HIST 1800 (3) Introduction to Global History
The first cornerstone course for history majors applies a broad perspective to the global past in order to illuminate how common historical patterns and processes, as well as unique elements, shaped the human experience. Using a thematic approach, all topical variations of this course highlight cross-cultural interactions among societies, and, when relevant, how historical processes that began centuries ago still impact the contemporary world. Topics will vary by section. Department enforced prerequisite: 3 hours of any history coursework.
Requisites: Restricted to students with 27-180 credits (Sophomore, Junior, or Senior) History (HIST) majors and minors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Methodological, Comparative, and Global
Departmental Category: Asia Content

HIST 1818 (3) Jewish History to 1492
Focus on Jewish history from the Biblical period to the Spanish Expulsion in 1492. Study the origins of a group of people who call themselves, and whom others call, Jews. Focus on place, movement, power/powerlessness, gender, and the question of how to define Jews over time and place. Introduces Jews as a group of people bound together by a particular set of laws; looks at their dispersion and diversity; explores Jews' interactions with surrounding cultures and societies; introduces the basic library of Jews; sees how Jews relate to political power.
Equivalent - Duplicate Degree Credit Not Granted: JWST 1818 and RLST 1818

HIST 1830 (3) Global History of Holocaust and Genocide
Examines the interplay of politics, culture, psychology and sociology to try to understand why the great philosopher Isaiah Berlin called the 20th century, "The most terrible century in Western history." Our focus will be on the Holocaust as the event that defined the concept of genocide, but we will locate this event that has come to define the 20th century within ideas such as racism, imperialism, violence, and most important, the dehumanization of individuals in the modern world.
Equivalent - Duplicate Degree Credit Not Granted: JWST 1830 and RLST 1830
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Methodological, Comparative, and Global

HIST 2015 (3) US Revolutionary Origins
Examines major themes in the development of colonial societies in North America from the 15th to the early 19th centuries. Explores intercultural relations, economic development, labor systems, religion and society, and family life. Specific course focus may vary.
Additional Information: GT Pathways: GT-HI1 - History
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Chronological Periods

HIST 2100 (3) Revolution in History
Examines the causes, character, and significance of political revolution in world history. Concentrating on one of the major revolutions of modern history, it examines why revolutions occur, who participates in revolution, and to what effect. Specific course focus varies.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Methodological, Comparative, and Global

HIST 2110 (3) Topics in Early Modern History
Between the Black Death (c. 1350) and the French Revolution (1789), Europeans experienced transformative changes¿print, science, industrialism, overseas empires, religious and civil wars, and political revolutions¿that altered their relationship with the rest of the world. Examines topics in early modern history (e.g., intellectual developments, religion, culture, social history, economic/political changes, and warfare) in a specific region or nation (i.e. Europe, Latin America, the Atlantic World, Spain, Russia, China, Japan, etc.). Topics vary.

Departmental Category: Methodological, Comparative, and Global
Departmental Category: Asia Content

HIST 2316 (3) History of American Popular Culture
Traces changes in American popular culture from the Revolution to the present. Focuses on the increasing levels of mediation represented by print, spectacular performance, radio, television, and recorded music. The study of popular culture offers clues to decipher shifting patterns of consumption, globalization, race, gender, politics, technology, and media.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4546
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 1

HIST 2326 (3) Issues in the History of U.S. Society and Culture
Examines the origins, development, and impacts (social, political, cultural, economic, etc.) of significant issues and themes in the cultural,intellectual, and/or social history of the United States from independence to the present day. Explains the impact of race, gender, ethnicity, and class on these issues. Topics vary in any given semester.
Additional Information: GT Pathways: GT-HI1 - History
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 1

HIST 2437 (3) African American History
Surveys African American history. Studies, interprets and analyzes major problems, issues and trends affecting African Americans from about 1600 to the present.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 2432
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: United States: Topical Courses 2

HIST 2476 (3) United States Legal History
Surveys U.S. legal history from the founding era to today. It covers legal ideas that shaped the drafting of the Constitution and examines the pressures that tested that founding document through the present. It addresses legal debates in contexts of territorial expansion, industrial development, financial crisis, shifting demographics, and both civil and world war. It considers how slavery, civil rights, race, regulation, economic expansion, privacy, and equality contributed to various understandings of citizenship.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HIST 2500 (3) Fact and Fiction in History
Examines history and historical sources through the alternating lenses of ¿fact¿ and ¿fiction¿ in order to think not only about what happened, but how we acquire information and knowledge, and how we use sources and evidence to construct our own understandings of the past and to write history. Considers how narratives found in novels, myths, movies, television, music, visual material, monuments, or public memories, represent the past and relate to historical accounts.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

HIST 2516 (3) America Through Baseball
Baseball could not have existed without America. Explains how the game fit into the larger context of social, cultural, economic and political history from the 19th century to the present. Studies the events and people who made baseball the national pastime.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4556
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 1
Departmental Category: Asia Content

HIST 2566 (3) Made in America: Work and Workers in American History
Puts the working lives of Americans, and the meaning of work in American life, in historical perspective. What "counts" as work and how has that changed over time? How do people's expectations of their working lives today compare to how people thought about work trajectories in the past? Whose work has been valued and whose has not? The course focuses mainly on the nineteenth and twentieth centuries while drawing parallels to the present.

HIST 2616 (3) History of Gender in America
Introduces the social and cultural construction of femininity and masculinity in America from 1500 to the present. Explores gender as a status acquired and performed through tasks, clothing, adornment and bodily movement. Examines gender ideals, expression and practices such as gender crossing, gender bending and gender plan.
Additional Information: GT Pathways: GT-HI1 - History
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: United States: Topical Courses 1

HIST 2629 (3) China in World History
Examines the multiple connections between Chinese history and other parts of the world over the course of China's long history. Specific course focus may vary by instructor/term.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Comparable and General
Departmental Category: Asia Content

HIST 2718 (3) History of Japan Through Cinema
Japan¿s incredibly rich cinematic tradition, from early 20th-century dramatic masterpieces to 21st-century anime, reveals much about its culture and history. We will use Japanese films to study key issues in the history of Japan, roughly between the years 1500-2000, including the changing role of the samurai, women and the `floating world¿ of pleasure, modernization, the devastation of war, economic recovery, the downside of prosperity, and nostalgia for the past.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HIST 2728 (3) Japan: From Samurai to Kamikaze
Death-defying warriors prepared to cut their bellies and die over the slightest insult to their honor. Conscripted soldiers who charged uphill directly into the line of fire while shouting their loyalty to the emperor. Pilots who took off knowing they wouldn't return, blowing up military targets and themselves. This course peeks beneath stereotypes in the military history of Japan from the first evidence of armed conflict through World War II and beyond.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

HIST 2810 (3) Antisemitism: Histories, Concepts, Practices
This class explores the main histories, concepts, and practices of antisemitism. It analyzes how and why they emerged and what accounts for their persistence. Why are Jews targeted? Is there a ¿new antisemitism¿¿ since the 1970s¿ that differs significantly from older manifestations? How is antisemitism related to anti-Zionism? What is its relationship with racism? And how have political, social, and religious groups and organizations responded to these threats and what challenges have they faced?
Equivalent - Duplicate Degree Credit Not Granted: JWST 2810
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HIST 2830 (3) Disease and Public Health in Global History
Examines the global history of health and disease from the Paleolithic to the present. Themes and topics vary by semester but may include the co-evolution of humans, microbes, and vectors; food, famine, and nutrition; mental health; contagions such as plague, smallpox, cholera, yellow fever, influenza, HIV, and coronaviruses; cultural, social, medical, and institutional developments; gender, race, and sexuality; and connections between public health and environment, climate, water supply, colonization, globalization, imperialism, migration, and transportation.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HIST 3012 (3) Seminar in Modern European History
Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on modern European history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Modern

HIST 3018 (3) Seminar in Latin American History
Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on Latin American history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions

HIST 3020 (3) Historical Thinking & Writing
The second cornerstone course for history majors centers on the essential skills all historians use. Students will advance their reading, sourcing, and research techniques, hone critical, analytical, and synthetic skills, navigate scholarly discourse, and practice historical writing. As this simultaneously satisfies the College's upper-division writing requirement, all sections involve substantial, regular, and varied writing assignments as well as instruction in methods and the revision process. All topical variations of this course are limited to a maximum of 18 students in order to focus on supporting students as they learn to write - and think - like an historian. Topics will vary by section. Recommended for sophomores or juniors, HIST 3020 may be taken concurrently with, but not prior to, HIST 1800.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prereq courses of ARSC 1080 or 1150 or CLAS 1020 or ENGL 1001 or PHIL 1500 or WRTG 1100 or 1150 or 1250 and prereq/coreq of HIST 1800 or HIST 1830 (all min grade C-). Restrctd to students with 27-180 credits (Soph, Jr, or Sr) HIST majors only.
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Written Communication-Upper
Departmental Category: Methodological, Comparative, and Global

HIST 3109 (3) Seminar in Asian History
Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on Asian history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources. Previously offered as a special topics course.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Comparable and General
Departmental Category: Asia Content

HIST 3110 (3) Honors Seminar
Practical historiography for students who wish to write a senior honors thesis. Emphasizes choice of topic, critical methods, research, organization, argumentation, and writing.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 3.5 or higher.
Additional Information: Arts Sciences Honors Course
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Methodological, Comparative, and Global

HIST 3112 (3) Seminar in Renaissance and Reformation
Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on the history of the Renaissance and Reformation, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Modern

HIST 3113 (3) Seminar in Medieval and Early Modern English History
The third, and final, cornerstone course for history majors is a capstone seminar. Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous classes towards producing historical knowledge about a particular area of interest. This seminar focuses on medieval and early modern English history, and will include readings and discussions in a small seminar setting. These and other class activities and assignments will support the central goal: for each student to develop an individual research project on a topic of their own choosing in relation to medieval and early modern English history. Students will then write a substantial and original research paper based on primary sources. Completion of HIST 3020 is required for history majors to enroll in a senior seminar.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Specific Countries

HIST 3115 (3) Seminar in Early American History
The third, and final, cornerstone course for history majors is a capstone seminar. Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous classes towards producing historical knowledge about a particular area of interest. This seminar focuses on early American history, and will include readings and discussions in a small seminar setting. These and other class activities and assignments will support the central goal: for each student to develop an individual research project on a topic of their own choosing in relation to early American history. Students will then write a substantial and original research paper based on primary sources. Completion of HIST 3020 is required for history majors to enroll in a senior seminar.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Chronological Periods

HIST 3120 (3) Honors Thesis
Intended for students writing an Honors Thesis in History. Department enforced prerequisite: HIST 3110 and instructor consent.
Requisites: Requires prerequisite course HIST 3110 (minimum grade C-).
Additional Information: Arts Sciences Honors Course
Departmental Category: Methodological, Comparative, and Global

HIST 3212 (3) Seminar in Early Modern Europe
Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on early modern European history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Modern

HIST 3218 (3) Seminar in African History
Deals with the history and anthropology of selected west African societies in the period before the imposition of European colonial rule.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions

HIST 3328 (3) Seminar in Middle Eastern History
Examines selected issues in modern Middle Eastern history. Check with the department concerning the specific subject of the seminar.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 3414 (3) Seminar in Modern European Thought and Culture
Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on the history of modern European thought and culture, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Topical

HIST 3415 (3) Seminar in Recent American History
Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on recent American history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Chronological Periods

HIST 3416 (3) Seminar in American Society and Thought
Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on the history of American society and thought, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 1

HIST 3417 (3) Seminar in African American History
Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on African American history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 2

HIST 3628 (3) Seminar in Recent Chinese History
Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on recent Chinese history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 3713 (3) Seminar in Russian History
Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on Russian history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a paper based on primary sources.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Specific Countries

HIST 3718 (3) Seminar in Japanese History
Capstone seminars are designed for advanced history majors to pull together the skills they have honed in previous courses. This seminar focuses on Japanese history, and will include readings and discussions in a small seminar setting. In relation to the course topic, students will develop an individual research project and write a substantial and original paper based on primary sources.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 3800 (3) Seminar in Global History
Organized around themes that change year to year, this seminar allows students to explore and research processes, phenomena, and events of global significance in historical context. Stress will be upon subjects that span multiple world areas. Possible topics include: the international arms trade; slavery; health and disease; youth culture; women's rights; genocide. See department for current theme.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).
Recommended: History GPA of 2.0 or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Methodological, Comparative, and Global

HIST 3840 (1-3) Independent Study
Course content determined by faculty and student
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: Methodological, Comparative, and Global

HIST 3841 (1-3) Independent Study
Course content determined by faculty and student
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: Europe: Ancient and Medieval

HIST 3842 (1-3) Independent Study
Course content determined by faculty and student
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: Europe: Modern

HIST 3843 (1-3) Independent Study
Course content determined by faculty and student
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: Europe: Specific Countries

HIST 3844 (1-3) Independent Study
Course content determined by faculty and student
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: Europe: Topical

HIST 3845 (1-3) Independent Study
Course content determined by faculty and student
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: United States: Chronological Periods

HIST 3846 (1-3) Independent Study
Course content determined by faculty and student
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: United States: Topical Courses 1

HIST 3847 (1-3) Independent Study
Course content determined by faculty and student
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: United States: Topical Courses 2

HIST 3848 (1-3) Independent Study
Course content determined by faculty and student
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: World Areas: Specific Regions

HIST 3849 (1-3) Independent Study
Course content determined by faculty and student
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: World Areas: Comparable and General

HIST 4018 (3) Aztecs, Incas, and the Spanish Conquest of the Americas
Building upon contemporary texts and modern histories of both famous and ordinary people, this course examines the indigenous empires known as the Aztecs and the Incas. It also examines the encounter of Europeans and native people, following the history of exploration and conquest from the time of Columbus to about 1550. Equal consideration is given to the course's three components: Aztec, Inca and the Spanish conquest.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1018 or HIST 3020.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions

HIST 4020 (3) Topics in Comparative History
Explores historical themes from a comparative perspective. Encourages students to think more analytically about historical change. Consult current online schedule for specific topics. Often team-taught by more than one faculty.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite two 4000-level History courses in differing content areas.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Methodological, Comparative, and Global

HIST 4021 (3) Athens and Greek Democracy
Studies Greek history from 800 B.C. (the rise of the city-state) to 323 B.C. (the death of Alexander the Great). Emphasizes the development of democracy in Athens. Readings are in the primary sources.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4021 and CLAS 5021
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Ancient and Medieval

HIST 4031 (3) Alexander the Great and the Rise of Macedonia
Covers Macedonia's rise to dominance in Greece under Philip II and the reign and conquests of Alexander the Great.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5031 and CLAS 4031
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite CLAS 1051 or CLAS 1509 or CLAS 2039 or CLAS 4139 or CLAS 4149 or CLAS 2041 or CLAS 4021 or CLAS 4041 or HIST 1051 or GREK 3113.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Ancient and Medieval

HIST 4041 (3) Classical Greek Political Thought
Studies main representatives of political philosophy in antiquity (Plato, Aristotle, Cicero) and of the most important concepts and values of ancient political thought. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4041 and CLAS 5041 and PHIL 4210
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Ancient and Medieval

HIST 4048 (3) Latin American Revolutions
Examines the origins, development and continuing influence of 20th-Century Latin American revolutionary movements, with a focus on placing these struggles in comparative historical context. Explores various approaches to revolution and the general role of left political formations in Latin America. Specific focus can vary by semester with examples drawn from various Latin American countries, including Mexico, Guatemala, Cuba, Chile and Nicaragua.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5048
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1018 or HIST 1028 or HIST 3020.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: World Areas: Specific Regions

HIST 4061 (3) Twilight of Antiquity
Explores the reasons for the fall of the Roman Empire in the western Mediterranean and its survival in the east as Byzantium. Emphasizes Christianity; barbarians; social, economic and cultural differences; contemporary views of Rome; and modern scholarship. No Greek or Latin is required.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5061 and CLAS 4061 and CLAS 5061
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Ancient and Medieval

HIST 4071 (3) Seminar in Ancient Social History
Considers topics ranging from demography, disease, family structure, and the organization of daily life to ancient slavery, economics, and law. Focuses either on Persia, Greece, or Rome and includes a particular emphasis on the methodology required to reconstruct an ancient society, especially the interpretation of problematic literary and material evidence and the selective use of comparisons with better known societies. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4071 and CLAS 5071
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Ancient and Medieval

HIST 4081 (3) The Roman Republic
Studies the Roman Republic from its foundation in 753 B.C. to its conclusion with the career of Augustus. Emphasizes the development of Roman Republic government. Readings are in the primary sources. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4081 and CLAS 5081
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Ancient and Medieval

HIST 4083 (3) Trials and Triumphs on the Emerald Isle: The Irish People and Their Histories, 1641-1998
Covers the history of Ireland during modern times, beginning with the rebellion of 1641 and ending with the Good Friday Agreement in 1998. Students will learn about some of the most tumultuous, triumphant, and creative periods in Irish history, all the while considering the blending of cultures, ideas, and artistic accomplishments that created Modern Ireland.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1012 or HIST 1123.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Specific Countries

HIST 4091 (3) The Roman Empire
Studies Imperial Roman history beginning with the Roman Revolution and ending with examination of the passing of centralized political authority in the western Mediterranean. Emphasizes life, letters and personalities of the Empire.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4091 and CLAS 5091
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Ancient and Medieval

HIST 4101 (3) Greek and Roman Slavery
Surveys slavery in ancient Greece and Rome beginning with its growth, economics and political effects, moving to the life experiences of slaves, resistance and revolt, and finishing with the ideology of slavery. Focuses throughout on the challenge of understanding classical slavery on the basis of scattered and biased evidence and on the controversies that have surrounded this topic.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4101 and CLAS 5101
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

HIST 4103 (3) England from the Viking Age to the Tudors
During the Middle Ages Germanic values of honor and retribution became deeply ingrained in the warrior culture of the English aristocracy. This course begins with an examination of the Scandinavian and Germanic roots of this warrior culture before exploring the residue of that culture in the centuries leading up to the Tudor period.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Recommended: Prerequisite HIST 1011 or HIST 1113.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HIST 4109 (3) World War II in Asia and the Pacific
For Asia, World War II began with the Mukden Incident (1931), resulting in the Japanese domination of Manchuria and leading to a full-scale war between China and Japan in 1937. Only after the Japanese attacked the U.S. Pacific fleet at Pearl Harbor four years later did the United States enter the war. Discusses the various socioeconomic and political factors leading to the war in Asia, examines the nature of the conflict on the Asian mainland and in the Pacific, and assesses legacy of the war on all those involved.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Comparable and General
Departmental Category: Asia Content

HIST 4116 (3) History of U.S. Foreign Relations, 1865-1940
Traces the rise of the United States to world power. Explores the interactions of expansionist and isolationist impulses with politics, ideology, culture and economics, with a focus on the Spanish American War and the acquisition of empire, World War I and the coming of World War II.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5116
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 1

HIST 4117 (3) Colorado History
Presents the story of the people, society, culture, and environment of Colorado from the earliest Native Americans, through the Spanish influx, the fur traders and mountain men, the gold rush, railroad builders, the cattlemen and farmers, the silver boom, the twentieth-century tourists, city-dwellers, workers and activists. Highlights the historical origins of twenty-first century institutions, problems, challenges, and opportunities.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1015 or HIST 1025.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 2

HIST 4118 (3) History of Mexico to 1821
Studies Mexican history beginning with roots and evolution of pre-Columbian civilizations and concluding with the events of Mexican independence in 1821. Emphasizes society and culture of the Aztecs and Mayans, the Spanish conquest of Mexico, and the colonial regime of New Spain.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions

HIST 4123 (3) Kings & Commoners in an Age of Crisis: English History 1327-1487
England in the 14th and 15th centuries endured climate change, the Black Death, peasant revolts, foreign and civil war and the forcible removal of five kings; yet this period also saw renewed forms of religious devotion, famous military victories and the exaltation of kingship. Crucially, it also saw the growing importance of the common people in English politics and the notion that government should aspire to serve the common good of the whole realm.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1011 or HIST 1113.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Specific Countries

HIST 4125 (3) Early American History to 1763
Explores the colonial era of American history from the pre-Columbian period to the end of the Seven Years' War. Topics include pre-contact Native societies, exploration, European settlement and Native American responses, labor system and the rise of slavery, imperial wars, and the developments in religion, society, politics and culture.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5125
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: United States: Chronological Periods

HIST 4126 (3) History of U.S. Foreign Relations Since 1941
Traces the development of the United States as a superpower. Details American power and diplomacy in World War II and the rise of the national security state in the Cold War. Explores the Korean, Vietnam and Persian Gulf Wars, and the era of modern-day globalization.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5126
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 1

HIST 4128 (3) The History of Modern Mexico Since 1821
Centers on the Mexican search for political consolidation and stability through the 19th, 20th and 21st centuries. Focuses on the Mexican Revolution (1910-1940) and the post revolutionary rule of the Institutional Revolutionary Party. Examines the War on Drugs and the causes of Mexican migration to the United States.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5128
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1028 or HIST 3020.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions

HIST 4129 (3) China, Japan, Thailand: Asia under Semicolonialism
China, Japan, and Thailand were never formally colonized, but were nonetheless deeply impacted by imperialism. Beginning with the age of Euro-American empire-building in the nineteenth century, we trace the different ways in which China, Japan, and Siam/Thailand strategized to secure their status as independent, sovereign nations. We also investigate how these states interacted with and influenced each other, particularly during the early twentieth century when Japan itself became a colonial power in Asia.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

HIST 4131 (3) The Origins of Christianity
Examines the history of Christianity from Jesus Christ to the eighth century, including the Roman Empire and the rise of the papacy. Topics include the religion¿s spread across Afro-Eurasia, the Latin West and Greek East, ¿micro-Christendoms,¿ monastic life, cults of relics, cities and frontiers, saints¿ lives, and Christianity's encounters with heresies, Greek philosophy, and the beliefs of Judaism and Islam.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1011 or HIST 1061 or HIST 2170 or CLAS 1061.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Ancient and Medieval

HIST 4133 (3) Tudor England, 1485-1603
Includes topics such as the aftermath of the Wars of the Roses; Henry VIII's 'Great Matter' and his six wives; Reformation and Counter-Reformation; the courtships of Elizabeth I; how Elizabeth became the Virgin Queen; Mary Queen of Scots and the perils of a queen marrying badly; the Tudors and Ireland; English pirates of the Caribbean; the Gran Armada and war against Spain; and the conspiracy that marked the end of England's most famous royal dynasty.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1011 or HIST 1113.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Specific Countries

HIST 4143 (3) The Making of Great Britain: British History 1603-1714
Covers the history of the British Isles from 1603 to 1714, the era of the English Civil War and the Glorious Revolution. Traces economic and social relationships, cultural change and religious and political conflict under the Stuart monarchs.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1011 or HIST 1012 or HIST 1113 or HIST 1123.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Specific Countries

HIST 4166 (3) The Vietnam War in US Politics and Culture
Examines America's second-longest and most divisive war from the beginning of the U.S. involvement in the 1950s to the repercussions echoing into the 1980s. Considers the global context, motives, and evolution of U.S. involvement, support for and opposition to the war in the USA, the war's repercussions in international policy and US politics, and representations of the war in American popular culture.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 1
Departmental Category: Asia Content

HIST 4205 (3) The Colonial Wars and the Coming of American Independence, 1739-1776
Investigates imperial warfare and its effects during the late colonial period, concentrating on the French and Indian War (1754-1763), the disruption of Anglo-American relations and the origins of the War of American Independence (1775-1783).
Equivalent - Duplicate Degree Credit Not Granted: HIST 5205
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Chronological Periods

HIST 4212 (3) The Age of Religious Wars: Reformation Europe,1500-1648
Traces the history of Europe from the end of the Hundred Years War through the Thirty Years War. During this period Europe experienced tremendous changes including emerging religious heresies, the advent of the Spanish Inquisition, violent civil wars, the witch craze, and the Thirty Years War, a precursor to the World Wars of the 20th century.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1011 or HIST 1113.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Modern

HIST 4215 (3) The Revolutionary War and the Making of the American Republic, 1775-1801
Investigates the Revolutionary War and its impact on the creation of American political institutions, as well as its cultural, social and economic effects, from the Battles of Lexington and Concord through the inauguration of Thomas Jefferson.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5215
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Chronological Periods

HIST 4217 (3) The American West in the 19th Century
Explores cultural, social and political interaction in the American West during the 19th century. Themes include environmental change; conflict and syncretism across race, class, and gender lines; mythic images, and their relationship to the "Real" West.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1015 or HIST 1025.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 2

HIST 4218 (3) Lost Kingdoms & Caliphates: West Africa to 1900
Investigates the formation and dissolution of West Africa's kingdoms, caliphates and stateless societies during the era of the trans-Atlantic and trans-Saharan slave trades. Through a survey of oral and written sources, this course examines West Africa's geopolitical transformation in warfare, jihad, trade and slavery, especially in relation to the African Diaspora to the Americas and Muslim world.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: World Areas: Specific Regions

HIST 4222 (3) War and the European State, 1618-1793
Studies the development of the European states in response to international power struggles in the 17th and 18th centuries (up to the French Revolution).
Equivalent - Duplicate Degree Credit Not Granted: HIST 5222
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Modern

HIST 4223 (3) The French Revolution and Napoleon
Traces the origins, course, and consequences of the most important modern revolution, the French Revolution of 1789. While seeking to explain how a liberal movement for progressive change soon degenerated into the factional bloodbath of the Terror, will also examine the revolution's global impact and how three decades or revolutionary warfare lead to the rise and fall of Napoleon Bonaparte.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5223
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Specific Countries

HIST 4227 (3) The American West in the 20th Century
Explores cultural, social, and political interaction in the American West during the 20th century. Themes include popular culture, state-federal relationships, environmental change, urbanization, immigration, and cultural formation.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1025.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 2

HIST 4232 (3) From Revolt to Revolution: Europe in an Age of Global Enlightenment, 1648-1789
Studies how colonial and imperial expansion transformed cultural, political, and socio-economic institutions in Europe from the end of the Thirty Years War through the outbreak of the French Revolution. Central themes include state centralization, popular resistance, bureaucratization, commercialization, and cultural developments such as scientific revolution and enlightenment.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1012.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Modern

HIST 4235 (3) Jacksonian America
Focuses on the social and cultural history of the Jacksonian Era. Issues include the transformation of the market economy, slavery, moral reform, Indian removal, changes in ideas about men's and women's natures and roles, western expansion, and political culture.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5235
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1015.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Chronological Periods

HIST 4238 (3) History of Southern Africa
Examines the history of southern Africa history from the earliest times to the present. Short background readings and lectures cover southern African's history and class discussions of novels are layered over these basics. Topics of study include Cecil Rhodes and the diamond/gold mines; Shaka and the Zulu "nation"; apartheid; Nelson Mandela and the antiapartheid movement; issues facing South Africa today.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisites HIST 1218 or 1228 or 3109 or 4258 or 4218 or ANTH 1150 or ANTH 3100 or ANTH 4630 or GEOG 3862 or PSCI 3082 or WGST 3712.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: World Areas: Specific Regions

HIST 4258 (3) Africa under European Colonial Rule
Looks at the British, French, Portuguese and German empires that undertook the "Scramble for Africa" in the late 19th century. Themes include slavery and the slave trade; colonization and "pacification"; African resistance to European rule; missionaries and converts; decolonization and anti-colonial uprisings; issues facing Africa today, including oil, war and the Rwandan genocide.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1218 or HIST 1228 or HIST 3020 or ANTH 1150 or ANTH 3100 or ANTH 4630 or GEOG 3862 or PSCI 3082.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: World Areas: Specific Regions

HIST 4303 (3) Venice and Florence during the Renaissance
Comparative urban study of Florence and Venice from 13th through 16th centuries. Principal subjects are the distinctive economies of the cities, political developments, Renaissance humanism, patronage of the arts, and foreign policy.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4303
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1011.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Specific Countries

HIST 4304 (3) The Cosmos in Ancient Mediterranean Societies
Through a chronological investigation of ideas about the cosmos in ancient Mediterranean societies, this course communicates how ancient and premodern people thought about, described, and made space part of their daily lives. It will expose students to primary sources such as hieroglyphs, paintings, poems, lyrics & maps. By doing so students will also develop knowledge about ancient societies. The course will include lectures, student skit presentations, learning cells & one class project.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisites HIST 1011 or CLAS 1051 or CLAS 1061.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HIST 4313 (3) History of Modern Italy
Examines the major historical, economic and social factors that have shaped the identity of modern Italy, from the enthusiasm of young patriots during Italy's unification in the 1860s to the discontent and domestic terrorism of the 1960s-1980s. Focuses on Mussolini, the Fascist movement and on World War II, as well as the changing role of women. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: ITAL 4250
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Specific Countries

HIST 4315 (3) Civil War and Reconstruction
Describes the forces at work in the antebellum period that led to sectional warfare; social, economic, and political changes effected by the war; the American agony of reconstruction; and the long-range results of that difficult era.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1015.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Chronological Periods

HIST 4320 (3) The History of the Mediterranean, 600 CE-1600 CE
Familiarizes students with the Mediterranean ecumene covering concepts such as the Renaissance, the Crusades, traders and travelers, religions and cities. Explores both conflicts (military, confessional) and exchanges (commercial, artistic, scientific) thus helping students think cross culturally, comparatively and thematically. Emphasizes the Mediterranean contribution to historical developments of western Europe, the Middle East, and North Africa.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1011 or HIST 1061 or HIST 1308 or HIST 4061 or HIST 4071 or HIST 4081 or HIST 4091 or HIST 4711.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Methodological, Comparative, and Global

HIST 4323 (3) Mafia and Terrorism: Organized Violence in Italy
Investigates the origins and development of the Sicilian Mafia and Political Terrorism in Italy. In the first part of the course, the context of Italian politics, economy and society in which the mafia was born and flourished in the 19th and 20th century will be explored. The ramification of the Mafia in the United States in the 20th c. will also be studied.
In the second part of the course, the political and social causes of Italian left and right wing Terrorism will be examined, starting from the Piazza Fontana slaughter (1969) until the murder of Professor Marco Biagi (2002). Particular attention will be devoted to the kidnapping and murder of Democratic Christian Party President Aldo Moro and to the Red Brigades terrorist movement. The role of women in both Mafia and Terrorism will be explored.
Equivalent - Duplicate Degree Credit Not Granted: ITAL 4260
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HIST 4326 (3) Epidemic Disease in US History
Focuses on the impact of infectious epidemic disease on American history, from smallpox and cholera to influenza, AIDS and Ebola. Addresses early depopulation of the Americas; contagion and social upheaval; interpretations of pestilence; social construction of disease; urbanization; doctors and alternative practitioners; public health; prejudice and infection; the ethics of quarantine; public versus individual interests; and the paradox of prevention.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: United States: Topical Courses 1

HIST 4328 (3) The Modern Middle East, 1600 to the Present
Primarily from 1800 to the present. Attention divided equally between the region's political history and international relations and its patterns of economic, social and cultural modernization in the main countries.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5328
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1308.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 4329 (3) Islam in the Modern World: Revivalism, Modernism, and Fundamentalism, 1800-2001
Examines the more important movements of reform in Muslim world (including Africa, the Middle East and India) from the 18th century to the present, and their origins and intellectual import. Due to the trans-regional nature of this broad movement of reform, particular attention is paid to how these movements related to local political, economic and social contexts, and how they, in turn, moved across larger networks of oceanic commerce and trade. Concludes with extended case studies of Islamic reformism in modern Egypt and India, and their ultimate influence on the politics of contemporary Islamist movements, especially the intellectual position of Ussama B. Ladin.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1308.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Comparable and General
Departmental Category: Asia Content

HIST 4336 (3) Nineteenth-Century American Thought and Culture
Examines the emergence of intellectual traditions and cultural trends in their social and political contexts from the early republic to the beginning of the modern era. Addresses developing arguments about democracy, religion, transcendentalism, gender, race, union/disunion, the Darwinian revolution, utopia/dystopia realism and naturalism in literature and the arts.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 1

HIST 4338 (3) History of Modern Israel/Palestine
How did we get to this point? What histories do we need to know to understand the situation of Israelis and Palestinians today? To answer these questions, this course traces the intertwined histories of Israel/Palestine, Israelis and Palestinians from the late Ottoman period to the present. Topics include: nationalism and colonialism, the development of Zionisms, Palestinian nationalism, the Jewish community (Yishuv) under British rule, the founding of the State of Israel, Arab-Israeli and Palestinian-Israeli relations, Israel's minorities, the role of religion in Israel today and changing relationships between the United States, Israel and Palestinians.
Equivalent - Duplicate Degree Credit Not Granted: JWST 4338
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST/JWST 1818 or HIST/JWST 1828 or HIST 1308 or JWST 2350 or other course work in Middle Eastern or Jewish History.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 4339 (3) Borderlands of the British Empire
Examines the development of the borderlands of the British empire through imperial expansion, consolidation, and early decolonization. Focuses on the 19th and early 20th centuries. Topics include domination, resistance and negotiation in areas such as India, Afghanistan, the Palestine Mandate. Aims for students to acquire skills in comparative history and to develop a better understanding of the roots of contemporary conflicts.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5339
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1012 or HIST 1123 or HIST 1228 or HIST 1308 or HIST 1528.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: World Areas: Comparable and General
Departmental Category: Asia Content

HIST 4343 (3) Medieval Spain: Tolerance, Conquest and Religion, 800-1600
This course examines the culture and politics of the Iberian Peninsula focusing on the two themes of toleration and reconquest c.800-1600. We focus on how Spain¿s institutions and religious beliefs shaped European culture. We explore convivencia, the period of Muslim toleration that borrowed heavily from the medieval Mediterranean, when the interaction between Christians, Jews, and Muslims produced cultural vibrancy. We then analyze the Spanish monarchs¿ solidification of their nation through expulsions, persecution, and empire building. Formerly HIST 4064.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5343
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1011 or HIST 1018.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Topical

HIST 4348 (3) Topics in Jewish History
Covers topics in Jewish history from biblical beginnings to present day. Topics vary each semester. Consult the online Schedule Planner for specific topics.
Equivalent - Duplicate Degree Credit Not Granted: JWST 4348
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1818 or JWST 1818 or HIST 1828 or JWST 1828 or HIST 1308 or JWST 2350 or other course work in Middle Eastern or Jewish History.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions

HIST 4349 (3) Decolonization of the British Empire
Examines the end of the British Empire. Focuses on connections between imperial territories, such as networks of anticolonial activists and links between British decision makers. Students will acquire research skills and develop a better understanding of the roots of contemporary conflict. Prior coursework in British imperial history and excellent writing skills are required.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5349
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1123 or HIST 1228 or HIST 1308 or HIST 1528 or HIST 4053 or HIST 4238 or HIST 4258 or HIST 4328 or HIST 4329 or HIST 4338 or HIST 4339 or HIST 4538 or HIST 4548 or HIST 4558.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: World Areas: Comparable and General
Departmental Category: Asia Content

HIST 4358 (3) Childhood in Modern Israel/Palestine
Examines topics relating to History, Jewish Studies and Israel/Palestine studies. Analyzes the history of modern childhood in Israel and Palestine from the 19th century to the present. Themes include agency, work, life cycle and culpability. Topics range from collective parenting on Israeli Kibbutzim, growing up in Ottoman Palestine, to the legal status of stone-throwing Palestinian children. Sources include memoirs, literature, films, monographs and articles.
Equivalent - Duplicate Degree Credit Not Granted: JWST 4358 and JWST 5358 and HIST 5358
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST/JWST 4338 History of Modern Israel/Palestine, this course would give students relevant background on the history of the region, but is not required.

HIST 4359 (3) The Global History of Modern Arabia
Examines the history, politics and society of the countries of the Arabian Peninsula (modern day Saudi Arabia, Oman, Yemen, Bahrain, Qatar and the UAE) in the period between 1800 and the present. The guiding assumption will be that the histories of Arabia cannot be studied in isolation from broader histories of capital formation, imperialism, religious reform, state formation and the discourses and practices which they informed. To that end, the focus will be on Arabia as part of the British, Ottoman and Omani Empires, a participant in Indian Ocean commerce, a source and destination for migrant scholars, students and laborers, the center of the petroleum economy and a domain of struggle for activists and intellectuals representing multiple political/ideological currents-not only Islamist, but also, liberal, socialist and communist.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: World Areas: Comparable and General

HIST 4366 (3) Culture Wars: Modernism, Mass Culture, and the Modern U.S.
Examines how U.S. public moralists, intellectuals, and artists from the end of the nineteenth century to World War II both celebrated and attacked the rise of two characteristic features of modernity: mass culture (amusement parks, popular music, radio, movies), and modernist literary and artistic expression. Addresses how Americans both constructed and violated the line between "popular" and "high" culture.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1025.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 1

HIST 4378 (3) Jews in and of the Middle East
Examines the modern history and culture of Jewish communities under Islamic rule in the Middle East and North Africa; Jews' and Muslims' encounters with empire, westernization and nationalism; representations of Sephardi and Eastern Jews; Jewish-Muslim relations in Europe and the U.S.; and contact and conflict between Jews and Muslims in (and about) Israel/Palestine. Sources include memoirs, diaries, newspapers and films.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5378, JWST 5378, and JWST 4378
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 4388 (3) History Today: Global Intensive in Israel/Palestine
This global intensive analyzes history, memory and nationalism in one of the areas where the relationship between these three categories is the most fraught: Israel/Palestine. After learning the historical background to the Arab/Israeli and Palestinian conflict in Boulder, students will visit Israel and the West Bank/Occupied Territories/Judea and Samaria. Through this course, students will gain a nuanced, multi-sided perspective of Israel, Palestine and the uses of history and memory.
Equivalent - Duplicate Degree Credit Not Granted: JWST 4388
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HIST 4412 (3) Europe, 1890-1945
Examines the origins, character and significance of the First and Second World Wars for the major nations of Europe during the first half of the 20th century.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1012.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Modern

HIST 4416 (3) Environmental History of North America
Examines how people of North America, from precolonial times to the present, interact with, altered, and thought about the natural world. Key themes include Native American land uses; colonization and ecological imperialism; environmental impacts of food and agriculture; industrialization, urbanization and pollution; energy transitions; cultures of environmental appreciation; the growth of the conservation and environmental movements.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 1

HIST 4423 (3) German History 1848-1989: Weimar Republic, Nazism, State Socialism
Cultural, political and social history of Germany from the Revolutions of 1848 to the Fall of the Berlin Wall in 1989. Emphasizes German unification & Bismarck, the effects of World War I, Weimar politics, the rise of Nazism, World War II and the Holocaust, the post-war paths of West and East Germany, and reunification.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1012.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Specific Countries

HIST 4425 (3) United States History, 1917-1945
Examines U.S. history from World War I through World War II. Key themes include: warfare; the rise of the modern state; consumer culture; the shift from conservative politics to the New Deal liberalism; the women's movement; immigration restriction; segregation; the Great Migration, and civil rights; conflicts between secular modernism and religious fundamentalism; and new technologies such as the automobile.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1025.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Chronological Periods

HIST 4426 (3) Animals in U.S. History
This course explores interactions between people and other animals in the present day U.S. over the last six hundred years. Animals, as we will learn, have shaped American history in profound and surprising ways. Reading works and viewing films on wolves, horses, grizzly bears, dogs, elephants, pigs, humans, and other creatures, we will explore the historical origins and development of present-day human-animal relationships in the realms of economics, science, culture, ethics, and the law.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HIST 4433 (3) Nazi Germany and the Holocaust
Focuses on the political, social, and cultural origins of National Socialism, the nature of the Nazi regime, the origins and course of the Second World war, and the perpetration of the Holocaust.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Specific Countries

HIST 4435 (3) From the Cold War to the Counterculture: U.S. History 1945-73
Analyzes high politics, grassroots movements, and cultural change in the years of unprecedented economic prosperity and rapid change after WWII. Explores the foreign and domestic politics of the Cold War; labor unionism; the Vietnam War; the Civil Rights, antiwar, and women's rights movements; and technocultural changes like the rise of television and the growing dominance of the automobile.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1025.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Chronological Periods

HIST 4437 (3) African American History, 1619--1865
Explores the history of Africans in America from the first arrivals to emancipation, and their role in the social, cultural, economic, and political evolution of the United States.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1015.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Topical Courses 2

HIST 4442 (3) Europe since 1945
Explores Europe from the end of World War II through the present day. Topics include postwar reconstruction; the cold war; anticommunist opposition and new social movements; consumer culture and punk music; the fall of communism; the Yugoslav wars; European unity.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1012.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Modern

HIST 4445 (3) United States History since 1973
Traces political, diplomatic, economic, and social developments in the United States from 1973 to the present.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1025.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Chronological Periods

HIST 4447 (3) African American History, 1865 - Present
Explores the cultural, social and political history of African Americans after 1865. Focuses on African American social movements, the diversity of the African American communities, as well as a critical examination of the African Americans¿ relationship to the United States. Students in this course will study the advances made in the years following Emancipation as well as the continued challenges for Black freedom in the U.S.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1025.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Arts Sci Gen Ed: Diversity-U.S. Perspective

HIST 4448 (3) Wars of Liberation in Southeast Asia
Uses the contemporary nations of Indonesia, Myanmar, and Singapore as case studies to examine the making and unmaking of European and Japanese colonialism in Southeast Asia in the years surrounding World War II. In what ways did diverse communities understand and narrate imperialism and independence? How can we understand wars of liberation as local, regional, and global experiences, with legacies for today?
Equivalent - Duplicate Degree Credit Not Granted: HIST 5448 and ASIA 4448
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Departmental Category: Asia Content

HIST 4454 (3) Jewish Thought in Modern History
Takes students on a journey from Medieval Spain to contemporary United States to explore how Jews, living in different societies, have attempted to reshape and interpret central Jewish values and beliefs in accordance with the prevailing ideas of their host societies. Focuses on the historical context of each Jewish society that produced the thinkers and ideas considered in this course.
Equivalent - Duplicate Degree Credit Not Granted: JWST 4454
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Topical

HIST 4511 (3) Europe in the Dark Ages (400-1000 A.D.)
Examines the history of Europe from the fall of the Roman Empire to the turn of the first millennium. Treats social, political and religious transformations in the barbarian kingdoms, and considers the persistence of Roman institutions and culture and the impact of Christianity in northern Europe.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1011 or HIST 2170.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Ancient and Medieval

HIST 4521 (3) Europe in the High Middle Ages (1000-1400 A.D.)
Examines the history of Europe from the emergence of feudal institutions to the rise of nation states, with specific attention to social, intellectual and religious change, the role of law and ritual, the crusades and European expansion, and urban growth and identity in the West.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1011 or HIST 2170.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Ancient and Medieval

HIST 4524 (3) Expulsions and Diasporas: The Jews of Spain and Portugal
Considers the experience of Jews and converses during the Spanish Inquisition and the Iberian expulsions of the 1490s. Sephardic refugees faced social, economic, and political upheavals in the decades after their exile, leading to new communities in settings as diverse as North Africa, India, Turkey, the Caribbean, and the Americas. The study of texts and traditions from the Sephardic diaspora will explore themes including forced conversion, rabbinic authority, colonialism, and mercantile networks. Previously offered as a special topics course.
Equivalent - Duplicate Degree Credit Not Granted: JWST 4524
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HIST 4527 (3) Mexican-American History since 1848
Examines Mexican-origins people in the United States from the 19th century through the present. Focuses on Mexican-American history as both an integral part of American history and as a unique subject of historical investigation. Using primary and secondary sources, students will examine how Mexicans and Mexican-Americans have negotiated, influenced, and responded to political, social, cultural, and economic circumstances in the U.S.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1015 or HIST 1025.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: United States: Topical Courses 2

HIST 4538 (3) History of Modern India
Examines the history of India from the British conquest of India in the late 18th century to independence in 1947. Emphasizes the impact of British rule on the political, economic and social development of modern India.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5538
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of any history coursework.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 4546 (3) Popular Culture in the Modern United States
Traces the history of cultural expression in the United States since the late nineteenth century. From art, fiction, and music to the movies, amusement parks, shopping, and sports, popular culture offers clues to decipher shifting patterns of consumption, globalization, race, gender, politics, technology, and media. Includes instruction and practice interpreting cultural materials in historical context.
Equivalent - Duplicate Degree Credit Not Granted: HIST 2316
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1025.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 1

HIST 4548 (3) Women in Modern India
Examines the history of women and gender in India from the late 18th century to the present. Explores topics such as the changing legal status of women in the colonial and postcolonial period, marriage, domesticity and patriarchy, and women's education and participation in anti-colonial and postcolonial politics, women, work and the environment, violence against women, and women and globalization.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5548
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1528.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 4554 (3) Researching European Jewish Life
This upper-level hybrid class is a research and learning initiative of CU Boulder¿s History Department with the Department of History, Philosophy, and Jewish Studies at the Open University of Israel and the Center for Research in Antisemitism at the Technical University of Berlin, Germany. It revolves around an in-person research seminar in Europe. Topics will vary, beginning with a focus on egodocuments in the study of twentieth-century German Jewish life.
Equivalent - Duplicate Degree Credit Not Granted: JWST 4554 and HIST 5554
Requisites: Restricted to students with 57-180 credits (Junior or Senior) only. Restricted to students who have taken either HIST/JWST 1828, HIST/JWST/RLST 1830, HIST 4423, HIST 4433 or GRMN 2301 with a grade of C- or better; or with permission of instructor.

HIST 4556 (3) The History of America through Baseball
Baseball serves as a window to view the American experience. Covers U.S. history since 1830, addressing the major topics that reflect on American society, such as professionalization, labor management conflict, race, gender, culture, politics, economics and diplomacy.
Equivalent - Duplicate Degree Credit Not Granted: HIST 2516
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1015 or 1025.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 1

HIST 4558 (3) Buddha to Gandhi: A History of Indian Nonviolence
Focuses on the intellectual history of nonviolence in India from the time of the Buddha to Mahatma Gandhi who led India to national independence from the British Empire in 1947. Pursues this history in light of the encounter between Indian and western cultural traditions in modern India.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 4618 (3) From Genghis Khan to the Opium War: Early Modern China
Examines political, social, and cultural history of China from the Song Dynasty (960-1279) to the opium War (1839-1842). Topics covered include the development of imperial political institution and gentry society, Conquest Dynasties, Neo-Confucianism, China's "medieval economic revolution", Chinese world order in East Asia, Qing multiethnic empire, Chinese overseas migration, and the coming of the West.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5618
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1618 or HIST 1628 or CHIN 1012.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 4619 (3) Women in East Asian History
Considers major issues in the history of women in East Asia (China, Korea, Japan) in the 17th through 20th centuries. Focuses on gender roles in Asian family, state, and cultural systems. Topic varies in any given semester.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4619 and HIST 5619
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: World Areas: Comparable and General
Departmental Category: Asia Content

HIST 4623 (3) History of Eastern Europe Since 1914
Examines the struggle of nations of eastern Europe to assert their independence, from break-up of the imperial system at the end of World War I, through the Soviet bloc that emerged after World War II, to the establishment of democratic governments after the1989 revolutions.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1012.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Specific Countries

HIST 4628 (3) Modern China: Collapse of Imperial Brilliance, 1644-1949
Examines the brilliance of the Qing dynasty, its collapse in 1911, and the bloody and chaotic several decades that followed, up to the 1949 Communist Revolution. Focuses on such topics a Qing imperialism in Central Asia, global capitalism and Western imperialism in China, the opium trade, domestic violence, nationalism, concepts of modernity, competing revolutionary movements, and WW II in Asia.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5628
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 4636 (3) Lesbian and Gay History: Culture, Politics, and Social Change in the United States
Considers current theoretical approaches to the history of sexuality and traces the changing meaning of same-sex sexuality in the United States through investigation of lesbian/gay identity formation, community development, politics, and queer cultural resistance.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5636 and WGST 4636
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1015 or HIST 1025 or LGBT 2000.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: United States: Topical Courses 1

HIST 4638 (3) Contemporary China: Radicalism and Reform, 1949 to Present
Examines the dramatic, often tragic, and globally transformative history of China under the Chinese Communist Party. Focuses on such topics as political, social, and cultural revolution, nationalism, Maoism, the Great Leap Forward, Red Guards and the Great Proletarian Cultural Revolution, the Deng Xiaoping era, relations with Taiwan, the 1989 Tiananmen Massacre, and China's rise as a world power.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5638
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 4640 (3) Women, Gender and War
Study of how women experience war, how the structure, practice and memory of war, and the rights and obligations of military service (masculinity and femininity) are structured by the gender system.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4640
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1015 or HIST 1012 or HIST 1025 or HIST 1123 or HIST 1628 or HIST 1708.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Methodological, Comparative, and Global

HIST 4648 (3) Inventing Chinese Modernity, 1800 to Present
Examines the long and painful transformation, during the modern period of native Chinese concepts about the meaning of life, the proper order of politics and society, the role of the individual, the nature and role of human emotions, the place of the gods, the definition of nation, the proper relations between the sexes, and China's place in the global order.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1618 or HIST 1628 or CHIN 1012.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 4653 (3) Ukraine: The History Behind the Headlines
Explores major topics in the history of Ukraine, including the impact of Russian imperialism, Ukrainian nationalism, the legacy of Soviet rule, the Second World War, and Ukraine¿s struggle for sovereignty, with a particular emphasis on periods in Ukrainian history that remain relevant and debated today. Over the course of the semester, we will also discuss the question of historical and cultural memory, diving into questions about the uses (and abuses) of the past.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1012, HIST 2100, HIST 4723, or HIST 4733.

HIST 4658 (3) Between Beijing and Baghdad: China and Islam
Traces how "Muslims in China" transformed themselves into "Chinese Muslims" while at once accommodating and conflicting with Chinese states and people throughout history until the present time.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5658
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1618 or HIST 1628 or CHIN 1012.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 4688 (3) Window on Modern China
Examines the relationship between China's recent history and its booming contemporary economy and society through on-location study in a Chinese city. The course makes use of a rich array of historical and other kinds of sites to teach students to think critically about themes and events that played a shaping role in the unfolding of modern Chinese history.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 4710 (3) China and Russia, 1200-2000
The course explores entangled history of China and Russia since the thirteenth century from comparative and transnational perspectives. Major topics covered in this class include but not limited to the rise and the evolution of autocratic rulership in both countries; their frontier interactions through Inner Asian border regions of Mongolia, Xinjiang and Manchuria; Russia and the communist revolution in China; political split between China and Soviet Union in 1960s and 1970s.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisites of HIST1618 and HIST1628.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HIST 4711 (3) The Medieval Crusades: Holy War and Its History, 1095-1400
Studies the innovation, impact and meaning of holy war and the expansion of Christendom during the High Middle Ages. Topics include the definition of crusade and crusaders, religious persecution and tolerance, the expansion of European modes of government, war memory, colonization and its aftermath, the meaning of the Holy Land and the home front.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1011 or HIST 2170.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Ancient and Medieval

HIST 4713 (3) History of Russia through the 17th Century
Introduces the history and culture of Russia from the 9th to the 17th century. Emphasizes selected topics in social, economic, religious and cultural history, including the formation of the Russian state conversion to Orthodox Christianity, the Mongol invasion and the reign of Ivan the Terrible.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1011.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Specific Countries

HIST 4723 (3) Imperial Russia
Surveys major cultural, social, and economic changes from the reign of Peter the Great through World War I.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1012.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Specific Countries

HIST 4726 (3) A Nation of Immigrants: Immigration in American History
Examines the shifting kaleidoscope of immigration to the United Sates in the 19th and 20th centuries. Considers immigrant motives, cultures and experiences; changing cultural and political ideas about the value of immigration; the relationship of immigration and immigration policy to ideas about the American national project; the creation and consequences of immigration law.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: United States: Topical Courses 1

HIST 4728 (3) Japan¿s Empire: Birth and Death
Examines the origins of Japan¿s wartime military state in the age of the samurai and the subsequent dislocations of revolution, industrialization, Westernization, and nation-building. Topics may include: colonialism in Asia, evolving roles for women, the rise and fall of democracy, the origins of fascism, the home front, military atrocities, the atomic bombs, war memory, and the art and literature of the late nineteenth and early twentieth centuries.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5728
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 4733 (3) The Russian Revolution and the Soviet Regime
Covers in detail the significant social, economic and political events of Soviet Russia from the February Revolution of 1917 to the present.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST 1012.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Specific Countries

HIST 4738 (3) Japan¿s Great Peace, 1590-1868
When we think of early modern Japan we think of samurai: swords flashing, heads rolling. Such images circulate through popular culture via films, anime, and video games. But samurai were only one small part of a complex society, and early modern Japan was characterized by over 250 years of peace. This course spotlights factors that enabled Japan¿s ¿great peace¿: political stability, the growing economy, foreign relations, restructured gender and family roles, and popular culture.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 4758 (3) Japan after World War II
Explores political, economic, social, and cultural factors in postwar Japan. Although defeat in 1945 is often seen as a moment of breakage with the past, the outlines of Japan today emerged before and during World War II. This course traces the impact of occupation by the Allied powers, the development of a ¿special relationship¿ with the United States, high-speed economic growth, social change, globalization, war memory, and other themes in the late twentieth-century Japanese nation-state.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions
Departmental Category: Asia Content

HIST 4761 (3) Roman Law
Studies the constitutional and legal history of ancient Rome; emphasizes basic legal concepts and comparisons with American law. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5761 and CLAS 4761 and CLAS 5761
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Ancient and Medieval

HIST 4776 (3) History and Genealogy in American Society
Introduces students to the uses and cultural importance of family history in American society and to the techniques of doing genealogy. It examines the subject of genealogy through its relationship to nostalgia, ethnicity, regionalism, slavery, race, sexuality, immigration, and national identity between the colonial period and the present. The course also requires students to engage in primary research on their own family or a family of their choosing.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

HIST 4800 (3) Special Topics in Global History
Organized around themes that change yearly, this class allows students to study and research processes, phenomena, and events of global significance in historical context. Will stress historical subjects that span multiple geographic regions of the globe. Topics could include the global history of: the arms trade; slavery; health and disease; youth culture; women's rights; genocide, the environment, migration, economic trade, warfare exploration etc...
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Methodological, Comparative, and Global

HIST 4803 (3) Special Topics in European History
Covers specialized topics in European history, usually focusing on a specific country or theme. Formerly offered as a general special topics course.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisites HIST 1011 or HIST 1012.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Europe: Specific Countries

HIST 4806 (3) Special Topics in American History
Focuses on special topics in U.S. history to provide a novel thematic, comparative, or methodological focus that cuts across usual geographical and temporal ranges within American history. Topics vary each semester. Students will engage in focused historical learning and research that spans across geographical and temporal ranges within American history. Topics may include: the History Animals in the American West, Slavery along the Atlantic Rim, Presidential Power in the Twentieth Century, the History of American Football, Immigration and Migration in the American Past, etc...
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HIST 4808 (3) Special Topics in World Areas History
Covers specialized topics in the history of World Areas outside of Europe and/or North America, usually focusing on one country or region.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: World Areas: Specific Regions

HIST 4820 (3) Human Rights: Historical Perspectives
Examines the history of modern ideas of human rights.Focuses on themes such as the universalism/cultural relativism debate, colonialism, nationalism, refugees and stateless peoples, the United Nations and humanitarianism, ethnic genocide in Rwanda, and human rights abuses by the Taliban regime in Afghanistan.
Requisites: Requires a prerequiste of 6 hours of credit in any History course. Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Methodological, Comparative, and Global
Departmental Category: Asia Content

HIST 4830 (3) Human Trafficking in Global Perspective
Surveys the global history of slavery, serfdom, chattel slavery, debt bondage, pawnship, domestic servants, bonded labor, child soldiers, forced marriage, sex trafficking, abolitionism, and meanings associated with ¿freedom¿ from the ancient world to the modern day.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Asia Content

HIST 4837 (3) Jews in the American West
Explores the history of Jewish migration and settlement in the American West. Jewish pioneers in the nineteenth century included explorers, businessmen, and cowgirls that established small communities in territories that had not yet achieved statehood. As westward expansion progressed, Jews continued to find opportunity in the West, balancing assimilation with unique expressions of religious identity. The history of communal institutions including synagogues, hospitals and summer camps offers new perspectives on this underrepresented segment of American Jewry.
Equivalent - Duplicate Degree Credit Not Granted: JWST 4837
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HIST 4930 (1-6) History Internship
Matches selected students with supervised internships in professional archives research libraries, historical associations, and special projects. Interns apply their academic area specialty to their work in the field. Internships have a work and academic (reading and writing) component.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) History (HIST) majors and minors only.
Recommended: Prerequisite completion of lower-level history coursework (for example HIST 1015 or HIST 1025).
Additional Information: Departmental Category: Methodological, Comparative, and Global

History - Bachelor of Arts (BA)

Historians study the past, in all of its complexity, to better understand our contemporary world and the forces that created it. Historians analyze change over time, and they use archival and other primary-source evidence to build interpretations that explain change and put it into context. In seeking to understand historical subjects on their own terms, and by appreciating the diverse perspectives of past actors, students of history develop empathy even as they rigorously engage with the ethical dimensions of past human decisions and actions. When students study the past on its own terms, they recognize their power to understand the present and shape the future.

History faculty conduct research and teach courses in a wide range of eras—from ancient to modern times—and across most major world areas including Africa and the Middle East, South and East Asia, Europe and the Americas. History faculty also pursue multiple methodologies and approaches, including cultural, diplomatic, demographic, economic, environmental, ethnic, gender, intellectual, legal, political, religious, social and transnational history.

The undergraduate degree in history balances the broad study of various world regions, exposure to multiple discipline-specific methods, and the freedom to pursue individual areas of interest. At the lower-division level, you are required to take one introductory course on the history of the United States, one on the history of Europe and one on the history of other areas of the world. Methods courses will provide an Introduction to Global History and more intensive practice in Historical Thinking and Writing (a sophomore-level seminar course that also serves as your upper-division writing requirement). At the upper-division level, you have greater flexibility because you take more courses, so long as you take at least one class in U.S. history, one in European history and two in the history of other areas of the world or in comparative/global history. In addition, when choosing courses to fulfill your major requirements, you will need to take at least two pre-modern history courses and two modern history courses.

While the major requires both geographical and chronological breadth, the requirements are flexible enough that you can concentrate your studies in a specific geographic area (for example Britain, China, Latin America or the U.S.), historical period (for example the Ancient world, the Medieval period or the twentieth century), or central theme (for example, environmental or diplomatic history, the history of revolution and war, imperialism and colonialism, borderlands and migration, cultural and intellectual history, or religious history). Within these areas, you are free to plan your program around a diverse set of rotating course offerings.

As you gain expertise in historical skills, knowledge of multiple regions and familiarity with diverse methodologies, you will apply that training to a capstone project. During a one-semester capstone senior seminar or a two-semester honors sequence, you will engage in your own original research, producing either a substantial research paper or an Honors thesis. History majors also have other undergraduate research opportunities and access to history-related internships.

Many history majors and minors combine their study in fruitful ways with other humanities fields or related programs such as international affairs, Jewish studies, women and gender studies, or Asian languages and civilizations. Moreover, many of our students combine a major or minor in history with studies in other social or natural science disciplines, or even as a complement to training in CU's professional schools such as Business or Engineering and Applied Sciences.

Course code for this program is HIST.

Requirements

Total Credit Hours

Students must complete 42 credit hours in history courses with grades of C- or better. Of those 42 credit hours, 24 must be at the upper division. Students should complete the required 1000-level survey courses, HIST 1800 or HIST 1830 and HIST 3020 before they enroll in any 4000-level history courses.

Required Courses and Credits

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below.

Code	Title	Credit Hours
Lower-division Requirements		
One 1000-level United States history course		3
One 1000-level Europe history course		3
One 1000-level world areas history course		3
One 1000-level global history course: HIST 1800 or HIST 1830		3
Upper-division Requirements		
HIST 3020	Historical Thinking & Writing [1]	3
One 4000-level United States history course		3
One 4000-level Europe history course		3
Two 4000-level World Areas or Comparative/Global history courses		6
Two 4000-level HIST electives		6
One 3000-level Capstone Senior Seminar or HIST 3110 Honors Seminar [2]		3
Lower- or Upper-division Elective Requirement		
6 credit hours in any other HIST courses		6
Historical Period Requirement [3]		
6 credit hours in courses whose focus falls primarily before 1800		
6 credit hours in courses whose focus falls primarily after 1800		
Total Credit Hours		**42**

[1] Students are highly encouraged to take HIST 1800 prior to HIST 3020, but HIST 1800 and HIST 3020 may be taken concurrently when necessary. However, HIST 3020 may not be taken prior to HIST 1800. Students must fulfill the Gen Ed lower-division writing requirement before enrolling in HIST 3020.

[2] HIST 1800 and HIST 3020 must be completed prior to enrolling in a Capstone Senior Seminar. Concurrent enrollment is not permitted. Any additional 3000-level seminars can fulfill requirements that normally are fulfilled by 4000-level courses.

[3] 2000-level HIST courses cannot be used to fulfill this requirement. (A list of courses broken down by geographic areas and historical periods is available on the History Department website.)

Note: Under normal circumstances, no more than 45 credit hours in history may be used toward a student's total University of Colorado Boulder graduation requirements. Students must have a GPA of at least 2.00 in the major in order to graduate. Students may receive credit for HIST 1012 and/or HIST 1025 and/or 3 lower-division elective HIST credit hours by obtaining a score of 4 or better on the high school Advanced Placement history test(s). Some types of International Baccalaureate credit are acceptable; consult one of the major advisors to determine individual applicability. Credit from a CLEP History test cannot be applied to the major.

All students majoring in history must complete at least 12 credit hours of upper-division history in courses taught by the CU Boulder faculty. In addition, HIST 3020 and the 3000-level Senior Seminar must be successfully completed on the CU Boulder campus with a C- or better.

Graduating in Four Years

Students should consult the Four-Year Guarantee Requirements for further information on eligibility for the four-year guarantee. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in history, students must consult a history advisor each semester but the following plan of study provides a rough outline of acceptable progress.

Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement and the Upper-Division component of the Written Communication Gen Ed Skills Requirement. Depending on the courses selected within the major, students can also potentially complete some of the Social Sciences area of the Gen Ed Distribution Requirement and both the US and Global Perspective categories of the Gen Ed Diversity Requirement.

Year One

Fall Semester	**Credit Hours**
Any of the required 1000-level HIST geographic survey courses	3
Gen. Ed. Skills course (example: Lower-division Written Communication)	3
Gen. Ed. Distribution course (example: Natural Sciences with Lab)	4
Elective	3
Elective	3
Credit Hours	**16**
Spring Semester	
Any of the required 1000-level HIST geographic survey courses	3
Gen. Ed. Skills course (example: QRMS)	3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/US Perspective)	3
Elective	3
Elective	3
Credit Hours	**15**

Year Two

Fall Semester		
Third required 1000-level HIST geographic survey course		3
1000-level Global History (usually HIST 1800)		3
Gen Ed Distribution/Diversity (example: Social Science/Global Perspective)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective		3
Credit Hours		**15**
Spring Semester		
HIST 3020	Historical Thinking & Writing (fulfills Gen Ed upper division written communication)	3
Either a 2000 or 4000-level HIST elective (4000-level preferred)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective		3
Elective		3
Credit Hours		**15**

Year Three

Fall Semester	
Two 4000-level HIST geographic area requirements	6
Gen. Ed. Distribution course (example: Social Sciences)	3
Gen. Ed. Distribution course (example: Natural Sciences)	3
Elective	3
Credit Hours	**15**
Spring Semester	
Two 4000-level HIST geographic area requirements	6
Gen. Ed. Distribution course (example: Social Science)	3
Elective (Upper Division)	3
Elective	3
Credit Hours	**15**

Year Four

Fall Semester	
HIST 3000-level Senior Seminar	3
HIST 4000-level elective	3
Elective (Upper Division)	3
Elective (Upper Division)	3
Elective	3
Credit Hours	**15**
Spring Semester	
HIST upper or lower division level electives	6
Elective (Upper Division)	3
Elective (Upper Division)	3
Elective (Upper Division)	3
Credit Hours	**15**
Total Credit Hours	**121**

Learning Outcomes

To study history is to develop a disciplined way of making sense of the world by inquiring about the past. The History Department has identified a common set of learning objectives that are crucial components of historical thinking. No single course will attend to all of the objectives listed below. Instructors identify learning goals specific to the course they are teaching, and so each course will reflect a unique combination of these broader objectives. However, taking multiple courses at increasing levels of difficulty during your time at CU Boulder will allow students to develop proficiency in *historical literacy*—the substantive knowledge, skills, concepts, methods and habits of mind specific to the discipline of history. These skills build upon and add to critical thinking skills shared across multiple disciplines, such as attentive reading, engaged discussion, recognition of multiple perspectives and effective writing. Mastering each cluster of historical elements will allow students to develop a portfolio of analytical and communication skills that will serve them in and beyond the discipline.

1. Substantive Essentials

What do we know about the past? How do we interpret it?

1. **Facts**: Call upon substantial factual knowledge about the past.
2. **Evidence**: Understand that history is an evidence-based discipline that requires identifying reliable sources of information.
3. **Questions**: Ask rigorous and open-ended questions of historical evidence in order to interpret what happened in the past.
4. **Context**: Establish relevant context to relate historical facts and/or evidence to the time and place of their original existence.

2. Conceptual Foundations

What foundational concepts frame how we think about the past? How do we analyze historical change?

1. **Change** over time: Understand how change over time, and continuity, shape narratives of the past.
2. **Causation**: Account for causation in explanations of historical change.
3. **Contingency**: Consider historical change as never preordained but dependent upon a set of prior conditions, actions, and events in human societies and the non-human world.
4. **Complexity**: Treat historical change as complex and not easily reduced to simple explanations or single variables.

3. Analysis of Historical Narrative

How do we assess accounts of history? How do we engage in scholarly conversation about the past?

1. **Argument**: Recognize historical narrative as a form of argument, built from evidence and interpretation and open to rigorous questioning and critique.
2. **Sources**: Assess authors' interpretations of sources (primary and secondary) as evidence in their historical narratives and arguments.
3. **Methods**: Identify how historians have used various sources and methodological traditions, including those drawn from other disciplines where relevant, to build their interpretations.
4. **Historiography**: Evaluate historical argument as part of a larger historiographical conversation among scholars who offer multiple and changing interpretations.

4. Production of Historical Knowledge

How do we develop arguments about the past? How do we share historical narratives?

1. **Research**: Conduct historical research, which includes: navigating libraries, databases, and archives; identifying, locating, and managing sources; and summarizing significant amounts of information.
2. **Explain**: Build historical explanations by evaluating, interpreting, and synthesizing historical evidence, and applying relevant theory and methods.
3. **Express**: Share historical knowledge and argument through written, oral, digital, and/or other forms of expression.

5. History and Perspective

Why do multiple perspectives matter to interpreting history? How can history help us to understand the present world?

1. **Global literacy**: Develop in-depth knowledge of multiple regions, countries, cultures, and communities across the world, and the factors that have shaped their historical interactions and interconnections, sometimes at a global scale.
2. **Diversity**: Identify relevant categories of analysis to frame and explore questions that aim to deepen our understanding of the complexity, richness, diversity, and power dynamics within human experience in the past and present.
3. **Public application**: Apply historical knowledge, skills, and habits of mind to the problems of the present world.

History - Minor

Historians study the past, in all of its complexity, to better understand our contemporary world and the forces that created it. Historians analyze change over time, and they use archival and other primary-source evidence to build interpretations that explain change and put it into context. In seeking to understand historical subjects on their own terms, and by appreciating the diverse perspectives of past actors, students of history develop empathy even as they rigorously engage with the ethical dimensions of past human decisions and actions. When students study the past on its own terms, they recognize their power to understand the present and shape the future.

History faculty conduct research and teach courses in a wide range of eras—from ancient to modern times—and across most major world areas including Africa and the Middle East, South and East Asia, Europe and the Americas. History faculty also pursue multiple methodologies and approaches, including cultural, diplomatic, demographic, economic, environmental, ethnic, gender, intellectual, legal, political, religious, social and transnational history.

Students who enjoy taking history courses may want to consider becoming either a history major or minor. In general, the major requires a more in-depth commitment from students, whereas the minor offers students an opportunity for some specialization in history without all the obligations of the major.

For those students already pursuing a major in another field, a history minor might be the more viable option, because the minor requires the completion of fewer overall history courses.

Program Requirements

All coursework applied to the minor must be completed with a grade of C- or better. No pass/fail work may be applied. The GPA for all minor coursework must equal 2.00 or higher. At least 12 of the 21 total credits and 6 of the 12 upper-division credits in History must be in courses taught by CU Boulder faculty.

All history courses taken at any CU campus, even ones not applied to minor requirements, are figured into the minor GPA.

Required Courses and Credits

Code	Title	Credit Hours
One United States history course		3
One Europe history course		3
Two World Areas or Global/Comparative history courses		6
Three elective history courses		9
Total Credit Hours		**21**

At least 12 credits must be taken at the 4000-level.

1000- 2000- and 4000-level HIST courses *are* applicable to the minor. 4000-level courses may be used to fulfill both upper-division credit hours and geographic area credit hours.

HIST 3020 and all 3000-level Senior Seminars are ordinarily restricted to history majors. 3000-level courses may occasionally be taken by minors if the course is not full as of the second week of drop-add and/or you have written permission from the instructor.

Honors Program

Arts & Sciences Honors Program

The Arts & Sciences Honors Program provides a community for highly motivated and academically engaged undergraduate students. It offers opportunities for intellectual engagement through Honors courses, academic-inspired events and Honors thesis research and creative work (through which student earn Latin Honors).

CU Boulder incoming honors-qualified first-year and transfer students, and continuing undergraduates who have a cumulative GPA of 3.3 or higher, are eligible to take one Honors Program course per semester. Students are not required to be enrolled full time; part-time students are also eligible to enroll in our courses. There is no extra cost to take an honors version of a course. Students are not required to take Honors courses, which means that students who take Honors Program courses are choosing to work at an honors level.

Admission for first-year and transfer students is done automatically through their application to CU Boulder's College of Arts & Sciences. Generally, students in the top 10 percent of the incoming class receive an invitation. This is based on numerous factors including high school GPA and application essays. Applicants to the College of Arts & Sciences are reviewed as the admissions process progresses and honors-eligible students will receive an invitation to the Honors Program after they have been admitted. Continuing students in the College of Arts & Sciences (those who have been at CU past their first year) who maintain a GPA of 3.3 or higher are automatically eligible to participate in the Honors Program. There is no Honors Program application; in all cases, eligibility is determined automatically.

Latin honors (http://www.colorado.edu/honors/graduation/) in the College of Arts & Sciences are conferred by the Honors Program. To graduate *cum laude*, *magna cum laude* or *summa cum laude*, honors-qualified students must successfully write and defend an Honors thesis. Most students pursue Latin honors in their major (based on departmental requirements), but students may also pursue General Honors (http://www.colorado.edu/honors/generalhonors/) via the Honors Program, providing students the opportunity to write an interdisciplinary thesis.

The Honors Residential Academic Program (Honors RAP (http://www.colorado.edu/hrap/)) is the optional residential component of the program. Honors RAP is open to a limited number of qualified incoming and continuing students. Students engage in small classes and co-curricular activities, forming an academic community in their residence hall. (See the Communities tab for more information about the Honors RAP.)

The Honors Program offers the certificate in Interdisciplinary Honors Studies (p. 414), which allows undergraduate students to develop skills in interdisciplinary theory and practice that they can draw on to address social problems. The certificate is founded on the principles of diversity: intellectual, social and experiential.

Courses

HONR 1001 (1) Honors Coseminar
Honors coseminars are designed to combine an honors seminar experience with the shared experience of an organized lecture course. Designed typically for 15 students, coseminars are taken for an additional 1 credit hour. Coseminars provide honors students with an opportunity to extend their common experience in the course lecture into an enriched interactive, critical thinking opportunity.
Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.
Requisites: Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.
Additional Information: Arts Sciences Honors Course

HONR 1125 (3) Heroines and Heroic Traditions
Reevaluating global heroic traditions is critical to understanding power structures. In this course we will interrogate the concept of the monomyth and redefine what it means to be a hero/ine. The course will explore comparative mythology, folklore, literature, film and television in order to reinterpret and investigate heroic traditions in diverse communities.
Equivalent - Duplicate Degree Credit Not Granted: HONR 4025
Requisites: Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.
Grading Basis: Letter Grade
Additional Information: Arts Sciences Honors Course
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

HONR 1810 (3) Honors Diversity Seminar
Students will develop an appreciation for, and experience with, diverse perspectives. In particular this includes: racial/ethnic, gender, sexual orientation, and class perspectives, for constructing knowledge as they proceed through their undergraduate studies. Three themes provide the framework for the course: education for the next century, the 21st century citizen, and the modern individual in a diverse society. Topics explored include privilege, stigmatization, targeted and nontargeted grouping, and oppression. Engaging in independent research and experiential, empathetic experiences is required.
Requisites: Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.
Additional Information: Arts Sciences Honors Course
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

HONR 2250 (3) Ethics of Ambition
Through selected readings in classical literature on ethics and through more contemporary readings and films, examines critical ethical issues relating to the competition of ambitions and the alternative styles of choosing between courses of action in a dangerous world. Uses biographies of those whose lives illustrate both the complexities of the struggles and the profundity of possibilities. Considers the unconscious metaphors of national visions and ambitions, the competing ethics of ends and means, the conflicting ambitions in a pluralistic society, and the transcendent ambitions of visionaries.
Equivalent - Duplicate Degree Credit Not Granted: FARR 2660
Requisites: Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.
Additional Information: Arts Sciences Honors Course
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

HONR 2251 (3) Introduction to the Bible
Studies the major works, figures, and genres of the Bible and attempts to understand what they meant to their own time and why they became so important to Western civilization and contemporary America.
Requisites: Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.
Additional Information: Arts Sciences Honors Course
Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities

HONR 2500 (3) Open Topics
Variety of new courses at the 2000 level. See honors program announcements for specific contents.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.
Additional Information: Arts Sciences Honors Course

HONR 2820 (3) Future of the Spaceship Earth
Examines major ecological, political, economic, cultural, legal, and ethical issues that will shape the future. Students consider how their decisions influence the future, and reflect on fundamental values and ideals underlying the search for solutions to these complex problems.
Equivalent - Duplicate Degree Credit Not Granted: FARR 2820
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

HONR 2860 (3) The Figure of Socrates
Investigates why Socrates intrigued great writers like Aristophanes, Plato, Xenophon, and Aristotle and why, through his life and execution by the Athenian democracy, he still influences Western ethics, politics, and education and is central to cultural literacy.
Additional Information: Arts Sciences Honors Course
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HONR 3004 (3) Women in Education
Honors women in education and their legacy. Introduces women educators, beginning in the late 19th century, whose significant theories of education and work in teaching have had an impact on all of our lives, in history and in society. Explores the educational theories and methods of several representative women educators and analyzes them through an investigation of their professional and personal lives.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3004
Additional Information: Arts Sciences Honors Course
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

HONR 3220 (3) Advanced Honors Writing Workshop
Intensive practice of expository writing skills, particularly argumentation in longer forms. Course includes extensive practice in researching secondary sources, synthesizing large bodies of information, structuring cogent arguments for diverse sources, etc.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade
Additional Information: Arts Sciences Honors Course
Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Upper

HONR 3270 (3) Journey Motif in Women's Literature
Investigates literature thematically centered on forced migration, diaspora, and marginalized communities through novels, graphic novels, and short essays by women. Themes explored: feminism, identity, intersectionality, diaspora, issues of gender and borders, exile, ethnicity, and literary theory among others.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sciences Honors Course
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

HONR 3550 (1-6) Open Topics
Investigates special topics in humanities, social sciences, and natural sciences. Topics vary from semester to semester and from course to course. See Honors program announcements for specific contents. Open to Honors-qualified students beyond the freshman year. May be repeated for up to six credit hours for different topics.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sciences Honors Course

HONR 3810 (3) Privilege and Modern Social Construction
Examines social constructions that lead to productive interactions between and among American social communities. Using case studies and humanistic accounts, students analyze the lived experiences of a unique group or successful citizens who routinely evidence productive practices of multicultural engagement. Through interactions with policy makers and community practitioners, students design and enact activities that allow them to reconstruct their personal patterns of privilege practices of their peer groups in various settings.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sciences Honors Course

HONR 3900 (3) Honors Internship Course
Engages students in hands-on work in the community imparting practical knowledge and real-world experience. The course is designed to help students combine professional experiences with an academic component that involves critical thinking and interdisciplinary approaches to problem-solving. Benefits of the course include acquiring professional skills and knowledge, building a network of connections, developing insights on possible career options, and applying classroom material to real-world experiences.
Grading Basis: Letter Grade

HONR 4000 (3) Open Topics
Variety of new courses at the 4000 level, see Honors Program announcements for specific contents.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sciences Honors Course

HONR 4025 (3) Heroines and Heroic Tradition
Given recent controversies about the roles of women in power, this course re-evaluates heroic traditions as the stories that ground our sense of public endeavor. What do we mean by heroic? What is a heroine? Are heroines different from heroes?
Equivalent - Duplicate Degree Credit Not Granted: HONR 1125
Requisites: Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.
Additional Information: Arts Sciences Honors Course
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

HONR 4055 (3) Discourse Analysis and Cultural Criticism
Discourse analysis critically investigates the founding assumptions by which systems of meaning operate. Its practice is aimed at a rigorous, systematic analysis of both specific cultural issues and the dynamics by which structures of meaning may be maintained or transformed.
Requisites: Requires a corequisite course of HONR 4056. Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sciences Honors Course

HONR 4056 (1-3) Service Practicum: Discourse Analysis and Cultural Criticism
Help communities in need, with credit hours varying according to time commitment. The practicum provides experiential and intellectual understanding of the discourses and dynamics that maintain major cultural hierarchies of values and of resource distribution.
Requisites: Requires a corequisite course of HONR 4055. Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sciences Honors Course

HONR 4075 (3) Environmental Justice
Examines the experiences of people who face disproportionate environmental harms related to historical marginalization correlating with race, class, and gender. Covers the history, principles, and contemporary state of the environmental justice movement in its opposition to environmental inequalities.
Requisites: Enrollment allowed for first-year AS students invited into the Honors Program for the current academic year (not including Honors RAP students) and continuing AS students with a minimum cumulative GPA of 3.300.
Recommended: Junior or Seniors with 57-180 credits completed.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

HONR 4490 (3) Capstone in Interdisciplinary Honors Studies
Explores the value of interdisciplinarity for conceptualizing, investigating, and solving problems. Critical analysis of interdisciplinarity across different fields will hone creative thinking, research, writing, and communication skills. Students will create a research project that encompasses multiple disciplines, informed by an appreciation of diverse points of view. Students will also examine how an interdisciplinary perspective is vital to being an engaged citizen.
Requisites: Requires prerequisite course of HONR 1810 (minimum grade C-).

HONR 4900 (1-6) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sciences Honors Course

HONR 4959 (3-6) Honors Thesis
Requires approval of Honors Program.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sciences Honors Course

Interdisciplinary Honors Studies - Certificate

The Interdisciplinary Honors Studies certificate allows undergraduate students to develop skills in interdisciplinary theory and practice that they can draw on to address social problems. The certificate is founded on the principles of diversity: intellectual, social and experiential.

Students who pursue the certificate will cultivate the ability to engage in meaningful dialogue across disciplinary divides and across social differences. Completing the certificate will help students develop the ability to look at a problem from multiple perspectives and the skills to help them work with people in society from all backgrounds and identities.

Housed in the Arts & Sciences Honors Program, the certificate draws from the curriculum across the College of Arts & Sciences, complementing a student's specialization in their major field.

Participation in the certificate program allows students to engage in interdisciplinary scholarship, cultivate critical thinking skills and become engaged campus and community citizens.

Requirements

The interdisciplinary honors studies certificate requires 18 credits - 9 credits in 3 required HONR courses and 9 credits in elective honors courses. Students must complete 9 of the 18 credit hours at the upper-division level.

The certificate is available to degree-seeking undergraduate students who have at least a 3.3 cumulative GPA.

To earn the certificate, students are required to take 18 Honors credits, nine of which would be upper-division credits.

Code	Title	Credit Hours
Required Courses		
HONR 1810	Honors Diversity Seminar	3
HONR 3900	Honors Internship Course	3
HONR 4490	Capstone in Interdisciplinary Honors Studies	3
Electives		
An additional 2 lower- or upper-division elective courses offered by the Honors Program		6
An additional upper-division elective course offered by the Honors Program		3
Total Credit Hours		**18**

Electives

Electives can be drawn from courses offered by the Honors Program (course sections 880-889, classified as Arts & Sciences Honors courses in the registration system). At least one elective must be an upper-division course.

See lists of courses that fulfill this requirement from future, current and past semesters: Fall 2023 (https://www.colorado.edu/honors/fall-2023-honors-program-course-information/), Spring 2023 (https://www.colorado.edu/honors/spring-2023-courses/), Fall 2022 (https://www.colorado.edu/honors/fall-2022-honors-program-course-information/), Spring 2022 (https://www.colorado.edu/honors/spring-2022-honors-program-course-information/), Fall 2021 (https://www.colorado.edu/honors/fall-2021-honors-program-course-information/), Spring 2021 (https://www.colorado.edu/honors/spring-2021-honors-program-course-information/), Fall 2020 (https://www.colorado.edu/honors/fall-2020-honors-program-courses/) and Spring 2020 (https://www.colorado.edu/honors/spring-2020-honors-program-courses/).

Learning Outcomes

The training in interdisciplinary and cross-divisional thinking central to the Certificate in Interdisciplinary Honors Studies will prepare students to learn about, ask questions about and make connections with topics and areas unknown to them when they are in the workforce and/or in graduate studies. Similar to students' training in interdisciplinarity, their coursework addressing diversity, privilege and social marginalization will prepare them for conversations and collaborations across difference in work and graduate studies and in their communities. The Arts & Sciences Honors Program is inherently interdisciplinary and coursework offered by the program spans the three divisions of the College of Arts & Sciences. Drawing on the program's strengths, the certificate will teach students how to think, engage and converse across disciplines, divisions and differences.

By the completion of the program, students will be able to:

- Become fluent in cross-disciplinary dialogue through core certificate courses and through elective courses distributed across at least 2 divisions (Arts Humanities, Social Sciences and Natural Sciences).
- Understand and engage with the challenges and advantages of interdisciplinary work in the introductory and capstone courses.
- Reflect on the internship experience from multiple disciplines and across divisions in the internship course.
- Develop a framework within which to understand interdisciplinary work, as well as communication across academic departments as well as across axes of social difference in the introductory and capstone courses, which will explicitly address interdisciplinarity and dialogue across social differences.

Humanities

Humanities is an interdisciplinary program that allows students to combine different fields of study from all the disciplines of the humanities as well as from the social sciences (in particular, anthropology, ethnic studies, political science, psychology, sociology, women and gender studies) and beyond. This major especially encourages students to develop their interdisciplinary interests in fields of cultural and humanistic expression such as literature, art, music, film, philosophy, history, modern media, religion and contemporary critical practice and theory, and we encourage them to think outside of these fields as well.

The undergraduate degree in humanities emphasizes knowledge and awareness of:

- The ways cultures and traditions define both themselves and each other;
- The formal, rhetorical and ideological properties of cultural texts in a variety of forms and media (literature, history, philosophy, film, music, visual arts, architecture, dance, theatre, performance);
- The dynamic relationships between texts and their social and historical contexts;
- The genres and modes of texts and their production, transformation and reception; and
- The theoretical and ideological underpinnings and implications of one's own and others' interpretive approaches and assumptions.

In addition, students completing the degree in humanities are expected to acquire the ability and skills to:

- Analyze and interpret texts in a variety of forms and media;
- Articulate such analyses and interpretations at a sophisticated level in both written and oral forms;
- Discern similarities and differences among individual works, artistic media, historical periods and cultural traditions;
- Reason critically; and
- Explore the connections between contemporary issues and academic work.

Course code for this program is HUMN.

Bachelor's Degree

- Humanities - Bachelor of Arts (BA) (p. 422)

Minor

- Humanities - Minor (p. 424)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Courses

HUMN 1001 (3) Forms of Narrative: An Introduction to Humanities
Introduces students to forms of narrative from different historical, geographical, and cultural contexts in different media in order to explore how narrative, as cognitive tool and form of representation, functions as a means of understanding human experience. Students learn to analyze and interpret narratives and improve critical thinking, the practice of close reading, and written and verbal communication. Serves to introduce students to the types of questions and methods of interpretation encountered in Humanities.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 1002 (3) Visualizing Culture: An Introduction to Humanities
How do we see, what do we consider worth looking at, how does this shape culture? What do visual media do to/for us and how do we endow them with meaning? This class probes such questions using a range of visual media including visual art, film, music videos, and social media. With the help of theoretical, scholarly, and popular sources, students analyze examples of visual culture and articulate their responses to the issues raised.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 1003 (3) Conflicts in History: Civilization and Culture: An Introduction to Humanities
Introduces students to concepts of culture, history, and civilization as sites of conflict across different historical times and geographical locations. Course materials address political and artistic questions that intersect across different ages through their different histories and guiding concepts. Students will learn to read and understand critical, historical, political, and artistic works. Emphasis will be placed on developing critical thinking, close reading, and the ability to articulate and develop issues in writing and verbally.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 1004 (3) Sound and Meaning
This course examines how music creates meaning. Topics include: How ancient and modern writers conceive of the effects of music on its listeners; how the meanings of canonic texts are transformed in contemporary digital culture; how musical works are established though music writing and sound recording; and how music is used to voice identity. Musical examples are drawn primarily from historical repertories of western art music with comparative perspectives from more recent popular and recorded music.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 1110 (3) Introduction to Humanities: Literature 1
Introduces students to works from the major Western literary periods (Classical, Medieval, Renaissance, Baroque) from the 8th c. BC to the early 17th c. AD comparatively, i.e., outside their national literary boundaries. Theorizes interdisciplinary, genre studies, periodization, comparativism, thematology, hermeneutics, criticism, etc. May be taken separately from HUMN 1120.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 1120 (3) Introduction to Humanities: Literature 2
Introduces students to works from the major Western literary periods (Baroque, Enlightenment, Romanticism, Realism, Modernism) from the 17th- through the 20th-centuries comparatively, i.e., outside their national literary boundaries. Theorizes interdisciplinarity, genre studies, periodization, comparativism, thematology, hermeneutics, criticism.May be taken separately from HUMN 1110.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 1210 (3) Introduction to Humanities: Art and Music 1
Examines the major artistic and musical works in the Western tradition from ancient Greece through the 16th century in their larger historical, interdisciplinary, and theoretical ("aesthetic") contexts. May be taken separately from HUMN 1220.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 1220 (3) Introduction to Humanities: Art and Music 2
Examines the major artistic and musical works in the Western tradition from the 17th century to 21st-century post-modernism in their larger historical, interdisciplinary, and theoretical ("aesthetic") contexts. May be taken separately from HUMN 1210.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 1400 (3) Mediterranean Foundations
Examines the pre-Modern Mediterranean as the foundational zone of Western Humanism and culture, beginning with Classical Antiquity and through to the dawn of Modernity. Through history, art, literature and thought, it studies the region's role as the crucible of Helleno-Persian culture, Roman society, of Judaism, Christianity and Islam, the intersection of Europe, Africa and Asia in the development of Modernity.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 1701 (3) Nature, Climate and Environment in German Culture
Critically examines cultural products from German-speaking contexts that thematize climate and environment. Depictions of nature, climate and environment are examined in relationship to understandings of race, nation, sexuality, gender, labor, and rural versus urban spaces. Discussions span Romantic conceptions of nature and nation, to colonial resource extraction, to fascist understandings of home and nature, to contemporary political debates around contemporary Germany's environmental policies. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 1701
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 2000 (3) Methods and Approaches to the Humanities
Provides a transition from the introductory courses to the upper-division courses. Introduces the various technical methods and topics encountered in the department's comparative, interdisciplinary upper-division courses, including cultural studies, rhetoric, translation, hermeneutics, word/image studies.
Requisites: Restricted to HUMN majors and minors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 2100 (3) Arts, Culture and Media
Promotes a better understanding of fundamental aesthetic and cultural issues by exploring competing definitions of art and culture. Sharpens critical and analytical abilities by asking students to read and compare different theories about arts, culture, media, and identity, and then to apply and assess those theories in relation to a selection of visual and verbal texts from a range of cultural and linguistic traditions.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 2145 (3) African America in the Arts
Introduces interrelationships in the arts of African Americans and the African American contribution to American culture as a whole.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 2311 (3) Energy Cultures: Oil, Coal, and Atoms in Modern Literature and Film
Explores the concept of energy and its influence in world culture from the 19th century to the present, paying particular attention to how writers and filmmakers from the United States, Russia, and elsewhere have responded to the accelerating production and consumption of fossil fuels and nuclear power. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: AHUM 2311 and REES 2311
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 2601 (3) Kafka and the Kafkaesque
Exposes the students to a wide selection of Kafka's literary output and aims to define the meaning of the Kafkaesque by looking not only for traces of Kafka's influence in the verbal and visual arts, but also for traces left in Kafka's own work by his precursors in the literary tradition.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 2601
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3092 (3) Studies in Humanities
Students should check with the department for specific semester offerings.
Repeatable: Repeatable for up to 12.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3093 (3) Topics in Humanities
Students should check with the department for specific semester offerings.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3104 (3) Film Criticism and Theory
Surveys the range and function of film criticism, introduces major positions and concepts of film theory and focuses on students' abilities to write about film.
Equivalent - Duplicate Degree Credit Not Granted: CINE 3104
Requisites: Requires prerequisite course of FILM 1502 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3200 (3) Fictions of Illness: Modern Medicine and the Literary Imagination
Examines the ways in which the rise of modern medicine fueled the literary imagination with a new focus, new patterns of perception and potent metaphors. Through a study of various works of fiction, critical theory and medical history, the course traces how medical discoveries and the increasing professionalization of medicine manifested itself in modern literature.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3210 (3) Narrative
Explores the nature of narrative in literature, film, and the visual arts.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3211 (3) The Craft of Mystery
Explores examples of and theories about the formation and growth of the genre of detective fiction, especially in the late 19th and early 20th centuries. Explores the social conditions of the times in which the texts were written and the possible resulting influences on style. Compares the texts and theories to examples from other genres and time periods.
Requisites: Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3212 (3) Shipwrecks, Mutinies, and Other Catastrophes at Sea
Explores the theatrical analogy that frames our understanding of catastrophes at sea and their literary and visual representation, paying particular attention to issues of gender, race, and sexuality, which are intentionally banned from such representations, but turn out to be their secret focus.
Requisites: Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3240 (3) Tragedy
Studies some of the great tragic works of art, music,and literature from the Greeks to the 20th century. Tragic theory is invoked as an aid to interpretation.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3280 (3) Social Justice and the Humanities
Provides a historical foundation for the study of cultural and political movements that aim to remedy racial, gender, economic, and environmental inequalities in order to create more egalitarian societies. Examines depictions of struggles against inequality in the Spanish-speaking world, including slave revolts in nineteenth-century Cuba, anarchist revolutionary efforts during the Spanish Civil War in 1936-39, student protests in late 1960s Mexico, and the fight for environmental rights in contemporary Spain. Taught in English.
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective

HUMN 3290 (3) Foundations of Disability Studies
Introduces students to the interdisciplinary field of disability studies by investigating key concepts in disability theory, disability history and culture, media representations of people with disabilities, and pertinent bioethical issues.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

HUMN 3310 (3) The Bible as Literature
No single book has been as influential to the English-speaking world as the Bible. We¿ll read the Hebrew Bible and the New Testament for stories, poetry, and wisdom traditions. We¿ll approach the Bible as literature by analyzing its plots, characters, and meanings. Students study its textual history, how there came to be a ¿Bible,¿ and the many writers, conflicts, and cultures from which it emerged. We¿ll consider the Bible¿s powerful influence on ethics and philosophy. Formerly ENGL 3312.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 3310 and JWST 3310
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3321 (3) Political Thought in Ancient China
Focuses on the political, religious, philosophical and literary aspects of ancient Chinese civilization (1500 B.C.-A.D. 200). Special attention is paid to foundational works that influenced later developments in Chinese culture. All readings are in English and taught in English.
Equivalent - Duplicate Degree Credit Not Granted: CHIN 3321
Recommended: Prerequisite CHIN 1012 or CHIN 1051.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

HUMN 3341 (3) Literature and Popular Culture in Modern China
Surveys 20th century Chinese literature and popular culture against the historical background of rebellion, revolution and reform. Emphasizes close and critical reading skills and an understanding of how aesthetic texts reflect and critically engage with historical and cultural experiences. Assignments include novels, essays, short stories, poems, plays, songs, films and scholarly articles. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: CHIN 3341
Recommended: Prerequisite CHIN 1012 or CHIN 1051.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

HUMN 3500 (3) Literatures of Consciousness
Facilitates a complex and productive understanding of consciousness by analyzing and synthesizing interdisciplinary works (including literature, film and theoretical and scientific texts). This interdisciplinary approach enables students to think deeply about the following questions: what is consciousness? How do we think and perceive? What does it mean to be "neurotypical"? What does all of this have to do with who we are?
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3505 (3) The Enlightenment: Tolerance and Emancipation
Examines Enlightenment notions of reason, humanity and social progress. Topics include 18th century views on government, science, education, religion, slavery and gender roles.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 3505
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3600 (3) Avatars: Studies in Contemporary Posthumanism
Seeks to introduce students to the analysis of posthuman thought via the concept of the avatar within our digital cultures. Through an interdisciplinary approach to theory, art, and culture, students will become familiar with the discourse of both humanism and posthumanism as it relates to games, virtual spaces, and digital embodiments. Formerly offered as a special topics course.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3640 (3) Modernisms: Art and Theory from 1900 to 1960
Offers an introduction to Modernism in various media, emphasizing in particular the historical development of the visual arts from German Expressionism and Cubism to Neo-Dada and Pop Art. Readings in literature will include Proust, Beckett, Blanchot and poets associated with various art movements. Theoretical readings range from Saussure and Freud to Adorno and Jameson. Recommend prerequisite: HUMN 2000.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3660 (3) The Postmodern
Analyzes the cultural and critical practices as well as the thought that defines the postmodern period at the end of 20th century.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3666 (3) Critical Futures: Theorizing Climate Change
This course takes an interdisciplinary approach to understanding environmental humanities and explores the insights that arts and humanities can provide in the face of climate change, environmental injustice, and our uncertain futures. By looking at diverse representations/theories about the Anthropocene, this course considers how we account for humans¿ relationship to nature and what the consequences of this are. It also discusses how art and fiction might harness individual and group will to sustain our world.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3702 (3) Dada and Surrealist Literature
Surveys the major theoretical concepts and literary genres of the Dada and Surrealist movements. Topics include Dada performance and cabaret, the manifesto, montage, the ready made, the Surrealist novel, colonialism and the avant-garde, and literary and philosophical precursors to the avant-garde.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 3702
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3800 (3) Paris, Modernity, and the Avant-garde (1848-1914)
Investigates the development of the concept of the 'avant-garde' in late-nineteenth and early twentieth-century Paris against a backdrop of political and social revolution. Analyzes the innovative nature of certain works of art, theater, photography, music and literature as well as the influence of the city. Probes and problematizes the concept of the artist as social outsider and cultural critic.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3801 (3) Muslims, Christians, Jews and the Mediterranean Origins of the West
Provides a historical foundation for the study of western Modernity, including the Anglo-European and Islamic worlds. It focuses on the Mediterranean region in the long Middle Ages (650-1650), emphasizing the role of Christian, Muslim and Jewish peoples and cultures, in Europe, Africa and West Asia. The approach is interdisciplinary incorporating social, economic, cultural, literary and art history, combining lectures with discussions based around readings of contemporary documents and the analysis of contemporary artifacts.
Equivalent - Duplicate Degree Credit Not Granted: RLST 3801
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

HUMN 3802 (3) Politics and Culture in Berlin 1900-1939
Examines early 20th century German culture, with emphasis on the Weimar Republic (1918-1933) in light of contemporaneous political discussions. The course presents modern art and literature (Expressionism, Dada, Brecht's epic theater) and architecture and design (Bauhaus, Werkbund) as well as political movements of women, sexual minorities, and Berlin's Jewish communities. Taught in English. Offered through CU Study Abroad Program.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 3802
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3811 (3) The World of the Shining Prince: The Tale of Genji and Heian Literature
An exploration of the literary landscape of Classical Japan focusing on The Tale of Genji (early 11th century), a brilliantly provocative work of fiction sometimes called ¿the world¿s first novel.¿ Covers the extensive world drawn within Genji and provides context for understanding its origins and reception through readings of other important works of Heian-era (794-1185) literature. Taught in English; no prior knowledge of Japanese language, culture, or history is necessary or expected.
Equivalent - Duplicate Degree Credit Not Granted: JPNS 3811
Recommended: Prerequisite JPNS 1051.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

HUMN 3841 (3) Transforming Worlds: Japanese Literature in Modernity
Explores works of modern Japanese literature from the late 1800s to 1970s, placing novels, short stories, and poetry in their historical and cultural contexts. Topics covered include literary responses to Japan¿s modernisation and encounters with the West, the individual in society, mass culture and popular literature, the rise of fascism and colonialism, and visual media, including film. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: JPNS 3841
Recommended: Prerequisite JPNS 1051.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

HUMN 3850 (3) The Mediterranean: Religion Before Modernity
Offers an innovative approach to the multifaceted history of Christian-Muslim-Jewish interaction in the Mediterranean. It eschews established paradigms (e.g., Europe, Islamic world) that distort our understanding of these and pushes students to reconsider the accepted paradigms of Western history. Students will reappraise assumptions regarding the nature of ethnic, religious, national and cultural identity, and their role in human history.
Equivalent - Duplicate Degree Credit Not Granted: RLST 3850
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

HUMN 3860 (3) Politics and the Arts in the Information Age
Examines the political aspects of the art and literature of the information age, with a focus on conceptual practices since 1965. The course investigates political theories of art along side sculpture, performance, installation, poetry, and graphic design.
Recommended: Requisite HUMN 2000 or restricted to students with 57-180 credits (Junior or Senior).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 3930 (1-6) Humanities Internship
Students gain academic credit and professional experience working in fields such as museums, galleries, arts administration, publishing, nonprofits, and cultural organizations. They work 3-18 hours per week under the guidance of a professional supervisor and meet regularly with a faculty advisor, who oversees the academic requirements, including reading and writing assignments. An interview with the faculty advisor is required.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

HUMN 3935 (1-3) Humanities Internship: Literature and Social Violence
See HUMN 4835.
Requisites: Requires enrollment in corequisite course of HUMN 4835.

HUMN 4000 (3) The Question of Romanticism
Interdisciplinary study of literature, art, and music from 1780 to 1830 in France, England, and Germany.
Requisites: Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4004 (3) Topics in Film Theory
Provides topic-centered analyses of controversial areas in film theory. Students read extensive materials in the topic area, analyze and summarize arguments as presented in the literature, write "position" papers and make oral presentations in which they elaborate their own arguments about specific assigned topic, establishing critical dialogue with the primary materials.
Equivalent - Duplicate Degree Credit Not Granted: CINE 4004 and ARTF 5004
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of CINE 3051 (minimum grade D-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Cinema Studies or Humanities (HUMN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4006 (3) Introduction to Game Studies
Seeks to introduce students to the analysis, history, cultural impact, and critique of games both digital and analogue - the largest and fastest growing Media throughout the world. Through an interdisciplinary approach to theory, art, and culture, students will become familiar with the discourse of contemporary game studies and its cultural manifestations. Formerly offered as a special topics course.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4010 (3) Hitchcock and Freud
Applies Freudian psychoanalysis to the films of Alfred Hitchcock. Students will familiarize themselves with the Freudian methodology by reading a number of books and essays and then apply both Freud's general ideas as well as specific texts to particular aspects, both formal and contentual, of his films. Particular attention will be given to the important field of "feminism and psychoanalysis" as it relates to the study of the role of women in Hitchcock's films.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4011 (3) The Criminal-Hero
Studies various theories of literary transgression by Aristotle, Nietzsche, Freud, Bataille and others to understand the many works, beginning with Genesis and the Iliad and including contemporary works such as Norman Mailer's The Executioners Song and the films of Herzog (Aguirre, Nosferatu) and Scorsese (Taxi Driver, Cape Fear) which feature this paradoxical figure.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4020 (3) Reading, Chance, and Guessing
Considers the method of the humanities as opposed to those of the natural and social sciences, especially in view of their respective ability or claim to predict the future and to master chance.
Requisites: Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4030 (3) The Art of Travel
Examines the art of travel: not where to go and what to do, but rather philosophical concepts about why people travel. Areas of discussion will include exploration, discovery, escape, pilgrimage, the grand tour, expatriotism, exile, nomadism, armchair travel, and the sense of home. Materials will include books by travel writers, novels, films, essays, short stories, art, music, and historical documents.
Requisites: Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4050 (3) Representations of People with Disabilities
Examines the representation of people with disabilities in canonical and contemporary literature and drama, and introduces students to disability theory and the history of people with disabilities.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

HUMN 4060 (3) Modern Critical Theory
Explores, through guided discussions, the concept of theory itself and how a theory is constructed. Emphasizes the close reading of theory in order to learn to analyze critically, considering theory as something to be thought about rather than simply applied.
Requisites: Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4070 (3) Making Meaning: Language, Myths, Dreams
Introduces students to theories concerned with signification, communication, and meaning. The course will focus on the legacy of Ferdinand de Saussure¿s study of the sign and examine how Saussure¿s insights have been put to work in a variety of intellectual contexts from literary analysis to cultural anthropology, and psychoanalysis. Formerly offered as a special topics course.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

HUMN 4082 (3) 19th Century Art and Literature
Interdisciplinary study of English fiction and poetry together with related movements in visual arts.
Requisites: Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4092 (3) Advanced Studies in the Humanities
Students should check with the department for specific semester offerings.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4093 (3) Advanced Topics in the Humanities
Students should check with the department for specific semester offerings.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4100 (3) Writing the World in Traditional China
Examines the history and implications of the central role played by writing in pre-modern China, especially with regard to traditional constructions of the world, including relations with aesthetics, the non-human, and the spiritual. Key works of Chinese literature and thought from different periods are studied, with the aim of determining a particular type of Chinese humanism. All readings in English.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

HUMN 4110 (3) Greek and Roman Epic
Students read in English translation the major epics of Greco-Roman antiquity such as the Iliad, Odyssey, Argonautica, Aeneid, and Metamorphoses. Topics discussed may include the nature of classical epic, its relation to the novel, and its legacy. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4110 and CLAS 5110
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4111 (3) Modern and Contemporary Culture
Examines the legacy of the historical avant-garde (1910-1930) in postwar and contemporary culture: 1945 to the present. We will study the construction of a "neo-avant-garde" in diverse fields (art, film, philosophy) as well as the methodology of "social art history" which, like the artistic neo-avant-garde, critically analyzes the relation between aesthetic production and global capitalism.
Requisites: Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4120 (3) Greek and Roman Tragedy
Intensive study of selected tragedies of Aeschylus, Sophocles, Euripides and Seneca in English translation. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4120 and CLAS 5120
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4130 (3) Greek and Roman Comedy
Studies Aristophanes, Plautus, and Terence in English translation. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4130 and CLAS 5130
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4131 (3) The Greek and Roman Novel
Studies a number of complete Greek and Roman novels from Classical Antiquity and their predecessors and contemporary neighbors in the genres of Greek prose fiction. Ancient texts in English translation.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4140 and CLAS 5140
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4135 (3) Art and Psychoanalysis
Explores psychoanalytic theory as it relates to our understanding of literature, film and other arts. After becoming familiar with some essential Freudian notions (repression, narcissism, ego/libido, dreamwork, etc.), students apply these ideas to works by several artists (e.g., Flaubert, James, Kafka, Hoffmann and Hitchcock).
Requisites: Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4140 (3) What the Hell?: Dante¿s Divine Comedy and the Meaning of Life
Focuses on close reading of Dante's poetry with emphasis on the intellectual, religious, political, and scientific background of the medieval world. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: ITAL 4140 ITAL 4145 or ITAL 4147
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4150 (3) Boccaccio's Decameron: Tales of Sex and Death in the Middle Ages
Studies Boccaccio's masterpiece, the Decameron, as emblematic of the post-Black Plague era in the late Middle Ages. Focuses on the art of storytelling through gendered perspectives to portray the complexity of the Middle Ages. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: ITAL 4150
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

HUMN 4155 (3) Philosophy, Art, and the Sublime
Explores philosophies of art, theories of the sublime, and the relation between art and morality through philosophy, literature, and the visual arts. Includes works by Plato, Longinus, Burke, Rousseau, Kant, Mary Shelley, Melville, Friedrich, Turner, and Pollock.
Requisites: Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4170 (3) Fiction and Reality: Literature, Science, and Culture
Explores the significance of how one defines "fiction" and "reality". Begins by defining the core concepts and compares them with related terms. Lectures and discussions analyze the implications of these concepts from the perspective of a variety of disciplines and in the context of diverse issues in order to develop a critical awareness of them.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4502 (3) Nietzsche: Literature and Values
Emphasis is placed on Nietzsche's major writings spanning the years 1872-1888, with particular attention to the critique of Western values. A systematic exploration of doctrines, concepts and ideas leading to the values of creativity.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 4502
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4504 (3) Goethe's Faust
Systematic study of the Faust motif in Western literature, with major emphasis on Faust I and II by Goethe and Thomas Mann's Doctor Faustus.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 4504 and GRMN 5504
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4552 (3) The Harlem Renaissance: Fr Black Wmn's Club Mvmnt to Hip Hop
Offers an interdisciplinary and intersectional overview of the origins and evolution of the Harlem Renaissance. Explores classic texts, music and works of art emerging from the Harlem Renaissance and related events and movements of its epoch: the Black Women's Club Movement, New Negro Movement, Pan-African Movement, Lost Generation, Jazz Age, World War I and World War II.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4552 and ETHN 5552
Requisites: Requires prerequisite course of ETHN 1022 or ETHN 2001 or ETHN 3212 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences

HUMN 4555 (3) Interpreting Art
Introduces various methods of interpretation (New Criticism; Reader Response; structuralism, post-structuralism, psychoanalysis, art history, etc.) with which to examine how one determines the meaning of the work of art. Methodologies are studied in close conjunction with particular poems, paintings, stories and films.
Requisites: Requires either prerequisite course of HUMN 2000 (minimum grade D-) or restricted to students with 57-180 credits (Junior or Senior).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4650 (3) Religion, Power, Modernity
Examines the representation of religion in relationship to the claims made by modern narratives of power in fables, literature, graphic novels, visual materials and critical writings.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4720 (3) Architecture and the Feminine: Women on Space and Creativity
Examines women¿s depictions of space, confinement, and liberation in literature, art, and film. Women¿s artistic productions have sought to conceptualize, expose, and subvert the ways that gender and power relations are inscribed into the spaces they inhabit. Students will trace the history of these visions of spaces (physical, geographical, psychological, imagined) and explore their relationship to subjectivity, power, and creativity.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4730 (3) Italian Feminisms: Culture, Theory, and Narratives of Difference
Studies Italian women writers, artists and filmmakers. Literary and visual texts are analyzed in dialogue with readings of leading Italian gender theorists. Italian history and culture is reread by following the development of a discourse about women. Taught in English; readings in Italian for Italian majors.
Equivalent - Duplicate Degree Credit Not Granted: ITAL 4730
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

HUMN 4811 (3) 19th Century Russian Literature
Surveys background of Russian literature from 1800 to 1900. Russian writers and literary problems in the 19th century emphasizing major authors: Pushkin, Lermontov, Gogol, Dostoevsky, Turgenev, Tolstoy, and Chekhov.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4821 (3) 20th-Century Russian Literature and Art
Interdisciplinary course emphasizing the influence of literature and art in 20th century Russian literature. Follows the changing cultural landscape from the time when Russia was in the vanguard of modern European literature to the period of Stalinism. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: REES 4821 and REES 5821
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4835 (3) Literature and Social Violence
Provides a theoretical understanding of heightened awareness arising from literary and sociological investigations of contemporary sources of social violence (gang culture, racism, domestic violence), combined with the concrete knowledge offered by an internship in a social service agency. Optional internship credit is available.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4840 (1-3) Independent Study
May be repeated for a maximum of 6 total credit hours.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

HUMN 4845 (3) Reading Culture: The Meanings We Make
Analyzes a range of literary and cultural texts through the lens of critical theory in order to come to more understanding of how we are making meaning, how those meanings make us and how we might use that awareness to open new fields of possibility, both in our readings of texts and in our reactions to cultural contexts and conventions.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

HUMN 4950 (1-6) Honors Thesis
Supervised project on a topic of the student's own choosing. It should demonstrate ability in interdisciplinary (such as literature and art, art and music, film and literature, literature and theory), extensive research, critical thinking, and excellent writing skills. The thesis is submitted to the Honors Program of the College of Arts and Sciences and is orally defended.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Humanities (HUMN) majors only.

Humanities - Bachelor of Arts (BA)

The humanities major is an interdisciplinary program designed for students who wish to concentrate in more than one field or discipline. The major leads to a Bachelor of Arts (BA) degree and offers considerable flexibility, but students should choose courses in consultation with their primary advisor.

In addition to courses taken within Humanities (HUMN), an outside area of study is required and can be fulfilled by choosing one of the following: a major, minor or certificate in another discipline (additional courses may be necessary to meet the required 18 hours); 12 hours in one discipline plus 6 hours in a different discipline; 18 hours chosen according to a common theme (to be determined in consultation with and approved by the Director of Undergraduate Studies).

Requirements

Required Courses and Credits

A minimum of 54 credit hours is required for the major, including 21 upper-division HUMN credit hours. All required HUMN courses and all Outside Area of Study courses must be passed with a C- or better and cannot be taken pass/fail. No more than 45 credits in HUMN may be applied to overall graduation requirements. Students must have a GPA of at least 2.000 in the major in order to graduate.

Code	Title	Credit Hours
Required Courses		
Any three of the following introductory courses:		*9*
HUMN 1001	Forms of Narrative: An Introduction to Humanities	
HUMN 1002	Visualizing Culture: An Introduction to Humanities	
HUMN 1003	Conflicts in History: Civilization and Culture: An Introduction to Humanities	
HUMN 1004	Sound and Meaning	
HUMN 2000	Methods and Approaches to the Humanities	3
One lower- or upper-division HUMN course		3
Upper-division HUMN courses		21
Outside Area of Study		**18**
Choose one of the following courses of study outside of HUMN:		
A major, minor or certificate another discipline (additional courses may be necessary to meet the required number of credit hours if the minor or certificate requires fewer than 18 credit hours.)		
12 credit hours in one discipline plus 6 credit hours in a different discipline		

18 credit hours chosen according to a common theme (to be determined in consultation with and approved by the Director of Undergraduate Studies)	
Total Credit Hours	**54**

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. Because the humanities major is unique in requiring courses from a number of different departments in addition to its own courses, it is important that students wishing to graduate in four years declare the major early and meet regularly with a major advisor. The concept of "adequate progress" as it is used here refers only to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in humanities, students should meet the following requirements:

- Complete the lower-division courses, including three of the following four 1000-level introductory courses (HUMN 1001, HUMN 1002, HUMN 1003, HUMN 1004) and HUMN 2000 by the end of the fourth semester.
- Complete at least two courses in the outside area of study by the end of the fourth semester.
- Complete 15 of the remaining credit hours by the end of the sixth semester—at least three of these must be upper-division humanities courses.
- Complete all remaining required courses by the end of the eighth semester.

Recommended Four-Year Plan of Study

Through the required HUMN coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement.

Year One	
Fall Semester	**Credit Hours**
one 1000-level HUMN course	3
one 1000-level HUMN course	3

Learning Outcomes

Students with a major in Humanities will be able to:

- Understand, interpret and compare works of human expression and cultural practice (visual arts, literature, film, music, etc.) in a variety of historical and geographical contexts.
- Understand, interpret and apply critical theories about culture and cultural products.

- Demonstrate and refine important skills in critical thinking and close analysis.
- Evaluate, apply and articulate complex ideas and interpretations through both written and verbal communication.
- Demonstrate creative and flexible thinking and problem solving skills, formulate original interpretations and integrate different interpretative approaches and disciplines into a focused program of study.

Humanities - Minor

The depth of critical analysis as well as the breadth of knowledge covered by the Humanities Program's courses can be a great benefit to students pursuing a variety of other majors in the College of Arts and Sciences, in the Professional Schools and particularly students pursuing a pre-medical or pre-law school program of study. This minor provides students with the kinds of skills and interests that enhance employment opportunities as well as applications to graduate school.

Humanities Program courses are designed to train students to understand and analyze critical, historical, cultural, social and political issues from different perspectives and to teach students to draw independent conclusions. Our courses also help develop excellent written and verbal communication skills—recognized by the business and scientific worlds as indicators of future innovators as well as indicators of high quality practitioners and researchers across many different fields (media, communications, arts, creative design, marketing, etc.).

Requirements

The minor in humanities offers students the opportunity to take a range of interdisciplinary courses offered by the humanities program faculty. Total: 18 credit hours (at least 12 of which must be upper-division). All coursework applied to the minor must be completed with a grade of C- or better. No pass/fail work may be applied. The GPA for all minor coursework must equal 2.00 or higher. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

Required Courses and Credits

Students must take 18 credit hours in humanities courses (HUMN). Of these 18 credit hours, 12 must be upper-division.

There are no specific course requirements for a minor in humanities. Any six 3-credit-hour humanities (HUMN) courses will do, as long as at least four are upper division. However, for a well-rounded course of study, the humanities program recommends the courses below.

Code	Title	Credit Hours
Recommended Courses		
Introductory Courses		
Choose one of the following:		3
HUMN 1001	Forms of Narrative: An Introduction to Humanities	
HUMN 1002	Visualizing Culture: An Introduction to Humanities	
HUMN 1003	Conflicts in History: Civilization and Culture: An Introduction to Humanities	
Consider the following course to prepare for upper-division courses:		3
HUMN 2000	Methods and Approaches to the Humanities	
Additional Coursework		
Choose any four 3-credit-hour upper-division HUMN courses		12

Integrative Physiology

Physiology is the branch of biology concerned with the function in living organisms. The department's academic framework is built on an understanding of how humans and animals operate at the genetic, cellular, organ and systemic levels. Our multidisciplinary curriculum requires that students enroll in foundational courses covering anatomy, mathematics, physics, physiology and statistics. With this fundamental knowledge, students pursue additional coursework in biomechanics, cell physiology, endocrinology, immunology, exercise physiology, neurophysiology and sleep physiology.

Graduates of our integrative physiology program are expected to:

- Demonstrate a mastery of core anatomical and physiological concepts.
- Apply knowledge of the human body to novel, real-world contexts.
- Extract meaning from visual representations of data, such as graphs, tables and images.
- Synthesize ideas and concepts from multiple sources to develop a more comprehensive understanding of integrative physiology.
- Apply the scientific method to address questions related to integrative physiology.
- Demonstrate effective communication and collaboration skills.

These objectives are accomplished through a curriculum that includes both required courses and elective experiences. The required courses form the foundational knowledge base, while the elective courses offer opportunities to delve into specific topics. Elective options include seminars, internships, independent study, teaching opportunities, Latin honors and research projects covering a broad spectrum of physiological disciplines.

For more information, visit the Integrative Physiology website (http://www.colorado.edu/iphy/).

Course code for this program is IPHY.

Bachelor's Degree

- Integrative Physiology - Bachelor of Science (BA) (p. 431)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Angiolillo, Albert
Assistant Teaching Professor; MS, University of Colorado Boulder

Bekoff, Anne (https://experts.colorado.edu/display/fisid_100613/)
Professor Emeritus; PhD, Washington University

Boyko, Marie (https://experts.colorado.edu/display/fisid_100073/)
Senior Instructor Emeritus; MA, University of Colorado Boulder

Broussard, Josiane
Associate Professor Adjunct

Brunt, Vienna E (https://experts.colorado.edu/display/fisid_158297/)
Assistant Professor Adjunct; PhD, University of Oregon

Bustamante, Heidi Margarita (https://experts.colorado.edu/display/fisid_146491/)
Associate Teaching Professor; MS, University of Colorado Boulder

Byrnes, William (https://experts.colorado.edu/display/fisid_100643/)
Associate Professor Emeritus; PhD, University of Wisconsin–Madison

Carey, Cynthia
Professor Emerita

Casagrand, Janet L. (https://experts.colorado.edu/display/fisid_100934/)
Associate Teaching Professor; PhD, Case Western Reserve University

Chonchol, Michel
Professor Adjunct; MD, Universidad Central de Venezuela, Caracas

Clayton, S. Zachary
Assistant Professor Adjunct

Depner, Christopher
Assistant Professor Adjunct; PhD, Oregon State University

DeSouza, Christopher A. (https://experts.colorado.edu/display/fisid_107460/)
Distinguished Professor; PhD, University of Maryland, College Park

Eaton, Robert
Professor Emeritus

Ehringer, Marissa A. (https://experts.colorado.edu/display/fisid_126595/)
Professor, Chair; PhD, University of Colorado Denver

Enoka, Roger M. (https://experts.colorado.edu/display/fisid_110122/)
Professor; PhD, University of Washington

Fleshner, Monika R. (https://experts.colorado.edu/display/fisid_103304/)
Professor; PhD, University of Colorado Boulder

Floriano, Maureen (https://experts.colorado.edu/display/fisid_169506/)
Assistant Teaching Professor; PhD, Case Western Reserve University

Foley, Teresa E. (https://experts.colorado.edu/display/fisid_147351/)
Teaching Professor of Distinction; PhD, University of Colorado Boulder

Fowler, John S.
Professor Emeritus

Gleeson, Todd T. (https://experts.colorado.edu/display/fisid_105480/)
Professor Emeritus; PhD, University of California, Irvine

Grabowski, Alena Marie (https://experts.colorado.edu/display/fisid_149727/)
Associate Professor; PhD, University of Colorado Boulder

Harsh, John R. (https://experts.colorado.edu/display/fisid_155406/)
Professor Adjunct

Heisler, Ruth E. (https://experts.colorado.edu/display/fisid_103195/)
Teaching Professor of Distinction; MA, University of Colorado Boulder

Hobbs, Steven L. (https://experts.colorado.edu/display/fisid_143724/)
Associate Teaching Professor; PhD, University of Colorado Boulder

Hoeffer, Charles Albert (https://experts.colorado.edu/display/fisid_153384/)
Associate Professor; PhD, University of Arizona

Johnson, Thomas E. (https://experts.colorado.edu/display/fisid_104242/)
Professor Emeritus; PhD, University of Washington

Kim, Sewan (https://experts.colorado.edu/display/fisid_174402/)
Assistant Teaching Professor; PhD, University of Colorado Boulder

Kram, Rodger (https://experts.colorado.edu/display/fisid_118476/)
Associate Professor Emeritus; Ph.D. , Harvard University

Link, Christopher D. (https://experts.colorado.edu/display/fisid_109073/)
Associate Professor; PhD, University of Massachusetts at Amherst

Lowry, Christopher (https://experts.colorado.edu/display/fisid_143371/)
Professor; PhD, Oregon State University

Lynch, G. Robert
Professor Emeritus

Maldonado, Tammy A. (https://experts.colorado.edu/individual/fisid_104105/)
Assistant Teaching Professor; PhD, University of Colorado Boulder

Mazzeo, Robert (https://experts.colorado.edu/display/fisid_101031/)
Associate Professor Emeritus; PhD, University of California, Berkeley

McQueen, Matthew B. (https://experts.colorado.edu/display/fisid_143785/)
Professor Adjoint; DSc, Harvard University

Moore, Russell (https://experts.colorado.edu/display/fisid_105756/)
Professor; PhD, Washington State University

Norris, David O.
Professor Emeritus

Nowak, Kristen
Associate Professor Adjoint

Olm, Matthew R. (https://experts.colorado.edu/display/fisid_174400/)
Assistant Professor; PhD, University of California, Berkeley

Opp, Mark R. (https://experts.colorado.edu/display/fisid_158898/)
Professor; PhD, Washington State University

Robichaux, Waldean
Professor Emeritus

Rossman, J. Matthew (https://experts.colorado.edu/display/fisid_156619/)
Assistant Research Professor; PhD, University of Utah

Rowe, K. Rachel (https://experts.colorado.edu/display/fisid_168365/)
Assistant Professor; PhD, University of Kentucky

Saul, Leif J. (https://experts.colorado.edu/display/fisid_116130/)
Associate Teaching Professor; PhD, University of California, Berkeley

Schaetzel, Amanda E. (https://experts.colorado.edu/display/fisid_154385/)
Assistant Teaching Professor; PhD, University of Colorado Boulder

Seals, Douglas R. (https://experts.colorado.edu/display/fisid_103375/)
Distinguished Professor; PhD, University of Wisconsin–Madison

Shearston, Jenni
Assistant Professor; PhD, Oregon State University

Sherwood, David
Associate Professor Emeritus

Shi, Jia (https://experts.colorado.edu/display/fisid_143673/)
Associate Teaching Professor; PhD, Boston University

Stitzel, Jerry A. (https://experts.colorado.edu/display/fisid_102954/)
Professor; PhD, Johns Hopkins University

Stob, Nicole R. (https://experts.colorado.edu/individual/fisid_134529/)
Assistant Teaching Professor; PhD, Colorado State University

Tan, Andrew Q. (https://experts.colorado.edu/display/fisid_167426/)
Assistant Teaching Professor; PhD, Northwestern University

Tsai, Pei-San (https://experts.colorado.edu/display/fisid_115292/)
Professor; PhD, University of California, Berkeley

Wright Jr., Kenneth P. (https://experts.colorado.edu/display/fisid_125586/)
Distinguished Professor; PhD, Bowling Green State University

Courses

IPHY 1020 (1) Introduction to Integrative Physiology
Introduces students to Integrative Physiology. Provides an overview of the major and how it differs from other biology programs; how to get involved in clubs, research, and/or internship opportunities; strategies for succeeding in IPHY courses; and career options. This is a first-year colloquium course specifically designed for freshman and other students exploring their educational and career opportunities.

IPHY 1030 (1-2) Introduction to the Health Professions
Introduces students to careers in healthcare. This exploratory course is designed to expose students to the wide spectrum of healthcare occupations available and the knowledge of basic requirements and personal attributes needed to enter such career fields. Students will discover potential careers that match their skills and interests. Other topics include locations and areas healthcare professionals practice, including the lesser-known areas, as well as cultural and economic factors impacting health equity and access. This course is designed for first-year and second-year students.

IPHY 1040 (1) Medical Professional Speaker Series
Fall semester only, meets one time per week. For students enrolled in Health Professions Residential Academic Program (HPRAP). Introduction to careers by working professionals from a variety of medical fields.
Grading Basis: Pass/Fail

IPHY 1111 (2) Analysis of Human Movement with Smart-Phone Technology
Learn how to measure and analyze human movement using a smart-phone application. After being provided with some background information on human physiology, students will learn how to acquire, process, and analyze signals detected by the app. Students will be required to participate in a group project that they present in poster format to their peers.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab

IPHY 1131 (2) Using model organisms to study human disease: hands-on research
Provides a hands-on laboratory research experience, including undertaking science scholarship, designing and performing experiments, and analysis of quantitative data. Students will also be exposed to basic concepts in genetics and molecular biology, as well as the rationale for current experimental approaches for understanding human disease.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 1181 (2) Biological Probiotic/Drug Discovery Through Hands-on Screens
Provides introduction to research and laboratory experience. Students will work in teams to screen novel mycobacterial strains for use as probiotics or immunoregulatory/anti-inflammatory drugs using THP-1 cells, a human monocytic cell line. Topics covered include the hygiene or "Old Friends" hypothesis, the human microbiome, approaches to screening for new probiotics of therapeutics and statistical analysis of the data.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 1181
Grading Basis: Letter Grade

IPHY 1211 (2)
Using Sensor Technology to Study the Effects of Light on Human Health
Introduces you the basics of photobiology, measurement of light (including a discussion of humancentric vs. radiometric units for quantifying light exposure), and light effects on human physiology and longterm health. You will also be taught how to program light sensors, extract raw data, process, analyze and visualize it (incl. basic statistics in R).
Grading Basis: Letter Grade

IPHY 1600 (3) Basic Human Anatomy and Physiology For Non-Majors
Focuses on basic knowledge of human body structures and functions. Topics include an orientation to the human body, basic chemistry and cell structure, the integumentary, skeletal, muscular, nervous, endocrine, cardiovascular, lymphatic, immune, respiratory, digestive, urinary, and reproductive systems. Integrative Physiology (IPHY) majors should take IPHY 3410 and 3430 to fulfill the anatomy and physiology degree requirements.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 1950 (3) Introduction to Scientific Writing in Integrative Physiology
Gives students practical tools that they will need as majors in Integrative Physiology or other sciences: skills in finding, reading, and using professional scientific publications; understanding of the formats required by various scientific documents; practice in writing about science for different purposes and audiences; and tools for analyzing and developing their own writing processes.
Requisites: Restricted to students with 0-86 credits (Freshmen, Sophomore or Juniors) only.
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Lower
MAPS Course: English

IPHY 2010 (1-3) Seminar in Integrative Physiology
Introduces a small group of lower-division students to current research topics in integrative physiology. Emphasizes relevant applications to real-world situations.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 2030 (2) Preparing for a Career in the Health Professions
This course is designed to help students learn the basic requirements and personal attributes needed to enter the healthcare professions, while building the primary elements of their application to health professional schools. Students will explore the ways in which they can gain shadowing, volunteering, and other clinical experiences that both fit their career path and reflect their personal goals and values. Students will also spend time working on one of the biggest components of their application - their personal statement. This course is specifically designed for sophomores, juniors, and seniors who are new to navigating admissions processes.
Recommended: Prerequisite IPHY 1030.

IPHY 2400 (2) Introduction to Medical Terminology for Future Health Professionals
Introduces medical terminology used within the health professions. Word roots, prefixes and suffixes used in medical records for major body systems will be examined and explained. The structure and functions of the major systems will be defined and described.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 2420 (3) Introduction to Nutrition
Focuses on the basic anatomy, physiology, and chemistry of nutrition. Topics include weight management, the role of diet and lifestyle in disease prevention, specific nutrient deficiencies and toxicities, nutrition standards and guidelines, sports nutrition recommendations, agricultural practices, and food policy issues.
Equivalent - Duplicate Degree Credit Not Granted: IPHY 3400
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 2692 (3) Foundations in Public Health
Get a comprehensive overview of public health as well as an in-depth introduction to specific public health-related topics. Beginning with a historical overview, students will explore major public health concepts such as the basic principles of epidemiology, the biomedical basis of disease, social and behavioral determinants of health, and systems thinking. Learn about the concepts of measuring and evaluating the health of populations, principles of communicable and non-communicable diseases, environmental and occupational health, the economics of health, and the role of public health workers in society.
Equivalent - Duplicate Degree Credit Not Granted: GEOG 2692 and PBHL 2692
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

IPHY 2910 (1-6) Practicum in Integrative Physiology
Offers lower-division students practical experience in laboratory, clinical, or field settings with direct supervision. Students can earn 1 credit for every 45 hours of intern work.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

IPHY 3010 (1-2) Teaching in Integrative Physiology
Provides an opportunity for students to assist in specific lecture, recitation, or laboratory sections under direct faculty supervision. Students can earn 1 credit for 30-49 hours of class contact time or 2 credits for 50+ hours.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite Students must have earned B- or higher in the course they are assisting.

IPHY 3020 (1) Next Steps: Preparing for Life After Graduation
Helps upper-division students prepare for what comes after graduation. Topics include exploring careers; how to write a resume or CV; interviewing tips; how to build your portfolio; asking for letters of recommendations. This course is specifically designed for juniors starting to prepare for the next stage post-graduation.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 3020 and MCDB 3020
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Pass/Fail

IPHY 3280 (4) Intro to Data Science and Biostatistics
Builds a foundation for modern data analysis and experimental design in the context of human physiology, health and disease. An intuitive understanding of probability, statistical methods, test outcomes and data relationships are emphasized over rigorous mathematical proofs. Foundational analytical skills using R and R Studio are developed using real and simulated data.
Additional Information: Arts Sci Gen Ed: Quantitative Reasoning Math

IPHY 3410 (3) Human Anatomy
Explores the cells, tissues, and organs that compose the different anatomical systems including integumentary, skeletal, muscular, digestive, respiratory, cardiovascular, lymphatic, nervous, urinary and reproductive. All registration restrictions will be strictly enforced by the department.
Requisites: Requires prerequisite 1-semester biology lecture of EBIO 1210 or MCDB 1150 or CHEN 2810 (minimum grade C-).
Recommended: Prerequisite EBIO 1220.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 3415 (2) Human Anatomy Laboratory
Introduces structures of the human anatomical systems using human cadavers and animal tissue. This laboratory is meant to complement IPHY 3410. All registration restrictions will be strictly enforced by the department.
Requisites: Requires prerequisite or corequisite of IPHY 3410 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 3430 (4) Human Physiology
Introduces the physiology of the endocrine, nervous, muscular, cardiovascular, respiratory, urinary, digestive, reproductive and immune systems. Each system will be integrated into the larger contexts of homeostasis and adaptation during pathology and challenges. Students must enroll in lecture and recitation sections. All registration restrictions will be strictly enforced by the department. Students can be co-enrolled in CHEM 1133/1134 or IPHY 3435.
Requisites: Requires prerequisite courses of IPHY 3410 and prerequisite or corequisite of CHEM 1133 and 1134 (all minimum grade C-).
Recommended: Prerequisite IPHY 3415.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 3435 (2) Physiology Lab
Introduces laboratory experience in selected aspects of human physiology with a focus on applying the scientific method in experimentation. This laboratory is meant to complement IPHY 3430. Students should take IPHY 3435 or IPHY 3437 to fulfill degree requirements. All registration restrictions will be strictly enforced by the department.
Equivalent - Duplicate Degree Credit Not Granted: IPHY 3437
Requisites: Requires prerequisite course of IPHY 3280 or EBIO 1010 or MATH 2510 or PSYC 2111 or SOCY 2061, and prerequisite or corequisite course of IPHY 3430 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 3437 (2) Virtual Human Physiology Laboratory
Introduces online laboratory experiences for select aspects of human physiology using laboratory simulations. This online laboratory is meant to complement IPHY 3430. As an online course, this lab may not fulfill prerequisites for post-baccalaureate, graduate, or other allied health programs. Please consult with your Biology advisor before enrollment. Students should take IPHY 3435 or IPHY 3437 to fulfill degree requirements. All registration restrictions will be strictly enforced by the department.
Equivalent - Duplicate Degree Credit Not Granted: IPHY 3435
Requisites: Prerequisite or corequisite of IPHY 3430 and prerequisite statistics course of IPHY 3280 or EBIO 1010 or MATH 2510 or PSYC 2111 or SOCY 2061 (all minimum grade C-). All registration restrictions will strictly enforced by the department.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 3440 (3) Clinical Nutrition
Exploration of clinical nutrition concepts from a health care provider perspective. Examines how and why diseases develop and what nutritional therapy and intervention is appropriate for disease resolution. All registration restrictions will be strictly enforced by the department.
Requisites: Requires prerequisite of IPHY 2420 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Integrative Physiology (IPHY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 3490 (3) Introduction to Epidemiology
Examines the history and uses of epidemiology, measures of disease frequency and occurrence, association and causality, analytic epidemiology, evidence-based screening and outbreak investigations.
Recommended: Prerequisite Statistics course (IPHY 3280 or EBIO 1010 or MATH 2510 or PSYC 2111 or SOCY 2061).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 3590 (3) Health and Function over the Adult Lifespan
Examines topics in the field of biomedical aging in the context of public health including lifespan, changing demographics of aging, health span, genetics of aging; physiology of aging (changes in function with age; biological mechanisms of aging); clinical disorders of aging (aging and chronic diseases; clinical syndromes in geriatric medicine); lifestyle and pharmacological strategies for preserving health and function with aging.
Requisites: Requires prerequisite courses of Human Physiology (IPHY 3430) and a statistics course (IPHY 3280, EBIO 1010, MATH 2510, PSYC 2111, or SOCY 2061).

IPHY 3700 (3) Scientific Writing in Integrative Physiology
Takes a process-based approach to writing. Assignments and classroom experiences emphasize critical thinking, using scientific evidence and reasoning to construct original arguments, and applying conventions and problem-solving skills to craft successful documents.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Integrative Physiology (IPHY) or Neuroscience (NRSC) majors only.
Recommended: Prerequisite Statistics course (IPHY 3280 or EBIO 1010 or MATH 2510 or PSYC 2111 or SOCY 2061).
Additional Information: Arts Sci Core Curr: Written Communication Arts Sci Gen Ed: Written Communication-Upper

IPHY 4010 (1-3) Seminar in Integrative Physiology
Introduces a small group of students to current research topics in integrative physiology, evaluation of current research and discussion of critical issues.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite Statistics course (IPHY 3280 or EBIO 1010 or MATH 2510 or PSYC 2111 or SOCY 2061).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 4040 (3) History of Medicine
Explores the history of western European medicine from the Middle Ages to the 19th century with a focus on the influence of social events and how these shaped the process and evolution of medicine. Projects explore topics of student interest that might include pharmacology, pathology, mental illness, optometry, dentistry, women in medicine, and the influence of war on medical practices. This is a three-week Education Abroad Global Seminar.
Requisites: Prerequisite IPHY 3410 (minimum grade C-)

IPHY 4041 (3) Global Health and Disease
This course will provide a comprehensive study of community health and common diseases with a specific geographical case study that will vary. Students will have the opportunity to learn about these topics through observations, discussions, visiting local clinics, and hospitals, and interaction with local communities. This is a three-week Education Abroad Global Seminar.
Requisites: Requires prerequisite course of IPHY 3410 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 4060 (4) Cell Physiology
Focuses on the molecular machines and cellular sub-compartments that allow cells to renew, replicate, and function in the context of multicellular organisms. Students in lecture section 010 must also enroll in a lab section. The online section of the course may not fulfill prerequisites for post-baccalaureate, graduate, or other allied health programs. Please consult with your Biology advisor before enrollment.
Equivalent - Duplicate Degree Credit Not Granted: IPHY 5060
Requisites: Requires prerequisite course of IPHY 3430 and IPHY 3435 or IPHY 3437 (all minimum grade C-). Restricted to Integrative Physiology (IPHY) or Neuroscience (NRSC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 4200 (3) Physiological Genetics and Genomics
Covers fundamental concepts in molecular genetics/genomics with physiological applications. Topics include structure and function of nucleic acids, genome structure, genetic and genomic research tools, methods for identifying disease-causing mutations, regulation of gene expression, pharmacogenetics, gene therapy and ethical issues in modern genomics. First course of a 3-course series recommended for IBG students. Includes a recitation section.
Equivalent - Duplicate Degree Credit Not Granted: IPHY 5200
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 4300 (3) Pathophysiology of Disease
Uses case studies to explore various disease states of the organ systems within the body and the underlying mechanisms that contribute to the manifestations of these diseases. Additionally, students will examine the importance of epidemiology in the understanding of disease as well as discuss infectious disease, and the role of genetics in congenital defects and cancer. All registration restrictions will be strictly enforced by the department.
Requisites: Prerequisite of IPHY 3410 and IPHY 3430 (minimum grade C-).
Grading Basis: Letter Grade

IPHY 4420 (3) Nutrition and Human Performance
Examines nutrient use during exercise and the nutrient needs of athletes and active individuals, including strategies to improve physical performance and recovery through dietary manipulations and dietary supplements. All registration restrictions will be strictly enforced by the department.
Requisites: Prerequisite of IPHY 2420 (minimum grade C-). Restricted to Integrative Physiology (IPHY) majors only.

IPHY 4440 (4) Endocrinology
Introduces mammalian endocrine system. Provides a thorough analysis of chemical communication by hormones and related bioregulators with emphasis on the major endocrine systems such as the thyroid, gonad, pituitary and the brain. All registration restrictions will be strictly enforced by the department.
Equivalent - Duplicate Degree Credit Not Granted: IPHY 5440
Requisites: Requires prerequisite courses of IPHY 3430 and IPHY 3435 or IPHY 3437 (minimum grade C-). Restricted to Integrative Physiology (IPHY) or Neuroscience (NRSC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 4470 (3) Biology of Human Reproduction
Anatomy and physiology of human reproduction, including gender determination, embryology, puberty, menstrual cycle, pregnancy, lactation, menopause, sexual behavior, sexual abnormalities and contraception. Open to all majors.
Requisites: Prerequisite of general biology (lecture + lab).
Recommended: Prerequisite IPHY 3430 and IPHY 4440.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 4480 (3) Comparative Reproduction
Focuses on comparative anatomy and physiology of reproductive system and the evolution of reproductive behavior in vertebrates and invertebrates. Topics include courtship, mating, fertilization, estrous and menstrual cycles and environmental control of seasonal reproduction.
Requisites: Prerequisite of general biology (lecture + lab).
Recommended: Prerequisite IPHY 3430.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 4490 (3) Case Studies in Public Health
Explores case studies in public health in how they have influenced our approach to disease outbreaks and disease resolution. Examines famous case studies in infectious disease, zoonoses and non-infectious diseases, including environmental and occupational exposure to see how they have changed our understanding of disease and responses by health and medical personnel. Examines special populations within public health, as well as discuss modern public health challenges.
Requisites: Prerequisite of IPHY 3490 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 4540 (5) Biomechanics
Applies the principles of physics and physiology to analyze the movement of humans and other animals. Assesses the mechanical properties of muscles, tendons, ligaments and bones. Quantitatively analyzes forces, torque, mechanical energy, power impulses and momentum associated with human movement. Students enroll in a lab, and the enrolled lab will have a designated recitation and lecture attached. All registration restrictions will be strictly enforced by the department.
Equivalent - Duplicate Degree Credit Not Granted: IPHY 5540
Requisites: Requires prerequisite courses of IPHY 3430 and physics (PHYS 1110 or PHYS 2010) (all minimum grade C-). Restricted to Integrative Physiology (IPHY), Neuroscience (NRSC), or College of Engineering majors only.
Recommended: Prerequisites IPHY 3415 and calculus (MATH 1300 or MATH 1310 or APPM 1350) and statistics (IPHY 3280 or EBIO 1010 or MATH 2510 or PSYC 2111 or SOCY 2061).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 4580 (3) Sleep Physiology
Describes the physiology, neurobiology, and functions of sleep and circadian rhythms; explains the impact of sleep and circadian rhythms, as well as sleep and circadian disruptions and disorders on immune, endocrine, thermoregulatory, cardiovascular, respiratory, and neural systems; examines changes in sleep and circadian rhythms across the life span. The integrative nature of sleep and circadian rhythms in normal physiological and cognitive functions and their importance in health and disease processes will be emphasized. All registration restrictions will be strictly enforced by the department.
Equivalent - Duplicate Degree Credit Not Granted: IPHY 5580
Requisites: Requires prerequisite course of IPHY 3430 (minimum grade C-). Restricted to Integrative Physiology (IPHY) or Neuroscience (NRSC) majors only.
Recommended: Prerequisites Statistics course (IPHY 3280 or EBIO 1010 or MATH 2510 or PSYC 2111 or SOCY 2061).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 4600 (3) Immunology
Studies the immune system, a multi-cellular system that functions to protect us from disease. Introduces concepts associated with the development and function of individual cells of the immune system (T-cells, B-cells, neutrophils, dendritic cells, macrophages), as well as their integrative roles in physiology and host defense. This course requires a conceptual understanding of the material and emphasizes problem-solving skills through case studies. All registration restrictions will be strictly enforced by the department.
Equivalent - Duplicate Degree Credit Not Granted: IPHY 5600
Requisites: Requires prerequisite course of IPHY 3430 (minimum grade C-). Restricted to Integrative Physiology (IPHY) or Neuroscience (NRSC) majors only.
Recommended: Prerequisite or corequisite IPHY 4060.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 4650 (5) Exercise Physiology
Examines physiological and biochemical adjustments that occur in the body with acute and chronic exercise. Topics center on physiological mechanisms pertaining to metabolic, cardiovascular, and hormonal alterations, the role of exercise in health and disease, soreness and fatigue, immune function, as well as exercise during varied environmental conditions. All registration restrictions will be strictly enforced by the department.
Equivalent - Duplicate Degree Credit Not Granted: IPHY 5650
Requisites: Requires prerequisite course of IPHY 3430 and IPHY 3435 or IPHY 3437 (all minimum grade C-). Restricted to Integrative Physiology (IPHY) or Neuroscience (NRSC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 4720 (4) Neurophysiology
Explores the function of the nervous system, including how the properties of neurons influence nervous system activity, how the nervous system controls the activity of muscles and how the sensory effects of muscle activity influence the function of the nervous system. All registration restrictions will be strictly enforced by the department.
Equivalent - Duplicate Degree Credit Not Granted: IPHY 5720
Requisites: Requires prerequisite courses of IPHY 3430 and IPHY 3435 or IPHY 3437 (all minimum grade C-). Restricted to Integrative Physiology (IPHY) or Neuroscience (NRSC) majors only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IPHY 4780 (3) Sleep, Circadian Rhythms, and Health
Examines the history of the fields of sleep and circadian rhythms; lifespan development of sleep and rhythms; observational, physiological, and clinical measures of sleep; screening for sleep and circadian disorders; associations between poor sleep and circadian misalignment and health; and evidenced-based sleep and circadian interventions/preventions in healthy and clinical samples. Dept. enforced requisite: one year of biology (lecture and lab).
Equivalent - Duplicate Degree Credit Not Granted: IPHY 5780

IPHY 4800 (3) Molecular Evolution: How Natural Selection has Shaped the Molecules of Life
This course explores how Darwin¿s idea has shaped the structures of DNA, RNA and proteins across the long history of life on earth. Natural selection driving the evolution these macromolecules and subsequent developmental pathways will be fully appreciated as the process that ultimately produced the amazing variety of species on this planet. Looking ahead, our recent efforts to harness the power of evolution in the test tube to develop new therapies will be covered.
Requisites: Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).

IPHY 4850 (1) Honors Thesis Seminar
The course is specifically designed for students who are enrolled in the IPHY Honors program and have a faculty mentor. The course follows a workshop-based approach and aims to guide students through the various stages of writing and defending a thesis. It also provides an opportunity to share and receive feedback on works in progress. Throughout the course, students will have the chance to explore the scientific writing format, improve their writing process, and effectively communicate about science. Additionally, student will have the opportunity to practice a thesis defense talk.
Recommended: Prerequisite IPHY 3700; and IPHY 4870 (taken concurrently).

IPHY 4860 (1-8) Independent Study: Undergraduate
An opportunity for upper-division students to earn academic credit for working under the individual direction of a faculty member. Consult with faculty mentor and undergraduate coordinator for approval. Department enforced prerequisites: Cumulative GPA of 2.0 and completion of at least one upper-division IPHY course. Students can earn 1 credit for every 25 hours worked.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

IPHY 4870 (1-6) Honors Thesis
An opportunity for students enrolled in the IPHY Honors program to earn academic credit for working on their thesis. Students can earn 1 credit for every 25 hours worked.
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: Prerequisites IPHY 3700; and IPHY 4850 (taken concurrently).
Additional Information: Arts Sciences Honors Course

IPHY 4880 (3) Advanced Data Analysis in Biomedical Research
Provides advanced training on statistics and scientific reasoning in laboratory and clinical research. Conceptual foundations of classical and modern statistical techniques is reviewed. Multiple class projects consist of written reports on statistical analysis of data representative of the student's field of interest. The use of statistical packages, primarily R, is required.
Equivalent - Duplicate Degree Credit Not Granted: IPHY 5880
Requisites: Prerequisite: Statistics course (IPHY 3280 or EB10 1010 or MATH 2510 or PSYC 2111 or SOCY 2061 (minimum grade C).
Grading Basis: Letter Grade

IPHY 4900 (1-6) Public Health Practicum
Offers practical experience in Public Health with direct supervision.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4900 and MCDB 4900
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

IPHY 4930 (1-6) Internship
Offers upper-division students practical experience in laboratory, clinical, and field settings with direct supervision Students can earn 1 credit for every 45 hours of intern work. Consult with departmental internship coordinator for approval. Department enforced prerequisite: Cumulative GPA of 2.0 and completion of two upper-division IPHY courses.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

IPHY 4940 (1-6) Application for Clinical Internship
Provides upper-division students an opportunity for internship experience in a clinic and hospital setting with an established Affiliation Agreement with CU Boulder. Students can earn 1 credit for every 45 hours of intern work. Consult with departmental internship coordinator for approval. Department enforced prerequisite: Cumulative GPA of 2.0 and completion of two upper-division courses.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

IPHY 4950 (1-6) Global Study Abroad Internship
Provides an opportunity for students to combine international experiential learning and academic theory as a means to gain professional experience and to develop a new perspective on a career field. Contact the Study Abroad office (abroad@colorado.edu) for information on available opportunities and to find out how to enroll in this course.
Repeatable: Repeatable for up to 6.00 total credit hours.

Integrative Physiology - Bachelor of Arts (BA)

The Department of Integrative Physiology, housed within the College of Arts and Sciences, offers a Bachelor of Arts (BA) degree. Our undergraduate courses integrate knowledge from various life-science disciplines, enabling students to explore organisms as dynamic systems composed of molecules, cells, tissues and organs. The curriculum places specific emphasis on understanding whole-body function and its relevance to human health and disease.

We actively encourage students to engage in a variety of enriching experiences, including research, internships, independent study, teaching opportunities, honors programs and extracurricular activities. By participating in these diverse activities, students can broaden their perspectives and enhance their overall learning experience.

Upon successful completion of the BA degree in integrative physiology, students will possess the knowledge, skills and expertise necessary for advanced training and diverse career paths. Our graduates are well-prepared for pursuits in allied health, industry, government, science education and research.

Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses below. Students must complete a minimum of 38 credit hours, 30 credit hours in courses with the IPHY subject code, including a minimum of 18 upper-division credit hours, and 8 credit hours in a biology sequence including requisite labs.

All required major courses and all required ancillary courses must be passed with a C- or better and cannot be taken pass/fail. Students must have a grade point average of at least 2.000 in the major in order to graduate.

Required Courses and Credits

Code	Title	Credit Hours
Required Biology Sequence		
Select one of the following biology sequences of lectures and lab(s):		
Lecture		*6*
EBIO 1210 & EBIO 1220	General Biology 1 and General Biology 2	
MCDB 1150 & MCDB 2150	Introduction to Cellular and Molecular Biology and Principles of Genetics	
Lab		*2*
EBIO 1230 & EBIO 1240	General Biology Laboratory 1 and General Biology Laboratory 2	
MCDB 1161	From Dirt to DNA: Phage Genomics Laboratory I	
or IPHY 1111	Analysis of Human Movement with Smart-Phone Technology	
or IPHY 1181	Biological Probiotic/Drug Discovery Through Hands-on Screens	
or MCDB 1171	Antibiotics Discovery Through Hands-on Screens I	
or MCDB 2161	From DNA to Genes, Phage Genomics Laboratory II	
or MCDB 2171	Chemotherapeutic Discovery Through Hands-On Screens 2	
Required IPHY Coursework		
IPHY 3410	Human Anatomy	3
IPHY 3430	Human Physiology	3
IPHY 3435	Physiology Lab	2
or IPHY 3437	Virtual Human Physiology Laboratory	
Advanced IPHY Coursework		
Select at least 15 credits (three courses must be taken at CU Boulder--including Main Campus, Continuing Education, and Study Abroad):		15-17
IPHY 4060	Cell Physiology	

IPHY 4440	Endocrinology	
IPHY 4540	Biomechanics	
IPHY 4580	Sleep Physiology	
IPHY 4600	Immunology	
IPHY 4650	Exercise Physiology	
IPHY 4720	Neurophysiology	
IPHY Major Electives [1]		**4-6**

[1]The number of IPHY major elective credit hours needed to reach the requirement for 30 credit hours in IPHY coursework and 38 total major credit hours will vary based on what major courses are taken and could be unnecessary.

Code	Title	Credit Hours
IPHY Recommended Coursework		
Coursework recommended for allied health careers. May be used to reach IPHY 30-credit total.		
IPHY 1020	Introduction to Integrative Physiology	1
IPHY 2400	Introduction to Medical Terminology for Future Health Professionals	2
IPHY 3415	Human Anatomy Laboratory	2
Total Credit Hours		**5**

Students apply no more than 45 major credit hours toward the degree. Contact department for current elective choices.

Code	Title	Credit Hours
Required Ancillary Coursework		
One of the following Statistics courses		3-4
IPHY 3280	Intro to Data Science and Biostatistics IPHY 3280 would count towards IPHY elective credits.	
or EBIO 1010	Introduction to Statistics and Quantitative Thinking for Biologists	
or MATH 2510	Introduction to Statistics	
or PSYC 2111	Psychological Science I: Statistics	
or SOCY 2061	Introduction to Social Statistics	
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	5
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	5
PHYS 2010	General Physics 1	5
Total Credit Hours		**18-19**

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in integrative physiology, students should meet the following requirements:

- By the first semester, declare the major.
- Before the beginning of the fifth semester, complete the biology and chemistry requirements.
- By the end of the sixth semester, complete the anatomy and physiology requirements.

Students must consult with a major advisor to determine adequate progress toward completion of major requirements.

Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement, including the lab component, and the QRMS area of the Gen Ed Skills Requirement.

Year One		
Fall Semester		**Credit Hours**
EBIO 1210 & EBIO 1230	General Biology 1 and General Biology Laboratory 1	4
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Elective		3
Elective		3
Elective - IPHY 1020		1
	Credit Hours	**14**
Spring Semester		
EBIO 1220 & EBIO 1240	General Biology 2 and General Biology Laboratory 2	4
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	5
Gen. Ed. Distribution (example: Arts & Humanities)		3
Elective - IPHY 2400		2
	Credit Hours	**14**
Year Two		
Fall Semester		
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	5
IPHY 3280 or MATH 2510 or PSYC 2111 or EBIO 1010 or SOCY 2061	Intro to Data Science and Biostatistics or Introduction to Statistics or Psychological Science I: Statistics or Introduction to Statistics and Quantitative Thinking for Biologists or Introduction to Social Statistics	3-4
IPHY 3410	Human Anatomy	3
Gen. Ed. Distribution course (example: Social Sciences)		3
	Credit Hours	**14-15**
Spring Semester		
PHYS 2010	General Physics 1	5
Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)		3
IPHY 3430	Human Physiology	4
Gen. Ed. Distribution (example: Arts & Humanities)		3
	Credit Hours	**15**
Year Three		
Fall Semester		
IPHY 3435 or IPHY 3437	Physiology Lab or Virtual Human Physiology Laboratory	

Elective		3
IPHY Major Core Course #1		3-5
Gen. Ed. Distribution course (example: Social Sciences)		3
Upper-division Elective		3
Credit Hours		**12-14**
Spring Semester		
IPHY Major Core Course #2		3-5
Gen. Ed. Skills course (example: Upper-division Written Communication)		3
Upper-division Elective		3
Upper-division Elective		3
Elective		3
Credit Hours		**15-17**
Year Four		
Fall Semester		
IPHY 3415	Human Anatomy Laboratory	2
IPHY Major Core Course #3		4-5
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)		3
Gen. Ed. Distribution course (example: Social Sciences)		3
Upper-division Elective		3
Credit Hours		**15-16**
Spring Semester		
IPHY Major Core Course #4		3-5
IPHY Major Core Course If Needed		3-5
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Upper-division Elective		3
Upper-division Elective		3
Credit Hours		**15-19**
Total Credit Hours		**114-124**

Learning Outcomes

By the completion of the program, students will be able to:

- Demonstrate a mastery of the core concepts defined by the *2011 Vision and Change in Undergraduate Biology Education: A Call to Action,* including structure and function; information flow, exchange and storage; pathways and transformations of energy and matter; and systems.
- Apply knowledge of the human body to new and real-world contexts.
- Extract meaning from visual representations of data (e.g., graphs, tables, images), and discern relevant from irrelevant information in various contexts.
- Synthesize ideas and concepts from multiple sources to create a more comprehensive understanding of integrative physiology.
- Apply the scientific method to research questions related to integrative physiology, including designing experiments, collecting and analyzing experimental data, forming evidence-based conclusions and placing results in the larger scientific context.
- Search, critically evaluate and analyze the scientific literature related to integrative physiology, and apply this knowledge to critique claims in the popular media.
- Possess effective collaborative, teamwork, and oral and written communication skills, including the ability to work with others towards shared goals and successfully communicate an understanding of integrative physiology to a wide audience.
- Recognize the limit of one's knowledge or ability and determine how to expand that knowledge or extend the ability.
- Gain experience in disciplinary settings (e.g., research, teaching, internships, leadership, outreach, volunteering) and awareness of careers suitable for those with expertise in integrative physiology.

Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

BA and MS in Integrative Physiology

The Department of Integrative Physiology has developed a curriculum that allows both degrees to be completed in five years. The program has been designed to provide qualified undergraduate students with an opportunity to enhance their knowledge base in the discipline, engage in research, increase their opportunities for employment and make their applications to medical/allied health professional schools more competitive.

Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.3 or higher
- Have completed a minimum of 24 credit hours of coursework
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder
- Students must have completed one year of general biology and one year of general chemistry prerequisite courses (all with minimum grades of C-)

Candidates for the program are recruited from the undergraduate population of declared integrative physiology majors during the beginning of their junior year. All interested candidates must apply by the second semester of their junior year. To apply, students must also provide one letter of recommendation and have a faculty mentor. Approximately 3–5 of the applicants will be selected on a competitive basis to begin the program.

Program Requirements

Students may take up to and including 12 hours of graduate credits while in the undergraduate program which can later be used toward the master's degree. In addition, 6 graduate credits may be double counted toward the bachelor's degree and 6 undergraduate credits may be double counted toward the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's

degree, early in the semester in which the undergraduate requirements will be completed.

Once accepted into the program, a student must maintain a GPA of 3.00 in all coursework undertaken. After transitioning to the MS degree, students must register for at least 5 graduate course credit hours per semester. Students deciding to discontinue the program may do so at any time during their course of study. All credit hours completed toward the concurrent degree program will be counted toward the completion of the requirements for a BA degree in integrative physiology.

Please contact the Integrative Physiology graduate program (iphygrad@colorado.edu) or visit the website Integrative Physiology - Master of Science (MS) (p. 1319) for more information on the BAM degree.

International Affairs

With the increasing importance of world issues to the United States, employment opportunities in government, international organizations and business continue to expand. Today there is an urgent need for college graduates with a strong background in international affairs. To meet this need, the University of Colorado Boulder offers a comprehensive and flexible interdisciplinary program in international affairs leading to the BA degree.

Course code for this program is IAFS.

Bachelor's Degree

- International Affairs - Bachelor of Arts (BA) (p. 437)

Minor

- International Affairs - Minor (p. 442)

Certificates

- European Union Studies - Certificate (p. 444)
- Global Environmental Affairs - Certificate (p. 444)
- International Media - Certificate (p. 1099)
- International Affairs - Graduate Certificate (p. 1777)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Beard, Steven (https://experts.colorado.edu/display/fisid_168279/)
Teaching Assistant Professor

Chester, Lucy P. (https://experts.colorado.edu/display/fisid_126541/)
Associate Professor; PhD, Yale University

Fluri, Jennifer L. (https://experts.colorado.edu/display/fisid_154033/)
Professor; PhD, Pennsylvania State University

Teitelbaum, Benjamin Raphael (https://experts.colorado.edu/display/fisid_151338/)
Assistant Professor; PhD, Brown University

Truelove, Yaffa Elane (https://experts.colorado.edu/display/fisid_159271/)
Assistant Professor; PhD, University of Cambridge (England)

Wyrod, Robert (https://experts.colorado.edu/display/fisid_156319/)
Associate Professor; PhD, University of Chicago

Zeiler, Thomas W. (https://experts.colorado.edu/display/fisid_101692/)
Professor; PhD, University of Massachusetts at Amherst

Courses

IAFS 1000 (4) Global Issues and International Affairs
Introduces the student to the international affairs program. The course examines political and economic development in several countries in many different world regions. Examines historical trends and development as well as current political and economic issues.
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Asia Content

IAFS 3000 (3) Special Topics in International Affairs
Junior or senior level umbrella seminar spanning a variety of topics relevant to the study of international affairs. Subjects addressed under this heading vary according to student interest and faculty availability.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Political Science (PSCI) majors or International Affairs (IAFS) majors or minors with 57-180 credits (Junior or Senior) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

IAFS 3010 (3) Islam, Geopolitics and Society: Gender, Identity and Place
Examines Islam, geopolitics and society in various locations throughout the globe, such as Afghanistan, Egypt, France, Germany, India, Indonesia, Iran, Iraq, Ireland, Israel/Palestine, Morocco, Pakistan, Saudi Arabia, Turkey, Yemen, the UK and the US. Addresses issues of gender, identity and place to illustrate the complexity and diversity of social experiences within the milieu of Islam and geopolitics.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences

IAFS 3500 (3) French Connections: Contemporary France and America in Historical Context
Faculty-led Global Seminar, based in Bordeaux, France provides an opportunity to compare French history and contemporary culture, economy, and culture to that of the United States. Lectures in Boulder and Bordeaux are supplemented by interactions with officials, scholars, business leaders, interest groups, and organizations in France. Offered through Study Abroad.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4190
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences

IAFS 3520 (6) Global Seminar: Justice, Human Rights and Democracy in Israel
Explore the challenges and complexities of justice, democracy and human rights in Israel and the West Bank through field trips, course work and service learning projects with Jerusalem based non-profit organizations. Acquire new knowledge and lived experience on critical issues facing Israelis and Palestinians with the wider scope of Middle East politics.
Equivalent - Duplicate Degree Credit Not Granted: JWST 4302
Recommended: Prerequisites ANTH 4050 or JWST 4050 and IAFS 3600 or JWST 3600.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Asia Content

IAFS 3530 (3) Global Seminar: Jews and Muslims - The Multiethnic History of Istanbul
Spend two weeks in Istanbul and examine Jewish-Muslim relations in a place that was for 500 years the crossroads of civilization. The only Muslim city in the 21st century with a large, thriving Jewish community, Istanbul models how people from different social classes, ethnicities and religious backgrounds can coexist.
Equivalent - Duplicate Degree Credit Not Granted: JWST 3530 and RLST 3530
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

IAFS 3540 (3) Migration, Human Rights, and Conflict in the Mediterranean
Faculty-led Global Seminar, based in Malta, provides the opportunity to study social, political, and economic issues surrounding international migration, Focuses on causes and consequences of recent migration flows from nations in the Middle East and Sub-Saharan Africa to European nations located in the Eastern Mediterranean. Students will interact with representatives of state governments, NGOs, and activist groups, and learn about the rich culture and history of Malta as a pivotal state promoting international diplomacy and regional security.
Equivalent - Duplicate Degree Credit Not Granted: PACS 3540
Requisites: Requires prerequisite course of PACS 2500 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective

IAFS 3600 (3) Contemporary Jewish Societies
Uses transnational lens to explore contemporary debates about Jewish people, places and practices of identity and community; places that Jews have called 'home', and what has made, or continues to make those places 'Jewish'; issues of Jewish homelands and diasporars; gender, sexuality, food and the Jewish body; religious practices in contemporary contexts. Readings drawn primarily from contemporary journalism and scholarship.
Equivalent - Duplicate Degree Credit Not Granted: JWST 3600 and GSLL 3600
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

IAFS 3610 (3) Topics in International Affairs and Jewish Studies
Explores topics in international affairs as it relates to Jewish culture and society. Subjects addressed under this heading vary according to student interest and faculty availability.
Equivalent - Duplicate Degree Credit Not Granted: JWST 3610
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

IAFS 3621 (3) Rogues to Revolutionaries: Russian Rebels, Past and Present
Explores the tradition of dissent and opposition in Russian culture, from the medieval period to present, approaching forms of rebellion (religious, political, social, aesthetic) in historical context. This survey in intellectual history will trace this phenomenon across historical documents, literary texts, film, and the fine and performing arts, pairing these primary materials with readings in Russian history. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 4481 and RUSS 5481
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities

IAFS 3622 (3) Understanding Ukraine: Culture, Diversity, Conflict
Introduces students to Ukraine¿s cultural diversity and orients them in the history of the country at the heart of contemporary world politics. This course will provide students with a necessary historical frame for understanding current and war-time cultural debates about Ukraine¿s contested heritage and future. Taught in English. Degree credit not granted for REES 4871 and REES 5871.

IAFS 3630 (3) Radical Nationalism in Contemporary Northern Europe
Examines the current rise of National Socialists, white supremacists, ethnic separatists, anti-Islam activists and social and cultural ultraconservatives in northern Europe. Treats extremist nationalism as a social, cultural, aesthetic, intellectual and political movement. Consults scholarship from sociology, criminology and political science, as well as music, literature, art and film.
Equivalent - Duplicate Degree Credit Not Granted: SCAN 3301
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences

IAFS 3631 (3) Arctic Society and Culture
Investigates representations of the Arctic in literature, art, cinema, media and scientific, and geographical writing over the past century and a half, spanning material from North America, Britain, continental Europe and the Nordic region. Interpretive approaches include ecocriticism; post-colonialism; literary studies; indigenous studies; visual, film and media theory; Cold War studies.
Equivalent - Duplicate Degree Credit Not Granted: SCAN 3631
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences

IAFS 3632 (3) Scandinavia and the European Union
Examining the role that the EU plays in the Nordic region, this course is an introduction to the complex relationship between the Nordic nation states and the European project. We explore how the EU is perceived in the Nordic countries and investigate why the Nordic region is reluctant in its relation to the European Union.
Equivalent - Duplicate Degree Credit Not Granted: SCAN 3632

IAFS 3640 (3) Data Analysis for Global Environmental Affairs
Develops data analysis techniques for global environmental data including demographic, economic, agricultural, fisheries and energy sectors. Designed to support the development of basic and intermediate data analysis skills for students in the Global Environmental Affairs certificate program. Includes hands-on exploration of up-to-date global data sets from a variety of sources. Fulfills the application requirement for the ENVS major.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 3640
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

IAFS 3650 (3) History of Arab-Israeli Conflict
Explores the origins and development of the Arab-Israeli conflict. Traces Arab-Jewish/Israeli relations from the 19th century through the Palestine Mandate, the evolution of Arab and Jewish nationalism and the creation of Israel to the present day.
Equivalent - Duplicate Degree Credit Not Granted: JWST 3650
Requisites: Restricted to students with 57-180 credits (Junior or Senior) International Affairs (IAFS) majors only.
Recommended: Prerequisite HIST 1308 or HIST 1828 or JWST 1828.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

IAFS 3670 (3) Cities of the Global South
Examines the geographies, processes, structural forces and everyday forms of urban life that are at the core of rapid urban transformation in the global South. Through using interdisciplinary scholarship, empirical case studies and key theoretical work, the course covers themes such as migration and urbanization, informality and governance, infrastructures of everyday life and urban environmental politics.
Equivalent - Duplicate Degree Credit Not Granted: GEOG 3622

IAFS 3681 (3) Refugees in German Culture
Introduces the diversity of refugee migration in German culture through artistic and cultural "texts," including those created by or in collaboration with refugees (film, comic journalism, literature, blogs, hashtag campaigns, music, etc). These texts are discussed in relationship to theories of racism, precarity, and biopolitics together and contextualized by work from other disciplines. This interdisciplinary course is methodologically informed by the theory and practice of cultural studies. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 3681, JWST 3681 and AHUM 3681
Recommended: for students with sophomore standing or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

IAFS 3850 (3) International Conflict Resolution and Peacebuilding
Provides an introduction to the interdisciplinary field of international conflict resolution and peacebuilding. Provides tools for analyzing and intervening in contemporary manifestations of violent social conflict. Argues for an approach to international affairs rooted in more nuanced understandings of the nature of violent conflict and its dynamics. Bases the quest to build sustainable peace not on military supremacy or coercive diplomacy, but rather the ability of states and peoples to work collaboratively to develop mutually beneficial solutions aimed at the satisfaction of basic needs, collective security, political representation, and respect for human dignity. Explores how international conflicts are mitigated, contained, and resolved through processes such as DDR (disarmament, demobilization, and reintegration), citizen diplomacy, and reconciliation.
Equivalent - Duplicate Degree Credit Not Granted: PACS 3850
Recommended: Prerequisite PACS 2500.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective

IAFS 4500 (3) The Post-Cold War World
Capstone course for international affairs majors. Examines the ways in which the end of the Cold War, the collapse of failed states, and the rise of global terrorism changed the world. Studies how peoples, governments and nongovernmental organizations face new social, political, economic and security challenges in an era of globalization. Includes discussion, oral reports, critical book reviews, and research papers.
Requisites: Restricted to students with 87-180 credits (Senior) International Affairs (IAFS) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

IAFS 4800 (3) Honors Seminar in International Affairs
Directed research course tailored to the particular research interests of the students enrolled. Devoted to research methodology and the development of students' research. Department enforced prerequisite: overall 3.30 GPA and IAFS 3.40 GPA.
Additional Information: Arts Sciences Honors Course

IAFS 4810 (3) Honors in International Affairs
Continuation of IAFS 4800. Students complete original research begun in the fall and write, defend their honors thesis and meet regularly with the instructor.
Requisites: Requires prerequisite course of IAFS 4800 (minimum grade C-).
Additional Information: Arts Sciences Honors Course

IAFS 4900 (1-6) Independent Study in International Affairs
Provides an opportunity to earn academic credit for learning outside the formal class structure. Students interested in doing in-depth research propose a research project to a faculty sponsor and then work closely with that person to produce a piece of original research. Department enforced prerequisite: restricted to students with 57-180 credits (Juniors or Seniors), GPA of 3.00 or better, grade of C or better in all lower-division courses, and at least 6 upper-division courses.
Repeatable: Repeatable for up to 6.00 total credit hours.

IAFS 4930 (3-6) Internship in International Affairs
Working individually under the guidance of a public or private organization, students are assigned to projects selected for their academic suitability. Written assignments occur throughout the semester.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) International Affairs (IAFS) majors only.

International Affairs - Bachelor of Arts (BA)

With the increasing importance of world issues to the United States, employment opportunities in government, international organizations and business continue to expand. Today there is an urgent need for college graduates with a strong background in international affairs. To meet this need, the University of Colorado offers a comprehensive and flexible interdisciplinary program in international affairs leading to the BA degree.

Requirements

Required Courses and Credits

Students must complete the general requirements of the College of Arts and Sciences and a minimum of 49–51 credit hours of specified courses with a grade of C- or better (none may be taken pass/fail).

Introductory Courses (10 credit hours)

Code	Title	Credit Hours
IAFS 1000	Global Issues and International Affairs	4
PSCI 2012	Introduction to Comparative Politics	3
PSCI 2223	Introduction to International Relations	3
Total Credit Hours		**10**

In addition to introductory courses, complete the requirements listed below for:

- Functional area
- Geographic concentration
- Economics/methods
- Off-campus experience
- Foreign language
- Senior seminar

IAFS 3000 Special Topics in International Affairs can be repeated up to 9 credit hours for different topics.

Functional Area (18 credit hours)

Students are required to complete one upper division class in each of the four functional areas and complete two additional upper division classes in any functional area. Students cannot apply more than four functional area classes from any one department.

Code	Title	Credit Hours
Development and Culture (Functional Area I)		
ANTH 4020	Explorations in Anthropology (approved topics only)	3-6
ANTH 4500	Cross-Cultural Aspects of Socioeconomic Development	3
COMM 3410	Intercultural Communication	3

Geographic Concentration (9 credit hours)

Students are required to complete three upper-division classes concentrating on one of the four following global regions: Africa/Middle East, Asia, Europe/Eurasia or Latin America. Students should choose a geographic concentration and a language appropriate to that geographic concentration no later than the beginning of their junior year.

Geographic concentration coursework should be mainly in the social sciences, must include one course in contemporary history and can include a maximum of three credit hours of regional literature and arts (taught in the foreign language whenever possible).

Code	Title	Credit Hours
Africa/Middle East Geographic Concentration		
ANTH 3100	Africa: Peoples and Societies in Change (fulfills Contemporary History)	3
ANTH 4630	Nomadic Peoples of East Africa	3
ARAB/WGST 3410	Gender, Sexuality and Culture in the Modern Middle East	3
ARAB 3340	Representing Islam	3

Economics/Methods (6–8 credit hours)

Students are required to complete 6–8 credit hours in economics/methods. Choose two courses from the following list. Some of the courses listed may have required or recommended prerequisites.

Code	Title	Credit Hours
ANTH 4000	Quantitative Methods in Anthropology	3
ECON 2010	Principles of Microeconomics	4
ECON 2020	Principles of Macroeconomics	4
GEOG 3023	Statistics and Geographic Data	4
GEOG 4023	Advanced Quantitative Methods for Spatial Data	4
IAFS/ENVS 3640	Data Analysis for Global Environmental Affairs	3
PSCI 2075	Quantitative Research Methods	3
PSCI 3035	Introduction to Qualitative Research Methods	3
PSCI 3075	Applied Political Science Research	3
SOCY 2061	Introduction to Social Statistics	3
WGST 3020	Feminist Methods of Inquiry and Praxis	3

Off-Campus Experience (3 credit hours)

Complete 3 upper-division credit hours to fulfill the off-campus experience requirement from one of the following: IAFS 4930 Internship in International Affairs; a CU Boulder study abroad course; a CU in DC course; or other credit-bearing off-campus experience approved by the program. The 3 credits that fulfill the off-campus experience requirement cannot be applied to any other International Affairs major requirement. Fulfillment of the off-campus experience requirement through study abroad is subject to the student's final transcript from the Office of Education Abroad. Students should contact their advisor (https://www.colorado.edu/iafs/student-resources/advising/) with questions.

Language Requirement

A third year, university-level proficiency in a foreign language appropriate to the geographic concentration is required. This requirement may be met by completion of one or two semester-long, third year, university-level grammar courses (depending on the language) with a grade of C- or better, while also satisfying language department requirements for advancement through the sequence. See the International Affairs Program (http://www.colorado.edu/iafs/) website for more information.

Senior Seminar (3 credit hours)

Code	Title	Credit Hours
Choose one of the following:		3
IAFS 4500	The Post-Cold War World	
IAFS 4800	Honors Seminar in International Affairs	
PACS 4500	Senior Seminar: Research in Conflict Contexts (for IAFS majors in PACS only)	
Total Credit Hours		**3**

Recommendations

- All international affairs majors should have a good command of the English language.
- Students should choose electives with a view to their relevance to this program or usefulness as prerequisites for upper-division work.

- Students in international affairs are encouraged to consider the possibility of participating in one of the Study Abroad programs affiliated with the University of Colorado. Students wishing to participate in such a program should contact their advisor to work out an appropriate program.
- Internships are a useful experience for students seeking a career in international affairs. The (Internship in International Affairs (IAFS 4930)) provides the opportunity to earn academic credit for appropriate internships in the field. This course is generally offered during the spring and fall semesters and during summer sessions. Interested sophomores, juniors or seniors should consult with the director of the Internship Program. An application is required for admission to the Internship Program; see the International Affairs Program (http://www.colorado.edu/iafs/) website for more details. IAFS 4930 could count for the off-campus experience with approval from the internship director.
- The IAFS Honors Program offers the opportunity to learn and apply research skills for a select number of IAFS majors. Entry into the IAFS Honors Program is limited to seniors with a 3.40 major GPA and a 3.30 overall GPA. The Honors Seminar in International Affairs (IAFS 4800—offered each fall semester) provides instruction in research methods and facilitates the development of a sound research project. Research continues into the spring semester under the guidance of individual faculty members and through the continuation course, Honors in International Affairs (IAFS 4810). Interested and eligible students should consult with their academic advisor and the director of the Honors Program before spring break of their junior year. An application is required for admission to the Honors Program; see the International Affairs Program (http://www.colorado.edu/iafs/) website for more details. IAFS 4810 could count for either an upper-division functional area and/or a geographic concentration class with approval from the honors director.
- Students interested in international affairs may want to consider the Global Studies Residential Academic Program offered through the residence halls. See Residential Academic Programs for information.
- International affairs majors who wish to minor in political science must apply the following additional rules:
  - No more than 9 credit hours toward the PSCI minor can come from courses that count toward another major
  - International affairs majors must take at least one upper-division course in American politics and one course (lower- or upper-division) in political theory, in addition to the regular minor requirements.

The specific courses that may be counted to meet the requirements in this program are determined by the committee on international affairs and the dean of the College of Arts and Sciences.

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in international affairs, students should meet the following requirements:

- Declare the major by the beginning of the second semester
- Begin language study by the third semester
- Complete the introductory requirements and any lower-division economics/methods requirements by the end of the sophomore year
- Begin geographic concentration and any upper-division economic/methods courses by the first semester of the junior year
- Begin upper-division general international affairs requirements by the first semester of the junior year
- Successfully complete any remaining major requirements by the end of the eighth semester
- See your IAFS advisor by the end of sophomore year to plan study abroad, the off-campus experience, and language requirements

Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Social Sciences area of the Gen Ed Distribution Requirement. Depending on the courses selected within the major, students can also potentially complete some or all credits toward the Arts & Humanities area of the Gen Ed Distribution Requirement and both categories in the Gen Ed Diversity Requirement. The off-campus experience should be completed in the third or fourth year through an Education Abroad program, IAFS 4930 with an approved internship or other off-campus experience course approved by IAFS.

Year One		
Fall Semester		**Credit Hours**
IAFS 1000	Global Issues and International Affairs	4
PSCI 2223	Introduction to International Relations	3

Year Four	
Fall Semester	
IAFS 4500 or IAFS 4800 Senior Seminar	3
IAFS Functional Area 3 - Political Geography, e.g. (see IAFS website for options)	3
IAFS Functional Area 4 - International Institutions, e.g. (see IAFS website for options)	3
IAFS Geographic Concentration - Africa/Middle East, Asia, Europe/Eurasia, or Latin America (see IAFS website for options)	3
Gen. Ed. Distribution course (example: Natural Sciences)	3
Elective or Upper-division Elective (if needed)	3
Credit Hours	**18**
Spring Semester	
IAFS 4930 Internship in International Affairs (or other approved course to fulfill off-campus experience if not studying abroad)	3
IAFS Additional Functional Area (1 of 2 required; see IAFS website for options)	3
IAFS Additional Functional Area (2 of 2 required; see IAFS website for options)	3
Gen. Ed. Distribution course (example: Arts & Humanities) - Upper-division (if needed)	3
Elective or Upper-division Elective (if needed)	3
Elective if needed to reach 120 total credits	0-3
Credit Hours	**15-18**
Total Credit Hours	**121-138**

Learning Outcomes

By the completion of the program, students will be able to:

- Understand and examine fundamental issues, interdisciplinary theories and approaches to the study of international affairs.
- Analyze international challenges from a political, economic, historical and cultural perspective.
- Consider issues related to a specific geographic region of the world, including historical factors that give rise to regional institutions and processes.
- Communicate, orally and in writing, about international affairs to scholars in the field and to a broader audience, including in other cultural contexts.
- Develop grammar-based proficiency in a foreign language.

International Affairs - Minor

With the increasing importance of world issues to the United States, employment opportunities in government, international organizations and business continue to expand. Today there is an urgent need for college graduates with a background in international affairs. To meet this need, the University of Colorado Boulder offers a minor in international affairs, giving students in various programs an interdisciplinary perspective on the world today.

Requirements

Required Courses and Credits

Complete the lower-division, upper-division and capstone requirements below for a total of 19 credits.

- All coursework applied to the minor must be completed with a grade of C- or better (no pass/fail work may be applied).
- The grade point average for all minor degree coursework must equal 2.00 (a grade of C) or higher.
- Students may apply no more than 9 credit hours of transfer work towards the minor.

Code	Title	Credit Hours
Lower-Division Requirement		
IAFS 1000	Global Issues and International Affairs	4
Upper-Division Electives		
Complete 12 credits of upper-division electives from the IAFS functional areas. Electives must be chosen from at least three of the four IAFS functional areas. Students cannot apply more than two IAFS Functional Area classes from any one discipline/department (e.g., PSCI, ECON).		12
Development and Culture (Functional Area I)		
ANTH 4020	Explorations in Anthropology (approved topics only)	
ANTH 4500	Cross-Cultural Aspects of Socioeconomic Development	
COMM 3410	Intercultural Communication	
ECON 3784	Economic Development and Policy	
ECON/GEOG 4292	Migration, Immigrant Adaptation, and Development	
ECON 4774	Topics in Economic Development, History and Political Economy	

ECON 4784	Economic Development
ECON 4794	Economic Growth
GEOG/WGST 3672	Who Runs the World? Sex, Power, and Gender in Geography
GEOG 3682	International Development: Economics, Power, and Place
GEOG 3692	Introduction to Global Public Health
GEOG 4632	Development Geography
GEOG 4852	Health and Medical Geography
IAFS/JWST 3600	Contemporary Jewish Societies
IAFS/SCAN 3631	Arctic Society and Culture
IAFS/ENVS 3640	Data Analysis for Global Environmental Affairs
IAFS 3670/ GEOG 3622	Cities of the Global South
LING 3545	World Language Policies
MUEL 3862	Music and Global Health
PACS 3860	Environmental Conflict and Conflict Resolution
PSCI 4012	Global Development
PSCI 4732	Critical Thinking in Development
PSCI 4283	International Migration and Policy
SOCY 3002	Population and Society
SOCY/WGST 3012	Gender and Development
SOCY 4007	Global Human Ecology
SOCY 4052	Social Inequalities in Health
WGST 3500	Global Gender Issues
WGST 4300	Sex, Power, Politics: International Perspectives
International Economics, Business, Political Economy (Functional Area II)	
ECON 3403	International Economics and Policy
ECON 3545	Environmental Economics
ECON 4413	International Trade
ECON 4423	International Finance
ECON 4504	The New Institutional Economics: Institutions, Contracts and Economic Outcomes
ECON 4545	Environmental Economics
FNCE 4060	Special Topics in Finance
INBU 3300	International Business and Management
INBU 3450	International Business and Marketing
INBU 4200	International Financial Management
PSCI 3092	Comparative Political Economy
PSCI 3213	International Political Economy
Political Geography, International Security, Foreign Policy (Functional Area III)	
ANTH/JWST 4580	The Holocaust: An Anthropological Perspective
GEOG 3742	Place, Power, and Contemporary Culture
GEOG 4712	Political Geography
GEOG 4742	Topics in Environment and Society (approved topics only)
GEOG 4762	Geographies of Political Islam
HIST 4050	
HIST 4126	History of U.S. Foreign Relations Since 1941
HIST 4146	
HIST 4166	The Vietnam War in US Politics and Culture
IAFS 3010	Islam, Geopolitics and Society: Gender, Identity and Place
IAFS 3500/ HIST 4190	French Connections: Contemporary France and America in Historical Context
IAFS/JWST 3650	History of Arab-Israeli Conflict
PACS 3800	Security Studies
PHIL 3190	War and Morality
PSCI 3123	War, Peace, and Strategic Defense
PSCI 3143	Current Affairs in International Relations
PSCI 3163	American Foreign Policy
PSCI 3193	International Behavior
PSCI 4243	Modern Warfare: Terrorism, Ideology, Identity
International Institutions, Rights and Norms (Functional Area IV)	
ANTH 4525	Global Islams
HIST 4820	Human Rights: Historical Perspectives
IAFS 3630/ SCAN 3631	Radical Nationalism in Contemporary Northern Europe
INVS 4402	Nonviolent Social Movements
MUEL 3882	Music and Violence
PACS 3850	International Conflict Resolution and Peacebuilding
PACS 3870	Nonviolent Civil Resistance: Movements and Strategies
PHIL 3260	Philosophy and the International Order
PRLC 3810	Global Issues in Leadership
PSCI 3062	Revolution and Political Violence
PSCI 3183	International Law
PSCI 4173	International Organizations
PSCI 4252	Politics of Ethnicity and Nationalism
PSCI 4783	Global Issues
SOCY/ENVS 4027	Inequality, Democracy, and the Environment
SOCY 4121	Sociology of Religion
WGST 3220	Women in Islam
WGST 3712	Topics in Global Gender and Sexuality Studies (SS)
WGST 4010/ SOCY 4000	Gender, Genocide and Mass Trauma
WGST 4500/ PSCI 4391	Gender Politics and Global Activism
Capstone	
IAFS 3000	Special Topics in International Affairs 3
Total Credit Hours	**19**

European Union Studies - Certificate

The certificate in European Union studies (CEUS) allows CU Boulder undergraduates in a range of social science and humanities programs to gain skills and understanding around the European Union (EU). The certificate documents a student's expertise in European Union studies, opening opportunities for further study, internships and careers in public, private or nonprofit sectors.

CEUS is housed in the International Affairs Program (IAFS) in the College of Arts and Sciences, and the certificate curriculum is intentionally interdisciplinary. Students admitted into the program will complete coursework with EU content going beyond what they can obtain merely by completing any single major. They will also participate in cocurricular activities to augment their understanding of the development, focus, functioning and future of the EU.

Upon completion of this program, students will have a demonstrated understanding of the European Union; its politics, history, institutions, economics, policies, member states, relations with the US, role in the world and much more.

For more information, visit the program's European Union Studies (https://www.colorado.edu/iafs/academics/certificates/european-union-studies/) webpage.

Requirements

Application and Admission

For more information and to apply, contact iafs@colorado.edu (GEAcertificate@colorado.edu). The application includes an essay describing the applicant's interests and background in EU studies and reasons or motivations for pursuing this certificate.

Program Requirements

A total of 19 credit hours of coursework is required to complete the certificate. All credit hours must be completed with grades of C- or better and an overall GPA of 3.000. None of the required hours may be taken pass/fail.

In addition to their coursework, CEUS students will attend at least four EU-related lectures and events during their semesters of residency at CU and will submit a brief write-up of the main themes or discussion points of the events to iafs@colorado.edu.

Code	Title	Credit Hours
Lower-Division Core Requirements		**7**
It is essential that all students in the EU Studies Certificate program begin with a common framework for the analysis of international institutions and relations as a background for the upper-division coursework in EU studies. All students must therefore complete the following lower-division requirements:		
PSCI 2012	Introduction to Comparative Politics	
IAFS 1000	Global Issues and International Affairs	
Upper-Division Core Requirements		**3**
PSCI 4302	European Union Politics	
Upper-Division Electives		**9**
Students must complete at least 9 hours of relevant upper-division coursework, including at least 6 credit hours from outside their major or minor, selected from the list below. Courses not listed here but with a focus on EU issues may be applied to this elective requirement with approval from IAFS. This includes, in particular, courses taken on authorized study abroad program in EU countries.		
ECON 4514	Economic History of Europe	
FNCE 4060	Special Topics in Finance (certain topics)	
GEOG 4892	Geography of Western Europe	
GRMN 3150	Issues in German Politics, Literature and Media	
GRMN/WGST 4301	Gender, Race and Immigration in Germany and Europe	
HIST 4212	The Age of Religious Wars: Reformation Europe,1500-1648	
HIST 4053		
HIST 4233		
HIST 4423	German History 1848-1989: Weimar Republic, Nazism, State Socialism	
HIST 4424		
HIST 4442	Europe since 1945	
IAFS 3500	French Connections: Contemporary France and America in Historical Context	
ITAL 4250	History of Modern Italy	
PSCI 3143	Current Affairs in International Relations	
PSCI 3172	Democracy and Its Citizens in the US and EU	
PSCI 3183	International Law	
PSCI 4002	Western European Politics	
PSCI 4062	East European Politics	
PSCI 4173	International Organizations	
PSCI 4213	Europe and the International System	
SPAN 3200	Spanish Culture	
SPAN 3240	Catalan Culture 1: Nation and Art	
SPAN 3250	Catalan Culture 2: Contemporary Trends and Barcelona	
SPAN 3230	Discovering Barcelona: Culture and Heritage	
SPAN 3270	Barcelona: Understanding Local and Immigrant Cultures	
Total Credit Hours		**19**

Students earn the certificate in European Union studies upon verification by IAFS that they have completed a series of curricular and co-curricular requirements.

Global Environmental Affairs - Certificate

The certificate in Global Environmental Affairs provides students with opportunities to personalize undergraduate learning across disciplinary lines and to deepen student engagement with world problems. The certificate includes both formal coursework and a 3-credit off-campus experiential component. This experiential learning component may be completed through internship, study abroad or CU in DC. This requirement

not only enriches the students' educational experience through applied learning and fieldwork, but it also helps students demonstrate their skills and experience as they prepare for graduation and the job market.

The certificate in global environmental affairs is offered jointly by the Program in International Affairs (IAFS) and the Department of Environmental Studies (ENVS). This certificate is open to all majors at CU Boulder, and it draws upon courses and interdisciplinary expertise in both IAFS and ENVS to link and develop knowledge of global environmental policies and practices. For IAFS and ENVS students, it will provide additional value for the two interdisciplinary majors.

For more information and to apply, contact GEAcertificate@colorado.edu.

Requirements

Program Requirements

The certificate requires 19–20 credits, depending on the courses chosen. All credit hours must be completed with grades of C- or better and an overall GPA of 2.50. None of the required hours may be taken pass/fail.For more details and application information, see the International Affairs Program (http://www.colorado.edu/iafs/) website.

Program Tracks

Track 1: ENVS Majors

Code	Title	Credit Hours
Introductory Course		
IAFS 1000	Global Issues and International Affairs	4
Data Analysis Requirement		
Choose one of the following:		3
ENVS/IAFS 3640	Data Analysis for Global Environmental Affairs	
EBIO 4155	Ecosystem Ecology	
PSCI 2075	Quantitative Research Methods	
Experiential Requirement		
Choose one of the following (courses and internships must have clear environmental content):		3
ENVS 3930	Internship	
Study abroad class		
The Washington Center class		
Electives		
Choose 9 credits from the following:		9
ENVS 4100	Special Topics in Environmental Studies (approved sections for the certificate)	
ENVS 4800	Capstone: Critical Thinking in Environmental Studies (approved sections for the certificate)	
ECON 3403	International Economics and Policy	
ECON 3784	Economic Development and Policy	
IAFS 3000	Special Topics in International Affairs (approved sections for certificate)	
PSCI 4012	Global Development	
PSCI 4732	Critical Thinking in Development

Study abroad class		
The Washington Center class		
Electives		
Choose 6 credits from the elective list of Track 1 or Track 2.		6
Total Credit Hours		**20**

Jewish Studies

The program in Jewish Studies, which is open to all students of all backgrounds, Jewish and non-Jewish, explores Jewish culture, history,

society, and thought from a broad, interdisciplinary perspective. The program reflects the core goals of Colorado's flagship university: to provide an outstanding liberal arts education, to foster critical thought, and to instill a keen appreciation of humankind's interrelatedness and diversity. At its core, the major trains students to be global citizens and to engage in and enact social justice in the world.

Jewish Studies is home to internationally acclaimed faculty engaged in cutting-edge research and provides opportunities for students to study with leading artists, scholars and professionals working in the field of Jewish Studies. The program offers an innovative and contemporary curriculum designed to provide a strong foundation in cultural education and to connect Jewish thought and text to action and people's lives.

The program offers a Bachelor of Arts in Jewish Studies (students can pursue either a culture intensive concentration or a foreign language intensive concentration), a minor in Jewish Studies and a minor in Hebrew and Israel Studies.

An undergraduate degree in Jewish Studies emphasizes knowledge and awareness of:

- The history of global Jewish communities over time, including the history of Israel and Palestine, biblical and medieval Jewish history, history of Jewish communities in the Mediterranean, the history of the Holocaust and post-Holocaust American Judaism;
- Dimensions of Jewish culture across variant Jewish communities, including differences in Jewish cultural practices, Jewish music and film, and Jewish philosophies, religious practices, mysticisms and thought;
- Jewish literature from the biblical period to the present, including Israeli literature, the Hebrew origins of western civilization, and contemporary Jewish literature; and
- Global languages of the Jewish people, including Hebrew, Arabic, Spanish, French, Italian, Russian, German, Ladino and others (for students pursuing the foreign language intensive concentration).

In addition, it is expected that students completing the degree in Jewish Studies will develop:

- Fundamental skills in critical thinking, comparative analysis, oral and written expression;
- A well-rounded perspective of the diversity of the Jewish experience;
- An ability to engage in dialogues with people who have different opinions;
- Professional skills intended to aid them in their career ambitions.

Jewish Studies alumni have gone on to careers in politics, international policy, criminal justice, nonprofit, business, education, law, public relations, administration, marketing, real estate and journalism. Many have pursued additional education in graduate programs and professional schools.

The study of Jewish culture, society, history and religion is, by its nature, comparative and interdisciplinary. Our program offers many cross-listed classes with other departments on campus to facilitate a well-rounded learning experience. Many of our courses also satisfy core and general education requirements.

The program also offers many professional development opportunities to help students find employment after graduation in a field that fits their interests. The Internship in Jewish Studies (JWST 3930) pairs students with local organizations based on the student's long-term career goals.

Majors are also required to complete a Capstone in Jewish Studies (JWST 4000) in which they design an artistic project or research paper under the supervision of a faculty mentor that serves as a summation of their work in Jewish Studies. Majors and minors are eligible to join the Jewish Studies Undergraduate Student Advisory Board. Jewish Studies also highly encourages students to study abroad and has instituted two Global Seminars, one to Istanbul and the other to Israel.

The program in Jewish Studies also offers undergraduate and graduate students an opportunity to apply for fellowships in our archival collections so they can learn how to conduct primary research first-hand.

The program in Jewish Studies is growing and new courses are continually being added. Visit the Jewish Studies (https://www.colorado.edu/jewishstudies/) website for the most current course information.

Course codes for this program are JWST and HEBR.

Bachelor's Degree

- Jewish Studies - Bachelor of Arts (BA) (p. 452)

Minors

- Hebrew and Israel Studies - Minor (p. 457)
- Jewish Studies - Minor (p. 457)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Boyd, Samuel L. (https://experts.colorado.edu/display/fisid_155484/)
Associate Professor; PhD, University of Chicago

Weber, Beverly Marie (https://experts.colorado.edu/display/fisid_144523/)
Professor; PhD, University of Massachusetts Amherst

Courses

JWST 1234 (3) Mysticism and the Jewish American Literary Tradition
Explores the mystical tradition within Judaism from ancient times to the present. With roots in the Hebrew Bible, Jewish mysticism is one of the oldest forms of mysticism and has had an influence on some of the greatest philosophical traditions of western civilization.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 1340
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 1818 (3) Jewish History to 1492
Focus on Jewish history from the Biblical period to the Spanish Expulsion in 1492. Study the origins of a group of people who call themselves, and whom others call, Jews. Focus on place, movement, power/powerlessness, gender, and the question of how to define Jews over time and place. Introduces Jews as a group of people bound together by a particular set of laws; looks at their dispersion and diversity; explores Jews' interactions with surrounding cultures and societies; introduces the basic library of Jews; sees how Jews relate to political power.
Equivalent - Duplicate Degree Credit Not Granted: HIST 1818 and RLST 1818
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Asia Content

JWST 1828 (3) Jewish History Since 1492
Surveys the major historical developments encountered by Jewish communities beginning with the Spanish Expulsion in 1492 up until the present day. Studies the various ways in which Jews across the modern world engaged with the emerging notions of nationality, equality and citizenship, as well as with new ideologies such as liberalism, socialism, nationalism, imperialism and antisemitism.
Equivalent - Duplicate Degree Credit Not Granted: HIST 1828 and RLST 1828
Additional Information: GT Pathways: GT-HI1 - History
Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

JWST 1830 (3) Global History of Holocaust and Genocide
Examines the interplay of politics, culture, psychology and sociology to try to understand why the great philosopher Isaiah Berlin called the 20th century, "The most terrible century in Western history." Our focus will be on the Holocaust as the event that defined the concept of genocide, but we will locate this event that has come to define the 20th century within ideas such as racism, imperialism, violence, and most important, the dehumanization of individuals in the modern world.
Equivalent - Duplicate Degree Credit Not Granted: HIST 1830 and RLST 1830
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

JWST 1900 (3) Introduction to the Hebrew Bible/Old Testament
Examine the content of the Hebrew Bible and critical theories regarding its development. Explore the development of these texts, as well as their foundational role for rabbinic literature and the New Testament. Assess the enduring influence of the Hebrew Bible/Old Testament in world literature and culture (such as in art and music).
Equivalent - Duplicate Degree Credit Not Granted: RLST 1900
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

JWST 1910 (3) Introduction to the New Testament
Examine the background, content and influence of the New Testament books. Studies the diverse perspectives contained in the various books, as well as the process of canonization. Assess the influence of the New Testament on the development of Christianity as well as world (eastern and western) culture.
Equivalent - Duplicate Degree Credit Not Granted: RLST 1910
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 2350 (3) Introduction to Jewish Culture
Explores the development and expressions of Jewish cultures across the chronological and geographical map of the Jewish people, with an emphasis on the variety of Jewish ethnicities and their cultural productions, cultural syncretism, and changes, including such issues as sexuality and foodways. Sets the discussion in relevant contexts and looks at cultural representations that include literary, religious and visual texts.
Equivalent - Duplicate Degree Credit Not Granted: GSLL 2350
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Diversity-U.S. Perspective

JWST 2502 (3) Representing the Holocaust
Examines representations of the Holocaust in film, memoirs, poetry, novels, graphic novels, memorials. Considers questions such as: How to depict an event that resists representation? How does the memory of the Holocaust transform over generations? How do representations of the Holocaust inform our understanding of other experiences of racism and genocide? What ethical issues are at stake?
Equivalent - Duplicate Degree Credit Not Granted: JWST 2502
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 2551 (3) Modern Jewish Literature
Examines Jewish experience through the study of literary texts from around the world, mainly from the 20th and 21st centuries. Discusses issues pertaining to secularism and tradition; diasporas and homelands; modernity and questions of identity raised by the intellectual transitions brought about by political and social emancipation; sexualities; enormous changes wrought by population redistributions, world wars and rapid cultural transformations.
Equivalent - Duplicate Degree Credit Not Granted: GSLL 2551
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Hebrew

JWST 2600 (3) Judaism, Christianity, and Islam: Abrahamic Religions
In Judaism, Christianity, and Islam, Abraham is described as a founding figure. In recent times, the label ¿Abrahamic Religions¿ has become increasingly important both as a way to describe the origins and beliefs of Judaism, Christianity, and Islam and as a means for finding common ground in political and religious discourse. Yet in each religion Abraham is also used in strikingly different ways and for distinct purposes. In this course, we will look at these three religious traditions and how each one imagines Abraham. In particular, the focus will be on how each religion uses Abraham to construct foundational stories of a special relationship to God, stories that ultimately serve to promote religious identity over time.
Equivalent - Duplicate Degree Credit Not Granted: RLST 2600
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

JWST 2810 (3) Antisemitism: Histories, Concepts, Practices
This class explores the main histories, concepts, and practices of antisemitism. It analyzes how and why they emerged and what accounts for their persistence. Why are Jews targeted? Is there a ¿new antisemitism¿¿ since the 1970s¿ that differs significantly from older manifestations? How is antisemitism related to anti-Zionism? What is its relationship with racism? And how have political, social, and religious groups and organizations responded to these threats and what challenges have they faced?
Equivalent - Duplicate Degree Credit Not Granted: HIST 2810
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 2850 (3) Sex, Religion, and Politics in US Healthcare
Examines the roles of religion, gender, and sexuality in the politics of healthcare in the United States. Topics may include sexual health and education; debates over health and sexuality during the HIV/AIDS crisis; the expansion and contraction of access to birth control; public debates over abortion; debates over religion, politics, and healthcare for transgender people; and histories of religion, health, and race.
Equivalent - Duplicate Degree Credit Not Granted: WGST 2850
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 3100 (3) Judaism
Explores Jewish religious experience and its expression in thought, ritual, ethics, and social institutions.
Equivalent - Duplicate Degree Credit Not Granted: RLST 3100
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

JWST 3110 (3) Of Jewish Legends, Folktales and the Supernatural
Explores Jewish traditional legends, folktales and stories of the supernatural. Starts with Aggadic Talmud tales and Midrashic texts and focuses on later rabbinic and mystical texts and folktales ca 500-1900 C.E. from around the Jewish world with subjects ranging from didactic narratives extolling the virtues of the simple pure soul, to the horrors of a blood sucking vampiric outside world.
Equivalent - Duplicate Degree Credit Not Granted: RLST 3110
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 3120 (3) Radical Jews
Explores major Jewish figures, and their cultural productions, who were radical in the challenges they posed and transformative in the effects they had on society. The figures we examine range from the Rabbis of the Talmud who revolutionized a sacrificial cult religion, to Western secularist Baruch Spinoza and American icons such as Allen Ginsberg, Gloria Steinem and Bob Dylan.
Equivalent - Duplicate Degree Credit Not Granted: RLST 3120
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 3150 (3) Jerusalem: The Holy City in History, Legend, and Religious Thought
The history of Jerusalem and the stories that have given it prominence in the religious imagination continue to shape much of the world in which we live. In this class, we will survey approximately three millennia of the history of the city. We will ask methodological question, such as: What does it mean for a place to be conceived of as holy? How does this perceived holiness come about? What happens when holy places are destroyed and rebuilt? We will examine the biblical stories about Jerusalem not only as important sources themselves, but also for how they shape later religious traditions, specifically Judaism, Christianity, and Islam. As such, we will address what it means for the same place to be perceived as ¿holy¿ by differing, and often competing, groups. These contestations regarding Jerusalem will, then, allow us to engage issues of religious diversity and conflict both historically and in the present.
Equivalent - Duplicate Degree Credit Not Granted: RLST 3150
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 3200 (3) Religion and Feminist Thought
Examines the origin of patriarchal culture in the theology and practices of Judaism and Christianity. Explores attitudes and beliefs concerning women as Judeo-Christian culture impacts gender roles and gender stratification through reading and discussion. Women's religious experience is studied from the perspective of feminist interpretations of religiosity.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3200
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 3202 (3) Women, Gender & Sexuality in Jewish Texts & Traditions
Reads some of the ways Jewish texts and traditions look at women, gender and sexuality from biblical times to the present. Starts with an analysis of the positioning of the body, matter and gender in creation stories, moves on to the gendered aspects of tales of rescue and sacrifice, biblical tales of sexual subversion and power, taboo-breaking and ethnos building, to rabbinic attitudes towards women, sexuality and gender and contemporary renderings and rereadings of the earlier texts and traditions.
Equivalent - Duplicate Degree Credit Not Granted: HEBR 3202 and RLST 3202 and WGST 3201
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

JWST 3310 (3) The Bible as Literature
No single book has been as influential to the English-speaking world as the Bible. We¿ll read the Hebrew Bible and the New Testament for stories, poetry, and wisdom traditions. We¿ll approach the Bible as literature by analyzing its plots, characters, and meanings. Students study its textual history, how there came to be a ¿Bible,¿ and the many writers, conflicts, and cultures from which it emerged. We¿ll consider the Bible¿s powerful influence on ethics and philosophy. Formerly ENGL 3312.
Equivalent - Duplicate Degree Credit Not Granted: HUMN 3310 and ENGL 3310
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 3401 (3) The Heart of Europe: Filmmakers and Writers in 20th Century Central Europe
Surveys the major works of 20th century central and central east European film and literature. Examines cultural production in the non-imperial countries and non-national languages of the region including Yiddish, Belarusian, Czech, Hungarian, Polish and Romanian, among others. Traces the rise of nationalism over the course of the century from the age of empires through the Cold War.
Equivalent - Duplicate Degree Credit Not Granted: GSLL 3401
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 3501 (3) The German-Jewish Experience: From the Enlightenment to the Present
Provides insight into the German-Jewish identity through essays, autobiographies, fiction and journalism from the Enlightenment to the post-Holocaust period. Examines the religious and social conflicts that typify the history of Jewish existence in German-speaking lands during the modern epoch.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 3501
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

JWST 3530 (3) Global Seminar: Jews and Muslims - The Multiethnic History of Istanbul
Spend two weeks in Istanbul and examine Jewish-Muslim relations in a place that was for 500 years the crossroads of civilization. The only Muslim city in the 21st century with a large, thriving Jewish community, Istanbul models how people from different social classes, ethnicities and religious backgrounds can coexist.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3530 and RLST 3530
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

JWST 3600 (3) Contemporary Jewish Societies
Uses transnational lens to explore contemporary debates about Jewish people, places and practices of identity and community; places that Jews have called 'home', and what has made, or continues to make those places 'Jewish'; issues of Jewish homelands and diasporars; gender, sexuality, food and the Jewish body; religious practices in contemporary contexts. Readings drawn primarily from contemporary journalism and scholarship.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3600 and GSLL 3600
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

JWST 3610 (3) Topics in International Affairs and Jewish Studies
Explores topics in international affairs as it relates to Jewish culture and society. Subjects addressed under this heading vary according to student interest and faculty availability.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3610
Repeatable: Repeatable for up to 9.00 total credit hours.

JWST 3650 (3) History of Arab-Israeli Conflict
Explores the origins and development of the Arab-Israeli conflict. Traces Arab-Jewish/Israeli relations from the 19tj century through the Palestine Mandate, the evolution of Arab and Jewish nationalism and the creation of Israel to the present day.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3650
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

JWST 3681 (3) Refugees in German Culture
Introduces the diversity of refugee migration in German culture through artistic and cultural "texts," including those created by or in collaboration with refugees (film, comic journalism, literature, blogs, hashtag campaigns, music, etc). These texts are discussed in relationship to theories of racism, precarity, and biopolitics together and contextualized by work from other disciplines. This interdisciplinary course is methodologically informed by the theory and practice of cultural studies. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3681, GRMN 3681 and AHUM 3681
Recommended: for students with sophomore standing or higher.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 3820 (3) Topics in Jewish Studies
Intensive study of a selected area or problem in Jewish Studies.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 3930 (3) Internship in Jewish Studies
Learn beyond the classroom by interning in a local non-profit organization that connects with the Program in Jewish Studies through its mission and/or program. Interns will attend class to learn about work place ethics, professional development and leadership skills through a Jewish Studies lens. Interns will be supervised by the faculty member of record as well as the employer housing the intern.
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: Prerequisites HEBR 2350 or JWST 2350 or HIST 1818 or JWST 1818 or HIST 1828 or JWST 1828.

JWST 4000 (1-3) Capstone in Jewish Studies
Serves as the final product for students completing the major in Jewish Studies. Students will design a project under the supervision of a mentor that serves as the summation of their past work in Jewish Studies. Capstone projects can take the form of a thesis, film or another media. Instructor consent required for JWST minors.
Requisites: Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Jewish Studies (JWST) BA majors only. Excludes JWST minors.

JWST 4050 (3) Anthropology of Jews and Judaism
Explores topics in Jewish anthropology. Uses the lens of anthropological inquiry to explore, discover and analyze different concepts within Jewish culture. Topics explored will include customs, religious practices, languages, ethnic and regional subdivisions, occupations, social composition, and folklore. Explores fundamental questions about the definition of Jewish identity, practices and communities.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4050
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4101 (3) Topics in Hebrew Studies
Explores topics in Hebrew and Jewish literature and cultures. These may include topics such as diasporic literatures, Jewish artists and thinkers, courses on specific authors, figures or communities. Topics change each semester. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: HEBR 4101
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4122 (3) Music in Jewish Culture
Introduces students to a wide range of musical styles, traditions, genres, performers, composers, events and works that are part of Jewish culture, focusing on the twentieth and twenty-first centuries. Provides tools for understanding music on its own and in connection with issues of identity, diaspora, memory and liturgy. Includes opportunities for creative and critical engagement with Jewish music.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 4122
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4170 (3) God and Politics
Explores the relationship between religion and politics. Examining traditions such as Judaism and Christianity, this course considers diverse ways in which ancient, medieval and modern sources have imagined the role of religion in civic life. Some topics include the status of religious minorities, the nature of religious freedom and contemporary debates surrounding issues such as torture, sexuality and climate change.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4170 and RLST 5170
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4180 (3) Is God Dead?
Explores debates about the following questions: does it make sense to believe in God? Should believing or not believing in God make a difference for how individuals behave? Examining ancient and modern views on the existence and nature of a higher power, this course considers topics including evil and suffering, religion and science and religion's role in politics.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4180 and RLST 5180
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4190 (3) Love and Desire
Explores debates about the following questions: what and whom should humans and gods love, and what role should passions play in religion? Examining traditions such as Judaism and Christianity, this course considers diverse views on topics including religion and sexuality, the promise and perils of loving gods and humans, and the relationship between love, politics, and violence.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4190 and RLST 5190
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4200 (3) Religion and Reproductive Politics in the United States
Focuses primarily on how Protestant, Catholic, and Jewish conversations about sexuality and reproduction have shaped access and attitudes towards reproductive health in the US over the course of the twentieth and twenty-first centuries.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4200, WGST 5200 and JWST 5200
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Arts Sci Gen Ed: Diversity-U.S. Perspective

JWST 4203 (3) Israeli Literature: Exile, Nation, Home
Examines the creation and development of Israeli literature from its pre-State beginnings to the present day, from the writings of immigrants for whom Hebrew was not their mother tongue to a literature written by native Hebrew speakers. Considers texts written by Israeli Jewish and Arab writers and explores how ideas of exile, nation, and home play into the Israeli experience.
Equivalent - Duplicate Degree Credit Not Granted: HEBR 4203
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: Prerequisites ENGL 4677 or JWST 4677 or GRMN 2502 or JWST 2502 or JWST 2551 or WRTG 3020.
Additional Information: Arts Sci Core Curr: Literature and the Arts Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4260 (3) Topics in Judaism
Examines in depth central themes, schools of thought, and movements in Judaism, along with other traditions, across a range of historical periods.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4260 and RLST 5260
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4301 (3) Venice: The Cradle of European Jewish Culture
Explores the development of European Jewish culture from the late Middle Ages to the present by focusing on Jewish life in the city of Venice, Italy. Emphasis is on the development of Venetian print culture and emergence of Italy as a center of Jewish publishing in both the religious and secular world. Examines a variety of cultural and historical material including early printings of the Talmud, the creation of Yiddish popular literature, Hebrew rabbinic literature, responses to political turmoil, and the aftermath of the Nazi genocide. Taught in English. Department enforced prerequisite: HEBR 2350 or JWST 2350 (minimum grade C-).
Equivalent - Duplicate Degree Credit Not Granted: HEBR 4301
Additional Information: Arts Sci Core Curr: Literature and the Arts Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4302 (6) Global Seminar: Justice, Human Rights and Democracy in Israel
Explore the challenges and complexities of justice, democracy and human rights in Israel and the West Bank through field trips, course work and service learning projects with Jerusalem based non-profit organizations. Acquire new knowledge and lived experience on critical issues facing Israelis and Palestinians with the wider scope of Middle East politics.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3520
Recommended: Prerequisites ANTH 4050 or JWST 4050 and IAFS 3600 or JWST 3600.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Asia Content

JWST 4338 (3) History of Modern Israel/Palestine
How did we get to this point? What histories do we need to know to understand the situation of Israelis and Palestinians today? To answer these questions, this course traces the intertwined histories of Israel/Palestine, Israelis and Palestinians from the late Ottoman period to the present. Topics include: nationalism and colonialism, the development of Zionisms, Palestinian nationalism, the Jewish community (Yishuv) under British rule, the founding of the State of Israel, Arab-Israeli and Palestinian-Israeli relations, Israel's minorities, the role of religion in Israel today and changing relationships between the United States, Israel and Palestinians.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4338
Recommended: Prerequisite HIST 1818 or JWST 1818 or HIST 1828 or JWST 1828 or HIST 1308 or JWST 2350 or other course work in Middle Eastern or Jewish History.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4348 (3) Topics in Jewish History
Covers topics in Jewish history from biblical beginnings to present day. Topics vary each semester. Consult the online Schedule Planner for specific topics.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4348
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4358 (3) Childhood in Modern Israel/Palestine
Examines topics relating to History, Jewish Studies and Israel/Palestine studies. Analyzes the history of modern childhood in Israel and Palestine from the 19th century to the present. Themes include agency, work, life cycle and culpability. Topics range from collective parenting on Israeli Kibbutzim, growing up in Ottoman Palestine, to the legal status of stone-throwing Palestinian children. Sources include memoirs, literature, films, monographs and articles.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4358 and JWST 5358 and HIST 5358
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite HIST/JWST 4338 History of Modern Israel/Palestine, this course would give students relevant background on the history of the region, but is not required.

JWST 4378 (3) Jews in and of the Middle East
Examines the modern history and culture of Jewish communities under Islamic rule in the Middle East and North Africa; Jews' and Muslims' encounters with empire, westernization and nationalism; representations of Sephardi and Eastern Jews; Jewish-Muslim relations in Europe and the U.S.; and contact and conflict between Jews and Muslims in (and about) Israel/Palestine. Sources include memoirs, diaries, newspapers and films.
Equivalent - Duplicate Degree Credit Not Granted: HIST 5378, JWST 5378, and HIST 4378
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

JWST 4388 (3) History Today: Global Intensive in Israel/Palestine
This global intensive analyzes history, memory and nationalism in one of the areas where the relationship between these three categories is the most fraught: Israel/Palestine. After learning the historical background to the Arab/Israeli and Palestinian conflict in Boulder, students will visit Israel and the West Bank/Occupied Territories/Judea and Samaria. Through this course, students will gain a nuanced, multi-sided perspective of Israel, Palestine and the uses of history and memory.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4388
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4454 (3) Jewish Thought in Modern History
Takes students on a journey from Medieval Spain to contemporary United States to explore how Jews, living in different societies, have attempted to reshape and interpret central Jewish values and beliefs in accordance with the prevailing ideas of their host societies. Focuses on the historical context of each Jewish society that produced the thinkers and ideas considered in this course.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4454
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4524 (3) Expulsions and Diasporas: The Jews of Spain and Portugal
Considers the experience of Jews and converses during the Spanish Inquisition and the Iberian expulsions of the 1490s. Sephardic refugees faced social, economic, and political upheavals in the decades after their exile, leading to new communities in settings as diverse as North Africa, India, Turkey, the Caribbean, and the Americas. The study of texts and traditions from the Sephardic diaspora will explore themes including forced conversion, rabbinic authority, colonialism, and mercantile networks. Previously offered as a special topics course.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4524
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4554 (3) Researching European Jewish Life
This upper-level hybrid class is a research and learning initiative of CU Boulder¿s History Department with the Department of History, Philosophy, and Jewish Studies at the Open University of Israel and the Center for Research in Antisemitism at the Technical University of Berlin, Germany. It revolves around an in-person research seminar in Europe. Topics will vary, beginning with a focus on egodocuments in the study of twentieth-century German Jewish life.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4554 and HIST 5554
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only. Restricted to students who have taken either HIST/JWST 1828, HIST/JWST/RLST 1830, HIST 4423, HIST 4433 or GRMN 2301; or by permission of instructor.

JWST 4580 (3) The Holocaust: An Anthropological Perspective
Focuses on the Holocaust during the Third Reich, which involved the murder of millions of people, including six million Jews. Reviews the Holocaust's history, dynamics and consequences as well as other genocides of the 20th century, using an anthropological approach.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4580
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4677 (3) Jewish-American Literature
This course explores a variety of Jewish-American literary works from the late-nineteenth century to the present, from Abraham Cahan to Philip Roth to Cynthia Ozick. We examine a number of issues, including what a Jewish-American writer is or is not, what role the immigrant experience plays in Jewish writing, how assimilation is represented, how this literature changes over time, what the significance is of gender roles, and how it draws from spiritual and mystical traditions. Formerly ENGL 3677.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 4677
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

JWST 4800 (3) Ethics, Medicine and the Holocaust: Legacies in Health and Society
Engages the disturbing fact that German health care professionals actively participated in the architecture and machinery of the Third Reich; explores the implications of these facts for contemporary health care ethics; expands beyond the Holocaust to consider the ramifications for our understanding of the problem of evil in general.
Equivalent - Duplicate Degree Credit Not Granted: JWST 5800
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4837 (3) Jews in the American West
Explores the history of Jewish migration and settlement in the American West. Jewish pioneers in the nineteenth century included explorers, businessmen, and cowgirls that established small communities in territories that had not yet achieved statehood. As westward expansion progressed, Jews continued to find opportunity in the West, balancing assimilation with unique expressions of religious identity. The history of communal institutions including synagogues, hospitals and summer camps offers new perspectives on this underrepresented segment of American Jewry.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4837
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

JWST 4900 (1-6) Independent Study in Jewish Studies
Working with a faculty member in Jewish Studies on an independent study research project provides students with an opportunity to learn outside the formal classroom structure, with individual direction from Jewish Studies faculty on a topic of mutual interest not offered in regularly scheduled classes. (Independent study may not be used to substitute for a regular course not being offered in a given term.)
Repeatable: Repeatable for up to 6.00 total credit hours.

Jewish Studies - Bachelor of Arts (BA)

The Bachelor of Arts in Jewish Studies is designed to help students develop the professional skills they need to become engaged global citizens, preparing them to obtain a job after graduation, pursue graduate studies and engage in dialogues about social justice around the world. By studying the world through the lens of Jewish culture, history, literature, society, and thought from a broad, interdisciplinary perspective, our students gain fundamental critical thinking, problem solving and communication skills.

Students pursuing a BA in Jewish studies may choose one of the following two concentrations:

- Culture intensive concentration, in which students will pursue an in-depth study of Jewish culture.
- Foreign language intensive concentration, in which students will obtain advanced language skills in addition to considerable knowledge of Jewish culture.

The major in Jewish studies is open to all students of all backgrounds, Jewish and non-Jewish.

Requirements

General Requirements

In addition to the general requirements of the College of Arts and Sciences, students must complete 36 credit hours of Jewish studies requirements, of which 18 credit hours must be in upper-division (3000- or 4000-level) courses. Of the 18 upper-division credit hours, 12 must be completed on the CU Boulder campus.

A grade of C- or better must be received in all courses used to satisfy the major requirements, with an overall average of 2.00 in the major.

No more than 6 credit hours may be taken in independent study. No pass/fail graded courses may satisfy the 36-credit-hour minimum requirement. No more than 45 credits in JWST may be applied to overall graduation requirements.

For the specific major course requirements, see the Concentration Areas tab.

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major.

Please speak with your advisor for specific recommendations; the following is intended to be a general outline only and there may be flexibility to this plan. To maintain adequate progress in Jewish studies, students should meet the following requirements:

- Declare the major by the beginning of the second semester of freshman year.
- Chose to pursue either the culture intensive concentration or the foreign language intensive concentration.
- For students pursuing the foreign language intensive concentration, have language study approved by Jewish Studies' Director of Undergraduate Studies by the beginning of the first semester of freshman year. Enroll in beginning language course (or language level applicable) during the first semester of freshman year.
- Enroll in JWST 2350/GSLL 2350 the second semester of freshman year.
- Each semester, complete two Jewish studies courses.
- The last spring semester in residence, complete the Capstone in Jewish Studies (JWST 4000).

Concentration Areas

Students pursuing a BA in Jewish studies may choose one of the following two concentrations: culture intensive or foreign language intensive.

Culture Intensive Concentration

Code	Title	Credit Hours
Required Courses		**6**
JWST/GSLL 2350	Introduction to Jewish Culture	
JWST 4000	Capstone in Jewish Studies (Senior Capstone)	
Fundamental Jewish Studies Requirements [1]		
Select at least two of the following courses, all courses are highly recommended:		6
JWST/HIST/RLST 1818	Jewish History to 1492	
JWST/HIST/RLST 1828	Jewish History Since 1492	
JWST/GSLL 2551	Modern Jewish Literature	
JWST/RLST 3100	Judaism	
JWST/IAFS/GSLL 3600	Contemporary Jewish Societies	
Literature, Culture, and the Arts [2]		
Select at least two of the following courses		6
JWST/GSLL 2551	Modern Jewish Literature	
JWST/RLST 3110	Of Jewish Legends, Folktales and the Supernatural	
JWST 3120	Radical Jews	
JWST/ENGL 3310	The Bible as Literature	
JWST/GSLL 3401	The Heart of Europe: Filmmakers and Writers in 20th Century Central Europe	
JWST/GRMN 3501	The German-Jewish Experience: From the Enlightenment to the Present	
JWST 3820	Topics in Jewish Studies	
JWST 4101	Topics in Hebrew Studies	
JWST/MUSC 4122	Music in Jewish Culture	
JWST 4203	Israeli Literature: Exile, Nation, Home	
JWST/HIST 4544		
JWST/ENGL 4677	Jewish-American Literature	
JWST 4900	Independent Study in Jewish Studies (On topic relevant to Literature, Culture, and the Arts)	
HUMN/GRMN 2601	Kafka and the Kafkaesque [3]	
History, Politics, and Religion		
Select at least two of the following courses		6
FYSM 1000	First Year Seminar (God) [4]	
JWST 1234/ ENGL 1340	Mysticism and the Jewish American Literary Tradition	
JWST/HIST/RLST 1818	Jewish History to 1492	
JWST/HIST/RLST 1828	Jewish History Since 1492	
JWST/HIST/RLST 1830	Global History of Holocaust and Genocide	
JWST/RLST 1900	Introduction to the Hebrew Bible/Old Testament	
JWST/RLST 1910	Introduction to the New Testament	
JWST/GRMN 2502	Representing the Holocaust	
JWST/RLST 2600	Judaism, Christianity, and Islam: Abrahamic Religions	
JWST/RLST 3100	Judaism	
JWST/RLST 3150	Jerusalem: The Holy City in History, Legend, and Religious Thought	
JWST/WGST 3200	Religion and Feminist Thought	
JWST/RLST 3202/ WGST 3201	Women, Gender & Sexuality in Jewish Texts & Traditions	
JWST/IAFS/RLST 3530	Global Seminar: Jews and Muslims - The Multiethnic History of Istanbul

JWST/IAFS 3610	Topics in International Affairs and Jewish Studies	
JWST/IAFS 3650	History of Arab-Israeli Conflict	
JWST 3681	Refugees in German Culture	
JWST 3930	Internship in Jewish Studies	
JWST/ANTH 4050	Anthropology of Jews and Judaism	
JWST/RLST 4170	God and Politics	
JWST/RLST 4180	Is God Dead?	
JWST/RLST 4190	Love and Desire	
JWST 4200	Religion and Reproductive Politics in the United States	
JWST/RLST 4260	Topics in Judaism	
JWST 4301	Venice: The Cradle of European Jewish Culture	
JWST 4302/ IAFS 3520	Global Seminar: Justice, Human Rights and Democracy in Israel	
JWST/HIST 4338	History of Modern Israel/Palestine	
JWST/HIST 4348	Topics in Jewish History	
JWST 4388	History Today: Global Intensive in Israel/ Palestine	
JWST/HIST 4378	Jews in and of the Middle East	
JWST/HIST 4454	Jewish Thought in Modern History	
JWST 4524	Expulsions and Diasporas: The Jews of Spain and Portugal	
JWST/HIST 4534		
JWST/ANTH 4580	The Holocaust: An Anthropological Perspective	
JWST 4800	Ethics, Medicine and the Holocaust: Legacies in Health and Society	
JWST/HIST 4827		
JWST/HIST 4837	Jews in the American West	
JWST 4900	Independent Study in Jewish Studies (On topic relevant to History, Religion, and Politics)	
WRTG 3020	Topics in Writing (After the Holocaust) [4]	

Electives (12 credit hours from the courses listed above not used to fulfill a requirement listed above) [3]	**12**
Auxiliary Courses (Optional) (maximum of 6 credit hours)	
Auxiliary courses are courses from outside the Program in Jewish Studies which may count toward a Jewish Studies major. For all auxiliary courses, all final projects must be approved for the Jewish Studies major by the Director of Undergraduate Studies for the Program in Jewish Studies. A current list of auxiliary courses eligible to be counted towards the Jewish Studies major can be found on the Program in Jewish Studies website.	
Total Credit Hours	**36**

Foreign Language Intensive Concentration

Code	Title	Credit Hours
Required Courses		**6**
JWST/GSLL 2350	Introduction to Jewish Culture	
JWST 4000	Capstone in Jewish Studies (Senior Capstone)	
Language Requirement		
Three years of university level language training or demonstrated equivalent proficiency in Hebrew (modern or Biblical) or another language that is to be used in the Jewish Studies capstone project (JWST 4000). Examples include Russian, French, German, Arabic or Spanish. Language must be approved by the Director of Undergraduate Studies for the Program in Jewish Studies.		0-12
Fundamental Jewish Studies Requirements [1]		
Select at least two of the following courses, all courses are highly recommended:		6
JWST/HIST/RLST 1818	Jewish History to 1492	
JWST/HIST/RLST 1828	Jewish History Since 1492	
JWST/GSLL 2551	Modern Jewish Literature	
JWST/RLST 3100	Judaism	
JWST/IAFS/GSLL 3600	Contemporary Jewish Societies	
Optional but highly recommended:		
JWST 3930	Internship in Jewish Studies	
Additional Requirements		
12–24 remaining credit hours, of which at least eight must be upper division (3000-4000 level), taken from among the following list or other courses by approval of major advisor:		12-24
Lower Division: [2]		
FYSM 1000	First Year Seminar (God) [4]	
JWST 1234/ ENGL 1340	Mysticism and the Jewish American Literary Tradition	
JWST/HIST/RLST 1830	Global History of Holocaust and Genocide

WRTG 3020	Topics in Writing (After the Holocaust) [4]

Auxiliary Courses (Optional) (maximum of 6 credit hours)

Auxiliary courses are courses from outside the Program in Jewish Studies which may count toward a Jewish Studies major. For all auxiliary courses, all final projects must be approved for the Jewish Studies major by the Director of Undergraduate Studies for the Program in Jewish Studies. A current list of auxiliary courses eligible to be counted towards the Jewish Studies major can be found on the Program in Jewish Studies website.

Total Credit Hours **36**

1 Additional Fundamental Jewish Studies Requirement courses can be taken to fulfill another major requirement where allowed.

2 For students pursuing the Culture Intensive Concentration, language courses may count as electives, but they do not count for Literature, Culture, and the Arts.

3 Not subject to the 6 credit hours limit on Auxiliary courses from outside Jewish Studies.

4 Electives can come from JWST, HEBR, or a range of other departments.

5 For student pursuing the Language Intensive Concentration, the first three semesters of modern Hebrew (or any equivalent language being used in the required capstone course JWST 4000) do not count as credit hours toward the major.

Recommended Four-Year Plan of Study

Culture Intensive Concentration

Through the required coursework for this track of the major, students will complete all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement as well as one component of the Gen Ed Diversity Requirement and may complete some of the Social Sciences area of the Gen Ed Distribution Requirement.

Year One

Fall Semester	**Credit Hours**
JWST Fundamental Jewish Studies course	3
Gen. Ed. Skills course (example: Lower-division Written Communication)	3

Credit Hours	**15**
Total Credit Hours	**120**

Foreign Language Intensive Concentration

Through the required coursework for this track of the major, students will complete all 12 credit hours of the Arts & Humanities area of the Gen Ed Distribution Requirement as well as one category of the Gen Ed Diversity Requirement and may complete some of the Social Sciences area of the Gen Ed Distribution Requirement.

Year One

Fall Semester		**Credit Hours**
Fundamental Jewish Studies course		3
Beginning Foreign Language 1 (If needed; does not count toward JWST language required. Choices are Hebrew, Russian, German, French, Arabic, or Spanish)		3
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Gen. Ed. Distribution course (example: Social Sciences)		3
Elective or MAPS		3
Credit Hours		**15**
Spring Semester		
JWST 2350	Introduction to Jewish Culture	3
Beginning Foreign Language 2 (If needed; does not count towards JWST language requirement. Choices are: Hebrew, Russian, German, French, Arabic, or Spanish)		3
Gen. Ed. Skills course (example: QRMS)		3
Gen. Ed. Distribution course (example: Natural Sciences with Lab)		4
Elective or MAPS (If needed)		3
Credit Hours		**16**

Year Two

Fall Semester	
Fundamental Jewish Studies course	3
Intermediate Foreign Language 1 (If needed; does not count toards JWST language requirement. Choices are: Herew, Russian, German, French, Arabic, or Spanish)	3-5
Gen. Ed. Distribution course (example: Natural Sciences)	3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)	3
Free Elective	2
Credit Hours	**14-16**
Spring Semester	
JWST Literature, Culture, and the Arts course	3
Intermediate Foreign Language 2	3-5
Gen. Ed. Distribution course (example: Natural Sciences)	3
Gen. Ed. Distribution course (example: Social Sciences)	1
Free Elective	2
Free Elective	3
Credit Hours	**15-17**

Year Three

Fall Semester	
JWST Elective Upper Division	3
Advanced Foreign Language 1	3
Gen. Ed. Skills course (example: Upper-division Written Communication)	3
Gen. Ed. Distribution course (example: Natural Sciences)	3
Upper-Division Elective	3
Credit Hours	**15**
Spring Semester	
JWST 3930 Internship in Jewish Studies (optional but encouraged)	3

Gen. Ed. Distribution course (example: Social Sciences)	3
Upper-Division Elective	3
Elective or Upper-division Elective (if needed)	3
Credit Hours	**15**

Year Four

Fall Semester	
JWST Upper-Division Elective	3
Upper-Division Elective	3
Upper-Division Elective	3
Upper-Division Elective	3
Elective	3
Credit Hours	**15**
Spring Semester	
JWST 4000 Capstone in Jewish Studies	3
JWST Upper-Division Elective	3
Upper-Division Elective	3
Upper-Division Elective	3
Elective	3
Credit Hours	**15**
Total Credit Hours	**120-124**

Learning Outcomes

An undergraduate degree in Jewish Studies emphasizes knowledge and awareness of:

- The history of global Jewish communities over time, including the history of Israel and Palestine, biblical and medieval Jewish history, history of Jewish communities in the Mediterranean, the history of the Holocaust and post-Holocaust American Judaism.
- Dimensions of Jewish culture across variant Jewish communities, including differences in Jewish cultural practices, Jewish music and film, and Jewish philosophies, religious practices, mysticisms and thought.
- Jewish literature from the biblical period to the present, including Israeli literature, the Hebrew origins of western civilization and contemporary Jewish literature.
- Global languages of the Jewish people, including Hebrew, Arabic, Spanish, French, Italian, Russian, German, Ladino and others (for students pursuing the foreign language intensive concentration).

In addition, it is expected that through a degree in Jewish Studies:

- History Diversity: Demonstrate the ability to think critically about the historical and global diversity of Jewish cultures, religion, practice and thought.
- Interdisciplinary Perspectives: Demonstrate the ability to analyze a wide range of contemporary and historical events, structures and movements using perspectives drawn from fields including (among others) history, women and gender studies, religious studies, literary studies and the arts.
- Critical Analysis: Demonstrate the ability to analyze how power and privilege function in Jewish history, cultures, religion, practice, language, music, and thought, exploring the intersection of gender, sexuality, race, class, ability, nationality and colonialism.
- Synthesis Presentation Skills: Communicate, both orally and in written assignments, complex ideas from the field of Jewish Studies to academic and general audiences through capstone projects, research opportunities, archives and an internship.
- Colloquium Scholarly Discourse: Work collaboratively to implement, and organize around, a range of theoretical and methodological perspectives used in Jewish studies.

Hebrew and Israel Studies - Minor

A minor is offered in Hebrew and Israel studies. Any student enrolled at CU Boulder, regardless of college or school, may declare a minor in Hebrew and Israel studies.

The minor in Hebrew and Israel studies focuses on developing a student's Hebrew language skills while exploring a variety of courses on issues related to Israel and the Middle East. This minor is ideal for students who are interested in pursuing an international career or study in the Middle East.

The minor in Hebrew & Israel studies is open to all students of all backgrounds, Jewish and non-Jewish.

For more information, visit the Minor in Hebrew and Israel Studies (http://www.colorado.edu/jewishstudies/academics/majors-minors-jewish-studies/minor-hebrew-israel-studies/) website.

Requirements

Students must complete 19 credit hours of Hebrew language courses and content courses focusing on Israeli and/or the Middle East. Of these 19 credit hours, 9 must be in upper-division courses. All coursework applied to the minor must be completed with a grade of C- or better. No pass/fail work may be applied. The GPA for all minor coursework must equal 2.00 or higher. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

Required Courses and Credits

Code	Title	Credit Hours
Language Requirement		
Modern Hebrew Language (10 credit hours minimum above the 2010 Intermediate Hebrew level):		10
HEBR 2120	Intermediate Modern Hebrew, Second Semester	
HEBR 3010	Third Year Modern Hebrew, First Semester	
HEBR 3020	Third Year Modern Hebrew, Second Semester	
Required Course		**3**
JWST/GSLL 2350	Introduction to Jewish Culture	
Additional Requirements		
Select two of the following Hebrew/Israel Studies courses (one of which must be upper-division): [1]		6
JWST 2600	Judaism, Christianity, and Islam: Abrahamic Religions	
JWST 3150	Jerusalem: The Holy City in History, Legend, and Religious Thought	
JWST/IAFS 3650	History of Arab-Israeli Conflict	
JWST/ANTH 4050	Anthropology of Jews and Judaism (Cultures of Israel and Palestine)	
JWST/HEBR 4101	Topics in Hebrew Studies	
JWST 4203	Israeli Literature: Exile, Nation, Home	
JWST 4302/ IAFS 3520	Global Seminar: Justice, Human Rights and Democracy in Israel	
JWST/HIST 4338	History of Modern Israel/Palestine	
JWST/HIST 4348	Topics in Jewish History (Childhood in Modern Israel/Palestine)	
JWST/HIST 4348	Topics in Jewish History (Tel Aviv: Urban History and Culture)	
JWST 4388	History Today: Nationalism & Collective Memory in Israel/Palestine	
Total Credit Hours		**19**

[1] Or a course approved by the faculty advisor.

Jewish Studies - Minor

The minor in Jewish studies is designed to help students develop a unique, interdisciplinary perspective and build their critical thinking skills by exploring the world through the lens of Jewish studies. Because the program in Jewish studies is inherently interdisciplinary, many students are easily able to fulfill Jewish studies minor requirements while simultaneously completing requirements for their major.

The minor in Jewish studies is open to all students of all backgrounds, Jewish and non-Jewish.

Requirements

Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school. Students must complete 18 credit hours in Jewish studies courses, of which 12 credit hours must be upper division (3000/4000). All coursework applied to the minor must be completed with a grade of C- or better (no pass/fail work may be applied). The GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

For more information, visit the program's Minor in Jewish Studies (http://www.colorado.edu/jewishstudies/undergraduates/major-minors-jewish-studies/minor-jewish-studies/) webpage.

Required Courses and Credits

Code	Title	Credit Hours
Required Course		**3**
JWST/GSLL 2350	Introduction to Jewish Culture	
Additional Requirements

Latin American and Latinx Studies

The Latin American and Latinx Studies Center provides an institutional space to support and advance research, teaching and discussion on Latin American and Latinx issues at the University of Colorado Boulder. The center brings together CU faculty, graduate and undergraduate students, and visiting scholars interested in Latin American and Latinx issues

and recognizes the diversity of their interests and approaches. Center courses provide support for research and teaching in these areas and strengthens connections with Latin America and Latinx communities in the United States. The Latin American and Latinx Studies Center offers an undergraduate certificate program in Latin American and Latinx Studies.

For more information, visit the department's undergraduate certificate program (https://www.colorado.edu/lasc/undergraduate-certificate-latin-american-and-latinx-studies/) webpage.

Course code for this program is LAMS.

Certificate

- Latin American and Latinx Studies - Certificate (p. 459)

Courses

LAMS 1000 (3) Introduction to Latin American and Latinx Studies
Focuses on the main topics of Latin American and Latinx Studies, exploring them through interdisciplinary approaches. Core course of the Latin American and Latinx Studies Certificate.
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective Arts Sci Gen Ed: Distribution-Social Sciences

LAMS 3100 (3) Travel, Science and Adventure
Focuses on the expeditions of the most important scientific travelers in Ecuador during the 18th and 19th centuries: French mathematician Charles-Marie La Condamine, German naturalist Alexander von Humboldt and English naturalist Charles Darwin. In Ecuador, La Condamine proved the shape of the Earth, Humboldt designed the theory of ecosystems and their interconnections, and Darwin found evidence of evolution in the Galapagos. These travelers made important observations about Ecuador¿s nature, society, and history.
Grading Basis: Letter Grade

LAMS 3930 (3) Internship in Latin American and Latinx Studies
Provides an academically supervised opportunity for student to work in public and private organizations on projects related to Latin American and Latinx Studies. Students must relate their academic experience to their field work experience though a portfolio and a final paper. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: it is recommended for students to be enrolled in LALSC certificate, but it is not a requirement.

LAMS 4854 (1-3) Independent Study
Work with an approved faculty sponsor to explore a topic in greater depth. Instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: Prerequisite LAMS 1000 (minimum grade D-).

QUEC 1010 (4) Beginning Quechua 1
The course focuses on the development of written and oral communicative abilities in the Southern variety of Quechua through an interactive activity-based approach. Course includes an introduction to Andean Culture, and foundations on the sociocultural history of Quechua. Quechua is the most widely spoken indigenous language in South America, with an estimated 8-10 million speakers in Peru, Bolivia and Ecuador, Chile, Colombia, and Argentina. But decades of migration have brought Quechua to coastal cities and abroad, like New York, New Jersey and Chicago. Formerly LAMS 1010.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

QUEC 1020 (4) Beginning Quechua 2
This course continues the study of the Southern variety of Quechua in Beginning Quechua 1. Quechua is the most widely spoken indigenous language in South America, with an estimated 8-10 million speakers in Peru, Bolivia and Ecuador, Chile, Colombia, and Argentina. Quechua is associated with people living in the Andes. But decades of migration have brought Quechua to coastal cities and abroad, like New York, New Jersey and Chicago. Quechua is more than a spoken language. Studying Quechua also provides a window into a rich indigenous culture, and alternative perspectives about space and time, family, relationships, society, and the natural world. Formerly LAMS 1020.
Recommended: Prerequisite QUEC 1010 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

QUEC 2010 (4) Intermediate Quechua 1
This course continues the study of the Southern variety of Quechua in Beginning Quechua 2. Quechua is the most widely spoken indigenous language in South America, with an estimated 8-10 million speakers in Peru, Bolivia and Ecuador, Chile, Colombia, and Argentina. Quechua is associated with people living in the Andes. But decades of migration have brought Quechua to coastal cities and abroad, like New York, New Jersey and Chicago. Quechua is more than a spoken language. Studying Quechua also provides a window into a rich indigenous culture, and alternative perspectives about space and time, family, relationships, society, and the natural world.
Recommended: Prerequisite QUEC 1020 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Latin American and Latinx Studies - Certificate

The certificate in Latin American and Latinx[1] Studies trains future professionals to better serve the growing Latinx population of the country and the state.

It enhances the knowledge on the region to work in and with relation to Latin America in a wide range of disciplines and professions by:

- Understanding the historical, economic and political relation of Latin America and the US.
- Having familiarity with social, cultural, political and economic developments in a historical context.
- Learning about the commonalities and differences inside Latin America and between Latin American and Latinx cultures.
- Understanding changing and contested constructions of identities among the diverse peoples of the region.
- Learning about Latinx history and culture.
- Understanding migrations in the Americas, not only to the US but also inside Latin American countries and to other countries in the world.

[1] The term *Latinx* is used to connote a commitment to be inclusive of gender non-conforming identities, to challenge the gender binaries inherent in the Spanish language and to reflect the cutting edge of the fields traditionally called Chicano Studies and U.S. Latino studies.

Requirements

Students are required to complete 18 credit of approved coursework, including a core course and electives as noted in the course list below.

Students must complete 9 credit hours at the upper-division level and a minimum of 12 credit hours must be taken on the CU Boulder campus. No more than 9 credits may be in the student's major or minor.

Although not mandatory, students are strongly encouraged to acquire an intermediate level of language proficiency in Quechua, Spanish or Portuguese.

ETHN 4001	Screening Race, Class & Gender in the U.S. and the Global Borderland
ETHN 4006	Chicana/Chicano Native American Cultures of the U.S.
ETHN 4116	Spoken Word Latinx Poetics and Poetry
ETHN 4106	Special Topics in Chicana and Chicano Studies
ETHN 4306	The Chicana and Chicano and U.S. Social Systems
History	
HIST 4527	Mexican-American History since 1848
Political Science	
PSCI 4131	Latinos and the U.S. Political System
Sociology	
SOCY 2091	Topics in Sociology
Women and Gender Studies	
WGST 3600	Latina/x Studies
Total Credit Hours	**18**

1 Only when taught with emphasis in Latinx or Chicana/o studies.

2 One course can be used both to fill the Latinx requirement and to count as 3 credits in either the Arts and Humanities or Social Sciences requirement. In that case a student would have to take an additional approved Certificate Elective course from any of the above categories to bring their total credits in the certificate to 18.

Lesbian, Gay, Bisexual, Transgender and Queer Studies

The Lesbian, Gay, Bisexual, Transgender and Queer Studies certificate program is designed to help students develop a social, historical and cross-cultural understanding of gender and sexuality. By exploring the historical and contemporary experiences of lesbians, gay men, bisexuals and transgender people, the courses in the program encourage students to think critically about the function of sexuality and gender in the world around them. In doing so, students will be able to analyze the relationships between queer and normative sexualities and gender identities.

By developing an understanding of diverse sexual and gender identities, certificate program students are able to analyze gender and sexuality in a broad range of historical and contemporary institutions and societies.

Open to degree-seeking undergraduate students enrolled at the university, this interdisciplinary program consists of two required courses and elective courses offered by different departments.

For more information, visit the LGBTQ Studies Certificate (https://www.colorado.edu/lgbtq/certificate/) webpage.

Course code for this program is LGBT.

Certificate

- LGBTQ Studies - Certificate (p. 462)

Courses

LGBT 2000 (3) Introduction to Lesbian, Gay, Bisexual, and Transgender Studies
Investigates the social and historical meanings of racial, gender, and sexual identities and their relationship to contemporary lesbian, bisexual, gay, and transgender communities.
Equivalent - Duplicate Degree Credit Not Granted: WGST 2030
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

LGBT 2707 (3) Introduction to Queer Literature
How is literature shaped by cultural understandings of queer and non-normative genders and sexualities? How does it, in turn, shape those understandings? This class explores how genders, sexualities, and writing intersect with issues of race, class, nation, ability, and empire. Readings may include novels, short stories, poetry, graphic novels, films, essays, blogs, and more.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 2707
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

LGBT 3710 (3) Topics in LGBT Studies
Content varies by semester and reflects contemporary issues in the field of LGBT Studies.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

LGBT 3796 (3) Queer Theory
Surveys theoretical, critical, and historical writings in the context of lesbian, bisexual, transgender and gay literature. Examines relationships among aesthetic, cultural and political agendas, and literary and visual texts of the 20th century.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 3796
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

LGBT 3930 (1-6) Lesbian, Gay, Bisexual, Transgender, and Queer Studies Internship
Matches selected students with supervised internships in university programs and advocacy groups, local businesses, human service or government agencies. Internships will focus on lesbian, gay, bisexual, transgender or queer issues, such as anti-violence programs, educational outreach, and civil rights initiatives.
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: Prerequisite LGBT 2000.

LGBT 4287 (3) Special Topics in Queer Literature
This course will focus on a special topic in queer literature and non-normative genders and sexualities. Students will consider how literature reflects and represents understandings of sexuality, gender, desire, and more; the course may engage a variety of genres. Topics vary by semester. Check department description for details.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 4287 and WGST 4287
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

LGBT 4400 (3) Critical Inquiries in Transgender Studies
Examines theories, methods and debates in the emerging field of transgender studies. Drawing on interdisciplinary perspectives, this course examines transgender identities, communities and political movements in different historical and cultural contexts. Focuses on crosscutting issues that shape transgender subjectivities, with special attention given to how transgender movements negotiate race, class, sexuality, labor, culture and nation.
Equivalent - Duplicate Degree Credit Not Granted: LGBT 5400 and WGST 4400 and WGST 5400
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Arts Sci Gen Ed: Distribution-Social Sciences

LGBT 4840 (1-6) Independent Study in LGBTQ Studies
Self-directed research project in LGBTQ studies supervised by a faculty member and approved by one of the Co-Directors of the LGBT Studies Certificate Program.
Repeatable: Repeatable for up to 6.00 total credit hours.

LGBTQ Studies - Certificate

Lesbian, Gay, Bisexual, Transgender and Queer (LGBTQ) studies at CU Boulder is an undergraduate interdisciplinary program encompassing more than 30 courses in a dozen departments. The program offers coursework, programming and internship opportunities for students looking to explore queer and trans issues through an intersectional lens.

LGBTQ studies involves the academic investigation of sexuality in established fields such as literature, history, theatre, law, medicine, economics, sociology, anthropology, political science and the arts. With its interdisciplinary approach, LGBTQ studies interweaves complex theories and analysis into the study of sexuality and gender.

Through the certificate program and the guidance of faculty advisors, students are given an opportunity to integrate a wide variety of courses, internships, and programming in order to deepen their understanding of sexuality and gender in their academic, professional and personal lives.

For more details including application instructions, visit the LGBTQ Studies Certificate (http://www.colorado.edu/lgbtq/certificate/) webpage or email lgbt@colorado.edu.

Note: This program is closed to new students as of Fall 2026. Prospective students may also wish to consider the Queer and Trans Studies minor (p. 645).

Requirements

Completion of the certificate in LGBTQ studies requires the completion of 18 credit hours (9 upper-division) of approved courses with grades of C- or better.

Required Courses and Credit Hours

Code	Title	Credit Hours
Required Courses		
LGBT 2000	Introduction to Lesbian, Gay, Bisexual, and Transgender Studies	3
LGBT 3796	Queer Theory	3
Electives		
Twelve credit hours of approved elective courses, with at least 6 credit hours of upper-division electives [1]		12
Total Credit Hours		**18**

[1] Up to six credit hours of independent study may be applied toward the certificate program.

Credits earned at other institutions may be transferred in partial fulfillment of the requirements upon approval of the program director. No more than 6 credit hours of transferred coursework may be applied to the certificate.

Students are encouraged to meet with the program directors early in their course of study and again in the semester prior to the semester of graduation, to ensure that program requirements are met.

Available elective courses are listed each semester under the "Courses" tab of the program (http://www.colorado.edu/lgbtq/) website.

Linguistics

Linguistics is the study of all aspects of human language: how languages make it possible to express ideas and feelings; how and why languages are similar and different; how we develop different styles and dialects; what will be required for computers to understand and produce spoken language; and how languages are used in everyday communication as well as in formal settings. Linguists try to figure out what it is that speakers know and do by observing the structure of languages, the way children learn language, slips of the tongue, conversations, storytelling, the acoustics of sound waves and the way people's brains react when they hear speech or read. Linguists also reconstruct prehistoric

languages, and try to deduce the principles behind their evolution into the thousands of languages of the world today.

The major in linguistics is useful for careers involving cognitive science, computer science, psychology, international business, language teaching, advertising, publishing, law, technical writing and social media analytics. Double majors and minors are encouraged to take coursework on specific languages, computer science, psychology, communication, sociology, anthropology, international affairs, philosophy, education, and speech, language and hearing sciences.

The core of the major is a set of courses, taught in the Department of Linguistics, on the nature of language. In addition, the major requires language courses offered by other departments (fluent speakers of languages other than English are excepted from this requirement).

The undergraduate degree in linguistics emphasizes knowledge and awareness of:

- The fundamental architecture of language in the domains of phonetics and phonology, morphology and syntax, and semantics and pragmatics;
- The diversity of language structures and how languages change over historic time;
- The major interactions among language, culture and society, including the role of language in the promulgation of cultural values and social categories, the relationship between language and ideology, and the social functions of language variation;
- The relationship between language and cognition.

In addition, students completing the degree in linguistics are expected to acquire the ability and skills to:

- Demonstrate proficiency in a second language equivalent to the third-year university level
- Infer language structures from the analysis of data from unfamiliar languages.
- Give coherent general interpretations of common language phenomena in terms of language structure and language use.

Course code for this program is LING.

Study Abroad

Language study and some courses in the major may be completed in university or university-affiliated study abroad programs, and such study is recommended. Students interested in doing part of their major work in a study abroad program should discuss the matter with their advisor before going abroad. For information on study abroad programs, consult the Education Abroad office.

Graduation with Honors

The Honors program in linguistics offers the opportunity for highly motivated undergraduates to undertake a deeper and more individualized study of linguistics than is provided by the regular BA curriculum. Linguistics majors with an overall grade point average of 3.30 or higher are eligible to participate in the program. Honors that may be earned are *cum laude* (with honors), *magna cum laude* (with high honors), and *summa cum laude* (with highest honors).

Students interested in pursuing departmental honors are encouraged to consult with the departmental honors advisor by the beginning of their junior year to ensure that they will be able to meet the requirements for departmental honors before graduation.

Bachelor's Degree

- Linguistics - Bachelor of Arts (BA) (p. 468)

Minors

- Linguistics - Minor (p. 473)
- Teaching English to Speakers of Other Languages - Minor (https://catalog.colorado.edu/undergraduate/colleges-schools/arts-sciences/programs-study/linguistics/teaching-english-speakers-other-languages-certificate/)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Courses

English as a Second Language

ESLG 1130 (2) Pronunciation for International Graduate Students
Designed for international graduate students who want to polish and refine their spoken English skills. The course emphasizes producing increasingly accurate English stress, rhythm and intonation, and vowels and consonants. Students participate in listening and speaking activities targeting specific pronunciation features, prepare recordings, and deliver short presentations related to their field. Students receive weekly individualized feedback.
Requisites: Restricted to International Graduate students.

ESLG 1140 (2) Public Speaking for International Students
Designed for international graduate students to improve oral communication skills for effective academic, professional, and social interactions. Specific attention is given to presenting, explaining and clarifying ideas, negotiating, interrupting, hedging, and responding to questions. Students deliver short formal presentations and impromptu speeches, and lead and participate in group discussions. Students improve active listening skills, non-verbal communication and English pronunciation.
Requisites: Restricted to International Graduate students.

ESLG 1210 (2) Academic Writing for International Graduate Students
Designed for international graduate students who would benefit from academic and professional writing instruction and practice. This course addresses development of paragraphs and full-length papers, reports and proposals. Focus areas include organization and style, grammar and vocabulary, and using source material effectively. Assignments are customized to students' disciplines with extensive instructor feedback to improve fluency, clarity, and accuracy in writing.
Requisites: Restricted to International Graduate students.

ESLG 1222 (2) Advanced Written Composition for Foreign Students
Continued practice in academic writing, including incorporating the ideas of others and citing sources appropriately. Extensive instructor feedback provided. Preparation, writing, and revising of a full-length academic term/research paper or work on chapters for a master's thesis or doctoral dissertation. Does not fulfill humanities or major requirements.
Recommended: Prerequisite ESLG 1210.

ESLG 1410 (3) Integrated Academic English Skills for Undergraduate International Students
Designed for international undergraduate students who want to improve oral and written English communication skills. Students build confidence and accuracy through interactive reading, writing, listening and speaking activities. Students gain insight on U.S. academic culture and conventions by giving short presentations, collaborating on team projects, and writing academic papers using source materials. Course also emphasizes organization, grammar, and vocabulary.
Requisites: Restricted to International Undergraduate students.

Linguistics

LING 1000 (3) Language in U.S. Society
Nontechnical exploration of the ways that language is used in America. Emphasizes language as a social institution and how values and goals of both public institutions and private groups shape and are shaped by language and its use.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
MAPS Course: Social Science

LING 1010 (3) The Study of Words
Study of English words of Latin and Greek origin, focusing on etymological meaning by analysis of component parts (prefixes, bases, suffixes) and on the ways in which words have changed and developed semantically.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 1010
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences

LING 1020 (3) Languages of the World
Explores the issue of human diversity by examining how languages vary around the world. Outlines historical, geographic, and typological classifications of languages across human societies, and the criteria used by linguists for grouping them into language families. Theorizes the relationship between linguistic and cognitive diversity, and considers the impact of language death on humanity. No formal training in linguistics is required.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences

LING 1200 (3) Introduction to Python Programming
Presents techniques for computer programming in high level programming languages such as Python to address a range of problems with a specific focus on language processing and linguistics. The class is suitable for students with little to no prior experience in computing or programming.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 1200 or INFO 1701
Recommended: Prerequisite LING 2000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 1500 (3) Understanding Grammar
Presents fundamentals of grammar in the Western tradition. Emphasizes making concepts and uses of grammar (as exemplified in English and closely related foreign languages) understandable to the nonspecialist.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 1900 (1) Community-Based Learning Practicum: Literacy and Language Learning
Student volunteers act as mentors to literacy and language learners in the Boulder community for 1-2 hours per week. Specific meeting times will be arranged at the beginning of the semester.
Repeatable: Repeatable for up to 3.00 total credit hours.

LING 2000 (3) Introduction to Linguistics
Introduces the study of languages as structural systems. Describes principles of sound patterns, word formation, meaning, and sentence structure. Gives attention to language acquisition, psycholinguistics, language families, dialects, historical change in languages, and different language types.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
MAPS Course: Social Science

LING 2030 (3) The Ancient Roots of Modern Medicine
Students learn the meaning and use of the Greek and Latin roots in modern medical terminology; they gain an appreciation of ancient Roman and Greek medicine history and culture in their relation to the modern practice of Western medicine and the sciences; they become familiar with common ancient bioethical principles that govern the ancient practice of medicine and the sciences and learn to appreciate how these principles inform and influence modern medicine and the sciences.
Equivalent - Duplicate Degree Credit Not Granted: AHUM 2030 and CLAS 2030
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences

LING 2400 (3) Language, Gender and Sexuality
Familiarizes students with the effects of gender and sexuality on language use; discusses popular beliefs and scholarly theories about language and communication. Provides students with tools for exploring the role of language and gender.
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

LING 2500 (3) Race, Ethnicity, and Language
Explores the relationship between race, ethnicity, and language and how they are co-constructed. How do speakers of different racial and ethnic groups use language differently, and what are the social implications of these different language varieties? Discusses the implications of ethnolinguistic variation on racial stereotypes, education, and the law.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 2500
Recommended: Prerequisite LING 1000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

LING 3005 (3) Cognitive Science
Introduces cognitive science, drawing from psychology, philosophy, artificial intelligence, neuroscience, and linguistics. Studies the linguistic relativity hypothesis, consciousness, categorization, linguistic rules, the mind-body problem, nature versus nurture, conceptual structure and metaphor, logic/problem solving and judgment. Emphasizes the nature, implications and limitations of the computational model of mind.
Equivalent - Duplicate Degree Credit Not Granted: INFO 3702 and CSCI 3702 and PHIL 3310 and PSYC 3005 and SLHS 3003 and CSPB 3702
Recommended: Prerequisites two of the following CSCI 1300 or LING 2000 or PHIL 2440 or PSYC 2145.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Social Sciences

LING 3100 (3) Language Sound Structures
Introduces the sounds of languages and their organization into phonological structures.
Requisites: Requires prerequisite of LING 2000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 3185 (3) Figurative Language
Introduces a framework for analyzing the metaphorical systems used to reason about abstract phenomena like emotion, conflict, purpose, relationships, power, causation, time, life and ideation. Explores how new word meanings develop and how meaning is grounded in embodied experience. Investigates how metaphor is distinguished from other common types of figurative language, including irony.
Requisites: Requires prerequisite of LING 2000 (minimum grade C-).
Recommended: Prerequisite or corequisite LING 3430 and junior or senior class standing.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 3200 (3) Academic Oral Communication in English
Designed for undergraduate students who speak English as an additional language, this course improves students' oral communication skills for effective academic interactions in the classroom and within their academic discipline. Specific attention is given to presentation skills; developing, explaining and clarifying ideas; and discussion skills such as interrupting, hedging, and responding to questions. Students deliver formal presentations and impromptu speeches, and lead and participate in group discussions. Students improve active listening skills, non-verbal communication and English pronunciation. This course does not count toward the Linguistics major or minor.
Recommended: this course is restricted to course is restricted to speakers of English as an additional language.
Grading Basis: Letter Grade

LING 3210 (3) English for Academic Purposes
Designed for undergraduate students for whom English is an additional language, this course develops academic English skills for university-level work. Students sharpen English accuracy through academic reading, writing, speaking, and listening practice. They learn to express ideas more clearly, both orally and in writing, while engaging critically in class discussions, and giving presentations, including on a researched topic related to their major. Students improve grammatical accuracy, develop academic vocabulary, and expand critical thinking skills and metacognitive strategies. This course does not count toward the Linguistics major or minor.
Recommended: this course is restricted to students who use English as their additional language.
Grading Basis: Letter Grade

LING 3220 (3) American Indigenous Languages in their Social and Cultural Context
A sampling of the many indigenous languages and cultures found in America. Emphasizes the United States, but also gives attention to the languages of Canada and Latin America.
Recommended: students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

LING 3251 (3) Language in Arab Society
This course introduces the multilingual situation of Arab societies and presents fundamental concepts in sociolinguistics. Students study the major theories and frameworks of language variation and change and the influence of variables such as gender, social class, religion, and colonization on language choice. Students will understand the relationship between language, identity and ideology revealing power dynamics in Arab communities. The course is taught in English and no prior knowledge of Arabic language is required.
Equivalent - Duplicate Degree Credit Not Granted: ARAB 3251
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

LING 3430 (3) Semantics
Theoretical and practical study of meaning in natural language. Considers both semantic theories and semantic phenomena from diverse languages.
Requisites: Requires prerequisite LING 2000 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Linguistic major or minors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 3545 (3) World Language Policies
Examines the economic and sociopolitical impact of choosing English vs. other languages in the U.S. Introduces the study of language policies, rights, and planning in other countries, including the worldwide use of English in social, business, and legal contexts.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-Global Perspective

LING 3550 (3) Talk at Work: Language Use in Institutional Contexts
Provides an overview of language use in various workplace settings, with an emphasis on hands-on data analysis. Possible contexts include 911 emergency calls, doctor-patient consultations, news interviews, customer-service encounters, classroom discourse, and courtroom interaction. The course also discusses language-based inequalities in such contexts, as well as some of the laws and policies that govern language in the workplace.
Recommended: Prerequisite LING 1000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 3800 (3) Special Topics in Linguistics
Intensive study of a selected area or problem in linguistics.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite of LING 2000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 3832 (3) Computational Linguistics
Surveys the fundamental problems, models, and algorithms found and used in the processing of natural language. Computational linguistics is a large field and we will only be able to cover a selection of the vast range of methods employed to solve tasks involving natural language. However, arguably there exists a "core vocabulary" of techniques shared by most practitioners and researchers in the field, which we will focus on.
Requisites: Requires Prerequisite of LING 1200 or CSCI 1200 or CSCI 1300 or INFO 2201 (all minimum grade C-).
Recommended: Prerequisite or corequisite LING 2000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 4050 (3) Japanese Sociolinguistics
Explores issues related to contemporary Japanese language and society, such as language and identity, language and ideology, and language variation and change in Japan. More specifically, we will reconsider topics such as diversity in gender language, honorifics, dialects, and use of English in Japanese society that have been unidirectionally taught in Japanese language classrooms. The course aims to provide students opportunities to incorporate critical perspectives of sociolinguistics into analyses of Japanese literature and Japanese language education.
Equivalent - Duplicate Degree Credit Not Granted: JPNS 4050
Requisites: Requires prerequisite course of JPNS 3110 (minimum grade C).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

LING 4100 (3) Perspectives on Language
Provides extended critical examination of a few selected issues, chosen each term for their general interest and relevance, e.g., the relation between language and thought, or human language vs. animal languages, and computer languages.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite LING 2000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 4200 (3) Introduction to Computational Corpus Linguistics
This course is an Includes extensive introduction (with lab) to the use of Python programming language, UNIX corpus tools, concordance programs, syntactic treebanks, propbanks, and corpora for linguistic analysis and natural language processing. discourse and phonology research. A major focus is the development of computational skills, preparing the student for CSCI 5832 (Natural Language Processing). Previous completion of LING 1200 or CSCI 1300 highly recommended.
Equivalent - Duplicate Degree Credit Not Granted: LING 5200
Recommended: Prerequisite LING 1200.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 4220 (3) Language and Mind
Studies topics such a speech perception, word recognition, sentence comprehension, language acquisition, bilingualism, reading and writing. Examines the role of language as a product and producer of the mind, studying interactions between language and cognition from an interdisciplinary perspective. Students will become familiar with the methods of psycholinguistics and design and conduct a psycholinguistic experiment on their own.
Equivalent - Duplicate Degree Credit Not Granted: PSYC 4220
Recommended: Prerequisites PSYC 1001 and LING 2000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 4225 (4) Interdisciplinary Research Methods in Child Language Acquisition
Explores fundamental issues in language acquisition cross-culturally, combining methods from Linguistics, Anthropology, Psychology and Computer Science. Students will explore theoretical issue using a hands-on approach that involves acquiring skills such as designing and conducting experiments, investigating corpus data, and computational modeling.
Equivalent - Duplicate Degree Credit Not Granted: PSYC 4225
Recommended: Prerequisites PSYC 1001 and LING 2000.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 4420 (3) Morphology and Syntax
Introduces principles of word formation and sentence structure. Covers major morphological and syntactic structures found in the world's languages, and methods for describing grammatical structures, and includes practice in analyzing data from a variety of languages.
Equivalent - Duplicate Degree Credit Not Granted: LING 5420
Requisites: Requires prerequisite course of LING 2000 (minimum grade C-). Restricted to Linguistic (LING) majors or minors with 57-180 credits (Junior or Senior) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 4450 (3) Introduction to Formal Syntax
Introduces formal generative grammar, including determining constituent structure, drawing trees, writing rules, understanding the properties of the lexicon and their interaction with syntax, X-bar theory and its modifications and movement analysis. Recommend pre-req: LING 4420
Requisites: Requires prerequisite of LING 2000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 4560 (3) Language Development
Covers the development of language in childhood and into adult life, emphasizing the role of environment and biological endowment in learning to communicate with words, sentences, and narratives.
Equivalent - Duplicate Degree Credit Not Granted: SLHS 4560 and PSYC 4560
Requisites: Restricted to Linguistics (LING) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 4610 (3) Pedagogical Grammar for Teachers of English to Speakers of Other Languages
Provides an introduction to the study of English grammar from the perspective of the nonnative learner and user of English. The focus is on understanding the form, meaning, and use of grammatical constructions and on how to teach these constructions in an ESL/EFL context.
Equivalent - Duplicate Degree Credit Not Granted: LING 5610
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 4620 (3) Teaching Second Language (L2) Oral Skills and Communication
This course explores pedagogical approaches for developing nonnative speakers' oral English proficiency and communication skills. We explore the practical and theoretical aspects of teaching the macroskills - listening and speaking - as well as related microskills, including pronunciation, fluency, vocabulary, and comprehension. Pedagogical concepts are considered through the lens of various teaching contexts for learners of all ages and backgrounds. Praxis occurs through lesson development and analysis and interactions with language learners in the community. Recommended prerequisite: LING 3100.
Equivalent - Duplicate Degree Credit Not Granted: LING 5620
Recommended: Prerequisite or corequisite LING 4630.

LING 4622 (3) Statistical Analysis for Linguistics
Aims to acquaint students with the fundamentals of quantitative analysis in linguistics and provide a practical introduction to the R statistical computing environment. Topics that will be covered include examining and manipulating data, tests for independence, regression modeling, mixed models, measures of association, and data visualization. It is suitable for students with no prior experience with statistics or statistical software packages.
Equivalent - Duplicate Degree Credit Not Granted: LING 5622
Requisites: Requires prerequisite of LING 2000 (minimum grade C-).
Recommended: recommended to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Quantitative Reasoning Math Arts Sci Gen Ed: Distribution-Social Sciences

LING 4630 (3) TESOL and Second Language Acquisition: Principles and Practices
Provides an overview of methods and materials for teaching English as an additional language, along with opportunities for students to observe, discuss and analyze these in relation to language teaching principles, second language acquisition, linguistic considerations, and global and local contexts. Aimed primarily at the teaching of English to non-native speaking adults, the course also addresses second and foreign language teaching.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 4632 (3) Machine Learning and Linguistics
Is an introduction to machine learning, with a focus on linguistic applications. It is oriented toward students who want to understand the basics of machine learning and apply well-known techniques to address problems related to language and linguistics. The main goal is to achieve a practical grasp of the fundamental and most successful concepts in machine learning and to be equipped with techniques to apply this knowledge in linguistic domains. The course is also intended to provide a perspective on natural language acquisition and learning, namely, insight into what types of language acquisition problems are truly difficult, and what types of learning problems can be solved by fairly straightforward pattern recognition techniques. Formerly offered as a special topics course.
Requisites: Requires prerequisite course of LING 1200 (minimum grade C-) or CSCI 1200 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 4640 (3) Teaching Language Skills: Focus on Social Justice
Introduces the underlying theories and classroom practices for teaching second language reading, writing, listening and speaking. The course highlights the nature of literacy and oral language development, beginning language skills (phonemic awareness, phonics, pronunciation), and meaning-focused language instruction. This unique iteration of the course, designed for CU Boulder¿s Global Seminar program takes a theme-based and project-based approach, contextualizing the study of language teaching around an exploration of social justice issues that are pressing both in Armenia and globally.
Equivalent - Duplicate Degree Credit Not Granted: LING 5640
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Arts Sci Gen Ed: Distribution-Social Sciences

LING 4650 (3) Language Teaching Materials Design
This course introduces the role of English as an international language and its impact on languages, cultures, and communities around the world. Students evaluate approaches to teaching English against the backdrop of sociopolitical and historical factors. This course utilizes a project-based approach to study language teaching in a Zapotec speech community. The project involves co-creating language teaching materials for use by Zapotec speakers in efforts to maintain and revitalize the Zapotec language among young learners.
Equivalent - Duplicate Degree Credit Not Granted: LING 5650

LING 4700 (3) Conversation Analysis and Interactional Linguistics
Provides an introduction to the theories and methods of Conversation Analysis (CA) and Interactional Linguistics (IL), which aim to uncover the procedural infrastructure of language use in social interaction. The course emphasizes hands-on experience in analyzing naturally-occurring interactional data. Topics may include: turn-taking, sequence and preference organization, repair, reference, epistemics, and identity.
Equivalent - Duplicate Degree Credit Not Granted: LING 5700
Requisites: Requires prerequisite of LING 2000 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 4800 (3) Language and Culture
Principles of language structure and how language and culture interrelate, how language and language use are affected by culture and how culture may be affected by use of, or contact with, particular languages.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4800
Recommended: Prerequisite LING 1000 or LING 2400 or ANTH 2100.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 4830 (1-3) Honors Thesis
Required for students who elect departmental honors. Students write an honors thesis based on independent research under the direction of a faculty member.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sciences Honors Course

LING 4900 (1-3) Independent Study
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

LING 4910 (3) TESOL Practicum
Provides the field-based component and practical experience in English language teaching for the TESOL Certificate. Work on site includes class observations and supervised teaching in community-based programs/ESL providers. Weekly meetings provide opportunities to debrief/discuss teaching practice and connect theory, methods and practice. Supports professional development, completion of a teaching resume and portfolio and the job search process.
Equivalent - Duplicate Degree Credit Not Granted: LING 5910
Requisites: Requires prerequisite course of LING 3630 or LING 4630 (minimum grade C).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

LING 4920 (3) Speakers and the Structure of their Languages
This is a summer intensive course that introduces various areas of Linguistics (specifically phonology, morphology, and syntax) at the same time that highlights the importance of language documentation, description and revitalization. The target language for Summer 2024 is Zapotec. 50% of this course is designed so that students can get a basic knowledge of this language as a second language and be able to interact with the community of speakers.
Equivalent - Duplicate Degree Credit Not Granted: LING 5920
Repeatable: Repeatable for up to 6.00 total credit hours.

Linguistics - Bachelor of Arts (BA)

The CU Department of Linguistics has a strong commitment to excellence in teaching at both the graduate and undergraduate levels. The linguistics faculty offers a wide range of research strengths—including syntactic theory, sociocultural linguistics, computational and psycholinguistics, phonetics/phonology and language documentation—ensuring that students gain both versatility and expertise in an array of subfields.

Our educational mission is to provide students with insight into the fundamental design features of language—its sound patterns, its word- and sentence-formation devices, its semantic structure—and to create awareness of language varieties: the diversity of human languages, the role of language as an index of social identity and the ontogenetic and historical development of language.

Requirements

Program Requirements

Majors in linguistics must complete a total of 32 credit hours of study in general linguistics, including 5 credits at the intermediate to advanced level of a natural language (for exceptions, see below). Language study is taken in other departments.

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. All courses must be completed with a grade of C- or better and cannot be taken pass/fail. Students must have a grade point average of at least 2.000 in the major in order to graduate.

In additional to the general Linguistics major the Linguistics department offers four specialized major tracks for undergraduates: Computational Linguistics; Language and Cognition; Sociocultural, Anthropological, and Interactional Linguistics (SAIL); and Teaching English to Speakers of Other Languages (TESOL). More information about these new tracks can be found on the t (https://www.colorado.edu/linguistics/undergraduate-program/major-detail/)he Program Tracks tab.

Required Courses and Credits

Code	Title	Credit Hours
Foundational Linguistics Courses		
LING 2000	Introduction to Linguistics	3
LING 3100	Language Sound Structures	3
LING 3430	Semantics	3
LING 4420	Morphology and Syntax	3
Natural Language		
Complete a minimum of 5 credit hours at the intermediate to advanced level of a natural language other than English (see details below) with a grade of C- or better.		5

Electives		
Select a minimum of 15 elective credit hours from the following with a grade of C- or better:		15
ENGL 4003	Old English 1: Introduction to Old English	
FREN 3020	French Phonetics Through Musical Performance	
FREN 3010	French Phonetics and Pronunciation	
JPNS 4030	Japanese Syntax	
JPNS 4080	Kanji in Japanese Orthography	
JPNS 4070		
SPAN 3050	Spanish Phonology and Phonetics	
SPAN 3150	Linguistic Analysis of Spanish	
SPAN 4430	Special Topics in Hispanic Linguistics	
SPAN 4450	Introduction to Hispanic Linguistics	
LING 1000	Language in U.S. Society	
LING 1010	The Study of Words	
LING 1020	Languages of the World	
LING 1200	Introduction to Python Programming	
LING 2400	Language, Gender and Sexuality	
LING 2500	Race, Ethnicity, and Language	
LING 3005	Cognitive Science	
LING 3185	Figurative Language	
LING 3220	American Indigenous Languages in their Social and Cultural Context	
LING 3545	World Language Policies	
LING 3550	Talk at Work: Language Use in Institutional Contexts	
LING 3800	Special Topics in Linguistics	
LING 3832	Computational Linguistics	
LING 4050	Japanese Sociolinguistics	
LING 4100	Perspectives on Language	
LING 4220	Language and Mind	
LING 4225	Interdisciplinary Research Methods in Child Language Acquisition	
LING 4450	Introduction to Formal Syntax	
LING 4560	Language Development	
LING 4610	Pedagogical Grammar for Teachers of English to Speakers of Other Languages	
LING 4620	Teaching Second Language (L2) Oral Skills and Communication	
LING 4630	TESOL and Second Language Acquisition: Principles and Practices	
LING 4632	Machine Learning and Linguistics	
LING 4640	Teaching Language Skills: Focus on Social Justice	
LING 4700	Conversation Analysis and Interactional Linguistics	
LING 4800	Language and Culture	
LING 4830	Honors Thesis	
LING 4910	TESOL Practicum	
Other upper-division linguistics courses may also be chosen if available; graduate courses may be taken with permission of the department.		

Natural Language

Students must complete, with a grade of C- or better, a minimum of 5 credit hours of study of a natural language other than English (including signed languages used by deaf communities). The 5 credit hours offered in satisfaction of this requirement must be at the 3000 level or above for widely-taught languages (French, German, Greek, Latin, Spanish), or at the 2000 level or above for less-widely-taught languages (Arabic, American Sign Language, Chinese, Farsi, Hebrew, Hindi, Indonesian, Italian, Japanese, Korean, Norwegian, Portuguese, Russian, Swedish).

Only courses taught in the language in question, and focused specifically on language learning, may be used for this requirement. A list of all the approved courses is available from the Department of Linguistics or the departmental undergraduate advisor.

The natural language requirement may be satisfied by examination or waived for foreign students whose native language is not English; in these cases, students must still meet the college minimum major requirement of 18 credit hours of upper-division coursework and 30 credit hours overall in the major by taking an additional 3-credit elective from the list above. Students who wish to have their language requirement waived must obtain the consent of an undergraduate advisor before registering for the fall term of the junior year.

Additional Information

The department recommends that prospective majors complete LING 2000 and at least two 1000-level foreign language courses (in the same language) by the end of the sophomore year, unless the student's foreign language proficiency is already advanced.

The fall semester of the junior year should include LING 3430, a 2000-level foreign language course, and a linguistics elective or LING 4420. It must also include LING 2000 if that was not taken earlier. The spring semester of the junior year should include LING 3100, a linguistics elective and a further 2000-level foreign language course (if needed to prepare the student for the required upper-division foreign language credit hours).

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here refers only to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in linguistics, students should meet the following requirements:

- By the beginning of the spring semester of the freshman year (second semester), declare linguistics as a major.
- During the freshman or sophomore years (first through fourth semesters), take LING 2000 (required) and LING 1000 or LING 2400 (electives)
- By the end of the sophomore year (fourth semester) at the latest, complete two semesters of study of a natural (spoken or signed) language other than English.*
- During the junior year (fifth and sixth semesters) at the latest, continue natural language study at the 2000 level.
- During the fall of the junior year (fifth semester), take one or both of LING 3430 or LING 4420.
- During the junior or senior year (fifth through eighth semesters), take the remaining courses as needed.
- During the spring of the junior year (sixth semester), take LING 3100 and an upper-division linguistics elective.

- During the senior year (seventh and eighth semesters) at the latest, take 5 credit hours of natural language study at the 3000 level. The language requirement is waived for native speakers of a language other than English, but if it is waived, 3 additional credit hours in linguistics must be taken.

Note: A Linguistics major who has been excluded from any upper-division linguistics course due to enrollment limitations will be given first preference for a seat in that course the following year if the exclusion is made known to the department staff within two weeks after it occurs. No declared linguistics major who still needs LING 2000 for fall of the junior year and attempts to register for it during the regular registration period for continuing students (spring of the sophomore year) will be excluded from the course.

Program Tracks

In addition to the general linguistics major, the Linguistics Department offers four specialized major tracks for undergraduates. These tracks allow students to tailor their major coursework to better reflect their specific interest(s) within the field of linguistics. Concentrated training within a specific subfield of the discipline provides students with the in-depth knowledge and skills needed to pursue specific careers within the field of linguistics. In addition, it provides a foundation for pursuing a focused area of study for those who continue onto graduate school.

Students declaring any track will need to complete the following courses:

Code	Title	Credit Hours
Foundational Linguistics Courses		
LING 2000	Introduction to Linguistics	3
LING 3100	Language Sound Structures	3
LING 3430	Semantics	3
LING 4420	Morphology and Syntax	3
Natural Language		
Complete a minimum of 5 credit hours at the intermediate to advanced level of a natural language other than English (see details on the Requirements Tab) with a grade of C- or better.		5
Total Credit Hours		**17**

Computational Linguistics

Students declaring the Computational Linguistics sub-plan will also complete 15 credit hours of LING electives (at least 9 at the upper division level); however, they must take 12 of these credits as the following 4 core courses listed below. For the remaining 3 elective credit hours, students can choose an elective from the list of electives, also below, some from CSCI or INFO.

Code	Title	Credit Hours
Computational Linguistics Core Courses		
LING 1200	Introduction to Python Programming	3
LING 3832	Computational Linguistics	3
LING 4200	Introduction to Computational Corpus Linguistics	3
LING 4632	Machine Learning and Linguistics	3
Electives		
Select one course from the following:		3-4
LING 4700	Conversation Analysis and Interactional Linguistics	
CSCI 2270	Computer Science 2: Data Structures	
CSCI 3832	Natural Language Processing	
INFO 2201	Programming for Information Science 2	
Total Credit Hours		**15-16**

Language and Cognition

Students declaring the Language and Cognition track will also complete 15 credits of LING electives (at least 9 at the upper division level); however, they must select 12 of these credits from the set of Language and Cognition-related courses below. For the remaining 3 elective credit hours, students can choose any LING course.

Code	Title	Credit Hours
Language and Cognition Core Courses		
Complete 12 credit hours from the following:		12
LING 1010	The Study of Words	
LING 3005	Cognitive Science	
LING 3185	Figurative Language	
LING 4220	Language and Mind	
LING 4100	Perspectives on Language (Language and Embodiment)	
LING 4225	Interdisciplinary Research Methods in Child Language Acquisition	
LING 4560	Language Development	
LING 4622	Statistical Analysis for Linguistics	
LING 4632	Machine Learning and Linguistics	
Electives		
Select any LING course.		3
Total Credit Hours		**15**

Sociocultural, Anthropological & Interactional Linguistics (SAIL)

Students declaring the SAIL track will also complete 15 credit hours of LING electives (9 at the upper division level); however, they must select 12 of these credits from the set of SAIL-related courses below. For the remaining 3 elective credit hours, students can choose any LING course.

Code	Title	Credit Hours
Sociocultural, Anthropological & Interactional Linguistics Core Courses		
Complete 12 credit hours from the following:		12
LING 1000	Language in U.S. Society	
LING 1900	Community-Based Learning Practicum: Literacy and Language Learning	
LING 2400	Language, Gender and Sexuality	
LING/ETHN 2500	Race, Ethnicity, and Language	
LING 3220	American Indigenous Languages in their Social and Cultural Context	
LING 3545	World Language Policies	
LING 3550	Talk at Work: Language Use in Institutional Contexts	

LING 3800	Special Topics in Linguistics (Language in Digital Media)	
LING 3800	Special Topics in Linguistics (Language and Politics)	
LING/JPNS 4050	Japanese Sociolinguistics	
LING 4700	Conversation Analysis and Interactional Linguistics	
LING/ANTH 4800	Language and Culture	
Electives		
Select any LING course.		3
Total Credit Hours		**15**

Teaching English to Speakers of Other Languages (TESOL)

Students declaring the TESOL sub-plan will be required to take four foundational TESOL-focused courses in Linguistics for a total of 12 credit hours. In addition to these four courses, students must complete at least 3 credit hours from a limited set of TESOL-related courses.

Code	Title	Credit Hours
Teaching English to Speakers of Other Languages Core Courses		
LING 4610	Pedagogical Grammar for Teachers of English to Speakers of Other Languages	3
LING 4620	Teaching Second Language (L2) Oral Skills and Communication	3
LING 4630	TESOL and Second Language Acquisition: Principles and Practices	3
LING 4910	TESOL Practicum	3
Electives		
Select one course from the following:		3-4
LING 3545	World Language Policies	
LING/SLHS 4560	Language Development	
LING/ANTH 4800	Language and Culture	
COMM 3410	Intercultural Communication	
EDUC 2411	Educational Psychology for Elementary Schools	
EDUC 2425	Foundations of Bilingual/Multicultural Education	
EDUC 2625	Teaching English Language Development	
EDUC 4125	Secondary World Language Methods	
EDUC 4425	Introduction to Bilingual/Multicultural Education	
EDUC 4455	Methods of Biliteracy Instruction	
EDUC 4615	Language Acquisition for Bilingual Learners	
Total Credit Hours		**15-16**

Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credits of the Social Sciences area of the Gen Ed Distribution Requirement. Depending on the courses selected as a major electives, students can potentially complete some credits in the Arts & Humanities area of the Distribution and both the U.S. Perspective and the Global Perspective components of the Gen Ed Diversity Requirement.

Year One

Fall Semester		**Credit Hours**
LING 2000	Introduction to Linguistics	3
Beginning Level Foreign Language 1 (If needed, does not count toward langage requirement)		4-5
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Gen. Ed. Diversity course (example: Diversity: US Perspective)		3
	Credit Hours	**16-17**
Spring Semester		
Beginning Level Foreign Language 2 (If needed, does not count toward language requirement)		4-5
LING Lower-Division or Upper-Division elective		3
Gen. Ed. Skills course (example: QRMS)		3
Gen. Ed. Distribution course (example: Natural Sciences and Lab)		4
	Credit Hours	**14-15**

Year Two

Fall Semester		
Second Year Foreign Language 1 (If needed)		3-5
Gen. Ed. Distribution course (example: Natural Sciences)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Gen. Ed. Diversity course (example: Diversity: Global Perspective)		3
LING Lower-Division or Upper-Division elective		3
	Credit Hours	**15-17**
Spring Semester		
LING Foreign Language Requirement (if needed)		3-5
LING 3100	Language Sound Structures	3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Gen. Ed. Distribution (example: Arts & Humanities)		3
Elective		3
	Credit Hours	**15-17**

Year Three

Fall Semester		
LING 3430	Semantics	3
LING Foreign Language Requirement UD (if needed)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Gen. Ed. Skills course (example: Upper-division Written Communication)		3
Elective		3
	Credit Hours	**15**
Spring Semester		
LING Upper-Division elective		3
LING Foreign Language Requirement UD (if needed)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
LING 4420	Morphology and Syntax	3
Upper-Division Elective		3
	Credit Hours	**15**

Year Four	
Fall Semester	
LING Upper-Division elective	3
Elective	3
Upper-Division Elective	3
Upper-Division Elective	3
Upper-Division Elective	3
Credit Hours	**15**
Spring Semester	
LING Upper-Division Elective	3
Elective	3
Upper-Division Elective	3
Upper-Division Elective	3
Upper-Division Elective	3
Credit Hours	**15**
Total Credit Hours	**120-126**

Learning Outcomes

By the completion of the program, students will be able to:

- Students can identify multiple levels of linguistic structure and their interactions: sound segments, sound categories, word structure, sentence structure and semantic structure.
- Students are aware of the range of speech sounds found in languages of the world, including how they are transcribed, and have the ability to transcribe those sounds that are frequently encountered.
- Students can use transcribed data to infer the contrastive relationships among sounds in a given language.
- Students can describe the ways in which languages and language families differ with regard to word- and sentence-formation devices.
- Students can infer language structures from the analysis of data from unfamiliar languages.
- Students can describe the relationship between conceptual structure and linguistic structure at both the word and sentence level, and identify differences between conventional and calculable linguistic meaning.

Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

BA and MA in Linguistics

Admissions Requirements

In order to apply for admission to the BAM program in linguistics, a student must meet the following criteria:

- Have a cumulative GPA of 3.0 or higher.
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder.
- Have completed at least one upper division linguistics elective.
- Must take a graduate-level "qualifying course" in the semester they apply for admission to the BAM program.

The BAM degree program is recommended only for the most serious and able undergraduate students. For further information, see the graduate advisor in the spring of the sophomore year or during the first week of the fall semester of the junior year.

Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. These 12 credits may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

If you are interested in the BAM degree program, please contact the Linguistics graduate advisor for more information. Students should discuss possible BAM plans with the graduate advisor by spring of the sophomore year or during the first week of the fall semester of the junior year.

BA in Linguistics, MS in Computational Linguistics, Analytics, Search and Informatics

Admission Requirements

In order to apply for admission to the BAM program, a student must meet the following criteria:

- Complete all prerequisite courses with a minimum grade of B or higher.

Code	Title	Credit Hours
LING 1200	Introduction to Python Programming	3
or CSCI 1300	Computer Science 1: Starting Computing	
LING 4632/6632	Machine Learning and Linguistics	3
LING 3832/5832	Computational Linguistics	3
or CSCI 3832/5832	Natural Language Processing	
LING 4200/5200	Introduction to Computational Corpus Linguistics	3
One of the following courses in Computer Science as an elective		
CSCI 3104	Algorithms	
CSCI 3022	Introduction to Data Science with Probability and Statistics	
One of the following courses (in the semester the student applies)		
LING 5420	Morphology and Syntax	

LING 5030	Linguistic Phonetics
LING 5430	Semantics and Pragmatics

- Have a cumulative GPA of 3.5 or higher.
- Have at least junior class standing.
- Provide two letters of reference, one written by the course instructor of the LING 5XXX course they are taking during the semester they apply, the other by the instructor from an upper division course in Computer Science. Letters should be sent directly to the CLASIC Program Coordinator.

Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. However, only 6 credits may be double counted toward the bachelor's degree and the master's degree.

Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

Linguistics - Minor

Students can profitably combine the linguistics minor with a major in one of the modern languages, classics, anthropology, psychology or speech, language and hearing sciences, to name just a few possibilities.

One good reason to take the linguistics minor is that by learning to analyze language and evaluate claims about language, students can improve the quality of their writing and argumentation in their major discipline.

Requirements

Declaration of a minor in linguistics is open to any student enrolled at CU Boulder, regardless of college or school.

Students minoring in linguistics must complete a total of 18 credit hours in linguistics, 9 of which must be at the upper-division level. Students must maintain an overall and linguistics GPA of at least 2.00 (C), and complete all LING courses with a C- or better.

Required Courses and Credits

Code	Title	Credit Hours
Required Courses		
LING 2000	Introduction to Linguistics	3
Electives		
Select two of the following:		6
LING 3100	Language Sound Structures	
LING 3430	Semantics	
LING 4420	Morphology and Syntax	
Take the remaining one of the three courses listed above and/or select from the following electives to bring the total credit hours to 18: [1]		9
LING 1000	Language in U.S. Society	
LING 1010	The Study of Words	
LING 1020	Languages of the World

LING 4620	Teaching Second Language (L2) Oral Skills and Communication	
LING 4630	TESOL and Second Language Acquisition: Principles and Practices	
LING 4632	Machine Learning and Linguistics	
LING 4640	Teaching Language Skills: Focus on Social Justice	
LING 4700	Conversation Analysis and Interactional Linguistics	
LING 4800	Language and Culture	
LING 4830	Honors Thesis	
LING 4910	TESOL Practicum	
Total Credit Hours		**18**

[1] At least 3 credit hours of the electives must be in an upper-division course.

Teaching English to Speakers of Other Languages - Minor

The undergraduate minor in TESOL provides CU Boulder students with foundational knowledge and skills for English teaching while also incorporating the broader perspectives of culture, language use and language learning. Housed in the linguistics department, the 18-credit minor is open to all interested students, and may be of particular relevance to students from social science, humanities, speech/language, foreign language, international affairs and communication programs or backgrounds.

The widespread role of English as an international lingua franca opens up many opportunities for trained English teachers globally. Increasingly, EFL (English as a foreign language) providers want to hire individuals with relevant training—not just those who are native or near-native speakers. Minor earners, in conjunction with their bachelor's degrees, will have the credentials to be able to tap into professional opportunities in the dynamic world of English language teaching—globally and in the U.S.

The program is focused on the teaching of English to young adults and adults while also incorporating the broader perspectives of language

use and language learning from education, communication, culture and society. A one-semester practicum experience involves teaching or tutoring with a community ESL provider.

Requirements

Students must complete a total of 18 credit hours of TESOL linguistic courses and TESOL related coursework, 9 of which must be at the upper-division level. Students must maintain a GPA of at least 2.00 (C) in all courses that can count toward the minor and complete all courses counting toward the minor with a grade of C- or better.

Students cannot declare both the major in linguistics and the minor in TESOL.

Required Courses and Credits

Code	Title	Credit Hours
Required Courses		
LING 4610	Pedagogical Grammar for Teachers of English to Speakers of Other Languages	3

Mathematics

The Department of Mathematics offers courses leading to either a Bachelor of Arts (BA) degree in mathematics or a minor in mathematics. Students who choose to major in mathematics choose from one of five tracks for the major:

- **Comprehensive track:** The comprehensive track emphasizes theoretical mathematics and is aimed at students seeking a general background in mathematics or intending to pursue graduate work in mathematics.
- **Applicable track:** The applicable track is aimed at students seeking a background in applied and/or applicable mathematics.
- **Secondary education track:** The secondary education track is designed to align with the Colorado licensure requirements for mathematics secondary education and the university does offer a program for obtaining secondary education mathematics teaching licensure.
- **Computational track:** The computational track is designed for students with an interest in the intersection of mathematics and computer science.
- **Statistics track:** The statistics track is designed for students seeking a background in statistics and/or data science.

Course code for this program is MATH.

Bachelor's Degree

- Mathematics - Bachelor of Arts (BA) (p. 480)

Minor

- Mathematics - Minor (p. 484)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Baggett, Lawrence W.
Professor Emeritus; PhD, University of Washington Seattle

Beaudry, Agnès (https://experts.colorado.edu/display/fisid_157677/)
Associate Professor; PhD, Northwestern University

Black, John (https://experts.colorado.edu/display/fisid_126540/)
Associate Professor; PhD, University of California, Davis

Bronstein, Albert (https://experts.colorado.edu/display/fisid_154916/)
Teaching Assistant Professor; PhD, University of Kentucky

Brown, Gordon E.
Professor Emeritus

Casalaina-Martin, Sebastian Ben (https://experts.colorado.edu/display/fisid_145845/)
Professor, Chair; PhD, Columbia University

Clelland, Jeanne Nielsen (https://experts.colorado.edu/display/fisid_113103/)
Professor; PhD, Duke University

Czubak, Magdalena (https://experts.colorado.edu/display/fisid_157955/)
Associate Professor; PhD, University of Texas at Austin

Deeley, Robin J. (https://www.colorado.edu/math/robin-deeley/)
Associate Professor; PhD, University of Victoria (Canada)

Elliott, Peter D. (https://experts.colorado.edu/display/fisid_105048/)
Professor Emeritus; PhD, University of Cambridge (England)

Englander, Janos (https://experts.colorado.edu/display/fisid_147333/)
Professor; PhD, Technion – Israel Institute of Technology

Farsi, Carla Emilia (https://experts.colorado.edu/display/fisid_101437/)
Professor; PhD, University of Maryland, College Park

Fox, Jeffrey S. (https://experts.colorado.edu/display/fisid_105586/)
Professor; PhD, University of California, Berkeley

Goodrich, Robert K.
Professor Emeritus

Gorokhovsky, Alexander (https://experts.colorado.edu/display/fisid_126279/)
Professor; PhD, The Ohio State University

Grant, David R. (https://experts.colorado.edu/display/fisid_100868/)
Professor; PhD, Massachusetts Institute of Technology

Green, Richard Mutegeki (https://experts.colorado.edu/display/fisid_129800/)
Professor; MA, Oxford University (England)

Grochow, Joshua A. (https://experts.colorado.edu/display/fisid_158240/)
Assistant Professor; PhD, University of Chicago

Grulke, Boo (https://experts.colorado.edu/display/fisid_144824/)
Teaching Assistant Professor; DEd, University of Florida

Gustafson, Karl E. (https://experts.colorado.edu/display/fisid_104877/)
Professor Emeritus; PhD, University of Maryland, College Park

Holley, Richard A.
Professor Emeritus

Ih, Su-Ion (https://experts.colorado.edu/display/fisid_141091/)
Associate Professor; PhD, Brown University

Jesudason, Judith Packer (https://experts.colorado.edu/display/fisid_100338/)
Professor; PhD, Harvard University

Kearnes, Keith (https://experts.colorado.edu/display/fisid_118457/)
Professor; PhD, University of California, Berkeley

Kuznetsov, Sergei Eugenievitch (https://experts.colorado.edu/display/fisid_113246/)
Associate Professor, Associate Chair; DSc, Vilnius State University (Lithuania)

Luh, Kyle (https://experts.colorado.edu/display/fisid_166949/)
Assistant Professor; PhD, Yale University

Lundell, Albert T.
Professor Emeritus

Macrae, Robert Eugene
Professor Emeritus

Malitz, Jerome I.
Professor Emeritus

Manley, Kevin W. (https://experts.colorado.edu/display/fisid_142342/)
Teaching Associate Professor; PhD, University of Colorado Boulder

Mayr, Peter (https://experts.colorado.edu/display/fisid_155858/)
Associate Professor; PhD, Johannes Kepler Universität Linz (Austria)

Monk, James Donald
Professor Emeritus

Mycielski, Jan
Professor Emeritus

O'Rourke, Sean Daniel (https://experts.colorado.edu/display/fisid_154418/)
Associate Professor; PhD, University of California, Davis

Orosz Hunziker, Flor (https://experts.colorado.edu/display/fisid_167648/)
Assistant Professor; PhD, Yale University

Pflaum, Markus Josef (https://experts.colorado.edu/display/fisid_144979/)
Professor; Dr habil, Humboldt University of Berlin (Germany)

Ramsay, Arlan
Professor Emeritus

Rearick, David F.
Professor Emeritus

Roberson, Lee Forrest (https://experts.colorado.edu/display/fisid_158380/)
Teaching Assistant Professor; PhD, University of Northern Colorado

Schmidt, Wolfgang
Professor Emeritus

Stade, Eric (https://experts.colorado.edu/display/fisid_100456/)
Professor; PhD, Columbia University

Stalvey, Harrison Edward (https://experts.colorado.edu/display/fisid_158325/)
Teaching Assistant Professor; PhD, Georgia State University

Stange, Katherine E. (https://experts.colorado.edu/display/fisid_151508/)
Associate Professor; PhD, Brown University

Szendrei, Agnes Erzsebet (https://experts.colorado.edu/display/fisid_130160/)
Professor Emerita; DSc, Hungarian Academy of Sciences (Hungary)

Thiem, Franz Nathaniel (https://experts.colorado.edu/display/fisid_144618/)
Professor, Associate Chair; PhD, University of Wisconsin–Madison

Timmer, Joseph (https://experts.colorado.edu/display/fisid_156565/)
Teaching Associate Professor; PhD, University of Southern California

Varanasi, Mahesh K. (https://experts.colorado.edu/display/fisid_103090/)
Professor; PhD, Rice University

Walter, Martin E. (https://experts.colorado.edu/display/fisid_105263/)
Professor Emeritus; PhD, University of California, Irvine

Webb, David C. (https://experts.colorado.edu/display/fisid_141204/)
Associate Professor; PhD, University of Wisconsin–Madison

Wise, Jonathan (https://experts.colorado.edu/display/fisid_151516/)
Associate Professor; PhD, Brown University

Wolkowisky, Jay H.
Professor Emeritus

Courses

MATH 1005 (3) Introduction to College Mathematics
Introductory level mathematics course which presents a college level introduction to algebraic functions and their applications. Only offered through the Student Academic Service Center.
Equivalent - Duplicate Degree Credit Not Granted: MATH 1011
Additional Information: MAPS Course: Mathematics

MATH 1011 (3) College Algebra
Covers simplifying algebraic expressions, factoring, linear and quadratic equations, inequalities, exponentials, logarithms, functions, graphs and systems of equations. Department enforced prerequisite: one year high school algebra.
Equivalent - Duplicate Degree Credit Not Granted: MATH 1005
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math
MAPS Course: Mathematics

MATH 1012 (3) Quantitative Reasoning and Mathematical Skills
Promotes mathematical literacy among liberal arts students. Teaches basic mathematics, logic, and problem-solving skills in the context of higher level mathematics, science, technology, and/or society. This is not a traditional math class, but is designed to stimulate interest in and appreciation of mathematics and quantitative reasoning as valuable tools for comprehending the world in which we live.
Equivalent - Duplicate Degree Credit Not Granted: MATH 1112
Additional Information: GT Pathways: GT-MA1 - Mathematics
Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math
MAPS Course: Mathematics

MATH 1021 (3) College Trigonometry
Covers trigonometric functions, identities, solutions of triangles, addition and multiple angle formulas, inverse and trigonometric functions and laws of sines and cosines. Department enforced prerequisite: MATH 1011 (minimum grade C-) or 1 1/2 years of high school algebra and 1 year of high school geometry.
Equivalent - Duplicate Degree Credit Not Granted: APPM 1235 or MATH 1150

MATH 1071 (3) Finite Mathematics for Social Science and Business
Discusses systems of linear equations and introduces matrices, linear programming, and probability.
Requisites: Requires prerequisite course of MATH 1011 (minimum grade C-) or a score of 46% or greater on an ALEKS math exam taken in 2016 or earlier.
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math

MATH 1081 (3) Calculus for Social Science and Business
Covers differential and integral calculus of algebraic, logarithmic and exponential functions. For more information about the math placement referred to in the "Enrollment Requirements", contact your academic advisor.
Equivalent - Duplicate Degree Credit Not Granted: APPM 1345 or APPM 1350 or ECON 1088 or MATH 1300 or MATH 1310 or MATH 1330
Requisites: Requires prerequisite course of ECON 1078 or MATH 1011 or MATH 1071 or MATH 1150 or MATH 1160 (minimum grade C-) or an ALEKS math exam taken in 2016 or earlier, or placement into pre-calculus based on your admission data and/or CU Boulder coursework.
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math

MATH 1110 (3) Mathematics for Elementary Educators 1
Includes a study of problem solving techniques in mathematics and the structure of number systems. Department enforced prereq., one year of high school algebra and one year of geometry. Department enforced restriction: restricted to prospective elementary teachers.
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math

MATH 1112 (4) Mathematical Analysis in Business
Gives students experience with mathematical problem solving in real business contexts. Students will work with data and spreadsheets to build and analyze mathematical models. Themes of the course include applying logical operators to model business rules, interpreting data and using tables and graphs, finding break-even and optimal points, and addressing uncertainty and forecasting
Equivalent - Duplicate Degree Credit Not Granted: MATH 1012
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math
MAPS Course: Mathematics

MATH 1120 (3) Mathematics for Elementary Educators 2
Topics include geometry, measurement, probability, and statistics. Department enforced restriction: restricted to prospective elementary teachers.
Requisites: Requires prerequisite course of MATH 1110 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math

MATH 1130 (3) Mathematics from the Visual Arts
Introduces mathematical concepts through the study of visual arts.
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math

MATH 1150 (4) Precalculus Mathematics
Develops techniques and concepts prerequisite to calculus through the study of trigonometric, exponential, logarithmic, polynomial and other functions. For more information about the math placement referred to in the "Enrollment Requirements", please contact your academic advisor.
Equivalent - Duplicate Degree Credit Not Granted: APPM 1235 or MATH 1021
Requisites: Requires prerequisite course of MATH 1011 (minimum grade C-) or an ALEKS math exam taken in 2016 or earlier, or placement into pre-calculus based on your admissions data and/or CU Boulder coursework. Requires enrollment in corequisite course MATH 1151.
Additional Information: GT Pathways: GT-MA1 - Mathematics
Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math
MAPS Course: Mathematics

MATH 1151 (1) Precalculus Supplemental Lab
Provides students concurrently enrolled in MATH 1150 with supplemental instruction.
Requisites: Requires enrollment in corequisite course of MATH 1150.
Grading Basis: Letter Grade

MATH 1160 (3) Transition to Calculus (IBL): The Theory, Applications and Analysis of Functions
Examines the functions of calculus and how they can be used to model concrete problems and/or change. This is an intensive study of these functions through Inquiry-Based Learning. Each class will be designed so students will be actively engaged in learning the material in small groups. For more information about the math placement referred to in the "Enrollment Requirements", please contact your academic advisor.
Requisites: Requires an ALEKS math exam taken in 2016 or earlier, or placement into pre-calculus based on your admissions data and/or CU Boulder coursework.

MATH 1212 (3) Data and Models
Engages students in statistical and algebraic problem solving through modeling data and real world questions taken from the social and life sciences. The course will emphasize these skills and the mathematical background needed for a university level statistics course.
Equivalent - Duplicate Degree Credit Not Granted: MATH 1011
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math
MAPS Course: Mathematics

MATH 1300 (5) Calculus 1
Topics include limits, derivatives of algebraic and transcendental functions, applications of the derivative, integration and applications of the definite integral. Students who have already earned college credit for calculus 1 are eligible to enroll in this course if they want to solidify their knowledge base in calculus 1. For more information about the math placement referred to in the "Enrollment Requirements", contact your academic advisor.
Equivalent - Duplicate Degree Credit Not Granted: APPM 1345 or APPM 1350 or ECON 1088 MATH 1081 or MATH 1310 or MATH 1330
Requisites: Requires prerequisite course of MATH 1011 and MATH 1021 or MATH 1150 or MATH 1160 or APPM 1235 (minimum grade C-) or an ALEKS math exam taken in 2016 or earlier, or placement into calculus based on your admissions data and/or CU Boulder coursework.
Additional Information: GT Pathways: GT-MA1 - Mathematics
Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math

MATH 1301 (1) Calculus 1 Supplemental Lab
Provides students concurrently enrolled in MATH 1300 with supplemental instruction.
Requisites: Requires corequisite course of MATH 1300.
Grading Basis: Letter Grade

MATH 1310 (5) Calculus for Life Sciences
Calculus concepts are developed through the analysis and modeling of complex systems, ranging from gene networks and cells to populations and ecosystems. Fundamental concepts of probability and statistics are also developed through the lens of calculus. MATH 1300 is similar, but a greater emphasis is placed on relevance and applications in biology and other life sciences. Students who have already earned college credit for calculus 1 are eligible to enroll in this course if they want to solidify their knowledge base in calculus 1. For more information about the math placement referred to in the "Enrollment Requirements", contact your academic advisor.
Equivalent - Duplicate Degree Credit Not Granted: APPM 1345 or APPM 1350 or ECON 1088 or MATH 1081 or MATH 1300 or MATH 1330
Requisites: Requires prerequisite course of APPM 1235 or MATH 1021 or MATH 1150 or MATH 1160 or MATH 1300 (minimum grade C-) or an ALEKS math exam taken in 2016 or earlier, or placement into calculus based on your admissions data and/r CU Boulder coursework.
Additional Information: GT Pathways: GT-MA1 - Mathematics
Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math

MATH 1330 (4) Calculus for Economics and the Social Sciences
A calculus course intended to meet the needs of social science and economics majors, including applications. Covers differential and integral calculus of algebraic, logarithmic and exponential functions and modeling. For more information about the math placement referred to in the "Enrollment Requirements", contact your academic advisor.
Equivalent - Duplicate Degree Credit Not Granted: APPM 1345 or APPM 1350 or ECON 1088 or MATH 1081 or MATH 1300 or MATH 1310
Requisites: Requires a prerequisite course of ECON 1078 or MATH 1011 or MATH 1071 or MATH 1150 or MATH 1160 (minimum grade C-) or an ALEKS math exam taken in 2016 or earlier, or placement into calculus based on your admissions data and/r CU Boulder coursework.
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math

MATH 2001 (3) Introduction to Discrete Mathematics
Introduces the ideas of rigor and proof through an examination of basic set theory, existential and universal quantifiers, elementary counting, discrete probability, and additional topics.
Equivalent - Duplicate Degree Credit Not Granted: MATH 2002
Requisites: Requires prerequisite course of MATH 1300 or MATH 1310 or APPM 1345 or APPM 1350 (all minimum grade C-).

MATH 2002 (3) Number Systems: An Introduction to Higher Mathematics
Introduces the concepts of mathematical proofs using the construction of the real numbers from set theory. Topics include basic logic and set theory, equivalence relations and functions, Peano's axioms, construction of the integers, the rational numbers and axiomatic treatment of the real numbers.
Equivalent - Duplicate Degree Credit Not Granted: MATH 2001
Requisites: Requires prerequisite of MATH 1300 or MATH 1310 or APPM 1345 or APPM 1350 (all minimum grade C-).

MATH 2130 (3) Introduction to Linear Algebra for Non-Mathematics Majors
Examines basic properties of systems of linear equations, vector spaces, inner products, linear independence, dimension, linear transformations, matrices, determinants, eigenvalues, eigenvectors and diagonalization. Intended for students who do not plan to major in Mathematics. Formerly MATH 3130.
Equivalent - Duplicate Degree Credit Not Granted: MATH 2135 or APPM 3310
Requisites: Requires prerequisite course of MATH 2300 or APPM 1360 (minimum grade C-).

MATH 2135 (3) Introduction to Linear Algebra for Mathematics Majors
Examines basic properties of systems of linear equations, vector spaces, inner products, linear independence, dimension, linear transformations, matrices, determinants, eigenvalues, eigenvectors and diagonalization. Intended for students who plan to major in Mathematics. Formerly MATH 3135.
Equivalent - Duplicate Degree Credit Not Granted: MATH 2130 or APPM 3310
Requisites: Requires a prerequisite course of (MATH 2300 or APPM 1360) and (MATH 2001 or MATH 2002) (all minimum grade C-).

MATH 2300 (5) Calculus 2
Continuation of MATH 1300. Topics include transcendental functions, methods of integration, polar coordinates, differential equations, improper integrals, infinite sequences and series, Taylor polynomials and Taylor series. Department enforced prerequisite: MATH 1300 or MATH 1310 or APPM 1345 or APPM 1350 (minimum grade C-).
Equivalent - Duplicate Degree Credit Not Granted: APPM 1360
Requisites: Requires prerequisite course of MATH 1300 or MATH 1310 or APPM 1345 or APPM 1350 (minimum grade C-).

MATH 2380 (3) Mathematics for the Environment
An interdisciplinary course where environmental issues, such as climate change, global epidemics, pollution, population models and kinship relations of Australian Aborigines are studied with elementary mathematics (such as fuzzy logic). Similar techniques are applied to analyze other current events, such as surveillance, economic meltdowns, identity theft and media literacy. Department enforced prerequisite: proficiency in high school mathematics.
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math

MATH 2400 (5) Calculus 3
Continuation of MATH 2300. Topics include vectors, three-dimensional analytic geometry, partial differentiation and multiple integrals, and vector analysis. Department enforced prerequisite: MATH 2300 or APPM 1360 (minimum grade C-).
Equivalent - Duplicate Degree Credit Not Granted: APPM 2350
Requisites: Requires prerequisite course of MATH 2300 or APPM 1360 (minimum grade C-).

MATH 2510 (3) Introduction to Statistics
Elementary statistical measures. Introduces statistical distributions, statistical inference, hypothesis testing and linear regression. Department enforced prerequisite: two years of high school algebra.
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math
MAPS Course: Mathematics

MATH 3001 (3) Analysis 1
Provides a rigorous treatment of the basic results from elementary Calculus. Topics include the topology of the real line, sequences of numbers, continuous functions, differentiable functions and the Riemann integral.
Requisites: Requires prerequisite courses of (MATH 2001 or MATH 2002) and (MATH 2130 or MATH 3130 or MATH 2135 or MATH 3135) (all minimum grade C-).

MATH 3110 (3) Introduction to Theory of Numbers
Studies the set of integers, focusing on divisibility, congruences, arithmetic functions, sums of squares, quadratic residues and reciprocity, and elementary results on distributions of primes.
Requisites: Requires prerequisite of MATH 2001 or MATH 2002 (both minimum grade C-).

MATH 3120 (3) Functions and Modeling
Engages the students in daily projects and occasional in-class labs designed to strengthen and expand knowledge of the topics in secondary mathematics, focusing especially on topics from algebra, precalculus and calculus. Projects and labs involve the use of multiple representations, transformations, data analysis techniques and interconnections among ideas from geometry, algebra, probability and calculus.
Requisites: Requires prerequisite of MATH 2001 or MATH 2002 (both minimum grade C-).

MATH 3130 (3) Introduction to Linear Algebra
Examines basic properties of systems of linear equations, vector spaces, inner products, linear independence, dimension, linear transformations, matrices, determinants, eigenvalues, eigenvectors and diagonalization.
Equivalent - Duplicate Degree Credit Not Granted: MATH 3135 or APPM 3310
Requisites: Requires prerequisite course of MATH 2300 or APPM 1360 (minimum grade C-).

MATH 3135 (3) Honors Introduction to Linear Algebra
Examines basic properties of systems of linear equations, vector spaces, inner products, linear independence, dimension, linear transformations, matrices, determinants, eigenvalues, eigenvectors and diagonalization.
Equivalent - Duplicate Degree Credit Not Granted: MATH 3130 or APPM 3310
Requisites: Requires a prerequisite course of MATH 2300 or APPM 1360 and MATH 2001 (all minimum grade C-).

MATH 3140 (3) Abstract Algebra 1
Studies basic properties of algebraic structures with a heavy emphasis on groups. Other topics, time permitting, may include rings and fields.
Requisites: Requires prerequisite courses of (MATH 2001 or MATH 2002) and (MATH 2130 or MATH 3130 or MATH 2135 or MATH 3135) (all minimum grade C-).

MATH 3170 (3) Combinatorics 1
Covers basic methods and results in combinatorial theory. Includes enumeration methods, elementary properties of functions and relations, and graph theory. Emphasizes applications.
Requisites: Requires prerequisite of MATH 2001 or MATH 2002 (both minimum grade C-).

MATH 3210 (3) Euclidean and Non-Euclidean Geometry
Axiomatic systems; Euclid's presentation of the elements of geometry; Hilbert's axioms; neutral, Euclidean and non-Euclidean geometries and their models.
Requisites: Requires prerequisite courses of (MATH 2001 or MATH 2002) and (MATH 2130 or MATH 3130 or MATH 2135 or MATH 3135) (all minimum grade C-).

MATH 3430 (3) Ordinary Differential Equations
Involves an elementary systematic introduction to first-order scalar differential equations, nth order linear differential equations, and n-dimensional linear systems of first-order differential equations. Additional topics are chosen from equations with regular singular points, Laplace transforms, phase plane techniques, basic existence and uniqueness and numerical solutions. Formerly MATH 4430.
Requisites: Requires prerequisite courses of (MATH 2400 or APPM 2350) and (MATH 2130 or 3130 or MATH 2135 or 3135 or APPM 3310) (all minimum grade C-).

MATH 3450 (3) Introduction to Complex Variables
Theory of functions of one complex variable, including integrals, power series, residues, conformal mapping, and special functions. Formerly MATH 4450.
Requisites: Requires prerequisite courses of MATH 2400 or APPM 2350 (minimum grade C-).

MATH 3510 (3) Introduction to Probability and Statistics
Introduces the basic notions of Probability: random variables, expectation, conditioning, and the standard distributions (Binomial, Poisson, Exponential, Normal). This course also covers the Law of Large Numbers and Central Limit Theorem as they apply to statistical questions: sampling from a random distribution, estimation, and hypothesis testing.
Equivalent - Duplicate Degree Credit Not Granted: MATH 2510 or MATH 4510
Requisites: Requires a prerequisite course of (MATH 2300 or APPM 1360) and (MATH 2001 or MATH 2002) (all minimum grade C-).

MATH 3850 (1) Seminar in Guided Mathematics Instruction
Provides learning assistants with an opportunity to analyze assessment data for formative purposes and develop instructional plans as a result of these analyses. These formative assessment analyses will build on the literature in the learning sciences. Students gain direct experiences interacting with the tools of the trade, especially with actual assessment data and models of instruction. Restricted to learning assistants in Math.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Requires a corequisite course of EDUC 4610.

MATH 4000 (3) Foundations of Mathematics
Focuses on a complete deductive framework for mathematics and applies it to various areas. Presents Goedel's famous incompleteness theorem about the inherent limitations of mathematical systems. Uses idealized computers to investigate the capabilities and limitations of human and machine computation.
Equivalent - Duplicate Degree Credit Not Granted: MATH 5000
Requisites: Requires prerequisite courses of MATH 3001 or MATH 3140 or MATH 4730 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

MATH 4001 (3) Analysis 2
Provides a rigorous treatment of infinite series, sequences of functions and an additional topic chosen by the instructor (for example, multivariable analysis, the Lebesgue integral or Fourier analysis).
Equivalent - Duplicate Degree Credit Not Granted: MATH 5001
Requisites: Requires prerequisite course of MATH 3001 (minimum grade C-).

MATH 4120 (3) Introduction to Operations Research
Studies linear and nonlinear programming, the simplex method, duality, sensitivity, transportation and network flow problems, some constrained and unconstrained optimization theory, and the Kuhn-Tucker conditions, as time permits.
Equivalent - Duplicate Degree Credit Not Granted: APPM 5120 and APPM 4120 and MATH 5120
Requisites: Requires prerequisite course of MATH 2130 or 3130 or MATH 2135 or 3135 or APPM 3310 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MATH 4140 (3) Abstract Algebra 2
Explores some topic that builds on material in MATH 3140. Possible topics include (but are not limited to) Galois theory, representation theory, advanced linear algebra or commutative algebra.
Equivalent - Duplicate Degree Credit Not Granted: MATH 5140
Requisites: Requires prerequisite course of MATH 3140 (minimum grade C-).

MATH 4200 (3) Introduction to Topology
Introduces the basic concepts of point set topology. Includes topological spaces, metric spaces, homeomorphisms, connectedness and compactness.
Equivalent - Duplicate Degree Credit Not Granted: MATH 5200
Requisites: Requires prerequisite course of MATH 3001 (minimum grade C-).

MATH 4230 (3) Differential Geometry of Curves and Surfaces
Introduces the modern differential geometry of plane curves, space curves, and surfaces in 3-dimensional space. Topics include the Frenet frame, curvature and torsion for space curves; Gauss and mean curvature for surfaces; Gauss and Codazzi equations, and the Gauss-Bonnet theorem.
Equivalent - Duplicate Degree Credit Not Granted: MATH 5230
Requisites: Requires prerequisite courses of (MATH 2400 or APPM 2350) and (MATH 2001 or 2002) and (MATH 2130 or MATH 3130 or MATH 2135 or MATH 3135) (all minimum grade C-).

MATH 4240 (3) Hilbert Spaces and the Mathematics of Quantum Mechanics
Provides an introduction to Hilbert spaces and their application in quantum mechanics. The primary goal is to prove and understand the so-called spectral theorem, which is crucial for the formulation of quantum mechanics. In addition, some examples from physics will be discussed, such as the quantum harmonic oscillator and the spectrum of the hydrogen atom.
Equivalent - Duplicate Degree Credit Not Granted: MATH 5240
Requisites: Requires prerequisite course of MATH 3001 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MATH 4330 (3) Fourier Analysis
The notion of Fourier analysis, via series and integrals, of periodic and nonperiodic phenomena is central to many areas of mathematics. Develops the Fourier theory in depth and considers such special topics and applications as wavelets, Fast Fourier Transforms, seismology, digital signal processing, differential equations, and Fourier optics.
Equivalent - Duplicate Degree Credit Not Granted: MATH 5330
Requisites: Requires prerequisite course of MATH 3001 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MATH 4440 (3) Mathematics of Coding and Cryptography
Gives an introduction, with proofs, to the algebra and number theory used in coding and cryptography. Basic problems of coding and cryptography are discussed.
Equivalent - Duplicate Degree Credit Not Granted: MATH 5440
Requisites: Requires prerequisite course of MATH 2130 or 3130 or MATH 2135 or 3135 (minimum grade C-).

MATH 4470 (3) Partial Differential Equations
Studies initial, boundary, and eigenvalue problems for the wave, heat, and potential equations. Solution by separation of variables, Green's function, and variational methods.
Equivalent - Duplicate Degree Credit Not Granted: MATH 5470
Requisites: Requires prerequisite courses of MATH 3430 (minimum grade C-).

MATH 4510 (3) Introduction to Probability Theory
Studies axioms, combinatorial analysis, independence and conditional probability, discrete and absolutely continuous distributions, expectation and distribution of functions of random variables, laws of large numbers, central limit theorems, and simple Markov chains if time permits.
Equivalent - Duplicate Degree Credit Not Granted: APPM 3570 or ECEN 3810 or MATH 3510 MATH 5510
Requisites: Requires prerequisite courses of (MATH 2400 or APPM 2350) and (MATH 2130 or 3130 or MATH 2135 or 3135) (all minimum grade C-).

MATH 4520 (3) Introduction to Mathematical Statistics
Examines point and confidence interval estimation. Principles of maximum likelihood, sufficiency, and completeness: tests of simple and composite hypotheses, linear models, and multiple regression analysis if time permits. Analyzes various distribution-free methods.
Equivalent - Duplicate Degree Credit Not Granted: MATH 5520 and STAT 4520 and STAT 5520
Requisites: Requires prerequisite course of MATH 4510 or APPM 3570 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MATH 4530 (3) Theoretical Foundations of Data Science
Introduces theoretical concepts from mathematics, statistics, and computer science required to understand and analyze data. Topics include randomized algorithms, machine learning, streaming, sketching, clustering, random matrices and graphs, graphical models and compressed sensing.
Requisites: Requires prerequisite courses of (MATH 2130 or MATH 2135) and MATH 4510 (minimum grade C-).

MATH 4540 (3) Introduction to Time Series
Studies basic properties, trend-based models, seasonal models, modeling and forecasting with ARIMA models, spectral analysis and frequency filtration.
Equivalent - Duplicate Degree Credit Not Granted: MATH 5540 and STAT 4540 and STAT 5540
Requisites: Requires prerequisite course of MATH 4520 or APPM 4520 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MATH 4650 (3) Intermediate Numerical Analysis 1
Focuses on numerical solution of nonlinear equations, interpolation, methods in numerical integration, numerical solution of linear systems, and matrix eigenvalue problems. Stresses significant computer applications and software. Department enforced prerequisite: knowledge of a programming language.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4650
Requisites: Requires a prerequisite course of MATH 3430 or APPM 2360 and APPM 3310 (minimum grade C-).

MATH 4730 (3) Set Theory
Studies in detail the theory of cardinal and ordinal numbers, definition by recursion, the statement of the continuum hypothesis, simple cardinal arithmetic and other topics chosen by the instructor.
Equivalent - Duplicate Degree Credit Not Granted: MATH 5730
Requisites: Requires prerequisite courses of MATH 3001 or MATH 3110 or MATH 3140 or MATH 3170 or MATH 3210 or MATH 3510 or MATH 4230 (all minimum grade C-).

MATH 4805 (1) Mathematical Teacher Training: Inclusive Pedagogy
Designed to train students to teach mathematics in an inclusive, multicultural environment. Students teach a math course within the McNeill Academic Program (Student Academic Services Center) meeting weekly with faculty and colleagues to learn to re-design curriculum, fine-tune pedagogical practices, create assessments, mentor undergraduate instructor assistants and create an inclusive classroom environment. Department enforced restriction: experience with college-level instruction.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to students with 87-180 credits (Seniors) or graduate students only.

MATH 4810 (1-3) Special Topics in Mathematics
Covers various topics not normally covered in the curriculum. Offered intermittently depending on student demand and availability of instructors.
Equivalent - Duplicate Degree Credit Not Granted: MATH 5810
Repeatable: Repeatable for up to 7.00 total credit hours.

MATH 4820 (3) History of Mathematical Ideas
Examines the evolution of a few mathematical concepts (e.g., number, geometric continuum, or proof), with an emphasis on the controversies surrounding these concepts. Begins with Ancient Greek mathematics and traces the development of mathematical concepts through the middle ages into the present.
Equivalent - Duplicate Degree Credit Not Granted: MATH 5820
Requisites: Prerequisite courses of MATH 2001 or MATH 2002 and one of the following: MATH 3001, 3110, 3120, 3140, 3170, 3210, 3430, 3450, 3510, 3850, 4000, 4001, 4120, 4140, 4200, 4230, 4330, 4440, 4510, 4520, 4540, 4650, or 4660 (all min grade C-).
Recommended: completion of upper division Written Communication requirement.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

MATH 4890 (1-3) Honors Independent Study
Offered for students doing a thesis for departmental honors.
Additional Information: Arts Sciences Honors Course

MATH 4900 (1-3) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours.

Mathematics - Bachelor of Arts (BA)

The undergraduate degree in mathematics emphasizes knowledge and awareness of:

- Calculus of several variables and vector analysis.
- The structure of mathematical proofs and definitions.
- Basic linear algebra and the theory of vector spaces.
- Basic real analysis of one variable.
- At least one additional specialized area of mathematics.

In addition, students completing a degree in mathematics are expected to acquire the ability and skills to:

- Move from concrete to abstract thinking and back with facility.
- Recognize patterns and connections between areas of mathematics and between mathematics and other subjects.
- Organize and construct a logical argument, provide evidence to support arguments and articulate arguments clearly and succinctly, both verbally and in writing.

Program Tracks

The mathematics program offers five tracks that lead to the BA degree. All five tracks require Calculus 1, Calculus 2, Calculus 3, MATH 2001, MATH 2135 and MATH 3001.

Comprehensive Track

The comprehensive track emphasizes theoretical mathematics, and is aimed at students seeking a general background in mathematics or intending to pursue graduate work in mathematics.

Applicable Track

The applicable track is aimed at students seeking a background in applied and/or applicable mathematics.

Secondary Education Track

The secondary education track is designed to align with the Colorado licensure requirements for mathematics secondary education, and the university does offer a program for obtaining secondary education mathematics teaching licensure.

Computational Track

The computational track is designed for students with an interest in the intersection of mathematics and computer science.

Statistics Track

The statistics track is designed for students seeking a background in statistics and/or data science.

Requirements

Program Requirements

To earn a BA in mathematics, a student must complete the general requirements of the College of Arts and Sciences, as well as the six mathematics core courses and the five additional courses for one of the five tracks (described on the Program Tracks tab).

Students must earn a grade of C- or better in each of the mathematics core courses and the five additional courses, and have at least a C average for all attempted work in mathematics.

Required Core Courses

The following courses are required of all mathematics majors, regardless of track.

Code	Title	Credit Hours
Required Courses		
MATH 1300	Calculus 1	4-5
or MATH 1310	Calculus for Life Sciences	
or APPM 1350	Calculus 1 for Engineers	
MATH 2300	Calculus 2	4-5
or APPM 1360	Calculus 2 for Engineers	
MATH 2400	Calculus 3	4-5
or APPM 2350	Calculus 3 for Engineers	
MATH 2001	Introduction to Discrete Mathematics	3
or MATH 2002	Number Systems: An Introduction to Higher Mathematics	
MATH 2135	Introduction to Linear Algebra for Mathematics Majors	3
MATH 3001	Analysis 1	3
Program Track Coursework		**15-16**
Total Credit Hours		**36-40**

Program Tracks

Comprehensive Track

Aimed at students seeking a general background in mathematics or intending to pursue graduate work in mathematics, in addition to the coursework required of all mathematics majors, the comprehensive track requires the following courses.

Required Courses and Credits

Code	Title	Credit Hours
Required Courses		
MATH 3140	Abstract Algebra 1	3
MATH 4140	Abstract Algebra 2	3
or MATH 4001	Analysis 2	
Electives		
Three upper-division MATH or approved APPM courses (at least one at the 4000-level)		9
Total Credit Hours		**15**

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress," as it is used here, refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in mathematics, students should meet the following requirements.

- By the beginning of the second semester, declare the major.
- By the end of the fourth semester, complete Calculus 1, Calculus 2, Calculus 3, MATH 2001 or MATH 2002, MATH 2135, and MATH 3001.
- By the end of the sixth semester, complete MATH 3140, MATH 4140 or MATH 4001, and one additional approved MATH or APPM course.
- By the end of the eighth semester, complete the major.

Applicable Track

Aimed at students seeking a background in applied and/or applicable mathematics, in addition to the coursework required of all mathematics majors, the applicable track requires the following courses.

Required Courses and Credits

Code	Title	Credit Hours
Required Courses		
MATH 4510	Introduction to Probability Theory	3
MATH 3430	Ordinary Differential Equations	3
MATH 4520	Introduction to Mathematical Statistics	3
or MATH 4470	Partial Differential Equations	

Electives	
Two upper-division MATH or approved APPM courses	6
Total Credit Hours	**15**

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress," as it is used here, refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in mathematics, students should meet the following requirements.

- By the beginning of the second semester, declare the major.
- By the end of the fourth semester, complete Calculus 1, Calculus 2, Calculus 3, MATH 2001 or MATH 2002, MATH 2135, and MATH 3001.
- By the end of the sixth semester, complete MATH 4510 ,MATH 3430 ,and either MATH 4520 or MATH 4470.
- By the end of the eighth semester, complete the major.

Secondary Education Track

Aimed at students intending to teach mathematics at the secondary level, in addition to the coursework required of all mathematics majors, the secondary education track requires the following courses.

Required Courses and Credits

Code	Title	Credit Hours
Required Courses		
MATH 3110	Introduction to Theory of Numbers	3
or MATH 3140	Abstract Algebra 1	
MATH 3120	Functions and Modeling	3
MATH 3210	Euclidean and Non-Euclidean Geometry	3
MATH 3510	Introduction to Probability and Statistics	3
MATH 4820	History of Mathematical Ideas	3
Total Credit Hours		**15**

Note: Completion of the secondary education track does not provide the student a teaching license.

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress," as it is used here, refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in mathematics, students should meet the following requirements.

- By the beginning of the second semester, declare the major.
- By the end of the fourth semester, complete Calculus 1, Calculus 2, Calculus 3, MATH 2001 or MATH 2002, MATH 2135, MATH 3001, and MATH 3120 .
- By the end of the sixth semester, complete MATH 3510, MATH 3210, and either MATH 3110 or MATH 3140.
- By the end of the eighth semester, complete the major.

Computational Track

Aimed at students interested in both mathematics and computation, in addition to the coursework required of all mathematics majors, the computational track requires the following courses.

Ancillary Courses

Code	Title	Credit Hours
Ancillary Courses [1]		
CSCI 1300	Computer Science 1: Starting Computing	4
CSCI 2270	Computer Science 2: Data Structures	4
Total Credit Hours		**8**

1 CSCI 1300 and CSCI 2270 do not count toward hours in the major and are not part of the major GPA.

Required Courses and Credits

Code	Title	Credit Hours
Required Courses		
CSCI 3104	Algorithms	4
MATH 3430	Ordinary Differential Equations	3
MATH/APPM 4650	Intermediate Numerical Analysis 1	3
Electives		
Two MATH or approved APPM or approved CSCI courses, at least one of which must be at the 4000-level.		6
Total Credit Hours		**16**

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress," as it is used here, refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in mathematics, students should meet the following requirements.

- By the beginning of the second semester, declare the major.
- By the end of the fourth semester, complete Computer Science 1, Computer Science 2, Calculus 1, Calculus 2, Calculus 3, MATH 2001 or MATH 2002, MATH 2135, and MATH 3001 .
- By the end of the sixth semester, complete CSCI 3104, MATH 3430, MATH 4650/APPM 4650 and one of the additionally required upper-division MATH classes.
- By the end of the eighth semester, complete the major.

Statistics Track

Aimed at students seeking a background in statistics and/or data science, in addition to the coursework required of all mathematics majors, the statistics track requires the following courses.

Required Courses and Credits

Code	Title	Credit Hours
Required Courses		
MATH 4510	Introduction to Probability Theory	3
MATH 4520	Introduction to Mathematical Statistics	3
MATH 4540	Introduction to Time Series	3
Electives		
Two of the following courses:		6
APPM 4560	Markov Processes, Queues, and Monte Carlo Simulations	
APPM 4590		
MATH 6550	Introduction to Stochastic Processes	
STAT 4000	Statistical Methods and Application I	

STAT 4010	Statistical Methods and Applications II	
STAT 4610	Statistical Learning	
Total Credit Hours		**15**

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress," as it is used here, refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in mathematics, students should meet the following requirements.

- By the beginning of the second semester, declare the major.
- By the end of the fourth semester, complete Calculus 1, Calculus 2, Calculus 3, MATH 2001 or MATH 2002, MATH 2135, and MATH 4510.
- By the end of the sixth semester, complete MATH 3001, MATH 4520, and MATH 4540.
- By the end of the eighth semester, complete the major.

Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete the QRMS component of the Gen Ed Skills Requirement and, depending on the track of study, potentially some credit hours in the Natural Sciences and Arts & Humanities areas of the Gen Ed Distribution Requirement.

Year One

Fall Semester		**Credit Hours**
MATH 1300	Calculus 1	5
Gen. Ed. Distribution/diversity course (example: Social Sciences/Global Perspective)		3
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Elective		3
	Credit Hours	**14**
Spring Semester		
MATH 2300	Calculus 2	5
Gen. Ed. Distribution course (example: Natural Sciences with Lab)		4
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)		3
Elective		3
	Credit Hours	**15**

Year Two

Fall Semester		
MATH 2400	Calculus 3	5
MATH 2001 or MATH 2002	Introduction to Discrete Mathematics or Number Systems: An Introduction to Higher Mathematics	3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective		3
Elective		3
	Credit Hours	**17**
Spring Semester		
MATH 2135	Introduction to Linear Algebra for Mathematics Majors	3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Gen. Ed. Distribution course (example: Social Sciences)		3
Elective		3
Elective		3
	Credit Hours	**15**

Year Three

Fall Semester		
MATH Upper Division Elective		3
Gen. Ed. Skills course (example: Upper-division Written Communication)		3
Gen. Ed. Distribution course (example: Arts & Humanities) - Upper-division		3
Upper-division Elective		3
Upper-division Elective		3
	Credit Hours	**15**
Spring Semester		
MATH 3001	Analysis 1	3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Gen. Ed. Distribution course (example: Social Sciences)		3
Upper-division Elective		3
Upper-division Elective		3
	Credit Hours	**15**

Year Four

Fall Semester		
MATH Upper Division Elective		3
MATH Upper Division Elective		3
Gen. Ed. Distribution course (Natural Sciences)		3
Upper-division Elective		3
Upper-division Elective		3
	Credit Hours	**15**
Spring Semester		
MATH Upper Division Elective		3
MATH Upper Division Elective		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Gen. Ed. Distribution course (example: Social Sciences)		3
Upper-division Elective		3
	Credit Hours	**15**
	Total Credit Hours	**121**

Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated

master's program enables students to continue working with their established faculty mentors.

BA in Mathematics, MA in Mathematics or MS in Applied Mathematics

Each of the BAM degree programs offered by the Department of Mathematics allows highly motivated and successful students to experience graduate-level coursework earlier in their education than would otherwise be possible, and also allows them to obtain a master's degree in a reduced time period. Students are allowed to count 6 hours of graduate-level mathematics department coursework towards both their undergraduate and graduate degree requirements.

Admissions Requirements

In order to gain admission to the BAM programs named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.0 or higher.
- Have completed a minimum of 45 credit hours of coursework.
- If a transfer student, have completed a minimum of 24 credit hours at CU Boulder.
- Have completed a minimum of two upper-division courses from the Department of Mathematics.

The earliest admission to the program is after the successful completion of at least total 45 credit hours and a minimum of two upper-division courses from the Department of Mathematics. Students must have at least one year of coursework remaining towards the completion of their undergraduate degree in order to be admitted to the program. Students admitted to the program may not pursue a double degree or a double major; however, outside minors are allowed.

Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. However, only 6 credits may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

If you are interested in the BAM degree program, please contact the mathematics graduate program for more information.

Mathematics - Minor

The undergraduate minor in mathematics emphasizes knowledge and awareness of:

- Calculus of several variables and vector analysis.
- The structure of mathematical proofs and definitions.
- Basic linear algebra and the theory of vector spaces.
- At least one additional specialized area of mathematics.

Requirements

Declaration of a minor in mathematics is open to any student enrolled at CU Boulder, regardless of college or school.

To earn a minor in mathematics, students must complete the following courses with a grade of C- or better in each course (no pass/fail work may be applied), and they must have at least a C (2.00) average for all attempted work in mathematics. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

Required Courses and Credit Hours

Code	Title	Credit Hours
Required Courses		
MATH 1300	Calculus 1	4-5
or APPM 1350	Calculus 1 for Engineers	
MATH 2300	Calculus 2	4-5
or APPM 1360	Calculus 2 for Engineers	
MATH 2400	Calculus 3	4-5
or APPM 2350	Calculus 3 for Engineers	
MATH 2001	Introduction to Discrete Mathematics	3
or MATH 2002	Number Systems: An Introduction to Higher Mathematics	
MATH 2130	Introduction to Linear Algebra for Non-Mathematics Majors	3
or MATH 2135	Introduction to Linear Algebra for Mathematics Majors	
Electives		
Three upper-division MATH courses (at least one at the 4000-level)		9
Total Credit Hours		**27-30**

Medieval and Early Modern Studies

To the Middle Ages the modern world owes the preservation and transmission of Latin and Greek; the development of a host of vernaculars; the evolution of Judaism and Christianity, and the rise of Islam; the renewed study of Roman law; the growth of a mercantile class; the creation of musical notation; the erection of ecclesiastical monuments; the foundations of constitutional government; and the institution of universities. The early modern period inherited and elaborated all these institutions and inventions, adapting them to fit new conceptions of man (and woman), church and state.

The Center for Medieval and Early Modern Studies is founded on the convictions that the period from c. 400 to c. 1800, conceived in a global context, is a dynamic cultural continuum and ever-evolving system; that study of both periods in tandem sheds new light on each; and that the unity and diversity of the premodern world can be understood and appreciated only from an interdisciplinary perspective. Medieval and Early Modern Studies therefore crosses boundaries of period, nation, language and discipline, and the center's prime function is to facilitate and encourage interdepartmental study and teaching.

Courses throughout the curriculum are available to students whose area of specialization within a given department is the medieval and/or early modern period(s) and who wish to broaden their knowledge of the cultures of the period. With the approval of the major department, a coherent group of these courses may be accepted as a related program of study and as part of the requirements for an undergraduate degree. For additional details concerning these courses, see departmental listings.

For more information, visit the Center for Medieval and Early Modern Studies (https://www.colorado.edu/cmems/) website.

Course code for this program is MEMS.

Certificate

- Medieval and Early Modern Studies - Certificate (p. 485)

Courses

MEMS 2020 (3) Introduction to Medieval and Renaissance Studies
Introduces students to the literature, history, culture and art of Europe and the Mediterranean basin from late antiquity through the renaissance. The course is interdisciplinary and focuces on topics which reveal the dynamism and diversity of pre-modern culture.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

MEMS 4020 (3) Medieval and Early Modern Studies: Texts and Contexts
Focuses on communities in the Mediterranean basin and Europe (i.e., cloister, court and city), discussing major literary texts and visual monuments associated with them and their historical context. Emphasizes tensions between tradition and innovation, Latin and vernacular, East and West, Christian and non-Christian (Jewish and Islam), sacred and secular, authority and freedom and male and female.
Equivalent - Duplicate Degree Credit Not Granted: MEMS 5020
Requisites: Requires a prerequisite course of CLAS 1110 and CLAS 1120 and ENGL 2503 or HIST 1011 and HIST 1012 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

MEMS 4030 (3) Medieval and Early Modern Studies: Special Topics
Different topics offered by the faculty of the Medieval and Early Modern Studies Program in alternate semesters. Topics may include the literature of pilgrimage and travel, women and minorities, theatre, music, epic, medieval and early modern views of the classics, the Bible, and medieval and early modern theories of education.
Equivalent - Duplicate Degree Credit Not Granted: MEMS 5030
Requisites: Requires a prerequisite course of CLAS 1110 and CLAS 1120 and ENGL 2503 or HIST 1011 and HIST 1012 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Medieval and Early Modern Studies - Certificate

Students who pursue the medieval and early modern studies (MEMS) certificate are free to take a variety of courses offered in numerous departments across the CU Boulder campus. In consultation with the CMEMS director, each student can tailor the certificate to meet their intellectual interests in the study of premodern Europe and its global influence. Students usually earn the certificate in tandem with a BA degree in history, classics or English, and find the analytical and linguistic skills particularly useful for graduate work in history and law.

Requirements

Students must complete at least 24 credits of approved coursework, as follows.

Required Courses and Credits

Code	Title	Credit Hours
Select one of the following lower-division introductory survey courses:		3
ARTH 1300		
ARTH 1400		
HIST 1011	Greeks, Romans, Kings & Crusaders: European History to 1600	
HUMN 1110	Introduction to Humanities: Literature 1	
HUMN 1120	Introduction to Humanities: Literature 2	
HUMN 1210	Introduction to Humanities: Art and Music 1	
HUMN 1220	Introduction to Humanities: Art and Music 2	
Senior-level seminar:		3
MEMS 4030	Medieval and Early Modern Studies: Special Topics (or equivalent) [1]	
Capstone Seminar:		3
MEMS 4020	Medieval and Early Modern Studies: Texts and Contexts (or equivalent) (with a minimum grade of B) [1]	
Five electives, at least four of which must be upper-division and two of which must be in disciplines other than the student's major		15
Total Credit Hours		**24**

[1] Substitutions for MEMS 4020 and MEMS 4030 may be made the discretion of the MEMS advisor or faculty chair.

Molecular, Cellular and Developmental Biology

The undergraduate program in molecular, cellular and developmental biology (MCDB) is directed toward understanding the molecular and cellular mechanisms that provide the basis for biological structure, growth, evolution, embryonic development and genetic inheritance. Undergraduate majors learn about the scientific method, experimental approaches and groundbreaking discoveries that have made modern molecular and cellular biology such an important force in medicine, agriculture and the growing biotechnology industry. They also learn about the diverse tools of modern biology, including recombinant DNA, genomic mapping, transgenic organisms, gene targeting, analysis of mutants, biochemical purification, antibody probes, laser manipulation of living cells, light and electron microscopy, and computer modeling. In addition to academic and laboratory classes, MCDB majors have many opportunities to participate in ongoing research in the department.

Learn how living systems operate at the cellular and molecular levels of organization, their assembly and structure, with heavy emphasis on genetic information and regulation, including embryonic development.

Course code for this program is MCDB.

Animal Use Policy

Biology is the science of life, and a major in it must include some hands-on experience with living organisms to be complete. Exercises involving the use of living animals or animal tissues are included, therefore, in MCDB laboratory courses. Majors with objections on moral grounds may arrange to limit their participation in these exercises, although their educational experience is compromised by doing so.

Nonmajors may take MCD biology lecture courses without the accompanying laboratories. Laboratory courses in which living vertebrate animals or tissues are used are identified in the course description section of this catalog. For additional information, please contact the department.

Bachelor's Degree

- Molecular, Cellular and Developmental Biology - Bachelor of Arts (BA) (p. 495)

Minor

- Molecular, Cellular and Developmental Biology - Minor (p. 498)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Abbott, Lois A.
Senior Instructor Emerita

Anseth, Kristi S. (https://experts.colorado.edu/display/fisid_103471/)
Distinguished Professor; PhD, University of Colorado Boulder

Arnoult, Nausica Christine (https://experts.colorado.edu/display/fisid_164094/)
Assistant Professor; PhD, Pierre and Marie Curie University (France)

Professor; PhD, Columbia University

Yarus, Michael J.
Professor Emeritus

Courses

MCDB 1020 (1) Introduction to Molecular, Cellular and Developmental Biology Major
Introduces students to the Molecular and Cellular Biology major. Provides an overview of the major and how it differs from other CU biology programs; how to get involved in clubs, research, and/or internship opportunities; strategies for succeeding in MCDB courses; and career options. This is a first-year colloquium course specifically designed for freshman and other students exploring their educational and career opportunities in our department.
Recommended: New MCDB majors.

MCDB 1043 (1) Exploring Genetics Laboratory
Provides hands-on experience with fundamental genetic principles. Topics include scientific method, experimental design, mitosis, meiosis, classical genetics, molecular genetics, mutagenesis, DNA analysis, and transgenic organisms. Wherever possible, the focus of the lab will be on integrating science process skills with human-relevant experiments to encourage students to learn and apply science skills while seeing the application to humans.
Requisites: Restricted to Biological Sciences (MCDB) non-majors only.
Recommended: Corequisite MCDB 1041.
Additional Information: Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science Lab or Lab/Lec

MCDB 1150 (3) Introduction to Cellular and Molecular Biology
Covers biologically important macromolecules and biological processes, together with an introduction to cell structure, function, and physiology. Provides the foundation for advanced MCDB courses to majors, and a rigorous overview of modern biology to non-majors.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 1111
Recommended: Prerequisite high school chemistry and algebra, and recommended corequisite of MCDB 1152.
Additional Information: GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science Lab or Lab/Lec

MCDB 1152 (1) Problem Solving Co-Seminar for Introduction to Molecular and Cellular Biology
Uses problem solving and other interactive group work to aid student learning in a corequisite course, MCDB 1150. Students will work in small groups on learning and practicing how to solve difficult conceptual problems, as well as using hands-on activities and concept mapping to help learn content.
Recommended: Corequisite MCDB 1150.

MCDB 1161 (2) From Dirt to DNA: Phage Genomics Laboratory I
Provides laboratory experience working on a bacteriophage genomics research project. Students will study novel bacteriophage they isolate from the environment. Topics covered include phage biology, bacteria and phage culturing and amplification, DNA isolation, restriction digest analysis, agarose gel electrophoresis, and electron microscopy.
Recommended: Prerequisites or corequisites: MCDB 1150 or EBIO 1210.
Additional Information: Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science Lab or Lab/Lec

MCDB 1171 (2) Antibiotics Discovery Through Hands-on Screens I
Provides introductory research and laboratory experience. Students will work in teams to screen small molecule libraries for novel antibiotics using the bacterium Salmonella as a model system. Topics covered include the basic biology of the model system, genetics, approaches to screening for new therapeutics, statistical analysis of the data, compound verification and lead compound development.
Recommended: Prerequisite or corequisite MCBD 1150 or EBIO 1210.
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science Lab or Lab/Lec

MCDB 1181 (2) Biological Probiotic/Drug Discovery Through Hands-on Screens
Provides introduction to research and laboratory experience. Students will work in teams to screen novel mycobacterial strains for use as probiotics or immunoregulatory/anti-inflammatory drugs using THP-1 cells, a human monocytic cell line. Topics covered include the hygiene or "Old Friends" hypothesis, the human microbiome, approaches to screening for new probiotics of therapeutics and statistical analysis of the data.
Equivalent - Duplicate Degree Credit Not Granted: IPHY 1181
Grading Basis: Letter Grade

MCDB 1234 (1-9) Skills Center: Modular Laboratory of Modern Molecular Biology Skills
Dedicated to teaching students fundamental laboratory skills in modern molecular biology. The skills are updated on a rolling basis in consultation with MCDB faculty and local Pharma/Biotech companies in an effort to provide students with real world skills that can help them transition from a traditional lab course environment to a more independent research environment. Students can mix and match various skills to receive one or more university credit hours and students who successfully complete a module are given a certificate recognizing their competency. Available skills modules and in more course information can be found at https://skillscenter.colorado.edu/
Repeatable: Repeatable for up to 15.00 total credit hours.
Grading Basis: Letter Grade

MCDB 2150 (3) Principles of Genetics
Introduces the behavior of genes and chromosomes in eukaryotic and prokaryotic organisms. Covers three areas: transmission genetics, molecular genetics, and population genetics. Attention is given to genetic mapping, recombinant DNA procedures, and gene expression.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 2222
Recommended: Prerequisite MCDB 1150 or EBIO 1210 or CHEN 2810 (minimum grade C-) and recommended corequisite of MCDB 2152.
Additional Information: GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 2152 (1) Problem Solving Co-Seminars for Genetics
Uses problem solving and other interactive group work to aid student learning in MCDB 2150. Students will work in small groups on learning and practicing how to solve difficult conceptual problems, as well as using hands-on activities and concept mapping to help learn content.
Recommended: Corequisite MCDB 2150.

MCDB 2161 (2) From DNA to Genes, Phage Genomics Laboratory II
Provides laboratory experience working on a bacteriophage isolated during the previous semester. Topics include bioinformatics, genome annotation, open reading frame and RNA identification, BLAST analysis, phylogenetics and submission to a genomic database.
Requisites: Requires prerequisite course of MCDB 1161 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 2171 (2) Chemotherapeutic Discovery Through Hands-On Screens 2
Provides introductory research and laboratory experience. Students will work in teams to screen molecule libraries using fruit flies as a model system. Topics covered include the basic biology of the model system, genetics, approaches to screening for new therapeutics, statistical analysis of the data, compound verification and lead compound development.
Recommended: Prerequisite or corequisite MCBD 1150 or EBIO 1210.
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 2350 (3) Understanding Cancer: Introduction to the disease¿s biology, medicine, and societal implications
A course for students who want to learn about cancer but have little or no background in biology. It is based on a text that presents relevant science and medicine in a readable and comprehensible way. Classes will be discussion of material from the text with weekly quizzes for feedback. The ethics and economics of cancer treatments will be discussed, along with ways to minimize one¿s own cancer risk and live with cancer if necessary.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 2840 (1-3) Lower-Division Independent Study
Students with adequate prerequisites should take MCDB 4840.
Repeatable: Repeatable for up to 8.00 total credit hours.

MCDB 3000 (3) Synthetic Biology: Engineering Biomolecular Systems in the Laboratory
Hands-on research experience in engineering biological systems. Students will design biological systems to address relevant medical and environmental problems facing our society. They will learn how to build their molecular designs in the lab using current synthetic biology techniques. Students will also learn how to critically evaluate current research in the field and effectively communicate their own research. Formerly offered as a special topics course. Students can take MCDB 3001 as a continuing course for advanced research.
Requisites: Requires prerequisite courses of (MCDB 1150 and MCDB 2150) or CHEN 2810 (all minimum grade C).
Recommended: BCHM, ENGR and BCHM majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab

MCDB 3001 (3) Advanced Synthetic Biology: Engineering Biomolecular Systems in the Laboratory
This course in engineering biological systems is an extension of the hands-on research experience gained from MCDB 3000 and meant to take following completion of MCDB 3000. Students designed biological systems to address relevant medical and environmental problems facing our society in MCDB 3000. Engineering biological system in the lab often takes longer than one semester. MCDB 3001 teaches students new laboratory techniques that will allow them to take more involved projects to the next step and gain more confidence in the laboratory.
Requisites: Requires prerequisite course of MCDB 3000 (minimum grade C-).
Recommended: BCHM, ENGR and BCHM majors only.

MCDB 3010 (2) Undergraduate Teaching in Course-Based Undergraduate Research Experiences
To address the need for more advanced and continued participation in course-based research, MCDB 3010 is designed to train students who have taken MCDB 1171 or MCDB 2171 or MCDB 4202 as teaching assistants. The aim is to enhance the students' experience and responsibilities in course-based research and to prepare them for research and mentorship in a departmental or graduate laboratory.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Requires prerequisite course of MCDB 1171 or MCDB 2171 or MCDB 1161 or MCDB 4202 (minimum grade B).
Grading Basis: Letter Grade

MCDB 3020 (1) Next Steps: Preparing for Life After Graduation
Helps upper-division students prepare for what comes after graduation. Topics include exploring careers; how to write a resume or CV; interviewing tips; how to build your portfolio; asking for letters of recommendations. This course is specifically designed for juniors starting to prepare for the next stage post-graduation.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 3020 and IPHY 3020
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Pass/Fail

MCDB 3030 (3) Artificial Intelligence in Biology
Delves into the intersection of Artificial Intelligence and Biology by exploring the rich history of human and machine intelligence. We will uncover the significant implications of advances in AI within the biological sciences, including brain-machine interfaces, molecular structure predictions, biomedical diagnostics, drug discovery, and therapeutics. This course is designed to equip you with a comprehensive understanding of AI's role in advancing biological research and applications, preparing you for the rapidly evolving career opportunities in the field. Enhanced by guest lectures, this course offers both theoretical knowledge and a real-world perspective. Join us to navigate and contribute to the ethical and innovative applications of AI in biology, shaping the future of healthcare and environmental solutions.
Requisites: Prerequisites of MCDB 2150 or EBIO 2070 with a minimum of a C- or instructor consent.
Grading Basis: Letter Grade

MCDB 3105 (3) Antibiotics: Functions and Failures
Learn about treatments for infectious diseases, how the first antibiotics were discovered, where they come from, how and why they work, and how resistance develops. Understand how antibiotics make modern medicine possible. Explore ways clinicians minimize the spread of resistance to antibiotics. Examine how new antibiotics and other approaches to treating infection are being developed.
Requisites: Requires prerequisite course of MCDB 2150 (minimum grade C).
Grading Basis: Letter Grade

MCDB 3135 (3) Molecular Biology
Examines the central dogma of biology by discussing the most important molecules in cells (DNA, RNA and protein) and how their synthesis (DNA replication, transcription, RNA processing and translation) is regulated. Incorporated into the discussion is how recombinant DNA techniques are used to discover and dissect cellular processes, how to design and interpret experiments, and understanding the limits of experiments to draw conclusions.
Requisites: Requires prerequisite courses of MCDB 2150 or EBIO 2070 and CHEM 1113 or CHEM 1400 or CHEN 1201 or CHEN 1211 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3140 (2) Cell Biology Laboratory
Provides laboratory experience using microscopy, bioinformatics, DNA isolation, PCR and gel electrophoresis to study cell biology and gene expression in a model organism. Students will learn research skills such as interpreting data and planning experiments.
Recommended: Corequisite MCDB 3135 or MCDB 3145.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3145 (3) Cell Biology
Examines intracellular mechanisms, including transport of ions and small molecules across membranes; protein targeting to organelles; membrane trafficking between organelles; signal transduction; the cytoskeleton; and the cell cycle.
Requisites: Requires prerequisite courses of (MCDB 2150 or EBIO 2070) and (CHEM 1113 or CHEM 1400 or CHEN 1211) (all minimum grade C-).
Recommended: Prerequisite or corequisite MCDB 3140 concurrent with either this class or MCDB 3135.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3150 (3) Biology of the Cancer Cell
Highlights dimensions of the cancer problem; cancer as a genetic/cellular disease; chemicals, viruses, and radiation as causes of cancer; cancer and diet; cancer epidemiology; cancer risk factors; proto-oncogenes, oncogenes, and cancer suppressor genes; and prevention of cancer.
Recommended: Prerequisite MCDB 2150 or EBIO 2070 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3160 (3) Infectious Disease
Illustrate how cutting edge tools in genomics can be used to study, monitor and cure disease caused by new and re-emerging human pathogens such as SARS/MERS, Ebola virus, Neisseria meningitides, influenza virus and malaria parasites. Technologies covered will include genome sequencing, annotation, transcriptomics, phylogenetics and genotyping of microbial populations. An integrated approach to this topic will be presented, with these concepts threaded throughout: natural history and evolution of pathogens, molecular biology, immunology, epidemiology, public health and clinical diagnosis. There may be some overlap with material covered in MCDB 1030 and MCDB 4750.
Requisites: Requires prerequisite course of MCDB 2150 or EBIO 2070 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3161 (2) From DNA to Genes, Phage Genomics Laboratory II
Provides in-silico laboratory experience annotating bacteriophage genomes from bacteriophages that were isolated in MCDB 1161. Topics include genome annotation, predicting gene functions using BLAST and HHPred, independent research, scientific writing, and preparation of an annotation file that will be submitted to a public genome database.
Requisites: Requires prerequisite course of MCDB 1161 (minimum grade C-).

MCDB 3171 (2) Advanced Discovery Based Lab - Antibiotics
Provides students an opportunity to expand upon the research they performed in the introductory level course, Drug Discovery Through Hands on Screens I (MCDB 1171). Students will work in teams to validate potential antibiotics against human pathogens. Topics include hit validation, dose response, mechanism of action, applied statistical analysis, and an introduction to the primary literature.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Requires prerequisite course of MCDB 1171 (minimum grade C-).
Grading Basis: Letter Grade

MCDB 3181 (4) Microbial Planet Laboratory
Provides beginner friendly lab & research experience working on a microbiology project. The course teaches how to conduct original scientific research from hypothesis to experimentation, evaluation and reporting. Students study non-pathogenic microorganisms they isolate themselves from nature as part of the course. Hands-on topics covered in class include how to isolate & culture new microbes; how to observe, describe and classify them; and how to examine their metabolic capabilities such as the production of antibiotics.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 3181
Requisites: Requires prerequisite courses of CHEM 1113 and CHEM 1114 or CHEM 1400 and CHEM 1401 (all minimum grade C-).
Recommended: Prerequisite GEOL 1180 or MCDB 1150 or EBIO 1210.

MCDB 3300 (3) Personalized Medicine - Recent Advances in Diagnostics and Therapeutics
Time for personalized medicine is now. Attempts to learn from and put the patient/person back into the equation because personalized medicine, at its worst, does nothing personal at all. Discusses historical perspective, recent advances in molecular biology and medicine (including OMICS) in regards to diagnostics and therapeutics for selected human diseases, and what the future holds for personalized medicine. Guest lectures (medical experts, patients, family members) will further enrich the course.
Recommended: Prerequisites MCDB 2150 or EBIO 2070.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3330 (3) Evolution and Creationism
Intensive lecture/discussion course on the interrelationships among science, religion, and social policy. Includes historical and scientific development of evolution theory, social Darwinism/sociobiology, and the public perception of science.
Recommended: Prerequisite MCDB 1150 or EBIO 1210 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3333 (3) Biomedical Innovations and Discoveries
Discusses how biological inventions and discoveries fuel biomedical innovations, how important techniques in molecular biology have advanced our understanding of cellular processes and contributed to biotechnology revolution and biomedical sciences to benefit our society. Guest lectures from experts in industry and site visits will enhance the course by providing a non-academic perspective, networking opportunities, and unexpected avenues for career paths for our graduates. Department enforced prerequisite: MCDB 2150 or EBIO 2070 or instructor consent.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3350 (3) Fertility, Sterility, and Early Mammalian Development
Describes the production of germ cells, ovulation, fertilization, reproductive cycles, controls of reproduction, early development of the embryo, methods of contraception, and causes and treatments of sterility. Recommended for students planning careers in the health sciences.
Recommended: Prerequisite MCDB 1150 or EBIO 1210 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3450 (3) Biological Data Science
The central function of data science is to extract information from complex datasets. Biology is an increasingly large-data endeavor with health care records, genomics datasets, and extensive imaging. This course will develop core data science skills, including statistical analysis, visualization, data management, machine learning, and modeling.
Recommended: Prerequisite MCDB 2150 or EBIO 2070 (minimum grade C-), or exposure to probability theory.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3456 (1-9) Skills Center: Modular Laboratory of Advanced Modern Molecular Biology Skills
Dedicated to teaching students fundamental laboratory skills in modern molecular biology. The skills are updated on a rolling basis in consultation with MCDB faculty and local Pharma/Biotech companies in an effort to provide students with real world skills that can help them transition from a traditional lab course environment to a more independent research environment. Students can mix and match various skills to receive one or more university credit hours and students who successfully complete a module are given a certificate recognizing their competency. Available skills modules can be viewed at https://skillscenter.colorado.edu/
Repeatable: Repeatable for up to 15.00 total credit hours.
Recommended: Prerequisite MCDB 1234, MCDB 1150, MCDB 1111 or EBIO 1220.
Grading Basis: Letter Grade

MCDB 3501 (3) Structural Methods for Biological Macromolecules
Newest developments in cryo-electron microscopy opened new avenues to study cellular and molecular processes with high structural detail. The class will explore the most recent strategies in Structural Biology to study protein structure and function with a special focus on viral host-pathogen interactions and cell infection and its implications to cell function and architecture. The class will be composed of lectures, scientific paper discussions and hands-on problem solving and demonstrations on microscopes and software.
Recommended: Prerequisite MCDB 2150 or EBIO 2070 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3650 (3) The Brain - From Molecules to Behavior
Examines the molecular basis of the brain's role in thought, action, and consciousness by exploring issues such as relationship of cognition and localized brain function, sensory systems and their role in cognition, learning and memory, and behavioral neurochemistry.
Recommended: Prerequisite MCDB 2150 or EBIO 2070 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3651 (3) The Brain: Dysfunction to Disease
Misregulation of synaptic function results in abnormal brain function and behavior that is manifested in numerous neurological and psychiatric diseases. Explores the molecular mechanisms responsible for altered synaptic plasticity in neurological diseases such as frontotemporal dementia (FTD), Parkinson's disease, Huntington's disease, Creutzfeldt-Jakob disease, Down syndrome, epilepsy, autism, and Alzheimer's disease.
Recommended: Prerequisites MCDB 3650 or NRSC 2100 (minimum grade C-) or instructor consent required.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3700 (3) Poisons in Cell Biology and Society
Investigate the inner workings of our cells by studying how poisons disrupt these processes. We will learn how selected poisons affect critical processes inside the cell to cause death or destruction. The scientific aspects of the poison will be discussed in the context of its historical significance or impact on society and popular culture.
Requisites: Requires prerequisite course of MCDB 2150 or EBIO 2070 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 3990 (3) Introduction to Systems Biololgy for Biologists
Introduces majors with relatively little mathematical experience to the major concepts in systems biology, in the context of key processes (cell growth, division, adaptation, development, and disease). Designed to help students master the necessary mathematical tools involved.
Recommended: Prerequisites MCDB 3135 and MCDB 3145 and MATH 1310 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4001 (3) The What, The Why, and The How of Neural Tube Defects
Neural tube defects (NTDs) involve incomplete neural tube closure in embryos, resulting in embryonic death or lifelong health complications. Students will select a gene from a list of candidate human NTD genes and investigate whether its loss leads to an NTD in chick embryos. This course will train students in CRISPR, cloning, embryology, and "softer" research skills such as publication formatting, with the ultimate goal of supporting students' development as researchers.
Requisites: Requires prerequisite course of MCDB 3140 (minimum grade C-).
Recommended: Junior or Senior standing.

MCDB 4100 (1-6) Special Topics
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4105 (3) Function of Cellular and Nuclear, Assemblies, and Machines
Maintaining cellular functions requires a coordinated interaction of all kinds of organelles, assemblies and machines. This course will explore the structure, function, regulation and interactions of cellular organelles, supramolecular assemblies, and molecular machines (motors, ribosomes, polymerases, channels, etc.). Students will be exposed to a set of lectures and prepare specific papers that will be discussed in the group.
Grading Basis: Letter Grade

MCDB 4150 (3) Biology of Aging and Longevity
Through lectures and reading assignments, this capstone course will introduce fascinating cellular and molecular mechanisms underlying aging and longevity based on historical and recent research achievements. We will discuss major aging theories and multiple cellular regulatory systems that prominently affect lifespan. The course will integrate basic concepts from multiple other courses by addressing specific physiological problems in the aging field and present students with the opportunity to learn the reasoning process in cutting-edge biomedical research.
Requisites: Requires prerequisite courses of (MCDB 1150 or EBIO 1210) AND (MCDB 2150 or EBIO 2070) (minimum grade of C-).
Recommended: Prerequisite MCDB 3135 or MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4185 (3) Geomicrobiology
Examines how microbial and chemical processes interact on the Earth¿s surface today and have shaped the planet throughout its history. Emphasis will be placed on how the life styles and chemical ingenuity of microorganisms drive key biogeochemical processes including weathering and transformations of carbon, oxygen, sulfur, iron and nitrogen. Towards this goal, major geologic and evolutionary events will be examined through the lens of microbial diversity, metabolic energetics, microbe-mineral interactions, and molecular biomarkers.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 5185, ENVS 4185, and GEOL 4185
Requisites: Requires prerequisite courses of CHEM 1113 and CHEM 1114 or CHEM 1400 and CHEM 1401 (minimum grade C-).
Recommended: Prerequisites GEOL 1180 or MCDB 1150 or GEOL 3320 or EBIO 3400 or ENVS 4160 or EVEN 4484.
Grading Basis: Letter Grade

MCDB 4201 (3) From Bench to Bedside: The Role of Science in Medicine
Demonstrates the breadth of research in the life sciences and how such research (not just in medical schools) can lead to medical applications. Lecturers from life sciences, the medical school and biotechnology, discuss drug development and the transfer of research into the clinical arena. Students also prepare a paper and presentation on the development of a commercial drug.
Recommended: Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4202 (3) The Python Project
Studies how python hearts grow after they consume a meal. Understanding the molecular processes of growth and regression in the python heart could lead to development of therapeutics for heart disease. Students work in groups in the laboratory and generate novel data by using modern molecular biology and bioinformatic techniques to clone and sequence candidate molecules of the python genome. May be repeated once.
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4234 (3) Research Methods
Presents a rigorous and pedagogically coherent introduction into the experimental process used to collect data, formulate hypotheses, and answer scientific questions in general, and biological questions in particular. Includes a detailed consideration of the elements of experimental design, data collection and analysis, and the interpretation of results in the context of effective science teaching. Part of the CU Teach course sequence for teacher certification in science and mathematics.
Requisites: Restricted to Biological Sciences (MCDB) majors or School of Education (EDUC) undergraduate students only.
Recommended: Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4300 (3-4) Immunology
Emphasizes cellular and molecular mechanisms by which organisms protect themselves from pathogens and the experimental basis for our understanding of these processes. Discusses development, function, and misfunction of t-cells, b-cells and other components of the immune system, focusing on the human immune system.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5301
Requisites: Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4310 (3) Microbial Genetics and Physiology
Examines the physiology and genetics of bacteria, Archaea and viruses. Particular emphasis will be on metabolism, regulation of gene expression and protein function, mechanisms of interactions with and manipulation of the environment, and evolution in response to environmental pressures.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5310
Recommended: Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-) and recommended corequisite of CHEM 4611.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4312 (3) Quantitative Optical Imaging
Explores the fundamentals of optical imaging in biology, especially molecular and cellular biology. Covered topics include an introduction to optics and microscopes, fluorescence microscopy and image analysis, and biological applications. MATLAB will be taught at the beginning of the course and used throughout for image processing. Prior experience with MATLAB (or Python) is highly recommended but not required.
Equivalent - Duplicate Degree Credit Not Granted: BCHM 4312, MCDB 5312 and BCHM 5312
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4350 (3) Microbial Diversity and the Biosphere
Provides a molecular phylogeny-based perspective on microbial diversity and the interactions between organisms that result in the biosphere. Provides overview of recent methods and findings in microbial ecology, as well as computer-based workshop in molecular phylogeny. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5350
Recommended: Prerequisites MCDB 1150 or EBIO 1210 and CHEM 1133 and EBIO 3400 and/or CHEM 3311 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4410 (3) Human Molecular Genetics
Studies the human organism as a genetic system, including effect of mutation on protein structure and function, biochemical basis of human genetic disease, polymorphic gene loci, gene mapping and identification, gene cloning and characterization, and impact of human genetics on medicine and society. Fulfills MCDB scientific reasoning requirement.
Recommended: Prerequisite MCDB 3135 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4420 (3) Genetics of Brain and Behavior
Examines the genetic underpinnings of animal behavior, including an examination of behavioral evolution and the use of genes as tools to examine neural architecture. We will cover topics including foraging, social behavior, personality, parental care and fear. We will explore these behaviors at multiple levels, including genomics, population genetics, molecular genetics, epigenetics, endocrinology and neurobiology. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 4420
Requisites: Requires NRSC 2100 or (NRSC 2125 and NRSC 2150) and (EBIO 2070 or MCDB 2150). All minimum grade C-.
Grading Basis: Letter Grade

MCDB 4422 (3) Molecular Biology of Free Radicals: Role(s) in Oxidative Stress, Signaling, Disease, Aging
Examines how free radicals are formed in biological systems and their roles in oxidative stress, cell signalling, aging, and disease. Emphasis will be placed on the recent literature. Fulfills MCDB scientific reasoning requirement.
Recommended: Prerequisites MCDB 3135 and MCDB 3145 and CHEM 3311 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4425 (3) Topics in Membrane Biology: Cell Biology, Physiology and Disease
Students will apply their knowledge of basic biology to exploring several of the most exciting topics in biomedicine including protein folding and stress responses, nutrient sensing and balance and signal transduction across membranes. Emphasis will be placed upon human physiology and associated human diseases including Alzheimer's disease, diabetes and cardiovascular disease. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5425
Recommended: Prerequisites MCDB 3135 and MCDB 3145 or instructor consent.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4426 (3) Cell Signaling and Developmental Regulation
Introduces several cell signaling processes and their biological functions. Students read and analyze original research articles to learn the thinking processes of scientific research. Writing assignments and oral presentations are required. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5426
Recommended: Prerequisites MCDB 3135 and MCDB 3145 and CHEM 4700 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4428 (3) Regulation of Lifespan
Lectures and literature reading/discussion will introduce students to historical, fascinating and cutting-edge research achievements, as well as the basic genetic/biochemical approaches, towards understanding cellular signaling systems and mechanisms that regulate the aging process and lifespan of animals and humans. Through the combination of presentation, discussion, homework and two exams, students will learn the reasoning process of scientific research in the aging field, become familiar with typical experimental approaches and improve their communication ability.
Requisites: Requires prerequisite course of MCDB 3135 (minimum grade C-).
Grading Basis: Letter Grade

MCDB 4441 (4) Animal Developmental Diversity
Surveys development in a range of vertebrate and invertebrate systems to reconstruct the common bilatorian ancestor, and elucidate the developmental genetic changes underlying animal diversification. Lab focuses on vertebrate embryos and explores key methods in evolutionary developmental biology including in situ hybridization, embryo microinjection, and transgenesis.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5441 and EBIO 4440 and EBIO 5440
Recommended: Prerequisites MCDB 1150 or EBIO 1210 and MCDB 2150 or EBIO 2070 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4444 (3) Cellular Basis of Disease
Explores the cellular basis of disease. Discusses diseases arising from defects in intracellular targeting, cytoskeletal function, intracellular signaling, genomic instability, gene regulation, cell proliferation, and cell death. Involves student-organized presentations and classroom discussion. Fulfills MCDB scientific reasoning requirement.
Recommended: Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4471 (3) Mechanisms of Gene Regulation in Eukaryotes
Focuses on manifestations of regulated gene expression. Studies gene regulation at multiple steps, including transcription, RNA processing and translation. Is based on critical analysis of primary research papers. Written assignments and oral presentations are required. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5471
Recommended: Prerequisite MCDB 3135 (minimum grade C-) or instructor consent required.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4520 (3) Bioinformatics and Genomics
Computational and experimental methods in bioinformatics and genomics, and how these methods provide insights into protein structure and function, molecular evolution, biological diversity, cell biology and human disease. Topics include database searching, multiple sequence alignment, molecular phylogeny, microarrays, proteomics and pharmacogenomics.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5520
Recommended: Prerequisites MCDB 3135 or CHEM 4700 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4521 (1) Bioinformatics and Genomics Laboratory
Provides experience with, and exposure to, computational and experimental methods in bioinformatics and genomics. Meets once a week. Students are expected to read original research papers, discuss findings, plan and execute data analysis in selected areas.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5521
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4550 (3) Cells, Molecules and Tissues: A Biophysical Approach
Focuses on the biophysics governing the structure/function of enzymes, cells, extracellular matrix and tissue. Synthesizes ideas from molecular biology, physics, and biochemistry, emphasizing how low Reynolds number physics, not Newtonian physics, is relevant to life inside a cell. Fulfills MCDB scientific reasoning requirement. Recommended restrictions: Cannot be repeated if taken as a special topics course.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5550 and PHYS 4550 and PHYS 5550
Recommended: Prerequisites MCDB 3135 and MCDB 3145 and PHYS 2010 and PHYS 2020 and CHEM 1133 and MATH 1300 and/or CHEM 3311 (minimum grade C-) or instructor consent required.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4560 (3) Introduction to Biophysics
Covers an introduction to the physics of living systems. Focuses on how living systems are able to generate order, with both physical principles and biological examples. Covers the development of quantitative models for biological systems, including estimates. Taught from a physics perspective, with biology background introduced as needed.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5560 and PHYS 4560 and PHYS 5560
Requisites: Requires a prerequisites course of PHYS 2210 (minimum grade C-).
Recommended: Prerequisite PHYS 4230.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4567 (3) Skills Center Linked Lab Research Project
This course is a Skills Center Linked Lab independent project. Students who have sucessfully completed linked lab (https://skillscenter.colorado.edu/labs.html) skills through MCDB 1234/3456 are eligible to take MCDB 4567. Student work with a linked lab advisor and the Skills Center proctors to develop a research project and the student completes the project in the Skills Center or in the Linked Lab and learn research skills such as interpreting data and planning and executing experiments, data interpretation, statistical analysis and presentation.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course of MCDB 3456 (minimum grade C-).
Grading Basis: Letter Grade

MCDB 4615 (3) Biology of Stem Cells
Stem cells have received considerable notice in both the scientific and social arena. Examines the stem cell concept by a critical examination of the primary scientific literature. Topics will include pluripotency and plasticity, environment, technology, self-renewal, transdifferentiation, molecular signature, epigenetic programming and stem cell versus cancer cell. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5615
Recommended: Prerequisite MCDB 3135 or MCDB 3145 or instructor consent required.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4650 (3) Developmental Biology
Explores the development of invertebrate and vertebrate organisms, emphasizing cellular, molecular and genetic mechanisms. Focuses on conceptual understanding and experimental approaches to topics such as embryology, developmental control of gene expression in eukaryotic cells, mechanisms of differentiation and morphogenesis and developmental genetics.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5651
Requisites: Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4680 (3) Mechanisms of Aging
Studies aging as a developmental process emphasizing genetic, cellular and molecular mechanisms. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5680
Recommended: Prerequisites MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4750 (3) Animal Virology
Encompasses the structure and replication of both lytic and transforming animal viruses. Emphasizes diversity of naturally occurring genomic structures and the resulting strategies of infection as well as the impact of viral epidemics on society. Includes critical analysis of primary research papers. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5750
Recommended: Prerequisite MCDB 3135 (minimum grade C-) or instructor consent required.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4777 (3) Molecular Neurobiology
Introduces the functional anatomy of the nervous system and explores current knowledge regarding the molecular and genetic basis of the development and function of the nervous system. Studies recent insights into the molecular basis of neurodegenerative diseases, in the last portion of the course.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5777
Requisites: Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4790 (3) Oocytes, Stem Cells, Organisms: Experiments to Discoveries
Develop critical thinking, scientific reasoning and communication skills by reading and presenting primary research articles and Nobel Prize winning research on patterning, stem cells, cell death, genetic and epigenetic mechanisms that regulate embryonic development. Learn about experimental approaches from a historical and present view, while discussing their ethical implications.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4800 (3) Molecular Evolution: How Natural Selection has Shaped the Molecules of Life
This course explores how Darwin¿s idea has shaped the structures of DNA, RNA and proteins across the long history of life on earth. Natural selection driving the evolution these macromolecules and subsequent developmental pathways will be fully appreciated as the process that ultimately produced the amazing variety of species on this planet. Looking ahead, our recent efforts to harness the power of evolution in the test tube to develop new therapies will be covered.
Requisites: Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).

MCDB 4810 (3) Insane in the Membrane: The Biology and Biophysics of the Membrane
Studies the biology and physics of the biomembrane. Topics include structure and mechanism of membrane proteins; membrane biogenesis; membrane protein folding and stability; membrane homeostasis; mechanisms of membrane fusion and fission; lipid trafficking. Fulfills MCDB scientific reasoning requirement.
Recommended: Prerequisite CHEM 4700 (minimum grade C-) or instructor consent required.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4811 (3) Teaching and Learning Biology
Provides an introduction to recent research into student learning on the conceptual foundations of modern biology, together with pedagogical methods associated with effective instruction and its evaluation. Students will be involved in active research into conceptual and practical issues involved in biology education, methods to discover student preconceptions, and the design, testing and evaluation of various instructional interventions.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 6811 and EDUC 4811 and MCDB 5811 and EBIO 4811
Recommended: Prerequisites MCDB 1150 or EBIO 1210 and MCDB 2150 and MCDB 3145.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MCDB 4840 (1-6) Upper-Division Independent Study
An independent study contract is required.
Repeatable: Repeatable for up to 8.00 total credit hours.
Recommended: Prerequisite MCDB 2150.

MCDB 4900 (1-6) Public Health Practicum
Offers practical experience in Public Health with direct supervision.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4900 and IPHY 4900
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

MCDB 4960 (1) Research Communication: Analyzing Data and Effectively Communicating Science for Honors Students
This course is intended for MCDB honors students and to be taken the same semester as their undergraduate thesis defense. The course will teach honors students how to analyze their research data with proper statistics and effectively write their undergraduate honors thesis. Students will also gain experience in presenting their research to an audience with constructive feedback given.
Requisites: Requires prerequisite courses of MCDB 3135 and MCDB 3145 (minimum grade C-).

MCDB 4980 (3) Honors Research
Provides faculty-supervised research for students who have been approved by the departmental honors committee. Normally taken during the semester before completion of the honors thesis.
Recommended: Prerequisite MCDB 4840 or comparable research experience, and minimum GPA of 3.20.
Additional Information: Arts Sciences Honors Course

MCDB 4990 (3) Honors Thesis
Involves the preparation and defense of an honors thesis, based on faculty-supervised original research, including final phases of the research project.
Recommended: Prerequisites MCDB 4840 or MCDB 4980 or comparable research experience, and minimum GPA of 3.3 and approval by the MCDB Honors Committee.
Additional Information: Arts Sciences Honors Course

Molecular, Cellular and Developmental Biology - Bachelor of Arts (BA)

The undergraduate degree in molecular, cellular and developmental biology emphasizes knowledge and awareness of:

- The biological sciences in general and a detailed understanding of currently important aspects of cellular biology, molecular biology, biochemistry, genetics and developmental biology; and
- The relationship of the specialty area to broader areas of science and to society in general, including ethical issues raised by current biological research and by the rapid growth of biotechnology as an important shaping force for the future.

In addition, students completing the degree in molecular, cellular and developmental biology are expected to acquire the ability and skills to:

- Learn detailed laboratory procedures rapidly when the need arises;
- Demonstrate a scientific vocabulary and an understanding of research methods that permits the comprehension of current journal articles, extraction of pertinent information and judgment of the quality of the work described;
- Evaluate a biological problem, determine which aspects are understood and apply basic research methods and techniques to the unknown aspects; and
- Communicate scientific concepts and analytical arguments clearly and concisely, both orally and in writing.

Prerequisites

It is MCDB policy to enforce the course prerequisites listed in the course catalog. If you have not either taken and passed (C- or better) the prerequisites for a course, or obtained permission from the instructor or a departmental advisor to take the course based on equivalent preparatory coursework or experience here or elsewhere, you may be administratively dropped from the course.

Course Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. All required major courses and all required ancillary courses must be passed with a C- or better and cannot be taken pass/fail. Students must have a grade point average of at least 2.000 in the major in order to graduate.

It is strongly recommended that MCDB majors consult with a departmental advisor before applying AP, IB or CLEP credit. Students majoring in MCDB who transfer biology credit from other institutions also must consult a departmental advisor.

Students who plan to double major with biochemistry or chemistry are encouraged to meet with an academic advisor to understand how their chemistry courses will apply to the MCDB major.

Students who plan to also pursue a degree in engineering are encouraged to meet with an academic advisor to understand how their chemistry and calculus courses will apply to the MCDB major.

Required Courses and Credits

Code	Title	Credit Hours
Required Major Courses		
Introductory Coursework		
Select one:		3
MCDB 1150	Introduction to Cellular and Molecular Biology (MCDB 1152 is a recommended coseminar for MCDB 1150) [1]	
MCDB 1111	(MCDB 1152 is not a recommended coseminar for MCDB 1111)	
Genetics		
Select one:		3
MCDB 2150	Principles of Genetics (MCDB 2152 is a recommended coseminar for MCDB 2150) [2]	
MCDB 2222	(MCDB 2152 is not a recommended coseminar for MCDB 2222)	
Research-Based Introductory Labs		
Select one:		2
MCDB 1161	From Dirt to DNA: Phage Genomics Laboratory I	
MCDB 1171	Antibiotics Discovery Through Hands-on Screens I	
MCDB 1181	Biological Probiotic/Drug Discovery Through Hands-on Screens	
MCDB 2171	Chemotherapeutic Discovery Through Hands-On Screens 2	
Cell Biology		*8*
MCDB 3135	Molecular Biology	
MCDB 3140	Cell Biology Laboratory	
MCDB 3145	Cell Biology	
Development Biology		*3*
MCDB 4650	Developmental Biology	
Upper-division capstone and scientific reasoning requirements		
Capstone		*3*
Select one:		
MCDB 4300	Immunology	
MCDB 4777	Molecular Neurobiology	
MCDB 4150	Biology of Aging and Longevity	
Scientific Reasoning		
Select one (see department for full list of approved courses)		3
MCDB 4350	Microbial Diversity and the Biosphere	
MCDB 4361		
MCDB 4410	Human Molecular Genetics	
MCDB 4420	Genetics of Brain and Behavior	
MCDB 4422	Molecular Biology of Free Radicals: Role(s) in Oxidative Stress, Signaling, Disease, Aging	
MCDB 4425	Topics in Membrane Biology: Cell Biology, Physiology and Disease	
MCDB 4426	Cell Signaling and Developmental Regulation	
MCDB 4427		
MCDB 4444	Cellular Basis of Disease	
MCDB 4471	Mechanisms of Gene Regulation in Eukaryotes	
MCDB 4550	Cells, Molecules and Tissues: A Biophysical Approach	
MCDB 4615	Biology of Stem Cells	
MCDB 4680	Mechanisms of Aging	
MCDB 4750	Animal Virology	
MCDB 4810	Insane in the Membrane: The Biology and Biophysics of the Membrane	
MCDB 4811	Teaching and Learning Biology	
Electives		
An additional 6 credit hours of upper-division electives (any MCDB 3000 or MCDB 4000 level) [3]		6
Total Credit Hours		**31**

Code	Title	Credit Hours
Required Ancillary Courses:		
Complete the following chemistry and biochemistry courses:		18
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	
CHEM 3311 & CHEM 3321	Organic Chemistry 1 and Laboratory in Organic Chemistry 1	
BCHM 4611	Principles of Biochemistry	
Select one of the following calculus or statistics courses: [4]		3-5
Calculus:		
MATH 1300	Calculus 1	
MATH 1310	Calculus for Life Sciences	
APPM 1350	Calculus 1 for Engineers	
Statistics:		
MATH 2510	Introduction to Statistics	
EBIO 1010	Introduction to Statistics and Quantitative Thinking for Biologists	
EBIO 4410	Biological Statistics	
IPHY 3280	Intro to Data Science and Biostatistics	
PSYC 2111	Psychological Science I: Statistics	
Total Credit Hours		**21-23**

1. EBIO 1210 is an acceptable alternative to MCDB 1150.
2. EBIO 2070 is accepted in place of MCDB 2150.
3. Up to 6 hours of MCDB 4840 Upper-Division Independent Study, MCDB 4980 Honors Research, MCDB 4990 Honors Thesis, or select courses from outside MCDB may be used. A minimum of 3 credit hours of MCDB upper-division electives must be taken on the Boulder campus. See department for details.
4. Not all the courses in this category will also meet the QRMS component of the Gen Ed Skills Requirement.

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in molecular,

cellular and developmental biology, students should meet the following requirements:

- In the first semester, declare the MCDB major. (If the major is not started in the first year, the student must meet with an MCDB academic advisor to ensure that it is still possible to complete the major in four years.)
- During the first and second semesters, complete either general chemistry or the introductory MCDB sequence.
- By the end of the fourth semester, complete general chemistry and the introductory MCDB sequence with a C- or better.
- By the end of the eighth semester, complete the major.

Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement, including the Lab requirement, and, potentially, the QRMS component of the Gen Ed Skills Requirement.

Year One		
Fall Semester		**Credit Hours**
MCDB 1150 or MCDB 1111	Introduction to Cellular and Molecular Biology or	3
MCDB 2 Credit Hour Lab		2
MCDB 1152	Problem Solving Co-Seminar for Introduction to Molecular and Cellular Biology (strongly recommended in conjunction with MCDB 1150, not required)	1
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	5
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
	Credit Hours	**14**
Spring Semester		
MCDB 2150 or MCDB 2222	Principles of Genetics or	3
MCDB 2152	Problem Solving Co-Seminars for Genetics (strongly recommended in conjunction with MCDB 2150, not required)	1
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	5
Gen. Ed. Distribution course (example: Social Sciences)		3
Gen. Ed. Skills course (example: QRMS) or Elective if QRMS is fulfilled by major requirement.		3
	Credit Hours	**15**
Year Two		
Fall Semester		
MCDB 3135 or MCDB 3145	Molecular Biology or Cell Biology	3
MCDB 3140 or MCDB 3145	Cell Biology Laboratory (MCDB 3140 may be taken at the same time as MCDB 3135 or MCDB3145) or Cell Biology	
CHEM 3311 & CHEM 3321	Organic Chemistry 1 and Laboratory in Organic Chemistry 1	5
Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)		3
Elective		3
	Credit Hours	**14**
Spring Semester		
MCDB 3145	Cell Biology	3
MATH 1300 OR Statistics: Calculus 1 or Statistics OR (some students may decide to take Organic Chemistry 2 as an approved out of department, upper division MCDB elective, in that case, taking stats or calc is advised for later semesters)		3-5
Gen. Ed. Distribution course (example: Social Sciences)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective (only if taking Statistics)		3
	Credit Hours	**15-17**
Year Three		
Fall Semester		
MCDB 4650	Developmental Biology	3
BCHM 4611	Principles of Biochemistry	3
Gen. Ed. Skills course (example: Upper-division Written Communication)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Free Elective		3
	Credit Hours	**15**
Spring Semester		
Free elective		3
MCDB Science Reasoning		3
Gen. Ed. Distribution course (example: Social Sciences)		3
Upper-Division Elective		3
Upper-Division Elective		3
	Credit Hours	**15**
Year Four		
Fall Semester		
MCDB Capstone		3
MCDB upper division elective		3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)		3
Free Elective		3
Free Elective		3
	Credit Hours	**15**
Spring Semester		
MCDB Upper-division Elective		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Upper-Division Elective		3
Free elective		3
Free elective		3
	Credit Hours	**15**
	Total Credit Hours	**118-120**

Learning Outcomes

By the completion of the program, students will be able to:

- Connect the principles of evolution to the cellular, molecular and genetic properties of organisms, including how genomes and allele frequencies change over time.
- Describe the assembly and properties of macromolecular complexes and membranes, the movement of molecules and macromolecules, and the chemical properties that underlie these functions.
- Describe how the genetic information in a cell is stored, replicated, transcribed and translated, and compare the different mechanisms and consequences of gene expression regulation.
- Describe the basic features of inter- and intra-cellular signaling systems and interpret the ways that they can influence, directly and indirectly, gene expression, cellular behaviors, and organismic phenotypes.
- Describe the mechanisms of inheritance, including deducing information about genes, alleles, mutations and gene functions from analyses of genetic crosses and patterns of inheritance.
- Distinguish between different experimental techniques, justify their use to test specific hypotheses and interpret conclusions from experimental data.
- Carry out basic research using standard cell and molecular biology techniques and communicate that research through both written and oral presentations.

Molecular, Cellular and Developmental Biology - Minor

The department offers a minor in molecular, cellular and developmental biology. Declaration of the minor is open to any student enrolled at CU Boulder, regardless of college or school.

Requirements

Students must complete a total of 20 credit hours of molecular, celular and developmental biology coursework, 12 of which must be at the upper-division level. Students must maintain an overall and minor GPA of at least 2.00 (C), and complete all MCDB courses with a C- or better.

Students may apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward the minor.

Required Courses and Credits

Code	Title	Credit Hours
Required Courses		
MCDB 1150	Introduction to Cellular and Molecular Biology	3
or MCDB 1111

Upper-division MCDB coursework (3000-level or higher)		6
Total Credit Hours		**20**

Peace, Conflict and Security Studies

The Certificate in Peace, Conflict and Security Studies (PACS) is designed to help students explore why conflict and violence occur, and to develop practical, nonviolent skills to analyze, intervene and resolve conflicts in their personal life, in their communities and between countries. The certificate is granted by the College of Arts and Sciences. All enrolled CU Boulder undergraduate students, regardless of school or major, may apply for and earn the PACS Certificate.

The program utilizes an interdisciplinary perspective on the study of conflict, cooperation, violence, war and peacemaking. Coursework focuses on theorizing and analyzing various levels of conflict, from the interpersonal to international and related possibilities for personal and social change. Coursework also emphasizes the development of transferable skills and experiential learning in conflict resolution and civic activism. The program encourages hands-on, "in the field" engagement through volunteer service, enrollment in study-abroad programs and internship placement with related agencies and programs.

For more information or an application, visit the Peace, Conflict and Security Studies Program (http://www.colorado.edu/pacs/) website.

Course code for this program is PACS.

Certificate

- Peace, Conflict and Security - Certificate (p. 500)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

English, Michael D. (https://experts.colorado.edu/display/fisid_164260/)
Instructor, Associate Faculty Director; PhD, George Mason University

Courses

PACS 2500 (3) Introduction to Peace, Conflict and Security Studies
Introduces the related fields of peace, conflict and security studies. Examines causes and dynamics of conflict and violence (interpersonal to global). Examines theory and research concerning peace movements, conflict resolution and security institutions. Explores career options in related fields.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective Arts Sci Gen Ed: Distribution-Social Sciences

PACS 3540 (3) Migration, Human Rights, and Conflict in the Mediterranean
Faculty-led Global Seminar, based in Malta, provides the opportunity to study social, political, and economic issues surrounding international migration, Focuses on causes and consequences of recent migration flows from nations in the Middle East and Sub-Saharan Africa to European nations located in the Eastern Mediterranean. Students will interact with representatives of state governments, NGOs, and activist groups, and learn about the rich culture and history of Malta as a pivotal state promoting international diplomacy and regional security.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3540
Requisites: Requires prerequisite course of PACS 2500 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective

PACS 3700 (3) Communication and Conflict Management
Examines interdisciplinary concepts and theories enabling students to better understand different types of conflict, sources of conflict, and communication patterns that serve to create, maintain and transform conflict. Teaches practical skills in conflict management areas such as bargaining, facilitation, mediation and negotiation.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PACS 2500.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PACS 3800 (3) Security Studies
Provides an introduction to the academic field of "Security Studies". Focuses on motives, institutions and processes associated with societal defense against threats posed to cherished possessions and the pursuit of stable, autonomous and prosperous existence. Reviews related theoretical traditions associated with militarism, war and conflict. Covers key concerns of (in-)security in post 9/11 global society, including surveillance, terrorism, genocide and insurgency.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PACS 3850 (3) International Conflict Resolution and Peacebuilding
Provides an introduction to the interdisciplinary field of international conflict resolution and peacebuilding. Provides tools for analyzing and intervening in contemporary manifestations of violent social conflict. Argues for an approach to international affairs rooted in more nuanced understandings of the nature of violent conflict and its dynamics. Bases the quest to build sustainable peace not on military supremacy or coercive diplomacy, but rather the ability of states and peoples to work collaboratively to develop mutually beneficial solutions aimed at the satisfaction of basic needs, collective security, political representation, and respect for human dignity. Explores how international conflicts are mitigated, contained, and resolved through processes such as DDR (disarmament, demobilization, and reintegration), citizen diplomacy, and reconciliation.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3850
Recommended: Prerequisite PACS 2500.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective

PACS 3860 (3) Environmental Conflict and Conflict Resolution
This course focuses on the environment as a source of conflict in international and intranational contexts. Considers natural resource scarcity and extraction as causes of conflict and violence, the growing phenomenon of climate-change-induced migration, as well as the effects of war on the environment. Prospects for conflict intervention involving multiparty stakeholders, international cooperation, and environmentally sustainable development practices are explored as methods for resolving these situations.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PACS 3870 (3) Nonviolent Civil Resistance: Movements and Strategies
Explores the development of nonviolent practices for creating social change. Examines cases from around the globe, both historical and contemporary, to understand the reasons actors form social movements, as well choices in tactics and strategies associated with nonviolent civil resistance to achieve their aims. Special attention is paid to the relationship between community organizing, social movement activism, and nonviolent revolution.
Recommended: Prerequisite PACS 2500.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PACS 4000 (3) Special Topics in Peace, Conflict and Security Studies
Upper division umbrella seminar spanning a variety of topics relevant to the study of peace, conflict and security related issues. Subjects addressed under this heading vary according to student interest and faculty availability.
Repeatable: Repeatable for up to 9.00 total credit hours.
Recommended: Prerequisite PACS 2500, PACS 3700 or PACS 3850.
Grading Basis: Letter Grade

PACS 4100 (3) Managing Organizational Conflict
This course introduces students to organizational conflict from a leadership perspective, the facilitative role leaders play in conflict intervention, and how leadership styles can affect organizational dynamics. Engaging with conflict productively requires leaders to recognize relational and structural factors that generate conflict. Leaders must guide difficult conversations and manage a range of situations. This includes challenges such as working in teams, remote/hybrid formats, cultural dimensions, and those related to gender discrimination and racial harassment.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PACS 3700 or PACS 3860.
Grading Basis: Letter Grade

PACS 4150 (3) Mediation Skills
This 3-credit seminar trains students in facilitative mediation. The essential skills learned in this course are for anyone interested in helping people navigate, manage, and resolve conflicts in personal and professional settings. Students will engage in hands-on, experiential learning, participating in role plays and other exercises designed to teach them the basics of mediation as well as how to strengthen their communication and listening skills while working with those experiencing conflict. Formerly offered as a special topics course.
Recommended: Prerequisite PACS 3700.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PACS 4500 (3) Senior Seminar: Research in Conflict Contexts
Course prepares students interested in working in the field of peace, conflict, and security studies with necessary research skills to navigate conflict contexts and collaborate with conflict-affected populations. Students conduct in-depth research projects, and develop data collection and analysis skills, specifically focusing on interviews, surveys, and secondary sources. Emphasizes use of critical thinking skills in writing, presentations, and class discussion, as well as explores ethical considerations faced in conflict zones.
Recommended: Prerequisite course of PACS 2500, PACS 3700, PACS 3850, or PACS 3860 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PACS 4900 (3) Undergraduate Independent Study
Provides opportunities for independent study at the upper-division undergraduate level. Students work on research or a creative project guided by PACS faculty. May only be taken once for 3 credit hours. Department consent required prior to registration.
Requisites: Requires prerequisite courses of PACS 2500 and PACS 3700 or PACS 3850 (minimum grade C). Restricted to students with 57-180 credits (Junior or Seniors).
Recommended: Prerequisite C average or higher in all PACS coursework and enrollment in the PACS Certificate Program.
Grading Basis: Letter Grade

Peace, Conflict and Security - Certificate

The Certificate in Peace, Conflict and Security Studies (PACS) is designed to help students explore why conflict and violence occur, and to develop practical, nonviolent skills to analyze, intervene and resolve conflicts in their personal life, in their communities and between countries. The certificate is granted by the College of Arts and Sciences. All enrolled CU Boulder undergraduate students, regardless of school or major, may apply for and earn the PACS Certificate.

The program utilizes an interdisciplinary perspective on the study of conflict, cooperation, violence, war and peacemaking. Coursework focuses on theorizing and analyzing various levels of conflict, from the interpersonal to international, and related possibilities for personal and social change. Coursework also emphasizes the development of transferable skills and experiential learning in conflict resolution and civic activism. The program encourages hands-on, "in the field" engagement through volunteer service, enrollment in study-abroad programs and internship placement with related agencies and programs.

For more information or an application, visit the Peace, Conflict and Security Studies Program (http://www.colorado.edu/pacs/) website.

Course code for this program is PACS.

Requirements

Completion of the certification requires 18 credit hours (9 upper-division) of study, up to six (6) of these credit hours may completed through approved transfer credit. Each of these courses must be completed with a grade of C- or better. These courses must also include:

Required Courses and Credit Hours

Code	Title	Credit Hours
Required Courses		
Introductory Course		
PACS 2500	Introduction to Peace, Conflict and Security Studies	3
Conflict Resolution Course		*3*
PACS 3700	Communication and Conflict Management	
PACS 3850	International Conflict Resolution and Peacebuilding	
PACS 3860	Environmental Conflict and Conflict Resolution	
Senior Capstone Course		*3*
PACS 4000	Special Topics in Peace, Conflict and Security Studies	
PACS 4100	Managing Organizational Conflict	
PACS 4150	Mediation Skills	
PACS 4500	Senior Seminar: Research in Conflict Contexts	
PACS 4900	Undergraduate Independent Study	
PACS Elective [1]		*3*
Choose one of the following courses or one of the courses listed in Conflict Resolution or Senior Capstone that were not used to fill those specific requirements		
PACS 3800	Security Studies	
PACS 3870	Nonviolent Civil Resistance: Movements and Strategies	
PSCI 3123	War, Peace, and Strategic Defense	
Outside PACS Electives [2]		
6 credit hours of relevant course work related to PACS from non-PACS courses		6
Total Credit Hours		**18**

1. Students may select a PACS Elective of their choice as long as the course differs from the PACS Conflict Resolution and Senior Capstone courses. For instance, a student may take PACS 3700 to fill the Conflict Resolution requirement and then PACS 3850 as their PACS elective.
2. The PACS website contains a list of approved courses (https://www.colorado.edu/pacs/approved-courses-category/) that students may complete to fulfill the outside course requirements. The PACS director may allow for substitutions of approved outside courses on a case by case basis.

Philosophy

Philosophy provides an essential component in any sound general education: that form of education designed not to prepare one for a specific career, but to give one a broad and general understanding of the world, the place of human beings in the world and human values, as well as general intellectual skills that can be brought to bear on diverse subject matters.

Course code for this program is PHIL.

Bachelor's Degree

- Philosophy - Bachelor of Arts (BA) (p. 509)

Minor

- Philosophy - Minor (p. 513)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Bailey, Dominic (https://experts.colorado.edu/display/fisid_145110/)
Associate Professor; PhD, University of Cambridge

Courses

PHIL 1000 (3) Introduction to Philosophy
Discusses fundamental questions concerning human existence and the nature of reality. Questions may include: Does God exist? Am I the same person I was when I was born? Will I survive the death of my body? Do I have free will? How do I know whether the world around me really exists? What is knowledge? What is truth? What is morality, and how do I know what¿s right to do?
Additional Information: GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1010 (3) Introduction to Western Philosophy: Ancient
Introduces major philosophical ideas originating in ancient Greece, including the concepts of eudaimonia (happiness), sophia (knowledge), philosophia, psychê (soul), aretê (virtue), erôs (love), and democracy, placing these in historical context and relating them to subsequent philosophical developments. Topics may include the nature of happiness; why philosophy and democracy flourished in ancient Greece; the ancient Greek origins of science; whether being a virtuous person makes you happier; and ancient Greek thinking about life, love, and death.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 1030
Additional Information: GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking
Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1020 (3) Introduction to Western Philosophy: Modern
Introduces philosophy through core ideas of the seventeenth and eighteenth centuries, examining Enlightenment-era controversies such as: What are the foundations of scientific thinking? How does sense perception contribute to knowledge? How do we explain the movement of bodies in the natural world? What, if anything, is God¿s role in nature? How do societies form, and how should they be governed? Are human beings free? If so, how is human freedom compatible with political authority?
Additional Information: GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking
Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1030 (3) Introduction to Global Philosophy
Examines and compares different approaches to philosophy from across the globe, including Indian, Chinese, African, Islamic, Judaic, and European traditions. Topics may include: the nature of the self and reality, the foundations and limits of human knowledge, the role of the individual in the political community, the basic principles of ethics, and the meaning of life as a whole.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1040 (3) Introduction to African Philosophy
Introduces the philosophical ideas of several African ethnic groups and contemporary African philosophers, also exploring cross-cultural comparisons between African philosophy and the Western tradition, with special attention to historical context and the post-colonial condition. Topics may include both methodological differences between African and Western philosophy and fundamental philosophical questions concerning human existence, such as the nature and value of persons, knowledge, custom and morality, human rights, and meaning.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1100 (3) Ethics
Introduces students to moral philosophy by having them study and evaluate prominent moral theories and their application to a selection of real-world moral problems. Theories studied may include utilitarianism, rights theory, virtue ethics, social contract theory, divine command theory, cultural relativism, and natural law theory. Social problems covered may include abortion, world poverty, animal rights, reparations for slavery, gun rights, or similar such controversies.
Additional Information: GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1160 (3) Introduction to Medical Ethics
Introduces students to moral dilemmas in medical practice, biomedical research, and health policy, placing them in the context of comprehensive ethical theories and core principles of bioethics. Topics may include: euthanasia; abortion; organ procurement; moral status; research on nonhuman animals; navigating cultural differences between patients and health professionals; and the fair distribution of healthcare resources; as well as the bioethical issues arising from technological advances in medicine, including genetic engineering, cloning, and assistive reproductive technologies.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1200 (3) Contemporary Social Problems
Examines competing positions in debates over a wide variety of controversial moral, social and political issues. Topics may include: abortion, world poverty, animal rights, immigration, physician-assisted suicide, freedom of religion, hate speech, cloning, income inequality, pornography, gun rights, racial profiling, capital punishment, overpopulation, prostitution, drug legalization, torture. Formerly titled 'Philosophy and Society.'
Additional Information: GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking
Arts Sci Core Curr: Ideals and Values
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Arts Humanities
MAPS Course: Social Science

PHIL 1250 (3) Poverty, Power, and Patriotism: Issues of Global Justice
Explores justice (and injustice) in global and local contexts, introducing students to major traditions in political philosophy and core concepts like equality, liberty, reciprocity, and distributive justice. Specific topics may include: racism; sexism; reparations; colonialism; famine; immigration; patriotism; exploitation; labor justice; climate change; terrorism; and war. Relates political topics in U.S. society to their global context, challenging students to consider marginalization along axes of race, gender, and class across cultural boundaries.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

PHIL 1350 (3) Knowledge, Mind, and Reality
Introduces philosophy by exploring fundamental questions concerning the nature of reality and our knowledge. Possible questions include: Does God exist? Are you the same person you were when you were born? Does the past exist? Are we free to choose our actions? Is the mind something distinct from the body? Can a computer think? How can we know anything at all?
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1400 (3) Philosophy and the Sciences
Considers philosophical topics and concepts related to the natural sciences, such as the following: science and pseudo-science; scientific method; the nature of explanation, theory, confirmation, and falsification; the effect of science on basic concepts like mind, freedom, time, and causality; ethics of experimentation; and the relation of science to society.
Additional Information: GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Natural Sciences

PHIL 1440 (3) Critical Thinking
Develops students' skills in evaluating arguments and other aspects of critical thinking, focusing on the ways people reason and attempt to justify their beliefs. Activities may include modeling arguments, detecting common fallacies, examining the use (and misuse) of scientific evidence, and learning the basics of symbolic logic. Formerly titled "Introductory Logic.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1500 (3) Reading, Writing and Reasoning
Teaches students how to write argumentative papers. Each seminar will focus narrowly on some controversial topic. For example, one seminar might focus on the existence of God, whereas another might question whether we have free will. In all cases, a significant portion of the course will be devoted to learning how to write cogent argumentative papers about controversial topics.
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Written Communication-Lower

PHIL 1600 (3) Philosophy and Religion
Philosophical introduction to some of the central concepts and beliefs of religious traditions, focusing particularly on the question of the existence of God and on the relation between religious beliefs and moral beliefs.
Additional Information: GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

PHIL 1700 (3) Philosophy and the Arts
Explores controversial questions in aesthetics (philosophy of art), such as: What counts as art? What makes art, music, or even the natural world beautiful? What¿s the proper way to appreciate beauty? Do some people have better taste in music or art than others? If so, what does ¿good taste¿ mean? Is pop music bad? What about cultural appropriation? Is it wrong when, e.g., white people perform music traditionally associated with black culture?
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1750 (3) Philosophy through Literature
Introduces philosophy through literature. Selected novels, plays, and short stories that exemplify traditional problems in philosophy are read and discussed.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 1800 (3) Open Topics/Philosophy
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2140 (3) Environmental Justice
Studies the intersection of environmental health and social justice, examining how political and economic institutions affect our planet and considering environmental problems in light of social problems that produce them. Topics may include sustainable development, climate justice, responsibility to future generations, global poverty, environmental racism, and the relation between economic systems (e.g., capitalism) and environmental concerns. Part philosophy, part policy, this class weaves together moral and factual issues, addressing fairness, rights, equality, and responsibility.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2150 (3) Ethics and Sex
Explores a variety of moral questions relating to sex and procreation. Topics may include arguments for and against the wrongness of masturbation, incest, pedophilia, bestiality, necrophilia, voyeurism, pornography, sadomasochism, prostitution, abortion, commercial surrogacy and cloning, as well as arguments addressing such additional subjects as what constitutes rape and whether procreation is morally obligatory, optional, or forbidden.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2160 (3) Ethics and Information Technology
Examines contemporary ethical issues concerning the use, misuse, and development of information technologies, with particular focus on the consequences such changes may have on the lives of individuals and on the shape of societies. Topics may include hacking and cyber crime; artificial intelligence; robotics and automation technologies, such as drones and self-driving cars; mass surveillance; use of personal information by corporate, law enforcement, and media interests; as well as gaming and virtual reality.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences

PHIL 2170 (3) Ethics and Economics
Examines a variety of perspectives on problems at the intersection of ethics and economics, using both empirical data and moral reasoning to evaluate arguments concerning topics such as: government regulation of private industry, protectionist economic policies, fair work compensation, retirement benefits, and access to health care.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2200 (3) Major Social and Political Theories
Explores fundamental questions concerning the nature and legitimacy of major social and political institutions. Topics may include the nature of freedom; the meaning and value of democracy; competing conceptions of justice; the basis of political authority; civil disobedience; human dignity and individual rights; social conflict, tyranny, and war; just and unjust distributions of wealth; the relation between ethics and politics; the nature of political belief; and arguments for and against socialism, communism, libertarianism, and anarchism.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2220 (3) Philosophy and Law
Considers controversies about the law in general and the U.S. system in particular. Questions may include: What is law? What should the law prohibit (e.g., abortion, drug use, prostitution, cloning)? Is there a moral obligation to obey the law? Can civil disobedience be justified? How do we justify punishing those who break the law? Is capital punishment morally justifiable?
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2240 (3) Philosophy and Sports
Introduces students to philosophical issues surrounding sport. Topics may include: paying college athletes, sex testing in sports, the use of performance enhancing drugs, sports and gambling, the nature and value of sports and sportsmanship, gender equity and sports, the ethics of strategic fouling, sports fandom, the coach-athlete relationship, athletes as role models, and the risk of extreme bodily harm.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences

PHIL 2250 (3) Philosophy and Video Games
Introduces philosophical issues raised in and by video games. Students will discuss ethical, aesthetic, and/or metaphysical questions such as: Is it okay to engage in otherwise immoral behavior (like violence or murder) in video games? What do in-game choices say about you? What is the relationship between you and your avatar? Is gaming culture misogynistic? Are video games art? Is virtual reality ¿real¿? Is social media a kind of video game?
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2260 (3) Philosophy and Food
Introduces students to topics and issues connected to the nature of food. Helps students investigate questions about our food choices, production and distribution, as well as connection food bears to culture and identity. No previous experience in philosophy required or presupposed.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2270 (3) Philosophy and Race
Explores the historical relationship between western philosophy and race and investigates the ways in which philosophy can be used to address contemporary racial issues.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Diversity-U.S. Perspective

PHIL 2290 (3) Philosophy and Gender
Analyzes critically the concepts of sex, gender, and their intersection with other aspects of identity, exploring how these impact the extent to which people face injustice because of their gender.
Equivalent - Duplicate Degree Credit Not Granted: WGST 2290
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Diversity-U.S. Perspective

PHIL 2380 (3) Philosophy and Psychiatry
Introduces problems at the intersection of psychiatry and philosophy, combining philosophy¿s critical thinking tools with psychiatry¿s empirical grounding. Considers theoretical problems (What is mental disorder? Is there a boundary between normality and psychopathology at all? Is autism, e.g., a disorder?), as well as ethical problems (Is it permissible to administer psychiatric treatment against a patient¿s will? Is it permissible to amputate the limb of a patient with Body Integrity Dysphoria who strongly desires the amputation?).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2390 (3) Philosophy and Psychology
Interdisciplinary course on issues where philosophy and psychology meet. For example, topics such as selfhood, motivation, psychotherapy, freedom, and human behavior are examined. Selected readings in philosophy and psychology are required.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2440 (3) Symbolic Logic
Introduces students to sentential logic, the logic of quantification and some of the basic concepts and results of metalogic (interpretations, validity and soundness).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2490 (3) The Power of Words
Discusses philosophical problems about language and how our using it shapes the world. Topics may include: what language is, what we can do with words, how social norms affect meaning and communication, the relationship of language to features of the social world like race, gender, and ideology, the nature of speech acts, hate speech, propaganda, pejoratives, slurs, freedom of speech, humor, deception, translation, how language conveys thoughts, and how language shapes thought.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2710 (3) Philosophy and Film
Introduces students to issues in philosophy through film, including consideration of film itself as an artistic medium. Students will watch films and wrestle with the philosophical problems they present. Topics will vary according to film selection and may include: the distinction (if any) between high and low art; aspects of film production that support or create aesthetic value; and how (if at all) film can and should be used to foment socio-political change.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2750 (3) Philosophy and Science Fiction
Explores philosophical issues in science fiction literature and film. Topics may include time travel, artificial intelligence, free will, personal identity, and how scientific advances will change human life and society. Students may read science fiction stories and philosophical articles, and watch several movies.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2800 (3) Open Topics/Philosophy
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 2840 (1-3) Independent Study
Department-enforced prerequisite: 6 hours of philosophy course work (minimum grade D-).
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Philosophy (PHIL) majors or minors with 27-180 credits (Sophomores, Juniors, Seniors) only.

PHIL 3000 (3) History of Ancient Philosophy
Surveys developments in metaphysics, ethics, logic, and philosophy of mind from the Pre-Socratics through Hellenistic philosophy, focusing primarily on the arguments of the philosophers. Topics may include: Zeno¿s paradoxes of time and motion; Democritean atomism; Plato on knowledge, reality, ethics, and politics; Aristotle on logic and natural philosophy; Epicurus on pleasure and friendship; Epicurean atomism; the Stoics on materialism, determinism, and vagueness; and the coherence and practicality of global skepticism.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3010 (3) History of Modern Philosophy
Introduces modern philosophy, focusing on the period from Descartes through Kant. In addition to careful analysis of philosophical arguments, attention is paid to the ways in which philosophers responded to and participated in major developments in the 17th and 18th century, such as the scientific revolution.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3030 (3) Asian Philosophies
Explores various topics in Asian philosophy. Students will be exposed to and critically engage with a range of ethical, metaphysical, epistemological, and other philosophical issues in Chinese, Indian, and other Asian traditions, including discussion of how major Asian traditions relate to other approaches to philosophy. Specific topics and themes vary from term to term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3040 (3) African Philosophy: Personhood and Morality
Examines conceptions of personhood, humanity, and morality among several African ethnic groups (including the Akan and Nso), employing a comparative approach that challenges traditional Western philosophical presuppositions and builds sensitivity to unfamiliar conceptions of morality and politics. Gives special attention to the effects of history, geography, and the environment on different societies¿ ways of conceptualizing ethical questions. Topics include human rights; free will and responsibility; custom and morality; and methodological questions concerning cross-cultural comparisons.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of Philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

PHIL 3050 (3) Continental Philosophy
Considers texts, figures, and/or movements in Continental philosophy from the nineteenth century onwards. While diverse, Continental thought tends to involve radical reflection on the methodology of philosophy, challenging traditional conceptions of subjectivity and objectivity while contextualizing knowledge and rationality within the structures of human existence, history, and culture. Topics may be drawn from German idealism, phenomenology, psychoanalysis, existentialism, hermeneutics, poststructuralism, postmodernism, critical theory, Continental feminism, gender theory, queer theory, new materialism, and contemporary Marxist thought.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.

PHIL 3100 (3) Ethical Theory
Examines important doctrines and arguments in various areas of theoretical ethics, such as the normative ethics of behavior, axiology, virtue theory, and metaethics.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 6 hours of philosophy course work.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3110 (3) Feminist Practical Ethics
Examines issues of public policy and personal ethics in light of the feminist commitment to gender justice. Readings for the course will present competing feminist points of view on topics such as: the environment, sex trafficking, immigration, abortion rights, the fashion and beauty industries, cosmetic surgery, food, and militarism. Contributes to an understanding of gender diversity from a U.S. perspective, fostering further insight into social, political, economic, and cross-cultural relations in America.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3110
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PHIL 2290 or WGST 2000 or WGST 2290.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

PHIL 3120 (3) Applied Ethics
Examines arguments about controversial social issues drawn from various areas of applied ethics including biomedical ethics, AI ethics, sexual ethics, criminal justice ethics, and environmental ethics. Multiple topics will be covered and may include abortion, physician-assisted suicide, obligations to the global poor, cloning, genetic engineering, algorithmic fairness, deepfake pornography, prostitution, animal rights, climate change, obligations to future generations, affirmative action, slave reparations, mass public surveillance, predictive policing, and criminal punishment.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3140 (3) Environmental Ethics
Examines major traditions in moral philosophy to see what light they shed on value issues in environmental policy and the value presuppositions of the economic, ecological, and juridical approaches to the environment.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 3140
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PHIL 1100 or PHIL 1200 or PHIL 2200 or PHIL 3100 or PHIL 3200.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3160 (3) Bioethics
Analysis of ethical problems involved in such issues as abortion, euthanasia, organ transplants, eugenics, treatment of the patient as a person and the institutional nature of the health care delivery system.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3170 (3) Philosophy and Ethics of Artificial Intelligence
Examines the philosophy and ethics of artificial intelligence (AI), exploring existing machine learning algorithms, autonomous AI systems of the near future (e.g., self-driving cars, autonomous weapons), and advanced AI of the distant future (e.g., superintelligence, robot rights), with applications to medicine, criminal justice, social media, and warfare. Questions may include: Are machine learning systems biased? Who deserves blame when autonomous systems make mistakes? Will AI systems ever be conscious or deserve rights?
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3190 (3) War and Morality
Focuses on moral issues raised by war. When, if ever, can war be morally justified? Are rules of war globally applicable, or are they affected by local religious and cultural frameworks? Are colonized nations bound by the same rules of war as their colonizer states? Are states ever obligated to intervene to stop massacres or genocides in other states?
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of PHIL coursework.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3200 (3) Social and Political Philosophy
Introduces students to an in-depth examination and analysis of central operational ideas in social and political philosophy, such as power, freedom, equality, democracy, justice, rights, community, individuality, civil disobedience, and law. A thorough treatment of any of these ideas may call for some cross-cultural and/or comparative political and social analysis.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy course work.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3260 (3) Philosophy and the International Order
Considers philosophical topics concerning the international economic, political and legal systems. Topics that may be considered include the nature of international law, war and peace, humanitarian intervention, international justice, world hunger and human rights.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

PHIL 3290 (3) War and Morality and the Enduring Struggle for Freedom
Explores normative theories of just war, political obligation, and collective self-determination, and select empirical studies of the causes and effects of violent revolutions. Designed primarily for PHIL, PSCI, IAFS, and PACS students, this interdisciplinary course involves an intensive two-week abroad study in Budapest, Hungary, where students will visit diverse historical sites that bear out normative and empirical lessons learned in the classroom about collective armed conflict and the enduring struggle for freedom.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite Three hours of PHIL coursework.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3310 (3) Cognitive Science
Introduces cognitive science, drawing from psychology, philosophy, artificial intelligence, neuroscience, and linguistics. Studies the linguistic relativity hypothesis, consciousness, categorization, linguistic rules, the mind-body problem, nature versus nurture, conceptual structure and metaphor, logic/problem solving and judgment. Emphasizes the nature, implications and limitations of the computational model of mind.
Equivalent - Duplicate Degree Credit Not Granted: INFO 3702 and LING 3005 and CSCI 3702 and PSYC 3005 and SLHS 3003 and CSPB 3702
Recommended: Prerequisites two of the following CSCI 1300 or LING 2000 or PHIL 2440 or PSYC 2145.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Social Sciences

PHIL 3410 (3) History of Science: Ancients to Newton
Surveys the history of science up to Newton, tracing the emergence of scientific thinking from religious and philosophical roots in the Near East and Greece to its development in the Middle Ages and Renaissance, culminating with Newton and the seventeenth-century Scientific Revolution. Additional topics may include early discoveries concerning mathematics; technological advancement and its relation to the evolution of scientific theory; and cross-cultural comparisons of scientific and technological traditions (e.g., Chinese traditions).
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Natural Sciences

PHIL 3430 (3) History of Science: Newton to Einstein
Surveys the development of modern scientific thought, with an emphasis on the natural sciences, beginning with Newton and ending with the radical and controversial implications of relativity theory and quantum mechanics. Topics may include the rise of modern chemistry, Darwin¿s earth-shattering achievements in biology, the beginnings of the social sciences (and their relationship with the natural sciences), the rise of ecology and holistic science, and the philosophical interpretation of scientific method and explanation.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Natural Sciences

PHIL 3480 (3) Critical Thinking/Writing in Philosophy
Focuses upon the fundamental skills, methods, concepts and distinctions that are essential for the study of philosophy. Basic skills covered include the writing of philosophy papers, the reading of articles and the extraction and evaluation of arguments.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Philosophy (PHIL) majors only (excluding minors).
Recommended: Prerequisites 6 hours of philosophy course work.
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Written Communication-Upper

PHIL 3600 (3) Philosophy of Religion
Explores fundamental questions concerning major world religions, especially the Abrahamic religions. Possible topics include: the divine attributes (Is perfect goodness compatible with the existence of hell? Can God be truly omnipotent?), the problem of evil, divine hiddenness and evidence of the existence of God, religious experience, the legitimacy of faith, the dilemma of freedom and divine foreknowledge, God and morality, tensions between religion and science, conceptions of the self in Abrahamic religions and in Buddhism.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3700 (3) Aesthetic Theory
Introduces major theories of aesthetics and contemporary discussions of problems, such as the nature of art and the problem of evaluations in art.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of philosophy coursework.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3800 (3) Open Topics in Philosophy
See current departmental announcements for specific content. Department enforced prerequisite: 6 hours of philosophy course work.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 3840 (1-3) Independent Study
Department enforced prerequisite: Minimum of 6 completed hours of philosophy course work (minimum grade D-).
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Philosophy (PHIL) majors only.

PHIL 3930 (1-6) Internship in Applied Philosophy
Provides an academically supervised opportunity for junior and senior Philosophy students to work in public or private organizations to gain practical knowledge and experience, allowing students to apply philosophical theory to real-world problems while enriching their understanding of philosophy itself through its application. Requires the student to pursue an academic research project and compose an original research paper. Department consent required, as well as a minimum 3.0 cumulative GPA.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 9 hours philosophy course work.

PHIL 4010 (3) Single Philosopher
Discusses the work of a single historical figure in philosophy with the aim of reaching a broad and deep understanding of the philosopher's thought.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5010
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4020 (3) Topics in the History of Philosophy
Examines a specific philosophical problem over an extended historical period.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5020
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites 12 hours of philosophy course work including PHIL 3000 and PHIL 3010.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4030 (3) Medieval Philosophy
Introduces philosophy from the late Roman era to the 14th century. Philosophers studied may include Augustine, Boethius, Aquinas, and Ockham. Topics range over religion, ethics, mind, and metaphysics.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4040 (3) Studies in 20th Century Philosophy
Studies two or three major philosophies prominent during the last century.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4070 (3) Existentialist Philosophy
Examines central figures and texts in the existential tradition, from Kierkegaard and Nietzsche to Heidegger and Sartre.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4110 (3) Contemporary Moral Theory
Provides an in-depth look at some recent work in moral theory, usually organized around a single topic. Topics vary from year to year. Previous topics include: consequentialism and its critics, virtue theory, deontological ethics, moral psychology, well-being, and metaethics.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5110
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite or corequisite of PHIL 3100 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors). Restricted to PHIL majors or PHIL minors.
Recommended: Prerequisite 12 hours of PHIL coursework (all minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4120 (3) Philosophy and Animals
Examines the moral status of nonhuman animals, and its implications for the common use of animals as food and experimental subjects for humans.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5120
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites PHIL 1100 or PHIL 1200 or PHIL 3100.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4150 (3) Topics in Applied Ethics
Discusses advanced work in applied normative philosophy. Topics vary from semester to semester and may focus on one or two specific areas (e.g., race, procreative ethics, military ethics, sports ethics) or take a broader approach that includes issues from across a wider range of subjects.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5150
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours of PHIL coursework.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4200 (3) Contemporary Political Philosophy
Provides a survey of recent approaches to political philosophy: liberalism (Rawls, Dworkin); libertarianism (Nozick); communitarianism (Sandel, Macintyre); feminism (Jaggar). Topics and readings vary with the instructor.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5200
Requisites: Requires prerequisite courses of PHIL 2200 or PHIL 3200 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours of philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4210 (3) Classical Greek Political Thought
Studies main representatives of political philosophy in antiquity (Plato, Aristotle, Cicero) and of the most important concepts and values of ancient political thought. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4041 and CLAS 5041 and HIST 4041
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4250 (3) Marxism
Examines the economic, political, and philosophical thought of Karl Marx, placing it in the context of his predecessors in the classical German tradition and his successors (and critics) in the twentieth century. Themes may include the development of historical materialism; Marx¿s analysis of estranged labor; the critique of utopian socialism; the categories of Marxist economic analysis; the relation between politics, philosophy, and economics; theories of labor, surplus value, and exploitation; and the fate of communism.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 4251
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours of GRMN or PHIL course work or instructor consent.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Arts Sci Gen Ed: Distribution-Social Sciences

PHIL 4260 (3) Philosophy of Law
Considers philosophical topics concerning law and the U.S. legal system. Topics that may be considered include the nature of law, relations between law and morality, justifications of punishment, the moral duty to obey the law, and law and liberty.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5260
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4300 (3) Philosophy of Mind
Discusses topics in the philosophy of mind, including the mind-body problem, consciousness, intentionality, rationality, mental causation and the nature of mental states.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5300
Requisites: Requires prerequisite courses PHIL 2440 and PHIL 3010 and PHIL 3480 and PHIL 4340 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4340 (3) Epistemology
Studies some of the main topics of theory of knowledge, such as evidence, justification, prediction, explanation, skepticism, and concept acquisition.
Equivalent - Duplicate Degree Credit Not Granted: 5340
Repeatable: Repeatable for up to 15.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Philosophy (PHIL) majors only.
Recommended: Prerequisites PHIL 3480 and 12 credit hours of philosophy including PHIL 2440 and PHIL 3010.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4360 (3) Metaphysics
Examines philosophical questions and debates about the general nature of reality. Specific topics may include: existence; identity; change; particulars and universals; parts and wholes; space and time; possibility and necessity; freedom and determinism; laws of nature; causation; and the posits of mathematical and physical theories.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5360
Requisites: Requires prerequisite courses PHIL 2440 and PHIL 3010 and PHIL 3480 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4370 (3) Free Will and Determinism
Explores the full range of questions relating to the problem of free will and determinism. Topics may include; the scientific evidence for determinism, hard versus soft determinism, arguments for and against the compatibility of free will and determinism, moral responsibility and the principle of alternate possibilities, hierarchical motivation, the deep self, reactive attitudes, the intelligibility question for libertarianism, divine foreknowledge.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5370
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4400 (3) Philosophy of Science
Advances students' knowledge of topics in philosophy of science and develops students' ability to think and write clearly about science. Topics may include scientific methodology; distinguishing science from pseudoscience; characterizing experimental and historical sciences; interpretations of special and general relativity; interpretations of quantum mechanics; the nature of biological species; approaches to defining life; criteria for identifying alien life; artificial intelligence; neuroscience and consciousness; fundamental physical properties and laws of nature; chance and probability; and causation.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5400
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work including PHIL 2440.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4440 (3) Topics in Logic
Provides for offering courses in a variety of topics in logic, including, but not limited to, mathematical logic, philosophical issues in logic, probability theory, decision theory, and inductive logic.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5440
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours PHIL coursework, including PHIL 2440.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4450 (3) History and Philosophy of Physics
Discusses the epistemic question of what characterizes good physics research as well as the metaphysical question of what our best physics research tells us about the world. Topics may include case studies of physics experiments, theory choice, and scientific methodology in physics, as well as foundational metaphysical questions in statistical mechanics, quantum mechanics, special and general relativity, chance and probability, and the laws of nature.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5450 and PHYS 4450 and PHYS 5450
Requisites: Requires prerequisite course PHYS 1020 or PHYS 1120 or PHYS 2020 or PHIL 1400 or PHIL 2440 or PHIL 3410 or PHIL 3430 or PHIL 4400 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Arts Sci Gen Ed: Distribution-Natural Sciences

PHIL 4460 (3) Modal Logic
Introduces the most philosophically relevant kind of logic that builds on PHIL 2440. Modal logic is the logic of the concepts of necessity, possibility and contingency. A variety of systems of sentential modal logic will be covered, along with the standard system of first-order modal logic.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5460
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PHIL 2440.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4470 (3) Probability and Rational Choice
Examines issues in four related areas: probability theory (e.g. the interpretation of probability, the raven paradox, and the principle of indifference), decision theory (e.g., the Newcomb problem, the toxin puzzle, and Pascal's wager), game theory (e.g., Prisoner's dilemma, tragedy of the commons, and Schelling points), and social choice theory (e.g., Arrow's theorem). Familiarity with symbolic logic is strongly recommended.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5470
Recommended: Prerequisite PHIL 2440 and 12 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4480 (3) Formal Methods in Philosophy
Introduces formal methods used in contemporary philosophy beyond classical first-order logic. Specific topics may vary. Examples: extensions of and alternatives to first-order logic (including propositional and quantified modal logic and higher-order and plural logic), alternatives to classical logic (including many-valued and intuitionistic systems), generalized and substitutional quantifiers, the lambda calculus, indicative and subjunctive conditionals, probability theory, inductive logic, and decision theory.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5480
Requisites: Requires prerequisite course of PHIL 2440 (minimum grade B). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4490 (3) Philosophy of Language
Examines the nature of language through topics such as truth, reference, meaning, and use, as well as the general relationships between language and action, cognition, logic, and reality.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5490
Requisites: Requires prerequisite course PHIL 2440 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4800 (3) Open Topics in Philosophy
See current departmental announcements for specific content.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4830 (3) Senior Seminar in Philosophy
Critical in-depth examination of a selected philosophical topic.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Philosophy (PHIL) majors only.
Recommended: Prerequisite 15 hours philosophy course work.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PHIL 4840 (1-3) Independent Study
Department enforced prerequisite: Minimum of 6 completed hours of philosophy course work (minimum grade D-).
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Philosophy (PHIL) majors or minors with 87-180 credits (Seniors, Fifth Year Senior) only.

PHIL 4950 (3) Honors Thesis
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 12 hours philosophy course work.
Additional Information: Arts Sciences Honors Course

Philosophy - Bachelor of Arts (BA)

The undergraduate degree in philosophy emphasizes knowledge and awareness of:

- Some of the principal philosophical texts in the history of western philosophy, from its beginnings in Greece to the twentieth century.
- Some of the main currents in contemporary philosophy, including those in ethics, epistemology and metaphysics.
- Elementary formal logic.

In addition, students completing the major will develop the knowledge and skills to:

- Form reasoned opinions about the issues—moral, religious, political, etc.—that educated people debate.
- Understand, analyze and evaluate complex arguments and theories.
- Distinguish between the main thrust of an argument or position and what is ancillary to it.
- Discover and critically examine the underlying presuppositions of major systems of ideas or programs for action.
- See important connections between different systems of ideas or programs for action.
- Explain difficult ideas and concepts in an informed, effective and coherent manner.
- Develop a thesis and present a coherent argument for it.
- Write a clear and coherent argumentative essay.
- Engage in rational and productive discussion of issues and arguments.

In addition to the general philosophy major, the department offers two topically oriented major tracks that are interdisciplinary in nature: Law and Society; and Values and Social Policy.

Requirements

Program Requirements

For the undergraduate degree in philosophy, students must take 33 to 45 credit hours in philosophy, no fewer than 18 of which must be upper division, earning 33 credit hours with a grade of C- or better in each course in philosophy and a C (2.000) average for all work attempted in philosophy. No fewer than 12 of those credit hours must be completed on the Boulder campus. No more than 3 credit hours of independent study may count toward the minimum requirement. No more than 3 hours of internship credit (PHIL 3930) may count towards the elective requirement. A single course can count towards at most one area requirement.

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below.

Required Courses and Credits

Code	Title	Credit Hours
History		
PHIL 3000	History of Ancient Philosophy	3
PHIL 3010	History of Modern Philosophy	3
Select one of the following:		3
PHIL 4010	Single Philosopher	
PHIL 4020	Topics in the History of Philosophy	
PHIL 4030	Medieval Philosophy	
PHIL 4040	Studies in 20th Century Philosophy	
PHIL 4070	Existentialist Philosophy	
PHIL 4250	Marxism	
Logic		
Select one of the following:		3
PHIL 2440	Symbolic Logic	
PHIL 4440	Topics in Logic (Mathematical Logic)	
PHIL 4460	Modal Logic	
Philosophical Writing		
PHIL 3480	Critical Thinking/Writing in Philosophy	3
Values		
PHIL 3100	Ethical Theory	3
Select one of the following:		3
PHIL 2140	Environmental Justice	
PHIL 2150	Ethics and Sex	
PHIL 2160	Ethics and Information Technology	
PHIL 2170	Ethics and Economics	
PHIL 2200	Major Social and Political Theories	
PHIL 2220	Philosophy and Law	
PHIL 2270	Philosophy and Race	
PHIL 2290	Philosophy and Gender	
PHIL 3040	African Philosophy: Personhood and Morality	
PHIL 3110	Feminist Practical Ethics	
PHIL 3140	Environmental Ethics	
PHIL 3160	Bioethics	
PHIL 3170	Philosophy and Ethics of Artificial Intelligence	
PHIL 3190	War and Morality	
PHIL 3200	Social and Political Philosophy	
PHIL 3260	Philosophy and the International Order	
PHIL 3700	Aesthetic Theory	
PHIL 4110	Contemporary Moral Theory	
PHIL 4120	Philosophy and Animals	
PHIL 4150	Topics in Applied Ethics	
PHIL 4200	Contemporary Political Philosophy	
PHIL 4250	Marxism	
PHIL 4260	Philosophy of Law	
Metaphysics and Epistemology		
PHIL 4340	Epistemology	3
Select one of the following:		3
PHIL 3600	Philosophy of Religion	
PHIL 4040	Studies in 20th Century Philosophy	
PHIL 4300	Philosophy of Mind	
PHIL 4360	Metaphysics	
PHIL 4370	Free Will and Determinism	
PHIL 4400	Philosophy of Science	
PHIL 4490	Philosophy of Language	
Electives		
Any two PHIL courses that are not taken to satisfy any of the above requirements		6
Total Credit Hours		**33**

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in philosophy, students should meet the following requirements:

- By the beginning of the second semester, declare the major and meet with an undergraduate advisor at the time the major is declared.
- In each of the next five semesters, complete an average of 6.7 credit hours of required philosophy courses.
- By the end of the fifth semester of study, complete PHIL 2440, PHIL 3480, PHIL 3000 and PHIL 3010.

Program Tracks

The department also offers two topically oriented tracks within the major that are interdisciplinary in nature: law and society and values and social policy. These tracks require two semesters in the history of philosophy, as well as a series of core courses that vary according to the track. A student intending to complete a topical track within the philosophy major should see the departmental undergraduate advisor as soon as possible.

Values and Social Policy Track

Students must take 33 to 45 credit hours in philosophy, no fewer than 18 of which must be upper division, earning 33 credit hours with a grade of C- or better in each course in philosophy and a C (2.000) average for all work attempted in philosophy. No fewer than 12 of the upper-division credit hours must be completed on the Boulder campus. No more than 3

credit hours of independent study and no more than 3 hours of internship credit (PHIL 3930) may count toward the minimum credit requirements.

Students must complete the required philosophy courses listed below, 15 credit hours in allied fields, and the general requirements of the College of Arts and Sciences.

Code	Title	Credit Hours
Group I		
Required courses:		
PHIL 1440	Critical Thinking	3
or PHIL 2440	Symbolic Logic	
PHIL 2200	Major Social and Political Theories	3
PHIL 3000	History of Ancient Philosophy	3
PHIL 3010	History of Modern Philosophy	3
PHIL 3100	Ethical Theory	3
PHIL 3200	Social and Political Philosophy	3
Group II		
Select four of the following courses:		12
PHIL 2140	Environmental Justice	
PHIL 2150	Ethics and Sex	
PHIL 2160	Ethics and Information Technology	
PHIL 2170	Ethics and Economics	
PHIL 2220	Philosophy and Law	
PHIL 2270	Philosophy and Race	
PHIL 2290	Philosophy and Gender	
PHIL 3040	African Philosophy: Personhood and Morality	
PHIL 3110	Feminist Practical Ethics	
PHIL 3140	Environmental Ethics	
PHIL 3160	Bioethics	
PHIL 3170	Philosophy and Ethics of Artificial Intelligence	
PHIL 3190	War and Morality	
PHIL 3260	Philosophy and the International Order	
PHIL 3700	Aesthetic Theory	
PHIL 3930	Internship in Applied Philosophy	
PHIL 4110	Contemporary Moral Theory	
PHIL 4120	Philosophy and Animals	
PHIL 4150	Topics in Applied Ethics	
PHIL 4200	Contemporary Political Philosophy	
PHIL 4250	Marxism	
PHIL 4260	Philosophy of Law	
Other courses with advisor's approval		
Elective		**3**
Any PHIL course that is not taken to satisfy any of the above requirements		
Allied Fields		
15 credit hours of approved courses in allied fields. For further information, contact the Track Advisor, Dave Youkey.		15
Total Credit Hours		**48**

Law and Society Track

Code	Title	Credit Hours
Group I		
Required courses:		
PHIL 1440	Critical Thinking	3
or PHIL 2440	Symbolic Logic	
PHIL 2200	Major Social and Political Theories	3
PHIL 2220	Philosophy and Law	3
PHIL 3000	History of Ancient Philosophy	3
PHIL 3010	History of Modern Philosophy	3

PHIL 4150	Topics in Applied Ethics	
PHIL 4200	Contemporary Political Philosophy	
PHIL 4250	Marxism	
Group III		
Required Courses:		
12 credit hours of approved courses from other departments. For further information, contact the Track Advisor, Brian Talbot.		12
Total Credit Hours		**39**

Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement and the Upper-division Written Communication component of the Gen Ed Skills Requirement. Depending on the courses selected in the major electives, students can potentially complete some credits in the Natural Sciences and Social Sciences areas of the Distribution and both the U.S. Perspective and the Global Perspective components of the Gen Ed Diversity Requirement.

Year One		
Fall Semester		**Credit Hours**
PHIL 1000	Introduction to Philosophy	3
Gen. Ed. Distribution/Diveristy course (example: Social Sciences/US Perspective)		3
Gen. Ed. Skills course (example: QRMS)		3
Elective		3
Elective		3
	Credit Hours	**15**
Spring Semester		
PHIL required elective		3
Gen. Ed. Skills course (example: Lower-division Written Communication–PHIL 1500, if possible)		3
Gen. Ed. Distribution course (example: Natural Sciences with Lab)		4
Elective		3
Elective		3
	Credit Hours	**16**
Year Two		
Fall Semester		
PHIL 3480	Critical Thinking/Writing in Philosophy	3
PHIL 2440	Symbolic Logic	3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)		3
Gen. Ed. Distribution course (example: Natural Sciences)		4
	Credit Hours	**13**
Spring Semester		
PHIL 3000	History of Ancient Philosophy	3
PHIL 3010	History of Modern Philosophy	3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective		3
Elective		3
	Credit Hours	**15**
Year Three		
Fall Semester		
PHIL 3100	Ethical Theory	3
PHIL Values Course (see Degree Audit for choices)		3
Gen. Ed. Distribution course (example: Natural Sciences)		4
Upper-Division Elective		3
Upper-Division Elective		3
	Credit Hours	**16**
Spring Semester		
PHIL 4340	Epistemology	3
PHIL 4000-level History Course (see Degree Audit for choices)		3
Upper-Division Elective		3
Upper-Division Elective		3
Upper-Division Elective		3
	Credit Hours	**15**
Year Four		
Fall Semester		
PHIL Metaphysics (see Degree Audit for choices)		3
Gen. Ed. Distribution course (example: Social Sciences)		3
Upper-Division Elective		3
Upper-Division Elective		3
Free Elective		3
	Credit Hours	**15**
Spring Semester		
PHIL Elective		3
Gen. Ed. Distribution course (example: Social Sciences)		3
Upper-Division Elective		3
Upper-Division Elective		3
Free Elective		3
	Credit Hours	**15**
	Total Credit Hours	**120**

Learning Outcomes

By the completion of the program, students will be able to:

- Understand the mechanics of critical thinking. Students on the general track will be competent in the basics of symbolic logic. Students on the values social policy and law society tracks will be able to model and evaluate arguments.
- Construct organized argumentative papers.
- Interpret and criticize texts and arguments from the history of philosophy.
- Engage with questions concerning human values and assess arguments for and against the ethical theories responding to them.
- Recognize the main theories in epistemology, assess arguments for and against them and apply them to analyze problems and cases. (General track)
- Apply philosophical reasoning to contemporary social, political and/or legal problems. (Values social policy and law society tracks)

Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

BA and MA in Philosophy

The Philosophy Department offers a five-year program that leads to both the BA and MA in philosophy. For complete details on the program, please see the Philosophy Department website (https://www.colorado.edu/philosophy/undergraduate/concurrent-ba-ma-program/).

Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.0 or higher.
- Not have any MAPS deficiencies (students admitted to CU Boulder prior to Summer 2023 only).
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder with degree-seeking status.
- Have completed the prerequisite course requirements as described below.

Prerequisite Course Requirements
The applicant must have taken all of the following courses and received a grade of A- or better in each of them:

- PHIL 2440 (or either PHIL 4440 or PHIL 4460)
- PHIL 3000 (or PHIL 3010)
- PHIL 3100
- PHIL 3480

Additionally, the applicant must either have
taken PHIL 4300, PHIL 4340, PHIL 4360, PHIL 4400 or PHIL 4490, earning a grade of A- or better, or be enrolled in one of those courses during the semester in which the student applies for admission to the BAM program. In the latter case, admission to the BAM program will not be decided until the student's midterm grade for the 4000-level course in question has been furnished to the Graduate Admissions Committee; the midterm grade must be an A- or better.

Application Process
To apply to the BAM program, submit the online application. Additional application requirements:

- *Letters of recommendation*: Please ask each of your letter-writers to submit a letter of recommendation to the Philosophy Department's Associate Chair for Graduate Studies.
- *GRE* scores need not be submitted.
- *Deadlines*: A student can apply to this program no earlier than the second semester of their junior year. Fall applications must be received before October 25. Spring applications must be received by the Friday before Spring Break.
- *Commitment*: Students who are admitted to the BAM program may not pursue a double-degree or double-major of any other kind.
- *Minimum cumulative GPA*: All students enrolled in the BAM program must maintain a cumulative GPA of 3.0 throughout their time in the program. The time limit for the program is 5 years.

Program Requirements

To complete the BAM program, the student will fulfill separately all requirements for the BA and thesis-based MA, with the exception that two 4000-level courses can satisfy requirements for both the BA and the MA. In addition to these two overlapping 4000-level courses, the student must complete *all of the remaining requirements* for the general track (http://www.colorado.edu/philosophy/sites/default/files/attached-files/major_reqs.pdf) of the philosophy major, as well as all of the remaining requirements for the thesis-based MA in Philosophy (http://www.colorado.edu/philosophy/graduate/ma-program/). Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

In order to make it possible for the student to finish both degrees in five years, during the fourth year the student will be required to take two graduate-level courses (5000-level or above), which will *not* count toward the student's BA requirements. One of these two courses will be a three-credit version of PHIL 5840, to be taken in the second semester of the student's fourth year. In this Independent Study, the student will work individually with their projected thesis advisor to identify a topic for the student's MA thesis and will do research on that topic. This ensures that the student will enter their fifth year having done a significant amount of work on the master's thesis project. During each semester of the student's fifth year, they will typically take two 5000-level courses and three credits of master's thesis hours. As indicated above, the two graduate-level courses taken during the student's fourth year will *not* satisfy requirements for the BA. Thus, the student must be in a position (perhaps as a result of having entered with AP credits or having taken summer courses at CU) to fit two demanding courses into the fourth-year schedule, in addition to whatever courses are needed to satisfy remaining BA requirements.

Note that beyond the required Independent Study course referred to above, no independent study courses can be used to fulfill MA course requirements for students in the BAM program.

During the second semester of the fifth year, the student must successfully defend their master's thesis in an oral examination before a committee consisting of the student's thesis advisor and two other regular faculty members.

Philosophy - Minor

A minor is offered in philosophy. Declaration of a philosophy minor is open to any student enrolled at CU Boulder, regardless of college or school.

Requirements

For the minor in philosophy, students must take 18 credit hours in philosophy (PHIL), earning 18 credit hours with a grade of C- or better and a 2.00 (C) average for all work attempted in philosophy. Of these 18 credit hours in philosophy, 9 must be upper-division with grades of C- or better. Students may apply toward a minor no more than 9 hours of transfer credits, no more than 6 hours of which may be upper-division.

There are no distribution requirements for a minor in philosophy: any six 3-credit-hour philosophy courses will do, so long as at least three are upper-division. However, for a well-rounded course of study, the Philosophy Department *recommends* the courses below.

Recommended Courses

Code	Title	Credit Hours
Logic		
At least one course in Logic, such as:		
PHIL 1440	Critical Thinking	
PHIL 2440	Symbolic Logic	
History of Philosophy		
At least one course in the History of Philosophy, such as:		
PHIL 1010	Introduction to Western Philosophy: Ancient	
PHIL 1020	Introduction to Western Philosophy: Modern	
PHIL 3000	History of Ancient Philosophy	
PHIL 3010	History of Modern Philosophy	

Values	
At least one course in Values, such as:	
PHIL 1100	Ethics
PHIL 1200	Contemporary Social Problems
PHIL 1250	Poverty, Power, and Patriotism: Issues of Global Justice
PHIL 2270	Philosophy and Race
PHIL 2290	Philosophy and Gender
PHIL 3100	Ethical Theory
PHIL 3200	Social and Political Philosophy
Metaphysics/Epistemology	
At least one course in Metaphysics/Epistemology, such as:	
PHIL 1350	Knowledge, Mind, and Reality
PHIL 1400	Philosophy and the Sciences
PHIL 1600	Philosophy and Religion
PHIL 3600	Philosophy of Religion
PHIL 4370	Free Will and Determinism
PHIL 4400	Philosophy of Science

Plan(s) of Study

The philosophy minor is entirely elective, though students should pay attention to required and recommended prerequisites when selecting their classes.

Physics

The curriculum offered by the Department of Physics provides knowledge of the physical concepts that are basic to the laws of nature and the ability to use these fundamental concepts to answer questions and solve real problems. Students also gain an understanding of the relationship of physics to other fields such as astronomy, biology, engineering, chemistry and medicine.

Course code for this program is PHYS.

Areas of Study

Students can choose from one of three plans leading to the Bachelor of Arts degree. Plan 1 is designed primarily for students who plan to pursue graduate study in physics or go directly into professional employment. Plan 2 is intended for students who wish to combine a physics major with an interdisciplinary focus. Interdisciplinary focuses include applied mathematics, biotechnology, biophysics, chemical physics, environmental science, electronic devices, history, optics and philosophy of science, or premedicine. Plan 3 is a program designed specifically for those who wish to become secondary school teachers. It includes a teaching licensure in cooperation with the School of Education. A bachelor's-accelerated master's degree (BAM) is also available.

The Department of Physics also offers a Bachelor of Science degree in Engineering Physics (p. 989) through the College of Engineering and Applied Science.

Note: Students may not earn a bachelor's degree in physics from the College of Arts & Sciences as well as a bachelor's degree in engineering physics from the College of Engineering & Applied Science. Furthermore, the physics minor may not be earned with either of these two baccalaureate programs.

Research Opportunities

Physics majors are strongly encouraged to work in a research laboratory. Such experience is especially useful in pursuing a career in science or engineering. Involvement in laboratory experimentation provides knowledge of modern electronic equipment and computerized instrumentation. As contributing members of a research group, students also get a real sense of the creative processes that are part of modern physics research.

Career Opportunities

Physics provides an excellent background for a wide variety of careers, as well as preparation for admission to graduate school in physics and related fields. Design and development work in industrial firms, government and academic laboratories, and nonprofit research centers present opportunities to apply theory to specific problems. In such settings, physics graduates often work closely with engineers, complementing specific disciplines with a broader physics perspective. Graduates can also go on to careers in business, law, finance or medicine after appropriate graduate work.

Bachelor's Degree

- Physics - Bachelor of Arts (BA) (p. 523)

Minor

- Physics - Minor (p. 527)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Anderson, Dana Z. (https://experts.colorado.edu/display/fisid_102371/)
Professor; PhD, University of Arizona

Professor; PhD, University of Michigan Ann Arbor

Zimmerman, Eric (https://experts.colorado.edu/display/fisid_122809/)
Professor; PhD, University of Chicago

Courses

PHYS 1000 (3) Preparatory Physics
Introduces basic physics, emphasizing an analytical approach to prepare for PHYS 1110 and PHYS 1120, the engineering majors sequence. Does not satisfy any MAPS deficiency in either the sciences or math. Department enforced prerequisite: 1 year high school algebra.
Additional Information: Arts Sci Core Curr: MAPS Course

PHYS 1010 (3) Physics of Everyday Life 1
Intended primarily for nonscientists, this course covers physics encountered in everyday life. Topics include balls, scales, balloons, stoves, insulation, light bulbs, clocks, nuclear weapons, basics of flashlights, and microwave ovens. Department enforced prereq., high school algebra or equivalent. This course should not be taken if the student has a MAPS deficiency in math.
Additional Information: GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab
Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Quantitative Reasoning Math
MAPS Course: Chemistry
MAPS Course: Physics

PHYS 1110 (4) General Physics 1
First semester of three-semester sequence for science and engineering students. Covers kinematics, dynamics, momentum of particles and rigid bodies, work and energy, gravitation, and simple harmonic motion.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 1115
Requisites: Requires prerequisite course of GEEN 3830 (minimum grade C-) or prerequisite or corequisite course of APPM 1345 or APPM 1350 or MATH 1300 or MATH 1310 (minimum grade C-).
Additional Information: GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 1115 (4) General Physics 1 for Majors
First semester of three semester sequence for physics, engineering physics and astronomy majors. Covers kinematics, dynamics momentum of particles and rigid bodies, work and energy, gravitation, and simple harmonic motion.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 1110
Requisites: Requires prerequisite course of GEEN 3830 or prerequisite or corequisite course of APPM 1345 or APPM 1350 or MATH 1300 or MATH 1310 (minimum grade C-). Restricted to Physics (PHYS-BA) or Engineering Physics (EPEN-BS) or Astronomy (ASTR-BA) majors only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 1120 (4) General Physics 2
Three lect., one rec. per week, plus three evening exams in the fall and spring semesters. Second semester of three-semester introductory sequence for science and engineering students. Covers electricity and magnetism, wave motion and optics. Normally is taken concurrently with PHYS 1140.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 1125
Requisites: Requires prerequsite courses of PHYS 1110 or PHYS 1115 and a prerequisite or corequisite course of APPM 1360 or MATH 2300 (all minimum grade of C-).
Additional Information: GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 1125 (4) General Physics 2 for Majors
Three lect., one rec per week, plus three evening exams in the fall and spring semesters. Second semester of three semester introductory sequence for physics, engineering and astronomy majors. Covers electricity and magnetism, wave motion and optics. Normally is taken concurrently with PHYS 1140.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 1120
Requisites: Requires a prerequisite course of PHYS 1110 or PHYS 1115. Requires a prerequisite or corequisite course of APPM 1360 or MATH 2300 (all minimum grade C-). Restricted to Physics (BA), Engineering Physics (BS) and Astronomy (BA) students only.
Additional Information: Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 1140 (1) Experimental Physics 1
Introduces experimental physics through laboratory observation of a wide range of phenomena. Covers experiments on physical measurements, including mechanics, electricity & magnetism, and optics, with the mathematical analysis of physical errors associated with the experimental process.
Requisites: Requires a prerequisite or corequisite course of PHYS 1120 or PHYS 1125 (minimum grade C-).
Additional Information: GT Pathways: GT-SC1 - Natural Physcal Sci:Lec Crse w/ Req Lab
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 1230 (3) Light and Color for Nonscientists
Discusses light, color, vision, and perception. Covers reflection, refraction, lenses, and applications to photography and other methods of light sensing. Other topics include lasers and holography. Course is geared toward nonscience majors. Department enforced prereq., high school algebra or equivalent. Should not be taken by students with a math MAPS deficiency.
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Chemistry
MAPS Course: Natural Science
MAPS Course: Physics

PHYS 1240 (3) Sound and Music
Explores the physical processes that underlie the diversity of sound and musical phenomena. Topics covered include the physical nature of sound, the perception of sound, the perception of pitch and harmony, musical instruments, synthesizers and samplers, and room acoustics. Geared toward nonscience majors. Department enforced prereq., high school algebra or equivalent. Should not be taken by students with a math MAPS deficiency.
Additional Information: GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Chemistry
MAPS Course: Natural Science
MAPS Course: Physics

PHYS 1400 (1) Fundamentals of Scientific Inquiry
Engages students in discussions and experimentation to uncover the aspects of physics that won't be found in a textbook, centered around how to do scientific research and be a part of the greater scientific community. Topics include model-building, metacognition, failure in science, and presentation skills. Students will have the opportunity to interact with real scientists through panels, lab tours, and direct mentorship as they engage in a hands-on group research project culminating in a poster presentation session. Geared toward first-year and transfer physics and engineering physics students. Does not count toward the PHYS-BA major requirements. For more information, please visit: http://www.cuprime.org/class.

PHYS 1580 (3) Energy and Interactions
Engages non-physics majors in hands-on, minds-on activities and labs to investigate the physical world, the nature of science, and how science knowledge is constructed. This introductory course is especially relevant for future elementary and middle school teachers although it will meet the needs of most non-physics and non-science majors. Physical content focuses on interactions and energy.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 1580
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Chemistry
MAPS Course: Natural Science
MAPS Course: Physics

PHYS 2010 (5) General Physics 1
Includes three lectures, one two-hour laboratory/recitation per week, plus three evening exams in the fall and spring semesters. Covers mechanics, heat and sound. Thorough presentation of fundamental facts and principles of physics using algebra and trigonometry. Designed for life science majors, including premed students. Natural science majors with a knowledge of calculus and others taking calculus are urged to take the calculus-based courses PHYS 1110, PHYS 1120, PHYS 1140 and PHYS 2130, rather than PHYS 2010 and PHYS 2020. Department enforced prerequisites: ability to use high school algebra and trigonometry.
Additional Information: GT Pathways: GT-SC1 - Natural Physcal Sci:Lec Crse w/ Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science

PHYS 2020 (5) General Physics 2
Includes three lectures, one two-hour laboratory/recitation per week, plus three evening exams in the fall and spring semesters. Covers electricity and magnetism, light and modern physics. Designed for life science majors, including premed students. Natural science majors with a knowledge of calculus and others taking calculus are urged to take the calculus-based courses PHYS 1110, PHYS 1120, PHYS 1140 and PHYS 2130, rather than PHYS 2010 and PHYS 2020.
Requisites: Requires a prerequisite course of PHYS 1110 or PHYS 2010 (minimum grade C-).
Additional Information: GT Pathways: GT-SC1 - Natural Physcal Sci:Lec Crse w/ Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 2130 (3) Introduction to Quantum Mechanics and Its Applications
Learn about a leading edge of physics and engineering along with its applications to much of modern technology. Topics include quantum theory, atomic physics, solid state and nuclear physics. Applications discussed may include special relatively, lasers, diodes/transistors, nuclear energy, quantum computing and encryption. Third semester of introductory sequence for science and engineering students. Physics majors should take PHYS 2170 instead of this course. May be taken concurrently with PHYS 2150.
Requisites: Requires a prerequisite course of PHYS 1120 or PHYS 1125, and a prerequisite or corequisite course of MATH 2400 or APPM 2350 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 2150 (1) Experimental Physics 2
One lect., one 2-hour lab per week. Includes many experiments of modern physics, including atomic physics, solid state physics, electron diffraction, radioactivity and quantum effects. Normally taken concurrently with PHYS 2130 or PHYS 2170, this course may be taken after PHYS 2130 or PHYS 2170.
Requisites: Requires a prerequisite course of PHYS 1140 and a prerequisite or corequisite course of PHYS 2130 or PHYS 2170 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 2170 (3) Foundations of Modern Physics
Covers special relativity, quantum mechanics and atomic structure. Completes the three-semester sequence of general physics for physics and engineering physics majors. Normally taken with the laboratory PHYS 2150.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 2130
Requisites: Requires a prerequisite course of PHYS 1120 or PHYS 1125, and a prerequisite or corequisite course of MATH 2400 or APPM 2350 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 2210 (3) Classical Mechanics and Mathematical Methods 1
Theoretical Newtonian mechanics, including position and velocity dependent forces, oscillation, stability, non-inertial frames and gravitation from extended bodies. Ordinary differential equations, vector algebra, curvilinear coordinates, complex numbers, and Fourier series will be introduced in the context of the mechanics.
Requisites: Requires a prerequisite course of PHYS 2130 or PHYS 2170 and a prerequisite or corequisite course of APPM 2350 or MATH 2400 and a prerequisite or corequisite course of APPM 2360 or MATH 3430 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 2600 (3) Introduction to Programming and Scientific Computing
Covers basic concepts in programming and scientific computing, including numerical integration and simulation of physical systems. Students will learn the programming language Python and associated graphics libraries. Programming examples will be drawn from classical physical systems that can only be solved numerically, such as projectile motion with drag and N-body problems.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 2600
Requisites: Requires prerequisite course of PHYS 1120 (minimum grade C-). Requires prerequisite or corequisite course of PHYS 2170 or PHYS 2130 (minimum grade C-).

PHYS 2840 (1-3) Independent Study
Selected topics for undergraduate independent study. Subject matter to be arranged.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

PHYS 3000 (3) Science and Public Policy
For nonscience majors. Reading, discussions, debates and lectures are used to study how science affects society economically, intellectually, and in terms of health and national security. Another focus is how government fosters and funds scientific activities. Department enforced prerequisite: completion of core science requirement.
Equivalent - Duplicate Degree Credit Not Granted: ARSC 3200

PHYS 3050 (3) Writing in Physics: Problem-Solving and Rhetoric
Teaches strategies used in scientific writing with an emphasis on argument, reviews and reinforces essential writing skills, provides experience in writing both academic and professional communications in a style appropriate to the literature of physics. Department enforced prerequisite: lower-division core writing requirement. Does not count toward the PHYS-BA major requirements or major GPA.
Requisites: Requires a prerequisite course of PHYS 2130 or PHYS 2170 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Upper

PHYS 3070 (3) Energy and the Environment
Contemporary issues in energy consumption and its environmental impact, including fossil fuel use and depletion; nuclear energy and waste disposal; solar, wind, hydroelectric, and other renewable sources; home heating; energy storage; fuel cells; and alternative transportation vehicles. Included are some basic physical concepts and principles that often constrain choices. No background in physics is required.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 3070
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 3090 (3) Introduction to Quantum Computing
Covers the basics of quantum computation, including the basics of quantum information; axioms of quantum mechanics; quantum circuits and universality; the relationship between quantum and classical complexity classes; simple quantum algorithms such as the quantum Fourier transform; Shor factoring algorithm; Grover search algorithm; physical implementation of quantum computation; error correction and fault tolerance.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 3090 and ECEN 3090
Requisites: Requires prerequisite course of APPM 2360 or APPM 3310 or CSCI 2820 or MATH 2130 or MATH 2135 (minimum grade C-).

PHYS 3210 (3) Classical Mechanics and Mathematical Methods 2
Lagrangian and Hamiltonian treatment of theoretical mechanics, including coupled oscillations, waves in continuous media, central force motion, rigid body motion and fluid dynamics. The calculus of variations, linear algebra, tensor algebra, vector calculus, and partial differential equations will be introduced in the context of the mechanics.
Requisites: Requires a prerequisite course of PHYS 2210 and a prerequisite course of APPM 2350 or MATH 2400 and a prerequisite course of MATH 3430 or APPM 2360 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 3220 (3) Quantum Mechanics 1
Introduces quantum mechanics with wave, operator and matrix computational techniques. Investigates solutions for harmonic oscillator, potential well and systems with angular momentum. Develops a quantitative description of one-electron atoms in lowest order.
Requisites: Requires a prerequisite course of PHYS 3210 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 3221 (1) Tutorial Practicum for Quantum Mechanics 1
Uses interactive group work to aid student learning in corequisite course PHYS 3220. In this tutorial, students will work in small groups to practice how to solve challenging problems and their underlying conceptual basis, as well as using hands-on activities, demonstrations, and other techniques to help learn content.
Requisites: Requires a corequisite course of PHYS 3220.

PHYS 3310 (3) Principles of Electricity and Magnetism 1
Covers mathematical theory of electricity and magnetism, including electrostatics, magnetostatics, and polarized media, and provides an introduction to electromagnetic fields, waves, and special relativity.
Requisites: Requires a prerequisite course of PHYS 2210 and a prerequisite course of APPM 2350 or MATH 2400 and a prerequisite course of MATH 3430 or APPM 2360 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 3311 (1) Tutorial Practicum for Electricity & Magnetism 1
Uses interactive group work to aid student learning in corequisite course PHYS 3310. In this tutorial, students will work in small groups to practice how to solve challenging problems and their underlying conceptual basis, as well as using hands-on activities, demonstrations, and other techniques to help learn content.
Requisites: Requires a corequisite course of PHYS 3310.

PHYS 3320 (3) Principles of Electricity and Magnetism 2
Continuation of PHYS 3310. Electromagnetic induction; magnetic energy; microscopic theory of magnetic properties; Ac circuits; Maxwell's Equations; planewaves; waveguides and transmission lines; radiation from electric and magnetic dipoles and from an accelerated charge.
Requisites: Requires a prerequisite course of PHYS 3310 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 3330 (2) Electronics for the Physical Sciences
Introduces laboratory electronics for physical science students. Includes basic electronic instruments, dc bridge circuits, operational amplifiers, bipolar transistors, field-effect transistors, photodiodes, noise in electronic circuits, digital logic and microcontrollers. Students gain hands-on experience in designing, building and debugging circuits. Two lectures and one three hour laboratory per week. Concludes with a three-week project in which students design and build an experiment of their choice and present a seminar on the results.
Requisites: Requires prerequisite courses of PHYS 2150 and PHYS 2130 or PHYS 2170 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4130 (3) Biological Electron Microscopy: Principles and Recent Advances
Covers basic mechanisms for imaging and recent advances used in current biological research, elements of electron optics, image optimization, resolution, radiation damage, various imaging modes (TEM, HVEM, Sem, Stem, Stm), specimen quantitation and reconstruction (stereo and 3-D), microanalysis and electron diffraction. Specimen preparation treated only incidentally.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 5130
Requisites: Requires a prerequisite course of EBIO 1220 or MCDB 1150 or MCDB 4550 or MCDB 5550 or PHYS 1120 or PHYS 2020 (minimum grade D-).

PHYS 4150 (3) Plasma Physics
Discusses the fundamentals of plasma physics, including particle motion in electromagnetic fields, wave propagation, collisions, diffusion, and resistivity. Presents examples from space plasmas, astrophysical plasmas, laboratory fusion plasmas, and plasmas in accelerators.
Requisites: Requires a prerequsite course of PHYS 3310 and a prerequisite or corequisite course of PHYS 3320 (all minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4230 (3) Thermodynamics and Statistical Mechanics
Statistical mechanics applied to macroscopic physical systems; statistical thermodynamics, classical thermodynamics systems; applications to simple systems. Examines relationship of statistical to thermodynamic points of view.
Requisites: Requires a prerequisite course of PHYS 2210 and a prerequisite or corequisite course of PHYS 3220 (all minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4340 (3) Introduction to Solid State Physics
Discusses crystal structure, lattice dynamics, band theory, semiconductors and ferromagnetism.
Requisites: Requires a prerequsite course of PHYS 3220 (minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4410 (3) Quantum Mechanics 2
Extends quantum mechanics to include perturbation theory and its applications to atomic fine structure, multi-particle systems, interactions with external forces, the periodic table and dynamical processes including electromagnetic transition rates.
Requisites: Requires prerequisite courses of PHYS 3220 and PHYS 3310 (all minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4420 (3) Nuclear and Particle Physics
Introduces structure of the atomic nucleus, spectroscopy of subnuclear particles, scattering, reactions, radioactive decay, fundamental interactions of quarks and leptons.
Requisites: Requires prerequsite courses of PHYS 3320 and PHYS 4410 (all minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4430 (3) Advanced Laboratory
Two lectures, one lab per week. Experiments introduce students to realities of the experimental physics so they gain a better understanding of theory and an appreciation of the vast amount of experimental work done in the physical sciences today.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 5430
Requisites: Requires a prerequsite course of PHYS 3330 (minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4450 (3) History and Philosophy of Physics
Discusses the epistemic question of what characterizes good physics research as well as the metaphysical question of what our best physics research tells us about the world. Topics may include case studies of physics experiments, theory choice, and scientific methodology in physics, as well as foundational metaphysical questions in statistical mechanics, quantum mechanics, special and general relativity, chance and probability, and the laws of nature.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5450 and PHIL 4450 and PHYS 5450
Requisites: Requires a prerequisite course of PHYS 1020 or PHYS 1120 or PHYS 1125 or PHYS 2020 (minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4460 (3) Teaching and Learning Physics
Learn how people understand key concepts in physics. Through examination of physics content, pedagogy and problems, through teaching, and through research in physics education, students will explore the meaning and means of teaching physics. Students will gain a deeper understanding of how education research is done and how people learn. Useful for all students, especially for those in interested in physics, teaching and education research.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 5460 and EDUC 4460 and EDUC 5460
Requisites: Requires prerequisite courses of PHYS 3210 and PHYS 3310 (all minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4510 (3) Optics
Basic electromagnetic theory of light, using Maxwell's equations. Examples in geometrical optics; extensive applications in physical optics including diffraction and polarization. Spectra, including Zeeman effect and fluorescence. Recent advances in experimental techniques: microwaves, lasers, image converters.
Requisites: Requires a prerequisite course of PHYS 3320 (minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4550 (3) Cells, Molecules and Tissues: A Biophysical Approach
Focuses on the biophysics governing the structure/function of enzymes, cells, extracellular matrix and tissue. Synthesizes ideas from molecular biology, physics, and biochemistry, emphasizing how low Reynolds number physics, not Newtonian physics, is relevant to life inside a cell. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5550 and MCDB 4550 and PHYS 5550
Recommended: Prerequisites MCDB 3135 and MCDB 3145 and PHYS 2010 and PHYS 2020 and CHEM 1133 or MATH 1300 and/or CHEM 3311 (minimum grade C-) or instructor consent required.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4560 (3) Introduction to Biophysics
Covers an introduction to the physics of living systems. Focuses on how living systems are able to generate order, with both physical principles and biological examples. Covers the development of quantitative models for biological systems, including estimates. Taught from a physics perspective, with biology background introduced as needed.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 5560 and MCDB 4560 and MCDB 5560
Requisites: Requires a prerequisites course of PHYS 2210 (minimum grade C-).
Recommended: Prerequisite PHYS 4230.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4610 (2) Physics Honors
Students are matched with a faculty member and work independently on a research topic. Typically, the honors program lasts three semesters. A senior thesis and an oral presentation of the work are required. See also PHYS 4620 and PHYS 4630. Department enforced prerequisite: mininimum 3.00 GPA. Registration by special arrangement with the Department of Physics.
Additional Information: Arts Sciences Honors Course

PHYS 4620 (2) Physics Honors
Students are matched with a faculty member and work independently on a research topic. Typically, the honors program lasts three semesters. A senior thesis and an oral presentation of the work are required. See also PHYS 4610 and PHYS 4630. Department enforced prerequisite: mininimum 3.00 GPA. Registration by special arrangement with the Department of Physics.
Additional Information: Arts Sciences Honors Course

PHYS 4630 (2) Physics Honors
Students are matched with a faculty member and work independently on a research topic. Typically, the honors program lasts three semesters. A senior thesis and an oral presentation of the work are required. See also PHYS 4610 and PHYS 4620. Department enforced prerequisite: mininimum 3.00 GPA. Registration by special arrangement with the Department of Physics.
Additional Information: Arts Sciences Honors Course

PHYS 4700 (3) Quantum Forge I
Provides junior- and senior-level engineering and physical science students an opportunity to gain professional and technical quantum science skills and experience through participation in real-world projects in collaboration with industry leaders and academic investigators. Alongside project activity, students will engage in skill- and concept-focused modules to ensure proficiency in the skills necessary to participate in the quantum workforce. This capstone experience is intended for students who do not intend to continue on to graduate study in physics or engineering, but rather to enter the workforce directly.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4700
Requisites: Requires prerequisite course of PHYS 3330 (minimum grade C-).
Recommended: Prerequisite or corequisite PHYS 4410.

PHYS 4710 (3) Quantum Forge II
Continuation of PHYS 4700, Quantum Forge I. The Quantum Forge provides junior- and senior-level engineering and physical science students an opportunity to gain professional and technical quantum science skills and experience through participation in real-world projects in collaboration with industry leaders and academic investigators. In the second semester, students will expand upon the knowledge and skills gained through the first-semester to bring projects to a point of completion and readiness for deployment in the industry context. As with Quantum Forge I, this capstone experience is intended for students who do not intend to continue on to graduate study in physics or engineering, but rather to enter the workforce directly.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4710
Requisites: Requires prerequisite course of PHYS 4700 or MCEN 4700 (minimum grade C-).

PHYS 4810 (1-3) Special Topics in Physics
Various topics not normally covered in the curriculum. Offered intermittently depending on student demand and availability of instructors.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PHYS 4840 (1-3) Independent Study
Selected topics for undergraduate independent study. Subject matter to be arranged. See also PHYS 4850.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

PHYS 4850 (1-3) Independent Study
Selected topics for undergraduate independent study. Subject matter to be arranged. See also PHYS 4840.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

PHYS 4970 (3) Seminar on Physical Methods in Biology
Covers basic mechanisms and applications of physical methods used in current biological research, microprobe analysis, Eels, elementary electron and x-ray crystallography, biomedical imaging (NMR, MRI, Pet, Cat), Fourier analysis, synchrotron radiation, Exafs, neutron scattering and novel ultramicroscopy techniques. Includes lectures, student presentations, occasional demonstrations. Emphasis depends on student interest.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 5970
Requisites: Requires a prerequisite course of PHYS 1120 or PHYS 2020 and MCDB 1150 or EBIO 1220 (all minimum grade D-).

Physics - Bachelor of Arts (BA)

The undergraduate degree in physics emphasizes knowledge and awareness of:

- The basic subfields of physics (classical mechanics, electricity and magnetism, quantum mechanics, statistical mechanics and thermodynamics), as well as at least one specialty area of application (e.g., solid state physics or optics);
- The major principles of physics, their historical development and the roles they play in the various subfields of physics;
- The interrelations between theory and observation, the role of systematic and random experimental errors and methods used to analyze experimental uncertainty and compare experiment with theory;
- Physical phenomena and experience in the use of basic experimental apparatus and measuring instruments;
- Mathematics sufficient to facilitate the acquisition and application of physical principles; and
- The importance of physics in other fields such as chemistry, biology, engineering, medicine and in society at large.

In addition, students completing the degree in physics are expected to acquire the ability and skills to:

- Apply physical principles to new situations;
- Construct and assemble experimental apparatus, conduct and analyze measurements of physical phenomena, analyze experimental uncertainty and make meaningful comparisons between experiment and theory; and
- Communicate results of scientific inquiries verbally and in writing.

Plans of Study

Three different plans are available to students in physics. Because there is some flexibility within each plan, the department encourages students to pursue their own interests in setting up their curriculum. The final responsibility for fulfilling the requirements for the degree rests with the student.

Note: Students may not earn a bachelor's degree in physics from the College of Arts & Sciences as well as a bachelor's degree in engineering physics from the College of Engineering & Applied Science. Furthermore, the physics minor may not be earned with either of these two baccalaureate programs.

Plan I

This plan is primarily for students planning graduate work in physics.

Plan II

This plan is for students desiring an interdisciplinary physics program.

The interdisciplinary program includes a combination of a physics major with a focus in another area such as astrophysics, atmospheric sciences, applied mathematics, biophysics, biotechnology, chemical physics, computer science, electronic devices, environmental sciences, geophysics, optics, philosophy and history of science, and pre-medicine.

Plan III

This plan is for students intending to become secondary school teachers.

Requirements

Program Requirements

Students who have declared physics as a major are required to consult with a physics faculty mentor at least once per semester. First-year students considering physics as a major, are strongly encouraged to visit the physics academic advisor and discuss the situation. Because most of the advanced physics courses have various prerequisites, failure to settle on an appropriate plan of study early in the college career can result in delay and complications later. Students must receive a "C-" or better in all major courses, as well as in ancillary courses. These courses cannot be taken pass/fail. If a course is a pre-requisite for another course, the student may not register for the subsequent course until the grade in the pre-requisite is a "C-" or better. Students must have a grade point average of at least 2.000 in the major in order to graduate, and no more than 45 credits in PHYS may be applied to overall graduation requirements.

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below.

Plans of Study

Plan I

This plan includes 45 credit hours of physics courses.

Required Courses and Credits

Code	Title	Credit Hours
Required Physics Courses		
PHYS 1115	General Physics 1 for Majors	4
or PHYS 1110	General Physics 1	
PHYS 1125	General Physics 2 for Majors	4
or PHYS 1120	General Physics 2	
PHYS 1140	Experimental Physics 1	1
PHYS 2150	Experimental Physics 2	1
PHYS 2170	Foundations of Modern Physics	3
PHYS 2210	Classical Mechanics and Mathematical Methods 1	3
PHYS 3210	Classical Mechanics and Mathematical Methods 2	3
PHYS 3220	Quantum Mechanics 1	3
PHYS 3310	Principles of Electricity and Magnetism 1	3
PHYS 3320	Principles of Electricity and Magnetism 2	3
PHYS 3330	Electronics for the Physical Sciences	2
PHYS 4230	Thermodynamics and Statistical Mechanics	3
PHYS 4410	Quantum Mechanics 2	3
Physics Electives		**9**
Select a research activity - see details below (3-6 credit hours):		
PHYS 4430	Advanced Laboratory	
PHYS 4610	Physics Honors	
PHYS 4620	Physics Honors	
PHYS 4630	Physics Honors	
PHYS 4700	Quantum Forge I	
PHYS 4710	Quantum Forge II	
PHYS 4840	Independent Study	
Select physics theory electives from the list below (3-6 credit hours):		

PHYS 2600	Introduction to Programming and Scientific Computing
PHYS 3090	Introduction to Quantum Computing
PHYS 4150	Plasma Physics
PHYS 4340	Introduction to Solid State Physics
PHYS 4420	Nuclear and Particle Physics
PHYS 4450	History and Philosophy of Physics
PHYS 4460	Teaching and Learning Physics
PHYS 4510	Optics
PHYS 4550	Cells, Molecules and Tissues: A Biophysical Approach
PHYS 4560	Introduction to Biophysics
PHYS 4810	Special Topics in Physics
PHYS 5030	Intermediate Mathematical Physics 1
PHYS 5040	Intermediate Mathematical Physics 2
PHYS 5770	Gravitational Theory (Theory of General Relativity)
Other PHYS or ASTR upper-division courses as approved in advance by advisor.	
Total Credit Hours	**45**

Ancillary Mathematics & Chemistry Coursework

Code	Title	Credit Hours
Ancillary Mathematics Courses		
MATH 1300	Calculus 1	4-5
or APPM 1350	Calculus 1 for Engineers	
MATH 2300	Calculus 2	4-5
or APPM 1360	Calculus 2 for Engineers	
MATH 2400	Calculus 3	4-5
or APPM 2350	Calculus 3 for Engineers	
Select one of the following Linear Algebra and Differential Equations options:		4-6
Option 1		
APPM 2360	Introduction to Differential Equations with Linear Algebra	
Option 2		
MATH 2130 & MATH 3430	Introduction to Linear Algebra for Non-Mathematics Majors and Ordinary Differential Equations	
Ancillary Chemistry Course		
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	5
Total Credit Hours		**21-26**

Ancillary Programming Requirement

The programming requirement may be completed in one of the following ways:

1. Complete PHYS 2600, ASTR 2600, CSCI 1300 or APPM 1650. (PHYS 2600 will count toward the 45 required PHYS credit hours while the other programming courses will not.)
2. By documentation of programming experience (i.e., a letter from a job or internship, or evidence of substantial contributions to an open-source code base). Approval by a physics department faculty mentor is required for this option and no academic credit is earned under this option.

Research Activity Requirement

The research activity may be completed in one of the following ways:

1. Between 3 and 6 credit hours may be earned from: PHYS 4430, PHYS 4610/PHYS 4620/PHYS 4630, PHYS 4700, PHYS 4710 or PHYS 4840.
2. By documentation of your accomplishments as an intern with a research activity within the physics department or a suitable cognate department, institute or external entity such as NCAR, NIST, NOAA, etc.
   - Approval by a physics department advisor is required for option (2) and should be obtained in advance.
   - No academic credit is earned under the internship option (2), so if an internship is taken, students must still earn 9 credit hours of physics electives.

Plan II

For the interdisciplinary program, 33 credit hours of physics courses, plus 12 credit hours of interdisciplinary courses are required. Courses in the interdisciplinary subjects may not be double-counted with the required 33 credit hours of physics courses. Students may not double-major in Astrophysics (though the APS department) and Physics Plan 2 with an astrophysics concentration.

Interdisciplinary courses must be approved by the physics department, either by the pre-approved list of courses in each discipline or by a physics department mentor on a course-by-course basis. It is therefore imperative that students in Plan II be in close contact with the physics department advisor.

Ancillary Chemistry Course		
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	5
Total Credit Hours		**21-26**

Ancillary Programming Requirement

The programming requirement may be completed in one of the following ways:

1. Complete PHYS 2600, ASTR 2600, CSCI 1300 or APPM 1650. (PHYS 2600 could count as the 3-credit PHYS elective in the interdisciplinary program.)
2. By documentation of programming experience (i.e., a letter from a job or internship, or evidence of substantial contributions to an open-source code base). Approval by a physics department faculty mentor is required for this option and no academic credit is earned under this option.

[1] Departmental lists of approved courses for the interdisciplinary plan are available in the advising guide on the Department of Physics website (http://www.colorado.edu/physics/).

Plan III

This plan involves a minimum of 30 credit hours of physics and a minimum of 6–7 credit hours in education courses. To earn a Secondary Science teacher license from the School of Education, students must complete additional education courses as well as courses in biology and earth/space science. Students should check with an advisor in the School of Education for the most updated teacher licensure requirements.

Total Credit Hours		**27-35**

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a

requirement for the major. To maintain adequate progress in physics plans I and II, students should meet the following requirements:

- In the first semester, declare the physics major.
- By the end of the second semester, complete the following courses: PHYS 1110 or PHYS 1115; PHYS 1120 or PHYS 1125; PHYS 1140, MATH 1300 or APPM 1350, and MATH 2300 or APPM 1360.
- By the end of the fourth semester, complete the following courses: PHYS 2150, PHYS 2170, PHYS 2210, CHEM 1113, MATH 2400 or APPM 2350; and APPM 2360. MATH 2130 and MATH 3430 can substitute for APPM 2360.
- Before the fifth semester, meet with the physics advisor to get approval for completion plan (FSACP). In addition to completing PHYS 4230 and PHYS 4410, Plan I students must get approval to complete 9 credit hours in physics electives, with a research participation component. In addition to completing PHYS 4230, interdisciplinary Plan II students must complete 12 credit hours of interdisciplinary courses.
- By the end of the sixth semester, complete PHYS 3210, PHYS 3220, PHYS 3310, PHYS 3320 and PHYS 3330.
- Early in the seventh semester, meet with the physics advisor to have the statement of major status filled in. This includes a plan for completing the requirements of the major during the senior year and must be signed by the student and the advisor. Further details concerning the execution of the guarantee can be obtained from the department.

Sample Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement, including the Lab requirement, and the QRMS component of the Gen Ed Skills Requirement. See the department for Plan-specific Four-Year Plans of Study.

Year One		
Fall Semester		**Credit Hours**
PHYS 1115 or PHYS 1110	General Physics 1 for Majors or General Physics 1	4
MATH 1300 or APPM 1350	Calculus 1 or Calculus 1 for Engineers	5
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/Global Perspective)		3
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
	Credit Hours	**15**
Spring Semester		
PHYS 1125 or PHYS 1120	General Physics 2 for Majors or General Physics 2	4
PHYS 1140	Experimental Physics 1	1

Upper-division elective		3
Lower or Upper-division elective		3
	Credit Hours	**15**
	Total Credit Hours	**118-120**

Learning Outcomes

By the completion of the program, students will be able to:

- Knowledge of the basic subfields of physics (classical mechanics, electricity and magnetism, quantum mechanics, statistical mechanics and thermodynamics), as well as at least one specialty area of application (e.g., condensed matter physics or optics).
- The ability to apply major principles of physics towards solving problems in various subfields of physics, including the use of mathematical and computational tools as appropriate.
- Skills in assembling and using experimental apparatus to conduct and analyze measurements of physical phenomena.
- Knowledge of the role of systematic and random experimental errors, along with methods used to analyze experimental uncertainty and compare experiment with theory.
- Skills in collaborating effectively and communicating results of scientific inquiries verbally and in writing.

Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

BA and MS in Physics

The BAM program in physics aims to provide new opportunities for undergraduate physics majors. The program is specifically addressed to the students in the Plan 1 Major Program of the Department of Physics. The Plan 1 physics major gives students a thorough grounding in theoretical physics so that they are well prepared either to proceed with graduate work or with professional employment. For students interested in graduate studies, this program in physics allows for participation in graduate coursework and research in a broad range of areas. For students interested in immediate professional employment, this program would serve as a terminal degree program that qualifies students for a higher level of employment.

Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.30 or higher and a physics major GPA of 3.30 or higher.
- Have completed a minimum of 75 credit hours of coursework.
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder.
- Have a letter of support from a faculty advisor to complete master's level research.

Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. However, only 6 credit hours may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

If you are interested in the BAM degree program, please see the Department of Physics website (http://www.colorado.edu/physics/academics/undergraduate-students/concurrent-bachelorsmasters-degree/).

Physics - Minor

A minor is offered in physics. Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school, except for students pursing the physics major, engineering physics major or the astrophysics/physics track of the astronomy major. For more information, see the Department of Physics Minoring in Physics (http://www.colorado.edu/physics/academics/undergraduate-students/minoring-physics/) webpage.

Requirements

Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school, except for students pursing the engineering physics major or the astrophysics/physics track of the astronomy major. The minimum number of credit hours for a student without advanced placement or transfer credit is 25 hours (16 lower-division and 9 upper-division). *All of the required physics classes listed below have co-requisite or prerequisite mathematics courses. Students should check to see if they meet these requisites.*

All coursework applied to the minor must be completed with a grade of C- or better (no pass/fail work may be applied). The GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

Required Courses and Credit Hours

Code	Title	Credit Hours
Required Physics Courses		**16**
PHYS 1110	General Physics 1	
PHYS 1120	General Physics 2	
PHYS 1140	Experimental Physics 1

Select three of the following upper-division courses:		
PHYS 3210	Classical Mechanics and Mathematical Methods 2	
PHYS 3220	Quantum Mechanics 1	
PHYS 3310	Principles of Electricity and Magnetism 1	

PHYS 3320	Principles of Electricity and Magnetism 2	
PHYS 4230	Thermodynamics and Statistical Mechanics	
Total Credit Hours		**25**

Political Science

The political science major is a social science major. Students learn about political institutions, behavior, ideas and the methods used to study these phenomena. Work within the department is organized around six fields: American government and politics, comparative politics, international relations, public policy, political theory and empirical theory and methodology. The department's mission is to understand the political world and give students skills for a lifetime of inquiry, engagement and analysis.

In the undergraduate program, students develop skills in critical thinking, writing, analysis, research methods, and communication of social science findings. Political science majors go on to work in business, government, non-governmental organizations and many other fields. The major also prepares students for study at the graduate level in political science, public policy, law and other disciplines.

Our mission is to help students understand important political ideas, institutions (domestic and international), and actors. Students learn a number of broad concepts, including:

- The philosophical basis of justice, equality and representation.
- The meaning of diversity and its political consequences.
- The origins and function of the American political system.
- The political behavior of individuals and groups and why it matters.
- The political and social organization of other countries.
- The reasons that some countries cooperate while others engage in conflict.

Course code for this program is PSCI.

Sample Courses

Below is a sample of current courses which represent areas of inquiry within our curriculum.

Code	Title	Credit Hours
PSCI 2116	Introduction to Environmental Policy and Policy Analysis	3
PSCI 3062	Revolution and Political Violence	3
PSCI 3183	International Law	3
PSCI 3021	U.S. Campaigns and Elections	3
PSCI 3174	Sex, Power, and Politics: U.S. Perspectives	3
PSCI 4012	Global Development	3
PSCI 4221	Political Psychology	3
PSCI 3075	Applied Political Science Research	3

Learning Outcomes

The undergraduate political science curriculum produces the following learning outcomes:

- Students will communicate political science concepts clearly, both orally and in writing.
- Students will locate the evidence necessary to evaluate arguments in political science research and the current political world.
- Students will create well-designed arguments using relevant theories of political science.
- Students will answer research questions using logical inference from quantitative and qualitative evidence.
- Students will understand political dynamics at the subnational, national and international levels.
- Students will develop an appreciation for various ideological perspectives and for the complex political environment around them.
- Students will acquire a sense of efficacy for changing the political environment.

Students interested in political science may also want to consider the Global Studies Residential Academic Program (RAP) (p. 1096).

Bachelor's Degree

- Political Science - Bachelor of Arts (BA) (p. 539)

Minor

- Political Science - Minor (p. 541)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Shin, Adrian (https://experts.colorado.edu/display/fisid_158138/)
Assistant Professor; PhD, University of Michigan Ann Arbor

Sokhey, Anand Edward (https://experts.colorado.edu/display/fisid_147113/)
Professor; PhD, The Ohio State University

Sokhey, Sarah Wilson (https://experts.colorado.edu/display/fisid_147614/)
Associate Professor; PhD, The Ohio State University

Strayhorn, Joshua Aaron (https://experts.colorado.edu/display/fisid_152584/)
Associate Professor; PhD, Emory University

Tir, Jaroslav (https://experts.colorado.edu/display/fisid_149842/)
Professor; PhD, University of Illinois at Urbana–Champaign

Vanderheiden, Steven Jon (https://experts.colorado.edu/display/fisid_144759/)
Professor; PhD, University of Wisconsin–Madison

Courses

PSCI 1101 (3) Introduction to American Politics
Emphasizes interrelations among levels and branches of government, formal and informal institutions, processes, and behavior.
Additional Information: GT Pathways: GT-SS1 - Soc Behav Sci: Econ or Pol Systems
Arts Sci Core Curr: Contemporary Societies
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American
MAPS Course: Social Science
MAPS Course: Social Science US Context

PSCI 2004 (3) Survey of Western Political Thought
Studies main political philosophies and political issues of Western culture, from antiquity to 20th century.
Additional Information: GT Pathways: GT-SS1 - Soc Behav Sci: Econ or Pol Systems
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 2012 (3) Introduction to Comparative Politics
Most countries confront a variety of common political problems, including how to gain popular support, what kinds of political institutions are most appropriate, and how to distribute burdens and benefits to different segments of the population. Concentrates on learning how to compare different political systems and provides illustrative examples from several countries in both the industrialized and nonindustrialized world.
Additional Information: GT Pathways: GT-SS1 - Soc Behav Sci: Econ or Pol Systems
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 2028 (3) Special Topics
Offers subjects not covered by existing courses. Offered when department approves a special topic.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General

PSCI 2075 (3) Quantitative Research Methods
Introduces quantitative research methods used in political science. Focuses on basic tools of analysis: data collection, processing, and evaluation, with special attention to survey techniques. Includes elite and case study analysis; aggregate, cluster, and content analysis; and the use of computers in political research.
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Empirical Theory and Research Methdology
MAPS Course: Mathematics

PSCI 2106 (3) Introduction to Public Policy Analysis
Studies policymaking processes in American government, factors shaping public decision, and issues and questions relevant to political inquiry.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Public Policy

PSCI 2116 (3) Introduction to Environmental Policy and Policy Analysis
Teaches a systematic general framework for the analysis of environmental policy issues. Analyzes the interaction of environmental sciences, ethics, and policy across a range of environmental policy problems. Stresses critical thinking and practical applications.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Public Policy

PSCI 2223 (3) Introduction to International Relations
Introduces the field of international relations, with general survey of the theories, histories, and problems of historical and contemporary relations among state and nonstate actors.
Additional Information: GT Pathways: GT-SS1 - Soc Behav Sci: Econ or Pol Systems
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 2481 (3) Introduction to the Legal Process
Covers basic legal concepts and processes emphasizing the American system. Gives special attention to political functions of law. Recommended as preparation for PSCI 4241.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3011 (3) The American Presidency and the Executive Branch
Examines the constitutional, institutional and historical development of the presidency and the federal bureaucracy. Explores the changing role of the executive branch in the U.S. political system over time and competing views of executive power.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3021 (3) U.S. Campaigns and Elections
Introduces students to the subjects, techniques, and findings of Political Science research on campaigns and elections. Particular emphasis is placed on the study of voting, campaign effects, partisan coalitions, electoral rules, campaign finance, and the policy impact of elections.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3022 (3) Russian Politics
Covers the important and pressing issues in modern Russia politics since 1990. How and why did Communism end? How did Putin come to power, what are his goals, and how long will he stay in power? What is going on with the Russian-Ukrainian conflict? Does the Russian government interfere in the politics of other countries? Come learn about the politics of this major world power.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 3031 (3) Political Parties and Interest Groups
Highlights the practice of party politics in the United States, including the nature, structure, organization, and functions of political parties and interest groups. Analyzes interest group politics and political behavior.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3032 (3) Democracy, Inequality and Violence in Latin America
Stresses different perspectives on Latin American politics and understanding key political actors and processes. Country focus varies.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 3035 (3) Introduction to Qualitative Research Methods
Enables students to create and critique qualitative research designs including comparative case studies, process tracing, interviews, archival research, and mixed methods. Includes lectures and in- or out-of-class exercises in which students use ideas discussed in the course to develop their own applied knowledge of these methods. Previously offered as a special topics course.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSCI 3041 (3) The American Congress
Provides intensive examination of the role of Congress in American government, including congressional elections, representation, the organization of Congress, and congressional policy making. Examines larger context of congressional politics, including political parties, the president, and interest groups.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3051 (3) Public Opinion and Political Behavior
Examines measurement of public opinion and evaluation of its impact on governmental policy formation, including survey research techniques.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3052 (3) Gender and Politics in Latin America
Examines Latin American politics with particular focus on women's participation in social movements, war, revolution, and elections. Compares women's and men's politics and activism and examines changing gender and sexuality policies, gender relations, and the differential impact of political, economic, and social changes on men and women.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3650
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2600 or PSCI 3032.
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 3054 (3) American Political Thought
Highlights the development of American political theories and ideas from colonial period to present. Can also be taken for American field credit.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2004.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 3061 (3) State Government and Politics
Examines politics in the American states from a comparative and historical perspective. Considers major political actors---interest groups, citizens (direct democracy), and political parties, as well as central institutions, in the state political arena. Also focuses on major state public policy concerns.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3062 (3) Revolution and Political Violence
Studies and evaluates alternative theoretical frameworks for the analysis of revolution and political violence. Theoretical material is firmly couched in case situations, such as ethnic, class, colonial, urban, racial, and religious conflicts.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101 or PSCI 2012 or IAFS 1000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 3064 (3) Environmental Political Theory
Examines environmental discourses as conceptual means for theorizing environmental politics, and applies normative political theories to contemporary environmental policy issues. Considers the roles of political actors (individuals, groups, the state) in defining and addressing environmental problems on local, national, and global levels.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 3064
Recommended: Prerequisite PSCI 2004.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 3071 (3) Urban Politics
Examines the structure of political, social, and economic influence in urban areas. Focuses on the relationship of the political system to governmental, social, and economic institutions and the contemporary policy processes in American cities.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3072 (3) Government and Politics in Southeast Asia
Surveys historical and contemporary forces shaping politics in Southeast Asia. Gives special attention to comparative political economy, including development strategies and transitions to democracy.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2012 or IAFS 1000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative
Departmental Category: Asia Content

PSCI 3075 (3) Applied Political Science Research
Introduces the types of research design and quantitative methodology used in applied political science research. Directly builds on the data analysis performed in Quantitative Research Methods (PSCI 2075).
Requisites: Requires prerequisite course of PSCI 2075 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Empirical Theory and Research Methdology

PSCI 3082 (3) Political Systems of Sub-Saharan Africa
Analyzes post-independence and post-Cold War change in sub-Saharan Africa and provides intensive case studies of selected countries exemplifying each type with South Africa seen as a special case.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2012 or IAFS 1000.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 3084 (3) Diversity, Disagreement, and Democracy: an Introduction to the Theory and Practice of Democracy
Examines the justification and limits for moral, political and religious pluralism. Students will be trained in the practice of dialogue and research the historical context of a subject that would be appropriate for a dialogue, and then interview members of the community who have different perspectives on the subject.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 3091 (3) Politics of Social Movements
Examines theoretical and empirical research on social movements from a U.S. perspective. Considers why social movements arise, who participates in them, the tactics they employ, obstacles they face, and their political impact.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3092 (3) Comparative Political Economy
Presents theories on the interaction between policies and economics, economic models of politics, and familiarizes students with an approach that will prove useful in understanding current developments in both economics and politics. Explores relationships between financial markets, currency regimes and politics with some special consideration of the behavioral foundations of political and economic developments. Recommeded prerequisite: PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 3101 (3) Black Politics
Examines structure of political, social, and economic influence in urban areas. Focuses on the relationship of political processes to governmental, social, and economic institutions and contemporary policy processes in American cities.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: American

PSCI 3102 (3) South Asian Politics
Examine the diverse political trajectories of four South Asian countries: India, Pakistan, Nepal, and Sri Lanka. Using a comparative lens, we will take into account historical, cultural, and economic, in addition to political, factors in deciphering this diversity of political paths.
Recommended: Prerequisite PSCI 2012 or IAFS 1000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative
Departmental Category: Asia Content

PSCI 3105 (3) Designing Social Inquiry: An Introduction to Analyzing Political Phenomena
Tackles conceptualization and measurement with a focus on reliability and validity of measures at the individual level. Explores how improper measurement and conceptualization can affect our inferences. Investigates how to use the tools of causal logic with statistical tools to differentiate linear, spurious, intervening and conditional relationships with a particular focus on what it means to "control for other factors".
Requisites: Requires prerequisite course of PSCI 2075 (minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Empirical Theory and Research Methdology

PSCI 3122 (3) Authoritarianism in the Digital Age
Introduces students to cutting edge research on how changes in information communication technologies (ICTs) have shaped politics in authoritarian regimes. Drawing on longstanding theories in the comparative politics literature, students will learn how governments, citizens, and non state actors use digital technologies to achieve their goals.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSCI 3123 (3) War, Peace, and Strategic Defense
Analyzes employment, or the threat of employing force, in securing American interests in the post-Cold War world. Gives special attention to utilities claimed for nuclear weapons, and alternatively, to weapons control and disarmament.
Equivalent - Duplicate Degree Credit Not Granted: PACS 3800
Recommended: Prerequisite PSCI 2223.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 3142 (3) Politics, History and Society of Cuba
Provide students with general knowledge about Cuba, its history, government, and economy, with a particular emphasis on the Cuban Revolution and more current events such as changes to travel restrictions and US policy toward Cuba under Obama, Trump and Biden. As a global intensive, it also involves a 10-day travel/educational program in Cuba that will occur after the semester.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSCI 3143 (3) Current Affairs in International Relations
Analyzes the various theoretical and policy challenges facing the post-Cold War world, with an emphasis on examining alternative conceptions of and approaches to such challenges.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2223.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 3155 (3) Survey Design and Analysis
Provides the unique experience of involvement in ongoing survey research. Designed for students from different disciplines who will learn about what makes a good versus bad survey, how to write effective questions and how to put survey questions together into a cohesive questionnaire. Gain insight into the pitfalls of survey research and how to overcome them. Provides hands-on, real world experience on the design, implementation and analysis of the annual Colorado Political Climate survey.
Requisites: Requires prerequisite course ANTH 4000 or APPM 4570 or BCOR 1020 or ECON 3818 or GEOG 3023 or GEOL 3023 or MATH 2510 or PSCI 2075 or PSYC 2111 or SOCY 2061(minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Empirical Theory and Research Methdology

PSCI 3163 (3) American Foreign Policy
Examines foundations, assumptions, objectives, dynamics, and methods of U.S. foreign policy since WWII. Gives special attention to domestic and external problems of adapting U.S. policy to the changing world environment.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2223.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 3172 (3) Democracy and Its Citizens in the US and EU
Explores the political institutions of the US and the EU and asks questions pertaining to the very citizenship experience in these two places; including policy, rights and liberties, quality of life, national identity, and immigration.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 3174 (3) Sex, Power, and Politics: U.S. Perspectives
Explores how norms of sex, gender, race and sexuality find expression in institutions and policies in ways that legitimize only certain individuals as political actors, certain identities as politically relevant, and certain relationships as important. Critically examines how norms may be exposed, resisted, and changed by studying the politics of the women's, gay liberation, and men's movements in the U.S.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3174
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2004 or WGST 2000 or LGBT 2000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 3183 (3) International Law
Investigates the legal principles and landmark judicial cases that govern relations between countries and other international actors. Explores the development and effectiveness of law on issues such as human rights, war crimes, and the use of military force.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2223.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 3184 (3) Race, Power, and Politics
Examines the fraught relationship between democracy and racial inequality in the US expressed in the founding contradiction between the Declaration of Independence and the recognition of slavery in the US Constitution. Explores these issues through study of the abolition movement, the Jim Crow era, Civil Rights and Black Power movements, immigrant activism, the American Indian movement, and Black Lives Matter.
Recommended: Prerequisite PSCI 2004.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

PSCI 3191 (3) National Security Organization and Policy Making
Analyzes how the American governmental and political system is structured to define, select, and implement national security policies. Examines roles of the president, Congress, bureaucracy, interest groups,and other actors.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3193 (3) International Behavior
Presents alternate theoretical frameworks for the explanation of international processes. Applies theories of conflict behavior and social organization to problems of war and peace.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2223.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 3205 (3) Undergraduate Research Experience
Broadens and strengthens social science methodological skills and training by providing research collaboration between undergraduates and advanced graduate students and faculty. Promotes hands-on learning, immersion in the research process, and professional relationships. Students will collectively design and execute an original research project on a topic chosen with guidance by the instructor.
Requisites: Requires prerequisite course of PSCI 2075 (minimum grade C-). Restricted to students with 27-180 credits (Sophomore, Junior or Senior) Political Science (PSCI) majors or minors only. Restricted to students with a cumulative GPA of 3.0 or higher.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Empirical Theory and Research Methdology

PSCI 3206 (3) The Environment and Public Policy
Considers constitutional, political, and geographic factors in development of public policy affecting the use of natural resources and management of the environment; organization, procedures, and programs for use of natural resources; and administration of environmental policies.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101 or PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Public Policy

PSCI 3211 (3) The Politics of Economic Inequality in the United States
Explores empirical and normative origins and current state of economic inequality in the United States from a political science perspective. Evaluates how ideas about democracy and public policy address economic inequality, including the roles of gender, race and class in inequality. Examines the relationship between economic inequality and political inequality in both political behavior and political institutions.
Requisites: Requires a prerequisite course of PSCI 1101 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: American

PSCI 3213 (3) International Political Economy
Analyzes issues at the intersection of international politics and international economics. Utilizes theories and concepts from both economics and political science to understand issues in trade, finance, development and migration. Formerly PSCI 4193.
Recommended: Prerequisite PSCI 2223.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 3216 (3) Politics of Social Policy
Examines theoretical assumptions, political processes, program content, and analytical methods used in development of US social policy. Current social policy issues are put in historic context and include assessment of social, economic, and political influences on policy choices and outcomes. Students have opportunity to compare policy approaches and gain practice in evaluating the politics and content of public policy alternatives.
Recommended: Prerequisite PSCI 1101, PSCI 2106 or PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSCI 3223 (3) International Human Rights
Introduces the basic concepts behind international human rights. We define human rights and learn how human rights norms have developed. We explore why countries regularly violate the human rights of their own citizens. We learn how politics complicates the interactions between countries and other actors to protect human rights. Finally, we analyze the promise and limits of international cooperation and law in promoting human rights.
Recommended: Prerequisite PSCI 2223.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSCI 3225 (3) Strategy and Politics
Focuses on the rational choice approach to understanding political decision making. Introduces students to the tools and methods of game-theoretic reasoning, and examines the strategic logic of many forms of political decision-making, including voting, lawmaking, and international conflict.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101 or PSCI 2012 or PSCI 2223.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Empirical Theory and Research Methdology

PSCI 3271 (3) Law and Society: Legal Institutions and Human Behavior
Examines relationship between human behavior and legal system, looking closely at the voluntary relationship between the citizen and the state, the use of law to balance economic liberty and equality, support for civil liberties, and procedural, distributive, and retributive justice.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3274 (3) Capitalism and its Critics
Examines competing theoretical approaches to questions related to origins, development, and purposes of modern government in the United States; particular attention paid to impact of transformations in the underlying structure of the capitalist economy. Formerly PSCI 3171.
Recommended: Prerequisite PSCI 1101 or PSCI 2004.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 3281 (3) Development of American Political Institutions
Learn about the evolution of major American political institutions including the presidency, Congress, the judiciary, the party system and the right to vote.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3294 (3) Theories of Identity
What is identity? How does it shape politics, and vice-versa? What are identity politics, and how do they shape the current political landscape? This course uses political theory, law, and case studies to give a three-part introduction to related core concepts: modern and contemporary theories of identity; the legal construction of identity in the United States; and the relationship between identity, policy, and activism in U.S. history and contemporary politics.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

PSCI 3301 (3) Gender, Sexuality and U.S. Law
Contemporary and historic overview of U.S. courts' treatment of sex and gender. Using the case method, examines policy issues including, but not limited to: same sex marriage and civil unions; privacy; affirmative action; abortion; reproductive technologies; and discrimination based on sex and sexual orientation in education and in the workplace.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3300
Recommended: Prerequisite PSCI 1101 or WGST 2000.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: American

PSCI 3311 (3) Gender and U.S. Politics: Protest, Polls and Policy
Provides an overview and critical examination of women as political actors within the United States. Students will examine the gendered components of citizenship, election, political office and public policy. Furthermore, students will explore the ways in which gender intersects with class, race, ethnicity, sexual orientation and other identities in U.S. politics.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3311
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 3774 (3) Free Speech and Dangerous Ideas
Examines in depth various philosophical and legal justifications of First Amendment rights of speech, press, association and religion. Assesses these justifications in relation to broader normative theories of liberal democracy. Can also be taken for American field credit. Formerly PSCI 4774.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisites PSCI 2004 and PSCI 2481.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 4002 (3) Western European Politics
Comparatively analyzes development of the political systems and processes of European democracies. Emphasizes contemporary institutions, decision making patterns, and policy issues. Special attention to challenges of welfare systems.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 4012 (3) Global Development
Analyzes development theory, case studies in development strategies, and the problems and promises of development: specifically issues of gender, environment, labor, corruption and poverty. The primary focus is on explanations for variation in level of development over time and across countries.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 4015 (3) Social Media & Politics Research Methods
Introduces students to state-of-the-art methods for using data from Twitter, Facebook, Instagram, Youtube, and TikTok in quantitative political science research. In this hands-on course, students will conduct original research projects using social media data, while learning text analysis and machine learning techniques that can be applied to diverse types of data.
Requisites: Requires prerequisite course of PSCI 2075 (minimum grade B).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSCI 4016 (3) Inequality and Public Policy in the U.S. and Europe
Provides an in-depth understanding of factors that change the level of inequality in the U.S. and in Europe and its economic, political, and social consequences across these states over time.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101 or PSCI 2012 or PSCI 2106.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Public Policy

PSCI 4022 (3) Chinese Foreign Policy
History of China's external relations and theories of foreign policy decision making. Explores two vital bilateral relations (Sino-U.S. and Sino-Japanese) and several key issues (like Taiwan) in China's 21st century foreign policy.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative
Departmental Category: Asia Content

PSCI 4024 (3) Senior Seminar in Political Theory
Intensively analyzes and discusses major theories and issues of both contemporary political thought and the history of political philosophy. The topic is announced by the instructor, but might include analysis of concepts (justice, human rights, democracy, etc.) or major theories. Emphasizes advanced discussion plus individual research.
Recommended: Prerequisite PSCI 2004.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 4028 (3) Special Topics
Offers subjects not covered by existing courses. Offered when the department approves a special topic.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General

PSCI 4052 (3) Chinese Politics
Explores the politics of 20th century China to speculate on China's future in the 21st century. Begins with an extensive look at the political history of the People's Republic, before turning to social, cultural, economic, and political issues today. Concludes with an examination of Chinese foreign policy, with a focus on Sino-American relations.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative
Departmental Category: Asia Content

PSCI 4062 (3) East European Politics
Studies developments in the former Soviet satellites and Yugoslavia, their governmental organizations, and their relation to the former Soviet Union and the West.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 4106 (3) Issues and Challenges in American Green Energy Policy
Explores growth of contemporary American green energy industry. Explores different types of green energy policies and how government institutions and regularly arrangements affect the development of green energy policy.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Public Policy

PSCI 4131 (3) Latinos and the U.S. Political System
Examines the political status and activities of Mexican Americans and other Latino groups (Cuban Americans and Puerto Ricans) in the U.S. Also covers Latino political attitudes and behaviors; Latino efforts to influence the major national, state, and local institutions of the American government; and public policy concerns of Latinos.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: American

PSCI 4173 (3) International Organizations
Explores if and how countries cooperate under anarchy. Investigates cooperation over a number of international issues, including peace and security, trade and development, human rights, and justice for victims of war crimes. Gives special attention to organizations including the United Nations, European Union, International Monetary Fund, and World Trade Organization.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 4213 (3) Europe and the International System
Covers the past, present and future of Europe's global role.
Recommended: Prerequisite PSCI 2223.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 4221 (3) Political Psychology
Examines the psychological foundations of political decision-making among citizens and elites. Considers the role of political psychology in explaining political behavior and outcomes at the individual and collective level.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 4241 (3) Constitutional Law
Focuses on the nature and scope of American constitutional principles as developed by the U.S. Supreme Court, including federalism, separation of powers, commerce, due process and equal protection.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 4242 (3) Middle Eastern Politics
Explores the domestic politics of various Middle Eastern countries as well as the development and globalization of the region. Includes topics such as the ongoing prevalence of dictatorships, political Islamism, oil politics, economic growth and stagnation, and relations with the U.S.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative
Departmental Category: Asia Content

PSCI 4243 (3) Modern Warfare: Terrorism, Ideology, Identity
Explores the evolution of warfare and origins of terrorism. Ideological and identity differences have come to the forefront of violent political conflicts while the emerging doctrine of warfare has placed civilians in the middle of modern conflicts. Tracks potential changes in the means of and reasons for fighting, roles of civilians and media, and rules of war.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisites PSCI 2223 and PSCI 3193.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 4252 (3) Politics of Ethnicity and Nationalism
Analyzes ethnic identity as a factor in contemporary politics. Deals extensively with the role of ethnic groups in political mobilization, the development of national collective consciousness, nation building, and international relations. Explores the influence of religion, language, history, culture and class on ethnic group formation and behavior.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 4253 (3) Politics of Identity and Inter-Ethnic Violence
Discusses politics of identity and why identity is such a potent source of violence. Is inter-ethnic conflict an end in itself, or are ethnic groups trying to achieve other goals through violence? What can be done to prevent or ameliorate inter-ethnic strife? Examines theoretical aspects of identity, inter-ethnic conflict, as well as specific examples of ethnic crises.
Recommended: Prerequisite PSCI 2223 or PSCI 2012.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 4283 (3) International Migration and Policy
Explores the politics of international migration, including public attitudes toward immigration, special interests politics of immigration policy making and the dynamics between political institutions and international migrations. Students will learn about the politics of international migration across different receiving and sending states over the past two centuries with an emphasis on the current debates over immigration in the U.S. and Western Europe.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 4302 (3) European Union Politics
Explores the development, functioning, focus and future of the European Union. Examines history, institutions, policies and politics as well as governance theories that have been developed to explain origins and evolution of the EU.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 4322 (3) Indigenous People's Politics
Explore critical concepts, conversations, and issues surrounding Indigenous peoples' politics and politics around the globe. Analyze the ways in which Indigenous peoples have been impacted by colonization and look at how Indigenous peoples continue to respond to forces such as colonialism and capitalism in different geographical regions with a focus on the Americas. We will also draw on the experiences of indigenous peoples in Australia and New Zealand.
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSCI 4341 (3) Media and Politics
Examines aspects of political communication as it applies to citizens, political decision makers, and specific public policies.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 4374 (3) Global Seminar: Revolutions in Paris
Study the French Revolution (1789-1799) and the Paris Commune (1871) through immersive role-playing games, while learning about the ideas, history, and impact of these events through visits to important sites in and around the city of Paris. Learn about conservatism, republicanism, proto-socialism, slavery abolition, and anti-colonialism in the French Revolution; and socialism, Marxism, anarchism, and feminism in the Paris Commune.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSCI 4391 (3) Gender Politics and Global Activism
Addresses the problems and challenges women face around the world and the ways in which women have mobilized to address them. Explores political activism at the local, national, regional and global levels. Focuses on different forms of activism, including strategies aimed at working with and within governmental institutions, as well as outside and against them.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4500
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 4701 (3) Symbolic Politics
Introduces uses and abuses of symbols as instruments and indicators of political change.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 4703 (3) Technology, Society and the Future
Explores some of the remarkable technological advances made in recent years such as Artificial Intelligence, Robotics, Social Media, "Big Data," Internet-Interconnectivity, etc. in order to better understand how they are reshaping the world around us. Looks at the implications of these technological advances for a variety of social and political issues including education, communication, medicine, international development, international relations, work, social life, politics, elections and democracy. Recommended Prerequistes: PSCI 2012 and/or IAFS 1000.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 4714 (3) Liberalism and Its Critics
Examines contemporary arguments for and against liberalism. Focuses on the analysis, evaluation, and understanding of the philosophical contributions to this debate. Gives special attention to the concepts of justice, freedom, equality, and individualism.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2004.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 4715 (3) Honors Political Science Seminar
Involves writing and discussion of selected topics in political science. Critically reviews the major methodological and conceptual features of the discipline. Students begin their honors papers in the seminar. Department enforced prerequisite: minimum 3.3 GPA. Generally offered in fall term only.
Additional Information: Arts Sciences Honors Course
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Empirical Theory and Research Methdology

PSCI 4716 (3) Selected Policy Problems
Integrates general principles of policy inquiry with documents and other literature on specific problems in public policy, in order to evaluate courses of action.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Public Policy

PSCI 4725 (3) Political Science Honors Thesis
Involves writing an honors thesis. Formerly PSCI 4008.
Requisites: Requires prerequisite course of PSCI 4715 (minimum grade B-).
Additional Information: Arts Sciences Honors Course
Departmental Category: Empirical Theory and Research Methdology

PSCI 4731 (3) Civic Engagement in America
Closely examines the various understandings of democracy, the arguments for and against democracy, and the progress of and prospects for democratic politics in the United States. Particular attention is paid to economic, social, and political developments in the United States that affect popular sovereignty, political equality, and liberty.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 4732 (3) Critical Thinking in Development
Exposes students to current issues in the political economy of development. Subjects range from globalization, democratization and economic development. Specifically explores the international and domestic determinants of economic development with special reference to currency markets, foreign direct investment, trade and democratization.
Equivalent - Duplicate Degree Credit Not Granted: INVS 4302
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 4734 (3) Politics and Literature
Broadly examines political topics as they are presented in important literary works and analyzes the possibilities involved in using the literary mode to present political teachings.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2004.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Theory

PSCI 4751 (3) The Politics of Ideas
Examines theoretical arguments and case studies of interactions of ideas, interests, and institutions in policymaking. Analyzes processes through which ideas come to the public agenda, how institutional settings shape those ideas, and why some ideas and interests are more successful.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PSCI 1101.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 4771 (3) Civil Rights and Liberties in America
Implementation of rights and liberties in America. Examines fundamental issues of free speech, press, association, and religion along with rights to due process and equal protection under the law.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American

PSCI 4783 (3) Global Issues
Studies the principal issues confronting humanity that affect stability and survivability and their economic, social, and political implications.
Requisites: Restricted to Political Science (PSCI), International Affairs (IAFS) or Environmental Studies (ENVS) majors only.
Recommended: Prerequisite PSCI 2012 or PSCI 2223.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: International Relations

PSCI 4792 (3) Issues in Latin American Politics
Studies several Latin American countries in some depth including history and contemporary politics. Teaches students to listen to and evaluate different sides of political controversies, and critically evaluate arguments.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite PSCI 2012.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Comparative

PSCI 4841 (1-3) Independent Study in American Politics
Subjects are chosen and arrangements are made to suit the needs of each student. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall GPA of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. A special independent study approval agreement form must be obtained from the department.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite PSCI 1101.
Additional Information: Departmental Category: American

PSCI 4842 (1-3) Independent Study in Comparative Politics
Subjects chosen and arrangements made to suit needs of each student. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall GPA of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. Special independent study approval agreement form must be obtained from the department.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite PSCI 2012 or IAFS 1000.
Additional Information: Departmental Category: Comparative

PSCI 4843 (1-3) Independent Study in International Relations
Subjects chosen and arrangements made to suit needs of each student. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall average of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. Special independent study approval agreement form must be obtained from the department.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite PSCI 2223.
Additional Information: Departmental Category: International Relations

PSCI 4844 (1-3) Independent Study in Political Theory
Subjects and arrangements suit individual student needs. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall GPA of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. Special independent study approval agreement form must be obtained from the department.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite PSCI 2004.
Additional Information: Departmental Category: Political Theory

PSCI 4846 (1-3) Independent Study in Public Policy
Subjects chosen and arrangements made to suit needs of each student. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall average GPA of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. Special independent study approval agreement form must be obtained from the department.
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Public Policy

PSCI 4848 (1-3) Independent Study
Subjects chosen and arrangements made to suit needs of each student. Independent study is for upper-division students who have completed 9 credit hours of political science and who have an overall average of at least 3.00. Not more than 6 credit hours of independent study may be credited toward the minimum requirements in the political science major. Special independent study approval agreement form must be obtained from the department.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: General

PSCI 4938 (3-6) Internship in Government
With instructor's assistance, students secure an internship with a political or governmental organization. In addition to the internship, the class consists of regular seminars, course readings and assignments, and individual conferences with the instructor. Student pursues an academic research project and writes an original research paper. Instructor approval required in semester preceding internship. Contact instructor prior to early registration.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite PSCI 1101.
Additional Information: Departmental Category: General

Political Science - Bachelor of Arts (BA)

A degree in political science provides students with the ability to think critically about challenges facing the world today. Students develop research, writing and analytical skills to prepare them for careers in fields such as:

- Government
- Civil service
- Journalism
- Business management
- Legislative analysis
- Criminology
- City planning
- Population studies

Students can combine the major with credentials to teach government, political science and civics in secondary schools. If a student plans to go on to the graduate level, the political science minor is an excellent complement to fields such as law, economics and a number of other social science disciplines.

Career Services (http://www.colorado.edu/career/) offers a number of programs and services designed to help political science students plan their career, including workshops, internships and placement services after graduation.

Requirements

Program Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. Total credit hours required in Political Science courses: 42 credit hours, including 24 upper-division credit hours.

No courses for the PSCI major may be taken pass/fail, and a student must have a grade of C- or better in all 42 required credit hours in political science, and a cumulative GPA of 2.0 or better in political science courses.

No more than 45 credit hours in political science credit will count toward the Arts and Sciences graduation requirement of 120 credit hours. This may be exceeded by 6 credit hours (for a total of 51 credit hours), provided that the excess credit hours are taken in PSCI 4715 and PSCI 4725 (honors thesis credit).

Required Courses and Credit Hours

Code	Title	Credit Hours
PSCI Lower-division Distribution		
PSCI 1101	Introduction to American Politics	3
PSCI 2012	Introduction to Comparative Politics	3
PSCI 2223	Introduction to International Relations	3
PSCI 2004	Survey of Western Political Thought	3
Empirical Theory and Research Methodology		
PSCI 2075	Quantitative Research Methods	3
Choose one of the following:		3
PSCI 3075	Applied Political Science Research	
PSCI 3105	Designing Social Inquiry: An Introduction to Analyzing Political Phenomena	
PSCI 3155	Survey Design and Analysis	
PSCI 3205	Undergraduate Research Experience	
PSCI 3225	Strategy and Politics	
PSCI Upper-division Distribution		
Select one course in four of the following six primary fields:		12
American		
Comparative		
International Relations		
Political Theory		
Empirical Theory and Research Methodology [1]		
Public Policy		
Political Science Electives		
Three upper-division PSCI elective courses		9
One lower or upper-division PSCI elective course		3
Total Credit Hours		**42**

[1] Note that the second Empirical Theory and Research Methodology course taken in sequence, PSCI 3075, PSCI 3105, PSCI 3155, PSCI 3205 or PSCI 3225, will not count toward the upper-division distribution requirement for the Empirical Theory/Research Methodology field.

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in political science, students should meet the following requirements:

- By the end of the second semester, declare the major.
- By the end of the third semester, complete PSCI 1101 and two of the following required courses: PSCI 2012, PSCI 2223, PSCI 2004 or PSCI 2075.
- By the end of the fourth semester, complete the remaining lower-division political science courses.
- By the end of the sixth semester, complete 12 upper-division credit hours of political science courses, including at least one course in three of the following fields: American, comparative, international relations, methodology, policy and theory. In addition, complete three upper-division or lower-division political science elective credit hours.
- During the seventh and eighth semesters, complete 12 credit hours of political science courses, including at least 9 upper-division political science elective credit hours and all remaining upper-division field distribution requirements.

Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credits of the the Social Sciences area of the Gen Ed Distribution Requirement, as well as the QRMS component of the Gen Ed Skills Requirement. Depending on the courses selected in the major, students can also potentially complete the U.S. Perspective component of the Gen Ed Diversity Requirement.

Year One

Fall Semester		**Credit Hours**
PSCI 1101	Introduction to American Politics	3
PSCI 2012 or PSCI 2223	Introduction to Comparative Politics or Introduction to International Relations	3
Gen. Ed. Distribution course (example: Natural Sciences with Lab)		4
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Elective or MAPS (If needed)		3
	Credit Hours	**16**
Spring Semester		
PSCI 2223 or PSCI 2012	Introduction to International Relations or Introduction to Comparative Politics	3
PSCI 2004	Survey of Western Political Thought	3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective or MAPS		3
Elective or MAPS		3
	Credit Hours	**15**

Year Two

Fall Semester		
PSCI 2075	Quantitative Research Methods	3
PSCI Required Upper-Division course (Four Area courses required)		3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)		3
Elective		3
Elective		3
	Credit Hours	**15**
Spring Semester		
PSCI 3105 or PSCI 3075 or PSCI 3225 or PSCI 3155 or PSCI 3205	Designing Social Inquiry: An Introduction to Analyzing Political Phenomena or Applied Political Science Research or Strategy and Politics or Survey Design and Analysis or Undergraduate Research Experience	3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/Global Perspective)		3
Elective		3
	Credit Hours	**15**

Year Three

Fall Semester		
PSCI Required Upper-Division course (Four Area courses required)		3
PSCI Required Upper-Division course (Four Area courses required)		3
Gen. Ed. Skills course (example: Upper-division Written Communication)		3
Elective (Upper-Division)		3
Elective		3
	Credit Hours	**15**
Spring Semester		
PSCI Required Upper-Division course (Four Area courses required)		3
PSCI Required Upper-Division Elective (Twelve elective credits required)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective (Upper-Division)		3
Elective		3
	Credit Hours	**15**

Year Four

Fall Semester		
PSCI Upper-Division Elective (Twelve elective credits required)		3
PSCI Upper-Division Elective (Twelve elective credits required)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective (Upper-Division)		3
Elective		3
	Credit Hours	**15**
Spring Semester		
PSCI Elective Lower or Upper-division (Twelve elective credits required)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective (Upper-Division)		3
Elective (Upper-Division)		3
Elective (Upper-Division, if needed)		3
	Credit Hours	**15**
	Total Credit Hours	**121**

Learning Outcomes

By the completion of the program, students will be able to:

- Communicate political science concepts clearly, both orally and in writing.
- Locate the evidence necessary to evaluate arguments in political science research and the current political world.
- Create well-designed arguments using relevant theories of political science.
- Answer research questions using logical inference from quantitative and qualitative evidence.
- Understand political dynamics at the subnational, national and international levels.
- Develop an appreciation for various ideological perspectives and for the complex political environment around them.
- Acquire a sense of efficacy for changing the political environment.

Political Science - Minor

A minor in political science provides students with the ability to think critically about challenges facing the world today. Students develop research, writing and analytical skills to prepare them for careers in fields such as:

- Government
- Civil service
- Journalism
- Business management
- Legislative analysis
- Criminology
- City planning
- Population studies

Students can combine the minor with teaching credentials and study in an affiliated field to teach government, political science and civics in secondary schools. If a student plans to go on to the graduate level, the political science minor is an excellent complement to fields such as law, economics and a number of other social science disciplines.

Career Services (http://www.colorado.edu/career/) offers a number of programs and services designed to help political science students plan their career, including workshops, internships and placement services after graduation.

Requirements

Declaration of a minor in political science is open to any student enrolled at CU Boulder, regardless of college or school.

Students must complete 21 credit hours of political science to complete the political science minor, of which 9 credit hours must be in upper-division coursework. All 21 credit hours must be completed with grades of C- or better and an overall GPA of 2.00. None of the required credit hours may be taken pass/fail.

Required Courses and Credit Hours

Code	Title	Credit Hours
Lower-Division Courses		
PSCI 1101	Introduction to American Politics	3
Select two of the following:		6
PSCI 2012	Introduction to Comparative Politics	
PSCI 2223	Introduction to International Relations	
PSCI 2004	Survey of Western Political Thought	
PSCI 2075	Quantitative Research Methods	
Upper-Division Courses		
9 credit hours in a minimum of two of the following primary fields: [1]		9
American		
Comparative		
International Relations		
Political Theory		
Empirical Theory and Research Methodology		
Public Policy		
Lower- or Upper-Division Political Science		
3 credit hours of lower- or upper-division political science		3
Total Credit Hours		**21**

[1] PSCI 4938 will not fulfill a primary field area in the minor.

International Affairs Majors

International affairs majors who wish to minor in political science must apply the following additional rules:

- No more than 9 credit hours toward the PSCI minor can come from courses that count toward another major.
- International affairs majors must take at least one upper-division course in American politics and one course (lower- or upper-division) in political theory, in addition to the regular minor requirements.

Psychology and Neuroscience

At the undergraduate level, this department offers a major in psychology and a major and a certificate in neuroscience.

Psychology includes a set of interconnected disciplines that, together, seek to understand human cognition, emotion and behavior. Psychology also encompasses applied disciplines that seek to advance and apply psychological science to better understand mental health and improve lives and benefit society.

Neuroscience is the study of the mechanisms of nervous system—the brain, the spinal cord and networks of sensory nerve cells, or neurons. Neuroscientists work to describe how neural circuits transmit signals and process different types of information. The principles of neuroscience are derived from the application of methods from many scientific disciplines, including molecular and cellular biology, biochemistry, physiology, structure and computational modeling.

Students contemplating postgraduate education, either in professional or in graduate school, are encouraged to participate in the departmental honors program, which provides special opportunities for individualized attention.

CU Boulder's Department of Psychology and Neuroscience has been ranked by the National Academy of Sciences as one of the best in the country with respect to the quality of the faculty and their scholarly productivity. Moreover, the department offers undergraduates a wide range of opportunities for involvement in research.

Course codes for this program are PSYC and NRSC.

Bachelor's Degrees

- Neuroscience - Bachelor of Science (BA) (p. 551)
- Psychology - Bachelor of Arts (BA) (p. 553)

Certificate

- Neurosciences and Behavior - Certificate (p. 556)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Bachtell, Ryan (https://experts.colorado.edu/display/fisid_146084/)
Associate Professor; PhD, Oregon Health Science University

Banich, Marie (https://experts.colorado.edu/display/fisid_120646/)
Professor; PhD, University of Chicago

Baratta, Michael V. (https://experts.colorado.edu/display/fisid_149599/)
Assistant Professor; PhD, University of Colorado Boulder

Barth, Daniel
Professor Emeritus

Benoit, Roland
Associate Professor; PhD, University College London

Bidwell, Cinnamon (https://experts.colorado.edu/display/fisid_155117/)
Associate Professor; PhD, University of Colorado Boulder

Blair, Irene (https://experts.colorado.edu/display/fisid_107261/)
Professor; PhD, Yale University

Blechman, Elaine A.
Professor Emerita

Bourne, Lyle E. Jr.
Professor Emeritus

Bryan, Angela (https://experts.colorado.edu/display/fisid_115216/)
Professor; PhD, Arizona State University

Campeau, Serge (https://experts.colorado.edu/display/fisid_115395/)
Professor; PhD, Yale University

Cartwright, Desmond S.
Professor Emeritus

Collins, Allan C.
Professor Emeritus

Colunga, Eliana (https://experts.colorado.edu/display/fisid_129477/)
Associate Professor; PhD, Indiana University Bloomington

Correll, Joshua (https://experts.colorado.edu/display/fisid_151728/)
Professor; PhD, University of Colorado Boulder

Cowell, Rosie
Associate Professor; PhD, University of Oxford

Cummings, Andrew (https://experts.colorado.edu/display/fisid_174362/)
Teaching Assistant Professor; PhD, University of Nevada Las Vegas

Curran, Timothy (https://experts.colorado.edu/display/fisid_118454/)
Professor Emeritus; PhD, University of Oregon

Curtis, Ryan (https://experts.colorado.edu/display/fisid_164483/)
Teaching Associate Professor; PhD, University of Maryland College Park Campus

Day, Heidi E.W. (https://experts.colorado.edu/display/fisid_116632/)
Teaching Professor of Distinction; PhD, University of Cambridge

Derricks, Veronica
Assistant Professor; PhD, University of Michigan

Dimidjian, Sona (https://experts.colorado.edu/display/fisid_140084/)
Professor; PhD, University of Washington

Donaldson, Zoe (https://experts.colorado.edu/display/fisid_157087/)
Associate Professor; PhD, Emory University

Friedman, Naomi P. (https://experts.colorado.edu/display/fisid_109519/)
Associate Professor; PhD, University of Colorado Boulder

Grotzinger, Andrew (https://experts.colorado.edu/display/fisid_167222/)
Assistant Professor; PhD, University of Texas at Austin

Gruber, June L. (https://experts.colorado.edu/display/fisid_153634/)
Professor; PhD, University of California, Berkeley

Harvey, Lewis Orvis (https://experts.colorado.edu/display/fisid_101173/)
Professor Emeritus

Healy, Alice F. (https://experts.colorado.edu/display/fisid_100418/)
Distinguished Professor Emeritus; PhD, The Rockefeller University

Hernandez, Theresa D. (https://experts.colorado.edu/display/fisid_102953/)
Professor; PhD, University of Texas at Austin

Hewitt, John K. (https://experts.colorado.edu/display/fisid_101035/)
Professor; PhD, University of London

Hill, Karl G. (https://experts.colorado.edu/individual/fisid_159803/)
Professor; PhD, Brandeis University

Hiura, Lisa (https://experts.colorado.edu/display/fisid_167644/)
Assistant Professor; PhD, Cornell University

Huber, David
Professor; PhD, University of Indiana

Huibregtse Ketels, Brooke (https://experts.colorado.edu/display/fisid_159929/)
Teaching Assistant Professor; PhD, University of Colorado Boulder

Ito, Tiffany (https://experts.colorado.edu/display/fisid_113066/)
Professor; PhD, University of Southern California

Jessor, Richard
Professor Emeritus

Jones, Matthew (https://experts.colorado.edu/display/fisid_144611/)
Professor; PhD, University of Michigan Ann Arbor

Judd, Charles M.
Distinguished Professor Emeritus

Kaiser, Roselinde H. (https://experts.colorado.edu/display/fisid_164070/)
Associate Professor; PhD, University of Colorado Boulder

Kandra Hughes, Kelly
Teaching Assistant Professor; PhD, University of North Carolina at Chapel Hill

Kaufmann, Vyga G. (https://experts.colorado.edu/display/fisid_151089/)
Teaching Assistant Professor; PhD, University of Colorado Boulder

Keller, Matthew C. (https://experts.colorado.edu/display/fisid_144507/)
Professor; PhD, University of Michigan Ann Arbor

Kilimnik, Chelsea (https://experts.colorado.edu/display/fisid_169111/)
Assistant Professor; PhD, University of Texas at Austin

Kim, Albert E. (https://experts.colorado.edu/display/fisid_143740/)
Associate Professor; PhD, University of Pennsylvania

King, D. Brett (https://experts.colorado.edu/display/fisid_103815/)
Teaching Professor of Distinction; PhD, Colorado State University

Kintsch, Walter
Professor Emeritus

Knight, Erik (https://experts.colorado.edu/individual/fisid_167412/)
Assistant Professor; PhD, University of Oregon

Kodish, Tamar
Assistant Professor; PhD, University of California Los Angeles

Maier, Steven F.
Distinguished Professor; PhD, University of Pennsylvania

McClelland, Gary H.
Professor Emeritus

Miyake, Akira (https://experts.colorado.edu/display/fisid_107321/)
Professor; PhD, Carnegie Mellon University

Molas, Susanna
Assistant Professor; PhD, Pompeu Fabra University

Olson, Richard
Professor Emeritus

Park, Bernadette (https://experts.colorado.edu/display/fisid_103732/)
Professor Emeritus; PhD, Northwestern University

Pedersen, Eric (https://experts.colorado.edu/display/fisid_159278/)
Assistant Professor; PhD, University of Miami

Pierotti, Chelsea (https://experts.colorado.edu/individual/fisid_155551/)
Teaching Assistant Professor; PhD, University of Northern Colorado

Pietri, Evava
Associate Professor; PhD, Ohio State University

Pittman Wagers, Tina (https://experts.colorado.edu/display/fisid_117148/)
Emerita Teaching Professor of Distinction; PsyD, University of Denver

Polson, Peter G.
Professor Emeritus

Ramirez, Albert
Associate Professor Emeritus

Reynolds, Chandra
Professor; PhD, University of Southern California

Rhee, Soo H. (https://experts.colorado.edu/display/fisid_123401/)
Associate Professor; PhD, Emory University

Richardson, Emily (https://experts.colorado.edu/display/fisid_115007/)
Clinical Associate Professor; PhD, University of Iowa

Root, David H. (https://experts.colorado.edu/display/fisid_159444/)
Assistant Professor; PhD, Rutgers University

Rudy, Jerry W.
Professor Emeritus; PhD, University of Virginia

Saddoris, Michael Paul (https://experts.colorado.edu/display/fisid_152979/)
Associate Professor; PhD, Johns Hopkins University

Schell, Emily
Teaching Assistant Professor; PhD, Stanford University

Smutzler, Natalie (https://experts.colorado.edu/individual/fisid_113933/)
Teaching Associate Professor; PhD, Indiana University Bloomington

Spencer, Robert L. (https://experts.colorado.edu/display/fisid_104362/)
Professor; PhD, University of Arizona

Stallings, Michael C. (https://experts.colorado.edu/display/fisid_108745/)
Professor; PhD, University of Southern California

Stratford, Jennifer M. (https://experts.colorado.edu/display/fisid_157880/)
Teaching Associate Professor; PhD, Florida State University

Stubblefield, Elizabeth
Teaching Assistant Professor; PhD, University of Colorado Anschutz Medical Campus

Taylor, Ronald G.
Professor Emeritus

Van Boven, Leaf D. (https://experts.colorado.edu/display/fisid_126291/)
Professor; PhD, Cornell University

Watkins, Linda R. (https://experts.colorado.edu/display/fisid_101513/)
Distinguished Professor; PhD, Virginia Commonwealth University

Wehner, Jeanne M.
Professor Emerita

Wertheimer, Michael
Professor Emeritus

Whisman, Mark (https://experts.colorado.edu/display/fisid_113391/)
Professor; PhD, University of Washington

Willcutt, Erik G. (https://experts.colorado.edu/display/fisid_113861/)
Professor; PhD, University of Denver

Wilson, James R.
Professor Emeritus

Yuan, Lei (https://experts.colorado.edu/individual/fisid_167699/)
Assistant Professor; PhD, Northwestern University

Courses

Neuroscience

NRSC 1020 (1) Exploring the Neuroscience Major
This course familiarizes students to the neuroscience major at CU Boulder, and helps students develop key skills needed for academic success. Students will learn about department and campus resources, and how to get involved in the wider neuroscience community, including clubs and research. An overview of select neuroscience-related topics, and possible career paths, helps students determine goodness of fit. This elective course is designed for first-year and other students exploring educational and career opportunities in this exciting field.

NRSC 2100 (4) Introduction to Neuroscience
Provides an introduction to fundamental concepts in neuroscience. The goal of this first course is to provide a strong foundation in neurobiology-cell biology, physiology of the neuronal membrane, interneuronal communication, neurotransmission, gross anatomy, and how the brain develops. Students will also learn principles of sensory systems functions. Recitation will reinforce lecture concepts through discussion of current research.
Requisites: Requires prerequisite courses of MCDB 1111 or MCDB 1150 or EBIO 1210 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 2101 (1-4) Topics in Neuroscience
Provides students with the opportunity to focus on a specific area of Neuroscience in depth.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 2125 (4) Introduction to Neuroscience I: Foundations
Provides an introduction to fundamental knowledge and principles in neuroscience. The goal of this first semester of an Introduction to Neuroscience two semester sequence is to provide a strong foundation in neurobiology-cell biology, physiology of the neuronal membrane, synaptic neurotransmission, neurochemistry, gross anatomy and introduction to sensory perception. Recitation will reinforce lecture concepts.
Requisites: Requires prerequisite course of MCDB 1150 or EBIO 1210 (minimum grade C-).

NRSC 2150 (4) Introduction to Neuroscience II: Systems
Extends understanding of fundamental knowledge in neuroscience with a focus on systems function. The goal of this second semester of an Introduction to Neuroscience two semester sequence is to develop deeper understanding of neurobiological systems function. Featured is the neurophysiology, neuroanatomy and function of human sensory systems, motor systems, sensorimotor integration and higher level neurosystem function.
Requisites: Requires prerequisite course of NRSC 2100 or NRSC 2125 (minimum grade C-).

NRSC 2200 (2) Laboratory Techniques in Neuroscience
Introduces students to many basic and essential laboratory skills in neuroscience research. Students will learn experimental methods and perform experiments depicting principles in neurophysiology, neuroanatomy, neurochemistry, and the fundamentals of neuroimaging techniques.
Requisites: Requires a prerequisite course of NRSC 2100 or NRSC 2125 (minimum grade C-). Restricted to Neuroscience (NRSC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4011 (1-3) Senior Thesis
Senior Thesis credits are available for students during the semester that they write and defend a departmental Honors Thesis. A neuroscience honors thesis must be based on an empirical research project that the student directs/participates in under guidance from a faculty member. Contact the neuroscience director for further information.

NRSC 4015 (3) Affective Neuroscience
Experiencing and learning from affect--emotional value--is a fundamental part of the human experience. When people started thinking of brains as computers, research on emotion fell by the wayside. Recently however, this has changed, and there is an explosion of work on the brain mechanisms of affective value. Covers recent advances in understanding the emotional brain.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 5015
Requisites: Requires a prerequisite course of PSYC 2012 or (NRSC 2100 or (NRSC 2125 and NRSC 2150)) (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4032 (3) Neurobiology of Learning and Memory
Provides a comprehensive treatment of how the brain acquires, stores, and retrieves memories. To do this we will consider (a) the methods used to address these issues, (b) what we know about how brain systems are organized to support memories of different types,and (c) the synaptic mechanisms that are involved.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 5032
Requisites: Requires a prerequisite course of NRSC 2100 or (NRSC 2125 and NRSC 2150), (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4042 (3) Systems Neuroscience
Explores the neurophysiology, neuroanatomy and function of human sensory systems, motor systems, sensorimotor integration and higher level neurosystem function.
Requisites: Requires prerequisite of (PSYC 2012 or NRSC 2100 or (NRSC 2125 and 2150)) and one of the following (EBIO 1210 or MCDB 1111 or MCDB 1150) all require minimum grade of C-.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4062 (3) The Neurobiology of Stress
Provides an introduction to the concept of stress and the physiological systems involved. Factors modulating stress vulnerability versus resilience, and stress interactions with other systems with health relevance will be explored. Emphasis will be placed on current research on brain mechanisms. Formerly PSYC 4062.
Requisites: Requires a prerequisite course of NRSC 2100 or (NRSC 2125 and NRSC 2150), (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4072 (3) Clinical Neuroscience: A Clinical and Pathological Perspective
Provides a review of the anatomy and physiology of the nervous system and then explores how alterations in these systems can result in neurologic or psychiatric disorders. Emphasizes pathological neuroanatomy, neurophysiology and neuropharmacology, which is essential for understanding problems related to health and disease.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 5072
Requisites: Requires a prerequisite course of (NRSC 2100 or (NRSC 2125 and NRSC 2150)) and (EBIO 2070 or MCDB 2150), (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4082 (3) Neural Circuits of Learning and Decision Making
Provides an in-depth survey of the neural mechanisms of learning, motivated behavior and decision making. Analysis will focus on the interaction of neural circuits underlying these processes with particular attention to the cellular, molecular and information-processing aspects of identified pathways and considered into the context learning-based and neuroeconomic models of choice.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 5082
Requisites: Requires a prerequisite course of NRSC 2100 or (NRSC 2125 and NRSC 2150), (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4092 (3) Behavioral Neuroendocrinology
Provides an introduction to neuroendocrinology with a focus on the interaction between hormones on brain development and behaviorally relevant brain function, including reproductive behaviors, stress, biological rhythms and mood.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 5092
Requisites: Requires a prerequisite course of NRSC 2100 or (NRSC 2125 and NRSC 2150), (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4132 (3) Neuropharmacology
Study of drug action within the central nervous system. This course is designed to provide a fundamental understanding of the neurobiological and neurochemical mechanisms of drug action. Topics covered include the following: 1) principles of pharmacology; 2) brain neurotransmitter systems; 3) biochemical basis of psychiatric disorders and their pharmacological treatment.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 5132
Requisites: Requires a prerequisite course of NRSC 2100 or (NRSC 2125 and NRSC 2150), (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4155 (4) Cognitive Neuroscience/Neuropsychology
Introduction to cognitive neuroscience and neuropsychology. Provides a survey of the neuropsychological underpinnings for a wide range of cognitive functions: vision, object recognition, attention, language, memory and executive function. One lab per week.
Equivalent - Duplicate Degree Credit Not Granted: PSYC 4155
Requisites: Requires a prerequisite course of PSYC 2111 and PSYC 3111 and (PSYC 2012 or NRSC 2100 or (NRSC 2125 and NRSC 2150)) (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4420 (3) Genetics of Brain and Behavior
Examines the genetic underpinnings of animal behavior, including an examination of behavioral evolution and the use of genes as tools to examine neural architecture. We will cover topics including foraging, social behavior, personality, parental care and fear. We will explore these behaviors at multiple levels, including genomics, population genetics, molecular genetics, epigenetics, endocrinology and neurobiology. Fulfills MCDB scientific reasoning requirement.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 4420
Requisites: Requires NRSC 2100 or (NRSC 2125 and NRSC 2150) and (EBIO 2070 or MCDB 2150). All minimum grade C-.
Grading Basis: Letter Grade

NRSC 4542 (3) The Neurobiology of Mental Illness
Provides in depth study of what is known concerning the neurobiology of mental illnesses, with a focus on depression and anxiety. Consideration will be given to both animal models and human work, with neurochemical, circuitry level, and neuroinflammatory processes to be highlighted. There will be discussion of the intricacies of determining the effectiveness of pharmacological treatments, and what the implications of such treatments might be.
Requisites: Requires a prerequisite course of NRSC 2100 or (NRSC 2125 and NRSC 2150), (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4545 (3) Neurobiology of Addiction
Covers an intensive survey and synthesis of recent findings contributing to our understanding of the neurobiological basis of addiction. Analysis of both drug and behavioral addictions will be made at the molecular, cellular and neurocircuitry levels and synthesized into models utilizing common themes between various addictions and contributing pathologies.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 5545
Requisites: Requires prerequisite courses of (NRSC 2100 or (NRSC 2125 and NRSC 2150)) and NRSC 4132 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4561 (1-3) Special Topics in Neuroscience
Presents and analyzes special interest topics from the broad and interdisciplinary field of neuroscience. The instructor determines the content of a particular section. Repeatable for up to 6 total credit hours.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of NRSC 2100 or (NRSC 2125 and NRSC 2150), (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

NRSC 4572 (3) Developmental Neurobiology
Examines the molecular and cellular processes that generate a functional nervous system. Topics covered include cell fate determination, neurogenesis and gliogenesis, cell migration, axon pathfinding, synapse formation and synapse refinement. Also explores how alterations in development can result in neurologic or psychiatric disorders. Formerly offered as a special topics course.
Requisites: Requires a prerequisite course of NRSC 2100 or (NRSC 2125 and NRSC 2150), (all minimum grade C-).
Recommended: Prerequisite or corequisite MCDB 3135.

NRSC 4841 (1-3) Independent Study in Neuroscience
Repeatable: Repeatable for up to 8.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Neuroscience (NRSC) majors only.

Psychology

PSYC 1001 (3) General Psychology
Provides a foundation for engaging with scientific research on human behavior, and surveys the basic principles and theories of psychology. Topics include biological and hereditary influences on behavior; human perception, attention, learning, and memory; social influences; personality; psychiatric disorders and treatments.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Social Science

PSYC 2012 (3) Biological Psychology
Surveys biological bases of learning, motivation, emotion, sensory processes and perception, movement,comparative animal behavior, sexual and reproductive activity, instinctual behavior, neurobiology of language and thought, and neurophysiology and neuroanatomy in relation to behavior.
Requisites: Requires prerequisite PSYC 1001 (minimum grade C-).
Additional Information: GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 2111 (4) Psychological Science I: Statistics
Three hours of lecture and one two-hour lab per week. Introduces descriptive and inferential statistics and their roles in psychological research. Topics include correlation, regression, T-test, analysis of variance and selected nonparametric statistics.
Requisites: Requires prerequisite course of MATH 1011 or MATH 1150 or MATH 1212 or MATH 1300 or ECON 1078 or ECON 1088 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 2145 (3) Introductory Cognitive Psychology
Introduces the study of human cognitive processes and covers perception, attention, memory, language, problem solving, reasoning, and decision making. Focuses on basic research and theory in cognitive psychology but also considers their implications for everyday applications such as effective learning and retention, multitasking, and eyewitness testimony.
Requisites: Requires a prerequisite course of PSYC 1001 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 2606 (3) Social Psychology
Covers general psychological principles underlying social behavior. Analyzes major social psychological theories, methods, and topics, including attitudes, conformity, aggression, attraction, social perception, helping behavior, and group relations.
Requisites: Requires a prerequisite course of PSYC 1001 (minimum grade C-).
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 2700 (3) Psychology of Gender and Sexuality
Examines psychological research on gender and sexuality as they intersect with race, class and other social categories. Points of emphasis include differences in cognition, attitudes, personality and social behavior. Conceptual themes include research methodologies, implicit and explicit attitudes, stigma and stereotypes. These elucidate such areas as close relationships, leadership, career success and mental health and happiness.
Requisites: Requires a prerequisite course of PSYC 1001 or WGST 2000 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

PSYC 3001 (4) Honors Research Methods Seminar
Focuses on research design. Each student prepares an original, detailed research proposal, which can become the honors thesis. Open only to students who have been accepted into the psychology departmental honors program. Instructor consent required.
Additional Information: Arts Sciences Honors Course

PSYC 3005 (3) Cognitive Science
Introduces cognitive science, drawing from psychology, philosophy, artificial intelligence, neuroscience, and linguistics. Studies the linguistic relativity hypothesis, consciousness, categorization, linguistic rules, the mind-body problem, nature versus nurture, conceptual structure and metaphor, logic/problem solving and judgment. Emphasizes the nature, implications and limitations of the computational model of mind.
Equivalent - Duplicate Degree Credit Not Granted: INFO 3702 and LING 3005 and PHIL 3310 and CSCI 3702 and SLHS 3003 and CSPB 3702
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 3102 (3) Behavioral Genetics
This course introduces the basic principles of behavior genetics, the field of study that is interested in evaluating the different forces that shape individual differences. More specifically, the course will survey the evidence for genetic and environmental influences on a broad range of human behaviors, including psychopathology, personality, cognition, and substance use. This course also covers the different methods for evaluating these genetic and environmental contributions, including family-based designs that compare similarities across siblings, twins, and parents and their children, animal models of human behavior, and more recent genomic methods that measure our DNA. Lectures are largely about conceptually understanding findings from this field and the corresponding methods used to produce these findings. This course does not require a strong statistical or biological background to be successful or understand the material.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 3111 (4) Psychological Science 2: Research Methods in Psychology
Provides a foundation in research methodology to give students the ability to design, conduct, analyze, and present (both verbally and in writing) an empirical study in psychology. Allows students to be effective producers and consumers of research.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2111 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 3131 (3) Human Emotion
Introduces students to a diverse array of theoretical and empirical issues related to the study of human emotion. Evolutionary theories of anger, love and disgust; emotion and morality; cultural and gender differences; emotion and the brain; relation between emotion and thinking; development of emotion; and abnormal emotions in mental illness.
Requisites: Requires a prerequisite course of PSYC 1001 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 3303 (3) Clinical Psychology: Psychological Disorders
Examines etiological, theoretical, clinical,diagnostic, and experimental perspectives of major mental health disorders, with an emphasis on the main symptoms and diagnostic criteria associated with these disorders.
Requisites: Requires a prerequisite course of PSYC 1001 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 3456 (3) Psychology of Personality
Offers a psychological study of structure, organization and development of the person as a whole. Analysis of major theories, methods and research, including topics such as emotion, motivation, temperament, inner experience, identity and the self, personality change and the influence of sociocultural context.
Requisites: Requires a prerequisite course of PSYC 1001 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 3511 (3) History of Psychology
Includes outline of development of psychological theories since the Greek philosophers, the story of experimental psychology and its problems, and schools of psychological thinking. Students read original sources in English and English translations. Formerly PSYC 4511.
Requisites: Requires a prerequisite course of PSYC 1001 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

PSYC 3684 (3) Developmental Psychology
In-depth consideration of human developmental processes across the life span. Includes coverage of the major topics in human development, such as physical, cognitive, social, emotional, and moral development.
Requisites: Requires prerequisite of PSYC 1001 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites PSYC 2111 and PSYC 3111 (Both require minimum grade of C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Developmental

PSYC 4001 (3) Honors Seminar 2
Surveys contemporary issues, explores current controversies, and examines in detail selected topics in psychology. Open to juniors and seniors pursuing departmental honors.
Additional Information: Arts Sciences Honors Course

PSYC 4011 (1-3) Senior Thesis
Critically reviews some aspect of psychological literature, scholarly analysis of a major psychological issue, and/or empirical research project. See the psychology honors director for further information.
Additional Information: Departmental Category: General

PSYC 4021 (3) Psychology and Neuroscience of Exercise
Explores social, cognitive, psychobiological and behavioral aspects of exercise and other forms of physical activity. Examines how psychological and neuroscience research have been used to study how participation in regular physical activity affects mental health and how psychological and other variables influence participation in, adherence to, enjoyment of, and consequences of exercise and physical activity.
Requisites: Requires a prerequisite course of PSYC 2012 or NRSC 2100 or NRSC 2125 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4031 (3) Sport Psychology
Explores the role psychological factors play in the participation in, performance in, and enjoyment of sport. Topics include the role of motivation, attention, arousal, psychological skills training, leadership, and teamwork in sport performance; the psychological variables influencing exercise addiction, overtraining, burnout, body image, and susceptibility to, and recovery from, athletic injuries; and competition, cooperation aggression, and moral behavior in sport.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: General

PSYC 4101 (3) Honors Thesis 1
Completing an Honors Thesis under the direction of the course instructor will be the focus of this course. Students will each conduct an original, empirical research project, including developing the research idea, collecting and analyzing data, and writing their thesis, as well as practice their oral defense. Students will additionally acquire applied experience in research methods, statistics, and data analysis.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of PSYC 2111 and PSYC 3111 (minimum grade C-). Restricted to students with 3.3 GPA or higher.
Grading Basis: Letter Grade

PSYC 4114 (3) Adolescent Development and Learning for Teachers
Examines current theory and research about adolescent learning and development and explore implications for secondary teaching. Topics include human diversity as a resource for learning, adversity and agency, connecting instruction to students' everyday lives, and the role of belonging and relationships in positive youth development. This course is appropriate for masters degree students.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4136 (4) Judgment and Decision Making
Introduces the study of judgment and decision making processes (estimation, prediction and diagnosis, choice under certainty, and risky decision making) and the methods that have been developed to improve these processes (statistical modeling, decision analysis, and expert systems).
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2606 and PSYC 2111 and PSYC 3111 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4142 (3) Brain Injury, Plasticity and Recovery: From Neuron to Behavior
Traumatic brain injury is prevalent in all aspects of society, with incidence rates varying according to age, gender, military affiliation and participation in certain sports. Delves into the full spectrum of consequences following injury, beginning with the individual neural cells in the brain through to the behaving individual. Covers strategies to improve functional recovery.
Requisites: Requires a prerequisite course of PSYC 2012 or NRSC 2100 or NRSC 2125 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) majors only.
Recommended: Prerequisite NRSC 4132.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4145 (4) Advanced Cognitive Psychology
Advanced course in human cognitive processes. Covers key aspects of cognition, such as perception, attention, learning, memory, language and thinking. Discusses major theories and ideas in terms of the research they have inspired. Emphasis varies with instructor. One lab per week and a research project is required.
Equivalent - Duplicate Degree Credit Not Granted: PSYC 5145
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2145 and PSYC 2111 and PSYC 3111 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4152 (4) Research Methods in Behavioral Genetics
Analyze your own genome in this advanced course in behavioral genetics! Students will learn modern genomic analytic techniques by analyzing millions of single nucleotide polymorphisms across their own or a test genome (students' choice) and interpret results as they apply to complex traits, health conditions, ancestry, and relatedness. Students will also review primary-source research and reviews. Students learn and apply their analytic skills in laboratory practicals and demonstrate applied and theoretical knowledge in a cumulative paper.
Requisites: Requires prerequisite courses of PSYC 3111 and (EBIO 2070 or MCDB 2150 or PSYC 3102) (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4155 (4) Cognitive Neuroscience/Neuropsychology
Introduction to cognitive neuroscience and neuropsychology. Provides a survey of the neuropsychological underpinnings for a wide range of cognitive functions: vision, object recognition, attention, language, memory and executive function. One lab per week.
Equivalent - Duplicate Degree Credit Not Granted: NRSC 4155
Requisites: Requires a prerequisite course of PSYC 2111 and PSYC 3111 and (PSYC 2012 or NRSC 2100 or (NRSC 2125 and NRSC 2150)) (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4165 (4) Psychology of Perception
One lab, three lect. per week. Analyzes peripheral and central mechanisms involved in the transduction and interpretation of experience. Gives special attention to vision and audition; major theories in these areas are discussed in terms of research they have inspired.
Requisites: Requires a prerequisite course of PSYC 1001 and PSYC 2111 and PSYC 3111 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4175 (4) Computational Cognitive Neuroscience
Introduction to cognitive neuroscience (how the brain gives rise to thought) using computer simulations based on the neural networks of the brain. Covers a full range of cognitive phenomena including perception and attention, learning and memory, language, and higher-level cognition based on both large-scale cortical neuroanatomy and detailed properties of cortical neural networks. One lab per week.
Equivalent - Duplicate Degree Credit Not Granted: PSYC 5175
Requisites: Requires prereq of PSYC 1001 and (PSYC 2012 or NRSC 2100 or NRSC 2125) and PSYC 2111 and PSYC 3111 (minimum grade of C-). Restricted to PSYC or NRSC majors.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4201 (3) Honors Thesis 2
Completing an Honors Thesis under the direction of the instructor will be the focus of this course. Students will each conduct an original, empirical research project, including developing the research idea, collecting and analyzing data, and writing their thesis, as well as practice their oral defense. Students will additionally acquire applied experience in research methods, statistics and data analysis.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of PSYC 2111 and PSYC 3111 (minimum grade C-). Restricted to students with GPA of 3.3 or higher.
Grading Basis: Letter Grade

PSYC 4220 (3) Language and Mind
Studies topics such a speech perception, word recognition, sentence comprehension, language acquisition, bilingualism, reading and writing. Examines the role of language as a product and producer of the mind, studying interactions between language and cognition from an interdisciplinary perspective. Students will become familiar with the methods of psycholinguistics and design and conduct a psycholinguistic experiment on their own.
Equivalent - Duplicate Degree Credit Not Granted: LING 4220
Recommended: Prerequisites PSYC 1001 and LING 2000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4225 (4) Interdisciplinary Research Methods in Child Language Acquisition
Explores fundamental issues in language acquisition cross-culturally, combining methods from Linguistics, Anthropology, Psychology and Computer Science. Students will explore theoretical issue using a hands-on approach that involves acquiring skills such as designing and conducting experiments, investigating corpus data, and computational modeling.
Equivalent - Duplicate Degree Credit Not Granted: LING 4225
Requisites: Requires a prerequisite course of PSYC 1001 or LING 2000 (minimum grade C).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4263 (3) Psychological Treatment: An Evidence-Based Approach
Provides an intensive introduction to behavioral interventions for common mental health problems and the framework of evidence-based practice in psychology, including helping students to acquire, critically evaluate and communicate about clinical psychological science intervention research and become familiar with applied skills that are relevant to a broad range of clinical settings.
Requisites: Requires prerequisite courses of PSYC 2111 and PSYC 3111 and PSYC 3303 (all minimum grade C-)
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4332 (1) Found in Translation: TBI From Bench to Bedside to Community
Traumatic Brain Injury (TBI) is prevalent in all aspects of society. Delves into all aspects of TBI, with particular emphasis on translational clinical neuroscience. That is, the movement of knowledge from bench, to bedside, to community. All of this knowledge resulting in better treatment of and outcome for those with TBI.
Requisites: Requires prerequisite courses of PSYC 2012 or NRSC 2100 or NRSC 2125 (minimum grade C-). Restricted to students with 57-180 units (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4376 (4) Research Methods in Social Psychology
Introduces the study of social psychological processes, emphasizing the social cognition perspective (e.g., stereotyping, person perception, theory of planned behavior) and the methods utilized in studying these processes. Students will complete research projects as part of the course.
Requisites: Requires prerequisite courses of PSYC 2606 and PSYC 2111 and PSYC 3111 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4377 (4) Research Methods in Positive Psychology
This research methods course will examine the science of human flourishing from the viewpoint of experimental positive psychology. Empirical research methods will be examined in the context of nine factors related to human flourishing: signature strengths, savoring, gratitude, kindness, social connection, exercise, sleep, mindfulness, and nature. Students will apply course material in a class experiment with individual research reports and presentations as a cumulative course experience.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2111 and PSYC 3111 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4378 (4) Research Methods in Conservation Psychology
This course will examine the science behind how psychological processes influence behaviors that help or hurt the environment and how psychology can help encourage environmental conservation. Empirical research methods will be examined in the context of nine factors related to the human-nature connection: Environmental Attitudes & Values, Pro-environmental Behaviors, Social Influence & Environmental Action, Environmental Education & Communication, Human-Nature Relationships, Environmental Justice & Ethics, Psychological Impacts, Policy & Governance.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2111 and PSYC 3111 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4399 (4) Qualitative Research Methods in Psychology
In this Lab and Methods course, we will take a deeper dive into different types of qualitative research approaches, such as observation, interviewing, and multimodal (e.g., text, media) analysis, to learn how each method can help us investigate elements of the human experience that we might otherwise not be able to study. We will cover basic theoretical principles of qualitative inquiry and acquire a general understanding of how different qualitative methods work. Through discussions, critique, a student-created ¿mini study,¿ and lots of hands-on practice, you will explore different ways of investigating our world in a scientific, but non-statistical, way that accurately and ethically uplifts the voices of your study participants. The goal of this course is to help you develop skills in qualitative research that will serve you well as a researcher or practitioner in psychology.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2111 and PSYC 3111 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4443 (4) Research Methods in Clinical Psychology
Learn to evaluate research methods as they relate to etiology, assessment, and intervention of psychological disorders. Emphasizes the importance of using sound methodological strategies in both research and clinical settings.
Requisites: Requires prerequisite courses of PSYC 2111 and PSYC 3111 and PSYC 3303 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4526 (3) Social Neuroscience
Develops greater knowledge of the general psychological principles underlying social behavior by using methods and theories from neuroscience. Students learn about common methods in human neuroscience and how they can be applied to better understand social behavior.
Requisites: Requires prerequisite courses of (PSYC 2012 or NRSC 2100 or NRSC 2125) and PSYC 2111 and PSYC 2606 and PSYC 3111 (all minimum grade C-). Restricted to students with 57-180 credits (junior or senior) Psychology (PSYC) or Neuroscience (NRSC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4541 (3) Special Topics in Psychology - Social Science
Examines individual or social dimensions of human behavior. Students will develop expertise in basic theories, as well as in measurement techniques and data interpretation regarding issues of societal significance. Students will consider applications of that knowledge, ranging from the development of new theory to solving problems. Particular section content is determined by instructor. PSYC 4541 and/or PSYC 4551 may be taken 3 times with different topics, for a total of 9 credits
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2111 and PSYC 3111 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.

PSYC 4542 (3) Public Health Capstone Research Methods: Environmental Interventions to the Mental Health Epidemic
This course will introduce students to interdisciplinary research methods in public health, with a focus on environmental interventions to address mental health. Robust data shows that spending time in nature can positively impact mental health. This course will teach students about the many phases of the scientific research process through doing; students will work in small groups to do their own research project throughout the semester on a pre-picked topic that can change from year to year.
Equivalent - Duplicate Degree Credit Not Granted: GEOG 4542 and PBHL 4542
Requisites: Prerequisites: Restricted to Public Health majors or those pursuing the Public Health certificate. Also, must have taken one of the following: ANTH 4000, ECON 3818, GEOG 3023, IPHY 3280, MATH 2510, PSCI 2075, PSYC 2111, SOCY 2061, STAT 2600.
Recommended: Prerequisite Students who are interested in taking this course but do not meet these requirements must have instructor approval.

PSYC 4543 (3) Clinical Neuropsychological Disorders
Neuropsychological disorders are behavioral and cognitive expressions of underlying brain diseases or injury. The course will provide in-depth coverage from clinical perspectives of wide range of disorders caused by stroke, traumatic brain injury, degenerative diseases, and inflammatory diseases. Students will learn the various neurologic, neuroimaging and neuropsychological methods for assessing and diagnosing these disorders and will review specific illustrative cases.
Requisites: Requires prerequisite PSYC 1001 and (PSYC 2012 or NRSC 2100 or NRSC 2125) (all minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4553 (3) Women's Mental Health: A Biopsychosocial Approach
Provides a broad overview of current research and theory related to women's mental health, emphasizing topics and problems that are prevalent among or particularly relevant to women. Teaches students to develop a critical and integrative understanding women's mental health, including historical, social, cultural, biolotgical, behavioral, cognitive and emotional factors.
Requisites: Requires a prerequisite course of PSYC 3303 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4560 (3) Language Development
Covers the development of language in childhood and into adult life, emphasizing the role of environment and biological endowment in learning to communicate with words, sentences, and narratives.
Equivalent - Duplicate Degree Credit Not Granted: LING 4560 and SLHS 4560
Requisites: Restricted to Psychology (PSYC) or Neuroscience (NRSC) majors only.
Recommended: Prerequisite PSYC 1001 and LING 2000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4606 (3) Advanced Topics in Social Psychology
In-depth study of selected topics in social psychology. Particular section content each semester is determined by the instructor. May be repeated for a maximum of 6 credit hours, provided the topics vary.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2606 and PSYC 2111 and PSYC 3111 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4655 (4) Community-based Research and Design
There is a growing recognition that in designing products, interventions, and systems, it is critical to involve the people who will be using those products, experiencing those interventions, and participating in those systems. The field of developmental psychology studies how people grow, change, and adapt over time. The fields of participatory and design research combine methods from different disciplines to guide design and implementation. In this course, you will collaborate with local community partners to design, prototype, implement, and refine a learning experience for young children. By the end of this class you will be able to combine theory- and evidence-based principles from cognitive development with methods and tools from community-based and participatory research to create and evaluate a design product.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2111 and PSYC 2145 and PSYC 3111 (all minimum grade C-).
Recommended: Prerequisite PSYC 3684.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab Arts Sci Gen Ed: Distribution-Natural Sciences

PSYC 4713 (3) Survey of Clinical Psychology
Covers theories and practices relating to problems of ability and maladjustment. Diagnostic procedures and treatment methods with children and adults.
Requisites: Requires a prerequisite course of PSYC 3303 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4733 (4) Psychological Testing and Assessment
Provides an overview of issues central to testing and assessment of psychological constructs, including types of evaluation instruments currently in use inthe field, their applications and design.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2111 and 3111 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4744 (4) Methods in Developmental Psychology
Learn to critically read and form hypotheses from studies in the developmental literature, gain hands-on experience in testing children and in the design of methods to test children, evaluate experimental data and relate them to hypotheses, previous results and theory, and write so others can understand.
Requisites: Requires prerequisite courses of PSYC 1001 and PSYC 2111 and PSYC 3111 and PSYC 3684 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

PSYC 4841 (1-6) Independent Study (Upper Division)
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Psychology (PSYC) majors only.

PSYC 4911 (3) Teaching of Psychology
Students receive concrete experience in teaching general psychology under supervision of a psychology faculty member. Alternative pedagogical strategies are discussed. Students must submit an application to the undergraduate advising center.
Additional Information: Departmental Category: General

PSYC 4931 (1-6) Field Placement Internship
Offers valuable volunteer experience through a supervised field placement. Provides hands-on insight into the decisions and issues that confront professionals in psychology and related fields.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Psychology (PSYC) majors only.
Recommended: Prerequisite completion of 15 or more hours of psychology course work.
Additional Information: Departmental Category: General

Neuroscience - Bachelor of Arts (BA)

Our neuroscience major provides a fundamental understanding of brain function that emerges from knowledge of the interplay of the molecular, cellular and systems—level operation of the nervous system. Our distinguished faculty also teach excellent upper division courses in areas of expertise that include, but are not limited to, learning and memory, addiction, mental illness, stress, neuroendocrinology, neurogenetics and neurocircuits of motivated behavior.

Requirements

Prerequisites

It is policy to enforce the course prerequisites listed in the course descriptions. If a student has not either taken and passed (C- or better) the prerequisites for a course, or obtained permission from the instructor or a departmental advisor to take the course based on equivalent preparatory coursework or experience here or elsewhere, the student may be administratively dropped from the course.

Degree Requirements

The neuroscience major requires a minimum of 37 credit hours in neuroscience coursework, including a minimum of 21 upper-division credit hours, and additional ancillary foundation coursework in biology and chemistry. The ancillary courses provide an important foundation for the overall curriculum and should be started early in the major. The ancillary biology lecture requirement must be completed (with a grade of C- or better) to begin any NRSC coursework.

The department recommends taking the ancillary biology and genetics requirements in the first year. The department also recommends completing the ancillary general chemistry sequence, NRSC 2125, NRSC 2150 and NRSC 2200, and statistics requirements within the first 2.5 years (5 semesters) of study.

Students must complete the general requirements of the College of Arts and Sciences (General Education, graduation, and credit requirements) and the requirements listed below. Students must fulfill all the following requirements with a grade of C- or better. None of the courses taken to fill these requirements may be taken pass/fail; courses must be taken for a letter grade. The cumulative GPA in courses that can count toward the major must be at least 2.000.

Required Major Courses

Code	Title	Credit Hours
Required Major Courses		
NRSC 2125	Introduction to Neuroscience I: Foundations	4
NRSC 2150	Introduction to Neuroscience II: Systems	4
NRSC 2200	Laboratory Techniques in Neuroscience	2
Select one of the following genetics courses: [1]		3-4
MCDB 2150	Principles of Genetics (preferred)	
EBIO 2070	Genetics: Molecules to Populations	
Select one of the following statistics/computation courses:		3-4
PSYC 2111	Psychological Science I: Statistics (preferred)	
EBIO 1010	Introduction to Statistics and Quantitative Thinking for Biologists	
ECON 3818	Introduction to Statistics with Computer Applications	
IPHY 3280	Intro to Data Science and Biostatistics	
MATH 2510	Introduction to Statistics	
BCOR 1025	Statistical Analysis in Business	
CSCI 3022	Introduction to Data Science with Probability and Statistics	
SOCY 2061	Introduction to Social Statistics	
Upper-division Neuroscience Requirements		
MCDB 3135	Molecular Biology (one will count as an UD elective if both are taken)	3
or MCDB 3145	Cell Biology	
Select at least four of the following Neuroscience courses:		12
NRSC 4032	Neurobiology of Learning and Memory	
NRSC 4062	The Neurobiology of Stress	
NRSC 4545	Neurobiology of Addiction	
NRSC 4572	Developmental Neurobiology	
NRSC 4072	Clinical Neuroscience: A Clinical and Pathological Perspective	
NRSC 4082	Neural Circuits of Learning and Decision Making	
NRSC 4092	Behavioral Neuroendocrinology	
NRSC 4132	Neuropharmacology	
NRSC/MCDB 4420	Genetics of Brain and Behavior	
Upper-division major electives		
Select 6 credit hours of upper-division elective coursework by taking additional courses from the upper-division requirements above or from the following neuroscience and general science electives. [1]		6
BCHM 3300	Genetic Engineering: Science, Technology, and Society	
BCHM 3450	Principles of Pharmacology and Toxicology	
BCHM 4312	Quantitative Optical Imaging	
BCHM 4720	Metabolic Pathways and Human Disease	
BCHM 4611	Principles of Biochemistry	
BCHM 4631	Computational Genomics Lab	
EBIO 3240	Animal Behavior	

EBIO 4420	Computational Biology
IPHY 3410	Human Anatomy
IPHY 3430	Human Physiology
IPHY 3590	Health and Function over the Adult Lifespan
IPHY 4200	Physiological Genetics and Genomics
IPHY 4580	Sleep Physiology
IPHY 4720	Neurophysiology
IPHY 4780	Sleep, Circadian Rhythms, and Health
IPHY 4880	Advanced Data Analysis in Biomedical Research
MCDB 3450	Biological Data Science
MCDB 4312	Quantitative Optical Imaging
or BCHM 4312	Quantitative Optical Imaging
MCDB 4426	Cell Signaling and Developmental Regulation
MCDB 4444	Cellular Basis of Disease
MCDB 4680	Mechanisms of Aging
MCDB 4777	Molecular Neurobiology
NRSC 4011	Senior Thesis
NRSC 4015	Affective Neuroscience
NRSC 4042	Systems Neuroscience
NRSC/PSYC 4155	Cognitive Neuroscience/ Neuropsychology
NRSC 4561	Special Topics in Neuroscience
PSYC 4152	Research Methods in Behavioral Genetics
PSYC 4165	Psychology of Perception
PSYC 4526	Social Neuroscience
PSYC 4543	Clinical Neuropsychological Disorders
SLHS 4576	Communication Neuroscience
Total Credit Hours	**37-39**

Required Ancillary Foundation Courses

Code	Title	Credit Hours
Ancillary Introductory Biology and Laboratory Requirement		**4-5**
Select one of the two following:		
MCDB 1150	Introduction to Cellular and Molecular Biology (with 2 credit lab MCDB 1161, MCDB 1171, MCDB 1181/IPHY 1181, MCDB 2161, MCDB 2171)	
EBIO 1210 & EBIO 1230	General Biology 1 and General Biology Laboratory 1	
Ancillary General Chemistry Sequence Requirement		**10**
Select one of the following options:		
Option 1:		
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	
Option 2:		
	Biochemistry/Chemistry double majors and Engineering double degree students: Please check with your NRSC advisor for approved alternative options, including the "for-majors" CHEM courses.	
Total Credit Hours		**14-15**

1 Please check all prerequisites and corequisites before enrolling in courses.

2 Students planning graduate/medical school or work in the biotechnology industry should also take CHEM 3311 and CHEM 3331. Students should verify program requirements for any additional chemistry prerequisites.

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major.

To maintain adequate progress in neuroscience, students should meet the following requirements:

- The neuroscience major ideally should be started in the first semester. Adequate progress is defined as cumulative completion of at least one fourth of the required coursework for the major during each academic year, including the following specific requirements: a) The ancillary introduction to biology requirement and the genetics requirement ideally should be completed during the first year; b) All ancillary requirements and Introduction to Neuroscience I and II ideally should be completed by the end of the second year.
- The neuroscience major requires at least 51 hours of required coursework.
- The four-year guarantee also requires completion of 30 hours of General Education courses by the end of the sophomore year.

Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement, including the lab component, and possibly the QRMS component of the Gen Ed Skills Requirement.

Year One		
Fall Semester		**Credit Hours**
MCDB 1150	Introduction to Cellular and Molecular Biology	3
MCDB 1161 or MCDB 1171	From Dirt to DNA: Phage Genomics Laboratory I or Antibiotics Discovery Through Hands-on Screens I	2
MCDB 1152	Problem Solving Co-Seminar for Introduction to Molecular and Cellular Biology	1
NRSC 1020	Exploring the Neuroscience Major (OPTIONAL)	1
General Education Requirement (example: Lower-division Written Communication)		3
General Education Requirement (example: Arts & Humanities, Social Science)		3

Elective		3
	Credit Hours	**16**
Spring Semester		
Genetics (MCDB 2150 or EBIO 2070)		3-4

Elective (lower-division or upper-division)		3
Elective (lower-division or upper-division)		3
	Credit Hours	**15**
	Total Credit Hours	**120-123**

Learning Outcomes

By the completion of the program, students will be able to:

- Demonstrate knowledge of the structural organization and functional components of the nervous system, including intracellular and intercellular signaling.
- Demonstrate understanding of the systems and circuits of the brain and nervous system that control specific functions.
- Demonstrate understanding of the important mechanistic relationship between nervous system function and health (physiological, neurological and psychological health).
- Read, evaluate and interpret primary literature in the neuroscience field.
- Design experiments, critically evaluate experimental design and analyze experimental data related to the neuroscience field.
- Effectively communicate information in the neuroscience field.

Psychology - Bachelor of Arts (BA)

The psychology major provides a fundamental understanding of the principles of human cognition, emotion, behavior, social interactions and mind-brain relationships. Our distinguished faculty also teach specialized upper-division courses in behavioral genetics, neuroscience, cognitive psychology, clinical psychology, child development, social psychology, and judgment and decision making.

Requirements

Prerequisites

It is policy to enforce the course prerequisites listed in the course descriptions. If you have not either taken and passed (C- or better) the prerequisites for a course or obtained permission from the instructor to take the course based on equivalent preparatory coursework, you may be administratively dropped from the course.

Degree Requirements

Students must complete the general requirements of the College of Arts and Sciences and the requirements for the major, listed below.

A major in psychology requires a minimum of 36 credit hours in psychology courses. At least 20 of these credit hours must be in upper-division PSYC or NRSC coursework that includes a minimum of 10 credit hours at the 4000 level. Students must complete a minimum of 12 upper-division credit hours of psychology coursework on the Boulder campus

with a C- or better. Of those 12 credit hours, one laboratory and methods course must be included.

All required major courses and all required ancillary courses must be passed with a C- or better and cannot be taken pass/fail. Students must have a GPA of at least 2.000 in the major in order to graduate, and no more than 45 credits in PSYC may be applied to overall graduation requirements.

Code	Title	Credit Hours
Psychology Core		
PSYC 1001	General Psychology	3
PSYC 2111	Psychological Science I: Statistics	4
PSYC 3111	Psychological Science 2: Research Methods in Psychology	4
Required Courses		
Select 4 out of 5 from the following options:		12
PSYC 2012	Biological Psychology	
PSYC 2145	Introductory Cognitive Psychology	
PSYC 2606	Social Psychology	
PSYC 3102	Behavioral Genetics	
PSYC 3303	Clinical Psychology: Psychological Disorders	
Laboratory and Methods Course		
Select at least one upper-division course from the following:		4
PSYC 4136	Judgment and Decision Making	
PSYC 4145	Advanced Cognitive Psychology	
PSYC 4152	Research Methods in Behavioral Genetics	
PSYC/NRSC 4155	Cognitive Neuroscience/ Neuropsychology	
PSYC 4165	Psychology of Perception	
PSYC 4376	Research Methods in Social Psychology	
PSYC 4377	Research Methods in Positive Psychology	
PSYC 4378	Research Methods in Conservation Psychology	
PSYC 4399	Qualitative Research Methods in Psychology	
PSYC 4443	Research Methods in Clinical Psychology	
PSYC 4655	Community-based Research and Design	
Upper-Division Major Electives		
Complete 9 credits of applicable electives, including:		9
3 credits of upper-division elective in PSYC or NRSC (3000 or 4000-level)		
3 credits of 4000-level elective in PSYC or NRSC		
3 credits of 4000-level elective either in PSYC/NRSC or from an approved list of external elective courses, including SOCY 4014, SOCY 4031, SOCY 4024, SOCY 4086, SOCY 4063. A maximum of one (3 credit) external elective can be counted toward the PSYC major requirements and hours.		
Total Credit Hours		**36**

Code	Title	Credit Hours
Ancillary Natural Science sequence (some courses may have required labs):		
Select one of the following natural science sequences: [1]		6-10
CHEM 1011 & CHEM 1031	Environmental Chemistry 1 and Environmental Chemistry 2	
CHEM 1113 & CHEM 1133	General Chemistry 1 and General Chemistry 2	
CHEM 1400 & CHEM 2100	Foundations of Chemistry and Foundations of Chemistry 2	
EBIO 1210 & EBIO 1220	General Biology 1 and General Biology 2	
MCDB 1150 & MCDB 2150	Introduction to Cellular and Molecular Biology and Principles of Genetics	
MCDB 1150 & EBIO 1220	Introduction to Cellular and Molecular Biology and General Biology 2	
PHYS 1110 & PHYS 1120	General Physics 1 and General Physics 2 (calculus based)	
PHYS 2010 & PHYS 2020	General Physics 1 and General Physics 2 (algebra based)	
Ancillary Math requirement:		
Select one of the following courses: [1]		3-5
MATH 1011	College Algebra	
MATH 1150	Precalculus Mathematics	
MATH 1212	Data and Models	
MATH 1300	Calculus 1	

[1] The student is required to pass with a grade of C- or better.

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The department recommends taking PSYC 1001, PSYC 2111 and three of the four required courses (select from PSYC 2012, PSYC 2145, PSYC 2606, PSYC 3102 and PSYC 3303) by the end of the sophomore year. It is recommend that the math prerequisite for PSYC 2111 be taken by the end of the first year. It is also recommended that the two-part sequence, PSYC 2111 and PSYC 3111 , be taken in consecutive semesters if possible, although completing the two classes over three semesters is also acceptable. It is recommended that PSYC 3111 be completed by the end of the fifth semester.

Recommended Four-Year Plan of Study

This is a *sample* four-year plan that provides one option to complete the BA in Psychology. There are other possible pathways, depending on the timing of the Psychological Science 1 and 2 sequence (PSYC 2111 and PSYC 3111). Meeting routinely with a departmental advisor is recommended to develop a four-year plan most applicable to students' individual circumstances and goals.

Note: Wherever "elective" is listed, students may take coursework that applies to a second major, minor or certificate program instead. Work with an advisor to help plan for additional academic credentials.

Through the required coursework for the major, students will complete at least 7 credits in the social sciences area and all 12 credits of the natural

sciences area of the Gen Ed Distribution Requirement. This may include the lab component (PSYC 2111 meets the Gen Ed Natural Science lab requirement) as well as the quantitative reasoning and mathematical skills (QRMS) component of the Gen Ed Skills Requirement.

Year One		
Fall Semester		**Credit Hours**
PSYC 1001	General Psychology	3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/US Perspective)		3
Psychology approved Ancillary Natural Science sequence part 1 (example: EBIO 1210; also partially fulfills Gen. Ed.: Natural Sciences) [1]		3
Gen. Ed. Skills or Distribution course (example: Foreign Language or Arts & Humanities)		3
Elective		3
	Credit Hours	**15**
Spring Semester		
Required Psychology Course 1 of 4 (e.g. PSYC 2012, PSYC 2145, or PSYC 2606)		3
MATH Ancillary course (MATH 1212, MATH 1011, MATH 1150, or MATH 1300, also fulfills Gen. Ed. Skills: QRMS)		3
Psychology approved Ancillary Natural Science sequence part 2 (example: EBIO 1220; also partially fulfills Gen. Ed.: Natural Sciences) [1]		3
Gen. Ed. Skills or Distribution course (example: Arts & Humanities or lower-division Written Communication)		3-5
Elective		3
	Credit Hours	**15-17**
Year Two		
Fall Semester		
PSYC 2111	Psychological Science I: Statistics	4
Required Psychology Course 2 of 4 (e.g. PSYC 2012, PSYC 2145, or PSYC 2606)		3
Gen Ed. Distribution course (example: Social Sciences)		3
Elective		3
	Credit Hours	**13**
Spring Semester		
PSYC 3111	Psychological Science 2: Research Methods in Psychology [2]	4
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/Global Perspective)		3
Required Psychology Course 3 of 4 (PSYC 2012, PSYC 2145, PSYC 2606, PSYC 3102, or PSYC 3303)		3
Elective		3
Elective		3
	Credit Hours	**16**
Year Three		
Fall Semester		
Required Psychology Course 4 of 4 (PSYC 2012, PSYC 2145, PSYC 2606, PSYC 3102, or PSYC 3303)		3
PSYC Elective: 3000 level		3
Gen. Ed. Skills course (example: Upper-division Written Communication)		3
Elective		3
Elective		3
	Credit Hours	**15**
Spring Semester		
PSYC Elective: 4000 level (or external elective from approved list)		3
Upper-division Elective		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective		3
Elective		3
	Credit Hours	**15**
Year Four		
Fall Semester		
PSYC Approved Laboratory and Methods course (or PSYC Elective: 4000 level)		4
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Upper-division Elective		3
Upper-division Elective		3
Upper-division Elective		3
	Credit Hours	**16**
Spring Semester		
PSYC Elective: 4000 level (or PSYC Approved Laboratory and Methods course if not taken in 7th semester)		3
Upper-division Elective		3
Upper-division Elective		3
Upper-division Elective		3
Upper-division Elective		3
	Credit Hours	**15**
	Total Credit Hours	**120-122**

1 Other choices for PSYC approved Ancillary Natural Science sequence can be found on the Requirements page, but EBIO 1210 (https://catalog.colorado.edu/search/?P=EBIO%201210) and EBIO 1220 (https://catalog.colorado.edu/search/?P=EBIO%201220) are the most common. Recommended to be completed by the end of the sophomore year.

2 It is recommended that the two-part sequence, PSYC 2111 and PSYC 3111, be taken in consecutive semesters if possible, although completing the two classes over three semesters is also acceptable. It is recommended that PSYC 3111 be completed by the end of the 5th semester.

Learning Outcomes

By the completion of the program, students will be able to:

- Achieve a fundamental understanding of the principles of human cognition, emotion, behavior, social interactions and mind-brain relationships; including the scientific basis for this knowledge and methods by which this knowledge is obtained.
- Learn the principles and application of psychological statistical analysis including how to analyze and report experimental results.
- Learn the principles and application of psychological research design.
- Learn how to evaluate and interpret relevant primary literatures.
- Learn how to apply knowledge of psychological principles and the study of human behavior.

Neurosciences and Behavior - Certificate

The neurosciences certificate program encourages undergraduate students interested in how the brain controls behavior to take courses in the basic sciences while providing the means to specialize in neuroscience.

Since this subdiscipline of the biological sciences spans a number of departments at the university (e.g., integrative physiology, psychology & neuroscience and MCD biology), students are encouraged to obtain greater academic breadth through interdepartmental course selection.

For more information, visit the Undergraduate Certificate in Neuroscience (https://www.colorado.edu/neuroscience/undergraduate-education/) website.

Requirements

To obtain the certificate, a student must satisfy the requirements of a major other than the NRSC major and the requirements of the neuroscience certificate and maintain an overall grade point average of 3.20 or better. All courses must be taken for a letter grade (no pass/fail).

Code	Title	Credit Hours
Required Courses		
General Chemistry sequence with lab (or equivalent sequence)		
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	5
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	5
General Physics sequence with lab (or equivalent sequence)		
PHYS 2010 & PHYS 2020	General Physics 1 and General Physics 2	10
Biology with lab		*6*
Select one of the two options (or approved equivalent biology courses):		
MCDB 1150 & MCDB 1152	Introduction to Cellular and Molecular Biology and Problem Solving Co-Seminar for Introduction to Molecular and Cellular Biology	
or MCDB 1161	From Dirt to DNA: Phage Genomics Laboratory I	
or MCDB 1171	Antibiotics Discovery Through Hands-on Screens I	
or MCDB 1181	Biological Probiotic/Drug Discovery Through Hands-on Screens	
EBIO 1210 & EBIO 1230	General Biology 1 and General Biology Laboratory 1	
Introduction to Neuroscience:		*8*
NRSC 2125 & NRSC 2150	Introduction to Neuroscience I: Foundations and Introduction to Neuroscience II: Systems	
General Genetics		*3*
Select one of the following:		
EBIO 2070	Genetics: Molecules to Populations	
MCDB 2150	Principles of Genetics	
IPHY 4200	Physiological Genetics and Genomics	
Or an approved equivalent general genetics course		
Statistics		*3-4*
Select one of the following:		
PSYC 2111	Psychological Science I: Statistics	
IPHY 3280	Intro to Data Science and Biostatistics	
EBIO 1010	Introduction to Statistics and Quantitative Thinking for Biologists	
EBIO 4410	Biological Statistics	
MATH 2510	Introduction to Statistics	
Or an approved equivalent statistics course		
Electives		*3*
At least one additional upper - division Neuroscience/Behavior courses in IPHY, MCDB, PSYC or another department.		
Total Credit Hours		**43-44**

For more information on this certificate and answers to frequently asked questions, see the Neuroscience Undergraduate Certificate (https://www.colorado.edu/neuroscience/undergraduate-education/) website or email Professor Serge Campeau (Serge.Campeau@Colorado.EDU), director of the program.

Public Health

As the world becomes more interconnected, our communities and populations face increasingly complex health challenges emerging through the interaction of individual vulnerability and behavior, cultural and social factors, environmental and geographic influences, as well as economic and political dynamics. Addressing these public health challenges requires innovative approaches arising from multiple disciplines.

According to the Association of Schools & Programs of Public Health (ASPPH) (http://aspph.org/discover/), public health is the science and art of protecting and improving the health of communities through education, promotion of healthy lifestyles, and research for disease and injury prevention. Public health helps improve the health and well being of people in local communities and around the globe. Public health works to prevent health problems before they occur.

Core Areas of Public Health

While public health is defined in many different ways, the following is a list of core areas that are often associated with public health. For more information, visit the What is Public Health? (http://aspph.org/study/) website.

- Biostatistics: Statistical science applied to health and biomedical data.
- Environmental health: The impact of air, water and the built environment on health.
- Epidemiology: The study of the frequency, distribution and determinants of disease.
- Health administration and management: Managing human and fiscal resources to deliver public health services.
- Global health: Addressing health challenges across the world.
- Maternal and child health: Improving the health of women, children and their families.
- Nutrition: How food and nutrients impact the health of populations.

- Public health laboratory practice: Diagnose, prevent, treat and control infectious disease.
- Public health policy: The role of policy and policy decisions on public health.
- Public health practice: Incorporating public health principles into clinical practice.
- Social and behavioral science: The study of social and behavioral determinants of health.

Bachelor's Degree

- Public Health - Bachelor of Arts (BA) (p. 557)

Minor

- Public Health - Minor (p. 560)

Public Health - Bachelor of Arts (BA)

The Public Health Program at the University of Colorado Boulder is pleased to be offering a Bachelor of Arts degree in Public Health. According to the Association of Schools & Programs of Public Health (ASPPH), public health is the science and art of protecting and improving the health of communities through education, promotion of healthy lifestyles and research for disease and injury prevention. Public health helps improve the health and well-being of people in local communities and around the globe. Public health works to prevent health problems before they occur.

As the world becomes more interconnected, our communities and populations face increasingly complex health challenges emerging through the interaction of individual vulnerability and behavior, cultural and social factors, environmental and geographic influences, as well as economic and political dynamics. Addressing these public health challenges requires innovative approaches arising from multiple disciplines.

Core Areas of Public Health

While public health is defined in many ways, the following is a list of core areas that are often associated with public health.

- Biostatistics: Statistical science applied to health and biomedical data.
- Environmental health: The impact of air, water and the built environment on health.
- Epidemiology: The study of the frequency, distribution and determinants of disease.
- Health administration and management: Managing human and fiscal resources to deliver public health services.
- Global health: Addressing health challenges across the world.
- Maternal and child health: Improving the health of women, children and their families.
- Nutrition: How food and nutrients impact the health of populations.
- Public health laboratory practice: Diagnose, prevent, treat and control infectious disease.
- Public health policy: The role of policy and policy decisions on public health.
- Public health practice: Incorporating public health principles into clinical practice.
- Social and behavioral science: The study of social and behavioral determinants of health.

Requirements

Graduating with a BA in Public Health will require meeting the Arts & Sciences requirements (p. 75) as well as the curriculum presented below, consisting of at least 40 credit hours, with a minimum of 22 at the upper division level, passed with a cumulative GPA of 2.000 or higher. Grades of C- or better will be required in all courses a student is using to satisfy the requirements for the major. Additionally, students must meet the requirements for graduation from their other school or college, if doing a double degree. Students should take note of when and if courses have prerequisites that are not part of the public health major.

Code	Title	Credit Hours
Fundamentals of Public Health		
GEOG/IPHY/PBHL 2692	Foundations in Public Health	3
GEOG 3692	Introduction to Global Public Health	4
IPHY 3490	Introduction to Epidemiology	3
Bioethics		
Choose one of the following:		3
PHIL 1160	Introduction to Medical Ethics	
PHIL 3160	Bioethics	
Introduction to Biology		
Choose one of the following:		3
EBIO 1100	Biology and Society	
EBIO 1210	General Biology 1	
MCDB 1150	Introduction to Cellular and Molecular Biology	
Introductory Statistics		
Choose one of the following courses in statistics:		3-4
ANTH 4000	Quantitative Methods in Anthropology	
ECON 3818	Introduction to Statistics with Computer Applications	
GEOG 3023	Statistics and Geographic Data	
IPHY 3280	Intro to Data Science and Biostatistics	
MATH 2510	Introduction to Statistics	
PSCI 2075	Quantitative Research Methods	
PSYC 2111	Psychological Science I: Statistics	
SOCY 2061	Introduction to Social Statistics	
STAT 2600	Introduction to Data Science	
Capstone Course		
Choose one of the following courses		3
PBHL 4142	Public Health Capstone in Public Health Practice: Internships	
PBHL 4242	Capstone in Public Health: Career Exploration in Public Health	
PBHL 4342	Public Health Capstone: Honors Thesis	
PBHL 4542	Public Health Capstone Research Methods: Environmental Interventions to the Mental Health Epidemic	
Electives in Public Health		

Students must complete an additional minimum of 6 courses (4 of which must be at the 3000 or 4000 level). One elective must be from Social and Behavioral Health and one from Environmental Health. The other 4 electives can come from either of those lists or from the list of Other Public Health Courses.		
Social and Behavioral Health Courses		*3*
ANTH 4605	Anthropology of Neuroscience	
ANTH 4610	Medical Anthropology	
ECON 4646	Topics in Health Economics (only certain topics)	
PSYC 4021	Psychology and Neuroscience of Exercise	
PSYC 4541	Special Topics in Psychology - Social Science (only certain topics)	
PSYC 4606	Advanced Topics in Social Psychology (only certain topics)	
SOCY 1022	Ethics and Social Issues in U.S. Health and Medicine	
SOCY 3032	Social Epidemiology	
SOCY 3045	Sociology of Death and Dying	
SOCY 3052	Medical Sociology	
SOCY 4052	Social Inequalities in Health	
SOCY 4062	Suffering and Care in Society

WGST/JWST 4200	Religion and Reproductive Politics in the United States	
Total Credit Hours		**40-41**

Plan(s) of Study

Through the required coursework for the major, students will complete at least 3 credit hours in the Arts & Humanities area, 6 credit hours in the Social Sciences area and a minimum of 6 credit hours in the Natural Sciences area of the Gen Ed Distribution Requirement, the Global Perspective category of the Gen Ed Diversity Requirement and the Quantitative Reasoning and Mathematical Skills category of the Gen Ed Skills requirement. Depending on elective courses selected within the major, students can complete most of the Natural Sciences area and Social Sciences area in the Gen Ed Distribution Requirement and the US Perspective component of the Gen Ed Diversity Requirement.

Year One

Fall Semester		**Credit Hours**
GEOG 2692	Foundations in Public Health	3
EBIO 1210	General Biology 1 (Biology major requirement)	3

Elective	3
Credit Hours	**12**
Total Credit Hours	**119**

Learning Outcomes

By the completion of the program, students will be able to:

- Describe and apply the public health approach to understanding the natural history of communicable and noncommunicable diseases.
- Examine the biological, behavioral, social, cultural and environmental factors that contribute to the distribution of disease and health indicators in different geographic contexts and across the life course.
- Articulate the importance of data, data literacy and statistics in public health research and practice.
- Describe analytic methodologies, research strategies and study designs used in public health to study the distribution, underlying causes and impact of communicable and noncommunicable disease.
- Identify and examine multidisciplinary public health strategies for the prevention, treatment and control of communicable and noncommunicable diseases.
- Identify and recognize different ethical features and considerations in relation to public health.

Public Health - Certificate

The undergraduate certificate in public health encourages students to extend the breadth of their undergraduate education to include elements of public health. Students are encouraged to take courses from a variety of participating departments to develop an appreciation of the interdisciplinary nature of public health.

For more information, visit the Public Health Certificate Program (http://www.colorado.edu/certificate/publichealth/) website.

Requirements

The certificate requirements include a minimum of 22 credit hours of coursework, including at least 9 upper-division credit hours. A maximum of 6 semester credit hours from other institutions will be accepted.

Total Credit Hours	**22-23**

Global Public Health is an unofficial track of the Public Health Certificate designed specifically for IAFS students. Students interested in pursuing the Global Public Health track of the Public Health Certificate can find additional information on the International Affairs Program (http://www.colorado.edu/iafs/academics/certificates/global-public-health/) website.

Public Health - Minor

As the world becomes more interconnected, our communities and populations face increasingly complex health challenges emerging through the interaction of individual vulnerability and behavior, cultural and social factors, environmental and geographic influences, as well as economic and political dynamics. Addressing these public health challenges requires innovative approaches arising from multiple disciplines.

According to the Association of Schools & Programs of Public Health (ASPPH), public health is the science and art of protecting and improving the health of communities through education, promotion of healthy lifestyles, and research for disease and injury prevention. Public health helps improve the health and well-being of people in local communities and around the globe. Public health works to prevent health problems before they occur.

Core Areas of Public Health

While public health is defined in many ways, the following is a list of core areas that are often associated with public health.

- Biostatistics: Statistical science applied to health and biomedical data.
- Environmental health: The impact of air, water, and the built environment on health.
- Epidemiology: The study of the frequency, distribution, and determinants of disease.
- Health administration and management: Managing human and fiscal resources to deliver public health services.
- Global health: Addressing health challenges across the world.
- Maternal and child health: Improving the health of women, children, and their families.
- Nutrition: How food and nutrients impact the health of populations.
- Public health laboratory practice: Diagnose, prevent, treat, and control infectious disease.
- Public health policy: The role of policy and policy decisions on public health.
- Public health practice: Incorporating public health principles into clinical practice.
- Social and behavioral science: The study of social and behavioral determinants of health.

Requirements

A minimum of 22 credit hours in public health coursework, including a minimum of 9 upper-division credit hours, are required for the minor. All coursework applied to the minor must be completed with a grade of C- or better; no pass/fail work may be applied. The grade point average for all public health coursework must equal 2.00 (C) or higher.

Students will be allowed to apply no more than 9 credit hours, including 6 upper-division credit hours of transfer work towards a minor in public health

Students must take courses in the following areas:

- **Fundamentals of Public Health**: Collectively, the core courses in public health will provide a foundational knowledge on the burden and distribution of disease and mortality around the world, the determinants of global health disparities, the development of global health policies, and the outcomes of global health interventions. Students will examine the history and uses of epidemiology, measures of disease frequency and occurrence, association and

causality, analytic epidemiology, evidence-based screening, and infectious disease outbreak investigations.

- **Introductory Statistics**: Public health students must possess basic skills in quantitative reasoning to critically evaluate primary literature and understand how data are used to measure population health and disease burden, monitor intervention and screening programs, and inform policy decisions.
- **Introductory Biology**: Students majoring in public health must have a foundation of biological knowledge in order to understand and appreciate the concepts of health and disease.
- **Elective Courses**: To round out the public health major, students are required to take two courses (at least 6 credits) in the various domains of public health. Students must note when and if courses have prerequisites that are not part of the public health major.

Required Courses and Credits

Code	Title	Credit Hours
Fundamentals of Public Health		
PBHL/GEOG/IPHY 2692	Foundations in Public Health	3
GEOG 3692	Introduction to Global Public Health	4
IPHY 3490	Introduction to Epidemiology	3
Introductory Statistics		
Students must take at least one of the following courses in statistics:		3-4
ANTH 4000	Quantitative Methods in Anthropology	
ECON 3818	Introduction to Statistics with Computer Applications	
GEOG 3023	Statistics and Geographic Data	
IPHY 3280	Intro to Data Science and Biostatistics	
MATH 2510	Introduction to Statistics	
PSCI 2075	Quantitative Research Methods	
PSYC 2111	Psychological Science I: Statistics	
SOCY 2061	Introduction to Social Statistics	
STAT 2600	Introduction to Data Science	
Introductory Biology		
Students must take at least one of the following courses:		3
EBIO 1100	Biology and Society	
EBIO 1210	General Biology 1	
MCDB 1150	Introduction to Cellular and Molecular Biology	
Elective Courses		
Six credit hours of public health electives. At least one course (at least 3 credits) must be at the upper-division level, and at least one course (at least 3 credits) must be from outside of the student's major.		6
Social and Behavioral Health Electives		
ANTH 4610	Medical Anthropology	
ANTH 4605	Anthropology of Neuroscience	
SOCY 1022	Ethics and Social Issues in U.S. Health and Medicine	
SOCY 3032	Social Epidemiology	
SOCY 3045	Sociology of Death and Dying	
SOCY 3052	Medical Sociology	
SOCY 4052	Social Inequalities in Health	
SOCY 4062	Suffering and Care in Society	
ECON 4646	Topics in Health Economics (depends on topic)	
PSYC 4606	Advanced Topics in Social Psychology (Social Psychology of Health Promotion; Discrimination and Health)	
PSYC 4021	Psychology and Neuroscience of Exercise	
PSYC 4541	Special Topics in Psychology - Social Science (Prevention Science: Promoting Positive Youth and Adult Development; Science of Happiness; Sports Psychology)	
Environment and Health Electives		
ENVS 3034	Foundations of Environmental Justice	
or HONR 4075	Environmental Justice	
or PHIL 2140	Environmental Justice	
or GEOG 3782	Environmentalism, Race, and Justice	
GEOG 4852	Health and Medical Geography (taught every other year)	
EBIO 3400	Microbiology	
SOCY 4007	Global Human Ecology	
GEOG 4772	Food and Power (taught every year)	
GEOG 4692	Climate Change and Health	
HIST 2830	Disease and Public Health in Global History (online course)	
ECON 4646	Topics in Health Economics (depends on topic)	
Nutrition and Health Electives		
IPHY 2420	Introduction to Nutrition [1]	
or IPHY 3440	Clinical Nutrition	
ANTH 4060	Nutrition and Anthropology	
IPHY 4420	Nutrition and Human Performance (offered every other year)	
GEOG 4772	Food and Power	
EBIO 3590	Plants and Society	
PHIL 2260	Philosophy and Food	
ENVS 3525	Intermediate Environmental Problem Analysis: Topical Cornerstones (Food and Environment; Water-Energy-Food Nexus)	
HIST 2830	Disease and Public Health in Global History (online course)	
SOCY 4117	Food and Society (online course)	
Other Electives Related to Public Health		
EBIO 3630	Parasitology	
IPHY 4780	Sleep, Circadian Rhythms, and Health	
SLHS 3014	Hearing Loss Epidemiology	
SLHS 1010	Disabilities in Contemporary American Society	
SPAN 3080	Spanish Health Professions	
APRD 4010	Strategic Health Communication	
HUMN 3200	Fictions of Illness: Modern Medicine and the Literary Imagination	

NRSC 4420	Genetics of Brain and Behavior	
PSYC 2012	Biological Psychology	
WGST/JWST 4200	Religion and Reproductive Politics in the United States	
Total Credit Hours		**22-23**

[1] IPHY 2420 is offered every year; IPHY 3440 is offered every other year.

Plan(s) of Study

Year One		
Fall Semester		**Credit Hours**
EBIO 1210	General Biology 1	3
	Credit Hours	**3**
Spring Semester		
PBHL 2692 or GEOG 2692 or IPHY 2692	Foundations in Public Health or Foundations in Public Health or Foundations in Public Health	3
	Credit Hours	**3**
Year Two		
Fall Semester		
SOCY 2061	Introduction to Social Statistics	3
	Credit Hours	**3**
Spring Semester		
IPHY 3490	Introduction to Epidemiology	3
	Credit Hours	**3**
Year Three		
Fall Semester		
GEOG 3692	Introduction to Global Public Health	4
	Credit Hours	**4**
Spring Semester		
SOCY 4052	Social Inequalities in Health	3
	Credit Hours	**3**
Year Four		
Fall Semester		
PSYC 4606	Advanced Topics in Social Psychology (Social Psychology of Health Promotion)	3
	Credit Hours	**3**
	Total Credit Hours	**22**

Learning Outcomes

By the completion of the program, students will be able to:

- Describe and apply the modern public health approach to understanding the natural history of communicable and noncommunicable diseases
- Examine the biological, behavioral, social, cultural and environmental origins of communicable and noncommunicable diseases
- Identify and examine the biological, behavioral, social, cultural and environmental factors that contribute to the distribution of disease and health indicators over the life course
- Define the role of data, data literacy and statistics in guiding evidence-based risk assessment and health policy
- Apply analytic methodologies, research strategies and study designs used in public health to study the distribution, underlying causes and impact of communicable and noncommunicable disease
- Articulate multi-disciplinary public health strategies for the prevention, treatment and control of communicable and noncommunicable diseases

Religious Studies

The curriculum in the Department of Religious Studies at CU Boulder trains students in the scholarly understanding and interpretation of the complex phenomenon we call religion through careful study of history, texts, rituals, narrative, art and media. The program offers the skills to approach the comparative study of religion with the option of gaining deeper knowledge in Islam, Hinduism, Buddhism, Judaism, Christianity, religions in America, religions in the Mediterranean, religions in Asia and several indigenous traditions. We also allow students to develop expertise in thematic areas such as religion and the body; ritual studies; religion and the environment; ethics, politics and law; religion, gender and sexuality; and ancient and medieval religions.

The undergraduate degree in religious studies emphasizes the application of various theoretical and methodological approaches to the study of religion; the understanding of religious practices and traditions with attention to historical context and present-day impact; and the development of media literacy, critical thinking, effective oral and written communication, and research skills in our increasingly globalized and religiously diverse world.

In addition, students with a degree in religious studies are expected to achieve basic religious literacy: the ability to communicate and analyze practical information regarding religious diversity as educated citizens of a pluralistic society and thereby to effectively understand and participate in public debates and discussions about religion.

Course codes for this program are RLST and SNSK.

Bachelor's Degree

- Religious Studies - Bachelor of Arts (BA) (p. 569)

Minor

- Religious Studies - Minor (p. 571)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Ali, Aun Hasan (https://experts.colorado.edu/display/fisid_155948/)
Assistant Professor; PhD, McGill University

Courses

Religious Studies

RLST 1620 (3) Religious Dimensions of Human Experience
Surveys different approaches to the study of religion. Students will grow familiar with key thinkers, texts, and movements that shape how we understand religious phenomena. Students will also examine critiques of how religion is studied. In the end, students will have gained insight into significant aspects of religious life, belief, and practice that will empower them to navigate a world in which religion is increasingly relevant.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 1818 (3) Jewish History to 1492
Focus on Jewish history from the Biblical period to the Spanish Expulsion in 1492. Study the origins of a group of people who call themselves, and whom others call, Jews. Focus on place, movement, power/powerlessness, gender, and the question of how to define Jews over time and place. Introduces Jews as a group of people bound together by a particular set of laws; looks at their dispersion and diversity; explores Jews' interactions with surrounding cultures and societies; introduces the basic library of Jews; sees how Jews relate to political power.
Equivalent - Duplicate Degree Credit Not Granted: HIST 1818 and JWST 1818
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

RLST 1820 (3) Religion and Politics in Ancient Egypt
Studies the literature, politics, religions and other traditions of Ancient Egypt.
Repeatable: Repeatable for up to 3.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 1828 (3) Jewish History Since 1492
Surveys the major historical developments encountered by Jewish communities beginning with the Spanish Expulsion in 1492 up until the present day. Studies the various ways in which Jews across the modern world engaged with the emerging notions of nationality, equality and citizenship, as well as with new ideologies such as liberalism, socialism, nationalism, imperialism and antisemitism.
Equivalent - Duplicate Degree Credit Not Granted: HIST 1828 and JWST 1828
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

RLST 1830 (3) Global History of Holocaust and Genocide
Examines the interplay of politics, culture, psychology and sociology to try to understand why the great philosopher Isaiah Berlin called the 20th century, "The most terrible century in Western history." Our focus will be on the Holocaust as the event that defined the concept of genocide, but we will locate this event that has come to define the 20th century within ideas such as racism, imperialism, violence, and most important, the dehumanization of individuals in the modern world.
Equivalent - Duplicate Degree Credit Not Granted: HIST 1830 and JWST 1830
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

RLST 1850 (3) Ritual and Media
Ritual continues to play an important role in contemporary societies in both religious and secular contexts. This course examines the elements and genres of ritual activity from African rites of passage to the Beijing Olympics, paying close attention to how the media documents, appropriates and transforms aspects of ritual.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 1900 (3) Introduction to the Hebrew Bible/Old Testament
Examine the content of the Hebrew Bible and critical theories regarding its development. Explore the development of these texts, as well as their foundational role for rabbinic literature and the New Testament. Assess the enduring influence of the Hebrew Bible/Old Testament in world literature and culture (such as in art and music).
Equivalent - Duplicate Degree Credit Not Granted: JWST 1900
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

RLST 1910 (3) Introduction to the New Testament
Examine the background, content and influence of the New Testament books. Studies the diverse perspectives contained in the various books, as well as the process of canonization. Assess the influence of the New Testament on the development of Christianity as well as world (eastern and western) culture.
Equivalent - Duplicate Degree Credit Not Granted: JWST 1910
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 2100 (3) American Beliefs and Values
An in-depth analysis of beliefs and values that have dominated American life in modern and postmodern eras, and of diverse belief and value systems that offer alternatives for the future. The analysis will be based on influential theories from the academic study of religion, and the course will give special attention to the influence of religious factors on secular American life.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 2200 (3) Religion and Dance
Connecting dancing to religions across the globe demonstrates the near synonymy of the two in most cultures, the remarkable potential for dancing to articulate cultural identity, and finally that dancing is strongly connected to what distinguishes being human. Provides an enriched appreciation of dancing and the introduction to dancing in many cultures.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 2202 (3) Islam
Introduces students to foundational Islamic concepts, texts, core practices, historical narratives and intellectual, spiritual and literary traditions. Topics covered include: the figure of Muhammad; the Quran; the emergence of distinct Muslim identities; Hadith; Sharia; Islamic theology; Islamic philosophy; science in Islamic civilization; Islamic mysticism; the impact of colonialism and modernity on the Muslim world; gender and sexuality; political Islam.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Diversity-U.S. Perspective

RLST 2320 (3) The Muslim World, 600-1250
Focusing on the history of the Muslim World in the age of the caliphates, this course takes an interdisciplinary, comparative approach to the development of Islamicate society, focusing on social structure, politics, economics and religion. Students will use primary and secondary sources to write a research paper, and make in-class presentations to cultivate critical thinking, research and writing skills.
Equivalent - Duplicate Degree Credit Not Granted: ARAB 2320
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Asia Content

RLST 2400 (3) Religion, Ethics and Politics
Explores the role of religion in today's world, focusing on debates around religion, ethics and politics. Examining diverse voices from Christianity, Judaism and other traditions, this course considers religion's role in debates about issues such as same-sex marriage, race, climate change, war, criminal justice, torture, sexual ethics, abortion and economic justice.
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 2500 (3) Religions in the United States
Explores the development of various religions within the shaping influences of American culture, including separation of church and state, the frontier experience, civil religion, and the interaction of religions of indigenous peoples, immigrants, and African Americans.
Additional Information: GT Pathways: GT-AH2 - Arts Hum: Lit Humanities
Arts Sci Core Curr: Ideals and Values
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

RLST 2600 (3) Judaism, Christianity, and Islam: Abrahamic Religions
In Judaism, Christianity, and Islam, Abraham is described as a founding figure. In recent times, the label ¿Abrahamic Religions¿ has become increasingly important both as a way to describe the origins and beliefs of Judaism, Christianity, and Islam and as a means for finding common ground in political and religious discourse. Yet in each religion Abraham is also used in strikingly different ways and for distinct purposes. In this course, we will look at these three religious traditions and how each one imagines Abraham. In particular, the focus will be on how each religion uses Abraham to construct foundational stories of a special relationship to God, stories that ultimately serve to promote religious identity over time.
Equivalent - Duplicate Degree Credit Not Granted: JWST 2600
Additional Information: GT Pathways: GT-AH3 - Arts Hum: Ways of Thinking
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 2610 (3) Happiness and Nirvana: Enlightenment in Indian Religions
Addresses religious and spiritual practices geared towards ideals of enlightenment across various religious traditions in India, including Buddhism, Hinduism, Jainism and Sikhism, in relation to different social groups historically. Examines the concept of happiness (sukh¿) and its connections to spiritual enlightenment.
Additional Information: GT Pathways: GT-AH2 - Arts Hum: Lit Humanities
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 2612 (3) Yoga: Ancient and Modern
Addresses the history and philosophy of yoga, beginning from its earliest articulations in Vedic India 1200 BCE up to contemporary understandings of yoga. Examines yoga's historical evolution from a primarily mental practice to a bodily centered practice. Looks at the shifts yoga undergoes as it becomes popular in the modern West.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

RLST 2614 (3) Paganism to Christianity
Offers a cultural history of Greek and Roman religion. Students read ancient texts in translation and use evidence from archaeology to reconstruct the shift from paganism to Christianity in antiquity. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 2610
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 2619 (3) Religion, Psychedelics, and Shamanism
From ancient India¿s tradition of using the hallucinogenic plant Soma to Patañjali¿s early yoga tradition proposing herbs (o¿adhi) as a means to enlightenment to 21st century mestizo shamans in Peru offering ayahuasca medicine retreats¿the use of mind-altering hallucinogenic substances has played an expansive role in the generation of religious and mystical experience and the subsequent structure of religious praxis. This class focuses on tracing out the religious elements of this history.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 2620 (3) Religions of East Asia
Introduces literature, beliefs, practices, and institutions of Taoism, Confucianism, Buddhism, and Shintoism in historical perspective.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 2650 (3) Meditation: Ancient and Modern
Explores the roots of today's mindfulness movement in ancient forms of Buddhist meditation. Topics covered include the array of meditation techniques in Buddhism, colonial-period origins of lay meditation in Asia, Buddhism's transmission to North America and Europe in the 20th century, the emergence of secular forms of mindfulness, and scientific studies on mindfulness and compassion.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 2700 (3) Native American and Indigenous Religious Traditions
Studies the religious lifeways of diverse Indigenous peoples in North America. The course considers how these religious lifeways facilitate healing, movements of social protest, and efforts for self-determination in response to ongoing forms of colonialism. Students will critically explore the impact of colonial structures on Native American religious traditions, such as missionization, and evaluate the meaning of decolonization as both a pathway and goal supporting Native liberation.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 2703
Additional Information: GT Pathways: GT-AH2 - Arts Hum: Lit Humanities
Arts Sci Core Curr: Human Diversity
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

RLST 2800 (3) Women and Religion
Examines roles of women in a variety of religious traditions including Judaism, Christianity, Hinduism, Buddhism, and goddess traditions.
Equivalent - Duplicate Degree Credit Not Granted: WGST 2800
Additional Information: GT Pathways: GT-AH2 - Arts Hum: Lit Humanities
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

RLST 2840 (1-3) Independent Study
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

RLST 3000 (3) Christian Traditions
Serves as an introduction to the academic study of Christianity, understood in its historical context, beginning with its most remote Mesopotamian origins and through to beginnings of the Protestant Reformation. Coverage is global, but "Western" Christian tradition are emphasized, as is the evolution of doctrine, ritual and institutions in relation to social, cultural and political factors.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3001 (3) Modern Christianity: Culture, Politics, Religion
Studies development of various aspects of global Christian traditions from the Reformation to the present day, as expressed through scripture, theology, ritual, media, politics, ethics, popular culture, and the arts. Includes topics such as colonialism, modernism and liberalism, secularism, pluralism, ecumensim, globalization, and the impact of new technologies. Recommended perquisite: RLST 3000
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3010 (3) Religion and the Senses
Expanding the five common senses so they are grounded on a more fundamental kinesthetic sense, that is, sense of movement, this course focuses on the study of religion and culture on all those marvelous richly and sensuously textured aspects of religious behavior: movement, experience, feeling, action, sensation, gesture, art, music, dancing, architecture, costume, food, and ritual.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3020 (3) Advanced Writing in Religious Studies
Seminar for religious studies majors that emphasizes the development of writing skills for use inside as well as outside the academy. Writing assignments are focused on one or more core topics in religious studies.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Religious Studies (RLST) majors only.
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Written Communication-Upper

RLST 3040 (3) The Quran
Examines how Christian constructions of religion and scripture have shaped Muslim understandings of the Quran and marginalized other views with a much longer history. Helps students appreciate how this process of marginalization is negotiated and explores the Quran from other perspectives including sound, performance, embodiment, and occultism. By highlighting marginalized approaches to the Quran, it promotes a better understanding of how social and religious differences are shaped by different political legacies. Previously offered as a special topics course.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Asia Content

RLST 3050 (3) Religion and Literature in America
Studies religious dimensions of American culture through representative literature, beginning with the Puritans and focusing on diversity in the 19th and 20th centuries.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3060 (3) Fundamentalism and Islam
Explores the global rise of fundamentalism, particularly Islamic fundamentalism. Students will analyze fundamentalism as a function of modernity, and in metaphysical rather than geostrategic or cultural terms. Students will examine the arguments of Muslim fundamentalists, and the counterarguments of their critics.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 3070 (3) Islamic Mysticism: Ibn Arabi, Rumi, and the Sufi Tradition
Introduces students to the philosophical, literary, and musical traditions of Islamic Mysticism or Sufism. Figures covered include: Rumi, Hallaj, Ibn Arabi, Mulla Sadra, Ghazali, Hafez, Ibn al-Farid, Ghalib, and Nusrat Fateh Ali Khan. Students will learn how Islamic Mysticism differs across cultural contexts and how it compares to other mystical traditions.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3100 (3) Judaism
Explores Jewish religious experience and its expression in thought, ritual, ethics, and social institutions.
Equivalent - Duplicate Degree Credit Not Granted: JWST 3100
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 3110 (3) Of Jewish Legends, Folktales and the Supernatural
Explores Jewish traditional legends, folktales and stories of the supernatural. Starts with Aggadic Talmud tales and Midrashic texts and focuses on later rabbinic and mystical texts and folktales ca 500-1900 C.E. from around the Jewish world with subjects ranging from didactic narratives extolling the virtues of the simple pure soul, to the horrors of a blood sucking vampiric outside world.
Equivalent - Duplicate Degree Credit Not Granted: JWST 3110
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3120 (3) Radical Jews
Explores major Jewish figures, and their cultural productions, who were radical in the challenges they posed and transformative in the effects they had on society. The figures we examine range from the Rabbis of the Talmud who revolutionized a sacrificial cult religion, to Western secularist Baruch Spinoza and American icons such as Allen Ginsberg, Gloria Steinem and Bob Dylan.
Equivalent - Duplicate Degree Credit Not Granted: JWST 3120
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3150 (3) Jerusalem: The Holy City in History, Legend, and Religious Thought
The history of Jerusalem and the stories that have given it prominence in the religious imagination continue to shape much of the world in which we live. In this class, we will survey approximately three millennia of the history of the city. We will ask methodological question, such as: What does it mean for a place to be conceived of as holy? How does this perceived holiness come about? What happens when holy places are destroyed and rebuilt? We will examine the biblical stories about Jerusalem not only as important sources themselves, but also for how they shape later religious traditions, specifically Judaism, Christianity, and Islam. As such, we will address what it means for the same place to be perceived as ¿holy¿ by differing, and often competing, groups. These contestations regarding Jerusalem will, then, allow us to engage issues of religious diversity and conflict both historically and in the present.
Equivalent - Duplicate Degree Credit Not Granted: JWST 3150
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3200 (3) Yoga, Castes and Magic: Hindu Society and Spirituality
Addresses yoga, religious asceticism and practices of magic in Hinduism from ancient India up to the modern period. Gives an overview of the variety of traditions in Hinduism, focusing on how spiritual practices affect social roles. Looks at how spritual practices approach happiness and social change, from ancient India¿s secret Upanisads through medieval mystic poets like Mirabai, through Gandhi in the 20th century, focusing on figures using mystical experience to overturn social and political powers.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 3202 (3) Women, Gender & Sexuality in Jewish Texts & Traditions
Reads some of the ways Jewish texts and traditions look at women, gender and sexuality from biblical times to the present. Starts with an analysis of the positioning of the body, matter and gender in creation stories, moves on to the gendered aspects of tales of rescue and sacrifice, biblical tales of sexual subversion and power, taboo-breaking and ethnos building, to rabbinic attitudes towards women, sexuality and gender and contemporary renderings and rereadings of the earlier texts and traditions.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3201 and JWST 3202 and HEBR 3202
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

RLST 3300 (3) Foundations of Buddhism
Introduction to Buddhist thought and practice in the variety of its historical and cultural contexts. The course begins with an exploration of narrative, cosmology, doctrine and ritual in early Buddhism and the Theravada of South and Southeast Asia. Through case studies, we then trace diverse conceptions of the Buddhist path in Tibet and East Asia where the Mahayana spread.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 3530 (3) Global Seminar: Jews and Muslims - The Multiethnic History of Istanbul
Spend two weeks in Istanbul and examine Jewish-Muslim relations in a place that was for 500 years the crossroads of civilization. The only Muslim city in the 21st century with a large, thriving Jewish community, Istanbul models how people from different social classes, ethnicities and religious backgrounds can coexist.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3530 and JWST 3530
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

RLST 3550 (3) Tibetan Buddhism
Explores Tibetan Buddhism through literature and film, including sacred biographies, treatises on the Buddhist path and films providing a visual window into Tibetan life worlds. We examine different kinds of Tibetan journeys: moving through the life cycle, treading the path of self-cultivation, embarking on solitary retreat, traversing from death to rebirth and traveling on pilgrimage and into exile.
Equivalent - Duplicate Degree Credit Not Granted: ASIA 3550
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3750 (3) Women in Buddhism
Explores diverse representations of the female in Buddhist literature and the social realities of actual women in Asian historical contexts. Through case studies that traverse Buddhist Asia, we delve into monastic views of the female body, philosophical analyses of the emptiness of gender, idealized images of the feminine in Buddhist tantra, and contemporary issues such as the nun's revival moment.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3750
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 3800 (3) Chinese Religions
Studies classical Confucianism, Taoism, Buddhism, and Neo-Confucianism within the historical context of Chinese culture.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 3801 (3) Muslims, Christians, Jews and the Mediterranean Origins of the West
Provides a historical foundation for the study of western Modernity, including the Anglo-European and Islamic worlds. It focuses on the Mediterranean region in the long Middle Ages (650-1650), emphasizing the role of Christian, Muslim and Jewish peoples and cultures, in Europe, Africa and West Asia. The approach is interdisciplinary incorporating social, economic, cultural, literary and art history, combining lectures with discussions based around readings of contemporary documents and the analysis of contemporary artifacts.
Equivalent - Duplicate Degree Credit Not Granted: HUMN 3801
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3820 (3) Topics in Religious Studies
Intensive study of a selected area or problem in religious studies.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 3850 (3) The Mediterranean: Religion Before Modernity
Offers an innovative approach to the multifaceted history of Christian-Muslim-Jewish interaction in the Mediterranean. It eschews established paradigms (e.g., Europe, Islamic world) that distort our understanding of these and pushes students to reconsider the accepted paradigms of Western history. Students will reappraise assumptions regarding the nature of ethnic, religious, national and cultural identity, and their role in human history.
Equivalent - Duplicate Degree Credit Not Granted: HUMN 3850
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

RLST 4030 (3) Religions in America
Studies various religious movements in the U.S. and other parts of the Americas. Includes American religion and religions, religion and nationalism, revitalization and religion and Asian religions in America.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5030
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4050 (3) Topics in Christian Studies
Studies a particular topic in Christian theology and culture such as early Christianity, medieval Christianity, Christianity in the United States, women and Christianity, liberation theologies, Christianity and literature, and modern Christian thought.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5050
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite 6 hours of RLST courses at any level or instructor consent.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4170 (3) God and Politics
Explores the relationship between religion and politics. Examining traditions such as Judaism and Christianity, this course considers diverse ways in which ancient, medieval and modern sources have imagined the role of religion in civic life. Some topics include the status of religious minorities, the nature of religious freedom and contemporary debates surrounding issues such as torture, sexuality and climate change.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5170 and JWST 4170
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4180 (3) Is God Dead?
Explores debates about the following questions: does it make sense to believe in God? Should believing or not believing in God make a difference for how individuals behave? Examining ancient and modern views on the existence and nature of a higher power, this course considers topics including evil and suffering, religion and science and religion's role in politics.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5180 and JWST 4180
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4190 (3) Love and Desire
Explores debates about the following questions: what and whom should humans and gods love, and what role should passions play in religion? Examining traditions such as Judaism and Christianity, this course considers diverse views on topics including religion and sexuality, the promise and perils of loving gods and humans, and the relationship between love, politics, and violence.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5190 and JWST 4190
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4200 (3) Topics in Hinduism
Examines in depth central themes, schools of thought and movements in Hinduism, such as myth and ritual, renunciation, Vedanta, Tantra and Yoga.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5200
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite 6 hours of RLST courses at any level or instructor consent.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 4250 (3) Topics in Buddhism
Examines in depth central themes, schools of thought and movements in Buddhism, such as Theravada in Southeast Asia, Mahayana and Tantrayana thought, Zen and Buddhism in America. Department enforced prerequisite: RLST 2610 or RLST 2620 or RLST 3300 or instructor consent.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5250
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

RLST 4260 (3) Topics in Judaism
Examines in depth central themes, schools of thought, and movements in Judaism, along with other traditions, across a range of historical periods.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5260 and JWST 4260
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4280 (3) Body and Magic in India
Addresses ideas of the body and its use and functions within magic, particularly in Tantric traditions. Uses classical Hinduism and Tantra as a point of departure, focusing on subtle bodies and Tantric bodies and will also supplement this with writing about the body and its connection to mind in contemporary Western thought addressing the mind-body problem.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5280
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4300 (3) Topics in Native American Religions
Examines a topic (varies at different offerings) focusing on religions of peoples indigenous to the Americas. May consider mythology; shamanism and medicine; trickster, clown and fool; crisis cult movements.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5300
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of RLST 2700 (minimum grade C-).
Recommended: Prerequisite 3 additional credit hours of RLST course work or instructor consent.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4353 (3) Indigenous Traditions and Law: A Global Perspective
Explores intersections of indigenous religions and law through historical and contemporary case studies. American Indian and Hawaiian contexts will be featured, as well as the study of the United Nations Declaration on the Rights of Indigenous Peoples and its recent implementation in places as diverse as Bolivia, Norway and Nagaland. Theoretical issues in the academic study of religion and ethnic studies will be emphasized.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5353 and ETHN 4353 and ETHN 5353
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

RLST 4450 (3) Religion and Nonviolence
Studies theories of nonviolence developed by major thinkers and movements, especially in the U.S., in the context of their religious commitments and beliefs and their historical circumstances.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4610 (3) Topics in Islam
A detailed exploration of diverse intellectual approaches to central questions in Islamic traditions. Department consent required.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5610
Repeatable: Repeatable for up to 9.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4650 (3) Islam in the Modern World
Globally surveys Islam, covering religion and politics; Islam and the West; the Islamic revival and its varied forms in Iran, Indonesia, Libya and Pakistan; development and change; the status of women; media and academic stereotyping.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5650
Recommended: Prerequisite 6 credit hours of religious studies at any level or instructor consent.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Asia Content

RLST 4780 (3) New Religions of East Asia
Explores the new religious movements of modern China, Japan and Korea, which have arisen over the last century due to the influence of the West and in response to the pressures of modernization. Previous coursework in religious studies or Asian languages and civilizations is recommended.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5780
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4800 (3) Critical Studies in Religion
Focuses on a current issue or area of research in the study of religion. Students analyze the way theories develop and learn to develop their own critical analysis. Topics vary, e.g., comparative kingship, colonialism, ritual theories, feminist analysis.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Religious Studies (RLST) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4810 (3) Honors Thesis
Students write an honors thesis based on independent research under the direction of a faculty member. Required for students who elect departmental honors.
Additional Information: Arts Sciences Honors Course

RLST 4820 (3) Interdisciplinary Seminar on Religion
Variable topics in religion, drawing from a variety of disciplines and methodologies as they shed light on specific traditions and issues.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5820
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Recommended: Requisite 6 credit hours of religious studies at any level or instructor consent.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4830 (3) Senior Majors Seminar
Topics and instructors vary. Brings advanced majors together in order to focus their major experience onsignificant topics and issues of common interest.
Requisites: Restricted to students with 87-180 credits (Senior, Fifth Year Senior).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

RLST 4840 (1-6) Senior Independent Study
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

RLST 4850 (3) Gender in Hagiography
Explores gendered ideals of sainthood in medieval hagiographic literature. We draw primarily from the lives of female mystics in Buddhist and Christian sources and also examine the construction of mendicant masculinities. Reading from an array of primary sources, we query the category of mysticism and ask why visionary experience has so often been gendered female.
Equivalent - Duplicate Degree Credit Not Granted: RLST 5850 and WGST 4850
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Sanskrit

SNSK 1010 (3-4) Introductory Sanskrit 1
Repeatable: Repeatable for up to 4.00 total credit hours.
Additional Information: Departmental Category: Sanskrit

SNSK 1020 (3-4) Introductory Sanskrit 2
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Requires prerequisite course of SNSK 1020 (minimum grade C-).
Additional Information: Departmental Category: Sanskrit

SNSK 2110 (3-4) Intermediate Sanskrit 1
Continued study of the grammar of classical Sanskrit and translation of selected readings from the literature.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Requires prerequisite course of SNSK 1020 (minimum grade C-).
Additional Information: Departmental Category: Sanskrit

SNSK 2120 (3-4) Intermediate Sanskrit 2
Continuation of SNSK 2110.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Requires prerequisite course of SNSK 2110 (minimum grade C-).
Additional Information: Departmental Category: Sanskrit

Religious Studies - Bachelor of Arts (BA)

The curriculum in the Department of Religious Studies at CU Boulder trains students in the scholarly understanding and interpretation of the complex phenomenon we call religion through careful study of history, texts, rituals, narrative, art and media. The program offers the skills to approach the comparative study of religion with the option of gaining deeper knowledge in Islam, Hinduism, Buddhism, Judaism, Christianity, religions in America, religions in the Mediterranean, religions in Asia and several indigenous traditions. The program also allows students to develop expertise in thematic areas such as religion and the body; ritual studies; religion and the environment; ethics, politics and law; religion, gender, and sexuality; and ancient and medieval religions.

The undergraduate degree in religious studies emphasizes the application of various theoretical and methodological approaches to the study of religion; the understanding of religious practices and traditions with attention to historical context and present-day impact; and the development of media literacy, critical thinking, effective oral and written communication, and research skills in our increasingly globalized and religiously diverse world.

In addition, students with a degree in religious studies are expected to achieve basic religious literacy: the ability to communicate and analyze practical information regarding religious diversity as educated citizens of a pluralistic society and thereby to effectively understand and participate in public debates and discussions about religion.

Graduation with Honors

The Honors Program in religious studies offers the opportunity for highly motivated undergraduates to undertake a deeper and more individualized study than is provided by the regular BA curriculum and to earn an honors designation on their diploma. Religious studies majors with at least a 3.30 overall GPA and 3.50 in the major are eligible to participate in the program. Honors that may be earned are cum laude (with honors), magna cum laude (with high honors) and summa cum laude (with highest honors).

Students interested in pursuing departmental honors are encouraged to consult with the departmental undergraduate advisor by the beginning of their junior year.

Requirements

Program Requirements

Students must complete the general requirements of the College of Arts and Sciences and, in addition:

- Complete a minimum of 36 credit hours in the major, of which at least 27 credits hours must be in RLST designated courses.
- More than half of the credit hours (19 or greater) counted toward the major need to be in upper-division courses.
- All courses counted towards the major must be completed with a grade of C- or better and none of the courses may be taken for a Pass/Fail grade.
- The cumulative Grade Point Average (GPA) in courses counted toward the major must be at least 2.0.

Required Courses and Credits

Code	Title	Credit Hours
Academic Study of Religion Requirement		
RLST 1620	Religious Dimensions of Human Experience	3
RLST 4830	Senior Majors Seminar	3
Cluster Requirement		
Select three courses in either of the following:		*9*
	A single religious tradition (i.e. Buddhism, Christianity, East Asian Religions, Hinduism, Islam, Judaism, Native American and Indigenous Religions)	
	A particular theme (i.e. ancient and medieval religions, gender and sexuality, interreligioius interactions, law and politics, media, culture, and contemporary society, philosophy and ethics, religion and violence, ritual, performance, and the body)	
Electives		**21**
Total Credit Hours		**36**

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in religious studies, students should meet the following requirements:

- At the beginning of the second semester of study, declare the major.
- Each semester, complete two religious studies courses.
- The last spring semester in residence, take the senior seminar.

Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement and possibly could fill one or both of the categories of the Gen Ed Diversity Requirement (U.S. and/or Global Perspective.)

Year One		
Fall Semester		**Credit Hours**

Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

BA and MA in Religious Studies

Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.0 or higher.
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder.
- Students must have completed 24 RLST credit hours with a GPA of 3.5 or higher.

Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. However, only 6 credits may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

If you are interested in the BAM degree program, please contact the graduate program assistant for more information.

Learning Outcomes

By the completion of the program, students will be able to:

- Develop competency of knowledge about the historical and global diversity of religious ideas, practices, movements and dimensions of cultures.
- Identify, analyze and apply major concepts and theories in the academic study of religion to historical and contemporary issues.

- Communicate knowledge about the historical and global diversity of religious ideas, practices, movements and dimensions of cultures through effective writing.

Religious Studies - Minor

The Department of Religious Studies offers a minor in religious studies in addition to the BA. The minor in religious studies allows students to learn about many of the world's longstanding religious traditions, including Buddhism, Christianity, Islam, Hinduism, Judaism, Native and Indigenous traditions, while working toward a BA in another major at CU Boulder. Minors will also gain familiarity with theoretical, comparative and interdisciplinary approaches to the academic study of religion through topics such as gender and sexuality, interreligious interactions, law, politics, ethics, sacred texts and decolonization. Students are subject to the College of Arts and Sciences minor requirements.

Requirements

Students must complete at least 18 credit hours in religious studies coursework, including at least 6 hours of lower division and 9 hours of upper division coursework. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

All coursework applied to the minor must be completed with a grade of C- or better. No pass/fail work may be applied. The GPA for all RLST coursework must equal 2.00 or higher.

Code	Title	Credit Hours
RLST lower-division coursework		6
RLST lower- or upper-division coursework		3
RLST upper-division coursework		9
Total Credit Hours		**18**

Sociology

Sociology is the study of society. Students who major in sociology have the opportunity to learn in-depth about social structures and processes, and to gain skills in critical thinking, writing and data analysis. Sociology graduates go into many different fields, as described by a recent study by the American Sociological Association.

Course code for this program is SOCY.

Bachelor's Degree

- Sociology - Bachelor of Arts (BA) (p. 579)

Minor

- Sociology - Minor (p. 581)

Certificates

- Animals & Society - Certificate (p. 581)
- Care, Health and Resilience - Certificate (p. 582)
- Social Innovation - Certificate (p. 583)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Courses

SOCY 1001 (3) Introduction to Sociology
Examines basic sociological ideas including social relations, social interaction, social structure, and social change. Examples are drawn from societies around the world.
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology
MAPS Course: Social Science

SOCY 1004 (3) Deviance in U.S. Society
Examines the social construction of deviance in the U.S., the process of acquiring a deviant identity and managing deviant stigma, and the social organization of deviant act, lifestyles, relationships and careers.
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 1006 (3) The Social Construction of Sexuality
Discusses the social determinants of sexuality. Analyzes the economic, psychological, and cultural influences on human sexuality. Interactional perspective of human sexuality is presented.
Equivalent - Duplicate Degree Credit Not Granted: WGST 1006
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Sex and Gender

SOCY 1016 (3) Sex, Gender, and Society 1
Examines status and power differences between the sexes at individual and societal levels. Emphasizes historical context of gender roles and status, reviews major theories of gender stratification.
Equivalent - Duplicate Degree Credit Not Granted: WGST 1016
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Sex and Gender

SOCY 1021 (3) United States Race and Ethnic Relations I
Examines how concepts of race and ethnicity have manifested historically and manifest currently in U.S. society. Covers foundational concepts such as prejudice, discrimination, and privilege. Also addresses the structural causes and consequences of race and ethnicity in various aspects of U.S. society, such as the housing market, the criminal justice system, and education.
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: General Sociology

SOCY 1022 (3) Ethics and Social Issues in U.S. Health and Medicine
Explores current ethical and policy issues in U.S. health and medical practices. Includes such issues as alcohol and drug abuse, organ transplants and substitutes, genetic engineering, contraception, abortion, occupational safety and health, and euthanasia.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue

SOCY 1841 (1-6) Independent Study in Sociology
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Departmental Category: General Sociology

SOCY 2011 (3) Contemporary Social Issues and Human Values
Explores contemporary societies on a global scale. Focuses on such issues as capitalism, socialism, race and ethnic problems, sex discrimination, poverty and the concentration of wealth, crime and deviance, human rights and human values, peace and war.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 2022 (3) Happiness in Society
Examines the measurement, meaning, and causes of happiness and its relationship to social life in the contemporary United States as well as in other countries. Students will also learn about and critically evaluate existing strategies for enhancing happiness in their lives. Formerly offered as a special topics course.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

SOCY 2031 (3) Social Problems
Examines various social problems in the U.S. through a traditional sociological framework focused on race, class, and gender. Considers such problems as economic, racial, and gender inequality as manifestations of broader structural dynamics rooted in unequal relations of power. Addresses topics such as mass incarceration, poverty, segregation, drug use, immigration, and war and terrorism.
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 2034 (3) Drugs in United States Society
Examines the relationship between drugs and social contexts. Lends insight into why people find consciousness alteration meaningful, what kinds of experiences and problems arise, and what types of social policies emerge to control drug use.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 2044 (3) Crime and Society
Explores issues related to crime, the criminal justice system, and crime-related public policy. It addresses what we know about crime and how we know it, how our society responds to crime, how the institutions designed to address crime (police, courts, corrections) function, and diversity in experiences with the criminal justice system.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 2044
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 2061 (3) Introduction to Social Statistics
Introduces students to quantitative analysis of social phenomena. Emphasizes understanding and proper interpretation of graphs; measures of central tendency, dispersion, and association; and the concept of statistical significance. Assumes students have only limited mathematical background.
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology
MAPS Course: Mathematics

SOCY 2077 (3) Environment and Society
Examines interactions between societies and their natural and built environments through the lens of inequality. Describes how environmental problems vary along, are shaped by, and exacerbate disparities along lines of race, socioeconomic status, and other forms of social status. Also examines collective efforts to address social and environmental problems.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Environment and Society

SOCY 2080 (3) Sociology of the Helping Professions
Investigates how today's helping professionals are trained and socialized to care for clients, the challenges they face in working within modern bureaucracies and with advanced technologies and the importance of inter-professional care.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 2091 (3) Topics in Sociology
Variety of courses taught by visiting and regular faculty. See current departmental announcements for specific content. Students may receive credit for this course up to three times for different topics.
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 2092 (3) Sex, Power and Reproduction
Examines fertility, contraception and abortion with an emphasis on demographic trends, social stratification and policy impacts. Sociological, demographic and public health perspectives will be presented.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

SOCY 2150 (3) Gender, Race, and Chainsaws
Practice fundamental skills of visual literacy with an emphasis on understanding the sociological importance of popular media¿s representation of different groups of people and the implications of these representations for social justice. We will analyze how historical and current social conditions influence the creation, distribution, and interpretation of visual media in our culture, focusing on films in the horror genre. Formerly offered as a special topics course.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

SOCY 3001 (3) Classical Theory
In-depth study of classical sociological theorists, particularly Marx, Durkheim, and Weber. Examines their roles in defining the discipline of sociology.
Requisites: Requires a prerequisite course of SOCY 1001 (minimum grade C-). Restricted to students with 27-180 credits (Sophomore, Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 3002 (3) Population and Society
Examines population, its structure and processes, and its relationships to selected areas of the social structure. Examines Malthusian, neo-Malthusian, and Marxist perspectives.
Requisites: Restricted to Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue

SOCY 3011 (3) Contemporary Theory
Continuation of SOCY 3001. In-depth study of modern and post-modern theories of the 20th century, including structural-functionalist, conflict, symbolic interactionist, feminist, and world system theories.
Requisites: Requires a prerequisite course of SOCY 3001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 3012 (3) Gender and Development
Provides a sociological perspective on gender, globalization, and economic development in the Global South. Examines a variety of topics, including feminist theories of development; poverty and inequality; women¿s work in the context of globalization; and women¿s activism and feminism(s).
Equivalent - Duplicate Degree Credit Not Granted: WGST 3012
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 3001.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue
Departmental Category: Asia Content

SOCY 3016 (3) Marriage and the Family in the United States
Comparative and historical examination of marriage and the family within the U.S. Emphasizes changing family roles and family structures. Also considers alternatives to the nuclear family and traditional marriage exploring new definitions of family.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3016
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sex and Gender

SOCY 3032 (3) Social Epidemiology
Introduces students to social epidemiology. Identifies how social structures, institutions, norms, relationships, and neighborhood context affect health. Particular attention is paid to ways in which economic inequality, racism, and gender discrimination increase groups¿ risk of exposure to factors that undermine health.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 3041 (3) Self and Consciousness
Explores human development from a psychosocial perspective, focusing on the interplay between psychological patterns and social forms. Issues such as self-image and social consciousness are studied within the larger context of individual and collective forces leading to transformation.
Equivalent - Duplicate Degree Credit Not Granted: INVS 3041
Requisites: Requires a prerequisite course of SOCY 3001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 3042 (3) Topics in Population and Health
A variety of courses in population and/or health will be taught, usually by visiting lecturers. See current departmental announcements for specific content.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of SOCY 1001 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue

SOCY 3044 (3) Race, Class, Gender, and Crime
Overview of race, class, gender and ethnicity issues in offending, victimization and processing by the justice system. Examines women and people of color employed in the justice system.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 3044 and WGST 3044
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 1001 or SOCY 1004 or SOCY 1021 or SOCY 2044.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 3045 (3) Sociology of Death and Dying
Addresses sociological aspects of thanatology (the study of death and dying). Includes study of the social meaning of death and its normative treatment in western civilization, with a focus on the contemporary United States.
Requisites: Requires a prerequisite course of SOCY 1001 or SOCY 3001 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue

SOCY 3046 (3) Topics in Sex and Gender
Faculty present courses based on their area of expertise and specialization in the field of sex and gender. Students should check current sociology department notices of course offerings for specific topics.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3046
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sex and Gender

SOCY 3052 (3) Medical Sociology
Explores the role of medicine and medical systems in society. How does society shape health, how does health shape social position, and how do societies make sense of health and illness? Topics may include epidemiology, social demography of health, social stress, health behavior, experiences of illness and recovery, health care provision, and health care delivery systems.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue

SOCY 3141 (3) Social Movements and the Politics of Protest
Considers theory and research about social movements and other forms of protest within and beyond the United States. Examines their impacts as well as factors shaping their success and failure, including leadership, ideology, recruitment, strategy, organizational dynamics, and broader social context.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 3151 (3) Self in Modern Society
Explores how modern social institutions and culture shape our personal experiences, how personal experiences can affect the nature of those, institutions and culture, and how strategies can be developed for achieving balance between the individual and society.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 3001.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 3161 (3) Global Perspectives on Race and Ethnicity
Explores various manifestations of race and ethnicity in different parts of the world. Includes in-depth coverage of various subtopics, such as racial and ethnic stratification, identity formation, social movements, politics, citizenship, and migration.
Recommended: Prerequisite SOCY 1021.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: General Sociology

SOCY 3171 (3) Whiteness Studies
Uses the conceptual framework of the sociology of race and ethnic relations to explore whiteness as a racial category that is centered and privileged in American society. Investigates the development of whiteness from past white supremacy, current colorblindness, to possible future multiculturalism. Analyzes the consequences of whiteness as a racial identity and a social structure.
Requisites: Requires a prerequisite course of SOCY 1001 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 3201 (3) Sociological Research Methods
Introduces students to the logics and methods of sociological research. This requirement for majors teaches ways to answer sociological questions by collecting and analyzing different types of data. Students are trained in research ethics and learn how to collect their own data and conduct original sociological research. Collection and analysis of both qualitative and quantitative data are included.
Requisites: Requires prerequisite course of SOCY 2061 or ANTH 4000 or EBIO 4410 or ECON 3818 or GEOG 3023 or IPHY 2800 or IPHY 3280 or MATH 2510 or PSCI 2075 or PSYC 2111 or EDUC 4716 (minimum grade C-). Restricted to Sociology (SOCY) majors only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 3301 (3) Survey Methods
Teaches quantitative research methods and, particularly, methods of survey research. Topics include sampling, interviewing, schedule construction, data analysis, computer methods, index construction, and statistical analysis. Students participate in a survey project, design, collect data, and prepare a research paper on the basis of collected data.
Requisites: Requires prerequisite courses of SOCY 2061 and SOCY 3001 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 3314 (3) Violence Against Women and Girls
Focuses on aspects of the victimization of women and girls that are "Gendered" - namely, sexual abuse and intimate partner abuse. Also explores the importance of race, class, and sexuality in gendered violence.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 3314 and WGST 3314
Recommended: Prerequisite SOCY 1016 or WGST 1016.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 3401 (3) Field Methods
Skill development prepares students to conduct qualitative sociological research. Emphasizes ethnographic techniques, including intensive interviewing, direct observation, coding, participant observation, and report writing. Students conceive and execute a field research project with data collection, analysis, and a report.
Requisites: Requires a prerequisite course of SOCY 3001 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 4000 (3) Gender, Genocide and Mass Trauma
Studies the persistence of genocide and the effects of mass trauma on women and girls. Within the framework of political and social catastrophe, examines cataclysmic world events and the traumatic consequences for women of religious persecution, colonialism, slavery and the genocides of the 20th and 21st centuries.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4010
Recommended: Prerequisite SOCY 1016 or WGST 1016 or WGST 2000 or SOCY 3314 or WGST 3314.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sex and Gender

SOCY 4002 (3) Sociology of Aging
Studies present and future roles of the aged in the family, the community, and the larger society. Considers economic, political, and health consequences of various retirement systems.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Recommended: Prerequisite SOCY 3001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue

SOCY 4004 (3) Advanced Topics in Criminology
Variety of courses in criminology. See current departmental announcements for specific content.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 1001 or SOCY 1004 or SOCY 2044.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 4007 (3) Global Human Ecology
Examines global environmental issues using sociological perspectives. A variety of critical contemporary challenges are explored that link social and ecological processes. These include the social dimensions of climate change, inequitable distribution of pollution, the environmental aspects of population growth, and resource shortages. Policies and strategies for change are explored.
Equivalent - Duplicate Degree Credit Not Granted: SEWL 2000
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Environment and Society

SOCY 4014 (3) Criminology
Examines the scientific study of types of criminal behavior and explanations for criminal behavior, with special attention to social factors affecting criminal behavior.
Requisites: Requires a prerequisite course of SOCY 1001 or SOCY 1004 or SOCY 2044 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 4016 (3) Sex, Gender and Society 2
Studies status and power differences between the sexes at individual, group, and societal levels. Examines empirically established sex differences, and reviews biological, psychological, and sociological explanations for gender differences.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4016
Requisites: Requires a prerequisite course of SOCY 1016 or WGST 1016 or WGST 2000 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sex and Gender

SOCY 4017 (3) Animals and Society
Examines the role of non-human animals in human society. Investigates the social construction of the human/animal boundary. Challenges ideas that animals are neither thinking nor feeling. Examines the many ways humans rely on animals. Considers the link between animal cruelty and other violence. Explores the moral status of animals.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Environment and Society

SOCY 4018 (3) Sport in Society
Investigates the world of sport via the social structures and processes that underlie this ubiquitous and much-pursued area of social life. Elucidates social dimensions of sport by highlighting and debating different theoretical and methodological dimensions of sociology of sport research. Examines demographics of sport, including gender, race, and sexual orientation, as well as inequalities within sport, along with the politics, economics, globalization, and commodification of sport.
Recommended: Prerequisites SOCY 1001 and SOCY 3001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

SOCY 4024 (3) Juvenile Justice and Delinquency
Examines the history, incidence and prevalence of delinquent behavior among youth.
Requisites: Requires a prerequisite course of SOCY 1001 or SOCY 1004 or SOCY 2044 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 4027 (3) Inequality, Democracy, and the Environment
Focuses on the structural forces affecting environmental degradation and environmental behavior by examining the relationships between (a) inequality and democratic decision making and (b) undemocratic decision making; U.S. and corporate food and energy policy; and global environmental degradation. Focuses on the role that global inequality plays in fostering environmental degradation.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 4027
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Environment and Society

SOCY 4030 (3) Sociology of Climate Change
Examines the human drivers and causes of climate change, the health and security risks it creates and the efforts of societies to mitigate and adapt to its effects.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 4030
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Environment and Society

SOCY 4031 (3) Social Psychology
Studies individuals in social context. Reviews philosophical and sociological treatments of the relation between the individual and society. More specific topics include the socialization process,theories of human development and personality formation, language acquisition, conformity, aggression, sex differences in personality and gender identity, and the relation between attitudes and overt behavior.
Requisites: Requires a prerequisite course of SOCY 3001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 4037 (3) Hazards, Disasters and Society
Explores the societal dimensions of hazards and disasters, emphasizing disaster theory and research, and key issues in the sociological study of disasters, social vulnerability, and the impacts of disasters in the U.S. and worldwide.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 5037
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Environment and Society

SOCY 4042 (3) Economic Sociology
Defines relationship between economy and society; sociological approach to study of economic activity and organization; difference from the theoretical and methodological assumptions orienting the discipline of economics; tackles these questions in two ways: studies foundations as established in works of Smith, Marx, Weber, Polanyi, and Schumpeter, and considers current research in economic sociology, focusing on concepts of markets, networks, and embeddedness.
Requisites: Requires a prerequisite course of SOCY 1001 (minimum grade D-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue

SOCY 4047 (3) Topics in Environment and Society
Variety of courses taught by visiting and regular faculty. See current departmental announcements for specific content.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Environment and Society

SOCY 4052 (3) Social Inequalities in Health
Focuses on social inequalities in health in both U.S. and international contexts. Reviews the link between health status and various types of social statuses, including but not limited to socioeconomic status, gender, race and ethnicity. Explanations for the relationships between these factors and various health outcomes are discussed. Focuses on multiple levels of analysis, from the physician-patient interactions to health care systems and social policies. Students have the opportunity to develop their own specific research interests in this field.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Population and Health Issue

SOCY 4060 (2) Caring for Others
Enables teachers to earn credit for the MOOC Caring for Society. This 2 credit course is an abbreviated version of the 3 credit course SOCY 4062 Suffering and Care in Society.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 4062
Grading Basis: Letter Grade

SOCY 4062 (3) Suffering and Care in Society
Examines how modern societies understand and respond to the reality of human suffering, how care systems are organized, and the experiences of professional caregivers.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 4060
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Population and Health Issue

SOCY 4063 (3) Risk and Resilience in Society
Explores the growing dangers of modern life and the ability of society and its members to recover from epidemics, terrorism, financial disasters, natural catastrophes and other harmful events. Special attention is given to the social (as opposed to the individual) sources of risk and resilience and their implications for the helping professions.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 4071 (3) Social Inequalities and Social Change
Provides a sociological perspective on social inequalities in the United States, such as those pertaining to social class, race, ethnicity, sex, gender, sexuality, and age. Examines current data of patterns and trends of such inequalities, reviews scholarship on their roots, and critically evaluates social change efforts to redress them.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 5071
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 4081 (1-3) Sociology of Education
Analyzes the school as a social organization. Among topics considered are power and control in the school; classroom interaction and its relation to learning and personality development in students; roles of educators; and reciprocal relations of school and community.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 4084 (3) Punishment, Law and Society
Places the current state of punishment in the U.S. in historical and cross national context. Examines key features of penal systems and key sociological theories about the relationship between punishment and society.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4084
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 1001 or SOCY 1004 or SOCY 2044.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 4086 (3) Family and Society
Studies the changing relationship between family and social structure. Examines variations in family organization and considers political, social, ideological, demographic, and economic determinants of family formation.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4086
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 3001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sex and Gender

SOCY 4104 (3) The Death Penalty in America
Examines the historical and international use of capital punishment, and then focuses on its use and status in the United States in this century, with a special look at Colorado. Critically examines the arguments for and against capital punishment. The inmates on death row and their families will be examined, as well as the needs of families of homicide victims.
Requisites: Requires a prerequisite course of SOCY 4014 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Deviance and Criminology

SOCY 4117 (3) Food and Society
Examines the food system along the lines of social justice and environmental sustainability. Investigates the institutional and cultural supports of major food system problems and contemporary efforts to address those problems, including the realms of food production, processing, distribution, marketing, policy, regulation, consumption, and activism.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Environment and Society

SOCY 4121 (3) Sociology of Religion
Examines complex interactions between religious and other social structures, such as the economy, government, and the family, and how globalization is affecting religious traditions across the globe. Includes discussion of how various religions are used or misused to justify terrorism and other acts of violence.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 3001.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 4131 (1-3) Advanced Topics in Sociology
Variety of advanced specialty courses taught by visiting and regular faculty designed for upper division sociology majors. See current departmental announcement for specific content.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of SOCY 1001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 4132 (3) Gender, Islam and Modernity
Examines gender in contemporary Muslim societies, with emphasis on Asia and the Middle East. Explores issues such as veiling, feminism, sexuality, family, women's participation in politics and social movements.
Requisites: Requires prerequisite course of SOCY 1001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

SOCY 4141 (3) The Social Psychology of Friendships
Studies friendships between individuals and groups, applying social psychological theories of interaction and group processes. Examines the effects of hierarchies of status and power and of norms and social pressure on friendships. Attempts to answer questions like how social categories like gender, race, and class affect friendships, what are the unwritten rules of behavior among friends in different situations, and what happens when we violate them.
Requisites: Requires a prerequisite course of SOCY 1001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Sociology

SOCY 4160 (3) Designing Social Innovations
One of the goals of higher education is to nurture innovative thinking and prepare professionals to solve society¿s most complex and pressing problems. Towards that end, this course reviews academic and practitioner literatures on the processes involved in designing social innovations.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 5160
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

SOCY 4161 (3) Executing Social Innovations
Introduces students to the skills and strategies involved in developing a business plan for a social business or an organization wanting to increase its social impact.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

SOCY 4441 (3) Senior Honors Seminar 1
Helps students design and initiate an honors thesis based on original sociological research.
Requisites: Requires prerequisite courses of SOCY 3001 and SOCY 3301 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sciences Honors Course
Departmental Category: General Sociology

SOCY 4451 (3) Senior Honors Seminar 2
Helps students complete an honors thesis based on original sociological research. Emphasizes analyzing data, writing research reports, and presenting results.
Requisites: Requires prerequisite courses of SOCY 3001 and SOCY 3201 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Arts Sciences Honors Course
Departmental Category: General Sociology

SOCY 4841 (1-8) Independent Study in Sociology
Upper-division variable credit. Instructor consent required.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of SOCY 3001 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Departmental Category: General Sociology

SOCY 4911 (1-3) Teaching Sociology
Students participate in a teaching seminar under the supervision of a faculty member. Includes pedagogical strategies for implementing concrete educational goals and encouraging higher levels of creativity and analysis in a large, lower-division class. Emphasizes mentorship and personal development. Instructor consent required.
Requisites: Requires a prerequisite course of SOCY 1001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Departmental Category: General Sociology

SOCY 4923 (3-6) Animals and Society Certificate Internship
Offers students applied learning opportunities to explore interests and clarify career goals associated with animal welfare. Students apply theory, acquire new skills, gain experience, and network with professionals. Internships integrate theory, knowledge, and practice through planned, supervised work experience.
Recommended: Prerequisite SOCY 4017 Animals and Society.
Grading Basis: Letter Grade

SOCY 4931 (1-6) Internship in Sociology
Provides an academically supervised opportunity for junior and senior sociology majors to work in public or private organizations to gain practical knowledge and experience, and allows students to make a connection between sociological theory and the "real world". Instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires a prerequisite course of SOCY 3001 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Sociology (SOCY) majors only.
Additional Information: Departmental Category: General Sociology

SOCY 4932 (3) Internship in Care, Health and Resilience
Provides an academically supervised opportunity for juniors and seniors interested in the helping professions to work in a job that provides them valuable hands-on experience, allows them to apply insights learned in their formal coursework and helps them make informed career choices upon graduation. This course cannot be applied to the SOCY major or minor requirements.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: Population and Health Issue

SOCY 4935 (3) Internship in Social Innovation
Provides an academically supervised opportunity for juniors and seniors interested in social innovation to work in a job that provides them valuable hands-on experience, allows them to apply insights learned in their formal coursework and helps them make informed career choices upon graduation. This course cannot be applied to the SOCY major or minor requirements.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors) with a minimum GPA of 2.0.

Sociology - Bachelor of Arts (BA)

Sociology is the scientific study of human social behavior. It considers how society influences individuals and how individuals influence society. Sociologists describe and explain the actions of persons, groups, organizations, classes and entire societies. They also design and evaluate social programs and public policy.

The study of sociology includes social theory, research methods, social stratification, race relations, social change, criminology, demography, gender roles, religion, social psychology and the environment.

Requirements

General Requirements

Students must complete the graduation requirements of the College of Arts and Sciences and the required courses listed below. A minimum of 36 credit hours (but not more than 45) in sociology is required for the degree. Of the 36 credit hours, 21 must be upper division with a minimum of 15 upper-division credit hours of coursework in the major taken on the Boulder campus.

All required major courses must be completed with a grade of C- or better. The cumulative GPA required in sociology courses is 2.00.

In addition to formal coursework, the degree offers opportunities for internships with various organizations, including social service agencies, the criminal justice system and nonprofit organizations. There is also the opportunity to design and complete an honors thesis based on the student's original research, as well as to work closely with a faculty member through the UROP program.

Required Courses and Credits

Code	Title	Credit Hours
SOCY 1001	Introduction to Sociology	3
SOCY 2061	Introduction to Social Statistics [1]	3
SOCY 3001	Classical Theory	3
SOCY 3201	Sociological Research Methods	3
Electives		
SOCY Lower or Upper-division electives		9
SOCY Upper-division electives [2]		15
Total Credit Hours		**36**

1. A non-SOCY statistics course (*C-* grade or higher) can be used to substitute for SOCY 2061, but then an additional 3 credit SOCY elective would need to be taken to reach the 36 required SOCY credits.
2. SOCY 4932 cannot be applied to the SOCY major or minor requirements.

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility (p. 75). The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in sociology, students should meet the following requirements:

- By the beginning of the second semester, declare the major.
- By the end of the fourth semester, complete SOCY 1001 and SOCY 3001 and 6 credit hours of sociology electives.
- By the end of the sixth semester, complete SOCY 2061 and SOCY 3201 and 15 credit hours of sociology electives (with a minimum of 9 of the 15 being upper-division credit hours).
- By the end of the eighth semester, complete 36 credit hours (but not more than 45), in sociology with at least 21 of those credit hours in upper-division courses.

Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Social Sciences area of the Gen Ed Distribution Requirement and one, or potentially, both categories of the Gen Ed Diversity Requirement, as well as the QRMS component of the Gen Ed Skills Requirement.

Year One

Fall Semester		**Credit Hours**
SOCY 1001	Introduction to Sociology	3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)		3
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Gen. Ed. Distribution course (example: Natural Sciences with Lab)		4
Elective/MAPS		3
	Credit Hours	**16**
Spring Semester		
SOCY Elective Lower or Upper-division		3
SOCY Elective Lower or Upper-division		3
Gen. Ed. Distribution (example: Arts and Humanities)		3
Elective/MAPS		3
Elective/MAPS		3
	Credit Hours	**15**

Year Two

Fall Semester		
SOCY 2061	Introduction to Social Statistics	3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/Global Perspective)		3
Elective		3
Elective		3
	Credit Hours	**15**
Spring Semester		
SOCY 3001	Classical Theory	3
SOCY Elective Lower or Upper-division		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective		3
Elective		3
	Credit Hours	**15**

Year Three

Fall Semester		
SOCY Elective Upper-Division		3
Gen. Ed. Skills course (example: Upper-division Written Communication)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Upper-Division Elective		3
Upper-Division Elective		3
	Credit Hours	**15**

Spring Semester		
SOCY Elective Upper-Division		3
Upper-Division Elective		3
Upper-Division Elective		3
Upper-Divisoin Elective		3
Elective		3
	Credit Hours	**15**
	Total Credit Hours	**121**

Learning Outcomes

By the completion of the program, students will be able to:

- Use sociological theories and evidence to understand, analyze and explain the causes and consequences of social stratification; ethnic, racial, religious, gender and other forms of differentiation and inequality; and variations in the composition and form of basic social institutions.
- Learn to use a variety of research methods to help describe and explain social phenomena.
- Employ critical thinking skills to evaluate data, sociological writings and other work.
- Locate and consult works relevant to a sociological investigation and write a sociological paper that makes an argument that is coherent, cogent and grounded in a review of relevant scholarship.
- Understand processes of social change and the opportunities for and barriers to them.

Sociology - Minor

Sociology is the scientific study of human social behavior. It considers how society influences individuals and how individuals influence society. Sociologists describe and explain the actions of persons, groups, organizations, classes and entire societies. They also design and evaluate social programs and public policy. The study of sociology includes social theory, research methods, social stratification, race relations, social change, criminology, demography, gender roles, religion, social psychology and the environment.

To declare a minor in sociology, students can visit Buff Portal and fill out a declaration form. For information on the sociology minor (or major), students can email michael.lynn@colorado.edu (Michael.Lynn@colorado.edu) from their CU email account.

Students must complete minimum of 18 credit hours in sociology courses, including at least 9 hours of upper-division coursework, and the required course listed below. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor. All courses applied to the minor must be completed with a grade of C- or better. The GPA for all SOCY coursework must equal 2.00 or higher.

Required Courses and Credit Hours

Code	Title	Credit Hours
SOCY 1001	Introduction to Sociology	3
SOCY Lower or Upper-division electives		6
SOCY Upper-division electives		9
Total Credit Hours		**18**

Note: SOCY 4932 cannot be applied to the SOCY major or minor requirements.

Animals and Society - Certificate

The animals and society certificate builds on a rapidly growing interdisciplinary field devoted to the critical examination and evaluation of the relationships between humans and nonhuman animals, whether historical or contemporary, factual, fictional or symbolic, beneficial or detrimental. The program requirements emphasize scholarship from the social sciences and humanities, but include elective options in the natural sciences. The interdisciplinary approach helps students explore the complexities of animals' lives, human-animal relationships, ethical and moral concerns about animals, representations of animals and humans, and the significance of animals in human evolution, history and civilization.

This certificate has an especially practical use for students in the social sciences and humanities who would like to pursue careers or interests related to wild or domesticated animals, but do not wish to become biologists, zoologists or veterinarians. Examples of career options include:

- development, management, policy work, research, outreach, marketing, lobbying or other work in animal protection or environmental organizations;
- administrative, fundraising, marketing or outreach jobs at animal shelters;
- humane or environmental education;
- jobs with government agencies, such as the U.S. Department of Agriculture, the Fisheries and Wildlife Service or others;
- animal-assisted therapy (with a master's degree in social work);
- wildlife rehabilitation;
- humane law enforcement.

Students might also consider pursuing graduate degrees in human–animal studies, anthrozoology or related fields.

For more information or to apply to the certificate in animals and society, contact Dr. Laurent Cilia (laurent.cilia@colorado.edu).

Requirements

The animals and society certificate requires 18 credits through three main areas. Students must complete 9 of the 18 credit hours at the upper-division level; a minimum of 12 credit hours must be taken on campus. If applicable, a maximum of 6 transfer credit hours from other institutions will be accepted. No more than 3 courses (or 9 credits), not including the internship, may be taken in one department.

- *Core Courses*: Students must take Animals and Society (SOCY 4017) and two of the classes listed, all of which examine the research in relevant areas of human–animal studies. Courses not taken to fulfill the core requirement may be taken as electives.
- *Electives*: Students must take either two or three classes (depending on whether they will complete an internship) from the list of those offered in the College of Arts and Sciences that provide essential perspectives on human–animal interactions and relationships.
- *Internship (or third elective course):* In either the second semester of the junior year or the senior year, students may opt to take a semester-long, 3-credit internship. Alternatively, students may enroll in an additional 3-credit course. The internships allow students to apply knowledge gained in courses to practical experience. The internship is not applicable to the sociology major or minor.

Required Courses and Credits

Code	Title	Credit Hours
Core Courses		
SOCY 4017	Animals and Society	3
Select two of the following: [1]		6
ANTH 3010	The Human Animal	
PHIL 4120	Philosophy and Animals	
FREN 4700	Encountering Animals: Contemporary Discourse and the Dialog of Species	
ENVS 4100	Special Topics in Environmental Studies (Dogs, Wolves and Human Evolution) [2]	
or ENVS 4135	Dogs, Wolves, and Humans	
ENVS 3007	Animal Ethics and Policy	
Electives [3]		**6**
Select at least 6 credits of elective course work; labs may result in 7 credits.		
ANTH 3000	Primate Behavior	
ANTH 4110	Human Evolutionary Biology	
EBIO 2040	Principles of Ecology	
EBIO 3040	Conservation Biology	
EBIO 3240	Animal Behavior

MCDB 1041		
SOCY 4117	Food and Society	
Internship		**3**
Total Credit Hours		**18**

1 Courses not taken to fulfill core requirements may be taken as electives.

2 ENVS 4135 (Dogs, Wolves and Humans) was taught as a topic under ENVS 4100 before the 2021-2022 academic year.

3 No more than 3 courses (or 9 credits), not including the internship, may be taken in one department.

Internship

Students can choose from the several animal welfare-related Boulder County internship sites. Students can also locate their own internship sites, with the director's approval. Students taking internships must work a minimum of 40 hours for each hour of academic credit. For 3 credits, this means 90 hours on site (i.e., 6 hours per week), 10 hours of classroom time and 20 hours of reading and writing assignments.

In collaboration with the program director and site supervisors, students will outline tasks and responsibilities that support their learning goals. Consequently, students who achieve their learning goals acquire experience and a set of transferable skills that prepare them for professional positions or further academic study.

Care, Health and Resilience - Certificate

The certificate in care, health and resilience prepares undergraduates for working in today's helping professions: nursing, medicine, counseling, teaching, community services, ministry, emergency management and related fields. It emphasizes the skills and practices expected of paid care providers, ranging from the ability to nurture clients' physical, emotional and social well-being to helping people thrive despite life-altering circumstances.

The program's curriculum:

- Provides students an opportunity to explore a variety of care-related occupations.
- Addresses the needs of suffering people and at-risk populations.
- Examines the ethical dilemmas posed by medical technologies and bureaucracies.
- Links students to Colorado's only academic health sciences center, the University of Colorado Anschutz Medical Campus and other local hospitals through its internship program.

Requirements

The certificate is open to degree seeking CU Boulder undergraduates in good standing from any declared major and non-degree seeking students. There is no GPA requirement for admission into the program. Completion of the certificate requires the completion of 18 credit hours (9 upper-division) of approved courses with grades of C- or better. No more than 6 credit hours from other institutions will be accepted.

Required Courses and Credit Hours

WGST 3400	Gender, Personality, and Culture	
Total Credit Hours		**18**

1 Given the difficulties of securing internships caused by the coronavirus, students are allowed to substitute one of the remaining core courses for the internship until further notice.

[2] SOCY 4932 cannot be applied to the SOCY major or minor requirements. For more information about the internship program, contact Dr. Glenda Walden (glenda.walden@colorado.edu).

Social Innovation - Certificate

The certificate in social innovation prepares students for working in fields whose primary mission is to improve the lives of society's most vulnerable and disadvantaged people. The program will teach students how to design and execute evidence-based strategies for advancing human welfare.

The program's curriculum will provide students with:

- A substantive understanding of social problems;
- A methodology for conceiving solutions to such complex problems;
- A broad set of skills needed to implement solutions in new or existing organizations; and
- The tools for critically evaluating the effectiveness and sustainability of solutions.

Requirements

Admission Requirements

Degree seeking and non-degree seeking CU Boulder undergraduate students in good standing from any discipline will be eligible to participate in the social innovation certificate program. There will not be a grade point average requirement to enroll in the program; however, students will be required to achieve a C- or better in all coursework that applies toward the certificate.

Required Courses and Credits

The certificate requires the completion a minimum of 18 credits, of which 9 credits must be at the upper-division level. A maximum of 6 semester credit hours from other institutions will be accepted.

Code	Title	Credit Hours
Required Courses

MCEN 4045	Mechanical Engineering Design Project 1
MCEN 4085	Mechanical Engineering Senior Design Project 2
MCEN 4228	Special Topics in Mechanical Engineering (Cookstove Assessment; Project-based Learning in Rural Schools)
Total Credit Hours	**18**

[1] Students may substitute SOCY 4935, subject to director approval.

Spanish and Portuguese

The Department of Spanish and Portuguese offers three major tracks and two minors. Language courses at the elementary and intermediate levels are also offered in Spanish, Portuguese and Catalan.

The department has identified the following as educational outcomes for the three tracks within the Spanish major.

The undergraduate degree in Spanish language and literature emphasizes knowledge and awareness of:

- The fundamental outlines of the history of literary and cultural expressions of the Spanish-speaking world.
- Major creative writers in both Spanish and Spanish American literature.
- Basic critical methodologies in the study of different genres ranging from fiction to poetry in a variety of textual forms, and from the written word to cinema, media and other visual arts.
- The cultural and historical contexts in which Spanish-speaking societies developed and continue to develop.

In addition, students completing the degree in Spanish language and literature are expected to acquire the ability and skills to:

- Read sophisticated Spanish texts at a level at which literary and cultural analyses can be performed.
- Write and speak Spanish sufficiently to participate in critical discussions and write critical essays.
- Analyze and interpret texts in terms of themes, characters, structure, style and overall textual strategies.
- Relate analysis and interpretations of different texts to one another.
- Communicate such interpretations competently in written form in Spanish.

The undergraduate degree in Spanish and Portuguese language and culture emphasizes knowledge and awareness of the same topics listed in the degree in Spanish language and literature, in addition specifies electives to focus on:

- The culture of the Portuguese-speaking world.
- Knowledge of the Portuguese language.

The undergraduate degree in Spanish for the professions emphasizes knowledge and awareness of:

- Several professional practices including business, health, media and sustainable development practices as applied to the Spanish-speaking world.
- Fundamental Professional Spanish terminology related to these areas.
- The cultural environment in which these professions are conducted in the Spanish-speaking world.
- Basic disciplinary practices according to the canons of each discipline.
- Best practices in cross-cultural communication.
- Best practices in the field of translation, interpretation and language services in the targeted professional areas.

In addition, students completing the degree in Spanish for the professions are expected to acquire the ability and skills to:

- Read and interpret in cultural and professional-related terms sophisticated Spanish texts concerning business, health, media and sustainable development practices.
- Write and speak Spanish sufficiently to communicate effectively on professional-related issues, be involved in critical discussions and write critical essays on the subject.
- Analyze a particular professional problem in order to place it in a relevant context and formulate an appropriate response.
- Adequately translate professional-related documents.

Course codes for these programs are SPAN and PORT.

Bachelor's Degree

- Spanish - Bachelor of Arts (BA) (p. 592)

Minors

- Portuguese - Minor (p. 595)
- Spanish - Minor (p. 596)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Courses

Portuguese

PORT 1010 (5) Beginning Portuguese 1
Provides students with basic vocabulary and fundamentals of grammar through practice in speaking, listening comprehension, reading and writing, based on the Communicative Approach. Introduces the cultures of the Portuguese speaking world, with a focus on Brazil.
Additional Information: Departmental Category: Portuguese

PORT 1020 (5) Beginning Portuguese 2
Provides students with basic vocabulary and fundamentals of grammar through practice in speaking, listening comprehension, reading and writing, based on the Communicative Approach. Introduces the cultures of the Portuguese speaking work, with a focus on Brazil. Continuation of PORT 1010. Department enforced prerequisite: PORT 1010 (minimum grade C-).
Additional Information: Departmental Category: Portuguese

PORT 2110 (3) Second-Year Portuguese 1
Involves practice in speaking, listening comprehension, reading and writing at an intermediate level. Explores relevant topics of the Brazilian culture through different media. Besides introducing grammar topics corresponding to the intermediate level of the Portuguese languages, it includes grammar review (PORT 1010 and PORT 1020) and extra work on vocabulary acquisition. Department enforced prerequisite: PORT 1020 (minimum grade C-).
Additional Information: GT Pathways: GT-AH4 - Arts Hum: Foreign Languages
Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: Portuguese

PORT 2120 (3) Second-Year Portuguese 2
Includes practice in speaking, listening comprehension, reading and writing at intermediate level, based on the Communicative Approach. Includes grammar and extra work on vocabulary acquisition, both explored through literary texts by renowned authors of the Portuguese speaking world, with a focus on Brazilian literature.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 2350 (3) Portuguese for Romance Language Speakers
Focusing on Brazilian Portuguese, this course constitutes an intensive introduction to Portuguese language for those who speak a Romance language. Comprehends basic vocabulary and fundamentals of grammar through practice in speaking, listening comprehension, reading and writing, based on the Communicative Approach. Uses different media to explore cultural aspects of the Portuguese speaking world.
Recommended: Requisite three semesters of college equivalent in any Romance language.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 2800 (3) Brazil: Past and Present
Discusses contemporary Brazil through the lenses of its literary, as well as socio-political movements. Students acquire a broader perspective of the country's current dynamics based on the formation of its national identity from 1500 to today. History serves as background to analyze literature and arts and critically understand Brazilian culture. Taught in English. Does not count toward Portuguese minor or Spanish and Portuguese major.
Equivalent - Duplicate Degree Credit Not Granted: AHUM 2800
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 3003 (3) Advanced Portuguese Language Skills
Consists of an advanced language course focused on current socio-environmental issues in Brazil. Involves reading academic texts in different areas of study, writing essays, watching documentaries, conducting class presentations and discussions, and studying grammar and vocabulary in the context of a more sophisticated written Portuguese.
Requisites: Requires prerequisite course of PORT 2120 or PORT 2350 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 3170 (3) Lisbon as a Global City: Cosmopolitanism, Diversity, and Innovation
Experience the city of Lisbon, Portugal, one of the oldest cities in the world. Known for its cosmopolitanism and cultural diversity since the Age of Discovery, Lisbon will be the center of our exploration of how multicultural heritage has created new social, economic and cultural dynamics that have molded the city as a singular destination to visit and to invest.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

PORT 3220 (3) Latin American Culture: Spanish America and Brazil
Examines literary, artistic, and philosophical currents in Spanish America and Portuguese America (Brazil), from pre-Columbian times to the present. Taught in Spanish.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 3220
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Recommended: Prerequisites PORT 2110 and PORT 2120.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 3230 (3) Transatlantic Relations in the Portuguese Speaking World
Examines cultural movements in Brazil, Portugal and Portuguese-speaking Africa, from the 15th century period of Portuguese expansion to the postcolonial present. Includes articles on culture as seen through literary, artistic, historical and sociological lenses. Taught in Portuguese.
Requisites: Requires prerequisite courses of PORT 2110 and PORT 2120 and PORT 2350 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 3270 (3) Socio-Environmental Dynamics in Brazil
Gives students the opportunity to immerse themselves in the language, culture and contemporary realities of rural Maranhao, Brazil. Explores some of the most pressing issues in Brazil today with a focus on sustainable development, environmental governance and social entrepreneurship.
Requisites: Requires a prerequisite course of PORT 2110 or PORT 2350 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 3800 (3) Indigenous Thought: Art, Literature and Political Engagement in Brazil
Discusses art, literature, and political engagement of Indigenous populations in contemporary Brazil. With a Decolonial viewpoint, this course analyses a series of works by Indigenous authors that underscores their culture, identity, and political expression. By focusing on the significance of the first-person testimonies, students will become more familiar with the diversity of languages and traditions that are otherwise homogenized by the ideological frameworks of those (non-indigenous) occupying a place and space of power. Taught in English.

PORT 4110 (3) Brazilian Literature
Focuses on Brazilian literature through the lenses of literary and cultural studies. May address fiction, poetry and/or the relationship between literature and film. In addition to reading literary texts, students read academic essays.
Equivalent - Duplicate Degree Credit Not Granted: PORT 5110
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires a prerequisite course of PORT 2120 or PORT 2350 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 4150 (3) Literature of the Portuguese Speaking World
Examines major works of Portuguese literature and/or Portuguese-speaking African literature through the lenses of cultural and literary studies. May address fiction, poetry, and/or the relationship between literature and cinema.
Equivalent - Duplicate Degree Credit Not Granted: PORT 5150
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of PORT 2120 or PORT 2350 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 4230 (3) Special Topics in Luso-Brazilian and/or African Literature
Designed to examine intensively particular topics or issues concerning the literatures of Portugal, Brazil and/or the African countries of Portuguese colonization. Taught in Spanish.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 4230
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of PORT 3230 and SPAN 3100 (all minimum grade C-).
Recommended: Prerequisites SPAN 3120 and an additional course above SPAN 3000.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Portuguese

PORT 4840 (1-3) Independent Study
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Portuguese

Spanish

SPAN 1000 (3) Cultural Difference through Hispanic Literature
For freshmen only. Organized around the general topic of cultural differences. Focuses on a related issue such as gender or history articulated in the literature of Spain, Latin America, and the Hispanic United States. Taught in English; students read selected literary texts in English from the various traditions. Does not count towards the Spanish major.
Requisites: Restricted to students with 0-26 credits (Freshmen) only.
Additional Information: GT Pathways: GT-AH2 - Arts Hum: Lit Humanities
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 1010 (5) Beginning Spanish 1
A beginning course that assumes no prior knowledge or experience with Spanish. A variety of language-teaching approaches are used to help students develop all four basic language skills: listening, speaking, reading and writing.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 1150
Additional Information: Departmental Category: Spanish

SPAN 1020 (5) Beginning Spanish 2
Continuation of SPAN 1010. Department enforced prerequisite: SPAN 1010 (min. grade C-).
Equivalent - Duplicate Degree Credit Not Granted: SPAN 1150
Additional Information: Departmental Category: Spanish

SPAN 1150 (5) Intensive First Year Spanish
An intensive beginning course covering the same material as SPAN 1010 and 1020.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 1010 or SPAN 1020
Additional Information: Departmental Category: Spanish

SPAN 2110 (3) Second-Year Spanish 1
Grammar review. Emphasizes reading, writing, and speaking skills. Department enforced prerequisite: SPAN 1020 (min. grade C-).
Equivalent - Duplicate Degree Credit Not Granted: SPAN 2150
Additional Information: GT Pathways: GT-AH4 - Arts Hum: Foreign Languages
Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Foreign Language
Departmental Category: Spanish

SPAN 2120 (3) Second-Year Spanish 2
Grammar review. Emphasizes reading, writing and speaking skills. Department enforced prerequisite: SPAN 2110 (min. grade C-).
Equivalent - Duplicate Degree Credit Not Granted: SPAN 2150
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 2130 (3) Spanish for Heritage Speakers in the United States I
Designed to further the linguistic skills and repertoires of students who grew up hearing and/or speaking Spanish at home and/or in their communities. This course aims to support students¿ bilingual and biliteracy development, build students¿ confidence in using their language skills across personal and professional Spanish-speaking settings in the United States and beyond, and recognize the value of their linguistic and cultural backgrounds. This is the first of a two-course sequence.
Requisites: Requires prerequisite of SPAN 1020.
Recommended: Prerequisites Students must have experience in a Spanish-speaking or bilingual household, community, or environment (Spanish-speaking family members, dual immersion, extended stay in a Spanish-speaking country); and Students must score between 23-27 on the Placement Exam in Canvas.

SPAN 2140 (3) Spanish for Heritage Speakers in the United States II
Designed to further the linguistic skills and repertoires of students who grew up hearing and/or speaking Spanish at home and/or in their communities. This course aims to further students¿ bilingual and biliteracy skills developed in SPAN 2130 so that they may meet the demands of personal and professional Spanish-speaking settings locally and beyond, and recognize the value of their linguistic and cultural backgrounds. This is the second of a two-course sequence.
Requisites: Requires prerequisite of SPAN 1020.
Recommended: Prerequisites Students must have experience in a Spanish-speaking or bilingual household, community, or environment (Spanish-speaking family members, dual immersion, extended stay in a Spanish-speaking country); and Students must score at least a 28 on the Placement Exam in Canvas.

SPAN 2150 (5) Intensive Second-Year Spanish
Intensive review of grammar and other subjects covered in SPAN 2110 and SPAN 2120.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 2110 or SPAN 2120
Requisites: Requires prerequisite course of SPAN 1020 (minimum grade C-).
Additional Information: GT Pathways: GT-AH4 - Arts Hum: Foreign Languages
Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: Spanish

SPAN 2450 (3) Catalan for Spanish Speakers
Offers an intensive introduction to the Catalan language for those able to speak Spanish. By the end of the course students should be able to communicate well in all language-skills areas: listening comprehension, speaking, reading and writing. Students will also have gained a better understanding and appreciation of the singularity of Catalan.
Recommended: Prerequisite SPAN 3000 or placement or five semesters of college Spanish or department consent required.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3000 (5) Advanced Spanish Language Skills
Moves students beyond the intermediate level toward an advanced command of Spanish with a focus on communication appropriate for academic research and professional interactions. Course activities focus on solidifying and deepening interpretive, interpersonal and presentational communication skills through close exploration of authentic texts and media and creation of both formal and informal writing and oral presentations. The course prepares students for continued study of literature, art, history, linguistics, culture, business, medical and other professional topics in Spanish. SPAN 3000 is one of the prerequisites for all upper-division Spanish courses except SPAN 3001.
Requisites: Requires prerequisite course of SPAN 2120 or SPAN 2150 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3001 (3) Spanish Conversation
Emphasizes vocabulary acquisition and speaking fluency. This is an intermediate-level course intended for those who are learning Spanish as a second-language. Native speakers of Spanish who have pursued formal education in a Spanish speaking country will not be admitted to the course. Heritage speakers of Spanish (native speakers who have pursued formal education in a non-Spanish speaking setting) as well as students from bi-lingual K-12 programs must meet with the coordinator to determine appropriate class level. This is a 5th semester course offered at the same level as SPAN 3000. It is not part of a sequence and it does not serve as a prerequisite for any other course. This course does not count toward the Spanish major or minor.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 3002
Requisites: Requires prerequisite course of SPAN 2120 or SPAN 2150 (minimum grade C-).
Additional Information: Departmental Category: Spanish

SPAN 3002 (3) Advanced Spanish Conversation
Focuses on refining fluency in both informal and formal discourse through group discussions, class work and individual and group presentations in order to prepare students for communication in professional settings. To that end, the materials used in the course will emphasize themes and problems relevant to the contemporary Hispanic world. This course is designed for Spanish majors, minors and students seeking state certification as instructors of Spanish.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 3001
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3010 (3) Advanced Rhetoric and Composition
Designed to refine expository and argumentative writing in Spanish, this course will center around four main areas of study: culture, linguistics, sociopolitical and economic reality, and literature and criticism. A multi-draft process-based approach will guide the writing and revision of essays. Additionally, there will be a focus on grammar and lexical issues that are the most challenging for students at the third-year level.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Written Communication-Upper
Departmental Category: Spanish

SPAN 3030 (3) Professional Spanish for Business 1
Develops advanced Spanish-language skills, trans-cultural knowledge, and regional, historical, and sociocultural understanding in order to expand the critical apparatus necessary for pursuing business-related professions in the Spanish-speaking world. Includes the study of essential business terminology and documents.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3040 (3) Professional Spanish for Business 2
Complements SPAN 3030 with a focus on different business topics and countries. Emphasizes interpreting and elementary translation. Attention is given to the writing of resumes and application letters, as well s the entire job search process.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3050 (3) Spanish Phonology and Phonetics
Designed to teach some of the methods, techniques, and tools of descriptive linguistics as they apply to articulatory phonetics. Students analyze important contrasts between sounds of Spanish and English bymeans of phonetic transcription.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Spanish

SPAN 3060 (3) Spanish for Careers in Environmental Studies and Sustainable Development
Provides advanced Spanish language competency and transcultural knowledge of issues pertaining to the environment, energy and sustainable development in the Spanish-speaking world. Students will develop a critical apparatus for analyzing, reading, listening, speaking and writing about the social, cultural and economic parameters of these countries and the U.S.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3070 (3) Spanish 21st Century Media Professions
Develops advanced Spanish language skills, trans-cultural knowledge and regional and historical understanding necessary for using Spanish in media related professions. Examines the production, representations and cultural meaning of Hispanic and Latino media within the United States and globally, drawing on films, videos and readings in political economy, cultural studies, history and sociology. Students create five media products in Spanish.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3080 (3) Spanish Health Professions
Develops advanced Spanish language competency and trans-cultural knowledge and skills for health related contexts both in the United States and abroad in order to develop a critical apparatus for analyzing, reading, listening, speaking and writing about health and understanding health fields in historical and sociocultural contexts of the Spanish speaking world.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3100 (3) Literary and Cultural Analysis in Spanish
Fosters critical thinking and the ability to discuss texts from a historical, sociological, ideological and formalistic viewpoint. Analyzes literary and cultural expressions from Latin America, Spain and the US Latino traditions in different genres, ranging from fiction to poetry, and media from the written word to cinema and other visual arts.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3120 (3) Advanced Spanish Grammar
Develops a deeper understanding of grammatical features of Spanish. Advancement of Spanish language skills and development of metalinguistic awareness is achieved through examination of grammar usage in both texts and spontaneous speech productions within communities.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3150 (3) Linguistic Analysis of Spanish
Introduces students to fundamental areas of linguistic analysis with special attention paid to Spanish (and Portuguese). The structural systems of language will be introduced (principles of sound patterns, word formation, meaning, and sentence structure). Different types of language variation will be discussed (historical, social, regional).
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Spanish

SPAN 3200 (3) Spanish Culture
Examines historical bases of modern Spain's cultural and political currents. Department enforced prerequisite: SPAN 3000.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3215 (3) Urban History and Culture in the Spanish-Speaking World
Understanding the complex history, social fabric, material life and cultural diversity of Latin American and Iberian cities is the goal of this course, which in its iterations will be devoted to analyzing and discussing different urban centers on either side of the Atlantic Ocean. Materials from a wide variety of media and genres such as literature, visual arts, historiography, and film, will be used. Taught in Spanish.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3220 (3) Latin American Culture: Spanish America and Brazil
Examines literary, artistic, and philosophical currents in Spanish America and Portuguese America (Brazil), from pre-Columbian times to the present.
Equivalent - Duplicate Degree Credit Not Granted: PORT 3220
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3230 (3) Discovering Barcelona: Culture and Heritage
Presents more than 2,000 years of Barcelona's cultural heritage in the city of Barcelona from the Romans to the present. Students read works by locals and foreign authors to understand how the city has been a hub of the European and Mediterranean cultures for centuries. A faculty sponsored Global Seminar to Barcelona, Spain, offered through the Study Abroad Program.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3240 (3) Catalan Culture 1: Nation and Art
Introduces students to the literary, artistic and historical currents of Catalonia, an economically vibrant area of the Iberian Peninsula with 10 million people, its capital Barcelona, and a distinct culture and language. Examines national identity and major works from renowned Catalan artists, spanning architecture, painting and literature, like Dali, Gaudi, or Miro. Department enforced prerequisite: SPAN 3000.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3250 (3) Catalan Culture 2: Contemporary Trends and Barcelona
Introduces students to the contemporary social and cultural trends of Catalonia, primarily in its capital of Barcelona. Examines current developments in fields such as theatre, art, fashion, cooking, urban design and/or architecture.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3260 (3) Late 19th and 20th Century Argentine Narrative
Considers a series of late 19th and 20th century canonical works from several genres (poetry, short story, essay, and the novel). Students will acquire a specific knowledge of late 19th and 20th century Argentine literature, and its relationship to specific social actors and specific historical processes. A faculty-sponsored Global Seminar to Rosario, Argentina, offered through the Study Abroad Program.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3270 (3) Barcelona: Understanding Local and Immigrant Cultures
Explores the history of Barcelona from an interdisciplinary, European perspective that emphasizes the city's cultural diversity and pluralism. A range of historical, literary, artistic, and sociological texts will be examined. Taught in Spanish. Offered through the Study Abroad Program.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Spanish

SPAN 3280 (3) Introduction to Catalan Literature & Film
Introduces students to the rich and diverse literary and film traditions of Catalonia, an economically vibrant area of the Iberian Peninsula with 10 million people and a distinct culture and language. Taught in Spanish.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3290 (3) Argentine Culture and History in a Latin American Context
This course examines the historical trends in Latin America from 1880 to the present and compares and contrasts Argentina's unique cultural identity to the larger Latin American context. The course then considers how said history plays a role in the literary, artistic, philosophical and social currents (including identity issues related to race, ethnicity and gender) that shape contemporary Argentine culture.
Requisites: Requires prerequisite course of SPAN 3000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

SPAN 3310 (3) 20th Century Spanish Literature
Surveys leading writers of Spain from 1898 until the present.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3340 (3) 20th Century Spanish American Literature
Introduces contemporary Spanish American literature.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3700 (3) Selected Readings: Spanish Literature in Translation
Introduces selected Spanish literature masterpieces. Taught in English. Does not count toward requirements for Spanish major or minor.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3800 (3) Selected Readings: Latin American Literature in Translation
Introduces selected Latin American (Spanish and Portuguese) literature masterpieces. Taught in English. Does not count toward requirements for the Spanish major or minor.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 3900 (3) Cosmos Latinos: Hispanic Science Fiction and New Worlds
Examines how Hispanic science fiction (from both Spain and Latin America) in literature and film portrays and addresses topics such as technological development, the exploration (and exploitation) of space, life in on other planets, alternative paradigms of modernity, and the cultural and social landscape of technologically saturated societies. Course taught in English. Does not count towards the requirements for the Spanish major or minor.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

SPAN 4060 (3) Problems of Translation for Professions in Spanish 1
Develops skills in English-Spanish and Spanish-English translation and interpretation.
Requisites: Requires a prerequisite course of SPAN 3000 and SPAN 3010 or SPAN 3030 or SPAN 3040 or SPAN 3060 or SPAN 3070 or SPAN 3080 or SPAN 3120 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4070 (3) Problems of Translation for Professions in Spanish 2
Presents documents from different professional areas (business, health, media and environmental studies and sustainable development) which are studied, prepared, translated and discussed in context in order to enable students to perform successfully in real translation situations.
Requisites: Requires a prerequisite course of SPAN 3000 and SPAN 3010 or SPAN 3030 or SPAN 3040 or SPAN 3060 or SPAN 3070 or SPAN 3080 or SPAN 3120 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4110 (3) Hispanic Women Writers
Discusses the image of women in Spanish literature through the centuries using works by representative female writers.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4120 (3) Literature and Cinema in Spain and Latin America
Studies film and fiction in different periods and about main topics of the Hispanic world. It will provide a historical and cultural overview, introduce students to film theory, narrative theory and the vocabulary associated with both, and integrate critical texts about all the material studied. Topics may vary each semester. This course will be taught entirely in Spanish.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4130 (3) The Power of Storytelling: Oral, Textual and Digital Narratives
Examines the ways in which oral, textual and digital narratives have shaped, and continue to shape, our lives and the different communities we inhabit. Students consider stories from the Hispanic tradition produced in a variety of historical settings and across different media.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4150 (3) Major Works and Trends in Literature and Culture in Spain Up to 1700
Examines major works and trends in literature, visual arts and/or other cultural expressions of Spain from its origins to the end of the Baroque period,
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4160 (3) Major Works and Trends in Literature and Culture in Spain: 1700-Present
Examines major works and trends in literature, visual arts and/or other cultural expressions of Spain from 1700 to the present day.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4170 (3) Major Works/Trends in Literature and Culture in Latin America Up to the 19th Century
Examines major works and trends in literature, visual arts and/or other cultural expressions of Latin America from the colonial period to the end of the 19th century.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4180 (3) Major Works and Trends in Literature and Culture in Latin America: 1900-Present
Examines major works of literature, visual arts and/or other cultural expressions of Latin America from the beginning of the 20th century to the present day.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4215 (3) Spanish in the United States
Describes the linguistic characteristics of U.S. Spanish, Spanish-English bilingualism and direct contact, including the study of borrowing, code switching, phonological and grammatical convergence, leveling, accommodation and attrition, among other linguistic phenomena. Discusses the relationships between language and identity, as well as the role of Spanish in U.S. education, media and social institutions.
Requisites: Requires a prerequisite course of SPAN 3000 or SPAN 3010 or SPAN 3050 or SPAN 3120 or SPAN 3150 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4220 (3) Special Topics in Spanish and/or Spanish American Literature
Examines intensively particular topics or issues concerning Spanish and/or Spanish American literature selected by the instructor.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4230 (3) Special Topics in Luso-Brazilian and/or African Literature
Designed to examine intensively particular topics or issues concerning the literatures of Portugal, Brazil and/or the African countries of Portuguese colonization. Taught in Spanish.
Equivalent - Duplicate Degree Credit Not Granted: PORT 4230
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of PORT 3230 and SPAN 3100 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4430 (3) Special Topics in Hispanic Linguistics
Examines intensively particular topics or issues concerning Hispanic linguistics selected by the instructor.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires a prerequisite course of SPAN 3000 or SPAN 3010 or SPAN 3050 or SPAN 3120 or SPAN 3150 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Spanish

SPAN 4450 (3) Introduction to Hispanic Linguistics
Introduces students to the main areas of inquiry within the field of Hispanic linguistics. Topics to be covered include speech and language, phonetics and phonology, morphology and syntax, semantics, linguistic change and variation and Spanish spoken in the United States.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 5450
Requisites: Requires a prerequisite course of SPAN 3000 or SPAN 3010 or SPAN 3050 or SPAN 3120 or SPAN 3150 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Spanish

SPAN 4620 (3) Cervantes
Works of Cervantes.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4650 (3) Methods of Teaching Spanish
Familiarizes students with second-language acquisition theories and current methodology and techniques in foreign-language teaching. The opportunities to observe Spanish classes, teach mini-lessons and perform volunteer work 2 hours a week in a local school or language program provide students with real-world teaching experience.
Equivalent - Duplicate Degree Credit Not Granted: SPAN 5650
Requisites: Requires a prerequisite course of SPAN 3000 and SPAN 3010 and SPAN 3002 or SPAN 3030 or SPAN 3040 or SPAN 3050 or SPAN 3150 or SPAN 3200 or SPAN 3220 or SPAN 3240 or SPAN 3250 or SPAN 3280 or SPAN 3310 or SPAN 3340 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Spanish

SPAN 4660 (6) High School Spanish Teaching
Part of supervised secondary school teaching required for state certification to teach Spanish. These hours do not count toward student hours in the major nor in the total departmental hours allowed.
Requisites: Requires prerequisite course of SPAN 4650 or SPAN 5650 (minimum grade D-).
Additional Information: Departmental Category: Spanish

SPAN 4840 (1-3) Independent Study
Departmental approval required.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Spanish

SPAN 4930 (1-4) Languages Internship for Professions
Participants interested in public service or management-oriented careers in government or business are able to work as interns in public sector agencies or in private industry, on campus, or abroad.
Requisites: Requires prerequisite course of SPAN 3100 (minimum grade C-).
Recommended: Prerequisites SPAN 3200 and an additional course above SPAN 3000.
Additional Information: Departmental Category: Spanish

SPAN 4980 (1) Methods Language Learn/Pedagogy
Required, intensive mini-course for Teaching Assistants in Spanish and Portuguese. Provides teachers with the opportunity to learn about language-learning theory and pedagogy.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Spanish

SPAN 4990 (3) Spanish Honors Thesis
Recommended restriction: 18 hours of upper-division Spanish, 3.00 GPA overall, and 3.50 GPA in Spanish.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite 18 hours of upper-division Spanish, 3.00 GPA overall, and 3.50 GPA in Spanish.
Additional Information: Arts Sciences Honors Course
Departmental Category: Spanish

Spanish - Bachelor of Arts (BA)

Program Tracks

The Department of Spanish and Portuguese offers a Bachelor of Arts in Spanish with three program tracks.

Spanish Language and Literature Track

This track emphasizes knowledge and awareness of:

- The fundamental outlines of the history of Peninsular literature and of Latin American literature.
- The major creative writers in both Peninsular and Latin American literature.
- Basic critical methodologies in the study of poetry, drama, narrative fiction, nonfiction and cinema.
- The cultural and historical contexts in which particular traditions develop.

The program focuses on critical thinking and communication skills (written and oral) and their application in today's real-world global setting. Our internationally recognized professors and instructors integrate their research with their teaching in a fruitful manner. The degree supports an active secondary teaching certification program, which prepares future Spanish instructors for the growing demand for secondary Spanish teachers. Catalan language courses are also offered to broaden students' linguistic spectrum. Advanced students, particularly honor's program students, are invited to begin their MA work in our program by taking graduate seminars during their senior year.

Spanish and Portuguese Language and Culture Track

This track focuses on the literature and culture of Spanish-speaking and Lusophone countries, guiding students through readings on the history of Spain, Portugal, Brazil and Latin America. Along with major authors and literary movements of the Spanish and Portuguese-speaking worlds, students read a variety of complex texts across academic disciplines.

The linguistic and cultural mastery of Spanish and Portuguese is key in opening endless possibilities to the European Union (Portugal and Spain), as well as Brazil and the whole of Latin America. Through this bilingual combination, students will gain the tools needed to conduct business in the Western Hemisphere in today's competitive global market.

Spanish for the Professions Track

This interdisciplinary track offers exciting career possibilities, both in government and private industry, at home and abroad. Languages and cultural understanding are essential in business, engineering, commerce, civil service, law, library science, media, science, economics, health and social sciences.

The degree emphasizes knowledge and awareness of the cultural environment in which professions are practiced in the Spanish-speaking world. Students develop an advanced level of language proficiency and trans-cultural competence in addition to taking courses in a professional field of their choice.

Education Abroad

The department strongly recommends that all majors include a period of study in a Spanish or Portuguese-speaking country in the course of their undergraduate education. Please visit Education Abroad (https://abroad.colorado.edu/) for more information.

Although the 4-year graduation guarantee does not apply to those who study abroad, it is still entirely possible to go abroad for a semester or a year and graduate in 4 years. The Department of Spanish and Portuguese sponsors Summer Global Seminars in Argentina (https://abroad.colorado.edu/?FuseAction=Programs.ViewProgramAngular&id=740), Portugal (https://abroad.colorado.edu/?FuseAction=Programs.ViewProgramAngular&id=10349) and Spain (https://abroad.colorado.edu/?FuseAction=Programs.ViewProgramAngular&id=766).

Concurrent Degree Program

BA/MSIB in Spanish

This program is designed for students who wish to combine their BA in Spanish for the Professions with a one-year MS in international business (MSIB) from the University of Colorado Denver. Students seeking this option should complete the Leeds Business Minor.

Students apply for the MSIB program during their third year by declaring their intention to the Spanish for the Professions faculty director, submitting the standard MSIB application forms, and completing admissions requirements, which include the GMAT (Graduate Management Admissions Test). Students are notified of acceptance to the program before the start of their fourth year. Students must have at least a 3.00 GPA to be considered for admission.

Requirements

General Requirements

The following requirements apply to all program tracks.

The College of Arts and Sciences does not allow more than 45 credit hours in any one discipline to be counted toward the 120 credit hours required for a BA degree. This rule does not mean that a student may not take more than 45 credit hours in Spanish, but rather that one must have at least 75 credit hours in courses other than Spanish. PORT 2120 will be accepted as partially fulfilling upper-division courses in other foreign languages.

To fulfill the requirements for any major track, students must complete at least 12 upper-division credits at CU Boulder. For the Spanish Language and Literature track and the Spanish and Portuguese Language and Culture track, 9 of the 12 credits must be from the major works/trends courses listed (SPAN 4150 or SPAN 4160, and SPAN 4170 or SPAN 4180) and SPAN 3100. For the Spanish for the Professions track, students must take at least two of the 3000-level profession courses and SPAN 4070 and SPAN 3100 on the Boulder campus.

No more than 3 independent study credit hours may count toward the major. No grade lower than a C- will be counted in the major requirements. The ancillary GPA (made up of the combined grades from area courses) must be at least 2.00.

Please note that students seeking Colorado State Teaching Certification should complete the Spanish Language and Literature Track. Students seeking teaching certification in Spanish must take certain classes. For full requirements, please contact the advisor for the Secondary Spanish Teaching Certificate program in the department.

Students must complete the general requirements of the College of Arts and Sciences and the required courses. All Spanish majors are encouraged to consult with the Spanish and Portuguese Department professional advisor (http://www.colorado.edu/mycuhub/) before they register each semester.

Transfer credit must be approved by the Associate Chair for Undergraduate Studies. Study Abroad courses must be approved; contact the Spanish and Portuguese Department Professional Advisor (http://www.colorado.edu/mycuhub/) to begin the process.

Program Track Requirements

Spanish Language and Literatures Track

Code	Title	Credit Hours
Required Courses		
SPAN 3000	Advanced Spanish Language Skills	5
SPAN 3100	Literary and Cultural Analysis in Spanish	3
SPAN 3010	Advanced Rhetoric and Composition	3
or SPAN 3120	Advanced Spanish Grammar	
Hispanic Linguistics Requirement		**3**
SPAN 3050	Spanish Phonology and Phonetics	
or SPAN 3150	Linguistic Analysis of Spanish	
or SPAN 4430	Special Topics in Hispanic Linguistics	
or SPAN 4450	Introduction to Hispanic Linguistics	
4000-level Spanish Language and Literature courses		**9**
Spanish Literature and Culture		
SPAN 4150	Major Works and Trends in Literature and Culture in Spain Up to 1700	
or SPAN 4160	Major Works and Trends in Literature and Culture in Spain: 1700-Present	
Latin American Literature and Culture		
SPAN 4170	Major Works/Trends in Literature and Culture in Latin America Up to the 19th Century	
or SPAN 4180	Major Works and Trends in Literature and Culture in Latin America: 1900-Present	
Additional 4000-level Spanish Literature course		
Choose one of the following courses not used to fulfill a requirement above:		
SPAN 4110	Hispanic Women Writers	
or SPAN 4150	Major Works and Trends in Literature and Culture in Spain Up to 1700	
or SPAN 4160	Major Works and Trends in Literature and Culture in Spain: 1700-Present	
or SPAN 4170	Major Works/Trends in Literature and Culture in Latin America Up to the 19th Century	
or SPAN 4180	Major Works and Trends in Literature and Culture in Latin America: 1900-Present	
or SPAN 4220	Special Topics in Spanish and/or Spanish American Literature	
or SPAN 4620	Cervantes	
Upper-Division Spanish Electives		**9**
9 credit hours of upper-division SPAN electives. 3 credit hours must be 4000-level. Can include courses not used to fulfill an above requirement.		
Total Credit Hours		**32**

Spanish and Portuguese Languages and Culture Track

Note that prerequisites for the program include sufficient Spanish knowledge to be admitted to 3000-level courses and sufficient knowledge of Portuguese to be admitted to 2000-level courses.

Code	Title	Credit Hours
Required Courses		
PORT 2110	Second-Year Portuguese 1	3
or PORT 2350	Portuguese for Romance Language Speakers	
PORT 2120	Second-Year Portuguese 2 (or SPAN/PORT upper-division) [1]	3
or PORT 2800	Brazil: Past and Present	
PORT 3003	Advanced Portuguese Language Skills [2]	3
or PORT 3170	Lisbon as a Global City: Cosmopolitanism, Diversity, and Innovation	
or PORT 3220	Latin American Culture: Spanish America and Brazil	
or PORT 3230	Transatlantic Relations in the Portuguese Speaking World	
4000-level PORT course [2]		3
Required Spanish Language and Literature Courses		
SPAN 3000	Advanced Spanish Language Skills	5
SPAN 3100	Literary and Cultural Analysis in Spanish	3
SPAN 3010	Advanced Rhetoric and Composition	3

or SPAN 3120	Advanced Spanish Grammar	
Hispanic Linguistic Requirement		**3**
Choose one of the following:		
SPAN 3050	Spanish Phonology and Phonetics	
or SPAN 3150	Linguistic Analysis of Spanish	
or SPAN 4430	Special Topics in Hispanic Linguistics	
or SPAN 4450	Introduction to Hispanic Linguistics	
Spanish Literature and Culture Course		**3**
SPAN 4150	Major Works and Trends in Literature and Culture in Spain Up to 1700	
or SPAN 4160	Major Works and Trends in Literature and Culture in Spain: 1700-Present	
Latin American Literature and Culture Course		**3**
SPAN 4170	Major Works/Trends in Literature and Culture in Latin America Up to the 19th Century	
or SPAN 4180	Major Works and Trends in Literature and Culture in Latin America: 1900-Present	
SPAN or PORT Elective		**3**
Upper division (3000/4000 level) SPAN or PORT literature, culture and/or language.		
Total Credit Hours		**35**

1 Native speakers of Portuguese, and in general, all students whose Portuguese skills are beyond the PORT 2120 level, are not required to take Portuguese lower-division courses. However, students have to make up these credit hours by taking 6 hours of upper-division SPAN or PORT courses or any related courses outside the department. Related courses must be approved by the department.

2 Some 3000-level and 4000-level Portuguese (PORT) courses are repeatable for up to 6 credits each.

Spanish for the Professions Track

The department offers an interdisciplinary major in Spanish for the Professions, which includes the completion of 12 credits in a professional field, in a second major or in a second degree. It offers students numerous career possibilities, both in government and private industry at home and abroad. Those choosing this major are not able to enter the CU Boulder graduate program in Spanish without fulfilling the requirements in the language and literature major.

Prerequisites for the program include sufficient Spanish to be admitted to 3000-level courses and any pertinent prerequisites for the 12 credits in the professional field. SPAN 4070 must be taken at CU Boulder.

Code	Title	Credit Hours
Professional Spanish Courses [1]		**9**
Choose three of the following:		
SPAN 3030	Professional Spanish for Business 1	
SPAN 3060	Spanish for Careers in Environmental Studies and Sustainable Development	
SPAN 3070	Spanish 21st Century Media Professions	
SPAN 3080	Spanish Health Professions	
Required Courses		
SPAN 4060	Problems of Translation for Professions in Spanish 1	3
SPAN 4070	Problems of Translation for Professions in Spanish 2	3
Spanish Language Courses		
SPAN 3000	Advanced Spanish Language Skills	5
SPAN 3100	Literary and Cultural Analysis in Spanish	3
SPAN 3010	Advanced Rhetoric and Composition	3
or SPAN 3120	Advanced Spanish Grammar	
Upper-Division SPAN Elective		
One Upper Division course (SPAN 3000 or 4000 level)		3
One SPAN 4000-level course. SPAN 4930 is an option.		3
Non-SPAN Electives		**12**
Students are required to take 12 credit hours outside of Spanish in a certificate program, minor, second major or degree related to their professional interests. Students must fulfill the prerequisites for the relevant program. The Business Minor, or the Public Health Certificate, or the Technology, Arts and Media Certificate are recommended. Courses meeting this requirement must be approved by the faculty director of the major.		
Total Credit Hours		**44**

1 No substitutions permitted.

Recommended Four-Year Plan of Study

Through the required coursework for the major, students can complete all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement and potentially the Upper-division Written Communication component of the Gen Ed Skills Requirement.

Year One		
Fall Semester		**Credit Hours**
SPAN 1010	Beginning Spanish 1 (If needed, does not fulfill Spanish major course requirements)	5
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Gen. Ed. Distribution course (example: Natural Sciences with Lab)		4
Elective		3
	Credit Hours	**15**
Spring Semester		
SPAN 1020	Beginning Spanish 2 (If needed, does not fulfill Spanish major course requirements)	5
Gen. Ed. Skills course (example: QRMS)		3
Gen. Ed. Distribution course (example: Natural Sciences)		4
Elective		3
	Credit Hours	**15**
Year Two		
Fall Semester		
SPAN 2110	Second-Year Spanish 1 (If needed, does not fulfill Spanish major course requirements)	3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)		3

Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective		3
Elective		3
	Credit Hours	**15**
Spring Semester		
SPAN 2120	Second-Year Spanish 2 (If needed, does not fulfill Spanish major course requirements)	3
Related Fields course outside of Spanish (see degree audit for details and instructions)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective		3
Elective		3
	Credit Hours	**15**
Year Three		
Fall Semester		
SPAN 3000	Advanced Spanish Language Skills	5
Related Fields course outside of Spanish (See Degree Audit for details and instructions)		3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/US Perspective)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective		3
	Credit Hours	**17**
Spring Semester		
SPAN 3100	Literary and Cultural Analysis in Spanish	3
SPAN 3120	Advanced Spanish Grammar	3
SPAN 3010	Advanced Rhetoric and Composition (Also fulfills Gen. Ed. Skills course: Upper-division Written Communication)	3
Gen. Ed. Distribution course (example: Social Sciences) - Upper-Division		3
Upper-Division Elective		3
	Credit Hours	**15**
Year Four		
Fall Semester		
SPAN 3050 or SPAN 3150 or SPAN 4430 or SPAN 4450 or SPAN 4215	Spanish Phonology and Phonetics or Linguistic Analysis of Spanish or Special Topics in Hispanic Linguistics or Introduction to Hispanic Linguistics or Spanish in the United States	3
SPAN 4150 or SPAN 4160	Major Works and Trends in Literature and Culture in Spain Up to 1700 or Major Works and Trends in Literature and Culture in Spain: 1700-Present	3
SPAN Literature course		3
Gen. Ed. Distribution course (example: Social Sciences) - Upper-Division		3
Upper-Division Elective		3
	Credit Hours	**15**
Spring Semester		
SPAN 4170 or SPAN 4180	Major Works/Trends in Literature and Culture in Latin America Up to the 19th Century or Major Works and Trends in Literature and Culture in Latin America: 1900-Present	3
SPAN 4000 level elective		3
SPAN Upper-Division elective		3
Upper-Division Elective		3
Upper-Division Elective		3
	Credit Hours	**15**
	Total Credit Hours	**122**

Learning Outcomes

By the completion of the program, students will be able to:

- Communicate effectively and accurately in the target language, in all four skills (listening, speaking, reading and writing), using a range of informal and formal registers.
- Demonstrate proficiency in professional communication within the Spanish- and Portuguese-speaking worlds by applying cross-cultural understanding, critical thinking skills and accuracy in oral and written communication.
- Critically analyze literary and cultural productions from the Spanish- and Portuguese-speaking world by considering their historical and socio-political contexts.
- Apply critical thinking, problem-solving and interpersonal abilities, as well as other soft skills to academic, professional and real-world questions/challenges.
- Integrate research protocols, expectations and standards related to cultural studies, intercultural competency, linguistics and literary theory.

Portuguese - Minor

The Portuguese minor focuses on Brazilian Portuguese and provides the students with knowledge of the Portuguese-speaking world and the relations between the different national contexts in which the language is spoken. The courses are designed to cover a variety of topics that are relevant to Brazil and other Portuguese-speaking countries. Students acquire a wider comprehension of Portuguese in a multi-cultural context.

The topics of the courses range from language to literature; from academic writing to performing arts; from sixteenth century letters on colonial issues to contemporary issues of biodiversity; from documentary films to soap operas; from nineteenth century Brazilian opera to twenty-first century *funk ostentação*.

The faculty in the Portuguese program incorporate their international research into their teaching. Their innovative pedagogical approaches aim to contribute to students' cultural intelligence, in addition to language fluency.

Requirements

Declaration of a minor in Portuguese is open to any student enrolled at CU Boulder, regardless of college or school. To declare the Portuguese minor, make an appointment with the Spanish and Portuguese Department Professional Advisor (http://www.colorado.edu/mycuhub/).

The minor in Portuguese consists of 18 credit hours, at least twelve of which must be upper-division credit hours. A grade of C- or better is required for a course to apply to the requirements of the minor, and a cumulative GPA in all Portuguese courses of at least 2.0 is required for completion of the minor.

Transfer credit must be approved by the Associate Chair of Undergraduate Studies. A maximum of two courses may be taken abroad; this may be in addition to transfer credits. Study Abroad courses must be approved; contact the Spanish and Portuguese Department Professional Advisor (http://www.colorado.edu/mycuhub/) to begin the process.

Required Courses and Credit Hours

Code	Title	Credit Hours
Required Courses		
2000-level Portuguese courses		
Choose two of the following:		6
PORT 2110	Second-Year Portuguese 1	
or PORT 2350	Portuguese for Romance Language Speakers	
PORT 2120	Second-Year Portuguese 2	
PORT 2800	Brazil: Past and Present	
3000-level Portuguese courses		
Choose two of the following:		6
PORT 3003	Advanced Portuguese Language Skills	
PORT 3170	Lisbon as a Global City: Cosmopolitanism, Diversity, and Innovation	
PORT 3230	Transatlantic Relations in the Portuguese Speaking World	
PORT 3270	Socio-Environmental Dynamics in Brazil	
4000-level Portuguese courses		
Choose two of the following:		6
PORT 4110	Brazilian Literature	
PORT 4150	Literature of the Portuguese Speaking World	
PORT 4230	Special Topics in Luso-Brazilian and/or African Literature	
Total Credit Hours		**18**

Spanish - Minor

The minor in Spanish offered through the Department of Spanish and Portuguese will help students gain an understanding of the Spanish language, as well as a grasp of primary cultural concepts and practices, and current literary and cultural trends.

In a global economy and a competitive market environment, a Spanish minor adds value to an existing CU degree. Cultural and linguistic competence broaden a student's understanding of the nuances and complexities of today's world. Spanish, Portuguese and English are the most spoken languages in the Western Hemisphere.

Requirements

The minor in Spanish consists of 20 credit hours, including a total of 17 upper-division credit hours. A maximum of 9 credits, with no more than 6 upper-divsion credits, can be transferred from other U.S. institutions toward the minor. A maximum of 6 credits can be taken abroad; this may be in addition to transfer credits.

All coursework applied to the minor must be completed with a grade of C- or better (no pass/fail work may be applied). The GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher.

Transfer credit must be approved by the Associate Chair for Undergraduate Studies. A maximum of two courses may be taken abroad; this may be in addition to transfer credits. Study Abroad courses must be approved; contact the Spanish and Portuguese Department Professional Advisor (http://www.colorado.edu/mycuhub/) to begin the process.

Required Courses and Credit Hours

Code	Title	Credit Hours
Required Courses		
SPAN 2120	Second-Year Spanish 2 [1]	3
or SPAN 2140	Spanish for Heritage Speakers in the United States II	
or SPAN 2150	Intensive Second-Year Spanish	
SPAN 3000	Advanced Spanish Language Skills [2]	5
Electives		
Twelve upper-division credits from any course offered by the department and taught in Spanish [3]		12
Total Credit Hours		**20**

1. If students take SPAN 2150 instead of SPAN 2120, only 3 out of the 5 credits from SPAN 2150 will be counted toward the minor.
2. Students who test into SPAN 3000 (i.e., who do not need to take SPAN 2120) must take 15 upper-division elective credits instead of 12.
3. Courses below SPAN 2120 do not count toward the minor, nor does SPAN 3001. SPAN 3100 is not required for the minor, but it is a prerequisite for all 4000-level literature courses.

Speech, Language and Hearing Sciences

The undergraduate program in speech, language and hearing sciences (SLHS) introduces concepts basic to human communication and provides opportunities for students to acquire an understanding of normal and disordered speech, language and hearing processes. The curriculum for the undergraduate degree in SLHS provides a strong academic foundation for students interested in a wide variety of careers related to the fields of disabilities, healthcare and education. Additionally, it provides the appropriate undergraduate background for students interested in continuing onto graduate school in speech pathology, audiology and/or special education.

The undergraduate degree in speech, language and hearing sciences emphasizes knowledge of:

- The anatomy of the speech and hearing mechanisms, as well as the processes of speech production, transmission and reception.
- The development of language.

- Scientific methods used in investigating speech/language/learning and hearing processes.
- The etiologies, characteristics and treatments of speech, language, learning and hearing disorders.
- The role of the professional speech-language pathologist and audiologist, including the scientific traditions of the discipline and the ethical issues in providing service to individuals with communication disorders.

In addition, students completing the degree in speech, language and hearing sciences are expected to acquire the ability and skills to:

- Express themselves effectively both orally and in written scientific and clinical discipline-specific reports.
- Critically evaluate literature in the discipline.
- Analyze the acoustic output of the speech production process auditorily and/or instrumentally.

Course code for this program is SLHS.

Bachelor's Degree

- Speech, Language and Hearing Sciences - Bachelor of Arts (BA) (p. 599)
- Speech, Language and Hearing Sciences - Minor (p. 601)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Courses

SLHS 1010 (3) Disabilities in Contemporary American Society
Addresses the issue that 50 percent of all individuals experience disability in their lifetime. Introduces students to the social, cultural, psychological, economic, political, legal, and health-care issues related to society and individuals with disabilities.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Didactic: All-Department

SLHS 2000 (3) Introduction to Communication Disorders
Surveys communication disorders, including hearing impairments, learning disabilities, and speech-language disorders, as well as an introduction to basic speech and hearing science.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Didactic: All-Department

SLHS 2010 (3) Science of Human Communication
Discusses how human communication (the process by which a thought is transmitted from the brain of a speaker to the brain of a listener) involves a complex interaction of acoustics, anatomy, physiology, neurobiology, and psychology.
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
Departmental Category: Didactic: All-Department

SLHS 2305 (4) American Sign Language 1
Introduces basic sign vocabulary, grammatical structures of ASL, and the culture of deaf people. Classes are taught using ASL without the use of spoken English.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: American Sign Language

SLHS 2315 (4) American Sign Language 2
Develops more complex vocabulary and grammatical structures, and an understanding of deaf culture. Classes are taught using ASL without the use of spoken English.
Requisites: Requires a prerequisite course of SLHS 2305 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: American Sign Language

SLHS 2325 (4) American Sign Language 3
Continuation of SLHS 2315. Covers ASL literature, advanced grammatical structures, idiomatic expressions, and deaf culture.
Requisites: Requires a prerequisite course of SLHS 2315 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: American Sign Language

SLHS 2335 (4) American Sign Language 4
Builds intermediate-level production and comprehension skills in American Sign Language (ASL). Students will expand ASL vocabulary and will learn complex grammatical structures through conversation, narration, and ASL literature. Instruction will include the history and culture of Deaf communities as well as culturally appropriate behaviors.
Requisites: Requires a prerequisite course of SLHS 2325 (minimum grade C-).

SLHS 3000 (3) Deaf Studies
This course explores perspectives on human rights and social justice of Deaf people as a cultural and linguistic minority. It examines the humanity, cultural identity and historical factors that have impacted Deaf people¿s lives, both positively and negatively. Topics include the history of American Sign Language, multi-identities, technology, educational institutions, medical perspectives, art, media, and literature created by and/or related to Deaf individuals.

SLHS 3003 (3) Cognitive Science
Introduces cognitive science, drawing from psychology, philosophy, artificial intelligence, neuroscience, and linguistics. Studies the linguistic relativity hypothesis, consciousness, categorization, linguistic rules, the mind-body problem, nature versus nurture, conceptual structure and metaphor, logic/problem solving and judgment. Emphasizes the nature, implications and limitations of the computational model of mind.
Equivalent - Duplicate Degree Credit Not Granted: INFO 3702 and LING 3005 and PHIL 3310 and PSYC 3005 and CSCI 3702 and CSPB 3702
Recommended: Prerequisites two of the following CSCI 1300 or LING 2000 or PHIL 2440 or PSYC 2145.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Social Sciences

SLHS 3006 (3) Phonetics
Focuses on production of speech sounds, transcribing speech using the International Phonetic Alphabet, analyzing the acoustic properties of speech sounds, understanding how speech sounds vary depending on the context. Provides a foundation for understanding normal and atypical speech development, atypical speech problems and patterns, regional and foreign accents, and speech recognition by computers.
Requisites: Requires a prerequisite course of LING 2000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Didactic: Speech-Hearing Science

SLHS 3014 (3) Hearing Loss Epidemiology
Introduces students to basic epidemiological concepts related to hearing loss. Provides an overview of the hearing mechanism, assessment and identification of hearing loss, prevalence of hearing disorders, treatment and intervention. Noise pollution, aging and toxic agents are discussed. Focuses on risk factors for hearing impairment and comorbidities.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Didactic: Audiology

SLHS 3106 (3) Hearing Science
Focuses on the three main aspects of the hearing process: sounds in the environment (physical acoustics), sounds encoded within the auditory system (physiological acoustics) and perception of sound (psychological acoustics).
Requisites: Requires a prerequisite course of SLHS 2010 (minimum grade C-). Restricted to Speech, Language and Hearing Sciences (SLHS) undergraduate majors minors with a minimum of 27 credits (Sophomore), or SLHS master's students, or Audiology (AUDD) majors only
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Departmental Category: Didactic: Speech-Hearing Science

SLHS 3116 (3) Anatomy, Physiology, and Science of Speech
Provides a basic understanding of the structural organization (anatomy), function (physiology), and neural controls of the structures used to produce speech, swallowing, respiration, and related behaviors in humans.
Requisites: Requires a prerequisite course of SLHS 2010 (minimum grade C-).
Recommended: Prerequisite SLHS 3106.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Departmental Category: Didactic: Speech-Hearing Science

SLHS 4000 (3) Multicultural Aspects of Communication Differences and Disorders
Examines perceptions and attitudes regarding differences in communication as a function of cultural-linguistic diversity. Discusses implications of differing verbal and nonverbal communication styles of various cultural groups in terms of professional responsibilities.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: Didactic: All-Department

SLHS 4100 (1-3) Special Topics in Speech, Language, and Hearing Sciences
Studies selected topics in speech, language, hearing sciences, communication disorders, and other professional issues.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Didactic: All-Department

SLHS 4502 (3) Language Disorders Across the Lifespan
Provides students with an introductory understanding of the causes, characteristics, assessment and treatment of developmental and acquired language disorders in children and adults. Examines a variety of disorders including specific language impairment, learning disabilities, and language and cognitive disorders due to brain damage. Considers the challenge of identifying language disorders in children and adults from culturally and linguistically diverse backgrounds.
Requisites: Requires a prerequisite or corequisite course of SLHS 4560 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Didactic: Speech-Language Pathology

SLHS 4512 (3) Speech Disorders Across the Lifespan
Provides students with an introductory understanding of the causes, characteristics, assessment and treatment of speech disorders including those involving articulation, voice, resonance, and fluency. Examines a variety of disorders including stuttering, speech sound disorders, cleft lip and palate, vocal pathology, as well as dysarthria and apraxia due to stroke, trauma, and progressive neurological diseases.
Requisites: Requires a prerequisite course of SLHS 2010 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Didactic: Speech-Language Pathology

SLHS 4560 (3) Language Development
Covers the development of language in childhood and into adult life, emphasizing the role of environment and biological endowment in learning to communicate with words, sentences, and narratives.
Equivalent - Duplicate Degree Credit Not Granted: LING 4560 and PSYC 4560
Requisites: Restricted to Speech, Language and Hearing Sciences (SLHS) undergraduate majors and minors, or SLHS master's students, or Audiology (AUDD) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Didactic: All-Department

SLHS 4576 (3) Communication Neuroscience
Provides an introduction to neuroscience with an emphasis on the systems that support human communication including speech perception and production, language, memory and cognition. Topic areas will include auditory processing, language, memory and motor systems. Development of brain systems and structures will be explored, as well as neurologically based disorders. Neuroscientific methods surveyed will include MRI, fMRI, EEG, MEG, NIRS, lesion studies and electrophysiology.
Requisites: Requires a prerequisite course of SLHS 2010 or NRSC 2100 (both minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

SLHS 4704 (3) Audiological Evaluation
Studies basic principles and techniques of hearing evaluation, including pure-tone, speech, immittance, and advanced audiometry; hearing conservation in hospital, school, and industrial settings; and identification and evaluation of auditory pathologies. Required projects in screening and pure-tone audiometry.
Requisites: Requires a prerequisite course of SLHS 3106 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences Departmental Category: Didactic: Audiology

SLHS 4714 (3) Audiological Rehabilitation
Covers basic principles and techniques related to the habilitation and rehabilitation of individuals who are deaf or hard of hearing: amplification, speech, language, auditory, speech reading, and educational issues.
Requisites: Requires prerequisite courses of LING 3100 or SLHS 3006. Requires a prerequisite or corequisite course of SLHS 4704 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Didactic: Audiology

SLHS 4849 (1-6) Independent Study for Undergraduates
Instructor consent required.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Independent Study

SLHS 4918 (2) Introduction to Clinical Practice
Introduces students to the clinical processes and key components of assessment and interventions. Explores the applications of theoretical and scientific information to clinical settings. Students complete supervised observation of assessment and intervention with individuals with communication challenges.
Requisites: Requires a prerequisite course of SLHS 2000 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Speech, Language and Hearing Sciences (SLHS) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Practica

SLHS 4938 (1-6) Internship: Speech-Language Intervention
Provides a supervised clinical experience with children or adults who have communication challenges. Instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Practica

Speech, Language and Hearing Sciences - Bachelor of Arts (BA)

The undergraduate major in speech, language and hearing sciences (SLHS) at CU Boulder includes coursework in three general areas:

- Characteristics, causes and treatment of disorders that impact speech, language and/or hearing (e.g., stuttering, head injury, deafness, autism, learning disabilities, etc.).
- The science behind human communication (e.g., the anatomy and physiology of the speech and hearing mechanisms, acoustics of sound, etc.).
- Linguistics, specifically the normal development of language in children, phonetic transcription and the various component parts of language.

The program leads to a Bachelor of Arts (BA) degree. In addition to learning in the classroom about normal and disordered communication, students will observe graduate students and professionals engaged in clinical work with individuals exhibiting speech, language, learning and hearing problems. Internships are optional but are encouraged throughout a student's program.

Requirements

Program Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. The major includes 35 credit hours of required coursework plus a 3-credit course in general psychology.

All required major courses and the required general psychology course must be passed with a C- or better and cannot be taken pass/fail. No more than 45 credits in SLHS may be applied to overall graduation requirements. Students must have a grade point average of at least 2.000 in the major in order to graduate.

Required Courses and Credits

Code	Title	Credit Hours
Required Courses		
LING 2000	Introduction to Linguistics	3
LING 3100	Language Sound Structures	3

SLHS 2000	Introduction to Communication Disorders	3
SLHS 2010	Science of Human Communication	3
SLHS 3106	Hearing Science	3
SLHS 3116	Anatomy, Physiology, and Science of Speech	3
SLHS 4502	Language Disorders Across the Lifespan	3
SLHS 4512	Speech Disorders Across the Lifespan	3
SLHS 4560	Language Development	3
SLHS 4704	Audiological Evaluation	3
SLHS 4714	Audiological Rehabilitation	3
SLHS 4918	Introduction to Clinical Practice	2
Total Credit Hours		**35**

Required Ancillary Course

Code	Title	Credit Hours
PSYC 1001	General Psychology	3

Recommended Electives

Code	Title	Credit Hours

The following courses are recommended, but not required:

SLHS 1010	Disabilities in Contemporary American Society
SLHS 2305	American Sign Language 1
SLHS 3014	Hearing Loss Epidemiology
SLHS 4576	Communication Neuroscience
Speech-Language Assistant Certificate Program	

If planning to attend graduate school for SLHS, students should take one course from each of the following categories (graduate school prerequisite courses):

Statistics	
EDUC 4716/5716	Basic Statistical Methods
SOCY 2061	Introduction to Social Statistics
MATH 2510	Introduction to Statistics
Biological Science	
EBIO 1100	Biology and Society
EBIO 1210	General Biology 1
EBIO 1220	General Biology 2
PSYC 2012	Biological Psychology
Physics or Chemistry	
CHEM 1011	Environmental Chemistry 1
CHEM 1021	Introductory Chemistry
PHYS 1010	Physics of Everyday Life 1
PHYS 1020	
PHYS 1230	Light and Color for Nonscientists
PHYS 1240	Sound and Music
PHYS 1580	Energy and Interactions

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in the Department of Speech, Language and Hearing Sciences students should meet the following requirements:

- Declare the major by the beginning of the sophomore year
- Complete prerequisite courses—LING 2000, SLHS 2010 and PSYC 1001—by the end of spring semester of sophomore year.

Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credits of the Social Sciences area and all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement.

Year One		
Fall Semester		**Credit Hours**
SLHS 2000	Introduction to Communication Disorders	3
LING 2000	Introduction to Linguistics	3
Gen. Ed. Diversity course (example: Diversity: US Perspective)		3
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Elective/MAPS course		3
	Credit Hours	**15**
Spring Semester		
PSYC 1001	General Psychology	3
SLHS 2010	Science of Human Communication	3
Gen. Ed. Skills course (example: QRMS - if going onto SLHS grad school, take statistics)		3
Gen. Ed. Diversity course (example: Diversity: Global Perspective)		3
Elective/MAPS course		3
	Credit Hours	**15**
Year Two		
Fall Semester		
LING 3100	Language Sound Structures	3
SLHS 4560	Language Development	3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective		3
Biological Science course with lab		4
	Credit Hours	**16**
Spring Semester		
SLHS 3106	Hearing Science	3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Gen Ed. Distribution course (example: Arts & Humanities)		3
Elective		3
Elective		3
	Credit Hours	**15**
Year Three		
Fall Semester		
SLHS 3116	Anatomy, Physiology, and Science of Speech	3
SLHS 4502	Language Disorders Across the Lifespan	3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective		3

Elective		3
	Credit Hours	**15**
Spring Semester		
SLHS 4704	Audiological Evaluation	3
SLHS 4918	Introduction to Clinical Practice	2
Gen. Ed. Skills course (example: Upper-division Written Communication)		3
Elective: upper-division		3
Elective		3
	Credit Hours	**14**
Year Four		
Fall Semester		
SLHS 4512	Speech Disorders Across the Lifespan	3
Elective: upper-division		3
Elective: upper-division		3
Elective: upper-division		3
Elective		3
	Credit Hours	**15**
Spring Semester		
SLHS 4714	Audiological Rehabilitation	3
Elective: upper-division		3
Elective: upper-division		3
Elective		3
Elective		3
	Credit Hours	**15**
	Total Credit Hours	**120**

Learning Outcomes

By the completion of the program, students will be able to:

- An understanding of foundational knowledge of human communication sciences and its disorders.
- An understanding of how diversity impacts human communication disorders.
- The ability to critically analyze and communicate research in speech, language and hearing sciences.
- An ability to apply scientific evidence in the field of speech-language-hearing sciences to the analysis of real-world problems.
- A knowledge of the professional pathways available to graduates in the field of communication sciences and disorders.

Speech, Language and Hearing Sciences - Minor

The undergraduate minor in speech, language and hearing sciences (SLHS) introduces concepts basic to human communication and provides opportunities for students to acquire an understanding of normal and disordered speech, language and hearing processes. The minor in SLHS provides a basic academic foundation for students interested in a wide variety of careers related to the fields of disabilities, healthcare, education, integrated physiology, linguistics, psychology and communication.

Requirements

Students must complete a minimum of 18 credit hours in SLHS courses, including at least 9 hours of upper-division coursework, and the required courses listed below. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor. All minor courses must be completed with a grade of C- or better, no pass/fail work may be applied. The GPA for all minor coursework must equal 2.00 or higher.

Code	Title	Credit Hours
Required Courses		
SLHS 2000	Introduction to Communication Disorders	3
SLHS 2010	Science of Human Communication	3
Additional lower- or upper-division SLHS coursework		3
Additional upper-division SLHS coursework		9
Total Credit Hours		**18**

Theatre & Dance

The Department of Theatre and Dance offers undergraduate and graduate degrees in both theatre and dance, a graduate and undergraduate certificate in hip-hop studies (p. 625) and a graduate certificate in applied Shakespeare (http://www.colorado.edu/connect/certificate-programs/applied-shakespeare/). These programs combine traditional studies with practical training. Ambitious seasons of theatre productions and dance concerts feature student performers, designers, directors, choreographers and guest artists of national and international fame whom often participate in curricular and extracurricular activities.

Previous guests have included Uri Shafir, Claudia La Vista, Sidra Bell, Faye Driscoll, Lux Boreal, Jonathan Becker, Diane J. Rayor, Ralph Lemon, Ana Prada, Asia One, Teena Marie Custer, Nina Flagg, Nina Martin, Millicent Johnnie, Ananya Chatterjea, Maria Bauman, Jane Hawley, Tim O'Donnel, Ms. Prissy, April Rose, Chris Aiken and Angie Hauser, Art Bridgman/ Myrna Packer, Rennie Harris, Heidi Henderson, Kathleen Hermesdorf, Deborah Jowitt, Darrell Jones, Susan Marshall & Co., Bebe Miller, David Dorfman, Joe Goode, Kevin Wynn, John Scott and Shelley Senter; Lisa Wolpe, Jennifer Hubbard, Geoffrey Kent, Eric Van Baars, Silvia Gregory, Gary John LaRosa and Ami Dayan.

Students interested in theatre and dance are urged to consult with an advisor in the appropriate field to obtain both advice and the most current information concerning program opportunities and expectations.

Course codes for this department are THTR, DNCE, and THDN.

Bachelor's Degrees

- Dance - Bachelor of Arts (BA) (p. 614)
- Dance - Bachelor of Fine Arts (BFA) (p. 617)
- Theatre - Bachelor of Arts (BA) (p. 619)
- Theatre - Bachelor of Fine Arts (BFA) (p. 621)

Minors

- Dance - Minor (p. 625)
- Theatre - Minor (p. 625)

Certificate

- Hip-Hop Studies - Certificate (p. 625)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Bashore, Kate (https://experts.colorado.edu/display/fisid_168644/)
Assistant Teaching Professor; MFA, University of Tennessee - Knoxville

Bergner, Bruce Alan (https://experts.colorado.edu/display/fisid_113315/)
Associate Professor; MFA, University of Illinois at Chicago

Cloud, Anya (https://experts.colorado.edu/individual/fisid_167400/)
Assistant Professor; MFA, University of California San Diego

Cobin, Martin T.
Professor Emeritus

Devin, Richard
Professor Emeritus

Ellsworth, Michelle (https://experts.colorado.edu/display/fisid_112060/)
Distinguished Professor, Chair, Endowed Chair; MFA, University of Colorado Boulder

Feeler, Jordan (https://experts.colorado.edu/display/fisid_166032/)
Instructor; BFA, Webster University

Gerland, Oliver W. (https://experts.colorado.edu/display/fisid_101092/)
Associate Professor; PhD, Stanford University

Haig, Robin
Senior Instructor Emerita

Harris, Lorenzo R. (https://experts.colorado.edu/display/fisid_147634/)
Artist in Residence

Henry, Markas (https://experts.colorado.edu/display/fisid_134379/)
Associate Professor; MFA, University of Connecticut

Irey, Charlotte York
Professor Emerita

Lessley, Merrill J.
Professor Emeritus

Manno, Jesse J. (https://experts.colorado.edu/display/fisid_120813/)
Senior Instructor; BA, University of Colorado Boulder

Assistant Professor, Associate Chair; MFA, George Washington University

Williams, Letitia S.
Senior Instructor Emerita

Yang, Daniel
Professor Emeritus

Courses

Dance

DNCE 1000 (2) Beginning Contemporary Dance Technique
Introduces students to the dynamic capabilities of the body as an articulate means of expression. Presents basic concepts and skills from contemporary dance forms that may include Afro-modern, floor work, inversion, classical modern and improvisation. Classwork develops efficient alignment, strength, flexibility, coordination, rhythm, dynamics and spatial awareness. No experience necessary.
Repeatable: Repeatable for up to 4.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nonmajor Technique

DNCE 1012 (2) Dance Production
Provides the dancer with an introduction to the types of performance venues available today, and their technical systems and equipment. It will also establish an awareness of how technical theatre design arts may be utilized by a choreographer.
Requisites: Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Production

DNCE 1013 (2) Dance Improvisation
An opportunity for students to develop skills of dance improvisation through the exploration of structured movement problems. Students study selected contemporary dance artists whose work stresses improvisation in performance and/or as a training vehicle. Department consent required for dance minors.
Requisites: Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Creative Process

DNCE 1017 (3) Dance in Popular Culture and Media
Explores and contextualizes contemporary popular culture and dance. Introduces methods of critical analysis that reveal the rich heritage hidden within and around the dances students commonly encounter at the club, on the street, on television, on the big screen and elsewhere in everyday life. Through watching, reading, and discussion, students discover new meaning in their lived cultural experience.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Dance and Cultural Studies

DNCE 1020 (1) Beginning Contemporary Dance with Experience
Invites students to deepen their somatic awareness, efficient athleticism, and creative voice through the medium of contemporary dance. Continues the investigation of contemporary dance forms that may include Afro-modern, floor work, inversions, classical modern, and improvisation. Classwork will deepen students' alignment, strength, flexibility, coordination, rhythm, dynamics and spatial awareness.
Repeatable: Repeatable for up to 2.00 total credit hours.
Recommended: Prerequisite DNCE 1000 or previous dance experience.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nonmajor Technique

DNCE 1027 (3) Dance in Cultural Perception and Expression
Explores how the practice of dance can reflect, disrupt, subvert, support, and reinforce cultural expectations, norms and practices. Introduces international and domestic dance traditions and provides context for an interdisciplinary examination. Comparative readings from sociology, anthropology, gender studies, history, post-colonial studies, and political science provide a foundation to understand how cultural identities are negotiated and represented through movement.
Additional Information: GT Pathways: GT-AH1 - Arts Hum: Arts Expression
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Dance and Cultural Studies
Departmental Category: Asia Content

DNCE 1091 (1) Modern 1
Introduces basic skills of modern dance. In-class technique work increases muscle strength, flexibility, and coordination.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Major Technique

DNCE 1100 (1) Beginning Ballet
Introduces beginning students to fundamental aspects of classical ballet technique; no previous experience required. Basic principles of alignment, rotation, and movement quality are introduced as the building blocks for success in advanced material. Foundational movements and ballet vocabulary are learned and refined. Students work toward mastery of simple combinations and rhythmic patterns.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nonmajor Technique

DNCE 1120 (1) Beginning Ballet with Experience
Relies on a demonstrated comprehension of kinesthetic and conceptual principles mastered at the beginning level. New movements from the classical ballet vocabulary are introduced with continued emphasis on alignment, rotation, and movement quality. Ballet sequences are longer and more complex.
Repeatable: Repeatable for up to 2.00 total credit hours.
Recommended: Prerequisite DNCE 1100 or previous ballet experience.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nonmajor Technique

DNCE 1190 (1) Ballet 1
Beginning ballet covering the basic vocabulary of classical ballet technique.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nonmajor Technique

DNCE 1200 (1) Beginning Jazz Dance
Introduces various styles of movement unique to jazz dance including improvisation, isolations, and African-influenced polyrhythms. Working within a range of dynamic performance styles, students will learn fundamental dance skills and jazz vocabulary, from which more advanced skills can be developed. Designed for students will little or no dance experience.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nonmajor Technique

DNCE 1220 (1) Beginning Jazz with Experience
Digs deeper into syncopated movement style of the jazz vernacular by continuing the embodied investigation of the Africanist influence on the form. Demands a rigorous awareness of efficient alignment while engaging with complex movement and challenging rhythmic structures.
Repeatable: Repeatable for up to 2.00 total credit hours.
Recommended: Prerequisite DNCE 1200 or previous dance experience.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nonmajor Technique

DNCE 1290 (1) Jazz 1
Introduces jazz dance, consisting of a technique warm-up, locomotion across the floor, and a series of dance phrases developed into a short dance combination.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nonmajor Technique

DNCE 1301 (2) Hip-Hop Dance Technique 1
Introduces students to Hip-Hop dance as a culturally significant form. Students learn history, the social and political forces at work, and the fundamental techniques (Campbell Locking, Popping, Breaking etiquette/ movements, Hip-Hop Party Dance and House). Intellectual challenge is offered through the lens of critical race theory and historical context. Training addresses flexibility, sequencing, coordination, and performance skills.
Repeatable: Repeatable for up to 4.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Technique

DNCE 1401 (1) Transnational Fusion Dance: USA and Middle East/North Africa
Introduces a fusion form popularized in 2000: secular dance traditions of the Middle East/North African (MENA) communities in dialog with popular dances of the hip-hop and underground electronic dance music communities. Stretching, hip work, spinal undulations and poly-rhythmic orientations are covered. Educational highlights include discourse regarding cultural appropriation and gender coding in human movement.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

DNCE 1411 (2) Aerial Dance Technique
Study of basic technique skills in aerial dance on single point, low-flying trapeze. Additional skills include choreographic techniques, improvisation, and a historical overview of aerial dance. Through theoretical readings and discussions, this course defines the place of aerial dance in the lineage of modern dance and addresses aesthetics, philosophical approaches to teaching, and safety issues.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

DNCE 1501 (1) Tap Technique
Introduces students to the basic steps and timing of tap technique to develop rhythm, style and clear tap sounds. Exercises focus on building flexibility of the knee and ankles, coordination and speed of movement. A variety of tap styles from Broadway to Rhythm tap will be taught.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Technique

DNCE 1849 (1-3) Independent Study
Involves creative or scholarly investigation of an area of interest to the student not addressed in the curriculum. Work must be arranged with and advised by a faculty member. Freshman level course.
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Departmental Category: Independent Study

DNCE 1901 (1-3) Technique Practicum
Broadens students' exposure to a range of diverse movement material. Topical course in dance technique, see subtopic for specific form.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Technique

DNCE 1908 (1) First Year Dance Seminar
Designed for new dance majors as an introduction to the place of dance within academia and the professional/public spheres. Through the practice of descriptive dance writing, theoretical and physical exploration of discrete pedagogical and choreographic procedures, and interactions with in-class guest artists of different disciplines, students will engage in independent research and physical experimentation, culminating in a final personal presentation and group performance.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

DNCE 2021 (2) Major Technique
Designed for Dance majors. Enrollment by audition only.
Repeatable: Repeatable for up to 16.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Major Technique

DNCE 2091 (1) Modern 2
Continuation of Modern 1. a developmental sequence of modern dance technique designed to refine the technical/expressive skills required of the professional dancer.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Major Technique

DNCE 2098 (1) Performance/Repertory
Students learn and perform dances from the repertory of guest artists. Offered summers only.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

DNCE 2141 (1) Low Intermediate Ballet
Builds on an existing understanding of alignment, rotation, and movement quality to introduce more mentally and physically difficult movements and enchainements of the classical ballet vocabulary. Students must be able to demonstrate an embodied familiarity with all traditional barre exercises on the first day of class.
Repeatable: Repeatable for up to 2.00 total credit hours.
Recommended: Prerequisite DNCE 1120 or previous ballet experience.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Technique

DNCE 2191 (1) Ballet 2
Intermediate ballet, covering the complete vocabulary of classical ballet technique. Enchainements are of complex structure.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Major Technique

DNCE 2290 (1) Jazz 2
Continuation of Jazz 1. Studies coordination, rhythm, style, and advanced body part isolation in depth.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Nonmajor Technique

DNCE 2501 (2) African Dance
Explores the technique, styles, and rhythms of regional and national cultures of Africa. Areas of concentration may vary each semester (e.g. Ghana, Mali, Guinea, etc.). Introduces signature attributes common to different countries' dance traditions and features discussions of the musical traditions, histories, cosmologies, philosophies and aesthetics to contextualize and increase familiarity.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Technique

DNCE 2701 (2) Contact Improvisation 1
Investigates movement vocabulary and kinesthetic understanding through physical contact and weight-sharing between two or more dancers. Fundamental skills of contact will be introduced and employed in duets and larger group improvisations: rolling, falling, giving and receiving weight, and the use of momentum and gravity.
Repeatable: Repeatable for up to 4.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Major Technique

DNCE 2849 (1-3) Independent Study
Involves creative or scholarly investigation of an area of interest to the student not addressed in the curriculum. Work must be arranged with and advised by a faculty member. Sophomore level course.
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Departmental Category: Independent Study

DNCE 2901 (1-3) Technique Practicum 2
Topical course (second level) in dance technique, see subtopic for specific form. May require an audition.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Major Technique

DNCE 2909 (1-4) Special Topics
Explores topics and research in relation to areas such as technology, environment, teaching methods, performance, world dance, arts in society, and/or criticism that the normal sequence of offerings may not allow.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 4909 and DNCE 5909
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Independent Study

DNCE 3001 (2) Intermediate/Advanced Contemporary Dance Technique
Challenges intermediate and advanced students to refine their understanding and personal approach to the study of international contemporary dance. Demands a deep sense of somatic awareness, efficient athleticism, and creative voice. Floor work, inversions, and improvisation may be included. No audition required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: Prerequisite DNCE 1000 or DNCE 1020 or any major technique course ending in "1" or previous dance experience.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Technique

DNCE 3005 (3) Movement Awareness and Injury Prevention for the Dancer
Advances safe and effective dance practices supporting longevity and wellness. Areas explored include experiential anatomy, conditioning, alignment, nutrition, injury prevention, care of common dance injuries, and experience with various somatic practices. Instructor approval required to enroll if outside dance major or minor. Formerly DNCE 2005.
Requisites: Restricted to Dance (DNCE or DBFA) majors or minors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Somatic Awareness

DNCE 3014 (2) Inside the Groove: Developing Rhythmic Skills
Enhances rhythmic acuity through intensive rhythmic drills, analytical listening, drumming, notating and creating rhythm-based performance work. Course material explores non-Western rhythmic paradigms, irregular meters, mixed meters, polyrhythms, etc., and how to communicate clearly with a live accompanist in technique class.
Requisites: Restricted to Dance (DNCE or DBFA) majors or minors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Music

DNCE 3024 (2) SOUND Choices: Enhancing the Music/Dance Relationship
Examines how musical choices can profoundly affect audiences, dancers and the creative process. Surveys historic and contemporary music styles and influential artists through guided listening and experimentation. Deepens understanding of music, including vocabulary, technology, collaboration skills, ethics, and copyright issues.
Requisites: Restricted to Dance (DNCE or DBFA) majors or minors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Music

DNCE 3033 (3) Choreographic Resources
Explores movement invention and strategies of choreographic manipulation of body, space and time. Students add to their toolbox of compositional resources through solo and duet studies. Class interrogates and supports the students' developing language for addressing, critiquing and comprehending compositional choices and structures through verbal and written feedback practice. Can be taken out of sequence with DNCE 3043. Formerly DNCE 2033.
Requisites: Requires a prerequisite course of DNCE 1013 and DNCE 2021 or DNCE 3041 or DNCE 4061 (minimum grade C-). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Creative Process

DNCE 3035 (1) Production Practicum
Practical production activities and projects within a designated area of dance design, stage technology, or stage management, normally related to the department's season. Instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Production

DNCE 3041 (2) Major Technique
Designed for dance majors. Enrollment by audition only.
Repeatable: Repeatable for up to 16.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Major Technique

DNCE 3043 (3) Choreographic Process
Examines physical and spatial relationships via group and site specific work. New methods of creative problem solving unearth and mine one's imagination and inspiration, cultivating the individual's unique process of dance-making. Class interrogates and supports students' developing language for addressing, critiquing and comprehending compositional choices and structures through verbal and written feedback practice. Can be taken out of sequence with DNCE 3033.
Requisites: Requires prerequisite courses of DNCE 1013 and DNCE 2021 or DNCE 3041 or DNCE 4061 (all minimum grade C-). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Creative Process

DNCE 3101 (1-3) Ballet Practicum
Practical studio training in ballet at the advanced/professional level with a professional company. Designed for dance majors. Enrollment by audition only.
Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of DNCE 2141 or DNCE 3161 or DNCE 4181 (minimum grade C-).
Additional Information: Departmental Category: Major Technique

DNCE 3161 (1) Intermediate Ballet
Surveys a wide range of the intermediate-level classical ballet vocabulary, focusing on an anatomically sound approach to the material. Students must work efficiently to execute the technique with rhythmic accuracy, clarity of line, propriety of style, and fluency in translating names of steps. Enrollment by audition only.
Repeatable: Repeatable for up to 8.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Technique

DNCE 3241 (1) Intermediate Jazz
Expands student's performance of the syncopated movement style of the jazz vernacular. Designed for the experienced jazz dancer. Includes dance techniques that further improves alignment, strength, flexibility, and coordination within the jazz idiom through an emphasis on style, rhythm, and more challenging dance combinations.
Repeatable: Repeatable for up to 2.00 total credit hours.
Recommended: Prerequisite DNCE 1220 or previous dance experience.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Technique

DNCE 3301 (2) Hip-Hop Dance Technique 2
Builds on fundamentals established in Hip-Hop Dance Technique 1. Students deepen their understanding of Hip-Hop history through fundamental movement techniques, specifically, House, and study the social/political forces at work. The course focuses on increasing dancers' capacity for variation, sequencing, musicality and free-styling in Hip-Hop dance. Enrollment by audition only. Meets with DNCE 5331.
Repeatable: Repeatable for up to 4.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Technique

DNCE 3601 (2) Alexander Technique for Actors and Dancers
Studies how human reaction, coordination, and movement play a role in all activities. Through in-depth class discussions, movement, exploration, and individualized hands-on lessons, actors and dancers gain an understanding of the technique and its benefits to performance. Meets with DNCE 5601.
Requisites: Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) or Theatre (THTR or TBFA, excludes THTR-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Technique

DNCE 3849 (1-3) Independent Study
Involves creative or scholarly investigation of an area of interest to the student not addressed in the curriculum. Work must be arranged with and advised by a faculty member. Junior level course.
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Departmental Category: Independent Study

DNCE 3901 (1-3) Technique Practicum
Topical course (intermediate level) in dance technique. See subtopic for specific form. May require an audition.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Technique

DNCE 3909 (1-4) Special Topics
Explores topics and research in relation to areas such as technology, environment, teaching methods, performance, world dance, arts in society, and/or criticism that the normal sequence of offerings may not allow.
Repeatable: Repeatable for up to 7.00 total credit hours.

DNCE 4012 (1) Concert Production
Provides practical experience in producing formal and informal dance concerts. Introduces basic familiarity with production and promotional responsibilities, backstage and front-of-house duties and procedures. Meets with DNCE 5012.
Requisites: Requires a prerequisite course of DNCE 1012 (minimum grade C-). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Major Technique

DNCE 4015 (3) Movement Analysis
Introduces Rudolf Laban's theories of movement and exposes several body therapies to heighten students' awareness of movement as a multifaceted (neuromuscular/spatial/dynamic) event. Emphasizes refinement of movement, observation skills, and improvement of performance. Meets with DNCE 5015.
Requisites: Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Movement Awareness Injury Prevent for the Dancer

DNCE 4016 (3) Creative Dance for Children
Methods course for prospective teachers of creative dance for children. Lectures, readings and laboratory experiences are followed by observation and teaching in primary grades.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 5016
Requisites: Requires a prerequisite course of DNCE 2033 (minimum grade C-). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Pedagogy

DNCE 4017 (3) Dancing Histories: Sex, Gender and Race in U.S. Concert Dance
Traces the evolution of American concert dance through roots in select dance forms, including dances of the African Diaspora, Ballet, Social Dance, Jazz, Modern, and Folklorico. Studies specific dance artists against the backdrop of social, political, economic, and environmental issues.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 5017
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Dance and Cultural Studies

DNCE 4023 (2) Performance Improvisation Techniques
Explores movement and vocal improvisational techniques to enhance creative, interdisciplinary, collaborative and performance skills. Helps individuals expand their definition of performance, discover and access the diversity of the human instrument and employ improvisation to create personal and social commentary.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 5023
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Creative Process

DNCE 4036 (2) Dance Teaching Practices: Inclusive Approaches to Instruction
Examines legal, practical, pedagogical and philosophical issues in current dance education. Goals and content of professional and recreational dance training are considered and strategies for effective teaching practice are discussed. All genres of dance may be utilized depending on the specialities of participants.
Requisites: Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Pedagogy

DNCE 4037 (3) Contemporary Concert Dance: Shifting Perspectives in Performance
Focuses on the development of perceptual, descriptive, and analytical skills as well as the ability to apply cultural and critical theory to 20th and 21st century concert dance. Specific pieces of choreography are looked at from a broad range of perspectives.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite or corequisite a Human Diversity core requirement course.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Dance and Cultural Studies

DNCE 4038 (1-3) Dance Repertory
Learning and performing dances from the repertory of current faculty members, artists-in-residence and upon occasion from the repertory of historic modern dancers. Dance majors may repeat up to 9 total credit hours with different instructors. Enrollment by audition only.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 5038
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

DNCE 4046 (1) Teaching Practicum
Designed to give students supervised practical teaching skills through practice teaching, discussion, observation (in-person and video), reflection and feedback. Students will develop age appropriate lesson plans, define and refine principles of classroom management and understand the needs of diverse groups of students in a community, academic (K-12) and/or studio setting. All genres of dance are topic relevant.
Requisites: Requires a prerequisite course of DNCE 4036 (minimum grade C-). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Departmental Category: Pedagogy

DNCE 4047 (3) Hip-Hop Dance History
Addresses the origin and evolution of American Hip-Hop dance rooted in a theoretical structure that springs from the elemental nature of the African Diaspora. Emphasis placed on the social, political, and economic environment in which it was fashioned. Pioneers, innovators, terminology, and styles will be identified. Course includes lectures, readings, audio/video analysis and discussion. Meets with DNCE 5047.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Dance and Cultural Studies

DNCE 4053 (3) Advanced Dance Composition
Focuses on deepening the artistic voice and engaging with other art forms. Students explore the integration of technology and collaboration in creative projects and continue to engage in an objective critical process of their own work and the work of others. Meets with DNCE 5053.
Requisites: Requires a prerequisite course of DNCE 3043 (minimum grade C-). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Creative Process

DNCE 4061 (2) Major Technique
Designed for dance majors. Enrollment by audition only.
Repeatable: Repeatable for up to 16.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Major Technique

DNCE 4128 (1) Ballet Repertory
Develops understanding of the ballet canon through practice of major solos from Romantic, Classical, and New-Classical ballets. For the advanced classical ballet student. Enrollment by audition only. Meets with DNCE 5128.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

DNCE 4181 (1) Advanced Ballet
Investigates the full range of the advanced-level classical ballet vocabulary, focusing on an anatomically sound approach to the material. Exercises require strength and a deeply subtle understanding of principles of alignment, rotation, epaulement, and movement quality. Class moves quickly through enchainements of complex structure. Enrollment by audition only.
Repeatable: Repeatable for up to 8.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Technique

DNCE 4261 (1) Advanced Jazz Dance Technique
Refines advanced students' approach to the nuances and virtuosity of jazz idiom. Emphasis is placed on efficient use of alignment, complex polyrhythmic explorations and improvisations, and dynamic performance style. Class moves quickly through material and demands a high level of proficiency. Enrollment by audition only. Meets with DNCE 5261.
Repeatable: Repeatable for up to 4.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Technique

DNCE 4701 (2) Contact Improvisation 2
Builds upon skills introduced in DNCE 2701 and moves into more rigorous exploration of weight sharing principles. Emphasis will be placed on ease and efficiency in partnering, and integrating this work into choreography and performance. Meets with DNCE 5701.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Requires a prerequisite course of DNCE 2701 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Major Technique

DNCE 4849 (1-3) Independent Study
Involves creative or scholarly investigation of an area of interest to the student not addressed in the curriculum. Work must be arranged with and advised by a faculty member. Senior level course.
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Departmental Category: Independent Study

DNCE 4909 (1-4) Special Topics
Explores topics and research in relation to areas such as technology, environment, teaching methods, performance, world dance, arts in society, and/or criticism that the normal sequence of offerings may not allow.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 2909 and DNCE 5909
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Independent Study

DNCE 4919 (1-3) Dance Practicum
Project in dance under supervision of senior faculty.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 5919
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Independent Study

DNCE 4939 (1-3) Dance Internship
Provides an opportunity for upper-division dance majors to serve apprenticeships in the community in work areas related to their major interests and career goals. Internships are available in areas such as arts administration, dance therapy, and technical production. Instructor consent rquired.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: Independent Study

Theatre

THTR 1003 (3) Acting 1
Introductory course designed to explore creativity, collaboration and communication in the craft of acting. Focuses on basic terms and concepts of psychological realism fundamental to the actors' process through solo work and ensemble exercises. Open to majors and non-majors.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 1009 (3) Theatre and Society
Explores the importance of telling (and listening) to stories from the stages of the world; in theatre we learn what people value in their time and place. Investigates the range of genres of theatre in today's society and how theatrical artwork is devised and presented. Ideal for non-majors.
Additional Information: GT Pathways: GT-AH1 - Arts Hum: Arts Expression
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Special Courses in Theatre

THTR 1011 (3) Global Theatre 1: Live Performance to Shakespeare
Travels across four continents exploring live performance from the beginning of recorded history to Shakespeare through various forms of theatrical storytelling including masked dramas, shadow puppets, kabuki, passion plays and commedia.
Additional Information: GT Pathways: GT-AH1 - Arts Hum: Arts Expression
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: History/Dramaturgy/Directing

THTR 1019 (3) Script Laboratory: Text Analysis and Practice for the Theatre
Introduces fundamental methods of text analysis for performance. Equips theatre makers with common vocabulary and concepts to more effectively communicate when collaborating with other artists. Provides tools for analyzing any narrative art form.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) Theatre (THTR or TBFA) majors only (excluding minors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Special Courses in Theatre

THTR 1050 (3) Introduction to Stagecraft and Design
Hands on project-based learning introducing the craft, principles, and practices of stagecraft and design. Students execute varied projects in topics including scenic, lighting, sound, and costume design as well as stage management, scenic construction, painting, props, sewing, hair and wigs, dyeing, and makeup. This course is ideal for those interested in theatre, film, dance, fine art, architecture, cosplay, fashion, engineering, and game design.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

THTR 1105 (3) Stage Technologies
Introduces technical production elements and procedures, including materials, organizations, methods and equipment to realize theatrical scenery, properties, lighting and sound.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 1115 (3) Costume Technologies
Introduces technical production elements and procedures including materials, organizations, methods and equipment to realize theatrical costuming and make-up.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 1117 (2) Musical Theatre Studio I
Explores creativity, collaboration, and communication in the craft of acting both in musical theatre and stage acting, specifically directed to the Musical Theatre degree student. Focuses on terms and concepts of psychological realism fundamental to the actors' process through solo work and ensemble exercises. Emphasis on developing a character through analysis and scene study. Various acting modalities will be introduced.
Equivalent - Duplicate Degree Credit Not Granted: PMUS 1117
Grading Basis: Letter Grade

THTR 1217 (2) Musical Theatre Lab 2
Focus on building terms and concepts introduced in THTR 1117. A more thorough emphasis is placed on developing character, utilizing analysis tools, and scene study of musical theatre works. Both lecture and performance-based class. Includes advanced repertoire and further song/monologue study in terms of crafting a character and building an arc for the character in a song and/or an identified specific moment.
Requisites: Restricted to BFA Musical Theatre and BM Musical Theatre students only.
Grading Basis: Letter Grade

THTR 2021 (3) Global Theatre 2: Contemp Relevance and Resonance Forms of Pre-Colonial Modern Theatre and Performan
This course explores world performance and theatre before and after European imperialism and settler colonialism, until 1850. By studying examples from Africa, Greece, Asia, India, Europe, and the Americas we will better understand the roots of theatre and performance today, and gain insight into epistemologies that might spur how to imagine into being a more equitable and sustainable world.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: History/Dramaturgy/Directing

THTR 2035 (3) Design Fundamentals
Introduces principles and techniques relevant to the expression of dramatic mood and idea through visual elements of the theatre, giving practice in conceptdevelopment, style selection, and rendering techniques in scenery and costume design.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 2043 (3) Voice and Movement for the Stage
Natural resources of the human voice and body are studied as artistic resources for the performing artist. Designed to examine both the process and products of vocal and physical craft work. Please consult professor if you are interested in taking this class but do not fill the prerequisites.
Requisites: Restricted to Theatre (THTR, TBFA) or Dance (DNCE or DBFA) majors only (excluding minors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 2050 (2) Technical Theatre for Performance
Hands on learning in an immersive environment, students are embedded into the Theatre and Dance department workshops and crews. Students gain direct experience in scenic construction, painting, props, costumes, stage lighting, media and projections, sound, and performance design as determined by the production season. This course is ideal for students interested in theatre, film, dance, performance art, design, and technical theater.

THTR 2059 (3) Open Topics in Theatre and Drama
Covers topics not otherwise listed in the curriculum. Topics for each semester are specified in the online schedule planner.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Special Courses in Theatre

THTR 2105 (3) Introduction to Performance Design
Introduces the creative/collaborative process of design for theatre and dance, including scenery, costume, lighting, and sound. Students create design projects and evaluate them with regard to artistic and practical concerns. Much of the course work is hands-on, experiential, and team-oriented.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 2117 (2) Musical Theatre Studio Class III
Explores the creation of extended musical theatre performance using acting, movement and vocal techniques, with an emphasis on the ensemble. Topics: finding the arc of a role, staging techniques for small and large ensembles, rehearsal and performance skills for a range of contexts from summer stock to Broadway.
Equivalent - Duplicate Degree Credit Not Granted: PMUS 2117
Requisites: Restricted to College of Music undergraduates (MUSCU) and BFA Musical Theatre (TBFA-BFA) students only.
Grading Basis: Letter Grade

THTR 2849 (1-3) Independent Study
Repeatable: Repeatable for up to 3.00 total credit hours.
Additional Information: Departmental Category: Special Courses in Theatre

THTR 3005 (3) Costume Design 1
Hands on studio course for students interested in theatre, dance, film, media studies, clothing, design, watercolor painting, psychology, sociology, history, art, art history, period styles, literature and cosplay. Students will learn, explore and practice literary analysis, character profiling, figure drawing, painting, fashion and clothing history and fabric selection to research, conceive, design and paint costume plates for several performance pieces over the course of the semester.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 3011 (3) American Musical Theatre History
This course investigates diversity in American musical theatre through the disciplinary frameworks of critical race theory, intersectional feminism, the American Myth, Jewish and LGBTQIA+ theories, and music and performance theory. In addition to increasing students¿ knowledge, understanding, and appreciation of this uniquely American art form, this course encourages students to examine larger historical and/or political events and movements through the lens of the reception and development of musicals in a given time period.
Recommended: Prerequisite 3 credits in THTR, DNCE or MUSC.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: History/Dramaturgy/Directing

THTR 3013 (3) Studio 1: Building a Character
Students learn to deepen and develop their proficiency with specific acting techniques. Explores the craft elements of acting, as well as text analysis.
Requisites: Requires prerequisite course of THTR 1003 (minimum grad C-). Restricted to Theatre (TBFA) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

THTR 3015 (3) Scene Design 1
Engages students in the creative process of creating spatial worlds for dramatic texts. Students learn to read and analyze scripts and scores, conceptualize and envision environments, express design ideas, draw, draft and build scale 3D models of stage sets.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

THTR 3020 (3) Filmmaking Abroad: Acting & Directing Internationally
Offers an intensive three-week production seminar to realize a short narrative film. Students immerse themselves in a city abroad, in collaboration with fellow CU students and the host population, as they scout locations and film their projects. Requires production responsibilities on both sides of the camera. A Global Seminar offered during Maymester through CU International Education.
Equivalent - Duplicate Degree Credit Not Granted: CINE 3020
Requisites: Requires prerequisite course of CINE 3400 or THTR 1003 (minimum grade C-).

THTR 3023 (3) Studio 2: Creating a Role
Continued development of acting technique and tools for play analysis, with particular emphasis on scene study. Special attention will be given to the Master Teachers of Acting and their pedagogies.
Requisites: Requires prerequisite course of (THTR 1003 or PMUS 1117 or PMUS 1217) and THTR 3053 (all minimum grade C-) or Theatre (TBFA) majors.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

THTR 3031 (3) Development of Theatre 3: 20th Century International Drama
Introduces 20th century international drama. Discusses selected plays by major African, Asian, and European authors and explores different dramatic traditions and their increasing interactions throughout the 20th century.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: History/Dramaturgy/Directing

THTR 3033 (1-3) Production Research and Practicum: Acting
Allows students to undertake an acting project, either within the major season or approved departmental production. Requires detailed preparational research, rehearsal commitments, and public presentation of theories and concepts in practice. Following the performance, students present written reports and evaluations.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Performance

THTR 3035 (1-2) Production Practicum
Practical production projects within a designated area of technical theatre, design, stage management, normally related to the department's season.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Theatre Design and Technology

THTR 3037 (2-3) Shakespeare Practicum
Students are assigned to work with production artisans of the Colorado Shakespeare Festival. While there are many possible areas, production designs for each season determine the number of available positions. May substitute for two credits of THTR 3035.
Requisites: Requires prerequisite courses of THTR 1105 and THTR 1115 (all minimum grade C-).
Additional Information: Departmental Category: Shakespearean Production

THTR 3043 (3) Advanced Voice for the Stage
Continues the work begun in THTR 2043. Studies advanced vocal techniques with the goal of integrating these skills into the working process of the performing artist.
Requisites: Requires prerequisite course of THTR 1003 or PMUS 1117 or PMUS 1217 and THTR 2043 (all minimum grade C-). Restricted to Theatre (THTR or TBFA) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

THTR 3045 (3) Stage Management
Covers stage management from the inception of a production concept through the process of mounting aproduction, focusing on the interrelationships of the various artists involved, management and scheduling of time, and the psychology of handling a wide range of personalities.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

THTR 3053 (3) Acting 2
Continuation of the techniques introduced in Acting 1 (THTR 1003). Emphasis is placed on monologues and scene study of contemporary plays. Basic technique in developing a character are explored.
Requisites: Requires prerequisite course of THTR 1003 or PMUS 1117 or PMUS 1217 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

THTR 3055 (3) Stage Lighting Design 1
Hands on learning in a creative lab-based environment exploring introductory practices of performance lighting design. Ideal for students excited by storytelling, technology, creating moods, the science of the human eye, human perception, and for students studying theatre, film, dance, art, design, architecture, architectural lighting, and game design.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

THTR 3075 (3) Sound Design
Hands on practical and creative exploration of the theatrical sound design process. Students will expand their understanding of sound design in the theatre through explorations in audio tools and technologies, sound system design and application, live mixing and troubleshooting skills, and enhancing theatrical performances using sound as an artistic medium.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

THTR 3085 (3) Fashion, Society and Decor
Hands on survey course for students interested in history, art history, decorative arts, sociology, psychology, politics, fashion, costume design, theatre, film, dance, media studies and cosplay. Students will create research projects based in numerous historical eras stanning from Ancient Egypt, Roman and Greek civilizations to the palaces and opulence of the Baroque and Rococo eras. Students will explore the social and technological advances in fashion creation and manufacture during the Industrial Revolution and Victorian era to the technological advances of modern Haute Couture fashion and important fashion designers.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

THTR 3117 (2) Musical Theatre Studio Class IV
Explores the development of solo performance sets of songs in cabaret and small theatre venues incorporating a range of musical styles. Topics include: How to create an audition video, Commercial auditions, Conceive, construct and perform a cabaret and/or small theatrical event, and how to collaborate with a musical production team.
Equivalent - Duplicate Degree Credit Not Granted: PMUS 3117
Requisites: Restricted to College of Music undergraduates (MUSCU) and BFA Musical Theatre (TBFA-BFA) students only.
Grading Basis: Letter Grade

THTR 3149 (1) Professional Orientation: Exploring Professional Potentials for THTR and DNCE Majors
Explores and identifies a wide range of professional opportunities connected to personal strengths and interests in theatre and dance by studying current professional practices, trends and cross-disciplinary connections. Instructor will: provide information/learning needed from representative professionals; open avenues to find/create employment opportunities towards internship consideration/post-graduation; and mentor structured self-assessment/professional development.
Requisites: Restricted to Theatre (THTR or TBFA) or Dance (DNCE or DBFA) majors (excluding minors).
Additional Information: Departmental Category: Special Courses in Theatre

THTR 3213 (3) Improvisation I: Thinking On Your Feet
Provides students with an introduction to several forms of improvisation, including short form, long-form, playback theatre and clown. A useful course for anyone interested in improving confidence with public speaking, communication and/or performance. Attendance and participation are mandatory.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

THTR 3849 (1-3) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Special Courses in Theatre

THTR 4003 (3) Acting 3
Continuation of the techniques explored in Acting 1 (THTR 1003) and Acting 2 (THTR 3053). Emphasis is placed on monologues and scene study of Shakespeare and other classical plays.
Requisites: Requires prerequisite course of THTR 1003 or PMUS 1117 or PMUS 1217 (minimum grade C-).

THTR 4005 (3) Costume Design 2
Advanced studio course building on experiences and techniques studied in THTR 3005, with additional emphases on portfolio quality painting/ rendering techniques, fabrics/ fabric manipulation and costume production technology as it affects and is affected by the designer and the creative impulse.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of THTR 3005 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

THTR 4013 (3) Studio 3: Acting Shakespeare
In-depth study of Shakespearean texts from the perspective of their demands on the actor, including the conventions and performance styles of Elizabethan theatre.
Requisites: Requires prerequisite courses of (THTR 1003 or PMUS 1117 or PMUS 1217) or Theater BFA (TBFA) majors.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

THTR 4015 (3) Scene Design 2
Advanced projects in theatrical scene design. Provides intensive practice in sketching, rendering, drafting and model-building. Emphasizes portfolio development and preparing the student designer for graduate training or professional work.
Requisites: Requires prerequisite course of THTR 3015 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Theatre Design and Technology

THTR 4021 (3) Global Theatre and Performance 2: Contesting the Status Quo
This course views theater and performance as social, political, or artistic critique, with emphasis on examples from the Americas after 1850. Students will learn how theater and performance has either challenged or reinscribed social, political, or artistic conventions by studying works of dramatists, the historical avant-garde, theorist-practitioners, and contemporary performance artists with marginalized identities from around the world.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: History/Dramaturgy/Directing

THTR 4023 (3) Studio 4: Playing with Styles
Studies selected styles of theatre performance such as Greek Drama, Comedy of Manners, Commedia dell'arte, Modern Realism, Theatre of the Absurd, and Non-Western Theatre, including vocal and physical style elements.
Requisites: Requires prerequisite courses of THTR 3013, THTR 3023 and THTR 4013 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Performance

THTR 4025 (3) Costume Patterning and Construction
Learn to pattern and make your own clothing and costumes. The course focuses on basic hand and machine sewing skills, flat patterning and draping techniques, all culminating in the production of a final project. This course is ideal for those interested in theatre, film, dance, fine art, architecture, cosplay, fashion, engineering, and game design.
Equivalent - Duplicate Degree Credit Not Granted: THTR 5025
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite THTR 1050.

THTR 4029 (3) Performance and Community Engagement
Engages students in the power of performance for effecting positive social change. Students research collaboratively to create performances and workshop experiences to intentionally author the future they want. Readings provide theoretical foundations that serve as the basis for creative work. Students engage in creative explorations. Open to all forms of performance.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Special Courses in Theatre

THTR 4033 (3) Advanced Movement for the Stage
Continues the work begun in THTR 2043 and explores a wide range of physical actor training methods and practices that support the fundamentals of mask training and mask performance for the actor. Students will experience each mask by gaining an understanding of its historical and performative relevance and directly bring into play the authentic life required of the specific mask. Department consent required.
Equivalent - Duplicate Degree Credit Not Granted: THTR 5033
Requisites: Requires prerequisite course of THTR 2043 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 4035 (3) Scene Painting
Exposes students to the crafts involved in painting large and colorful backgrounds for stage productions through hands-on projects. Introduces students to scenic art techniques such as layout, representational painting, trompe l¿oeil, faux finishing and related skills. Students are taught about proper tool use and care, paint products, and the profession.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 4039 (3) Musical Theatre Repertory
Developed around the learning of complete scenes, songs and dances that are representative of the major periods and styles within musical comedy from the 1920s to the present. Emphasizes in-class performance. Admission by audition.
Equivalent - Duplicate Degree Credit Not Granted: THTR 5039
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Theatre (THTR, TBFA) or Dance (DNCE or DBFA) or Music (MUSA-BAMUS, MUSC-BMUS or MUSE-BMUE) majors only (excluding minors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Special Courses in Theatre

THTR 4040 (3) Theatrical Tailoring -- Menswear
Learn to pattern and make your own clothing and costumes. The course focuses on tailoring of menswear (trousers, vest/waistcoats and coats) using hand and machine sewing skills, flat patterning and draping techniques, all culminating in the production of a final project. Period of exploration will vary by semester. This course is ideal for those interested in theatre, film, dance, fine art, architecture, cosplay, fashion, engineering, and game design.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite THTR 1050.
Grading Basis: Letter Grade

THTR 4046 (3) Costume Crafts
Covers basic and advanced techniques in casting/molding, mask making, dyeing, painting, jewelry making, ventilating and wig style and millinery via a series of projects. Culminates in a final project encompassing all techniques. Instruction consent required. This course is ideal for those interested in theatre, film, dance, fine art, architecture, cosplay, fashion, engineering, and game design.
Equivalent - Duplicate Degree Credit Not Granted: THTR 5046
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite THTR 1050.

THTR 4049 (1-4) Special Topics in Theatre
Opportunity for students to explore, upon consultation with the instructor, areas in theatre that the normal sequence of offerings may not allow.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Special Courses in Theatre

THTR 4051 (3) Playwriting
Introductory course in craft of playwriting; primary focus on technique of developing short plays.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: History/Dramaturgy/Directing

THTR 4055 (3) Stage Lighting Design 2
Hands on learning in a creative lab-based environment exploring advanced practices of performance lighting design. Ideal for students excited by technology, working with computers, and complex systems. This course is excellent for students interested in design, lighting design, concert, festival, dance, and nightclub lighting design, all styles of kinetic art, music, storytelling, themed environments, and architecture.
Requisites: Requires prerequisite course of THTR 3055 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 4059 (3) Open Topics in Theatre and Drama
Covers topics not otherwise listed in the curriculum. Topics for each semester are specified in the online Schedule Planner.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Special Courses in Theatre

THTR 4061 (3) Directing
Theory and practice of directing for the stage.
Requisites: Requires prerequisite courses of THTR 1003 or PMUS 1117 or PMUS 1217 or THTR 3053 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: History/Dramaturgy/Directing

THTR 4063 (3) Audition Techniques
Prepares students for the demands of the acting profession. Trains students in various audition techniques including general auditions, prepared auditions, cold readings, on-camera auditions, andcommercial auditions. Shows how to prepare and perfect audition material in a professional and exemplary way. Discusses agents, casting directors, and the process of becoming a professional actor.
Requisites: Requires prerequisite course of THTR 1003 or PMUS 1117 or PMUS 1217 (minimum grade C-). Restricted to students with 27-180 credits (Sophomore, Junior or Senior) Theatre (THTR or TBFA) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 4065 (1-3) Advanced Design Projects.
Practical course in the application of design theory.Students design major costume, lighting, or scenic elements in a season production. Design concept and process must be explained and defended.
Repeatable: Repeatable for up to 6.00 total credit hours.

THTR 4073 (3) Performing Voices of Women
Explores theories underlying the "feminine voice," varied perspectives in prose and poetry, ways of embodying these voices and perspectives in performance forms and ultimately the students' own voices through creation of autobiographical performance pieces (some to be presented for student audiences). Open to both men and women.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4073
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 4075 (1-3) Advanced Technical Projects
Students assume responsibility, under faculty supervision, for planning and executing specific technical responses to a design concept in the department's season productions.
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade

THTR 4081 (3) Senior Seminar
Intellectual and conceptual capstone course for departmental majors with separate sections for theatre and dance students. Course promotes integration of ideas regarding history, criticism, and theory in performance and production. All inquiry throughout the semester relates to the theme of creative process.
Requisites: Restricted to Theatre (THTR, TBFA) or Dance (DNCE or DBFA) majors only (excluding minors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: History/Dramaturgy/Directing

THTR 4085 (3) Theatre Management
Students will learn how arts companies are run and managed, how non profit boards function and more. We will discuss budgeting, season planning, grant writing, unions, marketing and development. The class will include a wide range of guest speaker experts in the industry.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 4095 (1-3) Special Topics in Theatre Design and Technology
Intensive study of specialized topics in theatre technology and design. Topics and credits specified in the online Schedule Planner.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 4103 (3) Acting and Directing for the Camera
Offers an intensive production workshop to prepare actors and directors to work collaboratively and effectively for the medium of the camera. Directing vocabulary, script interpretation, film terminology and acting techniques are applied. Explores situations in which actors and directors interact, from auditions to rehearsals to filming. Requires attendance, textbook readings, research and production responsibilities on both sides of the camera.
Requisites: Requires prerequisite course of THTR 1003 or PMUS 1117 or PMUS 1217 (minimum grade C-). Restricted to students with 27-180 credits (Sophomore, Junior or Senior) Theatre (THTR or TBFA) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 4105 (3) Theatre Make-Up Design
Hands on studio course for students interested in theatre, film, television, entertainment, cosplay and fashion make-up styles and applications. Students will research and create various make-up designs and learn various make-up application techniques and products to conceive and create characters ranging from clowns to 17th, 18th and 19th period and historical styles and stages of old age and special effect make-up. Techniques include ombre blending, removing eyebrows, changes facial features, 3D prosthetics and latex, silicone and foam appliances in the creation of wounds, stages of healing and zombies.
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Special Courses in Theatre

THTR 4113 (3) Comedy Matters
Examines the role of comedy in performance within various cultures through readings, viewings and a participatory exploration. We will analyze comedy within various societies to understand the underlying ideals and values. Throughout this investigation we will seek to understand what makes something comedic, why, for whom, for what purpose, when and under what circumstances.
Equivalent - Duplicate Degree Credit Not Granted: THTR 5113
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 4117 (1-3) Musical Theatre Lab 5: Senior Showcase Experience
Research and identify material from a variety of mediums (theatre, film, television, web-based work, commercial) that best fit preferred performance type and style. Emphasis placed on topically/timely relevant material so that the student becomes most knowledgeable of current trends and practices. Prepared work will be presented at an organized showcase featuring agents, casting professionals and directors providing feedback for continued growth, learning and a new network of industry colleagues.
Repeatable: Repeatable for up to 4.00 total credit hours.
Recommended: Prerequisites TBFA Acting students ¿ completion of Studios 1-4, for PMUS, BMMT and TBFA Musical Theatre students, completion of Labs 1-4, PMUS 1117, 1217, 2117, 3117.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

THTR 4125 (3) Watercolor Illustration and Rendering Techniques
Hands on studio course for the student interested in theatre, film, art and art history, scenic art, illustration, drawing, and painting. This course explores watercolor, gouache, pen and ink, chalk pastels, color pencils and multi-media painting techniques and approaches. Students will gain fluency in exploring, analyzing, and copying various paintings and illustration styles and approaches by famous Illustrators and artists to expand their skillset and painting techniques. Painting supplies must be supplied by the student.
Equivalent - Duplicate Degree Credit Not Granted: THTR 5125
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 4135 (3) Technical Production
Examines the process of and technology for producing theatrical scenery on a limited production timeline.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Theatre Design and Technology

THTR 4143 (3) Shakespeare in Community
Surveys a growing field of arts practitioners who are intersecting Applied Theatre, Shakespeare and community in meaningful ways, including Shakespeare in Prisons, Shakespeare with Veterans and Shakespeare for Inclusive Audiences. Students will explore a variety of methodologies for teaching and practicing Shakespeare and create original work using Shakespeare as a lens for examining a particular theme, topic or social issue.
Equivalent - Duplicate Degree Credit Not Granted: THTR 5143

THTR 4149 (1-3) Theatre Internship
Provides opportunities for theatre majors to explore career opportunities in theatre fields other than, or in addition to, those with performance emphasis. Students apply knowledge and skills developed in their major studies to a practical work experience.
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: Requisite 30 credit hours in THTR.
Additional Information: Departmental Category: Special Courses in Theatre

THTR 4173 (3) Creative Climate Communication
We generate multimodal compositions on the subject of climate change and engage with various dimensions of issues associated with sustainability. We work to deepen our understanding of how issues associated with climate change are or can be communicated, by analyzing previously created expressions from a variety of media (interactive theatre, film, fine art, television programming, blogs, performance art, for example) and then be creating our own work.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 3173 and ATLS 3173
Recommended: Prerequisite ENVS 1000.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Performance

THTR 4175 (3) Conceptualization
Fosters creativity and collaboration through a variety of diverse projects where students conceive of live, performative productions, events and experiences. Offers both individual and team exercises that stimulate visualization, expression, documentation and communication of creative ideas, including their overall scope, aesthetic, style, audience relationship and mode of presentation.
Equivalent - Duplicate Degree Credit Not Granted: THTR 5175
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Special Courses in Theatre

THTR 4193 (1-3) Studio 5: Senior Project
Students engage in a project or projects of their own undertaking that takes a broader experience to apply the craft utilizing self-initiative, collaborative approaches and public exhibition. Instructor consent required for non-BFA THTR performance majors.
Equivalent - Duplicate Degree Credit Not Granted: PMUS 4117
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of THTR 3013 and THTR 3023 and THTR 4013 and THTR 4023 (all minimum grade C-).
Additional Information: Departmental Category: Performance

THTR 4213 (3) Improvisation II: Advanced Improvisation
Continues the student's study of improvisation as a collaborative art form. Whereas Improvisation I introduces students to a variety of techniques, forms and applications of improvisation, this course focuses specifically on long-form improvisation in performance. Previous experience with long-form improvisation is necessary to enroll in this course.
Recommended: Prerequisite course of THTR 3213 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

THTR 4555 (1-2) Production Studio
Requires participation in a Theatre Department production assignment in the areas of design, technology, or management, as well as participation in a semester portfolio review. May be repeated upto 6 total credit hours.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Theatre (TBFA) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre Design and Technology

THTR 4849 (1-3) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Special Courses in Theatre

Dance - Bachelor of Arts (BA)

The University of Colorado Boulder offers a well-established, nationally recognized dance program that encourages the pursuit of one's artistic voice, embodied scholarship and pedagogical exploration.

CU Boulder has an exciting and diversified dance program. Our curriculum is designed to use dance and the body to challenge assumptions about practices, values, technology and sustainability. Our program scaffolds entrepreneurial approaches to art-making based in personal initiative, curiosity and versatility.

We support the vital cultivation of self-awareness alongside a nuanced appreciation of one's positionality within the global conversation.

Somatic studies serve as the integrative tissue in our highly diverse and forward-thinking program.

We are a contemporary program—one that values and provides study in a range of styles and fusion of forms that influence and reflect the multifaceted nature of dance performance today. Our curriculum is designed to develop concrete skills in performance and choreography and to instill an appreciation of the role that dance plays in human culture around the world.

Requirements

Required Courses and Credits

The Bachelor of Arts provides a well-rounded dance education in both technique and theory courses. Students must receive a C- or better in all required courses. No more than 45 credits in DNCE may be applied to overall graduation requirements. Students must have a grade point average of at least 2.000 in the major in order to graduate. Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below.

Students are expected to take a variety of technique styles. A minimum of three different styles, as well as African dance, are required. Students who have not placed in the major technique class (DNCE 2021, DNCE 3041 or DNCE 4061) by their second semester in dance program are strongly advised not to continue in the major program in dance. Placement into and successful completion of major technique is a prerequisite for enrollment in other required dance courses.

Code	Title	Credit Hours
Required Lower-Division Courses		
DNCE 1012	Dance Production	2
DNCE 1013	Dance Improvisation	2
DNCE 1027	Dance in Cultural Perception and Expression	3
DNCE 1908	First Year Dance Seminar	1
DNCE 2501	African Dance	2
Required Major Technique Courses		
Take 6 credit hours from the following courses: [1]		6
DNCE 2021	Major Technique	
DNCE 3041	Major Technique	
DNCE 4061	Major Technique	
Upper-Division Music Course		
Choose one of the following courses:		2
DNCE 3014	Inside the Groove: Developing Rhythmic Skills	
DNCE 3024	SOUND Choices: Enhancing the Music/ Dance Relationship	
Upper-Division Creative Process Course		
Choose one of the following courses:		3
DNCE 3033	Choreographic Resources	
DNCE 3043	Choreographic Process	
Required Production Practicum Courses		
Take 2 credit hours of production practicum, including 1 credit of Run Crew.		2
DNCE 3035	Production Practicum	
Required Upper-Division Courses		
DNCE 3005	Movement Awareness and Injury Prevention for the Dancer	3
DNCE 4017	Dancing Histories: Sex, Gender and Race in U.S. Concert Dance	3
or DNCE 4037	Contemporary Concert Dance: Shifting Perspectives in Performance	
or DNCE 4047	Hip-Hop Dance History	
DNCE 4036	Dance Teaching Practices: Inclusive Approaches to Instruction	3
DNCE 4939	Dance Internship	1
THTR 4029	Performance and Community Engagement	3
THTR 4081	Senior Seminar	3
Electives in Dance Technique		
Take 6 credit hours of DNCE courses with course numbers that end in 1.		6
Required Theatre Production Course		
Choose one of the following courses:		2-3
THTR 2105	Introduction to Performance Design	
THTR 3005	Costume Design 1	
THTR 3015	Scene Design 1	
THTR 3045	Stage Management	
THTR 3055	Stage Lighting Design 1	
THTR 3075	Sound Design	
THTR 4035	Scene Painting	
THTR 4055	Stage Lighting Design 2	
THTR 4095	Special Topics in Theatre Design and Technology (Some sections including Tailoring or Product Design)	
THTR 4105	Theatre Make-Up Design	
THTR 4175	Conceptualization	
THTR 5025	Costume Patterning and Construction	
Total Credit Hours		**47-48**

[1] Students are placed at the appropriate level based on audition. Students without sufficient training will be asked to take nonmajor technique classes to make up the deficiency. These classes will not count toward the major requirement.

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for more information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress toward a BA in dance, students should meet the requirements in the Four-Year Plan section.

Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement and will fulfill the Global Perspective category in the Gen Ed Diversity Requirement.

Year One		
Fall Semester		**Credit Hours**
DNCE 1012	Dance Production	2
DNCE 1027	Dance in Cultural Perception and Expression	3

	Total Credit Hours	**120**

Learning Outcomes

The following areas of knowledge and experience are central to all the undergraduate degrees in dance:

- Physical accomplishment in a range of dance styles and within fusions of various forms, including contemporary, ballet, jazz, hip-hop, transnational fusion, African dance, performance improvisation and other dance traditions from around the world.
- Experience with the process and underlying aesthetics of dance creation, composition and collaboration.
- Basic familiarity with cultural, sociological and aesthetic issues important to the contemporary realities of the field of dance, including a working knowledge of major world dance styles, works of dance literature, theoretical lenses and the history of dance.
- Knowledge of the various means, such as stagecraft, costuming, lighting, make-up, production and projections, through which a public presentation of dance is realized.
- Study and practical experience in dance pedagogy, identifying our purpose, goals and objectives as future educators.
- Basic knowledge of tactics for sustaining wellness, including various somatic approaches to dance training, injury prevention and rehabilitation from injury.
- Experiential study of the relationship between dance and music, including concrete practice of skills in playing and hearing music.

- Opportunities to explore the power of performance for effecting positive social change.

In addition, students completing a degree in dance are expected to acquire the ability and skills to:

- Define their positionality as a maker and thinker of art with responsibility and awareness within their local setting and global conversations.
- Create and perform through dance, theatre, design, technology, research, scholarship and writing.
- Make art that is relevant to their medium of expression, that generates resistance to and expands developed techniques towards contemporary relevance, and aesthetic and artistic excellence.
- Apply diverse theories to critically analyze various performance practices, approaches, compositions, forms, histories, events and scripts.
- Engage with the histories of their art form and the impact of these histories on contemporary performance challenges and opportunities.
- Build communities of greater equity and inclusion within the cultures of theatre and dance, and the broader world.
- Cultivate their responsibility as artist-citizens to have a positive impact on the world and the future.

Dance - Bachelor of Fine Arts (BFA)

The University of Colorado Boulder offers a well-established, nationally recognized dance program that encourages the pursuit of one's artistic voice, embodied scholarship and pedagogical exploration.

Our BFA program is designed to meet the needs of highly curious and motivated students interested in preparing for a professional dance career in performance and/or choreography while in an academic setting. Our curriculum is designed to use dance and the body to challenge assumptions about practices, values, technology and sustainability. Our program scaffolds entrepreneurial approaches to art-making based in personal initiative, curiosity and versatility.

We support the vital cultivation of self-awareness alongside a nuanced appreciation of one's positionality within the global conversation. Somatic studies serve as the integrative tissue in our highly diverse and forward-thinking program.

We are a contemporary program—one that values and provides study in a range of styles and fusion of forms that influence and reflect the multifaceted nature of dance performance today. Our curriculum is designed to develop concrete skills in performance and choreography and to instill an appreciation of the role that dance plays in human culture around the world.

Requirements

Admission Requirements

Students who did not pre-audition into the BFA program and who wish to pursue the BFA can audition during the fall semester of their freshman or sophomore year. If the student is a sophomore auditioning for the BFA, they must be enrolled in or have taken DNCE 3033 or DNCE 3043 in order to be on track to graduate in four years.

Application guidelines for the BFA track are posted each fall semester. The undergraduate director will notify students of faculty decisions regarding their audition. If a student is admitted to the program, they should talk to their primary advisor to have their degree status officially changed from BA to BFA.

The characteristics that the faculty looks for in BFA students are:

- Exceptional technical/expressive ability as demonstrated in class work and performance.
- Choreographic skill or potential as demonstrated through movement invention and appropriate clarity of structure
- Willingness and drive necessary to pursue a professional career in dance.
- Exceptional musicality and rhythmic precision.
- Maturity, organization and a positive attitude.

Required Courses and Credit Hours

Code	Title	Credit Hours
Required Courses		
DNCE 1012	Dance Production	2
DNCE 1013	Dance Improvisation	2
DNCE 1027	Dance in Cultural Perception and Expression	3
DNCE 1908	First Year Dance Seminar	1
DNCE 2501	African Dance	2

THTR 5025	Costume Patterning and Construction	
Some sections of the following including Tailoring or Projection Design:		
THTR 4095	Special Topics in Theatre Design and Technology	
Total Credit Hours		**72-76**

[1] Students are placed at the appropriate level based on audition. Students without sufficient training will be asked to take nonmajor technique classes to make up the deficiency. These classes will not count toward the major requirement.

Additional Requirements

In addition to specified coursework, the BFA student must meet the following requirements:

- Show original choreographic work each semester in Open Space, FRESH or Dance Class Showings.
- Present a concert in conjunction with other senior BFA's in the spring of their senior year.
- By December of their junior year, the student must have formed a committee of two faculty members who will evaluate their concert. The student and First Reader (lead faculty member) of the committee will complete a BFA Concert Form that is given to the Director of Dance Production by January 31 junior year. The Director of Dance Production will help you plan and oversee the production aspects of the show.
- Maintain a 3.2 GPA in required dance and theatre courses. If a student drops below the required GPA by the time of their concert proposal submission (January 31), they will be removed from the BFA and their concert proposal will no longer be considered.

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for more information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress toward a BFA in dance, students should meet the requirements in the Four-Year Plan section.

Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement and will fulfill the Global Perspective category of the Gen Ed Diversity Requirement.

Year One

Fall Semester		**Credit Hours**
DNCE 1012	Dance Production	2
DNCE 1027	Dance in Cultural Perception and Expression	3
DNCE 1908	First Year Dance Seminar	1

	Total Credit Hours	**118-123**

Theatre - Bachelor of Arts (BA)

The BA program in theatre is a broad-based program of theatre practice and study embracing creativity, research and diversity. Through performance and practice, process and research, the BA student will investigate the role of creativity within a liberal arts education. The BA in theatre investigates theatre and performance via historical context, forward-looking practice and a multiplicity of ways of knowing and making.

The BA in theatre also serves as the core of studies for a student who wishes to pursue further theatre training in one of the BFA areas of concentration.

Requirements

Program Requirements

The BA degree program in theatre requires 35 credit hours in theatre and 3 in dance. A grade of C- or better is needed in each required course toward the BA degree, as well as an overall theatre GPA of 2.00. No more than 45 credits in THTR may be applied to overall graduation requirements. Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below.

Required Courses and Credits

Code	Title	Credit Hours
Required Courses		
THTR 1003	Acting 1	3
THTR 1019	Script Laboratory: Text Analysis and Practice for the Theatre	3
THTR 1050	Introduction to Stagecraft and Design	3
THTR 2021	Global Theatre 2: Contemp Relevance and Resonance Forms of Pre-Colonial Modern Theatre and Performan	3

	Total Credit Hours	**120**

Learning Outcomes

The undergraduate degrees in theatre emphasize knowledge and awareness of:

- The major works of dramatic literature that are representative of the most important eras in the development of theatre and drama.
- The history of theatrical production—its styles, conventions and socially related mores—from ancient civilizations to the present time.
- The various means through which a theatrical concept is realized.

- The aesthetic and intellectual relationship between theatre in its various 21st century modes and contemporary society.

In addition, by the completion of the program, students will be able to:

- Define their positionality as a maker and thinker of art with responsibility and awareness within their local setting and global conversations.
- Create and perform through dance, theatre, design, technology, research, scholarship and writing.
- Make art that is relevant to their medium of expression, that generates resistance to and expands developed techniques towards contemporary relevance, and aesthetic and artistic excellence.
- Apply diverse theories to critically analyze various performance practices, approaches, compositions, forms, histories, events and scripts.
- Engage with the histories of their art form and the impact of these histories on contemporary performance challenges and opportunities.
- Build communities of greater equity and inclusion within the cultures of theatre and dance, and the broader world.
- Cultivate their responsibility as artist-citizens to have a positive impact on the world and the future.

Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

BA and MA in Theatre

Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.0 or higher.
- Have completed a minimum of 60 credit hours of coursework.
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder.
- Complete all MAPS deficiencies (students admitted to CU Boulder prior to Summer 2023 only).

The typical student will be a student writing an honors thesis who will use that project as the basis for developing the MA thesis, though this is not mandatory. This new degree program is open only to students enrolled in the BA in theatre degree program at CU Boulder.

Interested students should apply for admission to the BAM by December 15 of their junior year.

Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. However, only 6 credits may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.

If you are interested in the BAM degree program, please contact the theatre graduate program for more information.

Course Requirements

Students must complete the following in addition to the BA requirements.

Code	Title	Credit Hours
Required Courses		
THDN 5010	Introduction to Performance Studies	3
or THTR 5011	Seminar: Theory and Criticism	
THDN 6009	Research and Teaching in Theatre, Dance and Performance Studies	2
Electives		**6**
THTR 6011	Theatre and Performance Histories 1	
THTR 6041	Theatre and Performance Histories 2	
Master's Thesis [1]		
THTR 6959	Master's Thesis	4
Graduate Electives [2]		**6**
Total Credit Hours		**21**

1. The master's thesis is optional. Students choosing the thesis plan complete 4–6 thesis hours. Students choosing the non-thesis plan take additional electives.
2. Thirty credit hours are required to complete the Master of Arts degree. BAM students transfer six undergraduate credits toward their graduate degree.

For more information, visit the department's BAM in Theatre and Performance Studies (https://www.colorado.edu/theatredance/theatre/undergraduates/bam-theatre/) webpage.

Theatre - Bachelor of Fine Arts (BFA)

The BFA degree concentrations in theatre offer pre-professional training to highly-motivated students aiming at professional careers in certain disciplines. The BFA student will pursue one of three concentration areas: acting, design/technology/management or musical theatre. Students may elect to further focus within one of these degree tracks.

Requirements

Admission Requirements

Admission is based on talent, academic record, motivation, auditions and/or interviews. Enrollment is limited to ensure individual attention necessary for effective training. Interested students should identify themselves as early as possible. Contact the department for information regarding how to apply to the BFA degree concentrations.

Formal application to the:

- musical theatre concentration should be made concurrently with an application to the university. Auditions and interviews will be held at the regular spring auditions for the College of Music.
- acting concentration should be made at the beginning of the spring semester.
- design/technology/management concentrations should be made at the beginning of the spring semester.

Students are subject to the requirements in place at the time of admission to the BFA.

General Degree Requirements

The College of Arts & Sciences counts a maximum of 67 credit hours of THTR credits toward the total credit hours required for graduation. A grade of C- or higher is needed in all required courses to fulfill the requirements of the BFA degree, as well as an overall Theatre GPA of 2.00.

In addition to the specific course requirements listed for completing a BFA degree in Acting and Design/Technology/Management concentrations, students must fulfill all requirements for the BA degree in Theatre.

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress toward a BFA in theatre students should meet the following requirements:

- By Dec. 1 of the year before the first semester, declare in writing the intention to audition for the BFA in Musical Theatre.
- During the second semester (acting concentration) or third semester (design/technology/management concentrations), complete the audition and interview.
- Immediately upon acceptance into a BFA concentration declare the major.
- Once accepted into a BFA concentration, meet with a departmental advisor to confirm in writing specific courses to be completed within the remaining semesters of study.

Concentrations

Acting Concentration

The BFA in acting begins as early as the sophomore year. Interested students will begin on the CU Boulder campus as BA students taking a series of preparatory courses. This allows students to begin their training without blindly committing to an intensive curricular path.

As students are eligible to audition for all CU performance opportunities when they arrive on campus, this timeline also gives students and faculty the chance to work together before making a major commitment.

Auditions to transition from BA to BFA in acting generally take place around spring break. The BFA in acting curriculum is designed to be completed in 6 semesters, allowing a student to graduate in 4 years. For students on an alternate timeline (such as transfer students) the curriculum can be completed in as few as 4 semesters.

Visit the Theatre & Dance website (https://www.colorado.edu/theatredance/theatre/undergraduates/theatre-ba-bfa/bfa-acting/) for more information on the BFA in acting.

Design/Technology/Management Concentrations

In addition to the College of Arts and Sciences core requirements, students pursuing a BFA in design, technology or management must complete up to 67 credits in theatre and an additional 15 credits in other disciplines. Students who choose this concentration must elect one primary emphasis (design, technology or management) but may have opportunities to explore other emphases.

The BFA in design/technology/management begins as early as the sophomore year. Interested students will begin on the CU Boulder campus as BA students taking a series of preparatory courses. This allows students to begin their training without blindly committing to an intensive curricular path.

As students are eligible to be involved in all CU performance opportunities when they arrive on campus, this timeline also gives students and faculty the chance to work together before making a major commitment.

Interviews to transition from BA to BFA in design/technology/management generally take place around spring break. The BFA in design/technology/management curriculum is designed to be completed in 6 semesters, allowing a student to graduate in 4 years. For students on an alternate timeline (such as transfer students) the curriculum can be completed in as few as 4 semesters.

For more information on the BFA design/technology/management program, visit the Theatre & Dance (https://www.colorado.edu/theatredance/theatre/undergraduates/theatre-ba-bfa/bfa-design-technology-management/) website.

Musical Theatre Concentration

The BFA in musical theatre begins in the freshman year. Interested students will submit pre-screen audition materials during the fall of their high school senior year. A selection of students from the pre-screen will be invited to audition in person during the winter of their high school senior year (generally late January, early February). Invitations to the program will be made around spring break.

For application timeline, required materials and submission information for the BFA in Musical Theatre, visit the Theatre & Dance (https://www.colorado.edu/theatredance/theatre/undergraduates/theatre-ba-bfa/bfa-musical-theatre/) website.

In addition to coursework, all students are eligible to be involved in all CU performance opportunities when they arrive on campus.

Four-Year Plans of Study

Through the required coursework for all concentrations in the BFA in Theatre, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement.

Acting Concentration

Year One		
Fall Semester		**Credit Hours**
THTR 1003	Acting 1	3
THTR 1019	Script Laboratory: Text Analysis and Practice for the Theatre	3

Dance - Minor

The minor in dance is designed to provide the student with a broad overview of dance as an art form.

Our curriculum is designed to use dance and the body to challenge assumptions about practices, values, technology, sustainability and personal and global positionality. Our program scaffolds entrepreneurial approaches to art-making based in personal initiative, curiosity and versatility. Required courses introduce students to basic elements of dance while the remaining plan is created by the student in conjunction with their primary advisor. If you have specific dance questions, please contact the director of dance or the undergraduate director of dance.

The rules of the College of Arts and Sciences apply in designing each student's program.

Requirements

Declaration of a dance minor is open to any undergraduate student enrolled at CU Boulder, regardless of college or school affiliation.

- A minimum of 18 credit hours must be taken in DNCE courses,[1] including a minimum of 9 upper-division credit hours.[2]
- All coursework applied to the dance minor must be completed with a grade of C- or better. No pass/fail work may be applied. The GPA in all minor coursework must equal 2.00 (C) or greater.
- Students will be allowed to apply no more than 9 credit hours (including 6 upper-division) of transfer work toward a minor.
- Coursework applied toward minor requirements may also be applied toward Gen Ed requirements.

As long as they meet the above requirements, students are free to choose DNCE courses that suit their interests.

1 Up to six credits from the following THTR courses may be used in place of the required DNCE courses: THTR 1003 Acting 1, THTR 3055 Stage Lighting Design 1, THTR 3075 Sound Design, THTR 4039 Musical Theatre Repertory, THTR 4073 Performing Voices of Women, or THTR 4555 Production Studio.

2 Some upper-division DNCE courses may require prerequisites. DNCE classes with 800–900 sections are controlled enrollment sections and require an audition or instructor consent for enrollment.

Theatre - Minor

The minor in theatre is designed to provide students with a broad overview of theatre. Students may declare a theatre minor by contacting their advisor through the Academic Advising Center (https://www.colorado.edu/advising/).

Requirements

Requirements include a minimum of 18 credit hours or THTR or THDN courses, 9 credit hours of which must be upper-division. Students select courses from the theatre curriculum based on their interests and course availability.

All coursework applied to the minor must be completed with a grade of C- or better (no pass/fail work may be applied). The GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher.

Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward the theatre minor.

Students may also count up to 4 credit hours of DNCE courses to apply toward the theatre minor.

Hip-Hop Studies - Certificate

The certificate in hip-hop studies is is designed to emphasize both the theory and practice of hip-hop. Classes immerse students in the culture of hip-hop, as well as develop the critical thinking skills and theoretical context required for understanding hip-hop's socio-historical development and political efficacy.

Hip-hop, which arose in youth communities of color in the 1970s amid political abandonment and economic devastation, has become the most important cultural movement of the last half-century. Practiced in nearly every corner of the globe, it is now one of the most important

through-lines in human culture. To understand hip-hop is to understand the world in which we live. Inclusive excellence is the bedrock of Hip-hop; membership in its community is not defined by subscription to a particular place or race but rather to its unique ethos, which privileges virtuosic innovation as much as historic and self knowledge.

Hip-hop is fundamentally an interdisciplinary form. It does not live in one field alone. Rather, it is a dialogue that occurs across dance, music, visual and verbal arts, as well as history and theory. While the Hip-hop Studies Undergraduate Certificate is housed in the Department of Theatre & Dance, courses are available in other departments, such as History, English, Sociology and Ethnic Studies. Organized in this way, with offerings from several campus departments, the consolidated certificate program is the best way to give students a sense of the richness, complexity, and vitality of Hip-hop.

The certificate in Hip-hop Studies is designed to be an enriching, interdisciplinary supplement to other areas of study. It provides a broad base, which can serve as an entry point to more focused study and practice. While offering rich and rewarding experiences, the undergraduate certificate is not a professional endorsement from Rennie Harris or Larry Southall of the student's skills. Rather, it develops students' appreciation and respect for one of the most important American cultural forms to have emerged in the last half-century.

Requirements

Prerequisites

All currently matriculated undergraduate students at CU Boulder are eligible for admission to the certificate program. Students must submit a Statement of Interest form, found on the Hip-Hop Studies Certificate Website (https://www.colorado.edu/theatredance/theatre/hip-hop-studies-certificate/), to request enrollment in the certificate.

Program Requirements

To earn this certificate, students must complete a total of 18 undergraduate credit hours comprised of both practice-based movement courses and writing/research-based theory courses.

Students must complete a total of 8 credit hours in both the required core theory courses as well as a movement course option as listed below. Students select the remaining 10 credits from an array of pre-approved courses offered on a regular basis in the departments of Theatre & Dance, History, Sociology, Ethnic Studies and English. Additionally, nine of the certificate's 18 credits must be awarded in upper-division courses and no more than nine can come from any one department. Students may petition to have special topics courses in these and other departments approved by their hip-hop studies advisor.

To earn the certificate, students must earn above a grade of C- in each course and meet the undergraduate school's overall GPA requirement.

Western American Studies

The Center of the American West offers an 18-credit undergraduate certificate program in Western American studies for students who have an intellectual commitment to any of a broad range of issues and aspects of the American West, including history and literature, culture and society and economic and environmental challenges facing western communities. Courses involve students in an exploration of the past, an appreciation for traditional and contemporary stories and art in the region and an understanding of western landscapes, ecosystems and the factors that affect them. For more information, visit the department's undergraduate certificate program (https://www.colorado.edu/center/west/academics/undergraduate-certificate-program/) webpage.

Course code for this program is CAMW.

Certificate

- Western American Studies - Certificate (p. 627)

Courses

CAMW 2001 (3) The American West
Students tour the cultural, social, and natural features of the American West, based on readings and presentations by guest speakers from the CU faculty and from important professions and positions in the West. Designed as the foundation course in the Western American Studies certificate program.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomores).
Additional Information: GT Pathways: GT-HI1 - History
Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Arts Humanities

CAMW 3939 (1-3) Center of the American West Internship
Work for public and private organizations on projects that enhance the understanding of various Western American topics and issues (environmental, cultural, public policy, etc.), and which foster students' development as community leaders working for a sustainable West.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite CAMW 2001.

CAMW 4840 (1-4) Independent Study: The American West
Independent Study for Western American Studies certificate program
Requisites: Requires prerequisite course of CAMW 2001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior).

Western American Studies - Certificate

The certificate in Western American studies offers students at CU Boulder a unique regional studies curriculum. The interdisciplinary format allows an exploration of the region's characteristic and evolving issues: from its flora and fauna to its history and literature; and from the political, social, cultural, economic and environmental concerns facing Westerners to the landscapes and ecosystems that they inhabit.

The Center of the American West believes in community and in helping students feel more at home within the larger university. As such, the center hosts gatherings each semester where students and faculty can get to know each other as well as various noteworthy featured guests in a more social, off–campus environment. Students enrolled in the program are also eligible to apply for the Beardsley Family Scholarship.

Requirements

The certificate requires 18 credit hours (9 of which must be at the upper-division level and 9 of which must be outside the student's major). It includes an introductory course and a capstone course, and it allows students to choose the remaining four classes from a variety of academic areas. In this way, students are able to piece together a survey of the American West that aligns with their own unique interests. No more than 6 credits transferred from another institution may apply to the certificate.

Western Civilization Studies

The Benson Center for the Study of Western Civilization offers an undergraduate certificate program, Foundations of Western Civilization, for students interested in a rigorous grounding in Western culture. The certificate promotes critical reflection and academic research on the traditions and issues that characterize Western civilization through the study of Western culture, science and government in their ancient, medieval and modern forms. It helps students understand their role as citizens in a nation founded on the ancient ideals of consensual rule and republican government.

Course code for this program is CWCV.

Certificate

- Foundations of Western Civilization - Certificate (p. 628)

Courses

CWCV 2000 (3) The Western Tradition
Encourages a historical and critical investigation into the formative influences on what is often called Western culture, including religious, political, social and economic factors, and contemporary interpretations and critiques of these developments and concepts. Designed as the foundation course for the Center for Western Civilization.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Arts Sciences Special Courses

CWCV 2010 (3) Topics in Western Civilization
Offers in-depth consideration of one or more foundational traditions in Western civilization.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

CWCV 2840 (1-3) Independent Study
Requires sophomore standing.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

CWCV 3840 (1-3) Independent Study
Requires junior standing.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-86 credits (Junior).

CWCV 4000 (3) Foundations of Western Civilization
Offers in-depth consideration of one or more foundational traditions in Western civilization.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Arts Sciences Special Courses

CWCV 4840 (1-3) Independent Study
Requires senior standing.
Repeatable: Repeatable for up to 8.00 total credit hours.
Requisites: Restricted to students with 87-180 credits (Senior, Fifth Year Senior).

Foundations of Western Civilization - Certificate

Our undergraduate certificate program is for students interested in a rigorous grounding in Western culture, reflecting on its traditions and values, and the certificate itself is the equivalent of an inter-disciplinary minor. The program allows students to study Western culture, science and government in their ancient, medieval and modern forms. The curriculum embraces over 30 courses taught by faculty in departments that include art history, classics, English, German, history, humanities, Italian, philosophy, political science and religious studies.

For more information on the program, requirements and current course offerings, visit the Benson Center's Certificate in Western Civilization webpage or contact the Director.

Requirements

The interdisciplinary curriculum of over 30 courses is taught by faculty in departments that include: classics, English, history, philosophy, religious studies, and Germanic languages and literatures.

The certificate requires the completion with a grade of C- or better of eight courses (24 credit hours), of which 12 credit hours must be at the upper-division level. Up to three courses (or 9 credit hours) may come from the student's major.

In addition, students must fulfill the requirements for a BA in a major in a school or college at the University of Colorado Boulder.

Required Courses and Credits

The required courses are offered each year. Students will enroll in one course from each cluster (9 hours total): literature, history and science.

The elective courses are offered regularly, but not each semester. Students are advised to check with the offering department regarding availability. Some courses may have prerequisites. Additional courses may be petitioned for inclusion in meeting certificate requirements through the center director.

Women and Gender Studies

The Department of Women and Gender Studies offers a Bachelor of Arts degree, a minor, an undergraduate certificate in global gender and sexuality studies, a#graduate certificate#for students enrolled in another disciplinary master's or doctoral degree program and a new graduate Master of Arts degree in Gender and Sexuality Studies. The interdisciplinary field of women and gender studies offers students rigorous and flexible programs of study that examine women, gender and sexuality at the intersections of race, class, ability, nation and empire, among other variables. Students will gain foundational knowledge and skills in feminist, queer and trans theory and methods, while developing critical understanding of the varying relationships between feminist, queer and trans movements and other movements for social justice across the globe. Areas of inquiry include but are not limited to:#gender/sex systems across cultures, historical periods and epistemological traditions; gender and sexuality in literature, the arts and popular culture; legal and public policy issues around gender and sexuality; women's participation in social and cultural production; transnational and anticolonial feminisms; feminist, queer and transgender theories; and LGBTQI politics and histories.

The department is home to one of the university's most diverse faculty, known for their groundbreaking contributions to feminist theories, social justice, and intersectional research and creative work. The department houses a reading library and organizes talks, workshops, and other cultural and educational events.

Many students combine their women and gender studies degree with other departmental offerings across campus as a second major, minor or certificate. Students have coupled the critical thinking skills they learn in women and gender studies with additional fields of study from the College of Arts and Sciences or from other colleges or schools at CU Boulder. For example, a graduate of the department who also completes studies in biology may attend medical school to specialize in women's health; by combining a women and gender studies degree with a focus in business, a graduate could better understand how gender affects the workplace. Students have gone on to careers in fields such as law, medicine, government, public health, social work, teaching, public policy, counseling, advocacy, media, public relations, academia, politics, fundraising, small business development, librarianship and arts administration, among others.

For more information, visit theDepartment of Women and Gender Studies#website.

Course code for this program is WGST.

Bachelor's Degree

- Women and Gender Studies - Bachelor of Arts (BA) (p. 638)

Minors

- Queer and Trans Studies - Minor (p. 645)
- Women and Gender Studies - Minor (p. 647)

Certificate

- Global Gender and Sexuality Studies - Certificate (p. 649)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Courses

WGST 1006 (3) The Social Construction of Sexuality
Discusses the social determinants of sexuality. Analyzes the economic, psychological and cultural influences on human sexuality. Interactional perspective of human sexuality is presented.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 1006
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Sociology

WGST 1016 (3) Sex, Gender, and Society 1
Examines status and power differences between the sexes at individual and societal levels. Emphasizes historical context of gender roles and status, reviews major theories of gender stratification.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 1016
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Sociology

WGST 1250 (3) Introduction to World Literature by Women
This course considers how literature represents gendered experiences across multiple countries and continents. Students will read fiction and poetry by women from South Asia, East Asia, Africa, Europe, and the Americas, that address questions of sexuality, marriage, and family, politics, labor, and justice at the intersections of gender, race, and nation.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 1250
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: English

WGST 1270 (3) Introduction to American Literature by Women
This course investigates how literature by women has shaped the United States over time, from Indigenous authors, to abolitionists, to suffragists, to feminists of various waves. With attention to intersections between class, race, and sexual orientation, students will consider what it has meant and still means to be a woman writer in the United States and will explore how women have engaged, subverted, and resisted ideas about gender.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 1270
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: English

WGST 2000 (3) Introduction to US Gender, Race and Sexuality Studies
Introduces students to the field of Women and Gender Studies. Examines gender issues in the United States from interdisciplinary, intersectional and transnational feminist perspectives across a range of US cultural contexts. Covers such topics as gender identity and performance, sexuality, reproductive justice, gendered violence, work and labor, imperialism and war, and the environment.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
MAPS Course: Social Science

WGST 2020 (3) Femininities, Masculinities, Alternatives
Examines the construction of gender and sexual identities in the modern world. Focuses on the role of social attitudes and material circumstances in shaping how individuals understand themselves and are understood by others, as well as the actions they take to accept, negotiate and resist these pressures.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

WGST 2030 (3) Introduction to Lesbian, Gay, Bisexual, and Transgender Studies
Investigates the social and historical meanings of racial, gender, and sexual identities and their relationship to contemporary lesbian, bisexual, gay and transgender communities.
Equivalent - Duplicate Degree Credit Not Granted: LGBT 2000
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: LGBT Studies

WGST 2050 (3) Gender, Sexuality, and Popular Culture
Explores diverse cultural forms such as film, popular fiction and non-fiction, music videos, public art, websites, blogs and zines which are shaped by, and in turn shape, popular understandings of gender at the intersections of race, class, ability, religion, nation and imperialism.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

WGST 2100 (3) Gender and Sexuality in Ancient Greece
Examines evidence of art, archaeology and literature of Greek antiquity from a contemporary feminist point of view. Focuses on women's roles in art, literature and daily life. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 2100
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Classics

WGST 2110 (3) Gender and Sexuality in Ancient Rome
Uses art, archaeology, and literature to study, from a contemporary feminist point of view, the status of women in works of Roman art and literature, the development of attitudes expressed toward them, and their daily life. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 2110
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Classics

WGST 2200 (3) Women, Gender, Literature, and the Arts
Introduces the contributions of women to literature and the performing arts from a historical and cross-cultural perspective. Emphasizes representations of gender and sexuality, as well as the cultural contexts in which artworks are created. Stresses issues of structure, content, and style, along with the acquisition of basic techniques of literary and arts criticism.
Recommended: Prerequisite WGST 2000.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

WGST 2290 (3) Philosophy and Gender
Analyzes critically the concepts of sex, gender, and their intersection with other aspects of identity, exploring how these impact the extent to which people face injustice because of their gender.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 2290
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Philosophy

WGST 2500 (3) Gender, Race, Sex and the Body
Studies the body as a site for the production of social difference, meaning and inequality. Focuses on the body as a conduit for political, social, and ethical dilemmas and conflicts. Examines a selection of these issues to help students understand what a body is, how bodily difference is constructed, and what this constructed difference signifies.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 2600 (3) Introduction to Global Gender, Race and Sexuality Studies
Introduces students to the field of Women and Gender Studies. Examines gender issues globally from interdisciplinary, intersectional and transnational feminist perspectives across a range of global cultural contexts. Covers such topics as transnational feminism, colonialism and imperialism, indigenous feminisms, religion and politics, immigration and asylum, and climate change.
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Asia Content

WGST 2700 (3) Psychology of Gender and Sexuality
Examines psychological research on gender and sexuality as they intersect with race, class and other social categories. Points of emphasis include differences in cognition, attitudes, personality and social behavior. Conceptual themes include research methodologies, implicit and explicit attitudes, stigma and stereotypes. These elucidate such areas as close relationships, leadership, career success and mental health and happiness.
Recommended: Prerequisite WGST 2000 or PSYC 1001.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

WGST 2800 (3) Women and Religion
Examines roles of women in a variety of religious traditions including Judaism, Christianity, Hinduism, Buddhism and goddess traditions.
Equivalent - Duplicate Degree Credit Not Granted: RLST 2800
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Religioius Studies

WGST 2850 (3) Sex, Religion, and Politics in US Healthcare
Examines the roles of religion, gender, and sexuality in the politics of healthcare in the United States. Topics may include sexual health and education; debates over health and sexuality during the HIV/AIDS crisis; the expansion and contraction of access to birth control; public debates over abortion; debates over religion, politics, and healthcare for transgender people; and histories of religion, health, and race.
Equivalent - Duplicate Degree Credit Not Granted: JWST 2850
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 3012 (3) Gender and Development
Provides a sociological perspective on gender, globalization, and economic development in the Global South. Examines a variety of topics, including feminist theories of development; poverty and inequality; women¿s work in the context of globalization; and women¿s activism and feminism(s).
Equivalent - Duplicate Degree Credit Not Granted: SOCY 3012
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 3001.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sociology
Departmental Category: Asia Content

WGST 3016 (3) Marriage and the Family in the United States
Comparative and historical examination of marriage and the family within the U.S. Emphasizes changing family roles and family structures. Also considers alternatives to the nuclear family and traditional marriage exploring new definitions of family.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 3016
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 3001.
Additional Information: Arts Sci Core Curr: United States Context
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sociology

WGST 3020 (3) Feminist Methods of Inquiry and Praxis
Examines various research methods and approaches in the field of feminist studies. Students will gain practical experience to be able to write a proposal for a significant research project, informed by course readings and discussions.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3044 (3) Race, Class, Gender, and Crime
Overview of race, class, gender and ethnicity issues in offending, victimization and processing by the justice system. Examines women and people of color employed in the justice system.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 3044 and SOCY 3044
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 1001 or SOCY 1004 or SOCY 1021 or SOCY 2044.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sociology

WGST 3046 (3) Topics in Sex and Gender
Faculty present courses based on their area of expertise and specialization in the field of sex and gender. Students should check current sociology department notices of course offerings for specific topics.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 3046
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sociology

WGST 3100 (3) Feminist Theories
Explores a variety of alternative systematic accounts of, and explanations for, gender inequities. Social norms of both masculinity and femininity are analyzed in relation to other axes of inequality such as class, sexuality, race/ethnicity, neocolonialism and the domination of nonhuman nature.
Requisites: Requires a prerequisite course of WGST 2000 or WGST 2020 or WGST 2050 or WGST 2600 (minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3110 (3) Feminist Practical Ethics
Examines issues of public policy and personal ethics in light of the feminist commitment to gender justice. Readings for the course will present competing feminist points of view on topics such as: the environment, sex trafficking, immigration, abortion rights, the fashion and beauty industries, cosmetic surgery, food, and militarism. Contributes to an understanding of gender diversity from a U.S. perspective, fostering further insight into social, political, economic, and cross-cultural relations in America.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 3110
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2290 or PHIL 2290.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

WGST 3135 (3) Chicana Feminisms and Knowledges
Provides insight into the present socioeconomic condition of Chicanas and the concept of feminismo through interdisciplinary study of history, sociology, literary images and film portrayals.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 3136
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite ETHN 2001 or ETHN 2536.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Chicano Studies

WGST 3174 (3) Sex, Power, and Politics: U.S. Perspectives
Explores how norms of sex, gender, race and sexuality find expression in institutions and policies in ways that legitimize only certain individuals as political actors, certain identities as politically relevant, and certain relationships as important. Critically examines how norms may be exposed, resisted and changed by studying the politics of the women's, gay liberation and men's movements in the U.S.
Equivalent - Duplicate Degree Credit Not Granted: PSCI 3174
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite PSCI 2004 or WGST 2000 or LGBT 2000.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Science

WGST 3200 (3) Religion and Feminist Thought
Examines the origin of patriarchal culture in the theology and practices of Judaism and Christianity. Explores attitudes and beliefs concerning women as Judeo-Christian culture impacts gender roles and gender stratification through reading and discussion. Women's religious experience is studied from the perspective of feminist interpretations of religiosity.
Equivalent - Duplicate Degree Credit Not Granted: JWST 3200
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 3201 (3) Women, Gender & Sexuality in Jewish Texts & Traditions
Reads some of the ways Jewish texts and traditions look at women, gender and sexuality from biblical times to the present. Starts with an analysis of the positioning of the body, matter and gender in creation stories, moves on to the gendered aspects of tales of rescue and sacrifice, biblical tales of sexual subversion and power, taboo-breaking and ethnos building, to rabbinic attitudes towards women, sexuality and gender and contemporary renderings and rereadings of the earlier texts and traditions.
Equivalent - Duplicate Degree Credit Not Granted: JWST 3202 and HEBR 3202 and RLST 3202
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective

WGST 3208 (3) Women in Nordic Society: Modern States of Welfare
Examines the role and status of women and marginalized social classes in the Nordic countries, whose societies have been heralded as egalitarian models since the twentieth century. Texts include a variety of media, from literature to sociological works to artifacts of political and popular culture.
Equivalent - Duplicate Degree Credit Not Granted: SCAN 3208
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Nordic (Formerly Scandinavian)

WGST 3210 (3) American Indian Women
Explores the experiences, perspectives and status of American Indian women in historical and contemporary contexts. Examines representations of Indigenous women in mainstream culture. Emphasizes the agency of American Indian women-their persistence, creativity and activism, especially in maintaining Indigenous traditions.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 3213
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2600 or ETHN 2001 or ETHN 1023.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

WGST 3220 (3) Women in Islam
Examines the historical and contemporary relation between women, gender and Islamic cultures in different parts of the world. We will consider the role and rights of women in Islam, historical and literary representations of Muslim women, and the historically changing constructions of gender and sexuality in Muslim societies. In addition, we will critically explore the construction of Muslim women in western discourses, including liberal feminist discourse, and ask whether the representation of Muslim women in these discourses achieves or undermines ends that we might consider "Feminist". In attending to the wide range of Muslim women's lived experiences in Islamic communities and cultures, as well as the self-representations of Muslim women themselves, our readings will urge us to reexamine our presumptions about piety, secularism, modernity and feminism.
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asia Content

WGST 3250 (3) Disney's Women and Girls
Examines the construction of gender, race, class, sexual orientation and disability in a selection of Disney's animated films. Cultivates skills of media literacy, exploring how mass media acts to enforce and maintain conventional gendered understandings of power, privilege and difference. Analyzes the political economy of the Disney phenomenon through a feminist lens.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3267 (3) Women Writers
This course explores how women write about a range of issues, some explicitly gendered, such as desire, sexuality, marriage, and family, and others perhaps less so, such as politics, justice, race, and class. We¿ll consider how women think about their craft, how they approach questions of art and beauty, and whether we should consider writing by women a separate category. Students will examine a range of literature by women, aiming to be inclusive and intersectional.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 3267
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: English

WGST 3300 (3) Gender, Sexuality and U.S. Law
Contemporary and historic overview of U.S. courts' treatment of sex and gender. Using the case method, examines policy issues including, but not limited to: same sex marriage and civil unions; privacy; affirmative action; abortion; reproductive technologies; discrimination based on sex and sexual orientation in education and in the workplace.
Equivalent - Duplicate Degree Credit Not Granted: PSCI 3301
Recommended: Prerequisite WGST 2000 or PSCI 1101.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Political Science

WGST 3302 (3) Facilitating Peaceful Community Change
Students gain knowledge and skills that enable them to become effective agents of community change. Focuses on understanding the processes of community building with a multicultural emphasis. Students are encouraged to apply their own life experiences and to examine themselves as potential change agents.
Equivalent - Duplicate Degree Credit Not Granted: INVS 3302
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3311 (3) Gender and U.S. Politics: Protest, Polls and Policy
Provides an overview and critical examination of women as political actors within the United States. Students will examine the gendered components of citizenship, election, political office and public policy. Furthermore, students will explore the ways in which gender intersects with class, race, ethnicity, sexual orientation and other identities in U.S. politics.
Equivalent - Duplicate Degree Credit Not Granted: PSCI 3311
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3314 (3) Violence Against Women and Girls
Focuses on aspects of the victimization of women and girls that are "Gendered" - namely, sexual abuse and intimate partner abuse. Also explores the importance of race, class and sexuality in gendered violence.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 3314 and SOCY 3314
Recommended: Prerequisite SOCY 1016 or WGST 1016.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3400 (3) Gender, Personality, and Culture
Explores the relationship among gender, culture and personality. Brings together the disciplines of psychology and sociology in the study of gender and personality formation through investigation of psychoanalytic theory and the social environment.
Recommended: Prerequisite WGST 2000 or WGST 2700.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3410 (3) Gender, Sexuality and Culture in the Modern Middle East
Examines the issues of gender and sexuality in the modern Middle East and North Africa from the colonial period to the present, focusing on how feminist movements, Arab women's writing, and constructions of gender and sexuality have been shaped by local, national and international factors. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: ARAB 3410
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Arabic

WGST 3500 (3) Global Gender Issues
Introduces global gender issues, such as the gendered division of labor in the global economy, migration, women's human rights, environmental issues, gender violence in war, women in the military, nationalism and feminism and the representation of the Third World in the United States. Offers students the opportunity to broaden their perspectives beyond the borders of the United States.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2050 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Asia Content

WGST 3505 (3) Historical and Contemporary Issues of African American Women
Explores the social, economic, political, historical and cultural role of African American women from an interdisciplinary perspective. Special emphasis is placed on African American women's rich oral and literary tradition.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or ETHN 1022 or ETHN 2001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3510 (3) Gender, Sexuality and Global Health
Examines the intersections of gender, sexuality and health in global perspective. Explores how men's and women's health are shaped by gender and sexual relations in a wide range of social contexts, including South and Southeast Asia, Latin America, sub-Saharan Africa and the United States.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sociology

WGST 3520 (3) Gender and Sexuality in Africa
Examines the dramatic changes occurring across the continent of Africa that are currently reworking gender and sexuality. Foregrounds African conceptions of feminism, and explores a range contemporary issues, including gender & health, modern womanhood, new African masculinities, LGBTQ rights, and the gendered implications of environmental change.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Requisites WGST or WGST 2600.
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3600 (3) Latina/x Studies
Drawing from work produced by and about Latinas/xs, discusses the social and cultural construction of race and ethnicity alongside gender and sexuality, the function of nationalism, the politics of migration and citizenship, Latina/x literary production and theory, historiographical trends, Latina feminist theory, activism and the academy, and Latina/x political organizing.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2050 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3601 (3) German Women Writers
Explores writing by German/Austrian women from 1945 to the present, with special attention to the representation of the Holocaust, the continuation of avant-garde traditions, innovations in literary form and feminism. Visual arts, film and feminist theory will also be considered in their relation to literature. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 3601
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: German

WGST 3610 (3) Gender, Race, Science and Technology
Examines the role of science and technology in forming conceptions of race, gender and class, and vice-versa. Considers how some populations benefit from scientific knowledge-production while others are excluded or come to be its subjects. Students will explore this knowledge production through historical, anthropological, literary, and philosophical investigations of technology and scientific inquiry.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Requisites WGST 2000 or WGST 2050 or WGST 2500 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

WGST 3620 (3) Women of Color and Activism
Surveys the history of social activism in the United States by Women of Color with an emphasis on modes of social activism, issues that have organized specific communities of color, and issues that have crossed ethnic/racial boundaries. In order to offer students a historical understanding of how Women of Color have been marginalized, as well as how they have fought back against this marginalization, this course relies upon historical, sociological, and theoretical readings.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2020 or WGST 2050 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3640 (3) Black Feminist and Womanist Theories
Examines theoretical and activist approaches concerning the oppression, agency, and liberation of Black girls, women, and femmes. Traces the development of Black feminisms and womanisms created, co-constructed, and advanced by Black women and femmes, including Black feminist thought, Africana womanism, intersectionality, Black trans feminism, hip hop feminism, pan-African feminism, and transnational Black feminism. Explores themes, assumptions, interventions, and variants of Black feminist and womanist theories and praxes.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2020 or WGST 2050 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3650 (3) Gender and Politics in Latin America
Examines Latin American politics with particular focus on women's participation in social movements, war, revolution and elections. Compares women's and men's politics and activism and examines changing gender and sexuality policies, gender relations and the differential impact of political, economic, and social changes on men and women.
Equivalent - Duplicate Degree Credit Not Granted: PSCI 3052
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite WGST 2600 or PSCI 2012 or PSCI 3032.
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Political Science

WGST 3670 (3) Gender, Race, Sexuality and Global Migration
Engages in an interdisciplinary study of the intersections of gender, race and sexuality that have created a multicultural, multiethnic and multiracial world. Focuses on the effects of political, economic, social and cultural forces on gender, race and sexuality in migrant communities.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Ethnic Studies

WGST 3672 (3) Who Runs the World? Sex, Power, and Gender in Geography
This course will examine how gender and sexuality is constructed locally, nationally, and globally, drawing on conversations about feminist pasts, presents, and futures. We will focus on how gender intersects with race, class, sexuality, ability, religion, ethnicity, and geopolitical location to structure the lived experiences of women across the globe. We will apply critical geographic perspectives to gender inequality, exploring the overlaps and differences in women¿s and LGBTQ+ struggles as they are shaped by ongoing socio-cultural, political, and economic conditions globally.
Equivalent - Duplicate Degree Credit Not Granted: GEOG 3672
Recommended: Prerequisite GEOG 1982 or GEOG 1992 or GEOG 2002 or GEOG 2412 or WGST 2000 or WGST 2600.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Geography

WGST 3701 (3) Topics in U.S. Gender and Sexuality Studies (AH)
Examines selected topics in women, gender and sexuality in the arts and humanities, from a U.S. perspective.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 3702 (3) Topics in U.S. Gender and Sexuality Studies (SS)
Examines selected topics in women, gender and sexuality in the social sciences, from a U.S. perspective.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3711 (3) Topics in Global Gender and Sexuality Studies (AH)
Examines selected topics in women, gender and sexuality in the arts and humanities, from a global perspective.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 3712 (3) Topics in Global Gender and Sexuality Studies (SS)
Examines selected topics in women, gender and sexuality in the social sciences, from a global perspective.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 3750 (3) Women in Buddhism
Explores diverse representations of the female in Buddhist literature and the social realities of actual women in Asian historical contexts. Through case studies that traverse Buddhist Asia, we delve into monastic views of the female body, philosophical analyses of the emptiness of gender, idealized images of the feminine in Buddhist tantra and contemporary issues such as the nun's revival moment.
Equivalent - Duplicate Degree Credit Not Granted: RLST 3750
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Religioius Studies
Departmental Category: Asia Content

WGST 3767 (3) Feminist Fictions
Examines a series of literary texts to consider how writers across the world have used fiction to creatively stage and reimagine gender and sexuality. Attends to the formal and narrative techniques by which these texts call attention to the fictionality, and thereby the creative malleability, of gender itself. Some cinematic and performance texts will also be included.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 3767
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: English

WGST 3800 (3) Advanced Writing in Feminist Studies
Offers expository writing and training in analytical and descriptive skills, structures or argument, critical thinking, the rhetoric of persuasion, and the development of a personal voice. Readings and papers focus on basic issues in gender studies.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Written Communication-Upper

WGST 3930 (1-6) Women and Gender Studies Internship
Provides field experience in local and national government and non-governmental agencies focusing on women and gender-related issues. Supervision by approved field instructors. Students must relate their academic experience to their field work experience though a portfolio and a final paper. Department enforced prerequisite: 6 hours of course work in Women and Gender Studies and 30 cumulative credit hours.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

WGST 3940 (1) Practicum in Women and Gender Studies
Enriches the academic experience of majors and minors within Women and Gender Studies. Usually will combine readings from books with lectures and discussions, community outreach and in-house publications spanning the interdisciplinary focus of the department.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to Womens Studies (WGST) majors or minors only.

WGST 4001 (3) Advanced Topics in Gender and Sexuality Studies (AH)
Provides an advanced interdisciplinary course organized around a specific issue in the arts and humanities relating to gender and sexuality.
Equivalent - Duplicate Degree Credit Not Granted: WGST 5001
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 4002 (3) Advanced Topics in Gender and Sexuality Studies (SS)
Provides an advanced interdisciplinary course organized around a specific issue in the social sciences relating to gender and sexuality.
Equivalent - Duplicate Degree Credit Not Granted: WGST 5002
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 4010 (3) Gender, Genocide and Mass Trauma
Studies the persistence of genocide and the effects of mass trauma on women and girls. Within the framework of political and social catastrophe, examines cataclysmic world events and the traumatic consequences for women of religious persecution, colonialism, slavery and the genocides of the 20th and 21st centuries.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 4000
Recommended: Prerequisite SOCY 1016 or WGST 1016 or WGST 2000 or SOCY 3314 or WGST 3314.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sociology

WGST 4016 (3) Sex, Gender and Society 2
Studies status and power differences between the sexes at individual, group and societal levels. Examines empirically established sex differences and reviews biological, psychological and sociological explanations for gender differences.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 4016
Requisites: Requires a prerequisite course of SOCY 1016 or WGST 1016 or WGST 2000 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sociology

WGST 4073 (3) Performing Voices of Women
Explores theories underlying the "feminine voice," varied perspectives in prose and poetry, ways of embodying these voices and perspectives in performance forms and ultimately the students' own voices through creation of autobiographical performance pieces (some to be presented for student audiences). Open to both men and women.
Equivalent - Duplicate Degree Credit Not Granted: THTR 4073
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Theatre

WGST 4086 (3) Family and Society
Studies the changing relationship between family and social structure. Examines variations in family organization and considers political, social, ideological, demographic and economic determinants of family formation.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 4086
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite SOCY 3001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Sociology

WGST 4100 (3) Indigenizing Feminism: Literature, Art, Film
Through analysis of literature and films by Indigenous and non-Indigenous writers and filmmakers, this course explores issues of gender in Indigenous communities in the Americas, gender and power distribution within Indigenous communities, related national and global politics, legal and economic systems, migration, and environmental issues, among other topics. This course also studies how colonization and the imposition of patriarchy has transformed Indigenous societies by diminishing the power, status, and material circumstances of Indigenous women.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 4200 (3) Religion and Reproductive Politics in the United States
Focuses primarily on how Protestant, Catholic, and Jewish conversations about sexuality and reproduction have shaped access and attitudes towards reproductive health in the US over the course of the twentieth and twenty-first centuries.
Equivalent - Duplicate Degree Credit Not Granted: JWST 4200, WGST 5200 and JWST 5200
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective

WGST 4277 (3) Special Topics in Women Writers
This course focuses on a special topic or issue in works written by women. Topics vary by semester, and may focus on a particular historical period or literary genre. Students may consider writing by women as itself a genre, asking what unites these works in terms of both subject and style. Check department description for details.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 4277
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 4287 (3) Special Topics in Queer Literature
This course will focus on a special topic in queer literature and non-normative genders and sexualities. Students will consider how literature reflects and represents understandings of sexuality, gender, desire, and more; the course may engage a variety of genres. Topics vary by semester. Check department description for details.
Equivalent - Duplicate Degree Credit Not Granted: LGBT 4287 and ENGL 4287
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 4300 (3) Sex, Power, Politics: International Perspectives
Studies the commercial trade of sexual labor in the global economy, examining theories and assumptions about sexual-economic exchanges and gendered and racialized relations of power in the sex trade. Emphasizes prostitution.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite WGST 2600 or WGST 3100.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 4301 (3) Gender, Race and Immigration in Germany and Europe
Introduces students to debates surrounding migration and race in contemporary Germany with comparisons to other European contexts. Emphasis on reading texts in context using tools of cultural studies, integrating analyses of gender, race, nation, and sexuality. Texts may include film, literature, television, social media, news media, political posters, etc. Topics include: race and racisms, Black and women of color feminisms, Roma feminisms, Muslim feminisms, notions of integration and citizenship, and more. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 4301 and AHUM 4301 and GRMN 5301
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: German

WGST 4331 (3) Gender, Race, Class, and Sexuality in Popular Culture
Studies the construction, interconnections, and replications of gender, race, class and sexuality in popular culture and how these constructs become cultural norms and mores. Uses critical methods with a focus on producing responsible viewers and readers.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 4400 (3) Critical Inquiries in Transgender Studies
Examines theories, methods and debates in the emerging field of transgender studies. Drawing on interdisciplinary perspectives, this course examines transgender identities, communities and political movements in different historical and cultural contexts. Focuses on crosscutting issues that shape transgender subjectivities, with special attention given to how transgender movements negotiate race, class, sexuality, labor, culture and nation.
Equivalent - Duplicate Degree Credit Not Granted: LGBT 5400 and LGBT 4400 and WGST 5400
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: LGBT Studies

WGST 4471 (3) Women in 20th-21st Century Russian, East European and Eurasian Cultures
Examines issues facing women in 20th-21st century Russia, East Europe, Caucasus and Central Asia, based on study of current events, history, literature, posters and film. Studies images of women as Amazons and rebels, salon hostesses and poets, New Soviet Women and women in combat, prostitutes and mothers. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: REES 4471 and REES 5471
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite lower level literature or culture course.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Russian

WGST 4500 (3) Gender Politics and Global Activism
Addresses the problems and challenges women face around the world and the ways in which women have mobilized to address them. Explores political activism at the local, national, regional and global levels. Focuses on different forms of activism, including strategies aimed at working with and within governmental institutions, as well as outside and against them.
Equivalent - Duplicate Degree Credit Not Granted: PSCI 4391
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

WGST 4619 (3) Women in East Asian History
Considers major issues in the history of women in East Asia (China, Korea, Japan) in the 17th through 20th centuries. Focuses on gender roles in Asian family, state and cultural systems. Topic varies in any given semester.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4619 and HIST 5619
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: History
Departmental Category: Asia Content

WGST 4636 (3) Lesbian and Gay History: Culture, Politics, and Social Change in the U.S.
Considers current theoretical approaches to the history of sexuality and traces the changing meaning of same-sex sexuality in the U.S. through investigation of lesbian and gay identity formation, community development, politics, and queer cultural resistance.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4636 and HIST 5636
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite HIST 1015 or HIST 1025 or LGBT 2000 or WGST 2000 or WGST 2600.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WGST 4640 (3) Women, Gender and War
Study of how women experience war, how the structure, practice and memory of war, and the rights and obligations of military service (masculinity and femininity) are structured by the gender system.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4640
Recommended: Prerequisite HIST 1015 or HIST 1020 or HIST 1025 or HIST 1123 or HIST 1628 or HIST 1708.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: History

WGST 4800 (3) Senior Colloquium in Feminist Studies
Provides students with the opportunity to actively reflect on their education and to complete a research project that incorporates an interdisciplinary and feminist approach to the study of gender, class, race, ethnicity and sexuality. Offered each spring.
Requisites: Requires prerequisite courses of (WGST 2000 or WGST 2600) and (WGST 3020 or WGST 3100) (all minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Womens Studies (WGST) majors or minors only.

WGST 4840 (1-6) Independent Study
Department enforced prerequisite: over minimum GPA of 3.3.
Repeatable: Repeatable for up to 7.00 total credit hours.

WGST 4850 (3) Gender in Hagiography
Explores gendered ideals of sainthood in medieval hagiographic literature. We draw primarily from the lives of female mystics in Buddhist and Christian sources and also examine the construction of mendicant masculinities. Reading from an array of primary sources, we query the category of mysticism and ask why visionary experience has so often been gendered female.
Equivalent - Duplicate Degree Credit Not Granted: RLST 4850 and RLST 5850
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Religioius Studies

WGST 4950 (3) Honors Research
For qualified Women and Gender Studies majors working on the research phase of departmental honors. Department enforced prerequisite: overall GPA of 3.3.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sciences Honors Course

WGST 4999 (1-3) Senior Honors Thesis
Qualified Women and Gender Studies majors may write an honors thesis, an in-depth research paper, on a topic of choice. Thesis hours available to majors only after successfully completing the research phase.
Requisites: Restricted to Womens Studies (WGST) majors only.
Additional Information: Arts Sciences Honors Course

Women and Gender Studies - Bachelor of Arts (BA)

The interdisciplinary women and gender studies undergraduate major and minor offer students a rigorous and flexible program of study that examines women, gender and sexuality in relation to race, class, ability, nation and empire, among other variables. Students explore how gender and sexuality intersect with structures of power in a range of cultural, historical and geopolitical contexts. Drawing from approximately 50 courses, many cross-listed with other academic units, students fulfill the requirements of the major or minor and can design an emphasis relevant to their interests by focusing on one of three cognate areas: 1) gender/sexuality, 2) race/ethnicity and 3) global/transnational.

Requirements

General Requirements

In addition to the general requirements of the College of Arts and Sciences, students must complete a minimum of 33 credit hours with grades of C- or better in approved women and gender studies courses, a minimum of 24 credit hours of which must be upper-division (3000- or 4000-level). No more than 45 credits in WGST may be applied to overall graduation requirements. Students must have a grade point average of at least 2.000 in the major in order to graduate.

The Department of Women and Gender Studies offers two undergraduate major concentration areas culminating in the Bachelor of Arts (BA) in Women and Gender Studies. Students choose to pursue either the women and gender studies concentration or the queer and trans studies concentration. For the specific major course requirements, see the Concentration Areas tab.

Concentration Areas

Women and Gender Studies Concentration

Code	Title	Credit Hours
Required Courses		
WGST 2000	Introduction to US Gender, Race and Sexuality Studies	3
or WGST 2600	Introduction to Global Gender, Race and Sexuality Studies	
WGST 3020	Feminist Methods of Inquiry and Praxis	3
WGST 3100	Feminist Theories	3
WGST 4800	Senior Colloquium in Feminist Studies	3
Cognate Areas		
At least three courses, one from each of the three cognate areas (see below)		9
Electives [1]		
Two upper-division approved WGST elective courses (those listed under upper-division electives or cognate areas below)		6
Two additional lower- or upper-division approved WGST elective courses (see below)		6
Total Credit Hours		**33**

[1] Internships and independent study credit hours may apply, as well as special topics courses (WGST 3701, WGST 3702, WGST 3711, WGST 3712, WGST 4001 and WGST 4002); see advisor or department for more information.

Cognate Areas

Students must take three courses (for a total of 9 credit hours), one each from the three following cognate areas. Select topics offerings of special topics courses may apply to cognate areas; see advisor or department for more information.

Queer and Trans Studies Cognate Area

Code	Title	Credit Hours
At least one course (3 credit hours) from the queer and trans studies cognate area		3
LGBT 3710	Topics in LGBT Studies	
LGBT/ENGL 3796	Queer Theory	
WGST 3600	Latina/x Studies (may count for queer and trans studies or race/ethnicity, but not both)	
WGST/ENGL 3767	Feminist Fictions (may count for global/transnational or queer and trans studies, but not both)	
WGST/LGBT/ENGL 4287	Special Topics in Queer Literature	
WGST 4300	Sex, Power, Politics: International Perspectives (may count for global/transnational or queer and trans studies, but not both)	
WGST/LGBT 4400	Critical Inquiries in Transgender Studies	
WGST/HIST 4620	(may count for global/transnational or queer and trans studies, but not both)	
WGST/HIST 4636	Lesbian and Gay History: Culture and Politics and Social Change in the U.S.	

Race/Ethnicity Cognate Area

Code	Title	Credit Hours
At least one course (3 credit hours) from the race/ethnicity cognate area		3
DNCE 4017	Dancing Histories: Sex, Gender and Race in U.S. Concert Dance	
ETHN 3026	Women of Color: Chicanas in U.S. Society	
WGST/ETHN/SOCY 3044	Race, Class, Gender, and Crime	
WGST 3135/ETHN 3136	Chicana Feminisms and Knowledges	
WGST 3210/ETHN 3213	American Indian Women	
WGST/PSCI 3311	Gender and U.S. Politics: Protest, Polls and Policy	
WGST 3505	Historical and Contemporary Issues of African American Women	
WGST 3600	Latina/x Studies (may count for queer and trans studies or race/ethnicity, but not both)	
WGST 3610	Gender, Race, Science and Technology	
WGST 3620	Women of Color and Activism	
WGST 3640	Black Feminist and Womanist Theories	
WGST 3650/PSCI 3052	Gender and Politics in Latin America (may count for global/transnational or race/ethnicity, but not both)	
WGST 4100	Indigenizing Feminism: Literature, Art, Film (may count for global/transnational or race/ethnicity, but not both)	
WGST/GRMN 4301	Gender, Race and Immigration in Germany and Europe (may count for global/transnational or race/ethnicity, but not both)	
WGST/MDST 4331	Gender, Race, Class, and Sexuality in Popular Culture	
WGST/HIST 4619	Women in East Asian History	

Global/Transnational Cognate Area

Code	Title	Credit Hours
At least one course (3 credit hours) from the race/ethnicity cognate area		3
DNCE 4017	Dancing Histories: Sex, Gender and Race in U.S. Concert Dance	
ETHN 3026	Women of Color: Chicanas in U.S. Society	
WGST/ETHN/SOCY 3044	Race, Class, Gender, and Crime	
WGST 3135/ETHN 3136	Chicana Feminisms and Knowledges	
WGST 3210/ETHN 3213	American Indian Women	
WGST/PSCI 3311	Gender and U.S. Politics: Protest, Polls and Policy	
WGST 3505	Historical and Contemporary Issues of African American Women	
WGST 3600	Latina/x Studies (may count for queer and trans studies or race/ethnicity, but not both)	
WGST 3610	Gender, Race, Science and Technology	
WGST 3620	Women of Color and Activism	
WGST 3640	Black Feminist and Womanist Theories	
WGST 3650/PSCI 3052	Gender and Politics in Latin America (may count for global/transnational or race/ethnicity, but not both)	
WGST 4100	Indigenizing Feminism: Literature, Art, Film (may count for global/transnational or race/ethnicity, but not both)	
WGST/GRMN 4301	Gender, Race and Immigration in Germany and Europe (may count for global/transnational or race/ethnicity, but not both)	
WGST/MDST 4331	Gender, Race, Class, and Sexuality in Popular Culture	
WGST/HIST 4619	Women in East Asian History	

Lower-Division Electives

Code	Title	Credit Hours
No more than 6 credit hours of lower-division electives		0-6
LGBT 2000/ WGST 2030	Introduction to Lesbian, Gay, Bisexual, and Transgender Studies	
LGBT/ENGL 2707	Introduction to Queer Literature	
LING 2400	Language, Gender and Sexuality	
WGST/SOCY 1006	The Social Construction of Sexuality	
or WGST 1016	Sex, Gender, and Society 1	
or SOCY 1016	Sex, Gender, and Society 1	
WGST/ENGL 1250	Introduction to World Literature by Women	
or WGST 1270	Introduction to American Literature by Women	
or ENGL 1270	Introduction to American Literature by Women	
WGST 2020	Femininities, Masculinities, Alternatives	
WGST 2050	Gender, Sexuality, and Popular Culture	
WGST/CLAS 2100	Gender and Sexuality in Ancient Greece	
WGST/CLAS 2110	Gender and Sexuality in Ancient Rome	
WGST 2200	Women, Gender, Literature, and the Arts	
WGST/PHIL 2290	Philosophy and Gender	
WGST 2500	Gender, Race, Sex and the Body	
WGST/PSYC 2700	Psychology of Gender and Sexuality	
WGST/RLST 2800	Women and Religion	

Upper-Division Electives

Code	Title	Credit Hours
Select additional courses from the three cognate areas above or from the following upper-division electives below, total credits toward the degree must equal 33 credit hours		6-12
CINE 3013	Women and Film	
COMM 3420	Gender and Communication	
ENGL 3217	Topics in Gender and Sexuality	
ITAL 4730	Italian Feminisms: Culture, Theory, and Narratives of Difference	
PSYC 4553	Women's Mental Health: A Biopsychosocial Approach	
WGST/SOCY 3016	Marriage and the Family in the United States	
WGST/PHIL 3110	Feminist Practical Ethics	
WGST/PSCI 3174	Sex, Power, and Politics: U.S. Perspectives	
WGST/JWST 3200	Religion and Feminist Thought	
WGST 3201/ JWST 3202/RLST 3202	Women, Gender & Sexuality in Jewish Texts & Traditions	
WGST/ENGL 3267	Women Writers	
WGST/INVS 3302	Facilitating Peaceful Community Change	
WGST 3400	Gender, Personality, and Culture	
WGST/GRMN 3601	German Women Writers	
WGST/RLST 3750	Women in Buddhism	
WGST 3800	Advanced Writing in Feminist Studies	
WGST/THTR 4073	Performing Voices of Women	
WGST/SOCY 4086	Family and Society	
WGST/JWST 4200	Religion and Reproductive Politics in the United States	
WGST/ENGL 4277	Special Topics in Women Writers	
WGST/REES 4471	Women in 20th-21st Century Russian, East European and Eurasian Cultures	
WGST/HIST 4616		
WGST/HIST 4626		
WGST/HIST 4640	Women, Gender and War	
WGST/RLST 4850	Gender in Hagiography	

Honors

Students may take up to 6 credit hours of honors in women and gender studies; credit hours apply to upper-division electives in the major.

For more information about pursuing departmental honors, visit the department honors (http://www.colorado.edu/wgst/students/undergraduates/wgst-honors-program/) webpage and the main Honors Program (http://www.colorado.edu/honors/graduation/) webpage describing qualifications, requirements and deadlines.

Code	Title	Credit Hours
WGST 4950	Honors Research	3
WGST 4999	Senior Honors Thesis	1-3

Internship

Students may take up to 6 credit hours of internship in women and gender studies; credit hours apply to upper-division electives in the major. See advisor or department for more information.

Code	Title	Credit Hours
WGST 3930	Women and Gender Studies Internship	1-6

Special Topics

Students may take up to 6 credit hours in WGST topics courses; course topics vary each semester. Ask the women and gender studies advisor or department about how each course applies to major cognate area requirements, if applicable.

Code	Title	Credit Hours
WGST 3701	Topics in U.S. Gender and Sexuality Studies (AH)	3
WGST 3702	Topics in U.S. Gender and Sexuality Studies (SS)	3
WGST 3711	Topics in Global Gender and Sexuality Studies (AH)	3
WGST 3712	Topics in Global Gender and Sexuality Studies (SS)	3
WGST 4001	Advanced Topics in Gender and Sexuality Studies (AH)	3
WGST 4002	Advanced Topics in Gender and Sexuality Studies (SS)	3

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for more information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a

requirement for the major. To maintain adequate progress in women and gender studies, students should meet the following requirements:

- By the beginning of the second semester, declare the major.
- By the end of the fourth semester, complete WGST 2000 or WGST 2600, and 9 additional credit hours of major requirements.
- By the end of the sixth semester, complete WGST 3100 and 6 additional credit hours of major requirements (24 credit hours total of the major requirements completed).
- During the seventh and eighth semester, complete WGST 4800 and 6 additional credit hours of the major requirements.

Students should consult with their advisor for specific recommendations. The following sample plan will outline the major requirements, but the order of some classes can vary greatly. It is important for students to check the degree audit and work with the major advisor each semester to make sure of the requirements and graduation timeline.

Queer and Trans Studies Concentration

Code	Title	Credit Hours
Required Courses		
LGBT 2000/ WGST 2030	Introduction to Lesbian, Gay, Bisexual, and Transgender Studies	3
LGBT 3796	Queer Theory	3

WGST 2020	Femininities, Masculinities, Alternatives	
WGST 2050	Gender, Sexuality, and Popular Culture	
WGST/CLAS 2100	Gender and Sexuality in Ancient Greece	
WGST/CLAS 2110	Gender and Sexuality in Ancient Rome	
WGST 2200	Women, Gender, Literature, and the Arts	
WGST/PHIL 2290	Philosophy and Gender	
WGST 2500	Gender, Race, Sex and the Body	
WGST/PSYC 2700	Psychology of Gender and Sexuality	
WGST/RLST 2800	Women and Religion	

Upper-Division Electives

Code	Title	Credit Hours
Select additional courses from the three cognate areas above or from the following upper-division electives below, total credits toward the degree must equal 33 credit hours		6-12
CINE 3013	Women and Film	
COMM 3420	Gender and Communication	
ENGL 3217	Topics in Gender and Sexuality	
ENGL/LGBT 4287	Special Topics in Queer Literature	
ITAL 4730	Italian Feminisms: Culture, Theory, and Narratives of Difference	
PSYC 4553	Women's Mental Health: A Biopsychosocial Approach	
WGST/SOCY 3016	Marriage and the Family in the United States	
WGST/PHIL 3110	Feminist Practical Ethics	
WGST/PSCI 3174	Sex, Power, and Politics: U.S. Perspectives	
WGST/JWST 3200	Religion and Feminist Thought	
WGST 3201/JWST 3202/RLST 3202	Women, Gender & Sexuality in Jewish Texts & Traditions	
WGST/ENGL 3267	Women Writers	
WGST/INVS 3302	Facilitating Peaceful Community Change	
WGST 3400	Gender, Personality, and Culture	
WGST/GRMN 3601	German Women Writers	
WGST/RLST 3750	Women in Buddhism	
WGST 3800	Advanced Writing in Feminist Studies	
WGST/THTR 4073	Performing Voices of Women	
WGST/SOCY 4086	Family and Society	
WGST/JWST 4200	Religion and Reproductive Politics in the United States	
WGST/ENGL 4277	Special Topics in Women Writers	
WGST/REES 4471	Women in 20th-21st Century Russian, East European and Eurasian Cultures	
WGST/HIST 4616		
WGST/HIST 4626		
WGST/HIST 4636	Lesbian and Gay History: Culture and Politics and Social Change in the U.S.	
WGST/HIST 4640	Women, Gender and War	
WGST/RLST 4850	Gender in Hagiography	

Honors

Students may take up to 6 credit hours of honors in women and gender studies; credit hours apply to upper-division electives in the major.

For more information about pursuing departmental honors, visit the department honors (http://www.colorado.edu/wgst/students/undergraduates/wgst-honors-program/) webpage and the main Honors Program (http://www.colorado.edu/honors/graduation/) webpage describing qualifications, requirements and deadlines.

Code	Title	Credit Hours
WGST 4950	Honors Research	3
WGST 4999	Senior Honors Thesis	1-3

Internship

Students may take up to 6 credit hours of internship in queer and trans studies or in women and gender studies; credit hours apply to upper-division electives in the major. See advisor or department for more information.

Code	Title	Credit Hours
LGBT 3930	Lesbian, Gay, Bisexual, Transgender, and Queer Studies Internship	1-6
WGST 3930	Women and Gender Studies Internship	1-6

Special Topics

Students may take up to 6 credit hours in LGBT or WGST topics courses; course topics vary each semester. Ask the women and gender studies advisor or department about how each course applies to major cognate area requirements, if applicable.

Code	Title	Credit Hours
LGBT 3710	Topics in LGBT Studies	3
WGST 3701	Topics in U.S. Gender and Sexuality Studies (AH)	3
WGST 3702	Topics in U.S. Gender and Sexuality Studies (SS)	3
WGST 3711	Topics in Global Gender and Sexuality Studies (AH)	3
WGST 3712	Topics in Global Gender and Sexuality Studies (SS)	3
WGST 4001	Advanced Topics in Gender and Sexuality Studies (AH)	3
WGST 4002	Advanced Topics in Gender and Sexuality Studies (SS)	3

Graduating in Four Years

Consult the Four-Year Guarantee Requirements for more information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in women and gender studies, students should meet the following requirements:

- By the beginning of the second semester, declare the major.
- By the end of the fourth semester, complete LGBT 2000 and LGBT 3796 and 9 additional credit hours of major requirements.
- By the end of the sixth semester, complete LGBT 4400 and 6 additional credit hours of major requirements (24 credit hours total of the major requirements completed).
- During the seventh and eighth semester, complete WGST 4800 and 6 additional credit hours of the major requirements.

Students should consult with their advisor for specific recommendations. The following sample plan will outline the major requirements, but the order of some classes can vary greatly. It is important for students to check the degree audit and work with the major advisor each semester to make sure of the requirements and graduation timeline.

Four-Year Plan(s) of Study

Through the required coursework for the major, students will complete 9 credit hours of the Social Sciences area of the Gen Ed Distribution Requirement and both the US Perspective and Global Perspective categories of the Gen Ed Diversity Requirement. Depending on other courses taken for the major, students could easily complete the remaining 3 credit hours in the Social Sciences area and much of the Arts and Humanities area of the Gen Ed Distribution Requirement.

Year One		
Fall Semester		**Credit Hours**
WGST 2000 or WGST 2600	Introduction to US Gender, Race and Sexuality Studies or Introduction to Global Gender, Race and Sexuality Studies	3
Gen. Ed. Distribution course (example: Natural Sciences with Lab)		4
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Elective/MAPS		3
Elective/MAPS		3
	Credit Hours	**16**
Spring Semester		
WGST Lower-division elective		3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/Global Perspective)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective/MAPS		3
Elective		3
	Credit Hours	**15**
Year Two		
Fall Semester		
WGST 3020	Feminist Methods of Inquiry and Praxis	3
WGST Lower- or upper- division elective		3
Gen. Ed. Skills course (QRMS)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective		3
	Credit Hours	**15**

Elective (Upper Division)		3
Elective (Upper Division)		3
	Credit Hours	**15**
	Total Credit Hours	**121**

Knowledge

Students will be able to:

- Analyze how power and privilege function at the intersection of gender, sexuality, race, class, ability, nationality and colonialism.
- Think critically about the historical and global variability of social norms of gender and sexuality.
- Identify the varying forms of feminism across the globe, and the relationships between feminism and other movements for social justice.

Practical Skills

Students completing their degree with the Department of Women and Gender Studies are expected to acquire the ability and skills to:

- Analyze a range of social events, structures and movements using intersectional and decolonial feminist theories.
- Communicate complex ideas from the field of women and gender studies to academic and general audiences.
- Work collaboratively to implement and organize around a range of theoretical and methodological perspectives used in women, gender, and sexuality studies.

Queer and Trans Studies - Minor

The minor in queer and trans studies provides students the opportunity to critically examine non-normative sexual and gender identities in a range of social and historical contexts. Queer and trans studies interweaves complex theories and analysis into the study of sexuality and gender, with particular focus on intersections with race, ethnicity, class and ability. Students can engage with a wide variety of courses, internships and programming in order to deepen their understanding of queer and trans issues in their academic, professional and personal lives. Students fulfilling the requirements of the minor can designate an emphasis relevant to their interests by focusing on one of three cognate areas: 1) feminist studies, 2) race/ethnicity and 3) global/transnational.

Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school.

Requirements

Required Courses and Credits

Students must complete a minimum of 18 credit hours with grades of C- or better in approved women and gender studies courses, 12 credit hours of which must be upper division (3000 or 4000 level). Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

Code	Title	Credit Hours
Required Courses		
LGBT 2000/ WGST 2030	Introduction to Lesbian, Gay, Bisexual, and Transgender Studies	3
LGBT 3796	Queer Theory	3
LGBT/WGST 4400	Critical Inquiries in Transgender Studies	3
Cognate Areas		
One course each from two of the three cognate areas (see below)		6
Electives [1]		
Any lower- or upper-division course listed below that has not been used to fulfill any other minor requirements		3
Total Credit Hours		**18**

[1] Internships and independent study credit hours may apply, as well as special topics courses (LGBT 3710, WGST 3701, WGST 3702, WGST 3711, WGST 3712, WGST 4001 and WGST 4002); see advisor or department for more information.

Cognate Areas

Students must take one course each from two different cognate areas for a total of 6 credit hours. Select topics offerings of special topics courses may apply to cognate areas; see advisor or department for more information.

Feminist Studies Cognate Area

Code	Title	Credit Hours
Feminist Studies		0-3
ETHN 4001	Screening Race, Class & Gender in the U.S. and the Global Borderland (may count for feminist studies or global/ transnational, but not both)

WGST/HIST 4640	Women, Gender and War	
WGST/RLST 4850	Gender in Hagiography	

Women and Gender Studies - Minor

The interdisciplinary women and gender studies minor offer students a rigorous and flexible program of study that examines women, gender and sexuality in relation to race, class, ability, nation and empire, among other variables. Students explore how gender and sexuality intersect with structures of power in a range of cultural, historical and geopolitical contexts. Drawing from approximately 50 courses, many cross-listed with other academic units, students fulfill the requirements of the minor and can design an emphasis relevant to their interests by focusing on one of three cognate areas: 1) gender/sexuality, 2) race/ethnicity and 3) global/ transnational.

Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school.

Requirements

Required Courses and Credits

Students must complete a minimum of 18 credit hours with grades of C- or better in approved women and gender studies courses, 12 credit hours of which must be upper division (3000 or 4000 level). Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

Code	Title	Credit Hours

WGST/JWST 4200	Religion and Reproductive Politics in the United States	
WGST/ENGL 4277	Special Topics in Women Writers	
WGST/REES 4471	Women in 20th-21st Century Russian, East European and Eurasian Cultures	
WGST/HIST 4616		
WGST/HIST 4626		
WGST/HIST 4640	Women, Gender and War	
WGST/RLST 4850	Gender in Hagiography	

Global Gender and Sexuality Studies - Certificate

The Department of Women and Gender Studies offers an undergraduate certificate in global gender and sexuality studies. The ever-increasing movement of people, commodities, politics and culture that define "globalization" affects all of us in different ways.

The certificate in global gender and sexuality studies provides students with an opportunity to study how individuals and groups from diverse gender, racial, ethnic, national, class and sexual backgrounds engage with the world and how processes of global change shape gender relations locally, nationally and internationally. The certificate is designed for students who wish to understand, analyze and respond to these dramatic global transformations and their impact on women and gender relations. The certificate complements students' majors and interests and prepares them for graduate studies and employment.

This interdisciplinary undergraduate certificate program takes advantage of the research strengths of the department's core and associate faculty and enhances the experience of undergraduate students in any major, including international affairs, political science, history, ethnic studies, geography, English, anthropology, sociology, integrative physiology, environmental studies and many others. Career specialization in international gender and sexuality has grown in both the private and public sectors, including fields such as international development, finance, public health, public policy and education.

For more details including application instructions, visit the Undergraduate Certificate in Global Gender & Sexuality Studies (http://www.colorado.edu/wgst/ggss/) webpage or email wgst@colorado.edu.

Requirements

Required Courses and Credits

Certificate requirements include 18 credit hours of specified coursework, including 12 credit hours at the upper-division level. A maximum of 6 credit hours transferred from other institutions will be accepted

Code	Title	Credit Hours
Required Courses		
Lower-Division Required Course		*3*
WGST 2600	Introduction to Global Gender, Race and Sexuality Studies	
Upper-Division Required Courses		*6*
Choose two:		
WGST 3500	Global Gender Issues	
WGST 3510	Gender, Sexuality and Global Health	
WGST 3520	Gender and Sexuality in Africa	
WGST 3650/ PSCI 3052	Gender and Politics in Latin America	
WGST 3711	Topics in Global Gender and Sexuality Studies (AH)	
or WGST 3712	Topics in Global Gender and Sexuality Studies (SS)	
WGST/ENGL 3767	Feminist Fictions	

WGST 4010/ SOCY 4000	Gender, Genocide and Mass Trauma	
WGST 4100	Indigenizing Feminism: Literature, Art, Film	
WGST 4300	Sex, Power, Politics: International Perspectives	
WGST 4500/ PSCI 4391	Gender Politics and Global Activism	
WGST/HIST 4620		
Elective Courses		**9**
Lower-Division Electives		
No more than 3 credit hours		
WGST 2050	Gender, Sexuality, and Popular Culture	
ANTH 1170	Exploring Culture and Gender through Film	
LING 2400	Language, Gender and Sexuality	
Upper-Division Electives		
Choose from the upper-division requirements listed above as well as the following courses, 6-9 credit hours		
WGST/SOCY 3012	Gender and Development	
WGST 3201/ JWST 3202/RLST 3202	Women, Gender & Sexuality in Jewish Texts & Traditions	
WGST/SCAN 3208	Women in Nordic Society: Modern States of Welfare	
WGST 3210/ ETHN 3213	American Indian Women	
WGST 3220	Women in Islam	
WGST/ARAB 3410	Gender, Sexuality and Culture in the Modern Middle East	
WGST 3670	Gender, Race, Sexuality and Global Migration	
WGST/GEOG 3672	Who Runs the World? Sex, Power, and Gender in Geography	
WGST/GRMN 4301	Gender, Race and Immigration in Germany and Europe	
WGST/HIST 4619	Women in East Asian History	
WGST/HIST 4640	Women, Gender and War	
ETHN/CINE 4001	Screening Race, Class & Gender in the U.S. and the Global Borderland	
ANTH 4505	Globalization and Transnational Culture	
Total Credit Hours		**18**

Appropriate topics courses offered by other departments and programs—those that deal centrally with issues of gender and/or sexuality in global context—may count for upper division elective credit with the permission of the department's director of undergraduate studies. Students must get the director's approval beforehand, or credit toward the certificate is not guaranteed.

Education Abroad and CU Global Seminars

Appropriate education abroad courses and CU Global Seminars that deal centrally with issues of gender and/or sexuality in global context may count for lower- or upper-division elective credit with the permission of the department's director of undergraduate studies. Only CU-sponsored education abroad programs and Global Seminars will count as CU credit. Appropriate education abroad courses taken through other accredited study abroad programs may count for elective transfer credit with the permission of the director of undergraduate studies. In all of these cases, students must get the director's approval beforehand, or credit toward the certificate is not guaranteed.

Writing and Rhetoric, Program for

The Program for Writing and Rhetoric (PWR) is an award-winning, independent writing program that partners with multiple entities on and off campus to train students in the critical, creative and persuasive arts of applied public writing in order to prepare them for active participation in personal, civic and professional life.

While PWR's primary disciplinary domain is rhetoric and composition/ writing studies, our faculty engage in interdisciplinary research and/or have teaching expertise in ten main areas:

- Cultural rhetorics
- Content generation and new media
- Creative nonfiction
- Public rhetorics and advocacy
- Technical, professional and community writing
- Applied public humanities
- Digital information and critical data literacies
- Rhetorics of image, sound and the body
- Science writing and environmental rhetorics
- Writing studies and pedagogy

Through our wide range of lower and upper division course offerings, students learn how to be critical consumers and creative producers of knowledge, information and media. Students learn specifically how to research diverse perspectives, make well-reasoned arguments and hone their information literacies by exploring what counts as truth, fact and credible evidence. In addition to learning how to critique public discourse as well as systems and technologies of power, students also learn how to generate creative and persuasive content in multiple genres, media and modes for diverse audiences and aims. Whether students are interested in working toward social change, shaping public opinion, generating creative content or writing in a disciplinary or professional domain, our courses prepare students for communicative success in their everyday lives, communities and careers.

Students enrolled in PWR courses benefit from intimate learning environments in which students have opportunities to work closely with both their instructors and peers and receive extensive feedback on their work. Classes are generally conducted as intensive writing workshops, placing a premium on thoughtful, substantive revision. Many courses also offer direct experience in researching contemporary issues, engaging public audiences, working toward publication and working with local communities and organizations.

In taking our diverse courses, students cannot only fulfill lower and upper division written communication requirements but may also work toward accreditations such as a minor in writing for public engagement or certificate in interdisciplinary writing.

For information about specific classes and accreditations, students should visit www.colorado.edu/pwr (http://www.colorado.edu/pwr/) . Students should always check with their advisors to be sure that they are taking the right course to fulfill their requirements.

Minor

- Writing and Public Engagement - Minor (p. 284)

Certificate

- Writing - Certificate (p. 654)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Courses

WRTG 1100 (4) Extended First-Year Writing and Rhetoric
Extended version of WRTG 1150 intended for students desiring more preparation and practice in college writing. Meets the same goals and fulfills the same requirements as WRTG 1150. Includes one-hour recitation for small group work. Focuses on rhetorical analysis, argument, inquiry and information literacy. Taught as a writing workshop, the course emphasizes practicing strategies for all phases of the writing process. For placement criteria, see the arts and sciences advising office.
Repeatable: Repeatable for up to 8.00 total credit hours.
Additional Information: GT Pathways: GT-CO2 - Communication
Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Lower
MAPS Course: English

WRTG 1150 (3) First-Year Writing and Rhetoric
Rhetorically informed introduction to college writing. Focuses on rhetorical analysis, argument, inquiry and information literacy. Taught as a writing workshop, the course emphasizes practicing writing strategies for all phases of the writing process. For placement criteria, see the arts and sciences advising office.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: GT Pathways: GT-CO2 - Communication
Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Lower
MAPS Course: English

WRTG 1160 (3) CMCI First-Year Writing and Rhetoric
Rhetorically informed introduction to college writing for CMCI students enrolled in CMCI 1040. Focuses on rhetorical analysis, argument, inquiry, and information literacy. Taught as a writing workshop, the course emphasizes practicing writing strategies for all phases of the writing process.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to College of Communication, Media, Design and Information (CMDI) undergraduate students only.
Additional Information: GT Pathways: GT-CO2 - Communication
Arts Sci Gen Ed: Written Communication-Lower

WRTG 1250 (3) Advanced First-Year Writing and Rhetoric
Advanced version of WRTG 1150 intended for more experienced writers, this course meets the same goals and fulflls the same requirements as WRTG 1150 but at a more challenging level. Focuses on rhetorical analysis, argument, inquiry, and information literacy. Taught as a writing workshop, the course emphasizes practicing writing strategies for all phases of the writing process. For placement criteria, see the arts and sciences advising office.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: GT Pathways: GT-CO2 - Communication
Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Lower
MAPS Course: English

WRTG 1840 (1-3) Independent Study in Writing
Repeatable: Repeatable for up to 8.00 total credit hours.

WRTG 2000 (3) Information and Society
In an information economy, few skill sets are as fundamental to our civic, economic, and environmental well-being as information literacy. This writing course will train students to produce, categorize, and analyze information in academic and real-world contexts. In addition to information literary, we will examine the writing thresholds and habits of mind conducive to the effective uses of information. Through extensive use of digital technologies, students will equally cultivate the skills of digital literacy.
Recommended: Prerequisite WRTG 1150 or equivalent.

WRTG 2020 (3) Introduction to Creative Nonfiction
Explores from both the reader's and writer's perspectives the forms of creative nonfiction, including personal essay and memoir. Students will read and write extensively within this genre, develop skill in revision and peer critique and learn how to submit work for publication. Does not fulfill core requirements. Department enforced prerequisite: WRTG 1150 or equivalent (completion of lower-division writing requirement).

WRTG 2090 (3) Electives in Writing
Explores a variety of academic and professional writing genres, ranging from research to technical writing, in intensive workshops. Students read and write extensively across genres. Check with program for semester offerings. Designed for self-motivated students in all majors. Does not fulfill core requirements. Department enforced prereq., WRTG 1150 or equivalent (completion of lower-division writing requirement)
Repeatable: Repeatable for up to 6.00 total credit hours.

WRTG 2095 (3) Ideas for Social Change
Introduces key concepts and practices central to understanding historical and contemporary social movements in the U.S. Grounded in theories about discourse, bodies, culture, and power, the course is taught through various frameworks such as intersectionality, rhetoric, critical race theory, feminism, queer studies, decolonial studies, and/or LGTBQ+ studies. Students will discover, identify, and analyze social issues of significance to them; practice developing their own visions for social change; and present their visions in public-facing multi-modal genres. Formerly offered as a special topics course.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WRTG 2930 (1-6) Internship in Writing and Rhetoric
Provides academically supervised opportunity for undergraduate students to engage in writing and rhetoric as a practical and productive art. Students may work in a variety of organizations (public/government/civic/private) on writing-intensive projects related to their career goals, and thereby connect classroom theory to real-world practice. Prior approval of PWR internship coordinator required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: This course is restricted to students with 30 credits (Sophomores) with a 3.0 cumulative GPA.

WRTG 3007 (3) Writing in the Visual Arts
Enables students in the arts to improve their writing skills through organization, presentation, critique and revision. Writing assignments include formal writing (analysis and argument), informal writing and grant proposals. Department enforced prerequisite: WRTG 1150 or equivalent (completion of lower-division writing requirement).
Requisites: Restricted to students with 57-180 credits (Junior or Senior) AAAH or FILM/FMST or AASA or AASF or THTR or TBFA or DNCE or DBFA or AMST or ARCH or ATLS or BASA or CLAS or DSGN or ETHN or JADV or MDST or RLST or TMEN or EDUC majors only.
Additional Information: GT Pathways: GT-CO3 - Communication: Advanced Writing Course
Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Upper

WRTG 3010 (3) Technology, Rhetoric and the Self in Contemporary Life
Weaves theories of rhetoric with theories of information, data, and technology to investigate how digital information systems mediate contemporary ways of knowing and being in everyday life. Through seminar discussions and a suite of public facing assignments, students will have opportunities to question their own roles in information networks, critique systems of power, and enter into contemporary debates about the overlaps of data, media, and ethics.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

WRTG 3020 (3) Topics in Writing
Through sustained inquiry into a selected topic or issue, students will practice advanced forms of academic writing. Emphasizes analysis, criticism and argument. Taught as a writing seminar, places a premium on substantive, thoughtful revision. Department enforced prerequisite: WRTG 1150 or equivalent (completion of lower-division writing requirement).
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students w/ 57-180 credits (Jr or Sr) in AS (ARSCU), College of Media, Comm Info (CMCIU) or School of Ed (EDUCU) or Business (BUSNU) or Comp Sci Bachelor of Arts (CSEN-BA) or Prog in Env Design (ARPLU) or College of Music (MUSC) only.
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Upper

WRTG 3030 (3) Writing on Science and Society
Through selected reading and writing assignments, students consider ethical and social ramifications of science policy and practice. Focuses on critical thinking, revision, analytical writing, and oral presentation. Taught as a writing seminar, the course addresses communication with professional and non-technical audiences.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits in Engineering, MCDB, EBIO, GEOL, ASTR, IPHY, PHYS, MATH, ECON, BCHM, CHEM, PSYC, NRSC, EDUC, ATOC, GEOG, CSCI or Program in Env Des (ARPLU) majors only.
Additional Information: GT Pathways: GT-CO3 - Communication: Advanced Writing Course
Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Upper

WRTG 3035 (3) Technical Communication and Design
Rhetorically informed introduction to technical writing that hones communication skills in the context of technical design activities. Treats design as a collaborative, user-oriented, problem-based activity, and technical communication as a rhetorically informed and persuasive design art. Taught as a writing seminar emphasizing critical thinking, revision, and oral presentation skills. Focuses on client-driven design projects and effective communication with multiple stakeholders.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: GT Pathways: GT-CO3 - Communication: Advanced Writing Course
Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Upper

WRTG 3040 (3) Writing on Business and Society
Through selected reading and writing assignments, students examine ethical and social issues in the context of business decision-making processes. Focuses on critical thinking, revision, analytical writing and oral presentation. Taught as a writing seminar, the course emphasizes effective communication with professional and non-technical audiences. Department enforced prerequisite: WRTG 1150 or equivalent (completion of lower-division writing requirement).
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Upper

WRTG 3045 (3) Writing for Emerging Workplaces
A rhetorically-informed professional writing course addressing key competencies needed in emerging workplaces. Intended for juniors and seniors from a wide range of majors who anticipate working in communication-intensive capacities. Taught as a writing seminar inspired by design thinking, with a focus on prototyping, revision, critical thinking, and collaborative engagement. Key topics: the future of work, rapid prototyping of career options, proposal writing, writing for policy debates, data analysis and visualization, report writing, and advanced oral presentation and multimedia skills. Satisfies A&S Upper-Division Written Communication requirement.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Written Communication-Upper

WRTG 3070 (3) Advocating with Data
Teaches how to use data and data-driven arguments to advocate for change on issues of concern. Via rhetorical and other critical frameworks, explores definitions of data and its relations to power, publics, and justice. Students will produce persuasive texts, including multimodal texts and data visualizations, intended for real-world advocacy and publication in a variety of media and genres. Taught as a writing workshop, with a focus on revision, critical thinking, and collaborative engagement.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Written Communication-Upper Arts Sci Gen Ed: Distribution-Arts Humanities

WRTG 3090 (1-3) Open Topics in Writing: Advanced
Advanced topics course providing intensive, specialized writing instruction in selected topics. Check with the program for semester offerings. Does not fulfill core requirements. Department enforced prerequisite: WRTG 3007 or WRTG 3020 WRTG 3030 or WRTG 3035 or WRTG 3040 or instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

WRTG 3095 (3) Journal Publishing
Offers hands-on publishing experience that enable students to hone multiple skills related to but not limited to writing, editing, and production. Students work on staff of two annual journals of creative nonfiction sponsored by the Program for Writing and Rhetoric, currently Hindsight and Changing Skies. Students collaborate with other staff members to bring a print issue from acquisitions through editing, into digital compositing and final proofreading, to print production and ¿launch¿ with public readings from both students and global writers. Students also gain experience publishing online-only features for both journals, videos, podcasts, and creative nonfiction in all its forms. This course may be repeated up to 6 total credit hours.
Repeatable: Repeatable for up to 6.00 total credit hours.

WRTG 3400 (3) Race and Epistemic Justice
This course will study the visual construction of race in the United States from the slavery era to the digital age. Through analyses of diverse media (photography, cinema, television, and digital platforms), we will interrogate testimony, witnessing, and visual self-creation as long-standing forms of political agency in the United States. Finally, we will test the hypothesis that epistemic justice ¿ equal treatment of one another as knowers and documenters ¿ is an inseparable component of racial justice.
Equivalent - Duplicate Degree Credit Not Granted: AHUM 3400

WRTG 3840 (1-3) Independent Study
Department enforced prerequisite: WRTG 3007 or WRTG 3020 or WRTG 3030 or WRTG 3035 or WRTG 3040 or instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

WRTG 3930 (1-6) Internship in Writing and Rhetoric
Provides academically supervised opportunity for undergraduate students to engage in writing and rhetoric as a practical and productive art. Students may work in a variety of organizations (public/government/civic/private) on writing-intensive projects related to their career goals, and thereby connect classroom theory to real-world practice. Prior approval of PWR internship coordinator required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: This course is restricted to students with 57 credits (Juniorss) with a 3.0 cumulative GPA.

WRTG 4910 (1-3) Portfolio Curation in Writing and Rhetoric
Provides academically supervised opportunity for undergraduate students to curate, reflect on and synthesize their learning over a range of courses through the production of an electronic portfolio. One credit hour required of students seeking the Interdisciplinary Writing Certificate. Approval of PWR Certificate coordinator required prior to registration.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors). Requires cumulative GPA of 3.0 or higher.

Writing - Certificate

The interdisciplinary certificate in writing is designed to help CU Boulder undergraduates sharpen their written and communication abilities through an interdisciplinary learning experience. The certificate complements students' academic majors by helping students gain extensive experience writing for diverse audiences and aims that are applicable in civic and professional spheres.

The certificate is housed in the Program for Writing and Rhetoric (PWR), yet to fulfill its interdisciplinary mission, students can take courses not only in PWR but also English, linguistics, communication, journalism, media studies and education to fulfill certificate requirements. The certificate includes a practicum and culminates in a curated electronic portfolio that showcases student work and can be used to pursue graduate education or other professional interests.

Requirements

Students must complete at least 18 credit hours, 9 of which must be upper-division, and adhere to the following:

- At least 6 credit hours: WRTG courses within the PWR (not including 1000-level courses).
- At least 6 credit hours: courses from outside of the PWR.
- At least 1 credit hour: required portfolio curation pass/fail course, and practicum course(s) focusing on applied professional work.

No more than two courses (6 credit hours) can be counted from a student's major and no more than 6 credit hours of transfer work from another institution may be applied to the certificate.

Overview of Required Courses

Code	Title	Credit Hours
Writing and Rhetoric Courses		
Select at least two courses (6 credits) from the following:		6
WRTG 2000	Information and Society	
WRTG 2020	Introduction to Creative Nonfiction	
WRTG 2090	Electives in Writing	
WRTG 2095	Ideas for Social Change	

WRTG 2930	Internship in Writing and Rhetoric	
WRTG 3007	Writing in the Visual Arts	
WRTG 3010	Technology, Rhetoric and the Self in Contemporary Life	
WRTG 3020	Topics in Writing	
WRTG 3030	Writing on Science and Society	
WRTG 3035	Technical Communication and Design	
WRTG 3040	Writing on Business and Society	
WRTG 3045	Writing for Emerging Workplaces	
WRTG 3070	Advocating with Data	
WRTG 3090	Open Topics in Writing: Advanced	
WRTG 3095	Journal Publishing	
WRTG 3400	Race and Epistemic Justice	
WRTG 3840	Independent Study	
WRTG 3930	Internship in Writing and Rhetoric	
Courses Outside Writing & Rhetoric		
Select at least two courses (6 credits) outside of the PWR. See details below.		6
Portfolio Curation & Practicum Course(s)		**1**
WRTG 4910	Portfolio Curation in Writing and Rhetoric	
Electives		**5**
Total Credit Hours		**18**

About the Requirements

Courses from Outside the Program for Writing and Rhetoric

Select at least two courses (6 credits) outside the program from the following two categories, in any combination.

Courses that Fulfill the A&S Upper-Division Written Communication Requirement

Code	Title	Credit Hours
ARSC 3100	Multicultural Perspective and Academic Discourse	3
CHIN 3200	Adv Wrtg Topics on Chinese & Japanese Literature and Civilization	3
EBIO 3940	Written Communication in the Sciences	3
ENVS 3020	Advanced Writing in Environmental Studies	3
GEOL 3090	Developing Scientific Writing Skills	3
HIST 3020	Historical Thinking & Writing	3
HONR 3220	Advanced Honors Writing Workshop	3
IPHY 3700	Scientific Writing in Integrative Physiology	3
ITAL 3025	Advanced Composition 2: Introduction to Literary Writing	3
JPNS 3200	Adv Wrtg Topics on Chinese & Japanese Literature and Civilization	3
PHIL 3480	Critical Thinking/Writing in Philosophy	3
RLST 3020	Advanced Writing in Religious Studies	3
ARTS 4050	Writing Across the Arts: Culture Writing in the 21st c	3
ENGL 3026	Syntax, Citation, Analysis: Writing About Literature	3
ENGL 3830	Topics in Advanced Writing and Research	3
ENGL 4026	Special Topics in Genre, Media, and Advanced Writing	3
FREN 3050	French Composition	3
PHYS 3050	Writing in Physics: Problem-Solving and Rhetoric	3
SPAN 3010	Advanced Rhetoric and Composition	3
WGST 3800	Advanced Writing in Feminist Studies	3

Courses that Treat Theories and Contexts Pertaining to Writing

Students in the following programs may count up to two of the listed courses in their major (6 credits) toward the certificate.

Code	Title	Credit Hours
Communication Majors		
COMM 1210	Perspectives on Human Communication	3
COMM 1300	Public Speaking	3
COMM 2400	Discourse, Culture and Identities	3
COMM 3300	Rhetorical Thinking	3
COMM 3320	Persuasion in Society	3
COMM 3340	Political Communication	3
COMM 3410	Intercultural Communication	3
COMM 3420	Gender and Communication	3
COMM 3610	Communication, Technology, and Society	3
COMM 3630	Organizational Communication	3
COMM 4100	Seminar in Honors Thesis Writing and Research	3
Education Licensure Students [1]		
EDUC 3013	School and Society	3
EDUC 4135	Story and Memoir	3
English Majors [2]		
ENGL 1191	Introduction to Creative Writing	3
ENGL 2036	Introduction to Media Studies in the Humanities	3
ENGL 4026	Special Topics in Genre, Media, and Advanced Writing	3
ENGL 4116	Advanced Topics in Media Studies	3
ENGL 4830	Honors Thesis	3
Journalism Majors		
JRNL 2401	Media Coverage of Diverse Populations	3
JRNL 3112	Concepts in Visual Culture	3
JRNL 3201	Critical Perspectives on Journalism	3

MDST 3791	Media and the Public	3
MDST 4111	Crime, Media and Contemporary Culture	3
MDST 4211	Asian Media and Culture	3
MDST 4331	Gender, Race, Class, and Sexuality in Popular Culture	3
MDST 4371	Media and Religion	3

[1] Upper-division EDUC courses in Literacy Studies count toward the certificate. Consult the School of Education for offerings in any given semester.

[2] Just as 1000-level PWR expository writing courses do not count toward the certificate, neither is ENGL 1001 eligible.

Practicum Course(s)

Students must complete a 1-credit, pass/fail course for portfolio curation (WRTG 4910). In addition, they may also select the options below as electives. Students may select the option that best suits their interest and career goals.

Internship

Of interest to students intending to work in business, industry or nonprofits:

- Complete an internship, either with the PWR (WRTG 2930 or WRTG 3930) or with the major department (e.g., ENGL 3930 or JRNL 4931), that has a significant writing component. For an internship to count toward the certificate, it must be pre-approved by the certificate coordinator. Following the internship, the student must submit a brief (2–3 page) report describing the writing activities and how the internship contributed to learning outcomes.

Writing Center Consultancy or School-Based Literacy Practicum

Of interest to students intending to work in education and related fields:

- WRTG 2090 Electives in Writing (3) (Writing Center Theory and Practice)
- EDUC 4321 Writing Instruction for Elementary Schools (3) (for students already accepted into the teacher licensure program)
- EDUC 4345 Secondary English Methods I (3) (for students already accepted into the teacher licensure program)

Graduate Study in Writing Pedagogy

Of interest to students intending to conduct graduate work in rhetoric and composition:

- WRTG 5050 Graduate Studies in Writing and Rhetoric (3) (various topics, with permission).

Learning Outcomes

The certificate in writing has at its core a set of *aspirational learning outcomes*, which are met over the course of the certificate:

- Compose effectively in a variety of genres, ranging from academic genres to professional workplace genres and civic genres.
- Address a range of audiences effectively and to understand how to accommodate secondary or multiple audiences.
- Analyze and/or argue effectively, and to call on available means of persuasion and apply appropriately a range of rhetorical strategies.
- Draw on a range of styles as appropriate to the purpose, audience and rhetorical situation, and to meet professional standards of correctness.
- Apply disciplinary expertise to engage a range of readers, in a variety of rhetorical contexts.
- Compose with digital and multi-modal tools in evolving, hybrid genres.
- Understand and practice writing as an act of composing in the broader media landscape.
- Seek, access, evaluate and apply a range of information literacy resources and to appreciate the complex, evolving role of information in disciplinary and social contexts.
- Use composition skills effectively in broader contexts of communication, including public speaking.
- Apply compositional skills in professional contexts and organizations, ranging from advanced academic work to business settings, and in genres ranging from PowerPoint presentations to scientific posters.
- Ability to appreciate and use composing tools in civic contexts and in life-long learning.

The student will have the opportunity to demonstrate how these aspirational learning goals have been met by creating and curating an *electronic portfolio* of work completed during the certificate experience. This portfolio asks students to synthesize their learning and articulate how it advances their academic and professional goals.

Writing and Public Engagement - Minor

The writing and public engagement (WPE) minor is designed to help students hone the arts of persuasive writing and storytelling in diverse public-facing genres and media. Through a unique curriculum offered by the Program for Writing and Rhetoric and the English Department, students learn how to leverage a wide variety of technologies to design, produce and distribute multi-modal compositions; write in professional settings and with community partners; and write individually and collaboratively for social change. From forwarding public arguments to designing social media content to composing for nonprofits, this minor enables students to learn valuable skills, practices and tools that are crucial for communication, work and civic engagement in the 21st century.

Requirements

Requirements for the minor in writing and public engagement include:

1. Earn 18 credits in ENGL and WRTG courses with grades of C- or better. At least 12 credits must be in upper division, and at least 9 credits must be ENGL designated courses.
2. Students may apply no more than 9 credit hours of transfer work, including no more than 6 upper division credit hours, towards a minor. This is a college residency rule for an 18-credit minor.
3. Students may apply one lower- or upper-division Creative Writing or Literature ENGL course of their choice to count towards the minor.

4. Students must maintain at least a 2.00 (C) GPA in all courses counting toward the minor.
5. All courses applied to the writing and public engagement minor must be from the Department of English (ENGL) or the Program in Writing and Rhetoric (WRTG).
6. English majors (Creative Writing or Literature and Cultural Studies) are not eligible to declare/earn this minor.
7. Must have completed the 3-credit lower-division Written Communication requirement as required by all schools and colleges at CU Boulder prior to declaring the minor

Required Courses and Credits

Code	Title	Credit Hours
Theory		**3**
Choose one:		
WRTG 2095	Ideas for Social Change	
WRTG 3010	Technology, Rhetoric and the Self in Contemporary Life	
ENGL 3377	Literatures of Race, Multiculturalism, Ethnicity (Select topics only)	
Practice		**3**
Choose one:		
ENGL 3026	Syntax, Citation, Analysis: Writing About Literature	
ENGL 3830	Topics in Advanced Writing and Research (Select topics only)	
WRTG 2020	Introduction to Creative Nonfiction	
WRTG 3020	Topics in Writing (Select topics only)	
WRTG 3045	Writing for Emerging Workplaces	
Action		**3**
Choose one:		
ENGL 3940	Service Learning Practicum (Select topics only)	
ENGL 4116	Advanced Topics in Media Studies (Select topics only)	
ENGL 4206	Writing for the Real World (Select topics only)	
WRTG 2090	Electives in Writing	
WRTG 2930	Internship in Writing and Rhetoric	
WRTG 3035	Technical Communication and Design	
WRTG 3070	Advocating with Data	
WRTG 3095	Journal Publishing	
WRTG 3930	Internship in Writing and Rhetoric	
Electives		**9**
Choose one of the following:		
Choose 9 credits from any of the courses listed above not being used to fill the Theory, Practice or Action requirements.		
Choose 6 credits from any of the courses listed above not being used to fill the Theory, Practice or Action requirements and 3 credits of any other ENGL course.		
Total Credit Hours		**18**

Learning Outcomes

Upon completing the program, students will be able to:

- Synthesize and apply theories of writing, rhetoric and publics with critical race, decolonial, queer and other critical theories to a variety of rhetorical situations central to public life.
- Use a wide range of research methods#including but not limited to rhetorical criticism, genre analysis, archival research, action#oriented research, iconographic tracking, case studies, ethnography, oral story telling to investigate and address a variety of complex contemporary cultural, political and environmental issues on local, national and transnational scales.
- Design, create and deliver persuasive compositions in a variety of genres, modes and media for diverse public audiences and rhetorical goals such as argument, advocacy, activism, policy change, community organizing, productive dialogue, networking and awareness raising.
- Put writing into practice with a variety of other strategic tactics to engage effectively in political and nonpolitical actions central to public life.
- Analyze, organize, create and circulate documents and artifacts that contribute to identity construction, institutional and cultural memory, organizational structures, public assemblage and policy making.
- Understand and manipulate how writing and information circulates and gets taken up in an era of misinformation, data overload, intense political division, racial intensity and algorithmic injustice.
- Design and manage an online presence for both self and community organizations through digital content and social media writing.

Business

The new innovation economy requires—and rewards—richer knowledge, sharper skills and a global mindset. Ultimately, the edge belongs to those who are principled leaders who bring inspiration and purpose to their work and in this way drive value for society.

Within this climate, the Leeds School of Business offers an innovative agenda designed to leverage our unique assets: the intellectual capital of Leeds faculty, our innovative and best-in-class curriculum, our focus on the "whole student" experience, our strong network of alumni and industry partners and our firm commitment to student support.

Accredited by the Association to Advance Collegiate Schools of Business (AACSB-International), Leeds awards four types of degrees: Bachelor of Science (BS), Master of Science (MS), Master of Business Administration (MBA) and Doctor of Philosophy (PhD). Undergraduate students can specialize in accounting, finance, management and entrepreneurship, business analytics, marketing, and real estate. Leeds further offers certificates in a variety of areas to provide opportunities for students to explore additional areas of interest and distinction.

World-class faculty provide the foundation for breakthrough thinking—creating knowledge from research, disseminating knowledge through teaching and applying knowledge in collaboration with the business community. Faculty discoveries are frequently published in prestigious academic journals and discussed in media outlets such as the *The Wall Street Journal*, *The New York Times*, CNBC and more. The cutting-edge research we produce enhances the school's reputation for innovation.

From orientation to graduation, Leeds faculty and staff guide students to discover and optimize their potential. Through an array of targeted

services, students create an individualized journey that maximizes the impact of their experience and leads to future opportunities. Ethics and social responsibility are hallmarks of a Leeds education, and the school's commitment to professional development is unrivaled.

Leeds alumni and industry partners collaborate to offer a meaningful level of engagement with students and faculty. Alumni provide the support and resources that ensure graduates are poised for maximum impact. Corporate partners infuse relevance to Leeds' curriculum innovation, supporting new programs and providing the school access to professional talent. Both communities are the backbone of one of the largest mentoring programs in the world.

Leeds joins the University of Colorado and the Boulder community to generate extraordinary opportunities for students. Cross-campus collaborations with fields like engineering and science link Leeds faculty and students with more resources to put innovation into action. Our location in Boulder provides inspiration with its physical beauty as well as the intellectual energy of a thriving start-up community and high concentrations of advanced technology and socially responsible industries.

Together, these assets make Leeds uniquely qualified to deliver on our mission of educating principled, innovative leaders who drive value.

Graduation Recognition Ceremony

Every May, the Office of the Dean and the Leeds Business Student Government sponsor a recognition ceremony honoring the graduating class, in addition to the university-wide commencement. Graduates and their families are invited to attend.

Facilities & Research

The Leeds School of Business houses resources for the specific needs of business students:

- Burridge Center for Finance
- Business Research Division
- Career Development
- Center for Education on Social Responsibility
- Center for Research on Consumer Financial Decision Making
- Michael A. Klump Center for Real Estate
- Office of Diversity Affairs
- Robert H. and Beverly A. Deming Center for Entrepreneurship
- Smart classrooms
- Student lounges
- Undergraduate Student Services
- Graduate Student Services
- William M. White Business Library and Information Commons

The William M. White Business Library and Information Commons

The White Business Library (http://www.colorado.edu/libraries/libraries/william-m-white-business-library/) and Information Commons provide students with a wealth of information pertaining to the business world. Students have access to the business and other libraries via the university libraries online catalog. Many databases are accessible through the wireless network and off campus. These databases contain a myriad of full-text magazines and journals; business periodical indexes; corporate annual, 10-K and proxy reports of all the public companies in the United States; short profiles of both American and international companies; demographic and business statistics; industry and market information; and investment reports written by Wall Street analysts. Over 50 computers provide access to the databases and the internet, and technology-outfitted team rooms are available for group study. Knowledgeable librarians are always available to help navigate the search for information. The Information Commons is open 24 hours, seven days per week and contains 30 of the 50 computers with a full suite of software. These are accessible to students, faculty and staff of the university. In addition, Leeds has 25 technology equipped team rooms. These rooms support group study and project work, and are available for reservation through University of Colorado Scheduling (https://vems1.colorado.edu/).

The White Business Library is part of the University of Colorado library system, which includes more than two million volumes, more than five million microforms and more than 24,000 periodicals and serials. The system is also a full depository for United States government, international and state documents.

All classrooms in the Leeds School of Business are equipped up to campus "smart" classroom technology standards. Technologies in a typical Leeds classroom include: a desktop computer loaded with Microsoft Office Suite applications, video projection system, ceiling speakers for audio, DVD/VCR, iClicker base station, campus cable and both wired and wireless Internet connections. All classrooms have the flexibility to support a personal laptop with connectivity in place to integrate with the video projection and sound system.

Business Research Division

Established in 1915, the Business Research Division is one of the earliest organized state service-oriented bureaus in the country.

The Business Research Division conducts business, economic and market research that contributes to the efficient use of Colorado's resources and increases interest in and awareness of the Leeds School of Business. It also is the umbrella organization for the Rocky Mountain Trade Adjustment Assistance (TAA) Center (RMTAAC). Through its annual Colorado Business Economic Outlook Forum, held in December, the division has established a base of knowledge that adds value to its work in other areas. In addition to providing businesses, government and nonprofits with information to help them make better-informed business and policy decisions, the division specializes in economic and fiscal analysis, market research and custom research projects. It also prepares a Colorado leading economic indicator series, the *Leeds Business Confidence Index*. Research results are distributed through presentations and reports; a quarterly newsletter, the *Colorado Business Review*; and the division's website.

Funding for center activities comes from the Leeds School of Business, the university, state agencies, the federal government, state and local business firms and from the sale of research products and services.

RMTAAC is one of 11 centers across the nation funded by the U.S. Department of Commerce to manage the Trade Adjustment Assistance for Firms Program, which helps import-impacted U.S. firms develop and implement business recovery strategies to strengthen their competitiveness in the global marketplace. The TAA for Firms Program is a cost-sharing federal grant program that pays a portion of professional consultant expenses or industry-specific expert services for projects that improve a firm's competitiveness, thereby increasing sales and creating U.S. jobs. Benefits of the program include up to $75,000 in grant funds and 50/50 cost sharing for strategic projects.

Academic Centers

In addition to the Business Research Division, the school has five centers linking academic programs and the business community—the endowed Robert H. and Beverly A. Deming Center for Entrepreneurship, the Michael A. Klump Center for Real Estate, the Burridge Center for Finance, the Center for Education on Social Responsibility (CESR) and the Center for Business Integration.

The Robert H. and Beverly A. Deming Center for Entrepreneurship

As part of the Leeds School of Business, the Deming Center for Entrepreneurship's mission is to inspire and empower students, community, alumni, faculty and staff through entrepreneurship education and partnership with the community. The Deming Center does this in part by educating, engaging and partnering and focusing on student experience.

Cutting-Edge Curriculum

Our progressive curriculum and interdisciplinary programs include:

- courses in entrepreneurial finance, marketing and business planning,
- interdisciplinary programs in engineering, business, law and environmental studies,
- undergraduate business minor (p. 680) with a certificate of entrepreneurship for students across campus,
- undergraduate certificate of entrepreneurship (p. 682) for Leeds students,
- High Growth Ventures Pathway, and
- world-renowned PhD program (p. 1493) in entrepreneurship.

The Deming Center supports the entrepreneurial curriculum and advances the Leeds School's leadership agenda through our collaborative initiatives across campus and in the business community in these key areas:

- **Education**. Our entrepreneurship students have access to a world class entrepreneurship faculty. The faculty are involved in collecting, curating and making available the latest research and thinking on entrepreneurship in the world. These faculty are inspiring and directing new research and thought leadership in entrepreneurship and constantly working with thought leaders to develop and stay ahead of the latest trends and tools for entrepreneurship education.
- **Real-world experience**. Our entrepreneurship students are challenged to turn accepted thinking on its head—in the classroom, in real-world industry projects, and by the business innovators serving as student mentors and advisors. The center helps connect students with projects, advisors and internships that challenge them to use their new skills creatively.
- **Student experience**. Staff and faculty at Deming are focused on delivering an outstanding student experience. Deming promotes the development of entrepreneurial thinkers and doers. Entrepreneurial thinkers and doers are optimistic, resilient, resourceful, persistent, calculated risk-takers, efficient, creative problem solvers and effective workers. These are teachable skills any student is capable of learning.
- **The community**. Boulder is consistently named one of the best places in the country to launch a startup. The center connects students to industry leaders via the Deming Network—an active group of world-class entrepreneurs and innovators who are accessible and hands-on. CU Boulder is also a top research university. Across campus, the Deming Center helps students access opportunities in technology transfer and the engineering, law, biofrontiers and environmental science programs

Michael A. Klump Center for Real Estate

The Michael A. Klump Center for Real Estate, founded in 1995, is supported by an industry council with the goal of advancing academic excellence in real estate education and scholarship. The center oversees the school's real estate teaching programs and advises the faculty in designing an integrated curriculum at both the graduate and undergraduate levels. Coursework is drawn from the law school, the colleges of architecture and engineering, construction management and others.

The center creates real-world experiences for students by providing project coursework and being a resource for securing internships, mentors and jobs. It also provides support for faculty teaching and research activities in real estate and, through the Real Estate Foundation, assists the university with its real estate portfolio.

Burridge Center for Finance

The Burridge Center for Finance is dedicated to encouraging and supporting the creation and dissemination of new knowledge about the world financial markets with an emphasis on the U.S. financial markets by:

- facilitating the exchange of ideas and knowledge between professional investment managers, finance scholars, policy makers and the investing public,
- identifying critical research issues in the theory and practice of security analysis and valuation, and
- encouraging and supporting rigorous qualitative and quantitative research on topics relevant and useful to money managers, valuation experts and finance academics.

Center for Ethics and Social Responsibility (CESR)

CESR's goal is to help students become outstanding business leaders of tomorrow by preparing them to meet the ethical challenges posed by a highly competitive, globally-connected business world. Accordingly, CESR oversees the infusion of values and social responsibility discussions throughout the undergraduate and graduate curricula at the Leeds School of Business. As part of the central mission at Leeds, CESR creates pedagogies that are national models and plays a leadership role carrying out the school's commitment to developing leaders of conscience. Although the Center's primary focus is on excellence in curriculum development and delivery, CESR also undertakes a broad spectrum of initiatives including a certificate program, student organizations, conferences and other extracurricular offerings as well as providing funding and administrative support for faculty research.

Courses

CESR is directly responsible for course development, staffing and coordination of the Business requisite introduction course World of Business, and collaborates on the design and delivery of the requisite business core courses; Business Law and Business Ethics & Social Responsibility. CESR also offers leading edge electives such as CESR 4000, CESR 4005, CESR 4850, and CESR 4828.

Certificate and Graduate Pathways

CESR offers specialized recognition for students at the undergraduate and graduate levels. Undergraduates wishing to focus on CESR-related topics may earn the certificate in social responsibility and ethics

(p. 686) (SRE). At the MBA level, MBAs can participate in CESR-designed co-curricular pathways in Natural & Organics, Clean Energy, and ESG Integration and Sustainability.

CESR Co-Curricular Activities

ESR routinely hosts events aimed at our students, our local business community and educators and industry leaders throughout the academic year. Guest speakers change each semester, but recurring events are included here:

- **CESR Business Ethics Case Competition (BECC).** The CESR BECC is an interactive way to deepen the Leeds undergraduate students' understanding of the importance of creating ethical as well as profitable business cultures. Teams are provided with a business case in the weeks leading up to the competition which they will have to analyze, create recommendations for course of action and present their solutions to a panel of professional judges. Cash prizes are awarded to the top three teams.
- **Student Center for Social Entrepreneurship**. CESR provides faculty sponsorship for SCSE, the student branch of Social Entrepreneurship for Equitable Development, an interdisciplinary, inter-generational campus group that is involved in researching, teaching and generating student involvement in the areas of social entrepreneurship and sustainable community development.
- **Net Impact Club**. CESR is home to a graduate chapter of Net Impact, an international nonprofit organization whose mission is to use the power of business to create a more socially and environmentally sustainable world.
- **New Venture Challenge Social Impact Track**. CESR developed and continues to support the Social Impact Track of the **CU New Venture Challenge**, a campus-wide initiative connecting students and faculty with teammates in a broad range of disciplines and with mentors from the business community. The goal is to provide knowledge and experience making entrepreneurship accessible to anyone on the CU Boulder campus with the enthusiasm and creativity required to start a new business.

Career Opportunities

Leeds School of Business graduates are prepared for positions in the following fields:

- Accounting—public, private, nonprofit and governmental
- Banking and other financial institutions
- Consulting
- Corporate financial management
- Entrepreneurship and small business management
- Financial analysis
- Human resources management
- Information systems
- International business
- Investment management
- Management consulting and organization management
- Marketing and sales management
- Nonprofit management
- Operations management
- Real estate
- Retailing
- Taxation
- Technology management
- Transportation
- Venture capital

Other graduates hold positions in fields as diverse as business journalism, public relations, city planning, chamber of commerce and trade association management, college administration and government. The entrepreneurial area of application prepares students to start their own business ventures to take positions in emerging growth companies and the venture capital industry.

Programs & Leadership

Professional Mentorship Program

The Professional Mentorship Program (PMP) is a unique program that offers one-on-one professional mentoring to current undergraduate students. The program's mission is to enhance business education at the Leeds School by offering hands-on learning, professional skills development, leadership opportunities and a sense of connection and community among current students, Leeds alumni and corporate partners. PMP mentors prepare and inspire our students to become the next generation of strong business leaders.

This two-year program matches students with executives or high-level business professionals who align by industry, geographic location or functional area. To ensure a quality experience for both students and mentors, the PMP provides workshops, training and additional support for participants throughout the program.

Program Benefits

Through this program, students gain an additional level of advising and career counseling from a business professional. Through the mentoring relationships, students can explore choice of majors, potential for graduate school, work-life balance and effective networking and job search strategies.

Other potential benefits of being involved in the PMP include:

- advice and assistance on academic questions, career options, life beyond college and more,
- access to the PMP network and networking opportunities and the opportunity to start building the student's own professional network,
- opportunities to practice and strengthen professional communication and presentation skills,
- help in defining personal and professional goals, and the strategies to achieve them,
- unique internship and job opportunities, and
- development of a life-long friend and connection in the business world.

Study Abroad

Study abroad programs are available for students interested in international business or in cultural experiences abroad. The college-sponsored London Seminar in International Finance and Business is a five-week-long program held each summer in the financial district of London and is open to juniors, seniors and graduate students.

Student Organizations

Listed below are undergraduate organizations that promote professional interests and provide recognition of scholastic attainment:

- Alpha Kappa Psi
- Athletic Business Club
- CU Fashion Club
- Beta Alpha Psi
- Collegiate DECA
- CESR Fellows
- CU Energy Club
- CU Finance Club
- CU American Marketing Association
- CU Investment Club
- CU Society for Human Resources Management
- Delta Sigma Pi
- International Business Club
- Leeds Ambassadors
- Leeds Association of Information Systems
- Leeds Council (Undergraduate Student Government)
- Multicultural Business Student Alliance
- Music Industry Club
- Real Estate Club
- Women in Business Club

Leeds School of Business Student Government

Leeds Council is the governing body of the Leeds School of Business that strives to serve, support and represent the student body. The council also works to make Leeds a better business school through social, academic and professional programming. The council is made up of five primary committees and an executive board that control a significant portion of the Leeds student fees.

Two members of Leeds Council also serve as representatives on University of Colorado Student Government (CUSG) to voice the interests of business students at the main campus.

Career Development

The Office of Career Development's mission is to advance Leeds students' career competencies through co-curricular exploration and development.

From dedicated industry coaching and professional skills development to real-world experiences and employer and alumni connections, Leeds students are equipped with all the support and resources they need to successfully transition from academia to a rewarding career after graduation.

Career Coaching and Career Readiness Programs

All Leeds students are assigned a career coach by their area of emphasis. Coaches work with each student to create a four-year career development plan that allows them to develop the professional competencies and business connections needed to pursue their goals. Key services that support career readiness include, but are not limited to:

- one-on-one industry coaching sessions
- skill development workshops
- personal and career assessments
- mock interviews

Global Programs

The globalization of the marketplace demands employees who can compete in a multicultural business environment in the United States and around the world. To prepare students for this, Leeds offers immersive programs and experiences designed to deepen students' understanding of global cultures and international business. Through these opportunities abroad, students develop a heightened level of intercultural competence and other critical skills needed for a successful career in business.

- **First Year Global Experience (FGX)**: The First-Year Global Experience (FGX) program is a spring semester elective that includes a short-term global experience during Spring Break or May term.
- **Global Business Certificate**: Students can add to their Leeds academic journey with 3 global core courses, 2 approved international courses and a global experience.
- **Global Seminars**: With a Global Seminar, students can study various topics in international business though a three to five week course taught abroad by Leeds faculty.

Experiential Learning

Students can develop their professional skills through signature events, shadow days, micro-internships and internships. At Leeds, students are encouraged to explore career opportunities in business through hands-on learning.

- **Professional Assignments**: The World of Business course and integrated sophomore year assignments provide all Leeds first- and second-year students with a strong foundation to pursue their career interests and goals.
- **Career Treks**: Visits focused on an industry, functional area or location with in-depth opportunities for job search and connections. Previous visits have included Boulder, Denver, Chicago, Austin, Los Angeles, New York, Seattle and San Francisco.
- **Micro-internships**: Micro-internships are short-term, paid, professional assignments that enable students to demonstrate skills, explore career paths and build their network as they explore interests and seek the right full-time role.
- **Internships**: Dedicated support includes an internship advisor, internship-focused workshops and networking events.
- **Leeds Professionalism Summit:** The Leeds Professionalism Summit is a one-day professional development training delivered as part of the academic curriculum for Leeds BASE students. Students will participate with mentors, alumni, and corporate partners in panels and interactive sessions oriented around professional and business etiquette skills.

Mentoring Programs

Participate in Leeds' award-winning mentoring pipeline that spans the entire four-year experience, pairing students with peer, alumni and professional mentors for personalized support. More than 1,500 undergraduates and 1,050 professional mentors participate in mentoring through these programs:

- **Peer2Peer.** Connects new Leeds students with trained student mentors to help students build a strong foundation and sense of belonging at Leeds.

- **Young Alumni Mentors Program**: Partners sophomores with recent Leeds graduates to provide major and career exploration, academic preparation and professional skills development.
- **Professional Mentorship Program:** Pairs juniors and seniors with experienced business professionals providing opportunities to develop and practice critical professional skills and build their professional network.

Employer Relations

The Leeds School has created strong partnerships with more than 2,000 companies from diverse industries and locations. Our office connects students of all interests with the resources, organizations and people necessary to facilitate career success, including:

- on-campus, instant, and virtual interviews
- employer panels and webinars by industry or topic
- employer information sessions and recruitment days
- Leeds-specific career fairs and treks

Women's and Leadership Programs

Students can harness their strengths and develop leadership skills through special programs and a leadership certificate. By offering a unique approach to creating an inclusive business environment for all students, Leeds students enter the workforce prepared to shape and influence the future of business in every discipline.

- **Business & Engineering Women in Technology (BEWiT):** BEWiT is a two-year interdisciplinary program focused on inspiring accomplished and intellectually curious women to explore the technology industry.
- **Leadership, Excellence and Purpose (LEAP):** This one-year program for incoming first-year students will engage students in leadership development both inside and outside of the classroom while examining issues of gender equity in the field of business.
- **Business Leadership Certificate:** The Business Leadership Certificate provides students with the foundations of theory and research on leadership, but emphasizes professional experiences such as mentoring, internships, and engaging in leadership roles.

Policies & Requirements

Academic Excellence

Honors

In recognition of high scholastic achievement, upon recommendation of the faculty, the designation "With High Distinction" or "With Distinction" will be awarded at graduation. To qualify for the "With High Distinction" designation, the student's cumulative University of Colorado GPA must be at least 3.90. For the "With Distinction" designation, the student's cumulative GPA must be at least 3.75 but less than 3.90. In addition, for these designations, at least 60 credit hours must have been earned at CU Boulder.

Dean's List

Students in the Leeds School of Business who have completed at least 12 credit hours of CU Boulder coursework for a letter grade in any single semester with a term GPA of 3.600 or better are included on the dean's list and receive a notation on their transcript.

Beta Gamma Sigma

Membership in Beta Gamma Sigma is an honor that must be earned through outstanding scholastic achievement. Such membership is the highest scholastic honor that a student in a school of business or management can attain.

To be eligible for Beta Gamma Sigma membership, students must rank in the top 10 percent of their junior class, the top 10 percent of their senior class or be among the top 20 percent of those students receiving master's degrees. Also, students completing all requirements for the doctoral degree conferred by a business school are eligible for Beta Gamma Sigma. It should be noted that Beta Gamma Sigma chapters may be chartered only in those schools of business and management accredited by AACSB, the International Association for Management Education.

Scholarships

Each year the college awards a number of divisional and general scholarships. Business scholarships are for students who have completed business coursework at the university. The amount and number of the awards vary each year.

Academic Standards

Academic Ethics

Students are expected to conduct themselves in accordance with the highest standards of honesty and integrity. Cheating, plagiarism, illegitimate possession and disposition of examinations, alteration, forgery or falsification of official records and similar acts or the attempt to engage in such acts are grounds for suspension or expulsion from the university. Reported acts of academic dishonesty must be referred to the Honor Council.

Students are advised that plagiarism consists of any act involving the offering of someone else's work as the student's own. It is recommended that students consult with instructors as to the proper preparation of reports, papers, etc., in order to avoid this and similar offenses. Official college procedures concerning academic ethics are maintained in the Office of Undergraduate Studies.

Standards of Performance

Students are held to basic standards of performance with respect to attendance, active participation in coursework, promptness of assignments, correct English usage both in writing and in speech, accuracy in calculations and general quality of scholastic workmanship. In general, examinations are required in all courses and for all students, including seniors.

Good Academic Standing

To be in good academic standing, students must have an overall grade point average of *C* (2.00) or better for all coursework taken. Students must earn a passing grade for all required courses. This requirement applies to work taken at all university campuses.

Any student earning all or nearly all failing grades, or no academic credit for a semester will not be permitted to register without the dean's approval.

Official double-degree students must maintain required academic standards for the Leeds School as well as their other college.

Students are responsible for being aware of their academic status at all times, and late grades and/or late notification do not waive this responsibility. See campus Academic Standing policies (p. 28) for details.

Suspended Leeds School students who transfer into another school or college of the university will not be eligible to register for business courses and will be subject to administrative drops.

Credit and Enrollment

All students are responsible for knowing and following the provisions set forth below. Any questions concerning these provisions should be directed to the college. The college cannot assume responsibility for problems resulting from a student's failure to follow the policies stated here or from incorrect advice given by those outside the Office of Undergraduate Services. Similarly, students are responsible for all deadlines, rules and regulations stated in the General Information section of this catalog. All rules and regulations are subject to change. Any questions should be directed to the Leeds School of Business, Office of Undergraduate Services, KOBL 201, 303-492-6515.

Admission to the Business Program

Prospective freshman students are encouraged to complete strong academic programs in high school. A minimum of four academic units should be completed each year with special emphasis given to writing, mathematics and science skills. For a detailed explanation of the high school preparation desired, see Undergraduate Admission in the General Information section.

Transfer students are expected to demonstrate proficiency in economics, writing and mathematics. Prospective transfer students should complete courses equivalent to those taken by University of Colorado business freshmen and sophomores.

Residency Requirement

Complete a minimum of 45 credit hours in University of Colorado courses on the Boulder campus. Of these 45 credits, a minimum of 30 credits must be business courses completed as a matriculated student in Leeds.

Intra-University Transfer

An undergraduate student who is enrolled on the Boulder campus and wishes to transfer to the Leeds School of Business may submit a completed application for the fall or spring semester. A cumulative university GPA of 3.2 is necessary to be considered for admission. In addition, students must have 24 completed credit hours, 12 of which must be graded work at CU Boulder, 4 credit hours of MATH 1112, statistics, microeconomics and macroeconomics. Students must earn a grade of B or better in ECON, MATH, and statistics to be considered for admission. Students who have earned 60 credits (including AP, IB, CU and transfer coursework) or more at the time of application will need to submit a Leeds graduation plan approved by the Leeds IUT team as part of the application process. Please refer to The Leeds IUT Guide for more information.

Intra-university transfer (IUT) students must take a minimum of 30 credit hours of business courses, including their area of emphasis, in residence after admission to the college.

Visit the campus IUT webpage (https://www.colorado.edu/advising/intra-university-transfer/) to learn more about the IUT process.

Registration Stops

A service indicator stop will be placed on students' records when they have earned 45 credit hours, if they have not yet declared their area of emphasis. All first and second year students will also have a service indicator and be required to attend an advising meeting before registration for the next semester.

Registration for Business Courses

Business students may register only for those courses for which they have the stated prerequisites.

Administrative Drops

Instructors may recommend to the Office of Undergraduate Services that students who fail to meet expected course attendance or prerequisites be dropped from their courses at any time during the semester.

Attendance Regulations

Classroom attendance is left to the discretion of the instructor. Students are responsible for understanding each instructor's policy on attendance.

Students who are unavoidably absent should make arrangements with instructors to make up the work missed. Failure to attend regularly may result in receipt of an F in a course. Students who, for illness or other legitimate reasons, miss a final examination must notify the instructor no later than the end of the day on which the examination is given. Failure to do so may result in receipt of an F in the course.

Concurrent Registration

Concurrent registration is for graduating seniors who must be enrolled on two campuses of the University of Colorado at the same time in order to fulfill graduation requirements.

Students enrolled in the Leeds School of Business may exercise the concurrent registration option if they are in their graduating semester or are two semesters from graduating and cannot obtain a course necessary to complete a prerequisite sequence. The course must be required for graduation and must not be offered on the Boulder campus, or the course must conflict with another required course in which the student is enrolled. Students from other colleges and schools who wish to take business courses must have the approval of their own college or school before submitting the concurrent registration form.

Scholastic Load

The normal scholastic load of an undergraduate student in the college is 15 credit hours, with a maximum of 21 credit hours during the fall and spring semesters. A maximum of 3 credit hours may be taken during Maymester. A maximum of 6 credit hours may be taken during a five-week summer term, with no more than 12 credit hours total during the 10-week summer session.

Credit Policies

To receive credit, all courses must be listed on the student's official transcript by the Office of the Registrar. Credit is then evaluated by the Leeds School of Business to determine degree acceptability.

Cooperative Education Credit
No credit is given for work experience or cooperative education programs.

Correspondence Credit
All correspondence courses must have prior approval and be evaluated to determine their acceptability.

Advanced Placement (College Board)
For students who earn scores of 3, 4 or 5 on Advanced Placement exams, college credit will be given where appropriate. See the Admissions section for a comprehensive AP credit chart (p. 37).

College-Level Examination Program (CLEP)
College credit for approved CLEP subject examinations may be considered, providing the scores are at 54 or above. Specific information is available in the Office of Undergraduate Student Services.

CLEP credit is only appropriate for nonbusiness requirements and nonbusiness electives. A maximum of 6 hours of credit in any one course area is allowed. CLEP may not be used in course areas where credit has already been allowed. General examinations are not acceptable. CLEP credit is not transferable.

Before taking a CLEP examination, students should check in with their academic advisor to ensure the credit will apply.

Special Sources of Credit
The college reserves the right to accept or reject all special sources of credit that do not have prior approval of the dean.

Independent Study
A maximum of 6 credit hours of independent study will be accepted as degree credit. Prior approval is required if the work is to be applied as degree credit. A maximum of 3 credit hours may be taken in any one semester.

Study Abroad Credit
Transfer credit from study abroad programs may be applied to the business degree. Students planning to attend study abroad programs must meet with an undergraduate advisor and have their course selections approved prior to leaving campus.

More specific information about these opportunities is available from the Office of International Education.

Transfer Credit
The school reserves the right to disallow any credit that it deems inappropriate degree credit.

Credits in business subjects transferred from other institutions will be limited to the number of credit hours given for equivalent work in the regular offerings of the university. Only work from regionally accredited institutions will transfer to the college. A maximum of 60 credit hours of credit may be accepted from a two-year school.

Actual equivalent courses may be substituted for required courses. Students must submit a carefully checked catalog description and course syllabus for course equivalency determination.

Business students desiring to apply coursework from another institution or University of Colorado campus toward the BS degree in business administration must have prior approval of the Leeds School of Business. Only nonbusiness requirements or elective credit is acceptable in transfer from other institutions once the student has enrolled.

All courses in the area of emphasis must be taken at the University of Colorado Boulder unless written approval is given by the associate dean of undergraduate services. Transfer students must take a minimum of 30 credit hours of business courses, including the area of emphasis, in residence after admission to the college. For more information on transfer of credit policies, see Transfer of College-Level Credit (p. 48).

Grading Policies
In addition to the campus wide grading system and pass/fail policy (p. 50), the Leeds School of Business enforces the following policies.

Pass/Fail
Students in the Leeds School of Business may not use the pass/fail option for courses taken to fulfill General Education Core Requirements, business core requirements, business major requirements or business electives. A grade of F when earned in a course taken pass/fail will calculate into the GPA as a failing grade. Only non-business electives may be taken on a pass/fail basis. A maximum of 6 credit hours of pass/fail credit may be applied toward the BS degree in business administration. Pass/fail determination must be made by the deadline set through the Office of the Registrar. A maximum of 6 credit hours designated pass/fail may be taken in any one semester.

Failed courses may be repeated, but the F will be included in the GPA.

Minimum Grades
A grade of C- or above is required for classes applied to the area of emphasis. A grade of D- is a passing grade for all other degree requirements.

Incomplete Grades
The only incomplete grade in the college is given only when documented circumstances clearly beyond the student's control prevent the student from completing the course. Generally, students should make up the missing work and not retake the entire course. Students should not register for the class a second time, unless directed by the instructor. All I grades must be made up within one year or the I will be changed to a grade of F.

Grade Changes
Final grades as reported by instructors are considered permanent and final. Grade changes will be considered only in cases of documented clerical errors, and must be approved by the associate dean.

Grade Appeal Policy
The following shall be the official policy of the academic units of the Leeds School, unless an academic unit submits an alternative procedure to the Dean for approval. When a student believes that a grade has been improperly assigned, and discussions between the instructor and the student have not led to any resolution of the problem, then the student may pursue the following steps:

1. The student shall have the option of making a formal written appeal to the Division Chair for the instructor's unit. The appeal must detail the basis for the appeal, including relevant written documentation, specify the remedy desired by the student, and must be submitted within 30 days of the end of the academic term in which the course was taken. The instructor will be provided the opportunity to respond in writing to the student's appeal.
2. The Chair will meet (together or separately) with the student and with the instructor who taught the course. If the Chair is unable to secure a solution mutually acceptable to both student and instructor, then

3. The Chair shall appoint an ad hoc Grade Appeals Committee, which will review the dispute. This committee shall consist of at least three impartial faculty members competent in the subject matter of the course in question. Members of this committee need not be from the Chair's division. The Chair will provide the Committee with the student's appeal and a written response from the faculty member.
4. Within 30 days, the committee will submit a report and recommendation to the Chair, and Chair will recommend to the instructor either 1) that the originally assigned grade stands; or 2) that a revised final grade be assigned.
5. In cases where a change of grade is recommended and the instructor does not wish to accept the recommendation of the Chair, the Chair will forward the written materials associated with the appeal, together with the recommendation of the Chair, to the Dean (or a designee), who will make the final decision on the student's grade appeal.

Withdrawal

Students may withdraw from the university any time before the beginning of the final examination period.

Programs of Study
Business Administration

The following areas of knowledge are central to the undergraduate degree in business administration:

- Knowledge of core business concepts that provides students with a comprehensive understanding of the basic functional areas of the discipline.
- Knowledge in one or more of the four areas of emphasis, in which students are exposed to in-depth study that provides them with the tools necessary to solve complex business problems.
- Awareness of the interrelations between academic theory and practice in order for students to be fully equipped to make effective decisions.
- Strong verbal and written communication skills, proficiency in business computer applications and knowledge of international business environments.
- Knowledge of mathematics sufficient to facilitate the application of quantitative principles.
- Awareness of the importance of academic fields in the area of arts and sciences, with special emphasis placed on the study of economics, political science and other related fields.

In addition, students completing a degree in business administration are expected to acquire:

- The ability to apply basic business principles to solve problems in new and recurring situations,
- The ability to conceptualize and analyze decision-making situations to facilitate solutions in an effective and timely manner, and
- The ability to effectively communicate the results of problem-solving situations, both verbally and in writing.

Having acquired these skills and knowledge, students are able to conceptualize and analyze the concept of business and problem solving as a system. They have the ability to present solutions to business problems in an understandable and useful form. Their education provides them with excellent working knowledge, not only in the field of business, but also in related academic disciplines.

The Leeds School of Business holds accreditation by the Association to Advance Collegiate Schools of Business (AACSB-International).

Advising and Records

Undergraduate business students receive academic advising from a staff of professional advisors in the Office of Undergraduate Student Services. Advisors are available in KOBL 201, Monday–Friday, 8 a.m.–5 p.m., by appointment and during drop-in hours.

Students are expected to assume responsibility for planning their program in accordance with college rules and policies. Students are encouraged to discuss the various emphases available as well as career opportunities with the faculty of the college.

Bachelor's Degree

- Business Administration - Bachelor of Science (BSBA) (https://catalog.colorado.edu/undergraduate/colleges-schools/business/programs-study/business-administration/business-administration-bachelor-science-bs/)

Minor

- Business - Minor (p. 680)

Certificates

- Entrepreneurial Studies - Certificate (p. 682)
- Global Business - Certificate (p. 682)
- Operations and Information Management - Certificate (p. 685)
- Quantitative Finance - Certificate (p. 90)
- Social Responsibility and Ethics - Certificate (p. 686)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Senior Instructor; MBA, University of Tulsa

Courses

BADM 1250 (1.5) Designing Your Leeds
Designing Your Leeds is a class about customizing your college experience to get the most out of it. Using a process rooted in Design Thinking, the course equips students with tools to design and prototype a college experience that best aligns with who they are and what they hope to get from college. Students will explore the purpose of college, reflect on personal values and strengths, learn about educational and career opportunities, and create a prototype of their 4 year experience. Through in-class activities and out of class assignments, students will also learn and practice professional and self-leadership skills.
Requisites: Restricted to Business (BUSNU) majors only.

BADM 1260 (2) First-Year Global Experience
In today's world of increased mobility, globally aware students have more choices for employment upon graduation and are immediately ready to contribute in global environments. They are aware of global issues and cultural differences, and their global mindset allows them to recognize good ideas from whenever they might come and new market/product opportunities wherever they might exist. This course is the first step toward the development of a global mindset. It provides a meaningful global experience to first-year business students through an in-depth perspective of a specific country or region outside the United States and a short academic trip to the region.
Requisites: Restricted to Business (BUSNU) majors only.

BADM 2010 (1) Excel in Business
Teaches beginner to intermediate level Excel skills, emphasizing efficient use of Excel to make sense of substantial data sets. The course is designed to increase students' proficiency with Excel through a series of hands-on workshops. The workshops have a business problem solving orientation and use real data from Leeds' corporate partners. The workshops emphasize the most important skills that employers value.
Requisites: Restricted to Business (BUSNU) Majors or students with a Business Minor (BUSM-MIN)

BADM 2020 (3) Fundamentals of Quantitative Analysis
Focuses on the application of calculus and statistics in financial analysis with emphasis on theory and problem solving in excel. Calculus topics covered in the class will include: series, limits and continuity, calculating derivatives, graphing and optimization. Descriptive statistics will be reviewed in the context of financial data. Applications to finance will include portfolio optimization, calculation and graphing of historical stock returns, along with calculation of bond prices, returns, and duration.
Requisites: Restricted to students with the Business Minor (BUSM-MIN) plan.

BADM 2050 (3) Honors/Special Topics
Variable topics in business, drawing from a variety of disciplines.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: At least a 3.50 cumulative GPA is required.
Additional Information: Arts Sciences Honors Course

BADM 2880 (1-3) Special Topics
Explores historical developments, contemporary issues, industry trends and best practices pertinent to the business of sports. Designed to provide sufficient background for educated consumption of this literature and pursuit of further study if desired.
Requisites: Restricted to Business (BUSN) majors.

BADM 2900 (1-3) Independent Study
Department consent and departmental form required.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to Business (BUSNU) majors only.

BADM 3020 (3) Written Communication for Business Leaders
This course focuses on business writing for professionals in an organizational setting, especially those in leadership roles. While the course focuses principally on writing, it builds on a number of skills addressed in BCOR 1030: Communication Strategy¿a prerequisite for this class emphasizing oral communication. In this course, students will revisit such topics as communication channels, storytelling, persuasion, and audience analysis, but specifically in the context of writing.
Requisites: Requires prerequisite course of BCOR 1030 (minimum grade D-). Restricted to Business (BUSN) majors with 52 units completed.

BADM 3100 (1) Professional Development
Designed to provide opportunities to understand and develop professional competencies for successful careers in business. Designed to increase knowledge of job search strategies and formulate a career management plan for transitioning to the workplace. Topics such as resumes, cover letters, personal branding, job search strategies, internships, career choices, networking and social media will be covered. A Self-Marketing Plan will be developed to help focus on long-term career goals.
Requisites: Restricted to Leeds School of Business majors only.

BADM 3200 (1.5) Internship Accelerator
Seminar focused on developing competencies critical to a successful transition into the workplace. Apply what you have learned in the classroom to business problems. Practice problem framing, decision making, and synthesizing complex information. Reflect on which professional communication skills are the most essential complements to your classroom skills and knowledge. Craft ways to improve those most essential skills. Reflect on when to ask for help and when not to. Through hands-on projects, learn about adaptability in the workplace and deciphering professional expectations.
Requisites: Restricted to Business (BUSN) majors.

BADM 3880 (3) Special Topics
Introduces students to the many facets of the marketing of sport and marketing through sport. Theoretical and practical applications of marketing sport are examined. Provides students with an understanding of current marketing concepts and best business practices, related to sports enterprises and a foundation for pursuit of further study and work in sports and event marketing.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

BADM 3900 (1) Independent Study
Department consent and departmental form required.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to Business (BUSNU) majors only.

BADM 3930 (1-6) Internship - London Seminar
Student training and participation in government or industry environment under faculty supervision. Instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of BASE 2104 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

BADM 4030 (3) Crisis Communication
In today¿s highly volatile, uncertain, complex, and ambiguous (VUCA; Johansen, 2012) world, successful business leaders understand that experiencing an organizational crisis is a matter of when, not if. Organizational leaders¿ communication and actions before, during, and after a crisis determine if the organization survives, is able to recover, and ultimately utilize the crisis as an opportunity for growth. This course takes a message-centered approach to the study of crisis communication. The purpose of this course is to explore the role of communication and strategic communication practices throughout the three stages of crisis management. Both theoretical and applied research areas are considered to provide an overview of the established and emerging perspectives on risk and crisis from the communication perspective.
Requisites: Restricted to Business (BUSN) majors with 52-180 units completed.

BADM 4820 (1-6) Special Topics
Variable topics in business drawing from a variety of business disciplines.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Business (BUSN) majors with 52-180 units completed.

BADM 4830 (1-3) Special Topics
Various topics in business and society drawing from a variety of business disciplines.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to Business (BUSNU) majors only.

BADM 4900 (1-3) Independent Study
Intended only for exceptionally well qualified business seniors. Department form required.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to Business (BUSNU) majors only.

BADM 4910 (2) VITA-Volunteer Tax Assistance
Offers students the opportunity to gain professional work experience in an accounting position while still in school. Provides academically relevant work experience that complements students' studies and enhances their career potential.
Requisites: Requires prerequsite courses of BCOR 2000 and ACCT 3440 or ACCT 5440 (all minimum grade D-). Restricted to Business (BUSN) majors with 52-180 units completed.

Business Administration - Bachelor of Science (BSBA)

All business students pursuing a bachelor's degree in business administration must complete the prescribed courses in at least one area of emphasis. The school offers programs in 10 areas of emphasis: accounting, business analytics, finance, management, management information systems, marketing, real estate, strategy & entrepreneurship, supply chain management and sustainable business. An area of emphasis consists of a minimum of 18 credit hours taken at CU Boulder.

Areas of Emphasis

Accounting Emphasis

The accounting area of emphasis prepares students for careers in which they will develop, analyze and interpret complex financial data. Accounting majors become experts in “the language of business.” This expertise prepares them for careers in CPA firms, business consulting, industry (from Fortune 500 companies to small entrepreneurial enterprises), not-for-profit enterprises or government. Accountants who pursue careers in public accounting might become partners in public accounting and consulting firms. Those who begin their careers in industry might have positions as a chief executive officer (CEO), chief financial officer (CFO), chief accounting officer (CAO) or controller, tax specialist, internal auditor, accounting systems analyst, financial analyst or managerial accountant. Many students begin their careers in public accounting firms and move to industry or government after several years of experience. Employers seek students with skills in communication, interpersonal interactions, analytical thinking, problem solving and integrity.

The major branches of study in the accounting area of emphasis are:

- Financial accounting / analysis and audit
- Tax planning and compliance

Basic coursework in accounting focuses on developing a comprehensive understanding of the theory and concepts underlying the presentation of financial and operating information about an enterprise to external and internal users. Additional coursework exposes the student to income taxation of business enterprises and individuals, the practice and principles of auditing and assurance services and cost management. Specialization is available through graduate work.

Professional Certification as a CPA or CMA

Most accounting students from the University of Colorado earn professional credentials within a year or two of receiving their degrees. The two most widely-recognized professional certifications are the certified public accountant (CPA) and certified management accountant (CMA).

The CPA is a state-granted license, for which each state sets its own requirements. All states require 150 total credit hours of study to be licensed as a CPA, thus the bachelor's degree in business at CU, with only 120 credit hours, will not meet licensure requirements. Additionally, while the CPA requirements of most states have similar components and required courses, the specifics of those requirements differ greatly. Students interested in ultimately pursuing CPA licensure should contact the applicable state licensing board to determine any requirements they may need to fulfill in order to obtain licensure in a particular state. Most states set requirements for the following before a CPA license will be granted:

- Background checks
- Education
- CPA Exam passage
- Work experience

Not only do state requirements differ greatly from one state to another, those requirements frequently change. It is very important that the accounting student obtain the guidelines for the relevant state to ensure proper development of his or her degree plan (see NASBA.org (http://NASBA.org) or the website of the particular state's board of accountancy).

The CPA license is a legal requirement for someone to perform financial statement audits, but is not legally required to perform other kinds of accounting work. It is important to note, however, that many professional accounting positions set CPA licensure as a job requirement even where it is not legally required, thus a CPA license is a valuable credential for any accounting professional. As a result, most students completing an accounting emphasis at Leeds continue into the concurrent bachelor's and master's degree program (see Concurrent Degree Programs below) to seek their CPA license.

The CPA's expertise typically focuses on presentation and analysis of financial information for an external user. The CMA's primary focus is improving information for the internal user. Professional accountants' expertise in financial matters and their understanding of company operations through financial information prepare them to become key players and critical decision makers for all aspects of business creation, operation and transformation.

As is the case at most colleges and universities, simply meeting the requirements to receive a degree with an undergraduate emphasis in accounting at Leeds will not necessarily meet all of the specific requirements for CPA licensure of any particular state including Colorado. Prior to being licensed, a candidate must be granted permission by a state's board of accountancy to take the CPA Examination. As with the overall requirements for licensure, the specific requirements and timing when students can take the exam differ greatly for different states, all of which makes it crucial for the student to develop the degree plan in conjunction with applicable state requirements.

The CMA is a different type of certification because it not granted by a state, but rather by the Institute of Management Accountants, which is a professional organization. The requirements are the same regardless of where an applicant lives. The website for the Institute of Management Accountants provides information about becoming a certified management accountant (CMA). Though not legally required for any kinds of positions in any state, the CMA is also a valuable professional credential.

Business Analytics Emphasis

The area of emphasis in business analytics focuses on the exciting and fast-growing field of big data. This interdisciplinary area of emphasis teaches students how to translate data into strategic business decisions. The coursework integrates marketing and customer analytics with operations research, information management and statistical methods. This technical, quantitative and statistically intensive curriculum prepares students to excel in the field of business analytics.

Finance Emphasis

Finance is essential to business. Finance faculty boast expertise in foundational concepts like corporate finance and macroeconomics, as well as specialized areas like mergers and acquisitions, derivatives and foreign exchange markets. Students within the program benefit from access to the Burridge Center for Securities Analysis and Valuation and the CU Real Estate Center. Our curriculum prepares students to succeed in areas such as financial management, business economics and real estate. The finance program addresses issues in the financial services and securities area, including topics related to high technology firms, large corporations and entrepreneurial companies. The finance program is designed to provide students with in-depth exposure to the background necessary for entry-level positions in various areas of financial management. Students study financial management, money and capital markets, investments and derivative securities, and financial institutions. This program enables students to develop the ability to evaluate financial problems and formulate sound financial decisions and policies. Although emphasis is on financial management of profit-oriented organizations, the principles and concepts covered are applicable to nonprofit and governmental organizations.

Management Emphasis

Advances in business knowledge and technology have radically changed business systems, organization structures and processes. As a result, critical to today's businesses is the ability to get the right information to the right people at the right time, so that both strategic and operational decisions are made properly and quickly. Students majoring in management will learn to recognize the pivotal role that information plays in the business world and to use their knowledge to increase business competitiveness. Students completing the management area of emphasis are viewed by potential employers as having the education required to successfully compete in the team-oriented, horizontally organized and globally competitive environments of the 21st century. The management area of emphasis prepares students for careers managing people, operations and information. Management students must choose a track in either talent management or leadership.

Management Information Systems

The most significant enabler of quality decision making is the careful management of digital resources. Useful information must be captured and organized in a way that enables managers to understand how much value is being added by the organization's activities. Students graduating from the Management Information Systems emphasis know how to organize digital resources, solve business problems and develop cutting-edge technologies. Students are trained to solve deep problems using tools, methods and techniques for addressing issues related to the adoption of new technologies in organizations. These technologies are used to get the right information to the right people at the right time.

Marketing Emphasis

The Marketing Division at the Leeds School of Business is distinguished by its scholarly impact on academic marketing thought and by

exceptional teaching. Research by our faculty is our strength. Research is published in prestigious publications such as the Journal of Consumer Research. Our faculty bring marketing theory and practical solutions to students and prepare them for careers in business and in academics. The increasingly global marketplace, coupled with new communication vehicles such as the Internet, have changed the traditional tactics used in marketing. Today's marketing practitioners must understand the unique challenges of serving foreign markets and how to effectively convey their messages to consumers throughout the world. The marketing program develops students' analytic and decision-making skills in such areas as advertising, market research, brand/product management, selling and sales management, distribution, relationship marketing, international marketing, marketing consumer products and services, and marketing nonprofit organizations. Key concepts focus on identifying customer needs and wants, developing products and services to meet those demands, establishing communications to promote products and services, and monitoring transactions and customer responses to guide future activities. Marketing concepts apply to tangible products, services and ideas, consumer and business markets, and domestic and global markets.

Real Estate Emphasis

Real estate is an essential part of all our lives—it is where we live, work and play. The real estate area of emphasis educates students about the three fundamental building blocks of real estate: real estate property markets; real estate capital markets; and the legal environment where real estate is built, bought, sold, valued, used as security for mortgages, taxed, owned and rented. The real estate curriculum for the area of emphasis consists of required courses in principles of real estate, real estate finance and investments, real estate economics and a senior seminar in real estate. Elective courses to complete the 18-hour requirement allow students to take coursework in real estate law, real estate development, real estate technology or an academic internship.

In addition to the real estate curriculum, the 300+ member Michael A. Klump Center for Real Estate helps students network with industry professionals, obtain internships, part-time and full-time jobs. The Michael A. Klump Center for Real Estate also sponsors various treks to visit real estate firms in major markets, both domestic and international, to enhance students' education. Finally, the Michael A. Klump Center for Real Estate sponsors additional skills development with extracurricular courses in advanced Excel for real estate applications, ARGUS Enterprise software, LEEDS Green Building certification, and real estate case analysis and presentation (which is preparation for various real estate case competitions). The program graduates real estate professionals prepared to add value for their employer on the first day of their job.

Strategy & Entrepreneurship

Entrepreneurs and strategists excel at the single most challenging problem in business - creating value by aligning internal strengths and weaknesses with external opportunities and threats. Sometimes that involves creating entirely new companies, even entirely new industries. Often it involves leading innovation or technology commercialization in existing businesses. Students in the Strategy and Entrepreneurship emphasis at the Leeds School of Business develop the skills to create and lead new ventures, to restructure business models and to build high-performing entrepreneurial teams.

Supply Chain Management Emphasis

The principal function of any organization is the efficient creation and delivery of products and services to its customers (operations). The supply chain management emphasis focuses on this creative process and identifies how organizations use productivity, quality, flexibility, timeliness and technology to compete and prevail in their markets. Students graduating from the supply chain management emphasis will have a broad understanding of the importance of operations in the success of any organization and will be qualified to serve in entry-level line management positions and as general managers later in their careers.

Sustainable Business

The Sustainable Business emphasis focuses on values-based practices of organizations. This emphasis identifies how business professionals can promote responsible corporate governance practices to create lasting positive social impact. The emphasis will introduce students to values-based decision making and business practices. Students will learn about sustainable business practices across different functions of a business organization and have the opportunity to apply their knowledge though projects, case studies, competitions and examination of current business practices. Course work in leadership and governance will provide students with skills and knowledge to create positive social impact in an organization. Students will be prepared to provide practical solutions for the social and environmental complexities of modern business.

Requirements

Total Credit Hours

Students must complete a minimum of 120 acceptable credit hours from the following categories:

- *Business core* (30 credit hours): Consists of integrated coursework through which students develop key skills such as communication, teamwork and leadership while learning fundamentals of business and working on live cases.
- *Business area of emphasis* (18 credit hours): Emphases are available in accounting, business analytics, finance, management, management information systems, marketing, real estate, strategy & entrepreneurship, supply chain management and sustainable business. They require a minimum of three semesters to complete.
- *Business electives* (16 credit hours).
- *General Education* (33 credit hours): Consists of coursework from the Business General Education requirements.
- *Non-business electives* (23 credit hours).

The school reserves the right to disallow any credit that it determines is not appropriate academic credit.

Minimum Grade Point Average

- A cumulative GPA of 2.00 in the area of emphasis and all grades in the 18 credit hours must have a grade of C- or higher (no pass/fail credit hours can be applied to the area).
- A cumulative GPA of 2.00 is required for all courses attempted at the university.
- A cumulative 2.00 is required for all business coursework attempted at the university.

Required Courses and Credits

Code	Title	Credit Hours
Business Core		
BCOR 1015	The World of Business	3

BCOR 1025	Statistical Analysis in Business	3
BCOR 1030	Communication Strategy	3
BCOR 2201	Principles of Marketing	1.5
BCOR 2202	Principles of Organizational Behavior	1.5
BCOR 2203	Principles of Accounting I	1.5
BCOR 2204	Principles of Financial Management	1.5
BCOR 2205	Introduction to Information Management and Analytics	1.5
BCOR 2206	Principles of Operations Management	1.5
BCOR 2301	Business Law	1.5
BCOR 2302	Business Ethics and Social Responsibility	1.5
BCOR 2303	Principles of Accounting II	1.5
BCOR 2304	Strategic and Entrepreneurial Thinking	1.5
BASE 2104	BCOR Applied Semester Experience	6
Area of Emphasis		
Students must choose an area of emphasis in accounting, business analytics, finance, management, management information systems, marketing, real estate, strategy & entrepreneurship, supply chain management and sustainable business.		18
Business Electives		
Business courses required by specific areas in excess of the 18 credit hours listed under areas of emphasis may count as business electives.		16
General Education Requirements		
Students in the Leeds School of Business are required to complete coursework from the Business General Education requirements, including classes from the following categories: [1]		33
Mathematical Skills [2]		
Social Sciences [2]		
Written communication [2]		
Arts & Humanities		
Diversity - U.S. Perspective		
Diversity - Global Perspective		
Natural sciences		
Nonbusiness Electives		
Students are required to complete 23 credit hours of non-business electives. [3]		23
Total Credit Hours		**120**

1 A list of courses that fulfill specific requirements for each area is available on the College of Arts and Sciences' General Education Requirements webpage. https://www.colorado.edu/artsandsciences/undergraduate/degree-requirements/general-education-requirements.

2 Leeds students are required to take microeconomics and macroeconomics, specific math and writing courses to fulfill these categories. Contact undergraduate student services for more information, or visit leeds.colorado.edu (https://leeds.colorado.edu).

3 Not all classes are accepted as elective credit hours. Generally, to be acceptable, electives must have a form of assessment such as a term paper and/or examinations and must be regular classroom-type courses. Course coverage must be college level, must not be repetitious of other work applied toward the degree, must be academic as opposed to vocational or technical and must be part of the regular university offerings. Contact Undergraduate Student Services or visit the school's Degree Requirements (http://www.colorado.edu/business/academic-programs/undergraduate-programs/undergraduate-degree/degree-requirements/) webpage for more information about the number of business elective credit hours required.

Residency Requirement

Students must complete a minimum of 45 credit hours in University of Colorado courses on the Boulder campus. Of these 45 credits, a minimum of 30 credits must be business courses completed as a matriculated student in Leeds.

Areas of Emphasis

Accounting Emphasis

This emphasis may be earned by a student who takes 18 credit hours of accounting beyond the core. The 18-credit-hour requirement for the emphasis does not meet the educational requirements to be licensed as a CPA in any state. This option might be chosen by a student who does not want to become professionally certified, but who seeks a career involving accounting and financial analysis in industry, government or nonprofit enterprises. This also might be chosen by a student choosing a dual emphasis, such as accounting and finance or accounting and information management.

Code	Title	Credit Hours

CPA Licensure Requirements

All states require 150 total credit hours for licensure as a CPA and most require additional accounting and other business courses. Most states do not require a master's degree. Thus, one route to licensure is obtain a BS with an accounting emphasis, but take additional coursework to meet the specific requirements of the state(s) where the student expects to practice. Students can generally find the current requirements for a particular state at the website for that state's board of accountancy, or at NASBA.org (http://nasba.org/). It is possible that one or more

courses that a state requires for CPA certification is not available to undergraduates at CU Boulder; in such a case the student could take those courses either in person or online at a different institution.

Business Analytics Emphasis

The area of emphasis in business analytics focuses on the exciting and fast-growing field of big data. This interdisciplinary area of emphasis teaches students how to translate data into strategic business decisions. The coursework integrates marketing and customer analytics with operations research, information management and statistical methods. This technical, quantitative and statistically intensive curriculum prepares students to excel in the field of business analytics.

Code	Title	Credit Hours

MKTG 3700	Digital Marketing	
MGMT 4110	Supply Chain Management	
MGMT 4120	Managing Business Processes	
Total Credit Hours		**18**

Finance Emphasis

Students with a finance emphasis must take 18 credit hours of finance courses beyond the BCOR sequence. Students interested in a finance area of emphasis should plan to take FNCE 2010 during their sophomore year.

Code	Title	Credit Hours
FNCE 2010	Quantitative Methods for Finance	3
FNCE 3010	Corporate Finance	3
FNCE 3030	Investment and Portfolio Management	3
ACCT 3220	Corporate Financial Reporting 1	3
FNCE 4040	Derivative Securities	3
FNCE 4850	Business Senior Seminar in Finance	3
Total Credit Hours		**18**

Personal Financial Planning Track (PFP)

Code	Title	Credit Hours
FNCE 2010	Quantitative Methods for Finance	3
FNCE 3820	Principles of Personal Financial Planning and Insurance	3
FNCE 3010	Corporate Finance	3
FNCE 3030	Investment and Portfolio Management	3
ACCT 3220	Corporate Financial Reporting 1	3
FNCE 3040	Retirement Planning	3
ACCT 3440	Income Taxation of Individuals	3
FNCE 3060	Estate Planning	3
FNCE 4840	Personal Financial Plan Development Capstone	3
Total Credit Hours		**27**

The required courses represent a minimum requirement for competence in financial analysis and decision-making. Combinations of the upper division elective finance courses allow students to structure their learning in preparation for specific career paths. Completion of the optional elective focus does not appear on a transcript.

Optional Elective Focus: Investment Banking

In addition to the required courses, students interested in a career in investment banking should consider taking the following courses as business electives:

Code	Title	Credit Hours
FNCE 4830	Seminar in Investment Banking	3
ACCT 3230	Corporate Financial Reporting 2	3
FNCE 4050	Capital Investment Analysis	3
Total Credit Hours		**9**

Optional Elective Focus: Investment Management

In addition to the required courses, students interested in a career in investment management should consider taking the following courses:

Management Emphasis

All students declared in the management area of emphasis must choose one of the following tracks: Leadership or Human Resources Management.

Leadership Track

The Leadership Track equips students with essential leadership skills and competencies. Students who complete this track acquire research-based knowledge and hands-on experiences that enable them to become principled, productive leaders who can energize, relate, and innovate. Students will be uniquely positioned to become great business leaders because they will possess the interpersonal and communications skills to help organizations succeed in an increasingly competitive marketplace.

Code	Title	Credit Hours
Required		
ORGN 3010	Negotiation and Conflict Management	3
ORGN 3025	How to Be the Boss	3
ORGN 3030	Critical Leadership Skills	3
Electives		
Select two of the following:		6
ORGN 3040	Fundamentals of Ethical Leadership	
ORGN 4300	Leading Diverse and Inclusive Organizations	
ORGN 4040	Individual, Team, and Organizational Development	
INBU 3300	International Business and Management	
BADM 4030	Crisis Leadership	
Required Senior Capstone Course		
BAIM 4065	Leadership in a Digital Age	3
Total Credit Hours		**18**

Human Resources Management Track

The Human Resources Management track focuses on organizational excellence by hiring, training, rewarding and retaining an organization's people. Students will learn the knowledge and skills for entry-level human resource positions and will have a strong basis from which to take the Society for Human Resources Management (SHRM) Assurance of Learning exam. After completing the Human Resources Management Track, students find opportunities as human resources generalist, recruiter, training & development, management trainee and many other interesting and rewarding careers.

Code	Title	Credit Hours
Required		
ORGN 4010	Redefining the Employee-Employer Relationship	3

Integration Area

Computer Science Integration

The computer science and business integration program allows Leeds students to complete a BS in Business Administration with a specialization in computer science. Students in this selective program take 28 hours of coursework in computer science in place of business and non-business electives and graduate with an in-depth knowledge in both computer science and business.

Learning Outcomes

By the completion of the program, students will be able to:

- Develop a basic knowledge of core concepts in the five major functional areas of business: accounting, finance, management, marketing and operations and information management.
- Develop a specialized knowledge of one or more of the ten areas of emphasis (accounting, business analytics, finance, management, management information systems, marketing, real estate, strategy entrepreneurship, supply chain management and sustainable business).
- Demonstrate that they have insight into the significance of the globalization of markets and its impact on modern business functions.
- Understand the connections between academic theory and practice.
- Recognize societal issues inherent in all business decisions, including the value of diversity and the role values play in business practices.
- Possess strong analytical and problem-solving skills, enabling them to identify and critically assess business problems.
- Develop a skillset appropriate for business professionals, including strong verbal and written communication skills, proficiency in business computer applications, the ability to work as part of a diverse team and the skills to act and present themselves in a professional manner.

Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

BS in Business Administration, MS in Accounting or MS in Taxation

Admissions Requirements

In order to gain admission to the bachelor's–accelerated master's program in accounting *or* taxation, a student must meet the following criteria:

- Have a cumulative GPA of 3.1 or higher
- Must have completed four **prerequisite** courses with a minimum GPA of 3.0 averaged over the following four courses:
  - ACCT 3220 Corporate Financial Reporting 1
  - ACCT 3230 Corporate Financial Reporting 2
  - ACCT 3320 Cost Management
  - ACCT 3440 Income Taxation of Individuals
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder

Program Requirements

BAM students will be allowed to take four classes (12 credit hours) of MS coursework while still in undergraduate status (i.e. the "BAM" courses). Of the four BAM courses, a maximum of three classes (9 credit hours) will be allowed to double count toward both the undergraduate and master's degrees. All BAM courses will be charged undergraduate tuition. After receiving the undergraduate degree, all remaining coursework will be assessed graduate tuition. To advance to the remaining MS coursework, BAM students must submit a graduate admission application early in the semester in which the undergraduate requirements will be completed.

Below is a recommended sequence of courses to complete in addition to other undergraduate requirements. The BAM in accounting or taxation is a 150 credit-hour program. Students earn a BS in business administration (120 credits) with an area of emphasis in accounting, finance, or accounting and finance, and an MS in Accounting (30 credits) or an MS in Taxation (31 credits).

Fourth Year - Undergraduate Status

- Required for all: ACCT 6350 (counts toward ACCT 4850 requirement)
- Choose up to three of the following:
  - ACCT 5450 (counts toward MS degree only)
  - ACCT 5620 (counts toward ACCT 4XXX elective requirement)
  - ACCT 5240 (counts toward ACCT 4XXX elective requirement)
  - ACCT 5250 (counts toward ACCT 4XXX elective requirement)
  - BSLW 5120 (counts toward business elective)

Fifth Year - Graduate Status

- Take remaining MS coursework over the summer, fall and spring semesters. Most courses are offered every semester but ACCT 6620 must be taken during final semester of the program. With precise planning, it is possible to complete the remaining graduate work over one summer session and one full semester

Note: The MS taxation path has less flexibility than the MS accounting path; please contact the department for taxation advising.

BS in Business Administration, MS in Real Estate

Admissions Requirements

In order to gain admission to the bachelor's–accelerated master's program in real estate, a student must meet the following criteria:

- Have a cumulative GPA of 3.0 or higher
- Must have completed all real estate **prerequisite** courses.
- Completion of BAM intent application

Program Requirements

BAM students will be allowed to take four classes (12 credit hours) of MS coursework while still in undergraduate status (i.e. the "BAM" courses). Of the four BAM courses, a maximum of three classes (9 credit hours) will be allowed to double count toward both the undergraduate and master's degrees. All BAM courses will be charged undergraduate tuition. After receiving the undergraduate degree, all remaining coursework will be assessed graduate tuition. To advance to the remaining MS coursework,

BAM students must submit a graduate admission application early in the semester in which the undergraduate requirements will be completed.

Additional Information

Students interested in the bachelor's–accelerated master's degrees listed above may contact the Leeds Graduate Program for more information at leedsmsa@colorado.edu.

Business - Minor

In 2013, the Leeds School of Business launched a 12-credit business minor so all CU Boulder students could gain business fundamentals, increasing their immediate impact as new hires. The business minor is now the largest minor on campus, attracting nearly 2,000 students from each college across the university.

Visit the Business Minor (https://www.colorado.edu/business/academic-programs/minor-business/) webpage to learn more about the curriculum, eligibility requirements and application process.

Requirements

Application

The admissions process consists of an online application (https://www.colorado.edu/business/undergraduate/admissions/non-business%20major/business%20minor/) and resume upload. Leeds receives many more qualified applicants than spots available; apply early for favorable admission.

Deadlines

Round 1 applicants (standard admission) receive admission decisions before registration opens, while Round 2 applicants (late admission) receive admission decisions after registration has begun.

- Spring deadlines: Oct. 5 (Round 1) & Dec. 5 (Round 2)
- Summer deadlines: Feb. 5 (Round 1) & April 5 (Round 2)
- Fall deadlines: March 5 (Round 1) & July 5 (Round 2)

Eligibility

To be eligible for admission students must have a minimum 2.0 cumulative GPA and have earned at least a C- in a pre-approved math reasoning course. Students currently enrolled in a pre-approved math reasoning course may apply and be conditionally admitted pending final course grade. The complete list of pre-approved math reasoning courses can be found on the Business Minor Application (https://www.colorado.edu/business/undergraduate/admissions/non-business%20major/business%20minor/) webpage.

Required Courses and Credits

The Business Minor takes a minimum of two semesters to complete. Foundation courses must first be completed before moving on to the track and capstone courses. Twelve credits of business minor coursework must be taken at CU Boulder.

Code	Title	Credit Hours
Foundation Courses		
BUSM 2010 & BUSM 2011	Principles of Marketing and Principles of Management	3
BUSM 2020 & BUSM 2021	Principles of Accounting and Principles of Finance	3
Program Track		
Choose one 3-credit track. (View "Track Courses" section below.)		3
Capstone		
BUSM 4010	Entrepreneurship and Innovation	3
Total Credit Hours		**12**

Foundation Courses

Through our foundation courses students are introduced to the essential elements of marketing, management, accounting and finance. Foundation courses are available in the fall, spring and summer. Track and capstone courses are only available in the fall and spring. The global business track is the exception, as it occurs abroad during the summer months and is available to a select few.

Prospective Business Minor students interested in taking summer foundation courses should apply for the summer cohort and are expected to enroll in both BUSM 2010/BUSM 2011 and BUSM 2020/BUSM 2021 over Summer Sessions A and B.

Note: Business Minor course codes changed in Fall 2018: Marketing & Management was previously coded as BUSM 2001, Finance & Accounting was coded as BUSM 2002, Tracks were coded as BUSM 3001, 3002, 3003, 3004 and 3005 and the Capstone was listed as BUSM 4001.

Track Courses

Students must complete one 3-credit track course, but may enroll in multiple tracks if desired.

Code	Title	Credit Hours
Track Courses		
Innovation		
BUSM 3010	Product Development I	1.5
BUSM 3011	Product Development II	1.5
Analytics		
BUSM 3020	Business and Financial Analytics I	1.5
BUSM 3021	Business and Financial Analytics II	1.5
Entrepreneurship		
BUSM 3031	Business Leadership	3
Global Business		
BUSM 3040	Doing Business in Europe	3
Real Estate		
BUSM 3050	Introduction to Real Estate	3
Environmental Sustainability		
BUSM 3060	Environmental Sustainability in a Globalized World	3

Capstone Course

Students complete the minor with an entrepreneurial capstone course that focuses on business strategy and development (BUSM 4010).

Business Leadership - Certificate

The business leadership certificate provides students with the foundations of theory and research on leadership, but emphasizes professional experiences such as mentoring, internships and engaging in leader roles. By the time they graduate, students should be poised to embrace leadership challenges as they unfold, make sense of leadership

experiences, thrive in a dynamic business culture and lead with an ethical compass.

The business leadership certificate is recommended for students who:

- Are interested in learning about the art and science of leadership,
- Have an interest in developing their own leadership to take on exciting leadership roles,
- Want to accelerate their leadership development so they can best learn from their early career experiences, and
- Want to start their own companies or lead important projects for social change.

Requirements

Admissions Requirements

Complete the Business Leadership Certificate Application Form (https://www.colorado.edu/business/programs/leeds-certificate-programs/business-leadership-certificate/) or email Antonio Papuzza (antonio.papuzza@colorado.edu) for additional details.

Required Courses and Credits

To teach students to be leaders, we must go beyond the traditional classroom, providing students with the opportunity to engage in leadership experiences and to make sense of those experiences to prepare them for future leader roles. As such we include both classroom and experiential requirements to the certificate.

There is a minimum grade requirement is a C- or better in order for upper-division courses to apply toward a certificate requirement. In addition, students are required to maintain an overall GPA of 2.0 for the selected courses.

Code	Title	Credit Hours

Entrepreneurial Studies - Certificate

Whether working for a large global corporation or a small start-up venture, graduates will be valued for their ability to innovate, lead change, recognize emerging markets and launch new products. The entrepreneurial studies program is designed to develop an individual's abilities to create, discover and exploit opportunities in start-up ventures or existing organizations.

The entrepreneurial studies program at the Leeds School of Business is internationally recognized for the quality of its instruction and the capabilities of our students. Within the Leeds School, the Deming Center for Entrepreneurship has served as a rich resource for students with interests in entrepreneurship—coordinating the academic curriculum, providing help with internship and job placement, creating links with the business community and sponsoring networking opportunities and many special events.

The curriculum focuses on experiential learning. Courses are designed to give students hands-on experiences that develop the ability to act on opportunities. Students may begin the study of entrepreneurship in their junior year.

Requirements

A certificate in entrepreneurial studies is granted to students who fulfill the following requirements:

1. Complete the 12 credits listed below.
2. Earn at least a 3.00 GPA in the three ESBM courses.
3. Complete an approved 60-hour entrepreneurship internship with a start-up company who's been in business for 5 years or less and has less than 200 employees and complete a 2-3 page write-up about it.
4. Engage in the entrepreneurship ecosystem (attend minimum of 8 events) and provide a short write-up on their experiences.
5. Pass a written exam in entrepreneurship at the conclusion of their studies.

Required Courses and Credits

Code	Title	Credit Hours
BCOR 2301	Business Law	1.5
BCOR 2304	Strategic and Entrepreneurial Thinking	1.5
ESBM 3700	Entrepreneurial Environments	3
ESBM 4570	Entrepreneurial Finance	3
ESBM 4830	New Venture Creation	3
Total Credit Hours		**12**

Note: Students seeking internships should complete ESBM 3700 prior to their internship.

For more information, visit the Leeds School's Deming Center for Entrepreneurship (http://www.colorado.edu/business/deming/) webpage.

Learning Outcomes

By the completion of the program, students will be able to:

- Demonstrate comprehensive knowledge and application of the entrepreneurial process.
- Develop and deliver a professional business pitch to a group of seasoned investors.
- Understand the importance of economic, social and political trends in the global entrepreneurial environment.
- Analyze industry and market data to identify entrepreneurial opportunities.

Global Business - Certificate

The globalization of the marketplace demands employees who can successfully compete in a multicultural business environment in the United States and around the world. Understanding the significant cultural, economic and political differences between countries and regions is vital to success in international business.

To develop these competencies, the Leeds School of Business offers the Global Business Certificate to its students. The certificate provides diverse exposure to global business principles and opportunities to develop intercultural self-awareness and a global mindset.

International Community Connection	
(Attend two events) [3]	
Total Credit Hours	**14-15**

1 Options for international electives include international business electives, language, geography, economics or political science. Only one foreign language course may be utilized for this requirement; the other class should be in another area.

2 Students are required to attend two campus events with a global focus. Options are available on the certificate website (https://www.colorado.edu/business/student-resources/global-initiatives/global-business-certificate/).

Additional Requirements

In addition to the three core courses and two elective courses as described above, the certificate program requires that students complete an experiential learning component. Students must participate in a global experience. This requirement may be satisfied in a number of ways including participation in a Leeds First-Year Global Experience, Leeds Global Seminar, global internship or study abroad program. International volunteer experiences or service learning work that is pre-approved may also be accepted.

All courses taken for the certificate must be taken for a letter grade. The exception is coursework taken on study abroad, which automatically transfers as pass/fail credit.

For any questions about these requirements, students should contact leeds.global@colorado.edu.

Learning Outcomes

By the completion of the program, students will be able to:

- Solve business problems that are distinct to global enterprises with an interdisciplinary approach.
- Effectively communicate about major global business trends in diverse environments.
- Resolve issues of ethics and social responsibility by considering appropriate cross-cultural elements.
- Adapt business decision-making to the technology, tools and data available in internationally diverse markets.

Operations and Information Management - Certificate

Advances in business knowledge and technology have radically changed business systems and processes—for example, how organizations buy and sell goods and services, integrate their supply chain and logistic systems and reach or retain customers. As a result, critical to today's businesses is the ability to get the right information to the right people at the right time, so that both strategic and operational decisions are made properly and quickly. To help students develop this ability, the Leeds School of Business offers the OPIM certificate.

Requirements

The Operations and Information Management (OPIM) Certificate requires 12 total credits. Students who are not pursuing the Business Analytics Emphasis, Operations Management or Information Management track in the Management and Entrepreneurship Division can take any three courses from the certificate course options listed below. Students pursuing Business Analytics, Operations Management or Information Management must take three certificate course options that do not already apply to their emphasis/track. Students cannot count courses toward both the OPIM Certificate and Business Analytics, Operations Management or Information Management.

To complete the OPIM certificate requirements, all students must also complete a faculty-supervised OPIM internship (MGMT 4910).

In addition, students are required to maintain an overall GPA of 3.00 or higher for the selected courses and receive a letter grade of B- or higher in each of the three certificate courses. Successful completion of the certificate program will appear on the student's transcript.

Courses

Code	Title	Credit Hours
Required Business Core Classes		
BCOR 2205	Introduction to Information Management and Analytics	1.5
BCOR 2206	Principles of Operations Management	1.5
Certificate Course Options		
Choose three of the following:		9
ACCT 4540	Accounting Information Systems	
BAIM 3100	Data Visualization	
BAIM 3205	Business Data Management	
BAIM 3210	Low Code for Citizen Developers	
BAIM 3220	Introduction to Python Programming	
BAIM 4065	Leadership in a Digital Age	
BAIM 4090	IT and Business Strategy	
BAIM 4120	Business Analytics	
or MGMT 3201	Business Analytics	
BAIM 4200	Advanced Business Analytics	
BAIM 4220	Enterprise Applications	
BAIM 4230	Customer Success with CRM	
BAIM 4240	Agile Project Management

MGMT 4150	International Operations Management	
MGMT 4200	Competitive Strategy	

MGMT 4400	Quality Management	
MGMT 4820	Decision Analytics	
MKTG 3700	Digital Marketing	
ORGN 4210	Systems Thinking	
Research Project or Internship		
Complete a faculty-supervised OPIM internship:		
MGMT 4910	OPIM Academic Internship	
Total Credit Hours		**12**

Learning Outcomes

By the completion of the program, students will be able to:

- Demonstrate specialized expertise in operations management and supply chain management.
- Effectively communicate interdisciplinary trends that influence the global economy, and their impact on operations management and supply chain management.
- Understand ethical considerations and apply ethical decision-making frameworks in business operations.
- Learn and apply new technologies and quantitative analysis to solve business problems.

Personal Financial Planning - Certificate

The Personal Financial Planning Certificate is available to undergraduate students who are not enrolled in the personal financial planning track. The certificate, which includes coursework requirements and an experiential component, is designed to differentiate students seeking to position themselves for potential career opportunities within the financial services industry and acquire personal skillsets for financial planning and wealth management.

Requirements

In addition to completing the four courses as described below, students must complete a relevant experiential learning activity, a personal reflection and an exit interview.

Code	Title	Credit Hours
Required Courses		
FNCE 2830	Personal Investment Management	3
FNCE 3820	Principles of Personal Financial Planning and Insurance	3
Electives		
Complete two of the following:		6
ACCT 3440	Income Taxation of Individuals	
FNCE 3040	Retirement Planning	
FNCE 3060	Estate Planning	
Total Credit Hours		**12**

Learning Outcomes

By the completion of the program, students will be able to:

- Upon completion of each course, students should be able to demonstrate the associated CFP Board learning objectives.
- The Certificate in Personal Financial Planning will help a student pursue job opportunities in wealth management and personal financial planning firms.

Social Responsibility and Ethics - Certificate

CU Boulder's Leeds School of Business is one of the few undergraduate business schools in the nation that emphasizes socially responsible conduct in business throughout its curriculum. The Center for Ethics and Social Responsibility (CESR) helps undergraduate students become outstanding business leaders of tomorrow by preparing them to meet the ethical challenges posed by an increasingly competitive, globally connected business world.

CESR offers the certificate in social responsibility and ethics (SRE) to business students who seek to distinguish themselves in the field of socially responsible business, whether their unique interests lie in environmental sustainability, social entrepreneurship, corporate ethics or values-driven leadership. Students who complete the certificate will develop the practical knowledge and marketable experiences that will distinguish them as business professionals who strive to make a positive social impact.

Requirements

The Social Responsibility and Ethics (SRE) Certificate is available to business students who seek to distinguish themselves in the field of socially responsible business, whether their unique interests lie in environmental sustainability, social entrepreneurship, or ethical leadership. Interested students need to register with the SRE office, then meet with CESR's Program Manager, and must graduate with a 3.00 GPA.

Required Courses and Credits

Code	Title	Credit Hours
Business Core		
BCOR 2301	Business Law	1.5
BCOR 2302	Business Ethics and Social Responsibility	1.5
Business Coursework		
Select three of the following courses. All courses have the minimum prerequisites of 52 credits completed and the completion of BASE 2104. Some courses have additional prerequisites.		9
ORGN 3030	Critical Leadership Skills	
CESR/ORGN 3040	Fundamentals of Socially Responsible Leadership	
CESR 3050	Sustainable Space Governance	
CESR 4000	Leadership Challenges	
CESR 4005	Business Solutions for Global Development	
CESR/MGMT 4130	Sustainable Operations	
ORGN 4100	Global Business Ethics	
ORGN 4300	Leading Diverse and Inclusive Organizations	
CESR 4430	Corporate Boards in Action	
ESBM 4830	New Venture Creation	

CESR 4850	The Sustainable Firm: Strategies and Practice	
Total Credit Hours		**12**

Note: These courses are in addition to BCOR, the capstone course, as well as any other prerequisites. See course descriptions for prerequisite details.

Experiential Learning

SRE students gain practical experience working in a field of their personal interest within sustainability and/or social responsibility. Examples include:

- **Internship (for-profit or nonprofit)**. Acceptable internships will be characterized by substantive work that adds value to the organization and contributes to the student's learning. Internships must be approved for SRE credit.
- **Service learning through the Education Abroad Office**. The Office of International Education offers study abroad programs focused on service learning, generally spanning one academic quarter or semester in the host country, during which the student will participate in, and gain credit for study in a school of higher education partnered with work for local institutions and non-governmental organizations on service projects that promote community development.
- **Related coursework**. CESR 4005, MGMT 4140 and advisor-approved courses may count toward the Experiential Learning requirement *or* toward the Business Coursework requirement, but not both.

For course descriptions and program details, visit the CESR Learning (http://www.colorado.edu/business/CESR/cesr-learning/) webpage.

Code	Title	Credit Hours
MGMT 4140	Project Management	3
CESR 4005	Business Solutions for Global Development	3
ESBM 4830	New Venture Creation	3
Advisor-approved independent study in a related topic; or an advisor-approved internship of an appropriate nature		

Personal Reflection and Exit Interview

Before graduation, students synthesize their academic and experiential experiences and set goals for their future. Students write a short essay (2-3 pages), reflecting on their experience and setting out the values that will guide their conduct and their careers. Students then meet with a staff or faculty member associated with the certificate program for their exit interview.

Learning Outcomes

By the completion of the program, students will be able to:

- Recognize and apply ethical principles and social responsibility in business decision-making.
- Understand the business case for sustainability including specialized knowledge of market trends and social/environmental risks and opportunities.
- Develop and demonstrate effective communication skills that provide strategic influence across multiple stakeholders.
- Learn and apply sustainable technologies to effectively solve problems in dynamic environments.

Communication, Media, Design & Information

The College of Communication, Media, Design and Information (CMDI) prepares students for careers as engaged citizens and effective professionals endowed with deep understanding of the historical and contemporary context of human communication, design and expression. Mindful of the active role communication plays in shaping human relationships, CMDI trains graduates to study and practice constructive interaction among people, communities, industries and publics. The college equips students with the skills needed to produce, gather, archive, curate, design, analyze and evaluate the flood of information, messages, images, sounds and ideas that populate our complex and rapidly evolving global media landscape, as well as to design spaces and to find solutions to social problems.

The careers of the future, and the problems professionals will be called upon to solve, do not rest inside a single discipline. To these ends, CMDI resourcefully combines disciplines newly extended and empowered by digital media and the social and cultural transformations those media engender. These include established scholarly, creative and professional fields such as media studies, communication, journalism, advertising, public relations and design, architecture, sustainable plannings & urban design, environmental product design and landscape architecture. But the college also houses the fast-growing fields of information science, a discipline that tackles the problems and opportunities facing an increasingly networked society, and critical media practices, a discipline centered on media production across media arts and experiential forms.

In giving these activities a collaborative home, CMDI facilitates innovative interactions among them. Its academic structure accordingly stimulates cross-disciplinary cooperation at all levels of curriculum, research and creative work.

Statement of Core Skills, Competencies and Scholarly and Creative Initiatives

CMDI attracts students, faculty and industry and creative professionals from across the closely related fields of media, communication and information. All of those either rostered in or affiliated with the new college accordingly share a set of skills, competencies and scholarly and creative interests that form a common core. This core is expressed at all levels of the college, from undergraduate curriculum and graduate training to the research and creative work of its faculty and both internal and external affiliates.

The Undergraduate Experience

All undergraduates enrolled in CMDI complete a core curriculum[1] designed to provide the broad intellectual framework common to each of the individual disciplines in which students eventually major. In addition to conveying the conceptual tools and perspectives all students in the college need, the core curriculum supplies the shared body of knowledge, exemplars and ideas required to build a coherent intellectual and creative community. Each academic unit within the college offers a unique curriculum determined by its faculty and expressed as a set of major requirements. Completion of the major requirements within a discipline

provides students with depth of knowledge and expertise appropriate to earning a BA or BS as designated by their discipline.

Additionally, undergraduates enrolled in CMDI acquire the technical and computational skills needed to thrive in today's networked media environment. Training in these skills is provided through CMCI 1040 (required of all first-year students) and the core computing requirement and is integrated into each student's chosen field of study. Finally, students in CMDI complete a secondary area of study outside of their major in order to build the intellectual versatility necessary for successful study and work in the field of communication, media, design and information.

[1]ENVD majors follow their departmental core for 2025-2026 instead of the CMDI core.

Graduate Study

Curricula leading to advanced degrees are offered by all of the departments in the College of Communication, Media, Design and Information. Students should consult the Graduate Catalog's Admissions (p. 1109) section for admission and degree requirements. Curricula for graduate programs are listed under each department.

Special Programs & Leadership

CMDI in DC, Washington D.C.

Working in partnership with the Washington Media Institute, the CMDI in DC Program is comprised of a four-day-a-week internship and project-based classes that will immerse students in a professional education and will prepare them for a media career. It's open to all CMDI majors and is designed for students in their junior or senior years.

Student media

The college is home to multiple student-run news outlets that challenge students to put lessons in journalism, communication, media production and more to test. Student media organizations include Radio 1190, The Bold, CU Independent and Sko Buffs Sports.

LA Entertainment Buffs, Los Angeles, CA

Working with alumni partners in the technology and entertainment industries, students can pursue a variety of west coast internship experience. Interested CMDI majors should contact their department for more information.

Policies & Requirements

The College of Communication, Media, Design and Information provides students with a world-class education to succeed as professionals and citizens in the ever-changing communication, media, design and information environment. Undergraduate degree programs are available in communication, information science, journalism, media production, media studies, environmental design and strategic communication.

In addition to completion of requirements for their designated major and core requirements for the college, all students in CMDI develop knowledge in a secondary area of study, typically by completing a minor or certificate. This requirement supports breadth of learning and allows students to develop skills outside their chosen major.

Academic Excellence

Dean's List

Students in the College of Communication, Media, Design and Information who have completed at least 12 credit hours of CU Boulder coursework for a letter grade in any single semester with a term GPA of 3.75 or better are included on the dean's list and receive a notation on their transcript and a letter from the dean.

Graduation with Honors

CMDI students may graduate with the honors designations of cum laude, magna cum laude or summa cum laude by completing the CMDI honors program, which involves completing a senior honors project within the major. Students interested in graduating with honors should contact the associate chair for their major department to learn more about the application process related to this opportunity.

Graduation with Distinction

Students will graduate with CMDI Distinction if they have at least 60 credit hours completed at CU Boulder and have a GPA of 3.75 or higher at the time they apply to graduate, for all coursework completed at the University of Colorado. This distinction is not updated after final grades post or projected based on anticipated final grades—it is determined based on the GPA posted at the time of application. This aligns with campus policy.

Program Awards and Scholarships

Alumni and friends of CMDI have made possible scholarships and awards to officially admitted students in CMDI. The application is open from November-March. Students must submit a completed application by the deadline, which is posted each year. For more information and application instructions, visit the university's Scholarships (http://www.colorado.edu/scholarships/) website. Incoming first-year students who have received a CU Boulder Esteemed Scholarship are automatically considered for a CMCI Merit Scholarship. For more information, visit CMDI's Financial Aid and Scholarships (http://www.colorado.edu/cmci/life-at-cmci/financial-aid-and-scholarships/) webpage.

Academic Standards

Good Academic Standing

Good academic standing in the college requires a cumulative GPA of 2.00 or above in University of Colorado work and a 2.00 GPA for all CMDI major coursework. Grades earned at another institution are not used in calculating the GPA at the University of Colorado. However, grades earned in another school or college within the University of Colorado system are used in determining a student's scholastic standing and progress toward the degree. Please refer to campus Academic Standing policies (p. 28) for further information about academic and registration processes for students earning below a 2.00 cumulative GPA.

Academic Ethics

The College of Communication, Media, Design and Information maintains the highest standards of intellectual honesty. Cheating; plagiarism; illegal possession and distribution of examinations or answers to specific question; alterations, forgery, or falsification of official records; presenting someone else's work as one's own or performing work or taking an examination for another student are examples of acts that may lead to suspension or expulsion. Reported acts of academic dishonesty are referred to the Honor Council. For more information, see the Academic Integrity (p. 24) section.

Policy on Grade Appeals

The following shall be the official policy of the College of Communication, Media, Design and Information regarding grade appeals.

Campus policy states that faculty members have primary authority in the area of grading and are charged with carrying out their responsibilities in a professional manner. The Dean's office has the authority and responsibility to deal with changes of grades in special and unusual cases such as those that might involve unprofessional faculty conduct in assigning the grade. Students should be aware, however, that neither Chairs nor Deans can require an instructor to change a properly assigned course grade.

Faculty are expected to assign grades in ways that are consistent, fair and conscientious. When a student believes a course grade has been improperly assigned, the student should first contact the course instructor to see if the issue can be resolved. If discussion between the student and faculty member has not led to a resolution, the student shall have the option of making a formal appeal utilizing the procedures outlined below:

1. The student shall have the option of making a formal written appeal to the chair/associate chair of the department in which the course was taken. The appeal must specify the inappropriate or unprofessional nature of the grade rendered and the remedy desired by the student, and it must be submitted within 45 days of the end of the academic term in which the course was taken.
2. The chair/associate chair will meet with the student and with the faculty member who taught the course. The instructor will be asked to submit a formal, written response to the student's written appeal. If the chair/associate chair is unable to broker a solution mutually acceptable to both student and instructor, then the chair shall appoint an ad hoc student ethics committee, which will review the dispute. The committee shall consist of two impartial faculty members competent in the subject matter of the course in question.
3. The department chair will convene the committee and provide the committee with the student's written appeal and the written response from the faculty member. Within 30 days, the committee will submit a report and recommendation to the chair, and the chair will recommend to the instructor either:
   a. that the originally assigned grade stand; or
   b. that a new grade be assigned.
4. In cases where a change of grade is recommended and the instructor does not wish to accept the recommendation, the materials will be submitted to the Dean of CMDI who will review the materials and make a final decision within 30 days of receipt. There is no appeal of the decision of the Dean.

This policy applies to the principal instructor in the course, whether that person is a faculty member or GPTI.

Policy on Waiver of Degree Requirements

The College of Communication, Media, Design and Information does not waive degree requirements or excuse students from completing degree requirements. Petitions for exceptions to the academic policies stated here may be submitted to the ad hoc Committee on Academic Rules and Policies. Such petitions will be considered only if they meet all three of the following conditions:

- The student must document they have made every effort to fulfill the policy or requirement as defined and must demonstrate that no other options exist for fulfilling the requirement as defined in this catalog.
- The student must document they are prevented from fulfilling the policy or meeting the requirement as defined here for compelling reasons beyond the student's control.
- The student must demonstrate to the satisfaction of the faculty committee that they have fulfilled or will fulfill the intent of the policy or the requirement through an appropriate alternative.

Students who believe that their circumstances meet the conditions to submit a petition must *first* consult with their academic advisor. If the advisor offers options for meeting the requirement or policy as defined here, the student *must* pursue those options and should not submit a petition.

Students who believe that their circumstances meet the conditions to submit a petition, who meet with their academic advisor *and it is agreed* they meet the requirements for a petition, should then, and only then, submit a petition to the Assistant Dean of Student Experience. Upon review it will be a) sent back for more information b) denied if alternatives are available and need to be pursued by the student (as stated above) or c) forwarded to the ad hoc Committee on Academic Rules and Policies for review and decision if an exception will be granted. Please note, the timeline for petitions to be reviewed by the ad hoc Committee on Academic Rules and Policies may vary depending on time of year. Students should expect a minimum of 5 business days for a response.

Credit and Enrollment

Requirements for Admission

Students will apply to the College of Communication, Media, Design and Information in one of the seven undergraduate majors. Students who are not eligible for admission directly into the major may be admitted to the CU Program for Exploratory Studies.

Transfer Students

Students applying to transfer into the College of Communication, Media, Design and Information from another institution must meet the following criteria: Students who enter with more than 36 credit hours must have a GPA of at least 3.0 from their transfer institution and must have completed an introductory course in the major they intend to pursue. Students who enter with 36 or fewer credit hours must have a GPA of at least 3.0 from their transfer institution but do NOT need to have completed the introductory course for the major they intend to pursue. For more information, see the undergraduate Transfer of College-Level Credit (p. 48) section.

Attendance Regulations

Students are expected to attend classes regularly and to comply with the attendance policies specified by their instructors at the beginning of each semester. A student who does not attend the equivalent of the first week's sessions of a class during a term may be administratively dropped from the class.

Credit Policies

Major Requirements

All coursework taken for major requirements must have a grade of C- or better in order to be counted toward the major requirements. Additionally, a grade of C- or better must be earned in CMCI 1040, which is required of incoming first-year CMDI students, or in CMCI 2030, which is required of all transfer students from other universities. Students admitted through

the Intra-University Transfer (IUT) process to CMDI are not required to and will not receive credit for CMDI 1040/2030.

Pass/Fail and Satisfactory/Unsatisfactory

In addition to the university's general policies, majors in the CMDI may not take any of the following courses pass/fail: CMDI core requirements, certificate or minor courses, business, secondary area of study or CMDI courses pass/fail or satisfactory/unsatisfactory.

The one exception to this policy is the APRD internship course (APRD 4931 (https://catalog.colorado.edu/search/?P=APRD%204931) Internship), which is a course designated only as S/U and for which 3 credits may be counted toward the major if appropriately approved for internship credit and registered in the course.

This is restricted up to six credit hours *outside* the CMDI major, CMDI core requirements, certification or minor courses, business or additional field of study may be taken pass/fail.

For transfer students, this is restricted to one credit hour for every eight credits attempted at the University of Colorado, up to the maximum of six credit hours.

Transfer Credits

Credit in subjects transferred from other institutions to the University of Colorado is limited to the amount of credit given for similar work at the University of Colorado. All transfer credit is subject to approval of the associate dean of CMDI. Work from another accredited institution of higher education that has been completed with a grade of C- (1.70) or better may be transferred to the University of Colorado. Categories of transfer coursework not accepted by the university are described in the undergraduate Transfer of College-Level Credit (p. 48) section.
All courses transferred from junior and community colleges carry lower-division credit. Courses transferred from four-year institutions generally carry credits at the level at which they were taught at the previous institution but can be subject to review on a course-by-course basis.

Residence Requirement

CMDI students must complete a minimum of 45 credit hours in University of Colorado Boulder courses. Of these 45 credit hours, a minimum of 30 credit hours must be in upper-division credit hours completed as a matriculated student in the College of Communication, Media, Design and Information at the University of Colorado Boulder and at least 15 of these upper-division credit hours must be in the major. A maximum of 6 credit hours taken at other University of Colorado campuses (CU Denver and UCCS) can be counted toward the minimum 45 credit hours required on the Boulder campus. Courses taken while on CU Boulder study abroad programs, through CU Boulder Continuing Education or CU Boulder correspondence courses are considered to be in residence.

Graduating Senior Requirement

Graduating seniors in CMDI majors are expected to **apply to graduate *prior* to their final anticipated enrollment window at CU**. Students are expected to understand their degree audit and requirements to graduate. CMDI Advising partners with students to affirm they accurately enroll in what is needed to complete all degree requirements. Students need to apply prior to their last enrollment window to allow time to adjust schedules and for advising to communicate instances where the student is missing requirements. This also allows departments to project enrollment needs in required and/or senior level courses.

Note: Later campus deadlines ensure graduates are in the ceremony event program and in campus processing system so that a degree can be conferred. Students who apply late may not be recognized in campus and college event programs.

Advising

Majors are encouraged to consult with their assigned CMDI academic advisor each registration period. Incoming first-year students are required to meet with their advisor in CMDI during the first four terms.

Advising is available throughout the academic year, and major degree planning tools are provided. However, the official tool of the university is the degree audit, students are ultimately responsible for fulfilling all degree requirements and understanding their degree audit. Appointments can be made with CMDI academic advisors in Buff Portal Advising.

Incoming first-year students are required to meet with their assigned primary advisor during the first four terms. This aligns with campus expectations around first year students to ensure proper connections to campus resources through advising and progress through their intended degree program.

Double Degree/Double Major Programs

All double degrees shall consist of a degree within CMDI and a degree outside CMDI. Students may complete requirements in two fields and receive two degrees from the university. Such double-degree programs are available combining CMDI with business, engineering, music or disciplines in the College of Arts and Sciences. Students must apply to graduate for each degree—CMDI and the Leeds School of Business, the College of Arts and Sciences, the School of Engineering and Applied Sciences or the College of Music. Any other combined program must be arranged by consulting both programs.

Students may double major within CMDI. The primary major will determine whether the degree is a BA or BS. Students may not get a double degree within CMDI.

Dual degrees are combined programs such as BA/MA or BS/MS, where a student is earning two degrees such as a baccalaureate and a master's degree in a single integrated program of study.

Enrollment Policies

CMDI departments determine and manage course enrollment. Enrollment capacities, course scheduling, faculty/instructor assignments, course requirements and waitlist structures are controlled at the department level.

Faculty do not make decisions about individual course enrollment. Students who seek enrollment into a CMDI course must engage in the campus registration process and adhere to policies related to enrollment windows, waitlists, adding, dropping, course reservation, etc. These policies and procedures can be found on the Office of the Registrar's website.

Enrollment concerns or questions should be directed to individual department administrative staff who will work with the Chairs of the department to determine course enrollment details as needed. Discretion is at the department level to modify or adjust any enrollment details for courses run through the department.

Colorado Student Bill of Rights

In the interests of promoting timely graduation and facilitating the transfer of students among the institutions of higher education in the state of Colorado, the College of Communication, Media, Design and

Information and the University of Colorado Boulder adhere to the Student Bill of Rights as presented in Colorado Statute 23-1-125.

- 23-1-125. Commission directive - student bill of rights - degree requirements - implementation of core courses - competency test - prior learning
  a. Student bill of rights. The general assembly hereby finds that students enrolled in public institutions of higher education shall have the following rights:
     i. Students should be able to complete their Associate of Arts and Associate of Science degree programs in no more than 60 credit hours or their baccalaureate programs in no more than 120 credit hours unless there are additional degree requirements recognized by the commission;
     ii. A student can sign a two-year or four-year graduation agreement that formalizes a plan for that student to obtain a degree in two or four years, unless there are additional degree requirements recognized by the commission;
     iii. Students have a right to clear and concise information concerning which courses must be completed successfully to complete their degrees;
     iv. Students have a right to know which courses are transferable among the state public two-year and four-year institutions of higher education;
     v. Students, upon completion of core general education courses, regardless of the delivery method, should have those courses satisfy the core course requirements of all Colorado public institutions of higher education;
     vi. Students have a right to know if courses from one or more public higher education institutions satisfy the students' degree requirements;
     vii. A student's credit for the completion of the core requirements and core courses shall not expire for ten years from the date of initial enrollment and shall be transferable.

Statewide Guaranteed Transfer of General Education Courses

As of fall 2003, the two-year and four-year transfer articulation agreements among Colorado institutions of higher education were replaced by a statewide guaranteed transfer of approved general education courses taken at any Colorado public institution of higher education. Under the statewide guaranteed transfer program, up to 31–33 credit hours of successfully (C- or better) completed coursework will automatically transfer and apply towards graduation requirements at the receiving institution. The coursework must be drawn from the list of approved guaranteed transfer courses and must meet the distribution requirements of the guaranteed transfer program. Further information about the statewide transfer program, including the list of approved courses and distribution requirements, can be found on the Colorado Department of Higher Education's Complete College Colorado! (http://highered.colorado.gov/Academics/Transfers/Students.html) webpage.

As of fall 2006, a student graduating with an Associate of Arts or an Associate of Science degree from a Colorado community college and entering the College of Media, Communication and Information is exempt from the written communication requirement and the lower-division component of the core curriculum, with the exception of CMCI 2030. Additional information on the evaluation of transfer credit of Colorado community college coursework and its application in select arts and sciences major programs can also be found on the College of Arts & Sciences' Student Resources (http://www.colorado.edu/artsandsciences/student-resources/) webpage.

Students are required to follow the graduation requirements listed in this catalog at the time of their initial entry onto the Boulder campus.

Credit Policies

Advanced Placement Program

See the undergraduate Credit by Examination (p. 37) section.

International Baccalaureate

Any student admitted to a University of Colorado campus after June 30, 2003, who has graduated from high school having successfully completed an International Baccalaureate (IB) diploma, program will be granted 24 credit hours of college credit. No tuition will be charged for these credit hours. These credit hours will be granted, however, only if the student receives a score of 4 or better on an examination administered as part of the IB diploma program.

In addition, college credit is granted for International Baccalaureate examinations at the higher level with a score of 4 or better. For specific equivalencies, contact the Office of Admissions at 303-492-2458 or visit the International Baccalaureate (http://www.ibo.org/) website.

Credit/No Credit

Credit/no credit changes must occur during the schedule adjustment periods each semester as outlined in the Registrar's academic calendar.

Credit Taken as a Nondegree Student

Once a student has been admitted to a degree program, credits from the Division of Continuing Education such as ACCESS, Boulder evening credit courses and CU Boulder correspondence classes may be eligible to be applied toward the degree. Students will receive initial advising during orientation once they have been accepted to a degree program in the College of Communication, Media, Design and Information.

Incomplete Grades

An I grade is given at the discretion of the course instructor only when a student has satisfactorily completed a substantial portion of a course and, for reasons beyond the student's control, is prevented from completing all work for the course within the term. Incomplete grades must be requested by the student and should not be awarded by the instructor for non-attendance. (In the case of nonattendance, the instructor should award the student the grade(s) earned.) If an incomplete grade is given, the instructor is required to document the reasons/grounds for awarding the incomplete grade, the specific work and conditions for completion of the course and the time frame within which the coursework must be completed. The maximum time the instructor can allow for the completion of the coursework and subsequent award of a course grade is one year from the end of the term the course was taken. After one year, if no final grade is awarded, the I will change to the grade of F. A copy of the Incomplete Agreement (https://www.colorado.edu/cmci/sites/default/files/attached-files/cmci_incomplete_grade_form_2.pdf) signed by the student and instructor and accompanied by documentation of the extenuating circumstances that resulted in the awarding of an incomplete should be filed with the CMDI Advising Office (email cmciadvising@colorado.edu) and a copy should be emailed to the student.

Independent Learning

A maximum of 30 credit hours of correspondence/online learning work may count toward the degree. CMDI and Arts and Sciences courses

offered by the CU Boulder Division of Continuing Education carry resident credit.

Independent Study

With departmental approval, students may register for independent study during the normal registration periods for each semester. Students may not register for more than 6 credit hours of independent study credit during any term. No more than 9 credit hours of independent study taken in a single department or program can be applied toward the total credit hours needed for graduation. A maximum of 16 credit hours of independent study may count toward the degree. The minimum expectation for each hour of credit is 25 hours of work. Independent study is rarely available during the summer term.

A student may not use independent study projects to fulfill the college's general education requirements. Some departments further restrict the use of independent study hours toward meeting major requirements.

Repetition of Courses

If a student takes a course for credit more than once, all grades are calculated into the GPA. However, the course is only counted toward graduation once, unless a course description specifically states that it can be taken more than once for credit.

Students may also retake a course for grade replacement (p. 52) under the grade replacement policy. When a student retakes a course for grade replacement, the grade earned in the most recent prior attempt will still appear on the transcript, but their cumulative GPA and credit totals on the transcript will only include the grade from the latest attempt.

ROTC Credit

The ROTC courses listed below have been certified as acceptable college-level coursework by the faculty of the College of Arts and Sciences or by other colleges and schools on the Boulder campus. These courses are counted as elective credit toward the degree. Courses not included on this list do not count toward any degree requirements. Transfer ROTC coursework must be evaluated as equivalent to coursework on this list to count toward degree requirements.

Code	Title	Credit Hours
AIRR 3010 & AIRR 3020	Leading People and Effective Communication 1 and Leading People and Effective Communication 2	6
AIRR 4010 & AIRR 4020	National Security, Leadership Responsibilities/Commissioning Preparation 1 and National Security/Leadership Responsibilities/Commissioning Preparation 2	6

Withdrawal

See the Registration & Enrollment (p. 59) section for campuswide policies and withdrawal procedures.

Students in the College of Communication, Media, Design and Information who withdraw two semesters in a row will have a dean's hold placed on their registration. Summer session is not counted as a regular semester. They will not be permitted to return to CU Boulder before one full academic year has elapsed (not including their semester of withdrawal). CMDI students may withdraw from all classes for a term until the last day that classes are taught by requesting withdrawal through the Office of the Registrar. Students cannot withdraw after classes have ended for a term except through the retroactive withdrawal process outlined in the Registration & Enrollment (p. 59) section.

These policies also apply to CMDI students who are enrolled in Continuing Education courses.

Students are encouraged to apply for leave of absence benefits with the Office of the Registrar when their withdrawal from the university is temporary. For more information, see the Registration & Enrollment (p. 59) section.

Readmission

CMDI students who request readmission to the college are always readmitted to their major of record at the time they last attended the university. Readmitted students who desire to pursue a major different from their major of record must follow the college's process for declaring a major after they have been readmitted. Students who request readmission from a discontinued program must work with CMDI advising to determine the current major degree pathway available to them based on their educational goals.

Core Curriculum*

(*for the 2025-2026 academic year, BEnvD majors will follow the ENVD departmental core instead of the CMDI core curriculum).

Mission Statement

The Core Curriculum blends liberal arts learning with skills necessary for success in careers involving communication, media, design and information. It aims to cultivate ways of thinking and doing that serves the educational, vocational and citizenship needs of CMDI students. To these ends, the curriculum promotes expression, collaboration and critical literacy across multiple forms of communication—from speech and writing to computing and visual media. Those skills underwrite learning across the humanities, the arts and the social and natural sciences, insuring educational breadth. The Core Curriculum matches that breadth with focus through a secondary area of study that students choose to supplement their major—a double degree, a double major, a

minor or academic certificate. Through designated history and diversity courses, the curriculum equips students to live in globalizing worlds, consider issues from multiple perspectives and engage in long-term thinking beyond the contemporary moment. Finally, the curriculum promotes both intellectual cohesion and independent learning through an introductory Common Experience course for all students and specialized Capstone Experiences tailored to particular majors and interests.

Educational Goals

The Core Curriculum is designed to help CMDI students master ways of doing, thinking and investigating essential to studying and working in media, communication and information fields. These competencies may be studied and practiced in coursework either within or outside the college. Graduates of the college are expected to be able to demonstrate competence in the following:

- Multi-modal composition and expression: being able to use written, spoken, visual and digital media for effective expression, argumentation and communication of ideas and sentiments to audiences.
- Collaboration, design and creative problem solving: being able to work effectively and inventively with others in complex problem solving and design tasks.
- Communicative interaction: being able to look at phenomena from the perspective of symbolic and material interchanges among individuals, collectives and institutions.
- Media literacies: being able to interpret and critically analyze messages and formal conventions (genres, grammars, logics) in multiple modes and media of communication (visual, sonic, discursive) and to consider them from the perspectives of their audiences, political economies and histories.
- Quantitative and computational thinking: being able to approach and solve problems quantitatively and algorithmically, and to apply and utilize computing models and resources when advantageous.
- Institutional and organizational understanding: being able to consider problems, policies and collective action from the perspectives of different institutions and organizations—e.g., political, legal, economic and religious.
- Cultural understanding: being able to consider problems and social experiences comparatively, considering different global and domestic cultures, with attention to categories of race, class, ethnicity, religion, gender and sexuality.
- Historical understanding: being able to consider social, cultural, intellectual, technological and/or institutional phenomena in historical perspective.
- Ethical action: being able to recognize moral issues, deliberate intelligently about them and uphold the ethical standards of particular disciplines and practices.

Design of the Core Curriculum

The Core Curriculum is designed to be both flexible and comprehensive. While promoting a shared mission and identity for CMDI students through a set of college requirements, the Core Curriculum also promotes breadth and porosity of learning across all the schools and colleges of the CU Boulder campus. Most of the core requirements may be taken either within or outside the college, and many are covered by a student's major. Students who wish to double degree in a CMDI discipline and a discipline outside CMDI will find that the CMDI Core Curriculum dovetails almost entirely with the core or breadth requirements of other CU Boulder colleges and schools.

Core Curriculum at a Glance

Code	Title	Credit Hours
College Requirements		
Common Experience: 1 course		4
Computing: 1 course		3
Capstone Experience: 1 course		3-4

World Language: third-year high school or third-semester college proficiency		0-3
The Natural World: 2 courses + a lab		7
People and Society: 2 courses		6
Humanities and the Arts: 2 courses		6
Point-of-View Requirements		
Historical Views: 2 "H" designated courses (0–6 additional credit hours)		0-6
Diversity and Global Cultures: 2 “D” designated courses (0–6 additional credit hours)		0-6
Total Credit Hours		**38-54**

College Requirements

1. A **Common Experience** course: incoming first year students are required to take CMCI 1040 and students who transfer into CMDI from outside CU Boulder are required to take CMCI 2030. The common experience course introduces shared themes, values, ethical issues and competencies across the college and emphasizes the marriage of study and practice that will be the hallmark of CMDI as a whole. The course is four credits and is structured as a lecture plus a lab/studio in which students create projects putting the lecture's ideas into practice by means of writing, speaking, design, visual presentation and other modes of expression, and by means of collaborative and active learning. Students must receive a C- or better in each course in order for them to count toward completion of the requirement.
2. **Computational Thinking and Literacy** (1 course, 3 credit hours): This requirement is designed to cultivate an understanding of the basic principles of computational thinking and literacy in order to support students in becoming reflective consumers and producers of information and communication technologies in an increasingly digital world. Courses that fulfill this requirement may do so by introducing students to algorithmic thinking in ways that facilitate purposeful engagement with digital technology use and design; the basic principles and structures of digital computing systems; coding and scripting; information search, retrieval and organization techniques; and human-centered technology design. These topics are contextualized by the ways in which digital technologies shape and are shaped by their interactions with people, organizations and societies.
3. An upper-division **Capstone Experience**: scholarly, lab-based or studio-based (1 course, 3–4 credit hours). This course fosters students' research, creative work, service learning and/or invention, and may include teamwork as well as individual achievement. This course may

be taken within the major, or it may be offered as an interdisciplinary option.

4. An **Secondary Area of Study** outside the major (variable credit hours). Defined as a double degree, second major, a minor, or an academic certificate, this sequence of courses helps students develop the intellectual versatility necessary for successful study and work in communication, media, design and information fields.

Breadth Requirements

Breadth requirements may be satisfied either within or outside the college. They may also overlap with requirements for individual majors.

1. **Composition and Expression** (2 courses, 6 credit hours):
   a. Lower-division writing (3 credit hours). This course develops the foundational skills in written expression expected of every CU Boulder graduate.
   b. Upper-division visual, digital, verbal, written and/or media composition (3 credit hours). This course requirement emphasizes the many alternative forms of composition and expression that CMDI students cultivate.
2. **Quantitative Thinking** (1 course, 3 credit hours): This course provides students with the ability to think at a certain level of abstraction, to manipulate symbols and to assess adequately the data that will confront them in their coursework and in their daily lives.
3. **World Language** (third-level proficiency): The goal of the language requirement is to encourage students to examine the formal and semantic structure of another language, significant and difficult works in that language, and one or more aspects of the culture lived in that language. This enables students to understand their own language and culture better, analyze texts more clearly and effectively, and appreciate more vividly the dangers and limitations of using a translated document. The language requirement concentrates on reading, although in some languages other abilities may be emphasized as well. Understanding what it means to read a significant text in its original language is essential for a liberal education according to the standards of this university.
   All students are required to demonstrate third-level proficiency in a single non-English modern or classical language. Students may meet this requirement by:
   a) Completing a Level III course (typically the third of three consecutive years) of a single non-English language while in high school;[1]
   b) Graduating from a high school that uses a non-English language as its principal mode of instruction, or receiving, in high school, a Colorado or other state-sponsored Seal of Biliteracy;
   c) Passing an appropriate third-semester college course that is part of a three-course sequence of at least 12 semester credit hours, or earning AP or IB credit equivalent to such a course; or
   d) Passing a CU Boulder approved proficiency examination.
   For a listing of courses at CU that fulfill the Level III requirement, please refer to the Arts & Science World Language listing.
4. **The Natural World** (2 courses + lab, 7 credit hours): These courses study the nature of matter, life and the universe. They enhance literacy and knowledge of one or more disciplines in the natural or physical sciences, and enhance the reasoning and observing skills necessary to evaluate issues with scientific content. A laboratory or field experience helps students gain hands-on experience with scientific research, develop observational skills of measurement and data interpretation and learn the relevance of these skills to the formation and testing of scientific hypotheses.
5. **People and Society** (2 courses, 6 credit hours): These courses introduce students to the study of social groups, including social institutions and processes and the forces that mold and shape social groups, including values, beliefs, communication processes and organizational principles. They prepare students to approach social phenomena of all kinds in an informed and critical way; to describe, analyze, compare and contrast social phenomena; and to analyze their own sociocultural assumptions and traditions.
6. **Humanities and the Arts** (2 courses, 6 credit hours): These courses foster students' understanding of fundamental aesthetic, cultural, literary, philosophical and theological issues. They sharpen critical and analytical abilities so that students may develop a deeper appreciation of works of art and literature and of philosophical, ethical and religious ideas and belief systems.

[1] A Level III course is defined as a high school course clearly designated as such (e.g., Spanish 3, Chinese 3 or German III) on the high school transcript or third-semester college course if the third-year course taken in high school is a concurrent/dual enrollment college course. Concurrent/dual enrollment college courses taken while in high school that are below the third semester level will not fulfill this requirement.

Point-of-View Requirements

Point-of-view requirements may be satisfied either within or outside the college, but at a minimum three of the 12 credit hours must be within CMDI. They may also overlap with breadth requirements and/or major requirements. In addition, a single course may be designated both "H" and "D."

1. **Historical Views** (2 "H" designated courses, 0–6 additional credit hours). This requirement enables students to understand that every contemporary issue has a history, and that an understanding of historical context and change is essential to an understanding of the contemporary moment. "H" designated courses emphasize longitudinal thinking and the investigation of the processes and the meanings of change over time.
2. **Diversity and Global Cultures** (2 "D" designated courses, 0–6 additional credit hours). This requirement increases students' understanding of the world's diversity and pluralism. "D" designated courses study some aspect of two broad and interrelated areas:
   a. The nature and meaning of diversity and the experience of groups marginalized because of their race, ethnicity, gender, sexuality or other characteristics; and
   b. Cultures other than those of Europe and the United States.

Academic Advising and Responsibilities

Students in the college are expected to assume responsibility for planning their academic program in conjunction with their academic advisor. Planning must be in accordance with college rules, policies and with departmental major requirements. Any questions concerning these provisions are to be directed to the student's primary academic advisor. The college cannot assume responsibility for problems resulting from students failing to follow the policies stated in the catalog, failing to understand their degree audit in consult with their academic advisor, failing to engage with or consult regularly with their assigned advisor throughout their degree progression, or from incorrect advice given by someone other than an appropriate staff member of the college. Students completing coursework for a secondary area of study outside of CMDI are expected to work with the advisor who oversees that area of study.

CMDI advisors are not responsible for knowing all the requirements for secondary area of studies offered outside of CMDI.

All new students are required to attend a special orientation, advising and registration program on campus before enrolling. All senior students are expected to review their progress through degree and timeline to graduate with their assigned advisor which results in a student log of their path to graduation. This ensures consistency in processes and progression along the student experience in CMDI.

Advising

Academic advising is an integral part of undergraduate education. The goal of all academic advising is to help students make responsible decisions as they develop educational plans compatible with their potential and with their career and life goals. Advising is more than the sharing of information about academic courses and programs; it includes encouraging students to formulate important questions about the nature and direction of their education and working with them to find answers to those questions. Advisors confer with students about alternative course schedules and other educational experiences, but students themselves are responsible for selecting the content of their academic program and making progress toward an academic degree.

As students progress through their academic program, their questions and concerns change. CU Boulder offers a system of faculty, professional academic advisors and peer advisors to address these ongoing and multifaceted concerns.

Students are ultimately responsible for choosing appropriate courses, for registering accurately and for meeting all degree requirements. Academic advisors assist students in clarifying their interests, values and goals and help students relate these to academic programs and educational opportunities. As students work with their advisors, they help students develop a coherent and balanced program of study that fulfills graduation requirements and assist students in identifying educational experiences outside the classroom that enhance their personal, intellectual and professional development. Academic advisors also assist students in understanding academic policies, requirements, procedures and deadlines.

Responsibilities of Students and Advisors

Within the advising system on the Boulder campus, both students and advisors have responsibilities.

Students are responsible for:

1. Knowing the requirements of their particular academic program, selecting courses that meet those requirements in an appropriate time frame, prioritizing courses that they need to register to progress toward graduation;
2. Consulting with their academic advisor several times every term; establishing a timeline to degree in consultation with their assigned advisor.
3. Scheduling and keeping academic advising appointments in a timely manner throughout their academic career, so as to avoid seeking advising only during busy registration periods;
4. Being prepared for advising sessions (for example, by bringing in a list of questions or concerns, having a tentative schedule in mind and/or being prepared to discuss interests and goals with their advisor);
5. Knowing and adhering to published academic deadlines;
6. Monitoring their position on registration waitlists; and
7. Reading their CU email on a weekly basis.

Advisors are responsible for:

1. Helping students clarify their values, goals and abilities;
2. Helping students understand the nature and purpose of a college education;
3. Providing accurate information about educational options, requirements, policies and procedures;
4. Helping students plan educational programs consistent with the requirements of their degree program and with their goals, interests and abilities;
5. Assisting students in the continual monitoring and evaluation of their educational progress; and
6. Helping students locate and integrate the many resources of the university to meet their unique educational needs and aspirations.

General Graduation Requirements

CMDI students must fulfill the following requirements for graduation:

1. Pass a total of 120 credit hours.
2. Maintain a 2.00 overall GPA and a 2.00 GPA in CMDI major coursework.
3. All courses taken for the major requirements must be passed with a C- or better.
4. Pass 45 credit hours of upper-division work.
5. Complete a minimum of 45 credit hours in University of Colorado courses on the Boulder campus. Of these 45 credit hours, a minimum of 30 credit hours must be upper division credit hours completed as a matriculated student in CMDI. Six of the 45 credit hours may be taken at other University of Colorado campuses. Courses taken while on CU Boulder study abroad programs, through CU Boulder continuing education or CU Boulder correspondence courses are considered to be in residence.
6. Complete a major offered by the College of Communication, Media, Design and Information. Students are subject to the major requirements in force when they declare the major.
7. Complete the CMDI core and MAPS requirements (MAPS apply to students entering prior to Summer 2023).

Programs of Study

Advertising, Public Relations and Media Design

Advertising, public relations and design (APRD) strives to produce leaders in strategic communication who are grounded in analytical and strategic management thinking and who equally understand the tactical and creative requirements of running professional communication campaigns. We believe in amplifying our students' curiosity, increasing their tolerance for risk and encouraging them to look at life and a career with an entrepreneur's eye for opportunity. APRD is committed to providing students with the necessary skills and techniques to think strategically, critically, adapt, create and above all lead in a rapidly changing media world.

Our goal is to help students acquire the kind of in-depth expertise in at least one area of strategic communication and design that will enable

them to generate ideas and solve problems for a variety of organizations, including but not limited to advertising agencies, public relations consultancies, publishing and design firms, nonprofits, start-ups and personal ventures. We produce graduates who are forward-looking and have a deep interest in and knowledge of diverse cultures both within the United States and throughout the world.

The department of advertising, public relations and design actively encourages students to enroll in courses offered both within and outside CMDI.

Course code for this program is APRD.

Bachelor's Degree

- Strategic Communication - Bachelor of Science (BS) (p. 701)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Barrett, Bridget (https://experts.colorado.edu/display/fisid_173429/)
Assistant Professor; PhD, University of North Carolina at Chapel Hill

Cheval, Melinda Kiger
Associate Teaching Professor Emerita

Doty, Dawn (https://experts.colorado.edu/display/fisid_158312/)
Associate Teaching Professor; MA, Johns Hopkins University

Duncan, Thomas R.
Professor Emeritus

Elliston, Diane
Assistant Teaching Professor; MFA, Claremont Graduate University

Fisher, Jolene (https://experts.colorado.edu/display/fisid_158335/)
Associate Chair, Associate Professor; PhD, University of Oregon

Gangadharbatla, Harsha (https://experts.colorado.edu/display/fisid_153279/)
Professor; PhD, University of Texas at Austin

Gillette, Jeff
Assistant Teaching Professor; MS, Virginia Commonwealth University

Greenan, LoriBeth
Assistant Teaching Professor; MS, New York University

Hopp, Toby (https://experts.colorado.edu/display/fisid_157745/)
Associate Professor; PhD, University of Oregon

Iyer, Pooja
Assistant Professor; PhD, University of Texas at Austin

Khedekar, Deepti (https://experts.colorado.edu/display/fisid_174027/)
Assistant Teaching Professor; PhD, University of Colorado Boulder

Kim, WooJim
Assistant Professor; PhD, University of Illinois at Urbana-Champaign

Labrecque, Joseph (https://experts.colorado.edu/display/fisid_165806/)
Assistant Teaching Professor; MA, University of Denver

Lee, Sangwook
Assistant Professor; PhD, Pennsylvania State University

Lee, Seow Ting (https://experts.colorado.edu/display/fisid_157994/)
Professor; PhD, University of Missouri–Columbia

Ligon, Dan (https://experts.colorado.edu/display/fisid_158313/)
Associate Teaching Professor; MFA, Brown University

Logan, Kelty Irene (https://experts.colorado.edu/display/fisid_147340/)
Associate Professor Emerita

Morehouse, Jordan (https://experts.colorado.edu/display/fisid_173434/)
Assistant Professor; PhD, University of North Carolina Chapel Hill

Moriarty, Sandra E.
Professor Emerita

Nottoli, David (https://experts.colorado.edu/display/fisid_164356/)
Assistant Teaching Professor; MBA, University of Illinois at Urbana-Champaign

Peterson, Loni
Assistant Teaching Professor; MA, University of Denver

Robbs, Brett
Professor Emeritus

Schauster, Erin E. (https://experts.colorado.edu/display/fisid_156310/)
Associate Chair, Associate Professor; PhD, University of Missouri–Columbia

Slayden, David Lee (https://experts.colorado.edu/display/fisid_113297/)
Associate Professor; PhD, Indiana University Bloomington

Sriramesh, Krishnamurthy (https://experts.colorado.edu/display/fisid_163947/)
Professor; PhD, University of Maryland College Park Campus

St. John, Burton (https://experts.colorado.edu/display/fisid_163948/#teaching)
Faculty Director, Professor; PhD, Saint Louis University

Tashakori, Parisa (https://experts.colorado.edu/display/fisid_166723/)
Faculty Director, Assistant Teaching Professor; MA, Islamic Azad University (Iran)

Vargo, Christopher (https://experts.colorado.edu/display/fisid_158320/)
Associate Professor; PhD, University of North Carolina

Wang, Mia (https://experts.colorado.edu/display/fisid_173497/)
Assistant Professor; PhD, University of Illinois at Urbana-Champaign

Weaver, Kay (https://experts.colorado.edu/display/fisid_167189/)
Chair, Professor; PhD, University of Stirling (Scotland)

Willis, Erin (https://experts.colorado.edu/display/fisid_156068/)
Associate Professor; PhD, University of Missouri–Columbia

Young, Morgan (https://experts.colorado.edu/display/fisid_159842/)
Assistant Teaching Professor; M.A., George Washington University

Courses

APRD 1003 (3) Principles of Strategic Communication
Introduces the foundations, nature, and practices of advertising and public relations and the various industry functions - including account management, market research, account planning, media planning, creative strategy, creative execution, branding, image reputation and crisis management. This course offers historical, organizational, financial, creative and critical perspectives concerning strategic communication.
Requisites: Restricted to students with 65 units or less completed.
Grading Basis: Letter Grade

APRD 1004 (1) Fundamentals of Grammar
Teaches students the basic rules of grammar, punctuation, word choice and sentence structure so that they can write clear and concise messages that convey a desired meaning, apply punctuation in an accurate and effective manner, and differentiate between style conventions.
Grading Basis: Letter Grade

APRD 2001 (3) Strategic Thinking in Advertising and Public Relations
Reviews historical and contemporary views of critical and strategic thinking, as well as strategic practices utilized in advertising, branding, and public relations through the use of readings, exploration of case studies, lectures, individual and group exercises, and client projects.
Requisites: Requires a prerequisite course of APRD 1003 (minimum grade C-). Restricted to students with Strategic Communication (STCM) plan (Majors) or who are On-Track admitted to STCM.
Grading Basis: Letter Grade

APRD 2004 (3) Introduction to Research Methods and Insights
Provides students with the fundamental skills necessary to develop research-based strategies to address challenges faced by advertising, public relations, and marketing professionals in their efforts to address client communication needs.
Requisites: Requires a prerequisite course of APRD 1003 (minimum grade C-). Restricted to students with Strategic Communication (STCM) plan (Majors) or who are On-Track admitted to STCM.
Grading Basis: Letter Grade

APRD 2005 (3) Strategic Communication Writing
Introduces students to strategic writing across multiple media platforms and demonstrates the different forms of writing used in the strategic communication subfields. Students will learn strategies for crafting and delivering effective messages to target audiences.
Requisites: Requires prerequisite courses of APRD 1004 and APRD 2001 and APRD 2004 (all minimum grade C-). Restricted to Strategic Communication (STCM) majors only.
Grading Basis: Letter Grade

APRD 2006 (3) Software and Design Applications
Equips students with the practical knowledge and critical skills necessary to effectively employ visual design in advertising and public relations practice. Students will be introduced to both the fundamental principles of graphic design and the technical tools used to bring design ideas to life.
Requisites: Requires prerequisite courses of APRD 1004 and APRD 2001 and APRD 2004 (all minimum grade C-). Restricted to Strategic Communication (STCM) majors only.
Grading Basis: Letter Grade

APRD 3001 (3) Visual Design 1
Students are introduced to design elements and principles, research and visual storytelling. They are challenged to communicate intellectual, sensory and emotional concepts by learning a visual vocabulary of type, color, and form expressed in a variety of mediums and dimensions.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with the Creative (CTV) or Media Design (DSN) subplan only.
Grading Basis: Letter Grade

APRD 3002 (3) Communication and Media Planning
Concentrates on strategies and tactics advertisers and marketers use to communicate their brand stories to their desired audiences. These include traditional media planning and placement - TV, print, radio, and out-of-home - as well as new areas like digital, social, and experiential approaches to communications. Students will learn how to create, develop, and present communication plans and campaigns in an interactive and fast-paced environment.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with Advertising (ADV) subplan only.
Grading Basis: Letter Grade

APRD 3003 (3) Strategic Communication Research Methods
Provides an opportunity to use and master quantitative and qualitative research methods. Students conduct research and analyze data to determine the target audience¿s relationship with specific product categories and identify the emotional and practical needs that create brand relationships.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with Advertising (ADV) or Public Relations (PRL) subplans only.
Grading Basis: Letter Grade

APRD 3004 (3) Account Management
Examines managerial and decision making processes of advertising and related brand communication functions. Emphasis on determining opportunities, integrating with other elements of the promotion mix, setting objectives, establishing budgets, and measuring advertising and communication effectiveness.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with Advertising (ADV) subplan only.
Grading Basis: Letter Grade

APRD 3005 (3) Content Strategy and User Engagement
Explore and understand the importance of content as a brand building tool. Students will gain the ability to use analytics to create strategy that allows the brand to have meaningful and cohesive conversation with its community.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with Advertising (ADV) or Public Relations (PRL) subplans only.
Grading Basis: Letter Grade

APRD 3006 (3) History of Advertising
Explores the critical moments in advertising history from the start of the Industrial Revolution through the current post digital era.
Grading Basis: Letter Grade

APRD 3009 (3) Brand Building
Explains the value of a brand in a marketing and advertising environment: how to build, manage, and protect a brand. Specific areas covered include what a brand is and why it matters, how a brand creates value, ways to measure and understand the value of a brand, managing new and established brands, and the role of consumer insight in managing a brand.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (all with minimum grade C-). Restricted to Strategic Communication (STCM) majors with Advertising (ADV) subplan only.
Grading Basis: Letter Grade

APRD 3010 (3) Consumer Insights
Students will learn how to leverage insights for the purposes of creative strategy and creative brief writing.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (all with minimum grade C-). Restricted to Strategic Communication (STCM) majors with Advertising (ADV) subplan only.
Grading Basis: Letter Grade

APRD 3011 (3) Visual Design 2
This advanced-level course is a continuation of "Visual Design I". Through hands-on studio exercises, interactive lectures, and critiques, students will learn to utilize the fundamentals of design, creative thinking, and storytelling to create practical and advanced projects that can be added to their portfolio. They will also learn to articulate the qualities of a visual design system and the strategies behind them.
Requisites: Requires prerequisite of APRD 3001 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with Creative (CTV) or Media Design (DSN) subplan only.
Grading Basis: Letter Grade

APRD 3100 (3) UX and UI Design Workflows
Explores how to create and produce effective and engaging designs for dynamic information across a variety of screens while maintaining brand identity. Extending the design principles learned in previous classes, the student will concept for user interfaces (UI) and navigational frameworks that optimize usability and accessibility.
Requisites: Requires prerequisite course of APRD 3001 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with the Creative (CTV) or Media Design (DSN) subplan only.
Grading Basis: Letter Grade

APRD 3102 (3) Copywriting 1
Explores the development of interactive concepts that meet a strategic brief's brand objectives. Emphasis is placed on developing strong digital ideals and mastering and applying the styles appropriate for different digital media.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (all with minimum grade C-). Restricted to Strategic Communication (STCM) majors with the Creative (CTV) or Media Design (DSN) subplan only.
Grading Basis: Letter Grade

APRD 3103 (3) Public Relations Writing
Emphasizes communication tactics: How to plan, write, and produce public relations tools; select audience and media; utilize print and electronic media. Focuses on Associated Press style and advanced writing techniques.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with Public Relations (PRL) subplan only.
Grading Basis: Letter Grade

APRD 3104 (3) Digital Storytelling for Public Relations
Provides students a new skill set in digital storytelling ideas, production, and analysis. Students will develop the skills to produce creative online stories that will reach strategic audiences. We will look at the changing roles of the storyteller in news, promotion, and public relations while discussing and analyzing media consumption habits that encourage a seamless transition from consumer to creator. This course is designed for public relations students within the strategic communication major.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with Public Relations (PRL) subplan only.
Grading Basis: Letter Grade

APRD 3105 (3) Public Relations Strategy and Implementation
Exposes students to concepts in strategic planning and implementation of public relations efforts. Students will come to understand the organization's internal and external communications and identify potential crises in the development of public relations strategy. This class provides an overview of the public relations process and its application to the development of strategy. Students will also understand implementation and evaluation of strategy.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with Public Relations (PRL) subplan only.
Grading Basis: Letter Grade

APRD 3112 (3) International Public Relations
Introduces students to the cultural, social and economic issues relevant to strategic communication in the global arena. Provides students with the foundational tools necessary to both understand and effectively navigate the often complex world of strategic intercultural communication. Specific topics will include exploration of the contextual factors that influence public relations practice in different nations/regions, discussion of the various theoretical models that govern global PR practice and critical evaluation of international PR case studies/campaigns.
Requisites: Requires a prerequisite course of APRD 2005 and APRD 2006 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with Public Relations (PRL) subplan only.
Grading Basis: Letter Grade

APRD 3300 (3) Crisis Communication in Public Relations
Explores theories and research related to public relations communication before, during and after a crisis; examines the fundamentals of organizational communication, crisis management and strategic planning.
Requisites: Requires prerequisite course of APRD 2005 and APRD 2006 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with Public Relations (PRL) subplan only.
Grading Basis: Letter Grade

APRD 3301 (3) Social Media Strategies
Emphasis on how social media and internet marketing influence public relations; understand the fundamentals and best practices in social media management, visual communication and mobile applications.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (all minimum grade C-). Restricted to Strategic Communication (STCM) majors with subplans of Advertising (ADV) or Public Relations (PRL) only.
Grading Basis: Letter Grade

APRD 3302 (3) Case Studies in Public Relations
Designed to help develop and refine critical thinking in selecting, creating and applying tools, techniques and principles of public relations to a variety of managerial cases and problem situations.
Requisites: Requires prerequisite course of APRD 2005 and APRD 2006 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with Public Relations (PRL) subplan only.
Grading Basis: Letter Grade

APRD 3400 (3) Creative Concepting 1
Introduces students to Design Thinking and the techniques for designing ideas into concepts. The course leads students through the design thinking process of 1) Empathize, 2) Define, 3) Ideate, 4) Concept, 5) Prototype, 6) Test. Most emphasis is placed on the first four steps.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (all with minimum grade C-). Restricted to Strategic Communications (STCM) majors with the Creative (CTV) or Media Design (DSN) subplan only.
Grading Basis: Letter Grade

APRD 3401 (3) Creative Concepting 2
Building on the fundamentals mastered in APRD 3400, this course takes design thinking for strategic communication purposes to the next level. Students tackle projects of greater complexity, designing concepts for, among others, mobile applications, social platforms, and interactive experiences. This class prepares the foundation for - and ladders into - APRD 4600.
Requisites: Requires prerequisite course of APRD 3400 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with the Creative (CTV) or Media Design (DSN) subplan only.
Grading Basis: Letter Grade

APRD 3402 (3) Content Creation
Focused on rapid content creation, this course will teach students how to develop and produce social content for strategic communication by combining message, concept and execution into consumer-facing touchpoints. Strategic Communication majors with the Creative (CTV) subplan have priority; others may enroll on a space-available basis.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (all with minimum grade C-). Restricted to Strategic Communication (STCM) majors.
Recommended: Prerequisites APRD 3500 or APRD 3001.
Grading Basis: Letter Grade

APRD 3500 (3) Copywriting 2
Explores the uses of story and how the design of story must adapt to different platforms and genres, including both short and long-form narratives, visual narrative, film, personal essay and advertising copy writing.
Requisites: Requires prerequisite course of APRD 3102 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with the Creative (CTV) or Media Design (DSN) subplan only.
Grading Basis: Letter Grade

APRD 3501 (1) Software Applications 2
Equips students with the critical skills necessary to effectively employ intermediate design software skills in advertising and public relations practice. Students will expand upon existing creative software skills and explore concepts and techniques when working with visual design and media content, motion design, animated compositions, audio and video production, and additional intermediate level topics.
Requisites: Requires prerequisite of APRD 2006 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with the Creative (CTV) or Media Design (DSN) subplan only.
Grading Basis: Letter Grade

APRD 3504 (1) Software Applications 3
Equips students with the critical skills necessary to effectively employ advanced design software skills in advertising and public relations practice. Students will expand upon prior creative software skills and explore advanced concepts and techniques when working with general visual media design, 3D compositing, interactive motion design, user interface design, animation concepts, data-driven visuals, and will explore additional media platforms not covered in previous courses.
Requisites: Requires prerequisite of APRD 2006 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with the Creative (CTV) or Media Design (DSN) subplan only.
Grading Basis: Letter Grade

APRD 4000 (3) Event Planning and Management
Introduces students to the planning and management of experiential events. Specifically, the course will locate experiential and event planning within the broader context of organizational strategy and will introduce students to project management through proposal development, scheduling, budgeting, and evaluation components that underlie successful event production.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (all with minimum grade C-). Restricted to Strategic Communication (STCM) majors with Public Relations (PRL) subplan only.
Grading Basis: Letter Grade

APRD 4010 (3) Strategic Health Communication
Introduces students to theory, research and contemporary concerns in health communication. Focuses on strategic communication for public service and public education campaigns related to health. Includes advertising and health promotion, community relations, public service programs, advocacy, online communities and social media management.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (all with minimum grade C-). Restricted to Strategic Communication (STCM) majors with Public Relations (PRL) subplan only.
Grading Basis: Letter Grade

APRD 4100 (3) Brands and Culture
Explores the intersection between culture and marketing communication. Students will examine brand communities, brand and category culture as well as popular culture and the impact on and within marketing communication. The goal is for students to become more aware of the importance of culture in the ability of communication to disrupt the status quo within a market.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (all minimum grade C-). Restricted to Strategic Communications (STCM) majors with Advertising (ADV) or Public Relations (PRL) subplans only and at least 70 credits.
Grading Basis: Letter Grade

APRD 4102 (3) Sustainable Brand Practices: Ethics Cases in Advertising and PR
Explore contemporary issues and ethics cases in advertising and public relations and how these practices impact the long-term success of a brand. Students will explore branding concepts and theories of ethics to examine some of the current controversies in which advertising and public relation campaigns are involved and how these issues can be dealt with in an ethical and socially responsible manner.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (all minimum grade C-). Restricted to Strategic Communications (STCM) majors with Advertising (ADV) or Public Relations (PRL) subplans only and at least 70 credits.
Grading Basis: Letter Grade

APRD 4300 (3) Strategic Communication Analytics and Metrics
Provide students with a base knowledge of analytics and metrics used in strategic communication. Students will learn how to obtain and clean big data, how to analyze and turn it into insights and how to present and communicate insights into actionable recommendations.
Requisites: Requires a prerequisite course of APRD 2005 and APRD 2006 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with a minimum of 70 hours and a subplan of Advertising (ADV) or Public Relations (PRL) only..
Grading Basis: Letter Grade

APRD 4301 (3) Social Media Listening
Provides the practical understanding and application of strategic social media listening from the brand perspective in advertising and public relations, focusing on critical thinking and the ethics of using social media data. Provides students with hands-on experience in industry leading listening tools including Brandwatch, Social Studio, Meltwater and Hootsuite. Equips students with the skills needed to find relevant conversations, uncover insights then apply their perspectives to management for business impact.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (all with minimum grade C-). Restricted to Strategic Communications (STCM) majors with Advertising (ADV) or Public Relations (PRL) subplans only.
Grading Basis: Letter Grade

APRD 4302 (3) Marketing Data Visualization
Teaches students how to use data visualization to tell business stories based upon the analysis of marketing and business data. Students will learn basic data concepts, types, and uses. They will explore, summarize, and analyze the data using various techniques and best practices with Tableau Software.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (minimum grade C-). Restricted to Strategic Communications (STCM) majors with Advertising (ADV) or Public Relations (PRL) subplans only.
Grading Basis: Letter Grade

APRD 4303 (3) Search Advertising Strategies
Build, manage and evaluate digital advertising campaigns for a non-profit organization. Teams of students are assigned a local non-profit and will evaluate, develop, and execute search advertising campaigns for their use. The course also provides a general overview of the search advertising landscape, "paid search." Course prepares students for careers in advertising agencies, media agencies, marketing departments and search consultancies.
Requisites: Requires prerequisite courses of APRD 2005, APRD 2006, and APRD 3002 (all with minimum grade C-). Restricted to Strategic Communication (STCM) majors with Advertising Strategy (ADV) subplan only.
Recommended: Prerequisite APRD 4300.
Grading Basis: Letter Grade

APRD 4404 (3) Advanced Ad Campaigns NSAC
Work and design an ad campaign for a real-world client through the National Student Advertising Competition (NSAC). Students in the course commit to both the fall and spring semesters in the same academic year for 6 total credit hours (4 hours of capstone credit plus 2 hours of upper-division elective credit). This two-semester course is equivalent to APRD 4405, and credit cannot be given for both. Instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires a prerequisite course of APRD 3001 or APRD 3010 or APRD 3105 (minimum grade C-). Restricted to Strategic Communication (STCM) majors only with a minimum of 80 hours completed.
Grading Basis: Letter Grade

APRD 4405 (4) Strategic Communication Capstone
Puts into practice knowledge from previous coursework to plan and execute a strategic communication campaign. Students work with others, operating as an agency. Students will develop one or more strategic communication campaigns. In addition, students will practice organizational and leadership skills; design and layout skills; produce a plans book; and pitch the proposed campaigns to the class and the client.
Requisites: Requires prerequisite courses of APRD 3001 or APRD 3010 or APRD 3105 or APRD 4506 (minimum grade C-). Restricted to Strategic Communications (STCM) majors with 85 or more credits.
Grading Basis: Letter Grade

APRD 4406 (3) Advanced PR Campaigns BATEMAN COMPETITION
Offers students the opportunity to develop and implement a PR campaign for a real-world client through the Bateman Competition, PRSSA's national case study competition for public relations students. Students in the course commit to both the fall and spring semesters in the same academic year for 6 total credit hours (4 hours of capstone credit plus 2 hours of upper-division elective credit). This two-semester course is equivalent to APRD 4405, and credit cannot be given for both. Instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of APRD 3103 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with Public Relations (PRL) subplan only and who have completed at least 80 credit hours.
Grading Basis: Letter Grade

APRD 4501 (3) Design for Social Innovation
Provides an introduction to design thinking as a means to drive social change and solve real-world problems. This studio class is project based and asks students to experiment with new behaviors of work and learning, including: collaboration, iteration, prototyping, empathizing, craft and inference. Field work and collaboration with teammates are required.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (all with minimum grade C-). Restricted to Strategic Communications (STCM) majors with the Creative (CTV) or Media Design (DSN) subplan only.
Grading Basis: Letter Grade

APRD 4543 (3) Strategic Brand Management
Examines the theory of branding: what brands are, how brands are created and measured, as well as strategies for managing brands and brand communication.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (minimum grade C-). Restricted to Strategic Communication (STCM) majors with Advertising (ADV) or Public Relations (PRL) subplans and a minimum of 85 credits only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Advertising Media Design

APRD 4600 (3) Creative Portfolio 1
Develop a variety of design concepts and execute them at a professional level. Students are assigned projects to demonstrate their ability in areas such as branding, product design, advertising creativity, and interaction design. Students will also design their own online portfolio. Creative work is presented in a juried show at the end of the semester.
Requisites: Requires a prerequisite course of APRD 3001 (minimum grade C-). Restricted to Strategic Communications (STCM) majors with the Creative (CTV) or Media Design (DSN) subplan only.
Grading Basis: Letter Grade

APRD 4601 (3) Creative Portfolio 2
Drawing on creative skills and knowledge developed in previous courses, students produce a final creative portfolio ready for professional viewing. There will be an opportunity to enter work into the International One Show advertising and design awards competition.
Requisites: Requires a prerequisite course of APRD 4600 (minimum grade C-). Restricted to Strategic Communications (STCM) majors with the Creative (CTV) or Media Design (DSN) subplan only.
Grading Basis: Letter Grade

APRD 4800 (3) Seminar in Honors Writing and Research
Supports seniors accepted into the APRD Honors Program in developing the research foundation for their projects, whether scholarly, creative, or hybrid. Topics include topic development, primary and secondary source research, and the writing of a scholarly literature review. Project and time management, planning for creative and scholarly field research, and peer support and editing are emphasized. In the spring, students take an independent study with their faculty advisor to complete their honors project.
Grading Basis: Letter Grade

APRD 4841 (1-6) Undergraduate Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

APRD 4873 (1-4) Special Topics
Special Topics.
Repeatable: Repeatable for up to 16.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Strategic Communication (STCM) majors only with 57-180 credits (Juniors or Seniors)
Additional Information: Departmental Category: Advertising Media Design

APRD 4931 (1-6) Internship
Internship course
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of APRD 3001 or APRD 3002 or APRD 3103 or APRD 3503 (all minimum grade C-).

Strategic Communication - Bachelor of Science (BS)

In the Department of Advertising, Public Relations and Design, students learn how to generate ideas and solve problems for businesses, organizations, brands and issues through a strategic thinking process that is grounded in analytical and creative thought. With the explosion of digital and social media, there's never been a more exciting time to work in the rapidly growing field of strategic communication.

The department offers a bachelor's degree in strategic communication—an umbrella term that refers to the way in which organizations use advertising, public relations and design to accomplish their goals. Undergraduate students can choose to specialize in one of three track areas below.

Program Tracks

Advertising Strategy

The advertising strategy track prepares students for careers in account management, account planning, brand and campaign management or media management. These advertising careers require knowledge of brand-building, audience engagement across media platforms, data analysis and strategy development.

Public Relations

The public relations track prepares students for a career in one of the nation's fastest-growing fields. Career opportunities within public relations include—but are not limited to—the roles of public relations director, media and communications manager, fundraising manager, director of communications, corporate communication manager, account manager, lobbyist, publicist, copywriter, event planner, social media manager and spokesperson.

Creative

The creative track involves the application of design thinking and design practices to create the targeted touchpoints of strategic communication for modern media in a commercial context, such as social media strategies, packaging design, app development and user experience. The creative track provides the methods and processes to solve a strategic communication problem, the experience and understanding to design an original concept, and the skills and best practices to bring those concepts to life. Graduates are employed as digital producers, social media managers, app designers, graphic designers, art directors, copywriters, user experience strategists and interaction designers.

Requirements

General Requirements

Each degree track requires 41-43 credit hours, comprised of the 23-credit-hour departmental Core Curriculum and 18-20 credit hours of specialized coursework.

The courses of Core Curriculum include Strategic Communication Capstone (APRD 4405), a 4-credit-hour capstone course completed in the student's final year.

Core Curriculum

Students must take the following courses to complete the department core requirement.

Code	Title	Credit Hours
Required Courses		
APRD 1003	Principles of Strategic Communication	3
APRD 1004	Fundamentals of Grammar	1
APRD 2001	Strategic Thinking in Advertising and Public Relations	3
APRD 2004	Introduction to Research Methods and Insights	3
APRD 2005	Strategic Communication Writing	3
APRD 2006	Software and Design Applications	3
JRNL 3651	Media Law and Ethics	3
APRD 4405	Strategic Communication Capstone	4
Total Credit Hours		**23**

Secondary Area of Study

In addition to the coursework required for the major, all students in STCM must complete a secondary area of study outside of STCM. This secondary area of study can be met by any of the following: a minor, a second major within CMDI, a double degree or any credit-based certificate program of at least 12 credit hours.

Program Tracks

Advertising Strategy Track

The advertising strategy track consists of three required courses and three electives totaling 18 credit hours. Up to six credit hours of elective requirements can be satisfied by an internship.

Code	Title	Credit Hours
Required Courses		
APRD 3002	Communication and Media Planning	3
APRD 3009	Brand Building	3
APRD 3010	Consumer Insights	3
Electives		**9**
APRD 3003	Strategic Communication Research Methods	
APRD 3004	Account Management	
APRD 3005	Content Strategy and User Engagement	
APRD 3006	History of Advertising	
APRD 3301	Social Media Strategies	
APRD 3402	Content Creation	
APRD 4100	Brands and Culture	
APRD 4102	Sustainable Brand Practices: Ethics Cases in Advertising and PR	
APRD 4300	Strategic Communication Analytics and Metrics	
APRD 4301	Social Media Listening	
APRD 4302	Marketing Data Visualization	
APRD 4303	Search Advertising Strategies	
APRD 4404	Advanced Ad Campaigns NSAC	
APRD 4406	Advanced PR Campaigns BATEMAN COMPETITION	
APRD 4543	Strategic Brand Management	
APRD 4800	Seminar in Honors Writing and Research	
APRD 4873	Special Topics (repeatable up to 6 credits)	
APRD 4931	Internship	
Total Credit Hours		**18**

Public Relations Track

The public relations track consists of three required courses and three electives totaling 18 credit hours. Up to six credit hours of elective requirements can be satisfied by an internship.

Code	Title	Credit Hours
Required Courses		
APRD 3103	Public Relations Writing	3
APRD 3105	Public Relations Strategy and Implementation	3
APRD 3003	Strategic Communication Research Methods	3
or APRD 3104	Digital Storytelling for Public Relations	
or APRD 3112	International Public Relations	
or APRD 3300	Crisis Communication in Public Relations	
Electives		**9**
APRD 3003	Strategic Communication Research Methods	
APRD 3005	Content Strategy and User Engagement	
APRD 3006	History of Advertising	
APRD 3104	Digital Storytelling for Public Relations	
APRD 3112	International Public Relations	
APRD 3300	Crisis Communication in Public Relations	
APRD 3301	Social Media Strategies	
APRD 3302	Case Studies in Public Relations	
APRD 3402	Content Creation	
APRD 4000	Event Planning and Management	
APRD 4010	Strategic Health Communication	
APRD 4100	Brands and Culture	
APRD 4102	Sustainable Brand Practices: Ethics Cases in Advertising and PR	
APRD 4300	Strategic Communication Analytics and Metrics	
APRD 4301	Social Media Listening	
APRD 4302	Marketing Data Visualization	
APRD 4404	Advanced Ad Campaigns NSAC	
APRD 4406	Advanced PR Campaigns BATEMAN COMPETITION	
APRD 4543	Strategic Brand Management	
APRD 4800	Seminar in Honors Writing and Research	
APRD 4873	Special Topics (repeatable up to 6 credits)	
APRD 4931	Internship	
Total Credit Hours		**18**

Creative Track

The creative track consists of six required courses and two electives totaling 20 credit hours. Up to six credit hours of elective requirements can be satisfied by an internship.

Code	Title	Credit Hours
Required Courses		
APRD 3001	Visual Design 1	3
APRD 3102	Copywriting 1	3
APRD 3400	Creative Concepting 1	3
APRD 3501	Software Applications 2	1
APRD 3504	Software Applications 3	1
APRD 4600	Creative Portfolio 1	3
Electives		**6**
APRD 3006	History of Advertising	
APRD 3011	Visual Design 2	
APRD 3100	UX and UI Design Workflows	
APRD 3401	Creative Concepting 2	
APRD 3402	Content Creation	
APRD 3500	Copywriting 2	
APRD 4404	Advanced Ad Campaigns NSAC	
APRD 4406	Advanced PR Campaigns BATEMAN COMPETITION	
APRD 4501	Design for Social Innovation	
APRD 4601	Creative Portfolio 2	
APRD 4800	Seminar in Honors Writing and Research	
APRD 4873	Special Topics (repeatable up to 6 credits)	
APRD 4931	Internship	
Total Credit Hours		**20**

Sample Plan of Study

The following provides an example of how the core requirements for a BS in Strategic Communication could be fulfilled within four years. Please refer to the specific track requirements to determine the number of electives required for the advertising strategy, public relations and creative tracks. Specific details on the Core Curriculum requirements for the College of Communication, Media, Design and Information Policies & Requirements (https://catalog.colorado.edu/undergraduate/colleges-schools/media-communication-information/policies-requirements/#corecurriculumtext).

Year One		
Fall Semester		**Credit Hours**
APRD 1003	Principles of Strategic Communication	3
CMDI 1040 Foundational CMDI (4), or CMDI Core or Elective (3)		4
Quantitative Thinking		3
Lower Division Writing		3
	Credit Hours	**13**

	Total Credit Hours	**120**

Learning Outcomes

The Advertising, Public Relations and Media Design Department has established that these are vital learning outcomes:

- Demonstrate the ability to conduct and apply research, strategic analysis and creative problem-solving to develop and execute solutions for real-world strategic communication challenges.
- Communicate clearly and effectively across various formats—written, verbal, digital and visual—to a range of audiences.

- Demonstrate an understanding of the structures, roles and key competencies within the strategic communication field.
- Work collaboratively across disciplines to achieve strategic communication goals.
- Critically analyze the role of strategic communication within broader social, cultural and global contexts, understanding its ethical implications and influence on diverse societies.
- Demonstrate proficiency with current and emerging tools, platforms and technologies essential for strategic communication.

Communication

In the Department of Communication, students learn about communication practices that underlie all of our social interactions, both in face-to-face interaction and in new forums, such as social media. The department is a vibrant community of scholars who share a commitment to excellence and innovation in communication research and teaching.

Our undergraduate degree blends the best of a broad, liberal arts education with practical skills that contribute to career and life success. We also offer a minor in communication.

Students will acquire broad knowledge in communication, including:

- Communication contexts (e.g., interpersonal, group, organizational, public, intercultural and digital).
- Ethical issues and responsibilities of communication practice.
- Fostering and supporting inclusive and just communities.
- History of communication and rhetorical study.
- Implications for shifting communication technologies.
- Methods for investigating communication problems.

Students will also acquire the skills and abilities to:

- Design innovative and influential messages.
- Develop inclusive and responsible communication practices.
- Analyze and critique communication processes.
- Build quality relationships and interactions.

Course code for this program is COMM.

Bachelor's Degree

- Communication - Bachelor of Arts (BA) (p. 708)

Minor

- Communication - Minor (p. 710)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Courses

COMM 1210 (3) Perspectives on Human Communication
Surveys communication in a variety of contexts and applications. Topics include basic concepts and general models of communication, ethics, language and nonverbal communication, personal relationships, group decision making, organizational communication, and impact of technological developments on communication. Required for COMN majors and minors.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
MAPS Course: Social Science

COMM 1300 (3) Public Speaking
Develops confidence and competence in writing and delivering presentations. Examines public speaking in a variety of personal, civic and professional settings. Required for COMM or COMN majors.

COMM 1600 (3) Group Interaction
Learn communication skills to be a better group member and enhance group effectiveness in a variety of professional and civic contexts. Practice group communication skills through an innovative group project and online simulation. Focuses on topics such as group development & socialization, decision making, conflict management, technology & virtual group work, difference & diversity, planning & coordination, leadership & management, and ethics. Required for COMM and COMN majors.
Requisites: Restricted to Communication (COMN) majors only.

COMM 2000 (3) Topics in Communication
Investigates select topics in communication. Does not count toward the 2000-level courses required for the major, unless explicitly stated in the course schedule.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisites COMM 1210 and COMM 1600.

COMM 2320 (3) The Craft of Argument
Focuses on the practice of argumentation in public life with attention to how the process of critical thinking leads to the invention of arguments. Students use argumentation theory to craft ethical and well-reasoned appeals and to critically evaluate the arguments of others. Formerly COMM 3310. Students who took this course previously as COMM 3310 cannot re-take it for credit.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

COMM 2400 (3) Discourse, Culture and Identities
Considers how communication is central to constructing who people are and examines social controversies related to talk and identities. Students learn to analyze and understand discourse, defined as everyday talk and conversation, through the practice of discourse analysis.
Additional Information: GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

COMM 2410 (3) The Practice of Intercultural Communication
Prepares students to approach intercultural communication as interaction across cultural difference. Teaches the discovery of how culturally variable communication practices (e.g., word and language choice, speech acts, personal address, silence, nonverbal communication, etc.) can lead to the breakdown of coordinated interaction, and how coordination can be restored. Examines broader social, cultural, and political contexts in which intercultural interactions occur.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

COMM 2500 (3) Interpersonal Communication
Examines how communication processes such as language and nonverbal behavior shape perceptions of self, influence identity, and impact interpersonal roles and relationships. Students learn theories of human interaction and consider how this can be used to improve relational communication.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisites COMM 1210 and COMM 1600.

COMM 2650 (3) Business and Professional Communication
Develops knowledge of concepts and skills required for successful participation in contemporary workplace communication. Focuses on communication processes associated with contexts such as sales, leadership, diversity, teamwork, customer service, and conflict. Facilitates students conduct of self-assessment, networking, interviewing, and other career-development strategies. Provides students training in informative and persuasive business presentations.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisites COMM 1300 and COMM 1600.
Grading Basis: Letter Grade

COMM 3000 (3) Issues in Communication
Explores select issues in communication.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites COMM 1210 and COMM 1600.

COMM 3210 (3) Communication Theory
Reviews multiple theories of communication and how they address a variety of personal, relational, group, organizational, and social problems. Develops new approaches to understanding and improving human communication.
Requisites: Requires prerequisite courses of COMM 1210 and COMM 1600 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Communication (COMM or COMN) majors/minors or On-Track IUT students admitted to COMN.

COMM 3220 (3) The Art of Listening
Investigates the entwined phenomena of listening and sound as fundamental but overlooked dimensions of embodied experience, communication, culture, and the living and material environments of the world. The course explores ways to understand, critically analyze, and practice listening as an embodied process of human responsiveness, social leadership, unequal power differentials, and creative possibility. It aims to retune how we listen to people, places, technologies, and the world at large.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites COMM 1210 and COMM 1600.
Grading Basis: Letter Grade

COMM 3300 (3) Rhetorical Thinking
Reviews the classical tradition of rhetoric and its relevance to current events and public issues. Students learn how rhetorical perspectives help us create new ways of thinking, speaking, and acting through practicing creative message design.
Requisites: Requires prerequisite courses of COMM 1210 and COMM 1600 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Communication (COMM or COMN) majors/minors or On-Track IUT students admitted to COMN.

COMM 3320 (3) Persuasion in Society
Learn personal and professional skills to become more persuasive in a variety of communication contexts, and develop a broader and more critical understanding of the culture of persuasion that pervades all aspects of society.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors). Requires prerequisite of COMM 1210 and COMM 1600 (all minimum grade C-).

COMM 3330 (3) Social Movements
Introduces concepts in rhetoric and argumentation that are used to explain significant social and political changes in our society. The goal is to show how social actors use rhetoric to promote some social goals and hinder others. Formerly COMM 2360.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites COMM 1210 and COMM 1600.

COMM 3340 (3) Political Communication
Explores the role of communication in politics, emphasizing how language drives policies and campaigns. Students learn communication strategies in order to craft innovative campaign messaging.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites COMM 1210 and COMM 1600.

COMM 3370 (3) Environmental Communication
Introduces the growing field of environmental communication, including historical events, key concepts, legal landmarks, technological developments and public controversies at the intersection of the environment, economics and social justice. Focuses on persuasive communication in the public sphere, as well as the constitutive power of communication to name and redefine what has been and might become possible in our environmental imaginations.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

COMM 3380 (3) Advanced Topics in Storytelling, Culture, & Climate Justice
Examines how we communicate about the intersections of climate change and social justice within specific cultural contexts, as well as how we can change narratives about climate justice through a culture-centered framework. Will focus on storytelling topics, such as food justice or energy justice.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

COMM 3410 (3) Intercultural Communication
Explores complex relationships between culture and communication processes from various conceptual perspectives. Considers the important role of context (e.g., social, historical, and cultural) in intercultural interactions. Recommended Prerequisites: COMM 1210 and COMM 1600.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences

COMM 3420 (3) Gender and Communication
Examines gender as a social practice that remains vital to identities, relationships, and institutions in contemporary society. Treats gender as something we do or enact through communication, rather than as something we are or have, and explores the implications of this shift in perspective. Investigates how gender interacts with sexuality, race, class, nation, age, ability, and other aspects of identity.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

COMM 3430 (3) Communication, Culture and Sport
Examines the communicative, historical and cultural aspects of sport in contemporary American society including the intersections of power, gender/sexuality, race and class.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

COMM 3510 (3) Family Communication
Explores communication in families from various theoretical perspectives, such as social constructionism, systems theory, and dialectical theory. Communication patterns and processes created and sustained by family members are examined, including rules, roles, stories, rituals, myths, metaphors, themes, and cycles.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites COMM 1210 and COMM 1600.

COMM 3610 (3) Communication, Technology, and Society
Examines how electronic media influence our communication in relationships and communities. Focuses on how we use technology to create shared meanings, express identities, and coordinate interaction, and why such efforts succeed and fail. Also focuses on political and ethical questions concerning the development of communication technology in a global society characterized by conflict and inequality.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites COMM 1210 and COMM 1600.

COMM 3620 (3) Advanced Teamwork and Collaboration
Explores communication and collaboration in complex situations (e.g., extreme environments e.g., space travel; cross-sector collaborations). Reviews and applies key processes of team/group communication and collaboration to the context of extreme teams to identify communication issues and interventions relevant in complex organizing or dangerous situations.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

COMM 3630 (3) Organizational Communication
Learn to understand and critique organizations and organizing from a communication perspective. Addresses topics such as organizational theory, organizational culture, power, technology, decision making, teamwork, leadership, diversity, gender, socialization, and ethics.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites COMM 1210 and COMM 1600.
Grading Basis: Letter Grade

COMM 3700 (3) Communication and Conflict Management
Examines communication concepts and theories related to interpersonal and organization conflict. Enables students to better understand different types of conflict, sources of conflict, and communication patterns that serve to create, maintain and transform conflict by teaching conflict management and collaboration.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite COMM 1600 and COMM 2500 or COMM 2650.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

COMM 3740 (3) Qualitative Research Methods
Learn to collect and analyze qualitative data (interviews, observations, focus groups) in order to answer research questions about communication and society. Focuses on research that investigates meaning, understanding, process, and interpretation in order to enhance our knowledge of human interaction.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Communication (COMM or COMN) majors or minors only.
Recommended: Prerequisites COMM 1210 and COMM 1600.

COMM 3750 (3) Quantitative Research Methods
Introduces empirical communication research. Students develop skills in collecting data and analyzing statistical research. Students conduct an original research project applying numerical analysis to communication behavior.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Communication (COMM or COMN) majors or minors only.
Recommended: Prerequisites COMM 1210 and COMM 1600.

COMM 3760 (3) Rhetorical Research Methods
Considers what it means to do rhetorical research. Explores various methods for analyzing all forms of public discourse, such as political speeches, advertising, activist campaigns, and popular entertainment, to better understand their effects and influence.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Communication (COMM or COMN) majors or minors only.
Recommended: Prerequisites COMM 1210 and COMM 1600 and COMM 3300.

COMM 4000 (1-6) Advanced Topics in Communication
Analyzes special interest areas of communication theory, research, and practice. Course format involves lecture, discussion, investigative analysis, and practical application.
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites COMM 3210 and COMM 3300.

COMM 4100 (3) Seminar in Honors Thesis Writing and Research
Provides the opportunity for students writing an honors thesis to develop their understanding of the research process and to improve their research and writing skills.
Requisites: Restricted to students with 80-180 credits (Senior) Communication (COMM or COMN) majors only.
Additional Information: Arts Sciences Honors Course

COMM 4220 (3) Senior Seminar: Functions of Communication
Topical seminar on the functions of communication across interpersonal, group, organizational, and public contexts. Reviews current theory and research on topics such as communication and conflict, persuasion, and ethical dimensions of communication practices.
Requisites: Requires prerequisite course of COMM 3210 (minimum grade C-). Restricted to students with 80-180 credits (Senior) Communication (COMM or COMN) majors only.

COMM 4300 (3) Senior Seminar: Rhetoric
Reviews current theory and research on rhetoric and culture on topics such as environmental rhetoric, rhetoric of racism, and rhetoric of storytelling.
Requisites: Requires prerequisite course of COMM 3300 (minimum grade C-). Restricted to students with 80-180 credits (Senior) Communication (COMM or COMN) majors only.
Grading Basis: Letter Grade

COMM 4510 (3) Senior Seminar: Interpersonal Communication
Reviews current theory and research on topics such as communication in intimate relationships, the darkside of relationships, and online relationship management.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of COMM 3210 (minimum grade C-). Restricted to students with 80-120 credits (Senior) Communication (COMM or COMN) majors only.

COMM 4600 (3) Senior Seminar: Organizational Communication
Reviews current theory and research on topics such as communication and organizational decision making, organizational culture, gender relations, communication technology, and power and control in organizations.
Equivalent - Duplicate Degree Credit Not Granted: COMM 5600
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of COMM 3210 (minimum grade C-). Restricted to students with 80-120 credits (Senior) Communication (COMM or COMN) majors only.

COMM 4610 (3) Senior Seminar: Communication Studies of Science and Technology
Requires students to synthesize and demonstrate what they¿ve learned in the major. Please refer to the specific description listed for the current semester. Each seminar will vary greatly in format and content.
Requisites: Requires prerequisite course of COMM 3210 (minimum grade C-). Restricted to students with 80-180 credits (Senior) Communication (COMM or COMN) majors only.

COMM 4840 (1-6) Undergraduate Independent Study
Note that the 14-hour limit in the major applies to any combination of independent study and internship credit. This course does not count toward the 36 credit hours required for the major.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Communication (COMM or COMN) majors only.
Recommended: Prerequisites COMM 3210 and COMM 3300.

COMM 4930 (1-6) Internship
Studies are pursued in communication-related work experience projects that generally require 40 hours on the job per credit hour and evidence (e.g., journal, paper and employer evaluation) of significant learning. The 14-hour limit in the major applies to any combination of independent study and internship credit and does not count toward the 36 hours required for the major.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Communication (COMM or COMN) majors only. Requires 2.5 or higher cumulative GPA
Recommended: Prerequisite 57 hours of overall course work, 18 hours of communication course work completed, 2.50 overall GPA and a faculty sponsor.

COMM 4950 (1-6) Senior Thesis: Honors
For exceptional communication majors who wish to graduate with department honors and receive credit for writing an honors thesis. For students accepted into COMN Honors program and currently completing COMN Honors Thesis project.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Arts Sciences Honors Course

Communication - Bachelor of Arts (BA)

The BA in communication provides a broad-based liberal arts degree designed to foster students' abilities to understand, analyze and effectively engage in a wide range of communication practices. It encourages critical thinking about the ways that symbols and interactions contribute to social problems and solutions.

The major provides instruction and practice in the skills of effective communication and collaborative problem-solving that employers are looking for—speaking, writing, reading, listening, asking good questions, utilizing media and working in groups. Students learn how to design innovative messages, build quality personal and professional relationships, elevate their critical thinking skills and are prepared to thrive in a variety of professions.

Requirements

Required Courses and Credits

Majors must complete a minimum of 36 credit hours of coursework in communication, at least 18 of which must be upper division (3000 level or higher). Only courses with grades of C- or better count toward the major, and the overall major GPA must be 2.000 (a C- is 1.700).

Note: In addition to major requirements, communication majors must complete CMDI Core Curriculum requirements. The Core Curriculum requirements for the College of Communication, Media, Design and Information can be found in Policies & Requirements (https://catalog.colorado.edu/undergraduate/colleges-schools/media-communication-information/policies-requirements/#corecurriculumtext).

Students who wish to major in communication should meet with a department advisor, where they will be advised of any changes to this list of requirements.

Code	Title	Credit Hours
Required Courses		
COMM 1210	Perspectives on Human Communication	3
COMM 1300	Public Speaking	3
COMM 1600	Group Interaction	3
COMM 3210	Communication Theory	3
COMM 3300	Rhetorical Thinking	3
Lower-Division COMM Electives		
Select at least two of the following:		6
COMM 2320	The Craft of Argument	
COMM 2400	Discourse, Culture and Identities	
COMM 2410	The Practice of Intercultural Communication	
COMM 2500	Interpersonal Communication	
COMM 2650	Business and Professional Communication	
Methods Course		
Select one of the following:		3
COMM 3740	Qualitative Research Methods	
COMM 3750	Quantitative Research Methods	
COMM 3760	Rhetorical Research Methods	
Senior Seminar		
Select one of the following:		3
COMM 4220	Senior Seminar: Functions of Communication	
COMM 4300	Senior Seminar: Rhetoric	
COMM 4510	Senior Seminar: Interpersonal Communication	
COMM 4600	Senior Seminar: Organizational Communication	
COMM 4610	Senior Seminar: Communication Studies of Science and Technology	
Upper-Division Electives		
Two additional upper-division electives (3000- or 4000-level courses); 4000-level courses may be taken twice (only twice) with different topics		6
COMM 3000	Issues in Communication	
COMM 3320	Persuasion in Society	
COMM 3330	Social Movements	
COMM 3340	Political Communication	
COMM 3370	Environmental Communication	
COMM 3380	Advanced Topics in Storytelling, Culture, & Climate Justice	
COMM 3410	Intercultural Communication	
COMM 3420	Gender and Communication	
COMM 3430	Communication, Culture and Sport	
COMM 3510	Family Communication	
COMM 3610	Communication, Technology, and Society	
COMM 3620	Advanced Teamwork and Collaboration	
COMM 3630	Organizational Communication	
COMM 4000	Advanced Topics in Communication	
COMM Elective		
One additional COMM elective, any level.		3

Independent Study/Internships	
Up to 8 credit hours of independent study and 6 credit hours of internships may be taken. These are upper-division elective hours but do not count toward major requirements. Eligible students interested in graduating with department honors should contact the department's honors coordinator as soon as possible.	
Total Credit Hours	**36**

Secondary Area of Study

In addition to coursework required for the major, all students in COMM must complete a secondary area of study outside of COMM. This secondary area of study can be met by any of the following: a minor, a second major within CMDI, a double degree or any credit-based certificate program of at least 12 credit hours. Secondary areas of study typically require 15-21 credit hours.

Additional Information

The department encourages its majors to take related courses in other departments in CMDI as well as anthropology, business, English, ethnic studies, history, linguistics, philosophy, political science, sociology, speech, language and hearing sciences, and theatre and dance.

The department also encourages participation in optional programs such as study abroad, internships and graduating with honors.

Sample Four-Year Plan of Study

Year One

Fall Semester		**Credit Hours**
COMM 1210	Perspectives on Human Communication	3
CMCI 1040:Foundational Concepts and Creativity in Media, Communication and Information (4) or CMDI Core or Elective (3)		4
CMDI Core or elective (P & S; H & A; Hist V; Div & Global)		3
Lower-division Writing Course		3
	Credit Hours	**13**
Spring Semester		
COMM 1300	Public Speaking	3
CMCI 1040:Foundational Concepts and Creativity in Media, Communication and Information (4) or CMDI Core or Elective (3)		3
COMM 1600	Group Interaction	3
CMDI Core Computing Course		3
Quantitative Thinking Course		3
	Credit Hours	**15**

Year Two

Fall Semester		
At least one of the following:		3
COMM 2320 or COMM 2400 or COMM 2410 or COMM 2500 or COMM 2650	The Craft of Argument or Discourse, Culture and Identities or The Practice of Intercultural Communication or Interpersonal Communication or Business and Professional Communication	
CMDI Core: Natural World		3
CMDI CORE or elective (P & S; H & A; Hist V; Div & Global)		7
Secondary Area of Study		3
	Credit Hours	**16**
Spring Semester		
At least one of the following:		3
COMM 2320 or COMM 2400 or COMM 2410 or COMM 2500 or COMM 2650	The Craft of Argument or Discourse, Culture and Identities or The Practice of Intercultural Communication or Interpersonal Communication or Business and Professional Communication	
CMDI Core: Natural World with Lab		4
CMDI CORE or elective (P & S; H & A; Hist V; Div & Global)		3
Secondary Area of Study		6
	Credit Hours	**16**

Year Three

Fall Semester		
COMM Elective, any level		3
COMM 3210 or COMM 3300	Communication Theory or Rhetorical Thinking	3
(Students should not take COMM 3210 and COMM 3300 in the same semester)		
CMDI CORE or elective (P & S; H & A; Hist V; Div & Global)		6
Secondary Area of Study		3
	Credit Hours	**15**
Spring Semester		
COMM 3210 or COMM 3300	Communication Theory or Rhetorical Thinking	3
(Students should not take COMM 3210 and COMM 3300 in the same semester)		
One of the following methods courses:		3
COMM 3740 or COMM 3750 or COMM 3760	Qualitative Research Methods or Quantitative Research Methods or Rhetorical Research Methods	
CMDI CORE or elective (P & S; H & A; Hist V; Div & Global)		6
Secondary Area of Study		3
	Credit Hours	**15**

Year Four

Fall Semester		
One Senior Seminar:		3
COMM 4220 or COMM 4300 or COMM 4510 or COMM 4600 or COMM 4610	Senior Seminar: Functions of Communication or Senior Seminar: Rhetoric or Senior Seminar: Interpersonal Communication or Senior Seminar: Organizational Communication or Senior Seminar: Communication Studies of Science and Technology	
COMM Upper-division Elective [1]		3
CMDI CORE or elective (P & S; H & A; Hist V; Div & Global)		3
Composition and Expression Course : Upper-division composition		3

Secondary Area of Study	3
Credit Hours	**15**
Spring Semester	
COMM Upper-division Elective [1]	3
CMDI CORE or elective (P & S; H & A; Hist V; Div & Global)	9
Secondary Area of Study	3
Credit Hours	**15**
Total Credit Hours	**120**

[1] Detailed list available in major requirements section of catalog.

Learning Outcomes

By the completion of the program, students will be able to:

- Develop creative and ethical messages to solve problems.
- Practice effective group communicaiton to work together toward a collective outcome.
- Understand communicative processes as constitutive.

Communication - Minor

Employers consistently rank communication skills among the most important qualities they look for in potential employees. Communication specialists are uniquely able to analyze and understand the work of communication in the world and design the kinds of processes that generate satisfying, effective, just and sustainable futures in relationships, organizations and communities.

A minor in communication teaches students how to design innovative messages, build quality personal and professional relationships, foster critical thinking skills, and prepares students to thrive in a variety of professions.

Requirements

Students pursuing the minor must complete a minimum of 18 credit hours of coursework in communication, at least 9 of which must be upper division (3000 level or higher). Only courses with grades of C- or better count toward the minor, and the overall minor GPA must be 2.000 (a C- is 1.700). They may apply no more than 6 credit hours of transfer work, including 3 credit hours of upper-division credit. Independent study and internship hours will not count toward the COMM minor requirements.

Required Courses and Credits

Code	Title	Credit Hours
COMM 1210	Perspectives on Human Communication	3
COMM 1300	Public Speaking	3
One 2000-level course		3
Three upper-division courses (3000 level or higher)		9
Total Credit Hours		**18**

Students who wish to minor in communication should meet with a department advisor, where they will be advised of any changes in this list of requirements.

Critical Media Practices

Critical media practices addresses the changing landscape of electronic media making by developing student analytical and production skills across a wide range of platforms, practices and technologies. The department explores the creative potential of cross-platform media production, as well as time-based media arts practices, such as immersive media production, sound practices and performance media. Our convergent approach to media spans a variety of media tools including digital photography, audio/video editing and single camera video production, computational media, open source programming and emergent tools under development. Our students acquire the skills and perspective to critically understand and actively contribute to this new constellation of audio-visual media making possibilities. The Department of Critical Media practices aims to prepare students to pursue careers as media art creators and critical citizens for the 21st century.

Production coursework encourages the development of personal style as students explore the expressive potential of emergent media practices, with a particular emphasis on the documentary impulse and making the “invisible” visible. Our program explores media art from a critical perspective: its nature, its history and its place in the contemporary world. Students are required to analyze not only existing media but also their own work. In this way the program presents media art as a way of engaging and knowing the world. At the graduate level, our department features an MFA degree in Interdisciplinary Documentary Media Practices and a Graduate Certificate in Interdisciplinary Documentary Media Practices. The department also offers a practice-led PhD in Emergent Technologies and Media Art Practices. The Center for Documentary and Ethnographic Media is affiliated with our program. Our department collaborators include faculty and students from anthropology, art and art history, Center for the American West, Center for Asian Studies, cinema studies, dance, English, geography, music and programs within the College of Communication, Media, Design and Information.

Course code for this program is CMDP.

Bachelor's Degree

- Media Production - Bachelor of Arts (BA) (p. 715)

Minor

- Media Production - Minor (p. 720)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Ambrose, Kirk T. (https://experts.colorado.edu/display/fisid_115914/)
Professor; PhD, University of Michigan Ann Arbor

Auguiste, Reece Luke (https://experts.colorado.edu/display/fisid_149596/)
Chair, Associate Professor, Faculty Director; PhD, University of Nottingham (England)

Biggs, Betsey (https://experts.colorado.edu/display/fisid_158344/)
Assistant Professor; PhD, Princeton University

Boord, Daniel Olin (https://experts.colorado.edu/display/fisid_134649/)

Young, Andrew P. (https://experts.colorado.edu/display/fisid_153434/)
Assistant Professor; PhD, University of California, Los Angeles

Courses

CMDP 1400 (4) Introduction to Critical Media Practices
Prepares students for critical practices in contemporary media cultures in a global context. Explores the diversity of media practices, including narrative and non-narrative forms, emphasizing aesthetics and visual studies. In lectures and recitations students will explore video, sound, the internet and other multi-media platforms of expression.

CMDP 2010 (3) Information, Media and Technology
Surveys the intertwined histories of information, media, and technology production and use through exploration of a shared topic. Examines the political, social, economic, and cultural contexts that underlie the movement toward a digital society. Enhances students¿ abilities to do research, write for multiple audiences, and create publicly-facing digital projects.

CMDP 2100 (3) Approaches to Historical Media Practices
Investigate historical and cultural discourses in the formation of media practices. Examines practices such as performance media; cinematic media, media art, and their aesthetic alignment to cognate movements throughout history.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

CMDP 2500 (3) Media Practices I
Working in design groups, students will explore the expressive potential of media through the production of short projects, discussions, readings, formal analysis, and critique. Provide a basic introduction to media practices as an extension of "visual thinking" and through approaches to storytelling, and hybrid media forms.
Requisites: Requires a prerequisite course of CMDP 1400 (minimum grade C-). Restricted to CMDI majors and minors and IUT On-Track students.

CMDP 2510 (1-3) Critical Media Practices Workshop I
Training in narrow topics of media practices.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Requires a prerequisite course of CMDP 2500 (minimum grade C-).

CMDP 3050 (3) Research/Remix
This Composition and Expression seminar develops information literacy practices: self-motivated, reflective discovery; critical source evaluation; and responsible, ethical knowledge creation. Encourages the seeking of multiple perspectives and diverse viewpoints through critically informed research, reflection, and creative work. Provides hands-on training in advanced searching, fact-checking, citation, and licensing. Enhances understanding of creators¿ rights and responsibilities. Formerly CMDP 3550.
Requisites: Restricted to CMDI majors with 57 or more credit hours.

CMDP 3110 (3) Electronic Arts Survey
Explores the development of electronic media art through screenings, readings, lectures and discussions.
Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C-).

CMDP 3150 (3) Sonic Histories
Introduces students to the history and theory of sound, through aesthetic, conceptual, and technological, developments. This course explores the physicality of sound, what sound can do inside and outside the artistic sphere, investigate sounding and listening as cultural and social acts, and study major developments in radio, electronic music, sound art, science and technology studies, and sound studies.
Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C-).

CMDP 3210 (3) Immersive and Emergent Media Histories
Introduces students to the histories and theories of virtual and augmented reality and associated technologies. Examines how interactive media have changed the classical dynamics of human communication, allowing multidirectional, non-linear and multimedia practices. In this course, students will study the various aesthetic, narrative, emotional and cultural elements of VR, AR, and other emergent media.
Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C-).

CMDP 3250 (3) Histories of Animation
This course provides an overview of animation by exploring this form through conceptual, historical, cross-cultural, and technical histories.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

CMDP 3310 (3) Performance Media Cultures
Reflect on the cultural construction of old and new performance media through the lens of emerging practices and contemporary discourse. From ancient theatre to cinema, interactive television to YouTube, and multi-media dance performances to computer games, this course explores how media shape, and are shaped by, various historical and contemporary audiences and contexts.
Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C-).

CMDP 3350 (3) Modes of Documentary Media History
Introduces students to the variety of practices by examining their emergence, evolution and cultural impact in the global sphere. Students discover the major themes and genres in documentary work from photography, cinema, audio, hypermedia and the public debates they have engendered. Through lectures, screenings and research, develop critical perspectives on the international and transcultural dimensions of documentary media history.
Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C-).

CMDP 3400 (3) Media Aesthetics
Builds students' ability to watch, reflect on, and write about media images. The course will be grounded in the analysis of media practices with special focus on media style and storytelling techniques. Explores media aesthetics from formal, cultural, and theoretical perspectives. Formerly CMDP 2400.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

CMDP 3450 (3) Critical Perspectives in Media Practices
Examines the contemporary landscape of media practices across platforms, such as film, social media, painting, video, and web art. This integrative exploration focuses on production contexts, circulation and reception through the lens of critical and interpretive frameworks. Drawing from key texts by major scholars and the works of media practitioners, students develop globally informed, critical perspectives for understanding.
Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C-).

CMDP 3510 (1-3) Critical Media Practices Workshop II
Training in narrow topics of media practices. Open to CMDI students and by permission of the instructor.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of CMDP 3600 (minimum grade C-).

CMDP 3600 (3) Media Practices II
Focus on developing an understanding of the principles, forms and aesthetics of media production. Working in design groups on small-scale media preproduction and production exercises, screenings and critiques, students learn creative solutions to problems in realizing expressive media projects. Formerly CMDP 2600.
Requisites: Requires prerequisite of CMDP 2500 (minimum grade C-). Restricted to CMDI majors and minors and IUT On-Track students.

CMDP 3610 (3) Intro to Digital Image Making Practices
Intro to Digital Image Making Practices provides students the technical skills for in depth exploration of the evolving principles and strategies of digital image making. Students will create small-scale projects with the primary emphasis on cinematographic experimentation and innovative visual techniques.
Requisites: Requires prerequisite course of CMDP 3600 (minimum grade C-).

CMDP 3620 (3) Images and Stories
Learn and apply innovative non-traditional approaches to scripting and storytelling, including automatic thinking, idea sketches, visual notes, outlines and storyboards, serials, aleatoric methods, diagrams, locations, photographs and short stories. Focuses on methods of exploring scripting methods outside of the fixed and rule-bound traditional model of storytelling as a means of introducing students to discover their own scripting techniques.
Requisites: Requires prerequisite course of CMDP 3600 (minimum grade C-).

CMDP 3700 (3) Digital Photographic Practices
Explores the creative possibilities of photography; students work on projects that combine concepts and techniques with contemporary practice and current modalities of exhibition and social distribution. Emphasis is placed on the student's personal growth through aesthetic and intellectual development in relation to current technologies. Formerly CMDP 3500.
Requisites: Requires prerequisite course of CMDP 3600 (minimum grade C-).

CMDP 3710 (3) Audio/Vision 360
Introduces techniques, software and related concepts of digital design and image making through individual and group projects. Emphasizes digital animation, digital audio, digital video and website design and development as a means to formal and expressive ends. Introduces students to critical readings and theories related to digital media practice.
Requisites: Requires prerequisite course of CMDP 3750 (minimum grade C-).

CMDP 3720 (3) Multimedia Composition
Combine writing with media such as video, music, animation and podcasting on the computer. Includes a unit on web-site design and ends with each student creating their own website and positing on it the project they created for the course.
Requisites: Requires prerequisite course of CMDP 3600 (minimum grade C-).

CMDP 3730 (3) Media Production Methods and Ideas
Explores creative approaches to idea formation, conceptualization, and organization for the moving image employing critical thinking, improvisation and visual storytelling techniques. Includes forms of creative writing, storytelling and preproduction techniques and strategies. Previously CMDP 2710.
Requisites: Requires prerequisite course of CMDP 3600 (minimum grade C-).

CMDP 3750 (3) Intro to Immersive and Emergent Media
This course serves at the gateway to the Immersive & Emergent Media concentration. Introduces concepts and practices associated with immersive & emergent media production. Emphasizes hands-on experience such as basic 3D modeling, the fundamentals of coding and interactivity, creating fully immersive extended reality experiences, and experimental applications of microcontrollers.
Requisites: Requires CMDP 3600 as either a prerequisite (minimum grade C-) or a corequisite; or MUSC 2081.

CMDP 3800 (3) Documentary Media Poetics
This course serves as the gateway to the Documentary Media concentration. Investigates documentary cinema and media practices through class discussions, research papers, hands on exercises and screenings. Cross-references documentary photography and moving-image documentary in the production of short digital projects. Explores the distinctive contributions of digital technologies to documentary image making.
Requisites: Requires CMDP 3600 as either a prerequisite (minimum grade C-) or a corequisite; or MUSC 2081.

CMDP 3820 (3) Performance Media Practices
Develop a performance vocabulary within the context of various media platforms. Through creating individual and collaborative performance projects, students will explore performance design issues such as movement, blocking and staging with projection, sensors, sound and other media tools.
Requisites: Requires a prerequisite course of CMDP 3600 (minimum grade C-).

CMDP 3830 (3) Advanced Performance Media Workshop
Study practical, technical and theoretical strategies of performing with and through media. This is an in-depth course that investigates a narrow scope drawn from topics that may include dance/movement, the illustrated lecture, projection environments, digital sensing, responsive lighting or acoustic strategies for performance.
Requisites: Requires prerequisite course of CMDP 3820 (minimum grade C-).

CMDP 3840 (3) Sound Practices
This course serves as the gateway to the Sound Practices concentration. Explores the aesthetics of sound through the study of sound art and sound culture. Reading and discussion covers theories technologies, and histories that drive the medium. Students apply concepts by designing and building their own soundscapes, Class will be organized around hands-on activities, lectures, and discussion of readings.
Requisites: Requires CMDP 3600 as either a prerequisite (minimum grade C-) or a corequisite; or MUSC 2081.

CMDP 3860 (3) Sonic Arts I
Surveys the various tools and techniques in the field of music technology. Topics include an introduction to basic synthesis, digital signal processing, MIDI and audio sequencing, music notation and a historical perspective on electronic music.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 2061 and MUEL 2061
Requisites: Requires prerequisite course of CMDP 3840 (minimum grade C-).

CMDP 3880 (3) Hearing Image, Seeing Sound
Explores how artists, filmmakers, composers, and others have forged connections between sound and image, and how we might learn from them to create our own meaningful creative work. Readings and screenings will dig deep into the geneologies of film sound, and students will create their own imaginative combinations of sound and image throughout the semester.
Requisites: Requires prerequisite course of CMDP 3840 (minimum grade C-).

CMDP 3890 (3) Sound Art
This studio course provides an overview of contemporary sound art and installation, facilitates the development of sonic artwork, and encourages a critical approach to sound and audio practice. How can sound, uniquely powerful in triggering memory and connecting us to the present moment, be used to engage with or challenge specific sites and histories? Class projects might include audio collages, audiovisual works, headphone tours, interactive installations, and public interventions.
Requisites: Requires prerequisite course of CMDP 3840 (minimum grade C-).

CMDP 3910 (3) Media Production Topics
Rotating topics in media production techniques.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires a prerequisite course of CMDP 3600 (minimum grade C-).

CMDP 3990 (3) Media Professional Seminar
Learn aspects of professional development in media production. Through workshops, class trips and assignments students will learn of the many opportunities found within media production.
Requisites: Requires a prerequisite course of CMDP 3600 (minimum grade C-).

CMDP 4110 (3) Cultures of Digital Sound
Introduces students to a variety of critical scholarship and debates about our sonic environment through an examination of how sound interfaces with different facets of media production. Consisting of listening, analyzing and differentiating sound in different contexts, students will deepen their understanding of the relationship between sight and sound in cultural production.
Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C-).

CMDP 4220 (3) Digital Archives in Media Practices
Examine the theories and methods underpinning the use of archival materials in non-fiction media production while simultaneously exploring questions of ethics, truth and representation that the use and manipulation of archives raises. Through weekly lectures, seminars, readings and screenings, students will discover the theories and interpretive approaches to understanding the archive and its uses.
Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C-).

CMDP 4310 (3) Screen Culture and Globalization
Examine the formation of screen cultures (narrative, experimental, documentaries and multi-media video art) in the context of the cultural globalization of the moving image. Through lectures, seminars and research projects students explore the formation and evolution of screen cultures on various platforms such as digital cinema, web environments, video art, multi-channel installations and the moving image on mobile interfaces.
Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C-).

CMDP 4320 (3) Media Engagement in Digital Diasporas
Offers students critical and interpretive frameworks for understanding the cultural and historical significance of digital diasporas and these communities' use of digital technologies for communication, community building and the creation of digital documents about migration and connectivity with the homeland.
Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C-).

CMDP 4410 (3) Topics in Contemporary Media Technologies
Focus on the development and application of media technologies in moving image aesthetics and emergent media practices. Topics rotate according to faculty expertise, but may include new imaging technologies for small screen and mobile devices, web-specific media or emerging modes of production. Through lectures, screenings and seminars, students explore the work of contemporary thinkers and practitioners in the field.
Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C-).

CMDP 4610 (3) Small Screen Storytelling
Shoot footage on or for mobile screens including narratives, microdocumentaries, music videos, short stories and collaborative exquisite corpse projects. Students will complete work and distribute through various outlets on the internet.
Requisites: Requires a prerequisite course of CMDP 3600 (minimum grade C-).

CMDP 4620 (3) Media Environments
Explore the design and implementation of multimedia environments. Students will develop strategies for creating media exhibitions and/or performance environments with projection and sounds activated by sensors. This course is ideal for performers, dancers and media artists as well as those desiring to present information in novel ways, such as working with archival or non-fiction materials.
Requisites: Requires prerequisite course of CMDP 3820 (minimum grade C-).

CMDP 4630 (3) Introduction to Computational Media
Develop the technical and conceptual skills for computational media practices. Through individual and collaborative projects, students will explore the creative use of electronics and microcontrollers (including wearable and other embedded systems) through relevant programming environments. Introduces visual programming with a focus on signal processing for image and sound.
Requisites: Requires a prerequisite course of CMDP 3600 (minimum grade C-).

CMDP 4640 (3) Multimedia Sound
Learn what sound is and where it comes from; how to create, analyze, alter, mix, and record it digitally in the studio and in the field; and how it can interact creatively with other media. In addition to analyzing how professionals use sound, students will create five sound-based projects of their own.
Requisites: Requires prerequisite course of CMDP 3840 (minimum grade C-).

CMDP 4650 (3) Collaborative Performance Media Making
Explores the potential of collaborative performance media making through interdisciplinary, collaborative, media-for-live-performance production. Students create their own original performative works, reflect on both their own and their peers' works, and revise and revisit their creative work.
Requisites: Requires prerequisite course of CMDP 3820 (minimum grade C-).

CMDP 4660 (3) Dance for Camera
Explores the practices and techniques of moving-image production course with an emphasis on capturing human movement. The class develops skills in the areas of camera usage, digital editing, choreography, sound, and visual composition.
Requisites: Requires prerequisite course of CMDP 3820 (minimum grade C-).

CMDP 4710 (3) Projection Practices
Design and implement projection-based media projects and explore projection practice as a distinct field. Through individual and collaborative projects, this course explores projection for live events, installation, moving images and site-specific or community-based projects. Students will be introduced to emergent software and hardware for projection design.
Requisites: Requires a prerequisite course of CMDP 3600 (minimum grade C-).

CMDP 4730 (3) Digital Art and Emergent Technologies
Explores digital artistic practices across contexts and disciplines in various contexts. Emphasizes web and networked media as it applies to digital practices in sound, image, language, spatial and time-based arts.
Requisites: Requires a prerequisite course of CMDP 3600 (minimum grade C-).

CMDP 4740 (3) Augmented Reality
Builds on concept and principles learned in CMDP 3750. Introduces more advanced AR technologies and modes of production. Hands-on work allows students to apply theoretical knowledge by designing interactive digital experiences that blend the virtual and physical worlds. Examines ethical and societal implications of AR technology via critical practice and challenges students to evaluate its impact on privacy, accessibility, and cultural norms. Students work independently or in small teams on one semester-long AR project.
Requisites: Requires prerequisite course of CMDP 3750 (minimum grade C-).

CMDP 4750 (3) Virtual Reality
This course provides technical training in the arena of virtual reality (VR), as well as an in-depth perspective on the history of VR, its practical and artistic applications as well as its societal implications. Throughout the semester students also engage in discussions centered around best practices for immersive storytelling and user experience.
Requisites: Requires prerequisite course of CMDP 3750 (minimum grade C-).

CMDP 4760 (3) Topics in Immersive and Emergent Media
Apply individual and collaborative skills developed in previous coursework to rotating special topics in immersive & emergent media practices. In this production course, students will investigate and employ specific theories, methods, and techniques to create I+E works. Some topics may prioritize hands-on engagement with new tools and technologies. Areas of focus may include virtual reality, augmented reality, creative coding, AI, and others.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of CMDP 3750 (minimum grade C-).

CMDP 4810 (3) Advanced Documentary Practices
Combine research and production to produce short documentary media projects, which explore the world we live in. Focusing on practice, this course explores stylistic options employed on documentaries that give voice to different perspectives on the world. Students will be able to identify the tactics and strategies of documentaries in a variety of media, and will include visits with professional documentary makers. Students will complete a final documentary project.
Requisites: Requires prerequisite course of CMDP 3800 (minimum grade C-).

CMDP 4830 (3) Topics in Documentary Media Practices
Apply individual and collaborative skills developed in previous coursework to rotating special topics in advanced documentary media arts practice. In this production course, students will investigate and employ specific theories, methods, and techniques for making documentaries. Areas of focus may include documentary cinematography, producing, and postproduction or themes such as engaged documentary, ethnographic media, environmental documentary, social documentary, archival documentary, etc.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of CMDP 3800 (minimum grade C-).

CMDP 4841 (1-6) Undergraduate Independent Study
Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

CMDP 4860 (3) Sonic Arts II
Learn strategies and techniques for generating and manipulating sound with computer-specific tools. Students' projects will include compositions, soundscapes, ambient environments and soundtracks for multimedia and performance projects.
Requisites: Requires prerequisite course of CMDP 3860 (minimum grade C-). Restricted to Department of Critical Media Practices (DCMP) undergraduate majors and minors only.

CMDP 4865 (3) Multimedia Performance and Installation
Multimedia Performance and Installation is a hands-on introduction to creating live multimedia performances, media art installations, and more. Students will learn to use visual software environments such as Max to patch sounds, data, images, and other media together in exciting ways. These ideas will be synthesized in ongoing workshops, group discussions, and weekly projects, culminating in the creation of a media installation or live performance. No programming knowledge is required, but basic audio skills are recommended.
Requisites: Requires prerequisite course of CMDP 3840 (minimum grade C-).
Recommended: Prerequisite CMDP 3860 Sonic Arts I (minimum grade C-).

CMDP 4870 (3) Sound and Technology
Exploration of issues, techniques and tools of music and sound technology. Topics vary and may include: interactive systems for performance; music and mobile media; electronic music instrument design; digital synthesis and signal processing; music in multimedia; sound practices and analysis. Lecture during work sessions will support student projects.
Requisites: Requires prerequisite course of CMDP 3840 or MUEL 2061 (minimum grade C-).

CMDP 4880 (3) Topics in Sound Practices
Apply skills developed in previous coursework to rotating special topics in advanced sound practices. In this production course, students will investigate and employ specific theories, methods, and techniques for making sonic arts projects, alone or in conjunction with other media. Areas of focus may include sound installation, electronic music, film sound, podcasting, radio, or other advanced topics.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of CMDP 3840 (minimum grade C-).

CMDP 4900 (3) Media Practices Capstone
This Media Production capstone course explores the application of new media technologies in depth and engages students in an ongoing dialogue about the cultural context of new media technologies and their own work. Students will produce a major media project that synthesizes methods of media making into modes of communication and expression. Students are encouraged to take this course during their final semester.
Requisites: Requires prerequisite course of CMDP 3600 (minimum grade C-) and a minimum of 95 credit hours. Restricted to Media Production (DCMP) majors (not minors).

CMDP 4931 (1-6) Internship
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite of CMDP 3600 (minimum grade C-). Restricted to MDPD majors.

Media Production - Bachelor of Arts (BA)

The BA program in Media Production educates future media artists and creators by developing their professional production skills in a constructive and collaborative environment. Students learn to engage creativity as a way of knowing and a means through which to communicate complex ideas. Critical Studies courses help majors develop critical perspectives that place media practices within a broad cultural and historical continuum of innovation. Studio classes enable exploration of a diverse range of production topics, offering hands-on experience with a variety of media tools. Concentrations enable students to specialize in a particular practice area – documentary media, immersive media or sound – or create a blend through the integrative media option.

Program Tracks

Documentary Media Practices

The documentary media concentration provides students with the foundation to engage with their communities and find their voices as nonfiction artists and media producers. This concentration focuses on hands-on instruction and encourages collaboration, introducing students to the theories, practices and technologies associated with contemporary documentary media production. Students will learn how to implement techniques in the field to produce creative documentary projects and to develop an ethically informed, critically aware practice that harnesses the power of documentary media to build a better world.

Immersive Media Practices

We see the future of immersive storytelling as an active, connected, social and presence-inducing experience. The immersive media concentration is designed to introduce students to technologies and mediums of the future while providing a foundation for creative thinking,

considerate design, aesthetic sensitivity and engaging storytelling. This concentration introduces students to new learning experiences through instruction and hands-on experience with the technologies and techniques necessary for producing meaningful and engaging immersive content. Students will learn to question and intervene in the designed spaces of immersive media with the goal of bringing critical awareness to their cultural, social and political impacts and significance.

Sound Practices

Students in this concentration learn the tools, techniques and technologies of sonic practices ranging from sound art to electronic music to podcast production. A focus on creating a practice of deep and critical listening and exposure to a diversity of sound practitioners challenges students to think creatively and conceptually about sound in order to broaden both their technological and conceptual understandings of sound and to enable them to engage constructively and creatively with sonic worlds.

Integrative Media Practices

This option allows students to build their own concentration blending aspects of multiple practice areas. This focus teaches students to engage an audience through visual storytelling using a variety of media tools, techniques and technologies.

Requirements

General Requirements

The entry point to the Media Production major is CMDP 1400 Introduction to Critical Media Practices, a foundational course in theory and practice. Students must earn a grade of C- or above in CMDP 1400 to move forward in the program.

CMDP 1400 is the prerequisite for all subsequent critical studies courses, including two additional required courses: CMDP 2100 and CMDP 3400.

CMDP 1400 is also the prerequisite for the first required studio course: CMDP 2500. Immediately after completing CMDP 2500 (with a grade of C- or above), majors are required to take the second Studio core course: CMDP 3600. Both courses are restricted to CMDI majors and minors.

CMDP 3600 is a corequisite for concentration gateway courses (CMDP 3750, CMDP 3800 and CMDP 3840) and the prerequisite for all upper-division studio courses, including the capstone.

Majors should declare their concentration no later than the end of the semester in which they take CMDP 3600.

Concentrations consist of three upper-division studio courses and one critical studies course. The documentary media, immersive media and sound concentrations begin with a required “gateway” course, which serves as the prerequisite for advanced studio courses in the concentration area. Students in the documentary media and sound concentrations must take a designated critical studies course. Students in immersive media and integrative media have an open critical studies elective.

Majors conclude the program by taking CMDP 4900 Media Practices Capstone. The Capstone course is restricted to majors only and should be taken in a student’s final semester.

Required Courses and Credits

Code	Title	Credit Hours
Required Studio		
CMDP 2500	Media Practices I	3
CMDP 3600	Media Practices II	3
CMDP 4900	Media Practices Capstone	3
Studio Elective Courses (Rotating Electives)		
Select 3 credit hours of studio elective coursework (in addition to concentration requirements)		3
CMDP 2510	Critical Media Practices Workshop I	
CMDP 2820		
CMDP 3510	Critical Media Practices Workshop II	
CMDP 3610	Intro to Digital Image Making Practices	
CMDP 3620	Images and Stories	
CMDP 3700	Digital Photographic Practices	
CMDP 3710	Audio/Vision 360	
CMDP 3720/ ENGL 3856/ ATLS 3519	Multimedia Composition	
CMDP 3730	Media Production Methods and Ideas	
CMDP 3750	Intro to Immersive and Emergent Media	
CMDP 3800	Documentary Media Poetics	
CMDP 3820	Performance Media Practices	
CMDP 3830	Advanced Performance Media Workshop	
CMDP 3840	Sound Practices	
CMDP 3860/ MUEL 2061	Sonic Arts I	
CMDP 3880	Hearing Image, Seeing Sound	
CMDP 3890	Sound Art	
CMDP 3910	Media Production Topics	
CMDP 3990	Media Professional Seminar	
CMDP 4610	Small Screen Storytelling	
CMDP 4620	Media Environments	
CMDP 4630	Introduction to Computational Media	
CMDP 4640/ ENGL 4116/ ATLS 4519	Multimedia Sound	
CMDP 4650	Collaborative Performance Media Making	
CMDP 4660	Dance for Camera	
CMDP 4710	Projection Practices	
CMDP 4720

Required Media Production Critical Studies Courses		
CMDP 1400	Introduction to Critical Media Practices	4
CMDP 2100	Approaches to Historical Media Practices	3
CMDP 3400	Media Aesthetics	3
Concentration Courses		
Select a 12 credit hour concentration (see concentration descriptions)		12
Open Elective		
Select a 3 credit hour Open Elective (any CMDP Critical Studies or Studio Course beyond those required)		3
Total Credit Hours		**37**

Secondary Area of Study

In addition to coursework required for the major, all students in MDPD must complete a secondary area of study outside of MDPD. This secondary area of study can be met by any of the following: a minor, a second major within CMDI, a double degree or any credit-based certificate program of at least 12 credit hours.

Concentration Areas

Documentary Media Practices Concentration

In addition to completing basic major requirements, students complete an additional 9 credit hours of advanced studio coursework focusing on documentary storytelling and a concentration designated critical studies course.

Code	Title	Credit Hours
Required Studio		
CMDP 3800	Documentary Media Poetics (required gateway)	3
CMDP 4810	Advanced Documentary Practices	3
Concentration-Designated Studio Elective		
CMDP 4830	Topics in Documentary Media Practices	3
Concentration-Designated Critical Studies Course		
CMDP 3350	Modes of Documentary Media History	3

Immersive Media Practices Concentration

In addition to completing basic major requirements, students complete an additional 9 credit hours of advanced studio coursework focusing on immersive media practices and complete a 3 credit hour critical studies elective of their choice.

Code	Title	Credit Hours
Required Studio		
CMDP 3750	Intro to Immersive and Emergent Media (required gateway)	3
Concentration-Designated Studio Electives		
CMDP 3710	Audio/Vision 360	3
CMDP 4740	Augmented Reality	3
CMDP 4750	Virtual Reality	3
CMDP 4760	Topics in Immersive and Emergent Media	3
Concentration-Designated Critical Studies Course Options		
CMDP 2010	Information, Media and Technology	
CMDP 3050	Research/Remix	
CMDP 3110	Electronic Arts Survey	
CMDP 3150	Sonic Histories	
CMDP 3210	Immersive and Emergent Media Histories	
CMDP 3250	Histories of Animation	
CMDP 3310	Performance Media Cultures	
CMDP 3350	Modes of Documentary Media History	
CMDP 3450	Critical Perspectives in Media Practices	
CMDP 4110	Cultures of Digital Sound	
CMDP 4220	Digital Archives in Media Practices	
CMDP 4310	Screen Culture and Globalization	
CMDP 4320	Media Engagement in Digital Diasporas	
CMDP 4410	Topics in Contemporary Media Technologies	

Sound Practices Concentration

In addition to completing basic major requirements, students complete an additional 9 credit hours of advanced studio coursework focusing on music technology and a concentration designated critical studies course.

Code	Title	Credit Hours
Required Studio		
CMDP 3840	Sound Practices (required gateway)	3
Concentration-Designated Studio Electives		
CMDP 3860	Sonic Arts I	3
CMDP 3880	Hearing Image, Seeing Sound	3
CMDP 3890	Sound Art	3
CMDP 4640	Multimedia Sound	3
CMDP 4860	Sonic Arts II	3
CMDP 4865	Multimedia Performance and Installation	3
CMDP 4870	Sound and Technology	3
CMDP 4880	Topics in Sound Practices	3
Concentration-Designated Critical Studies Course		
CMDP 3150	Sonic Histories	3

Integrative Media Concentration

Students follow the basic major requirements, but also select 9 credit hours of studio elective courses and an additional 3 credit hours of critical studies coursework.

Code	Title	Credit Hours
Concentration-Designated Studio Electives		**9**
CMDP 2510	Critical Media Practices Workshop I	
CMDP 2820

Sample Four-Year Plans of Study

Documentary Concentration

Students follow the basic major requirements and complete the 3 credit-hour Documentary Concentration Gateway course CMDP 3800, 6 credit hours of Documentary Concentration Studio courses, and 3 credit hours of Documentary Concentration-designated Critical Studies CMDP 3350.

Year One

Fall Semester		**Credit Hours**
CMCI 1040: Foundational Concepts and Creativity in Media, Communication, and Information (4) or CMDI Core or Elective (3)		4
CMDP 1400	Introduction to Critical Media Practices	4
Quantitative Thinking		3
Lower Division Writing		3
	Credit Hours	**14**
Spring Semester		
CMCI 1040: Foundational Concepts and Creativity in Media, Communication, and Information (4) or CMDI Core or Elective (3)		3
CMDP 2100	Approaches to Historical Media Practices	3
CMDP 2500	Media Practices I	3
CMDI Core Computing		3
CMDI Core or elective (P/S; H & A; Hist V; Div & Global)		3
	Credit Hours	**15**
Year Two		
Fall Semester		
CMDP 3400	Media Aesthetics	3
CMDP 3600	Media Practices II	3
CMDI Core (Natural World)		3
CMDI Core or elective (P/S; H & A; Hist V; Div & Global)		3
Secondary Area		3
	Credit Hours	**15**
Spring Semester		
(CMDP3800) Documentary Concentration Gateway		3
(CMDP3350) Critical Studies Elective		3
CMDI Core (Natural World w/Lab)		4
CDCI Core or elective (P/S; H & A; Hist V; Div & Global)		3
Secondary Area		3
	Credit Hours	**16**
Year Three		
Fall Semester		
(CMDP4810) Documentary Concentration Required Studio		3
CMDP Studio Elective		3
CMDI Core or electives (P/S; H & A; Hist V; Div & Global)		7
Secondary Area		3
	Credit Hours	**16**
Spring Semester		
(CMDP4830) Documentary Concentration Studio Elective		3
CMDI Core or elective (P/S; H & A; Hist V; Div & Global)		9
Secondary Area		3
	Credit Hours	**15**
Year Four		
Fall Semester		
CMDP Studio Elective		3
CMDI Core or elective (P/S; H & A; Hist V; Div & Global)		6
Secondary Area		6
	Credit Hours	**15**
Spring Semester		
CMDP 4900	Media Practices Capstone	3
CMDI Core and elective (P/S; H & A; Hist V; Div & Global)		8
Secondary Area		3
	Credit Hours	**14**
	Total Credit Hours	**120**

Immersive Media Concentration

Students follow the basic major requirements and take 9 credit hours of CMDP coursework focusing on immersive media practices such as virtual and augmented reality. Students take CMDP 3750 Intro to Immersive and Emergent Media and 6 credit hours of concentration electives.

Year One

Fall Semester		**Credit Hours**
CMCI 1040: Foundational Concepts and Creativity in Media, Communication, and Information (4) or CMCI Core or Elective (3)		4
CMDP 1400	Introduction to Critical Media Practices	4
Quantitative Thinking		3
Lower Division Writing		3
	Credit Hours	**14**
Spring Semester		
CMDP 2100	Approaches to Historical Media Practices	3
CMDP 2500	Media Practices I	3
CMCI 1040: Foundational Concepts and Creativity in Media, Communication, and Information (4) or CMCI Core or Elective (3)		3
CMCI Core Computing		3
CMCI Core or electives (P/S; H & A; Hist V; Div & Global)		3
	Credit Hours	**15**

Year Two

Fall Semester		
CMDP 3400	Media Aesthetics	3
CMDP 3600	Media Practices II	3
CMCI Core (Natural World)		3
CMCI Core or elective (P/S; H & A; Hist V; Div & Global)		3
Secondary Area		3
	Credit Hours	**15**
Spring Semester		
(CMDP3750) Immersive Concentration Gateway		3
CMDP Critical Studies Elective		3
CMCI Core (Natural World w/Lab)		4
CMCI Core or elective (P/S; H & A; Hist V; Div & Global)		3
Secondary Area		3
	Credit Hours	**16**

Year Three

Fall Semester		
CMDP Immersive Concentration Studio Elective		3
CMDP Studio Elective		3
CMCI Core or elective (P/S; H & A; Hist V; Div & Global)		7
Secondary Area		3
	Credit Hours	**16**
Spring Semester		
CMDP Immersive Concentration Studio Elective		3
CMCI Core or elective (P/S; H & A; Hist V; Div & Global)		9
Secondary Area		3
	Credit Hours	**15**

Year Four

Fall Semester		
CMDP Studio Elective		3
CMCI Core or elective (P/S; H & A; Hist V; Div & Global)		6
Secondary Area		6
	Credit Hours	**15**
Spring Semester		
CMDP 4900	Media Practices Capstone	3
CMCI Core or elective (P/S; H & A; Hist V; Div & Global)		8
Secondary Area		3
	Credit Hours	**14**
	Total Credit Hours	**120**

Sound Practices Concentration

Students follow the basic major requirements and complete the 3 credit hour Sound Concentration Gateway CMDP 3840, 6 credit hours of Sound Concentration Studio courses, and 3 credit hours of Sound-designated Critical Studies CMDP 3150.

Year One

Fall Semester		**Credit Hours**
CMCI 1040: Foundational Concepts and Creativity in Media, Communication, and Information (4) or CMDI Core or Elective (3)		4
CMDP 1400	Introduction to Critical Media Practices	4
Quantitative Thinking		3
Lower Division Writing		3
	Credit Hours	**14**
Spring Semester		
CMDP 2100	Approaches to Historical Media Practices	3
CMDP 2500	Media Practices I	3
CMCI 1040: Foundational Concepts and Creativity in Media, Communication, and Information (4) or CMDI Core or Elective (3)		3
CMDI Core Computing		3
CMDI Core or elective (P/S; H & A; Hist V; Div & Global)		3
	Credit Hours	**15**

Year Two

Fall Semester		
CMDP 3400	Media Aesthetics	3
CMDP 3600	Media Practices II	3
CMDI Core (Natural World)		3
CMDI Core or elective (P/S; H & A; Hist V; Div & Global)		3
Secondary Area		3
	Credit Hours	**15**
Spring Semester		
(CMDP3840) Sound Concentration Gateway		3
(CMDP3150) CMDP Critical Studies Elective		3
CMDI Core (Natural World w/Lab)		4
CMDI Core or elective (P/S; H & A; Hist V; Div & Global)		3
Secondary Area		3
	Credit Hours	**16**

Year Three		
Fall Semester		
CMDP Sound Practices Concentration Studio Elective		3
CMDP Studio Elective		3
CMDI Core or elective (P/S; H & A; Hist V; Div & Global)		7
Secondary Area		3
	Credit Hours	**16**
Spring Semester		
CMDP Sound Practices Concentration Studio Elective		3
CMDI Core or elective (P/S; H & A; Hist V; Div & Global)		9
Secondary Area		3
	Credit Hours	**15**
Year Four		
Fall Semester		
CMDP Studio Elective		3
CMDI Core or elective (P/S; H & A; Hist V; Div & Global)		6
Secondary Area		6
	Credit Hours	**15**
Spring Semester		
CMDP 4900	Media Practices Capstone	3
CMDI Core or elective (P/S; H & A; Hist V; Div & Global)		8
Secondary Area		3
	Credit Hours	**14**
	Total Credit Hours	**120**

Integrative Media Practices Concentration

Students follow the basic major requirements and select an additional 9 credit hours of studio electives that are approved for their Integrative Media Practices Concentration individualized plan of study.

Year One		
Fall Semester		**Credit Hours**
CMCI 1040: Foundational Concepts and Creativity in Media, Communication, and Information (4) or CMDI Core or Elective (3)		4
CMDP 1400	Introduction to Critical Media Practices	4
Quantitative Thinking		3
Lower Division Writing		3
	Credit Hours	**14**
Spring Semester		
CMDP 2100	Approaches to Historical Media Practices	3
CMDP 2500	Media Practices I	3
CMCI 1040: Foundational Concepts and Creativity in Media, Communication, and Information (4) or CMDI Elective (3)		3
CMDI Core Computing		3
CMDI Core or elective (P/S; H & A; Hist V; Div & Global)		3

	Credit Hours	**14**
	Total Credit Hours	**120**

Learning Outcomes

Upon completing the program, students will be able to:

- Understand and use the creative process as a way of knowing.
- Collaborate on the conception and production of innovative works.
- Critically engage media making as experience, inquiry and world-making.
- Understand the histories and theories of media art and how they shape and are shaped by society and culture.

Media Production - Minor

The minor in media production is designed to give students majoring in any discipline foundational skills in media making, while also allowing students to pursue a range of elective courses in their particular areas of creative interest.

Requirements

The minor consists of a total of 19 credit hours, with three required media production courses that combine theory with technical skill in order to prepare students for upper division study.

Students must complete all classes for the minor with a grade of C- or better and an overall GPA in the minor of 2.0.

Students may apply no more than six credit hours of transfer work, including three hours of upper-division credit.

Required Courses and Semester Credit Hours

Code	Title	Credit Hours
Required Foundation Courses		
CMDP 1400	Introduction to Critical Media Practices	4
CMDP 2500	Media Practices I	3
CMDP 3600	Media Practices II	3
Studio Electives		
Choose one upper-division studio course		3
CMDP 3510	Critical Media Practices Workshop II	
CMDP 3610	Intro to Digital Image Making Practices	
CMDP 3620	Images and Stories	
CMDP 3700	Digital Photographic Practices	
CMDP 3710	Audio/Vision 360	
CMDP 3720	Multimedia Composition	
CMDP 3730	Media Production Methods and Ideas	
CMDP 3750	Intro to Immersive and Emergent Media	
CMDP 3800	Documentary Media Poetics	
CMDP 3820	Performance Media Practices	
CMDP 3830	Advanced Performance Media Workshop	
CMDP 3840	Sound Practices	
CMDP 3860	Sonic Arts I	
CMDP 3880	Hearing Image, Seeing Sound	
CMDP 3890	Sound Art	
CMDP 3910	Media Production Topics	
CMDP 3990	Media Professional Seminar	
CMDP 4610	Small Screen Storytelling	
CMDP 4620	Media Environments	
CMDP 4630	Introduction to Computational Media	
CMDP 4640	Multimedia Sound	
CMDP 4650	Collaborative Performance Media Making	
CMDP 4660	Dance for Camera	
CMDP 4710	Projection Practices	
CMDP 4720		
CMDP 4730	Digital Art and Emergent Technologies	
CMDP 4740	Augmented Reality	
CMDP 4750	Virtual Reality	
CMDP 4760	Topics in Immersive and Emergent Media	
CMDP 4810	Advanced Documentary Practices	
CMDP 4830	Topics in Documentary Media Practices	
CMDP 4841	Undergraduate Independent Study	
CMDP 4860	Sonic Arts II	
CMDP 4870	Sound and Technology	
CMDP 4865	Multimedia Performance and Installation	
CMDP 4880	Topics in Sound Practices	
Open Electives		**6**
Choose any two addtional media production courses		
Total Credit Hours		**19**

Learning Outcomes

By the completion of the program, students will be able to:

- Understand, and be able to use, the creative process as a way of knowing.
- Understand how to critically engage media making as experience, inquiry and world-making.

Environmental Design

Built on strong traditions within the design fields, the Department in Environmental Design (ENVD) offers an integrative approach to education and research. The department offers the Bachelor of Environmental Design (BEnvD)—a four-year, preprofessional degree that prepares students for careers in design and graduate study in design fields. ENVD offers four majors: architecture, environmental products of design, landscape architecture and sustainable planning & urban design. With a diverse faculty committed to excellence in teaching, research, scholarship and creative and professional work, ENVD provides students with a range of learning opportunities. Course content ranges from environmental products and prefabricated building systems to open space issues, political systems and institutional arrangements.

Building on an underlying philosophy of environmental awareness, students in ENVD work within their majors to:

- Design solution-based approaches that blend technical, ecological, economic, social, cultural, aesthetic and ethical concerns.
- Employ evidence-based knowledge to help inform design and planning decisions.
- Participate in interdisciplinary dialogues that integrate core design disciplines with the sciences, humanities, arts and other professions.
- Obtain a disciplinary foundation that prepares students for careers in both traditional and emerging design fields.

Graduates from the Department in Environmental Design are uniquely qualified to confront significant environmental challenges. Becoming adept at complex problem solving, analytical thinking and leadership through coursework in theory, history, ecological impact, materials and methods and systems thinking. Students enroll in studios, lectures and seminars taught by faculty with both academic and professional expertise. Students employ state-of-the-art educational technology, including computing tools, fabrication equipment and advanced media.

Sharing in the varied resources of Boulder campus—from natural sciences, social sciences, humanities, arts and technology fields—ENVD offers an educational opportunity like no other. The cross-disciplinary collaborations with colleagues in affiliated CU programs enhance the curriculum and research within ENVD.

Structure of the Undergraduate Curriculum

The Bachelor of Environmental Design curriculum is comprised of a shared core (lasting three semesters) followed by five semesters of coursework focused on one of four majors: architecture, environmental products of design, landscape architecture and sustainable planning and urban design.

The shared core provides an intensive and balanced introduction to the traditional professions contained within the broad field of environmental design. The core provides students the information and flexibility to hone their major area and career direction. Allowing opportunities for hands-on problem solving that features eight-week design studios as the primary teaching pedagogy. Anchored through a combination of lecture courses and studio instruction, the core curriculum builds upon studios where students solve design problems at four scales of the built environment: urban systems, landscapes, buildings and environmental products. Students may declare their major in architecture, environmental products of design, landscape architecture or sustainable planning and urban design at any time, and should no later than after completing the core program.

The major coursework in the final five semesters allows students to pursue in-depth projects and gain more specialized skills necessary for entering the design fields or further graduate study. Students can also pursue approved education abroad options as part of the curriculum as well. The final academic year culminates into capstone requirements for the chosen major.

Educational Advantages of the BEnvD

The Department in Environmental Design provides a balanced introduction to environmental design. ENVD's emphasis on both the breadth and depth of design allows students to gain the appreciation, information, skills and experiences needed to make an informed decision about their career direction.

For the past 50 years, ENVD has retained a focus on studio instruction in small class sizes. From a student's first semester, they learn to work both in small groups and individually to solve design problems. By the end of a student's first year, the small classes and unique teaching style builds relationships with several faculty and a cohort of their peers.

ENVD's curriculum stresses both critical thinking and applied project work. Experiential learning is a core component of design education with students engaging in hands-on activities. Student satisfaction within higher education has been directly linked to teaching that incorporates projects where small student groups work together to solve real-world problems that they know are important.

ENVD pedagogy celebrates an interdisciplinary culture for both students and faculty. Mirroring emerging workplace trends in industry, students work within teams. Sometimes students work within multi-disciplinary teams where each profession shares its expertise and coordinates with others and sometimes within inter-disciplinary teams where the separate expertise is not as important as the ability to mutually and collaboratively define and solve a problem.

Education Abroad

The Department in Environmental Design has, in partnership with the office of Education Abroad, developed an exciting selection of study abroad options. Studying abroad gives students an array of unique experiences, and it can often make students more competitive for employment and for graduate study. Summer programs and faculty-led programs (global seminars and global intensives) are available to students at various stages of their academic coursework. Full-semester programs are available to students starting in their third year. The study abroad program provides an academically challenging experience with extensive local support.

Education Abroad course offerings are open to students of all ENVD majors—architecture, environmental products of design, landscape architecture and sustainable planning and urban design. Students may pursue studio courses as well as electives. These courses offer students an opportunity to study in another culture and to examine their own perceptions and attitudes toward design. Environmental design programs, of varying lengths, are currently offered in Auckland, Berlin, Barcelona, Copenhagen, Dublin, Medellin, Rome, Sydney and Wellington.

Students can find out more about these options through the Ed Abroad ENVD major guide (https://abroad.colorado.edu/?FuseAction=Abroad.ViewDocument&File_ID=06057B7472713F72750D71760473051
The Office of Education Abroad offers additional programs with courses appropriate to design students. Programs outside of the pre-approved listing may be considered for approval. Please meet with an ENVD academic advisor for details.

For more information about the study abroad programs, contact Education (https://abroad.colorado.edu/) Abroad (located in C4C S355). Advisors available via walk-in or appointment.

Dual Degrees, Minors & Certificates

Dual Degrees

In addition to the BEnvD degree, students may pursue a dual degree at CU Boulder. Students may receive the BEnvD degree concurrently with undergraduate degrees in any CU Boulder college. Typically, specific course requirements do not change in either program of a dual degree. Additional credit hours (varying by college) may be required.

All undergraduate students must complete the general education requirements and the requirements for their specific major within the Department in Environmental Design in addition to the other degree requirements. Students considering a dual degree are encouraged to speak with advisors in both units to determine requirements and procedures for application.

Certificates and Minors

Environmental design encourages students to expand their education opportunities and explore certificates and minors available on campus. Students interested in certificate options or minors offered at CU should contact their academic advisor to have a plan set in place prior to their junior year.

To filter through all the minors and certificates offered at CU Boulder, see the undergraduate Programs A-Z (https://catalog.colorado.edu/programs-a-z/#filter=filter_20&filter_21) section.

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Anderson, Brandon (https://experts.colorado.edu/individual/fisid_148082/)
Teaching Assistant Professor; MArch, Texas Tech University

Arias, Ernesto G.
Professor Emeritus

Arp, Jared (https://experts.colorado.edu/display/fisid_168314/)
Teaching Assistant Professor; BS, Metropolitan State University

Bacalzo, Dean (https://experts.colorado.edu/display/fisid_172805/)
Teaching Associate Professor; MSD, Arizona State University

Charlet, Caitlin (https://experts.colorado.edu/display/fisid_174564/)
Teaching Associate Professor; MArch, Parson's School of Constructed Environments

Chawla, Louise (https://experts.colorado.edu/display/fisid_143894/)
Professor Emerita; PhD, CUNY System Office

Crichlow, Gregory (https://experts.colorado.edu/display/fisid_142184/)
Teaching Professor; M. Arch., University of Illinois at Chicago

de Lange, Marcel (https://experts.colorado.edu/display/fisid_140404/)
Teaching Professor; MS, Delft University of Technology (Netherlands)

Ehly, Jeremy G. (https://experts.colorado.edu/display/fisid_149190/)
Teaching Associate Professor; MArch, Illinois Institute of Technology

Evers, Neal (https://experts.colorado.edu/display/fisid_157360/)
Associate Director, Teaching Associate Professor; MBA, University of Colorado Boulder

Fantalis, Maryanne (https://experts.colorado.edu/display/fisid_156467/)
Teaching Associate Professor; JD, Rutgers University

Felderman, Melissa (https://experts.colorado.edu/individual/fisid_163478/)
Teaching Associate Professor; MPS, New York University

Goldstein, Bruce (https://experts.colorado.edu/display/fisid_147755/)
Professor Emeritus; PhD, University of California, Berkeley

Greenwood, Emily (https://experts.colorado.edu/display/fisid_157375/)
Teaching Associate Professor; MLA, University of Colorado Denver

Grisales, Juan
Teaching Assistant Professor; MLA, Harvard University

Henao Cano, Valeria (https://experts.colorado.edu/display/fisid_173407/)
Teaching Assistant Professor; MURP, University of Colorado Denver

Hersey, John K. (https://experts.colorado.edu/display/fisid_170139/)
Teaching Assistant Professor; M.A., University of Massachusetts--Amherst; M.A., University of Maryland College Park Campus

Holbert, Marianne Bellino (https://experts.colorado.edu/display/fisid_146986/)
Teaching Professor; MArch, Washington University

Juhasz, Joseph
Professor Emeritus

Kamal, Azza (https://experts.colorado.edu/display/fisid_174957/)
Teaching Associate Professor; PhD, Cairo University (Egypt)

Krizek, Kevin J. (https://experts.colorado.edu/display/fisid_145292/)
Professor; PhD, University of Washington

Lee, Rachel (https://experts.colorado.edu/display/fisid_142183/)
Teaching Associate Professor; MArch, Tulane University

Lindberg, Case (https://experts.colorado.edu/display/fisid_154137/)
Teaching Professor; PhD, Stanford University

Mansour, Nesrine
Assistant Professor; PhD, Texas AM University

Paddack, Martin
Teaching Associate Professor; MArch, The Catholic University of America

Massey, Susan
Teaching Associate Professor; MA, University of Michigan

Matson, Zannah (https://experts.colorado.edu/display/fisid_173968/)
Assistant Professor; MLA, Harvard Graduate School of Design

McCall, Raymond Jr.
Professor Emeritus

Muller, Brian H.F. (https://experts.colorado.edu/display/fisid_140230/)
Professor Emeritus; PhD, University of California-Berkeley

Polizzi, Jade Venus (https://experts.colorado.edu/display/fisid_140368/)
Teaching Professor; MArch, University of Colorado Denver

Roudbari, Shawhin (https://experts.colorado.edu/display/fisid_153645/)
Associate Professor; PhD, University of California, Berkeley

Rukamathu, Mark (https://experts.colorado.edu/display/fisid_174660/)
Teaching Associate Professor; MArch, Harvard Graduate School of Design

Sabinson, Elena (https://experts.colorado.edu/display/fisid_173948/)
Assistant Professor; PhD, Cornell University

Samper, Jota (https://experts.colorado.edu/display/fisid_157949/)
Associate Professor; PhD, MIT-DUSP

Professor; PhD, Harvard University

Courses

ARCH 2100 (6) Studio 1: Foundations of Architecture
Provides a framework for students to learn the basic strategies and techniques of architectural design. This project-based studio focuses on concepts of medium-scale building design, site, and climate. Through multiple design exercises, students learn how these factors assist in shaping our buildings.
Requisites: Requires prerequisite course of ENVD 1120 (minimum grade C-). Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Recommended: Corequisite ARCH 2115.
Grading Basis: Letter Grade

ARCH 2115 (3) Architecture Materials and Methods
Exposes students to the elements and processes used in constructing buildings. Through lectures, technical drawing, material research and exposure to practicing professionals, students build a foundation of knowledge necessary to approach the specification and design of materials and to foster a curiosity in the innovative frontiers of assembly, aesthetics and sustainable life-cycle considerations.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Recommended: Corequisite ARCH 2100.
Grading Basis: Letter Grade

ARCH 3100 (6) Studio 2: Intermediate Architecture
Emphasizes the interaction of form, programmatic use, human behavior and context in creating structure. May include a client-based community engaged project, real world applications, and result in a physical product. Students work across analog and digital platforms to produce designs that provide solutions to contemporary challenges.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Requires prerequisite course of ARCH 2100 (minimum grade C-). Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Recommended: Corequisite ARCH 3114.
Grading Basis: Letter Grade

ARCH 3114 (3) History and Theory of Architecture 1
Focusing on buildings, surveys the built environment starting with some of the first structures built by humans and moving through time to the Industrial Revolution. The course focuses on the development of major styles, influential people, and the drivers of building form.
Requisites: Requires prerequisite course of ENVD 1024 (minimum grade C-) and restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) or Architectural Engineering (AREN) majors only with 57-180 credits (Junior or Senior).
Recommended: Corequisite ARCH 3100.
Grading Basis: Letter Grade

ARCH 3214 (3) History and Theory of Architecture 2
Picking up after the Industrial Revolution and continuing through to today¿s Contemporary Architecture, history is taught thematically to cover important structures, key figures, and movements that have shaped our modern world.
Requisites: Requires prerequisite course of ENVD 1024 (minimum grade C-) and restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) or Architectural Engineering (AREN) majors only with 57-180 credits (Junior or Senior).
Recommended: Prerequisite ARCH 3114 with a C- or better.
Grading Basis: Letter Grade

ARCH 4100 (6) Studio 3: Capstone in Architecture
Engages students in complex design challenges such as integrating building technology, structural systems, user experiences, and environmental sustainability. Students will focus on contemporary architectural issues within the profession and produce design proposals that address key topics such as climate-resilient, human-centric, and systematically responsive design solutions.
Requisites: Requires prerequisite course of ARCH 3100 (minimum grade C-). Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Recommended: Corequisite ARCH 4115.
Grading Basis: Letter Grade

ARCH 4115 (3) Architecture Building Technology
Presents the fundamentals of building physics and climate science through experimentation and testing. Students learn the concepts related to structural and mechanical systems necessary for proper building function by first studying and then implementing the key systems through hypothetical building assignments. This class covers active and passive green building systems that are necessary when designing structures for an evolving climate.
Requisites: Requires prerequisite course of ARCH 2115 (minimum grade C-). Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

ENVD 1001 (1) ENVD First-Year Seminar
Transitions first-year ENVD students into college through the process of discovering their path to educational success. Provides opportunities to facilitate learning through peer support groups and curricular integration with the ENVD core classes.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Social Factors

ENVD 1002 (2) Technology 1: Applications for Environmental Design
Introduces technological competencies to support studio work including design representation and presentation. Students develop fundamental competencies in sketching, graphic design, file management and 3D modeling. Course is part of a co-requisite sequence: ENVD 1002, Technology 1: Applications for Environmental Design is a 16-week class that is taught alongside the following two 8-week studios. ENVD 1010, Studio 1: Introduction to Environmental Products of Design, taken the first half of the semester, followed by ENVD 1020, Studio 1: Introduction to Architecture, taken in the second half of the semester.
Requisites: Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN), open option (ENVD), and to IUT On Track students.
Grading Basis: Letter Grade

ENVD 1004 (3) Introduction to Environmental Design
Introduces methods, principles and philosophies that guide environmental design. Explores ways of thinking about, and accomplishing, the act of design. Students contemplate the processes and motivations behind design decisions including discussions of environmental sustainability and social responsibility.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: History and Theory

ENVD 1010 (3) Studio 1: Introduction to Environmental Products of Design
Introduces students to concepts and techniques related to the design of products at a human scale. In an immersive project-based studio environment students develop the foundation of design communication and thinking through a series of hands-on projects with physical outcomes. Course is part of a co-requisite sequence: ENVD 1010, Studio 1: Introduction to Environmental Products of Design is taken the first 7-weeks of the semester, followed by ENVD 1020, Studio 1: Introduction to Architecture, taken in the second 7-weeks of the semester, along with ENVD 1002, Technology 1: Applications for Environmental Design, a 14-week class that is taught alongside the two 7-week studios.
Requisites: Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN), open option (ENVD), and to IUT On Track students.
Grading Basis: Letter Grade
Additional Information: Departmental Category: History and Theory

ENVD 1012 (2) Technology 2: Visual Communications
Explores the basic visual communication skills necessary for environmental design through image manipulation, vector and raster graphics, and composite renderings. Students will explore concepts in visual hierarchy, composition, and color theory to inform graphics within each environmental design major. Course is part of a co-requisite sequence: ENVD 1012, Technology 2: Visual Communications is a 16-week class that is taught alongside the following two 8-week studios. ENVD 1030, Studio 1: Introduction to Landscape Architecture, taken the first half of the semester, followed by ENVD 1040, Studio 1: Introduction to Sustainable Planning and Urban Design, taken in the second half of the semester.
Requisites: Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN), open option (ENVD), and to IUT On Track students.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Methods and Techniques

ENVD 1020 (3) Studio 1: Introduction to Architecture
Introduces students to strategies and techniques of architectural design and communication in a hands-on studio environment. Students explore architectural form-making and design opportunities through an iterative design process culminating with a small-scale architectural project that responds to environmental, contextual and programmatic needs. Course is part of a co-requisite sequence: ENVD 1020, Studio 1: Introduction to Architecture, an 7-week class which is taken in the second half of the first semester. ENVD 1010, Studio 1: Introduction to Environmental Products of Design, taken during the first 7-weeks of the semester, and ENVD 1002, Technology 1: Applications for Environmental Design is a 14-week class that is taught alongside the two 7-week studios.
Requisites: Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN), open option (ENVD), and to IUT On Track students.
Grading Basis: Letter Grade

ENVD 1022 (2) Technology 3: Intermediate Applications for Environmental Design
Explores more advanced competencies in graphic design, diagramming, 3D modeling, and digital fabrication.
Requisites: Requires prerequisite course of ENVD 1012 (minimum grade C-). Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

ENVD 1024 (3) History of the Built Environment
Fosters an appreciation for the designed environment by exploring historical contexts that have shaped our built environment. Students gain insight into how design themes have emerged in response to significant historical movements. Covering a diverse range of topics, this course examines everything from small objects to iconic buildings, significant landscapes, gardens, and urban spaces. Through this exploration, students develop an understanding of how the built environment influences and reflects societal values throughout history.
Requisites: Requires prerequisite course of ENVD 1004 (minimum grade C-). Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN), open option (ENVD), and to IUT On Track students.
Grading Basis: Letter Grade

ENVD 1030 (3) Studio 1: Introduction to Landscape Architecture
Exposes students to concepts and strategies inherent to the practice of landscape architecture. Students design for biodiversity, climate resilience and human and beyond human physical and mental health within an urban context. Course is part of a co-requisite sequence: ENVD 1030, Studio 1: Introduction to Landscape Architecture, taken the first 8-weeks of the semester, followed by ENVD 1040, Studio 1: Introduction to Sustainable Planning and Urban Design, taken in the second 8-weeks of the semester, along with ENVD 1012, Technology 2: Visual Communications, a 16-week class that is taught alongside the two 8-week studios.
Requisites: Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN), open option (ENVD), and to IUT On Track students.
Grading Basis: Letter Grade

ENVD 1040 (3) Studio 1: Introduction to Sustainable Planning and Urban Design
Explores concepts and strategies related to urban planning and design. Students collaboratively develop a design solution to a small-scale problem within an urban fabric using basic skills of analysis and design iteration. Course is part of a co-requisite sequence: ENVD 1040, Studio 1: Introduction to Sustainable Planning and Urban Design, an 8-week class which is taken in the second half of the first semester. ENVD 1030, Studio 1: Introduction to Landscape Architecture, taken during the first 8-weeks of the semester, and ENVD 1012, Technology 2: Visual Communications, a 16-week class that is taught alongside the two 8-week studios.
Requisites: Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN), open option (ENVD), and to IUT On Track students.
Grading Basis: Letter Grade

ENVD 1110 (3) Studio 2: Fundamentals of Environmental Design 1
Explores the core principles shared across environmental design disciplines, including Architecture, Landscape Architecture, Environmental Product Design, and Sustainable Planning and Urban Design. Through a multidisciplinary studio approach, students engage in spatial problem-solving, sustainable design strategies, peer-to-peer collaboration, and design thinking. Hands-on projects challenge students to apply foundational tools and methods to real-world challenges, considering social, environmental, and cultural impacts in both built and natural environments.¿Course is part of a co-requisite sequence: ENVD 1110, Studio 2: Fundamentals of Environmental Design 1, taken the first 7-weeks of the semester, followed by ENVD 1120, Studio 2: Fundamentals of Design 2, taken in the second 7-weeks of the semester, along with ENVD 1022, Technology 3: Intermediate Applications for Environmental Design, a 14-week class that is taught alongside the two 7-week studios.
Requisites: Requires prerequisite courses of ENVD 1040 (minimum grade C-). Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

ENVD 1120 (3) Studio 2: Fundamentals of Design 2
Explores the core principles shared across environmental design disciplines, including Architecture, Landscape Architecture, Environmental Product Design, and Sustainable Planning and Urban Design. Through a multidisciplinary studio approach, students engage in spatial problem-solving, sustainable design strategies, peer-to-peer collaboration, and design thinking. Hands-on projects challenge students to apply foundational tools and methods to real-world challenges, considering social, environmental, and cultural impacts in both built and natural environments. The course is part of a co-requisite sequence: ENVD 1120, Studio 2: Fundamentals of Design 2, a 7-week class which is taken in the second half of the first semester. ENVD 1110, Studio 2: Fundamentals of Environmental Design 1, taken during the first 7-weeks of the semester, and ENVD 1022, Technology 3: Intermediate Applications for Environmental Design, a 14-week class that is taught alongside the two 7-week studios.
Requisites: Requires prerequisite courses of ENVD 1040 (minimum grade C-). Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

ENVD 1130 (3) Studio 2: Fundamentals of Design 3
Explores the core principles shared across environmental design disciplines, including Architecture, Landscape Architecture, Environmental Product Design, and Sustainable Planning and Urban Design. Through a multidisciplinary studio approach, students engage in spatial problem-solving, sustainable design strategies, peer-to-peer collaboration, and design thinking. Hands-on projects challenge students to apply foundational tools and methods to real-world challenges, considering social, environmental, and cultural impacts in both built and natural environments.
Requisites: Requires prerequisite courses of ENVD 1040 (minimum grade C-). Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

ENVD 1140 (3) Studio 2: Fundamentals of Environmental Design 4
Explores the core principles shared across environmental design disciplines, including Architecture, Landscape Architecture, Environmental Product Design, and Sustainable Planning and Urban Design. Through a multidisciplinary studio approach, students engage in spatial problem-solving, sustainable design strategies, peer-to-peer collaboration, and design thinking. Hands-on projects challenge students to apply foundational tools and methods to real-world challenges, considering social, environmental, and cultural impacts in both built and natural environments.¿
Requisites: Requires prerequisite course of ENVD 1040 (all minimum grade C-). Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

ENVD 1150 (3) First Year Writing for Environmental Design
Introduces students to the fundamentals of effective academic and professional communication within Environmental Design. Students develop strong written and oral communication skills and build knowledge of research techniques. Classroom activities and discussions challenge students to become critical and flexible thinkers.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

ENVD 1976 (1) Colloquium - Exploring Careers, Research and Practice
Develops an understanding of the breath of environmental design careers, research and practice, through a series of faculty and professional lectures.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

ENVD 2001 (3) Human Behavior and Design
Examines reciprocal relationships between people and the built and natural environments and the ways that human well-being is impacted by the built environment. Traces major issues and approaches in design research to understand how people are influenced by the environment and how they can create healthy, just, and livable places.
Requisites: Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN), open option (ENVD), and to IUT On Track students.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Social Factors

ENVD 2003 (3) Ecological Systems in Design
Introduces the essential principles and concepts of ecology as they relate to the design and understanding of the built environment. Students explore interactions between people and nature, the design of resilient ecological systems and ways that the built world is influenced by its environment.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Physical Factors

ENVD 2011 (1-6) Special Topics: Social Factors in Environmental Design for non-majors
Addresses variable topics in the relationship of human experience and behavior to the built environment.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to non-Environmental Design majors with 0-56 credits (Freshmen or Sophomores).

ENVD 2012 (1-6) Special Topics: Computer Methods and Graphic Applications for non-majors
Addresses variable topics in design communications, animation and environmental simulation, and computational methods of technical evaluation and optimization.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to non-Environmental Design majors with 0-56 credits (Freshmen or Sophomores).

ENVD 2013 (1-6) Special Topics: Physical Factors in Environmental Design for non-majors
Addresses variable topics in appropriate technology, public policy and natural hazards, organization of the designing and building process, and physical elements of urban development.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to non-Environmental Design majors (not ARCH, EPOD, LAND, PLAN or open option ENVD)with 0-56 credits (Freshmen or Sophomores).

ENVD 2014 (1-6) Special Topics: Theory, History and Historiography of Environmental Design for non-majors
Addresses variable topics in theory and criticism, history and historiography of environmental design.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to non-Environmental Design majors with 0-56 credits (Freshmen or Sophomores).

ENVD 2015 (1-6) Special Topics: Technology and Practice for non-majors
Addresses variable topics in the new technologies and issues of professional practice in the environmental design professions.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to non-Environmental Design majors with 0-56 credits (Freshmen or Sophomores).

ENVD 2101 (3) Context of Design: Planning and Implementation
Explores the regulatory and procedural context in which design decisions are made and implemented. Includes an examination of finance, policy, and development procedures necessary in bringing conceptual designs to life.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

ENVD 2352 (1-6) Special Topics: Beginning Digital Applications
Foundation level computing skills for design analytics and representation.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

ENVD 3002 (3) Revit I: Introduction to Building Information Modeling (BIM)
Introduces students to BIM modeling through the Revit platform. Fundamental skills will be taught to help students understand technical and practical aspects of this software to support academic projects and gain early exposure to expectations in professional practice.
Requisites: Requires prerequisite course of ENVD 1022 (minimum grade C-) and 30+ credits. Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Methods and Techniques

ENVD 3003 (3) Site Planning
Introduces the site planning process including: site analysis and its relationship to building program and site concept, and preparation of site plans. Emphasis is placed on the planning of the physical site through a thorough understanding of process, land use, site constraints and synthesis of ecological, functional and aesthetic considerations in the site planning process.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Recommended: Corequisite ENVD 2130.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Physical Factors

ENVD 3009 (1-6) Special Topics in Environmental Design
Seminar or design lab on special issues in environmental design, including study abroad. Variable topic class.
Repeatable: Repeatable for up to 21.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

ENVD 3011 (1-6) Special Topics: Social Factors in Environmental Design for non-majors and ENVD students
Addresses variable topics in the relationship of human experience and behavior to the built environment.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) are required to take class for grade.

ENVD 3012 (1-6) Special Topics: Computer Methods and Graphic Applications for non-majors and ENVD students
Addresses variable topics in design communications, animation and environmental simulation, and computational methods of technical evaluation and optimization.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of ENVD 3002 (minimum grade C-). Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Recommended: majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) are required to take class for grade.

ENVD 3014 (1-6) Special Topics: Theory, History and Historiography of ENVD for non-majors and ENVD students
Addresses variable topics in theory and criticism, history and historiography of environmental design.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) are required to take class for grade.

ENVD 3023 (1-6) Special Topics: Physical Factors in Environmental Design for non-majors and ENVD students
Addresses variable topics in appropriate technology, public policy and natural hazards, organization of the designing and building process, and physical elements of urban development.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) are required to take class for grade.

ENVD 3035 (1-6) Special Topics: Technology and Practice for non-majors and ENVD students
Addresses variable topics in the new technologies and issues of professional practice in the environmental design professions.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) are required to take class for grade.

ENVD 3052 (3) Digital Tools for LAND/PLAN
Weave together digital tools used in the landscape architecture and sustainable planning professions. Emphasizing the exploration of design, 3D modeling, analysis, and how to use and present data. Tools covered include software for mapping, data analysis and 3D modeling.
Requisites: Requires prerequisite course of ENVD 1022 (minimum grade C-). Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN), open option (ENVD) and Environmental Planning Minor students.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Methods and Techniques

ENVD 3100 (6) ENVD Interdisciplinary Design Studio
Explores a sequence of investigations that lead to the development of design concepts for critical evaluation and discussion. Students analyze intermediate to advanced design practices that are common to the disciplines of architecture, planning, urban design, landscape architecture, and product design through an interdisciplinary design project.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN), open option (ENVD), and Environmental Planning Minor students with 40+ credits and ENVD 2003 or ENVD 2001 prerequisites.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Studios

ENVD 3102 (3) Revit II
Provides students a learning and practice environment to deepen and expand their skills within the Revit software. The experiential nature of this software benefits from repetitive use and expansion of skills, which this course provides. More attention will be given to presentation techniques, family building and templates which support project advancement and production. This course may also integrate plug-ins and other software compatible within and alongside Revit.
Requisites: Requires prerequisite course of ENVD 3002 (minimum grade C-). Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

ENVD 3150 (3) Professional Communication for Design Students
Prepares students for the projects they will undertake as design professionals. Enriches students' awareness of writing as a life-long tool and communicates the importance of writing well, while emphasizing effective written and oral communication skills.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

ENVD 3152 (3) ArcGIS: Geographic Information Systems (GIS)
Focuses on construction and use of computer-based information systems to represent and manipulate geographic data. Emphasizes the recording, mapping, and transforming of data for analysis and use by environmental designers.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Methods and Techniques

ENVD 3212 (3) Color Theory
Develops visual awareness and technical knowledge while exploring the significance of color in the design world. Color plays a crucial psychological role, evoking emotions and influencing behavior, making it essential for designers to use color intentionally and thoughtfully. Through hands-on activities, we examine contemporary uses of color and patterns, learning how to achieve color harmony in design.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Methods and Techniques

ENVD 3252 (3) RHINO: Intro to 3-D Modeling
Teaches beginning to intermediate skills and design practices of 3D modeling using Rhino-Rhinoceros 3D software. Learn strategies around representing your design in 3D models and how to use these techniques.
Requisites: Requires prerequisite course of ENVD 1022 (minimum grade C-) and 30+ credits. Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Methods and Techniques

ENVD 3314 (1-6) Special Topics: History of Design
Provides a lecture exploring various topics of design history of the built environment. The focus of this course is directed to all majors.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) students with 27-180 credits (Sophomores, Juniors or Seniors).
Grading Basis: Letter Grade

ENVD 3352 (1-6) Special Topics: Intermediate Digital Applications
Intermediate level computing skills for design analytics and representation.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of ENVD 3252 or in progress. Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Methods and Techniques

ENVD 3909 (1-6) Independent Study
By special arrangement with instructor.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

ENVD 3919 (1-6) Teaching Assistant
By special arrangement with instructor.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Program in Environmental Design (ARPLU) students with 87 -180 credits (Seniors).
Recommended: Prerequisite three point zero GPA.
Additional Information: Departmental Category: Miscellaneous

ENVD 3929 (1) Peer Leadership and Mentorship and Transitioning Students
Explores the student transition to university life and engage students in active leadership and mentoring capacity-building activities. Examines the role peers play in leading students through transitional development. Students will learn the theoretical basis for understanding student transition and develop their mentoring capacities as well as examine personal identity and values and its intersection with leadership and mentorship.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) students with 27-180 credits (Sophomores, Juniors or Seniors).
Recommended: 3.00 GPA.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

ENVD 3939 (1-3) Exploratory Internship
Offers professional experiences allowing students to discover a variety of design-related environments. In addition to the internship experience, students attend classroom sessions providing professional development exercises.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) students with 27-180 credits (Sophomores, Juniors or Seniors).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

ENVD 3972 (3) Advanced Writing in Environmental Design
Prepares students for researching, planning, and writing a Senior Honors thesis and for professional life. Enriches students' awareness of writing as a life-long tool and communicates the importance of writing well. Emphasizes clear, persuasive, and effective written and oral communication skills. Projects explore the many ways in which writing is a powerful tool in the world of design.
Requisites: Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) students with 57 credit hours and a cumulative GPA of 3.0 or higher.
Grading Basis: Letter Grade

ENVD 4009 (1-6) Special Topics in Environmental Design
Variable topic seminar or design lab on special issues in environmental design.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

ENVD 4023 (3) Environmental Impact Assessment
Provides a field-oriented seminar in current environmental impact controversies. Gives attention to history, theory, and application of impact analysis at state levels for designers, land-use planners, and others involved in resource decision making. By instructor consent, open to nonmajors on a space available basis.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Physical Factors

ENVD 4052 (3) Portfolio Design: Graphic Communication for Designers
Explores topics related to graphic design and visual communication aimed at constructing your professional identity. Topics include layout, composition, fonts, color theory, printing, publication and web-based presence. Comprehend the fundamentals of graphic design and their application in visual communication through the use of Adobe Creative Suite.
Requisites: Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD), with 60+ credit hours.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Methods and Techniques

ENVD 4055 (3) Professional Practice of Environmental Design
Explores how projects are conceived, designed, documented, and built. Students will examine the complexities of the design and construction process, including industry standards, project delivery methods, and practice management. Emphasizing problem-solving and real-world applications, the course prepares students to navigate the challenges of translating ideas into built environments.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

ENVD 4100 (3-6) Advanced Design Lab 1
Design lab exploring new and emerging themes in design.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Studios

ENVD 4112 (3) Advanced Graphics for Designers
Illustrates techniques of graphics communication and presentation for environmental design, including advanced illustration and color studies.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Methods and Techniques

ENVD 4122 (3) Digital Photo for Designers
Explores digital photographic workflow from capture to exhibition. Students gain the ability to document their projects and utilize photography as a means of creative expression. Topics include: using DSLRs, Adobe Lightroom, retouching with Adobe Photoshop, time-lapse photography, Adobe Premier, professional printing, landscape and architectural photography, sharing work through blogs and social media, and submitting work for publication and exhibition.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Additional Information: Departmental Category: Methods and Techniques

ENVD 4152 (3) Digital Design and Fabrication
Teaches beginning to intermediate concepts, strategies, and techniques in digital design and fabrication. Students will use 3D modeling (Rhino) and parametric plugins (Grasshopper) to investigate new ways of making using 3D printing, CNC machining, laser cutting and other processes.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Methods and Techniques

ENVD 4252 (3) Advanced Digital Design and Fabrication
Teaches intermediate to advanced concepts, strategies, technologies and joinery around ways to make objects and systems using computer software, analytical software and machines such as 3d printers, laser cutters, CNC machines and robot arms, etc. Explores more personal driven object typologies around furniture, building skins and small structures/folies tailored around performance and optimizations around materiality, manufacturing tolerances, embodied energies and sustainability.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN), open option (ENVD) and Environmental Planning Minor students.
Grading Basis: Letter Grade

ENVD 4311 (3) Housing Policies and Practices
Provides students with a descriptive knowledge and analytical understanding of the use and development of residential settings in global and political economies of high-, low-, and middle-income countries.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Social Factors

ENVD 4322 (1-6) Special Topics: Graphics
Provides an advanced seminar on special issues in design communications.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Methods and Techniques

ENVD 4352 (1-6) Special Topics: Computer Methods
Topics include animation and environmental simulation, computational methods of technical evaluation and optimization, and computational mapping and analysis.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Methods and Techniques

ENVD 4361 (1-6) Special Topics: Social Factors in Design
Addresses variable topics in the relationship of human experience and behavior to the built environment, e.g., social research methods in environmental design.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Social Factors

ENVD 4363 (1-6) Special Topics: Physical Factors in Environmental Design
Includes such topics as appropriate technology, public policy and natural hazards, organization of the designing and building process, and physical elements of urban development.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Physical Factors

ENVD 4364 (1-6) Special Topics: History and Historiography of Environmental Design
Provides an advanced seminar on history and historiography of environmental design, e.g., American dwellings.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: History and Theory

ENVD 4365 (1-6) Special Topics: Technology and Practice
Provides an advanced seminar on new technologies and issues of professional practice in the environmental design professions.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Technology and Practice

ENVD 4420 (3) Senior Capstone Seminar
Focuses on theoretical concerns and practical issues inherent in environmental design and planning. Views concerns and issues in terms of setting, processes, and planning and design outcomes. Provides a critical synthesis of the inherently interdisciplinary nature of planning and design education.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Studios

ENVD 4764 (1-6) Special Topics: Theory and Criticism in Environmental Design
Provides an advanced seminar on theory and criticism in environmental design.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade
Additional Information: Departmental Category: History and Theory

ENVD 4909 (1-6) Independent Study
By special arrangement with instructor.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite Students should have a minimum three point zero GPA.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

ENVD 4919 (1-6) Teaching Assistant
By special arrangement with instructor.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Recommended: Prerequisite 3.00 GPA.
Additional Information: Departmental Category: Miscellaneous

ENVD 4929 (1-6) Research Assistant
By special arrangement with instructor.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Recommended: Prerequisite Students should have a minimum three point zero GPA.
Additional Information: Departmental Category: Miscellaneous

ENVD 4939 (3) Professional Design Internship
Students develop design and professional skills outside of the curriculum while working for an organization in the field of Environmental Design. Students also attend classroom sessions providing professional development exercises.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite Students should have a minimum three point zero GPA.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

ENVD 4972 (1-3) Honors Research Methods and Thesis Preparation
Prepares students for undertaking a research based honors thesis project in Environmental Design. Students engage with existing literature in the field to understand how research and design projects are conducted, and how their contribution fits within a long tradition of scholarship.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

ENVD 4979 (1-3) Honors Thesis
Working with an advisor, students prepare, complete, and defend a research-based honors thesis project, in an area of Environmental Design.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

EPOD 2004 (3) History and Theory of Environmental Products of Design
Explores the chronology of product design and how it has shaped our engagement with the everyday context. The course will explore impactful precedents and the design thoughts behind them. Surveys advances in production and material technologies that have propelled key product designs from regional exclusivity to global access. Investigate product design¿s influence on cultural adaptations. Class discussions will give space to think critically about product design intent and perceived successes.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Recommended: Corequisite EPOD 2100.
Grading Basis: Letter Grade

EPOD 2100 (6) Studio 1: Foundations of Environmental Products of Design
Project-based studio in which students focus on the design of products at a human scale with an emphasis on visualization, both graphic and 3D modeling, digital fabrication file production, and translation to physical form to design and build solutions for real users.
Requisites: Requires prerequisite course of ENVD 1120 (minimum grade C-). Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Recommended: Corequisite EPOD 2004.
Grading Basis: Letter Grade

EPOD 3100 (6) Studio 2: Intermediate Environmental Products of Design
Introduces students to emerging technologies and techniques in digital fabrication and design through a project-based studio environment. Students will be asked to develop design solutions that benefit humanity through material investigations, cradle-to-cradle methodology, and more advanced methods in design optimization.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Requires prerequisite course of EPOD 2100 (minimum grade C-). Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Recommended: Corequisite EPOD 3101.
Grading Basis: Letter Grade

EPOD 3101 (3) Theory and Ethics in Design
Engages with key theories and provocative ideas at the intersection of design, sustainability, and ethics. Students will explore contemporary challenges designers face, critically analyzing readings and discussions to develop their own principled foundations. The course emphasizes the ethical impact of design outcomes on society, the environment, and individuals. By the end, students will articulate personal values and ethical guidelines, gaining tools to address complex moral issues in their future design work.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Recommended: Corequisite EPOD 3100.
Grading Basis: Letter Grade

EPOD 3105 (3) Human Centered Design and Entrepreneurship Strategies
Exposes students to innovation and entrepreneurial practices around the topic of Environmental Products of Design through human/user centered design strategies.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

EPOD 4100 (6) Studio 3: Capstone in Environmental Products of Design
Draws on design research processes such as design thinking, human-centered design, and speculative/critical design to create a comprehensive proposal. In this capstone experience, students identify a specific need, opportunity, or problem and then develop a design solution that addresses the challenge. This proposal is brought to life through the creation of a full-scale physical prototype.
Requisites: Requires prerequisite courses of EPOD 3100 and 4115 (minimum grade C-). Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

EPOD 4115 (3) Materials and Manufacturing Processes in Product Design
Explores the creation of products through an environmental lens as they relate to Material Science, Manufacturing Methods and Production Systems. Students have the opportunity to investigate innovative alternative materials and industry production approaches that improve upon pre-existing materials and paradigms; including sustainable materials, advanced production techniques at a variety of scales and a thorough understanding of the environmental cost incurred in the creation of products.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD) students with 30-180 credits.
Grading Basis: Letter Grade

LAND 2004 (3) History of Landscape Architecture
Through an examination of distinct historical periods, this course explores the human narrative of reshaping nature through the practice of what is now Landscape Architecture. This course introduces major histories, theories, and sites guiding Landscape Architecture while questioning the Eurocentric perspective that has framed history¿s curation. Students will survey humanity¿s redesign of natural surroundings such as fields, groves, avenues, gardens, terraces, coastal restorations, riparian ecological systems, national parks, and urban greenways.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD), and Environmental Planning Minor students only.
Recommended: Corequisite LAND 2100.
Grading Basis: Letter Grade

LAND 2100 (6) Studio 1: Foundations of Landscape Architecture
Introduces essential landscape architecture skills through a project-based studio. Building on design literacy, students incorporate varied ecological processes, explore landscape as a medium for connecting the natural and cultural, develop analog and digital communication tools and focus on the importance of place-making.
Requisites: Requires prerequisite course of ENVD 1120 (minimum grade C-). Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD), students with 40+ credits.
Recommended: Corequisite LAND 2004.
Grading Basis: Letter Grade

LAND 3003 (3) Site Planning, Materials, and Technologies
Presents the fundamental skills in site planning and decision-making. Students will perform analysis, concept generation, and programming through biophysical and socio-economic parameters, while reflecting on the subjective experiences, and historical, cultural, and infrastructural factors influencing design. Additional emphasis on the practice of site grading, surveying methods and infrastructure detailing in the context of watersheds and landscape restoration. Students will gain insights into materiality and design technologies.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Recommended: Corequisite LAND 3100.
Grading Basis: Letter Grade

LAND 3100 (6) Studio 2: Intermediate Landscape Architecture
Advances the understanding of the practice of landscape architecture. Focusing on concepts such as community engagement and client-based projects and covering topics such as health-focused spaces, ecological adaptability, green equity and gentrification. This studio builds on digital technologies, drawing, and graphic communication skills.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Requires prerequisite course of LAND 2100 (minimum grade C-). Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

LAND 3103 (3) Ecological Planting Design
Introduces species identification, planting design concepts, and design tools and methods. By framing the course in local ecological systems, the course eclipses the mere fundamentals of planting design resulting in students building a robust plant palette applicable to Colorado and the American West and the knowledge needed to deploy an ecologically responsive design intervention. Students are exposed to planting design methods of placemaking, embracing senescence, planting habitats, and designing for changing climates.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Recommended: Corequisite LAND 3100.
Grading Basis: Letter Grade

LAND 4100 (6) Capstone in Landscape Architecture
Emphasizes individual project development and well-defined design concepts. Capstone experience introduces critical strategies, advanced design techniques, and representation skills to address pressing issues in landscape architecture.
Requisites: Requires prerequisite course of LAND 3100 (minimum grade C-). Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

LAND 4114 (3) Landscape Architecture Theory
Students research and interrogate the boundaries of landscape architecture theory and practice. Analyzing the values and concepts that have shaped landscape architecture throughout its history into the present. The course further focuses on connecting central theories to lived experiences, studio practices and contemporary design that exemplifies these theoretical approaches.
Requisites: Requires prerequisite course of LAND 2004 (minimum grade C-). Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN), open option (ENVD), and Environmental Planning Minor students.
Grading Basis: Letter Grade

PLAN 2004 (3) History and Theory of Sustainable Planning and Urban Design
Surveys the key urban theories that shape sustainable planning and urban design. Covers the evolution of city form, policy approaches, history of planning, and evolution of sustainability and its approaches globally.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD), and Environmental Planning Minor students only.
Recommended: Corequisite PLAN 2100.
Grading Basis: Letter Grade

PLAN 2100 (6) Studio 1: Foundations of Sustainable Planning and Urban Design
Expands on introductory sustainable planning and urban design concepts and methods to address social and ecological challenges in communities. Exploration skills include spatial analysis, basic community engagement techniques, legal and regulatory framework, and policy alternatives. The resultant project addresses challenges at the intersection of social and environmental systems.
Requisites: Requires prerequisite course of ENVD 1120 (minimum grade C-). Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD), students with 40+ credits.
Recommended: Corequisite PLAN 2004.
Grading Basis: Letter Grade

PLAN 3005 (3) Process and Practice
Introduces the regulatory and legal structures surrounding sustainable planning, design, and development. Covers issues of environmental policy, property rights, zoning, and building codes and laws. Includes work on professional development in the field of planning and design.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

PLAN 3100 (6) Studio 2: Intermediate Sustainable Planning and Urban Design
Utilizes intermediate-level planning concepts and practices to create solutions to specific challenges in a collaborative process. Through a sequence of planning, policy, and design investigations students explore issues such as equity, housing, transportation, community engagement and land use.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Requires prerequisite course of PLAN 2100 (minimum grade C-). Restricted to all majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

PLAN 3102 (3) Strategies and Techniques for Sustainable Planning and Urban Design
Explores analytical strategies and techniques in applied research and professional skills needed in sustainable planning and design. Includes quantitative and qualitative methods used by planners and designers to make informed decisions.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

PLAN 4100 (6) Capstone in Sustainable Planning and Urban Design
Applies advanced concepts in comprehensive planning, plan-making, and plan implementation for communities. Capstone experience provides an opportunity for students to engage with real-world challenges, working closely with communities to address complex issues. The project integrates both qualitative and quantitative skills, focusing on solving social, environmental, and ecological problems while emphasizing sustainable, impactful planning solutions for community development and resilience.
Requisites: Requires prerequisite course of PLAN 3100 (minimum grade C-). Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN), open option (ENVD), and Environmental Planning Minor students.
Grading Basis: Letter Grade

PLAN 4101 (3) Sustainable Futures Planning
Surveys innovative ways that planners and designers are addressing the great social and ecological challenges of the present and future. Includes issues such as population growth and climate change.
Requisites: Restricted to majors in Environmental Design (ARCH, EPOD, LAND, PLAN) and open option (ENVD).
Grading Basis: Letter Grade

Design Careers

Preparing for a Professional Design Career

Environmental design prepares undergraduate students for entry directly into the design professions or to enter graduate study in the design professions. The BEnvD degree prepares students for study in master degree programs: Master of Architecture (MArch), Master of Landscape Architecture (MLA), Master of Urban Design (MUD), Master of Urban and Regional Planning (MURP), Master of Fine Arts (MFA) in design or Master of Industrial Design (MID).

It is common for Bachelor of Environmental Design graduates to receive advanced standing for the work they have completed, which allows them to complete a graduate degree at other design schools in a shorter time. Advanced standing for graduate study is evaluated on a case-by-case basis, according to the standards of each graduate program as demonstrated by and in accordance with a student's prior academic accomplishments in the application, portfolio and the transcript.

Preparation for a Career in Architecture

A BEnvD prepares undergraduate students to practice as an architectural designer in the professional field or attend graduate study in architecture. A Bachelor in Environmental Design equates to other preprofessional architectural design degrees such as the Bachelor of Science or Bachelor of Arts in Architecture. In the United States, architecture licensure is granted by each state's regulatory agency. The National Architecture Accreditation Board (NAAB) recognizes a Master of Architecture (MArch), five-year Bachelor of Architecture (BArch), and Doctorate of Architecture (DArch) as accredited degrees that are then typically identified by state regulatory agencies as a traditional path to architecture licensure. Most regulatory agencies also recognize alternative paths to licensure that include non-accredited degrees like the Bachelor in Environmental Design, Bachelor of Science or Bachelor of Arts in Architecture. Colorado is one such state that has charted a licensure pathway for the BEnvD, specifically.

Preparation for a Career in Sustainable Planning and Urban Design

A BEnvD prepares undergraduate students to enter the professional field as a designer or for graduate study in planning. The practice of planning

is currently not licensed in most states. Professional membership and certification are overseen by the American Planning Association (APA) and the American Institute of Certified Planners (AICP).

Although students interested in entry-level positions in planning may find the BEnvD degree sufficient, an advanced degree (MURP, PhD or other graduate planning focus) is often desirable. Students primarily interested in professional practice often obtain a graduate degree in urban planning, in urban and regional planning, in urban planning and community development or in urban design. Students interested in teaching or research in planning should complete a PhD.

Preparation for a Career in Landscape Architecture

A BEnvD prepares undergraduate students to enter the professional field as a designer or for graduate study in landscape architecture. In the United States, licensing is overseen both at the state level and nationally by the Council of Landscape Architectural Registration Boards (CLARB). Accreditation of educational programs is voluntary. The Landscape Architectural Accreditation Board (LAAB) evaluates programs and provides an assessment.

Although students interested in entry-level positions in landscape architecture may find the BEnvD degree sufficient, an advanced degree (MLA, PhD or other graduate landscape architecture focus) is often desirable.

Preparation for a Career in Environmental Products of Design

A BEnvD prepares undergraduate students to enter the professional field as a designer or for graduate study in industrial design, architecture, or other product design programs. The practice of product design does not require licensure in the United States, and professional membership is overseen by the Industrial Designers Society of America (IDSA). Degrees in the field are accredited by the National Association of Schools of Art and Design (NASAD).

Most students interested in working as a product designer will find the BEnvD degree sufficient; an advanced degree Master of Industrial Design (MID) may be desirable in relation to design management and is considered the terminal industrial design degree. Students with a BEnvD will find themselves prepared to work for a company, attend graduate school in a variety of disciplines or start their own businesses.

Facilities and Design Centers

Facilities for the department are provided in the Environmental Design Building and at the Center for Innovation and Creativity (CINC) facility.

Environmental Design Building

Located in the heart of campus, the ENVD building (http://www.colorado.edu/campusmap/map.html?bldg=ENVD) houses administrative and faculty offices, studio spaces, conference rooms, lecture rooms and exhibit spaces, as well as an academic research center, high-end computing lab classroom and an academic support center specializing in digital outcomes.

ENVD is a studio-based design program, where students participate in no less than 42 credits of lab setting instruction. Studio instructional spaces provide large open areas with individualized worktables available to students 24 hours a day during their course. Studios are located on the third floor and sublevel of the ENVD building.

Digital Media Center

The Digital Media Center (https://www.colorado.edu/envd/facilities-centers/digital-media-center/) (DMC), an ENVD Academic Support Center housed in the ENVD Building, offers students digital imaging computer workstations, a printing and production lab with state-of-the-art large format printers for professional-style presentation boards, a photographic studio for portfolio creation and in-house 3D printing. The DMC also includes a 24-person active learning classroom where students can engage with imaging-based software and other programs or meet with the DMC Peer Tutors for one-on-one tutoring sessions. ENVD students can walk in to ask questions or use the flexible creative space to work on projects.

Creative Lab Center (CLC)

The CLC is located in the university's Center for Innovation and Creativity (CINC), located on East campus. The CLC is an approximately 15,000 square-foot facility that houses makers spaces, classrooms, studio spaces, fabrication shops and a high-end computing lab.

The Creative Lab Center (https://www.colorado.edu/envd/facilities-labs/creative-labs-center/) provides students access to studio spaces along with specialized fabrication facilities where students learn technological design skills and fabricate components for their projects. In addition to teaching, learning, and assembly spaces, students have access to various design and fabrication resources at the CLC supported by a state-of-the-art wood lab, metal lab, laser cutting machines, 3D printers and CNC milling machines.

A mandatory basic safety orientation is conducted for all students before access to the shops is granted. This course offers an introduction to ENVD's safety policies as well as the proper use of personal safety equipment and safety practices with the fabrication equipment. Specific trainings are offered and some may be required within the individual labs depending on the need of the user.

The CLC also offers a virtual reality (VR) lab where students can test their designs and ideas in the digital world before building them. These labs enhance the ENVD curriculum by providing students with the technological resources for design visualization, scale modeling and full-scale prototyping, turning ideas into tangible objects.

Living and Learning Communities

The Environmental Design (ENVD) Living Learning Community (LLC) is a unique community where students accepted into environmental design are housed together in Willard Hall and participate in First-Year Experience (FYE) programming. Students in the LLC create meaningful connections with their cohort, engage in social and academic events and gain the tools to continue their design education in confidence beyond the first year.

People

The ENVD LLC is run by architecturally licensed teaching professors with the intention of supporting students both academically and socially as they journey through their first year of a design education. Additionally, a team of friendly and highly skilled upper-level mentors are matched with first year students to create peer-to-peer partnerships assisting students in navigating their first year.

Location

Willard Hall is home to ENVD's Living Learning Community. Built in 1955, Willard Hall is a four-story dorm just south of Farrand Field on CU's

central campus. Willard Hall houses 450 students and the environmental design first-year class lives on the top floor.

First-Year Experience Structure

Designed to engage all incoming students in establishing a formative connection to the profession while addressing skill variables, our First-Year Experience events target competencies that expose students to the design world. Programming includes field trips, social activities, site visits and hands-on experiences all aimed at building proficiencies in our first-year students.

Analytics

- Environmental design student retention from year one to year two is ten percent higher than CU Boulder campus average.
- Four-minute walk from the Willard Residence Hall to the Environmental Design Building.
- Fifteen $500 first-year engagement scholarships awarded at the end of the academic year.
- Ten first-year mentors available for one-on-one mentoring alongside first-year activities.
- Over thirty events and activities throughout the year that explore design, target skills and make connections.

For more information, visit Living and Learning Communities (https://catalog.colorado.edu/undergraduate/colleges-schools/academic-enrichment-programs/undergraduate-residential-programs/#livingandlearningcommunitiestext).

Departmental Policies & Requirements

The following Policies and Requirements are for students who entered the Department of Environmental Design in the academic year 2025-2026, or were previously ENVD students.

Academic Excellence

Recognition of Academic Achievement

Environmental design provides an atmosphere for study and creative investigation. ENVD holds academic rigor and quality in the highest esteem. In recognition of high academic achievement and professional attainment, the Department grants scholarly honors at graduation.

Thesis Honors in Environmental Design

Environmental design students may graduate with Latin Honors (summa cum laude, magna cum laude or cum laude). Students with a GPA of a 3.3 or above may apply and propose an honors thesis project to work on under the guidance of a primary faculty advisor. Students defend their thesis to a committee of faculty in their senior year.

Latin Honors candidates present work that is student initiated and student-directed well beyond the requirements for required class work. Department in Environmental Design Latin Honors projects fall into two major categories: research and design.

- Research projects present a heretofore-unanswered question then seek to answer it, relying on a variety of data or types of evidence. The product is a paper, which is determined by the topic in conversation with the faculty advisor.
- Design projects present a problem and propose a solution to that problem. The product is a design or object, presented with a critical introduction. Design theses go beyond designing a product, building, landscape, urban district or planning problem that responds to conventional programmatic assumptions, to propose a new response to a problem identified by the student. The scope of the project and the design presentation are determined in conversation with the faculty advisor.

Honors Distinction

Students achieving a grade point average of 3.50 to 3.749 (distinction) and 3.75 to 4.00 (high distinction) are recognized at commencement. Honors distinction is based on coursework completed at the University of Colorado. A minimum of 70 credit hours of coursework must be completed at CU to be eligible for honors distinction.

Scholarships and Awards

A wide range of scholarships (https://www.colorado.edu/envd/current-students/environmental-design-scholarships/) and awards are available to environmental design (ENVD) students. The awards are sponsored by the department, the campus, the professions and other foundations and donors.

In addition to these scholarships, interested students may participate in faculty-student research projects funded by the Undergraduate Research Opportunities Program (UROP (http://www.colorado.edu/suep/about-urop/)), in other research opportunities provided by the campus or in cooperation with ENVD faculty.

Academic Standards

Student Rights and Responsibilities

Environmental design is part of an academic community whose mission requires an open learning and working environment for students, faculty, staff and administrators. An open learning and working environment values and protects individual dignity and the integrity of human relationships and is based upon mutual trust, freedom of inquiry, freedom of expression and the absence of intimidation and exploitation. Any infringement upon these freedoms and rights may cause review by ENVD and/or by other university offices for retention in the Department. Students are subject to the policies and procedures governing student rights and responsibilities. See the campus-wide Student Conduct & Colorado Creed (p. 61) section.

GPA Requirements and Academic Standing

Good academic standing in ENVD requires a cumulative GPA of 2.00 or above in University of Colorado work. Students who fail to meet the minimum cumulative grade point requirement of 2.00 may apply to be permitted to continue their studies on a provisional basis.

Withdrawal

Students in environmental design who withdraw from all their registered courses two semesters in a row will have a hold placed on their account prohibiting them from further registration except for registration in Summer Session classes, which are not counted in the regular academic year. Students will not be readmitted to CU Boulder before one full academic year has elapsed (not including the semesters of withdrawal).

Attendance

Students are expected to subscribe to attendance and participation guidelines specified by instructors for individual courses in a manner that complies with university protocol. Given that a considerable portion of the ENVD curriculum is offered via studio courses, students are fully expected to comply with guidelines that may be different and more

onerous than traditional lecture or seminar courses (e.g., attending skill sessions, lectures, juries and presentations).

Credit and Enrollment

Requirements for Admission

High School Students

Candidates interested in admission into environmental design should see CU Admissions for specific requirements. Students applying to undergraduate programs are strongly encouraged to meet the following Higher Education Admission Recommendations (HEAR) when applying to any Colorado four-year public college or university. Students with enrollments prior to Summer 2023 will be held to the previous CU Boulder MAPS requirements. Students should consult the catalog of their first enrollment term for the MAPS requirements of the college, school or program in which they are earning their degree.

Transfer Students

Transfer students entering environmental design are admitted through CU Boulder's admission process directly into the Department. A college-level GPA of 3.0 or higher is required. Preference is given to students who have taken college-level courses in the areas of architecture, landscape architecture, planning, or product design. Completion of courses in related fields of social science, natural science, fine arts or humanities is also considered in admission review. All coursework except the last term, if in progress, must be completed and must be listed on the official transcript sent for admission consideration.

Students are encouraged to transfer as early as possible in their undergraduate career due to the required sequence of design courses in the first two years of the curriculum. While transfer students are admitted for the fall and spring terms each year, it is important to note that the core curriculum sequence begins in the fall semester with only limited opportunities to begin study out of sequence. Students who start the sequence in the spring semester will be required to complete summer classes in order to stay on track in the curriculum. All transfer students are required to take a minimum of 30 credit hours in the Department in Environmental Design.

A maximum of 60 credit hours taken at a two-year college may be applied toward the baccalaureate degree. In general, credit hours in vocational-technical courses are not accepted for transfer. Transfer agreements between the University of Colorado and all Colorado community colleges outline approximately one year of prescribed general education courses that may be completed as preparation for transfer into the Department in Environmental Design. As noted above, students should plan to transfer to the University of Colorado as soon as possible to start the sequential curriculum. See Transfer of College-Level Credit for admission standards for transfer.

Transfer Students from Other University Design Programs

Transfer students from other universities offering preprofessional or accredited professional degree programs in one of ENVD's majors who enter CU Boulder may apply for equivalency and advanced standing. A portfolio review will be required for these students, including work from each design course completed. For transfer credit to meet core degree requirements, a grade of B or better is required in the transferring class. For more information, visit the ENVD Transfer webpage.

Intra-University Transfer (IUT)

University of Colorado students in good standing who are interested in pursuing a degree in environmental design may apply for intra-university transfer into the department. Students should visit the Intra-University Transfer webpage for application requirements, informational tours and application deadlines for specific semesters.

ENVD has become increasingly competitive, and acceptance is not guaranteed. Due to limited space and a high volume of applications, a limited number of applicants will be admitted.

Credit Policies

Incomplete Grades

ENVD accepts incomplete agreements between faculty and students who have satisfactorily completed a substantial amount of coursework but are unable to complete the course requirements due to extenuating circumstances. In all cases, students must present evidence of circumstances beyond their control that prevent them from completing the class. The student and faculty member must submit an Incomplete Agreement outlining the terms of the unfinished course requirements.

Independent Study

Students at 3000 or 4000 studio level and who hold at least a 3.00 GPA are permitted to register for Independent Study (ENVD 3909) or Independent Study (ENVD 4909) . Independent study credit is supervised by a faculty member and may not be used to substitute for any required core education or design studio courses.

Additional requirements may be established depending on the proposed topic. No more than 3 credit hours of independent study credit during one semester and no more than a total of 6 are given for the entire time the student is enrolled in ENVD, unless an exception is granted by the department.

A complete description of the scope of the independent work, a summary of how it will be carried out and a definition of the intended outcomes must be submitted to the supervising faculty member no later than five days after the official beginning of a semester. Approval of the description must be by the faculty member and by ENVD administration before permission is granted for enrollment in an independent study course. Students should make arrangements for the independent study course details during registration or well before the semester begins.

Other Credits

Credits for Teaching Assistant (ENVD 3919) , Research Assistant (ENVD 4929) , Professional Design Internship (ENVD 4939) , Exploratory Internship (ENVD 3939) and Independent Study (ENVD 3909) or Independent Study (ENVD 4909) are all guided by the same standards. Credits earned are subject to a 3 credit-hour limitation per course, Independent Study and Internships are graded while teaching assistantships and research assistantships are offered on a satisfactory/unsatisfactory (S/U) grading basis.

Pass/Fail Credits

A student may elect to take up to 6 credit hours toward the BEnvD degree on a pass/fail (P+/P/F) or satisfactory/unsatisfactory (S/U) grading basis but these credit hours must fall in the category of general electives and may not include coursework taught within the Department in Environmental Design. Courses within the Department in Environmental Design that are only offered as pass/fail are not subject to this policy.

ROTC Credit

Students matriculating into environmental design are eligible to participate in the ROTC programs on the Boulder campus.

Students interested in such programs should contact the professor in charge of the ROTC program of their choice (Air Force, Army, Navy) and also their ENVD academic advisor for information on residence and

curriculum requirements for graduation. No more than 8 credit hours of ROTC courses may be applied to the BEnvD degree.

Transfer Credit

Credits transferred from other institutions are limited to the number of credit hours given for similar work in regular offerings at the University of Colorado and must meet the quality level expected at the University of Colorado Boulder. The faculty, in conjunction with the ENVD Undergraduate Education & Student Success unit, may make exceptions to this policy.

ENVD does not accept vocational/technical coursework in design, graphics or construction as meeting specific course requirements; nor does it consider such coursework as acceptable in fulfilling elective requirements. Only in exceptional circumstances may a student petition to request a transfer of such credits.

A grade of C- or better is required in any course for which credit is granted in transfer from another institution to the university. However, in order for transfer credit to meet specific core degree requirements, a grade of B or better is required in the transferring class. Grades earned in other institutions (excluding other campuses of the University of Colorado system) are not factored in the CU grade point average.

For more information on transfer credit policies, see the Transfer of College-Level Credit section.

Residency Requirement

To graduate from the University of Colorado with a Bachelor of Environmental Design, all students must complete a minimum of 30 credit hours within the Department in Environmental Design as well as complete their last semester in residence as a full-time student.

Academic Advising and Academic Coaching

Academic advising is an essential part of your undergraduate experience. Students enrolled in ENVD receive academic advising and coaching from professional staff in the ENVD Undergraduate Education and Student Success unit (https://www.colorado.edu/envd/current-students/academic-advising/) through both appointments and open drop-in office hours.

New Student Welcome

Incoming first-year and transfer students are required to attend New Student Welcome programming during the summer prior to the start of the fall semester. Visit the New Student & Family Programs website to learn more.

All students are required to attend ENVD welcome sessions during New Student Welcome Week in August to receive an overview of educational opportunities and the philosophy of the Department, and to meet other new students and the ENVD faculty and staff. Students starting their educational career in the spring semester are required to attend ENVD welcome sessions during New Student Welcome Week in January to receive an overview of educational opportunities and the philosophy of the Department, and to meet other new students and the ENVD faculty and staff.

Retention of Student Work

The Department in Environmental Design may retain student work submitted in fulfillment of class requirements. This retained work may be used to provide outside agencies with tangible evidence of performance, to serve as additional visual aid material in presentations to other students, and to contribute to possible educational exhibits and publications requested by the university community and the general public. The Department does not claim any copyright and intellectual ownership of the material but does retain rights to display student work for marketing and promotion, or for academic purposes.

Students are responsible for recording their work for future use in their portfolios. When the Department retains students' materials for displays or presentations, the Department will ensure that students have the opportunity to reclaim and record their work for portfolio use.

Computing

Environmental design requires that all incoming undergraduate students have and use their own computers and software applications in their studies. Suggested computer specifications and standards are posted on the Office of Information Technology (OIT)'s Recommended Software and Hardware List webpage.

Neither the Boulder campus nor the Department in Environmental Design endorse nor require students to buy a computer from a particular manufacturer. The configurations suggested by OIT establish high performance requirements that can be found in many different computers. Specialized software requirements for different classes in the Department in Environmental Design appear on the syllabi for those classes, and that software is generally available at discounted student rates.

Bachelor's Degrees

- Architecture - Bachelor of Environmental Design (BEnvD) (p. 737)
- Environmental Products of Design - Bachelor of Environmental Design (BEnvD) (p. 739)
- Landscape Architecture - Bachelor of Environmental Design (BEnvD) (p. 742)
- Sustainable Planning and Urban Design - Bachelor of Environmental Design (BEnvD) (p. 744)

Minor

- Environmental Planning - Minor (p. 746)

Architecture - Bachelor of Environmental Design (BEnvD)

The architecture major focuses on the design and development of the built environment. At ENVD, we encompass broad topics of sites, program, materiality, structural systems, modern technologies, human interconnectedness and social interaction. This major endeavors to teach our students to be responsible citizens and stewards of aesthetic, ethical, social, economic and environmental concerns.

Required Courses and Credits

The curriculum for the Bachelor of Environmental Design (BEnvD) is subdivided into two parts:

1. The first part consists of a core lasting one-and-a-half years which provides a balanced introduction to each of the majors offered. By the end of the core studies, students select or confirm their intended major.

2. The second part is focused on a selected major. Studies lead to the degree Bachelor of Environmental Design (BEnvD) with a major in either environmental products of design, architecture, landscape

architecture and sustainable planning and urban design. Each area has specific requirements for completing the major.

Credit Hours

Students must complete a minimum of 120 credit hours subject to the maximum outlined in this catalog, meet all specified university general education requirements, all major core requirements and maintain a GPA of 2.00 or better. Students must complete courses with a grade of C- or better to fulfill university and degree requirements.

Students in the Department in Environmental Design are required to complete coursework meeting General Education requirements; each major may have differing totals. Students who take approved CU Boulder coursework to fulfill their General Education requirements must take those courses for a letter grade and receive a grade of C- or higher. Students may not use thesis hours, independent study, internship or practicum courses to fill any of the General Education requirements. All courses approved to fulfill specific General Education requirements are identified as such in this catalog and are searchable in CU Boulder Class Search.

Code	Title	Credit Hours
Environmental Design core		**37**
Consists of a sequential core lasting one-and-a-half years which provides a balanced introduction to each of the majors offered. By the end of the core semesters, students select or confirm their intended major.		
Environmental Design major		**54**
The second part of the sequential Environmental Design core is focused on a selected major, which leads to the degree Bachelor of Environmental Design (BEnvD) with a major in either environmental products of design, architecture, landscape architecture, or sustainable planning and urban design. Each major has specific requirements and culminates into capstone requirements to complete the major.		
Environmental Design electives (9 credits)		
General Education Requirements		
Lower-Division Writing requirement		*3*
Choose one:		
ARSC 1150	Writing in Arts and Sciences	
ENVD 1150	First Year Writing for Environmental Design	
ENVS 1150	First-Year Writing in Energy, Environment and Sustainability	
WRTG 1100	Extended First-Year Writing and Rhetoric	
WRTG 1150	First-Year Writing and Rhetoric	
Upper-Division Writing requirement [1]		*3*
Lower-Division Social Science requirement [2]		*3*
Lower-Division Arts & Humanities requirement [3]		*3*
Upper-Division Art and Humanities or Social Science requirement [4]		*3*
Math requirement		*3*
Meet with Academic Advisor to determine requirement for specific major. Choose one:		
MATH 1150 & MATH 1151	Precalculus Mathematics and Precalculus Supplemental Lab	
MATH 1300	Calculus 1	
MATH 2510	Introduction to Statistics	
GEOG 3023	Statistics and Geographic Data	
SOCY 2061	Introduction to Social Statistics	
Natural Science requirement		*3*
Meet with an Academic Advisor to determine requirements for specific major. Choose from the following:		
PHYS 1110	General Physics 1	
PHYS 2010	General Physics 1	
EBIO 1210 & EBIO 1230	General Biology 1 and General Biology Laboratory 1	
EBIO 1220 & EBIO 1240	General Biology 2 and General Biology Laboratory 2	
EBIO 3590	Plants and Society	
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	
GEOG 1001	Our Changing Planet: Climate and Vegetation	
GEOG 1011	Our Changing Planet: Landscapes and Water	
GEOL 1060 & GEOL 1030	Global Change: An Earth Science Perspective and Introduction to Geology Laboratory 1	
Non-Environmental Design electives (6-9 credits) to meet 120 graduation credits.		**9**
Total Credit Hours		**121**

1. May be fulfilled by courses in Upper-Division Writing requirement list or ENVD 3150.
2. May be fulfilled by courses in Lower-Division Social Science requirement list.
3. May be fulfilled by courses in Lower-Division Arts & Humanities requirement list.
4. May be fulfilled by 3000/4000-level courses in Upper-Division Art and Humanities or Social Science requirement lists.

Plan(s) of Study

Sample Four-Year Plans of Study

The first three semesters of the BEnvD curriculum are the core curriculum, which is prerequisite for each of the majors: Environmental Products of Design, Architecture, Landscape Architecture, and Sustainable Planning and Urban Design. There are corequisite ENVD core courses each semester and the core courses are typically sequential from semester to semester.

ENVD Core

First Year Fall Semester		Credit Hours
ENVD 1010	Studio 1: Introduction to Environmental Products of Design	3
ENVD 1020	Studio 1: Introduction to Architecture	3
ENVD 1002	Technology 1: Applications for Environmental Design	2
ENVD 1004	Introduction to Environmental Design	3
ENVD 1976	Colloquium - Exploring Careers, Research and Practice	1

Lower-Division Writing requirement (choose one: ARSC 1150, ENVD 1150, ENVS 1150, WRTG 1100 or WRTG 1150)		3
	Credit Hours	**15**
Spring Semester		
ENVD 1030	Studio 1: Introduction to Landscape Architecture	3
ENVD 1040	Studio 1: Introduction to Sustainable Planning and Urban Design	3
ENVD 1012	Technology 2: Visual Communications	2
ENVD 1024	History of the Built Environment	3
Lower-Division Arts & Humanities requirement [1]		3
	Credit Hours	**14**
Second Year		
Fall Semester		
ENVD 1110	Studio 2: Fundamentals of Environmental Design 1	3
ENVD 1120	Studio 2: Fundamentals of Design 2	3
ENVD 1022	Technology 3: Intermediate Applications for Environmental Design	2
ENVD 2003	Ecological Systems in Design	3
ENVD 2101	Context of Design: Planning and Implementation	3
Lower-Division Social Science requirement [2]		3
	Credit Hours	**17**
	Total Credit Hours	**46**

Second Year		
Spring Semester		**Credit Hours**
ARCH 2100	Studio 1: Foundations of Architecture	6
ARCH 2115	Architecture Materials and Methods	3
ENVD 2001	Human Behavior and Design	3
Math requirement (choose one: MATH 1150 & 1151 or MATH 1300)		5
	Credit Hours	**17**
Third Year		
Fall Semester		
ARCH 3100	Studio 2: Intermediate Architecture	6
ARCH 3114	History and Theory of Architecture 1	3

Upper-Division Writing or ENVD 3150 [2]		3
Elective		3
	Credit Hours	**15**
Fourth Year		
Fall Semester		
Elective Studio (choose one: ENVD 3100, ARCH 3100 or an approved Design study abroad) [6]		6
ARCH 4115	Architecture Building Technology	3
Upper-Division Art and Humanities or Social Science requirement [3]		3
Design elective [5]		3
	Credit Hours	**15**
Spring Semester		
ARCH 4100	Studio 3: Capstone in Architecture	6
Design elective [5]		3
Electives		6
	Credit Hours	**15**
	Total Credit Hours	**79**

2 Upper-Division Writing (p. 79) or ENVD 3150

4 Application (https://cuboulder.qualtrics.com/jfe/form/SV_3myQkpi3QMKLwqN/) for professional development requirement

5 Design Electives list

6 Students can enroll in an **additional** 3100 studio in their major to fulfill the elective studio requirement. Please meet with your advisor to address course options.

Learning Outcomes

By the completion of the program, students will be able to:

- Use creative, critical and convergent thinking to address social and environmental issues, analyzing the need for and impact of design solutions by examining precedents, applying theoretical knowledge, conducting research and using problem-defining techniques.
- Develop conceptual or material solutions to socio-environmental issues through iterative design processes, synthesizing critical feedback and collaborative findings with peers and communities they engage with.
- Employ graphic, verbal, written, spatial and other communication strategies to organize, demonstrate and effectively argue for their design concepts and proposals.
- Apply principles of social and environmental justice in their work, prioritizing design stewardship and sustainability to ensure the health, safety and welfare of all project constituents.
- Demonstrate foundational technical skills and the ability to apply methodologies essential for entering academic and professional disciplines in environmental design.

Environmental Products of Design - Bachelor of Environmental Design (BEnvD)

The Environmental Products of Design (EPOD) major creates design leaders prepared to take on challenges facing humanity and our environment(s) through the rigorous development of design solutions. Students will implement a critical and hands-on design process that leverages design thinking, ethical consideration and speculative design in conjunction with rapid prototyping, experimentation, fabrication techniques and product development. EPOD majors graduate with creative confidence and a diverse problem-solving skillset poised to make innovative solutions towards improving our human, natural and built environments.

Required Courses and Credits

The curriculum for the Bachelor of Environmental Design (BEnvD) is subdivided into two parts:

1. The first part consists of a core lasting one-and-a-half years which provides a balanced introduction to each of the majors offered. By the end of the core studies, students select or confirm their intended major.
2. The second part is focused on a selected major. Studies lead to the degree Bachelor of Environmental Design (BEnvD) with a major in either environmental products of design, architecture, landscape architecture and sustainable planning and urban design. Each area has specific requirements for completing the major.

Credit Hours

Students must complete a minimum of 120 credit hours subject to the maximum outlined in this catalog, meet all specified university general education requirements, all major core requirements and maintain a GPA of 2.00 or better. Students must complete courses with a grade of C- or better to fulfill university and degree requirements.

Students in the Department in Environmental Design are required to complete coursework meeting General Education requirements; each major may have differing totals. Students who take approved CU Boulder coursework to fulfill their General Education requirements must take those courses for a letter grade and receive a grade of C- or higher. Students may not use thesis hours, independent study, internship or practicum courses to fill any of the General Education requirements. All courses approved to fulfill specific General Education requirements are identified as such in this catalog and are searchable in CU Boulder Class Search.

Code	Title	Credit Hours
Environmental Design core		**37**
Consists of a sequential core lasting one-and-a-half years which provides a balanced introduction to each of the majors offered. By the end of the core semesters, students select or confirm their intended major.		
Environmental Design major		**54**
The second part of the sequential Environmental Design core is focused on a selected major, which leads to the degree Bachelor of Environmental Design (BEnvD) with a major in either environmental products of design, architecture, landscape architecture, or sustainable planning and urban design. Each major has specific requirements and culminates into capstone requirements to complete the major.		
Environmental Design electives (9 credits)		
General Education Requirements		
Lower-Division Writing requirement		*3*
Choose one:		
ARSC 1150	Writing in Arts and Sciences	
ENVD 1150	First Year Writing for Environmental Design	
ENVS 1150	First-Year Writing in Energy, Environment and Sustainability	
WRTG 1100	Extended First-Year Writing and Rhetoric	
WRTG 1150	First-Year Writing and Rhetoric	
Upper-Division Writing requirement [1]		*3*
Lower-Division Social Science requirement [2]		*3*
Lower-Division Arts & Humanities requirement [3]		*3*
Upper-Division Art and Humanities or Social Science requirement [4]		*3*
Math requirement		*3*
Meet with Academic Advisor to determine requirement for specific major. Choose one:		
MATH 1150 & MATH 1151	Precalculus Mathematics and Precalculus Supplemental Lab	
MATH 1300	Calculus 1	
MATH 2510	Introduction to Statistics	
GEOG 3023	Statistics and Geographic Data	
SOCY 2061	Introduction to Social Statistics	
Natural Science requirement		*3*
Meet with an Academic Advisor to determine requirements for specific major. Choose from the following:		
PHYS 1110	General Physics 1	
PHYS 2010	General Physics 1	
EBIO 1210 & EBIO 1230	General Biology 1 and General Biology Laboratory 1	
EBIO 1220 & EBIO 1240	General Biology 2 and General Biology Laboratory 2	
EBIO 3590	Plants and Society	
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	
GEOG 1001	Our Changing Planet: Climate and Vegetation	
GEOG 1011	Our Changing Planet: Landscapes and Water	
GEOL 1060 & GEOL 1030	Global Change: An Earth Science Perspective and Introduction to Geology Laboratory 1	
Non-Environmental Design electives (6-9 credits) to meet 120 graduation credits.		**9**
Total Credit Hours		**121**

1. May be fulfilled by courses in Upper-Division Writing requirement list or ENVD 3150.
2. May be fulfilled by courses in Lower-Division Social Science requirement list.
3. May be fulfilled by courses in Lower-Division Arts & Humanities requirement list.
4. May be fulfilled by 3000/4000-level courses in Upper-Division Art and Humanities or Social Science requirement lists.

Sample Four-Year Plans of Study

The first three semesters of the BEnvD curriculum are the core curriculum, which is prerequisite for each of the majors: Environmental Products of Design, Architecture, Landscape Architecture, and Sustainable Planning and Urban Design. There are corequisite ENVD core courses each semester and the core courses are typically sequential from semester to semester.

ENVD Core

First Year

Fall Semester		**Credit Hours**
ENVD 1010	Studio 1: Introduction to Environmental Products of Design	3
ENVD 1020	Studio 1: Introduction to Architecture	3
ENVD 1002	Technology 1: Applications for Environmental Design	2
ENVD 1004	Introduction to Environmental Design	3
ENVD 1976	Colloquium - Exploring Careers, Research and Practice	1
Lower-Division Writing requirement (choose one: ARSC 1150, ENVD 1150, ENVS 1150, WRTG 1100 or WRTG 1150)		3
	Credit Hours	**15**
Spring Semester		
ENVD 1030	Studio 1: Introduction to Landscape Architecture	3
ENVD 1040	Studio 1: Introduction to Sustainable Planning and Urban Design	3
ENVD 1012	Technology 2: Visual Communications	2
ENVD 1024	History of the Built Environment	3
Lower-Division Arts & Humanities requirement [1]		3
	Credit Hours	**14**

Second Year

Fall Semester		
ENVD 1110	Studio 2: Fundamentals of Environmental Design 1	3
ENVD 1120	Studio 2: Fundamentals of Design 2	3
ENVD 1022	Technology 3: Intermediate Applications for Environmental Design	2
ENVD 2003	Ecological Systems in Design	3
ENVD 2101	Context of Design: Planning and Implementation	3
Lower-Division Social Science requirement [2]		3
	Credit Hours	**17**
	Total Credit Hours	**46**

Second Year

Spring Semester		**Credit Hours**
EPOD 2100	Studio 1: Foundations of Environmental Products of Design	6
EPOD 2004	History and Theory of Environmental Products of Design	3
ENVD 2001	Human Behavior and Design	3
Math requirement (choose one: MATH 1150 & 1151 or MATH 1300, MATH 2510, SOCY 2061) Meet with an Academic Advisor suggested		4
	Credit Hours	**16**

Third Year

Fall Semester		
EPOD 3100	Studio 2: Intermediate Environmental Products of Design	6
EPOD 3101	Theory and Ethics in Design	3
Natural Science requirement (choose one pair: PHYS 1110, PHYS 2010, EBIO 1210 & EBIO 1230, or CHEM 1113 & CHEM 1114)		4
Elective		3
	Credit Hours	**16**
Spring Semester		
Professional development requirement (complete application for advisor approval) [4]		6
EPOD 3105	Human Centered Design and Entrepreneurship Strategies	3
Upper-Division Writing requirement or ENVD 3150 [2]		3
Design Elective [5]		3
	Credit Hours	**15**

Fourth Year

Fall Semester		
Elective Studio (choose one: ENVD 3100, EPOD 3100 or an approved Design study abroad) [6]		6
EPOD 4115	Materials and Manufacturing Processes in Product Design	3
Upper-Division Art and Humanities or Social Science requirement [3]		3
Design Elective [5]		3
	Credit Hours	**15**
Spring Semester		
EPOD 4100	Studio 3: Capstone in Environmental Products of Design	6
Design Electives [5]		3
Elective		3
	Credit Hours	**12**
	Total Credit Hours	**74**

2 Upper-Division Writing or ENVD 3150

3 Upper-Division Humanities (3000/4000-level courses); Upper-Division Social Science (3000/4000-level courses)

4 Application (https://cuboulder.qualtrics.com/jfe/form/SV_3myQkpi3QMKLwqN/) for professional development requirement

5 ENVD Elective list

6 Students can enroll in an additional 3100 studio in their major to fulfill the elective studio requirement. Please meet with your advisor to address course options.

Learning Outcomes

By the completion of the program, students will be able to:

- Use creative, critical and convergent thinking to address social and environmental issues, analyzing the need for and impact of design solutions by examining precedents, applying theoretical knowledge, conducting research and using problem-defining techniques.
- Develop conceptual or material solutions to socio-environmental issues through iterative design processes, synthesizing critical feedback and collaborative findings with peers and communities they engage with.
- Employ graphic, verbal, written, spatial and other communication strategies to organize, demonstrate and effectively argue for their design concepts and proposals.

- Apply principles of social and environmental justice in their work. They will prioritize design stewardship and sustainability to ensure the health, safety and welfare of all project constituents.
- Demonstrate foundational technical skills and apply methodologies essential for entering academic and professional disciplines in environmental design.

Landscape Architecture - Bachelor of Environmental Design (BEnvD)

The landscape architecture major teaches students to design environments in urban, rural and agricultural contexts at all scales. Students learn strategies to repair and strengthen ecological systems, create and restore habitats, manage storm water, express cultural values, and support human health and well-being. This major encourages students to explore the cultural value of landscapes, to redefine how landscape architects can transform the urban fabric, and to design resilient, climate-responsive projects.

Required Courses and Credits

The curriculum for the Bachelor of Environmental Design (BEnvD) is subdivided into two parts:

1. The first part consists of a core lasting one-and-a-half years which provides a balanced introduction to each of the majors offered. By the end of the core studies, students select or confirm their intended major.

2. The second part is focused on a selected major. Studies lead to the degree Bachelor of Environmental Design (BEnvD) with a major in either environmental products of design, architecture, landscape architecture and sustainable planning and urban design. Each area has specific requirements for completing the major.

Credit Hours

Students must complete a minimum of 120 credit hours subject to the maximum outlined in this catalog, meet all specified university general education requirements, all major core requirements and maintain a GPA of 2.00 or better. Students must complete courses with a grade of C- or better to fulfill university and degree requirements.

Students in the Department in Environmental Design are required to complete coursework meeting General Education requirements; each major may have differing totals. Students who take approved CU Boulder coursework to fulfill their General Education requirements must take those courses for a letter grade and receive a grade of C- or higher. Students may not use thesis hours, independent study, internship or practicum courses to fill any of the General Education requirements. 4 ENVD Elective List

[5] Students can enroll in an **additional** 3100 studio in their major to fulfill the elective studio requirement. Please meet with your advisor to address course options.

Learning Outcomes

By the completion of the program, students will be able to:

- Use creative, critical and convergent thinking to address social and environmental issues, analyzing the need for and impact of design solutions by examining precedents, applying theoretical knowledge, conducting research and using problem-defining techniques.
- Develop conceptual or material solutions to socio-environmental issues through iterative design processes, synthesizing critical feedback and collaborative findings with peers and communities they engage with.
- Employ graphic, verbal, written, spatial and other communication strategies to organize, demonstrate and effectively argue for their design concepts and proposals.
- Apply principles of social and environmental justice in their work. They will prioritize design stewardship and sustainability to ensure the health, safety and welfare of all project constituents.
- Demonstrate foundational technical skills and apply methodologies essential for entering academic and professional disciplines in environmental design.

Sustainable Planning and Urban Design - Bachelor of Environmental Design (BEnvD)

The sustainable planning and urban design major examines issues of sustainability and social justice in communities, cities and regions around the world. Heavily centered around community engagement, this major allows students to focus on a variety of topics, such as housing, environmental planning, transportation planning and urban design. Students examine these topics through a combination of design, policy and management perspectives.

Required Courses and Credits

The curriculum for the Bachelor of Environmental Design (BEnvD) is subdivided into two parts:

1. The first part consists of a core lasting one-and-a-half years which provides a balanced introduction to each of the majors offered. By the end of the core studies, students select or confirm their intended major.

2. The second part is focused on a selected major. Studies lead to the degree Bachelor of Environmental Design (BEnvD) with a major in either environmental products of design, architecture, landscape architecture and sustainable planning and urban design. Each area has specific requirements for completing the major.

Credit Hours

Students must complete a minimum of 120 credit hours subject to the maximum outlined in this catalog, meet all specified university general education requirements, all major core requirements and maintain a GPA of 2.00 or better. Students must complete courses with a grade of C- or better to fulfill university and degree requirements.

Students in the Department in Environmental Design are required to complete coursework meeting General Education requirements; each major may have differing totals. Students who take approved CU Boulder coursework to fulfill their General Education requirements must take those courses for a letter grade and receive a grade of C- or higher. Students may not use thesis hours, independent study, internship or practicum courses to fill any of the General Education requirements. All courses approved to fulfill specific General Education requirements are identified as such in this catalog and are searchable in CU Boulder Class Search.

PLAN 3102	Strategies and Techniques for Sustainable Planning and Urban Design	3
Upper Division Writing requirement or ENVD 3150 [3]		3
Design Elective [1]		3
	Credit Hours	**15**

Fourth Year

Fall Semester		
Elective Studio (choose one: ENVD 3100*, PLAN 3100 or an approved Design study abroad) [2]		6
PLAN 4101	Sustainable Futures Planning	3
Upper-Division Arts and Humanities or Social Science requirement [5]		3

Design Elective [1]		3
	Credit Hours	**15**
Spring Semester		
PLAN 4100	Capstone in Sustainable Planning and Urban Design	6
Design Electives [1]		3
Elective		6
	Credit Hours	**15**
	Total Credit Hours	**75**

1. Design electives.
2. Students can enroll in an **additional** 3100 studio in their major to fulfill the elective studio requirement. Students should meet with their advisor to address course options.
3. Upper-Division Writing or ENVD 3150.
4. Application (https://cuboulder.qualtrics.com/jfe/form/SV_3myQkpi3QMKLwqN/) for professional development requirement.
5. Upper-Division Humanities (3000/4000-level courses); Upper-Division Social Science (3000/4000-level courses).

Learning Outcomes

By the completion of the program, students will be able to:

- Use creative, critical and convergent thinking to address social and environmental issues, analyzing the need for and impact of design solutions by examining precedents, applying theoretical knowledge, conducting research and using problem-defining techniques.
- Develop conceptual or material solutions to socio-environmental issues through iterative design processes, synthesizing critical feedback and collaborative findings with peers and communities they engage with.
- Employ graphic, verbal, written, spatial and other communication strategies to organize, demonstrate and effectively argue for their design concepts and proposals.
- Apply principles of social and environmental justice in their work. They will prioritize design stewardship and sustainability to ensure the health, safety and welfare of all project constituents.
- Demonstrate foundational technical skills and apply methodologies essential for entering academic and professional disciplines in environmental design.

Environmental Planning - Minor

Environmental planning represents interdisciplinary practices that direct decision making for urban planning, urban design, land development and natural resource conservation challenges. Implicit in environmental planning concepts and techniques that professionals in these fields employ are considerations of environmental, social, political and economic factors. Hence, environmental planning applies natural and social sciences to promote environmentally sound growth, effective management of natural resources, and strategies of urban development to offer frameworks for achieving sustainability. To address these goals, environmental planning might enlist the traditional skills of landscape architects and urban planners, such as physical planning and site design, to inspire more creative and ecologically informed plans and help mitigate the detrimental effects of development.

The Environmental Planning Minor provides non-ENVD students experiences with the process, technical skills and professional practice of planning. Students learn to use planning-based software applications, the theoretical and conceptual dimensions of planning and take a six-credit planning studio as a capstone of the experience. The minor is directed at students seeking to employ interdisciplinarity into their major using the tools of planning and landscape architecture. The program may also contribute to the education of students considering graduate study in planning, urban design, architecture and landscape architecture. The curriculum of the minor requires courses in history and theory, technology, a capstone studio and two electives that may include any ENVD course not otherwise applied to the program requirements.

Requirements

Required Courses and Credits

Code	Title	Credit Hours
Theory and History Requirement		**3**
Choose one:		
PLAN 2004	History and Theory of Sustainable Planning and Urban Design	
LAND 2004	History of Landscape Architecture	
LAND 4114	Landscape Architecture Theory	
ARCH 3114	History and Theory of Architecture 1	
Technology Requirement		**3-4**
Choose one:		
GEOG 3053	Geographic Information Science: Mapping	
GEOG 4603	GIS in the Social and Natural Sciences	
ENVD 3052	Digital Tools for LAND/PLAN	
Electives		**6**
Choose two ENVD courses that are not contributing to a program requirement.		
Planning Capstone Studio		**6**
Choose one:		
PLAN 4100	Capstone in Sustainable Planning and Urban Design	
Total Credit Hours		**18-19**

Information Science

Undergraduate students majoring in information science will explore the intersection of human values and the information technologies that influence everyday life. Students will synthesize knowledge and skills integrating design, computation and data analysis. Students will investigate, understand and engage contemporary issues around our increasingly digitized life. Topics include communicating with data, design, quantitative and qualitative data collection, and analysis, how culture and history shape technology, ethics, and technology for social good. This project-centered major prepares students with a professional portfolio and project experience for in-demand careers.

Course code for this program is INFO.

Bachelor's Degree

- Information Science - Bachelor of Science (BS) (p. 752)

Minors

- Data Science - Minor (p. 754)
- Information Science - Minor (p. 755)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Barker, Lecia Jane (https://experts.colorado.edu/display/fisid_101367/)
Associate Professor; PhD, University of Colorado Boulder

Brubaker, Jed Richards (https://experts.colorado.edu/display/fisid_156193/)
Assistant Professor; PhD, University of California, Irvine

Burke, Robin D. (https://experts.colorado.edu/display/fisid_165005/)
Chair, Professor; PhD, Northwestern University

Carruth, Christopher (https://experts.colorado.edu/display/fisid_153706/)
Instructor; MS, University of Colorado Boulder

Devendorf, Laura (https://experts.colorado.edu/display/fisid_158564/)
Assistant Professor; PhD, University of California, Berkeley

Fiesler, Casey Lynn (https://experts.colorado.edu/display/fisid_155950/)
Assistant Professor, Associate Chair; PhD, Georgia Institute of Technology

Iyasele, Abel
Teaching Assistant Professor; MBA, University of Dundee (UK)

Keegan, Brian (https://experts.colorado.edu/display/fisid_158122/)
Assistant Professor; PhD, Northwestern University

Palen, Leysia A. (https://experts.colorado.edu/display/fisid_114604/)
Professor; PhD, University of California, Irvine

Roque, Ricarose (https://experts.colorado.edu/display/fisid_158315/)
Assistant Professor; PhD, Massachusetts Institute of Technology

Voida, Amy Kathryn Mitchell (https://experts.colorado.edu/display/fisid_155855/)
Associate Professor; PhD, Georgia Institute of Technology

Voida, Stephen A. (https://experts.colorado.edu/display/fisid_155856/)
Assistant Professor; PhD, Georgia Institute of Technology

Courses

INFO 1101 (3) Computation in Society
Introduces students to modern information and communication technology, the basic principles of software and programming, the fundamental role of algorithms in modern society, computational reasoning, the major organizations in the information sector and fundamental interactions between humans and information technology. Appropriate for students with limited prior experience with computing. Fulfills the CMDI computing requirement.
Grading Basis: Letter Grade

INFO 1111 (4) Introduction to Information Science: Understanding the World Through Data
Provides a hands-on survey of key concepts and theories in Information Science, including the nature of information, everyday experience of data, technologies that generate data, and how data are conveyed and represented. Students will critically examine texts, systems, and interpretations of data from multidisciplinary perspectives. Through design explorations, activities, and group projects, students will develop facility representing and transforming information.
Grading Basis: Letter Grade

INFO 1121 (4) Designing Interactions
Provides an introduction to human-centered design and the universal requirements of interactions with data, information and technologies. Studio experiences challenge students to consider the impact that information and computing technology design choices have on a) enabling diverse audiences to access, manipulate and experience information, and b) how differences get encoded by data and technology, ultimately reflecting biases.
Grading Basis: Letter Grade

INFO 1201 (4) Computational Reasoning
Introduces principles of computational thinking through the manipulation, transformation, and creation of media artifacts, such as images, sounds, and web pages. Students will be exposed to a high-level overview of algorithms, functions, data structures, recursion, and object-oriented computer programming through a series of assignments that emphasize the use of computation as a means of creative expression.

INFO 1301 (3) Statistics for Information Science
Introduces concepts and techniques for characterizing and quantifying data. Students will learn to summarize, visualize, and interpret data with descriptive statistics and will learn the foundations of statistical inference and modeling. Topics include statistical distributions and the normal distribution, hypothesis testing and statistical significance, and linear regression.
Grading Basis: Letter Grade

INFO 1701 (4) Programming for Information Science 1
Introduces principles of programming for information and data science using the Python programming language. Students will learn to understand, modify and create Python programs and will learn about programmatic techniques for exploring, discovering, and communicating information contained within various data sources.
Equivalent - Duplicate Degree Credit Not Granted: LING 1200 or CSCI 1200

INFO 2001 (1) Information Science Portfolio and Professional Development
Facilitates career development through the disciplined reflection about and presentation of one's work using a variety of modalities across a variety of media. Students will be introduced to individuals and organizations representing a diversity of career paths in information science.
Requisites: Restricted to Information Science (INFO) majors and minors.
Grading Basis: Letter Grade

INFO 2131 (3) Information Ecosystems
Introduces students to techniques for working with communities, organizations, and institutions in the transformative use of information. Develops students' ability to listen for (and mediate among) diverse, discordant voices and values. Employs qualitative research, design explorations, activities, and small group projects as students examine, navigate, and design for complex interactions across ecosystems.
Grading Basis: Letter Grade

INFO 2201 (4) Programming for Information Science 2
Surveys techniques for accessing, exploring, and analyzing real-world data in various formats. Students will acquire, process, and visualize this data in order to communicate their findings to a general audience. Requires demonstrated proficiency with introductory computer programming.
Requisites: Requires prerequisite course of INFO 1701 or CSCI 1300 or CSCI 1200 or LING 1200 or ATLS 1300 or APPM 1650 (minimum grade C-).

INFO 2301 (3) Quantitative Reasoning for Information Science
Introduces methods for quantifying and analyzing different types of data, covering foundational concepts in discrete mathematics, probability, and predictive modeling, along with complementary computational skills to apply these concepts to real problems. Covers counting and combinatorics, logic, set theory, introductory probability, common probability distributions, regression, and model validation. Requires demonstrated proficiency with introductory computer programming.
Requisites: Requires prerequisite course of INFO 1701 or CSCI 1200 or CSCI 1300 or LING 1200 or ATLS 1300 (all minimum grade C-).
Grading Basis: Letter Grade

INFO 3101 (3) History of Computing and Information
Focusing on two topics: the changing role of information in everyday life over time and the increasing role of information in disciplinary studies such as social science, engineering, computer science, mathematics, digital humanities. Examines information related academic disciplines, businesses, industries and technologies from multiple perspectives from the 17th century to the present.
Equivalent - Duplicate Degree Credit Not Granted: MDST 3101

INFO 3401 (3) Information Exploration
Teaches students how to use information to identify interesting real world problems and to generate insight. Students will learn to find, collect, assemble and organize data to inspire new questions, make predictions, generate deliverables, and work towards solutions. They will learn to appropriately apply different methods (including computational, statistical and qualitative) for exploratory data analysis in a variety of domains.
Requisites: Requires prerequisite course of INFO 2201 and any one of INFO 2301, GEOG 4023, PSCI 3075, PSYC 3111 or SOCY 3201 (all minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 3402 (3) Information Exposition
Teaches students to communicate information to a wider audience and construct stories with data across a variety of domains. Students will learn to use data for rhetorical purposes, applying visual, statistical and interpretative methods. Students will learn to think critically about ethical and social implications of using data in expository media, including identification of bias.
Requisites: Requires prerequisite course of INFO 2201 and any one of INFO 2301, GEOG 4023, PSCI 3075, PSYC 3111 or SOCY 3201 (all minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

INFO 3501 (3) Open Collaboration
Analyzes the mechanisms of peer production and crowdsourcing systems like Wikipedia and OpenStreetMap. Students will investigate how these crowdsourced platforms work socially and technically, develop skills using tools for their analysis and critically evaluate platform and community limitations.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5501
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 3502 (3) Online Communities
Explores practical and theoretical topics in online communities through inquiry into one or more particular online communities. Student projects will explore online communities as social and technical systems, including their alignment with conceptualizations of community, expressed and apparent interests, nature of membership and participation, history, participants' motivations for involvement, and explicit, implicit, and infrastructural features that enable and constrain behaviors.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5502
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 3503 (3) Everyday Information Behavior
Familiarizes students with practical and theoretical topics in the discipline of information behavior and its application to everyday events, activities and environments. Explores the information dimension of various everyday activities such as buying a car, playing a game or looking up health information online. Students learn to analyze the informational dimensions that occur in their everyday lives.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5503
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 3504 (3) Digital Identity
Explores and analyzes identity in a digital era. Through applied research, students investigate both social and technical aspects of how identity is captured, represented and experienced through technology using theoretical, empirical and design-based inquiry. Methods and platforms studied vary by semester.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5504
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 3505 (3) Designing for Creative Learning
Analyzes learning technologies, discusses learning theories and develops prototypes to investigate strategies for engaging people in creative and inclusive learning experiences. Students explore design, learning and technology by examining sociotechnical systems like construction kits, online communities and makerspaces with a critical lens on equity and inclusion. Studio format enables students to apply constructionist ideas into the design of technology-enabled environments.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5505
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 3506 (3) Online Fandom
Explores and analyzes fan communities in a digital context. Through applied research, students will investigate online spaces devoted to participatory and remix culture, media fandom, and fan creation. This class will draw concepts and methods from fan studies, social computing, ethnography, data science, and sociology to drive project-based inquiry.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5506
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 3507 (3) Foundations and Futures in Digital Humanities
Explore foundational methods and major movements in digital humanities. This course discusses the impact of digitization on humanist inquiry and introduces students to techniques for analyzing digital data across literature, history, and art. Emphasizes key methodologies, technical practices, and the creation of media artifacts. Familiarity with foundational programming concepts is recommended. Degree credit not granted for both this course and INFO 5507.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 3508 (3) Personal Information Management
Explores and analyzes personal information management: the organization of our digital "stuff", including course assignments, internship documents, files shared with others via the cloud, social media posts, step counts captured by smartwatches, and location traces collected by phones. In this course, students will participate in a semester-long design research project exploring ways to re-imagine how technology handles our digital stuff.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 3509 (3) Personal Health Informatics
Surveys the theoretical and practical foundations for the design of patient-centered health and wellness technologies. Students will conduct an in-depth exploration of the multidisciplinary research literature informing the design of these systems, participate in discussions about the practical information management and interaction design challenges that must be addressed in their implementation, and demonstrate their learning through a variety of research study- and system-design activities. Formerly offered as a special topics course.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5509
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 3510 (3) Music as Information
Music is universal throughout all of society. This class will utilize the Python programming language to explore information that is inherent in and generated by music. Topics will cover various types of information related to music itself as well as the production of music which may include topics such as consumer-related music data, music recommender systems, sonification, and brain-music interfaces.
Requisites: Requires prerequisite course of INFO 2201 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) only.

INFO 3702 (3) Cognitive Science
Introduces cognitive science, drawing from psychology, philosophy, artificial intelligence, neuroscience, and linguistics. Studies the linguistic relativity hypothesis, consciousness, categorization, linguistic rules, the mind-body problem, nature versus nurture, conceptual structure and metaphor, logic/problem solving and judgment. Emphasizes the nature, implications and limitations of the computational model of mind.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 3702 and LING 3005 and PHIL 3310 and PSYC 3005 and SLHS 3003 and CSPB 3702
Requisites: Restricted to INFO majors with 57-180 credits.

INFO 3901 (3) Digital Legacy Clinic
Gain hands-on experience running CU¿s Digital Legacy Clinic, supporting end-of-life planning and digital affairs management. Students will learn to establish a startup, collaborate effectively, and solve common startup challenges. Through team-based work, students will gain practical skills in service design, collaboration, technical research, and client support.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to students with minimum of 90 credit hours taken (Seniors) and Information Science (INFO) majors.
Grading Basis: Letter Grade

INFO 4001 (1) Information Science Portfolio and Professional Development
Facilitates career development through the disciplined reflection about and presentation of one's work using a variety of modalities across a variety of media. Students will be introduced to individuals and organizations representing a diversity of career paths in information science.
Requisites: Requires prerequisite course of INFO 2001 (minimum grade C-). Restricted to Information Science (INFO) majors and minors.
Grading Basis: Letter Grade

INFO 4601 (3) Information Ethics and Policy
Explores ethical and legal complexities of information and communication technology. By combining real-world inquiry with creative speculation, students will probe everyday ethical dilemmas they face as digital consumers, creators and coders, as well as relevant policy. Explores themes such as privacy, intellectual property, social justice, free speech, artificial intelligence, social media and ethical lessons from science fiction.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5601
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 4602 (3) Information Visualization
Explores the design, development and evaluation of information visualizations. Covers visual representations of data and provides hands-on experience with using and building exploratory tools and data narratives. Students create visualizations for a variety of domains and applications, working with stakeholders and their data. Covers interactive systems, user-centered and graphic design, perception, data storytelling and analysis, and insight generation. Programming knowledge is strongly encouraged.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5602
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 4603 (3) Survey Research Design
Familiarizes students with practical and theoretical topics in using survey methods for conducting information science research. Through discussion and real world assignments, students will learn when and why to use surveys for collecting data; effective, efficient and ethical approaches to maximizing response; sampling issues; development of valid items and scales; and how to implement, analyze and report on survey data collection.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5603
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 4604 (3) Applied Machine Learning
Introduces algorithms and tools for building intelligent computational systems. Methods will be surveyed for classification, regression and clustering in the context of applications such as document filtering and image recognition. Students will learn the theoretical underpinnings of common algorithms (drawing from mathematical disciplines including statistics and optimization) as well as the skills to apply machine learning in practice.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5604
Requisites: Requires prerequisite courses of INFO 2201 or INFO 2301 or CSCI 2270 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior).
Grading Basis: Letter Grade

INFO 4605 (3) Ethnographic Research in Applied Settings
Demonstrates the power of ethnography as an investigative approach that is useful in design, evaluation and question formation for information scientists across all workforce sectors. Teaches students how to be keen observers of the unusual as well as the everyday to reveal meaningful insights that elaborate information science projects.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5605
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 4606 (3) Critical Technical Practice
Surveys design theory and methods that can be used to question relationships between technology, culture, and the environment. Students will discuss readings and synthesize those readings through design exercises. The course will equip students with resources for thinking more critically and creatively about design and possible future human-technology relationships.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5606, ATLS 4606, and ATLS 5606
Grading Basis: Letter Grade

INFO 4607 (3) Software Engineering for Data-Centered Systems
Explores design and engineering of systems for data storage and analysis. Introduces fundamental development concepts used in real-world data systems. By combining software engineering with knowledge from data science and human-centered computing, prepares students to develop systems, interpret and modify codebases, understand modern concepts for managing data at scale, and work in teams to create cutting-edge applications for consumer use.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5607
Requisites: Requires prerequisites of INFO 2201 or CSCI 2270 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior)
Grading Basis: Letter Grade

INFO 4608 (3) Community-Based Design
Surveys techniques in cooperative design with community members as collaborators rather than subjects. Students will explore approaches such as participatory design and co-design. Students will work in teams in partnership with community stakeholders to create tools, experiences, or systems that meet the needs of communities, contribute to social change, and/or lead to advancing academic knowledge.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5608
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 4609 (3) User-Centered Design
Surveys the theoretical and practical foundations of human-computer interaction and user-centered design. Students learn theories of interaction (including cognitive, organizational, collaborative, and task-based approaches), user interface design techniques, design guidelines, and usability testing in the context of developing technology. Course content is explored through a variety of interfaces (desktop, mobile, touch, vision, audio, etc.) and contexts (personal, organizational, cross-cultural, etc.).
Equivalent - Duplicate Degree Credit Not Granted: INFO 5609
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 4611 (3) Ubiquitous Computing Experience Design
Introduces the field of ubiquitous computing, including sensors, ambient displays, tangibles, mobility, location awareness and context awareness. These topics are explored from a user-centered design perspectives, focusing on how a situated models of computing affect requirements gathering, interaction design, prototyping and evaluation. Students gain mastery with contemporary "UbiComp" technologies and learn to incorporate them into a user-centered design process.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5611
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 4613 (3) Network Science
Introduces theories and methods for analyzing relational data in social, information, and other complex networks. Students will understand the processes and theories explaining network structure and dynamics as well as develop skills analyzing and visualizing real-world network data. No math or statistics training required, but course will assume familiarity with Python.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5613
Requisites: Requires prerequisite course of INFO 3402 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 4614 (3) Information and Data Retrieval Systems
Examines techniques for managing and accessing information and data of a variety of types for a range of applications. Students will study retrieval models for text and for structured and unstructured data, covering creation, management and querying techniques for each, and how to apply each model in data-intensive applications. Students will also consider ethical aspects of data management including data protection, data rights and user privacy.
Requisites: Requires prerequisite course of INFO 2201 (minimum grade C-).

INFO 4615 (3) Fair Machine Learning
Equips students with the foundational knowledge needed to understand fairness in machine learning from an interdisciplinary perspective and the essential skills necessary to address fairness challenges in practice. Provides an overview of core concepts concerning fair machine learning, from defining fairness to the measurement and mitigation of fairness-related harms. Proficiency in Python programming and prior coursework in machine learning required.
Grading Basis: Letter Grade

INFO 4617 (3) Web Data Science
The internet makes many kinds of information easy to access. The ability to retrieve, parse, and analyze this information is a valuable skill for data scientists. This course will provide an overview of computational tools and practices for transforming web documents and APIs into data for common research designs.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 4620 (3) Race and Technology
This course is designed with the understanding that race and racial inequality have been central to how societies and societal systems of power have been shaped and reshaped over time. Students will critically examine how race is created by and through sociotechnical systems. Students will explore how the design, implementation, and use of digital platforms and their data continue to perpetuate and embody white, cisgender, heteronormative systems of power. This course will cover a wide range of foundational and emergent scholarship¿giving voice to Scholars of Color¿providing students with a foundation through which they can continue to critique and explore sociotechnical and other societal arrangements more broadly.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5620
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

INFO 4651 (3) Fundamental Concepts in Data Science
This intensive course provides a general understanding of the mathematical concepts required for success in data science. This course will cover a wide range of mathematical tools in data science including an overview of calculus and linear algebra along with selected topics from numerical analysis. The course will also explore computational implementations of these ideas. This course provides a bridge for students without these advanced math concepts to learn to apply them within a data science career or within a graduate program in data science.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5651
Requisites: Requires prerequisite course of INFO 1301 or ANTH 4000 or GEOG 3023 or PSCI 2075 or PSYC 2111 or SOCY 2061 (minimum grade C-). Restricted to juniors and seniors.

INFO 4652 (3) Statistical Programming in R
This intensive course covers foundational data science tools and techniques in the R programming language, including acquiring, cleaning, exploring, and analyzing data, programming, and conducting reproducible research. The course will emphasize the use of data management best practices such as the tidyverse toolkit in R.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5652
Requisites: Requires prerequisite course of INFO 1301 or ANTH 4000 or GEOG 3023 or PSCI 2075 or PSYC 2111 or SOCY 2061 (minimum grade C-). Restricted to juniors and seniors.

INFO 4700 (3) Senior Capstone
Provides senior level INFO students an opportunity to demonstrate the culmination of their learning in the major by designing and implementing a significant information system or developing a research question, typically in response to a problem of personal interest related to or informed by their secondary area of specialization. Reinforces project planning, public presentation and ethic skills.
Requisites: Restricted to Information Science (INFO) majors only with a minimum of 90 hours.
Grading Basis: Letter Grade

INFO 4747 (4) Defamiliarizing Data: The Ethnography and Design of Making Data Strange
Introduces students to the design and use of data in an unfamiliar, international context. Develops students¿ ethnographic and design skills for defamiliarizing data¿seeing, characterizing, and designing for data in ways that render it as unfamiliar and strange in order to gain new perspectives and insights about those data and the contexts in which they are produced and consumed. This course includes international travel.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5747

INFO 4800 (1-3) Leadership Practicum in Information Science
Equips students for taking on leadership roles in the interdisciplinary context of information science. Students will learn to facilitate learning among students with diverse backgrounds and expertise, developing communication and mentoring skills and gaining exposure to a variety of learner-centered design strategies and pedagogical approaches. Enrollment is by invitation and at the discretion of the instructor.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Information Science (INFO) majors only.
Grading Basis: Letter Grade

INFO 4841 (1-6) Undergraduate Independent Study
Involves in-depth independent research and/or project work completed under the direction of a faculty member that demonstrates learning at the upper-division level within the discipline. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Information Science (INFO) majors only.
Grading Basis: Letter Grade

INFO 4871 (1-4) Special Topics
Special topics.
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

INFO 4900 (1-6) Research Experience in Information Science
Provides research experience in information science. Students will contribute to the construction of new knowledge, helping to answer current research questions or to solve contemporary problems in the domain. Enrollment is by invitation and discretion of the advising faculty member.
Repeatable: Repeatable for up to 12.00 total credit hours.
Grading Basis: Letter Grade

INFO 4950 (1-6) Honors Thesis
Involves the preparation and oral defense of an honors thesis, based on faculty-supervised original research, including final phases of the research project. Students receive guidance on research, the process of thesis writing, presentation of research results, and thesis defense. Thesis requirements and the role of the CMDI Honors Council will be discussed. Honors students share written, visual, and oral drafts for peer and faculty feedback and offer feedback to their peers.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 55-180 credits (Juniors or Seniors) and Information Science majors only.
Grading Basis: Letter Grade

Information Science - Bachelor of Science (BS)

Undergraduate students majoring in information science will explore the intersection of human values and the information technologies that influence everyday life. Students will synthesize knowledge and skills integrating design, computation and data analysis. Students will investigate, understand and engage contemporary issues around our increasingly digitized life. Topics include communicating with data, design, quantitative and qualitative data collection and analysis, how culture and history shape technology, ethics and technology for social good. This project-centered major prepares students with a professional portfolio and project experience for in-demand careers.

Requirements

Program Requirements

The BS in information science requires 51 credit hours within the major. Students will also complete the CMDI Core as part of their general education. A secondary area of study, which is also part of the CMDI Core, will be used to synthesize knowledge of information science with an application domain.

Foundations

Code	Title	Credit Hours
INFO 1111	Introduction to Information Science: Understanding the World Through Data	4
INFO 1121	Designing Interactions	4
INFO 1301	Statistics for Information Science	3
INFO 1701	Programming for Information Science 1	4
INFO 2131	Information Ecosystems	3
INFO 2201	Programming for Information Science 2	4
INFO 2301	Quantitative Reasoning for Information Science	3
Total Credit Hours		**25**

Information Exploration & Exposition Series

Information science students will take both Information Exploration and Information Exposition.

Code	Title	Credit Hours
INFO 3401	Information Exploration	3
INFO 3402	Information Exposition	3
Total Credit Hours		**6**

Portfolio & Professional Development and Capstone Series

The Department of Information Science values project-based learning, team-based learning, the development of good professional practice and the development of specializations at the undergraduate level. The Portfolio & Professional Development as well as the Capstone courses are a critical part of cohort-building in the major, and are designed to create a community of learners who are prepared to tackle ambitious projects together, individually and in preparation for internship and post-baccalaureate opportunities.

Code	Title	Credit Hours
INFO 2001	Information Science Portfolio and Professional Development	1
INFO 4001	Information Science Portfolio and Professional Development	1
Total Credit Hours		**2**

Facilitates development of careers in Information Science through the disciplined reflection about and presentation of one's work using a variety of modalities across a variety of media. Students will be introduced to individuals and organizations representing a diversity of career paths in Information Science.

Senior Capstone

The Senior Capstone (INFO 4700) provides senior-level information science students an opportunity to demonstrate the culmination of their learning in the major by designing and implementing a significant information system or developing a research question, typically in response to a problem of personal interest related to or informed by their secondary area of study. The course reinforces project planning, public presentation, collaboration and professional ethics skills.

Total Credit Hours: 3

Upper-division Electives in Information Science

Information science students will take a total of 5 upper division elective courses numbered from 3500 to 4999. These courses fall into two general categories, investigations and mastery.

In investigations courses, students deeply engage in specific domains, applying the skills they have learned in the foundation courses through instructor-guided projects. Examples of investigations courses include: Digital Identity, Designing for Creativity and Learning, Data and the Humanities and Online Community.

Mastery courses offer deep dives into theory and methods in different areas of information science. Examples of mastery topics include: Applied Machine Learning, Ethnography, Survey Research Design, Information Visualization, Ubiquitous Computer Experience Design, and Ethical and Policy Dimensions of Information.

Elective courses offered in any given semester will vary. These may include:

Code	Title	Credit Hours
INFO 3502	Online Communities	3
INFO 3501	Open Collaboration	3
INFO 3504	Digital Identity	3
INFO 3505	Designing for Creative Learning	3
INFO 3506	Online Fandom	3

INFO 3507	Foundations and Futures in Digital Humanities	3
INFO 3508	Personal Information Management	3
INFO 3509	Personal Health Informatics	3
INFO 3510	Music as Information	3
INFO 3702	Cognitive Science	3
INFO 4601	Information Ethics and Policy	3
INFO 4602	Information Visualization	3
INFO 4603	Survey Research Design	3
INFO 4604	Applied Machine Learning	3
INFO 4605	Ethnographic Research in Applied Settings	3
INFO 4606	Critical Technical Practice	3
INFO 4608	Community-Based Design	3
INFO 4609	User-Centered Design	3
INFO 4611	Ubiquitous Computing Experience Design	3
INFO 4612	Recommender Systems	3
INFO 4613	Network Science	3
INFO 4614	Information and Data Retrieval Systems	3
INFO 4620	Race and Technology	3
INFO 4651	Fundamental Concepts in Data Science	3
INFO 4652	Statistical Programming in R	3
INFO 4747	Defamiliarizing Data: The Ethnography and Design of Making Data Strange	4
INFO 4871	Special Topics	3

Students in the Honor's Program may use 2–3 credit hours of Honor's Independent Study as an upper division elective.

Total Credit Hours: 15

Secondary Area of Study

In addition to the coursework required for the major, all students in INFO must complete a secondary area of study outside of INFO. This can be met by any of the following: a minor, a second major within CMDI, a double degree or a credit-based certificate program of at least 12 credit hours offered by a department in any school or college at CU. Information science majors may not receive an information science minor nor a data science minor.

Students are encouraged to select one of the programs of study described above, since these have been officially approved by experts who can either provide a formal certificate or list the minor on a student's official transcript upon graduation. In exceptional circumstances, however, students may apply to complete an individualized secondary area of study equal to or greater than 18 credit hours. Application for an individualized secondary area of study must be submitted and approved before the student has earned 50 credit hours.

Sample Four-Year Plan of Study

Year One		
Fall Semester		**Credit Hours**
CMCI 1040 Foundational Concepts and Creativity in Media, Communication and Information (4) or CMDI Core or Elective (3)		4

2 Natural World

3 Natural World with Lab

Learning Outcomes

By the completion of the program, students will be able to:

- Design, prototype and analyze information artifacts.
- Identify and implement multiple methods for data collection and analysis, from small data to big data, from quantitative to qualitative.
- Write computer programs to answer questions and generate interactive artifacts.
- Understand and be able to apply methods for generating insights from data.
- Accurately and persuasively communicate information to different audiences.
- Understand and evaluate social contexts and ethical implications of information technologies.
- Identify biases in technologies and understand their ethical ramifications.

Bachelor's–Accelerated Master's Degree Program(s)

The bachelor's–accelerated master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first but begin taking graduate coursework as undergraduates (typically in their senior year).

Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

BS and MS in Information Science

The BAM program in information science has been created in recognition of the increasing demand for master's-level training and research skills.

Admissions Requirements

In order to gain admission to the BAM program named above, a student must:

- Fill out the intent form, around the junior year, for admission to the program.
- Have a cumulative GPA of 3.5 or better.
- Have completed MAPS requirements (students admitted to CU Boulder prior to Summer 2023 only).
- Submit a resume or CV.
- Provide two letters of recommendation.

Program Requirements

Students may take up to and including 12 credit hours while in the undergraduate program which can later be used toward master's degree requirements. Six credits may be double counted toward both the bachelor's degree and master's degree, effectively shortening the expected time to completion for the master's degree from three semesters to two. Graduate courses will not be counted as satisfying program requirements unless a grade of B or higher is earned. Double-counted courses may not be used toward a subsequent doctoral program (or additional master's program) at CU Boulder.

- Students must maintain a 3.0 cumulative GPA at all times in the program.
- Students must apply to graduate at the beginning of the semester in which they will complete the bachelor's degree requirements.
- Students must apply to continue with the master's degree program.
- Students will be matriculated into the master's program without further program review.
- Students must maintain a cumulative 3.0 GPA while in the master's program, including in the courses being used toward the master's degree.

Data Science - Minor

Data science is a multidisciplinary field that uses scientific methods, processes, algorithms and systems to extract knowledge and insights from structured and unstructured data.

This minor provides students with an introduction to the core concepts and skills of data science in computing, statistics and information science to complement existing majors in CMDI fields, in the social sciences and in the arts and humanities.

The program is specifically designed as an add-on to existing quantitative methods courses and sequences in the social sciences. Students in such degree programs who wish to add data science experience and credentials to their course of study can complete the minor without additional course prerequisites. For this reason, some aspects of the curriculum (particularly the quantitative methods area) are quite flexible, allowing students to acquire this background through subject-specific study in a variety of disciplines.

Required Courses and Credits

The minor is divided into three areas: computing, quantitative methods, and electives. Computing courses cover basic programming and data structures with an emphasis on the Python programming language. Because of the variation in credit hours associated with quantitative methods courses, the total hours for the minor vary between 19–22. Students may apply no more than six credit hours of transfer work, including three hours of upper-division credit.

Information Science majors may not receive an Information Science minor nor a Data Science minor. Students may not receive both the Information Science minor and the Data Science minor.

All coursework applied to the minor must be completed with a grade of C- or better (no pass/fail work may be applied). The GPA for all coursework attempted in the minor department must be equal to 2.00 (C) or higher.

Aside from course prerequisites for the courses listed below, there are no other prerequisites for the minor.

Code	Title	Credit Hours
Computing		
Computing 1:		*3-4*
Choose one from the following list:		
ATLS 1300	Computational Foundations 1	
CSCI 1200	Introduction to Computational Thinking	
CSCI 1300	Computer Science 1: Starting Computing	
GEOG 4303	Geographic Information Science: Spatial Programming	
INFO 1701	Programming for Information Science 1	
LING 1200	Introduction to Python Programming	
Computing 2:		*4*
INFO 2201	Programming for Information Science 2	
Quantitative Reasoning		**6-8**
Choose a two-course sequence from the following options:		
INFO 1301 & INFO 2301	Statistics for Information Science and Quantitative Reasoning for Information Science	
ANTH 4000 & INFO 2301	Quantitative Methods in Anthropology and Quantitative Reasoning for Information Science	
CSCI 3022 & INFO 2301	Introduction to Data Science with Probability and Statistics and Quantitative Reasoning for Information Science	
BCOR 1025 & INFO 2301	Statistical Analysis in Business and Quantitative Reasoning for Information Science	
GEOG 3023 & GEOG 4023	Statistics and Geographic Data and Advanced Quantitative Methods for Spatial Data	
PSCI 2075 & PSCI 3075	Quantitative Research Methods and Applied Political Science Research	
PSYC 2111 & PSYC 3111	Psychological Science I: Statistics and Psychological Science 2: Research Methods in Psychology	
SOCY 2061 & SOCY 3201	Introduction to Social Statistics and Sociological Research Methods	
AHUM 1825 & INFO 2301	Inclusive Interdisciplinary Data Science for All and Quantitative Reasoning for Information Science	
Electives		**6**
Elective coursework in areas related to data science; one of these courses must be in Information Science		
INFO 3401	Information Exploration	
INFO 3402	Information Exposition	
INFO 3507	Foundations and Futures in Digital Humanities	
INFO 3510	Music as Information	
INFO 4601	Information Ethics and Policy	
INFO 4602	Information Visualization	
INFO 4603	Survey Research Design	
INFO 4604	Applied Machine Learning	
INFO 4607	Software Engineering for Data-Centered Systems	
INFO 4614	Information and Data Retrieval Systems	
INFO 4747	Defamiliarizing Data: The Ethnography and Design of Making Data Strange	
AHUM 3106	Introduction to Literary Study with Data S	
ANTH 4745	Science, Technology and Society	
APRD 4300	Strategic Communication Analytics and Metrics	
ENGL 3106	Introduction to Literary Study with Data Science	
ENGL 4106	Literary Study with Data Science	
GEOG 4403	Geographic Information Science: Space Time Analytics	
LING 4632	Machine Learning and Linguistics	
CSCI 4022	Advanced Data Science	
WRTG 3070	Advocating with Data	
INFO 4615	Fair Machine Learning	
Total Credit Hours		**19-22**

Information Science - Minor

All courses in the information science minor are taken in the Department of Information Science. The minor in information science requires one introduction course (4 credits) and one literacies course (3–4 credits), then allows students to personalize by selecting two of any level INFO courses (6–8 credits) and two upper-division INFO courses (6 credits). Courses may not be applied to both the required courses and personalization areas. Courses may be used only in one area.

Information science majors may not receive an information science minor nor a data science minor. Students may not receive both the information science minor and the data science minor.

Requirements

All coursework applied to the minor must be completed with a grade of C- or better (no pass/fail work may be applied). The GPA for all coursework attempted in the minor department must be equal to 2.00 (C) or higher. Students may apply no more than six credit hours of transfer work, including three hours of upper-division credit.

Code	Title	Credit Hours
Required Courses		
Students must choose one Introduction course and one Literacies course and meet any prerequisites.		
Introduction Courses (choose one)		
INFO 1111	Introduction to Information Science: Understanding the World Through Data	4
or INFO 1121	Designing Interactions	
Literacies Courses (choose one)		*3-4*
INFO 1701	Programming for Information Science 1	
or INFO 1101	Computation in Society	
or INFO 1201	Computational Reasoning	
or INFO 2201	Programming for Information Science 2	
Personalization		

Choose four of the following, two of which must be upper division (3000-4000 level) and meet any prerequisites [1]		12-14
INFO 1101	Computation in Society	
INFO 1111	Introduction to Information Science: Understanding the World Through Data	
INFO 1121	Designing Interactions	
INFO 1201	Computational Reasoning	
INFO 1301	Statistics for Information Science	
INFO 2131	Information Ecosystems	
INFO 1701	Programming for Information Science 1	
INFO 2201	Programming for Information Science 2	
INFO 2301	Quantitative Reasoning for Information Science	
INFO 3101	History of Computing and Information	
INFO 3401	Information Exploration	
INFO 3402	Information Exposition	
INFO 3XXX or INFO 4XXX	Any upper-division Information Science elective	
Total Credit Hours		**19-22**

[1] Courses cannot count as both required and personalization. Must meet prerequisites for courses that require them.

Learning Outcomes

By the completion of the program, students will be able to:

- Apply foundational methods for designing, analyzing, implementing and/or critiquing information artifacts.
- Communicate information to diverse audiences.
- Understand key ethical and social implications of information technologies.
- Learn how to apply information science contexts to their primary area of study.

Journalism

The Department of Journalism is founded on the principle that a well-informed and engaged public is essential to democracy—perhaps more so now, at a time of dizzying change, than it has ever been—and that, in the face of this change, journalism retains a unique role in contributing to civic life and to the quality of public discourse.

We put this principle to work by helping students become constructive participants in an ever-evolving global media landscape, where distinctions between producers and consumers of content have blurred. More specifically, we prepare them, at both the undergraduate and graduate levels, for careers in journalism and other fields of public communication. We train students to gather information from a diversity of sources, to analyze it critically, and to report what is significant, through stories and other media forms across multiple platforms—including video production, social media, radio/podcasting, livestreaming, television and print. We encourage ethical awareness so that students will think independently, being prepared to reflect on and to help shape media practices and norms rather than take them at face value.

We believe in the integration of classroom instruction with practical experience. Many of our students work for, and manage, campus online news and entertainment sites, television programs and a radio station. They intern at broadcast stations, newspapers, magazines, websites and social media companies. Lastly, as a faculty, and with the help of colleagues elsewhere in our College who are working on new and innovative forms of human communication, we are committed to improving journalism through pioneering research and creative work.

Course code for this program is JRNL.

Bachelor's Degree

- Journalism - Bachelor of Arts (BA) (p. 761)

Minor

- Journalism - Minor (p. 763)

Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Ackland, Len (https://experts.colorado.edu/display/fisid_103930/)
Professor Emeritus; MA, Johns Hopkins University

Bergen, Lori Ann (https://experts.colorado.edu/display/fisid_155986/)
Professor; PhD, Indiana University Bloomington

Brinkman, P. Delbert
Professor Emeritus

Chuang, Angie (https://experts.colorado.edu/display/fisid_159485/)
Associate Chair, Associate Professor; MA, Stanford University

Assistant Professor; MS, Syracuse University

Voakes, Paul S.
Professor Emeritus

Whitt, Jan
Professor Emeritus; PhD, University of Denver

Yulsman, Thomas (https://experts.colorado.edu/display/fisid_109386/)
Professor; MS, Columbia University

Courses

JRNL 1000 (3) Principles of Journalism and Networked Communication
Surveys the history, practices and responsibilities of journalism in a democracy. Examines ethics, best practices in institutional and network settings, reporting and writing, international news systems, personal branding, and strategies for creating and distributing content across media platforms. Promotes the highest professional values and encourages students to be leaders who recognize the possibilities of journalism in a democratic society.

JRNL 1871 (1-3) Special Topics for First-Year Students
Special studies in media that are specific for first-year students. May be repeated for a maximum of three credit hours.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Core Curriculum and General Electives

JRNL 2000 (3) Writing for the Media
Introduces students to writing news for a range of news media platforms, including print / online, broadcast, social media and more, and teaches them how to use the appropriate grammar and style conventions for those media types. Also introduces students to various types of stories, from breaking news to features to profiles, and to basic reporting skills. Students encouraged to take concurrently with JRNL 2001.
Requisites: Requires prerequisite of JRNL 1000 (minimum grade C-). Restricted to students with JRNL plan (Major or Minor) or who are on-track admitted to JRNL.

JRNL 2001 (3) Fundamentals of Reporting Technologies
Develops news-gathering skills for work in news enterprises. Students learn skills for working with technologies used in news reporting and in storytelling for various media formats. Students are introduced to a range of technologies for recording, editing and producing. Students encouraged to take concurrently with JRNL 2000.
Requisites: Requires prerequisite of JRNL 1000 (minimum grade C-). Restricted to students with JRNL plan (Major or Minor) or who are on-track admitted to JRNL.

JRNL 2003 (3) Data Journalism
Instructs students in data-driven reporting, from practice to ethical considerations. The class includes hands-on, in-depth instruction in gathering data, processing, presenting, and writing about data as a critical tool in journalistic storytelling. Students learn to read, interpret and critique data analysis for journalistic purposes.

JRNL 2014 (3) Race and Sports Journalism
Examines the intersection of sports journalism and race. It investigates the subject from two distinct but related perspectives. First, the class looks historically at how race has been covered in both journalism generally and sports journalism more specifically. Then it seeks to understand the effects of said coverage.

JRNL 2301 (3) Journalism Ethics and History in Film
Examines how the depiction of journalists evolves over time through watching classic films. Also, the course studies how journalists depicted in film enact (or do not enact) ethical norms of the profession. Through the reading of cinema as text, and in conjunction with written texts, the class will discuss how these depictions in popular culture have, over time, impacted the way American society views the media.

JRNL 2401 (3) Media Coverage of Diverse Populations
Explores the ways in which issues of gender, gender expression, sexual orientation, race, ethnicity and religion play out in news coverage and how news organizations approach coverage of marginalized groups in society.

JRNL 3000 (3) Intermediate Reporting
Builds on basic reporting, writing, and multimedia skills to produce text-story-centered packages on a variety of topics. Students develop beat reporting and enterprise skills, developing sources and progressive stories over the course of a semester.
Requisites: Requires prerequisite courses of JRNL 2000 and JRNL 2001 (all minimum grade C-). Restricted to JRNL majors and minors.

JRNL 3102 (3) Photojournalism I
Introduces the basic elements of visual communication. Covers the use of camera systems, digital imaging techniques and other aspects of photojournalism including law, ethics, history and critical decision-making.
Requisites: Requires a prerequisite course of JRNL 2001 (min grade C-). Restricted to Journalism (JRNL) majors or minors with a minimum of 57 credits only.
Additional Information: Departmental Category: Print Online Journalism

JRNL 3112 (3) Concepts in Visual Culture
Studies the principles, theories and language of visual communication, emphasizing the evaluation and use of images in mass media. Designed to help students build theories and practices learned in previous classes and perfect their skills integrating words and pictures in communication to gain a greater appreciation of the visual world.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 3201 (3) Critical Perspectives on Journalism
Introduces students to the critical perspectives most often employed in qualitative analysis of journalistic texts and practice: Marxism, psychoanalytical criticism, semiology, sociological criticism, structuralism, etc. Emphasis is upon texts from contemporary print and broadcast media, although students may also explore documentary film and literary journalism.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 3202 (3) Covering Political Campaigns
Provides a blend of theoretical understanding and on the ground experience for students interested in learning about the forces that shape election coverage and the practicalities of reporting on the local and national races for public office.
Requisites: Requires prerequisite course of JRNL 2000 (minimum grade C-).

JRNL 3211 (3) History of Broadcasting
Offers a broad overview of significant broadcast programs, the institutions and sociocultural and economic influences that have steered the course of radio, television and electronic media history in the United States.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 3221 (3) History of Digital Journalism
Explores the history, economics and traditions of digital technologies. Addresses the interaction between digital technologies, culture and economy with particular emphasis on the effects on digital journalism. Concludes with a focus on how these concepts are embraced by new journalism market models.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 3231 (3) History of Documentary Film
Explores the evolution of the documentary, both in feature films and on television, to understand how the genre offers both historical context and an understanding of the world in which we live.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 3241 (3) History of Journalism
Explores the foundations of journalism practice in a historical context. Students study the evolution of the news industry and analyze examples of contemporary broadcasting, photography, online and print media in light of the past.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 3251 (3) History of Sports Journalism
Explores the foundations of sports journalism practice in a historical context. The class provides an overview of sports journalism, reporting, and media from early documentation and myths surrounding competition in ancient civilizations through the exponential growth of the craft throughout the 20th century, to the current state of sports journalism across numerous traditional and digital platforms as a part of a multi-billion dollar sports media industry.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 3301 (1) Camera Workshop for Video
Develop competent skills using camcorders to get the most compelling visuals and professional audio. Learn time-saving strategies to shoot footage for unplanned news events, scripted shows, and documentaries. Explore types of shots, the axis, camera movement, and ways to shoot for the edit with sequences and in-camera transitions. Students will be introduced to basic camcorder functions, rule of thirds, depth of field, exposure settings, white balance, and focus techniques. Students will also learn how to obtain the best audio for interviews and natural sound, and how to light interview shots.
Recommended: Prerequisite JRNL 2001.

JRNL 3302 (1) Video Editing Skills
Explore time-saving editing workflows using shortcut editing techniques to create compelling and dynamic content. Understand file management, saving and importing media properly. Recognize and interpret film language and the grammar of editing, such as cross-cutting, montage, screen direction, cutting on the action, match action, and even ways to manipulate time. Students will also learn how to create graphics, perform colour correcting, and do basic animation.
Recommended: Prerequisite JRNL 2001.

JRNL 3303 (1) Motion Graphics
Explore how to enhance visuals and produce animated graphics using Adobe After Effects. Learn ways to work within virtual 3D environments to create production elements that include titles, lower thirds, bumps, and full-screen graphic presentations. Develop skills with using masks, virtual cameras, parallax in photos, tracking motion, and rotoscoping.
Recommended: Prerequisite JRNL 2001.

JRNL 3304 (1) Contemporary News and Ethics Intensive
This course uses cases coming from the contemporary media world to explore issues that include conflicts of interest, privacy, bias in media coverage, incorporating diverse voices, social responsibility, and source relationships through the lens of various theories and frameworks for ethical decision-making.

JRNL 3305 (1) Writing Fundamentals
An intensive refresher or introduction to the basics of writing for journalism majors and journalism and sport media minors. This short course is offered to students who need additional writing coaching and practice, or to those who seek intensive writing instruction and practice prior to or in addition to JRNL 2000.

JRNL 3306 (1) Writing for the Ear
Offers an intensive refresher or introduction to the basics of journalistic writing for audio and video. Students develop an understanding of how writing for the ear differs from writing for the eye, and practice how to effectively integrate video and audio into multimedia writing.

JRNL 3307 (1) Copyright and Fair Use for Content Creators
The explosion of web-based content and Creative Commons licenses make understanding copyright and fair use a thorny and confusing area. This course, designed for content creators both inside and outside of journalism, will enable students to better understand when they can use content created by others, and when that content is off limits.

JRNL 3344 (3) Short Form Documentary
Teaches students how to raise the production value of their work based on standards used by professionals. Students learn theory of various short forms in video; how to implement tools such as lenses, lights, and other video gear to enhance the cinematic quality of their video; how to edit their video clips with professional pacing and rhythm; how to apply color grading techniques for a cinematic look; and how to create motion graphics to illustrate data, create titles and lower thirds.
Requisites: Requires a prerequisite course of JRNL 2000 and JRNL 2001 (minimum grade C-). Restricted to JRNL majors or minors only.
Additional Information: Departmental Category: Broadcast Journalism

JRNL 3401 (3) Sociology of News
Provides students with an introduction to the factors that shape news reporting and production, including gatekeeping, intermedia agenda setting, pack journalism, beat structures, news values and issues unique to the various platforms on which news is delivered.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 3402 (3) Social Media Storytelling
Investigates the theory, ethics and best practices in storytelling across a variety of social media platforms including, but not limited to, Facebook, Twitter, Instagram, Snapchat, Medium and YouTube. Examines best practices for social media engagement. Students develop a story for multiple platforms and analyze the story performance in the sites and make recommendations for best practices.
Requisites: Requires prerequisite courses of JRNL 2000 and JRNL 2001 (all minimum grade C-). Restricted to JRNL majors and minors with 57-180 credits (Juniors or Seniors).

JRNL 3552 (3) Online Production and Editing
Explores the best practices for newsroom web production and copyediting, working with web-based stories and online audience engagement. Students develop story packages for online audiences, learn to work with content management systems (CMS), build webpages using industry leading platform, and learn the fundamentals of search engine optimization (SEO). Students also develop visual multimedia skills that enhance their visual communication skills.
Requisites: Requires prerequisite courses of JRNL 2000 and JRNL 2001 (all minimum grade C-). Restricted to JRNL majors and minors.
Additional Information: Departmental Category: Print Online Journalism

JRNL 3614 (3) Audio Storytelling and Podcasting
Introduces audio production techniques using digital technologies. Students learn to apply fundamental principles to create professional radio and online programs and podcasts.
Requisites: Restricted to College of Communication, Media, Design and Information (CMDI) or Journalism (JRNL) majors and minors with a minimum of 45 hours taken.
Additional Information: Departmental Category: Broadcast Journalism

JRNL 3644 (3) Video News Production and Reporting
This course teaches essential video production skills in both field and studio operation, camera and editing work, lighting, and multi-camera studio directing. Students will learn how to develop visual narratives, shoot quality footage for the story, and apply best journalistic practices to positively impact society on multiple media platforms.
Requisites: Requires prerequisite courses of JRNL 2000 and JRNL 2001 (minimum grade C-). Restricted to JRNL majors or minors with a minimum of 45 completed hours.
Additional Information: Departmental Category: Broadcast Journalism

JRNL 3651 (3) Media Law and Ethics
Studies state and federal laws and court decisions that affect the media in order to develop knowledge of media rights and responsibilities and an understanding of the legal system. Provides students with an overview of the theories, ethics, codes, and analytical models that are used in journalism, and introduces students to a variety of ethical issues that can arise in journalism.
Requisites: Restricted to College of Communication, Media, Design and Information (CMDI) or Journalism (JRNL) majors and minors with a minimum of 45 hours taken.

JRNL 3704 (3) Sports Reporting I
Prepares students for the world of sport journalism. Combines the skills of a hard news reporter, the perspective of an entertainment reporter and the persuasive abilities of an editorial writer.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 3804 (3) Sports, Media and Society
Examines how sports, culture and especially the media, with a specific focus on journalism, all come together to influence society. Explores how sports communication affects, and is affected by, the issues and tension that touch society at large, such as law and politics, race, gender, sexuality and disability.
Requisites: Restricted to CMDI students with a minimum of 45 credits completed or non-CMDI students who have completed CMDI 2001 (minimum grade D-).

JRNL 3904 (3) Sports Journalism and Gender
Analyzes the role gender has played in providing opportunities for women to compete in athletics and journalistic coverage of those athletes and the sporting events in which they participate. It will also examine how gender has influenced opportunities for sports journalists in the past and in the contemporary sports media industry.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 4004 (3) The Sports Media Industry
Examines the business practices and frameworks of the sports that journalists cover. Topics include market-driven journalism, the growth of sports coverage throughout in the 20th century, the technologies impacting sports business today, and the way money impacts coverage. Finally, the class explores the unique issues and challenges posed by the different financial structures of amateur and professional sports and how they influence sports coverage and reporting.
Requisites: Restricted to CMDI students with a minimum of 45 credits completed or non-CMDI students who have completed CMDI 2001 (minimum grade D-).

JRNL 4011 (3) Principles of Media Relations
Provides students with information about the ethics, history and practice of media relations (community affairs, community relations, customer relations, government relations, industry relations, internal communications, public relations, press agentry, public affairs, publicity, etc.). Introduces students from multiple academic disciplines to the genres of writing required for a media relations career.
Requisites: Restricted to students with a minimum of 45 credits completed.

JRNL 4102 (3) Photojournalism II
Advanced course intended to give students a forum in which technical skills will be brought to professional standards. Build a polished portfolio of work to present to editors and buyers.
Equivalent - Duplicate Degree Credit Not Granted: JRNL 5102
Requisites: Requires a prerequisite course of JRNL 3102 (minimum grade C-).
Additional Information: Departmental Category: Print Online Journalism

JRNL 4311 (3) Literary Journalism
Explores the telling of nonfiction stories through the techniques of fiction, through study of American literary journalists, from the New Journalism of the 1960s through current longform narrative multimedia. Students will read and analyze narrative nonfiction from several periods of American history in order to expand their own storytelling repertoire. The class will emphasize in-depth reporting for narrative, character and scene development, narrative arc and structure and the use of dialogue. They will also explore the particular ethical dilemmas faced by writers of creative nonfiction.
Equivalent - Duplicate Degree Credit Not Granted: JRNL 5311
Requisites: Requires prerequisite course of JRNL 2000 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 4344 (3) Video Documentary Production
Designed to give students the experience of researching, writing, shooting and editing their own documentaries.
Equivalent - Duplicate Degree Credit Not Granted: JRNL 5344
Requisites: Requires a prerequisite course of JRNL 3644 (minimum grade C-). Restricted to Journalism (JRNL) majors or minors.
Additional Information: Departmental Category: Broadcast Journalism

JRNL 4351 (3) Reporting Wars, Conflict and Peace
Explores how journalists report international breaking news with a focus on war, disaster and peace and how these news events affect peoples' lives, governmental decisions and news media operations.

JRNL 4354 (3) Video News Reporting
Focuses on writing and reporting compelling visual stories using mobile devices and video cameras. Students also learn storytelling techniques of backpack video journalism and reporting for broadcast television and online news.
Requisites: Requires a prerequisite course of JRNL 3644 (minimum grade C-). Restricted to Journalism (JRNL) majors or minors.
Additional Information: Departmental Category: Broadcast Journalism

JRNL 4401 (3) News and Public Perception
Considers the impact that news and journalistic practice have on the public through processes like agenda setting and second-level agenda setting, as well as issues such as news avoidance, the spiral of silence and political cynicism.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 4402 (3) Journalism and Social Identity
Provides a discussion-based inquiry into the role of journalism and journalists in the representation of intersectional identities, focusing on race, gender, sexual expression and socioeconomic class in the United States. The study and practice of journalism in this course will address issues of trust, power, privilege and ethics inherent in reporting across difference.
Equivalent - Duplicate Degree Credit Not Granted: JRNL 5402
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite JRNL 2401.

JRNL 4411 (3) International Media and Global Crises
Investigates how media organizations, audiences and other international organizations function during various global crises, such as national disasters, climate change and health epidemics, due to imbalanced distribution of wealth and resources, ethnic tensions and diplomatic failures.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 4562 (3) Digital Journalism
Builds upon digital production skills through the creation of multimedia project. Applies media theory to evaluate digital media content and explore how digital forms influence the news industry, politics, culture and society.
Equivalent - Duplicate Degree Credit Not Granted: JRNL 5562
Requisites: Requires prerequisite courses of JRNL 2000 and JRNL 2001 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 4572 (3) News Corps
CU News Corps provides students the opportunity to immerse themselves in a single project and then produce an in-depth text based or multimedia explanatory/investigative story for publication in professional media. Students spend several weeks studying the subject in question before reporting and producing their stories.
Requisites: Requires prerequisite course of JRNL 3674 or JRNL 4002 or JRNL 4354 or JRNL 3402 or JRNL 3552 or JRNL 4344 or JRNL 4602 or JRNL 4614 or JRNL 4702 or JRNL 4802 or JRNL 4822 (min grade C-).
Grading Basis: Letter Grade

JRNL 4573 (3) CU News Corps Investigative Reporting & Leadership
Take lessons learned from the CU News Corps capstone to the next level with this course designed to give elite students the opportunity to broaden and deepen their investigative reporting by either expanding on their capstone project's subject matter, or beat, or by taking a deep dive into a different field of research. Further develop brainstorming and editing skills.
Requisites: Requires prerequisite course of JRNL 4572 (minimum grade B).

JRNL 4602 (3) Opinion Writing
Concentrates on several of the subjective areas of journalism. Emphasizes editorial and column writing, editorial pages and blogging.
Equivalent - Duplicate Degree Credit Not Granted: JRNL 5602
Requisites: Requires a prerequisite course of JRNL 2000 (minimum grade C-). Restricted to Journalism (JRNL) majors or minors with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: Print Online Journalism

JRNL 4614 (3) Narrative Audio Storytelling and Podcasting
Develops audio storytelling techniques using digital technologies and expands on podcasting skills. Students expand their abilities to create professional radio and online stories, podcasts and programs.
Additional Information: Departmental Category: Broadcast Journalism

JRNL 4624 (4) NewsTeam
Students participate in Newsteam Boulder, a program broadcast live over the Boulder cable television system.
Equivalent - Duplicate Degree Credit Not Granted: JRNL 5624
Requisites: Requires prerequisite course of JRNL 4354 (minimum grade C-).
Additional Information: Departmental Category: Broadcast Journalism

JRNL 4634 (1-3) Broadcast Projects
Covers interpretation, preparation, and/or reporting in programs for broadcast media. Students produce radio or television documentaries and informational/entertainment programs.
Equivalent - Duplicate Degree Credit Not Granted: JRNL 5634
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires a prerequisite course of JRNL 3644 (minimum grade C-). Restricted to JRNL majors or minors.
Additional Information: Departmental Category: Broadcast Journalism

JRNL 4651 (3) Advanced Media Ethics
Examines the responsibilities, the power and the problems of news media through the lens of ethical inquiry. Applies the philosophical an other perspectives from humanities and social sciences to consider ethical frameworks for guiding journalism in an era of technological disruption. Examines issues including privacy, conflicts of interest, undercover reporting, use of graphic images, interviewing trauma victims and other concerns in journalism through the lens of moral philosophy, best practices and codes of ethics.
Requisites: Requires prerequisite course of JRNL 3651 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 4674 (3) Live Streaming and Studio Producing
Students develop, plan, and produce visual stories and live streaming productions both in the field and in studio. Additionally, students learn how to conduct live reporting, sharpen their visual storytelling, camera, and digital editing skills, and apply professional workflows and standards to their work.
Requisites: Requires a prerequisite course of JRNL 3344 or JRNL 3644 (minimum grade C-).
Additional Information: Departmental Category: Broadcast Journalism

JRNL 4702 (3) Arts/Cultural Reporting and Criticism
Emphasizes composition of criticism for the performing arts and other areas of entertainment.
Equivalent - Duplicate Degree Credit Not Granted: JRNL 5702
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 4704 (3) Athletic Media Relations
Offers the opportunity to both observe and experience what is required to work in the world of intercollegiate athletic media relations and professional sports public relations. Covers how to write and how to budget the vital components of publications, media bias and crisis management.

JRNL 4710 (3) Sports Reporting II
Prepares students for the world of sport journalism. Combines the skills of a hard news reporter, the perspective of an entertainment reporter and the persuasive abilities of an editorial writer. The class focuses on how to cover sports from all angles.
Equivalent - Duplicate Degree Credit Not Granted: JRNL 5710
Requisites: Requires prerequisite course of JRNL 3704 (minimum grade C-).
Recommended: Prerequisite restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 4714 (3) Sports Broadcasting
Teaches students how to do live sports television production. Students will learn the sports TV business from the ground up, and be responsible for participating in the broadcasting of three to four live sporting events.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 4724 (3) Sports Announcing
Teaches students about sports talk and sports announcing, how to interview sports celebrities and the legal considerations and ethics of the business. Students will be doing play-by-play and color of live sporting events. Department consent required.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

JRNL 4802 (3) Feature Writing
Provides practice in writing freelance articles. Considers types, sources, methods, titles, illustrations, and freelance markets. Students submit work for publication.
Equivalent - Duplicate Degree Credit Not Granted: JRNL 5802
Requisites: Requires prerequisite courses of JRNL 2000 and JRNL 2001 (minimum grade C-). Restricted to JRNL majors or minors with 57-180 credits (Juniors or Seniors).

JRNL 4822 (3) Environmental Journalism
Explores environmental topics including climate change, energy, water, biodiversity, and food. To enrich their skills and approaches, students produce stories on a range of environmental topics and examine media coverage of the environment, discussing the complex issues involved in reporting these stories, and exploring the ways that environmental crises intersect with other stories in the news.
Requisites: Requires prerequisite courses of JRNL 2000 and JRNL 2001 (minimum grade C-). Restricted to JRNL majors or minors with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: Print Online Journalism

JRNL 4841 (1-6) Undergraduate Independent Study
Involves in-depth independent research and/or project work completed under the direction of a faculty member that demonstrates learning at the upper-division level within the discipline. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

JRNL 4874 (1-3) Special Topics
Special Topics
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to JRNL majors or minors with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: Broadcast Journalism

JRNL 4920 (3) Seminar in Honors Writing & Research
This course supports seniors accepted into departmental Honors Programs in developing the research foundation for their projects, whether they are scholarly, creative, or hybrid. Course topics include topic development, primary and secondary source research, and the writing of a scholarly literature review. Project and time management, planning for creative and scholarly field research, and peer support and editing are also emphasized. Formerly offered as a special topics course.
Grading Basis: Letter Grade

JRNL 4931 (1-6) Internship
Internship
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of JRNL 3674 or JRNL 4002 or JRNL 4354 or JRNL 3402 or JRNL 3552 or JRNL 4344 or JRNL 4602 or JRNL 4614 or JRNL 4702 or JRNL 4802 or JRNL 4822 (min grade C-).

Journalism - Bachelor of Arts (BA)

Journalism majors develop skills in information gathering, storytelling and analysis across a variety of platforms—including video production, social media, radio/podcasting, livestreaming, television and print—using an ever-expanding variety of media tools and mobile technologies.

Following a core curriculum that provides a range of conceptual and interdisciplinary options, students will develop an individualized secondary area of study (18 credit hours). Students can also complement their skills with studies in sports journalism, media and diversity, ethics, history, data journalism, international media law, literary journalism, news and public perception, sociology of news, visual culture, and other conceptual courses offered in the department, the college and elsewhere in the university.

Requirements

Required Courses and Credits

Within the college standard of 120 credit hours for the bachelor's degree, the BA in journalism requires 36-37 credit hours (depends on capstone choice) as follows.

Code	Title	Credit Hours
JRNL Core Curriculum		
JRNL 1000	Principles of Journalism and Networked Communication	3
JRNL 2000	Writing for the Media	3
JRNL 2001	Fundamentals of Reporting Technologies	3
JRNL 3651	Media Law and Ethics	3
Intermediate Reporting Course		**3**
Choose one from the following: (Additional on this list may also count as electives; see below)		
JRNL 3000	Intermediate Reporting	
JRNL 3344	Short Form Documentary	
JRNL 3614	Audio Storytelling and Podcasting	
JRNL 3644	Video News Production and Reporting	
Conceptual Courses in Journalism		**6**
Choose two from the following (one must be upper-division):		
JRNL 2014	Race and Sports Journalism	
JRNL 2301	Journalism Ethics and History in Film	
JRNL 2401	Media Coverage of Diverse Populations	
JRNL 3112	Concepts in Visual Culture	
JRNL 3201	Critical Perspectives on Journalism	
JRNL 3211	History of Broadcasting	
JRNL 3221	History of Digital Journalism	
JRNL 3231	History of Documentary Film	
JRNL 3241	History of Journalism	
JRNL 3251	History of Sports Journalism	
JRNL 3401	Sociology of News	
JRNL 3804	Sports, Media and Society	
JRNL 3904	Sports Journalism and Gender	
JRNL 4004	The Sports Media Industry	
JRNL 4311	Literary Journalism	
JRNL 4351	Reporting Wars, Conflict and Peace	
JRNL 4401	News and Public Perception	
JRNL 4402	Journalism and Social Identity	
JRNL 4411	International Media and Global Crises	
JRNL 4651	Advanced Media Ethics	
Capstone		**3-4**
Students must choose one of the following two courses as a capstone		
JRNL 4572	News Corps	
JRNL 4624	NewsTeam	
Internship		
JRNL 4931	Internship	3
Reporting Electives		**9**
Choose an additional 9 credits of advanced journalism reporting courses from the following:		
JRNL 2003	Data Journalism	
JRNL 3102	Photojournalism I	
JRNL 3202	Covering Political Campaigns	
JRNL 3402	Social Media Storytelling	
JRNL 3552	Online Production and Editing	
JRNL 3704	Sports Reporting I	
JRNL 4011	Principles of Media Relations	
JRNL 4102	Photojournalism II	
JRNL 4344	Video Documentary Production	
JRNL 4351	Reporting Wars, Conflict and Peace	
JRNL 4354	Video News Reporting	
JRNL 4411	International Media and Global Crises	
JRNL 4562	Digital Journalism	
JRNL 4573	CU News Corps Investigative Reporting & Leadership	
JRNL 4602	Opinion Writing	
JRNL 4614	Narrative Audio Storytelling and Podcasting	
JRNL 4634	Broadcast Projects	
JRNL 4674	Live Streaming and Studio Producing	
JRNL 4702	Arts/Cultural Reporting and Criticism	
JRNL 4704	Athletic Media Relations	
JRNL 4710	Sports Reporting II	
JRNL 4714	Sports Broadcasting	
JRNL 4724	Sports Announcing	
JRNL 4802	Feature Writing	
JRNL 4822	Environmental Journalism	
JRNL 4841	Undergraduate Independent Study	
JRNL 4874	Special Topics	
Total Credit Hours		**36-37**

Secondary Area of Study (18 credit hours)

In addition to the coursework required for the major, all students in JRNL must complete a secondary area of study outside of JRNL. This can be met by any of the following: a minor, a double degree, a second major or an approved minor substitute composed of at least 18 credit hours. Application for a minor substitute must be submitted and approved before the student has earned 50 credit hours.

Sample Four-Year Plan of Study
