

READING DETECTIVES

- For children who are struggling with learning to read, write and spell. Focus is on the **development of letter-to-sound awareness, phonics, and reading fluency**. This program includes games and activities for exploration and play with words. It uses multidisciplinary research-based lessons to address requisite skills for literacy.

WRITE ON!

- For students in 3rd-6th grade who struggle with writing. Focus is on a variety of writing genres including **story construction, expository (report) writing, emails, text messaging and blogs**. Projects will be developed for individual student needs.
