

# The Child Learning Center (CLC)

*Part Time Preschool Program*  
*Ages 2.5 years – Kindergarten Age*

## 2025-2026 SCHOOL YEAR

Serving children and families in our community for over 50 years.

Monday, Wednesday, & Friday, 8:45 am -1:00 pm

### Approach to Learning:

The CLC welcomes **ALL** children, including those who are neurodiverse and children without developmental concerns. We embrace diversity in all its forms and strive to provide equitable care to each family.

"A Boulder Gem!"

#### At CLC Preschool:

- We use the Storybook Journey curriculum. This is a child-centered and play-based curriculum that responds to each child's interests, strengths, and areas for development.
- Our highly qualified team supports all areas of development: communication, early literacy, social-emotional, gross and fine motor, and cognition and pre-academic skills.
- We do music, movement, and mindfulness every day!
- We have literacy program that incorporates the Learning Without Tears curriculum in partnership with research based methods for supporting pre-literacy skills.
- We provide a healthy, allergen-free snack each day and children bring their own lunch to enjoy with their peers.

#### Unique Features:

- Very high staff retention rates! We pride ourselves on our committed and professional team that consists of an Early Childhood Teacher, Early Childhood Special Education Teacher, Speech Language Pathologist, and Occupational Therapist.
- Each family teams up with CLC staff to develop goals based on family priorities.
- Notes and activities are sent home to families regularly.
- Portfolio of learning and development is created each semester.
- Large outdoor natural space and playground
- Children have a special teacher (MA-SLP Graduate Student) who will support them in the classroom and work closely with the family.
- Observation booth available to families
- CLC's inclusive model allows for children and families to experience the benefits of learning alongside a diverse peer group. This promotes self-control, empathy, and a growing understanding of different experiences and perspectives.
