Focuses on legal issues that arise in all phases of real estate transactions, with an emphasis on the role of the lawyer in the business of real estate as well as on the regulation of real estate markets.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Property

LAWS 6005 (4) Constitutional Law
Studies constitutional structure: judicial review, federalism, separation of powers; and constitutional rights of due process and equal protection.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public Administration

LAWS 6007 (4) Income Taxation
Emphasizes the fundamentals of the federal income tax system and examines its impact on the individual.
Equivalent - Duplicate Degree Credit Not Granted: ACCT 6700
Requisites: Restricted to Professional Year 1, 2, or 3 Law students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Taxation

LAWS 6008 (3) Foundations of International Legal Thought
Provides students with a broad historical and philosophical introduction to international law. Addresses changing conceptions of sovereignty between 1492 and World War II, I the contexts of the Spanish conquest of the Americas, the international legality of the slave trade, relations between the Ottoman Empire and the "Great Powers", the Chinese opium wars and the rise of modern international institutions.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 6009 (4) Legal Aid Civil Practice 1
Emphasizes procedural and practical remedies and defenses available in civil litigation. Assigns civil cases related to the course material. Develops working knowledge of courtroom skills.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 6011 (3) Payment Systems
Examines the methodology and policies of Articles 3 and 4 of the Uniform Commercial Code, dealing with such topics as negotiable instruments, bank deposits, collections, letters of credit and electronic fund transfers.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 6019 (4) Civil Practice Clinic 2
Emphasizes procedural and practical remedies and defenses available in civil litigation. Assigns civil cases related to the course material. Develops working knowledge of courtroom skills.
Requisites: Requires prerequisite or corequisite course of LAWS 6353 (minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 6021 (3) Secured Transactions
Explores the methodology and policies of Article 9 of the Uniform Commercial Code, dealing with financing transactions in personal property.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 6024 (3) Real Property Security
Examines basic mortgage law, including use of mortgage substitutes (e.g., deeds of trusts and installment land contracts). Covers foreclosure and redemption and related problems; special priority problems in land acquisitions and construction financing; special financing devices, including variable-interest and wraparound mortgages; and problems relating to the transfer of the mortgagor’s and mortgagee’s respective interests.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Property, Trust and Estate and Land Use

LAWS 6029 (4) Criminal and Immigration Defense Clinic
Provides thorough grounding in problems of criminal defense. Students defend indigent misdemeanants in Boulder courts. Develops working knowledge of courtroom skills.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 6031 (2) Consumer Protection Laws and Policies
Focuses on deceptive trade practices and consumer rights. Reviews the law of deception/misrepresentation at common law, and federal and state laws regarding unfair acts and practices. Covers credit practices, environmental and health claims, and telecommunications and privacy. Discusses remedies, including governmental enforcement actions, and individual and class actions.
Grading Basis: Letter Grade

LAWS 6035 (3) White Collar Crime
Examines distinctions between white collar crime and other types of criminal activity and the needs for and arguments against white collar laws and law enforcement. Studies securities fraud, mail and wire fraud, insider trading, money laundering, false statements, conspiracy and criminal forfeiture statutes. Includes use of the grand jury, privileges applicable in the corporate setting, immunity, discovery and the impact of parallel civil proceedings. Examines effect of government policy on corporations and their counsel, pre-trial and trial strategy, jury selection and victim notification and restitution options.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Litigation and Procedure
LAWS 6039 (4) Criminal Defense Clinic 2
Provides thorough grounding in problems of criminal defense. Students defend indigent misdemeanants in Boulder courts. Develops working knowledge of courtroom skills. 
Requisites: Requires prerequisite or corequisite course of LAWS 6353 (minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 6045 (3) Criminal Procedure
Focuses primarily on the constitutional limitations applicable to such police investigative techniques as arrest, search, seizure, electronic surveillance, interrogation and lineup identification.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Litigation and Procedure

LAWS 6049 (4) Legal Assistance 1: Federal Courts
Studies evidence and procedural issues, discovery (including document management), pretrial preparation, motions, pretrial conferences, and jury selection. Focuses on opening and closing statement strategies, elements of direct and cross-examination, and impeachment; how to present evidence using technology, including presentation software. Students participate in preparing and arguing motions in federal court and may participate in trial proceedings.
Grading Basis: Letter Grade

LAWS 6055 (3) Post-Conviction Criminal Procedure
Addresses sentencing process and schemes, direct appeals, probation modification and revocation, parole revocation, pardon and commutation processes, post-conviction litigation and appeal in both state and federal court, federal review of state convictions through habeas and/or the AEDPA, and ethical issues that arise in post-conviction proceedings.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Litigation and Procedure

LAWS 6059 (2-3) Legal Aid and Defender
Grading Basis: Letter Grade

LAWS 6060 (3) White Collar Crime Practicum
Addresses the non-trial portion of white collar criminal law. Drawing examples and problems from wire fraud, securities fraud, health care, and computer fraud contexts, explores a white collars case's major investigative and charging phases, corporate and organizational issues, as well as pleas and punishment.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Litigation and Procedure

LAWS 6065 (3) Media, Popular Culture, and the Law
Examines how the institutions, practices, and the very identity of the law are in part affected by the media through which law is apprehended and communicated. Hence the general question posed is: to what extent, and how are the forms and methods of the new media, having an effect on the perception, role and identity of law? 
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public

LAWS 6069 (4) Immigration Clinic
Emphasizes practice skills in immigration cases. Includes litigation before Federal Immigration judges, Board of Immigration Appeals, and Federal Circuit Court of Appeals.
Requisites: Requires prerequisite or corequisite course of LAWS 6353 (minimum grade D-).
Grading Basis: Pass/Fail

LAWS 6079 (4) Criminal Defense Clinic
Provides thorough grounding in problems of criminal defense. Students defend indigent misdemeanants. Develops working knowledge of courtroom skills, advocacy and evidence presentation. Concludes with full mock trial
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 6089 (4) Legal Assistance 2: Federal Courts
Studies evidence and procedural issues, discovery (including document management), pretrial preparation, motions, pretrial conferences, and jury selection. Focuses on opening and closing statement strategies, elements of direct and cross-examination, and impeachment; how to present evidence using technology, including presentation software. Students participate in preparing and arguing motions in federal court and may participate in trial proceedings.
Grading Basis: Letter Grade

LAWS 6099 (4) Family Law Clinic
Represents low-income clients in family law cases in local state district court. Students will gain court-based experience in dissolution’s and allocations of parental responsibilities. Seminar component includes instruction on substantive family law, related ethical issues, and theoretical backgrounds of poverty lawyering.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Litigation, Negotiation Alt Dispute Resolution

LAWS 6103 (2-3) Legal Ethics Professionalism
Examines the legal profession as an institution, its history and traditions and the ethics of the bar with particular emphasis on the professional responsibilities of the lawyer. Discusses the Model Rules of Professional Conduct.
Requisites: Restricted to Professional Year 1, 2, or 3 Law students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Jurisprudence and Perspective

LAWS 6104 (3) Wills and Trusts
Covers intestate succession; family protection; execution of wills; revocation and revival; will contracts and will substitutes; creation of trusts; modification and termination; charitable trusts; fiduciary administration, including probate and contest of wills; construction problems in estate distribution.
Requisites: Restricted to Professional Year 1, 2, or 3 Law students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Property
**LAWS 6105 (2) Defending Immigrants in Criminal and Immigration Courts**

Addresses legal procedures, pleadings and client advocacy matters involved in the representation of Spanish-speaking clients who have been arrested for criminal offenses and who have been issued a detainer by Immigration and Customs Enforcement for possible immigration removal proceedings. Provides overview of criminal defense concepts, and how criminal defense attorneys must be prepared to competently counsel their clients who are facing removal proceedings in the federal immigration system.

**Requisites:** Restricted to Law (LAWS) students only.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Family, Gender, and Health

**LAWS 6108 (3) Conflict of Laws**

Addresses the conflicts that arise when the significant facts of a case are connected with more than one jurisdiction, whether that jurisdiction belongs to a state, the federal government, or a foreign government. The subject is studied in its theoretical and historical context, with special emphasis on the international aspects of extraterritorial jurisdiction.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Jurisprudence and Perspective

**LAWS 6109 (2) Trial Advocacy**

Focuses on voir dire, opening statement, direct examination of witnesses and cross examination.

**Requisites:** Restricted to Professional Year 1, 2, or 3 Law students only.

**Grading Basis:** Pass/Fail

**Additional Information:** Departmental Category: Practice: Clinical and Simulation

**LAWS 6112 (2) Legislative and Policy Drafting**

Explores why and when to take depositions; drafting and objecting to deposition notices for individual deponents, non-party witnesses and corporate designees; drafting successful outlines, proper questions and objections; using exhibits; furthering case theory, making and using stipulations; using depositions in pretrial motions and at trial.

**Requisites:** Restricted to Law (LAWS) students only.

**Grading Basis:** Pass/Fail

**Additional Information:** Departmental Category: Practice: Clinical and Simulation

**LAWS 6117 (3) Survey of Business Enterprise Tax**

Makes a comparative survey of federal income taxation of C corporations, S corporations, and partnerships/limited liability companies, the principal entity choices for conducting business in the United States. Includes formation, operations, distributions, sales of interests, and liquidation. Suitable for students seeking introductory background for business or real estate practice, without the detail required for a tax specialist.

**Requisites:** Requires prerequisite course of LAWS 6007 (minimum grade D-).

**Grading Basis:** Letter Grade

**LAWS 6119 (1) Deposition Skills**

Provides valuable skills to assume active roles in the deposition process. Explores why and when to take depositions; drafting and objecting to deposition notices for individual deponents, non-party witnesses and corporate designees; drafting successful outlines, proper questions and objections; using exhibits; furthering case theory, making and using stipulations; using depositions in pretrial motions and at trial.

**Requisites:** Restricted to Law (LAWS) students only.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Practice: Clinical and Simulation

**LAWS 6122 (2) International Natural Resources Law and Policy**

Examines the suite of policy issues and legal ramifications associated with sustainable natural resource development. Examines most recent research on the “resource curse” theory. Examines recent policy developments and discussions that have occurred among industry, NGOs, multilateral development agencies and governments. Examines issues related to bribery and corruption in developing country environments and dispute resolution mechanisms at national and local levels.

**Requisites:** Restricted to Law (LAWS) students only.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Environment Natural Resources

Departmental Category: International Comparative Law

**LAWS 6123 (2) Legislative and Policy Drafting**

Studies the tax system as the nexus of politics and economics. Examines how various interests and entities use the many tools of political power to shape the tax system. Intended for those interested in politics and legislation, rather than for tax specialists.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Taxation
LAW 6157 (3) Corporate Taxation
Examines the federal income taxation of subchapter C corporations and their shareholders. Topics may include choice of entity, operations, distributions, redemptions, formations, liquidations, taxable asset and stock acquisitions, and tax-free reorganizations and acquisitions.
Equivalent - Duplicate Degree Credit Not Granted: ACCT 6450
Requisites: Requires prerequisite course of LAWS 6007 (minimum grade D-). Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Taxation

LAW 6167 (3) Partnership Taxation
Examines the federal income taxation of partnerships and other pass-through entities, which represent most small businesses in the United States. Topics may include the allocation of operating income and deductions among owners, contributions and distributions of property, and acquisitions and dispositions of partnership interests by partners.
Requisites: Requires a prerequisite course of LAWS 6007 (minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Taxation

LAW 6170 (1) E-Discovery
Exposes students to the legal and practical challenges presented by E-discovery and how electronically stored information shapes litigation and the pretrial process. Students gain an understanding of how electronically stored information can impact an overall discovery strategy and how this complicates a lawyer's ethical and professional obligations.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Taxation

LAW 6177 (1-2) Civil Tax Controversies
Explore critical rules that drive the administration of our tax system, as well as policy and strategic considerations in the application of these rules. This course would address return filing, statutes of limitations, and civil penalties; audit, deficiency assessments, and administrative appeals; litigation in U.S. Tax Court and U.S. District Court; and ethical considerations. This course would be relevant not only to students interested in litigation, but also to students with a transactional focus.
Requisites: Requires prerequisite course of LAWS 6007 (minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication

LAW 6179 (2) Trial Practice
Students apply the rules and doctrine of evidence in simulated trial settings. Must be taken with the corresponding section of Evidence.
Satisfies the trial practice requirement and counts 2 hours toward the 14 credit hour maximum of clinical hours counted toward graduation.
Grading Basis: Letter Grade

LAW 6201 (3-4) Agency, Partnership, and the LLC
Surveys agency law whose principles are important in many other areas of law. Studies the legal organizations commonly used by small businesses: partnerships and limited liability companies (LLCs).
Requisites: Restricted to Professional Year 1, 2, or 3 Law students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAW 6205 (3) Lawyers for Social Change
Helps students expand their perspective to understand the ways in which lawyers more broadly participate in social change work in this service learning class. Analyzes case histories of cause lawyering. The service learning component is based on the precept that one of the most effective ways to learn a role is to perform that role. Students will participate as social change lawyers by working with a local community to help it develop projects that the community believes will help it better itself.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public Policy

LAW 6206 (3) Litigation Drafting
Examines the intersection of civil procedure and legal writing. Emphasizes the drafting of persuasive adversarial litigation documents, including complaints, answers, motions in limine, motions to dismiss, motions of summary judgment, and jury instructions. Intensive writing and workshop format.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Research and Writing

LAW 6207 (2) Writing in the Regulatory State
Provides an umbrella for several advanced business law sections, each providing an intensive intellectual experience for law students by requiring them to connect deep concepts and knowledge from basic business courses to complex transactional environments. Students are required to solve client problems and negotiate transactions in the face of intricate and conflicting legal regimes that sprawl across doctrinal fields.
Grading Basis: Letter Grade

LAW 6209 (4) Sustainable Community Development Clinic
Provide legal and policy advice, guidance and representation related to sustainable development with a focus on fostering social enterprise, healthy communities and poverty reduction.
Grading Basis: Letter Grade

LAW 6210 (2-3) Comparative Law
Considers foreign solutions to certain key legal problems. Focuses on general problems of legal process, rather than on substantive rules. Topics include the role of lawyers, civil dispute resolution, criminal procedure and employment discrimination. Covers different legal systems in different years.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAW 6211 (3-4) Corporations
Covers formation of corporations and their management; relations among shareholders, officers and directors; the impact of federal legislation on directors' duties; the special problems of closed corporations.
Requisites: Restricted to Professional Year 1, 2, or 3 Law students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business
LAWS 6213 (2) Advanced Appellate Advocacy
Advanced study and practice of written and oral appellate advocacy. Builds on the first-year advocacy course, but provides more advanced techniques for brief writing, and preparing for and conducting oral argument. Students are required to write an appellate brief and participate in several oral arguments, and receive detailed, one-on-one critiques of work product.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Litigation and Procedure

LAWS 6217 (3) Estate and Gift Tax Planning
Explores structural and planning aspects of the current federal wealth transfer tax system, including the federal tax code provisions governing estate and gift taxation.
Equivalent - Duplicate Degree Credit Not Granted: LAWS 7217 or ACCT 6720
Requisites: Requires prerequisite course of LAWS 6104.
Recommended: Prerequisite LAWS 6007.
Grading Basis: Letter Grade

LAWS 6220 (3) Introduction to Jewish/Israeli Law
Outlines the history and basic principles of Jewish Law, Halakhic system that encompasses Biblical law and the Rabbinic law. Covers Legal Sources of the Jewish laws, interpretation, legislation, custom, precedence and legal reasoning. Explores the study of modern legal system of the state of Israel and examines the problematic nature of the incorporation of the Law of personal status in the Rabbinical and in general courts.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 6221 (3) Compliance
Covers requirements for corporate compliance programs and key components of them, including the role of audit committee, internal audit and ethics and compliance. Looks closely at different compliance regimes, including Sarbanes Oxley, the privacy and security components of the Health Insurance Portability and Accountability Act of 1996 (HIPAA), the evolution of other data privacy standards and the anti-corruption standards of the Foreign Corrupt Practices Act and the UK Bribery Act.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 6223 (3) Research and Writing in the Regulatory State
Focus on developing in students the research, writing and analytical skills necessary to operate within any highly regulated field. Students will work broadly on research and writing skills required in a regulatory practice and narrowly on how that applies to particular areas of expertise, to gain an understanding of a particular area of the law.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Research and Writing

LAWS 6226 (1-3) Advanced Legal Writing
Builds on skills learned in the first-year legal writing course to improve written legal analysis. Students will complete multiple written assignments and will receive individual feedback on their work. Sections vary significantly depending on the professor; please check the Legal Writing page of the Colorado Law website to read each professor’s course description.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Research and Writing

LAWS 6228 (1) Writing in Context
Provides the opportunity to improve legal writing and analytical skills in a particular field of law. This course will be offered in conjunction with a doctrinal course, and the writing assignments will be based on the law taught in the doctrinal course. Students enrolled in this course will need to be concurrently enrolled in the doctrinal course.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to 2L or 3L students only.
Grading Basis: Letter Grade

LAWS 6236 (2) Judicial Opinion Writing
Considers the contemporary American judicial opinion in historical and comparative context. Examines institutional constraints and emerging challenges to judicial decision-making. Analyzes individual opinion authors' writing styles. Builds upon the first-year legal-writing curriculum. Challenges students to develop a personal style and approach to writing and editing opinions.
Grading Basis: Letter Grade

LAWS 6246 (2) Introduction to United States Legal System/Legal Reasoning, Research and Writing
Introduces students without a law degree to the basic structure and content of the United States legal system, examining how the three branches of government at the state and federal levels make law and policy in the United States. The course will provide a basic introductory overview of the following: the various sources of law, including an understanding of how statutes are enacted by legislative institutions; the role of the United States court system in interpreting laws; application of judicial precedent in common-law systems; trial and appellate court procedures; and judicial review standards. The course will also introduce students to the methodology of American law, including legal reasoning, research, and writing, through a variety of in-class and outside research and writing assignments.
Grading Basis: Letter Grade

LAWS 6270 (1-2) Law and Mathematics
Covers basic mathematical concepts frequently encountered in the practice of law. Examines the relationships between evidence, calculation, and truth. Intended especially for students who lack confidence in their math skills and/or have not previously studied statistics, but all are welcome.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Electives
LAWS 6271 (1-2) Special Topics: Deals Lab
Provides an umbrella for several advanced business law sections, each providing an intensive intellectual experience for law students by requiring them to connect deep concepts and knowledge from basic business courses to complex transactional environments. Students are required to solve client problems and negotiate transactions in the face of intricate and conflicting legal regimes that sprawl across doctrinal fields.
Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite LAWS 6211.
Grading Basis: Letter Grade

LAWS 6280 (1) Intensive Intro to Financial Info, Accounting and the Law: Accounting Boot Camp
Exposes students to the basics of financial accounting and how and why lawyers encounter accounting problems. Students will leave the course with an understanding of the basic framework of accounting, including the double-entry method, balance sheets, income statements, and statements of cash flows; time value of money; discount rates; basic methods of business valuation; and risk and diversification concepts.
Grading Basis: Letter Grade

LAWS 6281 (3) Accounting Issues for Lawyers
Studies accounting and auditing problems in the form they are placed before the lawyer, including a succinct study of basic bookkeeping, in-depth legal analysis of the major current problems of financial accounting, and consideration of the conduct of the financial affairs of business.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 6301 (3) Introduction to Intellectual Property Law
Provides an overview of our nation’s intellectual property laws, including patents, copyrights, trademarks and trade secrets. Discusses other matters related to intellectual property, including licensing, competition policy issues and remedies.
Equivalent - Duplicate Degree Credit Not Granted: TLEN 5245
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication

LAWS 6302 (3) Water Resources
Analyzes regional and national water problems, including the legal methods by which surface and ground water supplies are allocated, protected, and managed.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 6308 (2) Law and Neuroscience
Covers neuroscience basics and explores the relationship between the law and recent neuroscientific discoveries in domains including pain, memory, lie detection, psychopathy and criminal responsibility.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Jurisprudence and Perspective

LAWS 6311 (1) National Security and Privacy Law
Introduces national security and privacy law and relevant law, regulations, rules, policies, and guidelines.
Grading Basis: Letter Grade

LAWS 6315 (2) The Prosecutor's Role in the Criminal Justice System
Designed to familiarize students with the professional and ethical duties of the prosecutor in the criminal justice system, with the goal of encouraging students to think about the role that prosecutors play. While the focus of the materials and presentations will center on the Colorado criminal Justice system, the concepts and principles addressed translate to all state systems and the federal system. National trends and legislative policy decisions related to criminal law, and their potential impact on public safety and prosecution efforts will also be discussed.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Criminal

LAWS 6318 (3) Economic Analysis of Law
Introduces the basic elements of economic theory and emphasizes demand and utility, cost and optimality.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Jurisprudence and Perspective

LAWS 6321 (2-3) Computer Crime
Explores legal issues that judges, legislators, prosecutors, and defense attorneys confront as they respond to recent explosions in computer-related crime. Includes the Fourth Amendment in cyberspace, the law of electronic surveillance, computer hacking and other computer crimes, encryption, online economic espionage, cyberterrorism, First Amendment in cyberspace, federal/state relations in enforcement of computer crime laws, and civil liberties online.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication

LAWS 6328 (3) Financial Decision-Making
Applies concepts, ideas, insights and principles of modern finance to real-world situations that lawyers will face in many areas of law. Analyzes present discounted value (time value of money), risk versus return, asset diversification, portfolio theory, efficient markets hypothesis, arbitrage, financial options, real options, financial signals, human capital, behavioral finance, socially responsible investing, neurofinance, happiness finance and financial bubbles and crashes.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication

LAWS 6331 (1) The Technology of Privacy
Explores the escalating debates by policymakers, scholars, advocates and industry representatives about the growing spread of tracking and surveillance in society. Debates are being spurred by the pace of changes to technology and particularly of changes to Internet and mobile technology. Practitioners in information privacy law or technology policy must understand the past, present, and likely future, of the technology of privacy.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication
LAWS 6338 (1) Understanding the Global Financial Crisis
Examines the causes and consequences of the global financial crisis. Analyzes financial instruments and institutions at the heart of the crisis – including asset-backed securities, credit derivatives, government-sponsored entities, credit rating agencies, hedge funds, and financial conglomerates – and places them in the context of a larger "shadow banking system". Examines the building blocks of financial reform.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Jurisprudence and Perspective

LAWS 6353 (3) Evidence
Studies the methods and forms of proof in litigation, including detailed consideration of hearsay, impeachment of witnesses, relevancy and certain restrictions on authentication and best evidence doctrines, and privileges.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Litigation and Procedure

LAWS 6361 (2-3) Information Privacy and Cybersecurity
Examines the laws that regulate the basic technologies of the internet and the management of information in the digital age. It examines the most significant statutes, regulations and common law practices that comprise this emerging legal framework.
Grading Basis: Letter Grade

LAWS 6363 (5) Evidence and Trial Practice
Explores the laws that regulate the basic technologies of the internet and the management of information in the digital age. It examines the most significant statutes, regulations and common law practices that comprise this emerging legal framework.
Grading Basis: Letter Grade

LAWS 6373 (3) Federal Litigation: Everything but the Trial
Studies methods and forms of proof in litigation, including detailed consideration of hearsay, impeachment of witnesses, relevancy and certain restrictions on authentication and best evidence doctrines, and privileges. Applies rules and doctrine of evidence in simulated trial settings. Combined Evidence and Trial Practice course. Satisfies the trial practice requirement and counts two hours toward the 14 credit hour maximum in clinical hours.
Grading Basis: Letter Grade

LAWS 6383 (1) Applied Evidence
Provides the opportunity to improve the legal writing and analytical skills by practicing written analysis based on the law of Evidence. Professors Griffin and Bloom designed materials specifically for this course, which is designed to be taken concurrently with Professor Bloom's Evidence class. Student receive individual feedback on every exercise and assignment.
Requisites: Requires corequisite course of LAWS 6353.
Grading Basis: Letter Grade

LAWS 6400 (3) International Law
Examines the nature, structure and sources of international law, the relationship between international law and domestic U.S. law, the role of international organizations such as the United Nations, the methods of resolving international disputes, the bases of international jurisdiction, and select substantive areas of international law that may change from semester to semester.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 6401 (1) Foreign Corrupt Practices, Anti-Bribery and Anti-Trafficking
Examines Foreign Corrupt Practices Act and similar legal regimes that target bribery and trafficking.
Grading Basis: Letter Grade

LAWS 6410 (3) International Trade Law
Examines the law of the World Trade Organization and the General Agreement on Tariffs and Trade. Examines rules restraining national restrictions on trade that addresses tariff and non-tariff barriers, discrimination, regionalism, anti-dumping, countervailing duties and safeguards. Considers the relationship between trade and other regulatory areas or social values, such as environmental protection, health and safety standards, human rights, intellectual property protection.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 6415 (2-3) Drug Product Liability Litigation: Principles and Practice
Explores product liability lawsuits and litigation. Explores law of product liability and the tools necessary to successfully litigate these cases. Considers the theory and practice of lawsuits now and after the Supreme Courts landmark decision in Wyeth v. Levine (2009). Focuses on similarities and differences between the special context of FDA regulation. Considers the legal principles governing such lawsuits such as inadequate warning, the Learned intermediary Doctrine and medical causation.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 6420 (1) Law and the Holocaust
Examines comparative law, jurisprudence, conflicts of laws and international law. Examines the Nazi philosophy of law emanating from its egregious racial ideology, and how it was used to pervert Germany's legal system to discriminate against, ostracize, dehumanize and eliminate certain classes of people. Studies the role of international law in rectifying the damage by bringing perpetrators to justice and constructing a legal system designed to prevent a repetition.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 6430 (1-2) International Trade Litigation Lab
Examines international trade litigation as practiced in the U.S. This course will provide an overview of antidumping and countervailing duty law and regulations. Students will interpret and analyze case precedent and argue a hypothetical case in this area of law. Effects of trade cases on foreign governments and economies and on companies' business practices will be examined.
Requisites: Requires prerequisite of LAWS 6410 (minimum grade C-) or co-requisite of LAWS 6410.
Grading Basis: Letter Grade
LAWS 6458 (2) Creative Writing for Lawyers
Requires substantial writing and reading. Begins with participants bringing to class a piece of creative writing consisting of three to five thousand words. Each session consists of one hour of discussion and critique of an assigned writing exercise that everyone has prepared for the class, and one hour of workshop critique of each participant's longer work, in turn.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Research and Writing

LAWS 6501 (2-3) The Practice of Labor and Employment Law
Focuses on aspects of the practice of employment law, rather than the examination of legal doctrines. Discusses typical issues presented in advising and litigating on behalf of employers and employees. Topics include special attention to ethical issues.
Grading Basis: Letter Grade

LAWS 6502 (2) Wildlife and the Law
Examines the law that protects wildlife, its habitat and biodiversity. Explores human-caused threats including habitat destruction, illegal trade and climate change. Focuses on statutes, case law, environmental ethics, and current controversies to highlight legal, scientific and political strategies for protecting biodiversity. Particular emphasis is placed on the U.S. Endangered Species Act.
Grading Basis: Letter Grade

LAWS 6503 (3) Law and Social Sciences
Explores disparities in criminal sentencing and death penalty cases; quality and effectiveness of legal representation for indigent criminal defendants; relationship between modifications in traditional steps in legal process; connection between alternative tort doctrines and volume of litigation, trial rates, plaintiff success rates and award size; impact of congressional statutes and US Supreme Court decisions on handling and outcomes of habeas corpus petitions.
Grading Basis: Letter Grade

LAWS 6508 (1) The Philosophy of Law
Questions the nature of law, characteristics and considerations of a legal system, rights and from where they come; thinking like a lawyer, basic techniques of legal reasoning, difference between doctrinal and normative legal analysis. Explores law's frontier and what distinguishes law from morality or politics. Focuses on influential texts from the end of WWII to the end of the Cold War.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade

LAWS 6510 (2-3) International Environmental Law
Examines international environmental law, including transboundary impacts and global issues. Addresses such issues as intergenerational equity, principles of compensation, and if international environmental norms should receive special environmental norm consideration. A course in public international law is not a prerequisite, but students who have not taken such a course will probably find it useful to do some additional background reading. Offered in alternate years.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 6511 (2-3) Labor Law
Relates to labor unions and other collective aspects of employment, including the right of workers to form and join unions, to provoke collective bargaining and to strike and engage other forms of protest. Focuses on domestic law at the federal level and with a particular statute, the National Labor Relations Act, and the workings of particular agency, the National Labor Relations Board. Engages other sources of law, including constitutional law, as well as judicial decisions and other statutes.
Grading Basis: Letter Grade

LAWS 6518 (3) Introduction to Islamic Law
Examines the Formative Era of Islamic Law, through its sources and methodologies. Examines the Established Era of the Schools of Law including differences between Sunni and Shiite Islamic Law. Examines human rights, terrorism, political Islam, women's rights and rights of religious minorities, criminal law, and finance law, and the growing role of fundamentalism in these areas. Examines the relevance of Islam and Islamic law in today's world.
Grading Basis: Letter Grade

LAWS 6521 (3) Employment Law
Entails a survey of employment-at-will, workplace safety, workplace torts; ERISA and retirement, workers' compensation; controls on hours and wages; health insurance; disability and unemployment compensation.
Grading Basis: Letter Grade

LAWS 6525 (2-3) Elder Law
The counseling and legal representation of older persons and their representatives. Topics may include: legal aspects of health and long-term care planning, public benefits, surrogate decision making, legal capacity, the conservation, disposition, and administration of older persons' estates, the implementation of their decisions concerning such matters, and the broad ethical issues of representing clients in this field of practice.
Grading Basis: Letter Grade

LAWS 6528 (3) Capital Punishment in America
Surveys the history and current status of capital punishment in the United States, with a critical examination of arguments both for and against the death penalty.
Grading Basis: Letter Grade
LAWS 6531 (3) Comparative Employment Law
In today's globalized world, lawyers are increasingly likely to encounter issues involving foreign employment. Provides substantive knowledge about foreign employment law and its relation to American law, as well as a comparative framework to assess the relative merits of the American approach to employment law.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 6540 (3) Global Law & Global Governance
Addresses contemporary theories of globalization. We will explore questions such as: What is globalization, and in particular, what is the globalization of law? What is the extent of legal globalization, and how can we know? Are global law and global governance possible? How are these categories any different from what has traditionally been called "international law"? Our search for answers will be guided by a selection of recent books from theorists of globalization and global governance, such as David Held, Immanuel Wallerstein, and David Kennedy.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 6541 (2) Colorado Worker's Compensation Theory and Practice
Introduces the legal theories that underlie the no-fault compensation system, its historical evolution, policy conundrums and ethical quandaries. Teaches the application of the procedural rules most frequently utilized in administrative setting. Studies the Workers’ Compensation Act, the Workers’ Compensation Rules of Procedure and the Office of Administrative Courts Rules of Procedure.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 6551 (3) Employee Benefits and Compensation Law
Examines past and present employee benefits and compensation practices among private and public employers. Covers ERISA and defined benefit, defined contribution, and welfare benefit plans; equity awards granted by corporations; equity awards granted by LLCs and partnerships; nonqualified deferred compensation and Section 409A of the Internal Revenue Code; golden parachutes and Sections 280G and 4999 of the Internal Revenue Code.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 6555 (2-3) Disability Rights
Explores the theories of disability, including whether disability is the product of society/social construction or medicine. The course will then explore some of the major federal protections for disability, including the Americans with Disabilities Act, which prohibits discrimination in employment and public accommodations, and the Individuals with Disabilities in Education Act.
Grading Basis: Letter Grade

LAWS 6601 (3) Corporate Transactions in Latin America
Introduces students to an overview of Latin American commercial and civil law systems, looking closely at Napoleonic and Chilean law. Explores the choice legal structures available for Latin American corporations; contract law that regulates business transactions in Latin America; and exploration of the way in which Latin American countries have joined international business trade agreements that pertain to Latin American nations such as the Vienna Convention and Gatt.
Grading Basis: Letter Grade

LAWS 6602 (3) Cultural Property Law
Concerns domestic and International regulation of property that expresses group identity and experience. Organized around traditional categories of property (real, personal and intellectual), covers historic preservation, archeological resources, art and museum law, with attention to indigenous people's advocacy on burial sites, traditional lands, ceremonies, music, symbols, ethnobotany, genetic information and language. May satisfy upper-level writing requirement.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 6702 (1) Climate Justice
Introduces the field of climate justice and seeks to identify legal and policy tools for advancing fair outcomes in climate change decision making. Climate justice is concerned with the intersection of race and/or indignity, poverty, and climate change.
Grading Basis: Letter Grade

LAWS 6708 (1-3) Special Topics
Explores special topics in law.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Jurisprudence and Perspective

LAWS 6712 (3) Climate Change Law and Policy
Examines the science of climate change and the broader role of science in public policymaking. Reviews the changing legal landscape to abate greenhouse gas emissions and key issues in policy design. Reviews the Supreme Court's April 2, 2007, decision in Massachusetts v. EPA, overturning EPA's refusal to regulate greenhouse gas pollution from motor vehicle tailpipes and the aftermath in the courts, Executive Branch and Congress.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 6722 (3) Energy Law and Regulation
Provides an introduction to energy law and regulation in the United States. Covers basic principles of rate regulation and public utilities, the division of jurisdiction between federal and state governments and the key federal statutes and regulatory regimes governing natural gas, electricity and nuclear power. Focuses on the basic federal frameworks for natural gas and electricity regulation, with an emphasis on understanding the messy and uneven transition to wholesale competition in these sectors and, in the electricity context, the experience with state restructuring and retail competition.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
LAWS 6732 (3) Renewable Energy Project Finance and Development
Examines renewable energy and how legal topics impact financing projects. Reviews structure, regulation, and functioning of electric energy industry and laws applicable to development, ownership and operation of renewable energy projects across technologies. Addresses legal policy, economic and financing issues associated with expansion and improvement of the transmission grid to support renewable energy development.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 6801 (1) Anti-money Laundering Law
Explores domestic and foreign laws against money laundering, including know your customer and bank secrecy rules.
Grading Basis: Letter Grade

LAWS 6803 (3) Quantitative Methods
Equips students to deal effectively with experts, whether as consultants or as adverse witnesses, and to enable the identification of a quantitative issue. Helps students to become multi-dimensional in quantitative literacy. Enables students to be comfortable reading statistical arguments, performing basic analyses, writing about statistics, expressing quantitative ideas in graphs, questioning an expert, and understanding the power of computer programming.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Litigation and Procedure

LAWS 6808 (1) LILAC Symposium Course: Leadership in Law and Community
Addresses issues in law, community, and leadership, explored through multiple pedagogies in teaching and learning, in a symposium-style setting. After introductory classes on the theme of leadership in law and community, and related topics of professional responsibility and personal identity, social change, creative lawyering, the course will turn to spring service projects in law and community.
Repeatable: Repeatable for up to 4.00 total credit hours.
Grading Basis: Pass/Fail

LAWS 6813 (2) Problem-Solving, Professional Judgment, and Decision Making
Drawing from materials in psychology, behavioral economics, and mathematics, the course studies a range of patterns, fallibilities, and best practices concerning the complex problems commonly encountered by attorneys. Topics include general problem-solving strategies, techniques for operating in environments of uncertainty and complexity, empirically supported cognitive biases and errors, and strategies for recognizing and overcoming those errors.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 6816 (1-2) Problem-Solving and Writing
Enhances students’ ability to solve problems and writing concise coherent memos to clients or other legal documents outlining their legal analysis and strategic thinking. Uses diagnostic exams in which students are given multiple documents for fact patterns to begin their analysis.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Research and Writing

LAWS 6823 (1-2) Legal Reasoning
This course of seven 100-minute classes aims to present legal reasoning skills crucial to the crafting and criticism of legal arguments. The classes will cover seven topics: rules and standards, the art of the legal distinction, dealing with legal contradictions, facts and framing, level of abstraction, baselines, and legal interpretation.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 6836 (1) Special Topics in Legal Research
Builds upon first-year legal research problem solving skills by exposing students to the nuances of research topics in a specialized topic and tracking related doctrinal classes, e.g., environmental and natural resources law.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Research and Writing

LAWS 6856 (2-3) Advanced Legal Research
Offers an in-depth look at research resources and methods. Includes sources from the judicial, legislative, and executive branches of federal and state government; research in topical areas such as environmental law, taxation, and international law; and extensive coverage of secondary and nonlaw resources. Covers both print and electronic sources. Students will have several assignments and a final project.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Research and Writing

LAWS 6866 (1) Colorado Legal Research
Surveys resources and methods to effectively research Colorado law. Covers primary and secondary resources including Colorado statutes, cases and digests, regulations, and constitution and practice materials. Covers how to research Colorado municipal law and other Colorado topics.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Research and Writing

LAWS 6876 (2) Legal Research Skills for Practice
Focuses on preparing students to research in a transactional law legal practice. Students will learn how to research in transactional law subject areas using practitioner-focused research platforms, including Westlaw Practical Law, Lexis Practice Advisor, and Bloomberg Law. Students will also learn how to research corporate and industry data, property records and dockets as well as acquire other competencies and skills helpful for researching in a transactional law practice.
Requisites: Requires prerequisite course of LAWS 5646 (minimum grade D-). Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Research and Writing

LAWS 6886 (3) Advanced Legal Research and Analysis
Develops students’ ability to think critically about and solve current legal problems. Evaluates the benefits and detriments of both print and on-line legal resources, and how to create an efficient research plan. Formulates and applies research strategies to real-world legal problems, and uses legal analysis to refine and improve research results. Note: students who have taken LAWS 6856 may not enroll in this course.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Research and Writing
LAWS 6896 (3) Advanced Legal Research and Writing for Practice
Advances and improves legal research and writing skills learned in first year. Proposes variety of assignment types across substantive and procedural areas to prepare for experiences as summer associates or new attorneys.

Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Research and Writing

LAWS 7003 (3) Federal Courts
Looks at structure and jurisdiction of the federal courts, emphasizing problems of federalism and separation of powers and their relationship to resolution of substantive disputes.

Grading Basis: Letter Grade
Additional Information: Departmental Category: Litigation and Procedure

LAWS 7004 (3) Advanced Deals Lab: Real Estate Transactions
Using documents from actual real estate transactions, this course will focus on the drafting and negotiation skills required for the successful practice of real estate transaction law. Students will negotiate and draft actual real estate transactional documents.

Requisites: Requires prerequisite course of LAWS 6004 (minimum grade D).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Research and Writing

LAWS 7005 (3) Internet and Media Law
Provides a survey of common, statutory, and regulatory law as applied to the media, including the internet. Topics include: the law as it affects the gathering of news; publisher liability online and offline; First Amendment issues; and related regulation of the internet and computer technologies.

Grading Basis: Letter Grade

LAWS 7011 (3) Creditors’ Remedies and Debtors’ Protections
Examines typical state rights and procedures for the enforcement of claims and federal and state law limitations providing protection to debtors in the process. Includes prejudgment remedies, statutory and equitable remedies, fraudulent conveyance principles and exemptions and other judicial protections afforded debtors.

Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 7013 (2) Supreme Court Decision Making
Students deliberate over several important cases as “Justices” of the Supreme Court. Class is divided into three "Courts" with the first hour spent in deliberation and the second hour in discussion of the deliberative process as well as the substantive issues.

Grading Basis: Letter Grade
Additional Information: Departmental Category: Litigation and Procedure

LAWS 7015 (3) First Amendment
Examines speech and religion clauses of the First Amendment. Includes the philosophical foundation of free expression, analytical problems in First Amendment jurisprudence and the relationships between free exercise of religion and the separation of church and state.

Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public

LAWS 7019 (1-3) Advanced Clinical Practicum
Enables a clinical student an optional 1-3 credits to complete advanced legal work in the Clinical Education Program. Course must follow enrollment in an existing clinical offering already successfully completed. Permission of the appropriate clinical faculty member required. For each credit taken, a clinical student must complete a minimum of 50 hours of legal work, all of which shall be graded pass/graded. A clinical student may complete 1-3 credits of work over the course of no more than two semesters. A clinical student may earn no more than 3 credits total over the student’s law school career.

Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 7021 (3-4) Bankruptcy
Briefly examines nonbankruptcy business rehabilitation devices, followed by basic principles of federal bankruptcy law and the bankruptcy court system. Concludes with attention to business reorganizations under Chapter 11 of the Bankruptcy Code.

Recommended: Prerequisites LAWS 6001 and LAWS 7011.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 7023 (2) Jury Selection and History
Studies the history of the jury from ancient times through the implications of Apprendi, the grand jury from the time of Henry II through modern federal practice, and current jury selection procedures, both federal and Colorado, both civil and criminal. Experienced trial attorneys will work with students to demonstrate jury selection.

Grading Basis: Letter Grade
Additional Information: Departmental Category: Property

LAWS 7024 (2-3) Real Estate Planning
Considers various contemporary legal problems involved in the ownership, use, development, and operation of real estate, with particular emphasis on the federal income tax aspects of these issues. Topics may include sales, leases, and loans; choice of entity; leveraged partnerships; tax credit financing, foreign and tax-exempt investors; and real estate investment trusts.

Requisites: Requires prerequisite or corequisite course of LAWS 6007 (minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Property

LAWS 7025 (3) Civil Rights
Presents a comprehensive study of federal civil rights statutes briefly reviewed in other courses (e.g., Constitutional Law or Federal Courts). Studies federal civil rights statutes, their judicial application, and their interrelationships as a discretely significant body of law of increasing theoretical interest and practical importance.

Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public

LAWS 7029 (3) Appellate Advocacy Clinic
Provides a clinical course that enables students to work on briefs of criminal cases being handled by the Appellate Division of the Public Defender or Attorney General's Office. Instruction in oral advocacy is given. Enrollment limited to eight students.

Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation
LAWS 7031 (3) Regulation of Financial Institutions
Focuses on the core banking law and works outward to cover a broader spectrum of bank-like financial institutions. Covers bank licensing, restrictions on bank business, regulating safety and soundness of banks, consumer protection of depositors and other bank customers and regulatory examination and enforcement.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 7045 (3) Criminal Procedure: Adjudicative Process
Focuses primarily on criminal procedure at and after trial. Looks at bail, prosecutorial discretion, discovery, plea bargaining, speedy trial, jury trial, the right to counsel at trial, double jeopardy, appeal and federal habeas corpus.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Litigation and Procedure

LAWS 7051 (1-3) Transactional Drafting
Focuses on principles of contemporary transactional drafting. Skills gained will be applicable to transactional practice and will also be useful to litigators. Students will learn to translate, draft and review contracts, as well as how to add value to deals.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade

LAWS 7055 (3) Education Law
Considers issues raised by the interaction of law and education. Issues may include the legitimacy of compulsory schooling, alternatives to public schools, socialization and discipline in the schools and questions of equal educational opportunities.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public Policy

LAWS 7058 (3) Conflict of Laws
Grading Basis: Letter Grade

LAWS 7061 (1) Contract Drafting
 Begins with value creation by transactional lawyers and emphasizes the opportunity for lawyers to reduce information and agency costs, and mitigate strategic behavior by using tools such as disclosure, representation and warranties, incentive compensation and earnouts. Shifts to negotiation and drafting, focusing on basic drafting principles and strategies to advance one’s clients' interests. Introduces the basic framework of contracts (recitals, reps, and warranties, capitalized terms, definitions, indemnifications and escrow).
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Business

LAWS 7065 (3-4) Immigration and Citizenship Law
Covers legal issues pertaining to noncitizens of the United States, especially their right to enter and remain as immigrants and nonimmigrants. Topics include admission and exclusion, deportation, and refugees and political asylum. Approaches topics from various perspectives, including constitutional law, statutory interpretation, planning, ethics, history and policy.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 7071 (2-3) Advanced Transactional Drafting
Provides students with the opportunity to further develop skills gained in LAWS 7051 and put them to use in simulations and business contexts across various areas of practice. Students will be asked to draft industry specific contract provisions, revise existing contracts, counsel and negotiate on behalf of clients and work through ethical dilemmas encountered by transactional attorneys.
Requisites: Requires a prerequisite course of LAWS 7051 (minimum grade D-).
Grading Basis: Letter Grade

LAWS 7079 (2) Wrongful Convictions
Focuses on the issues and remedies in cases of people who have been convicted, whose traditional appellate remedies have been exhausted, and who continue to claim actual innocence. Preference given to those who have taken or are taking more criminal procedure courses.
Grading Basis: Letter Grade

LAWS 7085 (2) Law and Religion
Uses judicial decisions as well as historical and theoretical materials to explore significant aspects of the relationship between law and religion. The religion clauses of the First Amendment are a central but not exclusive subject of study. Offered in alternate years.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Jurisprudence and Perspective

LAWS 7095 (2) Women in Law
Explores the role of women in the legal system by looking at women as parties, jurors, witnesses, lawyers, law professors, and judges. Explores the relationship of law and society to women as victims and offenders. Investigates law and society's response to adoption, lesbian/gay issues, rape, surrogate and bad mothers, and sexual harassment.
Grading Basis: Letter Grade

LAWS 7100 (2-3) International Criminal Law: Theory and Practice
Explores students to the rapidly growing body of jurisprudence, both international and national, wherein international humanitarian and human rights law are being applied for the purposes of prosecution, trial and punishment of individuals alleged to be responsible for the commission of war crimes, crimes against humanity, genocide and, more recently, terrorism.
Requisites: Requires prerequisite course of LAWS 6400 (minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 7101 (4) Deals: Engineering Financial Transactions
Explores the business lawyer's role in creating value by helping clients identify, assess and manage business risks through efficient contract design while achieving the optimal legal, tax or regulatory treatment for the deal. Includes case studies of actual transactions.
Grading Basis: Letter Grade

LAWS 7102 (2-3) Oil and Gas
Deals with the legal problems associated with private arrangements for the ownership and development of oil and gas: deeds and leases to oil and gas rights, trespass, adverse possession, implied covenants in leases, conveyances of fractional interests, and the interaction of private rights and conservation regulation.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian
LAWS 7103 (2-3) Ethics and Compliance Capstone
Integrates skills and knowledge from the introductory compliance course and other courses in law school compliance curriculum as students develop a compliance program for an institution.
Requisites: Requires prerequisite course of LAWS 6221 (minimum grade D).
Grading Basis: Letter Grade

LAWS 7105 (3) Family Law
Focuses on nature of marriage, actions for annulment and divorce, problems of alimony and property division, separation agreements, and custody of children. Also considers illegitimacy, abortion, contraception, the status of married women in common law and under modern statutes and relations of parent and child.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 7106 (1-2) Moot Court Competition
Offers an intensive involvement in legal research, appellate brief writing and oral arguments in a competitive context. Student finalists may continue involvement in regional and national competitions.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 7111 (3) Contract Theory: Collisions of Contracting and Culture
Explores various contract theories and principles emanating from classical and neoclassical law, legal realism, law and economics, critical legal studies, law and society, relational theory, and others. Considers and critiques these theories as applied to particular contracting cultures, especially as applied to construction contracts.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 7115 (3) Juvenile Justice
Covers a wide array of issues dealing with the legal rights of the unborn, children and juveniles. Covers the legal status of parent-child abuse, delinquency and crime, and emancipation.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 7116 (1) Barristers Council
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Pass/Fail

LAWS 7121 (3) Advanced Contracts: Commercial Transactions
Studies Article 2 and Article 2A of the Uniform Commercial Code, together with the Convention and the International Sale of Goods. Advanced contracts topics are explored in depth. Among other subjects, warranties, title, remedies and risk of loss in the sale of lease of goods will be studied.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 7122 (2-3) Mining and Mineral Development Law
Addresses major issues affecting the development of mineral resources through mining activity. Includes the regulation of the impacts of mining on the environment on both public and private land. Covers the Mining Law of 1872, the Federal Coal Leasing Amendments and state regulation of the impacts of mining on the environment.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 7125 (2) Advanced Domestic Relations
Offers advanced study of several domestic relations subjects, including both theoretical and lawyering issues. Tentative subjects include discovery, client interviewing and deposition preparation, asset valuation, working with expert witnesses, children as clients, and alternative dispute resolution.
Recommended: Prerequisite LAWS 7105.

LAWS 7126 (1-2) Transactional Competition
Covers a broad array of topics, including, but far from limited to, contract negotiation, health law, mergers and acquisitions, and client counseling. A valuable opportunity for students to gain experience outside the classroom and develop tactics for interacting with clients, negotiation, techniques, and transactional drafting skills. Provides great opportunities for networking. A division of Barristers' Council.
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 7128 (2-4) Jurisprudence
Addresses a number of fundamental questions, such as: What is law? What should it be? How is it created? Our readings consist of cutting-edge articles from leading modernist/postmodernist schools of thought including legal formalism, legal realism, interpretive theory, law and economics, feminist jurisprudence, critical legal studies and law and literature.
Equivalent - Duplicate Degree Credit Not Granted: LAWS 8128
Grading Basis: Letter Grade
Additional Information: Departmental Category: Jurisprudence and Perspective

LAWS 7132 (3) Energy, Insecurity, Sustainable Law
Examines why national security deals not only with armed aggression and the ability to thwart military invasions or subversion, but also includes critical threats to vital national and international support systems such as the economy, energy and the environment.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 7135 (3) Parent, Child, and State
Examines the legal rights of parents and children in a constitutional framework, as well as the state's authority to define and regulate the parent-child relationship. Addresses rights of parents and children to freedom of expression and religious exercise, termination of parental rights and adoption, paternity orientation and culture in defining the family.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 7138 (3) Legal Philosophy
Grading Basis: Letter Grade
LAWS 7145 (3) Comparative Family Law
Examines and critiques law, legal institutions and traditions of the
country of focus and the US as they affect children, families, and work.
Enhances research and writing skills, including field and international
research. Contributes to host country through scholarship and service.
Increases cultural competence through active engagement with peers
and with social justice issues in another country. Includes required field
study component and service learning project over spring break.
**Requisites:** Restricted to Law (LAWS) students only.
**Grading Basis:** Letter Grade
**Additional Information:** Departmental Category: Family, Gender, and Health

LAWS 7154 (3) Land Use Planning
Explores mechanisms for public control of private land uses, such
as planning, zoning, and regulation of land development; including
consideration of federal and state constitutional and statutory limitations
on local governments. Offered in alternate years.
**Grading Basis:** Letter Grade
**Additional Information:** Departmental Category: Property

LAWS 7159 (2) Advanced Trial Advocacy
Offers an advanced course covering trial practice elements. Open only to
students who have taken LAWS 6109.
**Requisites:** Restricted to Law (LAWS) students only.
**Grading Basis:** Pass/Fail
**Additional Information:** Departmental Category: Practice: Clinical and Simulation

LAWS 7164 (2) Land Conservation Law
Focuses on private land conservation efforts in the United States, and
particularly Colorado, also considers public land conservation programs.
Analyzes real property principles and instruments used to protect land,
and the development and acceptance of conservation easements in
gross as a mechanism for protection, financing mechanisms for land
conservation, including direct government funding and indirect
funding through tax incentives at the federal, state and local levels.
Understanding of Real Property and Tax concepts helpful.
**Grading Basis:** Letter Grade
**Additional Information:** Departmental Category: Property

LAWS 7169 (2) Motions Advocacy
Provides practical training in preparing and arguing pretrial, post-
trial and chambers motions to an experienced federal judge based on
materials from actual case files. Assigns some research papers. Limited
to students with interest in trial advocacy and willingness to participate
in confrontational exercises.
**Requisites:** Restricted to Law (LAWS) students only.
**Grading Basis:** Pass/Fail
**Additional Information:** Departmental Category: Practice: Clinical and Simulation

LAWS 7200 (3) Anthropology of Law
Reviews the relationship between the social and cultural features of both
developed and developing country societies and the formal and informal
legal institutions within them. Considers the nature of social control
and constraint, judicial reasoning, fact finding, conciliation, mediation and
arbitration, and legal discourse.
**Grading Basis:** Letter Grade

LAWS 7201 (3) Antitrust
Studies American competition policy: collaborations among competitors,
including agreements on price and boycotts, definition of agreement,
monopolization, vertical restraints such as resale price maintenance and
territorial confinement of dealers. Offered in alternate years.
**Grading Basis:** Letter Grade
**Additional Information:** Departmental Category: Business

LAWS 7202 (3) Environmental Law
Examines and analyzes important federal pollution control statutes,
including the National Environmental Policy Act, the Clean Air Act and
Clean Water Act, Solid Waste Act, and Superfund. Considers related
economic theory, ethics and policy issues.
**Grading Basis:** Letter Grade
**Additional Information:** Departmental Category: Environment, Natural Resources and American Indian

LAWS 7205 (3) Administrative Law
Covers practices and procedures of administrative agencies and
limitations thereon, including the Federal Administrative Procedure Act,
and the relationship between courts and agencies.
**Grading Basis:** Letter Grade
**Additional Information:** Departmental Category: Government and Public

LAWS 7207 (3) Federal Estate and Gift Tax
Analyzes the federal estate and gift taxation of inter vivos and
testamentary transfers, introduces the federal income taxation of estates
and trusts, and explores elementary estate planning. Students may
receive credit for this course and either Estate Planning (LAWS 7217) or
Estate and Gift Tax Planning (LAWS 6217), but not for both LAWS 7217
and LAWS 6217.
**Requisites:** Restricted to Law (LAWS) students only.
**Grading Basis:** Letter Grade
**Additional Information:** Departmental Category: Taxation

LAWS 7209 (4) Natural Resources and Environmental Law Clinic
Offers hands-on experience in the practice of natural resources law in the
Rocky Mountain region to a select number of clinic students. The clinic’s
docket of active cases focuses on public land law and the environmental
statutes protecting those lands and their resources. Students participate
in projects that test the full range of lawyering skills, including traditional
litigation, administrative advocacy, legislative drafting, and the conduct of
complex negotiations and settlements.
**Requisites:** Restricted to Law (LAWS) students only.
**Grading Basis:** Letter Grade
**Additional Information:** Departmental Category: Practice: Clinical and Simulation

LAWS 7211 (3) Business Planning
Focuses on the development and use of concepts derived from a number
of legal areas in the context of business planning and counseling.
Topics such as formation of business entities, sale of a business,
recapitalization, division, reorganization and dissolution are considered.
**Requisites:** Requires prerequisite course of LAWS 6007 (minimum grade
D+).
**Recommended:** Prerequisite or corequisite LAWS 6201 or LAWS 6211.
**Grading Basis:** Letter Grade
**Additional Information:** Departmental Category: Business
LAWS 7212 (2) Environmental Litigation
Examines the litigation strategies and procedures used to enforce and defend against enforcement under environmental protection statutes, such as the Clean Water Act, Clean Air Act, Resource Conversation and Recovery Act, the Comprehensive Environmental Response, Compensation and Liability Act of 1980, and the Toxic Substances Control Act. Covers civil enforcement, and citizen’s suits.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 7217 (2) Estate Planning
Deals with the practical application of estate planning principles to various client situations, including certain federal wealth transfer taxation issues. Students may not receive credit for both Estate Planning (LAWS 7217) and Estate and Gift Tax Planning (LAWS 6217).
Requisites: Requires prerequisite course of LAWS 7207 (minimum grade D-).
Recommended: Prerequisites LAWS 6007 and LAWS 6104.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Taxation

LAWS 7218 (2-3) Legal History
Grading Basis: Letter Grade

LAWS 7221 (2-3) Government Regulation of Business
Covers themes that explore the nature of the regulatory state and the realities of how businesses react to regulation. Provides an understanding of regulatory institutions; the tools of governmental regulation; a critical perspective on regulation.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 7222 (2-3) Environmental Decision-Making
Explores the foundational issues that underlie agency decision-making, including environmental ethics, cost-benefit analysis, risk assessment, constitutional law and administrative law. Compares and contrasts National Environmental Policy Act and the National Historic Preservation Act and the Endangered Species Act.
Equivalnt - Duplicate Degree Credit Not Granted: ENVS 6222
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 7228 (2) Intellectual Origins of the Constitution
Examines the views of the Constitution’s framers as expressed in contemporaneous and antecedent writings and debates. Offered in alternate years.
Grading Basis: Letter Grade

LAWS 7232 (3) Global Energy Justice
Examines the legal and policy issues related to the world population by the energy oppressed poor, presenting a major national and international "legislative" or socio political problem calling for answers from governments and civil societies in the developed and developing world. Explains and elucidates the concept of energy justice, its jurisprudential heritage and its meaning and relevance in contemporary society. Case studies present problem solving frameworks spanning the political, social, behavioral, engineering, natural sciences and law.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 7241 (3) Telecommunications Law and Policy
Examines laws governing telecommunications industries, including federal and state regulation and international aspects. Includes telephone, cable, satellite, cellular and other wireless systems and the Internet.
Equivalent - Duplicate Degree Credit Not Granted: CYBR 5410
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication

LAWS 7242 (3) Environmental Justice and Law
Examines issues of unequal environmental protection across various contexts, including air and water pollution, siting of toxic and hazardous waste, noxious land uses, and access to environmental goods such as public lands. The course will explore the role that U.S. law has played in constructing the unequal distribution of environmental harms and benefits. It will then examine efforts within the U.S. to use law and other tactics to redress environmental injustice.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade

LAWS 7248 (3) History of Criminal Justice
Explores the social, cultural, and legal history of Anglo-American criminal justice from the 17th to the 20th centuries. Also examines tensions between various methods that historians employ to study crime and law.
Grading Basis: Letter Grade

LAWS 7251 (3) Non-Profit Law
Examines the legal and policy issues raised by non-profits. Topics may include the formation of a non-profit, qualification for federal tax exemption, the rise and role of private foundations, fiduciary duty issues, restrictions on political activity and private benefit, and the unrelated business income tax. Also focuses on broader social questions raised by giving, charities, and philanthropy.
Grading Basis: Letter Grade

LAWS 7255 (3) Local Government
Studies state legislative and judicial control of the activities, powers and duties of local governmental units, including home-rule cities and counties, and some problems of federal, state, and local constitutional and statutory limitations on governmental powers when exercised by local governmental units (e.g., the powers to regulate private activities, tax, spend, borrow money and condemn private property for public uses). Offered in alternate years.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public

LAWS 7261 (3) Corporate Finance
Examines a variety of important legal issues related to the funding and financing corporations including creditor protection laws, the Trust Indenture Act of 1939, fiduciary duties, bond indenture provisions, securities laws and rights of equity holders. Covers efficient capitalization structures, corporate valuation techniques, capital markets and the efficient market theory and cost of capital concept.
Requisites: Requires prerequisite course of LAWS 6211 or LAWS 6251 (minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business
LAWS 7271 (3) Venture Capital and Private Equity
Provides overview of the legal and financial principles to represent privately held companies, their founders and managers and their investors. Emphasizes transaction structuring rather than judicial opinions. Includes the organization and financing of start-ups, structuring buyout transactions, exit strategies, legal organization of investment funds and other financial intermediaries. Discusses the relevant regulatory landscape, including securities law, bankruptcy, ERISA and tax law.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 7285 (2-3) Education and the Constitution
Teaches the substantive constitutional law governing public education. Students will teach constitutional materials to high school students in the local Denver Metro area high schools. Interested students must apply and requires a commitment to a full-year curriculum. Encourages individual development as teachers, writers and critical thinkers and provides an opportunity to grow as colleagues and teammates.
Requisites: Restricted to Law (LAWS) students only.
Recommended: Prerequisite LAWS 7055.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Government and Public Resources and American Indian

LAWS 7300 (2-3) International Litigation
Examines the special issues that arise in litigation in U.S. courts when one or more of the parties is a foreign individual, corporation, or government, or when the subject of the litigation concerns events occurring wholly or partly outside of this country. Includes personal jurisdiction over foreign defendants, extraterritorial service of process and evidence gathering, choice of forum, foreign sovereign immunity, the act of state doctrine, extraterritorial application of U.S. law, and recognition of enforcement of foreign judgments.
Grading Basis: Letter Grade

LAWS 7301 (2-3) Copyright
Examines state and federal laws relating to the protection of works of authorship ranging from traditional works to computer programs. Studies the 1976 Copyright Act as well as relevant earlier acts. Gives attention to state laws, such as interference with contractual relations, the right of publicity, moral right, protection of ideas and misappropriation of trade values, that supplement federal copyright.
Equivalent - Duplicate Degree Credit Not Granted: TLEN 5265
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication

LAWS 7302 (2) Advanced Oil and Gas
Covers the history of oil and gas conservation and its regulation, proration and allowable regulation, compulsory pooling and unitization, permitting and environment regulation, and the interplay between federal, state and local regulation.
Requisites: Requires prerequisite course of LAWS 7102 (minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 7303 (3) Complex Civil Litigation
Covers civil procedure in modern complex multiparty suits, including class actions in such settings as employment discrimination and mass torts, and problems in discovery, joinder, res judicata, collateral estoppel and judicial management in such suits. Offered in alternate years.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Litigation and Procedure

LAWS 7307 (3) Taxation of Natural Resources
Considers the federal income tax aspects applicable to the exploration for, the development of, and the operation of natural resources, as well as the financing thereof. Also considers oil and gas, hard minerals, timber, and water.
Recommended: Prerequisite LAWS 6007.
Grading Basis: Letter Grade

LAWS 7309 (2-4) American Indian Law Clinic
Offers a clinical education course involving participation in the representation and advocacy of Indian causes – land or water claims, Indian religious freedom, job or other discrimination based on race and issues implicating tribal sovereignty.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 7310 (3) International Dispute Settlement
Examines various mechanisms for the settlement of international disputes. Includes negotiation, inquiry, mediation, conciliation, arbitration, and adjudication. Focuses on intergovernmental dispute resolution.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 7311 (2-3) Patent Law
 Covers selected topics, such as patentable subject matter, patentability and utilization of patent rights through licensing and infringement litigation. Covers practice and procedure of the patent and trademark office.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication

LAWS 7312 (2) Advanced Water Law
Builds on the study of basic water law principles for those interested in practicing in this field. Explores in more detail the highly developed legal and administrative system of water law in Colorado and other states, including the use of special courts to adjudicate the existence of water rights and approve changes of use.
Requisites: Requires prerequisite course of LAWS 6302 (minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 7315 (3) Criminal Justice Policy and Practice
Focuses on policy and practice issues rather than case law. Examines how American criminal justice is (and has been) dispensed in the vast majority of cases that never reach trial. Devotes attention to systemic issues rather than case-specific problems. Studies policy behavior, prosecutorial charging and bargaining discretion, the provision of defense services, bail and preventive detention, plea negotiation, and sentencing—aspects of the criminal process that affect huge volumes of cases and require thought in global terms.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Criminal

LAWS 7318 (3) Economics of the American Legal System
Explores the economics of the American legal system. Topics include the cost of producing lawyers, the market for legal services, the practical challenges of running small and large law firms and the government's role in making legal services available.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business
LAWS 7320 (3) International Criminal Law
Surveys international human rights law and international crime and punishment. Addresses idea of rights from a historical, philosophical, conceptual and analytical perspective; explores the "Primary rules of conduct" as well as adjudication and remedies, and selected rights from a comparative perspective.
Recommended: Prerequisite LAWS 6400.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 7321 (1-2) Patent Drafting and Prosecution
Covers transactions, and often high-tech deals involving intellectual property rights. Studies IP ownership; assignment or rights; commercialization transactions (licensing, distribution, strategic); antitrust; emerging issues. Gives students essential tools to draft and analyze technology contracts.
Requisites: Requires prerequisite course of LAWS 6301 or 7301 (minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication

LAWS 7322 (1) Field Trip of Upper Colorado River Basin for Advanced Water
Spend a week out in the basin meeting and talking with key leaders directly involved in Colorado River Basin water matters, visiting major water projects such as storage facilities and observing their operations, visiting major water users such as irrigation districts and cities, visiting and talking with tribal leaders and touring projects aimed at recovering populations of endangered fish.
Requisites: Requires corequisite course of LAWS 7312.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 7323 (2-3) Patent Litigation
Focuses on unique aspects of patent litigation: substantive patent law, civil procedure, federal jurisdiction and litigation strategy; includes claim construction, infringement, anticipation and obviousness defenses, unenforceability challenges, declaratory judgments, injunctions, damages, settlements, licenses and trial strategy. Of interest and useful to those interested in intellectual properly generally, not just patents or in litigation.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication

LAWS 7325 (3) Election Law
Examines the rapidly evolving field of election law: the right to vote, voting procedures, redistricting, candidate selection, campaign finance laws and direct democracy. Emphasizes federal law, including applicable constitutional jurisprudence.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public

LAWS 7331 (2) Analytical Strategies
Develops analytical, writing and problem-solving skills necessary to pass the bar exam and succeed in practice. Designed for third-year law students in their final semester. Students will improve their techniques for analyzing, organizing and writing responses to essay and performance test questions through frequent written exercises and individual feedback on those exercises.
Grading Basis: Letter Grade
LAWS 7361 (2) Cybersecurity
Introduces students to the laws that regulate the basic technologies of the Internet and the management of information in the digital age. It examines the most significant statutes, regulations, and common law principles that comprise this emerging legal framework, including the Federal Wiretap Act, the HIPAA Privacy Rule, and the Digital Millennium Copyright Act.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication

LAWS 7365 (2) Comp Constitutional Law
Grading Basis: Letter Grade

LAWS 7371 (3) Standardization and Standards Wars
Examines current issues in the standardization of telecommunications and information technologies. Covers the importance of standards, government and private sector perspectives and the impact of information age technologies on standards of development. Emphasizes key national and international organizations.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication

LAWS 7375 (3) U.S. Races and Justice Systems
Examines the unique but related legal, social, and economic problems and accomplishments of those persons in this country whose ancestry originated in Africa, Asia, Latin America, or North America, and explores the developing literature on whites and whiteness.
Grading Basis: Letter Grade

LAWS 7381 (3) Intellectual Property Counseling and Licensing
Introduces strategic development and procurement of IP, including patents, trademarks, copyrights, and trade secrets. Evaluates the latest cases and legal trends from a practical and strategic perspective. Focuses on widely accepted best practices and critical thinking in these areas.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication

LAWS 7401 (3) Securities Regulation
Stresses statutory interpretation of the various federal statutes regulating the issue of corporate securities and the cases and regulations that have arisen out of those statutes.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 7402 (2) The Law of Toxic and Hazardous Wastes
Examines the EPA's federal hazardous waste statutes, including the Resource Conservation and Recovery Act of 1976 (RCRA), and the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA). Analyzes the RCRA "Cradle-to-grave" hazardous waste program and addresses the evolving CERCLA liability scheme and cleanup process.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 7405 (2-3) Health Law 2: Medical Malpractice and Quality Regulation
Explores (1) the law controlling ethical issues that arise during the delivery of medical care, (2) the substantive law of medical malpractice and tort reform aimed at reducing the frequency and severity of medical malpractice verdicts, and (3) the practical aspects of litigating a medical malpractice case. Cross-listed at the Health Sciences Center; will include field trips there.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 7406 (1) International Moot Court Competition
Open only to students who actively participate in the seminar preparing for the competition, in the preparation of memorials for the competition, and in the practice of oral arguments or regional oral arguments.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 7407 (1-3) Tax Policy
Explores current issues in tax policy. Topics may include the tax legislative process, consumption taxes, taxes and distributive justice, the tax exemption for nonprofits, carbon taxes, corporate taxes and integration, and taxes and entrepreneurship. There are no required prerequisites, but Federal Income Tax will be helpful.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Taxation

LAWS 7409 (3) Legal Negotiation
Explores the fundamentals of effective negotiation techniques and policies for lawyers. Students engage in mock negotiations of several legal disputes.
Grading Basis: Letter Grade

LAWS 7411 (2-3) Mergers, Acquisitions and Reorganizations
Studies the planning of corporate mergers, acquisitions and reorganizations, examining the application and integration of state corporate law, federal securities law, accounting principles, tax law, labor law, products liability law, environmental law, ERISA and antitrust law.
Equivalent - Duplicate Degree Credit Not Granted: ERISA 6900
Requisites: Requires prerequisite LAWS 6211 (minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 7415 (2) Bioethics and Law
Grading Basis: Letter Grade

LAWS 7420 (2) European Union Law
Covers all the essential aspects of the EU law: EU institutions, competences, the making and the application of EU law, and the content of the fundamental principles of EU law and the common market.
Grading Basis: Letter Grade

LAWS 7421 (2-3) Business and Human Rights
Examine the role of international human rights law in regulating or influencing businesses enterprises, along with relevant policy considerations.
Grading Basis: Letter Grade
LAWS 7425 (2-3) Health Law and Policy: Access, Cost, Quality, Choice
Acquaints students with the issues arising at the interface between law and medicine through analysis of cases and other materials. Critically analyzes methods used by courts and legislatures to address medical/legal problems in an effort to determine whether the legal resolution was reasonable and appropriate in light of medical, social and political considerations. Offered in alternate years.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 7426 (2) Health Care Compliance
Introduces students to a number of primary laws and regulations that give rise to the vast majority of serious fraud and abuse cases. The primary statues and regulations implementing them will then be viewed from the context of common problems in the health care industry such as: up-coding, unbundling, worthless services/quality of care, medically unnecessary care, over-utilization, joint ventures with referral physicians, off-label marketing.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 7428 (3) Bioethics Law and Literature
Interdisciplinary study of law, medicine, and bioethics. Addresses such issues as confidentiality in medical treatment, rejecting life-sustaining treatment, death and dying, reproductive law and genetic technology, human experimentation, and access to health care.
Grading Basis: Letter Grade

LAWS 7429 (2) Alternative Dispute Resolution
Examines a variety of dispute resolution processes, such as mediation, arbitration, mini-trials and court-annexed settlement procedures, as alternatives to traditional court adjudication.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 7431 (3) Corporate Finance
Grading Basis: Letter Grade

LAWS 7433 (3) Remedies
Examines the types of relief available to vindicate various rights. Covers damages, specific performance, injunctions, and restitution. Emphasizes the planning aspect of enforcement, in view of the limitations and problems of proof associated with specific remedies.
Grading Basis: Letter Grade

LAWS 7439 (2-3) Mediation
Explores mediation, one of the more important methods of alternative dispute resolution and the legal issues that may arise related to mediation. Considers what kinds of persons and disputes are most appropriate for mediation. Includes role playing.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 7440 (3) International Human Rights and Humanitarian Law
Surveys international human rights both in law and in philosophy, both current and historical.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 7445 (2) Insurance Law
Grading Basis: Letter Grade

LAWS 7447 (1-2) Dignitary Torts
Focuses on "dignitary torts" (e.g., defamation, privacy, etc.) as the topics that generate legal and ethical controversies, including governmental duties to protect citizens, nature and the extent of the government’s ability to regulate conduct and responses to epidemics.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 7449 (2-4) Juvenile and Family Law Clinic
Examines the world of child welfare from the view of the child client, by representing their best interests in abuse and neglect cases. As Guardians ad litem, students will represent children in abuse and neglect cases from the beginning, at the temporary shelter hearing, through the conclusion of the case at a permanency orders hearing.
Repeatable: Repeatable for up to 8.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 7450 (2) Regional Human Rights Protection for JD Students
Examines how human rights law and policy is created, interpreted and enforced within regional systems. Explores the main sources of human rights law including treaties, international customary law, constitutional law, municipal law, comparative law and principles; the jurisprudence of regional courts and tribunals, the institutions that support human rights advocacy and the cultural perspectives of affected communities and peoples.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade

LAWS 7451 (3) Law and Finance for Entrepreneurs
Studies unique legal problems faced by entrepreneurs, including formation issues (choice of entity, rights of the founders, initial investors), operation issues (governance, key employees, intellectual property, financing), IPOs and buy-outs.
Equivalent - Duplicate Degree Credit Not Granted: BADM 6910
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 7458 (2) Law and Literature
Focuses on the question of what literature can teach lawyers through a variety of literary works and films. Covers traditional works by Shakespeare, Tolstoy, Camus, Kafka, and Melville, as well as more contemporary works by Toni Morrison and Norman Mailer. Several short reflection papers, a journal, and a final eight page paper are required.
Grading Basis: Letter Grade

LAWS 7465 (2) Public Health Law and Ethics
Explores the legal and ethical dimension of public health. Focuses on topics that generate legal and ethical controversies, including governmental duties to protect citizens, nature and the extent of the government’s ability to regulate conduct and responses to epidemics.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 7466 (2) Family Law and Ethics
Explores the legal and ethical dimension of family law. Focuses on topics that generate legal and ethical controversies, including governmental duties to protect citizens, nature and the extent of the government’s ability to regulate conduct and responses to epidemics.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 7475 (2) Advanced Torts
Studies selected tort actions and theories. Topics covered may include "Dignitary torts" (e.g., defamation, privacy, etc.), business torts, and product liability. Offered in alternate years.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public Health
LAWS 7505 (2) Sexuality and the Law
Examines the regulation of sexuality in local, state, and federal law, with particular emphasis on sexual orientation. Explores how sexuality shapes, and is shaped by, an array of laws and policies, which may include family law, military regulations, tax law, employment law, trusts and estates, obscenity law, and criminal law.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 7507 (2-3) State and Local Taxation
Examines the operation of the income, property and sales tax used to finance our state and local governments. Includes requirements of equal protection and due process. Covers jurisdiction to tax allocation of the tax base among different state and local governments.
Equivalent - Duplicate Degree Credit Not Granted: ACCT 6760
Grading Basis: Letter Grade

LAWS 7509 (1) Mock Trial Competition
Student teams further develop trial and advocacy skills in a competitive mock-trial format involving two or more rounds of trials. Requires preparation of trial briefs and drafting other court pleadings and documents. Credit is limited to the top two teams (six students). Student finalists may continue involvement in regional and national competitions.
Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 7512 (2) Advanced Environmental Law: Air Pollution
Provides an examination of efforts to regulate air pollution in the United States under the Clean Air Act. Covers key provisions, basic approach of cooperative federalism, role of science and risk assessment establishing health-based standards, implications of instrument choice and regulatory design on innovation and economic growth, development of ‘first generation’ climate policies, and new approaches to compliance and enforcement.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 7513 (3) Domestic Violence
Examines the law, policy, history and theory of domestic violence. Examines the limits of legal methods and remedies for holding batterers accountable and keeping victims safe; the dynamics of abusive relationships; the history of the criminal justice system’s response to domestic violence; the defenses available to battered persons who kill their abusers; the legal paradigm of the sympathetic victim; psychological and feminist theories about abusive relationships; civil rights and tort liability for batterers and third parties; and the intersection of domestic violence with international human rights.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 7515 (3) Poverty Law
Explores the legal and policy responses to poverty in the United States and addresses how the law shapes the lives of poor people and communities. Examines the extent of poverty in the United States, the root causes and the historical development of social welfare policy. Focuses on the rights-based aspect of poverty law and various policies that attempt to ameliorate poverty.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public

LAWS 7520 (3) Food Law and Practice
Surveys the basic regulatory landscape of food law with insight into critical legal issues facing industry and consumers. Covers federal, state and municipal regulation, litigation, government incentives, international standards and soft-law. Combines doctrinal approaches with simulation and problem solving to introduce systems-level thinking. No prerequisites or prior knowledge if required, though interest in food law and corporate law are helpful.
Grading Basis: Letter Grade

LAWS 7523 (2) Juvenile Law
Takes a critical look at the juvenile justice system and how it responds to the needs of juveniles who are either delinquents and/or victims of abuse. Issues include the rights and responsibility of parents, parental responsibility programs, delinquents, and the future of our juvenile courts.
Grading Basis: Letter Grade

LAWS 7525 (3) Race and American Law
Examines the judiciary’s approach to racial discrimination from America’s colonial period to the present day. Concludes with an analysis of the contemporary status of racial subordination in the legal system and considers recent scholarly critiques of the law’s limitations in effecting racial justice. Employs an interdisciplinary approach and covers the experiences of American Indians, African Americans, Asian Pacific Americans and Chicana/os.
Grading Basis: Letter Grade

LAWS 7529 (1) Appellate Advocacy Competition
Gives students the opportunity to participate in an intermural appellate advocacy competition, in which a brief must be filed and reviewed, critiqued, and deemed credit-worthy by a member of the faculty. (Law School Rule 3-2-9 (b) should be consulted prior to enrollment.)
Grading Basis: Pass/Fail

LAWS 7531 (3) Wage Law and Litigation
Teaches federal and state wage statutes, common-law claims for unpaid wages (e.g., fraud, contract/quasi-contract, etc.), and complex statutes outside employment law (racketeering, antitrust, etc.) that creative wage litigators sometimes use. Coverage of the limits of wage law scope may include non-employee contractors (both traditional and gig economy workers), undocumented workers, students, volunteers, and/or prisoners. Teaches litigation practice and strategy, including class/collective action practice, plus experiential learning assignments that may include deposition-taking/client-interviewing, claim-strategizing, damages-calculating, and/or motion-writing.
Grading Basis: Letter Grade
LAWS 7535 (2) Poverty, Health and Law 1
Introduces students to the substantive areas of health and poverty law. Topics include health disparities and the role of law, cultural competence, standards of care for vulnerable populations, relationships between income, employment, housing, education, health, violence, and immigrants. Students will also help with intake of clinic patients and support client representation by the attorney of record.
Grading Basis: Letter Grade

LAWS 7541 (2-3) Employment Discrimination
Examines statutory and constitutional prohibitions of discrimination in employment on the basis of race, gender, age, religion, national origin and disability.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 7545 (2) Poverty, Health and Law Practicum
A service learning course in which students draw from the substantive materials studied in LAWS 7535 to develop competency in case planning, problem solving, cooperative decision making, and client counseling. Students will staff cases under the supervision of a CO Legal Services (CLS) staff attorney or a pro bono attorney working on behalf of CLS.
Requisites: Requires prerequisite course of LAWS 7535 (minimum grade D).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 7551 (2) Trade Secrets
Examines law of trade secrets and how companies and entrepreneurs use this field to protect intellectual property in conjunction with other forms of legal protection (e.g., patent, copyright and trademark).
Grading Basis: Letter Grade

LAWS 7555 (4) Poverty, Health, and Law Practicum
Introduces students to the substantive areas of health and poverty law. Topics include health disparities and the role of law, cultural competence, standards of care for vulnerable populations, relationships between income, employment, housing, education, and health. Students will also staff cases under the supervision of a Colorado Legal Services (CLS) staff attorney or a pro bono attorney working on behalf of CLS, and will develop competency in case planning, problem solving, cooperative decision making, and client counseling.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 7565 (3) Corporate Transactions in Health Law
Introduces key corporate and regulatory issues impacting the delivery of health care. Focus will be transactional, with students gaining an understanding of basic corporate law and regulatory principles, and then learning to integrate core federal and state laws into choice and use of corporate structures and operational strategies.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 7601 (2-3) Business Transactions
Provides a practical understanding of how to apply the law in both transactional and litigation settings. Gives an interdisciplinary look at how various areas of the law are brought together in common factual settings. Teaches students to negotiate, document and close the acquisition of a business covering the areas of practice of corporate, contracts, real property, secured transactions and bankruptcy law. Tests, in a litigation setting, the decisions made during the acquisition stage.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 7605 (2-3) Refugee and Asylum Law
Focuses on protections offered under international and domestic law for persons who are threatened by persecution or other adverse conditions in their country of origin. Covers who is a refugee and the protections they have or do not have under United States and international law.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 7609 (1-2) Law Practice Management
Studies the establishment of a solo or small-firm legal practice. Topics include the business structure (PC, LLC, etc.), office systems, marketing and development, staffing, liability insurance, managing time, technology and billing. (This practice course counts toward the 14 credit hour maximum of practice hours.) Course supported by the Section of Law Practice Management of the ABA in memory of Harold A. Feder, CU Law ’59.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 7611 (2-3) International Business Transactions
Examines the sources of international business law, the relationship between such law and the U.S. legal system, the choice of law in international business disputes, the special issues that arise when doing business with foreign governments, the law governing international sales and the shipment of goods and international intellectual property protection. Offered in alternate years.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 7615 (2-3) Immigration Law and Immigrants’ Rights
Addresses four broad questions: Who is a citizen of the United States? Who else can come to this country? When and why can noncitizens be forced to leave? Who has the authority to answer these questions? These questions prompt us to examine the history of U.S. immigration, the constitutional-statutory-regulatory framework that governs immigration and citizenship law and the federal agencies that administer it. Also addresses contemporary challenges to, and assertions of, immigrants’ rights.
Equivalent - Duplicate Degree Credit Not Granted: PSCI 7181
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 7617 (3) International Taxation
Explores the United States income taxation of international activities, principally U.S. persons doing business abroad and foreign persons doing business in the United States. This course focuses on the Internal Revenue Code as well as tax treaties.
Requisites: Requires prerequisite course of LAWS 6007 (minimum grade D).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Taxation
LAWS 7618 (1) Marijuana Law and Policy
Covers three distinct but interwoven topics: substantive law governing marijuana; policy rationales behind and outcomes produced by different approaches to regulating the drug; and the legal authority to regulate the drug. The objective is to prepare students to handle legal issues that arise in practice but also to provide informed counsel on proposed future reforms to the law.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Electives

LAWS 7619 (3-4) Entrepreneurial Law Clinic
Provides law students with practical experience in transactional law while offering valuable legal services without charge to local startup businesses lacking access to legal resources. Enrollment priority is given to third-year law students. The ELC professor may set forth additional requirements to ensure that students are qualified to provide services to ELC clients.
Repeatable: Repeatable for up to 8.00 total credit hours.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 7621 (4) Business Associations
Covers the law of agency, partnerships, limited liability companies and corporations. It includes principles of agency, formation and operation of business entities, fiduciary duties of the actors in business entities, and the relevant federal and state laws related to those entities.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade

LAWS 7629 (1) Introduction to the In-House Practice of Law
Explores cutting edge questions around the practice of law as an employee of a business. Demonstrates how the combination of law and business can be valuable to businesses and also innovative, challenging and rewarding to legal professionals. Legal services to corporate America is changing dramatically with more entities relying on in-house counsel, compared to private practitioners, to obtain legal advice and counsel.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 7709 (3) Advanced Legal Negotiation
Deepens students' understanding of the economic, psychological, cultural, and critical literatures related to legal negotiation and bargaining, provides students an advanced set of negotiations, experiences and simulations that introduce new dynamics and problems not dealt with in the core course, and deepens students' self-understanding and ability to learn from experience.
Requisites: Requires prerequisite course of LAWS 7409 (minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 7710 (2-3) Space Law and Policy
Examines the role of international law in the regulation of outer space activities. Topics include current and potential future uses of outer space, law-making process related to space activities, legal regime of outer space and celestial bodies, legal status of spacecraft, liability for damage caused by space activities, settlement of space-related disputes.
Grading Basis: Letter Grade

LAWS 7715 (3) Indigenous Peoples in International Law
Studies developments in the substance and procedure of international human rights law pertaining to indigenous peoples, examining these developments through varying perspectives, doctrinal and political, pragmatic and critical. Students will become familiar with indigenous peoples' involvement in the human rights movement both before and after WWII, and corresponding developments in the United Nations, Organization of American States, and other institutions.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 7718 (2) The Regulation of Marijuana
Covers three distinct but interwoven topics: substantive law governing marijuana, policy rationales behind and outcomes produced by different approaches to regulating the drug and the legal authority to regulate the drug. Prepares one to handle legal issues that arise in practice, but also to provide informed counsel on proposed and future reforms to law.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public

LAWS 7725 (3) American Indian Law I
Investigates the federal statutory, decisional and constitutional law that bears upon American Indians, tribal governments and Indian reservation transactions.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 7735 (3) American Indian Law II
Investigates the legal history and current legal status of Alaska Natives and Native Hawaiians. Addresses other current topics such as tribal water rights, tribal fishing and hunting rights, tribal justice systems, religious freedom, and tribal natural resource and environmental management.
Requisites: Requires prerequisite course of LAWS 7725 (minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 7745 (2-3) Jurisdiction in Indian Country
Examines the current state of the justice system within Indian nations today. Includes understanding the respective roles of tribal and state law enforcement authorities, as well as the Bureau of Indian Affairs' Office of Justice Services, the Federal Bureau of Investigation, and the Drug Enforcement Administration. Examines relationship between federal and tribal courts; substantive laws; and advocates who appear before them.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 7751 (3) Arbitration
Discusses the nature of arbitration, enforcement of arbitration agreements and awards, complexities of multi-party arbitrations, fairness and efficiency of the arbitral process and other issues related to arbitration's prevalence in contexts ranging from corporate to consumer and employment disputes.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 7765 (3) Gender and Justice
Grading Basis: Letter Grade
LAWS 7775 (1) Gender Law and Public Policy
Examines the relationship of law and gender in criminal law, and constitutional law, using feminist theoretical perspectives as the organizing principle. Each perspective is applied to cases and material and issues such as violence against women, prostitution, pornography, and discrimination in education and athletics.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 7801 (1) Tech Policy Advocacy
Provides an intensive, one-week look at the substance, strategy, tactics, and import of technology policy advocacy. Each year, we will study one particular theme or conflict and examine it in-depth. The point of studying one particular episode is to learn lessons about the practice of technology policy advocacy that apply beyond this one historical moment. This class is meant to combine traditional doctrinal approaches with an experiential focus.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication

LAWS 7809 (2-4) Technology Law and Policy Clinic
Features technology law advocacy before administrative, legislative and judicial bodies in the public interest.
Equivalent - Duplicate Degree Credit Not Granted: CYBR 5250
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 7846 (1-3) Independent Legal Research
Involves independent study and preparation of a research paper under faculty supervision. Students produce a research paper equivalent to a seminar research paper; a draft is submitted, subjected to critique by the faculty member, and redrafted. Available during or after the fifth semester of law school. Instructor consent required.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Research and Writing

LAWS 7896 (1) Journal: University of Colorado Law Review
Gives students the opportunity to participate in the research, writing and editing activities involved in publishing the University of Colorado Law Review.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Research and Writing

LAWS 7916 (1) Journal: CO Natural Resources, Energy & Environmental Law Review
Gives students the opportunity to participate in the research, writing and editing activities involved in publishing the Colorado Journal of International Environmental Law and Policy.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Research and Writing

Gives students the opportunity to participate in the research, writing and editing activities involved in publishing the Colorado Journal of International Environmental Law and Policy.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Research and Writing

LAWS 7936 (1) Journal: Colorado Technology Law Journal
Gives students the opportunity to participate in the research, writing and editing activities involved in publishing the Journal of Telecommunications and High Technology Law.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Research and Writing

LAWS 7949 (2) Remote Externship Course Component
Accompanies remote externship placements and provides and opportunity for structured and interactive reflection on the educational experience afforded by the externship placement.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Practice: Clinical and Simulation
LAWS 8005 (2) Seminar: Advanced Constitutional Law Equality and Privacy
Addresses "Equal Protection" rights under the Fourteenth Amendment and "Privacy" rights to personal autonomy. Analyzes varied constitutional grounds for recognizing or rejecting abortion rights; limits on Congressional power to pass civil rights laws granting broader rights than the Fourteenth Amendment does; treatment of sexual orientation-related laws and government actions as "Privacy" versus "Equality" matters; and "Benign"/"remedial" race- and sex-based government decisions such as affirmative action and same-sex schools.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public
LAWS 8011 (1-3) Seminar: Humanizing Contracts: Service Learning
Examines contract theory and policy, while providing community-based service. Students analyze and discuss readings exploring doctrinal and theoretical bases of contract law, and see "Contracts in action" through participating in a service project. Requires a final paper linking theory and doctrine with service experiences. Note: this is a year-long seminar (2 credits per semester); students must enroll in both semesters but receive only one grade at the end of the year. Students participate in a service project that may include off-campus and weekend participation.
Grading Basis: Letter Grade
LAWS 8013 (2) Seminar: Habeas Corpus: The Great Writ of Liberty
Includes readings on the history of the writ, its constitutional status, and its use as a civil rights remedy, as well as case studies of important Supreme Court decisions, and a review of contemporary jurisdictional and procedural issues.
Grading Basis: Letter Grade
LAWS 8015 (1-3) Seminar: Constitutional Theory
Aims at thinking broadly about the challenges, and problems of constitutionalism in the U.S. What are the fundamental tensions that attend the constitutional enterprise, internally, externally? What relations does the Constitution have to democracy and liberalism? Readings will be taken from legal theory, social theory, philosophy and occasionally judicial opinions. Emphases will differ slightly each year as announced.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
LAWS 8021 (2) Seminar: Consumers and the Law
Explores and addresses questions about contracts beyond the basic concepts learned in the first-year contracts course. Explores norms, goals and functions of consumer law and also observes the law "in action" through a class blog and outreach with the Boulder County Department of Housing and Human Services ("BCDHHS"), who assists people throughout Boulder County with an array of financial, housing and other consumer issues.
Grading Basis: Letter Grade
LAWS 8025 (2) Seminar: Advanced Topics in Federalism
Explores the development of "Our Federalism", the relationship between federal and state governments, from the founding period of the US Supreme Court's recent New Federalism jurisprudence. Studies historical material, commentary, and case law and addresses how federalism is defined; the values that federalism serves; the role of federalism in our interconnected, global society; the Supreme Court's boundaries of federalism; the direction of New Federalism.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public
LAWS 8035 (2) Seminar: Intersection of Antidiscrimination and First Amendment Law
Addresses past and continuing debates involving potential tensions between antidiscrimination principles and free speech, free exercise and establishment clause values. Examines constitutional protections under the First Amendment and the equal protection clause, together with an array of existing and proposed federal and state antidiscrimination laws regulating employment, housing, and public accommodations, among other areas.
Grading Basis: Letter Grade
LAWS 8036 (2-3) Seminar: Special Topics in Intellectual Property
Applies copyright doctrine to the digital music contexts. Topics may include but are not limited to radio, compulsory licensing, performance rights, sampling, user generated content, term extension, termination rights, "open-access" and the public domain, emerging technologies and infringement, social implications of copyright legislation, digital fair use and the first sale doctrine and moral rights for users and artists.
Requisites: Require a prerequisite course of LAWS 6301 or LAWS 7301 (minimum grade D-).
Grading Basis: Letter Grade
LAWS 8045 (2) Seminar: Comparative Constitutional Law
Examines legal structures and concepts typically found in constitutions, including judicial review, distinction between legislative and executive authority, federalism and the principle of subsidiarity, the relationship between church and state, free speech and press, and social welfare rights. Examines differences between constitutional law and other domestic law, role of comparative constitutional law in domestic constitutional law adjudication. Emphasizes American and Swedish perspectives.
Grading Basis: Letter Grade
LAWS 8055 (1-2) Seminar: Media, Popular Culture, and the Law
Examines how the institutions, practices and the very identity of law are in part affected by the media through which law is apprehended and communicated. Hence the general question posed in this seminar: to what extent and how are the forms and methods of the new media having an effect on the perception, role and identity of law? This is a year-long seminar.
Grading Basis: Letter Grade
LAWS 8060 (3) Seminar: Poverty and Inequality in Comparative Perspective
Investigates the nature, causes, consequences and major responses to persistent poverty and inequality in the United States and several other countries. Students are expected to write short response papers for each assignment as well as a substantial research paper on a topic selected in discussion with the instructor.
Grading Basis: Letter Grade
LAWS 8065 (2) Sem White Collar Crime
Grading Basis: Letter Grade
LAWS 8075 (2) Seminar: Race, Racism, and American Law
Focuses on issues of race reform law, in particular the group of issues dealing with Black Americans. (Students of all hues and persuasions are welcome.) Offers an interpretive or critical dimension, rather than a litigation-oriented one. Helps students understand how race reform law works and how attitudes and historical forces have shaped that body of law.
Grading Basis: Letter Grade
LAWS 8085 (2) Seminar: Sem Crit Race Theory
Grading Basis: Letter Grade

LAWS 8095 (2) Seminar: Problems in Constitutional Law
Explores, in depth, various topics in U.S. constitutional law. Examines history, societal impacts, and challenges raised by those topics. The coverage of the seminar varies from year to year, depending on the instructor's interests and expertise.
Grading Basis: Letter Grade

Additional Information: Departmental Category: Government and Public Jurisprudence Social Policy

LAWS 8101 (3) Seminar: Seminar: Business Law Colloquium
Business law scholars from CU and around the country present research papers at this weekly colloquium. Topics may include contracts, corporate law, securities regulation, tax, intellectual property, venture capital and private equity and the legal profession. No prior knowledge of law and economics is expected, although some knowledge of business organizations will be useful.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade

Additional Information: Departmental Category: Business

LAWS 8103 (2) Seminar: Alternative Dispute Resolution Ethics
Explores the ethics of mediators and other alternative dispute resolvers and facilitators, of attorneys representing clients in alternative dispute resolution processes, and of judges serving in alternative roles. Issues include confidentiality, providing appropriate notice to those concerned, and avoidance of conflicts of interest.
Grading Basis: Letter Grade

Additional Information: Departmental Category: Business

LAWS 8105 (3) Seminar: Comparative Family Law
Examines and critiques law, legal institutions and traditions of the country of focus and the U.S. as they affect children, families and work. Enhances research and writing skills, including field and international research. Contributes to the host country through scholarship and facilitators, of attorneys representing clients in alternative dispute resolution processes, and of judges serving in alternative roles. Issues include confidentiality, providing appropriate notice to those concerned, and avoidance of conflicts of interest.
Grading Basis: Letter Grade

Additional Information: Departmental Category: Property

LAWS 8110 (2) Seminar: Fascism and the Liberal State
Explores fascist legal theory and its critiques of the liberal democratic state. Readings of major conservative, liberal, fascist, Nazi and Marxist theorists including Marx, Gentile, Fuller, Neumann, Schmitt, Agamben, Hayek and Mill. Understand from a variety of perspectives, the structure and character of the liberal democratic state, its strengths and weaknesses as well as its susceptibility of fascism.
Grading Basis: Letter Grade

LAWS 8111 (3) Seminar: National Security Law and US Foreign Policy
Explores the legal frameworks influencing the development of national security policy and U.S. foreign policy. Students will be introduced to applicable U.S. Foreign Relations Law, U.S. National Security Law and International Law before considering how such apply and interact in response to current threats to national security.
Grading Basis: Letter Grade

Additional Information: Departmental Category: Business

LAWS 8112 (2-3) Seminar: Advanced Natural Resources Law
Provides in-depth study and analysis of current problems in natural resources law, using historical, literary, and scientific materials. Includes field-trip, and requires additional field trip expenses. Department enforced prerequisites or corequisites: any two of the following: LAWS 6002 or LAWS 6112 or LAWS 6302 or LAWS 7725.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite LAWS 6112.
Grading Basis: Letter Grade

Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 8115 (2) Seminar: Child Abuse and the Law
Explores legal responses to child abuse by examining the constitutional framework for legal proceedings, effective strategies for preventing child abuse and punishing offenders, alternatives to the current system, and cultural aspects of child abuse and the legal response to it. Examines physical abuse and neglect, and focuses on sexual abuse.
Grading Basis: Letter Grade

LAWS 8120 (2-3) Special Topics in Constitutional Law
Offers students the opportunity for in-depth discussion and study on an important topic of constitutional law. Topics may vary from year to year.
Grading Basis: Letter Grade

LAWS 8122 (2) Seminar: Mineral Development
Deals with legal and policy issues surrounding mineral development and its environmental impacts. Emphasizes the problems associated with hard rock minerals and coal development, with some treatment of oil and gas leasing and development issues. Focuses on western public lands with some discussion of international and private lands issues.
Grading Basis: Letter Grade

LAWS 8125 (2) Seminar: Law and the Politics of Family Law
Examines issues that have been raised under the United States Constitution with respect to state regulation of families. Topics include questions of family and individual privacy, the status of children, procreation, marriage and divorce, the definition of family relationships, and problems of federalism and the role of the Supreme Court in the regulation of families.
Grading Basis: Letter Grade

LAWS 8128 (2-3) Seminar: Jurisprudence
Addresses a number of fundamental questions, such as: What is law? What should it be? How is it created? Our readings consist of cutting-edge articles from leading modernist/postmodernist schools of thought including legal formalism, legal realism, interpretive theory, law and economics, feminist jurisprudence, critical legal studies and law and literature.
Equivalent - Duplicate Degree Credit Not Granted: LAWS 7128
Grading Basis: Letter Grade

Additional Information: Departmental Category: Legal Theory, Jurisprudence Social Policy
LAWS 8135 (2) Seminar: Gender, Work, and Family
Explores the social and legal problems that develop at the intersection of work and family, and considers legal/non-legal solutions that have been and could be used to accommodate both women and men in their efforts to deal with these problems.
Grading Basis: Letter Grade

LAWS 8138 (2) Seminar: The Rhetoric of Law
Considers how Anglo-American law operates rhetorically, how it persuades, builds character, offers proof, approximates the truth, establishes legitimacy, and makes things happen. It will also explore the ethics of rhetoric and note the relationship of rhetoric to other bodies of legal scholarship (e.g., law and literature, legal pragmatism, law and culture). It will hone student advocacy skills, prepare students to anticipate and defend against the rhetorical stratagems of different legal actors, and enrich students' sense of professional identity.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade

LAWS 8154 (2) Seminar: Land Use Planning
Discusses public control of private land uses through planning, zoning, and regulation of land development, including consideration of constitutional and statutory limitations on legislatively created techniques. Offered in alternate years.
Grading Basis: Letter Grade

LAWS 8202 (2) Seminar: Environmental Policy
Examines issues of environmental justice, including the disparate impacts of pollution and land use controls on certain communities and ethnic groups. Topics may include concentration of waste facilities in neighborhoods occupied by poor and minority populations, adequate protection of migrant farmworkers from the impacts of pesticide hazards, and environmental controls that inhibit economic growth and development sought by Indian tribes.
Grading Basis: Letter Grade

LAWS 8205 (3) Seminar: Law and Democratic Governance
Explores cutting-edge debates in election law. Studies different perspectives on the current controversies in the field, in addition to select opportunities to engage scholars directly about their work. Develops students' understanding of the law of democracy, exposing students to some of the best scholarship, and improving students' ability to evaluate and critique legal scholarship.
Equivalent - Duplicate Degree Credit Not Granted: PSCI 7171
Requisites: Restricted to Law (LAWS) students only.
Recommended: Prerequisite LAWS 7325.
Grading Basis: Letter Grade

LAWS 8211 (2) Sem: Comp Constitutional Law: US, UK and Australia
Takes a comparative law approach to the constitutional law of the United States, the United Kingdom, and Australia. The seminar's intellectual purpose is to understand all three nations more deeply (especially our own) by seeing what they do similarly, what they do differently, what the advantages and disadvantages of each nation's approach appear to be, and whether any lessons learned in one place could profitably be transferred to another.
Grading Basis: Letter Grade

LAWS 8212 (2) Seminar: Environmental Law Practice and Policy
Focuses on the translation of environmental policies and purposes into environmental law and practice. Investigates policy issues on prevention of significant deterioration of air quality (PSD), the particulate matter national ambient air quality standard (PM NAAQS), and global climate changes. Emphasizes legal structure issues, including the role of national, state, and local governments in implementing environmental law and policy as well as counterpart global structures and mechanisms for responding to global or transboundary environmental problems.
Requisites: Requires prerequisite course of LAWS 7202 (minimum grade D-).
Grading Basis: Letter Grade

LAWS 8222 (2) Seminar: Environmental Philosophy and Law
Investigates the changing philosophical underpinnings of U.S. environmental law and policy and how philosophy and legal institutions interact.
Grading Basis: Letter Grade

LAWS 8235 (2) Seminar: Family Law Topics
Explores a variety of current issues related to family law: topics will change to reflect emerging issues and will draw from legal and social science scholarship as well as relevant statues and cases. Possible topics include reproductive technology, children's rights, the role of religion in family law, and political theories of the family.
Grading Basis: Letter Grade

LAWS 8251 (2) Seminar: Advanced Corporate Law
Explores current issues in corporate and securities law, including developments in fiduciary duties of officers and directors, corporate governance, executive compensation, revisions to the model business corporation act, and state and federal litigation reform.
Grading Basis: Letter Grade

LAWS 8285 (2-3) Seminar: Education and the Constitution
Teaches the substantive constitutional law governing public education. Students will teach constitutional materials to high school students in the local Denver Metro area high schools. Interested students must apply and requires a commitment to a full-year curriculum. Encourages individual development as teachers, writers, and critical thinkers, and provides an opportunity to grow as colleagues and teammates. Requires extra time outside of class.
Requisites: Restricted to Law (LAWS) students only.
Recommended: Prerequisite LAWS 7055.
Grading Basis: Letter Grade

LAWS 8280 (3) Seminar: Jewish Law
Studies discrete topics in Jewish law such as family law, commercial law, criminal law, etc., using the text Jewish Law: Cases and Materials, and other sources such as guest lectures. The collection of books that we received from the Touro Law Center will provide a valuable resource for student research.
Grading Basis: Letter Grade

LAWS 8281 (2-3) Seminar: Comparative Law
Explores discrete topics in Jewish law such as family law, commercial law, criminal law, etc., using the text Jewish Law: Cases and Materials, and other sources such as guest lectures. The collection of books that we received from the Touro Law Center will provide a valuable resource for student research.
Grading Basis: Letter Grade

LAWS 8285 (2-3) Seminar: Education and the Constitution
Teaches the substantive constitutional law governing public education. Students will teach constitutional materials to high school students in the local Denver Metro area high schools. Interested students must apply and requires a commitment to a full-year curriculum. Encourages individual development as teachers, writers, and critical thinkers, and provides an opportunity to grow as colleagues and teammates. Requires extra time outside of class.
Requisites: Restricted to Law (LAWS) students only.
Recommended: Prerequisite LAWS 7055.
Grading Basis: Letter Grade

LAWS 8322 (2-3) Seminar: Public Policy and the Constitution
Explores currents issues in corporate and securities law, including developments in fiduciary duties of officers and directors, corporate governance, executive compensation, revisions to the model business corporation act, and state and federal litigation reform.
Grading Basis: Letter Grade
LAWS 8300 (3) Seminar: International Adjudication
Focuses on writing briefs and memoranda of law suitable for practice before tribunals such as the International Courts of Justice. Emphasis will be on students writing, legal analysis, and presentation of oral arguments. Instruction identifies how to research and analyze international materials, such as treaties, covenants, and international customary law.
Grading Basis: Letter Grade

LAWS 8301 (2) Seminar: Innovation, Network Theory, Social Entrepreneurship
Covers topics related to the legal and public policy implications of innovation, entrepreneurship, and social networks including normative ideals of entrepreneurship, the concept of regional advantage, whether startups should be subsidized and the design of such subsidies, the role of universities in commercializing ideas, impact of the tax code on entrepreneurship, the role of corporate responsibility in startups, and more.
Grading Basis: Letter Grade

LAWS 8302 (2) Seminar: Advanced Problems in Water Resources Law
Explores the use of watersheds as geographic and political entities for addressing water-related issues and how laws and institutions facilitate or impede watershed-based problem solving.
Grading Basis: Letter Grade

LAWS 8303 (2) Seminar: Advanced Oil and Gas
Covers the history of oil and gas conservation and its regulation, proration and allowable regulation, compulsory pooling and unitization, permitting and environmental regulation, and the interplay between federal, state and local regulation.
Requisites: Requires prerequisite course of LAWS 7102 (minimum grade D-).
Grading Basis: Letter Grade

LAWS 8310 (2) Seminar: International Crimes Punishment
Addresses issues in international criminal law in three parts: 1) basic contents of international law, 2) international criminal tribunals that enforce international criminal law, 3) national efforts to bring international criminal prosecutions.
Requisites: Restricted to Law (LAWS) students only.
Recommended: Prerequisites LAWS 6400 and LAWS 7440.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 8311 (2) Seminar: Computer Crimes
Explores legal issues that judges, legislators, prosecutors, and defense attorneys confront with the recent explosion in computer related crime. Includes Fourth Amendment in cyberspace, law of electronic surveillance, computer hacking and other computer crimes, encryption, online economic espionage, cyberterrorism, First Amendment in cyberspace, federal and state relations in enforcement of computer crime laws, and civil liberties online.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication

LAWS 8312 (3) Seminar: The Law of the Colorado River
Addresses the many areas of law and policy that affect management of the Colorado River and the communities that depend on it. The seminar will also include material and presentations from experts in other disciplines, including conservation biology, climate science, anthropology, geology, and hydrology. The centerpiece of the class will be a two-week raft trip through the Grand Canyon.
Grading Basis: Letter Grade

LAWS 8315 (2) Seminar: Advanced Criminal Justice
Studies policy and practice issues rather than case law. Focuses primarily on how American criminal justice is dispensed in cases that do not reach trial, including police behavior, prosecutorial discretion, defense services, bail, plea bargaining, and sentencing.
Grading Basis: Letter Grade

LAWS 8318 (2) Seminar: Law and Economics
Introduces the uses and limitations of microeconomic theory for understanding and resolving legal problems. Emphasizes concepts prominent in the law and economics literature such as cost, transaction costs, utility, and rational self interest.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Jurisprudence and Perspective

LAWS 8320 (2-3) Seminar: Oil and International Relations
Addresses the extent to which the international community of nations is oil dependent. Assesses the impact and the geopolitical dangers to international relations arising from the expanding demand for scarce oil from developing, as well as developed, economies.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 8321 (2) Seminar: Computers and Law
Explores a range of topics surrounding the juxtaposition of computers and law. Most are aware of the impact that law has on computers through the myriad of regulations that govern computers and related technologies. Less well known is the impact that computer technology is having on governance and on the practice of law. Explores both sides of this dynamic interplay between law impacting computing, and computing impacting law.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication

LAWS 8322 (3) Seminar: Environmental Decision Making
Explores the foundational issues that underlie agency decision making, including environmental ethics, cost benefit analysis, risk assessment, constitutional law and administrative law. Compares and contrasts National Environmental Policy Act and the National Historic Preservation Act and the Endangered Species Act.
Grading Basis: Letter Grade

LAWS 8325 (2) Seminar: Reforming Criminal Trials
Starts from the premise that reform of our criminal trial system to make it less complicated, less expensive, and more reliable should be considered. Examines trial systems in other countries and U.S. changes over recent decades. Student papers make and defend proposals for reform.
Grading Basis: Letter Grade

LAWS 8335 (2) Seminar: Advanced Criminal Procedure
Focuses on a particular topic in criminal procedure. Topics include the privilege against self-incrimination, juries and defense and prosecution ethics.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Litigation and Procedure
LAWS 8341 (3) Seminar: Law and Economics of the Information Age
Examines basic regulatory and legal challenges of our information economy and digital age. Emphasizes the “networked” information industries, the proper role of “unbundling” policies to advance competition and how intellectual property and antitrust rules should be developed.
Equivalent - Duplicate Degree Credit Not Granted: CYBR 5260
Requisites: Requires prerequisite course of LAWS 7201 or LAWS 7241 or LAWS 7301 (minimum grade D-).
Grading Basis: Letter Grade

LAWS 8345 (2) Sem Comp Crim Pro
Grading Basis: Letter Grade

LAWS 8351 (2) Seminar: Law and Economics of Utility Regulation
Discusses economics of regulation and matters ranging from neoclassical economic analysis to public choice theory to new institutional economics. Discusses several regulatory domains, including antitrust law, telecommunications regulation and energy regulation. Highlights both economic and non-economic goals, including universal service, sustainability (e.g., renewable energy) and architecture (e.g., free speech concerns with regard to telecommunications networks).
Requisites: Requires prerequisite course of LAWS 6301 or 7201 or 7241 (minimum grade D-). Restricted to Law (LAWS) or Telecommunications (TELE) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 8355 (2) Seminar: Sentencing Law and Policy
Studies sentencing law against the backdrop of criminal justice policy and concerns of public policy. Covers theories of punishment, the merits of indeterminate sentencing, sentencing guidelines, and nonincarcertive sanctions. Confronts problems of race, class, and other disparities in criminal sentencing.
Grading Basis: Letter Grade

LAWS 8361 (2) Seminar: Information Privacy
Explores the laws that regulate the basic technologies of the Internet and the management of information in the digital age. Examines the most significant statutes, regulations and common law principles that comprise this emerging legal framework, including the Federal Wiretap Act, the HIPAA Privacy Rule, and the Digital Millennium Copyright Act.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Intellectual Property/Technology/Telecommunication

LAWS 8375 (2) Seminar: Advanced Immigration and Citizenship
Explores the law and policy of citizenship in the United States, starting with legal questions regarding acquisition and loss of citizenship as well as the consequences of citizenship, but also examines the fundamental premises underlying American citizenship and the concept of citizenship generally.
Grading Basis: Letter Grade

LAWS 8385 (2) Sem Law & Religion
Grading Basis: Letter Grade

LAWS 8395 (2) Seminar: Separation of Powers
Explores the constitutional relationships among the three branches of the federal government in the sphere of domestic matters, omitting foreign affairs and war. Develops topics including executive orders, Congressional control of the executive and the courts, appointment and removal of officers, impeachment, executive privilege, use of military tribunals, and the election of 2000. A seminar paper will be required.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public Management

LAWS 8400 (2) Seminar: Special Topics in International Law
Provides in-depth coverage of particular issues in international law and exposes students to intellectual concepts in the field. Students write seminar length papers and develop critical thinking through writing and research.
Grading Basis: Letter Grade

LAWS 8401 (2) Seminar: Securities Litigation and Enforcement
Designed for students interested in studying topics related to securities litigation. Covers civil liability under the Securities Act of 1933, proxy fraud, class actions (with special emphasis on the Private Securities Litigation Reform Act and the Securities Litigation Uniform Standards Act), market manipulation, SEC enforcement actions, enforcement issues involving attorneys and accountants, criminal enforcement, international securities fraud and securities arbitration.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 8405 (2) Seminar: Public Health Law and Ethics
Explores rules of law pertaining to the American public health care system and the ethical issues raised by the government's effort to protect the health of the American people. Held at the Anschutz Medical Campus.
Grading Basis: Letter Grade

LAWS 8407 (2) Seminar: Tax Law, Economics and Policy
Explores current issues in tax policy. Topics may include equity, efficiency, and distributive justice; choice of tax base, including consumption taxes; social policy in the Internal Revenue Code; corporate taxation and tax incidence; and the tax legislative process, legal transitions, and tax reform. This two-credit seminar does satisfy the graduation requirement.
Requisites: Requires prerequisite or corequisite course of LAWS 6007 (minimum grade D-). Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 8409 (2) Seminar Special Problems in Conflict Resolution and Management
Develops a comprehensive description of dispute; creates a conflict assessment of the stakeholders in and dynamics of dispute; assess obstacles to and opportunities for mediation; recommend strategy for addressing and managing the dispute.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Litigation and Procedure

LAWS 8412 (2) Seminar: Critical Law and Economics
Explores some of the more successful and enduring critiques of Chicago Law and Economics. Starts with an introduction to economic analysis, including basic analytic tools like rational actor theory, supply and demand, efficiency notions, and cost concepts. Later classes will explore more advanced works in the area.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business
LAWS 8415 (2) Seminar: Bioethics and Law
Focuses on legal, moral, and economic analyses of problems posed or soon to be posed by advances in biomedical technologies.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 8421 (2) Seminar: Duties of the Professional Advisor
Studies ethical and legal regulation of lawyers, auditors, and investment bankers, who have been described as "Gatekeepers" to the investment markets. Considers changes in ethical and legal regulation that can be adopted to restore a sense of integrity for these professionals.
Grading Basis: Letter Grade

LAWS 8425 (2) Seminar: Advanced Torts
Explores how dignitary interests have influenced the development of and have been incorporated into law, using the common law of torts and the constitutional rights of life and liberty as a general (but not exclusive) focal point of discussion.
Grading Basis: Letter Grade

LAWS 8428 (2) Seminar: Women in Law and Literature
Considers both legal and literary depictions of women and their legal and extralegal situations. Topics may include women as mothers, women as sexual beings, women's silence, women's violence and women as criminals, women at work, and women as the "Other" in law and literature.
Grading Basis: Letter Grade

LAWS 8430 (2) Seminar: Comparative Public Health Law and Ethics
Compares public health law systems to those in other countries. Studies the goals, legal structures, and services provided, together with such issues of coercion as quarantines, monitoring, mandates and prohibitions, and forcing pharmaceutical companies to make available inexpensive generic drugs.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 8440 (2) Seminar: International Human Rights
Exposes students to a variety of human rights issues and the responses by international institutions. In the fall, the seminar will meet for several sessions in a colloquium format, featuring guest speakers from around the world. In the spring semester, students will complete a paper that satisfies the law school's seminar writing requirement.
Grading Basis: Letter Grade

LAWS 8450 (2) Seminar: Law and Economic Development
Explores past and present debates over the role of the legal order in economic development. Studies the relationships among economic ideas, legal ideas and the development policies pursued at the national and international level in successive historical periods, beginning in the Seventeenth Century to the present. Focuses on the potential for an alliance of various traditions from economics, law and other disciplines to understand development.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International Comparative Law

LAWS 8455 (2) Seminar: Gender and Criminal Justice
Explores the intersection of gender and criminal justice in such areas as police and prosecutorial discretion, the investigation and prevention of crimes, the definition of offenses and defenses, factors contributing to criminality, criminal sentencing and the experience of punishment, and the societal ramifications of incarcerating children's caregivers.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 8458 (2) Seminar: Law and Literature
Focuses on the question of what literature can teach lawyers through a variety of literary works and films. Covers traditional works by Shakespeare, Tolstoy, Camus, Kafka and Melville, as well as more contemporary works by Toni Morrison and Norman Mailer. Several short reflection papers, a journal and a final paper will be required.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Research and Writing

LAWS 8505 (2) Sem Interdisciplinary Perspectives on Law and Social Change
Introduces legal institutions engaged in social change, from courts, to Congress, to bureaucracies and organizations. Posits tension between tasks of dispute resolution and public policy development and institutional adaptations. Considers the role of public opinion and the classics of legal formalism to more critical accounts. Considers postmodern theory and empirical legal scholarship. Presents alternatives to court-centered approaches to change, including community lawyering and organizing, law and social movements, and legislation.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Jurisprudence and Perspective

LAWS 8508 (2) Seminar: Constitutional Foundations Core Ideas
Focuses on core ideas in U.S. constitutional law, such as means/ends analysis, institutional competence, rights definitions, and juridical techniques for limiting governmental powers. Draws from historical writings, contemporary press accounts, learned treatises, oral arguments, law review articles, and key judicial opinions such as McCulloough v. Maryland, Lochner v. New York, Brown v. Board of Education.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public

LAWS 8511 (2) Seminar: Wal-Mart
Examines issues raised by Wal-Mart's size, power, and business model. Considered issues bring numerous areas of law into play, including employment and labor law, social welfare legislation, class actions, antitrust, zoning, international labor and human rights regulation, and international trade. The course will show how different areas of the law are integrated in practice.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business and Commercial Law

LAWS 8515 (2) Seminar: Forced Labor
Reviews several regimes of compulsory labor that have been central to the American experience: Black chattel slavery in the antebellum South; debt peonage, criminal surety, and related institutions of agricultural involuntary servitude; convict leasing and other forms of compulsory inmate labor; "White slavery" and prostitution; and forced labor among immigrants. Emphasizes the complicated role that the law has played, and in some respects continues to play, in both supporting and undermining such institutions.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public

LAWS 8521 (2) Seminar: Comparative Labor Law
Explores the laws and economic transformations that affect labor relations on a global scale.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business
LAWS 8531 (2) Seminar: Labor and Employment in Transportation
Explores legal, social, and economic issues arising from labor relations in the industries transporting goods and people by road, rail, air, and water, among the most critical sectors of the economy.
Grading Basis: Letter Grade

LAWS 8533 (2) Seminar: Criminal Law in Context: Legal and Social Images of Victims and Perpetrators
Contextualizes criminal law by engaging in an in-depth study of the legal and social characterizations of victims and perpetrators in U.S. law, politics, and popular culture.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Litigation and Procedure

LAWS 8535 (2) Seminar: Class and Law
Explores issues relating social class to such areas as labor relations, law enforcement, controls on radical movements and the distribution of wealth and power. Considers problems defining social class.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public

LAWS 8538 (2) Seminar: Modern Legal Theory Core Ideas
Explores key ideas that have shaped American law and legal thought, such as Holmes' bad man, the Coase Theorem, the "Hunch" theory of law, and others. Focuses on researching and writing many short papers.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Jurisprudence and Perspective

LAWS 8545 (2-3) Seminar: Food Law and Policy
Introduces students to the laws and regulations that govern our food supply. The focus is federal law provided by the U.S. Food and Drug Administration, with additional readings, videos, and speakers. Topics to be covered include legal definitions for food, rules on food labeling, standards for food safety, biotechnology, international trade, organic and environmental regulation, hunger, farmer’s markets and obesity.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 8548 (1-2) Seminar: Theory of Punishment
Explores the various justifications that philosophers have developed to explain why we have the right to punish. Examines the historical evolution of our punishment system and focuses on the death penalty as a critical contemporary issue in the debate about the proper role of punishment in our society.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Jurisprudence and Perspective

LAWS 8555 (2) Seminar: Race, Education and American Law
Explores issues of equity, access and reform in American public education, particularly as it pertains to race, including desegregation, diversity, equal protection and public education, tracking and high-stakes testing, courts or the political branches, charters and vouchers.
Requisites: Restricted to Law (LAWS) students only.
Recommended: Prerequisite LAWS 7525.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public

LAWS 8565 (1-3) Seminar: Citizenship
The concept of citizenship connects immigration with studies of race, international human rights, gender, criminality and many others. It has been receiving growing attention in many scholarly disciplines. Examines the notion of citizenship in recent scholarship spanning law, political science, sociology and history.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 8605 (3) Seminar: Regulation and Innovation
Explores two related questions: first, what role does regulation play in encouraging (or inhibiting) innovation? Second, what kinds of innovation approaches to regulation itself are being employed or might be employed and how might these strategies improve the environment for private innovation?
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Electives

LAWS 8608 (2) Seminar: Power, Ethics, and Professionalism
Examines critically the possibility and character of ethical reasoning within the legal profession in light of its institutional structures. Explores descriptive/normative accounts of the profession's structure, "Professionalism," and individual conscience. Put simply, the seminar explores whether it is possible to be a good lawyer and ethical person.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Jurisprudence and Perspective

LAWS 8611 (2) Seminar: US National Security and Foreign Relations in a Time of Change
Explores the legal frameworks influencing the development of national security policy and US foreign policy. Students will be introduced to applicable US Foreign Relations Law, US National Security Law and International Law and will engage in analysis about current policy approaches to emerging national security threats.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 8613 (2) Seminar: Civil Liberties Litigation
Studies issues unique to the prosecution and defense of civil liberties lawsuits. Discusses litigation strategies with reference to lawsuits currently pending in the federal courts.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public

LAWS 8628 (2) Seminar: Law, Power, and Politics
Draws upon various works of political theory, social theory, and jurisprudence to examine different conceptualizations of politics, power, law, and their relations.
Grading Basis: Letter Grade

LAWS 8645 (3) Seminar: Law and Politics Colloquium: Race in America
A co-taught colloquium that exposes students to highly prominent scholars conducting research on current topics at the intersection of race, social science and the law, including racial profiling, hate crime and affirmative action. Students will complete a final paper satisfying the CU Law seminar requirement.
Equivalent - Duplicate Degree Credit Not Granted: PSCI 7191
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public
LAWS 8648 (2) Seminar: The Law of Politics
Examines the legal framework that governs the political process, including such topics as the political question doctrine, the "Right to vote," the 2000 presidential election controversy, term limits, bicameralism and presentment, campaign finance, direct democracy, and the interpretation of the legislative product (i.e., statutes).
Grading Basis: Letter Grade

LAWS 8650 (3) Seminar: Conflict of Laws
This seminar addresses the conflicts that arise when the significant facts of a case are connected with more than one jurisdiction, whether that jurisdiction belongs to a state, the federal government, or a foreign government. The subject is studied in its theoretical and historical context, with special emphasis on the international aspects of extraterritorial jurisdiction.
Grading Basis: Letter Grade

LAWS 8665 (2) Sexuality, Gender Identity, and Law Seminar
Examines the regulation of sexuality and gender identity in local, state, and federal law. Explores how sexuality and gender identity shape, and are shaped by, an array of laws and policies, which may include family law, military regulations, tax law, employment law, trusts and estates, obscenity law, and criminal law.
Grading Basis: Letter Grade

LAWS 8701 (2) Seminar: Counseling Families in Business
Explores the legal aspects of owning, managing and participating in a successful family business system, including corporate structure, legal issues, succession planning and estate management, internal capital markets in private enterprise, ownership issues in private businesses, how lawyers can assist with family governance, planning for and managing family philanthropy, gender issues in family business and conflict resolution.
Recommended: Prerequisites LAWS 6104 and LAWS 6157 and LAWS 6211 and/or LAWS 7409.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 8705 (2) Seminar: Affordable Housing
Explores the policy, legal and practical dynamics that drive the development and preservation of privately owned, government subsidized affordable housing. Investigates the nature of the market for housing, with particular emphasis on multifamily rental housing and debates about market failure in that context and then outline and contrast the major regulatory responses to such market failure. Explores how subsidy programs work in practice, focusing on model documents to frame sample transactions.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public

LAWS 8718 (2) Seminar: Modern Theorists and Law
Considers the work of Levi-Strauss, Steven Lukes, Pierre Bourdieu, Alfred Schutz, Anthony Giddens, Culler, David Harvey, Denis Cosgrove, Michel Foucault, and Emily Martin with respect to social control and law. Focuses on the way in which social control is exercised through the organization of space, time, and the human body. Topics include consideration of meaning, intersubjectivity in the law, social construction of time, and the body as a real and cultural artifact.
Grading Basis: Letter Grade

LAWS 8722 (2-3) Seminar: Advanced Energy Law
Provides an opportunity for students to further develop their knowledge of the field and to engage in a substantial writing project. Examples of possible topics include hydraulic fracturing, regulation of air emissions from power plants, the smart grid, transmission siting and development, the ratemaking process, design and regulation of electricity markets, energy finance or comparative study of energy regulation.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 8725 (2) Seminar: Advanced Topics in American Indian Law
Examines a variety of current issues related to American Indian Law. Topics will change to reflect the subjects that emerge at each time that the seminar is offered. Some examples of topics considered include legal protections for American Indian religion and culture, cultural property, Tribal law, gaming law, and Native American natural and cultural resources law. Department enforced corequisite: LAWS 7725.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 8728 (2) Seminar: Critical Theory Colloquium
Surveys critical legal theory; introduces the discipline of analytical engagement with law review literature; feminist legal theory, and critical race theory. Offers a deeper understanding of the purposes behind legal reforms, the interaction between law on the books and law in action, how different groups experience the law in different ways and difficult yet rewarding nature of working through seemingly intractable and emotionally charged race, sex and class issues.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 8755 (2) Seminar: Higher Education and the Law
Examines the goals, governance, norms, and ideals of American institutions of higher education, and how those policies are shaped by the legal system. Examines the legal relationship between institutions of higher education and its various constituents: faculty, presidents, governing boards, students, alumni, and staff. Spanns several traditional doctrinal categories, including contract, torts, employment law, constitutional law, intellectual property, tax, and antitrust.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Government and Public

LAWS 8765 (2) Seminar: Gender, Law, and Public Policy
Introduces students to various schools of feminist theory and examines the relationship between feminist theories and concrete problems in such areas as constitutional law, education law, employment discrimination, family law and criminal law.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Family, Gender, and Health

LAWS 8775 (2) Seminar: Advanced Topics in Health Law and Policy
Addresses advanced legal issues in representing physicians, long-term care institutions, hospitals, and other health providers. Issues range from economic policy, distributive justice, and bioethical questions to antitrust and regulatory issues. To be taught at Health Sciences Center.
Recommended: Prerequisite LAWS 7425.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Health Law
LAWS 8785 (2-3) Seminar: Access to Justice
Explores the scholarship that has developed around the provision of legal services - or the lack of legal services - for those who cannot afford market prices for attorneys. The seminar will also examine recent efforts to provide empirical support for the range of political claims that are made about access to the legal system.

Grading Basis: Letter Grade

Additional Information: Departmental Category: Electives

LAWS 8795 (2) Seminar: Special Topics in Law and Feminism
Provides an introduction to core concepts of human rights, women's rights and feminism. Examination of particular fields of law through feminist lenses, issues of gender and human rights, and feminist legal approaches in other countries or in comparative/cross-cultural perspectives.

Grading Basis: Letter Grade

Additional Information: Departmental Category: Electives

LAWS 8808 (2) Seminar: Rhetoric and the Art of Persuasion
Explores recent work in rhetoric to identify the principles and techniques of effective persuasion in law. Examines the ways in which cognition, language, imagery, metaphor, narrative, and scene setting shape the ways in which lawyers and judges strive to persuade each other.

Grading Basis: Letter Grade

Additional Information: Departmental Category: Litigation and Procedure

LAWS 9002 (3) Public Land Law
Deals with the legal status and management of resources on federal lands, including national forests, parks and BLM lands. Explores federal law, policy, and agency practice affecting the use of mineral, timber, range, water, wildlife and wilderness resources on public lands.

Requisites: Requires prerequisite course of LAWS 6112 (minimum grade D-). Restricted to Law (LAWS) students only.

Grading Basis: Letter Grade

Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 9003 (3) Ethical Organizations and Professionals
Provides students, particularly those in the Master of Studies in Law (MSL) in Ethics and Compliance program, the opportunity to examine what drives ethical behavior within organizations and the role that ethics and compliance professionals play in promoting ethical behavior. Investigates ethical challenges and decision making, methods to assess ethical organizational culture and qualities of ethical leadership.

Grading Basis: Letter Grade

LAWS 9005 (3) Introduction to U.S. Law for MSL Students
Provides an overview of the US legal system and will help MSL students begin to 'think like lawyers'. Students will be provided with the necessary vocabulary and skills to use legal resources and legal reasoning in academic and professional environments, including reading and analyzing cases, statutes and regulations, doing legal research, and applying existing law to the issue at hand to predict answers to legal questions.

Requisites: Restricted to Master of Studies in Law (LAWS-MSL) students only.

Grading Basis: Pass/Fail

Additional Information: Departmental Category: Electives

LAWS 9025 (2-3) Introduction to U.S. Law For LLM Students
Reviews the fundamentals of the U.S. legal system, including an overview of the U.S. Constitution, federalism, the structure and function of courts, sources of legal authority, and common-law methodology.

Requisites: Restricted to students in the LLM program.

Grading Basis: Letter Grade

LAWS 9061 (1) Contract Drafting
Beginss with value creation by transactional lawyers, and emphasizes the opportunity for lawyers to reduce information and agency costs, and mitigate strategic behavior by using tools such as disclosure, representation and warranties, incentive compensation and earnouts. Shifts to negotiation and drafting, focusing on basic drafting principles and strategies to advance one's clients' interests. Introduces the basic framework of contracts (recitals, reps and warranties, capitalized terms, definitions, indemnifications and escrow).

Requisites: Restricted to Law (LAWS) students only.

Grading Basis: Letter Grade

Additional Information: Departmental Category: Business

LAWS 9101 (4) Deals: Engineering Financial Transactions
Explores the business lawyer's role in creating value by helping clients identify, assess and manage business risks through efficient contract design while achieving the optimal legal, tax or regulatory treatment for the deal. Includes case studies of actual transactions.

Requisites: Restricted to Law (LAWS) students only.

Grading Basis: Letter Grade

Additional Information: Departmental Category: Business

LAWS 9103 (1) Ethics of Patent Practice
Patent agents are not licensed to practice law in any state and therefore courts, clients and practitioners are often faced with uncertainty in defining the ethical obligations of a patent agent and the consequences of failure to fulfill those obligations.

Grading Basis: Letter Grade

LAWS 9104 (3) Wills and Trusts
Covers intestate succession; family protection; execution of wills; revocation and revival; will contracts and will substitutes; creation of trusts; modification and termination; charitable trusts; fiduciary administration, including probate and contest of wills; construction problems in estate distribution.

Requisites: Restricted to Law (LAWS) students only.

Grading Basis: Letter Grade

Additional Information: Departmental Category: Property

LAWS 9111 (4) Business Law Colloquium
Business law scholars from CU and around the country present research papers at this weekly colloquium. Topics may include contracts, corporate law, securities regulation, tax, intellectual property, venture capital and private equity and the legal profession. No prior knowledge of law and economics is expected, although some knowledge of business organizations will be useful.

Requisites: Restricted to Law (LAWS) students only.

Grading Basis: Letter Grade

Additional Information: Departmental Category: Business

LAWS 9112 (2-3) Advanced Natural Resources Law
Provides in-depth study and analysis of current problems in natural resources law, using historical, literary and scientific materials. Includes field-trip and requires additional field trip expenses.

Repeatable: Repeatable for up to 5.00 total credit hours.

Requisites: Restricted to Law (LAWS) students only.

Recommended: Prerequisite LAWS 6112 or students must have taken or be currently enrolled in any three of the following, LAWS 6002, LAWS 6112, LAWS 6302 or LAWS 7725.

Grading Basis: Letter Grade

Additional Information: Departmental Category: Environment, Natural Resources and American Indian
LAWS 9167 (3) Partnership Taxation
Examines the federal income taxation of partnerships and other pass-through entities, which represent most small businesses in the United States. Topics may include the allocation of operating income and deductions among owners, contributions and distributions of property, and acquisitions and dispositions of partnership interests by partners.
Requisites: Requires prerequisite course of LAWS 6007 (minimum grade D). Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Taxation

LAWS 9209 (4) Natural Resources Law Clinic
Engages in litigation and advocacy aimed at protecting the natural resources of the Rocky Mountain region. Students will represent clients in matters involving public lands, wildlife, and other resources. The seminar component will focus on practical aspects of environmental litigation, including administrative practice and decision-making, client representation, citizen suits and ethical issues.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 9221 (2) Advanced Applied Compliance
Enables students to discover what is takes to transform a company's compliance program beyond a "paper program." The class will explore the elements of a strong, effective and mature Compliance program. Taught by an experienced compliance professional with the support of several expert guests, the class will investigate how the best Compliance programs augment compliance policies with processes, controls and continuous monitoring.
Grading Basis: Letter Grade

LAWS 9222 (1) Topics in Compliance
Learn how to assess allegations of wrongdoing and recognize situations in which internal investigations are appropriate. Students will lean how to develop an investigation plan and will be introduced to the primary steps in an investigation including the following: initiating an investigation, locating and gathering evidence, conducting interviews, analyzing evidence, articulating conclusions and drafting investigative reports.
Requisites: Restricted to Master of Studies in Law (MSL) or Law-JD students only.
Grading Basis: Letter Grade

LAWS 9226 (1-3) Communications for Compliance Professionals
Develops the tools students will need to thrive in the law school's MSL program. Deepens students' understanding of the United States legal system and develops their ability to communicate effectively and appropriately in writing and orally to their intended audience, and research, organize and explain their ideas clearly, using appropriate writing conventions.
Requisites: Restricted to Master of Studies in Law (LAWS-MSL) students only.
Grading Basis: Letter Grade

LAWS 9246 (2-3) Intro to U.S. Legal Practice: Legal Writing, Research and Analysis
Assist LL.M. students develop their legal writing skills as well as teach practical skills needed in the U.S. legal environment including locating cases, statutes and other legal source materials, citing legal authority correctly, and checking the validity of case citations.
Requisites: Restricted to students in the LLM program.
Grading Basis: Letter Grade

LAWS 9341 (3) Law and Economics of the Information Age
Examines basic regulatory and legal challenges of our information economy and digital age. Emphasizes the "networked" information industries, the proper role of "Unbundling" policies to advance competition, and how intellectual property and antitrust rules should be developed.
Requisites: Requires prerequisite course of LAWS 7201 or 7241 or 7301 (minimum grade D). Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 9401 (3) Securities Regulation
Stresses statutory interpretation of the various federal statues regulating the issue of corporate securities and the cases and regulations that have arisen out of those statutes.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 9409 (3) Legal Negotiation
Explores the fundamentals of effective negotiation techniques and policies for lawyers. Students engage in mock negotiations of several legal disputes.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Practice: Clinical and Simulation

LAWS 9410 (3) International Trade Law
Examines the law of the World Trade Organization and the General Agreement on Tariffs and Trade. Examines rules restraining national restrictions on trade that addresses tariff and non-tariff barriers, discrimination, regionalism, anti-dumping, countervailing duties and safeguards. Considers the relationship between trade and other regulatory areas or social values, such as environmental protection, health and safety standards, human rights, intellectual property protection.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: International

LAWS 9450 (2) Regional Human Rights Protection for MSL and LLM Students
Examines how human rights law and policy is created, interpreted and enforced within regional systems. Explores the main sources of human rights law including treaties, international customary law, constitutional law, municipal law, comparative law and principles; the jurisprudence of regional courts and tribunals, the institutions that support human rights advocacy and the cultural perspectives of affected communities and peoples.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade
LAWS 9701 (2) Counseling Families in Business
Explores the legal aspects of owning, managing and participating in a successful family business system, including corporate structure, legal issues, succession planning and estate management, internal capital markets in private enterprise, ownership issues in private businesses, how lawyers can assist with family governance, planning for and managing family philanthropy, gender issues in family business, and conflict resolution. Recommended prerequisites: LAWS 6104 and LAWS 6157 and LAWS 6211 and/or LAWS 7409
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Business

LAWS 9712 (3) Climate Change Law and Policy
Examines the science of climate change and the broader role of science in public policymaking. Reviews the changing legal landscape to abate greenhouse gas emissions, and key issues in policy design. Reviews the Supreme Court’s April 2, 2007 decision in Massachusetts v. EPA, overturning EPA’s refusal to regulate greenhouse gas pollution from motor vehicle tailpipes, and the aftermath in the courts, Executive Branch and Congress.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 9722 (3) Energy Law and Regulation
Provides an introduction to energy law and regulation in the United States. Covers basic principles of rate regulation and public utilities, the division of jurisdiction between federal and state governments, and the key federal statutes and regulatory regimes governing natural gas, electricity, and nuclear power. Focuses on the basic federal frameworks for natural gas and electricity regulation, with an emphasis on understanding the messy and uneven transition to wholesale competition in these sectors and, in the electricity context, the experience with state restructuring and retail completion.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 9735 (3) American Indian Law II
Investigates the legal history and current legal status of Alaska Natives and Native Hawaiians. Addresses other current topics such as tribal water rights, tribal fishing and hunting rights, tribal justice systems, religious freedom and tribal natural resource and environmental management.
Requisites: Requires prerequisite course of LAWS 7725 (minimum grade D-). Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environment, Natural Resources and American Indian

LAWS 9846 (1-2) LLM Seminar
LLM students study academic legal writing in this 1-credit per semester yearlong course. Topics covered will include: the purpose of academic legal writing; how academic legal writing differs from other forms of legal writing; topic selection; legal research (methods and ethics); first drafts; editing; academic workshops; and publishing. In addition, guest speakers will talk to LLM students about career planning and job seeking. International LLM students will learn about the American legal system.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Research and Writing

LAWS 9856 (1-4) LL.M Thesis
Provides eligible LL.M students the option to enroll in this two-credit LL.M Thesis course. The course requires a significant work of original research on a topic chosen in consultation with a faculty supervisor and other law school faculty with set assignments for topic selection, drafts, and a workshop. In exceptional circumstances and only after pre-approval, an LLM student may enroll for a third or fourth credit. Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Law (LAWS) students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Research and Writing

Law - Master of Laws (LLM)
Colorado Law offers a one-year, full-time LLM degree in the following areas:

• Natural Resources, Energy & Environmental Law
• International Law & Human Rights
• Indigenous Peoples Law & Policy
• Entrepreneurship & Business Law
• Intellectual Property, Technology and Telecommunications Law
• US Law for Foreign Lawyers

Colorado Law’s LLM degree program is global in scope and is for talented lawyers from diverse backgrounds and countries. The LLM program fully immerses students in Colorado Law and offers inclusive access to programming, courses/modules, and the greater CU Boulder campus; our JD and LLM students learn side-by-side and from each other. At Colorado Law, we recognize that each of our LLM students have unique and diverse backgrounds and experiences, backgrounds and experiences that can enrich our community of scholars and students and help to advance Colorado Law’s intellectual leadership in the world.

LLM program course options are diverse, and LLM students have the ability to design a program of study suited to his or her academic and professional interests. While students complete most courses at the law school, they also have the opportunity to complement their legal studies with graduate-level courses in other departments within the greater university.

Requirements
The Master of Laws requires 24 credits.
For more information, contact Director of International Programs, Jimmy Ilseng at jimmy.ilseng@colorado.edu.

Law - Master of Studies in Law (MSL)
Colorado Law’s Master of Studies in Law (MSL) degree is a one-year, 28-credit, no-LSAT-required program that enables students who hold at least an undergraduate degree to obtain legal training short of a full Juris Doctor (JD). Increasingly, emerging job markets have openings that require some legal knowledge and employers are assigning a number of legal tasks traditionally performed by lawyers to non-lawyers. Colorado Law’s MSL will prepare students to obtain and excel in those positions. MSL students will be admitted into one of three specialty tracks: ethics and compliance, patent law, or human rights law.
Ethics and Compliance Curriculum
The ethics and compliance track trains students to become compliance and ethics officers at large corporations, as well as at nonprofit entities, such as colleges, universities, and hospitals. These organizations are subject to an increasing number of legal requirements and need trained professionals to lead effective in-house programs to ensure compliance with statutes and regulations.

This track prepares students to develop, improve, and manage ethics and compliance programs and help organizations obey the law, reduce the risk of fraud, other law-breaking, and misconduct, and mitigate their firms' legal liability and reputation risk. Students have the opportunity to focus on specific fields of law, such as privacy/cybersecurity, healthcare and financial services.

Human Rights Curriculum
The human rights track trains students in international human rights law and policy for professionals from a wide variety of academic backgrounds. During this one-year degree program, MSL students will take 28 credits of courses, including core and elective courses on a range of topics related to the international human rights system. The program of study includes a special topics course that features a series of speakers who are well-known academics from other universities or practitioners in human rights NGOs or international institutions.

Patent Law Curriculum
The MSL in Patent Law allows individuals with engineering and science degrees to pursue an interesting and in-demand career as patent agents. Increasingly, emerging job markets have openings that require some legal knowledge, and employers frequently assign legal tasks traditionally performed by lawyers to non-lawyers. Colorado Law’s MSL will prepare students to obtain and excel in these positions. Upon completion of the MSL in Patent Law degree, students will be prepared to sit for the U.S. Patent and Trademark Office (PTO) Patent Bar Exam.

Requirements
MSL students will be admitted into one of three specialty tracks and take courses specifically tailored for that track. Colorado Law’s Master of Studies in Law (MSL) in Human Rights is an advanced degree program that offers training in international human rights law and policy for professionals from a wide variety of academic backgrounds. The MSL in ethics and compliance is designed to prepare prospective ethics and compliance officers in privacy/cybersecurity, health care and financial services. The MSL in Patent Law allows individuals with engineering and science degrees to pursue an interesting and in-demand career as patent agents.

All MSL students will take courses designed specifically for MSL students—one that introduces them to the American legal system, and one that introduces them to legal research, writing and analysis. In addition to those introductory courses, MSL students will take required and elective courses, alongside JD students, relevant to their specialty track.

Law - Juris Doctor of Laws (JD)
Colorado Law’s three-year, full-time Juris Doctor (JD) degree provides a strong, well-rounded legal education with a rich mixture of theory, policy, doctrinal analysis and professional skills. Students have broad flexibility to meet their individual interests and needs.

Areas of Academic Strength
Environmental, Energy and Natural Resources Law
Ranked consistently among the very best in the country, environmental and natural resources law has been a key focus of the Colorado Law curriculum for more than half a century, and is one of the strongest and deepest programs of its kind.

Technology and Intellectual Property Law
Colorado Law has developed one of the nation’s most comprehensive legal programs oriented around information technology. Technology lawyers address interesting policy challenges and novel legal issues, and rank among the most satisfied within the legal profession. Colorado Law is the right place at the right time for those interested in exploring the frontiers of entrepreneurial law, technology policy and intellectual property.

Entrepreneurial and Business Law
Colorado Law provides a robust curriculum in business law, tailored for aspiring deal lawyers in Boulder, Denver and beyond. Boulder has a vibrant entrepreneurial community with many start-up and emerging companies. We place students in small law firms that serve small business and emerging companies, as well as in larger law firms who serve traditional larger corporate clients. In recent years, we have placed students in interesting and fulfilling in-house positions.

American Indian Law
At Colorado Law, we believe that American Indians deserve the very best lawyers and that we have an obligation to train them. Our American Indian Law Program faculty, including the nation’s top scholars and practitioners in the field, offers a full slate of introductory and advanced classes in the field to prepare students for all aspects of Indian law practice, and we now have dozens of successful alumni practicing Indian law in tribal government, federal agencies and at law firms. Colorado Law graduates are equally prepared to work on impact litigation, economic development, policy advocacy, individual legal services and tribal governance in Indian law. Our American Indian Law Program also appeals to many students with broader practice interests in natural resources, public lands, property, museum and art law, technology, entrepreneurship, family law and beyond. Indeed, because American Indian law raises questions regarding the rule of law and legal pluralism, the contours of sovereignty and governance, cross-cultural representation and minority rights and interdisciplinary study and practice, it offers important intellectual development opportunities for all Colorado Law students.

Juvenile and Family Law
Juvenile and family law covers a broad range of practice areas, such as marriage, divorce, custody, visitation, family support, child abuse and neglect, delinquency, adoption, estate planning, education law and elder law. The Juvenile and Family Law Program (JFLP) provides students with opportunities to acquire specialized knowledge in this field, develop a network of, and foster collaboration between, students, academics, and practitioners and engage in interdisciplinary work in the study and practice of the field. The Program includes specialized courses, research projects, externships and clinical opportunities.
Requirements

First Year
First-year courses lay the foundation and all JD candidates take these courses to learn to "think like a lawyer." Common law courses taught in the Socratic Method allow students to develop legal reasoning and critical thinking skills. All first-year students are assigned to a small cohort to help build strong relationships and study groups with classmates.

Fall Semester
- **Civil Procedure** (LAWS 5303): Rules governing pleading, joinder of parties, discovery, jurisdiction of courts, right to jury trial, appeals and res judicata and collateral estoppel, with emphasis on the Federal and State Rules of Civil Procedure.
- **Contracts** (LAWS 5121): Contract liability, offer and acceptance, consideration, frauds statute, contract remedies, the parol evidence rule, contract performance, conditions, changed circumstances.
- **Legal Writing I** (LAWS 5226): Legal analysis and document preparation, objective legal analysis techniques, legal rule synthesis, authority use to explain rules and rule application to case facts.
- **Legislation and Regulation** (LAWS 5205): Statutory interpretation, architecture of the administrative state and interpretation and review of regulation.
- **Torts** (LAWS 5425): Nonconsensual allocation of losses for civil wrongs, focusing on negligence and strict liability.

Spring Semester
- **Legal Writing II** (LAWS 5223): Appellate brief and document preparation, oral arguments before a three-judge mock court, techniques of persuading a court to accept a client’s view of the law and facts, professional judgments within ethical boundaries and lawyer credibility.
- **Constitutional Law** (LAWS 6005): Constitutional structure, including judicial review, federalism, separation of powers and constitutional rights of due process and equal protection.
- **Criminal Law** (LAWS 5503): Statutory and common law of crimes and defenses, the procedures by which the law makes judgments as to criminality of conduct, constitutional limits.
- **Property** (LAWS 5624): Personal property, estates and interests in land, landlord–tenant, basic land conveyancing and private land use controls.
- **Academic Support**

Second and Third Years
The elective program in the second and third years builds upon the foundation laid in the first-year curriculum. Students must take Evidence (LAWS 6353) and Legal Ethics Professionalism (LAWS 6103) courses and a seminar (labeled as a LAWS 8000-level course). Colorado Law encourages a balance between experiential learning and classroom studies, graded courses and non-graded courses and study within and outside the law school.

Experiential Learning
Students who start law school in the fall 2016 semester or later also have to complete six credit hours of experiential courses. Experiential courses are simulation courses, law clinics and externships. At least two of these credits must be obtained in courses with regularly scheduled class sessions, and Law School Rules generally cap credits that may be earned in externships at 4 credits. The registrar’s office will post which courses in a given semester meet the definition of simulation courses before registration begins for that semester.

No student shall receive more than 14 credit hours toward the JD degree from co-curricular activities such as journals, moot court and trial competitions; Independent Legal Research; courtroom observation courses; externships; or coursework completed in another department, school or college of the university or at another institution of higher learning.

Elective Courses

Business
- Accounting Issues for Lawyers
- Agency, Partnership and the LLC
- Antitrust
- Bankruptcy
- Business Planning
- Business Transactions
- Corporate Finance
- Corporations
- Deals
- Deals Lab: Advanced Securities
- Deals Lab: Advanced Venture Capital
- Law Practice Management
- Mergers, Acquisitions and Reorganizations
- Secured Transactions
- Securities Regulation
- Venture Capital and Private Equity

Criminal
- Capital Punishment in America
- Criminal Procedure: Investigative Phase
- Criminal Procedure: Adjudicative Process
- Post Conviction Criminal Procedure
- White Collar Crime

Family, Gender and Health
- Domestic Violence
- Family Law
- Gender, Law, and Public Policy
- Health Law I: Finance, Administration and Organization of Health Care
- Health Law II: Medical Malpractice Litigation
- Juvenile Justice
- Parent, Child and State
- Sexuality and the Law

Government and Public Interest
- Administrative Law
- Education Law
- Election Law
- Employment Discrimination
- Employment Law
- Federal Courts
- First Amendment
- Labor Law

- Legislation
- Local Government
- Race and American Law

**Intellectual Property, Technology and Telecommunications**
- Computer Crimes
- Copyright
- Introduction to Intellectual Property Law
- IP Counseling
- IP and Technology Contracting
- Patent Law
- Patent Litigation
- Privacy and Security in the Digital Age
- Telecommunications Law and Policy
- Trademark and Unfair Competition

**International**
- Conflict of Laws
- Law and Development
- Immigration and Citizenship Law
- International Business Transactions
- International Dispute Resolution
- International Environmental Law
- International Human Rights
- International Law
- International Legal Order: History and Foundations
- International Trade Law
- Refugee and Asylum Law

**Jurisprudence and Perspective**
- Class and Law
- Critical Theory Colloquium
- Economic Analysis of Law
- Gender and Law
- Jurisprudence
- Philosophy of Law

**Litigation**
- Advanced Appellate Advocacy
- Advanced Evidence
- Complex Civil Litigation
- Evidence
- Federal Litigation: Everything but the Trial
- Litigation Drafting
- Motions Advocacy
- Trial Advocacy

**Natural Resources, Energy and Environmental Law**
- American Indian Law I
- American Indian Law II
- Climate Change Law and Policy
- Energy Insecurity and Sustainable Law
- Energy Law and Regulation
- Environmental Law
- Foundations of Natural Resources Law and Policy
- Jurisdiction in Indian Country
- Mining and Energy Law
- Oil and Gas
- Public Land Law
- Toxic and Hazardous Waste
- Water Law
- Wildlife and the Law

**Practice—Clinical**
- American Indian Law Clinic
- Civil Practice Clinic
- Criminal Defense Clinic
- Criminal and Immigration Defense Clinic
- Entrepreneurial Law Clinic
- Extern Program
- Juvenile and Family Law Clinic
- Natural Resources Litigation Clinic
- Technology Law and Policy Clinic

**Practice—Simulation**
- Advanced Trial Advocacy
- Alternative Dispute Resolution
- Appellate Advocacy Competition
- Arbitration
- Legal Negotiation
- Mediation
- Motions Advocacy
- Trial Advocacy
- Trial Competition

**Property**
- Advanced Real Estate Transactions
- Construction Law
- Estate Planning
- Land Use Planning
- Real Estate Planning
- Real Estate Transactions
- Wills and Trusts

**Research and Writing**
- Advanced Legal Research
- Advanced Legal Writing
- Independent Legal Research: *Journal of International Environmental Law and Policy*
- Independent Legal Research: *Journal on Telecommunications & High Technology Law*
- Independent Legal Research: Law Review
- Judicial Opinion Writing

**Taxation**
- Corporate Taxation
- Estate Planning
- Federal Estate and Gift Tax
- Federal Tax Politics
- Income Taxation
- Partnership Tax
• Tax Policy
• Taxation of Conduit Entities

Seminars
• Advanced American Indian Law
• Advanced Criminal Procedure
• Advanced Natural Resources Law
• Antidiscrimination and First Amendment
• Class and Law
• Comparative Constitutional Law
• Computers and the Law
• Constitutional Theory
• Consumer Empowerment
• Counseling Families in Business
• Gender Law
• Information Privacy
• Jurisprudence
• Law and Economics of Utility Regulation
• Law and Literature
• Media, Popular Culture and Law
• Oil and International Relations
• Power, Ethics and Professionalism
• Securities Litigation and Enforcement
• Separation of Powers
• Tax Policy
• Theory of Punishment

Note: Not all courses are offered each semester. This is a composite list of the last three years of course offerings.

Dual Degree Programs
Colorado Law students take advantage of an array of rich opportunities for interdisciplinary study through other CU schools and colleges, in addition to the University of Alberta. The schools work in cooperation to select courses for the programs that allow students to earn the dual degrees in less time than it takes to earn each degree separately. Students apply separately to and are admitted by the two schools under their respective admissions requirements. Only credit hours earned after law school enrollment count toward the JD degree, and the first year of the JD curriculum must be taken exclusively at Colorado Law.

• Juris Doctor/Master of Business Administration (JD/MBA) with CU Boulder’s Leeds School of Business
• Juris Doctor/Master in Environmental Studies (JD/ENVS) with CU Boulder’s Environmental Studies Program
• Juris Doctor/Doctorate in Environmental Studies (JD/PhD) with CU Boulder’s Environmental Studies Program
• Juris Doctor/Doctor of Medicine (JD/MD) with CU Denver’s School of Medicine on the Anschutz Medical Campus in Aurora
• Juris Doctor/Master of Public Administration (JD/MPA) with CU Denver’s School of Public Affairs
• Juris Doctor/Master of Science, Telecommunications (JD/MST) with CU Boulder’s Interdisciplinary Telecommunications Program
• Juris Doctor/Master of Urban and Regional Planning (JD/MURP) with CU Boulder’s College of Architecture and Planning

• Juris Doctor/Bachelor of Laws (JD/LLB) with the University of Alberta Faculty of Law, Canada

American Indian Law - Graduate Certificate
Colorado Law offers an American Indian law certificate demonstrating the completion of a concentrated course of study in the legal issues facing Native peoples and American Indian tribes. This certificate is attractive to legal, tribal and governmental employers, as well as employers seeking to do business with tribes and tribal members.

Requirements
Registration
To register for the American Indian law certificate, please complete the following steps:

1. Consult with the Director of the American Indian Law Program (Professor Kristen Carpenter) about your planned selection of courses.
2. Complete the registration form (https://cuboulder.qualtrics.com/SE/?SID=SV_eW1nrYp0baHDCF3) when registering for your second year of law school. Please indicate the classes you plan to take for the certificate. You are not bound to the plan you submit, and there is no penalty (other than not receiving the certificate) for failing to complete the program.
   **Note**: We strongly encourage submitting this form when you register for your second year. It helps both you and us to plan for your successful completion of the program. However, you can still receive the certificate if you submit this form late but complete the required coursework.
3. By March 15 (or Nov. 1) of the graduation semester, the student confirms that they will earn the certificate by resubmitting the form with updated information.

Program Requirements
Students must complete at least 92 credit hours (89 is required for the JD), at least 18 of which are in designated Indian law and related courses. Visit the Rules of the Law School (http://www.colorado.edu/law/about/rules) webpage for complete details.

**Other**

Other classes that may be approved by the AILP Directors and the Associate Dean for Academic Affairs.

Total Credit Hours: 12-14

**Entrepreneurial Law - Graduate Certificate**

The entrepreneurial law certificate coordinates Colorado Law’s strengths and business-law related assets in the areas of entrepreneurial and technology law, such as the Silicon Flatirons Center (http://www.siliconflatirons.com), the Entrepreneurial Law Clinic (https://www.colorado.edu/law/academics/clinics/entrepreneurial-law-clinic) and the Journal on Telecommunications & High Technology Law. It is awarded to law students who complete coursework reflecting a concentrated study of issues typically faced by transaction-side lawyers, and signals to prospective employers that a student possesses a skill set with applicability across issues of transactional law.

**Requirements**

Certificate requirements include:

1. at least 92 credit hours (89 is required for the J.D.), and
2. at least 21 of the 92 credit hours in the area of entrepreneurial law.

Visit the Rules of the Law School (https://www.colorado.edu/law/about/rules) webpage for complete details.

Environmental, Natural Resources and Energy Law - Graduate Certificate

The University of Colorado Law School has a proud tradition as a leader in the field of natural resources law, and it consistently ranks among the best programs in that field. The environmental, natural resources and energy law certificate recognizes the strength of the law school's natural resources program by affording law students the opportunity to design an educational program that provides a solid foundation in natural resources law, even while ensuring that they receive a well-rounded legal education. The certificate also offers prospective employers evidence of a student’s interest and commitment to the study of natural resources law.

Requirements

At least 92 total credit hours in law school courses or in graduate-level courses approved for the certificate program by the Dean’s Office, in consultation with the environmental, natural resources and energy law certificate advisor.

A student who satisfies all of the course requirements for the environmental, natural resources and energy law certificate will be awarded the certificate with honors if the student earned an average of at least an A- for classes designated by the student that satisfy the requirements for the certificate. A grade of C is required for all certificate courses to count towards completion.

At least 18 credit hours in natural resources law and policy courses, in addition to administrative law, as set forth below.

Health Law and Policy - Graduate Certificate

Law students may demonstrate to employers that they are prepared to practice health law and lead in the administration, organizing, policy-making and delivery of health care by earning a health law & policy certificate (HLP). To qualify for the HLP certificate, a student must earn 92 credit hours—three more than required for a regular JD degree—and at least 20 credit hours must be earned in courses approved in the health law and policy curriculum. Students awarded the health law & policy certificate will carry the notation of their concentration on their Law School transcripts. Moreover, students may earn the “Certificate With Honors” notation by earning a cumulative average grade of at least A- in the designated courses.

The HLP certificate will not only prepare you to practice law in areas such as health care administration, organization, financing, public interest advocacy and public health, but the certificate will also allow you to take advantage of the wealth of resources and courses related to health and health care in the Law School and throughout the University of Colorado system. We surveyed health law employers and heard from them that the HLP certificate will move law graduate resumes to the top of the applicant pile.

For more information, contact the Health Law Program Director, Craig Konnoth. (deborah.cantrell@colorado.edu)

Requirements

Required Courses and Credits

A full list of the designated courses and HLP certificate requirements may be found in Law School Rules (https://www.colorado.edu/law/about/rules/#_Toc385575490)

Experiential Learning and Externship Opportunities
Colorado law students have enjoyed the network and mentoring provided by the area’s health law community that has taken an active interest in enhancing our students’ educational experience.

- Boulder Community Hospital General Counsel Office
- Longmont United Hospital General Counsel Office
- Colorado Department of Public Health and The Environment
- U.S. Department of Health and Human Services, Office of Civil Rights
- A host of private law firms such as Caplan & Earnest, Holland & Hart, Feagre & Benson, and Polshinelli Shughart

International Law - Graduate Certificate

The international law certificate program is designed to ratify a student’s completion of a concentrated course of study in international law. This certificate will provide students with a grounding in the foundations of private and public international law, and also reflects the interdisciplinary nature of the growing international law practice, from international business transactions to international human rights. This certificate signals to potential employers and others that the student has engaged in a sustained course of study regarding international law and practice.

Requirements

Law students who wish to participate in the international law certificate program should contact the Law School Registrar and the certificate program advisor.

The international law certificate requires completion of the normal requirements for the JD, and the additional 3 credit hours that are required (total of 92 credit hours). The program can be completed within the normal three-year law degree if a student takes a somewhat heavier than average course load in each semester after the first year of study.

Students must earn a grade of at least a C in each required course. A student who satisfies all of the course requirements for a certificate program would be awarded the certificate "with honors" if the student earned at least an A- average in courses designated by the student as satisfying the certificate requirements.

Required Courses and Credits

A minimum of 18 credit hours must be obtained in the area of international law as follows:

- LAWS 8320 Seminar: Oil and International Relations
- LAWS 8400 Seminar: Special Topics in International Law
- LAWS 8450 Seminar: Law and Economic Development
- LAWS 8548 Seminar: Theory of Punishment
- Other seminars approved by the program advisor

Electives

Electives with an international or comparative law component approved by the program advisor 4

Total Credit Hours 18

The certificate program advisor may approve additional classes as they reasonably fit within the framework of the program requirements below.

In the event that a required course is not taught during an academic year, the program advisor shall have discretion to authorize a reasonable substitute course as satisfying a program requirement.

Juvenile and Family Law - Graduate Certificate

Juvenile and family law covers a broad range of practice areas, such as marriage, divorce, custody, visitation, family support, child abuse and neglect, delinquency, adoption, estate planning, education law and elder law. The juvenile and family law program (JFLP) provides students with opportunities to acquire specialized knowledge in this field, develop a network of, and foster collaboration between students, academics and practitioners, and engage in interdisciplinary work in the study and
practice of the field. The program includes specialized courses, research projects, externships and clinical opportunities.

**Requirements**

Colorado Law offers a juvenile and family law certificate, demonstrating a student's completion of a concentrated course of study in juvenile and family law.

Students must earn 92 total credits, which must include 18 in the field of juvenile and family law.

A student who satisfies all of the course requirements for the certificate will be awarded the certificate if the student earned at least a C in each course designated by the student as satisfying the certificate requirements. A student who satisfies all of the course requirements for the certificate would be awarded the certificate "with honors" if the student earned a cumulative grade point average of at least an A- in courses designated by the student as satisfying the certificate requirements.

### Additional Practice Opportunities

Consistent with law school limitations on practice credit hours and subject to the approval of the Program Advisor, participants may earn up to 2 credit hours toward the Certificate requirements using the following:

- One or two credits for externships in the field of juvenile and family law, including acting as a research assistant for a professor working in this field
- One credit for participation in a national moot court competition

**Tax Emphasis - Graduate Certificate**

The Law School offers a program of law study that leads to a Juris Doctor degree with an emphasis in taxation. The program signifies tax law experience beyond that normally obtained by law graduates, but not as extensive as that obtained in a master's of taxation degree program.

### Requirements

#### Program Requirements

Students must earn at least 92 credit hours (89 are required for the JD) with at least 18 of the credits in taxation.

### Required Courses and Credits

<td>2-3</td>
</tr>
</tbody>
</table>

Additional elective credits to make up the 18 hours from tax courses (at the Law School) or from graduate tax offerings (at the Leeds School of Business) approved for law credit

In the event that a required course is not taught during an academic year, the Program Advisor shall have discretion to authorize a reasonable substitute course as satisfying a program requirement.

Business school and economics department courses taken for Law School credit under the tax emphasis program are limited to 6 semester credit hours and must have received prior approval from the faculty. Students may take more than the required 18 credit hours of tax courses.

Students must receive at least a B in the business school course or in the public finance course to count for Law School credit. The business
school or public finance courses will be treated as pass/fail courses for the Law School transcript; that is, these courses will count toward the 92 hours required for the degree, but will not be taken into account in computing a law student’s grade point average.

**Graduating in Three Years**

Students can complete the program within the normal three-year law degree period if they take a somewhat heavier than average load in each semester after the first year of law study. Law students who wish to participate in the program should submit an online enrollment form to both the program director and the law school registrar. See law school website for details.
CONTINUING EDUCATION CATALOG

The mission of the Division of Continuing Education is to provide quality, innovative, lifelong learning opportunities to a diverse student population by extending the educational resources of the University of Colorado Boulder. Continuing Education offers a variety of evening and online courses for university credit, certificates and collaborates with departments across campus to deliver degree programs. The division facilitates nondegree enrollment in main campus classes for visiting students, high school students and auditors. (Nondegree refers to students who have not been formerly admitted to a CU Boulder degree program.) Continuing Education is also involved in the administration of CU Boulder’s Summer Session. Only university-approved faculty teach in Continuing Education programs.

ACCESS

In conjunction with CU Boulder academic departments, ACCESS (http://ce.colorado.edu/programs/access) (Available Credit Courses for Eligible Special Students) enables nondegree students to enroll in Boulder main campus undergraduate and graduate credit courses after degree-seeking students have registered.

Applied Music Program

The Applied Music Program (http://ce.colorado.edu/programs/applied-music) offers non-music majors the opportunity to earn CU credit for beginning or continuing music lessons on guitar, piano, voice, winds, brass, drums, percussion or strings. Instruction is available in individual or group sessions depending on the instrument.

Bachelor of Arts in Interdisciplinary Studies

The Bachelor of Arts in Interdisciplinary Studies (p. 617) is an online bachelor's degree supported by a partnership between the School of Education and Continuing Education. This major has an interdisciplinary emphasis with a broad, liberal arts core addressing the arts and humanities, social and behavioral studies, and the natural sciences and mathematics. Three foundation courses in interdisciplinary studies are required, as well as two education-focused areas of emphasis. The 100% online modality is offered to support motivated and qualified nontraditional learners who otherwise may not have access to the university.

CU Complete

The goal of CU Complete (http://ce.colorado.edu/programs/cu-complete) is to assist former CU Boulder students in the completion of their degrees. Advisors work with each student individually and offer a degree analysis, recommendations, resources and assistance in completing remaining requirements.

Evening Credit Program

Offered in conjunction with CU Boulder's academic departments, the Evening Credit Program (http://ce.colorado.edu/programs/evening-credit) provides credit courses in the evening on the Boulder campus. These smaller-sized classes are provided through various departments.

Extraordinary Program

The Extraordinary Program offers alternative solutions to meet unique needs of academic programs and departments across campus in terms of special student populations, customized schedules and specific financial arrangements. Over 200 courses are offered annually, ranging from one-day workshops to courses that span multiple semesters. The program benefits the goals of 30 different departments and serves a wide variety of special populations and students.

High School Concurrent

Colorado high school juniors and seniors interested in the challenge of university coursework may enroll in ACCESS as part of the High School Concurrent Program (http://ce.colorado.edu/programs/high-school-concurrent). In addition to earning college credit, students may also earn credit toward high school graduation requirements.

Individualized Instruction

Individualized Instruction provides an opportunity for students to receive credit for university courses by meeting with faculty members outside the regular classroom setting. This option may be used when the student cannot reasonably be expected to enroll in the main campus course.

International English Center

The International English Center (http://iec.colorado.edu) (IEC) offers a range of comprehensive English language and culture programs designed for international children, teens, pre-collegiate, undergraduate and graduate students, working professionals, au pairs and special groups. Students build and refine their communication skills through engaging classroom instruction, experiential learning, extended practice and cultural activities. Full and part-time programs are available. Students can choose from classroom, hybrid and online formats. Programs include intensive English, ESL academic bridge (for conditionally admitted CU Boulder students), ESL credit for undergraduate and graduate students, EducationUSA Academy for international high school students, test preparation, language and culture for au pairs, global professional English, military English and leadership communication, teacher training and customized options for special groups. The IEC is authorized to issue a form I-20 for qualified students seeking to study full-time on an F-1 visa. For some programs, qualified exchange visitors may request a form DS-2019 from the IEC to apply for a J-1 visa.

Master of Science in Organizational Leadership

Offered through a partnership with the Graduate School, the Master of Science in Organizational Leadership (https://catalog.colorado.edu/graduate/colleges-schools/interdisciplinary-programs/organizational-leadership-master-science-ms) is an interdisciplinary, fully online professional master's degree that prepares early- to mid-career professionals to succeed as tomorrow's dynamic leaders. Through coursework that blends business, communications, and social sciences, the program develops the knowledge and skills students need to think critically about organizational challenges and how to address them using best practices. Students learn to align others around a shared vision, build and manage effective teams, and apply the leadership skills necessary to excel in an increasingly fast-paced and complex world. Visit the Master of Science in Organizational Leadership website (http://msol.colorado.edu) to learn more.
Online Credit Program

The Online Credit Program (http://ce.colorado.edu/programs/online-credit) offers online versions of approved CU Boulder courses from more than 25 departments on campus. Online courses hold the same breadth, depth and rigor as face-to-face courses while offering students more control over when and where they complete their coursework. A rich collaboration among faculty and instructional designers with expertise in learning technology focuses on ongoing enhancements of quality and innovation. Courses range from traditional semester-long courses to shorter intensive terms and self-paced courses.

Post-Baccalaureate Health Professions Program

The Post-Baccalaureate Health Professions Program (http://ce.colorado.edu/programs/post-baccalaureate-health-professions) is a partnership between the College of Arts and Sciences and the Division of Continuing Education. It is designed for career changers who were academically successful as undergraduates but have not completed the prerequisite science courses needed to apply to graduate medical programs. Students enter the program in a cohort and take all coursework together. Academic advising, tutoring and preparation for applying to medical schools are provided.

Science Discovery

Science Discovery (http://sciencediscovery.colorado.edu) is a science education outreach organization designed to heighten student interest and increase literacy in science, technology, engineering, art and math (STEAM). Science Discovery connects K–12 students and teachers to current CU science through a broad array of programs including summer camps, summer high school enrichment, out of school time classes, homeschool programs, in-school programs, teacher professional development workshops and Teen Science Cafés. Programs capitalize on CU Boulder’s scientific resources, facilities and expertise (including CU graduate and undergraduate students) in order to excite students about STEAM, expose them to a variety of STEAM careers and professionals and inspire a future generation of scientists and engineers. Science Discovery reaches more than 30,000 students and teachers throughout Colorado.

Summer Session

Summer Session (http://www.colorado.edu/summer) offers more than 600 campus courses and enrolls about 8,000 students between the months of May and August. Online and on-campus courses are available to students who wish to enhance or accelerate their academic progress. Courses are also open to students visiting from other colleges, teachers, high school students or others interested in pursuing their professional development or enrichment. Special three- and five-week sessions are offered throughout the summer to provide intense, accelerated courses for those who need academic credits in an abbreviated time period.

Visit the Summer Session (https://www.colorado.edu/summer) website to learn more about summer at CU Boulder.

Winter Session

Winter Session (http://www.colorado.edu/winter) occurs during the winter break between Fall and Spring semesters and allows students to take intensive courses in a short period of time.

Auditing

Auditing allows interested individuals the opportunity to attend university classes for no academic credit. Auditors must receive permission and obtain a signature from course instructors during the first week of class to be formally added to the roster.

Audited courses will appear on a special non-academic credit transcript; however, no academic credit is awarded. Registered auditors receive class instruction, access to online course materials and library privileges only. Being an auditor at the University of Colorado Boulder does not guarantee eligibility for regular degree or nondegree status.

Note: Admitted degree students, either enrolled or suspended, are not permitted to audit courses. If an admitted degree student is interested in participating in a class without receiving credit, the student must enroll in the course for no credit. Courses taken for no credit are assessed the same tuition rate as courses taken for credit.

Community Auditors

Community members age 18–54 can register for the Community Auditors program through Continuing Education by completing the Community Auditor Registration Form on the Community Auditors (http://ce.colorado.edu/programs/community-auditors) webpage. Contact ceregistration@colorado.edu or call 303-492-5148 for more information.

With instructor permissions, community auditors pay a set rate to audit as many classes as desired. Nonrefundable payment is due at the time of enrollment.

Senior Auditors Program

Individuals 55 years and older can register for the Senior Auditors Program through the CU Boulder Alumni Association and qualify for a reduced auditing rate. Registration and eligibility information is available on the Senior Auditors (http://www.colorado.edu/alumni/programs/senior-auditors) webpage. Contact the Alumni Association at 303-492-8484 for more information about this program.

Office for Outreach and Engagement

Public outreach and community engagement are crucial to the University of Colorado Boulder’s role as a comprehensive public research university and are vital to the Division of Continuing Education’s mission. The Office for Outreach and Engagement (http://www.colorado.edu/outreach/ooe) serves the CU Boulder campus and the state by helping to connect research, teaching and creative work with public needs and interests. The office administers the CU Boulder Outreach Awards for faculty-led outreach and engagement projects, manages the campus-wide Public Outreach and Community Engagement (http://www.colorado.edu/outreach) website, assists with program and proposal design, leads strategic outreach initiatives, organizes the CU on the Weekend lecture series and provides public relations support.

CU on the Weekend

CU on the Weekend (https://www.colorado.edu/outreach/ooe/cu-weekend) is a series of free public lectures offered through the Office for Outreach and Engagement. The series runs during the fall and spring semesters each year and features some of CU Boulder’s most dynamic faculty.
**Academic Integrity**

A university’s intellectual reputation depends on maintaining the highest standards of intellectual honesty. Commitment to those standards is the responsibility of every student, faculty and staff member on the University of Colorado Boulder campus.

**Honor Code**

The intent of the Honor Code is to establish a community of trust.

Breaches of academic integrity include, but are not limited to, cheating, plagiarism and the unauthorized possession of examinations, papers and computer programs.

A student accused of academic dishonesty may either accept the accusation made by a faculty member or request a hearing to determine if there is a violation of CU Honor Code. In addition to academic sanctions imposed by the faculty, students found responsible for academic dishonesty also face non-academic sanctions including, but not limited to, probation, required participation in educational seminars concerning academic writing and ethics, suspension or expulsion from the university.

For more information, visit the Student Conduct & Conflict Resolution (https://www.colorado.edu/sccr/honor-code) website.

**Cheating**

Using unauthorized materials or receiving unauthorized assistance during an examination or other academic exercise. Examples of cheating include: copying the work of another student during an examination or other academic exercise or permitting another student to copy one’s work; taking an examination for another student or allowing another student to take one’s examination; possessing unauthorized notes, study sheets, examinations or other materials during an examination or other academic exercise; collaborating with another student during an academic exercise without the instructor’s consent; using unauthorized technologies, such as calculators, computers and smart phones; and/or falsifying examination results.

**Plagiarism**

Use of another’s ideas or words without appropriate acknowledgment. Examples of plagiarism include: failing to use quotation marks when directly quoting from a source; failing to document distinctive ideas from a source; fabricating or inventing sources; and copying information from computer-based sources, i.e., the internet.

**Unauthorized Possession or Disposition of Academic Materials**

Unauthorized possession or disposition of academic materials may include: selling or purchasing examinations, papers, reports or other academic work; possessing unauthorized solutions, instruction manuals or texts; taking another student’s academic work without permission; possessing examinations, papers, reports or other assignments not released by an instructor; and/or submitting the same paper for multiple classes without advance instructor authorization and approval.

**Health & Wellness**

**Medical Services**

Medical Services is the primary health care resource for CU Boulder students. Through comprehensive care and education, we strive to give students the skills and knowledge they need to develop healthy lifelong habits. To learn more, visit Health and Wellness Services (http://www.colorado.edu/health).

**Counseling and Psychiatric Services**

Counseling and Psychiatric Services (CAPS) offers confidential, on-campus and online mental health and psychiatric services for a variety of concerns including academics, anxiety, body image, depression, relationships, substance use and more. To learn more, visit CAPS (http://www.colorado.edu/health/counseling).

**Disability Services**

Students with disabilities are one of the many groups that make up our campus community. Having a diverse community broadens our understanding and appreciation for the contributions of each individual. We provide leadership and guidance regarding accommodations and universal access. To learn more, visit Disability Services (http://www.colorado.edu/disabilityservices).

**CU Boulder Gold Student Health Insurance Plan (SHIP)**

Students registered for 6+ undergraduate credit hours or 1+ graduate credit hours are eligible to enroll in CU’s Gold Student Health Insurance Plan (SHIP). Students also have the option to waive the Gold SHIP and use their own insurance.

Students using their own insurance qualify for the BuffCare Supplemental Plan, which provides coverage for out-of-pocket expenses incurred through Health and Wellness Services including co-payments, co-insurance and other expenses.

Exceptions to Gold SHIP enrollment: new summer students, non-degree seeking Continuing Education, Leave of Absence Program, Education Abroad, Evening MBA program, or exclusively Be Boulder Anywhere courses.

For more information, visit the Health Insurance Requirement (http://www.colorado.edu/health/insurance/health-insurance) webpage.

**Student Conduct & Colorado Creed**

**Student Conduct & Conflict Resolution**

The purpose of Student Conduct & Conflict Resolution is to support community safety, student growth and success by helping students:
Informal Resolution

Student Conduct Process

Clarification of Values
1. Students will have a greater understanding of the impact their decisions have on others.
2. Students will gain an understanding of the institutional values reflected through policies and practices.
3. Students will be able to identify ways in which they can make decisions in congruence with community standards of conduct.
4. Students will gain a better understanding of the importance of personal accountability and responsibility.
5. Students will be able to identify the harms caused by their decisions and determine the best method for repairing those harms.
6. Students will be able to reflect on their choices and develop individual goals for success.
7. Students will have a greater understanding of campus resources.

Jurisdiction
This policy governs:

- Student conduct that occurs on or as it relates to university property, or at official functions and university-sponsored programs conducted away from the campus. University property is defined as land, buildings and facilities in possession of or owned, used or controlled by the university or funded by university budgets.
- Student conduct that occurs off university property is subject to this policy if it: (1) adversely affects the health, safety or security of any member of the university community or the mission of the university; or (2) involves any records or documents of the university.

For purposes of this policy, the university's mission is broadly denied to include both its academic goals and the importance of developing civic responsibility in its students.

Authority
Article 7, Part B, of the Laws of the Regents requires each campus to develop a student code of conduct. Student Conduct & Conflict Resolution (SCCR) is authorized to establish and administer this policy. Any questions regarding interpretation of this code or any of its provisions should be directed to the Dean of Students or his/her designee for final determination. Questions regarding behavioral problems should be directed to:

Student Conduct & Conflict Resolution
10 UCB
Boulder, CO 80309
Email: studentconduct@colorado.edu
Phone: 303-492-5550

Informal Resolution
- This process may generally include, but is not limited to, a meeting with a conduct officer, completion of the agreement, and/or participation in the Restorative Justice program as is referenced in H.5.
- During the meeting, if the conduct officer determines that the informal resolution process may be appropriate, the conduct officer will offer it as an option to the student and address any questions the student may have about the process. If the student accepts responsibility for the alleged prohibited conduct and agrees to and completes the agreement developed during the meeting, then SCCR will consider the matter to be resolved informally.

Formal Resolution
- This process generally includes written notice of the factual allegations and alleged violations of the Student Code of Conduct, the opportunity to meet with the conduct officer to address the allegations and provide information to the conduct officer, the conduct officer reviewing the allegations and making factual and violation determinations based on the preponderance of the evidence, and written notice to the student of the conduct officer's determinations.

All students residing in Housing & Dining Services facilities are subject to Residence Hall policies or any policy properly communicated through Housing & Dining Services staff. For more information, visit the Residence Hall Handbook (https://living.colorado.edu/housing/what-you-need-know) webpage.

Proceedings initiated under this policy are separate from civil or criminal proceedings that may relate to the same incident. Investigations or conduct proceedings by the university are not postponed while criminal or civil proceedings are pending, unless otherwise determined by the conduct officer.

The unexcused failure of a student to appear and/or respond to the conduct process does not prevent the university from proceeding with the conduct process.

Cases involving sexual misconduct (including sexual assault, sexual harassment, intimate partner violence and gender/sex-based stalking), protected class discrimination and harassment and any related retaliation are subject to the Office of Institutional Equity and Compliance (OIEC) policies. For more information, visit the OIEC (https://www.colorado.edu/oiec) website or call 303-492-2127.

Excerpts from the Colorado Revised Statutes regarding hazing, ethnic intimidation and riots are also presented. Colorado law prohibits persons convicted of rioting from enrolling in state-supported universities/colleges for 12 months following the date of a conviction.

For information about student classroom and course-related behavior, visit the Policies (https://www.colorado.edu/policies/student-classroom-and-course-related-behavior) webpage.

Colorado Creed
The Colorado Creed, developed by students in 2003, is a social code of conduct and a lifestyle by which students at CU Boulder live. The text of the creed is:

As a member of the Boulder community and the University of Colorado, I agree to:

- Act with honor, integrity and accountability in my interactions with students, faculty, staff and neighbors.
- Respect the rights of others and accept our differences.
- Contribute to the greater good of this community.
I will strive to uphold these principles in all aspects of my collegiate experience and beyond.

For more information, visit the Colorado Creed (http://www.colorado.edu/creed) website.

**Student Resources**

The Division of Student Affairs (http://www.colorado.edu/studentaffairs) offers many on-campus resources for our students. Visit our offices to learn more.

**Student Life & Involvement**

- Center for Student Involvement (https://www.colorado.edu/involvement): Be Involved! Connect with clubs, Greek Life, student organizations and other events and opportunities.
- CU Student Government (https://custudentgov.org): Make a difference! Get involved with your student government representatives, elected by students, for students. CUSG is your voice on campus.
- Environmental Center (https://www.colorado.edu/ecenter): Helping CU Boulder become a global leader in sustainability through recycling, student bus pass, bicycle and educational programs.
- Housing & Dining Services (https://living.colorado.edu): Explore information about on-campus life, including residence halls, meal plans and dining options! View housing or on-campus meal plan options.
- New Student & Family Programs (https://www.colorado.edu/orientation): The campus resource for new families and students as they begin their journey at CU Boulder. Ask us questions and be sure to join us for welcome events throughout the year.
- Off-Campus Housing & Neighborhood Relations (https://www.colorado.edu/offcampus): Explore off-campus rentals on Ralphie's List, register your party and learn about the legal aspects of off-campus living.
- Residence Life (https://living.colorado.edu): Explore the opportunities that residence life provides, from on-campus housing and employment to student resources like free tutoring.
- University Memorial Center (https://www.colorado.edu/umc): Home to the CU Bookstore and student offices, as well as plenty of entertainment and dining options.

**Health & Wellness**

- Counseling & Psychiatric Services (https://www.colorado.edu/counseling): Offers confidential, on-campus mental health and psychiatric services including workshops, groups, individual counseling and medication management.
- CU Collegiate Recovery Center (https://www.colorado.edu/recoverycenter): A supportive student community offering free support meetings, sober social events, recovery coaching and referrals for students.
- Health Promotion (https://www.colorado.edu/health/promotion): Assists students in developing skills to make healthy decisions through outreach and education, including workshops, classes, events and conversations.
- Medical Services (https://www.colorado.edu/healthcenter): Provides on-campus health and wellness services including medical care, nutrition, physical therapy, sexual and reproductive health and more.
- Office of Victim Assistance (https://www.colorado.edu/ova): Offers free and confidential support, consultation, advocacy and counseling for students, staff and faculty who’ve experienced a traumatic, disturbing or life-disruptive event.
- Recreation Services (https://www.colorado.edu/recreation): Get moving with all that The Rec has to offer, including intramural sports, fitness classes, nutritional services and the Outdoor Program.

**Student Support & Development**

- Career Services (https://www.colorado.edu/career): Find student and alumni jobs, fine-tune your resume, learn about your strengths, land that internship and make connections with employers.
- Student Conduct & Conflict Resolution (https://www.colorado.edu/osccr): Get support for resolving conflicts and learn more about the Student Code of Conduct and the Honor Code.
- Student Legal Services (http://www.cubouldersls.com): Offers accessible, low-cost legal advice and education to students regarding their rights, responsibilities, and how to navigate the legal system.
- Students Support & Case Management (https://www.colorado.edu/studentaffairs/sscm): Provides individual support for students and advocates for their needs in all aspects of campus life.
- Veteran and Military Affairs (https://www.colorado.edu/veterans): Serves prospective and current student veterans and veteran dependents, including program information, policies, pay and support.
- Volunteer Resource Center (https://www.colorado.edu/volunteer): Explore volunteer opportunities for CU Boulder students and staff throughout the greater Boulder community.

**Student Data Privacy**

**Annual Notice to Students**

The University of Colorado complies fully with the provisions of the Family Educational Rights and Privacy Act (FERPA) of 1974. The act was designed to protect the privacy of student education records.

University guidelines explain procedures to be used by the institution for compliance with the provisions of the act. For more information, visit The Family Educational Rights and Privacy Act (FERPA) (http://www.colorado.edu/registrar/students/records/ferpa) webpage or contact the Office of the Registrar.

Students wishing to review their education records must schedule an appointment with the Office of the Registrar and present proper identification. All other records inquiries must be directed to the appropriate office, e.g., Office of Financial Aid, Bursar's Office, etc.

Students may not inspect the following, as outlined by the act: financial information submitted by their parents, confidential letters that they have waived their rights to review or education records containing information about other students, in which case the institution will permit access only to that part of the record that pertains to the inquiring student. Records that may be inspected include admissions, academic and financial aid files and cooperative education and placement records. Students may access many records directly via the MyCUInfo portal.

The Family Educational Rights and Privacy Act affords students certain rights with respect to their education records. They are:

1. The right to inspect and review education records within 45 days of the day the university receives their request for access.
2. The right to request amendment of education records that they believe are inaccurate or misleading.
3. The right to consent to disclosure of personally identifiable information contained in their education records, except to the extent that FERPA authorizes disclosure without consent.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the university to comply with the requirements of FERPA.

Directory Information
The following items of student information have been designated by the University of Colorado Boulder as public or "directory" information:
- student name
- hometown (city, state)
- campus email address
- dates of attendance
- previous educational institutions attended
- school/college or division of enrollment
- major/minor fields of study
- classification level (e.g., freshman, sophomore, etc.)
- university-recognized honors and awards
- degree status (e.g., expected graduation date and/or conferral dates/terms)
- enrollment status
- employment related to student status (e.g., teaching assistant, resident assistant or work-study) and dates for positions held
- participation in officially recognized activities/sports, including height and weight of athletes.
- photos and videos taken or maintained by the university

Such information may be disclosed by the institution at its discretion, unless the student has explicitly requested in writing that it not be released.

Withholding Directory Information
Students have the right to withhold directory information from inquirers. To restrict the release of directory information, students must bring a photo ID to the Office of the Registrar during business hours to complete a privacy form.

Student Consent for Release of Confidential Information
Students may authorize the university to release educational records to parents, spouses or other third parties by granting consent in MyCUInfo. The Privacy Settings (http://www.colorado.edu/registrar/students/records/privacy) webpage has more information about various options for granting and restricting access to student records.

Release of Disciplinary Information
Provisions of the Family Educational Rights and Privacy Act of 1974, as amended by the Higher Education Amendments of 1998, govern access to a student’s academic transcript or conduct file. The student and/or those university officials who demonstrate a legitimate educational need for disciplinary information may have access to the student’s conduct file.

Parent(s) who provide proof that a student is a dependent as defined in Section 152 of the Internal Revenue Code of 1954 (i.e., a copy of the last federal income tax return listing the student as a dependent) may have access to the student’s conduct file without written consent of the student. In this case, parents may have access to a conduct file, even if the student has requested otherwise.

In addition, parent(s) may be notified if a student under 21 is found responsible for a violation involving use or possession of alcohol and controlled substances. All other inquiries, including but not limited to inquiries from employers, government agencies, news media, family, friends or police agencies, require a written release from the student before access to university conduct files is granted. Exception: information may be released pursuant to a lawfully issued subpoena and as provided by the Campus Security Act as amended by the Higher Education Amendments of 1992.

The Campus Security Act permits higher education institutions to disclose to alleged victims of any crime of violence (e.g., murder, robbery, aggravated assault, burglary, motor vehicle theft, arson) the results of the conduct proceedings conducted by the institution against an alleged perpetrator with respect to such crime. The Campus Security Act also requires that both the accused and the accuser be informed of campus conduct proceedings involving a sexual assault.

Tuition Classification
In-State and Out-of-State Tuition Classification
Tuition classification is governed by state law and by judicial decisions that apply to all public institutions of higher education in Colorado. The University of Colorado does not have discretion to make exceptions to the rules as established by state law.

New students are classified as in-state or out-of-state residents for tuition purposes on the basis of information provided on their admission application and other relevant information. Applicants may be required to submit evidence substantiating their claim of in-state eligibility.

Current nonresident students who believe they have become eligible for a change to in-state status must submit a petition with documentation in order to have their status reviewed. The petition requirements, deadlines for submission, explanation of Colorado tuition classification statutes, specific legal residency exceptions and Office of the Registrar contact information are available on the Tuition Classification (http://www.colorado.edu/registrar/students/state-residency) webpage.

Basic Requirement for Establishing Colorado Residency
To become eligible for in-state residency, a person must establish legal residence in Colorado. Legal residence, or "domicile," is defined as a person’s true, fixed and permanent home and place of habitation. No person may establish domicile in Colorado solely for the purpose of obtaining in-state tuition benefits. An individual who seeks to establish domicile while registered as a student is presumed to establish Colorado domicile solely for tuition purposes unless there is clear and convincing evidence to the contrary.

Colorado in-state tuition classification requires Colorado domicile for 12 consecutive months. A person must be 22 years of age or older, married, a graduate student or an emancipated minor in order to begin the 12-month period of establishing domicile in Colorado. Unemancipated
Evidence of Domicile

Establishing Colorado domicile includes actions that would be expected of any permanent resident. Pursuant to Colorado law, the following may be considered evidence of domicile:

- filing a tax return in Colorado and, if applicable, payment of Colorado state income tax;
- Colorado driver’s license or Colorado ID card within 120 days of move to Colorado;
- Colorado vehicle registration within 180 days of move to Colorado;
- voter registration in Colorado;
- graduation from a Colorado high school;
- lease or deed showing permanent occupancy of residential real property in Colorado;
- continued residence in Colorado while not enrolled as a student and during semester breaks;
- permanent employment or acceptance of future employment in Colorado; or
- any other factor particular to the individual that tends to establish the necessary intent to make Colorado a permanent home.

No single factor constitutes proof of domicile. All evidence, both positive and negative, is considered. Not all of the listed items are necessary, but individuals should take action on any factors that are appropriate in their circumstance.

Domicile Exceptions

Colorado tuition law provides the following rare exceptions to the one-year domicile requirement in certain circumstances:

- Colorado National Guard members,
- active duty military stationed in Colorado and their dependents,
- honorably discharged members of the U.S. Armed Forces and their dependents,
- returning active-duty military members,
- Canadian military stationed in Colorado,
- ASSET law qualified students with three years of Colorado high school and graduation,
- children of new faculty members at Colorado state colleges and universities,
- employees of companies moving to Colorado receiving government economic incentives,
- Western Regional Graduate Program enrollees in specific major fields of study,
- Olympic athletes training in Colorado, and
- others (see Residency Exceptions for Domicile [http://www.colorado.edu/registrar/students/state-residency/domicile-exceptions] webpage).

Requirements, including spouse and child eligibility, are detailed on the Residency Exceptions for Domicile [http://www.colorado.edu/registrar/students/state-residency/domicile-exceptions] webpage.

Unemancipated Minors

Students under age 23 who depend on their parents for support may qualify for in-state tuition if either of their parents, regardless of custody, has been domiciled in Colorado for 12 consecutive months preceding the first day of class in a given semester, even if the student resides elsewhere. In certain circumstances, students may qualify through their parents up to age 23.

Emancipation

An emancipated minor is someone under age 23 who demonstrates total financial and residential independence. This means the student’s parents and all others have entirely surrendered the right to the student’s care, custody and earnings, and make no provision for support of any kind. Emancipation is very rare; undergraduates under age 23 who do not have a parent domiciled in Colorado are highly unlikely to be classified as a Colorado resident student.

For more information on all requirements, see the Tuition Classification [http://www.colorado.edu/registrar/students/state-residency] webpage.

University Policies

Alcohol and Other Drugs

In order to create the best possible environment for teaching and learning, the University of Colorado Boulder affirms its support for a responsible campus policy that addresses the inappropriate use of alcohol and other drugs.

In compliance with the federal Drug Free Schools and Communities Act, the University of Colorado Boulder prohibits the unlawful manufacture, possession, use or distribution of a controlled substance (illicit drugs and alcohol) of any kind and in any amount. These prohibitions cover any individual’s actions that are part of any university activities, including those occurring while on university property or in the conduct of university business away from the campus.

Information on policies, penalties, health effects and resources available to students and staff regarding alcohol and other drugs can be found on the Alcohol & Other Drugs Information [http://www.colorado.edu/aod] website.

These policies are also described by various university offices in several publications:

- **Student Code of Conduct**: Students’ Rights and Responsibilities Regarding Standards of Conduct and Alcohol and Drug Policy, available from Student Conduct & Conflict Resolution, 303-492-5550. See also the Student Code of Conduct [https://www.colorado.edu/sccr] website.
- **Safety**: Annual Security and Fire Safety Report [http://www.colorado.edu/clery].
• **Student life**: *The Guide to Student Life*, distributed to new and continuing students. Resources available on CU Boulder Students (http://www.colorado.edu/students) webpage.

Individual and group counseling for students with substance abuse concerns is available through Counseling and Psychiatric Services. For more information, visit the Counseling and Psychiatric Services (http://www.colorado.edu/health/counseling) webpage or call 303-492-2277.

**Smoking**

For student health and the health of our community, smoking is prohibited in all campus buildings and on all campus grounds.

At this time, the use of smoking products of any sort shall be prohibited on all university-owned and operated campus grounds both indoors and outdoors. This smoking ban does not apply to public rights-of-way (sidewalks, streets) on the perimeter of the campus.

"Smoking," as used in this policy, means smoking any substance, including but not limited to, tobacco, cloves or marijuana. "Smoking products" include, but are not limited to, all cigarette products (cigarettes, bidis, kreteks, e-cigarettes, etc.) and all smoke-producing products (cigars, pipes, hookahs, etc.). University-owned and operated campus grounds include, but are not limited to: all outdoor common and educational areas; all university buildings; university-owned on-campus housing; campus sidewalks; campus parking lots; recreational areas; outdoor stadiums; and university-owned and leased vehicles (regardless of location). In keeping with university policy, the sale, distribution and sampling of all tobacco products and tobacco-related merchandise is prohibited on all university-owned and operated property and at university-sponsored events. Littering campus with remains of smoking products is prohibited.

This policy applies to all employees, students, visitors, contractors and externally affiliated individuals or companies renting university-owned space on university-owned and operated property campus grounds.

**Campus Safety**

**Personal Safety on Campus**

While the University of Colorado Boulder is a relatively safe place to be, the campus is not a haven from community problems. Through the joint effort of various organizations on campus, CU is committed to providing ample safety resources for faculty, staff and students.

Specific efforts to promote safety on campus include the provision of adequate lighting, police protection, educational programs and special prevention programs, such as the CU NightRide escort services and laptop and bicycle registration programs.

In compliance with the federal Clery Act, students and employees receive information on campus security policies and programs, including crime statistics, in an Annual Security and Fire Safety Report (http://www.colorado.edu/clery). This report will be sent to CU Boulder affiliates by Oct. 1 of each year. In any emergency or life-threatening situation, always call 9-1-1.

Members of the university community are encouraged to report any incident of threatening or harmful behavior to the CU Boulder Police by calling 9-1-1 in an emergency or the non-emergency line, 303-492-6666. Visit Don't Ignore It (http://www.colorado.edu/dontignoreit) for more information about the wide range of campus and community resources and reporting options available.

Additional safety information can be found on the CU Police Department (http://www.colorado.edu/police) website. For information on crime alerts, trends and safety tips, follow the CU Police Department on Twitter (@https://twitter.com/cuboulderpolice)CU Boulder Police) and Facebook (CU Boulder Police (https://www.facebook.com/CU BoulderPolice)).

**Communication**

**Student Email**

All CU students receive an email account from the university, which is an official means of sending information to students. Students are responsible for maintaining this CU email address. The official email address can be used by professors to contact students and provide course-related information. Administrative offices, such as the Office of the Registrar, use official email addresses to contact students and provide important information. Students are responsible for frequently checking their official CU email address. For more information on the student email policy, visit the Student E-mail Policy (http://www.colorado.edu/policies/student-e-mail-policy) webpage, call the IT Service Center at 303-735-HELP or email HELP@colorado.edu. To learn more about student email accounts, visit the Office of Information Technology's Messaging and Collaboration (https://oit.colorado.edu/services/messaging-collaboration) webpage.

**Copyright & Fair Use**

The University of Colorado Boulder community respects the intellectual property of others, regardless of the medium by which it is transmitted. This is a cornerstone of academic integrity. We prohibit the use of unauthorized distribution of copyrighted material, which is subject to both civil and criminal penalties as well as university procedures.

Distributing copyrighted materials using peer-to-peer or file-sharing programs is illegal and the university uses technological solutions to deter this activity. Still, the university regularly receives notices of copyright violations and is required by law to take action. Common consequences include loss of network access and referral to the Office of Judicial Affairs. Guidance on campus fair use and copyright issues is provided on the University Libraries (http://www.colorado.edu/libraries/copyright-information) website.

**Diversity & Nondiscrimination**

**Commitment to Diversity**

The Division of Student Affairs supports and contributes to creating and sustaining a diverse, multicultural, socially just and inclusive campus climate by learning about, recognizing and honoring the diverse backgrounds, histories, identities and life experiences of all our students, faculty and staff. Our goal is to create an environment in which all campus community members can thrive while feeling welcomed, safe and at home.

At the University of Colorado Boulder we are committed to building a campus community in which diversity is a fundamental value. People are different and the differences among us are what we call diversity—a natural and enriching hallmark of life. Diversity includes, but is not limited to, ethnicity, race, gender, age, class, sexual orientation, religion, disability, veteran status, gender identity/expression, veteran status, political affiliation or political philosophy and health status. A climate of healthy diversity is one in which people value individual and group differences, respect the perspectives of others and communicate openly.
"Diversity is a key to inclusive excellence in education. A diverse learning environment better prepares all students for the world that awaits them. CU Boulder is committed to enriching the lives of our students, faculty and staff by providing a diverse campus where the exchange of ideas, knowledge and perspectives is an active part of learning."—from the Guidelines for Diversity Planning (https://www.colorado.edu/odece/diversity-plan).

**Nondiscrimination Statement**

The University of Colorado Boulder does not discriminate on the basis of race, color, national origin, sex, pregnancy, age, disability, creed, religion, sexual orientation, gender identity, gender expression, veteran status, political affiliation or political philosophy in admission and access to, and treatment and employment in, its educational programs and activities. The university takes affirmative action to increase ethnic, cultural, and gender diversity; to employ qualified disabled individuals; and to provide equal access and opportunity to all students and employees.

**Equity & Compliance**

The University of Colorado Boulder is committed to maintaining a positive learning, working, and living environment free from discrimination and harassment. The Office of Institutional Equity and Compliance (OIEC) (http://www.colorado.edu/oiec) addresses all claims of sexual misconduct, harassment and/or discrimination, or related retaliation by students, staff or faculty pursuant to the University of Colorado Sexual Misconduct, Intimate Partner Abuse and Stalking Policy, the University of Colorado Boulder Policy on Protected-Class Discrimination and Harassment, and the University of Colorado Policy on Conflict of Interest in Cases of Amorous Relationships. The university is committed to addressing concerns and taking appropriate action against those found in violation of these policies.

In response to a report, OIEC determines what immediate and long-term support and safety measures are needed in order to minimize disruptions to education or employment and to help keep the involved parties and the campus safe. OIEC also offers education and assessment to identify areas in need of improvement and foster a more welcoming campus culture.

To learn more about university policy or the role and programs offered by OIEC, please visit the Office of Institutional Equity and Compliance (https://www.colorado.edu/oiec) website or call 303-492-2127.
COURSES A-Z

About the Course Descriptions
The courses listed here are included in the Boulder campus catalog during the 2019–20 academic year. This listing does not constitute a guarantee that any particular course will be offered during this year. Consult specific programs and major requirements within each school and college for more information. Also see the online Guest Course Search (http://www.colorado.edu/academics/course-search) for details about specific class offerings and schedules.

Course Numbering
Consult specific departments and programs within schools and colleges for restrictions, requirements and permissions. (http://www.colorado.edu/catalog/node/448)

• 1000–2000 courses are usually intended for lower-division students (freshmen and sophomores).
• 3000–4000 courses are intended for upper-division students (juniors and seniors), and may require instructor consent.
• 5000 courses usually require graduate-student status, but may be open to qualified undergraduates with instructor consent. Consult the program or department.
• 6000, 7000 and 8000 courses are usually open to graduate students only.

Abbreviations
Coreq. Corequisite
Lab. Laboratory

Course Credits
Course credits are stated in semester units.

Subjects
Accounting (ACCT)

Courses
ACCT 3220 (3) Corporate Financial Reporting 1
First of a two-course sequence intended to provide students with increased fluency in the language of business. Focuses on U.S. and international accounting concepts and methods that underlie financial statements and the related implications for interpreting financial accounting information.
Requisites: Requires prerequisite of BASE 2104 (minimum grade D-).

ACCT 3225 (6) Corporate Financial Reporting
Intended to provide students with increased fluency in the language of business. Focuses on U.S. and international accounting concepts and methods that underlie financial statements and the related implications for interpreting financial accounting information. Builds and extends detailed knowledge of preparation, analysis, and use of financial statements. No credit granted for this course and ACCT 3220 and ACCT 3230.
Requisites: Requires prerequisite of BASE 2104 (minimum grade D-), or BCOR 2000 (minimum grade of D-), and BCOR 2200

ACCT 3230 (3) Corporate Financial Reporting 2
Second in a two-course sequence building and extending detailed knowledge of preparation, analysis and use of financial statements.
Requisites: Requires a prerequisite course of ACCT 3220 (minimum grade D-). Restricted to Business (BUSN) majors with 52-180 units completed.

ACCT 3320 (3) Cost Management
Provides cost analysis for the support of management decision making. Analyzes activities, cost behavior, role of accounting in planning, financial modeling, and managerial uses of cost data.
Requisites: Requires prerequisite of BASE 2104 (minimum grade D-).

ACCT 3440 (3) Income Taxation of Individuals
Examines concepts and structure of the United States income tax system. Focuses on concepts affecting all taxpayers, with emphasis on individual taxation.
Requisites: Requires prerequisite of BASE 2104 (minimum grade D-).

ACCT 3700 (3) Accounting in a Global Economy
This London-based global seminar introduces undergraduate students to transfer pricing, International Financial Reporting Standards (IFRS) and the impact of foreign exchange rates on financial reporting. Includes an IASB headquarters experience and presentations from multinational corporations and public accounting firms. It also includes experiential-based accounting learning in continental Europe.
Requisites: Requires a prerequisite course of ACCT 3220 (minimum grade D-). Restricted to Business (BUSN) majors only.

ACCT 4240 (3) Advanced Financial Accounting
Examines advanced financial accounting theory and practice, emphasizing U.S. and international accounting for business combinations, consolidated financial statements, and accounting for partnerships.
Equivalent - Duplicate Degree Credit Not Granted: ACCT 5240
Requisites: Requires prerequisite course of ACCT 3220 and ACCT 3230 or ACCT 3225 (minimum grade D-). Restricted to Accounting (ACCT) or Finance (FNCE) majors with 52-180 units completed.

ACCT 4250 (3) Financial Statement Analysis
Focuses on the use of U.S. and international accounting information by decision-makers external to the firm. Considers judgments made by investors, security analysts, bank lending officers, and auditors. Emphasizes equity valuation and risk analysis.
Equivalent - Duplicate Degree Credit Not Granted: ACCT 5250
Requisites: Requires a prerequisite course of ACCT 3220 or 3225 and ACCT 3230 (minimum grade D-). Restricted to Accounting (ACCT), Finance (FNCE) or Accounting Concurrent Degree majors only with 52-180 units completed.
ACCT 4540 (3) Accounting Information Systems
Considers the interaction of accountants with information systems and the role of accounting information systems in business processes. Focuses on the tools used by accountants and provides an understanding of accounting as an information system.
Equivalent - Duplicate Degree Credit Not Granted: ACCT 5540
Requisites: Requires a prerequisite course of ACCT 3220 or ACCT 3225 (minimum grade D-). Restricted to Accounting (ACCT) majors with 52-180 units completed.

ACCT 4620 (3) Auditing and Assurance Services
Emphasizes the value of assurance services, including the market for financial-statement audits, and the audit decision process, from obtaining a client through planning and testing, to issuance of the audit report. Focuses on making judgments and decisions under conditions of uncertainty and continually evaluating the substance of business transactions over their form.
Equivalent - Duplicate Degree Credit Not Granted: ACCT 5620
Requisites: Requires a prerequisite course of ACCT 3230 (minimum grade D-). Restricted to Accounting (ACCT) majors with 52-180 units completed.

ACCT 4821 (3) Experimental Seminar: Financial Report for Complex Transactions
Focuses on topics related to major financial events in the life of an organization (IPOs, mergers and acquisitions). Enhance the ability to understand the economic essence of important complex business transactions as linked to the financial reporting and tax issues surrounding these deals. Many fascinating and recent transactions will be examined in depth.
Equivalent - Duplicate Degree Credit Not Granted: ACCT 5821
Requisites: Requires a prerequisite course of ACCT 3230 (minimum grade D-). Restricted to Business (BUSN) majors with 52-180 units completed.

ACCT 4850 (3) Senior Seminar - Accounting Ethics
Examines the nature of accounting theory and practice from perspectives of economics, law, globalization, accounting, ethics, and moral reasoning. Explores issues including implications of institutional factors, such as Sarbanes-Oxley, SEC, FASB, IFRS, and capital markets.
Requisites: Requires prerequisite course of ACCT 3230 or ACCT 3225 (minimum grade D-). Restricted to Accounting (ACCT) majors with 102-180 units completed.

ACCT 4900 (1-3) Independent Study
Requires prior consent of dean and instructor under whose direction study is taken. Intended only for exceptionally well-qualified business seniors. Departmental form required.

ACCT 5240 (3) Advanced Financial Accounting
Examines advanced financial accounting theory and practice, emphasizing U.S. and international accounting for business combinations, consolidated financial statements, and accounting for partnerships.
Equivalent - Duplicate Degree Credit Not Granted: ACCT 4240
Requisites: Restricted to ACCT-MS or ACTX-MS or C-FNCEACCT or C-FNCEACTX or C-ACCT or C-ACCTACTX graduate students only.

ACCT 5250 (3) Financial Statement Analysis
Focuses on the use of U.S. and international accounting information by decision-makers external to the firm. Considers judgments made by investors, security analysts, bank lending officers, and auditors. Emphasizes equity valuation and risk analysis.
Equivalent - Duplicate Degree Credit Not Granted: ACCT 4250
Requisites: Restricted to ACCT-MS or ACTX-MS or C-FNCEACCT or C-FNCEACTX or C-ACCT or C-ACCTACTX graduate students only.

ACCT 5450 (3) Income Taxation of Business Entities
Examines the income tax consequences of business entities. Focuses on regular corporations, partnerships, limited liability companies and S corporations.
Requisites: Restricted to ACCT-MS or ACTX-MS or C-FNCEACCT or C-FNCEACTX or C-ACCT or C-ACCTACTX graduate students only.

ACCT 5540 (3) Accounting Information Systems
Considers the interaction of accountants with information systems and the role of accounting information systems in business processes. Focuses on the tools used by accountants and provides an understanding of accounting as an information system.
Equivalent - Duplicate Degree Credit Not Granted: ACCT 4540
Requisites: Restricted to ACCT-MS or ACTX-MS or C-FNCEACCT or C-FNCEACTX or C-ACCT or C-ACCTACTX graduate students only.

ACCT 5620 (3) Auditing and Assurance Services
Emphasizes the value of assurance services, including the market for financial-statement audits, and the audit decision process, from obtaining a client through planning and testing, to issuance of the audit report. Focuses on making judgments and decisions under conditions of uncertainty and continually evaluating the substance of business transactions over their form.
Equivalent - Duplicate Degree Credit Not Granted: ACCT 4620
Requisites: Restricted to ACCT-MS or ACTX-MS or C-FNCEACCT or C-FNCEACTX or C-ACCT or C-ACCTACTX graduate students only.

ACCT 5700 (3) International Accounting
Intensive focus on international financial statement analysis, cultural and economic differences that affect financial reporting in various countries. Examples include international financial reporting standards and accounting for foreign currency transactions.
Requisites: Restricted to ACCT-MS or ACTX-MS or C-FNCEACCT or C-FNCEACTX or C-ACCT or C-ACCTACTX graduate students only.

ACCT 5820 (3) Topics in Business
Offered irregularly to provide opportunity for investigation of new frontiers in accounting.
Equivalent - Duplicate Degree Credit Not Granted: ACCT 4820
Requisites: Restricted to ACCT-MS or ACTX-MS or C-FNCEACCT or C-FNCEACTX or C-ACCT or C-ACCTACTX graduate students only.

ACCT 5827 (3) Integrated Reporting for Socially Responsible Strategies
Explores the growing global trend of companies to measure, disclose and report for socially responsible initiatives. Integrated reporting combines financial, environmental, social and governance information into a single report. Current practices in sustainability and integrated reporting in the US and across the world will be examined through case studies, guest speakers, current literature and projects. Can be taken concurrently with ACCT 3220.
Equivalent - Duplicate Degree Credit Not Granted: ACCT 4827
Requisites: Restricted to students with one of the following plans: ACCT-MS, ACTX-MS; or subplan: C-ACCT, C-ACCTACTX, C-FNCEACCT, C-FNCEACTX
ACCT 6000 (1-3) Academic Internship in Accounting
Offers students the opportunity to gain professional work experience in an accounting or tax position while still in school. Provides academically relevant work experience that complements students' studies and enhances their career potential. Includes lectures and a course paper. Students may not preregister for this course, and they must contact the Director of the concurrent degree program in accounting for approval. Instructor consent required.

Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with one of the following plans: ACCT-MS, ACTX-MS; or subplan: C-ACCT, C-ACCTACTX, C-FNCEACTX
Grading Basis: Pass/Fail

ACCT 6220 (3) Corporate Financial Reporting
Provides an in-depth study of the concepts underlying contemporary financial accounting practice. Includes preparation and analysis of financial statements and the application of concepts to selected current issues. Students with credit for ACCT 3220 and 3230 or equivalents may not receive credit for ACCT 6220.
Equivalent - Duplicate Degree Credit Not Granted: MBAX 6700
Requisites: Requires prerequisite course of MBAC 6020 (minimum grade D-)

ACCT 6250 (3) Financial Statement Analysis
Focuses on the use of accounting information by decision makers external to the firm. Considers judgments made by security analysts, bank lending officers and auditors. Emphasizes credit scoring, risk analysis and equity valuation.
Equivalent - Duplicate Degree Credit Not Granted: MBAX 6710
Requisites: Requires prerequisite course of ACCT 5250 or MBAC 6020 (minimum grade D-)

ACCT 6260 (3) Seminar: Managerial Accounting
Explores cost management, especially as related to organizational decision making, planning, and control. Emphasizes case analysis and applications.
Requisites: Requires prerequisite course of MBAC 6020 (minimum grade D-)

ACCT 6350 (3) Current Issues in Professional Accounting—Accounting Ethics
Examines the nature of accounting theory and practice from perspectives of economics, law, globalization, accounting, ethics, and moral reasoning. Also explores issues including implications of institutional factors, such as Sarbanes-Oxley, SEC, FASB, IFRS, and capital markets. Counts as senior seminar for Concurrent degree students.
Requisites: Restricted to Accounting, Taxation, Finance/Accounting, or Accounting/Taxation students only.

ACCT 6420 (3) Research and Writing in Income Taxation
Studies and applies the method used in tax research and tax planning, with the goal of developing tax research, technical writing and tax planning skills. Topics include examining primary and secondary sources of federal tax law, evaluating the hierarchy of these sources and developing technical writing skills using deductive legal reasoning.
Requisites: Requires a prerequisite course of ACCT 5450 (minimum grade D-). Restricted to MS-ACCT or C-ACCTACTX or C-FNCEACTX students only.

ACCT 6430 (3) Taxation of Partnerships
Studies federal income taxation of pass-through entities such as those used by most small businesses in the U.S. Includes creation, operation, distributions, sale of interests and liquidation.
Equivalent - Duplicate Degree Credit Not Granted: LAWS 6167
Requisites: Requires prerequisite course of ACCT 5450 (minimum grade D-). Restricted to MS-ACCT or C-ACCTACTX or C-FNCEACTX students only.

ACCT 6450 (3) Taxation of Corporations
Studies federal income taxation related to taxable corporations, the entities through which a large part of the economic activity in the U.S. is conducted. Includes creation, operation, distributions, sale of interests and liquidation.
Equivalent - Duplicate Degree Credit Not Granted: LAWS 6157
Requisites: Requires prerequisite courses of ACCT 6420 and ACCT 6700. Restricted to ACCT, Acct Tax, Acct-Info Syst, Fnce Acct Tax, Acct Act Tax, Mgt Sci-Info Syst, Fnce, Mktg, Taxation or Master of Business Admin graduate students only.

ACCT 6620 (3) Advanced Auditing: Business Risk and Decision Analysis
Explores contemporary issues, historical developments, and selected topics pertinent to business assurance services by independent accountants. Emphasizes improving both the decision behavior of decision makers and the quality of information, or its context, for decision makers.
Requisites: Requires a prerequisite course of ACCT 5620 (minimum grade D-). Restricted to Acct, Acct/Tax, Inf Jr Syst/Act, Act/Syst/Act Concurrent Degree students or Acct, Acct/Tax or Busn Admin (BUAD) graduate students only.

ACCT 6700 (4) Income Taxation
Emphasizes the fundamentals of the federal income tax system and examines its impact on the individual.
Equivalent - Duplicate Degree Credit Not Granted: LAWS 6007
Requisites: Restricted to Accounting, Taxation, Fin Acct Tax-Concurrent Degree or Acct Act Tax-Concurrent Degree students only.

ACCT 6710 (3) Federal Estate and Gift Tax
Analyzes federal estate and gift taxation of inter vivos and testamentary transfers, introduces income taxation of estates and trusts and involves elementary estate planning.
Equivalent - Duplicate Degree Credit Not Granted: LAWS 7207
Requisites: Requires prerequisite course of ACCT 5440 (minimum grade D-). Requires corequisite courses of ACCT 6420 6700. Restricted to ACCT, ACIS, ACTX, MBA or BUAD graduate students only.

ACCT 6720 (2) Estate Planning
Discusses problems and solutions for owners of various-sized estates and different types of assets including jointly-held property, stock in closely-held corporations and farms, analysis of federal taxation of generation-skipping transfers in trust, postmortem estate planning and drafting of trusts and wills.
Equivalent - Duplicate Degree Credit Not Granted: LAWS 6217 or LAWS 7217
Requisites: Requires prerequisite course of ACCT 6710 (minimum grade D-). Restricted to graduate students only.
ACCT 6900 (1-6) Independent Study
Prior department consent required of instructor under whose direction study is taken. Departmental form required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Accounting, Finance/Accounting, Information Systems/Accounting, Systems/Accounting Concurrent Degree students or Accounting, Accounting/Taxation or Business Administration (BUAD) graduate students only.

ACCT 6940 (1) Master’s Candidate for Degree
Departmental form required.
Requisites: Restricted to Business (BUSN) graduate students only.

ACCT 6950 (1-4) Master’s Thesis
Grading Basis: Pass/Fail

ACCT 7300 (3) Doctoral Seminar: Introduction to Accounting Research
Discusses the nature of scientific investigation and how accounting theory relates to theories in economics and finance. Introduces students to major areas of accounting research and research methods. Provides students with instruction and experience in evaluating and critiquing research papers as well as generating original and viable research ideas.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Business (BUSN) graduate students only.

ACCT 7320 (3) Doctoral Seminar: Accounting and Capital Markets I
Focuses on research evaluating the usefulness of accounting information for valuing equity securities. The seminar builds a foundation for conducting accounting-related capital markets research.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Business (BUSN) graduate students only.

ACCT 7330 (3) Doctoral Seminar: Accounting and Capital Markets II
Focuses on how managers strategically communicate with capital market participants (e.g., investors and equity analysts). Students develop an understanding of how information enhances the efficiency of stock markets, why managers voluntarily disclose information, and how market participants react to strategic disclosure.
Requisites: Restricted to Business (BUSN) graduate students only.

ACCT 7340 (3) Doctoral Seminar: Managerial Accounting Research
Survey of managerial accounting research, emphasizing a variety of methodologies including economics-based archival empirical and experimental approaches. Topics include: management performance measurement; management incentives; non-financial performance measures; management control systems; cost behavior and cost structure; intra-firm transfer pricing; inter-firm relations and knowledge sharing; risk preferences; risk taking and risk sharing; strategic performance measurement; agency theory; and budgetary slack and performance.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of ACCT 6710 (minimum grade D). Restricted to graduate students only.

ACCT 7800 (3) Doctoral Seminar: Accounting Theory
Follows the evolution of game-theoretical analytical research and application of analytical methods to topics including: accounting-based valuation, discretionary disclosure, stewardship role of accounting, insider trading and imperfect capital market models, signaling through accounting choice, deferred tax accounting, audit sampling, auditor rotation, and low bailing. Describes implications of analytical results for primarily economics-based empirical research designs.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Business (BUSN) graduate students only.

ACCT 7830 (3) Doctoral Seminar: Accounting Research
Designed to assist the doctoral student in integrating courses and fields of study in order to be able to apply knowledge and skills to problems in accounting. Special attention given to the development of thesis topics.

ACCT 8820 (1-6) Graduate Seminar
Provides opportunity for investigation of new frontiers in accounting through an experimental seminar. Department enforced prereq.: varies
Repeatable: Repeatable for up to 6.00 total credit hours.

ACCT 8900 (1-3) Independent Study
Instructor consent required and departmental form (taught as doctoral seminar).
Requisites: Restricted to Business (BUSN) graduate students only.

ACCT 8990 (1-10) Doctoral Thesis
Requisites: Restricted to Business (BUSN) graduate students only.

Advertising, PR and Media Design (APRD)

Courses

APRD 1000 (3) Creative Industries
Explores creative and strategic thinking and the many industries involved in creating brand communication as well as these industries growing interdependence in a changing media landscape. Considers technology's impact and the effect of commercial culture on an increasingly diverse society.

APRD 1001 (3) Creative Concepts
Introduces students to a disciplined process that is used to create innovative solutions across commercial communication fields. Emphasizes approaches to problem identification and solution that combine research and human insight with a variety of creative thinking techniques. Topics include need finding, structured brainstorming, rapid sketching, storytelling and visual communication.
Requisites: Requires a prerequisite course of APRD 1000 or JOUR 2403 (minimum grade C). Restricted to Strategic Communication (STCM) or Advertising (JADV) majors only.

APRD 1002 (3) Introduction to Branding
Designed to help students acquire a basic understanding of brand and brand culture. Emphasis on theories and practical problems to learn effective ways of building a strong brand strategy. Encompasses every facet of making strategic decisions for a brand. Involves understanding the content a consumer requires, how the consumer will come in contact with the brand and what is the goal of the relationship between consumer and content.
Requisites: Requires a prerequisite course of APRD 1000 (minimum grade C.). Restricted to Strategic Communication (STCM) or Advertising (JADV) majors only.

APRD 1003 (3) Principles of Strategic Communication
Introduces the foundations, nature, and practices of advertising and public relations and the various industry functions - including account management, market research, account planning, media planning, creative strategy, creative execution, branding, image reputation and crisis management. This course offers historical, organizational, financial, creative and critical perspectives concerning strategic communication.
Grading Basis: Letter Grade
APRD 1004 (1) Fundamentals of Grammar
Teaches students the basic rules of grammar, punctuation, word choice and sentence structure so that they can write clear and concise messages that convey a desired meaning, apply punctuation in an accurate and effective manner, and differentiate between style conventions.
Grading Basis: Letter Grade

APRD 2000 (3) Principles of Advertising
Explores the practice of advertising from a variety of viewpoints including advertisers, agencies and the public. Students will examine advertising via successful campaigns for some of the world's most iconic brands. Topics include history and evolution of the industry, the process of creating ideas in a multi-disciplinary world and challenge of advertising to act ethically and responsibly within society. Cannot be taken concurrently with APRD 2002 or APRD 2003.
Requisites: Requires prerequisite courses of APRD 1001 and APRD 1002 (all minimum grade C-). Restricted to Strategic Communication (STCM) majors only.

APRD 2001 (3) Strategic Thinking in Advertising and Public Relations
Reviews historical and contemporary views of critical and strategic thinking, as well as strategic practices utilized in advertising, branding, and public relations through the use of readings, exploration of case studies, lectures, individual and group exercises, and client projects.
Requisites: Requires a prerequisite course of APRD 1003 or APRD 1000 (minimum grade C-). Restricted to Strategic Communication (STCM) majors only.
Grading Basis: Letter Grade

APRD 2002 (3) Principles of Public Relations
Overview of public relations practice and theory including history, media channels and relations, legal and ethical concerns, international and diverse perspectives, and career options. Cannot be taken concurrently with APRD 2000 or APRD 2003.
Requisites: Requires prerequisite courses of APRD 1001 and APRD 1002 (all minimum grade C-). Restricted to Strategic Communication (STCM) majors only.

APRD 2003 (3) Principles of Design
Provides a comprehensive survey of the ideas, events, and individuals that determined the design of information, objects, culture, and commerce across societies. Students will examine the social, political and cultural contexts that have shaped media design and the ideologies and relationships of similar movements in art and architecture. Cannot be taken concurrently with APRD 2000 or APRD 2002.
Requisites: Requires prerequisite courses of APRD 1001 and APRD 1002 (all minimum grade C-). Restricted to Strategic Communication (STCM) majors only.

APRD 2004 (3) Introduction to Research Methods and Insights
Provides students with the fundamental skills necessary to develop research-based strategies to address challenges faced by advertising, public relations, and marketing professionals in their efforts to address client communication needs.
Requisites: Requires a prerequisite course of APRD 1003 or APRD 1000 (minimum grade C-). Restricted to Strategic Communication (STCM) majors only.
Grading Basis: Letter Grade

APRD 2005 (3) Strategic Communication Writing
Introduces students to strategic writing across multiple media platforms, and demonstrates the different forms of writing used in the strategic communication subfields. Students will learn strategies for crafting and delivering effective messages to target audiences.
Requisites: Requires prerequisite courses of APRD 2001 and APRD 2004 or APRD 1001 and APRD 1002 (minimum grade C-). Restricted to Strategic Communication Design (STCM) majors only.
Grading Basis: Letter Grade

APRD 2006 (3) Software and Design Applications
Equips students with the practical knowledge and critical skills necessary to effectively employ visual design in advertising and public relations practice. Students will be introduced to both the fundamental principles of graphic design and the technical tools used to bring design ideas to life.
Requisites: Requires prerequisite courses of APRD 2001 and APRD 2004 or APRD 1001 and APRD 1002 (minimum grade C-). Restricted to Strategic Communication Design (STCM) majors only.

APRD 3000 (3) Intermediate Creative Concepts
Introduces students to strategic writing across multiple media platforms, and provides an opportunity to use and master quantitative and qualitative research methods. Students conduct research and analyze data to determine the targets relationship with specific product categories and identify the emotional and practical needs that create brand relationships.
Requisites: Requires prerequisite courses of APRD 2001 and APRD 2004 or APRD 1001 and APRD 1002 (minimum grade C-). Restricted to Strategic Communication (STCM) majors only.

APRD 3001 (3) Intermediate Design Concepts
Students are introduced to design elements and principles, research and visual storytelling. They are challenged to communicate intellectual, sensory and emotional concepts by learning a visual vocabulary of type, color, and form expressed in a variety of mediums and dimensions.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires a prerequisite course of APRD 2003 (minimum grade C-). Restricted to Strategic Communication (STCM) majors only.

APRD 3002 (3) Communication Platforms, Planning Strategies and Tactics
Concentrates on strategies and tactics advertisers and marketers use to communicate their brand stories to their desired audiences. These include traditional media planning and placement - TV, print, radio, and out-of-home - as well as new areas like digital, social, and experiential approaches to communications. Students will learn how to create, develop, and present communication plans and campaigns in an interactive and fast-paced environment.
Requisites: Requires prerequisite courses of APRD 2001 and APRD 2006 or APRD 2000 (minimum grade C-). Restricted to Strategic Communication (STCM) majors only.

APRD 3003 (3) Strategic Communication Research Methods
Provides an opportunity to use and master quantitative and qualitative research methods. Students conduct research and analyze data to determine the targets relationship with specific product categories and identify the emotional and practical needs that create brand relationships.
Requisites: Requires a prerequisite course of APRD 2000 or APRD 2002 (minimum grade C-). Restricted to Strategic Communication (STCM) majors only.
APRD 3009 (3) Branding Solutions
Explains the value of a brand in a marketing and advertising environment: how to build, manage, and protect a brand. Specific areas covered include what a brand is and why it matters, how a brand creates value, ways to measure and understand the value of a brand, managing new and established brands, and the role of consumer insight in managing a brand.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (minimum grade C). Restricted to Strategic Communication (STCM) majors only.
Grading Basis: Letter Grade

APRD 3010 (3) Consumer Insights
Teaches students how to determine the emotional as well as the practical needs that drive the use of a particular category of products or services. Using a variety of qualitative research methods, as well as survey research, students will learn how to identify consumer insights and brand insights for purposes of building a creative strategy.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (minimum grade C). Restricted to Strategic Communication (STCM) majors only.
Grading Basis: Letter Grade

APRD 3011 (3) Design for Digital Media
Explores how to create and produce effective and engaging designs for dynamic information across a variety of screens while maintaining brand identity. Extending the design principles learned in previous classes, the student will concept for user interfaces (UI) and navigational frameworks that optimize usability, accessibility.
Requisites: Requires prerequisite course of APRD APRD 3001 or JOUR 3503 (minimum grade C). Restricted to Strategic Communication (STCM) majors only.

APRD 3012 (3) Story Design I
Explores the development of interactive concepts that meet the strategic brief's brand objectives. Emphasis is placed first on developing strong digital ideals. Students also master the styles appropriate for different digital media and then use those skills.
Requisites: Requires prerequisite of APRD 2003 (minimum grade C). Restricted to Strategic Communication (STCM) majors only.

APRD 3013 (3) Strategic Writing for Public Relations
Emphasizes communication tactics: How to plan, write, and produce public relations tools; select audience and media; utilize print and electronic media. Focuses on Associated Press style and advanced writing techniques.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 or APRD 2002 (minimum grade C). Restricted to Strategic Communication (STCM) majors only.
Recommended: restricted to the public relations track within the STCM major.
Grading Basis: Letter Grade

APRD 3014 (3) Digital Storytelling for Public Relations
Provides students a new skill set in digital storytelling ideas, production, and analysis. Students will develop the skills to produce creative online stories that will reach strategic audiences. We will look at the changing roles of the storyteller in news, promotion, and public relations while discussing and analyzing media consumption habits that encourage a seamless transition from consumer to creator. This course is designed for public relations students within the strategic communication major.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (minimum grade C). Restricted to Strategic Communications (STCM) majors only.
Grading Basis: Letter Grade
APRD 3105 (3) Public Relations Strategy and Implementation
Exposes students to concepts in strategic planning and implementation of public relations efforts. Students will come to understand the organization's internal and external communications and identify potential crises in the development of public relations strategy. This class provides an overview of the public relations process and its application to the development of strategy. Students will also understand implementation and evaluation of strategy.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (minimum grade C). Restricted to Strategic Communications (STCM) majors only.
Recommended: restricted to public relations track within STCM.
Grading Basis: Letter Grade

APRD 3112 (3) International Public Relations
Introduces students to the cultural, social and economic issues relevant to strategic communication in the global arena. Provides students with the foundational tools necessary to both understand and effectively navigate the often complex world of strategic intercultural communication. Specific topics will include exploration of the contextual factors that influence public relations practice in different nations/regions, discussion of the various theoretical models that govern global PR practice and critical evaluation of international PR case studies/campaigns.
Requisites: Requires a prerequisite course of APRD 2002 (minimum grade C). Restricted to Strategic Communication (STCM) majors only.
Grading Basis: Letter Grade

APRD 3300 (3) Crisis Communication in Public Relations
Explores theories and research related to public relations communication before, during and after a crisis; examines the fundamentals of organizational communication, crisis management and strategic planning.
Requisites: Requires a prerequisite course of APRD 3103 (minimum grade C). Restricted to Strategic Communication (STCM) majors only.
Grading Basis: Letter Grade

APRD 3301 (3) Social Media Strategies for Public Relations
Emphasis on how social media and internet marketing influence public relations; understand the fundamentals and best practices in social media management, visual communication and mobile applications.
Requisites: Requires prerequisite course of APRD 2000 or APRD 2002 or APRD 2003 (minimum grade C). Restricted to Strategic Communication (STCM) majors only.
Grading Basis: Letter Grade

APRD 3302 (3) Case Studies in Public Relations
Designed to help develop and refine critical thinking in selecting, creating and applying tools, techniques and principles of public relations to a variety of managerial cases and problem situations.
Requisites: Requires a prerequisite course of APRD 2002 (minimum grade C). Restricted to Strategic Communication (STCM) majors only.
Grading Basis: Letter Grade

APRD 3304 (3) History of Advertising
Explores the critical moments in advertising history from the start of the Industrial Revolution through the current post digital era.
Requisites: Requires a prerequisite course of APRD 2000 (minimum grade C). Restricted to Strategic Communication (STCM) majors only.
Grading Basis: Letter Grade

APRD 3500 (3) Story Design II
Explores the uses of story and how the design of story must adapt to different platforms and genres, including both short- and long-form narratives, visual narrative, film, personal essay and advertising copywriting.
Requisites: Requires a prerequisite course of APRD 2003 (minimum grade C). Restricted to Strategic Communication (STCM) majors only.
Grading Basis: Letter Grade

APRD 3503 (3) Concepting
Teaches techniques and develops personal discipline inherent to the generation of novel, sophisticated creative work based on a solid concept; the distinctive, guiding idea that drives campaign messages. Assignments are evaluated in group critiques and each student completes a final portfolio by semester's end. Enrollment is restricted to STCM majors admitted to the advertising creative track.
Requisites: Requires prerequisite courses of APRD 2005 and APRD 2006 (minimum grade C). Restricted to Strategic Communication Design (STCM) majors only.
Recommended: restricted to public relations track in STCM.
Grading Basis: Letter Grade

APRD 3523 (3) The Art and Strategy of Science Communication: Branding Climate Change
Integrating the science of climate change and science communication with the research, strategy and execution practices of strategic communication (e.g., advertising and public relations).
Equivalent - Duplicate Degree Credit Not Granted: EBIO 3523
Grading Basis: Letter Grade

APRD 3700 (1-3) Field Study in Strategic Communication
Creates an immersive experience for students in regards to the history, business practices and current thinking of top industry companies. Students will first complete course work at CU Boulder and then travel to major industry hubs to visit advertising, design, PR and other marketing communication companies.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of APRD 1000 (minimum grade C). Restricted College of Media, Communication Information (CMCI) or Business (BUSN) majors only with 60-180 units completed.
Grading Basis: Letter Grade

APRD 4000 (3) Public Relations Event Planning
Introduces students to the planning and execution of special events. Specifically, the course will locate special event planning within the broader context of organizational strategy and will introduce students to project management through proposal development, scheduling, budgeting and evaluation components that underlie successful event production. Will culminate in the execution of a full-scale event near the end of the semester.
Requisites: Requires a prerequisite course of APRD 3103 (minimum grade C). Restricted to Strategic Communication (STCM) majors only.
Grading Basis: Letter Grade

APRD 4010 (3) Strategic Health Communication
Introduces students to theory, research and contemporary concerns in health communication. Focuses on strategic communication for public service and public education campaigns related to health. Includes advertising and health promotion, community relations, public service programs, advocacy, online communities and social media management.
Requisites: Requires a prerequisite course of APRD 3103 (minimum grade C). Restricted to Strategic Communication (STCM) majors only.
Grading Basis: Letter Grade
APRD 4100 (3) Brands and Culture
Explores the intersection between culture and marketing communication. Students will examine brand communities, brand and category culture as well as popular culture and the impact on and within marketing communication. The goal is for students to become more aware of the importance of culture in the ability of communication to disrupt the status quo within a market.
Requisites: Requires a prerequisite course of APRD 2000 or APRD 2002 (minimum grade C). Restricted to Strategic Communication (STCM) majors only with a minimum of 70 hours.
Grading Basis: Letter Grade

APRD 4101 (3) Advertising Media Planning
Examine how owned, earned and paid (or traditional and non-traditional) media campaigns are planned, budgeted, executed and evaluated.
Requisites: Requires a prerequisite course of APRD 2000 (minimum grade C). Restricted to Strategic Communication (STCM) majors only with a minimum of 70 hours.
Grading Basis: Letter Grade

APRD 4102 (3) Sustainable Brand Practices: Ethics Cases in Advertising and PR
Explore contemporary issues and ethics cases in advertising and public relations and how these practices impact the long-term success of a brand. Students will explore branding concepts and theories of ethics to examine some of the current controversies in which advertising and public relation campaigns are involved and how these issues can be dealt with in an ethical and socially responsible manner.
Requisites: Requires a prerequisite course of APRD 2000 or APRD 2002 (minimum grade C). Restricted to Strategic Communication (STCM) majors only with a minimum of 70 hours.
Grading Basis: Letter Grade

APRD 4300 (3) Strategic Communication Analytics and Metrics
Provide students with a base knowledge of analytics and metrics used in strategic communication. Students will learn how to obtain and clean big data, how to analyze and turn it into insights and how to present and communicate insights into actionable recommendations.
Requisites: Requires a prerequisite course of APRD 2000 or APRD 2002 (minimum grade C). Restricted to Strategic Communication (STCM) majors only with a minimum of 70 hours.
Grading Basis: Letter Grade

APRD 4403 (4) Strategic Communication Campaigns
Gives students the opportunity to work in small groups to develop material for an actual client. Examines basic principles of group dynamics and effective teamwork while conducting research, developing strategies and creating a multimedia campaign. All work is presented to the client.
Requisites: Requires prerequisite course of APRD 3000 or APRD 3001 or APRD 3002 or APRD 3003 or APRD 3004 or JOUR 3503 or JOUR 3463 (minimum grade C). Restricted to Strategic Communication (STCM) or Advertising (JADV) majors only with a minimum of 85 hours.
Additional Information: Departmental Category: Advertising Media Design

APRD 4404 (3) Advanced Ad Campaigns NSAC
Work and design an ad campaign for a real world client through the National Student Advertising Competition (NSAC).
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires a prerequisite course of APRD 3000 or APRD 3001 or APRD 3002 or APRD 3003 or APRD 3004 (minimum grade C). Restricted to Strategic Communication (STCM) majors only with a minimum of 80 hours completed.
Grading Basis: Letter Grade

APRD 4453 (3) Advertising and Society
Examines criticisms and contributions of advertising in society and the economy.
Requisites: Restricted to College of Media, Communication, and Information (CMCI) students with a minimum of 73 hours taken.
Additional Information: Departmental Category: Advertising Media Design

APRD 4501 (3) Design for Social Innovation
Provides an introduction to design thinking as a means to drive social change and solve real-world problems. This studio class is project based and asks students to experiment with new behaviors of work and learning, including: collaboration, iteration, prototyping, empathizing, craft and inference. Field work and collaboration with teammates are required.
Requisites: Requires prerequisite course of APRD 2003 (minimum grade of C).
Grading Basis: Letter Grade

APRD 4503 (3) Portfolio 1
Enhances student conceptual abilities and generates both print and integrated multimedia campaigns. Students work in teams to develop an extensive body of work that's exhibited in an awards show judged by advertising professionals. Instructor consent required.
Requisites: Requires a prerequisite course of APRD 3000 or JOUR 3503 (minimum grade C). Restricted to Strategic Communication (STCM) majors only.
Additional Information: Departmental Category: Advertising Media Design

APRD 4504 (3) Copywriting Seminar
Offers an intensive exploration of the craft across a variety of genres. Students gain an understanding of the power of words and the use of distinctive voices, with implications for strategic advertising copywriting. Students are also expected to research and write creative briefs. Copywriters take this course with APRD 4506 - Advertising Track Portfolio I.
Requisites: Requires prerequisite course of APRD 3503 (minimum grade C) and corequisite course of APRD 4506. Restricted to Strategic Communications (STCM) majors only.
Recommended: restricted to advertising creative track in STCM.
Grading Basis: Letter Grade

APRD 4505 (3) Art Direction Seminar
Offers an in-depth examination of formal graphic design principles and their application in advertising via lectures, reading assignments, and projects. Topics include color theory, typography, and layout as well as applied skills associated with an art director's daily work. Art directors take this class with APRD 4506 - Creative Track Portfolio I.
Requisites: Requires prerequisite course of APRD 3503 (minimum grade C) and corequisite course of APRD 4506. Restricted to Strategic Communications (STCM) majors only.
Recommended: restricted to the advertising track in STCM.
Grading Basis: Letter Grade

APRD 4506 (3) Creative Track Portfolio Development I
Focuses on the development and execution of portfolio pieces reflecting the pursuit of sound strategic and conceptual thinking. All work is done by art director/writer teams, and finished executions are produced as the process of portfolio building begins. This work is reviewed by a jury of creative professionals at an end-of-semester critique.
Requisites: Requires prerequisite course of APRD 3503 (minimum grade C) and corequisite courses of APRD 4504 or APRD 4505. Restricted to Strategic Communications (STCM) majors only.
Recommended: restricted to the advertising track in STCM.
Grading Basis: Letter Grade
APRD 4523 (3) Portfolio 2
Gives students an opportunity to develop an extensive body of work. Students create integrated campaigns, which include print, digital and guerilla ideas. Final portfolios are critiqued by both faculty and outside reviewers. Instructor consent required.
Requisites: Requires a prerequisite course of APRD 4503/JOUR 4503 (minimum grade C-). Restricted to Strategic Communication (STCM) majors only.
Additional Information: Departmental Category: Advertising Media Design

APRD 4543 (3) Strategic Brand Management
Examines the theory of branding: what brands are, how brands are created and measured, as well as strategies for managing brands and brand communication.
Requisites: Requires a prerequisite course of APRD 3002 or APRD 3103 (minimum grade C-). Restricted to Strategic Communication (STCM) majors only with a minimum of 70 hours.

APRD 4600 (3) Design Portfolio I
Develop a variety of design concepts and execute them at a professional level. Students are assigned projects typical of those handled by design firms to demonstrate their ability in areas such as branding, product design, interaction design, etc. Students will also design their own online portfolio. Creative work is presented in a juried show at the end of the semester. Department requisite: students must apply with a portfolio, the quality will determine enrollment.
Requisites: Requires a prerequisite course of APRD 3001 (minimum grade C-).
Grading Basis: Letter Grade

APRD 4601 (3) Design Portfolio II
Refine the skills learned in APRD 4600 and further development of work at a professional level. With help from visiting professionals, students continue to develop a body of work that provides their mastery of user-centered design and branding across a variety of real-world assignments. The final portfolio is judged in the student creative show, juried by design professionals. Department prerequisite: students must apply with a portfolio, the quality will determine enrollment.
Requisites: Requires a prerequisite course of APRD 3001 (minimum grade C-).
Grading Basis: Letter Grade

APRD 4700 (3) Advertising Intensive
Immerses students in the process of creating successful communication and deepens their understanding of current industry standards and practices. Students will learn, develop and execute all aspects of the communication process, including the guidance of professionals. Offered Maymester only.
Requisites: Requires a prerequisite course of APRD 1000 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Strategic Communication (STCM) majors only.
Grading Basis: Letter Grade

APRD 4841 (1-4) Undergraduate Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

APRD 4873 (1-3) Special Topics
Special Topics
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Strategic Communication (STCM) majors only with 57-180 credits (Juniors or Seniors)
Additional Information: Departmental Category: Advertising Media Design

APRD 4931 (1-6) Internship
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires pre-requisite of APRD 3000 or APRD 3001 or APRD 3002 or APRD 3003 or APRD 3004 or APRD 3103 or All require a grade of C- or higher.
Grading Basis: Pass/Fail

APRD 5001 (3) Brand Design Studio 1
Focuses on the challenges of designing brands targeted to customer needs and desires. The course is structured around the process of identifying brand opportunities, idea generation, design, testing and launch opportunities. Through a series of projects, students address aspects of practice and theory, from brand adaptation of cultural values to maintenance of brand integrity and global design strategies. Where applicable, case studies will supplement studio execution.
Grading Basis: Letter Grade

APRD 5002 (3) Experiential Design Studio 1
Provides a comprehensive understanding of design thinking and its processes to design innovative branded experiences and exchanges in a variety of strategic communication contexts. Students learn design methods applications that can be applied not only to experiential design, but to a problem where design thinking is meaningful to branded experiences. They learn standard and currently practiced design methods and, through repeated application, internalize them into a personal design aesthetic.

APRD 5003 (3) Brand Design Studio 2
Builds on and extends concepts and executions covered in Brand Design 1. While BD Studio 1 grounds the students in core branding concepts and applications, BDS 2 expands both executional skillsets and conceptual frameworks through the development of a unified theory of branding that transforms objects into meaning bearers. Through research, strategic definition, identity, expression, communications and behavior study, students will learn how to create opportunities for complex, meaning centered relationships between people and things.

APRD 5004 (3) Experiential Design Studio 2
Builds on and extends concepts and applications introduced in Experiential Design Studio 1 with a concerted focus on prototyping quickly and often the best way to both communicate and improve one's design. Integrates prototyping activities, along with research and testing techniques, into every stage of the design process. Students will learn how to choose the appropriate method to suit different dimensions of a design problem at different stages in the process and the pitfalls of each approach.

APRD 5005 (3) Critical Making Studio 1
Introduces students to the communication design possibilities of critical making by exploring the conceptual process, research and key questions framed through an iterative approach to problem solving. The learning experience includes hands-on, embodied approaches to problems that generate innovative solutions by crossing the divide between thinking and making and between the screen and physical environments.

APRD 5006 (3) RE: Studio 1
Brings students’ attention to design as a form of social innovation and develops awareness of the social, political and economic contexts of design. They become literate in the often implicit narratives embedded in design products and services, then use scenarios and storytelling to generate new strategies, build and test prototypes and write a case study detailing what was learned.
Grading Basis: Letter Grade
APRD 5007 (3) Critical Making Studio 2
Turns from software to a focus on hardware and physical computing by literally and figuratively disassembling objects: using prototyping, reverse engineering, hardware hacking and circuit bending, design fiction and electronics fabrication (i.e., Arduino, raspberry pi and more). All of this takes place in a shared, open learning environment where students and faculty critically engage with a range of digital production tools and integrates them into ordinary life.
Grading Basis: Letter Grade

APRD 5008 (3) RE: Studio 2
Develops awareness of and access to necessary tools, smart objects for example, that can enable complex dynamics among people, objects and information via a combination of physical and digital design methods, all with an eye to design driven innovation for social change. This course shifts the usual strategic communication design point of view from the typical perspective of "trend noise" and market driven models to identifying actual problems and providing possible design solutions to those problems.
Grading Basis: Letter Grade

APRD 5010 (1-3) Design Sprint
Executes a five-day, immersive process for answering critical business questions through design, prototyping and testing ideas with sponsoring industry partners. The outcome is a fully functional prototype that is demoed and evaluated on the final day of the sprint. This project based studio is team taught and process based. The tangible outcomes from the project, along with documentation of the process, will go into the students' professional portfolios.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.

APRD 5011 (1-6) Book Lab
Dedicated to building out an industry ready professional portfolio, this immersive studio consists of four client facing project sponsored by and developed in collaboration with the program's industry partners. In a series of three-week intensives, students will work from design briefs to concept, design and solve a variety of design problems for real world clients. Ranging from finished supercomps to functional prototypes - physical, video, projections mapping, etc. - students to market portfolios will demonstrate their command of strategic communication design across a range of media platforms.
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade

APRD 5012 (3) Entrepreneurship and Product Innovation by Design
Results in learning how to both think like an entrepreneur and develop innovative products and experiences competitive with the most successful startups in Boulder. Taught by successful entrepreneurs sharing valuable insight into the skills, mindset, and culture that results in the design of innovative products and experiences.
Grading Basis: Letter Grade

APRD 5013 (3) Brand Design Studio 3: Sensational Branding
Explores both the theory and the practices of identity and branding through the creation of a series of projects related to the senses. Most of our visual world is made up of one or more identity components--from the basic form and structure of something to the specific experience which a brand provides.
Grading Basis: Letter Grade

APRD 5014 (3) Experience Design Studio 3
Introduces students to advanced practices and tools of the experience design profession. Topics vary to reflect current and emerging trends in the profession, but the core focus of the course consists of three broad themes: information design principles, understanding and defining user behaviors, and designing for emerging cross-channel experiences.
Grading Basis: Letter Grade

APRD 5015 (3) Brand Design Studio 4: Sustainability
Takes an in-depth look into engagement with challenges of designing for sustainability. Moves beyond the cradle to grave approach to designing for cradle to cradle with immersion into design ethics and the power of visual communication. Students are taken beyond the project brief to investigate why a brand or service should exist and the consequences of its existence.
Grading Basis: Letter Grade

APRD 5016 (3) Experience Design Studio 4
Organizes our annual inquiry and execution of a real-world project around an essential question in design, such as "Can design make us empathetic problem solvers?" Curated by our faculty and executed in collaboration with our industry partners, Experience Design Studio 4 pairs students with teams from design-driven companies to develop advanced projects over the course of a full semester.
Grading Basis: Letter Grade

APRD 5017 (3) Critical Making Studio 3
Employs advanced hands-on hardware practice for reflection, analysis, and comprehension of the physicality of computation and communications infrastructures. Through deconstruction of objects students will learn to interpret and intervene through formalized practices and techniques in the material layer of digital technologies, including: the use of prototyping, hardware hacking and circuit bending, the use of design fictions, reverse engineering, and electronics fabrication.
Grading Basis: Letter Grade

APRD 5019 (3) Critical Making Studio 4
Functions as a studio intensive to enable designers to conceive of objects as "interventions" and how artifact design can mediate interactions--between multiple audiences--making interaction a primary influence and component of the design. Students design an intervention of a public space that is unequivocally physical or elaborate through technologies with a goal of encouraging interaction, socialization, and sustainable change.
Grading Basis: Letter Grade

APRD 5841 (1-3) Graduate Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

APRD 5851 (1-6) Graduate Professional Project
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

APRD 5931 (1-3) Internship
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to graduate students only.
APRD 6342 (3) Digital Advertising
Covers both traditional and emerging digital advertising methods, the popular platforms used to execute ads, and the leading analytic tools that can be used to assess advertising performance. Core advertising platforms covered include search, display, social media, native advertising, sponsored content and mobile. This class focuses on best practices and Key Performance Indicators that go with each advertising platform. Department consent required.
Requisites: Restricted to MS Business Analytics (BUAN-MS) majors only.
Grading Basis: Letter Grade

APRD 6343 (3) Applications of Advanced Statistical Techniques in Advertising
Building upon prior data acquisition and analysis coursework, students will effectively and flexibly generate advanced statistical models in a digital advertising-specific context. This course will focus on data originating from a variety of digital advertising sources. In addition to technical skill acquisition, students will learn how to interpret results and present them to clients and management. Department consent required.
Requisites: Restricted to MS Business Analytics (BUAN-MS) majors only.
Grading Basis: Letter Grade

APRD 6871 (1-3) Special Topics
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

APRD 6940 (1) Master's Degree Candidate
Requisites: Restricted to graduate students only.
Grading Basis: Pass/Fail

APRD 6951 (1-6) Master's Thesis
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

APRD 7001 (3) ProSeminar in Mass Communication Theory 1
Discusses prominent theoretical and methodological points of view in journalism studies and strategic communication that range from social science to critical studies to the humanities. The premise is that methods are driven by research questions, so there is no best way to conduct research. You should leave this course with an understanding of how to address various mass communication phenomena.
Equivalent - Duplicate Degree Credit Not Granted: JRNL 7001
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

APRD 7002 (3) Research Design
Adopts a holistic and creative approach to bridging theory with method for the purpose of research design. Students learn how to bridge theory and method, exploring research designs that effectively address research questions and hypotheses through elaboration of theoretical and operational linkages.
Equivalent - Duplicate Degree Credit Not Granted: JRNL 7002
Requisites: Requires prerequisite courses of APRD 7003 and MDRP 7051 and MDRP 7061 (all minimum grade C-). Restricted to graduate students only.
Grading Basis: Letter Grade

APRD 7003 (3) ProSeminar in Mass Communication Theory II
Continues introducing and discussing theoretical and methodological points of view in areas of communication, journalism and persuasion. Discusses the most important qualitative and quantitative methodological points of view, and from theoretical viewpoints that range from social science to critical studies. The idea is to develop an appreciation for theories and methodologies that can be employed depending upon the research question.
Equivalent - Duplicate Degree Credit Not Granted: JRNL 7003
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

APRD 7004 (1) Doctoral Professionalization Seminar
Introduces you to the university and gives you a chance to think out loud about what your academic future might look like. The course is designed to be responsive to your needs regarding your career, getting a job, getting tenure and teaching. In short, the course prepares you for a career in academia.
Equivalent - Duplicate Degree Credit Not Granted: JRNL 7004
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to PhD students only.
Grading Basis: Letter Grade

APRD 7871 (3) Special Topics
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.

Aerospace Engineering (ASEN) Courses

ASEN 1000 (1) Introduction to Aerospace Engineering Sciences
Introduces aerospace history, curriculum, ethics, and the many areas of emphasis within aerospace engineering. Academic and industry speakers are invited to address various aerospace topics.
Requisites: Restricted to students with 0-26 credits (Freshmen)
Aerospace Engineering (ASEN) or Engineering Open Option majors only.
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 1022 (3) Materials Science for Aerospace Engineers
Covers prerequisite chemistry topics for materials science and introduces material types, properties and behavior for aerospace engineers. Topics include review of chemistry; atomic bonding; crystals; diffusion; mechanical/thermal properties; phase diagrams; heat treatment; failure mechanisms; materials selection; and a general introduction to modern materials for aerospace engineering applications including composites, nanomaterials and metamaterials. Lab project or tensile testing is included.
Requisites: Requires corequisite courses of APPM 1350 or MATH 1300 or APPM 1340 or APPM 1345 and CHEN 1310 or ECEN 1310 or CSCI 1300 or CSCI 1310 or CSCI 1320. Restricted to Aerospace Engineering (ASEN) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Structures, Materials, and Structural Dynamics
ASEN 1400 (3) Gateway to Space
Introduces the basics of atmosphere and space sciences, space exploration, spacecraft design, rocketry and orbits. Students design, build, and launch a miniature satellite on a high altitude balloon. Explores the current research in space through lectures from industry.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 2500
Requisites: Restricted to College of Engineering students with a maximum of 50 credit hours.
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 1969 (3) Pathway to Space
Explore the many paths one can take to be a part of a space-related career in a unique, engaging and interactive course. Students will learn about the following topics: space science and exploration, human spaceflight and life sciences, aeronautics and near space, launch and spacecraft systems, climate and environment, space business, policy and politics, space arts, media, and history.
Requisites: Restricted to Space Minor students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Specialized Courses

ASEN 2001 (4) Aerospace 1: Introduction to Statics, Structures, and Materials
Introduces models and analytical/numerical methods for statics and structural analysis. Topics include force/moment equilibrium, truss analysis, beam theory, stress/strain, failure criteria, and structural design. Matlab proficiency required. Offered fall only.
Requisites: Requires prerequisite courses of PHYS 1110 APPM 1360 or MATH 2300 CSCI 1300 or 1310 or 1320 or CHEN 1310 or ECEN 1310 (all minimum grade C). Requires coreqs ASEN 2002 2012 APPM 2350 or MATH 2400. Restricted to (ASEN) majors
Additional Information: Departmental Category: Structures, Materials, and Structural Dynamics

ASEN 2002 (4) Aerospace 2: Introduction to Thermodynamics and Aerodynamics
Introduces the fundamental principles and concepts of thermodynamics and fluid dynamic systems. Emphasizes the synthesis of basic science (physics), mathematics and experimental methods that form the basis for quantitative and qualitative analyses of general aerospace technology systems. Proficiency in Matlab required. Offered fall only.
Requisites: Requires prerequisite courses of PHYS 1110 and APPM 1360 or MATH 2300 CSCI 1300 or 1310 or 1320 or CHEN 1310 or ECEN 1310 (all minimum grade C). Requires coreqs ASEN 2001 2002 APPM 2350 or MATH 2400. Restricted to Aerospace Engineering (ASEN) majors
Additional Information: Departmental Category: Aerodynamics and Fluid Mechanics

ASEN 2003 (5) Aerospace 3: Introduction to Dynamics and Systems
Introduces the principles of particle and planar rigid body dynamics, systems, and controls. Topics include kinematics, kinetics, momentum and energy methods, system modeling, and simple feedback control. Class includes experimental and design laboratory exercises for aerospace applications of dynamic principles. Offered spring only.
Requisites: Requires prerequisite courses of ASEN 2001 and ASEN 2002 and APPM 2350 or MATH 2400 (all minimum grade C). Requires coreqs of APPM 2360 and ASEN 2004. Restricted to Aerospace Engineering (ASEN) majors only.
Additional Information: Departmental Category: Systems and Control

ASEN 3036 (3) Introduction to Humans in Aviation
Investigates the history of manned aviation accomplished through a review of the history of flight, the physiological and psychological limitations facing aviators, and investigates the human related causal factors in aviation accidents. The course also looks at the social and economic impacts of aviation in modern society. Not accepted as a Professional Area Elective for ASEN majors.
Additional Information: Departmental Category: Bioastronautics and Microgravity Science

ASEN 3046 (3) Introduction to Humans in Spaceflight
Aerospace 4: Aerodynamic and Performance
Introduces to design and analysis of aircraft and spacecraft. Aircraft topics include cruise performance, wing design, propulsion, stability, control, and structures. Spacecraft topics includerocket staging, orbit selection, launch systems, and spacecraft subsystems. Includes laboratory experiments and team design exercises. Offered spring only.
Requisites: Requires prerequisite courses of ASEN 2001 and ASEN 2002 and ASEN 2012 and APPM 2350 or MATH 2400 (all minimum grade C). Requires corequisite courses of APPM 2360 and ASEN 2003. Restricted to Aerospace Engineering (ASEN) majors only.
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 2004 (5) Aerospace 4: Aerospace Vehicle Design and Performance
Introduces to design and analysis of aircraft and spacecraft. Aircraft topics include cruise performance, wing design, propulsion, stability, control, and structures. Spacecraft topics includerocket staging, orbit selection, launch systems, and spacecraft subsystems. Includes laboratory experiments and team design exercises. Offered spring only.
Requisites: Requires prerequisite courses of ASEN 2001 and ASEN 2002 and ASEN 2012 and APPM 2350 or MATH 2400 (all minimum grade C). Requires corequisite courses of APPM 2360 and ASEN 2003. Restricted to Aerospace Engineering (ASEN) majors only.
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 2005 (5) Aerospace 5: Aerospace System Design and Analysis
Introduces to design and analysis of aircraft and spacecraft. Aircraft topics include cruise performance, wing design, propulsion, stability, control, and structures. Spacecraft topics includerocket staging, orbit selection, launch systems, and spacecraft subsystems. Includes laboratory experiments and team design exercises. Offered spring only.
Requisites: Requires prerequisite courses of ASEN 2001 and ASEN 2002 and ASEN 2012 and APPM 2350 or MATH 2400 (all minimum grade C). Requires corequisite courses of APPM 2360 and ASEN 2003. Restricted to Aerospace Engineering (ASEN) majors only.
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 2849 (1-3) Independent Study
Study of special projects agreed upon by student and instructor. Department consent required.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Specialized Courses

ASEN 3036 (3) Introduction to Human Spaceflight
Introduces students to the challenges of human space flight. Historical and current space programs and spacecraft are discussed with emphasis on those systems specific to sustaining human crews. Other topics include space environment with respect to sustaining human life and health, physiological and psychological concerns in a space habitat, astronaut selection and training, anomalies, mission operations motivation, costs rationale for human space exploration, and future program directions. Not accepted as a Professional Area Elective for ASEN majors.
Additional Information: Departmental Category: Bioastronautics and Microgravity Science

ASEN 3046 (3) Introduction to Humans in Aviation
Investigates the history of manned aviation accomplished through a review of the history of flight, the physiological and psychological limitations facing aviators, and investigates the human related causal factors in aviation accidents. The course also looks at the social and economic impacts of aviation in modern society. Not accepted as a Professional Area Elective for ASEN majors.
Additional Information: Departmental Category: Bioastronautics and Microgravity Science
ASEN 3111 (4) Aerodynamics
Develops the fundamental concepts of aerodynamics and provides a working knowledge for their application to the design of aircraft and launch vehicles operating at various speeds and altitudes, as well as the atmospheric forces on satellites. Offered fall only.
Requisites: Requires prerequisite courses of ASEN 2002 and ASEN 2004 and APPM 2360 and APPM 2350 or MATH 2400 (all minimum grade C). Restricted to Aerospace Engineering (ASEN) majors only.
Additional Information: Departmental Category: Aerodynamics and Fluid Mechanics

ASEN 3112 (4) Structures
Teaches Mechanics of Materials methods of stress and deformation analysis applicable to the design and verification of aircraft and space structures. It offers an introduction to matrix and finite element methods for truss structures, and to mechanical vibrations. Offered fall only.
Requisites: Requires prerequisite courses of ASEN 2001 and ASEN 2003 and ASEN 2004 and APPM 2360 and APPM 2350 or MATH 2400 (all minimum grade C). Restricted to Aerospace Engineering (ASEN) majors only.
Additional Information: Departmental Category: Structures, Materials, and Structural Dynamics

ASEN 3113 (4) Thermodynamics and Heat Transfer
Focuses on the applications of the first and second laws of thermodynamics to control volumes and teaches the fundamental concepts of different modes of energy and heat transfer. Learn to use these concepts in gas dynamics, high-speed vehicle spacecraft design, environmental systems, and energy analysis. Offered fall only.
Requisites: Requires prerequisite courses of ASEN 2002 and APPM 2360 and APPM 2350 or MATH 2400 (all minimum grade C). Restricted to Aerospace Engineering (ASEN) majors only.
Additional Information: Departmental Category: Thermodynamics and Propulsion

ASEN 3128 (4) Aircraft Dynamics
Develops the fundamental concepts of aircraft dynamics. Covers flight mechanics, performance, dynamics and control of aircraft and how they impact aircraft design. Offered spring only.
Requisites: Requires prerequisite courses of ASEN 2002 and ASEN 2003 and ASEN 2004 and APPM 2360 (all minimum grade C). Restricted to Aerospace Engineering (ASEN) majors only.
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 3200 (4) Orbital Mechanics/Attitude Dynamics and Control
Presents the fundamentals of orbital mechanics, 3D rigid body dynamics and satellite attitude dynamics and controls. Offered spring only.
Requisites: Requires prerequisite courses of ASEN 2003 and ASEN 2004 and APPM 2360 and APPM 2350 or MATH 2400 (all minimum grade C). Restricted to Aerospace Engineering (ASEN) majors only.
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 3300 (4) Aerospace Electronics and Communications
Provides the fundamentals of electronics and communications widely used in aerospace engineering. Includes analog instrumentation electronics, data acquisition, digital electronics and radio communication. Offered spring only.
Requisites: Requires prerequisite courses of ASEN 2003 and PHYS 1120 and APPM 2360 (all minimum grade C). Restricted to Aerospace Engineering (ASEN) majors only.
Additional Information: Departmental Category: Systems and Control

ASEN 3519 (1-3) Special Topics
Studies specialized aspects of the aerospace engineering sciences or innovative treatment of required subject matter at the upper-division level. Course content is indicated in the online Schedule Planner. Department enforced prerequisite: varies.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.
Additional Information: Departmental Category: Specialized Courses

ASEN 3930 (6) Aerospace Engineering Cooperative Education
Students will participate in a previously arranged, department-sponsored cooperative education program with a government agency or industry. 0.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Aerospace Engineering (ASEN) majors only.
Recommended: Prerequisite GPA above 3.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Specialized Courses

ASEN 4010 (3) Introduction to Space Dynamics
Includes central force fields, satellite orbits, rocket dynamics, orbital transfer, interplanetary mission analysis, and perturbation due to atmospheric drag and Earth oblateness.
Requisites: Requires prerequisite course of ASEN 3200 (minimum grade C). Restricted to Aerospace Engineering (ASEN) majors only.
Additional Information: Departmental Category: Astrodynamics and Orbital Mechanics

ASEN 4012 (3) Aerospace Materials
Studies aerospace grade aluminum, magnesium, nickel, and titanium alloys. Covers heat treatment, defect structures, failure mechanisms, corrosion and its prevention, the effect of space radiation on materials, and high and low temperature effects. Introduces composite materials with a lab design and experiment. Emphasizes the selection of materials in design with procedures for choosing materials rationally. Case studies include aerogels, carbides, composites, powder metallurgy, nanomaterials, and advanced materials manufacturing technologies.
Requisites: Requires prerequisite course of ASEN 2001 (minimum grade C). Restricted to Aerospace Engineering (ASEN) or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Structures, Materials, and Structural Dynamics

ASEN 4013 (3) Foundations of Propulsion
Describes aerothermodynamics and design of both rocket and air-breathing engines. Includes ramjets, turbojets, turbofans, and turboprop engines, as well as liquid, solid, and hybrid rockets.
Requisites: Requires prerequisite courses of ASEN 3113 and APPM 2360 (all minimum grade C). Restricted to Aerospace Engineering (ASEN) or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Thermodynamics and Propulsion

ASEN 4018 (4) Senior Projects 1: Design Synthesis
Focuses on the synthesis of technical knowledge, project management, design process, leadership, and communications within a team environment. Students progress through the design process beginning with requirements development, then preliminary design and culminating with critical design. Offered fall only.
Requisites: Requires prereq courses of ASEN 1022, 3111, 3112, 3113, 3128, 3200 and 3300 (all min grade C). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Aerospace Engr (ASEN) Aerospace or Engr-Concurrent Degree (C-ASEN) students majors only.
Additional Information: Departmental Category: Aerospace Design and System Engineering
ASEN 4028 (4) Senior Projects 2: Design Practicum
Focuses on the fabrication, integration, verification and validation of designs produced in ASEN 4018. Students work within the same teams from ASEN 4018. Department consent required. Offered spring only. 
**Requisites:** Requires prerequisite course of ASEN 4018 (minimum grade C). Restricted to Aerospace Engineering (ASEN) majors only. 
**Additional Information:** Departmental Category: Aerospace Design and System Engineering

ASEN 4057 (3) Aerospace Software
Provides an overview of prevalent software and hardware computing concepts utilized in practice and industry. Establishes the background necessary to tackle programming projects on different computing platforms with various software tools and programming languages. 
**Requisites:** Requires prerequisite course of CSCI 1320 or ECEN 1310 or CHEN 1310 (minimum grade C). Restricted to Aerospace Engineering (ASEN) or Aerospace Engineering Concurrent Degree (C-ASEN) majors only. 
**Additional Information:** Departmental Category: Computational and Analytical Methods

ASEN 4090 (3) Global Positioning Systems Applications
Focuses on GPS technology, software development, and applications. Lectures will cover the principal concepts used in GPS, and weekly laboratories will apply that knowledge. Culminates in student design projects using GPS. 
**Requisites:** Requires prerequisite courses of APPM 2360 and CHEN 1310 (all minimum grade C). 
**Recommended:** Prerequisite junior/senior standing in engineering. 
**Additional Information:** Departmental Category: Global Positioning Systems

ASEN 4114 (3) Automatic Control Systems
Methods of analysis and design of feedback control for dynamic systems. Covers nyquist, bode and linear quadratic methods based on frequency domain and state space models. Laboratory experiments provide exposure to computation for simulation and real time control, and typical control system sensors and actuators. 
**Equivalent - Duplicate Degree Credit Not Granted:** ASEN 5114 
**Requisites:** Requires prerequisite courses of ASEN 3128 and ASEN 3200 (all minimum grade C). Restricted to Aerospace Engineering (ASEN) majors only. 
**Additional Information:** Departmental Category: Global Positioning Systems

ASEN 4123 (3) Vibration Analysis
Highlights free and forced vibration of discrete and continuous systems. Examines Lagrange's equation, Fourier series, Laplace transforms, and matrix and computational methods. Applies knowledge to practical engineering problems. 
**Equivalent - Duplicate Degree Credit Not Granted:** MCEN 4123 
**Requisites:** Requires prerequisite course of ASEN 3112 or MCEN 3030 (minimum grade C). Restricted to Aerospace Engineering (ASEN) majors only. 
**Additional Information:** Departmental Category: Systems and Control

ASEN 4128 (3) Human Factors in Engineering and Design
Introduces the field of human factors engineering and investigates human psychological, physiological and performance limitations in complex systems and why it is vital for engineers to understand human operational limitations when designing complex systems. Course includes studies of real accidents caused by human error, good and bad designs, latent conditions and accident-producing designs. Goal is an understanding of how to conduct engineering design with consideration of human factors. 
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors). 
**Additional Information:** Departmental Category: Aerospace Design and System Engineering

ASEN 4138 (3) Aircraft Design
Two lectures and one lab per week. Examines principles of aircraft configuration and design to meet given performance specifications, taking into account aerodynamic, stability and control, and flying quality considerations, as well as airworthiness regulations. Includes preliminary design of the major elements of an aircraft. 
**Requisites:** Requires prerequisite course of ASEN 3128 (minimum grade C). Restricted to Aerospace Engineering (ASEN) or Aerospace Engineering Concurrent Degree (C-ASEN) majors only. 
**Additional Information:** Departmental Category: Aerospace Design and System Engineering

ASEN 4218 (3) Large Space Structures Design
Develops the necessary structural analysis skills for conducting conceptual and preliminary designs of large space structures with a practical emphasis on structures considered by NASA over the past 20 years. Applies analysis skills to a broad range of space missions requiring large space structures, emphasizing low cost and practical design. 
**Equivalent - Duplicate Degree Credit Not Granted:** ASEN 5218 
**Requisites:** Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Aerospace Engineering (ASEN) or Mechanical Engineering (MCEN) majors only. 
**Additional Information:** Departmental Category: Aerospace Design and System Engineering

ASEN 4222 (3) Materials Science for Composite Manufacturing
Studies common matrix materials and the modifications and improvements of properties which can be achieved by adding second phase reinforcements. Properties will be significantly affected by the design approach and by requirements, and by the procedure of adding reinforcements. Investigates polymer, ceramic and metallic materials. Explores manufacturing, fabrication and processing techniques. Evaluates future developments. 
**Equivalent - Duplicate Degree Credit Not Granted:** ASEN 5222 
**Requisites:** Requires prerequisite course of ASEN 3112 and prerequisite or corequisite course of ASEN 4012 (all minimum grade C). Restricted to Aerospace Engineering (ASEN) majors only. 
**Additional Information:** Departmental Category: Structures, Materials, and Structural Dynamics

ASEN 4338 (3) Computer Analysis of Structures
Covers basic structural design concepts and finite element modeling techniques. Emphasizes use of finite element static and dynamic analysis to validate and refine an initial design. Introduces basic design optimization and tailoring. Proficiency in Matlab required. 
**Requisites:** Requires prerequisite course of ASEN 3112 (minimum grade C). Restricted to Aerospace Engineering (ASEN) majors only 
**Additional Information:** Departmental Category: Structures, Materials, and Structural Dynamics
ASEN 4519 (1-3) Special Topics
Studies specialized aspects of the aerospace engineering sciences or innovative treatment of required subject matter at the upper-division level. Course content is indicated in the online Schedule Planner. Department enforced prerequisite varies.
Repeatability: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Engineering (ENGR) undergraduates only.
Additional Information: Departmental Category: Specialized Courses

ASEN 4849 (1-6) Independent Study
Special projects agreed upon by student and instructor. Department consent required.
Repeatability: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Specialized Courses

ASEN 4859 (1-6) Undergraduate Research
Assigns a research problem on an individual basis. Department consent required.
Repeatability: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Specialized Courses

ASEN 5007 (3) Introduction to Finite Elements
Introduces finite element methods used for solving linear problems in structural and continuum mechanics. Covers modeling, mathematical formulation, and computer implementation.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite matrix algebra.
Additional Information: Departmental Category: Structures, Materials, and Structural Dynamics

ASEN 5010 (3) Spacecraft Attitude Dynamics and Control
Includes rigid body kinematics and spacecraft attitude descriptions, torque-free attitude dynamics, static attitude determination, motion and stability due to gravity gradient torque and spinning craft, passive and active methods of attitude control, nonlinear regulator and attitude tracking feedback control laws.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 3200 or equivalent or instructor consent required.
Additional Information: Departmental Category: Astrodynamics and Orbital Mechanics

ASEN 5014 (3) Linear Control Systems
Introduces the theory of linear systems, including vector spaces, linear equations, structure of linear operators, state space descriptions of dynamic systems, and state feedback control methods.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 3200 or equivalent or instructor consent required.
Additional Information: Departmental Category: Systems and Control

ASEN 5016 (3) Space Life Sciences
Familiarizes students with factors affecting living organisms in the reduced-gravity environment of space flight. Covers basic life support requirements, human physiological adaptations, and cellular-level gravity dependent processes with emphasis on technical writing and research proposal preparation.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Bioastronautics and Microgravity Science

ASEN 5018 (3-6) Graduate Projects I
Exposes MS and PhD students to project management and systems engineering disciplines while working a complex aerospace engineering project as part of a project team. The project team may perform some or all of the following project activities during this first semester of the two-semester course sequence: requirements, definition, design and design review, build, test, and verification.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 4138 or ASEN 5148 or ASEN 5158 or instructor consent required.

ASEN 5022 (3) Dynamics of Aerospace Structures
Applies concepts covered in undergraduate dynamics, structures and mathematics to the dynamics of aerospace structural components, including methods of dynamic analysis, vibrational characteristics, vibration measurements and dynamic stability.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 5012 or ASEN 5227 or MATH 2130 or APPM 3310 or equivalent or instructor consent required.
Additional Information: Departmental Category: Structures, Materials, and Structural Dynamics

ASEN 5034 (3) Stochastic Methods for Systems Engineering
Development of stochastic models used in aerospace and other systems engineering and optimization problems. Review of probability theory, stochastic models used in decision theory, random processes, queuing theory, information theory, reliability and quality control. Computer solutions required.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Aerospace Design and System Engineering
ASEN 5044 (3) Statistical Estimation for Dynamical Systems
Introduces theory and methods of statistical estimation for general linear and nonlinear dynamical systems, with emphasis on aerospace engineering applications. Major topics include: review of applied probability and statistics; optimal parameter and dynamic state estimation; theory and design of Kalman filters for linear systems; extended/unscented Kalman filters and general Bayesian filters for nonlinear systems.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Systems and Control

ASEN 5047 (3) Probability and Statistics for Aerospace Engineering Sciences
Considers probability concepts and theory for better design and control of aerospace engineering systems. Includes descriptive and inferential statistical methods for experimental analysis. Covers discrete and continuous random variable distributions, estimators, confidence intervals, regression, analysis of variance, hypothesis testing, nonparametric statistics, random processes and quality control, including software models of same.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Computational and Analytic Methods

ASEN 5050 (3) Space Flight Dynamics
Includes celestial mechanics, space navigation, and orbit determination; trajectory design and mission analysis trajectory requirements; and orbital transfer and rendezvous.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 3200 or equivalent or instructor consent required.
Additional Information: Departmental Category: Computational and Analytic Methods

ASEN 5051 (3) Fluid Mechanics
Highlights physical properties of gases and liquids; kinematics of flow fields; and equations describing viscous, heat-conducting Newtonian fluids. Emphasizes exact solutions and rational approximations for low and high speed dissipative flows, surface and internal waves, acoustics, stability, and potential flows.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Aerodynamics and Orbital Mechanics

ASEN 5053 (3) Rocket Propulsion
An in depth presentation of the theory, analysis, and design of rocket propulsion systems. Liquid and solid propellant systems are emphasized with an introduction to advanced propulsion concepts. Nozzle and fluid flow relationships are reviewed for background.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Thermodynamics and Propulsion

ASEN 5063 (3) Aircraft Propulsion
Designed to teach the theory, analysis and design of engines used for aircraft propulsion. Will deal with engine selection, engine performance, analysis and design of various components of modern aircraft engines, with emphasis on recent developments such as the geared turbofan.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 4013 or equivalent or instructor consent required.
Additional Information: Departmental Category: Thermodynamics and Propulsion

ASEN 5090 (3) Introduction to Global Navigation Satellite Systems
Global Navigation Satellite Systems (GNSS) are important tools for navigation, science, and engineering. Introduces GNSS hardware, signal structure, algorithms, error sources, and modeling techniques. Programming experience is required.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Global Positioning Systems

ASEN 5098 (3) System Engr and Design
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 5111 (3) Introduction to Aeroelasticity
Introduces static and dynamic aeroelasticity of airfoils and wings. Covers the classical aeroelasticity theory and introduces computational methods for aeroelastic problems.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisites ASEN 3111 or MATH 2130 or APPM 3310 and MATH 3430 or equivalent or instructor consent required.
Additional Information: Departmental Category: Structures, Materials, and Structural Dynamics

ASEN 5114 (3) Automatic Control Systems
Methods of analysis and design of feedback control for dynamic systems. Covers nyquist, bode and linear quadratic methods based on frequency domain and state space models. Laboratory experiments provide exposure to computation for simulation and real time control, and typical control system sensors and actuators.
Equivalent - Duplicate Degree Credit Not Granted: ASEN 4114
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisites ASEN 3128 and ASEN 3200 or equivalent or instructor consent required.
Additional Information: Departmental Category: Structures, Materials, and Structural Dynamics

ASEN 5122 (3) Control of Aerospace Structures 1
Introduces the basic problems in dynamic modeling and active control of large spacecraft and satellites. Includes system descriptions, model reduction, controller design, and closed-loop stability analysis.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 3200 or equivalent or instructor consent required.
Additional Information: Departmental Category: Structures, Materials, and Structural Dynamics
ASEN 5148 (3) Spacecraft Design
Integrates the design elements and fundamental analyses necessary to complete the conceptual (Phase A) design of an unmanned spacecraft. Lecture and discussion explore mission design, propulsion, power, structure, thermal, attitude control, communication, command, and data handling and attitude control systems. The role of project management and systems engineering are examined. Resource estimating and lessons learned in satellite programs are reviewed.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 5151 (3) High Speed Aerodynamics
Provides aerodynamic theory applicable to the high speed flight of subsonic, transonic, and supersonic aircraft, and hypersonic vehicles. Topics include linear theory of subsonic and supersonic speeds, the nonlinear theories of transonic and hypersonic speeds, and compressible boundary layers.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Aerodynamics and Fluid Mechanics

ASEN 5158 (3) Space Habitat Design
Utilizes systems engineering methods for designing a spacecraft intended for human occupancy and provides a working knowledge of the technologies used to sustain life. Emphasis is placed on deriving functional requirements from stated mission objectives, developing integrated vehicle schematics, and comparing design options by trade study.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 5168 (3) Remote Sensing Instrumentation Design
Reviews and makes a detailed analysis of satellite instrumentation techniques and systems to understand the components, limitations, and overall capabilities. Emphasis on optical systems with in-depth treatment of conventional radiometry. Introduces both passive and microwave methods.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 5188 (3) Fundamentals of Systems Engineering
Examines the disciplined processes of designing and managing complex systems over their life cycle. Requirements engineering, reliability, logistics, team leadership, testing and evaluation, maintainability and other disciplines are examined with focus on the system engineering of small spacecraft.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 5210 (1) Remote Sensing Seminar
Covers subjects pertinent to remote sensing of the Earth, including oceanography, meteorology, vegetation monitoring, and geology. Emphasizes techniques for extracting geophysical information from satellite data. Course requirement for Remote Sensing Certificate. Formerly ASEN 6210.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Remote Sensing

ASEN 5212 (3) Composite Structures and Materials
Develops the macromechanical and micromechanical theory of the elastic behavior and failure of composite laminates. Applies basic theory to a broad range of practical problems including the buckling and vibration of composite plates, columns, and shells.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Structures, Materials, and Structural Dynamics

ASEN 5218 (3) Large Space Structures Design
Develops the necessary structural analysis skills for conducting conceptual and preliminary designs of large space structures with a practical emphasis on structures considered by NASA over the past 20 years. Applies analysis skills to a broad range of space missions requiring large space structures, emphasizing low cost and practical design.
Equivalent - Duplicate Degree Credit Not Granted: ASEN 4218
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 5222 (3) Materials Science for Composite Manufacturing
Studies common matrix materials and the modifications and improvements of properties which can be achieved by adding second phase reinforcements. Properties will be significantly affected by the design approach and by requirements, and by the procedure of adding reinforcements. Investigates polymer, ceramic and metallic materials. Explores manufacturing, fabrication and processing techniques. Evaluates future developments.
Equivalent - Duplicate Degree Credit Not Granted: ASEN 4222
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisites ASEN 3112 and ASEN 4012 or equivalent or instructor consent required.
Additional Information: Departmental Category: Structures, Materials, and Structural Dynamics

ASEN 5227 (3) Mathematics for Aerospace Engineering Sciences 1
Provides an introduction to the methods and mathematics of advanced engineering analysis tailored to aerospace engineering applications. Topics include vector and tensor calculus, ordinary differential equations, and an introduction to the calculus of variations.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Computational and Analytic Methods
ASEN 5235 (3) Introduction to Atmospheric Radiative Transfer and Remote Sensing
Examines fundamentals of radiative transfer and remote sensing with primary emphasis on the Earth's atmosphere; emission, absorption and scattering by molecules and particles; multiple scattering; polarization; radiometry and photometry; principles of inversion theory; extinction-and emission-based passive remote sensing; principles of active remote sensing; lidar and radar; additional applications such as the greenhouse effect and Earth's radiative energy budget.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 5235
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite one year of calculus-based physics and math up through differential equations.
Additional Information: Departmental Category: Remote Sensing

ASEN 5245 (3) Radar and Remote Sensing
Examines active techniques of remote sensing, with emphasis on radar fundamentals, radar wave propagation, scattering processes, and radar measurement techniques and design. Examines specific radar systems and applications, such as synthetic aperture radar phased arrays for atmosphere, space, land, and sea applications.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Remote Sensing

ASEN 5255 (3) Environmental Aerodynamics
A review of the properties and causes of hazards posed by the environment, ranging from atmospheric wind shear to tornadic flows. Involves a multidisciplinary approach combining analytical, numerical, scale modeling studies with extensive field measurements, wind energy and biophysical aerodynamics.
Equivalent - Duplicate Degree Credit Not Granted: ASEN 4255
Recommended: Prerequisite senior standing in aerospace engineering.
Additional Information: Departmental Category: Atmospheric, Oceanic, and Space Sciences

ASEN 5265 (3) Engineering Data Analysis Methods
Gives students broad exposure to a variety of traditional and modern statistical methods for filtering and analyzing data. Topics include estimation methods, principal component analyses and spectral analyses. Introduces these methods and provides practical experience with their use. Students carry out problem assignments.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Computational and Analytic Methods

ASEN 5315 (3) Ocean Modeling
Introduces students to basic principles behind, and the current practices in, ocean modeling. Discusses different prevailing approaches. Offers students hands-on experience with the use of supercomputers and work stations for model running and pre- and post-processing.
Recommended: Prerequisite graduate standing or instructor consent required.
Additional Information: Departmental Category: Atmospheric, Oceanic, and Space Sciences

ASEN 5321 (3) Computational Fluid Dynamics Structured Grid
Introduction to advanced computational methods for the solution of fluid mechanics problems on the computer with emphasis on nonlinear flow phenomena. Formerly ASEN 6327.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 5417 or equivalent or instructor consent required.
Additional Information: Departmental Category: Aerodynamics and Fluid Mechanics

ASEN 5325 (3) Small Scale Processes in Geophysical Fluids
Provides an overview of mixing and wave processes in the oceans and the atmosphere. Topics include turbulent boundary layers in the lower atmosphere and the upper ocean, air-sea interactions, and surface and internal waves.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Atmospheric, Oceanic, and Space Sciences

ASEN 5331 (3) Computational Fluid Dynamics Structured Grid
Focuses on unstructured grid computational approaches to solve the Navier-Stokes equations. Assumes a basic knowledge of the solution of partial differential equations with numerical methods with focus finite element/volume methods (FEM/FVM but primarily FEM). These issues include: the discrete formulation, non-linear equation iterator, linear equation formation, boundary condition prescription and linear equation solution.
Requisites: Restricted to Engineering (ENGR) graduate students or Aerospace Engineering-Concurrent Degree (C-ASEN) students.
Additional Information: Departmental Category: Aerodynamics and Fluid Mechanics

ASEN 5335 (3) Aerospace Environment
Examines the components of the solar-terrestrial system and their interactions to provide an understanding of the re-entry and orbital environments within which aerospace vehicles operate. Includes the sun, solar wind, magnetosphere, ionosphere, thermosphere, radiation belts, energetic particles, comparative environments (Mars, Venus, etc.), orbital debris, spacecraft charging, particle effects on systems, shielding, and satellite drag.
Recommended: Prerequisite senior or graduate standing in engineering or related physical sciences.
Additional Information: Departmental Category: Atmospheric, Oceanic, and Space Sciences

ASEN 5347 (3) Math Methods in Dynamics
Two-part graduate-level course on dynamics. Covers both flexible and rigid multibody analytical dynamics and finite element method for dynamics. Emphasizes formulations that naturally lead to easy computer implementation and stability, linearization, and modern rotational kinematics. Department consent required.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Structures, Materials, and Structural Dynamics
ASEN 5417 (3) Numerical Methods in Engineering and Science
Provides computational skills and basic knowledge of numerical methods for advanced courses in engineering/scientific computation using Fortran, C, or Matlab.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite APPM 2360 or equivalent or instructor consent required.
Additional Information: Departmental Category: Computational and Analytic Methods

ASEN 5426 (3) Neural Systems and Physiological Control
A biophysical exploration of human physiology from the standpoints of control systems and neural information processing. Topics include: neural control of movement and cardiovascular performance, tissue growth and repair, carcinogenesis, and physiological responses to microgravity.
Equivalent - Duplicate Degree Credit Not Granted: ASEN 4426 and ECEN 4821 and ECEN 5821
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Bioastronautics and Microgravity Science

ASEN 5440 (3) Mission Design and Development for Space Sciences
Brings science and engineering students together to develop the multidisciplinary skills required to create a successful proposal to develop a NASA-funded small space mission. Goals: 1) develop the proposal science objectives based on scientific community priorities and NASA Announcement of Opportunity. 2) Understand how science requirements lead to the design of instrumentation. 3) Understand practical aspects of mission development.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 5780
Grading Basis: Letter Grade
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 5506 (1-2) Bioastronautics Seminar
Focuses on current topics related to space habitat systems design and research aimed at understanding the effects of spaceflight on living organisms ranging from humans down to microbes. Literature analysis and scientific presentations are expected. Emphasis is on biophysical mechanisms, comprehensive models, and related technology development.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Bioastronautics and Microgravity Science

ASEN 5519 (1-3) Selected Topics
Reflects upon specialized aspects of aerospace engineering sciences. Course content is indicated in the online Class Search.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite varies.
Additional Information: Departmental Category: Specialized Courses

ASEN 5849 (1-6) Independent Study
Study of special projects.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Specialized Courses

ASEN 5940 (3-6) Engineering Research Internship
Grants credit to foreign visiting graduate students for conducting research within the Aerospace Engineering Sciences department. Credits can be transferred to the student's home institution. CU-Boulder students may also receive credit for conducting research outside of the university, either overseas or in the US.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Specialized Courses

ASEN 6008 (3) Interplanetary Mission Design
Exploration of principles and methods related to the design and construction of trajectories for interplanetary mission design. Some topics covered include: two-and three-body motion, gravity assists, maneuver computation, navigation, numerical integration, and construction of orbits. The main focus is on simple ballistic mission designs, such as Galileo or Cassini, however, libration point trajectories will also be covered.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 5050 or instructor consent required.
Additional Information: Departmental Category: Astrodynamics and Orbital Mechanics

ASEN 6009 (1-2) Special Topics Seminar
Presents research and developments in each department's focus areas.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Specialized Courses

ASEN 6010 (3) Advanced Spacecraft Dynamics and Control
Studies the dynamic modeling and control of spacecraft containing multiple momentum exchange devices, and/or flexible spacecraft components. Will develop nonlinear feedback control algorithms, explore singularity avoidance strategies. The second half of the course derives analytical methods (D'Alembert's equations, Lagrange's equations, Boltzmann Hamel equations) to model a hybrid rigid/flexible spacecraft system.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of ASEN 5010 (minimum grade D-).
Additional Information: Departmental Category: Astrodynamics and Orbital Mechanics
ASEN 6013 (3) High Speed Propulsion
Covers air-breathing and rocket propulsion cycles, their relative performance trade-offs, and how they fit within the context of a vehicle system. Specific emphasis will be placed on fundamental cycle analyses, component level design, and propulsion/airframe integration for rockets, turbojets, ramjets, scramjets, combined cycles, and other advanced propulsion concepts.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 4013 or equivalent or instructor consent required.
Additional Information: Departmental Category: Thermodynamics and Propulsion

ASEN 6014 (3) Spacecraft Formation Flying
Studies the dynamic modeling and control of spacecraft formations orbiting about a planet. Investigate linear and nonlinear relative motion descriptions, rectilinear and curvilinear coordinates, orbit element difference based descriptions, J2-invariant relative orbits, as well as Lyapunov-based relative motion control strategies.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 5050 or instructor consent required.
Additional Information: Departmental Category: Systems and Control

ASEN 6020 (3) Optimal Trajectories
Introduces the theory and practice of trajectory optimization. The general theory behind optimization and optimal control will be introduced with an emphasis on the properties of optimal trajectories. The main application will be to space trajectories, but other applications will also be considered.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisites ASEN 5050 and ASEN 5014 or instructor consent required.
Additional Information: Departmental Category: Systems and Control

ASEN 6021 (3) Viscous Flow
Studies low Reynolds number flows, including incompressible and compressible laminar boundary layer theory; similarity theory; and separation, transition, and turbulent boundary layers.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 5051 or equivalent or instructor consent required.
Additional Information: Departmental Category: Astrodynamics and Orbital Mechanics

ASEN 6024 (3) Nonlinear Control Systems
Introduces the analysis and control design methods for nonlinear systems, including Lyapunov and Describing Function methods.
Requisites: Requires prerequisite course of ASEN 5014 (minimum grade C). Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Systems and Control

ASEN 6028 (3) Graduate Projects II
Exposes MS and PhD students to leadership positions in project management and systems engineering while working a complex aerospace engineering project as part of a project team. The project team may perform some or all of the following project activities during this second semester of the two-semester course sequence: requirements definition, design and design review, build, test, and verification.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 4138 or ASEN 5148 or ASEN 5018 or ASEN 5158 or instructor consent required.
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 6037 (3) Turbulent Flows
Studies turbulent closure methods and computational procedures used to solve practical turbulent flows. Emphasizes multi-equation models used with time-averaged equations to calculate free-turbulent shear-flows and turbulent boundary layers. Employs spectral methods in direct and large-eddy simulation of turbulence. Formerly ASEN 5037.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 5051 or equivalent or instructor consent required.
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 6050 (3) Space Instrumentation
Provides an overview of the relevant space environment and process, the types of instruments flown on recent mission and the science background of the measurement principles.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 6050 and GEOL 6050
Requisites: Requires prerequisite course of ASEN 5335 (minimum grade D).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Aerospace Design and System Engineering

ASEN 6055 (3) Data Assimilation & Inverse Methods for Earth & Geospace Observations
Covers a selection of topics in probability theory, spatial statistics, estimation theory, numeric optimization, and geophysical nonlinear dynamics that form the foundation of commonly used data assimilation and inverse methods in the Earth and Space Sciences. Hands-on computational homework and projects provide opportunities to apply classroom curricula to realistic examples in the context of data assimilation.
Requisites: Requires prerequisite course of ASEN 5044 (minimum grade B-). Restricted to graduate students.
Grading Basis: Letter Grade
ASEN 6060 (3) Advanced Astrodynamics
Covers Lagrangian and Hamiltonian formalisms for astrodynamics problems, the computation and characterization of space trajectories in highly dynamic environments, computation of periodic orbits, stability analysis of orbital motion, and development of analytical theories for dynamics.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 5050 or equivalent or instructor consent required.
Additional Information: Departmental Category: Astrodynamics and Orbital Mechanics

ASEN 6061 (3) Molecular Gas Dynamics and DSMC
Describes the composition and flow of gases on a microscopic level to examine the behavior of the molecules that make up a macroscopic flow system. Thermodynamic properties, transport phenomena, and the governing Boltzmann Equation are derived from molecular collision dynamics and the kinetic theory. The Direct Simulation Monte Carlo method is introduced with applications.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Astrodynamics and Orbital Mechanics

ASEN 6070 (3) Satellite Geodesy
Focuses on the measurement of the Earth's gravitational field, rotational characteristics, and shape using Earth and space-based tracking of artificial satellites. Particular emphasis on satellite altimetry and satellite gravity measurements.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 3200 or equivalent or instructor consent required.
Additional Information: Departmental Category: Aerodynamics and Fluid Mechanics

ASEN 6080 (3) Statistical Orbit Determination
Course on orbit and advanced estimation techniques. Emphasizes orthogonal transformation techniques such as Givens and Householder, square root filtering and smoothing and considers covariance analysis. Also nonlinear filters and dynamic model compensation techniques. Requires term project that involves the application of many of the techniques required for precise orbit determination.
Requisites: Requires prerequisite course of ASEN 5044 (minimum grade D). Restricted to Aerospace Engineering (ASEN) graduate students or Aerospace Engineering-Concurrent Degree (C-ASEN) students.
Additional Information: Departmental Category: Astrodynamics and Orbital Mechanics

Focuses on high-precision applications of Global Navigation Satellite Systems (GNSS) and the software tools that are needed to achieve these precisions. Topics include precise orbital determination, reference frames, atmospheric delays, relativity, clock models, ambiguity resolution, and scientific applications.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 5090 or instructor consent required.
Additional Information: Departmental Category: Global Positioning Systems

ASEN 6091 (3) Global Navigation Satellite System (GNSS) Receiver Architecture
Investigates the overall architecture of satellite navigation receivers: including both the analog radio frequency conditioning (antenna to the analog-to-digital converter) and the various signal processing algorithms. Such treatment of the operation of the receiver will provide insight into the trade-offs that go into GNSS as well as the more broad generic spread spectrum receiver design.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 5090.
Additional Information: Departmental Category: Global Positioning Systems

ASEN 6107 (3) Nonlinear Finite Element Methods
Continuation of ASEN 5007. Covers the formulation and numerical solution of nonlinear static structural problems by finite element methods. Emphasizes the treatment of geometric nonlinearities and structural stability.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 5007 or instructor consent required.
Additional Information: Departmental Category: Global Positioning Systems

ASEN 6116 (3) Spacecraft Life Support Systems
Study the environmental control and the life support systems and technologies that keep people alive and healthy in spacecraft and habitats. Students will learn about thermal control systems, air revitalization processes, water reclamation and treatment, waste handling and the reuse of materials, and food and nutrition. Expect to develop analytical models from first principles and perform hands-on laboratory experiments. Formerly ASEN 5116.
Requisites: Requires prerequisite course of ASEN 5158 (minimum grade D). Requires corequisite course of ASEN 5016. Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Bioastronautics and Microgravity Science
ASEN 6220 (3) Topics in Remote Sensing
Covers infrared and microwave techniques for remote sensing, emphasizing oceanographic applications, fundamentals of electromagnetic radiation, remote sensing instrumentation (radars and radiometers), and conversion of sensory data to geophysical parameters, including sea surface topography, temperature, and atmospheric moisture.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Additional Information: Departmental Category: Remote Sensing

ASEN 6265 (3) Fundamentals of Spectroscopy for Optical Remote Sensing
Provides a comprehensive overview of the fundamentals of quantum physics, atomic spectroscopy, molecular spectroscopy and laser spectroscopy. Exposes students to the spectroscopy applications in modern optical and laser remote sensing. Assists students to develop the fundamental knowledge and skills for independent learning.
Requisites: Restricted to Engineering (ENG) graduate students or Aerospace Engineering- Concurrent Degree (C-ASEN) students.

ASEN 6337 (3) Remote Sensing Data Analysis
Covers some of the most commonly used machine learning techniques in remote sensing data analysis, specifically for clustering, classification, feature extraction and dimensionality reduction, and inverse methods used to retrieve geophysical information from remote sensing data. Hands-on computational homework and group and individual projects provide opportunities to apply classroom curricula to real remote sensing data.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.

ASEN 6365 (3) Lidar Remote Sensing
Provides a comprehensive, yet easily understandable, up-to-date understanding of lidar principles, technologies, and applications. Contains approaches for quantitative lidar simulation, lidar sensitivity, and error analysis. Provides a data retrieval, lidar system design and performance analysis. Gives students opportunities to see and operate real state-of-the-art lidar systems and make connections to lidar experts in the nation and world.
Requisites: Restricted to Engineering (ENG) graduate students or Aerospace Engineering- Concurrent Degree (C-ASEN) students.

ASEN 6367 (3) Advanced Finite Element Methods for Plates, Shells, and Solids
Continues ASEN 5007. Covers more advanced FEM applications to linear static problems in structural and continuum mechanics. Focuses on modeling, formulation, and numerical solutions of problems modeled as plates, shells, and solids. Includes an overview of advanced variational formulations.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite introductory graduate level course in FEM and familiarity with linear algebra.

ASEN 6412 (3) Uncertainty Quantification
This advanced topics course provides an exploration of techniques for representation and propagation of uncertainty in PDE/ODE-based systems.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisites APPM 5570 and ECEN 5612 (all minimum grade B) or equivalent courses with instructor consent.

ASEN 6427 (3) Advanced Computational Fluid Dynamics
Introduces computational techniques particularly applicable to high-speed gas flows that contain shocks. Complicated numerical methods are developed from relatively simple numerical modules.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 5417 or equivalent or instructor consent required.

ASEN 6451 (3) Structural Dynamics
Provides a comprehensive overview of the fundamentals of quantum physics, atomic spectroscopy, molecular spectroscopy and laser spectroscopy. Exposes students to the spectroscopy applications in modern optical and laser remote sensing. Assists students to develop the fundamental knowledge and skills for independent learning.

ASEN 6519 (1-3) Special Topics
Reflects upon specialized aspects of aerospace engineering sciences. Course content is indicated in the online Schedule Planner.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

ASEN 6527 (3) Advanced Computational Fluid Dynamics
Covers modeling, computational algorithms and their computer implementation for both linear and nonlinear dynamical systems. Topics covered include transient analysis, wave propagation, multiphysics analysis, and their significant engineering applications.
Requisites: Restricted to College of Engineering (ENGR) graduate students or Aerospace Engineering Concurrent Degree (C-ASEN) majors only.
Recommended: Prerequisite ASEN 5022 or equivalent or instructor consent required.

ASEN 6549 (1-6) Independent Study
Studies special projects agreed upon by student and instructor.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

ASEN 6600 (3) Master of Engr Project
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

ASEN 6849 (1-3) Special Topics
Reflects upon specialized aspects of aerospace engineering sciences. Course content is indicated in the online Schedule Planner.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

ASEN 6850 (3) Master of Engr Project
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

ASEN 6949 (1) Master's Candidate for Degree
Grading Basis: Pass/Fail

ASEN 6950 (1-6) Master's Thesis
Additional Information: Departmental Category: Specialized Courses
Air Force Aerospace Studies - ROTC (AIRR)

Courses

AIRR 1010 (1) Heritage and Values I
This course provides an introduction to the Air Force, encourages students to pursue an AF career or seek additional information to be better informed about the role of the USAF. The course allows students to examine general aspects of the Department of Air Force, AF Leadership, Air Force benefits, and opportunities for AF officers. The course also lays the foundation for becoming an Airman by outlining our heritage and values.

Additional Information: Departmental Category: Air Force Aerospace Studies

AIRR 1020 (1) Heritages and Values II
A continuation of AIRR 1010. This course provides a historical perspective including lessons on war and the US military, AF operations, principles of war, and airpower. This course also provides students with an understanding for the employment of air and space power, from an institutional, doctrinal, and historical perspective. The students are introduced to the Air Force way of life and gain knowledge on what it means to be an Airman.

Additional Information: Departmental Category: Air Force Aerospace Studies

AIRR 1234 (0) Leadership Laboratory
All AFROTC cadets must attend leadership lab (two hours per week). The laboratory involves a study of Air Force customs and courtesies, drill and ceremonies, career opportunities and the life and work of an Air Force junior officer. Students (cadets) seeking a commission must take this lab in conjunction with their AIRR lecture/course. "Special Students" NOT seeking a commission, are not required or allowed to attend LLAB (Leadership Lab).

Grading Basis: Pass/Fail

AIRR 2010 (1) Team and Leadership Fundamentals 1
This course is designed to provide a fundamental understanding of both leadership and team building. This course teaches students that there are many layers to leadership, including aspects that are not always obvious. Such things include listening, understanding themselves, being a good follower, and problem solving efficiently.

Additional Information: Departmental Category: Air Force Aerospace Studies

AIRR 2020 (1) Team and Leadership Fundamentals 2
A continuation of AIRR 2010. This course is designed to discuss different leadership perspectives when completing team building activities and discussing things like conflict management. This course also provides students with the ability of demonstrating their basic verbal and written communication skills. Active cadets will apply these lessons at Field Training, which follows the AS200 level.

Additional Information: Departmental Category: Air Force Aerospace Studies

AIRR 3010 (3) Leading People and Effective Communication 1
This course is designed to build on the leadership fundamentals taught in the AS200 level. The cadets will have the opportunity to utilize their skills as they begin a broader leadership role in the detachment. The goal is for cadets and students to have a more in-depth understanding of how to effectively lead people and provide them with the tools to use throughout their detachment leadership roles.

Additional Information: Departmental Category: Air Force Aerospace Studies

AIRR 3020 (3) Leading People and Effective Communication 2
A continuation of AIRR 3010. This course is designed to help cadets hone their writing and briefing skills. The course continues into advanced skills and ethics training that will prepare them for becoming an officer and a supervisor.

Additional Information: Departmental Category: Air Force Aerospace Studies

AIRR 4010 (3) National Security, Leadership Responsibilities/Commissioning Preparation 1
This course is designed to address the basic elements of national security policy and process. The cadet will comprehend the air and space power operations as well as understand selected roles of the military in society and current domestic and international issues affecting the military profession.

Additional Information: Departmental Category: Air Force Aerospace Studies

AIRR 4020 (3) National Security/Leadership Responsibilities/Commissioning Preparation 2
A continuation of AIRR 4010. This course is designed to prepare cadets for life as a second lieutenant. Cadets should comprehend the responsibility, authority, and functions of an Air Force commander and selected provisions of the military justice system.

Additional Information: Departmental Category: Air Force Aerospace Studies

Anthropology (ANTH)

Courses

ANTH 1030 (3) Principles of Anthropology 1
Evolution of humanity and culture from beginnings through early metal ages. Covers human evolution, race, prehistory, and rise of early civilizations. This course is taught through Continuing Education.

Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Social Science

ANTH 1040 (3) Principles of Anthropology 2
Surveys the world's major culture areas. Covers components of culture, such as subsistence, social organization, religion, and language. This course is taught through Continuing Education.

Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

MAPS Course: Social Science

ANTH 1100 (3) Exploring a Non-Western Culture: The Tamils
Surveys the social and economic patterns, ideas and values, and aesthetic achievements of the Tamils, a Hindu people who live in South India and Sri Lanka.

Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Asia Content
ANTH 1105 (3) Exploring a Non-Western Culture: Tibet
Introduction to Tibetan culture, history, religion, and society from an anthropological perspective, including traditional as well as contemporary dimensions. Topics will include Tibetan Buddhism, politics, nomadism, gender, refugee issues, and the global Tibetan diaspora, all framed within the larger methods and concepts of cultural anthropology.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Asia Content

ANTH 1115 (3) The Caribbean in Post-Colonial Perspective
Introduces the student to the varied peoples and cultures in the Caribbean region, emphasizing the historical, colonial, and contemporary political-economic contexts of their social structure and cultural patterns.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-Global Perspective

ANTH 1120 (3) Exploring a Non-Western Culture: Pueblo Indians of the Southwest
Examines the geography, kinship, politics, and religious values of Pueblo Indian peoples of the US Southwest in historical and contemporary context through an anthropological perspective. Specific details of Pueblo Indian languages, cultures, and histories are used to illustrate basic ideas and debates in anthropology including: the concept of culture, the influence of language on thought, the grounding of culture in human biology, religion and reason, the nature of oral traditions, and archaeological interpretation.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective

ANTH 1125 (3) Exploring Cultural Diversity in the U.S.
Examines the geography, kinship, politics, and religious values of various cultures in the United States in historical and contemporary context through an anthropological perspective. Check with department for semester offerings.
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 1140 (3) Exploring a Non-Western Culture: The Maya
Explores the culture of the Maya of Central America, emphasizing material adaptations, social organization, ideals and values, and artistic achievements in the past and the present.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-Global Perspective

ANTH 1145 (3) Exploring a Non-Western Culture: The Aztecs
Explores the culture of the Aztec people of Central Mexico: their subsistence, society, religion, and achievements, as well as the impact of the Aztec empire in Mesoamerica. Also reviews the clash of a non-western society with the western world with the arrival of the Spanish conquistadors.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-Global Perspective

ANTH 1150 (3) Exploring a Non-Western Culture: Regional Cultures of Africa
Explores a small number of cultures in a specific sub-region of Africa from an integrated holistic viewpoint, emphasizing material adaptations, social patterns, ideas and values, and aesthetic achievements.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-Global Perspective

ANTH 1155 (3) Exploring Global Cultural Diversity
Examines the geography, kinship, politics, and religious values of various cultures globally in historical and contemporary context through an anthropological perspective. Check with department for semester offerings.
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 1170 (3) Exploring Culture and Gender through Film
Explores the concepts of culture and gender from an anthropological perspective, using films and other media, as well as written texts. By analyzing media about other ways of life, students will learn the basic concepts of cultural anthropology and be able to apply them to any society. In addition, students will learn to think critically about documentary and ethnographic media.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-Global Perspective

ANTH 1170 (3) Exploring Culture and Gender through Film
Explores the concepts of culture and gender from an anthropological perspective, using films and other media, as well as written texts. By analyzing media about other ways of life, students will learn the basic concepts of cultural anthropology and be able to apply them to any society. In addition, students will learn to think critically about documentary and ethnographic media.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-Global Perspective

ANTH 1180 (3) Maritime People: Fishers and Seafarers
Explores important milestones in the development of human societies and cultures that live from the sea. Emphasizes the evolution of maritime adaptations associated with fishing and seafaring from more than 10,000 years ago through the present.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 1190 (3) Origins of Ancient Civilizations
Examines origins of the world’s first civilizations in Mesopotamia, Egypt, the Indus Valley, Mesoamerica, and the Andes. Covers archaeology of ancient cities, trade, economy, politics, warfare, religion, and ideology. Seeks insights into general processes of cultural evolution.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 1200 (3) Culture and Power
Compares contemporary sociopolitical systems across cultures, from non-Western tribal groups to modern states. Introduces students to anthropological approaches for understanding and analyzing political forces, processes, and institutions that affect cultures such as colonialism, warfare, violence, ethnicity, migration, and globalization.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 2010 (3) Introduction to Biological Anthropology
1
Detailed consideration of human biology, the place of humans in the animal kingdom, primate ecology and fossil evidence for human evolution. Required for ANTH majors.
Additional Information: GT Pathways: GT-SC2 -Natural Physical Sci:Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science
ANTH 2020 (3) Introduction to Biological Anthropology 2
Continuation of ANTH 2010. Emphasizes genetics, human variation, and microevolution.
**Recommended:** Prerequisite ANTH 2010.
**Additional Information:** GT Pathways: GT-SC2 - Natural Physical Sciences Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

ANTH 2030 (1) Laboratory in Biological Anthropology 1
Lab in human osteology and musculoskeletal system emphasizing comparative primate morphology, adaptation, and the fossil record documenting the natural history of primates. Meets the MAPS requirement for natural science: lab, when taken with ANTH 2010.
**Recommended:** Corequisite ANTH 2020.
**Additional Information:** GT Pathways: GT-SC1 - Natural Physical Sciences Crse w/ Req Lab
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab
MAPS Course: Natural Science Lab or Lab/Lec

ANTH 2040 (1) Laboratory in Biological Anthropology 2
Experiments and hands-on exercises designed to enhance understanding of the principles and concepts presented in ANTH 2020. One two-hour class per week.
**Recommended:** Corequisite ANTH 2020.
**Additional Information:** GT Pathways: GT-SC1 - Natural Physical Sciences Crse w/ Req Lab
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

ANTH 2070 (3) Bones, Bodies, and Disease
Studies the human skeleton and introduces techniques used to evaluate demographic variables. Applies techniques through evaluation of photographic images of an excellently preserved mummified skeletal population from ancient Nubia to reconstruct prehistoric patterns of adaptation and biocultural evolution. Offered through Continuing Education only.
**Recommended:** Prerequisite ANTH 2010.
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

ANTH 2100 (3) Introduction to Cultural Anthropology
Covers current theories in cultural anthropology and discusses the nature of field work. Explores major schools of thought and ethnographic fieldwork in a range of cultures studied by anthropologists. Required for Anthropology majors.
**Additional Information:** Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-Global Perspective

ANTH 2200 (3) The Archaeology of Human History
Where do we come from? This course provides a brief introduction to the practice of archaeology and then emphasizes the evidence for major events/transition in human history over the last 2.5 million years. Required for ANTH majors.
**Additional Information:** Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 2210 (1) Laboratory Course in Archaeological Methods
Studies analytical methods in archaeological research including those employed both in the field and in the laboratory. Deals with practical exercises illustrating many of the theoretical principles covered in ANTH 2200.
**Recommended:** Corequisite ANTH 2220.
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 2255 (3) Environmental Anthropology
Examines the impacts of human impacts on the planet from a cross-cultural perspective. This course will explore how different cultures have impacted their environments, and the diverse responses that cultures make to ecosystem changes. Also studies what different human groups have done, and are doing, to mitigate and adapt to ecological degradation, biodiversity loss, and climate change.

ANTH 3000 (3) Primate Behavior
Surveys naturalistic primate behavior. Emphasizes social behavior, behavioral ecology, and evolution as they lead to an understanding of human behavior.
**Requisites:** Requires a prerequisite course of ANTH 2010 or EBIO 1220 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior).
**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

ANTH 3005 (3) Dogs, Wolves and Human Evolution
Domestication of dogs from wolves started many tens of thousands of years ago. Explores the domestication process, wild wolf behavior, dog behavior, genetics of dog breeding, the cultural significance of dogs, the complexity of human-wolf interactions in North America and Europe and dog cognition in a larger comparative framework, including chimpanzees and other primates.
**Requisites:** Requires a prerequisite course of ANTH 2010 or EBIO 1210 (minimum grade C-).
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

ANTH 3009 (3) Modern Issues, Ancient Times
Considers issues of vital importance to humans, both now and in ancient times. Topics such as food, death, sex, family, literacy, or power are explored to consider how ancient societal norms and attitudes evolved and how they relate to modern culture. Draws on material and literary evidence to develop an understanding of the complexities of ancient life. Formerly ANTH 2009.
**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 3009
**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
**Additional Information:** Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 3010 (3) The Human Animal
Identifies genetic, anatomical, physiological, social, and behavioral characteristics humans share with other mammals and primates. Explores how these characteristics are influenced by modern culture.
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).
**Recommended:** Prerequisite ANTH 2010.
**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
ANTH 3100 (3) Africa: Peoples and Societies in Change  
Examines culture and politics in Africa through works by anthropologists and historians, as well as novels, films, and journalistic accounts. Special attention is devoted to the ways in which various African cultures have creatively and resiliently responded to the slave trade, European colonialism, and post-colonialism.  
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 3110 (3) Ethnography of Mexico and Central America  
A broad overview, focusing on Mexico and Guatemala. Major topics include ethnohistory, indigenous and mestizo peoples, and contemporary problems and issues.  
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 3119 (3) The Archaeology of Death  
Consider Death. It is a universal human phenomenon. Humans across time and space have caused, planned for, reacted to, and carried out death practices in extraordinarily different ways. Mortuary practice provides a fascinating insight into human history and culture in both the modern and ancient world.  
**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 3119  
**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 3160 (3) Peoples of the South Pacific  
Surveys traditional island cultures and contemporary changes in the Pacific, focusing on how the Pacific Islands were first settled, some of the great anthropologists who studied the islanders, and how current environmental changes, such as global warming, threaten the future existence of the islands.  
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 3170 (3) America: An Anthropological Perspective  
Historical and contemporary aspects of American life are considered from an anthropological perspective.  
**Additional Information:** Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 3180 (3) Gender, Culture, and Sexuality  
Focuses on gender, that is, the making of men and women, and how gender is culturally constructed in different societies. Gender describes many areas of behavior, feelings, thoughts, and fantasies that cannot be understood as primarily biologically produced. Sexuality and sexual systems are sometimes viewed as products of particular genderizing practices, but recent theories suggest that sexual systems themselves constitute gender.  
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).  
**Recommended:** Prerequisite ANTH 2100.  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 3300 (3) Elements of Religion  
Explores universal components of religion, as inferred from religions of the world, ranging from smaller-scale oral to larger-scale literate traditions.  
**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 3301  
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 3760 (3) Exploring Culture and Media in Southeast Asia  
Introduces students to the ethnographic method and critical media practices through immersion in the cultural politics of Indonesia. Students will learn to conduct ethnographic research and to use media-making as a research method. Students will learn the ethnography of Southeast Asia by focusing on the cultural diversity of Indonesia, with special attention to religious and political issues among marginalized groups.  
**Repeatable:** Repeatable for up to 9.00 total credit hours.  
**Grading Basis:** Letter Grade  
**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-Global Perspective

ANTH 4000 (3) Quantitative Methods in Anthropology  
Surveys ways of deriving meaning from anthropological data by numerical means, including but not confined to basic statistical procedures.  
**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5000  
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).  
**Recommended:** Prerequisites ANTH 2010 and ANTH 2020.  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4020 (3-6) Explorations in Anthropology  
Special topics in cultural and physical anthropology, as well as archaeology. Check with the department for semester offerings.  
**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5020  
**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.  
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4045 (3) Introduction to Museum Anthropology  
Traces the development of Anthropology and museums in America from late 19th century to present day. Students are encouraged to: explore museum theory and practice; think critically about the history of relations among Native Americans, Anthropology, and museums; consider the legacy of collecting and challenges of representing others; and, examine the interplay of Anthropology, material culture, and colonialism.  
**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5045 and MUSM 5045  
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences
ANTH 4050 (3) Anthropology of Jews and Judaism
Explores topics in Jewish anthropology. Uses the lens of anthropological inquiry to explore, discover and analyze different concepts within Jewish culture. Topics explored will include customs, religious practices, languages, ethnic and regional subdivisions, occupations, social composition, and folklore. Explores fundamental questions about the definition of Jewish identity, practices and communities.
Equivalent - Duplicate Degree Credit Not Granted: JWST 4050
Repeatability: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

ANTH 4060 (3) Nutrition and Anthropology
Overview of the evolution of human diet and ecological and cultural factors shaping modern diets. Introduces fundamentals of nutrition and analysis of nutritional status. Analyzes ecological, social, and cultural factors leading to hunger and undernutrition, as well as biological and behavioral consequences of undernutrition.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5060
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites ANTH 2010 and ANTH 2020 and EBIO 1210 and EBIO 1220 or EBIO 1030 and EBIO 1040.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ANTH 4070 (3) Methods in Biological Anthropology
Provides laboratory-based research experience in selected areas of biological anthropology. Research designs, methods and applications will be used to develop research skills. Students will read original research papers and carry out a research project of their own design. Area of emphasis within biological anthropology will depend on instructor.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5070
Repeatability: Repeatable for up to 6.00 total credit hours.
Recommended: Prerequisites ANTH 2010 and ANTH 2020 and ANTH 2030 and ANTH 2040 and ANTH 4000 and students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ANTH 4080 (3) Advanced Biological Anthropology
Selected topics in physical anthropology emphasizing faculty specialties. Topics may include population genetics and its application to understanding modern human diversity, human population biology, and primate ecology and evolution. Check with department for semester offerings.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5120
Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ANTH 2010 or ANTH 2020 or EBIO 1210 or EBIO 1220.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ANTH 4110 (3) Human Evolutionary Biology
Detailed consideration of the fossil evidence for human evolution. Covers the discovery of important fossils and interpretations; descriptive information about the fossils; and data and theory from Pleistocene studies relating to ecology, ecological and behavioral data on modern apes and molecular studies that have bearing on the study of human evolution.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5110
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ANTH 4120 (3) Advanced Biological Anthropology
Detailed study of the human skeleton with special attention to health and demographic conditions in prehistoric cultures and the evaluation of physical characteristics and genetic relationships of prehistoric populations.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5130
Recommended: Prerequisites ANTH 2010 and ANTH 2020 and ANTH 4000 and students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ANTH 4125 (3) Evolution and the Human Life Cycle: A Primate Life History Perspective
Surveys primate biology, behavior and ecology using a life history approach. Using a comparative approach, explores life history as mammals, as primates and as humans by focusing on evolutionary decisions that occur during different life stages.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5125
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ANTH 4129 (3) Aegean Art and Archaeology
Detailed study of the cultures of prehistoric Greece, the Cycladic Islands and Crete, their art and archaeology and their history within the broader context of the eastern Mediterranean, from earliest human settlement to the collapse of the Bronze Age at about 1100 B.C.E. Emphasis is on palace states.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5129 and ARTH 4129 and CLAS 4129 and CLAS 5129
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

ANTH 4130 (3) Advanced Osteology
Detailed study of the human skeleton with special attention to health and demographic conditions in prehistoric cultures and the evaluation of physical characteristics and genetic relationships of prehistoric populations.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5130
Recommended: Prerequisites ANTH 2010 and ANTH 2020 and ANTH 4000 and students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ANTH 4140 (3) Early Hominin Paleoecology
Explores current thinking about the diets, environments and lives of early human ancestors and their close kin. Strong emphasis on the methods used to construct such knowledge.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5140
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ANTH 4170 (3) Primate Evolutionary Biology
Focuses on the fossil record of primates excluding the Hominini). Special emphasis is placed on delineating the origins of the order Primates, the origins of the primate suborders Strepsirhini and Haplorhini and the adaptations of extinct primates in light of our understanding of the modern primate adaptive radiations.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5170
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ANTH 2010 or EBIO 1210.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
ANTH 4180 (3) Anthropological Perspectives: Contemporary Issues
Students read, discuss, and write critical evaluations of contemporary publications in anthropology. Identifies basic themes that inform major anthropological perspectives. Students then bring these perspectives to bear on issues currently facing the human species.
Repeateable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4210 (3) Southwestern Archaeology
Explores the prehistory of the American Southwest from the earliest entry of humans into the area to the Spanish entrada. Focuses on important themes in cultural development: the adoption of agricultural strategies, sedentism, population aggregation, population movement, and social complexity.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5210
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ANTH 2200.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4220 (3) From Olmec to Aztec: The Archaeology of Mexico
Examines the archaeology of Mexico from the initial peopling of the Americas to the Spanish conquest of the Aztec empire. Studies origins of complex societies; ancient Mexican cities, states and empires; religion and politics; trade and interaction; ecology and economy; and social organization.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5220
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ANTH 2200.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4224 (3) Archaeology of the Maya and Their Neighbors
Begins with the environment and describes the earliest inhabitants and the Olmec civilization, then shifts to the earliest Maya and the emergence and collapse of classic Maya civilization. Compares and contrasts the societies of lower Central America.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5224
Recommended: Prerequisite ANTH 2200.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4240 (3) Geoarchaeology
Applies geological principles and instruments to help solve archaeological problems. Focuses on site formation processes, soils, stratigraphy, environments, dating, remote sensing and geophysical exploration. Environmental and ethical considerations are included.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5240
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ANTH 2200.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ANTH 4245 (3) Ceramics in Archaeology
Examines how archaeologists use ceramics to reconstruct the past. Topics include: the relationship between form and function; typology and classification; chronology and seriation; compositional analysis; production and exchange; social, cognitive and ideological aspects of style; and ethnarchaeological studies of pottery use in contemporary societies. Includes two hours of lecture and two-hours of hands-on laboratory practicum per week.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5245
Requisites: Requires prerequisite of ANTH 2200 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4270 (3) Plains Archaeology
Archaeological evidence for Native American ways of life on the North American Great Plains from the initial peopling of the region into the 19th century.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5270
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ANTH 2200.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4330 (3) Human Ecology: Archaeological Aspects
Surveys archaeological approaches to ecology, economy and landscape: glaciation, geomorphology and other physical processes creating and affecting sites and regions; environmental reconstruction; theories of human-environment interaction; landscape formation by forager, agricultural and complex societies; and ideologically structured landscapes.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5330
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ANTH 2200.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4340 (3) Archaeological Method and Theory
Surveys archaeological theories and methods within the context of the history of archaeology. Includes archaeological approaches to data recovery, analysis, and interpretation as well as an overview of cultural resources management and ethical issues in contemporary archaeology.
Recommended: Prerequisites ANTH 2200 and students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4350 (2-6) Archaeological Field and Laboratory Research
Students participate in archaeological field research or conduct laboratory analysis of archaeological materials and data. Students work with faculty on archaeological research projects with a field or lab focus, depending on the project undertaken.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5350
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: Prerequisites ANTH 2200 and students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4380 (3) Lithic Analysis and Replication
Uses diversity of approaches to the analysis of ancient stone tools, including fracture mechanics, lithic technology, materials, heat treatment and functional analysis. Percussion and pressure-flaking experiments are performed.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5380
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ANTH 2200.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
ANTH 4390 (3) Research Methods in Archaeology I
Method and theory of archaeology, emphasizing the interpretation of materials and data and the relationship of archaeology to other disciplines. Instructor consent required.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5390
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ANTH 2200.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4465 (3) The Archaeology of Inequality
Examines the theoretical and archaeological literature to understand how inequality develops, how it is maintained over time, and how it is negated. Presents an understanding of, and critically evaluates, the most prominent paradigms for understanding socially unequal relationships, and considers the vital role archaeology plays in understanding inequality.
Grading Basis: Letter Grade

ANTH 4470 (3) Collections Research Practicum in Cultural Anthropology
Designed as a practicum, introduces students to research and practice in museum anthropology, utilizing the extensive anthropology collections at CU-Boulder Museum. Students will gain skills in primary and secondary research, collections and object research and narrative story development for the exhibition of anthropological material culture.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5470 and MUSM 4912 and MUSM 5912
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4500 (3) Cross-Cultural Aspects of Socioeconomic Development
Examines goals of international agencies that support development in underdeveloped countries. Anthropological perspective is provided for such issues as urban planning, health care and delivery, population control, rural development and land reform.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5500
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4505 (3) Globalization and Transnational Culture
Covers the historical foundations for contemporary global change, addressing colonialism, global outsourcing, and cultural imperialism, with a particular emphasis on gender, class, and consumerism.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ANTH 2100.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Asia Content

ANTH 4510 (3) Theoretical Foundations of Sociocultural Anthropology
Critically examines the pivotal schools of 20th century social theory that have shaped modern sociocultural anthropology, including the ideas of cultural evolutionism, Marxism, Durkheim, Weber, Freud, structuralism, postmodernism and contemporary anthropological approaches. Includes primary readings and seminar-style discussion.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5530
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ANTH 2100.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4525 (3) Global Islams
Examines the historical formation of Islam in Indonesia and Southeast Asia so as to situate contemporary Islamic practices in a global context.
Recommended: Prerequisite ANTH 2100.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-Global Perspective
ANTH 4620 (3) Nationalism and Cultural Citizenship
Explores the nature of ethnic conflict, nationalism, and cultural citizenship in different contexts, including the United States. Is the nation-state dead? What effect do extranational and transnational organizations/institutions (e.g., European Union) have on the development of nationalism? Through the exploration of contemporary theory and case studies, this class will address these important contemporary concerns.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ANTH 2100.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4630 (3) Nomadic Peoples of East Africa
Examines the issues of current concern in the study of East African pastoral peoples. First half of the course is devoted to historical perspectives and the second half explores the transition from subsistence to market oriented economies.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5630
Recommended: Prerequisite students with 57-180 credits (Junior or Senior) Anthropology (ANTH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4690 (3-6) Anthropology of Tibet
Explores the culture of Tibet in both historical and thematic manners, considering the long-term development of Tibetan cultural practices and institutions as well as many of the abrupt changes introduced to Tibet in the 20th century. Topics covered include region, politics, gender, warfare, poetry and literature, and life under Chinese rule and as refugees around the world.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) Anthropology (ANTH) majors only.
Recommended: Prerequisite ANTH 2100.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4700 (3) Practicing Anthropology
Learn ethnographic methods in the classroom and implement these skills in placements with community organizations, where students pursue an applied research project. This course teaches students how to use anthropological theory and methods to investigate social problems, and to consider how ethnographic research techniques can be applied to positively impact society.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5700
Requisites: Requires prerequisite course of ANTH 2100 (minimum grade B). Restricted to students with 87-180 credits (Junior or Senior) Anthropology (ANTH) majors only.
Grading Basis: Letter Grade

ANTH 4710 (3) Departmental Honors in Anthropology 1
Course work built around theme of research design as a means of integrating previous training in the field of anthropology as well as providing an opportunity to perform creative scientific investigations. Prepares students to write an honors thesis in ANTH 4720. Required of students doing Anthropology departmental honors.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sciences Honors Course

ANTH 4730 (3) Latin American Politics and Culture through Film and Text
Introduces students to the political cultures and societies of Latin America. Through historical and ethnographic text and documentary and non-documentary cinema, this course will explore class relations, ideology and resistance from the conquest to the present.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5730
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ANTH 2100.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4735 (3) Contemporary Cuban Culture: Race, Gender and Power
Ground students' understanding of contemporary Cuba within the global context. How do those outside the island imagine Cuba and why? What are the realities? In a world of U.S. dominated globalization, only recently have we relaxed a forceful economical blockade on the island: what does the U.S. mean in the Cuban imaginary, both in the past and present? To attend to global processes as they affect local (Cuban) experience, texts from anthropology, history, poetry, literature, film and music will be drawn upon. Students will learn how long-standing patterns regarding race, color, class and gender relations have evolved into the socialist and now the "post-socialist" context.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5735
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4740 (3) Peoples and Cultures of Brazil
Thematically surveys theoretical and ethnographic issues that have been important in understanding Brazil. Read and write critically about textual and visual representations of Brazil presented in the course.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites ANTH 2100 and three or more cultural anthropology courses.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4745 (3) Science, Technology and Society
Explores the cultural work of science and technology in contemporary societies. The course will focus on anthropological studies of technoscientific works ranging from high-energy particle physics and marine biology to hackathons and space exploration. Discussion topics include the relationship between science, technology and political power; scientific controversies; paradigm shifts and scientific revolutions; and ideas of objectivity, representation and abstraction.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5745
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4750 (3) Culture and Society in South Asia
Intensive analysis of major issues in anthropological research on South Asia (India, Pakistan, Bangladesh, Nepal and Sri Lanka), including kinship, gender, marriage, caste system, religion and ritual, ethnic conflict and social change.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5750
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ANTH 2100.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Asia Content
ANTH 4755 (3) Cultures of Expertise: Science, Power and Knowledge
Examines the expertise as a cultural category. Students will consider the historical and cultural contexts of various forms of expertise and the social roles of experts from car mechanics to civil engineers, doctors and scientists. Students will be given opportunities to reflect analytically on their own experiences with increasingly specialized education as they develop "professional vision" in their chosen fields.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5755
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4760 (3) Ethnography of Southeast Asia and Indonesia
Introduces the historical, political, and cultural dimensions of Southeast Asia, focusing primarily on Malaysia, the Philippines, Singapore and Indonesia, with some coverage of mainland Southeast Asia.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5760
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ANTH 2100.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Asia Content

ANTH 4770 (3) Anthropology of Tourism
Introduces students to anthropological theories on tourism and considers those theories in the contexts of the varied sites and forms of tourism practiced around the world today. We will ask: why do people tour? Where do they go? And most centrally: how do the hosts to tourism feel about these outside visitors? Having been exposed to questions of globalization, development, belonging, race, gender, and desire, students will then be asked to reflect upon and theorize their own touristic experiences.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ANTH 2100.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4800 (3) Language and Culture
Principles of language structure and how language and culture interrelate, how language and language use are affected by culture and how culture may be affected by use of, or contact with, particular languages.
Equivalent - Duplicate Degree Credit Not Granted: LING 4800
Recommended: Prerequisites ANTH 2100 or LING 1000 or LING 2400 and students with 57-180 credits (Junior or Senior) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ANTH 4840 (1-8) Independent Study
For upper-division undergraduate students.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

ANTH 4910 (1-3) Teaching Anthropology
Practicum by special arrangement only. Students learn to teach anthropology by serving as recitation leaders or tutors in introductory courses or as small group leaders in advanced courses.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

ANTH 4930 (1-6) Anthropology Internship
Provides academically supervised opportunities for junior and senior anthropology majors to work in public and private sectors on projects related to students’ career goals. Relates classroom theory to practice. Requires at least 48 hours on the job per credit hour and evidence (paper, employer evaluation, work journal) of significant learning.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 5930
Repeatable: Repeatable for up to 9.00 total credit hours.
Recommended: Prerequisites ANTH 2100 and ANTH 2200 and students with 57-180 credits (Junior or Senior) Anthropology majors, with a minimum 3.25 GPA.

ANTH 5000 (3) Quantitative Methods in Anthropology
Surveys ways of deriving meaning from anthropological data by numerical means, including but not confined to basic statistical procedures.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4000
Requisites: Restricted to graduate students only.

ANTH 5020 (3) Explorations in Anthropology
Special topics in cultural and physical anthropology, as well as archaeology. Check with the department for semester offerings.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4020
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

ANTH 5045 (3) Introduction to Museum Anthropology
Traces the development of Anthropology and museums in America from late 19th century to present day. Students are encouraged to: explore museum theory and practice; think critically about the history of relations among Native Americans, Anthropology, and museums; consider the legacy of collecting and challenges of representing others; and, examine the interplay of Anthropology, material culture, and colonialism.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4045 and MUSM 5045
Requisites: Restricted to graduate students only.

ANTH 5060 (3) Nutrition and Anthropology
Overview of the evolution of human diet and ecological and cultural factors shaping modern diets. Introduces fundamentals of nutrition and analysis of nutritional status. Analyzes ecological, social, and cultural factors leading to hunger and undernutrition, as well as biological and behavioral consequences of undernutrition.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4060
Requisites: Restricted to graduate students only.

ANTH 5070 (3) Methods in Biological Anthropology
Provides laboratory-based research experience in selected areas of biological anthropology. Research designs, methods and applications will be used to develop research skills. Students will read original research papers and carry out a research project of their own design. Area of emphasis within biological anthropology will depend on instructor.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4070
Repeatable: Repeatable for up to 6.00 total credit hours.

ANTH 5110 (3) Human Evolutionary Biology
Detailed consideration of the fossil evidence for human evolution. Covers the discovery of important fossils and interpretations; descriptive information about the fossils; and data and theory from Pleistocene studies relating to ecology, ecological and behavioral data on modern apes and molecular studies that have bearing on the study of human evolution.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4110
ANTH 5120 (3) Advanced Biological Anthropology
Selected topics in physical anthropology emphasizing faculty specialties. Topics may include population genetics and its application to understanding modern human diversity, human population biology, and primate ecology and evolution. Check with department for semester offerings.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4120
Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

ANTH 5125 (3) Evolution and the Human Life Cycle: A Primate Life History Perspective
Surveys primate biology, behavior and ecology using a life history approach. Using a comparative approach, explores life history as mammals, as primates and as humans by focusing on evolutionary decisions that occur during different life stages.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4125
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

ANTH 5129 (3) Aegean Art and Archaeology
Detailed study of the cultures of prehistoric Greece, the Cycladic Islands and Crete, their art and archaeology and their history within the broader context of the eastern Mediterranean, from earliest human settlement to the collapse of the Bronze Age at about 1100 B.C.E. Emphasis is on palace states.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4129 and ARTH 4129 and CLAS 4129 and CLAS 5129

ANTH 5130 (3) Advanced Osteology
Detailed study of the human skeleton with special attention to health and demographic conditions in prehistoric cultures and the evaluation of physical characteristics and genetic relationships of prehistoric populations.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4130

ANTH 5150 (3) Human Ecology: Biological Aspects
Discusses role of human populations in local ecosystems, factors affecting population growth, and human adaptability to environmental stress. Detailed consideration of case studies of small-scale societies in different ecosystems.

ANTH 5160 (3) Early Hominin Paleoecology
Explores current thinking about the diets, environments and lives of early human ancestors and their close kin. Strong emphasis on the methods used to construct such knowledge.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4160
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

ANTH 5170 (3) Primate Evolutionary Biology
Focuses on the fossil record of primates excluding the Hominini). Special emphasis is placed on delineating the origins of the order Primates, the origins of the primate suborders Strepsirhini and Haplorhini and the adaptations of extinct primates in light of our understanding of the modern primate adaptive radiations.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4170

ANTH 5210 (3) Southwestern Archaeology
Explores the prehistory of the American Southwest from the earliest entry of humans into the area to the Spanish entrada. Focuses on important themes in cultural development: the adoption of agricultural strategies, sedentism, population aggregation, population movement, and social complexity.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4210

ANTH 5220 (3) From Olmec to Aztec: The Archaeology of Mexico
Examines the archaeology of Mexico from the initial peopling of the Americas to the Spanish conquest of the Aztec empire. Studies origins of complex societies; ancient Mexican cities, states and empires; religion and politics; trade and interaction; ecology and economy; and social organization.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4220
Requisites: Restricted to graduate students only.

ANTH 5224 (3) Archaeology of the Maya and Their Neighbors
 Begins with the environment and describes the earliest inhabitants and the Olmec civilization, then shifts to the earliest Maya and the emergence and collapse of classic Maya civilization. Compares and contrasts the societies of lower Central America.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4224
Requisites: Restricted to graduate students only.

ANTH 5240 (3) Geoarchaeology
Applies geological principles and instruments to help solve archaeological problems. Focuses on site formation processes, soils, stratigraphy, environments, dating, remote sensing and geophysical exploration. Environmental and ethical considerations are included.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4240
Requisites: Restricted to graduate students only.

ANTH 5245 (3) Ceramics in Archaeology
Examines how archaeologists use ceramics to reconstruct the past. Topics include: the relationship between form and function; typology and classification; chronology and seriation; compositional analysis; production and exchange; social, cognitive and ideological aspects of style; and ethnoarchaeological studies of pottery use in contemporary societies. Includes two hours of lecture and two hours of hands-on laboratory practicum per week.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4245

ANTH 5270 (3) Plains Archaeology
Archaeological evidence for Native American ways of life on the North American Great Plains from the initial peopling of the region into the 19th century.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4270

ANTH 5330 (3) Human Ecology: Archaeological Aspects
Surveys archaeological approaches to ecology, economy and landscape: glaciation, geomorphology and other physical processes creating and affecting sites and regions; environmental reconstruction; theories of human-environment interaction; landscape formation by forager, agricultural and complex societies; and ideologically structured landscapes.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4330
Requisites: Restricted to graduate students only.

ANTH 5345 (3) Archaeological Theory
Provides an advanced introduction to the history of archaeological theory from the late 19th century to the present. Topics include culture history, cultural evolution, systems ecology, behavioral archaeology, analogy and middle range theory, collective action, ecology, agency, practice, gender, identity, landscape, epistemology, materiality and memory.
Requisites: Restricted to graduate students only.

ANTH 5350 (2-6) Archaeological Field and Laboratory Research
Students participate in archaeological field research or conduct laboratory analysis of archaeological materials and data. Students work with faculty on archaeological research projects with a field or lab focus, depending on the project undertaken.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4350
Repeatability: Repeatable for up to 6.00 total credit hours.
ANTH 5380 (3) Lithic Analysis and Replication
Uses diversity of approaches to the analysis of ancient stone tools, including fracture mechanics, lithic technology, materials, heat treatment and functional analysis. Percussion and pressure-flaking experiments are performed.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4380
Requisites: Restricted to graduate students only.

ANTH 5390 (3) Research Methods in Archaeology 1
Method and theory of archaeology, emphasizing the interpretation of materials and data and the relationship of archaeology to other disciplines.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4390
Requisites: Restricted to graduate students only.

ANTH 5400 (3) Research Methods in Archaeology 2
Focuses on the design of research including constructing empirical arguments and testing them, data gathering, site formation processes, field strategies (archival resources, mapping, field survey, surface collecting/recording, excavation and preliminary analysis) and artifact analysis as it relates to research design.

ANTH 5460 (3) Archaeology and Contemporary Society
Explores the intellectual climate in which archaeology is practiced and how it influences archaeological research and reconstruction, laws, regulations, and ethical issues. Explores public use of and engagement with archaeology.
Requisites: Restricted to graduate students only.

ANTH 5470 (3) Collections Research Practicum in Cultural Anthropology
Designed as a practicum, introduces students to research and practice in museum anthropology, utilizing the extensive anthropology collections at CU-Boulder Museum. Students will gain skills in primary and secondary research, collections and object research and narrative story development for the exhibition of anthropological material culture.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4470 and MUSM 4912 and MUSM 5912
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade

ANTH 5500 (3) Cross-Cultural Aspects of Socioeconomic Development
Examines goals of international agencies that support development in underdeveloped countries. Anthropological perspective is provided for such issues as urban planning, health care and delivery, population control, rural development and land reform.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4500
Requisites: Restricted to graduate students only.

ANTH 5530 (3) Theoretical Foundations of Sociocultural Anthropology
Critically examines the pivotal schools of 20th century social theory that have shaped modern sociocultural anthropology, including the ideas of cultural evolutionism, Marxism, Durkheim, Weber, Freud, structuralism, postmodernism and contemporary anthropological approaches. Includes primary readings and seminar-style discussion.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4530
Requisites: Restricted to graduate students only.

ANTH 5570 (3) Anthropology of Fishing
Examines fishing methods, peoples, societies and cultures, emphasizing anthropology's role in shaping fisheries management and development policy.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4570
Requisites: Restricted to graduate students only.

ANTH 5605 (3) Anthropology of Neuroscience
Examines the connections between the production and social uptake of neuroscientific knowledge, and explores how transformations in neuroscience shape understandings of human nature. Focusing on anthropological, philosophical, and popular literature, this course addresses the following themes through a cultural and anthropological lens: subjectivity and neuroimaging, "disability" and "neurodiversity," child development, gender, "risk" and neoliberal governance, and the production of scientific expertise.
Grading Basis: Letter Grade

ANTH 5610 (3) Medical Anthropology
Examines health, illness, disease and treatment across a diversity of cases, all of which involve political economic inequalities, individual and collective experiences of medical systems and the historical and contemporary treatment of distinct populations. A demanding upper-level cultural anthropology course in the field of Medical Anthropology, a subfield of cultural anthropology, designed for advanced undergraduate students and early graduate students with an emphasis on the intersections of science, medicine and populations.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4610

ANTH 5630 (3) Nomadic Peoples of East Africa
Examines the issues of current concern in the study of East African pastoral peoples. First half of the course is devoted to historical perspectives and the second half explores the transition from subsistence to market oriented economies.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4630
Requisites: Restricted to graduate students only.

ANTH 5700 (3) Practicing Anthropology
Learn ethnographic methods in the classroom and implement these skills in placements with community organizations, where students pursue an applied research project. This course teaches students how to use anthropological theory and methods to investigate social problems, and to consider how ethnographic research techniques can be applied to positively impact society.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4700
Requisites: Restricted to Anthropology (ANTH) graduate students only.
Grading Basis: Letter Grade

ANTH 5730 (3) Latin American Politics and Culture through Film and Text
Introduces students to the political cultures and societies of Latin America. Through historical and ethnographic text and documentary and non-documentary cinema, this course will explore class relations, ideology and resistance from the conquest to the present.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4730

ANTH 5735 (3) Contemporary Cuban Culture: Race, Gender and Power
Ground students' understanding of contemporary Cuba within the global context. How do those outside the island imagine Cuba and why? What are the realities? In a world of U.S. dominated globalization, only recently have we relaxed a forceful economical blockade on the island: what does the U.S. mean in the Cuban imaginary, both in the past and present? To attend to global processes as they affect local (Cuban) experience, texts from anthropology, history, policy, literature, film and music will be drawn upon. Students will learn how long-standing patterns regarding race, color, class and gender relations have evolved into the socialist and now the "post-socialist" context.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4735
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
ANTH 5745 (3) Science, Technology and Society
Explores the cultural work of science and technology in contemporary societies. The course will focus on anthropological studies of technoscientific works ranging from high-energy particle physics and marine biology to hackathons and space exploration. Discussion topics include the relationship between science, technology and political power; scientific controversies; paradigm shifts and scientific revolutions; and ideas of objectivity, representation and abstraction.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4745
Grading Basis: Letter Grade

ANTH 5750 (3) Culture and Society in South Asia
Intensive analysis of major issues in anthropological research on South Asia (India, Pakistan, Bangladesh, Nepal and Sri Lanka), including kinship, gender, marriage, caste system, religion and ritual, ethnic conflict and social change.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4750
Additional Information: Departmental Category: Asia Content

ANTH 5755 (3) Cultures of Expertise: Science, Power and Knowledge
Examines the expertise as a cultural category. Students will consider the historical and cultural contexts of various forms of expertise and the social roles of experts from car mechanics to civil engineers, doctors and scientists. Students will be given opportunities to reflect analytically on their own experiences with increasingly specialized education as they develop "professional vision" in their chosen fields.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4755
Grading Basis: Letter Grade

ANTH 5760 (3) Ethnography of Southeast Asia and Indonesia
Introduces the historical, political, and cultural dimensions of Southeast Asia, focusing primarily on Malaysia, the Philippines, Singapore and Indonesia, with some coverage of mainland Southeast Asia.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4760
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Asia Content

ANTH 5770 (3) Core Course---Archaeology
Provides a graduate-level overview of analytic issues relevant to all phases of archaeological research and of the diversity of theoretical perspectives within the field as a whole. Course is required for all first-year graduate students in anthropology.
Requisites: Restricted to Anthropology (ANTH) graduate students only.

ANTH 5780 (3) Core Course-Cultural Anthropology
Provides an intense, graduate-level introduction to the discipline of cultural anthropology, with an emphasis upon critically assessing those methods, theories, and works that have shaped the field from the 19th century to the present time. Required of all first-year graduate students in anthropology.
Requisites: Restricted to Anthropology (ANTH) graduate students only.

ANTH 5785 (3) Advanced Seminar in Cultural Anthropology
Details the history of theory and practice in contemporary cultural anthropology, considering the development of major theoretical schools of thought and the integration of general social theory within anthropology. Required of masters students in cultural anthropology.
Requisites: Restricted to Anthropology (ANTH) graduate students only.

ANTH 5790 (3) Core Course---Biological Anthropology
Discusses how biological anthropologists use evidence and concepts from evolutionary theory, human biology, and ecology to understand the evolution, diversification, and adaptation of human populations. Required of all first-year graduate students in anthropology.
Requisites: Restricted to Anthropology (ANTH) graduate students only.

ANTH 5795 (3) Proseminar in Anthropology
Introduces incoming first-year graduate students to the history and current state of scholarship in anthropology from across the subdisciplines, through introduction to the research of individual faculty in the department. Required of all incoming graduate students.
Requisites: Restricted to graduate students only.

ANTH 5840 (1-6) Guided Study
Directed individual research based on a specific area of specialization. Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

ANTH 5930 (1-6) Anthropology Internship
Provides academically supervised opportunities graduate students to work in public and private sectors on projects related to students' career goals. Requires classroom theory to practice. Requires at least 48 hours on the job per credit hour and evidence (paper, employer evaluation, work journal) of significant learning.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 4930
Repeatable: Repeatable for up to 9.00 total credit hours.

ANTH 6150 (3) Critical and Theoretical Issues in Museums
Investigates key problems facing museum institutions and studies the staging and representation of historical knowledge, the ethics of collecting and display, the changing nature and uses of historical evidence and relations between curatorial practice, collecting and field work. Critically examines different approaches to museums and museology in various disciplines, both past and present.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 6150 and HIST 6150
Requisites: Requires prerequisite course of MUSM 5011 (minimum grade D-). Restricted to graduate students only.

ANTH 6320 (3) Linguistic Anthropology
Serves as an advanced introduction to the empirical and theoretical foundations of contemporary linguistic anthropology, with special emphasis on the ways in which culture and society emerge semiotically through language and discourse.
Equivalent - Duplicate Degree Credit Not Granted: LING 6320
Requisites: Restricted to graduate students only.

ANTH 6500 (3) Issues in Indigenous Languages
Addresses socio-cultural issues concerning indigenous languages, including human rights, intellectual property, language endangerment and maintenance, identity, linguistic relativity, sense of place.
Equivalent - Duplicate Degree Credit Not Granted: LING 6500
Grading Basis: Letter Grade

ANTH 6940 (1) Master's Candidate for Degree
Grading Basis: Pass/Fail

ANTH 6950 (1-6) Master's Thesis
Repeatable: Repeatable for up to 6.00 total credit hours.

ANTH 7000 (3) Seminar: Current Research Topics in Cultural Anthropology
Discusses current research and theoretical issues in the field of cultural anthropology.
Requisites: Restricted to graduate students only.
ANTH 7010 (3) Seminar: Contemporary Theory in Cultural Anthropology
Addresses current theoretical perspectives in cultural anthropology and controversies surrounding them. Discusses science, history, interpretation, and postmodernism. Includes the relationship between theory and method as well as the production of ethnography.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

ANTH 7020 (3) Seminar: Physical Anthropology
In-depth discussion of selected topics in physical anthropology with emphasis on recent research.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

ANTH 7030 (3) Seminar: Archaeology
Intensive examination of selected theoretical or methodological topics in archaeology. Topics vary with current research interests. May be repeated up to 9 total credit hours.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.

ANTH 7140 (3) Seminar: Archaeology of Selected Areas
Considers archaeology of a specified area, either geographical or topical. Areas selected in accordance with current research interests. May be repeated up to 9 total credit hours.
Repeatable: Repeatable for up to 9.00 total credit hours.

ANTH 7300 (3) Seminar: Research Methods in Cultural Anthropology
Repeatable: Repeatable for up to 6.00 total credit hours.

ANTH 7600 (3) Human Ecology: Cultural Aspects
Reviews and critically examines the major theoretical perspectives for understanding the relationship between human social behavior and the environment developed in the social sciences, especially anthropology, over the last 100 years. Formerly ANTH 5600.

ANTH 7620 (3) Seminar: Ethnography and Cultural Theory
Explores how ethnographic writing has evolved over the past century to incorporate different forms of cross-cultural representation and to accommodate new theoretical paradigms. Includes ethnographic authority and reflexivity, as well as embedded theories and blurred genres of cultural research.

ANTH 7840 (1-6) Independent Research
Research aimed at developing a solution to an originally conceived research problem.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

ANTH 8990 (1-10) Doctoral Dissertation
All doctoral students must register for no fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the graduate school section.
Repeatable: Repeatable for up to 30.00 total credit hours.

Applied Math (APPM)

Courses

APPM 1235 (4) Pre-Calculus for Engineers
Prepares students for the challenging content and pace of the calculus sequence required for all engineering majors. Covers algebra, trigonometry and selected topics in analytical geometry. Prepares students for the calculus courses offered for engineering students. Requires students to engage in rigorous work sessions as they review topics that they must be comfortable with to pursue engineering course work. Structured to accustom students to the pace and culture of learning encountered in engineering math courses. For more information about the math placement referred to in the "Enrollment Requirements", please contact your academic advisor. Formerly GEEN 1235.
Equivalent - Duplicate Degree Credit Not Granted: MATH 1021 or MATH 1150
Requisites: Requires an ALEKS math exam taken in 2016 or earlier, or placement into pre-calculus based on your admissions data and/or CU Boulder coursework.

APPM 1340 (4) Calculus 1 with Algebra, Part A
Studies selected topics in analytical geometry and calculus: rates of change of functions, limits, derivatives and their applications. This course and APPM 1345 together are equivalent to APPM 1350. The sequence of this course and APPM 1345 is specifically designed for students whose manipulative skills in the techniques of high school algebra and precalculus may be inadequate for APPM 1350. For more information about the math placement referred to in the "Enrollment Requirements", please contact your academic advisor.
Requisites: Requires prerequisite course of APPM 1235 or MATH 1021 or MATH 1150 or MATH 1160 (minimum grade C-).

APPM 1345 (4) Calculus 1 with Algebra, Part B
Continuation of APPM 1340. Studies selected topics in calculus: derivatives and their applications, integration, differentiation and integration of transcendental functions. Algebraic and trigonometric topics are studied throughout, as needed.
Equivalent - Duplicate Degree Credit Not Granted: APPM 1350 or ECON 1088 or MATH 1081 or MATH 1300 or MATH 1310 or MATH 1330
Requisites: Requires prerequisite course of APPM 1340 (minimum grade C-).
APPM 1350 (4) Calculus 1 for Engineers
Topics in analytical geometry and calculus including limits, rates of change of functions, derivatives and integrals of algebraic and transcendental functions, applications of differentiations and integration. Students who have already earned college credit for calculus 1 are eligible to enroll in this course if they want to solidify their knowledge base in calculus 1. For more information about the math placement referred to in the “Enrollment Requirements”, contact your academic advisor.
Equivalent - Duplicate Degree Credit Not Granted: APPM 1345 or ECON 1088 or MATH 1081 or MATH 1300 or MATH 1310 or MATH 1330
Requisites: Requires prerequisite course of APPM 1235 or MATH 1021 or MATH 1150 or MATH 1160 or MATH 1300 (minimum grade C-) or an ALEKS math exam taken in 2016 or earlier, or placement into calculus based on your admissions data and/or CU Boulder coursework.

APPM 1360 (4) Calculus 2 for Engineers
Continuation of APPM 1350. Focuses on applications of the definite integral, methods of integration, improper integrals, Taylor's theorem, and infinite series.
Equivalent - Duplicate Degree Credit Not Granted: MATH 2300
Requisites: Requires prerequisite course of APPM 1345 or APPM 1350 or MATH 1300 (minimum grade C-).
APPM 1390 (1) A Game for Calculus
Coaches students to implement study strategies geared specifically toward APPM Calculus in a structured, supportive, small group environment. Department consent required.
Repeatable: Repeatable for up to 3.00 total credit hours.

APPM 2350 (4) Calculus 3 for Engineers
Covers multivariable calculus, vector analysis, and theorems of Gauss, Green, and Stokes.
Equivalent - Duplicate Degree Credit Not Granted: MATH 2400
Requisites: Requires prerequisite course of APPM 1360 or MATH 2300 (minimum grade C-).
APPM 2360 (4) Introduction to Differential Equations with Linear Algebra
Equivalent - Duplicate Degree Credit Not Granted: both MATH 2130 and MATH 3430
Requisites: Requires prerequisite course of APPM 1360 or MATH 2300 (minimum grade C-).
APPM 2450 (1) Calculus 3 Computer Lab
Selected topics in analytic geometry and calculus with a focus on symbolic computation using Mathematica.
Requisites: Requires a corequisite course of APPM 2350.
Grading Basis: Pass/Fail

APPM 2460 (1) Differential Equations Computer Lab
Selected topics in differential equations and linear algebra with a focus on symbolic computation using MATLAB.
Requisites: Requires enrollment in a corequisite course of APPM 2360.
Grading Basis: Pass/Fail

APPM 2720 (1-3) Open Topics in Lower Division Applied Mathematics
Provides a vehicle for the development and presentation of new topics that are accessible to lower division Applied Mathematics students. These topics have the potential to be incorporated into the core APPM curriculum.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of APPM 1350 or MATH 1300 (minimum grade C-).
Grading Basis: Letter Grade

APPM 2750 (4) Java: Training, Mathematical Algorithms, and Mobile Apps
Preparatory course for Java programming. Provides necessary background for Java language: basic object-oriented concepts, analysis, and design. Learn to create Java applets, applications and mobile apps, create graphic context, and identify the key features of Java foundation classes as well as other Java-related technology. Material is taught in the context of mathematical algorithms from calculus. Department enforced prerequisite, knowledge of a programming language.
Requisites: Requires prerequisite course of APPM 1350 or MATH 1300 (minimum grade C-).

APPM 3010 (3) Chaos in Dynamical Systems
Introduces undergraduate students to chaotic dynamical systems. Topics include smooth and discrete dynamical systems, bifurcation theory, chaotic attractors, fractals, Lyapunov exponents, synchronization and networks of dynamical systems. Applications to engineering, biology and physics will be discussed.
Requisites: Requires prerequisite course of APPM 2360 or MATH 3430 (minimum grade C-).

APPM 3050 (3) Scientific Computing in Matlab
Topics covered include: approximations in computing, computer arithmetic, interpolation, matrix computations, nonlinear equations, optimization, and initial-value problems with emphasis on the computational cost, efficiency, and accuracy of algorithms. The problem sets are application-oriented with examples taken from orbital mechanics, physics, genetics, and fluid dynamics.
Requisites: Requires prerequisite course of APPM 2360 or MATH 3430 (minimum grade C-).

APPM 3170 (3) Discrete Applied Mathematics
Introduces students to ideas and techniques from discrete mathematics that are widely used in science and engineering. Mathematical definitions and proofs are emphasized. Topics include formal logic notation, proof methods; set theory, relations; induction, well-ordering; algorithms, growth of functions and complexity; integer congruences; basic and advanced counting techniques, recurrences and elementary graph theory. Other selected topics may also be covered.
Requisites: Requires a prerequisite of APPM 1360 or MATH 2300 (all minimum grade C-).

APPM 3310 (3) Matrix Methods and Applications
Introduces linear algebra and matrices with an emphasis on applications, including methods to solve systems of linear algebraic and linear ordinary differential equations. Discusses vector space concepts, decomposition theorems, and eigenvalue problems.
Equivalent - Duplicate Degree Credit Not Granted: MATH 2130 and MATH 2135
Requisites: Requires prerequisite course of APPM 2350 or APPM 2360 or MATH 2400 (minimum grade C-).
APPM 3350 (3) Advanced Engineering Calculus
Extends the treatment of engineering mathematics beyond the topics covered in Calculus 3 and differential equations. Topics include non-dimensionalization, elementary asymptotics and perturbation theory, Reynold's transport theorem and extensions of Leibnitz’s rule, as applied to continuum conservation equations, Hamiltonian formulations, Legendre and Laplace transforms, special functions and their orthogonality properties.
Requisites: Requires prerequisite course of APPM 2350 or MATH 2400 and APPM 2360 (all minimum grade C-).

APPM 3570 (3) Applied Probability
Studies axioms, counting formulas, conditional probability, independence, random variables, continuous and discrete distribution, expectation, joint distributions, moment generating functions, law of large numbers and the central limit theorem.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 3810 or MATH 4510 STAT 3100
Requisites: Requires a prerequisite or corequisite course of APPM 2350 or MATH 2400 (prereq minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

APPM 4120 (3) Introduction to Operations Research
Studies linear and nonlinear programming, the simplex method, duality, sensitivity, transportation and network flow problems, some constrained and unconstrained optimization theory, and the Kuhn-Tucker conditions, as time permits.
Equivalent - Duplicate Degree Credit Not Granted: APPM 5120 and MATH 4120 and MATH 5120
Requisites: Requires a prerequisite course of APPM 3310 or MATH 3130 or MATH 3135 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

APPM 4350 (3) Methods in Applied Mathematics: Fourier Series and Boundary Value Problems
Reviews ordinary differential equations, including solutions by Fourier series. Physical derivation of the classical linear partial differential equations (heat, wave, and Laplace equations). Solution of these equations via separation of variables, with Fourier series, Fourier integrals, and more general eigenfunction expansions.
Equivalent - Duplicate Degree Credit Not Granted: APPM 5350
Requisites: Requires prerequisite courses of APPM 2350 or MATH 2400 and APPM 2360 (all minimum grade C-) and a prerequisite or corequisite course of APPM 3310 or MATH 3130 or MATH 3135 (prereq minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

APPM 4360 (3) Methods in Applied Mathematics: Complex Variables and Applications
Introduces methods of complex variables, contour integration and theory of residues. Applications include solving partial differential equations by transform methods, Fourier and Laplace transforms and Reimann-Hilbert boundary-value problems, conformal mapping to ideal fluid flow and/or electrostatics.
Equivalent - Duplicate Degree Credit Not Granted: APPM 5360
Requisites: Requires prerequisite courses of APPM 2350 or MATH 2400 and APPM 2360 (all minimum grade C-) and a prerequisite or corequisite course of APPM 3310 or MATH 3130 or MATH 3135 (prereq minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

APPM 4370 (3) Computational Neuroscience
Applies mathematical and computational methods to neuroscience. Techniques from linear algebra, differential equations, introductory dynamical systems, probability, stochastic processes, model validation, and machine learning will be learned and used. Neuroscience topics include neural spiking, network dynamics, probabilistic inference, learning, and plasticity. Will learn how the brain uses computational principles to enact decision making, vision, and memory. Recommended background includes linear algebra, differential equations, probability, and programming. Students will hone programming skills in MATLAB/Python and TensorFlow.
Equivalent - Duplicate Degree Credit Not Granted: APPM 5370
Requisites: Requires prerequisite courses of APPM 2360 and APPM 3310 (all minimum grade C-).
Recommended: Prerequisite APPM 3570/STAT 3100, STAT 2600 or CSCI 3022.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

APPM 4380 (3) Modeling in Applied Mathematics
An exposition of a variety of mathematical models arising in the physical and biological sciences. Students' modeling projects are presented in class. Topics may include: GPS navigation, medical imaging, ocean waves, and computerized facial recognition.
Equivalent - Duplicate Degree Credit Not Granted: APPM 5380
Requisites: Requires prerequisite courses of APPM 2350 or MATH 2400 and APPM 2360 (all minimum grade C-).
Recommended: Prerequisites APPM 3310 and APPM 4350 and APPM 4650.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

APPM 4390 (3) Modeling in Mathematical Biology
Investigates how complex systems in biology can be studied using applied mathematics. Examines several case studies which include topics from microbiology, enzyme reaction kinetics, neuroscience, ecology, epidemiology, physiology and bioengineering.
Equivalent - Duplicate Degree Credit Not Granted: APPM 5390
Requisites: Requires prerequisite courses of APPM 2360 and APPM 3310 or MATH 3130 or MATH 3135 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

APPM 4440 (3) Undergraduate Applied Analysis 1
Provides a rigorous treatment of topics covered in Calculus 1 and 2. Topics include convergent sequences; continuous functions; differentiable functions; Darboux sums, Riemann sums, and integration; Taylor and power series and sequences of functions.
Requisites: Requires prerequisite courses of APPM 2350 or MATH 2400 and APPM 2360 (all minimum grade C-) and a prerequisite or corequisite course of APPM 3310 or MATH 3130 or MATH 3135 (prereq minimum grade C-).
APPM 4450 (3) Undergraduate Applied Analysis 2
Continuation of APPM 4440. Study of multidimensional analysis including n-dimensional Euclidean space, continuity and uniform continuity of functions of several variables, differentiation, linear and nonlinear approximation, inverse function and implicit function theorems, and a short introduction to metric spaces.
Requisites: Requires prerequisite course of APPM 4440 or MATH 3001 (minimum grade C-).
APPM 4510 (3) Data Assimilation in High Dimensional Dynamical Systems
Develops and analyzes approximate methods of solving the Bayesian inverse problem for high-dimensional dynamical systems. After briefly reviewing mathematical foundations in probability and statistics, the course covers the Kalman filter, particle filters, variational methods and ensemble Kalman filters. The emphasis is on mathematical formulation and analysis of methods.
Equivalent - Duplicate Degree Credit Not Granted: APPM 5510, STAT 4250 and STAT 5250
Requisites: Requires prerequisite courses of APPM 3310 and APPM 3570 or STAT 3100 or MATH 4510 (all minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

APPM 4530 (3) Stochastic Analysis for Finance
Studies mathematical techniques and theories for modeling financial markets. Specific topics include the binomial model, risk neutral pricing, stochastic calculus, connection to partial differential equations and stochastic control theory.
Equivalent - Duplicate Degree Credit Not Granted: APPM 5530, STAT 4230 and STAT 5230
Requisites: Requires prerequisite courses of APPM 3310 and APPM 3570, or STAT 3100, or MATH 4510 (all minimum grade C).

APPM 4560 (3) Markov Processes, Queues, and Monte Carlo Simulations
Brief review of conditional probability and expectation followed by a study of Markov chains, both discrete and continuous time, including Poisson point processes. Queuing theory, terminology and single queue systems are studied with some introduction to networks of queues. Uses Monte Carlo simulation of random variables throughout the semester to gain insight into the processes under study.
Equivalent - Duplicate Degree Credit Not Granted: APPM 5560 and STAT 4100
Requisites: Requires prerequisite courses of APPM 3570 or STAT 3100 or MATH 4510 (all minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

APPM 4565 (3) Random Graphs
Introduces mathematical techniques, including generating functions, the first- and second-moment method and Chernoff bounds to study the most fundamental properties of the Erdos-Renyi model and other celebrated random graph models such as preferential attachment, fixed degree distribution, and stochastic block models.
Equivalent - Duplicate Degree Credit Not Granted: APPM 5565
Requisites: Requires prerequisite APPM 3570 or MATH 4510 (both minimum grade C).
Grading Basis: Letter Grade

APPM 4570 (3) Statistical Methods
Covers basic statistical concepts with accompanying introduction to the R programming language. Topics include discrete and continuous probability laws, random variables, expectation and variance, central limit theorem, testing hypothesis and confidence intervals, linear regression analysis, simulations for validation of statistical methods and applications of methods in R.
Equivalent - Duplicate Degree Credit Not Granted: APPM 5570
Requisites: Requires prerequisite course of APPM 1360 or MATH 2300 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

APPM 4590 (3) Statistical Modeling
Introduces methods, theory and applications of statistical models, from linear models (simple and multiple linear regression), to hierarchical linear models. Topics such as estimation, residual diagnostics, goodness of fit, transformations, and various strategies for variable selection and model comparison will be discussed in depth. Examples and exercises will be demonstrated using statistical software.
Equivalent - Duplicate Degree Credit Not Granted: APPM 5590
Requisites: Requires prerequisite course of APPM 4520 or APPM 4570 or MATH 4520 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

APPM 4650 (3) Intermediate Numerical Analysis 1
Focuses on numerical solution of nonlinear equations, interpolation, methods in numerical integration, numerical solution of linear systems, and matrix eigenvalue problems. Stresses significant computer applications and software. Department enforced prerequisite: knowledge of a programming language.
Equivalent - Duplicate Degree Credit Not Granted: MATH 4650
Requisites: Requires a prerequisite course of MATH 3430 or APPM 2360 and APPM 3310 (minimum grade C).

APPM 4660 (3) Intermediate Numerical Analysis 2
Continuation of APPM 4650. Examines numerical solution of initial-value problems and two-point boundary-value problems for ordinary differential equations. Also looks at numerical methods for solving partial differential equations. Department enforced prerequisite: knowledge of a programming language.
Equivalent - Duplicate Degree Credit Not Granted: MATH 4660
Requisites: Requires prerequisite course of APPM 4650 or MATH 4650 (minimum grade C).

APPM 4720 (1-3) Open Topics in Applied Mathematics
Provides a vehicle for the development and presentation of new topics that may be incorporated into the core courses in applied mathematics. Department enforced prerequisite: variable, depending on the topic, see instructor.
Equivalent - Duplicate Degree Credit Not Granted: APPM 5720
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.

APPM 4840 (1-3) Reading and Research in Applied Mathematics
Introduces undergraduate students to the research foci of the Department of Applied Mathematics. Department enforced prerequisite: variable depending on the topic.
Repeatable: Repeatable for up to 9.00 total credit hours.

APPM 4950 (1-3) Seminar in Applied Mathematics
Introduces undergraduate students to the research foci of the program in applied mathematics. It is also designed to be a capstone experience for the program's majors. Department enforced prerequisite: variable depending on the topic.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

APPM 5120 (3) Introduction to Operations Research
Studies linear and nonlinear programming, the simplex method, duality, sensitivity, transportation and network flow problems, some constrained and unconstrained optimization theory, and the Kuhn-Tucker conditions, as time permits. Department enforced prerequisite: APPM 2130 or MATH 2135 or MATH 2135.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4120 and MATH 4120 and MATH 5120
Requisites: Restricted to graduate students only.
APP 5380 (3) Modeling in Applied Mathematics
An exposition of a variety of mathematical models arising in the physical and biological sciences. Students' modeling projects are presented in class. Topics may include: GPS navigation, medical imaging, ocean waves, and computerized facial recognition. Department enforced prerequisite: APPM 2350 or MATH 2400 and APPM 2360.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4380
Requisites: Restricted to graduate students only.
Recommended: Prerequisites APPM 3310 and APPM 4350 and APPM 4650.

APP 5430 (3) Methods in Applied Mathematics: Applications of Complex Variables
Reviews basic ideas of complex analysis, including solutions of ODEs and PDEs of physical interest via complex analysis; conformal mapping, including Schwarz-Christoffel transformations and generalizations; computational methods; Riemann-Hilbert problems; topics in asymptotic methods. Department enforced prerequisite: APPM 4360 or APPM 5360.
Requisites: Restricted to graduate students only.

APP 5440 (3) Applied Analysis 1
Discusses the elements of basic real and complex analysis, Banach spaces, Lp spaces and many relevant inequalities. Includes applications of existence and uniqueness of solutions to various types of ordinary differential equations, partial differential equations, and integral equations. Department enforced prerequisites: APPM 4440 and APPM 4450.
Requisites: Restricted to graduate students only.

APP 5450 (3) Applied Analysis 2
Continuation of APPM 5440. Department enforced prerequisite: APPM 5440.
Requisites: Restricted to graduate students only.

APP 5460 (3) Methods in Applied Mathematics: Dynamical Systems and Differential Equations
Introduces the theory and applications of dynamical systems through solutions to differential equations. Covers existence and uniqueness theory, local stability properties, qualitative analysis, global phase portraits, perturbation theory and bifurcation theory. Special topics may include Melnikov methods, averaging methods, bifurcations to chaos and Hamiltonian systems. Department enforced prerequisites: APPM 2360 and APPM 3310 and APPM 4440.
Requisites: Restricted to graduate students only.

APP 5510 (3) Data Assimilation in High Dimensional Dynamical Systems
Develops and analyzes approximate methods of solving the Bayesian inverse problem for high-dimensional dynamical systems. After briefly reviewing mathematical foundations in probability and statistics, the course covers the Kalman filter, particle filters, variational methods and ensemble Kalman filters. The emphasis is on mathematical formulation and analysis of methods.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4510 and APPM 5510
Requisites: Restricted to graduate students only.

APP 5550 (3) Data Assimilation in High Dimensional Dynamical Systems
Covers asymptotic evaluation of integrals (stationary phase and steepest descent), perturbation methods (regular and singular methods, and inner and outer expansions), multiple scale methods and applications to differential and integral equations. Department enforced prerequisite: APPM 4350 or MATH 4470 and APPM 4360 or MATH 3450.
Requisites: Restricted to graduate students only.

APP 5570 (3) Methods in Applied Mathematics: Partial Differential and Integral Equations
Requisites: Restricted to graduate students only.

APPM 5250 (3) Data Assimilation in High Dimensional Dynamical Systems
Develops and analyzes approximate methods of solving the Bayesian inverse problem for high-dimensional dynamical systems. After briefly reviewing mathematical foundations in probability and statistics, the course covers the Kalman filter, particle filters, variational methods and ensemble Kalman filters. The emphasis is on mathematical formulation and analysis of methods.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4510 and APPM 5510
Requisites: Restricted to graduate students only.

APPM 5350 (3) Methods in Applied Mathematics: Fourier Series and Boundary Value Problems
Department enforced prerequisite courses: APPM 2350 or MATH 2400 and APPM 2360 and a prerequisite or corequisite course: APPM 3310 or MATH 2130 or MATH 2135.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4350
Requisites: Restricted to graduate students only.

APPM 5360 (3) Methods in Applied Mathematics: Complex Variables and Applications
Introduces methods of complex variables, contour integration and theory of residues. Applications include solving partial differential equations by transform methods, Fourier and Laplace transforms and Reimann-Hilbert boundary-value problems, conformal mapping to ideal fluid flow and/or electrostatics. Department enforced prerequisites: APPM 2350 or MATH 2400 and APPM 2360 and a prerequisite or corequisite course of APPM 3310 or MATH 3130 or MATH 3135.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4360
Requisites: Restricted to graduate students only.

APPM 5370 (3) Computational Neuroscience
Applies mathematical and computational methods to neuroscience. Techniques from linear algebra, differential equations, introductory dynamical systems, probability, stochastic processes, model validation, and machine learning will be learned and used. Neuroscience topics include neural spiking, network dynamics, probabilistic inference, learning, and plasticity. Will learn how the brain uses computational principles to enact decision making, vision, and memory. Recommended background includes linear algebra, differential equations, probability, and programming. Students will hone programming skills in MATLAB/Python and TensorFlow.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4370

APPM 5380 (3) Modeling in Applied Mathematics
An exposition of a variety of mathematical models arising in the physical and biological sciences. Students' modeling projects are presented in class. Topics may include: GPS navigation, medical imaging, ocean waves, and computerized facial recognition. Department enforced prerequisite: APPM 2350 or MATH 2400 and APPM 2360.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4380
Requisites: Restricted to graduate students only.
Recommended: Prerequisites APPM 3310 and APPM 4350 and APPM 4650.

APPM 5390 (3) Modeling in Mathematical Biology
Investigates how complex systems in biology can be studied using applied mathematics. Examines several case studies which include topics from microbiology, enzyme reaction kinetics, neuroscience, ecology, epidemiology, physiology and bioengineering. Department enforced prerequisites: APPM 2360 and APPM 3310 or MATH 2130 or MATH 2135 or instructor consent required.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4390
Requisites: Restricted to graduate students only.
APPM 5530 (3) Stochastic Analysis for Finance
Studies mathematical theories and techniques for modeling financial markets. Specific topics include the binomial model, risk neutral pricing, stochastic calculus, connection to partial differential equations and stochastic control theory.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4530, STAT 4230 and STAT 5230
Requisites: Restricted to graduate students only.

APPM 5560 (3) Markov Processes, Queues, and Monte Carlo Simulations
Brief review of conditional probability and expectation followed by a study of Markov chains, both discrete and continuous time, including Poisson point processes. Queuing theory, terminology and single queue systems are studied with some introduction to networks of queues. Uses Monte Carlo simulation of random variables throughout the semester to gain insight into the processes under study.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4560, STAT 4100 and STAT 5100
Requisites: Restricted to graduate students only.

APPM 5565 (3) Random Graphs
Introduces mathematical techniques, including generating functions, the first- and second-moment method and Chernoff bounds to study the most fundamental properties of the Erdos-Renyi model and other celebrated random graph models such as preferential attachment, fixed degree distribution, and stochastic block models.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4565
Requisites: Restricted to graduate students only.

Grading Basis: Letter Grade

APPM 5570 (3) Statistical Methods
Covers basic statistical concepts with accompanying introduction to the R programming language. Topics include discrete and continuous probability laws, random variables, expectation and variance, central limit theorem, testing hypothesis and confidence intervals, linear regression analysis, simulations for validation of statistical methods and applications of methods in R.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4570
Requisites: Restricted to graduate students only.

APPM 5580 (3) Introduction to Statistical Learning
Consists of applications and methods of statistical learning. Covers multiple linear regression, classification, regularization, splines, tree-based methods, support vector machines and unsupervised learning.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4580
Requisites: Requires prerequisite course of APPM 4570 or APPM 5570 (minimum grade C). Restricted to graduate students only.

APPM 5590 (3) Statistical Modeling
Introduces methods, theory and applications of statistical models, from linear models (simple and multiple linear regression), to hierarchical linear models. Topics such as estimation, residual diagnostics, goodness of fit, transformations, and various strategies for variable selection and model comparison will be discussed in depth. Examples and exercises will be demonstrated using statistical software. Department enforced prerequisite: APPM 4570 or APPM 4520 or MATH 4520 or instructor consent required.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4590
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

APPM 5600 (3) Numerical Analysis 1
Solution of nonlinear algebraic equations, interpolation, integration, approximation, and numerical linear algebra. Department enforced prerequisite: APPM 3310 or MATH 2130 and experience with a scientific programming language.
Requisites: Restricted to graduate students only.

APPM 5610 (3) Numerical Analysis 2
Numerical linear algebra, eigenvalue problems, optimization problems, and ordinary and partial differential equations. Department enforced prerequisite: APPM 5600 or MATH 5600.
Requisites: Restricted to graduate students only.

APPM 5620 (3) Numerical Linear Algebra
Develops and analyzes methods for the solution of square nonsingular linear systems, linear least squares problems, eigenvalue problems, and rank estimation. Direct and iterative methods are covered, as well as methods for dense and sparse problems. Requires solid background in linear algebra and proficiency with scientific computing.
Requisites: Restricted to graduate students only.

APPM 5720 (1-3) Open Topics in Applied Mathematics
Provides a vehicle for the development and presentation of new topics that may be incorporated into the core courses in applied mathematics. Department enforced prerequisite: variable, depending on the topic, see instructor.
Equivalent - Duplicate Degree Credit Not Granted: APPM 4720
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

APPM 6470 (3) Advanced Partial Differential Equations
Continuation of APPM 5470. Advanced study of the properties and solutions of elliptic, parabolic, and hyperbolic partial differential equations. Topics include the study of Sobolev spaces and variational methods as they relate to PDEs, and other topics as time permits. Department enforced prerequisite: APPM 5470.
Requisites: Restricted to graduate students only.

APPM 6520 (3) Mathematical Statistics
Emphasizes mathematical theory of statistics. Topics include distribution theory, estimation and testing of hypotheses, multivariate analysis, and nonparametric inference, all with emphasis on theory. Department enforced prerequisite: APPM 5520 or MATH 5520.
Requisites: Restricted to graduate students only.

APPM 6550 (3) Introduction to Stochastic Processes
Systematic study of Markov chains and some of the simpler Markov processes including renewal theory, limit theorems for Markov chains, branching processes, queuing theory, birth and death processes, and Brownian motion. Applications to physical and biological sciences. Department enforced prerequisite: MATH 4001 or MATH 4510 or APPM 3570 or APPM 4560 or instructor consent.
Equivalent - Duplicate Degree Credit Not Granted: MATH 6550
Requisites: Restricted to graduate students only.

APPM 6560 (3) Measure-Theoretic Probability
Introduces a series of fundamental concepts and results in probability theory, using rigorous measure-theoretic language. Provides a solid foundation for further studies and research in probability, stochastic processes, statistics, and data science.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites APPM 5560 and undergraduate analysis at the level of APPM 4440.
APPM 6570 (3) Stochastic Differential Equations
Devoted to a comprehensive investigation of stochastic differential equations, as well as their important applications in Finance, Physics, and Engineering. Consists of three main topics: stochastic integration, the theory of stochastic differential equations (SDEs), and applications of SDEs.
Requisites: Prerequisite APPM 6560 or MATH/APPM 6550.
Recommended: Prerequisite APPM 5610 or graduate numerical linear algebra.

APPM 6610 (3) Introduction to Numerical Partial Differential Equations
Requisites: Restricted to graduate students only.
Recommended: Prerequisite APPM 5610 or graduate numerical linear algebra.

APPM 6640 (3) Multigrid Methods
Develops a fundamental understanding of the principles and techniques of the multigrid methodology, which is a widely used numerical approach for solving many problems in such diverse areas as aerodynamics, astrophysics, chemistry, electromagnetics, hydrology, medical imaging, meteorology/oceanography, quantum mechanics, and statistical physics.
Requisites: Restricted to graduate students only.

APPM 6900 (1-6) Independent Study
Introduces graduate students to research foci of the Department of Applied Mathematics.
Requisites: Restricted to graduate students only.

APPM 6940 (1) Master's Candidate for Degree
Grading Basis: Letter Grade
APPM 6950 (1-6) Master's Thesis
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

APPM 7100 (3) Mathematical Methods in Dynamical Systems
Covers dynamical systems defined by mappings and differential equations. Hamiltonian mechanics, action-angle variables, results from KAM and bifurcation theory, phase plane analysis, Melnikov theory, strange attractors, chaos, etc.
Requisites: Requires prerequisite course of APPM 5460 (minimum grade D-). Restricted to graduate students only.

APPM 7300 (3) Nonlinear Waves and Integrable Equations
Includes basic results associated with linear dispersive wave systems, first-order nonlinear wave equations, nonlinear dispersive wave equations, solitons, and the methods of the inverse scattering transform. Department enforced prerequisites: APPM 4350 and APPM 4360.
Requisites: Restricted to graduate students only.

APPM 7400 (1-3) Topics in Applied Mathematics
Provides a vehicle for the development and presentation of new topics with the potential of being incorporated into the core courses in applied mathematics.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

APPM 7900 (1-3) Independent Study
Introduces graduate students to research foci of the Department of Applied Mathematics.
Requisites: Restricted to graduate students only.

APPM 8000 (1) Colloquium in Applied Mathematics
Introduces graduate students to the major research foci of the Department of Applied Mathematics.
Requisites: Restricted to Applied Mathematics (APPM) graduate students only.

APPM 8100 (1) Seminar in Dynamical Systems
Introduces advanced topics and research in dynamical systems.
Requisites: Restricted to Applied Mathematics (APPM) graduate students only.

APPM 8300 (1-3) Nonlinear Waves Seminar
Introduces the core methods in the analysis of nonlinear partial differential and integral equations or systems to graduate students. Provides a vehicle for the development, presentation, and corporate research of new topics in PDE and analysis.
Requisites: Requires prerequisite course of APPM 5440 (minimum grade D-). Restricted to Applied Mathematics (APPM) graduate students only.

APPM 8400 (1) Mathematical Biology Seminar
Introduces advanced topics and research in mathematical and computational biology. Instructor consent required.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

APPM 8500 (1) Statistics, Optimization and Machine Learning Seminar
Research-level seminar that explores the mathematical foundations of machine learning, in particular how statistics and optimization give rise to well-founded and efficient algorithms.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

APPM 8600 (1) Seminar in Computational Mathematics
Introduces advanced topics and research in computational mathematics.
Requisites: Restricted to Applied Mathematics (APPM) graduate students only.

APPM 8990 (1-10) Doctoral Dissertation
All doctoral students must register for no fewer than 30 hours of dissertation credit as part of the requirements for the degree. No more than 10 credit hours may be taken in any one semester.
Repeatable: Repeatable for up to 30.00 total credit hours.
Requisites: Restricted to graduate students only.

Arabic Languages (ARAB)

Courses
ARAB 1010 (5) Beginning Arabic 1
Introduces students to speaking, listening, reading, and writing skills in the standard means of communication in the Arab world. This course is proficiency-based. All activities within the course are aimed at placing the student in the context of the native-speaking environment from the very beginning.

Additional Information: Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: Arabic
Departmental Category: Asia Content
ARAB 1011 (3) Introduction to Arab and Islamic Civilizations
Provides an interdisciplinary overview of the cultures of the Arabic-speaking peoples of Southwest Asia and North Africa from the rise of Islam in the 7th century to the present. Readings include historical, religious, literary and cultural texts from both the medieval and modern eras. Taught in English.

Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Arabic Courses in English
Departmental Category: Asia Content

ARAB 1020 (5) Beginning Arabic 2
Continuation of ARAB 1010.
Requisites: Requires prerequisite course of ARAB 1010 (minimum grade C).

Additional Information: Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: Arabic
Departmental Category: Asia Content

ARAB 2110 (5) Intermediate Arabic 1
Proficiency-based course emphasizes speaking, listening, reading, and writing. Covers a variety of topics. Students give classroom presentations and write short essays in Arabic. Speaking ability is assessed through an oral proficiency interview.
Requisites: Requires prerequisite course of ARAB 1020 (minimum grade C).

Additional Information: GT Pathways: GT-AH4 - Arts Hum: Foreign Languages
Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: Arabic
Departmental Category: Asia Content

ARAB 2120 (5) Intermediate Arabic 2
Continuation of ARAB 2110.
Requisites: Requires prerequisite course of ARAB 2110 (minimum grade C).

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Arabic
Departmental Category: Asia Content

ARAB 2231 (3) Love, Loss and Longing in Classical Arabic Literature
Surveys Arabic literature from the sixth through the eighteenth centuries. It offers an introduction to Arabic literature, namely prose and poetry, through its key texts as well as the range of themes and techniques found in this literature, and it lays the groundwork for contextualizing the literature in the framework of other literary traditions. Taught in English.

Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Arabic Courses in English
Departmental Category: Asia Content

ARAB 2320 (3) The Muslim World, 600-1250
Focusing on the history of the Muslim World in the age of the caliphates, this course takes an interdisciplinary, comparative approach to the development of Islamicate society, focusing on social structure, politics, economics and religion. Students will use primary and secondary sources to write a research paper, and make in-class presentations to cultivate critical thinking, research and writing skills. Taught in English.

Equivalent - Duplicate Degree Credit Not Granted: RLST 2320

Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Arabic Courses in English
Departmental Category: Asia Content

ARAB 3110 (3) Advanced Arabic 1
Designed to train students further in the four language skills (writing, speaking, reading, listening/comprehension) at an advanced level. Enables students to acquire a better and broader understanding of Arabic culture and texts drawn from various genres of Arabic letters.
Requisites: Requires prerequisite course of ARAB 2120 (minimum grade C).

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Arabic
Departmental Category: Asia Content

ARAB 3120 (3) Advanced Arabic 2
Continues training in the four language skills (writing, speaking, reading, listening/comprehension) at an advanced level. Enables students to acquire a better and broader understanding of Arabic culture and texts drawn from various genres of Arabic letters.
Requisites: Requires prerequisite course of ARAB 3110 (minimum grade C).

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Arabic
Departmental Category: Asia Content

ARAB 3230 (3) Islamic Culture and the Iberian Peninsula
Examines Islamic, especially Arab, culture and history as it relates to the Iberian Peninsula from 92 Ah/711 Ce to the present. Taught in English.

Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Arabic Courses in English
Departmental Category: Asia Content

ARAB 3231 (3) In the Footsteps of Travelers: Travel Writing in Arabic Lit
Offers an excursion into the role and significance of travel and travel writing in Arabic literature in translation. We will read and discuss a range of literary works written by, about, and for travelers. More broadly, this course will offer an opportunity for undergraduates to expand their understanding of literature and the arts. Taught in English.

Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Arabic Courses in English
Departmental Category: Asia Content

ARAB 3241 (3) Art in Islamic Cultures
Offers an overview of art in Islamic cultures. Discusses a range of literary texts and images in order to understand these cultures. Offers an opportunity for undergraduates to expand their understanding of literature and art history. Taught in English.

Equivalent - Duplicate Degree Credit Not Granted: ARTH 3241

Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Arabic Courses in English
ARAB 3330 (3) The Arabic Novel
Focusing on the origins and development of the novel genre in the Arabic tradition, this course examines both the aesthetic qualities of the genre as an artistic form and the ways that it has depicted and intervened in the modern social, political, and cultural upheavals that have shaped the Arab world in the 20th century. Authors include Najib Mahfuz, Abd al-Rahman Munif, Hanan al-Shaykh, and Ghassan Kanafani. Taught in English.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Arabic Courses in English
Departmental Category: Asia Content

ARAB 3340 (3) Representing Islam
Explores the cultural politics of representations of the Arab and Islamic worlds both with an emphasis on literary representations of the Islamic world in travel narratives and novels from both the West and the Arab world. Examines historical, anthropological, and visual texts to consider how Islam has been narrated in colonial European imaginings about the Islamic world as well as contemporary representations. Taught in English.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Arabic Courses in English
Departmental Category: Asia Content

ARAB 3350 (3) Narrating the City: Literary Mappings of the Urban Landscape
Examines literary narratives primarily from the Arabic tradition through focusing on the relationship of literature to the development and transformations of cities and urban spaces in the modern period. Begins with readings of 19th century European narratives that chronicle the changing space of the modern city followed by urban narratives from the Arabic literary tradition in order to comparatively examine how "universal" processes of modernization, development, and globalization in the modern world have been narrated. Writers include Mahfouz, Munif, al-Takarli, al-Aswani, Celik, Abu Lughod. Taught in English.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Arabic Courses in English
Departmental Category: Asia Content

ARAB 3360 (3) Gender, Sexuality and Culture in the Modern Middle East
Examines the issues of gender and sexuality in the modern Middle East and North Africa from the colonial period to the present, focusing on how feminist movements, Arab women's writing, and constructions of gender and sexuality have been shaped by local, national and international factors. Taught in English.

Equivalent - Duplicate Degree Credit Not Granted: WGST 3410
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Arabic Courses in English
Departmental Category: Asia Content

ARAB 3410 (3) Advanced Readings in Arabic
Develops student proficiency and communication in modern standard Arabic at the advanced (4th year) level. Emphasis placed on developing reading comprehension, speaking, and writing skills.

Requisites: Requires prerequisite course of ARAB 3120 (minimum grade C).

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Arabic
Departmental Category: Asia Content

ARAB 4250 (3) Arabic Media
Designed to provide students with advanced Arabic language skills for use in the media. By negotiating authentic materials in Arabic, students will gain a perspective on global issues in the Arab and Islamic world and will attain a better awareness of Arab and Islamic culture.

Requisites: Requires prerequisite course of ARAB 3120 (minimum grade C).

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Arabic
Departmental Category: Asia Content

ARAB 4840 (1-3) Independent Study
Department consent required.

Repeatable: Repeatable for up to 6.00 total credit hours.

Additional Information: Departmental Category: Arabic
Departmental Category: Asia Content

### Architectural Engineering (AREN) Courses

AREN 1027 (3) Engineering Drawing
Introduces engineering drawing including sections and dimensioning, print readings, computer 3D, and building information modeling (BIM).

Requisites: Restricted to Engineering Physics (EPEN), Architectural (AREN), General Engineering (GEEN) or Civil (CVEN) Engineering majors only.

Additional Information: Departmental Category: Miscellaneous

AREN 1037 (3) Building Information Modeling
Learn to develop and communicate physical information using three-dimensional graphical systems including Computer-Aided Design (CAD) and Building Information Models (BIM). Learn to dimension and scale physical systems and interpret scaled drawings. Get experience with industry standard software tools (REVIT) used to produce design and construction documents, and apply BIM and CAD tools in a project producing scaled 3-D drawings.

Additional Information: Departmental Category: Miscellaneous

AREN 1316 (1) Introduction to Architectural Engineering
Surveys the broad subject of architectural engineering and professional practices. Includes professional design services, design documents, methods of construction delivery, materials for construction, codes and standards, life safety, professional ethics, structural systems, mechanical systems, electrical systems, and building systems integration.

Requisites: Restricted to students with 0-56 (Freshmen or Sophomore) College of Engineering majors only.

Additional Information: Departmental Category: Miscellaneous

AREN 2005 (3) Building Materials and Systems
Covers the broad subject of building materials and systems. Includes a practical approach to assembly details, methods of construction, codes, foundations, steel, concrete, masonry, cladding, doors and windows, interiors, finishes, mechanical, plumbing, electrical, life safety and conveyance. Includes investigation of an existing facility along with a team presentation trends in commercial building construction.

Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Civil (CVEN) or Architectural (AREN) or GEEN (General) or Applied Mathematics (AMEN) majors only.

Additional Information: Departmental Category: Building Systems Engineering
AREN 2110 (3) Thermodynamics
Explores fundamental principles of thermodynamics, including first and second law of thermodynamics, thermophysical properties, power and refrigeration cycles, gas mixtures and psychrometrics.
Requisites: Requires a prereq course of PHYS 1110 (min grade C-) and a prereq or coreq course of APPM 1360 or MATH 2300 (min grade C-). Restricted to AREN, CVEN or EVEN, GEEN, AMEN or EVENCV. Concurrent Degree majors only.
Departmental Category: Building Systems Engineering

AREN 2120 (3) Fluid Mechanics and Heat Transfer
Explores fundamental principles of fluid mechanics and heat transfer.
Topics include fluid statics, momentum and energy conservations; laminar and turbulent viscous flows; conduction, convection and radiation heat transfer. Emphasizes topics and problems that are important to Architectural Engineers including flow of fluids in pipes and ducts, heat transfer in buildings and building systems.
Requisites: Requires prerequisite courses of APPM 2350 or MATH 2400, and AREN 2110 or GEEN 3852 or MCEN 3012 or ASEN 2002 (all minimum grade C-). Requires corequisite course of APPM 2360. Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Building Systems Engineering

AREN 2830 (1-3) Special Topics
Supervised study of special topics of interest to students under instructor guidance.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.
Additional Information: Departmental Category: Special Topics

AREN 3010 (3) Energy Efficient Buildings
Lecture course on the analysis and design of buildings and their systems to satisfy the requirements for a comfortable and healthy indoor environment. Examines psychometrics, thermal comfort, building heating and cooling loads, fluid flow basics, and HVAC components and systems.
Requisites: Requires prerequisite courses of AREN 2120 or MCEN 3021 and 3022 and AREN 2050 (all minimum grade C-). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Building Systems Engineering

AREN 3060 (3) Environmental Systems for Buildings 2
Explores operations and architectural design strategies of plumbing, power distribution, renewable energy generation, illumination, daylighting, acoustical control, vertical transportation, fire protection and telecommunication systems in buildings with a focus on sustainability and resource efficiency.
Requisites: College of Engineering majors are excluded from this course.
Additional Information: Departmental Category: Building Systems Engineering

AREN 3140 (3) Illumination Laboratory
Introduces the measurement of photometric and psychophysical quantities used in lighting. Experience is acquired in using light measurement instruments to evaluate lighting equipment and luminous environments. Taught intermittently.
Requisites: Requires prerequisite course of AREN 3540 (minimum grade C-).
Additional Information: Departmental Category: Building Systems Engineering

AREN 3540 (3) Illumination I
Studies the fundamentals of architectural illumination. Introduces and applies basic principles and vocabulary to elementary problems in the lighting of environments for the performance of visual work and the proper interaction with architecture.
Requisites: Requires prerequisite course of CHEN 1310 or CSCI 1300 or CSCI 1320 or ECEN 1310 and APPM 2350 or MATH 2400 (all minimum grade C-). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Building Systems Engineering

AREN 4010 (3) Energy System Modeling and Control
Engineering course devoted to building automation and control systems. Topics include HVAC control technology and strategies, measurement and device technologies, analysis and modeling of dynamic systems, simulation of conventional and advanced control approaches, assessment of control loop performance and hands-on direct digital control (DDC) programming exercises as used in current building control practice.
Equivalent - Duplicate Degree Credit Not Granted: AREN 5010
Requisites: Requires prerequisite course of AREN 4110 (minimum grade C-).
Additional Information: Departmental Category: Building Systems Engineering

AREN 4035 (3) Architectural Structures 1
Analyzes basic structural systems. Covers principles of mechanics and mechanical properties of materials and analysis and design of trusses, arches, and cable structures. For nonengineering students; does not apply toward an engineering degree.
Requisites: Requires prerequisite course of PHYS 1110 or PHYS 2010 and APPM 1350 or MATH 1300 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Program in Environmental Design major or minor students only. College of Engineering majors are excluded from this course.
Additional Information: Departmental Category: Structures

AREN 4045 (3) Architectural Structures 2
Analyzes basic structural systems. Covers principles of mechanics as applied to the design of flexural members, columns, continuous beams, and rigid frames. For nonengineering students; does not apply toward an engineering degree.
Requisites: Requires prerequisite course of AREN 4035 (minimum grade C-).
Additional Information: Departmental Category: Structures
AREN 4110 (3-4) HVAC System Design
Applies engineering principles to the design of heating, ventilating and air conditioning (HVAC) systems for buildings. Covers HVAC systems description, load estimation, psychrometrics, coils and heat exchangers, air and water distribution systems and primary equipment and systems.
Equivalent - Duplicate Degree Credit Not Granted: AREN 5110
Requisites: Requires prerequisite course of AREN 3010 (minimum grade C).
Additional Information: Departmental Category: Building Systems Engineering

AREN 4130 (3) Optical Design for Illumination and Solid State Lighting
Covers the optical design process for illumination-based optics, emphasis on applications in architectural lighting. In-depth coverage of luminaire photometry, lamps, materials, manufacturing methods, product performance requirements. Projects utilize optical design software and include a variety of lamp types including LEDs using both reflector/lens optics.
Equivalent - Duplicate Degree Credit Not Granted: AREN 5130
Requisites: Requires prerequisite course of AREN 3540 (minimum grade C). Restricted to Architectural (AREN) or Civil (CVEN) Engineering majors only.
Additional Information: Departmental Category: Building Systems Engineering

AREN 4315 (3) Design of Masonry Structures
Covers modern masonry construction; properties and behavior of the reinforced masonry component materials, clay and concrete masonry units, mortar, grout, and steel reinforcement; vertical and lateral load types and intensities; and design of reinforced masonry walls, beams and columns by the strength design method.
Requisites: Requires prerequisite course of CVEN 3525 (minimum grade C).
Additional Information: Departmental Category: Structures

AREN 4317 (5) Architectural Engineering Design
Provides a capstone experience to AREN students. Students design a modest commercial building and complete an integrated engineering design of the building systems executed for the conceptual, schematic, and design development phases. Students’ teams work on structural, mechanical, electrical/lighting, and construction engineering management design. Each stage produce a professional-quality design document. Faculty and industry mentors participate in the teaching and evaluation of designs.
Requisites: Requires prerequisite courses of ARCH 4010 and (CVEN 3256 and AREN 4506) or (AREN 4550 and AREN 4570) or (CVEN 4161 and CVEN 4555) or (AREN 4110 and AREN 4890) (all minimum grade C).
Additional Information: Departmental Category: Miscellaneous

AREN 4506 (3) Pre-construction Estimating and Scheduling
Covers project management estimating and scheduling methods with an emphasis on the techniques used to create pre-construction estimates and schedules for architectural and civil engineering projects.
Requisites: Requires prerequisite course of CVEN 3246 (minimum grade C). Restricted to students with 57-180 credits (Junior or Senior) Architectural (AREN), Civil (CVEN) or General (GEEN) Engineering majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Construction

AREN 4530 (3) Advanced Lighting Design
Intended to help students understand light as a medium in design, begin the formulation of a philosophical perspective for its application, and continue to develop the skills required to design and implement lighting systems. Knowledge from previous lighting classes (Illumination I and Illumination II) is essential to this course.
Requisites: Requires prerequisite courses of AREN 3540 and AREN 4550 (all minimum grade C).
Additional Information: Departmental Category: Building Systems Engineering

AREN 4540 (3) Exterior Lighting Systems
Engages students in exploring and solving lighting problems for exterior environments. Provides an understanding of the design criteria and lighting equipment used in three primary exterior applications: parking lots and roadways, floodlighting of buildings, and sports facilities. Taught intermittently.
Equivalent - Duplicate Degree Credit Not Granted: AREN 5540
Requisites: Requires prerequisite course of AREN 3540 (minimum grade C).
Recommended: Prerequisite AREN 4550.
Additional Information: Departmental Category: Building Systems Engineering

AREN 4550 (3) Illumination 2
Applies the principles studied in Illumination 1. Provides further study in architectural lighting design methods. Uses lighting studio work to develop a broad knowledge of lighting equipment, design methods, and their application in a series of practical design problems in modern buildings.
Requisites: Requires prerequisite course of AREN 3540 (minimum grade C).
Additional Information: Departmental Category: Building Systems Engineering

AREN 4560 (3) Luminous Radiative Transfer
Teaches fundamentals of radiative exchange as applied to illumination engineering. Describes and uses principal numerical techniques for radiative transfer analysis. Applies techniques to lighting design and analysis.
Requisites: Requires prerequisite course of AREN 3540 (minimum grade C).
Additional Information: Departmental Category: Building Systems Engineering

AREN 4570 (3) Building Electrical Systems Design 1
Introduces the generation and distribution of electrical power. Focuses on understanding the loads, control, and protection of secondary electrical distribution systems in building. Applies the national electric code to residential and commercial buildings.
Requisites: Requires prerequisite course of ECEN 3030 (minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Building Systems Engineering
AREN 4580 (3) Daylighting
Applies the fundamental principles of illumination engineering to architectural daylighting design, exploring the quantitative methods and tools used to develop daylighting designs and evaluate their performance. Topics include solar and sky modeling, luminous radiative transfer, design methods, and controls for integration with electric lighting systems.
Requisites: Requires prerequisite course of AREN 3540 (minimum grade C).
Additional Information: Departmental Category: Building Systems Engineering
AREN 4590 (3) Computer Graphics in Lighting Engineering
Studies the numerical methods and computer implementation of computer graphics visualization for architectural lighting engineering and design. Implements finite element radiative transfer and ray-tracing in computer programs. Studies the use of computer graphics visualization in lighting analysis. Taught intermittently.
Requisites: Requires prerequisite courses of AREN 3540 and AREN 4560 (minimum grade C).
Additional Information: Departmental Category: Building Systems Engineering
AREN 4606 (3) Construction Project Execution and Control
Integrates project execution and control techniques for construction scope, cost and schedule. Includes progress measurement, resource planning, earned value methods, productivity, risk management methods and key contract clauses.
Requisites: Requires prerequisite courses of CVEN 3246 and AREN 4506 (all minimum grade C). Restricted to students with 57-180 credits (Junior or Senior) Civil (CVEN), Architectural (AREN) or General (GEEN) Engineering majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Construction
AREN 4830 (1-3) Special Topics for Seniors/Grad Students
Supervised study of special topics of interest to students under instructor guidance. Department consent required.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.
Additional Information: Departmental Category: Special Topics
AREN 4849 (1-3) Independent Study
Offers an independent, in-depth study, research or design in a selected area of architectural engineering. Offerings are coordinated with individual faculty. Students should consult the Department of Civil, Environmental, and Architectural Engineering.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Special Topics
AREN 4890 (3) Sustainable Building Design
Introduces green building design procedure/approach and provides insight into evolving design principles; explores aspects of building thermal/energy performance, indoor/outdoor environmental quality, occupant comfort and climate relevant to building design (structures not covered); emphasizes both comprehensive understanding and practical applications of sustainable building design strategies; applies prevailing simulation tools to assist green building design.
Equivalent - Duplicate Degree Credit Not Granted: AREN 5890
Requisites: Requires a prerequisite course of AREN 3010 (minimum grade C). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) College of Engineering students only.
Additional Information: Departmental Category: Building Systems Engineering
AREN 4990 (3) Compu Fluid Dynamics (CFD) Analysis for Built/Natural Envsnts
Explores the fundamentals of simulating/analyzing civil and architectural environments with Computational Fluid Dynamics (CFD) method. Run with two parallel sessions: fundamentals and applications, with fundamental lectures presenting the principles of CFD technologies, and application sessions demonstrating the application of CFD for resolving building and environmental engineering problems (different than MCEN/ASEN) with hands-on exercises.
Equivalent - Duplicate Degree Credit Not Granted: AREN 5990
Requisites: Requires prerequisite course of AREN 2120 and APPM 2360 (all minimum grade C). Restricted to students with 57-180 credits (Junior or Senior) College of Engineering majors only.
Additional Information: Departmental Category: Building Systems Engineering
AREN 5001 (3) Building Energy Systems: Thermal, Electrical & Lighting Sys
Prepares graduate students with general knowledge and skills that are required by advanced AREN technical courses. Covers three parts of materials: 1) building thermal systems, 2) building lighting systems, 3) building electrical systems.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Building Systems Engineering
AREN 5010 (3) Energy System Modeling and Control
Engineering course devoted to building automation and control systems. Topics include HVAC control technology and strategies, measurement and device technologies, analysis and modeling of dynamic systems, simulation of conventional and advanced control approaches, assessment of control loop performance and hands-on direct digital control (DDC) programming exercises as used in current building control practice.
Equivalent - Duplicate Degree Credit Not Granted: AREN 4010
Recommend: Prerequisite AREN 4140.
Additional Information: Departmental Category: Building Systems Engineering
AREN 5020 (3) Building Energy Audits
Analyzes and measures performance of HVAC systems, envelopes, lighting and hot water systems, and modifications to reduce energy use. Emphasizes existing buildings.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite AREN 3010.
Additional Information: Departmental Category: Building Systems Engineering
AREN 5050 (3) Advanced Solar Design
Predicts performance and analyzes economics of low-temperature, high-temperature, photovoltaic, and other innovative solar systems. Also includes performance prediction methods for solar processes. Taught intermittently.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Building Systems Engineering

AREN 5060 (3) Distributed Electricity Generation
Introduces basic distributed generation (DG) technologies including fuel-based systems and renewable energy technologies and overview approaches to conduct energy, economical, and environmental analysis of selected DG technologies using state-of-the-art analysis tools to evaluate optimal hybrid distributed generation systems to meet required electrical loads specific to urban centers, campuses, and residential communities.
Requisites: Restricted to graduate students only.

AREN 5070 (3) Thermal Analysis of Buildings
Examines response factors, conduction transfer functions and weighting factors for dynamic analysis of building envelopes. Also studies radiative and convective exchange in buildings, internal gains and infiltration analysis as modeled in hourly simulations. Taught intermittently.

AREN 5080 (3) Computer Simulation of Building Energy Systems
Introduces major simulation programs for analysis of building energy loads and system performance. Focuses on one hourly simulation program to develop capability for analysis of multizone structure.
Requisites: Requires prerequisite course of AREN 4110 or AREN 5110 (minimum grade C). Restricted to graduate students only.
Additional Information: Departmental Category: Building Systems Engineering

AREN 5110 (3-4) HVAC System Design
Applies engineering principles to the design of heating, ventilating and air conditioning (HVAC) systems for buildings. Covers HVAC systems description, load estimation, psychometrics, coils and heat exchangers, air and water distribution systems and primary equipment and systems.
Equivalent - Duplicate Degree Credit Not Granted: AREN 4110
Recommended: Prerequisite AREN 3010.
Additional Information: Departmental Category: Building Systems Engineering

AREN 5130 (3) Optical Design for Illumination and Solid State Lighting
Covers the optical design process for illumination-based optics, emphasis on applications in architectural lighting. In-depth coverage of luminaire photometry, lamps, materials, manufacturing methods, product performance requirements. Projects utilize optical design software and include a variety of lamp types including LEDs using both reflector/lens optics.
Equivalent - Duplicate Degree Credit Not Granted: AREN 4130
Recommended: Prerequisite AREN 3540.
Additional Information: Departmental Category: Building Systems Engineering

AREN 5540 (3) Exterior Lighting Systems
Engages students in exploring and solving lighting problems for exterior environments. Provides an understanding of the design criteria and lighting equipment used in three primary exterior applications: parking lots and roadways, floodlighting of buildings, and sports facilities. Taught intermittently.
Equivalent - Duplicate Degree Credit Not Granted: AREN 4540
Recommended: Prerequisites AREN 3540 and AREN 4550.
Additional Information: Departmental Category: Building Systems Engineering

AREN 5650 (3) Forensic Engineering
Identify and explore the physical, chemical, mechanical, and biological deterioration mechanisms in the most common construction materials; concrete, masonry, metals, wood, polymers, and fiber-reinforced composites. Course topics include an introduction to failure analysis; materials science; ion diffusion; electrochemistry (corrosion); fracture, fatigue, and creep; and diagnostic, retrofit, and rehabilitation strategies for extended service life.
Requisites: Restricted to graduate students only.

AREN 5890 (3) Sustainable Building Design
Introduces green building design procedure/approach and provides insight into evolving design principles; explores aspects of building thermal/energy performance, indoor/outdoor environmental quality, occupant comfort and climate relevant to building design (structures not covered); emphasizes both comprehensive understanding and practical applications of sustainable building design strategies; applies prevailing simulation tools to assist green building design.
Equivalent - Duplicate Degree Credit Not Granted: AREN 4890
Requisites: Restricted to graduate students only.
Recommended: Prerequisite AREN 3010.
Additional Information: Departmental Category: Building Systems Engineering

AREN 5990 (3) Compu Fluid Dynamics (CFD) Analysis for Built/Natural Envmnts
Explores the fundamentals of simulating/analyzing civil and architectural environments with Computational Fluid Dynamics (CFD) method. Run with two parallel sessions: fundamentals and applications, with fundamental lectures presenting the principles of CFD technologies, and application sessions demonstrating the application of CFD for resolving building and environmental engineering problems (different than MCEN/ASEN) with hands-on exercises.
Equivalent - Duplicate Degree Credit Not Granted: AREN 4990
Requisites: Restricted to graduate students only.
Recommended: Prerequisites AREN 2120 and APPM 2360.
Additional Information: Departmental Category: Building Systems Engineering

AREN 6940 (1) Master's Candidate for Degree
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Building Systems Engineering

AREN 6950 (1-6) Master's Thesis
Additional Information: Departmental Category: Building Systems Engineering

AREN 6960 (1-3) Master's Report
Repeatable: Repeatable for up to 3.00 total credit hours.
Additional Information: Departmental Category: Building Systems Engineering
Architecture (ARCH)

Courses

ARCH 2100 (6) Studio 1: Foundations of Architecture
The beginning of the architectural specialization sequence, this course introduces students to the basic strategies and techniques of architectural design. This studio focuses on concepts of medium-scale building design, siting, and climate. Through multiple design exercises, students learn how these factors assist in shaping buildings.

Requisites: Required of Program in Environmental Design major or minor students only.

ARCH 2115 (3) Architecture Materials and Methods
An introduction to both standard and innovative building materials this course exposes students to the elements and processes used in constructing buildings. Through lecture, technical drawing, material research and exposure to practicing professionals, students build a foundation of knowledge necessary to approach the specification and design of materials as well as to foster a curiosity in the innovative frontiers of assembly, aesthetics and sustainable life-cycle considerations.

Requisites: Required of Program in Environmental Design major or minor students only.

ARCH 3100 (6) Studio 2: Intermediate Architecture
Dealing with problems at an intermediate level of complexity this architecture studio emphasizes the interaction of form, programmatic use, human behavior and context in creating structure. Studio options may include a client-based community engaged project, real world applications, and/or result in a physical product. Students work across analog and digital platforms to produce high quality and portfolio-worthy work.

Requisites: Required of Environmental Design (ENVD) major or minor students only.

ARCH 3114 (3) History and Theory of Architecture 1
Focusing on buildings, this lecture is a survey of the built environment starting with some of the first structures built by humans and moving through time to the Industrial Revolution. The course focuses on the development of major styles, influential people, and the drivers of building form.

Requisites: Required of Environmental Design (ENVD) major or minor students only.

ARCH 3214 (3) History and Theory of Architecture 2
Picking up after the Industrial Revolution and continuing through to today, this course is the sequel to History and Theory I. History is taught thematically and cover important structures, key figures, and movements that have shaped our modern world.

Requisites: Required of Environmental Design (ENVD) major or minor students only.

ARCH 4010 (5) Architectural Appreciation and Design
Introduces basic processes and principles of architectural design. Provides a basis for understanding and evaluating architecture.

Requisites: Required of students with 57-180 credits (Junior or Senior) Architectural Engineering (AREN) majors only.

ARCH 4100 (6) Studio 3: Capstone in Architecture
The capstone of the studio sequence, this course investigates building technology, structural systems, user experience, and environmental sustainability. Studio options may include a client-based community engaged project, real world applications, and/or result in a physical product. Outcomes include well developed structures designed with a high level of craft, resulting in sophisticated and exhibit-worthy presentations.

Requisites: Required of Environmental Design (ENVD) major or minor students only.

ARCH 4115 (3) Architecture Building Technology
Through experimentation and testing, the fundamentals of building physics and climate science are taught in this interactive seminar. Students learn the concepts related to structural and mechanical systems necessary for proper building function by first studying and then implementing the key systems through hypothetical building assignments. This class covers active and passive green building systems that are necessary when designing structures for an evolving climate.

Requisites: Required of prerequisite course of ARCH 2115 or ENVD 3115 (minimum grade C-). Restricted to Program in Environmental Design major or minor students only.

Art Film Studies (ARTF)

Courses

ARTF 5003 (3) Film and Literature
Explores similarities and differences between literature and film as narrative arts. Studies novels, short stories and plays and films made from them. Examines problems in point of view, manipulation of time, tone, structure, and setting.

Equivalent - Duplicate Degree Credit Not Granted: CINE 4003

Requisites: Required of students with 57-180 credits (Junior or Senior) Architectural Engineering (AREN) majors only.

ARCH 4000 (3) Advanced Digital Postproduction
Explores the advanced practices and aesthetics of computer-based moving-image art editing. Topics include how to edit and manage a postproduction cycle, how to use digital editing systems and capabilities such as compositing, digital audio and optical effects treatments. Cannot be taken simultaneously with CINE 3400 or CINE 3600.

Equivalent - Duplicate Degree Credit Not Granted: CINE 4000

Requisites: Required of prerequisite courses of CINE 2500 and CINE 3400 or CINE 3600 and CINE 1502 and CINE 2000 or CINE 2300 (all minimum grade D-).

Additional Information: Departmental Category: Graduate Film Courses

ARCH 5003 (3) Film and Literature
Explores similarities and differences between literature and film as narrative arts. Studies novels, short stories and plays and films made from them. Examines problems in point of view, manipulation of time, tone, structure, and setting.

Equivalent - Duplicate Degree Credit Not Granted: CINE 4003

Requisites: Required of students with 57-180 credits (Junior or Senior) Architectural Engineering (AREN) majors only.

Additional Information: Departmental Category: Graduate Film Courses
ARTF 5004 (3) Topics in Film Theory
Provides topic-centered analyses of controversial areas in film theory. Students read extensive materials in the topic area, analyze and summarize arguments as presented in the literature, write "position" papers and make oral presentations in which they elaborate their own arguments about specific assigned topics, establishing critical dialogue with the primary materials.
Equivalent - Duplicate Degree Credit Not Granted: CINE 4004 and HUMN 4004
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of CINE 3051 (minimum grade D-). Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Film Courses

ARTF 5010 (1-3) Topics in Film Production
Prepares students for advanced film production courses. Subject matter varies each semester.
Equivalent - Duplicate Degree Credit Not Granted: CINE 4010
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Film Courses

ARTF 5013 (3) Film, Photography and Modernism
Provides interdisciplinary study of film, photography and modernism, focusing on issues such as dystopia, alienation, sexuality, subjectivity and self-referentiality. Photographs by Stieglitz, Strand, Weston, Evans, Cartier-Bresson, Kertesz and Moholy-Nagy. Films by Dziga-Vertov, Eisenstein, Resnais, Antonioni, Bergman, Bunuel and Bertolucci.
Equivalent - Duplicate Degree Credit Not Granted: FILM 4013
Requisites: Requires prerequisite course of FILM 1502 (minimum grade D-).
Recommended: Prerequisite FILM 3051.
Additional Information: Departmental Category: Graduate Film Courses

ARTF 5021 (3) Directing/Acting for the Camera
Offers an intensive workshop that provides students with experience directing dramatic material, acting before a camera, and interpreting or adopting dramatic material for film. No experience in directing or acting required. Attendance, research, and papers required.
Equivalent - Duplicate Degree Credit Not Granted: CINE 4021
Requisites: Restricted to graduate students only.
Recommended: Prerequisite CINE 1502.
Additional Information: Departmental Category: Graduate Film Courses

ARTF 5023 (3) Topics in International Cinema
Focuses on major international filmmakers who have had a decisive impact on world cinema. Students will learn how directors create their own innovative body of work with specific formal and thematic patterns and will also learn to place such work within multiple frameworks that will cover film history, theory, aesthetics, philosophy and social and cultural analysis.
Equivalent - Duplicate Degree Credit Not Granted: CINE 4023
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of CINE 1502 (minimum grade D-). Restricted to graduate students only.
Recommended: Prerequisites CINE 3051 and CINE 3061.
Additional Information: Departmental Category: Graduate Film Courses

ARTF 5024 (3) Advanced Research Seminar
Focuses on a specific topic, director, or genre chosen by the professor. Research skills and critical thinking are emphasized. With faculty guidance, students determine individual projects and present them to the class. Class participation is mandatory. Each student submits a thorough and original research paper for a final grade.
Equivalent - Duplicate Degree Credit Not Granted: CINE 4024
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites CINE 3051 and CINE 3061.
Additional Information: Departmental Category: Graduate Film Courses

ARTF 5040 (3) Advanced Analog Alchemy
Investigating, developing, and re-interpreting historical approaches and processes involved in the creation of Analog motion picture works. Students will work with Analog mediums in alternative modes and unestablished ways and develop their personal process towards the goal of producing a unique moving image work to be presented in a final analog format for exhibition.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Art Practices (ARTF) students only.

ARTF 5043 (1-3) Topics in Cinema Critical Studies
Prepares students for advanced Cinema Studies critical studies courses. Subject matter varies each semester.
Equivalent - Duplicate Degree Credit Not Granted: CINE 4043
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Film Courses

ARTF 5105 (3) Advanced Screenwriting
Introduces professional screenwriting, in the form of a creative writing workshop. Admission by portfolio (see film department). Students write scenes and scripts for short films, feature treatments, etc., and are graded on a final portfolio. Department enforced prerequisite: approved writing sample.
Equivalent - Duplicate Degree Credit Not Granted: CINE 4105
Recommended: Prerequisites CINE 3051 and CINE 3061.
Additional Information: Departmental Category: Graduate Film Courses

ARTF 5200 (3) Flow Visualization
Explores techniques for the visualization of the physics of fluid flows including seeding with dyes, particles and bubbles, and shadowgraphy and schlieren. Reviews optics and fluid physics, especially atmospheric clouds. Assignments are student-driven, to individuals and mixed teams of graduates, undergraduates, engineering majors and photography/video majors.
Equivalent - Duplicate Degree Credit Not Granted: CINE 4200, MCEN 4151, MCEN 5151, ATLS 4151 and ATLS 5151
Additional Information: Departmental Category: Graduate Film Courses

ARTF 5400 (3) Digital Post-Production
Through projects, discussions, and screenings, this class explores the practices and aesthetics of computer-based moving-image art editing.
Equivalent - Duplicate Degree Credit Not Granted: FILM 4400
Additional Information: Departmental Category: Graduate Film Courses
ARTF 5453 (3) Elective Affinities: Avant-Garde Cinema and the Arts  
Traces the history and aesthetics of avant-garde/experimental films in light of similar ideas found in the other arts, particularly painting, poetry, photography and music. Topics covered include Dada and the early avant-garde; surrealism and psychodramas; Brakhage and abstract expressionism; feminist arts and film since the 1980s; the idea of the sublime in painting, music and film; landscape in painting, photography and film; post-modernism and the cinema; queer theory, gender/identity politics and aesthetics of recent films; and specific multiple disciplinary artists such as Andy Warhol, Michael Snow, Helen Levitt and Gunvor Nelson.  
Equivalent - Duplicate Degree Credit Not Granted: CINE 4453  
Requisites: Requires prerequisite course of CINE 1502 (minimum grade D-). Restricted to graduate students only.  
Additional Information: Departmental Category: Graduate Film Courses

ARTF 5500 (3) Cinema Production 2  
Advanced exploration of creative cinema production through short production and post-production projects. Course focuses on the tactics and strategies of independent cinema production exploring either documentary, experimental, or narrative genres.  
Equivalent - Duplicate Degree Credit Not Granted: FILM 4500  
Repeatable: Repeatable for up to 9.00 total credit hours.  
Requisites: Requires prerequisite course of FILM 3400 (minimum grade D-). Restricted to graduate students only.  
Additional Information: Departmental Category: Graduate Film Courses

ARTF 5604 (3) Colloquium in Film Aesthetics  
Seminar for the serious round table discussion and critique of film as an art form, emphasizing development of appropriate verbal and written language skills for description of film.  
Equivalent - Duplicate Degree Credit Not Granted: FILM 4604  
Repeatable: Repeatable for up to 6.00 total credit hours.  
Requisites: Restricted to graduate students only.  
Additional Information: Departmental Category: Graduate Film Courses

ARTF 5610 (3) Image-makers Graduate Seminar  
Explores advanced graduate studio work in a seminar setting. Focuses on the development of ideas and activities which advance creative image making.  
Repeatable: Repeatable for up to 12.00 total credit hours.  
Requisites: Restricted to graduate students only.  
Additional Information: Departmental Category: Graduate Film Courses

ARTF 5717 (1-3) Graduate Studio Critique  
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.  
Requisites: Restricted to graduate students only.  
Additional Information: Departmental Category: Graduate Film Courses

ARTF 5846 (1-3) Graduate Independent Study-Video  
Participate in graduate independent study.  
Repeatable: Repeatable for up to 6.00 total credit hours.  
Requisites: Restricted to graduate students only.  
Additional Information: Departmental Category: Graduate Film Courses

ARTF 5857 (1-3) Graduate Independent Study  
Participate in graduate independent study.  
Repeatable: Repeatable for up to 6.00 total credit hours.  
Requisites: Restricted to graduate students only.  
Additional Information: Departmental Category: Graduate Film Courses

ARTF 6959 (1-6) Master's Thesis  
Preparation, research, writing of critical studies Master's thesis in fulfillment of concurrent BAMA in Film.  
Repeatable: Repeatable for up to 6.00 total credit hours.  
Requisites: Requires prerequisite course of ARTF 5004 (minimum grade D-). Restricted to graduate students only.  
Additional Information: Departmental Category: Graduate Film Courses

Art History (ARTH) Courses

ARTH 1300 (3) History of World Art 1  
Surveys major art styles from the Paleolithic period through the Renaissance, including European, Asian, and the Pre-Columbian/Islamic world. Emphasizes comparison of Western and non-Western visual expressions as evidence of differing cultural orientations.  
Additional Information: GT Pathways: GT-AH1 - Arts Hum: Arts Expression  
Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

ARTH 1400 (3) History of World Art 2  
Surveys major art styles from about 1600 to the present, including Europe, Asia, the Islamic world, the Americas and Africa. Emphasizes comparison of Western and non-Western visual expressions as evidence of differing cultural orientations.  
Additional Information: GT Pathways: GT-AH1 - Arts Hum: Arts Expression  
Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

ARTH 1500 (3) Global Art and Visual Culture  
Introduces critical issues in the study and interpretation of the arts and visual cultures of Africa, the Americas, Asia, Europe, and Oceania. This course serves as a complement to U.S. Art Across Cultures (ARTH 1600). Themes explored include the conceptual and social status of the artist, cultural exchange, the environment, gender, and power. In lecture and in recitations sections, you will be introduced to methods of object-based research and principles of museum exhibition curation. You will leave this class with an understanding of key concepts and methods in the history of art, as well as familiarity with an array of global visual cultures.  
Recommended: Corequisite ARTH 1600.

ARTH 1509 (3) Trash and Treasure, Temples and Tombs: Art and Archaeology of the Ancient World  
Introduces the art and archaeology of ancient Egypt, Mesopotamia, Greece and Rome, examining various ancient approaches to power, religion, death and the human body. Analyzes art, architecture and everyday trash to learn about ancient humanity.  
Equivalent - Duplicate Degree Credit Not Granted: CLAS 1509  
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.  
Additional Information: Arts Sci Core Curr: Historical Context  
Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Art History
ARTH 1600 (3) U.S. Art Across Cultures
Examines historical and contemporary issues in American arts and visual culture, emphasizing issues of race, gender, class, cross-cultural interactions, diversity of artistic traditions, and the global position of the United States in the modern world. We will focus on key monuments, objects, artists, and concepts relevant to the American context and impactful across geopolitical borders, ethnic groups, and genders.
Recommended: Corequisite ARTH 1500.

ARTH 1709 (3) Freshmen Seminar: Critical Introduction to Art History
Provides a broad introduction to understanding and appreciating art and art history within a critical lecture seminar and discussion format. The focus of this course is a selected Particularly directed to nonmajors.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARTH 2029 (3) Art and Archaeology of Ancient Egypt
Emphasizes the origin of the Egyptian culture, its importance and its impact on other cultures. In addition, the different points of view of various scholars are discussed with a comparative study of the ancient Egyptian culture and modern culture of Egypt and the Middle East. Formerly ANTH 1160.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 2029
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Art History

ARTH 2039 (3) Greek Art and Archaeology
Covers prehistoric Aegean through the fourth century B.C.E., considering architecture, pottery, painting, sculpture, and personal ornament. Societal customs such as use of space and burial patterns are considered as well as art and its uses, to help understand developments in Greek culture.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 2039
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARTH 2049 (3) Introduction to Roman Art and Architecture
Introduces the monuments and sites of the ancient Roman world from the foundation of Rome (753 B.C.E.) to Constantine (306-307 C.E.). Emphasizes the relationship of art, architecture, and artifacts to the political, social, and religious institutions of Italy and the provinces.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 2049
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARTH 2409 (3) Intro to Asian Art
Designed for those having no previous experience in the study of Asian art. Traces development of sculpture, painting, architecture, and the other visual arts of South Asia, the Far East, and Southeast Asia, with a synopsis of developments from 1453 through the 18th century.
Additional Information: GT Pathways: GT-AH1 - Arts Hum: Arts Expression
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History
Departmental Category: Asia Content

ARTH 3009 (3) Critical Thinking in Art History
Through structured discussions, selected readings, and written assignments provides an understanding of how art history has evolved as an academic discipline and how art historians evaluate complex issues of style, form, content, and theory in the visual arts.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARTH 3019 (3) Pompeii and the Cities of Vesuvius
Introduces the towns and villas buried by the eruption of Mt. Vesuvius in 79 C.E. Explores the layout and decoration of ancient Roman houses, the variety of artifacts uncovered as evidence for daily life and the history of the excavations.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 3019
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARTH 3109 (3) Art in Contemporary Society
Examines writings by philosophers and art critics as they address the question: What is art for? Readings focus on the 19th and 20th centuries, including current theories and some non-Western theories. Students are encouraged to develop their own responses to the question.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARTH 3209 (3) Art, Culture, and Gender Diversity, 1400--1600: Renaissance Art Out of the Canon
Studies the rising status of painting, sculpture, and architecture in Europe and how Europeans perceived non-Western art during the early modern period. Introduces history of race/ethnicity, gender, and class concerns embodied in the European category visual arts. Emphasizes new methods for interpreting history without imposing Eurocentric viewpoints.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Art History

ARTH 3241 (3) Art in Islamic Cultures
Offers an overview of art in Islamic cultures. Discusses a range of literary texts and images in order to understand these cultures. Offers an opportunity for undergraduates to expand their understanding of literature and art history. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: ARAB 3241
Additional Information: Arts Sci Gen Ed: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History
ARTH 3329 (3) Art in France: Revolution to 1870
Covers major art movements and theories in France from 1793 to 1870 on location in Paris. Students study ceramics, painting, sculpture, photography and some architecture. Political and cultural events are considered for their influence on art: excavations at Pompeii, colonial expansion in Middle East and Africa, influx of Asian art, exploration of Americas and various technical inventions.
Recommended: Prerequisites ARTH 1300 and second semester sophomore, junior or senior standing.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 3339 (3) Art in France: 1870-1970
Covers major art movements and theories in France from the Paris Commune through 1970 on location in Paris. Students study ceramics, painting, sculpture, photography and some architecture. Political and cultural events are considered for their influence on art: excavations at Pompeii, colonial expansion in Middle East and Africa, influx of Asian art, exploration of Americas and various technical inventions.
Recommended: Prerequisite ARTH 1300 and second semester sophomore, junior or senior standing.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 3359 (3) Art in Spain: Goya to 1900
Explores the scope of Goya's works in context of his contemporaries and antecedent, Velazquez; Moorish influences, genre painting costumbrismo, Romanticism and historical narratives are considered in relation to Enlightenment ideals, French Neoclassicism, Romanticism, Orientalism and the Napoleonic invasion. Teaching occurs mostly on site: Alhambra, Prado, Bellas Artes, Palacio Real, Museo de Romanticismo; seminars and tests are in Madrid classrooms.
Recommended: Prerequisite ARTH 1300.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 3369 (3) Art in Spain: 1900-1990
Covers Gaudi, Picasso and artists of Modernismo movement as well as Dali are studied in Barcelona; Dada and Surrealism are explored through works of Picasso, Gonzalez, Gris, Varo, Dali, Bunuel and others. Photography and film of Spanish Civil War and thereafter are studied in seminar in Madrid classroom; students experience flamenco performances and Q&A with performers. Tests administered in class.
Recommended: Prerequisite ARTH 1300.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 3399 (3) Modern Art Survey
Surveys the loss of beauty in art and discusses whether or not that loss is regrettable. Questions the function and historical meaning of modern and postmodern art: is it all hype and strategic positioning by artists for fame and fortune? Is it serious? Are the fine arts still fine?
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 3509 (3) American Art
Surveys American art and material culture from the precolonial era to the present day. Considers cultural and artistic interaction, ethnic expressions, patronage, European and non-Western influences, and the struggle to develop a uniquely American artistic identity.

ARTH 3519 (3) Modern Architecture, 1780--1960
Introduces the major movements and developments in European and American architecture from Neoclassicism to Postmodernism. Considers the impact of exhibitions, expositions, and vernacular architecture.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 3539 (3) Contemporary Art
Examines contemporary art and theory in the transition from modern to postmodern expression. Discusses painting, sculpture, installations, performance, video, photography, and architecture with attention to historical context and criticism. Considers neoeexpressionist, feminist, minority, political, and public art.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 3619 (3) The Arts of China
Surveys Chinese painting, sculpture, architecture, and other arts from neolithic to modern times.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History Departmental Category: Asia Content

ARTH 3629 (3) The Arts of Japan
Offers an appreciation and chronological development of the arts of Japan. Emphasizes the arts of Shintoism and Buddhism as well as the particular Japanese aesthetic from prehistoric times to the present.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History Departmental Category: Asia Content

ARTH 3639 (3) History of Media Arts
Surveys the development of technological media both as sources of information and as art. Photography and related media, film, video, holography, and electronic imaging systems are surveyed as art and as technologies, emphasizing major artists, movements, exhibitions, and other productions in the 19th and 20th centuries.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 3719 (3) Foundations in Latin American Art
Examines Latin America's cultural pluralism and art production beginning in pre-Columbian times and following through to the present. Considers the various functions of art as well as the relationship between objects, artists, and the cultures from which they come. Provides students with a broad frame of reference for many historical periods and equips students to evaluate art objects and their cultural contexts.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 3729 (3) Special Topics in Art History
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History
ARTH 4029 (1) Art History Research Methods
In this class we will investigate how art scholarship is formed and organized; learn to expertly navigate the vast array of art research resources; and explore advanced techniques for searching both online and offline sources of art information. We will work to develop a critical understanding of our own research processes and reflect on the tools and techniques that lead to both expert research and successful participation in art discourse. **Equivalent - Duplicate Degree Credit Not Granted:** LIBR 4029 and ARTH 5029
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Art History

ARTH 4069 (3) Medieval Manuscripts
Surveys decorated books from late antiquity to the advent of the printing press. Examines the various roles manuscripts played within different medieval communities.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Art History

ARTH 4089 (3) Romanesque and Gothic Art
Examines major artistic trends in Europe between the years 1000 and 1300, a period that witnessed, among others, the development of gothic cathedrals and the rise of the professional artist. Particular attention will be given to exchange with other cultures.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Art History

ARTH 4099 (3) Ancient Greek Sculpture
Understanding that Greek sculpture, like all visual media, was part of the fabric of ancient Greek life and expressed the values of its creators and audience is a valuable way to gain insights into the social, economic, and political world of ancient Greece. This course will examine the work of Greek sculptors from the Archaic to the Hellenistic period. Key stylistic and technical developments, as well as significant works of art, sculptors and workshops will be discussed in detail. Some issues we will consider are the physical, religious and/or socio-historical context of individual freestanding sculptures and how specific sculptural programs illustrate aspects of Greek culture. Iconographic and narrative choices made by artists working in stone, compared to other material, will also be addressed. **Equivalent - Duplicate Degree Credit Not Granted:** ARTH 5099 and ARTH 5099

ARTH 4109 (3) Ancient Italian Painting
Explores the problems, theories and methods for understanding the iconography, styles, topologies, contexts and techniques of fresco wall painting in ancient Italy from the 6th century B.C.E. to the 4th century C.E. Topics covered include Etruscan tomb paintings, late Republican and early imperial fresco paintings from Rome and Campania and later Roman wall paintings, including the painted images in ancient catacombs. Previous coursework on ancient Italy or the history of pre-modern art is highly recommended. **Equivalent - Duplicate Degree Credit Not Granted:** ARTH 5109 and CLAS 4109 and CLAS 5109
**Recommended:** Prerequisite CLAS 1509 or ARTH 1509 or CLAS 2049 or ARTH 2049.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Art History

ARTH 4119 (3) Roman Sculpture
Examines ancient Roman sculpture with emphasis on the display, iconography, and production of private and public monuments in the Roman Empire. Explores sculpture as evidence for historical developments, societal and gender attitudes, and state ideologies in the ancient Roman world. **Equivalent - Duplicate Degree Credit Not Granted:** ARTH 5119 and CLAS 4119 and CLAS 5119
**Recommended:** Prerequisite ARTH 1300 or CLAS 2049.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Art History

ARTH 4129 (3) Aegean Art and Archaeology
Detailed study of the cultures of prehistoric Greece, the Cycladic Islands and Crete, their art and archaeology and their history within the broader context of the eastern Mediterranean, from earliest human settlement to the collapse of the Bronze Age at about 1100 B.C.E. Emphasis is on palace states. **Equivalent - Duplicate Degree Credit Not Granted:** ANTH 4129 and ANTH 5129 and CLAS 4129 and CLAS 5129
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Art History

ARTH 4139 (3) Greek Vase Painting
A comprehensive overview of Greek vase painting, from prehistoric through the fourth century B.C.E. Emphasis is on learning the development of primary decorative styles and on refining skills of visual analysis, scholarly research, critical thinking, oral commentary and written presentation. **Equivalent - Duplicate Degree Credit Not Granted:** ARTH 5139 and CLAS 4139 and CLAS 5139
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Art History

ARTH 4149 (3) Greek Cities and Sanctuaries
Examines Greek architecture in context, from the ninth century B.C.E. into the Hellenistic period, considering the use of space, both in religious and in civic settings and using texts as well as material culture. Emphasis is on developing analytical skills. **Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4149 and CLAS 5149
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Art History

ARTH 4169 (3) Topics in Ancient and Classical Art and Archaeology
In-depth consideration of an aspect of ancient Mediterranean culture. Topics vary and may include ancient wall painting, Greek sculpture, artists and patrons, the ancient Near East, Egyptian art and archaeology, or Etruscan art and archaeology. **Equivalent - Duplicate Degree Credit Not Granted:** ARTH 5169 and CLAS 4169 and CLAS 5169
**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Art History

ARTH 4189 (3) Medieval Art
Focuses on one area of medieval art. Topics vary, but may include Carolingian, Ottonian, Romanesque, or Gothic art. Emphasizes critical thinking, methods of scholarly research, and development of writing skills.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Art History
ARTH 4199 (3) Roman Architecture
Examines the designs, functions and construction methods of ancient Roman towns, temples, baths, houses and civic structures, as well as utilitarian structures including roads and aqueducts. Emphasizes Roman architectural forms and spaces as vehicles for political propaganda and empire consolidation.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4199 and CLAS 5199
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 4209 (6) Classical Archaeological Field Methods
Offers experiential learning in theories and methods of archaeological fieldwork in the western Argolid in Greece. Applies methods for extensive survey, stratigraphic excavation, GIS modeling, ceramic analysis, numismatic analysis, architectural studies, artifact and data processing and documentation. Offered abroad only.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4209 and CLAS 5209
Repeatable: Repeatable for up to 12.00 total credit hours.
Recommended: Prerequisites CLAS 1509 or ARTH 1509 or CLAS/ARTH 2039 or CLAS/ARTH 2049.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 4229 (3) Ancient Egyptian Art and Archaeology
Archaeology of ancient Egypt in light of recent excavations; the history of excavations of the different sites; and the art of ancient Egypt through time. Formerly ANTH 4420.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 5229 and CLAS 4229 and CLAS 5229
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 4269 (3) Art and Archaeology of the Ancient Near East
Examines civilizations of the Iran-Iraq region from the rise of urbanism in Mesopotamia through the era of the first 'world empire,' Achaemenid Persia. Emphasizes the material record of religious and state institutions of the ancient Near East, especially monuments that illustrate concepts of kingship. Explores notions of style, symbolism, visual rhetoric, textual image synthesis, patronage, creativity and roles of artists.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 5269 and CLAS 4269 and CLAS 5269
Recommended: Prerequisite CLAS 1509 or ARTH 1509.

ARTH 4279 (3) Michelangelo (1475-1564)
Focuses on Michelangelo's long career, marked by outstanding achievements in sculpture, painting, architecture and poetry. Emphasizes his projects and achievements in light of 16th century artistic theory, including relationships to his contemporaries in the arts and literature.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 4309 (3) Neoclassicism and Romanticism: 1760-1840
Surveys painting and sculpture in England and France from the last quarter of the 18th century through the first half of the 19th century.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 4319 (3) European Art from 1830 to 1886
Surveys the major movements in painting in France and England from the Revolution of 1830 to the impressionist crisis of 1886. Emphasizes and discusses painting and major expressions in sculpture and architecture.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 4329 (3) Modern Art 1
Provides an in-depth study of the fin de siecle, stressing postimpressionism, art nouveau and symbolism. Concludes with fauvism in France and the expressionist movement in Germany.

ARTH 4339 (3) Modern Art 2
Begins with early Picasso and cubism, including analytic and synthetic cubism and emphasizing the various isms of the 20th century. Also studies Italian futurism, de Stijl and the Bauhaus, dada and surrealism.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 4419 (3) The Arts of Colonial Mexico and Peru
Examines important works, artists, and themes that comprise the artistic production of colonial Latin America. Focuses on the intermingling, convergence, and at times the clash of European, Amerindian, and African cultures, which established the foundation of Latin America's pluralism.
Recommended: Prerequisite ARTH 3729.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 4449 (3) Arts of India and Southeast Asia
Surveys Indian painting, sculpture and architecture from its earliest phases in the Indus Valley through the Mughal Empire. Encompasses Hindu, Buddhist and Islamic art of the subcontinent and Southeast Asia, as well as Himalayan cultures directly impacted by India's artistic legacies. Department enforced prerequisite: one 3000-level art history course (minimum grade D). 
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 4459 (3) Precolumbian Art of Mesoamerica
Introduces students to the art, architecture, and cultures of Mesoamerica, a region that encompasses modern-day Mexico, Guatemala, Belize, and parts of El Salvador, and Honduras. Focuses on major Pre-Columbian art objects and monuments to learn about the societies and cultures from which they came. Also considers the various roles that the visual arts and architecture played in these societies. Covers Olmec through Aztec civilizations.
Recommended: Prerequisite ARTH 3729.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History

ARTH 4559 (3) Twentieth-Century Architecture
Examines the major movements and development in European and American architecture, 1900-1960’s. Considers the major styles, as well as cultural interactions, race/ethnicity, gender and class concerns as they relate to both the practice and profession of architecture.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art History
ARHT 4569 (3) United States Architecture
Examines architecture as it developed in the area now defined as the continental United States from early cultures to the present. Considers the major styles and issues of cultural interaction, race/ethnicity, gender and class concerns as they relate to the practice, theory, and profession of architecture.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARHT 4599 (3) Contemporary Architecture
Examines the history and theory of contemporary architecture. In the field of architecture, theory and history differ in that the former describes and analyzes past work, while theory offers alternative solutions or new strategies for approaching the discipline. Both of these components are key to understanding contemporary architecture, and this course will work between the two modes of understanding.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARHT 4609 (3) Critical Issues in Photography
Examines the history and theory of photography and the relationship of photography to the other arts, as well as to literary, political, social and philosophical issues. Analyzes the critical issues that inform photography through the writings of critics, historians, and photographers using both thematic and chronological approaches.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARHT 4639 (3) Manet Seminar
Introduces current Manet studies and research methods by drawing upon recent books, exhibition catalogues, and scholarly journal articles. Fulfills requirement for ARHT 4919, Capstone Seminar.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARHT 4649 (3) Impressionism & Post-Impressionism
Fosters creative study of the background and foundation in modern art. Considers 19th-century European (and, to a lesser degree, American) painting and sculpture in relation to social, cultural, and political history from 1863 to 1900. Focuses on France, but gives attention to other countries as well.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARHT 4669 (3) Romanticism & Realism
Fosters creative study of the background and foundation of modern art. Considers 19th-century European painting and sculpture in relation to social, cultural, and political history from 1789 (the French Revolution) to 1863 (the Salon des refusés). Focuses on France, but gives attention to other countries as well.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARHT 4689 (3) Post-Impressionism Seminar
Introduces current Post-Impressionism studies and research methods by drawing upon recent books, exhibition catalogues, and scholarly journal articles.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARHT 4699 (3) The Idea of Art
Studies contemporary critiques of historical ideas about the twin institutions of the university and the museum and the role of art history in the cultural mission of both. Explores fundamental questions about the role of art in society through weekly discussions of readings, a class presentation, and final research. Fulfills ARHT 4919 capstone seminar required for art history majors.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARHT 4739 (3) The Intellectual Roots of Italian Renaissance Art
Studies critical issues raised in the literature on art, focusing on Renaissance interpretations of key historical themes such as imitation and decorum. Carefully examines the language used in primary sources (available in English).

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARHT 4749 (3) Italian Renaissance Art: Studies in the Exchange between Theory and Practice
Addresses how artists developed new compositional procedures, graphic techniques and audiences, and how these procedures were theorized in an age when artists' intellectual and social status rose dramatically. Explores reception of new graphic technology. Studies specific commissions and primary texts in depth.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARHT 4769 (3) Gender Studies in Early Modern Visual Culture
Examines 15th and 16th century European ideas about women from a variety of feminist perspectives. Focuses on recent contributions to history of women as they intersect with the visual arts.

Equivalent - Duplicate Degree Credit Not Granted: WGST 4769

Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Art History

ARHT 4909 (1-3) Independent Study---Art History
Repeatable: Repeatable for up to 7.00 total credit hours.

Additional Information: Departmental Category: Art History

ARHT 4919 (3) Capstone Seminar: Topics in Art History
Seminar course dealing with selected areas or problems within the history of art. Consult current online Schedule Planner for seminar topic. Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

Requisites: Restricted to Art History (AAAH) majors only.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History

ARHT 4929 (1-3) Special Topics in Art History
Equivalent - Duplicate Degree Credit Not Granted: ARHT 5929
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art History
ARTH 4939 (3-6) Art Museum Internship
Focuses on opportunities at the Denver Art Museum, working with individual curators and master teachers in selected areas, such as audience interpretation, interpretive research files, and public school curriculums. Introduces students to the professional culture and activities of art museums.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 5939
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Art History

ARTH 4959 (3) Art History Honors Thesis
May be elected during the final semester. Consists of a substantial, original written thesis. Requires faculty sponsorship. Does not guarantee a student will receive honors.
Additional Information: Arts Sciences Honors Course
Departmental Category: Art History

ARTH 5029 (1) Art History Research Methods
In this class we will investigate how art scholarship is formed and organized; learn to expertly navigate the vast array of art research resources; and explore advanced techniques for searching both online and offline sources of art information. We will work to develop a critical understanding of our own research processes and reflect on the tools and techniques that lead to both expert research and successful participation in art discourse.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 4029 and LIBR 4029
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art History

ARTH 5099 (3) Ancient Greek Sculpture
Understanding the Greek sculpture, like all visual media, was part of the fabric of ancient Greek life and expressed the values of its creators and audience is a valuable way to gain insights into the social, economic, and political world of ancient Greece. This course will examine the work of Greek sculptors from the Archaic to the Hellenistic period. Key stylistic and technical developments, as well as significant works of art, sculptors and workshops will be discussed in detail. Some issues we will consider are the physical, religious and/or socio-historical context of individual freestanding sculptures and how specific sculptural programs illustrate aspects of Greek culture. Iconographic and narrative choices made by artists working in stone, compared to other material, will also be addressed.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 4099, CLAS 4099, and CLAS 5099
Grading Basis: Letter Grade

ARTH 5109 (3) Ancient Italian Painting
Explores the problems, theories and methods for understanding the iconography, styles, topologies, contexts and techniques of fresco wall painting in ancient Italy from the 6th century B.C.E. to the 4th century C.E. Topics covered include Etruscan tomb paintings, late Republican and early imperial fresco paintings from Rome and Campania and later Roman wall paintings, including the painted images in ancient catacombs. Previous coursework on ancient Italy or the history of pre-modern art is highly recommended.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5109 and ARTH 4109 and ARTH 5109
Additional Information: Departmental Category: Art History

ARTH 5119 (3) Roman Sculpture
Examines ancient Roman sculpture with emphasis on the display, iconography, and production of private and public monuments in the Roman Empire. Explores sculpture as evidence for historical developments, societal and gender attitudes, and state ideologies in the ancient Roman world.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 4119 and CLAS 4119 and CLAS 5119
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art History

ARTH 5139 (3) Greek Vase Painting
A comprehensive overview of Greek vase painting, from prehistoric through the fourth century B.C.E. Emphasis is on learning the development of primary decorative styles and on refining skills of visual analysis, scholarly research, critical thinking, oral commentary and written presentation.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 4139 and CLAS 4139 and CLAS 5139
Additional Information: Departmental Category: Art History

ARTH 5159 (3) Hellenistic Art and Archaeology
Examines art and archaeology from the period following the death of Alexander the Great (late fourth century B.C.E.) to the conquest of Greece by the Romans (middle second century B.C.E.).
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5159
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art History

ARTH 5169 (3) Topics in Ancient and Classical Art and Archaeology
In-depth consideration of an aspect of ancient Mediterranean culture. Topics vary and may include ancient wall painting, Greek sculpture, artists and patrons, the ancient Near East, Egyptian art and archaeology, or Etruscan art and archaeology.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 4169 and CLAS 4169 and CLAS 5169
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Art History

ARTH 5179 (3) City of Athens
Explores in detail the buildings, sculptures, pots, foreign imports and society of Athens, considering material culture of individuals as much as civic programs. Emphasis is on ways the textual and archaeological evidence complement and/or contradict one another. Focuses on the Periklean period, considering ways in which it developed from earlier times and influenced later ones in Athens.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5179
Additional Information: Departmental Category: Art History

ARTH 5189 (3) City of Rome
Explores in detail the architecture, sculptures, coins, frescos and other material evidence alongside the political and social history of Augustan Rome. Emphasis is on ways in which the textual and archaeological evidence complement and/or contradict one another. Explores the impact of the early imperial period on later Roman phases of urban design and image making in the capital city.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5189
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art History
ARTH 5229 (3) Ancient Egyptian Art and Archaeology
Archaeology of ancient Egypt in light of recent excavations; the history of excavations of the different sites; and the art of ancient Egypt through time. Formerly ANTH 5420.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 4229 and CLAS 4229 and CLAS 5229
Additional Information: Departmental Category: Art History

ARTH 5269 (3) Art and Archaeology of the Ancient Near East
Examines civilizations of the Iran-Iraq region from the rise of urbanism in Mesopotamia through the era of the first 'world empire,' Achaemenid Persia. Emphasizes the material record of religious and state institutions of the ancient Near East, especially monuments that illustrate concepts of kingship. Explores notions of style, symbolism, visual rhetoric, text-image synthesis, patronage, creativity and roles of artists.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 5229 and CLAS 5229
Additional Information: Departmental Category: Art History

ARTH 5909 (1-3) Graduate Independent Study---Art History
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art History

ARTH 5929 (1-3) Special Topics in Art History
Equivalent - Duplicate Degree Credit Not Granted: ARTH 4929
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students or Art History Concurrent Degree (C-AAAH) or Film Art History Concurrent Degree (C-FILMAAAH) students only.
Additional Information: Departmental Category: Art History

ARTH 5939 (3-6) Art Museum Internship
Focuses on opportunities at the Denver Art Museum, working with individual curators and master teachers in selected areas, such as audience interpretation, interpretive research files, and public school curriculums. Introduces students to the professional culture and activities of art museums.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 4939
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Art History

ARTH 5949 (3) Visiting Scholars Seminar
Brings speakers to campus to work with seminar students, usually four guest scholars per semester, subjects vary. Students read scholar’s work and discuss methodological issues. Focuses on the research and insight of scholars who are currently shaping the field and defining research agendas. Required for all MA art history students, open to others.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art History

ARTH 5959 (3) Introduction to Critical Theory for Visual Studies
Provides overview for critical theory from Marx to contemporary writers with emphasis on their relevance to visual studies. Addresses issues that underlie a wide range of academic discussion in arts and sciences. Foucault, Derrida, Said, Lacan and other authors will be subject to weekly discussions leading to research papers, presentations, and projects. Class fulfills critical theory requirement for MFA and MA students.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art History

ARTH 5969 (1-6) Master's Project (Art History)
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Art History

ARTH 6150 (3) Critical and Theoretical Issues in Museums
Investigates key problems facing museum institutions and studies the staging and representation of historical knowledge, the ethics of collecting and display, the changing nature and uses of historical evidence and relations between curatorial practice, collecting and field work. Critically examines different approaches to museums and museology in various disciplines, both past and present.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 6150 and HIST 6150 and ANTH 6150
Requisites: Requires prerequisite course of MUSM 5011 (minimum grade D-). Restricted to graduate students only.
Additional Information: Departmental Category: Art History

ARTH 6929 (3) Seminar: Theories of Art History
Provides a systematic critical overview of the development of art history as a discipline beginning with 18th century theories of aesthetics and ending with current interdisciplinary models of critical interpretation. Weekly readings, discussions, reports, and written papers constitute the format of this seminar in methodology. Topics vary from semester to semester. Required for MA (art history) students.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students or Art History Concurrent Degree (C-AAAH) or Film Art History Concurrent Degree (C-FILMAAAH) students only.
Additional Information: Departmental Category: Art History

ARTH 6939 (3) Graduate Seminar: Open Topics in Art History
Subjects and topics vary.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students or Art History Concurrent Degree (C-AAAH) or Film Art History Concurrent Degree (C-FILMAAAH) students only.
Additional Information: Departmental Category: Art History

ARTH 6949 (1) Master’s Candidate for Degree
Requisites: Restricted to graduate students only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Art History

ARTH 6959 (1-6) Master’s Thesis
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art History

ARTH 6969 (1-6) Master’s Project (Art History)
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Art History

Art Studio and Non-Studio (ARTS) Courses

ARTS 1002 (3) Beginning Drawing 1
Formal visual elements are presented through a study of spatial relationship. Built around a series of related problems, each of which is designed to develop fluency in drawing, offer experience in handling media, foster self-confidence and promote an understanding of the visual elements and their role in the development of pictorial space.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Painting/Drawing
ARTS 1003 (3) Printmaking for Non-Majors
Emphasizes processes involved with both nonmultiple and multiple methods, including but not limited to metal plate etching (intaglio), lithography, collagraph, woodcut, linoleum cut, Xerox transfer, and monotype. Places equal emphasis on developing drawing skills and understanding design principles.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Printmaking

ARTS 1010 (3) Introduction to Studio Art
Presents creative activity conceptually, and art history thematically, with an interdisciplinary, experimental, and multicultural focus. Fine arts majors explore visual literacy and culture through presentations and student-centered projects that emphasize individual development.

ARTS 1012 (3) Drawing for Non-Majors
Explores varied drawing techniques and media. Introduces concepts relevant to the understanding of drawing and the creative process. May not be repeated.

ARTS 1020 (3) Introduction to Studio Art 2
Presents creative activity conceptually and art history thematically, with an interdisciplinary, experimental, and multicultural focus. Art and art history majors explore visual literacy and culture through presentations and student-centered projects that emphasize individual development.
Requisites: Requires prerequisite course of ARTS 1010 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

ARTS 1030 (3) Principles of Color
Introduces the relative effects of color as used by the artist. Emphasizes the practice of color relations including basic characteristics, mixtures, illusions, optical mixture, color intervals, and color quantity. May not be repeated.

ARTS 1171 (3) Photography for Non-Majors
Introduces techniques and concepts of photography as art. Emphasizes photography as a means to formal and expressive ends. Students must have an adjustable film camera.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 2171
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Photography

ARTS 1202 (3) Basic Painting
The aim of this course is to develop the basic skills, techniques and processes of painting with an understanding of basic colour principles. This integration of paint application and colour principle will develop awareness that painting and colour are used, not only as mediums for representation, but also as mediums for expressive purposes. Demonstrations, lectures, group and individual critiques will be given throughout the course.

ARTS 1212 (3) Painting for Non-Majors
Explores varied painting techniques. Introduces concepts relevant to the understanding of painting and the creative process. May not be repeated.

ARTS 1514 (3) Sculpture for Non-Majors
Offers an orientation involving three-dimensional form and application. Studies expressive and conceptual problems based on non-objective form relationships in various sculptural materials. May not be repeated.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

ARTS 1875 (3) Ceramics for Non-Majors
Encompasses broad and fundamental uses of clay. Basic instruction and demonstration of throwing, hand building, and primitive clay forming methods. Investigates utility, function, and ceramics in the broader context of contemporary art. Slide presentations explore historical and contemporary attitudes involving ceramics.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Ceramics

ARTS 2004 (3) Participatory Objects (Sculpture and Post-Studio Practice)
Looks at the tendency in contemporary sculpture to create interactive objects and experiences for the viewer. Students in this course are required to create hands-on projects, participate in group critiques and develop presentations and research projects.
Recommended: Prerequisite ARTS 2504.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

ARTS 2022 (3) Beginning Drawing
Emphasizes proportion and perspective through observation based drawing. Students are introduced to various drawing materials and learn to translate what they see into drawing media using two basic subjects: still-life and the figure.
Grading Basis: Letter Grade

ARTS 2085 (3) Ceramics 2: Handbuilding
Introduces techniques of hand-built clay forms as they relate to function and nonfunction. Various clay techniques, glazing and firing procedures are explored. Emphasizes ceramics in the broader context of contemporary art. May not be repeated.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Ceramics

ARTS 2095 (3) Ceramics 2: Wheelthrowing
Introduces techniques of wheel-thrown forms as they relate to function and nonfunction. Explores various glazing and firing methods. May not be repeated.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Ceramics

ARTS 2104 (3) Colossal Objects (Sculpture and Post-Studio Practice)
Focuses on the conception, design and production of art works that are larger than human scale. Each object will be the result of individual and team design collaboration. Primarily focuses on sculpture constructed and engineered from metal although other materials are welcome.
Recommended: Prerequisite ARTS 2504.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture
ARTS 2126 (3) Digital Art 1
An introductory course in the use of the personal computer to create and process images in the visual arts.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Media Arts

ARTS 2171 (3) Photography 1
Introduces techniques and concepts of photography as art. Emphasizes photography as a means to formal and expressive ends. Students must have an adjustable camera.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 1171
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Photography

ARTS 2191 (3) Photography 2
Explores more sophisticated technical and conceptual skills to the creative process.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Photography

ARTS 2222 (3) Beginning Painting
Emphasizes color and descriptive mark making through observation based painting. Students are introduced to various painting materials and learn to translate what they see into painting media using two basic subjects: still-life and the figure.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Painting/Drawing

ARTS 2244 (3) Drawing for Sculpture (Sculpture and Post-Studio Practice)
Explores and examines many relationships between sculpture and drawing. Projects will explore 2-D drawing and mixed media projects through the lens of sculptural practice. Scale, materials and styles will be researched along with topics such as the artists proposal, investigative processes, drawing and sculptural installations.
Recommended: Prerequisite ARTS 2504.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Sculpture

ARTS 2284 (3) Nothing Flat 1: Project a Week (Sculpture & Post-Studio Practice)
Provides students the opportunity to work with a range of sculptural materials through a series of quick projects (e.g. installation, objects, writing). Students will learn to generate ideas quickly, engage issues and formats particular to sculpture, and produce a wide range of work over 15 weeks.
Requisites: Requires prerequisite of ARTS 1010 (minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

ARTS 2303 (3) Beginning Relief
Emphasis on introductions to the concepts and techniques of relief processes, including white line, black line and four color reductive processes. Students will gain a working knowledge of fundamental relief processes, plus safe and appropriate use of all materials and equipment in the studio.
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Printmaking

ARTS 2384 (3) Fleeting and Found 1: Ephemeral Sculpture 1
Focuses on introductory level processes of creating sculpture projects which are ephemeral and temporary. Themes of process, lifespan, migration, tension, entropy, and degradation will be explored. This course will include lectures, readings and discussions, writing assignments, studio projects, and visual presentations.
Requisites: Requires prerequisite of ARTS 1010 (minimum grade C).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Sculpture

ARTS 2403 (3) Beginning Intaglio
Emphasizes an introduction to techniques of intaglio and a focus on working with copper and ferric chloride. Historical approaches and use through contemporary materials/concepts. Emphasizes interrelationship of process, materials and ideas/aesthetics.
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Printmaking

ARTS 2413 (3) Beginning Lithography
Exploration into stone lithography and aluminum plate is presented in this class. Individual direction and development of conceptual focus and studio techniques are important objectives in this class. Safer ways to make lithographs is highlighted and the toxic traditional methods are left behind.
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Printmaking

ARTS 2423 (3) Beginning Screenprinting
Exploration into screenprinting at the basic level, using stencil-making processes for screenprinting with acrylic-based screenprinting inks. Emphasis is placed on exploring and developing challenging concepts, mastering basic techniques and creating compositions and visual images that successfully convey your concept and challenge the viewer. Course is focused on the art of fine art printing on paper.
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Printmaking

ARTS 2433 (3) Beginning Alternative Printmaking
Presents creative development of concepts in printmaking beyond the traditional two-dimensional image on paper that is contained in a portfolio or frame. Focus will be made on expanding the concept of what a print will be explored in relation to each student’s studio practice and interests.
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Printmaking

ARTS 2453 (3) Beginning Monotype
Introduces the monoprint and monotype methods. Students will learn the about making non-editioned prints using a variety of four or more technical approaches. These processes will be discussed and demonstrated in depth. Students will develop a portfolio of finished prints during the semester.
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Printmaking
ARTS 2504 (3) Basic Sculpture: Materials and Techniques
Introduces the basic properties of metal, wood and mold making. Students will explore and demonstrate an understanding of basic fabrication methods involved in each element. Students will investigate both traditional and non-traditional working methods and will consider how materials and techniques inform sculptural concepts.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Sculpture

ARTS 2524 (3) Visual Thinking (Sculpture and Post-Studio Practice)
Explores ideas concerning the structure and nature of visual thinking and their relationship to the creative thought process. Investigates form in terms of the organizing principles of three-dimensional design and its application to contemporary sculpture. Includes lecture and studio projects.

Repeatable: Repeatable for up to 6.00 total credit hours.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Sculpture

ARTS 3002 (3) Drawing Alternative Process/Materials
Continuation of Drawing 2. Offers creative possibilities in drawing and related media. Emphasizes experimentation and individual expression. Content varies by semester according to instructor; contact individual instructor for more information. May be repeated once.

Repeatable: Repeatable for up to 6.00 total credit hours.

Requisites: Requires prerequisite course of ARTS 2002 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Painting/Drawing

ARTS 3004 (3) Land and Environmental Art (Sculpture and Post-Studio Practice)
Covers land and environmental art, providing an historical survey along with hands on projects in the landscape. Focusing on themes of site, environment, landforms, weather and earth materials, students will design and realize art projects on the land. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.

Requisites: Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

Recommended: Prerequisites ARTS 2504 and ARTS 2524.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Sculpture

ARTS 3014 (3) Art and Social Practice (Sculpture and Post-Studio Practice)
Covers social art practice, providing an historical survey along with hands on projects in social environments. Focusing on issues of public space, economic and cultural marginalization and political causes, this course provides students a forum for expressions of social reality. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.

Requisites: Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

Recommended: Prerequisites ARTS 2504 and ARTS 2524.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Sculpture

ARTS 3017 (1-3) Special Topics in Studio Arts
Introduces timely subjects in studio arts courses that cannot be offered on a regular basis. Information concerning the topics in any given semester is available prior to pre-registration from the department of Art and Art History.

Repeatable: Repeatable for up to 7.00 total credit hours.

Requisites: Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTH 1300 or ARTH 1400 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Seminars/Special Topics

ARTS 3022 (3) Intermediate Drawing
In addition to being a continuation of Beginning Drawing, Intermediate Drawing will focus on a non-traditional approach to making images encouraging conceptual development, experimentation and research. Moving beyond observation based drawings multiple thematic possibilities will be explored. Emphasis will be placed equally on ideas and technical execution.

Requisites: Requires prerequisite courses of ARTS 1010, 1020 and 2022 (all minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

Grading Basis: Letter Grade

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Painting/Drawing

ARTS 3054 (3) Sculpture: Modules and Multiples 2
Exposes students to the practice of creating large works through smaller multiples and modules. By learning about the practices of artists such as Andy Warhol, Joseph Beuys, Rachel Whiteread and Robert Gober, along with many others, students will generate an understanding and appreciation for the module and multiple in contemporary art practice. Students will learn to cast using pl Perler and other type of molds, will be introduced to jigs as a way to streamline production of multiple objects and will work with found objects. Students will be required to complete 3 projects, participate in group critiques of projects, produce a slide presentation on a contemporary artist whose work/practice fits within the theme of the course and prepare a final portfolio. Studio work and demonstrations will be augmented by readings and discussions on contemporary art.

Requisites: Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

Recommended: Prerequisite ARTS 2504.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Sculpture
ARTS 3085 (3) Ceramics 3
Deals with further exploration of techniques approached in ARTH 2085 and ARTH 2095. Students are encouraged to develop personal concentration in relation to medium.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of ARTS 2085 and ARTH 2095 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Ceramics

ARTS 3097 (1-3) Special Topics - Non-Studio
Introduces timely subjects in fine arts that cannot be offered on a regular basis. Information concerning the topics offered in any given semester is available prior to preregistration from the Department of Art and Art History.
Repeatable: Repeatable for up to 7.00 total credit hours.
Requisites: Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTH 1300 or ARTH 1400 (all minimum grade D-).Restricted to Studio Arts (AASA) or Fine Arts-Studio (BASA and BFAS) or Fine Arts-Art History (BAAH) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Seminars/Special Topics

ARTS 3124 (3) Intervention, Exchange, and Duration (Sculpture & Post-Studio Practice)
Focuses on the production of works of art outside of the traditional studio, museum and gallery. Projects will be designed to interrupt, intervene, co-opt, provide a service, exist for a defined amount of time, or engage a site, community or situation. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.
Requisites: Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Recommended: Prerequisite ARTS 2504.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

ARTS 3184 (3) Nothing Flat: Project a Week (Sculpture & Post-Studio Practice)
Provides students the opportunity to work with a range of sculptural materials through a series of quick projects (e.g. installation, objects, writing). Students will learn to generate ideas quickly, engage issues and formats particular to sculpture, and produce a wide range of work over 15 weeks. Formerly ARTS 2184.
Requisites: Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Recommended: Prerequisite ARTS 2504.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

ARTS 3191 (3) Photography 3
Continues the exploration of the possibility of individual photographic expression. Students are encouraged to discover and develop a personal position in relation to the medium.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of ARTS 2191 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Photography

ARTS 3196 (3) Photo-Imaging
Introduces techniques, software, and related concepts of digital photography as art. Emphasizes digital photography as a means to formal and expressive ends.
Requisites: Requires prerequisite course of ARTS 1171 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Media Arts

ARTS 3202 (3) Painting Alternative Process/Materials
Continuation of Painting 2. Offers creative possibilities in painting and related media. Emphasizes experimentation and individual expression. Content varies by semester according to instructor; contact individual instructor for more information.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of ARTS 3212 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

ARTS 3212 (3) Figure Painting
Explores varied painting techniques. Introduces concepts relevant to the understanding of painting and the creative process. May not be repeated. Formerly ARTS 2202.

ARTS 3222 (3) Intermediate Painting
In addition to being a continuation of Beginning Painting, this course focuses on a non-traditional approach to making paintings encouraging conceptual development, experimentation and research. Moving beyond observation based painting multiple thematic possibilities will be explored. Emphasis will be placed equally on ideas and technical execution.
Requisites: Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 2222 (all minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

ARTS 3224 (3) Picturing Sculpture
Explores the many ways photography and other forms of imagery have been utilized in the field of sculpture. Students will start from the sculptural, but those objects and installations will function as an intermediary to creating final work that will rest in the image. Include lectures, readings and discussions, writing assignments, studio projects and visual presentations.
Requisites: Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Recommended: Prerequisites ARTS 2504 and ARTS 2524.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

ARTS 3236 (3) Electronic Arts Survey
Explores the development of video as an art form through tape screenings, readings, lectures, and discussions. Prerequisite for further studies in video production.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Media Arts
ARTS 3284 (3) Nothing Flat 2: Project a Week (Sculpture and Post-Studio Practice)
Provides students the opportunity to work with a range of sculptural materials through a series of quick projects (e.g., installation, objects, writing). Students will learn to generate ideas quickly, engage issues and formats particular to sculpture, and produce a wide range of work over 15 weeks. This course builds on ideas introduced in Nothing Flat 1.
Requisites: Requires prerequisite of ARTS 1010 and ARTS 1020 and prerequisite or corequisite of ARTS 2504 (all minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

ARTS 3303 (3) Relief I
Continued exploration of relief processes: various techniques of the collagraph process in combination with the art and process of the collagraph. Examining the collage aesthetic, creating collages and collograph prints from found materials and objects. Other skills to be focused on include registration methods, blend rolls and the experimentation with rubbings.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 2303 (all minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Printmaking

ARTS 3354 (3) Bend, Build, Burn: Sculpture in Wood
Focuses on the production of works of art in wood. Class projects explore building, bending, and burning with wood. Focuses on sculptural constructed objects although possibilities of installation, site-specific and public art will also be explored.
Requisites: Requires prerequisite courses of ARTS 1010 and ARTS 1020 (all minimum grade D-).
Recommended: Prerequisites ARTS 2504 and ARTS 2524.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

ARTS 3384 (3) Fleeting and Found 2: Ephemeral Sculpture 2
Focuses on creating sculpture projects which are ephemeral and temporary. Themes of process, lifespan, migration, tension, entropy and degradation will be explored. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.
Requisites: Requires prerequisite of ARTS 1010 (minimum grade C).
Recommended: Prerequisites ARTS 2504 and ARTS 2524.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

ARTS 3403 (3) Intaglio 1
Exploration into techniques of Intaglio with a focus on working with copper and ferric chloride. Historical approaches and use through contemporary materials and concepts. Emphasis is placed on mastering basic techniques, creating compositions and visual images, and exploring and developing concepts that challenge the viewer.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 2403 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Printmaking

ARTS 3413 (3) Lithography 1
Introduces the study of stone and metal plate lithography, emphasizing individual creative development in black and white and further development in color printing processes. Not available to freshmen. Taught with ARTS 4413 and ARTS 5413.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Printmaking

ARTS 3423 (3) Screen Printing 1
Introduces the study of silkscreen techniques, emphasizing creativity, individual development, and experimentation in contemporary silkscreen processes.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Printmaking

ARTS 3433 (3) Alternative Printmaking 1
Continued exploration into the development of alternative techniques and materials, methods of extending the print beyond 2-dimensions and expanding the concept of what is a print will be explored in relation to each student’s studio practice and interests.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 2433 (all minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Printmaking

ARTS 3434 (3) Collaboration: Art and Collective Action
Covers both historical background and hands on projects that are collaborative in nature. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.
Requisites: Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Recommended: Prerequisites ARTS 2504 and ARTS 2524.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

ARTS 3453 (3) Monotype 1
A continued exploration in the monoprint and monotype methods. Use of a varied grouping of matrices will be the focus of this class. Students will develop a portfolio of finished prints during the semester.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 2453 (all minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Printmaking

ARTS 3504 (3) Sculpture 3: Experiments 1
Explores materials, methods, and techniques through a variety of assignments expanding our ideas and their relationship to contemporary aesthetics.
Requisites: Requires prerequisite courses of ARTS 2504 and ARTS 2524 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture
ARTS 3514 (3) Sculpture 3: Experiments 2
Explores individual concepts and ideas and their relationship to contemporary issues and aesthetics. A series of assignments are worked out with the instructor based on individual interest.
**Requisites:** Requires prerequisite course of ARTS 3504 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

ARTS 3604 (3) Beyond the Studio: Post-Studio Art Practice
Overview of post-studio art practice and covers the historical landscape of artists and projects that have pushed "beyond the studio" since 1970. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.
**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

ARTS 3614 (3) Lost in Space: Installation Art
Students learn how to develop ideas in relation to installation art, exhibition spaces, and explore practical skills to help carry out their ideas. Includes lectures, readings and discussion, writing assignments, studio projects and visual presentations.
**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

ARTS 3702 (3) Special Focus in Painting and Drawing
Offers varied focus and special topics in painting, drawing, and related media to explore specialized directions and creative possibilities. Emphasizes experimentation. Content varies by semester; contact individual instructor for more information.
**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
**Requisites:** Requires prerequisite course of ARTS 2002 or ARTS 2202 (minimum grade D-).
**Recommended:** Prerequisite ARTS 3002 or ARTS 3202.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Painting

ARTS 3714 (3) Experimental Structures (Sculpture and Post-Studio Practice)
Explores the interface of sculpture and architecture. Looks at individuals and collectives that have become renowned for their work with experimental structures and students will have the opportunity to build hands-on experiments. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.
**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

ARTS 3841 (1-3) Undergraduate Independent Study---Photography
Reserved only for special projects in photography, not offered in the curriculum. Requires a detailed proposal, instructor's signature and departmental approval.
**Repeatable:** Repeatable for up to 6.00 total credit hours.
**Requisites:** Requires prerequisite course of ARTS 3191 or ARTS 4161 (minimum grade D-).
**Additional Information:** Departmental Category: Photography

ARTS 3842 (1-3) Undergraduate Independent Study---Painting
Reserved for special projects in painting not offered in the curriculum. Requires a detailed proposal, instructor's sponsorship, and departmental approval.
**Repeatable:** Repeatable for up to 6.00 total credit hours.
**Requisites:** Requires prerequisite course of ARTS 3202 (minimum grade D-).
**Additional Information:** Departmental Category: Painting/Drawing

ARTS 3845 (1-3) Undergraduate Independent Study---Ceramics
Reserved for special projects in ceramics not offered in the curriculum. Requires a detailed proposal, instructor's sponsorship, and departmental approval.
**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
**Requisites:** Requires prerequisite course of ARTS 3085 (minimum grade D-).

**ARTS 3847 (1-3) Independent Study**
Reserved for special projects not offered in the curriculum. Department enforced prerequisite: detailed proposal, instructor sponsorship, and departmental approval.
**Repeatable:** Repeatable for up to 6.00 total credit hours.
**Additional Information:** Departmental Category: Seminars/Special Topics

ARTS 3906 (1-3) Undergraduate Independent Study---Video
Reserved for special projects in video not offered in the curriculum. Requires a detailed proposal, instructor's sponsorship, and departmental approval.
**Repeatable:** Repeatable for up to 6.00 total credit hours.
**Requisites:** Requires prerequisite course of ARTS 4246 (minimum grade D-).
**Additional Information:** Departmental Category: Media Arts

ARTS 3937 (1-6) Internship
Gives upper-division students the opportunity to work in public or private organizations on assignments relating to their career goals, and allows them to explore the relationship between theory and practice in their major.
**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
**Additional Information:** Departmental Category: Seminars/Special Topics

ARTS 4002 (3) Advanced Drawing/Portfolio
Continuation of Drawing 3. Advanced studio class in drawing for creative expression and individual portfolio development. Emphasis varies by semester; contact individual instructor for more information.
**Repeatable:** Repeatable for up to 12.00 total credit hours.
**Requisites:** Requires prerequisite course of ARTS 1010 and 1020 and 2222 and 3222 (all require minimum grade of D-). Restricted to Junior and Senior Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Painting/Drawing
ARTS 4004 (3) Land and Environmental Art (Sculpture and Post-Studio Practice)
Covers land and environmental art, providing an historical survey along with hands on projects in the landscape. Focusing on themes of site, environment, landforms, weather, and earth materials, students will design and realize art projects on the land. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.
**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Sculpture

ARTS 4014 (3) Art and Social Practice (Sculpture and Post-Studio Practice)
Covers social art practice, providing an historical survey along with hands on projects in social environments. Focusing on issues of public space, economic and cultural marginalization and political causes, provides students a forum for expressions of social reality. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.
**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Sculpture

ARTS 4017 (1-3) Special Topics in Studio Arts
Introduces timely subjects in studio art courses that cannot be offered on a regular basis. Information on topics in any given semester is available prior to pre-registration in departmental office.
**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5017
**Repeatable:** Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTH 1300 or ARTH 1400 (all minimum grade D-). Restricted to Studio Arts (AAAS or AASF) or Art History (AAAH) majors only.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Seminars/Special Topics

ARTS 4024 (3) Public Art
Focuses on the two areas 1) lecture/discussion, both based on political, historical and the aesthetic evolution regarding examples of public art and 2) current practice, in reference to how to use such information to generate new more innovative and original ideas regarding public art and its application. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.
**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5024
**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
**Recommended:** Prerequisites ARTS 2504 and ARTS 2524 and ARTS 3504.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Sculpture

ARTS 4085 (3) Ceramics 4
Develop a personal creative practice through self-generated, independent projects. The focus is on developing an individual studio discipline through experimentation, research, reading and writing and examining the work in individual critiques.
**Repeatable:** Repeatable for up to 12.00 total credit hours.
**Requisites:** Requires prerequisite course of ARTS 3085 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Ceramics

ARTS 4087 (3) Selected Topics in Contemporary Art
Selectively studies significant areas of visual art of the last decade including major critical opinions.
**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5087
**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
**Requisites:** Requires prerequisite of 20 units of ARTS or ARTH coursework completed (minimum grade D-).
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Seminars/Special Topics

ARTS 4095 (3) Special Topics in Ceramics
Designed for students majoring in ceramics.
**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5095
**Repeatable:** Repeatable for up to 9.00 total credit hours.
**Requisites:** Requires prerequisite course of ARTS 3085 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Ceramics

ARTS 4097 (1-3) Special Topics-Non-Studio
Introduces timely subjects in the visual arts that cannot be offered on a regular basis. Information concerning the topics offered in any given semester is available prior to preregistration from the fine arts department.
**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5097
**Repeatable:** Repeatable for up to 6.00 total credit hours.
**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTH 1300 or ARTH 1400 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Seminars/Special Topics

ARTS 4104 (3) Performance/Installation
Primarily focuses upon personal imagery as a live situation occurring in either an invented constructed reality or real environment. Work may be individual or group configuration and may also take on the visual linguistic form of a solo performance or of a multimedia presentation.
**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5104
**Repeatable:** Repeatable for up to 6.00 total credit hours.
**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTH 1300 or ARTH 1400 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Sculpture

ARTS 4107 (1-3) Special Topics
**Repeatable:** Repeatable for up to 3.00 total credit hours.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Seminars/Special Topics
ARTS 4117 (3) BFA Seminar
For students intending to pursue graduate work and/or a professional career in art. Emphasizes the development of a critical overview of their work and interests and how they relate to the problems of professional activity.
Requisites: Restricted to Studio Arts (AASF) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Seminars/Special Topics

ARTS 4118 (3) Visiting Artist Program
Artists of national and international reputation, interacting with graduate and advanced undergraduate students, discuss their studio work at seminar meetings and at public lectures or events. Provides continuous input of significant developments and a comprehensive view of contemporary issues in the arts. Department enforced prerequisite: portfolio review.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5118
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 87-180 credits (Senior) Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Visiting Artist Program

ARTS 4126 (3) Digital Art 2
Offers studio experience using personal computer in the generation and processing of imagery in the visual arts.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5126
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of ARTS 2126 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Media Arts

ARTS 4127 (3) Art from Nature
Provides an opportunity for advanced students to create nature based art. Studio work and/or appropriate on-site works will be generated through readings and individual and group experiences of nature.
Requisites: Requires prerequisite of one 4000-level ARTS course (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Seminars/Special Topics

ARTS 4130 (3) Integrated Media
Encourages experimentation with media and integration of traditional areas of drawing, painting, sculpture and photography. Covers two- and three-dimensional collage/assemblage, correspondence art, artist's books, site-specific, performance, audio and video art.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5130
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Integrated Arts

ARTS 4154 (3) Metalsmithing 1
Introduces students to the fundamental techniques used in metalsmithing, including cold and hot fabrication techniques, forming and coloring. Through projects, discussions, readings and demonstrations, students will learn how to create, analyze, understand and critique contemporary metalwork. Projects will focus on design and concept development, while enhancing students' technical and problem-solving skills.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5154
Requisites: Requires prerequisite courses of ARTS 1010, 1020, at least one 2000-level ARTS course, and at least one 3000-level ARTS course (all minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Sculpture

ARTS 4161 (3) Photography 4
Explores advanced techniques and concepts of photography as art. Emphasizes photography as a means to formal and expressive ends.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Requires prerequisite course of ARTS 3191 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Photography

ARTS 4171 (3) New Directions in Photography
Investigates the use of the photographic image in new, antique, or nonstandard ways including nonsilver, photosculpture, various color processes, photolanguage, photoinstallations, electronic media, performance, filmmaking, electrostatic art (copy machine), photobooks, photocollage, and audio/visual art. Course content changes each semester.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5171
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of ARTS 3191 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Photography

ARTS 4176 (3) New Directions in Digital Art
Investigates the use of digital art in various contexts including digital narrative, web publishing, Internet art, multimedia performance, animation, conceptual art, information art, sound art, language art and network installations.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5176
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite courses of ARTS 2126 and ARTS 4316 or ARTS 5316 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Media Arts
ARTS 4196 (3) Advanced Photo-Imaging
Offers an in-depth exploration of digital imaging in the context of the history, aesthetics, and tradition of photography as contemporary art. Emphasis is on digital manipulation, output and individual growth and development.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5196
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course of ARTS 2191 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Media Arts

ARTS 4202 (3) Advanced Painting/Portfolio
Continuation of Painting 3. Advanced studio class in painting for creative expression and individual portfolio development. Emphasis varies by semester; contact individual instructor for more information.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Requires prerequisite course of ARTS 1010 and 1020 and 2222 and 3222 (all require minimum grade of D). Restricted to Junior and Senior Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Painting/Drawing

ARTS 4217 (3) Art and Race/Ethnicity
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5217
Recommended: Prerequisites ARTS 1300 and ARTS 1400 or instructor consent required.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Seminars/Special Topics

ARTS 4226 (3) Advanced Computer Imaging
Explores advanced techniques and concepts of digital image-making. Emphasizes the creative application of computer imaging in the production of visual art through individual projects.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5226
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of ARTS 4126 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Media Arts

ARTS 4236 (3) Electronic Arts Survey 2
Continuation of electronic arts survey. Explores the development of video as an art form. Prerequisite for further studies in video production.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5236
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Media Arts

ARTS 4246 (3) Beginning Video Production
Presents a studio course on basic single camera video production strategies and concepts. Through class screenings, projects, demonstrations, discussions, and readings, students gain an introductory familiarity with camera, lighting, sound, editing and the organization and planning involved in a video project. Explores a basic theoretical understanding of video as an art form and its relationship to television, film, art, history, culture.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5246 and FILM 4240
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Media Arts

ARTS 4303 (3) Relief 2
Continued exploration into the expressive/formal aesthetics of relief processes. Studio practice/investigation of artistic attitudes as exemplified through historical perspectives, traditional/contemporary usages.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 3303 (all minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Printmaking

ARTS 4316 (3) History and Theory of Digital Art
Explores the history and theory of digital art. Discussion topics include the emergence of Internet art, hypertext, new media theory, online exhibitions, web publishing, virtual reality and the networked interface. Includes collaborative and individual projects.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5316
Requisites: Requires prerequisite course of ARTS 2126 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Media Arts

ARTS 4327 (3) Biennial Art
Covers art represented in the most current international biennials (Documenta, Venice Bienale, Sao Paulo Biennial, Havana Biennial, Gwanju Biennial and the Istanbul Biennial). Art will be analyzed by applying postmodern theory, postcolonial theory and international theoretical perspectives that have not yet been integrated into Western thought.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5327
Requisites: Requires prerequisite courses of ARTH 1300 and ARTH 1400 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Seminars/Special Topics

ARTS 4403 (3) Intaglio 2
Continued exploration of techniques of intaglio process, including non-acid and ferric chloride techniques with copper as the main matrix being used. Possible processes focused on include: photo etching using solar plates and introduction to printing ala poupee wiping, chine colle and basic color. Building a unified body of work is the main focus.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 3403 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Printmaking
ARTS 4413 (3) Lithography 2
Continues the study of stone and metal plate lithography, emphasizing individual creative development in black and white and further development in color printing processes. Digital imaging and nontoxic processes are emphasized as much as possible. Taught with ARTS 3413 and ARTS 5413.
Repeateable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of ARTS 3413 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Printmaking

ARTS 4423 (3) Screen Printing 2
Introduces advanced screen printing technology, emphasizing individual creativity and the ability to resolve problems of two-dimensional form.
Repeateable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of ARTS 3423 (minimum grade D-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Printmaking

ARTS 4433 (3) Alternative Printmaking 2
Continued research into developing a sharper critical response, both aesthetically and conceptually, to their own work, as well as the work of other artists. Various alternative printmaking methods will be introduced and each student is expected to explore and examine these processes through a body of work. Emphasis is put on the interrelationship of processes, materials and ideas/aesthetics.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5433
Repeateable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 3433 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Printmaking

ARTS 4434 (3) Collaboration: Art & Collective Action
Covers the history of sound art from Luigi Russolo and his noise machine during the Futurist Movement to today’s experimental music/sound art contributions. Students will listen to sound art works by artists in all areas of sound art, as well as read about theoretical views on sound art.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5457
Requisites: Requires prerequisite courses of ARTH 1300 and ARTH 1400 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Seminars/Special Topics

ARTS 4444 (6) Art and Rural Environments Field School
puts students in touch with various rural landscapes in Colorado. Takes place off campus each summer during Maymester. Focuses on site-based approaches to art creation and is designed as an experiential course, meaning that students learn through the experience of place and then by the process of making. After introductions to each site, students will be responsible for a site interpretation piece utilizing various mediums including photography, drawing, land art and collaboration.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5444
Requisites: Requires prerequisite courses of ARTS 1010 and ARTS 1020 (all minimum grade D-).
Recommended: Prerequisite ARTS 2504.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

ARTS 4453 (3) Monotype 2
Continued research into developing techniques of using a varied grouping of matrixes will be the focus of this class. Students will be expected to develop sharper critical responses both aesthetically and conceptually, to their own work, as well as the work of other artists.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5453
Repeateable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 3453 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Printmaking

ARTS 4504 (3) Advanced Sculpture Studio
Students in this course will be required to complete projects, participate in group critiques of projects, produce a slide presentation on a contemporary artist whose work/practice fits within the theme of the course and prepare a final portfolio. Studio work and demonstrations will be augmented by readings and discussions on contemporary art.
Repeateable: Repeatable for up to 12.00 total credit hours.
Requisites: Requires prerequisite courses of ARTS 3504 and ARTS 3514 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

ARTS 4604 (3) Beyond the Studio: Post-Studio Art Practice
Overview of Post-Studio art practice and covers the historical landscape of artists and projects that have pushed “beyond the studio” since 1970. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.
Requisites: Requires prerequisite courses of ARTS 1010 and ARTS 1020 (all minimum grade D-).
Recommended: Prerequisites ARTS 2504 and ARTS 2524.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

ARTS 4607 (3) Art and Social Change
Examines how art is used as an agent for social change. Among topics addressed by artists interested in social change are: immigration, HIV/AIDS, illness/disease, ecology/the environment, feminism, gay and lesbian issues, war, violence, racial and ethnic minorities, etc.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5607
Requisites: Requires prerequisite courses of ARTH 1300 and ARTH 1400 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Seminars/Special Topics
ARTS 4641 (3) String Instrument Building
As a prelude to sculptural art making processes, this course explores a variety of materials, methods and techniques and their application to the making of a musical string instrument, i.e. planning, designing, material selection and a wide variety of woodworking processes. We will also cover theoretical discussions into what is being made.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 5641
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Sculpture

ARTS 4714 (3) Experimental Structures (Sculpture and Post Studio Practice)
Explores the interface of sculpture and architecture. Looks at individuals and collectives that have become renowned for their work with experimental structures and students will have the opportunity to build hands-on experiments. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.
Requisites: Requires prerequisite courses of ARTS 1010 and ARTS 1020 (all minimum grade D-).
Recommended: Prerequisites ARTS 2504 and ARTS 2524.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Sculpture

ARTS 4717 (1-3) Studio Critique
Consists of consultations with faculty on individual studio problems and projects. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Seminars/Special Topics

ARTS 5017 (1-3) Special Topics in Studio Arts
Introduces timely subjects in studio art courses that cannot be offered on a regular basis. Information on topics in any given semester is available prior to pre-registration in departmental office.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4017
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Seminars/Special Topics

ARTS 5024 (3) Public Art
Focuses on the two areas 1) lecture/discussion, both based on political, historical and the aesthetic evolution regarding examples of public art and 2) current practice, in reference to how to use such information to generate new more innovative and original ideas regarding public art and its application. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4024
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Sculpture

ARTS 5075 (3) Graduate Ceramics
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Ceramics

ARTS 5087 (3) Selected Topics in Contemporary Art
Selectively studies significant areas of visual art of the last decade including major critical opinions.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4087
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Seminars/Special Topics

ARTS 5095 (3) Special Topics in Ceramics
Designed for students majoring in ceramics.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4095
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Ceramics

ARTS 5097 (1-3) Special Topics-Non-Studio
Introduces timely subjects in the visual arts that cannot be offered on a regular basis. Information concerning the topics offered in any given semester is available prior to preregistration from the fine arts department.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4097
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Seminars/Special Topics

ARTS 5104 (3) Performance/Installation
Primarily focuses upon personal imagery as a live situation occurring in either an invented constructed reality or real environment. Work may be individual or group configuration and may also take on the visual linguistic form of a solo performance or of a multimedia presentation.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4104
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Sculpture

ARTS 5107 (1-3) Special Topics
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Departmental Category: Seminars/Special Topics

ARTS 5117 (3) Graduate Art Seminar
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Seminars/Special Topics

ARTS 5118 (3) Visiting Artist Program
Artists of national and international reputation, interacting with graduate and advanced undergraduate students, discuss their studio work at seminar meetings and at public lectures or events. Provides continuous input of significant developments and a comprehensive view of contemporary issues in the arts.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4118
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Visiting Artist Program

ARTS 5126 (3) Digital Art 2
Offers studio experience using personal computer in the generation and processing of imagery in the visual arts.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4126
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Media Arts
ARTS 5130 (3) Integrated Media
Encourages experimentation with media and integration of traditional areas of drawing, painting, sculpture and photography. Covers two- and three-dimensional collage/assemblage, correspondence art, artist’s books, site-specific, performance, audio and video art.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4130
Additional Information: Departmental Category: Integrated Arts
ARTS 5140 (3) Integrated Arts Studio
Explores the creative process through a series of conceptually-based studio exercises. Students are encouraged to work across traditional media boundaries as they address themes such as identity, place, spirituality, politics, and consumerism. Includes individual and collaborative studio projects, as well as reading and writing about the course themes.
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Departmental Category: Integrated Arts
ARTS 5150 (3) Graduate Integrated Arts
Investigates the conjunction of interdisciplinary concepts in the creation of art. Looks beyond traditional media to new sources for art-making. A curious intellect, combined with exceptional research skills, will be the basis for original writing and rigorous discussion.
Repeatable: Repeatable for up to 18.00 total credit hours.
Additional Information: Departmental Category: Integrated Arts
ARTS 5154 (3) Metalsmithing 1
Introduces students to the fundamental techniques used in metalsmithing, including cold and hot fabrication techniques, forming and coloring. Through projects, demonstrations, readings and discussions, students will learn how to create, analyze, understand and critique contemporary metalwork. Projects will focus on design and concept development, while enhancing students’ technical and problem-solving skills.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4154
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Sculpture
ARTS 5161 (3) Graduate Photography
Repeatable: Repeatable for up to 18.00 total credit hours.
Additional Information: Departmental Category: Photography
ARTS 5171 (3) New Directions in Photography
Investigates the use of the photographic image in new, antique, or nonstandard ways including nonsilver, photosculture, various color processes, photolanguage, photoinstallations, electronic media, performance, filmmaking, electrostatic art (copy machine), photobooks, photocollage, and audio/visual art. Course content changes each semester.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4171
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Photography
ARTS 5176 (3) New Directions in Digital Art
Investigates the use of digital art in various contexts including digital narrative, web publishing, Internet art, multimedia performance, animation, conceptual art, information art, sound art, language art and network installations.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4176
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Media Arts
ARTS 5196 (3) Advanced Photo-Imaging
Offers an in-depth exploration of digital imaging in the context of the history, aesthetics, and tradition of photography as contemporary art. Emphasis is on digital manipulation, output and individual growth and development.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4196
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Departmental Category: Media Arts
ARTS 5202 (3) Graduate Painting
Repeatable: Repeatable for up to 18.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Painting/Drawing
ARTS 5217 (3) Art and Race/Ethnicity
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4217
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Seminars/Special Topics
ARTS 5226 (3) Advanced Computer Imaging
Explores advanced techniques and concepts of digital image-making. Emphasizes the creative application of computer imaging in the production of visual art through individual projects.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4226
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of ARTS 5126 (minimum grade D-).
Additional Information: Departmental Category: Media Arts
ARTS 5236 (3) Electronic Arts Survey 2
Continuation of electronic arts survey. Explores the development of video as an art form. Prerequisite for further studies in video production.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4236
Additional Information: Departmental Category: Media Arts
ARTS 5246 (3) Graduate Beginning Video Production
Presents a studio course on basic single camera video production strategies and concepts. Through class screenings, projects, demonstrations, discussions, and readings, students gain an introductory familiarity with camera, lighting, sound, editing and the organization and planning involved in a video project. Explores a basic theoretical understanding of video as an art form and its relationship to television, film, art, history, culture.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4246 and FILM 4240
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Media Arts
ARTS 5303 (3-18) Graduate Relief
Continues the study of the expressive/formal aesthetics of relief processes. Studio practice/investigation of artistic attitudes as exemplified through historical perspectives, traditional/contemporary usages. Students with limited experience in relief processes will be given an overview in those practices.
Repeatable: Repeatable for up to 18.00 total credit hours.
Requisites: Restricted to Studio Arts or Art History (AASA or AAAH) graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Printmaking
ARTS 5316 (3) History and Theory of Digital Art
Explores the history and theory of digital art. Discussion topics include the emergence of Internet art, hypertext, new media theory, online exhibitions, web publishing, virtual reality and the networked interface. Includes collaborative and individual projects.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4316
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Media Arts

ARTS 5327 (3) Biennial Art
Covers art represented in the most current international biennials (Documenta, Venice Biennale, Sao Paulo Biennial, Havana Biennial, Gwanju Biennial and the Istanbul Biennial). Art will be analyzed by applying postmodern theory, postcolonial theory and international theoretical perspectives that have not yet been integrated into Western thought.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4327
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Media Arts

ARTS 5346 (3) Graduate Intermediate Video Production
Continuation of beginning video production. Extends the knowledge of single camera video production strategies and concepts. Expands the concept of montage (editing) and strategies to develop a video project through class screenings, projects, discussions and readings. Furthers theoretical understanding of video as an art form.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4346 and FILM 4340
Requisites: Requires prerequisite course of ARTS 4246 or ARTS 5246 (minimum grade D-). Restricted to graduate students only.
Additional Information: Departmental Category: Media Arts

ARTS 5403 (3) Graduate Intaglio
Continuation of the study of expressive and formal aesthetics of Intaglio processes. Studio practice and investigation of artistic attitudes as exemplified through historical perspectives, traditional, and contemporary usages. Building a body of work in this course is the goal. Taught with ARTS 3403 and ARTS 4403.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to Studio Arts or Art History (AASA or AAAH) graduate students only.
Additional Information: Departmental Category: Printmaking

ARTS 5413 (3) Graduate Lithography
Taught with ARTS 3413 and ARTS 4413.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Printmaking

ARTS 5423 (3) Graduate Screen Printing
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Printmaking

ARTS 5433 (3) Alternative Printmaking 2
Continued research into developing a sharper critical response, both aesthetically and conceptually, to their own work, as well as the work of other artists. Various alternative printmaking methods will be introduced and each student is expected to explore and examine these processes through a body of work. Emphasis is put on the interrelationship of processes, materials and ideas/aesthetics.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4433
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Printmaking

ARTS 5444 (6) Art and Rural Environments Field School
Puts students in touch with various rural landscapes in Colorado. Takes place off campus each summer during Maymester. Focuses on site-based approaches to art creation and is designed as an experiential course, meaning that students learn through the experience of place, and then by the process of making. After introductions to each site, students will be responsible for a site interpretation piece utilizing various mediums including photography, drawing, land art and collaboration.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4444
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Sculpture

ARTS 5446 (3) Graduate Advanced Video Production
Continuation of intermediate video production. Explores advanced technical skills to control the quality of the video image in production, postproduction, and distribution. Emphasizes self-motivated independent projects, conceptual realization of advanced student work and basic working knowledge of distribution and life as a media artist. Promotes further theoretical understanding of video as an art form.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4446 and FILM 4440
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Media Arts

ARTS 5453 (Monotype 2
Continued research into developing techniques of using a varied grouping of matrices will be the focus of this class. Students will be expected to develop sharper critical responses both aesthetically and conceptually, to their own work, as well as the work of other artists.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4453
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Printmaking

ARTS 5457 (3) Sound Art Seminar
Covers the history of sound art from Luigi Russolo and his noise machine during the Futurist Movement to today's experimental music/sound art contributions. Students will listen to sound art works by artists in all areas of sound art, as well as read about theoretical views on sound art.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4457
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Seminars/Special Topics

ARTS 5504 (3) Graduate Sculpture
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Sculpture

ARTS 5540 (3) Generative Art
Attends to the interdisciplinary pursuits of scientists, humanists and anyone interested in creating works of visual art according to step by step procedures as in musical compositions, mathematical formulae, linguistic rules, computer programs, etc. Includes collaborative and individual projects.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Integrated Arts
ARTS 5607 (3) Art and Social Change
Examines how art is used as an agent for social change. Among topics addressed by artists interested in social change are: immigration, HIV/AIDS, illness/disease, ecology/the environment, feminism, gay and lesbian issues, war, violence, racial and ethnic minorities, etc.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4607
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Seminars/Special Topics

ARTS 5641 (3) String Instrument Building
As a prelude to sculptural art making processes, this course explores a variety of materials, methods and techniques and their application to the making of a musical string instrument, i.e. planning, designing, material selection and a wide variety of woodworking processes. We will also cover theoretical discussions into what is being made.
Equivalent - Duplicate Degree Credit Not Granted: ARTS 4641
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Sculpture

ARTS 5717 (1-3) Graduate Studio Critique
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Seminars/Special Topics

ARTS 5857 (1-3) Graduate Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Seminars/Special Topics

ARTS 5901 (1-3) Graduate Independent Study---Photography
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Photography

ARTS 6957 (1-6) Master of Fine Arts Creative Thesis
Additional Information: Departmental Category: Seminars/Special Topics

Arts and Sciences Courses (ARSC)

Courses

ARSC 1000 (3-4) Expository Writing
Develops college-level reading, writing, and thinking. Students are asked to read critically, then construct written responses that are revised and crafted into more formal essays and position papers. Offered through the Student Academic Services Center. Department enforced prerequisite: program coordinator consent required.
Additional Information: Departmental Category: Writing

ARSC 1080 (4) College Writing and Research
Introduces academic and professional genres through the research and inquiry process. Students practice close reading, oral presentation, drafting, synthesis, analysis and research skills in discussion, writing workshops, and one-on-one conferences.
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Lower
Departmental Category: Writing
MAPS Course: English

ARSC 1081 (1) SASC Coseminar: College Writing and Research
One-credit seminar provides extended instruction in written composition for students enrolled in ARSC 1080. Graded assignments enrich students’ understanding of genre, organization, research skills, and grammar. Department enforced corequisite: ARSC 1080.
Additional Information: Departmental Category: Writing

ARSC 1150 (3) Writing in Arts and Sciences
Emphasizes the development of effective writing skills with instruction provided in expository and analytical writing. Reviews basic elements of grammar, syntax, and composition as needed.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: GT Pathways: GT-CO2 - Communication
Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Lower
Departmental Category: Writing

ARSC 1200 (1-3) Topics in Arts and Sciences
Additional Information: Departmental Category: Special Curricula

ARSC 1400 (1) SASC Coseminar: Chemistry 1 & 2
Supplements and strengthens student experiences in chemistry. Allows particularly gifted students an opportunity to extend their understanding of the subject and to explore possible careers in science.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Departmental Category: Miramontes Arts and Sciences Program (MASP)

ARSC 1420 (1) SASC Coseminar: Introduction to EEB
Designed to supplement and strengthen student experiences in EBIO 1210 and EBIO 1220. Allows particularly gifted students an opportunity to extend their understanding of the subject and possible careers in science.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Departmental Category: Miramontes Arts and Sciences Program (MASP)

ARSC 1432 (1) SASC Coseminar: Economics
Designed to supplement and strengthen student experiences in microeconomics. Allows particularly gifted students an opportunity to extend their understanding of the subject and to explore possible careers in social science.
Repeatable: Repeatable for up to 2.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Miramontes Arts and Sciences Program (MASP)

ARSC 1440 (1) SASC Coseminar: Mathematics
Offers an unusual and essential opportunity for students to receive small-group enrichment and reinforcement. Supplements and strengthens student experiences in mathematics, allowing particularly gifted students an opportunity to extend their understanding of the subject in a supportive environment, and to explore possible careers in science.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Departmental Category: Miramontes Arts and Sciences Program (MASP)

ARSC 1450 (3) Intro to STEM Research Method: In the Field and at the Bench
Uses experiential learning as a strategy to teach STEM science concepts. Lectures in STEM sciences provide background information on science concepts while the hands-on, inquiry-based and research-based lab activities are designed to allow students to explore the scientific method as it is applied to CU STEM research. Topics will highlight the interdisciplinary aspect of STEM research.
Additional Information: Departmental Category: Miramontes Arts and Sciences Program (MASP)
ARSC 1460 (1) SASC Coseminar: Biology
Supplements and strengthens student experiences in introductory IPHY courses. Students work through course material that cannot be covered in detail during lecture.
**Repeatable:** Repeatable for up to 4.00 total credit hours.
**Additional Information:** Departmental Category: Miramontes Arts and Sciences Program (MASP)

ARSC 1470 (1) MASP Natural Science Seminar
Enhances students' knowledge and appreciation of the natural sciences. Readings, discussions, cooperative learning exercises and outside activities explore the richness of scientific discovery related to core natural science concepts. Emphasizes the scientific method and the history and people making scientific discoveries. Department consent required.
**Repeatable:** Repeatable for up to 4.00 total credit hours.

ARSC 1480 (1) MASP Social Science Seminar
Fosters an appreciation of the social sciences. Readings, discussions, cooperative learning exercises, and outside activities illustrate the interconnections between different bodies of knowledge. Emphasizes relationships between the social sciences and the real world. Department consent required.
**Repeatable:** Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.
**Additional Information:** Departmental Category: Miramontes Arts and Sciences Program (MASP)

ARSC 1490 (1) MASP Humanities Seminar
Enhances students' knowledge and appreciation of the humanities. Readings, discussions, cooperative learning exercises, workshopping papers and presentation, guest speakers, and outside activities are designed to enhance both students' appreciation of the subject matter and their performance in their regular courses. Emphasis is on actively using knowledge of humanities in a variety of ways. Department consent required.
**Repeatable:** Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.
**Additional Information:** Departmental Category: Miramontes Arts and Sciences Program (MASP)

ARSC 1492 (1-3) MASP Research Seminar
Enhances students' knowledge and appreciation of the humanities, the social sciences or STEM-related fields. The course's readings, discussions, cooperative learning exercises, work-shopping papers and presentations, guest speakers, and outside activities are designed to enhance both students' appreciation of the subject matter and their performance in their regular courses. Emphasis will be placed on actively using knowledge of humanities, social sciences or STEM fields in a variety of ways. Department consent required.
**Repeatable:** Repeatable for up to 6.00 total credit hours.
**Additional Information:** Departmental Category: Miramontes Arts and Sciences Program (MASP)

ARSC 1600 (1) The University of Colorado Experience
Provides an effective transition to the university by giving students a solid base for developing scholarship, citizenship, decision making, and involvement in their university community. Topics include academic and campus resources, safety, health, and diversity.
**Additional Information:** Departmental Category: Special Curricula

ARSC 1710 (1) SASC Coseminar: Mathematics
Provides motivated pre-calculus students with more in-depth and more challenging coverage of material assumed in calculus. Students complete advanced problems that cannot be covered in pre-calculus courses due to time constraints. Mastery of material is emphasized. Department enforced prerequisite: proficiency in high school mathematics.
**Additional Information:** Departmental Category: Special Curricula

ARSC 1720 (1) SASC Coseminar: Calculus Work Group
This 1-credit seminar provides motivated calculus students with more in-depth and more challenging coverage of material assumed in calculus. Students complete advanced problems that cannot be covered in calculus courses due to time constraints. Mastery of material is emphasized. Department enforced requisites: proficiency in pre-calculus mathematics and an A/B average in pre-calculus sequence. Department enforced corequisite: MATH 1300.
**Additional Information:** Departmental Category: Special Curricula

ARSC 1800 (3) Methods of Inquiry
Introduces students to methodologies used in different academic disciplines, e.g., how a paleographer dates a manuscript. Course is team-taught. Students must also enroll in two of four corequisite course sections, all in different areas of the core curriculum. The corequisite course sections are listed in the online Schedule Planner.
**Additional Information:** Departmental Category: Special Curricula

ARSC 2000 (3) Ways of Knowing: Constructions of Knowledge in the Academy and Beyond
This course asks students to interrogate natural learning tendencies, how they know what they know, and how to cultivate other ways of knowing beyond intellectual. They analyze how knowledge is created, discovered, and interpreted. They will explore what faculties are involved in learning, seeing, understanding and knowing; how revolutions in knowledge arise; the relationship between knowledge and power; and what wisdom is. Students draw on different ways of expressing knowledge, including the intellect, intuition, and more. Department consent required.
**Equivalent - Duplicate Degree Credit Not Granted:** NRLN 2000
**Grading Basis:** Letter Grade
**Additional Information:** Arts Sci Core Curr: NRLN 2000
**Arts Sci Gen Ed:** Distribution-Arts Humanities
**Departmental Category:** Special Curricula

ARSC 2274 (3) Peer Counseling
Introduction to basic peer education and counseling theory and techniques. Students learn experientially by practicing a variety of skills in an informal atmosphere. The material learned is valuable to students professionally (as employee or supervisor in any field or as helping professional) regardless of career path. Students increase self-awareness and apply it to their own lives. Offered Fall semesters only.
**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
**Additional Information:** Departmental Category: Special Curricula

ARSC 2400 (1) SASC Coseminar: Organic Chemistry
Supplements and strengthens student experiences in organic chemistry. Allows gifted students an opportunity to extend their understanding of the subject and to explore possible careers in science.
**Repeatable:** Repeatable for up to 2.00 total credit hours.
**Additional Information:** Departmental Category: Miramontes Arts and Sciences Program (MASP)
ARSC 2470 (1) SASC Coseminar: Physics 1 and 2
Supplements and strengthens student experiences in physics. Allows particularly gifted students an opportunity to extend their understanding of the subjects and to explore possible careers in science.
Repeatability: Repeatable for up to 2.00 total credit hours.
Additional Information: Departmental Category: Miramontes Arts and Sciences Program (MASP)

ARSC 3001 (6) Social Engagement & Human Rights: The South Africa Model
Examines the concept of reconciliation from a multidimensional and multidisciplinary approach as it specifically contributes to subjects of difference.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Special Curricula

ARSC 3100 (3) Multicultural Perspective and Academic Discourse
Teaches students how to write academic papers related to race, class, gender, sexuality, and other areas of cultural identity. Students acquire expertise on issues through readings, guided discussion, and research and practice oral presentation skills, drafting, and workshopping of papers. Department enforced prerequisite: lower level writing course(s) or waiver.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Written Communication-Upper
Departmental Category: Writing

ARSC 3600 (3) Diversity Issues: Higher Education
Uses Internet dialogue, computing, and media technology to improve communication and develop research and inquiry skills and critical thinking. Race, class, gender, and sexual orientation issues are addressed to foster understanding of university codes of inquiry and modes of interaction in scholarly communities. Department enforced prerequisite: admission to McNair Program, junior standing, minimum GPA of 2.50, and strong interest in graduate school.
Additional Information: Departmental Category: Special Curricula

ARSC 3650 (3) Diversity Issues in Graduate Education
Guides students through research on diversity and retention issues in graduate education. Participants use Tinto's work on academic and social integration as a conceptual framework. Further, students investigate how specific institutions support diversity goals in their graduate programs. Department enforced prerequisite: admission to McNair Program (minimum 2.50 GPA, three recommendation letters, personal statement, strong interest in graduate school).
Additional Information: Departmental Category: Special Curricula

ARSC 3700 (1-5) McNair Seminar: Research Design
Multidisciplinary course guiding critical thinking as students design a formal investigation. Includes presenting and writing a prospectus. Students revise the prospectus, creating a proposal for funding the research as well as HRC proposals. Department enforced prerequisite: admission to McNair Program (junior standing, minimum GPA of 2.50, and a strong interest in graduate school).
Repeatability: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Special Curricula

ARSC 3935 (1-6) Internship
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Special Curricula

ARSC 4000 (3) Multimedia Applications in Foreign/Second Language Education
Focuses on knowledge and skills in accessing, evaluating and integrating technology assisted, mediated material in the teaching and learning of foreign languages. Focuses on hands-on design and production of instructional software for foreign languages.
Equivalent - Duplicate Degree Credit Not Granted: ARSC 5000
Recommended: Prerequisite a language-teaching methodology course.
Additional Information: Departmental Category: Special Curricula

ARSC 4040 (1-3) Arts and Sciences Special Topics
Equivalent - Duplicate Degree Credit Not Granted: ARSC 5040
Additional Information: Departmental Category: Special Curricula

ARSC 4700 (1-5) The McNair Seminar: Research Practices and Procedures
Within the range of scholarly modes, student researchers examine discipline-specific rationales for evidence and analysis. Lecturers distinguish popular concepts of investigation from scholarly research. Students learn to take great care describing and discussing methods, findings, interpretations, assertions, and conclusions. Department enforced prerequisite: admission to McNair Program (junior standing, meeting TRIO guidelines, strong interest in graduate school).
Repeatability: Repeatable for up to 10.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Special Curricula

ARSC 4750 (3-4) Social Foundations of Professional Life in Washington DC
In this course, students will gain deep exposure to the historical, cultural, and socio-economic traditions and pressures that drive domestic and international policy making in Washington D.C. Students will read widely, prepare papers, and lead discussions on fundamental aspects of Washington's professional life. Course takes place in the nation's capital and is taken in conjunction with a professional internship. Restricted to CU in D.C. program participants.
Additional Information: Departmental Category: Special Curricula

ARSC 4909 (2-6) Senior Thesis for Individually Structured Major
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Special Curricula

ARSC 4910 (1) McNair Practicum: Principles and Practices of University Teaching
Teaches the core principles of pedagogy at the university level and provides students guidance and feedback on constructing a teaching session in collaboration with a faculty mentor. Using the instructional practices of their discipline, students discuss issues university faculty encounter in their quest toward teaching excellence. The expertise of the Graduate Teacher Program, the Preparing Future Faculty Network and the Faculty Teaching Excellence Program will be drawn upon for supplemental resources, seminars and workshops. Department enforced prerequisite: ARSC 4700 and restricted to McNair Program Students.
Repeatable: Repeatable for up to 3.00 total credit hours.
Additional Information: Departmental Category: Special Curricula

ARSC 5000 (3) Multimedia Applications in Foreign/Second Language Education
Focuses on knowledge and skills in accessing, evaluating and integrating technology assisted, mediated material in the teaching and learning of foreign languages. Focuses on hands-on design and production of instructional software for foreign languages.
Equivalent - Duplicate Degree Credit Not Granted: ARSC 4000
Recommended: Prerequisite a language-teaching methodology course.
Additional Information: Departmental Category: Graduate-Level Courses
Asian Studies (ASIA)

Courses

ASIA 2000 (3) Gateway to Modern Asia: Exploring Regional Connections
Introduces main themes, intellectual approaches used in Asian Studies through a transdisciplinary perspective that focuses on interactions and links between geographic regions and national boundaries. Presents Asia as a concept, a powerful imaginary geography, and historically dynamic construct that has shaped / been shaped by global patterns of economic development, nation building, war and diplomacy, colonialism and aspirations for better lives.

Grading Basis: Letter Grade

ASIA 2852 (3) Contemporary Southeast Asia: Environmental Politics
Examines globally pressing questions of environmental sustainability, regional inequality and development in the dynamic and heterogeneous landscapes of contemporary Southeast Asia. Focuses on interactions between histories of uneven development and contemporary debates over energy and infrastructure, food security, governance and access to land, forest and water-based resources.

Equivalent - Duplicate Degree Credit Not Granted: GEOG 2852

Grading Basis: Letter Grade

ASIA 3300 (3) Sex and Gender in Asian Film and Literature
Explores issues of sex and gender in traditional and contemporary Asian cultures by looking at how sex and gendered roles are configured and play out in Asian cultures. Employs film and literary sources which reflect, subvert and act as agents of change in the dominant cultures.

Grading Basis: Letter Grade

ASIA 3900 (3) Discovering Urban China: Tradition, Modernity, Nostalgia
Explores the ways Chinese cities, especially Beijing and Shanghai, are depicted in scholarly articles, films, literature and population culture in terms of tradition, modernity and nostalgia. Begins by defining the terms then discusses texts dealing with these themes. Discussions are linked to what the students observe first-hand as they explore the cities. Takes place in China.

Grading Basis: Letter Grade

ASIA 4001 (1) Advanced Language Co-Seminar Arts and Humanities
Acts as a Co-Seminar for advanced Asian Studies students.

Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Grading Basis: Pass/Fail

ASIA 4002 (1) Advanced Language Co-Seminar Social Sciences
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Grading Basis: Pass/Fail

ASIA 4448 (3) World War II in Southeast Asia
Examines World War II in Southeast Asia, emphasizing the political, social, economic, cultural, and ideological impact of the conflict. How can we define "Southeast Asia"? In what ways did conflict affect men and women, soldiers and civilians, and ethnic, religious, and sexual communities? How can we understand the war as a local, regional, and global experience, with legacies for today?

Grading Basis: Letter Grade

ASIA 4500 (3) Urban Asia: Tradition, Modernity, Challenges
Explores change in urban Asia, the representation of Asian cities, and the challenges of urban life through a transdisciplinary and thematic approach using academic articles, documentaries, and literary materials. The class discusses the role of tradition, concepts of modernity, the impact of tourism, rural to urban migration, poverty, the effects of war, legacies of colonialism, and environmental challenges.

Grading Basis: Letter Grade

ASIA 4830 (3) Senior Seminar in Asian Studies
Participates in a discussion seminar on topics in Asian Studies, conducts research and writes a final paper or creates a final project on an approved Asian topic, following guidelines established by the program director. Required for an Asian Studies major but open to non-Asian Study majors.

Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

Grading Basis: Letter Grade
ASTRA 4840 (1-3) Independent Study
Provides an independent study opportunity, by special arrangement with Asian Studies faculty, for students with particular Asian Studies interests.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Asian Studies (ASIA) majors only.
Additional Information: Departmental Category: Asia Content

ASTRA 4842 (3) Global Frontiers in Southeast Asia
Uses the theme of the global frontier to examine and compare three key moments in the modern history of Southeast Asia: the colonial encounter, the rise of the modern territorial state, and the age of contemporary globalization. Examines case studies from earlier eras to analyze emerging global frontiers at the junction of state territoriality and transnational economic expansion.
Equivalent - Duplicate Degree Credit Not Granted: GEOG 4842 and GEOG 5842
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences

ASTRA 4930 (1-6) Engage Asia: Internship in Asian Studies
Matches students with supervised internships relevant to academic topics in Asian studies. Students work with CAS faculty and internship supervisors, i.e., intern with companies or non-profits doing Asia-related business or project.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Requisite Asian language and culture courses.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Asia Content

Astrophysical and Planetary Sciences (ASTRA)

Courses

ASTRA 1000 (3) The Solar System
Introduction to the night sky, planets, moons and the life in our solar system. Highlights the latest discoveries from space. For non-science majors. Some lectures may be held at Fiske Planetarium. Offers opportunities for nighttime observations at Sommers-Bausch Observatory.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 1010, but without lab ASTR 1010 or ASTR 1030
Requisites: Restricted to non- Astronomy (ASTR) majors only.
Additional Information: Arts Sci Core Curr: Natural Science Sequence
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science

ASTRA 1010 (4) Introductory Astronomy 1
Introduction to the night sky, planets, moons and the life in our solar system. Highlights the latest discoveries from space. For non-science majors. Some lectures may be held at Fiske Planetarium. Requires nighttime observations at Sommers-Bausch Observatory. Degree credit granted for only one of ASTR 1000 or ASTR 1010.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 1000, but with additional lab
Requisites: Restricted to non- Astronomy (ASTR) majors only.
Additional Information: Arts Sci Core Curr: Natural Science Sequence
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Maps Course: Natural Science Lab or Lab/Lec

ASTRA 1020 (4) Introductory Astronomy 2
Non-science majors learn the nature and workings of the Sun, stars, neutron stars, black holes, galaxies, quasars, structure and origins of the universe. Some lectures may be held at Fiske Planetarium. Offers opportunities for nighttime observations at Sommers-Bausch Observatory. Includes recitation. Sequence link ASTR 1010. Credit granted for only one of ASTR 1020 or ASTR 1200.
Requisites: Requires a prerequisite course of ASTR 1000 or ASTR 1010 (minimum grade C). Restricted to non- Astronomy (ASTR) majors only.
Additional Information: Arts Sci Core Curr: Natural Science Sequence
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

ASTRA 1030 (4) Accelerated Introductory Astronomy 1
Covers principles of modern astronomy summarizing our present knowledge about the Earth, Sun, moon, planets and origin of life. Requires nighttime observation sessions at Sommers-Bausch Observatory. Required in ASTR major/minor. Like ASTR 1000 and 1010, but taught at a higher intellectual level, including a significant amount of quantitative analysis.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 1000 or ASTR 1010
Requisites: Requires prerequisite or corequisite course of MATH 1300 or APPM 1350 or APPM 1340 and APPM 1345 (all minimum grade C).
Additional Information: GT Pathways: GT-SC1 - Natural Physical Sci: Lec Crse w/ Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

ASTRA 1040 (4) Accelerated Introductory Astronomy 2
Covers principles of modern astronomy summarizing our present knowledge about the Sun, stars, birth and death of stars, neutron stars, black holes, galaxies, quasars, and the organization and origins of the universe. May require nighttime observing sessions at Sommers-Bausch Observatory. Required in ASTR major/minor. Includes a recitation. Taught at a higher intellectual level including a significant amount of quantitative analysis.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 1020 and ASTR 1200
Requisites: Requires prerequisite course of ASTR 1010 or ASTR 1030 and MATH 1300 or APPM 1350 or APPM 1340 and APPM 1345 (all minimum grade C).
Additional Information: GT Pathways: GT-SC2 - Natural Physical Sci: Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
ASTR 1200 (3) Stars and Galaxies
Non-science majors are introduced to the nature and workings of the Sun, stars, neutron stars, black holes, interstellar gas, galaxies, quasars, plus structure and origins of the universe. Some lectures may be held at Fiske Planetarium. Offers opportunities to attend nighttime observation sessions at Sommers-Bausch Observatory.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 1020 and ASTR 1040
Requisites: Restricted to non-Astronomy (ASTR) majors only.
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science

ASTR 2000 (3) Ancient Astronomies of the World
Documents the numerous ways in which observational astronomy and cosmology have been features of ancient cultures. Includes naked eye astronomy, archaeoastronomy, ethnoastronomy, concepts of time, calendrics, cosmogony, and cosmology.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science

ASTR 2010 (3) Modern Cosmology-Origin and Structure of the Universe
Introduces modern cosmology to nonscience majors. Covers the Big Bang; the age, size, and structure of the universe; and the origin of the elements and of stars, galaxies, the solar system, and life.
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science

ASTR 2020 (3) Space Astronomy and Exploration
Introduces principles, methods and tools of scientific programming commonly used in research. Topics include an introduction to programming in Python, data structures, numerical methods for calculus and data manipulation/visualization. Techniques covered are relevant to many technical fields but emphasis is placed on application to problems in astronomy and planetary science. Class time is split between lectures and in-lab tutorials.
Requisites: Requires prerequisite course of PHYS 1120 or PHYS 1125 and APPM 1360 or MATH 2300 (minimum grade C-).
Grading Basis: Letter Grade

ASTR 2020 (3) The Search for Life in the Universe
Introduces non-science majors to the many ways out Sun influences life and society. Covers how the Sun generates energy, how it evolves over billions of years, how it affects Earth's climate and biology, how it produces dangerous "space weather", how we can harness its power and how life in other solar systems would depend on the properties of their Suns.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science

ASTR 2100 (3) Fundamental Concepts in Astrophysics
Covers topics in modern physics required for upper-level astrophysics and planetary science courses, including quantum mechanics, electromagnetic spectra, atomic and nuclear physics, and thermodynamics, in the context of astrophysics, planetary and space sciences. Also introduces key topics in mathematics to support these topics.
Requisites: Requires prerequisite course of PHYS 1120 or PHYS 1125 and APPM 1360 or MATH 2300 (minimum grade C-).
Grading Basis: Letter Grade

ASTR 2200 (3) Space Weather
Introduces the basics of atmosphere and space sciences, space exploration, spacecraft design, rocketry and orbits. Students design, build, and launch a miniature satellite on a high altitude balloon. Explores the current research in space through lectures from industry.
Equivalent - Duplicate Degree Credit Not Granted: ASEN 1400
Requisites: Restricted to Astronomy (ASTR) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ASTR 2500 (3) Gateway to Space
Introduces the scientific basis for the possible existence of extraterrestrial life. Includes origin and evolution of life on Earth; possibility of life elsewhere in the solar system, including Mars; and the possibility of life on planets around other stars. Department enforced prerequisite: one-year sequence in a natural science. Credit only for this course or ASTR 2040.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 3300
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
ASTR 3400 (3) Research Methods in Astronomy
Introduces research methods in astronomy and engages students in an active research project. The research projects will vary and may include astronomical observations, data analysis, scientific programming, theoretical models and statistical inference. As part of their research, students will read scientific papers, attend local seminars and prepare oral and written research proposals and reports. Elective for ASTR majors.
Requisites: Requires prerequisite courses of ASTR 1040 and PHYS 1125 or 1120 (all minimum grade C). Requires co-requisite or prerequisite of ASTR 2600 (minimum grade C). Restricted to ASTR majors.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ASTR 3510 (4) Observations and Instrumentation 1
Lab course in astronomical observation and instrumentation. Hands-on exercises include obtaining and analyzing multi-wavelength data, basic optical design and instrumentation and statistical analysis of data, with emphasis on imaging applications. A significant number of night time observation sessions are required. Elective for APS majors. Elective for APS minors on space available basis.
Requisites: Requires a prerequisite or corequisite of APPM 1360 or MATH 2300 and ASTR 1020 or ASTR 1040 and PHYS 1120 (all minimum grade C). Restricted to Astrophysics (ASTR) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ASTR 3520 (4) Observations and Instrumentation 2
Lab course in observation and instrumentation. Hands-on exercises include obtaining and analyzing multi-wavelength data, optical design and instrumentation, and statistical analysis, with emphasis on spectroscopy. A significant number of night time observation sessions are required. Elective for APS majors. Elective for APS minors on space available basis.
Requisites: Requires a prerequisite course of ASTR 3510 (minimum grade C). Restricted to Astrophysics (ASTR) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ASTR 3560 (3) Astronomical Instrumentation Laboratory
Teaches students aspects of astronomical instrument design in a hands-on setting. Students will learn elementary principles of geometrical optics, diffraction, light detection, signal conditioning, data acquisition and motion control, and mechanical design. Students will apply these principles working in groups to design and build optical spectrometers.
Requisites: Requires prerequisite courses of ASTR 1040 and MATH 2300 or APPM 1360 and PHYS 2170 (all minimum grade C). Restricted to Astrophysics (ASTR) majors only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ASTR 3710 (3) Formation & Dynamics of Planetary Systems
Covers the origin of planetary systems and their dynamical evolution. Topics include the physics and chemistry of planetary formation, orbital mechanics and extrasolar planets. This course and ASTR 3720 and ASTR 3750 may be taken in any order. Elective for APS major and minor.
Requisites: Requires prerequisite course of PHYS 1120 and MATH 2300 or APPM 1360 (all minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ASTR 3720 (3) Planets and Their Atmospheres
Explores the physics and chemistry of the atmospheres of Mars, Venus, Jupiter, Saturn, and Titan. Examines evolution of the atmospheres of Earth, Venus, and Mars; and the escape of gases from the Galilean satellites, Titan and Mars; the orbital characteristics of moons, planets, and comets. Uses recent results of space exploration. Elective for APS major and minor.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 3720
Requisites: Requires prerequisite courses of PHYS 1120 and APPM 1360 or MATH 2300 (all minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ASTR 3730 (3) Astrophysics 1 - Stellar and Interstellar
Provides a quantitative introduction to the radiative and gravitational physics relevant to stellar and galactic astrophysics, as applied to understanding observations of stars, stellar evolution, stellar remnants and the structure of the Milky Way. Elective for APS major and minor.
Requisites: Requires prerequisite courses of PHYS 2130 or PHYS 2170 or ASTR 2100 (all minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ASTR 3740 (3) Cosmology and Relativity
Special and general relativity as applied to astrophysics, cosmological models, observational cosmology, experimental relativity and the early universe. Elective for APS major and minor.
Requisites: Requires prerequisite courses of PHYS 2130 or PHYS 2170 or ASTR 2100 (all minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ASTR 3750 (3) Planets, Moons, and Rings
Approaches the physics of planets, emphasizing their surfaces, satellites, and rings. Topics include formation and evolution of planetary surfaces, history of the terrestrial planets, and dynamics of planetary rings. This course and ASTR 3720 may be taken for credit in any order. Elective for APS major and minor.
Requisites: Requires prerequisite courses of PHYS 1120 and APPM 1360 or MATH 2300 (all minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ASTR 3760 (3) Solar and Space Physics
Explores the physical processes linking the Sun and planets, emphasizing solar radiative and particulate variability and the response of planetary atmospheres and magnetospheres. Topics include the solar dynamo, solar wind, coronal mass ejections, cosmic ray modulation, magnetospheres, aurora, the space environment, and climate variability. Elective for APS major and minor.
Requisites: Requires prerequisite courses of PHYS 2130 or PHYS 2170 or ASTR 2100 (all minimum grade C).
Recommended: Prerequisite PHYS 3310.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ASTR 3800 (3) Introduction to Scientific Data Analysis and Computing
Introduces scientific data analysis from a practical perspective. Covers statistical analysis, model fitting, error analysis, theoretical compliance and image analysis with examples from space-based and ground-based astronomy. Elective for APS major. Opened to qualified non-majors with instructor consent.
Requisites: Requires prerequisite course of ASTR 2600 and prerequisite or corequisite courses of ASTR 1020 or ASTR 1040 and PHYS 1120 and APPM 1360 or MATH 2300 (all minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
ASTR 3830 (3) Astrophysics 2 - Galactic and Extragalactic
The second semester of a year-long introduction to astrophysical processes. The physical processes developed in ASTR 3730 are applied to topics in extragalactic astronomy, including galaxies, supermassive black holes, galaxy clusters and cosmology. Elective for APS major and minor.
**Requisites:** Requires prerequisite courses of ASTR 3730 and PHYS 2130 or PHYS 2170 and APPM 2350 or MATH 2400 (all minimum grade C).
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

ASTR 4330 (3) Cosmochemistry
Investigates chemical and isotopic data to understand the composition of the solar system: emphasis on the physical conditions in various objects, time scales for change, chemical and nuclear processes leading to change, observational constraints, and various models that attempt to describe the chemical state and history of cosmological objects in general and the early solar system in particular. Department enforced prerequisite: upper-division undergraduate standing in physical science and upper-division undergraduate chemistry or physics or math courses.
**Equivalent - Duplicate Degree Credit Not Granted:** ASTR 5330 and GEOL 4330 and GEOL 5330
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

ASTR 4500 (1-3) Special Topics in Astrophysical and Planetary Sciences
Topics vary each semester.
**Repeatable:** Repeatable for up to 9.00 total credit hours.
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

ASTR 4800 (3) Space Science: Practice and Policy
Exposes students to current controversies in science that illustrate the scientific method and the interplay of observation, theory, and science policy. Students research and debate both sides of the issues, which include strategies and spin-offs of space exploration, funding of science, big vs. small science, and scientific heresy and fraud.
**Recommended:** Prerequisite one year of college level astronomy or physics.
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

ASTR 4840 (1-3) Independent Study
Instructor consent required.
**Repeatable:** Repeatable for up to 6.00 total credit hours.

ASTR 4841 (1-3) Independent Study
**Repeatable:** Repeatable for up to 7.00 total credit hours.

ASTR 5110 (3) Atomic and Molecular Processes
Explores the application of quantum physics and statistical mechanics to problems in astrophysics, space physics and planetary science, with an emphasis on radiative processes and spectroscopy of atoms and molecules.
**Requisites:** Restricted to graduate students only.

ASTR 5120 (3) Radiative and Dynamical Processes
An introduction to radiative and dynamical processes aimed at graduate students in astrophysics, space physics and planetary science. Covers transport phenomena, the macroscopic treatment of radiation fields, magnetohydrodynamics and dynamical processes associated with planetary orbits and N-body systems.
**Requisites:** Restricted to graduate students only.

ASTR 5140 (3) Astrophysical and Space Plasmas
Teaches magnetohydrodynamics and a few related areas of plasma physics applied to space and astrophysical systems, including planetary magnetospheres and ionospheres, stars, and interstellar gas in galaxies.
**Equivalent - Duplicate Degree Credit Not Granted:** PHYS 5141
**Requisites:** Restricted to Physics (PHYS) or Astronomy (ASTR) graduate students only.

ASTR 5150 (3) Introductory Plasma Physics
Includes basic phenomena of ionized gases, static and dynamic shielding, linear waves, instabilities, particles in fields, collisional phenomena, fluid equations, collisionless Boltzman equations, Landau damping, scattering and absorption of radiation in plasmas, elementary nonlinear processes, WKB wave theory, controlled thermonuclear fusion concepts, astrophysical applications and experimental plasma physics (laboratory).
**Equivalent - Duplicate Degree Credit Not Granted:** PHYS 5150
**Requisites:** Restricted to graduate students only.

ASTR 5300 (3) Introduction to Magnetospheres
Introduces solar and stellar winds, and planetary and stellar magnetospheres. Acquaints students with the guiding center theory for particle motion, magnetospheric topology, convection, radiation belts, magnetic storms and substorms, and auroras.
**Requisites:** Restricted to graduate students only.

ASTR 5330 (3) Cosmochemistry
Investigates chemical and isotopic data to understand the composition of the solar system: emphasis on the physical conditions in various objects, time scales for change, chemical and nuclear processes leading to change, observational constraints, and various models that attempt to describe the chemical state and history of cosmological objects in general and the early solar system in particular. Department enforced prerequisite: graduate standing in physical science and graduate chemistry or physics or math courses.
**Equivalent - Duplicate Degree Credit Not Granted:** ASTR 4330 and GEOL 4330 and GEOL 5330
**Requisites:** Restricted to graduate students only.

ASTR 5400 (3) Fluid Instabilities, Waves, and Turbulence
Involves linear and nonlinear analyses of small-scale waves and instabilities in stratified fluids, with effects of rotation. Studies internal gravity and acoustic waves with terrestrial, planetary and astrophysical applications. Studies thermal and double-diffusive convection, homogeneous and stratified shear flow instabilities. Examines these topics from the onset of small amplitude disturbances to their nonlinear development and equilibrium. Department enforced prerequisite: ASTR 5400 or ATOC 5400.
**Equivalent - Duplicate Degree Credit Not Granted:** ATOC 5410
**Requisites:** Restricted to graduate students only.

ASTR 5410 (3) Fluid Instabilities, Waves, and Turbulence
ASTR 5540 (3) Mathematical Methods
Presents an applied mathematics course designed to provide the necessary analytical and numerical background for courses in astrophysics, plasma physics, fluid dynamics, electromagnetism, and radiation transfer. Topics include integration techniques, linear and nonlinear differential equations, WKB and Fourier transform methods, adiabatic invariants, partial differential equations, integral equations, and integrodifferential equations. Draws illustrative examples from the areas of physics listed above.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 5540
Requisites: Restricted to graduate students only.

ASTR 5550 (3) Observations, Data Analysis and Statistics
Introduces multi-wavelength observational techniques, their limitations and effects of various noise sources. Describes basic data handling, error analysis, and statistical tests relevant to modeling. Topics include probability distributions, model-fitting algorithms, confidence intervals, correlations, sampling and convolution. Students derive physical measurements and uncertainties with hands-on analysis of real datasets. Department enforced prerequisite: senior level undergraduate physics or instructor consent will be required.
Requisites: Restricted to graduate students only.

ASTR 5560 (3) Radiative Processes in Planetary Atmospheres
Application of radiative transfer theory to problems in planetary atmospheres, with primary emphasis on the Earth's atmosphere; principles of atomic and molecular spectroscopy; infrared band representation; absorption and emission of atmospheric gases; radiation flux and flux divergence computations; radiative transfer and fluid motions; additional applications such as the greenhouse effect, inversion methods and climate models. Department enforced prerequisite or corequisite: ASTR 5110.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 5560
Requisites: Restricted to graduate students only.

ASTR 5700 (3) Stellar Astrophysics
Explores stellar interiors, evolution and atmospheres, with the Sun and its heliosphere being used as the closest and best-studied example of a star. Covers energy generation, transport, principles of stellar structure, stellar rotation, pulsation and evolution to supernova and compact object stages. Includes radiation transport in stellar photospheres, chromospheres, coronas, winds. Department enforced prerequisite: senior level undergraduate physics.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite ASTR 5120.

ASTR 5710 (3) High-Energy Astrophysics
Studies astrophysics of UV, x-ray, gamma-ray and cosmic-ray sources, including fundamentals of radiative and particle processes, neutron stars, black holes, pulsars, quasars, supernovas and their remnants; stellar flares; accretion disks; binary x-ray sources; and other cosmic x-ray sources. Department enforced prerequisite: senior level undergraduate physics.
Requisites: Restricted to graduate students only.

ASTR 5720 (3) Galaxies
Highlights the classification, structure, content, dynamics, and other observational properties of galaxies, active galaxies, and clusters of galaxies. Discusses Hubble's Law, the cosmic distance scale, and the intergalactic medium. Department enforced prerequisite: senior level undergraduate physics.
Requisites: Restricted to graduate students only.

ASTR 5730 (3) Stellar Atmospheres and Radiative Transfer
Explores stellar atmospheres: basic stellar atmospheres, spectral line formation, interpretation of stellar spectra and model atmospheres. Examines solar physics: the Sun as a star, solar cycle, chromospheric and coronal structure, energy balance, magnetic field and solar wind. Department enforced prerequisites: ASTR 5110 and undergraduate physics.
Requisites: Restricted to graduate students only.

ASTR 5740 (3) Interstellar Astrophysics
Highlights structure, dynamics and ecology of the interstellar medium, stressing the physical mechanisms that govern the thermal, ionization and dynamic state of the gas and dust; observations at all wavelengths; star formation; relation to external galaxies. Department enforced prerequisite: ASTR 5110.
Requisites: Restricted to graduate students only.

ASTR 5760 (3) Astrophysical Instrumentation
Covers the fundamentals underlying the design, construction and use of instrumentation used for astrophysical research ranging from radio-wavelengths to gamma rays. Topics include Fourier transforms and their applications, optical design concepts, incoherent and coherent signal detection, electronics and applications, and signal acquisition and processing. Department enforced prerequisite: senior level undergraduate physics.
Requisites: Restricted to graduate students only.

ASTR 5770 (3) Cosmology
Studies the smooth universe, including Friedmann-Robertson-Walker metric, Friedmann equations, cosmological parameters, inflation, primordial nucleosynthesis, recombination, and cosmic microwave background. Also studies the lumpy universe, including linear growth of fluctuations, power spectra of CMB and galaxies, dark matter, and large scale flows. Covers galaxy formation and intergalactic medium. Department enforced prerequisite: senior level undergraduate physics or instructor consent will be required.
Requisites: Restricted to graduate students only.

ASTR 5780 (3) Mission Design and Development for Space Sciences
Brings science and engineering students together to develop the multidisciplinary skills required to create a successful proposal to develop a NASA-funded small space mission. Goals: 1) develop the proposal science objectives based on scientific community priorities and NASA Announcement of Opportunity. 2) Understand how science requirements lead to the design of instrumentation. 3) Understand practical aspects of mission development.
Equivalent - Duplicate Degree Credit Not Granted: ASEN 5440
Grading Basis: Letter Grade

ASTR 5800 (3) Planetary Surfaces and Interiors
Examines processes operating on the surfaces of solid planets and in their interiors. Emphasizes spacecraft observations, their interpretation, the relationship to similar processes on Earth, the relationship between planetary surfaces and interiors and the integrated geologic histories of the terrestrial planets and satellites.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 5800
Requisites: Restricted to graduate students only.
ASTR 5810 (3) Planetary Atmospheres
Covers the structure, composition, and dynamics of planetary atmospheres. Includes the origin of planetary atmospheres, chemistry and cloud physics, greenhouse effects, climate, and the evolution of planetary atmospheres - past and future.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 5810 and GEOL 5810
Requisites: Restricted to graduate students only.

ASTR 5820 (3) Origin and Evolution of Planetary Systems
Considers the origin and evolution of planetary systems, including proto-planetary disks, condensation in the solar nebula, composition of meteorites, planetary accretion, comets, asteroids, planetary rings and extrasolar planets. Applies celestial mechanics to the dynamical evolution of solar system bodies.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 5820 and GEOL 5820
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

ASTR 5830 (3) Topics in Planetary Science
Examines current topics in planetary science, based on recent discoveries, spacecraft observations and other developments. Focuses on a specific topic each time the course is offered, such as Mars, Venus, Galilean satellites, exobiology, comets or extrasolar planets.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 5830 and GEOL 5830
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to graduate students only.

ASTR 5835 (1) Seminar in Planetary Science
Studies current research on a topic in planetary science. Students and faculty give presentations. Subjects may vary each semester. Department enforced prerequisite: senior level undergraduate physics.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 5835 and GEOL 5835
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to graduate students only.

ASTR 5920 (1-6) Reading and Research in Astrophysical and Planetary Sciences
Instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

ASTR 6000 (1) Seminar in Astrophysics
Studies current research and research literature on an astrophysical topic. Students and faculty give presentations. Subjects vary each semester. May be repeated for a total of 4 credit hours to meet candidacy requirements.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to graduate students only.

ASTR 6050 (3) Space Instrumentation
Provides an overview of the relevant space environment and process, the types of instruments flown on recent mission and the science background of the measurement principles.
Equivalent - Duplicate Degree Credit Not Granted: ASEN 6050 and GEOL 6050
Grading Basis: Letter Grade

ASTR 6610 (3) Earth and Planetary Physics 1
Examines mechanics of deformable materials, with applications to earthquake processes. Introduces seismic wave theory. Other topics include inversion of seismic data for the structure, composition and state of the interior of the Earth.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 6610 and PHYS 6610
Requisites: Restricted to graduate students only.

ASTR 6620 (3) Earth and Planetary Physics 2
Covers space and surface geodetic techniques as well as potential theory. Other topics are the definition and geophysical interpretation of the geoid and of surface gravity anomalies; isostasy; post-glacial rebound; and tides and the rotation of the Earth.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 6620 and PHYS 6620
Requisites: Restricted to graduate students only.

ASTR 6630 (3) Earth and Planetary Physics 3
Examines the solar system, emphasizing theories of its origin and meteorites. Highlights distribution of radioactive materials, age dating, heat flow through continents and the ocean floor, internal temperature distribution in the Earth, and mantle convection. Also covers the origin of the oceans and atmosphere.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 6630 and PHYS 6630
Requisites: Restricted to graduate students only.

ASTR 6650 (1-3) Seminar in Geophysics
Advanced seminar studies in geophysical subjects for graduate students.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 6650 and PHYS 6650
Requisites: Restricted to graduate students only.

ASTR 6940 (1) Master's Candidate for Degree
Grading Basis: Pass/Fail

ASTR 6950 (1-6) Master's Thesis
Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

ASTR 7160 (3) Intermediate Plasma Physics
Topics vary yearly but include nonlinear effects such as wave coupling, quasilinear relaxation, particle trapping, nonlinear Landau damping, collisionless shocks, solutions; nonneutral plasmas; kinetic theory of waves in a magnetized plasma; anisotropy; inhomogeneity; radiation-ponderomotive force, parametric instabilities, stimulated scattering; plasma optics; kinetic theory and fluctuation phenomena.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 7160
Recommended: Prerequisite PHYS 5150.

ASTR 7500 (1-3) Special Topics in Astrophysical and Planetary Sciences
Acquaints students with current research in astrophysical and planetary sciences. Topics vary each semester.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

ASTR 7920 (1-6) Reading and Research in Astrophysical and Planetary Sciences
Instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Requisites:

All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.

ATLS (ATLS)

Courses

ATLS 1100 (3) Design Foundations
Introduces foundational principles, practices and methods of design. Emphasizes design as an expressive and creative problem solving tool. This course engages with design from a broad perspective including visual, computational, physical and auditory design practices. Through lectures, discussions and creative projects, students will gain a familiarity with the diverse applications of creative technology through design.

Requisites: Restricted to Technology, Arts and Media (TMEN) majors and (MTAM) minors.

Grading Basis: Letter Grade

ATLS 1220 (4) Virtual Worlds: An Introduction to Computer Science
Introduces the fundamental principles of computer science using an online virtual world called Second Life as the "Laboratory" for this course. Students will learn how to program by creating objects of interest in Second Life. In-class and in-world discussions and readings will introduce the students to important ideas and concepts that shape the field of computer science. Does not count as Computer Science credit for the Computer Science BA, BS or minor.

ATLS 1240 (3) The Computational World
Introduces and explores the "computational style of thinking" and its influence in science, mathematics, engineering and the arts. Does not focus on the nuts and bolts of any particular programming language, but rather the way in which computing has affected human culture and thought in the past half century. Does not count as Computer Science credit for the Computer Science BA, BS or minor.

ATLS 1300 (4) Computational Foundations 1
Instructs non-computer science students in analyzing problems and synthesizing programs for the solution, emphasizing good engineering practices for program construction, documentation, testing, and debugging. Uses Java for programming projects. Formerly ATLS 2010.

Requisites: Restricted to TMEN or MTAM students only.

ATLS 1710 (3) Tools and Methods for Engineering Computing
Designed for students with little or no programming background. Students learn procedural and object-oriented programming through development of games, simulations, and animations using Flash/Actionscript, VB/Excel, Java, MATLAB, and real-world applications. Activities are oriented toward smaller projects that address topics in beginning science, engineering, and mathematics courses. Students gain practical, applicable skills.

ATLS 2000 (3) The Meaning of Information Technology
Surveys the history of information technologies and modern techniques of information production, storage, transmission, and retrieval. Emphasizes understanding not only the technological transformations in interpersonal, organizational, and mass communication, but also the technological, social and political changes that underlie the movement toward a digital society.

Equivalent - Duplicate Degree Credit Not Granted: HUEN 2020

Requisites: Restricted to Technology, Arts and Media (TMEN) majors or (MTAM-MIN) minors or ATLAS (PATL) student group.

ATLS 2001 (3) Design Technologies: Toolkit
Introduces students to the fundamentals of creative design through digital media production. Throughout the semester, students explore a number of disciplines related to digital media including imaging, web development, animation, video production, and more. Class sessions are in lecture format and are aimed at helping students attain a strong conceptual and technical understanding of creative design.

Requisites: Requires prerequisite or corequisite course of ATLS 2000 (minimum grade C). Restricted to PATL students.

Grading Basis: Letter Grade

ATLS 2002 (3) Design Technologies: Process
Introduces foundational principles, practices and methods relating to the process of creative design. Emphasis on the pre-production process as a creative problem-solving tool in order to produce innovative and interesting creative work. Through lectures, discussion and creative projects, students will gain a familiarity with diverse applications and practices related to creative technology and design.

Requisites: Requires prerequisite or corequisite courses of ATLS 2000 and ATLS 2001. Restricted to PATL students.

ATLS 2036 (3) Introduction to Media Studies in the Humanities
Serves as an introduction to media studies specifically from a humanities perspective. Studies both histories and theories of media from the 20th and 21st centuries. Touches on methodologies for undertaking media studies (including distant ready and media archaeology). Objects of study may include such topics as film, radio, social media platforms and games, as well as digital art and literature.

Equivalent - Duplicate Degree Credit Not Granted: ENGL 2036

Repeatable: Repeatable for up to 6.00 total credit hours.

Requisites: Restricted to Technology, Arts and Media (TMEN) majors and (MTAM) minors, or the ATLAS (PATL) student group only.

ATLS 2100 (3) Image
Introduces techniques, technologies and concepts of digital image making and manipulation through lectures, projects and critiques. Focuses on digital photography, digital animation and digital video as a means to formal and expressive ends. This course also contextualizes practices and methodologies of digital imaging with historical and critical perspectives.

Requisites: Requires prerequisite courses of ATLS 1100 and ATLS 1300 and corequisite courses of ATLS 2000 or HUEN 2020 (all minimum grade C). Restricted to TMEN and MTAM majors or minors only.

Grading Basis: Letter Grade
ATLS 2200 (3) Web
Introduces techniques, technologies and concepts of web design and development through lectures, projects and critiques. Focuses technically on HTML, CSS and JavaScript as the primary web technologies. Contextualizes the technical and societal implications of the Internet through historical and critical perspectives.
Requisites: Requires prerequisite courses of ATLS 1100 and ATLS 1300 and corequisite courses of ATLS 2000 or HUEN 2020 (all minimum grade C). Restricted to TMEN and MTAM majors or minors only.
Grading Basis: Letter Grade

ATLS 2300 (3) Text
Introduces technologies, terminology and histories related to the design of text within digital and analogue media. Students will learn the fundamentals of design, typography and layout through lectures, projects and critiques. The curriculum surveys significant theoretical perspectives, historical periods and significant practitioners that influence the practice of typographic design.
Requisites: Requires prerequisite courses of ATLS 1100 and ATLS 1300 and corequisite courses of ATLS 2000 or HUEN 2020 (all minimum grade C). Restricted to TMEN and MTAM majors or minors only.
Grading Basis: Letter Grade

ATLS 2519 (1-4) Special Topics in Technology, Arts and Media
Analyzes special interest areas of multidisciplinary technology, arts and media research and practice.
Repeatability: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Technology, Arts and Media (TMEN) majors and (MTAM) minors, or the ATLAS (PATL) student group only.
Grading Basis: Letter Grade

ATLS 3100 (3) Form
Teaches the fundamentals of 3D modeling, 3D animation and 3D printing / rapid prototyping from a conceptual and sculptural perspective. Through topical lectures, technical demonstrations and creative projects the course will introduce students to the potentials of thinking and working within 3-dimensional spaces.
Requisites: Requires prerequisite courses of ATLS 1100 and ATLS 1300 and corequisite courses of ATLS 2000 or HUEN 2020 (all minimum grade C). Restricted to TMEN and MTAM majors or minors only.
Grading Basis: Letter Grade

ATLS 3110 (3) Motion
An animation-based projects course that advances student understanding of motion design in today’s culture. Through active production and critical analysis, students will create new media projects and critically examine the history, social implications, and impacts of these forms of mass media.
Requisites: Restricted to Technology, Arts and Media (TMEN) majors and (MTAM) minors, or the ATLAS (PATL) student group only.
Recommended: Prerequisite ATLS 2100.

ATLS 3112 (1-3) Digital and Social Systems Professional Development
Supports students in developing professional skills and practices in human computer interaction, design of interactive systems, computer supported cooperative work, computer supported collaborative learning, educational technology, tools that support creativity, user-developed knowledge collections and gaming.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 3112
Repeatability: Repeatable for up to 10.00 total credit hours.

ATLS 3173 (3) Creative Climate Communication
We generate multimodal compositions on the subject of climate change and engage with various dimensions of issues associated with sustainability. We work to deepen our understanding of how issues associated with climate change are or can be communicated, by analyzing previously created expressions from a variety of media (interactive theatre, film, fine art, television programming, blogs, performance art, for example) and then be creating our own work.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 3173 and THTR 4173
Recommended: Prerequisite ENVS 1000.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences

ATLS 3200 (3) Sound
Introduces techniques, technologies and concepts of digital sound through lectures, projects and critiques. Focuses technically on digital sound creation, production, synthesis and interactivity. Explores various approaches to digital sound production through historical and conceptual perspectives.
Requisites: Requires prerequisite courses of ATLS 1100 and ATLS 1300 and corequisite courses of ATLS 2000 or HUEN 2020 (all minimum grade C). Restricted to TMEN and MTAM majors or minors only.
Grading Basis: Letter Grade

ATLS 3300 (3) Object: Introduction to Physical Computing
Introduces the fundamentals of physical computing. This class is an exploration of computing that starts from the perspective that humans are fundamentally physical beings. Students will design projects that interact with humans and the physical world and will learn to integrate sensors, motors, and simple electronics into creative projects. Projects will include interactive installations, art projects, games, and audio controllers.
Requisites: Requires prerequisite courses of ATLS 1100 and ATLS 2000 and ATLS 1300 or ATLS 3000 or CSCI 1300 or CSCI 1320 (all minimum grade C). Restricted to TMEN students only.
Grading Basis: Letter Grade

ATLS 3500 (1-3) Client Projects in Technology, Arts and Media
Allows undergraduate students to work on collaborative projects with faculty and with external organizations under faculty supervision. Focuses on teamwork, conceptual planning, technical design and development and working within real-world client environments. Critical skills include project research, planning, design, development, trouble-shooting and presentation.
Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of ATLS 2000 (minimum grade C).
Recommended: Prerequisite ATLS 3020.

ATLS 3519 (1-3) Special Topics in Technology, Arts, and Media
Analyzes special interest areas of multidisciplinary technology, arts and media research and practice.
Repeatability: Repeatable for up to 21.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of ATLS 2000 (minimum grade C). Restricted to Technology, Arts and Media (TMEN) majors and (MTAM) minors, or the ATLAS (PATL) student group only.
ATLS 3529 (1-3) Special Topics in Critical Perspectives in Technology
Analyzes critical perspectives in technology, art, and media. Within these courses, students will develop vocabularies, theoretical perspectives and critical approaches relevant to technology and its effects on culture and society.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of ATLS 2000 (minimum grade C). Restricted to Technology, Arts and Media (TMEN) majors and (MTAM) minors, or the ATLAS (PATL) student group only.
Grading Basis: Letter Grade

ATLS 4010 (4) Capstone Projects I
The focus of this advanced practicum course is the development of an individual thesis project. Specific class sessions will feature a combination of lectures, demonstrations, guest speakers, lab sessions, and critiques. This course also entails group work, portfolio development, critical theoretical readings, and a significant written component.
Requisites: Requires prerequisite courses of ATLS 3100 and ATLS 3200 (all minimum grade C). Restricted to Technology, Arts and Media (TMEN) majors only.

ATLS 4040 (3) Game Design
Introduces students to game design, development, history, theory and culture through readings, discussion, game analysis and the iterative design process of non-digital games.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 5040
Requisites: Requires prerequisite course of ATLS 2000 (minimum grade C). Restricted to Technology, Arts and Media (TMEN) majors and (MTAM) minors, or the ATLAS (PATL) student group only.

ATLS 4120 (3) Mobile Application Development
Provides a comprehensive overview of developing mobile applications using a range of technologies including software developers’ kits, object-oriented programming and human interface design principles. Students incorporate leading edge technologies with their own academic pursuits and personal interests to develop mobile applications. Explores the social and cultural effects of app and mobile-based computing.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 5120
Requisites: Requires prerequisite course of ATLS 3000 or ATLS 1300 or CSCI 1300 or CSCI 1320 (minimum grade C). Restricted to Technology, Arts and Media (TMEN) majors, MTAM minors or the ATLAS (PATL) student group only.
Grading Basis: Letter Grade

ATLS 4130 (3) Typography
This course is an advanced investigation of typography for visual communication and expression. Emphasis is placed on the analysis of meaning as conveyed through materials, technology, and design. Projects are experimental and are designed to challenge you to expand your understanding of the function of typography in communication, design, art, and culture.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 5130
Requisites: Requires prerequisites ATLS 2200 and ATLS 2300 (both minimum grade C). Restricted to TMEN and MTAM students.

ATLS 4140 (3) Game Development
Builds on concepts and processes learned in ATLS 4040/5040. Reinforces game design principles through analysis and discussion of digital games, and introduces students to key practices in the development of digital game experiences, including game flow, mechanics, 2D and 3D graphics, and artificial intelligence.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 5140
Requisites: Requires prerequisite ATLS 4040 (minimum grade C). Restricted to MTAM or TMEN students.

ATLS 4151 (3) Flow Visualization
Explores techniques for the visualization of the physics of fluid flows including seeding with dyes, particles and bubbles, and shadowgraphy and schlieren. Reviews optics and fluid physics, especially atmospheric clouds. Assignments are student-driven, to individuals and mixed teams of graduates, undergraduates, engineering majors and photography/video majors.
Equivalent - Duplicate Degree Credit Not Granted: ARTF 5200, MCEN 4151, MCEN 5151, CINE 4200 and ATLS 5151
Requisites: Restricted to Technology, Arts and Media (TMEN) majors and (MTAM) minors, or the ATLAS (PATL) student group only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

ATLS 4214 (3) Big Data Architecture
Provides students with a comprehensive survey of technologies used today in the collection, storage, processing, analytics and display of big data. Focuses on cultivating real world skills with students working on semester long projects to execute on a group project.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 5214
Requisites: Requires prerequisite course of CSCI 2270 (minimum grade D-). Restricted to TMEN, MTAM, CSEN, CSCI, and ATLAS (PATL) student group only.
Grading Basis: Letter Grade

ATLS 4230 (3) Case Studies in Information and Communication Technology for Development
Serves as foundation course for MS-ICTD program. Students will evaluate case studies across a range of technologies and applications. Students will learn how to match available technologies to human and environmental needs and resources, be introduced to the seminal work and leaders in the field, and discuss the future of ICTD as an emerging area of academic focus.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 5230

ATLS 4320 (3) Mobile Application Development: Advanced Topics
Explores advanced topics in mobile application design and development, including examining different approaches to information design and the various user interaction models associated with them. Understanding how data is structured, accessed, stored and flows through apps is a core theme of the course. Explores the interaction with external data sources and storage models.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 5320

ATLS 4519 (1-4) Advanced Special Topics in Technology, Arts, and Media
Analyzes special interest areas of multidisciplinary technology, arts and media research and practice.
Repeatable: Repeatable for up to 32.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of ATLS 2000 (minimum grade C). Restricted to Technology, Arts and Media (TMEN) majors and (MTAM) minors, or the ATLAS (PATL) student group only.
ATLS 4529 (1-3) Advanced Special Topics: Critical Perspectives in Technology
Analyzes critical perspectives in technology, art and media. Within these courses, students will develop vocabularies, theoretical perspectives and critical approaches relevant to technology and its effects on culture and society.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 5529
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of ATLS 2000 (minimum grade C). Restricted to Technology, Arts and Media (TMEN) majors and (MTAM) minors, or the ATLAS (PATL) student group only.
Grading Basis: Letter Grade

ATLS 4606 (3) Mastery in Information Science: Critical Technical Practice
Surveys design theory and methods that can be used to question relationships between technology, culture, and the environment. Students will discuss readings and synthesize those readings through design exercises. The course will equip students with resources for thinking more critically and creatively about design and possible future human-technology relationships.
Equivalent - Duplicate Degree Credit Not Granted: INFO 5606, INFO 4606, and ATLS 5606
Grading Basis: Letter Grade

ATLS 4630 (3) Web Front-End Development
Explores interactivity on the web using front-end web development concepts and technologies. Students will work with a range of technologies including JavaScript, jQuery, HTML5, APIs and user interface design methods to create interactive web applications. Individual and group projects will include animations, games, interactive narratives and web applications.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 5630
Requisites: Requires prerequisite courses of ATLS 2200 and ATLS 3000 or CSCI 1300 or CSCI 1320 (all minimum grade C).

ATLS 4809 (3) Computer Animation
Develops a firm understanding of the general principles of computer animation. Lectures cover the creation of models, materials, textures, surfaces, and lighting. Path and key frame animation, particle dynamics, and rendering are introduced. Students are assigned a number of animation tutorials to carry out.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 5809 and CSCI 4809 and CSCI 5809
Requisites: Restricted to Technology, Arts and Media (TMEN) majors, MTAM minors, or the ATLAS (PATL) student group only.

ATLS 4889 (3) Interactive Machine Learning for Customizable and Expressive Interfaces
Introduces students to techniques for applying machine learning in the development of customizable human-computer interfaces. Students learn to process a wide variety of input data (e.g. video and accelerometer streams) using different machine learning algorithms to detect semantically meaningful events that can afford the construction of new interactive systems. Students complete substantial projections within the domains of assistive or creative technologies. Does not fulfill Breadth Requirement for CSEN graduate students.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5880, CSCI 4889 and ATLS 5880
Requisites: Requires prerequisites of (APPM 3570 or APPM 4570 or CHEN 3010 or CSCI 3022 or CVEN 3227 or ECEN 3810 or ECON 3818 or MATH 3510 or MATH 4510 or MCEN 4120 or STAT 4520) and (CSCI 3002 or CSCI 3202 or CSCI 4448) (all minimum grade C).
Grading Basis: Letter Grade

ATLS 4900 (1-3) Undergraduate Independent Study
Provides opportunities for independent study at the upper-division undergraduate level. Students work on research or a creative project guided by faculty. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite courses of ATLS 3010 and 3020 (all minimum grade D-).

ATLS 5040 (3) Game Design
Introduces students to game design, development, history, theory and culture through readings, discussion, game analysis and the iterative design process of non-digital games.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 4040
Requisites: Requires prerequisite course of ATLS 2000 (minimum grade C). Restricted to the ATLAS (PATL) student group only.

ATLS 5120 (3) Mobile Application Development
Provides a comprehensive overview of developing mobile applications using a range of technologies including software developers’ kits, object-oriented programming and human interface design principles. Students incorporate leading edge technologies with their own academic pursuits and personal interests to develop mobile applications. Explores the social and cultural effects of app and mobile-based computing.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 4120
Grading Basis: Letter Grade

ATLS 5130 (3) Typography
This course is an advanced investigation of typography for visual communication and expression. Emphasis is placed on the analysis of meaning as conveyed through materials, technology, and design. Projects are experimental and are designed to challenge you to expand your understanding of the function of typography in communication, design, art, and culture.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 4130
Requisites: Restricted to graduate students only.

ATLS 5140 (3) Game Development
Builds on concepts and processes learned in ATLS 4040/5040. Reinforces game design principles through analysis and discussion of digital games, and introduces students to key practices in the development of digital game experiences, including game flow, mechanics, 2D and 3D graphics, and artificial intelligence.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 4140

ATLS 5150 (1) Managing Effectively in a Changing Telecommunications Environment
Provides students with an opportunity to join international managers and policy makers from around the world in an intensive seminar focused on the challenges of managing in a telecommunications environment in an era of technological change. Guest lecturers provide an effective overview of the cutting-edge issues managers face in telecom and technology companies around the world.
Equivalent - Duplicate Degree Credit Not Granted: TLEN 5150
Requisites: Restricted to CYBR/TLEN graduate students.

ATLS 5151 (3) Flow Visualization
Explores techniques for the visualization of the physics of fluid flows including seeding with dyes, particles and bubbles, and shadowgraphy and schlieren. Reviews optics and fluid physics, especially atmospheric clouds. Assignments are student-driven, to individuals and mixed teams of graduates, undergraduates, engineering majors and photography/video majors.
Equivalent - Duplicate Degree Credit Not Granted: CINE 4200, MCEN 4151, MCEN 5151, ATLS 4151 and ARTF 5200
ATLS 5210 (3) Global Development I
Introduces students to the theories and policy of international development. Examines the role of multilateral agencies, foundations, aid organizations, corporate entities and academia in development as both an industry and a research field. Focuses on development movements and their outcomes, the inter-related nature of development and its effect on policies and programs, and critiques.
**Requisites:** Restricted to graduate students only.

ATLS 5214 (3) Big Data Architecture
Provides students with a comprehensive survey of technologies used today in the collection, storage, processing, analytics and display of big data. Focuses on cultivating real world skills with students working on semester long projects to execute on a group project.
**Equivalent - Duplicate Degree Credit Not Granted:** ATLS 4214
**Requisites:** Restricted to graduate students only.

ATLS 5220 (3) Global Development II
Explores the impact of economic, geographical and social/cultural conditions on development outcomes through standalone course components taught by subject matter experts in region and in residency at ATLAS. Components may include, but are not limited to, development economics, environmental sustainability, public health, climate change, globalization and migration, religion, and gender as these broad themes relate to development.
**Requisites:** Requires prerequisite courses of ATLS 5210 (minimum grade D). Restricted to graduate students only.

ATLS 5230 (3) Case Studies in Information and Communication Technology for Development
Serves as foundation course for MS-ICTD program. Students will evaluate case studies across a range of technologies and applications. Students will learn how to match available technologies to human and environmental needs and resources, be introduced to the seminal work and leaders in the field, and discuss the future of ICTD as an emerging area of academic focus.
**Equivalent - Duplicate Degree Credit Not Granted:** ATLS 4230
**Requisites:** Restricted to graduate students only.

ATLS 5240 (3) Information and Communication Technology for Development Laboratory
Prepares students for the semester-long practicum. Students work in teams to design ICTD interventions that address unique socio-economic and environmental development issues. Teams will design a variety of ICTD interventions, including telehealth and distance education programs, communication networks, and pro-development ICTD policies. Topics will be chosen by teams and guided by program faculty and external domain experts.
**Requisites:** Requires prerequisite courses of ATLS 5230 (minimum grade D). Restricted to graduate students only.

ATLS 5250 (3) Fieldwork Methods for ICTD Practitioners
Introduces methods and models that can be employed in ICTD program development and deployment. Examines the applications of participatory research, value-centric design, program scale, cross-disciplinary work, and appropriate monitoring and evaluation. The goal is to build student confidence around existing evaluation toolkits and methods, while advancing multi-method approaches to designing and analyzing ICTD initiatives.
**Requisites:** Restricted to graduate students only.

ATLS 5320 (3) Mobile Application Development: Advanced Topics
Explores advanced topics in mobile application design and development, including examining different approaches to information design and the various user interaction models associated with them. Understanding how data is structured, accessed, stored and flows through apps is a core theme of the course. Explores the interaction with external data sources and storage models.
**Equivalent - Duplicate Degree Credit Not Granted:** ATLS 4320
**Requisites:** Requires prerequisite course of ATLS 5120 (minimum grade C).

ATLS 5380 (3) Future of Video: Technology, Policy, and Economics
Examines the issues that have been created by the shift from analog to digital technologies, the shift from narrowband/wideband systems to broadband systems, and the shift to converged networks (i.e. networks able to convey voice, data, image and video traffic on a common platform) based upon packet switching and Internet Protocol (IP) suite.
**Equivalent - Duplicate Degree Credit Not Granted:** CYBR 5480
**Requisites:** Requires prerequisite of CYBR 5001 (minimum grade C). Restricted to CYBR graduate students.

ATLS 5402 (3) Research Methods in Human-Robot Interaction
Introduces students to the field of human-robot interaction (HRI). Covers HRI theory, principles, methodologies, and applications with links to robotics, artificial intelligence, human factors, human-computer interaction, design, cognitive psychology, education and other domains. Coursework includes readings from state-of-the-art in HRI research, team exercises and problem-solving sessions, and implementation and evaluation of a human-robot interaction systems for specific applications.
**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5402
**Requisites:** Restricted to graduate students only.

ATLS 5420 (3) Professional Seminar: Business of Creativity
This course was designed specifically to prepare students to make the most of their time in the CTD Master’s Program, and to prepare them for a career within the creative technology and design professional landscape. The course helps students identify career goals and mentors, and helps them position themselves for industry through course-selection, portfolio development, and projects. There is also a survey element to the course which exposes students to creative technology professionals who discuss their career paths, offer advice, and provide insight into their individual design process.
**Grading Basis:** Letter Grade

ATLS 5519 (1-3) Advanced Special Topics in Technology, Arts, and Media
Analyzes special interest areas of multidisciplinary technology, arts and media research and practice.
**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
**Requisites:** Restricted to graduate students only.

ATLS 5529 (1-3) Advanced Special Topics: Critical Perspectives in Technology
Analyzes critical perspectives in technology, art and media. Within these courses, students will develop vocabularies, theoretical perspectives and critical approaches relevant to technology and its effects on culture and society.
**Equivalent - Duplicate Degree Credit Not Granted:** ATLS 4529
**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
**Requisites:** Restricted to graduate students only.
**Grading Basis:** Letter Grade
ATLS 5606 (3) Mastery in Information Science: Critical Technical Practice
Surveys design theory and methods that can be used to question relationships between technology, culture, and the environment. Students will discuss readings and synthesize those readings through design exercises. The course will equip students with resources for thinking more critically and creatively about design and possible future human-technology relationships.

Equivalent - Duplicate Degree Credit Not Granted: ATLS 4606, INFO 4606 and INFO 5606
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

ATLS 5610 (6) Startup Practicum
Presumes that entrepreneurship can be learned through the conception, build, and launch of an original product or service by student teams within a single semester. Immerses students in the daily leadership and innovation challenges of the startup environment and serves as a clinic in thinking, decision making and mental agility that will benefit any area of business—not just startups.

Requisites: Restricted to graduate students only.

ATLS 5620 (3) User Centered Design 1
Emphasizes that user-centered design is the first and primary consideration in the design process. UCD teaches how to design successful interactions from research into users' behaviors, attitudes and expectations through three key elements to designing successful user experiences: 1) Listen, Observe, and Research; 2) Concept and Design for Your Users; 3) Deliver/Launch.

Requisites: Restricted to graduate students only.

ATLS 5630 (3) Web Front-End Development
Explores interactivity on the web using front-end web development concepts and technologies. Students will work with a range of technologies including JavaScript, jQuery, HTML5, APIs and user interface design methods to create interactive web applications. Individual and group projects will include animations, games, interactive narratives and web applications.

Equivalent - Duplicate Degree Credit Not Granted: ATLS 4630
Requisites: Restricted to graduate students only.

ATLS 5640 (4) Design Thinking
Explores design thinking and how it can be applied conceptually and practically to innovation in areas as diverse as business organization and product development to topics and areas including but not limited to, story, design, UX, interaction design, communication strategy and presentation. Fast-paced, project-based, and immersive, students will work in small teams to discover solutions to real-world problems.

Requisites: Restricted to graduate students only.

ATLS 5650 (3) Introduction to Programming
Provides a hands-on introduction to programming logic, environments, and execution using Ruby as the primary programming language. Covers basic programming principle, syntax, design patterns, and best industry practices while focusing on developing elegant, problem-solving skills through code.

Requisites: Restricted to graduate students only.

ATLS 5660 (3) Creative Code
Exposes students to front-end, web-based design and development processes and best practices. WordPress will be used as the back end CMS. Students will learn how to design and develop using WordPress as a framework. At the end of the semester, students will present a final project to illustrate what they have learned and the logic of their build.

Requisites: Restricted to graduate students only.
Recommended: Prerequisites: exposure to HTML, CSS, JavaScript, PHP and MySQL and previous experience with WordPress for blogging and/or content publication.

ATLS 5670 (3) Content Strategies
Explores different frameworks on how to combine messaging with creative to communicate complex ideas, brand story, product, and finally measure success. Gain experience and expertise with the various content types and channels, with an understanding of how to apply them and the capabilities to do so in solving creative and business problems.

Requisites: Restricted to graduate students only.

ATLS 5680 (3) Creative Tech Studio
Emphasizes fundamentally, theoretically, and practically that technology and creativity are not opposing disciplines but rather a dynamic and complementary blending of idea and execution that is iterative and evolving through the dynamic exchange and interaction of ideas and tools. Each Studio will offer a different conceptual challenge, such as using technology to bridge physical and digital environments, game design, or storytelling.

Repeatable: Repeatable for up to 12.00 total credit hours.
Grading Basis: Letter Grade

ATLS 5720 (3) User-Centered Design 2
Expands on techniques and opportunities presented in User-Centered Design 1 with a deeper dive into research and prototyping practices as means to insight into user desires and preference, adoption, and execution of product and branded experiences in a variety of contexts and locations within the global experience economy.

ATLS 5730 (3) Front-End Development 2
Requires that students are proficient in front-end development and ready for advanced front-end development using these tools - HTML 5, CSS3, JS - on weekly projects, a mid-term project, and a final project. This course develops more robust and elegant uses of the semantic use of elements as well as the benefits of using standards-based, valid code, CSS efficiencies, and JS and its libraries.

ATLS 5740 (3) Design Thinking 2
Presents visual thinking as a complex process that can be supported in every stage using specific design techniques. Provides practical, task-oriented information for designers and software developers charged with design responsibilities, including examples of integrated text and full-color data stories, all of which are robust in principles of "active vision," viewing graphic designs as cognitive tools.

ATLS 5809 (3) Computer Animation
Develops a firm understanding of the general principles of computer animation. Lectures cover the creation of models, materials, textures, surfaces, and lighting. Path and key frame animation, particle dynamics, and rendering are introduced. Students are assigned a number of animation tutorials to carry out.

Equivalent - Duplicate Degree Credit Not Granted: ATLS 4809 and CSCI 4809 and CSCI 5809
Requisites: Restricted to graduate students only.
ATLS 5880 (3) Interactive Machine Learning for Customizable and Expressive Interfaces
Introduces students to techniques for applying machine learning in the development of customizable human-computer interfaces. Students will learn to process a wide variety of input data (e.g. video and accelerometer streams), using different machine learning algorithms to detect semantically meaningful events that can afford the construction of new interactive systems. They will complete substantial projects within the domains of assistive or creative technologies. Does not fulfill Breadth Requirement for CSEN graduate students.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 4889, CSCI 4889 and CSCI 5880
Requisites: Requires prereq (CSCI 3022 or APPM 4570 or APPM 3570 or APPM 4520 or CVEN 3227 or MATH 3510 or MATH 4510 or ECEN 3810 or ECON 3818 or MCEN 4120) (CSCI 3002 or CSCI 3202 or CSCI 4448) all min grade C-. Restricted to grad students in the ATLAS program.
Grading Basis: Letter Grade

ATLS 5900 (1-6) Masters Level Independent Study
Provides opportunities for independent study and research at the Masters level. Students work on research project guided by faculty.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

ATLS 6519 (1-3) Advanced Special Topics in Technology, Arts, and Media
Analyzes special interest areas of multidisciplinary technology, arts and media research and practice.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

ATLS 6910 (3-6) Information and Communication Technology for Development Practicum
This practicum allows MS-ICTD students to synthesize what they have learned and test their readiness for a career in ICTD. Practicum assignments are arranged under the supervision of the MS-ICTD Program Director and involve work with a non-governmental organization, development agency or technology/policy entity. Successful completion is required for graduation from the MS-ICTD Program.
Requisites: Requires prerequisite courses of ATLS 5210 and ATLS 5220 and ATLS 5230 and ATLS 5240 and ATLS 5250 (all minimum grade D-)

ATLS 7000 (1) ATLAS Seminar
This student/faculty seminar critically examines issues in technology, media and society from the multiple interdisciplinary perspective of the gathered participants. Topics may include: IT and business, security, ethics, globalization, digital divide, IT and education, human computer interaction and others. Department consent required.
Repeatable: Repeatable for up to 8.00 total credit hours.
Requisites: Restricted to graduate students only.

ATLS 7800 (2) Online Course Design for the Foreign Languages
Learn about the challenges and affordances of designing online foreign languages courses. Read research articles and book chapters pertaining to instructional design issues and online teaching strategies. Experiment with the latest forms of educational technologies. Students enrolled in the course will design and teach a two-week online language course. Department enforced prerequisite: two years of language teaching experience at the college level.
Grading Basis: Pass/Fail

ATLS 7900 (1-6) Doctoral Level Independent Study
Provides opportunities for independent study and research at the Doctoral level. Students perform independent research under faculty supervision.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Atlas (ATLS) graduate students only.

ATLS 8990 (1-10) Doctoral Dissertation
Approved research conducted under the supervision of members of the graduate faculty. Investigates some specialized topic or field in the area of interdisciplinary information and communication technology. All doctoral students must register for at least 30 hours of dissertation credit as part of the requirement for the ATLAS doctoral degree.
Repeatable: Repeatable for up to 30.00 total credit hours.
Requisites: Restricted to Atlas (ATLS) graduate students only.

Atmospheric and Oceanic Sciences (ATOC)

Courses
ATOC 1050 (3) Weather and the Atmosphere
Introduces principles of modern meteorology for nonscience majors, with emphasis on scientific and human issues associated with severe weather events. Includes description, methods of prediction, and impacts of blizzards, hurricanes, thunderstorms, tornadoes, lightning, floods, and firestorms.
Additional Information: GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science

ATOC 1060 (3) Our Changing Environment: El Nino, Ozone, and Climate
Discusses the Earth's climate for nonscience majors, focusing on the role of the atmosphere, oceans, cryosphere and land surface. Describes the water cycle, atmospheric circulations and ocean currents, and how they influence global climate, El Nino and the ozone hole. Discusses human impacts from climate change.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 1060
Recommended: Prerequisite ATOC 1050.
Additional Information: Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

ATOC 1070 (1) WEATHER AND THE ATMOSPHERE LAB
Illustrates fundamentals of meteorology with laboratory experiments. Covers collection, analysis and discussion of data related to local weather. Uses computers for retrieval and interpretation of weather data from Colorado and across the U.S. Optional lab for ATOC 1050.
Recommended: Prerequisite or corequisite ATOC 1050.
Additional Information: GT Pathways: GT-SCI1 - Natural Physical Sci:Lec Crse w/ Req Lab
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science Lab or Lab/Lec
ATOC 2500 (1-3) Special Topics in Atmospheric and Oceanic Sciences - Lower Division
Acquaints students at the lower division level with current research in atmospheres, oceans, and climate (topics may vary each semester). Students may register for more than one section of this course in the same semester. Recommended restriction: students with 0-56 credits (Freshmen or Sophomores).
**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
**Recommended:** Prerequisite or corequisite will vary depending on topic.

ATOC 3050 (3) Principles of Weather
Explores the processes that influence middle latitude weather including atmospheric thermodynamics, cloud and precipitation processes, atmospheric dynamics, air masses and fronts, and mid-latitude cyclones. Recitations and homework assignments will allow students to apply these concepts to real weather data through analysis of weather maps, thermodynamics diagrams and conceptual models.
**Recommended:** Prerequisites ATOC 1050 or ATOC major.
**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence Arts Sci Gen Ed: Distribution-Natural Sciences

ATOC 3070 (3) Introduction to Oceanography
Explores Earth’s dynamic oceans. Discusses the disciplines of oceanography including marine geology, chemistry, biology and physical oceanography with emphasis on global change. Specific topics may include: tectonics, currents, biogeochemical cycles, ecology and global warming.
**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 3070
**Recommended:** Prerequisite any 1000-level ATOC or GEOL course or ATOC major.
**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence Arts Sci Gen Ed: Distribution-Natural Sciences

ATOC 3180 (3) Aviation Meteorology
Familiarizes students with a wide range of atmospheric behavior pertinent to air travel: rudiments of aerodynamics; aircraft stability and control; atmospheric circulation, vertical motion, turbulence and wind shear; fronts, clouds and storms.
**Recommended:** Prerequisite ATOC 1050 or ATOC major.
**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence Arts Sci Gen Ed: Distribution-Natural Sciences

ATOC 3300 (3) Analysis of Climate and Weather Observations
Discusses instruments, techniques and statistical methods used in atmospheric observations. Covers issues of data accuracy and analysis of weather maps. Provides application to temperature and precipitation records, weather forecasting and climate change trends. Uses computers to access data sets and process data.
**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 3301
**Recommended:** Prerequisites ATOC 1050 or ATOC 1060 or ATOC 3600 or GEOG 3601 or ENVS 3600 or GEOG 1001 and one semester calculus.
**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence Arts Sci Gen Ed: Distribution-Natural Sciences Lab

ATOC 3500 (3) Air Chemistry and Pollution
Examines the composition of the atmosphere and sources of gaseous and particulate pollutants: their chemistry, transport and removal from the atmosphere. Applies general principles to acid rain, smog and stratospheric ozone depletion.
**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 3151
**Recommended:** Prerequisite one semester of college-level chemistry or one year of high school chemistry.
**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence Arts Sci Gen Ed: Distribution-Natural Sciences

ATOC 3600 (3) Principles of Climate
Describes the basic components of the climate system: the atmosphere, ocean, cryosphere and lithosphere. Investigates the basic physical processes that determine climate and link the components of the climate system. Covers the hydrological cycle and its role in climate, climate stability and global change.
**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 3601 and ENVS 3600
**Recommended:** Prerequisites one semester of calculus and ATOC 1060 or ATOC 3300 or GEOG 3301 or GEOG 1001 or ATOC major.
**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence Arts Sci Gen Ed: Distribution-Natural Sciences

ATOC 3720 (3) Planets and Their Atmospheres
Explores the physics and chemistry of the atmospheres of Mars, Venus, Jupiter, Saturn, and Titan. Examines evolution of the atmospheres of Earth, Venus, and Mars; and the escape of gases from the Galilean satellites, Titan and Mars; the orbital characteristics of moons, planets, and comets. Uses recent results of space exploration. Elective for APS major and minor.
**Equivalent - Duplicate Degree Credit Not Granted:** ASTR 3720
**Requisites:** Requires prerequisite courses of PHYS 1120 and APPM 1360 or MATH 2300 (all minimum grade C). Restricted to students with 57-180 credits (Junior or Senior) Astronomy (ASTR) or Atmospheric Oceanic Sciences (ATOC) majors only.
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

ATOC 4200 (3) Biogeochemical Oceanography
Provides a large-scale synthesis of the processes impacting ocean biogeochemistry. Transforms theoretical understanding into real-world applications using oceanographic data and models. Topics include: chemical composition, biological nutrient utilization and productivity, air-sea gas exchange, carbonate chemistry, ocean acidification, ocean deoxygenation, iron fertilization, biogeochemical climate feedbacks and more.
**Equivalent - Duplicate Degree Credit Not Granted:** ATOC 5200
**Recommended:** Prerequisites one semester of calculus and one semester of chemistry.
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

ATOC 4500 (1-3) Special Topics in Atmospheric and Oceanic Sciences - Upper Division
Acquaints students at the upper division level with current research in atmospheres, oceans, and climate. Topics may vary each semester. Students may register for more than one section of this course in the same semester. Recommended restriction: students with 57-180 credits (Juniors or Seniors).
**Repeatable:** Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
**Recommended:** Prerequisites and corequisites: will vary depending on topic.
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences
ATOC 4550 (3) Mountain Meteorology
Investigating main processes that control weather and climate in the western United States and other mountain ranges around the world is the emphasis of this course. Provides an advanced survey of synoptic, mesoscale, and microscale meteorology in complex terrain including orographically modified cyclone evolution, front-mountain interactions, terrain and thermally driven flows, mountain waves, downslope winds, and orographic precipitation.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 5550
Recommended: Prerequisite ATOC 1050 or ATOC major.
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

ATOC 4700 (3) Weather Analysis & Forecasting
Utilizing a range of operational weather observations to analyze current weather conditions, providing hands-on experience interpreting observations and relating those observations to the physical principles that govern atmospheric behavior is the course emphasis. It focuses on how to read weather reports, analyze observations, and how to prepare weather maps to analyze current conditions and how to interpret numerical weather forecasts.
Recommended: Prerequisite ATOC 1050 or ATOC 1060 or ATOC 4720 or ATOC major.
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

ATOC 4710 (3) Introduction to Atmospheric Physics
Provides a fundamental overview of the physics of Earth's atmosphere. Topics include atmospheric composition and structure, atmospheric radiation and optics (rainbows, halos and other phenomena), atmospheric thermodynamics, cloud physics and atmospheric electricity and lightning. Including both descriptive and quantitative approaches to the subject material. Where applicable, observations from the ATOC Skywatch Observatory will be introduced.
Recommended: Prerequisite one year of calculus and one year of physics with calculus.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ATOC 4720 (3) Introduction to Atmospheric Dynamics
Introduces the fundamental physical principles that govern the atmospheric circulation across a range of spatial and temporal scales and provides a quantitative description and interpretation of a wide range of atmospheric phenomena. Topics include atmospheric forces, governing equations, balanced and unbalanced flows, atmospheric waves and mid-latitude cyclones.
Recommended: Prerequisite one year of calculus and one semester of physics with calculus.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ATOC 4730 (3) Physical Oceanography and Climate
Introduces the field of physical oceanography, with emphasis on the ocean's interaction with the global atmosphere. Analysis of the ocean's heat, salt, and momentum budgets, wind-driven and thermohaline circulations, climate cycles including El Nino, and the ocean's role in climate change. Theory complemented by state-of-the-art observations and models. Department recommended prerequisites: ATOC 1060 or ATOC 3070 or ATOC 3600 and one semester of calculus.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 5730
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ATOC 4750 (3) Desert Meteorology and Climate
Introduces students to the dynamic causes of deserts in the context of atmospheric processes and land-surface physics. Discusses desert severe weather, desert microclimates, human impacts and desertification, inter-annual variability in aridity (drought), the effects of deserts on global climate and the impact of desert climate on humans.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 5750
Recommended: Prerequisites one semester of calculus and ATOC 1050 or ATOC 1060 or ATOC 3600 or ATOC major.
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

ATOC 4770 (3) Wind Energy Meteorology
Explores the complex interactions of the atmosphere and wind energy generation. Surveys wind turbine designs. Explores planetary boundary layer dynamics, traditional and novel wind measurement methods, forecasting methods, wind turbine and wind farm wakes, wind farm optimization, sound propagation from wind plants, climate change impacts on wind resources and the impacts of wind plants on local environments.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 5770
Recommended: Prerequisite ATOC 1050 or ATOC major.
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

ATOC 4800 (3) Policy Implications of Climate Controversies
Examines controversial issues related to the environment, including climate change. Covers scientific theories and the intersection between science and governmental policy. Includes discussion, debate and critical reading of textual materials. Department enforced prerequisite: ATOC 1060 or ATOC 3600.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 5000 and ENVS 5830
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ATOC 4815 (3) Scientific Programming, Data Analysis and Visualization Laboratory
Teaches programming in python, as well as analysis skills for accessing, analyzing and visualizing data that are commonly used in the atmospheric and oceanic sciences. Basic data analysis includes curve fitting and re-gridding/aggregation of satellite observations or meteorological data for global climatologies. The course content is primarily conveyed through hands-on code development. A final project, involving the independent analysis and visualization of a scientific data set, integrates skills acquired throughout the course.
Recommended: Requisites prior experience with Python or a basic programming course such as CSCI 1300 or equivalent, basic knowledge of calculus and algebra.

ATOC 4900 (1-3) Independent Study
Department enforced prerequisite: instructor consent.
Repeatable: Repeatable for up to 6.00 total credit hours.

ATOC 4950 (1-3) Honors Thesis
Students work independently on a research topic under the guidance of a faculty member. A written thesis and an oral presentation of the work are required. Registration by arrangement and with consent of faculty mentor. Department enforced prerequisite: minimum 3.00 GPA.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sciences Honors Course
Atmospheric and Oceanic Sciences (ATOC)

ATOC 4990 (1-3) Internship
This course is designed to provide junior and senior ATOC majors with the opportunity to work hands-on in the community and to gain practical knowledge and experience in both research and industry. Participation in the program requires both on-site and academic work. 0.
Repeatability: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Students should have junior or senior standing (at the time of the internship) and have a minimum cumulative GPA of 2.

ATOC 5000 (3) Critical Issues in Climate and the Environment
Discusses current issues such as ozone depletion, global warming and air quality for graduate students in nonscientific fields. Provides the scientific background necessary to understand, follow scientific developments and critically evaluate these issues.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 4800 and ENVS 5830
Requisites: Restricted to graduate students only.

ATOC 5050 (3) Atmospheric Thermodynamics and Dynamics
Covers atmospheric thermodynamics and dynamics and the underlying governing laws and mathematical and physical principles. Topics include atmospheric composition and thermodynamics, conservation laws and atmospheric governing equations, geostrophic balance and balanced flows, vorticity dynamics and boundary layers. ATOC graduate core course.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite one year of calculus-based physics and math through differential equations.

ATOC 5051 (3) Introduction to Physical Oceanography
Provides fundamental knowledge of observations, theory, dynamics and modeling in physical oceanography. Promotes critical thinking and the development of skills for data analysis and interpretation. ATOC graduate core course.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite one year of calculus-based physics and math up through differential equations.

ATOC 5052 (3) Advanced Atmospheric Chemistry
Follows Graduate Atmospheric Chemistry (ATOC 5151) and explores advanced topics in atmospheric chemistry, such as secondary aerosol formation, oxidant formation, the chemistry of global climate change and/or design of advanced laboratory experiments.
Equivalent - Duplicate Degree Credit Not Granted: CHEM 5152
Recommended: Prerequisite CHEM 5151 or ATOC 5151.
Grading Basis: Letter Grade

ATOC 5060 (3) Dynamics of Oceans
Examines large-scale motions in a stratified rotating atmosphere and ocean waves (e.g. gravity, Rossby, and Kelvin) or ocean models (toy, analytic and numerical).
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites ATOC 5400 and ATOC 5051 or ATOC 5060.

ATOC 5151 (3) Atmospheric Chemistry
Reviews basic kinetics and photochemistry of atmospheric species and stratospheric chemistry with emphasis on processes controlling ozone abundance. Tropospheric chemistry focusing on photochemical smog, acid deposition, oxidation capacity of the atmosphere and global climate change. ATOC graduate core course.
Equivalent - Duplicate Degree Credit Not Granted: CHEM 5151
Requisites: Restricted to graduate students only.

ATOC 5152 (3) Advanced Atmospheric Chemistry
Follows Graduate Atmospheric Chemistry (ATOC 5151) and explores advanced topics in atmospheric chemistry, such as secondary aerosol formation, oxidant formation, the chemistry of global climate change and/or design of advanced laboratory experiments.
Equivalent - Duplicate Degree Credit Not Granted: CHEM 5152
Recommended: Prerequisite CHEM 5151 or ATOC 5151.
Grading Basis: Letter Grade

ATOC 5200 (3) Biogeochemical Oceanography
Provides a large-scale synthesis of the processes impacting ocean biogeochemistry. Transforms theoretical understanding into real-world applications using oceanographic data and models. Topics include: chemical composition, biological nutrient utilization and productivity, air-sea gas exchange, carbonate chemistry, ocean acidification, ocean deoxygenation, iron fertilization, biogeochemical climate feedbacks and more.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 4200
Requisites: Restricted to graduate students only.

ATOC 5235 (3) Introduction to Atmospheric Radiative Transfer and Remote Sensing
Examines fundamentals of radiative transfer and remote sensing with primary emphasis on the Earth's atmosphere; emission, absorption and scattering by molecules and particles; multiple scattering; polarization; radiometry and photometry; principles of inversion theory, extinction-and emission-based passive remote sensing; principles of active remote sensing; lidar and radar; additional applications such as the greenhouse effect and Earth's radiative energy budget. ATOC graduate core course. Department enforced prerequisites: one year of calculus-based physics, and math up through differential equations.
Equivalent - Duplicate Degree Credit Not Granted: ASEN 5235
Requisites: Restricted to graduate students only.

ATOC 5300 (3) The Global Carbon Cycle
Covers the role of the ocean, terrestrial biosphere, and atmosphere in the global carbon cycle. Specific topics include marine carbonate chemistry, biological production, terrestrial fluxes, anthropogenic emissions, and the evolution of the global carbon cycle in a changing climate.
Requisites: Restricted to graduate students only.

ATOC 5400 (3) Introduction to Fluid Dynamics
Covers equations of fluid motion relevant to planetary atmospheres and oceans and stellar atmospheres; effects of rotation and viscosity; and vorticity dynamics, boundary layers and wave motions. Introduces instability theory, nonlinear equilibration and computational methods in fluid dynamics. Department enforced prerequisite: partial differential equations or equivalent.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 5400
Requisites: Restricted to graduate students only.
ATOC 5410 (3) Fluid Instabilities, Waves, and Turbulence
Nonlinear waves and instabilities; wave-mean and wave-wave interactions, resonant triads; secondary instability and transition to turbulence; diagnosis, modeling, and parameterization of turbulent flows in geophysics and astrophysics. Department enforced prerequisite: ASTR 5120 or ATOC 5060 or ATOC 5400.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 5410
Requisites: Restricted to graduate students only.

ATOC 5540 (3) Mathematical Methods
Applied mathematics course; provides necessary analytical background for courses in plasma physics, fluid dynamics, electromagnetism, and radiative transfer. Covers integration techniques, linear and nonlinear differential equations, WKB and Fourier transform methods, adiabatic invariants, partial differential equations, integral equations, and integrodifferential equations.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 5540
Requisites: Restricted to graduate students only.

ATOC 5550 (3) Mountain Meteorology
Investigating main processes that control weather and climate in the western United States and other mountain ranges around the world is the emphasis of this course. Provides an advanced survey of synoptic, mesoscale, and microscale meteorology in complex terrain including orographically modified cyclone evolution, front-mountain interactions, terrain and thermally driven flows, mountain waves, downslope winds, and orographic precipitation.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 4550
Requisites: Restricted to graduate students only.

ATOC 5560 (3) Radiative Processes in Planetary Atmospheres
Application of radiative transfer theory to problems in planetary atmospheres, with primary emphasis on the Earth's atmosphere; principles of atomic and molecular spectroscopy; infrared band representation; absorption and emission of atmospheric gases; radiation flux and flux divergence computations; radiative transfer and fluid motions; additional applications such as the greenhouse effect, inversion methods and climate models. Department enforced prerequisite: ATOC 5235.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 5560
Requisites: Restricted to graduate students only.

ATOC 5600 (3) Physics and Chemistry of Clouds and Aerosols
Examines the physics and chemistry of clouds and aerosols in the planetary atmospheres, where they impact climate, atmospheric chemistry, remote sensing and weather. Applies basic microphysical, radiative and chemical processes affecting particles to issues in current literature. ATOC graduate core course.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite one semester of college-level chemistry and calculus-based physics and math up through differential equations.

ATOC 5730 (3) Physical Oceanography and Climate
Introduces the field of physical oceanography, with emphasis on the ocean's interaction with the global atmosphere. Analysis of the ocean's heat, salt, and momentum budgets, wind-driven and thermohaline circulations, climate cycles including El Nino, and the ocean's role in climate change. Theory complemented by state-of-the-art observations and models. Department recommended prerequisites: ATOC 1060 or ATOC 3070 or ATOC 3600 and one semester of calculus.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 4730

ATOC 5750 (3) Desert Meteorology and Climate
Introduces students to the dynamic causes of deserts in the context of atmospheric processes and land-surface physics. Discusses desert severe weather, desert microclimates, human impacts and desertification, inter-annual variability in aridity (drought), the effects of deserts on global climate and the impact of desert climate on humans.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 4750
Requisites: Restricted to graduate students only.

ATOC 5760 (3) Astrophysical Instrumentation
Covers the fundamentals underlying the design, construction, and use of instrumentation used for astrophysical research ranging from radio-wavelengths to gamma rays. Topics include: Fourier transforms and their applications; optical design concepts; incoherent and coherent signal detection; electronics and applications; signal acquisition and processing.
Requisites: Restricted to graduate students only.

ATOC 5770 (3) Wind Energy Meteorology
Explores the complex interactions of the atmosphere and wind energy generation. Surveys wind turbine designs. Explores planetary boundary layer dynamics, traditional and novel wind measurement methods, forecasting methods, wind turbine and wind farm wakes, wind farm optimization, sound propagation from wind plants, climate change impacts on wind resources and the impacts of wind plants on local environments.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 4770

ATOC 5810 (3) Planetary Atmospheres
Covers the structure, composition, and dynamics of planetary atmospheres. Also includes origin of planetary atmospheres, chemistry and cloud physics, greenhouse effects, climate, and the evolution of planetary atmospheres past and future.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 5810 and GEOL 5810
Requisites: Restricted to graduate students only.

ATOC 5815 (3) Scientific Programming, Data Analysis and Visualization Laboratory
Teaches programming in python, as well as analysis skills for accessing, analyzing and visualizing data that are commonly used in the atmospheric and oceanic sciences. Basic data analysis includes curve fitting and re-gridding/aggregation of satellite observations or meteorological data for global climatologies. The course content is primarily conveyed through hands-on code development. A final project, involving the independent analysis and visualization of a scientific data set, integrates skills acquired throughout the course.

ATOC 5820 (3) Origin and Evolution of Planetary Systems
Reviews protoplanetary disks, condensation in the solar nebula, composition of meteorites, planetary accretion, comets and asteroids, planetary rings and extrasolar planets. Applies celestial mechanics to the orbital evolution of solar system bodies.
Equivalent - Duplicate Degree Credit Not Granted: ASTR 5820 and GEOL 5820
Requisites: Restricted to graduate students only.
ATOC 5830 (3) Topics in Planetary Science
Examines current topics in planetary science, based on recent discoveries, spacecraft observations and other developments. Focuses on a specific topic each time the course is offered, such as Mars, Venus, Galilean satellites, exobiology, comets or extrasolar planets. Equivalent - Duplicate Degree Credit Not Granted: ASTR 5830 and GEOL 5830
Repeatable: Repeateable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
ATOC 5835 (1) Seminar in Planetary Science
Studies current research on a topic in planetary science. Students and faculty give presentations. Subjects may vary each semester. Equivalent - Duplicate Degree Credit Not Granted: ASTR 5835 and GEOL 5835
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to graduate students only.
ATOC 5900 (1-6) Independent Study
Students may register for more than one section of this course in the same semester. Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
ATOC 6020 (1) Seminar in Atmospheric and Oceanic Sciences
Studies an area of current research in the atmospheric and oceanic sciences. Students read selected papers from the literature. Students and faculty give presentations and participate in discussions. May be repeated for a total of 6 credit hours within the degree. May be repeated for a total of 3 credit hours within a semester. Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
ATOC 6100 (3) Modeling Weather and Climate
Discusses background theory and procedures used for modeling climate on a variety of space and time scales. Includes numerical simulation of weather and climate with models in a hierarchy of complexity, assessments of error growth, prediction of circulations and impact of radiative and other influences. Explores various numerical methods, develops core computing skills and considers data handling and visualization. Consists of a combination of lectures and laboratory. Requisites: Restricted to graduate students only.
Recommended: Prerequisite ATOC 5050 or calculus.
ATOC 6700 (1) Weather Forecasting and Discussion
Explores the techniques used to make short-term weather forecasts in the mid-latitudes using real-time weather observations, numerical forecast model output and conceptual models of mid-latitude weather phenomena. Students will be required to develop and defend conceptual models of the short-term evolution of the weather and will conduct detailed post-forecast analysis of successful and unsuccessful forecasts. Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite ATOC 5050.
ATOC 6950 (1-6) Master's Thesis
Requisites: Restricted to graduate students only.
ATOC 7500 (1-3) Special Topics in Atmospheric and Oceanic Sciences
Acquaints students with current research in atmospheres, oceans, and climate. Topics may vary each semester. Students may register for more than one section of this course in the same semester. Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
ATOC 8990 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Requisites: Restricted to graduate students only.

Baker Residential Academic Program (BAKR)

Courses

BAKR 1500 (3) Colorado: History, Ecology, and Environment
Studies the Colorado environment from multiple aspects of history and ecology. Presents historical events in their environmental context and examines lingering environmental consequences. Presents major habitats within Colorado and relates their historical and present uses. Lecture and field trips.
BAKR 1600 (3) Creating a Sustainable Future
Explores opportunities for moving toward a sustainable 21st century U.S. society. Evaluates socio-economic institutions, values and forces in late 20th century U.S. society that are unsustainable, given 21st century environmental, economic and social challenges. Contemplates societal progress from reflective perspectives and leading visionaries, including CU-generated documents. Explores actions you can adopt now that empower you to live a more sustainable lifestyle.
BAKR 1800 (3) Exploring Opportunities in the Natural and Environmental Sciences
Engaging students to explore and discover exciting internships, careers, and research opportunities in fields associated with natural science and environmental studies. The class will include seminars, lectures, student presentations, and the exploration of places like the Denver Zoo, natural science museums (Denver and CU campus), Mountain Research Station, Campus Greenhouse, Butterfly Pavilion and Rocky Mountain National Park.
Biochemistry (BCHM)

Courses

### BCHM 1041 (3) Biotechnology and Society
Covers recent advances in biotechnology and how those impact society. Content and discussion will focus on both the science behind technological advances, their impact on society, and the ethical issues raised by new technologies. Topics change each semester but can include: GMO crops, genome editing, drug discovery and development, stem cell therapies, development and use of new cancer treatments, human genome sequencing and its impact on diagnosis and treatments, human microbiome, neurodegenerative diseases. Formerly CHEM 1041.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

### BCHM 2700 (4) Foundations of Biochemistry
Covers chemistry of aqueous solutions; energetics in biology; structure of proteins, nucleic acids, carbohydrates, and membranes; protein evolution; macromolecular interactions; enzyme kinetics, mechanism and regulation. Will be taught from a strong chemical perspective and mastery of basic concepts of general and organic chemistry will be required. Familiarity with basic concepts of molecular and cellular biology encouraged.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

### BCHM 3491 (4) Organic Chemistry 2 for Biochemistry Majors
Covers amines, alkylation reactions, additions to unsaturated C=C bonds, aromaticity and aromatic reactivity, organic materials, biomolecules, nomenclature of organic compounds, reaction mechanism. Department enforced corequisite: CHEM 3431 or CHEM 3381. Formerly CHEM 3491.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 3471 and CHEM 3331

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

### BCHM 4312 (3-4) Quantitative Optical Imaging
Explores the fundamentals of optical imaging in biology. Covered topics include an introduction to optics and microscopes, fluorescence microscopy and image analysis. MATLAB will be taught throughout the course and used for image processing.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4312, MCDB 5312 and BCHM 5312

**Grading Basis:** Letter Grade

### BCHM 4400 (4) Core Concepts in Physical Chemistry for Biochemists
Introduces thermodynamics, kinetics and spectroscopy, emphasizing macromolecule and biochemical applications. Includes thermodynamics, chemical and physical equilibriums, solution chemistry, rates of chemical and biochemical reactions, chemical bonds and principles and selected examples of spectroscopies applied to biological systems. Department enforced prerequisite or corequisite: PHYS 1120 or PHYS 2020. Formerly CHEM 4411.

**Equivalent - Duplicate Degree Credit Not Granted:** BCHM 5400 and CHEM 4511

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

### BCHM 4491 (3) Modern Biophysical Methods
Covers the basic theory of biophysical methods widely employed in biochemistry and biology, including: electrophoresis, mass spec, calorimetry, evanescent waves, plasmon resonance, Xray diffraction, absorbance and fluorescence spectroscopy, magnetic resonance, electron and optical microscopy and single molecule methods. Discusses ways to maximize rigor and reproducibility in biophysical studies. Department enforced prerequisites: undergraduate chemistry (general, organic physical); physics; calculus.

**Equivalent - Duplicate Degree Credit Not Granted:** BCHM 5491

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

### BCHM 4500 (4) Core Concepts in Physical Chemistry for Biochemists
Introduces thermodynamics, kinetics and spectroscopy, emphasizing macromolecule and biochemical applications. Includes thermodynamics, chemical and physical equilibriums, solution chemistry, rates of chemical and biochemical reactions, chemical bonds and principles and selected examples of spectroscopies applied to biological systems. Department enforced prerequisite or corequisite: PHYS 1120 or PHYS 2020. Formerly CHEM 4411.

**Equivalent - Duplicate Degree Credit Not Granted:** BCHM 5400 and CHEM 4511

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

### BCHM 4611 (3) Principles of Biochemistry
Lec. One-semester survey of the main themes of modern biochemistry. biomolecular structure/function, metabolism, biosynthesis, DNA from genome to proteome and cellular signaling. For biology and engineering majors and others wanting a survey of biochemistry. Formerly CHEM 4611.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

### BCHM 5312 (4) Modern Biophysical Methods
Covers the basic theory of biophysical methods widely employed in biochemistry and biology, including: electrophoresis, mass spec, calorimetry, evanescent waves, plasmon resonance, Xray diffraction, absorbance and fluorescence spectroscopy, magnetic resonance, electron and optical microscopy and single molecule methods. Discusses ways to maximize rigor and reproducibility in biophysical studies. Department enforced prerequisites: undergraduate chemistry (general, organic physical); physics; calculus.

**Equivalent - Duplicate Degree Credit Not Granted:** BCHM 5400 and CHEM 4511

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

### BCHM 5491 (4) Modern Biophysical Methods
Covers the basic theory of biophysical methods widely employed in biochemistry and biology, including: electrophoresis, mass spec, calorimetry, evanescent waves, plasmon resonance, Xray diffraction, absorbance and fluorescence spectroscopy, magnetic resonance, electron and optical microscopy and single molecule methods. Discusses ways to maximize rigor and reproducibility in biophysical studies. Department enforced prerequisites: undergraduate chemistry (general, organic physical); physics; calculus.

**Equivalent - Duplicate Degree Credit Not Granted:** BCHM 5400 and CHEM 4511

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences
**BCHM 4621 (3) Genome Databases: Mining and Management**

Lec. Develops essential skills for performing genomic analyses, with focus on developing practical research tools. Introduces human genome and microbiome projects, Python/Sql scripting, accessing and understanding genomic data, sequence alignment and search, evolutionary models, expression data, biological networks, and macromolecular structure.

Equivalent - Duplicate Degree Credit Not Granted: MCDB 4621, MCDB 5621 and BCHM 5621

Requisites: Requires prerequisite course of BCHM 4700 or CSCI 3104 or MCDB 3500 (minimum grade C-).

Recommended: Prerequisite MCDB 3135 or CSCI 3104 or CHEM 4700 and recommended corequisite of CSCI 2270.

Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

**BCHM 4720 (4) Metabolic Pathways and Human Disease**

Covers energy metabolism and anabolic/catabolic pathways; metabolism of carbohydrates, lipids, amino acids, and nucleic acids; photosynthesis; special topics on human diseases with pathologies and metabolic pathways. Formerly CHEM 4720.

Equivalent - Duplicate Degree Credit Not Granted: BCHM 5720

Requisites: Requires prerequisite courses of BCHM 2700 or CHEM 4700 and CHEM 3331 or CHEM 3471 (all minimum grade C-).

Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

**BCHM 4740 (4) Biochemistry of Gene Transmission, Expression and Regulation**

Covers biosynthesis and function of macromolecules including DNA, RNA and proteins; molecular basis of replication, transcription and translation; biochemistry of subcellular systems; signaling and regulation of gene expression in eukaryotes; and special topics. Formerly CHEM 4740.

Equivalent - Duplicate Degree Credit Not Granted: BCHM 5740

Requisites: Requires a prerequisite course of BCHM 2700 or CHEM 4700 (minimum grade C-).

Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

**BCHM 4751 (3) Current Topics in Biochemical Research**

Lec. Covers current topics in modern biochemical research through lectures, reading recent research articles, critical thinking and class discussion. Topics include protein and nucleic acid structure and function, biomolecular interactions, enzyme function and cellular signaling and regulation. Formerly CHEM 4751.

Equivalent - Duplicate Degree Credit Not Granted: BCHM 5751

Requisites: Requires prerequisite courses of BCHM 4700 and BCHM 4740 or MCDB 3135 (all minimum grade C-).

Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

**BCHM 4761 (3) Biochemistry Laboratory**

Two 4-hour periods per week. Introduction to modern biochemical techniques. Topics include enzymology, spectrophotometry, electrophoresis, multi-step protein purification, recombinant DNA techniques and molecular cloning. Formerly CHEM 4761.

Requisites: Requires prerequisite courses of BCHM 2700 or CHEM 4700 and CHEM 3341 or 3381 (all minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab

**BCHM 4901 (1-6) Independent Study in Biochemistry**

For undergraduate study. Department consent required.

Repeatable: Repeatable for up to 8.00 total credit hours.

**BCHM 5312 (3-4) Quantitative Optical Imaging**

Explores the fundamentals of optical imaging in biology. Covered topics include an introduction to optics and microscopes, fluorescence microscopy and image analysis. MATLAB will be taught throughout the course and used for image processing.

Equivalent - Duplicate Degree Credit Not Granted: MCDB 5312, MCDB 4312 and BCHM 4312

Grading Basis: Letter Grade

**BCHM 5341 (3) Chemical Biology and Drug Design**

Develop knowledge base and skills in the interdisciplinary field of chemical biology, including aspects of chemistry and biology, and integrating both with respect to hierarchical levels of structure (atomic, molecular, cellular). Students will receive training that helps to develop their careers in biotech, pharmaceutical and other research-oriented industries as well as in academia. Department enforced prerequisites: introductory organic chemistry and general biochemistry. Formerly CHEM 5341.

Requisites: Restricted to graduate students only.

**BCHM 5400 (4) Core Concepts in Physical Chemistry for Biochemists**

Introduces thermodynamics, kinetics and spectroscopy, emphasizing macromolecule and biochemical applications. Includes thermodynamics, chemical and physical equilibriums, solution chemistry, rates of chemical and biochemical reactions, chemical bonds and principles and selected examples of spectroscopies applied to biological systems. Formerly CHEM 5400.

Equivalent - Duplicate Degree Credit Not Granted: BCHM 4400 and CHEM 4511

Requisites: Restricted to graduate students only.

**BCHM 5491 (3) Modern Biophysical Methods**

Covers the basic theory of biophysical methods widely employed in biochemistry and biology, including: electrophoresis, mass spec, calorimetry, evanescent waves, plasmon resonance, Xray diffraction, absorbance and fluorescence spectroscopy, magnetic resonance, electron and optical microscopy and single molecule methods. Discusses ways to maximize rigor and reproducibility in biophysical studies. Department enforced prerequisites: undergraduate chemistry (general, organic physical); physics; calculus.

Equivalent - Duplicate Degree Credit Not Granted: BCHM 4491

Requisites: Restricted to graduate students only.

Grading Basis: Letter Grade

**BCHM 5621 (3) Genome Databases: Mining and Management**

Lec. Develops essential skills for performing genomic analyses, with focus on developing practical research tools. Introduces human genome and microbiome projects, Python/Sql scripting, accessing and understanding genomic data, sequence alignment and search, evolutionary models, expression data, biological networks, and macromolecular structure.

Equivalent - Duplicate Degree Credit Not Granted: MCDB 5621, MCDB 4312 and BCHM 4312

Requisites: Restricted to graduate students only.

**BCHM 5661 (3) Advances in Molecular Biophysics**

Discuss recent literature concerning biophysical studies of macromolecular structure and mechanism, including DNA, RNA, proteins, and their interactions.

Recommended: Prerequisites one year of physical chemistry or quantum mechanics, one year of biology, graduate standing, or instructor consent.
BCHM 5720 (4) Metabolic Pathways and Human Disease
Covers energy metabolism and anabolic/catabolic pathways; metabolism of carbohydrates, lipids, amino acids, and nucleic acids; photosynthesis; special topics on human diseases with pathologies and metabolic pathways. Formerly CHEM 5720.
Equivalent - Duplicate Degree Credit Not Granted: BCHM 4720
Requisites: Restricted to graduate students only.

BCHM 5740 (4) Biochemistry of Gene Transmission, Expression and Regulation
Covers biosynthesis and function of macromolecules including DNA, RNA and proteins; molecular basis of replication, transcription and translation; biochemistry of subcellular systems; signaling and regulation of gene expression in eukaryotes; and special topics. Formerly CHEM 5740.
Equivalent - Duplicate Degree Credit Not Granted: BCHM 4740
Requisites: Restricted to graduate students only.

BCHM 5751 (3) Current Topics in Biochemical Research
Lec. Covers current topics in modern biochemical research through lectures, reading recent research articles, critical thinking and class discussion. Topics include protein and nucleic acid structure and function, biomolecular interactions, enzyme function and cellular signaling and regulation. Department consent required. Formerly CHEM 5751.
Equivalent - Duplicate Degree Credit Not Granted: BCHM 4751
Requisites: Restricted to graduate students only.

BCHM 5770 (3) Fundamentals of Biochemistry I
Analysis of topics in biochemistry including DNA structure and replication, RNA synthesis and processing, protein synthesis, enzyme function and mechanism, and protein structure. Intended as a comprehensive treatment of areas central to modern biochemistry for entering graduate students. Lectures concurrent with BCHM 5771 covering the same topics except for the requirement of a written research proposal. Formerly CHEM 5770.

BCHM 5771 (5) Advanced General Biochemistry 1
Lect. In-depth analysis of DNA structure and replication, RNA synthesis and processing, protein synthesis, enzyme function and mechanism, protein structure, protein dynamics, and physical chemistry of macromolecules. Intended as a comprehensive treatment of areas central to modern biochemistry for entering graduate students. Formerly CHEM 5771.

BCHM 5776 (1) Scientific Ethics and Responsible Conduct in Research
Lect. Advanced discussion of topics in scientific ethics, including requirements for responsible conduct of research, case histories of research misconduct, ethical misconduct and development of professional values and ethical standards.
Equivalent - Duplicate Degree Credit Not Granted: MCDB 5776
Requisites: Requires prerequisite course of BCHM 5771 or CHEM 5271 (minimum grade B-). Restricted to graduate students only.

BCHM 5780 (3) Fundamentals of Biochemistry II
Analysis of topics in biochemistry including protein structure, methods of structure determination and prediction, protein folding, and protein dynamics. Intended as a comprehensive treatment of areas central to modern biochemistry for entering graduate students. Lectures concurrent with CHEM 5781, covering the same topics except for the requirement of a written research proposal. Formerly CHEM 5780.
Requisites: Requires prerequisite course of BCHM 5770 (minimum grade B-). Restricted to graduate students only.

BCHM 5781 (5) Advanced General Biochemistry 2
Lect. Detailed consideration of contemporary topics in biochemistry, including protein structure (primary, secondary, tertiary, and quaternary), methods of structure determination and prediction, protein folding (kinetics, thermodynamics, denaturation, and renaturation), and protein dynamics (internal motions and methods of analysis). Formerly CHEM 5781.
Requisites: Requires prerequisite course of BCHM 5771 (minimum grade B-). Restricted to graduate students only.

BCHM 5801 (3) Advanced Signal Transduction and Cell Cycle Regulation
Lect. Advanced discussion of current research and literature in signal transduction, including ligands, receptors, and intracellular signaling pathways, as well as control on transcription, chromatin structure, DNA replication, mitosis, and cell cycle progression. Formerly CHEM 5801.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites CHEM 5771 and CHEM 5781 and MCB 5210 or MCB 5220.

BCHM 5811 (3) Advanced Methods in Protein Sequencing and Analysis
Lect. Advanced discussion of current methods in protein sequencing, sequence analysis, and posttranslational modifications, emphasizing techniques of mass spectrometry, use of protein databases, sequence alignment and motifs, structure prediction, and modeling of signaling pathways. Department consent required. Formerly CHEM 5811.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites CHEM 5771 and CHEM 5781 and MCB 5210.

BCHM 5821 (1) Special Topics in Signaling and Cell Regulation
Lect. Reviews and evaluates literature on subjects of current interest in signal transduction transcription, cell cycle progression, and cell regulation. Primarily for graduate level presentation of special topics by students, faculty, and research staff. Department consent required. Formerly CHEM 5821.
Repeatable: Repeatable for up to 5.00 total credit hours.
Requisites: Restricted to graduate students only.

BCHM 6601 (1) Biochemistry Seminar
Required of all biochemistry graduate students. Credit is deferred until presentation of satisfactory seminar. Formerly CHEM 6601.
Requisites: Restricted to graduate students only.

BCHM 6711 (3-6) Advanced Topics in Biochemistry
Detailed study of current literature relative to one main topic is undertaken each semester. Topics covered on a rotating basis include enzyme kinetics and mechanisms; lipids and lipoproteins; chemistry and enzymology of nucleic acids; biochemistry of nucleic acids in eukaryotic cells; protein chemistry. Presentations include faculty lectures and student reports. Department enforced prerequisite: one year of biochemistry courses. Department consent required. Formerly CHEM 6711.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.
BCHM 6731 (3-6) Advanced Topics in Biochemistry
Detailed study of current literature relative to one main topic is undertaken each semester. Topics covered on a rotating basis include enzyme kinetics and mechanisms; lipids and lipoproteins; chemistry and enzymology of nucleic acids; biochemistry of nucleic acids in eukaryotic cells; protein chemistry. Presentations include faculty lectures and student reports. Department enforced prerequisite: one year of biochemistry courses. Department consent required. Formerly CHEM 6731.
Repeatability: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

BCHM 6901 (1-6) Research in Biochemistry
Repeatability: Repeatable for up to 15.00 total credit hours.
Requisites: Restricted to graduate students only.

BCHM 6941 (1) Master's Candidate for Degree
Students are not admitted for the master's degree but may be transferred to the MS plan if they are unable to meet the demands of the PhD program.
Requisites: Restricted to graduate students only.
Grading Basis: Pass/Fail

BCHM 6951 (1-6) Master's Thesis
Students are not admitted for the master's degree but may be transferred to the MS plan if they are unable to meet the demands of the PhD program.
Requisites: Restricted to graduate students only.

BCHM 6901 (1-6) Research in Biochemistry
Repeatability: Repeatable for up to 15.00 total credit hours.
Requisites: Restricted to graduate students only.

BCHM 7611 (1) Seminar: Structures and Dynamics of Biopolymers in Solution
Discussion of experimental and theoretical approaches for probing structures and dynamics of proteins, peptides, and nucleic acids; and computations in molecular dynamics simulation, modeling, and geometry. Department consent required. Formerly CHEM 7611.
Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

BCHM 7621 (1) Seminar: Biochemistry and Molecular Biology of Signal Transduction
Discusses and reviews the current literature and experimental results in signal transduction, cell cycle and tumor suppressor gene regulation. Emphasizes the understandings of molecular and biochemical mechanisms of the origin of human tumor cells. Formerly CHEM 7621.
Requisites: Restricted to graduate students only.

BCHM 7651 (2) Seminar: Environmental Biochemistry
Topics in various aspects of current biochemical and environmental research. Department consent required. Formerly CHEM 7651.
Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

BCHM 7661 (1) Structure/Function of Human Mediator Transcription Complexes
Study of the mechanisms of eukaryotic gene expression with an emphasis on the structure and function of human mediator transcription complexes. Formerly CHEM 7661.
Requisites: Restricted to graduate students only.

BCHM 7671 (1) Seminar: Topics in Designing Probes for Signaling Reactions
Discussion of advances and developments in biomolecular dynamics, with emphasis on experimental studies via ultrafast laser spectroscopy. The connection of protein dynamics with function will also be considered. Formerly CHEM 7671.
Requisites: Restricted to graduate students only.

BCHM 7691 (1) Seminar: Protein Dynamics and the Mechanism of Sensory Proteins
Discusses recent results and current literature in the areas of the mechanism of sensory proteins, internal motions of proteins, and protein folding. Department consent required. Formerly CHEM 7691.
Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

BCHM 7701 (1) Seminar: Enzyme Mechanisms and Kinetics
Studies experimental approaches to understand the mechanisms of enzymic catalysis. Techniques include steady-state and pre-steady-state kinetics, isotope trapping and partitioning, inhibition by substrate analogues, and covalent modification of proteins. Department consent required. Formerly CHEM 7701.
Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

BCHM 7711 (1) RNA Mediated Inorganic and Organic Reactions
Discussion of advances and developments in biomolecular dynamics, with emphasis on experimental studies via ultrafast laser spectroscopy. The connection of protein dynamics with function will also be considered. Formerly CHEM 7711.
Requisites: Restricted to graduate students only.

BCHM 7741 (1) Seminar: Signal Transduction and Protein Phosphorylation
Devoted to experimental methods for understanding mechanisms of signal transduction in mammalian cells through pathways involving regulation of protein phosphorylation. Department consent required. Formerly CHEM 7741.
Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

BCHM 7751 (1) Seminar: Protein Structure and Folding
Studies structure and folding of proteins and protein complexes using biophysical methods, including nuclear magnetic resonance (NMR), circular dichroism, and fluorescence spectroscopies. Department consent required. Formerly CHEM 7751.
Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

BCHM 7761 (1) Seminar: Eukaryotic Transcriptional Regulation
Studies the regulation of transcription by RNA Polymerase II from human promoters. Department consent required. Formerly CHEM 7761.
Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

BCHM 7781 (1) Seminar: Topics in Structural Biology
Discussion of advances and developments in structural biology with emphasis on new methods for protein expression, purification and crystallization; and structure solution implementation. Formerly CHEM 7781.
Requisites: Restricted to graduate students only.
Requisites:
a short academic trip to the region.

Perspective of a specific country or region outside the United States and global experience to first-year business students through an in-depth
toward the development of a global mindset. It provides a meaningful and practice professional and self-leadership skills.

Opportunities wherever they might exist. This course is the first step to get from college. Students will explore the purpose of college, reflect on personal values and strengths, learn about educational and career choices for employment upon graduation and are immediately ready to contribute in global environments. They are aware of global issues and cultural differences, and their global mindset allows them to recognize good ideas from whenever they might come and new market/product opportunities wherever they might exist. This course is the first step toward the development of a global mindset. It provides a meaningful global experience to first-year business students through an in-depth perspective of a specific country or region outside the United States and a short academic trip to the region.

Biomedical Engineering (BMEN) Courses

BMEN 2000 (3) Introduction to Biomedical Engineering
Reviews important aspects of biology and develops a basic understanding of the biomedical engineering field. Topics include physiological principles, biomechanics, bioinstrumentation, bioimaging, biotechnology and biomaterials.

Recommended: Prerequisite high school biology.

Grading Basis: Letter Grade

Business Administration (BADM) Courses

BADM 1250 (1.5) Designing Your Leeds
Designing Your Leeds is a class about customizing your college experience to get the most out of it. Using a process rooted in Design Thinking, the course equips students with tools to design and prototype a college experience that best aligns with who they are and what they hope to get from college. Students will explore the purpose of college, reflect on personal values and strengths, learn about educational and career opportunities, and create a prototype of their 4 year experience. Through in-class activities and out of class assignments, students will also learn and practice professional and self-leadership skills.

Recommended: Restricted to Business (BUSNU) majors only.

Grading Basis: Pass/Fail

BADM 1260 (2) First-Year Global Experience
In today's world of increased mobility, globally aware students have more choices for employment upon graduation and are immediately ready to contribute in global environments. They are aware of global issues and cultural differences, and their global mindset allows them to recognize good ideas from whenever they might come and new market/product opportunities wherever they might exist. This course is the first step toward the development of a global mindset. It provides a meaningful global experience to first-year business students through an in-depth perspective of a specific country or region outside the United States and a short academic trip to the region.

Requisites: Restricted to Business (BUSNU) majors only.

BADM 2010 (1) Excel in Business
Teaches beginner to intermediate level Excel skills, emphasizing efficient use of Excel to make sense of substantial data sets. The course is designed to increase students’ proficiency with Excel through a series of hands-on workshops. The workshops have a business problem solving orientation and use real data from Leeds' corporate partners. The workshops emphasize the most important skills that employers value.

Requisites: Restricted to Business (BUSNU) Majors or students with a Business Minor (BUSM-MIN)

Grading Basis: Pass/Fail

BADM 2020 (3) Fundamentals of Quantitative Analysis
Focuses on the application of calculus and statistics in financial analysis with emphasis on theory and problem solving in Excel. Calculus topics covered in the class will include: series, limits and continuity, calculating derivatives, graphing and optimization. Descriptive statistics will be reviewed in the context of financial data. Applications to finance will include portfolio optimization, calculation and graphing of historical stock returns, along with calculation of bond prices, returns, and duration.

Requisites: Restricted to students with the Business Minor (BUSM-MIN) plan.

BADM 2050 (3) Honors/Special Topics
Variable topics in business, drawing from a variety of disciplines.

Repeatable: Repeatable for up to 6.00 total credit hours.

Requisites: At least a 3.50 cumulative GPA is required.

Additional Information: Arts Sciences Honors Course

BADM 2880 (3) Special Topics
Explores historical developments, contemporary issues, industry trends and best practices pertinent to the business of sports. Examines how sports enterprises are managed and the impacts that such enterprises have on the economic and social fabric of communities. Designed to provide sufficient background for educated consumption of this literature and pursuit of further study if desired.

Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

BADM 2900 (1-3) Independent Study
Department consent and departmental form required.

Repeatable: Repeatable for up to 3.00 total credit hours.

Requisites: Restricted to Business (BUSNU) majors only.

BADM 3100 (1) Professional Development
Designed to provide opportunities to understand and develop professional competencies for successful careers in business. Designed to increase knowledge of job search strategies and formulate a career management plan for transitioning to the workplace. Topics such as resumes, cover letters, personal branding, job search strategies, internships, career choices, networking and social media will be covered. A Self-Marketing Plan will be developed to help focus on long-term career goals.

Requisites: Restricted to Leeds School of Business majors only.

Grading Basis: Pass/Fail

BADM 3200 (1) Internship Accelerator
Three-week intensive seminar focused on developing competencies critical to a successful transition into the workplace. Discusses interpersonal communication, situational awareness, giving and receiving constructive feedback, maximizing networking opportunities, deciphering professional expectations, and adaptability in the workplace. Several modules will be taught by industry professionals. Also includes a 2.5 day “micro” internship at a top Boulder-area company.

Requisites: Restricted to Business (BUSN) majors.

Grading Basis: Pass/Fail
BADM 3880 (3) Special Topics
Introduces students to the many facets of the marketing of sport and marketing through sport. Theoretical and practical applications of marketing sport are examined. Provides students with an understanding of current marketing concepts and best business practices, related to sports enterprises and a foundation for pursuit of further study and work in sports and event marketing.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

BADM 3900 (1) Independent Study
Department consent and departmental form required.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to Business (BUSNU) majors only.

BADM 3930 (1-6) Internship
Student training and participation in government or industry environment under faculty supervision. Instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of BCOR 1000 and BCOR 1020 and BCOR 2000 and BCOR 2400 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Pass/Fail

BADM 4820 (1-6) Special Topics
Variable topics in business drawing from a variety of business disciplines.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Business (BUSN) majors with 52-180 units completed.

BADM 4825 (3) Experimental Seminar
Offered irregularly to provide opportunity for investigation of new frontiers in Business Administration.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

BADM 4830 (1-3) Special Topics
Various topics in business and society drawing from a variety of business disciplines.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to Business (BUSNU) majors only.

BADM 4900 (1-3) Independent Study
Intended only for exceptionally well qualified business seniors. Department form required.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to Business (BUSNU) majors only.

BADM 4910 (2) VITA-Volunteer Tax Assistance
Offers students the opportunity to gain professional work experience in an accounting position while still in school. Provides academically relevant work experience that complements students’ studies and enhances their career potential.
Requisites: Requires prerequisite courses of BCOR 2000 and ACCT 3440 or ACCT 5440 (all minimum grade D-). Restricted to Business (BUSN) majors with 52-180 units completed.
Grading Basis: Pass/Fail

BADM 6820 (1-3) Topics in Business Administration
Offered irregularly to provide opportunity to investigate new topics in business administration.

BADM 6930 (3) Commercializing Sustainable Energy Technologies
Addresses the opportunities and problems of commercializing new renewable energy technologies. Focuses on energy markets, opportunity identification, life cycle analysis, policy economics, project financing and economic analysis as they relate to bringing renewable energy technologies to market.
Equivalent - Duplicate Degree Credit Not Granted: ENST 5002

BADM 6940 (3) Land Use Law
Examines Federal, state and local regulations governing land use in the U.S. and surveys the basic principles of urban planning and public finance. Describes basic tools governments use to control land use: Euclidean zoning, nuisance law, police power, eminent domain and takings, Planned Urban Developments, historic preservation, wetlands and flood zones, airports, endangered species, view restrictions, and environmental law.
Requisites: Restricted to Master of Business Administration (MBAD), MBA with dual degree (DMBA), Joint Juris Doctor/MBA (JMDA), Professional MBA (PMBA) or MS Real Estate (REAL-MS) students only.
Grading Basis: Letter Grade

Business Core (BCOR) Courses

BCOR 1015 (3) The World of Business
Provides an overview of the nature business in a global economy. In addition to exploring the economic, governmental, social and environmental context in which businesses operate, students will discover how business creates value and takes advantage of opportunities and challenges. Using examples, cases and projects, students will learn about the business functions in an integrated format. Weekly discussion of current events will focus on entrepreneurship, ethics, international business, business and society, and other topics.
Requisites: Restricted to Leeds School of Business majors only.

BCOR 1025 (3) Statistical Analysis in Business
Covers sampling concepts, graphical and numerical data summaries, basic probability theory, discrete and continuous probability models, sampling distributions, hypothesis testing, correlation and both simple and multiple regression analysis. Students learn decision making and solving business problems by using data. Uses statistical features of Excel. Course requirements: laptop with Excel 2013 or newer; clickers.
Equivalent - Duplicate Degree Credit Not Granted: BCOR 1020
Requisites: Requires a prerequisite or corequisite course of MATH 1112 or a prerequisite course of MATH 1071 (minimum grade D-). Restricted to Business (BUSN), Advertising (ADVT) or International Affairs (IAFS) majors only.

BCOR 1030 (3) Communication Strategy
Helps develop basic communication skills to prepare you for success in the business world. This communication and social science theory-based, skill-building course is framed in Fiske and Cuddy’s person perception theory that all people are perceived on two dimensions, competence and warmth. You will learn how to use communication skills to strategically demonstrate those dimensions.
Requisites: Restricted to Business (BUSN) majors with 0 - 59 units completed.
BCOR 2201 (1.5) Principles of Marketing
Focuses on developing a core marketing toolkit for future business professionals. The tools help identify, reach, motivate, and satisfy customers. The course includes the development and the tactical execution of the 4 Ps-place, price, product, and promotion. Students will learn about the breadth of what marketers do to facilitate exchange between buyers and sellers and about the quantitative analysis that supports those exchanges.
Equivalent - Duplicate Degree Credit Not Granted: BCOR 2400, BCOR 2001
Requisites: Requires prerequisites of BCOR 1015 and ECON 2010 and BCOR 1025 or MATH 2510 or PSYC 2111 or PSCI 2075 or SOCY 2061 (all minimum grade D-). Restricted to BUSN majors with 26-180 units completed.

BCOR 2202 (1.5) Principles of Organizational Behavior
Focuses on the fundamentals of management. Students will learn the basic concepts and best practices in the behavioral sciences that can improve their abilities to lead and manage in organizations. Frameworks for individual, team, and organizational behavior are presented and discussed. Topics include personality traits, culture, decision making, teams, planning, motivation, leadership, well-being and human resources. A group project provides practice in teamwork and in applying the frameworks in practice.
Equivalent - Duplicate Degree Credit Not Granted: BCOR 2300, BCOR 2001
Requisites: Requires prerequisites of BCOR 1015 and ECON 2010 and BCOR 1025 or MATH 2510 or PSYC 2111 or PSCI 2075 or SOCY 2061 (all minimum grade D-). Restricted to BUSN majors with 26-180 units completed.

BCOR 2203 (1.5) Principles of Accounting I
The course builds a basic understanding of how information regarding a firm’s resources and obligations is conveyed to decision makers outside the firm. Students will be exposed to both a user-perspective (how to read and analyze financial accounting reports) and a preparer-perspective (how business transactions affect the financial statements). Particular emphasis will be placed on understanding the accounting cycle, or the system with which businesses process and record their business events to create the financial statements.
Equivalent - Duplicate Degree Credit Not Granted: BCOR 2000, BCOR 2002
Requisites: Requires prerequisites of BCOR 1015 and ECON 2010 and BCOR 1025 or MATH 2510 or PSYC 2111 or PSCI 2075 or SOCY 2061 (all minimum grade D-). Restricted to BUSN majors with 26-180 units completed.

BCOR 2204 (1.5) Principles of Financial Management
Will develop student understanding of the role of finance in business venture. Effective financial management, whether performed by the general manager in a small business or by a finance professional in a large corporation, is necessary for a venture to succeed and grow. Topics covered include financial statement analysis, time value of money, bonds and stocks (both their markets and their valuation), capital budgeting analysis, and investor expectations regarding risk and return.
Equivalent - Duplicate Degree Credit Not Granted: BCOR 2200, BCOR 2002
Requisites: Requires prerequisites of BCOR 1015 and ECON 2010 and BCOR 1025 or MATH 2510 or PSYC 2111 or PSCI 2075 or SOCY 2061 (all minimum grade D-). Restricted to BUSN majors with 26-180 units completed.

BCOR 2205 (1.5) Introduction to Information Management and Analytics
Focuses on the fundamentals of managing information in a data driven business environment. Students will learn the basic concepts and best practices in Information Management that can improve their abilities to lead and manage in organizations. The class teaches cutting-edge tools and approaches to the analysis of data, including "big data," for effective decision-making. It creates data connoisseurs through hands-on exposure to supervised machine learning. Application areas covered include human resources, marketing, finance, and supply chain. At the end of class, all students should be able to formulate common business problems in terms addressable through machine learning, and use automated machine learning tools to conduct the analysis and present deep insights to business leaders. Course requirements: clickers.
Equivalent - Duplicate Degree Credit Not Granted: BCOR 2500, BCOR 2001
Requisites: Requires prerequisites of BCOR 1015 and ECON 2010 and BCOR 1025 or MATH 2510 or PSYC 2111 or PSCI 2075 or SOCY 2061 (all minimum grade D-). Restricted to BUSN majors with 26-180 units completed.

BCOR 2206 (1.5) Principles of Operations Management
Introduces the student to the common activities performed by an operations manager and sets the stage for the student to operate as a member of a cross-functional team responsible for adding value for the customer. These common activities include planning and designing goods and services, sourcing materials and supplies, producing the goods and delivering the services, and dealing with product end-of-life requirements.
Equivalent - Duplicate Degree Credit Not Granted: BCOR 2500, BCOR 2001
Requisites: Requires prerequisites of BCOR 1015 and ECON 2010 and BCOR 1025 or MATH 2510 or PSYC 2111 or PSCI 2075 or SOCY 2061 (all minimum grade D-). Restricted to BUSN majors with 26-180 units completed.

BCOR 2301 (1.5) Business Law
Provides an introduction to the U.S. legal system including its various sources of law and their interplay. Additionally, the court system, both its structure and process, is explored. Finally, contract law and its role in business is examined in detail.
Equivalent - Duplicate Degree Credit Not Granted: BCOR 3000, BCOR 2003
Requisites: Requires prerequisites of BCOR 1015 and ECON 2010 and BCOR 1025 or MATH 2510 or PSYC 2111 or PSCI 2075 or SOCY 2061 (all minimum grade D-). Restricted to BUSN majors with 26-180 units completed.

BCOR 2302 (1.5) Business Ethics and Social Responsibility
Throughout this course students will consider the interconnectedness of law, ethics, values, public policy and regulation. Emphasis will be placed on the importance of individual and organizational responsibility for business. Allows students to consider the relationship between business and ethics in the broader social context, which is necessary to successfully navigate an increasingly complex, global business environment.
Requisites: Requires prerequisite courses of BCOR 2201, BCOR 2202, BCOR 2203, BCOR 2204, BCOR 2205, and BCOR 2206 (all minimum grade D-). Restricted to BUSN majors with 26-180 units completed.
BCOR 2303 (1.5) Principles of Accounting II
This course provides an introduction to various uses of accounting information that are available to managers. Specifically, students will be exposed to decision-making models aimed at assisting managers in planning, operating, and controlling business functions. Topics include job costing, cost-volume analysis, budgeting, cash flows, performance evaluation/compensation, break-even analysis, and relevant costs.
Requisites: Requires prerequisite courses of BCOR 2201, BCOR 2202, BCOR 2203, BCOR 2204, BCOR 2205, and BCOR 2206 (all minimum grade D). Restricted to BUSN majors with 26-180 units completed.

BCOR 2304 (1.5) Strategic and Entrepreneurial Thinking
Provides students with a set of critical thinking skills and theoretical tools to enhance students’ abilities at strategic and entrepreneurial thinking. We examine the following topics: (1) What is Strategy and Entrepreneurship, (2) External Analysis and Porter’s 5 Forces, (3) Internal Analysis and the Resource Based View, (4) SWOT Analysis, (5) Differentiation, Cost Leadership, and Blue Ocean Strategy.
Requisites: Requires prerequisite courses of BCOR 2201, BCOR 2202, BCOR 2203, BCOR 2204, BCOR 2205, and BCOR 2206 (all minimum grade D). Restricted to BUSN majors with 26-180 units completed.

Business Environment and Policy (BPOL)

Courses

BPOL 6940 (1) Master's Candidate for Degree
Grading Basis: Pass/Fail

BPOL 6950 (1-6) Master's Thesis
Requisites: Restricted to graduate students only.

BPOL 7500 (3) Doctoral Seminar: Strategic Management 1
Provides an overview of the literature, including classic articles and books, in business strategy and policy (strategic management). Brings the student up to date on schools of thought, research issues, and practical applications in strategic management.
Repeatable: Repeatable for up to 6.00 total credit hours.

BPOL 7530 (3) Doctoral Seminar: Strategic Management 2
Continuation of BPOL 7500.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of BPOL 7500 (minimum grade D). Restricted to Business Administration (BUAD) graduate students only.

BPOL 7560 (3) Entrepreneurship, International Business and Technology Management
Provides doctoral students with an understanding of strategic management and entrepreneurship theory, as applied to international business and technology management literatures. Additionally, students are exposed to research methods in the strategy and entrepreneurship arenas.
Requisites: Requires prerequisite courses of BPOL 7500 and BPOL 7530 (all minimum grade D).

BPOL 8900 (1-3) Independent Study
Requires consent of instructor under whose direction study is taken. Departmental form required.

BPOL 8990 (1-10) Doctoral Thesis

Business Law (BSLW)

Courses

BSLW 4120 (3) Advanced Business Law
Continuation of BCOR 3000. Covers sales and lease transactions, negotiable instruments, creditor rights and bankruptcy, secured transactions, agency, business organizations, protection of property, and other advanced topics in legal and regulatory environments. This course and BCOR 3000 cover the business law topics tested on the CPA exam.
Equivalent - Duplicate Degree Credit Not Granted: BSLW 5120
Requisites: Requires a prerequisite course of BASE 2104 (minimum grade D). Restricted to Business (BUSN) majors with 52-180 units completed.

BSLW 4820 (1-3) Topics in Business Law
Experimental course offered irregularly for purpose of presenting new subject matter in business law.

BSLW 4825 (3) Experimental Seminar
Offered irregularly to provide opportunity for investigation of new frontiers in Business Law.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

BSLW 4900 (1-3) Independent Study
Repeatable: Repeatable for up to 3.00 total credit hours.

BSLW 5120 (3) Advanced Business Law
Covers sales and lease transactions, negotiable instruments, creditor rights and bankruptcy, secured transactions, agency, business organizations, protection of property, and other advanced topics in legal and regulatory environments. This course and BCOR 3000 cover the business law topics tested on the CPA exam.
Equivalent - Duplicate Degree Credit Not Granted: BSLW 4120
Requisites: Restricted to Accounting, Finance/Accounting, Information Systems/Accounting, Systems/Accounting Concurrent Degree students or Accounting, Accounting/Taxation or Business Administration (BUAD) graduate students only.

BSLW 6900 (1-6) Independent Study
Requisites: Restricted to Business (BUSN) graduate students only.

Business Minor (BUSM)

Courses

BUSM 2010 (1.5) Principles of Marketing
Introduces students to marketing concepts that can be used in many types of organizations. Marketing activities are useful throughout business and society, for identifying, reaching, motivating, and satisfying people. The course covers both strategy and tactics. Marketing tactics include the well-known 4 P’s framework: place, price, product, and promotion.
Equivalent - Duplicate Degree Credit Not Granted: BUSM 2001
Requisites: Requires corequisite of BUSM 2011. Restricted to students with Business Minor (BUSM-MIN) plan and 12 units completed.

BUSM 2011 (1.5) Principles of Management
Focuses on the knowledge and skills needed to effectively lead and manage individuals, teams, and organizations, leading to a more efficient workplace.
Equivalent - Duplicate Degree Credit Not Granted: BUSM 2001
Requisites: Requires corequisite of BUSM 2010. Restricted to students with Business Minor (BUSM-MIN) plan and 12 units completed.
BUSB 2001 (1.5) Principles of Finance
Focuses on the role of finance in small and large businesses. Topics covered include financial statement analysis, time value of money, bonds and stocks (both their markets and their valuation), capital budgeting analysis, and investor expectations regarding risk and return.
Equivalent - Duplicate Degree Credit Not Granted: BUSM 2002
Requisites: Requires corequisite of BUSM 2021. Restricted to students with Business Minor (BUSM-MIN) plan and 12 units completed.

BUSB 2002 (1.5) Principles of Accounting
Focuses on the development and interpretation of companies' external financial reports. Topics range from the fundamentals of bookkeeping, to more complex accounting issues such as intangible assets, impairments, and stock-based compensation.

BUSB 3001 (1.5) Managing Innovation I
Examines the organizational structures that support innovation and organizational change. Creativity and innovation are becoming critical competitive advantages, yet over forty percent of the new products that are launched each year fail in the marketplace. Focuses on the role of effective teamwork in organizations and the tools needed during new product development to improve success.
Equivalent - Duplicate Degree Credit Not Granted: BUSM 3001
Requisites: Requires prerequisite of BUSM 2010, 2011, 2020 and 2021, or (BUSM 2001 and 2002), or (BCOR 2001 and 2002). (all minimum grade D-). Requires corequisite of BUSM 3011. Restricted to students with Business Minor (BUSM-MIN) plan and 12 units completed.

BUSB 3002 (1.5) Managing Innovation II
Examines the organizational structures that support innovation and organizational change. Creativity and innovation are becoming critical competitive advantages, yet over forty percent of the new products that are launched each year fail in the marketplace. Focuses on the role of effective teamwork in organizations and the tools needed during new product development to improve success.
Requisites: Requires prerequisite of BUSM 2010, 2011, 2020 and 2021, or (BUSM 2001 and 2002), or (BCOR 2001 and 2002). (all minimum grade D-). Requires corequisite of BUSM 3010. Restricted to students with Business Minor (BUSM-MIN) plan and 12 units completed.

BUSB 3003 (3) Business Solutions for the Developing World
Focuses on the development and interpretation of companies' external financial reports. Topics range from the fundamentals of bookkeeping, to more complex accounting issues such as intangible assets, impairments, and stock-based compensation.
Equivalent - Duplicate Degree Credit Not Granted: BUSM 3003
Requisites: Requires prerequisite courses of BUSM 2001 and BUSM 2002 (all minimum grade D-). Restricted to Business Minors (BUSM-MIN) with a cumulative GPA of 2.50.

BUSB 3004 (3) Introduction to International Business and Consulting
Provides a meaningful global experience to business minor students through an in-depth perspective of a specific country or region outside the United States and a short academic trip to the region. Includes in-class work combined with an academic trip to an international location specified each year.

BUSB 3005 (3) Introduction to Real Estate
Surveys a variety of real estate topics including: real estate transaction law, real estate markets and valuation, real estate finance and investments, real estate development, real estate sustainability and real property and asset management. Concentrates on applying economic and finance concepts to real estate problems. Students comfortable with fundamental economic principles and with the mathematics of finance will do well in this class.
Equivalent - Duplicate Degree Credit Not Granted: BUSM 3005
Requisites: Requires prerequisite of BUSM 2010, 2011, 2020 and 2021, or (BUSM 2001 and 2002), or (BCOR 2001 and 2002). (all minimum grade D-).
BUSM 4010 (3) Professional Business Plan Development
The Business Minor capstone focuses on the development of an entrepreneurial business plan using principles learned in earlier Business Minor courses. The course supplements business plan development with segments on professional skills and business social responsibility.
Equivalent - Duplicate Degree Credit Not Granted: BUSM 4001
Requisites: Requires prereq (BUSM 2010, 2011, 2020, 2021, or BUSM 2001 2002, or BCOR 2001 2002) (BUSM 3001 or 3002 or 3003 or 3004 or 3005 or 3006 or 3007) OR (BUSM 3010 3011) or (BUSM 3020 3021) or 3030 or 30340 or 3050. (All require minimum grade D).

Career Services (CSVC)

Courses
CSVC 1000 (1) Work Internship
A one credit pass/fail course, opened to students in good academic standing, whose internship employers require that they receive course credit. The student must first seek to obtain academic credit through their major department. Will not count toward degree requirements in any UCB school or college. No appeals for credit toward degrees or for letter grades in the course will be entertained.
Repeatable: Repeatable for up to 3.00 total credit hours.
Grading Basis: Pass/Fail
CSVC 5000 (1-3) Work Internship
A one, two or three credit pass/fail course, open to students in good academic standing, whose internship employers require that they receive course credit. The student must first seek to obtain academic credit through their major department. Will not count toward degree requirements in any UCB school or college. No appeals for credit toward degrees or for letter grades in the course will be entertained.
Repeatable: Repeatable for up to 3.00 total credit hours.
Grading Basis: Pass/Fail

Center for Western Civilization (CWCV)

Courses
CWCV 2000 (3) The Western Tradition
Encourages a historical and critical investigation into the formative influences on what is often called Western culture, including religious, political, social and economic factors, and contemporary interpretations and critiques of these developments and concepts. Designed as the foundation course for the Center for Western Civilization.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Arts Sciences Special Courses
CWCV 4000 (3) Foundations of Western Civilization
Offers in-depth consideration of one or more foundational traditions in Western civilization. Focus changes from semester to semester, but possible topics include the Hebrew Bible, classical Greece, Islam, early Christianity, Persia, and North Africa. Designed as a senior seminar for the certificate in Western Civilization.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Arts Sciences Special Courses

Center of the American West (CAMW)

Courses
CAMW 2001 (3) The American West
Students tour the cultural, social, and natural features of the American West, based on readings and presentations by guest speakers from the CU faculty and from important professions and positions in the West. Designed as the foundation course in the Western American Studies certificate program.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomores).
Additional Information: GT Pathways: GT-HI1 - History
Arts Sci Gen Ed: Distribution-Arts Humanities
CAMW 3939 (1-3) Center of the American West Internship
Work for public and private organizations on projects that enhance the understanding of various Western American topics and issues (environmental, cultural, public policy, etc.), and which foster students’ development as community leaders working for a sustainable West.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite CAMW 2001.
CAMW 4001 (3) Seminar on the American West
Interdisciplinary capstone seminar for the Western American Studies certificate program. Applies a selected natural science, social science, or humanities topic to the American West and addresses how westerners can make and sustain viable landscapes and communities.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite CAMW 2001 and completion of Western American Studies certificate electives.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
CAMW 4840 (1-4) Independent Study: The American West
Requisites: Requires prerequisite course of CAMW 2001 (minimum grade B). Restricted to students with 57-180 credits (Junior or Senior).

Central and East European Studies (CEES)

Courses
CEES 1623 (3) Introduction to Central and East European History since 1770
Examines major themes and events in the history of East-Central Europe from the late 1700s to the present. Themes include the impacts of nationalism, fascism, liberal democracy and communism in shaping the history of the region. Topics include World War I, World War II and the Holocaust, the Cold War, the fall of Communism, the Ukrainian revolution and more.
Equivalent - Duplicate Degree Credit Not Granted: HIST 1623
Additional Information: Arts Sci Core Curr: Historical Context
Departmental Category: Arts Sciences Special Courses
Chemical Engineering (CHEN)

Courses

CHEN 1211 (4) General Chemistry for Engineers
One-semester lecture and recitation course designed to meet the general chemistry requirement for engineering students. Topics include stoichiometry; thermodynamics; gases, liquids, and solids; equilibrium; acids and bases; bonding concepts; kinetics; reactions; and materials science. Examples and problems illustrate the application of chemistry to engineering sub-disciplines. Department enforced prerequisites: one year of high school chemistry or CHEM 1021 (min. grade C-) and high school algebra. Not recommended for students with grade below B- in CHEM 1021.
Equivalent - Duplicate Degree Credit Not Granted: CHEM 1021.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.
Recommended: Corequisite CHEM 1221.

CHEN 1300 (1) Introduction to Chemical Engineering
Meets for one lecture per week. Introduces chemical engineering emphasizing history of the profession, curriculum, chemical industry, and industrial chemistry. Includes industry visits, oral presentations, faculty and professional meetings, and development of a goals statement.
Requisites: Restricted to Chemical (CHEN) Engineering or Chemical and Biological (CBEN) Engineering majors only.

CHEN 1310 (3) Introduction to Engineering Computing
Introduces the use of computers in engineering problem solving, including elementary numerical methods. Teaches programming fundamentals, including data and algorithm structure, and modular programming. Software vehicles include Excel/Vba and Matlab. Formerly GEEN 1300 and COEN 1300.
Requisites: Requires prerequisite or corequisite course of APPM 1340 or 1345 or 1350 or GEEN 3830 or MATH 1300 (all minimum grade C-).
Restricted to College of Engineering majors or Pre-Engineering Arts and Sciences (PREE) students only.

CHEN 2120 (3) Chemical Engineering Material and Energy Balances
Provides a basic understanding of chemical engineering calculations involving material and energy balances around simple chemical processes.
Requisites: Requires prerequisite courses of CHEN 1211 or CHEM 1133 and CHEN 1310 or GEEN 1300 or COEN 1300 (all minimum grade C-).
Restricted to College of Engineering majors only

CHEN 2810 (3) Biology for Engineers
Develops a basic understanding of the science of biology, including an introduction to the disciplines of biochemistry, cell organization, metabolism, genetics, genomics, molecular biology, recombinant DNA technology, and evolution. Provides a basic introduction to several key techniques used in biological engineering laboratories. Uses examples of complex and creative structures engineered by natural processes.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.

CHEN 2840 (1-4) Independent Study
Available to sophomores with approval of Department of Chemical Engineering. Subject arranged to fit needs of student.
Repeatable: Repeatable for up to 6.00 total credit hours.

CHEN 3010 (3) Applied Data Analysis
Teaches students to analyze and interpret data. Topics include engineering measurements, graphical presentation and numerical treatment of data, statistical inference, and regression analysis.
Requisites: Requires prerequisite course of CHEN 1310 (formerly GEEN 1300/GEEN 1300 and APPM 2360 (all minimum grade C-). Restricted to College of Engineering students only.

CHEN 3200 (3) Chemical Engineering Fluid Mechanics
Introduces fluid mechanics and momentum transfer, emphasizing the application of these principles to chemical engineering systems.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 3313 and MCEN 3021
Requisites: Requires prerequisite courses of APPM 2350 or MATH 2400 (min grade C-) and MCEN 3023 or CHEN 2120 (min grade C). Requires prerequisite or corequisite course of APPM 2360 (min grade C-).
Restricted to College of Engineering majors only.

CHEN 3210 (3) Chemical Engineering Heat Transfer
Examines conservation and transfer of thermal energy. Focuses on conduction and convection of heat in the context of chemical processes, with a special focus on heat exchangers. Also studies thermal radiation.
Requisites: Requires prerequisite course of either CHEN 3200 or MCEN 3021 (minimum grade C-). Restricted to College of Engineering majors only

CHEN 3220 (3) Chemical Engineering Separations and Mass Transfer
Studies separation methods including distillation, absorption, and extraction, and application of computer-based solutions to separation problems. Also studies mass transfer rate processes, including diffusion, microscopic material balances, and correlations for mass transfer coefficients. Applies mass transfer rate theory to packed and tray columns.
Requisites: Requires prerequisite courses of CHEN 3210 or MCEN 3022 and CHEN 3320 (all minimum grade C-). Restricted to College of Engineering majors only.

CHEN 3320 (3) Chemical Engineering Thermodynamics
Applies thermodynamic principles to nonideal systems, phase equilibrium, chemical equilibrium, power generation, refrigeration, and chemical processes.
Requisites: Requires prerequisite courses of CHEN 2120 (minimum grade C) and CHEN 4521 or CHEM 4511 and CHEM 4531 (all minimum grade C-).
Restricted to College of Engineering majors only.

CHEN 3660 (3) Energy Fundamentals
Explains the most important energy technologies and systems; provides tools to analyze performance using science and engineering principles. This course will investigate important energy concepts from sources and extraction to utilization, storage and efficiency. Topics include fossil fuels, hydropower, renewable energy, biofuels, carbon capture and waste disposal.
Requisites: Requires prerequisite courses of CHEN 1211 or CHEM 1113 or MCEN 1024 and PHYS 1110 and APPM 1360 or MATH 2300 (all minimum grade C-). Restricted to College of Engineering majors only.

CHEN 3840 (1-4) Independent Study
Available to juniors with approval of the Department of Chemical Engineering. Subject arranged to fit needs of the student.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.
**CHEN 3930 (6) Chemical Engineering Cooperative Education**

Students enrolled in this course participate in a previously arranged, department-sponsored cooperative education program.

**Requisites:** Requires prerequisite course of CHEN 2120 (minimum grade C). At least a 2.85 cumulative GPA is required. Restricted to College of Engineering majors only.

**Recommended:** Prerequisite 3.00 GPA or higher.

**CHEN 4010 (2) Chemical Engineering Senior Thesis 1**

Provides an opportunity for advanced students to conduct exploratory research in chemical engineering.

**Requisites:** Restricted to College of Engineering (ENGRU) undergraduates only.

**CHEN 4020 (2) Chemical Engineering Senior Thesis 2**

Continuation of CHEN 4010. This course and CHEN 4020 can substitute for CHEN 4130.

**Requisites:** Requires prerequisite course of CHEN 4010 (minimum grade C-). Restricted to College of Engineering students only.

**CHEN 4090 (1) Undergraduate Seminar**

Provides chemical engineering career and professional information, facilitates contact with faculty and industry representatives, and improves communication and leadership skills. Consists of a series of seminars and field trips and requires a research project involving a written and oral report.

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**Requisites:** Restricted to Chemical (CHEN) Engineering or Chemical and Biological (CBEN) Engineering majors only.

**CHEN 4130 (3) Chemical Engineering Laboratory**

Involves planning and execution of chemical engineering experiments on mass transfer operations, separations, and chemical reactors. Interprets experimental data with theoretical principles and statistical analysis. Emphasizes communication with written memos, full reports, and oral presentations.

**Requisites:** Requires prerequisite courses of CHEN 3010 and CHEN 3220 and CHEN 3320 and CHEN 4330 (all minimum grade C-). Restricted to College of Engineering majors only.

**CHEN 4200 (1) Chemical Engineering Seminar**

Introduces chemical engineering career and professional information, facilitates contact with faculty and industry representatives, and improves communication and leadership skills. Consists of a series of seminars and field trips and requires a research project involving a written and oral report.

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**Requisites:** Restricted to Chemical (CHEN) Engineering or Chemical and Biological (CBEN) Engineering majors only.

**CHEN 4330 (3) Chemical Engineering Reaction Kinetics**

Introduces chemical kinetics and chemical reactor design. Involves mass and energy balances for steady-state and transient reactor systems. Also covers residence time distribution, mass transfer, catalytic reactions, and multiple steady states in reactors.

**Requisites:** Requires prerequisite courses of CHEN 3320 and APPM 2360 (all minimum grade C-). Restricted to College of Engineering majors only.

**CHEN 4440 (3) Chemical Engineering Materials**

Introduces materials engineering, including properties of polymers, metals, ceramics, and semiconductors, especially as related to chemical engineering processes.

**Requisites:** Requires prerequisite courses of CHEN 3320 and CHEM 3311 (all minimum grade C-). Restricted to College of Engineering majors only.

**CHEN 4450 (3) Polymer Chemistry**

Introduces polymer science with a focus on polymer chemistry and polymerization reactions. Focuses on polymerization reaction engineering and how polymer properties depend on structure.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEN 5450

**Requisites:** Requires prerequisite courses of CHEN 4830 or CHEN 4330 and CHEM 3311 (all minimum grade C-). Restricted to College of Engineering majors only.

**CHEN 4460 (3) Polymer Engineering**

Introductory polymer engineering course reviewing basic terminology and definitions; the properties and synthetic routes of important industrial polymers; and processing of polymers and their applications.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEN 5460

**Requisites:** Requires prerequisite courses of CHEN 3311 and CHEN 3320 (all minimum grade C-). Restricted to College of Engineering majors only.

**CHEN 4520 (3) Chemical Process Synthesis**

Studies applied chemical process design including equipment specification and economic evaluation.

**Requisites:** Requires prerequisite courses of CHEN 3010 and CHEN 3210 or MCEN 3022 and CHEN 3220 and CHEN 4330 or CHEN 4830 (all minimum grade C-). Restricted to College of Engineering majors only.

**CHEN 4530 (2) Chemical Engineering Design Project**

Provides a team-based capstone design experience for chemical engineering students. Projects are sponsored by industry and student design teams collaborate with industrial consultants. Projects consider chemical process and product design with emphasis on economic analysis. Deliverables include an oral mid-project design review, a final oral presentation and final written design report.

**Requisites:** Requires prerequisite course of CHEN 4520 (minimum grade C-). Restricted to College of Engineering majors only.

**CHEN 4550 (4) Instrumentation and Process Control**

Examines principles of control theory and their application to chemical processes. Focuses on single-loop feedback and feedforward control. Laboratory sessions cover measurement fundamentals, signal transmission, dynamic testing, control system synthesis, and implementation and adjustment.

**Requisites:** Requires prerequisite courses of CHEN 3220 and CHEN 4330 or CHEN 4830 and APPM 2360 (all minimum grade C-). Restricted to College of Engineering majors only.

**CHEN 4630 (1) Intellectual Property Law and Engineering**

Learn the fundamentals of the various types of intellectual property, obtain the ability to search the USPTO database for patents, learn the difference between provisional patents, utility patents and foreign patents and learn the timing requirements related to the filing of patents and public disclosure, use, and/or sale of an invention.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEN 5630

**Requisites:** Restricted to students with 87-180 credits (Senior, Fifth Year Senior) College of Engineering majors only.
CHEN 4650 (3) Particle Technology
Aims to identify the important physical mechanisms occurring in processes involving particles, formulate and solve mathematical descriptions of such processes, and analyze experimental and theoretical results in both a qualitative and quantitative manner. Teaches students to apply this knowledge to the design of particulate systems. Conveys the breadth and depth of natural and industrial applications involving particulates.
Equivalent - Duplicate Degree Credit Not Granted: CHEN 5650
Requisites: Requires prerequisite courses of APPM 2360 and CHEN 3200 or MCEN 3021 (all minimum grade C-). Restricted to College of Engineering majors only.

CHEN 4801 (3) Pharmaceutical Biotechnology
Focuses on the engineering needed to bring therapeutic products derived from living organisms (e.g., proteins, peptides, DNA, RNA) from the production plant to the patient. Covers the challenges of keeping these products "active" as they are stored, shipped, and administered to patients.
Requisites: Requires prerequisite courses of CHEN 3320 and prerequisite or corequisite courses of CHEN 4830 or CHEN 4330 (all minimum grade C-). Restricted to College of Engineering majors only.

CHEN 4802 (3) Tissue Engineering and Medical Devices
The purpose of this course is to develop a basic understanding of quantitative and qualitative aspects of tissue engineering and medical devices. Particular emphasis will be placed on topics of potential importance and significance to chemical and biological engineers. Students will be introduced to important professional, societal and entrepreneurial issues in the field by examining case studies in which drugs and medical products have been developed or are being considered for FDA approval and clinical use.
Requisites: Requires prerequisite or corequisite course of CHEN 3320 and prerequisite or corequisite courses CHEN 4830 or CHEN 4330 (all minimum grade C-). Restricted to College of Engineering students only.

CHEN 4803 (3) Metabolic Engineering
Introduces basic concepts in metabolic engineering and explores modern approaches in metabolic and strain engineering. Application areas that will be discussed will include the use of metabolic engineering approaches in biofuels and biorefining as well as biopharmaceutical production.
Equivalent - Duplicate Degree Credit Not Granted: CHEN 5803
Requisites: Requires prerequisite course of (CHEM 4611 or CHEM 4700) and prerequisite or corequisite course of CHEN 3320 (all minimum grade C-). Restricted to College of Engineering majors only.

CHEN 4805 (3) Biomaterials
Provides an overview of biomaterials. Covers major classes of materials used in medical applications, properties, degradation mechanisms, and characterization methods, foreign body response, methods to control physiological response to biomaterial surfaces, biocompatibility, biomaterials used in soft and hard tissue replacements, drug delivery devices and tissue engineering, and design criteria for developing a material for a given biological application.
Requisites: Requires prerequisite courses of CHEN 2810 or MCDB 1150 or EBIO 1220 and CHEN 3320 and CHEM 3311 (all minimum grade C-). Restricted to College of Engineering students only.
Recommended: Prerequisite CHEM 3331.

CHEN 4810 (3) Biological Engineering Laboratory
Involves planning and execution of chemical engineering experiments on mass transfer operations, bioseparations, and biological reactors. Interprets experimental data with theoretical principles and statistical analysis. Emphasizes communication with written memos, full reports and oral presentations.
Requisites: Requires prerequisite courses of CHEN 2810 or MCDB 1150 or EBIO 1210 and EBIO 1220 and CHEN 3010 and CHEN 4830 (all minimum grade C). Requires a corequisite course of CHEN 4820. Restricted to College of Engineering majors only.

CHEN 4820 (3) Biochemical Separations
Lect. and lab. Presents purification methods, mass transfer coefficients, problems specific to biologicals, and scale-up of processes. Also covers chromatography, phase extraction, supercritical fluids, sedimentation, precipitation, electrophoresis, dialysis, affinity techniques, cell separation, application of separations to bioreactors, and comparison of batch and continuous processes.
Requisites: Requires prerequisite course of CHEN 3220 (minimum grade C). Restricted to College of Engineering majors only.

CHEN 4830 (3) Chemical Engineering Biokinetics
Introduces chemical kinetics, chemical reactor design, and biological kinetics. Involves mass and energy balances for steady-state and transient reactor systems. Also covers resistance time distribution, mass transfer, catalytic reactions, multiple steady states in reactors, enzyme kinetics, metabolic networks, and cell growth kinetics.
Requisites: Requires prerequisite course of CHEN 3320 (minimum grade C). Restricted to College of Engineering majors only.

CHEN 4836 (3) Nanomaterials
Presents fundamental chemical and physical concepts that give rise to the unique optical, electronic and magnetic properties of nanoscale materials. Introduces important synthetic routes for producing nanomaterials, and interparticle forces governing colloidal behavior and self-assembly. Discusses current and potential applications in catalysis, biomedicine, renewable energy, and other fields.
Equivalent - Duplicate Degree Credit Not Granted: CHEN 5836
Requisites: Requires prerequisite or corequisite of CHEN 3320 (minimum grade C). Restricted to College of Engineering students only.

CHEN 4838 (1-3) Special Topics in Chemical Engineering
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.

CHEN 4840 (1-4) Independent Study
Available to seniors with approval of chemical engineering department. Subject arranged to fit needs of student.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 87-180 credits (Senior, Fifth Year Senior) College of Engineering majors only.

CHEN 5090 (1) Seminar in Chemical Engineering
Required of all chemical engineering graduate students. Includes reports on research activities and on special current topics.
Requisites: Restricted to graduate students only.
Grading Basis: Pass/Fail
CHEN 5128 (3) Applied Statistics In Research and Development
Students learn current and emerging statistical methods that are appropriate to experimentation in research and development activities. Statistical design of experiments and model fitting is emphasized. Department enforced prereq.: one introductory probability/statistics course.

CHEN 5150 (3) Biomolecular Kinetics, Transport, and Thermodynamics
Required for the Biological Engineering PhD. This course covers aspects of kinetics, transport, and thermodynamics as they relate to interactions between biomolecules and cells. These core subjects will be introduced within concepts common to cell biology, protein/genetic engineering, and signaling, among others. Undergraduate enrollment with instructor consent only.

Recommended: Prerequisites Introductory biology and/or biochemistry, linear algebra, differential equations, thermodynamics, organic chemistry.

CHEN 5210 (4) Transport Phenomena
Considers continuum mechanics, emphasizing fundamental relationships for fluid mechanics and heat and mass transfer and their applications to engineering problems. Department enforced prerequisites: undergraduate courses in fluid mechanics, heat transfer, and differential equations.

Requisites: Restricted to students with 87-180 credits (Seniors) or graduate students only.

CHEN 5360 (3) Catalysis and Kinetics
Studies principles of chemical kinetics and catalytic reactions, emphasizing heterogeneous catalysis.

Requisites: Requires corequisite course of CHEN 4330. Restricted to Chemistry (CHEM) or Chemical Engineering (CHEN) graduate students only.

CHEN 5370 (3) Intermediate Chemical Engineering Thermodynamics
Reviews fundamentals of thermodynamics, application to pure fluids and mixtures, and physical equilibrium and changes of state. Examines the equation of state and computation of fluid properties for pure fluids, mixtures and solutions. Also looks at relations between thermodynamics and statistical mechanics. Department enforced prerequisite: an undergraduate course in chemical thermodynamics.

Requisites: Restricted to graduate students only.

CHEN 5390 (3) Chemical Reactor Engineering
Studies ideal and nonideal chemical reactors, including unsteady state behavior, mixing effects, reactor stability, residence time distribution and diffusion effects. Department enforced prerequisite: undergraduate course in chemical reactor design/kinetics.

CHEN 5420 (3) Physical Chemistry and Fluid Mechanics of Interfaces
Covers thermodynamics of interfaces and surface tension measurement; adsorption at liquid-gas, liquid-liquid, and solid-gas interfaces; monolayers; conservation equations for a fluid interface; rheology of interfaces; surface tension driven flows; contact angle and wettability; and double layer phenomena.

Requisites: Requires prerequisite course of CHEN 3200 (minimum grade D-).

CHEN 5440 (3-4) Design of Materials
The course content includes introduction and study of important concepts in solid state physics (particularly those relevant for design of materials); origin, characterization and design of mechanical, electronic, optical, magnetic, thermal and electrochemical properties of materials; design of bulk and nanostructured composites; introduction to polymers and soft materials; fundamentals of colloids and interfaces; and nanoscale chemistry and physics for design or desired material properties.

Grading Basis: Letter Grade

CHEN 5450 (3) Polymer Chemistry
Introduces polymer science with a focus on polymer chemistry and polymerization reactions. Focuses on polymerization reaction engineering and how polymer properties depend on structure.

Equivalent - Duplicate Degree Credit Not Granted: CHEN 4450

CHEN 5460 (3) Polymer Engineering
Introductory polymer engineering course reviewing basic terminology and definitions; the properties and synthetic routes of important industrial polymers; and processing of polymers and their applications.

Equivalent - Duplicate Degree Credit Not Granted: CHEN 4460

CHEN 5470 (3) Functional Materials Chemistry
The synthesis, organization, and processing of materials can enable functional performance. Curriculum will overview the synthesis and design of functional organic and inorganic materials. A particular emphasis will be placed on structure-performance correlations between chemistry and materials organization. Topical foci will include polymers, biomaterials, and materials for energy.

Recommended: Prerequisite Introductory course(s) in materials or organic chemistry.

CHEN 5530 (1) Intellectual Property Law and Engineering
Learn the fundamentals of the various types of intellectual property, obtain the ability to search the USPTO database for patents, learn the difference between provisional patents, utility patents and foreign patents and learn the timing requirements related to the filing of patents and public disclosure, use, and/or sale of an invention.

Equivalent - Duplicate Degree Credit Not Granted: CHEN 4530

Requisites: Restricted to graduate students only.

CHEN 5560 (3) Particle Technology
Aims to identify the important physical mechanisms occurring in processes involving particles, formulate and solve mathematical descriptions of such processes, and analyze experimental and theoretical results in both a qualitative and quantitative manner. Teaches students to apply this knowledge to the design of particulate systems. Conveys the breadth and depth of natural and industrial applications involving particulates. Extra work required for graduate course.

Equivalent - Duplicate Degree Credit Not Granted: CHEN 4560

CHEN 5630 (1) Environmental Separations
Lect. Covers traditional, as well as new, chemical separations processes that have environmental applications. Includes chemically benign processing (pollution prevention) as well as approaches to address existing pollution problems.

CHEN 5740 (3) Analytical Methods in Chemical Engineering
Presents applied analytical and numerical mathematical methods in the context of chemical engineering problems. Topics include modeling techniques, algebraic equations, and ordinary and partial differential equations. Department enforced requisite: working knowledge of computing, calculus, differential equations, linear algebra, and vector operations; and undergraduate courses in physics, fluid mechanics, heat transfer, and reaction engineering.

Requisites: Restricted to students with 87-180 credits (Seniors) or graduate students only.
CHEN 5750 (3) Numerical Methods in Chemical Engineering
Covers numerical methods for solving ordinary differential, partial differential, and integral equations. These principles are employed to develop, test, and assess computer programs for solving problems of interest to chemical engineers.
**Requisites:** Restricted to graduate students only.

CHEN 5800 (3) Bioprocess Engineering
Reviews the recent developments in the fields of microbiology, molecular genetics, and genetic engineering that are of commercial value and benefit to mankind. Covers engineering implementation of such biological processes.

CHEN 5803 (3) Metabolic Engineering
Introduces basic concepts in metabolic engineering and explores modern approaches in metabolic and strain engineering. Application areas that will be discussed will include the use of metabolic engineering approaches in biofuels and biorefining as well as biopharmaceutical production.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEN 4803
**Requisites:** Requires prerequisite courses of APPM 2360 and CHEM 4731 or CHEM 4611 (all minimum grade C-).

CHEN 5805 (3) Biological Interactions to Biomaterials
Covers major classes of materials used in medical applications. Provide an in-depth view of advanced biomaterial concepts with a focus on biological interactions with materials that relate to protein and cell interactions, the innate and acquired immune response, blood interactions and infection.

**Requisites:** Restricted to graduate students only.

CHEN 5830 (1) Introduction to Modern Biotechnology
Introduces students to the biotechnology enterprise. Topics include the biotechnology industry and profession, the various academic disciplines of biotechnology, intellectual property, financing, and ethics.

CHEN 5831 (2) Biotechnology Case Studies
Capstone course required of all graduate students in the interdisciplinary graduate biotechnology certificate program. Reviews molecular genetics, product synthesis and purification, economics, intellectual property, and business planning. Working in teams, students present a biotechnology product plan.

**Requisites:** Requires prerequisite course of CHEN 5830 (minimum grade D-).

CHEN 5835 (3) Colloids and Interfaces
Provides a deep exploration of the fundamental principles of colloid and interface science and of related applications. Core topics include fundamental equations of interfacial science, capillary phenomena, interfacial thermodynamics interfaces, molecular monolayers, electrical surface properties, and interfacial a forces. Advanced topics include wetting phenomena, adsorption isotherms, dynamic interfacial behavior, surface modification, triboology, surfactant self-assembly, and foams/emulsions among others.

**Requisites:** Requires prerequisite course of CHEN 3320 (minimum grade C-).

CHEN 5836 (3) Nanomaterials
Presents fundamental chemical and physical concepts that give rise to the unique optical, electronic and magnetic properties of nanoscale materials. Introduces important synthetic routes for producing nanomaterials, and interparticle forces governing colloidal behavior and self-assembly. Discusses current and potential applications in catalysis, biomedicine, renewable energy, and other fields.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEN 4836
**Requisites:** Restricted to graduate students only.

CHEN 5838 (1-3) Special Topics in Chemical Engineering
Graduate-selected topics courses offered upon demand.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to graduate students only.

CHEN 5840 (1-4) Independent Study
Allows multiple enrollment in term.

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to graduate students only.

CHEN 5900 (3) Pharmaceutical Biotechnology
Incorporates biochemistry, pharmaceutical science, and engineering for application in the pharmaceutical industry. Emphasizes microscale mechanisms affecting drug delivery, bioavailability, and stability. Specific topics include thermodynamics of macromolecular conformational stability, crystallization kinetics, interfacial phenomena, and industrial protein folding.

**Requisites:** Restricted to graduate students only.

CHEN 5919 (1-5) Special Topics in CHBE
**Repeatable:** Repeatable for up to 5.00 total credit hours.

**Requisites:** Restricted to graduate students only.

CHEN 6210 (3) Microhydrodynamics of Suspensions and Colloids
Focuses on fluid mechanics and colloid science of suspensions of particles, cells, and drops. Covers fundamentals, applications, and research frontiers.

**Requisites:** Requires prerequisite course of CHEN 5210 (minimum grade D-).

CHEN 6620 (3) Biochemical Engineering Fundamentals
Covers design and operation of fermentation processes, microbial and enzyme kinetics, multiple substrate and multiple species of fermentation, regulation of enzyme activity, energetics of cellular growth, immobilized enzyme and cell reactors, and transport phenomenon microbial systems and downstream processing.

**Requisites:** Restricted to Chemistry (CHEM), Chemical Engineering (ChEN) or Biological Sciences (MCDB) graduate students only.

CHEN 6940 (1) Master's Candidate for Degree
**Grading Basis:** Pass/Fail

CHEN 6950 (1-6) Master's Thesis

CHEN 8990 (1-10) Doctoral Thesis
Chemistry (CHEM)

Courses

CHEM 1011 (3) Environmental Chemistry 1
Lect. Introduces basic principles of chemistry with applications to current environmental issues including toxic chemicals, air and water pollution, energy sources and their environmental impact, and climate change resulting from the greenhouse effect. No credit given to chemistry or biochemistry majors for this course if students already have credit in any college-level chemistry course numbered 1113/1114 (formerly 1111) or higher.

Additional Information: GT Pathways: GT-SC2 - Natural Physical Sci: Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Chemistry
MAPS Course: Physics
MAPS Course: Natural Science

CHEM 1021 (4) Introductory Chemistry
Lect. and lab. For students with no high school chemistry or a very weak chemistry background. Remedies a deficiency in natural science MAPS requirements and prepares students for CHEM 1113 and CHEM 1114. No credit given to chemistry or biochemistry majors for this course if students already have credit in any college-level chemistry course numbered 1113/1114 (formerly 1111) or higher. Department enforced prerequisite: one year high school algebra or concurrent enrollment in MATH 1011.

Additional Information: GT Pathways: GT-SC1 - Natural Physical Sci: Lec Crse w/ Req Lab
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab
MAPS Course: Natural Science Lab or Lab/Lec

CHEM 1031 (4) Environmental Chemistry 2
Lect. and lab. Applications of chemical principles to current environmental issues including acid rain, stratospheric ozone depletion, the Antarctic ozone hole, solar energy conversion and fuel cells, and the environmental consequences of nuclear war. Laboratory experience is included. No credit given to chemistry or biochemistry majors for this course if students already have credit in any college-level chemistry course numbered 1113/1114 (formerly 1111) or higher.

Requisites: Requires prerequisite course of CHEM 1011 (minimum grade C).

Additional Information: Arts Sci Core Curr: Natural Science Sequence
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

CHEM 1113 (4) General Chemistry 1
Lect., rec. Intended for first-semester students whose academic plans require advanced work in chemistry. Subjects: components of matter, stoichiometry, classes of reactions, gases, thermochemistry, atomic structure, electron configuration, chemical bonding, molecular shapes, covalent bonding, organic compounds, intermolecular forces, equilibrium. Department enforced prerequisites: one year high school chemistry or CHEM 1021 (minimum grade C); high school math through pre-calculus. Not recommended for students with grades below B- in CHEM 1021. Department enforced corequisite: CHEM 1114. Not open to engineering students with exception of EPEN majors.

Equivalent - Duplicate Degree Credit Not Granted: CHEM 1400 or CHEM 1211

Requisites: AMEN, AREN, ASEN, CHEN, CSEN, CVEN, ECEN, EEEN, EVEN, MCEN, OPEN or CBEN majors are not allowed to take this class.

Additional Information: GT Pathways: GT-SC2 - Natural Physical Sci: Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

CHEM 1114 (1) Laboratory in General Chemistry 1
Lab. Intended for first-semester students whose academic plans require advanced work in chemistry. Instruction in experimental techniques which coordinate with lecture topics in CHEM 1113. Department enforced prerequisites: one year high school chemistry or CHEM 1021 (minimum grade C); high school math through pre-calculus. Not recommended for students with grades below B- in CHEM 1021. Department enforced corequisites: CHEM 1113. Not open to engineering students with exception of EPEN majors.

Equivalent - Duplicate Degree Credit Not Granted: CHEM 1401 or CHEM 1221

Requisites: AMEN, AREN, ASEN, CHEN, CSEN, CVEN, ECEN, EEEN, EVEN, MCEN, OPEN or CBEN majors are not allowed to take this class.

Additional Information: GT Pathways: GT-SC1 - Natural Physical Sci: Lec Crse w/ Req Lab
Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

CHEM 1133 (4) General Chemistry 2
Lect., rec. Intended for second-semester students whose academic plans require advanced work in chemistry. Subjects: acid-base equilibria, buffers and titrations, thermodynamics, redox reactions, electrochemistry, transition elements and their coordination compounds, solubility/solubility equilibria, crystal field theory, kinetics, nuclear chemistry. Department enforced corequisite: CHEM 1134.

Equivalent - Duplicate Degree Credit Not Granted: CHEM 2100

Requisites: Requires prerequisite courses of CHEM 1113 and CHEM 1114 or CHEM 1401 and CHEM 1400 (formerly CHEM 1251) or CHEM 1211 and CHEM 1221 (all minimum grade C).

Additional Information: GT Pathways: GT-SC2 - Natural Physical Sci: Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
CHEM 1134 (1) Laboratory in General Chemistry 2
Lab. Intended for second-semester students whose academic plans require advanced work in chemistry. Instruction in experimental techniques which coordinate with lecture topics in CHEM 1133. Department enforced corequisite: CHEM 1133.
Equivalent - Duplicate Degree Credit Not Granted: CHEM 2101
Requisites: Requires prerequisite courses of CHEM 1113 and CHEM 1114 or CHEM 1400 and CHEM 1401 (formerly CHEM 1251) or CHEM 1211 and CHEM 1221 (all minimum grade C-).
Additional Information: GT Pathways: GT-SC1 - Natural Physical Sci: Lec Crse w/ Req Lab
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

CHEM 1211 (1) Engineering General Chemistry Lab
Meets general chemistry laboratory requirement for engineering students. Designed to illustrate chemical concepts and introduce basic techniques in chemical measurement and synthesis. Department enforced prerequisites: one year of high school chemistry or CHEM 1021 (minimum grade C-) and high school algebra; B- in CHEM 1021 recommended.
Equivalent - Duplicate Degree Credit Not Granted: CHEM 1114 or CHEM 1401
Requisites: Requires prerequisite course of CHEN 1211 or CHEM 1133 (minimum grade C-), or corequisite course of CHEM 1211 or CHEM 1133. Restricted to undergraduate engineering students only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

CHEM 1400 (4) Foundations of Chemistry
Covers core concepts in chemistry: nature of matter (atomic and molecular structure, bonding and macroscopic properties), transformations of matter (chemical reactivity), and quantifying chemical transformations (thermochemistry, thermodynamics and kinetics). Emphasizes critical thinking and cultivate core problem solving skills utilized by scientists. Intended for first semester CHEM/BCHM majors. Department enforced prerequisites: one year high school chemistry or CHEM 1021 (minimum grade C-) and high school math through pre-calculus. Not recommended for students with grades below B- in CHEM 1021. Department enforced corequisite: CHEM 1401. Formerly CHEM 1251.
Equivalent - Duplicate Degree Credit Not Granted: CHEM 1113
Requisites: Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

CHEM 1401 (1) Foundations of Chemistry Lab
Coordinates with lecture topics in CHEM 1400. Intended for first-semester CHEM and BCHM majors. Emphasizes the development of hands-on practical laboratory skills, experimental design, data interpretation, problem solving and open inquiry. Department enforced prerequisites: one year high school chemistry or CHEM 1021 (minimum grade C-) and high school math through pre-calculus. Not recommended for students with grades below B- in CHEM 1021. Department enforced corequisite: CHEM 1400.
Equivalent - Duplicate Degree Credit Not Granted: CHEM 1114 or CHEM 1221
Requisites: Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

CHEM 2100 (4) Chemical Energetics and Dynamics
Covers the energetic principles that determine when chemical reactions occur and the dynamic principles that determine how rapidly they will occur. Applications include ionic equilibria in solution (acids and bases, buffers and titrations), oxidation-reduction reactions, electrochemistry and chemical kinetics. These applications will be situated in a context of current research problems in areas such as renewable energy and atmospheric chemistry. Department enforced corequisite: CHEM 2101. Formerly CHEM 1271.
Equivalent - Duplicate Degree Credit Not Granted: CHEM 1133
Requisites: Requires prerequisite courses of CHEM 3331 or CHEM 3471 (formerly CHEM 3371) or CHEM 3491 and MATH 2300 or APPM 1360 (all minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.
Additional Information: Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

CHEM 2101 (1) Laboratory for Chemical Energetics and Dynamics
Coordinates with the lectures topics in CHEM 2100. Required for fourth semester CHEM majors and an elective for BCHM majors. Emphasizes the acquisition of more advanced laboratory skills, experimental design, data interpretation and analysis. Department enforced corequisite: CHEM 2100.
Requisites: Requires a prerequisite course of CHEM 3341 or CHEM 3381 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

CHEM 3151 (3) Air Chemistry and Pollution
Examines the composition of the atmosphere, and sources of gaseous and particulate pollutants: their chemistry, transport and removal from the atmosphere. Applies general principles to acid rain, smog and stratospheric ozone depletion. Department enforced prerequisite: two semesters of chemistry.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 3500
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

2019–20 University Catalog 1617
CHEM 3251 (3) Sustainable Energy from a Chemistry Perspective
Explores qualitative and quantitative chemical aspects of energy systems (production, transmission, storage, utilization) including fossil, wind, solar, nuclear and biomass energy. Applies chemical principles including composition, structure, bonding, physical properties, thermodynamics, equilibrium and kinetics to energy systems and sustainability, especially environmental implications. Describes the importance of energy to the chemical industries and society as a whole.

**Requisites:** Requires prerequisite course of CHEM 1133 and 1134 or CHEM 2100 and 2101 or CHEN 1211 and CHEM 1221 (all minimum grade C).

CHEM 3311 (4) Organic Chemistry 1
Lect. and rec. Intended primarily for nonmajors. Topics include structure and reactions of alkanes, alkenes, alkynes, alkyl halides, and aromatic molecules; nomenclature of organic compounds; stereochemistry, reaction mechanisms and dynamics. Department enforced corequisite: CHEM 3321 or CHEM 3361.

**Requisites:** Requires prerequisite course of CHEM 1133 and CHEM 1134 or CHEM 1400 and CHEM 1401 or CHEM 2100 and CHEM 2101 or CHEM 1211 and CHEM 1221 (all minimum grade C).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences Arts Sci Gen Ed: Distribution-Natural Sci Lab

CHEM 3321 (1) Laboratory in Organic Chemistry 1
Labs. Instruction in experimental techniques of modern organic chemistry emphasizing chemical separations and reactions of alkanes, alkenes, and aromatic compounds. Stereocchemical modeling and the identifications of organic unknowns by spectroscopic and chemical methods are also introduced. Department enforced corequisite: CHEM 3311 or CHEM 3451.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 3361
**Requisites:** Requires prerequisite course of CHEM 1133 and CHEM 1134 or CHEM 2100 or CHEM 1400 and CHEM 1401 or CHEM 2100 or CHEM 2101 or CHEM 1211 and CHEM 1221 (all minimum grade C).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab

CHEM 3331 (4) Organic Chemistry 2
Lect. and rec. Intended primarily for nonmajors. Topics include structure and reactions of alkyl halides, alcohols, ethers, carboxylic acids, aldehydes, ketones, and amines; introduction to the chemistry of heterocycles, carbohydrates, and amino acids; nomenclature of organic compounds; synthesis; and reaction mechanisms. Department enforced corequisite: CHEM 3341 or CHEM 3381.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 3471 or BCHM 3491
**Requisites:** Requires prerequisite courses of (CHEM 3311 or CHEM 3451) and (CHEM 3321 or CHEM 3361) all minimum grade C.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences Arts Sci Gen Ed: Distribution-Natural Sci Lab

CHEM 3341 (1) Laboratory in Organic Chemistry 2
Labs. For biochemistry and nonchemistry majors. Instruction in experimental techniques of modern organic chemistry emphasizing reactions involving alcohols, ketones, carboxylic acids, and their derivatives. Multistep syntheses are also introduced. Department enforced corequisite: CHEM 3331 or CHEM 3471 or CHEM 3491.

**Requisites:** Requires prerequisite courses of CHEM 3311 or CHEM 3451 and CHEM 3321 or CHEM 3361 (all minimum grade C).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences Arts Sci Gen Ed: Distribution-Natural Sci Lab

CHEM 3361 (2) Laboratory in Organic Chemistry 1 for Chemistry Majors
Labs. Required course for chemistry majors. Instruction in experimental techniques of modern organic chemistry emphasizing chemical separations and reactions of alkanes, alkenes, alcohols, ketones, and alkyl halides. Explores stereochemical modeling and the chemical identification of organic unknowns. Department enforced corequisite: CHEM 3351 or CHEM 3311 or CHEM 3451.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 3321
**Requisites:** Requires prerequisite course of CHEM 1133 and CHEM 1134 or CHEM 2100 or CHEM 1400 and CHEM 1401 or CHEM 1211 and CHEM 1221 (all minimum grade C). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences Arts Sci Gen Ed: Distribution-Natural Sci Lab

CHEM 3381 (2) Laboratory in Organic Chemistry 2 for Chemistry Majors
Labs. Required course for chemistry majors. Instruction in experimental techniques of modern organic chemistry emphasizing reactions involving alcohols, ketones, carboxylic acids, aromatic compounds, and their derivatives. Multistep syntheses are also introduced. Department enforced corequisite: CHEM 3331 or CHEM 3471 or CHEM 3491.

**Requisites:** Requires prerequisite courses of CHEM 3311 or CHEM 3451 and CHEM 3321 or CHEM 3361 (all minimum grade C). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences Arts Sci Gen Ed: Distribution-Natural Sci Lab

CHEM 3451 (4) Organic Chemistry for Chemistry and Biochemistry Majors
Covers bonding, acidity, reaction mechanisms, nomenclature of organic compounds; stereochemistry, structure and reactions of aldehydes, ketones, and carboxylic acids and derivatives. Department enforced corequisite: CHEM 3361 or CHEM 3321.

**Requisites:** Requires prerequisite courses of CHEM 1400 and CHEM 1401 (minimum grade C-) or CHEM 1133 and CHEM 1134 (minimum grade B+). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

CHEM 3471 (4) Organic Chemistry 2 for Chemistry Majors
Covers Amines, alkylation reactions, additions to unsaturated C-C bonds, aromaticity, and aromatic reactivity, organic materials, biomolecules, nomenclature of organic compounds, reaction mechanisms. Department enforced corequisite: CHEM 3381 or CHEM 3341. Formerly CHEM 3371.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 3331 and BCHM 3491
**Requisites:** Requires prerequisite courses of CHEM 3451 and CHEM 3361 or CHEM 3321 (all minimum grade C). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

CHEM 4011 (3) Modern Inorganic Chemistry
Lect. Required course for chemistry majors. Introduces modern inorganic chemistry for undergraduates. Includes atomic structure, chemical periodicity, structure and bonding in molecules and crystals, reaction mechanisms, chemistry of selected main group and transition elements, and emphasis on catalysts, materials, bioinorganic, and organometallic systems.

**Requisites:** Requires a prerequisite course of CHEM 3311 or CHEM 3471 (formerly CHEM 3371) or CHEM 3491 (minimum grade C). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences Arts Sci Gen Ed: Distribution-Natural Sciences
CHEM 4021 (3) Inorganic Laboratory
One lect. and two 3-hour labs per week. Instruction in experimental techniques of modern inorganic chemistry. Includes syntheses and spectroscopic characterizations of transition metal and main group compounds, experience in manipulation of air sensitive compounds, and techniques involving unusual conditions of pressure or temperature. 
Requisites: Requires prerequisite course of CHEM 4011 (minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

CHEM 4141 (3) Environmental Water and Soil Chemistry
Application of basic chemical principles to understanding the processes that determine the chemical composition of oceans, lakes, rivers, soils and sediments. Topics include air-water exchange; acid-base, redox, coordination, precipitation and dissolution, ion exchange and sorption reactions; nutrient chemistry; and the use of simple equilibrium and kinetic models for describing the chemistry of inorganic and organic species in air-water-soil systems.
Equivalent - Duplicate Degree Credit Not Granted: CHEM 5141
Requisites: Requires prerequisite course of CHEM 2100 and CHEM 2101 or CHEM 1133 and CHEM 1134 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

CHEM 4171 (3) Instrumental Analysis - Lecture and Laboratory 1
Two Lect. and 3 hours of lab per week. Instruction and experience in using instrumental methods of chemical analysis to address problems in chemistry, biochemistry, industrial chemistry and environmental chemistry.
Requisites: Requires prerequisite course of CHEM 3331 or CHEM 3471 or CHEM 3491 and CHEM 3341 or CHEM 3381 or PHYS 1140 or CHEM 4400 or CHEM 4511 (minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab

CHEM 4181 (3) Instrumental Analysis - Lecture and Laboratory 2
Two lect. and 3 hours of lab per week. Instruction and experience in using instrumental methods of chemical analysis. Builds on material learned in CHEM 4171.
Requisites: Requires prerequisite course of CHEM 4171 (minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

CHEM 4251 (3) Materials Chemistry and Properties
Lec. Understanding of materials from chemistry perspective including metals, oxides, semiconductors and polymers. Basic description of chemical preparation of materials. Overview of fundamental properties of materials including structural, chemical, mechanical, thermal, electrical, and optical properties. Description of behavior of materials and various applications in modern technology. Discussion of materials characterization methods.
Equivalent - Duplicate Degree Credit Not Granted: CHEM 5251
Requisites: Requires prerequisite course of CHEM 3331 or CHEM 3471 or CHEM 3491 and CHEM 4521 or CHEM 4531 (all minimum grade grade C-).

CHEM 4261 (3) Organic Materials: Structures and Functions
Overview of the preparation and functioning mechanism of novel organic materials that have recently been developed, including conductive polymers, 2-D macrocyclic structures, 3-D molecular cages, molecular machines/molecules/switches, fullerene derivatives and carbon nanotube composites. Emphasizes the use of organic and physical chemistry as tools to develop novel materials and probe their structure-property relationship.
Equivalent - Duplicate Degree Credit Not Granted: CHEM 5261
Requisites: Requires prerequisite courses of CHEM 3331 or CHEM 3471 or CHEM 3491 and CHEM 4531 (all minimum grade grade C-).

CHEM 4271 (3) Chemistry of Solar Energy
Chemical principles of conversion of solar energy into electricity and fuels in molecular and semiconductor-based systems. Overview of solid-state electronic structure of materials and interfaces, light-matter interactions, principles of harvesting photoexcited currents and useful chemical species. Description of processes utilized in established and emerging solar energy technologies.
Equivalent - Duplicate Degree Credit Not Granted: CHEM 5271
Requisites: Requires prerequisite courses of CHEM 3331 or CHEM 3471 or CHEM 3491 and CHEM 4531 (all minimum grade grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

CHEM 4511 (3) Physical Chemistry 1
Lect. Chemical thermodynamics and kinetics. Includes study of laws of thermodynamics, thermochemistry, entropy, free energy, chemical potential, chemical equilibriums, and the rates and mechanisms of chemical reactions. Department enforced prereq or coreq., PHYS 1120 (minimum grade C-).
Equivalent - Duplicate Degree Credit Not Granted: BCHM 4400 and BCHM 5400
Requisites: Requires prerequisite of courses CHEM 3311 or CHEM 3451 and MATH 2400 or APPM 2350 and PHYS 1110 or PHYS 2020 (all minimum grade grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

CHEM 4531 (3) Physical Chemistry 2
Lect. Introduces the quantum theory of atoms, molecules and chemical bonding, and statistical thermodynamics. Includes principles of quantum mechanics and their application to atomic structure, molecular spectroscopy, symmetry properties, and the determination of molecular structure. Also includes principles of statistical mechanics and their applications to properties of gases, liquids, and solids.
Requisites: Requires prerequisite courses of CHEM 4511 and PHYS 1120 or PHYS 2020, and MATH 2400 or APPM 2350 (all minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

CHEM 4555 (4) Theoretical and Computational Chemistry
Explores computational methods to understand chemical systems. Topics include: atomic and molecular electronic structure calculations, Monte Carlo and molecular dynamics simulations and thermodynamic calculations. Not recommended for students with a grade below B- in the prerequisite course.
Equivalent - Duplicate Degree Credit Not Granted: CHEM 5555
Requisites: Requires prerequisite course of CHEM 4531 (minimum grade grade C-).
Grading Basis: Letter Grade
CHEM 4581 (1) Physical Chemistry Lab 1
One 3-hour lab per week. Instruction in experimental techniques of modern physical chemistry. Experiments illustrate the fundamental principles of thermodynamics and chemical kinetics. Illustrates the material discussed in CHEM 4511.

**Requisites:** Requires prerequisite or corequisite course of CHEM 4511 (minimum grade C). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

CHEM 4591 (2) Physical Chemistry Lab 2
One lecture and one 3-hour laboratory every two weeks. A continuation of CHEM 4581, but may be taken concurrently with CHEM 4531. Experiments illustrate the principles of quantum chemistry and spectroscopy discussed in CHEM 4531.

**Requisites:** Requires prerequisite courses of CHEM 4511 and CHEM 4581 (all minimum grade C). Requires prerequisite or corequisite course of CHEM 4531 (minimum grade C). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

CHEM 4791 (3) Bioorganic Chemistry in Biotechnology
Lect. Explores examples of antibodies, peptides, proteins, RNA, DNA, carbohydrates and lipids. Uses the primary literature and requires student participation.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 5791

**Requisites:** Requires prerequisite courses of CHEM 3331 or CHEM 3471 (formerly CHEM 3371) or CHEM 3491 and CHEM 4700 (minimum grade C).

**Recommended:** Prerequisite undergraduate molecular biology.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

CHEM 4901 (1-6) Independent Study in Chemistry
For undergraduate study. Department consent required. Repeatable up to 8 total credit hours.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

CHEM 5011 (3) Advanced Inorganic Chemistry 1
Lect. Inorganic chemistry based on principles of bonding, structure, reaction mechanisms, and modern synthetic methods. Chemistry and general properties of representative and transition elements and their compounds.

**Requisites:** Requires prerequisite courses of CHEM 4011 and CHEM 4531 (all minimum grade B-) or graduate standing.

CHEM 5061 (3) Advanced Inorganic Chemistry 2
Lectures in physical inorganic chemistry with an emphasis on topics for understanding modern solar energy conversion to electricity and fuels. Includes a description of bonding and properties of coordination compounds in terms of the ligand field and molecular orbital theories. The primary research literature will be used to motivate exploration of relevant themes including spectroscopy, electron transfer, energy transfer, bioenergetic conversion, and small-molecule activation.

**Requisites:** Requires prerequisite course of CHEM 4011 (minimum grade C-) or graduate standing.

CHEM 5131 (3) Computer Programming and Data Analysis for Chemists
Provides an introduction to computer programming and data analysis skills that are a fundamental part of graduate research. The programming section of the course introduces the coding skills necessary for simulating, analyzing and visualizing data using LabVIEW. Basic concepts in statistics and error analysis are also covered.

**Requisites:** Restricted to graduate students only.

**Recommended:** Prerequisites CHEM 4511 or CHEM 4171.

**Grading Basis:** Letter Grade

CHEM 5141 (3) Environmental Water and Soil Chemistry
Application of basic chemical principles to understanding the processes that determine the chemical composition of oceans, lakes, rivers, soils and sediments. Topics include air-water exchange; acid-base, redox, coordination, precipitation and dissolution, ion exchange and sorption reactions; nutrient chemistry; and the use of simple equilibrium and kinetic models for describing the chemistry of inorganic and organic species in air-water-soil systems.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 4141

**Requisites:** Restricted to graduate students only.

CHEM 5151 (3) Atmospheric Chemistry
Lect. Basic kinetics and photochemistry of atmospheric species. Stratospheric chemistry with emphasis on processes controlling ozone abundance. Tropospheric chemistry focusing on photochemical smog, acid deposition, oxidative capacity of the atmosphere and global climate change.

**Equivalent - Duplicate Degree Credit Not Granted:** ATOC 5151

**Requisites:** Restricted to graduate students only.

**Recommended:** Prerequisite one semester of college-level chemistry.

CHEM 5152 (3) Advanced Atmospheric Chemistry
Follows Graduate Atmospheric Chemistry (CHEM 5151) and explores advanced topics in atmospheric chemistry, such as secondary aerosol formation, oxidant formation, the chemistry of global climate change and/or design of advanced laboratory experiments.

**Equivalent - Duplicate Degree Credit Not Granted:** ATOC 5152

**Recommended:** Prerequisite CHEM 5151 or ATOC 5151.

CHEM 5161 (3) Analytical Atmospheric Spectroscopy
Optical spectrochemical analysis, atmospheric transmittance, including atomic and molecular spectroscopy, line-by-line spectral databases such as HITRAN, absorption, emission, fluorescence, scattering processes of gases, surface enhancements, aerosols, optical spectroscopic instrument components, and techniques, and their applications to atmospheric, and environmental problems. Department enforced prerequisite: undergraduate physical chemistry or instructor consent.

**Requisites:** Restricted to graduate students only.

CHEM 5171 (3) Electroanalytical Chemistry
Lect. Establishes a background for understanding electrochemical systems through a review of the relevant thermodynamic, kinetic and electronic principles. Compares classical and modern electrochemical methods of analysis. Several special topics are discussed in depth. Department enforced prerequisite: undergraduate physical chemistry or instructor consent.

**Requisites:** Restricted to graduate students only.
CHEM 5181 (3) Mass Spectrometry and Chromatography
Mass spectrometry, including instrumentation, ionization techniques and interpretation of mass spectra. Theory and practice of analytical separation processes including ion mobility, capillary electrophoresis and liquid gas chromatography. Introduction to applications in e.g. atmospheric and biological mass spectrometry. Introduction to computer simulation of instrumentation and physical processes. Department enforced prerequisite: undergraduate physical chemistry or instructor consent.

Requisites: Restricted to graduate students only.

CHEM 5251 (3) Materials Chemistry and Properties
Lec. Understanding of materials from chemistry perspective including metals, oxides, semiconductors and polymers. Basic description of chemical preparation of materials. Overview of fundamental properties of materials including structural, chemical, mechanical, thermal, electrical, and optical properties. Description of behavior of materials and various applications in modern technology. Discussion of materials characterization methods.

Equivalent - Duplicate Degree Credit Not Granted: CHEM 4251
Requisites: Requires prerequisite course of CHEM 4431 or CHEM 4531 (all minimum grade C-) or graduate standing.

CHEM 5261 (3) Organic Materials: Structures and Functions
Overview of the preparation and functioning mechanism of novel organic materials that have recently been developed, including conductive polymers, 2-D macromolecular structures, 3-D molecular cages, molecular machines/muscles/switches, fullerene derivatives and carbon nanotube composites. Emphasizes the use of organic and physical chemistry as tools to develop new materials and probe their structure-property relationship.

Equivalent - Duplicate Degree Credit Not Granted: CHEM 4261
Requisites: Requires prerequisite course of CHEM 4431 or CHEM 4531 (all minimum grade C-) or graduate standing.

CHEM 5271 (3) Chemistry of Solar Energy
Chemical principles of conversion of solar energy into electricity and fuels in molecular and semiconductor-based systems. Overview of solid-state electronic structure of materials and interfaces, light-matter interactions, principles of harvesting photoexcited currents and useful chemical species. Description of processes utilized in established and emerging solar energy technologies.

Equivalent - Duplicate Degree Credit Not Granted: CHEM 4271
Requisites: Requires prerequisite course of CHEM 4431 or CHEM 4531 (all minimum grade C-) or graduate standing.

CHEM 5281 (3) Semiconductor Processing and Device Fabrication
Understanding of semiconductor processing and device fabrication from chemistry perspective. Overview of processing steps used to fabricate inorganic semiconductor devices including deposition, patterning and etching techniques. Description of process integration during device fabrication. Discussion of key issues facing advanced semiconductor fabrication.

Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

CHEM 5311 (3) Advanced Synthetic Organic Chemistry
Lect. Surveys synthetic transformations emphasizing important functional group transformations and carbon-carbon, bond-forming reactions. Required of all organic chemistry graduate students. Department enforced prerequisite: one year of organic chemistry or graduate standing.

CHEM 5321 (3) Advanced Physical Organic Chemistry
Lect. Modern concepts of physical organic chemistry and their use in interpreting data in terms of mechanisms of organic reactions and reactivities of organic compounds. Required of all organic chemistry graduate students. Department enforced prerequisite: one year of organic chemistry and one year of physical chemistry or graduate standing.

CHEM 5331 (3) Advanced Spectroscopic Techniques in Organic Chemistry
Lect. Advanced spectroscopic techniques for structure and determination in organic chemistry. Emphasizes proton and carbon-13 NMR spectroscopy. Department enforced prerequisite: one year of organic chemistry and one year of physical chemistry or graduate standing.

CHEM 5501 (3) Advanced Topics in Physical Chemistry
Covers various topics in physical chemistry focusing on their mathematical and physical background. Topics include the application of classical mechanics and electrodynamics in chemistry, the classical mechanics background for the description of atoms and molecules, the use of vector spaces in wave mechanics and quantum mechanics and the classical description of spectroscopy in terms of interaction of light and matter. Department enforced prerequisite: undergraduate physical chemistry, graduate standing or instructor consent.

Requisites: Restricted to graduate students only.

CHEM 5531 (3) Statistical Mechanics

Requisites: Restricted to graduate students only.

CHEM 5541 (3) Chemical Dynamics
Lect. Discussion of mechanism and rate of chemical reactions from a fundamental point of view. Discusses nature of collision and develops concepts of cross section and rate constant. Theories of elementary bimolecular and decay processes are critically examined. Department enforced prerequisite: undergraduate physical chemistry.

Requisites: Restricted to graduate students only.

CHEM 5551 (3) Theoretical and Computational Chemistry
Explores computational methods to understand chemical systems. Topics include: atomic and molecular electronic structure calculations, Monte Carlo and molecular dynamics simulations and thermodynamic calculations.

Equivalent - Duplicate Degree Credit Not Granted: CHEM 4555
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

CHEM 5571 (3) Surface Science
Lect. Principles of surface science with emphasis on fundamental surface phenomena, surface techniques and surface chemistry. Basic description of surfaces, adsorbate-surface interactions, surface kinetics and methods of surface analysis. Surface science of heterogeneous catalysis, semiconductor processing, and environmental interfaces. Department enforced prerequisite: undergraduate physical chemistry and graduate standing or instructor consent.

Requisites: Restricted to graduate students only.
CHEM 5581 (3) Introductory Quantum Chemistry  
Lect. Basic principles and techniques of quantum mechanics with applications to questions of chemical interest. Quantum dynamics of atoms, molecules and spin; electronic structure of atoms and molecules. Department enforced prerequisite: two semesters of physical chemistry and graduate standing or instructor consent.  
**Requisites:** Restricted to graduate students only.  

CHEM 5591 (3) Advanced Molecular Spectroscopy  
Lect. Rotational, vibrational and electronic spectra of molecules, and their interpretation in terms of the quantum theory of molecular structure. Department enforced prerequisites: two semesters of physical chemistry and graduate standing or instructor consent.  
**Requisites:** Restricted to graduate students only.  

CHEM 5791 (3) Bioorganic Chemistry in Biotechnology  
Lec. Explores examples of antibodies, peptides, proteins, RNA, DNA, carbohydrates and lipids. Uses the primary literature and requires student participation.  
**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 4791  
**Requisites:** Restricted to graduate students only.  

CHEM 6001 (1) Seminar: Inorganic Chemistry  
Student, faculty, and guest presentations and discussions of current research in inorganic chemistry and related topics (transition element and main group element compound properties, inorganic compound in biological, industrial, and materials applications). Required of all inorganic chemistry graduate students. Credit deferred until presentation of satisfactory seminar.  
**Requisites:** Restricted to graduate students only.  

CHEM 6021 (1-3) Special Topics in Inorganic Chemistry  
Lect. Subjects of current interest in inorganic chemistry. Primarily used for graduate-level presentations of special topics by visiting and resident faculty. Variable class schedule.  
**Repeatable:** Repeatable for up to 7.00 total credit hours.  
**Requisites:** Restricted to graduate students only.  

CHEM 6031 (3) Special Topics in Nanoscience  
Introduces the synthesis, physical properties, and applications of nanometer-scale materials and devices. Includes synthesis of metal and semiconductor nanoparticles and nanowires, optical and electronic properties of nanoscale systems, and application in biotechnology and energy.  
**Requisites:** Requires prerequisite course of CHEM 4431 or CHEM 4511 (all minimum grade B-) or instructor consent.  

CHEM 6101 (1) Seminar: Analytical Chemistry  
Student, faculty, and guest presentations and discussions of current research in analytical chemistry. Required of all analytical chemistry graduate students. Credit deferred until presentation of satisfactory seminar.  
**Requisites:** Restricted to graduate students only.  

CHEM 6111 (1-3) Special Topics in Analytical Chemistry  
Lect. Subjects of current interest in analytical chemistry. Used for graduate-level presentations of special topics by visiting and resident faculty. Variable class schedule.  
**Repeatable:** Repeatable for up to 7.00 total credit hours.  
**Requisites:** Restricted to graduate students only.  

CHEM 6301 (1-3) Seminar in Organic Chemistry  
Discussions principally concerned with recent literature in organic chemistry. Required of all organic chemistry graduate students.  
**Requisites:** Restricted to graduate students only.  

CHEM 6311 (1-3) Special Topics in Synthetic Organic Chemistry  
Lect. Selected topics in synthetic organic chemistry, encompassing both methods and/or total synthesis of complex molecules.  
**Requisites:** Requires prerequisite course of CHEM 5311 (minimum grade B-). Restricted to graduate students only.  

CHEM 6321 (1-3) Special Topics in Physical Organic Chemistry  
Lect. Selected topics in physical organic chemistry, which may include photochemistry, carbene chemistry, free radical chemistry, molecular orbital methods, organic materials, or gas phase ion chemistry.  
**Requisites:** Requires prerequisite course of CHEM 5321 (minimum grade B-). Restricted to graduate students only.  

CHEM 6401 (1-3) Seminar: Physical Chemistry  
Student, faculty, and guest presentations of current research in physical chemistry. Discussion of research topics related to the subject of weekly physical chemistry/chemical physics seminar and appropriate journal articles.  
**Requisites:** Restricted to graduate students only.  

CHEM 6411 (1-3) Advanced Topics in Physical Chemistry  
Lect.  
**Repeatable:** Repeatable for up to 7.00 total credit hours.  
**Requisites:** Restricted to graduate students only.  

CHEM 6801 (0) Departmental Research Seminar  
Lectures by visiting scientists and occasionally by staff members and graduate students on topics of current research. Meets once a week. Required for all graduate students in chemistry.  
**Requisites:** Restricted to graduate students only.  

CHEM 6901 (1-6) Research in Chemistry  
**Repeatable:** Repeatable for up to 15.00 total credit hours.  
**Requisites:** Restricted to graduate students only.  

CHEM 6941 (1) Master's Candidate for Degree  
**Requisites:** Restricted to graduate students only.  

**Grading Basis:** Pass/Fail  

CHEM 6951 (1-6) Master's Thesis  
**Requisites:** Restricted to graduate students only.  

CHEM 7021 (2) Seminar: Structural Inorganic Chemistry  
Current research in the area of structural inorganic chemistry. Concerns topics related to electronic and molecular structure of transition metal complexes. Department consent required.  
**Repeatable:** Repeatable for up to 6.00 total credit hours.  
**Requisites:** Restricted to graduate students only.  

CHEM 7101 (2) Seminar: Chromatography and Trace Analysis  
Student and faculty discussions and reports on research advances in chromatography, trace analysis and environmental chemistry. Department consent required.  
**Repeatable:** Repeatable for up to 6.00 total credit hours.  
**Requisites:** Restricted to graduate students only.  

CHEM 7111 (2) Seminar: Electrochemistry  
Student and faculty discussions and reports on research advances in electrochemistry. Department consent required.  
**Repeatable:** Repeatable for up to 6.00 total credit hours.  
**Requisites:** Restricted to graduate students only.
CHEM 7131 (1) Seminar in Atmospheric Aerosol Chemistry
Discusses advances in atmospheric aerosol chemistry, with emphasis on new methods for analysis and their application to laboratory and field studies.
Repeatable: Repeatable for up to 2.00 total credit hours.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites CHEM 5151 and CHEM 5181.

CHEM 7161 (1) Seminar: Heterogeneous Atmospheric Chemistry
Topics in atmospheric chemistry emphasizing the structure and reactivity of atmospheric particulates. Presentations on current research and critical evaluations of recent literature. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

CHEM 7211 (1) Seminar: Topics in Synthetic Methodology and Natural Product Synthesis
Discussion of contemporary synthetic organic chemistry with a focus on new methodology and total synthesis of natural products.
Requisites: Restricted to graduate students only.

CHEM 7221 (1) Seminar: Photochemistry and Free Radical Chemistry
Current research in areas of organic free radical chemistry, photochemistry, and related topics are presented and discussed. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

CHEM 7231 (1) Seminar: Reactive Intermediates
Application of contemporary ideas of chemical physics to organic molecules. Special attention to structures and bonding in organic ions and radicals. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

CHEM 7241 (1) Seminar: Synthetic Organic Chemistry
Series of seminars on directed total synthesis. Emphasizes modern synthetic methodology and applications to total synthesis of natural products. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

CHEM 7251 (1) Selected Topics in Chemical Genetics
Discusses the brief history of the emerging field of chemical genetics, and focuses on the recent development of concepts, techniques, applications, and its impact on both science and human health.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

CHEM 7271 (1) Seminar: Picosecond Dynamics of Reactions
Includes development and application of picosecond laser spectroscopy to organic and organometallic reactions. Emphasizes relationship between current theoretical developments and experiments. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

CHEM 7281 (1) Seminar: Molecular Self-Assembly
Discusses current topics and recent advances in molecular self-assembly, with emphasis on new liquid crystal designs and applications.
Repeatable: Repeatable for up to 2.00 total credit hours.
Requisites: Restricted to graduate students only.

CHEM 7291 (1) Seminar: Physical Organic Chemistry
Modern experimental techniques and theoretical models in physical organic chemistry are discussed in relation to the development of new materials, such as molecular size tinkertoys to the development of novel photochemical systems and their spectroscopies. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

CHEM 7301 (1) Seminar: Synthetic and Mechanistic Chemistry
Discusses particularly the synthesis of complex organic molecules and the mechanism of reagents used in organic synthesis. Includes a study of transition metal mediated organic reactions. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

CHEM 7311 (1) Selected Topics in Organic Materials
Current research in the area of organic/materials chemistry. Concerns topics related to organic materials synthesis, carbon nanotube functionalization, artificial photosynthesis, gas storage and catalysis.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

CHEM 7401 (1) Seminar in Photochemical Reaction Control
Discusses progress towards control of molecular reactivity using light, including synthetic methods for creating control subjects. Emphasizes new methods to achieve coherent control.
Repeatable: Repeatable for up to 2.00 total credit hours.
Requisites: Restricted to graduate students only.

CHEM 7421 (2) Seminar: Negative Ion Chemistry
Chemistry of negative ions; experimental methods and designs; laser spectroscopy of ions; theoretical methods; reactive dynamics of ions in the gas phase. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

CHEM 7431 (1) Seminar: Topics in Theoretical Chemical Physics
Seminars presented on a variety of topics in theoretical chemical physics. Molecular collisions and unimolecular dynamics predominantly featured. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

CHEM 7441 (2) Research Seminar: Theoretical Chemistry
Studies theoretical description of molecular dynamics as related to rate processes. Focuses on chemical reactions in liquids, absorption-desorption on surfaces, nucleation reactions, and energy flow in molecules. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

CHEM 7461 (1) Seminar: Gas Phase Ion Chemistry
Studies gas phase ion chemistry relevant to thermochemical measurements and atmospheric, interstellar, and biomedical applications.
Requisites: Restricted to graduate students only.

CHEM 7471 (1) Seminar in Ultrafast Spectroscopy of Proteins
Discusses advances and developments in biomolecular dynamics, and considers the connection of protein dynamics with function. Emphasizes experimental studies via ultrafast laser spectroscopy.
Repeatable: Repeatable for up to 2.00 total credit hours.
Requisites: Restricted to graduate students only.
CHEM 7481 (2) Seminar: Molecular Spectroscopy and Photochemistry
Discussion and presentation of current research in spectroscopy and photochemistry of organic as well as organometallic systems. Reviews state of the art techniques available for the theoretical and experimental characterization of excited states. Department consent required.
**Repeatability:** Repeatable for up to 6.00 total credit hours.
**Requisites:** Restricted to graduate students only.

CHEM 7491 (1) Seminar: Molecular Vibrational Dynamics
Topics pertaining to vibrational dynamics of small molecules are discussed, with particular emphasis upon IR laser spectroscopy, van der Waals’ clusters, vibrationally induced dipole moments, and predissociation. Discussion of current research and recently published literature. Department consent required.
**Repeatability:** Repeatable for up to 6.00 total credit hours.
**Requisites:** Restricted to graduate students only.

CHEM 7501 (1) Seminar: Theoretical Molecular Dynamics
Variety of topics in theoretical chemical physics, emphasizing dynamics of molecules in dissipative environments or in radiation fields. Department consent required.
**Repeatability:** Repeatable for up to 6.00 total credit hours.
**Requisites:** Restricted to graduate students only.

CHEM 7511 (1) Seminar: Reaction Dynamics in Condensed Phases
Studies elementary steps in chemical reactions and their observation by ultrafast spectroscopy. Department consent required.
**Repeatability:** Repeatable for up to 6.00 total credit hours.
**Requisites:** Restricted to graduate students only.

CHEM 7521 (1) Seminar: Atmospheric Kinetics and Photochemistry
Discusses laboratory studies of degradation mechanisms. Applies these studies to atmospheric phenomena such as global warming and stratospheric ozone loss. Department consent required.
**Repeatability:** Repeatable for up to 6.00 total credit hours.
**Requisites:** Restricted to graduate students only.

CHEM 7531 (1) Seminar: Surface Chemistry and Thin Film Growth
Topics in surface chemistry and thin film growth with focus on atomic layer deposition (ALD) and molecular layer deposition (MLD). Properties of thin films grown using ALD and MLD. Applications of thin films in areas including flexible displays, energy storage and catalysis. Department consent required.
**Repeatability:** Repeatable for up to 6.00 total credit hours.
**Requisites:** Restricted to graduate students only.

CHEM 7551 (1) Seminar: Selected Topics in Ion Spectroscopy
Treats current topics in the spectroscopy of ions. Seminar lectures are given by graduate students on their research and on literature topics, and the results of both in-house and external research groups are studied. Additionally, ideas for interesting directions of research and new experiments are proposed and discussed.
**Repeatability:** Repeatable for up to 2.00 total credit hours.
**Requisites:** Restricted to graduate students only.

CHEM 8991 (1-10) Doctoral Dissertation
All doctoral students must register for 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
**Repeatability:** Repeatable for up to 30.00 total credit hours.
**Requisites:** Restricted to graduate students only.

---

**Chinese (CHIN) Courses**

CHIN 1010 (5) Beginning Chinese 1
Introduces modern Chinese (Mandarin), developing all four skills (speaking, listening, reading and writing) and communicative strategies. Students learn both traditional full-form characters and the principles for converting them into simplified characters.
**Additional Information:** Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 1012 (4) Introduction to Chinese Civilization
An interdisciplinary introduction from ancient to modern times. Arts, literature, politics, social relations, religion, and material culture are studied in terms of significant themes and ideas pertaining to the civilization of China. Taught in English.
**Additional Information:** Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Chinese Courses in English
Departmental Category: Asia Content

CHIN 1020 (5) Beginning Chinese 2
Continuation of CHIN 1010.
**Requisites:** Requires prerequisite course of CHIN 1010 (minimum grade C).
**Additional Information:** Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 1051 (3) Masterpieces of Chinese Literature in Translation
Surveys Chinese thought and culture through close reading and discussion of selected masterworks of Chinese literature in translation. Texts include significant works of poetry, fiction, and drama, as well as philosophical and historical writings from various eras. Taught in English.
**Additional Information:** Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese Courses in English
Departmental Category: Asia Content

CHIN 2110 (5) Intermediate Chinese 1
Emphasizes reading, speaking, and writing modern Chinese, including continued study of both full-form and simplified characters. Introduces dictionaries and principles of character formation.
**Requisites:** Requires prerequisite course of CHIN 1020 (minimum grade C).
**Additional Information:** Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 2120 (5) Intermediate Chinese 2
Continuation of CHIN 2110.
**Requisites:** Requires prerequisite course of CHIN 2110 (minimum grade C).
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese
Departmental Category: Asia Content
CHIN 2441 (3) Film and the Dynamics of Chinese Culture
Through studying a group of Chinese films in light of modern Chinese history and literature, students examine a series of cultural dilemmas and issues in the 20th century China and develop skills in analyzing literary and filmic texts. Taught in English.

Additional Information: GT Pathways: GT-AH2 - Arts Hum: Lit Humanities
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese Courses in English
Departmental Category: Asia Content

CHIN 3110 (5) Advanced Chinese 1
Surveys a variety of authentic-language materials, including films, plays, newspaper articles, essays, and short stories. Emphasizes proficiency-oriented approach to reading, writing, and oral communication.

Requisites: Requires prerequisite course of CHIN 2120 (minimum grade C).

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 3120 (5) Advanced Chinese 2
Continuation of CHIN 3110.

Requisites: Requires prerequisite course of CHIN 3110 (minimum grade C).

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 3200 (3) Adv Wrtg Topics on Chinese & Japanese Literature and Civilization
Provides an introduction to the academic study of Chinese and Japanese literature and culture with a focus on writing skills in English through a survey of standard academic writing conventions. Review and assessment of selected textual materials, class presentation, critique, and revision. Recommended for majors. Taught in English.

Equivalent - Duplicate Degree Credit Not Granted: JPNS 3200

Requisites: Restricted to students with a minimum of 45 credits completed.

Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Written Communication-Upper
Departmental Category: Japanese Courses in English
Departmental Category: Asia Content

CHIN 3311 (3) The Dao and the World in Medieval China
An interdisciplinary examination of the role of Daoist and Buddhist philosophical and religious concepts and images in medieval Chinese civilization, including literature and the arts. Focuses on the personal aspects of this period of religious and intellectual ferment, tracing the representation of these ideas in Chinese poetry, prose, painting and the plastic arts as well as their role in philosophical and religious speculation. Taught in English.

Recommended: Prerequisite CHIN 1012 or CHIN 1051.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese Courses in English
Departmental Category: Asia Content

CHIN 3321 (3) Culture and Literature of Ancient China
Focuses on the religious, cultural, philosophical and literary aspects of ancient Chinese civilization (1500 B.C.-A.D. 200). Special attention is paid to foundational works that influenced later developments in Chinese culture. All readings are in English and taught in English.

Equivalent - Duplicate Degree Credit Not Granted: HUMN 3321
Recommended: Prerequisite CHIN 1012 or CHIN 1051.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese Courses in English
Departmental Category: Asia Content

CHIN 3331 (3) Culture and Literature of Late Imperial China
The late imperial period was marked by growth of great metropolitan areas, expanded urban entertainments, and an extensive popular culture. Focuses on the literature and artifacts of this urban culture as well as the hegemonic culture of the state and of traditional social codes and their literary manifestations. Also considers growing contacts with the West and the transition to the modern period. All readings are in English. Taught in English.

Recommended: Prerequisite CHIN 1012 or CHIN 1051.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese Courses in English
Departmental Category: Asia Content

CHIN 3333 (3) Chinese Narrative Tradition
Examines the major works of Chinese narrative tradition from the fourth to the nineteenth century. Emphasizes the reading and analysis of selected texts and understanding of the cultural and social contexts of text production and circulation. Text selections vary from year to year. Taught in English.

Recommended: Prerequisite CHIN 1012.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese Courses in English
Departmental Category: Asia Content

CHIN 3341 (3) Literature and Popular Culture in Modern China
Surveys 20th century Chinese literature and popular culture against the historical background of rebellion, revolution and reform. Emphasizes close and critical reading skills and an understanding of how aesthetic texts reflect and critically engage with historical and cultural experiences. Assignments include novels, essays, short stories, poems, plays, songs, films and scholarly articles. Taught in English.

Equivalent - Duplicate Degree Credit Not Granted: HUMN 3341
Recommended: Prerequisite CHIN 1012 or CHIN 1051.

Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese Courses in English
Departmental Category: Asia Content

CHIN 3342 (3) Literary Culture in Contemporary China
Surveys the late 20th century Chinese and Taiwanese literature and popular culture against the historical background of the Market Reform in China and the lifting of Martial Law in Taiwan. Emphasizes close and critical reading skills and an understanding of how aesthetic texts critically engage within historical and cultural experiences. Assignments include novels, essays, short stories, poems, plays, songs, films, and scholarly articles. Taught in English.

Recommended: Prerequisite CHIN 1012 or CHIN 1051.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese Courses in English
Departmental Category: Asia Content
CHIN 3351 (3) Reality and Dream in Traditional Chinese Literature
Explores the role of dreams in pre-modern Chinese literature from the beginnings in the 2nd millennium B.C.E. to the 19th century. The source texts will range from religious, philosophical, medical and historical writings to poetry to various genres of fictional prose and drama. Taught in English.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese Courses in English
Departmental Category: Asia Content

CHIN 3361 (3) Women and the Supernatural in Chinese Literature
Explores the relationship between the worlds of women and the supernatural in Chinese literature, from ancient to modern times. Focuses on selected significant works of classical and vernacular fiction, religious texts, and poetry. Taught in English.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese Courses in English
Departmental Category: Asia Content

CHIN 3371 (3) Topics in Chinese Film
Offers in-depth, critical analysis of key issues in Chinese culture as represented in Chinese film. Focuses on various topics, such as specific directors, regions, representation of gender in Chinese film, historical periods, etc. Varies from year to year. Requires no knowledge of Chinese. Taught in English.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite CHIN 1051 or CHIN 2441.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese Courses in English
Departmental Category: Asia Content

CHIN 4110 (3) Advanced Readings in Modern Chinese 1
Surveys a wide variety of 20th- and 21st-century texts that are of recognized literary or cultural importance. Focuses on translation, including discussion of content and style.
Requisites: Requires prerequisite course of CHIN 3120 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 4120 (3) Advanced Readings in Modern Chinese 2
Surveys a wide variety of 20th- and 21st-century texts that are of recognized literary or cultural importance. Focuses on translation, including discussion of content and style.
Requisites: Requires prerequisite course of CHIN 3120 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 4210 (3) Introduction to Classical Chinese
Introduces the classical language based on texts from the pre-Han and Han periods. Stressing precise knowledge of grammatical principles and exactitude in translation—the basis for all further work in classical Chinese.
Requisites: Requires prerequisite course of CHIN 2120 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 4220 (3) Readings in Classical Chinese
Close reading of selected texts of ancient and medieval literature. Readings in both prose and poetry. Emphasizes a disciplined, philological approach to the texts, with proper attention to diction, tone, and nuance.
Requisites: Requires prerequisite course of CHIN 4210 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 4300 (3) Open Topics: Readings in Chinese Literature
Studies selected texts on a particular topic taught by regular or visiting faculty. Topics change each term.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 4750 (3) Daoism
Detailed examination of scriptures, liturgies, precept codes and hagiographies of Daoism, China's indigenous organized religion. Focusing on origins and development, ethical teachings, ritual activities and world view. Topics include the relationship of Daoism to popular religion, practice of alchemy and self-cultivation, beliefs concerning death and afterlife and structure of the Daoist pantheon.
Equivalent - Duplicate Degree Credit Not Granted: CHIN 5750 and RLST 4750 and RLST 5750
Requisites: Requires prerequisite course of RLST 3800 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 4900 (1-3) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 4950 (3) Honors Thesis
Additional Information: Arts Sciences Honors Course
Departmental Category: Chinese
Departmental Category: Asia Content
CHIN 4980 (1) Practical Issues in Chinese Language Pedagogy
Focuses on practical issues in Chinese language pedagogy for students who will serve as teaching assistants in Chinese language courses. Examines the connection between theory and practice as well as practical methods for teaching Chinese. Equips students with basic Chinese linguistic knowledge. Discusses the use of Communicative Approach in teaching Chinese as a second language.
Equivalent - Duplicate Degree Credit Not Granted: CHIN 5980
Requisites: Requires prerequisite course of CHIN 4120 (minimum grade C).
Additional Information: Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 5010 (3) Sinological Methods
Provides training in research methods for graduate work in Sinology. Regular exercises require students to use standard bibliographic sources and tools, such as leishu, congshu, specialized dictionaries, dynastic histories, geographical treatises, gazetteers, and private historiography. Knowledge of Classical Chinese at the level of CHIN 4220 is required.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 5030 (3) Readings in Pre-Modern Chinese Literary Theory
Introduces the field of pre-modern Chinese literary theory and its relevance in Chinese intellectual history. Based on the close reading of primary sources, i.e. typically on selected core texts of Chinese literary thought, as well as on the reading of secondary literature. Texts and topics vary from year to year.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 5070 (1) Graduate Academic Writing
Considers the act of academic writing both in terms of mechanics and in terms of habits of effective writers themselves, so that students, building upon a base knowledge of the expectations of the academy, develop approaches to help themselves gain the confidence to excel at the writing required of them in graduate school and beyond.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 5120 (3) History of Literature through the Ninth Century
Surveys, with readings in primary and secondary sources, major landmarks in various areas of ancient and medieval literature. Focuses on the classic and most influential works of the Zhou through Tang dynasties. Gives attention to matters of historical fact and actuality as well as to textual and interpretive history.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 5130 (3) History of Chinese Literature from the Tenth to the Nineteenth Century
Survey of Chinese literature from the tenth to the nineteenth century, with readings in primary and secondary sources. Focuses on the major literary works, genres, figures, and movements of the Song through the Qing dynasties.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 5210 (3) Ancient Prose
Studies selected pre-imperial and Han prose texts important in their own time and for the influence they exercised on the later development of Chinese literary history. Focuses on works such as the Lun yu, Mengzi, Zhuangzi, Huainanzi, Shiji, Hanshu, and Lunheng. Knowledge of Classical Chinese at the level of CHIN 4220 is required.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 5220 (3) Ancient Poetry
Studies selected pre-imperial and Han poetic works important in their own time and for the influence they exercised on the later development of Chinese literary history. Focuses on the Shijing and the Chu ci, as well as the fu and shi of Han writers. Texts and selections vary from year to year.
Knowledge of Classical Chinese at the level of CHIN 4220 is required.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 5230 (3) History of Early Chinese Thought
Introduces early Chinese philosophy, mostly "Masters' Literature" of the 5th–1st c. BCE, which is foundational for all later Chinese philosophy and political thought. Close reading of primary sources will be combined with an introduction to secondary scholarship in English and modern Chinese, both articles on individual texts/philosophers and comprehensive histories of early Chinese philosophy.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 5280 (3) Topics in Ancient Literature
Examines a specific problem or issue in ancient Chinese literature, e.g., early views of language's relationship to reality, or the commentary tradition and the emergence of allegorical and metaphysical approaches to interpreting texts. Topics vary from year to year.
Knowledge of Classical Chinese at the level of CHIN 4220 is required.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese
Departmental Category: Asia Content

CHIN 5410 (3) Medieval Prose
Studies works of early medieval (ca. 200-600 AD) and/or late medieval (600-900 AD) prose that played an important role in development of Chinese literature. Writers and topics vary, ranging from surveys of specific genre, literary essays, proto-fiction, or historical writings, to focused studies of major figures Liu Zhiji, Han Yu, or Liu Zongyuan.
Knowledge of Classical Chinese at the level of CHIN 4220 is required.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese
Departmental Category: Asia Content
CHIN 5420 (3) Medieval Poetry
Studies works of early medieval (ca. 200-600 AD) poetry. Writers and topics vary ranging from surveys of specific genre, shi or fu, or shared subject such as religious or commemorative verse, to specific periods, to focused studies of particular major figures Cao Zhi, Tao Qian, Li Bo, or Du Fu. Knowledge of Classical Chinese at the level of CHIN 4220 is required. 
Repeatability: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content

CHIN 5430 (3) Medieval Thought and Religion
Studies selected works of early medieval (ca. 200-600 AD) and/or late medieval (600-900) religious importance. Selections vary from fundamental texts of both literary and religious value, Daoist and Buddhist canons, the Huating jing, Zhen gao, Miaofa lianhua jing, and Tan jing, particular topics of social or cultural importance, character assessment, arcane learning, or methods of commentary. Knowledge of Classical Chinese at the level of CHIN 4220 is required.
Repeatability: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content

CHIN 5480 (3) Topics in Medieval Literature
Examines a specific problem or issue in medieval literature, e.g., the role of encyclopedias and anthologies in literary training, or the place and forms of literary composition at the imperial court. Topics vary from year to year. Knowledge of Classical Chinese at the level of CHIN 4220 is required.
Repeatability: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content

CHIN 5610 (3) Early Modern Prose
Studies Song, Ming, and Qing prose texts selected for their inherent literary merit and for their significance in the Chinese literary tradition. Typically focuses on works by major authors such as Ouyang Xiu, Su Shi, and Yuan Hongdiao. Texts and selections vary from year to year. Knowledge of Classical Chinese at the level of CHIN 4220 is required.
Repeatability: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content

CHIN 5620 (3) Early Modern Poetry
Studies Song, Yuan, Ming and Qing poetry. Stresses major figures, stylistic variations, various poetry schools, new directions in shi verse, and the rise and development of ci. Texts and selections vary from year to year. Knowledge of Classical Chinese at the level of CHIN 4220 is required.
Repeatability: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content

CHIN 5630 (3) Early Modern Fiction
Examines selected vernacular and classical fiction of the Ming and Qing periods. Normally focuses on long novels such as Xiyou ji, Sanguo yanyi, Shuihu zhuan, Jin Ping Mei, as well as short stories by Feng Menglong and Ling Mengchu. Texts and selections vary from year to year. Knowledge of Classical Chinese at the level of CHIN 4220 is required.
Repeatability: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content

CHIN 5670 (3) Close Readings and Thematic Surveys
Examines selected works of early medieval (ca. 200-600 AD) and/or late medieval (600-900) religious importance. Selections vary from fundamental texts of both literary and religious value, Daoist and Buddhist canons, the Huating jing, Zhen gao, Miaofa lianhua jing, and Tan jing, particular topics of social or cultural importance, character assessment, arcane learning, or methods of commentary. Knowledge of Classical Chinese at the level of CHIN 4220 is required.
Repeatability: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content

CHIN 5680 (3) Topics in Early Modern Literature
Examines a specific problem or issue in early modern literature (e.g., the relationships among religion, folklore, and early fiction; the issue of genre and traditional fiction); the role of elite versus popular cultures in the composition of fiction; or the relationship of the state and censorship and the southern philosophical schools to the publication of fiction. Topics vary from year to year. Knowledge of Classical Chinese at the level of CHIN 4220 is required.
Repeatability: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content

CHIN 5750 (3) Daoism
Detailed examination of scriptures, liturgies, precept codes and hagiographies of Daoism, China's indigenous organized religion. Focusing on origins and development, ethical teachings, ritual activities and world view. Topics include the relationship of Daoism to popular religion, practice of alchemy and self-cultivation, beliefs concerning death and afterlife and structure of the Daoist pantheon.
Equivalent - Duplicate Degree Credit Not Granted: CHIN 4750 and RLST 5750
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content

CHIN 5810 (3) Modern Literature
Examines selected texts in various genres of Chinese literature from the May Fourth period (beginning 1917) to the establishment of the People's Republic of China (1949). Focuses on major and influential works produced in this fertile period of experimentation with Western, modernist types of literature. Texts and selections vary from year to year. Knowledge of Modern Chinese at the level of CHIN 4120 is required.
Repeatability: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content

CHIN 5820 (3) Contemporary Literature
Examines selected texts in various genres of Chinese literature from 1949 (the establishment of the People's Republic of China) to the present. Focuses on major works from the very different literary worlds of Taiwan and mainland China. Texts and selections vary from year to year. Knowledge of Modern Chinese at the level of CHIN 4120 is required.
Repeatability: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content
CHIN 5830 (3) History of Chinese Film
Examines the development of narrative film in China from the early twentieth century to today, covering the major periods, styles, and themes developed in Chinese cinema. Texts and selections vary from year to year. Knowledge of Modern Chinese at the level of CHIN 4120 is required.
Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content

CHIN 5880 (3) Topics in 20th Century Literature
Examines a specific problem or issue in 20th century literature, e.g., feminist fiction in China, modernism in fiction and poetry, or the role of literary criticism in modern literature. Topics vary from year to year. Knowledge of Modern Chinese at the level of CHIN 4120 is required.
Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content

CHIN 5890 (3) Topics in Chinese Film
Examines a specific problem or issue in Chinese film, e.g. 5th generation filmmakers, early film, genre (martial arts, melodrama, Hong Kong action, etc.), Taiwan New Cinema, Hollywood crossover. Topics vary from year to year. Knowledge of Modern Chinese at the level of CHIN 4120 is required.
Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content

CHIN 5900 (1-3) Independent Study
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category:Chinese Departmental Category: Asia Content

CHIN 5980 (1) Practical Issues in Chinese Language Pedagogy
Focuses on practical issues in Chinese language pedagogy for students who will serve as teaching assistants in Chinese language courses. Examines the connection between theory and practice as well as practical methods for teaching Chinese. Equips students with basic Chinese linguistic knowledge. Discusses the use of Communicative Approach in teaching Chinese as a second language. Knowledge of Modern Chinese at the level of CHIN 4120 is required.
Equivalent - Duplicate Degree Credit Not Granted: CHIN 4980
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category:Chinese Departmental Category: Asia Content

CHIN 6900 (1-6) Independent Study
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category:Chinese Departmental Category: Asia Content

CHIN 6940 (1) Master's Candidate for Degree
Requisites: Restricted to graduate students only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content

CHIN 6950 (1-6) Master's Thesis
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content

CHIN 8990 (1-10) Doctoral Dissertation
All doctoral students must register for no fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chinese Departmental Category: Asia Content

Cinema Studies & Moving Image Arts (CINE)

Courses

CINE 1002 (3) Film Analysis for Non-Majors
Introduces the critical study of film, exploring theoretical, historical and technical concerns while presenting a survey of important film periods and genres. Students will hone critical-thinking, close-analysis, and writing skills. Covers a wide variety of films, approaching them from numerous perspectives, considering both the effects films have on individual viewers and their ability to reflect culture. Formerly FILM 1002.
Additional Information: Departmental Category: Genre and Movements

CINE 1502 (3) Introduction to Cinema Studies
Introduces basic media literacy by exploring the technical and aesthetic principles behind the production, analysis and interpretation of films. Explores comprehension and thinking about movies critically as technological, cultural and artistic products. Study of films in different social and historical contexts and discussion of the importance of movies as cultural products. Formerly FILM 1502.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Genre and Movements

CINE 2000 (3) Moving Image Foundations I
Introduces students to basic image making technology, aesthetics and methods. Fundamentals of film/video production in Super 8mm film, Digital ProRes 422 and other analog and digital image making, editing and management formats. May emphasize personal, experimental or narrative approaches with individual exercises, according to instructor. Basic competencies include composition, lighting, basic audio, basic editing, studio critique, file management, web upload, etc. Formerly FILM 2000.
Requisites: Requires prerequisite course of FILM 1502 (minimum grade D-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production

CINE 2001 (3) Space Odysseys: Astrophys/Astronomy via Cinema/Arts
Understanding representation of space in cinematic arts, as well as the underlying science. What are the political, societal, scientific and commercial motives in attempting to show our species venturing beyond Earth? These adventures highlight our hopes and fears for the future, while simultaneously clarifying contemporary anxieties. From the director G. Melies to the screenwriter B. Marling. Formerly FILM 1003.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
CINE 2002 (3) Recent International Cinema
Familiarizes students with current trends and major directors in international cinema. Students attend specific films screened in class and/or offered in the International Film Series, and read and write about these films. Formerly FILM 2002.
Recommended: Prerequisite FILM 1502 or 6 hours humanities courses involving critical writing.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Genre and Movements

CINE 2003 (3) Film Topics
Varying topics on important individuals, historical developments, groupings of films, film directors, critical and theoretical issues in film. Formerly FILM 2003.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Topics

CINE 2004 (3) CU Cinema Studies Seminar: The Telluride Film Festival
Offers students a unique first-hand understanding of the significance of the film festival circuit in the context of global film culture and scholarship. Students will attend Telluride Film Festival screenings, discussions and Q&A sessions. After the festival, weekly screenings of select films from the previous year’s festival offer insight into the festival’s influence on box-office and the industry’s award season. Formerly FILM 2004.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Intensive and Small Courses

CINE 2005 (3) Form, Structure, and Narrative Analysis
Analyzes the form and structure of narrative, experimental non-narrative, and documentary films. Familiarizes students with the general characteristics of the classic three-act structure, principles of adaptation, form and content of experimental films, structural approaches, and the basic formal, narrative, and rhetorical strategies of documentary filmmaking. Formerly FILM 2005.
Requisites: Requires prerequisite or corequisite course of CINE 1502 (minimum grade D-). Restricted to Cinema Studies majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Workshops

CINE 2010 (3) Moving Image Computer Foundations
Provides students with artistic foundational hands-on experience in integrated use of media software in both the PC and Mac creative imaging making digital working environments. Includes fundamentals in general computer maintenance, creative and practical audio editing, image management and manipulation, and creative moving image practice. Formerly FILM 2010.
Requisites: Restricted to Cinema Studies majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production

CINE 2105 (3) Introduction to the Screenplay
Explores, through close reading and original student work, the form and structure of the screenplay. Students will learn to analyze structural and character elements of classic screenplays, and breaking down such elements as character, motivation, and arch. Students may learn some very basics of screenwriting form, develop a treatment, explore formal and technical issues, etc. Prereq., CINE 1502 or instructor’s permission. Formerly FILM 2105.
Requisites: Requires prerequisite or corequisite course of CINE 1502 (minimum grade D-). Restricted to Cinema Studies majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Workshops

CINE 2203 (3) American Indians in Film
Examines images of American Indians in films produced by, and about, Native peoples. Follows the creation of “the Hollywood Indian” from still-photography to contemporary motion pictures. Films are analyzed within historical, social, and artistic contexts, and examined in terms of the impact their images have exerted upon American society at large and Native communities in particular.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 2203

CINE 2300 (3) Beginning/Intermediate Filmmaking
Covers basic camera, editing, and splicing techniques for Super-8 film. Equipment is available at the film studies office for a modest rental fee. Formerly FILM 2300.
Requisites: Requires prerequisite course of CINE 1502 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production

CINE 2312 (3) Film Trilogies
Study of films designed as trilogies, drawing on a wide range of international cinema. Films include Satyajit Ray's Apu Trilogy (India), Krzysztof Kieslowski's Three Colors Trilogy (Poland), Francois Truffaut's Antoine Doinel cycle (France), and Abbas Kiarostami's Iran Trilogy (Iran). Non-majors will need instructor’s consent. Formerly FILM 2312.
Requisites: Restricted to Cinema Studies majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production

CINE 2500 (all minimum grade C). Restricted to Cinema Studies majors only.

CINE 2505 (3) Moving Image Foundations II
Instructs students in developing a technical and aesthetic understanding of the principles of analog and digital cinematography. Technical, creative and studio critique emphasis on the Bolex 16mm RX and Black Magic Pocket Cinema cameras, advanced composition, grammar and mechanics of cinema editing, film/digital lighting (exposure, latitude) multi-format origination and file management, non-sync sound techniques, etc. Formerly FILM 2500.
Requisites: Requires prerequisite courses of CINE 1502 and CINE 2000 or CINE 2300 (all minimum grade C). Restricted to Cinema Studies majors only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production

CINE 2513 (3) Major Asian Filmmakers
Surveys the major Asian directors from China, India, Japan, Taiwan, and Vietnam. Non-majors will need instructor’s consent. Formerly FILM 2513.
Requisites: Restricted to Cinema Studies majors only.
Recommended: Prerequisite CINE 1502.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Topics
Departmental Category: Asia Content
CINE 2521 (3) Classics of the Foreign Cinema: 1960s to Present
Surveys the classics of international cinema from the 1960s to the present. Non-majors will need instructor’s consent. Formerly FILM 2521.
**Requisites:** Restricted to Cinema Studies majors only.
**Recommended:** Prerequisite FILM 1502.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: History

CINE 2610 (3) Animation Production
Includes analysis of independent and experimental animation and an introduction to various animation techniques (object, line, collage, sand or paint on glass, Xerox, camerealess, pixelation, etc.). Students produce exercise films and a final film exploring these techniques. Formerly FILM 2610.
**Requisites:** Requires prerequisite course of CINE 2000 or CINE 2300 (minimum grade D-).
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Production

CINE 2900 (3) Lighting
Covers the basics of “why you need lighting”, color temp, as well as camera techniques, lighting theory, and lighting set-ups for still and motion picture film video. Emphasizes hands on as well as theory. Formerly FILM 2900.
**Requisites:** Requires prerequisite course of CINE 2000 or CINE 2300 (minimum grade D-). Restricted to Cinema Studies majors only.
**Recommended:** Prerequisite CINE 1502.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Production

CINE 3002 (3) Major Film Movements
Historical-aesthetic survey dealing with various styles, movements, genres or national cinemas. Can be taught in conjunction with the appropriate language department. Typical offers are in the French, the German or the Russian films, etc. Also offers detailed approaches to specific styles, subjects or genres: film comedy, melodrama, the Western, women filmmakers, German expressionist cinema, Italian neorealism, etc. Formerly FILM 3002.
**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Genre and Movements

CINE 3003 (3) Major Film Directors
Focuses on the work of a single director or a group of related directors. Course content varies each semester. Consult the online Schedule Planner for specific topic. Non-majors need instructor consent. Formerly FILM 3003.
**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
**Requisites:** Restricted to Cinema Studies majors only.
**Recommended:** Prerequisite students with 57-180 credits (Juniors or Seniors).
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Topics

CINE 3004 (3) Alfred Hitchcock: The American Films
Intensive survey of Hitchcock’s American films from 1940 (Rebecca) to 1964 (Marnie). We will concentrate on in-depth analysis of the most influential and significant films made by the most important movie director of the Hollywood era. We will pay special attention to Hitchcock’s deep understanding of the intricacies of film language, style and form in relation to the themes and subjects that interested him: guilt, sex, gender relations, crime and punishment, “mothers”. Non-majors will need instructor’s consent. Formerly FILM 3004.
**Requisites:** Restricted to Cinema Studies majors only.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Intensive and Small Courses

CINE 3010 (1-3) Film Production Topics
Offers students both theoretical and practical experience in various specialized areas of cinematic production. Topics vary but include production in the documentary, fictional narrative, animation, computer animation, and experimental genres. Formerly FILM 3018.
**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
**Requisites:** Requires prerequisite course of CINE 2000 or CINE 2300 (minimum grade D-). Restricted to Cinema Studies majors only.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Production

CINE 3012 (3) Documentary Film
Provides a historical and theoretical introduction to documentary film. Examines the historical beginnings of documentary film as well as exploring contemporary documentary practice. Canonical moments of documentary history and lesser known examples of documentary film work will be explored. Formerly FILM 3012.
**Requisites:** Requires prerequisite course of CINE 1502 (minimum grade D-).
**Recommended:** Prerequisite CINE 3051.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Genre and Movements

CINE 3013 (3) Women and Film
Examines the representation of women in film, the role of women in the filmmaking process, and the contributions made by women as critics and scholars of the cinema. Its orientation is therefore both historical and theoretical. Organized chronologically, the course examines how women have been addressed and “constructed” as spectators in and through cinema over the last 120 years, the relationship between cinema and social history, how films express ideology, and how feminist films scholarship has changed from the 1970’s to the present day. The course focuses on American and international narrative, documentary, and experimental films from 1895 to present directed by or about women. Formerly FILM 3013.
**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
**Additional Information:** Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Topics
CINE 3030 (3) Analog Alternatives
Introduction to small gauge analog moving image formats and technologies with a focus on process and experimentation through hands-on exploration and demonstrations. This process-oriented class will utilize DIY methods and Alternative Process Photography approaches to work creatively with silver based holographic mediums. Students will create moving image works with Super 8mm and 16mm film while exploring the implications and possibilities of working with these mediums within our current digital paradigm. Formerly FILM 3030.
Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of CINE 1502 and CINE 2000 (all minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production

CINE 3033 (3) Color and Cinema
Examines color and cinema from historical, technological, aesthetic and theoretical perspectives. Students will be required to complete both creative and scholarly assignments. Formerly FILM 3033.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Cinema Studies or Environmental Studies (ENVS) majors only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Topics

CINE 3041 (3) Environmental Cinema
Interrogates how fiction and nonfiction filmmakers, writers, cinematographers, and moving-image editors have creatively responded to discoveries made in the field of environmental science. Using books by Rachel Carson and Scott MacDonald as a framework, we will examine a broad spectrum of filmmakers (e.g. Wes Anderson, Todd Haynes, Jennifer Baichwal, Bruce Conner, Percy Smith) alongside the most pressing environmental issues. Formerly FILM 3041.
Requisites: Requires prerequisite course of CINE 1502 or RUSS 3211 (minimum grade D-).
Recommended: Prerequisite CINE 3051 (minimum grade D-).

CINE 3042 (3) Horror Film: History, Contexts, Aesthetics
Surveys the most exemplary and significant films in the Horror film genre from the 1920s to the present. With a historical emphasis, the course explores the ways in which the Horror genre has evolved in response to shifting social anxieties and cultural developments, and its reflections on society in various national or international contexts. Expect disturbing content and images. Formerly FILM 3042.
Requisites: Requires prerequisite course of CINE 1502 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Genre and Movements

CINE 3043 (3) Topics in Critical Film Studies
Prepares students for advanced Film Critical Studies work. Subject matter varies from semester to semester. Formerly FILM 3043.
Repeatability: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Topics

CINE 3051 (4) Film History 1
Intensive introduction to film history from 1895 to 1959. Topics covered include the beginnings of motion picture photography, the growth of narrative complexity from Lumiere to Griffith, American silent comedy, Soviet theories of montage, German expressionist films, and the transition to sound. Formerly FILM 3051.
Requisites: Requires prerequisite course of CINE 1502 (minimum grade D-).

CINE 3061 (4) Film History 2
Starts in 1959 and follows the historical growth and evolution of film aesthetics to the present. Studies Italian neorealist, French new wave, and recent experimental films, as well as the films of major auteur figures such as Bergman, Kurosawa, Fellini, Hitchcock, Bunuel, Antonioni, and Coppola. Formerly FILM 3061.
Requisites: Requires prerequisite course of CINE 1502 (minimum grade D-).
Recommended: Prerequisite FILM 3051 (minimum grade D-).

CINE 3081 (3) Contemporary American Cinema: 1980 to Present
Examines the relationship between American films from 1980 to the present and their cultural and historical context. Includes films by Bigelow, Fincher, Scorsese, Lee, Linklater, Lynch, Stone, the Coen brothers, and Jenkins. Assumes some film knowledge but is not restricted to majors. This course is open to Cinema Studies majors and non-majors, sophomores, juniors and seniors. Non-majors need instructor consent to enroll. Formerly FILM 3081.
Requisites: Restricted to Cinema Studies majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production

CINE 3104 (3) Film Criticism and Theory
Surveys the range and function of film criticism, introduces major positions and concepts of film theory and focuses on students' abilities to write about film.
Equivalent - Duplicate Degree Credit Not Granted: HUMN 3104
Requisites: Requires prerequisite course of CINE 1502 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Cinema Studies or Humanities (HUMN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Intensive and Small Courses

CINE 3211 (3) History of Russian Cinema
Surveys Russian cinema in historical and cultural context from early 20th century to the present. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: RUSS 3211
Requisites: Requires prerequisite course of CINE 1502 or RUSS 3211 (minimum grade D-).
CINE 3400 (3) Cinema Production I
Exploration of creative cinema production through short production and post-production projects. A short final project will be required. Focuses on the tactics and strategies of independent cinema production, examining a variety of approaches to genre. Explores a range of film and digital technologies. Formerly FILM 3400.
Requisites: Requires prerequisites courses of CINE 1502 (minimum grade C) and CINE 2000 and CINE 2500 (both minimum grade of B-). Requires corequisite courses of CINE 3515 and CINE 3525. Restricted to Cinema Studies majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production

CINE 3402 (3) European Film and Culture
Studies the relationships between European film, art and culture. Offered each summer in a different European city (Rome, Paris, London, Athens, Barcelona). There will be regular in-class lectures, film screenings, field trips and on-site teaching. Formerly FILM 3402.
Repeatable: Repeatable for up to 12.00 total credit hours.
Recommended: Prerequisite introductory film and art history courses.

CINE 3422 (3) The Hollywood Musical
Second only to jazz, some critics regard the Hollywood musical as the greatest American popular art form of the 20th century. Proposes a historical, formal and theoretical approach to the musical through its several iterations, from the classical, to the revisionist, to the unusual, placing the changes in the genre’s form, structure, and ideology in the context of America’s changing social, political and religious values. Formerly FILM 3422.
Requisites: Requires prerequisite course of CINE 1502 (minimum grade D-).
Recommended: Prerequisite CINE 3051.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Genre and Movements

CINE 3503 (3) German Film Through World War II
History and theory of Weimar and Nazi film with sociocultural emphasis. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 3503
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Topics

CINE 3513 (3) German Film and Society 1945–1989
Introduces issues in German society through film during the Cold War. Focus on East and West Germany, though some other German language films may be included. Emphasis is on reading films in their social, historical and political contexts. Taught in English.
Equivalent - Duplicate Degree Credit Not Granted: GRMN 3513
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Topics

CINE 3515 (3) Lights, Camera, Action
Gain practical experience with camera, lighting, and sound equipment in this hands-on workshop. Mise-en-scene, single cinematography, multicamera cinematography, cinematic lighting design, and sync-sound production skills will be taught in a crew environment. Formerly FILM 3515.
Requisites: Requires prerequisites courses of CINE 1502 (minimum grade C) and CINE 2000 and CINE 2500 (both minimum grade of B-). Requires corequisite courses of CINE 3400 and CINE 3525. Restricted to Cinema Studies majors only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Workshops

CINE 3525 (3) Cinema Editing Workshop
Focuses on the development of independent cinema post-production skills. The instructor must certify students in order to continue with their BFA studies. Formerly FILM 3525.
Requisites: Requires prerequisites courses of CINE 1502 (minimum grade C) and CINE 2000 and CINE 2500 (both minimum grade of B-). Requires corequisite courses of CINE 3400 and CINE 3515. Restricted to Cinema Studies majors only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Workshops

CINE 3563 (3) Producing the Independent Film
Introduces the role of the producer from development through production and sales, distribution. Students will practice pitching, develop pitch decks and apply for funding for one project. The role of labs, residencies, markets and film festivals will be addressed as well as modes of financing including crowd funding, tax incentives, equity finance, pre-sales, co-productions and gap financing. Formerly FILM 3563.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Topics

CINE 3603 (3) Sound and Vision
Historical and aesthetic overview of sound in relation to film, ranging from Hitchcock’s Blackmail to Malick’s The Thin Red Line. Pursues issues in sound design, mixing film scores, voiceovers, and film/sound theory in narrative, experimental, and documentary films. Among the filmmakers to be studied are Vertov, Welles, Altman, Brakhage, Lipsett, Eisenstein, Coppola, Scorcese, Stone, Leone, Godard, Nelson. Also explores a limited practicum using Pro Tools for sound design. Formerly FILM 3603.
Requisites: Requires prerequisite course of CINE 1502 (minimum grade D-).
Recommended: Prerequisite CINE 3051.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Topics

CINE 3620 (3) Experimental Digital Animation
Explores boundaries of traditional animation construction and delve into contemporary animation history. Small projects will involve experimentation with animation techniques that integrate with analog animation, frame-by-frame digital processes and live-action footage. Ideal for students who have taken FILM 2010 or FILM 2610 or FILM 3525. Students familiar with animation and digital imaging or those eager to explore the process are encouraged to enroll. Formerly FILM 3620.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production
CINE 3700 (3) Digital Audio Design
Studies and applies Pro Tools as a post-production audio toolbox. Applied techniques include sound recording, field recording, foley, vocal recording and editing, plug-in generated sound creation, MIDI, basic scoring principles, audio sweetening and audio mixing. Students will be required to complete regular editing assignments in addition to a final soundscape project. Formerly FILM 3700.

**Requisites:** Requires prerequisite course of CINE 2010 or CINE 2500 (minimum grade D). Restricted to Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**Departmental Category:** Production

CINE 3900 (1-3) Independent Study (Production)
Limit of 3 credit hours per semester. Formerly FILM 3900.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Departmental Category: Production

CINE 3901 (1-3) Independent Study (Critical Study)
Limit of 3 credit hours per semester. Formerly FILM 3901.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Departmental Category: History

CINE 3920 (3) Professional Seminar
Learning aspects of professional development in the field of cinema. Through workshops and assignments students will learn of the many opportunities found within all areas of production. Guests will help inform the students of professional options and expectations. Topics will include: crew work, fund raising, marketing festivals, low budget filmmaking, and alternative venues. Students may have an internship concurrently with this course. Formerly FILM 3920.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of CINE 2500 (minimum grade D).

**Recommended:** Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**Departmental Category:** Production

CINE 3940 (1-6) Cinema Studies Internship
Provides students with professional internship experiences with film, video, new media production companies, governmental agencies, production units, audio recording studios and new media industries. Students will be responsible for securing their own internship position. Formerly FILM 3940.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Restricted to Cinema Studies majors only.

**Recommended:** Prerequisite CU GPA of at least 2.00 and upper-division standing and a 3.00 GPA as a BA or BFA Cinema Studies major.

**Grading Basis:** Pass/Fail

**Additional Information:** Departmental Category: Production

CINE 3990 (1) Film Practicum
Offers creative and technical experience in aspects of film, video and media production for students in the BFA track and BA production emphasis. Students earn credit by working in any number of "crew" positions for Upper Division Production, MFA productions or faculty projects under the supervision of the course instructor. Formerly FILM 3990.

**Repeatable:** Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.

**Grading Basis:** Pass/Fail

**Additional Information:** Departmental Category: Production

CINE 4000 (3) Advanced Digital Postproduction
Through projects, discussions and screenings, explores the advanced practices and aesthetics of computer-based moving-image art editing. Topics include how to edit and manage a postproduction cycle, how to use digital editing systems and capabilities such as compositing, digital audio, and optical effects treatments. Cannot be taken simultaneously with CINE 3400 or CINE 4400.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTF 5000

**Requisites:** Requires prerequisite courses CINE 1502 and CINE 2300 and CINE 2500 and CINE 3400 or CINE 4400 (all minimum grade D). Restricted to Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**Departmental Category:** Production

CINE 4001 (3) Screening Race, Class & Gender in the U.S. and the Global Borderland
Engaging with the ways in which racial, class, gender and sexual oppression intersect, this class examines several film productions by and about diasporic and subaltern subjects (especially children and women) in the U.S./Mexico borderlands, and the urban ethnic metropoles of the global borderlands.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 4001 and ETHN 5001

**Requisites:** Requires prerequisite course of ETHN 2001 (minimum grade D).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**Departmental Category:** History

CINE 4003 (3) Film and Literature
Explores similarities and differences between literature and film as narrative arts. Studies several novels, short stories and plays and films made from them. Examines problems in point of view, manipulation of time, tone, structure, and setting.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTF 5003

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**Departmental Category:** Topics

CINE 4004 (3) Topics in Film Theory
Provides topic-centered analyses of controversial areas in film theory. Students read extensive materials in the topic area, analyze and summarize arguments as presented in the literature, write "position" papers and make oral presentations in which they elaborate their own arguments about specific assigned topic, establishing critical dialogue with the primary materials.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 4004 and ARTF 5004

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Cinema Studies or Humanities (HUMN) majors only.

**Recommended:** Prerequisite FILM 3051.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**Departmental Category:** Intensive and Small Courses

CINE 4005 (3) Screenwriting Workshop: Short Form
A writing intensive course that focuses on the art of the short form screenplay. Students will complete regular writing exercises, presentations, and several short scripts. Formerly FILM 4005.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of FILM 1502 and FILM 2005 or FILM 2105 (all minimum grade D). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Film (FILM or FMST) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**Departmental Category:** Workshops
CINE 4010 (1-3) Topics in Film Production
Prepares students for advanced Film Studies production courses. Subject matter varies each semester. Formerly FILM 4010.
Equivalent - Duplicate Degree Credit Not Granted: ARTF 5010
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite courses of CINE 1502 and CINE 2000 or CINE 2300 and CINE 2500 (all minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Cinema Studies majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production
CINE 4021 (3) Directing/Acting for the Camera
Offers an intensive workshop that provides students with experience directing dramatic material, acting before a camera, and interpreting or adopting dramatic material for film. No experience in directing or acting required. Attendance, research and papers required. Formerly FILM 4021.
Equivalent - Duplicate Degree Credit Not Granted: ARTF 5023
Recommended: Prerequisite CINE 1502.
CINE 4023 (3) Topics in International Cinema
Focuses on major international filmmakers who have had a decisive impact on world cinema. Students will learn how directors create their own innovative body of work with specific formal and thematic patterns and will also learn to place such work within multiple frameworks that will cover film history, theory, aesthetics, philosophy and social and cultural analysis. Formerly FILM 4023.
Equivalent - Duplicate Degree Credit Not Granted: ARTF 5023
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of FILM 1502 (minimum grade D-). Restricted to Film (FILM or FMST) or Fine Arts - Creative Arts (ARTC) majors only.
Recommended: Prerequisite FILM 3051.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Topics
CINE 4024 (3) Advanced Research Seminar
Focuses on a specific topic, director, or genre chosen by the professor. Research skills and critical thinking are emphasized. With faculty guidance, students determine individual projects and present them to the class. Class participation is mandatory. Each student submits a thorough and original research paper for a final grade. Department enforced requisite: restricted to students with 57-180 credits (Juniors or Seniors) with a minimum GPA of 3.0. Formerly FILM 4024.
Equivalent - Duplicate Degree Credit Not Granted: ARTF 5024
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: Prerequisites FILM 3051 and FILM 3061.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Intensive and Small Courses
CINE 4040 (3) Advanced Analog Alchemy
Investigating, developing, and re-interpreting historical approaches and processes involved in the creation of Analog motion picture works. Students will work with Analog mediums in alternative modes and unestablished ways and develop their personal process towards the goal of producing a unique moving image work to be presented in a final analog format for exhibition.
Equivalent - Duplicate Degree Credit Not Granted: ARTF 5040
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of CINE 3030 (minimum grade D-). Restricted to Cinema Studies majors only.
CINE 4043 (1-3) Topics in Cinema Critical Studies
Prepares students for advanced Cinema Studies critical studies courses. Subject matter varies each semester. Formerly FILM 4043.
Equivalent - Duplicate Degree Credit Not Granted: ARTF 5043
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Topics
CINE 4105 (3) Advanced Screenwriting
Introduces professional screenwriting in the form of a creative writing workshop. Admission by portfolio (see film department). Students write scenes and scripts for short films, feature treatments, etc., and are graded on a final portfolio.
Equivalent - Duplicate Degree Credit Not Granted: ARTF 5105
Recommended: Prerequisites CINE 3051 and CINE 3061 and an approved writing sample.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Workshops
CINE 4200 (3) Flow Visualization
Explores techniques for the visualization of the physics of fluid flows including seeding with dyes, particles and bubbles, and shadowgraphy and schlieren. Reviews optics and fluid physics, especially atmospheric clouds. Assignments are student-driven, to individuals and mixed teams of graduates, undergraduates, engineering majors and photography/video majors.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 4151, ATLS 4151, ATLS 5151, CINE 5200 and ARTF 5200
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production
CINE 4400 (3) Digital Post-Production
Through projects, discussions, and screenings, this class explores the practices and aesthetics of computer-based moving-image art editing. Formerly FILM 4400.
Equivalent - Duplicate Degree Credit Not Granted: ARTF 5400
Requisites: Requires prerequisite course of CINE 3525 (minimum grade D-). Restricted to Cinema Studies majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production
CINE 4453 (3) Elective Affiliates: Avant-Garde Cinema and the Arts
Traces the history and aesthetics of avant-garde/experimental films in light of similar ideas found in the other arts, particularly painting, poetry, photography and music. Topics covered include Dada and the early avant-garde; surrealism and psychodramas; Brakhage and abstract expressionism; feminist arts and film since the 1980s; the idea of the sublime in painting, music, and film; landscape in painting, photography and film; post-modernism and the cinema; queer theory, gender/identity politics and aesthetics of recent films; and specific multiple disciplinary artists such as Andy Warhol, Michael Snow, Helen Levitt and Gunvor Nelson. Formerly FILM 4453.
Equivalent - Duplicate Degree Credit Not Granted: ARTF 5453
Requisites: Requires prerequisite course of CINE 1502 (minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Topics
CINE 4500 (3) Cinema Production 2
Advanced exploration of creative cinema production through short production and post-production projects. Course focuses on the tactics and strategies of independent cinema production leading to the completion of a BFA thesis project exploring either documentary, experimental, or narrative genres. Formerly FILM 4500.
Equivalent - Duplicate Degree Credit Not Granted: ARTF 5500
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of CINE 3400 and CINE 3515 and CINE 3525 (all minimum grade C). Restricted to Cinema Studies majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production
CINE 4505 (3) Screenwriting Workshop: Long Form
Creative writing workshop in which students plan and write a feature-length screenplay with emphasis on format, dialogue, characterization, and story.
Requisites: Requires prerequisite course of CINE 1502 and CINE 2000 (all minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Workshops
CINE 4604 (3) Colloquium in Film Aesthetics
Seminar for the serious round table discussion and critique of film as an art form, emphasizing development of appropriate verbal and written language skills for description of film. Department enforced prerequisite: restricted to students with 57-180 credits (Juniors or Seniors) with a minimum GPA of 3.0 or instructor consent required. Formerly FILM 4604.
Equivalent - Duplicate Degree Credit Not Granted: ARTF 5604
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Workshops
CINE 4959 (3-6) Honors Senior Thesis
For exceptional Film Studies majors who wish to write an honors thesis based on independent research or creative work under the direction of a faculty member. Formerly FILM 4959.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Arts Sciences Honors Course Departmental Category: Intensive and Small Courses

Civil Engineering (CVEN)

Courses
CVEN 1027 (3) Civil Engineering Drawing
Develops drawing and drafting skills for civil engineering projects in both hand drawing and software tools. Students will learn to read and interpret design and construction drawings.
Requisites: Restricted to Civil Engineering (CVEN) majors only.
Additional Information: Departmental Category: Miscellaneous
CVEN 1317 (1) Introduction to Civil and Environmental Engineering
Surveys the broad subject of civil and environmental engineering and professional practice. Includes the subdisciplines of structures, water resources, geotechnics, transportation, environment, and construction. Discusses professional ethics, important skills for engineers, and the engineering design process as it fulfills multiple objectives.
Requisites: Restricted to students with 0-56 (Freshmen or Sophomore) College of Engineering majors only.
Additional Information: Departmental Category: Miscellaneous
CVEN 1837 (1-3) Special Topics
Supervised study of special topics of interest to student under instructor guidance.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous
CVEN 2012 (3) Introduction to Geomatics
Presents basic techniques of land and construction surveying, including measurement of position, elevation, orientation and length of lines, area, volume and layout calculations. Optical, GPS and GIS equipment and methods are included.
Requisites: Restricted to Architectural (AREN) or Civil (CVEN) or General (GEEN) Engineering majors only.
Additional Information: Departmental Category: Surveying and Transportation
CVEN 2121 (3) Analytical Mechanics 1
Applies mechanics to the study of static equilibrium of rigid and elastic bodies. Includes composition/resolution of forces; moments/couples; equivalent force systems; free-body diagrams; equilibrium of particles and rigid bodies; forces in trusses/beam; frictional forces; first/second moments of area; moments and products of inertia.
Equivalent - Duplicate Degree Credit Not Granted: GEEN 2851 and MCEN 2023
Requisites: Requires a prereq course of PHYS 1110 (min grade C-). Requires a prereq or coreq course of APPM 2350 or MATH 2400 (min grade C). Restricted CVEN or EVEN or AREN or AMEN or EPEN or GEEN majors with a CIV, ENR or ARC subplan.
Additional Information: Departmental Category: Mechanics
CVEN 2837 (1-3) Special Topics
Supervised study of special topics of interest to student under instructor guidance.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous
CVEN 3022 (3) Construction Surveying
Studies construction and highway surveying, horizontal and vertical curves, earthwork, and analysis of data.
Requisites: Requires prerequisite course of CVEN 2012 (minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Surveying and Transportation
CVEN 3032 (3) Photogrammetry
Familiarizes students with characteristics of aerial photographs. Measures and interprets aerial photos for planimetric, topographic, hydrological, soil, and land use surveys. Analyzes and presents field measurements over extensive reaches.
Additional Information: Departmental Category: Surveying and Transportation
CVEN 3111 (3) Analytical Mechanics 2
Studies the motion (kinematics) of particles and rigid bodies, and the forces that cause the motion (kinetics). Newton’s laws as well as energy methods are used to study the motion of particles and rigid bodies in two and three dimensions.
Requisites: Requires prerequisite courses of CVEN 2121 or GEEN 2851 or ASEN 2001 or MCEN 2023 (all minimum grade C). Restricted to AREN, CVEN, EVEN, or GEEN majors only.
Additional Information: Departmental Category: Mechanics

CVEN 3141 (2) Engineering Materials Lab
Additional Information: Departmental Category: Mechanics

CVEN 3161 (3) Mechanics of Materials 1
Addresses concepts of stress and strain; material properties, axial loading, torsion, simple bending, and transverse shear; analysis of stress and strain; and deflections of beams. Includes selected experimental and computational laboratories.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 2063
Requisites: Requires prereq CVEN 2121 or GEEN 2851 or ASEN 2001 or MCEN 2023 (all min grade C). Requires coreq APPM 2360. Restricted to Architectural (AREN) or Civil (CVEN) or Environmental (EVEN) or General (GEEN) Engineering majors with a CIV, ENV or ARC subplan
Grading Basis: Letter Grade
Additional Information: Departmental Category: Mechanics

CVEN 3227 (3) Probability, Statistics and Decision
Introduces uncertainty based analysis concepts and applications in the planning and design of civil engineering systems emphasizing probabilistic, statistics, and design concepts and methods.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) College of Engineering students only.
Additional Information: Departmental Category: Miscellaneous

CVEN 3246 (3) Introduction to Construction
Provides a broad view of concerns, activities, and objectives of people involved in construction: the owner, architect/engineer, contractor, labor and inspector. Interactive gaming situation relates these people to the construction contract, plans/specifications, estimates/bids, scheduling, law and financial management. Students with a Business School Real Estate emphasis may be considered for this course.
Requisites: Restricted to students with 36+ units, Civil (CVEN) or Architectural (AREN), Environmental (EVEN) or General (GEEN) Engineering majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Construction

CVEN 3256 (3) Construction Equipment and Methods
Integrated study of construction equipment, methods, and economics. Topics include equipment productivity, equipment selection, and construction engineering design within economic constraints. Examples include earthmoving, concrete formwork, and temporary construction.
Requisites: Requires prerequisite course of CVEN 3246 (minimum grade C). Restricted to Architectural (AREN) or Civil (CVEN) or General (GEEN) Engineering majors only.
Additional Information: Departmental Category: Construction

CVEN 3313 (3) Theoretical Fluid Mechanics
Basic principles of fluid mechanic. Covers fluid properties, hydrostatics, fluid flow concepts, including continuity, energy, momentum, dimensional analysis and similitude and flow in closed conduits.
Equivalent - Duplicate Degree Credit Not Granted: CHEN 3200 and MCEN 3021
Requisites: Requires prerequisite course of CVEN 2121 or GEEN 2851 or ASEN 2001 or MCEN 2023 (all minimum grade C). Restricted to Civil (CVEN) or Environmental (EVEN) majors, or General (GEEN) Engineering majors with a CIV or ENR subplan.
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 3323 (3) Hydraulic Engineering
Studies hydraulic engineering theory and applications. Topics include incompressible flow in conduits, pipe system analysis and design, open channel flow, flow measurement, analysis and design of hydraulic machinery.
Requisites: Requires prerequisite course of CVEN 3313 or MCEN 3021 or GEEN 3853 or AREN 2120 or CHEN 3200 (all minimum grade C). Restricted to Civil (CVEN), Environmental (EVEN), Architectural (AREN) or General (GEEN) Engineering majors only.
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 3341 (3) Fundamentals of Environmental Engineering
Emphasizes chemical, ecological and hydrological fundamentals and importance of mass and energy balances in solving environmental engineering problems related to water quality, water and wastewater treatment, air pollution, solid and hazardous waste management, sustainability and risk assessment.
Requisites: Requires prerequisite courses of CHEN 1211 and CHEM 1221 or CHEM 1113 and CHEM 1114 or MCEN 1024 and APPM 1360 or MATH 2300 (all min grade C). Restricted to CVEN, AREN, EVEN, MCEN, CHEN, GEEN or AMEN majors only.
Additional Information: Departmental Category: Environmental

CVEN 3414 (3) Fundamentals of Environmental Water Resources
Studies the motion (kinematics) of particles and rigid bodies, and the forces that cause the motion (kinetics). Newton’s laws as well as energy methods are used to study the motion of particles and rigid bodies in two and three dimensions.
Requisites: Requires prerequisite courses of CHEN 1211 and CHEM 1221 or CHEM 1113 and CHEM 1114 or MCEN 1024 and APPM 1360 or MATH 2300 (all min grade C). Restricted to Civil (CVEN), Environmental (EVEN), Architectural (AREN) or General (GEEN) Engineering majors only.
Additional Information: Departmental Category: Environmental

CVEN 3424 (3) Water and Wastewater Treatment
Introduces design and operation of facilities for treatment of municipal water supplies and wastewater. Provides an engineering application of physical, chemical, and biological unit processes and operations for removal of impurities and pollutants. Involves an integrated design of whole treatment systems combining process elements.
Requisites: Requires prerequisite course of CVEN 3414 (minimum grade C).
Additional Information: Departmental Category: Environmental

CVEN 3434 (3) Introduction to Applied Ecology
Emphasizes the integration of physical, chemical and biological processes in controlling terrestrial and aquatic ecosystems. Ecosystem concepts are applied to current environmental and water quality problems. Includes field trips and a group project.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 3434
Requisites: Prereq courses of CHEN 1211 and CHEM 1221 or CHEM 1113 and CHEM 1114 or CHEM 1400 or CHEM 1351; (all min C). Restricted to students with 57-180 credits (Junior or Senior) Civil (CVEN), Environmental (EVEN) or Architectural Eng (AREN) or (GEEN) mjrs.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Departmental Category: Environmental
CVEN 3525 (3) Structural Analysis
Studies structural analysis of statically determinate and indeterminate systems, deflections, energy methods, and force and stiffness methods.
**Requisites:** Requires prerequisite course of CVEN 3161 or MCEN 2063 (minimum grade C-). Restricted to Civil (CVEN), Environmental (EVEN), Architectural (AREN), General (GEEN) or Applied Mathematics (AMEN) majors only.
**Additional Information:** Departmental Category: Structures

CVEN 3602 (3) Transportation Systems
Introduces the principles of transportation systems with a focus on highway engineering and traffic analysis. Provides the basic skill set that will allow students to solve transportation problems related with highway design and traffic control and analysis. Provides an introduction to technology, operating characteristics, and relative merits of highway, airway, waterway, railroad, pipeline, and convey or transportation systems.
**Requisites:** Restricted to College of Engineering (ENGRU) undergraduates only.
**Additional Information:** Departmental Category: Surveying and Transportation

CVEN 3698 (3) Engineering Geology
Highlights the role of geology in engineering minerals; rocks; surficial deposits; rocks and soils as engineering materials; distribution of rocks at and below the surface; hydrologic influences; geologic exploration of engineering sites; geologic hazards; mapping; and geology of underground excavations, slopes, reservoirs and dam sites.
**Requisites:** Requires a prerequisite or corequisite course of CVEN 2121 or GEEN 2851 or ASEN 2001 or MCEN 2023 and APPM 2350 or MATH 2400 (all minimum grade C-). Restricted to College of Engineering majors only.
**Additional Information:** Departmental Category: Geotechnical

CVEN 3708 (3) Geotechnical Engineering 1
Covers basic engineering characteristics of geological materials; soil and rock classifications; site investigation; physical, mechanical, and hydraulic properties of geologic materials; the effective stress principle; soil and rock improvement; seepage analysis; stress distribution; and consolidation and settlement analyses. Selected experimental and computational laboratories.
**Requisites:** Requires prerequisite course of CVEN 3161 or MCEN 2063 (minimum grade C-). Restricted to Civil (CVEN), Environmental (EVEN), Architectural (AREN), General (GEEN) or Applied Mathematics (AMEN) majors only.
**Additional Information:** Departmental Category: Geotechnical

CVEN 3718 (3) Geotechnical Engineering 2
Covers stress analysis and plastic equilibrium, shear strength of soil, bearing capacity, lateral earth pressures, slope stability and underground construction. Analysis and design of shallow and deep foundations, retaining walls and other earth and rock structures. Selected experimental and computational laboratories.
**Requisites:** Requires prerequisite course of CVEN 3708 (minimum grade C-). Restricted to College of Engineering majors only.
**Additional Information:** Departmental Category: Geotechnical

CVEN 3837 (1-3) Special Topics
Supervised study of special topics of interest to student under instructor guidance.
**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
**Requisites:** Restricted to College of Engineering (ENGRU) undergraduates only.
**Grading Basis:** Letter Grade
**Additional Information:** Departmental Category: Miscellaneous

CVEN 4147 (3) Civil Engineering Systems
Theory and application of the principles of engineering economics and classical and metaheuristic optimization techniques for evaluating problems in civil and environmental engineering.
**Equivalent - Duplicate Degree Credit Not Granted:** CVEN 5147
**Requisites:** Restricted to students with 87-180 credits (Senior, Fifth Year Senior) College of Engineering majors only.
**Additional Information:** Departmental Category: Miscellaneous

CVEN 4157 (3) A Systems Approach to Global Engineering
Introduces engineering students to the global context in which engineers are asked to operate in the 21st century using system dynamics tools and other decision-making tools (network analysis, agent based modeling, etc.) necessary to analyze the uncertainty and complexity inherent in global projects.
**Equivalent - Duplicate Degree Credit Not Granted:** EDEN 4147, CVEN 5157 and EDEN 5147

CVEN 4161 (3) Mechanics of Materials 2
Covers advanced topics in the mechanics of solids. Some topics such as asymmetric bending of beams, torsion of non-circular cross-sections, are extensions of topics seen in CVEN 3161. Others like 3-D stress and strain analysis, failure theories and stability of columns and frames are new. Includes selected laboratory experiments.
**Equivalent - Duplicate Degree Credit Not Granted:** CVEN 5161
**Requisites:** Requires prerequisite course of CVEN 3161 (minimum grade C-).
**Additional Information:** Departmental Category: Mechanics

CVEN 4323 (3) Water Resources Engineering Design
Studies principles and techniques of water resources engineering design. Introduces environmental modeling under uncertainty, stormwater design, precipitation estimation and flow routing. Surveys hydropower, reservoir management and water resources economics.
**Equivalent - Duplicate Degree Credit Not Granted:** CVEN 5423
**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) College of Engineering students only.
**Additional Information:** Departmental Category: Fluid Mechanics and Water Resources

CVEN 4333 (3) Engineering Hydrology
Studies engineering applications of principles of hydrology, including hydrologic cycle, rainfall and runoff, groundwater, storm frequency and duration studies, stream hydrography, flood frequency, and flood routing.
**Requisites:** Requires prerequisite course of CVEN 3313 or AREN 2120 or CHEN 3200 or GEEN 3853 or MCEN 3021 (all minimum grade C-).
Requires prerequisite or corequisite course of CVEN 3227 or APPM 4570 or MCEN 3047 or MCEN 3208 or CHEN 3010
**Additional Information:** Departmental Category: Fluid Mechanics and Water Resources

CVEN 4353 (3) Groundwater Engineering
Studies the occurrence, movement, extraction for use, and quantity and quality aspects of groundwater. Introduces and uses basic concepts to solve engineering and geohydrologic problems.
**Requisites:** Requires prerequisite course of CVEN 3313 or MCEN 3021 or CHEN 3200 or GEEN 3853 (minimum grade C-).
**Additional Information:** Departmental Category: Fluid Mechanics and Water Resources
CVEN 4383 (3) Applied Groundwater Modeling
Studies analytical and numerical methods for solving problems of groundwater flow and chemical transport. Emphasizes fundamental modeling techniques and the relationship between the physical system and the model results. Applies models and modeling techniques to solve problems in ground water hydrology using contemporary software.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 5383
Recommended: Prerequisite CVEN 4353.
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 4404 (3) Water Chemistry
Introduces chemical fundamentals of inorganic aqueous compounds and contaminants in lecture and laboratory. Lecture topics include thermodynamics and kinetics of acids and base reactions, carbonate chemistry, air-water exchange, precipitation, dissolution, complexation, oxidation-reduction and sorption.
Equivalent - Duplicate Degree Credit Not Granted: EVEN 4404
Requisites: Requires prerequisite courses of CHEN 1211 or CHEM 1113 and CHEM 1133 (all minimum grade C-). Restricted to Civil (CVEN) or Environmental (EVEN) or General (GEEN) Engineering majors only.
Additional Information: Departmental Category: Environmental

CVEN 4414 (1) Water Chemistry Laboratory
Reinforces chemical fundamentals of inorganic aqueous compounds and contaminants from CVEN/EVEN 4404 in laboratory experiments and reports. Topics include acids and bases, carbonate chemistry (alkalinity) and other water chemistry characteristics (hardness, dissolved oxygen); precipitation, complexation and oxidation-reduction reactions; and laboratory techniques and reporting.
Equivalent - Duplicate Degree Credit Not Granted: EVEN 4414
Requisites: Requires prerequisite courses of CHEN 1211 or CHEM 1113 and CHEM 1133 (all minimum grade C-). Requires corequisite course of CVEN 4404. Restricted to Civil (CVEN) or Environmental (EVEN) Engineering majors only.
Additional Information: Departmental Category: Environmental

CVEN 4424 (3) Environmental Organic Chemistry
Examines the fundamental physical and chemical transformations affecting the fate and transport of organic contaminants in natural and treated waters. Emphasizes quantitative approach to solubility, vapor pressure, air-water exchange, sorption, hydrolysis and redox reactions, and photodegradation.
Equivalent - Duplicate Degree Credit Not Granted: EVEN 4424
Requisites: Requires prerequisite course of CHEN 1211 or CHEM 1113 or CHEM 2100 (minimum grade C-).
Additional Information: Departmental Category: Environmental

CVEN 4434 (4) Environmental Engineering Design
Examines the design of facilities for the treatment of municipal water and wastewater, hazardous industrial waste, contaminated environmental sites and sustainable sanitation in developing countries. Economic, societal and site specific criteria impacting designs are emphasized.
Equivalent - Duplicate Degree Credit Not Granted: EVEN 4434
Requisites: Requires prerequisite course of CVEN 3414 (minimum grade C-).
Additional Information: Departmental Category: Environmental

CVEN 4464 (3) Environmental Engineering Processes
Develops and utilizes analytic solutions for environmental process models that can be used in a) reactor design for processes used in the treatment of water, wastewater and hazardous waste and b) process analysis of natural systems, such as streams and groundwater flow. Models facilitate the tracking of contaminants in engineered and natural systems.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 5464 and EVEN 4464
Requisites: Requires prerequisite or corequisite courses of CVEN 3414 and CVEN 3313 or CHEN 3200 or GEEN 3853 or MCEN 3021 or AREN 2120 (all minimum grade C-).
Additional Information: Departmental Category: Environmental

CVEN 4474 (3) Hazardous and Industrial Waste Management
Evaluates processes used for treatment of wastes requiring special handling and disposal: toxic organic chemicals, heavy metals, acidic, caustic and radioactive waste material. Discusses techniques for destruction, immobilization and resource recovery and assessment of environmental impact of treatment process end products.
Equivalent - Duplicate Degree Credit Not Granted: EVEN 5474
Requisites: Requires prerequisite course of CVEN 3414 (minimum grade C-). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Environmental

CVEN 4484 (3) Introduction to Environmental Microbiology
Surveys microbiology topics germane to modern civil and environmental engineering. Provides fundamentals needed to understand microbial processes and ecology in engineered and natural systems and reviews applications emphasizing the interface between molecular biology and classical civil engineering.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 5484 and EVEN 4484
Requisites: Requires prerequisite courses of CHEN 1211 and CHEM 1221 or CHEM 1113 and CHEM 1114 and APPM 2350 or MATH 2400 (all minimum grade C-).
Additional Information: Departmental Category: Environmental

CVEN 4511 (3) Introduction to Finite Element Analysis
Covers systematic formulation of finite element approximation and isoparametric interpolation (weighted residual and energy methods, triangular and quadrilateral elements). Includes computation applications to the solution of one- and two-dimensional stress-deformation problems and steady and transient heat conduction.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 5511
Requisites: Requires prerequisite courses of CVEN 3161, CVEN 3525, APPM 2360 or MATH 3130 and MATH 4430 (all minimum grade C-).
Additional Information: Departmental Category: Mechanics

CVEN 4525 (3) Matrix Structural Analysis
Equivalent - Duplicate Degree Credit Not Granted: CVEN 5525
Requisites: Requires prerequisite course of CVEN 3525 (minimum grade C-).
Additional Information: Departmental Category: Structures
CVEN 4535 (1-3) Construction Materials
Introduces material science of engineering materials, such as atomic and crystal structures, defects and phase diagrams; discusses in detail three construction materials: steel, Portland cement concrete and asphalt concrete including classification and composition, engineering properties and testing methods (with three lab sessions). Covers basic of three materials: wood, fiber reinforced polymers and masonry.
Repeatability: Repeatable for up to 3.00 total credit hours.
Requisites: Requires a prerequisite course of CVEN 3161 or MCEN 2063 (minimum grade C-). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Structures

CVEN 4537 (3) Numerical Methods in Civil Engineering
Introduces the use of numerical methods in the solution of civil engineering problems, emphasizing obtaining solutions with high-speed electronic computers. Applies methods to all types of civil engineering problems.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 5537
Requisites: Restricted to students with 87-180 credits (Senior, Fifth Year Senior).
Additional Information: Departmental Category: Miscellaneous

CVEN 4545 (3) Steel Design
Applies basic principles of structural engineering and mechanics to design of steel structures; design of tension members, columns, beams, open-web joists, steel decks, bolts, bolted connections, welding processes, and welded connections.
Requisites: Requires prerequisite course of CVEN 3525 (minimum grade C-).
Additional Information: Departmental Category: Structures

CVEN 4554 (3) Fundamentals of Air Quality Management
Introduces engineering methods for the study of air quality. Topics include: indoor air quality, greenhouse gases, dispersion modeling, source apportionment modeling, chemistry of combustion, pollution sources and controls, human exposure to air pollutants. A focus on Engineering for Developing Communities runs throughout. Elective for the EVEN air quality track or an environmental concentration course for CVEN.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 5554
Requisites: Requires prerequisite courses of APPM 2350 or MATH 2400 and APPM 2360 and AREN 2110 or GEEN 3852 or MCEN 3012 or ASEN 2002 and CHEN 1310 or CSCI 1300 or CSCI 1310 or CSCI 1320 or ECEN 1313 (all minimum grade C-).
Additional Information: Departmental Category: Environmental

CVEN 4555 (3) Reinforced Concrete Design
Applies basic principles of structural engineering and mechanics to the design of reinforced concrete structures, including design of beams, columns, slabs, and footings; continuous beams and frames; cast-in-place buildings.
Requisites: Requires prerequisite course of CVEN 3525 (minimum grade C-).
Additional Information: Departmental Category: Structures

CVEN 4556 (3) Design of Wood Structures
Applies basic principles of structural engineering and mechanics to the design of wood structures, including the design and analysis of columns, trusses, beams and connections using dimensional lumber, glulam and cross-laminated timber.
Requisites: Requires prerequisite course of CVEN 3525 (minimum grade C-).
Additional Information: Departmental Category: Structures

CVEN 4594 (3) Water Reuse and Reclamation
Explores development of a safe, reliable and acceptable program for reusing impaired waters. As fresh water becomes scarcer around the world, communities are looking for security through development of new water resources. Reuse of impaired water is one solution to the growing water crisis. Focus is on advanced treatment technologies with emphasis on public perception, economics and regulations.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 5594
Requisites: Requires prerequisite course of CVEN 3414 (minimum grade C-). Restricted to College of Engineering students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite CVEN 3424.
Additional Information: Departmental Category: Environmental

CVEN 4718 (3) Mechanics and Dynamics of Glaciers
Develops a quantitative physical basis for understanding the functions of snow, ice and glaciers in the environment, with emphasis on developing an understanding of continuum mechanics and thermodynamics and their application to Earth systems.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 5718
Requisites: Requires prerequisite courses of APPM 2350 or MATH 2400 and APPM 2360 and AREN 2110 or GEEN 3852 or MCEN 3012 or ASEN 2002 and CHEN 1310 or CSCI 1300 or CSCI 1310 or CSCI 1320 or ECEN 1313 (all minimum grade C-).
Additional Information: Departmental Category: Geotechnical

CVEN 4728 (3) Foundation Engineering
Focuses on geotechnical design of shallow and deep foundations, including spread footings, mats, driven piles and drilled piers. Coverage includes bearing capacity, settlement, group effects and lateral load capacity of the various foundation types. Additional topics include subsurface exploration, construction of deep foundations and analysis of pile behavior using wave equation and dynamic monitoring methods.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 5728
Requisites: Requires prerequisite course of CVEN 3718 (minimum grade C-).
Additional Information: Departmental Category: Geotechnical

CVEN 4833 (1-3) Special Topics
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 4834 (1-3) Special Topics
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.
Additional Information: Departmental Category: Environmental

CVEN 4835 (1-3) Special Topics
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Structures

CVEN 4836 (1-3) Special Topics
Offers a supervised study of special topics, under instructor guidance.
Repeatable: Repeatable for up to 3.00 total credit hours.
CVEN 4837 (1-3) Special Topics
Supervised study of special topics of interest to students under instructor guidance.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Miscellaneous

CVEN 4838 (1-3) Special Topics
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Geotechnical

CVEN 4839 (3-6) Special Topics for Seniors
Offers a supervised study of special topics, under instructor guidance. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Special Topics

CVEN 4849 (1-3) Independent Study
Involves an independent, in-depth study, research, or design in a selected area of civil or environmental engineering. Offerings are coordinated with individual faculty. Students should consult the Department of Civil, Environmental, and Architectural Engineering.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Special Topics

CVEN 4897 (2) Professional Issues in Civil Engineering
Educates students about the knowledge and skills required for professional civil engineers. Students learn about the path to a professional license, prepare for the FE exam, analyze a situation involving multiple conflicting ethical interests, identify aspects of sustainability in civil engineering projects, and understand the role of project management, public policy, business and public administration, and leadership in civil engineering.
Requisites: Restricted to students with 87-180 credits (Seniors) Civil (CVEN), Environmental (EVEN), or Architectural Engineering (AREN) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

CVEN 4899 (4) Civil Engineering Senior Project Design
Provides a simulated real world design and construction planning experience where teams integrate across multiple civil engineering sub-disciplines to create a solution that satisfies multiple constraints, including design, client requirements, budget, schedule, technical, regulatory, and societal. Final deliverables include: detailed design drawings, specifications, cost estimate, project schedule, construction plan, oral and written presentation.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to students with 87-180 credits (Senior) Civil (CVEN) or General (GEEN) engineering majors only.
Additional Information: Departmental Category: Special Topics

CVEN 4969 (3) Water and Sanitation in Developing Countries
Studies the design and fundamentals behind effective treatment processes and engineering solutions targeted for developing countries. Approaches to clean water and sanitation in lesser industrialized countries often demand alternative solutions to those developed for industrialized societies. Explores issues and solutions developed to tackle these problems.
Equivalent - Duplicate Degree Credit Not Granted: EVEN 4969
Requisites: Requires prerequisite course of CVEN 3414 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environmental

CVEN 5111 (3) Structural Dynamics
Focuses on the response of single- and multi-degree of freedom structures subjected to harmonic, impulsive and arbitrary loads (including earthquake base excitation). Sources and modeling of damping will be discussed. Analytical and numerical solutions will be considered for both linear and nonlinear structural systems. Elastic and inelastic response spectra will be discussed.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Mechanics

CVEN 5131 (3) Continuum Mechanics and Elasticity
Provides foundation for advanced study of structural, mechanical and geo-material behavior and continuum theories in mechanics. Topics: Cartesian tensors, formulation of continuum mechanics for small and large deformation, constitutive laws for elastic solids, energy principles, methods of potentials, formulations and solutions of 2D and 3D elastostatic and elastodynamic problems, analytical and numerical formulations.
Recommended: Prerequisite CVEN 4161.
Additional Information: Departmental Category: Mechanics

CVEN 5147 (3) Civil Engineering Systems
Theory and application of the principles of engineering economics and classical and metaheuristic optimization techniques for evaluating problems in civil and environmental engineering.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4147
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Miscellaneous

CVEN 5157 (3) A Systems Approach to Global Engineering
Introduces engineering students to the global context in which engineers are asked to operate in the 21st century using system dynamics tools and other decision-making tools (network analysis, agent based modeling, etc.) necessary to analyze the uncertainty and complexity inherent in global projects.
Equivalent - Duplicate Degree Credit Not Granted: EDEN 4147, CVEN 4157 and EDEN 4147

CVEN 5161 (3) Advanced Mechanics of Materials I
Covers advanced topics in the mechanics of solids. Some topics such as asymmetric bending of beams, torsion of non-circular cross-sections, are extensions of topics seen in CVEN 3161. Others like 3-D stress and strain analysis, failure theories and stability of columns and frames are new. Includes selected laboratory experiments.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4161
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Mechanics
CVEN 5206 (3) Design Development
Provides an overview of the development process and proforma, investigates the interrelationship between design decisions and building costs, and evaluates the impact of each major building system on the development budget and schedule. Provides a simulated development experience where students respond to a Request for Proposal, including proformas, design, estimates and outline specifications. Department consent required. Taught intermittently.
Additional Information: Departmental Category: Construction

CVEN 5226 (3) Construction Safety
Comprehensively studies construction safety in the construction industry. Focuses on advanced safety management issues such as accident causation theory, economic modeling, safety risk quantification and analysis, design for safety, predictive analytics and learning. Skills developed in this course will prepare graduate students to be effective quality and safety managers or researchers.
Additional Information: Departmental Category: Construction

CVEN 5246 (3) Legal Aspects of Construction
Applies law in engineering practice; contracts, construction contract documents, construction specification writing, agency, partnership, and property; types of construction contracts; and legal responsibilities and ethical requirements of the professional engineer. Taught intermittently.
Recommended: graduate standing or department consent required.
Additional Information: Departmental Category: Construction

CVEN 5276 (3) Engineering Risk and Decision Analysis
Acquaints students with the fundamental principles and techniques of risk and decision analysis. Oriented toward project-level decisions in which risk or uncertainty plays a central role. Introduces students to Monte Carlo analyses, and various types of multicriteria decision analyses. Culminates in a larger term project.
Recommended: Prerequisite CVEN 3227 and graduate standing or instructor consent required.
Additional Information: Departmental Category: Construction

CVEN 5286 (3) Design Construction Operations
Considers effective/efficient design of construction operations. Front end planning; construction labor relations; productivity management. Emphasizes construction productivity improvement by group field studies and discrete event simulation modeling. How overtime, changes, weather, and staffing levels influence productivity. Industrial engineering techniques are applied to the construction environment to improve the use of equipment, human, and material resources.
Recommended: graduate standing or department consent required.
Additional Information: Departmental Category: Construction

CVEN 5313 (3) Environmental Fluid Mechanics
Analysis of viscous incompressible flows, with first-principle solutions for environmental fluid flows in oceans, rivers, lakes and the atmosphere. Topics include the Navier-Stokes equations, kinematics, vorticity dynamics, geophysical fluid dynamics, and density stratification.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites APPM 2350 and APPM 2360 and CVEN 3313.
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 5323 (3) Applied Stream Ecology
Emphasizes the integration of hydrologic, chemical, and biological processes in controlling river, stream, and reservoir ecosystems at several spatial scales. Students apply ecosystem concepts to current environmental and water quality problems and learn field methods in field trips and a team project.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Environmental

CVEN 5333 (3) Physical Hydrology
Introduces hydrology as a quantitative science describing the occurrence, distribution and movement of water at and near the surface of the earth. Develops a quantitative understanding of atmospheric water, infiltration, evapotranspiration and surface runoff. Studies global climatology and large scale climate drivers of regional hydrology at interannual time scales. Solves engineering problems related to water resources.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite CVEN 4333.
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 5343 (3) Transport and Dispersion in Surface Water
Studies transport and dispersion of introduced contaminants in turbulent surface water flows. Emphasizes developing a physical understanding of fluid processes responsible for turbulent dispersion. Includes analytical development, numerical modeling, and experimental approaches to the problem.
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 5346 (3) Managing Construction and Engineering Projects and Organizations
Explores organizational and managerial issues and concerns facing executives in engineering and construction organizations. Through readings, case studies, simulation exercises, and projects, students are introduced to and apply concepts of strategy, core competencies, vision, innovation, team dynamics, interpersonal influence, organizational design issues, and global projects to engineering and construction organizations.
Additional Information: Departmental Category: Construction

CVEN 5353 (3) Groundwater Hydrology
Studies the occurrence, movement, extraction for use, and quantity and quality aspects of groundwater. Introduces and uses basic concepts to solve engineering and geohydrologic problems.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites CVEN 3313 or AREN 2120 or CHEN 3200 or GEEN 3853 or MCEN 3021 and APPM 2360.
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 5363 (3) Modeling of Hydrologic Systems
Introduces students to modeling techniques. Focus areas include physical hydrology and hydrometeorology; measurement and inference; climate change impacts; role of scale in hydrology; uncertainty analysis; and a case study project. Projects will examine hydrologic impacts of various drivers such as climate warming or land cover change, utilizing an assessment of historic conditions to better understand and model future disturbance scenarios.
Additional Information: Departmental Category: Fluid Mechanics and Water Resources
CVEN 5373 (3) Water Law, Policy, and Institutions
Discusses contemporary issues in water management based on legal doctrine. Identifies legal issues in water resources problems and discusses in close relationship with technical, economic, and political considerations.
Requisites: Restricted to students with 87-180 credits (Seniors) or graduate students only.
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 5383 (3) Applied Groundwater Modeling
Studies analytical and numerical methods for solving problems of groundwater flow and chemical transport. Emphasizes fundamental modeling techniques and the relationship between the physical system and the model results. Applies models and modeling techniques to solve problems in ground water hydrology using contemporary software.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4383
Recommended: Prerequisites APPM 2360 and CVEN 4353 or CVEN 5353.
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 5393 (3) Water Resources System and Management
Introduces water resources planning and management as an integrated systems problem that satisfies multiple competing objectives under constraints and uncertainty. Includes problem formulation and solution using decision support systems, optimization with and without uncertainty, stochastic simulation, and multiobjective optimization. Introduces water resources economics and planning under uncertainties such as climate change and increasing urbanization.
Requisites: Restricted to students with 87-180 credits (Seniors) or graduate students only.
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 5404 (3) Water Chemistry
Introduces chemical fundamentals governing the chemistry of natural and treated waters. Topics include thermodynamics and kinetics of acid and base reactions, carbonate chemistry, air-water exchange, precipitation, dissolution, complexation, oxidation-reduction, and sorption.
Requisites: Restricted to concurrent BS/MS (C-CVEN or C-EVENCVEN) or graduate students only.
Additional Information: Departmental Category: Environmental

CVEN 5414 (3) Water Chemistry Laboratory
Uses experimental and analytical laboratory techniques to develop a better understanding of the concepts of aquatic chemistry and to investigate water chemistry in treated and natural waters. Techniques include titration, spectrophotometry, gas chromatography, other advanced instrumentation, sampling, portable analyses, and basic statistics and experimental design. Course focuses on water chemistry of Boulder Creek and other local waters.
Requisites: Requires prerequisite course of CVEN 5404 or GEOl 5280 (minimum grade C). Requires corequisite course of CVEN 5424.
Additional Information: Departmental Category: Environmental

CVEN 5423 (3) Water Resources Engineering Design
Studies principles and techniques of water resources engineering design. Introduces environmental modeling under uncertainty, stormwater design, precipitation estimation and flow routing. Surveys hydropower, reservoir management and water resources economics.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4323
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 5424 (3) Environmental Organic Chemistry
Examines the fundamental physical and chemical processes that impact the fate and transport of organic contaminants in natural and engineered systems. Emphasizes both equilibrium and kinetic aspects, including solubility, vapor pressure, air-water exchange, sorption, abiotic redox reactions, and photodegradation.
Additional Information: Departmental Category: Environmental

CVEN 5434 (3) Environmental Engineering Design
Team-based design of facilities or processes for water or wastewater or solid waste treatment or remediation under multiple real-world constraints. Department consent required.
Recommended: Prerequisite CVEN 5524 or CVEN 5534 or CVEN 5474.
Additional Information: Departmental Category: Environmental

CVEN 5444 (3) Municipal Des Proj
Additional Information: Departmental Category: Environmental

CVEN 5454 (3) Statistical Methods for Natural and Engineered Systems
Applies traditional and modern probability and statistical methods to environmental, hydrological, climatological and engineering data analysis. Topics include: basic probability, data visualization, fitting univariate and multivariate distributions, Monte Carlo simulations, extreme value distributions, confidence intervals and hypothesis testing, nonparametric density estimators, linear regression, and Bayesian analysis. The data analysis tool, R, is used throughout the course.
Additional Information: Departmental Category: Environmental

CVEN 5464 (3) Environmental Engineering Processes
Develops and utilizes analytic solutions for environmental process models that can be used in a) reactor design for processes used in the treatment of water, wastewater and hazardous waste and b) process analysis of natural systems, such as streams and groundwater flow. Models facilitate the tracking of contaminants in engineered and natural systems.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4464 and EVEN 4464
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Environmental

CVEN 5474 (3) Hazardous and Industrial Waste Management
Evaluates processes used for treatment of wastes requiring special handling and disposal: toxic organic chemicals, heavy metals, acidic, caustic and radioactive waste material. Discusses techniques for destruction, immobilization and resource recovery and assessment of environmental impact of treatment process end products.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4474
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Environmental

CVEN 5484 (3) Applied Microbiology and Toxicology
Studies microbiology topics germane to modern civil and environmental engineering. Provides fundamentals needed to understand microbial processes and ecology in engineered and natural systems and reviews applications emphasizing the interface between molecular biology and classical civil engineering.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4484 and EVEN 4484
Additional Information: Departmental Category: Environmental
CVEN 5494 (3) Surface Water Quality Modeling
Examines the relationships among air, water, and land pollution, water quality, and beneficial uses. Using models, develops the ability to quantify and predict the impacts of pollutants in the aquatic environment, and to develop approaches to minimize unfavorable water quality conditions. Department consent required.
Additional Information: Departmental Category: Environmental

CVEN 5511 (3) Introduction to Finite Element Analysis
Covers systematic formulation of finite element approximation and isoparametric interpolation (weighted residual and energy methods, triangular and quadrilateral elements). Includes computation applications to the solution of one- and two-dimensional stress-deformation problems and steady and transient heat conduction.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4511

Recommended: Prerequisite CVEN 4484 or CVEN 5424 or CVEN 5484.
Additional Information: Departmental Category: Mechanics

CVEN 5514 (3) Bioremediation
Advanced study on biological processes used to treat toxic organic and inorganic compounds contained in contaminated water, air, and soil; design and evaluation of in situ toxic compound biotransformation; fundamentals of phytoremediation; critical reviews of current literature on bioremediation.
Recommended: Prerequisite CVEN 4484 or CVEN 5424 or CVEN 5484.
Additional Information: Departmental Category: Environmental

CVEN 5524 (3) Drinking Water Treatment
Provides advanced study on theory-of-treatment processes, including design and operation of municipal water supplies.
Recommended: Prerequisite CVEN 4464 or CVEN 5464 or graduate standing or instructor consent required.
Additional Information: Departmental Category: Environmental

CVEN 5525 (3) Matrix Structural Analysis
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4525

Recommended: Restricted to graduate students only.
Additional Information: Departmental Category: Structures

CVEN 5534 (3) Wastewater Treatment
Covers the processes used to treat municipal wastewater, focusing on biological processes. Includes: design of aerobic, anoxic, anaerobic and suspended growth technologies to remove and transform pollutants; design and assessment of treatment approaches that recover energy, nutrients and water from wastewater; application of fundamental concepts of aquatic chemistry, environmental microbiology and computational models.
Recommended: Restricted to graduate students only.
Additional Information: Departmental Category: Structures

CVEN 5537 (3) Numerical Methods in Civil Engineering
Introduces the use of numerical methods in the solution of civil engineering problems, emphasizing obtaining solutions with high-speed electronic computers. Applies methods to all types of civil engineering problems.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4537

Recommended: Prerequisites CVEN 5404 and CVEN 5484 and CVEN 5464.
Additional Information: Departmental Category: Environmental

CVEN 5544 (3) Solid Waste Management and Resource Recovery
Covers the scope of the nonhazardous solid waste problem and regulations that drive its management; discussions of nonengineering factors that impact waste management and recycling; design of incinerators, composting facilities, and landfills used to treat and dispose of solid waste.
Recommended: Prerequisite CVEN 3414.
Additional Information: Departmental Category: Environmental

CVEN 5554 (3) Fundamentals of Air Quality Management
Introduces engineering methods for the study of air quality. Topics include: indoor air quality, greenhouse gases, dispersion modeling, source apportionment modeling, chemistry of combustion, pollution sources and controls, human exposure to air pollutants. A focus on engineering for Developing Communities runs throughout. Required for CVEN environmental engineering graduate students.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4554

Additional Information: Departmental Category: Environmental

CVEN 5564 (3) Water Profession: Communication and Utility Finance
Develops and improves the skills and tools needed for graduate students and young professionals. Focusing on highly effective leaders; leadership with impact; effective communication tools; and communicating with teams, city councils, governing boards, and the public.
Recommended: Restricted to graduate students only.
Grading Basis: Letter Grade

Additional Information: Departmental Category: Environmental

CVEN 5565 (3) Life-Cycle Engineering of Civil Infrastructure Systems
Philosophical and analytical issues for lifetime design and operation of civil systems. Optimization tradeoffs of construction, management, and sustainability. Utility of operation and service, including present-value economic analysis. Decision-making alternatives of safety and performance, including hazards consideration. Undergraduates may enroll with the permission of the instructor.
Recommended: Prerequisite CVEN 3227 or equivalent.

Additional Information: Departmental Category: Structures

CVEN 5574 (3) Water Utility Management: Current Issues and Future Challenges
Develops the skills and tools for graduate students and young professionals to work in the water profession. Focuses on management, leadership, communication and utility financial in the new water profession era. Undergraduate seniors may contact instructor for permission to enroll.
Recommended: Restricted to graduate students only.

Additional Information: Departmental Category: Structures

CVEN 5575 (3) Advanced Topics in Steel Design
Covers steel structure design and analysis. Includes plate girders, moment connections for beams, design of multistory frames, and other topics determined by class interest. Undergraduate may enroll with permission of the instructor.
Recommended: Restricted to graduate students only.

Additional Information: Prerequisite CVEN 4545.

CVEN 5584 (3) Water Profession: Financial and Management
Covers the processes used to treat municipal wastewater, focusing on biological processes. Includes: design of aerobic, anoxic, anaerobic and suspended growth technologies to remove and transform pollutants; design and assessment of treatment approaches that recover energy, nutrients and water from wastewater; application of fundamental concepts of aquatic chemistry, environmental microbiology and computational models.
Recommended: Restricted to graduate students only.

Additional Information: Departmental Category: Environmental
CVEN 5585 (3) Advanced Topics in Reinforced Concrete Design
Covers design and analysis topics for prestressed concrete and/or reinforced concrete structures. Includes review of the current ACI design code, slabs, prestressed concrete, seismic design, folded plates and shells, finite element analysis, and other topics determined by class interest. Undergraduates may enroll with the permission of the instructor.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite CVEN 4555.
Additional Information: Departmental Category: Structures

CVEN 5594 (3) Water Reuse and Reclamation
Explores development of a safe, reliable and acceptable program for reusing impaired waters. As fresh water becomes scarcer around the world, communities are looking for security through development of new water resources. Reuse of impaired water is one solution to the growing water crisis. Focus is on advanced treatment technologies with emphasis on public perception, economics and regulations.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4594
Requisites: Restricted to graduate students only.
Recommended: Prerequisites CVEN 3141 and CVEN 3424.
Additional Information: Departmental Category: Environmental

CVEN 5604 (3) UV Disinfection and Advanced Oxidation
Provides a fundamental basis for design of UV processes in water and wastewater treatment. Includes principles of photochemistry and photobiology. Applications to disinfection of water and degradation of chemical compounds in the environment. Design of UV disinfection systems and reactors and advanced oxidation processes. Environmental UV-based decay of pollutants.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites CVEN 3414 and CVEN 3424.
Additional Information: Departmental Category: Environmental

CVEN 5614 (3) Bioenergy & Bioresource Recovery
Introduces fundamental theories and applied technologies used in production and conversion of renewable biomass including waste materials into bioenergy and other value-added products. Conducts quantitative evaluations on conversion processes such as renewable biogas production, electricity generation, liquid fuels, metal and nutrients recovery and organic chemical production.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite CVEN 4484.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Environmental

CVEN 5628 (3) Seepage and Slopes
Covers fundamental principles of seepage in soils under both saturated and unsaturated conditions and limit equilibrium solution to slope stability problems. The seepage effects on slope stability are analyzed in detail and both conventional slope stability method and the finite element technique are applied to solving the engineering problems.
Recommended: Prerequisites CVEN 3708 and CVEN 3718.
Additional Information: Departmental Category: Geotechnical

CVEN 5678 (3) Soil Improvement and Reinforcement
Provides students with principles and working knowledge of design and construction procedures in soil stabilization, retaining structures, geosynthetics, and soil reinforcement.
Recommended: Prerequisite CVEN 3718.
Additional Information: Departmental Category: Geotechnical

CVEN 5688 (3) Environmental Geotechnics
Provides an understanding of the use of geotechnical concepts in the analysis and design of environmental systems. Focus is placed on the evaluation of waste containment facilities. Including relevant saturated, unsaturated, and multiphase flow mechanisms in cover and liner systems. Includes stability analyses for landfills and geosynthetic interface shear strength. Covers relevant aspects of mining geotechnics and remediation technologies of contaminated sites.
Additional Information: Departmental Category: Geotechnical

CVEN 5708 (3) Soil Mechanics
Offers an advanced course in soil mechanics. Coverage includes basic principles of continuum mechanics; elasticity, viscoelasticity, and plasticity theories applied to soils; effective stress principle; consolidation; shear strength; critical state concepts; and constitutive, numerical, and centrifuge modeling.
Requisites: Restricted to graduate students only.

CVEN 5718 (3) Mechanics and Dynamics of Glaciers
Develops a quantitative physical basis for understanding the functions of snow, ice and glaciers in the environment, with emphasis on developing an understanding of continuum mechanics and thermodynamics and their application to Earth systems.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4718
Requisites: Restricted to graduate students only.

CVEN 5728 (3) Foundation Engineering
Focuses on geotechnical design of shallow and deep foundations, including spread footings, mats, driven piles and drilled piers. Coverage includes bearing capacity, settlement, group effects and lateral load capacity of the various foundation types. Additional topics include subsurface exploration, construction of deep foundations and analysis of pile behavior using wave equation and dynamic monitoring methods.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4728
Requisites: Restricted to graduate students only.

CVEN 5738 (3) Applied Geotechnical Analysis
Studies applications of limiting equilibrium and limit plasticity analysis methods to stability problems in geotechnical engineering, such as slopes, lateral earth pressures on retaining structures, and bearing capacities of foundations. Also includes elastic and consolidation analysis of deformations in soil structures.
Requisites: Requires a prerequisite course of CVEN 5708 (minimum grade C-).

CVEN 5748 (3) Design of Earth Structures
Covers theory, design, and construction of earth embankments and waste facilities, including isolation systems. Uses published data, field exploration, and laboratory tests on soils and rock in investigating foundations and construction materials. Involves principles of compaction and settlement, permeability analysis, landslide recognition and control, use of composite clay, and liner systems.
Requisites: Requires a prerequisite course of CVEN 5708 (minimum grade C-).

Additional Information: Departmental Category: Geotechnical
CVEN 5758 (3) Flow Processes in Soils
Examines fundamental principles of flow through porous media and related engineering problems. Topics include the saturated seepage theory and flow nets; the unsaturated flow theory; suction-saturation and saturation-hydraulic conductivity relationships; nonlinear finite strain consolidation and desiccation theory; laboratory and field testing methods for determining material characteristics; and numerical models for flow-related engineering problems.
Recommended: Prerequisite CVEN 3718.
Additional Information: Departmental Category: Geotechnical

CVEN 5768 (3) Introduction to Rock Mechanics
Nature of rocks and rock masses; engineering properties rock and rock mass; rock mass classifications; planes of weakness; application of rock mechanics to design of rock slopes, underground excavations, and foundations.
Recommended: Prerequisite CVEN 3708 and CVEN 3718.
Additional Information: Departmental Category: Geotechnical

CVEN 5788 (3) Computational Modeling in Geotechnical Engineering
Introduces computational modeling for geotechnical engineering applications such as the Discrete Element Method (DEM) for granular materials, nonlinear Finite Element Analysis (FEA) of seepage, coupled soil elastoplastic consolidation, elastoplasticity models for soil and rock, and advanced computational methods for failure in soil and rock. Uses DEM, FEA, and other software programs for analysis. Recommended Prereq: CVEN 5708
Additional Information: Departmental Category: Geotechnical

CVEN 5798 (3) Dynamics of Soils and Foundations
Covers fundamental characterization of soils, foundations and structures under general dynamic and earthquake loads. Principles of vibrations and wave propagation for 1D, 2D, 3D. In-situ and laboratory determination of dynamic soil properties; methods for site response analysis, foundation vibrations, dynamic soil-structure interaction and liquefaction problems.
Recommended: Prerequisite CVEN 3718.
Additional Information: Departmental Category: Geotechnical

CVEN 5818 (3) Geotechnical Earthquake Engineering
Familiarizes students with the fundamentals of engineering seismology, soil and structural dynamics, and the modern practice of geotechnical earthquake engineering. Focuses on describing earthquake hazards and methods for seismic analysis and design.
Recommended: Prerequisite CVEN 5798.
Additional Information: Departmental Category: Geotechnical

CVEN 5822 (3) Geographical Information Systems for Civil and Environmental Systems
Theory and use of geographical information systems in civil engineering, environmental studies, natural resources and other related disciplines. Topics include spatial data models, data capture, global positioning system, database linkage, use in design, analysis and implementation. Laboratory work includes applications of Arc-View and Arc-GIS software.
Additional Information: Departmental Category: Surveying and Transportation

CVEN 5830 (3) Special Topics for Seniors/Grads
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite CVEN 5798.
Additional Information: Departmental Category: Building Systems

CVEN 5831 (3) Special Topics
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite CVEN 5798.
Additional Information: Departmental Category: Environmental

CVEN 5833 (1-3) Special Topics
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite CVEN 5798.
Additional Information: Departmental Category: Environmental

CVEN 5834 (1-3) Special Topics
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite CVEN 5798.
Additional Information: Departmental Category: Environmental

CVEN 5835 (1-3) Special Topics for Seniors/Grads
Supervised study of special topics of interest to students under instructor guidance. Department consent required.
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite CVEN 5798.
Additional Information: Departmental Category: Environmental

CVEN 5836 (1-3) Special Topics for Seniors/Grads
Supervised study of special topics of interest to students under instructor guidance. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite CVEN 5798.
Additional Information: Departmental Category: Environmental

CVEN 5837 (3) Special Topics for Seniors/Grads
Supervised study of special topics of interest to students under instructor guidance. Department consent required.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite CVEN 5798.
Additional Information: Departmental Category: Environmental

CVEN 5838 (1-3) Special Topics
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite CVEN 5798.
Additional Information: Departmental Category: Environmental

CVEN 5839 (1-6) Independent Study
Available only through approval of graduate advisor. Subject arranged to fit needs of student.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite CVEN 5798.
Additional Information: Departmental Category: Environmental

CVEN 5919 (3) Sustainable Community Development 1
Focuses on the fundamental tools necessary to address sustainable community development projects in low-income communities (LICs). Topics include: human development, sustainable development, and presentation of an integrative and participatory framework for development projects in LICs. The framework consists of a combination of development and engineering project management tools. Framework is illustrated through case studies and student-driven team projects.
Recommended: Restricted to students with sub-plan of Engineering Developing Communities (EDC).
Additional Information: Departmental Category: Special Topics
CVEN 5929 (3) Sustainable Community Development 2
Covers the principles, practices and strategies of appropriate technology as part of an integrated and systems approach to community-based development. Course content areas include technical issues in development, environmental health and communicable disease, appropriate and sustainable technologies with hands-on workshops, and global cooperation in development.
Requisites: Requires prerequisite course of CVEN 5919 (minimum grade C-). Restricted to students with EDC Sub-Plan.
Additional Information: Departmental Category: Special Topics

CVEN 5939 (3) Sustainable Community Development Field Practicum
Provides a supervised in-field practicum experience in which the student applies theories and concepts learned in CVEN 5919 and CVEN 5929.
Requisites: Requires prerequisites courses of CVEN 5919 and CVEN 5929 (all minimum grade C-). Restricted to students with sub-plan of Engineering Developing Communities (EDC).
Additional Information: Departmental Category: Miscellaneous

CVEN 5969 (1-3) Water, Sanitation, and Hygiene
Studies the fundamentals behind effective hygiene and remediation processes and engineering solutions developed/designe for specific international problems. Approaches to hygiene, clean water and sanitation in lesser industrialized countries often demand alternative solutions to those developed for industrialized societies. Explores issues and solutions developed to tackle these problems.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites CVEN 3424 and CVEN 3414.
Additional Information: Departmental Category: Environmental

CVEN 6161 (3) Advanced Mechanics of Materials 2
Fundamentals of continuum mechanics, finite deformations, Lagrangian finite strains, Cauchy and Piola Kirchoff stress tensors, plasticity and thermo-elasticity, elements of damage mechanics, elements of fracture mechanics, rheological and viscoelastic theories, and modern experimental techniques.
Recommended: Prerequisite CVEN 5161.
Additional Information: Departmental Category: Mechanics

CVEN 6333 (3) Introduction to Multi-Scale Variability and Scaling in Hydrology
Provides a foundational physical understanding of channel networks, runoff, precipitation, and evapotranspiration at multiple spatial scales of drainage basins using modern analytical concepts for understanding non-linear phenomena, e.g., fractals, multifractals, statistical scaling, criticality, and renormalization.
Requisites: Requires a prerequisite course of CVEN 5333 (minimum grade C-).
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 6393 (1) Hydrologic Sciences and Water Resources Engineering Seminar
Provides a broad introduction to a variety of research topics from hydrologic sciences and water resources engineering. Offered as a one-hour weekly seminar by the departmental water faculty, graduate students, and external speakers.
Requisites: Restricted to graduate student Civil (CVEN) Engineering students only.
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 6414 (3) Aquatic Surfaces and Particles
Examines the role of surfaces and particles in the fate and transport of contaminants in the aquatic environment. Emphasizes modeling of absorption, dissolution, precipitation, surface-catalyzed reactions, and coagulation and filtration kinetics.
Requisites: Requires prerequisite course of CVEN 5404 or GEOL 5280 (minimum grade C-).
Additional Information: Departmental Category: Environmental

CVEN 6511 (3) Nonlinear Finite Element Analysis of Solids and Porous Media
Covers constitutive modeling, multiphase mechanics, and finite element implementation of constitutive models and coupled solid-fluid mechanical governing equations for inelastic porous media at small strain. Considers transient and steady state conditions. Analyzes structural, geotechnical, geological, mechanical, biomechanical, and other related modern engineering problems. Uses general purpose finite element software program for implementation and analysis.
Additional Information: Departmental Category: Mechanics

CVEN 6525 (3) Nonlinear Analysis of Framed Structures
Explores theoretical underpinnings of nonlinear static and dynamic analysis of framed structures, along with exposure to the corresponding programming techniques in Matlab. Topics covered are: flexibility and fiber based beam-column element formulation; structural, section and fiber plasticity; geometric and material nonlinearities; nonlinear pushover and transient analysis of framed structures.
Requisites: Requires prerequisite course of CVEN 5525 (minimum grade of C-). Restricted to graduate students only.
Additional Information: Departmental Category: Structures

CVEN 6595 (3) Earthquake Engineering
Analyzes and designs structures for earthquake load covering; properties of earthquake ground motions, ground motion prediction equations, seismic hazard analysis, response spectra, response of linear and nonlinear structures, construction of design spectra, seismic design methods, and building code requirements.
Requisites: Requires prerequisite course of CVEN 5111 (minimum grade of C-). Restricted to graduate students only.
Additional Information: Departmental Category: Structures

CVEN 6830 (3) Special Topics
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Building Systems

CVEN 6831 (3) Special Topics
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Mechanics
CVEN 6833 (1-3) Special Topics
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 6834 (1-3) Special Topics
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Environmental

CVEN 6835 (3) Special Topics
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Structures

CVEN 6836 (3) Special Topics
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Construction

CVEN 6837 (3) Sp Tpcs Comp Graphics
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Miscellaneous

CVEN 6838 (3) Special Topics
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Geotechnical

CVEN 6839 (1-3) Special Topics
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Special Topics

CVEN 6941 (1) Master’s Candidate for Degree
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 6942 (1) Master’s Candidate for Degree
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Environmental

CVEN 6943 (1) Master’s Candidate for Degree
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Special Topics

CVEN 6944 (1) Master’s Candidate for Degree
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Structures

CVEN 6945 (1) Master’s Candidate for Degree
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Construction

CVEN 6949 (1) Master’s Candidate for Degree
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Mechanics

CVEN 6951 (1-4) Master’s Thesis
Additional Information: Departmental Category: Mechanics

CVEN 6952 (1-4) Master’s Thesis
Additional Information: Departmental Category: Surveying and Transportation

CVEN 6953 (1-6) Master’s Thesis
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 6954 (1-6) Master’s Thesis
Additional Information: Departmental Category: Environmental

CVEN 6955 (1-6) Master’s Thesis
Additional Information: Departmental Category: Structures

CVEN 6956 (1-6) Master’s Thesis
Additional Information: Departmental Category: Construction

CVEN 6957 (1-4) Master’s Thesis
Additional Information: Departmental Category: Miscellaneous

CVEN 6958 (1-6) Master’s Thesis
Additional Information: Departmental Category: Geotechnical

CVEN 6959 (1-4) Master’s Thesis
Additional Information: Departmental Category: Special Topics

CVEN 6961 (1-3) Master’s Report
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Mechanics

CVEN 6962 (1-3) Master’s Report
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Surveying and Transportation

CVEN 6963 (1-3) Master’s Report
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 6964 (1-3) Master’s Report
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Environmental

CVEN 6965 (1-3) Master’s Report
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Structures

CVEN 6966 (1-3) Master’s Report
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Construction

CVEN 6967 (1-3) Master’s Report
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Miscellaneous

CVEN 6968 (1-3) Master’s Report
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Geotechnical

CVEN 6969 (1-3) Masters Report
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Special Topics

CVEN 7111 (3) Advanced Structural Dynamics
Includes general vibrations of civil engineering structures and their response to various types of time-dependent loads.
Requisites: Requires prerequisite course of CVEN 5111 (minimum grade C).
Additional Information: Departmental Category: Mechanics

CVEN 7141 (3) Plates and Shells
Teaches mathematical theories of plate and shell structures and their applications. Involves numerical finite element solutions of plates and shells of various shapes under static and dynamic loadings.
Requisites: Requires prerequisite courses of CVEN 5131 or CVEN 5161 (minimum grade C).
Additional Information: Departmental Category: Mechanics
CVEN 7161 (3) Fracture Mechanics
Includes three parts: 1) fundamentals through rigorous mathematical formulations of linear/nonlinear elastic fracture mechanics, 2) materials' theoretical strength, including metals, granular materials, polymers and steel, 3) numerical (finite element) methods in fracture mechanics. Heavy emphasis on project and independent work.
Additional Information: Departmental Category: Mechanics

CVEN 7511 (3) Computational Finite Inelasticity and Multiphase Mechanics
Recommended: Prerequisites CVEN 5131 and CVEN 5511 and CVEN 6511.
Additional Information: Departmental Category: Geotechnical

CVEN 7718 (3) Engineering Properties of Soils
Emphasizes engineering aspects of soil mechanics. Implications of soil strength, volume change, consolidation behavior in engineering problems such as slope stability, deformation of retaining walls, surface subsidence due to tunneling. Time effects in soil/long-term bearing capacity of piles. Laboratory determination of constitutive parameters of soils. Field tests/their correlations with soil properties. Case studies using finite element software.
Requisites: Requires prerequisite course of CVEN 5708 (minimum grade of C).
Additional Information: Departmental Category: Geotechnical

CVEN 7788 (3) Soil Behavior
Topics include soil mineralogy, formation of soils through sedimentary processes and weathering, determination of soil composition, soil water, colloidal phenomena in soils, fabric property relationships, analysis of mechanical behavior including compressibility, strength and deformation, and conduction phenomena in terms of physicochemical principles. Involves applications for stabilization and improvement of soils, and disposal of waste materials.
Recommended: Prerequisite CVEN 3718.
Additional Information: Departmental Category: Geotechnical

CVEN 7831 (1-3) Sp Tpc-Constitutive Mech
Repeatable: Repeatable for up to 10.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Mechanics

CVEN 7838 (3) Special Topics
Additional Information: Departmental Category: Geotechnical

CVEN 7849 (1-3) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Special Topics

CVEN 8991 (1-10) Doctor's Thesis
Additional Information: Departmental Category: Mechanics

CVEN 8992 (1-10) Doctor's Thesis
Additional Information: Departmental Category: Surveying and Transportation

CVEN 8993 (1-10) Doctor's Thesis
Additional Information: Departmental Category: Fluid Mechanics and Water Resources

CVEN 8994 (1-10) Doctor's Thesis
Additional Information: Departmental Category: Environmental

CVEN 8995 (1-10) Doctor's Thesis
Additional Information: Departmental Category: Structures

CVEN 8996 (1-10) Doctor's Thesis

Classical Greek Language (GREK)

Courses

GREK 1013 (4) Beginning Classical Greek 1
For students with no previous knowledge of Greek. Introduces basic grammar and vocabulary.
Additional Information: Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: Greek

GREK 1023 (4) Beginning Classical Greek 2
Completes the presentation of grammar and introduces reading of literature.
Recommended: Prerequisite GREK 1013.
Additional Information: Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: Greek

GREK 3013 (1) Readings in the Greek New Testament and Septuagint
Readings in ancient (koine) Greek from the New Testament and the Septuagint. Students aim to achieve fluency in reading and to enrich their knowledge of key terms and ideas borrowed from the Greek past in the early Christian tradition. Formerly CLAS 3013.
Repeatable: Repeatable for up to 4.00 total credit hours.
Recommended: Prerequisites GREK 1013 and GREK 1023.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Greek

GREK 3113 (3) Intermediate Classical Greek 1
Reading of selected prose texts of authors in ancient Greek such as Plato, Xenophon, Lysias, and selections from the Greek New Testament. Incorporates review of grammar.
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: Prerequisites GREK 1013 and GREK 1023.
Additional Information: Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: Greek
Repeatable:

GREK 3123 (3) Intermediate Classical Greek 2
Reading of selections from Homer or a Greek tragedy in ancient Greek, with attention to literary form and context as well as advanced grammar and syntax.
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: Prerequisites GREK 1013 and GREK 1023 and GREK 3113.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Greek

GREK 4013 (3) Topics in Greek Prose
Author or topic in ancient Greek specified in the online Schedule Planner (e.g., Thucydides, Herodotus, Plato, Aristotle, Attic Orators).
Equivalent - Duplicate Degree Credit Not Granted: GREK 5013
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Greek

GREK 4023 (3) Topics in Greek Poetry
Author or topic in ancient Greek specified in the online Schedule Planner (e.g., Homer, Hesiod, lyric poetry, tragedy, comedy).
Equivalent - Duplicate Degree Credit Not Granted: GREK 5023
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Greek

GREK 4093 (3) Survey of Greek Literature
Greek literary history in ancient Greek from Homer to the Hellenistic age.
Equivalent - Duplicate Degree Credit Not Granted: GREK 5093
Recommended: Prerequisites GREK 3113 and GREK 3123.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Greek

GREK 4843 (1-3) Independent Study
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Departmental Category: Greek

GREK 5013 (3) Topics in Greek Prose
Author or topic in ancient Greek specified in the online Schedule Planner (e.g., Thucydides, Herodotus, Plato, Aristotle, Attic Orators).
Equivalent - Duplicate Degree Credit Not Granted: GREK 4013
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Greek

GREK 5023 (3) Topics in Greek Poetry
Author or topic in ancient Greek specified in the online Schedule Planner (e.g., Homer, Hesiod, lyric poetry, tragedy, comedy).
Equivalent - Duplicate Degree Credit Not Granted: GREK 4023
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Greek

GREK 5093 (3) Survey of Greek Literature
Greek literary history in ancient Greek from Homer to the Hellenistic age.
Equivalent - Duplicate Degree Credit Not Granted: GREK 4093
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Greek

GREK 6003 (3) Graduate Reading
Author or topic specified in the online Schedule Planner.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Greek

GREK 6843 (1-3) Graduate Independent Study
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Greek

GREK 7013 (3) Graduate Seminar in Greek Literature
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Greek

CLAS 1010 (3) The Study of Words
Study of English words of Latin and Greek origin, focusing on etymological meaning by analysis of component parts (prefixes, bases, suffixes) and on the ways in which words have changed and developed semantically. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: LING 1010

CLAS 1020 (3) Argument from Evidence: Critical Writing about the Ancient World
Introduces students to writing about the ancient world, with special attention to the possibilities and the limitations of ancient source-material. Taught as a writing workshop, with emphasis on critical thinking, analysis, argument and inquiry. While the course reads foundational ancient texts, the skills acquired will be broadly useful among humanities disciplines.

CLAS 1030 (3) Introduction to Western Philosophy: Ancient
Develops three related themes: the emergence in antiquity of a peculiarly scientific mode of thinking; the place of religious belief within this developing scientific world view; and the force of ethical speculation within the culture and political climates of ancient Greece and Rome. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 1010

CLAS 1051 (3) The World of the Ancient Greeks
Surveys of the emergence, major accomplishments, failures and the decline of the ancient Greeks, from the Bronze Age civilizations of the Minoans and Mycenaeans through the Hellenistic Age (2000-30 B.C.). No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: HIST 1051
CLAS 1061 (3) The Rise and Fall of Ancient Rome
Surveys the rise of ancient Rome in the eighth century B.C. to its fall in the fifth century A.D. Emphasizes political institutions, foreign policy, leading personalities, and unique cultural accomplishments. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: HIST 1061
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Ancient History

CLAS 1071 (3) Ancient Sport and Spectacle
Surveys the development, evolution and impact of sport and spectacle in the Greco-Roman world through the deconstruction of games during the Christian era of the Roman Empire. Examines, among other relevant topics, games in the Homeric tradition, the development of the Greek Olympics and Roman spectacles including the circus, amphitheaters and gladiators.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

CLAS 1100 (3) Greek and Roman Mythology
Covers Greek and Roman myths as expressions of religious experience and imagination, of Greek and Roman culture and society, and as part of the fabric of Western cultural tradition. Of particular interest to students of literature and the arts, psychology, anthropology, and history. No Greek or Latin required.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Literature, Culture, and Thought

CLAS 1110 (3) Gods, Monsters and Mortals: Literature of Ancient Greece
Read about mythological heroes and historical individuals from Achilles to Socrates. Explore why Greek authors told stories the way they did and what those stories might have meant to them and might mean to us. Ancient texts in English translation.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Literature, Culture, and Thought

CLAS 1115 (3) Masterpieces of Greek Literature in Translation
Students read about mythological heroes and historical individuals from Achilles to Socrates in Greek literature. Class discusses why the Greeks told stories the way they did and what those stories might have meant to them and might mean to us.
Additional Information: Arts Sciences Honors Course
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Honors

CLAS 1120 (3) Power and Passion in Ancient Rome
Read about mythological heroes and historical individuals from Romulus to Catiline and the emperors Augustus and Nero. Explore why Roman authors told stories the way they did and what those stories might have meant and might mean to us. Ancient texts in English translation.
Additional Information: GT Pathways: GT-AH2 - Arts Hum: Lit Humanities
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Literature, Culture, and Thought

CLAS 1140 (3) Bread and Circuses: Society and Culture in the Roman World
Surveys the outstanding achievements of Roman culture and society as reflected in literature, philosophy and art; private and official religion; and legal and political thought. No Greek or Latin required.
Additional Information: GT Pathways: GT-AH2 - Arts Hum: Lit Humanities
Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Literature, Culture, and Thought

CLAS 1509 (3) Trash and Treasure, Temples and Tombs: Art and Archaeology of the Ancient World
Introduces the art and archaeology of ancient Egypt, Mesopotamia, Greece and Rome, examining various ancient approaches to power, religion, death and the human body. Analyzes art, architecture and everyday trash to learn about ancient humanity.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 1509
Requisites: Restricted to students with 0–56 credits (Freshmen or Sophomore) only.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Art and Archaeology

CLAS 2020 (3) Science in the Ancient World
Covers the development of scientific modes of thought, theory, and research from mythological origins (e.g., Hesiod’s poetry) through pre-Socratic philosophers. Culminates in theories and research of Plato and Aristotle, including the Roman Empire. Students read original sources in translation. No Greek or Latin required.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Literature, Culture, and Thought

CLAS 2029 (3) Art and Archaeology of Ancient Egypt
Introduces the art and archaeology of ancient Egypt, Mesopotamia, Greece and Rome, examining various ancient approaches to power, religion, death and the human body. Analyzes art, architecture and everyday trash to learn about ancient humanity.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 2029
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Art and Archaeology

CLAS 2039 (3) Greek Art and Archaeology
Covers prehistoric Aegean through the fourth century B.C.E., considering architecture, pottery, painting, sculpture and personal ornament. Societal customs such as use of space and burial patterns are considered as well as art and its uses, to help understand developments in Greek culture. Formerly CLAS 3039.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 2039
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Art and Archaeology

CLAS 2041 (3) War and Society in Ancient Greece
Studies Greek warfare in its cultural, social and economic contexts, in the light of anthropological comparisons and modern theories. No Greek or Latin required.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Ancient History
CLAS 2049 (3) Introduction to Roman Art and Architecture
Introduces the monuments and sites of the ancient Roman world from
the foundation of Rome (753 B.C.E.) to Constantine (306-307 C.E.).
Emphasizes the relationship of art, architecture, and artifacts to the
political, social, and religious institutions of Italy and the provinces.
Formerly CLAS 3049.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 2049
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Arts Humanities
Departmental Category: Art and Archaeology

CLAS 2100 (3) Gender and Sexuality in Ancient Greece
Examines evidence of art, archaeology, and literature of Greek antiquity
from a contemporary feminist point of view. Focuses on women’s roles in
art, literature, and daily life. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: WGST 2100
Additional Information: GT Pathways: GT-HI1 - History
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Literature, Culture, and Thought

CLAS 2110 (3) Gender and Sexuality in Ancient Rome
Uses art, archaeology, and literature to study, from a contemporary
feminist point of view, the status of women in works of Roman art and
literature, the development of attitudes expressed toward them, and their
daily life. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: WGST 2110
Additional Information: GT Pathways: GT-HI1 - History
Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Literature, Culture, and Thought

CLAS 2610 (3) Paganism to Christianity
Offers a cultural history of Greek and Roman religion. Students read
ancient texts in translation and use evidence from archaeology to
reconstruct the shift from paganism to Christianity in antiquity. No Greek
or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: RLST 2614
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Literature, Culture, and Thought

CLAS 3009 (3) Modern Issues, Ancient Times
Considers issues of vital importance to humans, both now and in ancient
times. Topics such as food, death, sex, family, literacy, or power are
explored to consider how ancient societal norms and attitudes evolved and
how they relate to modern culture. Draws on material and literary
evidence to develop an understanding of the complexities of ancient life.
Formerly CLAS 3009.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 3009
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple
enrollment in term.
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art and Archaeology

CLAS 3019 (3) Pompeii and the Cities of Vesuvius
Introduces the towns and villas buried by the eruption of Mt. Vesuvius in
79 C.E. Explores the layout and decoration of ancient Roman houses, the
variety of artifacts uncovered as evidence for daily life and the history of the
excavations.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 3019
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art and Archaeology

CLAS 3119 (3) The Archaeology of Death
Consider Death. It is a universal human phenomenon. Humans across
time and space have caused, planned for, reacted to, and carried out
death practices in extraordinarily different ways. Mortuary practice
provides a fascinating insight into human history and culture in both the
modern and ancient world.
Equivalent - Duplicate Degree Credit Not Granted: ANTH 3119
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Art and Archaeology

CLAS 3400 (3) Special Topics in Classics
Topics in Greek, Latin or Classical civilization.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple
enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Literature, Culture, and Thought

CLAS 4021 (3) Athens and Greek Democracy
Studies Greek history from 800 B.C. (the rise of the city-state) to 323
B.C. (the death of Alexander the Great). Emphasizes the development of
democracy in Athens. Readings are in the primary sources.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5021 and
HIST 4021
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Ancient History

CLAS 4031 (3) Alexander the Great and the Rise of Macedonia
Covers Macedonia’s rise to dominance in Greece under Philip II and the
reign and conquests of Alexander the Great.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5031 and
HIST 4031
Recommended: Prerequisite one of the following CLAS 1051, 1509, 2039,
2041, 4021, 4041, 4071, 4139, 4149, GREK 3113, HIST 1051.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Ancient History

CLAS 4040 (3) Seminar in Classical Antiquity
Examines an advanced topic in classical language, literature, history,
philosophy, art, or culture. Combines the techniques of philology with a
critical approach to the literary and material legacy of the past.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple
enrollment in term.
Recommended: Prerequisite second-year proficiency in Greek or Latin.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Literature, Culture, and Thought
CLAS 4041 (3) Classical Greek Political Thought
Studies main representatives of political philosophy in antiquity (Plato, Aristotle, Cicero) and of the most important concepts and values of ancient political thought. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5041 and HIST 4041 and PHIL 4210
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Ancient History

CLAS 4061 (3) Twilight of Antiquity
Explores the reasons for the fall of the Roman Empire in the western Mediterranean and its survival in the East as Byzantium. Emphasizes Christianity; barbarians; social, economic and cultural differences; contemporary views of Rome; and modern scholarship. No Greek or Latin is required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5061 and HIST 4061 and HIST 5061
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Ancient History

CLAS 4071 (3) Seminar in Ancient Social History
Considers topics ranging from demography, disease, family structure, and the organization of daily life to ancient slavery, economics, and law. Focuses either on Persia, Greece, or Rome and includes a particular emphasis on the methodology required to reconstruct an ancient society, especially the interpretation of problematic literary and material evidence and the selective use of comparisons with better known societies. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5071 and HIST 4071
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Ancient History

CLAS 4081 (3) The Roman Republic
Studies the Roman Republic from its foundation in 753 B.C. to its conclusion with the career of Augustus. Emphasizes the development of Roman Republican government. Readings are in the primary sources. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5081 and HIST 4081
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Ancient History

CLAS 4091 (3) The Roman Empire
Intense survey of Imperial Rome from the Roman revolution to the passing of centralized political authority in the western Mediterranean. Emphasizes life, letters and personalities of the empire. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5091 and HIST 4091
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Ancient History

CLAS 4099 (3) Ancient Greek Sculpture
Understanding that Greek sculpture, like all visual media, was part of the fabric of ancient Greek life and expressed the values of its creators and audience is a valuable way to gain insights into the social, economic, and political world of ancient Greece. This course will examine the work of Greek sculptors from the Archaic to the Hellenistic period. Key stylistic and technical developments, as well as significant works of art, sculptors and workshops will be discussed in detail. Some issues we will consider are the physical, religious and/or socio-historical context of individual freestanding sculptures and how specific sculptural programs illustrate aspects of Greek culture. Iconographic and narrative choices made by artists working in stone, compared to other material, will also be addressed.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5099, ARTH 4099 and ARTH 5099

CLAS 4101 (3) Greek and Roman Slavery
Surveys slavery in ancient Greece and Rome beginning with its growth, economics and political effects, moving to the life experiences of slaves, resistance and revolt, and finishing with the ideology of slavery. Focuses throughout on the challenge of understanding classical slavery on the basis of scattered and biased evidence and on the controversies that have surrounded this topic.
Equivalent - Duplicate Degree Credit Not Granted: HIST 4101
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Diversity-Global Perspective

CLAS 4109 (3) Ancient Italian Painting
Explores the problems, theories and methods for understanding the iconography, styles, topologies, contexts and techniques of fresco wall painting in ancient Italy from the 6th century B.C.E. to the 4th century C.E. Topics covered include Etruscan tomb paintings, late Republican and early imperial fresco paintings from Rome and Campania and later Roman wall paintings, including the painted images in ancient catacombs. Previous course work on ancient Italy or the history of pre-modern art is highly recommended.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5109 and ARTH 4109 and ARTH 5109
Recommended: Prerequisite CLAS 1509 or ARTH 1509 or CLAS 2049 or ARTH 2049.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art and Archaeology

CLAS 4110 (3) Greek and Roman Epic
Students read in English translation the major epics of Graeco-Roman antiquity such as the Iliad, Odyssey, Argonautica, Aeneid, and Metamorphoses. Topics discussed may include the nature of classical epic, its relation to the novel, and its legacy. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5110 and HUMN 4110
Additional Information: Arts Sci Core Curr: Literature and the Arts

CLAS 4119 (3) Roman Sculpture
Examines ancient Roman sculpture, emphasizing the display, iconography, and production of private and public monuments in the Roman Empire. Explores sculpture as evidence for historical developments, societal and gender attitudes, and state ideologies in the ancient Roman world.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5119 and ARTH 4119 and ARTH 5119
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Art and Archaeology
CLAS 4120 (3) Greek and Roman Tragedy
Intensive study of selected tragedies of Aeschylus, Sophocles, Euripides and Seneca in English translation. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5120 and HUMN 4120
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Literature, Culture, and Thought

CLAS 4129 (3) Aegean Art and Archaeology
Detailed study of the cultures of prehistoric Greece, the Cycladic Islands and Crete, their art and archaeology and their history within the broader context of the eastern Mediterranean, from earliest human settlement to the collapse of the Bronze Age at about 1100 B.C.E. Emphasis is on palace states.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5129 and ANTH 4129 and ANTH 5129 and ARTH 4129
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art and Archaeology

CLAS 4130 (3) Greek and Roman Comedy
Studies Aristophanes, Plautus, and Terence in English translation. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5130 and HUMN 4130
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Literature, Culture, and Thought

CLAS 4139 (3) Greek Vase Painting
A comprehensive overview of Greek vase painting, from prehistoric through the fourth century B.C.E. Emphasis is on learning the development of primary decorative styles and on refining skills of visual analysis, scholarly research, critical thinking, oral commentary and written presentation.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5139 and ARTH 4139 and ARTH 5139
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art and Archaeology

CLAS 4140 (3) The Greek and Roman Novel
Studies a number of complete Greek and Roman novels from Classical Antiquity and their predecessors and contemporary neighbors in the genres of Greek prose fiction. Ancient texts in English translation.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5140 and HUMN 4131
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Literature, Culture, and Thought

CLAS 4149 (3) Greek Cities and Sanctuaries
Examines Greek architecture in context, from the ninth century B.C.E. into the Hellenistic period, considering the use of space, both in religious and in civic settings and using texts as well as material culture. Emphasis is on developing analytical skills.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5149 and ARTH 4149
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art and Archaeology

CLAS 4169 (3) Topics in Ancient and Classical Art and Archaeology
In-depth consideration of an aspect of ancient Mediterranean culture. Topics vary and may include ancient wall painting, Greek sculpture, artists and patrons, the ancient Near East, Egyptian art and archaeology, or Etruscan art and archaeology.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5169 and ARTH 4169 and ARTH 5169
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art and Archaeology

CLAS 4199 (3) Roman Architecture
Examines the designs, functions and construction methods of ancient Roman towns, temples, baths, houses and civic structures, as well as utilitarian structures, including roads and aqueducts. Emphasizes Roman architectural forms and spaces as vehicles for political propaganda and empire consolidation.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5199 and ARTH 4199
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art and Archaeology

CLAS 4209 (6) Classical Archaeological Field Methods
Offers experiential learning in theories and methods of archaeological fieldwork in the western Argolid in Greece. Applies methods for extensive survey, stratigraphic excavation, GIS modeling, ceramic analysis, numismatic analysis, architectural studies, artifact and data processing and documentation. Offered abroad only.
Equivalent - Duplicate Degree Credit Not Granted: ARTH 4209 and CLAS 5209
Repeatable: Repeatable for up to 12.00 total credit hours.
Recommended: Prerequisites CLAS 1509 or ARTH 1509 or CLAS/ARTH 2039 or CLAS/ARTH 2049.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art and Archaeology

CLAS 4229 (3) Ancient Egyptian Art and Archaeology
Archaeology of ancient Egypt in light of recent excavations; the history of excavations of the different sites; and the art of ancient Egypt through time. Formerly ANTH 4420.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5229 and ARTH 4229 and ARTH 5229
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Art and Archaeology

CLAS 4269 (3) Art and Archaeology of the Ancient Near East
Examines civilizations of the Iran-Iraq region from the rise of urbanism in Mesopotamia through the era of the first 'world empire,' Achaemenid Persia. Emphasizes the material record of religious and state institutions of the ancient Near East, especially monuments that illustrate concepts of kingship. Explores notions of style, symbolism, visual rhetoric, text-image synthesis, patronage, creativity and roles of artists.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5269 and ARTH 4269 and ARTH 5269
Recommended: Prerequisite CLAS 1509 or ARTH 1509.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Art and Archaeology
Departmental Category: Asia Content
CLAS 4761 (3) Roman Law
Studies the constitutional and legal history of ancient Rome; emphasizes basic legal concepts and comparisons with American law. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 5761 and HIST 4761 and HIST 5761
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Ancient History

CLAS 4840 (1-4) Independent Study
No Greek or Latin required.
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Departmental Category: Literature, Culture, and Thought

CLAS 4849 (1-3) Independent Study
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Departmental Category: Art and Archaeology

CLAS 4852 (1-6) Honors Thesis
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Arts Sciences Honors Course Departmental Category: Classical Philology

CLAS 5021 (3) Athens and Greek Democracy
Studies Greek history from 800 B.C. (the rise of the city-state) to 323 B.C. (the death of Alexander the Great). Emphasizes the development of democracy in Athens. Readings are in the primary sources.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4021 and HIST 4021
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Ancient History

CLAS 5031 (3) Alexander the Great and the Rise of Macedonia
Covers Macedonia's rise to dominance in Greece under Philip II and the reign and conquests of Alexander the Great.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4031 and HIST 4031
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Ancient History

CLAS 5041 (3) Classical Greek Political Thought
Studies main representatives of political philosophy in antiquity (Plato, Aristotle, Cicero) and of the most important concepts and values of ancient political thought. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4041 and HIST 4041 and PHIL 4210
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Ancient History

CLAS 5061 (3) Twilight of Antiquity
Explores the reasons for the fall of the Roman Empire in the western Mediterranean and its survival in the East as Byzantium. Emphasizes Christianity, barbarians; social, economic and cultural differences; contemporary views of Rome; and modern scholarship. No Greek or Latin is required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4061 and HIST 4061 and HIST 5061
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Ancient History

CLAS 5071 (3) Seminar in Ancient Social History
Considers topics ranging from demography, disease, family structure, and the organization of daily life to ancient slavery, economics, and law. Focuses either on Persia, Greece, or Rome and includes a particular emphasis on the methodology required to reconstruct an ancient society, especially the interpretation of problematic literary and material evidence and the selective use of comparisons with better known societies. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4071 and HIST 4071
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Ancient History

CLAS 5081 (3) The Roman Republic
Studies the Roman Republic from its foundation in 753 B.C. to its conclusion with the career of Augustus. Emphasizes the development of Roman Republican government. Readings are in the primary sources. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4081 and HIST 4081
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Ancient History

CLAS 5091 (3) The Roman Empire
Intense survey of Imperial Rome from the Roman revolution to the passing of centralized political authority in the western Mediterranean. Emphasizes life, letters and personalities of the empire. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4091 and HIST 4091
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Ancient History

CLAS 5099 (3) Ancient Greek Sculpture
Understanding the Greek sculpture, like all visual media, was part of the fabric of ancient Greek life and expressed the values of its creators and audience is a valuable way to gain insights into the social, economic, and political world of ancient Greece. This course will examine the work of Greek sculptors from the Archaic to the Hellenistic period. Key stylistic and technical developments, as well as significant works of art, sculptors and workshops will be discussed in detail. Some issues we will consider are the physical, religious and/or socio-historical context of individual freestanding sculptures and how specific sculptural programs illustrate aspects of Greek culture. Iconographic and narrative choices made by artists working in stone, compared to other material, will also be addressed.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4099, ARTH 4099 and ARTH 5099
Grading Basis: Letter Grade

CLAS 5109 (3) Ancient Italian Painting
Explores the problems, theories and methods for understanding the iconography, styles, topologies, contexts and techniques of fresco wall painting in ancient Italy from the 6th century B.C.E. to the 4th century C.E. Topics covered include Etruscan tomb paintings, late Republican and early imperial fresco paintings from Rome and Campania and later Roman wall paintings, including the painted images in ancient catacombs. Previous coursework on ancient Italy or the history of pre-modern art is highly recommended.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4109 and ARTH 4109 and ARTH 5109
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art and Archaeology
CLAS 5110 (3) Greek and Roman Epic
Students read in English translation the major epics of Graeco-Roman antiquity such as the Iliad, Odyssey, Argonautica, Aeneid, and Metamorphoses. Topics discussed may include the nature of classical epic, its relation to the novel, and its legacy. No Greek or Latin required. Equivalent - Duplicate Degree Credit Not Granted: CLAS 4110 and HUMN 4110
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Literature, Culture, and Thought

CLAS 5119 (3) Roman Sculpture
Examines ancient Roman sculpture, emphasizing the display, iconography, and production of private and public monuments in the Roman Empire. Explores sculpture as evidence for historical developments, societal and gender attitudes, and state ideologies in the ancient Roman world. Equivalent - Duplicate Degree Credit Not Granted: CLAS 4119 and ARTH 4119 and ARTH 5119
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art and Archaeology

CLAS 5120 (3) Greek and Roman Tragedy
Intensive study of selected tragedies of Aeschylus, Sophocles, Euripides and Seneca in English translation. No Greek or Latin required. Equivalent - Duplicate Degree Credit Not Granted: CLAS 4120 and HUMN 4120
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Literature, Culture, and Thought

CLAS 5129 (3) Aegean Art and Archaeology
Detailed study of the cultures of prehistoric Greece, the Cycladic Islands and Crete, their art and archaeology and their history within the broader context of the eastern Mediterranean, from earliest human settlement to the collapse of the Bronze Age at about 1100 B.C.E. Emphasis is on palace states. Equivalent - Duplicate Degree Credit Not Granted: CLAS 4129 and ANTH 4129 and ANTH 5129 and ARTH 4129
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art and Archaeology

CLAS 5130 (3) Greek and Roman Comedy
Studies Aristophanes, Plautus, and Terence in English translation. No Greek or Latin required. Equivalent - Duplicate Degree Credit Not Granted: CLAS 4130 and HUMN 4130
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art and Archaeology

CLAS 5139 (3) Greek Vase Painting
A comprehensive overview of Greek vase painting, from prehistoric through the fourth century B.C.E. Emphasis is on learning the development of primary decorative styles and on refining skills of visual analysis, scholarly research, critical thinking, oral commentary and written presentation. Equivalent - Duplicate Degree Credit Not Granted: CLAS 4139 and ARTH 4139 and ARTH 5139
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art and Archaeology

CLAS 5140 (3) The Greek and Roman Novel
Studies a number of complete Greek and Roman novels from Classical Antiquity and their predecessors and contemporary neighbors in the genre of Greek prose fiction. Ancient texts in English translation. Equivalent - Duplicate Degree Credit Not Granted: CLAS 4140 and HUMN 4131
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Literature, Culture, and Thought

CLAS 5149 (3) Greek Cities and Sanctuaries
Examines Greek architecture in context, from the ninth century B.C.E. into the Hellenistic period, considering the use of space, both in religious and in civic settings and using texts as well as material culture. Emphasis is on developing analytical skills. Equivalent - Duplicate Degree Credit Not Granted: CLAS 4149 and ARTH 4149
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art and Archaeology

CLAS 5159 (3) Hellenistic Art and Archaeology
Examines art and archaeology from the period following the death of Alexander the Great (late fourth century B.C.E.) to the conquest of Greece by the Romans (middle second century B.C.E.). Equivalent - Duplicate Degree Credit Not Granted: ARTH 5159
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art and Archaeology

CLAS 5169 (3) Topics in Ancient and Classical Art and Archaeology
In-depth consideration of an aspect of ancient Mediterranean culture. Topics vary and may include ancient wall painting, Greek sculpture, artists and patrons, the ancient Near East, Egyptian art and archaeology, or Etruscan art and archaeology. Equivalent - Duplicate Degree Credit Not Granted: CLAS 4169 and ARTH 4169 and ARTH 5169
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art and Archaeology

CLAS 5179 (3) City of Athens
Explores in detail the buildings, sculptures, pots, foreign imports and society of Athens, considering material culture of individuals as much as civic programs. Emphasis is on ways the textual and archaeological evidence complement and/or contradict one another. Focuses on the Periclean period, considering ways in which it developed from earlier times and influenced later ones in Athens. Equivalent - Duplicate Degree Credit Not Granted: ARTH 5179
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art and Archaeology

CLAS 5189 (3) City of Rome
Explores in detail the architecture, sculptures, coins, frescoes and other material evidence alongside the political and social history of Augustan Rome. Emphasis is on ways in which the textual and archaeological evidence complement and/or contradict one another. Explores the impact of the early imperial period on later Roman phases of urban design and image making in the capital city. Equivalent - Duplicate Degree Credit Not Granted: ARTH 5189
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art and Archaeology
CLAS 5199 (3) Roman Architecture
Examines the designs, functions and construction methods of ancient Roman towns, temples, baths, houses and civic structures, as well as utilitarian structures including roads and aqueducts. Emphasizes Roman architectural forms and spaces as vehicles for political propaganda and empire consolidation.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4199 and ARTH 4199
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art and Archaeology

CLAS 5209 (6) Classical Archaeological Field Methods
Offers experiential learning in theories and methods of archaeological fieldwork in the western Argolid in Greece. Applies methods for extensive survey, stratigraphic excavation, GIS modeling, ceramic analysis, numismatic analysis, architectural studies, artifact and data processing and documentation. Offered abroad only.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4209 and ARTH 4209
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite CLAS 1509 or ARTH 1509 or CLAS 2049 or ARTH 2049.
Additional Information: Departmental Category: Art and Archaeology

CLAS 5229 (3) Ancient Egyptian Art and Archaeology
Archaeology of ancient Egypt in light of recent excavations; the history of excavations of the different sites; and the art of ancient Egypt through time. Formerly ANTH 5420.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4229 and ARTH 4229 and ARTH 5229
Additional Information: Departmental Category: Art and Archaeology

CLAS 5269 (3) Art and Archaeology of the Ancient Near East
Examines civilizations of the Iran-Iraq region from the rise of urbanism in Mesopotamia through the era of the first ‘world empire,’ Achaemenid Persia. Emphasizes the material record of religious and state institutions of the ancient Near East, especially monuments that illustrate concepts of kingship. Explores notions of style, symbolism, visual rhetoric, text-image synthesis, patronage, creativity and roles of artists.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4269 and ARTH 4269 and ARTH 5269
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art and Archaeology

CLAS 5761 (3) Roman Law
Studies the constitutional and legal history of ancient Rome; emphasizes basic legal concepts and comparisons with American law. No Greek or Latin required.
Equivalent - Duplicate Degree Credit Not Granted: CLAS 4761 and HIST 4761 and HIST 5761
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Asia Content

CLAS 5840 (1-3) Graduate Independent Study
No Greek or Latin required.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Ancient History

CLAS 6109 (3) Topics in Critical Theory and Ancient Art and Archaeology
Topics will vary and may focus on a particular approach to ancient material culture or on a particular time period or artifact category. Emphasis is placed on reading and using theory in considering the ancient world.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art and Archaeology

CLAS 6119 (1-3) Graduate Independent Study in Classical Art and Archaeology
Repeatable: Repeatable for up to 7.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art and Archaeology

CLAS 6952 (1-6) Master’s Thesis
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Classical Philology

CLAS 7011 (3) Seminar in Ancient History
Examines topics in ancient Greek and Roman history at an advanced seminar level.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Ancient History

CLAS 7012 (3) Graduate Seminar
Topic specified in online Schedule Planner.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Classical Philology

CLAS 7109 (3) Graduate Seminar in Ancient and Classical Art and Archaeology
Topics vary. Emphasis is on gaining expertise in using archaeological reports in tandem with (or contradiction to) textual sources, on reading and using critical theory, on improving analytical skills and discussion, and on honing discussion leadership abilities.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Art and Archaeology

CLAS 7840 (1-3) Graduate Independent Study
No Greek or Latin required.
Repeatable: Repeatable for up to 7.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Literature, Culture, and Thought

CLAS 8992 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Additional Information: Departmental Category: Classical Philology
College of Engineering and Applied Science (COEN)

Courses

COEN 1100 (3) Computer Tools for Creative Problem Solving
Introduces students to computing tools used to solve real world math and science problems. Students will utilize a spreadsheet environment and a common programming language to solve a variety of intriguing problems. This purely online course is intended primarily for those with very little computing skills.
Recommended: Prereqs: one year of high school algebra and one year of geometry.
Grading Basis: Letter Grade

COEN 1236 (1) Precalculus Work Group
Develops and enhances problem solving skills for students enrolled in APPM 1235. Course is conducted in a collaborative learning environment with students working in groups under the guide of a facilitator.
Requisites: Requires enrollment in corequisite course of APPM 1235.
Grading Basis: Pass/Fail

COEN 1350 (1) Calculus 1 Work Group
Provides problem-solving assistance to students enrolled in APPM 1350. Student groups work in collaborative learning environment. Student participation is essential.
Repeatable: Repeatablable for up to 2.00 total credit hours.
Requisites: Requires enrollment in corequisite course of APPM 1350 or APPM 1345.
Grading Basis: Pass/Fail

COEN 1360 (1) Calculus 2 Work Group
Provides problem solving assistance for students enrolled in APPM 1360. Conducted in a collaborative learning environment. Student work groups solve calculus problems with assistance of facilitator.
Requisites: Requires enrollment in corequisite course of APPM 1360.
Grading Basis: Pass/Fail

COEN 1400 (3) Project Design
Teams of first-year students solve real engineering design problems. Curriculum focuses on an iterative design process, teamwork, analysis, and technical writing.
Requisites: Restricted to students with 0-75 units completed and restricted to Pre-Engineering (PREE) students only.

COEN 1500 (1) Introduction to Engineering
Provides an introduction to the engineering profession, including an examination of current discipline specializations and a focus on career paths for those trained in engineering. Provides sufficient knowledge of the engineering disciplines necessary to make an informed major choice.
Requisites: Restricted to students with 0-56 (Freshmen or Sophomore) College of Engineering or Pre-Engineering Arts and Sciences majors only.

COEN 1510 (1) Self Management and Leadership Principles 1
Prepares first-year students for personal and academic success in their transition to college. Focuses on academic success strategies, time and stress management, study skills, S.M.A.R.T. goal setting and developing self-awareness. Students identify their strengths and participate in peer-to-peer interaction to foster collaboration and community. Students will also explore leadership capabilities, professional development, and insights into career interests. Speakers provide students with unique insights into academic and engineering experiences.
Requisites: Restricted to Engineering Goldshirt (PENG) students only.

COEN 1520 (1) Self Management and Leadership Principles 2
Continuation of COEN 1510. Self-management and student development is reiterated. Includes time and stress management, study skills and S.M.A.R.T. goal setting. Leadership skills are explored through group projects. Students complete professional development activities and assignments geared toward preparing students for engineering internships and research opportunities.
Requisites: Requires prerequisite course of COEN 1510 (minimum grade C). Restricted to Engineering Goldshirt (PENG) students only.

COEN 1550 (1) YOU'RE@CU: Undergraduate Career Seminar
Exposes first or second year undergraduate students to engineering research careers through a partner program (YOU'RE@CU), panel discussions with researchers in academics and industry, and exposure to research labs. Restricted to YOU'RE@CU participants. Department consent required.
Grading Basis: Pass/Fail

COEN 1830 (1) Special Topics: Engineering First-Year Symposium
Explores topics of interest in transitioning to the College of Engineering and succeeding in STEM majors.
Requisites: Restricted to freshmen College of Engineering and Pre-Engineering majors only.

COEN 2350 (1) Calculus 3 Work Group
Provides problem solving assistance to students enrolled in APPM 2350. Conducted in a collaborative learning environment. Student work groups solve calculus problems with the assistance of a facilitator.
Requisites: Requires enrollment in corequisite course of APPM 2350.
Grading Basis: Pass/Fail

COEN 2500 (1) Industry 101: Technical Career and Professional Development
Connects students to the world of technical work, helping them gain an understanding of themselves and develop a unique, professional identity. Knowledge will be gained about how to research various industries and how to make an informed decision about career paths. Structured lessons will be incorporated that will cover resumes, interview preparation, communication skills, proper professional etiquette and employer expectations, self-exploration and connections with industries.
Grading Basis: Letter Grade

COEN 2830 (1-3) Special Topics
Explores topics of interest in engineering. Content varies by instructor and semester.
Repeatable: Repeatablable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.

COEN 2850 (1-3) Independent Study
Provides opportunities for independent study at the lower-division undergraduate level. Subject and/or project agreed upon by the student and the instructor to fit the needs of the student.
Repeatable: Repeatablable for up to 6.00 total credit hours.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.
COEN 3051 (2) Leadership Seminar 1: Launching the Leadership Experience
Practicing needs assessment, decision-making and planning skills, students take this seminar to prepare for their Leadership Experience (required for completion of the Engineering Leadership Certificate). Students work in collaboration with each other, their Engineering Leadership Program mentors and campus/community organizations and leaders to lay the foundation for and launch their individually unique Leadership Experiences.
Requisites: Requires a prerequisite course of COEN 2050 (minimum grade C-). Restricted to Engineering Leadership Program (PENL) students only.
Grading Basis: Letter Grade

COEN 3052 (2) Leadership Seminar 2: Leadership Experience
Tackling a leadership experience of their own design, students undertake a key component of the Engineering Leadership Program experience and a requirement for the completion of the Engineering Leadership Certificate. Guides students through a process of planning, executing and evaluating their leadership experience and progress toward personalized leadership development goals. Coursework involves working with a mentor, collaborating with peers and conducting research.
Requisites: Requires a prerequisite course of COEN 2050 (minimum grade D-). Restricted to Engineering Leadership Program (PENL) students only.
Grading Basis: Letter Grade

COEN 3053 (2) Leadership Seminar 3: ELP Synthesis and Final ePortfolio
Progressing through this course, students complete the ePortfolio that demonstrates fulfillment of the requirements of the Engineering Leadership Certificate, reflecting upon synthesizing and discerning practical applications of the leadership experiences tackled throughout throughout their time at CU.
Requisites: Restricted to Engineering Leadership Program (PENL) students only.
Grading Basis: Letter Grade

COEN 3210 (3) Climate Change and Engineering
Explores the fundamentals of climate change science, but from an engineering perspective. After learning the fundamentals, the relationship between climate change and different engineering disciplines will be discussed. Topics covered include geoengineering, renewable energy, sustainable engineering, coastal engineering, building design, etc. Career options and entrepreneurial opportunities will also be discussed.
Requisites: Requires prerequisite courses of PHYS 1110 and APPM 1350 (minimum grade D-).
Grading Basis: Letter Grade

COEN 3930 (3-6) Engineering Internship/Co-op
Students enrolled in this course participate in a pre-approved internship or cooperative education program with an employer that allows them to explore the relationship between theory and practice and demonstrate evidence of significant learning (e.g., academic assignments and employer/sponsor evaluations). Pass/Fail only. Up to 3 credits may apply towards BS degree program’s Free Electives (even if student has multiple enrollments in this course and/or COEN 4950). Students should contact the CEAS Extracurricular Programs Manager for more information. Minimum 2.75 cumulative GPA is required.
Repeatable: Repeatable for up to 24.00 total credit hours.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.
Grading Basis: Pass/Fail

COEN 4000 (1-3) Global Intensive Studies
Provides a hands-on exploration of a particular engineering/applied science subject area in an overseas setting. Serves as a complement to an existing engineering or applied science course taught at CU. Topic areas will vary.
Repeatable: Repeatable for up to 6.00 total credit hours.

COEN 4830 (1-3) Special Topics
Explores topics of interest in engineering. Content varies by instructor and semester.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.

COEN 4850 (1-3) Independent Study
Provides opportunities for independent study at the upper-division undergraduate level. Subject and/or project agreed upon by the student and the instructor to fit the needs of the student.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.

COEN 4950 (1-6) Global Engineering Internship
Students enrolled in this course participate in a pre-approved global internship with an employer that allows them to explore the relationship between theory and practice and demonstrate evidence of significant learning (e.g., academic assignments and employer/sponsor evaluations). Pass/Fail only. Up to 3 credits may apply towards BS degree program’s Free Electives (even if student has multiple enrollments in this course and/or COEN 3930). Students may also earn COEN 4950 credit for international internship facilitated through CU-approved providers that contract with CU’s Education Abroad Office. These placements must be pre-approved by the student’s department program to be eligible for credit. Students should contact the CEAS International Programs Director for more information. Minimum 2.75 cumulative GPA required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.
Grading Basis: Pass/Fail

COEN 5000 (1-3) Global Intensive Studies
Provides a hands-on exploration of a particular engineering/applied science subject area in an overseas setting. Serves as a complement to an existing engineering or applied science course taught at CU. Topic areas will vary.
Repeatable: Repeatable for up to 6.00 total credit hours.

COEN 5830 (1-6) Special Topics
Explores topics of interest in engineering. Content varies by instructor and semester. May be repeated for up to 9 total credit hours.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to College of Engineering graduate students only.
Grading Basis: Letter Grade
College of Media, Communication & Information (CMCI)

Courses

CMCI 1000 (1-3) Special Introductory Topics in CMCI
Investigates special introductory topics in media, communication and information.
**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
**Grading Basis:** Letter Grade

CMCI 1010 (4) Concepts and Creativity 1: Media, Communication, Information
Engages key principles and practices in the fields of media, communication and information. Emphasizes the analyses of new and old media, information technologies, verbal and visual literacies, communicative interactions and cultural practices through process-based learning and hands-on projects utilizing multiple modes of expression. First course in two semester sequence required for all first-year CMCI students. Requires a grade of C- or better to count toward degree.
**Requisites:** Restricted to College of Media, Communication, and Information (CMCI) undergraduate students only.

CMCI 1020 (4) Concepts and Creativity 2: Media, Communication, Information
Engages key principles and practices in the fields of media, communication and information. Emphasizes the analyses of new and old media, information technologies, verbal and visual literacies, communicative interactions and cultural practices through process-based learning and hands-on projects utilizing multiple modes of expression. Two semester sequence required for all CMCI students; 4 credit hours each semester.
**Requisites:** Requires prerequisite course of CMCI 1010 (minimum grade C-). Restricted to College of Media, Communication, and Information (CMCI) undergraduate students only.

CMCI 2001 (2) Introduction to Sports Media Practices
Introduces students to the practices and responsibilities of producing sports-focused content across a variety of industries and media forms. Students will learn best practices involved in the art of storytelling utilizing text, video, audio, social media and more. The class provides a framework for how to produce sports content in line with the demands and intents of various media industries.
**Requisites:** Restricted to non-CMCI students.
**Grading Basis:** Letter Grade

CMCI 2030 (4) Becoming CMCI: Thinking Across Disciplines
Engages key principles and practices in the fields of media, communication and information. Emphasizes the analyses of new and old media, information technologies, verbal and visual literacies, communicative interactions and cultural practices through process-based learning and hands-on projects utilizing multiple modes of expression. Accelerated, one-semester version of the introductory CMCI course for transfer students to CMCI. Formerly CMCI 1030. Requires a grade of C- or better to count toward degree.
**Requisites:** Restricted to College of Media, Communication, and Information (CMCI) undergraduate students only.
**Grading Basis:** Letter Grade

CMCI 3000 (1-3) Special Topics in CMCI
Investigates special topics in media, communication and information at the upper-division level.
**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
**Grading Basis:** Letter Grade

CMCI 3910 (1-6) CMCI Practicum
Provides students with hands-on experience working on media and communication campaigns for the college of programs within the college. Students are selected based on prior experience and ability to work in a collaborative manner on a range of projects.
**Repeatable:** Repeatable for up to 6.00 total credit hours.
**Requisites:** Restricted to College of Media, Communication, and Information (CMCI) undergraduate students only.
**Grading Basis:** Letter Grade

CMCI 4841 (1-4) Undergraduate Independent Study
**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

CMCI 4931 (1-6) Internship
**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

CMCI 6311 (3) Freedom of Expression
Studies free-speech issues in the context of current and historical philosophical foundations for freedom of expression.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Core Curriculum and General Electives

CMCI 6331 (3) Political Communication
Explores the relationships involving media and politics. Incorporates normative and empirical perspectives on the media-politics complex. Areas covered include media effects on public opinion and policy, uses of media in governance, journalism sociology, coverage of elections, and implications of interactive media for governance and civic participation.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Core Curriculum and General Electives

CMCI 6661 (3) Media Ethics and Responsibility
Develops a theoretical framework with which to recognize and analyze ethical issues as they arise in the media.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Core Curriculum and General Electives

CMCI 6861 (3) Visual Communication
Visual communication involves understanding both perception of messages and construction of them. Students analyze their visual thinking abilities and develop habits of visual analysis and criticism, as well as visual communication skills.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Core Curriculum and General Electives

CMCI 6871 (3) Special Topics
**Repeatable:** Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
**Requisites:** Restricted to graduate students only.

CMCI 7841 (1-3) Independent Study
**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
**Requisites:** Restricted to graduate students only.
CMCI 7871 (3) Special Topics
Repeateable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
CMCI 8991 (1-10) Doctoral Dissertation
Repeateable: Repeatable for up to 40.00 total credit hours.
Requisites: Restricted to graduate students only.

Communication (COMM)

Courses
COMM 1210 (3) Perspectives on Human Communication
Surveys communication in a variety of contexts and applications. Topics include basic concepts and general models of communication, ethics, language and nonverbal communication, personal relationships, group decision making, organizational communication, and impact of technological developments on communication. Required for COMM majors.
Additional Information: Arts Sci Core Curr: Contemporary Societies
ARTS Sci Gen Ed: Distribution-Social Sciences
MAPS Course: Social Science

COMM 1300 (3) Public Speaking
Covers theory and skills of speaking in various public settings. Examines fundamental principles from rhetorical and communication theory and applies them to oral presentations. Required for COMM or COMM majors.

COMM 1600 (3) Group Interaction
Covers basic theories, concepts, and characteristics that underlie face-to-face interactions in interpersonal, small group, and organizational settings. Activities stress the development of both task and relational skills in these settings. Required for COMM or COMM majors.

COMM 2000 (3) Topics in Communication
Investigates select topics in communication. Does not count toward the 2000-level courses required for the major, unless explicitly stated in the course schedule.
Repeateable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisites COMM 1210 and COMM 1600.

COMM 2320 (3) The Craft of Argument
Focuses on principles of argument, the process of critical decision making, and uses and limitations of logic and evidence. Contemporary issues (personal, social, political, or philosophical) are analyzed. Formerly COMM 3310.

COMM 2400 (3) Discourse, Culture and Identities
Examines how aspects of talk (e.g., turn-taking, speech acts, narratives, dialect, and stance indicators) link with identities (e.g., ethnic and racial, age, gender, work-related, and personal). Considers how communication is central to constructing who people are and examines social controversies related to talk and identities.
ARTS Sci Core Curr: Human Diversity
ARTS Sci Gen Ed: Diversity-U.S. Perspective
ARTS Sci Gen Ed: Distribution-Social Sciences

COMM 2500 (3) Interpersonal Communication
Focuses on basic processes in face-to-face interaction, including verbal and nonverbal messages, coordination in conversation, messages about self and others, and communication in personal relationships. Emphasizes theory and concepts rather than skills.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisites COMM 1210 and COMM 1600.

COMM 2650 (3) Business and Professional Communication
Develops knowledge of concepts and skills required for successful participation in contemporary workplace communication. Focuses on communication processes associated with contexts such as sales, leadership, diversity, teamwork, customer service, and conflict. Facilitates students conduct of self-assessment, networking, interviewing, and other career-development strategies. Provides students training in informative and persuasive business presentations.
Recommended: Prerequisites COMM 1300 and COMM 1600.
Grading Basis: Letter Grade

COMM 3000 (3) Issues in Communication
Explores select issues in communication.
Repeateable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites COMM 1210 and COMM 1600.

COMM 3210 (3) Human Communication Theory
Acquaints students with general, thematic, and contextual theories of human communication. Gives attention to criteria for evaluating theories.
Requisites: Requires prerequisite courses of COMM 1210 and COMM 1600 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Communication (COMM or COMN) majors or minors only.

COMM 3300 (3) Rhetorical Foundations of Communication
Provides the rhetorical foundations of communication through study of the humanistic traditions of rhetorical theory, with applications to social interaction and message analysis.
Requisites: Requires prerequisite courses of COMM 1210 and COMM 1600 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Communication (COMM or COMN) majors or minors only.

COMM 3320 (3) Persuasion in Society
Learn personal and professional skills to become more persuasive in a variety of communication contexts, and develop a broader and more critical understanding of the culture of persuasion that pervades all aspects of society.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors). Requires prerequisite of COMM 1210 and COMM 1600 (all minimum grade C-).

COMM 3330 (3) Social Movements
Introduces concepts in rhetoric and argumentation that are used to explain significant social and political changes in our society. The goal is to show how social actors use rhetoric to promote some social goals and hinder others. Formerly COMM 2360.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites COMM 1210 and COMM 1600.
COMM 3340 (3) Political Communication
Provides an overview of the role of communication in contemporary political life. Topics include political communication theories, political campaign communication, media and political communication, and the role of political communication in promoting democracy and public policy.
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).
**Recommended:** Prerequisites COMM 1210 and COMM 1600.
**Grading Basis:** Letter Grade

COMM 3370 (3) Environmental Communication
Introduces the growing field of environmental communication, including historical events, key concepts, legal landmarks, technological developments and public controversies at the intersection of the environment, economics and social justice. Focuses on persuasive communication in the public sphere, as well as the constitutive power of communication to name and redefine what has been and might become possible in our environmental imaginations.
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).
**Grading Basis:** Letter Grade

COMM 3380 (3) Communication, Technology, and Society
Presents theory, research, and exploration into computer-based technologies; studies implications for communication, interaction, and social relationships.
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).
**Recommended:** Prerequisites COMM 1210 and COMM 1600.
**Grading Basis:** Letter Grade

COMM 3390 (3) Advanced Teamwork and Collaboration
Explores communication and collaboration complex situations (e.g., extreme environments e.g., space travel; cross sector collaborations). It reviews and applies key processes of team/group communication and collaboration to the context of interest (e.g., extreme teams; cross sector collaborations) to identify communication issues and interventions relevant in complex organizing or dangerous situations.
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).
**Grading Basis:** Letter Grade

COMM 3410 (3) Intercultural Communication
Explores complex relationships between culture and communication processes from various conceptual perspectives. Considers the important role of context (e.g., social, historical, and cultural) in intercultural interactions. Recommended Prerequisites: COMM 1210 and COMM 1600.
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).
**Grading Basis:** Letter Grade

COMM 3420 (3) Gender and Communication
Examines gender as a social practice that remains vital to identities, relationships, and institutions in contemporary society. Treats gender as something we do or enact through communication, rather than as something we are or have, and explores the implications of this shift in perspective. Investigates how gender interacts with sexuality, race, class, nation, age, ability, and other aspects of identity.
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).
**Additional Information:** Arts Sci Gen Ed: Diversity-U.S. Perspective
**Arts Sci Gen Ed:** Distribution-Social Sciences

COMM 3430 (3) Communication, Culture and Sport
Examines the communicative, historical and cultural aspects of sport in contemporary American society including the intersections of power, gender/sexuality, race and class.
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).
**Grading Basis:** Letter Grade

COMM 3450 (3) Family Communication
Explores communication in families from various theoretical perspectives, such as social constructionism, systems theory, and dialectical theory. Communication patterns and processes created and sustained by family members are examined, including rules, roles, stories, rituals, myths, metaphors, themes, and cycles.
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).
**Recommended:** Prerequisites COMM 1210 and COMM 1600.

COMM 3460 (3) Communication and Conflict Management
Provides a communicatively based definition of formal organization and deals with individual-organizational relationships. Addresses topics such as organizational theory, organizational culture, power, technology, decision making, teamwork, leadership, diversity, gender, socialization, and ethics.
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).
**Recommended:** Prerequisites COMM 1210 and COMM 1600.
**Grading Basis:** Letter Grade

COMM 3470 (3) Communication and Conflict Management
Examines interdisciplinary concepts and theories enabling students to better understand different types of conflict, sources of conflict, and communication patterns that serve to create, maintain and transform conflict. Teaches practical skills in conflict management areas such as bargaining, facilitation, mediation and negotiation.
**Equivalent - Duplicate Degree Credit Not Granted:** PACS 3700
**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

COMM 3480 (3) Qualitative Communication Research Methods
Provides an understanding of methods associated with the study of communication in natural settings. Focuses on strategies of collecting, analyzing, and reporting qualitative data, including participant observation, in-depth interviewing, textual analysis, and ethnographic narrative.
**Requisites:** Restricted to students with 57-180 credits (Junior or Senior)
**Recommended:** Prerequisites COMM 1210 and COMM 1600.
**Grading Basis:** Letter Grade

COMM 3490 (3) Quantitative Research Methods
Introduces empirically oriented research methods in communication, critical review of the logic of social-scientific principles in communication, and analysis of quantitative data.
**Requisites:** Restricted to students with 57-180 credits (Junior or Senior)
**Recommended:** Prerequisites COMM 1210 and COMM 1600.
COMM 3760 (3) Rhetorical Criticism
Applies key concepts from rhetorical theory to the analysis of specific speeches, written texts, and social situations within the humanistic tradition. Students read a variety of types of criticism and are encouraged to develop their own strategies for critical analysis.

Requisites: Restricted to students with 57-180 credits (Junior or Senior) Communication (COMM or COMN) majors or minors only.
Recommended: Prerequisites COMM 1210 and COMM 1600 and COMM 3300.

COMM 4000 (1-6) Advanced Topics in Communication
Analyzes special interest areas of communication theory, research, and practice. Course format involves lecture, discussion, investigative analysis, and practical application. May be repeated twice for credit on different topics.

Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.

Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites COMM 3210 and COMM 3300.

COMM 4100 (3) Seminar in Honors Thesis Writing and Research
Provides the opportunity for students writing an honors thesis to develop their understanding of the research process and to improve their research and writing skills.

Requisites: Restricted to students with 80-180 credits (Senior) Communication (COMM or COMN) majors only.
Additional Information: Arts Sciences Honors Course

COMM 4220 (3) Senior Seminar: Functions of Communication
Topical seminar on the functions of communication across interpersonal, group, organizational, and public contexts. Reviews current theory and research on topics such as communication and conflict, persuasion, and ethical dimensions of communication practices.

Equivalent - Duplicate Degree Credit Not Granted: COMM 5220
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Requisites: Requires prerequisite course of COMM 3210 (minimum grade C). Restricted to students with 80-180 credits (Senior) Communication (COMM or COMN) majors only.

COMM 4300 (3) Senior Seminar: Rhetoric
Reviews current theory and research on rhetoric and culture.

Requisites: Requires prerequisite course of COMM 3300 (minimum grade C). Restricted to students with 80-180 credits (Senior) Communication (COMM or COMN) majors only.
Grading Basis: Letter Grade

COMM 4510 (3) Senior Seminar: Interpersonal Communication
Reviews current theory and research on topics such as strategic interaction, relationship formation and maintenance, and identity and self-presentation. May be taken twice for credit on different topics.

Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Requisites: Requires prerequisite course of COMM 3210 (minimum grade C). Restricted to students with 80-180 credits (Senior) Communication (COMM or COMN) majors only.

COMM 4600 (3) Seminar: Organizational Communication
Reviews current theory and research on topics such as communication and organizational decision making, organizational culture, gender relations, communication technology, and power and control in organizations.

Equivalent - Duplicate Degree Credit Not Granted: COMM 5600
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Requisites: Requires prerequisite course of COMM 3210 (minimum grade C). Restricted to students with 80-180 credits (Senior) Communication (COMM or COMN) majors only.

COMM 4610 (3) Senior Seminar: Communication Studies of Science and Technology
Reviews current theory and research associated with science, technology, and medicine. Topics include new communication technologies in organizations and society, discourses of scientific theory and science policy, and interaction in clinical setting. May be taken twice for credit on different topics.

Requisites: Requires prerequisite course of COMM 3210 (minimum grade C). Restricted to students with 80-180 credits (Senior) Communication (COMM or COMN) majors only.

COMM 4840 (1-6) Undergraduate Independent Study
Note that the 14-hour limit in the major applies to any combination of independent study and internship credit. This course does not count toward the 33 credit hours required for the major.

Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Requisites: Restricted to students with 57-180 credits (Junior or Senior) Communication (COMM or COMN) majors only.
Recommended: Prerequisites COMM 3210 and COMM 3300.

COMM 4930 (1-6) Internship
Studies are pursued in communication-related work experience projects that generally require 40 hours on the job per credit hour and evidence (e.g., journal, paper and employer evaluation) of significant learning. The 14-hour limit in the major applies to any combination of independent study and internship credit and does not count toward the 33 hours required for the major.

Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Requisites: Restricted to students with 57-180 credits (Junior or Senior) Communication (COMM or COMN) majors only.
Recommended: Requires 2.5 or higher cumulative GPA

Recommended: Prerequisite 57 hours of overall course work, 18 hours of communication course work completed, 2.50 overall GPA and a faculty sponsor.

Grading Basis: Pass/Fail

COMM 4950 (1-6) Senior Thesis: Honors
For exceptional communication majors who wish to graduate with department honors and receive credit for writing an honors thesis.

Repeatable: Repeatable for up to 6.00 total credit hours.

Recommended: Prerequisite COMM 4100 and overall GPA of 3.35 or higher and a COMM or COMN GPA of 3.50 or higher.
Additional Information: Arts Sciences Honors Course
COMM 5000 (3) Organizational Culture
Focuses on theory and practice associated with the successful development of organizational culture. Topics covered include symbolic artifacts, beliefs, and assumptions that distinguish organizational, corporate, and occupational/professional identities. Related coverage of the communication practices (e.g., performance, ritual, etc.) through which the cultural elements of organizing are created, maintained and transformed. Special emphasis placed on issues of cultural leadership, cultural control, and cultural change in the contexts of contemporary globalization and technological innovation.
Requisites: Restricted to Organizational Leadership (ORGL-MS) students only.
Grading Basis: Letter Grade

COMM 5210 (3) Readings in Communication Theory
Critical overview of leading theoretical traditions in communication studies. Gives attention to metatheoretical issues, including epistemological foundations, the structure of communication theory as a field, and reflexivity between communication theory and cultural practice. Required for doctoral students in communication; optional for master’s students.
Requisites: Restricted to graduate students only.

COMM 5220 (3) Seminar: Functions of Communication
Topical seminar on the functions of communication across interpersonal, group, organizational, and public contexts. Reviews current theory and research on topics such as communication and conflict, persuasion, and ethical dimensions of communication practices.
Equivalent - Duplicate Degree Credit Not Granted: COMM 4220
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

COMM 5225 (3) Environmental Communication
Investigates key concepts in environmental communication and considers which theoretical frameworks and practical actions can inform the effects of various constituents to address environmental issues.

COMM 5230 (3) Applied Communication
Examines the study of applications of communication concepts, theories, methods, interventions, and other practices to address real-world issues and problems. Discusses conceptual issues framing applied communication, examines purposes and methods informing such scholarship, and provides opportunity to evaluate and propose research.
Requisites: Restricted to graduate students only.

COMM 5300 (3) Seminar: Rhetoric
Reviews current theory and research on topics such as rhetoric and publics, rhetoric as an interpretive social science, and rhetoric of social movements and political campaigns.
Equivalent - Duplicate Degree Credit Not Granted: COMM 4300
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

COMM 5310 (3) Contemporary Rhetorical Criticism
Advanced critical analysis of rhetorical texts in terms of how they shape issues and appeals for judgment, create identities for speakers and their audiences, and construct perceptions of time, space, and the human condition.
Requisites: Restricted to graduate students only.

COMM 5320 (3) Readings in Rhetoric
Survey of classical and contemporary readings in rhetoric. Required for doctoral students in communication; optional for master’s students.
Requisites: Restricted to graduate students only.

COMM 5425 (3) Readings in Discourse and Social Practices
Examines the way communicators’ discourse expressions (language, talk, interactional devices, semiotic practices, written texts) reflect and construct interpersonal exchanges, societal activities, and institutional scenes, as well as how discourse expression varies across different speech communities.
Requisites: Restricted to graduate students only.

COMM 5435 (3) Readings in Community and Social Interaction
Focuses on how everyday communication practices shape and are shaped by community contexts. Contains theoretical and empirical readings that illustrate how interactions among group members negotiate and maintain distinct communities and how group communication practices reflect shared norms among community members. Also reviews methods to study everyday interactions among community members (e.g., discourse analysis, qualitative coding, surveys and applied approaches/methods).
Grading Basis: Letter Grade

COMM 5500 (3) Seminar: Organizational Communication
Reviews current theory and research on topics such as communication and organizational decision making, organizational culture, gender relations, communication technology, and power and control in organizations.
Equivalent - Duplicate Degree Credit Not Granted: COMM 4600
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

COMM 5610 (3) Organizational Ethnography
Focuses on the historical influence of the ethnographic tradition in organizational communication studies. Reviews landmark studies of organizational culture and power/control, emphasizing issues of ethics and politics associated with the writing and reading of organizational ethnography. Reviews trends in contemporary organizing such as neoliberal globalization and the adoption of artificial intelligence, and their implications for the future of ethnography.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

COMM 5620 (3) Readings in Organizational Communication
Survey of historical and contemporary readings in organizational communication. Treats theory, research, and application from a variety of perspectives.
Requisites: Restricted to graduate students only.

COMM 5720 (3) Readings in Communication and Technology
Survey of multidisciplinary research that examines various relationships between communication and technology. Students are encouraged to develop critical skills in perceiving assumptions and perspectives that motivate major theories in this area, and to examine how these phenomena have changed over time.
Requisites: Restricted to graduate students only.

COMM 5930 (1-6) Graduate Internship
Offers opportunities for graduate-level communication related work projects. Limited to 3 hours in spring and fall semesters, 6 hours in summer. The 6-hour limit at MA level and 9-hour limit at PhD level applies to any combination of independent study and internship credit.
Repeatable: Repeatable for up to 9.00 total credit hours.
COMM 6010 (3) Communication Research and Theory
Provides an introduction to graduate study of communication, offering an overview of the discipline and its scholarship. Required for MA and Ph.D. communication students.
**Requisites:** Restricted to Communication (COMM or COMN) graduate students only.

COMM 6020 (3) Quantitative Research Methods
Introduces students to the practice of quantitative research in communication: conceptualization and critique of research projects, measurements, methods (e.g., experimental and survey), statistical data analysis, and written reports.
**Requisites:** Restricted to graduate students only.

COMM 6030 (3) Qualitative Research Methods
Introduction to the epistemology, methodology, and representational practices associated with qualitative communication research. Fieldwork methods emphasized include participant observation, interviewing, and document/artifact analysis.
**Requisites:** Restricted to graduate students only.

COMM 6200 (3) Seminar: Selected Topics
Facilitates understanding of current and past theory and research on a selected topic in communication and the ability to develop new theory and research on that topic.
**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
**Requisites:** Restricted to graduate students only.

COMM 6310 (3) Advanced Rhetorical Criticism
Reviews current critical methods and issues related to rhetorical criticism and rhetorical field methods.
**Repeatable:** Repeatable for up to 6.00 total credit hours.
**Requisites:** Restricted to graduate students only.
**Recommended:** Prerequisites COMM 5310 and COMM 5320.

COMM 6320 (3) Rhetorical Theory
Reviews current theory and research on topics such as contemporary rhetorical theory, rhetoric and public life, rhetoric as an interpretive social science, and rhetoric of social movements and political campaigns.
**Repeatable:** Repeatable for up to 6.00 total credit hours.
**Requisites:** Restricted to graduate students only.
**Recommended:** Prerequisite COMM 5320.

COMM 6330 (3) Rhetoric of Inquiry
Surveys foundational texts and contemporary research in the rhetoric of inquiry. Focuses on the role of persuasion in the production of knowledge. Critical analysis of major theoretical and methodological traditions and topics, with an emphasis on social dimensions of inquiry.
**Requisites:** Restricted to graduate students only.
**Recommended:** Prerequisite COMM 5320.

COMM 6340 (3) Rhetoric and Civic Community
Considers performances of public life as rhetorical inducements of civitas. Topics include negotiation of self-regulation among interdependent partners, rhetorical exclusions and/or counterpublics, and dialectical tensions of public/private as these contribute to and have civic consequences for publicness, community, and social will.
**Repeatable:** Repeatable for up to 6.00 total credit hours.
**Requisites:** Restricted to graduate students only.
**Recommended:** Prerequisite COMM 5320.

COMM 6350 (3) Seminar in Argumentation
Surveys foundational texts and contemporary research in argumentation. Analysis of distinctions between philosophical and rhetorical approaches to argument. Critical analysis of major theoretical and methodological traditions and topics with an emphasis on social dimensions of argument.
**Requisites:** Restricted to graduate students only.
**Recommended:** Prerequisite COMM 5320.

COMM 6360 (3) Social and Cultural Theory
Traces select traditions in social and/or cultural theory, emphasizing how those traditions affect and are affected by the field of rhetoric studies. Examines the origins and resolutions of major debates in social and/or cultural theory from a rhetorical perspective.
**Requisites:** Restricted to graduate students only.

COMM 6410 (3) Discourse Analysis
Acquaints students with the main types of discourse analysis: conversation analysis, critical discourse analysis, and rhetorically informed discourse approaches. Teaches how to conduct discourse analysis, including transcribing, selecting excerpts, documenting inferences, and linking findings to scholarly controversies.
**Requisites:** Restricted to graduate students only.

COMM 6420 (3) Interaction Analysis
Educates students in one of a selected set of methodological specializations used in the study of human interaction.
**Repeatable:** Repeatable for up to 6.00 total credit hours.
**Requisites:** Restricted to graduate students only.

COMM 6440 (3) Grounded Practical Theory
Examines theory, method, and application of grounded practical theory, an approach to building normative theory through description, critique, and theoretical reconstruction of situated communicative practices. Semester project involves analysis of a sample of discourse from a public or field observation setting.
**Requisites:** Restricted to graduate students only.
**Recommended:** Prerequisite COMM 5210.

COMM 6445 (3) Language, Ideology and Identity
Focuses on cultural foundations of social interaction, with a special emphasis on ideology (including potentially contested cultural norms, values and premises) as a basic condition of meaningful interaction. Identities are discussed as culturally variable, historically embedded interactional accomplishments, constructed from communicative resources such as language and other types of signs, that serve the purpose of participation in communal life.
**Requisites:** Restricted to graduate students only.

COMM 6455 (3) Community-based Research Methods
Facilitates and supports graduate student-led community-based research. Working from multiple CBR traditions, students develop a thoughtful rationale for conducting CBR and practice a repertoire of CBR methods (e.g., group decision-making, managing ethical dilemmas, collaborative data collection and analysis, and communicating findings).
**Grading Basis:** Letter Grade

COMM 6460 (3) Ethnography of Communication
Introduces graduate students to the theory, methodology, and practice of the ethnography of communication. Students read existing literature in the tradition, and design and implement a field-based project that centers on culturally patterned forms and styles of communicative conduct. Prior graduate-level coursework in basic qualitative research methods is required.
**Grading Basis:** Letter Grade
COMM 6470 (3) Public Deliberation and Dialogue
Explores the theory, research and practices of deliberative democracy and dialogue. Considers "ideal" communicative conduct and common interactional troubles, cross-cultural differences and routine communication practices.
Requisites: Restricted to graduate students only.

COMM 6730 (3) Constitutive Approaches to Organizational Communication
Explores theory and research that explain how organizing processes are constituted through communication. Course themes might include collaboration, authority, identity, knowledge, risk/resilience, or socio-material arrangements.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites COMM 5620 and COMM 6010.

COMM 6740 (3) Theory and Philosophy of Organizing and Organizations
Reviews theory and philosophy of organizing and organizing where communication processes are seen as constitutive. Focuses on discursive and material practices in the formation and change of organizational structure, culture, and operation.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite COMM 5620.

COMM 6750 (3) Critical-Cultural Approaches to Organizational Communication
Addresses critical and cultural approaches to communicating and organizing. Topics include relations of culture, power, resistance, identity, and difference as theorized in and around organizational life. Major theoretical works on these topics are highlighted throughout, although specific themes may vary.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite COMM 5620.

COMM 6780 (3) Roles, Relationships, and Identities in Interaction
Examines how social roles influence communicative practices, the development of relationships, and the impact of relationships on identity. Considers these processes in contexts, such as personal relationships and institutional settings. Topic varies.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.

COMM 6840 (1-3) Master's Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

COMM 6901 (1) Communication Research and Theory Practicum
Focuses primarily on the professionalization of graduate students new to CU's Department of Communication. Introduces them to the department, university, and discipline; develops practical skills related to professionalization (e.g., submitting to conferences, publishing research, and mentoring students); and considers the politics of professionalization. Runs concurrently with COMM 6010, "Communication Research and Theory.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

COMM 6940 (1) Master's Candidate for Degree
Repeatable: Repeatable for up to 3.00 total credit hours.
Grading Basis: Pass/Fail

COMM 6950 (1-6) Master's Thesis
Repeatable: Repeatable for up to 6.00 total credit hours.

COMM 8840 (1-6) Doctoral Independent Study
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.

COMM 8990 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 30.00 total credit hours.

Communication Residential Academic Program (COMR)

Courses
COMM 1000 (1-2) Communication and Community
Introduction to how communication builds community by creating and sharing meaning. Examination of communication practices at the interpersonal level (friends and family), the group level (teams, classrooms and organizations) and the societal level (citizenship, social change, mass media).
Repeatable: Repeatable for up to 2.00 total credit hours.
Requisites: Restricted to students in the Communication and Society Residential Academic Program (PCMS).

COMM 1800 (3) Visual Literacy: Images and Ideologies
Explores the relationship between visual images and cultural values, including how we process visual information, the evolution of conventions in various media, common visual portrayals, and ethical issues.
Requisites: Restricted to students in the Communication and Society Residential Academic Program (PCMS).

Comparative Literature (COML)

Courses
COML 8990 (1-10) Doctoral Dissertation
Requisites: Restricted to graduate students only.

Computer Science (CSCI)

Courses
CSCI 1000 (1) Computer Science as a Field of Work and Study
Introduces curriculum, learning techniques, time management and career opportunities in Computer Science. Includes presentations from alumni and others with relevant educational and professional experience. Does not count as Computer Science credit for the Computer Science BA.
Requisites: Restricted to students with 0-26 credits (Freshmen) Computer Science (CSEN-BS, CSEN-ADL, CSCI-BA or CSCI-ADL) majors only.
Additional Information: Departmental Category: General Computer Science

Departmental Category: General Computer Science

Science (CSEN-BS, CSEN-ADL, CSCI-BA or CSCI-ADL) majors only.
CSCI 1200 (3) Introduction to Computational Thinking
Teaches computational thinking and techniques for writing computer programs using the Python programming language. Intended for students who realize that computational skills are beneficial to all fields of study, but who have little or no experience in programming or are not Computer Science majors. Students will be expected to create computer programs to solve problems in a range of disciplines. Does not count as Computer Science credit for the Computer Science BA, BS, or minor.
Equivalent - Duplicate Degree Credit Not Granted: INFO 1201
Additional Information: Departmental Category: General Computer Science

CSCI 1220 (4) Virtual Worlds: An Introduction to Computer Science
Introduces the fundamental principles of computer science using an online virtual world called Second Life as the "Laboratory" for this course. Students will learn how to program by creating objects of interest in Second Life. In-class and in-world discussions and readings will introduce the students to important ideas and concepts that shape the field of computer science. Does not count as Computer Science credit for the Computer Science BA, BS, or minor.
Additional Information: Departmental Category: General Computer Science

CSCI 1240 (3) The Computational World
Introduces and explores the "computational style of thinking" and its influence in science, mathematics, engineering and the arts. Does not focus on the nuts and bolts of any particular programming language, but rather the way in which computing has affected human culture and thought in the past half century. Does not count as Computer Science credit for the Computer Science BA, BS, or minor.
Additional Information: Departmental Category: General Computer Science

CSCI 1300 (4) Computer Science 1: Starting Computing
Teaches techniques for writing computer programs in higher level programming languages to solve problems of interest in a range of application domains. Appropriate for students with little to no experience in computing or programming.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 1310 or CSCI 1320 or ECEN 1310 CSPB 1300
Requisites: Requires a prerequisite or corequisite course of APPM 1235 or APPM 1340 or APPM 1345 or APPM 1350 or MATH 1150 or MATH 1300 or MATH 1310 (all minimum grade C-).
Additional Information: Departmental Category: General Computer Science

CSCI 1320 (4) Computer Science 1: Starting Computing-Engineering Applications
Uses problems and tools from Engineering. Teaches techniques for writing computer programs in higher level programming languages to solve problems of interest in Engineering and other domains. Appropriate for students with little or no prior experience in programming.
Requisites: Requires a prerequisite or corequisite course of APPM 1235 or APPM 1340 or APPM 1345 or APPM 1350 or MATH 1150 or MATH 1300 or MATH 1310 (all minimum grade C-). Restricted to College of Engineering or Pre-Engineering Arts and Science (PREE) majors only.
Additional Information: Departmental Category: General Computer Science

CSCI 2270 (4) Computer Science 2: Data Structures
Studies data abstractions (e.g., stacks, queues, lists, trees, graphs) and their representation techniques (e.g., linking, arrays). Introduces concepts used in algorithm design and analysis including criteria for selecting data structures to fit their applications.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 2275 CSPB 2270
Requisites: Requires prerequisite course of CSCI 1300 or CSCI 1310 or CSCI 1320 or ECEN 1310 and prerequisite or corequisite course of MATH 1300 or MATH 1310 or APPM 1345 or APPM 1350 (all minimum grade C-).
Additional Information: Departmental Category: General Computer Science

CSCI 2275 (4) Programming and Data Structures
Combines the content in CSCI 1300 and CSCI 2270 and is intended for students with experience with at least one object oriented programming language. The course includes an expedited instruction to the C++ programming language and then primarily focuses on the content in CSCI 2270. Assumes knowledge of programming constructs- data types, conditionals, loops and classes. Students must pass a programming competency exam administered by the computer science department to take this class.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 2270 or CSPB 2270
Requisites: Requires prerequisite or co-requisite course of MATH 1300 or MATH 1310 or APPM 1345 or APPM 1350 (all minimum grade C-).
CSCI 2400 (4) Computer Systems
Covers how programs are represented and executed by modern computers, including low-level machine representations of programs and data, an understanding of how computer components and the memory hierarchy influence performance.
Equivalent - Duplicate Degree Credit Not Granted: CSPB 2400
Requisites: Requires prerequisite of CSCI 2270 or CSCI 2275 (minimum grade C-).
Additional Information: Departmental Category: General Computer Science

CSCI 2820 (3) Linear Algebra with Computer Science Applications
Introduces the fundamentals of linear algebra in the context of computer science applications. Includes vector spaces, matrices, linear systems, and eigenvalues. Includes the basics of floating point computation and numerical linear algebra.
Requisites: Requires prerequisite courses of (CSCI 2270 or CSCI 2275) and APPM 1360 or MATH 2300 (all minimum grade C-).
Additional Information: Departmental Category: General Computer Science

CSCI 2824 (3) Discrete Structures
Covers foundational materials for computer science that is often assumed in advanced courses. Topics include set theory, Boolean algebra, functions and relations, graphs, propositional and predicate calculus, proofs, mathematical induction, recurrence relations, combinatorics, discrete probability. Focuses on examples based on diverse applications of computer science.
Equivalent - Duplicate Degree Credit Not Granted: CSPB 2824
Requisites: Requires prerequisite courses of (CSCI 1200 or CSCI 1300 or CSCI 1310 or CSCI 1320 or CSCI 2275 or ECEN 1030 or ECEN 1310) and (APPM 1345 or APPM 1350 or MATH 1300 or MATH 1310) (all minimum grade C-).
Additional Information: Departmental Category: Theory of Computation
CSCI 2830 (1-3) Special Topics in Computer Science
Covers topics of interest in computer science at the sophomore level. Content varies from semester to semester. Does not count as Computer Science credit for Computer Science majors or minors. Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term. Additional Information: Departmental Category: General Computer Science

CSCI 2834 (1) Discrete Structures Workgroup
Provides additional problem-solving practice and guidance for students enrolled in CSCI 2824. Students work in a collaborative environment to further develop their problem-solving skills with the assistance of facilitators. Repeatable: Repeatable for up to 3.00 total credit hours. Requisites: Requires corequisite course of CSCI 2824. Grading Basis: Pass/Fail

CSCI 2900 (1-3) Lower Division, Undergraduate Level Independent Study
Offers selected topics at the elementary level for students with little or no previous computing experience. Does not count as Computer Science credit for Computer Science majors or minors. Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term. Additional Information: Departmental Category: General Computer Science

CSCI 3002 (4) Fundamentals of Human Computer Interaction
Introduces the practice and research of human-computer interaction, including its history, theories, the techniques of user-centered design, and the development of interactive technologies. Covers computing in society at large with respect to domains such as health, education, assistive technology, ethics, environment, and more. Requisites: Requires prerequisite course of CSCI 2270 or CSCI 2275 (both minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors). Additional Information: Departmental Category: General Computer Science

CSCI 3010 (3) Programming Project Workshop
Explores concepts and techniques for design and construction of larger, reliable, and maintainable software systems. Covers various topics including: specifications, program structure and design, program-correctness approaches, and working with established code bases. Emphasizes coding individually and in pairs and will include multiple weeks-long projects. Requisites: Requires a prerequisite course of CSCI 2270 or CSCI 2275 (both minimum grade C-).

CSCI 3022 (3) Introduction to Data Science with Probability and Statistics
Introduces students to the tools methods and theory behind extracting insights from data. Covers algorithms of cleaning and munging data, probability theory and common distributions, statistical simulation, drawing inferences from data, and basic statistical modeling. Equivalent - Duplicate Degree Credit Not Granted: CSPB 3022 Requisites: Requires prerequisite course of (CSCI 2270 or CSCI 2275) and (APPM 1360 or MATH 2300) and (CSCI 2824 or ECEN 2703 or APPM 3170 or MATH 2001) (all minimum grade C-). Additional Information: Departmental Category: Artificial Intelligence

CSCI 3090 (3) Introduction to Quantum Computing
Covers the basics of quantum computation, including the basics of quantum information; axioms of quantum mechanics; quantum circuits and universality; the relationship between quantum and classical complexity classes; simple quantum algorithms such as the quantum Fourier transform; Shor factoring algorithm; Grover search algorithm; physical implementation of quantum computation; error correction and fault tolerance. Equivalent - Duplicate Degree Credit Not Granted: PHYS 3090 Requisites: Requires prerequisite course of APPM 3310 or CSCI 2820 or MATH 2130 or MATH 2135 (minimum grade C-).

CSCI 3100 (1) Software and Society
Provides students with an understanding of the professional, ethical, legal and social issues and responsibilities of software developers, as well as providing them with the ability to analyze the local and global impacts of computing on individuals, organizations and society. Equivalent - Duplicate Degree Credit Not Granted: CSCI 4308 and CSCI 4328 and CSCI 4338 and CSCI 4348 Requisites: Requires prerequisite course of CSCI 3308 (minimum grade C). Restricted to Computer Science (CSEN-BS, CSEN-ADL,CSEN-BSCS) majors only. Grading Basis: Letter Grade Additional Information: Departmental Category: General Computer Science

CSCI 3104 (4) Algorithms
Covers the fundamentals of algorithms and various algorithmic strategies, including time and space complexity, sorting algorithms, recurrence relations, divide and conquer algorithms, greedy algorithms, dynamic programming, linear programming, graph algorithms, problems in P and NP, and approximation algorithms. Equivalent - Duplicate Degree Credit Not Granted: CSPB 3104 Requisites: Requires prerequisite courses of (CSCI 2270 or CSCI 2275) and (APPM 1360 or MATH 2300) and (one of the following: CSCI 2824 or ECEN 2703 or APPM 3170 or MATH 2001) (all minimum grade C-). Additional Information: Departmental Category: Theory of Computation

CSCI 3112 (1-3) Human-Centered Computing Professional Development
Supports students in developing professional skills and practices in human-computer interaction, design of interactive systems, computer supported cooperative work, computer supported collaborative learning, educational technology, tools that support creativity, user-developed knowledge collections and gaming. Equivalent - Duplicate Degree Credit Not Granted: ATLS 3112 Repeatable: Repeatable for up to 3.00 total credit hours. Additional Information: Departmental Category: Artificial Intelligence

CSCI 3155 (4) Principles of Programming Languages
Studies fundamental concepts on which programming of languages are based, and execution models supporting them. Explores values, variables, bindings, type systems, control structures, exceptions, concurrency, and modularity. Learn how to select a language and to adapt to a new language. Equivalent - Duplicate Degree Credit Not Granted: CSPB 3155 Requisites: Requires prerequisite courses of (CSCI 2270 or CSCI 2275) and (CSCI 2824 or ECEN 2703 or APPM 3170 or MATH 2001) (all minimum grade C-). Additional Information: Departmental Category: Programming Languages
CSCI 3202 (3) Introduction to Artificial Intelligence
Surveys artificial intelligence techniques of search, knowledge representation and reasoning, probabilistic inference, machine learning, and natural language.
Requisites: Requires prereqs of (CSCI 2270 or CSCI 2275) and (APPM 3170 or CSCI 2824 or ECEN 2703 or MATH 2001) and APPM 3570 or STAT 4520 or APPM 4570 or CHEN 3010 or CSCI 3022 or CVEN 3227 or ECEN 3810 or ECON 3818 or MATH 3510 or MATH 4510 (all min grade C-).
Additional Information: Departmental Category: Artificial Intelligence

CSCI 3287 (3) Design and Analysis of Data Systems
Introduces the fundamental concepts of database requirements analysis, database design, and database implementation with emphasis on the relational model and the SQL programming language.
Equivalent - Duplicate Degree Credit Not Granted: CSPB 3287
Requisites: Requires prerequisite course of CSCI 2270 or CSCI 2275 (minimum grade C-).
Additional Information: Departmental Category: Database Systems

CSCI 3302 (3) Introduction to Robotics
Introduces students to fundamental concepts in autonomous robotics: mechanisms, locomotion, kinematics, control, perception and planning. Consists of lectures and lab sessions that are geared toward developing a complete navigation stack on a miniature mobile robotic platform.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 3303
Requisites: Requires prerequisite courses of (CSCI 2270 or CSCI 2275) and (APPM 3170 or CSCI 2824 or ECEN 2703 or MATH 2001) and (APPM 2360 or APPM 3310 or CSCI 2820 or MATH 2130 or MATH 2135) (all minimum grade C-).
Additional Information: Departmental Category: Artificial Intelligence

CSCI 3308 (3) Software Development Methods and Tools
Covers tools and practices for software development with a strong focus on best practices used in industry and professional development, such as agile methodologies, pair-programming and test-driven design. Students develop web services and applications while learning these methods and tools.
Equivalent - Duplicate Degree Credit Not Granted: CSPB 3308
Requisites: Requires prerequisite course of CSCI 2270 or CSCI 2275 (both minimum grade C-).
Additional Information: Departmental Category: Software Engineering

CSCI 3352 (3) Biological Networks
This course examines the computational representation and analysis of biological phenomena through the structure and dynamics of networks, from molecules to species. Attention focuses on algorithms for clustering network structures, predicting missing information, modeling flows, regulation, and spreading-process dynamics, examining the evolution of network structure, and developing intuition for how network structure and dynamics relate to biological phenomena.
Requisites: Requires the following (ASTR 2600/CSCI 2270/2275/INFO 2201/PHYS 2600) and (APPM 1345/1350/MATH 1300/1310) and (APPM 3570/4570/CHEN 3010/CSCI 3022/CVEN 3227/EBIO 4410/ECEN 3810/ECON 3818/IPHY 2800/MATH 3510/4510/4520/STAT 2600/3100/4000/4520)(all min C-)

CSCI 3403 (4) Introduction to CyberSecurity for a Converged World
Introduces core concepts in cybersecurity including confidentiality, integrity, authentication, risk management, and adversarial thinking. The concepts will be applied to both traditional information technology (IT) systems and cyber physical systems (CPS). At the conclusion of the course students should have a solid foundation in cybersecurity and hands-on experience.
Requisites: Requires prerequisite course of CSCI 2400 or ECEN 3350 (minimum grade C-).
Additional Information: Departmental Category: Operating Systems and Hardware

CSCI 3434 (3) Theory of Computation
Introduces the foundations of formal language theory, computability, and complexity. Shows relationship between automata and various classes of languages. Addresses the issue of which problems can be solved by computational means, and studies complexity of solutions.
Requisites: Requires prerequisite course of CSCI 3104 (minimum grade C-).
Additional Information: Departmental Category: Theory of Computation

CSCI 3656 (3) Numerical Computation
Covers development, computer implementation, and analysis of numerical methods for applied mathematical problems. Explores topics such as floating point arithmetic, numerical solution of linear systems of equations, root finding, numerical interpolation, differentiation, and integration.
Requisites: Requires prerequisite courses of (CSCI 1300 or CSCI 1310 or CSCI 1320 or CSCI 2275 or ECEN 1310) and (APPM 1360 or MATH 2300) and (APPM 2360 or APPM 3310 or CSCI 2820 or MATH 2130 or MATH 2135) (all minimum grade C-).
Additional Information: Departmental Category: Numerical Computation

CSCI 3702 (3) Cognitive Science
Introduces cognitive science, drawing from psychology, philosophy, artificial intelligence, neuroscience, and linguistics. Studies the linguistic relativity hypothesis, consciousness, categorization, linguistic rules, the mind-body problem, nature versus nurture, conceptual structure and metaphor, logic/problem solving and judgment. Emphasizes the nature, implications and limitations of the computational model of mind.
Equivalent - Duplicate Degree Credit Not Granted: LING 3005 and PHIL 3310 and PSYC 3005 and SLHS 3003
Recommended: Prerequisites two of the following CSCI 1300 or CSCI 2275 or LING 2000 or PHIL 2440 or PSYC 2145.

CSCI 3753 (4) Design and Analysis of Operating Systems
Analyzes the software that extends hardware to provide a computing environment, including the role of linkers, file systems, resource sharing, security and networking. Studies the history of operating system organization and design and their influence on security, functionality and reliability.
Equivalent - Duplicate Degree Credit Not Granted: CSPB 3753
Requisites: Requires prerequisite courses of (CSCI 2270 or CSCI 2275) and (CSCI 2400 or ECEN 3350) (all minimum grade C-).
Additional Information: Departmental Category: Operating Systems and Hardware
CSCI 3832 (3) Natural Language Processing
Explores the theoretical and practical issues that arise in getting computers to perform useful and interesting tasks with human languages. Topics include information extraction, dialog systems and machine translation. Focus is on the use of language data and machine learning algorithms to build robust systems.
Requisites: Requires prerequisite courses (CSCI 2270 or CSCI 2275) and (CSCI 2824 or MATH 2001 or ECEN 2703 or APPM 3170) (all minimum grade C-).
Additional Information: Departmental Category: Artificial Intelligence

CSCI 4022 (3) Advanced Data Science
Introduces students to advanced tools, methods, and theory for extracting insights from data. Covers computational tools for storing and working with large data sets and computational techniques for common big data scenarios like graph data, streaming data, recommender systems, and dimensionality reduction. Emphasizes both the efficient implementation of algorithms as well as the mathematical foundations behind techniques.
Requisites: Requires prereqs of (CSCI 2820 or MATH 2130 or MATH 2135 or APPM 3310) and (CSCI 3022 or APPM 3570 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 3510 or MATH 4510 or ECEN 3810 or ECON 3818 or MCEN 4120) and CSCI 3104 (all min grade C-).
Additional Information: Departmental Category: Artificial Intelligence

CSCI 4113 (3) Linux System Administration
Introduces Linux system administration and related topics, including troubleshooting system and network problems, hardware and software configuration and installation, basic scripting and security aspects of internet hosts. Students build Linux servers from the ground up, using provided computing resources, and must maintain and secure the servers themselves.
Requisites: Requires prerequisite courses of CSCI 3308 and (CSCI 2400 or ECEN 3350) and CSCI 3753 (minimum grade C-).
Additional Information: Departmental Category: Operating Systems and Hardware

CSCI 4114 (3) Practical Algorithmic Complexity
When coming across an algorithmic problem, how do we think about how hard it is? Beyond just how much time or memory it takes, computational complexity offers a plethora of concepts for understanding this fundamental question. This leads to the appropriate choice of algorithm for the job, the development of new algorithms, and understanding the role of algorithmic complexity in natural settings such as biology and physics.
Requisites: Requires a prerequisite course of CSCI 3104 (minimum grade C-).

CSCI 4122 (3) Information Visualization
Studies interactive visualization techniques that help people analyze data. This course introduces design, development, and validation approaches for interactive visualizations with applications in various domains, including the analysis of text collections, software visualization, network analytics, and the biomedical sciences. It covers underlying principles, provides an overview of existing techniques, and teaches the background necessary to design innovative visualizations.
Equivalent - Duplicate Degree Credit Not Granted: CSPB 4122
Requisites: Requires prerequisite or corequisite of CSCI 1300 and CSCI 2824 (both minimum grade C-).

CSCI 4229 (3) Computer Graphics
Studies design, analysis and implementation of computer graphics techniques. Topics include interactive techniques, 2D and 3D viewing, clipping, segmentation, translation, rotation and projection. Involves removal of hidden edges, shading and color. Knowledge of basic linear algebra is required.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5229
Requisites: Requires prerequisite course of CSCI 2270 or CSCI 2275 (minimum grade C-).
Additional Information: Departmental Category: Graphics

CSCI 4239 (3) Advanced Computer Graphics
Studies design, analysis and implementation of advanced computer graphics techniques. Topics include shaders, using the GPU for high performance computing, graphics programming on embedded devices such as mobile phones; advanced graphics techniques such as ray tracing.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5239
Requisites: Requires prerequisite course of CSCI 4229 (minimum grade C-).
Additional Information: Departmental Category: Graphics

CSCI 4250 (3) Computer Science: The Canon
Explores the "great works" of computer science through intensive reading and discussion. Readings include works by Babbage, Turing, Von Neumann, Goedel, Shannon and Minsky, among others. Does not count as CS credit for the Computer Science BA, BS or minor.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5250
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: General Computer Science

CSCI 4253 (3) Datacenter Scale Computing - Methods, Systems and Techniques
Covers the primary problem solving strategies, methods and tools needed for data-intensive programs using large collections of computers typically called "warehouse scale" or "data-center scale" computers. Examines methods and algorithms for processing data-intensive applications, methods for deploying and managing large collections of computers in an on-demand infrastructure and issues of large-scale computer system design.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5253
Requisites: Requires prerequisite course of CSCI 3753 (minimum grade C-).
Recommended: Prerequisite CSCI 4273.
Additional Information: Departmental Category: Operating Systems and Hardware

CSCI 4273 (3) Network Systems
Focuses on design and implementation of network programs and systems, including topics in network protocols, file transfer, client-server computing, remote procedure call and other contemporary network system design and programming techniques. Familiarity with C and Unix or Linux is required.
Requisites: Requires prerequisite course of CSCI 3753 (minimum grade C-).
Additional Information: Departmental Category: Operating Systems and Hardware
CSCI 4302 (3) Advanced Robotics
Exposes students to current research topics in the field of robotics and provides hands-on experience in solving a grand challenge program.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5302
Requisites: Requires prerequisite course of CSCI 3302 (minimum grade C).
Additional Information: Departmental Category: Artificial Intelligence

CSCI 4308 (4) Software Engineering Project 1
Advanced practicum in which students design, implement, document and test software systems for use in industry, non-profits, government and research institutions. Also offers extensive experience in oral and written communication throughout the development process. Department enforced prerequisite: successful completion of a minimum of 36 credit hours of Computer Science coursework and approved WRTG. CSCI-BA students interested in taking this course should contact their advisor(s) early in their major.
Requisites: Requires prerequisite courses of CSCI 3155 and CSCI 3308 (all minimum grade C). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Computer Science (CSEN) majors or Computer Science Concurrent Degree majors only.
Additional Information: Departmental Category: Software Engineering

CSCI 4314 (3) Dynamic Models in Biology
Surveys computational and mathematical modeling to illuminate biological processes. Students work together to learn to build and analyze models using a variety of numerical tools, tackle meaningful biological problems, and communicate effectively across disciplines. Specific topics: Langevin dynamics of protein folding, agent-based models, finite difference models of organismal growth, stochastic and deterministic cellular automata game of life, models of behavior.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5314
Requisites: Requires a prerequisite course of CSCI 3104 (minimum grade C).
Recommended: Prerequisite comfort with mathematics and/or programming experience, and more advanced understanding (upper undergraduate level) of any relevant discipline.
Additional Information: Departmental Category: Theory of Computation

CSCI 4318 (4) Software Engineering Project 2
Second semester of an advanced practicum in computer science. Students must take this course and CSCI 4308 contiguously as the project spans the entire academic year.
Requisites: Requires prerequisite course of CSCI 4308 (minimum grade C).
Additional Information: Departmental Category: Software Engineering

CSCI 4328 (4) Software Project Management and Mentoring
Review software project management and discuss the latest approaches, methodologies and standards of software development. Learn to develop software quality, documentation, testing and prototype goals. Study project risk management and cost estimation approaches. Experience mentoring Senior Software Project Team. Intended for professional software developers. Department consent required, see Senior Project Director for permission.
Requisites: Requires prerequisite courses of CSCI 3155 and CSCI 3308 (all minimum grade C). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Computer Science (CSEN) majors or Computer Science Concurrent Degree majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Software Engineering

CSCI 4338 (2) Software Project Management
Review software project management and discuss the latest approaches, methodologies and standards of software development. Learn to develop software quality, documentation, testing, and prototype goals. Study project risk management and cost estimation approaches. Intended for double majors doing interdisciplinary projects in other departments. Department consent required, see Senior Project Director for permission.
Requisites: Requires prerequisite courses of CSCI 3155 and CSCI 3308 (all minimum grade C). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Computer Science (CSEN) majors or Computer Science Concurrent Degree majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Software Engineering

CSCI 4348 (4) Startup Essentials: Entrepreneurial Projects in Computing
Provide students with the tools to be successful technical co-founders of their own startups. Explores the initial stages of founding a startup, including team formation, idea validation, pivoting and pitching, while employing an iterative methodology. Student teams will develop a minimum viable product, pitch their final startup concept, and be evaluated on product/market fit. Department enforced restriction, successful completion of a minimum of 36 credit hours of Computer Science coursework and approved WRTG. Formerly CSCI 4000.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5340
Requisites: Requires prerequisite courses of CSCI 3155 and CSCI 3308 (all minimum grade C). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Computer Science (CSEN) majors or Computer Science Concurrent Degree majors only.
Additional Information: Departmental Category: General Computer Science

CSCI 4358 (4) Entrepreneurial Projects II
Follows CSCI 4348. In the second semester of this entrepreneurial project capstone, student teams will seek to find market traction for a high-fidelity Minimum Viable Product (MVP), software and/or hardware, that they will develop as part of their startup project. Teams will further learn to incorporate principles of marketing, business finance and legal issues into the business model for their startup concept.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5350
Requisites: Requires a prerequisite course of CSCI 4348 (minimum grade C).
Additional Information: Departmental Category: General Computer Science

CSCI 4413 (3) Computer Security and Ethical Hacking
Teaches basic exploit design and development through hands-on experimentation and testing. Uses a controlled environment to give students a “playground” in which to test penetration skills that are normally not allowed on live networks.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5413
Requisites: Requires prerequisite course of CSCI 4273 (minimum grade C).
Additional Information: Departmental Category: Operating Systems and Hardware
CSCI 4446 (3) Chaotic Dynamics
Explores chaotic dynamics theoretically and through computer simulations. Covers the standard computational and analytical tools used in nonlinear dynamics and concludes with an overview of leading-edge chaos research. Topics include time and phase-space dynamics, surfaces of section, bifurcation diagrams, fractal dimension and Lyapunov exponents.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5446 and ECEN 4423 and ECEN 5423
Requisites: Requires prerequisite course of (CSCI 1300 or CSCI 1310 or CSCI 1320 or CSCI 2275 or ECEN 1310) and (APPM 2350 or MATH 2400) (all minimum grade C-).
Recommended: Prerequisites PHYS 1120 and CSCI 3656 and (MATH 2130 or MATH 2135).
Additional Information: Departmental Category: Numerical Computation

CSCI 4448 (3) Object-Oriented Analysis and Design
An applied analysis and design class that addresses the use of object-oriented techniques. Topics include domain modeling, use cases, architectural design and modeling notations. Students apply the techniques in analysis and design projects.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5448
Requisites: Requires prerequisite courses of CSCI 3155 and CSCI 3308 (all minimum grade C-).
Additional Information: Departmental Category: Software Engineering

CSCI 4502 (3) Data Mining
Introduces basic data mining concepts and techniques for discovering interesting patterns hidden in large-scale data sets, focusing on issues relating to effectiveness and efficiency. Topics covered include data preprocessing, data warehouse, association, classification, clustering, and mining specific data types such as time-series, social networks, multimedia, and Web data.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5502 and CSPB 4502
Requisites: Requires prerequisite course of CSCI 2270 or CSCI 2275 (minimum grade C-).
Additional Information: Departmental Category: Artificial Intelligence

CSCI 4555 (3) Compiler Construction
Introduces the principles and techniques for compiling high-level programming languages to assembly code. Topics include parsing, instruction selection, register allocation, and compiling high-level features such as polymorphism, first-class functions, and objects. Students build a complete compiler for a simple language.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 4553 and CSCI 5525
Requisites: Requires prerequisite courses of CSCI 3155 and CSCI 2400 or ECEN 3350 (all minimum grade C-).
Additional Information: Departmental Category: Programming Languages

CSCI 4576 (4) High-Performance Scientific Computing
Introduces computing systems, software and methods used to solve large-scale problems in science and engineering. Students use high-performance workstations and a supercomputer.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5576
Recommended: Prerequisite CSCI 3656.
Additional Information: Departmental Category: Numerical Computation

CSCI 4593 (3) Computer Organization
Studies computer design at the gate level. Discusses instruction set architecture design, arithmetic and logic unit design, control logic, memory design and caches, simple pipelining, I/O and peripheral devices. Briefly covers aspects of modern computer architecture, such as multicore processors and cache coherence for these.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 4593
Requisites: Requires prerequisite course of ECEN 3350 or CSCI 2400 (minimum grade C-).

CSCI 4622 (3) Machine Learning
Introduces students to tools, methods, and theory to construct predictive and inferential models that learn from data. Focuses on supervised machine learning technique including practical and theoretical understanding of the most widely used algorithms (decision trees, support vector machines, ensemble methods, and neural networks). Emphasizes both efficient implementation of algorithms and understanding of mathematical foundations.
Requisites: Requires prerequisites of (APPM 3310 or CSCI 2820 or MATH 2130 or MATH 2135) (APPM 3570 or STAT 4520 or APPM 4570 or CHEN 3010 or CSCI 3022 or CVEN 3227 or ECEN 3810 or ECON 3818 or MATH 3510 or MATH 4510 or MCEN 4120) and CSCI 3104 (all min grade C-).

CSCI 4753 (3) Computer Performance Modeling
Presents a broad range of system measurement and modeling techniques, emphasizing applications to computer systems. Covers topics including system measurement, workload characterization and analysis of data; design of experiments; queuing theory and queuing network models; and simulation.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5753 and ECEN 4753 and ECEN 5753
Requisites: Requires prerequisites of (APPM 1360 or MATH 2300) and CSCI 3753 (all minimum grade C-).
Recommended: Prerequisite a course in statistics.
Additional Information: Departmental Category: Operating Systems and Hardware

CSCI 4802 (1) Data Science Team Companion Course
Gives students hands-on experience applying data science techniques and machine learning algorithms to real-world problems. Students work in small teams on internal challenges, many of which will be sponsored by local companies and organizations and will represent the university in larger teams for external challenges at the national and global level, such as those hosted by Kaggle. Students will be expected to participate in both internal and external challenges, attend meetings and present short presentations to the group when appropriate.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5802
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Requires a prerequisite course of APPM 3310 or APPM 3570 or APPM 4520 or APPM 4570 or APPM 4570 or CHEN 3010 or CSCI 3022 or CVEN 3227 or ECEN 3810 or ECON 3818 or MATH 3510 or MATH 4510 or MCEN 4120 (minimum grade C-).
Additional Information: Departmental Category: Artificial Intelligence
CSCI 4809 (3) Computer Animation
Develops a firm understanding of the general principles of computer animation. Lectures cover the creation of models, materials, textures, surfaces, and lighting. Path and key frame animation, particle dynamics, and rendering are introduced. Students are assigned a number of animation tutorials to carry out.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 5809 and ATLS 4809 and CSCI 5809
Additional Information: Departmental Category: Graphics

CSCI 4830 (1-4) Special Topics in Computer Science
Covers topics of interest in computer science at the senior undergraduate level. Content varies from semester to semester. Only 9 credit hours from CSCI 4830 and/or CSCI 4831 can count toward Computer Science BS or BA.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requirements: Requires prerequisite course of CSCI 2400 or ECEN 3350 (minimum grade C-).
Additional Information: Departmental Category: General Computer Science

CSCI 4831 (1-3) Special Topics in Algorithms
Covers topics of interest in computer science at the upper-division undergraduate level. Content varies from semester to semester.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requirements: Requires prerequisite courses of CSCI 3104 and (APPM 3310 or CSCI 2820 or MATH 2130 or MATH 2135) (all minimum grade C-).
Additional Information: Departmental Category: General Computer Science

CSCI 4849 (3) Input, Interaction, and Accessibility
Explores input and interaction techniques with an emphasis on universal design and alternative interfaces. Students explore traditional input methods such as keyboard and mouse input, and alternative techniques such as voice and eye gaze. Students conduct performance evaluations of existing techniques, and prototype new interaction methods. Students design technologies to support people with varying abilities and disabilities.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5849
Requirements: Requires prerequisite of CSCI 3002 (minimum grade C-).

CSCI 4889 (3) Interactive Machine Learning for Customizable and Expressive Interfaces
Introduces students to techniques for applying machine learning in the development of customizable human-computer interfaces. Students learn to process a wide variety of input data (e.g. video and accelerometer streams) using different machine learning algorithms to detect semantically meaningful events that can afford the construction of new interactive systems. Students complete substantial projects within the domains of assistive or creative technologies. Does not fulfill Breadth Requirement for CSEN graduate students.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5880, ATLS 4889 and ATLS 5880
Requirements: Requires prerequisites of (APPM 3570 or APPM 4570 or CHEN 3010 or CSCI 3022 or CVEN 3227 or ECEN 3810 or ECON 3818 or MATH 3510 or MATH 4510 or MCEN 4120 or STAT 4520) and (CSCI 3002 or CSCI 3202 or CSCI 4448) (all minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Artificial Intelligence

CSCI 4900 (1-3) Upper Division, Undergraduate Level Independent Study
Provides opportunities for independent study at the upper-division undergraduate level. Students work on a small research problem or tutorial lower-division computer science students. Department consent required.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Requirements: Requires prerequisite course of CSCI 1300 or CSCI 1310 or CSCI 320 or CSCI 2275 (all minimum grade C-).
Additional Information: Departmental Category: General Computer Science

CSCI 4950 (2-4) Senior Thesis
Provides an opportunity for senior computer science majors to conduct exploratory research in computer science. Department enforced restriction, successful completion of a minimum of 36 credit hours of Computer Science coursework and approved WRTG.
Repeatable: Repeatable for up to 8.00 total credit hours.
Requirements: Requires a prerequisite or corequisite course of CSCI 3100 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior).
Additional Information: Departmental Category: General Computer Science

CSCI 4960 (2-4) Computer Science Honors Thesis
Provides an opportunity for senior Computer Science majors to complete an honors thesis by conducting exploratory research in computer science. Department enforced prerequisites: successful completion of a minimum of 36 credit hours of Computer Science foundation and Computer Science electives and a writing requirement.
Repeatable: Repeatable for up to 8.00 total credit hours.
Requirements: Restricted to students with 87-180 credits (Senior, Fifth Year Senior).
Grading Basis: Letter Grade
Additional Information: Departmental Category: General Computer Science

CSCI 5114 (3) Practical Algorithmic Complexity
When coming across an algorithmic problem, how do we think about how hard it is? Beyond just how much time or memory it takes, computational complexity offers a plethora of concepts for understanding this fundamental question. This leads to the appropriate choice of algorithm for the job, the development of new algorithms, and understanding the role of algorithmic complexity in natural settings such as biology and physics.
Requirements: Restricted to graduate students only.

CSCI 5135 (3) Computer-Aided Verification
Covers two-level and multilevel minimization, optimization via expert systems, algebraic and Boolean decomposition, layout methodologies, state assignment, encoding and minimization, silicon compilation.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5139
Requirements: Restricted to graduate students only.
Recommended: Prerequisites ECEN 2703 and general proficiency in discrete mathematics and programming.
Additional Information: Departmental Category: Programming Languages

CSCI 5229 (3) Computer Graphics
Studies design, analysis and implementation of computer graphics techniques. Topics include interactive techniques, 2D and 3D viewing, clipping, segmentation, translation, rotation and projection. Involves removal of hidden edges, shading and color. Knowledge of basic linear algebra is required.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4229
Requirements: Restricted to graduate students only.
Additional Information: Departmental Category: Graphics
CSCI 5239 (3) Advanced Computer Graphics
Studies design, analysis and implementation of advanced computer graphics techniques. Topics include shaders, using the GPU for high performance computing, graphics programming on embedded devices such as mobile phones; advanced graphics techniques such as ray tracing.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4239
Requisites: Requires prerequisite course of CSCI 5229 (minimum grade B). Restricted to graduate students only.
Additional Information: Departmental Category: Graphics

CSCI 5250 (3) Computer Science: The Canon
Explores the "great works" of computer science through intensive reading and discussion. Readings include works by Babbage, Turing, Von Neumann, Goedel, Shannon and Minsky, among others. Does not count toward breadth requirement for Computer Science MS/ME degree.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4250
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: General Computer Science

CSCI 5253 (3) Datacenter Scale Computing - Methods, Systems and Techniques
Covers the primary problem solving strategies, methods and tools needed for data-intensive programs using large collections of computers typically called "warehouse scale" or "data-center scale" computers. Examines methods and algorithms for processing data-intensive applications, methods for deploying and managing large collections of computers in an on-demand infrastructure and issues of large-scale computer system design.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4253
Requisites: Restricted to graduate students only.
Recommended: Prerequisite CSCI 5273.
Additional Information: Departmental Category: Operating Systems and Hardware

CSCI 5254 (3) Convex Optimization and Its Applications
Discuss basic convex analysis (convex sets, functions and optimization problems), optimization theory (linear, quadratic, semidefinite and geometric programming, optimality conditions and duality theory), some optimization algorithms (descent methods and interior-point methods), basic applications (in signal processing, control, communications, networks, statistics, machine learning, circuit design and mechanical engineering, etc.), and some advanced topics (distributed decomposition, exact convex relaxation, parsimonious recovery).
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Theory of Computation

CSCI 5273 (3) Network Systems
Focuses on design and implementation of network programs and systems, including topics in network protocols, file transfer, client-server computing, remote procedure call and other contemporary network system design and programming techniques. Familiarity with C and Unix is required.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5273
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Operating Systems and Hardware

CSCI 5302 (3) Advanced Robotics
Exposes students to current research topics in the field of robotics and provides hands-on experience in solving a grand challenge program.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4302
Requisites: Restricted to graduate students only.
Recommended: Prerequisite CSCI 3302 or instructor consent required.
Additional Information: Departmental Category: Artificial Intelligence

CSCI 5314 (3) Dynamic Models in Biology
Surveys computational and mathematical modeling to illuminate biological processes. Students work together to learn to build and analyze models using a variety of numerical tools, tackle meaningful biological problems, and communicate effectively across disciplines. Specific topics: Langevin dynamics of protein folding, agent-based models, finite difference models of organismal growth, stochastic and deterministic cellular automata game of life, models of behavior.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4314
Requisites: Restricted to graduate students only.
Recommended: Prerequisite comfort with mathematics and/or programming experience, and more advanced understanding (upper undergraduate level) of any relevant discipline.
Additional Information: Departmental Category: Theory of Computation

CSCI 5340 (3) Startup Essentials: Entrepreneurial Projects in Computing
Provides students with the tools to be successful technical co-founders of their own startups. Explores the initial stages of founding a startup, including team formation, idea validation, pivoting and pitching, while employing an iterative methodology. Student teams will develop a minimum viable product, pitch their final startup concept and be evaluated on product/market fit. CS coding concepts relevant for startups, including potentially cloud programming, mobile programming and agile software engineering, will be taught. Does not satisfy breadth requirement.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4348
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: General Computer Science

CSCI 5350 (3) Entrepreneurial Projects II
Follows CSCI 5340. In the second semester of this entrepreneurial project capstone, student teams will seek to find market traction for a high-fidelity Minimum Viable Product (MVP), software and/or hardware, that they will develop as part of their startup project. Teams will further learn to incorporate principles of marketing, business finance and legal issues into the business model for their startup concept. Does not satisfy breadth requirement.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4358
Requisites: Requires a prerequisite course of CSCI 5340 (minimum grade B). Restricted to graduate students only.
Additional Information: Departmental Category: General Computer Science

CSCI 5352 (3) Network Analysis and Modeling
Examines modern techniques for analyzing and modeling the structure and dynamics of complex networks. Focuses on statistical algorithms and methods, and emphasizes model interpretability and understanding the processes that generate real data. Applications are drawn from computational biology and computational social science. No biological or social science training is required.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites CSCI 3104 and APPM 3570.
Additional Information: Departmental Category: Artificial Intelligence
CSCI 5402 (3) Research Methods in Human-Robot Interaction
Introduces students to the field of human-robot interaction (HRI). Covers HRI theory, principles, methodologies, and applications with links to robotics, artificial intelligence, human factors, human-computer interaction, design, cognitive psychology, education and other domains. Coursework includes readings from state-of-the-art in HRI research, team exercises and problem-solving sessions, and implementation and evaluation of a human-robot interaction systems for specific applications.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 5402
Requisites: Restricted to graduate students only.

CSCI 5403 (3) Introduction to CyberSecurity for a Converged World
Introduces core concepts in cybersecurity including confidentiality, integrity, authentication, risk management, and adversarial thinking. The concepts will be applied to both traditional information technology (IT) systems and cyber physical systems (CPS). At the conclusion of the course, students should have a solid foundation in cybersecurity and hands-on experience.
Equivalent - Duplicate Degree Credit Not Granted: CYBR 5300
Requisites: Requires prerequisite CSCI 3753 or CSCI 4273 (both minimum grade C-). Restricted to graduate students only.

CSCI 5413 (3) Computer Security and Ethical Hacking
Teaches basic exploit design and development through hands-on experimentation and testing. Uses a controlled environment to give students a "playground" in which to test penetration skills that are normally not allowed on live networks.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4413
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Operating Systems and Hardware

CSCI 5417 (3) Information Retrieval Systems
Addresses practical issues in the design, implementation and analysis of modern information retrieval systems. The major focus is on Web-based applications including ad hoc retrieval, classification, and clustering. Introduces the use of open source retrieval systems, standard evaluation metrics and gold-standard evaluation collections.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Database Systems

CSCI 5423 (3) Biologically-inspired Multi-Agent Systems
Explores the principles and emergent properties of collective dynamics through computational modeling and theory. Focuses on multi-agent systems using insights from biology, like the self-assemblage of cells and insect colony behavior. Topics include designing swarm intelligence, networked agents, cellular computing and self-assembly, optimization, synchronization, and evolutionary computation. Uses cross-discipline research developments to practice applied techniques. Biology background is not required.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite CSCI 2270 and basic knowledge of programming.

CSCI 5444 (3) Introduction to Theory of Computation
Reviews regular expressions and finite automata. Studies Turing machines and equivalent models of computation, the Chomsky hierarchy, context-free grammars, push-down automata, and computability.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Theory of Computation

CSCI 5446 (3) Chaotic Dynamics
Explores chaotic dynamics theoretically and through computer simulations. Covers the standard computational and analytical tools used in nonlinear dynamics and concludes with an overview of leading-edge chaos research. Topics include time and phase-space dynamics, surfaces of section, bifurcation diagrams, fractal dimension and Lyapunov exponents.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4446 and ECEN 4423 and ECEN 5423
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Numerical Computation

CSCI 5448 (3) Object-Oriented Analysis and Design
An applied analysis and design class addressing the use of object-oriented techniques. Topics include domain modeling, use cases, architectural design and modeling notations. Students apply the techniques in analysis and design projects.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4448
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Software Engineering

CSCI 5454 (3) Design and Analysis of Algorithms
Techniques for algorithm design, analysis of correctness and efficiency; divide and conquer, dynamic programming, probabilistic methods, advanced data structures, graph algorithms, etc. Lower bounds, NP-completeness, intractability.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite CSCI 2270 or equivalent.
Additional Information: Departmental Category: Theory of Computation

CSCI 5502 (3) Data Mining
Introduces basic data mining concepts and techniques for discovering interesting patterns hidden in large-scale data sets, focusing on issues relating to effectiveness and efficiency. Topics covered include data preprocessing, data warehouse, association, classification, clustering, and mining specific data types such as time-series, social networks, multimedia, and Web data.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4502
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Artificial Intelligence

CSCI 5514 (3) Algorithms for Whole Genome Sequence Analysis
Explore the algorithms that have been developed to assemble and analyze genome sequencing data. Genome sequencing produces vast and complex data that are intractable without efficient algorithms. This course covers the core data structures and algorithms which form the basis for research in topics ranging from evolution to the cause and treatment of many diseases, including cancer. Topics include string matching, indexing, compression, and succinct data structures. No prior knowledge of biology, DNA, or genetics is required.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite basic understanding of complexity analysis, core algorithms (for example, sort) and data structures (for example, graphs).
CSCI 5525 (3) Compiler Construction
Introduces the principles and techniques for compiling high-level programming languages to assembly code. Topics include parsing, instruction selection, register allocation, and compiling high-level features such as polymorphism, first-class functions, and objects. Students will build a complete compiler for a simple language.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4555 and ECEN 4553 and ECEN 5523
Requisites: Restricted to graduate students only.
Recommended: Prerequisites CSCI 3155 and CSCI 2400 or ECEN 3350.
Additional Information: Departmental Category: Programming Languages

CSCI 5535 (3) Fundamental Concepts of Programming Languages
Considers concepts common to a variety of programming languages--how they are described (both formally and informally) and how they are implemented. Provides a firm basis for comprehending new languages and gives insight into the relationship between languages and machines.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5533
Requisites: Restricted to graduate students only.
Recommended: Prerequisite CSCI 3155 or instructor consent required.
Additional Information: Departmental Category: Programming Languages

CSCI 5548 (3) Software Engineering of Standalone Programs
Applies engineering principles to phases of software product development, project planning, requirements definition, design, implementation, validation and maintenance. Emphasizes practical methods for communicating and verifying definitions and designs: prototyping, inspections and modeling. Includes relation to RTS and object-oriented programming.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5543
Requisites: Restricted to graduate students only.
Recommended: Prerequisites CSCI 1300 and CSCI 2270 or instructor consent required.
Additional Information: Departmental Category: Software Engineering

CSCI 5573 (3) Advanced Operating Systems
Intended to create a foundation for operating systems research or advanced professional practice. Examines the design and implementation of a number of research and commercial operating systems and their components, system organization and structure, threads, communication and synchronization, virtual memory, distribution, file systems, security and authentication, availability and Internet services.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5573
Requisites: Requires prerequisite course of CSCI 2400 and CSCI 3753 (all minimum grade C). Restricted to graduate students only.
Additional Information: Departmental Category: Operating Systems and Hardware

CSCI 5576 (4) High-Performance Scientific Computing
Introduces computing systems, software and methods used to solve large-scale problems in science and engineering. Students use high-performance workstations and a supercomputer. First course in a two-semester sequence.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4576
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Numerical Computation

CSCI 5593 (3) Advanced Computer Architecture
Provides a broad-scope treatment of important concepts in the design and implementation of high-performance computer systems. Discusses important issues in the pipelining of a machine and the design of cache memory systems. Also studies current and historically important computer architectures.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5593
Requisites: Restricted to graduate students only.
Recommended: Prerequisite CSCI 4593 or instructor consent required.
Additional Information: Departmental Category: Operating Systems and Hardware

CSCI 5606 (3) Principles of Numerical Computation
Highlights computer arithmetic, solution of linear systems, least-squares approximations, nonlinear algebraic equations, interpolation, and quadrature.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites CSCI 3656 and three semesters of calculus or equivalent.
Additional Information: Departmental Category: Numerical Computation

CSCI 5608 (3) Software Project Management
Presents topics and techniques critical to the management of software product development, including estimating, planning, quality, tracking, reporting, team organization, people management and legal issues. Gives special attention to problems unique to software projects.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites ECEN 4583 and CSCI 5548 and CSCI 4318 or equivalent industrial experience.
Additional Information: Departmental Category: Software Engineering

CSCI 5622 (3) Machine Learning
Trains students to build computer systems that learn from experience. Includes the three main subfields: supervised learning, reinforcement learning and unsupervised learning. Emphasizes practical and theoretical understanding of the most widely used algorithms (neural networks, decision trees, support vector machines, Q-learning). Covers connections to data mining and statistical modeling. A strong foundation in probability, statistics, multivariate calculus, and linear algebra is highly recommended.
Requisites: Requires prereq courses of CSCI 3104 and CSCI 2820 or APPM 3310 or MATH 2130 or CSCI 3022 or APPM 4570 or APPM 3570 or STAT 4250 or MATH 3510 or CVEN 3227 or ECEN 3810 or ECON 3818 or MCEN 4120 (all min grade B). Restricted to Graduate Students Only.
Additional Information: Departmental Category: Artificial Intelligence

CSCI 5636 (3) Numerical Solution of Partial Differential Equations
Focuses on discretization techniques such as finite difference, finite element and finite volume methods, and parallel solution algorithms such as Krylov subspace methods, domain decomposition and multilevel methods.
Requisites: Requires prerequisite course of CSCI 2820 or CSCI 3656 (minimum grade B). Restricted to graduate students only.
Additional Information: Departmental Category: Numerical Computation

CSCI 5646 (3) Numerical Linear Algebra
Offers direct and iterative solutions of linear systems. Also covers eigen value and eigenvector calculations, error analysis, and reduction by orthogonal transformation. A sound knowledge of basic linear algebra, experience with numerical computation, and programming experience is required.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Numerical Computation
CSCI 5654 (3) Linear Programming
Presents algorithms, simplex and modifications. Examines theory-
duality and complementary slackness. Involves network flow algorithms.
Introduces integer programming.
**Requisites:** Restricted to graduate students only.
**Recommended:** Prerequisite linear algebra.
**Additional Information:** Departmental Category: Theory of Computation

ECEN 5673 (3) Distributed Systems
Examines systems that span multiple autonomous computers. Topics
include system structuring techniques, scalability, heterogeneity,
fault tolerance, load sharing, distributed file and information systems,
naming, directory services, resource discovery, resource and network
management, security, privacy, ethics and social issues.
**Equivalent - Duplicate Degree Credit Not Granted:** ECEN 5673
**Requisites:** Restricted to graduate students only.
**Recommended:** Prerequisite CSCI 5673 or a course in computer
networks.
**Additional Information:** Departmental Category: Operating Systems and
Hardware

CSCI 5676 (3) Numerical Optimization
Focuses on computational methods for solution of unconstrained
and some constrained optimization problems, nonlinear least-squares
problems and systems of nonlinear equations. Formerly CSCI 6676.
**Requisites:** Requires prerequisite course of CSCI 2820 or CSCI 3656
(minimum grade B). Restricted to graduate students only.
**Additional Information:** Departmental Category: Numerical Computation

CSCI 5714 (3) Formal Languages
Explores context-free languages: pumping lemma and variants, closure
properties, and decision properties. Involves parsing algorithms, including
general and special languages, e.g., LR. Additional topics chosen by
instructor.
**Requisites:** Restricted to graduate students only.
**Recommended:** Prerequisite CSCI 5444 or instructor consent required.
**Additional Information:** Departmental Category: Theory of Computation

CSCI 5722 (3) Computer Vision
Explores algorithms that can extract information about the world from
images or sequences of images. Topics covered include: imaging models
and camera calibration, early vision (filters, edges, texture, stereo, optical
flow), mid-level vision (segmentation, tracking), vision-based control and
object recognition.
**Requisites:** Restricted to graduate students only.
**Recommended:** Prerequisite probability, multivariate calculus and linear
algebra.
**Additional Information:** Departmental Category: Artificial Intelligence

CSCI 5753 (3) Computer Performance Modeling
Presents a broad range of system measurement and modeling
techniques, emphasizing applications to computer systems. Topics
include system measurement, work load characterization and analysis of
data; design of experiments; simulation; and queuing theory and queuing
network models.
**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 4753 and
ECEN 4753 and ECEN 5753
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Operating Systems and
Hardware

CSCI 5802 (1) Data Science Team Companion Course
Gives students hands-on experience applying data science techniques
and machine learning algorithms to real-world problems. Students work
in small teams on internal challenges, many of which will be sponsored
by local companies and organizations and will represent the university in
larger teams for external challenges at the national and global level, such
as those hosted by Kaggle. Students will be expected to participate in
both internal and external challenges, attend meetings and present short
presentations to the group when appropriate. Instructor consent required.
**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 4802
**Repeatable:** Repeatable for up to 3.00 total credit hours.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Artificial Intelligence

CSCI 5809 (3) Computer Animation
Develops a firm understanding of the general principles of computer
animation. Lectures cover the creation of models, materials, textures,
surfaces, and lighting. Path and key frame animation, particle dynamics,
and rendering are introduced. Students are assigned a number of
animation tutorials to carry out.
**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 4809 and
ATLS 4809 and ATLS 5809
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Graphics

CSCI 5817 (3) Database Systems
Provides an advanced treatment of basic database concepts.
**Requisites:** Restricted to graduate students only.
**Recommended:** Prerequisite CSCI 3753.
**Additional Information:** Departmental Category: Database Systems

CSCI 5822 (3) Probabilistic Models of Human and Machine Learning
Introduces a set of modeling techniques that have become a mainstay
of modern artificial intelligence, cognitive science and machine learning
research. These models provide essential tools for interpreting the
statistical structure of large data sets and for explaining how intelligent
agents analyze the vast amount of experience that accumulates through
interactions with an unfamiliar environment.
**Requisites:** Restricted to graduate students only.
**Recommended:** Prerequisite CSCI 3753.
**Additional Information:** Departmental Category: Artificial Intelligence

CSCI 5828 (3) Foundations of Software Engineering
Provides an introduction to software engineering concepts and
techniques. Topics include the history of software engineering,
fundamental software engineering principles and theory, software
life cycles, software testing, and the design and implementation of
current and large-scale software systems.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Software Engineering

CSCI 5832 (3) Natural Language Processing
Explores the field of natural language processing as it is concerned with
the theoretical and practical issues that arise in getting computers to
perform useful and interesting tasks with natural language. Covers the
problems of understanding complex language phenomena and building
practical programs.
**Equivalent - Duplicate Degree Credit Not Granted:** LING 5832
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Artificial Intelligence
CSCI 5839 (3) User-Centered Design and Development 1
Develops the skills and practices necessary to apply user-centered approaches to software requirements analysis, and the design and evaluation of computer applications.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graphics

CSCI 5849 (3) Input, Interaction, and Accessibility
Explores input and interaction techniques, with an emphasis on universal design and alternative interfaces. Students will explore traditional input methods such as keyboard and mouse input, and alternative techniques such as voice and eye gaze. Students will conduct performance evaluations of existing techniques, and prototype new interaction methods. Students will design technologies to support people with varying abilities and disabilities.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4849
Requisites: Requires prerequisite of CSCI 3002 or CSCI 5839 (all require minimum grade of B). Restricted to graduate students only.

CSCI 5854 (3) Theoretical Foundations for Cyber-Physical Systems
Requisites: Requires prerequisite course of CSCI 3434 or ECEN 3300 (minimum grade C). Restricted to graduate students only.
Additional Information: Departmental Category: Theory of Computation

CSCI 5880 (3) Interactive Machine Learning for Customizable and Expressive Interfaces
Introduces students to techniques for applying machine learning in the development of customizable human-computer interfaces. Students will learn to process a wide variety of input data (e.g. video and accelerometer streams), using different machine learning algorithms to detect semantically meaningful events that can afford the construction of new interactive systems. They will complete substantial projects within the domains of assistive or creative technologies. Does not fulfill Breadth Requirement for CSEN graduate students.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4889, ATLS 4889 and ATLS 5880
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Artificial Intelligence

CSCI 5900 (1-6) Master's Level Independent Study
Provides opportunities for independent study at the master's level.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Computer Science (CSEN) graduate students or Computer Science Concurrent Degree majors only.
Additional Information: Departmental Category: General Computer Science

CSCI 5919 (3) HCC Survey and Synthesis: Foundations and Trajectories
Examines interdisciplinary field of human-computer interaction through a comprehensive content and historical survey. Considers new trajectories of inquiry and how the field merges with others. "Social computing" is emphasized as a central topic. Students across disciplines will find the course foundational for understanding human-centered technology matters, including computer scientists; social scientists; and business and media arts students.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graphics

CSCI 5922 (3) Neural Networks and Deep Learning
Introduces modern approaches to machine learning using neural networks. Neural nets, popular in the early 1990s, have undergone a resurgence due to significant advances in computing power and the availability of very large data sets. Now rechristened 'deep learning', the field has produced state-of-the-art results in a range of artificial intelligence problems, including vision, speech and natural language processing.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Artificial Intelligence

CSCI 5929 (3) HCC Survey and Synthesis: New Disciplinary Directions
Studies recent advances in human-computer interaction through critical analysis of influential papers and self-guided research. Examines new paradigms in input, output, and visualization for technology design and interaction. Considers innovative methods to assess various population design and technological needs. Studies in computer-related fields, social science, business, media arts and communications benefit learning about human-centered computing research.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite CSCI 5919.
Additional Information: Departmental Category: Graphics

CSCI 6000 (1) Introduction to the Computer Science PhD Program
Instructs new Ph.D students in Computer Science how to obtain a Ph.D and how to become an effective member of the computer science research community. Makes students aware of formal requirements, educational objectives, and research themes. Provides evaluative criteria and guidelines for all objectives to be achieved.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: General Computer Science

CSCI 6268 (3) Foundations of Computer and Network Security
Studies methods to protect information, and the ability to process and move information, from theft, misuse, tampering, destruction and unauthorized access. Introduces foundational topics of computer and network security, including security models, cryptography and authentication protocols.
Equivalent - Duplicate Degree Credit Not Granted: TLEN 5550
Requisites: Requires prerequisite course of CSCI 5273 (minimum grade B). Restricted to graduate students only.
Additional Information: Departmental Category: Software Engineering
CSCI 6302 (3) Speech Recognition and Synthesis
Introduction to automatic speech recognition and understanding, conversational agents, dialogue systems, and speech synthesis/text-to-speech. Topics include the noisy channel model, Hidden Markov Models, A* and Viterbi decoding, language modeling (N-grams, entropy), concatenative synthesis, text normalization, dialogue and conversation modeling.

Requisites: Restricted to graduate students only.
Recommended: Prerequisites CSCI 5832 or LING 5200 or instructor consent required.

Additional Information: Departmental Category: Artificial Intelligence

CSCI 6402 (3) Issues and Methods in Cognitive Science
Interdisciplinary introduction to cognitive science, examining ideas from cognitive psychology, philosophy, education, and linguistics via computational modeling and psychological experimentation. Includes philosophy of mind; learning; categorization; vision and mental imagery; consciousness; problem solving; decision making, and game-theory; language processing; connectionism. No background in Computer Science will be presumed.

Equivalent - Duplicate Degree Credit Not Granted: EDUC 6504 and LING 6200 and PHIL 6310 and PSYC 6200 and SLHS 6402

Requisites: Restricted to graduate students only.

Additional Information: Departmental Category: Artificial Intelligence

CSCI 6454 (3) Advanced Algorithms
Topics include matching and network flows, matroids, computational geometry, parallel computation (PRAM, hypercube, mesh). Also includes VLSI, database theory, distributed computation, cryptography, robotics, scheduling, probabilistic algorithms, approximation algorithms, average case, and amortized analysis, time permitting.

Requisites: Requires prerequisite course of CSCI 5454 (minimum grade B). Restricted to graduate students only.

Additional Information: Departmental Category: Artificial Intelligence

CSCI 6622 (3) Advanced Machine Learning
Covers advanced theoretical and practical topics in machine learning and latest developments in the field. Students conduct original research, either applied or theoretical, and present their results.

Requisites: Restricted to graduate students only.
Recommended: Prerequisite CSCI 5622 or instructor consent required.

Additional Information: Departmental Category: Theory of Computation

CSCI 6686 (3) Numerical Methods for Constrained Optimization
Covers computational methods for constrained optimization. Topics include basic theory, methods for quadratic programming, active set strategies for linear constraints, and penalty and successive quadratic programming methods for nonlinearly constrained problems.

Requisites: Requires prerequisite course of CSCI 5606 (minimum grade B). Restricted to graduate students only.

Additional Information: Departmental Category: Numerical Computation

CSCI 6800 (1-6) Master of Engineering Project
Students seeking the master of engineering degree must complete a creative investigation project, including a written report, supervised by a member of the graduate faculty. Department enforced prerequisite: completion of 21 hours towards the ME degree.

Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

Requisites: Restricted to graduate student Computer Sciences (CSEN) students only.

Additional Information: Departmental Category: General Computer Science

CSCI 6810 (1) Seminar in Computational Biology
Provides an overview of current research topics in computational biology and health informatics, with a focus on research conducted on campus. Each week students will attend an on-campus seminar or a presentation by an on-campus research group. Prepares students to participate in a research project.

Equivalent - Duplicate Degree Credit Not Granted: CSCI 4810

Additional Information: Departmental Category: General Computer Science

CSCI 6940 (1) Master's Candidate for Degree
For students who need to be registered for the purpose of taking the master's comprehensive exam and who are not otherwise registered. Credit does not count toward degree requirements.

Requisites: Restricted to Computer Science (CSEN) graduate students or Computer Science Concurrent Degree majors only.

Grading Basis: Pass/Fail

Additional Information: Departmental Category: General Computer Science

CSCI 6950 (1-6) Master's Thesis
Requisites: Restricted to Computer Science (CSEN) graduate students or Computer Science Concurrent Degree majors only.

Additional Information: Departmental Category: General Computer Science

CSCI 7000 (1-4) Current Topics in Computer Science
Covers research topics of current interest in computer science that do not fall into a standard subarea.

Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

Requisites: Restricted to graduate students only.

Additional Information: Departmental Category: General Computer Science

CSCI 7123 (3) Topics in Operating Systems
Topics selected by instructor. Possible topics are system design, measurement and evaluation, simulation, mathematical modeling, and parallelism.

Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Requisites: Requires prerequisite course of CSCI 5573 (minimum grade B). Restricted to graduate students only.

Additional Information: Departmental Category: Operating Systems and Hardware

CSCI 7135 (1-3) Topics in Programming Languages
Topics selected by instructor. Possible topics are syntax, semantics, metacompiulers, compiler design, and translator writing systems. Department consent required.

Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Requisites: Restricted to graduate students only.

Additional Information: Departmental Category: Programming Languages

CSCI 7143 (3) Topics in Computer Systems
Topics selected by instructor. Possible topics are online systems, multiprocessing, microprogramming, architecture, data communications, and computing networks. Department consent required.

Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Requisites: Restricted to graduate students only.

Additional Information: Departmental Category: Operating Systems and Hardware
CSCI 7154 (3) Topics in Theory of Computation
Selected topics of current interest in theory of computation.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of CSCI 5454 (minimum grade B). Restricted to graduate students only.
Additional Information: Departmental Category: Theory of Computation

CSCI 7176 (3) Topics in Numerical Computation
Topics selected by instructor. Possible topics are numerical linear algebra, solution of differential equations, nonlinear algebra and optimization, data fitting, linear and nonlinear programming, and solution of large problems. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Numerical Computation

CSCI 7222 (3) Topics in Nonsymbolic Artificial Intelligence
Topics vary from year to year. Possible topics include human and machine vision, signal and speech processing, artificial life, mathematical foundations of connectionism, and computational learning theory.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite CSCI 5622 or instructor consent required.
Additional Information: Departmental Category: Artificial Intelligence

CSCI 7412 (2) Cognitive Science Research Practicum 1
Independent, interdisciplinary research project in cognitive science for advanced graduate students pursuing a joint PhD in an approved core discipline and cognitive science. Research projects integrate at least two areas within the cognitive sciences: psychology, computer science, linguistics, education, philosophy. Students need commitments from two mentors for their project.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 6506 and LING 7415 and PHIL 7415 and PSYC 7415 and SLHS 7418
Requisites: Requires prerequisite course of CSCI 6402 or EDUC 6504 or LING 6200 or PHIL 6310 or PSYC 6200 (minimum grade B). Restricted to graduate students only.
Recommended: Prerequisite EDUC 6505.
Additional Information: Departmental Category: Artificial Intelligence

CSCI 7422 (2) Cognitive Science Research Practicum 2
Independent, interdisciplinary research project in cognitive science for advanced graduate students pursuing a joint Ph.D in an approved core discipline and cognitive science. Research projects integrate at least two areas within the cognitive sciences: psychology, computer science, linguistics, education, philosophy. Students need commitments from two mentors for their project.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 6516 and LING 7425 and PHIL 7425 and PSYC 7425 and SLHS 7428
Requisites: Requires a prerequisite course of LING 7415 or PSYC 7415 or CSCI 7412 or EDUC 6506 (minimum grade B). Restricted to graduate students only.
Additional Information: Departmental Category: Artificial Intelligence

CSCI 7772 (1) Topics in Cognitive Science
Reading of interdisciplinary innovative theories and methodologies of cognitive science. Students participate in the ICS Distinguished Speakers series that hosts internationally recognized cognitive scientists who share and discuss their current research. Session discussions include analysis of leading edge and controversial new approaches in cognitive science.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 7775 and LING 7775 and PHIL 7810 and PSYC 7775 and SLHS 7775
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Artificial Intelligence

CSCI 7818 (3) Topics in Software Engineering
Studies selected topics of current interest in software engineering. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Artificial Intelligence

Computer Science Post-Baccalaureate (CSPB)

Courses

CSPB 1000 (1) Computer Science as a Field of Work and Study
Introduces curriculum, learning techniques, time management and career opportunities in Computer Science. Includes presentations from alumni and others with relevant educational and professional experience. Does not count as Computer Science credit for the Computer Science BA.
Requisites: Restricted to students in the Applied Computer Science Post-baccalaureate program (CSPAP) only.

CSPB 1300 (4) Computer Science 1: Starting Computing
Teaches techniques for writing computer programs in higher level programming languages to solve problems of interest in a range of application domains. Appropriate for students with little to no experience in computing or programming.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 1310 or CSCI 1320 or ECEN 1310 CSCI 1300
Requisites: Restricted to students in the Applied Computer Science Post-baccalaureate program (CSPAP) only.
CSPB 2270 (4) Computer Science 2: Data Structures
Studies data abstractions (e.g., stacks, queues, lists, trees, graphs) and their representation techniques (e.g., linking, arrays). Introduces concepts used in algorithm design and analysis including criteria for selecting data structures to fit their applications.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 2275 CSCI 2270
Requisites: Requires prerequisite course of CSCI 1300 (minimum grade C-). Restricted to students in the Applied Computer Science Post-baccalaureate program (CSAP) only.

CSPB 2400 (4) Computer Systems
Covers how programs are represented and executed by modern computers, including low-level machine representations of programs and data, an understanding of how computer components and the memory hierarchy influence performance.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 2400
Requisites: Requires corequisite course of CSPB 2270 or CSCI 2270. Restricted to students in the Applied Computer Science Post-baccalaureate program (CSAP) only.

CSPB 2824 (3) Discrete Structures
Covers foundational materials for computer science that is often assumed in advanced courses. Topics include set theory, Boolean algebra, functions and relations, graphs, propositional and predicate calculus, proofs, mathematical induction, recurrence relations, combinatorics, discrete probability. Focuses on examples based on diverse applications of computer science.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 2824
Requisites: Requires prerequisite or corequisite course of CSCI 1300 or CSPB 1300 (minimum grade C-). Restricted to students in the Applied Computer Science Post-baccalaureate program (CSAP) only.

CSPB 3022 (3) Introduction to Data Science with Probability and Statistics
Introduces students to the tools methods and theory behind extracting insights from data. Covers algorithms of cleaning and munging data, probability theory and common distributions, statistical simulation, drawing inferences from data, and basic statistical modeling.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 3022
Requisites: Requires prerequisite or corequisite course of CSCI 1300 or CSPB 1300 (minimum grade C-). Restricted to students in the Applied Computer Science Post-baccalaureate program (CSAP) only.

CSPB 3104 (4) Algorithms
Covers the fundamentals of algorithms and various algorithmic strategies, including time and space complexity, sorting algorithms, recurrence relations, divide and conquer algorithms, greedy algorithms, dynamic programming, linear programming, graph algorithms, problems in P and NP, and approximation algorithms.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 3104
Requisites: Requires prerequisite course CSPB 2824 or CSPB 2824 and prerequisite or corequisite course of CSCI 2270 or CSPB 2270 (all minimum grade C-). Restricted to students in the Applied Computer Science Post-baccalaureate program (CSAP) only.

CSPB 3155 (4) Principles of Programming Languages
Studies fundamental concepts on which programming of languages are based, and execution models supporting them. Explores values, variables, bindings, type systems, control structures, exceptions, concurrency, and modularity. Learn how to select a language and to adapt to a new language.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 3155
Requisites: Requires prerequisite courses of CSCI 2270 or CSPB 2270 and CSCI 2400 or CSPB 2400 (all minimum grade C-). Restricted to students in the Applied Computer Science Post-baccalaureate program (CSAP) only.

CSPB 3287 (3) Design and Analysis of Data Systems
Introduces the fundamental concepts of database requirements analysis, database design, and database implementation with emphasis on the relational model and the SQL programming language.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 3287
Requisites: Requires prerequisite course of CSCI 3104 or CSPB 3104 (minimum grade C-). Restricted to students in the Applied Computer Science Post-baccalaureate program (CSAP) only.

CSPB 3308 (3) Software Development Methods and Tools
Covers tools and practices for software development with a strong focus on best practices used in industry and professional development, such as agile methodologies, pair-programming and test-driven design. Students develop web services and applications while learning these methods and tools.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 3308
Requisites: Requires prerequisite or corequisite course of CSCI 2270 or CSPB 2270 (minimum grade C-). Restricted to students in the Applied Computer Science Post-baccalaureate program (CSAP) only.

CSPB 3702 (3) Cognitive Science
Introduces cognitive science, drawing from psychology, philosophy, artificial intelligence, neuroscience, and linguistics. Studies the linguistic relativity hypothesis, consciousness, categorization, linguistic rules, the mind-body problem, nature versus nurture, conceptual structure and metaphor, logic/problem solving and judgment. Emphasizes the nature, implications and limitations of the computational model of mind.
Equivalent - Duplicate Degree Credit Not Granted: LING 3005 and PHIL 3310 and PSYC 3005 and SLHS 3003
Requisites: Requires prerequisite of CSCI 1300 (minimum grade C-) or corequisite of CSCI 1300. Restricted to students in the Applied Computer Science Post-baccalaureate program (CSAP) only.

Recommended: Prerequisites two of the following CSCI 1300 or CSCI 2275 or LING 2000 or PHIL 2440 or PSYC 2145.

CSPB 3753 (4) Design and Analysis of Operating Systems
Analyzes the software that extends hardware to provide a computing environment, including the role of linkers, file systems, resource sharing, security and networking. Studies the history of operating system organization and design and their influence on security, functionality and reliability.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 3753
Requisites: Requires prerequisite courses of CSCI 2270 or CSPB 2270 and CSCI 2400 or CSPB 2400 (all minimum grade C-). Restricted to students in the Applied Computer Science Post-baccalaureate program (CSAP) only.
Requisites:

storytelling, and hybrid media forms.

practices as an extension of "visual thinking" and through approaches to

of media through the production of short projects, discussions, readings,

Requisites:

Working in design groups, students will explore the expressive potential

network analytics, and the biomedical sciences. It covers underlying

approaches for interactive visualizations with applications in various

data. This course introduces design, development, and validation

studies. In lectures and labs students will explore video, sound, the

interests hidden in large-scale data sets, focusing on issues

to effectiveness and efficiency. Topics covered include data

preprocessing, data warehouse, association, classification, clustering,

and mining specific data types such as time-series, social networks,

multimedia, and Web data.

Equivalent - Duplicate Degree Credit Not Granted: CSCI 5502 and

CSCI 4502

Requisites: Requires prerequisite course of CSCI 2270 or CSPB 2270

(minimum grade C). Restricted to students in the Applied Computer

Science Post-baccalaureate program (CSAP) only.

CSPB 4122 (3) Information Visualization

Studies interactive visualization techniques that help people analyze
data. This course introduces design, development, and validation

approaches for interactive visualizations with applications in various

domains, including the analysis of text collections, software visualization,

network analytics, and the biomedical sciences. It covers underlying

principles, provides an overview of existing techniques, and teaches the

background necessary to design innovative visualizations.

Equivalent - Duplicate Degree Credit Not Granted: CSCI 4122

Requisites: Requires prerequisite or corequisite courses CSCI 1300

or CSPB 1300 and CSCI 2824 or CSPB 2824 (all minimum grade

C). Restricted to students in the Applied Computer Science Post-
baccalaureate program (CSAP) only.

CSPB 4502 (3) Data Mining

Introduces basic data mining concepts and techniques for discovering

interesting patterns hidden in large-scale data sets, focusing on issues

related to effectiveness and efficiency. Topics covered include data

preprocessing, data warehouse, association, classification, clustering,

and mining specific data types such as time-series, social networks,

multimedia, and Web data.

Equivalent - Duplicate Degree Credit Not Granted: CSCI 5502 and

CSCI 4502

Requisites: Requires prerequisite course of CSCI 2270 or CSPB 2270

(minimum grade C). Restricted to students in the Applied Computer

Science Post-baccalaureate program (CSAP) only.

Critical Media Practices (CMDP)

Courses

CMDP 1400 (4) Introduction to Contemporary Media Cultures

Prepares students for critical practices in contemporary media cultures

in a global context. Explores the diversity of media practices, including

narrative and non-narrative forms, emphasizing aesthetics and visual

studies. In lectures and labs students will explore video, sound, the

internet and other multi-media platforms of expression.

CMDP 2010 (3) Information, Media and Technology

Surveys the history of information technologies and modern techniques

of information production, storage, transmission and retrieval. Equips

students with an understanding of technological transformations in

interpersonal, organizational and mass communication. Emphasis is

on the technological, social and political changes that underlie the

movement toward a digital society.

CMDP 2100 (3) Approaches to Historical Media Practices

Investigate historical and cultural discourses in the formation of media

practices. Examines practices such as performance media; cinematic

media, media art, and their aesthetic alignment to cognate movements

throughout history.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

CMDP 2500 (3) Introduction to Media Practices

Working in design groups, students will explore the expressive potential

of media through the production of short projects, discussions, readings,

formal analysis, and critique. Provide a basic introduction to media

practices as an extension of "visual thinking" and through approaches to

storytelling, and hybrid media forms.

Requisites: Requires a prerequisite course of CMDP 1400 (minimum

grade C).

CMDP 2510 (1-3) Critical Media Practices Workshop I

Training in narrow topics of media practices.

Repeatable: Repeatable for up to 3.00 total credit hours.

CMDP 2820 (3) Exploring Culture and Gender Through Film

Explores the concepts of culture and gender from an anthropological

perspective through media. By experiencing texts, images and sounds

about other ways of life, students will learn the basic concepts of

cultural anthropology and learn to think critically about documentary and

ethnographic media material.

CMDP 2860 (2) Performance Audio Recording

Provides an overview of the recording process from the performer's

perspective from soundcheck through final mastering, addressing

contemporary issues in technology, web, and performance media. Uses

recorded material from in-class sessions.

Equivalent - Duplicate Degree Credit Not Granted: MUSC 2081

Requisites: Restricted to College of Music (MUSCU) or Department of

Critical Media Practices (DCMP) undergraduate students only.

CMDP 2870 (2) Recording Design

Provides hands-on instruction in various sound recording techniques.

Addresses acoustics, sound reinforcement, studio maintenance and

troubleshooting. Taught through labs and individual recording projects.

Equivalent - Duplicate Degree Credit Not Granted: MUSC 2091

Requisites: Requires prerequisite course of CMDP 2860 or MUSC 2081

(minimum grade D). Restricted to College of Music (MUSCU) or

Department of Critical Media Practices (DCMP) undergraduate students

only.

CMDP 3110 (3) Electronic Arts Survey

Explores the development of electronic media art through screenings,

readings, lectures and discussions.

Requisites: Requires prerequisite course of CMDP 1400 (minimum grade

C).

CMDP 3210 (3) Interactive Digital Cultures

Examines how the uses of interactive media have changed the classical

dynamics of human communication, allowing multidirectional, non-linear

and multimedia practices. In this course, students will study the various

aesthetic, narrative, emotional and cultural elements of the interface in

areas such as non-linear video, the web, games and hypermedia.

Requisites: Requires prerequisite course of CMDP 1400 (minimum grade

C).

CMDP 3310 (3) Performance Media Cultures

Reflect on the cultural construction of old and new performance media

through the lens of emerging practices and contemporary discourse.

From ancient theatre to cinema, interactive television to YouTube,

and multi-media dance performances to computer games, this course

explores how media shape, and are shaped by, various historical and

contemporary audiences and contexts.

Requisites: Requires prerequisite course of CMDP 1400 (minimum grade

C).

CMDP 3350 (3) Modes of Documentary Media History

Introduces students to the variety of practices by examining their

emergence, evolution and cultural impact in the global sphere. Students

discover the major themes and genres in documentary work from

photography, cinema, audio, hypermedia and the public debates they

have engendered. Through lectures, screenings and research, develop

critical perspectives on the international and transcultural dimensions of

documentary media history.

Requisites: Requires prerequisite course of CMDP 1400 (minimum grade

C).
 CMDP 3400 (3) Media Aesthetics
Builds students’ ability to watch, reflect on, and write about media images. The course will be grounded in the analysis of media practices with special focus on media style and storytelling techniques. Explores media aesthetics from formal, cultural, and theoretical perspectives. Formerly CMDP 2400.

 Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

 CMDP 3450 (3) Critical Perspectives in Media Practices
Examines the contemporary landscape of media practices across platforms, such as film, social media, painting, video, and web art. This integrative exploration focuses on production contexts, circulation and reception through the lens of critical and interpretive frameworks. Drawing from key texts by major scholars and the works of media practitioners, students develop globally informed, critical perspectives for understanding.

 Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C-).

 CMDP 3510 (1-3) Critical Media Practices Workshop II
Training in narrow topics of media practices. Open to CMCI students and by permission of the instructor.

 Repeatable: Repeatable for up to 7.00 total credit hours.

 Requisites: Requires a prerequisite course of CMDP 2500 (minimum grade C-).

 CMDP 3600 (3) Creative Media Making
Focus on developing an understanding of the principles, forms and aesthetics of media production. Working in design groups on small-scale media preproduction and production exercises, screenings and critiques, students learn creative solutions to problems in realizing expressive media projects. Formerly CMDP 2600.

 Requisites: Requires prerequisite of CMDP 2500 (minimum grade C-).

 CMDP 3610 (3) Contemporary Image Making Practices
Provides students the technical skills for in depth exploration of the evolving principles and strategies of digital image making. Students will create small-scale projects with the primary emphasis on cinematographic experimentation and innovative visual techniques.

 Requisites: Requires prerequisite course of CMDP 3700 (minimum grade C).

 CMDP 3620 (3) Images and Stories
Learn and apply innovative non-traditional approaches to scripting and storytelling, including automatic thinking, idea sketches, visual notes, outlines and storyboards, serials, aleatoric methods, diagrams, locations, photographs and short stories. Focuses on methods of exploring scripting methods outside of the fixed and rule-bound traditional model of storytelling as a means of introducing students to discover their own scripting techniques.

 Requisites: Requires a prerequisite course of CMDP 3600 (minimum grade C-).

 CMDP 3700 (3) Digital Photographic Practices
Explores the creative possibilities of photography; students work on projects that combine concepts and techniques with contemporary practice and current modalities of exhibition and social distribution. Emphasis is placed on the student’s personal growth through aesthetic and intellectual development in relation to current technologies. Formerly CMDP 3500.

 Requisites: Requires prerequisite course of CMDP 3600 (minimum grade C-).

 CMDP 3710 (3) Digital Design
Introduces techniques, software and related concepts of digital design and image making through individual and group projects. Emphasizes digital animation, digital audio, digital video and website design and development as a means to formal and expressive ends. Introduces students to critical readings and theories related to digital media practice.

 Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C-).

 CMDP 3720 (3) Multimedia Composition
Combine writing with media such as video, music, animation and podcasting on the computer. Includes a unit on web-site design and ends with each student creating their own website and posting on it the project they created for the course.

 CMDP 3730 (3) Media Production Methods and Ideas
Explores creative approaches to idea formation, conceptualization, and organization for the moving image employing critical thinking, improvisation and visual storytelling techniques. Includes forms of creative writing, storytelling and preproduction techniques and strategies. Previously CMDP 2710.

 CMDP 3740 (3) Animation
Explore computer animation in the making of short projects that may address topics such as: nonfiction, immersive environments and digital compositing. Designed to develop the student’s understanding of movement, timing, scripting, editing and color composition. Through screenings and discussions students will gain an appreciation of history and practices of animation.

 Requisites: Requires a prerequisite course of CMDP 2500 (minimum grade C-).

 CMDP 3780 (3) Documentary Media Poetics
Investigates documentary cinema and media practices through class discussions, research papers, hands on exercises and the screenings. Cross-references documentary photography and moving-image documentary in the production of short digital projects. Explores the distinctive contributions of digital technologies to documentary image making. Formerly CMDP 2810.

 Requisites: Requires prerequisite course of CMDP 2500 (minimum grade C-).

 CMDP 3810 (3) Engaged Documentary Media Practices
Combining research, scripting methods and field trips, students produce short media non-fiction storytelling projects emerging from an engagement with historical events, contemporary issues and the world around us.

 Requisites: Requires prerequisite courses of CMDP 2500 and CMDP 3800 (all minimum grade C-).

 CMDP 3820 (3) Performance Media Practices
Develop a performance vocabulary within the context of various media platforms. Through creating individual and collaborative performance projects, students will explore performance design issues such as movement, blocking and staging with projection, sensors, sound and other media tools.

 Requisites: Requires a prerequisite course of CMDP 2500 (minimum grade C-).
CMDP 3830 (3) Advanced Performance Media Workshop
Study practical, technical and theoretical strategies of performing with and through media. This is an in-depth course that investigates a narrow scope drawn from topics that may include dance/movement, the illustrated lecture, projection environments, digital sensing, responsive lighting or acoustic strategies for performance.
Requisites: Requires prerequisite course of CMDP 3820 (minimum grade C).

CMDP 3840 (3) Sound Practices
Explores the aesthetics of sound through the study of sound art and sound culture. Reading and discussion covers theories, technologies, and histories that drive the medium. Students apply concepts by designing and building their own soundscapes. Classes will be organized around hands-on activities, lecture, and discussion of readings.
Requisites: Requires prerequisite course of CMDP 2500 or CMDP 2860 or MUSC 2081 (minimum grade C). Restricted to College of Music (MUSCU) or Department of Critical Media Practices (DCMP) undergraduate students only.

CMDP 3860 (3) Introduction to Music Technology
Surveys the various tools and techniques in the field of music technology. Topics include an introduction to basic synthesis, digital signal processing, MIDI and audio sequencing, music notation and a historical perspective on electronic music.
Equivalent - Duplicate Degree Credit Not Granted: MUSC 2061 and MUEL 2061
Requisites: Restricted to College of Music (MUSCU) or Department of Critical Media Practices (DCMP) undergraduate students only.

CMDP 3910 (3) Media Production Topics
Rotating topics in media production techniques.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires a prerequisite course of CMDP 2500 (minimum grade C).

CMDP 3990 (3) Media Professional Seminar
Learn aspects of professional development in media production. Through workshops, class trips and assignments students will learn of the many opportunities found within media production.
Requisites: Requires a prerequisite course of CMDP 2500 (minimum grade C).

CMDP 4110 (3) Cultures of Digital Sound
Introduces students to a variety of critical scholarship and debates about our sonic environment through an examination of how sound interfaces with different facets of media production. Consisting of listening, analyzing and differentiating sound in different contexts, students will deepen their understanding of the relationship between sight and sound in cultural production.
Requisites: Requires a prerequisite course of CMDP 2500 (minimum grade C).

CMDP 4220 (3) Digital Archives in Media Practices
Examine the theories and methods underpinning the use of archival materials in non-fiction media production while simultaneously exploring questions of ethics, truth and representation that the use and manipulation of archives raises. Through weekly lectures, seminars, readings and screenings, students will discover the theories and interpretive approaches to understanding the archive and its uses.
Requisites: Requires a prerequisite course of CMDP 1400 (minimum grade C).

CMDP 4310 (3) Screen Culture and Globalization
Examine the formation of screen cultures (narrative, experimental, documentaries and multi-media video art) in the context of the cultural globalization of the moving image. Through lectures, seminars and research projects students explore the formation and evolution of screen cultures on various platforms such as digital cinema, web environments, video art, multi-channel installations and the moving image on mobile interfaces.
Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C).

CMDP 4320 (3) Media Engagement in Digital Diasporas
Offers students critical and interpretive frameworks for understanding the cultural and historical significance of digital diasporas and these communities’ use of digital technologies for communication, community building and the creation of digital documents about migration and connectivity with the homeland.
Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C).

CMDP 4410 (3) Topics in Contemporary Media Technologies
Focus on the development and application of media technologies in moving image aesthetics and emergent media practices. Topics rotate according to faculty expertise, but may include new imaging technologies for small screen and mobile devices, web-specific media or emerging modes of production. Through lectures, screenings and seminar, students explore the work of contemporary thinkers and practitioners in the field.
Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C).

CMDP 4450 (3) Topics in Contemporary Media Technologies
Focus on the development and application of media technologies in moving image aesthetics and emergent media practices. Topics rotate according to faculty expertise, but may include new imaging technologies for small screen and mobile devices, web-specific media or emerging modes of production. Through lectures, screenings and seminars, students explore the work of contemporary thinkers and practitioners in the field.
Requisites: Requires prerequisite course of CMDP 1400 (minimum grade C).

CMDP 4610 (3) Small Screen Storytelling
Shoot footage on or for mobile screens including narratives, microdocumentaries, music videos, short stories and collaborative exquisite corpse projects. Students will complete work and distribute through various outlets on the internet.
Requisites: Requires prerequisite course of CMDP 2500 (minimum grade C).

CMDP 4620 (3) Media Environments
Explore the design and implementation of multimedia environments. Students will develop strategies for creating media exhibitions and/or performance environments with projection and sounds activated by sensors. This course is ideal for performers, dancers and media artists as well as those desiring to present information in novel ways, such as working with archival or non-fiction materials.
Requisites: Requires prerequisite course of CMDP 3830 (minimum grade C).
CMDP 4630 (3) Introduction to Computational Media
Develop the technical and conceptual skills for computational media practices. Through individual and collaborative projects, students will explore the creative use of electronics and microcontrollers (including wearable and other embedded systems) through relevant programming environments. Introduces visual programming with a focus on signal processing for image and sound.
Requisites: Requires a prerequisite course of CMDP 2500 (minimum grade C-).

CMDP 4640 (3) Multimedia Sound
Learn what sound is and where it comes from; how to create, analyze, alter, mix, and record it digitally in the studio and in the field; and how it can interact creatively with other media. In addition to analyzing how professionals use sound, students will create five sound-based projects of their own.

CMDP 4710 (3) Projection Practices
Design and implement projection-based media projects and explore projection practice as a distinct field. Through individual and collaborative projects, this course explores projection for live events, installation, moving images and site-specific or community-based projects. Students will be introduced to emergent software and hardware for projection design.
Requisites: Requires a prerequisite course of CMDP 2500 (minimum grade C-).

CMDP 4720 (3) Installation and Performance Media
Focusing on live image and sound processing in constructed or natural environments, students will work individually or collaboratively on an installation project that engages with the intersection of performance and media. Potential models include site specific work, illustrated lecture, gallery installation, movement and dance with projection mapping, participatory media and virtual environments.
Requisites: Requires prerequisite course of CMDP 4620 (minimum grade C-).

CMDP 4730 (3) Digital Art and Emergent Technologies
Explores digital artistic practices across contexts and disciplines in various contexts. Emphasizes web and networked media as it applies to digital practices in sound, image, language, spatial and time-based arts.
Requisites: Requires a prerequisite course of CMDP 2500 (minimum grade C-).

CMDP 4810 (3) Advanced Documentary Practices
Combine research and production to produce short documentary media projects, which explore the world we live in. Focusing on practice, this course explores stylistic options employed on documentaries that give voice to different perspectives on the world. Students will be able to identify the tactics and strategies of documentaries in a variety of media, and will include visits with professional documentary makers. Students will complete a final documentary project.
Requisites: Requires prerequisite course of CMDP 3810 (minimum grade C-).

CMDP 4820 (3) Ethnographic Media
Explores emerging creative documentary practices through visual research, fieldwork, oral histories and the construction of innovative ethnographies. Through ethno-fiction, eco-ethnography, photography, indigenous media and cinema, students explore the development of ethnographic documentary and visual anthropology in both traditional and experimental forms. Projects are developed with an emphasis on the ethical and political challenges of representation through media technologies.
Requisites: Requires prerequisite course of CMDP 4810 (minimum grade C-).

CMDP 4841 (1-4) Undergraduate Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

CMDP 4860 (2) Computer Composition
Learn strategies and techniques for generating and manipulating sound with computer-specific tools. Students’ projects will include compositions, soundscapes, ambient environments and soundtracks for multimedia and performance projects.
Equivalent - Duplicate Degree Credit Not Granted: MUEL 4111
Requisites: Requires prerequisite course of CMDP 3860 or MUEL 4081 (minimum grade D-).

CMDP 4870 (3) Sound and Technology Topics
Exploration of issues, techniques and tools of music and sound technology. Topics vary and may include: interactive systems for performance; music and mobile media; electronic music instrument design; digital synthesis and signal processing; music in multimedia; sound practices and analysis. Lecture during work sessions will support student projects.
Requisites: Requires prerequisite course of CMDP 3860 or MUEL 4081 (minimum grade C-).

CMDP 4900 (3) Concepts and Practices of Contemporary Media
Explores the application of new media technologies in depth, and engages students in an ongoing dialogue about the cultural context of new media technologies and their own work. Students will produce a major media project that synthesizes methods of media making into modes of communication and expression. This is the capstone course for undergraduates in Media Production.
Requisites: Requires prerequisite course of CMDP 3860 or MUEL 4081 (minimum grade C-).

CMDP 4931 (1-6) Internship
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite of CMDP 3600 (minimum grade C-). Restricted to MDPD majors.

CMDP 5100 (3) Research and Methodologies Seminar
Explores documentary media preproduction tactics and strategies, including basic research approaches, planning, pre-visualization, stylistic approaches, scheduling, working with archive and documentary materials, and documentary ethics.
Requisites: Restricted to graduate students only.

CMDP 5370 (3) Choreography, Cinematograph: Writing in Motion
Examine media and moving image aesthetics, tactic and strategies by creating work involving movement and expanded notions of choreography. Within this course students compose images and sounds, structuring them temporally as they explore narrative and non-narrative forms.
Requisites: Restricted to graduate students only.
CMDP 5450 (3) Contemporary Documentary Media
Explores cross-platform documentary media practices and contemporary debates in documentary through a study of documentary history, genre, ethics and changing forms. It develops skills in critically analyzing documentary media.
Requisites: Restricted to graduate students only.

CMDP 5500 (3) Documentary Production Workshops
Workshopping and developing technical skills in documentary media production.
Requisites: Restricted to graduate students only.

CMDP 5600 (3) Documentary Lab Seminar
Explores and workshops documentary media projects and ideas from a variety of disciplines. A team-taught course, with affiliated faculty working in design groups within the documentary lab in one or more areas, such as Art and Art History, Anthropology or Geography. A total of 12 hours are required for IDMP MFA candidates.
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.

CMDP 5650 (3) Documentary Field Work
Explores distinctive and varied approaches to documentary field work and the uses of media for creative ethnography and other nonfiction practices. A team-taught course, with affiliated faculty from one or more areas such as Art and Art History, Anthropology and Geography.
Requisites: Requires a prerequisite course of CMDP 5100 (minimum grade C). Restricted to graduate students only.

CMDP 5900 (3) Documentary Production Topics
Incorporates reflective study and practice in a course that consists of rotating topics in contemporary documentary practices, such as media essays, observation and participation, personal histories and voices, emergent technologies and documentary media, and interpretive ethnography.

CMDP 5910 (3) Individual Project Study
Requires students to conduct self-directed research and production in a seminar setting. Topics relate to individual projects.
Repeatable: Repeatable for up to 15.00 total credit hours.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

CMDP 6500 (5) Producing Practicum
Explores advanced producing principles through the preproduction of the MFA thesis project, including the development of a professional project proposal.
Requisites: Requires a prerequisite course of CMDP 5650 (minimum grade C).
Grading Basis: Letter Grade

CMDP 6600 (5) Documentary MFA Thesis Seminar I
Explores production of MFA thesis product. Focus is on production strategies, ethical challenges and other practical production issues.
Requisites: Requires a prerequisite course of CMDP 6500 (minimum grade C).
Grading Basis: Letter Grade

CMDP 6650 (5) Documentary MFA Thesis Seminar II
Explores editing and post-production of the MFA thesis project. Emphasizes aesthetic choices (structure, narration and music), distribution, contracts and audience.
Requisites: Requires a prerequisite course of CMDP 6600 (minimum grade C).
Grading Basis: Letter Grade

CMDP 6841 (1-3) Independent Study
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

CMDP 6871 (3) Special Topics
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

CMDP 7100 (3) Historical Overview of Media Arts and Technology
Explores a survey of historical trends in art and technology from the Renaissance to the contemporary global scene. Students investigate how artistic disciplines inform one another and how parallel developments in technology have played a significant role in the history of the arts. This course locates media arts within this broader historical context.
Grading Basis: Letter Grade

CMDP 7150 (3) Theoretical Overview of Media Arts and Technology
Surveys major theories of art, culture and technology formulated by both practitioners and theoreticians and examines conversations among technology studies, media theory and artistic practice. Students will investigate a variety of approaches, locating media arts within a broad range of theoretical perspectives.
Grading Basis: Letter Grade

CMDP 7200 (3) Research and Methodologies I
Introduces students to modalities of research and methodological practices in the context of media arts and technology. Strategies from a variety of academic disciplines will be critically engaged to provide a foundation for future work.
Grading Basis: Letter Grade

CMDP 7250 (3) Research and Methodologies II
Continues a discussion on modalities of research and methodological practices in the context of art and technology. Specific strategies from disciplines relating to students’ individual research topics will be critically engaged to provide a foundation for future work.
Requisites: Requires a prerequisite course of CMDP 7200 (minimum grade C).
Grading Basis: Letter Grade

CMDP 7300 (3) Theories of the Avant-Garde
Explores various manifestations of avant-garde and experimental literature, art and media performance in the 20th century such as Cubism, Futurism, Dada, Surrealism, Theatre of the Absurd, the Situationists, Fluxus, Oulipo and others. Media forms analyzed will include manifestos, sound poetry, theatre, the novel, happenings, cinema, installation and other forms of historical avant-garde art practices.
Grading Basis: Letter Grade

CMDP 7400 (3) Contemporary Practices
Provides students with access to contemporary practices and discourses in media art and culture. The class engages professional practitioners through performances, field work and workshop encounters that may be open to the public. Students research, coordinate and present on biweekly guest presentations, with alternating weeks for reflection and discussion. Readings complement guest presentations.
Grading Basis: Letter Grade

CMDP 7410 (3) Topics in Cultures of Arts and Technology
Rotating topics in critical studies of media arts and technology.
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade
CMDP 7450 (3) Comprehensive Exam Seminar
Designed in a seminar format, this course reviews literature and concepts in all prior coursework and guides students in their preparation for comprehensive exams. All ETMAP students must demonstrate their understanding of the fundamental concepts explored and developed in prior coursework in relation to individual areas of research.
Requisites: Requires prerequisite courses of CMDP 7100 and CMDP 7150 and CMDP 7250 and CMDP 7550 (all minimum grade C-).
Grading Basis: Letter Grade

CMDP 7500 (3) Production Methods I
Provides technical resources for students to work with emergent technologies in a media arts context. This is a team-taught, practice-based course addressing various production methods, from moving image and video to web and network media to computational media.
Repeatable: Repeatable for up to 9.00 total credit hours.
Grading Basis: Letter Grade

CMDP 7550 (3) Production Methods II
Builds on CMDP 7500 in developing technical skills with advanced new media forms. Projects are designed around students’ individual areas of practice.
Requisites: Requires a prerequisite course of CMDP 7500 (minimum grade C-).
Grading Basis: Letter Grade

CMDP 7560 (3) Emergent Technologies: Theory and Practice
Explores how discreet modalities of media arts practices and their underpinning theoretical perspectives inform each other through the use of technology. Students investigate and develop theoretical perspectives on the exchange between art, technology and theory within their own research and the broader context of the contemporary social and cultural landscape.
Requisites: Requires a prerequisite course of CMDP 7150 (minimum grade C-).
Grading Basis: Letter Grade

CMDP 7841 (1-9) Independent Study
Independent Study
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

CMDP 7871 (3) Special Topics
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

CMDP 7910 (3) Topics in Art and Technology: Methods and Ideas
Rotating topics on media arts practices.
Repeatable: Repeatable for up to 6.00 total credit hours.
Grading Basis: Letter Grade

CMDP 8100 (3) Dissertation Development
Designed in a seminar format, this course guides students through the development of a practice-based dissertation in which constant critical thinking is required. Through intensive workshopping and close reading, this class guides students from the dissertation proposal to the opening stages of tangible, original research.
Grading Basis: Letter Grade

CMDP 8500 (3) Collaborative Studio Practice I
Explores approaches to media arts collaboration across disciplines. Through technological and social systems, students investigate the role of the artist. In analyzing contemporary work in an ongoing cycle of discussion, reading and art practice, students will respond to projects, texts and media in form of creative practice.
Requisites: Requires a prerequisite course of CMDP 7450 (minimum grade C-).
Grading Basis: Letter Grade

CMDP 8510 (3) Collaborative Studio Practice II
Continues and expands the notions of collaboration across disciplines and media forms. Culminates in the public presentation of a collaborative project.
Requisites: Requires a prerequisite course of CMDP 8500 (minimum grade C-).
Grading Basis: Letter Grade

CMDP 8600 (1-6) Independent Studio Critique
Work under faculty supervision with individual and group critiques focusing on the development of a practice-based dissertation. Designed to be taken in conjunction with CMDP 8100.
Grading Basis: Letter Grade

CMDP 8991 (1-10) Doctoral Dissertation
Repeatable: Repeatable for up to 40.00 total credit hours.
Requisites: Restricted to graduate students only.

Curriculum Emphasis in Social Responsibility (CESR)

Courses

CESR 3040 (3) Fundamentals of Socially Responsible Leadership
Designed to build on the learning from MGMT 3030 and the rest of the management track curriculum, while adding more depth and breadth around the context managers operate within. Techniques used by current business leaders and seminal leadership scholars to prepare students to handle various leadership situations will be explored. Students will engage in oral and written presentations.
Equivalent - Duplicate Degree Credit Not Granted: ORGN 3040
Requisites: Requires a prerequisite course of BASE 2104 and prerequisite or corequisite course of MGMT 3030 (all minimum grade D-). Restricted to Business (BUSN) majors with 52-180 units completed.

CESR 4000 (3) Leadership Challenges
Focuses on values and leadership at all levels of an organization. High-level executive guest speakers share stories about critical business dilemmas faced in their careers and evaluate student prepared responses to an ethical dilemma they present.
Requisites: Requires a prerequisite course of BASE 2104 (minimum grade D-). Restricted to Business (BUSN) majors with 52-180 units completed.

CESR 4005 (3) Business Solutions for the Developing World: Learning through Service
Explores business opportunities to meet the needs of those living at the base of the economic pyramid. By partnering with organizations such as the Peace Corps and businesses with a social mission, students will learn how business (for-profit, social business, NGOs, social entrepreneurs, etc.) can meet the needs of the poor and operate sustainably.
Equivalent - Duplicate Degree Credit Not Granted: BUSN 3007
Requisites: Requires a prerequisite course of BASE 2104 (minimum grade D-). Restricted to Business (BUSN) majors with 90-180 units completed.
CESR 4010 (3) Microfinance
In the last two decades, microfinance initiatives have provided the primary worldwide impetus to promote economic independence for the poor (1.4 billion). Microfinance links the financial markets with entrepreneurship to create a platform that facilitates financial inclusion to the poor. In a semester long project, students build a hypothetical financial institution that provides access to credit, saving, insurance and other services to a segmented poor population.
Equivalent - Duplicate Degree Credit Not Granted: FNCE 4832
Requisites: Requires a prerequisite course of BASE 2104 (minimum grade D). Restricted to Business (BUSN) majors with 90-180 units completed.

CESR 4130 (3) Sustainable Operations
Sustainable operations examines business strategies in response to environmental and social challenges. Grounded in resource efficiency, life-cycle thinking and a dose of investigative skepticism, the course assists students to thoroughly understand the scope of costs, benefits and risks associated with driving businesses toward sustainable operations.
Equivalent - Duplicate Degree Credit Not Granted: MGMT 4130
Requisites: Requires a prerequisite course of BASE 2104 (minimum grade D). Restricted to Business (BUSN) majors with 52-180 units completed.

CESR 4430 (3) Corporate Boards in Action
Allows students from any functional area of business to appreciate the difficulties modern boards and management face. Issues addressed include financial strategy; board composition; executive succession, tenure and compensation; management through crisis; sustainability and corporate social responsibility; the challenges and opportunities presented by globalization and international governance issues.
Equivalent - Duplicate Degree Credit Not Granted: ORGN 4430
Requisites: Requires a prerequisite course of BASE 2104 (minimum grade D). Restricted to Business (BUSN) majors with 52-180 units completed.

CESR 4440 (3) Privacy in Big Data Analytics
Privacy = the new currency. In a time where technology allows unprecedented aggregation of personal information use of "private" information is moving faster than social norms and laws can follow. We will dissect the technologies and social trends related primarily to privacy and use of information about individuals to reap profits. A good complement to business intelligence and analytics classes.
Equivalent - Duplicate Degree Credit Not Granted: MGMT 4440
Requisites: Requires a prerequisite course of BASE 2104 (minimum grade D). Restricted to Business (BUSN) majors with 52-180 units completed.

CESR 4821 (3) Values & Power of the Consumer in Society
As a critical stakeholder group, consumers have substantial power to shape business behavior. Students will develop an understanding of the roles business can play in society and the options and limitations that consumers have to influence business by exerting their purchasing power. This class is restricted to non-business majors and will not count toward the business major or business minor.
Requisites: Open to Non Business and Non Sponsored Students.

CESR 4825 (3) Experimental Seminar
Offered irregularly to provide opportunity for investigation of new frontiers in Social Responsibility.
Requisites: Requires a prerequisite course of BASE 2104 (minimum grade D). Restricted to Business (BUSN) majors with 52-180 units completed.

CESR 4826 (3) Exp. Sem-Social Entrepreneurship: Designing a Better World
See the future through the eyes of entrepreneurs who are addressing global and social environmental problems such as poverty and deforestation. Can the social ventures they create to solve these problems survive over time and will they achieve the impact they seek? We will meet some of these social entrepreneurs and, in teams, write case studies to tell their stories.
Equivalent - Duplicate Degree Credit Not Granted: ESBM 4826
Requisites: Restricted to non-Business majors with 60-180 units completed.

CESR 4828 (3) Experimental Seminar: Corporate Boards in Action
Explores the complexity of corporate boards and the need for values-driven leadership. Students will consider corporate governance topics including: financial strategy; international challenges; ethics, corporate social responsibility, board composition, compensation and crisis management. Throughout the course, students will evaluate their own leadership and decision making abilities as they work together in student-run boards to address issues presented in a variety of case studies.
Equivalent - Duplicate Degree Credit Not Granted: MGMT 4828
Requisites: Requires a prerequisite course of BASE 2104 (minimum grade D). Restricted to Business (BUSN) majors with 52-180 units completed.

DCE 4900 (1-3) Independent Study
Intended only for exceptionally well qualified business juniors and seniors. Departmental form required. Department enforced prerequisite: dean and instructor consent.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

Dance (DNCE)

Courses

DNCE 1000 (2) Beginning Contemporary Dance Technique
Introduces students to the dynamic capabilities of the body as an articulate means of expression. Presents basic concepts and skills from contemporary dance forms that may include Afro-modern, floor work, inversion, classical modern and improvisation. Classwork develops efficient alignment, strength, flexibility, coordination, rhythm, dynamics and spatial awareness. No experience necessary.
Repeatable: Repeatable for up to 4.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nonmajor Technique

DNCE 1012 (2) Dance Production
Provides the dancer with an introduction to the types of performance venues available today, and their technical systems and equipment. It will also establish an awareness of how technical theatre design arts may be utilized by a choreographer.
Requisites: Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Production
DNCE 1013 (2) Dance Improvisation
An opportunity for students to develop skills of dance improvisation through the exploration of structured movement problems. Students study selected contemporary dance artists whose work stresses improvisation in performance and/or as a training vehicle. Department consent required for dance minors.
**Requisites:** Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Creative Process

DNCE 1017 (3) Dance in Popular Culture and Media
Explores and contextualizes contemporary popular culture and dance. Introduces methods of critical analysis that reveal the rich heritage hidden within and around the dances students commonly encounter at the club, on the street, on television, on the big screen and elsewhere in everyday life. Through watching, reading, and discussion, students discover new meaning in their lived cultural experience.
**Additional Information:** Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Dance and Cultural Studies

DNCE 1020 (1) Beginning Contemporary Dance with Experience
Invites students to deepen their somatic awareness, efficient athleticism, and creative voice through the medium of contemporary dance. Continues the investigation of contemporary dance forms that may include Afro-modern, floor work, inversions, classical modern, and improvisation. Classwork will deepen students’ alignment, strength, flexibility, coordination, rhythm, dynamics and spatial awareness.
**Repeatable:** Repeatable for up to 2.00 total credit hours.
**Recommended:** Prerequisite DNCE 1000 or previous dance experience.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nonmajor Technique

DNCE 1027 (3) Dance in Cultural Perception and Expression
Explores how the practice of dance can reflect, disrupt, subvert, support, and reinforce cultural expectations, norms and practices. Introduces international and domestic dance traditions and provides context for an interdisciplinary examination. Comparative readings from sociology, anthropology, gender studies, history, post-colonial studies, and political science provide a foundation to understand how cultural identities are negotiated and represented through movement.
**Additional Information:** GT Pathways: GT-AH1 - Arts Hum: Arts Expression
Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Dance and Cultural Studies
Departmental Category: Asia Content

DNCE 1091 (1) Modern 1
Introduces basic skills of modern dance. In-class technique work increases muscle strength, flexibility, and coordination. Offered summers only at Perry-Mansfield Performing Arts Camp.
**Repeatable:** Repeatable for up to 2.00 total credit hours.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Major Technique

DNCE 1100 (1) Beginning Ballet
Introduces beginning students to fundamental aspects of classical ballet technique; no previous experience required. Basic principles of alignment, rotation, and movement quality are introduced as the building blocks for success in advanced material. Foundational movements and ballet vocabulary are learned and refined. Students work toward mastery of simple combinations and rhythmic patterns.
**Repeatable:** Repeatable for up to 2.00 total credit hours.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nonmajor Technique

DNCE 1120 (1) Beginning Ballet with Experience
Continues the investigation of contemporary dance forms that may include Afro-modern, floor work, inversions, classical modern, and improvisation. Classwork will deepen students’ alignment, strength, flexibility, coordination, rhythm, dynamics and spatial awareness.
**Repeatable:** Repeatable for up to 2.00 total credit hours.
**Recommended:** Prerequisite DNCE 1000 or previous dance experience.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nonmajor Technique

DNCE 1190 (1) Ballet 1
Beginning ballet covering the basic vocabulary of classical ballet technique. Offered summers only at Perry-Mansfield Performing Arts Camp.
**Repeatable:** Repeatable for up to 2.00 total credit hours.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nonmajor Technique

DNCE 1200 (1) Beginning Jazz Dance
Introduces various styles of movement unique to jazz dance including improvisation, isolations, and African-influenced polyrhythms. Working within a range of dynamic performance styles, students will learn fundamental dance skills and jazz vocabulary, from which more advanced skills can be developed. Designed for students who little or no dance experience.
**Repeatable:** Repeatable for up to 2.00 total credit hours.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nonmajor Technique

DNCE 1220 (1) Beginning Jazz with Experience
Digs deeper into syncopated movement style of the jazz vernacular by continuing the embodied investigation of the Africanist influence on the form. Demands a rigorous awareness of efficient alignment while engaging with complex movement and challenging rhythmic structures.
**Repeatable:** Repeatable for up to 2.00 total credit hours.
**Recommended:** Prerequisite DNCE 1200 or previous dance experience.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nonmajor Technique

DNCE 1290 (1) Jazz 1
Introduces jazz dance, consisting of a technique warm-up, locomotion across the floor, and a series of dance phrases developed into a short dance combination. Offered summers only at Perry-Mansfield Performing Arts Camp.
**Repeatable:** Repeatable for up to 2.00 total credit hours.
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Nonmajor Technique
DNCE 1301 (2) Hip-Hop Dance Technique 1
Introduces students to Hip-Hop dance as a culturally significant form. Students learn history, the social and political forces at work, and the fundamental techniques (Campbell Locking, Popping, Breaking etiquette/movements, Hip-Hop Party Dance and House). Intellectual challenge is offered through the lens of critical race theory and historical context. Training addresses flexibility, sequencing, coordination, and performance skills.
Repeatable: Repeatable for up to 4.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Technique

DNCE 1401 (1) Transnational Fusion Dance: USA and Middle East/North Africa
Introduces a fusion form popularized in 2000: secular dance traditions of the Middle East/North African (MENA) communities in dialog with popular dances of the hip-hop and underground electronic dance music communities. Stretching, hip work, spinal undulations and poly-rhythmic orientations are covered. Educational highlights include discourse regarding cultural appropriation and gender coding in human movement.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Technique

DNCE 1411 (2) Aerial Dance Technique
Study of basic technique skills in aerial dance on single point, low-flying trapeze. Additional skills include choreographic techniques, improvisation, and a historical overview of aerial dance. Through theoretical readings and discussions, this course defines the place of aerial dance in the lineage of modern dance and addresses aesthetics, philosophical approaches to teaching, and safety issues.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Technique

DNCE 1501 (1) Tap Technique
Introduces students to the basic steps and timing of tap technique to develop rhythm, style and clear tap sounds. Exercises focus on building flexibility of the knee and ankles, coordination and speed of movement. A variety of tap styles from Broadway to Rhythm tap will be taught.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Technique

DNCE 1849 (1-3) Independent Study
Involves creative or scholarly investigation of an area of interest to the student not addressed in the curriculum. Work must be arranged with and advised by a faculty member. Freshman level course.
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Departmental Category: Independent Study

DNCE 1901 (1-3) Technique Practicum
Broadens students’ exposure to a range of diverse movement material. Topical course in dance technique, see subtopic for specific form.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Technique

DNCE 1908 (1) First Year Dance Seminar
Designed for new dance majors as an introduction to the place of dance within academia and the professional/public spheres. Through the practice of descriptive dance writing, theoretical and physical exploration of discrete pedagogical and choreographic procedures, and interactions with in-class guest artists of different disciplines, students will engage in independent research and physical experimentation, culminating in a final personal presentation and group performance.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Major Technique

DNCE 2021 (2) Major Technique
Designed for Dance majors. Enrollment by audition only.
Repeatable: Repeatable for up to 16.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Major Technique

DNCE 2091 (1) Modern 2
Continuation of Modern 1. Developmental sequence of modern dance technique designed to refine the technical/expressive skills required of the professional dancer. Offered summers only at Perry-Mansfield Performing Arts Camp.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Major Technique

DNCE 2098 (1) Performance/Repertory
Students learn and perform dances from the repertory of guest artists. Offered summers only.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Performance

DNCE 2141 (1) Low Intermediate Ballet
Builds on an existing understanding of alignment, rotation, and movement quality to introduce more mentally and physically difficult movements and enchainments of the classical ballet vocabulary. Students must be able to demonstrate an embodied familiarity with all traditional barre exercises on the first day of class.
Repeatable: Repeatable for up to 2.00 total credit hours.
Recommended: Prerequisite DNCE 1120 or previous ballet experience.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Technique

DNCE 2191 (1) Ballet 2
Intermediate ballet, covering the complete vocabulary of classical ballet technique. Enchainments are of complex structure. Offered summers only at Perry-Mansfield Performing Arts Camp.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Major Technique

DNCE 2290 (1) Jazz 2
Continuation of Jazz 1. Studies coordination, rhythm/style, and advanced body part isolation in depth. Offered summers only at Perry-Mansfield Performing Arts Camp.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Nonmajor Technique
DNCE 2501 (2) African Dance
Explores the technique, styles, and rhythms of regional and national cultures of Africa. Areas of concentration may vary each semester (e.g. Ghana, Mali, Guinea, etc.). Introduces signature attributes common to different countries' dance traditions and features discussions of the musical traditions, histories, cosmologies, philosophies and aesthetics to contextualize and increase familiarity.

Repeatability: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Technique

DNCE 2701 (2) Contact Improvisation 1
Investigates movement vocabulary and kinesthetic understanding through physical contact and weight-sharing between two or more dancers. Fundamental skills of contact will be introduced and employed in duets and larger group improvisations: rolling, falling, giving and receiving weight, and the use of momentum and gravity.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Major Technique

DNCE 2849 (1-3) Independent Study
Involves creative or scholarly investigation of an area of interest to the student not addressed in the curriculum. Work must be arranged with and advised by a faculty member. Sophomore level course.

Repeatability: Repeatable for up to 7.00 total credit hours.

Additional Information: Departmental Category: Independent Study

DNCE 2901 (1-3) Technique Practicum 2
Topical course (second level) in dance technique, see subtopic for specific form. May require an audition.

Repeatability: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Additional Information: Departmental Category: Major Technique

DNCE 2909 (1-4) Special Topics
Explores topics and research in relation to areas such as technology, environment, teaching methods, performance, world dance, arts in society, and/or criticism that the normal sequence of offerings may not allow.

Equivalent - Duplicate Degree Credit Not Granted: DNCE 4909 and DNCE 5909

Repeatability: Repeatable for up to 7.00 total credit hours.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Independent Study

DNCE 3001 (2) Intermediate/Advanced Contemporary Dance Technique
Challenges intermediate and advanced students to refine their understanding and personal approach to the study of international contemporary dance. Demands a deep sense of somatic awareness, efficient athleticism, and creative voice. Floor work, inversions, and improvisation may be included. No audition required.

Repeatability: Repeatable for up to 6.00 total credit hours.

Recommended: Prerequisite DNCE 1000 or DNCE 1020 or any major technique course ending in "1" or previous dance experience.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Technique

DNCE 3005 (3) Movement Awareness and Injury Prevention for the Dancer
Advances safe and effective dance practices supporting longevity and wellness. Areas explored include experiential anatomy, conditioning, alignment, nutrition, injury prevention, care of common dance injuries, and experience with various somatic practices. Instructor approval required to enroll if outside dance major or minor. Formerly DNCE 2005.

Requisites: Restricted to Dance (DNCE or DBFA) majors or minors only.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Somatic Awareness

DNCE 3014 (2) Inside the Groove: Developing Rhythmic Skills
Enhances rhythmic acuity through intensive rhythmic drills, analytical listening, drumming, notating and creating rhythm-based performance work. Course material explores non-Western rhythmic paradigms, irregular meters, mixed meters, polyrhythms, etc., and how to communicate clearly with a live accompanist in technique class.

Requisites: Restricted to Dance (DNCE or DBFA) majors or minors only.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Music

DNCE 3024 (2) SOUND Choices: Enhancing the Music/Dance Relationship
Examines how musical choices can profoundly affect audiences, dancers and the creative process. Surveys historic and contemporary music styles and influential artists through guided listening and experimentation. Deepens understanding of music, including vocabulary, technology, collaboration skills, ethics, and copyright issues.

Requisites: Restricted to Dance (DNCE or DBFA) majors or minors only.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Music

DNCE 3033 (3) Choreographic Resources
Explores movement invention and strategies of choreographic manipulation of body, space and time. Students add to their toolbox of compositional resources through solo and duet studies. Class interrogates and supports the students' developing language for addressing, critiquing and comprehending compositional choices and structures through verbal and written feedback practice. Can be taken out of sequence with DNCE 3043. Formerly DNCE 2033.

Requisites: Requires a prerequisite course of DNCE 1013 and DNCE 2021 or DNCE 3041 or DNCE 4061 (minimum grade C). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Creative Process

DNCE 3035 (1) Production Practicum
Practical production activities and projects within a designated area of dance design, stage technology, or stage management, normally related to the department's season. Instructor consent required.

Repeatability: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Additional Information: Departmental Category: Production

DNCE 3041 (2) Major Technique
Designed for dance majors. Enrollment by audition only.

Repeatability: Repeatable for up to 16.00 total credit hours.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Major Technique
DNCE 3043 (3) Choreographic Process
Examines physical and spatial relationships via group and site specific work. New methods of creative problem solving unearth and mine one’s imagination and inspiration, cultivating the individual’s unique process of dance-making. Class interrogates and supports students’ developing language for addressing, critiquing and comprehending compositional choices and structures through verbal and written feedback practice. Can be taken out of sequence with DNCE 3033.
Requisites: Requires prerequisite courses of DNCE 1013 and DNCE 2021 or DNCE 3041 or DNCE 4061 (all minimum grade C). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Creative Process

DNCE 3101 (1-3) Ballet Practicum
Practical studio training in ballet at the advanced/professional level with a professional company. Designed for dance majors. Enrollment by audition only.
Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of DNCE 2141 or DNCE 3161 or DNCE 4181 (minimum grade C).
Additional Information: Departmental Category: Major Technique

DNCE 3161 (1) Intermediate Ballet
Surveys a wide range of the intermediate-level classical ballet vocabulary, focusing on an anatomically sound approach to the material. Students must work efficiently to execute the technique with rhythmic accuracy, clarity of line, propriety of style, and fluency in translating names of steps. Enrollment by audition only.
Repeatable: Repeatable for up to 8.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Technique

DNCE 3241 (1) Intermediate Jazz
Expands student's performance of the syncopated movement style of the jazz vernacular. Designed for the experienced jazz dancer. Includes dance techniques that further improves alignment, strength, flexibility, and coordination within the jazz idiom through an emphasis on style, rhythm, and more challenging dance combinations.
Repeatable: Repeatable for up to 2.00 total credit hours.
Recommended: Prerequisite DNCE 1220 or previous dance experience.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Technique

DNCE 3301 (2) Hip-Hop Dance Technique 2
Builds on fundamentals established in Hip-Hop Dance Technique 1. Students deepen their understanding of Hip-Hop history through fundamental movement techniques, specifically House, and study the social/political forces at work. The course focuses on increasing dancers' capacity for variation, sequencing, musicality and free-styling in Hip-Hop dance. Enrollment by audition only. Meets with DNCE 5331.
Repeatable: Repeatable for up to 4.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Technique

DNCE 3601 (2) Alexander Technique for Actors and Dancers
Studies how human reaction, coordination, and movement play a role in all activities. Through in-depth class discussions, movement, exploration, and individualized hands-on lessons, actors and dancers gain an understanding of the technique and its benefits to performance. Meets with DNCE 5601.
Requisites: Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) or Theatre (THTR or TBFA, excludes THTR-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Technique

DNCE 3849 (1-3) Independent Study
Involves creative or scholarly investigation of an area of interest to the student not addressed in the curriculum. Work must be arranged with and advised by a faculty member. Junior level course.
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Departmental Category: Independent Study

DNCE 3901 (1-3) Technique Practicum
Topical course (intermediate level) in dance technique. See subtopic for specific form. May require an audition.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Technique

DNCE 4012 (1) Concert Production
Provides practical experience in producing formal and informal dance concerts. Introduces basic familiarity with production and promotional responsibilities, backstage and front-of-house duties and procedures. Meets with DNCE 5012.
Requisites: Requires a prerequisite course of DNCE 1012 (minimum grade C). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Major Technique

DNCE 4015 (3) Movement Analysis
Introduces Rudolf Laban’s theories of movement and exposes several body therapies to heighten students’ awareness of movement as a multifaceted (neuromuscular/spatial/dynamic) event. Emphasizes refinement of movement, observation skills, and improvement of performance. Meets with DNCE 5015.
Requisites: Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.

DNCE 4016 (3) Creative Dance for Children
Methods course for prospective teachers of creative dance for children. Lectures, readings and laboratory experiences are followed by observation and teaching in primary grades.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 5016
Requisites: Requires a prerequisite course of DNCE 2033 (minimum grade C). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
DNCE 4017 (3) Dancing Histories: Sex, Gender and Race in U.S. Concert Dance
Traces the evolution of American concert dance through roots in select dance forms, including dances of the African Diaspora, Ballet, Social Dance, Jazz, Modern, and Folklorico. Studies specific dance artists, the backdrop of social, political, economic, and environmental issues.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 5017
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite or corequisite a Human Diversity core requirement course.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Dance and Cultural Studies

DNCE 4023 (2) Performance Improvisation Techniques
Explores movement and vocal improvisational techniques to enhance creative, interdisciplinary, collaborative and performance skills. Helps individuals expand their definition of performance, discover and access the diversity of the human instrument and employ improvisation to create personal and social commentary.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 5023
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Creative Process

DNCE 4036 (3) Dance Teaching Practices: Inclusive Approaches to Instruction
Focuses on deepening the artistic voice and engaging with other art forms. Students explore the integration of technology and collaboration in creative projects and continue to engage in an objective critical process of their own work and the work of others. Meets with DNCE 5053.
Requisites: Requires a prerequisite course of DNCE 3043 (minimum grade C). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Pedagogy

DNCE 4037 (3) Contemporary Concert Dance: Shifting Perspectives in Performance
Focuses on the development of perceptual, descriptive, and analytical skills as well as the ability to apply cultural and critical theory to 20th and 21st century concert dance. Specific pieces of choreography are looked at from a broad range of perspectives.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite or corequisite a Human Diversity core requirement course.
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Dance and Cultural Studies

DNCE 4038 (1-3) Dance Repertory
Learning and performing dances from the repertory of current faculty members, artists-in-residence and upon occasion from the repertory of historic modern dancers. Dance majors may repeat up to 9 total credit hours with different instructors. Enrollment by audition only.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 5038
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

DNCE 4046 (1) Teaching Practicum
Designed to give students supervised practical teaching skills through practice teaching, discussion, observation (in-person and video), reflection and feedback. Students will develop age appropriate lesson plans, define and refine principles of classroom management and understand the needs of diverse groups of students in a community, academic (K-12) and/or studio setting. All genres of dance are topic relevant.
Requisites: Requires a prerequisite course of DNCE 4036 (minimum grade C). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Departmental Category: Pedagogy

DNCE 4047 (3) Hip-Hop Dance History
Addresses the origin and evolution of American Hip-Hop dance rooted in a theoretical structure that springs from the elemental nature of the African Diaspora. Emphasis placed on the social, political, and economic environment in which it was fashioned. Pioneers, innovators, terminology, and styles will be identified. Course includes lectures, readings, audio/video analysis and discussion. Meets with DNCE 5047.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Dance and Cultural Studies

DNCE 4053 (3) Advanced Dance Composition
Focuses on deepening the artistic voice and engaging with other art forms. Students explore the integration of technology and collaboration in creative projects and continue to engage in an objective critical process of their own work and the work of others. Meets with DNCE 5053.
Requisites: Requires a prerequisite course of DNCE 3043 (minimum grade C). Restricted to Dance (DNCE or DBFA, excludes DNCE-MIN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Creative Process

DNCE 4061 (2) Major Technique
Designed for dance majors. Enrollment by audition only.
Repeatable: Repeatable for up to 16.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Major Technique

DNCE 4128 (1) Ballet Repertory
Develops understanding of the ballet canon through practice of major soloists from Romantic, Classical, and New-Classical ballets. For the advanced classical ballet student. Enrollment by audition only. Meets with DNCE 5128.
Repeatable: Repeatable for up to 2.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Performance

DNCE 4181 (1) Advanced Ballet
Investigates the full range of the advanced-level classical ballet vocabulary, focusing on an anatomically sound approach to the material. Exercises require strength and a deeply subtle understanding of principles of alignment, rotation, epaulement, and movement quality. Class moves quickly through enchainments of complex structure. Enrollment by audition only.
Repeatable: Repeatable for up to 8.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Technique
DNCE 4261 (1) Advanced Jazz Dance Technique
Refines advanced students' approach to the nuances and virtuosity of jazz idiom. Emphasis is placed on efficient use of alignment, complex polyrhythmic explorations and improvisations, and dynamic performance style. Class moves quickly through material and demands a high level of proficiency. Enrollment by audition only. Meets with DNCE 5261.
Repeatable: Repeatable for up to 4.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Technique

DNCE 4701 (2) Contact Improvisation 2
Builds upon skills introduced in DNCE 2701 and moves into more rigorous exploration of weight sharing principles. Emphasis will be placed on ease and efficiency in partnering, and integrating this work into choreography and performance. Meets with DNCE 5701.
Requisites: Requires a prerequisite course of DNCE 2701 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Major Technique

DNCE 4849 (1-3) Independent Study
Involves creative or scholarly investigation of an area of interest to the student not addressed in the curriculum. Work must be arranged with and advised by a faculty member. Senior level course.
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Departmental Category: Independent Study

DNCE 4909 (1-4) Special Topics
Explores topics and research in relation to areas such as technology, environment, teaching methods, performance, world dance, arts in society, and/or criticism that the normal sequence of offerings may not allow.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 2909 and DNCE 5909
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Independent Study

DNCE 4919 (1-3) Dance Practicum
Project in dance under supervision of senior faculty.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 5919
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Independent Study

DNCE 4939 (1-3) Dance Internship
Provides an opportunity for upper-division dance majors to serve apprenticeships in the community in work areas related to their major interests and career goals. Internships are available in areas such as arts administration, dance therapy, and technical production. Instructor consent required.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: Independent Study

DNCE 5001 (2) Graduate Technique
Repeatable: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Major Technique

DNCE 5012 (1) Concert Production
Meets with DNCE 4012.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Production

DNCE 5014 (2) Inside the Groove: Developing Rhythmic Skills for Graduates
Enhances rhythmic acuity through intensive rhythmic drills, analytical listening, drumming, notation and creating rhythm-based performance work. Course material explores non-Western rhythmic paradigms, irregular meters, mixed meters, poly-meter, polyrhythms, etc., and how to communicate clearly with a live accompanist in technique class. Meets with DNCE 3014.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Music

DNCE 5015 (3) Movement Analysis
Introduces Rudolf Laban's theories of movement and exposes several body therapies to heighten students' awareness of movement as a multifaceted (neuromuscular/spatial/dynamic) event. Emphasizes refinement of movement, observation skills, and improvement of performance. Meets with DNCE 4015.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Movement Awareness

DNCE 5016 (3) Creative Dance for Children
Methods course for prospective teachers of creative dance for children. Lectures, readings and laboratory experiences are followed by observation and teaching in primary grades.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 4016 (with addition of readings and a paper)
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Pedagogy

DNCE 5017 (3) Dancing Histories: Sex, Gender and Race in U.S. Concert Dance
Traces the evolution of American concert dance through roots in select dance forms, including dances of the African Diaspora, Ballet, Social Dance, Jazz, Modern, and Folklorico. Studies specific dance artists against the backdrop of social, political, economic, and environmental issues.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 4017, with addition of graduate papers and/or a project
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Dance and Cultural Studies

DNCE 5023 (2) Performance Improvisation Techniques
Explores movement and vocal improvisational techniques to enhance creative, interdisciplinary, collaborative and performance skills. Helps individuals expand their definition of performance, discover and access the diversity of the human instrument and employ improvisation to create personal and social commentary.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 4023 (with the addition of written analysis and creative assignments)
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Creative Process

DNCE 5024 (2) SOUND Choices: Enhancing the Music/Dance Relationship
Examines how musical choices can profoundly affect audiences, dancers, and the creative process. Surveys historic and contemporary music styles and influential artists through guided listening and experimentation. Deepens understanding of music, including vocabulary, technology, collaboration skills, ethics, and copyright issues. Meets with DNCE 3024.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Music
DNCE 5036 (3) Dance Teaching Practices: Inclusive Approaches to Instruction
Examines legal, practical, pedagogical and philosophical issues in current dance education. Goals and content of professional and recreational dance training are considered and strategies for effective teaching practice are discussed. All genres of dance may be utilized depending on the specialties of participants.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 4036
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Pedagogy

DNCE 5038 (1-3) Dance Repertory
Learning and performing dances from the repertory of current faculty members, artists-in-residence and upon occasion from the repertory of historic modern dancers. Graduate students are required to keep a log of the learning process involved in repertory to document and analyze each work in terms of stylistic differences, musical/sound accompaniment and trends. Dance majors may repeat up to 9 total credit hours with different instructors. Enrollment by audition only.
Equivalent - Duplicate Degree Credit Not Granted: DNCE 4038
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Performance

DNCE 5047 (3) Hip-Hop Dance History
Addresses the origin and evolution of American Hip-Hop dance rooted in a theoretical structure that springs from the elemental nature of the African Diaspora. Emphasis placed on the social, political, and economic environment in which it was fashioned. Pioneers, innovators, terminology, and styles will be identified. Course includes lectures, readings, audio/video analysis and discussion. Meets with DNCE 4047.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Dance and Cultural Studies

DNCE 5048 (3) Performance and Community Engagement
Engages students in the power of performance for effecting positive social change. Students research collaboratively to create performances and workshop experiences to intentionally author the future they want. Readings provide theoretical foundations that serve as the basis for creative work. Students engage in creative explorations. Open to all forms of performance.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Performance

DNCE 5052 (1-3) Studio Concert
Provides the opportunity for choreographic and performative synthesis and experimentation via the execution of a project related to the student’s major area of creative research. Project must be approved by the student’s first reader.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Production

DNCE 5053 (3) Advanced Dance Composition
Meets with DNCE 4053.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Creative Process

DNCE 5056 (2) Graduate Teaching Seminar
Examines practical, pedagogical, philosophical, and legal issues in current dance education. The goals and content of professional and recreational dance training are considered and strategies for effective teaching practice are discussed. Provides practice in practical application of theoretical material. All genres of dance may be utilized.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Pedagogy

DNCE 5064 (2) Music and Dance Seminar: Collaboration
Investigates music in relation to dance performance, choreography, and teaching. Topics may include: a survey of musical styles and composers; direct experimentation with composition and recording techniques; enhancement of rhythmic versatility; work with accompanist/composers; and/or improvement of analytical listening and writing skills.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Music

DNCE 5101 (1) Intermediate Graduate Ballet
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Major Technique

DNCE 5128 (1) Ballet Repertory
Develops understanding of the ballet canon through practice of major solos from Romantic, Classical, and Neo-Classical ballets. For the advanced classical ballet student. Enrollment by audition only. Meets with DNCE 4128.
Repeatable: Repeatable for up to 2.00 total credit hours.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Performance

DNCE 5261 (1) Advanced Jazz Dance Technique
Refines advanced students’ approach to the nuances and virtuosity of the jazz idiom. Emphasis is placed on efficient use of alignment, complex polyrhythmic explorations and improvisations, and dynamic performance style. Class moves quickly through material and demands a high level of proficiency. Enrollment by audition only. Meets with DNCE 4261.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Performance

DNCE 5301 (2) Graduate Hip-Hop Technique 1
Introduces students to Hip-Hop dance as a culturally significant form. Students learn history, the social and political forces at work and the fundamental techniques (Campbell Locking, Popping, Breaking etuque/movements, Hip-Hop Party Dance and House). Intellectual challenge is offered through the lens of critical race theory and historical context. Training addresses flexibility, sequencing, coordination and performance skills.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Major Technique

DNCE 5331 (2) Graduate Hip-Hop Technique 2
Students deepen their understanding of Hi-Hop history through fundamental movement techniques, specifically, House, and study the social/political forces at work. Focuses on increasing dancers’ capacity for variation, sequencing, musicality and free-styling in Hip-Hop dance. Enrollment by audition only. Meets with DNCE 3301.
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to graduate students only.
DNCE 5339 (1-3) Hip-hop Practicum
Design and implement an experiential, action-based learning project that connects to local innovators in the Boulder/Denver Hip-hop community who are engaged in one of Hip-hop culture’s five elements: mc-ing, dj-ing, breaking/street dance, graffiti, knowledge. Projects might range from creating a piece of graffiti with a local crew to organizing an academic panel or workshop with a Hip-hop pioneer. 
**Repeatability:** Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term. 
**Requisites:** Restricted to graduate students only.

DNCE 5411 (2) Aerial Dance Technique
Study of basic technique skills in aerial dance on single point, low-flying trapeze. Additional skills include choreographic techniques, improvisation, and an historical overview of aerial dance. Through the theoretical readings and discussion, this course defines the place of aerial dance in the lineage of modern dance and addresses aesthetics, philosophical approaches to teaching, and safety issues. 
**Requisites:** Restricted to graduate students only.

DNCE 5501 (2) Graduate African Dance
Explores the techniques, styles and rhythms of regional and national cultures of Africa by introducing signature attributes common to different countries’ dance traditions. Features discussions of the musical traditions, histories, cosmologies, philosophies and aesthetics to contextualize and increase familiarity. Areas of concentration may vary by each semester (e.g. Ghana, Guinea, Intermediate). 
**Repeatability:** Repeatable for up to 6.00 total credit hours. 
**Requisites:** Restricted to graduate students only.

DNCE 5601 (2) Alexander Technique for Graduate Students
Studies how human reaction, coordination, and movement play a role in all activities. Graduate students will explore direct application to dance training, performance, choreography, and teaching. Through in-depth class discussions, movement exploration, and individualized hands-on lessons, actors and dancers gain an understanding of the technique and its benefits to performance. Meets with DNCE 3601. 
**Requisites:** Restricted to Dance (DNCE) or Theatre (THTR) graduate students only. 
**Additional Information:** Departmental Category: Major Technique

DNCE 5701 (2) Contact Improvisation 2
Moves into rigorous exploration of weight sharing principles. Emphasis will be placed on ease and efficiency in partnering, and integrating this work into choreography and performance. Meets with DNCE 4701. 
**Requisites:** Restricted to Dance (DNCE) graduate students only. 
**Additional Information:** Departmental Category: Major Technique

DNCE 5849 (1-3) Independent Study
Involves creative or scholarly investigation of an area of interest to the student not addressed in the curriculum. Work must be arranged with and advised by a faculty member. 
**Repeatability:** Repeatable for up to 7.00 total credit hours. 
**Requisites:** Restricted to Dance (DNCE) graduate students only. 
**Additional Information:** Departmental Category: Independent Study

DNCE 5901 (1-3) Graduate Technique Practicum
Offers special courses in the technique series. Course may meet at the same time with an undergraduate studio course and includes the practical movement experience with an additional scholarly study of specially chosen issues in dance. 
**Repeatability:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term. 
**Requisites:** Restricted to Dance (DNCE) graduate students only. 
**Additional Information:** Departmental Category: Major Technique

DNCE 5909 (1-4) Special Topics
Explores topics and research in relation to areas such as technology, environment, teaching methods, performance, world dance, arts in society, and/or criticism that the normal sequence of offerings may not allow. 
**Equivalent - Duplicate Degree Credit Not Granted:** DNCE 2909 and DNCE 4909 
**Repeatability:** Repeatable for up to 7.00 total credit hours. 
**Requisites:** Restricted to Dance (DNCE) graduate students only. 
**Additional Information:** Departmental Category: Independent Study

DNCE 5919 (1-3) Dance Practicum
Project in dance under supervision of senior faculty. 
**Equivalent - Duplicate Degree Credit Not Granted:** DNCE 4919 
**Repeatability:** Repeatable for up to 6.00 total credit hours. 
**Requisites:** Restricted to Dance (DNCE) graduate students only. 
**Additional Information:** Departmental Category: Independent Study

DNCE 6016 (2) Teaching Lab-Contemporary Dance
Provides opportunity to apply principles and skills introduced in DNCE 5056. Participants share the responsibility for teaching a lab class that meets twice a week. Focuses on development, analysis and evaluation of teaching skills. 
**Requisites:** Restricted to Dance (DNCE) graduate students only. 
**Additional Information:** Departmental Category: Pedagogy

DNCE 6017 (3) Cultural Collisions and Ethics in Dance and Movement Performance
Explores the inevitable transformation of traditions in dance/movement performance, using hip-hop and transnational fusion as foundation studies. As students expand their application of ethical inquiry, we will investigate what responsibility artists have as ambassadors in a digital culture. Films, readings and discussions will address personal integrity, ethics, industry practices, values and distortions imparted by history and socialization. 
**Requisites:** Restricted to graduate students only. 
**Additional Information:** Departmental Category: Dance and Cultural Studies

DNCE 6047 (3) Dance Studies
Studies current dance trends, mostly in the United States, with particular attention paid to dance’s intersection with philosophy, theory, technology, politics, current events and the other arts. 
**Requisites:** Restricted to Dance (DNCE) graduate students only. 
**Additional Information:** Departmental Category: Dance and Cultural Studies

DNCE 6065 (2) Professional Development
Examines current trends and issues in dance education and the professional dance world. Explores curriculum development, administration, and job opportunities along with other topics such as grant writing, community engagement, dance advocacy, and working as an independent artist. 
**Requisites:** Restricted to Dance (DNCE) graduate students only. 
**Additional Information:** Departmental Category: Pedagogy
DNCE 6073 (3) Choreography
Covers in-depth practical and theoretical approaches to dance composition for graduate students; solo and group forms; and analysis of historical and contemporary dance works.
Repeatable: Repeatability up to 6.00 total credit hours.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Creative Process

DNCE 6101 (1) Advanced Graduate Ballet
Open only to graduate dance majors.
Repeatable: Repeatability up to 6.00 total credit hours.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Major Technique

DNCE 6849 (1-3) Independent Study
Involves creative or scholarly investigation of an area of interest to the student not addressed in the curriculum. Work must be arranged with and advised by a faculty member.
Repeatable: Repeatability up to 6.00 total credit hours.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Independent Study

DNCE 6919 (1-3) Directed Studies
Explores advanced topics in dance not regularly covered in the curriculum of the graduate program.
Repeatable: Repeatability up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Independent Study

DNCE 6949 (1) Master's Candidate for Degree
Requisites: Restricted to Dance (DNCE) graduate students only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Independent Study

DNCE 6959 (1-6) Master's Thesis
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Independent Study

DNCE 6969 (1-6) The Graduate Project
Provides the opportunity for synthesizing the graduate experience through the execution of a project related to the student's major area of interest. Project must be approved by the graduate faculty advisor.
Requisites: Restricted to Dance (DNCE) graduate students only.
Additional Information: Departmental Category: Independent Study

Danish (DANE)
Courses
DANE 1010 (4) Beginning Danish I - DILS
Provides practical, communicative language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Introduces students to Danish history and contemporary culture and society.
Additional Information: Departmental Category: Danish Courses

DANE 1020 (4) Beginning Danish II - DILS
Provides practical, communicative language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Introduces students to Danish history and contemporary culture and society. Department enforce prerequisite: DANE 1010 (min grade C-).
Additional Information: Departmental Category: Danish Courses

DANE 2010 (4) Intermediate Danish I - DILS
Building on the skills that the students have acquired in Beginners Danish I-II, this course offers additional reading, writing, speaking and verbal comprehension. Students will learn to conduct business at a government office, talk about holidays and festivals and discuss conservation and environmental protection. They will read and write small texts, becoming exposed to differences between written and spoken Danish.
Requisites: Requires prerequisite course of DANE 1020 (minimum grade C).
Additional Information: Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Danish Courses

DANE 2020 (4) Intermediate Danish II - DILS
Offers extensive reading, writing, speaking and verbal comprehension skills in Danish. The students will discuss Danish history, cultural differences and stereotypes, politics, social groups, learn how to write letters and email in Danish, read short texts and write short essays on the above topics.
Requisites: Requires prerequisite course of DANE 2010 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Danish Courses

Digital Humanities (DHUM)
Courses
DHUM 5000 (3) Introduction for Digital Humanities: Movements, Methods, and Tools
Introduces the creation and visualization of humanities data and explores a broad spectrum of disciplinary perspectives and methods in Digital Humanities. Participants will gain fluency in computational methods such as text mining, digital curation, data visualization, and spatial analysis, while critiquing and evaluating digital humanities research. Readings and discussions of theory will complement hands-on application of digital research methods and approaches. While the objects of study will primarily come from the humanities, the methods of analysis are widely applicable to the social and natural sciences.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

East Asian Languages and Civilizations (EALC)
Courses
EALC 4911 (3) Practicum in Asian Languages 1
Introduces elementary or intermediate East Asian language, culture, and language pedagogy. Department consent required.
Additional Information: Departmental Category: Asia Content

EALC 4912 (3) Practicum in Asian Languages 2
Introduces elementary or intermediate East Asian language, culture, and language pedagogy. Department consent required.
Additional Information: Departmental Category: Asia Content

EALC 4913 (3) Practicum in Asian Languages 3
Introduces elementary or intermediate East Asian language, culture, and language pedagogy. Department consent required.
Additional Information: Departmental Category: Asia Content
EALC 4914 (3) Practicum in Asian Languages
Introduces elementary or intermediate East Asian language, culture, and language pedagogy. Department consent required.
Additional Information: Departmental Category: Asia Content

EALC 4930 (1-6) Internship
Selected students are matched with supervised internships in business, public and private service organizations, and educational institutions. Internships focus on opportunities to apply language and cultural skills. Students meet regularly with instructor and supervisor, keep a journal, and submit a final paper.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of JPNS 2120 or CHIN 2120 (minimum grade C).
Recommended: Prerequisite JPNS 3120 or CHIN 3120.
Additional Information: Departmental Category: Asia Content

Ecology and Evolutionary Biology (EBIO)

Courses

EBIO 1010 (3) Introduction to Quantitative Thinking for Biologists
Focuses on the collection, visualization and analysis of data that are relevant for advancing critical thinking, student-directed learning, and the development of quantitative analysis skills, with an emphasis on using R and examples from ecology and evolutionary biology.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 1040 (3) Biology: A Human Approach 2
Lect. Continues EBIO 1030, focusing on the function of the human body, and maintenance of dynamic equilibrium in the internal environment in the face of a continually changing external environment. Discusses factors influencing these homeostatic conditions and how and why they change. Recommended for nonscience majors.
Recommended: Prerequisite EBIO 1030 (minimum grade C).
Additional Information: Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 1100 (3) Biology and Society
Lect. Studies the dynamic relationships between the biological sciences and society. Areas of inquiry include interconnections between ecological and evolutionary theory and concepts and emergent questions being raised on a societal level. Students will explore topics such as human populations and sexual reproduction; biological factors affecting sociability and social patterns; environmental change with a focus on global biodiversity and the services to people; natural resource management; and public health. Recommended for majors and non-majors.
Requisites: Requires corequisite course of EBIO 1110.

EBIO 1110 (1) Biology and Society Laboratory
One two-hour lab per week. Provides experiments and exercises relating to concepts presented in EBIO 1100. Recommended for majors and non-majors. When taken with EBIO 1100, meets the MAPS requirement for natural science: lab.
Requisites: Requires corequisite course of EBIO 1110.

EBIO 1210 (3) General Biology 1
Additional Information: GT Pathways: GT-SC1 - Natural Physical Sci: Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science

EBIO 1220 (3) General Biology 2
Provides a concentrated introduction to organisms, homeostasis, development, behavior, and ecology. Emphasizes fundamental principles, concepts, facts, questions. Intended for science majors.
Recommended: Prerequisite EBIO 1210 (minimum grade C).
Additional Information: GT Pathways: GT-SC2 - Natural Physical Sci: Lec Crse w/o Req Lab
Arts Sci Core Curr: Natural Science Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 1230 (1) General Biology Laboratory 1
One 3-hour lab per week. Consists of experiments and exercises to provide an extension of basic concepts and scientific approaches presented in General Biology 1. Intended for science majors.
Recommended: Prerequisite or corequisite EBIO 1210 (minimum grade C).
Additional Information: GT Pathways: GT-SC1 - Natural Physical Sci: Lec Crse w/ Req Lab
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sciences
MAPS Course: Natural Science Lab

EBIO 1240 (1) General Biology Laboratory 2
One 3-hour lab per week. Consists of experiments and exercises to provide an extension of basic concepts and scientific approaches presented in General Biology 2. Intended for science majors.
Recommended: Prerequisite or corequisite EBIO 1220 (minimum grade C).
Additional Information: GT Pathways: GT-SC1 - Natural Physical Sci: Lec Crse w/ Req Lab
Arts Sci Core Curr: Natural Science Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 1250 (4) Introduction to Ecology and Evolutionary Biology Research
Introduces students to research in ecology and evolutionary biology topics in the context of investigations about Boulder’s local historic apple trees. Students will learn about the genetics, physiology, and urban ecology of the trees, learn techniques for how to do research in these areas, and engage in a research project that addresses one of these topics. Results from research on Boulder’s Apples will be reported back to the Boulder community.
Grading Basis: Letter Grade

EBIO 1300 (1-3) Topics in Biological Sciences
Covers special topics in biology for freshmen or nonmajors. Introduces scientific methods and principles in biology, as well as issues of current interest in biology. Does not count toward the major in EBIO.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
EBIO 1940 (3) Introduction to Scientific Writing
Introduces first year students to college writing, focusing on developing academic research and writing skills of particular interest to science students. Emphasizes habits of mind in topic invention, drafting, revision and writing style, as well as critical thinking and information literacy.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 2010 (1-3) Environmental Issues and Biology
Lect. Describes how the natural environment is currently stressed by a variety of human actions. Examines the nature of these environmental problems and their impact on living organisms, both human and nonhuman species.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Written Communication-Lower

EBIO 2040 (4) Principles of Ecology
Lecture and laboratory. Introduces principles of ecology, emphasizing patterns and processes at various levels of biological organization. Scope global, but examples often from local environment. Laboratory emphasizes techniques of field biology. Uses animals and/or animal tissues.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 2640 and ENVS 2000
Recommended: Prerequisites EBIO 1030 and EBIO 1040 and EBIO 1050 or EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

EBIO 2070 (4) Genetics: Molecules to Populations
Lect. and rec. Covers principles of genetics and developmental biology at levels of molecules, cellular organelles, individuals and populations; asexual and sexual life cycles; heredity. Recitations allow discussion of genetics problems and implications of genetic principles and provide demonstrations and simulations of genetic processes. Intended for sophomore majors in EBIO.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 2640
Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

EBIO 2090 (3) Tropical Island and Marine Ecology
Examines fundamental concepts of marine ecology, emphasizing organismal diversity, species interactions, dispersal, colonization, physiology and adaptations. Includes study of beach and coral formation, island organisms and their population dynamics. Students may also register for an optional 1 credit, one week, tropical island and coral reef trip that complements the lecture portion of the class but has an additional cost.
Recommended: Prerequisite EBIO 1220 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 2091 (3) Field Studies in Marine and Island Ecology and Oceanography
Investigates tropical island and marine ecology as well as all four disciplines of oceanography. A three-credit course focused on a tropical island ecology and oceanography field trip that complements the lecture portion of EBIO 2090 and ATOC 3070 with an additional cost. Examines fundamental concepts of marine ecology, emphasizing organismal diversity, species interactions, study of beach and coral formation, island formation, organisms and their population dynamics. The course consists of a one-week field trip to the Keys Marine Laboratory in the Florida Keys and once-weekly class room meeting (of variable duration from 1-4 hours) throughout the semester.
Requisites: Requires a corequisite course of EBIO 2090 or ATOC 3070 or GEOL 3070.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

EBIO 2640 (5) Honors Principles of Ecology
Lect., lab, and rec. Introduces principles of ecology, emphasizing patterns and processes at various levels of biological organization. Scope global, but examples often from local environment. Laboratory emphasizes techniques of field biology. Uses animals and/or animal tissues.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 2040 and ENVS 2000
Recommended: Prerequisites EBIO 1030 and EBIO 1040 and EBIO 1050 or EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).
Additional Information: Arts Sciences Honors Course
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

EBIO 2840 (1-6) Independent Study: Lower Division
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

EBIO 3010 (1-2) Teaching Biology
Provides an opportunity to assist in teaching of specific lecture or laboratory section in EBIO under direct faculty supervision. Students must first make arrangements with the appropriate faculty member and turn in a form to the EBIO office.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.

EBIO 3040 (4) Conservation Biology
Applies principles of population ecology, population genetics, biogeography, animal behavior, and paleobiology to the maintenance of biodiversity and natural systems. The resulting theory is then applied to conservation policy and management techniques.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 3040
Recommended: Prerequisite EBIO 2040 or EBIO 2640 or ENVS 2000 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab
EBIO 3080 (4) Evolutionary Biology
Lect. and lab. Emphasizes the fundamental evolutionary concepts that provide explanations for the diversification of life on Earth. Specific topics include the evidence for evolution, adaptation by natural selection, speciation, systematics, molecular and genome evolution, and macroevolutionary patterns and processes. Recitations allow students to explore specific topics in more depth and smaller groups.
**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 (minimum grade C).
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 3110 (3) Population and Community Ecology
Presents principles of ecology that relate to the niche, population growth, metapopulations, population interactions (within and between trophic levels), community structure and development, landscape ecology and species diversity.
**Recommended:** Prerequisite EBIO 1240 or EBIO 2640 (minimum grade C).
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 3170 (3) Mountain Ecology and Conservation
Focuses on the ecology of mountain environments around the world, including climatic gradients, plant and animal diversity and distributions, habitat zonation, evolutionary processes, and various aspects of montane conservation from habitat change to climate change.
**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 2040 (minimum grade C).
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 3180 (3) Global Ecology
Lect. Involves study of ecological principles and problems at the biosphere level. Presents a worldwide approach to populations, biotic resources, ecologic interactions, land use, deforestation, desertification, species extinctions, pollution, environmental quality, global change, and environmental ethics.
**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 (minimum grade C).
**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequen Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 3190 (3) Tropical Marine Ecology
Lect. Examines the biology and ecology of marine ecosystems, emphasizing those occurring in tropical regions such as coral reefs. Studies how these ecosystems are changing and the future impact of human stress on the marine environment.
**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
**Recommended:** Prerequisite any two-semester introductory biology course.
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 3240 (4) Animal Behavior
Lect. and lab. Topics include basic concepts and history, methods of study, ethical issues, neurobiology, behavior, the development of behavior, predator-prey relationships, communication, aggression and dominance, mating systems, cognitive ethology, and parental care. When possible, life-history strategies, the evolution of behavior, and behavioral ecology are stressed. Uses animals and animal tissues.
**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C).
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 3400 (3) Microbiology
Surveys distinguishing characteristics of microorganisms based on structural-functional relationships, taxonomy, growth and physical-chemical agents of control including antibiotics, metabolism and genetics. Introduces applied microbiology emphasizing infectious diseases, basic concepts of immunology and microbial ecology. Uses animals and/or animal tissues.
**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C).
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 3410 (1) Microbiology Lab
Accompanies EBIO 3400.
**Requisites:** Requires a prerequisite or corequisite course of EBIO 3400 (minimum grade D-).
**Grading Basis:** Letter Grade
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 3523 (3) The Art and Strategy of Science Communication: Branding Climate Change
Integrating the science of climate change and science communication with the research, strategy and execution practices of strategic communication (e.g., advertising and public relations).
**Equivalent - Duplicate Degree Credit Not Granted:** APRD 3523
**Grading Basis:** Letter Grade

EBIO 3590 (4) Plants and Society
A writing intensive course for majors and non-majors which acquaints students with the history of plant use in our society. Topics center on the evolving relationship between humans and plants as food sources, medicines, fuel, and other products, such as fibers and dyes.
**Grading Basis:** Letter Grade
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 3630 (4) Parasitology
Lect. and lab. Surveys animal parasites, including life histories; emphasizes parasites of humans. Uses animals and/or animal tissues.
**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C).
**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 3680 (3) Ecology and Evolutionary Biology (EBIO)
Lect. Examines the biology and ecology of marine ecosystems, emphasizing those occurring in tropical regions such as coral reefs. Uses animals and animal tissues.
**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 3680

APRD 3523
EBIO 3680 (5) Honors Evolutionary Biology
Lect., rec., and co-sem. Emphasizes the fundamental evolutionary concepts that provide explanation for the diversification of life on Earth. Specific topics include the evidence for evolution, adaptation by natural selection speciation, systematics, molecular and genome evolution, and macroevolutionary patterns and process. Recitations allow students to explore specific topics in more depth and smaller groups.

Equivalent - Duplicate Degree Credit Not Granted: EBIO 3080
Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 and EBIO 2070 (minimum grade C-).
Additional Information: Arts Sciences Honors Course
Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

EBIO 3850 (4) Animal Diversity: Invertebrates
Lect. and lab. Offers a broad study of the biology of the most diverse group of organisms on Earth. Areas include ecology, physiology, evolution and morphology of aquatic and terrestrial forms. Uses animals and/or animal tissues.

Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

EBIO 3930 (1-6) Internship
Provides an academically supervised opportunity for upper-division students to work in public or private organizations. Projects are usually related to students’ career goals. Each project has both academic and work components. Pass/fail only.

Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Grading Basis: Pass/Fail

EBIO 3940 (3) Written Communication in the Sciences
Focuses upon communication commonly practiced by scientists, with special emphasis on writing. Directs attention to scientists’ strategic use of written arguments, statistical data and visual representations. Prepares students for communication tasks within advanced study and professional work.

Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Distribution-Natural Sci Lab

EBIO 3980 (2) Seminar: Introduction to EBIO Honors
Offers an opportunity for students who are either exploring the option of writing an Honors thesis, or are in the process of conducting Honors research, to receive guidance on the process of thesis writing, evaluation and presentation of research results and thesis defense. Thesis requirements and the role of the A&S Honors Council will be discussed. Also offers the opportunity to hear practice defense talks from the graduating Honors candidates.

Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sciences Honors Course

EBIO 3990 (1-3) EBIO Honors Thesis Research
Provides an introduction to the departmental Honors program. Consists of individual library research on a potential Honors thesis topic under the guidance of a faculty mentor.

Requisites: Restricted to Ecology and Evolutionary Biology (EBIO) majors only.
Recommended: Prerequisites minimum 3.2 GPA and approval by departmental honors committee.

EBIO 4030 (3) Limnology
Examines the ecology of inland waters, including a detailed consideration of physical, chemical and biological properties of freshwater ecosystems: origins and major characteristics of lakes and streams, survey of chemical and nutrient cycles in freshwater habitats and survey of biotic composition of freshwater environments. Important themes in modern freshwater ecology are considered, including energy flow, trophic structure, eutrophication and management of freshwater ecosystems.

Equivalent - Duplicate Degree Credit Not Granted: EBIO 5030
Recommended: Prerequisites EBIO 1210 and EBIO 1220 (minimum grade C-).

Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 4060 (3) Landscape Ecology
Studies distributional patterns of communities and ecosystems, ecological processes that affect those patterns, and changes in pattern and process over time. Consideration of spatial and temporal scales in ecological analyses is required to understand and predict response to broad-scale environmental change.

Equivalent - Duplicate Degree Credit Not Granted: EBIO 5060
Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 and EBIO 2040 or EBIO 2640 (minimum grade C-).

Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 4070 (3) DNA Methods in Ecology and Conservation Biology
Acquiring skill with molecular methods in ecology and conservation biology is most quickly accomplished with hands-on experience. Combines classroom lectures with collecting in the field and laboratory exercises to provide experience extracting DNA, amplifying DNA with the Polymerase Chain Reaction (PCR), designing PCR primers, sequencing DNA and editing and aligning sequences with the Sequencher software.

Requisites: Requires prerequisite course of EBIO 2070 (minimum grade C).

Grading Basis: Letter Grade

Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

EBIO 4080 (4) Freshwater Phycology
Algae are a non-monophyletic group of organisms that play critical roles in ecosystem structure and function. They have a long history of being used in a variety of ways by the human species, but are increasingly being applied to modern issues of understanding water quality and climate change, engineering at the nano scale and in the production of renewable biofuels.

Equivalent - Duplicate Degree Credit Not Granted: EBIO 5080

Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab
EBIO 4090 (3) Coral Reef Ecology
Combines classroom-based instruction in the Fall semester with an international, field-based SCUBA diving expedition to learn about the incredible coral reef ecosystems of the Caribbean (in early January). Students learn about and observe a variety of organisms that make the reef their home. The course covers threats to coral reefs worldwide as well as ongoing efforts aimed at conservation. Scuba certification required.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite any ecology course is a highly recommended.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sci Lab
Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 4100 (3) Advanced Ecology
Emphasizes specific aspects of ecology based on specialties of faculty. One or more courses are offered most semesters. Topics have included dynamics of mountain ecosystems, tundra ecology, ethnecology, population dynamics, tropical and insular biology, ecology of fishes, quantitative plant ecology, and arctic and alpine environments. May use animals and/or animal tissues.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5100
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 and EBIO 2040 or EBIO 2640 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 4110 (2-4) Advanced Ecology
Emphasizes specific aspects of ecology based on specialties of faculty. One or more courses are offered most semesters. Topics have included dynamics of mountain ecosystems, tundra ecology, ethnecology, population dynamics, tropical and insular biology, ecology of fishes, quantitative plant ecology and arctic and alpine environments. May use animals and/or animal tissues.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5120
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 and EBIO 2040 or EBIO 2640 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 4140 (3) Plant Ecology
Examines the relationships between plants and their physical and biological environments, encompassing physiology, competition, plant-soil and plant-animal interactions, population dynamics, diversity, and influence on ecosystem function.
Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 4150 (1-2) Techniques in Ecology
Emphasizes application of modern ecological techniques, such as stream biology, aquatic biology, environmental measurement and control, and techniques in geoecology.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5150
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 and EBIO 2040 or EBIO 2640 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 4155 (3) Ecosystem Ecology
Integrates information from physics (energetics), chemistry (element properties) and biology (evolutionary traits, photosynthetic pathways) to understand the structure and functioning of ecosystems. Provides an analysis of biotic community responses and feedbacks to environmental change drivers. Strong focus on water, nutrient cycling and carbon dynamics of diverse terrestrial and aquatic landscapes. Formerly EBIO 3270.
Recommended: Prerequisites EBIO 2040 or equivalent.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 4160 (3) Introduction to Biogeochemistry
Covers fundamentals of biogeochemical cycling, emphasizing water, carbon and nutrient dynamics in terrestrial ecosystems; chemical interactions of atmosphere, biosphere, lithosphere and hydrosphere; natural and human-managed environments.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 4160 and GEOL 4160
Recommended: Prerequisites GEOL 3320 or EBIO 3270 and CHEM 1011 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 4175 (3) The Scientific Basis for Ecosystem Management of Public Lands
An advanced field ecology course emphasizing measurements, statistical procedures and biotic data information management relevant to land management issues. Develops concepts of adaptive ecosystem management using ongoing field studies on public land in the Colorado Front Range.
Recommended: Prerequisites EBIO 3270 and EBIO 4500 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 4270 (4) Population Genetics
Provides an in-depth applied introduction to population genetics. Lectures, discussions and labs will focus on exploring how evolutionary processes shape genetic variation through time and space and how population-level evolutionary processes can be inferred from patterns of genetic variation. While learning basic population genetic theory we will investigate current topics in the field and work with simulated and real data.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5270
Requisites: Requires prerequisite courses of EBIO 2070 and EBIO 3080 (all minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
EBIO 4290 (4) Phylogenetics and Comparative Biology
Reviews the principles and methodology of phylogenetic inference using molecular data. Emphasizes the application of comparative approaches to hypothesis testing in evolution, ecology and medicine and provides a broad foundation in both theory and practice of phylogenetics.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5290
Recommended: Prerequisite EBIO 3080 (minimum grade C-) or instructor consent required.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 4340 (4) Conservation Biology and Practice in Brazil's Atlantic Forest
Field Studies. Examines the application of conservation principles in the Atlantic Forest of Brazil, a 'biodiversity-in-crisis' setting. Explores successful conservation strategies integrated with efforts to alleviate socioeconomic issues. Three-week Maymester, Study Abroad Global Seminar.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5340 and ENVS 4340 and ENVS 5340
Recommended: Prerequisite EBIO 2040 or ENVS 2000 or 2000/higher-level course in ANTH, EBIO, ENVS, EVEN, GEOG, IAFS or other discipline related to ecology or sustainability.
Grading Basis: Letter Grade

EBIO 4410 (4) Biological Statistics
Lect. and lab. Offers a demanding, problems-oriented methods course in statistical inference procedures, assumptions, limitations, and applications emphasizing techniques appropriate to realistic biological problems. Includes data file management using interactive computing techniques.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5410
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 4420 (3) Computational Biology
Covers a wide range of techniques for simulating biological systems, developing computer programs and scripts to interact with data and making research shareable and reproducible.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5420
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 4440 (4) Animal Developmental Diversity
Surveys development in a range of vertebrate and invertebrate systems to reconstruct the common bilatarian ancestor, and elucidate the developmental genetic changes underlying animal diversification. Lab focuses on vertebrate embryos and explores key methods in evolutionary developmental biology including in situ hybridization, embryo microinjection, and transgenesis.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5440 and MCDB 4441 and MCDB 5441
Recommended: Prerequisites MCDB 1150 or EBIO 1210 and MCDB 2150 or EBIO 2070 (minimum grade C).

EBIO 4460 (1-5) Special Topics
Familiarizes students with specialized areas of biology.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5460
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

EBIO 4500 (4) Plant Biodiversity and Evolution
Lect. and lab. Surveys plant types emphasizing diagnostic features of plants in general and major taxa in particular. Focuses on identity, morphology, anatomy, reproduction, ecology, geography, evolution, fossil record, and economic use of taxa.
Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C).

EBIO 4510 (4) Plant Anatomy and Development
Lect. and lab. Introduces structures of seed plants, especially angiosperms, and developmental history of these structures. Studies cell types, and their location and function in plant tissues and organs. The laboratory provides an opportunity to examine plant tissues and to prepare tissues for examination by the light microscope. Stresses role of plant structures in the living plant.
Recommended: Prerequisites, EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C).

EBIO 4520 (4) Plant Systematics
Lect. and lab. Studies the principles and techniques of modern systematics of organisms, illustrated with examples from the plant kingdom, usually the angiosperms. Framework of course is evolutionary and ecological, as well as taxonomic.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5520
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

EBIO 4530 (4) Functional Plant Biology
Lect. and lab. Explores mechanisms of plant functioning and how such functioning relates to the performance of the plant under different environmental conditions. Phenomena include water relations, growth and development, and metabolic processes including photosynthesis, respiration, and responses to stress.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C).
EBIO 4550 (4) Plant Eco-Evo-Devo
Explores the fundamental principles of plant form from the perspectives of ecological function, evolutionary origin, and developmental dynamics. Students are presented with conceptual and analytical tools to interpret the vast diversity of growth form-function relationships that exist among plants. Laboratory sessions apply concepts presented in lecture and students will engage in original research using light and scanning electron microscopy.
Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

EBIO 4560 (4) The Lichen Biome
Focuses on lichens as biologically diverse hubs of interactions, and will cover numerous dimensions of diversity within the symbiosis (algae, bacteria, and ecological and evolutionary relationships therein) and beyond it (diversity of lichen symbioses in nature, their functions, and conservation).
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5560
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

EBIO 4600 (4) Evolutionary Ecology
Evaluates how interactions within species, among species and between species and the environment evolve over time. Emphasizes the development of scientific skills, including ecological, genetic and statistical tools for testing hypotheses in evolutionary ecology. Lab activities include research projects that quantify natural selection, gene flow and phenotypic plasticity in natural systems, and a semester-long class experiment examining plant dispersal.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5600
Requisites: Requires prerequisite courses of EBIO 2040 and EBIO 3080 (all minimum grade C).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

EBIO 4640 (3) Plant Field Studies
Includes field-oriented courses offered at irregular intervals during the academic year or during summer sessions.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite courses of EBIO 2040 or EBIO 2640 or ENV 2000 (all minimum grade C).
Recommended: Prerequisites EBIO 2040 and EBIO 2640 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

EBIO 4650 (4) Insect Biology
Lect. and lab. Introduction to evolution, ecology, physiology, and behavior of insects. Emphasizes how insects have solved problems, such as maintaining water balance or finding food, that are shared by all animals but for which there may be unique solutions among the insects. Agricultural and human health problems relative to entomology are discussed. Uses animals and/or animal tissues.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5660
Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

EBIO 4750 (4) Ornithology
Lect., lab, and field trips. Presents origin, evolution, ecology, physical and behavioral characteristics and taxonomy of orders and families of birds of North America; field work with local species emphasizing avian ecology. Uses animals and/or animal tissues.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5750
Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

EBIO 4760 (4) Mammalogy
Lect., lab, and field studies. Discusses origin, evolution and adaptation, geographic distribution, ecology and taxonomy of mammals; field and laboratory study of Coloradan species. Uses animals and/or animal tissues.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5760 and MUSM 5760
Recommended: Prerequisites EBIO 1210 and EBIO 1220 and EBIO 2040 and EBIO 2640 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
Arts Sci Gen Ed: Distribution-Natural Sci Lab

EBIO 4800 (3) Critical Thinking in Biology
Lect. and discussion. Explores controversial issues, historical themes, or emerging developments in biology. Consult the EBIO Undergraduate Advising Center for current listings.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 5800
Repeatable: Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite minimum of 14 hours of EBIO course work.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
EBIO 4840 (1-6) Independent Study: Upper Division
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
EBIO 4860 (1-2) Critical Thinking in Biology - Lab
EBIO 4870 (1-6) Independent Research: Upper Division
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
EBIO 4980 (2) Seminar: EBIO Honors Thesis
Offers guidance to graduating Honors students during the process of thesis writing, evaluation and presentation of their research results and thesis defense. Thesis requirements and the role of the A&S Honors Council will be discussed. All graduating candidates will present a practice defense talk for peer feedback and will be expected to offer feedback to their peers.
Recommended: Prerequisites minimum 3.3 GPA and a declared EBIO major and approval by departmental honors committee.
Additional Information: Arts Sciences Honors Course
EBIO 4990 (1-3) EBIO Honors Thesis Research  
To be taken during the final academic year prior to graduation. Consists of the final phase of honors research and thesis preparation under the guidance of a faculty mentor.  
**Requisites:** Restricted to Ecology and Evolutionary Biology (EBIO) majors only.  
**Recommended:** Prerequisites minimum 3.3 GPA and a declared EBIO major and approval by departmental Honors program.  
**Additional Information:** Arts Sciences Honors Course

EBIO 5000 (1) EBIO Colloquia  
All first year EBIO graduate students are required to attend the EBIO Colloquia Series. Speakers from around the world and within the department cover topics in all areas of biology.  
**Repeatable:** Repeatable for up to 2.00 total credit hours.

EBIO 5030 (3) Limnology  
Examines the ecology of inland waters, including a detailed consideration of physical, chemical and biological properties of freshwater ecosystems: origins and major characteristics of lakes and streams, survey of chemical and nutrient cycles in freshwater habitats and survey of biotic composition of freshwater environments. Important themes in modern freshwater ecology are considered, including energy flow, trophic structure, eutrophication and management of freshwater ecosystems.  
**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 4030  
**Requisites:** Restricted to graduate students only.

EBIO 5060 (3) Landscape Ecology  
Studies distributional patterns of communities and ecosystems, ecological processes that affect those patterns, and changes in pattern and process over time. Consideration of spatial and temporal scales in ecological analyses is required to understand and predict response to broad-scale environmental change.  
**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 4060  
**Requisites:** Restricted to graduate students only.

EBIO 5080 (4) Freshwater Phycology  
Algae are a non-monophyletic group of organisms that play critical roles in ecosystem structure and function. They have a long history of being used in a variety of ways by the human species, but are increasingly being applied to modern issues of understanding water quality and climate change, engineering at the nano scale and in the production of renewable biofuels.  
**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 4080  
**Requisites:** Restricted to graduate students only.

EBIO 5100 (3) Advanced Ecology  
Emphasizes specific aspects of ecology based on specialties of faculty. One or more courses are offered most semesters. Topics have included dynamics of mountain ecosystems, tundra ecology, ethnoecology, population dynamics, tropical and insular biology, ecology of fishes, quantitative plant ecology and arctic and alpine environments. May use animals and/or animal tissues.  
**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 4100  
**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.  
**Requisites:** Restricted to graduate students only.

EBIO 5120 (2-4) Advanced Ecology  
Emphasizes specific aspects of ecology based on specialties of faculty. One or more courses are offered most semesters. Topics have included dynamics of mountain ecosystems, tundra ecology, ethnoecology, population dynamics, tropical and insular biology, ecology of fishes, quantitative plant ecology and arctic and alpine environments. May use animals and/or animal tissues.  
**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 4120  
**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

EBIO 5150 (1-2) Techniques in Ecology  
Emphasizes application of modern ecological techniques, such as stream biology, aquatic biology, environmental measurement and control, and techniques in geoeoclogy.  
**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 4150  
**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

EBIO 5240 (3) Advanced Topics in Animal Behavior  
Covers special areas of ethology such as sociobiology, animal communication, cognitive ethology, human ethology, moral and ethical issues.  
**Recommended:** Prerequisite EBIO 3240.

EBIO 5270 (4) Population Genetics  
Provides an in-depth applied introduction to population genetics. Lectures, discussions, and labs will focus on exploring how evolutionary processes shape genetic variation through time and space and how population-level evolutionary processes can be inferred from patterns of genetic variation. While leaning basic population genetic theory we will investigate current topics in the field and work with simulated and real data.  
**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 4270  
**Grading Basis:** Letter Grade

EBIO 5290 (4) Phylogenetics and Comparative Biology  
Reviews the principles and methodology of phylogenetic inference using molecular data. Emphasizes the application of comparative approaches to hypothesis testing in evolution, ecology and medicine and provides a broad foundation in both theory and practice of phylogenetics.  
**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 4290  
**Requisites:** Restricted to graduate students only.  
**Grading Basis:** Letter Grade

EBIO 5320 (3) Current Topics in Evolutionary Biology  
Examines six major themes on contemporary evolutionary research: population genetics, natural selection and adaptation, molecular evolution, evolution and development, phylogenetic systematics, and macroevolution. Emphasizes recent primary literature and sophisticated mastery.  
**Requisites:** Restricted to graduate students only.
EBIO 5340 (4) Conservation Biology and Practice in Brazil's Atlantic Forest
Field Studies. Examines the application of conservation principles in the Atlantic Forest of Brazil, a 'biodiversity-in-crisis' setting. Explores successful conservation strategies integrated with efforts to alleviate socioeconomic issues. Three-week Maymester, Study Abroad Global Seminar.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4340 and ENVS 4340 and ENVS 5340
Recommended: Prerequisite EBIO 2040 or ENVS 2000 or 2000/higher-level course in ANTH, EBIO, ENVS, EVEN, GEOG, IAFS or other discipline related to ecology or sustainability.
Grading Basis: Letter Grade
EBIO 5410 (4) Biological Statistics
Lect. and lab. Offers a demanding, problems-oriented methods course in statistical inference procedures, assumptions, limitations, and applications emphasizing techniques appropriate to realistic biological problems. Includes data file management using interactive computing techniques.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4410
Requisites: Restricted to graduate students only.
EBIO 5420 (3) Computational Biology
Covers a wide range of techniques for simulating biological systems, developing computer programs and scripts to interact with data and making research shareable and reproducible.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4420
Grading Basis: Letter Grade
EBIO 5440 (4) Animal Developmental Diversity
Surveys development in a range of vertebrate and invertebrate systems to reconstruct the common bilaterian ancestor, and elucidate the developmental genetic changes underlying animal diversification. Lab focuses on vertebrate embryos and explores key methods in evolutionary developmental biology including in situ hybridization, embryo microinjection, and transgenesis.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4440 and MCDB 4441 and MCDB 5441
Requisites: Restricted to graduate students only.
EBIO 5460 (1-5) Special Topics
Familiarizes students with specialized areas of biology.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4460
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
EBIO 5520 (4) Plant Systematics
Explores principles and techniques in modern plant systematics from lichens and non-vascular plants to lycophytes, ferns, gymnosperms and angiosperms. Framework is evolutionary and ecological, with emphasis on taxonomy of major lineages and families of plants. No prerequisites, but coursework in evolutionary biology, genetics, phylogenetics and/or other botany classes is strongly encouraged.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4520
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
EBIO 5560 (4) The Lichen Biome
Focuses on lichens as biologically diverse hubs of interactions, and will cover numerous dimensions of diversity within the symbiosis (algae, bacteria, and ecological and evolutionary relationships therein) and beyond it (diversity of lichen symbioses in nature, their functions, and conservation).
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4560
Requisites: Restricted to graduate students only.
EBIO 5600 (4) Evolutionary Ecology
Evaluates how interactions within species, among species and between species and the environment evolve over time. Emphasizes the development of scientific skills, including ecological, genetic and statistical tools for testing hypotheses in evolutionary ecology. Lab activities include research projects that quantify natural selection, gene flow and phenotypic plasticity in natural systems, and a semester-long class experiment examining plant dispersal.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4600
Grading Basis: Letter Grade
EBIO 5660 (4) Insect Biology
Lect. and lab. Introduction to evolution, ecology, physiology, and behavior of insects. Emphasizes how insects have solved problems, such as maintaining water balance or finding food, that are shared by all animals but for which there may be unique solutions among the insects. Agricultural and human health problems relative to entomology are discussed. Uses animals and/or animal tissues.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4660
Requisites: Restricted to graduate students only.
EBIO 5740 (3) Biology of Amphibians and Reptiles
Comparative morphology, taxonomy, ecology, behavior and geographic distribution of amphibians and reptiles. Uses animals and animal tissue.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4740
EBIO 5750 (4) Ornithology
Lect., lab, and field trips. Presents origin, evolution, ecology, physical and behavioral characteristics and taxonomy of orders and families of birds of North America; field work with local species emphasizing avian ecology. Uses animals and/or animal tissues.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4750
EBIO 5760 (4) Mammalogy
Lect., lab, and field studies. Discusses origin, evolution and adaptation, geographic distribution, ecology and taxonomy of mammals; field and laboratory study of Coloradan species. Uses animals and/or animal tissues.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4760
Requisites: Restricted to graduate students only.
EBIO 5800 (3) Critical Thinking in Biology
Lect. and discussion. Explores controversial issues, historical themes, or emerging developments in biology. Consult the EBIO Undergraduate Advising Center for current listings.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4800
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite minimum of 14 hours of EBIO course work.
EBIO 5820 (1) Graduate Writing Seminar
Enhances writing proficiency, using graduate writing projects to implement the course concepts. Offers understanding of conventions and strategies used in scientific writing to prepare students for academic and professional communication. Department enforced requisite, basic proficiency in English as a written language.
Requisites: Restricted to graduate students only.

EBIO 5840 (1-6) Independent Study (Master’s Level)
Instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

EBIO 6000 (1) Seminar: Introduction to Biological Research
Discusses areas of biological research represented in EBIO. Required of all first-year graduate students in EBIO.
Requisites: Restricted to graduate students only.

EBIO 6100 (1-3) Seminar in Environmental Biology
Instructor consent required.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 6120
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

EBIO 6120 (1-3) Seminar in Environmental Biology
Equivalent - Duplicate Degree Credit Not Granted: EBIO 6100
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

EBIO 6200 (1-3) Seminar in Population Biology
Equivalent - Duplicate Degree Credit Not Granted: EBIO 6210
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

EBIO 6210 (1-3) Seminar in Population Biology
Equivalent - Duplicate Degree Credit Not Granted: EBIO 6200
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

EBIO 6300 (1-3) Seminar in Organismic Biology
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

EBIO 6840 (1-7) Independent Research (Master’s Level)
Instructor consent required.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

EBIO 6940 (1) Master’s Candidate for Degree
Instructor consent required.
Grading Basis: Pass/Fail

EBIO 6950 (1-6) Master’s Thesis
Instructor consent required.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

EBIO 7840 (1-6) Independent Study (Doctoral Level)
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

EBIO 8840 (1-6) Independent Research (Doctoral Level)
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.

ECON 1078 (3) Mathematical Tools for Economists 1
Teaches mathematical skills and logical thinking for use in economics. Topics include algebra, graphs, functions, and probability. Includes many "Real world" examples and some illustrative computer assignments.
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math
Departmental Category: Quantitative Economics

ECON 1088 (3) Mathematical Tools for Economists 2
Continuation of ECON 1078. Teaches mathematical skills for use in economics. Topics include derivatives, optimization and integration. These skills are used on "real world" problems and illustrated with computer assignments. For more information about the math placement referred to in the "Enrollment Requirements", contact your academic advisor.
Equivalent - Duplicate Degree Credit Not Granted: APPM 1345 or APPM 1350 or MATH 1081 or MATH 1300 or MATH 1310 or MATH 1330
Requirements: Requires prerequisite course of ECON 1078 or MATH 1011 or MATH 1071 or MATH 1150 or MATH 1160 (minimum grade C-) or an ALEKS math exam taken in 2016 or earlier, or placement into pre-calculus based on your admission data and/or CU Boulder coursework.
Additional Information: Arts Sci Core Curr: Quant Reasn Mathmat Skills
Arts Sci Gen Ed: Quantitative Reasoning Math
Departmental Category: Quantitative Economics

ECON 2010 (4) Principles of Microeconomics
Examines basic concepts of microeconomics or the behavior and the interactions of individuals, firms and government. Topics include determining economic problems, how consumers and businesses make decisions, how markets work, and how they fail and how government actions affect markets.
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Theory and History of Economic Thought
MAPS Course: Social Science

ECON 2020 (4) Principles of Macroeconomics
Provides an overview of the economy, examining the flows of resources and outputs and the factors determining the levels of income and prices. Explores policy problems of inflation, unemployment and economic growth.
Requirements: Requires prerequisite course of ECON 2010 (minimum grade C-).
Additional Information: Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Theory and History of Economic Thought
MAPS Course: Social Science
ECON 3070 (4) Intermediate Microeconomic Theory
Explores theory and application of models of consumer choice, firm and market organization, and general equilibrium. Extensions include intertemporal decisions, decisions under uncertainty, externalities, and strategic interaction.
Requisites: Requires prerequisite courses of ECON 2010 and ECON 1088 or MATH 1081 or MATH 1300 or MATH 1310 or APPM 1350 (all min grade C-). Restricted to students with 22-180 units completed.

ECON 3080 (3) Intermediate Macroeconomic Theory
Introduces theories of aggregate economic activity including the determination of income, employment, and prices; economic growth; and fluctuations. Macroeconomic policies are explored in both closed and open economy models. ECON 3070 ECON and 3080 may be taken in any order; there is no recommended sequence.
Requisites: Requires prerequisite courses of ECON 2020 and ECON 1088 or MATH 1081 or MATH 1300 or MATH 1310 or APPM 1350 (all min grade C-). Restricted to students with 22-180 units completed.

ECON 3403 (3) International Economics and Policy
Examines national and supranational policies that affect the international economy, with attention to trade barriers, economic nationalism and regionalism, international political economy, exchange market intervention, and international transmission of economic perturbations. Credit given in this course is not included in the calculation of an economics major GPA. May not be taken after either ECON 4413 or ECON 4423.
Requisites: Requires prerequisite courses of ECON 2010 and ECON 2020 (all minimum grade C-). Economic (ECON) majors are restricted from taking this course. ECON minors are allowed to enrolled.

ECON 3535 (3) Natural Resource Economics
Integrates economic analysis with life science aspects of natural resource systems to develop social policies for use of natural resources. Studies economists’ approaches to resources policy analysis and applies them to energy, forestry, fisheries, mineral and water systems. Credit given in this course is not included in the calculation of an economics major GPA.
Equivalent - Duplicate Degree Credit Not Granted: ECON 4535
Requisites: Requires prerequisite course of ECON 2010 (minimum grade C-). Economic (ECON) majors are restricted from taking this course. ECON minors are allowed to enrolled.

ECON 3545 (3) Environmental Economics
Highlights causes of excessive environmental pollution and tools for controlling it through economic analysis, values of preservation and distribution of costs and benefits from environmental protection programs. Credit given in this course is not included in the calculation of an economics major GPA.
Equivalent - Duplicate Degree Credit Not Granted: ECON 4545
Requisites: Requires prerequisite course of ECON 2010 (minimum grade C-). Economic (ECON) majors are restricted from taking this course. ECON minors are allowed to enrolled.

ECON 3616 (3) Employment, Wages and the Future of Work
Examines how automation, globalization and information technology are changing which jobs get done, by whom and how much they pay. Illustrates how basic labor supply and demand theory helps predict the impact of technological progress on occupational composition, income inequality and the nature of work itself. These theoretical tools also guide our search for appropriate public policy responses. Credit given in this course is not included in the calculation of an economics major GPA.
Requisites: Requires a prerequisite course of ECON 2010 (minimum grade C-). Economic (ECON) majors are excluded from taking this course. ECON minors are allowed to enrolled.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Labor and Human Resources

ECON 3784 (3) Economic Development and Policy
Introductory course in Economic Development, designed for non-majors. Students are introduced to the major issues in development economics. Explores empirical, theoretical and policy issues in economic development. Emphasis is placed on the controversial issues in this literature, requiring students to explore competing, and often conflicting, perspectives of these issues.
Requisites: Requires prerequisite courses of ECON 2010 and ECON 2020 (all minimum grade C-). Economic (ECON) majors are restricted from taking this course. ECON minors are allowed to enrolled.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Economic Development

ECON 3818 (4) Introduction to Statistics with Computer Applications
Introduces statistical methods and their applications in quantitative economic analysis.
Requisites: Requires prerequisite courses of ECON 2010 and 2020 and either ECON 1088 or MATH 1081 or MATH 1300 or MATH 1310 or APPM 1350 (all minimum grade C-). Restricted to students with 22-180 units completed.

ECON 4050 (3) Market Design
Develops foundations for the modern market design practices. Economists are increasingly involved in studying and designing practical market mechanisms. Includes topics such as designing efficient matching markets (students to schools, doctors to hospitals), designing auction mechanisms (Google, Facebook, government) and designing market platforms (eBay, Amazon).
Requisites: Requires prerequisite course of ECON 3070 (minimum grade C-).
ECON 4060 (3) Choice Theory and Economic Ethics: Good, Bad and Happiness
Critiques how economists model and judge behavior. How we judge is contrasted with other moral philosophies. Economists assume individuals behave in their own best interests. What does this mean and is it true? Looks at research from psychology and neuroscience. Quizzes and a multi-step research paper, designed for students who love to question, research, write and rewrite.
Requisites: Requires prerequisite course of ECON 3070 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior).
Recommended: Prerequisite ECON 3080.

ECON 4070 (3) Topics in Microeconomics
Studies utility maximization under uncertainty, risk, game theory, moral hazard, and adverse selection. Applications include insurance markets and the theory of contracts.
Requisites: Requires prerequisite course of ECON 3070 (minimum grade C-).

ECON 4111 (3) Money and Banking Systems
Discusses money, financial institutions and the monetary-financial system in a modern economy.
Requisites: Requires prerequisite course of ECON 3080 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Money and Banking

ECON 4211 (3) Public Economics: the Economics of the Government Sector
Focuses on taxation and public expenditures. Topics include economic rationale for government action, economic theory of government behavior, and effects of government policies on allocation of resources and distribution of income.
Requisites: Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Public Economics

ECON 4221 (3) Political and Public Choice Economics
Explores decision-making in non-traditional market settings, specifically political market settings, using economic models. We investigate policy outcomes as the product of interactions among individuals in political markets, and analyze how governmental decisions are the result of rational optimizing behavior, even if they do not lead to policies that maximize national welfare.
Requisites: Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Public Economics

ECON 4231 (3) Applied Economic Analysis and Public Policy
Applies economic analysis to current issues of public policy. Reviews basic public finance and economic justifications for government action. Examines structure and procedures of Colorado State Legislature. Chooses current legislative issues, reviews relevant economic literature and applies implications through briefing papers and testimony at legislative hearings. Explores the challenges of integrating informed economic analysis into legislative process.
Requisites: Requires prerequisite course of ECON 3070 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Public Economics

ECON 4242 (3) Urban Economics: The Economics of Cities
Considers the economic forces which drive households and jobs to congregate in metropolitan areas. It then considers the forces within the city which determine how the established cities "look" - how rents vary with location, the distribution of jobs and households within a city, urban sprawl, and the sorting of households between neighborhoods. Finally it considers some government policies relating to land use and housing.
Requisites: Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Urban and Regional Economics

ECON 4292 (3) Migration, Immigrant Adaptation, and Development
Examines historical and current patterns of migration with an emphasis in international movement. Looks at leading migration theories related to both origin- and destination-based explanations while critically looking at the role of development as a potential cause and consequence of population movement. Finally, covers some aspects of immigrants’ social and economic adaptation to their host society.
Equivalent - Duplicate Degree Credit Not Granted: GEOG 4292 and GEOG 5292
Requisites: Requires prerequisite course of ECON 3070 (minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Urban and Regional Economics

ECON 4309 (3) Economics Honors Seminar 1
For information consult the department's director of honors. Open only to qualified seniors.
Requisites: Requires prerequisite courses of ECON 3070 and ECON 3080 and ECON 3818 (all minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sciences Honors Course
Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Independent Study and Other Courses

ECON 4339 (3) Economics Honors Seminar 2
For information consult the department's director of honors. This course does not count toward major requirements.
Requisites: Requires prerequisite courses of ECON 3070 and ECON 3080 and ECON 3818 (all minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Independent Study and Other Courses
ECON 4413 (3) International Trade
Focuses on theories of international trade and its impacts on economic welfare. Analyzes commercial policy, including tariffs, non-tariff barriers, retaliation, regional integration, and factor migration.
Requisites: Requires prerequisite course of ECON 3070 (minimum grade C).

ECON 4423 (3) International Finance
Covers balance of payments; foreign exchange market, income, trade, and capital flows; asset markets adjustment mechanisms; stabilization policies in an open economy; and problems of international monetary systems.
Requisites: Requires prerequisite course of ECON 3080 (minimum grade C).

ECON 4504 (3) The New Institutional Economics: Institutions, Contracts and Economic Outcomes
Understand the conceptual tool kit of the New Institutional Economics. The concepts include transaction costs, property rights, credible commitment, and most importantly the roles of formal and informal institutions. We will examine the impact of institutions on contracting and organizations. The goal is to understand how the underlying institutions determine the degree to which societies improve their economic performance.
Requisites: Requires prerequisite courses of ECON 3070 and ECON 3080, and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).

ECON 4514 (3) Economic History of Europe
Covers evolution of modern economic growth and development in Europe, emphasizing institutional change.
Requisites: Requires prerequisite course of ECON 3070 or ECON 3080 (minimum grade C-).

ECON 4524 (3) Economic History of the United States
Evolution of modern economic growth and development in the U.S. from colonial times to the present emphasizing institutional change.
Requisites: Requires prerequisite courses of ECON 3070 and ECON 3080 (all minimum grade C-).

ECON 4534 (3) Chinese Economic History in Comparative Perspective
Surveys the economic history of China in a comparative perspective, to understand the history of economic development in China in terms of existing economic theories of growth. The approximate timeline is from the 18th century to the 20th century.
Requisites: Requires prerequisite course of ECON 3070 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Economic History Departmental Category: Asia Content

ECON 4535 (3) Natural Resource Economics
Analysis of problems associated with socially optimal use of renewable and nonrenewable natural resources over time. Problems of common property resources, irreversible forms of development, and preservation of natural areas.
Equivalent - Duplicate Degree Credit Not Granted: ECON 3535
Requisites: Requires prerequisite course of ECON 3070 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Natural Resources and Environmental Economics

ECON 4545 (3) Environmental Economics
Examines the effects of economic growth on the environment; application of economic theory of external diseconomies, cost-benefit analysis, program budgeting, and welfare economics to problems of the physical environment.
Equivalent - Duplicate Degree Credit Not Granted: ECON 3545
Requisites: Requires prerequisite course of ECON 3070 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Natural Resources and Environmental Economics

ECON 4555 (3) Transportation Economics and Policy
Provides an overview of the characteristics and structure of transportation markets including aggregate demand, vehicle and mode choice, surface freight and air travel. Explores market failures in the transportation sector including market power and externalities such as pollution, congestion and accidents as well as policies aimed at addressing these issues.
Requisites: Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Natural Resources and Environmental Economics

ECON 4616 (3) Labor Economics
Examines the influence of markets, unions, and government on labor allocation and remuneration. Analyzes human capital, discrimination, mobility and migration, productivity, unemployment, and inflation. Compares outcomes under competition with those in a world marked by shared market power and bargaining.
Requisites: Requires prerequisite course of ECON 3070 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Labor and Human Resources

ECON 4626 (3) The Economics of Inequality and Discrimination
Examines the unique insights available through economic analysis regarding the causes, mechanisms, and consequences of inequality and discrimination. Examines the extent of inequality, the varieties and extents of discrimination, and explores the economic models that suggest explanations.
Requisites: Requires prerequisite course of ECON 3070 (minimum grade C).
ECON 4646 (3) Topics in Health Economics
Growth in health expenditures worldwide over the past three decades has led to an increase in research in health economics and its importance in public policy in developed and developing countries. The purpose of this course is to encourage students to read, think, and do research on issues in health economics. This course will cover issues that are pertinent to the US, other developed and developing countries. It will cover the basics of health economics such as health production functions and the role for government as well as touching on topical issues such as health care reform.

Requisites: Requires prerequisite course of ECON 3070 (minimum grade C).

Recommended: Prerequisite ECON 3818.

Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Labor and Human Resources

ECON 4697 (3) Industrial Organization and Regulation
Explores neoclassical theory of the firm, the determinants of industrial structure, and the purposes and institutions of public policy to control or maintain a competitive environment.

Requisites: Requires prerequisite course of ECON 3070 (minimum grade C).

Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Industrial Organization

ECON 4717 (3) Economics of Entrepreneurship
Introduces economic analysis of entrepreneurship, its financing, performance and public policy issues. We will investigate in depth the business of venture capital and start-ups. Aims to understand both academic and practical implications from the burgeoning literature on economics of entrepreneurship and private equity.

Requisites: Requires prerequisite courses of ECON 3070 and ECON 3818 (all minimum grade C).

Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Industrial Organization

ECON 4774 (3) Topics in Economic Development, History and Political Economy
Sustained economic growth is a relatively recent economic phenomenon that came about due to the Industrial Revolution and as a result of which the standards of living improved dramatically in the Anglo-Saxon West since the 18th century. However, global inequality has also risen to unprecedented levels because other parts of the world still significantly lag the West in economic, social and political terms. In this class, we shall study the comparative development paths of Anglo-Saxon Europe and the Middle East. In doing so, we shall primarily focus on an expansive list of influential and relevant articles published and the four books required for the class.

Requisites: Requires prerequisite course of ECON 3070 or ECON 3080 (minimum grade C).

ECON 4784 (3) Economic Development
Explores empirical, theoretical, and policy issues in economic development. Examines topics with reference to the developing countries: income distribution and poverty, demographic change, labor force employment and migration, human capital, physical capital, natural resources and the environment, industrial structure, international trade, and finance.

Requisites: Requires prerequisite course of ECON 3070 or ECON 3080 (minimum grade C).

ECON 4794 (3) Economic Growth
Introduces theories explaining why differences in standards of living among countries are so large. Examines a variety of data on historical experiences of economic growth. Surveys recent research on why some countries are so rich and some are so poor, and why some countries grow so quickly and others grow so slowly.

Requisites: Requires prerequisite course of ECON 3070 or ECON 3080 (minimum grade C).

Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Economic Development

ECON 4797 (3) Antitrust and Regulation
Explores two major branches of Industrial Organization—antitrust and regulation. Focus is on developing qualitative and quantitative skills for the legal-economic analysis of issues and problems across a variety of industries. Case studies are used to illustrate concepts, including mergers, collusive agreements, monopolization, and networks. Individual and group projects help develop advocacy and public speaking skills.

Requisites: Requires prerequisite course of ECON 3070 (minimum grade C).

Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Industrial Organization

ECON 4808 (3) Introduction to Mathematical Economics
Introduces the use of mathematics in economics. Topics include vectors and matrices, differential calculus, and optimization theory, with economic applications.

Requisites: Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C).

ECON 4818 (3) Introduction to Econometrics
Provides undergraduate economics majors with an introduction to econometric theory and practice. Develops the multiple regression model and problems encountered in its application in lecture and individual applied projects.

Requisites: Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C).

ECON 4838 (3) Microcomputer Applications in Economics
Teaches basic concepts in Java programming applied to economic models. Development of Web pages and dynamic modeling will be introduced. Students will gain a foundation that can be applied to creating advanced applications relating to analysis of statistical data and custom projects.
Requisites: Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).

ECON 4848 (3) Applied Econometrics
Introduces students to the practice of applied regression analysis. Summarizes and reviews the regression technique, explores U.S. census data sources, introduces an advanced statistical software package and provides structured exercises in regression analysis of census data. Concludes with independent research projects analyzing social and economic issues using regression analysis and census data.
Requisites: Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).

ECON 4858 (3) Financial Econometrics
Introduces statistical models, estimation and testing procedures used in analyzing financial data for advanced undergraduates. Topics include the modeling of returns, portfolio theory, the capital asset pricing model, options pricing and fixed income securities.
Requisites: Requires prerequisite course of ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (minimum grade C-).
Recommended: Prerequisite ECON 4818.

ECON 4868 (3) Simulation Modeling in Microeconomics
Computer simulation modeling translates theory into computer code to examine questions numerically; for example, the effects of taxes or emissions permits on welfare and income distribution. We use GAMS (general algebraic modeling system); a version may be downloaded for free. Students must have access to a computer (not needed in the classroom).
Requisites: Requires prerequisite course of ECON 3070 (minimum grade C-).

ECON 4897 (3) Economics of Organizations
Introduces students to the economic analysis of relationship between firms and incentives within firms. The first part covers classical theories of firm boundaries and contractual relationships between firms. The second part focuses on compensation and incentive issues within firms.
Requisites: Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).
Additional Information: Arts Sci Gen Ed. Distribution-Social Sciences Departmental Category: Industrial Organization

ECON 4909 (3-4) Independent Study
Department enforced prerequisites: completion of at least 12 hours of ECON classes and a minimum GPA of 3.00. Department consent required.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite courses of ECON 2010 and ECON 2020 and ECON 3070 or ECON 3080 (all minimum grade C-).
Additional Information: Departmental Category: Independent Study and Other Courses

ECON 4929 (3) Special Topics in Economics
This course number is assigned to upper-level Economics electives that become available on an incidental basis. Refer to the Economics Department for a detailed description of current content. Formerly ECON 4999.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite courses of ECON 3070 and ECON 3080 (all minimum grade C). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed. Distribution-Social Sciences Departmental Category: Independent Study and Other Courses Departmental Category: Asia Content

ECON 4939 (2-6) Internship/Seminar
Offers students the opportunity to integrate theoretical concepts of economics with practical experience in economics-related institutions. The theoretical portion arises from seminars and readings, the practical from activities in organizations related to the economics field. A maximum of 3 credit hours counts toward major requirements. Department consent required.
Requisites: Requires prerequisite courses of ECON 3070 and ECON 3080 and ECON 3818 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Economic (ECON) majors or minors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Independent Study and Other Courses

ECON 7010 (3) Microeconomic Theory 1
Analyzes recent and contemporary literature on fundamentals of economic theory. Considers value theory with particular emphasis on methodology, theory of demand, theory of the firm, game theory, theory of distribution, general equilibrium theory, and welfare economics. Instructor consent required.
Additional Information: Departmental Category: Theory and History of Economic Thought

ECON 7020 (3) Macroeconomic Theory 1
Discusses behavior of consumption, investment, employment, production, and interest rates in the context of dynamic optimization models. Also considers government, economic growth, and business cycles. Instructor consent required.
Additional Information: Departmental Category: Theory and History of Economic Thought

ECON 7030 (3) Microeconomic Theory 2
Continuation of ECON 7010. Instructor consent required.
Additional Information: Departmental Category: Theory and History of Economic Thought

ECON 7040 (3) Macroeconomic Theory 2
Continuation of ECON 7020. Instructor consent required.
Additional Information: Departmental Category: Theory and History of Economic Thought
ECON 7050 (3) Advanced Economic Theory
Discusses advanced topics in game theory and general equilibrium. Department enforced prerequisites: ECON 7010 and ECON 7030 and ECON 7818 and ECON 7828.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Theory and History of Economic Thought

ECON 7818 (3) Mathematical Statistics for Economists
Provides the mathematical foundation for Ph.D. level statistical inference in economic research. The primary topics of the course are probability theory and mathematical statistics including hypothesis testing and classical estimation with an emphasis on the method of maximum likelihood. Instructor consent required.
**Additional Information:** Departmental Category: Quantitative Economics

ECON 7828 (3) Econometrics
Continuation of ECON 7818. Topics include regression analysis and extensions of the linear regression model to generalized least squares, time series data, and systems of equations. Instructor consent required.
**Additional Information:** Departmental Category: Quantitative Economics

ECON 8010 (3) Economics of Risk and Time
Focuses on new techniques for analyzing behavior in relation to risk and time.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Theory and History of Economic Thought

ECON 8020 (3) Business Cycle Theory and Monetary and Fiscal Policy
Discusses monetary and non-monetary theories of business cycles in the light of empirical evidence and what those theories imply for monetary and fiscal policy. Emphasizes a deep understanding of the mechanisms within models, their comparative statics and comparative dynamics and the importance of, and evidence for, difference parameter values within business cycle models.
**Requisites:** Restricted to graduate students only.

ECON 8209 (3) Economics Research Methods Workshop 1
Assists students starting their doctoral thesis by discussing methodology and evaluation of economic research. Presents and discusses student research proposals.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Independent Study and Other Courses

ECON 8211 (3) Public Economics: Fundamental Principles
Presents the fundamental principles of public goods, externalities, public choice, excess burden, optimal taxation, and tax incidence.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Public Economics

ECON 8219 (3) Economics Research Methods Workshop 2
Continuation of ECON 8209. Assists students starting their doctoral thesis by discussing relevant economic research. Presents and discusses research papers.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Independent Study and Other Courses

ECON 8221 (3) Public Economics: Topics in Public Expenditures and Taxation
Explores advanced topics in public economics such as decentralization, state and local government, program analysis, taxation, international tax issues, political economy issues, and market failure.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Public Economics

ECON 8231 (3) Local Public Economics
Examines subnational governments and systems of governments, the effects of inter-governmental competition, appropriate tax and expenditure responsibilities, and variations in governing institutions. Covers congestible public goods, Tiebout mechanisms, and tax capitalization.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Public Economics

ECON 8413 (3) Seminar: International Trade Theory
Covers theories of comparative advantage, including the classical, factor-proportions, fixed-factor, and noncompetitive markets models. Examines trade policy including trade barriers, market distortions, strategic policy, regional integration, political economy, and factor migration.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: International Trade and Finance

ECON 8423 (3) Seminar: International Finance
Highlights foreign exchange markets, past and current international monetary mechanisms, and processes of adjustment. Examines the role of international financial markets for the behavior of consumption, investment, saving, and production. Also considers international transmission of business cycles.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: International Trade and Finance

ECON 8433 (3) International Economics 3
Explores advanced quantitative topics in international economics and focuses on data, estimation, calibration, and solutions of several classes of models in international trade. The seminar is a part of the graduate sequence in International Economics and complements the course on International Trade Theory.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: International Trade and Finance

ECON 8534 (3) Economic History of North America
Examines North America’s past from the perspective of economics. Topics include growth and welfare in the colonial period; staple products, agricultural development, and the emerging industrialism in the antebellum period; transformation of the North American economy to 1914; the interwar years and the Great Depression; and economic integration since 1945.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Economic History

ECON 8535 (3) Environmental Economics I
Considers the allocation of society’s scarce environmental resources and government attempts to achieve more efficient and equitable allocations. It is a course in applied welfare economics with an emphasis on market failure and valuation.
**Requisites:** Restricted to graduate students only.
**Additional Information:** Departmental Category: Natural Resources and Environmental Economics
ECON 8545 (3) Environmental Economics II
Provides advanced study of recent advances in environmental economics and explores opportunities for new research. Topics vary with interests of instructor and students.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Natural Resources and Environmental Economics

ECON 8676 (3) Seminar: Labor Economics 1
Focuses on the demand side of labor markets. Topics include standard static and dynamic models of labor demand; labor market discrimination, composition of compensation, labor hierarchies within enterprises, unionization, efficient contracts, and macroeconomics of labor markets.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Labor and Human Resources

ECON 8686 (3) Seminar: Labor Economics 2
Focuses on special topics in labor economics: dynamic theories of labor supply, employment, and unemployment; labor supply in a household framework; and labor market activity and income distribution. Explores both theoretical models and empirical tests in each area.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Labor and Human Resources

ECON 8747 (3) Industrial Organization Theory
Highlights economics of regulation of industry and markets, industry studies, and the application of lab methods to industrial organization.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Industrial Organization

ECON 8757 (3) Industrial Organization and Public Policy
Addresses the theory of interaction of firms within markets and industries, emphasizing importance of the number, relative size of firms, market institution, firm strategies and nature of consumer demand. Examines neoclassical and game theoretic models, empirical industry studies and laboratory tests of theoretical models and policies.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Industrial Organization

ECON 8764 (3) History of Economic Development
Covers in historical perspective the causes of economic development including why some areas develop faster than others and why development occurs more rapidly in some eras than others.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Economic History

ECON 8774 (3) Economic Development 1
Focuses on microeconomic issues surrounding economic development from a largely empirical perspective. This is one course in a two-semester sequence in development economics for PhD students. Topics covered in the two sections will vary to keep up with the current research but this course will cover a variety of papers covering different research design and program evaluation methods on topical areas including but not limited to, human capital development and long-run effects, environment and health, labor markets and migration, social capital and networks, micro-credit, and women's empowerment.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Economic Development

ECON 8784 (3) Economic Development 2
Focuses on microeconomic issues surrounding economic development from a largely empirical perspective. This is one course in a two-semester sequence in development economics for PhD students. Topics covered in the two sections will vary to keep up with the current research but this course will cover a variety of papers covering different research design and program evaluation methods on topical areas including but not limited to, distribution of resources within households, environmental and natural resources, as well as migration and gender issues relevant for developing countries.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Economic Development

ECON 8828 (3) Seminar: Econometrics 1
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Quantitative Economics

ECON 8838 (3) Seminar: Econometrics 2
Teaches the advanced level of econometrics theory. Topics include asymptotic theory, maximum likelihood estimation, limited dependent variables analysis and other frontier areas of econometrics such as the method of moment estimation, semiparametric and nonparametric estimation procedure.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Quantitative Economics

ECON 8848 (3) Applied Microeconometrics
Presents a "user's guide" to conducting empirical research in applied microeconomics. Begins with a primer on an industry-standard econometric software package including programming techniques and data management. Introduces advanced econometric techniques including panel data methods, IV, matching models, regression discontinuity and limited dependent variables models. Concludes with a research project requiring a replication and/or extension of an existing published paper.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Quantitative Economics

ECON 8858 (3) Computational and Structural Estimation Methods
Teaches students to construct a variety of applied economic models, obtain parameter values through calibration or estimation techniques and uses the resulting models to conduct policy simulations.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Quantitative Economics

ECON 8909 (1-3) Independent Study
Repeatable: Repeatable for up to 7.00 total credit hours.
Additional Information: Departmental Category: Independent Study and Other Courses

ECON 8999 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 30.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Independent Study and Other Courses
Education (EDUC)

Courses

EDUC 1020 (1) First Year Success at CU
Introduces first-year majors to campus resources and academic success strategies. Students learn about a wide range of topics, including time management, research, and student involvement. This course also serves as a forum for continued conversations about concepts from EDUC 3013: School in Society, as well as the social justice implications for emerging leaders and educators.
Repeatability: Repeatable for up to 2.00 total credit hours.
Requisites: Restricted to Education (EDUC) or Leadership/Community Engagement (LDCE) majors only.

EDUC 1500 (1) Success Strategies in Higher Education
Introduces students to learning theories and a range of college success strategies to deepen their engagement with their academic work. Students will learn metacognitive practices to identify the values and aims driving their academic ambitions and craft their most successful path through their undergraduate experience.
Repeatability: Repeatable for up to 2.00 total credit hours.
Grading Basis: Letter Grade
Additional Information: Departmental Category: General Education

EDUC 1580 (3) Energy and Interactions
Engages non-physics majors in hands-on, minds-on activities and labs to investigate the physical world, the nature of science, and how science knowledge is constructed. This introductory course is especially relevant for future elementary and middle school teachers although it will meet the needs of most non-physics and non-science majors. Physics content focuses on interactions and energy.
Equivalent or Duplicate Degree Credit Not Granted: PHYS 1580
Additional Information: Arts Sci Core Curr: Natural Science Non-Sequence
Arts Sci Gen Ed: Distribution-Natural Sciences
Departmental Category: General Education
MAPS Course: Natural Science
MAPS Course: Chemistry
MAPS Course: Physics

EDUC 2015 (1) Elementary Mathematics and Science Teaching for Social Justice
Working for social justice is central to teaching mathematics and science with elementary-aged children. This course engages prospective elementary teachers with a multitude of early math and science experiences that children draw upon to understand their worlds. Participants will develop interest-driven, culturally sustaining, and inclusive action plans for teaching math and science with elementary-aged children. Master teacher provides support for students as they apply what they have learned in classes and laboratories to their own teaching. Meets weekly on CU campus (1.5 hours/week) and requires participants to work a minimum of five hours with K-12 students at STEM-related special events such as science fairs, after school programs, and science camps. Additional Information: Restricted to AMEN, ASTR, BCHM, CHEM, EBIO, GEOG, IPHY, MATH, MCDB, PHYS, GEEN, NRSC, Arts and Sciences Open Option majors, Exploratory Studies or College of Engineering majors, or Education minors only.
Requisites: Requires prerequisite of EDUC 2020 or EDUC 4610 (all minimum grade C).
Additional Information: Departmental Category: General Education

EDUC 2025 (1) Step 1: Inquiry Approach to Teaching in Informal Settings
Invites science, mathematics and engineering students to explore teaching and learning in informal K-12 settings. Introduces theory and practice necessary to design and deliver excellent instruction. Meets weekly on CU campus (1.5 hours/week) and requires participants to work a minimum of five hours with K-12 students at STEM-related special events such as science fairs, after school programs, and science camps. Additional Information: Restricted to AMEN, ASTR, BCHM, CHEM, EBIO, GEOG, IPHY, MATH, MCDB, PHYS, GEEN, NRSC, Arts and Sciences Open Option majors, Exploratory Studies or College of Engineering majors, or Education minors only.
Requisites: Requires prerequisite of EDUC 2020 or EDUC 4610 (all minimum grade C).
Additional Information: Departmental Category: General Education

EDUC 2030 (1-2) Step 2: Inquiry-Based Lesson Design
Builds on EDUC 2020 and further develops lesson design and inquiry-based teaching practice. Offers opportunity to explore teaching career and learn about middle school culture. Master teacher provides support as students design and deliver lessons in middle school classrooms. Additional Information: Restricted to School of Education (EDUC) undergraduates only
Requisites: Requires prerequisite of EDUC 2020 or EDUC 4610 (all minimum grade C).
Additional Information: Departmental Category: General Education

EDUC 2050 (1) Step Up to Social Justice Teaching
Engages students in theory and practice for justice-centered teaching. This first required course for majors introduces the principles guiding the elementary program and provides opportunities for students to enact those principles in collaboration with children and teachers in public school classrooms. Meets weekly on CU campus (1.25 hours/week). Involves additional visits to local schools.
Requisites: Restricted to School of Education (EDUC) majors only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: General Education

EDUC 2075 (3) History of American Public Education
Provides an overview of the history of American education by exploring major reforms efforts from the common school movement to "Nation at Risk." Examines what intellectuals were thinking about public schools and what ordinary people experienced in them. Examines how educational practices differ by race/ethnicity, class, gender, and power shaped public schools.
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: General Education

EDUC 2150 (3) Education in Film
Provides opportunities to view and analyze how facets of education are represented (or misrepresented) in film. Considers narratives constructed about education and how those stories fuel popular conceptions of and assumptions about students, teachers, and schools. Examines how issues of race, class, and gender are embedded in how films represent schools, teachers, students, and communities.
Additional Information: Departmental Category: General Education

EDUC 2311 (3) Children's Literature and Literacy Engagement in Elementary Schools
Focuses on teaching children's literature in elementary schools & youth organizations. Participants will understand theoretical and developmental processes associated with literacy learning, methods for teaching literature in a diverse society, and the integration of classroom instruction with the Colorado Academic Content Standards that foster such processes.
Requisites: Restricted to Elementary Education (EDEL) or Education (EDUC-MIN) students only.
Additional Information: Departmental Category: Elementary Education
EDUC 2400 (3) Cultural Diversity and Awareness
Enhances students’ self-awareness in a variety of educational and cultural settings. Investigates self within a cultural context, inviting students to engage more deeply with their cultural assumptions and lenses, as well as the cultural practices and beliefs of other distinct groups. Explores themes relating to diversity through works of fiction, cultural contexts, contemplative practices, poetry, music and experiential activities.
Additional Information: Departmental Category: General Education

EDUC 2411 (4) Educational Psychology for Elementary Schools
Integrates theories and ideas from elementary school child development, educational psychology and the learning sciences. Explores theories of learning and child development and considers implications for teaching, student engagement and the design of equitable and effective learning environments. Students are required to attend a practicum off-site for this class.
Additional Information: Departmental Category: General Education

EDUC 2500 (3) Strategies for Social Change
Examines strategies for social change locally and internationally. Critically explores a range of social change case studies including: community organizations, social movements, social entrepreneurship, philanthropy, political and legal advocacy and technology. Students will develop their own proposal for a social change initiative.
Grading Basis: Letter Grade
Additional Information: Departmental Category: General Education

EDUC 2625 (3) Teaching English as a Second Language
Exposes students to strategies used to teach English as a second or foreign language. Covers both theoretical and applied aspects of language learning and teaching. Exposes students to techniques, activities, strategies and resources to plan instruction for students learning English as a second language. Emphasizes oral language development, literacy and content-area instruction for teaching K-12 students.
Additional Information: Departmental Category: General Education

EDUC 2800 (1-3) Special Topics
Designed to meet needs of students with topics of interest.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: General Education

EDUC 2910 (1-3) Field Practicum 1
Offers supervised campus and off-campus experiences tied to course work in the INVST program. See also EDUC 2920.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: General Education

EDUC 2919 (3) Renewing Democracy in Communities and Schools
Examines curriculum theory, K-12 reform, and the concepts of citizenship, democracy, power, and diversity through classroom discussion and participation in a school-based Public Achievement program. Students will dialogue with diverse groups of people; identify multiple perspectives around controversial issues; and learn to use research and writing to articulate public problems and advocate for their solutions.
Equivalent - Duplicate Degree Credit Not Granted: INVS 2919
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Education

EDUC 2920 (1-3) Field Practicum 2
Offers supervised campus and off-campus experiences tied to course work in the INVST program. See also EDUC 2910.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: General Education

EDUC 3013 (3) School and Society
Introduces students - both future teachers and those simply interested in education - to pressing issues surrounding education within the United States. The course reveals the complex relationship between schools and the larger society of which they are a part. Examines issues of diversity and equity from different disciplinary lenses, including history, philosophy, sociology and anthropology.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Education

EDUC 3350 (3) Dis/Ability in Contemporary Classrooms
Examines major issues in special education focusing on a) developing an inclusive stance to teaching all students; b) understanding laws, responsibilities and RTI/MTSS; c) planning for and delivering differentiated instruction in a universally designed classroom environment; e) the social construction and identification of dis/abilities; f) understanding potential variations across federal disabilities categories; g) teaching students with gifts and talents and; h) collaborating with families and professionals.

EDUC 3570 (3) Learning With Technology In and Out of School
Examines ways digital media are changing the way young people learn, play, make friends, and participate in civic life. Studies widely implemented digital tools intended to support literary, math, and science learning of children ages 4-18. Involves brief internship (5 hours outside class) and design projects that integrate these tools to transform in either a classroom or after-school program.
Additional Information: Departmental Category: General Education

EDUC 3621 (1-3) Art for the Elementary Teacher
Introduces elementary education students to art education. Introduces many visual art techniques, art media and processes used in art education. Includes hands-on studio art experiences in a format that supports subjects such as literature, writing, music and social studies. Emphasizes the role of art education and materials in supporting the artistic development and visual literacy of children. Department enforced prerequisite: completion of 30 hours of course work.
Requisites: Restricted to School of Education (EDUC) undergraduates only
Additional Information: Departmental Category: Elementary Education

EDUC 4001 (3) Framing Equity and Justice in the Humanities Classroom
Critically frames learning to teach for equity and justice within schools as systems. Orients students to the School of Education’s mission and guiding principles of the Secondary Humanities program. Provides opportunities for students to enact those principles with mentor teachers in local classrooms. Meets weekly on CU campus and involves a minimum of 50 hours in local schools.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5001
Grading Basis: Letter Grade

Equivalent - Duplicate Degree Credit Not Granted: INVS 2919
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: General Education

Equivalent - Duplicate Degree Credit Not Granted: EDUC 5001
Grading Basis: Letter Grade
EDUC 4015 (3) International / Comparative Education
Comparatively studies education in other countries, emphasizing its role in developing nations, with an emphasis on successful models in basic literacy, primary education, secondary curriculum and teacher education. Analyzes political, social and economic policies and ideologies for their relevance to the development process, including the role of international organizations: World Bank, UNICEF, UNESCO, Peace corps and Volunteer Agencies.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5015
Additional Information: Departmental Category: General Education
EDUC 4023 (3) Differentiating Instruction in Diverse Secondary Classrooms
Focuses on teaching culturally and linguistically diverse students, special education students, and differentiation in the classroom. Emphasizes evidence-based teaching practices and programmatic interventions that support student learning. Includes practicum.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4351
Requisites: Restricted to EDEN, EDFR, EDGR, EDIT, EDJP, EDLT, EDMA, EDMU, EDSC, EDRU, EDSP or MMED majors only.
Additional Information: Departmental Category: Secondary Education
EDUC 4050 (3) Knowing and Learning in Mathematics and Science
Explodes current theories of learning in mathematics and science at the secondary level. This course focuses on learners’ opportunities to learn mathematics and science in a classroom context from the perspective of different theoretical orientations. Students examine their own assumptions about learning, and critically examine the needs of a diverse student population in the classroom.
Requisites: Restricted to AMEN, ASTR, BCHM, CHEM, EBIIO, GEOL, JPHY, MATH, MCDB, PHYS, GEEN, NRSC, Arts and Sciences Open Option majors, Exploratory Studies or College of Engineering majors, or Education minors only.
Additional Information: Departmental Category: Secondary Education
EDUC 4060 (3) Classroom Interactions
Students design and implement instructional activities informed by what it means to know and learn mathematics and science, and then evaluate the outcomes of those activities on the basis of classroom artifacts. Students examine how content and pedagogy combine to make effective teaching. Students are required to work in a classroom 4 hours per week.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5060
Requisites: Restricted to School of Education (EDUC), Mathematics-Secondary Education (EDMA) or Science-Secondary Education (EDSC) majors only.
Additional Information: Departmental Category: Secondary Education
EDUC 4112 (3) Adolescent Development and Learning for Teachers
Examines current theory and research about adolescent learning and development and explore implications for secondary teaching. Topics include human diversity as a resource for learning, adversity and agency, connecting instruction to students’ everyday lives, and the role of belonging and relationships in positive youth development. This course is appropriate for masters degree students.
Equivalent - Duplicate Degree Credit Not Granted: PSYC 4114 and EDUC 5112
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Secondary Education
EDUC 4125 (3) Secondary World Language Methods
Presents and discusses issues in secondary school curriculum, instruction, and classroom management as they play out in world language classroom. Examines, analyzes, and evaluates a variety of teaching strategies, their effectiveness for students, and teacher dispositions to facilitate learning. Includes in-school experiences.
Requisites: Restricted to EDEN, EDFR, EDGR, EDIT, EDJP, EDLT, EDMA, EDMU, EDSC, EDRU, EDSP, EDSS or MMED majors only.
Additional Information: Departmental Category: Secondary Education
EDUC 4135 (3) Story and Memoir
Explores narrative theory and the epistemological/stylistic commitments of stories as the basis for writing memoir, as well as for studying the written and spoken memoirs of others. We use the word memoir to mean a story of "how one remembers one's own life." Introduces and discusses narrative theory and selected memoirs. Students engage in reflection on their own narrative-making processes and evaluate their practical and analytic understanding of daily narrative practice.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5135
Additional Information: Departmental Category: Secondary Education
EDUC 4150 (3) Introduction to Qualitative Research Methods
Introduces students to qualitative research in education. Examines the foundations, design, methods and analysis of qualitative research methods. Readings include texts about the foundations and purposes of qualitative inquiry, and methodological readings about the application of research techniques. Students will complete a variety of small, hands-on projects that introduce major dimensions of qualitative research including observation, interviewing, and document analysis.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5150
Grading Basis: Letter Grade
Additional Information: Departmental Category: General Education
EDUC 4161 (1-3) Children's Literature
Addresses reading and evaluation of books, children's, interests, authors and illustrators, folk literature, multicultural literature, modern fanciful tales, and trends.
Additional Information: Departmental Category: General Education
EDUC 4222 (3) Language Study for Educators
Focuses on the nature of linguistic development and performance. Examines works that reflect a range of scholarly approaches to language study, explores language use both in and out of school, takes up the relationships between language practices and power and considers implications for classroom teaching.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5222
Additional Information: Departmental Category: General Education
EDUC 4232 (3) Language and Literacy across the Curriculum
Explores the relationship between language and learning in math and science classrooms with the goal of developing teaching practices that engage students in using language as a tool for understanding and constructing meaning across the curriculum. Explores how language/literacy take on different forms and functions in different social contexts and academic disciplines.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5235
Requisites: Restricted to undergraduate Science-Secondary Education (EDSC) or Mathematics-Secondary Education (EDMA) majors only.
Additional Information: Departmental Category: Secondary Education
EDUC 4240 (3) African American Education in the United States
Explores development of schooling for African Americans in the U.S.
Emphasizes historical and contemporary struggles of this group in their
quest to access meaningful educational opportunities. Examines how
social, economic, political, and judicial action defined and organized
policy and practice for this group. EDUC 4240 and 6240 are identical
courses.
Additional Information: Departmental Category: General Education

EDUC 4295 (3) Narrative and Story in the Humanities
Explores a wide variety of texts that might be used in secondary English
and Social Studies classrooms. Examines philosophies and instructional
approaches to the teaching of reading and literature. Considers the
influence of story and storytelling in the construction of personal and
societal meaning.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5295
Requisites: Requires prerequisite of EDUC 4001 or EDUC 5001 (minimum
grade C-). Restricted to teacher licensure students in English (EDEN-LICU)
or Social Studies (EDSS-LICU).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Secondary Education

EDUC 4301 (3) Queer(ing) Topics in Education
Bring critical and queer theoretical perspectives to bear on an inquiry
into what’s counted as “normal” in social, historical, and political
contexts of education in the United States. We’ll explore queerness,
queer theory, and queer pedagogy, in an effort to examine schooling
as a heteronormative institution that has tended toward (re)producing
heterosexism, homophobia, and violence against queer bodies and
identities.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5301
Grading Basis: Letter Grade
Additional Information: Departmental Category: General Education

EDUC 4310 (3) Social and Emotional Learning in Schools
Explore the ways SEL benefits students through investigating its
purposes and goals, the competencies it seeks to promote, the
characteristics of effective programs, and the range of program formats.
We frame these topics through examining ongoing dilemmas in the field.
We also conduct in-depth reviews of several programs and the research
that supports them.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5310

EDUC 4315 (3) Perspectives on Science
Explores contemporary ideas and issues in the history, philosophy and
sociology of science education and science, science as a social and
cultural activity and how contemporary issues in science relate to and
impact educational practice.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5315
Additional Information: Departmental Category: General Education

EDUC 4317 (3) Perspectives on Mathematics
Explores the historical development of mathematics as a human
construct, and the relationship between the discipline and the
contemporary school mathematics curriculum. Focuses on the sociology
of mathematics education and how cultural traditions and societal needs
influence the school mathematics curriculum and educational practice.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5317

EDUC 4318 (3) The Nature of "English Language Arts"
Considers historical and ongoing controversies concerning the nature
of "English" as an academic field of study and of "English Language
arts" as a school subject. Integrates understandings of subject-matter
specialization, of approaches to teaching this contested subject, and
of the diverse learners that teachers seek to prepare for 21st century
literacies.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5318
Additional Information: Departmental Category: General Education

EDUC 4320 (3) Reading Instruction for Elementary Schools
Participants will engage theories and processes of literacy learning,
reading development, and equity-oriented teaching. Students will learn,
develop, and enact instructional strategies and lessons to support all
students’ successful participation in a range of print and multimodal
literacy practices embedded in reading instruction in elementary
classrooms.
Requisites: Requires corequisite course of EDUC 4321. Restricted to
Elementary Education (EDEL) majors only.
Additional Information: Departmental Category: Elementary Education

EDUC 4321 (3) Writing Instruction for Elementary Schools
Participants will engage theories and processes of literacy learning,
writing development, and equity-oriented teaching. Students will learn,
develop, and enact instructional strategies and lessons to support all
students’ successful participation in a range of multimodal literacy
practices embedded in writing instruction in elementary classrooms.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5325
Requisites: Restricted to students with an English-Secondary Education
Licensure pan (EDEN-LICU) or Social Studies-Secondary Education
Licensure plan (EDSS-LICU).
Grading Basis: Letter Grade

EDUC 4325 (3) Queering Literacy in Secondary Classrooms
Engages theories and practices of literacy teaching and learning
that challenge multiple forms of oppression. Using the tools of queer
pedagogy, students will learn, develop, and enact strategies for planning
and implementing literacy instruction that moves beyond inclusion of
differences in the English/language arts and social studies curriculum.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5325
Requisites: Restricted to students with an English-Secondary Education
Licensure pan (EDEN-LICU) or Social Studies-Secondary Education
Licensure plan (EDSS-LICU).
Grading Basis: Letter Grade

EDUC 4330 (3) Secondary Social Studies Methods I
Explores effective social studies teaching techniques used to prepare
secondary students for success in college, career, and civic life. An
emphasis is placed on interpreting sources, understanding multiple
perspectives, and employing critical thinking with diverse students.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5330
Requisites: Requires prerequisite of EDUC 4001 or EDUC 5001 (both
minimum grade C-). Requires corequisite of EDUC 4901. Restricted to
teacher licensure students in Social Studies (EDSS-LICU).
Grading Basis: Letter Grade

EDUC 4331 (3) Elementary Social Studies Methods
Prepares teacher education candidates for teaching social studies in a
social justice and equity context. Participants will understand theoretical
and developmental processes associated with social studies learning,
culturally responsive teaching pedagogy in social studies, methods
for teaching social studies in a diverse society, and the integration of
classroom instruction with the Colorado Academic Content Standards.
Requisites: Requires corequisite courses of EDUC 5215 and EDUC 4341.
Restricted to Elementary Education (EDEL) majors only.
Additional Information: Departmental Category: Elementary Education
EDUC 4341 (3) Elementary Reading Assessment and Instruction
Builds on knowledge and teaching practices introduced in EDUC 4320. Addresses five critical components of reading. Refines understanding of research-based practices for diagnostic assessments and intervention, and teaching strategies for elementary age learners. Prepares candidates to deliver a comprehensive reading curriculum in the elementary grades.
Requisites: Requires corequisite courses of EDUC 4331 and EDUC 5215. Restricted to Elementary Education (EDEL) majors only.
Additional Information: Departmental Category: Elementary Education

EDUC 4345 (3) Secondary English Methods I
Explores the underlying principles and philosophies of several approaches to the teaching of English in the areas of language, writing, and speaking and the practical application of these methods in the secondary classroom. Provides support in constructing activities, assignments, assessments, and units that meet the differentiated needs of students given their diverse identities, lives, interests, and needs.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5345
Requisites: Requires a prerequisite of EDUC 4001 or EDUC 5001 (both minimum grade C-). Requires corequisite of EDUC 4901. Restricted to teacher licensure students in English (EDEN-LICU).
Additional Information: Departmental Category: Secondary Education

EDUC 4351 (3) Language and Equity in Inclusive Learning Environments
Focuses on responsive instructional approaches for elementary school students, including culturally and linguistically diverse students requiring special education services. Addresses relevant educational laws and policies aimed at protecting students’ rights to a quality education. Includes practicum experiences in elementary school settings.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4023
Requisites: Requires corequisite course of EDUC 5205. Restricted to Music (EDMU) Education majors or Elementary (EDEL) majors only.
Additional Information: Departmental Category: Elementary Education

EDUC 4375 (3-4) Problem-Based Math Instruction
Focuses on curriculum, materials, methods and assessment, and related aspects of instruction. Introduces best practices in teaching mathematics in middle and high schools. Students are required to work in a classroom 4 hours per week. Examiners the Colorado Academic Content Standards.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5375
Requisites: Restricted to EDCl, EDSC, or EDMa majors only.
Recommended: Corequisite EDUC 4023.

EDUC 4425 (3) Foundations of Bilingual/Multicultural Education
Provides a comprehensive survey of bilingual-multicultural education programs for emergent bilingual students. Includes an overview of the history and legislation related to the education of emergent bilingual students, as well as the various models, theoretical and philosophical underpinnings, and pedagogical practices that constitute sound educational practices for emergent bilingual students.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5425
Additional Information: Departmental Category: General Education

EDUC 4435 (3) Culturally Sustaining Pedagogies for Bilingual Learners
Explores multicultural education, critical pedagogy, and culturally sustaining pedagogies, including their underlying theories, curriculum design, and curriculum examples. Students will analyze curriculum with a focus on its representation of different socio-cultural groups, identities, points of view, relationship to different communities, and ideology. Students will also begin planning, teaching, and evaluating instruction anchored in critical, culturally sustaining pedagogies.
Requisites: Restricted to Elementary Education (EDEL) majors only.

EDUC 4455 (3) Methods of Biliteracy Instruction
Critique and analyze the linguistic, social, political and cultural factors that influence the acquisition of literacy for emerging bilingual (EB) learners. We will examine and apply evidence-based practices that support the development of reading, writing, speaking and listening in all of the students’ languages regardless of the program model schools enact to serve them.
Requisites: Restricted to Elementary Education (EDEL) majors only.

EDUC 4460 (3) Teaching and Learning Physics
Learn how people understand key concepts in physics. Through examination of physics content, pedagogy and problems, through teaching, and through research in physics education, students will explore the meaning and means of teaching physics. Students will gain a deeper understanding of how education research is done and how people learn. Useful for all students, especially for those interested in physics, teaching, and education research.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5460 and PHYS 4460 and PHYS 5460
Requisites: Requires prerequisite courses of PHYS 3210 and PHYS 3310 (all minimum grade C-).
Additional Information: Departmental Category: Graduate Education

EDUC 4490 (3) Blurring Disciplinary Lines in the Humanities
Explores theories, methods, and materials for building interdisciplinary connections within and across secondary English and Social Studies classrooms. Provides opportunities for collaborative work in building lessons and unit plans that challenge disciplinary boundaries and advocate for complex problem solving.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5490
Requisites: Requires prerequisite of EDUC 4342 or EDUC 5342 or EDUC 4330 or EDUC 5330 (all minimum grade C-). Restricted to teacher licensure students in English (EDEN-LICU or EDEN-LICG) or Social Studies (EDSS-LICU or EDSS_LICG).
Grading Basis: Letter Grade

EDUC 4500 (3) Community-Based Research for Social Change
Complete a research project that draws on theories of social change and is developed in partnership with a community or civic agency. Become skilled at doing original research to address complex social problems.
Requisites: Requires prerequisite course of EDUC 2500 (minimum grade B-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: General Education

EDUC 4513 (2) Education and Practice
Meets during student teaching assignment. Includes topics of concern to teachers, such as classroom organization and management, lesson planning, assessment, preparation of edTPA, etc.
Requisites: Requires corequisite course of EDUC 4691 or 4712 or 4722. Restricted to EDEL, EDEN, EDFR, EDGR, EDJP, EDLT, EDMA, EDRU, EDSC, EDSP or EDSS majors only.
Additional Information: Departmental Category: General Teacher Education

EDUC 4535 (3) Assessment for Bilingual Learners
Introduce students to the theory, methods, practice, and problems in the testing and assessment of bilingual students at the classroom and large-scale level. Topics include the specification of English Learners as a student population and the assessment of their language proficiency and academic achievement. The course additionally addresses reliability, validity, and fairness in the testing of linguistically diverse populations.
Requisites: Restricted to Elementary Education (EDEL) majors only.

EDUC 4590
EDUC 4610 (2) Becoming a Learning Assistant
Introduces undergraduate Learning Assistants (LAs) to education research, active learning, and strategies that support: (1) eliciting student ideas and helping all group members become active and engaged in the class; (2) listening and questioning; (3) building relationships; and (4) integrating learning theories with effective practices. Also "LA Pedagogy Course." Department enforced prerequisite: Learning Assistant Program admission. First-semester LAs requirement.
Grading Basis: Letter Grade
Additional Information: Departmental Category: General Education

EDUC 4615 (3) Language Acquisition for Bilingual Learners
Examines the variables that interact in the process of learning a second language and developing bilingualism/bi-literacy. These variables include the learner’s background, motivation, linguistic, cognitive, emotional, social, cultural, and political factors. The course will examine these factors and generate understandings about how they work together to foster or inhibit successful development of bilingualism/bi-literacy in community, home and school contexts.
Requisites: Restricted to Elementary Education (EDEL) majors only.

EDUC 4691 (10) Student Teaching: Elementary School 1
Kindergarten through sixth grades. Department enforced prerequisite: completion of all education and content-specific arts and sciences requirements, and passing required licensure exam.
Requisites: Requires corequisite course of EDUC 4513. Restricted to Elementary Education (EDEL-LICU or LICG) majors only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: General Teacher Education

EDUC 4706 (3) Assessment in Mathematics and Science Education
Examines purposes and practices of assessment in mathematics and science education. Particular attention is given to application of theoretical foundations and contemporary research in the design and use of assessment techniques and tools to support teaching for student understanding. Addresses the role of effective formative assessment in teaching and learning.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5706

EDUC 4712 (10) Student Teaching: Secondary School
Student teacher apprentices in a middle/junior high or senior high school. Must be admitted to a secondary teacher education program in English, Japanese, Latin, math, Russian, science or social studies. Department enforced prerequisites: completed all education and content-specific arts and sciences courses and passed required licensure exam.
Requisites: Requires corequisite course of EDUC 4513. Restricted to EDEN, EDJP, EDLT, EDMA, EDRU, EDSC or EDSS (LICU or LICG) majors only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: General Teacher Education

EDUC 4716 (3) Basic Statistical Methods
Introduces descriptive statistics including graphic presentation of data, measures of central tendency and variability, correlation and prediction, and basic inferential statistics, including the t-test.
Additional Information: Departmental Category: General Education

EDUC 4722 (5) Student Teaching: Secondary School 2
Student teacher apprentices in a middle/junior high or senior high school. Department enforced prerequisites: completed all education and content-specific arts and sciences courses and passed required licensure exam.
Requisites: Requires corequisite course of EDUC 4513. Restricted to EDFR, EDGR or EDSP (LICU or LICG) majors only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: General Teacher Education

EDUC 4732 (4-12) Student Teaching K-12
Required experience for music students seeking education at both elementary and secondary levels. Department enforced prerequisites: completed all education and content-specific music courses and passed required licensure exam.
Requisites: Requires corequisite course of MUSC 4193. Restricted to EDMU (LICU or LICG) majors only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: General Teacher Education

EDUC 4742 (9) Student Teaching: Secondary for Engineers
Student teacher apprentices in a middle/junior or senior high school. Must be admitted to a secondary teacher education program in English, Japanese, Latin, math, Russian, science or social studies. Department enforced prerequisites: completed all education and content-specific arts and sciences courses and passed required licensure exam.
Requisites: Requires a prerequisite course of EDUC 4513 or EDUC 4050 (minimum grade C-). Restricted to EDMA or EDSC majors only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: General Teacher Education

EDUC 4748 (1-9) Special Topics
Designed to meet needs of students with topics of pertinent interest. Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: General Education

EDUC 4810 (1-9) Special Topics
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: General Education

EDUC 4811 (3) Teaching and Learning Biology
Provides an introduction to recent research into student learning on the conceptual foundations of modern biology, together with pedagogical methods associated with effective instruction and its evaluation. Students will be involved in active research into conceptual and practical issues involved in biology education, methods to discover student preconceptions, and the design, testing and evaluation of various instructional interventions.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 6811 and MCD 4811 and MCD 5811
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

EDUC 4815 (3) Teaching K-12 Mathematics: Number Sense
Provides teachers opportunity to explore fundamental mathematical theories and pedagogical perspectives pertaining to the teaching and learning of number and operation. Engages students in explorations of mathematical content underlying number and operations, while highlighting relevant problem solving, reasoning and proof, and mathematical connections. Explores implications of teachers' mathematical learning on their classroom teaching. Develops practices supporting learner's number sense development.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5815
EDUC 4821 (3) Teaching K-12 Mathematics: Algebraic Thinking
Uses reform-based mathematics curricula to engage participants in algebraic thinking, to reflect on their own knowledge of algebraic concepts, and to examine pedagogical ideas that can foster K-12 students' algebraic thinking and learning. Algebraic topics include patterning, variable, functions, multiple representations, equality, and solving linear and systems of equations.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 5820

EDUC 4822 (3) Teaching and Learning Chemistry
Explores issues related to how people learn and teach chemistry. Reviews high school and early college chemistry concepts both from the content and pedagogical perspectives. Delves into the chemistry education research, education, psychology, and cognitive science literature. Provides an opportunity to observe and/or teach K-12 or college chemistry classes.
Requisites: Requires prerequisite course of CHEM 1133 or CHEM 2100 or CHEM 1371 (minimum grade C-).
Additional Information: Departmental Category: General Education

EDUC 4831 (3) Advanced Peer Education
Second semester of an academic year's training for students interested in peer counseling. Expand upon what you learned in ARSC 2274. Focus on presentations, leadership, and group facilitation. Basic group leadership, facilitation theory, and technique taught. Co-create and co-lead your own small groups/presentations for other CU students. Offered only spring semesters.
Requisites: Requires prerequisite course of ARSC 2274 (minimum grade D-).
Additional Information: Departmental Category: General Education

EDUC 4833 (3) Teaching and Learning Earth Systems
Learn and develop pedagogically effective strategies for teaching and understanding Earth Science concepts. Particular emphasis is placed on understanding the importance of geoscience habits of mind (i.e. spatial/temporal reasoning, multiple working hypotheses, geographic context). Focuses upon inquiry and evaluation of evidence, the importance of background knowledge and misconceptions, and developing effective discourse within and outside the classroom.
Requisites: Requires prerequisite course of ATOC 1060 or ENVS 1000 or GEOL 1010 or GEOL 1020 or GEOL 1060 (minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: General Education

EDUC 4840 (1-4) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: General Education

EDUC 4850 (3) Teaching K-12 Mathematics: Probability & Statistics
Focuses on teaching probability, data analysis, and statistics in K-12 classrooms. Explores curriculum and assessment strategies in the areas of probability and statistics. Examines research on students’ thinking on stochastic tasks and how this research informs teaching practice. Emphasizes deepening of one's conceptual understanding of probability and statistics and their importance in the current information age.

EDUC 4901 (3) Student Teaching I
Provides opportunities for practice around classroom community building, instruction, assessment, etc. in partnership with a mentor teacher and public school students. Experiences will vary depending upon the context, grade level, and school/course placement.
Requisites: Requires prerequisite of EDUC 4001 or EDUC 5001 (both minimum grade C-). Requires corequisite of EDUC 4330 or EDUC 5330. Restricted to teacher licensure students in English (EDEN-LICU) or Social Studies (EDSS-LICU).
Grading Basis: Letter Grade

EDUC 4902 (4) Student Teaching II
Provides opportunities for practice around classroom community building, instruction, assessment, etc. in partnership with a mentor teacher and public school students. Although experiences will vary depending upon the context, grade level, and school/course placement, in this practicum students will build upon their work in Student Teaching I and take greater responsibility for teaching.
Requisites: Requires prerequisite of EDUC 4901 (minimum grade C-) and corequisite of EDUC 5355 or 5365. Restricted to students with an English-Secondary Education Licensure pan (EDEN-LICU) or Social Studies-Secondary Education Licensure plan (EDSS-LICU).
Grading Basis: Letter Grade

EDUC 4910 (3) Peer Counseling Practicum
Controlled enrollment. Credit given for peer counseling activities. Students are selected to participate in this class and act as peer counselors or TAs for the peer counseling training. Repeatable up to 9 total credit hours.
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Departmental Category: General Education

EDUC 4912 (1) Practicum in Teacher Education
Provides in-school practicum experience.
Repeatable: Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: General Teacher Education

EDUC 5001 (3) Framing Equity and Justice in the Humanities Classroom
Critically frames learning to teach for equity and justice within schools as systems. Orient students to the School of Education's mission and guiding principles of the Secondary Humanities program. Provides opportunities for students to enact those principles with mentor teachers in local classrooms. Meets weekly on CU campus and involves a minimum of 50 hours in local schools.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4001
Requisites: Restricted to Masters-level teacher licensure students with a English-Secondary Education (EDEN-LICG) or Social Studies-Secondary Educ (EDSS-LICG) plan.
Grading Basis: Letter Grade

EDUC 5005 (3) Advanced Social Foundations of Education
Critically examines the intellectual and political forces that shape the aims, policies, and practices of K-12 education in the United States.
Requisites: Restricted to Educ-Curriculum Instruction (EDCI) graduate students only.
Additional Information: Departmental Category: Graduate Education
EDUC 5010 (1) Race and Equity in Higher Education
Introduces students to the research and theory surrounding access to college and equity in higher education institutions. It specifically addresses access and equity issues related to race and ethnicity. Also discusses equity for faculty and administrators. Major themes include: college access, college choice, affirmative action and diversity.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5011 (1) College Student Career Development
Explores the diverse aspects of career development for college students. Examines the different models of career services for students in different schools, colleges and majors.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5012 (1) Higher Education Finance
Covers the major, basic elements of budgeting and finance in higher education. It is designed to address the budget process in colleges and universities, as well as the impact of budget activities on other areas of planning and operations within an institution. Enhances students' knowledge of both internal and external financial environments facing higher education.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5014 (1) Ethical Dilemmas in Higher Education
Examines ethical issues involved in higher education and student affairs administration. Uses real and fictional ethical cases to bring to light various moral and ethical tensions relevant for higher education and student affairs professionals.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5015 (3) International / Comparative Education
Comparatively studies education in other countries, emphasizing its role in developing nations, with an emphasis on successful models in basic literacy, primary education, secondary curriculum and teacher education. Analyzes political, social and economic policies and ideologies for their relevance to the development process, including the role of international organizations: World Bank, UNICEF, UNESCO, Peace Corps and Volunteer Agencies.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4015
Additional Information: Departmental Category: Graduate Education

EDUC 5020 (1) College Academic Advising
Explores the diverse aspects of academic advising for college students. Examines the different models of advising for students in different schools, colleges and majors.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5021 (1) College Athletic Affairs
Examines the relationship between student-athletes and the institution and explores how intercollegiate athletics fits into the academic enterprise of higher education. Key questions include: 1) what purpose does athletics serve and 2) for whose benefit? With these questions in mind, we examine the range of issues at the intersection of athletic administration, student development theory, and educational leadership and policy.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5022 (1) LGBTQ+ Topics in Higher Education
Explores the diverse aspects of college and university life for students, staff, and faculty who identify as LGBTQ+. Examines the different higher education supports and challenges for LGBTQ+ student populations.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5023 (1) College Admissions and Enrollment
Explores the diverse aspects of college and university student recruitment, outreach, admissions, and enrollment. Examines the different models of admissions processes and systems, with attention to relevant politics and professional practices.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5026 (1) Technology in Higher Education
Examines impact of technology on higher education and student affairs. Explores impact of technology on students and their development, and teaching and learning. Although technical aspects of technology are discussed in some depth, this is not designed as a 'technical' course; the content revolves around implications of technology as both a driving and a supportive element within higher education.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5027 (1) Institutional Advancement and Development in Higher Education
Examines the roles of institutional advancement, development, and fundraising in higher education and student affairs. Explores the impact of advancement on students, staff, and faculty, as well as on teaching and learning, research, campus life, and the larger community. The content will revolve around implications of development work as both a driving and a supportive element within higher education.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5028 (1) International Education in Higher Education and Student Affairs
To provide an introduction to the field of international education. Students pursuing graduate studies in higher education administration will benefit from an overview of global student mobility trends and an exploration of career pathways within the field. In-class discussions, out-of-class readings, and guest speakers will guide student learning.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

EDUC 5030 (1) Accessibility and Students with Disabilities in Higher Education
Provides students with important knowledge about issues of accessibility and development for students with disabilities in higher education. Examines strategies to offer support and guidance to students with disabilities in order to foster a safe and engaging learning and living environment.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5031 (1) Institutional Research & Analytics in Higher Education
Examines the roles and uses of institutional research and data analytics in higher education and student affairs. Provides students with a foundational understanding of the field of institutional research and data analytics in higher education. Explores the activities in which institutional researchers engage, the tools they need to be successful in their jobs, the topics they study and issues they investigate.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education
EDUC 5032 (1) College Student Leadership Development
Surveys the study and practice of leadership and provides students with a variety of experiences to wrestle with large leadership questions. What is leadership? Who can be a leader? How is leadership an important aspect of understanding self and others?
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5035 (3) Proseminar: Parent and Community Involvement
Focuses on models and strategies for improving parent and community involvement in the schools. Discusses administrative concerns, such as parent advisory councils, and instructional concerns, such as helping children with school assignments.
Additional Information: Departmental Category: Graduate Education

EDUC 5060 (3) Classroom Interactions
Students design and implement instructional activities informed by what it means to know and learn mathematics and science, and then evaluate the outcomes of those activities on the basis of classroom artifacts. Students examine how content and pedagogy combine to make effective teaching. Students are required to work in a classroom 4 hours per week.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4060
Requisites: Restricted to Educ-Curriculum Instruction (EDCI) graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5065 (3) Curriculum Theories
Examines four central curricular traditions: progressive; conservative; radical; and spiritual. Highlights the strengths and weaknesses of various writers within each tradition with attention paid to the conceptual features and the practical implications of each educational view. Encourages students to examine their own educational assumptions.
Additional Information: Departmental Category: Graduate Education

EDUC 5070 (3) Spirituality and Religion in Education
Examines features of religion, spirituality, and a liberal arts education, so as to further understand the constitutional, historical and cultural constraints on, and acceptable approaches to the study of religion and spirituality in American education. Specifically explores aspects of a contemplative orientation and the degree to which such an orientation should/can be pursued in K-12 public and higher education.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5075 (3) Sociology in Education
In-depth analysis of theories and concepts in sociology and education. Evolution of curriculum, organization, and enrollment characteristics of American schools. Schooling, race, class, culture, gender, stratification, and educational reform in light of paradigmatic change in theories and concepts of sociology.
Additional Information: Departmental Category: Graduate Education

EDUC 5085 (3) History of American Education
Highlights social and intellectual history perspectives of American educational history, major reform movements from the 19th century to Dewey, and assessment of how differences of race, class, ethnicity, religion, power, and gender affected American education.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5105 (3) Teaching for Understanding and Equity
Addresses perspectives and evidence-based teaching practices that promote equity and access to conceptual understanding. Introduces the knowledge base on effective and socially just teaching practices, and the theories and research that support these practices. Explores the impact of theory and research on classroom instruction.
Additional Information: Departmental Category: Graduate Education

EDUC 5112 (3) Adolescent Development and Learning for Teachers
Examines current theory and research about adolescent learning and development and explore implications for secondary teaching. Topics include human diversity as a resource for learning, adversity and agency, connecting instruction to students’ everyday lives, and the role of belonging and relationships in positive youth development. This course is appropriate for masters degree students.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4112 and PSYC 4114

EDUC 5115 (3) Issues in School Change and Reform
Examines recent developments in teaching, and trends in the philosophy and practice of education. Focuses special attention on a variety of issues central to school reform.
Additional Information: Departmental Category: Graduate Education

EDUC 5135 (3) Story and Memoir
Explores narrative theory and the epistemological/stylistic commitments of stories as the basis for writing memoir, as well as for studying the written and spoken memoirs of others. We use the word memoir to mean a story of “how one remembers one’s own life.” Introduces and discusses narrative theory and selected memoirs. Students engage in reflection on their own narrative-making processes and evaluate their practical and analytic understanding of daily narrative practice.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4135
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5145 (3) Gender, Literacy, and the K-12 Classroom
Explores and critiques various conceptions of gender within popular and scholarly publications that have influenced how gender and sexual diversity is approached in classrooms. Builds a theoretical stance toward gender and sexual diversity that supports equity, engagement and achievement for all children and youth. Discusses teaching strategies that thoughtfully take into account gender identities and equity.
Additional Information: Departmental Category: Graduate Education

EDUC 5150 (3) Introduction to Qualitative Research Methods
Introduces students to qualitative research in education. Examines the foundations, design, methods and analysis of qualitative research methods. Readings include texts about the foundations and purposes of qualitative inquiry, and methodological readings about the application of research techniques. Students will complete a variety of small, hands-on projects that introduce major dimensions of qualitative research including observation, interviewing, and document analysis.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4150
Grading Basis: Letter Grade
Additional Information: Departmental Category: General Education

EDUC 5165 (3) Children's Literature
Involves reading and evaluation of picture books, and emphasizes children's interests, authors and illustrators, multicultural literature, the components of narrative, and the features of illustrations. Examines connections between children's literature and children's development as writers.
Additional Information: Departmental Category: Graduate Education
EDUC 5205 (3) Elementary Mathematics Theory and Methods
Provides pre-service teachers opportunities to explore contemporary theories of learning, curriculum development, and pedagogical strategies pertaining to teaching elementary-level mathematics. Blends exploration in mathematical content with development of sophisticated mathematical models for teaching.
Requisites: Requires corequisite course of EDUC 4351. Restricted to Elementary Education (EDEL) majors only.
Additional Information: Departmental Category: Elementary Education

EDUC 5215 (3) Elementary Science Theory and Methods
Provides pre-service elementary teachers opportunities to explore contemporary theories of learning, curriculum development, pedagogical strategies, and assessment. Blends scientific content, pedagogy, and practical applications.
Requisites: Requires corequisite courses of EDUC 4331 and 4341. Restricted to Elementary Education (EDEL) majors only.
Additional Information: Departmental Category: Elementary Education

EDUC 5222 (3) Language Study for Educators
Focuses on the nature of linguistic development and performance. Examines works that reflect a range of scholarly approaches to language study, explores language use both in and out of school, takes up the relationships between language practices and power and considers implications for classroom teaching.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4222
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5235 (3) Language and Literacy Across the Curriculum
Explores the relationship between language and learning in math and science classrooms with the goal of developing teaching practices that engage students in using language as a tool for understanding and constructing meaning across the curriculum. Explores how language/ literacy take on different forms and functions in different social contexts and academic disciplines.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4232
Requisites: Restricted to EDIC, EECD, EFPP, EPSY or REME graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5245 (3) Foundations of Reading Instruction K-12
Comparatively analyzes current and emerging philosophies and programs in K-12 with focus on teaching reading and thinking skills.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5255 (3) Digital Literacies and New Media
Engage in digital reading and writing experiences using tools for communication, collaboration, design and research. Students will discuss and critically reflect on the role of technology in literacy instruction, grounded on learning and literacy theories. Connections to English language arts include genre study of literary and nonfiction texts and using quality children's literature as mentor texts for multimodal craft.
Requisites: Requires a prerequisite course of EDUC 5245 (minimum grade C).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5265 (3) Processes in Writing
Examines processes writers use from early ages to maturity by investigating current research related to writing curriculum, instruction, and policy. Includes opportunities for students to engage in inquiry related to writing curriculum and instruction in K-12 classrooms.
Requisites: Restricted to Educ-Curriculum Instruction (EDCI) graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5275 (3) Assessment in Literacy
Assumes an interactive model of reading and supports the perspective of assessment as interrelated with curriculum and instruction; examines principles that guide the selection and interpretation of assessment strategies and tools, with a focus on students who are experiencing difficulties with literacy.
Requisites: Requires a prerequisite course of EDUC 5245 (minimum grade C). Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5285 (3) Reading Clinic Procedures K-12
Focuses learning on a select group of K-12 students to assess reading proficiency, develop appropriate instructional goals, and provide instruction that addresses these goals. Emphasis on interpreting assessment data, extending a repertoire of instructional strategies, and developing and implementing a strong instructional plan.
Requisites: Requires a prerequisite course of EDUC 5275 (minimum grade C).
Additional Information: Departmental Category: Graduate Education

EDUC 5295 (3) Narrative and Story in the Humanities
Explores a wide variety of texts that might be used in secondary English and Social Studies classrooms. Examines philosophies and instructional approaches to the teaching of reading and literature. Considers the influence of story and storytelling in the construction of personal and societal meaning.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4295
Requisites: Requires prerequisite of EDUC 4001 or EDUC 5001 (minimum grade C). Restricted to teacher licensure students in English (EDEN-LICG) or Social Studies (EDSS-LICG).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5301 (3) Queer(ing) Topics in Education
Bring critical and queer theoretical perspectives to bear on an inquiry into what’s counted as “normal” in social, historical, and political contexts of education in the United States. We'll explore queerness, queer theory, and queer pedagogy, in an effort to examine schooling as a heteronormative institution that has tended toward (re)producing heterosexism, homophobia, and violence against queer bodies and identities.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4301
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5310 (3) Social and Emotional Learning in Schools
Explore the ways SEL benefits students through investigating its purposes and goals, the competencies it seeks to promote, the characteristics of effective programs, and the range of program formats. We frame these topics through examining ongoing dilemmas in the field. We also conduct in-depth reviews of several programs and the research that supports them.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4310
Requisites: Restricted to graduate students only.
EDUC 5315 (3) Perspectives on Science
Explores contemporary ideas and issues in the history, philosophy and sociology of science education and science, science as a social and cultural activity and how contemporary issues in science relate to and impact educational practice.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4315
Additional Information: Departmental Category: Graduate Education

EDUC 5316 (3) Nature of Social Studies and Social Studies Education
Prepares teacher education candidates for teaching social studies in a social context. Participants will understand theoretical and developmental processes associated with social studies learning, methods for teaching social studies in a diverse society, and the integration of classroom instruction with the Colorado Academic Content Standards that foster such processes.
Requisites: Restricted to Educ-Curriculum Instruction (EDCI), Social Studies-Secondary Educ. (EDSS), Anthropology (ANTH), Economics (ECON), Geography (GEOG), History (HIST) or International Affairs (IAFS) majors only.
Additional Information: Departmental Category: Graduate Education

EDUC 5317 (3) Perspectives on Mathematics
Explores the historical development of mathematics as a human construct, and the relationship between the discipline and the contemporary school mathematics curriculum. Focuses on the sociology of mathematics education and how cultural traditions and societal needs influence the school mathematics curriculum and educational practice.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4317
Additional Information: Departmental Category: Graduate Education

EDUC 5318 (3) The Nature of "English Language Arts"
Considers historical and ongoing controversies concerning the nature of "English" as an academic field of study and of "English Language arts" as a school subject. Integrates understandings of subject-matter specialization, of approaches to teaching this contested subject, and of the diverse learners that teachers seek to prepare for the 21st century literacies.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4318
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5325 (3) Queering Literacy in Secondary Classrooms
Engages theories and practices of literacy teaching and learning that challenge multiple forms of oppression. Using the tools of queer pedagogy, students will learn, develop, and enact strategies for planning and implementing literacy instruction that moves beyond inclusion of differences in the English/language arts and social studies curriculum.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4325
Requisites: Restricted to Master's teacher licensure students in English (EDEN-LICG).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5330 (3) Secondary Social Studies Methods I
Explores effective social studies teaching techniques used to prepare secondary students for success in college, career, and civic life. An emphasis is placed on interpreting sources, understanding multiple perspectives, and employing critical thinking with diverse students.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4330
Requisites: Requires prerequisite of EDUC 4001 or EDUC 5001 (both minimum grade C-). Requires corequisite of EDUC 4901. Restricted to teacher licensure students in Social Studies (EDSS-LICG).
Grading Basis: Letter Grade

EDUC 5345 (3) Secondary English Methods I
Explores the underlying principles and philosophies of several approaches to the teaching of English in the areas of language, writing, and speaking and the practical application of these methods in the secondary classroom. Provides support in constructing activities, assignments, assessments, and units that meet the differentiated needs of students given their diverse identities, lives, interests, and needs.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4345
Requisites: Requires a prerequisite of EDUC 4001 or EDUC 5001 (both minimum grade C-).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5355 (3) Secondary Social Studies Methods II
Explores effective techniques associated with reading, processing and assessing social studies subject area content with an emphasis on developing critical thinking skills and meeting the needs of diverse students.
Requisites: Requires prerequisite course of EDUC 4330 or EDUC 5330 and EDUC 4901 (all minimum grade C-). Requires corequisite of EDUC 4902.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5365 (3) Secondary English Methods II
Explores the underlying principles and philosophies of several approaches to the teaching of English in the areas of reading, thinking, and viewing and the practical application of these methods in the secondary classroom. Provides support in constructing activities, assignments, assessments, and units that meet the differentiated needs of students given their diverse identities, lives, interests, and needs.
Requisites: Requires prerequisite course of EDUC 4342 or EDUC 5345 and EDUC 4901 (all minimum grade C-). Requires corequisite of EDUC 4902.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 5375 (3-4) Problem-Based Math Instruction
Focuses on curriculum, materials, methods and assessment, and related aspects of instruction. Introduces best practices in teaching mathematics in middle and high schools. Students are required to work in a classroom 4 hours per week. Examines the Colorado Academic Content Standards.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4375
Requisites: Restricted to EDCI, EDSC, or EDMA majors only.
Recommended: Corequisite EDUC 4023.
Additional Information: Departmental Category: Graduate Education

EDUC 5385 (3-4) Problem-Based Science Instruction
Focuses on curriculum, materials, methods, assessment, and related aspects of instruction. Introduces best practices in teaching science in middle and high schools. Students are required to work in a classroom 4 hours per week. Examines the Colorado Academic Content Standards.
Requisites: Restricted to EDCI, EDSC, or EDMA majors only.
Recommended: Corequisite EDUC 4023.
Additional Information: Departmental Category: Graduate Education
EDUC 5390 (3) Professional Teaching for Equity and Justice
Explores what it means to be a professional educator for equity and justice. Examines how such educators might best work to sustain their commitments through advocacy and care and how they might extend their role through involvement in the professional community and conversation at local, state, and national levels.
Requisites: Requires prerequisite of EDUC 5365 or EDUC 5355 (both minimum grade C-). Restricted to teacher licensure students in English (EDEN-LICG) or Social Studies (EDSS-LICG).
Grading Basis: Letter Grade
EDUC 5425 (3) Foundations of Bilingual/ Multicultural Education
Provides a comprehensive survey of bilingual-multicultural education programs for emergent bilingual students. Includes an overview of the history and legislation related to the education of emergent bilingual students, as well as the various models, theoretical and philosophical underpinnings, and pedagogical practices that constitute sound educational practices for emergent bilingual students.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4425
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education
EDUC 5435 (3) Materials and Methods in Bilingual/ Multicultural Education
Provides an in-depth study of the curriculum options available for bilingual and ESL programs. Presents, reviews, and critiques specific methods and strategies for teaching language to minority students. Gives the opportunity to develop and present teaching units in Spanish or in ESL methodology, as appropriate.
Requisites: Requires a prerequisite course of EDUC 5425 (minimum grade C-).
Additional Information: Departmental Category: Graduate Education
EDUC 5445 (3) Curriculum for Multicultural Education
Analyzes curriculum programs and examines principles that inform innovation for education of diverse students at all school levels. Includes topics of ethnic, racial, socio-economic, linguistic, and gender diversity.
Additional Information: Departmental Category: Graduate Education
EDUC 5455 (3) Literacy for Linguistically Different Learners
Presents current and emerging philosophies and methods on teaching reading to culturally diverse second-language learners. Includes review of materials, strategies for teaching reading and writing skills, and important considerations for transference from L1 to L2 reading.
Requisites: Requires a prerequisite course of EDUC 5425 (minimum grade C-).
Additional Information: Departmental Category: Graduate Education
EDUC 5460 (3) Teaching and Learning Physics
Learn how people understand key concepts in physics. Through examination of physics content, pedagogy and problems, through teaching, and through research in physics education, students will explore the meaning and means of teaching physics. Students will gain a deeper understanding of how education research is done and how people learn. Useful for all students, especially for those interested in physics, teaching, and education research.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4460 and PHYS 4460
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education
EDUC 5465 (3) Introduction to ESL/Bilingual and Special Education
Provides students with the fundamental information of ESL, bilingual and special education, including theories, assumptions, philosophies, and paradigms of bilingual and special education. Discusses successful teaching techniques and instructional approaches, including individualization, least restrictive environment, transition, and career education.
Additional Information: Departmental Category: Graduate Education
EDUC 5485 (3) Differentiation in the Classroom
Focuses on teaching culturally and linguistically diverse students, special education students, and differentiation in the classroom. Emphasizes evidence-based teaching practices, programmatic interventions that support student learning and using research to inform practice. Includes practicum. Department enforced prerequisite: restricted to MA+ students.
Additional Information: Departmental Category: Graduate Education
EDUC 5490 (3) Blurring Disciplinary Lines in the Humanities
Explores theories, methods, and materials for building interdisciplinary connections within and across secondary English and Social Studies classrooms. Provides opportunities for collaborative work in building lessons and unit plans that challenge disciplinary boundaries and advocate for complex problem solving.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4490
Requisites: Requires prerequisite of EDUC 4342 or EDUC 5342 or EDUC 4330 or EDUC 5330 (all minimum grade C-). Restricted to teacher licensure students in English (EDEN-LICU or EDEN-LICG) or Social Studies (EDSS-LICU or EDSS-LICG).
Grading Basis: Letter Grade
EDUC 5505 (3) Education of Students with Learning and Behavior Disorders
Discusses unique learning needs of students with learning and behavior disorders. Emphasizes development of a systems model for diagnosis, programming, and remediation. Stresses data-based individualization of instruction, with emphasis on intervention in inclusive learning environments and developing a culturally responsive system.
Additional Information: Departmental Category: Graduate Education
EDUC 5515 (3) Curriculum and Assessment for Special Learners
Explores theories, methods, and materials for building interdisciplinary connections within and across secondary English and Social Studies classrooms. Provides opportunities for collaborative work in building lessons and unit plans that challenge disciplinary boundaries and advocate for complex problem solving.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4490
Requisites: Requires prerequisite of EDUC 4342 or EDUC 5342 or EDUC 4330 or EDUC 5330 (all minimum grade C-). Restricted to teacher licensure students in English (EDEN-LICU or EDEN-LICG) or Social Studies (EDSS-LICU or EDSS-LICG).
Grading Basis: Letter Grade
EDUC 5525 (3) Research Issues in Special Education
Provides practical experience in the review, critique, conceptualization, and writing of research studies in special education. Also offers experience in design of evaluation systems for classroom practice.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education
EDUC 5535 (3) Diagnostic Testing in ESL and Bilingual Education
Promotes critical uses of assessment instruments and information. Provides methods for educators to incorporate assessment as a meaningful activity in the classroom intended to support learning among bilingual students. Examines effectiveness, validity, and fairness in the testing of linguistically diverse populations. Provides first-hand experiences developing, selecting, reviewing, and adapting test materials as critical to making informed teaching decisions.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5545 (3) Strategies for Teaching Students with Special Needs
Provides teachers with specific evidence-based methods and techniques for teaching students with a wide variety of high and low disabilities including learning and language disabilities, hearing and visual impairments, physical disabilities, and health impairments. Emphasizes different teaching methods, instructional materials, and learning strategies that have proven effective working students with cognitive learning needs.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5555 (3-4) Practicum in Bilingual/Special Education
Offers supervised field experience in elementary and secondary special education class settings. Each credit hour requires 50 contact hours.
Requisites: Requires prerequisite courses of EDUC 5465 and EDUC 5505 and EDUC 5515 or EDUC 5545 (all minimum grade C-). Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5575 (1-4) Workshop in Curriculum and Instruction
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Graduate Education

EDUC 5580 (3) Physics and Everyday Thinking
Engages non-physics majors in hands-on, minds-on activities and labs to investigate the physical world, the nature of science, and how science knowledge is constructed. This introductory course is especially relevant for future elementary and middle school teachers although it will meet the needs of most non-physics and non-science majors. Physics content focuses on interactions and energy.
Additional Information: Departmental Category: Graduate Education

EDUC 5595 (1-4) Practicum in Linguistically Different: English as a Second Language
University supervised, school-based field experience teaching linguistically different students, as well as assistance in the completion of EECD portfolio.
Requisites: Requires prerequisite courses of EDUC 5425 and EDUC 5435 and EDUC 5535 (all minimum grade C-). Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5605 (3) Research Issues in Bilingual Education
Offers practical experience in the review, critique, conceptualization, and writing of research studies in bilingual/ESL education. Provides experience in the design of classroom evaluation systems.
Requisites: Requires a prerequisite course of EDUC 5245 (minimum grade C-). Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5610 (1-3) Math and Science Education
Introduces learning theory and teaching practices for mathematics and science learning assistants. Presents theoretical issues such as conceptual development, questioning techniques, cooperative learning, nature of math/science, and argumentation in mathematics and science.
Additional Information: Departmental Category: Graduate Education

EDUC 5615 (3) Second Language Acquisition
Presents a broad survey of second-language acquisition research. Stresses theoretical concerns and research findings and practical applications to teaching second languages. Gives special emphasis to second-language acquisition.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5625 (3) Methods of Teaching English as a Second Language
Exposes students to strategies used to teach English as a second or foreign language. Covers both theoretical and applied aspects of language learning and teaching. Exposes students to techniques, activities, strategies and resources to plan instruction for students learning English as a second language. Emphasizes oral language development, literacy and content-area instruction for teaching K-12 students.
Recommended: Prerequisite EDUC 5615.
Additional Information: Departmental Category: Graduate Education

EDUC 5635 (3) Education and Sociolinguistics
Explores the discipline of sociolinguistics, the study of language variation and use, and its application within education settings. Not designed as an advanced sociology or linguistics course. Areas of study include language variation, speech communities, the ethnography of communication, speech and social identities, and sociolinguistic research related to teaching and learning.
Additional Information: Departmental Category: Graduate Education

EDUC 5706 (3) Assessment in Mathematics and Science Education
Examines purposes and practices of assessment in mathematics and science education. Particular attention is given to application of theoretical foundations and contemporary research in the design and use of assessment techniques and tools to support teaching for student understanding. Addresses the role of effective formative assessment in teaching and learning.
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4706
Additional Information: Departmental Category: Graduate Education

EDUC 5716 (3) Basic Statistical Methods
Introduces descriptive statistics including graphic presentation of data, measures of central tendency and variability, correlation and prediction, and basic inferential statistics, including the t-test.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 5726 (3) Introduction to Disciplined Inquiry
Considers various research approaches and methodologies included in education including experimental and quasi-experimental methods; anthropological and case study methods; evaluative research and field studies; correlational; and sociological, historical, and philosophical research. Topics include library research, research criticism, research design, and proposal writing.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education
EDUC 5800 (1-9) Master's Special Topics  
Designed to meet needs of students with topics of pertinent interest. 00 total credit hours. Allows multiple enrollment in term.  
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.  
Grading Basis: Letter Grade  
Additional Information: Departmental Category: Graduate Education  
EDUC 5815 (3) Teaching K-12 Mathematics: Number Sense  
Provides teachers opportunity to explore fundamental mathematical theories and pedagogical perspectives pertaining to the teaching and learning of number and operation. Engages students in explorations of mathematical content underlying number and operations, while highlighting relevant problem solving, reasoning and proof, and mathematical connections. Explores implications of teachers’ mathematical learning on their classroom teaching. Develops practices supporting learner’s number sense development. Formerly EDUC 5810.  
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4815  
Additional Information: Departmental Category: Graduate Education  
EDUC 5820 (3) Teaching K-12 Mathematics: Algebraic Thinking  
Uses reform-based mathematics curricula to engage participants in algebraic thinking, to reflect on their own knowledge of algebraic concepts, and to examine pedagogical ideas that can foster K-12 students’ algebraic thinking and learning. Algebraic topics include patterning, variable, functions, multiple representations, equality, and solving linear and systems of equations.  
Equivalent - Duplicate Degree Credit Not Granted: EDUC 4821  
Additional Information: Departmental Category: Graduate Education  
EDUC 5822 (3) Teaching and Learning Chemistry  
Explores issues related to how people learn and teach chemistry. Reviews high school and early college chemistry concepts both from the content and pedagogical perspectives. Delves into the chemistry education research, education, psychology and cognitive science literature. Provides an opportunity to observe and/or teach K-12 or college chemistry classes.  
Requisites: Requires prerequisite course of CHEM 1133 or CHEM 2100 or CHEM 1371 (minimum grade C).  
Additional Information: Departmental Category: Graduate Education  
EDUC 5831 (3) Teaching K-12 Mathematics: Geometry & Measurement  
Provides an opportunity to explore how to foster geometric thinking while examining fundamental mathematical theory underlying the content area of geometry and measurement. Emphasizes investigative approach involving problem solving, reasoning, connections, and communication as well as learning mathematics content in a flexible and conceptual way. Challenges participants to apply their understanding to teaching practices that foster geometric thinking in K-12 learners. Formerly EDUC 5830.  
Additional Information: Departmental Category: Graduate Education  
EDUC 5833 (3) Teaching and Learning Earth Systems  
Learn and develop pedagogically effective strategies for teaching and understanding Earth Science concepts. Particular emphasis is placed on understanding the importance of geoscience habits of mind (i.e. spatial/temporal reasoning, multiple working hypotheses, geographic context). The course focuses upon inquiry and evaluation of evidence, the importance of background knowledge and misconceptions and developing effective discourse within and outside the classroom.  
Grading Basis: Letter Grade  
Additional Information: Departmental Category: Graduate Education  
EDUC 5840 (3) Teaching K-12 Mathematics: Probability & Statistics  
Focuses on teaching probability, data analysis, and statistics in K-12 classrooms. Explores curriculum and assessment strategies in the areas of probability and statistics. Examines research on students’ thinking on stochastic tasks and how this research informs teaching practice. Emphasizes deepening of one’s conceptual understanding of probability and statistics and their importance in the current information age.  
Additional Information: Departmental Category: Graduate Education  
EDUC 6110 (3) Student Affairs in Higher Education  
Provides students with a thorough introduction to the field of student affairs administration in higher education. Explores diverse facets of college student affairs administration and its role within US higher education. The course will help students develop a broad foundation for subsequent Higher Education study and practice. Focuses on philosophies, complexities, and futures of the student affairs profession.  
Grading Basis: Letter Grade  
Additional Information: Departmental Category: Graduate Education  
EDUC 6210 (3) Education Policy and the Law  
Approaches education policy issues through the rich history of litigation and current legal challenges facing American K-12 schooling. Builds an understanding of the legal and policy development of the American schooling system, particularly in the 20th century. Laws and legal cases will be used as jumping-off points for broader discussions.  
Requisites: Restricted to graduate students only.  
Additional Information: Departmental Category: Graduate Education  
EDUC 6220 (3) Gender Issues in Education  
Provides a strong foundation in the various issues of gender and sexual diversity in education. Stimulates explorations into the ways the construct of “gender” affects and is affected by the educational system and process. Presents theory and research about contemporary educational issues related to sexism and homophobia. Encourages development of well-considered views about the various issues, research, and theories.  
Additional Information: Departmental Category: Graduate Education  
EDUC 6230 (3) Ethics in Education  
Investigates controversies in education from a self-consciously ethical perspective, drawing as appropriate from moral and political theory as well as law. Focuses on public education’s role in fostering democratic citizenship and providing equal educational opportunity. Critically evaluates various education reform policies and curriculum policies. Applies method commonly used in medical ethics to make decisions regarding concrete ethically problematic cases.  
Additional Information: Departmental Category: Graduate Education  
EDUC 6240 (3) African American Education in the United States  
Explores development of schooling for African Americans in the U.S. Emphasizes historical and contemporary struggles of this group in their quest to access meaningful educational opportunities. Examines how social, economic, political, and judicial action defined and organized policy and practice for this group. EDUC 4240 and 6240 are identical courses.  
Requisites: Restricted to graduate students only.  
Additional Information: Departmental Category: General Education
EDUC 6250 (3) Higher Education in the United States
Examines major issues in higher education focusing on the sociopolitical contexts in which US universities operate as gatekeepers to opportunities. Topics include the purposes and history of higher education in the United States, college teaching and learning, finance and governance, issues of access and equity related to race, gender, sexual orientation, gender identity, immigration status and class, and student life.
Grading Basis: Letter Grade

EDUC 6318 (3) Psychological Foundations of Education
Introduces students to theoretical and empirical contributions of educational and developmental psychology and the learning sciences emphasizing applications to educational practices. Topics include learning, development, cognitive processes, social and cultural context, motivation, assessment and individual differences.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 6325 (3) Anthropology of Education
Applies anthropological perspectives to research in educational settings. Focuses on theories of culture, cultural transmission and acquisition, and cultural reproduction and production for understanding schooling and its outcomes.
Additional Information: Departmental Category: Graduate Education

EDUC 6328 (3) Advanced Child Growth and Educational Development
Introduces students to recent theoretical and research advances in the study of children and adolescent's cognitive, social and emotional development, with an emphasis on implications for learning in and out of school.
Additional Information: Departmental Category: Graduate Education

EDUC 6368 (3) Adolescent Psychology and Development for Teachers
Examines current theory and research on adolescent development, learning, motivation, and academic achievement. Emphasizes how theory and research can inform instructional decisions in the secondary classroom.
Requisites: Restricted to English-Secondary Education (EDEN), Social Studies-Secondary Educ (EDSS), Mathematics-Secondary Educ (EDMA) or Science-Secondary Educ (EDSC) graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 6405 (3) College Student Development and Counseling Theories
Covers theories of student development in higher education as they apply to the growth of students and the influence of the college environment on growth and development. Examines selected approaches to counseling theory and practice. Theoretical formulations basic to human development and the counseling process are presented including historical and philosophical background. This course explores themes of human development, self-evolution, meaning making, separation and connection, and moral meaning making, and how college students are other adults construct themselves and the meaning they make of their experience.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 6504 (3) Issues and Methods in Cognitive Science
Interdisciplinary introduction to cognitive science, examining ideas from cognitive psychology, philosophy, education, and linguistics via computational modeling and psychological experimentation. Department enforced prerequisite: graduate standing or at least one upper-division course in computer science, linguistics, philosophy, or psychology.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 6402 and LING 6200 and PHIL 6310 and PSYC 6200 and SLHS 6402
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 6505 (1-2) Readings and Research in Cognitive Science
Interdisciplinary reading of innovative theories and methodologies of cognitive science. Share interdisciplinary perspectives through in-class and online discussion and analysis of controversial texts and of their own research in cognitive science. Required for joint PhD in cognitive science.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 6506 (2) Cognitive Science Research Practicum
Independent, interdisciplinary research project in cognitive science for advanced graduate students pursuing a joint PhD in an approved core discipline and cognitive science. Research projects integrate at least two areas within the cognitive sciences: psychology, computer science, linguistics, education, philosophy. Students need commitments from two mentors for their project.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 7412 and LING 7415 and PHIL 7415 and PSYC 7415 and SLHS 7418
Requisites: Requires prerequisite course of CSCI 6402 or EDUC 6504 or LING 6200 or PHIL 6310 or PSYC 6200 (minimum grade D-). Restricted to graduate students only.
Recommended: Prerequisite EDUC 6505.
Additional Information: Departmental Category: Graduate Education

EDUC 6516 (2) Cognitive Science Research Practicum 2
Independent, interdisciplinary research project in cognitive science for advanced graduate students pursuing a joint PhD in an approved core discipline and cognitive science. Research projects integrate at least two areas within the cognitive sciences: psychology, computer science, linguistics, education, philosophy. Students need commitments from two mentors for their project.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 7422 and LING 7425 and PHIL 7425 and PSYC 7425 and SLHS 7428
Requisites: Requires prerequisite course of LING 7415 or PSYC 7415 or CSCI 7412 or EDUC 6506 (minimum grade D-). Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 6705 (3) Leadership in Higher Education
Examines theory and research on leadership and management in higher education, and the structure and governance of colleges and universities. Explores the internal organization and culture of institutions, as well as external and related bodies that affect higher education such as the federal and state governments, accrediting agencies, associations and foundations.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education

EDUC 6804 (1-4) Special Topics
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Graduate Education
Requisites:
MCDB 4811 and MCDB 5811
EDUC 4811 and Equivalent - Duplicate Degree Credit Not Granted:
instructional interventions.
Students will be involved in active research into conceptual and practical
issues involved in biology education, methods to discover student
preconceptions, and the design, testing and evaluation of various
instructional interventions.
Equivalent - Duplicate Degree Credit Not Granted:
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education
EDUC 6844 (1-4) Master's Independent Study
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple
enrollment in term.
Additional Information: Departmental Category: Graduate Education
EDUC 6855 (1-4) Independent Study in Curriculum and Instruction---Master's Level
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple
enrollment in term.
Additional Information: Departmental Category: Graduate Education
EDUC 6877 (1-4) Independent Study in Educational Equity & Cultural Diversity: Master's Level
An independent study may be established between a student and a
tenure track faculty member if both parties are amenable. The topics,
readings and assignments will vary based upon mutually agreed upon
goals. The student will be responsible for obtaining and submitting the
necessary paperwork from/to the Office of Student Services in the School
of Education. This is a variable credit course that ranges from 1 to 4
credits. The number of credits will be determined by the professor based
on the workload.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple
enrollment in term.
Additional Information: Departmental Category: Graduate Education
EDUC 6888 (1-4) Independent Study in Educational and Psychological Studies---Master's Level
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple
enrollment in term.
Additional Information: Departmental Category: Graduate Education
EDUC 6899 (1-4) Independent Study in Educational Foundations Policy & Practice--Master's Level
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple
enrollment in term.
Additional Information: Departmental Category: Graduate Education
EDUC 6915 (1-4) Practicum in Curriculum and Instruction
Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple
enrollment in term.
Additional Information: Departmental Category: Graduate Education
EDUC 6916 (1-4) Practicum in Research and Evaluation Methodology
Additional Information: Departmental Category: Graduate Education
EDUC 6917 (1-4) Practicum in Educational Equity and Cultural Diversity
Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple
enrollment in term.
Additional Information: Departmental Category: Graduate Education
EDUC 6918 (1-4) Practicum in Educational and Psychological Studies
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple
enrollment in term.
Additional Information: Departmental Category: Graduate Education
EDUC 6919 (1-4) Practicum in Educational Foundations Policy and
Practice
Repeatable: Repeatable for up to 4.00 total credit hours. Allows multiple
enrollment in term.
Additional Information: Departmental Category: Graduate Education
EDUC 6925 (1-4) Readings in Curriculum and Instruction
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple
enrollment in term.
Additional Information: Departmental Category: Graduate Education
EDUC 6926 (1-4) Readings in Research and Evaluation Methodology
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple
enrollment in term.
Additional Information: Departmental Category: Graduate Education
EDUC 6927 (1-4) Readings in Educational Equity & Cultural Diversity
Repeatable for up to 12.00 total credit hours. Allows multiple
enrollment in term.
Additional Information: Departmental Category: Graduate Education
EDUC 6928 (1-4) Readings in Learning Sciences and Human Development
Repeatable: Repeatable for up to 12.00 total credit hours.
Additional Information: Departmental Category: Graduate Education
EDUC 6929 (1-4) Readings in Educational Foundations Policy and
Practice
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple
enrollment in term.
Additional Information: Departmental Category: Graduate Education
EDUC 6944 (1-3) Master's Candidate for Degree
Repeatable: Repeatable for up to 12.00 total credit hours.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Graduate Education
EDUC 6945 (3) MA Capstone Seminar in Foundations of Education
Supports students completing a summative writing assignment
for their Masters degree requirements. Writing assignments will be
designed around the professional and academic goals of each student,
in collaboration with the student's academic advisor. Students will
analyze research studies across different disciplinary and methodological
approaches. Through instructor coaching and peer review exercises,
students will draft and refine a final assignment.
Requisites: Restricted to MA students in Education (EPSY-MA, EFPP-MA, HEDU-MA).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Education
EDUC 6954 (1-6) Master's Thesis
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Graduate Education
EDUC 6964 (3) Capstone: Inquiry in the Content Areas
Supports students in using and building on the ideas and content encountered in previous coursework. Requires students to conceptualize, design and implement an original research project that will serve as exit requirement for the degree. Reads and engages in research and theory associated with Teacher Research (i.e. research conducted by teachers for professional purposes).
Requisites: Restricted to Educ-Curriculum Instruction (EDCI) graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 7015 (3) Teaching Internship in Teacher Education
One-semester teaching internship in an undergraduate or graduate foundations course.
Additional Information: Departmental Category: Graduate Education

EDUC 7055 (3) Philosophy of Education
Examines exemplars of educational philosophy from ancient times to the present day, emphasizing their relevance and application to current controversies in education (e.g., free speech, multiculturalism, and affirmative action). Formerly EDUC 5055.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 7105 (3) Collaboration to Meet Special Needs
Covers effective collaboration practices involving the special education teacher, other educational personnel, students, and parents. Bilingual special education considerations in collaboration will be described. Issues regarding inclusion will be explored. Practical application to teaching and learning will be made. Strategies for disseminating information and collaborative activities will be discussed.
Additional Information: Departmental Category: Graduate Education

EDUC 7115 (3) Critical Approaches for Teacher Education/University Instructor Development
Designed to support doctoral students, development as university level instructors/teacher educators, particularly in relation to undergraduate courses that center equity and justice as central topics, this course will draw on critical perspectives and pedagogies to shape course goals, material/content and pedagogical approach. This will be done in two primary ways: a) through the use of pedagogies adapted from Freirean Culture Circles and Boalian Theater, and b) through the application of practitioner inquiry approaches designed to develop critical, reflective practices/habits of mind among teachers and teacher educators.
Requisites: Restricted to EDUC PhD students with plan codes EEDC-PHD, EFPP-PHD, EDCI-PHD, EPSY-PHD or REME-PHD.

EDUC 7316 (3) Intermediate Statistical Methods
Studies sampling theory and inferential statistics; advanced applications for testing of hypotheses regarding central tendency, variability, proportion, correlation, and normality; chi-square and the analysis of frequency data; multiple regression and prediction; introduction to the analysis of variance; and related computer programs for statistical analysis.
Requisites: Requires prerequisite course of EDUC 5716 (minimum grade D-).
Additional Information: Departmental Category: Graduate Education

EDUC 7326 (3) Quasi-Experimental Design in Causal Inference in Social Sciences
Focuses on experimental and quasi-experimental designs in educational research; applications of the general linear model; power and statistical efficiency; randomization and control; multiple comparisons; factorial experiments and interaction with fixed-factor and mixed design; analysis of covariance; effects of assumption violations; and related computer programs for statistical analysis.
Additional Information: Departmental Category: Graduate Education

EDUC 7336 (3) Methods of Survey Research and Assessments
Examines theory and techniques involved in each stage of survey research, including problem formulation, questionnaire development, interview and mailed surveys, assessing reliability and validity, sampling plans, data reduction (e.g., factor analysis), and analysis of continuous and categorical data.
Requisites: Requires prerequisite courses of EDUC 5726 and EDUC 7316 (all minimum grade D-).
Additional Information: Departmental Category: Graduate Education

EDUC 7346 (3) Ethnographic Methods in Educational Research
Explores the history of ethnography and its translation into educational research. Students practice participant observation, interviewing, journal writing, artifact searches, qualitative analysis and interpretation, and styles of reporting.
Requisites: Requires a prerequisite course of EDUC 6325 (minimum grade C).
Additional Information: Departmental Category: Graduate Education

EDUC 7356 (3) Theory and Practice of Educational and Psychological Measurement
Introduces theories of measurement and applications, and presents classical test theory. Includes quantitative concepts, methods, and computational techniques for the development, application, and evaluation of measurement instruments in social/behavioral science and education.
Requisites: Requires prerequisite course of EDUC 5716 (minimum grade D-).
Additional Information: Departmental Category: Graduate Education

EDUC 7366 (3) Educational Evaluation
Builds an understanding of the range of approaches taken by educational evaluators, focusing particularly on the evaluation of programs. Explores the nature of different evaluation perspectives and how these disparate views translate into methodological and conceptual models. Students develop a familiarity with the most common and influential approaches to evaluation.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 7396 (3) Categorical Data Analysis
Introduces contemporary advanced multivariate techniques and their application in social science research. Methods include multivariate regression and analysis of variance, structural equation models, and factor analysis. Prior experience with Anova and multiple regression is assumed.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 7416 (3) Seminar: Research Methodology
Presents selected topics for advanced study in educational research, statistics, measurement, and evaluation.
Repeatable: Repeatable for up to 12.00 total credit hours.
Additional Information: Departmental Category: Graduate Education
EDUC 7436 (3) Item Response Theory
Includes one-, two-, and three-parameter logistic models for dichotomously-scored items and partial credit models for polychotomously-scored items; applications of the models to problems such as equating of test forms, test design, computerized adaptive testing, and the detection of item bias.
Requisites: Requires prerequisite courses of EDUC 7316 and EDUC 7376 (all minimum grade D-).
Additional Information: Departmental Category: Graduate Education

EDUC 7446 (3) Seminar: Policy Issues in Education
Examines major policy issues confronting U.S. education and examines the nature and undertaking of educational policy studies. Learn to approach policy issues from a contextual perspective that highlights systemic forces and analyzes and applies differing policy instruments. While a wide variety of policies are covered in the course, it particularly emphasizes issues of educational equity.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 7456 (3) Multilevel Modeling
Covers in depth two advanced multivariate models common to social science research: latent variable (structural equation) models and multilevel (hierarchical) models. Topics may be taught with a particular analytic context, such as measurement of change (longitudinal analysis) or experimental design.
Additional Information: Departmental Category: Graduate Education

EDUC 7775 (1) Topics in Cognitive Science
Reading of interdisciplinary innovative theories and methodologies of cognitive science. Students participate in the ICS Distinguished Speakers series that hosts internationally recognized cognitive scientists who share and discuss their current research. Session discussions include analysis of leading edge and controversial new approaches in cognitive science.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 7772 and LING 7775 and PHIL 7810 and PSYC 7775 and SLHS 7775
Repeatable: Repeatable for up to 4.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 8014 (3) Advanced Seminar in Democracy, Diversity and Social Justice
Addresses the sociopolitical context of multiculturality and education, and the sociocultural context of learning. Examines critical issues involved in making schooling responsive to an increasingly multicultural and multilingual society.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course of EDUC 8210 (minimum grade B-). Restricted to EDCI, EECD, EPSY, EFPP or REME PhD graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 8025 (3) Seminar: Curriculum Theories
Examines in depth recent developments in curriculum theory highlighting conceptual, contextual, and normative issues. Substantially explores distinct curricular traditions, corresponding conceptions of the good life along with related approaches to reason and emotion. Focuses on the works of prominent curriculum theorists.
Additional Information: Departmental Category: Graduate Education

EDUC 8045 (3) Philosophical Issues in Educational Research
Familiarizes students with important concepts and issues from the philosophy of science and, to a lesser extent, political theory and ethics; grounds such concepts and issues in the literature (often in terms of primary philosophical sources); and stimulates students to apply this material to the field of educational research in an informed way.
Requisites: Restricted to PhD students only.
Additional Information: Departmental Category: Graduate Education

EDUC 8055 (3) Theoretical Issues in Education Policy
Provides students with an examination of the theories behind education policy analysis. Takes a thematic approach to the study of policy in order to understand how policy agendas are set; how democratic deliberation should be linked with research and policy; and the relationship between politics, media, social structures, research and policies.
Requisites: Restricted to PhD students only.
Additional Information: Departmental Category: Graduate Education

EDUC 8115 (3) History and Policy Issues in Teaching and Teacher Education
Examines how issues and dilemmas in teacher education are grounded in historical and political contexts. Analyze patterns in preparation of new teachers, in mechanisms used to govern entry into teaching and make determinations of quality of teachers and teaching, and in efforts to professionalize and de-professionalize teachers and teaching. Investigate contemporary teacher education debates to better understand potential resource-policy-practice connections.
Requisites: Restricted to EDUC PhD students with plan codes EECI-PHD, EFPP-PHD, EDCI-PHD, EPSY-PHD or REME-PHD.

EDUC 8125 (3) Seminar: Radical Education Theories
Examines radical analyses of schooling, based on class, gender, sexual identity and race, through which U.S. public schooling is said to maintain dynamics of oppression and domination that undermines the schools' democratic premise. Scrutinizes the conceptual framework, interpretive and explanatory adequacy, and ethical justification of radical claims.
Additional Information: Departmental Category: Graduate Education

EDUC 8135 (3) Theories of Teacher Learning and Teacher Education
Examines the potential range and roles of theory in analyzing prospective and practicing teachers' learning (experiences). Explores various conceptions of teacher learning, including, but not limited to: teacher learning as a knowledge-centric phenomenon; teacher learning as a process of assembling a repertoire of practice; teacher learning as an identity-work phenomenon; and teacher learning as an activist/action-in-the-world phenomenon.
Requisites: Restricted to EDUC PhD students with plan codes EECI-PHD, EFPP-PHD, EDCI-PHD, EPSY-PHD or REME-PHD.

EDUC 8145 (3) Designing for Teacher Learning and Teacher Education
Examines questions and issues related to the design of preservice teacher education programs and practicing teachers' professional development/learning opportunities. Analyzes the program and/or learning opportunity conditions, features and approaches that potentially support and/or constrain prospective and practicing teachers' learning, particularly in relation to their development and as asset-oriented teachers.
Additional Information: Departmental Category: Graduate Education

EDUC 8155 (3) Advanced Topics in Literacy Education
Examines special topics in theory and research related to literacy and literacy education. Topics vary each semester.
Repeatable: Repeatable for up to 12.00 total credit hours.
Additional Information: Departmental Category: Graduate Education
EDUC 8165 (3) Advanced Topics in Mathematics Education
Examines special topics in theory and research related to mathematics education. Topics vary each semester.
Repeatability: Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 8175 (3) Advanced Topics in Science Education
Engages participants in the process of curriculum development. Principles that guide the development of curricula and learning environments are discussed as they integrate with learning theory. Participants develop and/or test specific activities in the classroom and modify them as a result. There is a particular focus on incorporating the practices of the discipline into each content-based activity.
Repeatability: Repeatable for up to 12.00 total credit hours.
Additional Information: Departmental Category: Graduate Education

EDUC 8210 (3) Perspectives on Classroom Teaching and Learning
Introduces students to various theoretical perspectives informing educational research and how they are employed to study teaching, learning, and policy in K-12 classrooms. Includes reading and discussion related to the assumptions, questions, methods, and findings associated with theoretical traditions within and across disciplines.
Requisites: Restricted to EDCC, EEDC, EPSY, EFPY or REME PhD graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 8220 (3) Introduction to Educational Research and Policy
Introduces conceptual and empirical issues and controversies in educational research and policy. Complements other EDUC doctoral courses in quantitative and qualitative methodology.
Requisites: Restricted to EDUC PhD students with plan codes EEDC-PHD, EFPY-PHD, EDCC-PHD, EPSY-PHD or REME-PHD.
Additional Information: Departmental Category: Graduate Education

EDUC 8230 (3) Quantitative Methods I
Explores the use of statistics to formalize research design in educational research. Introduces descriptive statistics, linear regression, probability, and the basics of statistical inference. Includes instruction in the use of statistical software, (e.g., SPSS).
Requisites: Restricted to EDCC, EEDC, EPSY, EFPY or REME PhD graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 8240 (3) Quantitative Methods II
Continues the exploration of research design in the social sciences, especially the evaluation of the quantitative research reported in professional journals. Introduces instances of the general linear model (both multiple regression and ANOVA) and its application to educational research.
Requisites: Requires prerequisite course of EDUC 8230 (minimum grade D-). Restricted to EDCC, EEDC, EPSY, EFPY or REME PhD graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 8250 (3) Qualitative Methods I
Introduces students to the theory and practice of qualitative research in education. First of a two-course sequence covering research design, theoretical perspectives, and methods. Preference given to first-year doctoral students in education.
Requisites: Restricted to EDCC, EEDC, EPSY, EFPY or REME PhD graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 8260 (3) Qualitative Methods II
Builds on EDUC 8250 to develop knowledge and skills in ethnographic and case study research. Second of a two-course sequence covering qualitative research design, theoretical perspectives, and methods.
Requisites: Restricted to EDCC, EEDC, EPSY, EFPY or REME PhD graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 8348 (3) Seminar: Human Development
Intensive study of selected topics in human development. The focus of the seminar will vary depending on the instructor’s expertise and students’ interests. Recent topics include adolescent development in social context, Vygotsky and Cultural-Historical Activity Theory, and design-based research methods. Repeatable for up to 6 total credit hours.
Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite EDUC 6318 or EDUC 8210 or instructor consent.
Additional Information: Departmental Category: Graduate Education

EDUC 8358 (3) Seminar: Human Learning
Intensive study of selected topics in human learning. The focus of the seminar will vary depending on the instructor’s expertise and students’ interest. Recent topics include sociocultural and social practice theories, STEM learning in and out of school. Repeatable for up to 6 total credit hours.
Repeatability: Repeatable for up to 6.00 total credit hours.
Recommended: Prerequisite EDUC 6318 or EDUC 8210 or instructor consent.
Additional Information: Departmental Category: Graduate Education

EDUC 8615 (3) Language Issues in Education Research
Examines special topics in theory and research related to educational equity and cultural diversity. Topics vary each semester. Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 8610 (3) Advanced Topics in Educational Equity and Cultural Diversity
Examines special topics in theory and research related to educational equity and cultural diversity in education. Topics vary each semester. Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 8615 (3) Language Issues in Education Research
Examines special topics in theory and research related to educational equity and cultural diversity in education. Topics vary each semester. Repeatable for up to 12.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education
EDUC 8710 (3) Measurement in Survey Research
Introduces students to classical test theory and item response theory. Emphasizes the process of developing, analyzing and validating a survey instrument. Focuses on developing a survey instrument with items that derive from a clearly delineated theory for the construct to be measured. Analyzes item responses and put together a validity argument to support the proposed uses of the survey.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 8720 (3) Advanced Topics in Measurement
Focuses on psychometric models for measurement and their applications in educational and psychological research. Emphasizes understanding and evaluating the utility of models from item response theory (IRT). Applies and compares measurement models in the context of simulated or empirical data sets.
Recommended: Prerequisite EDUC 8710.
Additional Information: Departmental Category: Graduate Education

EDUC 8730 (3) Advanced Qualitative Data Analysis
Requires students begin semester with qualitative data already collected (from class project, pilot study, dissertation). Instructors present diverse methods of analyzing data and writing about interpretations. Instructors customize part of course to address specific topic of expertise, e.g., discourse analysis, video analysis, textual analysis, ethnographic analysis.
Repeatable: Repeatable for up to 12.00 total credit hours.
Additional Information: Departmental Category: Graduate Education

EDUC 8740 (3) Advances in the Assessment of Student Learning
Focuses on theories underlying traditional and contemporary proposals for assessment of student learning, and design and research of large-scale and classroom-based methods to assess student learning. Explores intersections between large-scale and classroom assessment, although greater attention is given to issues related to classroom assessment.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 8750 (3) Research in Teaching and Teacher Education
Invites students to acquire a deeper understanding of the history of and challenges in teacher education research, strengthen their knowledge of theoretical and methodological approaches to the study of teacher education, and discuss their own potential contributions to the field.
Requisites: Restricted to EDUC PhD students with plan codes EEC-PH, EFPP-PH, EDCI-PH, EPSY-PH or REME-PH.

EDUC 8804 (3) Special Topics
Designed to meet needs of graduate students with topics of pertinent interest.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Education

EDUC 8844 (1-4) Doctoral Independent Study
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Graduate Education

EDUC 8855 (1-4) Independent Study in Curriculum and Instruction: Doctoral Level
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Graduate Education

EDUC 8866 (1-4) Independent Study in Research and Evaluation Methodology: Doctoral Level
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Graduate Education

EDUC 8877 (1-4) Independent Study in Educational Equity and Cultural Diversity: Doctoral Level
An independent study may be established between a doctoral student and a tenure track faculty member if both parties are amenable. The topics, readings and assignments will vary based upon mutually agreed upon goals. The student will be responsible for obtaining and submitting the necessary paperwork from/to the Office of Student Services in the School of Education. This is a variable credit course that ranges from 1 to 4 credits. The number of credits will be determined by the professor based on the workload.
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Graduate Education

EDUC 8888 (1-4) Independent Study in Learning and Human Development: Doctoral Level
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Graduate Education

EDUC 8899 (1-4) Independent Study in Educational Foundations Policy and Practice: Doctoral Level
Repeatable: Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Graduate Education

EDUC 8936 (1-6) Internship in Research and Evaluation Methodology
Repeatable: Repeatable for up to 24.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Graduate Education

EDUC 8937 (1-6) Internship in Educational Equity and Cultural Diversity
Repeatable: Repeatable for up to 24.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Graduate Education

EDUC 8938 (1-6) Internship in Learning Sciences and Human Development
Repeatable: Repeatable for up to 24.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Graduate Education

EDUC 8939 (1-6) Internship in Educational Foundations Policy and Practice
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Graduate Education
EDUC 8950 (3) Proposal and Dissertation Writing
Provides students with ongoing opportunities to write social science research in the context of the design, analysis and data representation, development, and write-up of students’ dissertation proposals and dissertations. Students will learn to expand how they think about and use evidence, clarify their ideas and arguments, and improve their writing. Students working on proposals and dissertations should enroll.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to EDUC PhD students with plan codes EECD-PHD, EFDI-PHD, EDCI-PHD, EPSY-PHD or REME-PHD.
Additional Information: Departmental Category: Graduate Education

EDUC 8994 (1-10) PhD Doctoral Dissertation
Repeatable: Repeatable for up to 60.00 total credit hours.
Additional Information: Departmental Category: Graduate Education

---

**Electrical and Computer Engineering (ECEN)**

**Courses**

**ECEN 1030 (1-4) Special Topics**
Special topics class.

**ECEN 1100 (1) Exploring ECE**
Introduces students to areas of emphasis with the ECE department through seminars presented by faculty and outside speakers. Emphasizes career opportunities, professional ethics and practices, history of the profession, and resources for academic success. Several sessions promote team building and problem solving, and provide opportunities for first year students to meet their classmates.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.
Additional Information: Departmental Category: General

**ECEN 1310 (4) C Programming for ECE**
Introduces fundamental programming concepts using the C language. Teaches the use of pointers, control flow, aggregate types, input/output, heap-allocated memory, and abstract data types. Includes a weekly computer lab session.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 1300 or CSPB 1300 or CSCI 1310 or CSCI 1320
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.
Recommended: Prerequisite APPM 1350.
Additional Information: Departmental Category: General

**ECEN 1400 (3) Introduction to Digital and Analog Electronics**
Introduces fundamental concepts in electrical and computer engineering such as Ohm’s Law, capacitors, LEDs and 7-segment displays, transformers and rectifiers, digital logic, Fourier decomposition, frequency analysis. Lab work exposes students to commonly used instrumentation. Includes a final project. Skills in wiring, soldering and wire-wrapping are developed.
Requisites: Restricted to students with 0-56 (Freshmen or Sophomore) College of Engineering majors only.
Additional Information: Departmental Category: General

**ECEN 1500 (3) Sustainable Energy**
Explores how energy is generated and used in today’s society. Through collaborative discussion and hands-on data collection, students will analyze the engineering challenges, fundamental limits, and potential solutions to meeting our energy needs sustainably. Students will learn to analyze numerical data, estimate orders of magnitude, and apply mathematical methods in their own lives and in the ongoing energy debate. Basic algebra required.
Requisites: College of Engineering majors are excluded from this course.
Departmental Category: General

**ECEN 1840 (1-6) Independent Study**
Provides an opportunity for freshmen to do independent, creative work. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: General

**ECEN 2010 (1-5) Special Topics**
Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: General

**ECEN 2020 (1-5) Special Topics**
Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: General

**ECEN 2050 (1-5) Special Topics**
Additional Information: Departmental Category: General

**ECEN 2060 (1-5) Special Topics**
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: General

**ECEN 2250 (3) Introduction to Circuits and Electronics**
Introduces linear circuit analysis and design, including OP-Amps. Presents DC networks, including node and mesh analysis with controlled sources. Analysis of RL and RC circuits for both transient and sinusoidal steady-state responses using phasors.
Requisites: Requires prerequisite course of APPM 1360 or MATH 2300 and PHYS 1120 (all minimum grade C-), and corequisite course of APPM 2360. Restricted to College of Engineering majors only.
Recommended: Prerequisite ECEN 1310 or CSCI 1300.
Additional Information: Departmental Category: General

**ECEN 2260 (3) Circuits as Systems**
Continues basic circuit analysis of ECEN 2250: Laplace transform techniques, transfer functions, frequency response, Bode diagrams, resonant circuits, Fourier series expansions, and convolution.
Requisites: Requires prerequisite course of ECEN 2250 and APPM 2360 (minimum grade C). Restricted to College of Engineering students only.
Recommended: Corequisite ECEN 2270.
Additional Information: Departmental Category: General

**ECEN 2270 (3) Electronics Design Lab**
Provides an introduction to analysis, modeling, design, and testing of analog electronic circuits in a practical laboratory setting. The laboratory is centered around a robot platform and includes design, SPICE simulations, prototyping and testing of circuits necessary to drive and remotely control the robot.
Requisites: Requires prerequisite course of ECEN 2260 or corequisite course of ECEN 2270. Restricted to College of Engineering majors only.
Additional Information: Departmental Category: General
ECEN 2310 (1) Programming with Mathematical Software
Applies mathematical software to the solution of engineering applications, using numerical and symbolic techniques. Typical applications include the manipulation of acoustic signals and the study of the dynamics of simple continuous and discrete systems.
Requisites: Requires prerequisites ECEN 1310 or CSCI 1300 or CSCI 1320 (all minimum grade C-). Restricted to College of Engineering students.
Grading Basis: Letter Grade

ECEN 2350 (3) Digital Logic
Covers the design and applications of digital logic circuits, including both combinational and sequential logic circuits. Introduces hardware descriptive language, simulating and synthesis software, and programming of hand-programmable arrays (FPGAs).
Requisites: Requires prerequisite course of ECEN 1310, CSCI 1300, or CSCI 1320 (minimum grade C-). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: General

ECEN 2410 (3) Renewable Sources and Efficient Electrical Energy Systems
Introduces electrical power generation and renewable energy, including solar, wind, micro, hydro, coal, nuclear and natural gas and some of the issues in integrating renewable energy sources in the grid.
Requisites: Requires prerequisite course of PHYS 1120 (minimum grade C-). Requires corequisite course of ECEN 2250. Restricted to College of Engineering majors only.
Additional Information: Departmental Category: General

ECEN 2420 (3) Electronics for Wireless Systems
Explores fundamental principles behind the operation of a radio, including a practical introduction to circuit elements. Covers the components and operation of a radio (transmitter and receiver) with simple signals. Students learn lab exercises the operation principles behind components of a complete practical radio system.
Requisites: Requires prerequisite course of PHYS 1120 and APPM 1360 or MATH 2300 (all minimum grade C-). Requires corequisite course of ECEN 2250. Restricted to Electrical and Computer Engineering (ECEN) or Electrical Engineering (EEEN) majors only.
Additional Information: Departmental Category: General

ECEN 2440 (3) Application of Embedded Systems
Introduces embedded systems and key computer architecture concepts through a variety of projects involving programming a microcontroller in C. Provides students hands-on projects that combine the knowledge gained in their digital and analog coursework in order to engineer hardware, firmware and application software design solutions. Includes a weekly lecture and two weekly laboratory sessions.
Requisites: Requires a prerequisite course of ECEN 1310, CSCI 1300 or CSCI 1320 (minimum grade C-). Requires corequisite course of ECEN 2250.
Additional Information: Departmental Category: General

ECEN 2703 (3) Discrete Mathematics for Computer Engineers
Emphasizes elements of discrete mathematics appropriate for computer engineering. Topics: logic, proof techniques, algorithms, complexity, relations, and graph theory.
Requisites: Requires prerequisite courses of ECEN 1310 or CSCI 1300 or CSCI 1320 and APPM 1360 or MATH 2300 (all minimum grade C-). Restricted to College of Engineering students only.
Additional Information: Departmental Category: Computer and Digital Systems

ECEN 2830 (1-5) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: General

ECEN 2840 (1-6) Independent Study
Offers an opportunity for sophomores to do independent, creative work. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: General

ECEN 3002 (3-5) Special Topics
Additional Information: Departmental Category: Digital Signal Processing Communications

ECEN 3003 (3-5) Special Topics
Additional Information: Departmental Category: Computer and Digital Systems

ECEN 3004 (3-5) Special Topics
Additional Information: Departmental Category: Electromagnetics and Remote Sensing

ECEN 3010 (3) Circuits and Electronics for Mechanical Engineers
Covers analysis of electrical circuits by use of Ohm's law, network reduction, node and loop analysis, Thévenin's and Norton's theorems, DC and AC signals, transient response of simple circuits, transfer functions, basic diode and transistor circuits, and operational amplifiers. Includes introductory digital electronics and microprocessors/microcontrollers.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 3017
Requisites: Requires prerequisite course of PHYS 1120 (minimum grade C-). Requires a prerequisite or corequisite course of APPM 2360. Restricted to students with 57-180 credits (Jr or Sr) Mechanical Engr (MCEN) or Engineering Plus (GEEN) majors only.
Additional Information: Departmental Category: General

ECEN 3030 (3) Electrical/Electronic Circuits Non-Major
For students not majoring in electrical engineering. Covers analysis of electric circuits by use of Ohm’s law; network reduction; superposition; node analysis; Thévenin’s and Norton’s theorems; sinusoidal signals; phasors; power in AC circuits; transient response, operation of simple circuits; rectifiers; transformers; 3-phase circuits; motors and generators.
Requisites: Requires prerequisite course of APPM 2360 (minimum grade C-).
Electrical Computer Engineering (ECEN), Electrical Engineering (EEEN), Electrical Computer Engineering and Electrical Engineering Concurrent Degree (C-ECEN/EEEN) minors are excluded from this course.
Additional Information: Departmental Category: General

ECEN 3070 (3) Edges of Science
Examines the evidence for paranormal phenomena, reasons for skepticism, and physical models that could account for the data. Reviews controversial scientific theories that overcame barriers to acceptance, and how worldviews shift. Considers the scientific method and ways uncontrolled factors might influence experiments. Develops skills in statistical analysis of data. Includes group projects testing for anomalous and parapsychological effects. Not accepted as a technical elective for engineering majors.
Additional Information: Departmental Category: General
ECEN 3170 (3) Electromagnetic Energy Conversion 1
Real and reactive power in single phase circuits, power triangle, balanced three-phase circuits, wye and delta connections, introduction to electromagnetic machines, transformers (single and three-phase) and their equivalent circuits, AC-machinery fundamentals, synchronous generator from a magnetic field point of view, synchronous motors and condensers, three-phase induction motors, DC machinery fundamentals, DC motors, single phase motors. Matlab/Simulink will be used.
**Requisites:** Requires prerequisite courses of ECEN 2260 and PHYS 1120 (minimum grade C-). Restricted to College of Engineering majors only.
**Additional Information:** Departmental Category: Power

ECEN 3250 (3) Microelectronics
Develops a basic understanding of active semiconductor devices. Focuses on building an understanding of BJT and CMOS devices in both digital and analog applications.
**Requisites:** Requires prerequisite course of ECEN 2260 (minimum grade C-). Restricted to College of Engineering majors only.
**Additional Information:** Departmental Category: General

ECEN 3300 (3) Linear Systems
Characterization of linear time-invariant systems in time and frequency domains. Continuous time systems are analyzed using differential equations and Laplace and Fourier transforms. Discrete time systems are analyzed using difference equations, Z-transforms and discrete time Fourier transforms. Sampling and reconstruction of signals using the sampling theorem. Applications of linear systems include communications, signal processing, and control systems.
**Requisites:** Requires prerequisite course of ECEN 2260 (minimum grade C-). Restricted to College of Engineering majors only.
**Additional Information:** Departmental Category: General

ECEN 3303 (3) Introduction to Robotics
Introduces students to fundamental concepts in autonomous robotics: mechanisms, locomotion, kinematics, control, perception and planning. Consists of lectures and lab sessions that are geared toward developing a complete navigation stack on a miniature mobile robotic platform.
**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 3302
**Requisites:** Requires prerequisite courses of (CSCI 2270 or CSCI 2275) and (APPM 3170 or CSCI 2824 or ECEN 2703 or MATH 2001) and (APPM 2360 or APPM 3310 or CSCI 2820 or MATH 2130 or MATH 2135) (all minimum grade C-).
**Additional Information:** Departmental Category: Computer and Digital Systems

ECEN 3320 (3) Semiconductor Devices
Highlights the fundamentals of semiconductor materials and devices. Topics include the electrical and optical properties of semiconductors, the theory of Pn junctions, bipolar and field-effect transistors, and optoelectronic devices.
**Requisites:** Requires prerequisite course of ECEN 3250 (minimum grade C-). Restricted to College of Engineering majors only.
**Additional Information:** Departmental Category: General

ECEN 3350 (3) Programming Digital Systems
Explores how computers and programmable hardware in general are used to implement digital systems by looking at the capabilities of central processing units, the use and control of various input/output (I/O) devices, memory organization, and concurrency management. Topics include computer architecture, instruction sets, I/O device programming, interrupts, data transfer mechanisms, semaphores, and memory management.
**Requisites:** Requires prerequisite course of ECEN 2350 (minimum grade C-). Restricted to College of Engineering majors only.
**Additional Information:** Departmental Category: Computer and Digital Systems

ECEN 3360 (3) Digital Design Laboratory
Introduces digital system design, including system software and hardware building blocks, and system software-hardware integration. Emphasizes hands-on system development and debugging. Uses mainstream electronic system design platforms, including FPGAs, embedded and mobile computing platforms, and Assembly/C/Java/Verilog programming languages.
**Requisites:** Requires prerequisite course ECEN 3350 (minimum grade C-) or corequisite of ECEN 3350. Restricted to College of Engineering majors only.
**Additional Information:** Departmental Category: Computer and Digital Systems

ECEN 3400 (3) Electromagnetic Fields and Waves
Electromagnetic fields are covered at an introductory level, starting with electrostatics and continuing with DC current, magnetostatics, time-varying magnetic fields, waves on transmission lines, Maxwell's equations and the basics of plane waves. The use of fields in inductors, capacitors, resistors, transformers, and energy and power concepts are studied.
**Requisites:** Requires prerequisites (APPM 2350 or MATH 2400) and APPM 2360 and PHYS 1120 and ECEN 2250 (all minimum grade C-). Restricted to College of Engineering majors only.
**Additional Information:** Departmental Category: General

ECEN 3410 (3) Electromagnetic Waves and Transmission
 Covers reflected and transmitted plane waves in layered media, Poynting's theorem of electromagnetic power, two-conductor transmission line theory and practice, Smith chart usage and impedance matching, waveguides, and elements of antenna theory.
**Requisites:** Requires prerequisite course ECEN 3400 (minimum grade C-). Restricted to College of Engineering majors only.
**Additional Information:** Departmental Category: Electromagnetics and Remote Sensing

ECEN 3810 (3) Introduction to Probability Theory
Covers the fundamentals of probability theory, and treats the random variables and random processes of greatest importance in electrical engineering. Provides a foundation for study of communication theory, control theory, reliability theory, and optics.
**Equivalent - Duplicate Degree Credit Not Granted:** MATH 4510 or APPM 3570
**Requisites:** Requires prerequisite course of APPM 2350 or MATH 2400 (minimum grade C-). Restricted to College of Engineering majors only.
**Additional Information:** Departmental Category: General

ECEN 3840 (1-6) Independent Study
Offers an opportunity for juniors to do independent, creative work. Department consent required.
**Repeatable:** Repeatable for up to 6.00 total credit hours.
**Additional Information:** Departmental Category: General
ECEN 3841 (1-6) Independent Study
Offers an opportunity for juniors to do independent, creative work.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: General

ECEN 4000 (1-3) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: General

ECEN 4001 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Bioengineering

ECEN 4002 (1-4) Special Topics
Credit and subject matter to be arranged. Department enforced prerequisite: varies
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

ECEN 4003 (1-4) Special Topics
Credit and subject matter to be arranged. Department enforced prerequisite: varies
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

ECEN 4004 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

ECEN 4005 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

ECEN 4006 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

ECEN 4007 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

ECEN 4009 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

ECEN 4010 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

ECEN 4011 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5011
Repeatable: Repeatable for up to 9.00 total credit hours.
Additional Information: Departmental Category: Bioengineering

ECEN 4012 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Additional Information: Departmental Category: Digital Signal Processing Communications

ECEN 4013 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Additional Information: Departmental Category: Computer and Digital Systems

ECEN 4016 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Additional Information: Departmental Category: Optics

ECEN 4017 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Additional Information: Departmental Category: Power

ECEN 4018 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Additional Information: Departmental Category: Dynamical Systems and Control

ECEN 4021 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Repeatable: Repeatable for up to 9.00 total credit hours.
Restrictions: Restricted to students with 87-180 credits (Senior, Fifth Year Senior) College of Engineering majors only.
Additional Information: Departmental Category: Bioengineering

ECEN 4024 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5024
Additional Information: Departmental Category: Dynamics and Remote Sensing

ECEN 4028 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Additional Information: Departmental Category: Dynamical Systems and Control

ECEN 4031 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.

ECEN 4033 (3) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

ECEN 4043 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.

ECEN 4053 (1-4) Special Topics
Special topics course.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5053
Repeatable: Repeatable for up to 4.00 total credit hours.
Additional Information: Departmental Category: Computer and Digital Systems

ECEN 4133 (3) Fundamentals of Computer Security
Practice thinking like an attacker by exploring several modern computer security attacks and defenses through hands-on programming projects.
Topics include applied cryptography (encryption, authentication), web security (XSS, CSRF, SQL injection), network security (TLS, MITM attacks), application security (shell injection, buffer overflows), and other current events and trends (government surveillance, botnets, cryptocurrencies).
Grading Basis: Letter Grade
ECEN 4138 (3) Control Systems Analysis
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5138
Requisites: Requires prerequisite course of ECEN 3300 (minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Dynamical Systems and Control

ECEN 4167 (3) Electromagnetic Energy Conversion 2
Introduction to electric motor drives, basic electric machine mechanics, structure and modeling of electric machines (DC, Synchronous, Linear, Induction), reference frame theory using d-q modeling based on the complex space vector and on matrix transformation, transient and steady state analysis of three-phase machine, design of speed regulators, vector control. Matlab/Simulink will be used.
Requisites: Requires prerequisite course of ECEN 3170 (minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Power

ECEN 4224 (3) High Speed Digital Design
Covers fundamentals of high-speed properties of logic gates, measurement techniques, transmission lines, ground planes and layer stacking, terminations, vias, power systems, connectors, ribbon cables, clock distribution and clock oscillators.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5224
Requisites: Requires prerequisite course of ECEN 3400 (minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Electromagnetics and Remote Sensing

ECEN 4242 (3) Communication Theory
Covers modern digital and analog communication systems. Analysis and design of communication signals, transmitters, channels, and receivers. Amplitude and angle modulation and demodulation are treated as well as theory and application of digital data transmission. Emphasis is also placed on the analysis and mitigation of the effects of noise through signal design at the transmitter and signal processing at the receiver.
Requisites: Requires prerequisite course of ECEN 3300 and ECEN 3810 or APPM 3570 or MATH 4510 (all minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Digital Signal Processing Communications

ECEN 4313 (3) Concurrent Programming
Introduces the theory and practice of multicore programming. The first part of the course presents foundations of concurrent programming: mutual exclusion, wait-free and lock-free synchronization, spin locks, monitors, memory consistency models. The second part presents a sequence of concurrent data structures and techniques used in their implementations (coarse-grained, fine-grained, optimistic and lock-free synchronization).
Requisites: Requires a prerequisite course of ECEN 1310 or CSCI 1300 or CSCI 1320 (all minimum grade C).
Grading Basis: Letter Grade

ECE 4322 (3) Data and Network Science
The course covers the theory and design of algorithms that are used to model, analyze, and extract information from large scale datasets and networks. The course includes a project.
Requisites: Requires prerequisite courses of APPM 2350 or MATH 2400 and APPM 2360 or MATH 3430 and CSCI 1200 or CSCI 1300 or CSCI 1320 or ECEN 1310 or INFO 1201 or ATLS 1300 or CHEN 1310 and ECEN 2703 or CSCI 2824 or APPM 3170 or MATH 2001 (all minimum grade C).

ECEN 4341 (3) Bioelectromagnetics
Effects of electric and magnetic fields on biological systems are described with applications to therapy and safety. The complexity of biological systems is described to provide a better understanding of the distribution of fields inside the body. Risk analysis is also introduced.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5341
Requisites: Requires prerequisite courses of ECEN 3400 and ECEN 3810 or APPM 3570 or MATH 4510 (all minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Bioengineering

ECEN 4423 (3) Chaotic Dynamics
Explores chaotic dynamics theoretically and through computer simulations. Covers the standard computational and analytical tools used in nonlinear dynamics and concludes with an overview of leading-edge chaos research. Topics include time and phase-space dynamics, surfaces of section, bifurcation diagrams, fractal dimension and Lyapunov exponents.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5446 and CSCI 4446 and ECEN 5423
Requisites: Requires prerequisite courses of APPM 1360 or MATH 2300 and ECEN 1310 or CSCI 1300 and PHYS 1110 (all minimum grade C). Restricted to College of Engineering majors only.
Recommended: Prerequisites PHYS 1120 and CSCI 3656 and MATH 2130.
Additional Information: Departmental Category: Computer and Digital Systems

ECEN 4517 (3) Power Electronics and Photovoltaic Power Systems Laboratory
Focuses on analysis, modeling, design and testing of electrical energy processing systems in a practical laboratory setting. Studies power electronics converters for efficient utilization of available energy sources, including solar panels and utility. Experimental projects involve design, fabrication and testing of a solar power system.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5517
Requisites: Requires prerequisite course of ECEN 4797 (minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Power

ECEN 4532 (3) Digital Signal Processing Communications
Develops experience in code development, debugging and testing of real-time digital signal processing algorithms using dedicated hardware. Applications include filtering, signal synthesis, audio special effects and frequency domain techniques based on the Fast Fourier Transform.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5532
Requisites: Requires prerequisite course of ECEN 4632 (minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Digital Signal Processing Communications
ECEN 4553 (3) Compiler Construction
Introduces the principles and techniques for compiling high-level programming languages to assembly code. Topics include parsing, instruction selection, register allocation, and compiling high-level features such as polymorphism, first-class functions, and objects. Students build a complete compiler for a simple language.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5523 and CSCI 4555 and CSCI 5525
Requisites: Requires prerequisite courses of ECEN 2703 and ECEN 3350 (all minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Computer and Digital Systems

ECEN 4555 (3) Principles of Energy Systems and Devices
Develops principles underlying electronic, optical and thermal devices, materials and nanostructures for renewable energy. Provides a foundation in statistical thermodynamics and uses it to analyze the operation and efficiency limits of devices for photovoltaics, energy storage (batteries & ultra-capacitors), chemical conversion (fuel cells and engines), solid state lighting, heat pumps, cooling and potentially harvesting zero-point energy from the vacuum.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5555
Requisites: Requires prerequisite courses of ECEN 3810 or APPM 3570 or MATH 4510 and PHYS 2130 or PHYS 2170 (all minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Nanostructures and Devices

ECEN 4583 (3) Software System Development
Lectures deal with techniques for product requirements definition, project planning, coding, verification, validation, performance evaluation, and maintenance of medium-scale (2-3000 line) systems. Primary emphasis is on practical application of these techniques to a specified software project. Students work in teams to produce appropriate documents for each phase and are responsible for project completion according to specification and schedule. Course project is written in C on a Unix look-alike system; prior knowledge of C or Unix is not required.
Requisites: Requires prerequisite course of CSCI 2270 (minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Computer and Digital Systems

ECEN 4593 (3) Computer Organization
Studies computer design at the gate level. Discusses instruction set architecture design, arithmetic and logic unit design, control logic, memory design and caches, simple pipelining, I/O and peripheral devices. Briefly covers aspects of modern computer architecture, such as multicore processors and cache coherence for these.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4593
Requisites: Requires prerequisite course of ECEN 3350 or CSCI 2400 (minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Computer and Digital Systems

ECEN 4606 (3) Undergraduate Optics Laboratory
Introduces fundamental concepts, techniques, and technology of modern optical and photonic systems. Individual labs cover particular fields of optical technology, including light sources such as lasers and LEDs, interferometers, fiber-optic communications, photodetection, spectrometers, and holography. Practical skills such as how to align an optical system will also be emphasized.
Requisites: Requires prerequisite course of ECEN 3400 (minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Optics

ECEN 4610 (3) Capstone Laboratory Part 1
Hands-on laboratory experience utilizing teams in the systematic proposal, design, integration, and testing of an electronic/computer based system. Results will be the prototype of a stand-alone analog/digital system. Must have completed all required Advanced Analog Core courses for major, except one course may be taken concurrently by petition. Must take ECEN 4620 to complete the sequence. Minimum required grade for this course and ECEN 4620 is C-.
Requisites: Requires prerequisites of ECEN 2270 ECEN 3360 (ECEN 3250 3300) or (ECEN 3250 3400) or (ECEN 3300 3400) (all min grade C). Restricted to ECEN or EEEN or C-EEEN or C-EEENP or C-ECEENEEEP or GEEN-BSEPL majors only.
Additional Information: Departmental Category: General

ECEN 4616 (3) Optoelectronic System Design
Examines optical components and electro-optic devices with the goal of integrating into well design optoelectronic systems. Sample systems include optical storage, zoom lenses and telescopes.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5616
Requisites: Requires prerequisite course of ECEN 3400 (minimum grade C).
Additional Information: Departmental Category: Optics

ECEN 4620 (3) Capstone Lab, Part 2
Hands-on laboratory experience for teams in the systematic proposal, design, build integration, test and documentation of an electronic/computer based system. Results will be a reliably operating, stand-alone analog/digital system, with publication quality technical documentation.
Department enforced prerequisite: advanced analog core courses.
Requisites: Requires prerequisite course of ECEN 4610 (minimum grade C). Restricted to Electrical and Computer Engineering (ECEN) or Electrical Engineering (EEEN) or ECEE concurrent (C-EEEN or C-ECEENEEEP or GEEN-BSEPL) majors only.
Additional Information: Departmental Category: Optics

ECEN 4632 (3) Introduction to Digital Filtering
Covers both the analysis and design of FIR and IIR digital filters. Discusses implementations in both software and hardware. Emphasizes use of the FFT as an analysis tool. Includes examples in speech processing, noise canceling, and communications.
Requisites: Requires prerequisite course of ECEN 3300 (minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Digital Signal Processing Communications

ECEN 4634 (3) Microwave and RF Laboratory
Introduce RF and microwave measurement methods. A laboratory course whose experiments build on material learned in ECEN 3410: electromagnetic waves, transmission lines, waveguides, time-domain reflection, frequency-domain measurement, microwave networks, impedance matching, antenna pattern measurement, radar and simple nonlinear concepts such as harmonics, square-law detection, mixing and transmitter/receiver applications.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5634
Requisites: Requires prerequisite course of ECEN 3410 (minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Electromagnetics and Remote Sensing
ECEN 4638 (3) Control Systems Laboratory
Provides experience in control system design and analysis, using both real hardware and computer simulation. Covers the entire control system design cycle: modeling the system, synthesizing a controller, conducting simulations, analyzing the design to suggest modifications and improvements, and implementing the design for actual testing.
Requisites: Requires prerequisite course of ECEN 4138 (minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Dynamical Systems and Control

ECEN 4652 (3) Communication Laboratory
Analysis and design of realistic communication signals in a modern digital signal processing environment. Covers both analog and digital communication signals with and without noise and distortion. Pulse amplitude modulation is used initially at baseband and then combined with amplitude and phase/frequency modulation to produce the kind of bandpass signals that are used in cell phones and wireless data networks.
Requisites: Requires prerequisite course of ECEN 4242 (minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Digital Signal Processing Communications

ECEN 4753 (3) Computer Performance Modeling
Presents a broad range of system measurement and modeling techniques, emphasizing applications to computer systems. Covers topics including system measurement, workload characterization and analysis of data; design of experiments; queuing theory and queueing network models; and simulation.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5753 and CSCI 4753 and ECEN 5753
Requisites: Requires prerequisite course of CSCI 3753 (minimum grade C). Restricted to College of Engineering majors only.
Recommended: Prerequisite a course in statistics.
Additional Information: Departmental Category: Computer and Digital Systems

ECEN 4797 (3) Introduction to Power Electronics
An introduction to switched-mode converters. Includes steady-state converter modeling and analysis, switch realization, discontinuous conduction mode and transformer-isolated converters. Ac modeling of converters using averaged methods, small-signal transfer functions, feedback loop design and transformer design.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5797
Requisites: Requires prerequisite course of ECEN 3250 (minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Power

ECEN 4827 (3) Analog IC Design
Covers the fundamentals of transistor-level analog integrated circuit design. Starting with motivations from application circuits, the course develops principles of dc biasing, device models, amplifier stages, frequency response analysis and feedback and compensation techniques for multi-stage operational amplifiers.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 5827
Requisites: Requires prerequisite course of ECEN 3250 (minimum grade C). Restricted to College of Engineering majors only.
Additional Information: Departmental Category: Power

ECEN 4840 (1-6) Independent Study
Offers an opportunity for seniors to do independent, creative work. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: General

ECEN 4841 (1-6) Independent Study
Offers an opportunity for seniors to do independent, creative work.
Repeatable: Repeatable for up to 6.00 total credit hours.

ECEN 5000 (3) Graduate Professional Seminar
Grading Basis: Letter Grade
Additional Information: Departmental Category: General

ECEN 5005 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Nanostructures and Devices

ECEN 5008 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: General

ECEN 5009 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: General

ECEN 5011 (1-4) Special Topics
Equivalent - Duplicate Degree Credit Not Granted: ECEN 4011
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Bioengineering

ECEN 5012 (3) Special Topics
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: General

ECEN 5013 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Campus section restricted to graduate students in EEEN or BS/Professional MS concurrent degree students with BS portion in EEEN or ECEN.

ECEN 5016 (1-4) Special Topics
Additional Information: Departmental Category: Optics

ECEN 5018 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Dynamical Systems and Control
ECEN 5024 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering. 
Equivalent - Duplicate Degree Credit Not Granted: ECEN 4024
Additional Information: Departmental Category: Electromagnetics and Remote Sensing

ECEN 5028 (1-4) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Additional Information: Departmental Category: Dynamical Systems and Control

ECEN 5032 (3) Special Topics
Additional Information: Departmental Category: Bioengineering

ECEN 5053 (3) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 4053
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Campus section restricted to graduate students in EEEN or BS/Professional MS concurrent degree students with BS portion in EEEN or ECEN.
Additional Information: Departmental Category: Embedded Systems Engineering

ECEN 50107 (3) Electric Power Grid
Examines the electrical grid, including conventional generation, transmission/distribution, and new renewable generation technologies. Issues including grid stability, the increase in variable generation on the grid, and how the electrical grid will change in the future will be addressed. Intended for students with an engineering background from outside electrical engineering who desire an introduction to the power grid.
Requisites: Excludes graduate students in Electrical Engineering or Electrical Engineering Concurrent degree plans.
Additional Information: Departmental Category: Power

ECEN 5114 (3) Waveguides and Transmission Lines
Intermediate course dealing with guided-wave systems at HF, microwave, and optical frequencies. Modern waveguiding structures, including circular metallic waveguides, microstrip transmission lines, and optical waveguides are treated. Additional material may include waveguide losses, excitation of waveguides, microwave network theory, coupled-mode theory, resonators, and pulse propagation in waveguides.
Requisites: Requires a prerequisite course of ECEN 4140 (min grade D-).
Restricted to EEEN or ECEN graduate students or Electrical Engineering Concurrent or Electrical/Computer Engineering Concurrent Degree students only.
Additional Information: Departmental Category: Electromagnetics and Remote Sensing

ECEN 5122 (3) Wireless Local Area Networks
Emphasis on the IEEE 802.11 family of WLAN standards. Students learn the legacy versions of the standard (802.11DS/b), the current generation of WLAN systems (802.11a/g/n/ac), and will to analyze and critique upcoming versions (802.11ax/ba), and gain insight into proposals for new research in WLAN. Exposure to the interoperability and certification process for WLAN by the Wi-Fi Alliance, study the newest Wi-Fi Certified® programs, and will learn how to model and analyze WLAN traffic using industry standard tools.
Equivalent - Duplicate Degree Credit Not Granted: CYBR 5220
Requisites: Requires prerequisite course of ECEN 3810 or APPM 3570 or MATH 4510 (minimum grade D-).
Recommended: Prerequisite CYBR 5430.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Digital Signal Processing Communications

ECEN 5126 (3) Computational Optical Imaging
Covers the fundamentals of computational optical imaging modalities, namely systems in which the hardware (optics, sensors, illumination) is designed in conjunction with algorithms (implemented optically, electronically and via software) to deliver information about a scene. Students learn the analysis and design of modern imaging systems. Covers a variety of applications including biomedical imaging, nanoscopy, photography and space imaging.
Grading Basis: Letter Grade

ECEN 5133 (3) Fundamentals of Computer Security
Practice thinking like an attacker by exploring several modern computer security attacks and defenses through hands-on programming projects. Topics include applied cryptography (encryption, authentication), web security (XSS, CSRF, SQL injection), network security (TLS, MITM attacks), application security (shell injection, buffer overflows), and other current events and trends (government surveillance, botnets, cryptocurrencies).
Grading Basis: Letter Grade
ECEN 5134 (3) Electromagnetic Radiation and Antennas
Covers elementary sources and antennas, cylindrical wire antennas, loop antennas, radiation patterns and antenna gain, aperture sources such as horns and dishes, specialized antennas such as microstrip patches, linear and circular arrays, mutual coupling and ground effects, ray and numerical formulations, transmission formulas, and antenna applications.

**Requisites:** Requires a prerequisite course of ECEN 3410 (min grade D-).
Restricted to any graduate students or Electrical/Computer Engineering or Electrical Engineering Concurrent Degree majors only.

**Additional Information:** Departmental Category: Electromagnetics and Remote Sensing

ECEN 5138 (3) Control Systems Analysis
Analysis and design of continuous time control systems using classical and state space methods. Laplace transforms, transfer functions and block diagrams. Stability, dynamic response, and steady-state analysis. Analysis and design of control systems using root locus and frequency response methods. Computer aided design and analysis. Topics covered in this course will be investigated in more depth, require external readings, additional homework will be assigned, and the exams will be more difficult.

**Equivalent - Duplicate Degree Credit Not Granted:** ECEN 4138

**Requisites:** Restricted to graduate students in Electrical Engineering (EEEN) or in Electrical/Computer Engineering (ECEN) or to Electrical or Electrical/Computer Engineering BS/MS Concurrent degree students or to Graduate Certificate Engineering (CRTGE) students.

**Recommended:** Prerequisite ECEN 3300.

**Additional Information:** Departmental Category: Dynamical Systems and Control

ECEN 5139 (3) Computer-Aided Verification
Covers theoretical and practical aspects of verification of finite-state systems (hardware) and infinite-state systems (programs). Model checking: temporal logics, explicit-state and symbolic search, BDDs. Constraint solvers: SAT solvers, decision procedures. Program verification: invariants, partial vs. total correctness, abstraction. Department enforced requisite: general proficiency in discrete mathematics and programming.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5135

**Requisites:** Restricted to Electrical/Computer Engineering (EEEN) graduate students or Concurrent Degree students in Electrical Engineering (C-EEEN) or Electrical/Computer Engineering (C-ECENEEEN) or to Graduate Certificate Engineering (CRTGE) students.

**Recommended:** Prerequisite CSCI 2824.

**Additional Information:** Departmental Category: VLSI CAD Methods

ECEN 5154 (3) Computational Electromagnetics
Provides a computational study of microwave circuits and antennas, using finite-difference, finite-element, and moment methods. Requires students to develop algorithms, write and execute programs, and prepare reports analyzing results. Circuits include waveguides, microstrip lines, and center-fed dipole antennas.

**Requisites:** Requires a prerequisite course of ECEN 3410 (min grade D-).
Restricted to any graduate students or Electrical/Computer Engineering or Electrical Engineering Concurrent Degree majors only.

**Additional Information:** Departmental Category: Electromagnetics and Remote Sensing

ECEN 5156 (3) Physical Optics
Covers the application of Maxwell’s equations to optical wave propagation in free space and in media. Topics include polarization, dispersion, geometrical optics, interference, partial coherence, and diffraction.

**Requisites:** Restricted to graduate students only.
**Recommended:** Prerequisite ECEN 3410.

**Additional Information:** Departmental Category: Optics

ECEN 5224 (3) High Speed Digital Design
Covers fundamentals of high-speed properties of logic gates, measurement techniques, transmission lines, ground planes and layer stacking, terminations, vias, power systems, connectors, ribbon cables, clock distribution and clock oscillators.

**Equivalent - Duplicate Degree Credit Not Granted:** ECEN 4224

**Requisites:** Requires a prerequisite course of ECEN 3400 (min grade D-).
Restricted to any graduate students or Electrical/Computer Engineering or Electrical Engineering Concurrent Degree majors only.

**Additional Information:** Departmental Category: Electromagnetics and Remote Sensing

ECEN 5244 (3) Stochastic / Environmental Signal Processing
Provides a baseline understanding for research and development in signal processing and analytics for environmental and other data-intensive applications. Topics include parameter estimation, transforms, linear and nonlinear estimation, data assimilation and detection. Applications include numerical weather prediction, GNSS sensing, ionospheric sounding, radar, radiometry, surveillance, target detection and tracking. Previous coursework in linear systems and electromagnetic waves recommended.

**Grading Basis:** Letter Grade

ECEN 5254 (3) Remote Sensing Signals and Systems
Examines passive and active techniques for remote sensing with emphasis on fundamental noise and detection issues from radio to optical frequencies. Emphasis is placed on electromagnetic wave detection, statistical signal and noise analysis, remote sensing system architecture, and hardware for remote sensing systems. Systems studied include radiometers, radars (real and synthetic aperture), interferometers, and lidars. Applications to detection and surveillance, Earth remote sensing, astronomy, and imaging systems are covered.

**Requisites:** Requires prerequisite courses of ECEN 3300 and ECEN 3400.
Restricted to any graduate students or Electrical/Computer Engineering or Electrical Engineering Concurrent Degree majors only.

**Additional Information:** Departmental Category: Electromagnetics and Remote Sensing

ECEN 5264 (3) Electromagnetic Absorption, Scattering, and Propagation
Electromagnetic waves in communication, navigation, and remote sensing systems from radio to optical frequencies, including propagation in deterministic and random media. Topics include absorption and refraction by gases, discrete scattering by precipitation, clouds, and aerosols, continuous scattering by refractivity fluctuations, earth-space propagation and Faraday rotation in plasmas, and radiative transfer theory.

**Requisites:** Restricted to Electrical/Computer Engineering (EEEN) graduate students or Concurrent Degree students in Electrical Engineering (C-EEEN) or Electrical/Computer Engineering (C-ECENEEEN) or to Graduate Certificate Engineering (CRTGE) students.

**Recommended:** Prerequisites are ECEN 3400 and ECEN 3410.

**Additional Information:** Departmental Category: Electromagnetics and Remote Sensing
ECEN 5273 (3) Network Systems
Focusses on design and implementation of network programs and systems, including topics in network protocols, file transfer, client-server computing, remote procedure call and other contemporary network system design and programming techniques. Familiarity with C and Unix is required.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5273
Additional Information: Departmental Category: Computer and Digital Systems

ECEN 5322 (3) Data and Network Science
The course covers the theory and design of algorithms that are used to model, analyze, and extract information from large scale datasets and networks. The course includes a project.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Computer Science

ECEN 5341 (3) Bioelectromagnetics
Effects of electric and magnetic fields on biological systems are described with applications to therapy and safety. The complexity of biological systems is described to provide a better understanding of the distribution of fields inside the body. Risk analysis is also introduced.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 4341
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Digital Signal Processing Communications

ECEN 5345 (3) Introduction to Solid State Physics
Provides an introduction to the electronic, photonic and phononic properties of solid state materials and devices. Covers optical constants, free electron gas, plasmons, energy bands, semiconductors and doping, excitons, quantum wells, phonons and electrooptical effects. Makes use of quantum mechanical methods. Department enforced prerequisite: basic quantum mechanics.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Bioengineering

ECEN 5355 (3) Principles of Electronic Devices 1
Relates performance and limitations of solid state devices to their structures and technology. Examines semiconductor physics and technology. Includes Pn-junction, Mos, and optoelectronic devices. For both advance circuit and device engineers.
Requisites: Restricted to graduate students only.
Recommended: Prerequisite ECEN 3320.
Additional Information: Departmental Category: Nanostructures and Devices

ECEN 5358 (3) Optimization and Optimal Control
Introduces the theory and practice of optimization and optimal control. Topics include basic theory, nonlinear system trajectories and regulation, function space operators and derivatives, optimality conditions, barrier functionals and Newton's method in function space.
Requisites: Restricted to graduate students in Electrical Engineering (EEEN) or in Electrical/Computer Engineering (ECEN) or to Electrical or Electrical/Computer Engineering BS/MS Concurrent degree students or to Graduate Certificate Engineering (CRTGE) students.
Recommended: Prerequisite ECEN 5448.
Additional Information: Departmental Category: Dynamical Systems and Control

ECEN 5423 (3) Chaotic Dynamics
Explores chaotic dynamics theoretically and through computer simulations. Covers the standard computational and analytical tools used in nonlinear dynamics and concludes with an overview of leading-edge chaos research. Topics include time and phase-space dynamics, surfaces of section, bifurcation diagrams, fractal dimension and Lyapunov exponents.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 4423 and CSCI 4446 and CSCI 5446
Additional Information: Departmental Category: Computer and Digital Systems

ECEN 5448 (3) Advanced Linear Systems
Offers a state space approach to analysis and synthesis of linear systems, state transition matrix, controllability and observability, system transformation, minimal realization, and analysis and synthesis of multi-input and multi-output systems.
Requisites: Restricted to Electrical/Computer Engineering (EEEN) graduate students or Concurrent Degree students in Electrical Engineering (C-EEEN) or Electrical/Computer Engineering (C-ECENEEEN) or to Graduate Certificate Engineering (CRTGE) students.
Recommended: Prerequisites ECEN 3300 and ECEN 4138.
Additional Information: Departmental Category: Dynamical Systems and Control

ECEN 5458 (3) Sampled Data and Digital Control Systems
Provides an analysis and synthesis of discrete-time systems. Studies sampling theorem and sampling process characterization, z-transform theory and z-transferfunction, and stability theory. Involves data converters (A/D and D/A), dead-beat design, and digital controller design.
Requisites: Restricted to College of Engineering graduate students only.
Recommended: Prerequisites ECEN 3300 and ECEN 4138.
Additional Information: Departmental Category: Dynamical Systems and Control

ECEN 5517 (3) Power Electronics and Photovoltaic Power Systems Laboratory
Focuses on analysis, modeling, design and testing of electrical energy processing systems in a practical laboratory setting. Studies power electronics converters for efficient utilization of available energy sources, including solar panels and utility. Experimental projects involve design, fabrication and testing of a solar power system.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 4517
Requisites: Requires prerequisite course of ECEN 5797 (minimum grade C-).
Additional Information: Departmental Category: Power

ECEN 5523 (3) Compiler Construction
Introduces the principles and techniques for compiling high-level programming languages to assembly code. Topics include parsing, instruction selection, register allocation, and compiling high-level features such as polymorphism, first-class functions, and objects. Students build a complete compiler for a simple language.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 4553 and CSCI 4555 and CSCI 5525
Requisites: Restricted to Electrical/Computer Engineering (EEEN) graduate students or Concurrent Degree students in Electrical Engineering (C-EEEN) or Electrical/Computer Engineering (C-ECENEEEN) or to Graduate Certificate Engineering (CRTGE) students.
Additional Information: Departmental Category: Computer and Digital Systems
ECEN 5532 (3) Digital Signal Processing Laboratory
Develops experience in code development, debugging and testing of real-time digital signal processing algorithms using dedicated hardware. Applications include filtering, signal synthesis, audio special effects and frequency domain techniques based on the Fast Fourier Transform. 
Equivalent - Duplicate Degree Credit Not Granted: ECEN 4532
Additional Information: Departmental Category: Digital Signal Processing Communications

ECEN 5533 (3) Fundamental Concepts of Programming Languages
Considers concepts common to a variety of programming languages--how they are described (both formally and informally) and how they are implemented. Provides a firm basis for comprehending new languages and gives insight into the relationship between languages and machines. 
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5535
Requisites: Requires prerequisite course CSCI 3155 (minimum grade D-).
Additional Information: Departmental Category: Computer and Digital Systems

ECEN 5543 (3) Software Engineering of Standalone Programs
Applies engineering principles to phases of software product development, project planning, requirements definition, design, design patterns, validation and maintenance. Emphasizes practical methods for communicating and verifying definitions and designs: prototyping, inspections, and modeling (primarily UML). Includes relation to embedded systems and object-oriented design.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5548
Requisites: Restricted to graduate students only.
Recommended: Prerequisites CSCI 1300 and CSCI 2270 (minimum grade C-).
Additional Information: Departmental Category: Computer and Digital Systems

ECEN 5555 (3) Principles of Energy Systems and Devices
Develops principles underlying electronic, optical and thermal devices, materials and nanostructures for renewable energy. Provides a foundation in statistical thermodynamics and uses it to analyze the operation and efficiency limits of devices for photovoltaics, energy storage (batteries & ultra-capacitors), chemical conversion (fuel cells and engines), solid state lighting, heat pumps, cooling and potentially harvesting zero-point energy from the vacuum.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 4555
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors) or Graduate students only.
Additional Information: Departmental Category: Nanostructures and Devices

ECEN 5573 (3) Advanced Operating Systems
Intended to create a foundation for operating systems research or advanced professional practice. Examines the design and implementation of a number of research and commercial operating systems and their components, system organization and structure, threads, communication and synchronization, virtual memory, distribution, file systems, security and authentication, availability and Internet services.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5573
Additional Information: Departmental Category: Computer and Digital Systems

ECEN 5593 (3) Advanced Computer Architecture
Provides a broad-scope treatment of important concepts in the design and implementation of high-performance computer systems. Discusses important issues in the pipelining of a processor, out-of-order instruction issue and superscalar designs, design of cache memory systems for such systems, and architectural features required for multicore processor designs. Also studies current and historically important computer architectures.
Equivalent - Duplicate Degree Credit Not Granted: CSCI 5593
Requisites: Campus section restricted to graduate students in EEEN or BS/Professional MS concurrent degree students with BS portion in EEEN or ECEN.
Recommended: Prerequisite ECEN 4593.
Additional Information: Departmental Category: Computer and Digital Systems

ECEN 5603 (3) Software Project Management
Introduces system hardware and firmware design for embedded, documented and presented. Prioritized for EEEN graduate students with ESE (Embedded Systems Engineering) sub-plan.
Requisites: Requires prerequisite course CSCI 4583 and ECEN 5543 and CSCI 4318 (all minimum grade D-). Restricted to graduate students only.
Additional Information: Departmental Category: Computer and Digital Systems

ECEN 5606 (3) Optics Laboratory
Provides advanced training in experimental optics. Consists of optics experiments that introduce the techniques and devices essential to modern optics, including characterization of sources, photodetectors, modulators, use of interferometers, spectrometers and holograms and experimentation of fiber optics and Fourier optics. Department enforced prerequisite: undergraduate optics course (e.g. PHYS 4510).
Equivalent - Duplicate Degree Credit Not Granted: PHYS 5606
Additional Information: Departmental Category: Optics

ECEN 5612 (3) Random Processes for Engineers
Deals with random time-varying functions and is therefore useful in the broad range of applications where they occur. Topics include review of probability, convergence of random sequences, random vectors, minimum mean-square error estimation, basic concepts of random processes, Markov processes, Poisson processes, Gaussian processes, linear systems with random inputs, and Wiener filtering. Applications range from communications, communication networks, and signal processing to random vibration/stress analysis, mathematical finance, physics, etc.
Additional Information: Departmental Category: Digital Signal Processing Communications

ECEN 5613 (3) Embedded System Design
Introduces system hardware and firmware design for embedded applications. Students independently design and develop a hardware platform encompassing a microcontroller and peripherals. Firmware is developed in C and assembly. A significant final project is designed, developed, documented and presented. Prioritized for EEEN graduate students with ESE (Embedded Systems Engineering) sub-plan.
Requisites: Campus section restricted to graduate students in Academic sub-plans ESE or C-EEENP or C-ECENEPEP.
Additional Information: Departmental Category: Embedded Systems Engineering
ECEN 5616 (3) Optoelectric System Design
Examines optical components and electro-optic devices with the goal of integrating into well design optoelectronic systems. Sample systems include optical storage, zoom lenses and telescopes.

Equivalent - Duplicate Degree Credit Not Granted: ECEN 4616

Requisites: Restricted to graduate students only.

Additional Information: Departmental Category: Optics

ECEN 5622 (3) Information Theory and Coding
Covers fundamental limits of data compression, reliable transmission of information and information storage. Topics include information measures, typicality, entropy rates of information sources, limits and algorithms for lossless data compression, mutual information, and limits of information transmission over noisy wired and wireless links. Optional topics include lossy data compression, limits of information transmission in multiple-access and broadcast networks, and limits and algorithms for information storage.

Requisites: Restricted to Electrical/Computer Engineering, Computer Science, Applied Math or Physics graduate students only.

Additional Information: Departmental Category: Digital Signal Processing

ECEN 5623 (3) Real-Time Embedded Systems
Design and build a microprocessor-based embedded system application requiring integration of sensor/actuator devices, a real-time operating system and application firmware and software. Real-time rate monotonic theory and embedded architecture are covered. Prioritized for EEEEN graduate students with ESE (Embedded Systems Engineering) sub-plan.

Requisites: Campus section restricted to graduate students in Academic sub-plans ESE or C-EENP or C-ECENEENP.

Additional Information: Departmental Category: Embedded Systems Engineering

ECEN 5626 (3) Active Optical Devices
Analysis of active optical devices such as semiconductor laser, detector and flat panel display by clearly defining and interconnecting the fundamental physical mechanism, device design and operating principles and device performance.

Requisites: Restricted to graduate students only.

Recommended: Prerequisite course ECEN 5355.

Additional Information: Departmental Category: Optics

ECEN 5632 (3) Theory and Application of Digital Filtering
Digital signal processing and its applications are of interest to a wide variety of scientists and engineers. The course covers such topics as characterization of linear discrete-time circuits by unit pulse response, transfer functions, and difference equations, use of z-transforms and Fourier analysis, discrete Fourier transfom and fast algorithms (FFT), design of finite and infinite impulse response filters, frequency transformations, study of optimized filters for determinisitic signals.

Requisites: Restricted to Electrical/Computer Engineering (EEEN) graduate students or Concurrent Degree students in Electrical Engineering (C-EEEN) or Electrical/Computer Engineering (C-ECENEEN) or to Graduate Certificate Engineering (CRTGE) students.

Additional Information: Departmental Category: Digital Signal Processing Communications

ECEN 5634 (3) Microwave and RF Laboratory
Introduce RF and microwave measurement methods. A laboratory course whose experiments build on material learned in ECEN 3410: electromagnetic waves, transmission lines, waveguides, time-domain reflection, frequency-domain measurement, microwave networks, impedance matching, antenna pattern measurement, radar and simple nonlinear concepts such as harmonics, square-law detection, mixing and transmitter/receiver applications.

Equivalent - Duplicate Degree Credit Not Granted: ECEN 4634

Requisites: Requires a prereq course of ECEN 3410 (min grade D-). Restricted to any graduate students or Electrical/Computer Engineering or Electrical Engineering Concurrent Degree majors only.

Additional Information: Departmental Category: Electromagnetics and Remote Sensing

ECEN 5645 (3) Introduction to Optical Electronics
Introduces lasers, Gaussian optics, modulators, nonlinear optics, optical detectors, and other related devices.

Requisites: Restricted to graduate students only.

Additional Information: Departmental Category: Nanostructures and Devices

ECEN 5652 (3) Detection and Extraction of Signals from Noise
Introduces detection, estimation, and related algorithms. Topics in detection include simple/composite hypothesis testing, repeated observations and asymptotic performance and sequential detection. Topics in estimation include Bayesian estimation including minimum mean-square estimation and non-random parameter estimation. Topics in algorithms vary. Examples include algorithms for state estimation and smoothing in Hidden Gauss-Markov models and the expectation-maximization algorithm. Applications include communications, radar/sonar/geophysical signal processing, image analysis, authentication, etc.

Requisites: Restricted to Electrical/Computer Engineering, Computer Science, Applied Math or Physics graduate students only.

Additional Information: Departmental Category: Digital Signal Processing Communications

ECEN 5672 (3) Digital Image Processing
Course objective is to present the fundamental techniques available for image representation and compression (e.g., wavelets), filtering (e.g., Wiener and nonlinear filter), and segmentation (e.g., anisotropic diffusion).

Requisites: Requires prerequisite course ECEN 5632 (minimum grade C-).

Additional Information: Departmental Category: Digital Signal Processing Communications

ECEN 5673 (3) Distributed Systems
Examines systems that span multiple autonomous computers. Topics include system structuring techniques, scalability, heterogeneity, fault tolerance, load sharing, distributed file and information systems, naming, directory services, resource discovery, resource and network management, security, privacy, ethics and social issues.

Equivalent - Duplicate Degree Credit Not Granted: CSCI 5673

Recommended: Prerequisite CSCI 5573 or a course in computer networks.

Additional Information: Departmental Category: Computer and Digital Systems
ECEN 5683 (3) Programmable Logic Embedded System Design
Learn to design programmable systems on a chip for the purpose of creating prototypes or products for a variety of applications. Explores complexities, capabilities and trends of Field Programmable Gate Arrays (FPGA) and Complex Programmable Logic Devices (CPLD). Implement synchronization and timing closure in these devices. Projects will involve the latest software and FPGA development tools and hardware platforms.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Embedded Systems Engineering
ECEN 5692 (3) Principles of Digital Communication
Introduces fundamental principles of efficient and reliable transmission of information used in wired and wireless digital communication systems including cable modems, smart phones/tablets, cellular networks, local area (wi-fi) networks, and deep-space communications. Topics include bandwidth and power constraints, digital modulation methods, optimum transmitter and receiver design principles, error rate analysis, channel coding potential in wired/wireless media, trellis coded modulation, and equalization.
Requisites: Restricted to Electrical/Computer Engineering (EEEN) graduate students or Concurrent Degree students in Electrical Engineering (C-EEEN) or Electrical/Computer Engineering (C-ECEENEEEN) or to Graduate Certificate Engineering (CRTGE) students.
Additional Information: Departmental Category: Digital Signal Processing Communications
ECEN 5696 (3) Fourier Optics
Introduces a system level approach to the analysis and design of optical systems. Topics include holography, Fourier transform properties of lenses, two-dimensional convolution and correlation functions, spatial filtering and optical computing techniques. Also covers coherent and incoherent imaging techniques, tomography, and synthetic aperture imaging.
Requisites: Restricted to graduate students only.
Recommended: Prerequisites ECEN 3300 and ECEN 3410.
Additional Information: Departmental Category: Optics
ECEN 5737 (3) Adjustable-Speed AC Drives
Presents unified treatment of complete electrical drive systems: mechanical load, electrical machine, power converter, and control equipment. Emphasizes induction, synchronous, and permanent-magnet drives. Uses simulation programs (e.g., SPICE, Finite Element/Difference Program) to simulate drive system components (e.g., gating, inverter, electrical machine).
Requisites: Restricted to Electrical/Computer Engineering (EEEN) graduate students or Concurrent Degree students in Electrical Engineering (C-EEEN) or Electrical/Computer Engineering (C-ECEENEEEN) or to Graduate Certificate Engineering (CRTGE) students.
Recommended: Prerequisite ECEN 3170.
Additional Information: Departmental Category: Power
ECEN 5738 (3) Theory of Nonlinear Systems
Requisites: Requires prerequisite course of ECEN 5448 (minimum grade C). Restricted to graduate students in Electrical Engr (EEEN) or Electrical/Computer Engr (ECEN) or Electrical Engr Concurrent or Electrical/Computer Engr Concurrent Degree students only.
Additional Information: Departmental Category: Dynamical Systems and Control
ECEN 5753 (3) Computer Performance Modeling
Presents a broad range of system modeling techniques, emphasizing applications to computer systems. Covers stochastic processes, queuing network models, stochastic Petri nets and simulation (including parallel processing techniques). Also requires second-semester calculus.
Equivalent - Duplicate Degree Credit Not Granted: ECEN 4753 and CSCI 4753 and CSCI 5753
Additional Information: Departmental Category: Computer and Digital Systems
ECEN 5763 (3) Embedded Machine Vision and Intelligent Automation
Introduces students to machine vision and machine learning methods used in automation, autopilots and security and inspection systems. Embedded and automation topics include implementation of algorithms with FPGA or GP-GPU embedded real time co-processing for autopilots (intelligent transportation), general automation and security including methods for detection, classification, recognition of targets for inspection, surveillance, search and rescue, and machine vision navigation applications.
Requisites: Campus section restricted to graduate students in Academic sub-plans ESE or C-EENEP or C-ECEENEEEP.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Embedded Systems Engineering
ECEN 5773 (3) Developing the Industrial Internet of Things
This course goes beyond consumer IoT hype to emphasize a much greater space for potential embedded system applications and growth: The Industrial Internet of Things (IIoT), also known as Industry 4.0. Cisco's CEO stated: "IoT overall is a $19 Trillion market. IIoT is a significant subset including digital oilfield, advanced manufacturing, power grid automation, and smart cities." The course examines emerging markets, technology trends, applications and skills required for exploring career opportunities in this space.
Requisites: Restricted to students with an Embedded Systems Engineering (ESE) subplan or Electrical Engr-Prof Degree (C-EENEP) or Elec Cmp Elec Eng-Prof Degree (C-ECEENEEEP) only.
Recommended: Prerequisites ECEN 5613, ECEN 5823, ECEN 5053, and ECEN 5133.
ECEN 5783 (3) Embedded Interface Design
This course deeply explores interface design approaches and architectures for creating embedded system prototypes and products. For both machine and user interfaces, we will examine best practices for the interface design process, including considerations of characteristics of the information to be transferred between devices or between a device and a user. Projects leverage the now standard Raspberry Pi 3 single-board computer (SBC), providing a strong foundation for exploring many elements of interface design.

**Requisites:** Restricted to students with an Embedded Systems Engineering (ESE) subplan or Electrical Engr-Prof Degree (C-EEENP) or Elec Cmp Elec Eng-Prof Degree (C-ECENEENP) only.

**Recommended:** Prerequisites knowledge of programming, particularly Python, ECEN 2120, ECEN 2350, ECEN 1030, ECEN 1310, CSCI 1300.

ECEN 5797 (3) Introduction to Power Electronics
An introduction to switched-mode converters. Includes steady-state converter modeling and analysis, switch realization, discontinuous conduction mode and transformer-isolated converters. AC modeling of converters using averaged methods, small-signal transfer functions, feedback loop design and transformer design.

**Equivalent - Duplicate Degree Credit Not Granted:** ECEN 4797

**Requisites:** Restricted to Electrical/Computer Engineering (EEEN) graduate students or Concurrent Degree students in Electrical Engineering (C-EEEN) or Electrical/Computer Engineering (C-ECENEEN) or to Graduate Certificate Engineering (CRTGE) students.

**Additional Information:** Departmental Category: Power

ECEN 5803 (3) Mastering Embedded Systems Architecture
Acquire an understanding of embedded systems architectures for the purpose of creating prototypes or products for a variety of applications. The salient issues in the decision making process will be examined, including trade-offs between hardware and software implementations, processor and operating system selection and IP creation or acquisition. Projects will involve the latest software development and tools and hardware platforms.

**Requisites:** Campus section restricted to graduate students in Academic sub-plans ESE or C-EEENP or C-ECENEENP.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Embedded Systems Engineering

ECEN 5807 (3) Modeling and Control of Power Electronic Systems
Studies modeling and control topics in power electronics. Averaged switch modeling of converters, computer simulation, ac modeling of the discontinuous conduction mode, the current programmed mode, nulldouble injection techniques in linear circuits, input filter design, and low-harmonic rectifiers.

**Requisites:** Requires prerequisite course of ECEN 5797 (minimum grade C).

**Additional Information:** Departmental Category: Power

ECEN 5813 (3) Principles of Embedded Software
Introduces principles around embedded software elements and software development needed for the Embedded Systems Engineering core curriculum. Student will write C program applications that employ efficient, high performance and robust software design techniques. Topics include bare-metal firmware, C-programming optimization and introductions to underlying embedded architecture. Sound testing and debug practices will be instilled and utilized in several application projects.

**Requisites:** Campus section restricted to graduate students in Academic sub-plans ESE or C-EEENP or C-ECENEEN.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Embedded Systems Engineering

ECEN 5817 (3) Resonant and Soft-Switching Techniques in Power Electronics
Covers resonant converters and inverters, and soft switching; sinusoidal approximations in analysis of series, parallel, LCC, and other resonant dc-dc and dc-ac converters; state-plane analysis of resonant circuits; switching transitions in hand-switched and soft-switched PWM converters; zero-voltage switching techniques, including resonant, quasi resonant, zero voltage transition, and auxiliary switch circuits.

**Requisites:** Requires prerequisite course of ECEN 5797 (minimum grade C).

**Additional Information:** Departmental Category: Power

ECEN 5821 (3) Neural Systems and Physiological Control
A biophysical exploration of human physiology from the standpoints of control systems and neural information processing. Topics include: neural control of movement and cardiovascular performance, tissue growth and repair, carcinogenesis, and physiological responses to microgravity.

**Equivalent - Duplicate Degree Credit Not Granted:** ECEN 4821 and ASEN 4426 and ASEN 5426

**Additional Information:** Departmental Category: Bioengineering

ECEN 5823 (3) Internet of Things Embedded Firmware
Acquire firmware development skills to meet low energy and internet connectivity demands of embedded systems. Event-driven firmware techniques will be explored through programming assignments, transitioning to programming an Internet of Things RF Network Protocol such as Bluetooth Low Energy or Thread. The coursework will align with the latest industry firmware and embedded wireless protocol trends.

**Requisites:** Campus section restricted to graduate students in Academic sub-plans ESE or C-EEENP or C-ECENEEN.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Embedded Systems Engineering

ECEN 5827 (3) Analog IC Design
Covers the fundamentals of transistor-level analog integrated circuit design. Starting with motivations from application circuits, the course develops principles of dc biasing, device models, amplifier stages, frequency response analysis and feedback and compensation techniques for multi-stage operational amplifiers.

**Equivalent - Duplicate Degree Credit Not Granted:** ECEN 4827

**Requisites:** Restricted to Electrical/Computer Engineering (EEEN) graduate students or Concurrent Degree students in Electrical Engineering (C-EEEN) or Electrical/Computer Engineering (C-ECENEEN) or to Graduate Certificate Engineering (CRTGE) students.

**Additional Information:** Departmental Category: Power
ECEN 5830 (3) Special Topics
Examines a special topic in Electrical, Computer and Energy Engineering.
Repeatability: Repeattable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: General

ECEN 5833 (3) Low Power Embedded Design Techniques
The course explores through weekly quizzes, assignments, and a course project, low energy hardware design concepts, selecting components to meet reliability goals, radio implementation, power supply design, product design, and system bring up. The programming of the microcontroller or SoC will most likely be coding to the metal to control individual microcontroller peripherals and utilizing them in the most energy efficient ways.
Requisites: Restricted to students with an Embedded Systems Engineering (ESE) subplan or Electrical Engr-Prof Degree (C-EENEP) or Elec Cmp Elec Eng-Prof Degree (C-ECENEEEP) only.
Recommended: Requisites Students should have knowledge of assembly and C programming, digital logic design, and embedded computer architecture, and have had at least one course in each of these subjects, such as ECEN 5813 or ECEN 5823, students should also have experience using a microcontroller integrated development environment (IDE) and its associated tools including its debugger and register views.

ECEN 5837 (3) Mixed-Signal IC Design Lab
Software laboratory course extends the concepts developed in ECEN 5827 to full design and layout of mixed analog and digital custom integrated circuits. Assignments explore implementation of analog to digital and digital to analog converters, and final project develops a full custom IC for a target application.
Requisites: Requires prerequisite course of ECEN 5827 (minimum grade C-).
Additional Information: Departmental Category: Power

ECEN 5840 (1-6) Independent Study
Offers an opportunity for students to do independent, creative work at the master's level. Numbered ECEN 5840-5849. Department consent required.
Repeatability: Repeattable for up to 6.00 total credit hours.
Additional Information: Departmental Category: General

ECEN 5853 (3) Embedding Sensors and Motors
Introduces students to the design of sensors and motors, and methods that integrate them into embedded systems used in consumer and industrial products. Students will learn about sensor technologies and motors through lectures, recorded and online videos, online reading, and through laboratory experiments. Students will build systems that take sensor inputs, and sort, filter and evaluate the resulting data. They will also learn how to use sensor input to measure properties of motors.
Requisites: Restricted to students with an Embedded Systems Engineering (ESE) subplan or Electrical Engr-Prof Degree (C-EENEP) or Elec Cmp Elec Eng-Prof Degree (C-ECENEEEP) only.
Recommended: Prerequisites ECEN 1400, ECEN 2250, ECEN 2260 and ECEN 2440 or equivalent coursework.

ECEN 5863 (3) Programmable Logic Embedded System Design
Learn to design programmable systems on a chip for the purpose of creating prototypes or products for a variety of applications. Explore complexities, capabilities and trends of Field Programmable Gate Arrays (FPGA) and Complex Programmable Logic Devices (CPLD). Implement synchronization and timing closure in these devices. Projects will involve the latest software and FPGA development tools and hardware platforms.
Requisites: Campus section restricted to graduate students in Academic sub-plans ESE or C-EENEP or C-ECENEEEP.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Embedded Systems Engineering

ECEN 5907 (3) Special Topics
Special topics class.
Repeatability: Repeattable for up to 3.00 total credit hours. Allows multiple enrollment in term.

ECEN 6016 (1-3) Special Topics
Additional Information: Departmental Category: Optics

ECEN 6139 (3) Logic Synthesis of VLSI Systems
Studies synthesis and optimization of sequential circuits, including retiming transformations and don't care sequences. Gives attention to hardware description languages and their application to finite state systems. Also includes synthesis for testability and performance, algorithms for test generation, formal verification of sequential systems, and synthesis of asynchronous circuits.
Recommended: Prerequisites ECEN 5139 and CSCI 5454.
Additional Information: Departmental Category: VLSI CAD Methods

ECEN 6144 (3) Electromagnetic Boundary Problems
Provides mathematical and physical fundamentals necessary for the systematic analysis of electromagnetic fields problems. Covers basic properties of Maxwell's equations, potentials and jump conditions; scattering and diffraction by canonical structures; Green's functions, integral equations and approximate methods. Requires some maturity in electromagnetics.
Requisites: Requires prerequisite course of ECEN 5114 or 5134 (minimum grade C-). Restricted to graduate students in Electrical Engr (EEEN) or Electrical/Computer Engr (ECEN) or Electrical Engr Concurrent or Electrical/Computer Engr Concurrent Degree students only.
Additional Information: Departmental Category: Electromagnetics and Remote Sensing

ECEN 6800 (3) Master of Engineering Report
Additional Information: Departmental Category: General

ECEN 6940 (1) Master's Candidate for Degree
Grading Basis: Pass/Fail
Additional Information: Departmental Category: General

ECEN 6950 (1-6) Master's Thesis
Repeatability: Repeattable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: General

ECEN 6960 (3) Master of Engineering
Additional Information: Departmental Category: General

ECEN 7840 (1-6) Independent Study
Offers an opportunity for students to do independent, creative work at the doctoral level. Department consent required.
Repeatability: Repeattable for up to 6.00 total credit hours.
Additional Information: Departmental Category: General
ECEN 7849 (1-6) Independent Study
Offers an opportunity for students to do independent, creative work at the doctoral level. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: VLSI CAD Methods

ECEN 8990 (1-10) Doctoral Thesis
Repeatable: Repeatable for up to 10.00 total credit hours.
Additional Information: Departmental Category: General

Energy Engineering (ENEN)

Courses

ENEN 2820 (1-6) Special Topics
Explores topics related to energy engineering. Content will vary by semester and instructor.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to College of Engineering (ENGRU) undergraduates only.

ENEN 4321 (3) Oil and Gas Processing
Provides a foundation in the fundamentals of oil and gas processing, including discovery, extraction and refining. Due to the importance of oil and gas in the current energy infrastructure, this course provides a broad understanding of the industry to students interested in energy engineering.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

ENEN 4600 (3) Interdisciplinary Energy Engineering Projects
Prepares students to analyze energy systems from technical, economic, and policy perspectives with project topics varying by semester. Provides historical and contemporary context of the energy landscape. Emphasizes application of engineering fundamentals for the design and evaluation of real world energy systems. Projects will be completed by working in interdisciplinary teams.
Requisites: Requires prerequisite course of CHEN 3660 (minimum grade C). Restricted to Energy Engineering Minor (ENMR-MIN) students with 87-180 credits (Seniors).
Grading Basis: Letter Grade

ENEN 5840 (1-6) Special Topics
Explores topics related to energy engineering. Content will vary by semester and instructor.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to College of Engineering (ENGRU) graduate students only.

Engineering for Developing Communities (EDEN)

Courses

EDEN 4147 (3) A Systems Approach to Global Engineering
Introduces engineering students to the global context in which engineers are asked to operate in the 21st century using system dynamics tools and other decision-making tools (network analysis, agent based modeling, etc.) necessary to analyze the uncertainty and complexity inherent in global projects.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4157, CVEN 5157 and EDEN 5147

EDEN 5001 (3) Special Topics in Development Engineering
At the graduate level, covers topics of interest in development, for both domestic and international locations. Content varies by section and from semester to semester.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

EDEN 5147 (3) A Systems Approach to Global Engineering
Introduces engineering students to the global context in which engineers are asked to operate in the 21st century using system dynamics tools and other decision-making tools (network analysis, agent based modeling, etc.) necessary to analyze the uncertainty and complexity inherent in global projects.
Equivalent - Duplicate Degree Credit Not Granted: EDEN 4147, CVEN 4157 and CVEN 5157

Engineering Honors (EHON)

Courses

EHON 1151 (3) Critical Encounters
Explores critical, literary and philosophical approaches to the following related problems: 1) how we organize knowledge and construct meaning, and 2) how we locate a sense of self as both individuals and members of various groups amidst the resources and demands of competing interpretations, traditions challenges and circumstances. Department restriction, honors standing or instructor consent required.
Requisites: Restricted to Engineering Honors Program (PEHN) students only.

EHON 1500 (1) Honors Reading Group
Faculty led reading seminars, focusing on specific test or texts chosen by the faculty. Special attention will be paid to group formation and the process of collaborative learning.
Requisites: Restricted to Engineering Honors Program (PEHN) students only.
Additional Information: Engineering Honors Course

EHON 3843 (3) Special Topics
Explores different important themes relative to the Engineering Honors Program. Check with department for specific semester topics.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to Engineering Honors Program (PEHN) students only.
Additional Information: Engineering Honors Course
**Engineering Management (EMEN) Courses**

**EMEN 3100 (3) Introduction to Engineering Management**
Examines topics important to the management of engineering activities within organizations. Topics include the relationship of engineering to business and management disciplines, the functions of an engineering manager, principles and techniques for managing financial resource and business ownership. Explores best practices in global engineering management, process management, legal issues, ethics, organizational behavior and communications.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) College of Engineering students only.

**EMEN 4030 (3) Project Management Systems**
Gain skills in project management best practices that fit any industry, sector or geography. This interactive class provides students with the tools necessary to effectively initiate, plan, execute, control and close any type of project. Students apply knowledge as they plan an actual project, build and execute it, and ensure it meets stakeholder expectations and other project goals.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) College of Engineering students only.

**EMEN 4050 (3) Leadership and Professional Skills**
Accelerate your personal and professional growth with the essential skills required to become an effective leader/manager. Conduct personal development through exercises in communication and leadership effectiveness. Explore leadership styles, managing commitments, change management, negotiation, conflict resolution, organizational culture, emotional intelligence, team dynamics and business ethics.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) College of Engineering students only.

**EMEN 4100 (3) Engineering Economics**
Introduces engineering cost concepts, financial statements and the corporate economic environment. Includes concepts and methods of analysis of the time value of money, comparison of project alternatives before and after taxes, cash flow, replacement analysis, risk management and financial case statements.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) College of Engineering students only.

**EMEN 4110 (3) Supply Chain Management**
Explores the key issues related to the design and management of supply chains. Covers the efficient integration of suppliers, production facilities, warehouses, and stores so that the right products in the right quantity reach customers at the right time. Focuses on the minimization of the total supply chain cost subject to service requirements imposed by a variety of industries.

**Equivalent - Duplicate Degree Credit Not Granted:** MGMT 4110

**EMEN 4120 (3) Managing Business Processes**
Covers the concepts and tools to design and manage business processes. Emphasizes modeling an analysis, information technology support for process activities, and management of process flows. Graphical simulation software is used to create dynamic models of business processes and predict the effect of changes. Prepares students for a strong management or consulting career path in business processes.

**Equivalent - Duplicate Degree Credit Not Granted:** MGMT 4120 & MGMT 5120

**EMEN 4200 (3) Engineering and Entrepreneurship for the Developing World**
Use your engineering and problem solving skills, combined with market/industry research, customer interviews, design for manufacturability, stakeholder management and financial modeling to promote entrepreneurship and sustainable change in the developing world. Explore alternative energy, medical devices, phones, internet, recycling, cook stoves, clean water, sanitation and infrastructure.

**Equivalent - Duplicate Degree Credit Not Granted:** MGMT 4120 & MGMT 5120

**EMEN 4400 (3) Quality Management**
Introduces the concepts, tools and techniques used in the management and measurement of quality and productivity in a business environment. Associated topics include: statistics methods, design quality, measurement, control and process improvement. Discover the basics of performance excellence management including Baldridge Award criteria, strategic planning, leadership and daily quality management.

**Equivalent - Duplicate Degree Credit Not Granted:** MGMT 4400

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) College of Engineering students only.

**EMEN 4405 (3) Systems Engineering**
Introduces students to system engineering in terms of defining objectives, applications and the major steps in the systems engineering process. Learn to work effectively with diverse project teams. Industry standards are covered that lay out the steps of the classic Systems Engineering lifecycle. Real world engineering examples from concept exploration to hardware retirement are used.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) College of Engineering students only.

**EMEN 4400 (3) Systems Engineering**
Introduces the concepts, tools and techniques used in the management and measurement of quality and productivity in a business environment. Associated topics include: statistics methods, design quality, measurement, control and process improvement. Discover the basics of performance excellence management including Baldridge Award criteria, strategic planning, leadership and daily quality management.

**Equivalent - Duplicate Degree Credit Not Granted:** MGMT 4400

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) College of Engineering students only.

**EMEN 4800 (3) Technology Ventures and Marketing**
Learn marketing concepts, skills and tools to launch new products and ventures. Engage with faculty, classmates, guest speakers, industry professionals, potential customers and one's leadership team to help you launch your venture. Develop the necessary skills and tools to be successful colleagues, managers and leaders in industry. Gain valuable business acumen using a hands-on learning environment.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) College of Engineering students only.

**EMEN 4820 (3) Entrepreneurial Product Development**
A practical, hands-on course that introduces engineers and business students to the exciting world of product development. Each student will create a concept for an innovative product, assess its commercial potential, construct simple digital and physical prototypes, and evaluate its impact on the environment. The course culminates in a trade-show like event where everyone showcases their world-changing product to their peers.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) College of Engineering students only.
EMEN 4825 (3) New Venture Creation
Relevant to students seeking to acquire an entrepreneurial toolkit of knowledge and skills for working in the startup world or launching a new venture. Covers the techniques for evaluating the probability of success for a new venture and develops a methodology for entrepreneurial thinking that provides benefits for big and small ventures. The final deliverable is a professional pitch to a group of seasoned investors and the submission of a complete business plan.
Equivalent - Duplicate Degree Credit Not Granted: ESBM 4830
Requisites: Restricted to students with 57-180 credits (Junior or Senior) College of Engineering students only.

EMEN 4830 (3) Special Topics
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) College of Engineering students only.

EMEN 4840 (1-3) Independent Study Project
Available only through approval of Engineering Management Program. Subjects arranged to fit the needs of the particular student.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

EMEN 5000 (3) Engineering Principles
Provides an appreciation, understanding, and perspective of the tasks and challenges faced in engineering disciplines. Offers insight into how engineers think and approach problems. Explores different engineering disciplines by evaluating the tools used, main concepts, and how the discipline impacts daily life. Through a series of case studies, students will review successful and unsuccessful engineering projects.

EMEN 5005 (3) Introduction to Applied Statistical Methods
Covers statistical reasoning and statistical analysis for applications related to business and engineering decision making. Topics include an introduction to engineering and applied research, descriptive statistical analysis and its foundations, inferential statistics to include estimation and hypothesis testing using both traditional parametric as well as nonparametric procedures for research situations involving one or two groups of treatment conditions.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) or graduate students or Graduate Certificate Engineering (CRTGE) students only.

EMEN 5010 (3) Introduction to Engineering Management
Learn concept, methods, activities and philosophies of business and be encouraged to utilize them in your professional activities. Interact with engineering management faculty who share what works based upon their engineering management experiences. Engage with our classmates on their business experience, thereby preparing you to interact more thoughtfully and knowledgeably with your professional colleagues.
Requisites: Restricted to College of Engineering graduate students or Graduate Certificate Engineering (CRTGE) students only.

EMEN 5015 (3) Engineering Communication
Enables students to communicate their thoughts and ideas in written and oral form in professional environments. Understand and demonstrate the ability to write a correctly-formed document. Develop active listening skills, particularly when providing and receiving feedback. Learn to orally communicate ideas by speaking clearly, persuasively, energetically, and with appropriate non-verbal elements. Present in various environments and to various audiences.

EMEN 5020 (3) Finance for Engineering Managers
Learn concepts and skills necessary to assess financial performance, including the analysis of income statements, balance sheets and cash flow statements. Apply the concepts and skills of corporate finance to your personal finance, including the creating of a diversified investment portfolio. Enhance your management credentials by being knowledgeable in corporate finance.
Requisites: Restricted to College of Engineering graduate students or Graduate Certificate Engineering (CRTGE) students only.

EMEN 5030 (3) Fundamentals of Project Management
Provides an in-depth introduction to the project management discipline, including the concepts, tools and techniques used in the management and leadership of projects small and large alike. Key topics covered include the role of the project manager; project team selection and management; cost, schedule and risk management; quality in projects; introduction to creating and maintaining project plans through the project lifecycle.
Requisites: Restricted to College of Engineering graduate students or to Graduate Certificate Engineering (CRTGE) students only.

EMEN 5031 (3) Software Project Management
Introduces software project management as a critical element of software development activities throughout every area of human endeavor. Learn the software life cycle, software configuration management, code reviews, architectural influences and quality assurance with automated testing. Explore the impact on project success of the Capability Maturity Model (CMM) and United Modeling Language (UML).
Requisites: Restricted to College of Engineering graduate students or Graduate Certificate Engineering (CRTGE) students only.
Recommended: Prerequisite software development experience.

EMEN 5032 (3) Advanced Topics in Project Management
Covers advanced topics in project management from a systems view based on the Project Management Body of Knowledge (PMBOK) span the entire project life cycle. Non-EMP students require instructor consent.
Requisites: Requires prerequisite course of EMEN 5030 (minimum grade B). Restricted to College of Engineering graduate students or Graduate Certificate Engineering (CRTGE) students only.

EMEN 5041 (3) Advanced Topics in Value Creation
Focuses on the advanced study of methods designed to maximize excellence in business performance. Includes a model to understand process and product tradeoffs, interactions with supplies, integrated manufacturing systems and meeting customer requirements while maximizing profitability. These characteristics are addressed both strategically and tactically through the use of case analysis, field study and experiential learning for production and service sectors.
Requisites: Requires prerequisite course of EMEN 5005 (minimum grade B). Restricted to College of Engineering graduate students or Graduate Certificate Engineering (CRTGE) students only.

EMEN 5042 (3) Methods for Quality Improvement
Develop in-depth expertise in the concepts, tools and techniques used in the management and measurement of quality and productivity. Apply statistics and probability to the topics of process variation and statistical process control and capability analysis for process, product, and measurement systems. Explore an introduction to design of experiments (DOE) in business and industry to improve both quality and performance.
Requisites: Requires prerequisite course of EMEN 5005 (minimum grade B). Restricted to College of Engineering graduate students or Graduate Certificate Engineering (CRTGE) students only.
EMEN 5043 (3) Advanced Topics in Quality Systems/Engineering
Advanced study of methods, tools, techniques and systems associated with advanced quality applications. Includes a survey of advanced process control technologies, control schemes and measurement system analysis. Non-EMP students require instructor consent.
Requisites: Requires prerequisite course of EMEN 5042 (minimum grade B). Restricted to College of Engineering graduate students or Graduate Certificate Engineering (CRTGE) students only.

EMEN 5050 (3) Leading Oneself
Provides working engineers a background in leadership concepts and methods and enables students to develop practical leadership skills through numerous in-class exercises and experimentation based assignments. Topics include authentic leadership, motivating self and others, cultivating emotional intelligence, personal mastery, creating accountability, conflict resolution, leading change and organizational culture. Required for all Engineering Management degree students.
Equivalent - Duplicate Degree Credit Not Granted: CYBR 5505
Requisites: Restricted to College of Engineering graduate students or to Graduate Certificate Engineering (CRTGE) students only.

EMEN 5052 (3) Leading Others
Understand and apply leadership techniques that develop and sustain a high-powered technical organization. Specifically, students evaluate qualities associated with successful leaders, learn practical leadership skills such as defining roles and responsibilities, setting vision, coaching, and dealing with conflicts. The course then addresses team building, from hiring the right team members, to managing the team, and conducting effective team meetings.

EMEN 5080 (3) Ethical Decision-Making in Engineering Management
Learn how to recognize ethical issues and dilemmas affecting managers in the workplace. Understand various models and practices offering solutions to these issues and how to create a culture of ethics and integrity in supporting and/or building a profitable, healthy and responsible organization.
Requisites: Restricted to College of Engineering graduate students or to Graduate Certificate Engineering (CRTGE) students only.

EMEN 5090 (3) Marketing and Technology Ventures
Learn the basics of marketing for developing a technology innovation as a commercially successful product, including customer development as a part of product development. Designed to be of interest to engineers in existing companies and startups. The format includes in-depth discussions of real-world case studies and marketing strategies for the high tech environment. Non-EMP students require instructor consent.
Requisites: Restricted to College of Engineering graduate students or to Graduate Certificate Engineering (CRTGE) students only.

EMEN 5094 (3) Entrepreneurship for Engineers
Explores the process of new venture creation as it relates to both launching a technology-based startup (entrepreneurship), and the introduction of new products and services within an existing firm (intrapreneurship). The course features a semester project that incorporates all elements of the new venture process, enabling engineers to transform their own innovative ideas into viable and sustainable business opportunities.
Requisites: Restricted to College of Engineering graduate students or Graduate Certificate Engineering (CRTGE) students only.

EMEN 5400 (3) Product Development and Design
Introduces contemporary methods of identifying and creating new products and services that both consumer and industrial customers really want. The course takes students on a project-based journey of ideation, concept development, prototyping, customer validation, costs and the new product launch process. Students ultimately showcase their products in a tradeshow-like setting. Environmental impact analyses and cradle-to-cradle design methods are also addressed.

EMEN 5405 (3) Fundamentals of Systems Engineering
Examines the disciplined processes of designing and managing complex systems over their life cycle. Requirements engineering, reliability, logistics, team leadership, testing and evaluation, maintainability and other disciplines are examined with focus on the system engineering of small spacecraft.
Requisites: Restricted to College of Engineering graduate students or Graduate Certificate Engineering (CRTGE) students only.

EMEN 5500 (3) Lean and Agile Management
Learn lean and agile concepts and tools to improve customer value, improve processes and reduce waste. Examine and apply lean and agile principles in diverse circumstances including hardware/software, product development/ongoing operations and manufacturing products/providing services. Apply your learning to improving performance in current responsibilities, whether as an individual contributor or as a manager.
Equivalent - Duplicate Degree Credit Not Granted: OPIM 6080
Requisites: Restricted to College of Engineering graduate students or Graduate Certificate Engineering (CRTGE) students only.

EMEN 5610 (3) Advanced Statistical Methods for Engineering Research
Combines intermediate and advanced statistical methods (Two- and Three-Way ANOVA and post hoc analyses for a large variety of specific designs). Real data sets are employed permitting a focus on engineering research in support of business decision making through the integration of cost benefit analysis and process performance. Parametric as well as nonparametric methods of analysis are included.
Requisites: Requires prerequisite course of EMEN 5900 (minimum grade B). Restricted to College of Engineering graduate students or Graduate Certificate Engineering (CRTGE) students only.

EMEN 5620 (3) Data Mining and Screening Experiments for Engineering Research
Combines intermediate and advanced statistical methods with practical research applications. Develops commonly used statistical models such as Two and Three-Way Analysis of Variance and the analysis of Fractional Factorial Designs for the solution of common business and industrial research problems. The statistical models are implemented and interpreted in the context of actual data sets using available statistical software.
Requisites: Requires prerequisite course of EMEN 5610 (minimum grade B). Restricted to College of Engineering graduate students or Graduate Certificate Engineering (CRTGE) students only.

EMEN 5710 (3) Applied Business Decisions
Team up with fellow classmates to launch a high-tech company as part of an eight quarter project in a competitive, simulated business environment. Make decisions in product development, marketing, operations and finance based on results of the previous quarter. Prepare a business pitch and executive summary to justify additional venture capital or a bank loan. Non-EMP students require instructor consent.
Requisites: Requires prerequisite course of EMEN 5020 (minimum grade B). Restricted to College of Engineering graduate students or Graduate Certificate Engineering (CRTGE) students only.
Engineering Plus (GEEN) Courses

GEEN 1010 (4) Engineering Explorations Through Physics
Explore the world of engineering through understanding physics concepts, engaging in active learning assignments, and conducting hands-on labs and experiments. Students will analyze product designs and engineering decisions based on the physics surrounding the situation. Formerly COEN 1010.
Requisites: Restricted to College of Engineering majors with 75 or less cumulative hours.
Grading Basis: Letter Grade

GEEN 1017 (3) Engineering Drawing
Introduces CAD software, relevant concepts, including orthographic projection, sections, engineering drawing, geometric dimensioning and tolerancing, and rapid manufacturing methods. Final design project involves rapid prototyping. Not recommended for MCEN, AREN or CVEN majors.
Grading Basis: Letter Grade

GEEN 1400 (3) Engineering Projects
First-year students solve real engineering design problems in interdisciplinary teams. Design projects vary by section. Curriculum focuses on iterative design process, teamwork and team dynamics, supporting design with testing and analysis, and technical writing. Completed projects are exhibited at an end-of-semester design expo. Students responsible for contributing towards their design project budget and poster costs, and purchasing safety glasses (approximately $75).
Requisites: Restricted to College of Engineering majors with 75 or less cumulative hours.

GEEN 2400 (3) Engineering Projects for the Community
Design engineering products for local community clients, with emphasis on humanitarian engineering and integrated systems with electrical, mechanical, and software components. Students are challenged to take design projects to a higher level by requiring an additional iteration through the design cycle and more engaged user-testing, in order to infuse student projects with the robustness necessary for public-use products.
Requisites: Requires prerequisite course of GEEN 1400 or COEN 1400 or ASEN 1400 or ECEN 1400 (minimum grade C). Restricted to College of Engineering majors only.
Grading Basis: Letter Grade

GEEN 2851 (3) Statics for Engineers
Examines vector treatment of force systems and their resultants; equilibrium of frames and machines, including internal forces and three-dimensional configurations; static friction; properties of surfaces, including first and second moments; hydrostatics; and minimum potential energy and stability.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 2121 and MCEN 2023
Requisites: Requires prerequisite course of PHYS 1110 and APPM 1360 or MATH 2300 (all minimum grade C). Restricted to College of Engineering majors only.
Grading Basis: Letter Grade
GEEN 3010 (3) Circuits for Engineers
Examines basic concepts of electricity, digital systems, circuit analysis, and circuit design. Specific topics covered include analysis of electric circuits by use of Ohm's law, network reduction, node and loop analysis, Thevenin and Norton theorems, DC and AC signals, transient response of simple circuits, basic diode and transistor circuits, operational amplifiers, and microcontrollers. Students are challenged to integrate their knowledge in a final design project.
Requisites: Requires a prerequisite course of PHYS 1140 and a prerequisite or corequisite course of APPM 2360 (all minimum grade C). Restricted to College of Engineering undergraduate majors only.
Grading Basis: Letter Grade

GEEN 3024 (3) Materials Science for Engineers
Examines structure, properties, processing and uses of metallic, polymeric, ceramic and composite materials. Specific topics covered include perfect and imperfect solids, phase equilibria, transformation kinetics, mechanical and electrical behavior and failure modes. Approach incorporates both materials science and materials engineering applications. Formerly GEEN 2024.
Requisites: Requires a prerequisite course of PHYS 1110 (minimum grade C). Restricted to College of Engineering students only.
Grading Basis: Letter Grade

GEEN 3400 (3) Invention and Innovation
Introduction to business development and product innovation with a hands-on approach. Students explore the invention process, hone their engineering design skills, and explore the initial stages of entrepreneurship (patenting, intellectual property, marketing research, and raising capital). Student teams design, create, and test a potentially commercial product, and exhibit at an end-of-semester design expo.
Requisites: Restricted to students with 57-180 credits (Junior or Senior) College of Engineering students only.

GEEN 3830 (4) Special Topics
Explores topics of interest in engineering. Content varies by instructor and semester.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to College of Engineering undergraduate students only.

GEEN 3852 (3) Thermodynamics for Engineers
Explores fundamental concepts and basic theory, including first and second laws of thermodynamics, properties, states, thermodynamic functions and cycles. Links theory with application with labs and a design project involving a functioning thermodynamic process.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 3012
Requisites: Requires prerequisite course of PHYS 1110 (minimum grade C). Restricted to College of Engineering majors only.
Grading Basis: Letter Grade

GEEN 3853 (4) Data Analysis for Engineers
Learn to design and execute experiments and analyze the results. Topics covered include measurement fundamentals, design of experiments, elementary statistics and uncertainty analysis. Topics include probability, error propagation, confidence intervals, hypothesis testing, linear regression, one- and two-factor ANOVA and time series analysis.
Equivalent - Duplicate Degree Credit Not Granted: MCEN 3047
Requisites: Requires prerequisite courses of PHYS 1140 and APPM 2360 and (CHEN 1310 or CSCI 1300 or 1310 or 1320). Requires prerequisite or corequisite of (ECEN 3010 or GEEN 3010 or MCEN 3017) (GEEN 3024 or MCEN 2024) (WRTG 3030 or 3035 or HUEN 1010 or 3100) (all minimum grade C).

GEEN 4400 (3) Teaching Design
Examines teaching engineering design to a variety of audiences including secondary schools, project teams, and other communities. Students examine the process of teaching hands-on design including scoping, stages of team evolution, and iteration. Students also explore different design methods, the development of engineering identity, and the interface between engineering and society. Students practice integrating design thinking into local schools and companies, develop ready-to-use tools and resources, and explore the design education literature.
Requisites: Requires prerequisite courses of GEEN 1400 and GEEN 2400 and prerequisite or corequisite course of GEEN 3400 (all minimum grade B).
Grading Basis: Letter Grade

GEEN 4848 (1-6) Independent Study
Subjects arranged in consultation with instructor and undergraduate advisor. Department consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Engineering Plus (GEEN) students only.
Grading Basis: Letter Grade

English (ENGL)

Courses

ENGL 1001 (3) Freshman Writing Seminar
Provides training and practice in writing and critical thinking. Focuses on the writing process, the fundamentals of composition, and the structure of argument. Provides numerous and varied assignments with opportunity for revision.
Requisites: Restricted to students with 0-56 credits (Freshmen or Sophomore) College of Arts and Sciences majors only.
Additional Information: Arts Sci Core Curr: Written Communication
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Undergraduate Writing
MAPS Course: English

ENGL 1191 (3) Introduction to Creative Writing
Introduces techniques of fiction and poetry. Student work is scrutinized by the instructor and may be discussed in a workshop atmosphere with other students. May not be taken concurrently with ENGL 2021 or ENGL 2051. May not be repeated.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Undergraduate Writing

ENGL 1210 (3) The Novel
Explores the many possibilities of the novel, or, the novel as possibility, and emphasize that formal and aesthetic innovation is not peripheral to the novel's development but central to its influence and existence. Focuses on the elements of fiction in order to develop an aesthetic and literary appreciation of this complex art form.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: General Literature and Language
ENGL 1220 (3) From Gothic to Horror
Explores literature in the Gothic mode and aesthetic and critical theories related to modern "horror" genres or their precursors. Introduces literary-critical concepts (such as notions of abjection, repression and anxiety) that developed alongside this branch of literature. Students read canonical works in British and American traditions while reflecting on notions of popular or marginalized literature.

Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: General Literature and Language

ENGL 1230 (3) Environmental Literature
Introduces students to the tradition of nature writing dating from Romanticism through realist and experimental contemporary literary texts. Students will study key terms and concepts related to the environment such as anthropocentrism, bioregionalism, eco-cosmopolitanism, environmental justice, deep ecology, and posthumanism. They will apply them to different literary genres toward developing critical analyses and environmental readings.

Grading Basis: Letter Grade

Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: General Literature and Language

ENGL 1240 (3) Planetarity
Focuses of post-WWII American writing and thought about the planet and humanity. We explore how postwar efforts to transform the terrestrial environmental and conquer outer space raise questions about humanity, technology, and nature. We also study how earth and space serve novelists, artists, and film-makers as environments to confront large-scale questions about culture, identity, and power.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities

ENGL 1250 (3) Introduction to Global Women's Literature
Introduces global literature by women. Covers both poetry and fiction and varying historical periods. Acquaints students with the contribution of women writers to the literary tradition and investigates the nature of this contribution.

Equivalent - Duplicate Degree Credit Not Granted: WGST 1250

Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-Global Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: General Literature and Language

ENGL 1260 (3) Introduction to Women's Literature
Introduces literature by women in England and America. Covers both poetry and fiction and varying historical periods. Acquaints students with the contribution of women writers to the English literary tradition and investigates the nature of this contribution.

Equivalent - Duplicate Degree Credit Not Granted: WGST 1260

Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: General Literature and Language

ENGL 1270 (3) Introduction to American Women's Literature
Introduces literature by women in America. Covers both poetry and fiction and varying historical periods. Acquaints students with the contribution of women writers to the literary tradition and investigates the nature of this contribution.

Equivalent - Duplicate Degree Credit Not Granted: WGST 1270

Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: General Literature and Language

ENGL 1340 (3) Mysticism and the Jewish American Literary Tradition
Explores the mystical tradition within Judaism from ancient times to the present. With roots in the Hebrew Bible, Jewish mysticism is one of the oldest forms of mysticism and has had an influence on some of the greatest philosophical traditions of western civilization.

Equivalent - Duplicate Degree Credit Not Granted: JWST 1234

Grading Basis: Letter Grade

Additional Information: Arts Sci Core Curr: Ideas and Values
Departmental Category: American Literature

ENGL 1420 (3) Poetry
Introduces students to how to read a poem by examining the great variety of poems written and composed in English from the very beginning of the English language until recently.

Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: General Literature and Language

ENGL 1500 (3) Masterpieces of British Literature
Introduces students to a range of major works of British literature, including at least one play by Shakespeare, a pre-20th century English novel, and works by Chaucer and/or Milton.

Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: General Literature and Language

ENGL 1600 (3) Masterpieces of American Literature
Enhances student understanding of the American literary and artistic heritage through an intensive study of a few centrally significant texts, emphasizing works written before the 20th century.

Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: General Literature and Language

ENGL 1800 (3) American Ethnic Literatures
Introduces significant fiction by ethnic Americans. Explores both the literary and the cultural elements that distinguish work by these writers. Emphasizes materials from Native American, African American, and Chicano traditions.

Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: General Literature and Language

ENGL 2021 (3) Introductory Poetry Workshop
Introductory course in poetry writing.

Repeatable: Repeatable for up to 9.00 total credit hours.

Requisites: Requires prerequisite course of ENGL 1191 (minimum grade B).

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Undergraduate Writing

ENGL 2036 (3) Introduction to Media Studies in the Humanities
Serves as an introduction to media studies specifically from a humanities perspective. Studies both histories and theories of media from the 20th and 21st centuries. Touches on methodologies for undertaking media studies (including distant ready and media archaeology). Objects of study may include such topics as film, radio, social media platforms and games, as well as digital art and literature.

Equivalent - Duplicate Degree Credit Not Granted: ATLS 2036

Repeatable: Repeatable for up to 6.00 total credit hours.

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Advanced Theory, Genre Studies and Popular Culture
ENGL 2051 (3) Introductory Fiction Workshop
Introductory course in fiction writing.
Repeatability: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course of ENGL 1191 (minimum grade B).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Undergraduate Writing

ENGL 2058 (3) Twentieth- and Twenty-first-Century Literature
Surveys the major literary trends in prose and poetry from 1900 to the present in the Anglo-American tradition of modern, postmodern, and contemporary literature. Provides students with a grounding in the major authors and motifs of 20th- and 21st-century literature in conjunction with political and cultural changes across the periods.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Critical Studies in English

ENGL 2102 (3) Literary Analysis
Provides a basic skills course designed to equip students to handle the English major. Emphasizes critical writing and the acquisition of basic techniques and vocabulary of literary criticism through close attention to poetry and prose.
Requisites: Restricted to English (ENGL) majors and minors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: General Literature and Language

ENGL 2112 (3) Introduction to Literary Theory
Introduces students to a wide range of critical theories that English majors need to know. Covers major movements in modern literary/critical theory, from Matthew Arnold through new criticism to contemporary postmodern frameworks. Required for all English majors.
Requisites: Restricted to English (ENGL) majors and minors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: General Literature and Language

ENGL 2115 (3) American Frontiers
Considers the backdrop of the American West in literature, film, photography and computer gaming. Focuses on a range of narratives and images depicting this wide swathe of American geography while simultaneously cultivating close reading skills, digital media analysis and film analysis that will aid in deeper insights at the textual level.
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: American Literature

ENGL 2503 (3) British Literary History to 1660
Provides a chronological study of great figures and forces in English literature from Beowulf to 1660.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: British Literature to 1660

ENGL 2504 (3) British Literary History after 1660
Surveys key trends and works in British literature from 1660 to 1900 by focusing on issues such as modernity; national identity; political, economic, social, and scientific revolutions; reading and media technologies; and the relationship between literary and visual culture. May include works by Aphra Behn, William Hogarth, the Wordsworths, Jane Austen, the Brontës, Charles Dickens, Christina Rossetti, and Joseph Conrad. Formerly ENGL 2512.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: British Literature after 1660

ENGL 2655 (3) Introduction to American Literature I
Chronological survey of the literature from Bradford to Whitman.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: American Literature

ENGL 2656 (3) Introduction to American Literature II
Chronological survey of the literature from Whitman to Faulkner. Continuation of ENGL 2655.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: American Literature

ENGL 2707 (3) Introduction to Lesbian, Bisexual, and Gay Literature
Offers students at sophomore and junior levels an introduction to some of the forms, concerns, and genres of contemporary lesbian, bisexual, transgender and gay writing in English.
Equivalent - Duplicate Degree Credit Not Granted: LGBT 2707
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Multicultural and Gender Studies

ENGL 2717 (3) American Indian Literature
Surveys historical and contemporary North American Native American literature. Examines the continuity and incorporation of traditional stories and values in Native Literature, including novels, short stories and poetry.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 2713
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Multicultural and Gender Studies

ENGL 2727 (3) Survey of African American Literature 1
Surveys African American literature from the 17th century through the Harlem Renaissance and Depression.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Multicultural and Gender Studies

ENGL 2737 (3) Survey of African American Literature 2
Surveys African American literature from the Depression to the present.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 2732
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Multicultural and Gender Studies

ENGL 2747 (3) Chicana/Chicano and Mexican Literature
Introduces Chicana and Chicano and Mexican literary studies, focusing on narrative works by Chicana and Chicano writers. Examines diverse range of Mexican writing in Greater Mexico as it addresses recurring issues and themes, including language, race and class, questions of identity and gender relations.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 2746
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Multicultural and Gender Studies

ENGL 2767 (3) Survey of Post-Colonial Literature
Surveys the development of literatures in English in former British colonies. Topics include the spread and adaptation of English language literary forms in Asia, Africa, the Caribbean, and the far new world (Australia and New Zealand). Students learn the causes of the dispersion and the motivations for the clearly different uses of English literary forms in the ex-colonies.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 2761
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Multicultural and Gender Studies
ENGL 3000 (3) Shakespeare for Nonmajors
Introduction to Shakespeare. Introduces students to 6-10 of Shakespeare's major plays. Comedies, histories, and tragedies will be studied. Some non-dramatic poetry may be included. Viewing of Shakespeare in performance is often required.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only. English (ENGL) and Humanities (HUMN) majors are excluded from taking this class.

ENGL 3005 (3) The Literature of New World Encounters
Explores American literature as a site of cultural intersection between European settlers and indigenous peoples.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: American Literature

ENGL 3008 (3) Developments in the Novel, Post-1900
Introduces students to the major works, authors and formal trends of the 20th and 21st-century novel. Texts may be drawn from British, American and global literary traditions. Focuses on a specific movement, development, or transformation in the genre post-1900, for instance, modernism, postmodernism, naturalism, realism, postcolonial fiction, historical fiction.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

ENGL 3011 (3) Literary Forms and Styles in Post-1900 Literature
Studies special topics in literary forms and styles (e.g. magical realism, naturalism, language poetry, etc.) and also the development of genres (e.g. poetry, drama, digital media, novel) in the 20th- and 21st-centuries. Topics vary each semester. Specially design for English majors. May be repeated for a total of 6 units for different topics.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Undergraduate Writing

ENGL 3021 (3) Intermediate Poetry Workshop
Intermediate course in poetry writing.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course of ENGL 2021 (minimum grade B). Restricted to Creative Writing minor students or students with a sub plan of Creative Writing.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Undergraduate Writing

ENGL 3025 (3) American Nationalisms
Examines how literature participates in the creation of American national culture and identify. Surveys major political writing and a variety of literary genres, tropes, and themes from early native American tales to the 20th-century literature.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: American Literature

ENGL 3026 (3) Syntax, Citation, Analysis: Writing About Literature
Students hone their writing skills by closely analyzing the language in literary texts. The course will focus on the nuances of sentence structure and grammar, in order to help students become better writers and readers. Students will learn how to perform research in literary criticism and will write and revise a research paper, as well as a number of short papers for different audiences. Students will learn and use citation methods within the discipline and will discuss the reasoning behind citational practice.
Recommended: Prerequisite completion of lower-division writing requirement.
Additional Information: Arts Sci Gen Ed: Written Communication-Upper

ENGL 3031 (3) Studies in Creative Writing for Nonmajors
How do stories work, and what's involved with writing them and then getting them out into the world? This course will, through lectures and recitation, work through the many techniques writers use to pull the reader ahead page by page, dialogue, exposition, prose, structure, and the rest, as well as the various mechanisms by which that writing can make its way out into the world.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

ENGL 3041 (3) Studies in Fiction and Poetry
Examines literary forms and themes with special emphasis on issues related to the craft of poetry and fiction. This course is taught in conjunction with visiting lectures by practicing writers. Does not count as Creative Writing workshop credit.
Requisites: Requires prerequisite course of ENGL 1191 (minimum grade B).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Undergraduate Writing

ENGL 3051 (3) Intermediate Fiction Workshop
Intermediate course in fiction writing.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course ENGL 2051 (minimum grade B). Restricted to Creative Writing minor students or students with a sub plan of Creative Writing.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Undergraduate Writing

ENGL 3060 (3) Modern and Contemporary Literature for Nonmajors
Close study of significant 20th-century poetry, drama, and prose works. Readings range from 1920s to the present.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

ENGL 3068 (3) Literature in English, 1900-1945
Surveys major literary trends from 1900-1945 in the Anglo-American tradition, including the characteristics of literary modernism. Covers both prose and poetry, as well as the relationship between literature and history to the close of World War II.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
ENGL 3078 (3) Literature in English, 1945-Present
Explores major literary and theoretical trends in the Anglo-American tradition after 1945.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Recommended: Prerequisites ENGL 2102 and ENGL 2058.

ENGL 3081 (3) Intermediate Nonfiction Workshop
Discussion and practical criticism of student work and discussion of relevant works of literary nonfiction.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course of ENGL 2021 or ENGL 2051 (minimum grade B).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Undergraduate Writing

ENGL 3088 (3) Major Authors of Post-1900 Literature
Provides an in-depth study of the work of one or two major authors in the Anglo-American tradition after 1900. May be repeated for a total of 9 units for different topics.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

ENGL 3116 (3) Topics in Advanced Theory
Studies special topics in theory; specially designed for English majors. Topics vary each semester.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of ENGL 2112 (minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

ENGL 3164 (3) History and Literature of Georgian Britain
Provides an interdisciplinary study of England in one of its most vibrant cultural and historical periods. Topics include politics, religion, family life, and the ways contemporary authors understood their world.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

ENGL 3204 (3) Development in the Novel
Surveys key developments in the formal and socio-cultural history of the British novel, from its rise in the long eighteenth century to its preeminence during the Victorian era. Readings may include works by Aphra Behn, Daniel Defoe, Jonathan Swift, Samuel Richardson, Laurence Sterne, Jane Austen, Mary Shelley, the Brontës, Charles Dickens, George Eliot, Thomas Hardy, Oscar Wilde and Joseph Conrad.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: British Literature after 1660

ENGL 3217 (3) Topics in Gender Studies
Studies special topics in gender studies; specially designed for English majors. Topics vary each semester.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Multicultural and Gender Studies

ENGL 3226 (3) Folklore
Emphasizes formal study of folk traditions (including tales, songs, games, customs, beliefs, and crafts) within a theoretical framework, using examples from several cultures.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

ENGL 3235 (3) American Novel
Surveys the American novel. Covers the early development of the American novel, its rise in the 19th- and 20th-centuries, and its contemporary expressions. Students will be introduced to theories of the novel, the major movements and authors, as well as the characteristics that define the American novel as unique.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: American Literature

ENGL 3245 (3) American Poetry
Surveys American poetry from the 17th- to the 21st-century. Includes training in poetic theory, form, and genre, as well as in poetic analysis.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: American Literature

ENGL 3246 (1-3) Topics in Popular Culture
Studies special topics in popular culture; specially designed for English majors. Topics vary each semester. May be repeated for a total of 6 credit hours for different topics.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

ENGL 3267 (3) Women Writers
Introduces literature by British and American women.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3267
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Multicultural and Gender Studies
ENGL 3300 (3) Literary London
Study the works of a major author, school or period of English literary history in London. Subject rotates each year, with possible topics ranging from medieval to contemporary literature. Course incorporates local sites, landmarks, museums, performances and scholars. Application through the Office of International Education required.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Grading Basis: Letter Grade
Additional Information: Arts Sci Core Curr: Literature and the Arts
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: General Literature and Language

ENGL 3310 (3) The Bible as Literature
Surveys literary achievements of the Judeo-Christian tradition as represented by the Bible. Formerly ENGL 3312.
Equivalent - Duplicate Degree Credit Not Granted: HUMN 3310 and JWST 3310
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Core Curr: Ideals and Values
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Backgrounds to Literature in English

ENGL 3377 (3) Multicultural Literature
Studies special topics in multicultural literature; specially designed for English majors. Topics vary each semester.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Multicultural and Gender Studies

ENGL 3523 (3) The Early English Renaissance
Surveys prose, poetry and drama of the seventeenth century, from Donne, Jonson and Bacon through Milton and his contemporaries. Formerly ENGL 4523.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: British Literature to 1660

ENGL 3533 (3) The Later English Renaissance
Surveys prose, poetry and drama of the seventeenth century, from Donne, Jonson and Bacon through Milton and his contemporaries. Formerly ENGL 4533.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: British Literature to 1660

ENGL 3553 (3) Geoffrey Chaucer
Selection of Chaucer's works, including The Canterbury Tales and other shorter poems. Includes an introduction to Middle English.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: British Literature before 1660

ENGL 3563 (3) Shakespeare
Shakespeare's poetry and drama.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: British Literature after 1660

ENGL 3564 (3) Romanticism
Surveys British Romanticism, including Blake, Coleridge, Wordsworth, Keats, Shelley, and Byron.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: British Literature after 1660

ENGL 3573 (3) Shakespeare in Performance
Focuses on Shakespeare the dramatist through the study of the three Shakespeare plays produced in the summer by the Colorado Shakespeare Festival. In addition to exploring the text, the historical context and performance conventions c. 1600, students meet the CSF teams (professional directors, dramaturgs, designers and actors) of the three plays and the Producing Artistic Director of the CSF.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: British Literature to 1660

ENGL 3583 (3) Milton
Milton's poetry and selected prose.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: British Literature to 1660

ENGL 3593 (3) Major Authors in British Literature before 1660
Focuses on one major author of the medieval or early modern period, such as William Langland, John Lydgate, Edmund Spenser or Ben Jonson. Course content varies with instructor and may include literary influences, contemporary writers, and historical influences as necessary to understanding the writer. May be repeated for a total of 9 units for different topics.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: British Literature to 1660
ENGL 3604 (3) The Victorians
Surveys Victorian literature, including poetry, the novel, and other prose writings, from the Brontës and Charles Dickens to the Pre-Raphaelites and Oscar Wilde. Explores such topics as industrialization and class conflict, the "Woman Question," the British Empire, science and technology, degeneration and apocalypse, mass literacy and popular culture, consumerism, the metropolis vs. the countryside, and visual culture.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: British Literature after 1660

ENGL 3675 (3) Majors Authors in American Literature
Provides an in-depth study of the work of one or two major American authors. Explores the range, influences, and development of a writer over his or her life.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: American Literature

ENGL 3767 (3) Feminist Fictions
Examines a series of literary texts to consider how writers across the world have used fiction to creatively stage and reimagine gender and sexuality. Attends to the formal and narrative techniques by which these texts call attention to the fictionality—and thereby the creative malleability—of gender itself. Some cinematic and performance texts will also be included.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3767
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

ENGL 3796 (3) Queer Theory
Surveys theoretical, critical, and historical writings in the context of lesbian, bisexual, transgender and gay literature. Examines relationships among aesthetic, cultural and political agendas, and literary and visual texts of the 20th century.
Equivalent - Duplicate Degree Credit Not Granted: LGBT 3796
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

ENGL 3856 (1-3) Topics in Genre Studies
Studies special topics in genre studies; specially designed for English majors. Topics vary each semester. May be repeated for a total of 6 credit hours for different topics.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

ENGL 3930 (1-6) Internship
Provides academically supervised opportunity for upper-division students to work in public or private organizations on projects related to students' career goals and to relate classroom theory to practice. Department enforced prerequisite: 3.0 GPA and faculty supervision.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Departmental Category: General Literature and Language

ENGL 3940 (1-3) Service Learning Practicum
Under faculty supervision, students participate in a service project in conjunction with an academic course.
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: General Literature and Language

ENGL 4003 (3) Introduction to Old English
Introduces students to Old English, the ancient ancestor of Modern English (as Latin is the ancestor of Spanish and Italian, distinct from both). Course will focus on reading knowledge through grammar study and translation, and to a lesser extent on pronunciation. Provides basic parsing and translation skills and an introduction to the history, culture, and literature of early medieval Britain. Provides an introduction to grammar and to the history of the English language.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 5003
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: British Literature to 1660

ENGL 4013 (3) Intermediate Old English I
Continues to develop skills in Old English reading and translation. Focuses on shorter canonical texts in verse and prose. Students will produce idiomatic translations for every class, write a midterm exam based on those translations, and write either a final exam or a final paper. Students will also memorize and present a short section of verse in the original language. Graduate students will read and present on secondary scholarship and produce original research.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 5013
Requisites: Requires prerequisite course of ENGL 4003 (minimum grade C).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: British Literature to 1660

ENGL 4018 (3) Literature and Globalization
Studies special topics that focus on transnational and global issues since 1600. Topics vary each semester and may include globalization, cross-cultural exchanges, migration, and the history and legacies of imperialism. Specially designed for English majors. May be repeated for a total of 6 credits for different topics.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Undergraduate Writing

ENGL 4021 (3) Advanced Poetry Workshop
Advanced course in poetry writing.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course ENGL 3021 (minimum grade B). Restricted to Creative Writing minor students or students with a sub plan of Creative Writing.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Undergraduate Writing
ENGL 4026 (3) Special Topics in Genre, Media, and Advanced Writing
Studies theoretical and historical approaches to genre, media, and writing at the advanced level.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Advanced Theory, Genre Studies and Popular Culture

ENGL 4039 (3) Critical Thinking in English Studies
Concerned with developments in the study of literature that have significantly influenced our conception of the theoretical bases for study and expanded our understanding of appropriate subject matter.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite courses of ENGL 2102 and ENGL 2112 (all minimum grade C). Restricted to students with 57-180 credits (Junior or Senior) English (ENGL) or Humanities (HUMN) majors and minors only.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Critical Studies in English

ENGL 4048 (3) Modern British and Irish Novel
Studies major figures and trends in the 20th century. Formerly ENGL 4224.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: British Literature after 1660

ENGL 4051 (3) Advanced Fiction Workshop
Advanced course in fiction writing.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course of ENGL 3051 (minimum grade B). Restricted to Creative Writing minor students or students with a sub plan of Creative Writing.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Undergraduate Writing

ENGL 4071 (3) Screenwriting Workshop
Designed to give students practical criticism of their script writing and technical format requirements. Either stage plays or screenplays are studied, as announced.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course of ENGL 3021 or ENGL 3051 (minimum grade B). Restricted to Creative Writing minor students or students with a sub plan of Creative Writing.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Undergraduate Writing

ENGL 4081 (3) Playwriting Workshop
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Requires prerequisite course of ENGL 3021 or ENGL 3051 (minimum grade B). Restricted to Creative Writing minor students or students with a sub plan of Creative Writing.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Undergraduate Writing

ENGL 4098 (3) Special Topics in the Novel, Post-1900
Explores a special topic in literature written in, or translated into English, post-1900.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Critical Studies in English

ENGL 4113 (3) History and Culture of Medieval England
Explores the major historical, literary, and cultural developments in England from the Anglo-Saxon period through the 15th-century.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Historical Context
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: British Literature to 1660

ENGL 4116 (3) Advanced Topics in Media Studies
Studies specialized topics in the history, theory, and practice of media, such as the history of the book, the theory of digital media, and the theory and practice of multimedia forms. Specially designed for English majors. Topics vary year to year.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Advanced Theory, Genre Studies and Popular Culture

ENGL 4250 (3) Modern and Contemporary Novel
Close study of masterpieces by such novelists as Proust, Joyce, Woolf, Lawrence, Mann, Kafka, and Faulkner.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: General Literature and Language

ENGL 4277 (3) Topics in Women's Literature
Focuses on areas of research interest in the study of women's literature, such as selected themes or critical issues. Students are expected to contribute original research to the topic under consideration.
Equivalent - Duplicate Degree Credit Not Granted: WGST 4277
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Multicultural and Gender Studies

ENGL 4286 (3) Folklore 2
Upper-division studies of folk groups, events, texts, and contexts as they reflect traditional knowing--folk perceptions and teachings about the structure and purpose of the universe.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Advanced Theory, Genre Studies and Popular Culture
ENGL 4287 (3) Special Topics in LGBT Literature
Examines a special topic in LGBT literature, foregrounding an approach that focuses on how same-sex desire is represented in literature. May explore the rhetorical and ideological depiction of masculinity and femininity; literary representations of inversion, bisexuality, and transgenderism; the social construction of homosexuality and heterosexuality. Specific topics vary each semester.
Equivalent - Duplicate Degree Credit Not Granted: LGBT 4287 and WGST 4287
Repeatability: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Multicultural and Gender Studies

ENGL 4368 (3) Modern Drama
Explores continental, British, and American drama since Ibsen.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: General Literature and Language

ENGL 4468 (3) Modern Poetry
Selects works of British and American poets from 1900 to the present.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: General Literature and Language

ENGL 4503 (3) Continental Medieval Literature
Intensive study of the major literary works of the Middle Ages in Europe.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: British Literature to 1660

ENGL 4513 (3) British Medieval Literature
Intensive study of the major literary works of the Middle Ages in Britain.
Repeatability: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: British Literature to 1660

ENGL 4514 (3) Advanced Topics: The Long 18th Century
Covers advanced topics in the Restoration and Eighteenth-century.
Repeatability: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: British Literature after 1660

ENGL 4524 (3) Advanced Topics: Romanticism
Covers advanced topics in British Romanticism. Formerly ENGL 4574.
Repeatability: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Multicultural and Gender Studies
ENGL 4685 (3) Special Topics in American Literature
Explores a special topic in American literature. May be repeated for a
total of 9 units for different topics.
Repeatability: Repeatable for up to 9.00 total credit hours. Allows multiple
enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or
Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: American Literature

ENGL 4693 (3) Advanced Topics in British Literature to 1660
Explores a special topic in medieval or early modern literature. May be
repeated for a total of 9 units for different topics.
Repeatability: Repeatable for up to 9.00 total credit hours. Allows multiple
enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or
Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: British Literature to 1660

ENGL 4697 (3) Special Topics in Multicultural and Ethnic American
Literature
Provides advanced in-depth study of literatures written by ethnic
American authors. Texts may be drawn from a range of African-American,
Chicano/a, Latino/a, Asian American, Native American or Indigenous
literature traditions. Topics vary each semester.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4692
Requisites: Restricted to students with 57-180 credits (Juniors or
Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Multicultural and Gender Studies

ENGL 4717 (3) Native American and Indigenous Studies Capstone
Seminar
Engages a wide range of NAIS methodologies with a series of case
studies. Focios on print, visual, and digital texts encompassing wide
swathe of Eurowestern disciplines, while seeking to recuperate and
restore Indigenous epistemic practices within our scholarship. Refines
students’ skills in intellectual debate in the spirit of shared inquiry and
challenges research and writing skills.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Multicultural and Gender Studies

ENGL 4820 (3) Honors Seminar
Prepares prospective honors students to write honors theses. Focuses on
sharpening the skills needed to write a successful thesis, including
research techniques and the ability to evaluate and respond to secondary
materials. Required for Honors in English Literature.
Requisites: Restricted to students with 57-180 credits (Juniors or
Seniors).
Additional Information: Arts Sciences Honors Course
Departmental Category: General Literature and Language

ENGL 4830 (3) Honors Thesis
Students accepted to English Departmental Honors are enrolled in this
course.
Additional Information: Arts Sciences Honors Course
Departmental Category: General Literature and Language

ENGL 4840 (1-3) Independent Study---Upper Division
Creative writing.
Repeatability: Repeatable for up to 8.00 total credit hours.
Additional Information: Departmental Category: General Literature and
Language

ENGL 4850 (1-3) Independent Study---Upper Division
Literature/language.
Repeatability: Repeatable for up to 8.00 total credit hours.
Additional Information: Departmental Category: General Literature and
Language

ENGL 5000 (3) Introduction to Applied Shakespeare
Provides an introduction to the life, work and world of William
Shakespeare to prepare students for the Applied Shakespeare
Professional Masters Certificate two-week intensive. Students will gain
background in the social, cultural and political context of Renaissance
theater, will be introduced to the conventions of Shakespearean
drama and will explore key concerns impacting our understanding of
Shakespeare’s works. Department consent required.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Graduate Courses

ENGL 5003 (3) Introduction to Old English
Introduces students to Old English, the ancient ancestor of Modern
English (as Latin is the ancestor of Spanish and Italian, distinct from
both). Course will focus on reading knowledge through grammar study
and translation, and to a lesser extent on pronunciation. Provides basic
parsing and translation skills and an introduction to the history, culture,
and literature of early medieval Britain. Provides an introduction to
grammar and to the history of the English language.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 4003

ENGL 5013 (3) Intermediate Old English I
Continues to develop skills in Old English reading and translation.
Focuses on shorter canonical texts in verse and prose. Students will
produce idiomatic translations for every class, write a midterm exam
based on those translations, and write either a final exam or a final paper.
Students will also memorize and present a short section of verse in the
original language. Graduate students will read and present on secondary
scholarship and produce original research.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 4013

ENGL 5019 (3) Survey of Contemporary Literary and Cultural Theory
Introduces a variety of critical and theoretical practices informing
contemporary literary and cultural studies.
Repeatability: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing
(CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5029 (3) British Literature and Culture Before 1800
Introduces graduate level study of medieval and early modern writing
through the long eighteenth century. Emphasizes a wide range of
genera, forms, historical background, and secondary criticism. Cultivates
research skills necessary for advanced graduate study. Topics will vary.
Repeatability: Repeatable for up to 6.00 total credit hours. Allows multiple
enrollment in term.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing
(CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses
ENGL 5059 (3) British Literature and Culture After 1800
Introduces graduate level study of Romantic, Victorian, Modern and Postmodern writing. Emphasizes a wide range of genres, forms, historical background and secondary criticism. Cultivates research skills necessary for advanced graduate study. Topics will vary.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5109 (3) Literature and Culture of the United States
Introduces graduate level study of writing of the United States from its inception to the present. Emphasizes a wide range of genres, forms, historical background, and secondary criticism. Topics will vary.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5139 (3) Global Literature and Culture
Introduces graduate level study of recent writing in English from around the world. Emphasizes a wide range of genres, forms, new media, and secondary criticism. Cultivates research skills necessary for advanced graduate study. Topics will vary.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5169 (3) Multicultural/Postcolonial Studies
Introduces graduate level study of ethnic American and/or postcolonial writing in English, including relevant theoretical discourse. Emphasizes a wide range of genres, forms, historical background, and secondary criticism. Cultivates research skills necessary for advanced graduate study. Topics will vary.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5199 (3) Studies in Special Topics
Introduces graduate level study of writing of the United States from its inception to the present. Emphasizes a wide range of genres, forms, historical background, and secondary criticism. Topics will vary.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5229 (3) Poetry Workshop
Designed to give students time and impetus to generate poetry and discussion of it in an atmosphere at once supportive and critically serious. Enrollment requires admission to the Creative Writing Graduate Program or the instructor’s approval of an application manuscript.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to English Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5239 (3) Fiction Workshop
Designed to give students time and impetus to generate fiction and discussion of it in an atmosphere at once supportive and critically serious. Enrollment requires admission to the Creative Writing Graduate Program or the instructor’s approval of an application manuscript.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5259 (3) Nonfiction Workshop
Designed to give students time and impetus to generate nonfiction and discussion of it in an atmosphere at once supportive and critically serious. Enrollment requires admission to the Creative Writing Graduate Program or the instructor’s approval of an application manuscript.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5269 (3) Publishing Workshop
Provides practical experience in the editorial, design, and business procedures of desktop publishing.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5279 (3) Studies in Poetry
Addresses contemporary poetry, and/or literary works important for contemporary poetry.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5299 (3) Studies in Fiction
Addresses contemporary fiction, and/or literary works important for contemporary fiction.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5309 (3) Playwriting
Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5319 (3) Studies in Literary Movements
Studies styles, trends, innovations and major writers in significant literary movements, particularly those after 1900, such as modernism and postmodernism.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses
ENGL 5459 (3) Introduction to the Profession
Introduces purposes, methods and techniques of professional scholarship in English. Provides an overview of the discipline, including traditional areas of research and recent developments. Teaches students how to use research, bibliographic, and reference tools to prepare papers for conferences and publication. Required of all MA students in English.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5529 (3) Studies in Special Topics 1
Studies special topics that focus on a theme, genre, or theoretical issue not limited to a specific period or national tradition. Topics vary each semester.
Equivalent - Duplicate Degree Credit Not Granted: IAWP 6100
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5549 (3) Studies in Special Topics 2
Studies special topics that focus on a theme, genre, or theoretical issue not limited to a specific period or national tradition. Topics vary each semester.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5559 (3) Studies in Special Topics 3
Studies special topics that focus on a theme, genre, or theoretical issue not limited to a specific period or national tradition. Topics vary each semester.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 5849 (1-6) Independent Study (Graduate Level 1)
Independent investigation of topics of specific interest to individual students. Students wishing to enroll in independent study must petition the Associate Chair for Graduate Studies prior to the beginning of the semester.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 6949 (1) Master's Candidate for Degree
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Graduate Courses

ENGL 6959 (1-9) Master's Thesis
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 7019 (3) Advanced British Literature and Culture Before 1800
Studies special topics in medieval and early modern writing through the long 18th Century. Topics will vary.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 7059 (3) Advanced British Literature and Culture After 1800
Studies special topics in romantic, Victorian, modern and postmodern writing. Topics will vary.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 7119 (3) Advanced Literature and Culture of the United States
Studies special topics in writing of the United States.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 7149 (3) Advanced Multicultural/Postcolonial Studies
Studies special topics in ethnic American and/or postcolonial writing in English, including relevant theoretical discourses. Topics will vary.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 7489 (3) Advanced Special Topics
Studies special topics in theory, culture, and literature of any period. Topics will vary.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to English (ENGL) and English Lit- Creative Writing (CRWR) graduate students only.
Additional Information: Departmental Category: Graduate Courses

ENGL 7849 (1-3) Independent Study (Graduate Level 2)
Repeatable: Repeatable for up to 6.00 total credit hours.
Additional Information: Departmental Category: Graduate Courses

ENGL 8999 (1-10) Doctoral Dissertation
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 30.00 total credit hours.
Additional Information: Departmental Category: Graduate Courses

English as a Second Language (ESLG) Courses

ESLG 1130 (2) Pronunciation for International Graduate Students
Designed for international graduate students who want to polish and refine their spoken English skills. The course emphasizes producing increasingly accurate English stress, rhythm and intonation, and vowels and consonants. Students participate in listening and speaking activities targeting specific pronunciation features, prepare recordings, and deliver short presentations related to their field. Students receive weekly individualized feedback.
Requisites: Restricted to International Graduate students.
ESLG 1140 (2) Public Speaking for International Students
Designed for international graduate students to improve oral communication skills for effective academic, professional, and social interactions. Specific attention is given to presenting, explaining and clarifying ideas, negotiating, interrupting, hedging, and responding to questions. Students deliver short formal presentations and impromptu speeches, and lead and participate in group discussions. Students improve active listening skills, non-verbal communication and English pronunciation.
Requisites: Restricted to International Graduate students.

ESLG 1210 (2) Academic Writing for International Graduate Students
Designed for international graduate students who would benefit from academic and professional writing instruction and practice. This course addresses development of paragraphs and full-length papers, reports and proposals. Focus areas include organization and style, grammar and vocabulary, and using source material effectively. Assignments are customized to students’ disciplines with extensive instructor feedback to improve fluency, clarity, and accuracy in writing.
Requisites: Restricted to International Graduate students.

ESLG 1222 (2) Advanced Written Composition for Foreign Students
Continued practice in academic writing, including incorporating the ideas of others and citing sources appropriately. Extensive instructor feedback provided. Preparation, writing, and revising of a full-length academic term/research paper or work on chapters for a master’s thesis or doctoral dissertation. Does not fulfill humanities or major requirements.
Recommended: Prerequisite ESLG 1210.

ESLG 1410 (3) Integrated Academic English Skills for Undergraduate International Students
Designed for international undergraduate students who want to improve oral and written English communication skills. Students build confidence and accuracy through interactive reading, writing, listening and speaking activities. Students gain insight on U.S. academic culture and conventions by giving short presentations, collaborating on team projects, and writing academic papers using source materials. Course also emphasizes organization, grammar, and vocabulary.
Requisites: Restricted to International Undergraduate students.

ESBM 3100 (3) Introduction to Entrepreneurship
Introduces non-business students to the multiple facets of entrepreneurship and the entrepreneurial process. Entrepreneurship is a process of fundamental transformation: from innovative idea to enterprise and from enterprise to valuethus, entrepreneurship is more than a business practice. Innovation is central to this process and students will be challenged to develop creative solutions to a problem or need. Degree credit not granted for Business majors.
Requisites: Restricted to non-Business majors with 60-180 units completed.

ESBM 3700 (3) Entrepreneurial Environments
Introduces entrepreneurship. Addresses opportunity recognition, target markets, industry analysis, business model identification, sources of funding, managing rapid growth and writing feasibility studies. Examines alternative forms of entrepreneurship such as franchising, corporate entrepreneurship, family business and social entrepreneurship.
Requisites: Requires prerequisite courses of BCOR 2001 or BCOR 2204 and BASE 2104 (all minimum grade D-). Restricted to Business (BUSN) majors with 52-180 units completed.

ESBM 4570 (3) Entrepreneurial Finance
Focuses on the financial concepts, issues, methods and industry practices relevant to entrepreneurial decision makers. Addresses a variety of topics including financial valuation, various sources of funds, structures and legal issues in arranging financing, the private and public venture capital markets, and preparation for, and execution of, an initial public securities offering. Provides an understanding of the segments of the capital markets specializing in start-ups and growth financing.
Requisites: Requires a prerequisite course of BASE 2104 (minimum grade D-). Restricted to Business (BUSN) majors with 52-180 units completed.

ESBM 4820 (3) Special Topics in Entrepreneurship
ESBM 4825 (3) Experimental Seminar
Offered irregularly to provide opportunity for investigation of new frontiers in Entrepreneurship and Small Business Management.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

ESBM 4826 (3) Exp. Sem-Social Entrepreneurship: Designing a Better World
See the future through the eyes of entrepreneurs who are addressing global and social environmental problems such as poverty and deforestation. Can the social ventures they create to solve these problems survive over time and will they achieve the impact they seek? We will meet some of these social entrepreneurs and, in teams, write case studies to tell their stories.
Equivalent - Duplicate Degree Credit Not Granted: CESR 4826
Requisites: Restricted to non-Business majors with 60-180 units completed.

ESBM 4830 (3) New Venture Creation
This course content is relevant to the student who wants the entrepreneurial toolkit, start a new venture, is interested in working in the startup world, would like to effectively evaluate the probability of success for a new venture and/or develop a methodology for entrepreneurial thinking that provides benefits for big and small ventures. The final deliverable is a professional pitch to a group of seasoned investors and the submission of a complete business plan.
Equivalent - Duplicate Degree Credit Not Granted: EMEN 4825
Requisites: Requires a prerequisite course of ESBM 3700 (minimum grade D-). Restricted to Business (BUSN) majors with 52-180 units completed.

ESBM 4900 (1-3) Projects in Entrepreneurial Companies
Complete projects in preselected entrepreneurial companies. Department consent required.
Environment and Sustainability (ENST)

Courses

ENST 4150 (3) Energy Policy Project
Provides students with an opportunity to apply their knowledge of energy technologies, systems and policies to current issues. Specific topical coverage varies by semester. Examples include natural gas fracking, automotive fuel economy standards and natural gas exports. Students work in teams to research, prepare and present a detailed and specific energy project proposal. Intended for Renewable and Sustainable Energy Certificate students. Formerly RSEI 4150.
Requisites: Restricted to Renewable Sustainable Energy (RASE-CERU) students only.
Recommended: Prerequisites ENVS/PHYS 3070 and ENVS 3621.

ENST 5100 (1) Renewable and Sustainable Energy Seminar
Examines a wide range of energy issues in seminar format. Students attend energy-related seminars and critique/evaluate the presented material. Open to graduate students from all disciplines. Formerly RSEI 5100.

ENST 5200 (3) Energy Topics Course
Covers timely topics related to renewable and sustainable energy. Specific offerings vary by semester. Formerly RSEI 5200.

Environmental Design (ENVD)

Courses

ENVD 1001 (1) ENVD First-Year Seminar
Transitions first-year ENVD students into college through the process of discovering their path to educational success. Provide opportunities to facilitate learning through peer support groups and curricular integration with the ENVD core classes.
Requisites: Restricted to Environmental Design (ENVD) major or minor students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Social Factors

ENVD 1002 (1) Technology 1: Applications for Environmental Design
Introduces technological competencies to support studio work including design representation and presentation. Students develop fundamental competencies in sketching, graphic design, file management and 3D modeling.
Requisites: Restricted to Environmental Design (ENVD) majors only.

ENVD 1004 (3) Introduction to Environmental Design
Introduces methods, principles and philosophies that guide environmental design. Explores ways of thinking about, and accomplishing, the act of design. Students contemplate the processes and motivations behind design decisions including discussions of environmental sustainability and social responsibility.
Requisites: Restricted to Environmental Design (ENVD) majors only.
Additional Information: Departmental Category: History and Theory

ENVD 1010 (3) Studio 1: Introduction to Environmental Products of Design
The first of four introductory studios introduces students to concepts and techniques related to the design of products at a human scale. In an immersive project-based studio environment students develop the foundation of design communication and thinking through a series of hands-on projects with physical outcomes.
Requisites: Restricted to Program in Environmental Design major or minor students only.
Additional Information: Departmental Category: History and Theory

ENVD 1012 (3) Technology 2: Visual Communications
Explores the basic written and graphical communication skills necessary for environmental design through typography, composition, visual hierarchy, color theory, and descriptive writing. Students continue to develop a variety of digital tools used in written and graphic communications building on the skills introduced in Technology 1.
Requisites: Requires prerequisite course of ENVD 1002 (minimum grade C). Restricted to Environmental Design majors only.
Additional Information: Departmental Category: Methods and Techniques

ENVD 1020 (3) Studio 1: Introduction to Architecture
The second of four introductory studios introduces students to strategies and techniques of architectural design and communication in a hands-on studio environment. Students design a small-scale architectural project that responds to environmental, contextual and programmatic needs while developing the necessary skills for iterative design processes.
Requisites: Restricted to Environmental Design (ENVD) majors only.

ENVD 1022 (1) Technology 3: Intermediate Applications for Environmental Design
Building on the technological competencies developed in Technology 1 and 2, students explore more advanced competencies in graphic design, 3D modeling, and diagramming.
Requisites: Restricted to Environmental Design (ARPLU) majors only.

ENVD 1024 (3) History of the Built Environment
Develops design appreciation through the historical narratives that link people and the built environment. Explores traditions that demonstrate how design has evolved over time to respond to cultural and environmental conditions.
Requisites: Restricted to Program in Environmental Design major or minor students or Architectural Engineering (AREN) seniors.

ENVD 1030 (3) Studio 1: Introduction to Landscape Architecture
The third of four introductory studios exposes students to concepts and strategies inherent to the practice of landscape architecture. Students analyze and design ecological related systems within an urban context in this immersive studio environment.
Requisites: Restricted to Environmental Design (ENVD) major or minor students only.

ENVD 1040 (3) Studio 1: Introduction to Planning and Urban Design
The fourth of four introductory studios in which students learn concepts and strategies related to urban planning and design. Students collaboratively develop a design solution to a small-scale problem within an urban fabric using basic skills of analysis and design iteration.
Requisites: Restricted to Environmental Design (ENVD) majors only.
ENVD 1052 (3) Design and Communication 1
Using both lectures and drawing exercises, this class extends understandings of the representational conventions used by the design professions through its introduction to the possibilities offered by emerging digital techniques for the depiction of designed artifacts and environments, allowing students to extend and enhance their understandings of advanced practices for design visualization, representation and communication.
Additional Information: Departmental Category: Methods and Techniques

ENVD 1102 (4) Design and Communication 2
Using both lectures and drawing exercises, this class extends understandings of the representational conventions used by the design professions through its introduction to the possibilities offered by traditional techniques for the advanced practices for design visualization, representation, and communication.
Requisites: Requires prerequisite course of ENVD 1052 (minimum grade C-). Restricted to Program in Environmental Design major or minor students only.
Recommended: Corequisites ENVD 1104 and ENVD 2003.
Additional Information: Departmental Category: Methods and Techniques

ENVD 1104 (2) Introduction to Environmental Design Methods
Explores the forces and conditions that interact to shape the designed environment. It does so through a lecture sequence and parallel set of design exercises introducing students to the theory and practice of environmental design. It develops student understandings of the central role design thinking plays as the unique process used to effect appropriate change in the designed environment.
Requisites: Restricted to Environmental Design (ENVD) major or minor students only.
Recommended: Corequisites ENVD 1102 and ENVD 2003.
Additional Information: Departmental Category: History and Theory

ENVD 1110 (3) Studio 2: Fundamentals of Environmental Products of Design
Building on the foundation introduced in EPoD Studio 1, this studio introduces students to more advanced methodologies and techniques related to the design of products at a human scale while considering the interdisciplinary nature of the other specializations. Using complementary skills in 3D modeling, drawing, diagramming, and through physical making and fabrication, students explore imaginative and innovative design solutions of small-scale products.
Requisites: Restricted to Environmental Design (ENVD) major or minor students only.

ENVD 1120 (3) Studio 2: Fundamentals of Architecture
Focusing on the languages of design, as well as on traditional and digital methods of visualizing architectural ideas and forms, this course builds on the skills learned in Studio 1 and begins incorporating the dynamic forces that shape our buildings.
Requisites: Restricted to Environmental Design (ENVD) major or minor students only.

ENVD 1130 (3) Studio 2: Fundamentals of Landscape Architecture
Building on skills learned from the introductory studio, this course expands the skills and knowledge needed for the practice of landscape architecture. With a focus on resilient design and an exploration through multiple scales, students design ecological systems in an urban context.
Requisites: Restricted to Environmental Design (ENVD) major or minor students only.

ENVD 1140 (3) Studio 2: Fundamentals of Planning and Urban Design
Through a small-scale urban planning and design project, students explore solutions to challenges in dynamic urban systems. Builds on knowledge and skills gained in the introductory studios to explore the human and environmental dimensions of intertwined systems within the built environment.
Requisites: Restricted to Environmental Design (ENVD) major or minor students only.

ENVD 1150 (3) First Year Writing for Environmental Design
Introduces students to fundamentals of effective academic and professional communication with an emphasis in Environmental Design. Projects are designed to develop strong written and oral communication skills as well as building knowledge of research techniques, while classroom activities and discussions challenge students to become more critical and flexible thinkers.
Requisites: Restricted to Environmental Design (ENVD) majors only.

ENVD 1976 (1) Colloquium - Exploring Careers, Research and Practice
Inspiration in the design profession can be found through a series of faculty and professional lectures. Students develop an understanding of the breadth of environmental design careers, research and practice.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to Environmental Design (ENVD) majors only.

ENVD 2001 (3) Human Behavior and Design
Examines reciprocal relationships between people and the built and natural environments and the ways that human well-being is impacted by the built environment. Traces major issues and approaches in design research to understand how people are influenced by the environment and how they can create healthy, just, and livable places.
Requisites: Restricted to Environmental Design (ENVD) majors only.
Additional Information: Departmental Category: Social Factors

ENVD 2003 (3) Ecological Systems in Design
Introduces the essential principles and concepts of ecology as they relate to the design and understanding of the built environment. Students explore interactions between people and nature, the design of resilient ecological systems and ways that the built world is influenced by its environment.
Requisites: Restricted to Environmental Design (ENVD) majors only.
Additional Information: Departmental Category: Physical Factors

ENVD 2101 (3) Planning and Implementation: the Context of Design
Explores the regulatory and procedural context in which design decisions are made and implemented. Includes an examination of finance, policy, and development procedures necessary in bringing conceptual designs to life.
Requisites: Restricted to Environmental Design (ENVD) majors only.

ENVD 2120 (6) Environmental Design Studio 1
Exposes students to a sequence of design investigations that lead to the development of design concepts for critical evaluation and discussion. The intent of this introductory design studio is to expose students to the fundamental design practices that are common to the disciplines of environmental design, planning, urban design and landscape design - that share the responsibility for shaping the designed environment.
Requisites: Requires prerequisite course of ENVD 1102 (minimum grade C-). Restricted to Program in Environmental Design major or minor students only.
Recommended: Corequisite ENVD 3115.
Additional Information: Departmental Category: Studios
ENVD 2130 (6) Environmental Design Studio 2
Exposes students to a sequence of design investigations that lead to the
development of design concepts for critical evaluation and discussion.
The intent of this introductory design studio is to expose students to
the fundamental design practices that are common to the disciplines of
architecture, urban design and landscape design - disciplines that share
the responsibility for shaping the designed environment.
Requisites: Requires prerequisite course of ENVD 2120 (minimum grade
C-). Restricted to Program in Environmental Design major or minor
students only.
Recommended: Corequisite ENVD 3003.
Additional Information: Departmental Category: Studios

ENVD 2352 (3) Beginning Digital Applications
Foundation level computing skills for design analytics and
representation.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple
enrollment in term.
Requisites: Restricted to Program in Environmental Design major or
minor students only.

ENVD 3003 (3) Site Planning
Introduces the site planning process including: site analysis and its
relationship to building program and site concept, and preparation of site
plans. Emphasis is placed on the planning of the physical site through
a thorough understanding of process, land use, site constraints and
synthesis of ecological, functional and aesthetic considerations in the
site planning process.
Recommended: Corequisite ENVD 2130.
Additional Information: Departmental Category: Physical Factors

ENVD 3009 (1-6) Special Topics in Environmental Design
Provides a seminar or design lab on special issues in environmental
design, including study abroad. Variable topic class.
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple
enrollment in term.
Recommended: Prerequisites ENVD 1004 and ENVD 1052.
Additional Information: Departmental Category: Miscellaneous

ENVD 3052 (3) Introduction to Computer Methods in Environmental
Design
Surveys existing and emerging computer methods used in the
environmental design professions, with an introduction to computer
programming. Open to nonmajors with instructor consent.
Additional Information: Departmental Category: Miscellaneous

ENVD 3100 (6) Environmental Design Studio 3
Exposes students to a sequence of design investigations that lead to the
development of design concepts for critical evaluation and discussion.
The intent of this introductory design studio is to expose students to
the fundamental design practices that are common to the disciplines of
environmental design, planning, urban design and landscape design - that
share the responsibility for shaping the designed environment.
Requisites: Requires prerequisite course of ENVD 2120 (minimum grade
C-). Restricted to Program in Environmental Design major or minor
students only.
Recommended: Corequisite ENVD 3122.
Additional Information: Departmental Category: Studios

ENVD 3114 (3) History and Theory of Environmental Design at the Small
Scale: Buildings
Focusing on buildings, this class surveys the built environment from the
beginning of time through the present day. Emphasizing developments
in the western world, it develops students' recognition of major styles,
influential people, and drivers of building form.
Additional Information: Departmental Category: History and Theory

ENVD 3115 (3) Introduction to Building Materials and Systems
Surveys building methods, materials and assemblies from the designer's
perspective.
Recommended: Corequisite ENVD 2120.
Additional Information: Departmental Category: Technology and Practice

ENVD 3122 (3) Research Issues and Methods in Design and Planning
Explores topics of current interest in planning. Looks at the development
and social consequences of the neighborhood movement, forms of
municipal and regional governments, regional settlement patterns, and
new communities. Introduces selected methods from the social sciences
used by planners and urban designers.
Recommended: Corequisite ENVD 3100.
Additional Information: Departmental Category: Methods and Techniques

ENVD 3134 (3) History and Theory of Environmental Design at the
Medium Scale: Precincts
Focuses on design projects not in a building envelope, including
landscapes, public and private urban spaces, complexes and similarly
scaled design projects. Aspects of architectural and planning thinking are
interwoven in a landscape concentration.
Additional Information: Departmental Category: History and Theory

ENVD 3144 (3) History and Theory of ENVD: Systems
Provides an introduction to the history of urban planning and design
practices and processes. Examines the history of city-building using
examples drawn from the United States as well as other countries.
Emphasis is on developing analytical methods and a critical approach in
discussing and evaluating historical and contemporary planning issues,
mechanisms and cases.
Additional Information: Departmental Category: History and Theory

ENVD 3150 (3) Project Writing in ENVD
Building on First Year Writing, this class prepares students for the
kinds of projects they will undertake as design professionals. Enriches
students' awareness of writing as a life-long tool and communicates
the importance of writing well. Emphasizes effective written and oral
communication skills. Projects explore the many ways in which writing is
a powerful tool in the world of design.
Requisites: Restricted to Environmental Design (ENVD) majors only.

ENVD 3152 (3) Introduction to Computer Graphics Applications
Explores principles and uses of computer graphics in design. Topics
include creation and modification of complex two- and three-dimensional
objects; orthographic and perspective views; use of color; input using
mouse and digitizer; output using screen, plotter, matrix printer, and
slides; automated aids for form generation and manipulation; and
analysis of current and future trends of computer usage for design.
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple
enrollment in term.
Additional Information: Departmental Category: Methods and Techniques
ENVD 3200 (1-6) Advanced ENVD Studio
Design studio dealing with problems at an intermediate level of complexity. Emphasis is on the interaction of form, use, and multiple values and technologies in conjunction with issues and techniques drawn from other content area courses of the curriculum. 
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Program in Environmental Design major or minor students only.
Recommended: Prerequisite ENVD 2130.
Additional Information: Departmental Category: Studios

ENVD 3212 (3) Color Theory
Illustrates color media techniques for the preparation, composition, and presentation of landscape and built environment drawings.
Additional Information: Departmental Category: Methods and Techniques

ENVD 3252 (3) Computer Graphic Programming
Provides an introductory computer programming course designed to teach the capabilities of a computer in providing graphic representations of environments, including buildings. Open to nonmajors.
Additional Information: Departmental Category: Methods and Techniques

ENVD 3300 (3-6) Special Topics: Intermediate Design Lab
Design lab exploring new and emerging themes in environmental design. 
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Program in Environmental Design major or minor students only.
Additional Information: Departmental Category: Studios

ENVD 3352 (3) Intermediate Digital Applications
Intermediate level computing skills for design analytics and representation. 
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to Environmental Design (ENVD) majors only.
Additional Information: Departmental Category: Studios

ENVD 3909 (1-6) Independent Study
By special arrangement with instructor. 
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of ENVD 3100 (minimum grade C-).
Recommended: Prerequisite 3.00 GPA.
Additional Information: Departmental Category: Miscellaneous

ENVD 3919 (1-6) Teaching Assistant
By special arrangement with instructor. 
Repeatable: Repeatable for up to 99.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 3.00 GPA.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Miscellaneous

ENVD 3929 (1) Peer Leadership and Mentorship and Transitioning Students
Designed to explore the student transition to university life and engage students in active leadership and mentoring capacity-building activities. Examines the role peers play in leading students through transitional development. Students will learn the theoretical basis for understanding student transition and develop their mentoring capacities as well as examine personal identity and values and its intersection with leadership and mentorship.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to students with 27-180 credits (Sophomore, Junior, or Senior) Program in Environmental Design majors only.
Additional Information: Departmental Category: Miscellaneous

ENVD 3939 (3) Exploratory Internship
Offers professional experiences allowing students to discover a variety of design-related environments such as community engagement, nonprofit work or assisting research. In addition to the internship experience, students attend four classroom sessions providing professional development exercises.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of ENVD 1102 (minimum grade C-). Restricted to students with 27-180 credits (Sophomore, Junior, or Senior) Program in Environmental Design majors only.
Recommended: Prerequisite 2.00 GPA.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

ENVD 3972 (3) Advanced Writing in Environmental Design
Prepares students for researching, planning, and writing a Senior Honors thesis and for professional life. Enriches students' awareness of writing as a life-long tool and communicates the importance of writing well. Emphasizes clear, persuasive, and effective written and oral communication skills. Projects explore the many ways in which writing is a powerful tool in the world of design. Environmental Design majors only.
Requisites: Restricted to Environmental Design (ENVD) majors. Must have 57 credit hours and a cumulative GPA of 3.0 or higher.
Grading Basis: Letter Grade

ENVD 4009 (1-6) Special Topics in Environmental Design
Provides a seminar or design lab on special issues in environmental design, including study abroad. Variable topics. 
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite ENVD 2120.
Additional Information: Departmental Category: Miscellaneous

ENVD 4023 (3) Environmental Impact Assessment
Provides a field-oriented seminar in current environmental impact controversies. Gives attention to history, theory, and application of impact analysis at state levels for designers, land-use planners, and others involved in resource decision making. By instructor consent, open to nonmajors on a space available basis. 
Additional Information: Departmental Category: Physical Factors

ENVD 4035 (3) Solar and Sustainable Design
Introduces aspects of solar technology relevant to the environmental design professions. Includes readings and lectures on the nature of energy limitations, energy needs, and the potential role of solar energy in meeting these needs.
Additional Information: Departmental Category: Technology and Practice
ENVD 4052 (3) Digital Presentation and Portfolio
Introductory course creating interactive web sites. Covers use of Hypertext Markup Language (HTML) and Flash to create linked pages containing text, images animations, menus, and buttons. Covers principles of site navigation, page layout, and graphic design for designers and planners.
Additional Information: Departmental Category: Methods and Techniques

ENVD 4100 (3-6) Advanced Design Lab 1
Design lab exploring new and emerging themes in design.
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of ENVD 3300 (minimum grade C-).
Additional Information: Departmental Category: Studios

ENVD 4112 (3) Architectural Graphics 1
Illustrates techniques of graphics communication and presentation for architectural design. Includes advanced delineation and use of color.
Additional Information: Departmental Category: Methods and Techniques

ENVD 4122 (3) Digital Photo for Designers
Explores digital photographic workflow from capture to exhibition. Students gain the ability to document their projects and utilize photography as a means of creative expression. Topics include: using DSLRs, Adobe Lightroom, retouching with Adobe Photoshop, time-lapse photography, Adobe Premier, professional printing, landscape and architectural photography, sharing work through blogs and social media, and submitting work for publication and exhibition.
Additional Information: Departmental Category: Methods and Techniques

ENVD 4152 (3) Computer Graphic Applications
Introduces the mechanics of entering 2-D images and 3-D objects into the computer. Once entered, graphics are interactively rotated in space, walked through, and displayed in perspective from any position. Also covers the mechanics of other computer programs allowing additional manipulation of images and objects.
Additional Information: Departmental Category: Methods and Techniques

ENVD 4212 (3) Architectural Graphics 2
Covers development of an architectural set of construction documents combined with job administration, field observation, and guest speakers from related construction and architectural disciplines.
Additional Information: Departmental Category: Methods and Techniques

ENVD 4300 (3-6) Advanced Design Lab 2
Design lab exploring new and emerging themes in design.
Repeatable: Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of ENVD 4100 (minimum grade C-). Restricted to Program in Environmental Design major or minor students only.
Additional Information: Departmental Category: Studios

ENVD 4311 (3) Housing Policies and Practices
A seminar providing students with a descriptive knowledge and analytical understanding of the use and development of residential settings in different political economies, globally divided into advanced capitalist nations, collectivist economies, and the third world.
Additional Information: Departmental Category: Social Factors

ENVD 4322 (1-6) Special Topics: Graphics
Provides an advanced seminar on special issues in design communications. May be repeated for credit by petition.
Repeatable: Repeatable for up to 99.00 total credit hours. Allows multiple enrollment in term.

ENVD 4340 (4-6) Landscape Design Studio
Studio in landscape design.
Requisites: Requires prerequisite course of ENVD 3300 (minimum grade C-). Restricted to Program in Environmental Design major or minor students only.
Additional Information: Departmental Category: Studios

ENVD 4352 (1-6) Special Topics: Computer Methods
Topics include animation and environmental simulation, computational methods of technical evaluation and optimization, and computational mapping and analysis. May be repeated for credit by petition.
Repeatable: Repeatable for up to 99.00 total credit hours. Allows multiple enrollment in term.

ENVD 4361 (1-6) Special Topics: Social Factors in Design
Addresses variable topics in the relationship of human experience and behavior to the built environment, e.g., social research methods in environmental design.
Repeatable: Repeatable for up to 99.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Environmental Design (ARPLU) majors only.
Additional Information: Departmental Category: Social Factors

ENVD 4363 (1-6) Special Topics: Physical Factors in Environmental Design
Includes such topics as appropriate technology, public policy and natural hazards, organization of the designing and building process, and physical elements of urban development.
Repeatable: Repeatable for up to 99.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to Environmental Design (ARPLU) majors only.
Additional Information: Departmental Category: Physical Factors

ENVD 4364 (1-6) Special Topics: History and Historiography of Environmental Design
Provides an advanced seminar on history and historiography of environmental design, e.g., American dwellings. May be repeated for credit by petition.
Repeatable: Repeatable for up to 99.00 total credit hours. Allows multiple enrollment in term.

ENVD 4365 (1-6) Special Topics: Technology and Practice
Provides an advanced seminar on new technologies and issues of professional practice in the environmental design professions.
Repeatable: Repeatable for up to 99.00 total credit hours. Allows multiple enrollment in term.

ENVD 4420 (3) Senior Capstone Seminar
Advanced seminar focuses on theoretical concerns and practical issues inherent in environmental design and planning. Views concerns and issues in terms of setting, processes, and planning and design outcomes. Provides a critical synthesis of the inherently interdisciplinary nature of planning and design education.
Requisites: Restricted to Program in Environmental Design major or minor students only.
Additional Information: Departmental Category: Studios
ENVD 4440 (6) Landscape Design Studio 2
A preprofessional studio in landscape architecture.
Requisites: Requires prerequisite course of ENVD 4340 (minimum grade C-).
Additional Information: Departmental Category: Studios

ENVD 4764 (1-6) Special Topics: Theory and Criticism in Environmental Design
Provides an advanced seminar on theory and criticism in environmental design, e.g., architecture now and introduction to design theory and criticism. May be repeated for credit by petition.
Repeatable: Repeatable for up to 99.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: History and Theory

ENVD 4794 (3) History of Urban Design and Planning
Examines history of European and American planning and urban design in the late 19th and 20th centuries.
Requisites: Restricted to Program in Environmental Design major or minor students only.
Additional Information: Departmental Category: History and Theory

ENVD 4909 (1-6) Independent Study
By special arrangement with instructor.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of ENVD 3100 (minimum grade C-).
Recommended: Prerequisite 3.00 GPA.
Additional Information: Departmental Category: Miscellaneous

ENVD 4919 (1-6) Teaching Assistant
By special arrangement with instructor.
Repeatable: Repeatable for up to 99.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of ENVD 3100 (minimum grade C-).
Recommended: Prerequisite 3.00 GPA.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Miscellaneous

ENVD 4929 (1-6) Research Assistant
By special arrangement with instructor.
Repeatable: Repeatable for up to 99.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires prerequisite course of ENVD 3100 (minimum grade C-).
Recommended: Prerequisite 3.00 GPA.
Additional Information: Departmental Category: Miscellaneous

ENVD 4939 (3) Professional Design Internship
Allows students to develop design and professional skills outside of the curriculum while working for an architecture, landscape architecture or planning firm. In addition to the internship experience, students attend four classroom sessions providing professional development exercises.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of ENVD 3100 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Program in Environmental Design majors only.
Recommended: Prerequisite 3.00 GPA.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

ENVD 4972 (1-3) Honors Research Methods and Thesis Preparation
To prepare students for undertaking an independent research or design project in Environmental Design, this asks students to engage with existing literature in the field. Students will understand how research and design projects are conducted, and how their own work fits within a long tradition of scholarship. Department consent required.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

ENVD 4979 (1-3) Honors Thesis
Working with an advisor, students prepare, complete, and defend an honors thesis project, either written or creative.
Repeatable: Repeatable for up to 3.00 total credit hours.
Requisites: Restricted to students with 57-86 credits (Junior).
Grading Basis: Letter Grade
Additional Information: Departmental Category: Miscellaneous

ENVD 5346 (1-6) Spec Topics: Environmental Design
Repeatable: Repeatable for up to 99.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Miscellaneous

ENVD 7909 (1-6) Independent Study
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Additional Information: Departmental Category: Miscellaneous

Environmental Engineering (EVEN) Courses

EVEN 1000 (1) Introduction to Environmental Engineering
Introduces first-year students to the environmental engineering program from an academic and a career perspective. Covers air quality, applied ecology, chemical processing, energy, engineering for developing communities, environmental remediation, and water resources and treatment. Includes reading and writing on the history of environmental engineering, major environmental issues, and professional ethics.
Requisites: Restricted to students with 0-60 units completed. Restricted to Environmental Engineering (EVEN) majors only.

EVEN 1001 (3) Environmental Engineering 101: An Introduction to Pollution Science
Surveys the science and engineering needed to understand the environmental and energy challenges which face urbanizing society: air and water pollution, climate change, and mining. Introduces how environmental engineers leverage basic science concepts to reduce pollution and optimize energy use. Analyzes how the mainstream media presents the environmental science of climate change and modern environmental disasters.

EVEN 2840 (1-3) Independent Study: General Topics
General topics relating to environmental engineering. One-on-one assistance with an instructor.
EVEN 3012 (3) Environmental Engineering Thermodynamics
Introduces students to fundamentals of thermodynamics. Includes focused coverage of the laws of thermodynamics, system energy balances, state properties (internal energy, enthalpy, entropy, etc.) and property estimation for ideal gases and steam. Additionally, this course will introduce the following concepts: thermodynamic cycles, chemical reaction thermodynamics, psychrometrics, process devices (pumps, heat exchangers, etc.) and reversibility.
Requisites: Requires prerequisite courses of PHYS 1110 and APPM 1360 and CHEM 1211 (all minimum grade C-).
Grading Basis: Letter Grade
EVEN 3550 (3) Sustainability Principles for Engineers
An introduction to sustainability principles in the field of environmental engineering. Students will apply these principles to engineering problems in order to evaluate the environmental, economic and social implications of engineering and design decisions. Topics include definitions of sustainability, main engineering sustainability challenges (e.g., water, climate and materials), pollution generation and prevention and sustainability assessment tools.
Requisites: Requires a corequisite course of CVEN 3414. Restricted to Environmental Engineering (EVEN) majors only.
Grading Basis: Letter Grade
EVEN 4100 (3) Environmental Sampling and Analysis
Introduces students to techniques for characterization of surface water, subsurface water, soils and sediments, and air and planning of sampling and analysis efforts. Laboratories include stream sampling, drilling, monitoring well installation, water level, slug tests, air sampling.
Requisites: Requires prerequisite courses of CVEN 4404 and CVEN 4424 (all minimum grade C-). Restricted to Environmental Engineering (EVEN) majors only.
EVEN 4404 (3) Water Chemistry
Introduces chemical fundamentals of inorganic aqueous compounds and contaminants in lecture and laboratory. Lecture topics include thermodynamics and kinetics of acids and base reactions, carbonate chemistry, air-water exchange, precipitation, dissolution, complexation, oxidation-reduction and sorption.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4404
Requisites: Restricted to Civil (CVEN) or Environmental (EVEN) or General (GEEN) Engineering majors only
EVEN 4414 (1) Water Chemistry Laboratory
Reinforces chemical fundamentals of inorganic aqueous compounds and contaminants from CVEN/EVEN 4404 in laboratory experiments and reports. Topics include acids and bases, carbonate chemistry (alkalinity) and other water chemistry characteristics (hardness, dissolved oxygen); precipitation, complexation and oxidation-reduction reactions; and laboratory techniques and reporting.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4414
Requisites: Requires prerequisite courses of CHEN 1211 or CHEM 1113 and CHEM 1133 (all minimum grade C-). Requires corequisite course of EVEN 4404. Restricted to Civil (CVEN) or Environmental (EVEN) Engineering majors only.
EVEN 4424 (3) Environmental Organic Chemistry
Examines the fundamental physical and chemical transformations affecting the fate and transport of organic contaminants in natural and treated waters. Emphasizes quantitative approach to solubility, vapor pressure, air-water exchange, sorption, hydrolysis and redox reactions, and photodegradation.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4424
Requisites: Requires prerequisite course of CHEN 1211 or CHEM 1113 or CHEM 1271 (minimum grade C-).
Grading Basis: Letter Grade
EVEN 4434 (4) Environmental Engineering Design
Examines the design of facilities for the treatment of municipal water and wastewater, hazardous industrial waste, contaminated environmental sites and sustainable sanitation in developing countries. Economic, societal and site specific criteria impacting designs are emphasized.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4434
Requisites: Requires prerequisite course of CVEN 3414 (minimum grade C-).
Grading Basis: Letter Grade
EVEN 4464 (3) Environmental Engineering Processes
Develops and utilizes analytic solutions for environmental process models that can be used in a) reactor design for processes used in the treatment of water, wastewater and hazardous waste and b) process analysis of natural systems, such as streams and groundwater flow. Models facilitate the tracking of contaminants in engineered and natural systems.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4464 and CVEN 5464
Requisites: Requires prerequisite courses of CVEN 3313 or CHEN 3200 or GEEN 3853 or MCEN 3021 or AREN 2120 and CVEN 3414 (all minimum grade C-).
Grading Basis: Letter Grade
EVEN 4484 (3) Introduction to Environmental Microbiology
Surveys microbiology topics germane to modern civil and environmental engineering. Provides fundamentals needed to understand microbial processes and ecology in engineered and natural systems and reviews applications emphasizing the interface between molecular biology and classical civil engineering.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4484
Requisites: Requires prerequisite course of CHEN 1211 and CHEM 1221 or CHEM 1113 and CHEM 1114 and APPM 2350 or MATH 2400 (minimum grade C-).
Grading Basis: Letter Grade
EVEN 4830 (3) Special Topics
Repeatable: Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.
EVEN 4840 (1-3) Independent Study: General Topics
General topics relating to environmental engineering. One-on-one assistance with an instructor.
Repeatable: Repeatable for up to 6.00 total credit hours.
EVEN 4969 (3) Water and Sanitation in Developing Countries
Studies the design and fundamentals behind effective treatment processes and engineering solutions targeted for developing countries. Approaches to clean water and sanitation in lesser industrialized countries often demand alternative solutions to those developed for industrialized societies. Explores issues and solutions developed to tackle these problems.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 4969
Requisites: Requires prerequisite course of CVEN 3414 (minimum grade C). Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

EVEN 4980 (3) Senior Thesis 1
Provides faculty-supervised independent research in environmental engineering for students planning to complete a senior thesis. To be taken prior to EVEN 4990, during the final year before graduation. Department consent required.
Requisites: Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Environmental Engineering (EVEN) majors only.

EVEN 4990 (3) Senior Thesis 2
Continuation of EVEN 4980. Consists of final phase of faculty-supervised research, the preparation of a written defense, and an oral defense of the research.
Requisites: Requires prerequisite course of EVEN 4980 (minimum grade C).

EVEN 6940 (1) Master's Candidate for Degree
Grading Basis: Pass/Fail

EVEN 6950 (1-6) Master's Thesis
Repeatable: Repeatable for up to 6.00 total credit hours.

EVEN 6990 (1-10) Doctor's Thesis
Repeatable: Repeatable for up to 10.00 total credit hours.

Environmental Product of Design (EPOD)

Courses

EPOD 2004 (3) History and Theory of Environmental Products of Design
Provides a general overview of the theories that inform design, while focusing on 20th century history and theory around the making of products.
Requisites: Restricted to Program in Environmental Design (ARPLU) undergraduate students only.
Recommended: Corequisite EPOD 2100.

EPOD 2100 (6) Studio 1: Foundations of Environmental Products of Design
Immersive, project based studio environment where students focus on the design of products at a human scale with an emphasis on more advanced 3D modeling, parametric design, advanced visualization, and file-to-factory fabrication methods.
Requisites: Restricted to Program in Environmental Design major or minor students only.
Recommended: Corequisite EPOD 2004.

EPOD 3100 (6) Studio 2: Intermediate Environmental Products of Design
Introduces students to innovative emerging technologies and techniques in digital fabrication and design through a project-based studio environment. Students will be asked to develop design solutions that could be leveraged to benefit humanity through material investigations, cradle-to-cradle methodology, and more advanced methods in design optimization.
Requisites: Restricted to Environmental Design (ENVD) major or minor students only.

EPOD 3101 (3) Ethics and Professional Responsibilities for Environmental Products of Design
This course investigates the consequences of designing new products in light of current societal and environmental problems. Students are exposed to issues related to resources, materials, fabrication methods, and product life-cycle from an aesthetic, ethical, and environmental perspective.
Requisites: Restricted to Environmental Design (ENVD) majors only.

EPOD 3105 (3) Applied Design Thinking and Entrepreneurship for Environmental Products of Design
Exposes students to innovation and entrepreneurial practices around the topic of Environmental Products of Design through applied design thinking.
Requisites: Restricted to Environmental Design (ENVD) majors only.

EPOD 4012 (3) EPOD Capstone Proposal Seminar
Exposes students to research and development methodologies related to Environmental Products of Design. Students conduct thorough analysis of a user base, assess environmental impact of their design idea while developing a strategy for branding and fabrication. Finally, a proposal for a design solution of an identified problem is be presented which sets the thematic groundwork for the final Capstone Studio, EPOD 4100.
Requisites: Restricted to Environmental Design (ENVD) major or minor students only.

EPOD 4100 (6) Studio 3: Capstone in Environmental Products of Design
Expanding on the design research presented in the Capstone Proposal course, students fully develop and build an innovative prototype of their design solution.
Requisites: Requires prerequisite course of EPOD 3100 and 4012 (minimum grade C). Restricted to Program in Environmental Design major or minor students only.

Environmental Studies (ENVS)

Courses

ENVS 1000 (4) Introduction to Environmental Studies
Surveys environmental studies, examining ecological, socioeconomic, political, aesthetic, and technological factors that influence the quality of life on Earth. Required for ENVS majors.
ENVS 1001 (4) Introduction to Developing Environmental Solutions  
Builds on ENVS 1000 to give students greater understanding of how to 
approach environmental issues and work toward solutions. Integrates all 
focal areas of ENVS - sciences, policy, values - with greatest emphasis 
on learning science, data analysis and critical thinking fundamentals. 
Uses case studies of local issues to provide context for skill building and 
synthesis. 
Requisites: Requires a prerequisite course of ENVS 1000 (minimum grade C).  
Grading Basis: Letter Grade  
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ENVS 1150 (3) First-Year Writing in Energy, Environment and 
Sustainability  
Provides development of effective writing skills, knowledge and habits for 
success in the campus culture using topics related to the environmental 
sciences, energy, sustainability and academic/career interests. Focuses on 
the processes in rhetoric, emphasizing skills in creative, analytical and 
critical thinking, as well as research and presentation using digital and 
"old fashioned" methods and materials. 
Requisites: Restricted to students with 0-56 credits (Freshman or 
Sophomore) Environmental Studies (ENVS) or Environmental Design 
(ENVD) majors only.  
Grading Basis: Letter Grade  
Additional Information: Arts Sci Core Curr: Written Communication 
Arts Sci Gen Ed: Written Communication-Lower

ENVS 2000 (4) Applied Ecology for Environmental Studies  
Covers how ecological ideas and principles underlie both the problems 
and solutions of multiple environmental issues. Ecology of environmental 
concerns ranging from endangered species to global carbon cycling 
will be reviewed, including perspectives from physiological, behavioral, 
population, community and ecosystem ecology. Fulfills intermediate 
natural science requirement for Environmental Studies major. 
Equivalent - Duplicate Degree Credit Not Granted: EBI0 2040 and 
EBIO 2640  
Recommended: Prerequisites ENVS 1000 and a course in introductory 
estatistics and two courses in introductory biology or physical geography.  
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ENVS 2001 (3) Topical Seminar in Environmental Studies  
Serves as an introductory seminar to topics in environmental studies. 
Topics are diverse and include such areas as climate and conflict, food 
production, land use change, and other emerging areas in environmental 
studies.  
Grading Basis: Letter Grade

ENVS 2100 (2-4) Topics in Applied Environmental Studies  
Covers a variety of topics not currently offered in the curriculum: 
offered depending on instructor availability and student demand. Fulfills 
application requirement in Environmental Studies major. 
Repeatable: Repeatable for up to 6.00 total credit hours.  
Recommended: Prerequisite ENVS 1000.

ENVS 2840 (1-6) Independent Study  
Students work with an approved faculty sponsor to explore a topic in 
greater depth and to pursue an interest that is not offered in the formal 
curriculum. 
Repeatable: Repeatable for up to 8.00 total credit hours.  
Recommended: Prerequisite ENVS 1000.

ENVS 3001 (3) Sustainable Solutions Consulting  
Introduces students to green design, industrial ecology, and life cycle 
analysis. Students use basic techniques of environmental auditing to 
analyze the CU Boulder campus. Fulfills application requirement for 
Environmental Studies major. 
Requisites: Requires prerequisite course of ENVS 1000 (minimum 
grade D). Restricted to students with 57-180 credits (Junior or Senior) 
Environmental Studies (ENVS) majors only. 
Recommended: Any two-semester science sequence.  
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ENVS 3020 (3) Advanced Writing in Environmental Studies  
Offers training in critical thinking and analytical writing skills appropriate 
to upper-division classes. Writing assignments integrate the subject 
matter of different topical areas. Fulfills writing requirement for 
Environmental Studies major. 
Requisites: Restricted to students with 57-180 credits (Junior or Senior) 
Environmental Studies (ENVS) majors only.  
Recommended: Prerequisite ENVS 1000.  
Additional Information: Arts Sci Core Curr: Written Communication 
Arts Sci Gen Ed: Written Communication-Upper

ENVS 3022 (3) Climate Politics and Policy  
Engages students in exploring the realm of contemporary and historical 
climate policy at three major levels of government: international, national 
and local/regional. Through course lectures, discussions, readings and 
activities, students will become conversant with the actors, mechanisms 
and concerns involved in climate policy and politics and develop their 
own self of how to judge the success of climate policies. Fulfills 
intermediate social science requirement in Environmental Studies Major. 
Equivalent - Duplicate Degree Credit Not Granted: GEOG 3022  
Recommended: Prerequisite ENVS 1000 or GEOG 1972.  
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ENVS 3030 (3-4) Topics in Environmental Social Sciences  
Covers a variety of topics that may include human ecology, environment 
and society, and quantitative environmental social science. Offered 
depending upon instructor availability and student demand. Fulfills 
intermediate social science requirement for Environmental Studies major. 
Not repeatable for credit.  
Recommended: Prerequisite ENVS 1000.  
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ENVS 3031 (3) Environmental Psychology  
Examines how people interact with the environment by examining 
thories and methods from Environmental Psychology. How does nature 
impact human well-being? How do people make decisions that have 
environmental consequences? How can we promote behavior change to 
reduce environmental degradation? Fulfills intermediate social science 
requirement for ENVS major. 
Requisites: Require prerequisites of ENVS 1000 and ENVS 1001 (both 
minimum grade C).  
Grading Basis: Letter Grade  
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ENVS 3032 (3) Environment, Media and Society  
Examines how mass media influence our society, specifically with regard 
to environmental issues and outcomes. Focuses on media influence over 
environmental politics and policy, environmental public opinion, popular 
culture, and environmental/scientific knowledge. Fulfills intermediate 
social science requirement for Environmental Studies major.  
Recommended: Prerequisite ENVS 1000.  
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
ENVS 3033 (3) Governing the Environment
Examines how, when, and why human communities succeed in conserving environmental commons. Using a marine lens and taking a social-ecological systems approach, this course will provide foundations in environmental governance while examining case studies from local to global scale. Utilizes lecture, discussion, group work, literature, film, guest speakers, and class projects to study environmental problems and their solutions, including the student's personal role in governing natural resources. Fulfills intermediate social science requirement for ENVS major.
Recommended: Prerequisite ENVS 1000.
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ENVS 3040 (4) Conservation Biology
Applies principles of population ecology, population genetics, biogeography, animal behavior, and paleobiology to the maintenance of biodiversity and natural systems. The resulting theory is then applied to conservation policy and management techniques.
Equivalent - Duplicate Degree Credit Not Granted: EBI 3040
Recommended: Prerequisite EBI 2040 or EBI 2640.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ENVS 3064 (3) Environmental Political Theory
Examines environmental discourses as conceptual means for theorizing environmental politics, and applies normative political theories to contemporary environmental policy issues. Considers the roles of political actors (individuals, groups, the state) in defining and addressing environmental problems on local, national, and global levels.
Equivalent - Duplicate Degree Credit Not Granted: PSCI 3064

ENVS 3070 (3) Energy and the Environment
Examines contemporary issues in energy consumption and its environmental impact, including fossil fuel use and depletion; nuclear energy and waste disposal; solar, wind, hydroelectric, and other renewable sources; home heating; energy storage; fuel cells; and alternative transportation vehicles. Includes some basic physical concepts and principles that often constrain choices. No background in physics is required.
Equivalent - Duplicate Degree Credit Not Granted: PHYS 3070

ENVS 3100 (2-4) Topics in Applied Environmental Studies
Covers a variety of topics not currently offered in the curriculum; offered depending upon instructor availability and student demand. Fulfills application requirement for Environmental Studies major.
Repeatable: Repeatable for up to 8.00 total credit hours.
Recommended: Prerequisite ENVS 1000.

ENVS 3103 (3) Applied Environmental Studies: Mining in Four Corners
Explores mining related issues that have pronounced impact on the environment, economy and politics of the Four Corners region. Students apply their basic knowledge of environmental science, policy and values toward the understanding of and productive discourse about the conflicts and opportunities brought about by the mining industry in the Four Corners region. Course includes a seven-day field trip, visiting mining and reclamation sites in New Mexico, Utah and Colorado. Fulfills application requirement for Environmental Studies majors.
Recommended: Prerequisite ENVS 1000 and one year natural science.
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ENVS 3140 (3) Environmental Ethics
Examines major traditions in moral philosophy to see what light they shed on value issues in environmental policy and the value presuppositions of the economic, ecological, and juridical approaches to the environment.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 3140
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

ENVS 3173 (3) Creative Climate Communication
We generate multimodal compositions on the subject of climate change and engage with various dimensions of issues associated with sustainability. We work to deepen our understanding of how issues associated with climate change are or can be communicated, by analyzing previously created expressions from a variety of media (interactive theatre, film, fine art, television programming, blogs, performance art, for example) and then be creating our own work.
Equivalent - Duplicate Degree Credit Not Granted: ATLS 3173 and THTR 4173
Recommended: Prerequisite ENVS 1000.

ENVS 3434 (3) Introduction to Applied Ecology
Emphasizes the integration of physical, chemical and biological processes in controlling terrestrial and aquatic ecosystems. Ecosystem concepts are applied to current environmental and water quality problems. Includes field trips and a group project.
Equivalent - Duplicate Degree Credit Not Granted: CVEN 3434
Requisites: Requires prerequisite courses of CHEM 1113 or CHEM 1211 and CHEM 1221 (all minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ENVS 3520 (3) Energy and Climate Change: An Interdisciplinary Approach
Examines sources of energy and other resources in light of their availability, use, environmental impact, as well as their impact on policy, economics and values. As fossil fuels are the dominant energy source today, particular emphasis is placed on climate impacts and the carbon cycle. All material is assessed through the lenses of the physical sciences, policy, ethics and economics.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 3520
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite a two-course sequence in any natural science.

ENVS 3525 (3) Intermediate Environmental Problem Analysis: Topical Cornerstones
Engages students in in-depth study of a topic such as climate change, energy, natural resources or sustainability. Through lectures, discussions, readings and activities, students will become conversant with how science, policy and values are integrated in environmental problem solving, and develop their own sense of how to critically engage with proposed solutions. Fulfills cornerstone requirement for Environmental Studies Major. Recommended corequisite: ENVS 3020.
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: Prerequisite ENVS 1000.
ENVS 3600 (3) Principles of Climate
Describes the basic components of the climate system: the atmosphere, ocean, cryosphere and lithosphere. Investigates the basic physical processes that determine climate and link the components of the climate system. Covers the hydrological cycle and its role in climate, climate stability and global change.

Equivalent - Duplicate Degree Credit Not Granted: GEG 3601 and ATOC 3600
Recommended: Prerequisites one semester of calculus and ATOC 1060 or ATOC 3300 or GEOG 3301 or GEOG 1001.

ENVS 3621 (3) Energy Policy and Society
Examines how society makes decisions about energy, and how these decisions affect the environment and the economy. Uses tools from policy analysis, economics, and other disciplines to build an in-depth understanding of energy's role in U.S. contemporary society. Fulfills Cornerstone requirement of ENVS majors. Recommended corequisite: ENVS 3020.
Recommended: Prerequisites ENVS 1000 and ENVS 3070 or PHYS 3070.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ENVS 3640 (3) Data Analysis for Global Environmental Affairs
Develops data analysis techniques for global environmental data including demographic, economic, agricultural, fisheries and energy sectors. Designed to support the development of basic and intermediate data analysis skills for students in the Global Environmental Affairs certificate program. Includes hands-on exploration of up-to-date global data sets from a variety of sources. Fulfills the application requirement for the ENVS major.
Equivalent - Duplicate Degree Credit Not Granted: IAFS 3640
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ENVS 3800 (3) The Art of Research: The Essential Elements of Research in Environmental Studies
Introduces students to the practice of doing research in environmental studies. Examines how to define a research problem, select methods, design research, construct arguments and evaluate others' research. Aims to familiarize students with the process of doing research and enable them to proceed with confidence in pursuing their own research topics. Recommended for juniors planning to write ENVS honors theses. Fulfills capstone requirement in Environmental Studies major.
Requisites: Requires prerequisite course of ENVS 1000 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) majors only.
Recommended: Prerequisite ENVS 3020.

ENVS 3930 (1-3) Internship
Relates classroom theory to practice. Provides academically supervised opportunities for environmental studies majors to work in public and private organizations on projects related to students' career goals. Fulfills application requirement in Environmental Studies major.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite ENVS 1000.

ENVS 4027 (3) Inequality, Democracy, and the Environment
Focuses on the structural forces affecting environmental degradation and environmental behavior by examining the relationships between (a) inequality and democratic decision making and (b) undemocratic decision making; U.S. and corporate food and energy policy; and global environmental degradation. The course also focuses on the role that global inequality plays in fostering environmental degradation.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 4027
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ENVS 4030 (3) Sociology of Climate Change
Examines the human drivers and causes of climate change, the health and security risks it creates and the efforts of societies to mitigate and adapt to its effects.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 4030
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences

ENVS 4050 (2-4) Field Methods in Ecosystem Science
Studying the relationships among organisms, physical features, biogeochemistry and humans in ecological communities - this is ecosystem science. This course provides conceptual understanding and practical experience conducting research. Students will pose their own scientific questions, learn several field and lab methods, analyze data and design a project. Upon completion, they will have useful skills for internships, jobs and graduate school. Fulfills application requirement in ENVS major. Department enforced prerequisite: ENVS 1000 or two semesters of natural sciences; such as chemistry, geology or biology.
Grading Basis: Letter Grade

ENVS 4100 (3) Special Topics in Environmental Studies
Various topics not normally covered in the curriculum: offered depending on student demand and specialties of faculty. Applied to specialization requirement for Environmental Studies major.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

ENVS 4160 (3) Introduction to Biogeochemistry
Covers fundamentals of biogeochemical cycling, emphasizing water, carbon and nutrient dynamics in terrestrial ecosystems; chemical interactions of atmosphere, biosphere, lithosphere and hydrosphere; natural and human-managed environments.
Equivalent - Duplicate Degree Credit Not Granted: EBIO 4160 and GEOL 4160
Requisites: Requires prerequisite courses of GEOL 3320 or EBIO 3270 and CHEM 1011 (all minimum grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences
ENVS 4185 (3) Geomicrobiology
Examines how microbial and chemical processes interact on the Earth’s surface today and have shaped the planet throughout its history. Emphasis will be placed on how the life styles and chemical ingenuity of microorganisms drive key biogeochemical processes including weathering and transformations of carbon, oxygen, sulfur, iron and nitrogen. Towards this goal, major geologic and evolutionary events will be examined through the lens of microbial diversity, metabolic energetics, microbe-mineral interactions, and molecular biomarkers.
Requisites: Requires prerequisite courses of CHEM 1113 and CHEM 1114 or CHEM 1400 and CHEM 1401 (minimum grade D-).
Recommended: Prerequisites GEOL 1180 or MCDB 1150 or GEOL 3320 or EBIO 3400 or ENVS 4160 or EVEN 4484.
Grading Basis: Letter Grade

ENVS 4201 (3) Biometeorology
Introduces this interdisciplinary science, studying the interactions between atmospheric processes and living organisms (plants, animals, and humans). Discusses how organisms adapt to a changing environment. Uses a practical, problem-solving approach to explore these interactions.
Equivalent - Duplicate Degree Credit Not Granted: GEG 4201
Requisites: Requires a prereq course of GEOG 1001 and APPM1340 and 1345 or APPM1350 or ECON1088 or MATH1081 or 1300 or 1310 or 2510 or ANTH4000 or APPM4570 or BCR1020 or ECON3818 or GEOG3023 or GEOL3023 or PSCI2075 or PSYC3101 or SOCY2061 or 4061 (min grade D-).
Additional Information: Arts Sci Gen Ed: Distribution-Natural Sciences

ENVS 4340 (4) Conservation Biology and Practice in Brazil's Atlantic Forest
Field Studies. Examines the application of conservation principles in the Atlantic Forest of Brazil, a 'biodiversity-in-crisis' setting. Explores successful conservation strategies integrated with efforts to alleviate socioeconomic issues. Three-week Maymester, Study Abroad Global Seminar.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 5340, EBIO 4340 and EBIO 5340
Recommended: Prerequisites EBIO 2040 or ENVS 2000 or 2000/higher-level course in ANTH, EBIO, ENVS, EVEN, GEOG, IAFS or other discipline related to ecology or sustainability.
Grading Basis: Letter Grade

ENVS 4795 (3) Field Methods in Zoology and Botany
Class covers research and field methods for biological disciplines associated with natural history museums: vertebrates, invertebrates and plants. Emphasis is on field research techniques: observations, sampling, collection and preservation methods and comparisons among elevation zones. Includes 5 field labs, 2 weekend trips, 5 lab practica, experience with several taxonomic experts and individual research projects.
Equivalent - Duplicate Degree Credit Not Granted: MUSM 4795 and MUSM 5795

ENVS 4800 (3) Capstone: Critical Thinking in Environmental Studies
Examines a specific environmental topic in depth, synthesizing information from complex and controversial issues. Different course sections present different topics. Fulfills capstone requirement for Environmental Studies major.
Requisites: Requires prerequisite courses of CHEM 1113 and CHEM 1114 or CHEM 1400 and CHEM 1401 (minimum grade D-).
Recommended: Prerequisites GEOL 1180 or MCDB 1150 or GEOL 3320 or EBIO 3400 or ENVS 4160 or EVEN 4484.
Grading Basis: Letter Grade

ENVS 4840 (1-6) Independent Study
Students work with an approved faculty sponsor to explore a topic in greater depth and to pursue an interest that is not offered in the formal curriculum.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of ENVS 1000 (minimum grade D-).
Recommended: Prerequisite ENVS 3020.

ENVS 4990 (3) Senior Thesis
Supervised project involving original research. Thesis proposal must be accepted by honors chairman. Open only to Environmental Studies majors with at least a 3.30 GPA. Fulfills capstone requirement in Environmental Studies major.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Requires prerequisite course of ENVS 1000 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Environmental Studies (ENVS) majors only.
Recommended: Prerequisite ENVS 3020.

ENVS 5000 (3) Policy, Science, and the Environment
Introduction to methodologies of the policy sciences with emphasis on applications to environmental issues; role of science in decision making; professional roles and responsibilities as a policy analyst.
Requisites: Restricted to Environmental Studies (ENVS) graduate students only.

ENVS 5003 (3) Theory and Methods in Environmental Studies
Introduces students to theory and methods used in research on environmental science, values and policy. The goal of the course is to provide a broad overview of the conceptual background relevant to work and research in environmental studies, with an emphasis on understanding the similarities and differences in research methods used in different disciplines and in environmental research.
Grading Basis: Letter Grade

ENVS 5050 (3) Theories of the Policy Process
Examines the public policy process, including the influences and actors that shape policy outcomes. Focuses on the major theories, frameworks, and models of policy change, along with emerging scholarship that challenges, refines, and advances the theory.
Requisites: Restricted to graduate students only.

ENVS 5100 (1-3) Special Topics in Environmental Studies
A variety of topics not currently offered in curriculum; offered depending on instructor availability and student demand.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

ENVS 5110 (1-3) Topics in Environmental Social Science and Humanities
Covers various topics in the social sciences and humanities in environmental studies.
Repeatable: Repeatable for up to 9.00 total credit hours.
Requisites: Restricted to Arts and Sciences, Journalism, Law or Business Graduate Students only.
ENVS 5120 (1-3) Topics in Quantitative Methods
Covers a wide range of quantitative methods used in policy research and their applications. Topics may include decision-making under uncertainty, fundamentals of microeconomics, mathematics of economic efficiency, cost-benefit analysis, system optimization, budgeting, fundamentals or probability, risk assessment, risk perception, risk communication, and decision analysis. Includes practical exercises, as well as readings and discussion, of various strengths and weaknesses of the different methods.
Repeatable: Repeatable for up to 9.00 total credit hours.

ENVS 5240 (3) Environmental Philosophy
A survey of the major philosophical issues in environmental studies, comprising key issues in environmental ethics, in environmental political philosophy and in the philosophy of biology and ecology.
Equivalent - Duplicate Degree Credit Not Granted: PHIL 5240
Requisites: Restricted to Environmental Studies (ENVS) graduate students only.

ENVS 5340 (4) Conservation Biology and Practice in Brazil's Atlantic Forest
Field Studies. Examines the application of conservation principles in the Atlantic Forest of Brazil, a 'biodiversity-in-crisis' setting. Explores successful conservation strategies integrated with efforts to alleviate socioeconomic issues. Three-week Maymester, Study Abroad Global Seminar.
Equivalent - Duplicate Degree Credit Not Granted: ENVS 4340, EBI 4340 and EBI 5340
Recommended: Prerequisites: EBI 2040 or ENVS 2000 or 2000/higher-level course in ANTH, EBI, ENVS, EVEN, GEG, IAFS or other discipline related to ecology or sustainability.
Grading Basis: Letter Grade

ENVS 5510 (1) Environmental Studies Colloquia Series
All first year ENVS graduate students are required to attend the ENVS Colloquia Series. Speakers from around the world and within the department cover topics in all areas of Environmental Studies.
Repeatable: Repeatable for up to 2.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Pass/Fail

ENVS 5520 (1-3) Seminar in Environmental Studies
Addresses current topics in Environmental Studies. Provides forum for students to critically evaluate the primary literature in a particular theme.
Repeatable: Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Letter Grade

ENVS 5701 (3) Policy, Politics and Management: Foundations
Examines concepts related to policy and regulatory processes, institutions and management of the environment and natural resources. Explores environmental laws at the international, national, state and local levels as well as how the processes and institutions at various levels of government help shape laws and their implementation. Focuses on policy tools including property rights, regulation, voluntary compliance and market-based mechanisms.
Grading Basis: Letter Grade

ENVS 5702 (3) Policy, Politics and Management: Theory and Practice
Provides an overview of the theoretical landscape for how policies are made, decisions are enacted and actors seek to influence policy and political outcomes. Students will learn tools of policy analysis and apply their understanding to cases of environmental, natural resource and related policies.
Grading Basis: Letter Grade

ENVS 5740 (3) Context-Sensitive Research Methods
Prepares students to conduct research on topics where data is not obvious or not easily available. Encompasses variations in context and setting as part of data observations. Methods include interviewing protocols, interpretive methods, cluster analyses, case study methodologies and textual analyses.
Equivalent - Duplicate Degree Credit Not Granted: PSCI 7116
Requisites: Restricted to graduate students only.

ENVS 5810 (3) Water Resources and Environmental Sustainability
Assesses impacts of climate variability and regional growth on western U.S. water resources, and examines successes and failures of different management strategies, as well as ways that science is used and misused in support of water management.
Requisites: Restricted to Arts and Sciences, Journalism, Law or Business Graduate Students only.

ENVS 5820 (3) Energy Policy in the 21st Century
Examines energy policy and the problem of sustainability through a variety of disciplinary and topical perspectives: historical, political, behavioral, techno-economic and legal. A critical approach is applied to arguments about energy policy processes, systems and desired outcomes, with special emphasis on the role of renewable and sustainable energy in the changing global system.
Requisites: Restricted to graduate students only.

ENVS 5830 (3) Critical Issues in Climate and the Environment
Discusses current issues such as ozone depletion, global warming and air quality for graduate students in nonscientific fields. Provides the scientific background necessary to understand, follow scientific developments and critically evaluate these issues.
Equivalent - Duplicate Degree Credit Not Granted: ATOC 4800 and ATOC 5000

ENVS 5840 (3) Global Biogeochemical Cycles
Focuses on the cycling of elements at the global scale with a particular emphasis on human modification of biogeochemical cycles. Major biogeochemical cycles, their past dynamics, present changes and potential future scenarios will be addressed. Ecosystem to global-scale model of the earth system will be discussed, along with global-scale measurements of element fluxes from satellites, aircraft and measurement networks.
Equivalent - Duplicate Degree Credit Not Granted: GEOL 5305
Requisites: Restricted to graduate students only.
Recommended: Prerequisite general chemistry, some organic chemistry.

ENVS 5909 (1-3) Independent Study
Only 3 hours of independent study can be used towards degree requirements.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

ENVS 5930 (2) Internship
Provides academically supervised opportunities for environmental studies majors to work in public and private organizations on projects related to the students' research and career goals, and to relate classroom theory to practice.

ENVS 6007 (3) Foundations of Environmental Sociology
Provides overview of environmental sociological theory and research including topics such as: public environmental perception, concern, and knowledge; environmentalism as a social movement; environmental justice; energy, technology, and risk; human dimensions of environmental change; and natural hazards and disasters.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 6007
ENVS 6201 (3) Qualitative Research Methods for Environmental Studies
Introduces students to research design, data collection and analysis methods. Exploration of the rationale underlying the use of various methods, the skills needed to employ qualitative method and the process of designing a research protocol will provide graduate students with a sound foundation to begin their own thesis research.
Grading Basis: Letter Grade

ENVS 6222 (2-3) Environmental Decision-Making
Explores the foundational issues that underlie agency decision-making, including environmental ethics, cost-benefit analysis, risk assessment, constitutional law and administrative law. Compares and contrasts National Environmental Policy Act and the National Historic Preservation Act and the Endangered Species Act.
Equivalent - Duplicate Degree Credit Not Granted: LAWS 7222
Grading Basis: Letter Grade

ENVS 6301 (3) Environmental and Energy Economics
Introduces non-economists to the study of energy markets, environmental externalities, economic regulation and public policy. This applied course uses examples from electricity generation, renewable energy, manufacturing, transportation and other energy intensive industries. A variety of policy instruments will be studied, including: technology standards, subsidies, environmental mandates, rate-based policies, emissions taxes and cap-and-trade systems.
Grading Basis: Letter Grade

ENVS 6302 (3) Sustainable Landscapes, Sustainable Livelihoods
Examines rural transformation and the adoption of recreation economies in communities across the U.S. West in response to burgeoning recreation industry and interest in public lands. Students will evaluate different approaches for developing and managing recreation economies in small towns that consider diverse social, cultural, economic, and environmental constraints as well as opportunities in a time of rapid change. Project-based course. Students learn techniques to gather and synthesize data that support solution development.
Equivalent - Duplicate Degree Credit Not Granted: ENVM 6302
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

ENVS 6303 (3) Transportation and Sustainable Cities
Examines the problem of organizing transportation systems from a variety of perspectives and explores how transportation decisions get made at a variety of scales, from local to national. Covers some of the dramatic changes coming from technological innovation in arenas like vehicle electrification, autonomous vehicles and the potential shift from individual vehicle ownership to shared mobility.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade

ENVS 6304 (3) Introduction to Food Systems Internationally
Introduces students to contemporary food system challenges a the global scale, the course will first identify key historic and projected trends, to set the scene for the remainder of this specialization. Second it will draw on international case studies to explore some of the institutional, technological and market responses to food system challenges across the globe.
Grading Basis: Letter Grade

ENVS 6305 (3) Reducing the Environmental Impact of Food Systems: Evidence-Based Solutions
Explores the evidence and ideas underlying some of the most important contemporary food system debates. We will ask: in enhancing the environmental sustainability of food systems, what do the data tell us about the roles that can be played by genetically engineered food, organic agriculture, local food systems, changes to animal agriculture, and reductions in food waste? Students will draw on peer-reviewed research to address the science, policy, and ethical dimensions of these topics.
Grading Basis: Letter Grade

ENVS 6940 (1) Master's Candidate for Degree
Grading Basis: Pass/Fail

ENVS 6950 (1-6) Master's Thesis
All doctoral students must register for not fewer than 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.

Ethnic Studies (ETHN)

Courses

ETHN 1022 (3) Introduction to Africana Studies
Overview of Africana studies as a field of investigation, its origins and history.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Africana Studies

ETHN 1023 (3) Introduction to Native American and Indigenous Studies
Introduces critical terms, issues, and questions that inform the discipline of American Indian Studies. Examines "historical silences" and highlights how American Indian scholars, poets, and filmmakers use their work to address/redress historical subjects, and represent their Native communities.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: American Indian Studies

ETHN 1025 (3) Introduction to Asian American Studies
Examines the various factors that define minority groups and their positions in American society using Asian Americans as a case study. Emphasizes the perspectives and methodologies of the discipline of ethnic studies.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asian American Studies
ETHN 2001 (3) Foundations of Comparative Ethnic Studies: Race, Gender and Culture(s)
Introduction to the study of race, ethnicity and gender in the United States. Overview of concepts, theories and analytic frames that shape the interdisciplinary field of Ethnic Studies. Focuses on historic, institutional, legal and cultural issues that impact African-Americans, Asian-Americans, Chicanas and Chicanos, European Americans, Native Americans and Indigenous peoples in the U.S.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Crosscultural/Comparative Studies

ETHN 2004 (3) Themes in American Culture 1
Enables students to explore various themes in pre-1865 American culture. Examines these themes, which vary each year, in their social context.
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: American Studies

ETHN 2013 (3) Critical Issues in Native North America
Explores a series of issues including regulations of population, land and resource holdings, water rights, education, religious freedom, military obligations, the sociopolitical role of men and women, self-governance, and legal standing as these pertain to American Indian life.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: American Indian Studies

ETHN 2014 (3) Themes in American Culture 2
Enables students to explore various themes in post-1865 American culture. Examines these themes, which vary each year, in their social context.
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American Studies

ETHN 2044 (3) Crime and Society
Explores issues related to crime, the criminal justice system, and crime-related public policy. It addresses what we know about crime and how we know it, how our society responds to crime, how the institutions designed to address crime (police, courts, corrections) function, and diversity in experiences with the criminal justice system.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 2044
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Crosscultural/Comparative Studies

ETHN 2203 (3) American Indians in Film
Examines images of American Indians in films produced by, and about, Native peoples. Follows the creation of "the Hollywood Indian" from still-photography to contemporary motion pictures. Films are analyzed within historical, social, and artistic contexts, and examined in terms of the impact their images have exerted upon American society at large and Native communities in particular.
Equivalent - Duplicate Degree Credit Not Granted: CINE 2203
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: American Indian Studies

ETHN 2215 (3) The Japanese American Experience
Surveys the Japanese American experience, emphasizing post-WWII developments. Gives attention to intragroup diversity having to do with generation, ethnicity, ecology, and gender.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Departmental Category: Asian American Studies

ETHN 2223 (3) Contemporary African American Social Movements
Examines selected case studies of African American collective behavior in a historical context. Emphasizes an in-depth investigation of the continuing African American struggle for social/democratic rights.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Africana Studies

ETHN 2224 (3) African American Social and Political Thought
Introductory course designed to acquaint students with historical and contemporary thinking, writings, and speeches of African Americans.
Arts Sci Core Curr: Human Diversity
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Africana Studies

ETHN 2232 (3) Contemporary African American Social Movements
Examines selected case studies of African American collective behavior in a historical context. Emphasizes an in-depth investigation of the continuing African American struggle for social/democratic rights.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Africana Studies

ETHN 2242 (3) African American Social and Political Thought
Introductory course designed to acquaint students with historical and contemporary thinking, writings, and speeches of African Americans.
Arts Sci Core Curr: Human Diversity
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Africana Studies

ETHN 2243 (3) African American Social and Political Thought
Introductory course designed to acquaint students with historical and contemporary thinking, writings, and speeches of African Americans.
Arts Sci Core Curr: Human Diversity
Arts Sci Core Curr: Contemporary Societies
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Africana Studies

ETHN 2250 (3) Race, Ethnicity, and Language
Explores the relationship between race, ethnicity, and language and how they are co-constructed. How do speakers of different racial and ethnic groups use language differently, and what are the social implications of these different language varieties? We discuss the implications of ethnolinguistic variation on racial stereotypes, education, and the law.
Equivalent - Duplicate Degree Credit Not Granted: LING 2500
Recommended: Prerequisite LING 1000.
Additional Information: Arts Sci Gen Ed: Diversity-U.S. Perspective
ETHN 2536 (3) Survey of Chicana/o History and Culture
Through historical and social scientific studies, novels, autobiographies, testimonies, films, music, and art, this course will provide students a survey of Chicana/o history and culture. Historical overviews of Chicana/o peoples from Mesoamerica; the Spanish Conquest; the historical presence of Chicana/o peoples in the Southwest; the rise of the Chicana/o student and community movements; immigration issues; and the gender, sexuality, and criminalization issues.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: United States Context
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chicana/o Studies

ETHN 2546 (3) Chicana and Chicano Fine Arts and Humanities
Provides foundation for study of Chicano literature, music, the plastic arts, theatre and film. Also introduces aesthetic and critical concepts and their applications in Chicana and Chicano studies.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chicana/o Studies

ETHN 2703 (3) American Indian Religious Traditions
Introduces religions of the peoples indigenous to the Americas. Concerns include ritual, mythology and symbolism occurring throughout these cultures in such areas as art, architecture, cosmology, shamanism, sustenance modes, trade and history.
Equivalent - Duplicate Degree Credit Not Granted: RLIST 2700
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Ideals and Values
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: American Indian Studies

ETHN 2713 (3) American Indian Literature
Surveys historical and contemporary North American Native American literature. Examines the continuity and incorporation of traditional stories and values in Native Literature, including novels, short stories and poetry.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 2717
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: American Indian Studies

ETHN 2732 (3) Survey of African American Literature 2
Surveys African American literature from the Depression to the present.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 2732
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: African Studies

ETHN 2746 (3) Chicana/Chicano and Mexican Literature
Introduces Chicana and Chicano and Mexican literary studies, focusing on narrative works by Chicana and Chicano writers. Examines diverse range of Mexican writing in Greater Mexico as it addresses recurring issues and themes, including language, race and class, questions of identity and gender relations.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 2746
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chicana/o Studies

ETHN 2761 (3) Survey of Post-Colonial Literature
Surveys the development of literatures in English in former British colonies. Topics include the spread and adaptation of English language literary forms in Asia, Africa, the Caribbean, and the far new world (Australia and New Zealand). Students learn the causes of the dispersion and the motivations for the clearly different uses of English literary forms in the ex-colonies.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 2767
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Diversity-Global Perspective
Departmental Category: Crosscultural/Comparative Studies

ETHN 3015 (3) Asian Pacific American Communities
Covers the concepts, methods, and theories commonly used in community research, as well as substantive information on selected Asian/Pacific American communities. Emphasizes the ethical/political dimensions of community studies.
Recommended: Prerequisite ETHN 1025 or ETHN 2001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Asian American Studies

ETHN 3024 (3) Introduction to Critical Sports Studies
Learn to think in an informed and critical way about sports in society. Examine the socio-cultural significance of sports as it relates to topics such as youth, social class, race/ethnicity, gender, identity, and intercollegiate athletics. Readings, class discussions, videos, and guest speakers will help expand our understanding of this important social phenomenon.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Crosscultural/Comparative Studies

ETHN 3026 (3) Women of Color: Chicanas in U.S. Society
Critically explores the Chicana experience and identity. Examines issues arising from the intersection of class, race, and gender. Focuses on controversies surrounding culture and gender through an analysis of feminism and feminismo.
Recommended: Prerequisite ETHN 2001 or ETHN 2536.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chicana/o Studies

ETHN 3044 (3) Race, Class, Gender, and Crime
Overview of race, class, gender and ethnicity issues in offending, victimization and processing by the justice system. Examines women and people of color employed in the justice system.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 3044 and WGST 3044
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ETHN 2001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Crosscultural/Comparative Studies

ETHN 3101 (3) Selected Topics in Ethnic Studies
Intensive examination of a particular topic, theme, issue, or problem in ethnic studies as chosen by the instructor.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite ETHN 2001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Crosscultural/Comparative Studies
ETHN 3102 (3) Selected Topics in African American Studies
Intensive examination of a particular topic, theme, issue, or problem concerning the African American presence, as chosen by the instructor. Sample offerings could include African American Pop Culture, the Civil Rights Movement, or other African American issues.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite ETHN 1022 or ETHN 2001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Africana Studies

ETHN 3103 (3) Selected Topics in American Indian Studies
Examines a particular topic, theme, issue, or problem in American Indian Studies.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite ETHN 1025 or ETHN 2001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American Indian Studies

ETHN 3104 (3) Selected Topics in American Studies
Critically examines American identity and experiences, past and present, focusing on ethnicity, gender, popular culture, and political culture.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite ETHN 2001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: American Studies

ETHN 3105 (3) Selected Topics in Asian American Studies
Intensive examination of a topic or issue affecting Asian Americans, such as the Japanese American internment during World War II, or Asian American social movements or community organizations.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite ETHN 1025 or ETHN 2001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Asian American Studies

ETHN 3106 (3-6) Selected Topics in Chicana and Chicano Studies
Intensive examination of a particular topic, theme, issue, or problem in Chicana and Chicano studies as chosen by the instructor.
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Recommended: Prerequisite ETHN 2001 or ETHN 2536.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Chicana/o Studies

ETHN 3136 (3) Chicana Feminisms and Knowledges
Provides insight into the present socioeconomic condition of Chicanas and the concept of feminismo through interdisciplinary study of history, sociology, literary images, and film portrayals.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3135
Recommended: Prerequisite ETHN 2001 or ETHN 2536.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chicana/o Studies

ETHN 3201 (3-4) Multicultural Leadership: Theories, Principles and Practices
Focuses on leadership theories and skills necessary for effectiveness in multicultural settings. Students gain understanding of traditional and culturally diverse approaches to leadership and change through comparative analyses of western and non-western theories and practices. Community service required.
Equivalent: Duplicate Degree Credit Not Granted: INVS 3100
Recommended: Prerequisite ETHN 2001.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Crosscultural/Comparative Studies

ETHN 3212 (3) Introduction to Hip Hop Studies
Examines critical questions posed by hip hop culture. Accentuated in this course are hip hop's contributions to the political-economic, philosophical, and sociological study of race, racism, sexism and sexuality. Examines the ways in which hip hop, as a new social phenomenon, cultural force and aesthetic form, have influenced contemporary American and global culture.
Recommended: Prerequisite ETHN 1022 or ETHN 2001.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Africana Studies

ETHN 3213 (3) American Indian Women
Explores the experiences, perspectives, and status of American Indian women in historical and contemporary contexts. Examines representations of Indigenous women in mainstream culture. Emphasizes the agency of American Indian women-their persistence, creativity, and activism, especially in maintaining Indigenous traditions.
Equivalent - Duplicate Degree Credit Not Granted: WGST 3210
Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.
Recommended: Prerequisite ETHN 1023 or ETHN 2001 or WGST 2000 or WGST 2600.
Additional Information: Arts Sci Core Curr: Human Diversity
Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Diversity-U.S. Perspective
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: American Indian Studies

ETHN 3252 (3) African American Urban History
Fosters a better understanding and appreciation of the role African Americans have played in the evolution and shaping of urban America. Employs techniques of urban studies to more effectively assess the many dimensions, subtitles, and insensitivities of life in the city. S. and Afro-American history.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ETHN 1022 or ETHN 2001 and a working knowledge of U.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Africana Studies

ETHN 3301 (3) Elements of Religion
Explores universal components of religion, as inferred from religions of the world, ranging from smaller-scale oral to larger-scale literate traditions.
Equivalent: Duplicate Degree Credit Not Granted: ANTH 3300
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Crosscultural/Comparative Studies
ETHN 3314 (3) Violence Against Women and Girls
Focuses on aspects of the victimization of women and girls that are “gendered” - namely, sexual abuse and intimate partner abuse. Also explores the importance of race, class, and sexuality in gendered violence.

Equivalent - Duplicate Degree Credit Not Granted: SOCY 3314 and WGST 3314
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Crosscultural/Comparative Studies

ETHN 3403 (3) Indigenous Rights and Red Power Movement
Deals with historical events involving conflicts between the U.S. government and American Indians. Examples include the role of the FBI in the Pine Ridge Sioux Reservation (1972-76) or the 1864 massacre of the Cheyenne and Arapaho Indians in Colorado territory. Additional courses may relate to tribal governments.

Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

Recommended: Prerequisite ETHN 1023 or ETHN 2001.

ETHN 3501 (3) Theory/Methods/Writing in Ethnic Studies
Preparation for empirical inquiry in Ethnic Studies. Emphasizes philosophy of social science and cultural studies. Students engage rigorous, theoretical concepts to understand research methods. Prepares students for writing a lengthy, cogent research paper.

Requisites: Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Ethnic Studies (ETHN) majors only.

Recommended: Prerequisite ETHN 2001.

Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Crosscultural/Comparative Studies

ETHN 3575 (3) Japanese American Internment: Critical Thinking in Sociocultural Diversity
Offers a historical overview of the Japanese American experience in the United States. Introduces and explores fundamental issues inherent in the study of human beings from the perspective of cultural social difference.

Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

Recommended: Prerequisite ETHN 1025 or ETHN 2001.

Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Crosscultural/Comparative Studies

ETHN 3578 (3) Japanese American Internment: Critical Thinking in Sociocultural Diversity
Offers a historical overview of the Japanese American experience in the United States. Introduces and explores fundamental issues inherent in the study of human beings from the perspective of cultural social difference.

Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

Recommended: Prerequisite ETHN 1025 or ETHN 2001.

Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Crosscultural/Comparative Studies

ETHN 3692 (3) African Am Music: Fr Spirituals and the Blues to Rap/Hip Hop Soul
Offers an overview of the origins and evolution of African American music. Guides students through the musical history, as well as the social, political and cultural history, of the spirituals, blues, ragtime, jazz, gospel, freedom songs, rhythm and blues, rock and roll, soul, funk, disco, techno, house, rap and hip hop soul.

Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).

Recommended: Prerequisites ETHN 1022 and ETHN 2001 and ETHN 3212.

Grading Basis: Letter Grade

Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Africana Studies

ETHN 3701 (3) Gender, Sport and Culture
Critically examines the experiences of girls and women in American sport from a psycho-socio-cultural perspective with a particular emphasis on the constructs of gender, race, class and sexuality and how these constructs both independently and collectively mediate the female sport experience. Explores theories and interpretive frameworks from sport studies, feminist studies, race studies, psychology and cultural studies.

Recommended: Prerequisite ETHN 3024.

Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Africana Studies

ETHN 3702 (3) African American Sport Experience
Provides a socio-cultural and historical overview of the contributions of African Americans (men and women) to sport in America. Focus is on the macro (patterns of behavior related to large-scale social structures and processes) and micro (behaviors we observe in society, often readily observable in the context of sport and exercise) level of sport analysis.

Recommended: Prerequisite ETHN 3024.

Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Africana Studies

ETHN 3704 (3) Athlete as a National Symbol: Nationhood/Nationalism, Sport
Explores the nationalistic terrain of US sport as a way to understand how athletes became a symbol of nationhood and how they are influenced by, and themselves influence, other aspects of US society and culture. Using historical and contemporary examples, this course examines how race, gender, sexuality, economics and the media constructed the nationalistic world of sports today.

Grading Basis: Letter Grade

Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Crosscultural/Comparative Studies

ETHN 3841 (1-6) Undergraduate Independent Study
Consult the Department of Ethnic Studies for information. Instructor consent required.

Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

Recommended: Prerequisite ETHN 2001.

Additional Information: Departmental Category: Crosscultural/Comparative Studies
ETHN 4001 (3) Screening Race, Class & Gender in the U.S. and the Global Borderland
Engaging with the ways in which racial, class, gender and sexual oppression intersect, this class examines several film productions by and about diasporic and subaltern subjects (especially children and women) in the U.S./Mexico borderlands, and the urban ethnic metropoles of the global borderlands.
Equivalent - Duplicate Degree Credit Not Granted: CINE 4001 and ETHN 5001
Requisites: Requires a prerequisite course of ETHN 2001 (minimum grade D). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Crosscultural/Comparative Studies

ETHN 4006 (3) Chicana/Chicano Native American Cultures of the U.S.
Theoretically engaged seminar considers intersections of Chicana/o and Native American studies to shape our scholarly understanding of the U.S. and Mexico borderlands. Ethnographies, historical studies, novels, film, and music will be used to understand the processes of Spanish and Euro-American colonization, neocolonialism, identity formation, gender, syncretism, and mestizaje.
Requisites: Requires a prerequisite course of ETHN 2001 or ETHN 2536 (minimum grade D). Restricted to students with 57-180 credits (Juniors or Seniors).

ETHN 4084 (3) Punishment, Law and Society
Places the current state of punishment in the U.S. in historical and cross national context. Examines key features of penal systems and key sociological theories about the relationship between punishment and society. Department enforced prerequisite: SOCY 1001 or SOCY 1004.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 4084
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Crosscultural/Comparative Studies

ETHN 4102 (3) Special Topics in Africana Studies
Variable topic that allows intensive coverage of a subject, theme, or issue in African American studies.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 5102
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of ETHN 1022 or ETHN 2001 (minimum grade D). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Africana Studies

ETHN 4106 (3) Special Topics in Chicana and Chicano Studies
Examines a particular topic, theme, issue or problem concerning Chicana and Chicano studies.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4106
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Requires a prerequisite course of ETHN 2001 or ETHN 2536 (minimum grade D). Restricted to students with 57-180 credits (Juniors or Seniors).

ETHN 4116 (3) Spoken Word Latinx Poetics and Poetry
This is a writing intensive workshop in contemporary poetry writing and Chicana/o and Latina/o poetics—specifically, Nuyorican and Afro-Latino (the Nuyorican Poets Cafe). The purpose of the course is dual-fold: 1) students will be encouraged and empowered to express and develop their poetic voice; 2) students will be challenged to develop and refine their poetic craft. Examines primarily Chicana and Latino specific poetic expression that reflects the cultural mestizaje of Chicano/a and Latina/o peoples.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 5116
Requisites: Requires a prerequisite course of ETHN 2001 (minimum grade D). Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite 6 credits in any ETHN class.

ETHN 4213 (3) Indigenous Futurisms: Speculative Genres and Native Tomorrows
Examines how Indigenous authors, artists and filmmakers have recently begun exploring the genres of Horror, Science Fiction and Fantasy. Considers this shift in light of past and present Native realities. Explores why this shift is happening now, how it helps communities and individuals make political statements, address/redress historical subjects and help to build better futures for us all.
Requisites: Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade

ETHN 4232 (3) The Life and Thought of Martin Luther King Jr
An intensive exploration and examination of the life and thought of the Rev. Dr. Martin Luther King Jr. Special emphasis on the stages of his life and their corresponding productions.
Requisites: Requires a prerequisite course of ETHN 1022 or ETHN 2001 (minimum grade D). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Africana Studies

ETHN 4233 (3) Native American and Indigenous Environmental Issues
Explores the unique knowledges, practices and perspectives of Native American and Indigenous peoples with regard to environmental issues, and how they both contrast with and complement dominant ways of knowing. Views central themes of Land, Plants, Animals, and Air/Water through political-ecological lenses. Critically assesses historical and contemporary Indigenous environmental matters in the contexts of colonial histories and tribal sovereignty.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 5233
Recommended: Prerequisite ETHN 1023 or ETHN 2013.
ETHN 4272 (3) W.E.B. Du Bois Seminar
Analyzes the life and thought of W.E.B. Du Bois for its contributions to interdisciplinary and intersectional studies. Emphasis will be placed on the innovative interdisciplinary and intersectional nature of Du Bois's epistemology and research methodology, as well as his participation in radical political and social movements.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 5272
Requisites: Requires a prerequisite course of ETHN 1022 or ETHN 2001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Ethnic Studies (ETHN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Africana Studies

ETHN 4306 (3) The Chicana and Chicano and U.S. Social Systems
Gives special attention to ways U.S. institutions (i.e., legal, economic, educational, governmental and social agencies) affect Chicanas and Chicanos. Discusses internal colonialism, institutional racism, assimilation and acculturation, and identity.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 5306
Requisites: Requires a prerequisite course of ETHN 2001 or ETHN 2536 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Chicana/o Studies

ETHN 4353 (3) Indigenous Traditions and Law: A Global Perspective
Explores intersections of indigenous religions and law through historical and contemporary case studies. American Indian and Hawaiian contexts will be featured, as well as the study of the United Nations Declaration on the Rights of Indigenous Peoples and its recent implementation in places as diverse as Bolivia, Norway and Nagaland. Theoretical issues in the academic study of religion and ethnic studies will be emphasized.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 5353 and RLST 4353 and RLST 5353
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Cultural Studies
Departmental Category: Crosscultural/Comparative Studies

ETHN 4504 (3) Ethnic-American Autobiography
Investigates the genre of autobiography in America from its inception to the present. American autobiography has been associated with the invention of national character and, thus, is a site of cultural contestation and identity formation. Its changing form crosses disciplinary lines and provides a site for discourses on ethnicity, class, gender, sexuality, age, family, religion and other American cultural conflicts.
Requisites: Requires a prerequisite course of ETHN 2001 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: American Studies

ETHN 4552 (3) The Harlem Renaissance: Fr Black Wmn's Club Mvmnt to Hip Hop
Offers an interdisciplinary and intersectional overview of the origins and evolution of the Harlem Renaissance. Explores classic texts, music and works of art emerging from the Harlem Renaissance and related events and movements of its epoch: the Black Women's Club Movement, New Negro Movement, Pan-African Movement, Lost Generation, Jazz Age, World War I and World War II.
Equivalent - Duplicate Degree Credit Not Granted: HUMN 4552 and ETHN 5552
Requisites: Requires prerequisite course of ETHN 1022 or ETHN 2001 or ETHN 3212 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Grading Basis: Letter Grade
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: African American Studies

ETHN 4553 (3) Indigenous Representations in the United States
Examines the relationship and negotiation of culture/status/place through representation(s) within and concerning Indigenous peoples/communities. Focuses on U.S. representational forms in popular experiences e.g., literature, film, media and the roots of those representations via legal and medical definitions. This investigation and analysis is supplemented with focus on gender as well as contextualization through global Indigenous portrayals.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 5553
Requisites: Requires a prerequisite course of ETHN 2001 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Recommended: Prerequisite ETHN 1023.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: American Indian Studies

ETHN 4632 (3) Frantz Fanon Seminar
Analyzes the life and thought of Frantz Fanon for its contributions to interdisciplinary and intersectional studies. Emphasis will be placed on the innovative interdisciplinary and intersectional nature of Fanon's psychology, sociology and philosophical anthropology, as well as his participation in African and Caribbean anti-colonial movements.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 5632
Requisites: Requires a prerequisite course of ETHN 1022 or ETHN 2001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Ethnic Studies (ETHN) majors only.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Africana Studies

ETHN 4672 (3) Seminar on the Civil Rights and Black Power Movements
A review of the ideas, events, persons, organizations oriented to the quest for African American social justice in the decade of the sixties.
Requisites: Requires a prerequisite course of ETHN 1022 or ETHN 2001 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Africana Studies
ETHN 4692 (3) Special Topics in Multicultural and Ethnic American Literature
Provides advanced in-depth study of literatures written by ethnic American authors. Texts may be drawn from a range of African-American, Chicano/a, Latino/a, Asian American, Native American or Indigenous literature traditions. Topics vary each semester.
Equivalent - Duplicate Degree Credit Not Granted: ENGL 4697
Requisites: Requires a prerequisite course of ETHN 1022 or ETHN 2001 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Africana Studies

ETHN 4714 (3) Sport for Social Justice
Takes a look at the nuanced and controversial relationship between sport and peace. Although sport is heralded as a powerful tool for social good, drawing attention to causes such as conflict resolution, HIV prevention, environmental initiatives and improved international relationships, it also continues to reflect and reproduce social inequalities in ways commonly overlooked.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 5714
Requisites: Restricted to students with 87-180 credits (Senior, Fifth Year Senior).
Recommended: Prerequisite ETHN 3024.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Crosscultural/Comparative Studies

ETHN 4841 (1-6) Independent Study
Work with an approved faculty sponsor to explore a topic in greater depth. Instructor consent required.
Repeatable: Repeatable for up to 6.00 total credit hours.
Recommended: Prerequisite ETHN 2001.
Additional Information: Departmental Category: Crosscultural/Comparative Studies

ETHN 4951 (3) Senior/Graduate Seminar in Ethnic Studies
Capstone experience in Ethnic Studies. Includes an independent research project and public presentation.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 5951
Requisites: Requires prerequisite courses of ETHN 2001 and ETHN 3501 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences
Departmental Category: Crosscultural/Comparative Studies

ETHN 4961 (3) Honors Thesis 1
Supervised original research project in the field of ethnic studies. The goal is to make substantial progress on a written honors thesis that will be orally defended and submitted to the Honors Program of the College of Arts and Sciences. Department enforced prerequisite: application and acceptance into the ETHN Honors Program.
Requisites: Requires a prerequisite course of ETHN 2001 (minimum grade D-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Ethnic Studies (ETHN) majors only.
Additional Information: Arts Sciences Honors Course
Departmental Category: Crosscultural/Comparative Studies

ETHN 4971 (3) Honors Thesis 2
Supervised original research project in the field of ethnic studies. The goal is to complete progress on a written honors thesis that will be orally defended and submitted to the Honors Program of the College of Arts and Sciences. Department enforced prerequisite: application and acceptance into the ETHN Honors Program.
Requisites: Requires prerequisite courses of ETHN 2001 and ETHN 4961 (all minimum grade D-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Ethnic Studies (ETHN) majors only.
Additional Information: Arts Sciences Honors Course
Departmental Category: Crosscultural/Comparative Studies

ETHN 5001 (3) Screening Race, Class & Gender in the U.S. and the Global Borderland
Engaging with the ways in which race, class, gender and sexual oppression intersect, this class examines several film productions by and about diasporic and subaltern subjects (especially children and women) in the U.S./Mexico borderlands, and the urban ethnic metropoles of the global borderlands.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4001 and CINE 4001
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Crosscultural/Comparative Studies

ETHN 5102 (3) Special Topics in Africana Studies
Variable topic that allows intensive coverage of a subject, theme, or issue in African American studies.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4102
Repeatable: Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Africana Studies

ETHN 5106 (3) Special Topics in Chicana and Chicano Studies
Examines a particular topic, theme, issue or problem concerning Chicana and Chicano studies.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4106
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Africana Studies

ETHN 5116 (3) Spoken Word Latinx Poetics and Poetry
This is a writing intensive workshop in contemporary poetry writing and Chicana/o and Latina/o poetry specifically. Nuyorican and Afro-Latino (the Nuyorican Poets Cafe). The purpose of the course is dual-fold: 1) students will be encouraged and empowered to express and develop their poetic voice; 2) students will be challenged to develop and refine their poetic craft. Examines primarily Chicana and Latino specific poetic expression that reflects the cultural mestizaje of Chicano/a and Latina/o peoples.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4116
Recommended: Requisite 6 credits in any ETHN class.
Additional Information: Departmental Category: Chicana/o Studies

ETHN 5116 (3) Spoken Word Latinx Poetics and Poetry
This is a writing intensive workshop in contemporary poetry writing and Chicana/o and Latina/o poetry specifically. Nuyorican and Afro-Latino (the Nuyorican Poets Cafe). The purpose of the course is dual-fold: 1) students will be encouraged and empowered to express and develop their poetic voice; 2) students will be challenged to develop and refine their poetic craft. Examines primarily Chicana and Latino specific poetic expression that reflects the cultural mestizaje of Chicano/a and Latina/o peoples.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4116
Recommended: Requisite 6 credits in any ETHN class.
Additional Information: Departmental Category: Chicana/o Studies
ETHN 5233 (3) Native American and Indigenous Environmental Issues
Explores the unique knowledges, practices and perspectives of Native American and Indigenous peoples with regard to environmental issues, and how they both contrast with and complement dominant ways of knowing. Views central themes of Land, Plants, Animals, and Air/Water through political-ecological lenses. Critically assesses historical and contemporary Indigenous environmental matters in the contexts of colonial histories and tribal sovereignty.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4233
Recommended: Prerequisite ETHN 1023 or ETHN 2013.
Additional Information: Departmental Category: American Indian Studies

ETHN 5272 (3) W.E.B. Du Bois Seminar
Analyzes the life and thought of W.E.B. Du Bois for its contributions to interdisciplinary and intersectional studies. Emphasis will be placed on the innovative interdisciplinary and intersectional nature of Du Bois’s epistemology and research methodology, as well as his participation in radical political and social movements.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4272
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: African Studies

ETHN 5306 (3) The Chicana and Chicoano and U.S. Social Systems
Gives special attention to ways U.S. institutions (i.e., legal, economic, educational, governmental and social agencies) affect Chicanas and Chicanos. Discusses internal colonialism, institutional racism, assimilation and acculturation, and identity.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4306
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Chicana/o Studies

ETHN 5353 (3) Indigenous Traditions and Law: A Global Perspective
Explores intersections of indigenous religions and law through historical and contemporary case studies. American Indian and Hawaiian contexts will be featured, as well as the study of the United Nations Declaration on the Rights of Indigenous Peoples and its recent implementation in places as diverse as Bolivia, Norway and Nagaland. Theoretical issues in the academic study of religion and ethnic studies will be emphasized.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4353 and RLST 4353 and RLST 5353
Additional Information: Departmental Category: Crosscultural/Comparative Studies

ETHN 5552 (3) The Harlem Renaissance: Fr Black Wmn's Club Mvmnt to Hip Hop
Offers an interdisciplinary and intersectional overview of the origins and evolution of the Harlem Renaissance. Explores classic texts, music and works of art emerging from the Harlem Renaissance and related events and movements of its epoch: the Black Women's Club Movement, New Negro Movement, Pan-African Movement, Lost Generation, Jazz Age, World War I and World War II.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4552 and HUMN 4552
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Africana Studies

ETHN 5553 (3) Indigenous Representations in the United States
Examines the relationship and negotiation of culture/status/place through representation(s) within and concerning Indigenous peoples/communities. Focuses on U.S. representational forms in popular experiences e.g., literature, film, media and the roots of those representations via legal and medical definitions. This investigation and analysis is supplemented with focus on gender as well as contextualization through global Indigenous portrayals.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4553
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: American Indian Studies

ETHN 5632 (3) Frantz Fanon Seminar
Analyzes the life and thought of Frantz Fanon for its contributions to interdisciplinary and intersectional studies. Emphasis will be placed on the innovative interdisciplinary and intersectional nature of Fanon’s psychology, sociology and philosophical anthropology, as well as his participation in African and Caribbean anti-colonial movements.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4632
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Africana Studies

ETHN 5714 (3) Sport for Social Justice
Takes a look at the nuanced and controversial relationship between sport and peace. Although sport is heralded as a powerful tool for social good, drawing attention to causes such as conflict resolution, HIV prevention, environmental initiatives and improved international relationships, it also continues to reflect and reproduce social inequalities in ways commonly overlooked.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4714
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Crosscultural/Comparative Studies

ETHN 5951 (3) Senior/Graduate Seminar in Ethnic Studies
Capstone experience in Ethnic Studies. Includes an independent research project and public presentation.
Equivalent - Duplicate Degree Credit Not Granted: ETHN 4951
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Crosscultural/Comparative Studies

ETHN 6000 (3) Foundations of Comparative Ethnic Studies
Examines theories of race, ethnicity, gender, sexuality, colonialism and globalization, especially from the perspectives of communities most impacted by these categories and processes. This is the introductory course for graduate work in Comparative Ethnic Studies.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Crosscultural/Comparative Studies

ETHN 6001 (3) Research Methods in Comparative Ethnic Studies
Examines various humanistic and social science research methodologies and applies critical frameworks (including feminist, queer, Indigenous and decolonial theories) to research through an intersectional lens committed to analyzing race, class, gender and sexuality as interconnected, knowledge-producing systems of power. Examines how Ethnic Studies scholars can engage with social justice projects by producing knowledge in cutting edge ways.
Requisites: Requires prerequisite course of ETHN 6000 (minimum grade C). Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Crosscultural/Comparative Studies
ETHN 6002 (1) Professionalization Seminar in Comparative Ethnic Studies
Provides graduate students with professionalization skills, including how to prepare a national fellowship application, how to give a successful job talk, how to publish refereed journals and book volumes and how to approach the academic job market.
Requisites: Restricted to Ethnic Studies (ETHN) graduate students only.
Grading Basis: Pass/Fail
Additional Information: Departmental Category: Crosscultural/Comparative Studies

ETHN 6011 (3) Race and Sexuality Studies
Examines primary texts in queer studies and queer theory while challenging colonial heteronormative and homonormative studies that exclude queers of color and their life experiences. Readings include works by Gloria Anzaldúa, Jose Munoz, Audre Lorde, David Eng, Judith Butler, Judith Halberstam, and Michel Foucault. Topics such as queer borderlands, citizenship, racialized and transgender identities will be interrogated.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Crosscultural/Comparative Studies

ETHN 6014 (3) Gender, Race, Class, and Crime
Examines crime and the criminal legal system practices through the lens of intersecting oppressions, particularly racism, sexism, heterosexism and classism.
Equivalent - Duplicate Degree Credit Not Granted: SOCY 7014
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Crosscultural/Comparative Studies

ETHN 6100 (3) Race and Citizenship in U.S. History and Culture
Examines how the cultural and legal bounds of U.S. citizenship have been linked to race, gender, labor, class, and sexuality. Analyzes the experiences of racialized and gendered groups to explore the racial formations, exclusions and contradictions inherent with the institution of citizenship.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Crosscultural/Comparative Studies

ETHN 6101 (1-6) Topics: Specialized Comparative Studies
Focuses on a variety of advanced interdisciplinary studies. Themes include: Race and Sports, Critical Whiteness Studies, Race and Masculinity, Applied Community Engagement, Black Women in the Diaspora, US/Mexico Border Cultures, Criminalization and Latinas/os, Race, Violence and Film, and Cuba and Tourism.
Repeatable: Repeatable for up to 6.00 total credit hours.
Requisites: Restricted to graduate students only.
Recommended: Requisite ETHN coursework.
Additional Information: Departmental Category: Crosscultural/Comparative Studies

ETHN 6103 (3) Indigenous Thought and Theory: Foundations in NAIS
Introduces the theoretical landscapes of Native American and Indigenous Studies. Explores debates, methodologies and concerns that ground the field and provides critical engagement with Indigenous communities and knowledges. Teaches standards for evaluating scholarly sources based on criteria derived from the most outstanding recent scholarship in the field. Requires writing and thinking critically about issues of concern for global indigenous communities.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: American Indian Studies

ETHN 6110 (3) Adv Tpcs: Chicana/o Studies: US/Mexico Borderlands
Examines complex histories, cultural practices and liminal, 3rd spaces of the US and Mexico borderlands; racial and gender identities; community formations. Considers a range of autobiographic testimony narratives, films, social and legal studies, and theories of subjectivity that engage with the politics of representation via a vis the criminalization of Chicana/o and ethnic youth, immigrants and those perceived to be immigrants.
Equivalent - Duplicate Degree Credit Not Granted: RLST 6110
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Chicana/o Studies

ETHN 6301 (3) Decolonial/Postcolonial Theory
Offers an overview of the origins and evolution of Decolonial/Postcolonial Theory. Critically compares and contrasts decolonial discourse with postcolonial theory. Examines the sociopolitical and cultural hegemony of western epistemology and methodological approaches. Focuses on the study of race, gender, colonialism, imperialism, nationalism, and classism.
Requisites: Restricted to graduate students only.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Crosscultural/Comparative Studies

ETHN 6501 (3) Critical Race Theory: Soc Scnc Explrtn/Intrvntn into Crit Race St
Offers an overview of the origins and evolution of Critical Race Theory (CRT). Critically compares and contrasts legal and extralegal social science approaches to CRT. Examines the sociopolitical and cultural hegemony of western epistemology and methodological approaches. Focuses on the study of race, gender, colonialism, imperialism, nationalism, and classism.
Grading Basis: Letter Grade
Additional Information: Departmental Category: Crosscultural/Comparative Studies

ETHN 6841 (1-6) Advanced Directed Readings in Ethnic Studies
This is a graduate level directed readings course designed to expand student knowledge in a particular area of concentration with a broad interdisciplinary and comparative framework. These areas of concentration include work in Africana, American Indian, Asian American, Chicana and Chicano and Transnational/Hemispheric ethnic studies.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Requisites: Restricted to graduate students only.
Additional Information: Departmental Category: Crosscultural/Comparative Studies

ETHN 8990 (1-10) Doctoral Dissertation
All doctoral students must register for a minimum of 30 hours of dissertation credit as part of the requirements for the degree. For a detailed discussion of doctoral dissertation credit, refer to the Graduate School section.
Repeatable: Repeatable for up to 30.00 total credit hours.
Additional Information: Departmental Category: Crosscultural/Comparative Studies
Experience Design (TDXD)

Courses

**TDXD 5005 (3) Design Theory**
Interrogates the principals, theories and philosophies that scaffold successful and innovative design with specific application to the design of immersive and interactive experiences and across a range of commercial, performative and cultural contexts. Activities will clarify how the philosophies of design support the core story-telling and interactive elements of experience designs.

**Requisites:** Restricted to Experience Design (TDXD MFA) students only.

**Additional Information:** Departmental Category: Experience Design: Technique

**TDXD 5105 (3) Collaboratory in Experience Design 1**
Addresses philosophies of storytelling through experience and the general concepts and aesthetics of Experience Design. The first in a two-part series, this course lays foundational principles focusing on the components of a live experience and how space, narrative and interaction affect the design from early conceptualization through implementation.

**Requisites:** Restricted to Experience Design (TDXD MFA) students only.

**Additional Information:** Departmental Category: Experience Design: Process

**TDXD 5500 (3) Experience Design Atelier 1: Design Evolution and Expression**
Introduces students to various techniques for graphically representing design ideas using drawing and illustration techniques in order to augment and deepen the diverse skill sets of students in the class. The first in a three-part sequence on graphic representation and expressive practices, students will learn how to work out design ideas through sketching, drawing, creating storyboards and collages.

**Requisites:** Restricted to Experience Design (TDXD MFA) students only.

**Additional Information:** Departmental Category: Experience Design: Technique

**TDXD 5700 (3) Experience Design Atelier 2: Introduction to Design Graphics**
Introduces students to advanced techniques for representing design ideas in graphic form including commonly used software applications (Sketchup, Vectorworks, AutoCAD), scale modeling, mechanical drawing and rendering. The second in a three-part sequence on graphic representation and expressive practices, this atelier will offer a range of exercises tailored to the skill level of individual students.

**Requisites:** Requires a prerequisite course of TDXD 5500 (minimum grade B-). Restricted to Experience Design (TDXD MFA) students only.

**Additional Information:** Departmental Category: Experience Design: Technique

**TDXD 5805 (6) Professional Portfolio 1**
Focuses on selecting, organizing and developing a plan for presenting material that will eventually culminate in the completion of a competitive professional portfolio, a vital tool for gaining employment in the Experience Design industry. The first of a two-part credited final project, students begin the process to prepare their professional portfolio under the guidance of faculty and industry professionals.

**Requisites:** Restricted to Experience Design (TDXD MFA) students only.

**Additional Information:** Departmental Category: Experience Dsgn: Documentation

**TDXD 6105 (3) Collaboratory in Experience Design 2**
Introduces students to professional models of working in the Experience Design industry. The second in a two-part class sequence, students work collaboratively on industry case studies focusing on entertainment, education and cultural destination genres with input from outside professionals in the field.

**Requisites:** Requires a prerequisite course of TDXD 5105 (minimum grade B-). Restricted to Experience Design (TDXD MFA) students only.

**Additional Information:** Departmental Category: Experience Design: Process

**TDXD 6210 (3) Storytelling for XD**
Explores multi-modal, expressive strategies for experimental storytelling and investigates the diverse languages of live experience. Students complete projects using varying modes of conveyance including physical and spatial action, filmic approaches, digital media and alternative methods. Students will discuss current trends in expressive methods and the nature of story.

**Requisites:** Restricted to Experience Design (TDXD MFA) students only.

**TDXD 6500 (3) Experience Design Atelier 3: Packaging the Design Presentation**
Investigates strategies for visually communicating and “selling” design ideas in a compelling and well composed visual/aural presentation. The third in a three-part sequence on graphic representation and expressive practices, this class culminates in a comprehensive design portfolio that follows current professional standards.

**Requisites:** Requires a prerequisite course of TDXD 5700 (minimum grade B-). Restricted to Experience Design (TDXD MFA) students only.

**Additional Information:** Departmental Category: Experience Design: Technique

**TDXD 6555 (3) Experience Design Technology**
Explores established and cutting-edge technologies employed in visual, auditory, and interactive elements of designed environments and experiences. Develops an understanding of the function of these areas, the ways in which they facilitate a complete experience and examines new directions of experimentation in these fields. Elicits research, analysis, and development of new concepts in response to current practices and design problems.

**Requisites:** Restricted to Experience Design (TDXD MFA) students only.

**TDXD 6805 (6) Professional Portfolio 2**
Through editing materials collected in TDXD 5805, students will complete adaptable versions (hard copy, digital, web-based and presentations) of their professional portfolios. In this second of a two-part credited project, a committee comprised of faculty and industry professionals guide the completion of XD portfolios.

**Requisites:** Requires a prerequisite course of TDXD 5805 (minimum grade B-). Restricted to Experience Design (TDXD MFA) students only.

**Additional Information:** Departmental Category: Experience Dsgn: Documentation

**TDXD 6849 (3-6) Independent Study**
**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**TDXD 6901 (3) XD Implementation and Engineering**
Explores the realities and challenges of implementing themed entertainment design. Within the framework of project based case studies and a real work project, this course analyzes aspects of construction management, client management and approvals, scheduling, budgeting, value engineering, architecture and design.

**Requisites:** Restricted to Experience Design (TDXD MFA) students only.
TDXD 6910 (3-6) The Experience Design Center
Offers Experience Design students an opportunity to engage in and complete projects posed by industry professionals or non-profit partners seeking assistance with experiential projects in a professional, practicing lab/studio setting. The XD Center, house in a campus “maker-space,” accepts design challenges and assignments that provide a realistic field experience for students.

Requisites: Restricted to Experience Design (TDXD) MFA students only.

Farrand Residential Academic Program (FARR)

Courses

FARR 1000 (1) Farrand Service-Learning Practicum: Special Topics
Offers a varying service-learning practicum experience as corequisite to a service-learning lecture course.
Repeatable: Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.
Grading Basis: Pass/Fail

FARR 1003 (1) Banned Books and the First Amendment
Focuses on a heated topic of discussion since the Constitution was drafted: the censorship of books. Looks at some classics in literature: Catcher in the Rye, The Color Purple and Huck Finn, and will explore the questions of why they were controversial and whether censorship of books is ever justified.
Grading Basis: Pass/Fail

FARR 1100 (1) Passport to Literature in the Humanities
Designed to build on Farrand's strength in the humanities, this course provides first-year students with the tools to think critically and independently and to engage in thoughtful discourse. It offers several short articles selected to provide a sense of community, and also one or two literary works chosen for more in-depth analysis and exploration.
Grading Basis: Letter Grade

FARR 1562 (3) Gandhi's Satyagraha: Love in Action for Humans and Other Creatures
Class texts and films explore social justice and structural violence in regard to humans, animals, and the environment in the light of a Gandhian approach to these issues. Outreach work in the community is included.
Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences Departmental Category: Asia Content

FARR 2000 (3) Farrand Seminar in the Humanities and the Arts
Studies an aspect of the theme of the Center for Humanities Seminar Program each year, and will be taught by faculty participants in the Center’s fellowship program.
Repeatable: Repeatable for up to 6.00 total credit hours.

FARR 2002 (3) Literature of Lifewriting
Examines how diverse writers have created unique personal narratives that shape memory within historical and social contexts. Works will exemplify a wide range of literary structures, themes, and strategies that enhance an understanding of the genre and provide models for students’ own life writing assignments.

FARR 2510 (3) Exploring Good and Evil through Film
Studies films that depict the best and worst sides of our nature and our capacities both good and evil. It considers how representations of zombies, aliens, cowboys, villains and bad girls reveal what society represses in order to believe in order and goodness. Investigates how the figure of the detective or the hero relies on the criminal or the villain to create his virtue, even as he tries to destroy evil. Topics addressed will be: forms of evil, monstrous women, cowboy heroes, detective evil.

FARR 2660 (3) Ethics of Ambition
Through selected readings in classical literature on ethics and through more contemporary readings and films, examines critical ethical issues relating to the competition of ambitions and the alternative styles of choosing between courses of action in a dangerous world. Uses biographies of those whose lives illustrate both the complexities of the struggles and the profundity of possibilities. Considers the unconscious metaphors of national visions and ambitions, the competing ethics of ends and means, the conflicting ambitions in a pluralistic society, and the transcendent ambitions of visionaries.
Equivalent - Duplicate Degree Credit Not Granted: HONR 2250

FARR 2820 (3) Future of the Spaceship Earth
Examines major ecological, political, economic, cultural, legal, and ethical issues that will shape the future. Students consider how their decisions influence the future, and reflect on fundamental values and ideals underlying the search for solutions to these complex problems.

Farsi (FRSI)

Courses

FRSI 1010 (5) Beginning Farsi 1
Provides a grounding in basic Persian Farsi grammar. The morphological and phonological nuances of the language will be introduced, along with Persian culture. Basic conversation is reinforced on a daily basis with strong emphasis and reiteration upon the homework and covered grammar.

FRSI 1011 (3) Introduction to Persian Civilization
An introduction to the history, literature and art of Iranian (Persian) civilization with a focus on the social and cultural aspects of contemporary Iran. Taught in English.
Additional Information: Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Farsi Courses in English Departmental Category: Asia Content
FRSI 1020 (5) Beginning Farsi
Continuation of FRSI 1010. Completes the presentation of basic structures of Farsi. Continued acquisition of vocabulary and practice of speaking, listening, reading, and writing. Class conducted largely in Farsi. The second half of the course will introduce authentic texts of Persian prose literature. Some poetry may be included.
Requisites: Requires prerequisite course of FRSI 1010 (minimum grade C).
Additional Information: Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Farsi
Departmental Category: Asia Content

FRSI 1051 (3) Masterpieces of Persian Literature in Translation
Offers a broad introduction to Persian literature, one of the richest traditions in world literature. Students will read a selection of poetry by Rumi, Hafiz, Omar Khayyam, as well as a variety of works written by leading Iranian contemporary poets and writers. Through a close reading of literary texts, this course emphasizes their historical and cultural context. Taught in English
Additional Information: Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Farsi Courses in English

FRSI 2110 (4) Intermediate Farsi 1
Provides an intensive introduction to cultural and literary texts of Iran, along with an introduction of the grammatical and rhetorical complexities of Persian prose and poetry. Students continue to develop speaking, listening, and writing skills through activities based on the readings.
Requisites: Requires prerequisite course of FRSI 1020 (minimum grade C).
Additional Information: Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Arts Sci Gen Ed: Foreign Language
Departmental Category: Farsi
Departmental Category: Asia Content

FRSI 2120 (4) Intermediate Farsi 2
Continuation of FRSI 2110. Incorporates more readings in Persian literature, both poetry and prose, and cultural readings. Students continue developing speaking, listening and writing skills based on the readings.
Requisites: Requires prerequisite course of FRSI 2110 (minimum grade C).
Additional Information: Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Farsi
Departmental Category: Asia Content

FRSI 3110 (3) Advanced Farsi 1
An intensive introduction to both Persian philology and the contemporary novel. Textual analysis of texts ranging from complex to very complex will enable the students to gain a strong grounding in Persian literary texts. Students continue developing speaking, listening, and writing skills through activities based on the readings.
Requisites: Requires prerequisite course of FRSI 2120 (minimum grade C).
Additional Information: Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Farsi
Departmental Category: Asia Content

FRSI 3120 (3) Advanced Farsi 2
This course is the continuation of FRSI 3110. The focus will be on the reading and discussion of canonical literary texts as well as on language and media. Students continue developing speaking and listening skills through activities based on the readings and develop the ability to write short papers (3-5 pages) in Farsi.
Requisites: Requires prerequisite course of FRSI 3110 (minimum grade C).
Additional Information: Arts Sci Core Curr: Foreign Language
Arts Sci Gen Ed: Distribution-Arts Humanities
Departmental Category: Farsi
Departmental Category: Asia Content

FRSI 4900 (1-4) Independent Study
Department consent required.
Repeatable: Repeatable for up to 8.00 total credit hours.
Additional Information: Departmental Category: Farsi
Departmental Category: Asia Content

Finance (FNCE)

Courses

FNCE 2010 (3) Fundamentals of Financial Analysis
Prepares students for financial analysis. Covers mathematical and statistical topics required for such analysis, including derivatives, optimization, integration, probability, inference and regression. Students will become proficient in using the tools and applying them to various financial contexts using analytics Excel, and R.
