.
Professor Emeritus: Psychology and Neuroscience

McCloskey, Adam (https://experts.colorado.edu/display/fisid_163644/)
Associate Professor: Economics
MA, Boston University

McClure, Linden
Professor Adjunct: Electrical, Computer and Energy Engineering (ECEE)

McCluskey, Alyssa
Lecturer: Engineering Management Program
PhD, University of Colorado Boulder

McConkey, Edwin H.
Professor Emeritus: Molecular, Cellular & Developmental Biology (MCDB)

McConnell, Katherine (https://experts.colorado.edu/display/fisid_147567/)
Scholar in Residence: Mechanical Engineering
EdD, University of Colorado Denver

McCorkle-Geng, Audra
Assistant Teaching Professor: Speech, Language and Hearing Sciences (SLHS)
MA, University of Northern Colorado

McCormick, Steven
Professor Emeritus: Applied Mathematics

McDaniel, Kami
Teaching Assistant Professor: University Libraries
MA, University of Colorado Boulder

McDevitt, Michael Joseph (https://experts.colorado.edu/display/fisid_122949/)
Professor: Journalism
PhD, Stanford University

McDonald, Courtney (https://experts.colorado.edu/display/fisid_164150/)
Associate Professor: University Libraries
MLS, University of Indiana

McDonald, Margaret M. (https://experts.colorado.edu/display/fisid_134703/)
Associate Professor: Music
DMA, University of California, Santa Barbara

McDonald, Robert (https://experts.colorado.edu/display/fisid_163978/)
Dean, Professor: University Libraries
MLIS, University of South Carolina

McGehee, Michael D. (https://experts.colorado.edu/display/fisid_163453/)
Professor: Chemical and Biological Engineering; Professor, Associate Faculty Director: Materials Science & Engineering; Professor: Physics
PhD, University of California, Santa Barbara

McGilvray, Dennis B.
Professor Emeritus: Anthropology

McGoodwin, James Russell
Professor Emeritus: Anthropology

McGranahan, Carole Ann (https://experts.colorado.edu/display/fisid_122673/)
Professor, Chair: Anthropology; Associate Professor: History
PhD, University of Michigan Ann Arbor

McGraw, Albert Peter (https://experts.colorado.edu/display/fisid_133262/)
Professor: Leeds School of Business
PhD, Ohio State University

McGuire, Vincent X.
Senior Instructor: Farrand RAP
PhD, University of Colorado Boulder

Mchenry, Charles
Professor Emeritus: Biochemistry
PhD, University of California, Santa Barbara

McIntosh, Betsy (https://experts.colorado.edu/display/fisid_160017/)
Assistant Teaching Professor: School of Education
PhD, University of Pennsylvania

McIntosh, J. Richard
Distinguished Professor Emeritus: Molecular, Cellular & Developmental Biology (MCDB)

McIntosh, Marjorie K.
Distinguished Professor Emerita: History

McIntyre, Joanne
Teaching Associate Professor: University Libraries
MLS, CUNY Queens College

McIver, John P.
Professor Emeritus: Political Science

McKee, Paul (https://experts.colorado.edu/display/fisid_154465/)
Associate Professor: Music
MM, University of Texas at Austin

McKenzie, Valerie J. (https://experts.colorado.edu/display/fisid_142951/)
Associate Professor, Associate Chair: Ecology and Evolutionary Biology
PhD, University of California, Santa Barbara

McKinney, Donald J.
Professor, Faculty Director: Music
DMA, University of Michigan Ann Arbor

McKinnish-Harllee, Terra (https://experts.colorado.edu/display/fisid_115558/)
Professor: Economics
PhD, Carnegie Mellon University

McKnight, Diane M. (https://experts.colorado.edu/display/fisid_110517/)
Professor: Institute of Arctic & Alpine Research (INSTAAR); Professor: Civil, Environmental and Architectural Engineering; Professor: Environmental Engineering Program (EVEN)
PhD, Massachusetts Institute of Technology

McLaughin, Jessica (https://experts.colorado.edu/individual/fisid_167401/)
Teaching Assistant Professor: Biomedical Engineering
PhD, Northeastern University

McLean, Polly E. (https://experts.colorado.edu/display/fisid_100614/)
Associate Professor: Media Studies
PhD, University of Texas at Austin

McLeod, Robert R. (https://experts.colorado.edu/display/fisid_107547/)
Professor: Electrical, Computer and Energy Engineering (ECEE); Endowed/Named Professor, Faculty Director: College of Engineering and Applied Science; Professor: Materials Science & Engineering; Professor: Biomedical Engineering
PhD, University of Colorado Boulder

McLure, Merinda (https://experts.colorado.edu/display/fisid_159239/)
Professor, Associate Faculty Director: University Libraries
MLIS, University of British Columbia Vancouver

McMahon, Jay W. (https://experts.colorado.edu/display/fisid_150062/)
Associate Professor: Aerospace Engineering Sciences
PhD, University of Colorado Boulder

McMahon, Kevin Christopher (https://experts.colorado.edu/display/fisid_143892/)
Senior Instructor: Leeds School of Business
MBA, Indiana University

McMurray, Allan
Professor Emeritus: Music

Mcnamara, Rich (https://experts.colorado.edu/display/fisid_167770/)
Lecturer: Applied Mathematics

McNeill, Nathan John (https://experts.colorado.edu/display/fisid_151518/)
Associate Teaching Professor: Mechanical Engineering; Faculty Director: College of Engineering and Applied Science
PhD, Purdue University

McNown, Robert F.
Professor Emeritus: Leeds School of Business; Professor Emeritus: Economics

McQueen, Matthew B. (https://experts.colorado.edu/display/fisid_143785/)
Professor Adjoint: Integrative Physiology
DSc, Harvard University

Medeiros, Daniel Meulemans (https://experts.colorado.edu/display/fisid_145697/)
Associate Professor: Ecology and Evolutionary Biology
PhD, California Institute of Technology

Medlin, James William (https://experts.colorado.edu/display/fisid_122699/)
Professor: Chemical and Biological Engineering; Endowed/Named Professor: College of Engineering and Applied Science; Professor: Materials Science & Engineering
PhD, University of Delaware

Mehta, Samira (https://experts.colorado.edu/display/fisid_165972/)
Assistant Professor, Director, Associate Professor: Women and Gender Studies; Associate Faculty Director: Jewish Studies
PhD, Emory University; MDiv, Harvard University

Meiss, James D. (https://experts.colorado.edu/display/fisid_103702/)
Professor: Applied Mathematics
PhD, University of California, Berkeley

Melbourne, Brett Andrew (https://experts.colorado.edu/display/fisid_144966/)
Associate Professor: Ecology and Evolutionary Biology
PhD, Australian National University

Melicher, Ronald W. (https://experts.colorado.edu/individual/deptid_10255/)
Professor Emeritus: Leeds School of Business: Leeds School of Business

Mendelson, Jay
Lecturer: Electrical, Computer and Energy Engineering (ECEE)

Mendoza Gutierrez, Natalie (https://experts.colorado.edu/display/fisid_159677/)
Assistant Professor: History
PhD, University of California, Berkeley

Meneghini-Stalker, Tamara L. (https://experts.colorado.edu/display/fisid_146090/)
Associate Professor: Theatre and Dance; Associate Professor: Music
MFA, Northern Illinois University

Menken, Jane A. (https://experts.colorado.edu/display/fisid_112411/)
Research Professor: Institute of Behavioral Science (IBS); Distinguished Professor: Sociology
PhD, Princeton University

Menn, Lise
Professor Emerita: Linguistics

Merrell, Jeffery C. (https://experts.colorado.edu/individual/fisid_156158/)
Senior Instructor: Leeds School of Business
PhD, University of Colorado Boulder

Merritt, Adrienne (https://experts.colorado.edu/display/fisid_168762/)
Assistant Professor: Germanic and Slavic Languages and Literatures
PhD, University of California, Berkeley

Mertens, William G. (https://experts.colorado.edu/display/fisid_105762/)
Senior Instructor: Economics; Lecturer: Continuing Education & Professional Studies; Instructor: CU at DC Internship
PhD, University of Colorado Boulder

Meyer, Elizabeth Jackson (https://experts.colorado.edu/display/fisid_156354/)
Professor: School of Education
PhD, McGill University (Canada)

Meyer, Francois Georges (https://experts.colorado.edu/individual/fisid_115559/)
Professor: Applied Mathematics
PhD, INRIA (France)

Meyer, G. Dale
Professor Emeritus: Leeds School of Business

Meyers-Denman, Christina Nicole (https://experts.colorado.edu/display/fisid_155857/)
Assistant Professor: Speech, Language and Hearing Sciences (SLHS)
PhD, University of Arizona

Michaelis-Cummings, Laura A. (https://experts.colorado.edu/display/fisid_105599/)
Professor, Professor: Classics; Chair: Linguistics
PhD, University of California, Berkeley

Michelsen, Hope (https://experts.colorado.edu/individual/fisid_165261/)
Associate Professor: Mechanical Engineering
PhD, Stanford University

Mihran, Richard
Professor Adjunct: Electrical, Computer and Energy Engineering (ECEE)

Mileti, Dennis S.
Professor Emeritus: Sociology

Milford, Jana B. (https://experts.colorado.edu/display/fisid_103268/)
Professor Emerita: Mechanical Engineering; Professor: Environmental Engineering Program (EVEN); Associate Faculty Director: College of Engineering and Applied Science

Milic, Ivan
Visiting Professor, Scholar in Residence: Laboratory for Atmospheric and Space Physics (LASP)
PhD, University of Belgrade (Yugoslavia)

Miller, Dale Lee (https://experts.colorado.edu/display/fisid_115748/)
Senior Instructor: Environmental Studies Program
MA, University of Colorado Denver

Miller, Gifford Hubbs
Professor, Faculty Director: International Education; Faculty Director: Institute of Arctic & Alpine Research (INSTAAR)
PhD, University of Colorado Boulder

Miller, Kay
Professor Emerita: Art and Art History

Miller, Olivia Chadha
Instructor: Honors RAP
PhD, SUNY at Binghamton

Miller, Shelly L. (https://experts.colorado.edu/display/fisid_110394/)
Professor: Mechanical Engineering; Professor: Environmental Engineering Program (EVEN)
PhD, University of California, Berkeley

Miller, Stanley
Professor Emeritus: Physics
PhD, University of California, Berkeley

Miller, Steve (https://experts.colorado.edu/display/fisid_166148/)
Assistant Professor: Environmental Studies Program
PhD, University of California, Santa Barbara

Min, Young Kyung (https://experts.colorado.edu/display/fisid_156466/)
Assistant Teaching Professor: Program for Writing and Rhetoric
PhD, University of Illinois at Urbana–Champaign

Minor, Vernon H.
Professor Emeritus: Art and Art History

Minton, Timothy K. (https://experts.colorado.edu/display/fisid_167230/)
Professor: Aerospace Engineering Sciences; Professor: Chemistry
PhD, University of California Berkeley

Miranda, Martina L. (https://experts.colorado.edu/display/fisid_140091/)
Associate Professor: Music Education; Associate Professor: Music
DMA, Arizona State University; PhD, Arizona State University

Mishev, Ilia Dimitrov
Instructor: Honors Program

Mishra, Shivakant (https://experts.colorado.edu/display/fisid_118376/)
Professor: Computer Science; Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of Arizona

Misri, Deepti (https://experts.colorado.edu/display/fisid_146428/)
Associate Professor: Women and Gender Studies
PhD, University of Illinois at Urbana–Champaign

Mitchell, Colin
Lecturer: Applied Mathematics

Mitchell, Dianne (https://experts.colorado.edu/display/fisid_165827/)
Assistant Professor: English
PhD, University of Pennsylvania

Mitrano, Peter P. (https://experts.colorado.edu/display/fisid_155075/)
Assistant Teaching Professor: Mechanical Engineering
PhD, University of Colorado, Boulder

Mitton, Jeffry B. (https://experts.colorado.edu/display/fisid_101058/)
Professor: Ecology and Evolutionary Biology
PhD, SUNY at Stony Brook

Miyake, Akira (https://experts.colorado.edu/display/fisid_107321/)
Professor: Psychology and Neuroscience
PhD, Carnegie Mellon University

Mizzi, Arthur
Assistant Research Professor: Mechanical Engineering
PhD, University of Colorado Boulder

Moddel, Garret (https://experts.colorado.edu/display/fisid_105440/)
Professor: Electrical, Computer and Energy Engineering (ECEE); Professor: Materials Science & Engineering
PhD, Harvard University

Mody, Bella
Professor Emeritus: Media Studies
PhD, Gujarat University, India; PhD, Gujarat University, India

Moeller, Paul D. (https://experts.colorado.edu/display/fisid_122618/)
Associate Professor, Faculty Director: University Libraries
MA, University of Iowa

Mohabir, Rajiv (https://experts.colorado.edu/display/fisid_173865/)
Assistant Professor: English
PhD, University of Hawai'i Manoa

Mohan, Taneesha
Teaching Assistant Professor: Geography
Ph.D., London School of Economics and Political Science

Mohr, Pete J. (https://experts.colorado.edu/display/fisid_155498/)
Senior Instructor: Leeds School of Business
MS, Colorado State University

Molas, Susanna
Assistant Professor: Psychology and Neuroscience
PhD, Pompeu Fabra University

Molenaar, Keith Robert (https://experts.colorado.edu/display/fisid_102373/)
Professor, Dean: Civil, Environmental and Architectural Engineering; Dean: College of Engineering and Applied Science
PhD, University of Colorado Boulder

Molnar, Alex John (https://experts.colorado.edu/display/fisid_148836/)
Research Professor: School of Education
MSW, University of Wisconsin-Milwaukee

Molnar, Peter Hale
Distinguished Professor: Cooperative Institute for Research in Environmental Sciences (CIRES)
PhD, Columbia University

Molotch, Noah Paul (https://experts.colorado.edu/display/fisid_139374/)
Associate Professor, Associate Professor: Geography; Faculty Director: Institute of Arctic & Alpine Research (INSTAAR); Faculty Director: The Center for Water, Earth Science, and Technology
PhD, University of Arizona

Monk, James Donald
Professor Emeritus: Mathematics

Monson, Russell K.
Professor Emeritus: Ecology and Evolutionary Biology

Montealegre, Jose Ramiro (https://experts.colorado.edu/display/fisid_100072/)
Professor: Leeds School of Business
DBA, Harvard University

Monteleoni, Claire Elizabeth (https://experts.colorado.edu/display/fisid_163979/)
Associate Professor: Computer Science
PhD, Massachusetts Institute of Technology

Montiegel, Kristella (https://experts.colorado.edu/display/fisid_172738/)
Assistant Professor: Communication
PhD, University of California, Los Angeles

Montoya, Celeste (https://experts.colorado.edu/display/fisid_144862/)
Associate Professor: Women and Gender Studies; Faculty Director: Miramontes Arts & Sciences Program (MASP)
PhD, Washington University

Montoya Castillo, Andres (https://experts.colorado.edu/display/fisid_167156/)
Assistant Professor: Chemistry
PhD, Columbia University In the City of New York

Moon, Katie Seoyeon (https://experts.colorado.edu/display/fisid_157680/)
Assistant Professor: Leeds School of Business
PhD, University of Maryland

Moore, A. Nathan (https://experts.colorado.edu/display/fisid_171850/)
Assistant Professor: Women and Gender Studies
Ph.D., University of Texas at Austin

Moore, Russell (https://experts.colorado.edu/display/fisid_105756/)
Professor: Integrative Physiology
PhD, Washington State University

Moorer, Daniel F. Jr. (https://experts.colorado.edu/display/fisid_151590/)
Scholar in Residence: Engineering Management Program; Endowed/Named Professor: College of Engineering and Applied Science
PhD, University of Colorado Boulder

Morehouse, Jordan (https://experts.colorado.edu/display/fisid_173434/)
Assistant Professor: Advertising, Public Relations and Media Design
PhD, University of North Carolina Chapel Hill

Morey, Edward R.
Professor Emeritus: Economics

Morgan, Walt
Commander, Associate Professor: Army ROTC
MA, Naval War College

Moriarty, Julia (https://experts.colorado.edu/display/fisid_165830/)
Assistant Professor: Atmospheric and Oceanic Sciences (ATOC); Assistant Professor: Institute of Arctic & Alpine Research (INSTAAR)
PhD, William & Mary/Virginia Institute of Marine Science

Moriarty, Sandra E.
Professor Emerita: Advertising, Public Relations and Media Design

Moritz, Marguerite J.
Professor Emerita: Journalism

Morley, Susan (https://experts.colorado.edu/display/fisid_116716/)
Senior Instructor: Leeds School of Business
JD, University of Colorado Boulder

Morris, Matthew R. (https://experts.colorado.edu/display/fisid_150037/)
Teaching Professor: Civil, Environmental and Architectural Engineering; Endowed/Named Professor: College of Engineering and Applied Science
MS, University of Colorado Boulder

Morrison, Rebecca E. (https://experts.colorado.edu/display/fisid_159999/)
Assistant Professor: Computer Science
PhD, University of Texas Austin

Mortimer, Mildred
Professor Emeritus: French & Italian

Morton, Yu Jade (https://experts.colorado.edu/display/fisid_159076/)
Professor, Endowed/Named Professor: Aerospace Engineering Sciences
PhD, The Pennsylvania State University

Moses, Michele S. (https://experts.colorado.edu/display/fisid_141025/)
Professor, Vice Provost: School of Education
PhD, University of Colorado Boulder

Moss, Scott A. (https://experts.colorado.edu/display/fisid_144741/)
Professor: School of Law
JD, Harvard University

Moteki, Mutsumi (https://experts.colorado.edu/display/fisid_100992/)
Professor: Music
DMA, University of Michigan Ann Arbor

Motte, Warren F. Jr. (https://experts.colorado.edu/display/fisid_100001/)
Distinguished Professor: French & Italian
PhD, University of Pennsylvania

Mountin, Zachary (https://experts.colorado.edu/display/fisid_165640/)
Clinical Associate Professor, Instructor Adjunct: School of Law
JD, University of Colorado Boulder

Moyen, Nathalie (https://experts.colorado.edu/display/fisid_113873/)
Professor, Chair: Leeds School of Business
PhD, University of British Columbia (Canada)

Mozer, Michael C. (https://experts.colorado.edu/display/fisid_105922/)
Professor: Institute of Cognitive Science (ICS); Research Professor: Computer Science
PhD, University of California, San Diego

Mueller, Christopher B. (https://experts.colorado.edu/display/fisid_103756/)
Professor: School of Law
JD, University of California, Berkeley

Mueller, Erick Michael (https://experts.colorado.edu/display/fisid_140940/)
Senior Instructor, Faculty Director: International Education; Faculty Director: Leeds School of Business
MBA, University of Colorado Boulder

Mueller, Karl Jules (https://experts.colorado.edu/display/fisid_107629/)
Professor: Geological Sciences
PhD, University of Wyoming

Mukherjee, Debanjan (https://experts.colorado.edu/individual/fisid_164181/)
Assistant Professor: Biomedical Engineering; Assistant Professor: Mechanical Engineering
PhD, University of California, Berkeley

Mukherjee, Mithi (https://experts.colorado.edu/display/fisid_123112/)
Associate Professor: History
PhD, University of Chicago

Muller, Brian H.F. (https://experts.colorado.edu/display/fisid_140230/)
Professor Emeritus: Environmental Design
PhD, University of California-Berkeley

Muller-Sievers, Helmut Heinz (https://experts.colorado.edu/display/fisid_147511/)
Professor: Germanic and Slavic Languages and Literatures; Faculty Director: Center for Humanities and the Arts; Professor: Classics
PhD, Stanford University

Munsat, Tobin Leo (https://experts.colorado.edu/display/fisid_134251/)
Professor, Faculty Director: Center for Integrated Plasma Studies (CIPS); Chair: Physics
PhD, Princeton University

Murnane, Margaret (https://experts.colorado.edu/display/fisid_115333/)
Distinguished Professor: Research & Innovation Office; Distinguished Professor: Physics; Distinguished Professor: Materials Science & Engineering; Distinguished Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of California, Berkeley

Murphy, Kieran Marcellin (https://experts.colorado.edu/display/fisid_152976/)
Associate Professor: French & Italian; Associate Professor: Humanities
PhD, University of California, Santa Barbara

Murray, Seth (https://experts.colorado.edu/display/fisid_148038/)
Teaching Assistant Professor: Engineering Management Program
ME, University of Colorado Boulder

Murray, Todd W. (https://experts.colorado.edu/display/fisid_146549/)
Professor, Faculty Director: College of Engineering and Applied Science; Professor: Materials Science & Engineering; Professor: Biomedical Engineering; Associate Chair: Mechanical Engineering
PhD, Johns Hopkins University

Musgrave, Charles Bruce (https://experts.colorado.edu/display/fisid_144977/)
Professor: Materials Science & Engineering; Endowed/Named Professor, Associate Dean: College of Engineering and Applied Science
PhD, California Institute of Technology

Musselman, N. Keith (https://experts.colorado.edu/display/fisid_151215/)
Assistant Professor: Geography
Ph.D, University of California- Los Angeles

Mycielski, Jan
Professor Emeritus: Mathematics

Myer, Tom R. (https://experts.colorado.edu/display/fisid_100922/)
Associate Professor: Music
MM, East Texas State University

Myers, Chris (https://experts.colorado.edu/display/fisid_167168/)
Professor: Biomedical Engineering
PhD, Stanford University

Myers, Seth G. (https://experts.colorado.edu/display/fisid_153207/)
Associate Teaching Professor: Program for Writing and Rhetoric
PhD, New Mexico State University

Myers, Skinner (https://experts.colorado.edu/display/fisid_168622/)
Assistant Professor: Cinema Studies & Moving Image Arts
M.A., Brooklyn College, City University of New York

N

Nabity, James A. (https://experts.colorado.edu/display/fisid_153102/)
Associate Professor, Associate Chair: Aerospace Engineering Sciences
PhD, University of Colorado Boulder

Nagel, Robert (https://experts.colorado.edu/display/fisid_101312/)
Professor: School of Law
JD, Yale University

Nagle, James L. (https://experts.colorado.edu/display/fisid_126784/)
Professor: Physics
PhD, Yale University

Naidu, Supriya (https://experts.colorado.edu/display/fisid_166267/)
Assistant Teaching Professor: Computer Science
MS, University of Colorado Boulder

Nair, Devatha P.
Assistant Professor: Materials Science & Engineering
PhD, University of Colorado Boulder

Nakassis, Dimitri (https://experts.colorado.edu/display/fisid_154917/)
Distinguished Professor: Classics
PhD, University of Texas at Austin

Nam, SaeWoo
Lecturer: Physics
PhD, Stanford University

Nandkishore, Rahul Mahajan (https://experts.colorado.edu/display/fisid_156417/)
Associate Professor: Physics
PhD, Massachusetts Institute of Technology

Narasimhan, Bhuvaneswari (https://experts.colorado.edu/display/fisid_144863/)
Associate Professor: Linguistics
PhD, Boston University

Nath Sreesha (https://experts.colorado.edu/display/fisid_165807/)
Associate Chair, Assistant Teaching Professor: Computer Science
MS, University of Colorado Boulder

Nauman, Robert (https://experts.colorado.edu/display/fisid_106835/)
Senior Instructor: Art and Art History
PhD, University of New Mexico

Neff, Jason C. (https://experts.colorado.edu/display/fisid_117652/)
Professor: Environmental Studies Program; Faculty Director: Research & Innovation Office
PhD, Stanford University

Neil, Ethan (https://experts.colorado.edu/display/fisid_153411/)
Associate Professor: Physics
PhD, Yale University

Neil, Josh (https://experts.colorado.edu/display/fisid_152068/)
Senior Instructor, Faculty Director: Leeds School of Business
MS, Oklahoma State University

Nelson, Erica Lynn (https://experts.colorado.edu/display/fisid_166298/)
Assistant Professor: Astrophysical and Planetary Sciences (APS)
PhD, Yale University

Nelson, James E.
Professor Emeritus: Leeds School of Business

Nelson, Thomas Cavett (https://experts.colorado.edu/display/fisid_116011/)
Senior Instructor Emeritus: Leeds School of Business
PhD, University of Colorado Boulder

Neogi, Sanghamitra (https://experts.colorado.edu/display/fisid_156773/)
Associate Professor: Aerospace Engineering Sciences; Assistant Professor: Materials Science & Engineering
PhD, Pennsylvania State University

Nerem, R. Steven (https://experts.colorado.edu/display/fisid_118478/)
Professor, Director: Colorado Center for Astrodynamics Research (CCAR); Faculty Director: College of Engineering and Applied Science; Director: Aerospace Engineering Sciences
PhD, University of Texas at Austin

Nesbitt, David J. (https://experts.colorado.edu/display/fisid_100333/)
Professor Adjoint: Chemistry; Professor Adjoint: Physics
PhD, University of Colorado

Neu, Corey P. (https://experts.colorado.edu/display/fisid_156210/)
Endowed/Named Professor: College of Engineering and Applied Science; Professor: Mechanical Engineering; Associate Professor: Biomedical Engineering
PhD, University of California, Davis

Neupauer, Roseanna M. (https://experts.colorado.edu/display/fisid_134747/)
Professor: Civil, Environmental and Architectural Engineering; Professor: Environmental Engineering Program (EVEN)
PhD, New Mexico Institute of Mining and Technology

Nevelow Mart, Susan
Professor Emerita: School of Law
MLS, San Jose State University

Newberry, Patrick Thaxton (https://experts.colorado.edu/display/fisid_151925/)
Instructor: Baker RAP
MA, University of Colorado Boulder

Newbury, Nathan
Lecturer: Physics
PhD, Princeton University

Newlands, Carole E. (https://experts.colorado.edu/display/fisid_147504/)
Distinguished Professor: Classics
PhD, University of California, Berkeley

Newsom, Elia (https://experts.colorado.edu/display/fisid_172312/)
Assistant Teaching Professor: Program for Writing and Rhetoric
PhD, Wayne State University

Newton, Peter (https://experts.colorado.edu/display/fisid_154466/)
Assistant Professor: Environmental Studies Program
PhD, University of East Anglia (England)

Ngo Nyeck, Sybille
Assistant Professor: History
PhD, University of California, Los Angelos

Nguyen, Alexandra (https://experts.colorado.edu/display/fisid_145847/)
Associate Professor: Music
DMA, University of Rochester

Nichols, Harvey
Professor Emeritus: Ecology and Evolutionary Biology

Nichols, Lynn (https://experts.colorado.edu/display/fisid_103654/)
Senior Instructor Emeritus: Theatre and Dance
PhD, University of Colorado Boulder

Nicotra, Marco M. (https://experts.colorado.edu/display/fisid_164182/)
Assistant Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, Universite Libre de Bruxelles

Niederwieser, Tobias (https://experts.colorado.edu/display/fisid_164789/)
Assistant Research Professor: Aerospace Engineering Sciences
PhD, University of Colorado Boulder

Nielsen Katherine (https://experts.colorado.edu/display/fisid_172532/)
Assistant Teaching Professor: Computer Science
PhD, University of California, Los Angeles

Nigai, Sergey K. (https://experts.colorado.edu/display/fisid_159293/)
Assistant Professor: Economics
PhD, ETH Zurich

Nims, Abigail Andrews (https://experts.colorado.edu/display/fisid_152977/)
Associate Professor: Music
MM, Westminster Choir College

Niswander, Lee (https://experts.colorado.edu/display/fisid_160024/)
Chair, Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Case Western Reserve University

Nixon, Sean (https://experts.colorado.edu/display/fisid_167600/)
Instructor: Applied Mathematics

Noble D., Richard
Research Professor: Chemistry
PhD, University of California--Davis

Nogueron-Liu, Silvia (https://experts.colorado.edu/display/fisid_155783/)
Associate Professor: School of Education
PhD, Arizona State University

Norcross, Alastair (https://experts.colorado.edu/display/fisid_144850/)
Professor: Philosophy; Faculty Director, Professor: Farrand RAP
PhD, Syracuse University

Nordvig, Mathias (https://experts.colorado.edu/individual/fisid_156587/)
Associate Teaching Professor: Germanic and Slavic Languages and Literatures
PhD, University of Aarhus (Denmark)

Norgaard, Rolf P. (https://experts.colorado.edu/display/fisid_102502/)
Teaching Professor of Distinction Emeritus, Associate Faculty Director: Program for Writing and Rhetoric
PhD, Stanford University

Norris, David O.
Professor Emeritus: Integrative Physiology

Norris, Jan Adam (https://experts.colorado.edu/display/fisid_101412/)
Teaching Professor: Applied Mathematics; Instructor Adjunct: Mechanical Engineering
PhD, University of Colorado Boulder

Norton, Helen Louise (https://experts.colorado.edu/display/fisid_144613/)
Professor: School of Law
JD, University of California, Berkeley

Nottoli, David (https://experts.colorado.edu/display/fisid_164356/)
Assistant Teaching Professor: Advertising, Public Relations and Media Design
MBA, University of Illinois at Urbana-Champaign

Novosel, Elizabeth (https://experts.colorado.edu/display/fisid_143082/)
Assistant Professor: University Libraries
MLS, University of Wisconsin–Milwaukee

Nowak, Kristen
Associate Professor Adjoint: Integrative Physiology

Nozik, Arthur (https://experts.colorado.edu/display/fisid_113395/)
Professor Emeritus: Chemistry
PhD, Yale University

Nugent, Teresa L. (https://experts.colorado.edu/display/fisid_101477/)
Associate Teaching Professor: English; Senior Instructor: Continuing Education & Professional Studies
PhD, University of Colorado Boulder

Nunziato, Joshua (https://experts.colorado.edu/display/fisid_164373/)
Instructor: Leeds School of Business
PhD, Villanova University

Nuttelman, Charles Raymond (https://experts.colorado.edu/display/fisid_142758/)
Teaching Professor: Chemical and Biological Engineering; Faculty Director: College of Engineering and Applied Science
PhD, University of Colorado Boulder

Nyeck, S.N. (https://experts.colorado.edu/display/fisid_169704/)
Associate Professor: Ethnic Studies
Ph.D., University of California-Los Angeles

Nytch, Jeffrey C. (https://experts.colorado.edu/display/fisid_147341/)
Associate Professor, Faculty Director: Music
DMA, Rice University

Nzinga, Kalonji (https://experts.colorado.edu/display/fisid_165958/)
Assistant Professor: School of Education
PhD, Northwestern University

O

O'Brien, Jonathan (https://experts.colorado.edu/display/fisid_152072/)
Assistant Teaching Professor: Anthropology
PhD, University of Colorado Boulder

O'Harra, Katie
Teaching Assistant Professor: Chemical and Biological Engineering
PhD, University of Alabama

O'Loughlin, John (https://experts.colorado.edu/display/fisid_101339/)
Professor: Geography; Professor: Institute of Behavioral Science (IBS)
PhD, Pennsylvania State University

O'Neal, Shawn Trenell (https://experts.colorado.edu/display/fisid_165586/)
Teaching Assistant Professor: Ethnic Studies
M.A., University of Colorado Denver

O'Rourke, Sean Daniel (https://experts.colorado.edu/display/fisid_154418/)
Associate Professor: Mathematics
PhD, University of California, Davis

Oakes, Tim (https://experts.colorado.edu/display/fisid_109269/)
Faculty Director: International Education; Professor: Geography; Professor: Media Studies; Professor: Critical Media Practices
PhD, University of Washington

Ochieng, Omedi (https://experts.colorado.edu/display/fisid_170851/)
Associate Professor: Communication
PhD, Bowling Green State University

Oddie, Graham (https://experts.colorado.edu/display/fisid_104741/)
Professor: Humanities
PhD, University of London (England)

Odorizzi, Charles Gregory (https://experts.colorado.edu/display/fisid_118429/)
Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of California, San Diego

Oest, Donald G. (https://experts.colorado.edu/display/fisid_146623/)
Senior Instructor: Leeds School of Business
MBA, Fairleigh Dickinson University

Okigbo, Austin Chinagorom (https://experts.colorado.edu/display/fisid_151507/)
Associate Professor: Music
PhD, Indiana University Bloomington

Old, William (https://experts.colorado.edu/display/fisid_103039/)
Assistant Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of Colorado Boulder

Oliveras, Diana (https://experts.colorado.edu/display/fisid_107967/)
Instructor, Instructor: Health Professions RAP; Associate Faculty Director: Baker RAP
PhD, University of New Mexico

Olm, Matthew R. (https://experts.colorado.edu/display/fisid_174400/)
Assistant Professor: Integrative Physiology
PhD, University of California, Berkeley

Olson, Richard
Professor Emeritus: Psychology and Neuroscience

Olwin, Bradley Bruce (https://experts.colorado.edu/display/fisid_109888/)
Professor, Associate Chair: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of Washington

Onyejekwe, Osita Eluemuno (https://experts.colorado.edu/display/fisid_164235/)
Assistant Teaching Professor: Computer Science
PhD, Florida Institute of Technology

Opp, Mark R. (https://experts.colorado.edu/display/fisid_158898/)
Professor: Integrative Physiology
PhD, Washington State University

Ordaz, Jessica (https://experts.colorado.edu/display/fisid_159142/)
Assistant Professor: Ethnic Studies; Assistant Professor: History
PhD, University of California, Davis

Orian Peer, Nadav (https://experts.colorado.edu/display/fisid_165323/)
Associate Professor: School of Law
SJD, Harvard University

Orosz Hunziker, Flor (https://experts.colorado.edu/display/fisid_167648/)
Assistant Professor: Mathematics
PhD, Yale University

Ortega Guzmán, Élika (https://experts.colorado.edu/display/fisid_165171/)
Assistant Professor: Spanish and Portuguese
PhD, University of Western Ontario

Orth, James D. (https://experts.colorado.edu/display/fisid_152017/)
Assistant Research Professor, Instructor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Mayo Graduate School of Medicine

Ortman, Scott Graham (https://experts.colorado.edu/display/fisid_152978/)
Associate Professor: Anthropology; Faculty Director: Institute of Behavioral Science (IBS)
PhD, Arizona State University

Osborn, Christopher (https://experts.colorado.edu/display/fisid_142982/)
Teaching Associate Professor: Cinema Studies & Moving Image Arts
MFA, University of Colorado Boulder

Osborne, Myles Gregory (https://experts.colorado.edu/display/fisid_145809/)
Associate Professor: History
PhD, Harvard University

Oscamou, Maribeth B. (https://experts.colorado.edu/display/fisid_159794/)
Associate Teaching Professor: Computer Science
MS, University of Colorado Boulder

Osipova, Anastasiya (https://experts.colorado.edu/individual/fisid_167066/)
Assistant Professor: Germanic and Slavic Languages and Literatures
PhD, New York University

Osnes, Mary Beth (https://experts.colorado.edu/display/fisid_102607/)
Professor: Theatre and Dance; Faculty Director: A&S ASSETT
PhD, University of Colorado Boulder

Osterman, Laura Olson (https://experts.colorado.edu/display/fisid_109800/)
Professor, Associate Chair: Germanic and Slavic Languages and Literatures
PhD, Yale University

Otero, Valerie K. (https://experts.colorado.edu/display/fisid_118377/)
Professor, Faculty Director: School of Education
PhD, University of California, San Diego

Overeem, Irina (https://experts.colorado.edu/display/fisid_125258/)
Associate Professor: Geological Sciences; Associate Professor: Institute of Arctic & Alpine Research (INSTAAR)
PhD, Delft University of Technology (Netherlands)

P

Pace, Norman R.
Distinguished Professor Emeritus: Molecular, Cellular & Developmental Biology (MCDB)

Pacheco, Carmen Consuelo (https://experts.colorado.edu/display/fisid_148773/)
Scholar in Residence: Mechanical Engineering
MS, University of Arizona

Pacheco, Maria
Assistant Professor: Computer Science
PhD, Purdue University

Padgett, Adam
Assistant Teaching Professor: Program for Writing and Rhetoric
PhD, University of South Carolina

Pak, Ronald Y.S. (https://experts.colorado.edu/display/fisid_105977/)
Professor: Civil, Environmental and Architectural Engineering
PhD, California Institute of Technology

Palen, Leysia A. (https://experts.colorado.edu/display/fisid_114604/)
Distinguished Professor, Associate Chair: Computer Science; Faculty Director: College of Engineering and Applied Science; Professor: Information Science
PhD, University of California, Irvine

Palermo, Scott
Major, Assistant Professor: Army ROTC
MS, Webster University

Palmer, Alexandra
Assistant Teaching Professor: Political Science
PhD, University of Colorado Boulder

Palmer, Amy E. (https://experts.colorado.edu/display/fisid_141901/)
Professor: Biochemistry
PhD, Stanford University

Palmer, Deborah (https://experts.colorado.edu/display/fisid_157996/)
Professor: School of Education
PhD, University of California, Berkeley

Palmer, James
Professor Emeritus: Cinema Studies & Moving Image Arts
PhD, Claremont Graduate School

Palmer, Martha
Professor: Linguistics; Research Professor: Computer Science; Endowed/Named Professor: College of Engineering and Applied Science
PhD, University of Edinburgh (Scotland)

Palmer, Michael
Professor Emeritus: Leeds School of Business

Palo, Scott E. (https://experts.colorado.edu/display/fisid_109033/)
Professor, Professor: Colorado Center for Astrodynamics Research (CCAR); Endowed/Named Professor: College of Engineering and Applied Science; Professor: Electrical, Computer and Energy Engineering (ECEE); Endowed/Named Professor: Aerospace Engineering Sciences
PhD, University of Colorado Boulder

Pampel, Fred
Professor Emeritus: Sociology

Pang, Cecilia J. (https://experts.colorado.edu/display/fisid_129479/)
Professor: Theatre and Dance; Faculty Director, Associate Professor: Libby Arts RAP
PhD, University of California, Berkeley

Pann, Carter N. (https://experts.colorado.edu/display/fisid_141461/)
Professor: Music
DMA, University of Michigan Ann Arbor

Pao, Lucy Y. (https://experts.colorado.edu/display/fisid_107151/)
Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, Stanford University

Papp, Scott
Lecturer: Physics
PhD, University of Colorado Boulder

Pappas, Michael (https://experts.colorado.edu/display/fisid_171742/)
Professor: School of Law
JD, Stanford University

Papuzza, Antonio (https://experts.colorado.edu/display/fisid_145295/)
Senior Instructor: Leeds School of Business; Faculty Director: International Education; Lecturer: Continuing Education & Professional Studies
PhD, University of Florence (Italy)

Paradis, David (https://experts.colorado.edu/display/fisid_126959/)
Teaching Professor of Distinction, Lecturer, Associate Teaching Professor: Continuing Education & Professional Studies; Associate Teaching Professor: History
PhD, Emory University

Paradise, Alan (https://experts.colorado.edu/display/fisid_158849/)
Associate Teaching Professor: Computer Science
MS, Washington University in St. Louis

Pardi, Arthur
Professor Emeritus: Biochemistry
PhD, University of California, Berkeley

Parinandi, Srinivas C. (https://experts.colorado.edu/display/fisid_155589/)
Assistant Professor: Political Science
PhD, University of Michigan Ann Arbor

Park, Bernadette (https://experts.colorado.edu/display/fisid_103732/)
Professor Emeritus: Psychology and Neuroscience
PhD, Northwestern University

Park, Clara (https://experts.colorado.edu/display/fisid_163545/)
Assistant Professor: Political Science
PhD, University of California, Berkeley

Park, Kwang-Chun
Professor Emeritus: Aerospace Engineering Sciences
PhD, Clarkson College

Park, Soyeon (https://experts.colorado.edu/display/fisid_151944/)
Assistant Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Mayo Graduate School of Medicine

Park, Won (https://experts.colorado.edu/display/fisid_122676/)
Professor, Associate Chair: Electrical, Computer and Energy Engineering (ECEE); Professor: Materials Science & Engineering; Associate Professor, Associate Chair: Biomedical Engineering
PhD, Georgia Institute of Technology

Packer, Richard C. (https://experts.colorado.edu/display/fisid_166139/)
Lecturer: Leeds School of Business

Parker, Roy Robert (https://experts.colorado.edu/display/fisid_151440/)
Distinguished Professor: Molecular, Cellular & Developmental Biology (MCDB); Distinguished Professor: Biochemistry
PhD, University of California, San Francisco

Parker, Scott E. (https://experts.colorado.edu/display/fisid_109685/)
Professor: Physics
PhD, University of California, Berkeley

Parkin, Don
Professor Emeritus: Leeds School of Business

Parson, Rahul Bjorn (https://experts.colorado.edu/display/fisid_156069/)
Professor Emeritus, Associate Chair: Chemistry
PhD, University of California, Berkeley

Parson, Robert (https://experts.colorado.edu/display/fisid_101032/)
Professor Emeritus, Associate Chair: Chemistry
PhD, University of Michigan Ann Arbor

Parsons, Amanda (https://experts.colorado.edu/display/fisid_169702/)
Assistant Professor: School of Law
JD, Yale University

Pasnau, Robert (https://experts.colorado.edu/display/fisid_115293/)
Professor: Philosophy; Faculty Director, Professor: Classics; Professor: Center for Western Civilization
PhD, Cornell University

Pasquesi, Kira (https://experts.colorado.edu/display/fisid_158236/)
Associate Teaching Professor: School of Education
PhD, University of Iowa

Patterson, Laura R. (https://experts.colorado.edu/display/fisid_146606/)
Instructor: Sociology
PhD, University of Colorado Boulder

Pearce, Chris (https://experts.colorado.edu/display/fisid_139688/)
Lecturer: Cinema Studies & Moving Image Arts
MFA, University of Florida

Pearce, Lonni Dee (https://experts.colorado.edu/display/fisid_134710/)
Associate Teaching Professor, Associate Faculty Director: Program for Writing and Rhetoric
PhD, University of Arizona

Peattie, Matthew
Associate Professor, Chair: Humanities
PhD, Harvard University

Peck, Janice Anne (https://experts.colorado.edu/display/fisid_106765/)
Professor Emerita: Media Studies; Associate Dean: College of Media, Communication & Information
PhD, Simon Fraser University (Canada)

Pedersen, Eric (https://experts.colorado.edu/display/fisid_159278/)
Assistant Professor: Psychology and Neuroscience
PhD, University of Miami

Pedersen-Gallegos, Liane G.
Instructor: Sociology
PhD, University of Colorado Boulder

Peek, Lori (https://experts.colorado.edu/display/fisid_158492/)
Professor, Faculty Director: Institute of Behavioral Science (IBS); Professor: Sociology
PhD, University of Colorado Boulder

Peffer, Melanie (https://experts.colorado.edu/display/fisid_165841/)
Instructor: Health Professions RAP

Pegelow Kaplan, Thomas (https://experts.colorado.edu/display/fisid_172194/)
Professor, Chair: History
Ph.D., University of North Carolina Chapel Hill

Peleg, Orit (https://experts.colorado.edu/display/fisid_159998/)
Associate Professor: Computer Science; Associate Professor: Physics
PhD, ETH Zürich (Switzerland)

Pellegrino, John (https://experts.colorado.edu/display/fisid_130902/)
Research Professor: Mechanical Engineering; Research Professor: Environmental Engineering Program (EVEN); Research Professor: Materials Science & Engineering
PhD, University of Colorado Boulder

Pembleton, Gary
Commander, Executive Officer, Associate Professor: Navy ROTC

Penn, Michelle (https://experts.colorado.edu/display/fisid_171985/)
Head of Library Services: School of Law
JD, Washington University in St. Louis

Penuel, William Richard (https://experts.colorado.edu/display/fisid_149719/)
Distinguished Professor: School of Education; Distinguished Professor: Institute of Cognitive Science (ICS)
PhD, Clark University

Pereira Da Costa, Hugo
Lecturer: Physics
PhD, Service de Physique Nucleaire du CEA (France)

Perepelitsa, Dennis V. (https://experts.colorado.edu/display/fisid_158294/)
Associate Professor: Physics
PhD, Columbia University in the City of New York

Peri, Alessandro (https://experts.colorado.edu/display/fisid_157820/)
Assistant Professor: Economics
PhD, Universidad Carlos III de Madrid

Perigo, Levi (https://experts.colorado.edu/display/fisid_155562/)
Scholar in Residence: Computer Science
PhD, Nova Southeastern University

Perkins, Katherine K. (https://experts.colorado.edu/display/fisid_124217/)
Professor Attendant Rank: Physics
PhD, Harvard University

Perkins, Mike
Lecturer: Electrical, Computer and Energy Engineering (ECEE)
PhD, Stanford University

Perkins, Thomas T. (https://experts.colorado.edu/display/fisid_124578/)
Professor Adjunct: Physics; Faculty Director: JILA; Professor Adjoint: Molecular, Cellular & Developmental Biology (MCDB); Associate Professor Adjoint: Materials Science & Engineering
PhD, Stanford University

Persons, Charles Howard (https://experts.colorado.edu/display/fisid_145012/)
Associate Professor: Theatre and Dance
MFA, Columbia University

Peters, Kevin
Professor Emeritus: Chemistry
PhD, Yale University

Peters, Sean (https://experts.colorado.edu/display/fisid_174034/)
Assistant Professor: Aerospace Engineering Sciences
PhD, Stanford University

Peterson, Loni
Assistant Teaching Professor: Advertising, Public Relations and Media Design
MA, University of Denver

Peterson, Patti H.
Professor Emerita: Music

Peterson, R. Jerome
Professor Emeritus: Physics
PhD, University of Washington

Pezzullo, Phaedra Carmen (https://experts.colorado.edu/display/fisid_156204/)
Professor: Communication; Faculty Director: College of Media, Communication & Information
PhD, University of North Carolina Chapel Hill

Pfeffer, Tad (https://experts.colorado.edu/display/fisid_100207/)
Professor: Institute of Arctic & Alpine Research (INSTAAR)
PhD, University of Washington

Pflaum, Markus Josef (https://experts.colorado.edu/display/fisid_144979/)
Professor: Mathematics
Dr habil, Humboldt University of Berlin (Germany)

Philips, Andrew Q. (https://experts.colorado.edu/display/fisid_159155/)
Associate Professor: Political Science
PhD, Texas A&M University

Phillips, Caleb Timothy (https://experts.colorado.edu/individual/fisid_152384/)
Assistant Professor Adjunct: Computer Science

Phillips, George H.
Professor Emeritus: History

Pielke, Roger A. Jr. (https://experts.colorado.edu/display/fisid_104166/)
Professor: Environmental Studies Program
PhD, University of Colorado Boulder

Pieplow, Kathryn
Senior Instructor Emerita: Program for Writing and Rhetoric
JD, University of South Dakota

Pieplow, Nathan D. (https://experts.colorado.edu/display/fisid_131512/)
Associate Teaching Professor: Program for Writing and Rhetoric; Instructor: Graduate School; Associate Faculty Director: Global RAP
MEd, University of Oregon

Pierotti, Chelsea (https://experts.colorado.edu/individual/fisid_155551/)
Teaching Assistant Professor: Psychology and Neuroscience
PhD, University of Northern Colorado

Pierpont, Cortlandt G.
Professor Emeritus: Chemistry
PhD, Brown University

Piestun, Rafael (https://experts.colorado.edu/display/fisid_118538/)
Professor: Physics; Professor: Electrical, Computer and Energy Engineering (ECEE); Professor: Biomedical Engineering
PhD, Israel Instit of Tech (Israel)

Pietri, Evava
Associate Professor: Psychology and Neuroscience
PhD, Ohio State University

Piket-May, Melinda J. (https://experts.colorado.edu/display/fisid_102097/)
Associate Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, Northwestern University

Pilewskie, Peter Andrew (https://experts.colorado.edu/display/fisid_134466/)
Professor, Professor: Atmospheric and Oceanic Sciences (ATOC); Faculty Director: Laboratory for Atmospheric and Space Physics (LASP)
PhD, University of Arizona

Pinkow, David
Professor Emeritus: Music

Pinter, Anthony (https://experts.colorado.edu/display/fisid_171867/)
Assistant Teaching Professor: ATLAS Institute; Assistant Teaching Professor: Creative Technology & Design
Ph.D., University of Colorado Boulder

Pinto, Leonard J.
Professor Emeritus: Sociology

Piras, Maria Cristina
Assistant Teaching Professor: Spanish and Portuguese
M.A, University of Colorado Boulder

Pitlick, John
Professor Emeritus: Geography

Pittenger, Mark A. (https://experts.colorado.edu/display/fisid_102007/)
Professor Emeritus: History
PhD, University of Michigan Ann Arbor

Pittman Wagers, Tina (https://experts.colorado.edu/display/fisid_117148/)
Emerita Teaching Professor of Distinction: Psychology and Neuroscience
PsyD, University of Denver

Pizzi, William
Professor Emeritus: School of Law
JD, Harvard University

Plagmann, Natalia (https://experts.colorado.edu/display/fisid_168526/)
Teaching Assistant Professor: Germanic and Slavic Languages and Literatures
PhD, Princeton University

Plank, D. L.
Professor Emeritus: Germanic and Slavic Languages and Literatures

Platter, Adele
Professor Emerita: Sociology

Pleszkun, Andrew R.
Professor Emeritus: Electrical, Computer and Energy Engineering (ECEE)

Plunkett, Chuck (https://experts.colorado.edu/display/fisid_164006/)
Instructor, Faculty Director: Journalism
MFA, University of Pittsburgh

Pois, Anne Marie
Senior Instructor Emerita: Women and Gender Studies

Policastri, Joan Frances (https://experts.colorado.edu/display/fisid_153867/)
Librarian: School of Law
MLS, University of Denver

Polizzi, Jade Venus (https://experts.colorado.edu/display/fisid_140368/)
Teaching Professor: Environmental Design
MArch, University of Colorado Denver

Pollock, Steven J. (https://experts.colorado.edu/display/fisid_101392/)
Professor: Physics
PhD, Stanford University

Polman, Joseph Louis (https://experts.colorado.edu/display/fisid_151296/)
Professor, Associate Dean: School of Education
PhD, Northwestern University

Polson, Peter G.
Professor Emeritus: Psychology and Neuroscience

Pontis, Lauren
Clinical Assistant Professor: Speech, Language and Hearing Sciences (SLHS)
AuD, University of Colorado Boulder

Popovic, Zoya (https://experts.colorado.edu/display/fisid_101494/)
Distinguished Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, California Institute of Technology

Potter, Hillary A. (https://experts.colorado.edu/display/fisid_124938/)
Associate Professor: Women and Gender Studies
PhD, University of Colorado Boulder

Potter, Jason (https://experts.colorado.edu/display/fisid_103972/)
Assistant Teaching Professor: Philosophy
PhD, University of Colorado Boulder

Potter, Thomas J.
Professor Emeritus: Art and Art History

Potts, Margaret Lee
Associate Professor Emerita: Theatre and Dance

Poulson, Barry
Professor Emeritus: Economics

Pourahmadian, Fatemeh (https://experts.colorado.edu/display/fisid_158562/)
Assistant Professor: Civil, Environmental and Architectural Engineering
PhD, University of Minnesota

Poveda, Jorge
Assistant Professor: Electrical, Computer and Energy Engineering (ECEE)

Pratt, Staci (https://experts.colorado.edu/display/fisid_172342/)
Librarian: Law Library
JD, Boston College

Price, John C. (https://experts.colorado.edu/display/fisid_101129/)
Professor Emeritus: Physics
PhD, Stanford University

Prieto, Andrés Ignacio (https://experts.colorado.edu/display/fisid_143948/)
Professor: Spanish and Portuguese
PhD, University of Connecticut

Pruitt, Kris
Associate Teaching Professor: Applied Mathematics

Psychogiou, Dimitra (https://experts.colorado.edu/display/fisid_158311/)
Assistant Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, ETH Zürich (Switzerland)

Pusateri, Christopher
Teaching Associate Professor: University Libraries
MLIS, University of Washington

Pyrooz, David C. (https://experts.colorado.edu/display/fisid_155784/)
Associate Professor: Sociology; Associate Professor: Institute of Behavioral Science (IBS)
PhD, Arizona State University

Q

Qualley, Charles A.
Professor Emeritus: Art and Art History

Quan, Tracy (https://experts.colorado.edu/display/fisid_167169/)
Assistant Professor: Spanish and Portuguese
PhD, University of California-Davis

Quandt, Catherine Alisha (https://experts.colorado.edu/display/fisid_159414/)
Assistant Professor: Ecology and Evolutionary Biology
PhD, Oregon State University

Quigley, David Philp (https://experts.colorado.edu/display/fisid_164079/)
Assistant Teaching Professor: Computer Science
PhD, University of Colorado Boulder

Quinn, Jeanne (https://experts.colorado.edu/display/fisid_111658/)
Professor, Chair: Art and Art History
MFA, University of Washington

R

Rabaka, Reiland (https://experts.colorado.edu/display/fisid_141463/)
Professor: Ethnic Studies; Professor: Humanities; Faculty Director: Graduate School
PhD, Temple University

Radelet, Michael L. (https://experts.colorado.edu/display/fisid_121802/)
Professor: Sociology
PhD, Purdue University

Radio, Erik (https://experts.colorado.edu/display/fisid_164804/)
Associate Professor: University Libraries
MS, University of Illinois at Urbana-Champaign

Radzihovsky, Leo (https://experts.colorado.edu/display/fisid_107484/)
Professor: Physics
PhD, Harvard University

Rafi, Melvin
Assistant Teaching Professor: Aerospace Engineering Sciences
PhD, Wichita State University

Raggio, Avedan (https://experts.colorado.edu/display/fisid_154482/)
Teaching Assistant Professor: Germanic and Slavic Languages and Literatures
MA, University of Colorado Boulder

Rahman, Shaily (https://experts.colorado.edu/display/fisid_168587/)
Assistant Professor: Geological Sciences
PhD, SUNY at Stony Brook

Raj, Rishi (https://experts.colorado.edu/display/fisid_108413/)
Professor: Mechanical Engineering; Professor: Materials Science & Engineering
PhD, Harvard University

Rajabi, Samira (https://experts.colorado.edu/display/fisid_165414/)
Assistant Professor: Media Studies
PhD, University of Colorado Boulder

Ramirez, Albert
Associate Professor Emeritus: Psychology and Neuroscience

Ramirez, Karen E. (https://experts.colorado.edu/display/fisid_116951/)
Senior Instructor: Miramontes Arts & Sciences Program (MASP)
PhD, University of Illinois at Urbana–Champaign

Ramirez, Walter
Professor Emeritus: Chemical and Biological Engineering

Ramsay, Arlan
Professor Emeritus: Mathematics

Ramsberger, Gail (https://experts.colorado.edu/display/fisid_100943/)
Associate Professor: Speech, Language and Hearing Sciences (SLHS)
ScD, Boston University

Ramsey, Carolyn (https://experts.colorado.edu/display/fisid_118536/)
Professor: School of Law
JD, Stanford University

Randall, Cora Einterz (https://experts.colorado.edu/display/fisid_102010/)
Distinguished Professor Emeritus: Atmospheric and Oceanic Sciences (ATOC); Distinguished Professor Emeritus: Laboratory for Atmospheric and Space Physics (LASP)
PhD, University of California, Santa Cruz

Randall, Erika Anne (https://experts.colorado.edu/display/fisid_144755/)
Professor: Theatre and Dance
MFA, The Ohio State University

Randolph, Theodore W. (https://experts.colorado.edu/display/fisid_101768/)
Professor: Chemical and Biological Engineering; Endowed/Named Professor: College of Engineering and Applied Science
PhD, University of California, Berkeley

Ranganath, Aditya (https://experts.colorado.edu/individual/fisid_167884/)
Teaching Assistant Professor: University Libraries
PhD, University of California, San Diego

Ranjbar, A. Marie (https://experts.colorado.edu/display/fisid_165964/)
Assistant Professor: Women and Gender Studies
PhD, Pennsylvania State University

Rankin, Daniel (https://experts.colorado.edu/display/fisid_156453/)
Associate Teaching Professor, Associate Teaching Professor, Associate Director: ATLAS Institute; Associate Director: Creative Technology & Design
MS, University of Colorado Boulder

Rankin, Patricia (https://experts.colorado.edu/display/fisid_105939/)
Professor Emerita: Physics
PhD, University of London (England)

Raschke, Markus B. (https://experts.colorado.edu/display/fisid_148716/)
Professor: Physics
PhD, Technische Universität München (Germany)

Rast, Mark Peter (https://experts.colorado.edu/display/fisid_142997/)
Professor: Laboratory for Atmospheric and Space Physics (LASP); Professor: Astrophysical and Planetary Sciences (APS)
PhD, University of Colorado Boulder

Ravishankar, G. Ravi (https://experts.colorado.edu/display/fisid_144567/)
Scholar in Residence, Faculty Director: Leeds School of Business
MBA, Massachusetts Institute of Technology

Raymond, Chase Wesley (https://experts.colorado.edu/display/fisid_158278/)
Associate Professor: Linguistics
PhD, University of California, Los Angeles

Readey, Michael J. (https://experts.colorado.edu/display/fisid_157363/)
Instructor Adjunct: Engineering Management Program; Endowed/Named Professor: College of Engineering and Applied Science
PhD, Case Western Reserve University

Reamon, Derek T. (https://experts.colorado.edu/display/fisid_120538/)
Teaching Professor: Mechanical Engineering; Senior Instructor: General Engineering; Faculty Director: College of Engineering and Applied Science
PhD, Stanford University

Reardon, Kevin Patrick (https://experts.colorado.edu/display/fisid_154925/)
Professor Adjunct: Astrophysical and Planetary Sciences (APS)

Rearick, David F.
Professor Emeritus: Mathematics

Reckwerdt, Eric
Assistant Teaching Professor: Computer Science
PhD, University of Hawaii Manoa

Reed, David P. (https://experts.colorado.edu/display/fisid_152458/)
Scholar in Residence: College of Engineering and Applied Science; Scholar in Residence: Computer Science
PhD, Carnegie Mellon University

Regal, Cindy Anne (https://experts.colorado.edu/display/fisid_144184/)
Professor: Physics; Associate Faculty Director: Research & Innovation Office
PhD, University of Colorado Boulder

Reger, Jeremy J. (https://experts.colorado.edu/display/fisid_156224/)
Assistant Professor, Faculty Director: Music
DMA, University of Michigan Ann Arbor

Regoli, Robert M.
Professor Emeritus: Sociology

Regueiro, Richard A. (https://experts.colorado.edu/display/fisid_134705/)
Professor, Associate Professor: Materials Science & Engineering; Associate Professor: Biomedical Engineering; Associate Chair: Civil, Environmental and Architectural Engineering
PhD, Stanford University

Reichenbach, Matt
Assistant Teaching Professor: Applied Mathematics
PhD, University of Nebraska Lincoln

Reid, Blake E. (https://experts.colorado.edu/display/fisid_152860/)
Associate Professor: School of Law
JD, University of Colorado Boulder

Reid, Colleen (https://experts.colorado.edu/display/fisid_157951/)
Assistant Professor: Geography; Assistant Professor: Institute of Behavioral Science (IBS)
PhD, University of California, Berkeley

Reilly, Kerry Anne (https://experts.colorado.edu/display/fisid_131502/)
Associate Teaching Professor: Program for Writing and Rhetoric
MFA, University of Iowa

Reinholtz, Nicholas S. (https://experts.colorado.edu/display/fisid_155180/)
Assistant Professor: Leeds School of Business
PhD, Columbia University

Reitzammer, Laurialan Blake (https://experts.colorado.edu/display/fisid_145810/)
Associate Professor: Classics
PhD, University of California, Berkeley

Rentschler, Mark E. (https://experts.colorado.edu/display/fisid_146091/)
Professor: Mechanical Engineering; Faculty Director: Research & Innovation Office; Associate Professor: Biomedical Engineering
PhD, University of Nebraska-Lincoln

Repenning, Alexander (https://experts.colorado.edu/display/fisid_104946/)
Professor Adjunct: Computer Science
PhD, University of Colorado Boulder

Requiro, David (https://experts.colorado.edu/display/fisid_155785/)
Assistant Professor: Music
MM, University of Michigan Ann Arbor

Resasco, Julian (https://experts.colorado.edu/display/fisid_153799/)
Assistant Professor: Ecology and Evolutionary Biology
PhD, University of Florida

Restrepo, Juan G. (https://experts.colorado.edu/display/fisid_145811/)
Associate Professor: Applied Mathematics
PhD, University of Maryland, College Park

Rexroth, Grace (https://experts.colorado.edu/display/fisid_167469/)
Assistant Teaching Professor: School of Education
PhD, University of Colorado Boulder

Rey, Ana Maria (https://experts.colorado.edu/display/fisid_146407/)
Associate Research Professor: JILA; Professor Adjoint: Physics
PhD, University of Maryland College Park Campus

Reynolds, Chandra
Professor: Psychology and Neuroscience
PhD, University of Southern California

Reynolds, Leslie Jean (https://experts.colorado.edu/display/fisid_153008/)
Senior Associate Dean, Professor: University Libraries
MLIS, University of Illinois at Urbana–Champaign

Reznicek, Birdie C. (https://experts.colorado.edu/display/fisid_149091/)
Instructor, Associate Chair: Leeds School of Business
MBA, Northwestern University

Reznik, Dmitry (https://experts.colorado.edu/display/fisid_147659/)
Professor: Physics; Associate Professor: Materials Science & Engineering
PhD, University of Illinois at Urbana–Champaign

Rezvani, Sheiva
Associate Teaching Professor, Associate Teaching Professor, Faculty Director: Creative Technology & Design; Faculty Director: ATLAS Institute
MA, New York University

Rhee, Soo H. (https://experts.colorado.edu/display/fisid_123401/)
Associate Professor: Psychology and Neuroscience
PhD, Emory University

Rhode, Matthew (https://experts.colorado.edu/display/fisid_165079/)
Assistant Teaching Professor: Aerospace Engineering Sciences
BS, University of Colorado

Rhodes, Harumi B. (https://experts.colorado.edu/display/fisid_155971/)
Associate Professor, Artist in Residence: Music
MM, New England Conservatory of Music

Rich, Kevin M. (https://experts.colorado.edu/display/fisid_157950/)
Associate Professor: Theatre and Dance
MFA, Yale School of Drama

Richardson, Emily (https://experts.colorado.edu/display/fisid_115007/)
Clinical Associate Professor: Psychology and Neuroscience
PhD, University of Iowa

Richey, Clyde W.
Professor Emeritus: Leeds School of Business

Richter, Antje (https://experts.colorado.edu/display/fisid_145310/)
Associate Professor: Asian Languages and Civilizations
Dr habil, University of Kiel (Germany)

Richter, Matthias Ludwig (https://experts.colorado.edu/display/fisid_144864/)
Associate Professor, Chair: Asian Languages and Civilizations
PhD, University of Hamburg (Germany)

Rickels, David Aaron (https://experts.colorado.edu/display/fisid_151424/)
Associate Professor: Music Education
DMA, Arizona State University

Rieker, Gregory Brian (https://experts.colorado.edu/display/fisid_151727/)
Associate Professor: Mechanical Engineering; Associate Faculty Director: Research & Innovation Office
PhD, Stanford University

Riester, Melissa
Major, Assistant Professor: Air Force ROTC
MA, St. Mary's University

Riffell, Daniel J. (https://experts.colorado.edu/display/fisid_154141/)
Associate Professor, Lecturer: Mechanical Engineering
MS, University of Colorado Boulder

Riggle, Gordon Grant
Lecturer: President's Leadership Class

Riis, Thomas L.
Professor Emeritus: Music; Lecturer: Continuing Education & Professional Studies

Rinaldo, Rachel Ann (https://experts.colorado.edu/display/fisid_156309/)
Faculty Director: Center for Asian Studies; Associate Professor: Sociology
PhD, University of Chicago

Ringgenberg, Ralph G.
Professor Emeritus: Leeds School of Business

Rinn, John (https://experts.colorado.edu/display/fisid_159338/)
Professor: Biochemistry; Endowed/Named Professor, Professor: Biofrontiers Institute
PhD, Yale University

Rios, Gabriela (https://experts.colorado.edu/individual/fisid_167679/)
Assistant Professor: Program for Writing and Rhetoric; Assistant Professor: English; Assistant Professor: Ethnic Studies
PhD, Texas AM University

Riosmena, Fernando (https://experts.colorado.edu/display/fisid_144419/)
Associate Professor: Institute of Behavioral Science (IBS); Associate Professor: Sociology
PhD, University of Pennsylvania

Riseman, Christina (https://experts.colorado.edu/display/fisid_164336/)
Clinical Assistant Professor: Speech, Language and Hearing Sciences (SLHS)
MA, University of Colorado Boulder

Ristovska, Sandra (https://experts.colorado.edu/display/fisid_159835/)
Assistant Professor: Media Studies
PhD, University of Pennysylvania

Ritzwoller, Michael H. (https://experts.colorado.edu/display/fisid_102264/)
Professor: Physics
PhD, University of California, San Diego

Rivas Rodríguez, José Javier (https://experts.colorado.edu/display/fisid_144516/)
Professor, Associate Chair: Spanish and Portuguese
PhD, Universidade de Santiago De Compostela (Spain)

Rivera, George F. Jr. (https://experts.colorado.edu/display/fisid_103055/)
Professor: Art and Art History
PhD, SUNY at Buffalo

Rivera, John-Michael (https://experts.colorado.edu/display/fisid_118393/)
Professor: Program for Writing and Rhetoric; Professor, Dean: English; Assistant Dean: College of Arts and Sciences; Professor: Humanities
PhD, University of Texas at Austin

Rivera, Michael (https://experts.colorado.edu/display/fisid_169859/)
Assistant Professor: Computer Science; Assistant Professor: Creative Technology & Design; Assistant Professor: ATLAS Institute
PhD, Carnegie Mellon University

Rivers, Ed (https://experts.colorado.edu/display/fisid_101652/)
Professor: Critical Media Practices
PhD, University of Oregon

Rivlin, Eyal Ofer (https://experts.colorado.edu/display/fisid_151100/)
Teaching Associate Professor, Endowed/Named Professor: Jewish Studies
MA, Naropa Institute

Robbins, M. Mikaela
Lieutenant, Assistant Professor: Navy ROTC
B.S., U.S. Naval Academy

Robbs, Brett
Professor Emeritus: Advertising, Public Relations and Media Design

Roberson, Lee Forrest (https://experts.colorado.edu/display/fisid_158380/)
Teaching Assistant Professor: Mathematics
PhD, University of Northern Colorado

Robertson, Benjamin John (https://experts.colorado.edu/display/fisid_146500/)
Assistant Professor: English
PhD, SUNY at Buffalo

Robertson, Scott H.
Professor Emeritus: Physics
PhD, Cornell University

Robichaux, Waldean
Professor Emeritus: Integrative Physiology

Robinson, Colene Flynn (https://experts.colorado.edu/display/fisid_140754/)
Clinical Professor: School of Law
JD, Loyola University of Chicago

Robinson, Janet Schwartzberg
Senior Instructor: Libby Arts RAP
MA, University of Colorado Denver

Rock, Steven Karl (https://experts.colorado.edu/display/fisid_113689/)
Associate Professor, Chair: Leeds School of Business
PhD, Pennsylvania State University

Rodd, Laurel Rasplica
Professor Emerita: Asian Languages and Civilizations

Rodgers, Timothy (https://experts.colorado.edu/display/fisid_155460/)
Instructor: Leeds School of Business
PhD, University of California, Santa Cruz

Rodriguez, Nancy (https://experts.colorado.edu/display/fisid_164028/)
Assistant Professor: Applied Mathematics
PhD, University of California-Los Angeles

Roeder, Matthew J. (https://experts.colorado.edu/display/fisid_120180/)
Associate Professor: Music Education; Associate Professor, Associate Dean: Music
DMA, University of Colorado Boulder

Rogers, Andrei
Professor Emeritus: Geography

Rogers, Charles (https://experts.colorado.edu/display/fisid_101331/)
Professor: Physics; Professor: Materials Science & Engineering
PhD, Cornell University

Rogers, Jonathan Lawrence (https://experts.colorado.edu/display/fisid_153009/)
Professor, Endowed/Named Professor: Leeds School of Business
PhD, University of Pennsylvania

Rogers, Richard G. (https://experts.colorado.edu/display/fisid_106129/)
Professor: Sociology; Professor: Institute of Behavioral Science (IBS)
PhD, University of Texas at Austin

Roithmayr, Daria
Professor: School of Law
JD, Georgetown University

Rolf, Esther
Assistant Professor: Computer Science
PhD, University of California Berkeley

Romanov, Artemi (https://experts.colorado.edu/display/fisid_100659/)
Professor: Germanic and Slavic Languages and Literatures; Faculty Director: International Education; Faculty Director: Global RAP
PhD, St. Petersburg University (Russia)

Romatschke, Paul (https://experts.colorado.edu/display/fisid_149870/)
Professor: Physics
PhD, Technical Univ of Vienna (Austria)

Romero, Brenda M. (https://experts.colorado.edu/display/fisid_106117/)
Professor Emerita: Music
PhD, University of California-Los Angeles

Roncone, Alessandro (https://experts.colorado.edu/display/fisid_164509/)
Assistant Professor: Computer Science; Faculty Director: College of Engineering and Applied Science
PhD, Istituto Italiano di Tecnologia (Italy)

Rood, David
Professor Emeritus: Linguistics

Root, David H. (https://experts.colorado.edu/display/fisid_159444/)
Assistant Professor: Psychology and Neuroscience
PhD, Rutgers University

Roque, Ricarose (https://experts.colorado.edu/display/fisid_158315/)
Assistant Professor: Information Science; Assistant Professor: Computer Science
PhD, Massachusetts Institute of Technology

Rosario-Franco, Marialis (https://experts.colorado.edu/display/fisid_172547/)
Assistant Teaching Professor: Astrophysical and Planetary Sciences (APS)
PhD, University of Texas at Arlington

Rosario-Ortiz, Fernando L. (https://experts.colorado.edu/display/fisid_146165/)
Director, Director, Professor: Environmental Engineering Program (EVEN); Professor: Civil, Environmental and Architectural Engineering; Associate Dean: College of Engineering and Applied Science
DEnv, University of California, Los Angeles

Rosner, Hillary (https://experts.colorado.edu/display/fisid_164326/)
Instructor: Journalism
MFA, New York University

Ross-Bryant, Lynn
Professor Emerita: Religious Studies

Rosse, Joseph G.
Professor Emeritus: Leeds School of Business: Leeds School of Business

Rossman, J. Matthew (https://experts.colorado.edu/display/fisid_156619/)
Assistant Research Professor: Integrative Physiology
PhD, University of Utah

Roth, Yumi J. (https://experts.colorado.edu/display/fisid_126287/)
Associate Professor: Art and Art History
MFA, SUNY College at New Paltz

Roudbari, Shawhin (https://experts.colorado.edu/display/fisid_153645/)
Associate Professor: Environmental Design
PhD, University of California, Berkeley

Rowe, K. Rachel (https://experts.colorado.edu/display/fisid_168365/)
Assistant Professor: Integrative Physiology
PhD, University of Kentucky

Rowland, Willard D.
Professor Emeritus: Media Studies

Rozenberg, Grzegorz (https://experts.colorado.edu/display/fisid_100478/)
Professor Adjoint: Computer Science

Ruben, Shalom D. (https://experts.colorado.edu/display/fisid_149492/)
Associate Teaching Professor: Mechanical Engineering
PhD, University of California, Los Angeles

Rudy, Jerry W.
Professor Emeritus: Psychology and Neuroscience
PhD, University of Virginia

Rueb, Teri Susan (https://experts.colorado.edu/display/fisid_163944/)
Professor, Chair: Critical Media Practices
PhD, Harvard University

Ruestow, Edward G.
Professor Emeritus: History

Rukamathu, Mark (https://experts.colorado.edu/display/fisid_174660/)
Teaching Associate Professor: Environmental Design
MArch, Harvard Graduate School of Design

Rumbles, Garry (https://experts.colorado.edu/display/fisid_147479/)
Professor Adjoint: Chemistry; Professor Adjoint: Materials Science & Engineering
PhD, University of London (England)

Runner, Meredith
Professor Emeritus: Molecular, Cellular & Developmental Biology (MCDB)

Rupert, Robert (https://experts.colorado.edu/display/fisid_139802/)
Professor, Chair: Philosophy; Chair: Faculty Council, A&S
PhD, University of Illinois at Chicago

Rupp, Travis (https://experts.colorado.edu/display/fisid_148747/)
Assistant Teaching Professor: Classics
MA, University of Colorado Boulder

Rutkovitz, Jared
Major, Assistant Professor: Air Force ROTC
MBA, Naval Postgraduate School

Ruzzene, Massimo (https://experts.colorado.edu/display/fisid_165832/)
Endowed/Named Professor, Associate Dean: College of Engineering and Applied Science
PhD, Politecnico Di Torino (Italy)

Ryan, Joseph N. (https://experts.colorado.edu/display/fisid_101037/)
Professor: Civil, Environmental and Architectural Engineering; Professor, Faculty Director: Environmental Engineering Program (EVEN)
PhD, Massachusetts Institute of Technology

Ryan, Kathleen Marie (https://experts.colorado.edu/display/fisid_148481/)
Associate Professor: Journalism
PhD, University of Oregon

Rybin Koob, Amanda (https://experts.colorado.edu/display/fisid_166576/)
Assistant Professor: University Libraries
MLIS, University of Denver

S

Sabinson, Elena (https://experts.colorado.edu/display/fisid_173948/)
Assistant Professor: Environmental Design
PhD, Cornell University

Sable, Barbara Kinsey
Professor Emeritus: Music

Saccone, Max (https://experts.colorado.edu/display/fisid_175898/)
Assistant Professor: Mechanical Engineering
PhD, California Institute of Technology

Sacks, Elias R. (https://experts.colorado.edu/display/fisid_151425/)
Associate Professor: Religious Studies
PhD, Princeton University

Saddoris, Michael Paul (https://experts.colorado.edu/display/fisid_152979/)
Associate Professor: Psychology and Neuroscience
PhD, Johns Hopkins University

Safran, Rebecca J. (https://experts.colorado.edu/display/fisid_145518/)
Professor: Ecology and Evolutionary Biology
PhD, Cornell University

Safran, William
Professor Emeritus: Political Science

Said, Wadie
Professor: School of Law
JD, Columbia University

Salvinelli, Carlo (https://experts.colorado.edu/display/fisid_159846/)
Assistant Teaching Professor: Civil, Environmental and Architectural Engineering
PhD, Missouri University of Science and Technology

Salys, Rimgaila
Professor Emerita: Germanic and Slavic Languages and Literatures

Sama, Vicky
Scholar in Residence: Journalism
MA, University of Colorado Boulder

Sammakia, Tarek (https://experts.colorado.edu/display/fisid_101597/)
Professor Emeritus, Chair: Chemistry
PhD, Yale University

Samper, Jota (https://experts.colorado.edu/display/fisid_157949/)
Associate Professor: Environmental Design; Faculty Director: International Education
PhD, MIT-DUSP

Sampsel, Laurie (https://experts.colorado.edu/display/fisid_101802/)
Professor: Music
PhD, University of Pittsburgh

Sampson, John Franklin
Professor Emeritus: Art and Art History

Samuelson, Charlie (https://experts.colorado.edu/display/fisid_163645/)
Assistant Professor: French & Italian
PhD, Princeton University

Sancar, Fahriye Hazer
Professor Emeritus: Environmental Design

Sanchez, Sara (https://experts.colorado.edu/display/fisid_167959/)
Assistant Professor: Atmospheric and Oceanic Sciences (ATOC)
Ph.D., University of California- San Diego

Sanford, Jason Sidney (https://experts.colorado.edu/display/fisid_165067/)
Instructor: Critical Media Practices

Sankaranarayanan, Sriram (https://experts.colorado.edu/display/fisid_147413/)
Assistant Dean, Professor, Associate Chair: Computer Science; Endowed/Named Professor: College of Engineering and Applied Science; Professor: Electrical, Computer and Energy Engineering (ECEE); Associate Professor: Biomedical Engineering
PhD, Stanford University

Santiago Schwarz, Vanessa (https://experts.colorado.edu/display/fisid_163872/)
Assistant Teaching Professor: School of Education
PhD, University of Colorado Boulder

Santos, Jose R. (https://experts.colorado.edu/display/fisid_124623/)
Associate Teaching Professor: Computer Science
MS, University of Colorado Boulder

Saouma, Victor E. (https://experts.colorado.edu/display/fisid_100429/)
Professor Emeritus: Civil, Environmental and Architectural Engineering
PhD, Cornell University

Sasnett-Martichuski, Diane Kay (https://experts.colorado.edu/display/fisid_111599/)
Lecturer: Continuing Education & Professional Studies
PhD, Colorado State University

Saucedo, Raul (https://experts.colorado.edu/display/fisid_153759/)
Assistant Professor: Philosophy
PhD, Cornell University

Saul, Leif J. (https://experts.colorado.edu/display/fisid_116130/)
Associate Teaching Professor: Integrative Physiology
PhD, University of California, Berkeley

Saurini, Susanna (https://experts.colorado.edu/display/fisid_148725/)
Associate Teaching Professor: French & Italian
MA, University of L'Aquila

Sauther, Michelle Linda (https://experts.colorado.edu/display/fisid_107236/)
Professor: Anthropology
PhD, Washington University

Savage, Scott James (https://experts.colorado.edu/display/fisid_121239/)
Professor: Economics
PhD, Curtin University of Technology (Western Australia)

Sawchuk, Terry M.
Associate Professor Emeritus: Music
MM, University of Michigan Ann Arbor

Sawyer, Sara Lea (https://experts.colorado.edu/display/fisid_155218/)
Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Cornell University

Saxby, Justin
Assistant Teaching Professor: English

Saxton, Richard W. (https://experts.colorado.edu/display/fisid_144756/)
Associate Professor: Art and Art History; Associate Professor: Critical Media Practices
MFA, Indiana University Bloomington

Scarborough, Rebecca (https://experts.colorado.edu/display/fisid_143741/)
Associate Professor, Associate Chair: Linguistics
PhD, University of California, Los Angeles

Scarritt, James R.
Professor Emeritus: Political Science

Schaal, David A. (https://experts.colorado.edu/display/fisid_114824/)
Associate Teaching Professor: ATLAS Institute; Associate Teaching Professor: Creative Technology & Design
MFA, University of Colorado Boulder

Schaberg, Petger J. (https://experts.colorado.edu/display/fisid_103135/)
Associate Teaching Professor: Program for Writing and Rhetoric
MA, University of Colorado Boulder

Schaetzel, Amanda E. (https://experts.colorado.edu/display/fisid_154385/)
Assistant Teaching Professor: Integrative Physiology
PhD, University of Colorado Boulder

Schattke, Rudolph
Professor Emeritus: Leeds School of Business

Schaub, Hanspeter (https://experts.colorado.edu/display/fisid_143818/)
Distinguished Professor, Endowed/Named Professor, Professor: Colorado Center for Astrodynamics Research (CCAR); Endowed/Named Professor: College of Engineering and Applied Science; Chair: Aerospace Engineering Sciences
PhD, Texas A&M University

Schaub, Kevin D. (https://experts.colorado.edu/display/fisid_144142/)
Senior Instructor, Faculty Director: Leeds School of Business
MBA, University of Colorado Boulder

Schauster, Erin E. (https://experts.colorado.edu/display/fisid_156310/)
Associate Chair, Associate Professor: Advertising, Public Relations and Media Design
PhD, University of Missouri–Columbia

Scheeres, Daniel J. (https://experts.colorado.edu/display/fisid_145035/)
Distinguished Professor, Endowed/Named Professor: Aerospace Engineering Sciences
PhD, University of Michigan Ann Arbor

Scheib, Jennifer G. (https://experts.colorado.edu/display/fisid_159887/)
Assistant Teaching Professor: Civil, Environmental and Architectural Engineering
MS, University of Colorado Boulder

Schell, Emily
Teaching Assistant Professor: Psychology and Neuroscience
PhD, Stanford University

Scherr, Timothy (https://experts.colorado.edu/display/fisid_156259/)
Senior Instructor: Electrical, Computer and Energy Engineering (ECEE); Associate Faculty Director: College of Engineering and Applied Science
MS, University of Utah

Schibli, Hisako (https://experts.colorado.edu/display/fisid_148621/)
Teaching Assistant Professor: Asian Languages and Civilizations
MA, University of Colorado Boulder; BA, Sophia University (Japan)

Schibli, Thomas Richard (https://experts.colorado.edu/display/fisid_143464/)
Professor: Physics; Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, Univ of Karlsruhe (Germany)

Schincariol, Marcelo Tadeu (https://experts.colorado.edu/display/fisid_148724/)
Associate Teaching Professor: Spanish and Portuguese
PhD, Universidade Estadual de Campinas (Brazil)

Schindler, Patricia A.
Senior Instructor Emerita: Germanic and Slavic Languages and Literatures

Schlag, Pierre J. (https://experts.colorado.edu/display/fisid_105653/)
Distinguished Professor, Endowed/Named Professor: School of Law
JD, University of California, Los Angeles

Schlosser, Sarah (https://experts.colorado.edu/display/fisid_159679/)
Teaching Associate Professor: Geography
MA, University of South Florida

Schmidt, Sebastian (https://experts.colorado.edu/display/fisid_140121/)
Associate Professor: Laboratory for Atmospheric and Space Physics (LASP); Associate Professor: Atmospheric and Oceanic Sciences (ATOC)
PhD, Leipzig University (Germany)

Schmidt, Steve (https://experts.colorado.edu/display/fisid_103713/)
Professor: Ecology and Evolutionary Biology
PhD, Cornell University

Schmidt, Wolfgang
Professor Emeritus: Mathematics

Schmiesing, Ann C. (https://experts.colorado.edu/display/fisid_106248/)
Professor: Germanic and Slavic Languages and Literatures
PhD, University of Cambridge (England)

Schnabel, Robert B. (https://experts.colorado.edu/display/fisid_100499/)
Professor, Faculty Director: Computer Science
PhD, Cornell University

Schneider, Nathan Todd (https://experts.colorado.edu/display/fisid_156512/)
Director, Associate Faculty Director: Media Studies
MA, University of California, Santa Barbara

Schneider, Nicholas M. (https://experts.colorado.edu/display/fisid_102620/)
Professor: Laboratory for Atmospheric and Space Physics (LASP); Professor: Astrophysical and Planetary Sciences (APS)
PhD, University of Arizona

Schnizer-Luger, Karoline (https://experts.colorado.edu/display/fisid_156579/)
Professor: Biochemistry
PhD, Univ of Basel (Switzerland)

Schoennagel, Tania (https://experts.colorado.edu/display/fisid_139625/)
Assistant Professor Adjunct: Geography

Schonberger, Bryce (https://experts.colorado.edu/display/fisid_167332/)
Assistant Professor: Leeds School of Business
PhD, University of Southern California

Schranz, Karoly
Senior Instructor: Music
Diploma, Franz Liszt Academy of Music

Schreüder, Willem A. (https://experts.colorado.edu/display/fisid_143834/)
Associate Professor Adjunct: Computer Science
PhD, University of Stellenbosch

Schulte, Stacey (https://experts.colorado.edu/display/fisid_146819/)
Teaching Professor: Environmental Design
MURP, University of Colorado Denver

Schulte-Pelkum, Vera (https://experts.colorado.edu/display/fisid_126623/)
Associate Research Professor, Lecturer: Geological Sciences
PhD, University of California-San Diego

Schultz, Kathy (https://experts.colorado.edu/individual/fisid_157988/)
Professor: School of Education
PhD, University of Pennsylvania

Schut, Joel
Instructor: Music
DMA, Michigan State University

Schütrumpf, Eckart E.W.
Professor Emeritus: Classics

Schwartz, Andrew Abraham (https://experts.colorado.edu/display/fisid_146092/)
Professor: School of Law
JD, Columbia University

Schwartz, Daniel K. (https://experts.colorado.edu/display/fisid_118479/)
Professor: Chemical and Biological Engineering
PhD, Harvard University

Schwartz, Trudy L. (https://experts.colorado.edu/display/fisid_108607/)
Teaching Professor, Associate Chair: Aerospace Engineering Sciences
MS, University of Colorado Boulder

Scornovacco, Karla
Assistant Teaching Professor: School of Education
PhD, University of Colorado Boulder

Scott, F. Wayne
Professor Emeritus: Music

Seals, Douglas R. (https://experts.colorado.edu/display/fisid_103375/)
Distinguished Professor: Integrative Physiology
PhD, University of Wisconsin–Madison

Sears, Curtis R. (https://experts.colorado.edu/display/fisid_145482/)
Senior Instructor, Endowed/Named Professor: Leeds School of Business
JD, University of Colorado Boulder

Sears, Kelly L. (https://experts.colorado.edu/display/fisid_154467/)
Associate Professor: Cinema Studies & Moving Image Arts
MFA, University of California, San Diego

Seastedt, Timothy
Professor: Institute of Arctic & Alpine Research (INSTAAR); Professor, Associate Chair: Ecology and Evolutionary Biology
PhD, University of Georgia

Seesholtz, John (https://experts.colorado.edu/display/fisid_163908/)
Associate Professor, Faculty Director: Music
DMA, University of North Texas

Segil, Jacob Lionel (https://experts.colorado.edu/display/fisid_155128/)
Instructor: General Engineering; Instructor: Engineering-Bold Center; Research Professor: Mechanical Engineering
PhD, University of Colorado Boulder

Segur, Harvey (https://experts.colorado.edu/display/fisid_102287/)
Professor Emeritus: Applied Mathematics
PhD, University of California, Berkeley

Selden, Karen E.
Faculty Director: Law Library
MLS, Simmons College

Selto, Frank
Professor Emeritus: Leeds School of Business

Semenoff, Emily (https://experts.colorado.edu/individual/fisid_164614/)
Teaching Assistant Professor: University Libraries
MLIS, University of Denver

Semsar, Katharine Anne (https://experts.colorado.edu/display/fisid_144750/)
Senior Instructor, Faculty Director: Miramontes Arts & Sciences Program (MASP)

Seney, Lauren P. (https://experts.colorado.edu/display/fisid_166534/)
Associate Director: Law Library
MSIS, University of Tennessee

Seno, Cosetta (https://experts.colorado.edu/display/fisid_144515/)
Associate Professor: French & Italian
PhD, University of California, Berkeley

Senseney, Christopher (https://experts.colorado.edu/individual/fisid_166693/)
Associate Teaching Professor: Civil, Environmental and Architectural Engineering
PhD, Colorado School of Mines

Sepulveda Arellano, Julio Cesar (https://experts.colorado.edu/display/fisid_154923/)
Associate Professor: Geological Sciences; Assistant Professor: Institute of Arctic & Alpine Research (INSTAAR)
PhD, University of Bremen (Germany)

Sepúlveda, Enrique (https://experts.colorado.edu/display/fisid_159858/)
Assistant Professor: Ethnic Studies
PhD, University of California, Davis

Serreze, Mark (https://experts.colorado.edu/display/fisid_106334/)
Distinguished Professor, Distinguished Professor: Geography; Faculty Director: National Snow & Ice Data Center (NSIDC); Faculty Director: Cooperative Institute for Research in Environmental Sciences (CIRES)
PhD, University of Colorado Boulder

Seward, Lori Elizabeth (https://experts.colorado.edu/display/fisid_113934/)
Faculty Director: International Education; Senior Instructor, Faculty Director: Leeds School of Business
PhD, Virginia Polytechnic Institute and State University

Sewell, CheyOnna M R
Instructor: Miramontes Arts & Sciences Program (MASP)
PhD, University of Missouri-Saint Louis

Shade-Johnson, Jaquetta
Assistant Professor: Program for Writing and Rhetoric; Assistant Professor: English
PhD, Michigan State University

Shaheen, Sean Eric (https://experts.colorado.edu/display/fisid_153664/)
Professor: Electrical, Computer and Energy Engineering (ECEE); Professor: Physics
PhD, University of Arizona

Shakiba, Maryam (https://experts.colorado.edu/display/fisid_172206/)
Assistant Professor: Aerospace Engineering Sciences
PhD, Texas AM University

Shalm, Lynden Krister (https://experts.colorado.edu/display/fisid_152367/)
Lecturer: Physics
PhD, University of Toronto

Shankman, Paul
Professor Emeritus: Anthropology

Shanmugaraj, Nisha (https://experts.colorado.edu/display/fisid_173859/)
Assistant Professor: English; Assistant Professor: Program for Writing and Rhetoric
PhD, Carnegie Mellon University

Shannon, Jennifer A. (https://experts.colorado.edu/display/fisid_147612/)
Associate Professor: Museum and Field Studies; Associate Professor: Anthropology
PhD, Cornell University

Shannon, Megan L. (https://experts.colorado.edu/display/fisid_154265/)
Associate Professor: Political Science
PhD, University of Iowa

Shannon, Robert J.
Senior Instructor Emeritus: Theatre and Dance

Sharma, Anu (https://experts.colorado.edu/display/fisid_143814/)
Professor, Associate Chair: Speech, Language and Hearing Sciences (SLHS)
PhD, Northwestern University

Sharma, Vijaya Raj
Instructor: Libby Arts RAP
PhD, University of Colorado Boulder

Shay, Erin J.
Assistant Professor Adjunct: Linguistics
PhD, University of Colorado

Shay, Robert S. (https://experts.colorado.edu/display/fisid_154671/)
Dean, Professor: Music
PhD, University of North Carolina Chapel Hill

Sheafor, Steve
Lecturer: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of Illinois

Shear, Benjamin R. (https://experts.colorado.edu/display/fisid_157747/)
Assistant Professor: School of Education
PhD, Stanford University

Shear, Ted (https://experts.colorado.edu/display/fisid_166781/)
Assistant Teaching Professor: Philosophy
PhD, University of California-Davis

Shearston, Jenni
Assistant Professor: Integrative Physiology
PhD, Oregon State University

Sheehan, Anne (https://experts.colorado.edu/display/fisid_103645/)
Professor: Cooperative Institute for Research in Environmental Sciences (CIRES); Chair, Professor: Geological Sciences
PhD, Massachusetts Institute of Technology

Sheffield, Elisabeth Ann (https://experts.colorado.edu/display/fisid_123500/)
Professor: English
PhD, SUNY at Buffalo

Shell, Hanna Rose (https://experts.colorado.edu/display/fisid_163199/)
Associate Professor: Art and Art History; Professor: Cinema Studies & Moving Image Arts; Associate Professor: History; Faculty Director: College of Arts and Sciences
PhD, Harvard University

Shen, Jingshi (https://experts.colorado.edu/display/fisid_146414/)
Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Columbia University

Shepard, James R.
Professor Emeritus: Physics
PhD, University of Colorado Boulder

Shepard, Lorrie A. (https://experts.colorado.edu/display/fisid_105949/)
Professor Emeritus: School of Education
PhD, University of Colorado Boulder

Shepherd Macklin, JulieMarie Anjali (https://experts.colorado.edu/display/fisid_153034/)
Instructor: Political Science; Instructor: President's Leadership Class
PhD, University of Colorado Boulder

Shepperd, Josh (https://experts.colorado.edu/display/fisid_167233/)
Assistant Professor: Media Studies
PhD, University of Wisconsin-Madison

Sher, Daniel (https://experts.colorado.edu/individual/fisid_100194/)
Professor, Dean Emeritus: Music
EdD, Columbia University

Sherwood, David
Associate Professor Emeritus: Integrative Physiology

Shi, Jia (https://experts.colorado.edu/display/fisid_143673/)
Associate Teaching Professor: Integrative Physiology
PhD, Boston University

Shi, Yuan (https://experts.colorado.edu/display/fisid_172193/)
Assistant Professor: Physics
PhD, Princeton University

Shields, C. Wyatt IV (https://experts.colorado.edu/individual/fisid_165173/)
Assistant Professor: Chemical and Biological Engineering; Assistant Professor: Biomedical Engineering
PhD, Duke University

Shih, Evelyn Ming Whai (https://experts.colorado.edu/display/fisid_163646/)
Assistant Professor: Asian Languages and Civilizations
PhD, University of California, Berkeley

Shin, Adrian (https://experts.colorado.edu/display/fisid_158138/)
Assistant Professor: Political Science
PhD, University of Michigan Ann Arbor

Shirts, Michael R. (https://experts.colorado.edu/display/fisid_156474/)
Professor: Chemical and Biological Engineering
PhD, Stanford University

Shiue, Carol Hua (https://experts.colorado.edu/display/fisid_141892/)
Professor: Economics; Professor: History
PhD, Yale University

Sholtes, Joel Stephen (https://experts.colorado.edu/display/fisid_164757/)
Assistant Teaching Professor: Civil, Environmental and Architectural Engineering
PhD, Colorado State University

Sholtes, Kari A. (https://experts.colorado.edu/display/fisid_164995/)
Assistant Teaching Professor: Civil, Environmental and Architectural Engineering
MS, University of North Carolina Chapel Hill

Shoup, Eileen
Lecturer: Cinema Studies & Moving Image Arts
MFA, University of Colorado Boulder

Shrikant, Natasha (https://experts.colorado.edu/display/fisid_157954/)
Associate Professor: Communication
PhD, University of Massachusetts at Amherst

Shriver, Scott Kennedy (https://experts.colorado.edu/display/fisid_158937/)
Assistant Professor: Leeds School of Business
PhD, Stanford University

Shukri, Salma Tariq (https://experts.colorado.edu/display/fisid_158219/)
Instructor: Leeds School of Business
PhD, University of Denver

Shull, J Michael
Professor Emeritus: Astrophysical and Planetary Sciences (APS); Professor: Center for Astrophysics & Space Astronomy (CASA)
PhD, Princeton University

Sideris, Sabrina (https://experts.colorado.edu/display/fisid_120493/)
Assistant Teaching Professor: School of Education; Instructor: INVST Community Studies
PhD, University of Denver

Sieber, Diane E. (https://experts.colorado.edu/display/fisid_101394/)
Associate Professor: Engineering, Ethics & Society
PhD, Princeton University

Siergiejczyk-Nicoll, Galina (https://experts.colorado.edu/display/fisid_148167/)
Teaching Assistant Professor: Germanic and Slavic Languages and Literatures; Instructor: Continuing Education & Professional Studies
PhD, University of Colorado Boulder

Sievers, Robert E. (https://experts.colorado.edu/display/fisid_102866/)
Faculty Director: Grad Sch-Environmental Prgm; Professor Emeritus: Chemistry
PhD, University of Illinois at Urbana–Champaign

Siewert, Sam
Associate Professor Adjunct: Electrical, Computer and Energy Engineering (ECEE)

Silleras-Fernández, Núria (https://experts.colorado.edu/display/fisid_147213/)
Professor: Spanish and Portuguese; Associate Professor: History; Professor: Humanities
PhD, Universitat Autònoma de Barcelona (Spain)

Silver, Daniel S. (https://experts.colorado.edu/display/fisid_115564/)
Professor: Music
MM, University of Michigan Ann Arbor

Silverstein, JoAnn (https://experts.colorado.edu/display/fisid_101482/)
Professor Emeritus: Civil, Environmental and Architectural Engineering; Professor: Environmental Engineering Program (EVEN)
PhD, University of California, Davis

Sim, Claude
Assistant Professor: Music
BM, Oberlin Conservatory

Simmonds, Raymond
Lecturer: Physics
PhD, University of California, Berkeley

Simon, Peter
Associate Professor Emeritus: School of Law
JD, University of California, Berkeley

Simonson, Peter D.
Professor Emeritus: Communication; Professor: Media Studies
PhD, University of Iowa

Simpson, Carl (https://experts.colorado.edu/display/fisid_159652/)
Assistant Professor: Geological Sciences; Assistant Professor: Museum and Field Studies
PhD, University of Chicago

Simpson, Michele D. (https://experts.colorado.edu/display/fisid_145311/)
Senior Instructor: Farrand RAP; Lecturer: Student Academic Services Center
JD, Indiana University

Singh, Chahat (https://experts.colorado.edu/display/fisid_175890/)
Assistant Professor: Mechanical Engineering
PhD, University of Maryland

Singh, Ravinder (https://experts.colorado.edu/display/fisid_112067/)
Associate Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Baylor College of Medicine

Sinha, Vandna (https://experts.colorado.edu/display/fisid_165162/)
Associate Research Professor: School of Education
PhD, University of Denver

Sinkinson, Caroline B. (https://experts.colorado.edu/display/fisid_141709/)
Professor, Faculty Director: University Libraries
MLIS, Kent State University

Sirangelo, Mark (https://experts.colorado.edu/individual/fisid_164135/)
Entrepreneur in Residence: Aerospace Engineering Sciences
JD, Seton Hall University

Skerski, Jamie L. (https://experts.colorado.edu/display/fisid_149871/)
Teaching Professor: Communication; Lecturer: Continuing Education & Professional Studies
PhD, Indiana University Bloomington

Skewes, Elizabeth (https://experts.colorado.edu/display/fisid_122724/)
Associate Professor: Journalism; Faculty Director: College of Media, Communication & Information
PhD, Syracuse University

Skinner-Thompson, Jonathan (https://experts.colorado.edu/display/fisid_164900/)
Associate Professor: School of Law
JD, Duke University

Skinner-Thompson, Scott (https://experts.colorado.edu/display/fisid_159158/)
Associate Professor: School of Law
JD, New York University

Skodje, Rex T. (https://experts.colorado.edu/display/fisid_103448/)
Professor Emeritus: Chemistry
PhD, University of Minnesota Twin Cities

Skrla, Eric
Captain, Assistant Professor: Air Force ROTC
MA, University of Colorado Boulder

Slayden, David Lee (https://experts.colorado.edu/display/fisid_113297/)
Associate Professor: Advertising, Public Relations and Media Design; Faculty Director: College of Media, Communication & Information
PhD, Indiana University Bloomington

Slichter, Daniel
Lecturer: Physics
PhD, University of California, Berkeley

Sluiter, David
Professor Adjunct: Electrical, Computer and Energy Engineering (ECEE)
BS, Michigan Technological University

Tilton, Eric (https://experts.colorado.edu/display/fisid_126548/)
Professor, Associate Chair: Geological Sciences
PhD, University of California, Santa Cruz

Smalyukh, Ivan (https://experts.colorado.edu/display/fisid_144757/)
Professor: Physics; Professor: Materials Science & Engineering
PhD, Kent State University

Smith, Jeremy L. (https://experts.colorado.edu/display/fisid_118265/)
Professor: Music
PhD, University of California, Santa Barbara

Smith, Julie Scher (https://experts.colorado.edu/display/fisid_166064/)
Instructor: Leeds School of Business
MBA, University of Chicago

Smith, Marshall David (https://experts.colorado.edu/display/fisid_144719/)
Instructor: Farrand RAP

Smith, Stacey Dewitt (https://experts.colorado.edu/display/fisid_153407/)
Associate Professor: Ecology and Evolutionary Biology
PhD, University of Wisconsin–Madison

Smith, Wilson (https://experts.colorado.edu/display/fisid_166095/)
Professor: Chemical and Biological Engineering
PhD, University of Georgia

Smutzler, Natalie (https://experts.colorado.edu/individual/fisid_113933/)
Teaching Associate Professor: Psychology and Neuroscience
PhD, Indiana University Bloomington

Snell, Kathryn Elaine (https://experts.colorado.edu/display/fisid_155298/)
Associate Professor: Geological Sciences
PhD, University of California, Santa Cruz

Snow, Theodore P. Jr
Professor Emeritus: Astrophysical and Planetary Sciences (APS)

Snyder, Douglas J.
Instructor: Baker RAP
PhD, University of Colorado Boulder

Soares, Kristie (https://experts.colorado.edu/display/fisid_147081/)
Assistant Professor: Women and Gender Studies
PhD, University of California, Santa Barbara

Sohi, Seema (https://experts.colorado.edu/display/fisid_144616/)
Associate Professor: Ethnic Studies; Associate Professor: History
PhD, University of Washington

Sokhey, Anand Edward (https://experts.colorado.edu/display/fisid_147113/)
Professor: Political Science
PhD, The Ohio State University

Sokhey, Sarah Wilson (https://experts.colorado.edu/display/fisid_147614/)
Associate Professor: Political Science; Faculty Director: Institute of Behavioral Science (IBS)
PhD, The Ohio State University

Soltys, Michael A. (https://experts.colorado.edu/display/fisid_152021/)
Teaching Associate Professor: General Engineering; Teaching Professor, Associate Faculty Director: Integrated Design Engineering
PhD, University of Colorado Boulder

Somenzi, Fabio (https://experts.colorado.edu/display/fisid_103969/)
Professor, Associate Chair: Electrical, Computer and Energy Engineering (ECEE)
PhD, Politecnico Di Torino (Italy)

Somers, Nichelle
Lieutenant Colonel, Assistant Professor: Air Force ROTC
MA, University of Colorado, Colorado Springs

Song, Jeong-Hoon (https://experts.colorado.edu/display/fisid_154468/)
Associate Professor: Civil, Environmental and Architectural Engineering; Assistant Professor: Materials Science & Engineering
PhD, Northwestern University

Song, Yangwei (https://experts.colorado.edu/display/fisid_167159/)
Assistant Professor: Economics
PhD, University of Rochester

Songer, Anthony
Lecturer: Engineering Management Program
PhD, University of California Berkeley

Sorenson, Ralph Z.
Professor Emeritus: Leeds School of Business

Souder, Heidi L.
Instructor: Baker RAP
PhD, University of South Florida

Sousa, Marcelo Carlos (https://experts.colorado.edu/display/fisid_122806/)
Professor: Biochemistry
PhD, Univ of Buenos Aires (Argentina)

Southall, Lawrence (https://experts.colorado.edu/display/fisid_143027/)
Instructor: Theatre and Dance
MFA, University of Colorado Boulder

Sowah, Nii Armah (https://experts.colorado.edu/display/fisid_115125/)
Senior Instructor: Theatre and Dance
MA, Lesley College

Spanier, Nancy L.
Professor Emerita: Theatre and Dance

Sparks, Katie
Teaching Assistant Professor: University Libraries
MLS, Valdosta State University

Speck, Sloan G. (https://experts.colorado.edu/display/fisid_155972/)
Associate Professor: School of Law
LLM, New York University

Spencer, Doug (https://experts.colorado.edu/display/fisid_167579/)
Associate Dean, Associate Professor: School of Law
PhD, University of California-Berkeley

Spencer, Jonathan (https://experts.colorado.edu/display/fisid_164209/)
Teaching Professor: Theatre and Dance
MFA, Ohio University

Spencer, Robert L. (https://experts.colorado.edu/display/fisid_104362/)
Professor: Psychology and Neuroscience
PhD, University of Arizona

Spencer, Sabrina Leigh (https://experts.colorado.edu/display/fisid_154911/)
Associate Professor: Biochemistry; Associate Professor: Biomedical Engineering
PhD, Massachusetts Institute of Technology

Spera, Nicolo Ruggero Ferruccio (https://experts.colorado.edu/display/fisid_148406/)
Associate Professor: Music
DMA, University of Colorado Boulder

Spillman, Robert
Professor Emeritus: Music

Spinetto, Richard D.
Professor Emeritus: Leeds School of Business

Spires, David N.
Senior Instructor Emeritus: History

Sponheimer, Matthew James (https://experts.colorado.edu/display/fisid_129957/)
Professor: Anthropology
PhD, Rutgers University New Brunswick

Sprain, Leah M.H. (https://experts.colorado.edu/display/fisid_151292/)
Associate Professor, Faculty Director: Communication
PhD, University of Washington

Sprenger, Kayla (https://experts.colorado.edu/individual/fisid_165650/)
Assistant Professor: Biomedical Engineering; Assistant Professor: Chemical and Biological Engineering
PhD, University of Washington

Spriggs, Benjamin
Lecturer, Scholar in Residence: Electrical, Computer and Energy Engineering (ECEE)

Squillace, Mark S. (https://experts.colorado.edu/display/fisid_140895/)
Professor, Endowed/Named Professor: School of Law
JD, University of Utah

Sridharan, Vishnu
Assistant Professor: Philosophy
PhD, University of Southern California

Sriramesh, Krishnamurthy (https://experts.colorado.edu/display/fisid_163947/)
Professor: Advertising, Public Relations and Media Design
PhD, University of Maryland College Park Campus

Srubar, Wil V. III (https://experts.colorado.edu/display/fisid_153058/)
Professor: Civil, Environmental and Architectural Engineering; Assistant Professor: Materials Science & Engineering
PhD, Stanford University

St. John, Burton (https://experts.colorado.edu/display/fisid_163948/#teaching)
Faculty Director, Professor: Advertising, Public Relations and Media Design
PhD, Saint Louis University

Stade, Elisabeth Cote (https://experts.colorado.edu/display/fisid_147089/)
Associate Teaching Professor, Faculty Director: Computer Science
MA, University of Colorado Boulder

Stade, Eric (https://experts.colorado.edu/display/fisid_100456/)
Professor: Libby Arts RAP; Professor: Mathematics; Faculty Director, Professor: Sewall RAP; Faculty Director: College of Arts and Sciences
PhD, Columbia University

Staehelin, L. Andrew
Professor Emeritus: Molecular, Cellular & Developmental Biology (MCDB)

Staffel, Julia (https://experts.colorado.edu/display/fisid_163744/)
Associate Professor: Philosophy
PhD, University of Southern California

Stafford, Gabrielle Marks (https://experts.colorado.edu/display/fisid_115917/)
Legal Writing Professor, Senior Instructor: School of Law
JD, Boston University

Stafford, Todd (https://experts.colorado.edu/display/fisid_120676/)
Legal Writing Professor, Faculty Director, Senior Instructor: School of Law
JD, Duke University

Staley, Sara J. (https://experts.colorado.edu/display/fisid_155137/)
Assistant Professor: School of Education
PhD, University of Colorado Boulder

Stallard, Robert Forster (https://experts.colorado.edu/display/fisid_144455/)
Professor Adjoint: Institute of Arctic & Alpine Research (INSTAAR)

Stallings, Michael C. (https://experts.colorado.edu/display/fisid_108745/)
Professor: Institute for Behavioral Genetics (IBG); Professor: Psychology and Neuroscience
PhD, University of Southern California

Stalvey, Harrison Edward (https://experts.colorado.edu/display/fisid_158325/)
Teaching Assistant Professor: Mathematics
PhD, Georgia State University

Stanford-McIntyre, Sarah (https://experts.colorado.edu/display/fisid_163315/)
Assistant Professor: Engineering, Ethics & Society; Assistant Professor: History
PhD, University of Wyoming

Stange, Katherine E. (https://experts.colorado.edu/display/fisid_151508/)
Associate Professor: Mathematics
PhD, Brown University

Stanley, William J. (https://experts.colorado.edu/display/fisid_103616/)
Associate Professor: Music
DMA, University of Illinois at Urbana–Champaign

Stansbury, Jeffrey W.
Professor: Chemical and Biological Engineering; Associate Dean: Materials Science & Engineering
PhD, University of Maryland

Stanton, Christina (https://experts.colorado.edu/display/fisid_156456/)
Clinical Professor: School of Law
JD, University of Colorado Boulder

Stanton, William J.
Professor Emeritus: Leeds School of Business

Stark, Theodore (https://experts.colorado.edu/display/fisid_118462/)
Teaching Professor: Theatre and Dance
MFA, Boston University

Starn, Harry Mohr (https://experts.colorado.edu/display/fisid_160803/)
Senior Instructor, Faculty Director: Leeds School of Business
MS, University of Colorado Boulder

Steen, Sara
Associate Professor: Sociology
PhD, University of Washington

Steinbrenner, Julie E. (https://experts.colorado.edu/display/fisid_152041/)
Associate Teaching Professor, Faculty Director: College of Engineering and Applied Science; Associate Chair: Mechanical Engineering
PhD, Stanford University

Steinmetz, Branden (https://experts.colorado.edu/display/fisid_165415/)
Instructor, Faculty Director: Music
DMA, Michigan State University

Stempien, Jennifer (https://experts.colorado.edu/individual/fisid_143751/)
Associate Teaching Professor: Geological Sciences
PhD, Virginia Polytechnic Institute and State University

Stenson, Kevin M. (https://experts.colorado.edu/display/fisid_128676/)
Professor, Associate Chair: Physics
PhD, University of Wisconsin–Madison

Stephan, Andrew Perry (https://experts.colorado.edu/display/fisid_159297/)
Assistant Professor: Leeds School of Business
PhD, Northwestern University

Stephen, Ricardo Hugh (https://experts.colorado.edu/display/fisid_145994/)
Senior Instructor: Biochemistry
PhD, University of Colorado Boulder

Stephenson, Craig A. (https://experts.colorado.edu/display/fisid_144851/)
Senior Instructor: Leeds School of Business
PhD, University of Arizona

Sternovsky, Zoltan (https://experts.colorado.edu/display/fisid_115211/)
Professor: Aerospace Engineering Sciences; Associate Professor: Laboratory for Atmospheric and Space Physics (LASP)
PhD, Charles University (Czech Republic)

Steup, Matthias (https://experts.colorado.edu/display/fisid_157766/)
Professor: Philosophy
PhD, Brown University

Stevens, Charlene
Associate Professor: Art and Art History
MFA, Indiana University Bloomington

Stevens, John Richard (https://experts.colorado.edu/display/fisid_145848/)
Associate Professor, Chair: Media Studies
PhD, University of Texas at Austin

Stevens, Nancy
Professor: Anthropology
PhD, Stonybrook University

Stevenson, Amanda Jean (https://experts.colorado.edu/display/fisid_157687/)
Assistant Professor: Institute of Behavioral Science (IBS); Assistant Professor: Sociology
PhD, University of Texas at Austin

Stevenson, John A. (https://experts.colorado.edu/display/fisid_101656/)
Professor: English; Faculty Director: Center for Humanities and the Arts
PhD, University of Virginia

Stewart, Amanda (https://experts.colorado.edu/display/fisid_167417/)
Instructor: Sociology
PhD, University of Illinois at Chicago

Stewart, Jennifer
Assistant Teaching Professor: Program for Writing and Rhetoric
MA, Colorado State University

Stillman, Jamy A. (https://experts.colorado.edu/display/fisid_156381/)
Associate Professor: School of Education
PhD, University of California, Los Angeles

Stimilli, David (https://experts.colorado.edu/individual/fisid_134650/)
Associate Professor Emeritus: Germanic and Slavic Languages and Literatures
PhD, Yale University

Stites, Nick
Assistant Teaching Professor Adjoint: Integrated Design Engineering
PhD, Purdue University

Stitzel, Jerry A. (https://experts.colorado.edu/display/fisid_102954/)
Professor: Institute for Behavioral Genetics (IBG); Professor: Integrative Physiology
PhD, Johns Hopkins University

Stob, Nicole R. (https://experts.colorado.edu/individual/fisid_134529/)
Assistant Teaching Professor: Integrative Physiology
PhD, Colorado State University

Stock, David W. (https://experts.colorado.edu/display/fisid_113762/)
Associate Professor: Ecology and Evolutionary Biology
PhD, University of Illinois at Urbana–Champaign

Stocke, John T.
Professor Emeritus: Astrophysical and Planetary Sciences (APS); Professor Emeritus: Center for Astrophysics & Space Astronomy (CASA)
PhD, University of Arizona

Stodieck, Louis S. (https://experts.colorado.edu/display/fisid_105272/)
Research Professor: Aerospace Engineering Sciences; Research Professor, Faculty Director: BioServe Space Technologies
PhD, University of Colorado Boulder

Stoldt, Conrad R. (https://experts.colorado.edu/display/fisid_126290/)
Professor Emeritus: Mechanical Engineering; Professor: Materials Science & Engineering
PhD, Iowa State University

Stone, Lauren Shizuko (https://experts.colorado.edu/display/fisid_154888/)
Assistant Professor: Germanic and Slavic Languages and Literatures
PhD, New York University

Stowell, Michael (https://experts.colorado.edu/display/fisid_124136/)
Associate Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, California Institute of Technology

Stratford, Jennifer M. (https://experts.colorado.edu/display/fisid_157880/)
Teaching Associate Professor: Psychology and Neuroscience
PhD, Florida State University

Straub, Anthony (https://experts.colorado.edu/display/fisid_165027/)
Assistant Professor: Civil, Environmental and Architectural Engineering
PhD, Yale University

Strauch, Bret
Assistant Teaching Professor: Program for Writing and Rhetoric
PhD, Bowling Green University

Strayhorn, Joshua Aaron (https://experts.colorado.edu/display/fisid_152584/)
Associate Professor: Political Science
PhD, Emory University

Striphas, Theodore G. (https://experts.colorado.edu/display/fisid_156205/)
Associate Professor: Media Studies
PhD, University of North Carolina Chapel Hill

Strzepek, Kenneth M.
Professor Emeritus: Civil, Environmental and Architectural Engineering

Stubblefield, Elizabeth
Teaching Assistant Professor: Psychology and Neuroscience
PhD, University of Colorado Anschutz Medical Campus

Sture, Stein
Professor Emeritus: Civil, Environmental and Architectural Engineering

Stutzer, Michael J. (https://experts.colorado.edu/display/fisid_126711/)
Professor Emeritus: Leeds School of Business
PhD, University of Minnesota Twin Cities

Su, Stephanie Wenhui (https://experts.colorado.edu/display/fisid_164186/)
Assistant Professor: Art and Art History
PhD, University of Chicago

Su, Tin Tin (https://experts.colorado.edu/display/fisid_113847/)
Professor, Chair: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Carnegie Mellon University

Suding, Katharine Nash (https://experts.colorado.edu/display/fisid_116718/)
Distinguished Professor: Institute of Arctic & Alpine Research (INSTAAR); Distinguished Professor: Ecology and Evolutionary Biology
PhD, University of Michigan Ann Arbor

Sue, Christina Alicia
Associate Professor, Associate Chair: Sociology; Faculty Director, Associate Professor: Honors RAP
PhD, University of California, Los Angeles

Sueoka, Noboru
Professor Emeritus: Molecular, Cellular & Developmental Biology (MCDB)

Suess, Wren (https://experts.colorado.edu/display/fisid_174290/)
Assistant Professor: Astrophysical and Planetary Sciences (APS)
PhD, University of California Berkeley

Sullivan, Jacquelyn F.
Faculty Director: College of Engineering and Applied Science
PhD, Purdue University

Sullivan, Jennifer (https://experts.colorado.edu/display/fisid_157727/)
Assistant Teaching Professor: School of Law
JD, Duke University

Summers, Scott R. (https://experts.colorado.edu/display/fisid_113151/)
Professor Emeritus: Civil, Environmental and Architectural Engineering; Professor: Environmental Engineering Program (EVEN)
PhD, Stanford University

Sumner, Tamara (https://experts.colorado.edu/display/fisid_105742/)
Professor: Institute of Cognitive Science (ICS); Professor: Computer Science
PhD, University of Colorado Boulder

Sun, Shuo (https://experts.colorado.edu/display/fisid_165715/)
Assistant Professor: Physics
PhD, University of Maryland College Park Campus

Sunberg, Zachary (https://experts.colorado.edu/individual/fisid_165833/)
Assistant Professor: Aerospace Engineering Sciences
PhD, Stanford University

Surden, Harry Adam (https://experts.colorado.edu/display/fisid_146083/)
Professor, Faculty Director: School of Law
JD, Stanford University

Sutter, Paul Shriver (https://experts.colorado.edu/display/fisid_147513/)
Professor: History
PhD, University of Kansas

Suzuki, Ryo (https://experts.colorado.edu/display/fisid_167629/)
Assistant Professor: ATLAS Institute; Assistant Professor: Creative Technology & Design
PhD, University of Colorado Boulder

Svoboda, John D. (https://experts.colorado.edu/display/fisid_154884/)
Lecturer: Engineering Management Program
MBA, University of California-Los Angeles

Swadener, Marc
Professor Emeritus: Music

Swan, Elizabeth
Assistant Teaching Professor: Program for Writing and Rhetoric
PhD, University of South Carolina

Swanson, Elizabeth (https://experts.colorado.edu/display/fisid_159726/)
Assistant Professor, Faculty Director: Music
DMA, Northwestern University

Swanson, Joel E. (https://experts.colorado.edu/display/fisid_134311/)
Assistant Professor: Intermedia Art, Writing and Performance; Assistant Professor: ATLAS Institute; Associate Professor: Engineering, Ethics & Society; Associate Professor: Creative Technology & Design
MFA, University of California, San Diego

Swanson, Juleah Ann (https://experts.colorado.edu/display/fisid_155854/)
Associate Professor: University Libraries
MLS, University of Washington

Swanson, Shawn (https://experts.colorado.edu/display/fisid_168257/)
Instructor: Economics
PhD, University of Colorado Boulder

Sweeney, Derek Michael (https://experts.colorado.edu/display/fisid_131083/)
Instructor: Ecology and Evolutionary Biology; Associate Faculty Director: International Education
MA, University of Colorado Boulder

Sweetman, Alex John (https://experts.colorado.edu/display/fisid_100531/)
Associate Professor: Art and Art History
MFA, SUNY at Buffalo

Sylvester, Roshanna (https://experts.colorado.edu/display/fisid_164037/)
Associate Professor: Engineering, Ethics & Society; Associate Professor: Critical Media Practices
PhD, Yale University

Symons, James M.
Professor Emeritus: Theatre and Dance

Syvitski, James P. (https://experts.colorado.edu/display/fisid_107424/)
Professor: Institute of Arctic & Alpine Research (INSTAAR)
PhD, University of British Columbia (Canada)

Szendrei, Agnes Erzsebet (https://experts.colorado.edu/display/fisid_130160/)
Professor Emerita: Mathematics
DSc, Hungarian Academy of Sciences (Hungary)

T

Taatjes, Dylan J. (https://experts.colorado.edu/display/fisid_102436/)
Professor: Biochemistry
PhD, University of Colorado Boulder

Tabatabaie, Sara (https://experts.colorado.edu/display/fisid_164969/)
Teaching Assistant Professor: Environmental Design
Ph.D., University of Colorado Boulder

Talbot, Brian (https://experts.colorado.edu/display/fisid_147617/)
Associate Professor: Philosophy
PhD, University of Southern California

Tallman, Kathryn Wood (https://experts.colorado.edu/display/fisid_152383/)
Assistant Professor: University Libraries
MS, University of Illinois at Urbana–Champaign

Tan, Andrew Q. (https://experts.colorado.edu/display/fisid_167426/)
Assistant Teaching Professor: Integrative Physiology
PhD, Northwestern University

Tan, Wei (https://experts.colorado.edu/display/fisid_141464/)
Associate Professor: Mechanical Engineering; Associate Professor: Materials Science & Engineering; Associate Professor: Biomedical Engineering
PhD, University of Illinois at Chicago

Tashakori, Parisa (https://experts.colorado.edu/display/fisid_166723/)
Faculty Director, Assistant Teaching Professor: Advertising, Public Relations and Media Design
MA, Islamic Azad University (Iran)

Taylor, Allan R.
Professor Emeritus: Linguistics

Taylor, Bryan Copeland (https://experts.colorado.edu/display/fisid_107421/)
Professor: Communication; Faculty Director: College of Media, Communication & Information
PhD, University of Utah

Taylor, Edward V. (https://experts.colorado.edu/display/fisid_151510/)
Associate Teaching Professor: School of Education
PhD, University of California, Berkeley

Taylor, John
Professor Emeritus: Physics
PhD, University of California, Berkeley

Taylor, Robert H.
Professor Emeritus: Leeds School of Business

Taylor, Rodney L.
Professor Emeritus: Religious Studies

Taylor, Ronald G.
Professor Emeritus: Psychology and Neuroscience

Taylor, Ross (https://experts.colorado.edu/display/fisid_156501/)
Assistant Professor: Journalism
MS, Syracuse University

Taylor, Scott (https://experts.colorado.edu/display/fisid_156318/)
Assistant Professor: Ecology and Evolutionary Biology; Faculty Director: International Education; Faculty Director: Institute of Arctic & Alpine Research (INSTAAR)
PhD, Queen's University (Canada)

Taylor, William T. (https://experts.colorado.edu/display/fisid_165652/)
Assistant Professor: Museum and Field Studies; Assistant Professor: Anthropology
PhD, University of New Mexico

Techera, Ulises (https://experts.colorado.edu/display/fisid_163403/)
Associate Teaching Professor: Civil, Environmental and Architectural Engineering
PhD, University of Colorado, Boulder

Teitelbaum, Benjamin Raphael (https://experts.colorado.edu/display/fisid_151338/)
Associate Professor: Music; Assistant Professor: International Affairs Program
PhD, Brown University

Templeton, Alexis S. (https://experts.colorado.edu/display/fisid_141202/)
Professor: Geological Sciences
PhD, Stanford University

Tennant, Sherri
Clinical Assistant Professor: Speech, Language and Hearing Sciences (SLHS)
MS, University of Wisconsin Madison

Teufel, John D.
Lecturer: Physics
PhD, Yale University

Thaler, Eric R. (https://experts.colorado.edu/display/fisid_155505/)
Associate Teaching Professor: Applied Mathematics
PhD, University of Colorado Boulder

Thayer, Jeffrey P. (https://experts.colorado.edu/display/fisid_134469/)
Professor Emeritus, Endowed/Named Professor, Faculty Director: College of Engineering and Applied Science; Professor: Colorado Center for Astrodynamics Research (CCAR); Research Professor, Professor: Electrical, Computer and Energy Engineering (ECEE); Director: Aerospace Engineering Sciences
PhD, University of Michigan Ann Arbor

Theodore, Michael (https://experts.colorado.edu/display/fisid_113318/)
Associate Professor: Music; Associate Professor: Art and Art History; Associate Professor: Intermedia Art, Writing and Performance
PhD, University of California, San Diego

Thibodeau, Thomas G. (https://experts.colorado.edu/display/fisid_134750/)
Professor Emeritus: Leeds School of Business
PhD, SUNY at Stony Brook

Thiem, Franz Nathaniel (https://experts.colorado.edu/display/fisid_144618/)
Professor, Associate Chair: Mathematics
PhD, University of Wisconsin–Madison

Thieman Dino, Angela Lea (https://experts.colorado.edu/display/fisid_145591/)
Senior Instructor: College of Engineering and Applied Science; Teaching Professor: Engineering, Ethics & Society
PhD, University of Colorado Boulder

Thomas, Evan (https://experts.colorado.edu/display/fisid_163895/)
Professor, Assistant Professor: Civil, Environmental and Architectural Engineering
PhD, University of Colorado Boulder

Thomas, Gary E.
Professor Emeritus: Astrophysical and Planetary Sciences (APS)

Thomas, John (https://experts.colorado.edu/display/fisid_167167/)
Scholar in Residence: Engineering Management Program
PhD, Arizona State University

Thomas, Kyle (https://experts.colorado.edu/display/fisid_165253/)
Assistant Professor: Sociology
PhD, University of Maryland College Park Campus

Thomas, Susan
Professor, Faculty Director: Music
PhD, Brandeis University

Thomas-Ruzic, Maria L.
Senior Instructor Emerita: Linguistics

Thompson, James Karl (https://experts.colorado.edu/display/fisid_144585/)
Professor Adjoint: Physics
PhD, Massachusetts Institute of Technology

Thompson, Jane Ellen (https://experts.colorado.edu/display/fisid_103388/)
Senior Instructor Emerita: School of Law
JD, University of Denver

Thornton, Michael Robert (https://experts.colorado.edu/display/fisid_116318/)
Professor: Music
BM, Temple University

Thrall, Lloyd Gregory
Associate Faculty Director: Computer Science
MA, University of London (England)

Tiampo, Kristy F. (https://experts.colorado.edu/display/fisid_155908/)
Professor: Geological Sciences; Professor: Cooperative Institute for Research in Environmental Sciences (CIRES)
PhD, University of Colorado Boulder

Tice, Frances M. (https://experts.colorado.edu/display/fisid_156018/)
Assistant Professor: Leeds School of Business
PhD, Texas A&M University

Tierney, Kathleen Jane (https://experts.colorado.edu/individual/fisid_125978/)
Professor Emerita: Institute of Behavioral Science (IBS); Professor Emerita: Sociology
PhD, Ohio State University

Tietjen, Jill S.
Lecturer: College of Engineering and Applied Science

Timmer, Joseph (https://experts.colorado.edu/display/fisid_156565/)
Teaching Associate Professor: Mathematics
PhD, University of Southern California

Tir, Jaroslav (https://experts.colorado.edu/display/fisid_149842/)
Professor: Political Science
PhD, University of Illinois at Urbana–Champaign

Tisdale, Joany (https://experts.colorado.edu/display/fisid_172327/)
Assistant Teaching Professor: Integrated Design Engineering
PhD, University of Colorado Boulder

Tobey, Kathryn
Scholar in Residence: Engineering Management Program
ME, University of Colorado Boulder

Tolbert, Margaret A. (https://experts.colorado.edu/display/fisid_104976/)
Distinguished Professor: Cooperative Institute for Research in Environmental Sciences (CIRES); Distinguished Professor: Chemistry
PhD, California Institute of Technology

Tompkins, Elaine V.
Professor Emeritus: College of Media, Communication & Information

Tompkins, Phillip K.
Professor Emeritus: College of Media, Communication & Information

Toney, Michael (https://experts.colorado.edu/individual/fisid_167235/)
Professor: Physics; Professor: Chemical and Biological Engineering
PhD, University of Washington

Tong, Wenfeng (https://experts.colorado.edu/display/fisid_144520/)
Professor, Chair: Leeds School of Business
PhD, The Ohio State University

Toohey, Darin W. (https://experts.colorado.edu/display/fisid_110652/)
Professor: Global RAP; Professor: Atmospheric and Oceanic Sciences (ATOC); Faculty Director: Residential Acad Program-SSI
PhD, Harvard University

Toomre, Juri (https://experts.colorado.edu/display/fisid_100767/)
Professor, Professor Emeritus: Astrophysical and Planetary Sciences (APS)
PhD, University of Cambridge (England)

Toon, Owen Brian (https://experts.colorado.edu/display/fisid_110521/)
Professor: Laboratory for Atmospheric and Space Physics (LASP); Professor: Atmospheric and Oceanic Sciences (ATOC)
PhD, Cornell University

Torres-Machi, Cristina (https://experts.colorado.edu/display/fisid_159884/)
Assistant Professor: Civil, Environmental and Architectural Engineering
PhD, Universitat Politecnica de Valencia, Spain

Torriani, Chiara (https://experts.colorado.edu/display/fisid_132725/)
Associate Teaching Professor: French & Italian
PhD, Universita Statale Di Milano

Tracey, Michael (https://experts.colorado.edu/display/fisid_104259/)
Professor Emeritus: Media Studies; Lecturer: Continuing Education & Professional Studies
PhD, Univ of Leicester (England)

Tracy, John A.
Professor Emeritus: Leeds School of Business

Tracy, Karen (https://experts.colorado.edu/display/fisid_101190/)
Faculty Director: College of Media, Communication & Information
PhD, University of Wisconsin–Madison

Trager, Robert
Professor Emeritus: Media Studies

Travers, Art
Professor Emeritus: School of Law
LLB, Harvard University

Travis, William R. (https://experts.colorado.edu/display/fisid_101777/)
Associate Professor: Geography; Faculty Director, Associate Professor: Cooperative Institute for Research in Environmental Sciences (CIRES)
PhD, Clark University

Tripp, Erin Anne (https://experts.colorado.edu/display/fisid_152313/)
Associate Professor: Museum and Field Studies; Associate Professor: Ecology and Evolutionary Biology
PhD, Duke University

Trivedi, Ashutosh (https://experts.colorado.edu/display/fisid_156589/)
Associate Professor: Computer Science; Assistant Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of Warwick (UK)

Trnka-Amrhein, Yvona (https://experts.colorado.edu/display/fisid_159294/)
Assistant Professor: Classics
PhD, Harvard University

Trower, Lizzy (https://experts.colorado.edu/display/fisid_159463/)
Assistant Professor: Geological Sciences
PhD, Stanford University

Truelove, Yaffa Elane (https://experts.colorado.edu/display/fisid_159271/)
Assistant Professor: Geography; Assistant Professor: International Affairs Program
PhD, University of Cambridge (England)

Trujillo, Nicole (https://experts.colorado.edu/display/fisid_163424/)
Assistant Professor: University Libraries
MS, University of Strathclyde

Truong, Le Hoang (https://experts.colorado.edu/display/fisid_172198/)
Assistant Teaching Professor: Computer Science
PhD, University of Colorado Boulder

Tsai, Janet Yi-Jen (https://experts.colorado.edu/display/fisid_156447/)
Associate Teaching Professor, Lecturer: Integrated Teaching & Learning (ITL) Program; Associate Chair: Mechanical Engineering
PhD, University of Colorado Boulder

Tsai, Pei-San (https://experts.colorado.edu/display/fisid_115292/)
Professor: Integrative Physiology
PhD, University of California, Berkeley

Tsouhlarakis, Georgianna (https://experts.colorado.edu/display/fisid_165957/)
Assistant Professor: Art and Art History
MFA, Yale University

Tubbs, Robert
Associate Professor: Miramontes Arts & Sciences Program (MASP)
PhD, Pennsylvania State University

Tucker, Gregory E. (https://experts.colorado.edu/display/fisid_130605/)
Professor: Cooperative Institute for Research in Environmental Sciences (CIRES); Professor: Geological Sciences
PhD, Pennsylvania State University

Tucker, Kathryn
Clinical Assistant Professor: Speech, Language and Hearing Sciences (SLHS)
MA, University of Colorado Boulder

Tufo, Henry (https://experts.colorado.edu/display/fisid_127040/)
Professor: Computer Science
PhD, Brown University

Turetsky, Merritt (https://experts.colorado.edu/display/fisid_165975/)
Professor: Ecology and Evolutionary Biology
PhD, University of Alberta (Canada)

Turner, A. Kane
Lecturer: Engineering, Ethics & Society
PhD, University of Dallas

Tzavella-Evjen, Terpsichori H.
Professor Emerita: Classics

U

Ullom, Joel
Lecturer: Physics
PhD, Harvard University

Ulmer, Keith A. (https://experts.colorado.edu/display/fisid_144871/)
Associate Professor: Physics
PhD, University of Colorado Boulder

Upadhyay, Nishant (https://experts.colorado.edu/display/fisid_166101/)
Assistant Professor: Ethnic Studies
PhD, York University

Urland, Geoffrey Raymond (https://experts.colorado.edu/display/fisid_151086/)
Lecturer: Continuing Education & Professional Studies
PhD, University of Colorado Boulder

Urrea, Gloria (https://experts.colorado.edu/display/fisid_165311/)
Assistant Professor: Leeds School of Business
PhD, Università della Svizzera italiana, Switzerland

Uzdensky, Dmitri Anatoljevich (https://experts.colorado.edu/display/fisid_147430/)
Professor: Physics; Faculty Director: Center for Integrated Plasma Studies (CIPS)
PhD, Princeton University

V

Vaida, Veronica (https://experts.colorado.edu/display/fisid_100313/)
Professor Emeritus: Chemistry
PhD, Yale University

Valdovino, Luis Hector (https://experts.colorado.edu/display/fisid_101863/)
Professor: Art and Art History
MFA, University of Illinois at Urbana–Champaign

Valente-Quinn, Brian Dennis (https://experts.colorado.edu/display/fisid_155973/)
Associate Professor: French & Italian
PhD, University of California, Los Angeles

Valkovci, Mark
Lecturer: Economics
PhD, University of Colorado Boulder

Valladares, Michelle
Associate Research Professor, Associate Director: School of Education
PhD, University of California, Los Angeles

Van Atten, Bill
Lecturer: Engineering Management Program
MS, Johns Hopkins University

Van Blerkom, Jonathan (https://experts.colorado.edu/display/fisid_100545/)
Research Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of Colorado Boulder

Van Boven, Leaf D. (https://experts.colorado.edu/display/fisid_126291/)
Professor: Psychology and Neuroscience
PhD, Cornell University

Van Buskirk, Allison (https://experts.colorado.edu/display/fisid_159795/)
Assistant Teaching Professor: School of Education
MA, Naropa University

van de Lagemaat, Jao (https://experts.colorado.edu/display/fisid_148357/)
Assistant Professor: Materials Science & Engineering

Van Gerven, Dennis P.
Professor Emeritus: Anthropology

Van Hoye, Allan (https://experts.colorado.edu/individual/fisid_158902/)
Teaching Assistant Professor: University Libraries
MLIS, University of Denver

Van Nelson, Loredana Alina (https://experts.colorado.edu/display/fisid_142722/)
Associate Teaching Professor: French & Italian
PhD, University of Colorado Boulder

Van Schilfgaarde, Mark
Lecturer: Physics
PhD, Stanford University

Van Vliet, Willem K.T.
Professor Emeritus: Environmental Design

Van Vuuren, Sarel (https://experts.colorado.edu/display/fisid_124159/)
Associate Research Professor: Institute of Cognitive Science (ICS)
PhD, Oregon Graduate Institute of Science Technology

Van Wesep, Edward D. (https://experts.colorado.edu/display/fisid_154573/)
Associate Professor: Leeds School of Business
PhD, Stanford University

Van Zeghbroeck, Bart J. (https://experts.colorado.edu/display/fisid_104113/)
Professor, Faculty Director: College of Engineering and Applied Science; Associate Chair: Electrical, Computer and Energy Engineering (ECEE)
PhD, University of Colorado Boulder

Vance, Eric (https://experts.colorado.edu/display/fisid_158342/)
Associate Professor: Applied Mathematics
PhD, Duke University

Vance, Marina E. (https://experts.colorado.edu/display/fisid_158217/)
Assistant Professor: Mechanical Engineering; Assistant Professor: Environmental Engineering Program (EVEN)
PhD, Virginia Polytechnic Institute and State University

VandenBosch, Adrienne (https://experts.colorado.edu/display/fisid_173167/)
Teaching Assistant Professor: University Libraries
MLS, University of Denver

Vanderbeek, Greg (https://experts.colorado.edu/display/fisid_159741/)
Assistant Teaching Professor: Mechanical Engineering
MS, Colorado School of Mines

Vanderheiden, Steven Jon (https://experts.colorado.edu/display/fisid_144759/)
Professor: Political Science
PhD, University of Wisconsin–Madison

Vandermarliere, Sandrine (https://experts.colorado.edu/display/fisid_143482/)
Assistant Teaching Professor: French & Italian
PhD, University of Colorado Boulder

Vandersall, Amy L.
Professor Emerita: Art and Art History

Varanasi, Mahesh K. (https://experts.colorado.edu/display/fisid_103090/)
Professor: Electrical, Computer and Energy Engineering (ECEE); Professor: Mathematics
PhD, Rice University

Vargas, Edgar (https://experts.colorado.edu/display/fisid_174781/)
Assistant Teaching Professor: Spanish and Portuguese
PhD, University of Houston

Vargo, Christopher (https://experts.colorado.edu/display/fisid_158320/)
Associate Professor: Advertising, Public Relations and Media Design; Lecturer: Continuing Education & Professional Studies; Associate Professor: Leeds School of Business
PhD, University of North Carolina

Vàsconez, Sandra L. (https://experts.colorado.edu/display/fisid_144198/)
Teaching Professor: Civil, Environmental and Architectural Engineering
MA, University of Denver

Vasile, Olga (https://experts.colorado.edu/display/fisid_156596/)
Assistant Teaching Professor: French & Italian
MA, University of Notre Dame

Veblen, Thomas T. (https://experts.colorado.edu/display/fisid_105842/)
Distinguished Professor Emeritus: Geography
PhD, University of California, Berkeley

Velasquez, Alvara (https://experts.colorado.edu/display/fisid_172313/)
Visiting Assistant Professor: Computer Science
PhD, University of Central Florida

Velte, Ashlyn (https://experts.colorado.edu/individual/fisid_165254/)
Assistant Professor: University Libraries
MLIS, University of North Carolina at Chapel Hill

Vernerey, Divya E. (https://experts.colorado.edu/display/fisid_145131/)
Teaching Professor: Computer Science
PhD, Northwestern University

Vernerey, Franck J. (https://experts.colorado.edu/display/fisid_144760/)
Professor: Mechanical Engineering; Associate Professor: Materials Science & Engineering
PhD, Northwestern University

Veveer, Elaina
Assistant Teaching Professor: School of Education
MA, University of Colorado Boulder

Vigers, Alison Jane
Instructor, Associate Faculty Director: Health Professions RAP; Instructor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of Colorado Denver

Villanea, Fernando (https://experts.colorado.edu/individual/fisid_168227/)
Assistant Professor: Anthropology
PhD, Washington State University

Villanueva, Nicholas (https://experts.colorado.edu/display/fisid_158252/)
Assistant Professor, Associate Chair: Ethnic Studies; Faculty Director: International Education
PhD, Vanderbilt University

Voakes, Paul S.
Professor Emeritus: Journalism

Vodehnal, Carrie (https://experts.colorado.edu/display/fisid_158066/)
Instructor: Environmental Studies Program
PhD, Washington University in Saint Louis

Voeltz, Gia Kaarina (https://experts.colorado.edu/display/fisid_143587/)
Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Yale University

Voida, Amy Kathryn Mitchell (https://experts.colorado.edu/display/fisid_155855/)
Associate Professor: Computer Science; Associate Professor: Information Science
PhD, Georgia Institute of Technology

Voida, Stephen A. (https://experts.colorado.edu/display/fisid_155856/)
Assistant Professor: Information Science; Associate Professor: Computer Science
PhD, Georgia Institute of Technology

Volkamer, Rainer (https://experts.colorado.edu/display/fisid_144988/)
Professor: Chemistry
PhD, University of Heidelberg (Germany)

Volpone, Sabrina D. (https://experts.colorado.edu/display/fisid_158941/)
Associate Professor: Leeds School of Business
PhD, Temple University

von der Nuell, Tobin D. (https://experts.colorado.edu/display/fisid_113896/)
Associate Teaching Professor: Program for Writing and Rhetoric
MA, University of Colorado Boulder

von der Wense, Katharina (https://experts.colorado.edu/display/fisid_166417/)
Assistant Professor: Computer Science
PhD, University of Munich (Germany)

Vossen, Thomas Wilhelmus (https://experts.colorado.edu/display/fisid_126642/)
Associate Professor: Leeds School of Business
PhD, University of Maryland, College Park

Vriend, Nathalie Maria (https://experts.colorado.edu/display/fisid_165036/)
Associate Professor: Mechanical Engineering
PhD, California Institute of Technology

W

Waddell, Ethan
Assistant Professor: Asian Languages and Civilizations
PhD, University of Chicago

Wadsworth, Thomas Pearson (https://experts.colorado.edu/display/fisid_144382/)
Associate Professor, Lecturer: Continuing Education & Professional Studies; Chair: Sociology
PhD, University of Washington

Waggoner, Bo (https://experts.colorado.edu/individual/fisid_164188/)
Assistant Professor: Computer Science
PhD, Harvard University

Waggoner, Michael
Professor Emeritus: School of Law
LLB, Harvard University

Wagner, Jamie
Teaching Assistant Professor: University Libraries
MLS, University of Wisconsin

Wagner, Kelvin (https://experts.colorado.edu/display/fisid_105344/)
Professor: Electrical, Computer and Energy Engineering (ECEE)
PhD, California Institute of Technology

Wagner, Stephen R. (https://experts.colorado.edu/display/fisid_139773/)
Professor Attendant Rank: Physics
PhD, Johns Hopkins University

Walba, David M. (https://experts.colorado.edu/display/fisid_105830/)
Professor: Chemistry; Professor: Materials Science & Engineering
PhD, California Institute of Technology

Walczak, Maciej Andrzej (https://experts.colorado.edu/display/fisid_153323/)
Associate Professor: Chemistry
PhD, University of Pittsburgh

Walden, Glenda D. (https://experts.colorado.edu/display/fisid_105898/)
Senior Instructor: Sociology
PhD, University of Colorado Boulder

Waldman, Donald M.
Professor Emeritus: Economics

Walker, Deward E. Jr
Professor Emeritus: Anthropology; Professor Emeritus: Ethnic Studies

Walker, Melanie (https://experts.colorado.edu/display/fisid_101750/)
Associate Professor: Art and Art History
MFA, Florida State University

Walker, Michael Edward (https://experts.colorado.edu/display/fisid_155103/)
Instructor: Environmental Engineering Program (EVEN); Faculty Director: College of Engineering and Applied Science; Associate Teaching Professor: Mechanical Engineering
PhD, Illinois Institute of Technology

Walkes, Dan
Lecturer: Electrical, Computer and Energy Engineering (ECEE)

Walter, Douglas W. (https://experts.colorado.edu/display/fisid_101811/)
Professor: Music
DMA, Temple University

Walter, Martin E. (https://experts.colorado.edu/display/fisid_105263/)
Professor Emeritus: Mathematics
PhD, University of California, Irvine

Wanderer, Jules J.
Professor Emeritus: Sociology

Wang, Clare (https://experts.colorado.edu/display/fisid_165260/)
Associate Professor, Faculty Director: Leeds School of Business
PhD, University of Pennsylvania, The Wharton School

Wang, Mia (https://experts.colorado.edu/display/fisid_173497/)
Assistant Professor: Advertising, Public Relations and Media Design
PhD, University of Illinois at Urbana-Champaign

Wang, Xiang (https://experts.colorado.edu/display/fisid_145812/)
Associate Professor: Chemistry
PhD, Boston University

Wang, Xinyue (https://experts.colorado.edu/display/fisid_173884/)
Assistant Professor: Atmospheric and Oceanic Sciences (ATOC)
PhD, Purdue University

Wang, Xu (https://experts.colorado.edu/display/fisid_141619/)
Lecturer: Physics
PhD, University of Wisconsin-Madison

Wang, Yanwen
Assistant Professor: Leeds School of Business
PhD, Emory University

Wang, Zhiyi (https://experts.colorado.edu/display/fisid_167339/)
Assistant Professor: Leeds School of Business
PhD, National University of Singapore (Singapore)

Ward, Wayne Hinson (https://experts.colorado.edu/display/fisid_114680/)
Research Professor: Institute of Cognitive Science (ICS); Research Professor: Computer Science
PhD, University of Colorado Boulder

Wartell, Rebecca (https://experts.colorado.edu/display/fisid_164288/)
Teaching Assistant Professor: Jewish Studies
PhD, Monash University

Washburn, Brian R.
Lecturer: Physics
PhD, Georgia Institute of Technology

Waters, Brian Todd (https://experts.colorado.edu/display/fisid_155846/)
Assistant Professor: Leeds School of Business
PhD, University of California, Los Angeles

Waters, Keith John (https://experts.colorado.edu/display/fisid_107518/)
Professor: Music
PhD, University of Rochester

Watkins, Alexander Charlton (https://experts.colorado.edu/display/fisid_151514/)
Associate Professor: University Libraries
MLS, Pratt Institute

Watkins, Linda R. (https://experts.colorado.edu/display/fisid_101513/)
Distinguished Professor: Psychology and Neuroscience
PhD, Virginia Commonwealth University

Weaver, Benjamin
Assistant Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, University of Kansas

Weaver, Kay (https://experts.colorado.edu/display/fisid_167189/)
Chair, Professor: Advertising, Public Relations and Media Design
PhD, University of Stirling (Scotland)

Weaver, Zachary (https://experts.colorado.edu/display/fisid_166757/)
Assistant Teaching Professor: Creative Technology & Design; Assistant Teaching Professor: ATLAS Institute
MArch, Carnegie Mellon University

Webb, David C. (https://experts.colorado.edu/display/fisid_141204/)
Associate Professor: School of Education; Associate Professor: Mathematics
PhD, University of Wisconsin–Madison

Weber, Beverly Marie (https://experts.colorado.edu/display/fisid_144523/)
Chair, Professor: Germanic and Slavic Languages and Literatures; Professor: Jewish Studies
PhD, University of Massachusetts Amherst

Weber, Jorg Mathias (https://experts.colorado.edu/display/fisid_142930/)
Professor: Chemistry
PhD, University of Kaiserslautern (Germany)

Weber, Stephanie
Assistant Professor: Economics
PhD, Yale University

Wehner, Jeanne M.
Professor Emerita: Psychology and Neuroscience

Wei, William (https://experts.colorado.edu/display/fisid_100864/)
Professor: History
PhD, University of Michigan Ann Arbor

Weidman, Patrick D.
Professor Emeritus: Mechanical Engineering

Weimer, Alan W. (https://experts.colorado.edu/display/fisid_109152/)
Professor: Chemical and Biological Engineering; Endowed/Named Professor: College of Engineering and Applied Science; Professor: Materials Science & Engineering
PhD, University of Colorado Boulder

Weiser, Philip J. (https://experts.colorado.edu/display/fisid_114575/)
Adjunct Faculty, Dean Emeritus, Professor: School of Law
JD, New York University

Weiss, Jeffrey B. (https://experts.colorado.edu/display/fisid_102145/)
Chair, Professor: Atmospheric and Oceanic Sciences (ATOC)
PhD, University of California, Berkeley

Weiss, Meta (https://experts.colorado.edu/display/fisid_164484/)
Senior Instructor: Music
DMA, The Juilliard School

Welker, Cara (https://experts.colorado.edu/display/fisid_168549/)
Assistant Professor: Biomedical Engineering; Assistant Professor: Mechanical Engineering
Ph.D., Stanford University

Welner, Kevin G. (https://experts.colorado.edu/display/fisid_115565/)
Professor Emeritus: School of Education
PhD, University of California, Los Angeles

Welsh, Megan Elizabeth (https://experts.colorado.edu/display/fisid_153633/)
Associate Professor: University Libraries
MLIS, University of Denver

Wenger, Paula (https://experts.colorado.edu/display/fisid_113621/)
Associate Teaching Professor: Program for Writing and Rhetoric; Senior Instructor: Leeds School of Business
MA, Miami University–Oxford

Werner, LJ (https://experts.colorado.edu/display/fisid_154952/)
Scholar in Residence: Speech, Language and Hearing Sciences (SLHS)
MA, University of Colorado Denver

Werner, Walter Bradley (https://experts.colorado.edu/display/fisid_158225/)
Instructor, Faculty Director: Leeds School of Business
MBA, University of Chicago

Wertheimer, Michael
Professor Emeritus: Psychology and Neuroscience

Wessman, Carol A. (https://experts.colorado.edu/display/fisid_100909/)
Professor Emerita: Cooperative Institute for Research in Environmental Sciences (CIRES); Professor Emerita: Environmental Studies Program; Professor Emerita: Ecology and Evolutionary Biology
PhD, University of Wisconsin–Madison

Wesson, Marianne
Professor Emerita: School of Law
JD, University of Texas at Austin

West, Colin G. (https://experts.colorado.edu/display/fisid_163336/)
Associate Teaching Professor: Physics
PhD, Stony Brook University

Weston, Timothy B. (https://experts.colorado.edu/display/fisid_107605/)
Associate Professor: History; Faculty Director: International Education
PhD, University of California, Berkeley

Wetherbee, Charles Tyler
Associate Professor: Music
BM, Curtis Institute of Music

Wherren, Anna Katherine (https://experts.colorado.edu/display/fisid_173982/)
Librarian: Law Library
JD, New England School of Law

Whisman, Mark (https://experts.colorado.edu/display/fisid_113391/)
Professor: Psychology and Neuroscience
PhD, University of Washington

White, Cindy Hagemeier (https://experts.colorado.edu/display/fisid_107461/)
Associate Professor: Communication; Associate Dean: College of Media, Communication & Information
PhD, University of Arizona

White, James (https://experts.colorado.edu/display/fisid_102726/)
Professor: Institute of Arctic & Alpine Research (INSTAAR); Dean: College of Arts and Sciences; Professor: Environmental Studies Program
PhD, Columbia University

White, Philip (https://experts.colorado.edu/display/fisid_157730/)
Associate Professor: University Libraries
MLIS, University of North Carolina at Greensboro

White, Terrenda Corisa (https://experts.colorado.edu/display/fisid_152828/)
Associate Professor: School of Education
PhD, Teachers College at Columbia University

White, Timothy J. (https://experts.colorado.edu/display/fisid_163899/)
Professor, Endowed/Named Professor: College of Engineering and Applied Science; Professor: Materials Science & Engineering; Associate Chair: Chemical and Biological Engineering
PhD, University of Iowa

Whitehead, Deborah Faith (https://experts.colorado.edu/display/fisid_144239/)
Associate Professor, Chair: Religious Studies
ThD, Harvard University

Whitehead, Timothy Andrew (https://experts.colorado.edu/display/fisid_164364/)
Associate Professor: Chemical and Biological Engineering
PhD, University of California-Berkeley

Whiteley, Aaron (https://experts.colorado.edu/display/fisid_166299/)
Assistant Professor: Biochemistry
PhD, University of California, Berkeley

Whiteley, Alexandra (https://experts.colorado.edu/display/fisid_166300/)
Assistant Professor: Biochemistry
PhD, University of California, San Francisco

Whiting, Gregory L. (https://experts.colorado.edu/display/fisid_159727/)
Associate Professor: Mechanical Engineering; Associate Professor: Materials Science & Engineering
PhD, University of Cambridge (England)

Whitt, Jan
Professor Emeritus: Journalism; Lecturer: Continuing Education & Professional Studies
PhD, University of Denver

Wiedinmeyer, Christine
Research Professor: Mechanical Engineering
PhD, University of Texas at Austin

Wieman, Carl E. (https://experts.colorado.edu/display/fisid_105375/)
Faculty Director: Center for Science Education
PhD, Stanford University

Wiersma, Gabrielle Somnee (https://experts.colorado.edu/display/fisid_145475/)
Associate Professor: University Libraries
MLIS, University of Denver

Wiese, Annjeanette Michelle (https://experts.colorado.edu/display/fisid_146485/)
Teaching Associate Professor, Associate Chair: Humanities
PhD, University of Colorado Boulder

Wilcox, Bethany R. (https://experts.colorado.edu/display/fisid_156075/)
Assistant Professor: Physics
PhD, University of Colorado Boulder

Wilkerson, Donald (https://experts.colorado.edu/display/fisid_104406/)
Associate Teaching Professor: Physics
MA, University of Colorado Boulder

Wilkins, Helanius J. (https://experts.colorado.edu/display/fisid_155486/)
Assistant Professor, Associate Chair: Theatre and Dance
MFA, George Washington University

Willcutt, Erik G. (https://experts.colorado.edu/display/fisid_113861/)
Professor: Psychology and Neuroscience
PhD, University of Denver

William, Kaspar J.
Professor Emeritus: Civil, Environmental and Architectural Engineering

Williams, Christopher (https://experts.colorado.edu/display/fisid_105765/)
Research Professor: Aerospace Engineering Sciences
PhD, University of Colorado Boulder

Williams, Lawrence Edwin Jr. (https://experts.colorado.edu/display/fisid_145743/)
Associate Professor: Leeds School of Business
PhD, Yale University

Williams, Letitia S.
Senior Instructor Emerita: Theatre and Dance

Williams, Mark W.
Professor Emeritus: Institute of Arctic & Alpine Research (INSTAAR)

Williamson, James A.
Lecturer: Electrical, Computer and Energy Engineering (ECEE)

Willis, Erin (https://experts.colorado.edu/display/fisid_156068/)
Associate Professor: Advertising, Public Relations and Media Design; Faculty Director: Communication & Society RAP
PhD, University of Missouri–Columbia

Willis, John Matthew (https://experts.colorado.edu/display/fisid_140095/)
Associate Professor: History
PhD, New York University

Willis, Michael John (https://experts.colorado.edu/display/fisid_158345/)
Assistant Professor: Cooperative Institute for Research in Environmental Sciences (CIRES)
PhD, The Ohio State University

Wilson, Andrew
Lecturer: Physics
PhD, University of Otago (New Zealand)

Wilson, Andrew (https://experts.colorado.edu/individual/fisid_159824/)
Associate Teaching Professor: Program for Writing and Rhetoric; Associate Faculty Director: Global RAP
PhD, University of Florida

Wilson, James R.
Professor Emeritus: Psychology and Neuroscience

Wilson, John B.
Professor Emeritus: Art and Art History

Wilson, Terri Suzanne (https://experts.colorado.edu/display/fisid_155469/)
Associate Professor, Faculty Director: School of Education
PhD, Columbia University

Windell, John T.
Professor Emeritus: Ecology and Evolutionary Biology

Windell, Maria A. (https://experts.colorado.edu/display/fisid_154605/)
Associate Professor: English
PhD, University of Virginia

Wineland, David J. (https://experts.colorado.edu/display/fisid_119931/)
Professor Adjoint: Physics
PhD, Harvard University

Wing, Boswell A. (https://experts.colorado.edu/display/fisid_158302/)
Associate Professor: Geological Sciences
PhD, Johns Hopkins University

Wingate, Kathryn (https://experts.colorado.edu/display/fisid_164029/)
Associate Teaching Professor: Aerospace Engineering Sciences
PhD, University of Colorado Boulder

Wingo, Ajume (https://experts.colorado.edu/display/fisid_144391/)
Associate Professor: Philosophy
PhD, University of Wisconsin–Madison

Winkiel, Laura Ann (https://experts.colorado.edu/display/fisid_145813/)
Associate Professor, Associate Chair: English
PhD, University of Notre Dame

Winn, Daryl
Professor Emeritus: Leeds School of Business

Winston, Paul W.
Professor Emeritus: Ecology and Evolutionary Biology

Winters, Andrew (https://experts.colorado.edu/display/fisid_165835/)
Assistant Professor: Atmospheric and Oceanic Sciences (ATOC)
PhD, University of Wisconsin–Madison

Wise, Jonathan (https://experts.colorado.edu/display/fisid_151516/)
Associate Professor: Mathematics
PhD, Brown University

Wise, Matthew Eric (https://experts.colorado.edu/display/fisid_143977/)
Senior Instructor, Faculty Director, Associate Chair: Chemistry
PhD, University of Colorado Boulder

Wobbekind, Richard (https://experts.colorado.edu/display/fisid_100997/)
Associate Dean, Lecturer: Leeds School of Business
PhD, University of Colorado Boulder

Wolfe, Lynn Robert
Professor Emeritus: Art and Art History

Wolkowisky, Jay H.
Professor Emeritus: Mathematics

Wolzien, Charles
Professor Emeritus: Music

Womack, Mike Fitzgerald (https://experts.colorado.edu/display/fisid_148502/)
Associate Professor, Associate Chair: Art and Art History
MFA, Pratt Institute

Wood, Peter H. (https://experts.colorado.edu/display/fisid_151977/)
Professor Adjunct: History

Wood, Rachel
Assistant Teaching Professor: English

Wood, Tony (https://experts.colorado.edu/display/fisid_172396/)
Assistant Professor: History
Ph.D., New York University

Wood, William B. III
Distinguished Professor Emeritus: Molecular, Cellular & Developmental Biology (MCDB)

Woodman, Elizabeth A.
Professor Emerita: Art and Art History

Wright Jr., Kenneth P. (https://experts.colorado.edu/display/fisid_125586/)
Distinguished Professor: Integrative Physiology
PhD, Bowling Green State University

Wright, Nicole M. (https://experts.colorado.edu/display/fisid_153060/)
Associate Professor: English
PhD, Yale University

Wright, William
Assistant Teaching Professor: Computer Science
MS, Stanford University

Writer, Jeffrey Hawkins
Instructor: Environmental Engineering Program (EVEN)
PhD, University of Colorado Boulder

Wustrow, Eric A. (https://experts.colorado.edu/display/fisid_156419/)
Assistant Professor: Computer Science; Assistant Professor: Electrical, Computer and Energy Engineering (ECEE)
BE, University of Michigan Ann Arbor

Wuttke, Deborah S. (https://experts.colorado.edu/display/fisid_108412/)
Professor, Associate Chair: Biochemistry
PhD, California Institute of Technology

Wyrod, Robert (https://experts.colorado.edu/display/fisid_156319/)
Associate Professor: Women and Gender Studies; Associate Professor: International Affairs Program; Associate Professor: Center to Advance Research and Teaching in the Social Sciences (CARTSS)
PhD, University of Chicago

X

Xi, Yunping (https://experts.colorado.edu/display/fisid_110518/)
Professor: Civil, Environmental and Architectural Engineering; Professor: Materials Science & Engineering
PhD, Northwestern University

Xiao, Jianliang (https://experts.colorado.edu/display/fisid_149777/)
Associate Professor: Mechanical Engineering; Assistant Professor: Materials Science & Engineering
PhD, Northwestern University

Xu, Nicole (https://experts.colorado.edu/display/fisid_172095/)
Assistant Professor: Mechanical Engineering; Assistant Professor: Biomedical Engineering
PhD, Stanford University

Xu, Ping (https://experts.colorado.edu/display/fisid_101140/)
Professor: Environmental Design
PhD, Harvard University

Xue, Ding (https://experts.colorado.edu/display/fisid_112336/)
Professor: Molecular, Cellular & Developmental Biology (MCDB)
PhD, Columbia University

Y

Yaeger, Barbara Jean
Assistant Research Professor: Institute of Cognitive Science (ICS)
PhD, Oakland University

Yamashita, Masano (https://experts.colorado.edu/display/fisid_147343/)
Associate Professor, Associate Chair: French & Italian
PhD, New York University

Yang, Daniel
Professor Emeritus: Theatre and Dance

Yang, Ronggui
Professor: Materials Science & Engineering
PhD, Massachusetts Institute of Technology

Yannacito, Donald R. (https://experts.colorado.edu/display/fisid_103944/)
Senior Instructor Emeritus: Cinema Studies & Moving Image Arts
MA, University of Colorado Denver

Yao, Xin
Assistant Professor: Leeds School of Business
PhD, University of Washington

Yarus, Michael J.
Professor Emeritus: Molecular, Cellular & Developmental Biology (MCDB)

Yazzie, Melanie A. (https://experts.colorado.edu/display/fisid_143620/)
Professor: Art and Art History
MFA, University of Colorado Boulder

Ye, Jun (https://experts.colorado.edu/display/fisid_106154/)
Professor Adjoint: Physics
PhD, University of Colorado Boulder

Yeh, Emily Ting (https://experts.colorado.edu/display/fisid_130119/)
Professor: Geography
PhD, University of California, Berkeley

Yeh, Tom (https://experts.colorado.edu/display/fisid_151584/)
Associate Professor: Computer Science; Associate Professor: Biomedical Engineering
PhD, Massachusetts Institute of Technology

Yilmaz, Ovunc (https://experts.colorado.edu/display/fisid_167064/)
Assistant Professor: Leeds School of Business
PhD, University of South Carolina - Colombia

Yin, Xiaobo
Associate Professor: Materials Science & Engineering
PhD, Stanford University

Yonemoto, Marcia A. (https://experts.colorado.edu/display/fisid_107199/)
Professor, Faculty Director: Graduate Teacher Program; Chair: History
PhD, University of California, Berkeley

York, Jeffrey Glenn (https://experts.colorado.edu/display/fisid_148387/)
Associate Professor, Chair, Faculty Director: Leeds School of Business; Associate Professor: Environmental Studies Program; Associate Professor: Continuing Education & Professional Studies
PhD, University of Virginia

Youkey, David (https://experts.colorado.edu/display/fisid_105211/)
Assistant Teaching Professor: Philosophy; Lecturer, Instructor: Continuing Education & Professional Studies
PhD, University of Colorado Boulder

Young, Andrew P. (https://experts.colorado.edu/display/fisid_153434/)
Assistant Professor: Critical Media Practices; Lecturer: Continuing Education & Professional Studies
PhD, University of California, Los Angeles

Young, Morgan (https://experts.colorado.edu/display/fisid_159842/)
Assistant Teaching Professor: Advertising, Public Relations and Media Design
M.A., George Washington University

Young, Phoebe S.K. (https://experts.colorado.edu/display/fisid_147429/)
Professor: History
PhD, University of California, San Diego

Young, Wendy Mores (https://experts.colorado.edu/display/fisid_146942/)
Teaching Professor, Senior Instructor: Environmental Engineering Program (EVEN); Associate Chair: Chemical and Biological Engineering
PhD, University of Colorado Boulder

Yu, Liping
Assistant Research Professor: Research & Innovation Office; Assistant Research Professor: Materials Science & Engineering

Yuan, Lei (https://experts.colorado.edu/individual/fisid_167699/)
Assistant Professor: Psychology and Neuroscience; Assistant Professor: Computer Science
PhD, Northwestern University

Yulsman, Thomas (https://experts.colorado.edu/display/fisid_109386/)
Professor: Journalism; Faculty Director: Center for Environmental Journalism
MS, Columbia University

Yun, Donghyeon
Assistant Professor: Speech, Language and Hearing Sciences (SLHS)
PhD, Indiana University

Z

Zable, Jack L.
Professor Emeritus: Mechanical Engineering

Zabotin, Nikolay
Research Professor: Electrical, Computer and Energy Engineering (ECEE)
DSc, Russian Academy of Science

Zabow, Gary
Lecturer: Physics
PhD, Harvard University

Zagona, Edith A. (https://experts.colorado.edu/display/fisid_106395/)
Research Professor: Center for Advanced Decision Support for Water and Environmental Systems (CADSWES); Faculty Director: College of Engineering and Applied Science
PhD, University of Colorado Boulder

Zagrodzki, Maciej
Associate Chair, Associate Teaching Professor: Computer Science
MSc, Colorado School of Mines

Zaharatos, Brian R. (https://experts.colorado.edu/display/fisid_156225/)
Teaching Professor, Faculty Director: Applied Mathematics
PhD, Colorado School of Mines

Zamani, Majid (https://experts.colorado.edu/individual/fisid_164967/)
Associate Professor: Computer Science
PhD, University of California, Los Angeles

Zamore, Shaz (https://experts.colorado.edu/display/fisid_166083/)
Assistant Teaching Professor: ATLAS Institute; Assistant Teaching Professor: Creative Technology & Design
PhD, University of Washington

Zarske, Malinda Schaefer (https://experts.colorado.edu/display/fisid_120823/)
Senior Instructor: General Engineering; Instructor: Engineering-Bold Center; Faculty Director, Teaching Professor: Integrated Design Engineering
PhD, University of Colorado Boulder

Zax, Jeffrey S. (https://experts.colorado.edu/display/fisid_100898/)
Professor, Associate Chair: Economics; Professor: Continuing Education & Professional Studies
PhD, Harvard University

Zechman, Sarah Louise Center (https://experts.colorado.edu/display/fisid_156016/)
Professor, Chair: Leeds School of Business
PhD, University of Pennsylvania

Zeiler, Thomas W. (https://experts.colorado.edu/display/fisid_101692/)
Professor: History; Faculty Director: International Education; Professor: International Affairs Program
PhD, University of Massachusetts at Amherst

Zender, Jaime (https://experts.colorado.edu/display/fisid_122563/)
Professor, Endowed/Named Professor, Chair: Leeds School of Business
PhD, Yale University

Zerella, Michael (https://experts.colorado.edu/display/fisid_151090/)
Instructor, Associate Faculty Director: Sewall RAP
PhD, University of Colorado Boulder

Zhai, John Z. (https://experts.colorado.edu/display/fisid_130604/)
Professor: Civil, Environmental and Architectural Engineering
PhD, Massachusetts Institute of Technology

Zhang, Dan (https://experts.colorado.edu/display/fisid_149619/)
Professor, Faculty Director: Leeds School of Business
PhD, University of Minnesota Twin Cities

Zhang, Huanan (https://experts.colorado.edu/display/fisid_167063/)
Assistant Professor: Leeds School of Business
PhD, University of Michigan Ann Arbor

Zhang, Rui (https://experts.colorado.edu/display/fisid_157866/)
Assistant Professor: Leeds School of Business
PhD, University of Maryland

Zhang, Wei (https://experts.colorado.edu/display/fisid_146429/)
Professor, Chair: Chemistry; Professor: Materials Science & Engineering
PhD, University of Illinois at Urbana–Champaign

Zhang, Xingtan (https://experts.colorado.edu/display/fisid_159295/)
Assistant Professor: Leeds School of Business
PhD, University of Pennsylvania

Zhang, Yida (https://experts.colorado.edu/display/fisid_158222/)
Associate Professor: Civil, Environmental and Architectural Engineering
PhD, Northwestern University

Zhang, Yide
Assistant Professor: Biomedical Engineering
PhD, University of Notre Dame

Zhong, Shijie (https://experts.colorado.edu/display/fisid_118396/)
Professor: Physics
PhD, University of Michigan Ann Arbor

Ziemann, Paul Jeffrey (https://experts.colorado.edu/display/fisid_153281/)
Professor: Chemistry; Professor: Cooperative Institute for Research in Environmental Sciences (CIRES)
PhD, Pennsylvania State University

Zikmund, Noah
Senior Instructor: Leeds School of Business
MBA, University of Tulsa

Zimmerman, Eric (https://experts.colorado.edu/display/fisid_122809/)
Professor: Physics
PhD, University of Chicago

Zunger, Alexander (https://experts.colorado.edu/display/fisid_149868/)
Research Professor: Renewable & Sustainable Energy Institute (RASEI); Research Professor: Materials Science & Engineering; Research Professor: Research & Innovation Office
PhD, Tel Aviv Univ (Israel)

CATALOG ARCHIVE

Current Information

If you're looking for information about the current or upcoming academic year, please refer to the CU Boulder catalog (http://catalog.colorado.edu) or the Continuing Education (https://ce.colorado.edu/) or Summer Session (https://www.colorado.edu/summer/) websites.

Previous CU Boulder Catalogs

The following catalogs have been archived and are available in HTML or PDF format.

- 2024–25 CU Boulder Catalog (https://catalog.colorado.edu/archive/2024-2025/) (PDF (https://www.colorado.edu/registrar/node/3481/))
- 2023–24 CU Boulder Catalog (https://catalog.colorado.edu/archive/2023-2024/) (PDF (https://www.colorado.edu/registrar/media/1026/))
- 2022–23 CU Boulder Catalog (https://catalog.colorado.edu/archive/2022-2023/) (PDF (https://www.colorado.edu/registrar/media/967/))
- 2021–22 CU Boulder Catalog (https://catalog.colorado.edu/archive/2021-2022/) (PDF (https://www.colorado.edu/registrar/media/896/))
- 2020–21 CU Boulder Catalog (https://catalog.colorado.edu/archive/2020-2021/) (PDF (https://www.colorado.edu/registrar/media/822/))
- 2019–20 CU Boulder Catalog (https://catalog.colorado.edu/archive/2019-2020/) (PDF (https://www.colorado.edu/registrar/media/705/))
- 2018–19 CU Boulder Catalog (https://catalog.colorado.edu/archive/2018-19/) (PDF (https://www.colorado.edu/registrar/media/700/))
- 2017–18 CU Boulder Catalog (https://catalog.colorado.edu/archive/2017-18/) (PDF (https://www.colorado.edu/registrar/node/1866/attachment/))
- 2016–17 CU Boulder Catalog (https://catalog-archive.colorado.edu/2016-17/) (PDF (https://www.colorado.edu/registrar/media/663/))
- 2015–16 CU Boulder Catalog (https://catalog-archive.colorado.edu/2015-16/) (PDF (https://www.colorado.edu/registrar/media/219/))

To view older catalogs, please visit the Office of the Registrar's Schedule & Catalog Archive (http://www.colorado.edu/registrar/about/archive/) webpage.
