UNIVERSITY OF COLORADO BOULDER

### Degree Audit Upgrade Now Live ([Amelia Jackson](#))

As of 8 a.m. today, all transfer credit report and degree audit links in the CU-Boulder portals now direct users to the new degree audit environment.

We announced this switch last Friday in both the student and faculty & staff editions of CU-Boulder Today, and we're sending an e-memo communication to students today as well. We've temporarily removed the transfer credit and degree audit video tutorials from our [website](#); we'll be updating and reposting them in the coming weeks.

The following documents will guide you through viewing and/or running transfer credit evaluations and degree audits in the new system:

- [Advisor Help File](#) (also available in the degree audit system; click the **options icon**, then **Help**)
- [Accessing DARSweb & Requesting Degree Audits](#)
- [Understanding the Degree Audit](#)
- [Understanding Transfer Credit](#)

I want to thank everyone for their patience throughout this project. It has been a long road and we are excited to finally be able to share this with the campus. As always if you have questions, please don't hesitate to contact the degree audit unit or Kim Diawara for transfer credit.
