

Emergency Action Plan

For incidents involving hazardous materials, fires, explosions, or natural gas leaks, the following actions should be taken:

- 1) Life Safety First**
- 2) Evacuate Immediate Area**
- 3) Pull Fire Alarm**
- 4) Call 911 from a safe location**
- 5) Remain Available for Emergency Personnel**

Building occupants should familiarize themselves with the locations and proper operation of fire extinguishers, fire alarm pull-stations, emergency eyewashes and showers, MSDS, chemical inventories, first aid and spill equipment, and exits **before** an accident or incident occurs. To customize this plan for your area, please list the locations of the following:

Fire Extinguisher(s) In the hallway near the east entrance door of Rm G335

Fire Alarm Pull Station In the hallway near the east entrance door of Rm G335

Eyewash/Safety Shower On the sink in Rm G322 _____

First Aid Kit On the wall near the sink in Rm G335 _____

MSDS In the file-cabinet near the east entrance door of Rm G335 _____

Other Information _____

Post this plan near exit or phone.

Questions? Need more information? Contact EH&S @ 303-492-6025.

For Non-Emergency Fire and Natural Gas Questions call the CU Fire Marshall @ 303-492-4042.

Additional information is also available in the front section of the CU Directory.
