

Research & Innovation Office

University of Colorado Boulder

CU Boulder is committed to being the driving force behind a **dynamic research and innovation ecosystem** emanating from Colorado's Front Range, with **far-reaching impact** on the state, the nation and beyond.

 rio@colorado.edu  colorado.edu/rio

Research Operations & Administration colorado.edu/researchinnovation/ops

Our **Operations and Administration** teams provide essential services to bolster the university's research and creative work enterprise.

Office of Contracts and Grants

Partners with faculty, staff and students to manage external support for sponsored activities

Program Management Office

Offers centralized project management expertise and strategic guidance

Research & Clinical Professor Series

Outlines the evaluation process for appointment, reappointment and promotion

Other Resources

Finance and budget support for RIO and the Institutes; centralized research faculty support

Research Security & Integrity colorado.edu/researchinnovation/rsi

The **Research Security and Integrity** teams are responsible for leading efforts to ensure the campus's adherence to compliance requirements.

IACUC

Facilitates ethically responsible non-human animal research

Office of Animal Resources

Provides high-quality veterinary care and support for research and teaching

Conflicts of Interest & Commitment

Manages disclosures of external professional activities to prevent conflicts of interest

Controlled Substances

Oversees research activities involving substances regulated by federal and state laws

Office of Export Controls

Helps faculty navigate federal export control laws and regulations

Human Research & IRB

Protects the rights and welfare of subjects involved in human research

Research Misconduct

Responds to allegations of plagiarism, fabrication or falsification of data

Responsible Conduct of Research

Trains researchers in current standards and best ethical practices

QA/QI Program

Performs best practice reviews for investigators who conduct human research

Research Security

Ensures campus adherence to security requirements

Research & Innovation Office *cont'd*

Research Strategy & Development

colorado.edu/researchinnovation/rd

The **Research Strategy & Development** team sponsors and identifies funding opportunities, develops grant-seeking capacity among PIs, provides proposal development support and more.

Funding Opportunities

Connects faculty with new opportunities, and sponsors internally-funded programs

Proposal Development

Enhances proposal competitiveness through strategy consultations, editing and graphic support

Faculty Development & Workshops

Strengthens grant-writing skills and fosters research leadership

Core Facilities & Shared Instrumentation

Provides access to state-of-the-art equipment and technical services

Office of Postdoctoral Affairs

Offers training and career development for postdocs at CU Boulder

Other Resources

Connects scholars with writing programs, graphic design support, broader impacts and more

Research Initiative

Innovation & Partnerships

colorado.edu/researchinnovation/partnerships

The **Innovation & Partnerships** team cultivates powerful partnerships with entrepreneurs, government and industry to accelerate research from idea to impact.

Venture Partners at CU Boulder

Unites industry, entrepreneurs and investors to help faculty translate their research into impact

Innovation & Entrepreneurship

Integrates our vibrant startup ecosystem to foster a culture of entrepreneurship

Workforce Development

Provides inspiration, education and resources to build flexible and impactful learner programs

Industry Research Partnerships

Catalyzes and streamlines industry-sponsored research collaborations

Research Institutes & Centers

colorado.edu/researchinnovation/institutescenters

CU Boulder's **Research Institutes and Centers** are helping solve the most challenging scientific and societal challenges of the 21st century.

Research Institutes

The university's 12 institutes employ some of the most productive researchers in the country

Research Centers

Our 75+ research centers span the campus, covering a broad range of topics
