COMMENCEMENT

UNIVERSITY OF COLORADO BOULDER

FOLSOM STADIUM

MAY 10, 2018

One Hundred Forty-Second Year of the University
The first commencement at the University of Colorado was held for six graduates on June 8, 1882, in the chapel of Old Main. It was not until 40 years later, on September 4, 1922, that the first summer commencement was held. Since the first commencement in 1882, the University of Colorado Boulder has awarded 350,000 degrees. The traditional Norlin Charge to the graduates was first read by President George Norlin to the June 1935 graduating class.

You are now certified to the world at large as alumni of the university. She is your kindly mother and you her cherished sons and daughters.

This exercise denotes not your severance from her, but your union with her. Commencement does not mean, as many wrongly think, the breaking of ties and the beginning of life apart. Rather it marks your initiation in the fullest sense into the fellowship of the university, as bearers of her torch, as centers of her influence, as promoters of her spirit.

The university is not the campus, not the buildings on campus, not the faculties, not the students of any one time—not one of these or all of them. The university consists of all who come into and go forth from her halls, who are touched by her influence, and who carry on her spirit. Wherever you go, the university goes with you. Wherever you are at work, there is the university at work.

What the university purposes to be, what it must always strive to be, is represented on its seal, which is stamped on your diplomas—a lamp in the hands of youth. If its light shine not in you and from you, how great is its darkness! But if it shine in you today, and in the thousands before you, who can measure its power?

With hope and faith, I welcome you into the fellowship. I bid you farewell only in the sense that I pray you may fare well. You go forth, but not from us. We remain, but not severed from you. God go with you and be with you and us.

Dear Graduate:

One of the greatest honors for the University of Colorado Board of Regents, the institution’s governing board, is to be part of a graduation ceremony. Your success is a success for us all. Your degree is a measure not only of an accomplishment of dedication and talent, but also notice to the world that you have the intellectual gifts and discipline to contribute greatly to any endeavor you pursue.

This commencement ceremony, like every University of Colorado graduation since 1935, will close with the reading of the Norlin Charge. As originally expressed by CU President George Norlin in 1935, graduation marks your initiation in the fullest sense of the fellowship of the university, as bearers of her torch, as centers of her influence, as promoters of her spirit. Welcome to the ranks of CU's alumni family of more than 350,000 graduates since 1882. Congratulations on achieving this milestone. Well done and well earned!
Dear University of Colorado Graduate,

Congratulations on earning your degree from the University of Colorado Boulder.

This is a momentous time in your life and the lives of those who have supported you. We take great pride in what you have accomplished at CU Boulder and are grateful you are part of our university family.

When you walk away from this exciting day, our hope is that you will do so with a passion to pursue your dreams. Never forget how the university shaped you and prepared you to face life’s challenges, just as you helped shape your university. Expect nothing but the best from yourself and those who surround you.

The University of Colorado community is proud of you and your accomplishments. As you leave here to start careers, draw on your academic achievements at CU Boulder to help you succeed and inspire others.

Welcome to the generations of alumni around the globe who carry that CU pride within them. Our collective legacy has been to leave a positive and meaningful mark on Colorado and the world.

Today is your day to shine and share your accomplishments with your family and friends. We wish you success, prosperity, happiness and good health in all your endeavors.

Sincerely,

ACADEMIC DRESS

In 1896, colleges and universities in the United States adopted a uniform code governing academic dress. Those who are receiving a master’s or doctoral degree from the University of Colorado wear hoods lined with the university colors, silver and gold. The velvet border of the hood indicates the degree and usually follows the same code as the color of the tassels.

The Oxford cap, usually referred to as a mortarboard, has a long tassel that is fastened by a button on the top. Candidates for baccalaureate degrees wear the tassel pendant over the right front of the cap before the degree is conferred, and over the left thereafter. The color of the tassel on the bachelor’s cap indicates the field of study, with the exception of the BA degree, whose candidates wear white tassels indicating the arts.

THE PRESIDENTIAL CHAIN OF OFFICE AND THE UNIVERSITY MACE

The Presidential Chain of Office and the University Mace were created by Mary Sartor, MFA, University of Colorado Boulder. Both were gifts to the university by Mr. and Mrs. David G. Hawthorn, Class of 1924.

Colorado gold and silver are used in both pieces to symbolize the importance of these minerals to the history of the state. The chain’s gemstones also consist entirely of minerals from Colorado.

The chain, created in 1980 for the inauguration of President Arnold R. Weber, holds three suspended pendants. The back pendant is the seal of the state of Colorado surrounded by a golden ribbon representing the golden circle of knowledge. The top pendant in the front is the seal of the University of Colorado surmounted by an arch set with diamonds and topaz, signifying the necessary link between the search for knowledge and its practical application to the world beyond the university. The laurel wreaths that decorate the bottom of the seal symbolize honor and success. At the center of the bottom pendant is a gold topaz indicating the quest for knowledge. The surrounding ring is inset with fragmented cubes and diamonds.

The University of Colorado Mace was created for the commencement ceremonies of May 1984. The foot of the scepter is encased in sterling silver bound in 14-karat gold, ending in an intaglio of the seal of Colorado. The shaft of the mace was carved from a black walnut tree thought to have been one of the saplings given to the settlers of the Colorado Territory by President Abraham Lincoln.

Sterling silver is also used in the crown, and the university seal is bound in gold and supported by an inner rod of gold surrounded by eight arching tapered silver ribs. At the base, the motto of the university, translated as Let Your Light Shine, encircles the crown in Greek characters. The wooden staff is bound at intervals in gold and silver rings.
THE UNIVERSITY SEAL

In its history, the University of Colorado has used three different seals. The current seal, adopted in 1908, depicts a male Greek classical figure sitting in front of a pillar and holding a scroll. Next to the figure, laurel branches frame a burning torch. The inscription in Greek reads Let Your Light Shine. The seal’s designer, Henry Read of Denver, chose the classical motif because Greek civilization stands as the criterion of culture. The laurel symbolizes honor or success; the youth suggests the morning of life; and the scroll represents written language.

From 1893 to 1908, the university seal was a copy of Wyon’s medallion, Science Trims the Lamp of Life. In this version, a Greek woman knelt before a lamp, and stalks of mariposa lilies decorated the border. Before 1893, an adaptation of the Colorado state seal was used, but it was never adopted by the Board of Regents.

The seal is used primarily on official documents, such as diplomas and transcripts that have been issued on behalf of the university. The Board of Regents uses the seal on its official documents and publications. The seal also appears on the President’s Chain of Office, the University Mace, regent regalia and various formal publications.

Richard F. Schaden
If you traveled by commercial jet to attend today's Commencement, you can thank Richard Schaden for making your flight safer. An aeronautical engineer and aviation lawyer, his work forced aircraft manufacturers to be more accountable for the safety of their products.

Most people would call that a career, but Schaden's curiosity, generosity and creative drive have led him to apply his talents to such varied fields as education, restaurant ownership, international arts exchange, poverty reduction and bicycle racing. His support for Colorado and CU Boulder is also personal: His twin daughters graduated from the university last year.

Schaden earned a Bachelor of Aeronautical Engineering from the University of Detroit, studied mechanical engineering at Wichita State University and earned a Juris Doctor from the University of Detroit School of Law. Along the way he became a flight test and jet engineer. Since 1968 he has been a self-employed attorney in aviation and product liability, litigating more than 400 aviation accident cases.

Recognizing a need for young lawyers to graduate with practical experience, Schaden provided a substantial gift to the University of Colorado Law School, creating the Schaden Chair in Experiential Learning. In addition, Schaden has contributed to student learning as a guest lecturer at CU Boulder and elsewhere, teaching Trial Practice and Procedure, Engineering and the Law, and Product Design Liability.

After giving a seminar for CU Boulder aerospace engineering students, he and the chairman of the Smead Aerospace Engineering Sciences Department created what might be the first course in forensic engineering that brought together engineering and law students. At the same time, Schaden joined the department's External Advisory Board.

Schaden founded Escape Dynamics, a Colorado company that explored the use of microwaves rather than chemical rockets to launch vehicles into space. When that business closed in 2015, Schaden donated $600,000 worth of equipment to CU Boulder.

Schaden's creativity has extended into entrepreneurial and philanthropic ventures. He co-founded the Quiznos and Smashburger restaurant chains, and co-founded the USA Pro Cycling Challenge. His leadership and success as an entrepreneur were recognized when Gov. John Hickenlooper invited him to serve on the Biennial of the Americas board with a goal of encouraging business and arts interchange in the Americas. He served for many years on the Vision Circle of the XPrize Foundation, which sets the focus of the next prize competition.

A common thread running through Schaden's work is a sense of community generosity. Among those benefiting from his time, attention and contributions was then-Mayor Hickenlooper's program called America’s Road Home, which provided people with the resources to lift themselves out of extreme poverty. Schaden has been a longtime supporter of Boulder's Community Food Share program. He served on the board of the Oceanic Preservation Society and was instrumental in the making of The Cove, an Academy Award-winning documentary on the treatment of dolphins in Japan.

The Board of Regents is pleased to award the honorary degree Doctor of Humane Letters, honoris causa, to Richard F. Schaden in recognition of his generosity and dedication to engineering, entrepreneurship, education and the law.

Lucile Berkeley Buchanan
Lucy (Lucile) Berkeley Buchanan became the first African American woman to graduate from the University of Colorado 100 years ago. Buchanan was born on June 13, 1884, in a shed close to the South Platte River in Denver to emancipated slaves from Virginia. She earned a teaching certificate in 1905 from the State Normal School (today the University of Northern Colorado) and attended the University of Chicago before earning her bachelor's degree in German from the university on June 5, 1918. The moment was historic but sad; officials would not let her onstage to accept her diploma. Afterward, she taught in the Chicago Public School system for 31 years. She retired in 1949 and returned to Denver and the home her father had built.

COMMENCEMENT CORDS

"Seniors Creating Future Buffs Scholarship," the senior class gift, is represented by a blue cord worn by contributors. Visit colorado.edu/seniors/senior-class-legacies for more information.

CU Proud Award winners wear a silver cord.

Daniels Scholars at CU Boulder wear a teal and white cord that pays tribute to Bill Daniels, who made their dream of achieving a college degree a reality.

danielsfund.org/scholarships

Honoring Military Service, CU Boulder is proud to recognize graduates wearing a red, white and blue cord who have served in our country’s armed forces (veterans) as well as those who will serve upon graduation (ROTC commissionees.)

The CU Boulder Alumni Association assigns black and gold cords to graduates recognize as members of CU Legacy families. colorado.edu/alumni/buffalolegacy

The American Institute of Chemical Engineers (AIChE) leadership team wears royal purple cords. The AIChE is the world’s leading organization of chemical engineers, which consists of student members and industry professionals.

Smead Scholars are graduate engineering students who are recognized as the most talented aerospace engineering graduates nationally. This program is in memory of Dr. Harold “Joe” Smead. colorado.edu/aerospace/smead.

CU GOLD (Gaining Opportunities through Leadership Development) provides free leadership development programs to CU students. Those wearing a teal cord are dedicated to the mission that any student can be a leader.

Asian Unity confers a red and white sash on students who have shown exemplary leadership with their utmost passion and dedication in strengthening the Asian American & Pacific Islanders community (AAPI) at CU Boulder.

CU Education Abroad is proud of its study abroad students (wearing a blue and green cord) who earned credit while broadening their personal and academic perspectives in a culturally diverse world.

Safely and Accessibility

The University of Colorado Boulder works diligently to ensure the safety of our graduates, their families and their friends during the spring 2017 Commencement Exercises. You can do your part by noting the following:

- Once you are seated in Folsom Stadium, locate the nearest exit. If you are seated on the field level, you should exit north (toward Dal Ward Athletic Center).
- Listen carefully and follow any instructions that might be issued by the Master of Ceremonies or other public safety authority.
- Parents should keep their children with them at all times.
- Pay particular attention to the safety of any elderly people and people with disabilities.
- If directed to evacuate Folsom Stadium, move away from the stadium and remain outside until you receive an all-clear by a public safety authority.
- If necessary, seek assistance from a robed Commencement marshal, uniformed police officer or security guard.

Thank you, and congratulations to all of our graduates!

The following services are available to ensure equal access to people with disabilities:

- Real-time captioning will be displayed on the main video board. Captioning can also be viewed on personal mobile devices (go to mobilecap.net and enter login code 2969).
- Assistive listening devices are located at the information kiosks. (Note: A photo ID must be left with staff when obtaining this device.) American Sign Language interpreters will be located in Section 119.
- Large-print brochures are available at the information kiosks.
- Wheelchair seating is available in Sections 103, 114, 118, 119 and 121. Wheelchair assistance is provided at the north side of Duane Physics. Service animals are welcome at all campus ceremonies.
- Accessible shuttles and limited courtesy transportation are available.
- For emergency medical treatment, please dial 911. Event security staff can help during medical emergencies.
