

EARN YOUR ARCHITECTURAL LIGHTING CERTIFICATE

GRADUATE-LEVEL EDUCATION FOR INDUSTRY PROFESSIONALS

Grow your understanding and proficiency in lighting with a three-course certificate that blends online learning with a week-long on-campus intensive.

Architectural Lighting I

online course meets M/W 5-6:30 p.m. MT; begins after Labor Day for 14 weeks

Discover the fundamentals of architectural lighting systems and human responses to light.

Architectural Lighting II

online course meets M/W 5-6:30 p.m. MT; begins after MLK Day for 14 weeks

Explore how technical information about lighting systems is used for design concepts and learn advanced design practices, metrics, and software tools.

Architectural Lighting Capstone

online course + on campus in Boulder for a week-long intensive in July

Learn through an immersive hands-on experience using facilities and equipment available on the CU Boulder campus.
