NMR Spectroscopy Facility:  
http://chemnmr.colorado.edu

- Maintained by Department of Chemistry & Biochemistry
- Currently supports ~ 300 Internal users from 49+ research groups
- Serves 10-12 private companies in a typical year, as available, each handled on a case-by-case basis. (no interference with internal research needs)
- If you think NMR might help in your research, contact me and we can discuss your needs: Richard.Shoemaker@Colorado.edu

Instruments available for Hands On access for University Faculty, Staff, & Students

**Liquid/Solution State NMR:**
- **JSCBB NMR Core: Bruker Avance-III 400 NMR Spectrometer** (9.49 Tesla field)
- **Varian Inova 500 NMR Spectrometer** (11.74 Tesla field)
- **Bruker Avance-III 300 NMR Spectrometer** (7.05 Tesla field)

**Liquid & Solid-State NMR:**
- **Varian INOVA 400 NMR Spectrometer** (9.39 Tesla field)

**Computational Resources in the NMR Facility**
